Master of Architecture

Your pathway to becoming a registered architect

The Master of Architecture builds upon your undergraduate architectural knowledge, providing you with advanced understanding in architectural design and research, contextual studies, technology and science, and studies for professional practice.

The degree at a glance

Master of Architecture (2-year program)

- 192 credit points
- Delivered on-campus at QUT Gardens Point
- 2 years full time or 4 years part time

Commonwealth Supported Places (CSP) available for eligible domestic students.

Added benefit

Upon graduation you'll meet the academic requirements for membership of the Australian Institute of Architects.

Our curriculum

Sustainability is at the heart of what we teach

Students will undertake four studio-based units to develop advanced architectural design skills and complete units in:

- Digital Collaboration & BIM (Building Information Modelling)
- Sustainable Urban Design
- Advanced Building Science
- Contemporary Architectural Theory
- Complex Building Systems
- Management and Administration of Projects
- Integrated Professional Practice

Check your eligibility

Visit the QUT Master of Architecture website to check your eligibility.

Capabilities that make a difference

The QUT Master of Architecture equips students with the following capabilities and a focus on sustainability.

- Identify, explain and apply comprehensive knowledge of architecture to a range of scenarios.
- Independently and proactively manage the procurement process for architectural projects, ensuring effective and efficient outcomes.
- Demonstrated understanding of architecture as an ethical, service-oriented profession.
- Collaborate and communicate effectively with multi-disciplinary teams to deliver outcomes.
- Make informed decisions regarding architectural propositions, utilising evidence-based, reasoned arguments and sound judgement.
- Apply propositional, imaginative and iterative thinking to synthesise complex architectural designs in an integrated manner.
- Independently research and evaluate new knowledge to fulfill professional responsibilities.

Graduates who have also completed two years of practical architectural experience—of which at least one year is postgraduate architectural experience—will be eligible to undertake the Architectural Practice Examination, enabling you to be eligible for registration with any Board of Architects in Australia.

Why choose QUT

- QUT is ranked in the top 100 universities in the world for architecture and built environment (QS World University Rankings by Subject 2024).
- Experience a strong focus on sustainable systems and the application of advanced digital design tools to address sustainability at every stage of the architectural process.
- Attain Australian Institute of Architects membership upon graduation.
- Benefit from an on-campus learning experience that fosters connections with industry leaders and likeminded peers already employed in industry.
- Gain industry credibility with our globally-recognised program which is accredited by the Architects Accreditation Council of Australia.

Did you know?

If you have completed the QUT Bachelor of Design (Honours) (Architectural Studies) you may be eligible for our 1-year Master of Architecture program.
