Faculty of Built Environment and Engineering

Entry Programs (International)
QC01 Accelerated Foundation
QC02 Standard Foundation
QC04 Extended Foundation
QC10 English for Academic Purposes for degree programs
QC10 English for Academic Purposes for Foundation and University Diploma Programs
QC20 General English
QC21 General English Extension
QC22 English for Tertiary Preparation
QC24 English For Academic Purposes Plus

Certificate
QC05 University Certificate In Tertiary Preparation

Diploma
CE35 Associate Degree in Civil Engineering/Bachelor of Technology (Civil)
ME37 Advanced Diploma in Engineering (Mechanical)/Bachelor of Technology (Mechanical)

Bachelor Degree
AR48 Bachelor of Architecture
BN31 Bachelor of Built Environment (Architectural Studies)
BN31 Bachelor of Built Environment (Industrial Design)
BN31 Bachelor of Built Environment (Interior Design)
BN31 Bachelor of Built Environment (Landscape Architecture)
BN31 Bachelor of Built Environment (Urban and Regional Planning)
CE33 Bachelor of Technology (Civil)
CE35 Associate Degree in Civil Engineering/Bachelor of Technology (Civil)
CE44 Bachelor of Engineering (Civil)
CE45 Bachelor of Engineering (Civil)
CE46 Bachelor of Engineering (Civil and Environmental Management)
CN51 Bachelor of Applied Science (Construction Management)
CN53 Bachelor of Applied Science (Quantity Surveying)
CN54 Bachelor of Property Economics
DE40 Bachelor of Design
DE40 Bachelor of Design (Architectural Studies)
DE40 Bachelor of Design (Industrial Design)
DE40 Bachelor of Design (Interior Design)
DE40 Bachelor of Design (Landscape Architecture)
EE41 Bachelor of Engineering (Electrical and Computer Engineering)
EE42 Bachelor of Engineering (Electrical and Computer Engineering)
EE46 Bachelor of Engineering (Computer Systems)
EE47 Bachelor of Engineering (Telecommunications)
EE48 Bachelor of Engineering (Aerospace Avionics)
EN40 Bachelor of Engineering
EN40 Bachelor of Engineering (Aerospace Avionics)
EN40 Bachelor of Engineering (Civil and Construction)
EN40 Bachelor of Engineering (Civil and Environmental)
EN40 Bachelor of Engineering (Civil)
EN40 Bachelor of Engineering (Computer Systems)
EN40 Bachelor of Engineering (Electrical)
EN40 Bachelor of Engineering (Infomechatronics)
EN40 Bachelor of Engineering (Mechanical)
EN40 Bachelor of Engineering (Medical)
EN40 Bachelor of Engineering (Telecommunications)
EN40 Bachelor of Engineering - Dean's Scholars Program
IX25 Bachelor of Engineering (Software Engineering)
ME36 Bachelor of Technology (Mechanical) Conversion Program
ME37 Advanced Diploma in Engineering (Mechanical)/Bachelor of Technology (Mechanical)
ME40 Bachelor of Engineering (Infomechatronics)
ME41 Bachelor of Engineering (Mechanical)
ME41 Bachelor of Engineering (Mechanical) Conversion Program from Bachelor of Technology
ME36/ME37
ME42 Bachelor of Engineering (Mechanical)
ME48 Bachelor of Engineering (Medical)
PS47 Bachelor of Surveying
UD40 Bachelor of Urban Development
UD40 Bachelor of Urban Development (Construction Management)
UD40 Bachelor of Urban Development (Property Economics)
UD40 Bachelor of Urban Development (Quantity Surveying)
UD40 Bachelor of Urban Development (Spatial Science)
UD40 Bachelor of Urban Development (Urban and Regional Planning)

Bachelor Degree (Double)
IF21 Bachelor of Engineering (Electrical)/Bachelor of Mathematics
IF28 Bachelor of Engineering (Electrical)/Bachelor of Business
IF59 Bachelor of Engineering (Electrical)/Bachelor of Information Technology
IX28 Bachelor of Business/Bachelor of Engineering
IX54 Bachelor of Engineering (Electrical)/Bachelor of Information Technology

Graduate Certificate
BN85 Graduate Certificate In Built Environment and Engineering
CN81 Graduate Certificate in Project Management
CN90 Graduate Certificate in Property Economics
IX97 Graduate Certificate in Research Commercialisation
PS82 Graduate Certificate in Planning Studies

Graduate Diploma
AR61 Graduate Diploma in Industrial Design
AR62 Graduate Diploma in Interior Design
CN64 Graduate Diploma in Project Management
CN91 Graduate Diploma in Property Economics
DB69 Graduate Diploma in Urban Design
EE67 Graduate Diploma in Computer and Communications Engineering
PS66 Graduate Diploma in Landscape Architecture
PS72 Graduate Diploma in Urban and Regional Planning

**Masters Degree (Coursework)**
BN87 Master of Engineering Management
BN88 Master of Infrastructure Management
BN89 Master of Project Management
CN77 Master of Project Management
CN92 Master of Property Economics
DB73 Master of Built Environment (Urban Design)
DE50 Master of Design (Urban Design)
EE74 Master of Engineering Science (Computer and Communications Engineering)
EE77 Master of Engineering Science (Electrical Engineering Studies)
EN40 Bachelor of Engineering - Dean's Scholars Program
EN50 Master of Engineering (Systems)
IX99 Master of Research and Development Management
ME76 Master of Engineering Management
ME80 Master of Engineering Science (Mechanical Engineering Studies)
PS70 Master of Urban and Regional Planning
PS71 Master of Landscape Architecture
UD50 Master of Urban Development (Urban and Regional Planning)

**Masters Degree (Research)**
BN71 Master of Applied Science (Research)
BN72 Master of Engineering

**Doctoral**
IF49 Doctor of Philosophy (Built Environment, Engineering)

**University wide unit sets**
- Unit sets: Accounting, Economics and Finance
- Unit sets: Advertising, Integrated Marketing Communication, Logistics, Marketing and Public Relations
- Unit sets: Built Environment and Design
- Unit sets: Creative Industries
- Unit sets: Engineering
- Unit sets: Entrepreneurship, Human Resource Management and Management
- Unit sets: Natural Resource Sciences
- Unit sets: Faculty of Health
- Unit sets: Information Technology
- Unit sets: International Business, Languages, and Tourism and Entertainment Marketing
- Unit sets: International Exchange
- Unit sets: International Studies
- Unit sets: Justice and the Law
- Unit sets: Mathematical Sciences
- Unit sets: Multimedia and Technologies
- Unit sets: Physical and Chemical Sciences
- Unit sets: Science
Unit sets: Society and Culture
Unit sets: Urban Development and Construction
Bachelor of Architecture (AR48)
Year offered: 2009
Admissions: No
CRICOS code: 052308E
Course duration (full-time): 5 years full-time
Domestic fees (indicative): 2009: Full fee tuition $8,250 per semester (indicative); CSP rate 2009 available July 2008
Domestic Entry: February
International Entry: February
QTC code: 412372; Dtee: 412376
Past rank cut-off: 90. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Paul Sanders
Campus: Gardens Point

Additional Admission Information
The AR48 Bachelor of Architecture course has been replaced by DE40 Bachelor of Design (Architectural Studies) from 2006 onwards. There will be no intake into the AR48 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional academic credit by the due date and subject QUT rules.

International Students Course Structure - 6 years
International students enrol in the full time course structure for years 1 - 3 and the flexible full time structure for years 4 - 6. Prior to entering year 4, students may seek approval from the course coordinator to enrol in the full time course structure allowing them to complete in 5 years. To be eligible for the full time course structure (years 4-5), students must have completed 20 recognised weeks of approved employment which will be credited to the requirements of the unit Practical Experience B.

Early Exit Option
Students may elect to complete their studies after three years full-time (288 credit points). Students who select this option will graduate with The Bachelor of Built Environment (Architectural Studies), which is a pre-professional degree in architecture.

Professional Recognition
Graduates of the Bachelor of Architecture degree meet the academic requirements for membership of the Royal Australian Institute of Architects and, following one year of post-graduate architectural experience, are eligible to undertake the registration examinations of the Board of Architects of Queensland.

Special course requirements
A Bachelor of Architecture student must be engaged in approved employment for at least 72 recognised weeks within the last 2-3 years of the course (ADB796 Practice Experience B). Prior to entering Year 4 Semester 1 students enrolled in the full time course structure, must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B. Students enrolled in the flexible full-time course structure must be engaged in approved employment for at least 48 recognised weeks within the first 3 years of the course (ADB795 Practice Experience A).

Further Information

### Special Course Notes

1. Students must meet pre-requisites in all subjects.
2. Penalties for late assignments apply.
3. Course will involve compulsory field work within some units.
4. Acceptance into the flexible full-time mode requires approval of the course coordinator and by providing evidence of employment in an Architects office.

### Potential Careers:

Architect.
Graduate Diploma in Industrial Design
(AR61)

Year offered: 2009
Admissions: No
CRICOS code: 003479C
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: CSP $3,690 per semester (indicative)
International Fees (per semester): 2009: $10,500 per semester (indicative) (subject to annual review)
Domestic Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
International Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Jay Yang
(Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Kathi Holt-Damant (Course Leader)
Campus: Gardens Point

Entry Requirements
A relevant degree or diploma from a recognised tertiary institution, or professional recognition through an equivalent course of study or examination.

Overview
During the course you are encouraged to develop your knowledge and expertise in design research, ergonomics, decision making, new product development, and CAD. The course consolidates skills and knowledge that encourages leadership.

Professional Recognition
The Graduate Diploma in Industrial Design has been recognised by the Design Institute of Australia (DIA). Graduates are eligible for associate membership. The QUT program is an educational member of the International Council of the Society of Industrial Design (ICSID).

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

SPECIAL NOTE
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Industrial Designer.
Graduate Diploma in Interior Design (AR62)

Year offered: 2009
Admissions: No
CRICOS code: 006361D
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: CSP $3,700 per semester (indicative)
International Fees (per semester): 2009: $10,250 per semester (indicative) (subject to annual review)
Domestic Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
International Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Kathi Holt-Damant (Course Leader)
Campus: Gardens Point

Entry Requirements
A degree or diploma in interior design or in a relevant discipline from a recognised tertiary institution; or professional recognition through an equivalent course of study or examination.

Overview
This Graduate Diploma consolidates your research skills and encourages you to rigorously explore and identify issues relating to the function and quality of the interior environment. You develop specialist skills and apply them to produce interiors that are sensitive to the various demands of the client, the user and society as a whole.

Professional Recognition
The Graduate Diploma in Interior Design is recognised by the Design Institute of Australia (DIA).

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

SPECIAL NOTE
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.
Bachelor of Built Environment (Architectural Studies) (BN31)

Year offered: 2009
Admissions: No
CRICOS code: 003507D
Course duration (full-time): 3 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $10,750 (indicative) per semester *subject to annual review*
International Entry: February
OP Guarantee: Yes
Assumed knowledge: English (4 SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email sbs.enquiries@qut.edu.au
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Paul Sanders
Campus: Gardens Point

Further Information
Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.
Bachelor of Built Environment (Industrial Design) (BN31)

Year offered: 2009
Admissions: No
CRICOS code: 003507D
Course duration (full-time): 3 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $10,750 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412382; Dfee: 412386
Past rank cut-off: 83. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Andrew Scott
Campus: Gardens Point

Other Majors
See also entries for the following majors in this course: Interior Design, Landscape Architecture, and Urban and Regional Planning.

Career Outcomes
Industrial designers create and produce commercial and industrial products to improve people's lives. They make models and prototypes of designs that cover a wide range of manufactured goods from toasters to computer terminals to rapid transport systems. When designing new or improving existing products they must consider factors influencing product design such as useability, costs, materials, technology or environment. They research product usage, make detailed drawings and supervise the construction of prototypes for testing. They mainly work in small business or consulting practices. QUT Industrial Design graduates are working worldwide in places such as the UK, Singapore and France.

Overview
Students in this course develop their capacity to contribute to the design of products and systems for the mutual benefit of users and manufacturers of a wide range of products.

Professional Recognition
Graduates of the Bachelor of Built Environment (Industrial Design) who go on to complete the Graduate Diploma in Industrial Design are eligible for associate membership of the Design Institute of Australia. QUT is an Educational Member of the International Council of Societies of Industrial Design (ICSID).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Further Information
Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:

OP Guarantee: Yes
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Mark Taylor
Campus: Gardens Point

Other Majors
See also entries for the following majors in this course: Industrial Design, Landscape Architecture, and Urban and Regional Planning.

Career Outcomes
Interior Designers plan and execute the layout, finishes, lighting, fittings and furnishings in domestic interior design, retail and entertainment industry design, hospitality industry design, commercial office and corporate design. Interior designers may work as consultants or with a design company. They may also seek work involving production design for film, television and theatre as well as furniture and exhibition design. There is a trend for Australian interior design companies to practice in South East Asia and bid competitively for international commissions.

Overview
Students undertaking this course receive a general background in studies in built environment combined with a series of experiences exercises relating to basic design & specifically to interior design.

Professional Recognition
Successful completion of the Bachelor of Built Environment (Interior Design) satisfies the requirements for entry into the Graduate Diploma in Interior Design. Together the courses are recognised by the Design Institute of Australia as meeting the basic requirements for professional practice.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Course coordinator: Ms Sheona Thomson
Discipline coordinator: Dr Jeannie Sim
Campus: Gardens Point

Other Majors
See also entries for the following majors in this course: Interior Design, Industrial Design, and Urban and Regional Planning.

Career Outcomes
Landscape architecture is predominantly a young profession with an increasing number of female practitioners. Sixty per cent of the profession is employed in private consultancies of landscape architects, architects, planners, urban designers and engineers. They are engaged primarily in site planning, site design, planting design and, to a lesser degree, landscape planning. Other opportunities for employment occur in the design sectors of government agencies. Some graduates work freelance on a contractual basis.

Overview
This course provides a broad based education for those seeking a career in landscape architecture. Landscape design forms the core of the course, and theory and problem-solving techniques enhance the development of students’ capabilities.

Professional Recognition
Successful performance in the Bachelor of Built Environment (Landscape Architecture) enables students to gain entry to the Graduate Diploma/Master courses. The Graduate Diploma in Landscape Architecture is the only course of its kind in Queensland, and is accredited by the Australian Institute of Landscape Architects (AILA). Graduates from the Graduate Diploma or Master of Landscape Architecture are recognised in New Zealand and Hong Kong and overseas generally through their AILA membership.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

OP Guarantee: Yes
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Dr John Hayes
Discipline coordinator: Mr Paul Donehue
Campus: Gardens Point

Other Majors
See also entries for the following majors in this course: Interior Design, Industrial Design, and Landscape Architecture.

Career Outcomes
Urban and Regional Planners develop plans and policies for the use of land and resources. They aim to fulfil the social, cultural economic and environmental needs of the community. There are numerous employment opportunities can found in state and local government departments, with private sector planning consultants and land development enterprises. Graduates can build careers in urban design, community health and welfare, housing, transport, and strategic land-use planning, and land and resource development.

Overview
Urban and regional planning involves environmental design, map and aerial photo interpretation, human environment, land use generation, population and urban studies, economics of town planning, employment and industry, land development, demography and housing, and provision of community facilities.

Professional Recognition
Successful completion of the Bachelor of Built Environment (Urban and Regional Planning) enables students to gain entry to the Graduate Diploma/Masters in Urban and Regional Planning, which are both fully accredited by the Planning Institute of Australia (PIA).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the another study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Further information
Phone +61 7 3138 2852 Fax +61 7 3138 1515
e-mail: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Urban and Regional Planner, Urban Designer.
Master of Applied Science (Research) (BN71)
Year offered: 2009
Admissions: Yes
CRICOS code: 007897G
Course duration (full-time): 1 year (minimum), 2 years (maximum)
Course duration (part-time): 2 years (minimum), 4 years (maximum)
Domestic fees (indicative): Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: $6,720 per semester (indicative)
International Fees (per semester): 2009: $11,500 (indicative) per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Campus: Gardens Point

Entry Requirements
A four-year degree in an appropriate discipline with Honours or equivalent qualification or a graduate diploma or masters degree in an appropriate discipline with a minimum grade point average of 5 with relevant experience or professional experience and/or other qualifications.

Part-time Study
QUT advises that International Students may only enrol in full-time studies.

Overview
From this research degree you acquire advanced knowledge of applied science research methods, applied to research problems in the built environment. As well as mastering relevant techniques, you can expect to develop high-level skills in investigation and critical thinking and extensive knowledge in a specialist area. Specialisations are available in Architecture, Interior Design, Industrial Design, Construction Management, Quantity Surveying, Property Economics, Project Management, Planning, Landscape Architecture and Surveying. Our Faculty staff are available to discuss your application with you. You are encouraged to approach them early in the development of the research proposal that forms part of your application. Master by Research studies normally include:
* assessed coursework
* participation in university scholarly activities such as research seminars, teaching and publication
* regular meetings with supervisors
* a program of supervised research and investigation
* preparation of a thesis.

Fees
Australian students enrolling after August 31 2000 in a higher degree by research are subject to the conditions of the Commonwealth Government's Research Training Scheme (RTS). Research Students who enrol at QUT will be awarded an RTS place, which is funded by the Commonwealth, or a QUT Research Training Award Scheme (RTA) place, which is a fee remission scholarship.

Research Masters students are entitled to two years full-time equivalent study under these schemes, Students who exceed this entitlement may apply to QUT for an extension, however the University may charge fees for the period of the program which exceeds the student's entitlement. The University determines the fee level.

HDR Director
Professor Mahen Mahendran
Phone: +61 7 3138 2543
fax: +61 7 3138 1515

1 - General Conditions
1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act 1988.
1.2 The Council's power to approve recommendations from Faculty Academic Boards regarding the registration, supervision and examination of research degree candidates and to develop policy and procedures relating to research degrees is exercised through a University Research Committee which is a subcommittee of University Academic Board.
1.3 University Research Committee has delegated responsibility for day-to-day administration of research masters degree courses to faculty academic boards. Academic boards shall report biannually to University Research Committee on progress made by Research Masters degree candidates.
1.4 This program is administered by the Academic Board of the Faculty of Built Environment and Engineering through its Faculty Research Committee. The program is offered in Architecture, Civil Engineering, Construction Management, Electrical and Electronic Systems Engineering, Industrial Design, Interior Design, Landscape Architecture and Surveying. Our Faculty staff are available to discuss your application with you. You are encouraged to approach them early in the development of the research proposal that forms part of your application. Master by Research studies normally include:
* have completed the approved program involving advanced work under the supervision of a Thesis Panel prescribed by the Faculty Research Committee of the Built Environment and Engineering Academic Board
* have submitted, and the Faculty Research Committee accepted a thesis, together with reports and/or documents where applicable, prepared under the supervision of the Thesis Panel
* have completed such other work as may be prescribed by the Faculty Research Committee, and
* submit to the Faculty Research Committee a declaration signed by the candidate that they have not been a candidate for another tertiary award without permission of the Faculty Research Committee.

2 - Registration
2.1 Applications shall be accepted subject to the availability of facilities and supervision.
2.2 Applications may be lodged with the Registrar at any time.
2.3 There is a six-month maximum period for domestic students and nine months for international students,
between acceptance by the Faculty Research Committee and enrolment by the candidate in the Master of Applied Science (Research) or Master of Engineering before the offer of admission to the program lapses. Candidates are required to complete an enrolment form each semester.

A Note Regarding Enrolment
The Faculty and Student Services are to be advised of any changes to name, address or other personal details. Application to vary any aspect of the candidacy must be made in writing directly to the Faculty Research Committee for Built Environment and Engineering and be endorsed by the principal supervisor.

2.4 The minimum academic qualifications for admission to the Master of Applied Science (Research) or Master of Engineering are:
* a four-year degree in an appropriate discipline in which the candidate has received at least second class Honours from the Queensland University of Technology, or
* a qualification judged equivalent by the Faculty Research Committee, or
* a grade point average of 5.0 or better in a graduate diploma program, in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing, or
* a grade point average of 5.0 or better in a coursework masters degree program in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing.

An applicant for the Master of Applied Science (Research) or Master of Engineering program without the minimum entry requirement may present a case for admission based on the submission of evidence of qualifications which demonstrate the applicant's capacity to pursue the course of study.

The case may be based on the following:
(a) three years professional experience in the general field in which the proposed work lies, or
(b) satisfactory completion of an appropriate Masters qualifying program including formal coursework and/or reading program in related fields stipulated by the Faculty Research Committee, or
(c) the submission of technical publications or other appropriate evidence which satisfies the Faculty Research Committee that advanced knowledge has been acquired in a branch of applied science relevant to the built environment or a division of engineering in which the applicant has worked as a professional practitioner in a position of responsibility. This knowledge should be relevant to the field of study proposed.

2.5 A candidate will be eligible to be registered as a graduate student if they are considered by Faculty Research Committee to meet the requirements for entry.

2.6 A candidate shall receive confirmed registration as a graduate student when they:
* have satisfied the requirements for admission and achieved by work and study a standard recognised by Faculty Research Committee, or
* have satisfied Faculty Research Committee that they are a suitable person to undertake the program, and
* have satisfied Faculty Research Committee that they can devote sufficient time to the research and study.

2.7 In considering an applicant for registration, the Faculty Research Committee shall, in addition to assessing the applicants suitability, be satisfied that:
* the proposed program is relevant to the aims and objectives of the University
* the proposed program has relevance to the needs of society or industry, and
* adequate resources are available to support the proposed program.

2.8 An application for registration should set out systematically and fully the candidates intended course of study including the following:
* a description of the area of study within which the candidates course lies
* a summary of the work to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program, its background, the significance and possible application of the research program, and the research plan
* the location at which the work will be undertaken, the amount of time which will be devoted to it and the resources required
* details of academic qualifications and supporting evidence, including copies of results for each year of courses undertaken
* a brief account of industrial experience
* a list of publications
* sponsorship details
* statement of approval by Head of School and/or Postgraduate Research Coordinator, and
* any other relevant material.

2.9 The program is offered on a full-time or a part-time basis and may be undertaken externally. Part-time students normally will be employed in some professional capacity during the day and carry out their research projects on a part-time basis at QUT, in their place of employment or in a sponsoring organisation.

2.10 Full-time students may be on a scholarship from industry or QUT, and may carry out their research at QUT or in a sponsoring organisation. Normally full-time students would be expected to work on their research projects at QUT for not less than three-quarters of a normal working week, averaged over each year of candidacy. Such a candidate may not devote more than 300 hours annually to teaching activities, including preparation and marking.

2.11 A candidate may be based at QUT or at a place of employment or sponsoring institution. Normally, support of the sponsoring institution for the candidate's application is required for registration. A candidate may also be external where their residence is outside of Brisbane.

2.12 The Faculty Research Committee may cancel a candidate's registration if, after consulting a candidate's supervisor and having taken account of all relevant circumstances, the committee is of the opinion that the candidate either has effectively discontinued their studies or has no reasonable expectation of completing the course of study within the maximum time allowed (see Section 4).

2.13 A candidate whose registration has lapsed or has been cancelled, and who wishes subsequently to re-enter the course of study to pursue a research program which is substantially the same as the previous investigation may be re-admitted under such conditions as the Faculty Research Committee shall prescribe.

3 - Course of Study
3.1 A candidate for the degree of Master of Applied Science (Research) or Master of Engineering will undertake a program of research and investigation on a topic approved by the Faculty Research Committee.

3.2 All projects should be supported by outside agencies such as industry, government authorities and professional organisations, or by QUT itself. This provision is to ensure that programs are relevant to the aims of the University and the community. It is important that projects be primarily directed towards society or industry need.

3.3 The program must be such as to enable the candidate to develop and demonstrate a level of scientific competence significantly higher than that expected of a first degree graduate. The required competence normally would include mastery of relevant techniques, investigatory skills, critical thinking, and a high level of knowledge in the specialist area.

3.4 Where advised, a candidate may be required to complete satisfactorily a program of formal coursework in subjects relevant to the field of study up to a total class contact of 32 credit points.

3.5 The course of study normally will include:
* participation in University scholarly activities such as research seminars, teaching and publication
* regular face-to-face interactions with supervisors, and
* a program of supervised research, design, investigation, development, construction, or any combination thereof.

The course of study may also include a program of assessed coursework.

3.6 Coursework at masters level demands a capacity for critical analysis and a specialisation of research interests not normally appropriate for an undergraduate program. Such coursework may be conducted in a number of ways:
* as advanced lecture courses
* as seminars in which faculty and candidates present critical studies of selected problems within the subject field
* as independent study or reading courses, or
* as research projects conducted under faculty supervision.

Candidates will be encouraged to attend conferences where these are related to the field of the research.

In all cases, coursework will be based upon a formal syllabus setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course.

3.7 Maximum and Minimum Coursework Requirements:
Thesis - 96 credit points minimum (at least two-thirds of the degree content)
* Maximum coursework requirement - 32 credit points
* Minimum coursework requirement - 4 credit points - IFN001 Advanced Information Retrieval Skills
* Maximum of 16 credit points per semester for each semester of the program

Additional Requirements:
Attendance and participation in School of Research Centre seminars/workshops (compulsory).

Students must contact the Postgraduate Research Coordinator in their School to finalise any other coursework component of their program.

4 - Period of Time for Completion of Course of Study

4.1 The duration of study will normally be a minimum of one year and a maximum of two years or the part-time equivalent.

4.2 In order to encourage completion of research degrees within a reasonable timeframe, QUT has set a limit of two years on the length of time for which it will fund a faculty for full-time research masters degree candidates.

4.3 A registered full-time graduate student shall present the thesis for examination after a period of at least one year but not more than two years has elapsed from the time of confirmed registration. A registered part-time graduate student shall present the thesis for examination after a period of at least two years. The maximum time is four years from the time of confirmed registration. In special cases the Faculty Research Committee may approve a shorter period.

4.4 Time limits are measured in years from the time of first registration as a graduate student. Periods of exclusion or absence without approval are included.

4.5 Candidates who exceed these limits may be asked to show cause why they should not have their registration in the program terminated. Such candidates must make formal application to the Faculty Research Committee to have their registration extended beyond the normal time. Details of the candidate’s progress shall be presented to the committee together with the reasons for the delay in completing the course and the expected date of completion. Where the committee agrees to an extension, a time limit will be set for the maximum period of registration in the program.

4.6 Candidates are notified of termination by registered mail. They have right of appeal to the Academic Appeals Committee.

5 - Supervision

5.1 The Faculty Research Committee shall appoint at least one supervisor the principal supervisor and also at least one associate supervisor. Each member of the supervisory panel shall bring appropriate experience in the research area of the student.

5.2 The Principal Supervisor shall normally be from the academic staff of the QUT school in which the candidate is enrolled.

5.3 The Supervisory Panel shall supervise all aspects of the candidate’s work program, shall receive reports from the candidate on progress and shall recommend to the Faculty Research Committee both on successful and unsuccessful completion of components of the coursework incorporated in the candidate’s program, on progress on the thesis research project and on continued enrolment.

5.4 The Supervisory Panel shall receive a formal oral and written report from the candidate at least once every semester on progress on the research project.

5.5 Summary of Faculty Supervisory registration process:
To ensure that students receive appropriate supervision from experienced supervisors and active researchers the Faculty has introduced a Supervisors Register which requires registered supervisors to demonstrate performance in three areas.
1. Practice - previous supervisory experience of at least five years.
2. Research - evidence of active research through grants and publications
3. Continuous development
6 - Place and Conditions of Work

6.1 The research program will normally be carried out under supervision in a suitable environment within Brisbane. However, external study is possible. External candidates will be required to spend a minimum of four weeks at QUT annually.

6.2 The Faculty Research Committee shall not admit a candidate to a program of research based at the University unless it has received:
- a supporting statement from the employer or director of the sponsoring establishment indicating that they are aware of the course rules and are prepared to sponsor and support the applicant, that the applicant will be provided with facilities and time to undertake the research project and that they are willing to accept responsibility for supervising the work of the applicant and that resources are available to support the proposed research.

6.3 The Faculty Research Committee shall not admit a candidate to a program of research based at a sponsoring establishment unless it has received:
- a supporting statement from the head of the QUT School and/or Postgraduate Research Coordinator in the School in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the masters degree, that the program is supported, that the school is willing to undertake the responsibility of supervising the work of the applicant and that resources are available to support the proposed research.

6.4 The Faculty Research Committee shall not admit a candidate to a program of research based at a sponsoring establishment unless it has received:
- a supporting statement from the head of the QUT School or Postgraduate Research coordinator in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the Masters degree, that the program is supported, and that after examination of the proposed external facilities and supervision, the school is willing to accept the responsibility of supervising the work.

7 - Thesis

7.1 In the form of presentation, availability and copyright, the thesis shall comply with all the requirements of the document Requirements for Presenting Theses (Appendix 51 in the Manual of Policies and Procedures).

7.2 A candidate shall submit the title of their thesis for approval by the Faculty Research Committee with their application, and after approval has been granted, no change will be made except with the permission of the committee.

7.3 The candidate shall give two months' written notice of intention to submit their thesis through the Principal Supervisor.

7.4 The thesis shall comply with the following requirements:
- a significant proportion of the work described (as determined by the Faculty Research Committee) must have been carried out subsequent to initial registration for the Masters degree.
- it must describe a program of work carried out by the candidate and must involve either an advanced contribution to the knowledge of the subject or an advanced application of existing knowledge.
- it must reach a satisfactory standard of literary presentation.
- it shall be the candidate's own account of the work. Where work is carried out conjointly with other persons, the Faculty Research Committee shall be advised of the extent of the candidate's contribution to the joint work.
- the thesis shall not contain as its main content any work or material which the candidate has previously submitted for another degree or similar award.
- the thesis may consist primarily of reports, plans and/or documents or may be supported by these if they have a bearing on the subject of the thesis. Other supporting documents such as published papers may also be submitted with the thesis.
- the thesis shall contain an abstract of not more than 300 words.

7.5 Except with the specific permission of the Faculty Research Committee, the thesis must be presented in the English language. Such permission must be sought at the time of application for registration, and will not be granted solely on the grounds that the candidate's ability to satisfy the examiners will be affected adversely by the requirement to present the thesis in English.

7.6 Subject to QUT's Intellectual Property policy, the copyright of the thesis is vested in the candidate.

7.7 Where a candidate, supervisor or the sponsoring establishment wishes the thesis to remain confidential for a period of time after completion of the work, application for approval must be made to the Faculty Research Committee when the thesis is submitted. The period normally shall not exceed two years from the date on which the examiners recommend acceptance of the thesis, during which time the thesis will be held on restricted access in the QUT Library.

7.8 Except where confidentiality of the thesis is necessary, students shall submit their thesis electronically after completion of the examination process and any corrections required to the QUT Library for inclusion in the Australian Digital Thesis Project.

8 - Examination of Thesis

8.1 The Faculty Research Committee shall appoint three examiners, at least one of whom shall be from outside of the University. No supervisor of the candidate shall be appointed as one of the examiners.

8.2 Normally, examiners must agree to read and report upon the thesis within two months of its receipt.

8.3 A candidate may be required to make an oral defence of the thesis.

8.4 On receipt of the reports from the examiners, the Faculty Research Committee shall:
(a) recommend that the thesis be accepted without modification, and to Academic Board that the candidate be awarded the degree, or
(b) recommend to Academic Board that the candidate be awarded the degree, after any minor amendments requested by the examiners have been made, or
(c) recommend that the thesis not be accepted until major revisions have been made. Such revisions might be rewriting one of the sections, with or without additional work, or
(d) not accept the thesis and terminate the candidate's registration.

8.5 If the examiners’ reports are conflicting, the Faculty Research Committee may, after appropriate consultation with the Thesis Panel, resubmit the thesis to the examiners with copies of the examiners' reports and/or seek the advice
of a further external examiner. After due consideration of further reports from the examiners, a majority decision will be accepted by the Faculty Research Committee.

Further Information
The Faculty of Built Environment and Engineering: Phone +61 7 3138 1424, Fax +61 7 3138 8381, e-mail: bee.research@qut.edu.au WEB address: http://www.bee.qut.edu.au/research

Potential Careers:
Architect, Art Project Manager, Artist, Community Education Officer, Community Worker, Construction Manager, Contract Administrator, Environmental Health Officer, Exchange Student, Industrial Designer, Landscape Architect, Manager, Medical Equipment Sales, Project Developer, Project Manager, Property Development, Property Economist, Public Servant, Quantity Surveyor, Real Estate, Secondary School Teacher, Teacher, Urban and Regional Planner, Urban Designer.
Master of Engineering (BN72)

Year offered: 2009
Admissions: Yes
CRICOS code: 003465J
Course duration (full-time): 1 year (minimum), 2 years (maximum)
Course duration (part-time): 2 years (minimum), 4 years (maximum)
Domestic fees (indicative): Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged:
- 2009: $6,720 per semester (indicative)
International Fees (per semester): 2009: $11,500 (indicative) per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Campus: Gardens Point

Entry Requirements
A four-year degree in an appropriate discipline with Honours or equivalent qualification or a graduate diploma or masters degree in an appropriate discipline with a minimum grade point average of 5 with relevant experience or professional experience and/or other qualifications.

Part-time Study
QUT advises that International Students may only enrol in full-time studies.

Overview
This research program for professional engineers equips you to solve complex industrial problems. The program is available in Civil, Electrical and Electronic Systems, Mechanical, Manufacturing and Medical Engineering. In completing the course you apply yourself to real-world problems in a research project which usually be sponsored by industry, government authorities, professional organisations or QUT. You can enhance your preparation for the research project by completing coursework units as part of your program. Master of Research studies normally include:
* assessed coursework
* participation in university scholarly activities such as research seminars, teaching and publication
* regular meetings with supervisors
* a program of supervised research and investigation
* preparation of a thesis.

Fees
Australian students enrolling after August 31 2000 in a higher degree by research are subject to the conditions of the Commonwealth Government's Research Training Scheme (RTS). Research Students who enrol at QUT will be awarded an RTS place, which is funded by the Commonwealth, or a QUT Research Training Award Scheme (RTA) place, which is a fee remission scholarship.

Research Masters students are entitled to two years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for an extension, however the University may charge fees for the period of the program which exceeds the student's entitlement. The University determines the fee level.

WEB address: http://www.bee.qut.edu.au/research

Potential Careers:
Aerospace Avionics Engineer, Biomechanical Engineer, Biomedical Engineer, Civil Engineer, Electrical and Computer Engineer, Electrical Engineer, Environmental Engineer, Exchange Student, Government Officer, Hydrogeologist, Industrial Designer, Information Security Specialist, Instrument Maker, Manager, Manufacturer, Mastering Engineer, Mechanical Engineer, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Network Manager, Programmer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Software Engineer, Systems Analyst, Teacher.
Graduate Certificate In Built Environment and Engineering (BN85)

Year offered: 2009
Admissions: Yes
CRICOS code: 060808G
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (indicative): 2009: Full fee tuition $10,500 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Course coordinator: Professor Jay Yang
Campus: Gardens Point

Overview
This course serves as a preparation and pathway program for students wishing to enter a masters program in the Faculty of Built Environment and Engineering. It is particularly aimed at students with either a three-year undergraduate degree, or a degree in a different area to the masters of their choice.

Entry Requirements
A four-year full-time bachelor degree in a relevant discipline area; or a three-year full-time diploma and three or more years of relevant professional experience in a relevant discipline; and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Career Outcomes
The Graduate Certificate in Built Environment and Engineering does not provide any specific career path. It is offered only as an alternative entry pathway to masters courses in the Faculty of Built Environment and Engineering.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
The course structures are divided into two major categories: Standard program and UD50 Articulation program.

All students, except those intending to advance to UD50 Masters of Urban Development (Urban and Regional Planning), must follow the standard program.

Standard Course structure - February Entry and July Entry

Full-time Structure - Year 1, Semester 1
BEE Undergraduate Unit 1
BEE Undergraduate Unit 2
Other Faculty Postgraduate Unit A
Other Faculty Postgraduate Unit B
All units to be approved by Postgraduate Coordinator prior to enrolment.

Part-time Structure
A part-time course structure will require completion of 1 BEE undergraduate level unit and 1 Other Faculty postgraduate level elective unit each semester (50% of standard load as above.)

Postgraduate Level Electives
IFP100 Knowledge Transfer and Research Commercialisation (Core Unit)
INN311 Enterprise Systems
INN221 Technology Management
KIP401 Visual Communication
PUN301 Occupational Health and Safety Law and Management
PUP415 Occupational Health
PUN001 Contemporary Risk Management
PUN500 Safety Management
IBN410 International Logistics Management
IBN408 Global Business Operations
MGN423 Contemporary Strategic Analysis
EFN420 Introduction To Financial Management
Or consult with BN85 Course Leader.
(Other suitable postgraduate units will be continually identified during course development.)

Undergraduate Level Electives

Suitable for BN87 path.
BSB115 Management
ENB333 Operations Management
ENB336 Industrial Engineering
ENB432 Engineering Asset Management and Maintenance
Or consult with BN85 Course Leader.

Suitable for BN88 path.
ENB432 Engineering Asset Management and Maintenance
### Suitable for BN89 path:

- CNB402 Investment Theory
- UDB213 Construction Estimating
- UDB312 Contract Administration
- UDB313 Programming and Scheduling
- UDB316 Cost Planning and Control
- UDB410 Construction Management
  
  Or consult with BN88 Course Leader.

### Suitable for DE50 path:

- BEB902 Greening the Built Environment
- BEB903 Greenhouse Solutions
- BEB904 Eco-Innovation for Sustainability
- DAB325 Architecture in the 20th Century
- DAB525 Architecture and the City
- HHB127 Environment And Society
- NRB600 Sustainable Environmental Management
  
  Or consult with DE50 Course Leader.

  [BEB902, DAB325, and DAB525 are the most suitable.]

### Suitable for EN50 path:

- MOST SUITABLE:
  - ENB301 Instrumentation and Control
  - ENB342 Signals, Systems and Transforms

- MECHANICAL ENGINEERING ORIENTED:
  - ENB311 Stress Analysis
  - ENB312 Dynamics of Machinery

- ELECTRICAL ENGINEERING ORIENTED:
  - ENB350 Real-time Computer-based Systems
  - ENB352 Communication Environments For Embedded Systems
  
  Or consult with EN50 Course Leader.

  [Note: Some of these units have prerequisites which you will need to offer equivalencies for from your previous degree/s.]

### UD50 Articulation Course structure - February Entry and July Entry

#### Full-time Structure - Year 1, Semester 1

Select 4 units from the list below:

- UDN551 History of the Built Environment
- UDN552 Population and Urban Studies
- UDN553 Site Planning
- UDN554 Planning Processes and Consultations
Master of Engineering Management  
(BN87)  
Year offered: 2009  
Admissions: Yes  
CRICOS code: 006368G  
Course duration (full-time): 1 year  
Course duration (part-time): 2 years  
Domestic fees (indicative): 2009: Full fee tuition $8,500 (indicative) per semester  
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)  
Domestic Entry: February and July  
International Entry: February and July  
Total credit points: 96  
Standard credit points per full-time semester: 48  
Course coordinator: Professor Jay Yang (Please refer course specific enquiries to Course Leader.)  
Discipline coordinator: Dr Jacob Coetzee (Course Leader)  
Campus: Gardens Point  

Overview  
This course offers an engineering management qualification to practising engineers through a formal qualification in management with advanced engineering skills and knowledge. You can choose to specialise in manufacturing or maintenance engineering. Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry Requirements  
A four-year full-time bachelor degree in a relevant engineering discipline area and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Career Outcomes  
The Master of Engineering Management allows graduates to become specialist engineering managers within their chosen professional field, particularly to become a leader and manager of engineering processes. Graduates can also use the skills and knowledge gained to diversify their capabilities across a broader spectrum of engineering disciplines.

International Student Entry  
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Advanced Standing  
Students completing two Masters courses in the Faculty of Built Environment and Engineering will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

Master of Infrastructure Management (BN88)

Year offered: 2009
Admissions: Yes
CRICOS code: 060807G

Course duration (full-time): 1 year
Course duration (part-time): 2 years

Domestic fees (indicative): 2009: Full fee tuition $8,250 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)

Domestic Entry: February and July
International Entry: February and July

Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Professor Jay Yang (Please refer course specific enquiries to Course Leader.)
Discipline coordinator: Professor Manicka Dhanasekar (Course Leader)
Campus: Gardens Point

Overview
This course addresses the main concepts and methodologies of infrastructure planning and management. It aims to advance and enhance your skills and understanding of the diverse types of infrastructure assets planning and management, including the environmental, social, institutional assessments, and economic and financial aspects of infrastructure management. Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry Requirements
A four-year full-time bachelor degree in a relevant discipline area; or an equivalent qualification, and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Career Outcomes
Graduates may choose to become a project manager, asset manager, planner within an infrastructure organisation, or use the skills and knowledge gained to diversify their capabilities across a broader spectrum of construction disciplines. In particular, this course provides graduates with the skills and knowledge to become leaders and managers of infrastructure planning and management.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Advanced Standing
Students completing two Masters courses in the Faculty of Built Environment and Engineering will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

**Potential Careers:**
Manager.
Master of Project Management (BN89)

Year offered: 2009
Admissions: Yes
CRICOS code: 060815G
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $8,500
(indicative) per semester
International Fees (per semester): 2009: $11,500
(indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Professor Jay Yang (Please refer
course specific enquiries to Course Leader.)
Discipline coordinator: Associate Professor Bambang
Trigunarsyah (Course Leader)
Campus: Gardens Point

Overview
This course is designed to provide you with appropriate
knowledge and experience in managing projects in
professional organisations. It addresses the main concepts
and methodologies of project management and provides
you with educational opportunities for advanced study
following your graduation in a relevant discipline. This
course aims to produce project managers capable of
ensuring project success through the management of
constraints in time, cost and quality, as well as of social,
political and environmental challenges. Early exit with a
Graduate Diploma is available upon completion of four units
in the course.

Entry Requirements
A four-year full-time bachelor degree in a relevant discipline
area; and a grade point average of 5.0 or more (on a 7-point
scale) in that study, or an equivalent qualification
determined by the Faculty. English language requirements
for the course are an English Language Proficiency level in
accordance with QUT requirements (IELTS score of 6.0 with
no sub-band below 6.0) if English is not your first language.
Applicants from a non-relevant background may gain entry
through successful completion of BN85, the Graduate
Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work
experience as detailed in Completing the PG Form.

Career Outcomes
Graduates will have the necessary expertise to take on
managerial roles in projects of their chosen profession.
They will have acquired professional experience which will
enable them to manage project goals within constraints,
contribute to strategic decision making through
understanding a range of specialty areas relevant to project
management. They will also make a difference to
professional practice by introducing project-based practices
and a project management approach.

International Student Entry

International students must maintain an enrolment program
that will allow them to complete their course within the
specified timeframe of their eCoE (electronic Confirmation
of Enrolment).

Advanced Standing
Students completing two Masters courses in the Faculty of
Built Environment and Engineering will be eligible to apply
for a maximum of 24 credit points advanced standing in the
second course on the basis of common units already
completed. Such students will be required to complete a
minimum of 72cp to be determined in consultation with the
nominated Course Leader, to achieve the second Masters.

Potential Careers:
Project Manager.
Bachelor of Technology (Civil) (CE33)

Year offered: 2009
Admissions: No
Domestic fees (indicative): 2009: CSP $3,568 (indicative)
per semester
Associate Degree in Civil Engineering/Bachelor of Technology (Civil) (CE35)

Year offered: 2009
Admissions: No
Course duration (full-time): 3 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
Domestic Entry: February
QTAC code: This course is no longer offered
Past rank cut-off: 50
Past OP cut-off: 24
Total credit points: 288
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Entry Requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Associate Degree in Civil Engineering at the Southbank Institute.

Career Outcomes
Civil Engineering Technologists provide complex technical support to assist civil engineers on the design construction and maintenance of projects. The Bachelor of Technology qualification is now required in government organisations such as Main Roads for positions such as chief design draftsman and construction supervisors. Immediate employment would be as design draftsman and on-site supervisor. The civil engineering consulting industry will also have a need for technologists trained in routine design procedures and CAD drafting skills.

Professional Recognition
The course has provisional recognition by Engineers Australia.

Dual TAFE/QUT Awards
This dual award is a cooperative arrangement between Southbank Institute (SBI) and the Faculty of Built Environment and Engineering, Queensland University of Technology. Initial entry is to a specially designed two-year associate degree at SBI, followed by a third year at QUT, to qualify for the Bachelor of Technology degree. In their second year students study units from QUT and SBI which form part of the Advanced Diploma, and in third year students study one module at SBI together with their QUT units to complete their Bachelor of Technology (Civil) degree.

Subject to final approval.

Special Course Requirements
A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience/practice in an engineering environment approved by the course coordinator.
Bachelor of Engineering (Civil) (CE44)

Year offered: 2009
Admissions: No
CRICOS code: 037544G
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,500 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February (July entry available to students with Advanced Standing)
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.

OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Additional Admission Information
The CE44 Bachelor of Engineering (Civil) course has been replaced by EN40 Bachelor of Engineering (Civil) from 2006 onwards. There will be no intake into the CE44 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Civil engineers plan, design, construct, operate and maintain roads, bridges, dams, water supply schemes, sewerage systems, transportation, harbours, canals, dockyard facilities, airports, railways, factories and large buildings. Civil engineers may gain employment with Local State and Commonwealth Governments, semi-government agencies, construction firms, power generating authorities, mining firms, property developers and consulting engineering firms. A small number are employed in research activities and teaching. After obtaining suitable experience there is also the opportunity to establish their own consulting engineering practice.

Overview

Professional Recognition
This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, The Institution of Engineers, Ireland and the various professional engineering registry bodies in the USA.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Mid-year entry
The CE45 Bachelor of Engineering (Civil) midyear course has been replaced by EN40 Bachelor of Engineering (Civil) from 2006 onwards. There will be no intake into the CE45 course in 2006 with the exception of QTAC applicants commencing their studies with at least 72 credit points of advanced standing (academic credit).

If offered a place, you may be are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Civil) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Further Information
Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Civil Engineer, Environmental Engineer.
Bachelor of Engineering (Civil) (CE45)

Year offered: 2009
Admissions: No
Domestic fees (indicative): 2009: CSP $3,568 (indicative)
per semester

OP Guarantee: Yes
Total credit points: 384
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Additional Admission Information
The CE46 Bachelor of Engineering (Civil and Environmental Management) course has been replaced by EN40 Bachelor of Engineering (Civil and Environmental Management) from 2006 onwards. There will be no intake into the CE46 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Environmental management is concerned mainly with the assessment and management of the effect of human and other activity on the environment. Graduates apply their skills to find solutions for the management of liquid and solid waste, or air and noise pollution. Graduates can be employed by government bodies and private companies involved with the environmental aspects of planning, designing, constructing and monitoring of structures and facilities including mines, factories, power stations, water and waste water treatment plants and refineries. As legislation becomes more stringent and the community's expectations increase, there will be need for institutions to employ more environmental engineers.

Overview
The course provides technical education civil, environmental engineering and science as well as environmental management skills in urban infrastructure and mining development will be taught. The course also teaches social, legal government and economic topics related to sustainable development.

Professional Recognition
This course has provisional accreditation from Engineers Australia (EA).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of 4 units from one study area that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Civil and Environmental Management) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Deferment
QUT's deferment policy does not apply to this course.

Further Information
Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Civil Engineer, Environmental Engineer.
Bachelor of Applied Science (Construction Management) (CN51)

Year offered: 2009
Admissions: No
CRICOS code: 006363B
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,726 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
QTAC code: 412312: Dfee: 412316
Past rank cut-off: 75. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr John Hayes
Discipline coordinator: Dr Vaughan Coffey
Campus: Gardens Point

Additional Admission Information
The CN51 Bachelor of Applied Science (Construction Management) course has been replaced by UD40 Bachelor of Urban Development (Construction Management) from 2006 onwards. There will be no intake into the CN51 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

Career Outcomes
Graduates employed in the construction process are involved in the coordinating of the construction and maintenance of large building projects, the development of government and corporate policies, the administration of regulations, and the development and research of building systems and products. They may be employed in private organisations such as large construction and development companies or consultancies while some are employed by government departments.

Overview
The course is concerned with the management of the overall process of construction projects and provides detailed understanding of project development from conception, through planning and construction to commissioning and maintenance. It develops skills in how to manage people, materials, equipment and plant while focusing on issues such as cost, time, quality, safety and environment. It educates students to become effective construction managers with comprehensive technological knowledge, management principles and communication skills.

Special Course Requirements
All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of CNB409 Professional Practice 1 and CNB423 Professional Practice 2.

Professional Recognition
Graduates with relevant experience are eligible for membership of the Australian Institute of Building.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Bachelor of Applied Science (Quantity Surveying) (CN53)

Year offered: 2009
Admissions: No
CRICOS code: 003500M
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,726 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
QTAC code: 412332; Dfee: 412336
Past rank cut-off: 72. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr John Hayes
Discipline coordinator: Dr Johnny Wong
Campus: Gardens Point

Additional Admission Information
The CN53 Bachelor of Applied Science (Quantity Surveying) course has been replaced by UD40 Bachelor of Urban Development (Quantity Surveying) from 2006 onwards. There will be no intake into the CN53 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

Career Outcomes
Quantity Surveyors prepare cost estimates and check actual expenditure for large construction projects. They usually work in offices but can also visit building sites, clients and members of teams. Graduates are employed by private quantity surveying firms, government departments and building companies.

Overview
The course prepares students to work as quantity surveyors or building economists. The course covers building management, cost planning and control, building development techniques, building research, computer software application, measurement of construction, and legal issues.

Special Course Requirements
All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of the units Professional Practice 1 and Professional Practice 2. Only international students are eligible to complete a portion of their work experience offshore, and in this case students will receive no assistance in gaining work experience.

Professional Accreditation and Recognition
The course is offered with or without honours. The honours version is fully accredited by the Royal Institution of Chartered Surveyors (RICS), while both the honours and non-honours versions of the course are fully accredited by the Australian Institute of Quantity Surveyors (AIQS) and the Board of Quantity Surveyors Malaysia (BQSM).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. The course coordinator will therefore need to be satisfied that the student fully understands the implications that the minor will have on professional accreditation and recognition before approval to the minor is granted. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Advanced Standing
Up to 4 semesters of advanced standing may be granted, subject to prior learning and qualifications. In the special case of students who complete the QUT BAppSc Construction Management course and are therefore eligible to enter the final year of the BAppSc Quantity Surveying course, these students will find that their studies with at least 240 credit points of advanced standing (academic credit) will be recognised by QUT. All other students will be considered for 120 credit points of advanced standing (academic credit).

Electives
Note A: Electives as listed or an approved elective from other QUT courses.

Further Information
Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

International Entry: February and July
QTAC code: 412322; Dtee: 412326
Past rank cut-off: 77; Dtee: 412326. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information.

OP Guarantee: Yes
Total credit points: 384, or 288 for 3 years early exit option
Course coordinator: Dr John Hayes
Discipline coordinator: Dr Bwembya Chikolwa
Campus: Gardens Point

Additional Admission Information

The CN54 Bachelor of Property Economics course has been replaced by UD40 Bachelor of Urban Development (Property Economics) from 2006 onwards. There will be no intake into the CN54 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

Career Outcomes

Property economics is the profession associated with the management, administration and use of land and property such as office buildings, shopping centres, factories, hotels etc. Graduates work in private practice or as employees of property development, valuation, property management, investment or property finance companies. They may also work in government departments and local authorities concerned with rating, compulsory acquisitions or property development.

Overview

This course is concerned with all aspects of property - investment, asset management, development, valuation and research - with a focus on finance and on the commercial property market sector. The program incorporates a major in finance (through the Faculty of Business) and specialist 4th year programs, with strong industry links.

Special Course Requirements

All students must undertake 60 days' professional work experience during the course as part of CNB390 Professional Practice. All work experience must approved by the course coordinator to verify that it is appropriate. A work experience diary is to be maintained and available for inspection by the unit coordinator as a formal assessment component.

A student registered in the flexible or part-time study program must be employed full-time in an approved organisation for three of the final four years of the course. Part-time study generally involves around 8 formal contact hours per week and some release from employment is required.

Professional Recognition

Graduates with relevant professional experience are eligible for membership of the Australian Property Institute and registration by the Valuers' Registration Board of Queensland. The course is accredited by the Royal Institution of Chartered Surveyors.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Note

Students may elect to complete their studies on the completion of 3 years (or flexible part-time equivalent). Students who select this option will graduate with a Bachelor of Applied Science (Property Economics) degree. This degree provides full domestic accreditation with the Australian Property Institute and Valuers’ Registration Board of Queensland. Students graduating on the four year program have the potential to graduate with honours according to their overall grade point average.

Flexible Mode

Students may take up to 3 units per semester from the full-time timetable.

Further Information

Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment

QUT's deferment policy does not apply to this course.

Special Note

This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Project Developer, Project Manager, Property Development, Property Economist, Property Management, Real Estate.
Graduate Diploma in Project Management (CN64)

Year offered: 2009
Admissions: No
CRICOS code: 006362C
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $8,000 (indicative) per semester
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Jay Yang
(Please refer all course enquiries to Course Leader.)
Discipline coordinator: Associate Professor Bambang Trigunarsyah (Course Leader)
Campus: Gardens Point

Entry Requirements
A relevant bachelor degree from an approved tertiary institution; OR successful completion in CN81 Graduate Certificate in Project Management with a grade point average of 5.0 or better, OR qualifications deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND at least three years of appropriate industry experience after graduation. Students who commence mid-year should enrol in semester 2 units.

Overview
This program is designed to help you advance your professional project management career. Career opportunities are excellent in both public and private sectors, and salaries approach the highest in any industry.

Course Structure
In the Graduate Diploma students complete coursework units from the Masters degree with a range of elective options available. Variations to the recommended study program require prior approval from the course coordinator. School electives are offered subject to an appropriate enrolment each semester.

Persons admitted to the Graduate Diploma who are graduates of the Graduate Certificate in Project Management (CN81) will need to submit an application for Academic Credit form for the units they have already completed.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Construction Manager, Government Officer, Manager, Project Developer, Project Manager, Property Economist.
Master of Project Management (CN77)
Year offered: 2009
Admissions: No
CRICOS code: 016350B
Course duration (full-time): 1.5 years
Course duration (part-time): 3 years
Domestic fees (indicative): 2009: Full fee tuition $8,000 (indicative) per semester
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 144
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Jay Yang
(Please refer all course enquiries to Course Leader.)
Discipline coordinator: Associate Professor Bambang Trigunarsyah (Course Leader)
Campus: Gardens Point

Entry Requirements
A relevant bachelor degree from an approved tertiary institution and demonstrated potential in professional activity to undertake masters degree course, OR successful completion of CN64 Graduate Diploma in Project Management with a grade point average of 5.0 or better, OR qualifications deemed equivalent to the above by the Dean of the Faculty on the recommendation of the course coordinator, AND at least three years appropriate industry experience after graduation.

Overview
This program is designed to help you advance your professional project management career. The Project Management course provides generic project related skills essential for senior managers in a wide range of industries. Career opportunities are excellent in both public and private sectors, and salaries approach the highest in any industry.

Course Structure Information
The first two semesters full-time or four semesters part-time are identical to the Graduate Diploma in Project Management (CN64). Persons admitted to the Masters program who are graduates of the Graduate Diploma in Project Management (CN64) will need to submit an Application for Academic Credit form for the units they have already completed. At the completion of the coursework component of the Masters Degree program but before the completion of the Dissertation, students may elect to exit with the Graduate Diploma in Project Management.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information

Campus: Gardens Point

Entry Requirements
A relevant bachelor degree from an approved tertiary institution; OR
Qualifications and/or relevant training considered to be deemed equivalent to the above by the Dean of Faculty on the recommendation of the course coordinator; AND at least three years of appropriate industry experience.

Related Courses
Graduate Diploma in Property Economics(CN91), Master of Property Economics(CN92)

Overview
The aim of the course is to produce graduates capable of making sound and reasonable judgements in property performance evaluation. The course will provide students with a comprehensive understanding of property as an economic and financial asset; knowledge and skills to evaluate and manage property, a sense of ethical and professional responsibility and the application of these attributes in the property field.

Course Structure
In the Graduate Certificate and Graduate Diploma courses, students complete coursework units from the Masters degree with a range of elective options available. The full-time Graduate Certificate can only be completed in Semester 1 of any year. Students who commence mid-year should enrol in Semester 2 units.

 Majors
While the course provides an overview of property as an asset there are majors in PROPERTY INVESTMENT AND MANAGEMENT and PROPERTY DEVELOPMENT. There are several common units across the majors however applicants are required to select one major.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Overview
Urban Design is primarily concerned with improving through design, the relationship between the many elements that make up urban areas. The course enhances your professional skills through developing an understanding of the social, economic, physical, historical, political, and legal processes which influence the form and structure of urban areas. Particular emphasis is placed on communication skills.

Entry Requirements
A Bachelor of Built Environment in a related discipline with a grade point average of 5 or better and demonstrated potential in a relevant professional activity or a degree or postgraduate qualification, relevant to Urban Design, with the grade point average of 5 or better and demonstrated potential in a relevant professional activity.

Applicants may be granted provisional entry to this course with a modified enrolment program on the basis of alternative academic or professional attainments.

You may be required to undertake a qualifying program to develop design literacy and graphic skills. A three-module full fee paying Summer unit is available for this purpose. Computer literacy is also required.

Course Requirements
Students must complete a minimum of 48 credit points per semester in the full-time course and a minimum of 24 credit points per semester in the part-time course. Students with a grade point average of 5 or better may articulate into the Masters program after one semester full-time or two semesters part-time study.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Urban and Regional Planner, Urban Designer.
Master of Built Environment (Urban Design) (DB73)

Discipline coordinator: Dr Kathi Holt-Damant (Course Leader)
Campus: Gardens Point

Overview
Urban design is primarily concerned with improving through design, the relationship between the many elements that make up urban areas: buildings, places, spaces and movement and service systems. The course aims to enhance your professional skills through developing an understanding of the social, economic, physical, historical, political, and legal processes which influence the form and structure of urban areas. Particular emphasis is placed on communication skills.

Entry Requirements
Applicants are considered initially for acceptance in the Graduate Diploma in Urban Design. At the completion of 48 credit points students will be considered for articulation to the Master of Built Environment (Urban Design) subject to a grade point average of 5.0 or better in the course.

Applicants may be granted provisional entry to the Graduate Diploma courses with a modified enrolment program on the basis of alternative academic or professional attainments. Some applicants may be required to undertake a qualifying program to develop design literacy and graphic skills. A three-module full-fee paying Summer unit is normally available for this purpose. Computer Literacy is also required.

Focus in the Masters Program
The Masters program includes skills and knowledge development through set coursework in common with the Graduate Diploma in Urban Design, but also requires individual research and the writing of a dissertation. An Urban Design Master Studio is conducted over the Summer semester.

Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Paul Sanders
Campus: Gardens Point

Overview
Design is the focus of this course; these studies are supported by studies in architectural technology, history and culture of architecture, ethical and legislative frameworks, and the study of architecture in practice.

Career Outcomes
The Bachelor of Design (Architectural Studies) is a four-year full-time pre-professional degree in architecture. Graduates of this course may articulate into the Master of Architecture.

Architects design buildings, provide concepts, specifications, detailed drawings and plans. They oversee construction, negotiate with planning authorities and inspect the work in progress. They are required to have design skills and technical knowledge of materials and processes used in construction. Architects can be employed in general practice or choose to specialise. Some of the specialisations available are commercial, industrial and institutional developments, historic building conservation and housing renovation. They can also be involved in project feasibility studies and strategic asset investigations. Architecture embraces art, technology and service. Architects play a leading role in interdisciplinary teams to solve problems of the built environment. A Bachelor of Architecture gives graduates exciting career choices and the opportunity to travel and work in Australia or overseas.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Minors
You will be able to select from two 4 unit approved minors or one 8 unit approved major to enhance and broaden your knowledge in a related field or an area of interest.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
The School of Design - Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Professional Recognition
This course received a successful Preliminary Assessment by the RAIA/AACA/Board of Architects of Queensland in 2006. This is the first step in a three-stage process to obtain full recognition and accreditation. Full accreditation will occur in 2010 when the first cohort graduates from the Master of Architecture (DE80).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Andrew Scott
Campus: Gardens Point

Overview
Students in this course develop their capacity to contribute to the design of products and systems for the mutual benefit of users and manufacturers of a wide range of products.

Career Outcomes
Industrial designers create and produce commercial and industrial products to improve people's lives. They make models and prototypes of designs that cover a wide range of manufactured goods from toasters to computer terminals to rapid transport systems. When designing new or improving existing products they must consider factors influencing product design such as usability, costs, materials, technology or environment. They research product usage, make detailed drawings and supervise the construction of prototypes for testing. They mainly work in small business or consulting practices. QUT Industrial Design graduates are working worldwide in places such as the UK, Singapore and France.

Minors
You will be able to select from two 4 unit approved minors or one 8 unit approved major to enhance and broaden your knowledge in a related field or an area of interest.

Further Information
The School of Design - Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Professional Recognition
The Bachelor of Design (Industrial Design) is recognised by DIA (Design Institute of Australia). Graduates of this course are eligible for DIA Membership. Industrial Design QUT is also an Educational member of ICSID (International Council of Societies of Industrial Design).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

**Potential Careers:**

Industrial Designer.
Bachelor of Design (Interior Design)
(DE40)
Year offered: 2009
Admissions: Yes
CRICOS code: 056386C
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,563 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412362
Past rank cut-off: 87
Past OP cut-off: 8
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Mr Mark Taylor
Campus: Gardens Point

Careers Outcomes
Interior designers plan and execute the layout, finishes, lighting, fittings and furnishings in domestic interior design, retail and entertainment industry design, hospitality industry design, commercial office and corporate design. Interior designers may work as consultants or with a design company. They may also seek work involving production design for film, television and theatre as well as furniture and exhibition design. There is a trend for Australian interior design companies to practice in South-East Asia and bid competitively for international commissions.

Overview
Students undertaking this course receive a general background in studies in built environment combined with a series of experience exercises relating to basic design & specifically to interior design.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Professional Recognition
Successful completion of the Bachelor of Design (Interior Design) is recognised by the Design Institute of Australia as meeting the basic requirements for professional practice.

Minors
You will be able to select from two 4 unit approved minors or one 8 unit approved major to enhance and broaden your knowledge in a related field or an area of interest.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
The School of Design - Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Interior Designer.
Bachelor of Design (Landscape Architecture) (DE40)

Year offered: 2009
Admissions: Yes
CRICOS code: 056386C
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,563 per semester (indicative)
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412342
Past rank cut-off: 77
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Ms Sheona Thomson
Discipline coordinator: Dr Jeannie Sim
Campus: Gardens Point

Overview
Landscape Architecture is concerned with the ordered design of open spaces at all scales: the appearance, atmosphere, and suitability of environment to assure its health and welfare and that of its inhabitants. Your course covers landscape theory and design, professional values, environment theory, graphic and other communication, and landscape construction supported by project and field work.

Career Outcomes
Landscape Architecture is predominantly a young profession with an increasing number of female practitioners. Sixty per cent of the profession is employed in private consultancies of landscape architects, architects, planners, urban designers and engineers. They are engaged primarily in site planning, site design, planting design and, to a lesser degree, landscape planning. Other opportunities for employment occur in the design sectors of government agencies. Some graduates work freelance on a contractual basis.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Professional Recognition
This course is accredited by the Australian Institute of Landscape Architects.

Minors
You will be able to select from two 4 unit approved minors or one 8 unit approved major to enhance and broaden your knowledge in a related field or an area of interest.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
The School of Design - Phone +61 7 3138 2626, Fax +61 7 3138 5280, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

### Potential Careers:
Landscape Architect.
Master of Design (Urban Design) (DE50)

Year offered: 2009
Admissions: Yes
CRICOS code: 060812M
Course duration (full-time): 1 year
Course duration (part-time): 2 years

Overview

The Master of Design addresses the issues of professional development in the design fields of built environment and engineering. It aims to enhance and advance your skills and understanding of the design disciplines through explorations in social, historic, economic, legal, and technological processes and systems that act upon our environments and products. This course advances abilities in visual and design literacy, communication, and design processes, through the integration of aspects of sustainability, project management, leadership, and design project applications. Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry Requirements

A four-year full-time bachelor degree in a relevant discipline area, or equivalent qualification determined by the Faculty, and a grade point average of 5.0 or more (on a 7-point scale) in that study. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Career Outcomes

Graduates may choose to become specialist urban designers within their chosen professional field, or use the skills and knowledge gained to diversify their capabilities across a broader spectrum of design disciplines. In particular this course provides the skills and knowledge to become a leader and manager of urban design processes, both in the development and implementation of urban design policy and urban design practice. Graduates may typically work in either private practice as urban designers, or in government organisations as urban policy developers and implementers.

Advanced Standing

Students completing two Masters courses in the Faculty of Built Environment and Engineering will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

### Potential Careers:
- Urban Designer.
Bachelor of Engineering (Electrical and Computer Engineering) (EE41)

Year offered: 2009
Admissions: No
CRICOS code: 003490G
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February (July entry available to students with Advanced Standing)
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Bouchra Senadj
Campus: Gardens Point

Additional Admission Information
The EE41 Bachelor of Engineering (Electrical and Computer Engineering) course has been replaced by EN40 Bachelor of Engineering (Electrical) from 2006 onwards. There will be no intake into the EE41 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program. If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems. They may specialise as electrical power engineers, electrical design engineers, communications or computer engineers. Graduates find employment with electricity boards, government and semi-government departments, large manufacturing and engineering companies.

Overview
This degree offers a balanced mix of theory and practice with the objective of preparing graduates for the work environment. Students will receive a thorough grounding in the engineering sciences and hands-on, practical experience in real world problem solving and application of theory to suit industry needs.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is professionally recognised by many international professional institutions including the Professional Engineers Board Singapore.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Mid-year Entry
The EE42 Bachelor of Engineering (Electrical and Computer Engineering) course has been replaced by EN40 Bachelor of Engineering (Electrical) from 2006 onwards. There will be no midyear intake into the EE42 course in 2007 with the exception of QTAC applicants commencing their studies with at least 168 credit points of advanced standing (academic credit).

If offered a place, you may be are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Industry Cooperative Education Program
High achieving domestic students in third year may also be eligible to participate in the Industry Cooperative Education Program, based on a three-way partnership between the student, University and industry, and involving a full-time, one semester, paid and supervised workplace position with the industry partner.

Special Course Requirements
To graduate, students must complete at least 60 days industrial experience in an engineering environment which is approved by the course coordinator.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Electrical and Computer Engineer, Electrical Engineer.
Bachelor of Engineering (Electrical and Computer Engineering) (EE42)

Year offered: 2009
Admissions: No

Domestic fees (indicative): 2009: $3,568 (indicative) per semester

International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Bachelor of Engineering (Computer Systems) (EE46)

Year offered: 2009
Admissions: No
CRICOS code: 040309C
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Additional Admission Information
The EE46 Bachelor of Engineering (Computer Systems) course has been replaced by EN40 Bachelor of Engineering (Computer Systems) from 2006 onwards. There will be no intake into the EE46 course in 20078 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Graduates will be employed as design engineers, software engineers, hardware engineers, computer system engineers, information systems engineers, research and development engineers and project managers.

Overview
Students will study units from both electrical engineering and computing from a computer-based systems perspective. The course aims to produce students who are employable as design engineers, software and hardware engineers, computer systems engineers, and information systems engineers.

Professional Recognition
The course is provisionally accredited by Engineers Australia (EA).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Optional Pathways
Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Telecommunications) course can change to the Bachelor of Engineering (Computer Systems) at the end of the first year without loss of credit, subject to approval from the course coordinator and meeting minimum course requirements.

Special Course Requirements
Students must complete at least 60 days industrial experience in order to graduate.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Computer Systems Engineer, Electrical and Computer Engineer, Systems Programmer.
Bachelor of Engineering (Telecommunications) (EE47)

Year offered: 2009
Admissions: No
CRICOS code: 040308D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Additional Admission Information
The EE47 Bachelor of Engineering (Telecommunications) course has been replaced by EN40 Bachelor of Engineering (Telecommunications) from 2006 onwards. There will be no intake into the EE47 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Telecommunications engineers are involved in the design, planning, commissioning and monitoring of complex telecommunications networks and broadcasting equipment. As a result of the rapid increase in telecommunications technology, Australia currently faces a shortage of experienced telecommunications engineers. Prospective employers include all the major carrier companies such as Telstra, Optus, Vodafone, as well as mobile phone manufacturers such as Voxson, Motorola and Nokia. Other prospective employers are electronic equipment manufacturers and private and government bodies involved in Information Technology (IT), Telecommunication design and development.

Overview
Students study a combination of units from the School of Electrical and Electronic Systems Engineering, School of Computer Science and Software Engineering, School of Data Communication and the School of Mathematics. Areas covered include innovative communications technologies including the Internet, wireless mobile communication systems, optical fibre communications, satellite communication systems ADSL and other fast modem technologies, Bluetooth and HDTV.

Professional Recognition
The course is provisionally accredited by Engineers Australia (EA).

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Optional Pathway
Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Computer Systems) course may transfer to the Bachelor of Engineering (Telecommunications) at the end of the first year without loss of credit, subject to approval from the course coordinator, and meeting minimum course requirements.

Special Course Requirements
Students must complete at least 60 days of industrial experience in order graduate.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Deferment
QUT’s deferment policy does not apply to this course.

Potential Careers:
Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer.
Bachelor of Engineering (Aerospace Avionics) (EE48)

Year offered: 2009
Admissions: No
CRICOS code: 037543G
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412512
Past rank cut-off: 92. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-tyer
Discipline coordinator: Dr Felipe Gonzalez
Campus: Gardens Point

Additional Admission Information
The EE48 Bachelor of Engineering (Aerospace Avionics) course has been replaced by EN40 Bachelor of Engineering (Aerospace Avionics) from 2006 onwards. There will be no intake into the EE48 course in 2008 with the exception of QTAC applicants commencing their studies with at least 264 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Aerospace Engineers are involved in the design, development, manufacture and maintenance work on aeroplanes, helicopters, spacecraft and satellites. Graduates are employed by the RAAF, RAN and by government bodies such as the Defence Research Centres and the Civil Aviation Authority. There are also career opportunities with aerospace companies, aircraft maintenance and aeronautical consulting services. Opportunities outside aerospace also exist in the areas of electronics, process control, instrument manufacture and automotive equipment.

Overview
Students study aerodynamics, aircraft control systems, avionics navigation and communication. In later years of the degree, specialist study is undertaken in design of aircraft and satellite systems including systems engineering methodology, aircraft and satellite technology and applications. As many of the teaching staff are involved in relevant research with government and industry sectors, students have the opportunity to work on real projects during their studies.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is also professionally recognised by many international professional institutions.

Minors
Subject to the approval of the course coordinator, students in this course may gain a minor in Systems Engineering by choosing the same group project through the Aerospace Design units and the final year project providing they comply with Systems Engineering principles.

Optional Pathway
Subject to normal course entry rules students may transfer internally from the QUT Bachelor of Engineering (Electrical and Computer Engineering) course to this degree after the completion of the first year full-time if they have obtained a sufficiently high grade point average that will meet the course cut-off for that year.

Articulation to Masters
Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

Special Course Requirements
In order to graduate students in this course must complete 60 days industrial experience before graduating. An additional 10 days specialist industrial experience must be obtained in the aerospace avionics industry.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with the regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a
fee-paying student.

**Special Note**
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

**Potential Careers:**
Aerospace Avionics Engineer.
Graduate Diploma in Computer and Communications Engineering (EE67)

Year offered: 2009
Admissions: No
CRICOS code: 015184G
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester

Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.

Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Jay Yang
(Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Michael Mason (Course Leader)
Campus: Gardens Point

Entry Requirements
Applicants for the Graduate Diploma must hold a bachelor degree in Electrical Engineering, Information Technology or equivalent; or have successfully completed the Graduate Certificate in Computer and Communications Engineering.

Overview
This course develops your in-depth knowledge and research skills in computer engineering, communications engineering, and several related areas. You can specialise in either computer or communications engineering or take subjects in both. Computer Engineering covers important contemporary topics such as software development, hardware development computer networks and communications, real time operating systems, and application of computers in robotics, process control, image processing and computer vision. Communications Engineering covers advanced digital communication, signal processing techniques, hardware and software components in communications systems and various applications areas.

Course Structure
Graduate Diploma students select a total of eight units from Semester 1 and Semester 2 lists.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Computer Systems Engineer, Electrical and Computer Engineer, Software Engineer.
Master of Engineering Science (Computer and Communications Engineering) (EE74)

Year offered: 2009
Admissions: No
CRICOS code: 040343A
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester

Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.

International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.

Total credit points: 96
Standard credit points per full-time semester: 48

Course coordinator: Associate Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Michael Mason (Course Leader)
Campus: Gardens Point

Entry Requirements
Applicants for the Masters program must hold a bachelor degree in Electrical Engineering, Information Technology or Science with at least second class honours or equivalent; or have partially completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better over the first 4 units; or successfully completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better; or successfully completed the Graduate Certificate in Computer and Communications Engineering (EE61) with a grade point average of 5 or better.

Overview
This course develops your in-depth knowledge and research skills in computer engineering, communications engineering, and several related areas. You can specialise in either computer or communications engineering or take subjects in both. Computer Engineering covers important contemporary topics such as software development, hardware development computer networks and communications, real time operating systems, and application of computers in robotics, process control, image processing and computer vision. Communications Engineering covers advanced digital communication, signal processing techniques, hardware and software components in communications systems and various applications areas.

Masters Qualifying Program
Applicants who do not meet the entry requirements outlined above, will be required to enrol in the first semester of the Graduate Diploma in Computer and Communications Engineering (EE67). If in this first semester a sufficiently high standard is attained, then candidates will be invited to change enrolment to the Masters program. Otherwise they will continue their studies in the Graduate Diploma in Computer and Communications Engineering towards that award.

Masters Upgrade Program
Those who have completed the Graduate Diploma in Computer and Communications Engineering (EE67) may upgrade by undertaking further study in the Master of Engineering Science (Computer & Communications Engineering) and be given credit for the units which they have completed at Graduate Diploma level. The structure of the course dictates that this upgrade program be undertaken on a part-time basis.

Students undertaking the Masters Upgrade Program will enrol in the following units:
EEP301/1 Project
EEP301/2 Project.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Computer Systems Engineer, Electrical and Computer Engineer.
Master of Engineering Science (Electrical Engineering Studies) (EE77)

Year offered: 2009
Admissions: No
CRICOS code: 042260K
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $7,000 (indicative) per semester
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 96
Course coordinator: Associate Professor Jay Yang
(Discipline coordinator: Dr Michael Mason (Course Leader)
Campus: Gardens Point

Entry Requirements
Applicants for the Masters program must hold a bachelor degree in Electrical Engineering, Information Technology or Science with at least second class honours or equivalent; or have partially completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better over the first 4 units; or successfully completed the Graduate Diploma in Computer and Communications Engineering with a grade point average of 5 or better; or successfully completed the Graduate Certificate in Computer and Communications Engineering (EE61) with a grade point average of 5 or better.

Overview
This course develops your in-depth knowledge and research skills in computer engineering, communications engineering, and other areas of electrical and associate engineering disciplines. You can broaden your knowledge in project management type units for mechanical and civil engineering courses or specialise in either computer or communications engineering or take subjects in both. The Computer Engineering stream covers important contemporary topics such as software development, computer networks and communications, real time operating systems, and application of computers in robotics, process control, image processing and computer vision. The Communications Engineering stream covers advanced digital communications systems, and various applications.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Potential Careers:
Bachelor of Engineering (Aerospace Avionics) (EN40)

Year offered: 2009
Admissions: No
CRICOS code: 056529D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: $3,577 (indicative) per semester
International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 412502
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.edu.au
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Felipe Gonzalez
Campus: Gardens Point

Additional Admission Information
Applicants who are offered place and eligible to receive 264 credit points (or more) of advanced standing will be admitted to the EE48 Bachelor of Engineering (Aerospace Avionics).

Recommended Study
Chemistry, Math C and Physics.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Aerospace Engineers are involved in the design, development, manufacture and maintenance work on aeroplanes, helicopters, spacecraft and satellites. Graduates are employed by the RAAF, RAN and by government bodies such as the Defence Research Centres and the Civil Aviation Authority. There are also career opportunities with aerospace companies, aircraft maintenance and aeronautical consulting services. Opportunities outside aerospace also exist in the areas of electronics, process control, instrument manufacture and automotive equipment.

Overview
Students study aerodynamics, aircraft control systems, avionics navigation and communication. In later years of the degree, specialist study is undertaken in design of aircraft and satellite systems including systems engineering methodology, aircraft and satellite technology and applications. As many of the teaching staff are involved in relevant research with government and industry sectors, students have the opportunity to work on real projects during their studies.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Optional Pathway
Subject to normal course entry rules students may transfer internally from the QUT Bachelor of Engineering (Electrical) course to this degree after the completion of the first year full-time if they have obtained a sufficiently high grade point average that will meet the course cut-off for that year.

Special Course Requirements
Students must complete 60 days approved industrial experience in an engineering environment as approved by the course coordinator, including 10 days specialist experience in the avionics industry. Students will complete their industrial experience component within a unit of Work Integrated Learning.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Engineering Systems - Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 384
Standard credit points per full-time semester: 48

Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Recommended study
Chemistry, Maths C and Physics.

Career Outcomes
Construction engineering is suited to people attracted to the intellectual rigour of engineering, but with a bias towards the challenge of converting design into physical reality. While the course retains sufficient traditional civil engineering to enable graduates to work in consultant's offices, most would be employed by civil construction companies and Government Departments. Commercial and legal studies equip graduates to progress through the management structures of these organisations or to establish companies of their own. The range of work undertaken by civil construction companies ranges from residential land development through earthworks, tunnels, roads and dams to airports, marine facilities, major bridges and complex buildings. The world wide trend towards design and construction being undertaken within one organisation, acts to advantage engineers competent in both.

Overview
This course combines civil engineering with construction management, you will study civil engineering subjects combined with the requirements for managing the construction of large projects.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Civil and Construction) must complete at least 60 days of industrial experience/ practice in an engineering construction environment as approved by the course coordinator.

Minors
You will have the opportunity to undertaken two minors(a minor is four units or 48 credit points) in the same discipline. For professional recognition you will undertake an Applications Minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second minor may be taken from an approved list outside your discipline.

International Student Entry
International students who are interested in mid-year entry should consult the Faculty of Built Environment and Engineering Student Services section regarding the course structure to be undertaken.

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Additional Admission Information
Applicants who are offered a place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the CE46 Bachelor of Engineering (Civil and Environmental).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
Environmental management is concerned mainly with the assessment and management of the effect of human and other activity on the environment. Graduates apply their skills to find solutions for the management of liquid and solid waste, or air and noise pollution. Graduates can be employed by government bodies and private companies involved with the environmental aspects of planning, designing, constructing and monitoring of structures and facilities including mines, factories, power stations, water and waste water treatment plants and refineries. As legislation becomes more stringent and the community's expectations increase, there will be need for institutions to employ more environmental engineers.

Overview
This course will provide you with the technical eduscation in civil, environmental engineering and science as well as enviromental management skills and mining and sustainable development.

Minors

You will have the opportunity to undertake two minors; a minor is four units (48 credit points) in the same discipline. For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second minor may be taken from an approved list outside your discipline.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Civil and Environmental) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Year offered: 2009
Admissions: No
CRICOS code: 056529D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,577 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 412502
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Fraser McGregor
Campus: Gardens Point

Additional Admission Information
Applicants who are offered a place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the CE44 Bachelor of Engineering (Civil).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
Civil engineers plan, design, construct, operate and maintain roads, bridges, dams, water supply schemes, sewerage systems, transportation, harbours, canals, dockyard facilities, airports, railways, factories and large buildings. Civil engineers may gain employment with Local, State and Commonwealth Governments, semi-government agencies, construction firms, power generating authorities, mining firms, property developers and consulting engineering firms. A small number are employed in research activities and teaching. After obtaining suitable experience there is also the opportunity to establish their own consulting engineering practice.

Overview
This course allows you to develop your knowledge in a number of areas such as: Structural Analysis and Design, Computer Applications, Transport Engineering, Environmental Engineering, Geotechnical Mechanics, Water Engineering, Construction Management, Waste Management. Environmental major; Sustainable development, waste management, toxic site rehabilitation, water & wastewater.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Minors
You will have the opportunity to undertake two minors; a minor is four units (48 credit points) in the same discipline. For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second minor may be taken from an approved list outside your discipline.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Civil) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Applications Minor Selectives

**Semester 1:**
- ENB379  | Transport Engineering and Planning Applications
- ENB380  | Environmental Law and Assessment
- ENB384  | Design of Masonry Structures
- ENB473  | Design and Construction of Multi-storey Buildings
- ENB475  | Structural Engineering 3
- ENB478  | Advanced Water Engineering
- ENB485  | Advanced Geotechnical Engineering Practice

**Semester 2:**
- BEB802  | Project 2
- ENB373  | Design and Construction of Steel Structures
- ENB383  | Environmental Resource Management
- ENB474  | Finite Element Methods
- ENB476  | Civil Engineering Design Project
- ENB481  | Civil Engineering Project Management

### Course structure - mid year entry

**Year 2 - Semester 1**
- BEB100  | Introducing Professional Learning
- ENB271  | Design of Structural Timber and Earthworks
- ENB272  | Geotechnical Engineering 1
- ENB273  | Civil Materials
- MAB233  | Engineering Mathematics 3

### Course Structure - Structural Engineering 2nd major

Civil major students who elect to do this 2nd major, will follow the first 2 years of the standard program and then continue with the following program:

**Year 3, Semester 1**
- ENB372  | Design and Planning of Highways
- ENB375  | Structural Engineering 2
- ENB378  | Water Engineering
- ENB384  | Design of Masonry Structures

**Year 3, Semester 2**
- ENB371  | Geotechnical Engineering 2
- ENB373  | Design and Construction of Steel Structures
- ENB376  | Transport Engineering
- ENB377  | Water and Waste Water Treatment Engineering

**Year 4, Semester 1**
- BEB801  | Project 1
- ENB471  | Design of Concrete Structures and Foundations
- ENB475  | Structural Engineering 3

**Year 4, Semester 2**
- BEB701  | Work Integrated Learning 1
- ENB472  | Project Engineering 2
- ENB474  | Finite Element Methods

### Second Major Selectives

**Semester 1:**
- DAB110  | Architectural Design 1
- ENB473  | Design and Construction of Multi-storey Buildings
- ENB485  | Advanced Geotechnical Engineering Practice

**Semester 2:**
- BEB802  | Project 2
- DAB210  | Architectural Design 2
- ENB476  | Civil Engineering Design Project
- ENB481  | Civil Engineering Project Management

### Course Structure - Transport Engineering and Planning 2nd major

Civil major students who elect to do this 2nd major, will follow the first 2 years of the
standard program and then continue with the following program:

**Potential Careers:**
Civil Engineer, Engineer, Environmental Engineer.
Bachelor of Engineering (Computer Systems) (EN40)

Year offered: 2009
Admissions: No
CRICOS code: 056529D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,577 (indicative) per semester
International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 412502
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Additional Admission Information
Applicants who are offered place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the EE46 Bachelor of Engineering (Computer Systems).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
Graduates will be employed as design engineers, software engineers, hardware engineers, computer system engineers, information systems engineers, research and development engineers and project managers.

Overview
Students will study units from both electrical engineering and computing from a computer-based systems perspective. The course aims to produce students who are employable as design engineers, software and hardware engineers, computer systems engineers, and information systems engineers.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Optional Pathways
Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Telecommunications) course can change to the Bachelor of Engineering (Computer Systems) at the end of the first year without loss of credit, subject to approval from the course coordinator and meeting minimum course requirements.

Special Course Requirements
Students must complete at least 60 days industrial experience in order to graduate.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Engineering Systems - Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Additional Admission Information
Applicants who are a offered place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the ME40 Bachelor of Engineering (Infomechatronics).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
This leading edge degree provides graduates with the combined skills of mechanical engineering, electrical and electronic engineering and information technology to work in the high tech fields of automated systems and robotics for the design, development, construction and service of modern equipment and plant. Graduates from this degree may expect to find employment as consultants, project managers, designers, and maintenance and instrumentation engineers in a wide variety of work situations. The range of employment opportunities is diverse and extensive. Some typical examples of organisations may include: manufacturing plants of consumer products, computer peripherals manufacturers/maintenance companies, automobile manufacturing industries, large scale manufacturing/maintenance industries such as Boeing, instrumentation industries, communication companies, research organisations, food and food processing industries and software development companies.

Overview
This course bridges the three, traditionally separate, disciplines of Mechanical Engineering, Electrical and Electronic Engineering, and Computing and provides the combined skills required for the design, development, construction and service of modern systems and equipment. Advanced units emphasis the integration of knowledge and skills that impact on all aspects of the design, construction and service of modern computer controlled machines. In the final year a one-semester industry project will integrate and reinforce what has been learned through application in a real world setting.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Minors
For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised engineering units.

Special Course Requirements
Students must obtain at least 60 days of industrial work experience in an engineering environment approved by the course coordinator.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Engineering Systems - Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Additional Admission Information
Applicants who are offered place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the ME41 Bachelor of Engineering (Mechanical).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
The Bachelor of Engineering (Mechanical) provides a sound education in the basic engineering sciences, synthesis and design, engineering management functions, and the social, economic and ethical aspects of engineering practice. Graduates from this degree may find employment in a variety of roles: consultant, project manager or technical adviser where they maybe involved in the operation of large, integrated energy-based plants such as mining, power stations, sugar factories, oil refineries etc. Others may work under the guidance of more experienced staff selecting equipment, installing and commissioning plants. Some graduates will go into design offices or manufacturing plants where they will be concerned principally with the logistics of production and the efficient management of people and systems.

Overview
This degree offers a balanced mix of theory and practice with the objective of preparing graduates for the work environment. Students will receive a thorough grounding in the engineering sciences and hands-on, practical experience in real world problem solving and application of theory to suit industry needs.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Minors
You will have the opportunity to undertaken two minors; a minor is four units (48 credit points). For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and 2 specialised engineering units. The second minor may be taken from an approved list outside your discipline.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Mechanical) must complete at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Engineering Systems - Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses admitted to the ME41 Bachelor of Engineering (Mechanical).

Domestic fees (indicative)
2009: CSP $3,577 (indicative)
2009: $11,250 (indicative) per semester

International Fees
2009: $11,250 (indicative) per semester (subject to annual review)

Minors
ENB105 Electrical and Computer Engineering
ENB211 Dynamics
ENB231 Materials and Manufacturing 1
MAB233 Engineering Mathematics 3

Year 2 - Semester 1
BEB200 Introducing Sustainability
ENB201 Fluid Mechanics
ENB215 Fundamentals of Mechanical Design
ENB222 Thermodynamics 1

Year 2 - Semester 2
Please note:
Students wishing to undertake CEED based
Industry Project should consult the Subject Area Coordinator to provide a program for the final 2 years. CEED program requires that you undertake units BEB701, BEB801 and BEB802 together in either Semester 1 or 2.

#### Second Major Selectives

- Semester 1:
  - BSB126 Marketing
  - ENB435 Computer Integrated Manufacturing

- Semester 2:
  - BSB115 Management
  - ENB422 Energy Management

- Students may choose any other unit related to management approved by the Subject Area Coordinator.

### Course structure - Automotive Engineering 2nd major

#### Mechanical major students who elect to do this 2nd major, will follow the first 2 1/2 years of the standard program and then continue with the following program:

#### Year 3, Semester 2

DNB202  Product Usability

**Potential Careers:**
Engineer, Mechanical Engineer.
Bachelor of Engineering (Medical) (EN40)

Year offered: 2009
Admissions: No
CRICOS code: 056529D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,577 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 412502
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
Graduates from this degree may expect to find employment in hospitals as advisors to health and medical professionals, in firms concerned with the design, manufacture, supply and maintenance of medical, health and sporting equipment, occupational health agencies and in research institutions. In the early stages of their careers biomedical engineers might expect to be involved in the innovative use of technology, in the design of new devices and the assessment of appropriate engineering solutions to medical problems. More experienced biomedical engineers manage Biomedical Engineering Departments in hospitals and manufacturing companies and lead teams of engineers and technologists in the development of engineering solutions to improve health care.

Overview
This degree integrates physical, chemical, mathematical, and computational sciences and engineering principles to study human biology, medicine, human behaviour and health. It will provide you with the skills to design, manufacture, install, monitor and maintain medical and surgical equipment and to provide advice on engineering matters to medical and allied staff. Current issues such as total quality management and health legislation are also covered. In the final year, students undertake a design project in the biomedical field.

Special Course Requirements
Students must obtain at least 60 days of industrial employment in an engineering environment approved by the course coordinator. Half of this experience must be in an industry related to Biomedical Engineering.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Minors
For professional recognition you will undertake an applications minor which consists of a workplace intergrated learning unit, a project unit and two specialised engineering units.

Further Information
School of Engineering Systems - Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Additional Admission Information
Applicants who are offered a place and eligible to receive 168 credit points (or more) of advanced standing will be admitted to the EE47 Bachelor of Engineering (Telecommunications).

Recommended Study
Chemistry, Maths C and Physics.

Career Outcomes
Telecommunications engineers are involved in the design, planning, commissioning and monitoring of complex telecommunications networks and broadcasting equipment. As a result of the rapid increase in telecommunications technology, Australia currently faces a shortage of experienced telecommunications engineers. Prospective employers include all the major carrier companies such as Telstra, Optus, Vodafone, as well as mobile phone manufacturers such as Voxson, Motorola and Nokia. Other prospective employers are electronic equipment manufacturers and private and government bodies involved in Information Technology (IT), Telecommunication design and development.

Overview
You will study a combination of units from Electrical Engineering, Computer Science, Software Engineering, Data Communications and Mathematics. Areas covered include innovative communications technologies including the Internet, wireless mobile communication systems, optical fibre communications, satellite communication systems ADSL and other fast modem technologies, Bluetooth and HDTV.

Professional Recognition
Full professional accreditation from Engineers Australia has been given for this course.

Optional Pathways
If you enter the Bachelor of Engineering (Electrical)/Bachelor of Information Technology course or the Bachelor of Engineering (Computer Systems) course, subject to the approval of the course coordinator, and if you meet the minimum course requirements you can apply to change to the Bachelor of Engineering (Telecommunications) at the end of the first year without loss of credit.

Special Course Requirements
To graduate you must complete at least 60 days of approved industrial experience in an engineering environment.

Further Information
School of Engineering Systems - Phone +61 7 3864 1993, Fax +61 7 3864 1516, email: bee.enquiries@qut.com

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

### IT Elective

Students are allowed to choose an IT unit at the appropriate level approved by the Subject Area Coordinator.

### Potential Careers:

Electrical and Computer Engineer, Electrical Engineer, Engineer.
Bachelor of Engineering - Dean's Scholars Program (EN40)

Year offered: 2009
Admissions: Yes
CRICOS code: 056529D
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,577 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 412052
Past rank cut-off: 99 plus successful questionnaire. Please refer to Additional Entry Requirements.
Past OP cut-off: 1 plus successful questionnaire. Please refer to Additional Entry Requirements.
Assumed knowledge: English (4, VHA) and Maths B (4, VHA)
Total credit points: 384
Course coordinator: Dr R.Mahalinga-Iyer
Campus: Gardens Point

Entry requirements
Applicants must be outstanding current, or returning from a gap year, Year 12 students.

Additional Entry Requirements
Engineering Dean's Scholars applicants are required to complete a questionnaire which will be available via the Engineering Dean's Scholars website.

Shortlisted applicants may be required to attend an interview and will be notified of date and venue after the questionnaire closes.

Fixed Closing Date
Applications for this program will close on 28 November 2008.

Recommended Study
Chemistry, Maths C and Physics.

Course Structure
The Dean's Scholars Program offers students the opportunity to complete one of the Bachelor of Engineering programs and a Master of Engineering whilst providing a number of opportunities, which include;

- Introduction to the Engineering environment and high-level engineering management through company site visits;
- Boardroom visits to sponsoring companies to introduce you to prospective employers and engineering managers;
- Leadership Dinner sponsored by one of the companies associated with the program;
- Participation in a number of events relating to industry and association;
- Involvement in programs within the community;
- Access to senior academics who will assist you throughout your course.

Students can choose to complete one out of ten Bachelor of Engineering programs. This does not include the Bachelor of Engineering (Software Engineering).

Domestic Student Fees
Students who enrol will receive a full scholarship that includes payment of all undergraduate Higher Education Contribution Scheme (HECS) monies for the bachelor program. Students who attain a grade point average of 5.5 or above in their QUT studies and wish to continue to the Masters of Engineering accelerated program will receive further scholarship benefits, being the full payment of the course fees for the masters program.

Industry Sponsors
ESSO and Mobil
Visy Paper
EGR Group
Brisbane City Council
Bovis Lend Lease
CIEAM
Thiess

Special Course Requirements
Students enrolled in the Dean's Scholars program must maintain a GPA of 5.5 throughout their course. For a copy of the program rules and regulations please contact the Faculty Office or www.bee.qut.edu.au/study/scholarships/commencing/deans.jsp

Students must complete at least 60 days of industrial experience in order to graduate.

International Student Fees
International students eligible for a Queensland OP, who are successful in gaining entry and enrol will receive a scholarship, which will partially cover their tuition fees. The Faculty will pay one third of the tuition fee and the student will be responsible for two thirds of the tuition fee and the Student Guild fees. Students who complete their degree with a course GPA of 5.5 or above and accept an offer to continue to the Master of Engineering accelerated program will receive further scholarship benefits: payment of the one third of the tuition fees for the masters program.

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
The Faculty of Built Environment and Engineering Phone + 61 7 3138 4039, Fax + 61 7 3138 5280, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Aerospace Avionics - Dean’s Scholars Course Structure
Programme for students who commence 2008 onwards.
See EN40 Bachelor of Engineering (Aerospace Avionics) course structure.
If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Civil - Dean's Scholars Course Structure
Programme for students who commence 2006 onwards.
See EN40 Bachelor of Engineering (Civil) course structure.
If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Programme for continuing students who commenced prior to 2006.
Due to the major restructure of our Postgraduate Studies commencing in 2008, continuing Dean's Scholars who commenced prior to 2006 are advised to consult the Course Coordinator regarding their remaining program.

Civil and Environmental Management - Dean’s Scholars Course Structure
Programme for students who commence 2006 onwards.
See EN40 Bachelor of Engineering (Civil & Environmental Management) course structure.
If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Programme for continuing students who commenced prior to 2006.
Due to the major restructure of our Postgraduate Studies commencing in 2008, continuing Dean's Scholars who commenced prior to 2006 are advised to consult the Course Coordinator regarding their remaining program.

Computer Systems - Dean’s Scholars Course Structure
Programme for students who commence 2006 onwards.
See EN40 Bachelor of Engineering (Computer Systems) course structure.
If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Programme for continuing students who commenced prior to 2006.
Due to the major restructure of our Postgraduate Studies commencing in 2008, continuing Dean's Scholars who commenced prior to 2006 are advised to consult the Course Coordinator regarding their remaining program.

Medical - Dean's Scholars Course Structure
Programme for students who commence 2006 onwards.

See EN40 Bachelor of Engineering (Medical) course structure.

If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Programme for continuing students who commenced prior to 2006.

Due to the major restructure of our Postgraduate Studies commencing in 2008, continuing Dean's Scholars who commenced prior to 2006 are advised to consult the Course Coordinator regarding their remaining program.

Telecommunications Dean's Scholars Course Structure

Programme for students who commence 2006 onwards.

See EN40 Bachelor of Engineering (Telecommunications) course structure.

If as a Dean's Scholar, you wish to accelerate your program, please consult with the Course Coordinator.

Programme for continuing students who commenced prior to 2006.

Due to the major restructure of our Postgraduate Studies commencing in 2008, continuing Dean's Scholars who commenced prior to 2006 are advised to consult the Course Coordinator regarding their remaining program.

Potential Careers:

Bioengineer, Biomechanical Engineer, Biomedical Engineer, Civil Engineer, Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer, Electrical Engineer, Engineer, Environmental Engineer, Manager, Mechanical Engineer, Medical Biotechnologist, Medical Engineer, Rehabilitation Engineer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Master of Engineering (Systems) (EN50)

Year offered: 2009  
Admissions: Yes  
CRICOS code: 060811A

Course duration (full-time): 1 year  
Course duration (part-time): 2 years

Domestic fees (indicative): 2009: $8,000 (indicative) per semester  
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)

Domestic Entry: February and July  
International Entry: February and July

Total credit points: 96

Standard credit points per full-time semester: 48

Course coordinator: Professor Jay Yang (Please refer course specific enquiries to Course Leader.)

Discipline coordinator: Dr Michael Mason (Course Leader)

Campus: Gardens Point

Overview

This course provides a developmental path for professional engineers to master skills in selected engineering disciplines and the interaction of those disciplines. It aims to enhance your skills in dealing with more complex engineering problems and interactions between engineering technical domains and the broader context in which they exist. Systems engineering is concerned with the design, operation and maintenance of electrical and mechanical systems that are employed in medical, aerospace, industrial settings, and in communications technology. This course advances your capabilities in information literacy, problem solving, application of theory, engineering design, communication, and interaction with other professionals. Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry Requirements

A four-year full-time bachelor degree in a relevant engineering discipline area and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Career Outcomes

Graduates may choose to become a specialist systems engineering practitioner within their chosen professional field, or use the skills and knowledge gained to diversify their capabilities across a broader spectrum of system-related disciplines. In particular, this course provides graduates with the skills and knowledge to become a leader, manager and innovator in the chosen discipline. Graduates may typically work in government, semi-government or private organisations as electrical, mechanical, biomedical or avionics engineers.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Advanced Standing

Students completing two Masters courses in the Faculty of Built Environment and Engineering will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer (Engineering); Professor Helen MacGillivray (Mathematics)
Discipline coordinator: Dr Jason Ford (Engineering)
Campus: Gardens Point

Recommended study
Chemistry, Maths C and Physics are recommended.

Career Opportunities
Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of government and private companies. A stronger training in mathematics and statistics enhances capabilities in modelling, analysis and design.

Overview
The program integrates both the engineering and mathematics degree. Mathematics and engineering have always had close connections, but recent advancement in mathematics and statistics are increasingly being used to help solve complex engineering problems.

Special Course Requirements
A candidate for this course must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia, and the coursework requirements for accredited graduate membership of the Australian Mathematical Society. Students may also become a member of the Statistical Society of Australia.

Contact Details

Electrical Coordinator
Dr Firuz Zare
Email: bee.enquiries@qut.com

Mathematics Coordinator
Professor Helen MacGillivray
Phone: +61 7 3138 2337
Email: h.macgillivray@qut.edu.au

Bursaries and Scholarships
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded on a competitive basis. Go to QUT Scholarships website. Look under Commencing Students - Faculty Scholarships.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C

### Course Structure - For students with four semesters of Senior Mathematics B (or equivalent) only

#### Year 2, Semester 1
- **ENB240:** Introduction To Electronics
- **ENB246:** Engineering Problem Solving
- **MAB210:** Statistical Modelling 1
- **MAB311:** Advanced Calculus

#### Year 2, Semester 2
- **BEB200:** Introducing Sustainability
- **ENB243:** Linear Circuits and Systems
- **ENB244:** Microprocessors and Digital Systems
- **MAB413:** Differential Equations

#### Year 3, Semester 1
- **ENB242:** Introduction To Telecommunications
- **ENB350:** Real-time Computer-based Systems
- **MAB312:** Linear Algebra
- **MAB314:** Statistical Modelling 2

#### Year 3, Semester 2
- **ENB245:** Introduction To Design and Professional Practice
- **ENB352:** Communication Environments For Embedded Systems
- **MAB414:** Applied Statistics 2
  - Mathematics elective (Level 2)

#### Year 4, Semester 1
- **ENB301:** Instrumentation and Control
- **ENB340:** Power Systems and Machines
- **ENB342:** Signals, Systems and Transforms
  - Mathematics elective (Level 2)
- **Mathematics elective (Level 2)**

#### Year 4, Semester 2
- **ENB345:** Advanced Design and Professional Practice
- **ENB346:** Digital Communications
- **ENB458:** Modern Control Systems
  - Mathematics elective (Level 3)

#### Year 5, Semester 1
- **BEB701:** Work Integrated Learning 1
- **BEB801:** Project 1
  - Electrical Engineering elective
  - Mathematics elective (Level 3)

#### Year 5, Semester 2
- **BEB802:** Project 2
- **ENB344:** Industrial Electronics
  - Mathematics elective (Level 3)
  - Mathematics elective (Level 3)
- **Mathematics elective (Level 3)**
ENB458  Modern Control Systems
Mathematics elective (Level 3)

Year 5, Semester 1

BEB701  Work Integrated Learning 1
BEB801  Project 1
Electrical Engineering elective
Mathematics elective (Level 3)

Year 5, Semester 2

BEB802  Project 2
ENB344  Industrial Electronics
Mathematics elective (Level 3)
Mathematics elective (Level 3)

Electrical Engineering Electives

ENB231  Materials and Manufacturing 1
ENB334  Design For Manufacturing
ENB350  Real-time Computer-based Systems
ENB352  Communication Environments For Embedded Systems
ENB436  Mechatronics System Design
ENB440  RF and Applied Electromagnetics
ENB441  Applied Image Processing
ENB445  RF Communication Technologies
ENB446  Wireless Communications
ENB448  Signal Processing and Filtering
ENB452  Advanced Power Systems Analysis
ENB453  Power Equipment and Utilisation
ENB454  Power System Management
ENB455  Power Electronics
ENB456  Energy
ENB457  Controls, Systems and Applications
ENB458  Modern Control Systems
INB353  Wireless and Mobile Networks
INB860  Computational Intelligence for Control and Embedded Systems

Mathematics Electives (Level 2)

MAB313  Mathematics of Finance
MAB420  Computational Mathematics 2
MAB422  Mathematical Modelling
MAB461  Discrete Mathematics
MAB480  Introduction to Scientific Computation

Mathematics Electives (Level 3)

Four units required:

MAB521  Applied Mathematics 3
MAB522  Computational Mathematics 3
MAB524  Statistical Inference
MAB533  Statistical Techniques
MAB536  Time Series Analysis
MAB613  Partial Differential Equations
MAB623  Financial Mathematics
MAB624  Applied Statistics 3
MAB672  Advanced Mathematical Modelling

NOTES:
- Some deviations from the above course structure may be possible with the permission of the course coordinator. This is more likely to apply in the later years than the earlier years of the course.

Potential Careers:
Electrical and Computer Engineer, Electrical Engineer, Mathematician, Statistician.
Bachelor of Engineering (Electrical)/Bachelor of Business (IF28)

Year offered: 2009
Admissions: No
CRICOS code: 027278C
Course duration (full-time): 5 years
Domestic fees (indicative): 2009: CSP $3,884 (indicative) per semester
International Fees (per semester): 2009: $10,500 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419532; Dfee: 419536
Past rank cut-off: 80. Dfee places were not offered last year.
Past OP cut-off: 10. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 480
Standard credit points per full-time semester: 48 (average)
Course coordinator: Dr R. Mahalinga-Iyer (Engineering); Dr Erica French (Business)
Discipline coordinator: Dr Jason Ford (Engineering); Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoos Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)
Campus: Gardens Point

Discontinuation
From Semester 1, 2007, this course has been renamed and recoded to IX28 Bachelor of Business/Bachelor of Engineering. Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2009. From Semester 1, 2010, all students will be enrolled in the new program.

null

This course has been discontinued. Currently enrolled students should check the Course Summary Sheet (via QUT Virtual) for enrolment and unit information.
Doctor of Philosophy (Built Environment, Engineering) (IF49)

Year offered: 2009
Admissions: Yes
CRICOS code: 006367J
Course duration (full-time): 2 years (max. 4 years)
Course duration (part-time): 4 years (max. 8 years)
Domestic fees (indicative): Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2009: $6,720 per semester (indicative)
International Fees (per semester): 2009: $11,500 (indicative) per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Campus: Gardens Point

Entry Requirements
First class or second class division A honours degree, an appropriate Masters Degree (research or coursework), or a professional doctorate, from a recognised institution. Masters degree by coursework and professional doctorates must contain a significant research component, of no less than 33 per cent of the total degree, and must have a GPA of at least 5.5 on a 7 point scale.

Overview
This program provides in-depth research training in particular areas of built environment and engineering while broadening knowledge in a chosen discipline area. In the multimodal program candidates conduct research away from QUT, often in the workplace, either in Australia or overseas. Videoconferencing, email and other technologies make it possible for candidates to participate in activities such as seminar delivery and progress reporting.

Candidates would normally undertake their Confirmation of Candidature and Final Seminar in person. A QUT staff member of the supervisory team would normally visit the candidate at their research site at least once during their candidature. External candidates must normally spend a minimum of three months at QUT and be present in person for their confirmation of Candidature and Final Seminar. Doctoral studies normally include:
* assessed coursework
* participation in university scholarly activities such as research seminars, teaching and publication
* regular meetings with supervisors
* a program of supervised research and investigation
* preparation of a thesis. Candidates can enrol in a doctoral program through the Faculty Research Centre.

Fees
Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not Guild fees or other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level.

Research Areas
Areas of research interest
You can enrol in a research program in the following thematic areas of research:
* Infrastructure (Energy, Water, Housing and Construction)
* Smart Systems (Speech and signal processing, robotics and automation, and infrastructure and asset management)
* Medical Engineering (Orthopaedics & trauma, Biomedical modelling and simulation)
* Design (industrial design, interior design, urban design and architecture).

DESIGN
The DESIGN theme includes research in Architecture, Industrial Design, Interior Design, Landscape Architecture and Urban Design. It focuses on Subtropical Design, Digital Design, Human-centred Design Research and Useability, Built Environment Design Areas, Cultural Landscape, Design for Aging, Design and Research Methodologies and Design Education. The theme is cross/inter - disciplinary related with relevant fields in the Faculty (eg. mechanical/manufacturing/medical engineering; transport engineering; structures and designs; electronic systems and informatics environment) and across the University community (eg. Institute for Health and Biomedical Innovation (IHB), Institute for Creative Innovation (iCi), Information Security Institute (ISI), Institute for Sustainable Systems and Resources and relevant Collaborative Research Centres (CRC).

MEDICAL ENGINEERING
This program aims to engender sustainable improvements in quality of life for everybody through the innovative application of new and emerging technologies which will not only help reduce the economic burden of healthcare provision, but also generate wealth for the nation through the stimulation of local industry. Under two broad headings, the program encompasses the following research areas:
* Orthopaedic and Trauma
  The Orthopaedic and Trauma group has seven principal areas of focus: bone defects; fracture healing; pathogenesis and repair of osteoarthritis; biomaterials; new approaches to minimally invasive surgery; paediatric and adult spine research; and clinical outcomes.
* Biomechanics, Modelling and Simulation
  Apart from orthopaedic research, the Medical Engineering program also encompasses many other areas studying the application of mechanical and electrical engineering to clinically related healthcare problems. These include: amputee gait analysis; paediatric gait analysis; performance of paralympic athletes; osseointegrated implants; spinal and pelvic mechanics; paediatric spine deformity: artificial organs, specifically ventricular assist devices (artificial heart) and artificial lungs; tissue mechanics; bioelectrical signal analysis; tribology of artificial joints; and the interface between devices and the human body.
MEDICAL ENGINEERING - Biomechanical Modelling and Simulation

SMART SYSTEMS - Infrastructure and Asset Management
Infrastructure research, in collaboration with industry, government and professions, aims to strengthen the nation's building and infrastructure systems. Research concentrates on investigating the performance of existing and new building and infrastructure systems under realistic structural and environmental loadings including those due to natural, accidental and man-made hazards. It uses smart materials, systems and technologies, and advanced computer analysis and test methods to assess and improve the performance of existing and new building and infrastructure systems.

Asset Management research focuses on innovative industry directed research and development, education and commercialisation in an integrated approach to lifecycle physical asset management to meet present and future needs to ensure international competitiveness and sustainability of Australian industry. The overall research program will be focused on five main industry sectors: Defence, Water and Waste, Power Generation and Distribution, Extraction and Process and Transport Infrastructure.

This research is closely aligned to the CRC for Construction Innovation and the CRC for Integrated Engineering Asset Management.

SMART SYSTEMS - Robotics and Automation
The Robotics and Automation program is focussed on world-class research on robotics and navigation systems for unmanned aerial vehicles, and involves collaboration with CSIRO and Boeing. However similar automation strategies and technologies are used in a variety of control applications such as energy network control, and infomechatronic systems, and satellites.

SMART SYSTEMS - Speech and Signal Processing
This program conducts internationally competitive research in order to solve practical problems, which enable Speech, and Signal Processing to be applied in products and processes. Research focuses on, state-of-the-art speech audio and video technologies including speech/speaker recognition and personal identification technologies for forensic and security applications; speech coding for storage and communication; speech synthesis for voice response systems; audio compression for broadcasting, television and Internet applications, video compression and image recognition and restoration.

INFRASTRUCTURE - Energy
The provision of sustainable energy supplies is of critical importance to the future of Australia, and this research involves experimental and theoretical research on solar cells, wind energy and solar thermal energy generation as well as fundamental research on energy supply networks, including distributed generation technology and energy policy. This research in conducted in collaboration with energy utilities and the Queensland Sustainable Energy Industry Development Group.

INFRASTRUCTURE - Water
The supply of fresh water and the quality of water supply are key issues facing Australia over the next 20 years, and this research looks at water re-use technology and policy. The research is practically focussed with significant collaboration with local government in South-East Queensland.

INFRASTRUCTURE - Transport
The aim of this program is to focus research effort in the freight and logistics area with an emphasis on multi-modal transportation systems. The main research areas include freight vehicle impacts, freight and logistics e-business systems, freight corridor evaluation analysis, ITS applications in freight and logistics, emissions modelling, transit evaluation methodologies, rail track modelling and analysis, and intermodal terminal planning and operations.

INFRASTRUCTURE - Housing and Construction
This research makes contributions to improved practice in the specific areas of housing, urban planning, international project management, construction and property performance, construction information and procurement technologies, and property market choice, investments, constraints opportunities, internationalisation, taxation, lifecycles, risk and culture.

The Faculty is also involved in the following Cooperative Research Centres (CRC) and externally-funded collaborative research ventures:

CRC FOR CONSTRUCTION INNOVATION
The Centre aims to create and commercially exploit tools, technologies and management systems to deliver innovative constructed assets of financial, environmental and social benefit to the community. The centre combines basic research with strategic research and development in five related programs: virtual environments for lifecycle design and construction; construction project delivery strategies; environmental sustainability; integrated design and construction support systems; and management, adaptability and the future of built assets.

CRC FOR INTEGRATED ENGINEERING ASSET MANAGEMENT
The CRC for Integrated Engineering Asset Management (CIEAM) delivers capabilities and technologies for integrated and sustainable asset management to a wide range of Australian industries in both the private and the public sectors. CIEAM consists of leading edge researchers and practitioners focused on industry directed R&D and education in the management of Australia’s major engineering assets in the Defence, Utilities (power, water and gas), Process and extraction, and Transportation industries. CIEAM involves five research program areas. These are: Models and decision systems, Advanced sensors, Intelligent diagnostics and life prediction, Systems integration and IT, and Strategic human dimensions.

CRC FOR RAILWAY ENGINEERING AND TECHNOLOGIES
The Centre aims through research to develop an internationally competitive, efficient and sustainable rail industry and to facilitate the development of an Australian export industry in railway technologies. Benefits will flow in terms of improved rail efficiency and infrastructure capacity, energy savings, reduced maintenance cost and better asset utilisation. The main research areas include: 'Smart train' intelligent systems; innovative/automated maintenance and upgrading technologies; optimal traffic control and scheduling; IT systems and standards for rail management; new materials, systems and components for railways; and, industry skills development (education and training).

CRC FOR ADVANCED AUTOMOTIVE TECHNOLOGY
The CRC for Advanced Automotive Technology brings the automotive industry together with researchers in design, engineering and manufacturing to enhance the industry’s international competitiveness. The aim of the research is to reduce the concept-to-product cycle times, improved manufacturing flexibility and efficiency and the development of new material systems to meet the challenges of weight reduction, increased safety and greater functionality. The CRC will also improve vehicle safety through improvements in the crash worthiness of vehicles and new intelligent products/systems that provide increased comfort, performance and entertainment.

AUSTRALIAN HOUSING AND URBAN INSTITUTE (AHURI):
The Institute is a consortium of CSIRO Division of Building, Construction and Engineering; Queensland University of Technology; University of Queensland; Monash University, and Royal Melbourne Institute of Technology (RMIT). Its broad objective is to conduct research into issues in housing and urban fields in Australia and the Asia-Pacific region.

CENTRE FOR SUBTROPICAL DESIGN
The Centre for Subtropical Design is one of the Faculty's first funded units in one of our major targeted areas: sustainable development. This Centre will promote high quality planning, design and development that responds to the City of Brisbane and South-East Queensland Region's cultural, landscape, and climatic characteristics in ways that are sustainable and enhance the enjoyment of the region's subtropical lifestyle.

QUEENSLAND SUSTAINABLE ENERGY INDUSTRY DEVELOPMENT GROUP
This group, formed in 2004 by QUT, the University of Queensland, Central Queensland University, Stanwell Corporation, CS Energy and the Queensland Conservation Council, is continuing the work of the Australian CRC for Renewable Energy in areas of energy policy, training for the sustainable energy industry (supply and use), and renewable energy technology.

AUSTRALIAN CENTRE FOR SUGAR RESEARCH INNOVATION
This Centre is the research division of the former Sugar Research Institute which transferred to QUT in July 2005. This Centre conducts research into the post-harvest processing and economics of sugar cane, and has a particular expertise in milling technology (mechanical engineering and computational fluid dynamics modelling), separation science, and total biomass utilisation, in particular the transformation of sugar cane waste into biofuels (ethanol) and biopolymers to provide renewable fuels and industrial chemicals.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information

Bachelor of Engineering (Electrical)/Bachelor of Information Technology (IF59)

Year offered: 2009
Admissions: No
CRICOS code: 006384G
Course duration (full-time): 5 years
Domestic fees (indicative): 2009: CSP $3,585 (indicative) per semester
International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
QTAC code: 419512
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer (Engineering), Mr Richard Thomas (Information Technology)
Discipline coordinator: Dr Jasmine Banks (Engineering)
Campus: Gardens Point

Recommended Study
Chemistry, Math C and Physics are recommended.

Course Update
From semester one, 2009 this course will not be available for commencing students. IF59 will only be available for continuing students. New students - please refer to IX54. Please contact fit.enquiry@qut.edu.au for any enquiries.

Career Outcomes
Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

Overview
The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and advanced study of modern electronic and computing systems. This double degree produces computer and security engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit IT’s Cooperative Education program home page at http://coop.fit.qut.edu.au/

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the Translation Unit Codesâ column you are not permitted to enrol in the listed new code.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the Translation Unit Codesâ column you are not permitted to enrol in the listed new code.

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Course Overview
The course is a collaborative program between the Faculties of Built Environment & Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Course is under review
The Faculty of Science and Technology is currently reviewing this course structure to continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval. Further information will be available from August 2008. Please contact enquiry.scitech@qut.edu.au for any enquiries.

Recommended Study
Chemistry, Maths C and Physics

Career Outcomes
Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition
Professional accreditation from Engineers Australia and the Australian Computer Society is being sought.

Special course requirements
Students are required to complete 60 days approved industrial experience.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the aTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the aTranslation Unit Codesâ column you are not permitted to enrol in the listed new code.

IX25 - Bachelor of Engineering (Software Engineering) - Course structure

The Faculty of Information Technology is currently reviewing this course structure to
continue to meet the needs of students and employers. As a result this program may change in 2009 and is subject to final approval. Further information will be available from August 2008. Please contact fit.enquiry@qut.edu.au for any enquiries.

### IX25 - Bachelor of Engineering (Software Engineering) - Electives

Students are required to undertake 3 electives as follows: 2 from Electrical Engineering and 1 from Information Technology

<table>

### Potential Careers:

Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer, Electrical Engineer, Software Engineer, Systems Programmer.
Bachelor of Business / Bachelor of Engineering (IX28)

Year offered: 2009
Admissions: Yes
CRICOS code: 061649J
Course duration (full-time): 5 years
Domestic fees (indicative): 2009: CSP $4,022 (indicative) per semester
International Fees (per semester): 2009: $10,750 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419532
Past rank cut-off: 80
Past OP cut-off: 11
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and for accountancy, economics, finance and marketing majors: Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr R. Mahalinga-lyer (Engineering); Dr Erica French (Business)
Discipline coordinator: Dr Jason Ford (Engineering); Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr Tommy Tang (Economics); Dr Robert Bianchi (Finance); Dr Robert Thompson (Human Resource Management); Mr Michael Cox (International Business); Dr Kavoos Mohannak (Management); Mr Bill Proud (Marketing); and Ms Amisha Mehta (Public Relations)
Campus: Gardens Point

Recommended Study
Chemistry, Maths C and Physics are recommended.

Career Outcomes
Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of governments and private companies. Graduates of the Bachelor of Business are skilled in many aspects of business including: accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing and public relations.

Overview
Students combine engineering knowledge in electronics, computer systems, telecommunications and electric power with a business course majoring in one or more of accountancy, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia.

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership as follows:
* All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
* Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA) (enrolment in the CA Program).
* Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association;
* Economics: Economic Society of Australia (Queensland Division).
* Finance: Financial Services Institute of Australasia (FINSIA).
* Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
* International Business - Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing;
* Management - Australian Institute of Management;
* Public Relations - Public Relations Institute of Australia.

Special Course Requirements
A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment approved by the course coordinator, before graduating.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Course Design
Students are required to complete 480 credit points comprised of 252 credit points from the Bachelor of Engineering (Electrical & Computer Engineering) program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 84* credit point Faculty Core units in the Bachelor of Business program together with a 72 credit point Major in one of the following: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing or Public Relations, as well as a further 72 credit points in which the student must complete one of the following: Double Major, Extended Major or Specialisation.

Further Information

Faculty of Business Phone +61 7 3138 2050, Fax +61 7
Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Potential Careers:**
Bachelor of Engineering (Electrical)/Bachelor of Information Technology (IX54)

Year offered: 2009
Admissions: Yes
CRICOS code: 006384G

Course duration (full-time): 5 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,960

International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419512
Past rank cut-off: 80
Past OP cut-off: 11
OP Guarantee: Yes
Assumed knowledge: English (4,SA), Maths B or C (4,SA)
Preparatory studies: Chemistry, Maths C, Physics (recommended)
Total credit points: 480

Course coordinator: Dr R Mahalinga-Iyer (Engineering),
Mr Richard Thomas (Information Technology)
Discipline coordinator: Dr Jasmine Banks (Engineering)
Campus: Gardens Point

Course Description
This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within the two strands of this degree, and gain deep understanding within your chosen area speciality, such as networking, software engineering, data warehousing, business process modelling, enterprise systems, information management, web technologies, or digital societies. You will experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how in the booming IT marketplace. It positions you for a challenging and rewarding career within the global economy. Full-time students are eligible for the Cooperative Education Program; paid industry work experience with credit towards your degree. Students are also offered many other work-integrated learning opportunities where you receive first-hand industry experience.

The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Entry Requirements
Year 12 or equivalent
Prerequisites: Nil
Assumed Knowledge: English (4,SA), Maths A, B or C (4,SA)
Primary Fields: B or C
Secondary Fields: B or C
OP Guarantee: Yes

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

International Students
English language requirements
In addition to the above academic entry requirements, international students must meet the University's English language requirements of IELTS of 6.5 (with no lower than 6.0 for any one band).

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Career Outcomes
Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

Cooperative Education Program
IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Pathways to Further Studies
In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

IX54 Elective Options

Electrical Engineering Electives
  Any 3rd or 4th year electrical ENB unit subject to the completion of all prerequisites for that unit.
  ENB352  Communication Environments For Embedded Systems
  ENB440  RF and Applied Electromagnetics
  ENB441  Applied Image Processing
  ENB445  RF Communication Technologies
  ENB446  Wireless Communications
  ENB448  Signal Processing and Filtering
  ENB452  Advanced Power Systems Analysis
  ENB453  Power Equipment and Utilisation
  ENB454  Power System Management
  ENB455  Power Electronics
  ENB456  Energy
  ENB457  Controls, Systems and Applications
  ENB458  Modern Control Systems

Information Technology Electives
  Any INB3xx unit subject to the completion of all prerequisites for that unit. Please see below for the list of INB3xx units
  Please see http://www.studentservices.qut.edu.au/pdfs/IT_elective_%20list.pdf for a full list of IT Electives available for 2009

IT Breadth Option Unit List

IT Breadth Option Units
  You must complete four (4) units from the following list. You should not commence these units until you have completed INB101, INB102, INB103 and INB104.
  INB120  Corporate Systems
  INB210  Databases
  INB220  Business Analysis
  INB250  Systems Architecture
  INB251  Networks
  INB255  Security
  INB270  Programming
  INB271  The Web
  INB272  Interaction Design

IT Specialisation Option Unit List
You must complete four (4) units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units. The units are grouped in areas to assist you in focusing your studies.

1. Enterprise Systems:
   - INB123 Project Management Practice
   - INB221 Technology Management
   - INB311 Enterprise Systems
   - INB312 Enterprise Systems Applications

2. Web Technologies:
   - INB313 Electronic Commerce Site Development
   - INB373 Web Application Development
   - INB374 Enterprise Software Architecture
   - INB385 Multimedia Systems
   - INB386 Advanced Multimedia Systems

3. Business Process Management:
   - INB320 Business Process Modelling
   - INB321 Business Process Management
   - INB322 Information Systems Consulting
   - INB323 Smart Services

4. Information Management:
   - INB330 Information Management
   - INB331 Management Issues for Info Professionals
   - INB332 Information Retrieval
   - INB333 Information Programs
   - INB334 Information Issues and Values
   - INB335 Information Resources

5. Data Warehousing:
   - INB340 Database Design
   - INB341 Software Development With Oracle
   - INB342 Enterprise Data Mining
   - INB343 Advanced Data Mining and Data Warehousing

6. Network Systems:
   - INB350 Internet Protocols and Services
   - INB351 Computer Network Administration
   - INB352 Network Planning and Deployment
   - INB353 Wireless and Mobile Networks

7. Software Engineering:
   - INB370 Software Development
   - INB371 Data Structures and Algorithms
   - INB372 Software Engineering Principles
   - INB374 Enterprise Software Architecture

8. Ungrouped:
   - INB204 Special Topic 1
   - INB205 Special Topic 2
   - INB304 Special Topic 3
   - INB305 Special Topic 4
   - INB306 Project 1
   - INB307 Project 2
   - INB308 Project 3
   - INB355 Cryptology and Protocols
   - INB365 Systems Programming
   - INB860 Computational Intelligence for Control and Embedded Systems

9. Digital Environments:
   - INB345 Mobile Devices
   - INB346 Enterprise 2.0
   - INB347 Web 2.0 Applications
   - INB334 Information Issues and Values

- InB304 Special Topic 3
- InB305 Special Topic 4
- InB306 Project 1
- InB307 Project 2
- InB308 Project 3
- InB355 Cryptology and Protocols
- InB365 Systems Programming
- InB860 Computational Intelligence for Control and Embedded Systems
- InB345 Mobile Devices
- InB346 Enterprise 2.0
- InB347 Web 2.0 Applications
- InB334 Information Issues and Values
Graduate Certificate in Research Commercialisation (IX97)

Year offered: 2009
Admissions: Yes
CRICOS code: not available

Course duration (full-time): 1 semester. Subject to maximum time limit of 4 years.
Course duration (part-time): 2 semesters. Subject to maximum time limit of 4 years.
Domestic fees (indicative): 2009: $9,200 per semester
International Fees (per semester): 2009: $10,400 per semester (subject to annual review)
Course coordinator: Professor Rod Wissler
Campus: Internet

Potential Careers:
Master of Research and Development Management (IX99)

Year offered: 2009
Admissions: Yes
Course duration (full-time): 3 semesters.
Course duration (part-time): 6 semesters.
International Fees (per semester): 2009: $9,200 per semester (subject to annual review)
International Fees (indicative): 2009: $10,400 per semester
Course coordinator: Professor Rod Wissler
Campus: Internet

Entry Requirements
The minimum entry requirement for this course is a four year undergraduate degree or three years plus either an honours year or postgraduate coursework year in any discipline. Applicants who do not meet these academic requirements may be eligible to enter the course on the basis of professional activities completed in research management, research commercialisation or related fields that satisfies the course coordinator.

Bachelor of Technology (Mechanical) Conversion Program (ME36)

Year offered: 2009
Admissions: No
CRICOS code: 020303G
Course duration (part-time): 3 years
Domestic fees (indicative): 2009: CSP $3,188 (indicative) per semester
Domestic Entry: February
International Entry: February
QTAC code: 412543
Past rank cut-off: 93. Admission to course is based on special entry requirements in addition to a rank. Please refer to Special Entry Requirements.
Total credit points: 288 (including 144 cp advanced standing)
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Vladis Kosse
Campus: Gardens Point

Special Entry Requirements
Applicants must have completed an Advanced Diploma in Mechanical Engineering (or equivalent qualification) or a Bachelor of Science in an appropriate discipline.

Career Outcomes
Graduates from this degree may work closely with professional engineers and be involved in using advanced computer skills for technical analysis and detailed design, or administration. This degree was developed in direct response to industry needs and there is a strong focus on the employability of graduates in the practical, hands-on approach to subjects. The BTech is an alternative route for those wishing to continue study to professional engineer level. Graduates may commence in a design office doing calculations and preparing technical drawings from which final designs/systems will be constructed. Other areas of employment include the manufacturing sector, concerned with the organisation and maintenance of manufacturing facilities and the quality assurance and control of products. Graduates may be responsible for commissioning and managing staff and/or overseeing the operations of significant engineering plants such as mining, sugar mills, dairy factories and food processing operations.

Overview
This course builds on the practical skills gained through the TAFE Advanced Diploma by providing students with higher level theoretical knowledge, supported by laboratory and practical sessions. Subjects include design, manufacturing, materials, mechanical engineering sciences, and management.

Professional Recognition
This course has been accredited by Engineers Australia. Graduates are eligible for affiliate membership, providing them with official recognition as an engineering technologist. The three-year degree is recognised by the Singapore Institute of Engineering Technologists.

Additional Information
Candidates with an Advanced Diploma in Mechanical Engineering (or equivalent) or a relevant tertiary qualification (eg. Bachelor of Science or CAE Diploma in Mechanical Engineering) will automatically receive credit of 144 credit points.

Part-time Study
Prospective part-time students for this degree should be aware that they may need 9 to 12 hours release from their employment.

Special Course Requirements
Students must obtain at least 50 days of industrial experience with a minimum of 25 days in an engineering environment approved by the course coordinator.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Full-time course structure

Year 2 - Semester 1
ENB316 Design of Machine Elements
ENB331 Materials and Manufacturing 2
MGB207 Human Resource Issues and Strategy
MMB302 Project 2T

Year 3 - Semester 1
ENB317 Design and Maintenance of Machinery
MMB302 Project 2T

Year 3 - Semester 2
ENB316 Design of Machine Elements
MGB207 Human Resource Issues and Strategy

Potential Careers:
Engineering Technologist, Mechanical Engineer.
Advanced Diploma in Engineering (Mechanical)/Bachelor of Technology (Mechanical) (ME37)

Year offered: 2009
Admissions: No
Course duration (full-time): 3 years
Domestic fees (indicative): 2009: CSP $3,188 (indicative) per semester
Domestic Entry: February
QTAC code: This course is no longer offered
Past rank cut-off: 52 BNIT-Gateway; 50 MIT-Mt Gravatt; 50 YIT-Yeronga
Past OP cut-off: 22 BNIT-Gateway; 24 MIT-Mt Gravatt; 24 YIT-Yeronga
Total credit points: 288 (including 120 cp advanced standing)
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Vladis Kosse
Campus: Gardens Point

Course Availability
This course is not taking new admissions/enrolments. Articulation from the TAFE to QUT for existing dual TAFE/QUT award students will be accepted up until semester one, 2008.

Entry Requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Advanced Diploma in Engineering (Mechanical) at Brisbane North Institute of TAFE, Moreton Institute of TAFE and Yeronga Institute of TAFE.

Dual TAFE/QUT Awards
This dual award is a cooperative arrangement between QUT, the Brisbane North Institute of TAFE and Metropolitan South Institute of TAFE. It is a specially designed course offering a two-year Advanced Diploma at the participating TAFE institutes followed by a third year at QUT to qualify for a Bachelor of Technology degree. In their second year students study units from both QUT and TAFE.

Career Outcomes
Technologists may work closely with professional engineers and be involved in using advanced computer skills for technical analysis and detailed design, or administration. Other areas of employment included the manufacturing sector concerned with the organisation and maintenance of manufacturing facilities and the quality assurance and control of products.

Professional Recognition
This course has provisional accreditation from Engineers Australia (EA).

Special Course Requirements
Students must obtain at least 50 days of industrial experience with a minimum of 25 days in an engineering environment approved by the course coordinator.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Potential Careers:
Mechanical Engineer, Technical Officer.
Bachelor of Engineering
(Infomechatronics) (ME40)

Year offered: 2009
Admissions: No
CRICOS code: 037550J
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Additional Admission Information
The ME40 Bachelor of Engineering (Infomechatronics) course has been replaced by EN40 Bachelor of Engineering (Infomechatronics) from 2006 onwards. There will be no intake into the ME40 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
This leading edge degree provides graduates with the combined skills of mechanical engineering, electrical and electronic engineering and information technology to work in the high tech fields of automated systems and robotics for the design, development, construction and service of modern equipment and plant. Graduates from this degree may expect to find employment as consultants, project managers, designers, and maintenance and instrumentation engineers in a wide variety of work situations. The range of employment opportunities is diverse and extensive. Some typical examples of organisations may include: manufacturing plants of consumer products, computer peripherals manufacturers/maintenance companies, automobile manufacturing industries, large scale manufacturing/maintenance industries such as Boeing, instrumentation industries, communication companies, research organisations, food and food processing industries and software development companies.

Overview
This course bridges the three, traditionally separate, disciplines of Mechanical Engineering, Electrical and Electronic Engineering, and Computing and provides the combined skills required for the design, development, construction and service of modern systems and equipment. Advanced units emphasis the integration of knowledge and skills that impact on all aspects of the design, construction and service of modern computer controlled machines. In the final year a one-semester industry project will integrate and reinforce what has been learned through application in a real world setting.

Professional Recognition
This course has provisional accreditation from Engineers Australia (EA).

Special Course Requirements
Students must obtain at least 60 days of industrial work experience in an engineering environment approved by the course coordinator.

Articulation to Masters
Subject to University approval, students achieving a minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT's deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Manager, Manufacturer, Mechanical Engineer.
Bachelor of Engineering (Mechanical)
(ME41)

Year offered: 2009
Admissions: No
CRICOS code: 003490G
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,188 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February (July entry available to students entering with Advanced Standing)
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Additional Admission Information
The ME41 Bachelor of Engineering (Mechanical) course has been replaced by EN40 Bachelor of Engineering (Mechanical) from 2006 onwards. There will be no intake into the ME41 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career outcomes
The Bachelor of Engineering (Mechanical) provides a sound education in the basic engineering sciences, synthesis and design, engineering management functions, and the social, economic and ethical aspects of engineering practice. Graduates from this degree may find employment in a variety of roles: consultant, project manager or technical adviser where they may be involved in the operation of large, integrated energy-based plants such as mining, power stations, sugar factories, oil refineries etc. Others may work under the guidance of more experienced staff selecting equipment, installing and commissioning plants. Some graduates will go into design offices or manufacturing plants where they will be concerned principally with the logistics of production and the efficient management of people and systems.

Overview
This degree offers a balanced mix of theory and practice with the objective of preparing graduates for the work environment. Students will receive a thorough grounding in the engineering sciences and hands-on, practical experience in real world problem solving and application of theory to suit industry needs.

Engineering Management Major
Students enrolled in the Bachelor of Engineering (Mechanical) have the opportunity to undertake a major in Engineering Management during the final two years of their degree. Students wishing to undertake the major should consult the course coordinator.

Professional Recognition
Graduates meet the requirements for membership of Engineers Australia, the Singapore Professional Engineers Board and the Lembaga Jurutera (Board of Engineers) Malaysia. The course is also professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. The Indonesian Directorate of Higher Education accredit the course as equivalent to the appropriate Indonesian degree.

Minors
Subject to the approval of the Course Coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Mid-year Entry
The ME42 Bachelor of Engineering (Mechanical) midyear course has been replaced by EN40 Bachelor of Engineering (Mechanical) from 2006 onwards. There will be no midyear intake into the ME42 course in 2007 with the exception of QTAC applicants commencing their studies with at least 168 credit points of advanced standing (academic credit).

If offered a place, you may be required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Special course requirements
A candidate for the degree of Bachelor of Engineering (Mechanical) must complete at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.
Potential Careers:
Mechanical Engineer.
Bachelor of Engineering (Mechanical) Conversion Program from Bachelor of Technology ME36/ME37 (ME41)

Year offered: 2009
Admissions: No
CRICOS code: 003490G
Course duration (full-time): 1.5 years
Domestic fees (indicative): 2009: CSP $3,188 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February (July entry available to students entering with Advanced Standing)
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 144
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Entry Requirements
Bachelor of Technology (Mechanical) from QUT. Applications are made using an I-form for the semester immediately after completion of ME36/37. Students wishing to enter at a later date must apply for the Bachelor Engineering (Mechanical) via QTAC.

Career Options
The Bachelor of Engineering (Mechanical) provides a sound education in the basic sciences, engineering sciences, engineering synthesis and design, the interrelationship between engineering and various management functions, and the social, economic and ethical aspects of engineering practice. Graduates from this degree may expect to find employment in a variety of roles: consultant, project manager, technical adviser. Some are given their initial graduate training in areas where they learn the operating characteristics and expected performance of large, integrated energy-based plants such as mining, power stations, sugar factories, oil refineries etc. Others work under the guidance of more experienced staff where they must select equipment, negotiate with suppliers and install and commission plants. Some graduates will go into design offices dealing with air conditioning and refrigeration systems, steam boilers and associated large materials handling plants. Those who go into manufacturing plants will be concerned principally with the logistics of production and the efficient management of people and systems.

Overview
This degree builds on the Bachelor of Technology and offers a balanced mix of theory and practice with the objective of preparing graduates for work as engineers. Students will continue their studies to include more in-depth study of mechanical engineering sciences including hands-on, practical experience in real world problem solving and application of theory to suit industry needs.

Professional Recognition
This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. Graduates meet the requirements for membership of the Singapore Professional Engineers Board, and the Lembaga Juruterba (Board of Engineers) Malaysia. The course is also accredited by the Indonesian Directorate of Higher Education as equivalent to the appropriate Indonesian degree.

Further information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Engineering Technologist, Mechanical Engineer, Technical Officer.
Bachelor of Engineering (Mechanical) (ME42)
Year offered: 2009
Admissions: No
Domestic fees (indicative): 2009: CSP $3,188 (indicative) per semester
Bachelor of Engineering (Medical)
(ME48)

Year offered: 2009
Admissions: No
CRICOS code: 003490G
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,706 (indicative) per semester
International Fees (per semester): 2009: $11,250 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412502; Dfee: 412506
Past rank cut-off: 80. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick
Campus: Gardens Point

Additional Admission Information
The ME48 Bachelor of Engineering (Medical) course has been replaced by EN40 Bachelor of Engineering (Medical) from 2006 onwards. There will be no intake into the ME48 course in 2008 with the exception of QTAC applicants commencing their studies with at least 240 credit points of advanced standing (academic credit); i.e. those students who will be starting in the fourth year of the program.

If offered a place you are required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Career Outcomes
Medical engineering integrates physical, chemical, mathematical, and computational sciences and engineering principles to study human biology, medicine, human behaviour and health. The Bachelor of Engineering (Medical) provides the skills to design, manufacture, install, monitor and maintain medical and surgical equipment and to provide advice on engineering matters to medical and allied staff. Graduates from this degree may expect to find employment in hospitals as advisors to health and medical professionals, in firms concerned with the design, manufacture, supply and maintenance of medical, health and sporting equipment, occupational health agencies and in research institutions. In the early stages of their careers biomedical engineers might expect to be involved in the innovative use of technology, in the design of new devices and the assessment of appropriate engineering solutions to medical problems. More experienced biomedical engineers manage Biomedical Engineering Departments in hospitals and manufacturing companies and lead teams of engineers and technologists in the development of engineering solutions to improve health care.

Overview
This course provides students with the skills of mechanical engineering technology and the knowledge of the human body to design, manufacture and maintain equipment and aids for the medical, rehabilitation and sports environments. Students can choose electives such as a physiology, rehabilitation psychology and robotics in health care. Current issues such as total quality management and health legislation are also covered. In the final year, students undertake a design project in the biomedical field.

Professional Recognition
This course is accredited by Engineers, Australia (EA).

Special Course Requirements
Students must obtain at least 60 days of industrial employment in an engineering environment approved by the course coordinator. Half of this experience must be in an industry related to Biomedical Engineering.

Articulation to Masters
Subject to University approval, students achieving a minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

Further Information
Phone +61 7 3138 1993, Fax +61 7 3138 1516, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Bioengineer, Biomedical Engineer, Medical Engineer, Rehabilitation Engineer.
Master of Engineering Management  
(ME76) 
Year offered: 2009 
Admissions: No 
CRICOS code: 006368G 
Course duration (full-time): 1 year 
Course duration (part-time): 2 years 
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester 
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007. 
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007. 
Total credit points: 96 
Standard credit points per full-time semester: 48 
Course coordinator: Associate Professor Jay Yang (Please refer all course enquiries to Course Leader.) 
Discipline coordinator: Dr Achilles Leontakianakos (Course Leader) 
Campus: Gardens Point 

Overview 
This course combines training in engineering management with advanced elective studies in related fields. It is suitable for those seeking to obtain a formal qualification in management while advancing engineering skills and knowledge. The core units provide an opportunity for postgraduate studies in engineering management, and the elective units allow specialisation in manufacturing and/or maintenance engineering. 

Entry Requirements 
A bachelor degree in engineering (or its equivalent). 

Course Structure 
Masters students take eight units or 96 credit points. Units MEN172, MEN177, and MEN280 are normally compulsory, but may be substituted with the approval of the courses coordinator if the student has adeqaute prior knowledge in the relevant field. With approval of the Course Coordinator students can take up to two graduate level electives from other disciplines. 

International Student Entry 
QUT advises that International students may only enrol in full-time studies. 

Further Information 
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com 

Special Note 
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.
Master of Engineering Science (Mechanical Engineering Studies) (ME80)

Year offered: 2009
Admissions: No
CRICOS code: 042261J
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester

Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.

International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.

Total credit points: 96
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Achilles Leontakianakos (Course Leader)
Campus: Gardens Point

Entry Requirements
A Bachelor of Engineering degree with honours in Mechanical Engineering OR equivalent, with a grade point average of at least 5 on a 7-point scale.

Course Structure
The flexible Master of Engineering Science (Mechanical Engineering Studies) program allows students to choose 3 units from a common pool of units offered by all the Engineering Schools (Band 1). A band of Mechanical Engineering units is then offered from which students choose 3 (Band 2). Any units from Band 1 could also be chosen for Band 2 provided that they come from the School of Mechanical, Manufacturing and Medical Engineering. Mechanical Engineering Specialised units allow students to undertake study in the areas of Medical Engineering, Infomechatronics, Engineering Management and general mechanical engineering, such as tribology, maintenance, manufacturing etc. Band 3 requires enrolment in a Mechanical Engineering Project (equivalent to 24 credit points).

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Mechanical Engineer.
Bachelor of Surveying (PS47)

Year offered: 2009
Admissions: No
CRICOS code: 016354J
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,568 (indicative) per semester
International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412532; Dfee: 412536
Past rank cut-off: 72. Admission to this course is based on prior study entry requirements in addition to a rank. Please refer to Additional Admission Information. Dfee places were not offered last year.
OP Guarantee: Yes
Total credit points: 384
Course coordinator: Dr John Hayes
Discipline coordinator: Mr Robert Webb
Campus: Gardens Point

Additional Admission Information
The PS47 Bachelor of Surveying course has been replaced by UD40 Bachelor of Urban Development (Spatial Science) from 2006 onwards. There will be no intake into the PS47 course in 2007 with the exception of QTAC applicants commencing their studies with at least 168 credit points of advanced standing (academic credit); i.e. those students who will be starting in the third year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period. After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

Career Outcomes
Surveyors assess geographic and land information for implementing appropriate administration for the land, sea and related structures. All levels of government, private practice and multi-national companies, statutory authorities or semi-government agencies employ them. Graduates have the opportunity to travel as the degree is readily accepted overseas. After some years of experience they may become managers or specialise. Surveyors may also work in one of the related fields such as geographic information systems, remote sensing or photogrammetry.

Overview
The Bachelor of Surveying degree is a broad-based course. The first year is a foundation year designed to prepare students to deliver practical solutions to problems involving spatial information and decision-making. Students study foundation units such as mathematics, physic, computing skills, environmental science as well surveying in their first year. In the following years the areas covered are geodetic and control surveying, topographic mapping, photogrammetry, mine surveying, hydrographic surveying, land development design and geographic information systems.

Professional Recognition
Australia: The Bachelor of Surveying degree meets the requirements for membership of The Spatial Science Institute (Incorporating the Institution of Surveyors, Australia, the Institution of Engineering and Mining Surveyors, Australia and the Mapping Sciences Institute, Australia).
Overseas: Surveying graduates are readily accepted internationally.

Minors
Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units from the one study area, that totals 48 credit points. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Special Course Requirements
Students are required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. Students must obtain at least 90 days of industrial experience/practice in a surveying/mapping environment, approved by the course coordinator.

Further Information
Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment
QUT’s deferment policy does not apply to this course.

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Potential Careers:
Mapping Scientist/Photogrammetrist, Surveyor.
Graduate Diploma in Landscape Architecture (PS66)

Year offered: 2009
Admissions: No
CRICOS code: 003478D
Course duration (full-time): 1 year BBlt Env (L'scape Arch) graduates; 2 years other graduates
Course duration (part-time): 2 years BBlt Env (L'scape Arch) graduates; 4 years (other graduates)
Domestic fees (indicative): 2009: CSP $3,721 (indicative) per semester
International Fees (per semester): 2009: $10,250 (indicative) per semester (subject to annual review)
Domestic Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
International Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.
Total credit points: 192
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Kathi Holt-Damant (Course Leader)
Campus: Gardens Point

Entry Requirements
A bachelor degree or three-year diploma, or equivalent professional qualification with a minimum Grade Point Average of 4.5. Applicants entering this course from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics.

In order to be considered for entry to either the Graduate Diploma or Masters courses, applicants must complete:
1. Application for Admission form
2. A personal statement in which the applicant demonstrates an understanding of the profession and the guiding belief systems of landscape architecture and shows the applicant's potential to 'fit' within this profession.
3. An Illustrated Autobiography - a concise self-expose which shows, in a combination of words and graphics, the applicant's life and interests. The objective is to give an insight into the applicant and demonstrate an aptitude for design as the core activity of the profession. This document is not a resume or curriculum vitae. It will be in A3 format and is not to exceed five pages. These documents are to be forwarded to the course coordinator.

Overview
Landscape architecture is concerned with the ordered design of open space at all scales: the appearance, atmosphere, and suitability of environment to assure its health and welfare and that of its inhabitants. Course covers landscape theory and design, professional values, environment theory, graphic and other communication, and landscape construction supported by project and field work. In the Graduate Diploma you complete a program similar to the first two years of the Masters program.

Professional recognition
This course is professionally recognised by the Australian Institute of Landscape Architects

International Student Entry
QUT advises that International Students may only enrol in full-times studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

SPECIAL NOTE
Any BN31 (L'scapeArch) graduate (from 1997-2007) can apply for the final offering (Sem 1 2008) of the Graduate Diploma in Landscape Architecture.

Master of Urban and Regional Planning
(PS70)
Year offered: 2009
Admissions: No
CRICOS code: 020299K
Course duration (full-time): 1.5 years for Bachelor of Built Environment graduates; 2 years for other graduates
Course duration (part-time): 75% progression: 2 years for Bachelor of Built Environment graduates; 2.5 years for other graduates/50% progression: 2.5 years for Bachelor of Built Environment graduates; 3.5 years for other graduates
Domestic fees (indicative): 2009: CSP $3,701 (indicative) per semester
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 216
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Tan Yigitcanlar (Course Leader)
Campus: Gardens Point

Overview
Students develop the knowledge, skills and social awareness to become successful urban and regional planners. The course is structured around a core of planning practice and method. Contributions from theory and activity studies are integrated with this core at each stage and set within the broader socio-economic and political contexts. Flexible teaching methods include lectures, projects, workshops, seminars and field studies. In each of the last three years student projects have been awarded top planning Institute awards at State and National levels.

Entry Requirements
A bachelor degree or equivalent is required. Applicants entering this course from non-design qualifications gain basic skills in design/perception theory, and planning graphics. A two-module Summer unit is available for this purpose. Computer literacy skills are also provided for those requiring them.

Applicants without planning or related qualifications undertake a Foundation Course of six units within the course of 2 years or part time equivalent, including a Summer Semester These requirements may be reduced by academic credit based on previous studies. A limited number of special entry places are available in the Foundation Course for suitably experienced non-graduates. Special entry includes written and oral examinations and references.

Course Structure
The course offers a variety of structures, including full-time (100% and 75% progression rates) and part-time programs (50% progression rate). Normal entry to the course is in Semester 1 or Summer Semester, though Foundation Studies entrants may, in special circumstances, be admitted in Semester 2.

Professional recognition
This course is professionally accredited by the Planning Institute of Australia

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

**Potential Careers:**

Urban and Regional Planner.
Master of Landscape Architecture (PS71)

Year offered: 2009
Admissions: No
CRICOS code: 020301K
Course duration (full-time): 1 year plus 1 year part-time Built Environment (Landscape Architecture) graduates or equivalent; 2 years plus 1 year part-time (Other graduates)
Course duration (part-time): 3 years Built Environment (Landscape Architecture); 5 years (Other graduates)
Domestic fees (indicative): 2009: CSP $3,701 (indicative) per semester
International Fees (per semester): 2009: $10,250 (indicative) per semester (subject to annual review)

Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 228 (excluding any Masters qualifying units)
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Kathi Holt-Damant (Course Leader)
Campus: Gardens Point

Entry Requirements
A bachelor degree, or equivalent professional qualification, with a minimum grade point average of 5.
Applicants entering this course from non-design qualifications require basic skills in design/perception theory, freehand and technical graphics.

In order to be considered for entry to either the Graduate Diploma or Masters courses, applicants must complete:

* Application for Admission form as well as the following which should be forwarded direct to the course coordinator.
* Position Statement - a personal statement (1 x A4 typed page) in which the applicant demonstrates an understanding of the profession and the guiding belief systems of landscape architecture and shows the applicant's potential to 'fit' within this profession.
* Illustrated Autobiography - a concise self-expose which shows, in a combination of words and graphics, the applicant's life and interests. The objective is to give an insight into the person making the application and to demonstrate an aptitude for design as the core activity of the profession. This document is not a resume or curriculum vitae, nor is it a folio of previous work experience. It will be in A3 format and is not to exceed five pages.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Overview
Landscape architecture is concerned with the ordered design of open space at all scales: the appearance, atmosphere, and suitability of environment to assure its health and welfare and that of its inhabitants. Your course covers landscape theory and design, professional values, environment theory, graphic and other communication, and landscape construction supported by project and field work.

Professional Recognition
Professional accreditation for the course has been granted by the Australian Institute of Landscape Architects.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Landscape Architect.
Graduate Diploma in Urban and Regional Planning (PS72)

Year offered: 2009
Admissions: No
CRICOS code: 003477E
Course duration (full-time): 1 year for Bachelor of Built Environment graduates; 1.5 years for other graduates
Course duration (part-time): 75% progression: 1.5 years for Bachelor of Built Environment graduates; 2 years for other graduates/50% progression: 2 years for Bachelor of Built Environment graduates; 2.5 years for other graduates
Domestic fees (indicative): 2009: CSP $3,700 (indicative) per semester
International Fees (per semester): 2009: $10,250 (indicative) per semester (subject to annual review)

Domestic Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.

International Entry: This course is open to continuing BN31 Graduates only. NO NEW OFFERS WILL BE MADE AFTER FEBRUARY 2008.

Total credit points: 168
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Tan Yigitcanlar (Course Leader)
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent is required. Applicants entering this course from non-design qualifications require basic skills in design/perception theory, planning graphics. A two-module full-fee paying Summer unit is available for this purpose. Computer literacy is also required.

Applicants without planning or related qualifications undertake a Foundation Course of up to six units within the Course of 1.5 years or part-time equivalent including an introductory Summer Semester. These requirements may be reduced by academic credit based on previous studies. A limited number of special entry places are available in the Foundation Course for suitably experienced non-graduates. Special entry includes written and oral examinations and references.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Overview
Students develop the knowledge, skills and social awareness to become successful urban and regional planners. The course is structured around a core of planning practice. Contributions from theory, method and activity studies are integrated with this core at each stage and set within the broader socio-economic and political contexts. Flexible teaching methods include lectures, as well as projects, workshops, seminars and field studies.

Professional Recognition
This course is professionally accredited by the Planning Institute of Australia.

Course Structure
The course offers a variety of structures, including full-time (100% and 75% progression rate) and part-time programs (50% progression rate). Normal Entry to the Course is in Semester 1 or Summer Semester, though Foundation Studies entrants may, in special circumstances, be admitted in Semester 2.

SPECIAL NOTE
Any BN31 (Urb&RegPlan) graduate (from 1997-2007) can apply for the final offering (Sem 1 2008) of the Graduate Diploma in Urban and Regional Planning.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

### Potential Careers:
Urban and Regional Planner.
Graduate Certificate in Planning Studies (PS82)

Year offered: 2009
Admissions: No
CRICOS code: 040336M
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (indicative): 2009: Full fee tuition $6,750 (indicative) per semester
Domestic Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
International Entry: This course is open to continuing students only. NO NEW OFFERS WILL BE MADE AFTER 2007.
Total credit points: 48
Course coordinator: Professor Jay Yang (Please refer all course enquiries to Course Leader.)
Discipline coordinator: Dr Tan Yigitcanlar (Course Leader)
Campus: Gardens Point

Entry Requirements
To be eligible for admission, an applicant must have:
- a recognised tertiary degree in any discipline requiring at least three years' full time study or its equivalent, or
- other documented qualifications and experience considered to be equivalent by the Head of School of Urban Development. Applicants may be required to attend an interview, or sit an examination, as part of the selection process.

Overview
The Planning Certificate is intended to provide an introduction to planning method and practice for people engaged in planning activities in government and the community, as well as being a convenient refresher course for professional planners in the latest developments in community planning theory and practice.

Students wishing to use the Graduate Certificate as a refresher or introductory course, may select any four units offered in the Graduate Diploma in Urban and Regional Planning. Full-time is one semester (48cp); part-time is 2 semesters (48cp). Please see course structure for a recommended program.

Course Structure
An overview of current planning methods is presented in Planning Processes and applied in Urban Analysis and Design and Planning Implementation. These method and practice units are accompanied by opportunity for focused study within the Elective unit, chosen in discussion with the course coordinator.

Professional Recognition
This course is registered with the Planning Institute of Australia (formerly RAPI) as a recognised Continuing Professional Development Course rated at ten credit points.

International Student Entry
QUT advises that International Students may only enrol in full-time studies.

Further Information
Faculty of Built Environment and Engineering - Phone +61 7 3138 1433, email: bee.enquiries@qut.com

Special Note
This course has been discontinued. Any remaining students should seek advice from the Course Leader regarding their remaining course program.

Potential Careers:
Urban and Regional Planner, Urban Designer.
Accelerated Foundation (QC01)

Year offered: 2009
Admissions: Yes
CRICOS code: 065046D
Course duration (full-time): 1 semester
International Fees (per semester): 2009: $7,210 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 60
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements- Academic
Successful completion of senior high school with the required grades.
Students who have attempted further schooling studies, eg GCE A-levels or equivalent may be considered for entry.
Applications will be reviewed individually and applicants will need to meet subject prerequisites. Students can find more country specific entry requirements at the following web site.
http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Course completion
Students are required to gain at least a grade of 4 (Pass) in all units.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree :

i) fulfill the Foundation course requirements,
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science à Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty
Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering - Required GPA 4.6
Health - Human Services - Required GPA 4.2
Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6
Health - Nutrition & Dietetics - Required GPA 5.8
Health - Optometry - Required GPA 5.8
Health - Podiatry - Required GPA 5.8
Health - Psychology - Required GPA 5.0
Law (except Justice Studies) - Required GPA 4.8
Law - Justice Studies - Required GPA 4.2
Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6
Science & Technology - Information Technology - Required GPA 4.8
Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Note: In some semesters some elective units may not be offered if there is insufficient demand.
Potential Careers:
Academic, Account Executive, Accountant, Actor, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Aerospace Avionics Engineer, Aged Services Worker, Analytical Chemist, Animator, Architect, Art Project Manager, Art Writer, Artist, Arts Administrator, Astrophysicist, Band Leader, Banker, Banking and Finance Professional, Barrister, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Business Analyst, Certified Practicing Accountant, Chemical Technologist, Chemist, Chemist Industrial, Child Care Professional, Child Protection Officer, Choreographer, Civil Engineer, Clinical Laboratory Scientist, Coastal Scientist, Community Corrections Officer, Community Education Officer, Community Health Officer, Community Worker, Composer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Conductor, Conservation Biologist, Construction Manager, Contract Administrator, Corporate Secretary, Corrective Services Officer, Counsellor, Creative Writer, Crown Law Officer, Curator, Customs Officer, D.J, Dance Teacher, Dancer, Data Communications Specialist, Database Manager, Digital Composer, Diplomat, Disability Services Worker, Drama Teacher, Early Childhood Teacher, Ecologist, Economist, Educator, Electrical and Computer Engineer, Electrical Engineer, Electronic Commerce Developer, Engineering Technologist, English Teacher, Environmental Engineer, Environmental Health Officer, Environmental Scientist, Estimator, Exchange Student, Exercise Physiologist, Facilities Manager, Family Services Officer, Fashion Designer, Fashion Professional, Film Composer, Film/Television Producer, Financial Advisor/Analyst, Financial Project Manager, Fitness Assessor/Personal Trainer, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Guidance Officer, Health Information Manager, Health Physicist, Health Services Manager, Higher Education Worker, Home Economist, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Industrial Designer, Information Officer, Information Security Specialist, Instrument Maker, Interior Designer, International Business Specialist, Internet Professional, Investigator, Investment Manager, Journalist, Kindergarten Teacher, Laboratory Technician (Chemistry), Landscape Architect, Librarian, Manager, Manufacturer, Mapping Scientist/Photogrammetrist, Marine Scientist, Marketing Officer/Manager, Mastering Engineer, Mathematician, Mechanical Engineer, Media Industry Specialist, Medical Biotechnologist, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Medical Physicist, Medical Scientist, Microbiologist, Molecular Biologist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technician, Musical Director, Musician, Natural Resource Scientist, Network Administrator, Network Manager, Nurse, Nutritionist/Dietitian, Occupational Health and Safety Officer, Optometrist, Organisational Communication Specialist, Pathology Scientist, Physicist, Plant Biotechnologist, Podiatrist, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Population Ecologist, Preschool Teacher, Primary School Teacher, Programmer, Project Developer, Project Manager, Property Economist, Psychologist, Public Health Officer, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Quantitative Analyst, Quantity Surveyor, Radiation Therapist, Radiographer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Risk Manager, School Counsellor, Secondary School Teacher, Social Scientist, Sociologist, Software Engineer, Solicitor, Song Writer, Sonographer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Sports Scientist, Stage Manager, Statistician, Stockbroker, Surveyor, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, TAFE Teacher, Teacher, Technical Officer, TESOL Teacher, Theatre Professionals, Trainer, Translator, Urban and Regional Planner, Urban Designer, Virologist, Visual Artist, Visual Arts Teacher, Web Designer, Youth Worker.
Standard Foundation (QC02)

Year offered: 2009
Admissions: Yes
CRICOS code: 065045E
Course duration (full-time): 2 semesters
International Fees (per semester): 2009: $7,210 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 120
Standard credit points per full-time semester: 60
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements-Academic
Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site: http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their final semester for possible credit towards their degree course.

Course Completion
In order to complete course requirements, students must gain at least a grade of 4 (Pass) in all units.

Required Foundation Grade Point Average by Faculty
Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering - Required GPA 4.6
Health - Human Services - Required GPA 4.2
Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6
Health - Nutrition & Dietetics - Required GPA 5.8
Health - Optometry - Required GPA 5.8
Health - Podiatry - Required GPA 5.8
Health - Psychology - Required GPA 5.0
Law (except Justice Studies) - Required GPA 4.8
Law - Justice Studies - Required GPA 4.2
Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6
Science & Technology - Information Technology - Required GPA 4.8
Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfil the Foundation course requirements,
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science & Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Campus: Kelvin Grove

Entry Requirements - Academic
Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Extended Foundation Program (QC04), which has an intake in February, provides pathways to QUT award programs (Diploma or Degree). This pathway is designed for students who require additional support with language and adjustment to the Australian educational environment. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their second semester for credit towards their degree course.

Course Completion
In order to complete the course requirements, students must gain at least a grade of 4 (Pass) in all units.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfill the Foundation course requirements,
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science à Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

University Certificate In Tertiary Preparation (QC05)

Year offered: 2009
Admissions: Yes
CRICOS code: 065044F
Course duration (full-time): 1 semester
International Fees (per semester): 2009: $7,210 per semester (subject to annual review)
International Entry: February, July and October
Total credit points: 48
Standard credit points per full-time semester: 48
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

Entry Requirements- English Language
IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description
The University Certificate in Tertiary Preparation is a one-semester program that enables students to receive a University certificate on successful completion. It is designed for students who may have already met the academic entry requirements for a QUT undergraduate or postgraduate degree, but who may not have met the English language and/or prerequisite requirements.*

This program provides two alternative streams:

Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in the University Certificate in Tertiary Preparation program. Those with advance standing may be able to undertake two Faculty units.

Stream B is for students who have met English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the University Certificate in Tertiary Preparation Program.

Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Alternatively, there may be some students who have already met both the academic and English requirements for a QUT degree entry, but who would prefer to undertake

Course Completion
Students must obtain at least a grade of 4 (Pass) in all units.

Progression
In order to progress to an award course, students must:

i) fulfill the University Certificate in Tertiary Preparation course requirements
ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
iii) meet any other conditions detailed in the 'letter of offer' from Student Business Services.

*Students who require a Student Visa should check the English language requirements for a student visa from their country of origin.
English for Academic Purposes for degree programs (QC10)

Year offered: 2009
Admissions: Yes
CRICOS code: 011424G
Course duration (full-time): 12 weeks
International Fees (per semester): 2009: $3,960 per semester (subject to annual review)
International Entry: March, July and October (dates are designed to allow entry to selected semester of next course)
Total credit points: 48
Course coordinator: John Healy
Campus: Kelvin Grove

Entry Requirements - Academic
To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or

2. Degree Entry (IELTS 6.5) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with reading and writing no less than 5.5 and no other sub-band less than 5 (or approved equivalent); OR

3. Degree Entry (IELTS 6.0) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with no sub-band less than 5 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Description
The aim of the EAP course is to assist international students to upgrade their English proficiency level to meet university entry requirements. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

Course Completion
To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression
Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

Course structure

English for Academic Purposes for Foundation and University Diploma Programs (QC10)

Year offered: 2009
Admissions: Yes
CRICOS code: 011424G
Course duration (full-time): 12 weeks
International Fees (per semester): 2009: $3,960 per semester + $100 non-refundable enrolment fee (subject to annual review)
International Entry: March, July and October (dates are designed to allow entry to selected semester of next course)
Total credit points: 48
Course coordinator: John Healy
Campus: Kelvin Grove

Entry requirements*
To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT Foundation or Diploma program and successfully complete the relevant EAP entry test; or

2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-score of at least 5.0 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Description
This course is designed for students intending to gain entry to University Entry programs (Foundation and University Diplomas). Its purpose is to improve students' English language and study skills in order to prepare them for independent study and to familiarise them with the Australian academic environment.

Course Completion
To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression
Successful completion of this EAP course is a pathway into QUT International College Foundation and Diploma programs and the Associate Degree in Dance.

**General English (QC20)**

**Year offered:** 2009  
**Admissions:** Yes  
**CRICOS code:** 062077K  
**Course duration (full-time):** 5 weeks  
**International Fees (per semester):** 2009: $1,650 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)  
**International Entry:** 9 entry dates per year.  
**Total credit points:** 20  
**Course coordinator:** Ian Davies (ip.davies@qut.edu.au)  
**Campus:** Kelvin Grove

**Entry Requirements - English Language**

Students should check visa requirements in relation to English entry levels.

**Description**

This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see http://www.qtic.qut.edu.au/about/entrydates/calendars.jsp

**Course Completion**

On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

**Progression**

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

General English Extension (QC21)

Year offered: 2009
Admissions: Yes
Course duration (full-time): 5 weeks

International Fees (per semester): 2009: $1,650 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: Every 5 weeks
Total credit points: 20
Course coordinator: Ian Davies (ip.davies@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
Students should check visa requirements in relation to English entry levels.

This course is for students enrolled in QC20 General English and wishes to continue their enrolment in General English.

Description
This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see http://www.qutic.qut.edu.au/about/entrydates/calendars.jsp

Course Completion
On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

Progression
Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

English for Tertiary Preparation (QC22)

Year offered: 2009
Admissions: Yes
CRICOS code: 045062C
Course duration (full-time): 2 weeks
International Fees (per semester): 2009: $660 + $100 non-refundable enrolment fee (subject to annual review)
International Entry: February, June and October
Total credit points: 8
Course coordinator: Michael Miller (mj.miller@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements
Academic requirements:
An offer of acceptance for a QUT Foundation or University Diploma course.

English requirements:
An IELTS score of at least 5.5 (with sub-scores of at least 5.0) or approved equivalent.

Description
The course aims to enhance the English language proficiency of students who already meet the IELTS requirements for their Foundation or University Diploma Program. ETP teaches and practices academic writing, reading, listening and speaking.

The course assists students with the adjustment to studying at an Australian university.

Course Completion
On completion of the course, students will receive a Completion and Attendance Certificate.

English For Academic Purposes Plus (QC24)

Year offered: 2009
Admissions: Yes
CRICOS code: 064814K
Course duration (full-time): 24 weeks
International Fees (per semester): 2009: $7920 per block + $100 non-refundable enrolment fee (subject to annual review)
International Entry: April, July and November (dates are designed to allow entry to selected semester of next course)
Total credit points: 96
Course coordinator: John Healy
Campus: Kelvin Grove

Entry Requirements - Academic
To be eligible for entry, applicants must have:

1. A conditional offer for a QUT degree program. Students without a conditional offer who wish to improve their academic English may also apply if they meet the English language entry requirements.

OR

2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-scores of at least 5.0 (or approved equivalent). Students will also sit a placement test at the beginning of their course.

* You should check the English language requirements for a Student Visa from your country of origin.

Description
EAP Plus has been specifically developed for students who wish to commence their entry into an English for Academic Purposes course earlier. Successful applicants can enter the course at pre-intermediate level and immediately begin developing their English language and study skills in an academic context.

EAP Plus enables students to begin developing their English language and study skills in an academic context from a pre-intermediate level. The course aims to prepare students to attain the level of proficiency required for gaining entrance to, and succeeding in QUT undergraduate and postgraduate award programs. EAP Plus courses include:

- Academic reading and note-taking
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computing and Internet skills
- Library research

During the first 12 weeks of the EAP Plus course, students will develop their paragraph writing, reading, listening and note-taking skills through theme-based topics at an introductory academic level, along with speaking and oral presentation skills in a highly-supported environment.

Weekly grammar, paraphrasing and vocabulary development supports the reading, writing and note-taking components. Reading skills are also enhanced via extended reading practice and specific reading skills lessons.

The second half of the course will further develop independent study skills enabling students to operate effectively in an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

EAP Plus has its own internal assessment consisting of exams and assignments, and successful students will meet QUT’s English language requirements.

Course Completion
To be eligible to receive EAP Plus Certificate at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression
Successful completion of the EAP Plus course provides a pathway into QUT undergraduate and postgraduate award programs for students who meet the academic requirements for these programs.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Career Outcomes
Graduates employed in the construction process are involved in the coordinating of the construction and maintenance of large building projects, the development of government and corporate policies, the administration of regulations, and the development and research of building systems and products. They may be employed in private organisations such as large construction and development companies or consultancies, while some are employed by government departments.

Overview
The course is concerned with the management of the overall process of construction projects and provides detailed understanding of project development from conception, through planning and construction to commissioning and maintenance. It develops skills in how to manage people, materials, equipment and plant while focusing on issues such as cost, time, quality, safety and environment. It educates students to become effective construction managers with comprehensive technological knowledge, management principles and communication skills.

Special Course Requirements
All students are required to obtain a minimum of 100 days of approved industrial experience.

Professional Recognition
Recognition is being sought from the Australian Institute of Building and the Australian Institute of Building Surveyors.

Minors
For accreditation purposes you are required to undertake specified minors which will include employment practice.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

**QUT Entry Bonus Scheme**  
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.  

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.  

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.  

**Career Outcomes**  
Property Economics is the profession associated with the management, administration and use of land and property such as office buildings, shopping centres, factories, hotels etc. Graduates work in private practice or as employees of property development, valuation, property management, investment or property finance companies. They may also work in government departments and local authorities concerned with rating, compulsory acquisitions or property development.  

**Overview**  
This course is concerned with all aspects of property - investment, asset management, development, valuation and research - with a focus on finance and on the commercial property market sector.  

**Special Course Requirements**  
You are required to obtain a minimum of 30 days approved professional work experience.  

**Professional Recognition**  
The 4 year degree has professional recognition from the Australian Property Institute, the Valuers' Registration Board of Queensland, and from the Royal Institution of Chartered Surveyors.  

**International Student Entry**  
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).  

**Majors/Minors**  
In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units) from other areas of interest.  

**Further Information**  
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com  

**Deferral**  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.  

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Career Outcomes
Quantity Surveyors prepare cost estimates and check actual expenditure for large construction projects. They usually work in offices but can also visit building sites, clients and members of teams. Graduates are employed by private quantity surveying firms, government departments and building companies.

Overview
The course prepares students to work as quantity surveyors or building economists. The course covers building management, cost planning and control, building development techniques, building research, computer software application, measurement of construction, and legal issues. Applicants will be initially enrolled in the Bachelor of Urban Development (Construction Management) but will be directed to take suitable units to graduate with a Quantity Surveying primary major.

Special Course Requirements
You are required to gain a minimum of 80 days of approved employment in the final year of the course.

Professional Recognition
This course is fully accredited by the Australian Institute of Quantity Surveyors, The Royal Institution of Chartered Surveyors (Honours version only), and the Board of Quantity Surveyors Malaysia (with Property Economics second major).

Minors
You will have the opportunity to undertake a minor (4 Units from one discipline area) which can be used to extend your construction knowledge into more advanced and specialised construction issues. Alternatively, the minor can be used to broaden students’ education by undertaking units from other faculties within the university subject to accreditation requirements.

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Career Outcomes
Surveyors assess geographic and land information for implementing appropriate administration for the land, sea and related structures. Spatial information refers to information about the geographical relationship between places, people and other items within a particular area. There are employment opportunities in all levels of government, private practice and multi-national companies, statutory authorities or semi-government agencies employ them. You will have the opportunity to travel as the degree is readily accepted overseas. After some years of experience you may become a manager or specialise as one of the following: Cadastral/Land Surveyor; Engineering Surveyor; Geodetic Surveyor; Mine Surveyor; Remote Sensing Surveyor; Topographic Surveyor; Cartographer (mapping).

Overview
This degree is a broad-based course. The first year is a foundation year designed to prepare students to deliver practical solutions to problems involving spatial information and decision-making. Students study foundation units such as mathematics, professional studies, sustainability as well as surveying in their first year. In the following years the areas covered are geodetic and control surveying, topographic mapping, photogrammetry, mine surveying, hydrographic surveying, land development design and geographic information systems.

Professional Recognition
The course is recognised by the Spatial Science Institute and has preliminary recognition from the Queensland Surveyors Board; full accreditation is currently being sought.

Special Course Requirements
You will be required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. To graduate you are required to have at least 90 days of approved industrial experience/practice in a surveying/mapping environment.

Minors
For professional recognition you will undertake two minors (a minor is four units or 48 credit points in the same discipline) the first is a Science minor which includes Maths and the second an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised spatial science units.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

**Potential Careers:**
Geoscientist, Mapping Scientist/Photogrammetrist, Surveyor.
Bachelor of Urban Development (Urban and Regional Planning) (UD40)

Year offered: 2009
Admissions: Yes
CRICOS code: 056387B
Course duration (full-time): 4 years
Domestic fees (indicative): 2009: CSP $3,628 (indicative) per semester
International Fees (per semester): 2009: $11,000 (indicative) per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 412352
Past rank cut-off: 77
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr John Hayes
Discipline coordinator: Mr Paul Donehue
Campus: Gardens Point

QUT Entry Bonus Scheme
The QUT Entry Bonus Scheme applies to students completing Year 12 or equivalent in 2008 and applying for entry in 2009.

QUT will award two bonus QTAC ranks for students who successfully complete Maths C or LOTE (Language Other Than English) in secondary school and apply to start a Bachelor of Urban Development at QUT in 2009.

QUT will also award one bonus rank to students who, while at school, successfully complete one or more university-level subjects at any Australian university.

Career Outcomes
Urban and Regional Planners develop plans and policies for the use of land and resources. They aim to fulfil the social, cultural economic and environmental needs of the community. There are numerous employment opportunities can found in state and local government departments, with private sector planning consultants and land development enterprises. Graduates can build careers in urban design, community health and welfare, housing, transport, and strategic land-use planning, and land and resource development.

Overview
This course aims to educate students to become innovative leaders in professional planning, with the capacity and will to create a better world. Graduates will apply perceptive sensibilities and skills to create sustainable natural and human environments. The QUT course emphasises creative design and inclusive community planning. You will have the opportunity to work on live projects with local councils and community groups.

Professional Recognition
This course has received accreditation from the Planning Institute of Australia.

Minors/Majors
You will be able to select two four unit minors or one eight-unit major to enhance your broader appreciation of fields related to urban and regional planning for example: landscape architecture, urban design, surveying, property economics, law and business management.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information
School of Urban Development - Phone +61 7 3138 2678, Fax +61 7 3138 1515, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

**Potential Careers:**
Urban and Regional Planner, Urban Designer.
Master of Urban Development (Urban and Regional Planning) (UD50)

Year offered: 2009
Admissions: Yes
CRICOS code: 060809F
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (indicative): 2010: Full fee tuition $8,250 (indicative) per semester
International Fees (per semester): 2010: $10,750 (indicative) per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Professor Jay Yang (Please refer course specific enquiries to Course Leader.)
Discipline coordinator: Dr Tan Yigitcanlar (Course Leader)
Campus: Gardens Point

Overview
This course aims to enhance and advance the range of knowledge, skills and social understanding required to operate professionally within the urban development context. The course sets practice within the broader socioeconomic and political contexts that influence the development of policy and infrastructure in the built environment. The course is designed to offer graduates the full range of knowledge, skills and social understanding required to become a successful urban and regional planner. Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry Requirements
A four-year full-time bachelor degree in a relevant urban development discipline area and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Professional Recognition
Students completing the Graduate Certificate in Built Environment and Engineering, with appropriate unit selection, and the Master of Urban Development (Urban and Regional Planning), will be eligible for graduate membership of the Planning Institute of Australia.

Career Outcomes
Graduates can expect to be in demand in local, state and commonwealth government departments, planning and development enterprises and consultancies, and in the voluntary sector, both in Australia and overseas. Opportunities include development planning and assessment, consultancy within the urban design field, regional planning, plan and policy preparation for land use, environment, housing, transport, recreation, education, community engagement and development, and corporate planning.

International Student Entry
International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Advanced Standing
Students completing two Masters courses in the Faculty of Built Environment and Engineering will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

Further Information
