Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Physics
- · Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

Testing System)	English Language
Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Professional Recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or

medicalradiations@qut.edu.au

Domestic Course structure

CS40 Bachelor of Medical Imaging Science (3 Year program) has been replaced by a 4 year Bachelor of Medical Imaging (CS42) for domestic students commencing in 2014.

CS40 is therefore not available to domestic students from 2014. Commencing students should see CS42 for details.

International students commencing in 2014 will undertake this 3 year program (CS40).

Sample Structure

CS40 Bachelor of Medical Imaging Science (3 Year program) has been replaced by a 4 year Bachelor of Medical Imaging for domestic students commencing in 2014.

Domestic Entry requirements

Academic entry requirements Prerequisite

A completed recognised bachelor degree (or equivalent) in medical science or a health science field in the past ten years.

If you have completed your degree more than ten years ago you must provide evidence of graduate work experience and/or further studies since course completion with your QTAC application to receive further consideration.

Completed graduate diplomas, masters and/or doctorates are the accepted equivalents.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one year of advanced standing which will entitle you to complete the degree in two years (full time).

Minimum English requirements

Students must meet the English proficiency requirements.

Professional recognition

The course is accredited by the Council of Ambulance Authorities and graduates are eligible for membership of Paramedics Australasia.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Mandatory Pre-course Workshops

Graduate entry students are expected to attend pre-course workshops during Orientation Week. In 2015, Orientation Week begins on 1 February.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 4831 or email paramedic@gut.edu.au

Domestic Entry requirements Academic entry requirements

Prerequisite

A completed recognised bachelor degree completed within the last ten years in medical science or a health science related field such as human movement studies, nursing or biomedical science.

If you have completed your degree more than ten years ago you must provide evidence of graduate work experience and/or further studies since course completion with your QTAC application to receive further consideration.

Completed graduate diplomas, masters and/or doctorates are the accepted equivalents.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one and a half years of advanced standing which will entitle you to complete the degree in two and half years (full-time).

Hepatitis B vaccination and First Aid Certificate

Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements in the on campus clinics which commence in the first semester of the course. Please refer to course requirements for further information.

Application closing date 22 April, 2016

Applications / preferences received after this date will not be accepted.

International Entry requirements

A recognised Bachelor Degree completed within the last 10 years in medical science or a health science related field such as Human Movement Studies, Nursing or Biomedical Science, including the completion of specified health subjects.

Applicants with degrees or equivalent completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion.

Hepatitis B vaccination and First Aid Certificate

Hepatitis B vaccination and the attainment

of a current First Aid Certificate is required before beginning clinical placements in the on campus clinics which commence in the first semester of the course. Please refer to course requirements for further information.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)		
Speaking	6.5	
Writing	6.5	
Reading	6.5	
Listening	6.5	
Overall	7.0	

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Podiatry Board of Australia website

http://www.podiatryboard.gov.au/Registrat ion-Standards.aspx for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Graduate entry students are required to attend pre-course workshops during Orientation Week.

Bachelor of Podiatry - Graduate Entry

The required full Hepatitis B vaccination course and serology test can take from 6 - 9 months to complete and should be commenced as soon as you accept your course offer.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Biology

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Professional Recognition

This course is accredited by the Australian Pharmacy Council To meet registration requirements of the Pharmacy Board of Australia, graduates are required to perform approximately 12 months of preregistration training under the supervision of a registered pharmacist.

Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia, the Pharmacy Guild of Australia and the Society of Hospital Pharmacists of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7.5 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Student registration

QUT automatically registers students in this course with the Pharmacy Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or email pharmacy@qut.edu.au

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Also assumed knowledge: one of Chemistry, Physics, Biology Recommended study: Health Education or Physical Education We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Writing	6.0
Reading	6.0
Listening	6.0

Overall	6.5

Discontinuation of course

HM43 was recoded XN53 for commencing students from 2014. Continuing students will remain in HM43.

Professional recognition

Graduates are eleigible for membership of Exercise and Sports Science Australia (ESSA) as exercise scientists.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the Additional course requirements and costs website.

Pathways

Graduates of HM43 Bachelor of Exercise and Movement Science can apply for admission to the XN54 Bachelor of Clinical Exercise Physiology if they wish to achieve full Exercise Physiologist status.

Further information

Overall	6.5

Discontinuation of course

LS37 was discontinued and replaced by LS47 Bachelor of Medical Laboratory Science from 2012. Continuing students should remain in LS37. If you need enrolment advice, please consult the course coordinator.

Professional Recognition

As a graduate, you will be eligible for membership of the Australian Institute of Medical Scientists (AIMS) and will have completed the academic and work placement requirements for admission as a full member. Depending on your clinical discipline(s) of employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian and New Zealand Society of Blood Transfusion and Australian Society of Thrombosis and Haemostasis.

Other Course Requirements

Work Experience Program: This course includes a mandatory Summer Program between years two and three of the full-time course. During the Summer Program you will be required to undertake a minimum six-week work experience program in a practising pathology

laboratory. Proof of successful vaccination against Hepatitis B must be provided at the end of first semester of the second year of the course.

Blue Card

A current blue card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more information visit Blue Card and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Further Information

For more information about this course, please call the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

Domestic Course structure Your course

Year 1

The Bachelor of Applied Science (Medical Science) commences with a solid grounding in life sciences, mathematics, chemistry and physics. You will undertake further intensive study in human physiology, anatomy, cell and molecular biology. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in QUT's state-of-the-art laboratories.

Year 2

You will proceed to the topics of biochemistry, microbiology and pathology before sampling various specialisations like immunology, haematology and histopathology. During practical classes you will learn the latest techniques used in the pathology industry and improve your skills to professional standards. At the end of the year you will be ready to undertake a six-week placement in a pathology laboratory to further develop your skills under the guidance of professionals in the workplace.

Year 3

The final year builds on the key areas of biochemistry, microbiology, immunology, haematology, histopathology and introduces immunohaematology. You will develop your skills to an advanced level and further refine your laboratory techniques to ensure that, when you graduate, you will be ready to operate confidently in the workplace. You can take advantage of QUT's close links with the pathology industry to further enhance your employment prospects.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Other course requirements

There are requirements that you will need to meet as a student in this course. You

will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Further information

For further information, contact the School of Biomedical Science on 07 3138 1938 or email biomedical@qut.edu.au

International Course structure

Your Course

Year 1

You will undertake units covering chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in state-of-the-art laboratories. You will also gain an introduction to the essential communication skills required for a career in the health and medical professions.

Year 2

You will have the option of choosing a major and two minors from five key biomedical scientific disciplines to align with your own career goals: anatomical sciences, cell and molecular biology, human biochemistry, human physiology and infectious diseases. You will have the opportunity to complement your studies by choosing a university wide set from a discipline outside of biomedical science, such as behavioural science, public health, human rights, entrepreneurship, mathematical sciences, international business or study a language. A minor is also available in Clinical Physiology which includes a 400 hour Clinical Physiology internship in which you will be placed in a hospital with professional clinical physiologists who will provide training in physiological instrumentation and measurement, recording, interpretation and reporting of clinical data. You will also have opportunities to gain real world experience as part of your course in Work Integrated Learning placements in biomedical research institutes and laboratories in the science industry.

Year 3

In the real world, the design and completion of successful research and/or

business projects demand that individuals gather information, solve problems, work effectively as a part of a team and analyse and communicate results in a critical manner. Therefore each major in this course will culminate in a capstone unit which will require you to apply the knowledge and skills developed through your course. Capstone projects include human anatomical dissection, contemporary laboratory based research projects in biochemistry, physiology and cell and molecular biology, and diagnosis, characterisation and development of appropriate responses to an infectious disease outbreak scenario.

Course Design

The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

The Bachelor of Biomedical Science provides the necessary knowledge and skills to enter a career in biomedical research, with integration of research design and implementation, scientific writing and communication and practical laboratory skills embedded through each year of the course.

Furthermore students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Sample Structure

To fulfil the requirements of this course you must do the following:

- complete 8 Biomedical Science core units (Year 1)
- select and complete any 2 units from Biomedical Science List A core option units (Year 2)
- select a Study Area A and complete the 6 units comprising that Study Area (Years 2 & 3)
- select and complete 2 Study Area
 B to complement your Study Area
 A (Years 2 and 3). You may choose
 to do 2 Biomedical Science Study

Area B, or one Biomedical Science Study Area B and a University-wide Unit Set

Semesters

- NOTE:
- Year 1, Semester 1
- Year 1, Semester 2
- Year 2, Semester 1
- Year 2, Semester 2
- Year 3, Semester 1
- Year 3, Semester 2

ode	Title
IOTE:	

Please ensure that the Option units are from areas other than your selected Study Area A or B choices.

Students will undertake: 8 core units (96 credit points) in Year 1.

In Years 2 and 3, students will undertake:

24 credit points (2 units) of Option units72 credit points from a Study Area A

48 credit points from Study Area B

48 credit points from a second Study Area B or from other areas approved by the Course Coordinator.

The following university-wide units sets are pre-approved: Entrepreneurship; Integrated Marketing Communication; Studies in Behavioural Science; Interactive and Visual Design; Journalism; Professional Writing, Publishing and Editing; Studies in Nutrition and Physical Activity; Criminology and Policing.

If you wish to do a university-wide unit set that is not in this list, please contact the School of Biomedical Sciences on 3138 1938 or email biomedical@qut.edu.au.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International Testing System)	English Language
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional recognition

This course is accredited by the Australian Institute of Medical Scientists, and, as a graduate, you are eligible for graduate membership and will have completed the academic and work placement requirements for admission as a full member.

Depending on your employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian and New Zealand Society of Blood Transfusion, and Australian Society of Thrombosis and Haemostasis.

Other course requirements

There are requirements that you will need to meet as a student in this course. You

will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Pathways

As a graduate, you can pursue further studies leading to a career in medical research. Graduates are currently working as researchers in areas such as cancer diagnosis, malaria, virology, stem cells, infectious diseases, immunology, transfusion science, eye disease, reproductive medicine and molecular biology.

Further information

For more information about this course, contact the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

International Course structure

Your course

Year 1

The course commences by developing a sound knowledge and understanding of fundamental concepts that underpin medical laboratory science: cellular and molecular biosciences, anatomy, physiology mathematics, statistics, biophysics and chemistry. You will also be introduced to the local, national and global profession of medical laboratory science, and the Australian Healthcare System in the first of your professionally orientated units in the course.

Year 2

In your second year, you will explore more specialised concepts in pathology, biochemistry, microbiology, immunology, cytogenetic and molecular pathology, histopathological techniques, quantitative medical science, and quality assurance systems. In your practical classes, you will learn some of the latest techniques used in the clinical diagnostic pathology industry, giving you the opportunity to develop your skills to professional standards.

Year 3

The third year of the program allows you to further develop and refine your knowledge, understanding and practical skills to a more advanced level, and learn how they are applied in the clinical disciplines of molecular diagnostics,

Bachelor of Medical Laboratory Science

microbiology, chemical pathology, diagnostic endocrinology, histopathology, cytopathology, haematology and, transfusion and transplantation science.

Year 4

In your first semester, you will undertake a semester-long work integrated learning internship in a recognised laboratory. During that time you will also complete studies in health informatics and learn how this relates to day-to-day laboratory operations. In your final semester, you will complete an elective of your choice designed to complement your learning, e.g. pharmacology, marketing, management or research techniques. You will also prepare professional plans and identify graduate opportunities, as well as further your clinical discipline specific learning in the context of intercultural health and contemporary issues in medical science.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements Working with Children Check: blue card

You'll need to apply for a blue card because you'll be working with children or young people as part of this course. There's no cost if you apply through QUT.

You will be requested to submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

How to apply for a blue card

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International Testing System)	English Language
Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Professional Recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration.

For further information visit the <u>AHPRA</u> website

Please refer to the <u>Nursing and</u>
<u>Midwifery Board of Australia website</u>
for additional information on the Board's
Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency website

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

This course has a number of compulsory clinical practice units. One of these units will require students to undertake a 4 week clinical placement experience scheduled during the November – February summer break prior to the commencement of the final year of studies.

Caboolture campus

International student places are not currently offered at Caboolture campus.

Graduate entry currently is not offered at the Caboolture campus.

International students

Please refer to the <u>Nursing and</u> <u>Midwifery Board of Australia website</u> for information on the Board's English Language Skills Registration Standard.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Entry requirements

Academic entry requirement Prerequisite

A completed recognised bachelor degree (or equivalent) not in nursing completed within the past ten years.

If you have completed your degree more than ten years ago you must provide evidence with your QTAC application of further studies at Graduate Certificate level (equivalent, or higher undertaken in the last ten years).

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one year of advanced standing which will entitle you to complete the degree in two years (full-time).

International Entry requirements

Academic entry requirement Prerequisite

A completed recognised bachelor degree (or equivalent) not in nursing completed within the past ten years.

Applicants in possession of a bachelor degree awarded more than ten years ago will be eligible for entry if they have completed additional postgraduate studies at graduate certificate level (or higher) within ten years of the planned date of course commencement; or

Completed a recognised overseas nursing qualification at bachelor degree level that enables the applicant to work as a registered nurse in their home country. Applicants whose qualification/s were awarded more than ten years ago will need to provide evidence of recent work experience as a registered nurse, (that is, practice as a registered nurse no more than three years prior to the planned commencement date of the QUT Bachelor of Nursing).

Working with Children Check: blue card

You'll need to apply for a blue card because you'll be working with children or young people as part of this course. There's no cost if you apply through QUT.

Students wishing to accept their offer must submit their blue card application forms:

 no later than 24 December for Semester 1 (February entry) no later than 24 May for Semester 2 entry (July entry)

Please submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

How to apply for a blue card

Minimum English requirements

Students must meet the English proficiency requirements.

Discipline Coordinator	07 3138 4831 optometry@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Physics
- Maths B
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Note: Strict quota apply for entry to this course. Further information is available from QUT Admissions.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)		
Speaking	6.5	
Writing	6.5	
Reading	6.5	
Listening	6.5	
Overall	7.0	

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Optometry Board of

Australia website

http://www.optometryboard.gov.au/Registr ation-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Equipment

Students are required to purchase equipment.

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Suitable dress standards including a clinic shirt are required. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological

report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Discontinuation of the course

This course has been discontinued and was replaced by CS44 Bachelor of Podiatry from 2013. Continuing students remained in PU43.

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Podiatry Board of Australia website

http://www.podiatryboard.gov.au/Registrat ion-Standards.aspx for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Handbook

Year	2016
QUT code	PU43
CRICOS	022143C
Duration (full-time)	2.5 years
Rank	93
Campus	Kelvin Grove
Total credit points	240
Start months	July
Int. Start Months	July
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Enquiries to podiatry@qut.edu.au or 07 3138 3368
Discipline Coordinator	07 3138 3368 podiatry@qut.edu.au

Domestic Entry requirements Prerequisite

Completion of a degree in medical science or a health science-related field, such as Human Movement Studies, Nursing or Biomedical Science, in the past 10 years.

If you have completed your degree more than 10 years ago you must provide evidence of graduate work experience and/or further studies since course completion with your QTAC application to receive further consideration.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically received one and half years of advanced standing which will entitled you to complete the degree in two and half years (full-time).

Course requirements

The following items are applicable to students who successfully enrol in this course.

Additional course requirements

Students are required to attend a compulsory program of study as part of the requirements of the foundation unit PUB442 Podiatric Medicine and Clinical Practice in the week 16 – 20 July that will involve on-campus attendance for the full 5 days. This program will prepare students for the more advanced podiatry units in the third and fourth year of the course.

Blue card

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Additional costs

There are additional costs associated with this course including a practicum shirt and podiatry equipment (\$1000). Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements.

International Entry requirements

Applicants must have successfully completed a degree in medical science or a health science-related field, such as Human Movement Studies, Nursing or Biomedical Science, in the past 10 years.

Applicants with degrees or equivalent completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

Additional course requirements Students are required to attend a compulsory program of study as part of the requirements of the foundation unit PUB442 Podiatric Medicine and Clinical Practice in the week 16 – 20 July that will involve on-campus attendance for the full 5 days. This program will prepare students for the more advanced podiatry units in the third and fourth year of the course.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Bachelor of Health Science (Podiatry) - Graduate entry

Discontinuation of the course

This course has been discontinued and was replaced by CS44 Bachelor of Podiatry from 2013. Continuing students remained in PU43.

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Podiatry Board of Australia website

http://www.podiatryboard.gov.au/Registrat ion-Standards.aspx for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year

program.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or podiatry@qut.edu.au

Professional Recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC)

Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental)

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound

achievement (4, SA). Recommended Study: Biological Science.

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or

Bachelor of Pharmacy

in recognised post-secondary studies. Recommended Study: Biological Science.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	7.0
Writing	7.0
Reading	7.0
Listening	7.0
Overall	7.0

Professional Recognition

Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland.

Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia, the Pharmacy Guild and the Society of Hospital Pharmacists of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7.5 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Student registration

QUT automatically registers students in this course with the Pharmacy Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or pharmacy@qut.edu.au

Domestic Course structure Your Course

Year 1

You will undertake theoretical and practical studies covering chemistry, maths, anatomy and biology. You will begin practising your communication skills

in QUT's pharmacy counselling room, which operates like a real pharmacy counter. You will gain an understanding of the operations of a community pharmacy, including prescription processing, product labelling, and the therapeutic use of overthe-counter (OTC) medications. You will also gain an introduction to retailing skills.

Year 2

You will undertake your first clinical placement in a real community pharmacy environment. At QUT you will expand your counselling skills and increase your knowledge regarding a range of OTC and prescription medications used to treat cardiovascular and gastrointestinal tract disorders. You will learn how to perform pharmaceutical calculations, prepare basic pharmaceutical products and gain a deeper understanding of how drugs interact with the human body, producing their therapeutic and sometimes adverse effects.

Year 3

You will proceed to topics which provide vital information to health professionals regarding the optimal choice of drug therapy for individual patients. There is an emphasis on drugs used to treat central nervous system disorders, in addition to drugs prescribed for cancer and infectious diseases. You will learn how to prepare more complex product formulations and spend three hours per week in a community or hospital pharmacy followed by a one-week full-time clinical placement in each semester.

Year 4

You will study further specialised topics including pharmacotherapeutics, epidemiology and pharmacoeconomics. There is an emphasis on the integration and application of your studies into current pharmacy practice. A range of guest lecturers will also present material regarding social issues and current practices in women's and Indigenous health.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (Internationa Testing System)	l English Language
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional recognition

Graduates are eligible for membership of the Australian Association of Social Workers (AASW) as a Social Worker. Students seeking eligibility to apply for registration with the Psychology Board of Australia must also complete an approved additional year of study, either Bachelor of Behavioural Science (Honours Psychology), or a Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or psychology@qut.edu.au

OR the School of Public Health and Social Work on +61 7 3138 4697 or pharmacy@qut.edu.au

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first

clinical placement. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Discontinuation of course

This course has been discontinued. No new admissions have been accepted from 2013.

Professional recognition

Graduates are eligible for membership of the Dietitians Association of Australia (DAA), and may enrol in the Accredited Practising Dietitian (APD) program.

Pathways

Graduates can apply for admission to XN54 Bachelor of Clinical Exercise Physiology should they wish to achieve full Exercise Physiologist status.

Further information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au or nutrition@qut.edu.au

Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the **Australian Psychology Accreditation** Council (APAC). To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. For this degree this currently involves completing a fifth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental))

The Bachelor of Exercise and Movement Science is accredited by Exercise and Sports Science Australia (ESSA).

Graduates are eligible for membership of Exercise and Sports Science Australia

(ESSA) as exercise scientists.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Pathways

On completion of the course graduates may apply for admission to a further year of study in either the <u>Bachelor of Behavioural Science (Honours Psychology)</u> or <u>Graduate Diploma in Behavioural Science (Psychology)</u>

Professional recognition

The program meets the requirements for accreditation by the <u>Australian Nursing</u> and <u>Midwifery Council</u>. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Australian College of Nursing.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration.

For further information visit the **AHPRA** website

Please refer to the <u>Nursing and Midwifery Board of Australia</u> for additional information on the Board's Registration Standards.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements

and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

This course has a number of compulsory clinical practice units. One of these units will require students to undertake a 4 week clinical placement experience scheduled during the November – February summer break prior to the commencement of the final year of studies.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency

International students

Please refer to the <u>Nursing and</u>
<u>Midwifery Board of Australia website</u>
for information on the Board's English
Language Skills Registration Standard.

Further information

For information about this course, please contact the School of Nursing on +617 3138 3824 or nursing@qut.edu.au or the School of Public Health and Social Work on +61 7 3138 4831 or publichealth@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Australian College of Nursing.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/ Registration-Standards.aspx for additional information on the Board's Registration Standards.

The course is accredited by the Council of Ambulance Authorities and graduates are eligible for membership of Paramedics Australasia.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them

Some of these requirements have associated costs. Information is available from the **Additional course** requirements and costs website.

This course has a number of compulsory clinical practice units. Two of these units will require students to undertake a 4

week clinical placement experience scheduled during the November -February summer break prior to the commencement of the final year of studies.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009, Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Further information

For detailed information about this double degree, please call the School of Nursing +61 7 3138 3824 or email nursing@qut.edu.au or the School of Clinical Sciences on +61 7 3138 3368 or paramedic@gut.edu.au

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or

similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Uniform

A uniform is required for Paramedic placements. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be

exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Vaccination

The Queensland Ambulance Service strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella and Poliomyelitis.

Students will need to cover this cost.

Criminal History Check

You are required to provide evidence of a Criminal History Check (National/Federal) prior to participating in clinical placement. Failing to do so may result in you not being able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Criminal History Checks are obtained through your nearest police station, at your own cost.

Health related fitness assessment

A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a paramedic.

Students will need to cover the cost of the assessment.

Psychometric assessment

This is a prerequisite for <u>PUB670</u> - Internship (Paramedic Clinical Practice)

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Bachelor of Nursing/Bachelor of Health Science (Paramedic)

Domestic Entry requirements Course requirements

This is important information you should consider if you are interested in this course. These requirements may involve extra costs and in some cases need to be arranged as soon as you accept your offer.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake offcampus placements and will need to cover travel and accommodation costs.

Literacy standards

Students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet Course and QCT professional accreditation standards.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

and one of Chemistry, Physics or Biology (4, SA). We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Health Education or Physical Education

International Subject prerequisites

- Maths B
- English

Also one of Chemistry, Physics or Biology You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

IX18 Discontinuation

The IX18 Bachelor of Exercise and Movement Science/ Bachelor of Education (Secondary) course is in the process of being discontinued at QUT. The 2013 commencing cohort of students was the last intake for this double degree.

Professional recognition

The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Pathways

Graduates can apply for admission to the XN54 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Working With Children Check

As required by the Queensland Public Safety Business Agency, student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Agency.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Agency to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field Studies Units will be taken in Queensland schools and settings.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Further information

For information about this course, please

INSTRUCTIONS FOR MAJORS

Code

Title

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a major, following semester of offer and unit requisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Changes to Majors from 2012

Title

- * A number of second majors have been revised. Units completed that are no longer listed will still count toward completion of the second majors.
- * Please note: Some units have been recoded, renamed or discontinued. Refer to the Equivalence Table for further information.

Animation (KKBXMJR-ANIMATN)

Code Title

*Description: This major provides you with important skills in the skills, principles, concepts and history of animation. Beginning with drawing for animation and an exploration of the history of the animation industry and its practices, you will then apply this knowledge to current and emerging fields within the animation industry including motion graphics, 3D modelling and animation, real-time 3D and character animation. Through the creation of an interactive virtual environment you will be given the opportunity to refine your skills and expand your knowledge of the 3D animation industry.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major. 48cp from the Introductory Animation **Unit Options** KNB112 Drawing for Animation 1

KNB122 Drawing for Animation 2 **Animation and Motion** KNB123

Graphics

KNB124 3D Animation 1 Film, Screen and Animation

KPB109 Histories

KNB221 | Animation: CG Toolkit

KNB222 Virtual Environments Advanced Concepts in **KNB311**

Contemporary Issues in the KNB312

Computer Animation 1

Screen Industries

Art and Design History (KKBXMJR-ARTHIST)

Code Title

*Description: This major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this major will assist in preparing you for work as a professional in these disciplines.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major.

96cp from the Art and Design History **Unit Options**

DAB103 | Architectural Visualisation 1 Architecture, Culture and **DAB220**

Architecture in the 20th **DAB325** Century

Dance Studies (KKBXMJR-DANCEST)

Code Title

*Description: This major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

*Assumed Knowledge: Previously acquired knowledge or skill IS required for you to undertake this major. For health and safety reasons, admission to this major is dependent upon an appropriate level of physical fitness to

prevent injury, and having no preexisting injuries or structural/physical issues that would prevent your safe and full participation in all physical activities within its practical units. You may be required to confirm your fitness to attempt this major. If so, you must obtain a physiotherapists report and have it approved by the Dance Study Area Coordinator before you will be permitted to enrol in this major.

48cp from the Introductory Dance Unit Options

KTB211	Creative Industries Events and Festivals
KTB213	Directing Theatre
KTB302	Postdramatic Theatre
KTB305	The Entrepreneurial Artist

Entertainment Industries (KKBXMJR-ENTINDS)

Code Title

*Description: On completion of this major, you will be able to demonstrate the knowledge and skills required to pursue a career in the Entertainment Industry. These include an understanding of the characteristics of mainstream commercial culture that appeal to large audiences; an understanding both of business and creative processes; an ability to balance the two of these; and an awareness of historical and current Entertainment content and business.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major.

Either BSB126 or KPB116 from the 'Entertainment Industries Unit Options List'. BSB126 is mandatory unless you are already undertaking it as part of another study package.

BSB126 Marketing

KPB116 Introduction to Scriptwriting

Entertainment Industries Core Units:

AMB20 7	Entertainment Marketing
KXB101	Introduction to Entertainment
KXB102	Global Entertainment
KXB201	Entertainment Practice: Balancing Creativity and Business
KXB301	Entertainment Industries Map
LWS00 8	Entertainment Law

Either LWS009 or KXB202 from the 'Entertainment Industries Additional Unit Options List'. LWS009 is mandatory unless you meet the LWS008 prerequisite through another unit.

LWS00 9	Introduction to Law
KXB202	Project Management for Entertainment

*Note: AMB200 or KCB301 are permitted to count towards this major if completed in 2010 or earlier. KPB101 will be permitted to count towards this study package if completed in 2011 or earlier.

Fashion Communication (KKBXMJR-FASHION) (previously Fashion)

<u> </u>	
Code	Title
Couc	l i iuc

*Description: This major has been designed to offer a mix of theoretical and practical units to reflect the professional diversity of fashion careers, where communication is fundamental to the dissemination of fashion globally. The theory units will develop your knowledge and understanding of the history, industry and consumption of fashion and how fashion is communicated, marketed and distributed through industry channels for production, and through branding, trends, styling and graphic/technical requirements. The practical units provide you with a variety of options to develop fashion communication related skills focusing on fashion graphics, product development and fashion journalism.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major.

*From 2015, this major's title has changed from 'Fashion Major' to 'Fashion Communication Major'.

48cp from the Introductory Fashion Communication Unit Options

DFB102	Introduction to Fashion
DFB203	Sustainability: The Materiality of Fashion
DFB302	Fashion Visualisation
DFB303	Unspeakable Beauty: A History of Fashion
DFB406	Product Design and Development in the Fashion

48cp from the Advanced Fashion

Communication Unit Options	
DFB304	Fashion and Costume in Film
DFB402	Fashion Design: 1950 to Now
DFB404	Fashion and Style Journalism
DFB502	Ragtrade: The Business of Fashion

*Note: DFB406/KFB211 are permitted to count towards the Advanced Fashion Unit Options for students who commenced this major in 2014 or earlier

DFB602 Critical Fashion Studies

*Note: KFB108 is permitted to count towards the Introductory Fashion Unit Options if completed in 2014 or earlier.

*Note: KCB203, KFB106, KFB206, KFB208, KFB304 and KVB213 are permitted to count towards this major if completed in 2011 or earlier.

Film, Television and Screen (KKBXMJR-FLMTVSC)

Code Title *Description: The aim of this major is to provide students with a range of understandings in the theory and practice of film, television and screen. This study area aims to enhance creative, technical and organisational abilities as well as building story telling and communication skills.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major.

*Note: Students who have commenced this major in 2014 or earlier will complete the structure of 48cp of Introductory Units and 48cp of Advanced Units.

Introductory Units in 2015: KPB101, KPB105, KPB109, KPB110, KPB112, KPB113, KPB116.

Advanced Units in 2015: KNB312, KPB205, KPB206, KPB210.

96cp from the Film, Television and Screen Unit Options

KNB312	Contemporary Issues in the Screen Industries
KPB101	Introduction to Film, TV and New Media Production
KPB105	Narrative Production
KPB109	Film, Screen and Animation Histories
KPB110	The Movie, TV and New Media Business
KPB112	Film, Television and Screen Genres
KPB113	TV and Film Text Analysis
KPB116	Introduction to Scriptwriting
KPB205	Approaches to Contemporary Documentary
KPB206	Global Screen Industries

*Note: KPB202 and KPB203 are permitted to count towards this major.

Production Management for

Film, TV and New Media

*Note: KPB212, KPB303 and KPB313 are permitted to count towards this major if completed in 2014 or earlier.

Interactive and Visual Design (KKBXMJR-INVISDN)

Code Title

KPB210

*Description: This major will provide you with the design concepts and principles, practical skills and working methods needed by a contemporary designer of visual and interactive media. You will learn how to design effectively for print and electronic media. Web and mobile media and computer games and become equipped with a versatile set of design practices to support you to enter careers in marketing, web design,

electronic publishing, interaction design and the creative aspects of game design.

*Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this major.

It is recommended that you review the requisite requirements for units to ensure your unit selection enables you to successfully complete the requirements of this major. DXB102, DXB202 and DXB203 are highly recommended to be undertaken as first year units as they are requisites for many advanced units, but this is not compulsory.

48cp from the Introductory Interactive and Visual Design Unit Options

DXB102	Visual Communication
DXB201	Visual Interactions

DXB203 Introduction to Web Design

Programming for Visual DXB303 **Designers**

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)		
Speaking	6.0	
Writing	6.0	
Reading	6.0	
Listening	6.0	
Overall	6.5	

Professional Recognition

Completion of the Bachelor of Human Services entitles graduates to apply for membership of the Australian Community Workers Association.

Course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the **Additional course** requirements and costs website.

Further Information

For further information contact the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au; or the School of Justice 07 3138 2707 or lawandjustice@gut.edu.au

Domestic Course structure

This course is being replaced by the IX78 Bachelor of Human Services / Bachelor of Justice from 2016 on and some of the units have changed for the Justice component. Please refer to the Bachelor of Justice Community page or contact lawandjustice@gut.edu.au for further information.

Both areas will be studied in each

semester. In the justice component you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services you may choose a focus on disability, youth, or child and family services.

International Course structure

This course is being replaced by the IX77 Bachelor of Behavioural Science (Psychology) / Bachelor of Justice from 2016 on and some of the units have changed for the Justice component. Please refer to the Bachelor of Justice Community page or contact lawandjustice@qut.edu.au for further information

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

Accountancy, finance, economics and marketing majors: Maths A, B or C. We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192

credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APACaccredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APACaccredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point. Students choosing the Management or Marketing majors may undertake units at the Caboolture campus.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on <u>BS63</u> for more details

Important Information for Business Students

QUT Business School rules and procedures are outlined in the <u>Business Undergraduate Guidelines booklet</u>.
Other useful information can be found on the <u>Student Services</u> website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

Recommended study: Maths A, B or C. We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

• English

Recommended study: Maths A, B or C You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Discontinuation of the course

IX52 Bachelor of Behavioural Science (Psychology)/ Bachelor of Laws has been replaced by IX82 from 2015. Continuing students will remain in the IX52. There will be no new admissions to the course from 2015.

Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate

Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the Faculty of Law phone +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

No new admissions will be accepted into this course from 2015.

You will study a combination of psychology and law units in the first four years, with law units only in the final three semesters.

In your first year, you will be introduced to foundation psychology along with torts and legal foundations. In your second year, you will learn social and organisational psychology, research design and data analysis, contracts, criminal law, developmental psychology, counselling and criminal responsibility.

Your third year allows some flexibility, with your choice of a psychology unit. Other compulsory topics in year three are equity, property law and trusts.

In fourth year, you can pick three electives to study alongside physiological psychology, constitutional law, evidence, psychopathology and corporate law. Years five and six are law units only, but the course allows you to choose units that interest you. You will also study administrative law, civil procedure and learn about professional responsibility. See the Bachelor of Laws online course information for more details and elective options.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

International Subject prerequisites

- Maths B
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Nutrition Society, and associate membership of the Dietitians Association of Australia (DAA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the **Additional course** requirements and costs website.

Pathways to Further Study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have met entry requirements.

Further information

For further information, contact the Creative Industries Faculty ci@qut.edu.au or 07 3138 8114 or the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email nutrition@gut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Maths A, B or C

International Subject prerequisites

• English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Location

Psychology units are offered at Kelvin Grove campus and Justice units are offered at Gardens Point campus.

Course structure

In order to complete the Bachelor of Behavioural Science (Psychology) component, you must complete a total of 192 credit points consisting of: Psychology core units (12 units = 144 credit points)

Psychology elective units (4 units = 48 credit points)

In order to complete the Bachelor of Justice component, you must complete a total of 192 credit points from the following:

Justice core units (8 units = 96 credit points)

Study Area A (8 units = 96 credit points)

Students must complete a total of 384 credit points.

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the School of Justice on +61 7 3138 2707 or email lawandjustice@qut.edu.au

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

Domestic Course structure

This course is being replaced by the IX77 Bachelor of Behavioural Science (Psychology) / Bachelor of Justice from 2016 on and some of the units have changed for the Justice component. Please refer to the Bachelor of Justice Community page or contact lawandjustice@qut.edu.au for further information.

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology, policing, interpersonal processes and skills, justice and society, and research methods. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

By second year you will begin to pick study areas related to your justice major. You will expand your knowledge in social and organisational psychology, research analysis, social ethics, developmental psychology and counselling.

Third year allows you to tailor your degree to your interests. Of the eight units studied in third year, you can choose six of them from an extensive electives list. Choose from areas such as human sexuality, alcohol and drug studies, forensic psychology, psychology and gender, road safety, industrial and organisational psychology, health psychology and family therapy.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology, Indigenous justice, and statistical analysis. You choose three justice electives and one psychology elective to complete your studies.

Sample Structure

This course is being replaced by the IX77 Bachelor of Behavioural Science (Psychology) / Bachelor of Justice from 2016 on and some of the units have changed for the Justice component. Please refer to the Bachelor of Justice Community page or contact lawandjustice@qut.edu.au for further information.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)		
Speaking	6.0	
Writing	6.0	
Reading	6.0	
Listening	6.0	
Overall	6.5	

Location

Psychology units are offered at Kelvin Grove campus and Justice Units are offered at Gardens Point campus.

Course Structure

In order to complete the Bachelor of Behavioural Science (Psychology)/Bachelor of Justice (Study Area A) you must complete a total of 384 credit points made up of:

Bachelor of Behavioural Science (Psychology) 192 credit points Psychology core units (12 units = 144 credit points) Psychology elective units (4 units = 48 credit points)

Bachelor of Justice (Study Area A) 192 credit points

Justice core units (8 units = 96 credit points)

Justice Study Area A Units (8 units = 96 credit points)

Professional Recognition

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this

double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the School of Justice on +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology and policing, interpersonal processes and skills, justice and society, and professional academic skills.

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

In second year you will expand your knowledge in social and organisational psychology, research analysis, social ethics, developmental psychology and counselling. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

During the third year you will complete compulsory and elective psychology units, select your chosen justice major and complete the relevant justice major core units.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology and Advanced Statistical Analysis . You will complete two core units from your Justice majors and select two major elective units.

International Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology and policing, interpersonal processes and skills, justice and society, and professional academic skills.

In second year you will expand your knowledge in social and organisational psychology, research analysis, social ethics, developmental psychology and counselling. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

During the third year you will complete compulsory and elective psychology units, select your chosen justice major and complete the relevant justice major core units.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology and Advanced Statistical Analysis . You will complete two core units from your Justice majors and select two major elective units.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional Recognition

Completion of the Bachelor of Human Services entitles graduates to apply for membership of the Australian Community Workers Association.

Course Requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Further Information

For further information contact the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au; or the School of Justice 07 3138 2707 or lawandjustice@gut.edu.au

Domestic Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

International Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APACaccredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful

completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed
below will be used to determine the
Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24
cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at deferment

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry
- Biology

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- Chemistry
- Biology

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

Testing System)		
Speaking	6.0	
Writing	6.0	
Reading	6.0	
Listening	6.0	
Overall	6.5	

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on

professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Important information for business students

QUT Business School rules and procedures are outlined in the <u>Business Undergraduate Guidelines booklet</u>.
Other useful information can be found on the <u>Student Services</u> website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the QUT Business School bus@qut.edu.au or 07 3138 2050.

Minimum English requirements

Students must meet the English proficiency requirements.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Professional recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the

AHPRA website

Please refer to the <u>Podiatry Board of</u> <u>Australia website</u> for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Sample Structure

There is no direct entry into CS46
Bachelor of Podiatry (Honours). Students complete Year 1 and Year 2 of CS44
Bachelor of Podiatry and apply for entry into CS46. The first offers will be made in 2015 for entry into Honours in 2016.

Pathways to further study

An honours qualification enhances your professional employability in your chosen discipline, and opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy, Doctor or Health Science and Master of Applied Science (Research) courses.

Professional recognition

Relevant scientific professional bodies include Australasian Graduates may seek membership of various organisations as follows:

Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, and Australian Society for Microbiology. Eligibility for membership is based on the combination of units undertaken in the Honours degree and the Bachelor course that underpins it.

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

The core of the honours program is a 48 credit point project that will provide students with the opportunity to learn about research by completing a project with an experienced researcher who acts as both supervisor and mentor. Students will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. See our current student topics.

Key areas of research strength include:

- cancer
- chronic disease, supportive and palliative care
- environmental health
- exercise, nutrition and metabolism
- health services
- infectious diseases
- injury prevention
- mental health and wellbeing
- · social determinants of health
- vision improvement
- wound and tissue restoration.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APACaccredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful

completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed
below will be used to determine the
Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24
cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at deferment

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program; e.g.Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with APAC-accredited bachelor studies from an institution other than QUT must provide evidence of their eligibility to undertake an honours program at their home institution

Applicants with overseas qualifications must provide certification from the Australian Psychological Society stating their degree is equivalent to APAC-approved, three-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirements

- A grade of at least 4.0 (on QUT's 7point scale) for each of the APACaccredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and thirdyear psychology units listed below.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Additional information

As this course is competitive and applications are pooled the grade average(s) for entry may be higher than

the minimum standard given above.

Closing date

Applications close on 30 September.

International Entry requirements

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale); and the degree must be accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program; e.g.Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with APAC-accredited bachelor studies from an institution other than QUT must provide evidence of their eligibility to undertake an honours program at their home institution.

Applicants with overseas qualifications must provide certification from the Australian Psychological Society stating their degree is equivalent to APAC-approved, three-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry information

- A grade of at least 4.0 (on QUT's 7point scale) for each of the APACaccredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and thirdyear psychology units listed below.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
 PYB210 Research design and details.
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Bachelor of Behavioural Science (Honours Psychology)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional recognition

Successful completion of the Bachelor of Behavioral Science (Honours Psychology) meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website:

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for additional information on the Board's Registration Standards.

International Student Entry

International students may enrol only in full-time studies.

Please refer to the Psychology Board of Australia website

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The honours program comprises eight units and can be completed in full-time or part-time study mode.

Core units include PYB407 Research and Professional Development Seminar and PYB401 Advanced Research Methods plus electives from advanced cognitive, organisational, counselling, developmental, and social theory. These units have three contact hours per week.

This course also includes a research component which entails an individual thesis. PYB400 Thesis is undertaken in modules throughout the program. Initially students complete a research plan which sets out the project. This is followed by collection, analysis and writing-up of the data. Contact hours for the research component are as required by the supervisor.

Overall	7.0

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or email podiatry@qut.edu.au

Domestic Course structure

Offered on a part-time basis over two semesters, there will be on-campus intensive sessions for the discussion of key content, peer review and interaction, practical sessions, and assessment. These intensives will be supplemented by sophisticated online resources using case scenarios to simulate key dilemmas and challenges in clinical practice. A revision of the fundamental biomedical sciences related to pharmacology and pharmacotherapeutics is also incorporated at the start of the program.

The case studies and other learning activities highlight the National Prescribing Service competencies required to prescribe medicines and enable self-reflection and assessment of podiatric therapeutic practice skills for continuing quality improvement.

In the final semester, you will acquire the clinical decision-making practical skills required for prescribing scheduled medicines, through on-campus clinic sessions where you will: discuss medical and medication histories with experienced clinicians; participate in supervised external placements, online case simulations, workshops and assessment.

Throughout the course you will develop an understanding of the elements of safe

prescribing andthe core information sources and guidelines for this scope of practice, so that in your podiatric practice you will be able to remain abreast of developments in the field of medication and pharmacological issues.

Domestic Course structure

The Graduate Certificate in Chronic Health Conditions is offered with three study areas: nursing, allied health and public health and will appeal to health professionals working in a range of diverse settings.

All students will undertake the core unit Chronic Conditions Prevention and Management, providing the foundation for the course.

Students completing the nursing study area will focus their studies in advanced health assessment, and chronic care nursing and practice. Students undertaking the allied health or public health study areas will be able to select from a range of electives suited to their professional expertise, which may encompass studies in nutrition and dietetics, health promotion, promoting healthy ageing, epidemiology and research designs.

International Course structure

Domestic Entry requirements

Academic entry requirements

Registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

Study area requirements

In some study areas, applicants will need to comply with certain clinical requirements.

You will be asked to confirm that you have specific professional experience prior to enrolling in units that require workplace-based clinical practice. You will also need to maintain access to the relevant practice setting for the duration of the course. If you do not confirm your professional experience or maintain access to a relevant practice setting, you will not be able to complete the clinical assessment components required to complete units in the study area.

Please refer to study area information in the 'Units' tab for specific details.

Limited places

There are limited Commonwealth Supported places in this course. Places are likely to fill early so you are encouraged to apply for this course as soon as possible to secure a place.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5

FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area

This option has no additional professional experience requirements.

Cross-specialisation - Gastroenterology

The specialist gastroenterology units are currently only available to nurses currently working for Queensland Health.

Pathways to future study

The Graduate Certificate in Nursing fully articulates with the Master of Nursing.

International students

The Graduate Certificate in Nursing is offered part-time only in internal or external mode and is not available to international students.

Graduate Certificate in Nursing

Further information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice. The following study areas are offered:

- · acute care nursing
- · cancer nursing
- · emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing

Alternatively, students may undertake a cross-specialisation of studies.

Acute Care Nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by clients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5
 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation - General

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Graduate Certificate in Ocular Therapeutics

Handbook

Year	2016
QUT code	OP43
Duration (part-time domestic)	1 year
Campus	Kelvin Grove
Domestic fee (indicative)	2016: \$9,500 per Study Period (48 credit points)
Total credit points	48
Start months	July
Int. Start Months	July
Course Coordinator	Enquiries to optometry@qut.edu.au or 07 3138 4831
Discipline Coordinator	07 3138 4831 optometry@qut.edu.au

Domestic Entry requirements

Academic entry requirement

A completed recognised four year bachelor degree in optometry; or have equivalent standing and have current registration as an optometrist in Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

Applicants are encouraged to apply early as strict quotas apply.

International Entry requirements

Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

Applicants are encouraged to apply early as strict quotas apply.

International students on non-students visas will need to show evidence and hold a valid non-student visa with no study restrictions for the duration of the course.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0

Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Further Information

Graduate Diploma in Medical Ultrasound

Handbook

Year	2016
QUT code	CS60
Duration (part-time domestic)	2 years
Domestic fee (indicative)	2016: CSP \$2,250 per Study Period - Part-time (24 credit points)
Total credit points	96
Credit points part-time sem.	24
Dom. Start Months	February
Course Coordinator	Enquiries to medicalradiations@qut.ed u.au or 07 3138 1938
Discipline Coordinator	07 3138 1938 medicalradiations@qut.ed u.au

Domestic Entry requirements

Academic entry requirements

- A completed recognised bachelor degree (or equivalent) in medical radiation or a relevant allied health field (e.g. nursing, podiatry or physiotherapy); and
- At least one year of full time equivalent postgraduate experience in a clinical role dealing with patients; and
- Written proof of access to suitable clinical experience in medical ultrasound for the duration of the course.*

*Students will need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in medical ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

In order to provide evidence of prior clinical experience and access to clinical experience, applicants must provide a letter from their clinical supervisor stating the following:

- that the student is rostered to train or work in medical ultrasound for a minimum of three days per week and it is expected that this will continue for the duration of the course:
- the name and address of the practice where the applicant works; and
- the title and qualifications of the clinical supervisor (if a sonographer, the supervisor must also state their medical ultrasound qualification).

Limited places

There are limited Commonwealth Supported places in this course. Places are likely to fill early so you are encouraged to apply for this course as soon as possible to secure a place.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.5

Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Course Structure

The course takes four semesters of parttime study to complete. Lectures are conducted in an intensive one week block at the start of semesters 1, 2 and 3 in the standard part-time program. Students undertake clinical experience throughout each semester.

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR)

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The graduate diploma takes four semesters of part-time study to complete. All students are required to attend an intensive one-week block of classes at the beginning of the first three semesters. Students undertake clinical experience throughout the semester and need to maintain access to suitable clinical experience for the duration of the course.

Domestic Entry requirements

Academic entry requirement

A completed recognised bachelor degree (or equivalent) in a relevant science or allied health field (e.g. medical imaging science, biomedical science or nursing); and

A minimum of three months full-time equivalent prior supervised, postgraduate hands-on clinical experience in cardiac ultrasound; and written proof of access to suitable clinical experience*.

*Applicants will need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in cardiac ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

In order to provide evidence of prior clinical experience and access to clinical experience, applicants must provide a letter from their clinical supervisor stating the following:

- · that the applicant has a minimum of three months full-time equivalent supervised, postgraduate hands-on clinical experience in cardiac ultrasound (at least 450 hours) at the time of application;
- that the student is rostered to train or work in cardiac ultrasound for a minimum of three days per week and/or independently performing 15 studies per week;
- the name and address of the practice where the applicant works; and
- the title and qualifications of the clinical supervisor (if a sonographer, the supervisor must also state their cardiac ultrasound qualification)

Closing date

Applications for this course will close on 14 December, 2015 for the 2016 February intake.

Minimum English requirements

Students must meet the English proficiency requirements.

Professional Recognition

This course is accredited with the Australasian Sonographer **Accreditation Registry (ASAR)**

Further Information

For more information about this course, please contact the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@gut.edu.au

Domestic Course structure

The Graduate Diploma in Cardiac Ultrasound takes two years of part-time study to complete. All students are required to attend an intensive one-week block on campus at the beginning of each semester.

The structure of this course includes:

- formal classroom components and clinical skills development sessions conducted during the intensive oncampus blocks
- comprehensive online lectures and self-assessment tutorials.

Applicants will need to maintain access to suitable clinical experience for the duration of the course.

Other course requirements

The course is offered internally and externally and all the study material and lecture recordings are made available to both internal and external students. In some units on-campus workshops are held for both internal and external students. Attendance at these workshops is not compulsory, although it is encouraged. Students, particularly external students, will need a reliable internet connection and up-to-date hardware (including a multimedia headset with microphone) and up-to-date software. Some units include pod-casts and on-line discussion forums.

Course articulation

This course fully articulates into the Master of Health, Safety and Environment.

Professional recognition

This course is accredited with the Australian OHS Education Accreditation Roard

International student entry

International students may only enrol in full-time studies on-shore, but may enrol full-time or part-time off-shore.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@gut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, psycho-social stress, musculoskeletal injuries and the needs of special groups.

Graduate Diploma in Occupational Health and Safety

PUN001

 Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating, analysing, and evaluating workplace hazards.

International	Course
structure	

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

PUN301	Occupational Health and Safety Law and Policy	
PUN500	Occupational Health and Safety Management	
PUP415	Occupational Health	
Year 1, Semester 2		
HLN710	Epidemiology	
PUN016	Risk Assessment	
PUP116	Ergonomics	
PUP250	Toxicology and Occupational Hygiene	

Contemporary Risk

Management

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, psycho-social stress, musculoskeletal injuries and the needs of special groups.
- Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating, analysing, and evaluating workplace hazards.

Domestic Course structure

The Graduate Diploma in Psychology can be completed in full-time or part-time (may not be available by evening study) study mode.

The course covers theoretical and practical aspects of psychology. In addition to core units that introduce the scientific bases of psychology, you can choose to complete an elective from specialised units including:

organisational psychology

- · family therapy
- addictive behaviour
- health psychology
- · road safety.

If you wish to enter an accredited fourthyear program, you must complete Advanced Statistical Analysis as your elective.

Domestic Entry requirements

Academic entry requirement

A completed recognised recognised bachelor degree in psychology completed within the last ten years; *and*

The bachelor degree is accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program, for example, QUT's Bachelor of Behavioural Science (Honours Psychology) degree.

Applicants with APAC-accredited bachelor studies from an institution other than QUT must provide evidence of their eligibility to undertake an honours program at their home institution

Applicants with overseas qualifications must provide certification from the Australian Psychological Society stating their degree is equivalent to APAC-approved, three-year training in psychology. Please note APS advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirement

- A minimum grade point average (GPA) score of 4.0 (on QUT's 7point scale) for each of the APACaccredited second and third year psychology units listed below; and
- A minimum grade point average (GPA) score of 5.0 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Additional information

As this course is competitive and applications are pooled, the grade average(s) for entry may be higher than

the minimum standard given above.

Please note if you completed your psychology degree more than ten years ago you may not gain provisional registration as a psychologist with the Psychology Board of Australia.

Closing date

Applications close on 30 September of the previous year.

Professional recognition

Successful completion of the Graduate Diploma in Behavioural Science (Psychology) meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website:

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for additional information on the Board's Registration Standards.

International Student Entry

International students may enrol only in full-time studies.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

This course is being phased out. No new applicants will be admitted.

The course comprises eight units and can be completed in full-time or part-time study mode.

Core units include PYB407 Research and Professional Development Seminar and one advanced research methods unit in quantitative or qualitative research such as PYB401 Advanced Research Methods, plus electives from advanced cognitive, organisational, counselling, developmental, and social theory. These

units have three contact hours per week.

The course also includes a research component which entails a group thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Students complete an independent review of the literature and prepare an outline for a research proposal as the basis of a negotiated group project. For the project, students jointly collect and then independently analyse and write up the data. Contact hours for the research component are as required by the supervisor.

Discipline Coordinator	School of Public Health and Social Work 07 3138 5856 publichealth@qut.edu.au

Domestic Entry requirements

Applicants for the Master of Health Science must have:

 a three-year bachelor degree (or equivalent) in a relevant area (health, psychology, social work, human services, social or biological science).

It is preferred but not essential that applicants will have a minimum of one-year relevant full-time work experience on entry to this course. Applicants may be admitted on the basis of work experience, other qualifications or research activities at the discretion of the Executive Dean.

International Entry requirements

Applicants for the Master of Health Science must have:

 a three-year bachelor degree (or equivalent) in a relevant area (health, psychology, social work, human services, social or biological science).

Minimum English requirements

Students must meet the English proficiency requirements.

Discontinuation of course

This course has been discontinued. No new admissions will be accepted from 2015.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

This course has been discontinued. No new admissions will be accepted from First Semester 2015.

The Master of Health Science offers a flexible design that provides students with a large choice of elective units that deliver specialisation in a health science discipline, cross-specialisation or a broad understanding of health-related

disciplines.

The Master of Health Science consists of 12 units. Students must complete at least eight units from the Faculty of Health. The remaining four units can be completed from a wide range of university postgraduate units, subject to course coordinator approval.

Completion of four units from one study area entitles graduates to have their qualification awarded with their area of specialisation. Students can graduate with one specified major only.

Study areas

Study areas are offered in the following:

- Emergency and Disaster Management
- Environmental Health*
- Health Promotion
- Health Services Management
- Occupational Health and Safety*
- Risk Management
- a cross-specialisation (where no study area is taken but students study across a variety of fields).
- * Students wishing to complete a graduate diploma qualification in Environmental Health or Occupational Health and Safety should apply for entry into the Graduate Diploma in Environmental Health or Graduate Diploma in Occupational Health and Safety and not the Graduate Diploma in Health Science.

Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

Academic entry requirement

A recognised psychology honours or four year degree (or higher award) completed within the last 10 years with a minimum grade point average (GPA) of 5.0 (on QUT's 7 point scale) in the fourth year of study.

The degree must be accredited by the Australian Psychology Accreditation Council (APAC) as a 4 year training (or equivalent) program. For example, Bachelor of Behavioural Science (Honours Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the Australian Psychological Society (APS) stating their degree is equivalent to APAC-approved, 4 year training in psychology

Additional entry requirements

- Two completed <u>referee reports</u> (PDF file, 205 KB)
- Completed <u>questionnaire</u> (PDF file, 338 KB)
- Interview if shortlisted

Note

It is recommended that one report be from your fourth-year thesis supervisor.

Applicants are shortlisted in priority order on the basis of their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. Admission is based on GPA, interview, questionnaire, and referee reports.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

International Entry requirements

Academic entry requirement

A recognised psychology honours or four year degree (or higher award) completed within the last 10 years with a minimum grade point average (GPA) of 5.0 (on QUT's 7 point scale) in the fourth year of study.

The degree must be accredited by the Australian Psychology Accreditation Council (APAC) as a 4 year training (or equivalent) program.

Additional entry requirements

- Two completed <u>referee reports</u> (<u>PDF file</u>, <u>205 KB</u>)
- Completed <u>questionnaire</u> (<u>PDF file</u>, <u>338 KB</u>) (It is recommended that one report be from your fourth-year thesis supervisor)
- Successful Interview if shortlisted

Shortlisted applicants are required to attend an interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this is conducted via telephone. Admission is based on the candidate's GPA, interview and referee reports.

Blue Card is required at acceptance

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International Testing System)	English Language
Speaking	7.0
Writing	7.0
Reading	7.0
Listening	7.0
Overall	7.5

Registration Requirements

Undertaking the supervised psychological practice component of the course requires provisional registration as a probationary psychologist with the Psychology Board of Australia. The requirements of the Board (including English language requirements) are available at http://www.psychologyboard.gov.au/index .php

Professional Recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Educational and Developmental Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

Please refer to the Psychology Board of Australia website:

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for additional information on the Board's Registration

Master of Psychology (Educational and Developmental)

Standards.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the Faculty of Education on +617 3138 3947 or email educationenq@qut.edu.au

Domestic Course structure

This course is offered jointly by QUT's Faculties of Health and Education.

The coursework component provides training in assessment, diagnosis and intervention in the area of educational and developmental issues across the lifespan, with an emphasis on the school years. Students undertake two internships that are linked with a client base from the Catholic education system and from the Psychology and Counselling Clinic at QUT's Kelvin Grove campus. Following these internships, students undertake a further two external placements in other environments including schools, mental health and community settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Discontinuation of the course

No new admissions will be accepted into this course from Semester 1, 2015. Applicants commencing in July 2014 will not be eligible for any advanced standing and must complete the full course.

Further Information

For further information, contact the School of Biomedical Sciences on 07 3138 1938 or biomedical@qut.edu.au

Domestic Course structure

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Master of Biotechnology (Advanced) program completes the comprehensive

training of students and follows successful completion of core and optional units offered in the Graduate Certificate in Biotechnology, Graduate Diploma in Biotechnology and Master of Biotechnology programs. It encompasses general medical and/or plant biotechnology. In their final semester of the program, students may undertake a supervised research project either at QUT or external to QUT. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Students must discuss research project areas prior to enrolment in their final semester of study to organise a suitable project and a project supervisor(s). While there is a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they

Students who prefer not to undertake a research project in the final semester will undertake additional coursework units selected in consultation with the course coordinator.

International Course structure

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Master of Biotechnology (Advanced) program completes the comprehensive training of students and follows successful completion of core and optional units offered in the Graduate Certificate in Biotechnology, Graduate Diploma in Biotechnology and Master of Biotechnology programs. It encompasses general medical and/or plant biotechnology. In their final semester of the program, students may undertake a supervised research project either at QUT or external to QUT. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Students must discuss research project areas prior to enrolment in their final semester of study to organise a suitable project and a project supervisor(s). While there is a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire

Master of Biotechnology (Advanced)

Students who prefer not to undertake a research project in the final semester will undertake additional coursework units selected in consultation with the course coordinator.

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in nursing; *and*

Registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in nursing; or

A completed recognised associate degree in nursing and one year work experience as a registered nurse.

The Master of Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the Australian Health Practitioner Regulation Agency for further advice at http://www.ahpra.gov.au/

or consider QUT's NS40 Bachelor of Nursing program.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International Testing System)	al English Language
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Study Areas

Study areas are available in the following areas:

- Acute Care
- Cancer Nursing
- Emergency Nursing
- Intensive Care Nursing
- Paediatric, Child and Youth Health Nursing
- Cross-specialisation

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical,

rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area

This option has no additional professional experience requirements.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-

Master of Nursing

depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or a cross-specialisation of units. All students undertake research studies by choosing a project or thesis pathway. Additional electives are available to students undertaking the project pathway.

Study areas

The following study areas are offered to domestic students:

- · acute care nursing
- cancer nursing
- · chronic health conditions
- · emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing.

Alternatively, students may undertake a cross-specilisation of studies.

Acute care nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by clients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health conditions

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of

chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting; and
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5
 FTE in a level II (two) or III (three)
 intensive care unit, as defined by
 the College of Intensive Care
 Medicine of Australia and New
 Zealand (CICM), Minimum
 Standards for Intensive Care Units;
 or as accredited by the CICM for
 training in intensive care medicine;
 and
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation - general

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

International Course structure

Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provide opportunities for indepth study in selected areas of nursing practice.

Students in the Masters program may elect to undertake a specialist area in Chronic Health Conditions or select units from a number of elective options. The remaining studies will include the equivalent of four research-based units.

Duration (part-time domestic)	2 years
Campus	Kelvin Grove
Domestic fee (indicative)	2016: CSP \$3,500 per Study Period (48 credit points)
Dom. Start Months	February QUT's offer target for this course for Semester 1, 2016 has been reached and no further offers will be made. Interested applicants may submit an application for the Semester 1, 2017 admission period from August 2016.
Course Coordinator	Enquiries to nursing@qut.edu.au or 07 3138 3824
Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

Offer target reached for Semester 1, 2016

QUT's offer target for this course for Semester 1, 2016 has been reached and no further offers will be made. Interested applicants are encouraged to submit an application for the Semester 1, 2017 admission period from August 2016.

Academic entry requirements

A completed recognised bachelor degree in nursing; and

A graduate certificate in nursing (or equivalent) in the area of nominated specialty; and

Current registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

Additional entry requirements

- You must have a minimum of five years full-time equivalent recent clinical practice experience as a registered nurse including three years full-time equivalent experience in a specialty area and two years full-time equivalent experience at an advanced practice level in the nominated specialty area.
- You must also provide evidence of professional leadership activity, for example, a brief curriculum vitae, evidence of conference presentations, etc.
- You must be employed at least 0.6 full-time equivalent in an advanced practice nursing role.
- In addition to supporting evidence of meeting entry requirements, applicants will be required to provide supporting documentation from a minimum of two clinical support team members (one of which must be a nurse working in an advanced practice role) and their Executive Director of Nursing (or equivalent) that will confirm their support for the applicant to undertake the required studies. Applicants will, therefore, need to maintain their employment status for the duration of the course.
- Applicants must provide a fully completed <u>NS86 Master of Science</u> <u>Nurse Practitioner Additional Entry</u> <u>Requirements Pack</u> with their Postgraduate Admission Application Form (<u>PG-form</u>).

Limited places

There are limited Commonwealth Supported places in this course. Places

are likely to fill early so you are encouraged to apply for this course as soon as possible to secure a place.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Accreditation Council (ANMAC). Graduates will be eligible to apply for endorsement by the Nursing and Midwifery Board of Australia to practise as a nurse practitioner in Australia.

International Student Entry

The course is not available to international students.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

This course can be completed by internal or external mode, full time (one year) or part time.

Students will complete eight units of study consisting of six core units, and an internship over two units. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning.

Students will be required to attend an oncampus residential school each semester during the course relevant to their unit enrolment.

Domestic Entry requirements

Academic entry requirement Completion of QUT's <u>Bachelor of Vision</u> <u>Science</u>.

Limited places

QUT only offers a limited number of places in this course and these places are likely to fill early. Once filled QUT will not be making any further offers. You are therefore encouraged to apply as soon as possible after July.

International Entry requirements

Completion of QUT's Bachelor of Vision Science

Students who have not completed QUT's Bachelor of Vision Science

The Master of Optometry course provides the second component of the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree entry-level program which leads to registration as an optometrist for practice in the optometry profession in Australia. It is not designed to provide qualified optometrists with a masters level qualification.

If you already have an optometry qualification and are seeking to practice as an optometrist in Australia, you should contact the Optometry Council of Australia and New Zealand (www.ocanz.org) regarding the assessment process for overseas trained optometrists wishing to practice optometry in Australia. If you wish to obtain an Australian optometry qualification then you will need to apply for the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree award. Your previous overseas studies in optometry may be considered for advanced standing towards the five-year program.

Your application for OP45/OP85 should include:

- Details of your Optometry/Vision Science undergraduate degree including course overview and unit outlines.
- Details of any assessment regarding your qualifications you may have received from the Optometry Council of Australia and New Zealand

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Optometry Board of Australia website

http://www.optometryboard.gov.au/Registr ation-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the <u>Additional course</u> requirements and costs website.

Master of Optometry

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements

Academic entry requirements

Master of Health Management - 2 year program

A completed recognised bachelor degree (or higher) in any discipline.

Master of Health Management - 1.5 year program

A completed recognised bachelor degree (or higher) in health, business or law.

Please note you do not need to apply for the 1.5 year program as you will be automatically assessed for eligibility as part of QUT's application for admission process.

International Entry requirements

Academic entry requirements

Master of Health Management - 2 year program

A completed recognised bachelor degree (or higher) in any discipline.

Master of Health Management - 1.5 year program

Applicants who have a completed recognised bachelor degree in health, law or business will be eligible for 48 credit points of advanced standing reducing your course duration to three semesters full-time (1.5 years).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

Study areas

Specialised streams of study are offered in the areas of:

- Emergency and Disaster Management
- Quality and Patient Safety
- Risk Management *

There is also the option of not completing a study area and choosing units from more than one stream.

* Some units are available only in external mode

Course articulation

The Graduate Diploma in Health Management fully articulates into the Master of Health Management. Students may be able to exit early with a Graduate Diploma in Health Management or a Graduate Certificate in Health Science depending on their choice of units.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@gut.edu.au

Domestic Course structure

Students who have been awarded advanced standing and are undertaking the 1.5 year program have 2 options to complete the 144 credit points for the award of the degree:

- Option 1: 4 core units + 1 research methods unit + 1 List B elective + 4 major or cross specialisation units + project/internship; OR
- Option 2: 4 core units + 1 research methods unit + 3 List B electives + dissertation

Students undertaking the 2 year program have 2 options to complete the 192 credit points for the award of the degree:

- Option 1: 6 core units + 2 List A electives + 1 research methods unit + 1 List B elective + 4 major or cross specialisation units + project/internship; OR
- Option 2: 6 core units + 2 List A electives + 1 research methods unit + 3 List B electives + dissertation

If you select the project option, you may do a major or select 4 units from across the majors and electives.

If you choose the dissertation, you will not have room in your program to undertake a major. Instead, you will undertake an extra 3 electives. It is recommended that you undertake your dissertation over 2 semesters.

Study areas

Specialised streams of study are offered in the areas of:

- . Emergency and Disaster Management *
- . Epidemiology and Research Methods #
- . Health Promotion
- . Health Services Management
- . Health, Safety and Environment ^

There is also the option of not completing a major and choosing units from more than one stream.

The Public Health Nutrition Major is no longer available. Students completing this Major are advised to contact publichealth@qut.edu.au for course progression advice.

* The units in this study area are currently only offered in second semester # Some units in this study area are only available in internal mode ^ Formerly Occupational and Environmental Health Sciences ^^ Study Area under review

Course Articulation

The Graduate Diploma in Public Health fully articulates into the Master of Public Health.

Students admitted to the Master of Public Health may be eligible to exit early with a Graduate Diploma in Public Health or a Graduate Certificate in Health Science, depending on choice of units.

International Student Entry

International students may only enrol in full-time studies.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@gut.edu.au

Domestic Course structure

This structure is currently under review. From 2015 it is expected that students will undertake a mix of core units, specialist study area units and the equivalent of one semester (48 credit points) of research studies that will include a 24 credit point research project.

Students may elect to undertake a 48 credit point dissertation in place of the research project and two of the specialist study area units.

Study areas

Specialised study areas are available in the areas of:

- Emergency and Disaster Management
- Epidemiology and Research Methods*
- Health Promotion
- Health Services Management
- · Health, Safety and the Environment
- Public Health Nutrition^

There is also the option of not completing a major and choosing units from more than one study area.

- * Some units are available only in internal mode.
- ^ Subject to review.

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@gut.edu.au

Domestic Course structure

The Master of Public Health consists of 192 credit points. You must complete 96 credit points of core units (eight units); a 48 credit point major (four units) and up to 48 credit points of research studies.

You may choose to undertake a 48 credit point dissertation or a 24 credit point research project. If you undertake the 24 credit point research project, you will have 24 credit points of electives available.

Majors available are:

- · emergency and disaster management
- epidemiology and research methods
- · health promotion
- · health, safety and environment
- health services management.

Students are also able to complete a cross-specialisation and complete units from more than one major.

Sample Structure

Students complete 96 credit points of core units; 48 credit points of major units and up to 48 credit points of research studies.

You will need to choose your major when commencing this degree as course structure is related to your major.

Course Coordinator	Enquiries to psychology@qut.edu.au or 07 3138 4520
Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in health, education, or human resource management; *or*

A completed recognised bachelor honours, graduate certificate, graduate diploma or masters degree in any discipline area; *or*

A completed recognised bachelor degree in any discipline with a minimum three years full-time equivalent relevant experience.

Relevant work experience could include:

- The facilitation and management of ongoing helping relationships and that employs intentional use of therapeutic conversation and a therapeutic relationship;
- Volunteer or community work that is supervised/mentored within an ethical framework;
- Work that provides opportunities and support for professional development and reflective helping practice, including the provision of feedback and training.

Additional entry requirements

Applicants who satisfy the above criteria will be contacted by QUT to attend an interview to assess their suitability for counselling training. Admission is based on prior studies and interview.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.0
Writing	6.0
Reading	6.0
Listening	6.0
Overall	6.5

International Student Entry

This course is not available to international students.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The Master of Counselling is offered on a part-time, evening basis over three years.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. Student learning is supported by facilitated small group work which offers a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

International Course structure

The Master of Counselling is offered on a part-time, evening basis over three years.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. It provides a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

Graduates are able to apply their own interpersonal counselling 'tool kit' to support the wellbeing of clients in a number of contexts relevant to their profession.

Domestic Entry requirements

Academic entry requirement

A completed recognised recognised four year bachelor degree in psychology completed within the last ten years with a minimum grade point average (GPA) score of 5.5 (on QUT's 7 point scale); and

A minimum fourth year psychology units grade point average (GPA) of 5.5 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The bachelor degree is accredited by the Australian Psychology Accreditation Council (APAC) as a four year training (or equivalent). For example, QUT's Bachelor of Behavioural Science (Honours Psychology) degree.

Applicants with overseas qualifications must provide certification from the Australian Psychological Society (APS) stating their degree is equivalent to APAC-approved, four year training in psychology.

The Australian Psychological Society advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirement

- 2 completed clinical psychology <u>referee reports (PDF</u> file, 184 KB)
- Successful <u>questionnaire</u> (PDF file, 336 KB)
- · Successful interview

Additional information

Entry to this course is competitive. Applicants are shortlisted in priority order on the basis of their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. Admission is based on GPA, interview, questionnaire and referee reports.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year. Application closing date for February 2016 admission period is 30 September.

International Entry requirements

Academic entry requirement

A completed recognised recognised four year bachelor degree in psychology completed within the last ten years with a minimum grade point average (GPA) score of 5.5 (on QUT's 7 point scale); and

A minimum fourth year psychology units grade point average (GPA) of 5.5 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The bachelor degree is accredited by the Australian Psychology Accreditation Council (APAC) as a four year training (or equivalent). For example, QUT's Bachelor of Behavioural Science (Honours Psychology) degree.

Applicants with overseas qualifications must provide certification from the Australian Psychological Society (APS) stating their degree is equivalent to APAC-approved, four year training in psychology.

The Australian Psychological Society advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirement

- 2 completed clinical psychology referee reports (PDF file, 184 KB)
- Successful <u>questionnaire</u> (PDF file, 336 KB)
- Successful interview

Additional information

Entry to this course is competitive. Applicants are shortlisted in priority order on the basis of their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. Admission is based on GPA, interview, questionnaire and referee reports.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year. Application closing date for February 2016 admission period is 30 September.

Master of Clinical Psychology

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	7.0
Writing	7.0
Reading	7.0
Listening	7.0
Overall	7.0

Professional recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website:

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for additional information on the Board's Registration Standards.

Registration requirements

All students seeking registration with the Psychology Board of Australia as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Please refer to the Psychology Board of Australia website

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for information on the Board's Registration Standards.

Futher Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The coursework component of this program provides training on how to assess and diagnose clinical presentations. It provides unique training on how to conceptualise and treat a broad range of child and adult clinical presentations from relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

Clinical placements begin in the first semester with an internship spanning the first year. Students complete the internship under intense supervision at the specialised Psychology and Counselling Clinic at QUT's Kelvin Grove campus. During the internship, students gain experience in assessing and treating a range of clinical cases across the lifespan.

Once students are deemed competent through the internship, they continue their clinical training with external placements in hospitals, community agencies and a variety of child and adult mental health settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Discipline Coordinator	07 3138 4697 socialwork@qut.edu.au

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree which includes the equivalent of one year (8 units) of full-time studies in social sciences such as:

- Psychology
- Education
- Law
- Human Services

Note

This course is not designed for students who already have a bachelor degree in social work.

QUT recognises that not all overseas social work qualifications will meet the professional requirements to gain membership with the Australian Association of Social Workers (AASW) and we will consider applications from overseas qualified applicants for this course.

Applicants who are qualified Social Workers in their country of residence should also contact AASW (http://www.aasw.asn.au/) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

Limited places

Entry to this course is competitive due to limited Commonwealth Supported places. Applicants are shortlisted in priority order on the basis of Grade Point Average (GPA) achieved in their bachelor degree.

Closing date

Applications close on 30 September of the previous year.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree which includes the equivalent of at least one year of full-time studies in social sciences; for example, studies in society, human development or culture such as arts, commerce, education, health, law, media and communication, psychology, sociology, or urban and regional planning.

Note

This course is not designed for students who already have a bachelor degree in social work.

QUT recognises that not all overseas social work qualifications will meet the professional requirements to gain membership with the Australian Association of Social Workers (AASW) and we will consider applications from overseas qualified applicants for this course.

Applicants who are qualified Social Workers in their country of residence should also contact AASW (http://www.aasw.asn.au/) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	6.5
Writing	6.5
Reading	6.5
Listening	6.5
Overall	7.0

Professional recognition

Graduates will be eligible for membership with the Australian Association of Social Workers (AASW).

Attendance requirements

Students are required to attend compulsory on-campus sessions each semester. This includes a requirement to attend sessions during Orientation Week. All commencing students need to ensure they are available to attend each day from 9am to 5pm.

Other all-day workshops and classes may be held during semesters (including Saturdays) and information wiis available via the class timetable.

Master of Social Work

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the Additional course requirements and costs website.

Course articulation

Students admitted to the Master of Social Work may be eligible to exit early with a Graduate Diploma in Social Care (exit only course) or a Graduate Certificate in Social Care (exit only course), depending on choice of units.

Further information

For further information call the School of Public Health and Social Work +61 7 3138 4697 or email socialwork@gut.edu.au

Domestic Course structure

The Master of Social Work consists of 15 units and can be studied full-time (two years) or part-time (four years).

The course includes a minimum 1000 hours of field placements supervised by a professional social worker. These placements are undertaken over three practice units.

International Course structure

The Master of Social Work consists of 15 units and can be studied full-time (two years) or part-time (four years).

The course includes a minimum 1000 hours of field placements supervised by a professional social worker. These placements are undertaken over three practice units.

Domestic Entry requirements

A completed recognised bachelor honours degree including a major relevant to the intended area of study; *or*

A completed recognised bachelor degree (or equivalent) including a major relevant to the intended area of study with a minimum grade point average (GPA) score of 5.0 (on QUT's 7 point scale) and relevant professional and/ or research experience as determined by Faculty.

Research proposals must be submitted with your application. Proposed research projects are subject to supervisor availability and resources available within the faculty to support the proposed research topic.

Application Guide

Applicants are asked to nominate a supervisor and topic when submitting a formal application. An application is likely to be more successful where a supervisor and topic are well matched.

Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as described on the QUT Health Faculty website. Applicants are encouraged to contact the postgraduate research enquiries team for assistance at (health.research@qut.edu.au)

This contact should include a transcript of academic records, the topic area which you wish to study, the school in which you wish to undertake your research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask you for further information to assist with your enquiry. The information will be passed onto the nominated (or relevant) school or supervisor.

Faculty Research Contact Email: health.research@qut.edu.au

Telephone: +61 7 3138 8290

Level 6, O Block, B Wing, Room 670 Victoria Park Rd Kelvin Grove QLD 4059

Application Submission

You can submit an <u>online application</u> or hardcopy using the <u>PR Form</u>. Hardcopy applications can be emailed to the QUT HDR Admissions Office at (<u>research.enquiries@qut.edu.au</u>). Applications must include all supporting documentations including your detailed

research proposal.

Further Information

For more information about this course, please contact the Faculty on +617 3138 8290 or email

health.research@qut.edu.au

Domestic Course structure

A masters by research is an opportunity to conduct a significant piece of supervised research. Students complete relevant coursework, prepare a research hypothesis and methodology, and present the results of their research in a thesis. Masters students develop high level skills in critical evaluation and research methodology and acquire extensive knowledge in a specialist area. The course equips students for entry into the Doctor of Philosophy.

Students must complete IFN001 Advanced Information Research Skills and a time-based thesis.

Study can be undertaken in full-time or part-time mode with internal and external study options. The expected course duration is 1.5 years full-time or part-time equivalent. The maximum period of enrolment is two years full-time or part-time equivalent.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. See our current student topics.

Key areas of research strength include:

Injury prevention and trauma management

- · injury prevention
- orthopaedics, trauma and

- emergency
- tissue repair and regeneration

Health determinants and health systems

- behavioural neuroscience and mental health
- · child and adolescent health
- environmental health
- · health services
- healthy lifestyles

Chronic disease and ageing

- · cancer and molecular medicine
- · chronic conditions and management
- infectious diseases
- healthy ageing, dementia and palliative care
- · vision and eye.

Domestic Course structure

Students undertake 96 credit points of coursework units and a time based research component (minimum 2 years full time or equivalent).

The course of study may include the following coursework units:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from the major study area plus one approved elective unit, or complete five units from the major study area
- students are required to attend a compulsory one-day forum annually during their candidature.

A maximum of 72 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

Study areas

- Health Promotion
- · Health Services Management
- Nursing
- Occupational and Environmental Health Sciences
- Public Health.

International Course structure

Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students must:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from the major study area plus one approved elective unit, or complete five units

Doctor of Health Science

from the major study area • students are required to attend a compulsory residential program of three days annually during their candidature.

A maximum of 72 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

Domestic Entry requirements

Academic entry requirements

- A completed recognised relevant First Class or Second Class Division A Honours degree or equivalent; or
- A completed recognised masters degree or professional doctorate (by research or coursework)

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; and
- present evidence of research experience and potential for approval

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements Academic Entry Requirements

- Completed a recognised psychology honours degree (or higher) with first and upper second class honours; or
- Completed a recognised Postgraduate Diploma in Psychology (or equivalent) with a grade point average (GPA) of at least 5.5 (on a 7 point scale)
- The degree must be accredited by the <u>Australian Psychology</u> <u>Accreditation Council (APAC)</u> as a 4-year training (or equivalent) program; e.g. PY09 Bachelor of Behavioural Science (Honours Psychology) at QUT
- Applicants with overseas qualifications must provide certification from the <u>Australian</u> <u>Psychological Society (APS)</u> stating their degree is equivalent to APACapproved, 4-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional Entry Requirements

- 2 completed <u>referee reports (PDF file, 357 KB)</u>
- Completed <u>questionnaire</u> (PDF file, 338 KB)
- Interview if shortlisted

Early Closing Date

Applications close on 1 October. Applications, referee reports and/or questionnaires received after this date will not be accepted.

Additional Information

Applicants are shortlisted in priority order on the basis of their grade point average (GPA), referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal and research skills in a clinical context. Admission is based on grade point average (GPA), interview, questionnaire, and referee reports.

Note

There will be no further intakes into this program after 2014.

Limited Places:

QUT only offers a limited number of places in this course and these places are

likely to fill early. Once filled QUT will not be making any further offers. You are therefore encouraged to apply as soon as possible after July.

International Entry requirements

Entry to this course is competitive. Applications close on 1 October. To be considered for admission you must have:

- Australian Psychology Accreditation Council (APAC) - approved fouryear training (or equivalent) with first-class honours or second-class honours Division A from a recognised institution, or
- minimum grade point average (GPA) of 5.5 (on a 7-point scale) in the Postgraduate Diploma in Psychology (or equivalent).

All applicants must also:

- provide two referee reports
- attend an interview to assess interpersonal and research skills in a clinical context

How to apply

You must submit the following by 1 October:

- Completed F Form
- Attached all relevant documents as requested in the F Form (eg academic transcript and award certificates)
- Attach your Australian Psychological Society (APS) letter showing the assessment outcome of your Psychological Qualifications. The Australian Psychological Society (APS) assesses the level at which an applicant's overseas qualifications are comparable to an Australian Psychology Accreditation Council (APAC) - accredited sequence of study in psychology. To have your qualification assessed please contact APS. More information is available on the Australian Psychological Society (APS) website.
- Attach your completed <u>PG</u>
 <u>Psychology Questionnaire 2014</u>
 (PDF file, 338.17 KB)
- Attach two <u>Master of Psychology</u> and <u>Doctor of Psychology referee</u> report 2014 (PDF file, 356.69 KB)

If you are shortlisted you will be contacted for a telephone interview.

You will be notified of the outcome late December or early January.

Note

There will be no further intakes into this program after 2014.

Doctor of Psychology (Clinical)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Speaking	7.0
Writing	7.0
Reading	7.0
Listening	7.0
Overall	7.0

Discontinuation of the course

This course has been discontinued and no new admissions will be accepted from first semester 2015.

Professional Recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

http://www.ahpra.gov.au/Registration/Reg istration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website:

http://www.psychologyboard.gov.au/Regis tration-Standards.aspx for additional information on the Board's Registration Standards.

Course Articulation

The option to exit early with a Master of Clinical Psychology is available, subject to successful completion of the required units.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The doctorate comprises 24 units made up of 10 professional coursework units, eight research units and six practicum units.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).
