LEARNER'S GUIDE >

Real World Success

It's unique, and tailored to full-time working professionals.

"My focus had been on technical excellence in my chosen discipline, however that will only take you so far. I needed more of an edge to my capabilities, particularly in the leadership space to more fully round out my skill set."

Mark Gordon

Meg Purtell

Real World Success

Enhance your real-world experience and career potential with continuous learning.

"My study has been really helpful to come up with solutions to some of those problems that we're facing.... (to) find ways to adapt and really move forward.."

There's nothing basic about our Fundamentals.

Continuous learning has never been more accessible with **QUTeX Fundamentals** - self-paced online courses, comprised of 7-10 hours of foundational learning on a variety of topics.

From just \$132 (\$99 for QUT Alumni), you'll also benefit from access to online learning resources for up to 3 months post-completion.

Visit the QUTeX website to find the latest additions to the QUTeX Fundamentals range, or search 'Fundamentals' in the course catalogue.

Enterprise Leadership

Pathways to Graduate Certificate and MBA

QUT's Enterprise Leadership provides a **flexible pathway** for managers and aspiring senior leaders to develop the confidence, frameworks and capability to understand complex environments and lead successful business outcomes.

Enterprise Leadership encourages you, as a leader, to focus on organisational outcomes in addition to your own individual or team needs. It's a driver of cross functional and cross business unit collaboration and can drive more effective strategy and execution.

Visit the QUTeX website to explore module availability and discover how you can transform your development into a postgraduate qualification.

LEARN MORE >

8 core concepts to choose from

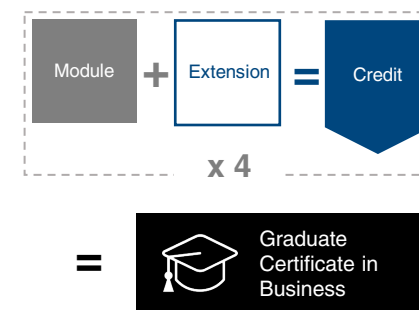

With a suite of flexible **Professional Development Modules** designed by leading experts across QUT, you'll benefit from the ability to pick and choose the right study areas for you.

Leading Self and Others		Actioning Strategic Innovation	
Communicating for Results		Leading for High Performance	
Leading Strategic Initiatives		Systems Thinking for Leaders	
Managing Stakeholder Relationships		Leader as Coach

Data Analytics and Machine Learning for Decision Making

Data analytics has become a go-to to turn data into useful information about customers, teams and business processes. Learn to use data to map trends, reveal patterns and integrate innovative solutions into your business.

Designed for business leaders, managers and IT professionals who want to understand the impact of data analytics on business.

Trainee Solicitors Program (TSP) and Supplementary Training

Set yourself up for success and excel in your admission to the Supreme Court of Queensland as a legal practitioner. Complete your 90 hours of approved training or fill gaps in your workplace training with supplementary training.

To be eligible for the Trainee Solicitors Program you must hold a Bachelor of Laws and a current traineeship with a registered law firm.

Cyber Security for Non-Cyber Professionals

This course will provide the knowledge and skills for non-cyber professionals to understand and manage for cyber risks and will provide practical measures to protect organisational assets.

Aimed at the 'non-cyber' professional who needs to develop a deep understanding of cyber security and to develop capabilities in the application of contemporary tools, techniques and approaches to cyber security.

Strategic IT-Enabled Innovation

A transformational program that provides the basis for participants to develop skills and knowledge to design, deliver and implement high-value strategic IT-enabled business innovations that has a customer-centric focus.

Specifically targeted to organisations wishing to develop advanced skills across the innovation value-chain.

Business Process Data Analytics

Elevate your business skillset to distil powerful, data-driven insights and improve business processes.

The course is especially relevant for executives involved in BPM and business professionals working with process analysis, improvement, and strategic development projects.

Business Process Modelling with BPMN and Improvement

Boost your knowledge of process modelling and improve business processes by mastering real-world techniques to identify, analyse, and improve processes.

Designed for executives working with process modelling, BPM, and strategic development or improvement projects as well as IT professionals involved in process automation initiatives.

Lean Six Sigma Green Belt

Bolster your decision making and streamline your business processes with the Lean Six Sigma DMAIC approach.

Designed to develop or strengthen professionals' Lean Six Sigma capabilities. Covering topics relevant to IT personnel and business and executive staff involved in process improvement and management, lean initiatives, and strategic development projects.

Modern Chinese Language Courses

A series of courses which have been specifically designed to provide the underpinning skills and knowledge that have been identified in the competency standards for electricity supply engineers.

These units are for people who want to fast-track, re-skill or up-skill their careers in electricity supply engineering.

Implementation Science – Theory and Application in Health

Gain an in-depth understanding of implementation and improvement science to inform the optimal update and adoption of health policies and evidence-based initiatives within healthcare.

Designed for health professionals, clinical leaders, managers, and practitioners from a wide range of fields.

NEW

Did you know, almost all of our courses can be **customised and contextualised for your organisation?**

QUTeX can work closely with you to develop a tailored learning solution to help build capability and achieve your specific business objectives.

ENQUIRE TODAY >

Learn from the best

Our pracademics are academically qualified with industry expertise, making them **experts in translating business theory into practical learning solutions.**

From transformation to wellness, from local to global, our world-class educators, coaches, industry experts and practitioners advance the public interest and generate solutions to the world's most urgent and challenging issues.

In the classroom (online or face-to-face) they lead a variety of stimulating, thought-provoking sessions.

Regardless of the course or its duration, each one achieves a level of academic excellence and rigor you would expect from one of Australia's leading universities.

[READ THEIR INSIGHTS >](#)

For Your Organisation

Tailored Executive Education

QUTeX can work closely with your organisation to develop customised learning solutions to help build the 'future fitness' of your team and meet your organisational goals.

Our rich engagement with industry and the public service, combined with QUT's broad areas of real-world expertise and experience, allows us to work with organisations to more effectively design and deliver skills and capabilities that are fit-for-purpose today and into the future.

We leverage and integrate intellectual capital from across the university to co-create high impact, custom education solutions with local, national and international corporate and government organisations, that are relevant, and encompass global trends and best practice.

As your partner, we offer you an innovative approach and methodologies to co-design, co-develop and co-deliver a program that leverages our expertise and experience in the development of capability.

[LEARN MORE >](#)

How it works

eXplore

Partnerships begin with getting to know each other. We start by exploring your organisation and defining your unique challenges and goals. We assist you to know what you don't know.

eXpand

Our expert facilitators and coaches co-deliver work-based blended learning experiences to change team and individual behaviours and make a difference in your organisation.

eXecute

Our facilitators and coaches work closely with subject-matter experts to co-deliver and execute an educational solution that guides your team through a work-based blended, learning experience.

eXamine

We debrief with you to evaluate your team's learning and how your business outcomes have been achieved.

Creating a Future Ready Workforce with the Australian Army

In 2020 QUTeX became the preferred provider of a professional military education product for the Australian Army.

The Ryan Review (2016) proposed a number of recommendations to ensure that the Army was future-ready. Recognising that size and technology would not be an advantage in future conflict, a strategy was formulated around increasing intellectual and decision-making ability leading to the development of a new professional development initiative, COVE+.

In April 2020 the Graduate School of Business/QUTeX was successful in winning the contract for the first year of development of COVE+.

COVE+ is a series of co-designed and customised learning solutions across 70 topics, to provide a library of self-paced online learning modules.

COVE+ is available at no cost to learners and is targeted at soldiers in the first 15 years of their Army service after which they typically attend military college for their specific military education. All serving Army personnel can choose units of general learning to benefit their professional career as well as their personal life. It is expected that participation in the program will enable participants to tackle a broader range of complex problems through improving critical thinking skills.

The goal is for Australia to be better prepared to outpace, out-manoeuvre, and out-think conventional and unconventional threats, and to create a truly future-ready workforce able to operate in an era of accelerated warfare.

Inspiring Leaders to be Visionaries for Western Downs Regional Council

In 2019, Western Downs Regional Council (WDRC) recognised they needed some help to tackle future-orientated problems. They were looking to upskill their staff in a rapid way, to think more innovatively, and to commence developing a coaching culture for leadership. More than that, they wanted to do something cutting edge and needed to ensure a quality educational experience, and so they chose to partner with QUTeX.

Professor of Practice, Dr Brett Heyward, engaged with WDRC Senior Executives in a number of strategic discussions to identify and explore core business challenges and opportunities, for example, organisational culture, business processes, and work environments.

These discussions informed the program co-design process.

Our QUTeX team then immersed themselves in the Western Downs environment to enable us to really understand the issues they were facing. The education response was then tailored to meet their needs, and delivered in their language.

The program provided the participants, and the organisation, the ability to see new opportunities that were open to them.

The program aimed to bring in an external agent to foster those ideas, the transition in idea generation confirmed our ability to stimulate new ways of working and thinking.

Western Downs now has a highly engaged workforce focused on the issues of tomorrow not just what is coming through the door today.

eXpand Your Potential

QUTeX offers a broad array of complementary services to enhance your Professional Development or Executive Education experience, including:

World-class Venue

QUT offers state of the art facilities at the Gardens Point campus in the heart of Brisbane, and the QUT Executive Education Centre in Deakin, Canberra.

Graduate Certificate in Business

Enterprise Leadership is a flexible, work-based, blended learning program that develops leadership skills and supports career development. There are 16 modules for you to choose from, allowing the program to be highly customised to suit your needs.

Pathways to Masters

Upon completion of the Graduate Certificate in Business (Enterprise Leadership), participants can apply to receive academic credit into the suite of **QUT MBA courses**.

Micro Learning Online Courses

QUTeX has a catalogue of 'asynchronous' courses, which means you can access them anytime, anywhere, at a pace that suits you. They range from 1 hour of learning to 40 hours of learning.

Leadership Profiling

All QUTeX faculty and facilitators are accredited in The Leadership Circle (TLC) 360 assessment instrument, which we believe to be the most robust, well-researched leadership development profile currently in the market.

Coaching

Through the **QUTeX Leadership Coaching Practice**, connect with our team of skilled coaches and alumni to tap into our expertise in embedding coaching approaches in leadership.

Interactive Presentations and Keynotes

Our experts in leadership, complexity, systems thinking, and evidence-based decision making will challenge you to think differently.

Q&A Leaders' Panel

The Q&A Leaders' Panel, hosted by a QUT facilitator, allows program participants to hear from and present questions to industry leaders and discipline experts from QUT.

Real World Futures

Technology is changing how we think, work and live. QUTeX Real World Futures event series keeps track of what this means.
