Transformation eXcelerator

A revolutionary **online** experience for highly motivated and courageous business leaders looking to re-orient and transform their businesses and organisations.

18 weeks. Online.
Your time starts now.

The world is in desperate need of strong leaders with a clear vision for a better future.

What if, instead of money we were driven by a desire to improve each other's lives? Imagine a world where we were less concerned with producing goods and more concerned with producing goodwill.

What if we shifted our focus from providing a service to being of service?

What if we replaced efficiency and effectiveness with optimisation and an ability to anticipate end-user needs?

QUTeX can help you reimagine your business and bring about authentic transformation through innovative service design, adaptive approaches to navigating complexity and thought leadership. Right now, you have an unprecedented opportunity to positively influence society and the economy and help bring about a better future for all.

Our ground-breaking Activate: Transformation eXcelerator offers integrated learning, drawing on the disciplines of business, leadership, management, innovation, systems thinking and philosophy. Designed as a concentrated yet comprehensive learning experience, the journey will take you from theory to practice and enable you to make an immediate impact in your organisation, and a positive impact on society.

Is Activate right for you?

The program is designed specifically for motivated and visionary leaders seeking to:

- Respond effectively to significant disruption;
- Enable rapid yet sustainable transformation of their organisation; and
- Develop innovative approaches to meeting emerging stakeholder needs.

“ The facilitators took us on an exceptional journey and provided us with a transformation toolkit using leading edge research and thought leadership.

As part of the course we incorporated mindfulness (and mindful pauses) and reflected on the values that would anchor our leadership philosophies going forward.

We were surrounded by amazing people who were authentic and shared their experiences as transformation agents”.
