

Module Plus - Teaching Students Who Have Suffered Complex Trauma

Produce an action plan to use trauma-informed practices to support students, your colleagues and your school.

In this Module Plus, you'll complete an assessment based on your experiences or context that can be applied in your own school setting or workplace. Students who have lived through very difficult or traumatic life circumstances may present challenging behaviour at school and need help to self-regulate emotions and manage their relationships. In this assessment module, you will plan how to support a child or student in this situation to minimise the frequency of crisis events and ensure they are managed appropriately.

On successful completion of the Module Plus, you'll earn credit for a postgraduate unit (six credit points) that will be applied as advanced standing when you enrol in QUT's Graduate Certificate in Education or Master of Education.

Completing **Teaching students who have suffered complex trauma (MODULE PLUS)** will contribute **62 hours of NSW Education Standards Authority (NESA) Registered PD addressing 3.5.2, 4.3.2, 4.4.2, 6.3.2 and 6.4.2** from the Australian Professional Standards for Teachers towards maintaining **Proficient Teacher** Accreditation in NSW.
