DISABILITY INCLUSION
ACTION PLAN
2022–2025 | Reviewed September 2023
QUT acknowledges the Turrbal and Yugara, as the First Nations owners of the lands where QUT now stands. We pay respect to their Elders, lores, customs and creation spirits. We recognise that these lands have always been places of teaching, research and learning. QUT acknowledges the important role Aboriginal and Torres Strait Islander people play within the QUT community.

Disability Inclusion Action Plan 2022–2025
Foreword from the Vice-Chancellor

Queensland University of Technology (QUT) is committed to accessibility, diversity and inclusion. We strive to ensure that our university is a welcoming, inclusive and enabling place to study and work for all students and staff.

The Disability Inclusion Action Plan 2022–2025 renews our commitment to diversity and inclusion, and challenges us to continually improve our university’s services, processes and facilities, ensuring that QUT enables all students and staff with a disability to reach their full potential.

The Disability Inclusion Action Plan 2022–2025 aligns with our commitment to upholding the Disability Standards for Education 2005 (DSE) along with the priorities within Connections – the QUT Strategy 2023–2027 that builds on our long history as a university of access to increase pathways to success in higher education by strengthening the university experience for all students.

QUT has a wealth of resources and expertise to drive forward with an action plan that encompasses a wide range of areas and disciplines, ensuring that greater inclusion is embedded across the entire university.

I am pleased to endorse the Disability Inclusion Action Plan 2022–2025 and encourage the whole university community to work together to ensure that QUT is leading the way in accessibility and inclusion for all.

Professor Margaret Sheil AO
Vice-Chancellor and President, QUT
Executive Sponsor Message

As a key ambassador for the Disability Inclusion Action Plan 2022–2025, I am committed to overseeing disability and accessibility within QUT to ensure greater inclusion for all staff and students.

Key priority areas within the Disability Inclusion Action Plan 2022–2025 include physical infrastructure, digital accessibility, learning and teaching, training, and resources, to ensure our students and staff are enabled and supported to study and work successfully.

Professor Troy Farrell,
Executive Dean, Faculty of Science
1. Strategic context

The DIAP is underpinned by:

• Connections – QUT Strategy 2023–2027
• The QUT Manual of Policies and Procedures (MOPP)
• federal and state legislation including Disability Discrimination Act 1992 (Cth)(DDA), the Anti-Discrimination Act 1991 (Qld) and the Disability Standards for Education 2005
• international conventions, legislation and internal and external guidelines as outlined in References (refer to page 12)
• universal design in learning and built environment
• associated diversity and inclusion action plans.

The QUT strategy involves:

• connecting aspiration to opportunity
• connecting knowledge and discovery
• connecting with the real world
• connecting people and purpose
• connecting through technology.

Built around the university’s core values of ambition, curiosity, integrity, inclusiveness, innovation and academic freedom, Connections will support students and help them realise their full potential through providing flexible learning environments, oriented education, access to employers and lifelong learning opportunities.

The commitments outlined in this action plan align with the following QUT policies and procedures:

• A/8.4 – Equal Opportunity and Diversity
• A/8.6 – Disability
• C/4.4 – Work Integrated Learning
• C/6.4 – Use of QUT Digital Media for Learning and Teaching
• E/3.2 – Suitability to Study
• E/3.3 – Suitability for Professional Experience.

This DIAP updates the QUT Disability Action Plan 2011–2013, to ensure that it meets contemporary needs and standards.

Under the DDA, and for the purposes of the action plan, ‘disability’ includes temporary and permanent disabilities, physical, intellectual, sensory, neurological, learning and psychosocial disabilities, diseases or illnesses, physical disfigurement, medical conditions and work-related injuries. It is important to acknowledge that not all disabilities are visible to others.

The principles of inclusive education and universal design underpin many key actions. This is particularly notable in relation to accessible digital and physical infrastructure, curriculum design and delivery, and improved mobility around our campuses.

The DIAP will be implemented alongside the QUT LGBTIQA+ Action Plan, the Student Sexual Assault and Sexual Harassment Action Plan, Campus to Country: Positioning Strategy and the QUT Health and Wellbeing Strategy as part of an integrated university-wide commitment to diversity and inclusion for all students and staff.
2. Consultation

The DIAP was developed through extensive consultation with QUT stakeholders including students and staff with lived experience of disability. This action plan has been built upon the work of the original working party and its academic leads who developed an initial questionnaire which received 191 responses from staff and students with lived experience of disability. This offered insights into what they would like included in the action plan and ways in which QUT could become a more inclusive and accessible university.

These insights formed the basis of many priorities and actions developed throughout the consultation process.

The next stage of consultation included the formation of a reference group of stakeholders across QUT who identified and agreed upon the priority areas arising from the initial consultation. Consultation was ongoing throughout the development of the action plan which allowed continual input from many university stakeholders and from staff and students with lived experience of disability.

A consultation draft was considered and endorsed with further recommendations by the University Equity Committee at its October 2021 and April 2022 meetings. On 5 May 2022, the National Tertiary Education Union (NTEU), through the Joint Consultative Committee process, received a briefing on the development of the DIAP and requested feedback.

Oversight of the DIAP’s implementation rests within the Student Services and Wellbeing portfolio through a collaboration of Equity (which leads strategy, policy, reporting and governance) and service delivery areas. A DIAP Reference Group provides additional guidance and expertise, and progress on implementation is reported through the University Equity Committee. The DIAP Reference Group membership includes expertise from all responsible areas, as well as student and staff representatives with relevant lived experience. Responsible areas will report annually on their progress towards actions.

Responsible areas include:

### 3. Actions

**PRIORITY AREA 1: PHYSICAL INFRASTRUCTURE**

<table>
<thead>
<tr>
<th>Item</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1</td>
<td>Ongoing consultation between Campus Services, Facilities Management and Disability and Accessibility Services and other relevant stakeholders for existing and future works through the ‘equity of access’ program. Examples include a range of desk/table heights and seating types when refurbishing reception waiting rooms, classrooms, break-out rooms, tea rooms, installing accessible toilets, automatic doors or access for key hubs, etc with an annual review.</td>
</tr>
<tr>
<td>1.2</td>
<td>For new buildings and major refurbishments, QUT adopts approaches which, where practical, exceed standard compliance requirements and incorporate best practice. Examples of this may include scoping accessible bathrooms with automatic doors where possible, appropriate signage, installing lift cars with dimensions exceeding code, and providing a range of desk/table heights and seating types when outfitting reception waiting rooms, classrooms, break-out rooms, tea rooms, etc.</td>
</tr>
<tr>
<td>1.3</td>
<td>Kelvin Grove campus accessibility can be improved through planning and delivering projects via its major and minor works programs. Priority initiatives include ensuring the ‘campus heart’ includes accessibility features such as all-weather, central, visible facilities as appropriate in master plans.</td>
</tr>
<tr>
<td>1.4</td>
<td>Physical infrastructure strategies and guidelines to be updated to include provisions for disability inclusion. This includes embedding elements as appropriate into existing audit and review activities. The physical infrastructure strategies to be developed by Estate Planning and Campus Services throughout 2023 include workspace policy (physical space), ground plane activation and retail strategies, car parking strategy and wayfinding strategy.</td>
</tr>

</table>
| 1.5  | Explore and scope an audit on key accessibility facilities to inform a strategy and ongoing program of work for improvements to accessibility. This includes key areas such as access to parking, access to the ‘campus heart’, and mobility around critical pathways and hubs (e.g. access to libraries, teaching spaces, eateries and key facilities). | Improved planning for accessibility. | • Capital Works  
• Estate Planning  
• Integrated Transport Services | Ongoing | AS Disability code 1428.1 |
| 1.6  | Improved access to key campus services (e.g. transport, security, retail) provided to staff and students including the following priorities:  
• implementing night shuttle bus routes which are weatherproofed, wheelchair accessible and have lowered steps and/or ramp access for ambulant passengers with a disability  
• improving access to shuttle bus through consultation with the Brisbane City Council around shuttle bus routes which allow for better access between main Kelvin Grove campus and Creative Industries precincts, and options to provide increased mobility around campus (small people movers, making sure there are adequate parking spaces)  
• exploring security options in undercover parking facilities such as phone intercoms and emergency call points (where mobile phone coverage is problematic)  
• promotion of SafeZone app for staff and students  
• introducing sensory-friendly spaces in the libraries at Kelvin Grove and Gardens Point. | Improved access to key campus services. | • Integrated Transport Services  
• Disability and Accessibility Services  
• Health, Safety and Environment  
• Library | 2023 |
# PRIORITY AREA 2: DIGITAL ACCESSIBILITY

</table>
| 2.1  | Introduction of new learning management system (LMS) – Canvas. Canvas to improve accessibility and consistency of learning content. Support academic use of new LMS accessibility checker. | Consistency in accessibility across learning resources. | • Learning and Teaching Unit  
• Administrative Division | 2023–2024 | MOPP – C/6.4 Use of Digital Media for Learning and Teaching |
| 2.2  | Review Digital Learning Framework to increase focus on Universal Design for Learning (UDL) incorporating guidelines and support for developing accessible resources and undertaking user testing as appropriate. | Design guidelines up to date and accessible. | • Learning and Teaching Unit | 2023 ongoing | ADCET – Universal Design |
| 2.3  | Provide guidance for teaching staff around accessible learning and teaching resources, including the use of transcriptions through Tier 0 resources and integration of UDL into LTU professional development modules. Resources available on Canvas. | All teaching staff are aware of methods for improving accessibility in learning content. | • Learning and Teaching Unit | End of 2023 | Canvas – Staff – QUT Portal  
QUT Framework for Development in Learning and Teaching |
| 2.4  | Provide auto-generated and editable closed-captioning across Zoom, Echo360 and other relevant platforms. Availability in Canvas. | Closed captioning available across all relevant platforms. | • Learning and Teaching Unit  
• Administrative Division  
• Disability and Accessibility Services | Immediate/completed | Digital learning tools |
| 2.5  | Ensure web content accessibility meets Web Content Accessibility Guidelines (WCAG) 2.1 Conformance Level AA. | Compliance achieved and web accessibility improved. | • Digital Business Solutions  
• Marketing and Communication | 2023 onwards | Web Content Accessibility Guidelines (WCAG) 2.1  
Accessible IT Procurement (caudit.edu.au) |
| 2.6  | Ensure new LMS web authoring tools and authored content meet Authoring Tool Accessibility Guidelines (ATAG) 2.0 Conformance Level AA. | Compliance achieved and content accessibility improved. | • Learning and Teaching Unit  
• Digital Business Solutions | Ongoing | Authoring Tool Accessibility Guidelines (ATAG) |
| 2.7  | Consider the use of an accessibility management platform to scan sites for accessibility and address accessibility issues (subject to investment appraisal). Conduct accessibility assessments of platforms in use and before procuring new platforms through an external managed provider. | Ensure all QUT sites and platforms are consistently accessible. | • Digital Business Solutions  
• Learning and Teaching Unit  
• Marketing and Communication  
• Major Projects | Ongoing | Web Content Accessibility Guidelines (WCAG) 2.1 |
## PRIORITY AREA 3: LEARNING AND TEACHING

<table>
<thead>
<tr>
<th>Item</th>
