

Developing Emotional Intelligence

Evolve your emotional intelligence to foster successful workplace relationship, increase productivity and kick personal and organisational goals.

Possessing strong emotional awareness and a clear understanding of inter-personal and inter-group dynamics dramatically increases the likelihood of personal and organisational success. Leaders who successfully foster positive personal and professional relationships are self-aware, have a suite of communication techniques and build a culture of trust and cooperation.

Evolve with QUTeX

Use emotional intelligence to increase productivity and position yourself and your organisation to succeed in today's rapidly evolving world. Learn strategies to improve emotional intelligence in the workplace and develop a plan to continue this development with QUTeX's expert facilitator. With Developing Emotional Intelligence, you will discover how to build positive working relationships for yourself and your organisation.

Core concepts

Develop your emotional intelligence further by expanding your knowledge of:

- Inter-personal and inter-group dynamics;
- EI practices and behaviours and recognising which characterise your current relational leadership style;
- Essential, contemporary EI practices for collaborative and productive working relationships;
- Positive responses to differing dynamics in high-pressure situations; and
- Strategies for continuous relational skills development, both personal and company-wide.

Who should participate?

This workshop is for business leaders, managers, relationship managers, talent management and leadership development professionals looking for strategies to raise productivity, boost team morale and foster positive working relationships.

Your expert facilitator Dr Shari Read

Shari is an award-winning educator with a focus on teaching skills for the 'Information Age.' As a clinically trained psychologist, Shari emphasizes human-centred approaches to leadership and management. Her research and teaching in the area of transformation and change management emphasizes the capabilities required to lead effectively through uncertainty and complexity.
