**COURSE EXPECTATIONS RELATED TO THE CLINICAL LEARNING  
ENVIRONMENT AND CLINICAL SUPPORT TEAM**

1. The applicant must have a minimum of four years full time equivalent clinical practice experience as a registered nurse in the nominated clinical field, which consists of a minimum of two years full time equivalent experience (within the last six years) at an **advanced practice** in the nominated specialty. In addition, the applicant must be **working at an advanced practice level** for the duration of the course.
2. The course comprises two semesters of integrated professional practice
  - Integrated Professional Practice 1 – 170 hours (a minimum of 130 hours)
  - Integrated Professional Practice 2 – 140 hoursApplicants are required to be supernumerary during the Integrated Professional Practice and to complete learning activities and assessment items in this course.
3. The applicant must have ready access to the nominated clinical support team (CST) during their supernumerary clinical learning days. The applicant's CST will provide support through supervision, monitoring and review of applicants extended practice to meet learning objectives.
4. Each applicant must have a CST consisting of two health practitioners. They must have relevant clinical and professional experience and currently practising in the applicant's nominated specialty field (for example, a medical practitioner or an authorised nurse practitioner, an advanced practice nurse, senior clinical nurse consultant or clinical nurse specialist). Other relevant health professionals can also form part of the CST (for example, senior dietician, pharmacist, psychologist).
5. The applicant is responsible for identifying and obtaining support from a suitable clinical learning environment and an appropriate CST. The composition of the CST will be determined and approved by the University prior to enrolment in your first unit of study.
6. The CST members will be re-confirmed prior to the start of each semester in which the integrated professional practice unit is undertaken. It is the applicant's responsibility to notify the Unit Coordinator of any changes to CST members or clinical learning environment as soon as practicable.
7. During the integrated professional practice unit, the applicant is expected to manage, under appropriate supervision, at least two complete episodes of care per week throughout the semester for typical patients/clients in the applicant's case load.
8. The CST will conduct clinical practice reviews on the applicant's management of these patients/clients. These reviews will be held weekly in the first half of the semester and at least fortnightly towards the end of the semester and will be the formal mechanism for teaching and learning. The practice reviews will draw upon documented care in the medical record, observation of practice and the applicant's case reporting and are a process for monitoring safety of practice. The reviews are an important teaching, learning and assessment strategy, but they also provide opportunities for the team to monitor the

quality of patient care.

9. The applicant is encouraged to develop a learning plan and discuss this plan and their learning goals with their CST early in the semester. In addition, they should make time throughout the semester to discuss their progress and make amendments to their plan, to ensure they meet the unit requirements before the end of the semester.
10. Specific details of assessment of clinical and academic performance during the integrated professional practice are outlined in the Unit Information and Student Support Handbook. It is the applicant's responsibility, in consultation with the clinical support team and the Unit Coordinator, to organise the processes for this assessment.
11. A member of the CST will be required to contribute to, and sign off, on assessment records for all two integrated professional practice units and to contribute to and sign off as a panel member/chair in a formal clinical viva.
