

START QUT Units

You will need to nominate a Semester 1 unit from the list below on your application form. You will be able to add a Semester 2 unit once you are enrolled at QUT.

If you are interested in undertaking a double degree upon completion of Year 12 you may like to select units from each of the study areas. Double degrees usually don't allow room for electives so by choosing subjects from both areas you are maximising your chances of receiving academic credit towards your degree.
