University Diploma in Creative Industries

Handbook

Year	2012
QUT code	IF06
CRICOS	064626C
Duration (full-time international)	
International fee (indicative)	2012: $8436 per Semester
Total credit points	96
Credit points full-time sem.	48
Course Coordinator	Elizabeth McDade
Discipline Coordinator	

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	5.0
writing	5.0
reading	5.0
listening	5.0
overall	5.5

Abbreviation

UnivDipCI

Entry Requirements - Academic

Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site: http://www.international.qut.edu.au/apply/index.jsp

Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description

The University Diploma in Creative Industries, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Mass Communication and a range of Creative Industries degrees (see list below). In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Student who successfully complete the University Diploma in Creative Industries earn full academic credit for eight units, and articulate to the second year of their chosen degree, except for Bachelor of Fine Art (Film and Television) for which one semester credit only is awarded. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion

Students must obtain at least a grade of 4 (Pass) in all units

Progression

Requirements for a guaranteed place in the following QUT Bachelor degrees:

i) have an IELTS score of 6.5 or its equivalent
ii) fulfil the Diploma course requirements, and
iii) Gain a Grade Point Average (GPA) for particular courses, as indicated below:

Students must study BSD126 Marketing if they are wanting to choose either the Public Relations or Advertising major in the IF27 Bachelor of Mass Communication program

Students who successfully complete the University Diploma of Creative Industries and meet the respective faculty requirements will receive up to one year's advanced standing and be guaranteed a place in one of the available bachelor programs from the Creative Industries Faculty.

Students who achieve a grade point average of at least 4.0 (on a 7-point scale), will recieve 96 credit points (two semesters) of credit (advanced standing), with four semesters to complete:

- Bachelor of Mass Communication
- Bachelor of Creative Industries
- Bachelor of Media and Communication

Students who achieve a grade point average of at least 4.5 (on a 7-point scale), will recieve 96 credit points (two semesters) of credit (advanced standing), with four semesters to complete:

- Bachelor of Entertainment Industries
- Bachelor of Journalism
- Bachelor of Fine Arts (Creative and Professional Writing)
- Bachelor of Fine Arts (Film, TV and New Media Production)
- Bachelor of Fine Arts (Interactive and Visual Design) – starting in February
- Bachelor of Fine Arts (Drama)

Students who achieve a grade point average of at least 4.5 (on a 7-point scale), will recieve 96 credit points (two semesters) of credit (advanced standing), with five semesters to complete:

- Bachelor of Fine Arts (Interactive and Visual Design) – starting in July

Students who achieve a grade point average of at least 4.5 (on a 7-point scale), will recieve 96 credit points (two semesters) of advanced standing for six semesters to complete:

• Bachelor of Fine Arts (Animation)

Domestic Course structure
International Course structure

University Diploma in Creative Industries units

- Creative Industries: People and Practices
- Creative Industries: Making Connections
- Photomedia and Artistic Practice
- Strategic Speech Communication
- Professional Communication 1
- Professional Communication 2

Plus:

- Marketing or Elective
- Elective

Extension English Sessions

For first-semester students, these sessions take place during weeks two to eight. Other QUTIC students in University Entry Programs may join the sessions, if their timetable permits. The aims of Extension English are to improve the student's English language proficiency in speaking, listening and overall writing ability in a relaxed environment.

In addition to developing these language skills, students have the opportunity to discuss cultural issues and ask questions about studying at university.

Overview

Design is the focus of this course; these studies are supported by studies in architectural technology, history and culture of architecture, ethical and legislative frameworks, and the study of architecture in practice.

Second majors and minors

You will be able to select from two 4 unit approved minors or one 8 unit approved second major to enhance and broaden your knowledge in a related field or area of interest. Please refer to the rules at the following location before making your selection: http://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/built-environment-and-engineering/second-majors-and-minors .

ARCHITECTURAL STUDIES Second Major and Minor Options

Second Major:
A 2nd major from anywhere in QUT.

Minors:
A minor from anywhere in QUT.
Please remember that one minor must be from outside of your course.
(Design students interested in enrolling in the BEE Applications minor, must first consult and obtain approval from the Subject Area Coordinator/Course Coordinator .)

Professional Recognition

DE40 Bachelor of Design (Architectural Studies) has received preliminary assessment from the Architects Accreditation Council of Australia (AACA) and will undergo full-assessment in early 2011.

Further Information

Creative Industries Faculty, School of Design - Phone +61 7 3138 8114, Email: cif@qut.edu.au

Domestic Course structure

Your course

Year 1

Your foundation year sets the groundwork for architecture design and theory units. Five units are common to the design degree or Faculty and these cover design, design history, design and sustainability and digital communications. You undertake two units of introductory core architecture design studios and the first unit dealing with place making.

Year 2

You participate in two design studios covering process of design, dwelling, tectonics and public spaces. Further design units which integrate technology (climate) and history/theory (culture and space) are covered and lecture-based units address history/theory (architecture in the twentieth century) and architectural technology (building construction). You complete the first two units for your second major or first minor.

Year 3

Design studios address course focus areas of digital tools and sustainability. Design units continue, integrating specific knowledge of technology (structure). Additionally there is a collaborative design unit where you work with students in other disciplines of design. Two lecture-based units address history/theory (architecture and the city), and architectural technology (building services). You complete a further two units for your second major or first minor.

Year 4

Core design studios are of an advanced level, addressing the context of buildings in the urban setting, and culminating with a design project that demonstrates the integration of knowledge accumulated through the course. You also complete two common units in design research and professional practice. You complete a further four units of your second major or

four units of your second minor.

Second majors and minors

You will be able to select from two 4 unit approved minors or one 8 unit approved second major to enhance and broaden your knowledge in a related field or area of interest.

Overview

Students in this course develop their capacity to contribute to the design of products and systems for the mutual benefit of users and manufacturers of a wide range of products.

Professional Recognition

The Bachelor of Design (Industrial Design) is recognised by DIA (Design Institute of Australia). Graduates of this course are eligible for DIA Membership. Industrial Design QUT is also an Educational member of ICSID (International Council of Societies of Industrial Design).

Second majors and minors

You will be able to select from two 4 unit approved minors or one 8 unit approved second major to enhance and broaden your knowledge in a related field or area of interest. Please refer to the rules at the following location before making your selection:

Creative Industries Faculty, School of Design - Phone +61 7 3138 8114, Email: ci@qut.edu.au

Domestic Course structure

Your course

Year 1

In this foundation year you learn about design process, physical and aesthetic function, an introduction to design history and the role of design professions. You undertake five units common to the design school or Faculty covering design, design history, design and sustainability and digital communication. You explore symbolic function, ergonomics and product usability as well as the use of digital media and sustainability.

Year 2

You focus on the key aspects of how products are made, computer-aided industrial design, products systems and the social and cultural issues of design. You will also commence your second major or first minor units.

Year 3

You bring together what you have learnt so far to design realistically detailed products suitable for manufacture. You also learn about working with other professionals and the practical issues of bringing products to the market. Second major or minor units continue.

Year 4

The final year sees you using applied design research to develop truly innovative product solutions. You learn about professional practice and become ready to adopt a leadership role in design. You also conclude your second major or minor studies. You are now ready to make your mark as a professional industrial designer.

Second majors and minors

You will be able to select from two 4 unit approved minors or one 8 unit approved second major to enhance and broaden your knowledge in a related field or area of interest.

Further Information

Creative Industries Faculty, School of Design - Phone +61 7 3138 8114, Email: cif@qut.edu.au

Domestic Course structure

Your course

Year 1

The foundation year includes a diverse range of subjects in order to expose the breadth of design process and theory. Five common units cover design, design history, design and sustainability and digital communication. There are three units specific to the discipline, two concerned with core interior design studios and the other dealing with design technology.

Year 2

You complete two design studios exploring issues of inhabitation in both transitory and permanent residential situations, and discuss these relative to theory and practice of leading designers. This is supported by two units that advance understanding of interior systems and technology, alongside further topics in colour and the environment that engage issues of aesthetic and psychological perceptions of space. There is opportunity to commence second major or first minor units.

Year 3

This year departs from previous years to take a more experimental attitude to design studios. A range of topics allow you to discover differing approaches to the interior. Alongside these studios are lecture-based units addressing interior theory and environments in transition, raising issues such as gendered spaces, interiority and globalisation. A collaborative unit with other design students facilitates interdisciplinary or transdisciplinary studies. You complete two second major or minor units.

Year 4

Two semi-structured research-led design studios allow you to develop a body of work that distinguishes and advances your own design interests. Supporting this area of study are two common design units in design research and professional practice, providing a context for design

practice. A further four units of second major or four units of a second minor can also be taken in this year.

Second majors and minors

You will be able to select from two 4 unit approved minors or one 8 unit approved second major to enhance and broaden your knowledge in a related field or area of interest.

(Design students interested in enrolling in the BEE Applications minor, must first consult and obtain approval from the Subject Area Coordinator/Course Coordinator .)

Professional Recognition

This course has accreditation from the Australian Institute of Landscape Architects (AILA). Graduates can apply for membership of this professional organisation.

Further Information

Creative Industries Faculty, School of Design - Phone +61 7 3138 8114, Email: cif@qut.edu.au

Domestic Course structure

Your course

Year 1

This foundation year sets the groundwork for landscape design and theory units in later years. You undertake five units common to the design degree or Faculty covering design, design history, design and sustainability and digital communication. You also complete two units of core landscape design studios and your first unit dealing with plant studies.

Year 2

Four units for the second major or minors come on stream in your second year. You participate in two key design studios covering place theory, environmental psychology and site planning. Two theory units explore landscape ecology, aspects of physical geography and a preliminary construction unit based on land grading.

Year 3

You complete two units for your second major or minor plus two landscape design studios which extend the scale and complexity of previous studios, including an emphasis on planting design and detailed design resolution. Three construction and practice units reach an advanced level. Lastly, a history and criticism unit focuses on landscape design in the past, with a critical overview of contemporary landscape design trends.

Year 4

You further expand your expertise with two units towards your chosen second major/minors. Four units are devoted to advanced landscape design studios covering a wide range of urban and regional sites and scenarios. Two of these studios contain opportunities for personal design exploration on an agreed topic. You also complete two units in design research and professional practice.

Landscape Architecture Second Major and Minor Options

Second Major:
A 2nd major from anywhere in QUT.

Minors:
A minor from anywhere in QUT.
*Please remember that one minor must be from outside of your course.

Bachelor of Design (Landscape Architecture)

**Design students interested in enrolling in the BEE Applications minor, must first consult and obtain approval from the Subject Area Coordinator/Course Coordinator

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Depending on the choice of majors, graduates of the Bachelor of Mass Communication may satisfy the academic requirements for membership of the Advertising Institute of Australia (AIA) and the Society of Business Communicators (SBC).

Course Design

Students commencing the Bachelor of Mass Communication must complete 24 units of equal weighting totalling 288 credit points comprised of
a. Business School Core (six Business School core units)
b. Major Core (two majors of six units each) and
c. Unit Options (six units).

Although studies can be tailored to meet a specific career goal or create a wide variety of career choices, there is a set of recommended combinations of majors. Students are not required to take these combinations, however they do represent the more common and logical choices within a mass communication qualification.
The recommended combinations are:
- Advertising and Public Relations
- Public Relations and Journalism
- Public Relations and Media and Communication
- Entertainment and Public Relations
- Entertainment and Media and Communication
- Journalism and Media and Communication.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website

Domestic Course structure

Your course

Year 1

You will explore key concepts driving media and communication industries in the global new economy and be introduced to skills in your chosen professional areas of study including public relations, advertising, media and communication, journalism, and entertainment industries. You will apply your knowledge to communication activities and exercises which provide insight into the nature and scope of the industry sectors you will work in.

Year 2

Focusing on your major areas of study, you will undertake activities that enable you to apply your rapidly developing communication skills and knowledge of media industries. You will complete projects using industry-standard equipment and software, gaining experience in a range of tasks you will undertake as part of your professional life. You also begin to broaden your skill and knowledge base by selecting from a range of elective units.

Year 3

This capstone year focuses on the refinement of skills. Working individually and in teams, you will produce a portfolio of work, often for real-world clients, which showcases your project management, communication and creative talents. Work placement opportunities complement these activities and allow you to network with a range of industry leaders.

Semesters

- Course Requirements
- IF27 CORE UNITS - 6 units required
- MAJOR CORE UNITS - 12 units required - Select two of the following 6 unit majors
- Advertising
- Journalism
- Media and Communication
- Public Relations
- Entertainment

Code	Title
Course Requirements	
To successfully complete this course, you must complete:	
* IF27 core units (6 units)	
* Two IF27 Majors (6 units each) (these majors appear on your academic record but not on your parchment)	
* Complementary Studies options (6 units) comprising either a Minor PLUS 24cp of Unit Options; or 72cp of Unit Options	
NOTES: A maximum of 48cps of the following units can be taken throughout your course: KKB341, KKB342, KKB343, KKB344, KKB345, KKB346, KKB347, KKB350.	
IF27 CORE UNITS - 6 units required	
AMB201	Marketing and Audience Research
BSB126	Marketing
KCB110	Introduction to Mass Communication
KCB103	Strategic Speech Communication
KCB205	Professional Communication
Either AMB220 or AMB263 (Students completing the Advertising Major must select AMB220):	
AMB220	Advertising Theory and Practice
AMB263	Introduction To Public Relations
MAJOR CORE UNITS - 12 units required - Select two of the following 6 unit majors	
Advertising	
INSTRUCTIONS: Students completing the Advertising Major must complete AMB220 as one of their IF27 Core Units or as a Complementary Studies Unit Option.	
AMB200	Consumer Behaviour
AMB318	Advertising Copywriting
AMB319	Media Planning
AMB320	Advertising Management
AMB330	Advertising Planning Portfolio
AMB339	Advertising Campaigns
Journalism	
KJB101	Digital Journalism
KJB120	Newswriting
KJB121	Journalistic Inquiry
KJB224	Feature Writing
KJB280	International Journalism
KJB337	Public Affairs Reporting
Media and Communication	
KCB101	Introduction to Media and Communication: Texts
KCB106	Media in a Globalised World
KCB206	Internet, Self and Beyond
KCB301	Media Audiences
KCB304	Designing Communication Resources
A unit from the Media and Communication Unit Options (either KCB203 or KCB207):	
KCB203	Consumption Matters: Consumer Cultures and Identity
KCB207	Exploring New Media Worlds
Public Relations	
AMB263	Introduction To Public Relations
AMB264	Public Relations Techniques
AMB372	Public Relations Planning
AMB374	Global Public Relations Cases
AMB379	Public Relations Campaigns
Students who have completed AMB263 Introduction to Public Relations as part of the IF27 Core Units will need to choose two of the following three units. Students who have NOT completed AMB263 as part of their IF27 Core Units will need to choose one of the following three units:	
AMB202	Integrated Marketing Communication
AMB230	Digital Promotions
AMB310	Internship
Entertainment	
AMB207	Entertainment Marketing
KXB101	Introduction to Entertainment
KXB102	Global Entertainment
KXB201	Entertainment Practice: Balancing Creativity and Business
LWS008	Entertainment Law
LWS009	Introduction to Law

Course Structure

In order to complete this course, students must undertake a maximum of 192 credit points of discipline or specified units and 96 credit points of Complementary Studies.

Other course options

Studies in Media and Communication are also available through:
* IX67 Bachelor of Business/Bachelor of Media and Communication
* IX66 Bachelor of Media and Communication/ Bachelor of Laws
* IX70 Bachelor of Health Science (Nutrition or Public Health)/Bachelor of Media and Communication
* KK33 Bachelor of Creative Industries with a Media and Communication Major

Pathways to further study

Students who pass with a GPA of 5.5 or higher may apply for entry to CI Honours Courses.

Domestic Course structure

Your course

Year 1

You will establish a base knowledge in communication practices, media research and audience analysis and gain a strong contextual understanding of media and communication industries, products and policies in Australia and internationally. You will develop written, spoken and visual communication skills that are essential to professional employment in the creative industries. Your understanding of the social and cultural impact of emerging media technologies, media regulation and ownership will be advanced through the use of case studies, practical work and independent research.

Year 2

Using abilities developed in your first year you will continue to hone your communication skills and undertake practical activities to explore virtual communities and consumer cultures from global and multicultural perspectives. You will use new technologies and online communication channels to investigate online identities and Web-based hubs, while actively engaging in your own content creation and contributing to a variety of Web productions. Electives increase this course's flexibility and provide options to diversify your professional portfolio. You can expand your focus to other areas that complement or contrast your studies, enhancing your skills and erudition.

Year 3

In your third year you will have further opportunities to practically apply your knowledge and gain industry experience to boost your employability. Working in a team environment with industry professionals you will gain real-world experience through internships, service learning or creative industries projects. You will be a major player in the Brisbane Media Map project and form industry contacts while using your research skills to investigate Australian media outlets and audiences. Your professional skills will continue to be advanced and broadened to include areas of political communication, media management and the development and design of communication resources.

The QUT journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

Other Course Options

Studies in Journalism are also available through:
* IX36 Bachelor of Business/Bachelor of Journalism
* IX74 Bachelor of Journalism/Bachelor of Laws.
* KK33 Bachelor of Creative Industries with a Journalism Major.

Domestic Course structure

Your course

Year 1

You will learn foundation writing, reporting and research skills and the basic concepts that are necessary for the more sophisticated writing and production options that are contained in the second year of the journalism program.

Year 2

You will explore more sophisticated writing styles in magazine and feature writing. You will be introduced to broadcast reporting, writing and production. You will undertake the study of journalism issues and ethics.

Year 3

In the final year of your journalism degree you will become senior reporters in print, broadcast and online. You will be involved in making current affairs reports for 4EB radio, QUT News or online publications. You will also undertake an advanced unit in writing and reporting and have the opportunity to undertake an internship with industry.

2 Unit Options

Students who commenced prior to 2010 will have the option of selecting from 1 minor (4 units) + 4 Unit Options.

Your BCI core units provide you with well developed communication and digital media skills, an up-to-date insight into the creative economy, and an appreciation of interdisciplinarity and creative collaboration.

Creative Industries Transitions units in your final year will prepare you for your creative career as an entrepreneur, consultant, project manager or employee, or give you the hunger for higher degree research.

The BCI core units provide a backbone for your creative discipline studies. You will choose a creative industries major, and from there you may select an additional major to develop a significant depth of knowledge in two chosen discipline areas; alternatively, you may develop a wider breadth of knowledge across three or more study areas, by choosing two minors or a minor and four Unit Options.

Creative Industries majors are available in the following areas: Animation; Art and Design History; Creative and Professional Writing; Dance Studies; Digital Media; Drama; Entertainment Industries; Fashion; Film, Television and Screen; Interactive and Visual Design; Journalism, Media and Communication; Literary Studies; and Music.

Second majors are available in the following areas:
As per the above list of majors PLUS Advertising, Entrepreneurship, Game Design, Integrated Marketing Communication, Marketing, Mathematics, Online Environments, and Public Relations.

Other Course Options

This course is also available as part of the following double degree programs:
* IX34 Bachelor of Business/Bachelor of Creative Industries
* IX43 Bachelor of Creative Industries/ Bachelor of Human Services
* IX56 Bachelor of Creative Industries/ Bachelor of Information Technology
* IX73 Bachelor of Creative Industries/ Bachelor of Laws

Caboolture campus

The majority of your first year of study will be completed at Caboolture (a minimum of three units in your first semester and a minimum of six units in your first year must be taken at Caboolture).

For international students, this course is only offered on Kelvin Grove campus.

Credit/advanced standing will not be granted for Caboolture students;

excluding START QUT studies. To receive credit applicants must apply for the Kelvin Grove offering.

See course structures for Caboolture Only.

Domestic Course structure

Design your own degree

Your BCI core units provide you with well-developed communication and digital media skills, an up-to-date insight into the creative economy, and an appreciation of creative collaboration. Creative Industries Transitions units in your final year will prepare you for your creative career as an entrepreneur, consultant, project manager or creative professional, or give you the hunger for higher degree research.

You will choose a creative industries major and from there you may select a second major to develop a significant depth of knowledge and skill in two discipline areas. Alternatively, you might prefer to develop a wide breadth of knowledge across three or more discipline areas by adding to your chosen creative industries major with two minors and two electives.

Your course

Year 1

You will undertake two BCI core units, which provide you with well-developed communication skills and teach you how leading creative industries practitioners exploit their creativity for commercial and artistic gain. Study in your majors and minors commences from your first semester, so you take control of your creative direction from day one.

Year 2

You will continue your studies in your major(s) and/or minor(s) and enhance your career prospects by undertaking further BCI core units in visual communication and project management.

Year 3

You will continue to build your creative skills and knowledge through your majors and/or minors. The Creative Industries Transitions program offers end-of-course units in which you can set yourself up for the creative career you desire. You will undertake at least two units that will allow you to use the skills and knowledge gained during this course and assist your transition out of university. These units comprise:

- an internship program with one of our industry partners
- a creative industries project which can prepare you for work as a freelancer or consultant
- an international study tour, usually to New York, Paris, or another international creative industries city
- an introduction to research unit which will prepare you for higher degree research study (honours, masters, PhD).

Animation

You will gain skills and knowledge in the field of animation, including the history and practices of animation. You will develop practical skills in drawing, motion graphics, 3D graphics and real-time modelling for virtual environments.

Art and Design History

You will build the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. Your knowledge may span architecture, design, visual arts, and video art and culture.

Creative and Professional Writing

You will gain adequate skills and knowledge in the areas of creative or professional writing, grounded in a variety of genres, including fiction, creative non-fiction, media writing, and corporate writing and editing. Your critical, analytical and peer-reviewing skills will be enhanced, and you will have an understanding of the social and generic contexts of creative writing.

Dance Studies

You will gain skills in contemporary dance, ballet, other popular genres and choreography, alongside an understanding of the social and historical context of ballet, contemporary dance and popular and world dance. Your critical thinking, analytical and writing skills will be developed. Previously acquired skill is required for you to undertake this major. You must be physically able, fit and have advanced skills in dance technique.

Drama

This major has a twin focus on contemporary performance making and events management. Your performance-making topics will include acting, directing, theatre history, performance theory and practice, alongside planning, producing, promoting and evaluating live events, exhibitions and festivals.

Entertainment Industries

This major will prepare you for work as a producer, creating and managing entertainment projects and organisations. You will gain business, legal and creative skills suitable for work in the entertainment industries, which include television, popular music, major entertainment events, games, radio, entertainment marketing, sports media, theme park or movie industries.

Fashion

This major provides you with knowledge of the industry, to prepare you for potential careers in merchandising, fashion wholesale, fashion and style journalism, and fashion styling. Practical units provide options to focus on drawing for fashion, portfolio development and fashion journalism. You will learn about the history and consumption of fashion, its industry context, and the critical legal issues surrounding its production and distribution.

Film, Television and Screen

You will develop a range of knowledge in the theory and practice of film, television and screen. You will develop storytelling and communication skills, as well as creative, technical and organisational abilities. Your understanding of the industry will be enhanced by studies in the variety of aspects of film and TV production.

Interactive and Visual Design

You will gain skills and knowledge in the domain of interactive and visual design and design for digital screens including the principles, practice and practical use of media technologies. You will progress through to studio-based units, which will situate what you have learned into a production or project-based setting in the areas of web development and interactive multimedia.

Journalism

The journalism major provides skills in a range of journalism writing styles and knowledge of specialist areas of reporting.

Literary Studies

You will gain grounding in a range of works, both literary and popular, ranging from Shakespeare to nineteenth- and twentieth-century literature and culture. You will enhance your skills in critical thinking, writing and analysis, and understand the social and historical context of the works you study.

Media and Communication

The media and communication major provides skills and knowledge to prepare media material for organisations that wish to build and maintain their media profile.

Music

A major in music provides an overview of current issues in music and sound practice and develops a broad understanding of music in social, cultural and economic contexts. It also offers students the opportunity to gain practical skills in music and sound production. The study area is particularly suited to students who wish to combine studies in music with studies in other disciplines, and/or who wish to work within the music industry in administrative, business or organisational roles.

Other major options

Majors are also available through other faculties at QUT, including advertising, entrepreneurship, game design, integrated marketing communication, marketing, online environments and public relations. These majors from other faculties can only be taken in combination with your chosen Creative Industries major. Caboolture students may not be able to access these additional majors at the Caboolture campus.

Minors

You can choose up to two minors from Creative Industries or other areas at QUT. These include:

- advertising, audience and user research, communication for the professions, entrepreneurship, international business, integrated marketing communication, management, marketing, public relations
- animation, game design, information technology, interactive and visual design
- architectural studies; art, design and architecture; art history; collaborative digital design; fashion; interior design studies; visual arts practice
- creative writing, literature, modern and popular literature and culture, professional writing
- dance studies, drama, lighting design, music studies, performance events and festivals, sound design, scenography
- journalism, media and communication, screen studies, television
- Indigenous studies
- entertainment
- a range of foreign languages through the tri-university language alliance.

Your BCI core units provide you with well-developed communication and digital media skills, an up-to-date insight into the creative economy, and an appreciation of creative collaboration. Creative Industries Transitions units in your final year will prepare you for your creative career as an entrepreneur, consultant, project manager or creative professional, or give you the hunger for higher degree research.

You will choose a creative industries major and from there you may select a second major to develop a significant depth of knowledge and skill in two discipline areas. Alternatively, you might prefer to develop a wide breadth of knowledge across three or more discipline areas by adding to your chosen creative industries major with two minors and two electives.

Your course

Year 1

You will undertake two BCI core units, which provide you with well-developed communication skills and teach you how leading creative industries practitioners exploit their creativity for commercial and artistic gain. Study in your majors and minors commences from your first semester, so you take control of your creative direction from day one.

Year 2

You will continue your studies in your major(s) and/or minor(s) and enhance your career prospects by undertaking further BCI core units in visual communication and project management.

Year 3

You will continue to build your creative skills and knowledge through your majors and/or minors. The Creative Industries Transitions program offers end-of-course units in which you can set yourself up for the creative career you desire. You will undertake at least two units that will allow you to use the skills and knowledge gained during this course and assist your transition out of university. These units comprise:

- an internship program with one of our industry partners
- a creative industries project which can prepare you for work as a freelancer or consultant
- an international study tour, usually to New York, Paris, or another international creative industries city
- an introduction to research unit which will prepare you for higher degree research study (honours, masters, PhD).

Animation

You will gain skills and knowledge in the field of animation, including the history and practices of animation. You will develop practical skills in drawing, motion graphics, 3D graphics and real-time modelling for virtual environments.

Art and Design History

You will build the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. Your knowledge may span architecture, design, visual arts, and video art and culture.

Creative and Professional Writing

You will gain adequate skills and knowledge in the areas of creative or professional writing, grounded in a variety of genres, including fiction, creative non-fiction, media writing, and corporate writing and editing. Your critical, analytical and peer-reviewing skills will be enhanced, and you will have an understanding of the social and generic contexts of creative writing.

Dance Studies

You will gain skills in contemporary dance, ballet, other popular genres and choreography, alongside an understanding of the social and historical context of ballet, contemporary dance and popular and world dance. Your critical thinking, analytical and writing skills will be developed. Previously acquired skill is required for you to undertake this major. You must be physically able, fit and have advanced skills in dance technique.

Drama

This major has a twin focus on contemporary performance making and events management. Your performance-making topics will include acting, directing, theatre history, performance theory and practice, alongside planning, producing, promoting and evaluating live events, exhibitions and festivals.

Entertainment Industries

This major will prepare you for work as a producer, creating and managing entertainment projects and organisations. You will gain business, legal and creative skills suitable for work in the entertainment industries, which include television, popular music, major entertainment events, games, radio, entertainment marketing, sports media, theme park or movie industries.

Fashion

This major provides you with knowledge of the industry, to prepare you for potential careers in merchandising, fashion wholesale, fashion and style journalism, and fashion styling. Practical units provide options to focus on drawing for fashion, portfolio development and

fashion journalism. You will learn about the history and consumption of fashion, its industry context, and the critical legal issues surrounding its production and distribution.

Film, Television and Screen

You will develop a range of knowledge in the theory and practice of film, television and screen. You will develop storytelling and communication skills, as well as creative, technical and organisational abilities. Your understanding of the industry will be enhanced by studies in the variety of aspects of film and TV production.

Interactive and Visual Design

You will gain skills and knowledge in the domain of interactive and visual design and design for digital screens including the principles, practice and practical use of media technologies. You will progress through to studio-based units, which will situate what you have learned into a production or project-based setting in the areas of web development and interactive multimedia.

Journalism

The journalism major provides skills in a range of journalism writing styles and knowledge of specialist areas of reporting.

Literary Studies

You will gain grounding in a range of works, both literary and popular, ranging from Shakespeare to nineteenth- and twentieth-century literature and culture. You will enhance your skills in critical thinking, writing and analysis, and understand the social and historical context of the works you study.

Media and Communication

The media and communication major provides skills and knowledge to prepare media material for organisations that wish to build and maintain their media profile.

Music

A major in music provides an overview of current issues in music and sound practice and develops a broad understanding of music in social, cultural and economic contexts. It also offers students the opportunity to gain practical skills in music and sound production. The study area is particularly suited to students who wish to combine studies in music with studies in other disciplines, and/or who wish to work within the music industry in administrative, business or organisational roles.

Other major options

Majors are also available through other faculties at QUT, including advertising, entrepreneurship, game design, integrated marketing communication, marketing, online environments and public relations. These majors from other faculties can only be taken in combination with your chosen Creative Industries major. Caboolture students may not be able to access these additional majors at the Caboolture campus.

Minors

You can choose up to two minors from Creative Industries or other areas at QUT. These include:

- advertising, audience and user research, communication for the professions, entrepreneurship, international business, integrated marketing communication, management, marketing, public relations
- animation, game design, information technology, interactive and visual design
- architectural studies; art, design and architecture; art history; collaborative digital design; fashion; interior design studies; visual arts practice
- creative writing, literature, modern and popular literature and culture, professional writing
- dance studies, drama, lighting design, music studies, performance events and festivals, sound design, scenography
- journalism, media and communication, screen studies, television
- Indigenous studies
- entertainment
- a range of foreign languages through the tri-university language alliance.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Acting at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Acting at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the 14 October 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is the 30 September. See the QTAC website for more information

What are the additional entry requirements?

You must submit the following and attend an audition where you will present two monologues of two-and-a-half minutes each.

Academic record

Please bring your Academic Record to your audition.

Photograph

- A clear current head-and-shoulders photograph (no larger than 6cm x 6cm - passport photo size) is required.
- Note: the photograph is compulsory. Applications which do not include photographs cannot be processed.

Resume or Curriculum Vitae

You need to provide a resume or curriculum vitae, consisting of no more than two typewritten A4 pages. This should list any performance experience, workshop attendance or other acting work you may have done in addition to work experience/employment.

It is important that Mature Age entry applicants include details of all work/academic records since leaving school.

Do not send original documents, photocopies only please.

Criteria for Acceptance.

In auditioning and interviewing potential students, QUT looks especially for the following qualities:

- A serious commitment to an acting career in stage, film and television.
- A potential for vital, individualistic, trainable growth.
- Energy, openness of mind, enthusiasm, and a readiness to take risks.
- A body, voice and imaginative/emotional powers promising significant dramatic development.
- A potential for identification with the thought process of their text.
- A sense of humour, a sense of language, a sense of rhythm, and a capacity for sustained concentration.
- A readiness for hard, rigorous work

Know the lines well enough so that nervousness will not paralyse you. Understand that fear and nervousness are part of the acting process. It is the adrenaline that allows you to show your best work.

We encourage you to make bold choices in your interpretation and in your performance.

Do not use audition pieces you have devised or written yourself as those auditioning you want to see how you apply your imagination to another writer's words.

Do not use audition pieces extracted from poems or novels as they are mostly inherently undramatic.

Do bring adequate supplies of food and drink on the day.

We encourage you to read Dean Carey's book, The Actor's Audition Manual, Currency Press. His advice on preparing and performing pieces is invaluable.

Do I have to audition in costume/make-up? No, you don't. Nor do you need to bring props. Instead, we suggest that you:

- Wear footwear and clothing that allow you to move and work easily
- Avoid wearing jewellery that could

fall off, get tangled, or become lost or damaged
- Remove any tongue or facial piercing.

Are there any specific audition pieces for me to prepare?

Download the Acting Audition Pieces

These pieces are not compulsory. If you decide to present pieces not on the list, please choose monologues not more than three minutes in length and ensure the two pieces you choose contrast.

Am I required to present Shakespeare as my second audition piece?

Certainly you can use Shakespeare as one of your pieces if you wish. However, it is not mandatory; just make sure your two audition pieces contrast.

How do I apply?

To apply for this course, you must:
- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee);
- Attend an audition or submit a video/DVD of your work; and
- Apply for this course through QTAC. Please see the QTAC website for more information.

When and where are the Brisbane auditions?

All applicants are required to attend a first audition at the QUT Kelvin Grove campus. If you are successful, you will receive a call-back for a first recall. Successful applicants from the first recall will then be required to attend the final recall. You will be notified of recall arrangements at your first audition.

Below is a list of dates for the process, plus requirements for each audition:
- First Audition - during week commencing Monday November 21 to 25 November 2011
  Prepare two audition pieces of your own selection.
- First Recall (if selected) - Tuesday November 29 or Wednesday November 30 2011
  Perform same audition pieces.
- Final Recall (if selected) - Friday December 2 2011

Remember that in addition to registering for an audition, you must also apply to QTAC.

Will QUT be holding auditions outside Brisbane?
Auditions will also be held at the following locations:
- Sydney Friday 11 and Saturday 12 November 2011

>I am unable to attend any of the audition locations. Is it possible for me to submit a video/ DVD of my work?

Yes, you can for the initial audition. If successful, you will be expected to attend the recall dates in November/December. Please ensure your video/DVD reaches us by Friday 14 October 2011. Information on where to send your video/DVD is part of the online registration procedure.

When making your video / DVD, you should use the following format:
- Include a brief description of who you are, where you are from and your expectations and goals for a career in acting.
- It would also be useful to explain why you're choosing QUT for your course of study.
- Then perform two contrasting monologues that are something you see yourself being cast in for theatre or film and television. Make sure one monologue is shot in medium close up and one is full body.

How do I know if I am required to attend a recall?

The process will be explained to you at the time of your first audition.

Please Note: Registering with QUT for an audition is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The audition process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Please read the information below before submitting your application.
- Which Acting courses require additional entry application?
- What is the closing date for additional entry applications to Acting courses at QUT Creative Industries?
- What are the additional entry requirements?
- What qualities are QUT Creative Industries looking for?
- Do I have to audition in costume / make-up?
- Are there any specific audition pieces for me to prepare?
- Do I need to attend an audition?
- When and where are the Brisbane auditions?
- I am unable to attend any of the audition locations. Is it possible for me to submit a video/ DVD of my work?
- How do I apply?

Which Acting courses require additional entry application?

KK34 - Bachelor of Fine Arts (Acting)

What is the closing date for additional entry applications to Acting courses at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must submit the following with your application and either attend an audition or submit a VCR or DVD where you will present two monologues of two-and-a-half minutes each.
- Academic transcript from secondary and/or tertiary institutions
- Photograph - A clear current head-and-shoulders photograph (no larger than 6cm x 6cm - passport photo size) is required. This should be attached to your QUT application form
- Resume or Curriculum Vitae - You need to provide a resume or curriculum vitae with your application, consisting of no more than two typewritten A4 pages. This should list any performance experience, workshop attendance or other acting work you may have done in addition to work experience/employment. It is important that Mature Age entry applicants include details of all

work/academic records since leaving school.

Do not send original documents, photocopies only please.

What qualities are QUT Creative Industries looking for?

We expect well-prepared work. We do not expect highly polished work. Assume you will need at least two weeks preparation time for each audition piece.

Work to make us listen and feel something for you:

- How does this piece affect you?
- What emotions does the character go through?
- What does your character want?
- What are the circumstances?
- What is the character doing physically?

Know the lines well enough so that nervousness will not paralyse you. Understand that fear and nervousness are part of the acting process. It is the adrenaline that allows you to show your best work.

We encourage you to make bold choices in your interpretation and in your performance.

Do not use audition pieces you have devised or written yourself as those auditioning you want to see how you apply your imagination to another writer's words.

Do not use audition pieces extracted from poems or novels as they are mostly inherently undramatic.

Do I have to audition in costume/make-up?

No, you don't. Nor do you need to bring props. Instead, it is recommended that you:

- Wear footwear and clothing that allow you to move and work easily
- Avoid wearing jewellery that could fall off, get tangled, or become lost or damaged
- Remove any tongue or facial piercing.

Are there any specific audition pieces for me to prepare?

Download the Acting Audition Pieces (50kb)

These pieces are not compulsory. If you decide to present pieces not on the list, please choose monologues not more than three minutes in length and ensure the two pieces you choose contrast.

Do I need to attend an audition?

If you are able, international applicants are encouraged to attend auditions as outlined below. You must be available for the entire audition process, from first audition through to final recall.

If you have any questions about auditions, please contact acting@qut.edu.au.

When and where are the Brisbane auditions?

Below is a list of dates for the process, plus requirements for each audition:

First Audition - during week commencing Monday November 21 to 25 November 2011
Prepare two audition pieces of your own selection.

First Recall Tuesday November 29 or Wednesday November 30
Perform same audition pieces.

Final Recall (if selected) - Friday December 2 2011

Remember that in addition to registering for an audition, you must also apply to QTAC.

Will QUT be holding auditions outside Brisbane?

Auditions will also be held in the following locations:

Sydney Friday 11 and Saturday 12 November 2011

To arrange an audition in Brisbane during the audition week, please contact acting@qut.edu.au.

I am unable to attend any of the audition locations. Is it possible for me to submit a video/ DVD of my work?

Yes, you can.

When making your video / DVD, you should use the following format:

- Include a brief description of who you are, where you are from and your expectations and goals for a career in acting.
- It would also be useful to explain why you're choosing QUT for your acting course.
- Perform two contrasting monologues that are something you see yourself being cast in for theatre or film and television. Make sure one monologue is shot in medium close up and one is full body.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may post or e-mail your application.

Post to:
QUT Admissions
Victoria Park Road
Kelvin Grove, QLD 4059

Email qut.intadmission@qut.edu.au

If you have questions about your Additional Entry Application, please contact the Creative Industries Faculty on phone +61 7 3138 8114.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either an Advanced Acting Practice Minor (strongly recommended), a Second Major, Minors or Unit Options.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

The first-year acting studio is the basis for your future career. You will also study voice, singing, improvisation, Alexander, combat, and movement. You will learn the foundations of organic (or method) acting which is based on a fierce commitment to emotional honesty.

Year 2

This is your development year. You will continue to refine your talent through acting studio and rehearsals, and

continue your studies in voice, movement and combat. Your acting studio work is designed to address the whole artist: to bring your voice, mind, body and emotions together through a range of role and performance opportunities. You will undertake film shoots, contemporary and classical stage productions, stand-up comedy, clowning and Shakespeare. You will study complementary areas through your electives, e.g. theatre and film history.

Year 3

This is your professional year which comprises performance for both stage and screen in a variety of venues. Typically, this includes a theatre season of three plays and two film shoots. Your professional development and readiness for the industry are anchored to the real world by your connection with professional directors and management agents. You will identify relevant issues relating to your planned career and learn how to position yourself effectively for entry into an international industry. QUT Acting Showcase (also known as Industry Day) in Brisbane and in Sydney will show your stage and film work to employers, management agents, casting agents and directors.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will focus on developing your eye for visual communication and on extending representation into motion graphics. You will gain a solid grounding in the history and practices of animation as a foundation to build your own creative practice. The first year will allow you to get settled in the medium of animation.

Year 2

Building on the knowledge and skills you gained in the first year, you will settle into the animation studios, where you will begin an intensive investigation into workflow, studio communication, and responses to briefs. You will study character development, conceptual design and animation layout principles and techniques. You will learn and use techniques in 3D computer graphics, modelling, shading, real-time development, UV texturing and matte painting, as you respond to assessment and develop animated elements to support your ideas. Through the processes of critical analysis, you will be encouraged to evaluate your own work, interrogate the way you present your ideas visually and will refine it as you progress towards your vocational goal.

Year 3

You will consolidate your work by extending your understanding of the workflows of an animation studio. You will extend your knowledge of production management, and your skills in 3D computer animation, real-time computer graphics, and virtual environments. Your final year is about consolidating your eye for detail, your responsiveness to problems, your ability to research and develop ideas, in order to deliver an animated work to professional standard. You will produce a substantial work, which will be showcased to industry professionals in a public exhibition. The final year also gives you an opportunity to specialise through project work or preparation for honours or postgraduate research.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

Graduates can work as creative or professional writers and editors in corporate, community and freelance capacities. Opportunities exist as fiction writers, corporate writers, script writers, reviewers, travel writers, feature writers, editors, journalists and publishers. Pathways exist to prepare you for further study including honours, research, or creative practice and analysis.

Course Design

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either an Advanced Writing Practice Minor, a Creative Writing and Literary Studies Research Minor, a Second Major, Minors or Unit Options.

Other Course Options

Studies in Creative and Professional Writing are also available in:
* IX35 Bachelor of Business/Bachelor of Fine Arts (Creative and Professional Writing)
* IX68 Bachelor of Fine Arts (Creative and Professional Writing)/Bachelor of Laws
* KK33 Bachelor of Creative Industries with a creative and professional writing major or literary studies major

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will be introduced to creative writing practice and develop critical and analytical skills in reading and writing a variety of forms including fiction and poetry. Learning from lecturers and tutors with industry experience, you will both write and analyse short stories, creative non-fiction and youth writing.

Year 2

Building on the practical skills and conceptual background acquired in first-year units, you will study script writing, stylistics and poetics as well as corporate writing and how the classic and most popular novels were written. You will undertake electives in areas of interest, allowing you to tailor this course to take advantage of your strengths and vocational interests.

Year 3

You will write a sustained piece of creative work, within the genre of your choice, such as a key section of an original novel. You will be introduced to editing and developing a manuscript for a targeted market, and the real world of the writing and publishing industry, as well as in-depth study of longer fiction and life writing. You can add to your knowledge of creative and literary studies by continuing with electives of your choice.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Dance at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and submit a Dance Registration Form to the Creative Industries Faculty. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Dance at QUT Creative Industries?

- Registration for the 2012 intake will close by the extended closing date of 23 September, 2011. To register for an audition, you must submit a Dance Registration Form.
- You must also apply to QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must submit the following and attend an audition:

- Academic record
- Personal statement Personal statement form is included in the Application Guide
- Photograph A current passport sized photograph ANDA full body shot, facing front in parallel, in leotard / swim suit (no board shorts)
- Physiotherapist's Report. A specialist dance or sports physiotherapist needs to assess various physical elements such as your flexibility range and history of injuries.Physiotherapist report form is provided in the Application Guide

What does the audition consist of?

There are two rounds on your day of audition. All applicants will complete round one. Those applicants successful in moving onto round two will be posted on the notice board during the lunch break.

Round One:

- a ballet class (no pointe work)
- a contemporary dance class
- a jazz class (for course code 429162 only)
- a course talk given by the Head of Dance
- a written interpretative exercise

The written exercise requires no preparation. It is a half hour session that looks at the applicant's interpretative skills and writing skills - e.g. spelling, punctuation, grammar - in response to an image presented on the day.

Round Two:

- a one minute solo in a dance genre of the applicant's choice
- This solo is an opportunity for you to dance in a genre of your own choice that you may feel better demonstrates your performance abilities - e.g. hip hop, adagio, Irish, tap. The solo is one minute long and music (if used) should be on CD. The solo may be choreographed by the applicant or someone else - e.g. teacher, guest choreographer
- a more advanced ballet and contemporary class, which includes pointe work (for course code 421822 only)
- A short impromptu talk from the auditionee on a topic given on the day (for course code 429162 1st preference only.)

What should I wear to my audition?

Ballet class:

- women: pink tights, light coloured leotard and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights and leotard, please wear bike pants and tight, light coloured, fitting t-shirt.
- men: tights and a light-coloured singlet or t-shirt and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights, please wear bike pants and jock strap.

Contemporary class:

- Same as above, but able to work in bare feet when required in this genre.

Solo:

- no costumes or props please. Tights and leotard only.

What do I need to bring on the day?'

Please bring your dance gear and water bottle. If you bring lunch it can be stored in the fridge in the dance corridor. There are no cafes open on campus on

weekends.

I have no formal training in classical / contemporary ballet. Can I still audition?

You are assessed on potential, but formal training would benefit applicants. The selection panel looks at you for your movement potential, alignment, sense of musicality, and your degree of confidence. Studying a different technique (e.g. jazz, tap, contemporary) will also help you develop these skills.

What do I have to do in the solo presentation?

The solo presentation is one minute (maximum), which can be improvised or choreographed by yourself or another person, in a style of your choice (e.g. Tap, Irish Dance). The selection panel looks for confidence, appropriate quality and performance integrity.

How do I apply?

There are two steps to an application for Dance at QUT:

1. You must register for an audition by submitting a Dance Registration Form to the Creative Industries Faculty by the extended closing date of 23 September 2011. This should also include a copy of the QUTpay confirmation page from your online credit card payment of the $33 service charge. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee
2. You must also apply through QTAC, where the due date for on-time applications is the 30 September. See the QTAC website for more information.

When and where are the auditions?

Location and Dates

Brisbane

Saturday 8 October 2011

Bachelor of Fine Arts (Dance)/Graduate Diploma in Education QTAC code 429162 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am - 2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Brisbane

Sunday 9 October 2011

Bachelor of Fine Arts (Dance Performance) QTAC code 421822 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am-2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Sydney

Saturday 1 October 2011

University of NSW (Kensington Campus)
Myers Studio
Gate 2 High Street
9am - 5pm

Melbourne

Saturday 1 October 2011

Australian Ballet School
9am - 5pm

You need to nominate the venue most suitable to you on your registration form. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out seven (7) working days after the extended closing date (23 September 2011). Please expect to be in attendance from 8am until 6pm on your day of audition.

Please Note: Registering with QUT for an audition is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The audition process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

What is the closing date for additional entry applications to Dance at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must submit the following and attend an audition:

Academic transcript from secondary and/or tertiary institutes

Personal statement

Photograph

- A current passport sized photograph AND
- A full body shot, facing front in parallel, in leotard / swim suit (no board shorts) This should be attached to your QUT application form.

A video or DVD of your audition (see below)

Do I need to attend an audition?

If you are able, international applicants are encouraged to attend auditions as outlined below. You must be available for the entire audition process. You can nominate your preferred date on your application:

When and where are the auditions?

If you choose to attend an audition, you should nominate the venue most suitable to you. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out mid September. Please expect to be in attendance from 8am until 6pm on your day of audition.

What if I cannot attend an audition?

If you choose to audition by video/DVD, please provide the following on video (VHS format) or DVD

VERBAL INTRODUCTION

1. Brief personal and dance training history.

2. Reasons for wanting to do a dance course (reason for wanting to study in Australia)

3. Course choice:

- Bachelor of Fine Arts (Dance Performance)
- Bachelor of Fine Arts (Dance) / Graduate Diploma in Education (Senior Years)
- Your chosen career path (eg performance, choreography, teaching, others).

DANCE VIDEO COMPONENT

1. Classical barre including
   - Plie
   - fondu
   - tendu
   - adage
   - rond de jambe
   - grande battement

2. Classical centre work
   - port de bras
   - jumps (small warm-up sequences)
   - adage
   - variation with allegro
   - pirouettes

3. Jazz and / or Contemporary travelling sequences including:
   - a sequence of floorwork
   - an exercise demonstrating movement isolations and or spinal flexibility
   - jumps
   - a travelling sequence

4. Solo Presentation

Presentation should be no longer than two (2) minutes in length in any style (ballet, jazz, tap, improvisation etc or a culturally specific style such as traditional Chinese dance). The solo performed should be in your strongest area of performance. For further information see QUT website.

5. Notes

Exercises should be kept short and simple so that the fundamental elements of the work may be observed.
It is preferred that the work has musical accompaniment.
Please wear light coloured attire

Ballet - Pink tights and light coloured leotard

Contemporary - Bare feet, socks or jazz shoes, light coloured tights and light coloured leotard or bare legs + bike pants

Note: Video/DVD is not returned to the applicant.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may e-mail your application.

Email qut.intadmission@qut.edu.au

If you have questions about your Additional Entry Application, please contact the Creative Industries Faculty on phone +61 7 3138 8114

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Important Notice

The title of this course has changed to Bachelor of Fine Arts (Dance Performance) for students commencing in 2010. Students who commenced in 2009 or earlier, should refer to Bachelor of Fine Arts (Dance).

The Bachelor of Fine Arts (Dance) is still available as a dual degree with Education for students commencing in 2010. Please refer to KK34 Bachelor of Fine Arts (Dance)/ ED38 Graduate Diploma in Education (Senior Years).

Auditions

Auditions will be held in Brisbane, Melbourne, Sydney, Canberra and Adelaide in late September/early October. Confirmation dates and venues will be posted to registrants after registrations close.

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either an Advanced Dance Performance Minor, Minors or Unit Options.

Other Course Options

Dance studies are also available through:
* KK34 Bachelor of Fine Arts (Dance)/ ED38 Graduate Diploma in Education (Senior Years)
* KK33 Bachelor of Creative Industries with a dance studies major
* Exit after two years of successful study with an Associate Degree

Additional costs

As a dance student you will be required to provide your own dancewear, dance shoes, stage makeup, knee pads and any other specialist dance needs as required.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

8am - 2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Brisbane

Sunday 9 October 2011

Bachelor of Fine Arts (Dance Performance) QTAC code 421822 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am-2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Sydney

Saturday 1 October 2011

University of NSW (Kensington Campus)
Myers Studio
Gate 2 High Street
9am - 5pm

Melbourne

Saturday 1 October 2011

Australian Ballet School
9am - 5pm

You need to nominate the venue most suitable to you on your registration form. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out seven (7) working days after the closing date (9 September 2011). Please expect to be in attendance from 8am until 6pm on your day of audition.

Please Note: Registering with QUT for an audition is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The audition process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC. The first offers for this course will be made in the early round in December 2011.

International Entry requirements

What is the closing date for additional entry applications to Dance at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must submit the following and attend an audition:

Academic transcript from secondary and/or tertiary institutes

Personal statement

Photograph

- A current passport sized photograph AND
- A full body shot, facing front in parallel, in leotard / swim suit (no board shorts) This should be attached to your QUT application form.

A video or DVD of your audition (see below)

Do I need to attend an audition?

If you are able, international applicants are encouraged to attend auditions as outlined below. You must be available for the entire audition process. You can nominate your preferred date on your application:

When and where are the auditions?

If you choose to attend an audition, you should nominate the venue most suitable to you. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out mid September. Please expect to be in attendance from 8am until 6pm on your day of audition.

What if I cannot attend an audition?

If you choose to audition by video/DVD, please provide the following on video (VHS format) or DVD

VERBAL INTRODUCTION

1. Brief personal and dance training history.

2. Reasons for wanting to do a dance course (reason for wanting to study in Australia)

3. Course choice:

- Bachelor of Fine Arts (Dance Performance)
- Bachelor of Fine Arts (Dance) / Graduate Diploma in Education (Senior Years)
- Your chosen career path (eg performance, choreography, teaching, others).

DANCE VIDEO COMPONENT

1. Classical barre including

- Plie
- fondu
- tendu
- adage
- rond de jambe
- grande battement

2. Classical centre work

- port de bras
- jumps (small warm-up sequences)
- adage
- variation with allegro
- pirouettes

3. Jazz and / or Contemporary travelling sequences including:

- a sequence of floorwork
- an exercise demonstrating movement isolations and or spinal flexibility
- jumps
- a travelling sequence

4. Solo Presentation

Presentation should be no longer than two (2) minutes in length in any style (ballet, jazz, tap, improvisation etc or a culturally specific style such as traditional Chinese dance). The solo performed should be in your strongest area of performance. For further information see QUT website.

5. Notes

Exercises should be kept short and simple so that the fundamental elements of the work may be observed.
It is preferred that the work has musical accompaniment.
Please wear light coloured attire

Ballet - Pink tights and light coloured leotard

Contemporary - Bare feet, socks or jazz shoes, light coloured tights and light coloured leotard or bare legs + bike pants

Note: Video/DVD is not returned to the applicant.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may e-mail your application.

Email qut.intadmission@qut.edu.au

If you have questions about your Additional Entry Application, please contact the Creative Industries Faculty on phone +61 7 3138 8114

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discipline Coordinator	Dr Sandra Gattenhof Phone: +61 7 3138 8114 Email: ci@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either a Performance Events and Festivals Minor, a Second Major, Minors or Unit Options.

Limits of grades of 3

A new policy concerning grades of 3 came into effect from 1 January 2009 (QUT MOPP C/5.2). With effect from this date grades of 3 are no longer considered a conceded or low pass but are classified as a fail grade. Any grades of 3 awarded prior to 1 January 2009 retain the conceded pass status and will be counted for graduation purposes up to the maximum number of grades of 3 permitted for your course. Grades of 3 incurred in units that commence after 1 January 2009 will not count towards your degree. Further information is available on the Student Services website

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

Your first year is strongly practical, with classes, workshops and an end-of-year production. You will investigate different aspects of theatre history, develop performance skills and will learn how to lead drama workshops in theatre, educational and corporate contexts.

Year 2

Your practical skills and conceptual understanding will be extended in the areas of devised performance and theatre in community contexts. You will develop your understanding of the Australian theatre context, its history and plays. Units in event and festival management are also available. You will begin your elective studies, choosing a second major and/or minors and/or a second teaching area (if you are on the teaching pathway) from creative industries or other QUT areas, allowing you to tailor this course to your vocational interests.

Year 3

In your final year there is an emphasis on your development as a collaborative and entrepreneurial theatre artist. Facilitated by specialist staff and industry professionals, you will prepare, create and present your final production. You will acquire leadership skills in directing, apply theoretical lenses to your own creative practice, and be encouraged to undertake internships and project-based work. Those on the teaching pathway will undertake introductory studies in education. You will complete your second major, minors, second teaching area, or electives.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Fashion at the QUT Creative Industries Faculty.

To be considered for a place you must do two things.

1. Submit to the Creative Industries Faculty by the extended closing date of 14 October 2011. a Fashion 2012 Registration Forma copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee).a Portfolio with this Registration Form
2. Apply through QTAC by 30 September.
   (See the QTAC website for more information)

Interviews

Following the submission applicants will be shortlisted. QUT will be conducting interviews in November 2011. Should you be shortlisted you will be notified via email. Only submissions that include all the above stated requirements will be processed.

Offers

The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

The Portfolio - further details

Your Portfolio must contain three things.

1. Academic Records - include your most up-to date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).
3. Maximum 20 single-sided A4 pages, which should include a range of examples that demonstrate your potential as a fashion designer. This could include but is not limited to: Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic).Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking.Selected photographs that show good examples of any garments you have made.

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you dont like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Do not send original documents, colour photocopies only please

Will my portfolio by returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Which Fashion courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Fashion)
- IX35 - Bachelor of Business / Bachelor of Fine Arts (Fashion)

You must submit three things:

1. Academic Records - include your

most up-to date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either a Fashion Complementary Studies Minor, a Second Major, Minors or Unit Options.

Other Course Options

Fashion studies are also available through:
* IX35 Bachelor of Business/Bachelor of Fine Arts (Fashion)
* KK33 Bachelor of Creative Industries with a fashion major

Additional costs

There is a levy charged for essential items such as calico, pattern equipment and pre-cut exercises. In addition, students are expected to purchase fabrics as required for projects throughout the three years.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will focus on the integration of conceptual design principles with the practical skills and understanding of pattern technology and garment construction. You will gain knowledge of the materials, skills and processes available to the garment and textile industries including issues around sustainability and ethical production. You will analyse fashion trends and develop core skills and knowledge of drawing to be used in fashion design presentation.

Year 2

Building on the skills from your first year, you will expand your knowledge of the national and international fashion world, learn pattern engineering principles, realise your designs through garment construction and use fashion technology to enhance your design skills. In addition, you will increase your knowledge of and ability to research consumer cultures and continue to choose electives in other study areas of interest.

Year 3

In your final year, you will explore your own personal design identity allowing you to work on and develop your own product or fashion range, which will be showcased to industry in the graduation fashion show. Opportunities are available to use fashion technology to expand your design directions. You will also have the opportunity to identify relevant issues relating to your planned career and to position yourself effectively for entry into the fashion industry or postgraduate study, therefore helping with the transition into the real world. You will continue to choose electives in other areas of interest.

Discipline Coordinator	Associate Professor Geoff Portmann Phone: +61 7 3138 8114 Email: ci@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies made up of either the Advanced Film, TV and New Media Minor, a Second Major, Minors or Unit Options.

Deferment

QUT allows all applicants to defer their undergraduate admission offer for one year, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Additional costs

You may be required to cover the costs of recording materials, video hire, production travel expenses and associated film and video production costs.

Domestic Course structure

Your course

Year 1

In your first year you will gain a broad understanding and knowledge of relevant cultural contexts in which your work will be fostered. You will study a broad range of styles and genres from film and television formats. You will gain practical skills for the industry, including writing, business, and technical skills such as directing, camera, editing and sound.

Year 2

In your second year you will begin to specialise your skills in producing, writing, editing, cinematography, sound or directing. In producing you will develop skills in pitching and production, audience measurement and legal issues. In the craft areas you will work on more sophisticated, broadcast-quality equipment including digital formats and multi-camera. Those concentrating on writing will develop their knowledge of genre and further develop their writing skills. Whichever specialisation you choose, you will work with other students to create experimental productions or television programs.

Year 3

In your final year you will work on major productions, building on and refining the knowledge and skills you have learned throughout the degree. Using your specialist skills you will work in groups on documentaries, film dramas or a television series and other digital media. If you are preparing for a career in producing you will learn project management and gain real-world experience pitching your ideas. Those in craft-based specialisations will be encouraged to experiment with broadcast quality formats such as digital, mobile and Super 16 film. Writing specialists will continue to develop their dialogue skills. You will have opportunities to showcase your work to industry and undertake internships.

listening	6.0
overall	6.5

Overview

Interactive and visual design plays a pivotal role in the rapidly expanding fields of contemporary communication and new technologies. Careers in this area provide the opportunity to design for electronic and print media, Web and mobile technologies, games and physical computing, as well as new technologies as they continue to emerge.

This course will provide you with the conceptual understanding, practical skills and working methods you will need to become a creative and innovative designer. As well as developing core understandings in visual design for a range of media including mobile and virtual environment, you will choose study pathways to develop a specialist focus in graphic design, animation or design for tangible and physical computing.

Career Outcomes

This course will prepare you for a range of careers in the creative industries such as advertising and marketing, print design, Web design and electronic publishing, multimedia and interactive entertainment design, games design, and interactive exhibition design. Graduates from this study area work in traditional design companies in fields such as graphic design, marketing, branding and print and television campaigns, Web Design, interaction design, usability, knowledge management and information architecture. They also gain employment in new, rapidly expanding industries. For example, games companies employ graduates to work on content production, interaction design, visual design and real-time and virtual environments modelling; film and television companies employ graduates in post-production and branding; museums and other cultural institutions employ graduates in multimedia design and interactive installation. In addition, visualisation companies increasingly provide opportunities for graduates across industries as diverse as mining, architectural and medical visualisation.

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either a Second Major, Minors or Unit Options.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will focus on developing an individual design practice. Working with a variety of media in the design studios, you will develop a foundational understanding of visual communication, motion graphics, and temporal and interaction design principles. You will also acquire the technical skills needed to implement your designs in print and electronic media. By responding to design briefs, you will learn to target your design to a specific audience, context and purpose. You will participate in critical reviews and discover how they benefit the development of design solutions.

Year 2

Extending your visual and interaction design skills, you will develop your design practice through a specialist focus in graphic design, 3D computer graphics and virtual environments, animation or interaction design for tangible media. Real-world client briefs will introduce you to collaboration in interdisciplinary project teams and industry workflows. You will also begin your elective studies.

Year 3

In your final year, you will consolidate your specialist design practice and your understanding of project development, studio communication, and responses to briefs within a design studio. Drawing on the specialist knowledge you gained in second year you will work within a design team, collaborating in the production of industry-level projects. Guest lectures and master classes from industry professionals and authentic, industry-focused learning experiences, including workplace learning options, will ensure that you are workplace ready. The year will culminate in a graduating exhibition which will be attended by industry representatives.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Sound Design at the QUT Creative Industries Faculty. To be considered for a place in you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Sound Design at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the extended closing date of 14 October 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

- Academic record
- Photo: a current passport sized photo (for identification purposes only)
- Portfolio of sound works
- Written statement

Portfolio of sound works

Submit a portfolio of music/sound works that you have created. Suitable items include (but are not limited to):

- Sound design for video or websites
- Soundscapes you have recorded/engineered/produced
- Sounds created using computer software

You should include three contrasting pieces - total duration for all pieces 10 minutes maximum.

Acceptable formats are:

- Audio CD (must be able to be played in a standard CD player)
- CD-ROM (must be compatible with Macintosh and PC)
- DVD (must be able to be played in a standard DVD player)
- USB stick
- Printed screenshots of creative planning (if relevant)

Your folio must also be accompanied by written notes (maximum 200 words) that explain your precise role in each of the items (i.e. what your role/s were in the creation of the piece, how you created the piece, your artistic aims in creating the piece).

- All portfolio items should be marked with your name and contact details. Please note that portfolios are not returned.
- Please ensure you test your CDs, CD-ROMs or DVDs on multiple systemsbefore submitting them. Failure of your media to play in the specified equipment may adversely affect your folio result.

Qualities looked for in the portfolio:

- Originality of approach
- Technical skill in design, recording and production
- Clear articulation of creative approach
- General sense of emotional engagement/success in storytelling
- Diversity of material presented

Information on the written statement:

- Your past experiences in sound design or production activities
- What sound design or designers (in movies, games, etc.) inspire you
- Your ambitions during your studies and beyond
- How you think studying Sound Design at QUT will help you achieve your goals

Qualities looked for in the written statement:

- A strong track record in relevant sound design or production activities
- A strong potential for continued growth in your understanding and practice of sound design
- knowledge of the QUT Creative Industries Sound Design course and how it relates to your own personal goals

Note: Submissions cannot be returned to the applicant.

How do I apply?

To apply for this course, you must:

- Complete the online registration and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your

academic record; a copy of the QUTpay confirmation page from your online credit card payment (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee); your portfolio;
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

Course Structure

In order to complete this course, students must complete 192 credit points of discipline units, the Music and Sound Production pathway, and either a minor or four Unit Options.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will start by learning about the fundamentals of sound and music technology and how to use them creatively to achieve artistic results. You will also begin to develop an awareness of sound as a storytelling tool. While you do not need to have traditional music skills, you will work alongside Bachelor of Music students, learning how sound is organised musically and about the dynamics of performance and presentation as they apply to sound design.

Year 2

To develop a unique set of 'crossover' sound skills you will build on the foundation studies of your first year, having a chance to pursue the pathway that best suits your future needs. You will have options to work in the fields of sound design for visual and interactive media, immersive entertainment and the recording studio.

Year 3

You will deepen your skills in sound design and production, mentored by staff and industry professionals. You will have opportunities to showcase yourself to industry through a series of creative production opportunities. You will learn about both the existing and emerging industry and have the opportunity to undertake practical projects with other talented creative artists and designers both inside and outside the University with real production outcomes.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Technical Production at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Technical Production at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the extended closing date of 14 October 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information

Applicants must supply the following information and attend an interview:

- **Academic record** - Please bring your most recent Academic Record to your interview.
- **Photograph** - A clear current head-and-shoulders photograph (no larger than 6cm x 6cm - passport photo size) is required.
  This photograph should be attached to the Application Form in the space provided.
  Note: the photograph is compulsory. Applications that do not include photographs cannot be processed.
- **Resume or Curriculum Vitae** - You need to provide a resume or curriculum vitae, consisting of no more than six (6) typewritten A4 pages. This should detail any drama/technical/performance experience, leadership roles or other work you may have done in addition to work experience/employment.
  It is important that mature age entry applicants include details of all work/academic records since leaving school.
- **Script Analysis and Practical Response** - You are required to write a script analysis of between 500 and 1000 words based on one of three works and bring three copies of this to the interview. Further details of this requirement (and the practical response) are available at the following link - Additional Entry Practical Task. You should carefully read the instructions before completing this requirement. A floor plan of the Gardens Theatre and additional Gardens Theatre specifications have been provided for use in the practical response.

Do not send original documents, photocopies only please.

How do I apply?

To apply for this course, you must:

- Complete the online registration and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; your resume or curriculum vitae; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee);
- Provide the information requested and attend an interview as detailed below; and
- Apply for this course through QTAC. Please see the QTAC website for more information.

When and where are the interviews?

All applicants are required to attend a first interview. A letter confirming the time and place will be sent to your nominated address. If you are successful, you will receive a second interview. You will be notified of shortlisting arrangements at your first interview. Interviews will occur at the QUT Kelvin Grove campus.

Below is a list of dates for the process, plus requirements for each interview:

- **First Interview** - during the week commencing November 15, 2011
  Your first interview will be scheduled when you lodge your online application. Please note that the time and date of your interview cannot be changed except in exceptional circumstances. You should be prepared to discuss your academic history and the reasons you are interested in this course. You will be expected to demonstrate

an understanding of at least one of the following areas of live performance practice: stage management, lighting, sound, or event production/management. You must also bring with you three copies of your script analysis and practical response and be prepared to discuss this.

- **Second Interview** - during the week commencing November 21, 2011
  Shortlisted applicants will be required to present an example of their work, or an indication of their potential. Examples of material to submit at this recall will be provided at the first interview.

Please Note: Registering with QUT for an interview is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The interview process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Thank you for your interest in Technical Production at QUT Creative Industries Faculty. Please read the information below before submitting your application.

What is the Technical Production course that requires additional entry application?

- KK34 - Bachelor of Fine Arts (Technical Production)

What is the closing date for additional entry applications to Technical Production at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

Applicants must supply the following information and attend an interview. For most international applications, interviews are organised and conducted by phone.

- **Academic record -** Please bring your latest and complete Academic Record (Academic History) to your interview if your interview is in-person or attach it to your QUT application form.
- **Photograph** - A clear current head-and-shoulders photograph (no larger than 6cm x 6cm - passport photo size) is required. This should be attached to your QUT application form.
- **Resume or Curriculum Vitae** - You need to provide a resume or curriculum vitae with your application, consisting of no more than six (6) typewritten A4 pages. This should detail any drama/technical/performance experience, leadership roles or other work you may have done in addition to work experience/employment. It is important that mature age entry applicants include details of all work/academic records since leaving school.
- **Script Analysis and Practical Response** - You are required to write a script analysis of between 500 and 1000 words based on one of three works and bring three copies of this to the interview. Further details of this requirement (and the practical response) are available at the following link - Additional Entry Practical Task. You should carefully read the instructions before completing this requirement. A floor plan of the Gardens Theatre and additional Gardens Theatre specifications have been provided for use in the practical response.

Do not send original documents, photocopies only please.

When and where are the interviews?

If you are unable to attend the interviews, we will arrange a telephone interview. Please e-mail techprod@qut.edu.au to arrange a telephone interview.

If you are able, international applicants are encouraged to attend interviews as outlined below. You must be available for the entire interview process, both first and second interviews.

Interviews will take place at the QUT Kelvin Grove Campus. Below is a list of dates for the process, plus requirements for each interview:

- **First Interview** - during the week commencing September 19, 2011
  You should be prepared to discuss your academic history, the reasons you are interested in this course. You will be expected to demonstrate an understanding of at least one of the following areas of live performance practice: stage management, lighting, sound, or event production/management. You must also bring with you three copies of your script analysis and practical response and be prepared to discuss this.
- **Second Interview** - during the week commencing November 21, 2011
  Shortlisted applicants will be required to present an example of their work, or an indication of their potential. Examples of material to submit at this recall will be provided at the first interview.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may post or e-mail your application.

Post to:
QUT Admissions
Victoria Park Road
Kelvin Grove, QLD 4059

Email qut.intadmission@qut.edu.au

If you have questions about your Additional Entry Application, please contact the Creative Industries Faculty on phone +61 7 3138 8114

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of an Advanced Technical Production Practice Minor, a Scenography Minor, a Second Major, Minors or Unit Options.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will attend classes in stage management, lighting, sound, and the workshop areas of props, sets and costume, developing basic skills and knowledge in all areas of technical production. You will apply your knowledge on productions as bump in/out crew and production assistants. As you progress you will undertake the roles of stage managers and lighting, sound and AV operators.

Year 2

Your classes cover advanced lighting and sound technologies (including elements of design), set and costume design, stage management for dance, opera and musicals, and festival management. Classes will be aligned with production seasons within the areas of dance, acting, music and fashion. You will work on a minimum of four productions as a lighting, sound or AV operator, head electrician, fly operator, mechanist, followspot operator, assistant stage manager and/or stage and event manager. You will work with professional directors, choreographers and designers, and students from a variety of creative disciplines at QUT. You will also study electives in areas other than technical production.

Year 3

You will work on several QUT productions in more senior roles such as stage manager, head electrician, event/festival coordinator, sound coordinator and lighting designer. You may choose to focus on applying and developing your skills in one of these areas of live production. You will work alongside industry professionals (directors and designers) at QUT, with first- and second-year students as your crew. You will also have the opportunity of industry secondment placements with appropriate professional companies or personnel in your area of expertise.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Visual Arts at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Visual Arts at QUT Creative Industries?

- You must register through the Online Registration Form with the Creative Industries Faculty by the extended closing date of 14 October 2011.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must supply the following:

Academic record - A copy of your most recent report (it does not have to be your final end-of-year grades).

Portfolio - Maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "Qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB) PLEASE NOTE: We do NOT return portfolios, so do NOT include any original copies of your work or documentation.

Responses to a series of questions about your interest in visual art. These are essential. To lodge your responses, return to this site in early July to register online. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

- Are you planning to graduate as a studio artist, art teacher or other art industry professional? Please outline your career goals.
- What are you expecting to learn in a course of study in Visual Arts at QUT?
- Describe briefly which exhibitions and galleries you have visited in the past 12 months, and the art-related books/articles/reviews you have read, etc).
- Briefly list any group exhibitions, solo exhibitions, commissions and awards you have been included in, plus membership of art associations etc.
- What do you think is art's role in the twenty-first century? Outline briefly.

Service charge of $33 (GST inclusive) - This is to cover the costs of administration and insurance in processing applications, and is non-refundable. The service charge can be paid by credit card online with QUTPay. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee.

Passport style photograph

How do I apply?

To apply for this course, you must:

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge; your portfolio (unless uploaded online);
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are

required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).
- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

When and where are the interviews?

Shortlisted applicants will be contacted, and interviewed, during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Please read the information below before submitting your application.

Which Visual Arts courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Visual Arts)
- IX35 - Bachelor of Business/Bachelor of Fine Arts (Visual Arts)

What is the closing date for additional entry applications to Visual Arts at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must supply the following:

Academic transcript from secondary and/or tertiary institutions

- Portfolio: Maximum of 20 images that best demonstrate current art achievements, working processes, commitment and potential.
- It may contain photographs, slides, photocopies of sketches and journal pages, printed digital images and/or short video excerpts (no more than 2 minutes each).
- Responses to a series of four questions about your interest in visual art. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

1. What attracts you to a course of study in Visual Arts?
2. Describe briefly what contact you have had with works of other artists (exhibitions, galleries you have visited, books/articles/reviews you have read, etc).
3. Summarise the types of visual arts activities in which you have participated (for example group exhibitions, solo exhibitions, commissions, awards, membership of art associations etc).
4. Describe aspects of art that you respond to, both positively and negatively.

What qualities are QUT Creative Industries looking for?

Overall, we seek indications of your ability to think creatively, and of your potential to succeed in the course.

We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s.

We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, sustained practice and familiarity with visual media.

We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.

We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either an Advanced Studio Practice Minor, a Second Major, Minors or Unit Options.

Other Course Options

The Bachelor of Fine Arts (Visual Arts) is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Fine Arts (Visual Arts) and the one year Graduate Diploma of Education (Senior Years).

Studies in Visual Arts are also available through:
* IX35 Bachelor of Business/Bachelor of Fine Arts (Visual Arts)
* KK33 Bachelor of Creative Industries with an art and design history major

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

Year 1

You will focus on beginning to develop your own art practice, working with a variety of media. Staff will help you develop your own interests and ideas. Introductory workshops will be provided in both digital and traditional art-making skills and you will also develop skills in visual analysis. You will be introduced to a wide range of art practices both in the studio and in history/theory classes.

Year 2

Building on your skills and knowledge from your first year, you will continue to develop your art practice using a range of media and your knowledge of contemporary art. Your skills in visual and textual analysis will develop, as will your understanding of national and international art. You will contextualise your art practice through presentations, discussions and supported practical experience in display and exhibition. If you want to become a teacher or art professional, you will begin undertaking specific vocational training towards your career goal.

Year 3

In your final year, you will continue to consolidate your art practice and build your understanding of its place in the Australian and international context. For those intending to become practising artists, the year will culminate in a public group exhibition. Your final year of study will allow for specialisation, helping you enter the real world of the arts industry or prepare you for further study in the Graduate Diploma in Education (Senior Years), or in honours and postgraduate research.

Overview

You're part of a new generation, ready for the challenge of leadership in the evolving and rapidly growing entertainment industry. Creativity and innovation are your best qualities, combined with your ability to build partnerships and collaborate. Producing entertainment is your dream and you want to deliver a superior entertainment experience for audiences. Accordingly, you aspire to develop the necessary skills and knowledge in creativity, business and law. You're ready to start a career in the exciting and thriving global entertainment industry.

Entertainment has never been more important. The entertainment industry is diverse and incorporates live performances, tourism events, sport, online gaming, film, television, videos and radio productions. And while digital entertainment is increasing rapidly, non-digital entertainment will account for two thirds of the total global spending on entertainment in 2014. Producers of entertainment are not only focused on engaging existing audiences but also new audiences of the future.

Why choose this course

The Bachelor of Entertainment Industries, commencing in 2012, will train you to work as an entertainment producer where you will originate, design and run entertainment projects. The entertainment industry is a thriving and growing industry in Brisbane, Australia and overseas. Entertainment is a recession proof industry and was worth $1.5 trillion globally in 2007, projected to grow to $2.2 trillion by 2012.

This new course was designed in close collaboration with the entertainment industry. Strong industry involvement in the development and ongoing delivery of the course ensures you will benefit from practical experiences, original and engaging learning exercises and direct contact with entertainment producers. Currently, our industry partners include Nova radio in Brisbane, Warner Bros. Movie World theme park and the Ekka.

You will gain unique skills and knowledge from the combination of expertise in creative industries, business and law. Further, you will have the opportunity to supplement your studies in entertainment and gain additional career advantage by choosing a second major from the 12 specialised majors available in the Creative Industries Faculty. Together, this diverse range of experience will prepare you for the business side of producing entertainment in the modern world.

Career Outcomes

Graduates may work as producers, researchers, online producers, publishers, agents or promoters within the growing entertainment industry. The industry is diverse and includes entertainment in the context of tourism events, large-scale performances, radio programming and theme parks to name a few. You will be employed by an organisation that produces entertainment or become self-employed in generating new forms of entertainment for the future.

Your Course

Year 1

You will meet real-life entertainment producers and be introduced to their work as well as visit entertainment companies. Learning how entertainment works and how to identify the key characteristics of successful entertainment will be included in your studies. An investigation of how entertainment circulates globally will complement an analysis of global entertainment genres like soap operas and theme parks, and specific places like Hollywood, Bollywood, and South Korean gaming. You will be introduced to the business, creative and legal sides of working as an entertainment producer.

Year 2
You will learn how to sell your entertainment products, through marketing concepts including segmentation and management information systems, and explore marketing specialisations such as services marketing, e-marketing, and strategic marketing. You will also meet lawyers who work in entertainment and be introduced to how the legal system affects entertainment production. Working with entertainment producers in order to learn how to balance business and creativity, and design proposals for entertainment projects is included in second year.

Year 3
You will make contact with entertainment companies operating in Brisbane and map the sector of potential employers as well as learning how to manage an entertainment project. Your studies in entertainment marketing will be extended and you will gain a thorough understanding of how marketing works in the various entertainment sectors. As you prepare to go out into the real world you will learn about entertainment law and legal issues including copyright, intellectual property, and contract law. By the time you graduate you will also have undertaken at least one industry placement or project as part of your studies, which will ensure you graduate with professional experience and network contacts.

Limits of grades of 3

A new policy concerning grades of 3 came into effect from 1 January 2009 (QUT MOPP C/5.2). With effect from this date grades of 3 are no longer considered a conceded or low pass but are classified as a fail grade. Any grades of 3 awarded prior to 1 January 2009 retain the conceded pass status and will be counted for graduation purposes up to the maximum number of grades of 3 permitted for your course. Grades of 3 incurred in units that commence after 1 January 2009 will not count towards your degree. Further information is available on the Student Services website.

Pathways to further study

The Bachelor of Entertainment Industries (Honours) is currently under consideration, for commencement in Semester 1, 2014. Pending final approval, KK35 graduates who achieve minimum GPA requirements, will be eligible to apply for the Bachelor of Entertainment Industries (Honours).

CRICOS	022140F
Duration (full-time)	3 years
Campus	Kelvin Grove
Domestic fee (indicative)	2012: CSP $2,824 per Semester
International fee (indicative)	2012: $10,700 per Semester
Total credit points	288
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Course Coordinator	Director of Undergraduate Studies
Discipline Coordinator	Professor Phil Graham Phone: +61 7 3138 8114 Email: ci@qut.edu.au

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 02 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Music at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Music at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the 02 September 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements and what qualities are you looking for?

- Academic record
- Photo. A current passport sized photo (for identification purposes only)
- Interview. During the interview you may be asked about: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying music at QUT will help you achieve your musical goals
- Audition: performance on instrument and/or Portfolio of music / sound works (if applicable)

1. The Interview

Qualities looked for in the Interview:

- a strong track record in relevant music and sound activities
- a strong potential for continued growth in your music and sound understanding and practice
- knowledge of QUT Creative Industries music courses and how this relates to your own personal goals

You are encouraged to bring to your interview evidence of any musical qualifications or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances etc).

2. The Audition

Audition requirements (all applicants)

Present two items at the audition that you believe will persuade the panel of your suitability for QUT Music and Sound (it will be of benefit if at least one is your own song, improvisation or composition). The items may comprise the following:

- performances of two contrasting pieces of music of your own choice for the panel
  or
- performances of one piece of music and present one recorded piece (portfolio) for the panel to listen to at the audition,
  or
- presentation of two recorded pieces (portfolio) for the panel to listen to at the audition.

Total duration: no more than 10 minutes. You may be asked to stop playing/presenting before finishing a piece - in the event that this occurs, you should not assume that this has adverse implications on the assessment of your presentation.

Live Performance

You will need to demonstrate technical fluency/competency on your instrument and a well-developed sense of musicality and engagement.

- You can perform on any instrument - orchestral, acoustic, amplified, electronic (eg. computer, turntable etc.), non-western (eg. sitar, djembe, etc.)
- You can audition on more than one instrument so long as it fits within your 10 minute audition time.

It is your responsibility to arrange your own accompaniment if you require it. You can use backing tracks on CD. Other formats may be accommodated but only by prior arrangement or you may be accompanied by a maximum of 2 other musicians. Unaccompanied performance is acceptable however if the piece(s) you are performing are not intended as solo works, accompaniment is desirable.

Qualities looked for in the Live Performance Audition:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

Recorded Pieces

This should consist of music/sound works that you have created or have been partly involved in creating. Suitable items include (but are not limited to) written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc. You will be expected to advise the panel of your precise role in the recorded pieces.

- Bring a portfolio of music/sound works that you have created. Suitable items include (but are not limited to); written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc.
- You should include one or two contrasting pieces (only one if you are also choosing to perform a live piece) - total duration for all pieces 10 minutes maximum
- Acceptable formats are: Audio CD (must be able to be played in a standard CD player)CD-ROM (must be compatible with Macintosh and PC)DVD (must be able to be played in a standard DVD player)USB Stick
- Printed scores (if relevant and only in conjunction with an audio recording or performance of the piece),
- Please ensure you test your CDs, CD-ROMs or DVDs on multiple systems before submitting them. Failure of your media to play in the specified equipment may adversely affect your folio result.
- Your folio must be accompanied by written notes (maximum 200 words) that explain your precise role in each of the items (i.e. what your role/s were in the creation of the piece, how you created the piece, your artistic aims in creating the piece)
- All portfolio items should be marked with your name and contact details. Please note that portfolios are not returned.

Qualities looked for in Recorded Pieces:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

How do I apply?

- Complete the online registration and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment of the $33 service fee (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee);
- Attend an audition; and
- Apply for this course through QTAC. Please see the QTAC website for more information.

When and where are the auditions and interviews being held?

- All auditions and interviews will be held in Brisbane at the QUT Kelvin Grove campus between 26 - 29 September 2011.
- Your interview and audition will be scheduled when you lodge your online application. Please note that the time and date of your audition cannot be changed except in exceptional circumstances.

What if I am unable to attend an audition/interview?

- If you are unable to attend an interview/audition you may apply by submitting the following along with your academic record, photo, portfolio and payment by 2 September 2011:
- a written statement (total 2 pages maximum) that addresses the following 4 points: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying Music and Sound at QUT will help you achieve your musical goals

Photocopy evidence of any musical achievements or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances, commercial CDs etc.)

- A continuous and unedited video recording of you performing your audition piece(s) or a CD of your production pieces (or both). Refer to audition requirements for recorded and live performance.

Video must be submitted on CDR or DVD-R and must include a declaration of authenticity, details of date and place of performance and details of the role of applicant if the performance involves other participants. Refer to audition requirements for recorded and live performance. Please note that videos are not returned.

- You may be required for a phone interview to clarify any points in your written statement

Can I audition on more than one instrument?

Yes but only within the duration of your 10-minute audition.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the early round in 15 December 2011 offer round.

International Entry requirements

Please read the information below before submitting your application.

Which Music courses require additional entry application?

- KM32 - Bachelor of Music
- KM32 - Bachelor of Music/ED38 - Graduate Diploma in Education (Senior Years)

What is the closing date for additional entry courses in Music at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the Additional Entry Requirements?

Applicants are required to attend an audition and interview as part of the selection process:

- Perform 2 contrasting pieces of music of your own choice - total duration for both pieces 10 minutes maximum
- Demonstrate a high level of technical fluency on your instrument and a well developed sense of musicality and engagement. You can perform on any instrument - orchestral, acoustic, amplified, electronic (e.g. computer, turntable

etc.), non-western (e.g. sitar, djembe, etc.) Please note that acceptance into the performance strand will depend upon the availability of a suitable teacher in your chosen instrument. The Music & Sound Discipline reserves the right not to accept particular instruments for study in the performance strand.

QUT prefers to audition and interview applicants in person however international applicants living outside Australia may submit the following:

- A continuous and unedited video recording of you performing your audition pieces is acceptable. The video must be submitted on VHS tape or DVD and must include a declaration of authenticity, details of date and place of performance and details of the role of applicant if the performance involves other participants.
- A written statement (two page maximum) that addresses the following four points; your past experiences in music and sound activities, what sort of music you enjoy playing and listening to, your ambitions during your studies and beyond, how you think studying Music and Sound at QUT will help you achieve your goals.
- Photocopies of musical qualifications or any other information which will assist us in gauging your musicianship level.

Please note you may be required to complete a phone interview to clarify points in your written statement.

Qualities looked for in the Audition:

- clear articulation of musical approach
- demonstrated technical skill
- general sense of musicality
- originality of approach
- level of musical engagement
- diversity of material presented

Qualities looked for in the interview/statement:

- a strong track record in relevant music and sound activities
- a strong potential for continued growth in your music and sound understanding and practice
- knowledge of QUT Creative Industries Music and Sound courses and how this relates to your own personal goals

Note: Submissions cannot be returned to the applicant.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may post or e-mail your application.

Post to:
QUT Admissions
Victoria Park Road
Kelvin Grove, QLD 4059

Email: qut.intadmission@qut.edu.au

If you have questions about your Additional Entry Application, please contact the Creative Industries Faculty on phone +61 7 3138 8114

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why choose this course?

QUT's Bachelor of Music is the only Brisbane-based degree which focuses on contemporary music. Our teaching staff have professional links with Q-Music, the Australian Independent Record Labels Association (AIR), Arts Queensland, Ellaways Music, Creative Media Warehouse and ITC Software Development.

There is an emphasis on creativity and new music and you will be encouraged to explore new connections and different styles or genres of music. You will experience both live and recording studio environments, whether your focus is as a player or producer, and learn how to use technology to create music, record and distribute your works and market your talent.

You will be immersed in the industry through internships and media opportunities, and you will launch your career through public performances in Brisbane's live music venues. In 2008, music students presented live performances in venues such as The Zoo, the Brisbane Powerhouse, Valley Studios and QPAC, as well as at the Brisbane Festival.

Course Structure

In order to complete this course, students must complete 192 credit points of Music units and 96 credit points of Complementary Studies.

Other Course Options

The Bachelor of Music is available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprising the three year Bachelor of Music and the one year Graduate Diploma of Education (Senior Years).

Studies in Music are also available in:
* KK33 Bachelor of Creative Industries with a music major

Additional costs

While extensive computing technology is available, additional digital storage will be required (CDs, DVDs, and often hard drives) at your own cost. Headphones, ear plugs, batteries and appropriate leads must be provided.

Pathways to further study

Students who pass KM32 Bachelor of Music with a GPA of 5.5 or higher may apply for entry to the Bachelor of Music (Honours).

Domestic Course structure

Your course

Year 1

A foundation program in music concepts will provide you with an overview of contemporary developments in music and sound, along with musicianship skills. You will undertake a foundation program in music and sound production which will develop your skills with music technology and software. An intensive music studio experience will develop your skills in music and sound performance, presentation, and help you identify your creative direction.

Year 2

To develop a unique set of crossover musical skills, you will build on the foundation studies of your first year, and pursue a pathway that best suits your future needs. You will study creative performance, music and sound production, or a combination of the two. They will be accompanied by an intensive project-based study program, mentored by staff and industry professionals, which further develops your focus as an artist or creative producer. You will gain an understanding of the structure of the music industry, current industry issues, and learn how to promote yourself and organise events. You will complement your music studies by taking electives in other disciplines, or specialise further in the music and sound area.

Year 3

You will intensify your creative project work and showcase yourself to industry through a series of public performance and creative production opportunities. You will further your knowledge of the music industry via real-world learning contexts and have the opportunity to undertake projects with other talented creative artists and producers, or in partnership with related organisations. You can continue to engage more broadly with the creative industries by taking electives in other disciplines, or specialise further in the music and sound area.

Complementary Studies Study Area - Creative Performer Minor	
Description: This study area addresses the conceptual and practical skills necessary for successful music performance in a 21st century context. In addition to developing students as performers, it develops students as 'creators' who are capable of originating distinctive musical material.	
Assumed Knowledge: Completion of the first year of the Bachelor of Music prior to commencing this study area.	
Year 2, Semester 1	
KMB250	Creative Performer 1
Year 2, Semester 2	
KMB251	Creative Performer 2
Year 3, Semester 1	
KMB350	Creative Performer 3
Year 3, Semester 2	
KMB351	Creative Performer 4
Complementary Studies Study Area - Music and Sound Production Minor	
Description: This study area aims to provide students with the skills necessary to operate within current music and sound production environments and to effectively create, produce and realise works for audiences across a range of delivery formats. It aims to provide students with effective skills in utilising professional level production technologies in addition to developing students' conceptual awareness of current approaches to music and sound production.	
Assumed Knowledge: Completion of the first year of either the Bachelor of Music or the Bachelor of Fine Arts (Sound Design) prior to commencing this study area.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

NO INTAKE IN 2010

Students wishing to undertake a double Music and Education program should refer to the KM32 Bachelor of Music / ED38 Graduate Diploma in Education entry.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Overview

This program consists of 16 creative industries units and 16 business units which are integrated so that you will study units from both areas each semester. You will undertake the Bachelor of Creative Industries core units as well as one creative industries major from animation; art and design history; creative and professional writing; dance; digital media; drama; entertainment industries; fashion; film, television and screen; interactive and visual design; journalism, media and communication; literary studies; or music.

Your business degree provides you with a broad base of business knowledge, and you will choose a major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Course Design

This course is made up of 384 credit points. Each component (i.e. Business and Creative Industries) comprises 192 credit points.

The Business component is made up of 96 credit points of Business School core units and 96 credit points of units from a Business major. The Business majors are accountancy, advertising, economics, finance, human resource management, international business, management, marketing, public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Fashion at the QUT Creative Industries Faculty.

To be considered for a place you must do two things.

1. Submit to the Creative Industries Faculty by the extended closing date of 14 October 2011. a Fashion 2012 Registration Forma copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee).a Portfolio with this Registration Form
2. Apply through QTAC by 30 September.
   (See the QTAC website for more information)

Interviews

Following the submission applicants will be shortlisted. QUT will be conducting interviews in November 2011. Should you be shortlisted you will be notified via email. Only submissions that include all the above stated requirements will be processed.

Offers

The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

The Portfolio - further details

Your Portfolio must contain three things.

1. Academic Records - include your most up-to date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).
3. Maximum 20 single-sided A4 pages, which should include a range of examples that demonstrate your potential as a fashion designer. This could include but is not limited to: Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic).Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking.Selected photographs that show good examples of any garments you have made.

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you don't like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Do not send original documents, colour photocopies only please

Will my portfolio by returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Which Fashion courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Fashion)
- IX35 - Bachelor of Business / Bachelor of Fine Arts (Fashion)

You must submit three things:

1. Academic Records - include your most up-to date records.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Visual Arts at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Visual Arts at QUT Creative Industries?

- You must register through the Online Registration Form with the Creative Industries Faculty by the extended closing date of 14 October 2011.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must supply the following:

Academic record - A copy of your most recent report (it does not have to be your final end-of-year grades).

Portfolio - Maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "Qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB) PLEASE NOTE: We do NOT return portfolios, so do NOT include any original copies of your work or documentation.

Responses to a series of questions about your interest in visual art. These are essential. To lodge your responses, return to this site in early July to register online. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

- Are you planning to graduate as a studio artist, art teacher or other art industry professional? Please outline your career goals.
- What are you expecting to learn in a course of study in Visual Arts at QUT?
- Describe briefly which exhibitions and galleries you have visited in the past 12 months, and the art-related books/articles/reviews you have read, etc).
- Briefly list any group exhibitions, solo exhibitions, commissions and awards you have been included in, plus membership of art associations etc.
- What do you think is art's role in the twenty-first century? Outline briefly.

Service charge of $33 (GST inclusive) - This is to cover the costs of administration and insurance in processing applications, and is non-refundable. The service charge can be paid by credit card online with QUTPay. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee.

Passport style photograph

How do I apply?

To apply for this course, you must:

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge; your portfolio (unless uploaded online);
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are

required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).
- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

When and where are the interviews?

Shortlisted applicants will be contacted, and interviewed, during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Thank you for your interest in Visual Arts at QUT Creative Industries Faculty. Please read the information below before submitting your application.

Which Visual Arts courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Visual Arts)
- KK34 - Bachelor of Fine Arts (Visual Arts)/ED38 Graduate Diploma in Education (Senior Years)
- IX35 - Bachelor of Business/Bachelor of Fine Arts (Visual Arts)

What is the closing date for additional entry applications to Visual Arts at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must supply the following:

Academic transcript from secondary and/or tertiary institutions

- Portfolio: Maximum of 20 images that best demonstrate current art achievements, working processes, commitment and potential.
- It may contain photographs, slides, photocopies of sketches and journal pages, printed digital images and/or short video excerpts (no more than 2 minutes each).
- Responses to a series of four questions about your interest in visual art. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

1. What attracts you to a course of study in Visual Arts?
2. Describe briefly what contact you have had with works of other artists (exhibitions, galleries you have visited, books/articles/reviews you have read, etc).
3. Summarise the types of visual arts activities in which you have participated (for example group exhibitions, solo exhibitions, commissions, awards, membership of art associations etc).
4. Describe aspects of art that you respond to, both positively and negatively.

What qualities are QUT Creative Industries looking for?

Overall, we seek indications of your ability to think creatively, and of your potential to succeed in the course.

We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s.

We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, sustained practice and familiarity with visual media.

We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.

We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

How do I apply?

Please send your Additional Entry requirements along with your F Form to QUT. You may post or e-mail your application.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

This course is made up of 384 credit points. Each component (i.e. Business and Visual Arts) comprises 192 credit points.

Your business degree component comprises eight business core units, and eight business major units. You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Human Services) comprises 192 credit points.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

The Human Services component is made

up of 144 credit points of Faculty core units and 48 credit points of units from selected Human Services units.

Professional Recognition (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers.

Other course requirements

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), studens must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Hepatitis vaccination

Students considering undertaking a placement in a Queensland Health facility should note that a Hepatitis B vaccination is mandatory before commencement of the placement.

Course Overview

This double degree allows you to complement your technical skills with creative skills through digital media and film production. You will learn to merge the creative and imaginative with the technical to develop sophisticated and innovative digital products. You can choose to complement your skill set through a range of information technology and creative industries areas of interest to diversify your studies, including:

• animation
• art and design history
• creative and professional writing
• dance studies
• digital media
• entertainment industries
• entrepreneurship
• fashion
• film, television and screen game design
• interactive and visual design
• journalism, media and communication
• literary studies
• music
• online environments

Career Outcomes

As a graduate you can enjoy the more creative side of information technology careers including digital media programmer, simulation designer or developer, games producer or designer, sound designer, mobile entertainment and communications developer, user interface developer, knowledge worker in music and sound, web developer and digital product strategist.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Design

You will undertake the Bachelor of Creative Industries core units as well as one creative industries major. Your information technology degree component comprises eight core units, four breadth units, and four units in your information technology specialisation.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management
• Data Warehousing
• Digital Societies
• Enterprise Systems
• Information Management
• Network Systems
• Software Engineering
• Web Technologies

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

Bachelor of Creative Industries/Bachelor of Information Technology

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column, you are not permitted to enrol in the listed new code.

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admissions Rules, subject to final approval. It will enable you to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’ , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow

you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Course structure

Course structure

You will study a combination of media and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units that are relevant to your career interests.

International Course structure

Course structure

You will study a combination of media and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units that are relevant to your career interests.

Sample Structure

A number of changes have been made to Creative Industries courses. Units have been recoded, renamed or discontinued. To see how these changes affect you, it is recommended that you consult the tables below in conjunction with your course outline.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

This course offers you a range of options in combining business knowledge with practical skills and a contextual understanding of media and communication.

This combination of media and communication with a business major in advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/buying for advertising agencies.

An international business major will equip you with an understanding of the cultural, financial and regulatory issues involved in doing business across borders. Alternatively you may choose to study another of the business professions to diversify your career options.

Career Outcomes

Graduates use their skills for a variety of professional functions across all industry sectors. Many work in marketing communications, public relations or corporate communications. Others apply their broad media knowledge in the media function of advertising, either as sales executives for media outlets or as media planners and buyers for advertising agencies.

Careers exist in audience and market research, collating and analysing audience data to help media outlets better understand who their audiences are and how they are interacting with their product. Graduates also find employment in media policy development in the public sector and private enterprise. Pathways exist to prepare you for further study including honours.

If you wish to use your business knowledge more in your career, you could gain employment in arts administration—marketing, managing or balancing the books for creative projects and businesses.

The combination of media and communication with advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/ buying for advertising agencies. You will also develop the entrepreneurial and business skills necessary to sell your abilities to a range of employers, or start your own creative enterprise. Please refer to the QUT Business School prospectus to find out more about the business majors.

Course Design

You are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Media and Communication program. You will undertake the two components of the double degree concurrently.

You will undertake 192 credit points of specialist units in media and communication. Your business degree component comprises eight business core units, and eight business major units.

You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. You must

complete 96 credit point Business School Core Units in the Business program together with a 96 credit point Major.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), or the Bachelor of Business (Honours) (Study Area A), provided you have achieved the required GPA.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

The Bachelor of Fine Arts component is made up of 192 credit points from the Creative and Professional Writing major.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’ , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required

GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Course Coordinator	Director of Undergraduate Studies (Creative Industries); Mr Mike Roggenkamp (Information Technology)
Discipline Coordinator	Mr Gavin Sade (Interactive and Visual Design) ci@qut.edu.au (Interactive and Visual Design)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

International Subject prerequisites

- English

You must have achieved study of English and one of the following: Maths A, Maths B or Maths C, at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

This double degree will set you up for a career in the rapidly expanding fields of contemporary communication and the application of new media technologies.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Environments
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Cooperative Education

The Faculty of Science and Engineering's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens

and permanent residents only.

Find out more about the Cooperative Education Program.

Domestic Entry requirements

Course requirements

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Course requirements

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 192 credit points of specialist units in media and communication.

The Nutrition component is made up of 192 credit points of specified Health Science units.

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

Course Design

You will study creative industries and law subjects in your first four years and for the remainder of your course you will concentrate on law studies.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:
• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.
• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a

government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

International Course structure

Course structure

Course Structure

You will complete 192 credit points of journalism units. Your journalism studies are designed to provide a broad range of journalism knowledge. You will study journalism and law units in your first four years and for the remainder of your course you will concentrate on law studies.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition

The QUT Law course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT Law degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

QUT's journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

As students progress towards the end of their degrees there are more opportunities

to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Journalism (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Dance at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and submit a Dance Registration Form to the Creative Industries Faculty. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Dance at QUT Creative Industries?

- Registration for the 2012 intake will close by the extended closing date of 23 September, 2011. To register for an audition, you must submit a Dance Registration Form.
- You must also apply to QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must submit the following and attend an audition:

- Academic record
- Personal statement Personal statement form is included in the Application Guide
- Photograph A current passport sized photograph ANDA full body shot, facing front in parallel, in leotard / swim suit (no board shorts)
- Physiotherapist's Report. A specialist dance or sports physiotherapist needs to assess various physical elements such as your flexibility range and history of injuries.Physiotherapist report form is provided in the Application Guide

What does the audition consist of?

There are two rounds on your day of audition. All applicants will complete round one. Those applicants successful in moving onto round two will be posted on the notice board during the lunch break.

Round One:

- a ballet class (no pointe work)
- a contemporary dance class
- a jazz class (for course code 429162 only)
- a course talk given by the Head of Dance
- a written interpretative exercise

The written exercise requires no preparation. It is a half hour session that looks at the applicant's interpretative skills and writing skills - e.g. spelling, punctuation, grammar - in response to an image presented on the day.

Round Two:

- a one minute solo in a dance genre of the applicant's choice
- This solo is an opportunity for you to dance in a genre of your own choice that you may feel better demonstrates your performance abilities - e.g. hip hop, adagio, Irish, tap. The solo is one minute long and music (if used) should be on CD. The solo may be choreographed by the applicant or someone else - e.g. teacher, guest choreographer
- a more advanced ballet and contemporary class, which includes pointe work (for course code 421822 only)
- A short impromptu talk from the auditionee on a topic given on the day (for course code 429162 1st preference only.)

What should I wear to my audition?

Ballet class:

- women: pink tights, light coloured leotard and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights and leotard, please wear bike pants and tight, light coloured, fitting t-shirt.
- men: tights and a light-coloured singlet or t-shirt and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights, please wear bike pants and jock strap.

Contemporary class:

- Same as above, but able to work in bare feet when required in this genre.

Solo:

- no costumes or props please. Tights and leotard only.

What do I need to bring on the day?'

Please bring your dance gear and water bottle. If you bring lunch it can be stored in the fridge in the dance corridor. There are no cafes open on campus on

weekends.

I have no formal training in classical / contemporary ballet. Can I still audition?

You are assessed on potential, but formal training would benefit applicants. The selection panel looks at you for your movement potential, alignment, sense of musicality, and your degree of confidence. Studying a different technique (e.g. jazz, tap, contemporary) will also help you develop these skills.

What do I have to do in the solo presentation?

The solo presentation is one minute (maximum), which can be improvised or choreographed by yourself or another person, in a style of your choice (e.g. Tap, Irish Dance). The selection panel looks for confidence, appropriate quality and performance integrity.

How do I apply?

There are two steps to an application for Dance at QUT:

1. You must register for an audition by submitting a Dance Registration Form to the Creative Industries Faculty by the extended closing date of 23 September 2011. This should also include a copy of the QUTpay confirmation page from your online credit card payment of the $33 service charge. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee
2. You must also apply through QTAC, where the due date for on-time applications is the 30 September. See the QTAC website for more information.

When and where are the auditions?

Location and Dates

Brisbane

Saturday 8 October 2011

Bachelor of Fine Arts (Dance)/Graduate Diploma in Education QTAC code 429162 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am - 2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Brisbane

Sunday 9 October 2011

Bachelor of Fine Arts (Dance Performance) QTAC code 421822 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am-2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Sydney

Saturday 1 October 2011

University of NSW (Kensington Campus)
Myers Studio
Gate 2 High Street
9am - 5pm

Melbourne

Saturday 1 October 2011

Australian Ballet School
9am - 5pm

You need to nominate the venue most suitable to you on your registration form. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out seven (7) working days after the extended closing date (23 September 2011). Please expect to be in attendance from 8am until 6pm on your day of audition.

Please Note: Registering with QUT for an audition is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The audition process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Bachelor of Fine Arts (Dance)/Graduate Diploma in Education (Senior Years)

Professional Recognition

Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

You will spend your first three years immersed in dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

Diverse course options provide specialist training in another field. You may choose a minor in areas such as:

- creative writing
- dance studies
- entertainment
- film studies
- journalism
- music.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Visual Arts at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Visual Arts at QUT Creative Industries?

- You must register through the Online Registration Form with the Creative Industries Faculty by the extended closing date of 14 October 2011.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must supply the following:

Academic record - A copy of your most recent report (it does not have to be your final end-of-year grades).

Portfolio - Maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "Qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB) PLEASE NOTE: We do NOT return portfolios, so do NOT include any original copies of your work or documentation.

Responses to a series of questions about your interest in visual art. These are essential. To lodge your responses, return to this site in early July to register online. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

- Are you planning to graduate as a studio artist, art teacher or other art industry professional? Please outline your career goals.
- What are you expecting to learn in a course of study in Visual Arts at QUT?
- Describe briefly which exhibitions and galleries you have visited in the past 12 months, and the art-related books/articles/reviews you have read, etc).
- Briefly list any group exhibitions, solo exhibitions, commissions and awards you have been included in, plus membership of art associations etc.
- What do you think is art's role in the twenty-first century? Outline briefly.

Service charge of $33 (GST inclusive) - This is to cover the costs of administration and insurance in processing applications, and is non-refundable. The service charge can be paid by credit card online with QUTPay. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee.

Passport style photograph

How do I apply?

To apply for this course, you must:

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge; your portfolio (unless uploaded online);
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are

required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).
- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

When and where are the interviews?

Shortlisted applicants will be contacted, and interviewed, during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 02 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Music at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Music at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the 2 September 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information

What are the additional entry requirements and what qualities are you looking for?

- Academic record
- Photo. A current passport sized photo (for identification purposes only)
- Interview. During the interview you may be asked about: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying music at QUT will help you achieve your musical goals
- Audition: performance on instrument and/or Portfolio of music / sound works (if applicable)

1. The Interview

Qualities looked for in the Interview:

- a strong track record in relevant music and sound activities
- a strong potential for continued growth in your music and sound understanding and practice
- knowledge of QUT Creative Industries music courses and how this relates to your own personal goals

You are encouraged to bring to your interview evidence of any musical qualifications or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances etc).

2. The Audition

Audition requirements (all applicants)

Present two items at the audition that you believe will persuade the panel of your suitability for QUT Music and Sound (it will be of benefit if at least one is your own song, improvisation or composition). The items may comprise the following:

- performances of two contrasting pieces of music of your own choice for the panel
  or
- performances of one piece of music and present one recorded piece (portfolio) for the panel to listen to at the audition,
  or
- presentation of two recorded pieces (portfolio) for the panel to listen to at the audition.

Total duration: no more than 10 minutes. You may be asked to stop playing/presenting before finishing a piece - in the event that this occurs, you should not assume that this has adverse implications on the assessment of your presentation.

Live Performance

You will need to demonstrate technical fluency/competency on your instrument and a well-developed sense of musicality and engagement.

- You can perform on any instrument - orchestral, acoustic, amplified, electronic (eg. computer, turntable etc.), non-western (eg. sitar, djembe, etc.)
- You can audition on more than one instrument so long as it fits within your 10 minute audition time.

It is your responsibility to arrange your own accompaniment if you require it. You can use backing tracks on CD. Other formats may be accommodated but only by prior arrangement or you may be accompanied by a maximum of 2 other musicians. Unaccompanied performance is acceptable however if the piece(s) you are performing are not intended as solo works, accompaniment is desirable.

Qualities looked for in the Live Performance Audition:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

Recorded Pieces

This should consist of music/sound works that you have created or have been partly involved in creating. Suitable items include (but are not limited to) written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc. You will be expected to advise the panel of your precise role in the recorded pieces.

- Bring a portfolio of music/sound works that you have created. Suitable items include (but are not limited to); written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc.
- You should include one or two contrasting pieces (only one if you are also choosing to perform a live piece) - total duration for all pieces 10 minutes maximum
- Acceptable formats are: Audio CD (must be able to be played in a standard CD player)CD-ROM (must be compatible with Macintosh and PC)DVD (must be able to be played in a standard DVD player)USB Stick
- Printed scores (if relevant and only in conjunction with an audio recording or performance of the piece),
- Please ensure you test your CDs, CD-ROMs or DVDs on multiple systems before submitting them. Failure of your media to play in the specified equipment may adversely affect your folio result.
- Your folio must be accompanied by written notes (maximum 200 words) that explain your precise role in each of the items (i.e. what your role/s were in the creation of the piece, how you created the piece, your artistic aims in creating the piece)
- All portfolio items should be marked with your name and contact details. Please note that portfolios are not returned.

Qualities looked for in Recorded Pieces:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

How do I apply?

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment of the $33 service fee (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee);
- Attend an audition; and
- Apply for this course through QTAC. Please see the QTAC website for more information.

When and where are the auditions and interviews being held?

- All auditions and interviews will be held in Brisbane at the QUT Kelvin Grove campus between 26 - 29 September 2011.
- Your interview and audition will be scheduled when you lodge your online application. Please note that the time and date of your audition cannot be changed except in exceptional circumstances.

What if I am unable to attend an audition/interview?

- If you are unable to attend an interview/audition you may apply by submitting the following along with your academic record, photo, portfolio and payment by 2 September 2011:
- a written statement (total 2 pages maximum) that addresses the following 4 points: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying Music and Sound at QUT will help you achieve your musical goals

Photocopy evidence of any musical achievements or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances, commercial CDs etc.)

- A continuous and unedited video recording of you performing your audition piece(s) or a CD of your production pieces (or both). Refer to audition requirements for recorded and live performance.

Video must be submitted on CDR or DVD-R and must include a declaration of authenticity, details of date and place of performance and details of the role of applicant if the performance involves other participants. Refer to audition requirements for recorded and live performance. Please note that videos are not returned.

- You may be required for a phone interview to clarify any points in your written statement

Can I audition on more than one instrument?

Yes but only within the duration of your 10-minute audition.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the early round in 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.

Bachelor of Music/Graduate Diploma in Education (Senior Years)

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Career Opportunities

This course will enable you to become a qualified teacher. Graduates also work in live, recording and multimedia environments, as performers, producers, composers, developers of music software and games, DJs and music coaches. There are also pathways available for honours and professional or research postgraduate studies.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Music. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.

You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based experiences during your creative industries degree.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Pathways to further study

Students who pass KM32 Bachelor of Music with a GPA of 5.5 or higher may apply for entry to the Bachelor of Music (Honours).

Domestic Course structure

Your course

You will spend your first three years immersed in music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

International Course structure

Your course

You will spend your first three years immersed in music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

Complementary Studies Study Area - Creative Performer Minor	
Description: This study area addresses the conceptual and practical skills necessary for successful music performance in a 21st century context. In addition to developing students as performers, it develops students as ‘creators’ who are capable of originating distinctive musical material.	
Assumed Knowledge: Completion of the first year of the Bachelor of Music prior to commencing this study area.	
Year 2, Semester 1	
KMB250	Creative Performer 1
Year 2, Semester 2	
KMB251	Creative Performer 2

Bachelor of Music/Graduate Diploma in Education (Senior Years)

Year 3, Semester 1	
KMB350	Creative Performer 3
Year 3, Semester 2	
KMB351	Creative Performer 4
Complementary Studies Study Area - Music and Sound Production Minor	
Description: This study area aims to provide students with the skills necessary to operate within current music and sound production environments and to effectively create, produce and realise works for audiences across a range of delivery formats. It aims to provide students with effective skills in utilising professional level production technologies in addition to developing students' conceptual awareness of current approaches to music and sound production.	
Assumed Knowledge: Completion of the first year of either the Bachelor of Music or the Bachelor of Fine Arts (Sound Design) prior to commencing this study area.	
Year 2, Semester 1	
KMB219	Music and Sound Production 3
Year 2, Semester 2	
KMB229	Music and Sound Production 4
Year 3, Semester 1	
KMB319	Music and Sound Production 5
Year 3, Semester 2	
KMB329	Music and Sound Production 6
Complementary Studies Study Area - Music Education Minor	
Year 2, Semester 1	
A unit from the Education-related or the University Wide unit options	
Year 2, Semester 2	
A unit from the Education-related or the University Wide unit options	
Year 3, Semester 1	
EDB036	Introduction To Education
Year 3, Semester 2	
EDB037	Introduction To Educational Sites
Please note: KMB201 will be permitted to count towards this study area if completed in 2011 or earlier.

Domestic Entry requirements

Entry to this course requires satisfactory completion of a bachelor degree in a relevant field of study from QUT, or a comparable degree from another institution, with a GPA of 5.5 or above (on a 7-point scale). Normally students will apply within the final year of their pass degree.

All applicants for Honours must provide the Faculty with a proposed project topic and short summary of the project and have identified a prospective supervisor from within their field of study. These applications are then subject to approval by the relevant Portfolio Director or other senior Faculty staff member.

Graduates of the Bachelor of Mass Communication may apply for the Bachelor of Media and Communication (Honours), Bachelor of Creative Industries (Honours) or the Bachelor of Journalism (Honours), subject to Creative Industries Faculty approval.

International Entry requirements

Entry to this course requires satisfactory completion of a bachelor degree in a relevant field of study from QUT, or a comparable degree from another institution, with a GPA of 5.5 or above (on a 7-point scale). Normally students will apply within the final year of their pass degree.

All applicants for Honours must provide the Faculty with a proposed project topic and short summary of the project and have identified a prospective supervisor from within their field of study. These applications are then subject to approval by the relevant Portfolio Director or other senior Faculty staff member.

Graduates of the Bachelor of Mass Communication may apply for the Bachelor of Media and Communication (Honours), Bachelor of Creative Industries (Honours) or the Bachelor of Journalism (Honours), subject to Creative Industries Faculty approval.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

You will undertake two units in research design and an approved Unit Option related to your research. Your research project will culminate in a written thesis, creative work, or combination of these.

Pathways to further study

On successful completion of this course you will be eligible to apply for entry into the Masters of Arts (Research) program (KK51) or the Doctor of Philosophy (Creative Industries) program (IF49) but entry into KK51 or IF49 is dependent, also, on a range of factors including the level of your Honours result, examiner reports, and suitability of your research for Creative Industries strategic aims as well as availability of supervision.

Domestic Course structure

Course structure

You will undertake a unit in research design, an approved elective and a workshop related to your research. Your research project will culminate in a written thesis, creative work, or combination of these.

Int. Start Months	February, July
Course Coordinator	Associate Professor Cheryl Stock
Discipline Coordinator	Professor Terry Flew Phone: +61 7 3138 8114 Email: ci@qut.edu.au

Domestic Entry requirements

A bachelor degree with an overall grade point average of 5.0 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

International Entry requirements

A bachelor degree with an overall grade point average of 5.0 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

To graduate with a Graduate Certificate in Journalism, students are required to successfully complete 48 credit points, as specified in the course structure below. Journalism is a specific field of study that requires strong practical capabilities, and students need to gain technical skills in this field. To achieve this, students who do not hold a bachelor degree will be offered a choice of undergraduate and postgraduate options that are specifically designed to build the technical skills required in Journalism.

Other Course Options

This course articulates into the Master of Journalism. All units in the Graduate Certificate may be counted towards a Master of Journalism.

Domestic Course structure

Course structure

All Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as an elective. Graduate Certificate students complete units such as Newswriting and Feature Writing.

International Course structure

Course structure

All Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as an elective. Graduate Certificate students complete units such as Newswriting and Feature Writing.

Sample Structure

Code	Title
Semester 1	
KJP401	Newswriting
KJP403	Feature Writing
One unit from List A - Journalism Unit Options	
One unit from the Journalism Unit Options (either KJB239 or KKB175):	
KJB239	Journalism Ethics and Issues
KKB175	Creative Industries Legal Issues
Please note: Students who have completed KJP402 as a core unit in 2010 or earlier will not be required to complete KJP403 as a core unit.

Discontinued

This course is available to continuing students only. It has been replaced by DE80 Master of Architecture. Any remaining students should seek advice from the Course Coordinator regarding their remaining course program.

Phone: +61 7 3138 8114, Email: ci@qut.edu.au

Overview

The Master of Architecture enables the development of advanced yet balanced understanding in architectural design and research, contextual studies, technology and science and studies for professional practice. It is the professional degree required, along with the requisite post-graduate work experience, for registration as an architect.

Professional Recognition

Graduates of the AR49 Master of Architecture meet the academic requirements for membership of the Australian Institute of Architects (AIA). Graduates who have also completed two years of practical architectural experience (at least one year postgraduate) will be eligible to undertake the Architectural Practice Examination which, if successful, will enable the graduate to be eligible for registration with any Board of Architects in Australia.

Domestic Entry requirements

All students entering DE80 Master of Architecture must have completed DE40 Bachelor of Design (Architectural Studies) or a comparable four year full time architectural design degree that is an AACA accredited program.Students who have completed four year full time architectural design degree overseas, may be asked to submit a portfolio of design work.

All current DE40 Bachelor of Design (Architectural Studies) graduands will automatically receive an offer to start DE80 Master of Architecture within three weeks of semester 2 results being released. All other applicants must apply via the PG-form (PDF file, 274KB).

Applicants who have a three year qualification must complete DE40 Bachelor of Design (Architectural Studies) or a comparable AACA accredited program. Applications for DE40 Bachelor of Design (Architectural Studies) are made via QTAC. Please visit the QTAC website www.qtac.edu.au for application closing dates and how to apply information.

International Entry requirements

All students entering DE80 Master of Architecture must have completed DE40 Bachelor of Design (Architectural Studies). Applicants who have not completed DE40, must have completed four years full time (or equivalent) study in an accredited program (accredited by the AACA), including the award of an architectural design degree. Students who have such academic achievement in a non-accredited program (international programs), may be asked to submit a portfolio of design work.

Minimum english requirements

Students must meet the English proficiency requirements.

Journalism Overview

This program suits those who have worked or studied in fields outside journalism and who now seek journalism skills or wish to change career paths into journalism. Those who currently work in journalism will benefit from this course by gaining skills to enhance their craft in a new media environment.

You will gain practical skills in writing and journalistic inquiry within a conceptual framework that includes ethics and legal issues. The masters program provides opportunities to tailor your studies to include units in new production, broadcast journalism and specialist journalism topics.

Course Structure

All Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as a Unit Option.

Previously Studied Pathway

If your undergraduate degree is in journalism, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing so it is possible to complete your Master of Journalism in just one year full-time.

Domestic Course structure

Course structure

All Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as an elective. Graduate Certificate students complete units such as Newswriting and Feature Writing.

International Course structure

Course structure

All Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as an elective. Graduate Certificate students complete units such as Newswriting and Feature Writing.

Sample Structure

Code	Title
Units to be completed:	
February and July entry (For students who have advanced standing of 48 credit points, full time entry is only available in February)	
*Part time students will complete two units per semester.	
Students should enrol in Innovation in the Creative Industries: Major Project, at the end of the program; in some cases KKP004-1 might be taken before that, and the final units then will be KKP004-2-4, with a List A or List B Unit Option.	
KJP400	Theories of Journalism
KKP003	Project Design in the Creative Industries
KJP401	Newswriting
One unit from the Postgraduate Unit Options (either KKP001 or KKP002):	
KKP001	Entrepreneurship in the Creative Economy
KKP002	20:20 Vision: Imagining the Creative Future
KJP403	Feature Writing

Master of Journalism

One unit from the Journalism Unit Options (either KJB239 or KKB175):	
KKB175	Creative Industries Legal Issues
KJB239	Journalism Ethics and Issues
KKP004-1	Innovation in the Creative Industries: Major Project
KKP004-2	Innovation in the Creative Industries: Major Project
KKP004-3	Innovation in the Creative Industries: Major Project
KKP004-4	Innovation in the Creative Industries: Major Project
One unit from the List A - Journalism Unit Options	
One unit from the Creative Industries Postgraduate Unit Options	
Please note: Students who have completed KJP402 as a core unit in 2010 or earlier will not be required to complete KJP403 as a core unit.	

Master of Fine Arts (Dance)

Handbook

Year	2012
QUT code	KK42

reading	6.0
listening	6.0
overall	6.5

Important Notice

The Creative Partnerships Major is currently suspended from offer due to an internal restructuring of related units within the faculty. We anticipate admitting new students in 2013. Any enquiries can be forwarded to the postgraduate office at cifpg@qut.edu.au.

Course Structure

To graduate with a Master of Creative Industries (Creative Partnerships) students are required to successfully complete 144 credit points, as specified in the Study Area structure.

As a nested program, students who complete KK86 Graduate Certificate in Creative Industries (Creative Partnerships) or a cognate undergraduate degree will be awarded up to 48cp.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students working with children must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Professional Membership

Professional Membership will include:
* Young People and the Arts Australia
* National Association of Visual Arts
* Ausdance
* Arts Access Australia
* Regional Arts Australia

Previously Studied Pathway

If your undergraduate degree is in a related study area, you can apply for the Previously Studied Pathway. This option allows you to apply for advanced standing for the study area units, so it is possible to complete your Masters of Creative Industries in just one year full-time. You will develop skills in entrepreneurship and management, and half of your study will be dedicated to the major project of your choice.

reading	6.0
listening	6.0
overall	6.5

Course Structure

For applicants with a three-year degree, the Master of Arts (Research) comprises 48 credit points of coursework and a 96-credit-point research project. For those with a four-year degree, the program normally comprises a 96-credit-point research project only.

Research Component

Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7000 - 10 000 words).

Students can undertake:
* a significant creative work such as a live performance or musical composition
* a work of fiction or non-fiction
* a script or production for film, television or live performance
* a multimedia script or production
* projects commissioned by industry, government and community organisations
* workplace-related projects.

Any project likely to involve University resources must be approved by the Creative Industries Faculty Research Office. Details of how to apply are available on request on acceptance of offer of a place in the course.

speaking	10.0
writing	10.0
reading	10.0
listening	10.0

Overview

The Doctor of Philosophy (PhD) offers the opportunity to work with an experienced supervisory research team to make a significant and original contribution to disciplinary knowledge. A PhD candidate's research must reveal high critical ability and powers of imagination and synthesis and may be, depending on discipline, demonstrated in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge. This world-class program provides a basis for critical inquiry and welcomes collaborative and interdisciplinary research projects. A QUT PhD graduate will be equipped to seek employment in industry, research organisations and universities.

Entry Requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Location & duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet

collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

• An appropriate masters degree, **and**
• Two years of practice at an advanced level in a position of responsibility in the creative industries.

Alternative entry for outstanding leaders in creative industries:

• A minimum of five years practice at an executive level and currently in a position of influence in the creative industries, **and**
• An extensive track record of executive achievement in the workplace or in professional practice

Course Structure

The program's supportive structure is designed for candidates to progressively accumulate new knowledge and critical tools that will enhance their practice via two year-long research projects, combined with coursework to support and frame the development of the projects.

To cater for candidates who seek to maintain a commitment to their industry responsibilities as well as to their research studies, the coursework is delivered through a series of short, intensive weekend modules and sustained online support. By also offering electice choices from a wide range of postgraduate units, the DCI gives candidates the opportunity to tailor their course to achieve individual professional goals.

The two projects require candidates to employ advanced research strategies and applied reflective approaches in focusing on an element of their industry practice. Through the DCI program candidates refine their professional practitioner expertise while aquiring doctoral research skills.

Career Outcomes

The Doctor of Creative Industries is designed for leaders and highly skilled practitioners engaged in artistic, design or professional practice (such as journalists and policy developers), creative enterprise and teaching across all fields of the Creative Industries.

Areas of Doctoral Study

• creative practice: including the discipline areas performing and visual arts, creative writing, animation;
• design practice: including the discipline areas architecture, industrial, interior, fashion and interaction design;
• communication: including the discipline areas journalism, media, film and television;
• innovation in professional practice in a range of government, corporate or

business settings;
• creative enterprise practice;
• policy / cultural development and facilitation;
• pedagogical practice, predominantly in tertiary settings.

The OP Guarantee does not apply to this course.

Course Structure

You are required to complete eight, 12 credit point units of study.

The course provides flexibility for students to complete their studies across a range of areas.

Two core units must be completed, EDP415 Engaging Diverse Learners and EDP416 The Professional Practice of Educators, along with an additional two units from any of the courses offered by the Faculty of Education, excluding Masters level units.

The remaining four units may be taken from a wide range of Faculty of Education units in other Faculty of Education courses including Bachelor of Education (Secondary)ED90, Bachelor of Education (Primary)ED91, Bachelor of Education (Early Childhood)ED92, Bachelor of Education (Preservice Early Childhood)ED93, and the Graduate Diploma in Education ED38 (but excluding the Primary pathway in the Graduate Diploma), OR from faculties other than the Faculty of Education.

Please note that units from the Master of Education cannot be studied in this course.

Students must follow the individual course rules concerning prerequisite study when selecting units from other courses and should note that practicum or field studies units may not be undertaken in the B Ed (Inservice) course.

Students undertaking the course to meet specific Queensland College of Teachers Registration requirements may not be able to undertake non-education units.

Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest such as culture and language studies, or mathematics, science and technology education studies.

DETA Early Childhood Cohort

You are required to complete eight, 12 credit point units of study. Two core units must be completed , EDB200 Insights into Early Childhood Development and EDP416 The Professional Practice of Educators, together with an additional six units from the Early Childhood Studies listed on the DETA Early Childhood Cohort course structure. This course will be completed in part time and external mode only.

Deferment

QUT's deferment policy does not apply to this course.

Course Progression

It is a student's responsibility to ensure they have met any specified pre-requisite and/or co-requisite requirements when they select their enrolment program.

Underloads

It is not expected that a student should underload – i.e undertake fewer credit points than the standard semester load. If, however, your circumstances require you to undertake fewer units than the standard load, it may lead to difficulties in undertaking
units in a timely manner later in the course.

Overloads

It is not expected that a student should overload – i.e undertake more credit points than the standard semester load. If, however, your circumstances require you to overload you should be aware of the possible academic consequences of an increased
study load.

Notes for selection of units

Internet (I-NET) The unit will be conducted through the QUT Blackboard site. Students will require access to suitable
computer facilities.
Internal (INT) The unit is offered internally and students attend lectures during the semester.
Block (BLK) A block of lectures held in the January or June/July school holidays, normally 9.00-4.00pm. Assessment is finalised after completion of the block lectures.
External (EXT) The unit is offered externally.

Domestic Course structure

Course structure

You are required to complete eight units in one year full-time or two years part-time. The course provides flexibility for students to complete their studies across a range of areas.

Two core units must be completed, Engaging Diverse Learners and The Professional Practice of Educators, along with an additional two units from preservice courses within the Faculty of Education.

The remaining four units may be taken from a wide range of Faculty of Education preservice units or from other faculties.

Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas.

Alternatively you may choose a suite of units related to a specific area of interest such as culture and language studies, or mathematics, science and technology education studies.

International Course structure

Course structure

You are required to complete eight units in one year full-time or two years part-time. The course provides flexibility for students to complete their studies across a range of areas.

Two core units must be completed , Engaging Diverse Learners and The Professional Practice of Educators, along with an additional two units from preservice courses within the Faculty of Education.

The remaining four units may be taken from a wide range of Faculty of Education preservice units or from other faculties.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

listening	6.0
overall	6.5

NOTE: NO FURTHER INTAKE (FOR CONTINUING STUDENTS ONLY)

The Bachelor of Education (Primary) (ED91) replaced the Bachelor of Education (Primary) (ED51) in 2003. THERE IS NO FURTHER INTAKE INTO THIS COURSE.

Professional Recognition

The Bachelor of Education (Primary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

LOTE Pathway

Students undertaking a LOTE pathway may be required to attend other campuses.
Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway

Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Blue Card

You must hold a valid Blue Card that is registered with QUT to undertake activities in any units which involve contact with children. Students must have a 'Blue Card' prior to commencing professional studies / field studies blocks or may be withdrawn from the relevant unit and incur both academic and financial penalties. Application information is available on the Student Services website

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Professional Recognition

The Bachelor of Early Childhood Studies is an approved child care qualification with the Queensland Government Department of Education, Training and Employment (Office for Early Childhood Education and Care) and is accredited by the New South Wales Department of Community Services for employment in children's services.

Graduates of the Bachelor of Early Childhood Studies are not eligible for teacher registration with the Queensland College of Teachers.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT

Bachelor of Early Childhood Studies

Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Course Information

ED82 is accredited as a full-time, internal course. Students are not permitted to take units in external mode or study in part-time mode unless advised to do so by the ED82 Program Coordinator or by the Faculty of Education.

Domestic Entry requirements

Prerequisites

Completion of a Diploma of Children's Services (Early Childhood Education and Care) or Diploma or Advanced Diploma of Children's Services, or an equivalent accredited qualification.

You must also have the following early childhood experience:

- one year full-time (or equivalent) group leader experience; or
- two years full-time (or equivalent) family day care experience as an accredited provider; or
- two years full-time (or equivalent) early childhood teacher aide experience in a state preschool, prep or crèche and kindergarten association centre; or
- two years full-time (or equivalent) before and after school care experience.

Diploma holders need to provide evidence of this experience when they apply to QTAC to be eligible for entry.

Note: The majority of supervised professional experience must occur in Australian school settings.

Credit for prior learning (Advanced standing)

Students admitted to this course will be automatically granted advanced standing of one and half years of study (ie 144 credit points) for their completed Diploma of Children's Services (or an equivalent accredited qualification) and early childhood work experience.

Students admitted on the basis of an Advanced Diploma of Children's Services and who have not supplied QTAC with evidence of their early childhood experience will only be automatically granted advanced standing of one year of study (ie 96 credit points) and will be required to provide evidence of their early childhood experience to QUT prior to graduation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Professional Recognition

The Bachelor of Early Childhood is an approved child care qualification with the Queensland Government Department of Education, Training and Employment (Office for Early Childhood Educaiton and Care). Graduates of the Bachelor of Early Childhood are not eligible for registration with the Queensland College of Teachers.

Bachelor of Early Childhood - ED83- Completion of 4th Year of Study

Students will need to apply for admission to the ED93 Bachelor of Education (Preservice) Early childhood course in order to become registered as a teacher in Queensland. If you wish to admit to the ED93 course, please contact the Faculty Office for advice on advanced standing and the units you will need to complete and the admission form that you need to submit. The ED93 course requires successful completion of three x 20-day block practical units in order to be registered by the Queensland College of Teachers, the majority of which must be completed in an Australian primary school setting.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Blue Card by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Minimum english requirements

Students must meet the English proficiency requirements.

NOTE: NO FURTHER INTAKE

THERE IS NO FURTHER INTAKE INTO THIS COURSE

Professional Recognition

Graduates of the Bachelor of Adult Education and Training course will be eligible for membership with the Australian Institute of Management (AIM).

Computing Requirement

The increased and more creative use of QUT Blackboard online teaching technology in this degree requires students to have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and Internet access.

Professional Projects and Experience Requirement

Students will be required to undertake professional projects and experience in a negotiated workplace or community placement site. Potential foci for professional projects may include teaching and training; leadership and management; curriculum development and instructional design (including e-learning); policy work; consultancy; Indigenous education; research and community partnership development.

Course Structure

The Bachelor of Adult Education and Training is a four-year undergraduate degree program. On entry students are granted 192 credit points or two years credit as recognition of prior knowledge, experience and skills. The remaining two years full-time or four years part-time focuses on adult and community learning. The development of a professional portfolio throughout the degree enables students to individualise their own program to suit their professional development needs.

Deferment

QUT's deferment policy does not apply to this course.

Blue Card

If you will be working with children or young people (under 18 years of age) during your professional experience units (EDB101, EDB102, EDB103, EDB104) you must obtain a Blue Card BEFORE you begin your placement. A Blue Card confirms that you have passed a screening of your criminal history (the 'Working with Children Check') and have been approved to work with children and young people under 18 years of age. You must either submit your Blue Card application to the QUT Student Centre or, if you already hold a valid Blue Card, submit an authorisation form to the Student Centre so that you may be registered with the Commission as a QUT student. If you do not hold a valid card at the commencement of your professional experience or have not applied for a renewal within the required time frame you will not be able to undertake your professional experience and will need to be withdrawn from the units(s). This may incur both financial and academic penalty depending on the date the application was submitted. The application form is available at http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards/. Blue card applications and renewals can take up to 16 weeks to process.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

. Maths B for Mathematics teaching area We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Please note that the majority of supervised professional experience must occur in Australian Secondary school settings.

Working With Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.
Field Studies Units will be taken in Queensland schools and settings.

Teaching Area Combinations

Students will select their two teaching areas from the lists (one from Group X and one from Group Y) shown under the Course Structures heading below.

Research Pathway Option

At the end of Year 2, certain students will be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Early Exit Option

Students who are unable to complete ED90 can exit with ED45 Bachelor of General Studies (288cps) on meeting specific criteria.

There is no direct entry to the Bachelor of General Studies and this course does not provide eligibility for Teacher Registration. Students wishing to exit from ED90 with ED45 should contact the Course Administration Officer on 3138 3948.

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Domestic Course structure

Your course

Year 1

You will develop discipline subject knowledge (content) related to your two teaching areas to prepare you for your field studies and curriculum studies units in the second year of your course. You will also be introduced to the world of teaching through two introductory education units.

Year 2

You will be immersed in how students develop and learn and introduced to the curriculum for your two teaching areas, as well as continuing your discipline subject knowledge. You will undertake your first four-week supervised field experience in a school.

Year 3

You will undertake your final discipline subject knowledge units and further develop your knowledge of curriculum and your ability to design teaching and learning experiences which you will be able to implement in your second four-week supervised school-based field experience.

Year 4

You will further hone your curriculum knowledge and teaching skills to be able to develop programs for a diverse range of students. You will undertake your final two supervised field experiences in a school setting comprising a total of eight weeks and a four-week internship.

Teaching areas

Successful applicants receive an offer in one of three streams: general, home economics or physical education. A good background in your selected teaching areas at Year 12 level (or equivalent) is strongly recommended particularly for language studies.

You will select your two teaching areas, one from group X and one from group Y.

A research option is available to high-achieving students.

Mathematics cannot be taken with Mathematics (Intermediate).

Science studies from group X cannot be taken with biology, chemistry, earth science or physics from group Y.

Physical Education (group X) and Health Education (group Y) is not a recommended teaching area combination. Physical Education students should select a second teaching area that will broaden their career opportunities.

Group X

- Accounting/Business Management
- Business Communication and Technologies
- English
- Home Economics (only available to students via the QTAC entry point)
- Mathematics
- Mathematics (Intermediate)
- Physical Education (only available to students via the QTAC entry

point)
- Science Studies
- Social Science
- English as a Second Language (ESL)

Group Y
- Accounting/Business Management
- Biology
- Business Communication and Technologies
- Chemistry
- Earth Science
- English
- Film and Media Studies (subject to quota)
- French
- Geography
- German
- Health Education
- History
- Indonesian
- Japanese
- Legal Studies
- Mathematics
- Mathematics (Intermediate)
- Mandarin
- Physics

Languages
QUT, The University of Queensland and Griffith University have formed an Australian-first alliance to expand higher learning in a range of Asian and European languages. Language units in Mandarin are undertaken at QUT's Gardens Point campus. French, German, Indonesian and Japanese are undertaken at the other universities.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field studies units will be taken in Queensland schools.

Languages Other Than English (LOTE) Major

Students undertaking a LOTE major will be required to attend other campuses and may be required to take language units at Griffith University or University of Queensland. Students wishing to undertake studies in French, German, Indonesian, Japanese or Mandarin are required to select a specified sequence of six units (72 credit points) in language level 1-6 or 3-8. Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units. Graduates with this major will be eligible to seek employment as a LOTE specialist teacher within Education Queensland, Catholic and Independent School sectors. The LOTE major is available to students at Kelvin Grove campus only.

Health and Physical Education Major

Students who commenced in 2009 and after will have the option of undertaking a Health and Physical Education major within the course. Students complete six health and physical education units, and undertake two field experience blocks in a health and physical education setting. Graduates completing this study area will be eligible to seek employment as a Primary Physical Education specialist teacher within Education Queensland, Catholic Education and Independent school sectors. This major is available at Kelvin Grove campus only. Entry criteria and quotas apply.

Research Minor Option

At the end of Year 2, certain students will be invited to undertake the Research minor option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Early Exit Option

Students who are unable to complete ED91 can exit with ED45 Bachelor of General Studies (288cps) on meeting specific criteria.

There is no direct entry to the Bachelor of General Studies and this course does not provide eligibility for Teacher Registration. Students wishing to exit from ED91 with ED45 should contact the Course Administration Officer on 3138 3212.

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Domestic Course structure

Your course

Year 1

You will be involved in a foundation year that provides a global overview of learning and teaching. You will commence studies in curriculum and key learning areas in classroom practice as a foundation for the following years.

Year 2

You will focus on the primary years and undertake curriculum, and teaching and learning studies that explore human development, from personal and interpersonal perspectives, and prepare you for your first four-week supervised field experience in a school.

Year 3

You will further develop your knowledge of primary curriculum and explore issues in practising education, with sensitivity to sociocultural contexts. You will continue option studies and undertake your second four-week supervised school-based field

experience.

Year 4
You will engage with specific aspects of learning, teaching, schools, policy and practices with almost half of your program involving you in classroom experiences including eight weeks of classroom practice and a final four-week internship that prepares you for your transition into the profession.

Majors and minors
The Bachelor of Education (Primary) offers you the opportunity to specialise in one major or one minor.

Majors
Optional majors include:
- Languages Other Than English (LOTE)
- Health and Physical Education (HPE).

Graduates with a major may seek employment as specialist LOTE or HPE teachers.

LOTE major
QUT, The University of Queensland and Griffith University have formed an Australian-first alliance to expand higher learning in a range of Asian and European languages. Currently, LOTE is available in French, German, Indonesian, Japanese or Mandarin. LOTE units in Mandarin are undertaken at QUT's Gardens Point campus. The other languages are undertaken at the other universities. The LOTE major is available only to students with Kelvin Grove as the home campus.

HPE major
Students graduating with the HPE major will be eligible for membership of the Australian Council of Health, Physical Education and Recreation.

Students apply for the HPE major after their first year of study. Entry criteria and quotas for this major will apply.

This major is available only at Kelvin Grove campus.

Minors
If you do not select a major, then one minor, consisting of four units, may be selected instead.

The minors include:
- Engaging Learners
- English as a Second Language (ESL)
- Health and Physical Activity
- Indigenous Education
- Literature and Media Studies
- Literacy
- Numeracy and Mathematics
- Research (for high-achieving students)
- Studies in Inclusive Education.

You may also choose to undertake units across the range of available areas (no minor completed).

The minors are subject to unit availability .

Credit for prior learning (advanced standing)
Students admitted with a completed Diploma of Children's Services (Early Childhood Education and Care), or an Advanced Diploma of Children's Services, or an equivalent accredited qualification, will be automatically granted credit (advanced standing) of 48 credit points (four option units). This credit does not reduce the course duration.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

How to apply for a blue card

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0

reading	6.0
listening	6.0
overall	6.5

Professional Recognition

The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Early Childhood) is an approved child care qualification with the Queensland Government Department of Education, Training and Employment (Office for Early Childhood Education and Care), and is accredited by the New South Wales Department of Community Services for employment in children's services.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Research option

At the end of Year 2, you may be invited to undertake the Research Option which is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field Studies Units will be taken in Queensland schools and settings.

Early Exit Option

Students who have successfully completed three of the four years (288cps) of ED92 after following the standard course progression and who are unable to complete the final year of ED92, can exit the course with ED82 Bachelor of Early Childhood Studies.

Students wishing to take up this option should contact the Course Administration Officer on 3138 3212.

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Domestic Course structure

Your course

Year 1

You will focus on yourself as a commencing early childhood educator with foundation studies and exploration of essential professional characteristics. You will be introduced to early childhood curriculum areas related to literacy, ICTs and the arts and will also engage in work-integrated learning in the form of community activities.

Year 2

You will focus on field experiences and curriculum studies in the creation of supportive learning environments for children. You will also undertake professional studies units which will focus on theory and practice relevant to early childhood settings, and consider the social and cultural implications of how education is constructed and organised.

Year 3

You will focus on field experiences, further curriculum and professional studies contextualised in practical settings for children. You will build on your knowledge to understand and value inclusive educational practices for working with diverse cohorts of young children, including those with special needs. You will complete two of the four option units which can be undertaken in a diverse range of areas.

Year 4

Your final year of study moves towards integrating the understandings you have developed with your professional practice by focusing on work-integrated learning, ethics and professionalism, and identity as a beginning practitioner. You will undertake your final two option units and your expertise in early childhood will converge to prepare you for your final field experience and internship.

Complementary options

You will have the opportunity to select complementary options (four units) in one or more of the following areas:

- Exploring the Sciences and Environment
- Health and Physical Activity
- Integrated Arts Curriculum
- Intercultural and International Teacher
- Literature and Media Studies
- Managing Learners and Learning
- Mathematics and ICT
- Middle Years of Schooling
- Music
- Research (for high-achieving students)
- Studies in Inclusive Education
- Studies in Indigenous Education
- Visual and Performing Arts .

The complementary options are subject to availability.

Domestic Entry requirements

Prerequisites

Completion of a Diploma of Children's Services (Early Childhood Education and Care) or Diploma or Advanced Diploma of Children's Services, or an equivalent accredited qualification.

You must also have the following early childhood experience:

- one year full-time (or equivalent) group leader experience; or
- two years full-time (or equivalent) family day care experience as an accredited provider; or
- two years full-time (or equivalent) early childhood teacher aide experience in a state preschool, prep or crèche and kindergarten association centre; or
- two years full-time (or equivalent) before and after school care experience.

Diploma holders need to provide evidence of this experience when they apply to QTAC to be eligible for entry.

Note: The majority of supervised professional experience must occur in Australian school settings.

Credit for prior learning (Advanced standing)

Students admitted to this course will be automatically granted credit of one and half years of study (ie 144 credit points) for their completed Diploma of Children's Services (or an equivalent accredited qualification) and early childhood work experience.

Students admitted on the basis of an Advanced Diploma of Children's Services and who have not supplied QTAC with evidence of their early childhood experience will only be automatically granted credit of one year of study (ie 96 credit points) and will be required to provide evidence of their early childhood experience to QUT prior to graduation.

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

International Entry requirements

Professional Recognition

The Bachelor of Education (Preservice Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Preservice Early Childhood) is an approved child care qualification with the Queensland Government Department of Education, Training and Employment (Office for Early Childhood Education and Care), and is accredited by the New South Wales Department of Community Services for employment in children's services.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Early Exit - Bachelor of Early Childhood - ED83

Students wishing to exit the course early with a three year full-time equivalent ED83 Bachelor of Early Childhood should apply in the semester they expect to exit using an SRX Form which is available from http://www.student.qut.edu.au/forms/. To early exit students need to meet the course requirment for ED83 Bachelor of Early Childhood, which can be located at the following site: http://www.courses.qut.edu.au/cgi-bin/WebObjects/Courses.woa/wa/selectMajorFromMain?pres=sf&courseID=15751

Students wishing to complete their fourth year of study may re-apply for admission to the ED93 course at a later stage (subject to the course still being offered and/or the maximum completion time for ED93). Completion of the Bachelor of Education (ED83) course does not allow graduates to register as teachers with the Queensland College of Teachers.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

The majority of field studies must b taken in Australian schools.

Designated Units

Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

overall	6.5

Course Outline

The Bachelor of Social Science allows you to develop a range of social science skills which will equip you to address social issues and problems.
You will complete 24 units of study in this course.

* You are REQUIRED to complete:

- One social science major (7 units) from
Sociology
Politics and History
Geography and Environment
Indigenous Perspectives and Issues
Human Services and Social Policy

and
- Social science skills units (6 units).

* The remaining 11 units of study will consist of your choices from the following options:

- An additional social science major (7 units)

- A social science minor (4 units) from
Gender and Sexuality
Peace and Conflict Resolution

- A foreign language (4-6 units) from French, German, Indonesian, Japanese, Mandarin

- A co-major, an approved university minor, or individual electives in another QUT course (up to 11 units)

Sociology Major

Sociology is an attempt to grapple with the issues and problems of a world experiencing change. You will study what makes us social beings and why both cooperation and conflict are recurring features of our social relationships. You will gain an understanding of the fundamental institutions of family, school, work and culture, and will be equipped to think intelligently and critically about them. You will acquire the skills of social analysis and policy development which are essential for a wide variety of professional employment.

Geography and Environment Major

Geography explains how and why natural environments, land use, settlement, economic activity, population and cultures vary from place to place, and how these elements interact to create distinctive and dynamic regional landscapes. The practical approach provides you with a sound basis, as a professional, for analysing human-environment linkages; population, social and cultural change; land use; settlement; and sustainable development.

Politics and History Major

The combination of politics and history provides a focus on the application of power in the contemporary world and also an understanding of how and why we have arrived at the social and political structures and processes that exist today. As a graduate with a politics and history background you will be equipped to enter occupations that require development and analysis of policy and administrative programs in both the public and private sectors.

Indigenous Perspectives and Issues Major

Indigenous perspectives and issues are central to the contemporary social sciences and to the creation of graduates who are skilled in the complexities of cross-cultural understanding and the acquisition of cross-cultural sensitivity. You will gain insights into Australian Indigenous perspectives and issues from the disciplines of humanities and human services, creative industries, education and justice studies. You will also develop skills associated with research ethics and protocols as they relate to Indigenous cultures and communities.

Human Services and Social Policy Major

Understanding our complex society and identifying emerging social issues and trends are key roles for human service and social policy practitioners. Community service agencies and for-profit industries seek out graduates with vocational skills that enable them to stay abreast of rapid social change and emerging trends. As a social science graduate you will be

equipped to review, develop and administer social programs.

Gender and Sexuality Minor

Issues of difference and identity as they relate to the constitution of gender and sexuality are significant elements within social science investigations. This minor draws on relevant units from discipline areas such as humanities and human services, psychology, public health, justice studies and creative industries to enable you to analyse and challenge inherent presumptions about gendered/sexed bodies, as well as address the possibilities for alternative identity politics.

Peace and Conflict Resolution Minor

You will engage with important issues of contemporary global change and the way these may impact on diverse communities and individuals, conflicts that arise out of these situations, and approaches to resolving such conflicts. The units provide you with opportunities to pursue in-depth studies of human rights issues, identity issues and conflicts, and crisis intervention and resolution.

Minors

All the social science majors can also be taken as four-unit minors.
Note also that all QUT faculties offer agreed sets of units as 'university minors'.

Course discontinued

The Bachelor of Social Science is not available for commencing students.

NO FURTHER INTAKE INTO THIS COURSE

This course has been replaced by a newly coded IX21 Bachelor of Arts/Bachelor of Education (Secondary) with effect from 2008.

Career Outcomes

During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Course discontinued

This course has been discontinued and is open to continuing students only.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology and microbiology majors - Biology and Chemistry; for physics major - Maths C.

International Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

International Subject prerequisites

- Maths B
- English

Bachelor of Applied Science/Bachelor of Education (Secondary)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology and microbiology majors - Biology and Chemistry; for physics major - Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant if you are intending to follow a career in secondary school teaching are chemistry, ecology, geoscience, mathematics or physics.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See Studyfinder for details on the Bachelor of Applied Science majors.

Other Course Requirements

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.
You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks, which commence in late January Year 2.
The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Course Design

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

reading	10.0
listening	10.0
overall	6.5

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Overview

This course has been replaced by IX18 Bachelor of Exercise and Movement

Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)

Science/ Bachelor of Education (Secondary) from first semester 2010.

Continuing students will complete their course requirements in IX04 Bachelor of Applied Science (Human Movement Studies)/Bachelor of Education (Secondary).

This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas.

Professional Recognition

Graduates are eligible for registration as a teacher in Queensland.

Other Course Requirements

Bluecard

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Additional costs

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Computing requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Further Information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR contact the Faculty of Education on +61 7 3138 3947 or e-mail: educationenq@qut.edu.au

Domestic Course structure

Your course

This course gives you a science degree with the same support as the Bachelor of Applied Science program. A range of majors are available allowing you to specialise. Education units provide knowledge of teaching and learning theory and practice.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

NO INTAKE IN 2010

Students wishing to undertake a double Music and Education program should refer to the KM32 Bachelor of Music / ED38 Graduate Diploma in Education entry.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Career Outcomes

The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of

Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also approved by the Department of Communities for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Primary) will prepare you to teach at all levels of primary school. You may also complete a discipline and content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See Studyfinder for details on the Bachelor of Applied Science majors.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field studies units will be taken in Queensland schools.

Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component. Field Studies units will be taken in Queensland schools.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

NO INTAKE INTO THIS COURSE IN 2010

Students wishing to undertake Dance and Education studies should refer to the entry for the Bachelor of Fine Arts (Dance)KK34 / Graduate Diploma in Education ED38 entry.

Bachelor of Creative Industries (Dance)/Bachelor of Education (Secondary)

Continuing students can complete their existing IX16 course until the end of 2011.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Deferment

QUT's deferment policy does not apply to this course.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Enrolling
It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Overview
The four-year Bachelor of Exercise and Movement Science/ Bachelor of Education (Secondary) covers the major elements of the single degree in secondary education as well as equipping students with both foundation knowledge in the exercise and movement sciences and their applications to health and wellness, or sport science and performance assessment.

Career outcomes
Graduates of this four-year program pursue a broad range of careers including those in corporate and community health, wellness and fitness, and sports performance.

Pathways
Graduates can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Professional recognition
The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland.

Bluecard
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks, which commence in Year 2.

The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy
Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Further information
For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR contact the Faculty of Education on +61 7 3138 3947 or e-mail: educationenq@qut.edu.au

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Dance at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and submit a Dance Registration Form to the Creative Industries Faculty. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Dance at QUT Creative Industries?

- Registration for the 2012 intake will close by the extended closing date of 23 September, 2011. To register for an audition, you must submit a Dance Registration Form.
- You must also apply to QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must submit the following and attend an audition:

- Academic record
- Personal statement Personal statement form is included in the Application Guide
- Photograph A current passport sized photograph ANDA full body shot, facing front in parallel, in leotard / swim suit (no board shorts)
- Physiotherapist's Report. A specialist dance or sports physiotherapist needs to assess various physical elements such as your flexibility range and history of injuries.Physiotherapist report form is provided in the Application Guide

What does the audition consist of?

There are two rounds on your day of audition. All applicants will complete round one. Those applicants successful in moving onto round two will be posted on the notice board during the lunch break.

Round One:

- a ballet class (no pointe work)
- a contemporary dance class
- a jazz class (for course code 429162 only)
- a course talk given by the Head of Dance
- a written interpretative exercise

The written exercise requires no preparation. It is a half hour session that looks at the applicant's interpretative skills and writing skills - e.g. spelling, punctuation, grammar - in response to an image presented on the day.

Round Two:

- a one minute solo in a dance genre of the applicant's choice
- This solo is an opportunity for you to dance in a genre of your own choice that you may feel better demonstrates your performance abilities - e.g. hip hop, adagio, Irish, tap. The solo is one minute long and music (if used) should be on CD. The solo may be choreographed by the applicant or someone else - e.g. teacher, guest choreographer
- a more advanced ballet and contemporary class, which includes pointe work (for course code 421822 only)
- A short impromptu talk from the auditionee on a topic given on the day (for course code 429162 1st preference only.)

What should I wear to my audition?

Ballet class:

- women: pink tights, light coloured leotard and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights and leotard, please wear bike pants and tight, light coloured, fitting t-shirt.
- men: tights and a light-coloured singlet or t-shirt and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights, please wear bike pants and jock strap.

Contemporary class:

- Same as above, but able to work in bare feet when required in this genre.

Solo:

- no costumes or props please. Tights and leotard only.

What do I need to bring on the day?'

Please bring your dance gear and water bottle. If you bring lunch it can be stored in the fridge in the dance corridor. There are no cafes open on campus on

weekends.

I have no formal training in classical / contemporary ballet. Can I still audition?

You are assessed on potential, but formal training would benefit applicants. The selection panel looks at you for your movement potential, alignment, sense of musicality, and your degree of confidence. Studying a different technique (e.g. jazz, tap, contemporary) will also help you develop these skills.

What do I have to do in the solo presentation?

The solo presentation is one minute (maximum), which can be improvised or choreographed by yourself or another person, in a style of your choice (e.g. Tap, Irish Dance). The selection panel looks for confidence, appropriate quality and performance integrity.

How do I apply?

There are two steps to an application for Dance at QUT:

1. You must register for an audition by submitting a Dance Registration Form to the Creative Industries Faculty by the extended closing date of 23 September 2011. This should also include a copy of the QUTpay confirmation page from your online credit card payment of the $33 service charge. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee
2. You must also apply through QTAC, where the due date for on-time applications is the 30 September. See the QTAC website for more information.

When and where are the auditions?

Location and Dates

Brisbane

Saturday 8 October 2011

Bachelor of Fine Arts (Dance)/Graduate Diploma in Education QTAC code 429162 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am - 2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Brisbane

Sunday 9 October 2011

Bachelor of Fine Arts (Dance Performance) QTAC code 421822 only
QUT O Block, B Wing East
Level 4, Kelvin Grove Campus

Round 1:
8am-2pm

Round 2 (Call Back):
2.30pm - 6.00pm

Sydney

Saturday 1 October 2011

University of NSW (Kensington Campus)
Myers Studio
Gate 2 High Street
9am - 5pm

Melbourne

Saturday 1 October 2011

Australian Ballet School
9am - 5pm

You need to nominate the venue most suitable to you on your registration form. Confirmation of dates, time and place of audition, what to wear, what to bring on the day, will be sent out seven (7) working days after the extended closing date (23 September 2011). Please expect to be in attendance from 8am until 6pm on your day of audition.

Please Note: Registering with QUT for an audition is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The audition process is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Bachelor of Fine Arts (Dance)/Graduate Diploma in Education (Senior Years)

Professional Recognition

Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure

Your course

You will spend your first three years immersed in dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

Diverse course options provide specialist training in another field. You may choose a minor in areas such as:

- creative writing
- dance studies
- entertainment
- film studies
- journalism
- music.

International Course structure

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Visual Arts at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Visual Arts at QUT Creative Industries?

- You must register through the Online Registration Form with the Creative Industries Faculty by the extended closing date of 14 October 2011.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must supply the following:

Academic record - A copy of your most recent report (it does not have to be your final end-of-year grades).

Portfolio - Maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "Qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB) PLEASE NOTE: We do NOT return portfolios, so do NOT include any original copies of your work or documentation.

Responses to a series of questions about your interest in visual art. These are essential. To lodge your responses, return to this site in early July to register online. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

- Are you planning to graduate as a studio artist, art teacher or other art industry professional? Please outline your career goals.
- What are you expecting to learn in a course of study in Visual Arts at QUT?
- Describe briefly which exhibitions and galleries you have visited in the past 12 months, and the art-related books/articles/reviews you have read, etc).
- Briefly list any group exhibitions, solo exhibitions, commissions and awards you have been included in, plus membership of art associations etc.
- What do you think is art's role in the twenty-first century? Outline briefly.

Service charge of $33 (GST inclusive) - This is to cover the costs of administration and insurance in processing applications, and is non-refundable. The service charge can be paid by credit card online with QUTPay. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee.

Passport style photograph

How do I apply?

To apply for this course, you must:

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge; your portfolio (unless uploaded online);
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are

required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).
- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

When and where are the interviews?

Shortlisted applicants will be contacted, and interviewed, during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 02 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Music at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Music at QUT Creative Industries?

- You must register directly with the Creative Industries Faculty by the 2 September 2011 through the Online Registration Form.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information

What are the additional entry requirements and what qualities are you looking for?

- Academic record
- Photo. A current passport sized photo (for identification purposes only)
- Interview. During the interview you may be asked about: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying music at QUT will help you achieve your musical goals
- Audition: performance on instrument and/or Portfolio of music / sound works (if applicable)

1. The Interview

Qualities looked for in the Interview:

- a strong track record in relevant music and sound activities
- a strong potential for continued growth in your music and sound understanding and practice
- knowledge of QUT Creative Industries music courses and how this relates to your own personal goals

You are encouraged to bring to your interview evidence of any musical qualifications or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances etc).

2. The Audition

Audition requirements (all applicants)

Present two items at the audition that you believe will persuade the panel of your suitability for QUT Music and Sound (it will be of benefit if at least one is your own song, improvisation or composition). The items may comprise the following:

- performances of two contrasting pieces of music of your own choice for the panel
  or
- performances of one piece of music and present one recorded piece (portfolio) for the panel to listen to at the audition,
  or
- presentation of two recorded pieces (portfolio) for the panel to listen to at the audition.

Total duration: no more than 10 minutes. You may be asked to stop playing/presenting before finishing a piece - in the event that this occurs, you should not assume that this has adverse implications on the assessment of your presentation.

Live Performance

You will need to demonstrate technical fluency/competency on your instrument and a well-developed sense of musicality and engagement.

- You can perform on any instrument - orchestral, acoustic, amplified, electronic (eg. computer, turntable etc.), non-western (eg. sitar, djembe, etc.)
- You can audition on more than one instrument so long as it fits within your 10 minute audition time.

It is your responsibility to arrange your own accompaniment if you require it. You can use backing tracks on CD. Other formats may be accommodated but only by prior arrangement or you may be accompanied by a maximum of 2 other musicians. Unaccompanied performance is acceptable however if the piece(s) you are performing are not intended as solo works, accompaniment is desirable.

Qualities looked for in the Live Performance Audition:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

Recorded Pieces

This should consist of music/sound works that you have created or have been partly involved in creating. Suitable items include (but are not limited to) written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc. You will be expected to advise the panel of your precise role in the recorded pieces.

- Bring a portfolio of music/sound works that you have created. Suitable items include (but are not limited to); written and/or performed compositions for acoustic instruments, music realised using computer software, pop songs, soundscapes, music you have recorded/engineered/produced etc.
- You should include one or two contrasting pieces (only one if you are also choosing to perform a live piece) - total duration for all pieces 10 minutes maximum
- Acceptable formats are: Audio CD (must be able to be played in a standard CD player)CD-ROM (must be compatible with Macintosh and PC)DVD (must be able to be played in a standard DVD player)USB Stick
- Printed scores (if relevant and only in conjunction with an audio recording or performance of the piece),
- Please ensure you test your CDs, CD-ROMs or DVDs on multiple systems before submitting them. Failure of your media to play in the specified equipment may adversely affect your folio result.
- Your folio must be accompanied by written notes (maximum 200 words) that explain your precise role in each of the items (i.e. what your role/s were in the creation of the piece, how you created the piece, your artistic aims in creating the piece)
- All portfolio items should be marked with your name and contact details. Please note that portfolios are not returned.

Qualities looked for in Recorded Pieces:

- Creativity and originality of approach
- Technically and creatively appropriate skills in presentation.
- Clear articulation of musical approach
- General sense of musicality and musical engagement
- Diversity of material presented.

How do I apply?

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment of the $33 service fee (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee);
- Attend an audition; and
- Apply for this course through QTAC. Please see the QTAC website for more information.

When and where are the auditions and interviews being held?

- All auditions and interviews will be held in Brisbane at the QUT Kelvin Grove campus between 26 - 29 September 2011.
- Your interview and audition will be scheduled when you lodge your online application. Please note that the time and date of your audition cannot be changed except in exceptional circumstances.

What if I am unable to attend an audition/interview?

- If you are unable to attend an interview/audition you may apply by submitting the following along with your academic record, photo, portfolio and payment by 2 September 2011:
- a written statement (total 2 pages maximum) that addresses the following 4 points: Your past experiences in music and sound activitiesWhat sort of music you enjoy playing and listening toYour ambitions during your studies and beyondHow studying Music and Sound at QUT will help you achieve your musical goals

Photocopy evidence of any musical achievements or any other information which will assist in gauging your musicianship level (e.g. copies of AMEB theory examination results, printed reviews of performances, commercial CDs etc.)

- A continuous and unedited video recording of you performing your audition piece(s) or a CD of your production pieces (or both). Refer to audition requirements for recorded and live performance.

Video must be submitted on CDR or DVD-R and must include a declaration of authenticity, details of date and place of performance and details of the role of applicant if the performance involves other participants. Refer to audition requirements for recorded and live performance. Please note that videos are not returned.

- You may be required for a phone interview to clarify any points in your written statement

Can I audition on more than one instrument?

Yes but only within the duration of your 10-minute audition.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the early round in 15 December 2011 offer round.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

QUT offers four-year dual awards that qualify graduates for registration as secondary teachers in Queensland and for employment in education and related creative industries fields.

Bachelor of Music/Graduate Diploma in Education (Senior Years)

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Career Opportunities

This course will enable you to become a qualified teacher. Graduates also work in live, recording and multimedia environments, as performers, producers, composers, developers of music software and games, DJs and music coaches. There are also pathways available for honours and professional or research postgraduate studies.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Music. Once completed, you will proceed seamlessly into 12 months of specialised teacher training.

You will sample life as an educator prior to commencing your graduate diploma with foundation units in education studies which include practical school-based experiences during your creative industries degree.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Pathways to further study

Students who pass KM32 Bachelor of Music with a GPA of 5.5 or higher may apply for entry to the Bachelor of Music (Honours).

Domestic Course structure

Your course

You will spend your first three years immersed in music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

International Course structure

Your course

You will spend your first three years immersed in music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to the fourth year with foundation units in education studies which include school-based field experience.

Course Coordinator	Contact Education Student Affairs Section 3138 3947, or educationenq@qut.edu.au.

Domestic Entry requirements

Applicants for the Graduate Certificate in Education must hold:

- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean

OR

- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

In you intend to apply for the TESOL study area, you must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

International Entry requirements

Applicants for the Graduate Certificate in Education must hold:

- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean

OR

- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

In you intend to apply for the TESOL study area, you must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

International students studying in Australia on a Student Visa may only enrol in full-time internal programs offered on-campus. Please see 'Study Areas for International Students' for the full list of study areas available.

International applicants must have the appropriate English language proficiency level to study their proposed course before they are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Overview

In the Graduate Certificate in Education you will acquire knowledge and understanding of specific issues in education, develop the skills necessary to identify and evaluate these issues, provide leadership within an educational setting and acquire abilities to manage the problems identified.

These programs will suit teachers, educators and graduates with relevant employment experience who are seeking to make a career change within education or enhance their existing education career.

The Graduate Certificate in Education does not lead to teacher registration.

The course consists of four units (48 credit points) of study selected from the postgraduate units listed in the course. The Graduate Certificate in Education provides a two-semester part-time or one-semester full-time (subject to unit availability) postgraduate course in a range of study areas. (The generic Graduate Certificate only can be completed in one semester).

A generic Graduate Certificate in Education comprises any four units of study drawn from any of the study areas listed below. You have up to two (2) years to complete the course.

Entry Requirements and How to Apply

ENTRY REQUIREMENTS:
Applicants for the Graduate Certificate in Education must hold:
- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean
OR
- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

In you intend to apply for the TESOL study area, you must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

International students studying in Australia on a Student Visa may only enrol in full-time internal programs offered on-campus. Please see 'Study Areas for International Students' for the full list of study areas available.

International applicants must have the appropriate English language proficiency level to study their proposed course before they are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

HOW TO APPLY:
Domestic applicants apply directly to QUT Student Services on a 'PG form'. International applicants complete an 'F form'. These can be accessed from studentservices.qut.com under 'Postgraduate admissions'; at QUT Student Centre counters; or by telephoning 07 3138 2000.

Application forms must be accompanied by supporting documents such as original or certified transcripts and parchments from previous studies; and if applicable, a signed letter from your employer on official letterhead or other official documents to support at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Originals must be supplied or copies certified by a Justice of the Peace; Commissioner of Declarations (registration numbers must be provided); or by QUT Student Centre staff. If documents are in a language other than English the original document must also have an official English translation. Documents will not be returned unless you provide a stamped, self-addressed envelope with you application. Transcripts and parchments from QUT and other Queensland universities need not be supplied.

Orientation

It is recommended that new students attend the Master of Education/Graduate Certificate in Education Orientation, which is held at Kelvin Grove Campus during the weekend after the orientation week each semester.

This comprises of sessions explaining the course and the two core units; discussions on topics by invited academics and students; general discussion and question time; meetings with the study area coordinators; and library sessions on the Library, QUT Blackboard, and academic writing.

There will be details about this on the Orientation Planner on your QUT Virtual. You should also recieve information about the event (via mail or email) after you accept your offer. If you have not recieved any information up until one week before the event, please contact Michele Bean: m.bean@qut.edu.au

Study Areas for Domestic Students

Career Development:
The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

Early Years:
This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Education Research: Theory and Practice:
This study area will encourage and enhance critical thinking in a specific area of education of interest to you and provide the research grounding in a focussed area to give you the option to progress into higher degree study. While you may wish to pursue this area as an end in itself, you may wish to move to specific research projects either for awards within the higher education sector or as part of your work within specific organisations.

Generic Program:
Students can choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units. This program can be tailored to suit your individual study needs and interests.

Higher Education (not offered from semester 2, 2011 - continuing students only):
Teaching and learning are core functions of all higher education institutions. The need to ensure quality in teaching and learning within the higher education sector is increasingly a focus of a number of initiatives. This study area develops and extends your skills in teaching, explores teaching and learning theories and the strategies, models and concepts that are relevant to teaching and learning in a higher education setting, and develops the capacity to critically reflect on professional practice. Professional development activities undertaken by staff may be recognised for advanced standing into the study area. You will need to complete an Advanced Standing application form.

Information Communication Technology (ICT):
This study area focuses on the different roles that technology, particularly

contemporary digital technology, plays across all education sectors. The study area introduces major frameworks for, and debates around; understanding these roles, but the main emphasis is on practical application. It is suitable for any teacher or administrator who seeks to deliberatively employ technology within educational contexts.

Information-Learning Connections:
This study area enables you to extend your conceptual understandings and professional practices for learning and teaching in rapidly changing information-rich learning environments. It will provide an opportunity for your career development across Education, Librarianship, and Information Services. Potential students include: experienced teachers and teacher-librarians; academics; instructional designers; academic developers; learning support specialists; academic, public and corporate librarians; information professionals; workplace educators.

Leadership and Management:
This study area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

Studies in Literacy:
The study area Studies in Literacy provides opportunities for participants to engage with current and historical issues and debates and specific areas of interest within the broad domain of literacy. The core units have been designed to meet the learning needs of teachers, educators and allied professionals (e.g. development officers) who have a strong interest in the literacy development of their students and clients as well as the contributions of political, professional, private and community contexts to understandings of literacy and literacy education. Current issues such as moves to standardise literacy curriculum and assessment at a time when literacy practices are changing in everyday life will also be examined.

Teaching for Diversity: Disabilities and Learning Difficulties:
While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Teaching English as a Foreign Language (TEFL):
TEFL is a coursework award designed to meet the needs of students seeking a course which is specifically focused on teaching English as a foreign Language.

Teaching English as a Second Language (TESOL):
TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Vocational Education and Training (not offered from 2011 - continuing students only):
In recent years, there has been considerable convergence of vocational education and training and “academic education” within the Australian community. This study area will equip individuals with the understandings and skills necessary to implement and manage Vocational Education and Training initiatives within a range of settings. It aims to develop the skills and knowledge of participants as critically reflective practitioners with a commitment and confidence to lead vocational education in secondary and post-secondary settings.

Please refer to the 'course structures' below for study area requirements and suggested course progressions.

Study Areas for International Students

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. Study Areas must be offered in full-time and internal mode. The study areas below are available to international students:

Generic Program for International Students:
Students can choose a generic Graduate Certificate which does not provide a study area and consists of any four (4) ED61 units.

Teaching English as a Foreign Language (TEFL) (Available in Semester 1 only):
TEFL is a coursework award designed to meet the needs of students seeking a course which is specifically focused on teaching English as a foreign Language.

Teaching English as a Second Language (TESOL)
TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Please refer to the 'course structures' below for study area requirements and suggested course progressions.

Course Rules

UNIT DELIVERIES:
Please ensure you select the correct teaching period, class and location code for all units you are enrolled in. EXTERNAL: The unit will be conducted through the QUT Blackboard site. Regular access to a suitable computer and internet access is imperative. INTERNAL: The unit requires regular attendance at classes on Kelvin Grove campus during semester. At the first scheduled class time, lecturers will negotiate with students a schedule for regular contact. BLOCK: The unit is offered in a block of lectures during the January or June/July vacation with attendance being over a number of days, normally from 9.00am to 4.00pm, Monday to Friday of a particular week. Assessment is completed during the remainder of the semester via the QUT Blackboard website.

MINIMUM AND MAXIMIM UNIT ENROLMENT:
Domestic students may enrol in a minimum of one (1) unit per semester. If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

LEAVE OF ABSENCE:
In order to take time off without study, you will need to complete an online Leave of Absence Form - L Form. A link to this form can be found on: http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-

your-studies/
Students are permitted to take up to 12 months leave without special circumstances. You have 2 years to complete the course.

ADVANCED STANDING (Credit):
You can apply for Advanced Standing from prior study at an equivalent level to Postgraduate study. Undergraduate study or 4th year study (Honours or Graduate Diploma) are not generally considered at Postgraduate level. You can also apply for Advanced Standing based on work or industry experience. Please note that advanced standing can't be awarded for normal teaching experience. If you are responsible for an original academic work, such as creating a course and/or curriculum, or have published any original research etc. then you may be eligible for credit for work or industry experience. For further information on advanced standing refer to the following website:
http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/credit-for-prior-learning/

CHANGE OF STUDY AREA:
Students must submit a 'CM Form' to request a change of study area. A link to this form can be found at the following website:
http://www.student.qut.edu.au/forms/

FURTHER STUDY- ED79 MASTER OF EDUCATION:
Students wishing to apply for further study can submit an 'R/I form' to move into the Master of Education. A link to this form can be found on the Student Services / Forms web page. As long as they fit into your chosen study area, you can apply to have all of your ED61 units credited into ED79 Master of Education.

Domestic Course structure

The Graduate Certificate in Education is comprised of four (4) units. If you have chosen one of the study areas, you will be required to complete the four core units from that study area (48 credit points). Alternatively, students can undertake a generic structure with no study area, consisting of four units of your choice from any of the OPTION UNITS listed below.

International Course structure

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. Study areas must be offered in full-time and internal mode, as international students are required to study four (4) units per semester. International students can complete the following study areas only: Generic, TESOL or TEFL (TEFL for International students is available in Semester 1 only).

For course progression advice please contact the relevant course administration officer: Senior Years: Claire Hogue (c.hogue@qut.edu.au or 3138 3408); Middle Years: Jo Wakefield (jo.wakefield@qut.edu.au or 3138 3948); Primary: P-7: Nikki Kyle (nm.kyle@qut.edu.au or 3138 3212); Early Years: Sian Rodgie (sian.rodgie@qut.edu.au or 3138 3936).
Discipline Coordinator	

Domestic Entry requirements

Closing date: Applications received after 25 May 2012 may not be considered in time for the respective major QTAC offer rounds.

1. Completion of a non-education Bachelor degree that required the minimum of three years of study in that course and does not lead to teacher registration. (Education degrees or degrees that focus on education, teaching or child or family studies are not acceptable for entry.) ; and

2. Satisfy the specific major entry requirement listed below:

Early Years entry requires applicants to have completed in their undergraduate degree at least eight units, equivalent to one year of full-time study, of discipline studies relevant to at least two of the learning areas. Learning areas are: the arts (dance, drama, music, visual arts), English, mathematics, science, social science, technology, LOTE and Health and Physical Education.

Primary: P-7: Completed eight semester units of discipline studies relevant to at least two primary leanring areas at a bachelors level (or higher). The learning areas are: the arts (dance, drama, music, visual arts), English, mathematics, science, social science, technology, LOTE and Health and Physical Education.

Middle Years: Successful completion of six to eight units (three quarters to one year of full-time study) in a bachelor's degree (or higher) in one nominated learning area. Applicants should also have completed four to six units (to half to three quarters of a year of full-time study) in another nominated learning area:

The learning areas are: the arts (dance, drama, music, visual arts), English, mathematics, science, social science, technology, LOTE and Health and Physical Education.

Senior Years: Successful completion of six to eight units (three quarters to one year of full-time study) in a bachelor's degree (or higher) in one nominated teaching area. Applicants should also have completed four to six units (to half to three quarters of a year of full-time study) in another nominated teaching area. See the Units tab for more information on teaching areas. Business Education - (Information, Communication and Technologies) teaching area not offered in 2012.

Senior Years Teaching Area Entry Requirements

For Senior Years the first teaching area only will be noted on the academic transcript.

Dance Education -not available mid-year, offered in internal mode only, quota restrictions may apply

A range of units covering Dance theory and practice at a university level. Applicants who satisfy the academic entry requirements will be required to do an audition in Orientation Week. Contact Dance, Creative Industries Faculty on (07) 3138 5789.

Drama Education -not available mid-year, offered in internal mode only, quota restrictions may apply

A range of units covering theory and performance at university level. Contacted Drama, Creative Industries on (07) 3138 5789.

English Education

A range of English units covering the areas of language and literacy, literary and cultural, and media and film studies. Applicants may not be accepted if their studies are too narrowly focused on one area.

Languages Education -not available mid-year, offered in internal mode only

Applicants must have completed at least a minimum of six language units in sequence beyond the secondary school level (or the equivalent). Native speakers can also apply and must be able to demonstrate completion of schooling and/or tertiary study in the first/native language and/or demonstrated/documented appropriate levels of language proficiency. Interview may be required. Languages available are French, German, Japanese, Indonesian, Chinese and Italian.

Mathematics Education

A range of mathematics units.

Music (Secondary) Education -not avail midyr, internal mode only, quota restrictions may apply

A degree in music or approved equivalent at university level. Applicants who satisfy the academic entry requirements may be required to attend an interview and an audition. Contact Music, Creative

Industries on (07) 3138 5789.

Visual Arts Education -not avail midyr, offered internal mode only, quota restrictions may apply

A range of Visual Arts units, which must include studio practice and art history/theory units at university level. Applicants who satisfy academic entry requirements may be required to attend an interview and present a portfolio. Contact Visual Arts, Creative Industries on (07) 3138 5789.

Business Education (Accounting/Business Management)

A range of units in accounting and business management, with at least three accounting units of appropriate content.

Business Education (Business Communication and Technologies)

A range of units in business and business technology.

Business Education (Information, Communications and Technologies Education) (not offered in 2012)

A range of units in the areas of computer systems and programming, information systems theory, and information technology.

Business Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Film & Media Education - not available mid-year, offered in internal mode only

A range of units covering the areas of film and media theory and production at university level. Applicants may not be accepted if their studies are too narrowly focused in one area.

Social Education (Geography)

A range of units from the fields of geography, geology, and environmental studies.

Social Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Social Education (History)

A range of History units. Applicants may not be accepted if their studies of history are too narrowly focused on one geographical area (eg Asia, Europe) or on one theme (eg warfare, colonisation).

Social Education (Social Science)

Applicants must have completed at least one (1) unit of history. One (1) unit of geography and one (1) unit of sociology is desirable. Other units may be drawn from the fields of ethics, gender studies, political studies, sociology, indigenous studies, and international and global studies.

Science Education (Biology)

A range of Biology units covering the area of animal studies and preferably at least one unit in plant biology. A completed degree in medicine, pharmacy, nursing or veterinary science would also be acceptable.

Science Education (Chemistry)

A range of Chemistry units covering the areas of physical, inorganic, bio-organic, analytical and environmental chemistry.

Science Education (Earth Science)

A range of units from the fields of environmental science, geology, geoscience and ecology.

Science Education (Science Studies)

Must have a range of units from the areas of physics, chemistry, biology and preferably at least one unit from earth science or astronomy.

Science Education (Physics)

A range of units from the areas of physics and mathematics.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

International Entry requirements

International Students must completed an F application form and also complete and attach to their application a Teaching Area Notification Form (PDF file, 160.0 KB).

1. Completion of a non-education Bachelor degree that required the minimum of three years of study in that course and does not lead to teacher registration. (Education degrees or degrees that focus on education, teaching or child or family studies are not acceptable for entry.) ; and

2. Satisfy the specific major entry requirement listed below:

Early Years entry requires applicants to have completed in their undergraduate degree at least eight units, equivalent to one year of full-time study, of discipline studies relevant to at least two of the learning areas. Learning areas are: the arts (dance, drama, music, visual arts), English, mathematics, science, social science, technology, LOTE and Health and Physical Education. Offered for July intake.

Primary: P-7: Completed eight semester units of discipline studies relevant to at least two primary leanring areas at a bachelors level (or higher). The learning areas are: the arts (dance, drama, music, visual arts), English, mathematics, science, social science, technology, LOTE and Health and Physical Education. Not available in July.

Middle Years is not available to international students.

Senior Years: Successful completion of six to eight units (three quarters to one year of full-time study) in a bachelor's degree (or higher) in one nominated teaching area. Applicants should also have completed four to six units (to half to three quarters of a year of full-time study) in another nominated teaching area. See the Units tab for more information on teaching areas. Business Education - (Information, Communication and Technologies) teaching area not offered in 2012. Not all teaching areas are available in July.

Senior Years Teaching Area Entry Requirements

For Senior Years the first teaching area only will be noted on the academic transcript.

Dance Education -not available mid-year, offered in internal mode only, quota restrictions may apply

A range of units covering Dance theory and practice at a university level. Applicants who satisfy the academic entry requirements will be required to do an

audition in Orientation Week. Contact Dance, Creative Industries Faculty on (07) 3138 5789.

Drama Education -not available mid-year, offered in internal mode only, quota restrictions may apply
A range of units covering theory and performance at university level. Contacted Drama, Creative Industries on (07) 3138 5789.

English Education
A range of English units covering the areas of language and literacy, literary and cultural, and media and film studies. Applicants may not be accepted if their studies are too narrowly focused on one area.

Languages Education -not available mid-year, offered in internal mode only
Applicants must have completed at least a minimum of six language units in sequence beyond the secondary school level (or the equivalent). Native speakers can also apply and must be able to demonstrate completion of schooling and/or tertiary study in the first/native language and/or demonstrated/documented appropriate levels of language proficiency. Interview may be required. Languages available are French, German, Japanese, Indonesian, Chinese and Italian.

Mathematics Education
A range of mathematics units.

Music (Secondary) Education -not avail midyr, internal mode only, quota restrictions may apply
A degree in music or approved equivalent at university level. Applicants who satisfy the academic entry requirements may be required to attend an interview and an audition. Contact Music, Creative Industries on (07) 3138 5789.

Visual Arts Education -not avail midyr, offered internal mode only, quota restrictions may apply
A range of Visual Arts units, which must include studio practice and art history/theory units at university level. Applicants who satisfy academic entry requirements may be required to attend an interview and present a portfolio. Contact Visual Arts, Creative Industries on (07) 3138 5789.

Business Education (Accounting/Business Management)
A range of units in accounting and business management, with at least three accounting units of appropriate content.

Business Education (Business Communication and Technologies)
A range of units in business and business technology.

Business Education (Information, Communications and Technologies Education) (not offered in 2012)
A range of units in the areas of computer systems and programming, information systems theory, and information technology.

Business Education (Legal Studies)
A range of units from the fields of law, justice studies, and criminology.

Film & Media Education - not available mid-year, offered in internal mode only
A range of units covering the areas of film and media theory and production at university level. Applicants may not be accepted if their studies are too narrowly focused in one area.

Social Education (Geography)
A range of units from the fields of geography, geology, and environmental studies.

Social Education (Legal Studies)
A range of units from the fields of law, justice studies, and criminology.

Social Education (History)
A range of History units. Applicants may not be accepted if their studies of history are too narrowly focused on one geographical area (eg Asia, Europe) or on one theme (eg warfare, colonisation).

Social Education (Social Science)
Applicants must have completed at least one (1) unit of history. One (1) unit of geography and one (1) unit of sociology is desirable. Other units may be drawn from the fields of ethics, gender studies, political studies, sociology, indigenous studies, and international and global studies.

Science Education (Biology)
A range of Biology units covering the area of animal studies and preferably at least one unit in plant biology. A completed degree in medicine, pharmacy, nursing or veterinary science would also be acceptable.

Working with Children Check: blue card
You'll need to apply for a blue card because you'll be working with children or young people as part of this course. There's no cost if you apply through QUT.

Students wishing to accept their offer must submit their blue card application forms:

- no later than 24 December for Semester 1 (February entry)
- no later than 24 May for Semester 2 entry (July entry)

Please submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

How to apply for a blue card

Minimum english requirements
Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	8.0
writing	7.0
reading	7.0
listening	8.0
overall	7.5

Graduate Diploma in Education

Overview
For graduates with an non-education undergraduate degree to obtain their first teaching qualification. Four areas of study: Early Years (emphasising birth to eight years, and preparing graduates to teach Prep-Year 3); Primary: P-7 - internal only (emphasising years Prep - 7); Middle Years - external only (emphasising years 4-9); Senior Years (emphasising years 10-12 as well as lower Secondary).

INTERNATIONAL APPLICATIONS
International students to apply for this course via the F-Form.
IELTS (Academic) average band score of 7.5 across all four areas, with no score below 8 in Speaking and Listening and no score below 7 in Reading and Writing. The cost of the testing will be met by the applicant. English test results must be no more than two years old.

International Students must also complete and attach to the F-Form a Teaching Area Nomination Form for International Students

Enroling and course completion
The Queensland College of Teachers has advised that students enrolled in the Graduate Diploma in Early Years, Primary:P-7 and Middle Years may need to complete the course by end 2014, to be assured of eligibility for teacher registration.

Field experience
The majority of supervised field experience must occur in Australian school settings.

Professional Recognition
The Graduate Diploma in Education is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. For graduates wishing to teach elsewhere or overseas please check with your local teacher registration authority before applying for entry to the course. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you accept your offer and enrol in the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Designated Units
Students who do not successfully complete the requirements of practicum or field studies units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website

Field Studies
The majority of supervised professional experience must occur in Australian Primary and/or Secondary school settings. The final field experience unit must be completed in the last semester of enrolment in the course.

Domestic Course structure
Early Years and Primary: P-7
Early Years and Primary applicants' undergraduate degree must include at least eight units, equivalent to one year of full-time study, in discipline areas that are relevant to at least two learning areas.

The learning areas are:
- The Arts (Dance, Drama, Music, Visual Arts)
- English
- Mathematics
- Science
- Social Science
- Technology
- LOTE (languages other than English)
- Health and Physical Education

Primary: P–7 is only available in internal, full-time study mode. Primary: P–7 is not available for mid-year entry.

Middle Years
Middle Years applicants' undergraduate degree must include at least six to eight units, equivalent to three-quarters to one year of full-time study, in the first nominated learning area and four to six units, equivalent to half to three quarters of a year of full-time study, in the second nominated learning area.

The learning areas are:
- The Arts (Dance, Drama, Music, Visual Arts)
- English
- Mathematics
- Science
- Social Science
- Technology
- LOTE (languages other than English)
- Health and Physical Education

This study area is available only in the external study mode. Middle Years is not available for mid-year entry.

Senior Years
It is assumed that current knowledge in the chosen teaching areas has been maintained since completion of the relevant studies. Entry into Senior Years normally requires completion of six to eight units, equivalent to three-quarters to one year of full-time study, in the first teaching area and four to six units equivalent to half to three-quarters of a year of full-time study, in the second teaching area.

Senior Years teaching areas
- Business Education (Accounting/Business Management)
- Business Education (Business Communication and Technologies)
- Business Education (Legal Studies)
- Dance Education
- Drama Education
- English Education
- Film and Media Education
- Languages Education
- Mathematics Education
- Music (Secondary) Education
- Science Education (Biology)
- Science Education (Chemistry)
- Science Education (Earth Science)
- Science Education (Physics)
- Science Education (Science Studies)
- Social Education (Geography)
- Social Education (History)
- Social Education (Legal Studies)
- Social Education (Social Science)
- Visual Arts Education

Dance, Drama, Film and media, Languages, Music (secondary) and Visual Arts teaching areas are available in an internal mode (at Kelvin Grove) only, and are not available for mid-year entry.

Senior Years teaching areas are reviewed annually.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Overview

FOR CONTINUING AND COHORT STUDENTS ONLY.

No further intake from 2011. Please refer to the ED79 Master of Education which has TESOL and TEFL study areas available.

Leave of Absence

If you are unable to study during a particular semester, you are required to apply for a leave of absence or you risk being automatically discontinued from the course. To request a leave of absence, submit an 'Online L form', which can be found on the Student Services Forms web page. International students must lodge an 'LI form' to apply for a leave of absence. In ED14 Students will be granted up to one year of leave without special circumstances, but are still required to finish the course in the four year period. Special circumstances can be looked at by supplying original or certified documents such as medical certificates.

Early Exit - ED61 Graduate Certificate of Education

Students wishing to exit the course early with a ED61 Graduate Certificate of Education should apply in the semester they expect to exit, using an SRX Form. (available from the Student Services website). Students who take this option will have to 'withdraw' from ED78 Master of Education (TEFL) via QUT Virtual / eStudent.

Domestic Entry requirements

Applicants for the Master of Education must hold:
- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean
OR
- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

Applicants planning to take the TESOL study area must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

Applicants planning to take the Early Childhood Teaching or Teacher-Librarianship study areas must be registered teachers or be eligible for registration. If you are applying for the School Guidance and Counselling study area, you must be a registered teacher and supply certified or original evidence of your teacher registration.

If you want to study School Guidance and Counselling full-time, please be aware that applications for 2012 close early due to compulsory block units that are held before semester commencement. Applications must be submitted by Monday, 14 November, 2011. (There is no mid-year entry for School Guidance and Counselling full-time. Only part-time study is available.) This qualification is only recognised by education employing authorities in Queensland.

International Entry requirements

Applicants for the Master of Education must hold:
- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean
OR
- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

Applicants planning to take the TESOL study area must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

International Students studying in Australia on a Student Visa may only enrol in full-time internal programs offered on-campus.

The following Majors are available for International students:

Generic Program

Early Years Program

Leadership and Management

TEFL (Teaching English as a Foreign Language)

TESOL (Teaching English as a Second Language)

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Overview

ED79 Master of Education focuses on specialised study areas that are currently in demand and featuring innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

The course will suit teachers, educators and graduates with relevant employment experience who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration.

ED79 Master of Education consists of eight units (96 credit points) selected from the postgraduate units listed in the course structure. Course duration is one (1) year internal or external full-time, or two (2) years internal or external part-time. You have up to four (4) years to complete the course.

Entry Requirements and How to Apply

ENTRY REQUIREMENTS:
Applicants for the Master of Education must hold:
- An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean
OR
- A three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean PLUS at least one year of appropriate professional or industrial experience.

Applicants planning to take the TESOL study area must have a teaching background (at least one year of appropriate professional experience). If you do not have a teaching background, you can apply to take the TEFL study area instead.

Applicants planning to take the Early Childhood Teaching or Teacher-Librarianship study areas must be registered teachers or be eligible for registration. If you are applying for the School Guidance and Counselling study area, you must be a registered teacher and supply certified or original evidence of your teacher registration.

If you want to study School Guidance and Counselling full-time, please be aware that applications for 2012 close early due to compulsory block units that are held before semester commencement. Applications must be submitted by Monday, 14 November, 2011. (There is no mid-year entry for School Guidance and Counselling full-time. Only part-time study is available.)

This qualification is only recognised by education employing authorities in Queensland.

International Students studying in Australia on a Student Visa may only enrol in full-time internal programs offered on-campus. Please see 'Study Areas for International Students' for the full list of study areas available.

International Students must have the appropriate English language proficiency level to study their proposed course before they are admitted into QUT. There are two formal tests of English proficiency which QUT will accept: IELTS and TOEFL.

- IELTS: overall band score of 6.5 with no sub-band below 6.0; or
- TOEFL (iBT): overall score of 90 with no sub-score below 20 (if TOEFL permitted by visa requirements).

You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language or one or more communication subjects.

HOW TO APPLY:
Domestic students apply directly to QUT Student Services on a 'PG form'. International students complete an 'F form'. These can be accessed from studentservices.qut.com under 'Postgraduate admissions'; at QUT Student Centre counters; or by telephoning 07 3138 2000.

Application forms must be accompanied by supporting documents such as original or certified transcripts and parchments from previous studies; and if applicable, a signed letter from your employer on official letterhead or other official documents to support at least one year's practical experience in some branch of education acceptable to the Executive Dean.

If you are applying for the Early Childhood Teaching or Teacher-Librarianship study areas, you must be a registered teachers or be eligible for registration. If you have current teacher registration, please supply a certified or original copy of certification with your application. To apply for the School Guidance and Counselling study area, you must be a registered teacher. Please supply certified or original evidence of your teachers registration.

Originals must be supplied or copies certified by a Justice of the Peace; Commissioner of Declarations (registration numbers must be provided); or by QUT Student Centre staff. If documents are in a language other than English the original document must also have an official English translation. Documents will not be returned unless you provide a stamped, self-addressed envelope with you application. Transcripts and parchments from QUT and other Queensland universities need not be supplied.

Orientation

It is recommended that new students attend the Master of Education Orientation, which is held at Kelvin Grove Campus during the weekend after the orientation week each semester.

This comprises of sessions explaining the course and the two core units; discussions on topics by invited academics and students; general discussion and question time; meetings with the study area coordinators; and library sessions on the Library, QUT Blackboard, and academic writing.

There will be details about this on the Orientation Planner on your QUT Virtual. You should also recieve information about the event (via mail or email) after you accept your offer. If you have not recieved any information up until one week before the event, please contact Michele Bean: m.bean@qut.edu.au

Study Areas for Domestic Students

Career Development:
The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

Early Childhood Teaching:
This study area will enable you to develop in-depth theoretical and practical knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings. Furthermore, the Early Childhood Teaching study area is recognised as a specialist early childhood qualification with Queensland Department of Communities and the Creche and Kindergarten Association (C&K).

Early Years:
This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to

develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Education Research: Theory and Practice:
This study area will encourage and enhance critical thinking in a specific area of education of interest to you and provide the research grounding in a focussed area to give you the option to progress into higher degree study. While you may wish to pursue this area as an end in itself, you may wish to move to specific research projects either for awards within the higher education sector or as part of your work within specific organisations.

Generic Program:
Students can choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units. This program can be tailored to suit your individual study needs and interests.

Higher Education (from 2011 - only available to cohorts):
Teaching and learning are core functions of all higher education institutions. The need to ensure quality in teaching and learning within the higher education sector is increasingly a focus of a number of initiatives. This study area develops and extends your skills in teaching, explores teaching and learning theories and the strategies, models and concepts that are relevant to teaching and learning in a higher education setting, and develops the capacity to critically reflect on professional practice. Professional development activities undertaken by staff may be recognised for advanced standing into the study area. You will need to complete an Advanced Standing application form and document appropriately for consideration by the Faculty.

Information Communication Technology (ICT):
This study area focuses on the different roles that technology, particularly contemporary digital technology, plays across all education sectors. The study area introduces major frameworks for, and debates around; understanding these roles, but the main emphasis is on practical application. It is suitable for any teacher or administrator who seeks to deliberatively employ technology within educational contexts.

Information-Learning Connections:
This study area enables you to extend your conceptual understandings and professional practices for learning and teaching in rapidly changing information-rich learning environments. It will provide an opportunity for your career development across Education, Librarianship, and Information Services. Potential students include: experienced teachers and teacher-librarians; academics; instructional designers; academic developers; learning support specialists; academic, public and corporate librarians; information professionals; workplace educators.

Leadership and Management:
This study area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

School Guidance and Counselling (option A or B):
This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling 'Option A' will enable you to be eligible for employment from P-12. 'Option B' is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards. This endorsement has been granted for a five year period until 2014. PLEASE NOTE: This qualification is only recognised by education employing authorities in Queensland.

Studies in Literacy:
The study area Studies in Literacy provides opportunities for participants to engage with current and historical issues and debates and specific areas of interest within the broad domain of literacy. The core units have been designed to meet the learning needs of teachers, educators and allied professionals (e.g. development officers) who have a strong interest in the literacy development of their students and clients as well as the contributions of political, professional, private and community contexts to understandings of literacy and literacy education. Current issues such as moves to standardise literacy curriculum and assessment at a time when literacy practices are changing in everyday life will also be examined.

Teacher-Librarianship:
This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the six year period, January 2006-December 2011. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Teaching for Diversity: Disability and Learning Difficulties:
While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Teaching English as a Foreign Language (TEFL):
TEFL is a coursework award designed to meet the needs of students seeking a course which is specifically focused on teaching English as a foreign Language.

Teaching English to Speakers of Other Languages (TESOL):
TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching

English to speakers of other languages.

Vocational Education and Training (not offered from 2011 - continuing students only):
In recent years, there has been considerable convergence of vocational education and training and “academic education” within the Australian community. This study area will equip individuals with the understandings and skills necessary to implement and manage Vocational Education and Training initiatives within a range of settings. It aims to develop the skills and knowledge of participants as critically reflective practitioners with a commitment and confidence to lead vocational education in secondary and post-secondary settings.

Please refer to the 'course structures' below for study area requirements and suggested course progressions.

Study Areas for International Students

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. Study Areas must be offered in full-time and internal mode, as international students are required to study four (4) units per semester. The study areas below are available to international students:

Generic Program for International Students:
Students can choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units.

Early Years Program for International Students:
This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children’s health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Leadership and Management for International Students:
This study Area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

Teaching English as a Foreign Language (TEFL):
TEFL is a coursework award designed to meet the needs of students seeking a course which is specifically focused on teaching English as a foreign Language.

Teaching English as a Second Language (TESOL)
TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Please refer to the 'course structures' below for study area requirements and suggested course progressions.

Course Rules

UNIT DELIVERIES:
Please ensure you select the correct teaching period, class and location code for all units you are enrolled in. EXTERNAL: The unit will be conducted through the QUT Blackboard site. Regular access to a suitable computer and internet access is imperative. INTERNAL: The unit requires regular attendance at classes on Kelvin Grove campus during semester. At the first scheduled class time, lecturers will negotiate with students a schedule for regular contact. BLOCK: The unit is offered in a block of lectures during the January or June/July vacation with attendance being over a number of days, normally from 9.00am to 4.00pm, Monday to Friday of a particular week. Assessment is completed during the remainder of the semester via QUT Blackboard.

OPTION UNITS:
As part of most of your study areas, or a 'Generic' Masters degree, you are able to complete a number of option units which can be selected from any units listed under any of the study areas in ED79, with the exception of field study or practicum units.

MINIMUM AND MAXIMIM UNIT ENROLMENT:
Domestic students may enrol in a minimum of one (1) unit per semester. If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

LEAVE OF ABSENCE:
In order to take time off without study, you will need to complete an online Leave of Absence Form - L Form. A link to this form can be found on following site: http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-your-studies/
You are permitted to take up to 12 months leave without special circumstances. You have 4 years to complete the course.

BLUE CARD:
Students in Early Childhood Teaching, School Guidance and Counselling, and Teacher-Librarianship may be required to hold a current blue card before they can undertake the practicum in a child care centre, early years setting, library, or some schools, even if they are registered teachers. Depending on where you intend to undertake your practicum, you may need to apply for a blue card as soon as you are accepted into the program to allow sufficient time (up to 12 weeks) for it to be issued. Contact your study area coordinator for advice and visit student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards

ADVANCED STANDING (Credit):
You can apply for Advanced Standing from prior study at an equivalent level to Masters study. Undergraduate study or 4th year study (Honours or Graduate Diploma) are not generally considered at Masters level. You can also apply for advanced standing based on work or industry experience. Advanced standing is not able to be awarded for normal teaching experience. If you are responsible for an original academic work, such as creating a course and/or curriculum, or have published any original research etc. then you may eligible for credit for work or industry experience. Please complete an ‘AS Form’and refer to the following website: http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/credit-for-prior-learning/

CHANGE OF STUDY AREA:
Students must submit a 'CM Form' to request a change of study area. A link to

this form can be found at the following site: http://www.student.qut.edu.au/forms/

EARLY EXIT - ED61 GRADUATE CERTIFICATE IN EDUCATION:
If you wish to exit the course early with ED61 Graduate Certificate in Education you should apply in the semester that you expect to exit, using an 'SRX Form'. A link to this form can be found on the following web page:
http://www.student.qut.edu.au/forms/
If you take this option you will have to cancel your enrolment in the Master of Education ED79 once the SRX form has been approved (via e-Student).

Domestic Course structure

The Master of Education is comprised of eight units (96 credit points); two (2) core units: EDN610 and EDN611, four (4) study area core units, and two (2) option units, selected from the list of ED79 Master's option units.

There are exceptions to this basic structure in Early Childhood Teaching; School Guidance and Counselling; TEFL, TESOL and Teacher-Librarianship.

Students can choose from a variety of study areas or choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units.

International Course structure

The Master of Education is comprised of eight units (96 credit points); two (2) core units: EDN610 and EDN611, four (4) study area core units, and two (2) option units, selected from the list of ED79 Master's option units.

There are exceptions to this basic structure in TEFL and TESOL.

Students can choose from a variety of study areas or choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units.

When choosing a study area, international students are restricted by the ESOS Act and their agreement with QUT. Study areas must be offered in full-time and internal mode, as international students are required to study four (4) units per semester.

International students can choose from the following study areas: Generic; Early Years; Leadership and Management; TESOL; or TEFL.

International students can only take a maximum of 25% (two (2) units) of their course externally.

Domestic Course structure

Course structure

The coursework component provides training in assessment, diagnosis and intervention in the area of educational and developmental issues across the lifespan with an emphasis on the school years.

Students undertake two internships that are linked with a client base from the Catholic education system and from the Psychology and Counselling Clinic at QUT's Kelvin Grove campus.

Following these internships, students undertake a further two external placements in other environments including schools, mental health and community settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychologists Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

International Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

Admission into the course is dependent on the availability of supervisors with expertise appropriate to the individual topic.

Course Structure

The course comprises four stages: preparation, confirmation of candidature, implementation and submission of a thesis of up to 40,000 words.

(i) Preparation stage: you undertake two research methodology units - Professional Applications of Research and Conducting Innovative Educational Research. Exemption may be granted for the methodology units if you can demonstrate that you have already completed equivalent studies or have relevant research experience. During this stage, you will determine the research methods to be used in your thesis and begin work on your literature review.

(ii) Confirmation of candidature stage: you present and justify your research proposal at a seminar attended by academic staff and your peers. Your confirmation document includes your research design and your draft literature review.

(iii) Implementation stage: you execute

your research proper, collecting your data and analysing the results.

(iv) Submission stage: in the final stage of your Master of Education (Research) journey, you finish writing your thesis and present it to a review panel for approval at a final oral seminar open to the public. Once aproved, your thesis is ready to be submitted for examination.

Overview

The Doctor of Philosophy (PhD) offers the opportunity to work with an experienced supervisory research team to make a significant and original contribution to disciplinary knowledge. A PhD candidate's research must reveal high critical ability and powers of imagination and synthesis and may be, depending on discipline, demonstrated in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge. This world-class program provides a basis for critical inquiry and welcomes collaborative and interdisciplinary research projects. A QUT PhD graduate will be equipped to seek employment in industry, research organisations and universities.

Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Location & duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the

project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Professional Practice Placements

You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Service Contexts

CHILD AND FAMILY SERVICES
Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES
The Community and Youth Corrections unit provides the legislative framework and structures, processes and principles of the youth and criminal justice system. It explores evidence based interventions and provides practice models and assessment frameworks. It provides theory and practice skills for working with Indigenous people and examines the role of practitioners in youth Justice Services and the Department of Corrective Services. The unit's primary orientation is to provide you with a structured opportunity to analyse and understand the operation of the Queensland community and youth corrections settings with offenders and those who are at risk of offending.

DISABILITY SERVICES
Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE
These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.

Professional Recognition

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers.

Working with Children Check

As required by the Commission for Children and Young People and Child

Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Professional Recognition

Graduates are eligible to apply for membership of the Australian Association of Social Workers (AASW).

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as students accept their offer into the course, they should submit their Blue Card application to the QUT Student Centre immediately. Students must hold a Blue Card to undertake placement units (HHB338 and HHB408)which may involve contact with children.

If students do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, they will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Course Structure

The Bachelor of Social Work can be undertaken as either a four year undergraduate program or as an advanced standing two year (5 semester) program following two years of approved undergraduate study. This pathway includes a summer teaching placement. Students may undertake the course in part-time mode. Students wishing to study part-time should contact the Course Coordinator for a progression plan.

Students will complete specialist units in child and family services, corrective services, disability services, or services to young people. Distinctive study pathways are also available. The child protection pathway will enable students to choose core and elective units which will best prepare them for practice in statutory child protection settings such as the Queensland Department of Child Safety. The international practice pathway will provide students with the knowledge and opportunity to undertake social work practice in other national contexts, and give them priority in undertaking a major placement in an overseas agency. The research pathway provides students with the knowledge and skills to undertake research designed to improve services and creates a solid foundation for postgraduate research programs.

The social work program involves two placements, each of 490 hours, where the student's skills are further developed in real world settings. Students are able to graduate with honours on the basis of achieving a GPA of a certain standard.

Advanced Standing Program

Advanced Standing allows approved applicants who have completed at least two years of a university degree or equivalent in a relevant area to complete the Social Work course with a further two calendar years (5 semesters) of full time study. Relevant areas of previous study are:

•Justice Studies
•Law
•Education
•Arts (Humanities)
•Social Sciences
•Psychology or Behavioural Sciences
•Community Welfare and Human Services programs from other universities
•Health including Nursing

As part of this prior study, it is expected students will have completed some units with a focus on social studies, behavioural studies, and interpersonal skills. The number of units in addition to the requirements of the standard 2 Year Advanced Standing Program that students can be required to undertake is limited to two (24 credit points).

Bachelor of Social Work

If the previous study includes no social studies students can be required to undertake one unit with a focus on
• understanding society,
• social disadvantage,
• human rights or
• social/legal processes.

If the previous study includes no behavioural studies students can be required to undertake HHB102 The Human Condition or similar. Further, students may be required to undertake HHB113 Interpersonal Communication if previous studies have not included a unit with a focus on interpersonal communication.

Students seeking Advanced Standing should apply for entry to the four year Bachelor of Social Work program and apply for advanced standing (credit) - up to 168 credit points - for previous study. Students who have completed or partly completed a human services degree from QUT should apply for entry to the four year program, and may receive up to 192 credit points. Advice on likely credit can be provided by the Bachelor of Social Work Course Coordinator. Note, that while these guidelines govern advanced standing arrangements, final outcomes will be decided once formal application has been made.

It should be noted that in undertaking the 2 Year Advanced Standing course structure students will undertake their first field placement in the **summer semester** of the first year following two semesters of preparatory units. Those who enter the program in mid-year will undertake their first field placement in the summer following their first semester. Students will need to be available through the summer (November to February) in order to complete the fieldwork component.

Overview

This course was replaced by HM44 Bachelor of Clinical Exercise Physiology from first semester 2010.

Professional Recognition

The course has provisional accreditation with Exercise and Sports Science Australia (ESSA) until 31 December 2011.

Electives

Electives are available in various areas including psychology of rehabilitation, anatomy, physiology, biomechanics, motor control and learning, children in sport, sociology of sport and exercise prescription. Students must choose at least 4 out of the 6 units listed in LIST A. The other elective options should be taken as advised by the Course Coordinator to comply with accreditation requirements.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $165).

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Also assumed knowledge: one of Chemistry, Physics, Biology Recommended study: Health Education or Physical Education We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Health Education or Physical Education.

International Entry requirements

International Subject prerequisites
- Maths B
- English

Also one of Chemistry, Physics, Biology
You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements
Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview
Exercise and movement science graduates work in the exercise, health, fitness and sports science industries. This degree is ideal if you want a career that promotes physical activity, exercise , health and wellbeing.

Study Areas
There are three study areas available in the course:

- Health and Wellness
- Sport Science and Performance Analysis
- Research in Exercise and Movement Science

The Health and Wellness Study Area is intended for students who seek to work in corporate, government or community positions employing their knowledge of exercise science to support health and wellbeing.

The Sport Science and Performance Analysis study area is for students with a strong interest in sport performance and the goal of sport-related employment, for example, fitness instructors, sportspersons, coaches and sporting officials.

The Research in Exercise and Movement Science study area provides a pathway for students who are considering Honours and/or Higher Research Degrees, or who are considering postgraduate courses in medicine, physiotherapy and other disciplines, and for whom more advanced study and some research experience is valuable.

Students may elect not to undertake a major. These students complete their course requirements by undertaking six elective units.

Course structure
Students complete 18 core units and six additional units from the following:

- five units from a Study Area OR
- four units from a University wide minor plus one Faculty of Health elective OR
- one Faculty of Health elective plus four electives from across the University. These could include units from the Study Areas in the course.

The Faculty of Health units are selected from undergraduate elective lists. At least three of these electives must at the intermediate or advanced stage, ie offered in year 2 or later.

Pathways
Graduates of HM43 Bachelor of Exercise and Movement Science can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Professional recognition
Accreditation with Exercise and Sports Science Australia (ESSA) has been sought for the course to give graduates professional recognition as Exercise Scientists.

Further information
For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au

Overview
The Bachelor of Clinical Exercise Physiology provides students with both foundation knowledge in the exercise and movement sciences and the skills to apply this knowledge to a range of disorders.

Accredited exercise physiologists enjoy dynamic careers working as specialists in rehabilitation, injury prevention,clinical diagnostics and exercise programming.

Pathways
Students wishing to pursue higher degree studies may apply for the Master of Applied Science (Research) and progress to doctoral studies.

Professional recognition
This new course has been assigned provisional accreditation by Exercise and Sports Science Australia (ESSA) for 2011. This will enable graduates to work as Accredited Exercise Physiologists in clinical settings. Full accreditation processing continues in 2011.

Overview

This course has been replaced by HM43 Bachelor of Exercise and Movement Science from first semester 2010.

Continuing students will complete their course requirements in HM45 Bachelor of Applied Science (Exercise and Sports Nutrition).

This three-year degree course combines the complementary areas of human movement studies and nutrition and provides you with a foundation for a career in the exercise, health, fitness and nutrition industries.

The degree also provides you with a range of practical experience, including 100 hours of work experience (practicum) in the third year. This is a valuable opportunity for you to gain hands-on experience in the industry. You can work in fitness centres, sports ssociations and other related organisations.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Professional Recognition

As a graduate, you will be immediately eligible for membership of the Australian Institute of Medical Scientists (AIMS) and will have completed the academic and work placement requirements for admission as a full member. Depending on your clinical discipline(s) of employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian and New Zealand Society of Blood Transfusion and Australian Society of Thrombosis and Haemostasis.

Other Course Requirements

Work Experience Program: This course includes a mandatory Summer Program between years two and three of the full-time course. During the Summer Program you will be required to undertake a minimum six-week work experience program in a practising pathology laboratory. Proof of successful vaccination against Hepatitis B must be provided at the end of first semester of the second year of the course.

Blue Card

A current blue card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more information visit Blue Card and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Continuing Students

Continuing students who are not undertaking a standard program of units as detailed below, or who need to complete units from the first year of the course structure, should consult the course coordinator for enrolment advice.

Further Information

For more information about this course, please call the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

Domestic Course structure

Your course

Year 1

The Bachelor of Applied Science (Medical Science) commences with a solid grounding in life sciences, mathematics, chemistry and physics. You will undertake further intensive study in human physiology, anatomy, cell and molecular biology. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in QUT's state-of-the-art laboratories.

Year 2

You will proceed to the topics of biochemistry, microbiology and pathology before sampling various specialisations like immunology, haematology and histopathology. During practical classes you will learn the latest techniques used in the pathology industry and improve your skills to professional standards. At the end of the year you will be ready to undertake a six-week placement in a pathology laboratory to further develop your skills under the guidance of professionals in the workplace.

Year 3

The final year builds on the key areas of biochemistry, microbiology, immunology, haematology, histopathology and introduces immunohaematology. You will develop your skills to an advanced level and further refine your laboratory techniques to ensure that, when you graduate, you will be ready to operate confidently in the workplace. You can take advantage of QUT's close links with the

pathology industry to further enhance your employment prospects.

Other Course Requirements

Work Experience Program

This course includes a mandatory Summer Program between years two and three of the full-time course. During the Summer Program you will be required to undertake a minimum six-week work experience program in a practising pathology laboratory. Overview

The Bachelor of Medical Laboratory Science degree is accredited by the Australian Institute of Medical Scientists. More than 90 per cent of graduates seeking employment within the pathology industry are successful within months of graduation. The course is designed in consultation with managers and academics in pathology and research laboratories, so you will gain advanced knowledge of the latest diagnostic techniques used in these settings.

Throughout the course you will undertake practical classes in QUT's state-of-the-art laboratories, so that when you graduate, you will have extensive experience with techniques, equipment and instruments used daily in industry and research. As part of your professional development, during your final year you will also undertake one semester of work integrated learning where you will interact directly with, and be mentored by, practising medical scientists or clinical researchers. You may also be able to complete part of your work placement in regional Australia or an international laboratory.

Course structure

In order to complete the Bachelor of Medical Laboratory Science you must complete 384 credit points which includes one elective unit.

Career outcomes

The aim of this course is to prepare you as an accredited medical laboratory scientist for employment in a medical/ diagnostic pathology laboratory or other healthcare supported related area.

As a medical laboratory scientist you will perform, interpret and report on analyses (or conduct research) in the areas of immunology, haematology, transfusion science, microbiology (bacteriology, mycology, virology and parasitology), histopathology, cytology, biochemistry and molecular biology. After graduation you may decide to specialise in areas such as cytological diagnosis, transplantation science, stem cell therapies, forensic testing, molecular diagnostics, cytogenetics, and health informatics, or proceed to a managerial position within a private laboratory or hospital.

Pathways

If you wish to undertake postgraduate studies in medicine, this course is an excellent pre-medical degree. As a graduate, you can pursue further studies leading to a career in medical research. Graduates are currently working as researchers in areas such as cancer diagnosis, malaria, virology, stem cells, infectious diseases, immunology, transfusion science, eye disease, reproductive medicine and molecular biology.

Professional recognition

Graduates of Bachelor of Medical Laboratory Science are immediately eligible for graduate membership with the Australian Institute of Medical Scientists and will have completed the academic and work placement requirements for admission as full members. Depending on your clinical discipline(s) of employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human

Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian and New Zealand Society of Blood Transfusion and Australian Society of Thrombosis and Haemostasis.

Other course requirements

Hepatitis B vaccination, QUT Medical Laboratory Science Uniform

The course includes a 12 week placement in a pathology labratory which students complete during semester 1, fourth (final) year of study.

Further information

For more information about this course, please call the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

Domestic Course structure

Your course

Year 1

The course commences by developing a sound knowledge and understanding of fundamental concepts that underpin medical laboratory science: cellular and molecular biosciences, anatomy, physiology mathematics, statistics, biophysics and chemistry. You will also be introduced to the local, national and global profession of medical laboratory science, and the Australian Healthcare System in the first of your professionally orientated units in the course.

Year 2

In your second year, you will explore more specialised concepts in pathology, biochemistry, microbiology, immunology, cytogenetic and molecular pathology, histopathological techniques, quantitative medical science, and quality assurance systems. In your practical classes, you will learn some of the latest techniques used in the clinical diagnostic pathology industry, giving you the opportunity to develop your skills to professional standards.

Year 3

The third year of the program allows you to further develop and refine your knowledge, understanding and practical skills to a more advanced level, and learn how they are applied in the clinical disciplines of molecular diagnostics, microbiology, chemical pathology, diagnostic endocrinology, histopathology, cytopathology, haematology and, transfusion and transplantation science.

Year 4

In your first semester, you will undertake a semester-long work integrated learning internship in a recognised laboratory. During that time you will also complete studies in health informatics and learn how this relates to day-to-day laboratory operations. In your final semester, you will complete an elective of your choice designed to complement your learning, e.g. pharmacology, marketing, management or research techniques. You will also prepare professional plans and identify graduate opportunities, as well as further your clinical discipline specific learning in the context of intercultural health and contemporary issues in medical science.

Bachelor of Nursing - Graduate Entry

Handbook

Year	2012
QUT code	NS40
CRICOS	003501K
Duration (full-time)	2 years
Rank	93
Campus	Kelvin Grove
Domestic fee (indicative)	2012: CSP $2,974 per Semester
International fee (indicative)	2012: $11,400 per Semester
Total credit points	192 of study + 96 credit of graduate credit
Credit points full-time sem.	48
Start months	February, July
Int. Start Months	February, July Closing date for February entry is 10 December each year (closing date for acceptance of offer is 24 December each year; closing date for July entry is 13 May each year(closing date for acceptance of offer is 24 May each year)
Course Coordinator	All course enquires to email: nursing@qut.edu.au or phone: 07 3138 3824
Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

Entry Requirements

Applicants must have completed a non-nursing bachelor degree (or equivalent) within the past 10 years. Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

Students who are admitted to the graduate entry program will automatically received one year of advanced standing which will entitle the student to complete the degree in two years (full-time).

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

International Entry requirements

Applicants must have completed a non-nursing bachelor degree (or equivalent) within the past 10 years. Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion.

Students who are admitted to the graduate entry program will automatically received one year of advanced standing which will entitle the student to complete the degree in two years (full-time).

Course requirements

Working with Children Check: blue card

You'll need to apply for a blue card because you'll be working with children or young people as part of this course. There's no cost if you apply through QUT.

Students wishing to accept their offer must submit their blue card application forms:

- no later than 24 December for Semester 1 (February entry)
- no later than 24 May for Semester 2 entry (July entry)

Please submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Campus

This course is only available at the Kelvin Grove Campus.

Professional Recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:
http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website
http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx
for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other Course Requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q Health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform including suitable footwear while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

International students

Please refer to the Nursing and Midwifery Board of Australia website
http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx
for information on the Board's English Language Skills Registration Standard.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Fixed Closing Date - International Students

IMPORTANT NOTE FOR INTERNATIONAL APPLICANTS:
The closing date for applications for July 2011 entry is 10 May 2011. The closing date for acceptance of offer is 24 May 2011.

Bachelor of Nursing - Graduate Entry

The closing date for applications for February 2012 entry is 10 December 2011. The closing date for acceptance of offer is 24 December 2011.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

NOTE: This course is being replaced by the dual award program, Bachelor of Vision Science (OP45) / Master of Optometry (OP85). No new admissions have been accepted into OP42 from 2009.

Optometrists examine people's eyes to protect and improve their vision and to detect and diagnose eye disease. As an optometrist, you will work with a range of complex instruments and techniques to test vision for defects such as short-sightedness, long-sightedness and astigmatism. Optometrists use their clinical judgement to treat patients in a variety of ways, including eye exercises, contact lenses, spectacles or advice on lighting and visual habits.

Professional Recognition

Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists' Board of Queensland for registration to practise as optometrists in Queensland and all states and territories of Australia.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs Ophthalmic instruments costing approximately $5000 are required for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

Further Information

For information about this course, please call the School of Optometry on +61 7 3138 4831 or email optometry@qut.edu.au

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Strict quotas apply for entry to this course. Further information is available from QUT International Student Business Services.

International Subject prerequisites

- Physics
- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Overview

This course is the first component of a five year dual degree program comprising a three year Bachelor of Vision Science, followed by a two year Master of Optometry (OP85). Both degrees need to be completed before a graduate can apply for registration as an optometrist.

The profession of Optometry is undergoing expansion in its scope of practice as a result of legislative amendments occurring (or pending) in all states and territories to allow appropriately trained optometrists to use therapeutic pharmaceutical agents in the practice of Optometry. This program increases graduates' depth of knowledge in the areas of general and ocular pharmacology, with training in the therapeutic management of eye disease.

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Optometry Board of Australia website http://www.optometryboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

Blue card As Required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards

Additional costs Ophthalmic instruments costing approximately $5000 are required for the clinical program from the beginning of second and third years of the course. Academic staff provide advice regarding

the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

QUT is currently the only university in Queensland to offer a medical imaging technology undergraduate qualification. This course leads to employment as a medical imaging technologist or diagnostic radiographer, a rewarding profession with excellent employment prospects. Radiographers play an important role in the health-care sector, providing vital information to assist with the diagnosis and treatment of medical disorders.

Career Outcomes

As a radiographer you will play a key role in patient care by providing referring medical practitioners with additional diagnostic information to assist in patient management and treatment. You may become a team member in a radiology department in a hospital, private radiology practice or health department, or you may be employed in medical equipment sales.

Professional Recognition

On graduation, you will be eligible for provisional accreditation by the Australian Institute of Radiography. Full accreditation requires the completion of an additional professional development year of clinical experience.

English Language Skills Applicable to health practitioners applying for registration)
All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other Course Requirements

You are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during the clinical placement, and may be exposed to blood and body fluids of patients. You must be vaccinated for Hepatitis B and must provide a postvaccination
pathological report or similar certification showing proof of immunity
prior to undertaking the first clinical placement.

Cardiopulmonary resuscitation (CPR) certification is also required to undertake clinical placements. In addition, you must satisfy criteria related to health status. You should declare height, physical disabilities, treatment of nervous condition, any drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

A current Blue Card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more
information visit
www.bluecard.qut.edu.au, and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Your Course

Year 1
You will develop a solid grounding in anatomy and medical physics along with introductory knowledge of patient health-care needs, professional communication techniques and ethical, legal and accountability issues. Introductory studies in medical radiation technology are complemented with practical sessions in QUT's medical imaging laboratories, allowing you to develop your skills in patient
positioning and image production for skeletal radiography.

Year 2
Building on your introductory units, you will progress to more advanced and specialised study of human anatomy including diseases of the organ systems, obstetrics, gynaecology, central nervous system, paediatrics and geriatrics. Specialised practical sessions in QUT's facilities will focus on regional anatomy of the head, neck, upper limb and lower limb. You will learn about the specialist techniques
of mammography, tomography, trauma radiography, and ward and operating theatre radiography. In each semester you will have an opportunity to practise your skills in a real workplace through

placements in clinical departments.

Year 3
You will continue to develop your skills through clinical placements in hospitals or private practices. At QUT, you will undertake theoretical and practical classes in advanced techniques such as angiography, and interventional techniques. In-depth knowledge of the uses and applications of X-ray computed tomography (CT) and magnetic resonance imaging (MRI) will be covered along with valuable techniques in digital image processing. You will round off your professional education by learning about the techniques used in professional practice including image formation evaluation and image interpretation.

Majors
There are two majors in the Bachelor of Applied Science - Medical Radiation Technology. Students choose either Radiotherapy Technology or Medical Imaging Technology

overall	6.5

Overview

QUT is currently the only university in Queensland to offer a radiotherapy technology undergraduate qualification. This course leads to employment as a radiation therapist, assisting cancer patients at the most difficult time in their lives.

Career Outcomes

As a radiation therapist in a radiotherapy department of a major hospital or private institution, you may become a member of a team treating cancer patients and be responsible for planning and delivering prescribed radiation doses.

Professional Recognition

On graduation, you will be eligible for provisional accreditation by the Australian Institute of Radiography (AIR). Full accreditation requires the completion of an additional professional development year of clinical experience.

English Language Skills (Applicable to health practitioners applying for registration)
All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other Majors

See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology).

Your Course

Year 1
You will develop a solid grounding in anatomy and medical physics along with introductory knowledge of patient health-care needs, professional communication techniques and ethical, legal and accountability issues. Introductory studies in medical radiation and radiotherapy techniques are complemented with practical sessions using equipment in clinical departments. You will learn a range of skills including patient data acquisition, radiation dosimetry and the basic techniques of treatment delivery including beam direction and beam defining devices.

Year 2
You will progress to further studies in anatomy and pathology as well as the planning of complex techniques like photon therapy, electron therapy, and megavoltage therapy, including techniques for specific sites. The use of computer software to assist with the optimisation of isodose distributions will be covered along with issues related to the interaction of radiation with tissue, dose measurement and related quality assurance procedures. You will undertake practical exercises in hospital clinical departments along with your first clinical placement period, allowing you to gain real experience in a working environment.

Year 3
You will continue to develop your skills through clinical placements in hospitals and practical classes using equipment in clinical settings. You will cover the techniques of medical imaging used in the detection of cancer, along with future directions of three dimensional treatment planning. You will progress to more complex and specialised techniques for child patients and patients with communicable disease, along with the latest developments and techniques complementary to the modern radiotherapy treatment of cancer. You will learn important information about the biological effects of ionising radiation and the philosophy and protocol in radiation protection and quality assurance.

Professional Recognition

Health Information Management

Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia (HIMAA), the Clinical Coders Society of Australia (CCSA), and the Australian College of Health Service Executives (ACHSE).

Health Services Management

Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives (ACHSE).

Public Health

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Honours

Students who obtain high results throughout the course can study an additional one-year honours degree. Honours consists of a research component, which increases career opportunities and opens the way to further studies at PhD level.

Course design

The **Health Information Management** program has set units to be completed, that is, there are no opportunities to complete electives.

The **Health Services Management** program consists of a major in health services management, plus:
- a major in public health **or**
- two minors **or**
- one minor and four electives.

Minor/electives are available in the areas of:
- accounting and finance
- public health
- human resource management
- indigenous health
- international business
- management
- marketing
- gender issues
- science*
- general electives

The **Public Health** program consists of a major in public health plus the opportunity to select from one of the following minors/electives in the areas of:
- community nutrition
- indigenous health
- gender issues
- science*
- general studies in psychology
- counselling
- general electives

* Completion of the science minor is a prerequisite for entry into postgraduate courses, e.g. Graduate Diploma in Environmental Health.

Further Information

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

How to apply for a blue card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Bachelor of Health Science (Nutrition and Dietetics)

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Professional Recognition

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Electives

Elective studies are available in health promotion, counselling, clinical science, exercise science, research methods and projects.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements

additional costs Students who are required to undertake placements off campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination and Blue Card clearance are required before placement in Queensland Health and Education facilities.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Course structure

Year 1
You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2
Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to epidemiology and evidence based practice.

Year 3
You will now apply and contextualise knowledge and skills gained in the first 2 years, in units focussed on potential future areas of dietetic practice, such as medical nutrition therapy, food service management and public health nutrition. Combined with health promotion, nutrition education principles and quantitative analysis for health, these units further develop important skills in researching, critical analysis and practical application. This practice will be consolidated in advanced food studies and introduction to dietetic practice.

Year 4
This year predominantly involves practice based placements which allow you to work with and assist qualified practitioners in real world settings. You will demonstrate competency by managing individual cases in hospitals and undertaking food service management and community nutrition projects in varied settings such as hospitals, community health centres, schools or business organisations throughout Queensland. Advanced dietetic management and research skills will also be applied in final year projects.

Further Information

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Equipment

Students are required to purchase equipment.

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Suitable dress standards including a clinic shirt are required. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council.

Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Podiatry Board of Australia website http://www.podiatryboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Domestic Entry requirements

Applicants must have successfully completed a degree in medical science or a health science-related field, such as Human Movement Studies, Nursing or Biomedical Science, in the past 10 years.

Applicants with degrees or equivalent completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

Additional course requirements
Students are required to attend a compulsory program of study as part of the requirements of the foundation unit PUB442 Podiatric Medicine and Clinical Practice in the week 16 – 20 July that will involve on-campus attendance for the full 5 days. This program will prepare students for the more advanced podiatry units in the third and fourth year of the course.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. Overview

This program gives graduates of medical science or health science- related degrees, such as Human Movement Studies, Nursing, Biomedical Science, the opportunity for a career change into a professionally accredited program that offers good employment opportunities.

NOTE:
Students are required to attend a compulsory program of study as part of the requirements of the foundation unit PUB442 Podiatric Medicine and Clinical Practice in the week 16 – 20 July that will involve on-campus attendance for the full

5 days. This program will prepare students for the more advanced podiatry units in the third and fourth year of the course.

Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements. This should be done early in the program.

Why choose this course?

If you possess good communication skills and a people-oriented personality and would like to help people with foot and lower limb disorders including sport-related conditions and those in special needs groups, then you may enjoy a career in podiatry.

QUT offers the only course in podiatry in Queensland. It features an on-campus clinic where students treat patients under the supervision of experienced clinical lecturers.

Podiatry staff have excellent, established health and medical industry links and the course has a strong reputation recognised throughout Australia and overseas.

This course will prepare you with an understanding of human anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine and surgery. You will also learn how to integrate aspects of podiatric surgery, physical therapy, rehabilitation and counselling into the patient interaction.

Career Options

Employment opportunities for podiatry graduates are excellent. In recent years the number of positions available exceeded the number of graduates.

Podiatry graduates work in a broad range of health care setting including private practice, hospitals or community health centres.

Advanced standing

Students are awarded 1.5 years advanced standing which recognises their health/science related background. This leaves 2.5 years of study to complete the Bachelor of Health Science (Podiatry).

Because of the specialised nature of the program advanced standing will be limited to 144 credit points of study on entry.

Additional course requirements

Students are required to attend a compulsory program of study as part of the requirements of the foundation unit PUB442 Podiatric Medicine and Clinical Practice in the week 16 – 20 July that will involve on-campus attendance for the full 5 days. This program will prepare students for the more advanced podiatry units in the third and fourth year of the course.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs There are additional costs associated with this course including a practicum shirt and podiatry equipment ($1000). Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements.

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Podiatry Board of Australia website http://www.podiatryboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

A uniform is required for Paramedic placements. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Vaccination

The Queensland Ambulance Service strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella and Poliomyelitis.

Students will need to cover this cost.

Criminal History Check

You are required to provide evidence of a Criminal History Check (National/Federal) prior to participating in clinical placement. Failing to do so may result in you not being able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Criminal History Checks are obtained through your nearest police station, at your own cost.

Health related fitness assessment

A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a paramedic.

Students will need to cover the cost of the assessment.

Psychometric assessment

This is a prerequisite for PUB670 - Internship (Paramedic Clinical Practice)

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

Discipline Coordinator	07 3138 3368 paramedic@qut.edu.au

Domestic Entry requirements

Prior study entry requirements

Completion of a degree in a health field in the last 10 years.

Applicants with a degree completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion.

If offered a place you will be awarded the equivalent of one year of credit for prior learning (advanced standing) and complete the course in two years full-time study.

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

A uniform is required for Paramedic placements. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Vaccination

The Queensland Ambulance Service strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella and Poliomyelitis.

Students will need to cover this cost.

Criminal History Check

You are required to provide evidence of a Criminal History Check (National/Federal) prior to participating in clinical placement. Failing to do so may result in you not being able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Criminal History Checks are obtained through your nearest police station, at your own cost.

Health related fitness assessment

A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a paramedic.

Students will need to cover the cost of the assessment.

Psychometric assessment

This is a prerequisite for PUB670 - Internship (Paramedic Clinical Practice)

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Costs for course requirements

Orientation program

A one-week Orientation Program, Transition to Paramedic Studies, is conducted on campus in the week preceding the first week of semester (Orientation Week). No credit points are awarded for completing the program and there are no costs to students.

The aim of this program is to familiarise students with the significant clinical aspects of the units PUB180 and PUB280 (Foundations of Paramedic Practice 1 and 2) which students completing the full three year program complete but graduate entry students do not.

This transition program is important for students' understanding of PUB390 and PUB391 (Paramedic Management of Medical and Surgical Emergencies A and B) in the first semester of their programs and is integral to understanding of the clinical component of paramedic practice.

Other course requirements

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

d) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps,

Rubella, and Poliomyelitis.

e) Psychometric assessment (prerequisite for PUB670) - This applies only to continuing students who are completing PUB670.

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately $1,200).

Professional recognition

Graduates from this course will be eligible for membership of Paramedics Australasia.

International student entry

This course is not available for international student entry.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or paramedic@qut.edu.au

Domestic Entry requirements

Alternative pathway

If you have already completed a bachelor degree in any discipline, the Graduate Diploma in Psychology offers an alternative pathway to becoming a registered psychologist.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

International Entry requirements

Alternative pathway

If you have already completed a bachelor degree in any discipline, the Graduate Diploma in Psychology offers an alternative pathway to becoming a registered psychologist.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Professional Recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC).

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Career Outcomes

This course provides a solid foundation for the areas tested in GAMSAT. Many opportunities are also available for postgraduate study in health and science, including honours and postgraduate qualifications leading to careers in medical research. The Bachelor of Biomedical Science is also designed for students seeking a science-based qualification that will lead to employment opportunities in medical biotechnology, medical microbiology and clinical biochemistry fields.

Professional Recognition

Depending on the units selected in the final year of the course, graduates will be eligible for membership into one or more of the following organisations: Australian Association of Clinical Biochemists (AACB), AusBiotech Ltd, Australian Society for Microbiology (ASM).

Further Information

For more information about this course, please call the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

Domestic Course structure

Your Course

Year 1

You will undertake units covering chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in state-of-the-art laboratories. You will also gain an introduction to the essential communication skills required for a career in the health and medical professions.

Year 2

More advanced studies in cell biology combine with units in physiology, biochemistry, microbiology and human rights and ethics. If you wish to proceed to postgraduate medicine studies, you will have the opportunity to attend information sessions on the GAMSAT exam.

Year 3

You will have some flexibility in subject choices to allow you to tailor the qualification to suit your desired career outcomes. You may choose to take units in medical biotechnology, clinical biochemistry, or microbiology (including parasitology) and there are also opportunities to complement your scientific studies with topics such as anatomical imaging, psychology, exercise physiology, indigenous issues or ethical issues related to gene technology.

Course Design

The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

The Bachelor of Biomedical Science provides the necessary knowledge and skills to enter a career in biomedical research, with integration of research

design and implementation, scientific writing and communication and practical laboratory skills embedded through each year of the course.

Furthermore students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Biological Science.

Bachelor of Pharmacy

IELTS (International English Language Testing System)	
speaking	7.0
writing	7.0
reading	7.0
listening	7.0
overall	7.0

Overview

QUT's Bachelor of Pharmacy has been designed in close consultation with the pharmacy profession to capture the latest practices and emerging trends in community and hospital pharmacy. Pharmacists play an important role in the health-care sector by dispensing medications and counselling patients on their appropriate use.

Why Choose This Course

This course is continually updated in close consultation with senior representatives of the pharmacy profession. The inclusion of essential pharmacy and business management skills will help you to operate effectively in your chosen setting. QUT's small class sizes and comprehensive modern facilities ensure a high-quality educational experience.

Professional Recognition

Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland.

Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia, the Pharmacy Guild and the Society of Hospital Pharmacists of Australia.

English Language Skills (Applicable to health practitioners applying for registration)
All applicants must be able to demonstrate English language skills at IELTS academic level 7.5 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other Course Requirements

You must be vaccinated for Hepatitis B and provide a post-vaccination pathological report or similar certification showing proof of immunity prior to undertaking your first clinical placement.

Blue card
A current blue card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more information visit Blue Card, and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Your Course

Year 1
You will undertake theoretical and practical studies covering chemistry, maths, anatomy and biology. You will begin practising your communication skills in QUT's pharmacy counselling room, which operates like a real pharmacy counter. You will gain an understanding of the operations of a community pharmacy, including prescription processing, product labelling, and the therapeutic use of over-the-counter (OTC) medications. You will also gain an introduction to retailing skills.

Year 2
You will undertake your first clinical placement in a real community pharmacy environment. At QUT you will expand your counselling skills and increase your knowledge regarding a range of OTC and prescription medications used to treat cardiovascular and gastrointestinal tract disorders. You will learn how to perform pharmaceutical calculations, prepare basic pharmaceutical products and gain a deeper understanding of how drugs interact with the human body, producing their therapeutic and sometimes adverse effects.

Year 3
You will proceed to topics which provide vital information to health professionals regarding the optimal choice of drug therapy for individual patients. There is an emphasis on drugs used to treat central nervous system disorders, in addition to drugs prescribed for cancer and infectious diseases. You will learn how to prepare more complex product formulations and spend three hours per week in a community or hospital pharmacy followed by a one-week full-time clinical placement in each semester.

Year 4
You will study further specialised topics including pharmacotherapeutics, epidemiology and pharmacoeconomics. There is an emphasis on the integration and application of your studies into current pharmacy practice. A range of guest lecturers will also present material regarding social issues and current practices in women's and Indigenous health.

Student registration

QUT automatically registers students in this course with the Pharmacy Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Year 4
You will study further specialised topics including pharmacotherapeutics, epidemiology and pharmacoeconomics. There is an emphasis on the integration and application of your studies into current pharmacy practice. A range of guest lecturers will also present material regarding social issues and current practices in women's and Indigenous health.

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

overall	7.0

Overview

This course leads to employment as a medical imaging technologist or diagnostic radiographer, a rewarding profession. Radiographers play an important role in the healthcare sector, providing vital information to assist with the diagnosis and treatment of medical disorders.

Why choose this course?

This course is designed in consultation with clinical staff from radiology departments, so you will gain advanced knowledge of new diagnostic techniques and equipment used in the workplace. QUT's well-equipped X-ray laboratories allow you to graduate with experience using equipment and techniques used in industry. Clinical placements in hospitals and private practices provide an opportunity to use your skills in a real workplace.

Career Outcomes

As a radiographer you will play a key role in patient care by providing referring medical practitioners with additional diagnostic information to assist in patient management and treatment. You may become a team member in a radiology department in a hospital, private radiology practice or health department, or you may be employed in medical equipment sales.

Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

English Language Skills (Applicable to health practitioners applying for registration)
All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other Course Requirements

You are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during the clinical placement, and may be exposed to blood and body fluids of patients. You must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity prior to undertaking the first clinical placement.

Cardiopulmonary resuscitation (CPR) certification is also required to undertake clinical placements. In addition, you must satisfy criteria related to health status. You should declare height, physical disabilities, treatment of nervous condition, any drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

A current Blue Card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more information visit Blue Card, and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Your Course

Year 1
You will develop a solid grounding in anatomy and medical physics along with introductory knowledge of patient healthcare needs, professional communication techniques and ethical, legal and accountability issues. Introductory studies in medical radiation technology are complemented with practical sessions in QUT's medical imaging laboratories, allowing you to develop your skills in patient positioning and image production for skeletal radiography.

Year 2
Building on your introductory units, you will progress to more advanced and specialised study of human anatomy including diseases of the organ systems, obstetrics, gynaecology, central nervous system, paediatrics and geriatrics. Specialised practical sessions in QUT's facilities will focus on regional anatomy of the head, neck, upper limb and lower limb. You will learn about the specialist techniques of mammography, tomography, trauma radiography, and ward and operating theatre radiography. In each semester you will have an opportunity to practise your skills in a real workplace through placements in clinical departments.

Year 3
You will continue to develop your skills through clinical placements in hospitals or private practices. At QUT, you will undertake theoretical and practical classes in advanced techniques such as angiography, and interventional techniques. In-depth knowledge of the uses and applications of X-ray computed tomography (CT) and magnetic resonance imaging (MRI) will be covered along with valuable techniques in digital image processing. You will round off your professional education by learning about the techniques used in professional practice including image formation evaluation and image interpretation.

Overview

QUT is currently the only university in Queensland to offer a radiation therapy undergraduate qualification. This course leads to employment as a radiation therapist, assisting cancer patients at the most difficult time in their lives.

Why choose this course

QUT works closely with the health sector in an effort to ensure that the number of graduates is in line with demand. In recent years, more than 95 per cent of graduates gained full-time employment within four months of graduation.

This course is designed in consultation with clinical staff from radiation oncology departments, so you will gain advanced knowledge of new treatment techniques

and equipment used in the workplace. QUT's well equipped laboratories allow you to graduate with experience using treatment planning equipment and techniques similar to those used in industry. Close links with local oncology departments allow you to complete practical work and clinical placements using specialised, state-of-the-art radiotherapy equipment.

Career Outcomes

As a radiation therapist in a radiotherapy department of a major hospital or private institution, you may become a member of a team treating cancer patients and be responsible for planning and delivering prescribed radiation doses.

Professional Recognition

Provisional accreditation by the Australian Institute of Radiography is being sought. Full accreditation requires the completion of an additional professional development year of clinical experience.

English Language Skills (Applicable to health practitioners applying for registration)
All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

International Student Entry

International students may be offered a place in Radiation Therapy on condition they have met the Clinical Placement requirement. Please refer to Course Coordinator for further information.

Other course requirements

You will be required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during your placement and may be exposed to blood and body fluids of patients. You must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking the first clinical placement.

Cardiopulmonary resuscitation (CPR) certification is also required to undertake clinical placements. In addition, you should satisfy criteria related to health status, including declaration of height, physical disabilities, treatment of nervous condition, any drug/alcohol disorder and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

Blue Card: A current blue card authorised with QUT may be required prior to commencing the clinical placement components of this course. For more information visit Blue Card, and ensure that you allow adequate time for processing your application and issuing of the card in order to avoid clinical experience delays.

Your course

Year 1
You will develop a solid grounding in anatomy and medical physics along with introductory knowledge of patient health-care needs, professional communication techniques and ethical, legal and accountability issues. Introductory studies in medical radiation and radiotherapy techniques are complemented with practical sessions using equipment in clinical departments. You will learn a range of skills including patient data acquisition, radiation dosimetry and the basic techniques of treatment delivery including beam direction and beam defining devices.

Year 2
You will progress to further studies in anatomy and pathology as well as the planning of complex techniques like photon therapy, electron therapy, and megavoltage therapy, including techniques for specific sites. The use of computer software to assist with the optimisation of isodose distributions will be covered along with issues related to the interaction of radiation with tissue, dose measurement and related quality assurance procedures. You will undertake practical exercises in hospital clinical departments along with your first clinical placement period, allowing you to gain real experience in a working environment.

Year 3
You will continue to develop your skills through clinical placements in hospitals and practical classes using equipment in clinical settings. You will cover the techniques of medical imaging used in the detection of cancer, along with future directions of three dimensional treatment planning. You will progress to more complex and specialised techniques for child patients and patients with communicable disease, along with the latest developments and techniques complementary to the modern radiotherapy treatment of cancer. You will learn important information about the biological effects of ionising radiation and the philosophy and protocol in radiation protection and quality assurance.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Course Outline

This course has been recoded SW03 from HH02 for commencing students. Continuing students will continue to enrol in HH02 in 2010 and subsequent years.

The Bachelor of Human Services has a strong focus on contemporary social issues and produces competent human services workers who will care for and protect the rights of people, families and communities. You will complete 24 units

of study.

You will specialise in at least one service area:
- child and family services
- corrective services
- disability services
- services to young people

You will develop a range of professional skills such as:
- casework and case management
- social policy processes
- team practice and group processes
- community work
- advanced communication
- social research methods
- Indigenous Australia
- child protection intervention
- human dimensions of space

Professional Practice Placements

You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

NOTE: Students considering undertaking a placement in a Queensland Health facility should note that a Hepatitis B vaccination is mandatory before commencement of the placement.

Service Contexts

CHILD AND FAMILY SERVICES
Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES
The Community and Youth Corrections unit provides the legislative framework and structures, processes and principles of the youth and criminal justice system. It explores evidence based interventions and provides practice models and assessment frameworks. It provides theory and practice skills for working with Indigenous people and examines the role of practitioners in youth Justice Services and the Department of Corrective Services. The unit's primary orientation is to provide you with a structured opportunity to analyse and understand the operation of the Queensland community and youth corrections settings with offenders and those who are at risk of offending.

DISABILITY SERVICES
Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE
These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.

Professional Recognition

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers.

Other course requirements

Blue Card
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Hepatitis vaccination
Students considering undertaking a placement in a Queensland Health facility should note that a Hepatitis B vaccination is mandatory before commencement of the placement.

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Overview

This course has been recoded SW04 from HH05 for for commencing students in 2010 and subsequent years. Continuing students will continue to enrol in HH05 in 2010 and subsequent years.

The Social Work course is modern in design, flexible in delivery and grounded in the real world of practice. It aims to develop effective and ethical social work professionals who are skilled and

practical. The teaching staff have extensive experience as social workers, counsellors, political activists and welfare lobbyists. They are passionate about changing systems and structures that result in human suffering and injustice. The course draws on the strong relationships that have been established with government and community agencies at the State, National and International levels. There is a significant emphasis on promoting an inclusive society based on principles of social justice and human rights and respect for the wellbeing and dignity of all people.

Other course requirements

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

As soon as students accept their offer into the course, they should submit their Blue Card application to the QUT Student Centre immediately. Students must hold a Blue Card to undertake placement units (SWB309 and SWB408) which may involve contact with children.

If students do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, they will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Hepatitis B vaccination

Hepatitis B vaccination is mandatory before beginning placements.

Professional Recognition

Graduates are eligible to apply for membership of the Australian Association of Social Workers (AASW).

Course Structure

The Bachelor of Social Work can be undertaken as either a four year undergraduate program or as an advanced standing two year (5 semester) program following two years of approved undergraduate study. This pathway includes a summer teaching placement.

Students may undertake the course in part-time mode. Students wishing to study part-time should contact the Course Coordinator for a progression plan.

Students will complete specialist units in child and family services, corrective services, disability services, or services to young people. Distinctive study pathways are also available. The child protection pathway will enable students to choose core and elective units which will best prepare them for practice in statutory child protection settings such as the Queensland Department of Child Safety. The international practice pathway will provide students with the knowledge and opportunity to undertake social work practice in other national contexts, and give them priority in undertaking a major placement in an overseas agency. The research pathway provides students with the knowledge and skills to undertake research designed to improve services and creates a solid foundation for postgraduate research programs.

The social work program involves two placements, each of 490 hours, where the student's skills are further developed in real world settings. Students are able to graduate with honours on the basis of achieving a GPA of a certain standard.

Advanced Standing Program

Advanced Standing allows approved applicants who have completed at least two years of a university degree in a relevant area to complete the Social Work course with a further two calendar years (5 semesters) of full time study. Relevant areas of previous study are:

•Justice Studies
•Law
•Education
•Arts (Humanities)
•Social Sciences
•Psychology or Behavioural Sciences
•Community Welfare and Human Services programs from other universities
•Health including Nursing

As part of this prior study, it is expected students will have completed some units with a focus on social studies, behavioural studies, and interpersonal skills. The number of units in addition to the requirements of the standard 2 Year Advanced Standing Program that students can be required to undertake is limited to two (24 credit points).

If the previous study includes no social studies students can be required to undertake one unit with a focus on
• understanding society,
• social disadvantage,
• human rights or
• social/legal processes.

If the previous study includes no behavioural studies, students can be required to undertake SWB102 Human Development and Behaviour or similar. Further, students may be required to undertake PYB007 Interpersonal Processes and Skills if previous studies have not included a unit with a focus on interpersonal communication.

Students seeking Advanced Standing should apply for entry to the four year Bachelor of Social Work program and apply for advanced standing (credit) - up to 168 credit points - for previous study. Students who have completed or partly completed a human services degree from QUT should apply for entry to the four year program, and may receive up to 192 credit points. Advice on likely credit can be provided by the Bachelor of Social Work Course Coordinator. Note, that while these guidelines govern advanced standing arrangements, final outcomes will be decided once formal application has been made.

It should be noted that in undertaking the 2 Year Advanced Standing course structure students will undertake their first field placement in the **summer semester** of the first year following two semesters of preparatory units. Those who enter the program in mid-year will undertake their first field placement in the summer following their first semester. Students will need to be available through the summer (November to February) in order to complete the fieldwork component.

Further information

For further information call the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course discontinued

No new admissions are being accepted into this course.

Course Structure

This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements

As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Professional Membership (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

Eligibility for Graduation

Four (4)* units only. (* with a maximum of three (3) Grades of “3” in either the Arts or the Human Services component)

Bachelor of Behavioural Science (Psychology)/Bachelor of Social Work

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

International Subject prerequisites
- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements
Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Pathways
Graduates can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Professional recognition
Graduates are eligible for membership of the Dietitians Association of Australia (DAA), and may enrol in the Accredited Practising Dietitian (APD) program.

overall	7.0

Professional recognition
The program meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).
The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Student registration
QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Additional requirements
It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q Health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform including suitable footwear while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Pathways
Graduates can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they wish to achieve full Exercise Physiologist status.

Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. For this degree this currently involves completing a fifth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Pathways

On completion of the course graduates may apply for admission to a further year of study in either the Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology.

Further information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR the School of Psychology and Counselling - email psychology@qut.edu.au or phone +61 7 3138 4520

Overview

This course was replaced by HL23 Bachelor of Nursing/ Bachelor of Exercise and Movement Science from first semester 2010.

Continuing students will complete their course requirements in HL40 Bachelor of Nursing/ Bachelor of Applied Science (in Human Movement Studies).

This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in nursing and is able to apply your knowledge and skills to clinical health, fitness and rehabilitation.

Professional Recognition

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au

Other Course Requirements

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. You will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units and you are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1. Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

The human movement studies component requires the purchase of the practicum shirt (approximately $50).

Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

blue card Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Overview

This course was replaced by HL22 Bachelor of Exercise and Movement Science/ Bachelor of Health Science (Nutrition and Dietetics) from first semester 2010.

Continuing students will complete their course requirements in HL42 Bachelor of Applied Science (Human Movement Studies)/Bachelor of Health Science (Nutrition and Dietetics).

This double degree program will prepare you as a multi-skilled professional who meets current requirements for employment as a nutritionist/dietitian, and in a range of exercise and sports science professions. At present, the demand for sports nutritionists is growing rapidly and there is a growing field in the area of rehabilitation science for people with dual qualifications.

Professional recognition

Graduates are eligible for membership of the Dietitians Association of Australia (DAA), and may enrol in the Accredited Practising Dietitian (APD) program.

Honours

A degree with honours may be awarded to a student who has recorded outstanding achievement in a component of the double degree program.

Other Course Requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), attainment of a current first aid certificate prior to the commencement of your third year, and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students who are required to undertake placements off-campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination is required before placement in Queensland Health facilities.

Further Information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 OR email exercise@qut.edu.au or email nutrition@qut.edu.au

Overview

This course was replaced by HL24 Bachelor of Exercise and Movement Science/ Bachelor of Behavioural Science (Psychology) from first semester 2010.

Continuing students will complete their course requirements in HL45 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Behavioural Science (Psychology).

This course develops skills and knowledge in exercise and sports science and psychology to understand the exercise response when working in the areas of health, rehabilitation and sport. On completion of this double degree, students have the option to apply for an additional year of study in psychology, in order to gain provisional registration as a psychologist.

Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology you must be registered with your state registration board. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Entry requirements

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Professional Recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Accreditation Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Graduates are also eligible for membership of the Public Health Association of Australia and the Australian Association of Health Promotion Professionals (AAHPP).

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other Course Requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q Health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

additional costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform including suitable footwear while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

International students

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for information on the Board's English Language Skills Registration Standard.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

International Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Please refer to the Psychology Board of Australia website http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Further information

For further information about this double degree, please call the School of Nursing +617 3138 3824 or email nursing@qut.edu.au OR the School of Psychology and Counselling on +617 3138 4520 or email psychology@qut.edu.au

Overview

This course was replaced by HL21 Bachelor of Exercise and Movement Science/ Bachelor of Health Science (Public Health) from first semester 2010.

Continuing students will complete their course requirements in HL48 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Health Science (Public Health).

This double degree program will prepare you as a multi-skilled professional who will have an understanding of exercise and sports science and public health. Graduates may work in the area of physical activity to develop policy and programs to improve the health of the public and to help prevent and manage chronic disease.

The human movement studies component develops skills for careers in health and wellness, clinical health, fitness and rehabilitation, workplace health, fitness and safety. Teaching clinics give students practical experience in various areas such as activity and weight management, health and fitness, and exercise prescription.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population¿s health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Professional Recognition

Public Health Association of Australia (PHAA), and the Australian Health Promotion Association (AHPA).

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

A uniform is required for Paramedic placements. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Vaccination

The Queensland Ambulance Service strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella and Poliomyelitis.

Students will need to cover this cost.

Criminal History Check

You are required to provide evidence of a Criminal History Check (National/Federal) prior to participating in clinical placement. Failing to do so may result in you not being able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Criminal History Checks are obtained through your nearest police station, at your own cost.

Health related fitness assessment

A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a paramedic.

Students will need to cover the cost of the assessment.

Psychometric assessment

This is a prerequisite for PUB670 - Internship (Paramedic Clinical Practice)

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Royal College of Nursing, Australia (RCNA).

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Graduates are eligible to apply to Paramedics Australasia for admission as a professional member.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

blue card: As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

The nursing clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform including suitable footwear while on clinical practice. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information

outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

d) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

Additional costs

For the nursing component: $550 Uniform, footwear, first aid course, hepatitis B vaccination.

For the Paramedic component: $1,200 Uniform, health and fitness assessments, criminal record check, immunisations, psychometric assessment, equipment.

Further information

For detailed information about this double degree, please call the School of Nursing +61 7 3138 3824 or email nursing@qut.edu.au or the School of Clinical Sciences on +61 7 3138 3368 or paramedic@qut.edu.au

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	10.0
writing	10.0
reading	10.0
listening	10.0
overall	6.5

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Overview

This course has been replaced by IX18 Bachelor of Exercise and Movement

Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)

Science/ Bachelor of Education (Secondary) from first semester 2010.

Continuing students will complete their course requirements in IX04 Bachelor of Applied Science (Human Movement Studies)/Bachelor of Education (Secondary).

This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas.

Professional Recognition

Graduates are eligible for registration as a teacher in Queensland.

Other Course Requirements

Bluecard

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Additional costs

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Computing requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Further Information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR contact the Faculty of Education on +61 7 3138 3947 or e-mail: educationenq@qut.edu.au

Domestic Course structure

Your course

This course gives you a science degree with the same support as the Bachelor of Applied Science program. A range of majors are available allowing you to specialise. Education units provide knowledge of teaching and learning theory and practice.

International Course structure

Your course

This course gives you a science degree with the same support as the Bachelor of Applied Science program. A range of majors are available allowing you to specialise. Education units provide knowledge of teaching and learning theory and practice.

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Also assumed knowledge: one of Chemistry, Physics or Biology Recommended study: Health Education or Physical Education We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors requires 4 SA in Maths A, B or C.

International Entry requirements

Overview
The four year Bachelor of Exercise and Movement Science/ Bachelor of Business combines the major elements of the single degrees in business and in exercise and movement science. It provides students with general business theory and skills and with both foundation knowledge in the exercise and movement sciences and their applications to health and wellness, or sport science and performance assessment.

Course Design
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Exercise and Movement Science program and 192 credit points from the Bachelor of Business program.

Business: Students must complete the 96 credit points Business School Core Units in the Business program together with a 96 credit point Major.

Professional recognition
Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Pathways
Graduates can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Important Information for Business Students
QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Human Services) comprises 192 credit points.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

The Human Services component is made

up of 144 credit points of Faculty core units and 48 credit points of units from selected Human Services units.

Professional Recognition (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers.

Other course requirements

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), studens must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. Application form

Hepatitis vaccination

Students considering undertaking a placement in a Queensland Health facility should note that a Hepatitis B vaccination is mandatory before commencement of the placement.

Overview

This course has been replaced by IX17 Bachelor of Exercise and Movement Science/ Bachelor of Business from first semester 2010, therefore, there will be no further intake for this course.

Continuing students will complete their course requirements in IX47 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Business.

This double degree combines training for careers in a range of exercise and sports science settings with the strength of general business theory and skills.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 408 credit points comprised of 216 credit points from the Bachelor of Applied Science (in Human Movement Studies) program and 192 credit points from the Bachelor of Business program.

Business component:
8 QUT Business School Core units (96 credit points)
8 Major Core units (all Business majors including Accountancy, Advertising, Banking & Finance (continuing students only), Economics, Finance, Human Resource Management, International Business, Management, Marketing and Public Relations) (96 credit points)

Please note that students must complete the special course requirements for (BS56/BS05) Bachelor of Business and (HM42) Bachelor of Applied Science degrees.

Other Course Requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to commencement of year three and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the QUT Business School Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.
Students who require enrolment advice about the Business component of their course should contact the QUT Business School phone 3138 2050 or email bus@qut.edu.au

Further Information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR the QUT Business School 61 7 3138 2050 or email bus@qut.edu.au

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology, in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point. Students choosing the Management or Marketing majors may undertake units at the Caboolture campus.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on BS63 for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on

the Student Services website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

Domestic Entry requirements

Course requirements

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 192 credit points of specialist units in media and communication.

The Nutrition component is made up of 192 credit points of specified Health Science units.

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

A double degree in justice and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to the field of justice.

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas. The course provides a broad foundation in the science of psychology and its application, developing your ability to understand and apply psychological principles to personal, social, and organisational issues, as well as high-level communication and social research skills that are valuable in a wide range of professions.

In addition to core studies in social, developmental, biological, cognitive, and abnormal psychology, research methods and psychological assessment, you can choose electives from specialist areas in alcohol and drugs, family therapy and counselling, psychology and gender, and traffic psychology. Final-year students have the opportunity to apply their knowledge and skills in a volunteer community placement.

The Bachelor of Justice equips graduates for a wide variety of employment in the criminal justice, government (state and federal), law enforcement and policing and intelligence fields. Past graduates have developed successful careers in the State or Federal police services, created social and justice policies for governments, contributed to the work of advocacy centres (eg. women, youth and children's advocacy), become criminologists, and advanced into Defence, Customs and the Australian Crime Commission.

Other popular career choices include corrections and human rights and anti-discrimination areas. Students are prepared for the workplace, not only by exploring the most recent theory and practice of social justice, but by including relevant general skills like problem-solving, analytical ability and applied computer skills that are relevant to the workplace.

Location

Psychology units are offered at Kelvin Grove campus and Justice units are offered at Gardens Point campus.

Career outcomes

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas. Psychology graduates have skills that equip them for many professional areas. The analytical, research and interpersonal skills acquired have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.
Further study is required if you wish to become a registered psychologist. This currently involves completing a fourth year of study in Psychology, followed by at least two years of further study, which may comprise the completion of an appropriate APAC-accredited Masters degree and/or supervised work experience

The Bachelor of Justice will equip you for

a wide variety of employment in criminal justice and related security fields. Past graduates have developed successful careers in state and federal law enforcement, correctional services, private security, defence services and customs, and worked on social and justice policies for government and non-government organisations. Others have become criminologists, contributed to women's youth and children's advocacy, or worked in the areas of human rights and antidiscrimination.

You will be prepared for the workplace by exploring the most recent theory and practice of social justice, and gain problem-solving, analytical and applied computer skills that are relevant to the workplace.

Professional recognition

The Bachelor of Behavioural Science component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology, followed by at least two years of further study, which may comprise the completion of an appropriate APAC-accredited Masters degree and/or supervised work experience.

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Course structure

In order to complete the Bachelor of Behavioural Science (Psychology) component, you must complete a total of 192 credit points consisting of:
Psychology core units (12 units = 144 credit points)
Psychology elective units (4 units = 48 credit points)

In order to complete the Bachelor of Justice component, you must complete a total of 192 credit points from the following:
Justice core units (8 units = 96 credit points)
Study Area A (8 units = 96 credit points)

Students must complete a total of 384 credit points.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Psychology) (Honours) or Postgraduate Diploma in Psychology, provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Advanced standing based on previous study

QUT's standard advanced standing arrangements apply.
For core psychology units advanced standing is restricted to equivalent units completed in an APAC-accredited psychology program.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

Course requirements

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required this course. Students will need to cover this cost.

Vaccination

You are required to undertake clinical experience in healthcare settings. As a result, you will have direct patient contact during the placement and may be exposed to blood and body fluids of patients. Consequently you must be vaccinated for Hepatitis B and must provide a post vaccination pathological report and a serology immunity report, or similar certification showing proof of immunity, prior to undertaking your first clinical placement. Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical practice units in semester breaks

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks, which may be scheduled during semester breaks.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Professional Recognition

The Bachelor of Nursing /Bachelor of Midwifery double degree program meets the requirements for accreditation by the Australian Nursing and Midwifery Council (ANMC). Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia with endorsement as midwife practitioners. They are also eligible for membership of the Royal College of Nursing, Australia (RCNA)and the Australian College of Midwives.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Nursing and Midwifery Board of Australia website http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

Blue Card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Additional Costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform including suitable footwear while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Overview

The honours programs enable you to develop knowledge, problem-solving and conceptual skills at an advanced level. The programs provide you with education in the techniques and skills for later postgraduate research and enhance professional career progressions.

Dissertation

The dissertation is one 48 credit point unit representing 50 per cent of the program. Preparation and presentation of the dissertation in completed under the guidance of a supervisor and is examined externally.

Electives

Students undertake two 12 credit point electives. At least one elective must be a research elective selected from the nominated list of research electives. The second elective may be selected from any honours or postgraduate program offered

by the University, subject to prerequisite requirements and with the approval of the student's mentor/supervisor and the Course Coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is relevant to the student's study program. For further information on available units contact the Honours Coordinator.

International Student Entry

International students may enrol only in full-time studies.

Further Information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Applicants should have completed QUT's Bachelor of Applied Science/ Bachelor of Health Science in a relevant area or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

International Entry requirements

Applicants should have completed QUT's Bachelor of Applied Science/ Bachelor of Health Science in a relevant area or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

The course consists of two coursework units, a research elective, an elective and the equivalent of four units of supervised independent study, resulting in a thesis.

The thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Electives

Students undertake two 12 credit point electives. At least one elective must be a research elective selected from the nominated list of research electives. The second elective may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the student's mentor/supervisor and the Course Coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is relevant to the student's study program. For further information on available units contact the Honours Coordinator.

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

Course structure

Students complete a dissertation which is one 48-credit-point unit representing 50 per cent of the program. Preparation and presentation of the dissertation is completed under the guidance of a supervisor and is examined externally.

International Course structure

Course structure

Students complete a dissertation which is one 48-credit-point unit representing 50 per cent of the program. Preparation and presentation of the dissertation is completed under the guidance of a supervisor and is examined externally.

Overview

The course offers the opportunity to develop knowledge, and problem solving and research skills at an advanced level. The Honours qualification opens a direct pathway into the Doctor of Philosophy and Master of Applied Science courses, and enhances professional career progressions in a variety of areas.

The course aims to provide a strong and practical foundation for research and professional employment by your acquiring the abilities to:
- understand and apply advanced theories, concepts and techniques in order to recognise, and to seek solutions for, worthwhile scientific problems
- demonstrate, and continue to develop, independence of thought and critical analysis
- contribute effectively to work and research groups
- communicate at a high level in both written and oral forms

Course structure

The core of the honours program is a 48 credit-point project that will provide students with the opportunity to learn about research by conducting a research project with an experienced researcher who acts as both supervisor and mentor. Students will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Career outcomes

The Bachelor of Biomedical Science (Honours) program is designed for graduates who have achieved at a high level (GPA 5) in their degree from a recognised tertiary institution, with major studies in a relevant discipline. The Honours qualification not only enhances your professional employability in your chosen discipline, but opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy, Doctor or Health Science and Master of Applied Science (Research) courses.

Professional recognition

Relevant scientific professional bodies include Australasian Graduates may seek membership of various organisations as follows:
Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research,

and Australian Society for Microbiology. Eligibility for membership is based on the combination of units undertaken in the Honours degree and the Bachelor course that underpins it.

Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have an overall Grade Point Average (GPA) of at least 5 (based on QUT grade cut-offs)
- must have a GPA of at least 5 (based on QUT grade cut-offs) across APAC-accredited second and third year psychology units as given below.

QUT Applicants
For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:
- a minimum GPA of 5 in the overall undergraduate degree program
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent. Entry is competitive based on GPA in these prescribed units:

PYB202 Social and Organisational Psychology
PYB203 Developmental Psychology
PYB204 Cognition and Perception
PYB210 Research Design and Data Analysis
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB309 Individual Differences and Assessment
PYB350 Advanced Statistical Analysis

Non-QUT Applicants
For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

International Entry requirements

Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have an overall Grade Point Average (GPA) of at least 5 (based on QUT grade cut-offs)
- must have a GPA of at least 5 (based on QUT grade cut-offs) across APAC-accredited second and third year psychology units as given below.

QUT Applicants
For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:
- a minimum GPA of 5 in the overall undergraduate degree program
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent. Entry is competitive based on GPA in these prescribed units:

PYB202 Social and Organisational Psychology
PYB203 Developmental Psychology
PYB204 Cognition and Perception
PYB210 Research Design and Data Analysis
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB309 Individual Differences and Assessment
PYB350 Advanced Statistical Analysis

Non-QUT Applicants
For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

Minimum english requirements

Students must meet the English proficiency requirements.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and

research. Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

Professional recognition

Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website: http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Course Structure

The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. The research component of the program entails one research methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

International Student Entry

International students may enrol only in full-time studies.

Please refer to the Psychology Board of Australia website http://www.psychologyboard.gov.au/Registration-Standards.aspx for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

Course structure

The Honours program comprises eight units and can be completed in full-time or part-time study mode.

Core units include PYB407 Research and Professional Development Seminar and PYB401 Advanced Research Methods plus electives from advanced cognitive, organisational, counselling, developmental, and social theory. These units have three contact hours per week.

This course also includes a research component which entails an individual thesis. PYB400 Thesis is undertaken in modules throughout the program. Initially students complete a research plan which sets out the project. This is followed by collection, analysis and writing-up of the data. Contact hours for the research component are as required by the supervisor.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

Students are required to complete any four units (totaling 48 credit points) from List A. Students can choose four units that make up a Study Area, or can choose units from across disciplines.

Study Areas

- Aged Care
- Emergency and Disaster Management
- Environmental Health
- Health Professional Education (part-time only available)
[This study area has been discontinued]
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Quality and Patient Safety
- Risk Management (subject to review)
- Womens Health
- Cross-specialiation

Note: In 2010 the four units in the Emergency and Disaster Management study area are only available in second semester. Students enrolling part-time cannot complete the study area in consecutive semesters.

Course Articulation

This course articulates fully into HL68 Graduate Diploma in Health Science and HL88 Master of Health Science, except for the Quality and Patient Safety study area which articulates into PU63 Graduate Diploma in Health Management and PU83 Master of Health Management.

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Course structure

The Graduate Certificate of Health Science consists of four units. Students can complete four units from one study area or four units from a selection of study areas.

Completion of four units from one study area entitles graduates of the Graduate Certificate, Graduate Diploma or Masters to have their qualification awarded with their area of specialisation. Students can graduate with one specified major only.

Completion of units in Occupational Health and Safety or Environmental Health does not qualify graduates to practise in these areas.

Study areas

Students in the Graduate Certificate in Health Science can select to complete four units from one study area or from across a range of Faculty of Health units:

- Aged Care
- Emergency and Disaster Management
- Environmental Health
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Quality and Patient Safety (Graduate Certificate only)
- Risk Management
- Women's Health
- a cross-specialisation (where no study area is taken but students study across a variety of fields).

Overview

The postgraduate coursework programs will suit anyone who has a recent undergraduate degree (preferably, however not necessarily, in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The programs also cater for working scientists, support staff or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills.

Science-based biotechnology units emphasising laboratory skills and hands-on laboratory experimentation feature prominently in the programs, which cover contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The programs also offer students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Graduate Certificate in Biotechnology is a foundation program for people without a science degree or for those who do not have a recent background in the cell and biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning.

Students must commence in July and enrol in Semester 2 units first. Advanced standing (credit) may be given for this foundation program if the student has a degree or equivalent with recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing (credit) is granted and accepted students can enrol directly in any of the more advanced biotechnology programs in their first semester of study.

Course design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Graduate Certificate in Biotechnology is a foundation program for people without a science degree or for those who do not have a recent background in the cell and biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning.

Students must commence in July and enrol in Semester 2 units first. Advanced standing may be given for this foundation program if the student has a degree or equivalent with recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an

advanced level. If advanced standing is granted and accepted, students can enrol directly in any of the more advanced biotechnology programs in their first semester of study.

Domestic Entry requirements

An applicant must be:
• registered as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
• have gained a degree in nursing (or equivalent) from a recognised institution
• meet any additional requirements for the study area chosen.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Entry requirements for specific study areas are as follows:

Acute Care Nursing
Applicants must be employed in an acute practice setting for the duration of the course. Students are required to undertake workplace-based clinical experience in this setting as part of the course requirements.

Cancer Nursing
Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Emergency Nursing
Applicants for the Emergency Nursing study area must be working at least 0.6 FTE in an emergency facility.

Intensive Care Nursing
Applicants for the Intensive Care study area be working at least 0.6 FTE in a level two or three intensive care facility.

Paediatric, Child and Youth Health Nursing
Students undertaking this study area will specialise in paediatric nursing or child and youth health nursing.

Applicants for the paediatric specialisation must be working at least 0.6 FTE in a paediatric setting.

Applicants wishing to specialise in child and youth health nursing do not need to be working in this area to undertake the course, however they will be required to undertake a clinical practicum.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Graduate Certificate in Nursing provides graduates with a short, focused program to upgrade qualifications, knowledge and skills in particular areas of nursing practice. The course enables students to develop competence in their areas of practice, to examine major issues and trends in nursing scholarship and practice, and to develop an understanding of research applied to nursing practice.

Study areas

Study areas are available in the following areas:
- Acute Care
- Ageing and Dementia Studies
- Cancer Nursing
- Emergency Nursing
- Intensive Care Nursing
- Paediatric and Child Youth Health Nursing
- Professional Studies
- Women's Health

Note: Information on Australian Government Scholarships in the area of aged care is available at: http://rcna.org.au/scholarships/government_scholarships

Entry requirements

An applicant must be:
• registered as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
• have gained a degree in nursing (or equivalent) from a recognised institution
• meet any additional requirements for the study area chosen.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each

entry requirement. For example: Queensland Nursing Council or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Entry requirements for specific study areas are as follows:

Acute Care Nursing
Applicants must be employed in an acute practice setting for the duration of the course. Students are required to undertake workplace-based clinical experience in this setting as part of the course requirements.

Cancer Nursing
Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Emergency Nursing
Applicants for the Emergency Nursing study area must be working at least 0.6 FTE in an emergency facility.

Intensive Care Nursing
Applicants for the Intensive Care study area be working at least 0.6 FTE in a level two or three intensive care facility.

Paediatric, Child and Youth Health Nursing
Students undertaking this study area will specialise in paediatric nursing or child and youth health nursing.

Applicants for the paediatric specialisation must be working at least 0.6 FTE in a paediatric setting.

Applicants wishing to specialise in child and youth health nursing do not need to be working in this area to undertake the course, however they will be required to undertake a clinical practicum.

Advanced Standing

Applicants who have studied the “Transition to Practice Nurse” program (Queensland Health), may be eligible for Advanced Standing (or credit) for some units within the Graduate Certificate and should download the “AS” Advanced Standing form: http://www.student.qut.edu.au/forms/.

To support an application, an original or certified copy of the award certificate as evidence of completion of the Transition to Practice Nurse program must be provided.

Course structure

The course structures of the Graduate Certificate in Nursing, Graduate Diploma in Nursing and Master of Nursing offer a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of eight study areas in the Graduate Certificate in Nursing.

There are three recommended pathways—clinical, professional and research—leading from the Graduate Certificate through the Graduate Diploma to the Master of Nursing.

Course articulation

The Graduate Certificate in Nursing, the Graduate Diploma in Nursing and the Master of Nursing fully articulate.

International students

The Graduate Certificate in Nursing is offered part-time only in internal or external mode and is not available to international students.

Further information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

Course structure

These courses offer a variety of career pathways for nurses working in diverse settings and provide opportunities for in-depth study for advanced competence in selected areas of nursing practice. The three courses fully articulate and applicants may choose to enter at the graduate certificate, graduate diploma or masters level.

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice.

Students in the Graduate Diploma and Masters programs also complete four core units from an area of interest. In addition, students elect to undertake their studies in one of three pathway options—clinical, professional, or research. This allows students to tailor their study program to individual professional development needs.

Career Outcomes

This course is particularly designed for graduates and practitioners in ultrasound fields, such as radiographers, medical imaging technologists and sonographers, who wish to upgrade their qualifications and are interested in an in-depth study in this rapidly developing specialty area of ultrasound.

Course Design

Students must be employed in a suitable clinical practice with adequate access to clinical experience for the duration of the course. Formal lectures are conducted in an intensive one-week block of classes at the beginning of each semester. Further academic requirements can be met without requiring on-campus attendance. Students not based in Brisbane can minimise their time on campus by completing an intensive oneweek block each semester.

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

International Student Entry

This course is not available to international students.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Entry with Advanced Standing

Advanced standing will be given, on a case-by-case basis, for road safety-specific units in postgraduate courses.

See the advanced standing precedent list at www.student.qut.edu.au/enrolment-and-orientation/enrolment/credit-for-prior-learning

Undergraduate units will not be recognised.

Course Structure

The Graduate Certificate in Road Safety consists of one core unit plus three electives while the Graduate Diploma in Road Safety consists of two core units plus six electives. The program structures are designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two electives are delivered in intensive week-long blocks at Kelvin Grove campus. The programs have recently been enhanced with the introduction of external delivery for selected units.

Currently the following units are available in external mode:

PYP401 Introduction to Road Safety
PYP402 Traffic Psychology and Behaviour
PYP404 Applying Traffic Psychology
PYP406 Road Safety Theory to

listening	6.0
overall	6.5

Study areas

Study areas are available as follows:

- Aged care
- Emergency and Disaster Management
- Environmental Health
- Health Services Management
- Health Promotion
- Risk management
- Women's health
- or a cross specialisation (where no major is taken but students study across a variety of fields).

Note: In 2010 the four units in the Emergency and Disaster Management study area are only available in second semester.

To complete a major, students must complete at least four units from the same discipline area from with the Faculty of Health.

Students can only graduate with one specified major (i.e. only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students wishing to complete a graduate diploma qualifcation in Occupational Health and Safety should apply for entry into the Graduate Diploma in Occupational Health and Safety and not the Graduate Diploma in Health Science.

Course Structure

The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by schools within the Faculty of Health (List A units). Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, for example, Graduate Diploma in Health Science (Health Promotion).

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course coordinator.

Course Articulation

This course articulates fully into the Master of Health Science.

The Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

International Student Entry

International students may enrol only in full-time studies and only onshore.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Course structure

The Graduate Diploma in Health Science consists of eight units. Students can complete units from study areas or other listed Faculty of Health units.

Completion of four units from one study area entitles graduates of the Graduate Certificate, Graduate Diploma or Masters to have their qualification awarded with their area of specialisation. Students can graduate with one specified major only.

Completion of units in Occupational Health and Safety or Environmental Health does not qualify graduates to practise in these areas.

Study areas

- Aged Care
- Emergency and Disaster Management
- Environmental Health
- Health Professional Education (Graduate Certificate only)
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Quality and Patient Safety (Graduate Certificate only)

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Graduate Diploma in Biotechnology builds upon foundation concepts presented in the Graduate Certificate. The Graduate Diploma in Biotechnology offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology. It also covers the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Domestic Entry requirements

An applicant must be:

• registered as a nurse with the Nursing and Midwifery Board of Australia or the nurse regulatory authority in the student's state or territory of residence
• have gained a degree in nursing (or equivalent) from a recognised institution
• meet any additional requirements for the study area chosen.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Nursing and Midwifery Board of Australia or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Entry requirements for specific study areas are as follows:

Acute Care Nursing
Applicants must be employed in an acute practice setting for the duration of the course. Students are required to undertake workplace-based clinical experience in this setting as part of the course requirements.

Cancer Nursing
Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Emergency Nursing
Applicants for the Emergency Nursing study area must be working at least 0.6 FTE in an emergency facility.

Intensive Care Nursing
Applicants for the Intensive Care study area must be working at least 0.6 FTE in a level two or three intensive care facility.

Paediatric, Child and Youth Health Nursing
Students undertaking this study area will specialise in paediatric nursing or child and youth health nursing.

Applicants for the paediatric specialisation must be working at least 0.6 FTE in a paediatric setting.

Applicants wishing to specialise in child and youth health nursing do not need to be working in this area to undertake the course, however they will be required to undertake a clinical practicum.

International Entry requirements

Ageing and Dementia Studies, Professional Studies and Women's Health are the only majors available to international studuents.

International applicants must:
• have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia
• be registered or authorised to practise in their country of origin or residence
• have gained a degree in nursing (or equivalent) from a recognised institution
• and normally have at least one year of appropriate post-registration clinical experience.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

International students may enrol only in February in full-time studies and may study only onshore.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0

reading	6.0
listening	6.0
overall	6.5

Study areas

The following majors are offered in this course:

- Acute Care *
- Ageing and Dementia Studies
- Cancer Nursing *
- Emergency Nursing *
- Intensive Care Nursing *
- Paediatric, Child and Youth Health Nursing *
- Professional Studies
- Women's Health

* Not available to international students

Students may follow one of the following pathways - Clinical, Professional and Research.

Note: Information on Australian Government Scholarships in the area of aged care is available at: http://rcna.org.au/scholarships/government_scholarships

Course Structure

The course structures offer a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice.

The Graduate Diploma in Nursing consists of eight units each of 12 credit points making a total 96 credit points.

The Graduate Diploma may be undertaken by domestic students full-time or part-time in internal or external mode.

Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

Graduate Diploma in Nursing students who choose this major will complete three core units, and five elective units. The elective options enable students to customise their program of study to meet individual learning needs.

Course Pathways/Articulation

The Graduate Diploma in Nursing fully articulates with the Master of Nursing and is offered for domestic and international students who are eligible for registration as a nurse with the Nursing and Midwifery Board of Australia.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

Course structure

These courses offer a variety of career pathways for nurses working in diverse settings and provide opportunities for in-depth study for advanced competence in selected areas of nursing practice. The three courses fully articulate and applicants may choose to enter at the graduate certificate, graduate diploma or masters level.

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice.

Students in the Graduate Diploma and Masters programs also complete four core units from an area of interest. In addition, students elect to undertake their studies in one of three pathway options: clinical, professional, or research. This allows students to tailor their study program to individual professional development needs.

International Course structure

Course structure

These courses offer a variety of career pathways for nurses working in diverse settings and provide opportunities for in-depth study for advanced competence in selected areas of nursing practice. writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

Students enrolled in the Graduate Diploma in Midwifery undertake four 12 credit point units and two 24 credit point units. The clinical units are designed to facilitate the development of knowledge, attitudes and skills which are commensurate with beginning practice as a midwife. A minimum of 720 hours of off-campus clinical experience is scheduled throughout the course. Clinical experience occurs in hospital settings, and a variety of community health agencies eg the family planning clinic, sexual health clinic, community support groups and childbirth education classes. The supporting studies component of the program comprises three units designed to further enhance students' professional growth through exploration, at a postgraduate level, of the nexus between research and practice, and issues in the development of midwifery as a discipline.

Course Articulation

This course fully articulates with the Master of Nursing.

International students

This course is not available to international students.

Career Outcomes

Graduates can seek employment in hospitals, health departments, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer.

Professional medical/health physicists:
- apply electronic tools and medical software, ultrasonics, radiation and computers to clinical and environmental problems
- monitor the environment to maintain acceptable standards in the workplace and the community
- apply fundamental physical research in development programs
- are responsible for calibration, care and maintenance of instruments and apparatus.

Course Design

Stage 1— Graduate Diploma (PH71) comprises assessed coursework such as advanced lectures, seminars, reading units or independent study. Full-time students will need an average of 14 hours a week of formal contact (seven hours for parttime students). Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Stage 2— Master of Applied Science (PH80) students undertake a program of supervised research and investigation that can be completed at QUT or in a suitable external institution.

Professional Recognition

The course is accredited by the Australasian College of Physical Sciences and Engineers in Medicine.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Career Outcomes

This course is particularly designed for graduates and practitioners in medical ultrasound fields, such as radiographers, and medical imaging and nuclear medicine technologists, who wish to upgrade their qualifications and depth of knowledge in this rapidly developing area.

Course Design

Stage 1— Graduate Diploma (PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before commencing the degree. Lectures are conducted in intensive four- to five-week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2— Master of Applied Science (PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

International Student Entry

These courses are not available to international students.

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Entry requirements

Entry Requirements

To be eligible for admission, an applicant:

· will normally have a diploma level qualification with a minimum of 5 years clinical experience in cardiac ultrasound degree or a bachelor degree in a relevant science or allied health field

· must provide written proof of a minimum of three months full-time equivalent prior supervised, hands-on clinical experience in cardiac ultrasound

· must have access to suitable clinical experience for the duration of the course *

* In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in cardiac ultrasound practice for a minimum of 3 days/week over a 2 year period, full-time equivalent, in an Australian or New Zealand clinical setting.

International Entry requirements

Course Design

Stage 1— Graduate Diploma in Cardiac Ultrasound (PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with access to clinical cardiac ultrasound experience for the course duration. Students outside Brisbane may complete the formal classroom component in an intensive one-week block.

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

International Student Entry

These courses are not available to student visa holders.
International students on a work visa of 2 years or more including study rights in Australia are eligible to apply for this course.

NB: New Zealand citizens may apply for entry into this course as domestic students.

Domestic Fees:

Please note that the Domestic Fees quoted above are based on full-time studies. This course is a part-time course. For Domestic postgraduate tuition fees please refer to this web site to view the costs of individual units:
student.qut.edu.au/fees-and-finances/study-costs/fee-schedule/table-b-domestic-postgraduate-tuition-fee/

Study areas

Specialised stream units are available in the areas of:
- Emergency and Disaster Management *
- Epidemiology and Research Methods #
- Health Promotion
- Health Services Management
- Occupational and Environmental Health Sciences
- Public Health Nutrition

* The units in this study area are currently only offered in second semester

Some units in this study area are only available in internal mode

There is also the option of not completing a major and choosing units from more than one stream.

Course Structure

Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units (Part A) and four advanced elective units (Part B). Elective units will normally be selected according to choice of a stream of study.

Course Articulation

This course fully articulates into the Master of Public Health.

Students who complete the four core units (Part A) may apply to take early exit from the course with a Graduate Certificate in Public Health.

International Student Entry

International students may only enrol in full-time studies. International students may not enrol in the Emergency and Disaster Management Study Area, as it is available part-time only. They may enrol in this major in HL88 Master of Health Science.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Course structure

The Graduate Diploma in Health Management comprises four core units and either four units from a specialist study area, or four units selected from across the study areas.

Study areas

The following study areas are offered:

- Emergency and Disaster Management
- Health Services Management
- Quality and Patient Safety
- Risk Management, or
- a cross-specialisation (where no study area is undertaken but students study across a variety of fields).

International Course structure

Professional recognition

This course was the first postgraduate course to be accredited with Environmental Health Australia and graduates are eligible to practise as Environmental Health Officers.

Course Structure

Students follow a prescribed enrolment program and are required to complete seven units in environmental health and PUN106 Population Health.

Students enrolling in external mode will be required to attend intensive practical sessions at Kelvin Grove campus for selected units in the course.

Course Articulation

This course articulates into the Master of Health Science.

International Student Entry

International students may enrol only in full-time programs in internal mode.

Domestic Course structure

Course structure

The Graduate Diploma in Psychology can be completed in full-time or part-time study mode.

The course covers theoretical and practical aspects of psychology. In addition to core units that introduce the scientific bases of psychology, you can choose to complete an elective from specialised units including:

- organisational psychology
- family therapy
- addictive behaviour
- health psychology
- road safety.

If you wish to enter an accredited fourth-year program, you must complete Advanced Statistical Analysis as your elective.

Domestic Entry requirements

Entry to this course is competitive. To be considered for admission, applicants must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC)as an entry point into PY20 Postgraduate Diploma in Psychology, for example QUT's Bachelor of Behavioural Science (Psychology), with a minimum grade point average of 5 (based on QUT grade cut-offs) achieved in the second- and third-year APAC-accredited psychology units as given below.

Applicants with a QUT Degree
For applicants with a QUT bachelor award, the base level requirement for consideration for inclusion in the Postgraduate Diploma in Psychology program is a minimum overall grade point average of 5 in prescribed second- and third-year psychology units or their equivalent, specifically:

PYB202 Social and Organisational Psychology
PYB203 Developmental Psychology
PYB204 Cognition and Perception
PYB210 Research Design and Data Analysis
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB309 Individual Differences and Assessment
PYB350 Advanced Statistical Analysis

Applicants with a Non-QUT Degree
For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

International Entry requirements

Entry to this course is competitive. To be considered for admission, applicants must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC)as an entry point into PY20 Postgraduate Diploma in Psychology, for example QUT's Bachelor of Behavioural Science (Psychology), with a minimum grade point average of 5 (based on QUT grade cut-offs) achieved in the second- and third-year APAC-accredited psychology units as given below.

For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:
- a minimum GPA of 5 in the overall undergraduate degree program
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent. Entry is competitive based on GPA in these prescribed units:

PYB202 Social and Organisational Psychology
PYB203 Developmental Psychology
PYB204 Cognition and Perception
PYB210 Research Design and Data Analysis
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB309 Individual Differences and Assessment
PYB350 Advanced Statistical Analysis

Applicants with a Non-QUT Degree
For applicants with an APAC-accredited bachelor award other than from QUT, similar requirements are expected. Certified copies of complete academic transcripts and evidence of their eligibility to undertake an honours program at their home institution must be provided with applications.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional recognition

Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Reg

istration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website: http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Course structure

The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. In consultation with the Course Coordinator, students also choose one cognate elective at third-year level or above. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have three contact hours per week. The contact for research thesis units is as required by the supervisor.

International Student Entry

International students may enrol only in full-time studies.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

Course structure

The Postgraduate Diploma in Psychology comprises eight units and can be completed in full-time or part-time study mode.

Core units include PYB407 Research and Professional Development Seminar and PYB401 Advanced Research Methods plus electives from advanced cognitive, organisational, counselling, developmental, and social theory. These units have three contact hours per week.

The course also includes a research component which entails a group thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Students complete an independent review of the literature and prepare an outline for a research proposal as the basis of a negotiated group project. For the project, students independently collect, write up and analyse agreed specific components of the data. Contact hours for the research component are as required by the supervisor.

Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July July entry is available externally full-time or part-time; internal is available part-time only.
Int. Start Months	February, July This course is only available to international students in external mode, studying from overseas. Two of the units require on-campus block attendance at QUT in Brisbane for a period of one week (two weeks in total).
Course Coordinator	Enquiries to psychology@qut.edu.au or 07 3138 4520
Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

- a bachelor degree in relevant area (e.g. civil engineering, psychology, public health), or
- Graduate Certificate in Road Safety.

International Entry requirements

- a bachelor degree in relevant area (e.g. civil engineering, psychology, public health), or
- Graduate Certificate in Road Safety.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Entry with Advanced Standing

Advanced standing will be given, on a case by case basis, for road safety-specific units in postgraduate courses including QUT's Graduate Certificate in Civil Engineering; New England/Murdoch/Edith Cowan Universities' Graduate Certificate or Graduate Diploma in Road Safety. Undergraduate units will not be recognised.

Course Structure

The Graduate Diploma in Road Safety course consists of two core units plus six electives. The program structure is designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

International Student Entry

This course is only available to international students in external mode, studying from overseas. Two of the units require on-campus block attendance at QUT in Brisbane for a period of one week (two weeks in total).

Discipline Coordinator	School of Public Health and Social Work 07 3138 5856 pub;ichealth@qut.edu.au

Domestic Entry requirements

Applicants for the Master of Health Science must have:

- a three-year bachelor degree (or equivalent) in a relevant area plus one-year relevant work experience, or
- a three-year bachelor degree (or equivalent) in a relevant area plus one-year honours degree, or
- a four-year bachelor degree (or equivalent) in a relevant area, or
- a graduate certificate in a relevant area.

Applicants for the masters program are normally expected to have attained a grade point average of 5 (on a 7-point scale) in their bachelor degree.

Applicants to any of the programs may be admitted on the basis of work experience, other qualifications or research activities at the discretion of the Executive Dean.

International Entry requirements

Applicants for the Master of Health Science must have:

- a three-year bachelor degree (or equivalent) in a relevant area plus one-year relevant work experience, or
- a three-year bachelor degree (or equivalent) in a relevant area plus one-year honours degree, or
- a four-year bachelor degree (or equivalent) in a relevant area, or
- a graduate certificate in a relevant area.

Applicants for the masters program are normally expected to have attained a grade point average of 5 (on a 7-point scale) in their bachelor degree.

Applicants to any of the programs may be admitted on the basis of work experience, other qualifications or research activities at the discretion of the Executive Dean.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

Course Articulation

Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

The Graduate Certificate in Health Science, the Graduate Diploma in Health Science and the Graduate Diploma in Occupational Health and Safety, fully articulate into the Master of Health Science.

The Graduate Diploma in Nursing and the Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards the Master of Health Science. No advanced standing will be granted towards the Graduate Certificate in Health Science or the Graduate Diploma in Health Science. This is in addition to any List A units completed.

Special Notes

Students can only graduate with one specified major (ie only one major will appear on the official academic record).

Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Occupational Health and Safety unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

International Student Entry

International students may enrol only in full-time sutdies and may study only onshore.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Course structure

The Master of Health Science offers a flexible design that provides students with a large choice of elective units that deliver specialisation in a health science discipline, cross-specialisation or a broad understanding of health-related disciplines.

The course consists of 12 units. Students must complete at least eight units from the Faculty of Health. The remaining four units can be completed from a wide range of University postgraduate units, subject to course coordinator approval.

Completion of four units from one study area entitles graduates of the Graduate Certificate, Graduate Diploma or Masters to have their qualification awarded with their area of specialisation. Students can graduate with one specified major only.

Completion of units in Occupational Health and Safety or Environmental Health does not qualify graduates to practise in these areas.

Study areas

- Aged Care
- Emergency and Disaster Management
- Environmental Health
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Risk Management
- Women's Health
- a cross-specialisation (where no study area is taken but students study across a variety of fields).

Undertaking the supervised psychological practice component of the course requires provisional registration as a probationary psychologist with the Psychology Board of Australia. The requirements of the Board (including English language requirements) are available at http://www.psychologyboard.gov.au/index.php

Professional Recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Educational and Developmental Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

Please refer to the Psychology Board of Australia website: http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Other Requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

International Student Entry

QUT advises that international students may enrol only in full-time studies.

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

Please refer to the Psychology Board of Australia website http://www.psychologyboard.gov.au/Registration-Standards.aspx for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or

email psychology@qut.edu.au OR the Faculty of Education on +617 3138 3947 or email educationenq@qut.edu.au

Domestic Course structure

Course structure

The coursework component provides training in assessment, diagnosis and intervention in the area of educational and developmental issues across the lifespan with an emphasis on the school years.

Students undertake two internships that are linked with a client base from the Catholic education system and from the Psychology and Counselling Clinic at QUT's Kelvin Grove campus.

Following these internships, students undertake a further two external placements in other environments including schools, mental health and community settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychologists Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

International Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

Domestic Entry requirements

A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

** LS86 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.*

For students with advanced standing for Module 1 and who wish to enter LS86 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program.

International Entry requirements

overall	6.5

Overview

The postgraduate coursework programs in Biotechnology will suit anyone who has a recent undergraduate degree (preferably, however not necessarily, in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The programs also cater for working scientists, support staff or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills. Science-based biotechnology units emphasising laboratory skills and hands-on laboratory experimentation feature prominently in the programs, which cover contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The programs also offer students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Course Design

The Master of Biotechnology is designed to give students further training and specialisation in general medical and/or plant biotechnology. This program follows successful completion of core and optional units offered in both the Graduate Certificate in Biotechnology and Graduate Diploma in Biotechnology.

Further Information

For more information about this course, please call the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

Domestic Course structure

Course design

The program of study for an individual student will be decided in consultation with the course coordinator and will take

into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.

The Master of Biotechnology is designed to give students further training and specialisation in general medical and/or plant biotechnology. This program follows successful completion of core and optional units offered in both the Graduate Certificate in Biotechnology and Graduate Diploma in Biotechnology.

reading	6.0
listening	6.0
overall	6.5

Overview

The Master of Biotechnology (Advanced) program completes the comprehensive training of students and follows successful completion of core and optional units offered in the Graduate Certificate in Biotechnology, Graduate Diploma in Biotechnology and Master of Biotechnology programs. It encompasses general medical and/or plant biotechnology. In their final semester of the program, students may undertake a supervised research project either at QUT or external to QUT.

Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Students must discuss research project areas prior to enrolment in their final semester of study in LS96 to organise a suitable project and a project supervisor(s). While there is a wide range of research
project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire.
There is also no guarantee that either a suitable project and/or project supervisor(s) will be available in the semester that the student wishes to undertake the project unit.
Some students prefer not to undertake a research project in their final semester of study. For students not undertaking a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units.

These postgraduate coursework programs will suit anyone who has a recent undergraduate degree (preferably, however not necessarily, in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The programs also cater for working scientists, support staff or students involved in commercial aspects of biotechnology who wish to update their theoretical and practical biotechnology skills.

Science-based biotechnology units emphasising laboratory skills and hands-on laboratory experimentation feature prominently in the programs, which cover contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The programs also offer students opportunities to pursue studies related to the business of biotechnology, marketing and commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the cell and biomolecular sciences and areas of interest in biotechnology.
The Graduate Certificate in Biotechnology is a foundation program for people without a science degree or for those who do not have a recent background in the cell and biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also

allows
students to gain essential generic skills and attributes for successful postgraduate research and learning.
Students must commence in July and enrol in Semester 2 units first. Advanced standing (credit) may be given for this foundation program if the student has a degree or equivalent with recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing (credit) is granted and accepted, students can enrol directly in any of the more advanced biotechnology programs in their first semester of study.
The Graduate Diploma in Biotechnology builds upon foundation concepts presented in the Graduate Certificate. The Graduate Diploma in Biotechnology offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology. It also covers the business of biotechnology, marketing and commercialisation, as well as the legal and ethical aspects of biotechnological applications.
The Master of Biotechnology is designed to give students further training and specialisation in general medical and/or plant biotechnology. This program follows successful completion of core and optional units offered in both the Graduate Certificate in Biotechnology and Graduate Diploma in Biotechnology.

Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July Midwifery Study Area available for February entry only.
Int. Start Months	February, July
Course Coordinator	Enquiries to nursing@qut.edu.au or 07 3138 3824
Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

An applicant must be:
• registered as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
• have gained a degree in nursing (or equivalent) from a recognised institution
• meet any additional requirements for the study area chosen.

In addition candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Nursing and Midwifery Board of Australia or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete and submit the Postgraduate nursing questionnaire to accompany their application.

Entry requirements for specific study areas are as follows:

Acute Care Nursing
Applicants must be employed in an acute practice setting for the duration of the course. Students are required to undertake workplace-based clinical experience in this setting as part of the course requirements.

Cancer Nursing
Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Emergency Nursing
Applicants for the Emergency Nursing study area must be working at least 0.6 FTE in an emergency facility.

Intensive Care Nursing
Applicants for the Intensive Care study area be working at least 0.6 FTE in a level two or three intensive care facility.

Midwifery
An applicant for the Midwifery strand must be registered with the Nursing and Midwifery Board of Australia with endorsement as midwife practitioners.

Paediatric, Child and Youth Health Nursing
Students undertaking this study area will specialise in paediatric nursing or child and youth health nursing.

Applicants for the paediatric specialisation must be working at least 0.6 FTE in a paediatric setting.

Applicants wishing to specialise in child and youth health nursing do not need to be working in this area to undertake the course, however they will be required to undertake a clinical practicum.

International Entry requirements

Ageing and Dementia Studies, Professional Studies and Women's Health are the only majors available to international studuents.

International applicants must:
• have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia
• be registered or authorised to practise in their country of origin or residence
• have gained a degree in nursing (or equivalent) from a recognised institution
• and normally have at least one year of appropriate post-registration clinical experience.

Candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

International students may enrol only in February or in July in full-time studies and may study only onshore.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Study Areas

The following majors are offered in this course:

- Acute Care Nursing #
- Ageing and Dementia Studies
- Cancer Nursing #
- Emergency Nursing #
- Intensive Care Nursing #
- Paediatric, Child and Youth Health Nursing #
- Professional Studies
- Women's Health
- Midwifery * #

*Only offered in the February intake.
Not available to international students

Students may follow one of the following pathways:

- Clinical
- Professional
- Research

Note: Information on Australian Government Scholarships in the area of aged care is available at: http://rcna.org.au/scholarships/government_scholarships

Entry Requirements - Domestic Applicants

An applicant must be:
• registered as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
• have gained a degree in nursing (or equivalent) from a recognised institution
• meet any additional requirements for the study area chosen.

In addition candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applicants must provide original or certified documentary evidence for each entry requirement. For example: Nursing and Midwifery Board of Australia or equivalent registration; Nursing academic qualifications (if not awarded by QUT), that is, an award certificate and academic transcripts; and a supervisor signed letter or a statement of service to confirm your post-registration experience and your current employment position (where required for a study area).

All applicants should also complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Entry requirements for specific study areas are as follows:

Acute Care Nursing
Applicants must be employed in an acute practice setting for the duration of the course. Students are required to undertake workplace-based clinical experience in this setting as part of the course requirements.

Cancer Nursing
Applicants for the Cancer Nursing study area must normally be working at least 0.6 FTE in the practice setting relevant to cancer nursing. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Emergency Nursing
Applicants for the Emergency Nursing study area must be working at least 0.6 FTE in an emergency facility.

Intensive Care Nursing
Applicants for the Intensive Care study area be working at least 0.6 FTE in a level two or three intensive care facility.

Midwifery
An applicant for the Midwifery strand must be registered with the Nursing and Midwifery Board of Australia with endorsement as midwife practitioners.

Paediatric, Child and Youth Health Nursing
Students undertaking this study area will specialise in paediatric nursing or child and youth health nursing.

Applicants for the paediatric specialisation must be working at least 0.6 FTE in a paediatric setting.

Applicants wishing to specialise in child and youth health nursing do not need to be working in this area to undertake the course, however they will be required to undertake a clinical practicum.

Course Structure

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of nine different majors. For a detailed overview of the majors available, please refer to the Graduate Certificate in Nurisng relevant to these areas of study.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units or a 24 credit point clinical project.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time in internal or external mode.

Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary

nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

Course Articulation

The Graduate Diploma in Nursing and the Master of Nursing fully articulate.

Students who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

Course structure

These courses offer a variety of career pathways for nurses working in diverse settings and provide opportunities for in-depth study for advanced competence in selected areas of nursing practice. The three courses fully articulate and applicants may choose to enter at the graduate certificate, graduate diploma or masters level.

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice.

Students in the Graduate Diploma and Masters programs also complete four core units from an area of interest. In addition, students elect to undertake their studies in one of three pathway options—clinical, professional, or research. This allows students to tailor their study program to individual professional development needs.

QUT code	NS86
Duration (full-time domestic)	1 year
Duration (part-time domestic)	2 years
Campus	Kelvin Grove
Domestic fee (indicative)	2012: CSP $2,833 per Semester
Dom. Start Months	February
Course Coordinator	Enquiries to nursing@qut.edu.au or 07 3138 3824
Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

Applicants must:

- Be a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
- Have gained a bachelor degree in nursing (or equivalent) from a recognised institution and have gained a graduate certificate in nursing (or equivalent) in the area of nominated specialty from a recognised institution
- Have a minimum of five years full-time equivalent recent clinical practice experience as a registered nurse including three years full-time equivalent experience in a specialty area and one year full-time equivalent experience at an advanced practice level in the nominated specialty area
- Be employed at least 0.6 full-time equivalent in an advanced practice nursing role.

Applicants will be required to provide supporting documentation from two clinical support team members and their Executive Director of Nursing (or equivalent) that will confirm their support for the applicant to undertake the required studies. Applicants will, therefore, need to maintain their employment status for the duration of the course.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Master of Nursing Science (Nurse Practitioner) course is a one-year, full-time or two-year, part-time course. Upon successful completion of the program, graduates will be able to:

- assess and treat clients in a specialty field of nursing practice and health care

- order diagnostic investigations within a specialty field of nursing practice

- prescribe medications and other interventions from a specialty field of nursing practice

- directly refer patients to other healthcare professionals

- conduct advanced comprehensive health assessments relevant to a specialist field of nursing practice

- demonstrate an ability to conduct clinical services using high-level communication skills, innovation and leadership in both autonomous and multidisciplinary modes of practice

- demonstrate the capacity to think critically and creatively in complex and unfamiliar environments.

Note: Information on Australian Government Scholarships in the area of aged care is available at: http://rcna.org.au/scholarships/government_scholarships

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Accreditation Council (ANMAC). Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia with endorsement as nurse practitioners.

Course Structure

The course consists of seven units - six theoretical units and an internship (24 credit points) over two semesters. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning. This course may be undertaken by internal or external mode. Students will be required to attend on-campus workshops normally for a total of five days scheduled during the February orientation week and the mid-semester break in September.

International Student Entry

The course is not available to international students.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

Course structure

Students will complete eight units of study consisting of five core units, one elective unit, and an internship over two units. The internship will provide extended,

supervised and supported clinical practice exposure to consolidate and apply coursework learning.

International Course structure

Course structure

Students will complete eight units of study consisting of five core units, one elective unit, and an internship over two units. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning.

Sample Structure

Code	Title
Year 1 - Semester 1	
NSN421	Assessment and Diagnosis in Extended Practice
NSN422	Pharmacology and Therapeutics in Extended Nursing Practice
NSN423	Nurse Practitioner Role Development
NSN425-1	Nurse Practitioner Internship
Year 1 - Semester 2	
NSN424	Evidence Based Practice
NSN426	Advanced Pharmacology and Therapeutics in Speciality Nursing Practice
NSN425-2	Nurse Practitioner Internship
Elective *	
The elective is a 12 credit point unit approved by the Course Coordinator	
From 2013, the elective will be replaced by NSN428 Transition to Nurse Practitioner	
Students who have been granted advanced standing for the elective will not be required to complete NSN428.	

Master of Optometry

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.5
writing	6.5
reading	6.5
listening	6.5
overall	7.0

Overview

This course is the second component of a five year dual degree program, comprising a three year Bachelor of Vision Science (OP45), followed by a two year Master of Optometry (OP85).

NOTE that:
- both degrees need to be completed before a graduate can apply for registration as an optometrist
- there is no direct entry to the OP85 course
- all applicants enter the program through the OP45 Bachelor of Vision Science and progress to the OP85 course on successful completion of the OP45 course
- Commonwealth-supported places will be offered in the Master of Optometry from 2012.

The profession of Optometry is undergoing expansion in its scope of practice as a result of legislative amendments to allow appropriately trained optometrists to use therapeutic pharmaceutical agents in the practice of Optometry. The five year program increases graduates' depth of knowledge in the areas of general and ocular pharmacology, with training in the therapeutic management of eye disease.

Information for existing optometrists

The Master of Optometry course provides the second component of the entry-level program to the profession in Australia - it is NOT designed to provide qualified optometrists with a masters level qualification. A route for further study is through higher degree research training http://www.rsc.qut.edu.au/. The Faculty's Master of Applied Science by Research (HL84) is an option for students seeking a Masters level qualification.

Information for overseas trained optometrists

Overseas trained optometrists seeking to gain registration in Australia should contact the Optometry Council of Australia and New Zealand at www.ocanz.org for details concerning eligibility for registration through the assessment process for overseas trained optometrists before considering further study.

Why choose this course

A graduate of OP45 Bachelor of Vision Science must also complete the Master of Optometry to be eligible for registration as an optometrist.

The course provides increased exposure to real world learning experiences both within the QUT Health Clinic, and in the workplace via the inclusion of extended clinical placements.

Case-based learning and case-based assessment will enhance the training in diseases of the eye and ocular therapeutics. Guest lecturers and practising optometrists are involved in the clinical training.

Entry requirements

The requirement for admission to the course is completion of QUT's Bachelor of Vision Science.

Career options

Graduates are highly employable, with all students employed on graduation. Graduates can work or specialise in areas such as contact lens practice, children's vision, occupational/public health optometry or low vision, as well as general primary care clinical practice. The majority of optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals. A number of graduates are working in secondary clinical care environments, primarily in ophthalmology medical eye care practices. The course also provides a

route to employment within the ophthalmic industry, or students may enter the teaching and research fields after further study.

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Optometry Board of Australia website http://www.optometryboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other requirements

Ophthalmic instruments costing approximately $5000 are required for the clinical program. These should already have been purchased for the undergraduate program which precedes the Master program (Bachelor of Vision Science).

A uniform shirt (approx $40 per shirt) must be purchased for wear by all students whilst they undertake patient consultations and perform clinical eye examinations in the Optometry Clinic.

Students will also be required to maintain First Aid Certification and have a Blue Card before undertaking the clinical units.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4831 or email optometry@qut.edu.au

Other Majors

See also the separate entry for the following major in this course: Master of Applied Science (Medical Ultrasound).

Course Design

Stage 1— Graduate Diploma (PH71) comprises assessed coursework such as advanced lectures, seminars, reading units or independent study. Full time students will need an average of 14 hours a week of formal contact (seven hours for parttime students). Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Stage 2— Master of Applied Science (PH80) students undertake a program of supervised research and investigation that can be completed at QUT or in a suitable external institution.

Professional Recognition

The course is accredited by the Australasian College of Physical Sciences and Engineers in Medicine.

Career Outcomes

This course is particularly designed for graduates and practitioners in medical ultrasound fields, such as radiographers, and medical imaging and nuclear medicine technologists, who wish to upgrade their qualifications and depth of knowledge in this rapidly developing area.

Course Design

Stage 1— Graduate Diploma (PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before commencing the degree. Lectures are conducted in intensive four- to five-week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2— Master of Applied Science (PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry.

International Student Entry

These courses are not available to international students.

Further information

For further information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

overall	6.5

Study Areas

Specialised streams of study are offered in the areas of:

- Emergency and Disaster Management #
- Health Services Management
- Health Technology +
- Quality and Patient Safety
- Risk Management *

There is also the option of not completing a study area and choosing units from more than one stream.

* Some units are available only in external mode
# Units in this study area are only available in second semester
+ This study area is not currently available

Course Structure

The Master of Health Management will comprise three aspects:

. 4 core Health Management units
. 4 units from a Study Area
. 4 units that may comprise a further study area, electives or a dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Note that it is not compulsory to complete a Study Area and students may instead choose 4 units from across the Study Areas.

Course Articulation

The Graduate Diploma in Health Management fully articulates into the Master of Health Management. Students who complete 3 of the 4 core units plus an elective will be able to exit with a Graduate Certificate in Health Science.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Course structure

Students in the Master of Health Management complete four core units plus one of the following:

- two study areas (four units from each area)
- one study area (four units) plus four electives
- one study area (four units) plus a 48-credit-point thesis
- cross-specialisation (eight units from across the study areas)
- students with a research interest may undertake a 12-credit-point independent study, a 24-credit-point project or dissertation unit, or a 48-credit-point thesis unit.

Study areas

The following study areas are offered:

- Emergency and Disaster Management
- Health Services Management
- Quality and Patient Safety
- Risk Management
- a cross-specialisation (where no study area is undertaken but students study across a variety of fields).

International Course structure

Course structure

Study areas

Specialised streams of study are offered in the areas of:
. Emergency and Disaster Management *
. Epidemiology and Research Methods #
. Health Promotion
. Health Services Management
. Occupational and Environmental Health Sciences
. Public Health Nutrition

There is also the option of not completing a major and choosing units from more than one stream.

* The units in this study area are currently only offered in second semester
# Some units in this study area are only available in internal mode

Course Structure

Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:
- four core units (Part A),
- one research methods unit (HLN405, HLN705 or HLN706) and
- seven advanced elective units (Part B)

(2) Option two is to undertake coursework with a project component:
- four core units (Part A)
- one research methods unit (HLN405, HLN705 or HLN706) and
- five advanced elective units (Part B) and
- one project unit (HLN703).

(3) Option three is coursework with a thesis component:
- four core units (Part A)
- four advanced elective units (Part B)
- dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

Course Articulation

The Graduate Diploma in Public Health fully articulates into the Master of Public Health.

International Student Entry

International students may only enrol in full-time studies.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Course structure

Students in the Masters program choose one of the following:

- Full coursework, no project or thesis. This consists of four core units, one research methods unit and seven advanced elective units.
- Coursework with a project unit. This

consists of four core units, one research methods unit, five advanced elective units and one project unit.
- Coursework with a thesis component. This consists of four core units, four advanced elective units and a dissertation (one semester full-time, two semesters part-time).

Study areas

Specialised study areas are available in the areas of:

- Emergency and Disaster Management
- Epidemiology and Research Methods
- Health Promotion
- Health Services Management
- Occupational and Environmental Health Sciences
- Public Health Nutrition.

There is also the option of not completing a major and choosing units from more than one study area.

Master of Counselling

Handbook

Year	2012
QUT code	PY12
Duration (part-time domestic)	3 years
Campus	Kelvin Grove
Domestic fee (indicative)	2012: $4,000 per Semester
Total credit points	144
Dom. Start Months	February
Course Coordinator	Enquiries to psychology@qut.edu.au or 07 3138 4520
Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

An approved degree in a human service or related area, preferably with access to ongoing counselling work. Applicants will be shortlisted based on educational and professional qualifications. Shortlisted applicants are required to attend an interview to assess their suitability for counselling work. Candidates with other qualifications/appropriate work experience may be admitted, subject to approval by the Head of School of Psychology and Counselling.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

International Student Entry

This course is not available to international students.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

Course structure

The Master of Counselling is offered on a part-time, evening basis over three years.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. It provides a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

Professional recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website: http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Registration requirements

All students seeking registration with the Psychology Board of Australia as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Please refer to the Psychology Board of Australia website http://www.psychologyboard.gov.au/Registration-Standards.aspx for information on the Board's Registration Standards.

Futher Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

Course structure

The coursework component of this program provides training on how to assess and diagnose clinical presentations. It provides unique training on how to conceptualise and treat a broad range of child and adult clinical presentations from relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

Clinical placements begin in the first

semester with an internship spanning the first year. Students complete the internship under intense supervision at the specialised Psychology and Counselling Clinic at QUT's Kelvin Grove campus. During the internship, students gain experience in assessing and treating a range of clinical cases across the lifespan.

Once students are deemed competent through the internship, they continue their clinical training with external placements in hospitals, community agencies and a variety of child and adult mental health settings.

Discipline Coordinator	07 3138 4697 socialwork@qut.edu.au

Domestic Entry requirements

Australian bachelor degree (or equivalent) normally with minimum overall grade point average of 4 (on a 7-point scale) or above.

This course is designed for graduates from other disciplines seeking a qualification in social work. It is not suitable for qualified social workers seeking additional postgraduate study.

International Entry requirements

Applicants must have successfully completed a relevant Australian undergraduate degree or equivalent, with a grade point average of 4 or above (on a QUT 7-point scale).

This course is designed for graduates from other disciplines seeking a qualification in social work. It is not suitable for qualified social workers seeking additional postgraduate study.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Date claimers

You are required to attend on-campus sessions which are held during Orientation Week and Week 1 of each semester. For specific dates, please consult the class timetables via the class timetable search at: https://qutvirtual2.qut.edu.au/portal/pls/portal/ttab_unit_search_p.show

Attendance requirements

The course is delivered in a blended mode which combines on campus and virtual learning. Students are required to attend the timetabled activities as well as participate in the various virtual activities and forums associated with each unit.

Students enrolled in units for first semester must participate in the on-campus activities associated with the units, including during orientation week, as detailed in the date claimers above at Kelvin Grove Campus.

This participation is an essential and mandatory part of attendance, and will require students to have access to a computer with internet access, webcam and MP3 player (4 gig minimum). In addition to the internet access, the approximate cost of the webcam and MP3 player is $150. Total costs for a computer, internet access, webcam and MP3 player is approximately $1500.

Advanced standing

Students who have completed the Bachelor of Human Services degree from QUT or equivalent will receive one semester advanced standing and will be able to complete the course in three semesters over 13 months including a Summer Semester.

Professional recognition

Graduates will be eligible for membership with the Australian Association of Social Workers (AASW).

Course structure

Standard 2 Year Program

Students enrolled full-time in the Master of Social Work complete 192 credit points over four semesters.

The course includes a minimum of 980 hours of fieldwork placements supervised by a professional social worker undertaken over three Social Work Practice units. Professional Practice 1 and Professional Practice 2 are each 245 hours and Professional Practice 3 is 490 hours.

The course has a number of prerequisite units and students should take careful note of these when planning their course progression and professional placements.

Part-time study

Students undertaking part-time study must enrol in SWN001 in their first semester. Students may take advantage of Summer Semester offerings to accelerate their course completion.

B Human Services (QUT) Advanced Standing Structure

Students who have completed the Bachelor of Human Services degree from QUT or equivalent will follow the structure outlined below for BHumServ graduates.

Other requirements

Blue Card

As required by the Commission for

Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Hepatitis B vaccination
Hepatitis B vaccination is mandatory before beginning placements.

Course articulation

Students who wish to exit the MSocWk and have completed a minimum of 48 credit points in units within the course, will be eligible for a Graduate Certificate in Social Care which is available as an exit-only option.

Students who wish to exit the MSocWk and have completed a minimum of 96 credit points within the course, will be eligible for a Graduate Diploma in Social Care which is available as an exit-only option

Further information

For further information call the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au

Domestic Course structure

Course structure

The Master of Social Work consists of 16 units and can be studied full-time (two years) or part-time (four years). Students undertaking the part-time option may complete Summer Program offerings to accelerate their course completion.

The course includes a minimum 980 hours of field placements supervised by a professional social worker. These placements are undertaken over three practice units.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program.

The course of study normally includes a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation. The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

Course Coordination

Students undertake their program of research through one of the Faculty's schools (Human Movement Studies, Nursing and Midwifery, Optometry, Psychology and Counselling, Public Health) or the Social Work and Human Services Academic Unit. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant school prior to submitting an application.

Course Duration

The length of the course will vary depending on the applicants' qualifications on admission and their progress during the course. The minimum period of enrolment in the program is:
• 1.5 years for a full-time student with a three year undergraduate degree, or
• one year for a full-time student with a four year undergraduate degree, including honours or other relevant programs (including key research methods, literature review foundations and other coursework requirements), or
• one semester for a full-time student transferring from another higher degree research program.

The maximum period of enrolment for a full-time student is 2 years or equivalent (2 EFTSL).

International Student Entry

QUT advises that international students may enrol only in full-time studies.

Further Information

For more information about this course, please contact the Faculty on +617 3138 8290 or email health.research@qut.edu.au

Major Study Areas

Major study areas include:
- Health Promotion
- Health Services Management and Policy Sciences
- Nursing
- Occupational and Environmental Health Sciences
- Public Health.

Advanced Standing and Articulation

Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

The Doctor of Health Science will fully articulate with the Master of Health Science and students who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

Course Structure

Students undertake 96 credit points of coursework units and 192 research thesis credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students must:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from this major study area plus one approved elective unit or complete five units from this major study area.

Students are required to attend a compulsory residential program of two days annually during their candidature.

International Student Entry

International students may enrol in February or July in full-time studies.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Location & duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Doctoral studies may be completed in any area of research interest supported by the Faculty of Health. Current areas include

- Movement coordination and control
- Injury prevention and Rehabilitation
- Fitness, health and wellbeing
- Prevention and management of chronic disease
- Physical education
- Nursing research
- Cornea and contact lens
- Optical and visual performance
- Psychological therapies and counselling
- Social, cognitive and developmental processes
- Physical and psychological health
- Road Safety and traffic psychology
- Disease prevention and management
- Environmental health
- Health services research

The descriptions of research specialisations available are provided as a guide only and research in other related areas is welcomed.

Fees

Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level for domestic and international students.

Domestic Entry requirements

Entry to this course is competitive. Applications close on 1 October. To be considered for admission you must have:

- Australian Psychology Accreditation Council (APAC)-approved four-year training (or equivalent) with first-class honours or second-class honours Division A from a recognised institution, or
- minimum grade point average of 5.5 (on a 7-point scale) in the Postgraduate Diploma in Psychology (or equivalent).

All applicants must also:

- provide two referee reports
- attend an interview to assess interpersonal and research skills in a clinical context

International Entry requirements

Entry to this course is competitive. Applications close on 1 October. To be considered for admission you must have:

- Australian Psychology Accreditation Council (APAC)-approved four-year training (or equivalent) with first-class honours or second-class honours Division A from a recognised institution, or
- minimum grade point average of 5.5 (on a 7-point scale) in the Postgraduate Diploma in Psychology (or equivalent).

All applicants must also:

- provide two referee reports
- attend an interview to assess interpersonal and research skills in a clinical context

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	7.0
writing	7.0
reading	7.0
listening	7.0
overall	7.0

Registration Requirements

Students who are not already registered with the Psychology Board of Australia will be required to register with the Board as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Professional Recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx

Please refer to the Psychology Board of Australia website: http://www.psychologyboard.gov.au/Registration-Standards.aspx for additional information on the Board's Registration Standards.

Advanced Standing

Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

Course Structure

The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

Course Articulation

Doctorate students who successfully complete the requirements of the masters course may exit with a Master of Clinical Psychology.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4520 or email psyc.enquiries@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structures

In order to complete the Bachelor of Justice, you must complete a total of 288 credit points from the following:

Justice core units (8 units = 96 credit points)
Study Area A in either Criminology or Policing (8 units = 96 credit points)
Choice of:
Second major (6 units = 72 credit points)in either Criminology, Policing, Law or Psychology and 2 electives (2 units = 24 credit points)
Minor (4 units = 48 credit points) with a second minor or four electives (4 units = 48 credit points)
Electives (maximum of 8 units = 96 credit points)

Minors can be undertaken in Forensic Investigation (Justice students only), Indigenous Justice (university wide) or any other available minor.

A maximum of 96 credit points can be sourced from outside the school. Up to two units (24 credit points) may be undertaken from another institution, subject to prior approval from the course coordinator.

Diploma Entry and Advanced Standing (credit)

Students who have completed a full Diploma of Justice or Diploma of Justice Administration from an accredited Australian vocatonal education provider (eg TAFE-Qld) will be automatically granted for 96 credit points of advanced standing (credit) towards their degree after thir QTAC offer. Students with this qualification should make further enquiries the School of Justice in regard to unit selection. Prospective students should check the Advanced Standing Precedent List.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Study Areas

Criminology
Criminology is the study of crime, the criminal justice system and crime control. Areas of study in this major include youth justice, Indigenous justice, gender and justice, white collar crime, punishment and corrections, terrorism, organised and transnational crime, crime research methods, crime prevention, criminal justice policy and practice.

Policing
The Policing major includes the study of criminal investigations, intelligence, security and regulatory agencies and practices. Policing is a multi-disciplinary field of study. The Policing major aims to equip students with 'real world' knowledge and skills for the employment market in a range of justice professions, such as investigation, security and intelligence which include, but are not limited to policing.

Unit offerings and locations

The Criminology, Policing and Law majors and the Forensic Investigation minor are taught at the Gardens Point Campus and the Psychology major is taught at the Kelvin Grove campus.

Criminology, Policing and Law major units are offered in both External (EXT) and Internal (INT) mode of delivery, whereas Psychology and Forensic Investigation units are only available as internal face to face delivery.

Domestic Course structure

Your course

Year 1

You will complete a suite of core justice units in your first year plus one justice unit from your chosen major (criminology or

policing). These will provide you with an introduction to the central knowledge required of a justice professional and include the disciplines of criminology, policing, intelligence, sociology, law, psychology and ethics. In this year, you will begin to acquire problem-solving, analytical and professional skills to prepare you for your second year of tertiary study, and your chosen career. You will also begin to develop general attitudinal skills relating to social justice and critical awareness, and cognitive skills such as information and information technology literacy, research and communication.

Year 2

Further developing the knowledge and skills acquired in your first year, you will focus on your chosen major from the areas of criminology, policing and your other area of interest. These can be chosen from the secondary majors in either policing, criminology, law or psychology, undertaken with a combination of electives, which could include a minor in Indigenous justice or forensic investigation. Electives can also be chosen from outside the School of Justice and pathways will be offered to you to enable specialisation in relevant disciplines. Some units will require collaboration in group work, and you will learn important research skills and abilities in critical analysis and practical application.

Year 3

Using the skills you have built in the first two years, the third year provides you with the opportunity to choose more specialised elective units from within and outside the School of Justice. In your third year you will also have the opportunity to hone your research skills in a major independent study on a chosen topic as well as the chance to form industry links in a professional placement unit, undertaking a project at an external organisation. Third-year students may also take advantage of QUT's Career Mentoring Scheme to help guide them and develop skills and industry links.

Admission

This course is designed for serving officers of the Singapore Police Force only.

Eligibility for Graduation

A new policy concerning grades of 3 comes into effect from 1 January 2009 (QUT MOPP C/5.2).
With effect from this date grades of 3 will no longer be considered as a conceded or low pass but will be classified as a fail grade. Any grades of 3 awarded prior to 1 January 2009 will retain the conceded/low pass status and only a maximum of three grades of “3” will be counted towards your Bachelor of Justice course completion.

Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Career Outcomes

The defining nature of the QUT Bachelor of Laws is its real-world applied nature which will equip you with the high quality knowledge and skills and that meet the needs of the legal profession, government, business and industry. In developing the LLB the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice.

The flexible nature of the degree provides students with an opportunity to undertake a series of elective streams. These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

listening	6.0
overall	6.5

Domestic Course structure

Your course

You will complete 18 compulsory law units that cover the areas of knowledge required for admission as a legal practitioner. You will also choose 14 elective units that align with your desired career path and areas of interest.

Year 1

You will initially undertake a two-week intensive program followed by a suite of units introducing you to foundation legal concepts. You will learn about the Australian legal system and legal principles that you will build upon in later years. You will develop important legal knowledge and skills, such as research, problem solving, legal interviewing and negotiation. You also undertake contextual units that will enhance your understanding of how the law operates in practice and provide foundation knowledge in the areas of human rights and international law. You will be introduced to ethical, international and Indigenous legal perspectives.

Year 2

You will study key legal areas such as criminal, property and constitutional law. You will build upon the knowledge gained from your first year of study and extend the range of your legal skills by practising court advocacy and document drafting. You may develop an interest in a particular area of law and will start choosing elective units that align with your areas of interest.

Years 3 and 4

In the final years of your degree you will learn about principles relevant to legal practice, such as court procedure, the rules of evidence and how to act for clients in an ethical and professional manner. You will further develop legal skills, such as negotiation and advocacy, and will have a better understanding of the work of lawyers as professionals and officers of the court. You may also participate in workplace learning where you can apply what you have studied in legal settings, such as in law firms, government departments or community organisations.

These streams group legal content and legal skills units into alignment with the varied career destinations which a legal education opens to graduates and will allow you to study areas of the law that match your career aspirations.

Career opportunities include private practice as a barrister and/or solicitor; work in government departments; employment as an in-house lawyer; and a range of other occupations.

Advanced Standing (credit)

Students who are admitted to the graduate entry program will automatically receive one year of advanced standing which will allow the student to complete the degree in three years full-time.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second

year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Cooperative Education Program

The Faculty of Science and Technology's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

Professional Recognition

The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the Faculty of Law phone +61 7 3138 2707 or email law_enquiries@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

Graduates may develop careers in cyberlaw, intellectual property and privacy, dealing with the legal regulation of the Internet including downloading music, mobile phone camera use or copyright issues. You may become a legal practitioner, barrister, in-house counsel, government lawyer or policy adviser. There is also increased demand for roles in edemocracy both in egovernment service delivery and political campaigning.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practicing lawyer you will need to complete further practical legal training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Study Areas

IX53 will not have nominated majors and minors in the IT component and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX53 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management
• Data Warehousing
• Digital Societies
• Enterprise Systems
• Information Management
• Network Systems
• Software Engineering
• Web Technologies

Pathways to Futher Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making

their elective choices.
• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:
• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Course Overview

There is an ever-increasing number of criminal acts resulting from the development and use of technology (such as the Internet and mobile devices), therefore, students with a corporate systems management background have the appropriate skills and knowledge required to work on criminology and policing for these areas. Corporate systems management students also gain information systems knowledge which allows them to more effectively manage, secure and control systems and processing in justice departments.

Corporate systems management teaches students how to analyse business needs and devise IT-enabled business systems that deliver the necessary information to the key people via the most appropriate technologies. The justice component comprises a primary major study area in either criminology or policing, which covers skills in criminology, policing, ethics, crime prevention, justice policy and investigations.

Career Outcomes

Graduates find work in justice areas including corrective services, police, Crime and Misconduct Commission, Department of Justice and Attorney-General, Federal and Family Courts and the Australian Taxation Office.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admissions Rules, subject to final approval. It will enable you to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’ , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow

you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Course structure

Course structure

You will study a combination of media and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units that are relevant to your career interests.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business
- Management
- Marketing
- Public Relations

For professional recognition, the Accountancy structure differs from the normal structure. Accountancy students will complete seven Business School Core Units and complete a nine unit major.

Professional recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for former completed studies and other assessable learning outcomes. See more at Advanced Standing

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’ , for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units.
New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their science major. See Studyfinder for details on the Bachelor of Applied Science majors.

At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practising lawyer you will need to complete further practical legal training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

As students progress towards the end of their degrees there are more opportunities

to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Journalism (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Maths A, B or C

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

A double degree in justice and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to the field of justice.

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas. The course provides a broad foundation in the science of psychology and its application, developing your ability to understand and apply psychological principles to personal, social, and organisational issues, as well as high-level communication and social research skills that are valuable in a wide range of professions.

In addition to core studies in social, developmental, biological, cognitive, and abnormal psychology, research methods and psychological assessment, you can choose electives from specialist areas in alcohol and drugs, family therapy and counselling, psychology and gender, and traffic psychology. Final-year students have the opportunity to apply their knowledge and skills in a volunteer community placement.

The Bachelor of Justice equips graduates for a wide variety of employment in the criminal justice, government (state and federal), law enforcement and policing and intelligence fields. Past graduates have developed successful careers in the State or Federal police services, created social and justice policies for governments, contributed to the work of advocacy centres (eg. women, youth and children's advocacy), become criminologists, and advanced into Defence, Customs and the Australian Crime Commission.

Other popular career choices include corrections and human rights and anti-discrimination areas. Students are prepared for the workplace, not only by exploring the most recent theory and practice of social justice, but by including relevant general skills like problem-solving, analytical ability and applied computer skills that are relevant to the workplace.

Location

Psychology units are offered at Kelvin Grove campus and Justice units are offered at Gardens Point campus.

Career outcomes

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas. Psychology graduates have skills that equip them for many professional areas. The analytical, research and interpersonal skills acquired have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.
Further study is required if you wish to become a registered psychologist. This currently involves completing a fourth year of study in Psychology, followed by at least two years of further study, which may comprise the completion of an appropriate APAC-accredited Masters degree and/or supervised work experience

The Bachelor of Justice will equip you for

a wide variety of employment in criminal justice and related security fields. Past graduates have developed successful careers in state and federal law enforcement, correctional services, private security, defence services and customs, and worked on social and justice policies for government and non-government organisations. Others have become criminologists, contributed to women's youth and children's advocacy, or worked in the areas of human rights and antidiscrimination.

You will be prepared for the workplace by exploring the most recent theory and practice of social justice, and gain problem-solving, analytical and applied computer skills that are relevant to the workplace.

Professional recognition

The Bachelor of Behavioural Science component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology, followed by at least two years of further study, which may comprise the completion of an appropriate APAC-accredited Masters degree and/or supervised work experience.

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Course structure

In order to complete the Bachelor of Behavioural Science (Psychology) component, you must complete a total of 192 credit points consisting of:
Psychology core units (12 units = 144 credit points)
Psychology elective units (4 units = 48 credit points)

In order to complete the Bachelor of Justice component, you must complete a total of 192 credit points from the following:
Justice core units (8 units = 96 credit points)
Study Area A (8 units = 96 credit points)

Students must complete a total of 384 credit points.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Psychology) (Honours) or Postgraduate Diploma in Psychology, provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Advanced standing based on previous study

QUT's standard advanced standing arrangements apply.
For core psychology units advanced standing is restricted to equivalent units completed in an APAC-accredited psychology program.

Domestic Entry requirements

A Bachelor of Justice 3 year degree or equivalent, with a grade point average of at least 5 (on a 7-point scale). Applicants would normally have completed the *JSB273 Crime Research Methods* unit (or equivalent). Students wanting to do Honours are encouraged to do *JSB976 Independent Study* unit (or equivalent), offered in the Bachelor of Justice undergraduate program. However other qualifications, including work experience or involvement in research, may be deemed appropriate by the course coordinator.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Entry Requirements

A Bachelor of Justice three-year degree or equivalent, with a grade point average of at least 5 (on a 7-point scale). Applicants would normally have completed the JSB273 Crime Research Methods unit (or equivalent). Students wanting to do Honours are encouraged to do JSB976 Independent Study unit (or equivalent), offered in the Bachelor of Justice undergraduate program. However other qualifications, including work experience or involvement in research, may be deemed appropriate by the course coordinator.

Course Structure

The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make structured decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

Articulation

The Bachelor of Justice (Honours) is excellent preparation for entry to higher degree programs ie. Master of Justice (Intelligence or Policing), Master of Justice (Research) or PhD.

Overview

The Graduate Certificate in Criminology provides a tertiary qualification for students who currently work in, and those seeking employment in criminology. Through a range of teaching strategies, the program develops relevant competencies, skills and knowledge in the criminology discipline areas. The program is designed for students who have completed an undergraduate qualification, but students with extensive appropriate professional experience are invited to apply. Completion of this course facilitates entry into the Master of Justice (Criminology).

Entry Requirements

Domestic students:
A relevant and approved three year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

International students:
A relevant and approved three year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

International Students who are considering making application to this course should be aware this program is not available in a full-time study mode. Units are available for external/on-line mode and may be undertaken off-shore in the students home country.

English Language Requirements

IELTS 6.5 (with not lower than 6 for any one band).

Course Structure

The Graduate Certificate in Criminology consists of four (4) units which comprises of:
- One (1) generic core unit (12 credit points)
- Two (2) specialist units in criminology (24 credit points)
- One (1) elective unit chosen from the Elective list (12 credit points)

Unit Offerings

Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawjs_enquiries@qut.edu.au.

Pathways to further study

A student who has successfully completed the Graduate Certificate in Criminology with a GPA of 4.0 or better, may articulate to the Master of Justice (Criminology) and receive academic credit of 48 credit points equivalent to four (4) units.

Currently enrolled QUT students in an articulating postgraduate coursework nested program (ie. completing Graduate Certificate in Criminology and moving to the next level of study) are not requiried to complete a Postgraduate Application (PG) form. Student Business Services send an email to your student mailbox inviting currently enrolled students to articulate to the next stage of the program - Master of Justice (Criminology).

Prospective students, not enrolled at QUT, should complete the Postgraduate

Application form (PG form) available form the QUT website - http://www.qut.edu.au/

Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawjs_enquiries@qut.edu.au.

Pathways to further study

A student who has successfully completed the Graduate Certificate in Intelligence with a GPA of 5.0 or better, may articulate to the Master of Justice (Intelligence) and receive academic credit of 48 credit points equivalent to four (4) units.

Currently enrolled QUT students in an articulating postgraduate coursework nested program (ie. completing Graduate Certificate in Intelligence and moving to the next level of study) are not requiried to complete a Postgraduate Application (PG) form. Student Business Services send an email to your student mailbox inviting currently enrolled students to articulate to the next stage of the program - Master of Justice (Intelligence).

Prospective students, not enrolled at QUT, should complete the Postgraduate Application form (PG form) available form the QUT website -http://www.qut.edu.au/

Domestic Entry requirements

An undergraduate degree (other than law) from a recognised tertiary institution with a minimum GPA of 4.0.

International Entry requirements

An undergraduate degree (other than law) from a recognised tertiary institution with a minimum GPA of 4.0.

Minimum english requirements

Students must meet the English proficiency requirements.

Overview

This course is designed to provide opportunities for non-law graduates to undertake a program of legal study related to their professional and educational needs. It will provide graduates with specialised knowledge and of areas of the law and skills that they will be able to apply within their discipline or professional area.

Domestic Course structure

Course structure

The course comprises 48 credit points (four units) of coursework units. The required credit points can be accrued in two ways. Students may nominate a major from the areas available and choose units to the value of 48 credit points. Alternatively, students can complete a generic certificate by choosing any coursework units to the value of 48 credit points.

Majors include:

- Commercial Law
- Creative Industries Law
- Project Management
- Health Law

Not all units are available in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. Units may be offered in internal, external or block mode of teaching. However, the core units in the program at currently offered only internal mode, which requires weekly attendance at Gardens Point campus. Units offered externally are not available for off-shore study - students must be living in Australia.

Overview

This Certificate course allows students to enhance their knowledge in particular areas of interest in the law. Students may select units from one of the eleven majors offered or may elect to complete the course without a major.

Entry Requirements

Domestic students:
Prospective students must either:
(i) hold the degree of Bachelor of Laws or equivalent from QUT or equivalent institution;
OR
(ii) have a professional qualification in law and at least three years of professional legal experience after first admission to practice.

International students:
Prospective students must hold the degree of Bachelor of Laws or equivalent from QUT or equivalent institution.

Course Structure

Students must undertake a total of 48 credit points (4 units). This may be achieved in one of two ways:

1. Students may nominate a major from the list below and choose 48 credit points (4 units) from that particular major;
or
2. Students may complete a generic course by choosing the 48 credit points (4 units) from any major.

Majors:
Commercial Transactions, Corporate Law, Criminology, Environmental Law, Health Law, Intellectual Property and Technology Law, International and Comparative Law, Media and Communications Law, Planning and Resources, Property Law, and Public Law.

NOTE: International students are normally only able to undertake a generic course.

Unit Information

Not all units are available in any one year. Generally, postgraduate units are offered on a two year rotational basis, and offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive, internal and external mode of study.
Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas are able to enrol in a combination of intensive, external and internal units each semester. (This is subject to approval).

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities.

Articulation to the Master of Laws by Coursework

The Graduate Certificate in Law articulates into the Master of Laws (LW51) course.

Duration (full-time)	6 months
Duration (part-time domestic)	1 year
Campus	Gardens Point
Domestic fee (indicative)	2012: $9000 per Semester
International fee (indicative)	2012: $11,400 per semester
Total credit points	48
Credit points full-time sem.	48
Credit points part-time sem.	24
Course Coordinator	Director, Graduate Programs
Discipline Coordinator	3138 2981 / 3138 2305 lawandjustice@qut.edu.au

Domestic Entry requirements

An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate.

International Entry requirements

An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

Students are required to undertake 4 units (48 credit points). These units are core units taken from the Bachelor of Laws (LW34) program.

External Students

Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30 kilometre radius of the Gardens Point campus.

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the commencing students orientation school. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students' responsibility to ensure they have access to a suitable law library.

Course Coordinator	Dr Allan Chay, Director Legal Practice
Discipline Coordinator	Associate Professor Allan Chay +61 7 3138 2211 a.chay@qut.edu.au

Domestic Entry requirements

To be eligible for a place in the Graduate Diploma in Legal Practise (the course): (a) you must have completed an approved degree in law by the date the course commences; or (b) you must be currently studying "an approved degree in law", and by the date the course commences expect to have no more than two units of study remaining to fulfil the requirements of the degree.

"An approved degree in law" is a degree that satisfies Queensland requirements for admission to the legal profession. It includes overseas degrees that have been assessed by an Australian Legal Practitioner's Admission Board where the degree holder has completed any additional undergraduate study required by that Board.

The Course is offered in 3 modes: full-time; part-time (general; part-time (in practice) - available to persons who are working in approved laws firms or government legal offices.

For more information on Queensland admission requirements, please refer to the Queensland Law Society website.

International Entry requirements

To be eligible for a place in the Graduate Diploma in legal Practice (the course): (a) you must have completed an approved degree in law by the date the course commences; or (b) you must be currently studying "an approved degree in law", and by the date the course commences expect to have no more than two units of study remaining to fulfil the requirements of the degree.

"An approved degree in law" is a degree that satisfies Queensland requirements for admission to the legal profession. It includes overseas degrees that have been assessed by an Australian Legal Practitioner's Admission Board where the degree holder has completed any additional undergraduate study required by that Board.

For more information on Queensland admission requirements and assessment of overseas qualifications, please refer to the Queensland Law Society website.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

This diploma satisfies the practical training requirements for admission as a legal practitioner in Queensland

International Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

Overview

The Master of Justice (Intelligence/Criminology) by Coursework provides postgraduate education in the study areas of Intelligence and Criminology. This course extends the scope of areas presented in the Graduate Certificate program to provide a complete foundation for intelligence and criminology professionals.

Entry Requirements - Domestic and International

An appropriate undergraduate degree or equivalent with a minimum grade point average (GPA) of 4.0 (on a 7 point scale). Applicants who meet the undergraduate requirement and who have relevant professional experience may be eligible for advanced standing.

OR

A graduate certificate in an appropriate field with a minimum grade point average (GPA) of 4.0 (on a 7 point scale).

Notes for International Students

International students may study this course in the External On-line mode in their home country. This course is not available to full-time international students wishing to study this course in Australia as it is not available as an Internal offering.

English Language Requirements

IELTS 6.5 (with no lower than 6 for any one band)

Course Requirements

The course consists of 144 credit points of study comprising of 24 credit points of core units, 72 credit points from a study area and 48 credit points of option units. Advanced standing of 48 credit points (replacing the option units) may be available.

Advanced Standing Based on Previous Study

Students with a relevant undergraduate degree and professional experience may be eligible for 48 credit points of advanced standing.

Full time program

Students wishing to undertake this program as full-time degree have the opportunity to fast-track their studies by undertaking 4 units per semester. The structure of the course, and the way in which the units are offered across 2 semesters, allows students with advanced standing to complete a Master of Justice in 1 year with the standard full-time load.

Early exit options

Students may be eligible to exit with a Graduate Certificate.

Master of Justice (Intelligence)

Pathways to further
This course articulates with the Master of Justice (Advanced) and the Doctor of Juridical Science (SJD).

Unit Offerings
Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawjs_enquiries@qut.edu.au.

Articulation to Master of Justice (Advanced)
Students who have successfully completed the Master of Justice with a GPA of 4.0 may be eligible to articulate to the Master of Justice (Advanced).

Career outcomes
Graduates of this program gain the skills and knowledge to be better prepared or gain enhanced knowledge in their current roles, for example Intelligence Analysts, Security and Investigators, Australian Defence Force, Correctional Services and Federal and State Police Services.

Overview

The Master of Justice (Advanced) provides a higher level postgraduate qualification by building on from the Master of Justice (Intelligence or Criminology). This involves undertaking a work-based thesis or supervisor supported project which enhances research analysis skills. Topics are self selected in consultation with the academic supervisor and, if relevant, the student's employer. Completion of the Master of Justice (Advanced) degree will enable articulation to a PhD or Doctor of Juridical Science research degrees.

Entry Requirements

An appropriate undergraduate degree or equivalent with a minimum grade point average (GPA) of 4.0 (on a 7 point scale). Applicants who meet the undergraduate requirement and who have relevant professional experience may be eligible for advanced standing.

Articulation

Completion of the Master of Justice (Advanced) will enable articulation to PhD or Doctor of Juridical Science research degrees.

Start months	February, July A limited number of units are available in January, enabling an earlier start. This option is only available to applicants who submit their postgraduate application form by 9th December 2011.
Int. Start Months	February, July
Course Coordinator	Director, Graduate Programs
Discipline Coordinator	Associate Professor Sheryl Jackson +61 7 3138 2707 lawandjustice@qut.edu.au

Domestic Entry requirements

Prospective students must have:
(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR
(ii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

International Entry requirements

Prospective international students must have completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Master of Laws by Coursework will deepen and broaden your legal learning, developing your critical evaluation of the law and consideration and analysis of the attitudes and values underlying it. During the course, you are expected to attain high level competence in legal research and writing on areas of conceptual difficulty. The course leads on to the Doctor of Juridical Science (subject to normal entry requirements).

Entry Requirements

Domestic students:
Prospective students must have:
(i) completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent;
OR
(ii) hold a professional qualification in law and have at least three years of professional legal experience after first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

International students:
Prospective international students must have completed the requirements for the degree of Bachelor of Laws or equivalent (as approved by Director, Graduate Programs) with a minimum GPA of 4 or equivalent.

Course Structure

The course structure comprises 96 credit points (8 units) of coursework units. This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) can be chosen from any unit not included in the nominated major, including units listed under "additional units";
or
2. Students may complete a generic degree by choosing all 96 credit points (8 units) from any of the majors.

Majors available:
Commercial Law, Criminology, Environmental Resources Law, Health Law, Intellectual Property and Technology Law, International and Comparative Law, and Public Law.
NOTE: International students are normally only able to graduate with a generic degree.

Articulation

This course articulates with the Doctor of Juridical Science (SJD).

Advanced Standing

Graduates of QUT's Graduate Diploma in Legal Practice (LP41), who graduated from courses run in and from 2000 until the end of 2008, are entitled to 48 credit points of unspecified credit in the LW51 Master of Laws course, if they enrol in LW51 by second semester 2010.

Graduates of QUT's Graduate Diploma in Legal Practice before 2000 or after 2008 are eligible for up to 24 credit points of unspecified credit towards the Master of Laws course.

Graduates of other Australian university-based practical legal training courses that

lead to an award of a Graduate Diploma in Legal Practice are entitled to 12 credit points of unspecified credit.

Persons who have successfully completed the Queensland Law Society accredited specialist assessment and are Queensland Law Society Accredited Specialists are entitled to 12 credit points of unspecified credit when they enrol in the Master of Laws course.

Unit Information

Not all units are available in any one year. Generally, postgraduate law units are offered on a two year rotational basis, and are offered subject to staff availability and minimum enrolments being met.

Please refer to the following link for current unit information: http://www.law.qut.edu.au/study/courses/pgrad/units_10.jsp

Units may be offered in block, internal or internal and external mode of study. Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas are able to enrol in a combination of intensive, external and internal units each semester. (This is subject to approval)

The degree may contain up to 48 credit points in independent research projects, as approved by the Director, Graduate Programs.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

Overview

This course is offered in collaboration with WIPO Worldwide Academy and is designed to build on the skills and knowledge of professionals working in fields related to and allied with intellectual property law by providing;

• a deep and thorough knowledge of IP law, policy and practice relevant to IP professionals as applicable in the global environment, particularly in the Asia/Pacific region;
• competent research, written and oral skills underpinned by strong practical knowledge of IP law;
• the ability to apply relevant IP law, policy and principles in diverse national and international contexts.

A diversity of teaching methods will be used from intensive classroom delivery and interaction to online contact. However, course content principally will be delivered through face-to-face lectures, tutorials, seminars and workshops. Particularly for WIPO taught units, students will be supported through email and chat room contact with lecturers and tutors. Each unit will be supported by a web site enabling students to access study materials and other information relating to the unit at any time of day or night.

Application Closing Date

The final closing date for applications for this course for 2011 is 21 January 2011 (no late applications will be accepted).

Offer Acceptance

The Faculty of Law would like to advise that if an offer is made to you for this course, that it is necessary for you to accept your offer as a matter of priority. The first unit in this course, LWN401 General Introduction to Intellectual Property Law, commences on 28 February, 2011. Therefore to ensure that you are not disadvantaged in relation to fees, visa requirements or other administrative matters, we advise that you are required to accept your offer into this course as early as possible.

Advanced Standing

Advanced Standing may be awarded to a maximum of 48 credit points where appropriate and as approved by the Program Director.

Early Exit Option

Students who successfully complete four units of the course may apply to exit early with LW61 Graduate Certificate in Intellectual Property Law. Students cannot enter the Graduate Certificate directly.

Course Structure

Course completion requires satisfactory completion of eight core units or equivalent as determined by the Program Director. This course is normally offered

in the full-time mode. Part-time study is available after consultation with the Program Director.

Course Core – 96 credit points comprising:

Course Information

The third cohort for this course will commence on 27 February and finish on 29 October 2012. All classes will be held in C408 (Law Library) at Gardens Point campus.

LWN401 General Introduction to Intellectual Property will be held from February to March with final assessment due in April.

LWN402 Patents and Biotechnological Inventions will be held during March with final assessment due in May.

LWN403 Copyright and Related Rights will be held in April with final assessment due in May.

LWN404 Trade Marks, Domain Names and Geographical Indications will be held during May with final assessment due in June.

LWN405 Industrial Designs and Plan Variety Protection will be held in July with final assessment due in August.

LWN406 Traditional Knowledge and other Emerging Issues; Interface between Antitrust and IP Rights will be held during August with final assessment due in October.

LWN407 Intellectual Property Management will be held during September with final assessment due in October.

LWN408 Research Project will be held during October with final assessment due in October.

Domestic Course structure

Course structure

The course requires satisfactory completion of eight core units or equivalent as determined by the Program Director. The course is normally offered in full-time mode. Part-time study is available after consultation with the Program Director.

Each unit is delivered in a week of intensive classes (26 hours per unit) spread over two semesters (mid-February to late-October).

International Course structure

Course structure

The course requires satisfactory completion of eight core units or equivalent as determined by the Program Director. The course is normally offered in full-time mode. Part-time study is available after consultation with the Program Director.

Each unit is delivered in a week of intensive classes (26 hours per unit) spread over two semesters (mid-February to late-October).

listening	6.0
overall	6.5

Award

1.1 The following rules apply to the degree of Master Justice to be obtained by research and thesis awarded by the Queensland University of Technology, and are made with the authority of the Academic Board of this University.
1.2 For the purposes of these Rules the Course Coordinator acts as the delegate of the Dean, Faculty of Law, and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

Admissions and Enrolment

3.1 An application for admission shall be made on the prescribed form:
(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).
3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Course Coordinator on the recommendation of the Law Faculty Research Committee.
3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.
3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee.
4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.
4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidature under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.
4.4 A report on the action taken to resolve

the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.
4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.
4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.
4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

Thesis Requirements

5.1 Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis submitted for the degree shall be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminal justice (eg criminology, law enforcement, strategic intelligence). It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.
5.2 The candidate shall submit a detailed research outline to the Course Coordinator within two months of admission to candidature. The research outline should include the following:
* The proposed title of the thesis;
* The objectives of the program of research and investigation;
* An outline of the proposed research;
* The Research methods and plan;
* The relation of the study to previous work in the same field by the candidate and others;
* A preliminary literature review;
* A substantial bibliography;
* A timeline for the completion of the research
* A copy of the Research Ethics Review Checklist
* The proposed supervisor(s) and their credentials
* An intellectual property agreement if required
* Memo of Understanding for any external supervisor
5.3 The Law Faculty Research Committee may, upon the recommendation of the Course Coordinator vary the title of the thesis topic.
5.4 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Course Coordinator.
5.5 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Course Coordinator not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.
5.6 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.
5.7 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:
(i) be accepted
(ii) not be accepted, or
(iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.
5.8 After both examiners' reports are received the Office of Research will forward them to the Course Coordinator, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement
Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Course Coordinator will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the MJust (Research) degree.

Examiners not in Agreement
Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of MJust (Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Course Coordinator or nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals
A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The University Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the University Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The University Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may

seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the University Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The University Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

Credit for Research Work Done Elsewhere

6.1 The Course Coordinator may grant credit toward the Master of Justice degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Course Coordinator:

(i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
(ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Course Coordinator:

(i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;
(ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eight semester of the candidature. International students studying on student visas must be enrolled on a full-time basis.

7.2 The Course Coordinator may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules. Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Course Coordinator and the Office of International Students if an extension of time is required.

Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Justice (Research) by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee.

Domestic Course structure

Course structure

Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application.

The thesis that students submit for their degree should be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in the student's area of research.

International Course structure

Course structure

Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application.

The thesis that students submit for their degree should be not less than 50 000 words and should constitute a substantial contribution to knowledge and understanding in the student's area of research.

Domestic Entry requirements

The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.
1.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:
1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or
1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or
1.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and
1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

Admissions and Enrolment
2.1 An application for admission shall be made on the prescribed form:
(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).
2.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.
2.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.
2.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

International Entry requirements

The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.
1.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:
1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or
1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or
1.2.3 The submission of professional

publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and
1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

Admissions and Enrolment
2.1 An application for admission shall be made on the prescribed form:
(i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
(ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

Progress Reports

4.1 The Principal Supervisor and candidate are required to complete a QUT Annual Report, completed online via QUT Virtual and due on 30 September as well as an informal report to the Assistant Dean Research by 30 April.
4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.
4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.
4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.
4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.
4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.
4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

Thesis Requirements

5.1 The thesis submitted for the degree shall be not less than 50,000 words and not more than 60,000 words in length and shall constitute a substantial contribution to knowledge and understanding in the area of the law and subject of the research. It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.
5.2 The candidate shall submit a detailed research outline to the Assistant Dean, Research within two months of admission to candidature. The research outline should address the following:
• The proposed title of the thesis;
• The objectives of the program of research and investigation;
• An outline of the proposed research;
• The Research methods and plan;
• The relation of the study to previous work in the same field by the candidate and others;
• A preliminary literature review;
• A substantial bibliography;
• A timeline for the completion of the research
• A copy of the Research Ethics Review Checklist
• The proposed supervisor(s) and their credentials
• An intellectual property agreement if required
• Memo of Understanding for any external supervisor
5.2 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Assistant Dean, Research.
5.3 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Assistant Dean, Research in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.
5.4 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.
5.5 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis:
(i) be accepted
(ii) not be accepted, or
(iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.
5.8 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement
Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Assistant Dean, Research will consult with the Principal Supervisor

to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the LLM (Research) degree.

Examiners not in Agreement
Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of LLM(Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decisions is that the thesis be accepted or that the thesis be rejected, this shall be the decisions of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals
A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis, one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

listening	6.0
overall	6.5

Location and Duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Domestic Entry requirements

1. Entry Requirements
1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:
(i) holds or has completed the requirements of the degree of (a)Master of Laws by Coursework or (b)Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to the proposed course of study;
(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and
(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

International Entry requirements

1. Entry Requirements
1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:
(i) holds or has completed the requirements of the degree of (a)Master of Laws by Coursework or (b)Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to the proposed course of study;
(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and
(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:
(i) holds or has completed the requirements of the degree of (a)Master of Laws by Coursework or (b)Master of Justice by Coursework with a grade point average of at least 5.5 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology;

and, an applicant must also satisfy the following:

(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

2. Period of Time for Completion of Program

2.1 The normal period of candidature is:
* Full-time candidates: two years from date of commencement;
* Part-time candidates: four years from date of commencement;
In exceptional cases the Law Faculty Research Committee may approve submission of the thesis within a shorter period.
2.2 The maximum period of candidature is:
* Full-time candidates: four years from date of commencement;
* Part-time candidates: eight years from date of commencement;
2.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form to the Faculty Research Committee through the office of the Assistant Dean, Research. International students studying on student visas are unable to alter their mode of study from full-time to part-time unless they are in their final semester of study.
2.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form through the Assistant Dean, Research for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous progress/supervisor reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor are not usually considered exceptional.

3. Supervision

3.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 9).
3.2 A Principal Supervisor from QUT and one Associate Supervisor shall be appointed.
3.3 The Principal Supervisor has responsibility for supervising a candidate on a frequent basis and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates, and shall have an established research record in the area of the proposed project.
3.4 The Associate Supervisor may be a member of the QUT staff and must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

4. Course Structure

The value of the course is set at 192 credit points, a dissertation of 50,000-60,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as a requirement of this course.

Further Information

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	5.0
writing	5.0
reading	5.0
listening	5.0
overall	5.5

International Course structure

You will complete six of the business core units as well as two units of communication.

University Diploma in Business units

- Accounting
- Economics
- Global Business
- Management
- Marketing
- Working in Business
- Professional Communication 1
- Professional Communication 2

Extension English Sessions

For first-semester students, these sessions take place during weeks two to eight. Other QUTIC students in University Entry Programs may join the sessions, if their timetable permits. The aims of Extension English are to improve the student's English language proficiency in speaking, listening and overall writing ability in a relaxed environment.

In addition to developing these language skills, students have the opportunity to discuss cultural issues and ask questions about studying at university.

Students who achieve a grade point average of at least 4.5 (on a 7-point scale), will recieve 96 credit points (two semesters) of advanced standing for six semesters to complete:

• Bachelor of Fine Arts (Animation)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have completed four semesters with sound achievement in high school or subsequent study to be considered for admission to this course (4, SA). Accountancy, Finance, Economics and Marketing majors also requires study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

The new Bachelor of Business degree allows you to be flexible in your chosen field of studies to suit your own needs and career aspirations. The three distinct components within the degree give you many combinations of majors and specialisations.

Students commencing the Bachelor of Business must complete 24 units of equal weighting totalling 288 credit points, comprised of:
(a) eight Business School Core units
(b) one block of eight Major Core units
(c) choice of one block of:
• six Second Major units and two option (elective) units or
• eight option (elective) units or
• two Minors (four units each) (university or Business School or extension) or
• one Minor (four units)(university or Business School or extension) and four option (elective) units.

Enrolment and advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for former completed studies and other assessable learning outcomes. See more on Advanced Standing.

Caboolture campus students: The Business School Core units and the Management and Marketing majors are available at this campus. Students must choose first year Business School Core units at Caboolture campus but may choose units from majors from other Business disciplines at Gardens Point to complete the rest of their degree. When enrolling for the first time, students will be required to select either Management or Marketing as their major. After their first year, students will be able to change their major. Students may choose majors offered at Gardens Point or continue their studies at Caboolture. Students from other campuses may enrol in units at Caboolture. Business core unit availability will vary each semester. Students who wish to complete their degree in full-time mode should consult Studyfinder for specific course progression and enrolment advice. Queries regarding unit availabilities and progression can be directed to Business Student Services on bus@qut.edu.au or the Caboolture Student Centre.

Gardens Point campus students: The first year program and all Business study areas are available at Gardens Point. Students commencing this course at Gardens Point campus must enrol on-line by nominating their primary major and then enrol in units according to that major. You are required to only nominate your first major to satisfy enrolment procedures. The second area of study, i.e. Second Major/Extension/Minor may be nominated at a later date. Students who have been granted advanced standing (academic credit) should nominate their second area of study (i.e. Second Major/Extension/Minor) in order to determine their enrolment program.

Special requirements

• For your course structure and enrolment advice see Course Checklist and follow the instructions.
• A full-time student may only enrol in units contained in the normal course

program for semesters 1 and 2 in the first year of study unless in exceptional circumstances and with the approval of the Course Coordinator.
• A part-time student may only select units from those listed for years 1 and 2 in the first two years of study.
• Students must take Business School Core units at first attempt, in the semester outlined in the structure of their chosen major.
• A student must enrol in more than one unit in any semester, unless they have the approval of the Course Coordinator.

International students

International students must maintain a full-time study load to meet student visa requirements. International students are only permitted to enrol in units at Gardens Point campus. International students should consult the International Student Office on Level 2, B Block for advice.

Professional recognition

Professional Recognition can be found in the individual majors of the Bachelor of Business (BS05).

Discipline coordinators

Please refer to your major for details on your Discipline Coordinator.

Student support – Receive personal support through a dedicated Student Enquiries Centre. Have your admission, enrolment, and study enquiries answered by our Student Learning Advisors at the Centre on Level 1, B Block, phone 3138 2050 or email us: bus@qut.edu.au

Degree plus Masters option

You can also expand your career options with a Master of Business in a complementary study area.

Bachelor of Business (Honours) year option

Refer to (BS63) for details.

Important information

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

Sign up for Accounting Connexions to learn the ropes of university life from an experienced student. Academically, you will build a base of broad business knowledge through the core units, covering all areas of business from finance and economics through to marketing and electronic business. Generic skills in all areas will enhance your understanding of how businesses operate within the commercial and legal environment. Start your accountancy major in second semester with a focus on financial reporting and disclosure.

Year 2

You will learn how to interpret financial information and reports and gain skills in using this information for business decision making. Practical experience in using software such as MYOB and Accounting Information Systems Cycles will complement your theoretical knowledge in corporate reporting and product costing. You can start to build your professional networks and find out more about the corporate world that awaits you at boardroom seminars. You'll also start to shape your career with the selection of a second study area.

Year 3

You will draw on the knowledge gained through your major to solve real-world accounting problems such as preparing a tax return or analysing the financial statements of a client business. You'll also investigate how auditors report on the financial statements of companies, individuals and trusts. For the best chance of a top job to launch your career, attend graduate recruitment events on campus or take a work placement with one of our industry partners.

Professional recognition

Graduates meet the academic component of requirements for membership of CPA Australia, the Institute of Chartered Accountants in Australia, the Institute of Public Accountants, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

In addition we have also been accredited with RG146. Therefore students who complete the Superannuation and Wealth Management Minor in conjunction with an Accountancy Major will meet the Australian Securities and Investments Commission (ASIC) RG146 competency and skill requirements for Tier 1 financial advisers.

Real world focus

Our Johnston Rorke Boardroom Seminar Series gives some second-year students a feel for corporate life, with the opportunity to talk to partners of the firm about real client cases.

In third year some students will have the opportunity to undertake an organised work experience placement with an accounting firm or in an organisation in the media, community, banking or government sector. Demonstrating your ability to apply your knowledge in a real workplace is another way you can stand out from the crowd to future employers.

You can even get a taste of what life is like as a researcher during your studies, with paid research work opportunities

within the School, working with academic supervisors on real-world research projects, or as part of a Summer Semester Research scholarship. You might discover your potential for research work or an academic career.

Career preparation program

Accounting Connexions helps you settle into university life by matching first-year students with established accountancy students. You'll get to know how university works, where the library and computer labs are, and meet other students.

Other majors

See also separate entries for the following majors in this course: Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing, and Public Relations.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to international and electronic business. With generic skills in all areas, you'll have an understanding of how businesses operate within the commercial and legal environment. Your advertising major starts in second semester with the question of why consumers choose the products they buy. You'll also learn how advertising agencies relate to both the media, suppliers and the companies that hire them.

Year 2

You will build your skills in creating advertising, including practical writing and concept development workshops. You'll learn to solve advertising problems by analysing the consumer and the product, and how to create cost effective media schedules. You can start to build your professional portfolio and gain the attention of national and international agencies by entering competitions specifically for advertising students. You'll also have the opportunity to personalise your degree with the selection of your second study area.

Year 3

You will round out your major by formulating an advertising campaign from a real-world client's brief. Working as a team, you'll research your client's advertising problem and identify strategies to solve it. You'll then develop creative ideas, match them to innovative media solutions and deliver a boardroom pitch to the client. Your client could be a Queensland icon such as Queensland Day, the Ekka or the Brisbane Lions, a charity such as Muscular Dystrophy, or a national consumer goods or pharmaceutical company.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Advertising first and second major – Students will meet requirements for membership to the Advertising Federation of Australia, the Australian Association of National Advertisers, Media Federation of Australia and the Australian Direct Marketing Association.

Our reputation

QUT was the first university to offer a degree level program in advertising - a decade before anyone else in Australia. This course remains a unique advertising degree taught within a business school, giving QUT advertising graduates a strategic and commercial edge.

Industry links

The advertising industry is a network, and one which QUT is strongly connected to. Our School of Advertising, Marketing and Public Relations interacts with the industry, sponsoring events and drawing from the industry a talented pool of guest lecturers.

Our lecturers have worked in the industry, and bring real-world experience and in-depth theoretical underpinnings to the classroom.

AMPed, the student association for QUT advertising, marketing and public relations students, is another link to the real world. Through AMPed you can access industry professionals, and find out about events

run by professional bodies. It's also a great way to meet your peers, and create your own career networks.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Practical teaching

As an integral part of this course, you'll work in a team to formulate an advertising campaign from a real-world client's brief. You'll research your client's advertising problem and identify strategies to solve it. You'll then develop creative ideas, match them to innovative media solutions and deliver a boardroom pitch to the client. Your client could be a Queensland icon such as Queensland Day or the Ekka, a charity such as Muscular Dystrophy, or a national consumer goods or pharmaceutical company.

Other majors

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). The Economics major requires 4 SA in Maths A, B or C.

International Subject prerequisites

- Maths A

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. The Economics major requires study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, from finance and accounting through to marketing and international business. With generic skills in all areas, you will have an understanding of how businesses operate within the commercial and legal environment. Your economics major begins in second semester, when you'll cover consumer behaviour, business cycles and policy, and the significance of the international economy. You will build skills in interpreting financial and economic data and reports, and use this information for business decision making.

Year 2

Delving further into your major, you will learn more about production, the economics of market structures, the workings of the national economy, and the roles of fiscal and monetary policy. You will contemplate the interplay between government, private firms and consumers, and analyse the increasing globalisation of world trade and investment. You will also shape your future career options through the consideration of a second study area.

Year 3

Projects and research assignments will build your practical skills. You will apply economic theories learned so far to topics of current interest, such as the federal budget, Australia's ageing population or global warming. You will learn how to locate the data for your analysis, decide on the relevant economic theories and models, and distil this into possible solutions. This analysis will help you advise the best way forward, and give you a practical introduction to the real-world applications of economic theory.

Professional Recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Study area

Economics major – You will meet the academic requirements for professional membership to the Economic Society of Australia.

Second study area

Finance second major – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia (FINSIA).

All second majors – Students will meet the academic requirements for enrolment in the Graduate Diploma of Applied Corporate Governance at Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma of Applied Corporate Governance, students will meet the academic requirement for professional membership of Chartered Secretaries Australia and also membership of the international association, Institute of Chartered Secretaries and Administrators (ICSA) of which CSA is the Australian division. Membership of ICSA entitles members to use the post nominals of ACIS or Fellow of Chartered Institute of Secretaries (FCIS). Ordinary Membership of the Economics Society of Australia only requires students have an interest in the area of Economics. Academic requirements for Professional Membership of the Economics Society of Australia (Qld) requires that students

have held an Ordinary Membership of the Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

Industry links

Our lecturers have a wide range of real-world experience in finance, government policy making and in industry, so their teaching reflects current thinking and is based on practical situations and outcomes. These links also provide access to guest lecturers, who add their own experiences and challenges to your learning and thinking.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering
all areas of business from accounting and economics through to marketing and international business. You will gain generic skills in all areas and an understanding of how businesses operate within the commercial and legal environment. You will begin your major with skills in interpreting economic data for business decision making. Business cycles, foreign exchange markets, terms of trade and the significance of the international economy will also be covered.

Year 2

You will build a deeper understanding of the fundamental concepts of finance – the time value of money and the effect of interest rates, diversification and its role in forming an investment portfolio, and the relationship between risk and return. The types of financial markets and instruments traded, such as shares, bonds and futures, will also be introduced. You will also choose a second study area, such as accounting, economics, or further finance studies, which will help to shape your career.

Year 3

Project work and research assignments will hone your practical skills and prepare you for the workplace. You will develop valuation skills relevant to shares and derivatives. You can also act as a corporate treasurer for a semester, using data facilities in the Securities Dealing Room to gain experience in raising funds and managing the risk and cost of borrowing these funds in the face of unfolding economic scenarios.

Professional recognition

By choosing appropriate units in this course, you will meet the Australian financial professional training standard RG146 Tier 1 compliance, as administered by the Australian Securities and Investments Commission. Graduates of the finance major meet the academic requirements for Associate Membership of the Financial Services Institute of Australasia.

Second study area

Economics second major – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia. Ordinary Membership of the Economics Society of Australia only requires that students have an interest in the area of Economics. Professional Membership of the Economics Society of Australia (Qld) requires students have held an Ordinary Membership of the Economics Society of Australia for one year and have completed a Bachelor of Business majoring in Economics.

All second majors – Students will meet the educational requirements for Associate Membership of the Financial Services Institute of Australasia.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia. On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirement for Professional Membership of the Chartered Secretaries

Australia.

Financial Services extension – Completion of some units in this extension will enable students to partially meet ASIC RG146 Tier 1 compliance. Refer to ASIC for more details.

Funds Management extension – Completion of some units in this extension will enable students to partially meet ASIC RG146 Tier 1 compliance. Refer to ASIC for more details.

Securities Dealing Room

QUT pioneered the use of real financial data in Queensland universities. Our Securities Dealing Room gives you access to data from Bloomberg, providers of financial data to many of the world's financial institutions. This comprehensive set of data on companies, commodities and economics will be useful in your final year project work, and allow you to apply the theory you learn to conduct real-world financial analysis.

Industry links

Our finance lecturers have a wealth of real-world experience, including consulting with Queensland Treasury, Brisbane City Council, QR, Queensland Transport and Ergon Energy, and guest lecturing with industry bodies such as the Financial Services Institute of Australasia (FINSIA) and CPA Australia.

Practical teaching

Final year project work and research assignment will hone your practical skills and prepare you for the workplace. You will act as a corporate treasurer for a semester, using data facilities in the Securities Dealing Room to gain experience in raising funds and managing the risk and cost of borrowing these funds in the face of unfolding economic scenarios.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and electronic business. With generic skills in all areas, you will have an understanding of how businesses operate within the commercial and legal environment. Your focus on human resources begins with a broad introduction to many of the human resource management functions and how these functions complement the strategic direction of businesses and help organisations maintain competitive advantage.

Year 2

You will build your foundation knowledge of business and human resource management, through developing a deeper understanding of individuals and groups. You will also investigate how the structure and organisation of human resources impact on organisations and their activities. You will develop skills in the implementation of human resource activities through practical work examples and case studies. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

In your final year you will extend and integrate your knowledge of business and human resource management using critical thinking and decision making skills to analyse, diagnose and provide recommendations for implementing organisational change, work force planning, and human resource development. You will explore and critique real-world cases and projects, applying your theoretical knowledge to develop practical strategic policy suggestions for organisations.

Professional recognition

This program enables you to join the Australian Institute of Management and the Australian Institute of Training and Development.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and management. You will develop generic skills in all areas, and gain an understanding of how businesses operate within the commercial and legal environment. You will begin your studies in international business with specific emphasis on international marketing and market entry strategies.

Year 2

You will tackle import and export management, and investigate the challenges involved in producing goods to distribute overseas. You will begin to personalise your degree with an understanding of the history, culture and business environments of countries in either Asia or Europe as your international region of expertise. Your choice of second business study area will further direct your future career options.

Year 3

You will be encouraged to immerse yourself in another culture through further regional studies, or through international exchanges. Take the opportunity to gain practical skills in cross-cultural communication and negotiation, logistics, and contemporary business strategies for Asia or Europe. Gain an overview of strategic issues facing global firms, including the different company structures that provide an advantage over competitors in the global marketplace.

Languages option

The course structure for both full-time and part-time International Business students varies depending on whether languages are selected as an option. Alternative course structures are included: one outlines the course structure if no languages are taken, the other outlines the structure for those who wish to undertake a language specialisation. If languages are taken as a specialisation, language units should commence in the first semester of the first year to maintain continuity from earlier pre-QUT language studies. All language units must normally be taken in the same language. International students must take a language that is not their native tongue.

Professional recognition

Students are eligible for membership of the Australian Institute of Export, the Logistics Association of Australia and the Chartered Institute of Purchasing depending on units chosen.

Other majors

See also separate entries for other majors in this course: Accountancy, Advertising, Economics, Finance, Human Resource Management, Management, Marketing, and Public Relations.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and data analysis. You will develop generic skills in all areas, and gain an understanding of how businesses operate within the commercial and legal environment. Your focus on management begins in your second semester, when you'll start to develop skills in strategy, leadership and internationalisation.

Year 2

Building upon your broader business knowledge, you'll learn how critical analysis and strategic thinking assists management in challenging old viewpoints. You will learn about the importance of sustainability and change in organisations operating within complex environments. Opportunities will be provided to investigate the functional role of operations management designed to add value in productivity through allocating all the resources needed to produce a product. You will also be introduced to innovative and entrepreneurial thinking to enhance your business planning capabilities. The choice of a second business study area or an extended major in management will begin to steer your future career direction.

Year 3

In the third year you both integrate and further expand your knowledge into strategic management and operations management through the project approach to management. You will investigate how companies seek advantages over their industry competitors. You will consolidate your learning and extend yourself, developing analytical-thinking and decision-making skills. Working as individuals and in groups, you will develop a project management plan, fusing your knowledge of technical and social-cultural aspects of the organisation developed throughout the major. Defining the project, addressing the challenges of time, costs and risk you will decide the ways and means to effectively and efficiently use human and non human resources to reach the project's goals and those of the organisation.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Management major, second major and extension – Students will meet the requirements for membership of the Australian Institute of Management.

Choice of campus

You may choose to complete your business degree at Gardens Point or Caboolture campus, majoring in Management.

Other majors

See also separate entries for other majors in this course: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Marketing, and Public Relations.

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to international and electronic business. With generic skills in all areas, you will gain an understanding of how businesses operate within the commercial and legal environment. Your marketing major will commence in second semester, investigating why consumers buy products and how they make purchase decisions.

Year 2

Building your knowledge of consumer behaviour, you will gain skills in conducting consumer and audience research and learn how market research informs corporate and strategic decision making. You will investigate the part technology has to play in developing new products for consumers, and learn how e-marketing can help companies compete in a global market. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

You will round out your major by finding out how marketing decisions contribute to the strategic success of any business. Opportunities to apply your knowledge to real-world scenarios include producing a marketing plan in a simulated environment which allows you to apply your marketing decision making skills and assess the results. You may also have the opportunity to complete an industry placement to gain valuable work experience.

Campus options

You may choose to complete your business degree at Gardens Point or Caboolture campus, majoring in Marketing.

Professional recognition

Graduates may be eligible for membership of a number of professional bodies depending on choice of major and units.

Marketing first and second major and extension – Students may meet the requirements for membership of the Australian Marketing Institute, the Marketing Research Society of Australia, the Australian Institute of Management, the American Marketing Association and the Australian Institute of Export.

Other majors

Your degree at a glance

Year 1

You will build a base of broad business knowledge through the core units, covering all areas of business from finance, accounting and economics through to marketing and global business. With generic skills in all areas, you will gain an understanding of how businesses operate within the commercial and social environment. You will begin your studies in public relations in the second semester, with an introduction to founding principles, an overview of the profession, and an insight into the future of public relations practice in contemporary organisations.

Year 2

You will build knowledge and skills in public relations techniques, learning how to write and prepare public relations tactics and tools such as media releases, social media programs, and events for real-world clients. In doing so, you will develop a portfolio of public relations materials to show potential employers. You will also build skills in public relations planning, allowing you to identify the best practices of public relations by analysing successful public relations campaigns from Australia and around the world. You will also have the opportunity to personalise your degree with the selection of a second study area.

Year 3

Acting as an internal adviser, you will explore corporate communication issues for organisations and track contemporary issues through case studies. You will also take the role of a public relations consultant, advising a real-world client on their problem or opportunity. Working in partnership with other students to form a consulting team, you will prepare a campaign plan to present to your client. Your writing skills will be further developed through your campaign portfolio. Work placements are also available to match your interests in consultancies, government, corporate settings and community groups.

Professional recognition

This course is accredited by the industry's peak professional body, the Public Relations Institute of Australia (PRIA), providing graduates access to professional education and career opportunities. QUT maintains strong links with this body, in which a number of our teaching staff hold executive positions.

Practical teaching

The practical nature of this major means that you will graduate with a portfolio of work to demonstrate your skills to potential employers.

Third year project work is imperative to demonstrating the depth and breadth of skills you have accumulated throughout the course. This hands-on experience will give your career a vital kick start by bringing together the design, strategic planning and tactical preparation that underpins a real world public relations campaign.

Other majors

See also separate entries for other majors in this course: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, and Marketing.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

International students must complete Australian Year 12 studies (or equivalent including International Baccaulearate) onshore.

International Subject prerequisites

- English

Mathematics is required for Accountancy, Finance, Economics and Marketing majors.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

(a) Eight Business School Core units (96 credit points)
(b) One block of eight Major Core units (Study Area A) (96 credit points)
(c) One Minor of 4 units selected from a University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester(48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Study areas

Study areas for this course are Accounting, Advertising, Economics, Finance, International Business, Human Resource Management, Management, Marketing, and Public Relations.

Special Course Requirements

Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Breaks in Study: Due to the accelerated program breaks in study are not permitted. Students wishing to take a break from study will be advised to transfer to the standard program, Bachelor of Business (BS05).

Course progression: Due to the accelerated program students are expected to follow the course structure. Students wishing to deviate from the recommended course structure will be advised to transfer to the standard program, Bachelor of Business (BS05).

Advanced standing (credit)

Due to the accelerated nature of this program, advanced standing or credit for previous study is not permitted (with the exception of START QUT).

Professional recognition

Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. See each course major for details.

Bachelor of Business (Dean's Honours)

Further study
Students in the Dean's Honours (BS06) are expected to maintain a GPA 5.5 in order to be eligible for entry into the Bachelor of Business (Honours) (BS63) program.

For information on the Honours program, see the entry for BS63 Bachelor of Business (Honours) (BS63).

Campus options
This degree is available at Gardens Point campus only, however some units are offered at Caboolture campus. Students may enrol in Business units at Caboolture campus.

Deferment
Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Abbreviation
BBus(Study Area A)

Important information
QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Domestic Course structure
Course design
To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

(a) Eight Business School Core units (96 credit points)
(b) One block of eight Major Core units (Study Area A) (96 credit points)
(c) One Minor of 4 units selected from a University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester(48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Special Course Requirements
Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Depending on the choice of majors, graduates of the Bachelor of Mass Communication may satisfy the academic requirements for membership of the Advertising Institute of Australia (AIA) and the Society of Business Communicators (SBC).

Course Design

Students commencing the Bachelor of Mass Communication must complete 24 units of equal weighting totalling 288 credit points comprised of
a. Business School Core (six Business School core units)
b. Major Core (two majors of six units each) and
c. Unit Options (six units).

Although studies can be tailored to meet a specific career goal or create a wide variety of career choices, there is a set of recommended combinations of majors. Students are not required to take these combinations, however they do represent the more common and logical choices within a mass communication qualification.
The recommended combinations are:
- Advertising and Public Relations
- Public Relations and Journalism
- Public Relations and Media and Communication
- Entertainment and Public Relations
- Entertainment and Media and Communication
- Journalism and Media and Communication.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website

Domestic Course structure

Your course

Year 1

You will explore key concepts driving media and communication industries in the global new economy and be introduced to skills in your chosen professional areas of study including public relations, advertising, media and communication, journalism, and entertainment industries. You will apply your knowledge to communication activities and exercises which provide insight into the nature and scope of the industry sectors you will work in.

Year 2

Focusing on your major areas of study, you will undertake activities that enable you to apply your rapidly developing communication skills and knowledge of media industries. You will complete projects using industry-standard equipment and software, gaining experience in a range of tasks you will undertake as part of your professional life. You also begin to broaden your skill and knowledge base by selecting from a range of elective units.

Year 3

This capstone year focuses on the refinement of skills. Working individually and in teams, you will produce a portfolio of work, often for real-world clients, which showcases your project management, communication and creative talents. Work placement opportunities complement these activities and allow you to network with a range of industry leaders.

Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX38 Bachelor of Arts/Bachelor of Business. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management, or Public Relations).

Professional Recognition

Business component: Students may be eligible for a membership to a number of professional bodies depending on choice of major and unit selection. Click on the link for more information and enter " Bachelor of Business " in the Course Accreditation search field: http://www.qut.edu.au/study/courseinfo/accreditation/

Course Design

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Arts program and 240 credit points from the Bachelor of Business program.

Business component: Students must complete 96 credit points of Faculty Core Units with a 72 credit point Major, as well as a further 72 credit points from one of the following:

- Double Major (six units); or
- Extended Major (six units): or
- Specalisation (six units)

BA Course Requirements

BA Course Requirements (Years 1-4) Students are required to complete one Multidisciplinary Professional Major comprising 7 units in the chosen Major. The Multidisciplinary Professional Major may be chosen from International and Global Studies, Ethics and Human Rights, Society and Change, Community Studies or Australian Studies.

BA Course Requirements

In addition to a Multidisciplinary Professional Major, students may wish to:

- complete a Discipline Major (Geography, History, Languages, Social Science); or
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course or from the University wide Minors set
- take a series of elective units.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also require study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	10.0
writing	10.0
reading	10.0
listening	10.0

Discontinuation

From Semester 1, 2009, this course has been recoded to IX71 Bachelor of Business/Bachelor of Laws. There have been significant changes to the course structure of this program. Students will be permitted to remain enrolled and graduate from the existing double degree program up to the end of 2010. Students enrolled in the existing program will be given the opportunity to transfer to the new course where appropriate.

Abbrevation

BBus(StudyAreaA)/LLB

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Business (Banking & Finance, Economics and Marketing)/Bachelor of Laws.

Professional Recognition

The Bachelor of Laws degree satisfies the academic requirements for admission to practise as a Solicitor or Barrister in Queensland.

Business component: Students may be eligible for a membership to a number of professional bodies depending on choice of major and unit selection. Click on the link for more information www.bus.qut.edu.au/study/currentstude/profrecognition.jsp

Course Design

Students supplement the law component of this program with seven Business Faculty Core units and one major consisting of nine units undertaken in the QUT Business School, selected from the following: Accounting, Advertising, Banking and Finance, Economics, Human Resource Management, International Business, Management, Marketing, or Public Relations.

Further information regarding Law Electives can be found at: http://www.law.qut.edu.au/study/courses/ugrad/lselect.jsp

Important Information to Business Students

QUT Business School rules and procedures are outlined in the QUT Business School Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.

Domestic Entry requirements

Course requirements

Working with Children Check: Blue Card

A Blue Card will be required if the placement component of this course involves working with children or young people. There's no cost if you apply through QUT.

Submit your Blue Card application to the QUT Student Centre as early as possible - ideally, as soon as you've received your offer.

If you don't receive your Blue Card before the start of a unit that requires contact with children, you may be unable to participate and your grades may be affected. You may also still have to pay fees for the unit.

How to apply for a Blue Card

First aid, Tuberculosis screening and Flu Vaccination

It is recommended that you complete a First Aid Certificate, Tuberculosis Screening and/or Flu Vaccination. However these are not mandatory.

Uniform

QUT School of Nursing polo shirt, navy blue trousers/long pants with pockets, and suitable footwear (black, brown or navy leather shoes with a non-slip sole) are required for this course. Students will need to cover this cost.

Uniform

A QUT T-shirt is required for Exercise and Movement Science and Clinical Exercise Physiology courses. Students will need to cover this cost.

Orientation camp

First year students have the option of attending an orientation camp.

Students will need to cover this cost.

Off-campus placements

Students are required to undertake off-campus placements and will need to cover travel and accommodation costs.

Clinical placements with Queensland Health

Students are required to complete the Deed Poll and Orientation Package before participating in clinical placement in Queensland Health facilities. Failing to do so may result in you not able to participate in clinical placement and your grades may be affected. You may still be liable to pay fees for the unit.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Also assumed knowledge: one of Chemistry, Physics or Biology Recommended study: Health Education or Physical Education We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors requires 4 SA in Maths A, B or C.

Overview
The four year Bachelor of Exercise and Movement Science/ Bachelor of Business combines the major elements of the single degrees in business and in exercise and movement science. It provides students with general business theory and skills and with both foundation knowledge in the exercise and movement sciences and their applications to health and wellness, or sport science and performance assessment.

Course Design
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Exercise and Movement Science program and 192 credit points from the Bachelor of Business program.

Business: Students must complete the 96 credit points Business School Core Units in the Business program together with a 96 credit point Major.

Professional recognition
Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Pathways
Graduates can apply for admission to the HM44 Bachelor of Clinical Exercise Physiology if they should wish to achieve full Exercise Physiologist status.

Important Information for Business Students
QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Further information
For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au OR the QUT Business School 61 7 3138 2050 or email bus@qut.edu.au

Career Outcomes

Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of governments and private companies. Graduates of the Bachelor of Business are skilled in many aspects of business including: accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing and public relations.

Overview

Students combine engineering knowledge in electronics, computer systems, telecommunications and electric power with a business course majoring in one of accountancy, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Professional Recognition

This degree meets the requirements for membership of Engineers Australia.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment as part of the Work Integrated Learning unit, before graduating.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Course Design

Students are required to complete 480 credit points comprised of 288 credit points from the Bachelor of Engineering program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 96 credit point Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing or Public Relations.

Important Information

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet.
Other useful information can be found on Student Services website.

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units.
New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of scientific innovation within a range of public, private and non-profit industries.

Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors. Please refer to the relevant pages in this prospectus for details on your intended science major, and the QUT Business School prospectus for more information on business majors, or visit www.qut.edu.au/courses

Important Information for Business Students

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also require 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also require study in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	10.0
writing	10.0
reading	10.0
listening	10.0

Discontinuation

This course code has been discontinued and replaced by IX58 Bachelor of Business/Bachelor of Information Technology.
Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2011. From Semester 1, 2012, all students will be enrolled in the new program.

Cooperative Education Program

The Coop Ed Program is a joint venture between employers and the Science and Engineering Faculty giving you the opportunity of 10-12 months paid industry placement to better prepare you for employment after you graduate. The Coop Ed Program integrates formal study and professional experience, so you can apply what you're learning in an area relevant to your chosen path.

Some of the organisations our Coop Ed students have worked with are the Australian Tax Office, Boeing Australia, CITEC, Department of Natural Resources and Water, Dialog, EPA, Queensland Police, RACQ and UNiTAB Limited.

Find out more about the Cooperative Education Program.

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor or Information Technology program.

Business component: Students must complete the 96 credit point QUT Business School Core Units in the Business program together with a 96 credit point Major.

Professional recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Graduates of the Bachelor of Information Technology meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column you are not permitted to enrol in the listed new code

Important Information for Business Students

QUT Business School rules and procedures are outlined in the QUT Business School Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.

Overview

This program consists of 16 creative industries units and 16 business units which are integrated so that you will study units from both areas each semester. You will undertake the Bachelor of Creative Industries core units as well as one creative industries major from animation; art and design history; creative and professional writing; dance; digital media; drama; entertainment industries; fashion; film, television and screen; interactive and visual design; journalism, media and communication; literary studies; or music.

Your business degree provides you with a broad base of business knowledge, and you will choose a major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Course Design

This course is made up of 384 credit points. Each component (i.e. Business and Creative Industries) comprises 192 credit points.

The Business component is made up of 96 credit points of Business School core units and 96 credit points of units from a Business major. The Business majors are accountancy, advertising, economics, finance, human resource management, international business, management, marketing, public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

The Creative Industries component is made up of 96 credit points of core units and a Creative Industries major (96 credit points).

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Fashion at the QUT Creative Industries Faculty.

To be considered for a place you must do two things.

1. Submit to the Creative Industries Faculty by the extended closing date of 14 October 2011. a Fashion 2012 Registration Forma copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee).a Portfolio with this Registration Form
2. Apply through QTAC by 30 September.
   (See the QTAC website for more information)

Interviews

Following the submission applicants will be shortlisted. QUT will be conducting interviews in November 2011. Should you be shortlisted you will be notified via email. Only submissions that include all the above stated requirements will be processed.

Offers

The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

The Portfolio - further details

Your Portfolio must contain three things.

1. Academic Records - include your most up-to date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).
3. Maximum 20 single-sided A4 pages, which should include a range of examples that demonstrate your potential as a fashion designer. This could include but is not limited to: Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic).Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking.Selected photographs that show good examples of any garments you have made.

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you don't like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Do not send original documents, colour photocopies only please

Will my portfolio by returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Which Fashion courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Fashion)
- IX35 - Bachelor of Business / Bachelor of Fine Arts (Fashion)

You must submit three things:

1. Academic Records - include your most up-to date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).

Your business degree component comprises eight business core units, and eight business major units. You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. Accountancy students will complete 10 major units and 6 Business School core units in order to meet professional recognition requirements.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Pathways to further study

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA. top

Domestic Entry requirements 2012 registrations have closed.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Visual Arts at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and register directly with the Creative Industries Faculty through our Online Registration Form. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Visual Arts at QUT Creative Industries?

- You must register through the Online Registration Form with the Creative Industries Faculty by the extended closing date of 14 October 2011.
- You must also apply through QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must supply the following:

Academic record - A copy of your most recent report (it does not have to be your final end-of-year grades).

Portfolio - Maximum of 20 pages of images that best demonstrate your current art achievements, working processes, commitment and potential. Consider the "Qualities" we look for (listed below) when compiling your portfolio. It may contain photographs, slides, photocopies of sketches and journal pages (showing your planning and preparation for a project), printed digital images and/or short video excerpts (no more than 2 minutes each). For a paper-based portfolio, keep pages to a maximum of A4 size and do not include large folders. If you are including CD/DVD/uploaded images, the preferred format is either as a 'PowerPoint' or .jpg files. We prefer video that can be opened in 'QuickTime' and only samples of work are required. To ensure we will be able to open and view any digital media files, keep the file size to a minimum (i.e. under 5MB) PLEASE NOTE: We do NOT return portfolios, so do NOT include any original copies of your work or documentation.

Responses to a series of questions about your interest in visual art. These are essential. To lodge your responses, return to this site in early July to register online. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

- Are you planning to graduate as a studio artist, art teacher or other art industry professional? Please outline your career goals.
- What are you expecting to learn in a course of study in Visual Arts at QUT?
- Describe briefly which exhibitions and galleries you have visited in the past 12 months, and the art-related books/articles/reviews you have read, etc).
- Briefly list any group exhibitions, solo exhibitions, commissions and awards you have been included in, plus membership of art associations etc.
- What do you think is art's role in the twenty-first century? Outline briefly.

Service charge of $33 (GST inclusive) - This is to cover the costs of administration and insurance in processing applications, and is non-refundable. The service charge can be paid by credit card online with QUTPay. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee.

Passport style photograph

How do I apply?

To apply for this course, you must:

- Complete the Online Registration Form and print the confirmation pages;
- Post or deliver the confirmation pages with a passport-style photograph attached; a copy of your academic record; a copy of the QUTpay confirmation page from your online credit card payment for the $33 service charge; your portfolio (unless uploaded online);
- Apply for this course through QTAC. Please see the QTAC website for more information.

Please Note: Registering with QUT for assessment of your portfolio is separate and in addition to listing the course as a preference with QTAC. To successfully apply for entry into this course, you are

required to do both. The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

What qualities are QUT Creative Industries looking for?

- Overall, we seek indications of your ability to think creatively, to be open to new ideas and challenges, and of your potential to succeed in the course.
- We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s. We are also looking for candidates who bring a wide range of interests and enthusiasms to their study area (e.g. film, literature, music, digital culture, etc.).
- We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, hard work, sustained practice and familiarity with visual media.
- We look for the degree of exploration of ideas and evidence of the development of ideas. Some carefully selected key documentation of preliminary plans, working sketches, journals and work in progress help us in this regard.
- We also look for evidence of artwork that is totally self-initiated (i.e. not necessarily part of a set study program) and an indication that you are determined to pursue art interests in a range of circumstances.

When and where are the interviews?

Shortlisted applicants will be contacted, and interviewed, during November. If you are called, you are not required to bring anything with you to this interview, but you should be prepared to respond to questions about your artwork and your future goals. Interviews are designed to further assess your suitability for the style of Visual Arts course that we offer and will also present an opportunity for you to ask any questions you may have about the course. Interviews will occur at the QUT Kelvin Grove campus.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

Thank you for your interest in Visual Arts at QUT Creative Industries Faculty. Please read the information below before submitting your application.

Which Visual Arts courses require additional entry application?

- KK34 - Bachelor of Fine Arts (Visual Arts)
- KK34 - Bachelor of Fine Arts (Visual Arts)/ED38 Graduate Diploma in Education (Senior Years)
- IX35 - Bachelor of Business/Bachelor of Fine Arts (Visual Arts)

What is the closing date for additional entry applications to Visual Arts at QUT Creative Industries?

There are no closing dates for international applicants. We encourage you to apply as soon as you decide on the course you wish to study, to help you with visa requirements.

What are the additional entry requirements?

You must supply the following:

Academic transcript from secondary and/or tertiary institutions

- Portfolio: Maximum of 20 images that best demonstrate current art achievements, working processes, commitment and potential.
- It may contain photographs, slides, photocopies of sketches and journal pages, printed digital images and/or short video excerpts (no more than 2 minutes each).
- Responses to a series of four questions about your interest in visual art. Your responses to these questions are important - please answer them as specifically, carefully and informatively as possible.

1. What attracts you to a course of study in Visual Arts?
2. Describe briefly what contact you have had with works of other artists (exhibitions, galleries you have visited, books/articles/reviews you have read, etc).
3. Summarise the types of visual arts activities in which you have participated (for example group exhibitions, solo exhibitions, commissions, awards, membership of art associations etc).
4. Describe aspects of art that you respond to, both positively and negatively.

What qualities are QUT Creative Industries looking for?

Overall, we seek indications of your ability to think creatively, and of your potential to succeed in the course.

We look for evidence of versatility, skill, enterprise, inventiveness and knowledge of contemporary art and culture/s.

We look at your artistic achievement - the level of investigation and familiarity with particular media, the degree of sophistication and sensitivity in handling media, evidence of industry, sustained practice and familiarity with visual media.

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors. Please refer to the relevant pages in this prospectus for details on the Bachelor of Mathematics and the QUT Business School prospectus for more information on business majors or visit www.qut.edu.au/courses

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or a business scholarship to help you financially throughout your studies. For further information visit Scholarships.

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:
2009 and 2010 commencing students
• 7 Business School Core units (96 credit points)*
• 8 Major Core units (96 credit points)
• MGB223 Entrepreneurship and Innovation*

2007-2008 commencing students
• 7 Business School Core units (84 credit points)*
• 9 Major Core units (108 credit points)

*Please note that BSB122 Quantitative Analysis & Finance (Replaced by BSB123 Data Analysis) is not required as the content of MAB313 Mathematics of Finance covers similar topics. An additional unit from the chosen major replaces BSB122/BSB123 for 2007 and 2008 commencing students. MGB223 Entrepreneurship and Innovation replaces BSB122/BSB123 for 2009 and 2010 commencing students.

* Please note that EFB101 Data Analysis for Business which is normally undertaken in the Majors of Accountancy, Banking & Finance and Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.

- 7 Business School Core units (84 credit points)*
- 9 Major Core units (108 credit points)

*Please note that BSB122 Quantitative Analysis & Finance (Replaced by BSB123 Data Analysis) is not required as the content of MAB313 Mathematics of Finance covers similar topics. An additional unit from the chosen major replaces BSB122/BSB123 for 2007 and 2008 commencing students. MGB223 Entrepreneurship and Innovation replaces BSB122/BSB123 for 2009 and 2010 commencing students.

* Please note that EFB101 Data Analysis for Business which is normally undertaken in the Majors of Accountancy, Banking & Finance and Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discontinuation

This course has been discontinued, therefore, this course is available to continuing students only.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 192 credit points from the Bachelor of Business program. Students supplement the Arts component of this program with the 96 credit point QUT Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Banking & Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations.

BA Course Requirements

Students are required to completed 192 credit points for the Arts Program including at least one of the five multidisciplinary majors (7 units from the Major list). You will choose from International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies and Australian Studies.

As well as the multidisciplinary major, students may also wish to undertake a Discipline Major in one of the following: History, Geography and Environmental Studies, Languages (French, Indonesian, German, Japanese, or Mandarin), and Social Science. (Note that apart from Mandarin, all languages are now offered via cross institutional study from the University of Queensland).

Students may also wish to include:
- an Arts minor/s in any of the multidisciplinary or disciple majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

NB: Students are required to complete 16 units in the BA component of the double degree.

Overview

This course has been replaced by IX17 Bachelor of Exercise and Movement Science/ Bachelor of Business from first semester 2010, therefore, there will be no further intake for this course.

Continuing students will complete their course requirements in IX47 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Business.

This double degree combines training for careers in a range of exercise and sports science settings with the strength of general business theory and skills.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 408 credit points comprised of 216 credit points from the Bachelor of Applied Science (in Human Movement Studies) program and 192 credit points from the Bachelor of Business program.

Business component:
8 QUT Business School Core units (96 credit points)
8 Major Core units (all Business majors including Accountancy, Advertising, Banking & Finance (continuing students only), Economics, Finance, Human Resource Management, International Business, Management, Marketing and Public Relations) (96 credit points)

Please note that students must complete the special course requirements for (BS56/BS05) Bachelor of Business and (HM42) Bachelor of Applied Science degrees.

Other Course Requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to commencement of year three and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the QUT Business School Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.
Students who require enrolment advice about the Business component of their course should contact the QUT Business School phone 3138 2050 or email bus@qut.edu.au

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology, in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point. Students choosing the Management or Marketing majors may undertake units at the Caboolture campus.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on BS63 for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on

the Student Services website.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Study Areas

IX58 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX58 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

The following Majors are available from the Business component: Accounting, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing and Public Relations.

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Business: For BS63 Bachelor of Business (Honours) please click BS63 for details.

Cooperative Education

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Professional Recognition

Corporate Systems Management component: The course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points (32 units) comprised of 192 credit points (16 units) from the Bachelor of Business program and 192 credit points (16 units) from the Bachelor of Corporate Systems Management program which includes an industry based project and an IT options (elective) unit.

Business students complete 8 Business School Core Units together with 8 Major Core Units from their chosen discipline. (Accountancy students undertake 6 Business School Core Units and 10 Major Core Units to meet professional recognition requirements).

Note the following:

Cooperative Education Program

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Math A, B or C (4, SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Math A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Design

Students will be required to complete 192 credit points from the Bachelor of Games and Interactive Entertainment; and 192 credit points from the Bachelor of Business course.

Business Component: Students must complete the 96 credit point Business School Core Units in the Business program together with a 96 credit point minor.

Students will undertake the two components of the double degree concurrently.

Cooperative Education Program

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree.

Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Overview

This course offers you a range of options in combining business knowledge with practical skills and a contextual understanding of media and communication.

This combination of media and communication with a business major in advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/buying for advertising agencies.

An international business major will equip you with an understanding of the cultural, financial and regulatory issues involved in doing business across borders. Alternatively you may choose to study another of the business professions to diversify your career options.

Career Outcomes

Graduates use their skills for a variety of professional functions across all industry sectors. Many work in marketing communications, public relations or corporate communications. Others apply their broad media knowledge in the media function of advertising, either as sales executives for media outlets or as media planners and buyers for advertising agencies.

Careers exist in audience and market research, collating and analysing audience data to help media outlets better understand who their audiences are and how they are interacting with their product. Graduates also find employment in media policy development in the public sector and private enterprise. Pathways exist to prepare you for further study including honours.

If you wish to use your business knowledge more in your career, you could gain employment in arts administration—marketing, managing or balancing the books for creative projects and businesses.

The combination of media and communication with advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/ buying for advertising agencies. You will also develop the entrepreneurial and business skills necessary to sell your abilities to a range of employers, or start your own creative enterprise. Please refer to the QUT Business School prospectus to find out more about the business majors.

Course Design

You are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Media and Communication program. You will undertake the two components of the double degree concurrently.

You will undertake 192 credit points of specialist units in media and communication. Your business degree component comprises eight business core units, and eight business major units.

You will choose a business major from accounting, advertising, economics, finance, human resource management, international business, management, marketing or public relations. You must

complete 96 credit point Business School Core Units in the Business program together with a 96 credit point Major.

Professional Recognition

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Pathways to further study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), or the Bachelor of Business (Honours) (Study Area A), provided you have achieved the required GPA.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business
- Management
- Marketing
- Public Relations

For professional recognition, the Accountancy structure differs from the normal structure. Accountancy students will complete seven Business School Core Units and complete a nine unit major.

Professional recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Advanced standing

You may wish to apply for advanced standing (also known as credit or exemption) for former completed studies and other assessable learning outcomes. See more at Advanced Standing

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’ , for example, working within law firms and government departments in placement electives.

Domestic Course structure

Course structure

You will study a combination of business and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your career interests.

Course design

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

Business students will complete 96 credit points (16 units) consisting of eight Business School Core Units and an eight unit major. As the content of BSB111 Business Law and Ethics overlaps with the Bachelor of Laws, it has been replaced by MGB223 Entrepreneurship and Innovation.

Students must choose a major from:

- Accountancy

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Accountancy, Finance, Economics and Marketing majors also requires 4 SA in Maths A, B or C.

International Entry requirements

International students must complete Australian Year 12 studies (or equivalent including International Baccaulearate) onshore.

International Subject prerequisites

- English

Mathematics is required for Accountancy, Finance, Economics and Marketing majors.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

(a) Eight Business School Core units (96 credit points)
(b) One block of eight Major Core units (Study Area A) (96 credit points)
(c) One Minor of 4 units selected from a University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester(48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Study areas

Study areas for this course are Accounting, Advertising, Economics, Finance, International Business, Human Resource Management, Management, Marketing, and Public Relations.

Special Course Requirements

Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Breaks in Study: Due to the accelerated program breaks in study are not permitted. Students wishing to take a break from study will be advised to transfer to the standard program, Bachelor of Business (BS05).

Course progression: Due to the accelerated program students are expected to follow the course structure. Students wishing to deviate from the recommended course structure will be advised to transfer to the standard program, Bachelor of Business (BS05).

Advanced standing (credit)

Due to the accelerated nature of this program, advanced standing or credit for previous study is not permitted (with the exception of START QUT).

Professional recognition

Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. See each course major for details.

Bachelor of Business (Dean's Honours)

Further study
Students in the Dean's Honours (BS06) are expected to maintain a GPA 5.5 in order to be eligible for entry into the Bachelor of Business (Honours) (BS63) program.

For information on the Honours program, see the entry for BS63 Bachelor of Business (Honours) (BS63).

Campus options
This degree is available at Gardens Point campus only, however some units are offered at Caboolture campus. Students may enrol in Business units at Caboolture campus.

Deferment
Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on deferment.

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Special Course Requirements
Minimum GPA: It is expected that students maintain a minimum GPA of 5.5. If a student does not maintain a GPA of 5.5 it will be recommended that they return to the standard program, Bachelor of Business (BS05). (A GPA of 5.5 is required for entry to the Bachelor of Business (Honours) (BS63) program).

Breaks in Study: Due to the accelerated program breaks in study are not permitted. Students wishing to take a break from study will be advised to transfer to the standard program, Bachelor of Business (BS05).

Course progression: Due to the accelerated program students are expected to follow the course structure. Students wishing to deviate from the recommended course structure will be advised to transfer to the standard program, Bachelor of Business (BS05).

Advanced standing (credit)
Due to the accelerated nature of this program, advanced standing or credit for previous study is not permitted (with the exception of START QUT).

International Course structure
Course design
To complete the Bachelor of Business (Dean's Honours), a student must successfully complete all parts listed below:

(a) Eight Business School Core units (96 credit points)
(b) One block of eight Major Core units (Study Area A) (96 credit points)
(c) One Minor of 4 units selected from a University-Wide unit set or a Business School extension (48 credit points)
(d) Four prescribed Option units undertaken during the Summer semester(48 credit points)

Students should note that not all minors are timetabled in every year or semester. Hence, due to the accelerated structure of the course, it is important you confirm that the minors you are interested in will be available.

Students will study five units (60 credit points) in each of the major semesters and an additional two units (24 credit points) in the Summer semesters.

Students who graduate from the Bachelor of Business with a GPA of 5.5 or higher will be eligible to enrol in the Bachelor of Business (Honours) (BS63).

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points) as per the programs of study described under the individual majors.

Unit requisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check requisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Grades are awarded for each of the individual coursework units. The dissertation, which is currently given the weight of four units, is also graded. The degree is awarded at a certain level ranging from first class to third class Honours.

Important course specific enrolment advice

The Business School will provide students with up to $600 for approved research related expenses associated with the preparation of a thesis under the Business School's Postgraduate Research Student Support Scheme. Schools may also provide additional funding assistance and/or opportunities for paid research assistant or tutoring work.

To obtain further information about the policies and procedures relating to this course, please refer to the Business Postgraduate Guidelines.

Other useful information can be found on the Student Services website.

Domestic Course structure

Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

International Course structure

Course design

The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

Discipline Coordinator	Dr Jodie Warren Business Student Services phone 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

Domestic students: A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The Business School does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:
1. Identify supervisor's research interests by looking at the interests of the researchers as described on the Business School website;
2. Contact the HDR Admissions Officer within the QUT Business School. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The information will be passed onto the nominated school or supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

Unit requisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check requisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Honours Coordinator.

Alternative pathways

The traditional approach is to complete a fourth year after you graduate from your undergraduate degree.

The School also offers the unique opportunity to fast track your studies and complete both your Bachelor of Business and Honours degree in three years with significant financial support through the Dean's Honours program or the School of Accountancy Honours Scholarship Program. Both programs offer successful applicants the opportunity of enrolling in extra units throughout the first two years and over summer, so you can commence and complete your Honours year in the third rather than the fourth year.

Mid-year entry students

Mid-year entry students should contact the Honours Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Important course specific enrolment advice

The Business School will provide students with up to $600 for approved research related expenses associated with the preparation of a thesis under the Business School's Postgraduate Research Student Support Scheme. The course is designed for total immersion in academic study for a full-time year. Therefore undertaking the honours course part-time is generally discouraged. Not all schools permit mid-year entry. The structure of the course is such that the coursework units in the first semester logically precede the research thesis, which is largely completed in the second semester.

Students must complete two prescribed units (24 credit points), two option units (24 credit points) and a dissertation (48 credit points). Details are provided in the course structures below.

Sample Structure

Code	Title
Year 1, Semester 1	
Under the umbrella of Human Resources Management, students may also be able to undertake a dissertation in Employee Relations.	
BSN502	Research Methodology
BSN503	Research Seminar
one of:	
BSN412	Qualitative Research and Analytical Techniques
BSN414	Quantitative Research Methods
one option unit (12 credit points) with approval of the School Research Coordinator. The option unit may be taken from any 12 credit point postgraduate unit offered by the School of Management or other postgraduate unit, with the approval of the School Research Coordinator.	
Year 1, Semester 2	
BSN501-1	Dissertation
BSN501-2	Dissertation
BSN501-3	Dissertation
BSN501-4	Dissertation
While enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

Handbook

Year	2012
QUT code	BS63
CRICOS	009038B
Duration (full-time)	1 year
Duration (part-time domestic)	2 years
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $4,713 per Semester
International fee (indicative)	2012: $12000 per Semester
Total credit points	96
Credit points full-time sem.	48
Credit points part-time sem.	24
Dom. Start Months	February, July
Course Coordinator	Director of Higher Degree Research Studies
Discipline Coordinator	Associate Professor Rebekah Russell-Bennett Business Student Services phone 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The Business School does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:
1. Identify supervisor's research interests by looking at the interests of the researchers as described on the Business School website;
2. Contact the HDR Admissions Officer within the QUT Business School. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The information will be passed onto the nominated school or supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Abbreviation

BBusHons(IntBus)

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Mid-year entry students

Mid-year entry students should contact the Honours Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Further information

For further information on this course contact the Honours Discipline Coordinator Associate Professor Rebekah Russell-Bennett on 3138 2894 or rebekah.bennett@qut.edu.au

The Honours Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Honours Discipline Coordinator should be your first point of contact.

Important course specific enrolment advice

To obtain further information about the policies and procedures relating to this course, please refer to the Business Postgraduate Guidelines.

Other useful information can be found on the Student Services website.

Domestic Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

GMAT details (PDF file, 271.78 KB)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Referee Proforma (DOCX file, 106.99 KB)

International Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Course design

Students must complete two MBA foundation core units, and select either a further 36 credit points from MBA core units or one of the following study areas: Corporate Governance, Entrepreneurship and Innovation, Leadership or Strategy.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (eg AACSB, EQUIS, AMBA). Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

PhD Pathway for International Students

Grad Dip (Research) + PhD pathway for international students: If the offer for entry into BS69 is packaged with the PhD, the following conditions will apply:

1. The package is defined as a sequence of programs from BS69 to IF49;
2.
3. Progression from BS69 to IF49 is guaranteed if the BS69 is completed with a GPA of 5.5/7 or greater;
4.
5. A supervisor for the IF49, normally the same as the supervisor for the BS69, is confirmed when assessing entry into the BS69 program;
6.
7. A suitable research topic and thesis title for both BS69 and IF49, the latter of which can be a progression of the topic undertaken in BS69, is confirmed when assessing entry into the BS69 program;
8.
9. The Business School guarantees Research support, places, supervisors and topic areas for IF49 12 months in advance of when the offer for BS69 is made to full time students and 24 months in advance of when the offer for BS69 is made to part time students.

Course Availability

Mid-year Entry:
Students should contact the Research Discipline Coordinator for enrolment advice and course progression details. The majors in Finance, Economics, and Philanthropy and Nonprofit Studies are not available for mid-year entry due to unit availability. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time Study:
Students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability. The majors in Finance, Economics, and Philanthropy and Nonprofit Studies are not available for part-time study due to unit availability.

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points) as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where elective units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Subject Area Coordinator prior to enrolment.

Grades are awarded for each of the individual coursework units. The thesis, which is currently given the weight of four units, is also graded.

Important course specific enrolment advice

This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the Business School Postgraduate Guidelines.

Other useful information can be found on the Student Services website.

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design
Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Honours Coordinator.

Course Availability
Mid-year entry:
Mid-year entry students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study:
Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

PhD Pathway for International Students
Grad Dip (Research) + PhD pathway for international students: If the offer for entry into BS69 is packaged with the PhD, the following conditions will apply:

1. The package is defined as a sequence of programs from BS69 to IF49;
2.
3. Progression from BS69 to IF49 is guaranteed if the BS69 is completed with a GPA of 5.5/7 or greater;
4.
5. A supervisor for the IF49, normally the same as the supervisor for the BS69, is confirmed when assessing entry into the BS69 program;
6.
7. A suitable research topic and thesis title for both BS69 and IF49, the latter of which can be a progression of the topic undertaken in BS69, is confirmed when assessing entry into the BS69 program;
8.
9. The Business School guarantees Research support, places, supervisors and topic areas for IF49 12 months in advance of when the offer for BS69 is made to full time students and 24 months in advance of when the offer for BS69 is made to part time students.

Important course specific enrolment advice
This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the Business School Postgraduate Guidelines.

Other useful information can be found on the Student Services website.

Further information
For further information on this course contact the Research Discipline Coordinator Associate Professor Marion Hutchinson on 3138 2739 or m.hutchinson@qut.edu.au

The Research Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Research Discipline Coordinator should be your first point of contact.

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0

reading	6.0
listening	6.0
overall	6.5

Course design

Students must complete four coursework units (48 credit points) and a dissertation (48 credit points), as per the programs of study described under the individual majors.

Unit prerequisite requirements are deemed to have been satisfied upon admission to this course. Where elective units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the Discipline Coordinator prior to enrolment.

Course Availability

Mid-year entry:
students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study:
Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

PhD Pathway for International Students

Grad Dip Bus(Research) + PhD pathway for international students: If the offer for entry into BS69 is packaged with the PhD, the following conditions will apply:

1. The package is defined as a sequence of programs from BS69 to IF49;
2.
3. Progression from BS69 to IF49 is guaranteed if the BS69 is completed with a GPA of 5.5/7 or greater;
4.
5. A supervisor for the IF49, normally the same as the supervisor for the BS69, is confirmed when assessing entry into the BS69 program;
6.
7. A suitable research topic and thesis title for both BS69 and IF49, the latter of which can be a progression of the topic undertaken in BS69, is confirmed when assessing entry into the BS69 program;
8.
9. The Business School guarantees Research support, places, supervisors and topic areas for IF49 12 months in advance of when the offer for BS69 is made to full time students and 24 months in advance of when the offer for BS69 is made to part time students.

2. **Important course specific enrolment advice**
3. This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.
4. To obtain further information about the policies and procedures relating to this course, please refer to the Business School Postgraduate Guidelines.
5. Other useful information can be found on the Student Services website.

2. **Further information**
3. For further information on this course contact Honours Discipline Coordinator Dr Artemis Chang on 3138 2522 or a2.chang@qut.edu.au
4. The Research Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Research Discipline Coordinator should be your first point of contact.

Students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Mid-year entry to any major cannot be guaranteed and is subject to supervisor and unit availability.

Part-time study:
Part-time students should contact the Research Discipline Coordinator for enrolment advice and course progression details. Part time study in any major cannot be guaranteed and is subject to unit availability.

PhD Pathway for International Students
Grad Dip Bus (Research) + PhD pathway for international students: If the offer for entry into BS69 is packaged with the PhD, the following conditions will apply:

1. The package is defined as a sequence of programs from BS69 to IF49;
2.
3. Progression from BS69 to IF49 is guaranteed if the BS69 is completed with a GPA of 5.5/7 or greater;
4.
5. A supervisor for the IF49, normally the same as the supervisor for the BS69, is confirmed when assessing entry into the BS69 program;
6.
7. A suitable research topic and thesis title for both BS69 and IF49, the latter of which can be a progression of the topic undertaken in BS69, is confirmed when assessing entry into the BS69 program;
8.
9. The QUT Business School guarantees Research support, places, supervisors and topic areas for IF49 12 months in advance of when the offer for BS69 is made to full time students and 24 months in advance of when the offer for BS69 is made to part time students.

Important course specific enrolment advice
This course is a PhD qualifying course, and applicants are assessed as to their potential suitability for undertaking a PhD on the completion of BS69. Prior to enrolment in BS69, a supervisor and dissertation topic must be allocated. Contact with the supervisor prior to applying for entry is essential.

To obtain further information about the policies and procedures relating to this course, please refer to the Business School Postgraduate Guidelines.

Other useful information can be found on the Student Services website.

Further information
For further information on this course contact the Research Discipline Coordinator Associate Professor Ian Lings on 3138 4329 or ian.lings@qut.edu.au

The Research Discipline Coordinator is responsible for the administration of the course, including admissions, scholarships and determining the result for the year as a whole. If you have any questions about the course or any comments, the Research Discipline Coordinator should be your first point of contact.

Domestic Entry requirements

Entry Requirements

A completed Bachelor or course work Masters degree that includes a major in the area of intended study or a qualification deemed equivalent. Students must have achieved a grade-point average (GPA) of 5.5 or better on a 7-point scale in the relevant degree or possess other qualifications and experience which is considered by the Executive Dean, QUT Business School to qualify for admission.

Applicants are required to nominate a supervisor and topic before submitting a formal application. Normally applications will be successful only if a supervisor and topic are well matched. The faculty does not guarantee supervision capacity for all topics. Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as stated on the Business School website. The Research Coordinator within each school can also assist with this process.

To assist applicants to find an appropriate supervisor, applicants should:

1. Identify supervisor's research interests by looking at the interests of the researchers as described on the QUT Business School website;
2. Complete the Expression of Interest to Apply for a Research Degree form, and email this to the QUT Business School HDR Admissions Officer. This contact should include a transcript of academic records, the topic area which they wish to study, the school in which they wish to undertake their research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International Entry requirements

The HDR Admissions Officer may ask for further information to assist with your enquiry. The information will be passed onto the nominated school or supervisor.

International students who may receive home sponsorship on the basis of a conditional PhD offer should contact the QUT Business School to discuss the possibility of a study offer that packages BS69 with the PhD prior to submitting a formal application. Conditions apply to such an offer. All other students should enrol initially in the BS69 to undertake the academic prerequisite training for potential entry to the PhD program.

Minimum english requirements

Students must meet the English proficiency requirements.

Overview

The Graduate Diploma of Business (Professional Accounting) provides students with a solid core in accounting studies and ensures that graduates meet the academic requirements of the Australian professional accounting bodies. This program will be fully nested within the BS16 and BS17 programs and, consequently, requires that students achieve the learning outcomes designed for the Master of Business suite.

If you are looking to change your career direction or enhance your career options, accountancy is a dynamic profession that will provide you with a sustainable, challenging and diverse range of career paths. Professional accountants are in increasing demand nationally and internationally by organisations throughout the commercial, public and not-for-profit sectors. Accountants can work in commerce and industry, in public or chartered accounting firms, in government organisations or as individual practitioners.

Discipline units focus on financial and management accounting requirements, specialised applications in company accounting, audit and assurance, tax and company regulation. Core concepts and knowledge, problem-solving skills and critical and analytical thinking are developed throughout the entire course.

Professional Recognition

Graduates meet the academic component of requirements for membership of CPA Australia and the Institute of Chartered Accountants in Australia, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

External Study

The external version of this course is only available to domestic students. In Semester 1, 2012 it will only be availbale for part-time study. From Semester 2, 2012 this course will be available for full-time study.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at: http://www.qut.edu.au/study/applying/english-language-requirements.jsp

Further Information

If you have any further questions regarding this course please contact the QUT Business School Student Services Office by phone on (07) 3138 2050, via email on bus@qut.com or in person at Level 1, B Block, Gardens Point campus

Domestic Course structure

Course design

Students complete six core units (72 credit points):

- Business and Corporations Law
- Cost and Management Accounting
- Financial Accounting 1
- Financial Accounting 2
- Financial Accounting 3
- Managerial Finance.

Plus, two units (24 credit points) from:

- Auditing and Assurance
- Taxation Law and Practice
- Electronic Commerce Cycles

Domestic Entry requirements

For all majors except Accounting, entry requirements are an undergraduate degree with an overall minimum grade point average of 4.0 (on a 7-point scale). Students entering the Accounting major must have an appropriate degree in accountancy.

Other cognate degrees: Communications courses will be considered for Advertising and Public Relations, and Journalism courses will be considered for Public Relations. Applications based on other cognate degrees will be assessed on a case-by-case basis and will be determined by the extent of studies in the relevant area.

International Entry requirements

For all majors except Accounting, entry requirements are an undergraduate degree with an overall minimum grade point average of 4.0 (on a 7-point scale). Students entering the Accounting major must have an appropriate degree in accountancy.

Other cognate degrees: Communications courses will be considered for Advertising and Public Relations, and Journalism courses will be considered for Public Relations. Applications based on other cognate degrees will be assessed on a case-by-case basis and will be determined by the extent of studies in the relevant area.

Pathways programs

Pathways units are designed for academically qualified students who do not meet the language requirements.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 or TOEFL Internet Score of 80 with no sub-band lower than 20 to enter some majors of the Master of Business (BS16) and Master of Business Advanced (BS17) on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors: Strategic Advertising, Applied Finance, Integrated Marketing Communication, International Business, Marketing and Public Relations.

Please note that the Pathways option is not open to students who enter the degree with advanced standing based upon undergraduate studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

Our Master of Business suite of programs is designed to give you deep specialist knowledge in particular fields of business. Some majors also satisfy the requirements for professional recognition.

This practical nature of our courses means part-time students can apply the concepts they are learning in the classroom directly to their workplace. Full-time students re-enter the job market armed with the latest in global management techniques.

Optional study

An optional 48 credit points of additional study is available in the Master of Business - Advanced program (BS17). This allows you to extend your studies to suit your career interests. The additional 48 credit points may include research studies, advanced coursework studies in your chosen discipline, or the choice of studies in another business discipline. We encourage you to consult with your subject area coordinator as early as possible in your studies to determine the best way to meet your needs.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for ‘all degrees’ at: http://www.qut.edu.au/study/applying/english-language-requirements.jsp

Pathways programs

Pathways units are designed for academically qualified students who do not meet the language requirements.

The Postgraduate Business Pathway program allows international students who

have obtained IELTS 6.0 with no sub-band lower than 5.0 or TOEFL Internet Score of 80 with no sub-band lower than 20 to enter some majors of the Master of Business (BS16) and Master of Business Advanced (BS17) on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors:

• Strategic Advertising
• Applied Finance
• Integrated Marketing Communication
• International Business
• Marketing
• Public Relations

Please note: Advanced Standing based upon undergraduate studies is not available to students who enter the degree under the Pathways option

For further information and entry requirements for Pathways, visit www.qutic.qut.edu.au/courses/pathways/index.jsp

Advanced standing for Undergraduate Studies

Students applying for admission to the Master of Business (BS16) or Master of Business Advanced (BS17) may be eligible for exemptions based on prior undergraduate studies.

If you have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area in which you are studying within previous 5 years, you may be eligible for exemptions up to a maximum of 48 credit points. Approved exemptions will apply to introductory studies or option components in the discipline area you are studying and are not available for specified advanced units. No exemptions will be granted for non-Business related degrees, even if some business subjects may have been completed as part of the course.

New applicants may apply for the exemptions under Section 7 of the Application for Postgraduate Coursework Admission (PG form). Students who completed their undergraduate business degree at QUT do not need to supply additional documentation. Students who completed their undergraduate degree elsewhere must also submit an Application for Advanced Standing (AS form), together with original or certified copies of their final undergraduate transcripts confirming course completion.

University deadlines apply http://www.studentservices.qut.edu.au/info/dates/key/.

Early exit options

Students may exit from the Master of Business (BS16) at the following stages, once those particular course requirements have been met:

• Graduate Diploma of Business (BS79) (Study Area A)
• Graduate Certificate in Business (BS39) (Study Area A)

Students seeking to exit early from the Master of Business course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies. Completion of 96 credit point units, where a minimum of 72 credit points are within the same discipline area, and as approved by the Subject Area Coordinator, is required for completion of the Graduate Diploma course. Due to professional recognition requirements, students exiting from the Master of Business (Professional Accounting) major must complete all of the units in the Graduate Diploma in Business (Professional Accounting) course. Students may apply to early exit with the Graduate Certificate course upon completion of a minimum of 48 credit points, in accordance with the course requirements of the relevant business discipline area.

Early exit from the Master of Business course should only be used for students whose circumstances restrict them from completing the original award course. This process in not designed to allow students to obtain multiple qualifications. Students who are approved to early exit from the Master of Business course will not normally be permitted to continue their enrolment in the original award course for a period of 2 years.

Domestic Course structure

Course design

All majors within the BS16 course are available both full-time and part-time, except for Public Relations (On-line delivery) which is only available part-time.

The Master of Business programs are available in 10 different disciplinary fields. Each discipline area within consists of 144 credit points of study comprising of core and option (elective) units. For those new to the discipline there are 48 credit points of introductory units to develop an appropriate level of foundation knowledge. If you have an appropriate undergraduate degree you may be entitled to receive advanced standing for the introductory units.

The programs consist of two components, the Foundation Studies Component (Part A) and the Discipline component (Part B). The Foundation Studies component provides you with an introduction to your chosen discipline, along with other introductory business studies. Part B units provide discipline-based knowledge in your chosen major. Some majors give you choices to customise your study through option (elective) units or the inclusion of project work.

Further coursework studies are available in majors where professional recognition requirements dictate the content of the Masters program. This option gives students more flexibility to choose units of most interest to them. The choice of a minor in another business discipline allows students to diversify their knowledge through a complementary or alternative business area.

Optional study

An optional 48 credit points of additional study is available in the Master of Business - Advanced program (BS17). This allows you to extend your studies to suit your career interests. The additional 48 credit points may include research studies, advanced coursework studies in your chosen discipline, or the choice of studies in another business discipline. We encourage you to consult with your subject area coordinator as early as possible in your studies to determine the best way to meet your needs.

Advanced standing for Undergraduate Studies

Students applying for admission to the Master of Business (BS16) or Master of Business Advanced (BS17) may be eligible for exemptions based on prior undergraduate studies.

If you have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area in which you are studying within previous 5 years, you may be eligible for exemptions up to a maximum of 48 credit points. Approved exemptions will apply to introductory studies or option components in the discipline area you are studying and are not available for specified advanced units. No exemptions will be granted for non-Business related degrees, even if some business subjects may have been completed as part of the course.

New applicants may apply for the exemptions under Section 7 of the Application for Postgraduate Coursework Admission (PG form). Students who completed their undergraduate business degree at QUT do not need to supply additional documentation. Students who completed their undergraduate degree elsewhere must also submit an Application for Advanced Standing (AS form), together with original or certified copies of their final undergraduate transcripts confirming course completion.

Block exemption

Students seeking to exit early from the Master of Business course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies. Completion of 96 credit point units, where a minimum of 72 credit points are within the same discipline area, and as approved by the Subject Area Coordinator, is required for completion of the Graduate Diploma course. Students may apply to early exit with the Graduate Certificate course upon completion of a minimum of 48 credit points, in accordance with the course requirements of the relevant business discipline area.

Why choose this course?

Many graduates begin in consultancies as account executives or in government or private sector organisations performing a variety of roles from publicity through to events management and product launches. You then have the opportunity to progress to senior consultant or be part of the senior management team within organisations as part of the strategic planning process. IMC graduates have the opportunity to take a new qualification into the marketplace.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Why choose this course?

Rules, regulations, government policy and the diversity of cultures and consumer needs and preferences all impact on how companies do business across borders.

International business skills are in high demand. These skills incorporate ethics, sensitivity and responsiveness to local cultures in new and diverse markets, while at the same time providing the planning, decision-making and strategic management these highly competitive operations need.

The international business environment is explored across a range of business disciplines, including accounting, finance, logistics, management and marketing. The International Business program will give you the expertise and skills to succeed in organisations both in Australia and around the world, including multinational enterprises, smaller firms operating across borders, government agencies and consulting firms that serve international companies.

Course design

Students are required to complete 12 units (144 credit points). Please refer to the course structures for information on specific unit requirements.

Early Exit

Overview

This course is designed for marketing practitioners to freshen or further their skills, or those seeking a career change to this field you will develop marketing management skills as they apply to a business or corporation with practical focus on the identification of forecast opportunities and threats in domestic and international industries; the development of marketing strategies, tactics and plans for such opportunities and threats; the ability to implement and monitor marketing strategies, tactics and plans and their effect on the organisation; and the consideration of new theories, concepts and techniques in marketing management.

Why choose this course?

Marketing professionals are involved in the promotion and/or sales of a company's goods or services. This includes the marketing of existing product lines, or the development of new markets for new or existing products. Marketing is a vital component of business in all industries, as well as in government and third-sector organisations.

This course can lead to more strategic roles such as business development managers, brand or product managers, marketing consultants or marketing managers.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Early Exit

Information on early exit options may be found on the Master of Business title page.

Abbreviation

MBus(ProAcc)

Other majors

See also separate entries for the following majors in this course: Accounting, Applied Finance, Human Resource Management, Integrated Marketing Communication, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

Professional recognition

Graduates meet the academic component of requirements for associate membership of CPA Australia, the Institute of Chartered Accountants in Australia, the Institute of Public Accountants, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants.

Career outcomes

Accountancy is a great platform for a dynamic and exciting business career. Accountants work in a diversity of areas—in commerce, local, national and international firms, government organisations, law firms, banks, merchant banks, stockbrokers, charitable organisations, hospitals and churches, film, television and media or they run their own business. A career in accounting can lead to more strategic and leadership roles such as general manager, chief financial officer and chief executive officer.

overall	6.5

Why choose this course?

Postgraduate study in public relations is designed for practitioners to sharpen or further their skills, or those seeking a career change to this field. The major is designed as a systematic and comprehensive survey of the discipline of public relations. It provides an overview of the foundations of public relations theory and practice, problems and opportunities in communicating with the corporate audience, theories underpinning public opinion and mass media effects, mass media strategy and tactics, and a systematic exploration of the planning, management and evaluation of public relations campaigns.

Course design

Students are required to complete 144 credit points of units. Please refer to the course structures for information on specific unit requirements.

Early Exit

Information on early exit options may be found on the Master of Business title page

Overview

In today's rapidly changing business environment, Human Resource Management (HRM) professionals are confronted with the challenges of developing organisational and workforce capability. HRM expertise is also increasingly required by line managers, who now take a more active role in the development and management of their team members.

The Human Resource Management program is designed to increase the skills of both specialists and line managers and meet the individual learning goals and career aspirations of each student. The program provides flexibility for the busy professional to complete the degree part-time, focusing on real-world work issues of personal relevance. HRM professionals will develop a broader view of the nature of business, and the relationship between how people are managed and the organisation's performance in the global context of business.

Those who are undertaking HRM activities but have a background in other professional fields will gain the enhanced people management skills they require. The major also suits the needs of graduates who wish to move into the HRM profession.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units.

To ensure that the program builds on prior academic and work experience, each participant in the HRM major receives an individualised study plan. Participants are therefore required to consult with the HRM coordinator regarding development of their study plan. Any subsequent changes to the approved program will require coordinator approval. Failure to obtain approval may affect a student's course progression and impact on their eligibility to graduate.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit

Information on early exit options may be found on the Master of Business-Advanced title page.

Abbreviation

Career outcomes

The program prepares graduates for careers in generalist or specialist human resource professional roles. Generalist positions include human resources assistant, officer, manager or director and these may be located in corporate and private firms as well as public institutions. Specialist positions may include those involved with employment relations, recruitment and placement consulting, training and development specialists, management and executive coaching, as well as consulting careers.

Other Majors

See also separate entries for the following majors in this course: Accounting, Applied

Finance, Human Resource Management, Integrated Marketing Communication, International Business, Marketing, Philanthropy and Nonprofit Studies, Professional Accounting, Public Relations and Strategic Advertising.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:
http://www.qut.edu.au/study/applying/english-language-requirements.jsp

Further Information

To ensure HRM students are provided with a selection of units that best suits their prior knowledge and experience, HRM students must contact Narelle Prior on 3138 6701 or email n.prior@qut.edu.au.

Domestic Course structure

Unit selection

You should consult with the subject area coordinator for advice on units depending on your prior study.

Example course units

- Consulting and Change Management
- Contemporary Issues in Human Resource Management
- Leadership and Executive Coaching
- Managing High-Performance Organisations
- Self Leadership
- Strategic Human Resource Development
- Strategic Human Resource Management
- Talent Management

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units.

To ensure that the program builds on prior academic and work experience, each participant in the HRM major receives an individualised study plan. Participants are therefore required to consult with the HRM coordinator regarding development of their study plan. Any subsequent changes to the approved program will require coordinator approval. Failure to obtain approval may affect a student's course progression and impact on their eligibility to graduate.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. Overview

If you are interested in advertising, promotions or communications, you should consider an Integrated Marketing Communication (IMC) major. Studies in IMC will provide you with a systematic and comprehensive understanding of the theory and research integration of marketing communication.

The course focuses on refinement of analytical skills and knowledge required for decision making in the areas of advertising, marketing and public relations. IMC focuses on the strategic integration of the functions of public relations, advertising, promotion, direct marketing, and personal selling to achieve brand equity and increase the effectiveness of promotional communications with target audiences.

You will be equipped to confront the fragmentation of mass markets, the explosion of new technologies that give consumers more control over the communication process, the emergence of global markets, and rapid changes in economic conditions within which organisations operate.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit

Information on early exit options may be found on the Master of Business-Advanced title page.

Overview

Rules, regulations, government policy and the diversity of cultures and consumer needs and preferences all impact on how companies do business across borders.

International business skills are in high demand. These skills incorporate ethics, sensitivity and responsiveness to local cultures in new and diverse markets, while at the same time providing the planning, decision-making and strategic management these highly competitive operations need.

The international business environment is explored across a range of business disciplines, including accounting, finance, logistics, management and marketing.

The International Business program will give you the expertise and skills to succeed in organisations both in Australia and around the world, including multinational enterprises, smaller firms operating across borders, government agencies and consulting firms that serve international companies.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Overview

Postgraduate study in public relations is designed for practitioners to sharpen or further their skills, or those seeking a career change to this field. The major is designed as a systematic and comprehensive survey of the discipline of public relations. It provides an overview of the foundations of public relations theory and practice, problems and opportunities in communicating with the corporate audience, theories underpinning public opinion and mass media effects, mass media strategy and tactics, and a systematic exploration of the planning, management and evaluation of public relations campaigns.

The Master of Business - Advanced allows you to further your knowledge with the selection of four approved postgraduate option (elective) units.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved option (elective) units. Non-standardised course progression may result in unit selection difficulties. Students should contact the School of Advertising, Marketing and Public Relations for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced title page.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit

Information on early exit options may be found on the Master of Business-Advanced title page.

International Entry requirements

An undergraduate degree or equivalent in any field with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale).

Pathways programs

International students who do not meet language requirements can complete pathways units within selected majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 0 or TOEFL: 550 (paper-based), 213 (computerised) or 80 with at least 18 in all bands (Internet Based) to enter some majors of the Master of Business and Master of Business Advanced on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors:

- Strategic Advertising
- Applied Finance
- Integrated Marketing Communication
- International Business
- Marketing
- Public Relations

For more information please contact the QUT Business School International Student Office on 3138 1790.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Master of Business Advanced gives you the opportunity to extend the Master of Business with an additional 48 credit points usually comprised of either, a research dissertation, further coursework studies in your chosen major, or coursework studies in another business discipline, giving you the opportunity to tailor your studies to suit your interests and professional requirements. Under certain circumstances the Advanced program can also provide a pathway to doctoral-level studies in the PhD or DBA programs.

Course design

Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved coursework or research option units to complete the Master of Business Advanced (BS17).

Students should follow the standard course progressions outlined in the discipline specific course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact their discipline School for course progression advice if required.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the previous five years, may be eligible for exemptions up to a maximum of 48 credit points.

Approved exemptions will apply to introductory studies or elective components in the discipline area you are studying and are not available for specified advanced units. No exemptions will be granted for non-Business related degrees, even if some business subjects may have been completed as part of the course.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Early Exit Option

Students may exit from the Master of Business Advanced (BS17) at the following stages, once those particular course requirements have been met:

- Master of Business (BS16) (Study Area A)
- Graduate Diploma of Business (BS79) (Study Area A)
- Graduate Certificate in Business (BS39)

(Study Area A)

Students seeking to exit early from the Master of Business Advanced course and graduate with an approved exit course should lodge an application during the teaching period in which they expect to complete their studies.

Early exit from the Master of Business course should only be used for students whose circumstances restrict them from completing the original award course. This process in not designed to allow students to obtain multiple qualifications. Students who are approved to early exit from the Master of Business course will not normally be permitted to continue their enrolment in the original award course for a period of 2 years.

Pathways programs

International students who do not meet language requirements can complete pathways units within selected majors.

The Postgraduate Business Pathway program allows international students who have obtained IELTS 6.0 with no sub-band lower than 5.0 0 or TOEFL: 550 (paper-based), 213 (computerised) or 80 with at least 18 in all bands (Internet Based) to enter some majors of the Master of Business and Master of Business Advanced on the condition they undertake two Communication units (QCD111 and QCD211) in the first semester of their postgraduate business course. This option is applicable to following Majors:

- Strategic Advertising
- Applied Finance
- Integrated Marketing Communication
- International Business
- Marketing
- Public Relations

For more information please contact the QUT Business School International Student Office on 3138 1790.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:
http://www.qut.edu.au/study/applying/english-language-requirements.jsp

Domestic Course structure

Overview

This course is designed to equip you with knowledge and skills for a career in the management of philanthropic and nonprofit organisations. Whether you work in a nonprofit organisation, are a public sector manager whose service delivery is through or partnered with nonprofit organisations, or are a private sector manager who engages in business with the nonprofit sector, this major can help build professional knowledge and skills relevant to the sector. Skills critical to nonprofit management, such as problem solving, creative thinking, negotiation, ethical practices, teamwork, leadership, networking and information management are incorporated into the teaching, learning and assessment.

The Master of Business - Advanced allows you to further your knowledge in another business discipline area with the selection of four approved postgraduate option (elective) units. Alternatively a 48 credit point dissertation may be undertaken.

Course design

Students must undertake 192 credit points consisting of 72 credit points of prescribed units. Complementary Studies units (12 credit points) and 48 credit points of QUT Business School Option (elective) units. Students should follow the standard course progressions as outlined in the below course structures otherwise difficulties with completing the requirements of the course may be encountered. Students should contact the Graduate School of Business for course progression advice.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced overview.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

Visiting Students and Cross-Institutional Enrolment

Individual units within this course are available to both visiting students and cross-institutional students. Visiting students are students who undertake units at QUT for personal or professional development. Cross-institutional students are enrolled at another institution and opt to undertake individual units at QUT as part of their program. Entry for both visiting students and cross-institutional enrolment is based on merit and applications may be rejected if the applicant does not have an educational background appropriate to the units of study applied for or if there are insufficient places remaining in the class.

Articulation

Students who have articulated from the Graduate Certificate in Business Philanthropy and Nonprofit Studies may receive exemptions for up to 48 credit points. Students who have articulated from the Master of Business Philanthropy and Nonprofit Studies program may receive up to 144 credit point of exemptions.

Duration (part-time)	4 years
Campus	Gardens Point
Domestic fee (indicative)	2012: $9900 per Semester
International fee (indicative)	2012: $12000 per Semester
Total credit points	192
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July
Int. Start Months	February, July
Course Coordinator	Enquiries to Business Student Services on 3138 2050 or email bus@qut.edu.au
Discipline Coordinator	Associate Professor Stuart Tooley (Accounting); Dr William Wild (Applied Finance); ASPRO Paul Davidson (Human Resource Management); Mr Bill Proud (International Business); Mr Bill Proud (Integrated Marketing Communication, Marketing, Public Relations) and Prof Myles McGregor-Lowndes (Philanthropy and Nonprofit Studies) Business Student Services on 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

For all study areas except Accounting, entry requirements are an undergraduate degree in a cognate discipline with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale). Applicants for the Accounting study area must have an appropriate undergraduate degree in Accountancy.

For the Philanthropy and Nonprofit Studies major, it is compulsory for enrolled students to attend the ACPNS Orientation and Intensive Weekend at the Gardens Point Campus of QUT. During this weekend students will participate in a specialised orientation program and also attend the first lectures of available units. Further information on the ACPNS Orientation and Intensive is available at www.bus.qut.edu.au/research/cpns/whatweteach/orientation.jsp

International Entry requirements

For all study areas except Accounting, entry requirements are an undergraduate degree in a cognate discipline with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale). Applicants for the Accounting study area must have an appropriate undergraduate degree in Accountancy.

For the Philanthropy and Nonprofit Studies major, it is compulsory for enrolled students to attend the ACPNS Orientation and Intensive Weekend at the Gardens Point Campus of QUT. During this weekend students will participate in a specialised orientation program and also attend the first lectures of available units. Further information on the ACPNS Orientation and Intensive is available at www.bus.qut.edu.au/research/cpns/whatweteach/orientation.jsp

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students are required to complete 192 credit points of units (96 credit points from each Master of Business (Study Area A)).

Pathways to further study

The Master of Business/Master of Business (BS18) may be a pathway of study into the Doctor of Business Administration (DBA) (BS25). Additional pathways may be available through consultation with the Director of Graduate Studies.

Further information

Students must contact the relevant discipline school for course progression and enrolment advice.

Early exit options

Students may exit from the BS18 Master of Business/Master of Business at the following stages, once those particular course requirements have been met:

• Graduate Certificate in Business (Study Area A) (BS39)
• Graduate Diploma of Business (Study Area A) (BS79)
• Master of Business (Study Area A) (BS16)

Discipline Coordinator	Business Student Services on 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

Prospective students must meet the MBA entry requirements. For the MBA entry requirements, refer to www.qut.edu.au/study/courses/master-of-business-administration-mba

For all study areas except Accounting, entry requirements are an undergraduate degree in a cognate discipline with an overall minimum Grade Point Average (GPA) of 4.0 (on a 7 point scale). Applicants for the Accounting study area must have an appropriate undergraduate degree in Accountancy.

For the Philanthropy and Nonprofit Studies major, it is compulsory for enrolled students to attend the ACPNS Orientation and Intensive Weekend at the Gardens Point Campus of QUT. During this weekend students will participate in a specialised orientation program and also attend the first lectures of available units. Further information on the ACPNS Orientation and Intensive is available at www.bus.qut.edu.au/research/cpns/whatweteach/orientation.jsp

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

GMAT details (PDF file, 271.78 KB)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Referee Proforma (DOCX file, 106.99 KB)

Course design

The Executive MBA is a prescribed program. Students are required to undertake 24 units of 6 credit points each.

The intake for the EMBA is in January and the program runs for 22 months. Classes are scheduled once every four weeks over a Friday to Sunday weekend session, with 18-21 hours of classes per weekend session each month of the program; plus one intensive session (International Study Tour) in April 2012. The intensive block sessions allow students to schedule some dedicated time to study with minimal interference to their business commitments.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (eg AACSB, EQUIS, AMBA).

Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

Further information

If you have any further questions regarding this course please contact the Corporate Education Office on 3138 6874, via email on emba@qut.edu.au or on Level 5, B Block, Gardens Point campus.

Domestic Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

GMAT details (PDF file, 271.78 KB)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Career impact

QUT's innovative and flexible MBA program is designed for working professionals who are seeking to broaden their business knowledge and advance their career opportunities. The practical nature of our courses means part-time students can apply the concepts they are learning in the classroom directly to their workplace. Full-time students re-enter the job market armed with the latest in global management techniques.

Course design

Students must complete 14 core units and two integrative core units of six credit points each and a further 48 credit points of optional units, which may be selected from any of the MBA concentrations or minors. Other postgraduate units may be undertaken with the Course Coordinator's approval. Students may be able to complete multiple concentrations and minors through careful selection of optional units.

Scholarships

We offer a number of merit-based scholarships to exceptional successful applicants to the MBA and MBA (Major) programs. Eligibility for a scholarship is based on GMAT score, undergraduate grade point average, work experience, plus a written supporting statement from the applicant.

Advanced standing

Advanced standing may be granted only if the course units for which the advanced standing is being sought have been completed in the last five years from an accredited business school or university (e.g. AACSB, EQUIS, AMBA). Advanced standing may also be granted at the discretion of the Graduate Studies Director under the following criteria:

1. The business school or university is highly ranked by an international publication or agency
2. There is a pre-existing exchange/cross-institutional agreement
3. The applicant is considered to be in the top third of his/her class cohort or has a GPA of 5.75 or more on a 7-point scale.

Articulation

Students may articulate from the Graduate Certficate in Business Administration into the MBA provided they have a minimum GPA of 4.5.

English language requirements

In addition to the above academic entry requirements, standard English language requirements apply. See the details for 'all degrees' at:
http://www.qut.edu.au/study/applying/english-language-requirements.jsp

Further information

If you have any further questions regarding this course please contact the QUT Business School Student Services Office on 3138 2050, via email on bus@qut.edu.au or at Level 1, B Block, Gardens Point campus.

Abbreviations

MBA

Domestic Course structure

Flexible study options

Each MBA unit of six credit points is delivered in a seven-week module (six weeks teaching with final assessment in week seven).

Busy professionals who undertake part-time studies are catered for with a flexible structure that helps you incorporate study into your hectic lifestyle. With six teaching periods, you can change your course workload six times a year, and may even take a teaching period off when your work or personal life requires.

Course structure

Core units

- Business Communication
- Business Law
- Economics in Business
- Entrepreneurship
- Financial Management
- Financial Statements Analysis
- Fundamentals of Marketing Management
- Human Resource Management Issues
- Managing in the Global Business Environment
- Managing Technological Innovation
- Organisational Behaviour
- Strategic Management
- Understanding Data
- Understanding Leadership

Integrative core units

- Business Plans
- Corporate Governance and Accountability

Electives

Students can choose from a wide variety of elective units both from within the QUT Graduate School of Business and from other schools and faculties within QUT. For a list of elective units visit www.qut.edu.au/study/courseinfo

Concentrations and minors

The structure of our program enables you to add greater depth in an area of interest by choosing electives to achieve one or more concentrations (up to six units) or minors (up to four units).
It may be possible for you to complete multiple concentrations or minors through careful choice of elective units.

If you have a prior degree in a business area you may be able to substitute some introductory core units with additional

electives. This allows you to study areas that you find personally satisfying, as well as units that are essential for your professional development.

The titles of completed concentrations and minors are recorded on academic transcripts at the completion of study.

Concentrations and minor areas:

- Accounting
- Corporate Governance
- Entrepreneurship
- Finance
- Health Services Management
- Human Resource Management
- Information Technology Management
- International Business
- Leadership
- Marketing
- Philanthropy and Nonprofit Studies
- Project Management
- Strategy.

MBA candidates may also choose from other postgraduate elective units which do not specifically contribute toward a concentration or minor.

Course Coordinator	Dr Vicky Browning
Discipline Coordinator	Dr Amanda Gudmundsson Business Student Services on 3138 2050 or email bus@qut.edu.au

Domestic Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

Prior academic achievement

Prior academic study at the Bachelor level can be in any field at any recognised tertiary institution. Original or certified copies of academic transcripts that show date of completion or conferral of degree(s) and a Grade Point Average (GPA) must be provided. Not all undergraduate degrees from overseas institutions are assessed as being equivalent to Australian bachelor degrees. Applicants who have not completed a recognised bachelor degree, including the three-year diploma in China, will be considered for admission into the Graduate Certificate in Business Administration based on their Graduate Management Admission Test (GMAT) score, prior work experience and referee reports.

Graduate Management Admission Test (GMAT)

As applicants may come from a range of fields and their work experience may be diverse, a management aptitude test score is a useful indicator of an applicant's ability to meet the program's academic requirements. All applicants are required to undertake the GMAT. There will be no exemptions based on prior education or experience. GMAT test scores are valid for five years.

If you have already undertaken the GMAT QUT needs to see a certified copy of your Test Takers Score. If you are planning to take the GMAT, please have the results sent directly to QUT (our identification number is 1677).

GMAT details (PDF file, 271.78 KB)

Work experience

Relevant work experience indicates applicants will be able to contribute to class discussion. A minimum of three years full-time equivalent professional or managerial work experience is required after the completion of an undergraduate degree. To enable us to assess your work experience, a current curriculum vitae providing details of your roles, responsibilities and achievements is required.

Referee reports

All applicants must obtain two referee reports on the referee proforma. At least one referee report should be from your current employer. The referees may choose to send the recommendations directly to QUT (fax, email and postal addresses are provided on the proforma).

Referee Proforma (DOCX file, 106.99 KB)

International Entry requirements

To be considered for admission, applicants must:

- demonstrate proficiency in the English language
- hold a Bachelor degree in any field from a recognised university with a minimum grade point average (GPA) of 4.5 on QUT's 7-point scale
- have a GMAT score of at least 550
- have a minimum three years full-time equivalent relevant managerial or professional work experience post-degree
- provide two referee reports on proforma.

International Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the programs of study described under the individual majors.

For entry with an Honours degree students must complete a dissertation (96 credit points).

The QUT Research Student Centre enrols all research students. However any questions regarding enrolment can be directed to the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision

You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Mid-year entry students

Mid-year entry students should contact the Research Studies Office in the QUT Business School on 3138 1320 or bus.research@qut.edu.au for enrolment advice and course progression details.

Prerequisites

Prerequisite requirements for the following units are deemed to have been satisfied upon admission to this course, expect for those specifically identified in brackets and italics. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Research Coordinator prior to enrolment.

Discipline Coordinator	Associate Professor Jennifer Bartlett QUT Business School Research Support Office phone 3138 1407 or email bus.research@qut.edu.au

Domestic Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

International Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the programs of study described under the individual majors.

For entry with an Honours degree students must complete a dissertation (96 credit points).

The QUT Research Student Centre enrols all research students. However any questions regarding enrolment can be directed to the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision

You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Mid-year entry students

Mid-year entry students should contact the Research Studies Office in the QUT Business School on 3138 1320 or bus.research@qut.edu.au for enrolment advice and course progression details.

Prerequisites

Prerequisite requirements for the following units are deemed to have been satisfied upon admission to this course, expect for those specifically identified in brackets and italics. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Research Coordinator prior to enrolment.

Domestic Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

International Entry requirements

If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Business School must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the programs of study described under the individual majors.

For entry with an Honours degree students must complete a dissertation (96 credit points).

The QUT Research Student Centre enrols all research students. However, any questions regarding enrolment can be directed to the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision

You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Mid-year entry students

Mid-year entry students should contact the Research Studies Office in the QUT Business School on 3138 1320 or bus.research@qut.edu.au for enrolment advice and course progression details.

Abbreviation

MBus(Research)

Prerequisites

Prerequisite requirements for the following units are deemed to have been satisfied upon admission to this course, expect for those specifically identified in brackets and italics. Where option (elective) units may be undertaken, students should check prerequisite requirements in the unit synopsis section of the QUT Handbook and obtain approval from the School Research

Coordinator prior to enrolment.

Domestic Course structure

For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the program of study for this major.

For entry with an Honours degree students must complete a dissertation (96 credit points).

Mid-year entry students

Students wishing to enrol in July should contact the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au for enrolment advice and course progression details.

Enrolment

The Research Student Centre enrols all research students. Any questions regarding enrolment can be directed to the Research Studies Office in the QUT Business School on 3138 1407 or bus.research@qut.edu.au

International Course structure

Overview

Students can pursue advanced studies within their discipline. Students will develop their capacity to conduct rigorous independent research, as well as undertaking advanced coursework that integrates conceptual and practical issues within their discipline.

Students can study within the following school areas: accountancy, advertising, banking and finance, economics, entrepreneurship and innovation, human resource management, international business, management, marketing and public relations.

Facilities

Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Admission to the DBA course will be based on candidates having completed a minimum of five years senior level business or professional practice experience, and either:

- a Masters degree in Business Administration (MBA) with a GPA of 5.5 (on a scale of 7) or greater from QUT or another recognised institution; or
- a Masters degree in a business discipline area (e.g. Master of Business) with a GPA of 5.5 or greater from QUT or another recognised institution; or
- a Bachelor's degree in a business discipline with first or second class Honours Division A, or equivalent, from QUT or another recognised institution.

Admission is subject to these requirements, plus an interview with the Director Graduate Studies or the Assistant Dean (Research) and mutual acceptance of a study plan on a case-by-case basis, and subject to availability of a suitable supervisor.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course design

Students will complete 288 credit points consisting of:

• Discipline based coursework (48 credit points)
• Research skills training (48 credit points)
• Research project (192 credit points)

Career impact

Graduates will be positioned to be leaders within their industry with particular emphasis on research and development. Specifically, they will be able to:

• practise at a high level in a variety of organisational contexts
• apply innovative solutions to business problems and opportunities, through an understanding of new and relevant scholarship and the role and limitations of research in solving business problems
• present scholarly research to both academic and non-academic audiences.

Weekend doctoral seminars

Students will be expected to attend two intensive weekend doctoral seminars per year.

Assumed knowledge

Applicants are assumed to have postgraduate-level knowledge of their proposed research area, or to develop such knowledge through appropriate discipline based study in the coursework component of the degree.

Abbreviation

DBA

Domestic Course structure

Course design

The program is structured in three phases:

Postgraduate business coursework

This phase consists of 48 credit points of postgraduate discipline units. You will study up to eight coursework units and gain a firm grounding in your chosen field of management.

Research skills training

Phase 2 consists of a further 48 credit points of coursework to prepare you for your research projects. You will be taught how to approach your research using contemporary qualitative and quantitative research methods. There are three compulsory research units (36 credit points) plus an additional 12 credit points of complementary research units.

These 12 credit points may consist of:

- two eGrad School six-credit-point units, or
- one 12-credit-point QUT Business School or University research unit.

The eGrad School brings together a wide range of online activities and resources that are specifically designed for early career researchers, whatever their home university or location. Visit www.egradschool.edu.au

Research component

This phase is the core of the DBA—the research projects. This is where you will show your superior expertise in business administration and your profession. This phase consists of 192 credit points, with

two options for completion:

- one DBA dissertation of approximately 50 000 words documenting the research project or projects, or
- three research papers of publishable quality. Papers are defined as journal articles, book chapters, and other forms of written scholarly works which are subject to a process of peer review similar to that of refereed journals. Each paper would be approximately 15 000 words.

International Course structure

Doctor of Philosophy (Hosted by QUT Business School)

Handbook

Year	2012
QUT code	IF49
CRICOS	006367J
Campus	Gardens Point
Domestic fee (indicative)	Aust citizens or PRs will be awarded an RTS/RTA place or a QUT sponsorship for tuition fees. If you exceed the max time, you will be charged - 2012: $12,400 per Semester
International fee (indicative)	2012: $13700 per Semester
Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Course Coordinator	Dr Stephen Cox
Discipline Coordinator	Accountancy - A/Professor Marion Hutchinson; Advertising - A/Prof Ian Lings; Economics and Finance - Prof Janice How; Marketing - A/Prof Ian Lings; Management - Dr Artemis Chang; Public Relations - A/Prof Ian Lings

International Entry requirements

Candidates must have a relevant first-class or second-class division A (upper division) honours degree or an appropriate masters degree with a recognised research component .

Evidence of financial support such :

- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval

English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Location and duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Coursework requirement

All PhD students are required to enrol in IFN001 Advanced Information Retrieval Skills. For further information, please refer to Library.

In addition, it is normal for some prescribed coursework to be undertaken to assist in the preparation for the thesis. Generally, the subjects include qualitative methods, quantitative methods, and research methodology. Discipline-specific subjects may also be prescribed. Usually, the coursework is completed at the Gardens Point campus in Brisbane City.

Further information or assistance

Total credit points	96
Credit points full-time sem.	48
Course Coordinator	Elizabeth McDade
Discipline Coordinator	

International Entry requirements

To be accepted into the program you must have successfully completed senior high school with the required grades. You must also have relevant vocational experience.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	5.0
writing	5.0
reading	5.0
listening	5.0
overall	5.5

QUT International College

International students may upgrade to the QUT Bachelor of Information Technology through QUT International College at our Kelvin Grove campus.

The University Diploma in Information Technology is equivalent to two semesters of the Bachelor of Information Technology degree with a total of 96 credit points (48 standard credit points for a full-time semester).

In the University Diploma program, students study six degree core units as well as two English language units that have been designed to support the other core units.

Progression to the Bachelor of Information Technology

Students who successfully complete these eight units with a grade point average of 4 (on a 7-point scale) and obtain a grade of at least 4 in Professional Communication 2 are given two semesters full-time advanced standing towards their degree and are guaranteed a place in the Bachelor of Information Technology.

Students who complete the University Diploma in Information Technology are also eligible for 96 credit points towards the Bachelor of Corporate Systems Management and Bachelor of Games and Interactive Entertainment.

International Course structure

University Diploma in Information Technology units

- Databases
- Building IT Systems
- Emerging Technology
- Industry Insights
- Programming
- Networks
- Professional Communication 1
- Professional Communication 2

Extension English Sessions

For first-semester students, these sessions take place during weeks two to eight. Other QUTIC students in University Entry Programs may join the sessions, if their timetable permits. The aims of Extension English are to improve the student's English language proficiency in speaking, listening and overall writing ability in a relaxed environment.

In addition to developing these language skills, students have the opportunity to discuss cultural issues and ask questions about studying at university.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for all primary majors in this course. In addition, Software Engineering also has full professional accreditation with the Australian Computer Society.

Second Majors

Depending on your choice of primary major, you may have the opportunity to undertake a second major or two minors. A second major is an established set of eight units (96 credit points) in the same discipline. A minor is an established set of four units (48 credit points) in the same discipline or from anywhere in the University. You will select your primary major, second major and/or minors after the completion of your first year.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

Work Integrated Learning unit

Students must complete 60 days approved industrial experience in an engineering environment, including 10 days specialist experience in the avionics industry as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundation of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

A solid grounding in the basic terminology and work practices commonly employed in the aerospace industry provide an understanding of air, spacecraft flight control principles and safety aspects of aviation. Exciting wind tunnel tests and understanding of Mach number effects, fundamentals of aircraft performance, estimating range and endurance, take off and landing calculations and light envelopes also feature.

Year 3

Emphasis on the flight control systems of modern aircraft, which is one of the primary subsystems. You are introduced to methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft, and criteria for stability. Systems engineering methodologies and techniques are applied to aerospace engineering projects such as design and operation of a fully autonomous micro air vehicle or rocket.

Year 4

Advanced concepts such as spacecraft guidance and navigation, orbit and altitude determination, dynamics for low earth satellites and also the dynamics of rocket ascent trajectories. Relevant RF and applied electromagnetic aerospace radio radar systems and navigation systems for aircraft are explored. You undertake a one-year project and work integrated learning.

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Construction) must complete at least 60 days of industrial experience/ practice in an engineering construction environment as part of the Work Integrated Learning unit.

Second Majors and Minors

You will have the opportunity to undertaken either a 2nd major or two minors (see options below).

CIVIL AND CONSTRUCTION ENGINEERING Second Major and Minor Options

Second Major:

Civil Infrastructure

Minors:

Civil and Construction Engineering minor

plus

A minor from anywhere in QUT that is outside of the course. (see University Wide Minors)

Please note: The Work Integrated Learning unit (BEB701) and the project unit (BEB801) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

International Student Entry

International students who are interested in mid-year entry should consult the Faculty of Built Environment and Engineering Student Services section regarding the course structure to be undertaken.

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

Apply knowledge of fundamental engineering science in design areas of timber and concrete construction. Explore theoretical aspects of geotechnical and materials engineering. Your theoretical understanding is reinforced by practical experience in our laboratories. Develop

skills in construction administration and project management. Engineering statistics mathematical skills also help your understanding of all aspects of engineering design.

Year 3
Increase your knowledge and skills in geotechnical engineering, construction management, law and other related construction practices. Explore steel construction. Continue to develop communication and organisational skills by writing reports, presenting seminars and working in small groups. Choose a second study area.

Year 4
Build on your third year to complete your second study area. Undertake a major project which will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You also complete your work integrated learning.

Second majors and minors
You will have the opportunity to undertaken either a 2nd major or two minors (see options below).

Please refer to the rules before making your selection.

Electrical engineering second major and minor options

Second major:
- Civil Infrastructure

Minors:
- Civil and Construction Engineering minor

plus
- A minor from anywhere in QUT that is outside of the course.

Please note: The Work Integrated Learning unit (BEB701) and the project unit (BEB801) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

Year 3
Increase your knowledge and skills in geotechnical engineering, construction management, law and other related construction practices. Explore steel construction. Continue to develop communication and organisational skills by writing reports, presenting seminars and working in small groups. Choose a second study area.

Year 4
Build on your third year to complete your second study area. Undertake a major project which will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You also complete your work integrated learning.

Second majors and minors
You will have the opportunity to undertaken either a 2nd major or two minors (see options below).

Please refer to the rules before making your selection.

Electrical engineering second major and minor options

Second major:
- Civil Infrastructure

Minors:
- Civil and Construction Engineering minor

plus
- A minor from anywhere in QUT that is outside of the course.

Please note: The Work Integrated Learning unit (BEB701) and the project unit (BEB801) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Environmental) must obtain at least 60 days of industrial experience/practice in an engineering environment as part of the Work Integrated Learning unit.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

Apply your knowledge of fundamental engineering science in design areas of concrete construction. Explore the theoretical aspects of geotechnical, fluids and sustainable engineering. Your theoretical understanding is reinforced by practical experience in our laboratories. Engineering statistics mathematical skills also help your understanding of all aspects of engineering design.

Year 3

Increase your knowledge and skills in geotechnical and water engineering, and explore steel construction, highway and transport engineering. You are also introduced to environmental studies relating to population, resource management and environmental law. Continue to develop communication and organisational skills by writing reports, presenting seminars and working in small groups.

Year 4

Building on your third year by completing a major project which may be industry based will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You also complete work integrated learning. There are also additional electives to choose from.

Discontinuation

From Semester 1 2010, this primary major has been discontinued. A second major in this discipline is currently under development.

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Minors

For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised engineering units.

Special Course Requirements

Students must complete at least 60 days industrial experience as part of the Work Integrated Learning unit in order to graduate.

Course Overview

The course is a collaborative program between the areas of Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems and computer systems in all areas of industry.

Career Outcomes

Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition

Full professional accreditation from Engineers Australia and the Australian Computer Society has been given for this course.

Special course requirements

Students are required to complete 60 days approved industrial experience as part of the Work Integrated Learning unit.

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You expand your knowledge of software development, and cover the fundamentals of analogue and digital electronics, and the approach to writing software to solve engineering problems. A mathematics unit is completed. Semester two expands on electronics circuit design, introduces fundamentals of telecommunications and networking protocols, and broadens computer programming skills.

Year 3

You build on your knowledge of software engineering principles, covering topics

such as formal software engineering processes with an emphasis on agile methodologies, data structures and algorithms and modern software engineering practices. Microprocessors and embedded digital systems are explored. Principles of systems engineering and project management are introduced and applied through a real-world project.

Year 4

You undertake a major project which may be industry based, in which principles of software engineering learnt to date are brought together. Study also covers embedded systems and security. You also have the opportunity to take one or two electives.

Bachelor of Engineering (Electrical)

Handbook

Year	2012
QUT code	EN40
CRICOS	056529D
Duration (full-time)	4 years
OP	11
Rank	78
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $3,804 per Semester
International fee (indicative)	2012: $12500 per Semester
Total credit points	384
Credit points full-time sem.	48
Start months	February, July
Int. Start Months	February, July
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr R.Mahalinga-Iyer
Discipline Coordinator	Associate Professor Firuz Zare

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional recognition

Full professional accreditation from Engineers Australia has been given for this course.

Second Major and Minors

You will have the opportunity to undertaken either a 2nd major or two minors (see options below).

ELECTRICAL ENGINEERING Second Major and Minor Options

Second Major:
Control Systems (previously Control and Manufacturing Engineering)
Power and Energy Systems (previously Power Engineering)
Signal Processing
Telecommunications

Minors:
Electrical Engineering minor
plus
A minor from anywhere in QUT that is outside of the course. (see University Wide Minors)

Please note: The Work Integrated Learning unit (BEB701) and project units (BEB801, BEB802) that are required for professional recognition and were once part of an applications minor have now been moved to the core of the Engineering course.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Special Course Requirements

To graduate, students must complete at least 60 days industrial experience in an engineering environment as part of the Work Integrated Learning unit.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You expand your knowledge of electrical engineering, and cover the fundamentals of analogue and digital electronics, and the approach to writing software to solve engineering problems. You are introduced to fundamental concepts in electronics, telecommunications and software design. You apply these concepts and are introduced to fundamentals of electrical engineering design.

Year 3
You increase your knowledge and skills in more advanced units in control, power systems, electronics, signal processing and telecommunications. You continue to develop your communication skills by writing assignment reports and presenting seminars. You choose a second study area.

Year 4
In your final year you complete your second study area. You undertake a major project which may be industry based and brings together all your previously mastered skills and advances your communication skills in report writing and seminar presentation. You will also complete your work integrated learning.

Second majors and minors
You will have the opportunity to undertaken either a 2nd major or two minors (see options below).

Please refer to the rules before making your selection.

Electrical engineering second major and minor options
Second major:

- Control Systems (previously Control and Manufacturing Engineering)
- Power and Energy Systems (previously Power Engineering)
- Signal Processing
- Telecommunications

Minors:

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

Build your knowledge of fundamental engineering science in areas such as design, dynamics, fluid mechanics, manufacturing and mathematics. You are introduced to technical computing which is a specialist requirement for information technology. You gain practical experience in our laboratories and are introduced to computational fluid dynamics (CFD). Your communication skills are advanced with an introduction to engineering drawing and report writing.

Year 3

You increase your knowledge and skills in professional areas including design and

thermodynamics. You are exposed to specialist areas such as electronics, microprocessors and mechatronics, operations management and machines. Throughout this level you continue to develop your communication skills by writing assignment reports and presenting seminars.

Year 4

In your final year you further your skills in specialised areas such as mechatronic systems design, instrumentation and control and computer intelligence. You also undertake an industry-based project which will bring together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You will also complete your work integrated learning.

Domestic Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Your course

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You build your knowledge of engineering science in areas such as fundamentals of design, dynamics, computer technology, fluid mechanics and mathematics. You are introduced to human anatomy which is a specialist requirement for medical engineering. You gain practical experience in our laboratories and are introduced to computational fluid dynamics (CFD). Your communication skills are advanced with an introduction to engineering drawing and assignment report writing.

Year 3

You increase your knowledge and skills in professional areas including thermodynamics and stress analysis. You are exposed to specialist areas such as biomedical engineering design, biofluids, biomaterials and human physiology. Throughout this level you will continue to develop your communication skills by writing assignment reports and presenting seminars. You also gain further professional learning in ethics and legislation.

Year 4

In your final year you further your knowledge in specialised areas such as modelling and simulation, biomedical instrumentation, instrumentation and control, and engineering asset management. You undertake a major project which brings together all your

previously mastered skills, and advance your communication skills in report writing and seminar presentation. You will also complete your work integrated learning.

Minors

For professional recognition you will undertake an applications minor which consists of a workplace intergrated learning unit, a project unit and two specialised engineering units.

International Course structure

Work Integrated Learning unit

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Year 1

Common first-year units include the foundations of engineering mathematics, basic principles of sustainability, electrical engineering, engineering mechanics, engineering design and engineering materials. These units provide a strong, fundamental overview of the three engineering streams: civil, electrical and mechanical.

Year 2

You build your knowledge of engineering science in areas such as fundamentals of design, dynamics, computer technology, fluid mechanics and mathematics. You are introduced to human anatomy which is a specialist requirement for medical engineering. You gain practical experience in our laboratories and are introduced to computational fluid dynamics (CFD). Your communication skills are advanced with an introduction to engineering drawing and assignment report writing.

Year 3

You increase your knowledge and skills in professional areas including thermodynamics and stress analysis. You are exposed to specialist areas such as biomedical engineering design, biofluids, biomaterials and human physiology. Throughout this level you will continue to develop your communication skills by writing assignment reports and presenting seminars. You also gain further professional learning in ethics and legislation.

Year 4

In your final year you further your knowledge in specialised areas such as modelling and simulation, biomedical instrumentation, instrumentation and control, and engineering asset management. You undertake a major project which brings together all your previously mastered skills, and advance your communication skills in report writing and seminar presentation. You will also complete your work integrated learning.

Minors

For professional recognition you will undertake an applications minor which consists of a workplace intergrated learning unit, a project unit and two specialised engineering units.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Course Overview

The course is a collaborative program between the areas of Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems and computer systems in all areas of industry.

Career Outcomes

Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition

Full professional accreditation from Engineers Australia and the Australian Computer Society has been given for this course.

Minors

For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised engineering units.

Special course requirements

Students are required to complete 60 days approved industrial experience as part of the Work Integrated Learning unit.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator as part of the Work Integrated Learning unit.

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and registration with QUT for the 2012 intake were due on the 30 November 2011 and have now closed.

Applicants must:

1. Be a current Year 12 student or returning from a gap year.
2. Complete the Engineering Dean's Scholars questionnaire which will be available via the **Engineering Dean's Scholars website**.
3. Attend an interview.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

1. Must be a current Year 12 student or returning from a gap year.
2. Complete the Engineering Dean's Scholars questionnaire which will be available via the **Engineering Dean's Scholars website**.
3. Attend an interview.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Chemistry, Maths C and Physics.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Domestic Student Fees

Students who enrol will receive a full scholarship that includes payment of all undergraduate Higher Education Contribution Scheme (HECS) monies for the bachelor program.

Special Course Requirements

Dean's Scholars are expected to maintain a GPA of 6.0 or above and complete 60 days of Industry experience. For a copy of the program rules and regulations please contact the International and Engagement Portfolio of the Science and Engineering Faculty.

Professional Recognition

Full professional accreditation from Engineers Australia has been given for this course.

Why Choose This Course

This course is a collaboration between the faculties of Science and Engineering, and Creative Industries, allowing you to be taught design and technology skills from the experts in their field.

Massive cultural changes are occuring due to the advent of consumer 3D technology. This has changed the expectations and abilities of people, creating more jobs for the industry.

Queensland is leading the video game industry with figures showing the State earns more than any other from interactive entertainment. The State's game developers generate approximately $55 million per year; a 40 per cent slice of Australia's video games earnings, according to an Australian Bureau of Statistics report. Queensland game companies also employ almost half of the video game industry's workforce, with Brisbane becoming a hub of games talent, producing games for a worldwide audience.

Popular games titles produced in Queensland include Hellboy, Fruit Ninja, the children's game Viva Pinata Party Animals and Star Wars: The Force Unleashed.

Course Structure

The 24-unit degree comprises:

• seven (7) core units including a 24-credit-point final-year project
• eight units in your chosen major
• four units in a secondary area of study, also known as your minor
• four optional units where you can choose units from across QUT to complement your studies.

MAJORS

Choose your primary area of study, also known as your major, from:

Animation This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), and game-level design to provide the skills necessary to create interesting and unique game worlds.

Software Technologies This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills, however they are now turning to tertiary institutions to provide appropriately qualified graduates.

MINORS

• Animation
• Advanced Animation*
• Digital Media
• Entrepreneurship
• Game Design
• Legal Issues

• Marketing
• Mathematics for Games
• Mobile and Network Technologies
• Physics for Games
• Software Technologies
• Advanced Software Technologies^
• Sound Design

*Only available to those undertaking the animation major.
^Only available to those undertaking the software technologies major.

Professional Recognition

The Software Technologies major within this course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1

In your first year you will undertake five core units, consisting of:

• Computer Games Studies
• Building IT Systems
• Industry Insights
• Introducing Design
• Games Production

You will also undertake three units within your chosen major or minor.

Year 2

Second year consists of units within your chosen major and minor together with electives chosen from anywhere in the University.

Year 3

In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a Bachelor of Games and Interactive Entertainment design project. You will complete your units for your chosen major, minor and optional units.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Edcation 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the Cooperative Education Program.

Credit for Previous Study

Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column you are not permitted to enrol in the listed new code.

Domestic Entry requirements

2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements

The questionnaire is available from Additional entry requirements or phone (07) 3138 2782. Shortlisted registrants may be required to attend an interview in December and will be notified of date and venue after registrations close.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

This course is a collaboration between the Faculties of Science and Engineering, and Creative Industries, allowing you to be taught design and technology skills from the experts in their field. Queensland is leading the video game industry with figures showing the State earns more than any other from interactive entertainment. The State's game developers generate approximately $55 million per year; a 40 per cent slice of Australia's video games earnings, according to an Australian Bureau of Statistics report. Queensland game companies also employ almost half of the video game industry's workforce, with Brisbane becoming a hub of games talent, producing games for a worldwide audience.

Popular games titles produced in Queensland include Hellboy, the children's game Viva Pinata Party Animals and Star Wars: The Force Unleashed.

Course Structure

The 24-unit degree comprises:

• seven (7) core units including a 24 credit-point final-year project
• eight units in your chosen major
• four units in a secondary area of study, also known as your minor
• four optional units where you can choose units from across QUT to complement your studies.

MAJORS

Choose your primary area of study, also known as your major, from:

Animation This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), architecture and interior design to encourage the creation of interesting and unique models within the virtual environment.

Software Technologies# This major will

prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills, however they are now turning to tertiary institutions to provide appropriately qualified graduates.

MINORS
- Animation
- Advanced Animation*
- Digital Media
- Entrepreneurship
- Game Design
- Legal Issues
- Marketing
- Mathematics for Games
- Mobile and Network Technologies
- Physics for Games
- Software Technologies
- Advanced Software Technologies^
- Sound Design

#Requirement for this major is an SA or better in Queensland Maths B (or equivalent).
*Only available to those undertaking the animation major.
^Only available to those undertaking the software technologies major.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Career Outcomes
Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, games/digital media reviewer, video game tester, sound designer, mobile entertainment and communications developer, web developer, digital product strategist, computer systems engineer, multimedia designer, software engineer, or technical officer.

Your Course
Year 1
In your first year you will undertake five core units, consisting of:

- Computer Games Studies
- Building IT Systems
- Industry Insights
- Introducing Design
- Games Production

You will also undertake three units within your chosen major or minor.

Year 2
Second year consists of units within your chosen major and minor together with electives chosen from anywhere in the University.

Year 3
In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a special topic. You will complete your units for your chosen major, minor and electives.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Financial Support
Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program
The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Edcation 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

Further Information
Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure
Course structure
The 24-unit degree comprises:
- five core units plus a 36-credit-point final-year project (three units equivalent)
- eight units in your chosen major
- four units in a secondary area of study, also known as your minor
- four optional units where you can choose units from across QUT to complement your studies.

Majors
Choose your primary area of study, also known as your major, from:

Animation
This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer-generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Digital Media
This major will prepare you for careers as digital game designers, developers and multimedia architects, making use of the rapid convergence of mixing graphics, video, animation and sound to meet the increasingly complex world of digital entertainment. Organisations are also interested in the strategies that multimedia architects contribute to achieving maximum efficiency and competitiveness, such as integrating multimedia content with information in enterprise software systems and the organisation's websites.

Game Design
This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), and game-level design to provide the skills necessary to create interesting and unique game worlds.

Software Technologies
This major will prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills; however they are now turning to tertiary institutions to provide appropriately qualified graduates.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

You may have a great idea for new mobile software, a new way to conduct business over the net, or even how a business could out-manoeuvre its competitors using information technology. You know the importance of IT and you are excited about what IT can do and either want to develop the next big thing yourself or be able to evaluate, identify, choose and integrate from myriad technologies to arrive at a creative solution. This degree will equip you with the knowledge and skills to realise these aspirations. Whether as a professional within an organisation, as a consultant, or as an entrepreneur, you will be well equipped to take advantage of the demand for business-savvy IT professionals who are able to creatively develop or identify IT solutions to help organisations adapt and grow.

Course Structure

The 24-unit degree comprises:
• 16 core units that build your understanding of the relationships between information, technology, business and people
• eight units in a specialisation of your choice – you could choose to further specialise in information technology, a set of units from a different discipline, or optional units from across QUT to complement your studies.

Specialisation options include:

• adult and community learning
• business systems engineering
• construction management – administration
• creative industries management
• databases
• entrepreneurship
• finance
• forensics
• human resource management
• organisational psychology
• information systems
• information management/information technology management
• international studies
• law
• management
• marketing
• public health

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1

In your first semester, you will complete the first four core units:
• Impact of IT
• Industry Insights
• Corporate Systems
• Organisational Databases.

In your second semester, you will complete three more core units:
• Management, People and Organisations
• Project Management Practice
• Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:
• Business Analysis

• Technology Management
• Creating New Enterprises.

You will also complete your second specialisation unit or electives.

In second semester, you will complete two core units:
• Marketing
• Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3
In your first semester, you will complete two core units:
• Enterprise Systems Applications
• Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:
• Business Process Modelling
• Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Course Requirements

Block A: Core Units
16 Units (includes an industry-based project)

Block B: Complementary Studies
Students can select unit set(s) from within the Science and Engineering Faculty or from those offered by other Faculties at QUT. Some options for complementary studies are listed in this document. Alternatively, students may select to take up to 8 elective units with the approval of the Course Coordinator.

If you require assistance in selecting your IT Complementary Studies please contact your Course Coordinator.

UNIT SELECTION PROCESS

• Determine which units you are yet to complete
• Check that you meet the prerequisite requirements for these units
• Check the availability of the unit in the given semester
• Enrol in the appropriate units and ensure you have nominated your major via your online enrolment page

NOTE: It is the student's responsibility to ensure that the correct enrolment program is nominated and prerequisite requirements are met for selected units.

Assistance with planning your enrolment is available from Student Services, Level 3, O Block Podium, Gardens Point campus.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.
Students participating in this program enrol in INB300 Professional Practice in IT in the first semester of the program and in INB325 Corporate Systems Management Project in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment components of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional IT position may be able to use their current employment to meet the criteria for completing INB300 Professional Practice in IT, after completion of 168 credit points in the Bachelor of Corporate Systems Management component, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point campus or see the unit outline for INB300.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Intermediate Level Electives
If you have not completed ITB008 you will need to replace it with one of the following intermediate level elective units.
• INB120 Corporate Systems
• INB220 Business Analysis
• INB255 Security
• INB272 Interaction Design
Or, an INB300 level unit as approved by the course coordinator

You know the importance of IT and you are excited about what IT can do and either want to develop the next big thing yourself or be able to evaluate, identify, choose and integrate from myriad technologies to arrive at a creative solution. This degree will equip you with the knowledge and skills to realise these aspirations. Whether as a professional within an organisation, as a consultant, or as an entrepreneur, you will be well equipped to take advantage of the demand for business-savvy IT professionals who are able to creatively develop or identify IT solutions to help organisations adapt and grow.

Course Structure

The 24-unit degree comprises:
• 16 core units that build your understanding of the relationships between information, technology, business and people
• eight units in a specialisation of your choice – you could choose to further specialise in information technology, a set of units from a different discipline, or optional units from across QUT to complement your studies.

Specialisation options include:

• adult and community learning
• business systems engineering
• construction management – administration
• creative industries management
• databases
• entrepreneurship
• finance
• forensics
• human resource management
• organisational psychology
• information systems
• information management/information technology management
• international studies
• law
• management
• marketing
• public health

Career Outcomes

Career destinations from this degree are management, analyst or consultant roles such as business analyst, project manager, process analyst, program manager, or data manager in fields

ranging from health to finance to media and entertainment services. If you are interested in creating your own business, you may start your own consultancy service to assist businesses in using information technology and improve their business performance. The career possibilities are numerous and relevant experience is in great demand by industry.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Your Course

Year 1

In your first semester, you will complete the first four core units:
• Impact of IT
• Industry Insights
• Corporate Systems
• Organisational Databases.

In your second semester, you will complete three more core units:
• Management, People and Organisations
• Project Management Practice
• Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:
• Business Analysis
• Technology Management
• Creating New Enterprises.

You will also complete your second specialisation unit or electives.

In second semester, you will complete two core units:
• Marketing
• Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3

In your first semester, you will complete two core units:
• Enterprise Systems Applications
• Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:
• Business Process Modelling
• Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Note:

The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Financial Support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Edcation 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column you are not permitted to enrol in the listed new code.

Intermediate Level Electives

If you have not completed ITB008 you will need to replace it with one of the following intermediate level elective units.
• INB120 Corporate Systems
• INB220Business Analysis
• INB255 Security
• INB272 Interaction Design
Or, an INB300 level unit as approved by the course coordinator

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Update

This course is no longer offered to commencing students. Please refer to IT23 for students commencing in 2009.

Course Design

The course structure is divided into three blocks:

Block 1: Common First Year
All students undertake a Common First Year: the first year full-time or first two years part-time of the course. This block is worth 96 credit points.

Block 2: Major
At the end of the Common First Year, students choose a major area of study. Four single majors and three integrated majors are available. The Major extends over the second and third years of the course for full-time students, and the third to sixth years for part-time students. Students select one of the following Majors:

- Data Communications (DAT)
- Electronic Commerce (ELC)
- Emerging Technologies (EMT)
- Information Systems (ISS)
- Software Engineering (SOF)
- Data Communications/Information Systems (DCI)
- Data Communications/Software Engineering (CDC)

Block 3: General Electives
Students choose the composition of the third block of the course, which extends over the later years of the course and is worth:
- 48 credit points for majors: DAT, SOF, ELC, and ISS; OR
- 24 credit points for majors: EMT, DCI and CDC

Students are encouraged to consider selecting units from outside the Faculty in order to broaden their range of skills.

This course is offered for continuing students only. Please refer to IT23 for students commencing from 2009.

Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Co-operative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Pathways

You have the opportunity to choose a study pathway:

• **professional pathway** – you will learn how to think strategically, identify opportunities and solve problems that we don't even know are problems yet. This pathway will enable you to acquire the business and IT skills to have a career as an IT professional within any industry.

• **research pathway** – if you are interested in shaping the future of the IT industry you can pursue a research career. You will have opportunities to work with researchers on projects and progress on to an honours degree. You will have access to world-leading researchers within the Faculty.

• **entrepreneurship pathway** – you now have the opportunity to gain the entrepreneurial skills to develop an idea into a commercial opportunity. You will be able to take advantage of the Faculty's close relationship with local technology entrepreneurs to learn from their experiences.

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of the Bachelor of Information Technology which would be counted both for completion of the degree and towards Honours. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

The Dean's Scholars program was introduced in Semester 1, 2006. This program provides a scholarship for OP 1 and 2 students throughout their Bachelor and Honours degrees. Students in the program are required to maintain a high GPA to continue to qualify for the scholarship each semester. Students in the Dean's Scholars program will be able to take advantage of the Accelerated Honours program. Students in the Dean's Scholars program will have an option to follow an accelerated pathway through the Bachelor of Information Technology, allowing them to complete the Bachelor of Information Technology course plus the Bachelor of Information (Honours) course in a total of three years.

To encourage students to enter the Dean's Scholars program, domestic students have their undergraduate HECS paid by the Faculty and those proceeding to Honour's level will also receive full HECS support. International students who have completed a Year 12 education in Australia and meet the entry requirements for the program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete IT23 with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Design Your Own Degree

The Bachelor of Information Technology provides you with the practical skills and theoretical knowledge to become an effective professional.

The 24-unit degree comprises:

• **eight core units** – four introductory units in first semester to introduce you to the breadth of information technology and its relationship to modern society. Then there are four advanced units spread over the rest of your degree program to develop your professional skills in preparation for your career

• **four breadth units** (intermediate level units) – these units give you broad technical experience across a range of fields in information technology. They also give you an introduction to choose the specialisation you wish to focus on

• **four specialisation units** (advanced level units) – these units allow you to focus on your chosen area of study, or you may choose to continue to broaden your information technology skills. This option allows you to study across a selection of study areas rather than focusing on one specialisation

• **eight optional units** – these units allow you to customise your degree by studying in another professional discipline (for example, business, health, or science). Or you may choose to gain further depth in other areas of information technology.

SPECIALISATION AREAS

Business Process Management
Learn how to increase business efficiency. All businesses require IT to effectively and efficiently support their operations. This specialisation provides you with the skills required to improve business performance.

Data Warehousing
Database technology, the software that enables us to buy concert tickets online, download music or book a flight, is sophisticated and complex. You will gain knowledge and skills in the accurate recording, rapid retrieval and management of data that is essential to modern society. You will learn how to mine existing sets of data to extract hidden knowledge.

Digital Environments
Study how developments in IT shape society through applications like FaceBook, MySpace, Second Life, smart phones, iPods and gaming devices.

Enterprise Systems
Enterprise systems from vendors like SAP, Mincom and Oracle form the fundamental structure of organisational processes in most large organisations. You will gain hands-on experience with successful enterprise systems to enable you to put into practice the theory that supports business activities.

Network Systems
Learn to tackle emerging network issues such as security, network monitoring and high availability design, and gain up-to-date technical skills for the administration and management of computer networks.

Software Engineering
Software is the invisible infrastructure of modern society. Almost all aspects of business and social endeavour are facilitated by software applications or devices controlled by software. You will learn how leading-edge techniques and technologies enable you to design and implement complex software systems for use in a wide range of domains.

Web Technologies
Web technologies are the principal mechanism for integrating the various applications that exist within an organisation. They also provide the main user interface for most applications used by internal and external clients, including modern web-based interfaces. You will develop practical skills to help organisations use web technologies effectively in deploying a range of applications and services.

Career Outcomes

Information technology is an integral part of all commercial, industrial, government, social and personal activities. In the long term, your career opportunities are unbounded. Some information technology graduates retain a technical focus in roles such as web developer, database manager, network administrator, electronic commerce developer, data communications specialist, software engineer, systems programmer, computer scientist, systems analyst or programmer. Others evolve into domain experts as chief technology officers, chief information officers, managers, executives, business analysts, entrepreneurs or researchers. Graduates have the opportunity to achieve the highest levels of their profession.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Your Course

Year 1
In your first semester you will explore how information technology has changed the world and what the possibilities are for the future. You will look at the details of information, computing and communication technologies to understand how they work. You will take part in hands-on projects developing small information technology systems.

Core units for Year 1:
• Impact of IT
• Emerging Technology
• Industry Insights
• Building IT Systems

In Semester 2 you will undertake three breadth units and one elective.

Year 2
In your second year you will take part in a collaborative team setting, working on small projects that integrate the skills you learnt during Year 1. You will also start studying more advanced units in your chosen field of specialisation.

Core unit for Year 2:
• Scalable Systems Development

Throughout Year 2 you will undertake one breadth unit, two specialisation units and four elective units.

Year 3
In third year you will be able to undertake workplace experience opportunities offered by the Faculty, while earning credit towards your degree. You will continue studying in your area of specialisation. In your final semester you will develop a major project, showcasing what you have learnt during your degree—providing you with a key part of your portfolio when seeking a job.

Core units for Year 3:
• Professional Practice in IT
• The Business of IT
• IT Capstone Project

Throughout Year 3 you will undertake two specialisation units and three elective units.

Cooperative Education Program

An optional half or full year period of paid work experience is available to eligible full-time students. Students participating in this program enrol in INS011 Co-Operative Education 1 in the first semester of the program and in INS012 Co-Operative Education 2 in the second semester of the program. The cooperative

education program and its mentoring and assessment requirements make up the required contact and assessment components of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions. International students wishing to undertake a similar program should consider applying to take part in a CEED project or for an ACS Foundation scholarship.

Part-time students who are working in a professional IT position may be able to use their current employment to meet the criteria for completing INB300 Professional Practice in IT, after completion of 168 credit points in the Bachelor of Information Technology. Further information about this option is available from the unit outline for INB300.

Find out more about the Cooperative Education Program.

Further Information

Email: sef.enquiry@qut.edu.au

Domestic Course structure

Design your own degree

The Bachelor of Information Technology provides you with the practical skills and theoretical knowledge to become an effective professional. The 24-unit degree comprises:

- eight core units - four introductory units in first semester to introduce you to the breadth of information technology and its relationship to modern society. Then there are four advanced units spread over the rest of your degree program to develop your professional skills in preparation for your career
- four breadth units (intermediate level units) - these units give you broad technical experience across a range of fields in information technology. They also give you an introduction to choose the specialisation you wish to focus on
- four specialisation units (advanced level units) - these units allow you to focus on your chosen area of study, or you may choose to continue to broaden your information technology skills. This option allows you to study across a selection of study areas rather than focusing on one specialisation
- eight optional units - these units allow you to customise your degree by studying in another professional discipline (for example, business, health, or science). Or you may choose to gain further depth in other areas of information technology.

Specialisation areas

Business Process Management

Learn how to increase business efficiency. All businesses require IT to effectively and efficiently support their operations. This specialisation provides you with the skills required to improve business performance.

Data Warehousing

Database technology, the software that enables us to buy concert tickets online, download music or book a flight, is sophisticated and complex. You will gain knowledge and skills in the accurate recording, rapid retrieval and management of data that is essential to modern society. You will learn how to search existing sets of data to extract hidden knowledge.

Digital Environments

Study how developments in IT shape society through applications like Facebook, Twitter, Second Life, smart phones, iPods and gaming devices.

Enterprise Systems

Enterprise systems from vendors like SAP, Mincom and Oracle form the fundamental structure of organisational processes in most large organisations. You will gain hands-on experience with successful enterprise systems to enable you to put into practice the theory that supports business activities.

Network Systems

Learn to tackle emerging network issues such as security, network monitoring and high availability design, and gain up-to-date technical skills for the administration and management of computer networks.

Software Engineering

Software is the invisible infrastructure of modern society. Almost all aspects of business and social endeavour are facilitated by software applications or devices controlled by software. You will learn leading-edge techniques and technologies to enable you to design and implement complex software systems for use in a wide range of domains.

Web Technologies

Web technologies are the principal mechanism for integrating the various applications that exist within an organisation. They also provide the main user interface for most applications used by internal and external clients, including modern web-based interfaces. You will develop practical skills to help organisations use web technologies effectively in deploying a range of applications and services.

Your course

Year 1

In your first semester you will explore how information technology has changed the world and what the possibilities are for the future. You will look at the details of information, computing and communication technologies to understand how they work. You will take part in hands-on projects developing small information technology systems.

Core units for Semester 1:

- Impact of IT
- Emerging Technology
- Industry Insights
- Building IT Systems.

In Semester 2 you will undertake three breadth units and one optional unit.

Year 2

In your second year you will take part in a collaborative team setting, working on small projects that integrate the skills you learnt during Year 1. You will also start studying more advanced units in your chosen field of specialisation.

Core unit for Year 2:

- Scalable Systems Development.

Throughout Year 2 you will undertake a mix of breadth, specialisation and optional units.

Year 3

In third year you will be able to undertake workplace experience opportunities offered by the Faculty. In your final semester you will develop a major project, which will showcase what you have learnt during your degree and provide you with a key part of your portfolio when seeking a job.

Core units for Year 3:

- Professional Practice in IT
- The Business of IT
- IT Capstone Project.

Handbook

Year	2012
QUT code	IT23
CRICOS	012656E
Duration (full-time)	3 years
OP	1
Rank	99
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $4,025 per Semester
International fee (indicative)	2012: $11,700 per Semester
Total credit points	
Start months	February Fixed closing date - 30 November
Int. Start Months	February Fixed closing date - 30 November
Course Coordinator	Richard Thomas
Discipline Coordinator	

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements

Must be a current Year 12 student or students returning from a gap year who completed their Year 12 education in Australia; successful questionnaire; an interview may be required.

Shortlisted registrants may be required to attend an interview in December and will be notified of date and venue after registrations close.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Financial support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 6 or 12 months paid industry placement during your course where you can integrate real experience with what you are learning in your degree.

Find out more about the Cooperative Education Program.

Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discontinued Course

LS50 has been discontinued and replaced by ST50. LS50 is for continuing students only.

Course Design

The Bachelor of Biotechnology Innovation, a degree with Honours, was the first degree of its type in Australia and aims to provide highly trained and motivated graduates skilled in the science and business and biotechnology. Graduates undertake the same basic and advanced biotechnology science as students in other science-based courses, gaining requisite theoretical and practical skills. In this course, however, basic and advanced business units are undertaken highlighting entrepreneurial skills and biotechnology commercialisation. Integration and synthesis of the disparate disciplines is an essential component of the course.

Unique to the course is the Student BioEnterprise Scheme, a proactive project-based learning exercise promoting the integration of theory and practice in business and science. Students form companies and operate in the company environment over the entire duration of their course. Companies invent biotechnology-oriented products or processes and formulate strategies to bring them from laboratory to the marketplace under the guidance of industry and academic mentors. Students have many opportunities to network with industry through the Student BioEnterprise Scheme and numerous Ausbiotech functions, events and conferences. Companies can also undertake industry-based or consultancy projects with an industry partner in the final year of the course.

Professional Recognition

On graduation, you will be immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society for Biochemistry and Molecular Biology (ASBMB).

Why Choose This Course

The course's flexible structure allows you to choose to study only mathematics units, or include some units from another area of interest, such as science, business or information technology. You will be able to design a program to suit your interests and career aspirations by combining advanced units from a number of mathematical specialisations.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary to help you financially throughout your studies. For further information visit scholarships.

Your Course

Year 1

You will study core units in mathematics and statistics. These core units include studies in calculus, algebra, vectors and matrices, computational mathematics, data analysis and statistical modelling.

Year 2

You will build on your core studies by advancing to more specialised topics such as advanced calculus, linear algebra, differential equations, operations research, data visualisation, statistics or modelling. Your practical assignments will tackle problems faced in the real world. You can choose to study only mathematics units or include units from another area of interest, such as science, business, information technology or a language.

Year 3

Refine your studies by combining advanced units from the following specialisations:

• applied mathematics: using mathematical techniques to solve real-world problems
• computational mathematics: using computers and numerical techniques to find solutions to complex problems which cannot be solved analytically
• discrete mathematics: the mathematics of numbers, including sets, fields, rings and groups which is used extensively in information security
• financial mathematics: applying a wide variety of mathematical techniques for use in a range of financial areas
• mathematical modelling: using mathematical techniques to develop a model or explanation of a real-world problem which can then be tested
• operations research: optimising complex systems including queuing, scheduling or allocation of resources
• scientific computation and visualisation: large-scale scientific modelling and creating graphical representations using visualisation techniques
• statistics: collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions
• statistical modelling: building and analysing models of systems involving probability and variables.

- applied mathematics: using mathematical techniques to solve real-world problems
- computational mathematics: using computers and numerical techniques to find solutions to complex problems which cannot be solved analytically
- discrete mathematics: the mathematics of numbers, including sets, fields, rings and groups which is used extensively in information security
- financial mathematics: applying a wide variety of mathematical techniques for use in a range of financial areas
- mathematical modelling: using mathematical techniques to develop a model or explanation of a real-world problem which can then be tested
- operations research: optimising complex systems including queuing, scheduling or allocation of resources
- scientific computation and visualisation: large-scale scientific modelling and creating graphical representations using visualisation techniques
- statistics: collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions
- statistical modelling: building and analysing models of systems involving probability and variables.

Sample Structure

Semesters

- Level 1 Mathematics Units
- Level 2 and 3 Mathematics Units
- Other Units - Complementary Studies

Code	Title
Course Notes	
Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:	
Level 1 Mathematics Units	
Students must complete the following Level 1 Mathematics units:	
MAB101	Statistical Data Analysis 1
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
MAB122	Algebra and Analytic Geometry
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
Note: MAB120 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C. Students with at least Sound Achievement in both Mathematics B and C (or equivalent) may select a level 2 Mathematics unit instead of MAB120.	
Level 2 and 3 Mathematics Units	
At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 mathematics units	
Students must complete:	
MAB311	Advanced Calculus
MAB312	Linear Algebra
Other Units - Complementary Studies	
Up to a maximum of 96 credit points may be taken as electives with not more than 48 credit points from first level units.	

Bachelor of Mathematics & Bachelor of Applied Science (Honours) - Dean's Scholars Honours Program

Handbook

Year	2012

CRICOS	049433D + 009041G
Duration (full-time)	4 years
OP	1
Rank	99
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $2,873 per Semester
Total credit points	384 (BMaths 288 cp and BAppSc(Hons) 96cp)
Credit points full-time sem.	48
Start months	February Fixed Closing Date - 30 November 2011
Int. Start Months	February This course is only available to international students completing Year 12 in Australia.
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Mr Richard Thomas
Discipline Coordinator	A/Prof Dann Mallet 07 3138 2354 dg.mallet@qut.edu.au

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths C
- Maths B
- English
- Chemistry

Assumed knowledge includes English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

International Entry requirements

International Students must have completed year 12 at an Australian school.

Applicants are required to complete a questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

International Subject prerequisites

- Physics
- Maths C
- Maths B
- English
- Chemistry

Subject prerequisites include English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Dean's Scholars Program in Mathematics offers an enriched course of study, with an early introduction to mathematical research, for students who obtain outstanding levels of academic achievement at Secondary School. At the same time it provides the option of an accelerated pathway by which these students are able to complete the Bachelor of Mathematics course plus the Bachelor of Applied Science (Honours) course in a total of just three years.

Mathematics Dean's scholars are able to undertake research enrichment units and individually-tailored tutorial programs:

Sample Structure

Semesters

- Year 1, Semester 1 (48 cp)
- Year 1, Semester 2 (48 cp)
- Year 2, Semester 1 (48 cp)
- Year 2, Semester 2 (48 cp)
- Year 3, Semester 1 (48 cp)
- Year 3, Semester 2 (48 cp)
- Year 4, Semester 1 (48 cp) and Semester 2 (48 cp)
- Notes:

Code	Title
Year 1, Semester 1 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (48 cp)	
Year 1, Semester 2 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB303	Tutorial Program for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 1 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB401	Research Methods for Dean's Scholars
Or other approved unit	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 2 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (48 cp)	
Year 3, Semester 1 (48 cp)	

Bachelor of Mathematics & Bachelor of Applied Science (Honours) - Dean's Scholars Honours Program

Dean's Scholars Program enrichment unit:	
SCB501-1	Research Project for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BAppSc Coursework (36 cp)	
Year 3, Semester 2 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB501-2	Research Project for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 4, Semester 1 (48 cp) and Semester 2 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BAppSc(Hons) Coursework/Research (48 cp)	
Normal BMaths and BAppSc(Hons) units: BAppSc(Hons) Coursework/Research (48 cp)	
Notes:	
- The exact timing of Dean's Scholars Program enrichment units may be varied to suit the student's chosen program of study.	
- It is also possible to complete the program in 3.5 years using a combination of the 3 and 4 year structures. There is also flexibility for students to undertake Dean's Scholars Program enrichment units during the summer semesters between years 1 and 2, and years 2 and 3 to lighten regular semester study loads or to assist in acceleration.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)).

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course update

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.
New students - please refer to ST01 Bachelor of Science. Please contact sef.enquiry@qut.edu.au for any enquiries.

Design your own degree

You have a broad range of options to choose from and the flexibility to create your own personal science degree program. If you are not sure of your career direction, don't worry because this decision can be delayed until after you have sampled a range of science disciplines during your first year of study. The 24 unit degree comprises:

First-year program (eight units)
The first year is designed to give you experience in a wide range of basic science disciplines, consisting of three general foundation units, one maths unit, and four major foundation units. Some of these foundation sciences, such as mathematics and chemistry, will underpin all of your later studies. All of the first-year studies are designed to challenge and engage you in the wonders of science, regardless of your prior exposure to science studies. You should seek advice from our expert staff of your choice of major to suit your interests and capabilities, and your personal and career aspirations.

Major (eight units)
Choose your main specialisation study area (your major) from the list below. This will form the basis for your qualification, for example Bachelor of Applied Science (Biotechnology). As QUT courses are designed in close consultation with industry you will be eligible for the relevant professional accreditation when you graduate. The major areas available are:

Bachelor of Applied Science (Biochemistry)

Career Outcomes

Strong employment opportunities for biochemists exist around the world in both the private and government sectors of industry. QUT graduates skilled in biochemistry can find career opportunities in diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, and veterinary pathology laboratories. Alternative career paths in the marketing and sales of biotechnology equipment or commercialisation and management of biological products and processes are available.

For those wishing to enter research in honours and PhD programs, biochemistry offers a huge scope of intriguing and intellectually rewarding projects.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology (ASBMB), and in some cases the Australasian Association of Clinical Biochemists (AACB).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of a major area of study.

Year 2
You will build on the concepts introduced in first year and you will consider molecular interactions in cell metabolism and function and the flow of energy and information within the cell.

Year 3
You will encounter current experimental theory and practice in biochemistry, including the exciting new developments in molecular modelling, metabolism and proteomics. You will be provided with knowledge and analytical skills that will serve you well in the workforce or lead to further study.

Career Outcomes

As a QUT biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science, molecular farming and bioinformatics. Our biotechnology graduates find career opportunities in medical and agricultural research, product development or marketing, hospitals and diagnostic laboratories, in teaching and in many areas of government and private industry.

Professional Recognition

Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology (ASBMB) and, depending on unit selection, Australian Society for Medical Research (ASMR) and the Australian Society for Microbiology (ASM).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also be introduced to the structure and function of DNA, RNA and proteins, and their role in cell function. Following these introductory studies you should be in a position to confirm your choice of a major area of study.

Year 2
You will develop a more detailed understanding of biochemical principles, cell biology and the structure and function of biomolecules. A strong focus is placed on developing practical skills in molecular biology and cell culture that will underpin your future studies. You will have access to real-world molecular biology laboratories with modern equipment and highly skilled tutors. You will also be introduced to bioinformatics through hands-on computer-based exercises.

Year 3
You will further develop both theoretical and practical skills in DNA manipulation and genetic engineering as well as advanced bioinformatics. You will also focus on specific applications in biotechnology including current advances in diagnostics and detection, cell culture and tissue engineering in both animal and plant systems, functional genomics, proteomics and microarray technology. Teaching approaches at this level will encourage critical thinking, and problem-

based learning, and you will undertake a mix of independent activities and group work.

New students - please refer to ST01 Bachelor of Science. Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Among a diverse range of employment opportunities, you may become an industrial chemist, materials scientist, environmental chemist, quality control analyst, laboratory supervisor, food chemistry, or an organic/inorganic chemist. Your interactions with QUT experts in current fields of interest including drug development, clay and minerals chemistry, renewable energy sources, nanotechnology, environmental monitoring, and applications of modern analytical instrumentation may lead to careers in these areas.

QUT graduates are sought after by police and other forensics laboratories because of their extensive practical training using modern analytical instrumentation.

With the addition of a postgraduate diploma in education, you may wish to pursue opportunities in the teaching profession.

Professional Recognition

Graduates completing the chemistry major with the chemistry for industry second major or forensic science major are eligible for membership of the Royal Australian Chemical Insitute (RACI).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. If you are taking the chemistry for industry second major you will be provided with opportunities to develop further laboratory skills. If you are taking chemistry with forensic science, you will also cover introductory life science topics that prepare you for important tasks like DNA profiling.

Year 2
You will begin more specialised study of the core chemistry sub-disciplines of analytical inorganic, organic and physical chemistry. In the chemistry for industry second major you will begin extensive studies in analytical chemistry, chemical and nanotechnologies. Problem solving and the development of critical thinking will be emphasised. You should expect plenty of practical work and hands-on experience. The communication skills, generic scientific skills, and report preparation tools you will learn at QUT will be vital to your future employment.

Year 3
You will tackle more challenging

advanced concepts in the core sub-disciplines of chemical science. In this second major, you will have the advantage of field trips to major industrial sites. All third year chemistry studies will undertake a one-semester research project under the guidance of experienced staff. Students will be trained in start-of-the-art techniques and will have the opportunity to pursue a field of interest to them. Whether you are seeking your first job or contemplating higher research degree studies, you will have access to advice from qualified professionals.

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. If you are taking the chemistry for industry second major you will be provided with opportunities to develop further laboratory skills. If you are taking chemistry with forensic science, you will also cover introductory life science topics that prepare you for important tasks like DNA profiling.

Year 2
You will begin more specialised study of the core chemistry sub-disciplines of analytical inorganic, organic and physical chemistry. In the chemistry for industry second major you will begin extensive studies in analytical chemistry, chemical and nanotechnologies. Problem solving and the development of critical thinking will be emphasised. You should expect plenty of practical work and hands-on experience. The communication skills, generic scientific skills, and report preparation tools you will learn at QUT will be vital to your future employment.

Year 3
You will tackle more challenging advanced concepts in the core sub-disciplines of chemical science. In this second major, you will have the advantage of field trips to major industrial sites. All third year chemistry studies will undertake a one-semester research project under the guidance of experienced staff. Students will be trained in start-of-the-art techniques and will have the opportunity to pursue a field of interest to them. Whether you are seeking your first job or contemplating higher research degree studies, you will have access to advice from qualified professionals.

Semesters

- Year 1, Semester 1
- Year 1, Semester 2 (Chemistry Pre-Major Strand)
- Year 2, Semester 1
- Year 2, Semester 2 *
- Year 3, Semester 1 *
- Year 3, Semester 2 *
- Recommended Second Majors:
- * Elective Unit for all Majors except Forensic Science:

Code	Title
Year 1, Semester 1	
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
Plus ONE of:	
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
1. Students without a Sound Achievement (4 semesters) in Maths A should enrol in MAB105.	
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.	
3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB121.	
4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB120.	
5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.	
Year 1, Semester 2 (Chemistry Pre-Major Strand)	
SCB121	Chemistry 2
SCB123	Physical Science Applications
SCB131	Experimental Chemistry
Plus either	
MAB120	Algebra and Calculus
Or	
SCB122	Cell and Molecular Biology
Note: MAB120 is the preferred option for the Chemistry major. Only students taking Forensic Science, Microbiology, Biochemistry or Biotechnology as a second major should select SCB122 Cell and Molecular Biology	
Year 2, Semester 1	
PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding
Plus TWO other units selected according to the second major requirements	
Year 2, Semester 2 *	
PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 1 *	
PQB502	Advanced Physical Chemistry
PQB531	Organic Mechanisms and Synthesis
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 2 *	
PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research
Plus TWO other units selected according to the second major requirements	
Recommended Second Majors:	
Biochemistry, Biotechnology, Chemistry for Industry, Forensic Science	
*** Elective Unit for all Majors except Forensic Science:**	
SCB500	Industry Project
SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Domestic Entry requirements

Recommended Study

At least one of the sciences.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)).

International Entry requirements

Recommended Study

At least one of the sciences.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course update

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.
New students - please refer to ST01 Bachelor of Science. Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Ecologists find rewarding careers in research and monitoring with government departments responsible for sustainability, wildlife conservation and national parks, primary industries, pest management, fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy. Positions include conservation officer, sustainable resources officer, wildlife manager, fisheries biologist, scientific or technical officer, teacher or research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

Professional Recognition

Professional recognition is achieved through membership of a scientific society, for example, the Ecological Society of Australia (ESA) or the Australian Wildlife Management Society (AWMS) and participation in its meetings and professional activities.

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also gain key basic knowledge about the natural systems that exist on plant earth and the way these systems interact.

Year 2
You will focus on background concepts important for understanding ecology and the environment. You will examine in detail the fundamental concepts in ecology and evolution, and the basic processes important in the formation of the physical environment that are fundamental to understanding natural resource systems. You will learn about the dynamics of plant and animal populations and the interactions that influence them, and the basic methods used to describe and monitor populations. A background in fundamental genetics and evolution will provide the framework for understanding and interpreting variation in biological systems. You will expand on basic concepts of data handling and analysis so that you have a sound knowledge of experimental design and its application to experimental studies in ecology and environmental science. You will also learn how to design and conduct ecological field studies and analyse and communicate information.

Year 3
The fundamental knowledge of ecology,

evolution and experimental design is extended to develop the theoretical and applied knowledge used by practising ecologists. You will cover in detail the three main areas where ecology is applied – approaches to the conservation of rare and endangered species and ecosystems, the management of invasives and other pest species, and the sustainable exploitation of wild populations. These aspects are also covered in guest lectures by industry professionals, and by involving you in detailed case studies and field projects that examine particular management questions in ecology.

Career Outcomes

Environmental scientists are continually needed in a wide variety of planning, management, monitoring and research careers. These roles are usually found in government departments and agencies, in local councils, in consultancy, and in industrial and mining companies. As an environmental science graduate you could be working in urban, rural or remote settings depending on your interests.

Graduates are equipped to assess resources, implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas. These include strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and urban development, rehabilitation and reforestation of degraded sites, ground water assessment and modelling, flood plain planning, erosion control, and marine science.

Professional Recognition

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand (EIANZ) and a variety of other scientific societies, including the Soil Science Society of Australia (SSSA) and the Ecological Society of Australia (ESA).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will be provided with a good introduction to environmental science issues and scientific problem solving as well as a basic knowledge about the natural systems that exist on plant earth and the way these systems interact. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2
You will learn fundamental concepts and gain practical experience in understanding and investigating earth surface systems and processes both in the laboratory and in the field. At the same time, you will be introduced to the design of field and laboratory experiments and you will have the option to pursue a more ecologically or geologically oriented direction. You will then be introduced to elements of environmental chemistry in air, water and soil, including a number of field trips.

Year 3
You will receive more advanced training in the essential areas of environmental systems and how we can model them, and you will survey and map natural resources during field trips. You will be introduced to the use of spatial science to assess and map environmental systems using geographic information systems and remote sensing. Case studies and problem-solving methods are used to introduce you to a wide variety of issues in sustainable management.

Career Outcomes

Forensic science work is popular, rewarding and highly competitive. Generally it involves employment in laboratories handling criminal casework in areas including forensic biology, chemistry, and toxicology. Crime scene investigation is another interesting profession which may be attained by joining the police force.

Professional Recognition

Graduates who complete the forensic science major in conjunction with a life science major in biochemistry, biotechnology or microbiology are eligible for membership of the Australian and New Zealand Forensic Society (ANZFSS), AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology (ASBMB).

Graduates who complete the forensic science major in conjunction with the chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society (ANZFSS) and the Royal Australian Chemical Institute (RACI).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2
Your forensic studies program begins with an introduction to crime scenes and your lectures will be accompanied by laboratory work including mock crime scenes. You will learn about the legal aspects of forensic science, and take a big picture approach to the nature and analysis of physical and biological evidence. You can expand your knowledge through dedicated units in forensic evidence, analytical chemistry and biological methods of analysis.

Year 3
You will build upon your previous studies to further develop your knowledge and skills in areas of crime scene investigation such as forensic photography and fingerprinting as well as interpretation of physical evidence. You will learn about the sophisticated instrumentation and interpretation of results used in the analysis of drugs, poisons and DNA. Hand-on laboratory sessions will provide

knowledge of expanded applications in advanced forensic analysis and toxicology. All theory is complemented and supplemented by focused workshops and laboratory classes.

Career Outcomes

Employment opportunities exist within a variety of government organisations and consulting companies with work ranging from field geologists to research scientists. Exploration geologists are employed by mining and hydrocarbon exploration companies where they may be involved in underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral or oil and gas deposits. They may be based in remote settings or major cities. Graduates may work in computing, data modelling and remote sensing in any of these areas.

An honours degree has traditionally been required by many employers including the larger mining and exploration companies.

Professional Recognition

Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy (AIMM), Australian Institute of Geoscientists (AIG), and the Geological Society of Australia (GSA).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. You will also select specific units that will help you decide whether to pursue career paths in exploration or environmental geoscience. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2
You will learn fundamental concepts and gain practical experience in identifying and analysing earth materials, both in the laboratory and in the field. At the same time, you will be introduced to the geological processes that govern the evolution of the earth's surface (sedimentary environments). You will then be introduced to rocks and processes that occur deeper within the earth (igneous and metamorphic realms) and longer term geological processes including structural deformation and stratigraphic evolution. The year culminates with you being able to solve real-world geological problems based on data you collect in the field.

Year 3
You will receive more advanced training in the fundamental areas of petrology and geochemistry with the addition of exploration geophysics and specialised units relevant to the mining, coal,

petroleum and/or hydrogeology-environmental industries. You will be introduced to techniques and case studies that will prepare you for a wide variety of career paths. At the same time, you will learn new skills in subsurface analysis and mapping, remote sensing, and spatial analysis, including computer-based geographical information systems.

Semesters

- Year 1, Semester 1
- Year 1, Semester 2 (Geoscience Pre-Major Strand)
- Year 2, Semester 1
- Year 2, Semester 2 *
- Year 3, Semester 1 *
- Year 3, Semester 2 *
- Recommended Second Majors:
- * Elective Unit for all Majors except Forensic Science:

Code	Title
Year 1, Semester 1	
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
Plus ONE of:	
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
1. Students with a Sound Achievement (4 semesters) in Maths A should enrol in MAB105	
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Physics should enrol in MAB101.	
3. Students with a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB121.	
4. Students without a Sound Achievement in Maths C and wishing to major in Physics should enrol in MAB120.	
5. Students without a Sound Achievement in Maths B or Maths A should consult with the course coordinator.	
Year 1, Semester 2 (Geoscience Pre-Major Strand)	
NQB201	Planet Earth
NQB202	History of Life on Earth
SCB123	Physical Science Applications
SCB222	Exploration of the Universe
Year 2, Semester 1	
NQB311	Mineralogy
NQB314	Sedimentary Geology
Plus TWO other units selected according to the second major requirements	
Year 2, Semester 2 *	
NQB411	Petrology of Igneous and Metamorphic Rocks
NQB412	Structural Geology and Field Methods
Plus TWO other units selected according to the second major requirements	
Year 3, Semester 1 *	
NQB502	Field Methods in Natural Resource Sciences
NQB513	Geophysics
Plus TWO other unit selected according to the second major requirements	
Year 3, Semester 2 *	
NQB615	Geochemistry
Plus ONE of	
NQB612	Basin Analysis and Petroleum Geology
NQB613	Plate Tectonics
NQB614	Groundwater Systems
Plus TWO other units selected according to the second major requirements	
Recommended Second Majors:	
Applied Geology, Environmental Science, Physics	
*** Elective Unit for all Majors except Forensic Science:**	
SCB500	Industry Project
SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.	

Bachelor of Applied Science (Microbiology)

Handbook

Year	2012
QUT code	SC01
CRICOS	003502J
Duration (full-time)	3 years
Duration (part-time domestic)	6 years
OP	13
Rank	73
OP Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $2,260 per Semester
International fee (indicative)	2012: $12,500 per semester
Total credit points	288
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July
Int. Start Months	February, July Conditions apply for July entry
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Marion Bateson
Discipline Coordinator	Dr Christine Knox +61 7 3138 8822 c.knox@qut.edu.au (Alternate email: sef.enquiry@qut.edu.au)

Domestic Entry requirements

Recommended Study

Biological Science and Chemistry.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)).

International Entry requirements

Recommended Study

Biological Science and Chemistry.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course update

As of 2013, this course will only be available for continuing Bachelor of Applied Science students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year units.
New students - please refer to ST01 Bachelor of Science. Please contact sef.enquiry@qut.edu.au for any enquiries.

Career Outcomes

Microbiology graduates find employment in a variety of interesting careers. Many microbiologists are employed by human pathology laboratories with the departments of bacteriology, immunology, mycology, parasitology and virology. You may also find employment in laboratories testing for animal and plant diseases, or testing for pathogens or spoilage organisms in food, air, water and soils. Microbiologists can also be employed as metabolic engineers developing microbial production systems.

If working in a laboratory is not for you then there are positions available as technical product and sales representatives, intellectual property specialists/patent attorneys, or even with scientific publishers. Many microbiologists find employment within government departments such as Health, Employment, Economic Development and Innovation, and Environment and Resource Management.

If you wish to study for a higher research degree, you may pursue a research career in university, government or private research laboratories.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Microbiology (ASM).

Domestic Course structure

Year 1
You will undertake introductory core studies in a range of scientific areas including life sciences, chemistry, physics, mathematics and environmental science to give you a solid foundation for your future studies. Following these introductory studies you should be in a position to confirm your choice of major area of study.

Year 2
You will be introduced to diverse micro-organisms and study how they have evolved, their structure, how they obtain nutrients and how they grow and reproduce. Importantly you will also learn how to control microbial growth by sterilisation, disinfection and using antimicrobials. In practical classes you will learn how to stain and visualise micro-organisms using light microscopy and electron microscopy. You will isolate and culture micro-organisms and learn how to control microbial growth. You will practise identifying micro-organisms by their appearance, biochemical testing or by using molecular assays.

Year 3
Advanced studies will allow you to expand your knowledge and expertise in specialised areas including pathogenesis and disease where you can study bacterial, fungal and parasitic diseases. Other advanced topics include animal and plant viral diseases, food microbiology, molecular microbiology, bioremediation and electron microscopy. You will also cover environmental microbiology which includes the testing of soil, air and water.

Career Outcomes

Physicists are an asset to almost any industry. Employment areas of QUT physics graduates are very wide-ranging. These include research and development departments of large manufacturing companies, mining and exploration companies, research institutions such as the Commonwealth Scientific and Industrial Research Organisation (CSIRO) and the Defence Science and Technology Organisation (DSTO), government bodies such as the Bureau of Meteorology, Environmental Protection Agencies and health departments, schools, universities and hospitals. Broad training in data analysis and problem-solving skills also make physicists well suited to management and consulting roles in a range of technology-based industries.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Physics (AIP).

Domestic Course structure

Year 1
You will be introduced to a broad range of physics topics including mechanics, electricity, optics, waves, electromagnetism and atomic physics. Mathematics units will provide you with the skills and background knowledge required to support more advanced study in second and third years. You may choose to undertake a foundation unit in one of the other scientific disciplines to broaden your knowledge. You also have the flexibility to select two elective units to add another dimension to your science knowledge.

Year 2
You will begin to study specialist areas of physics at advanced level. Topics include electronics, instrumentation, radiation physics, thermodynamics and solid-state physics. Study of a secondary area of specialisation (second major) also begins. Second majors offered to physics students include astrophysics, mathematics, geoscience, games technology and music.

Year 3
You will proceed to further specialist areas including quantum physics, condensed matter physics, statistical mechanics and advanced electromagnetism. Your studies in experimental physics will help you develop data collection and data processing skills, and allow you to experience the methods used and to acquire the skills required to undertake research.

Discipline Coordinator	Associate Professor John Aaskov (Microbiology, Biochemistry, Biotechnology Majors); Dr Madeleine Schultz (Chemistry Major); Dr Konstantin Momot (Physics major)

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths C
- Maths B
- English
- Chemistry

English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA), We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) or very high achievement (4, VHA).

International Entry requirements

International students must complete year 12 at an Australian school.

Applicants are required to complete a questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

International Subject prerequisites

- Physics
- Maths C
- Maths B
- English
- Chemistry

English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA). You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course update

From Semester One 2013 this course will not be available for commencing students. SC01 will only be available for continuing students. New students - please refer to ST01. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

The Bachelor of Applied Science Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

Professional Recognition

As a graduate of the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Financial support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Course Structure

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following nine majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

Majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology, Physics.

Co-majors: Applied Geology, Astrophysics, Biodiversity, Chemistry for Industry, Life Science Technologies.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

SCB301 Science for Dean's Scholars
An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

SCB303 Tutorial Program for Dean's Scholars
An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

SCB401 Research Methods for Dean's Scholars
The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

SCB501 Research Project for Dean's Scholars
An individually tailored research project is carried out under the supervision of a research mentor.

Honours Program
Following the successful completion of the coursework and your initial research project in the first two years of the program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Discontinuation

As of 2013, ST50 will only be available for continuing students. No further intakes will be accepted.
Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

On graduation, you will be eligible to join professional organisations relevant to your disciplinary specialisation, the Association of Professional Engineers, Scientists and Managers, Australia and the Australian Institute of Management.

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology (ASBMB), and in some cases the Australasian Association of Clinical Biochemists (AACB).

Your Course

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2
You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3
In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4
You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

- Year 2 Semester 1
- Year 2 Semester 2
- Year 3 Semester 1
- Year 3 Semester 2
- Year 4 Semester 1
- Year 4 Semester 2

Code	Title
Year 1 Semester 1	
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
Plus ONE of the following units	
MAB101	Statistical Data Analysis 1
MAB105	Preparatory Mathematics
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
NOTE: Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101	
Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB105	
Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB121	
Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB120	
Year 1 Semester 2	
SCB121	Chemistry 2
SCB123	Physical Science Applications
SCB131	Experimental Chemistry
Plus ONE of the following two units	
MAB120	Algebra and Calculus
SCB122	Cell and Molecular Biology
Year 2 Semester 1	
PQB312	Analytical Chemistry For Scientists and Technologists
PQB331	Structure and Bonding
Plus TWO units from the relevant options List which may include one unit from outside the Faculty	
Relevant Options List for Year 2, Semester 1	
MAB120	Algebra and Calculus
PQB313	Analytical Chemistry For Industry
Elective	
MAB120 may be taken by students who undertook SCB122 in Year 1 Semester 2	
Year 2 Semester 2	
PQB401	Reaction Kinetics, Thermodynamics and Mechanisms
PQB442	Chemical Spectroscopy
Plus TWO units from the relevant options List which may include one unit from outside the Faculty	
Relevant Options List for Year 2, Semester 2	
PQB404	Nanotechnology and Nanoscience
PQB423	Process Principles
Elective	
Year 3 Semester 1	
BSB115	Management
PQB502	Advanced Physical Chemistry
PQB531	Organic Mechanisms and Synthesis
STB551	Engaging with the Innovation Industry
Year 3 Semester 2	
BSB126	Marketing
MGB223	Entrepreneurship and Innovation
PQB631	Advanced Inorganic Chemistry
PQB642	Chemical Research
Year 4 Semester 1	

AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

No professional accreditation is currently available for courses in the games and entertainment area.

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

The course consists of four blocks of studies	
Core Studies - 13 units (156 credit points)	
Major - 13 units (156 credit points)	
Minor - 4 units (48 credit points)	
Electives - 2 units (24 credit points)	
Year 1 Semester 1	
INB101	Impact of IT
INB104	Building IT Systems
INB180	Computer Games Studies
INB182	Introducing Design
Year 1 Semester 2	
INB103	Industry Insights
INB181	Introduction to Games Production
Block C or Block D Unit	
Block C or Block D Unit	
Year 2 Semester 1	
INB385	Multimedia Systems
KIB101	Visual Communication
KIB204	Web Interface Design
Block C or Block D Unit	
Year 2 Semester 2	
INB386	Advanced Multimedia Systems
KIB102	Visual Interactions
Block C or Block D Unit	
Block C or Block D Unit	
Year 3 Semester 1	
BSB115	Management
INB345	Mobile Devices
KIB309	Embodied Interactions
STB551	Engaging with the Innovation Industry
Year 3 Semester 2	
BSB126	Marketing
KIB314	Tangible Media
MGB223	Entrepreneurship and Innovation
Block C or Block D Unit	
Year 4 Semester 1	
AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project
Block C Minor List	
ANIMATION:	
KIB105	Animation and Motion Graphics
KIB108	Animation History and Practices
KIB203	Introduction to 3D Computer Graphics

KIB225	Character Development, Conceptual Design and Animation Layout
KVB105	Drawing for Design
KVB106	Drawing for Animation
GAME DESIGN:	
KIB201	Concept Development for Game Design and Interactive Media
KIB202	Enabling Immersion
INB280	Fundamentals of Game Design
Plus ONE of the following two units:	
INB281	Advanced Game Design
INB272	Interaction Design
MATHEMATICS FOR GAMES:	
MAB120	Algebra and Calculus
MAB122	Algebra and Analytic Geometry
MAB121	Calculus and Differential Equations
MAB312	Linear Algebra
[Students who have completed Maths C can susbtitute MAB120 with one of the following units: MAB311, MAB481 or MAB422]	
MOBILE AND NETWORK TECHNOLOGIES:	
INB102	Emerging Technology
INB251	Networks
INB350	Internet Protocols and Services
INB353	Wireless and Mobile Networks
SOUND DESIGN:	
KMB107	Sound, Image, Text
KMB119	Music and Sound Production 1
KMB129	Music and Sound Production 2
KMB252	Multi-Platform Sound Design
SOFTWARE TECHNOLOGIES:	
INB210	Databases
INB250	Foundations of Computer Science
INB270	Programming
INB371	Data Structures and Algorithms
PHYSICS FOR GAMES:	
MAB121	Calculus and Differential Equations
PQB250	Mechanics and Electromagnetism
PQB251	Waves and Optics
Plus ONE of the following three units:	
PQB450	Energy, Fields and Radiation
PQB460	Astrophysics 1
PCB593	Digital Image Processing

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Graduates may be eligible for membership of the Australian and New Zealand Forensic Society (ANZFSS), AusBiotech Ltd, the Australian Society for Biochemistry and Molecular Biology (ASBMB), and the Royal Australian Chemical Institute (RACI).

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Core Studies - 13 units (156 credit points)	
Major - 13 units (156 credit points)	
Minor - 4 units (48 credit points)	
Electives - 2 units (24 credit points)	
Year 1 Semester 1	
INB101	Impact of IT
INB104	Building IT Systems
INB180	Computer Games Studies
INB182	Introducing Design
Year 1 Semester 2	
INB103	Industry Insights
INB181	Introduction to Games Production
INB270	Programming
MAB281	Mathematics for Computer Graphics
Year 2 Semester 1	
INB370	Software Development
INB371	Data Structures and Algorithms
Block C or Block D Unit	
Block C or Block D Unit	
Year 2 Semester 2	
INB210	Databases
INB250	Foundations of Computer Science
INB381	Modelling and Animation Techniques
Block C or Block D Unit	
Year 3 Semester 1	
BSB115	Management
STB551	Engaging with the Innovation Industry
Block C or Block D Unit	
Plus ONE of the following two units:	
INB382	Real Time Rendering Techniques
INB383	AI for Games
Year 3 Semester 2	
BSB126	Marketing
MGB223	Entrepreneurship and Innovation
Block C or Block D Unit	
Block C or Block D Unit	
Year 4 Semester 1	
AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project
BLOCK C Minor Units List	
ANIMATION:	

Bachelor of Technology Innovation (Games Technology)

KIB105	Animation and Motion Graphics
KIB108	Animation History and Practices
KIB108	Animation History and Practices
KIB225	Character Development, Conceptual Design and Animation Layout
KVB105	Drawing for Design
KVB106	Drawing for Animation
ADVANCED SOFTWARE TECHNOLOGIES:	
INB365	Systems Programming
INB372	Agile Software Development
INB374	Enterprise Software Architecture
Plus ONE from the following two units:	
INB382	Real Time Rendering Techniques
INB383	AI for Games
DIGITAL MEDIA:	
KIB101	Visual Communication
KIB102	Visual Interactions
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
GAME DESIGN:	
KIB201	Concept Development for Game Design and Interactive Media
KIB202	Enabling Immersion
INB280	Fundamentals of Game Design
Plus ONE from the following two units:	
INB272	Interaction Design
INB281	Advanced Game Design
MATHEMATICS FOR GAMES:	
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
MAB122	Algebra and Analytic Geometry
MAB312	Linear Algebra
[Students who have completed Maths C can substitute MAB120 with one of the following units: MAB311, MAB481 or MAB422]	
MOBILE AND NETWORK TECHNOLOGIES:	
INB102	Emerging Technology
INB251	Networks
INB350	Internet Protocols and Services
INB353	Wireless and Mobile Networks
SOUND DESIGN:	
KMB107	Sound, Image, Text
KMB119	Music and Sound Production 1
KMB129	Music and Sound Production 2
KMB252	Multi-Platform Sound Design
KKB216	Audio/Visual Interaction
PHYSICS FOR GAMES:	
MAB121	Calculus and Differential Equations
PQB250	Mechanics and Electromagnetism
PQB251	Waves and Optics
Plus ONE from the following three units:	
PQB450	Energy, Fields and Radiation
PQB460	Astrophysics 1
PCB593	Digital Image Processing

Code	Title
Year 1 Semester 1	
INB101	Impact of IT
INB102	Emerging Technology
INB103	Industry Insights
INB104	Building IT Systems
Year 1 Semester 2	
Choose THREE units from the IT Breadth Options List	
Plus ONE unit which may be any Faculty of Science and Technology unit or a unit from another Faculty	
Please note that students must take a total of TWO Faculty of Science and Technology Units and a total of TWO units from another Faculty	
Year 2 Semester 1	
INB201	Scalable Systems Development
Plus ONE unit from the IT Breadth Options List	
Plus ONE unit which may be any Faculty of Science and Technology unit or a unit from another Faculty	
Plus ONE unit from the IT Specialisation Options List	
Please note that students must take a total of TWO Faculty of Science and Technology Units and a total of TWO units from another Faculty	
Year 2 Semester 2	
Choose ONE unit from the IT Specialisation Options List	
Plus TWO units which may be any Faculty of Science and Technology unit or a unit from another Faculty	
Plus ONE unit either from the IT Breadth Options List or the IT Specialisation Options List	
Please note that students must take a total of TWO Faculty of Science and Technology Units and a total of TWO units from another Faculty	
Year 3 Semester 1	
BSB115	Management
STB551	Engaging with the Innovation Industry
Plus ONE unit from the IT Specilisation Options List	
Plus ONE unit either from the IT Breadth Options List or the IT Specialisation Options List	
Year 3 Semester 2	
BSB126	Marketing
MGB223	Entrepreneurship and Innovation
Plus ONE unit from the IT Specilisation Options List	
Plus ONE unit either from the IT Breadth Options List or the IT Specialisation Options List	
Year 4 Semester 1	
AMB240	Marketing Planning and Management
LWS007	Introduction To Intellectual Property Law
MGB324	Managing Business Growth
STB709-1	Innovation and Commercialisation Project
Year 4 Semester 2	
BSB311	Innovation Commercialisation Strategies
MGB225	Intercultural Communication and Negotiation Skills
STB709-2	Innovation and Commercialisation Project
STB709-3	Innovation and Commercialisation Project
Information Technology Breadth Options List	
Students must complete FOUR units from the following list:	
INB120	Corporate Systems
INB210	Databases
INB220	Business Analysis
INB250	Foundations of Computer Science
INB251	Networks
INB255	Security
INB270	Programming
INB271	The Web
INB272	Interaction Design
Information Technology Specialisation Options List	

Bachelor of Technology Innovation (Information Technology)

Students must complete FOUR units from the following list. Please ensure you have completed a minimum of 36 credit points (3 units) of IT Breadth Option Units before commencing these units.	
ENTERPRISE SYSTEMS:	
INB123	Project Management Practice
INB221	Technology Management
INB311	Enterprise Systems
INB312	Enterprise Systems Applications
WEB TECHNOLOGIES:	
INB313	Electronic Commerce Site Development
INB373	Web Application Development
INB374	Enterprise Software Architecture
INB385	Multimedia Systems
INB386	Advanced Multimedia Systems
BUSINESS PROCESS MANAGEMENT:	
INB320	Business Process Modelling
INB321	Business Process Improvement
INB322	Information Systems Consulting
Smart Services	
DATA WAREHOUSING:	
INB340	Database Design
INB341	Software Development With Oracle
INB342	Enterprise Data Mining and Data Analysis
INB343	Data Warehousing and Mining
NETWORK SYSTEMS:	
INB350	Internet Protocols and Services
INB351	Unix Network Administration
INB352	Network Planning
INB353	Wireless and Mobile Networks
SOFTWARE ENGINEERING:	
INB370	Software Development
INB371	Data Structures and Algorithms
INB372	Agile Software Development
INB374	Enterprise Software Architecture
DIGITAL ENVIRONMENTS	
Information Issues and Values	
INB345	Mobile Devices
INB346	Enterprise 2.0
INB347	Web 2.0 Applications
UNGROUPED UNITS:	
INB355	Cryptology and Protocols
INB365	Systems Programming
INB860	Computational Intelligence for Control and Embedded Systems

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English
- Chemistry

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- English
- Chemistry

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Graduates are eligible for membership of the Australian Society for Microbiology (ASM).

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

Year 2

You will be introduced to advanced theoretical concepts and practical skills that serve to build your expertise in the science and technology disciplines. A thorough understanding of science and technology theory and practice is necessary to understand, evaluate and communicate aspects of innovation to the business world.

Year 3

In third year, you will complete your science and technology disciplinary advanced studies and take basic and advanced business units that encompass the business of innovation, intellectual property law and professional skills development. Through the action learning framework of the Student Enterprise Scheme, professional skills development will concentrate on communication and team-building skills. These exercises will help prepare you for industry-based consultancy style projects and extra-curricular networking events and an industry career.

Year 4

You will undertake integrative business units that develop the entrepreneurial mindset needed for a career in innovation commercialisation. You will further develop your professional skills through networking events. Student teams will source an industry-based consultancy-style project that will serve to provide real world experience and ready you for your future career.

Why Choose This Course

If you like to work in a dynamic world of translating discovery and creativity into commercial products, meeting people, and working in a high-powered team environment to build money-making enterprises, then this course is for you. The Bachelor of Technology Innovation will allow a rapid entry into the high-flying world of commercialisation and technology transfer. This new degree builds upon the successful Bachelor of Biotechnology Innovation which has seen graduates realise outstanding job outcomes, often successfully competing against graduates with PhDs and MBAs.

Professional Recognition

Graduates are eligible for membership of the Australian Institute of Physics (AIP).

Your Course

Year 1

You will be able to choose subjects from across a range of science and technology areas to help you define your choice of disciplinary major. The introductory core studies will provide you with a solid foundation in your chosen disciplinary skills and build the basis for future studies.

reading	6.0
listening	6.0
overall	6.0

Overview

The course is concerned with the management of the overall process of construction projects and provides detailed understanding of project development from conception, through planning and construction to commissioning and maintenance. It develops skills in how to manage people, materials, equipment and plant while focusing on issues such as cost, time, quality, safety and environment. It educates students to become effective construction managers with comprehensive technological knowledge, management principles and communication skills.

Minors

For accreditation purposes you are required to undertake specified minors which will include employment practice. Please refer to your course rules before making your selection.

CONSTRUCTION MANAGEMENT Minor Options

- All students must take the Construction Management Applications Minor, which is an AIB accreditation requirement.
- Your second minor may be taken from anywhere in QUT but must be from outside UD40.

Special Course Requirements

All students are required to obtain a minimum of 80 days of approved construction management industrial experience.

Professional Recognition

This course has been accredited by the Australian Institute of Building.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

In your final year students are required to undertake 100 days approved industrial experience in the construction or allied field.

Your course

Year 1

You start your studies with foundation units including residential construction and engineering, basic professional learning (including an introduction to research writing), sustainability, land stewardship, urban development economics and building measurement.

Year 2

You build on your knowledge of construction management by studying low-rise commercial construction and engineering, structural engineering, building measurement and estimating, construction-related law, building services engineering, basic business skills and minor study units.

Year 3

You increase your knowledge by studying high-rise construction and advanced structural and formwork design. You extend your management learning in business skills, contract administration and statutory construction law and further engage in your chosen minor study units as well as building your research capabilities.

Year 4

Your final year draws together previous learning and integrates it with more advanced concepts of strategic management, program and planning management, and human resources planning, preparing you for entry to the construction industry at managerial level. You have the opportunity to gain

interdisciplinary skills via your minor units and specialist skills in advanced construction management and research methods and report writing.

Minors

For accreditation purposes you are required to undertake specified minors which will include employment practice. Please refer to your course rules before making your selection.

Construction management minor options

- All students must take the Construction Management Applications Minor, which is an AIB accreditation requirement.
- Your second minor may be taken from anywhere in QUT but must be from outside UD40. The Project Collaboration Minor is highly recommended for students in Construction Management.

Overview

This course is concerned with all aspects of property - investment, asset management, development, valuation and research - with a focus on finance and on the commercial property market sector.

Special Course Requirements

You are required to obtain a minimum of 30 days approved professional work experience.

Professional Recognition

The 4 year degree has professional recognition from the Australian Property Institute, the Valuers' Registration Board of Queensland, and from the Royal Institution of Chartered Surveyors.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Second Majors and Minors

In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units each) from other areas of interest. Please refer to your course rules before making your selection.

PROPERTY ECONOMICS Second Major and Minor Options

Second Major:
A second major from anywhere in QUT

Minors:
Two minors from anywhere in QUT. Remember if you take two Minors one Minor must be from outside of your course.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

Students are required to obtain a minimum of 30 days approved professional work experience.

Your course

Year 1

You are introduced to land management, sustainability, construction, economics, law and fundamental property valuation practice. You will have a preliminary understanding of the knowledge required of a property professional including factors that influence the value of property. You develop verbal and written communication skills and work collaboratively on projects with other students.

Year 2

You further develop skills in applying analytical problem solving in property valuation, investment analysis and property development. You continue to build your knowledge and skills in planning and urban development, urban economics, and law associated with interests in land and property transactions. Focus is maintained on developing written and verbal communication to a professional standard. You develop an understanding of your future role as a property professional.

Year 3

You collaborate with other students in related disciplines to determine the feasibility of a hypothetical development project. You explore property finance and property and asset management and hone research expertise. Guest lectures from leading industry practitioners and industry-focused workshops are a feature. You also embark on a specialist focus through elective major/minor units in your

chosen specialisation.

Year 4

You continue to specialise in your chosen area of study through elective major/minor units. You develop skills in property taxation, property marketing and real estate practice. These property skills are supplemented by business study which provides you with a useful understanding of commercial enterprise. The year culminates with industry-focused learning experiences including a work integrated learning unit to ensure you are workforce ready.

Second major and minors

In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units each) from other areas of interest. Please refer to your course rules before making your selection.

Property economics second major and minor options

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

The course prepares students to work as quantity surveyors or building economists. The course covers building management, cost planning and control, building development techniques, building research, computer software application, measurement of construction, and legal issues. **Applicants will be initially enrolled in the Bachelor of Urban Development (Construction Management) but will be directed to take suitable units to graduate with a Quantity Surveying primary major.**

Special Course Requirements

You are required to gain a minimum of 80 days of approved employment in the final year of the course.

Professional Recognition

This course is fully accredited by the Australian Institute of Quantity Surveyors, The Royal Institution of Chartered Surveyors (Honours version only), and the Board of Quantity Surveyors Malaysia (with Property Economics second major).

Second Majors and Minors

You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to your course rules before making your selection.

QUANTITY SURVEYING Second Major and Minor Options

Second Major:
Choose one second major from the following options:

Property Economics Development
Property Economics Investment
Property Economics Valuation
Urban and Regional Planning
Architectural Studies

OR

Minors:
Two minors from anywhere in QUT.
Remember if you take two Minors, one Minor must be from outside the UD40 course.

Domestic Course structure

Work Integrated Learning unit

Students are required to gain a minimum of 80 days of approved employment in the final year of the course.

Your course

Year 1

Complete a common first year with construction management students. You start your studies with foundation units including residential construction and engineering, basic professional learning (including an introduction to research writing), sustainability, land stewardship, urban development economics and building measurement.

Year 2

Apply your construction body of knowledge introduced in first year, and begin to develop the range of graduate capabilities through an introduction to more complex construction techniques, methodologies and management issues relating to your degree in quantity surveying. Your analytical and technical skills continue to be honed through commercial construction and the environment. The law and business skills you gain in the second year will also help further develop lifelong learning skills.

Year 3
Increase your knowledge and skills in construction and quantity surveying. You are introduced to in-depth knowledge of the economic, managerial, legal and technical aspects of construction activity, such as high-rise construction, cost planning and control. Undertake second majors/minors to extend construction and quantity surveying knowledge. These allow you to broaden your education by undertaking units from other faculties within the University, subject to accreditation requirements.

Year 4
In your final year you complete your selected second major/minors, involving a major project which brings together all your previously mastered skills, and advances your communication skills in dissertation writing and seminar presentation. You also complete work integrated learning in the quantity surveying discipline, ensuring you are workforce ready.

Second major and minors
You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to your course rules before making your selection.

Quantity surveying second major and minor options

Second Major:

Choose one second major from the following options:
- Property Economics Development
- Property Economics Investment
- Property Economics Valuation
- Urban and Regional Planning

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

This degree is a broad-based course. The first year is a foundation year designed to prepare students to deliver practical solutions to problems involving spatial information and decision-making. Students study foundation units such as mathematics, professional studies, sustainability as well as geospatial positioning in their first year. In the following years, the areas covered are boundary and control surveying, topographic mapping, photogrammetry, mine and hydrographic surveying, land development design and geographic information systems.

Professional Recognition

The course is recognised by Queensland Surveyors Board and the Surveying and Spatial Science Institute of Australia (SSSI).

Special Course Requirements

You will be required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. To graduate you are required to have at least 90 days of approved industrial experience/practice in a spatial science/ surveying environment.

Minors

For professional recognition you will undertake two minors (a minor is four units or 48 credit points in the same discipline) the first is a Science minor which includes Maths and the second an Applications minor which consists of a Work Integrated Learning unit, a project unit and two specialised spatial science units.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Domestic Course structure

Work Integrated Learning unit

To graduate, students are required to undertake at least 90 days of approved industrial experience/practice in a spatial science/surveying environment.

Your course

Year 1

You undertake foundation units where you study broad aspects of the built environment, stewardship of land and foundation mathematics to assist with an understanding of geospatial information and measurement science/surveying. A number of experiential field practicals support the study of introductory surveying techniques.

Year 2

You undertake further measurement-related study applied to cadastral surveying and computations. Digital mapping, GIS and remote sensing studies, that broaden measurement and analysis aspects, are introduced. Land development, measurement science and mapping/GIS themes are structured as a sequential learning process.

Year 3

Multidisciplinary land development units are undertaken to reflect real-world development projects. Land information management study supports the ‘big-picture’ view of sustainable developments while the geodesy theory unit covers high-precision state-of-the-art technology measurement applications. Project-based learning through spatial analysis practice is encouraged in this third year of study.

Year 4

Your final year prepares you for entry into the spatial information industry. Study units provide opportunities to gain interdisciplinary skills and specialist

spatial measurement and presentation skills. Project and work-integrated learning units allow for industry work experiences and exposure to the diversity of workplace cultures.

Minors

For professional recognition you will undertake two minors (a minor is four units or 48 credit points in the same discipline) the first is a Science minor which includes Maths and the second an Applications minor which consists of a Work Integrated Learning unit, a project unit and two specialised spatial science units.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

This course aims to educate students to become innovative leaders in professional planning, with the capacity and will to create a better world. Graduates will apply perceptive sensibilities and skills to create sustainable natural and human environments. The QUT course emphasises creative design and inclusive community planning. You will have the opportunity to work on live projects with local councils and community groups.

Professional Recognition

This course has received accreditation from the Planning Institute of Australia.

Second Major and Minors

You will have the opportunity to undertake two minors (four units each) to broaden your appreciation of fields related to urban and regional planning. One of these is the Applications Minor, that fulfils important Planning Institute of Australia accreditation requirements. The other minor you are able to choose for yourself; for example: landscape architecture, urban design, surveying, property economics, law or business management. Students wishing to undertake a second major rather than the accredited course model are advised to contact the Study Area Coordinator.

Please refer to your course rules before making your selection.

URBAN AND REGIONAL PLANNING Minor Options

Choose two minors from the following options. Remember, one Minor must be from outside the UD40 course:

Urban and Regional Planning Applications Minor (accreditation requirement)
Landscape Architecture
Spatial Science
Architectural Studies
Property Economics Development
Property Economics Investment
Property Economics Valuation
Sustainability Minor
International Minor
Indigenous Studies Minor
Research Minor
Project Collaboration Minor
Collaborative Digital Design Minor
A minor from anywhere in QUT

Domestic Course structure

Your course

Year 1

Your first year as a planning student will give you a strong foundation in design skills, experience in working in teams on planning projects, and an understanding of the importance of the social, economic and environmental contexts of planning activity.

Year 2

In your second year as a planning student, you will develop your practical skills through working on site-related projects and development assessment. The second year of the degree also explores the philosophical and theoretical basis of planning.

Year 3

In the third year of your degree, you will focus on the application of design skills on a broader scale through urban design principles. You will also be prepared for the public role of planners through negotiation and conflict resolution, and investigate the importance of environmental planning.

Year 4

In the final year of your degree, you will integrate the skills and capacities developed throughout the course through a major research project, a challenging exploration of planning theory and ethics,

and real-world planning projects that move from the community through to the regional level.

Second major and minors

You will have the opportunity to undertake a second major (8 units) or 2 minors (4 units each) to enhance and broaden your knowledge in a related field or area of interest.

Please refer to your course rules before making your selection.

Course Coordinator	Dr R.Mahalinga-Iyer (Engineering); Associate Professor Dann Mallet (Mathematics)
Discipline Coordinator	Dr Bouchra Senadji (Engineering); Professor Helen MacGillivray (Mathematics)

Domestic Entry requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

This course meets the requirements for membership of Engineers Australia (EA). EA is a signatory to the Washington Accord, which permits graduates from accredited member courses to work in various countries across the world. The course also meets the coursework requirements for accredited graduate membership of the Australian Mathematical Society. You may also become a member of the Statistical Society of Australia.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or an engineering scholarship to help you financially throughout your studies. For further information visit scholarships.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Discontinuation

From Semester 1, 2007, this course has been renamed and recoded to IX28 Bachelor of Business/Bachelor of Engineering. Currently enrolled students who wish to remain in, and graduate from the existing program will be permitted to do so up to the end of 2009. From Semester 1, 2010, all students will be enrolled in the new program.

Course discontinued

This course has been discontinued and is open to continuing students only.

Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition

Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Multidisciplinary Majors

In the Arts component students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

International Subject prerequisites

- English

You must have achieved study at a level comparable to Australian Year 12 or in recognised post-secondary studies in English and one of the following: Maths A, Maths B or Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

The professional skills gained from this double degree are applicable across all business domains. As a graduate, you can expect to work in roles such as a business analyst or consultant, information and communication technologies project manager or information technology infrastructure manager, information analyst, business process manager, information manager, database manager, data communications specialist, systems analyst or programmer.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Study Areas

IT07 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IT07 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management
• Data Warehousing
• Digital Societies
• Enterprise Systems
• Information Management
• Network Systems
• Software Engineering
• Web Technologies

Pathways to Futher Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology and microbiology majors - Biology and Chemistry; for physics major - Maths C.

reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year.

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant if you are intending to follow a career in secondary school teaching are chemistry, ecology, geoscience, mathematics or physics.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See Studyfinder for details on the Bachelor of Applied Science majors.

Other Course Requirements

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.
You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks, which commence in late January Year 2.
The application form is available at student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Literacy

Students must meet the Queensland College of Teachers' literacy standards by the end of Year 3. For more information please visit AskQUT and enter 'Literacy Modules' in the FAQ.

Course Design

See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Further Information

For further information about this course, please contact the following:

Domestic Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)).

International Entry requirements

Literacy course requirements

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' (QCT) literacy standards by the end of year three of their course in order to meet the course and QCT professional accreditation requirements.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card

A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Submit your blue card application to the QUT Student Centre as early as possible, ideally as soon as you have received your offer.

How to apply for a blue card

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Course Overview

This double degree enables you to work as a science professional or pursue a career in scientific research. Alternatively, the Bachelor of Education (Primary) will prepare you to teach at all levels of primary school. You may also complete a discipline and content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition

This course meets the requirements for registration as a teacher in Queensland. It is recognised nationally and internationally, however additional requirements may be needed for some locations.

Graduates will also satisfy the requirements for membership of the relevant professional body for their chosen science major. See Studyfinder for details on the Bachelor of Applied Science majors.

Literacy Standards

All students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers' literacy standards by the end of year 3 of their course in order to meet course and QCT professional accreditation requirements. Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator.

Students may attempt these modules any number of times during the first three years of their program. At the end of year 3, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four year degree.

Literacy modules can be accessed through Blackboard. Select the Community tab, then enter 'literacy modules' in the community search.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards.

Field studies units will be taken in Queensland schools.

Course Design

Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component. Field Studies units will be taken in Queensland schools.

Course Update

From Semester 1, 2009, a revised version of this double degree program has been introduced. This course has been recoded IX56 Bachelor of Creative Industries/Bachelor of Information Technology. The current IX27 Bachelor of Creative Industries/Bachelor of Information Technology will be offered for continuing students only.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Information Technology) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 168 credit points from Creative Industries interdisciplinary units.

The Information Technology component is made up of 120 credit points of Faculty core units and 72 credit points of units from an IT major.

Professional Recognition

Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column you are not permitted to enrol in the listed new code

Career Outcomes

Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of governments and private companies. Graduates of the Bachelor of Business are skilled in many aspects of business including: accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing and public relations.

Overview

Students combine engineering knowledge in electronics, computer systems, telecommunications and electric power with a business course majoring in one of accountancy, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Professional Recognition

This degree meets the requirements for membership of Engineers Australia.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Special Course Requirements

A candidate for the degree of Bachelor of Engineering must obtain at least 60 days of industrial employment/practice in an engineering environment as part of the Work Integrated Learning unit, before graduating.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Course Design

Students are required to complete 480 credit points comprised of 288 credit points from the Bachelor of Engineering program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 96 credit point Business School Core units in the Bachelor of Business program together with a 96 credit point Major in one of the following: Accountancy, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing or Public Relations.

Important Information

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet.
Other useful information can be found on Student Services website.

Course Design

Students are required to complete 480 credit points comprised of 288 credit points from the Bachelor of Engineering program and 192 credit points from the Bachelor of Business program. Students supplement the engineering component of this program with the 96 credit point Business School Core units in the Bachelor of Business program together with a 96 credit point major in one of the following:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business
- Management
- Marketing
- Public Relations.

Bachelor of Information Technology/Bachelor of Mathematics

Handbook

Year	2012
QUT code	IX29
CRICOS	059226F
Duration (full-time)	4 years
OP	12
Rank	76
OP Guarantee	Yes
Campus	Gardens Point
Total credit points	384
Course Coordinator	Dr Tim Moroney (Mathematics Major), Mr Richard Thomas (Information Systems Major)
Discipline Coordinator	

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Update

From semester one, 2009 this course will not be available for commencing students. IX29 will only be available for continuing students. New students - please refer to IX57. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design

This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points form Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

Mathematics Bursaries

Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Accountancy, Finance, Economics and Marketing majors require 4 SA in Maths A, B or C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths B (4, SA)). Accountancy, Finance, Economics and Marketing majors require 4 SA in Maths A, B or C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units.
New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of scientific innovation within a range of public, private and non-profit industries.

Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors. Please refer to the relevant pages in this prospectus for details on your intended science major, and the QUT Business School prospectus for more information on business majors, or visit www.qut.edu.au/courses

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or a business scholarship to help you financially throughout your studies. For further information visit Scholarships.

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:
2009 and 2010 commencing students
• 7 Business School Core units (96 credit points)*
• 8 Major Core units (96 credit points)
• MGB223 Entrepreneurship and Innovation*

2007-2008 commencing students
• 7 Business School Core units (84 credit points)*
• 9 Major Core units (108 credit points)

*Please note that BSB122 Quantitative Analysis & Finance (Replaced by BSB123 Data Analysis) is not required as the content of MAB313 Mathematics of Finance covers similar topics. An additional unit from the chosen major replaces BSB122/BSB123 for 2007 and 2008 commencing students. MGB223 Entrepreneurship and Innovation replaces BSB122/BSB123 for 2009 and 2010 commencing students.

* Please note that EFB101 Data Analysis for Business which is normally undertaken in the Majors of Accountancy, Banking & Finance and Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet.
Other useful information can be found on the Student Services website.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

Graduates may develop careers in cyberlaw, intellectual property and privacy, dealing with the legal regulation of the Internet including downloading music, mobile phone camera use or copyright issues. You may become a legal practitioner, barrister, in-house counsel, government lawyer or policy adviser. There is also increased demand for roles in edemocracy both in egovernment service delivery and political campaigning.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practicing lawyer you will need to complete further practical legal training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Study Areas

IX53 will not have nominated majors and minors in the IT component and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX53 will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management
• Data Warehousing
• Digital Societies
• Enterprise Systems
• Information Management
• Network Systems
• Software Engineering
• Web Technologies

Pathways to Futher Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making

their elective choices.
• Legal Practice
• General Legal Practice (work as a lawyer across a wide range of different legal areas)
• Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
• Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
• Public Sector (work as a lawyer in a government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning' , for example, working within law firms and government departments in placement electives.

Law School Electives Information

Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:
• LWB142 Law Society and Justice
• LWB144 Law and Global Perspectives
• LWB149 Indigenous Legal Issues
• LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths B (4,SA)). Recommended study: Chemistry, Maths C and Physics.

International Entry requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)). Recommended study: Chemistry, Maths C and Physics.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

This course meets the requirements for membership of Engineers Australia (EA). EA is a signatory to the Washington Accord, which permits graduates from accredited member courses to work in various countries across the world. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Other Course Requirements

Bachelor of Engineering students are required to complete at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Cooperative Education Program

IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Pathways to Further Studies

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Bachelor of Engineering (Electrical)/Bachelor of Information Technology

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology, forensic science, and microbiology majors - Biological Science and Chemistry; for physic major - Maths C.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology, forensic science, and microbiology majors - Biological Science and Chemistry; for physic major - Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Course Overview

This double degree prepares you for an increasing range of careers that involve the application of information technology to science. It gives you the ability to use creative as well as analytical methods to solve scientific problems. Studying this double degree allows you to develop the technical skills required for your relevant field of study in applied science.

The science component of the course offers you the choice of majoring in biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geosciences, microbiology or physics. Theoretical aspects are balanced by strong practical components in this science and information technology double degree.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. Please refer to the Science pages at Studyfinder for more information on the relevant professional body for your chosen science major.

Study Areas

IX55 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX55 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their BIT degree (or double degree) which

would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

listening	6.0
overall	6.5

Course Overview

This double degree allows you to complement your technical skills with creative skills through digital media and film production. You will learn to merge the creative and imaginative with the technical to develop sophisticated and innovative digital products. You can choose to complement your skill set through a range of information technology and creative industries areas of interest to diversify your studies, including:

• animation
• art and design history
• creative and professional writing
• dance studies
• digital media
• entertainment industries
• entrepreneurship
• fashion
• film, television and screen game design
• interactive and visual design
• journalism, media and communication
• literary studies
• music
• online environments

Career Outcomes

As a graduate you can enjoy the more creative side of information technology careers including digital media programmer, simulation designer or developer, games producer or designer, sound designer, mobile entertainment and communications developer, user interface developer, knowledge worker in music and sound, web developer and digital product strategist.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Design

You will undertake the Bachelor of Creative Industries core units as well as one creative industries major. Your information technology degree component comprises eight core units, four breadth units, and four units in your information technology specialisation.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

• Business Process Management
• Data Warehousing
• Digital Societies
• Enterprise Systems
• Information Management
• Network Systems
• Software Engineering
• Web Technologies

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

Bachelor of Creative Industries/Bachelor of Information Technology

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths B (4,SA)).

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Professional Recognition

Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society for Operations Research. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or an information technology scholarship to help you financially throughout your studies. For further information visit Scholarships.

Study Areas

IX57 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX57 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths A, B or C (4,SA)).

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths A, B or C (4,SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Study Areas

IX58 will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, IX58 will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Societies
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

The following Majors are available from the Business component: Accounting, Advertising, Economics, Finance, Human Resource Management, International Business, Management, Marketing and Public Relations.

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Business: For BS63 Bachelor of Business (Honours) please click BS63 for details.

Cooperative Education

The Science and Engineering Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the Business Undergraduate Guidelines booklet. Other useful information can be found on the Student Services website.

Course Overview

There is an ever-increasing number of criminal acts resulting from the development and use of technology (such as the Internet and mobile devices), therefore, students with a corporate systems management background have the appropriate skills and knowledge required to work on criminology and policing for these areas. Corporate systems management students also gain information systems knowledge which allows them to more effectively manage, secure and control systems and processing in justice departments.

Corporate systems management teaches students how to analyse business needs and devise IT-enabled business systems that deliver the necessary information to the key people via the most appropriate technologies. The justice component comprises a primary major study area in either criminology or policing, which covers skills in criminology, policing, ethics, crime prevention, justice policy and investigations.

Career Outcomes

Graduates find work in justice areas including corrective services, police, Crime and Misconduct Commission, Department of Justice and Attorney-General, Federal and Family Courts and the Australian Taxation Office.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Overview

This double degree gives you the opportunity to use your problem-solving skills to develop realistic games in a competitive gaming environment. A decade ago, people probably wouldn't have noticed if the cape the game hero was wearing didn't flap in the wind as he ran, or that the boxes in the corner of the room of the dungeon didn't fall over when they are run into in a fight. Nowadays, serious gamers notice and demand this type of realism in their virtual worlds. This is where your maths and problem-solving capabilities come into play. Complex formulae are used in games design to create realistic scenes, and knowledge of mathematics will certainly aid your understanding.

Students undertake core units from both their Bachelor of Mathematics and Bachelor of Games and Interactive Entertainment. They can subsequently select from the strands of applied, computational, discrete and financial mathematics; mathematical modelling; operations research; scientific computation and visualisation; statistics and statistical modelling in their Bachelor of Mathematics
and from the majors of animation, digital media, game design or software technologies in their Bachelor of Games and Interactive Entertainment degree.

Career Outcomes

A graduate may find work in film and television special effects or in the games and interactive entertainment environments making games look more realistic (such as concept artist).

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia and the Australian Society for Operations Research is available. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Further Information

For further information about this course, please contact the following:

Games and Interactive Entertainment Coordinator

Michael Docherty
Phone: +61 7 3138 8822
Email: sef.enquiry@qut.edu.au

Mathematical Sciences Coordinator

Dr Tim Moroney

Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics

Phone: +61 7 3138 2262
Email: t.moroney@qut.edu.au

Financial Support

You should consider applying for an industry-sponsored mathematics bursary to help you financially throughout your studies. For further information visit Scholarships.

Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $3,143 per Semester
International fee (indicative)	2012: $11,800 per Semester
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Dr Marion Bateson (Science), Michael Docherty (Information Systems)
Discipline Coordinator	Dr Perry Hartfield (Biochemistry Major); Dr Marion Bateson (Biotechnology Major); Associate Professor Dennis Arnold (Chemistry Major); Dr Ian Williamson (Ecology Major); Dr Ian Williamson (Environmental Science Major); Dr Emad Kirjakous (Forensic Science Major); Dr Craig Sloss (Geoscience Major); Dr Christine Knox (Microbiology Major); Dr Stephen Hughes (Physics Major)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4,SA) and Maths B (4,SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology, forensic science, and microbiology majors - Biological Science and Chemistry; for physic major - Maths C.

International Subject prerequisites

- Maths B
- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4,SA) and Maths B (4,SA)). Recommended study: At least one of the sciences. For biochemistry, biotechnology, forensic science, and microbiology majors - Biological Science and Chemistry; for physic major - Maths C.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

This course is currently under review for future offerings (2013 onwards).

Career Outcomes

Knowledge of science underpins more than you might think. As a graduate of the Applied Science/Games and Interactive Entertainment double degree you may find work as a graphic/games designer. You may work on such things as making car games realistic, making people move more realistically using your knowledge of the laws of motion, or creating three-dimensional games.

Professional Recognition

Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See Studyfinder for details on the Bachelor of Applied Science majors. The software technologies major of the Bachelor of Games and Interactive Entertainment is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Course Coordinator	Director of Undergraduate Studies (Creative Industries); Mr Mike Roggenkamp (Information Technology)
Discipline Coordinator	Mr Gavin Sade (Interactive and Visual Design) ci@qut.edu.au (Interactive and Visual Design)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA) of English and one of the following: Maths A, Maths B or Maths C.

International Subject prerequisites

- English

You must have achieved study of English and one of the following: Maths A, Maths B or Maths C, at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Career Outcomes

This double degree will set you up for a career in the rapidly expanding fields of contemporary communication and the application of new media technologies.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Environments
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Futher Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Cooperative Education

The Faculty of Science and Engineering's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens

and permanent residents only.

Find out more about the Cooperative Education Program.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Business students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units.
New students - please refer to Bachelor of Science/Bachelor of Business. Please contact sef.enquiry@qut.edu.au for any enquiries.

Professional Recognition

Graduates will satisfy the requirements for membership in the relevant professional body for their science major. See Studyfinder for details on the Bachelor of Applied Science majors.

At the end of your Law degree you will have completed the necessary units for admission to legal practice in Australia. To become a practising lawyer you will need to complete further practical legal training (e.g. Graduate Diploma in Legal Practice) and then apply for admission.

Course Design

The course is designed to cover all major areas of the law as well as allowing students to choose any of the following science majors that are offered in the Bachelor of Applied Science (SC01) course: biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B
- English

Four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths B (4, SA)). Maths C and knowledge of at least one of the sciences. For majors in biochem, biotech, forensic science, and microbiology - Biology and Chemistry are recommended.

International Subject prerequisites

- Maths B
- English

Four semesters with sound achievement in high school or subsequent study (English (4, SA) and Maths B (4, SA)). Maths C and knowledge of at least one of the sciences. For the majors in biochem, biotech, forensic science, and microbiology - Biology and Chemistry are recommended. You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0

overall	6.5

IMPORTANT NOTE

As of 2013, this course will only be available for continuing Bachelor of Applied Science/Bachelor of Mathematics students and those students who are commencing in 2013 with advanced standing of 96 credit points of 1st year Bachelor of Applied Science units.
New students - please refer to Bachelor of Science/Bachelor of Mathematics. Please contact sef.enquiry@qut.edu.au for any enquiries.

Course Overview

Studying a double degree in applied science and mathematics will provide you with advanced knowledge and skills that are highly sought after by employers. A stronger training in mathematics and statistics enhances your capabilities in modelling analysis and design.

This four year double degree course integrates studies in one of the science majors with studies in mathematics. The science majors available are biochemistry, biotechnology, chemistry, ecology, environmental science, forensic science, geoscience, microbiology and physics.

The mathematics component offers studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia and the Australian Society for Operations Research is available. Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary to help you financially throughout your studies. For further information visit scholarships.

Further Information

For further information about this course please contact:

Science Coordinator

Dr Marion Bateson (as of August 2012)
Phone: +61 7 3138 1269
Email: m.bateson@qut.edu.au

Dr Perry Hartfield (prior to August 2012)
Phone: +61 7 3138 2984
Email: p.hartfield@qut.edu.au

Mathematics Coordinator

Professor Graeme Pettet
Phone: +61 7 3138 5238
Email: g.pettet@qut.edu.au

Sample Structure

Semesters

- Level 1 Units:
- Level 2 and 3 Mathematics Units:
- Level 2 and 3 Science Units:
- Science Elective Units:

Code	Title
Course Notes	
Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:	
Level 1 Units:	
Students must complete the following Level 1 Mathematics units:	
MAB101	Statistical Data Analysis 1
MAB120	Algebra and Calculus
MAB121	Calculus and Differential Equations
MAB122	Algebra and Analytic Geometry
MAB210	Statistical Modelling 1
MAB220	Computational Mathematics 1
MAB120 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent).	
Students with Sound Achievement in both Senior Mathematics B and C take a level 2 Mathematics unit option instead of MAB120.	
Students must complete the following Level 1 Science Foundation units:	
SCB110	Science Concepts and Global Systems
SCB111	Chemistry 1
SCB112	Cellular Basis of Life
In addition, students are required to complete any mandatory units - and should complete all recommended units, specified for the science major selected.	
Level 2 and 3 Mathematics Units:	
At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:	
Students must complete:	
MAB311	Advanced Calculus
MAB312	Linear Algebra
Level 2 and 3 Science Units:	
At least 96 credit points (8 twelve-credit point units) must be taken from Level 2 and Level 3 Science units with at least 48 credit points (4 twelve credit point units) from Level 3 Science units. The science units must meet the advanced level requirements of one of the following majors of the SC01 Bachelor of Applied Science course: Biochemistry; Biotechnology; Chemistry; Ecology; Environmental Science; Forensic Science; Geoscience: Microbiology or Physics.	
Science Elective Units:	
The Mathematics unit (or units) normally undertaken in the first year of SC01 Bachelor of Applied Science is replaced by a Science elective unit (or units). This Science elective unit can be from any level. The level 2 Mathematics unit in the Physics major is replaced by a level 2 Science elective unit.	

Bachelor of Applied Science (Honours)

Handbook

Year	2012
QUT code	HL52
CRICOS	009041G
Duration (full-time)	1 year
Duration (part-time domestic)	2 years
Campus	Kelvin Grove
Domestic fee (indicative)	2012: CSP $3,575 per Semester
International fee (indicative)	2012: $11400 per Semester
Total credit points	96
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February
Int. Start Months	February
Course Coordinator	hlthhonours@qut.edu.au or 07 3138 4822
Discipline Coordinator	07 3138 4822 hlthhonours@qut.edu.au

Domestic Entry requirements

Applicants should have completed QUT's Bachelor of Applied Science/ Bachelor of Health Science in a relevant area or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

International Entry requirements

Applicants should have completed QUT's Bachelor of Applied Science/ Bachelor of Health Science in a relevant area or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Dissertation

The dissertation is one 48 credit point unit representing 50 per cent of the program. Preparation and presentation of the dissertation in completed under the guidance of a supervisor and is examined externally.

Electives

Students undertake two 12 credit point electives. At least one elective must be a research elective selected from the nominated list of research electives. The second elective may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the student's mentor/supervisor and the Course Coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is relevant to the student's study program. For further information on available units contact the Honours Coordinator.

International Student Entry

International students may enrol only in full-time studies.

Further Information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

Course structure

Students complete a dissertation which is one 48-credit-point unit representing 50 per cent of the program. Preparation and presentation of the dissertation is completed under the guidance of a supervisor and is examined externally.

International Course structure

Course structure

Students complete a dissertation which is one 48-credit-point unit representing 50 per cent of the program. Preparation and presentation of the dissertation is completed under the guidance of a supervisor and is examined externally.

Dissertation

The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

Bachelor of Games and Interactive Entertainment - Dean's Scholars Program

Handbook

Year	2012
QUT code	IT04
CRICOS	059710E
Duration (full-time)	3 years
OP	1
Rank	99
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $3,875 per Semester
International fee (indicative)	2012: $11,700 per Semester
Total credit points	
Start months	February Fixed closing date - 30 November
Int. Start Months	February Fixed closing date - 30 November
Course Coordinator	Richard Thomas
Discipline Coordinator	

Domestic Entry requirements

2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements

The questionnaire is available from Additional entry requirements or phone (07) 3138 2782. Shortlisted registrants may be required to attend an interview in December and will be notified of date and venue after registrations close.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Choose This Course

This course is a collaboration between the Faculties of Science and Engineering, and Creative Industries, allowing you to be taught design and technology skills from the experts in their field. Queensland is leading the video game industry with figures showing the State earns more than any other from interactive entertainment. The State's game developers generate approximately $55 million per year; a 40 per cent slice of Australia's video games earnings, according to an Australian Bureau of Statistics report. Queensland game companies also employ almost half of the video game industry's workforce, with Brisbane becoming a hub of games talent, producing games for a worldwide audience.

Popular games titles produced in Queensland include Hellboy, the children's game Viva Pinata Party Animals and Star Wars: The Force Unleashed.

Course Structure

The 24-unit degree comprises:

• seven (7) core units including a 24 credit-point final-year project
• eight units in your chosen major
• four units in a secondary area of study, also known as your minor
• four optional units where you can choose units from across QUT to complement your studies.

MAJORS

Choose your primary area of study, also known as your major, from:

Animation This major includes foundation studies in the production of animation and motion graphics; history of animation practices; and programming which includes object orientation, 3D computer graphics and computer generated art. You will develop skills enabling you to work in areas such as computer games, interactive media arts, web applications, sound design, adaptive music and interactive public art works.

Game Design This major provides you with hands-on game design experience, as well as knowledge of narrative and immersion (drawing the player into the game), architecture and interior design to encourage the creation of interesting and unique models within the virtual environment.

Software Technologies# This major will

prepare you for careers in the game and simulation industries such as software tester, video game tester, game programmer and software tools developer. You will study technological aspects of computer games, games engine and tools development. Companies used to provide 'in-house' training for programming skills, however they are now turning to tertiary institutions to provide appropriately qualified graduates.

MINORS
- Animation
- Advanced Animation*
- Digital Media
- Entrepreneurship
- Game Design
- Legal Issues
- Marketing
- Mathematics for Games
- Mobile and Network Technologies
- Physics for Games
- Software Technologies
- Advanced Software Technologies^
- Sound Design

#Requirement for this major is an SA or better in Queensland Maths B (or equivalent).
*Only available to those undertaking the animation major.
^Only available to those undertaking the software technologies major.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Career Outcomes
Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, games/digital media reviewer, video game tester, sound designer, mobile entertainment and communications developer, web developer, digital product strategist, computer systems engineer, multimedia designer, software engineer, or technical officer.

Your Course
Year 1
In your first year you will undertake five core units, consisting of:

- Computer Games Studies
- Building IT Systems
- Industry Insights
- Introducing Design
- Games Production

You will also undertake three units within your chosen major or minor.

Year 2
Second year consists of units within your chosen major and minor together with electives chosen from anywhere in the University.

Year 3
In your final year, you will extend your professional and technical skills by participating in a major group project to produce a significant piece of digital work using PC, mobile devices, consoles or virtual reality. You will also undertake a special topic. You will complete your units for your chosen major, minor and electives.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Financial Support
Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program
The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Edcation 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information
Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code

Why Choose This Course

You may have a great idea for new mobile software, a new way to conduct business over the net, or even how a business could out-manoeuvre its competitors using information technology. You know the importance of IT and you are excited about what IT can do and either want to develop the next big thing yourself or be able to evaluate, identify, choose and integrate from myriad technologies to arrive at a creative solution. This degree will equip you with the knowledge and skills to realise these aspirations. Whether as a professional within an organisation, as a consultant, or as an entrepreneur, you will be well equipped to take advantage of the demand for business-savvy IT professionals who are able to creatively develop or identify IT solutions to help organisations adapt and grow.

Course Structure

The 24-unit degree comprises:
• 16 core units that build your understanding of the relationships between information, technology, business and people
• eight units in a specialisation of your choice – you could choose to further specialise in information technology, a set of units from a different discipline, or optional units from across QUT to complement your studies.

Specialisation options include:

• adult and community learning
• business systems engineering
• construction management – administration
• creative industries management
• databases
• entrepreneurship
• finance
• forensics
• human resource management
• organisational psychology
• information systems
• information management/information technology management
• international studies
• law
• management
• marketing
• public health

Career Outcomes

Career destinations from this degree are management, analyst or consultant roles such as business analyst, project manager, process analyst, program manager, or data manager in fields

ranging from health to finance to media and entertainment services. If you are interested in creating your own business, you may start your own consultancy service to assist businesses in using information technology and improve their business performance. The career possibilities are numerous and relevant experience is in great demand by industry.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Your Course

Year 1

In your first semester, you will complete the first four core units:
• Impact of IT
• Industry Insights
• Corporate Systems
• Organisational Databases.

In your second semester, you will complete three more core units:
• Management, People and Organisations
• Project Management Practice
• Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2

In first semester, you will complete three core units:
• Business Analysis
• Technology Management
• Creating New Enterprises.

You will also complete your second specialisation unit or electives.

In second semester, you will complete two core units:
• Marketing
• Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3

In your first semester, you will complete two core units:
• Enterprise Systems Applications
• Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:
• Business Process Modelling
• Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Note:

The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Financial Support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program

The Cooperative Education Program gives students the opportunity of 10-12 months paid industry placement during your course where they can integrate real experience with what they are learning in their degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Students participating in this program enrol in INS011 Cooperative Education 1 and INS012 Cooperative Education 2 in the second semester of the program. The cooperative education program and its mentoring and assessment requirements make up the required contact and assessment of both units. Eligibility criteria apply. International students are not eligible due to visa restrictions.

Part-time students who are working in a professional position related to the BGIE may be able to use their current employment to meet the criteria for completing INS011 Cooperative Edcation 1, after completion of 168 credit points in the Bachelor of Games and Interactive Entertainment, subject to meeting eligibility criteria. Further information about this option is available from Student Services, Level 3, O Block Podium, Gardens Point Campus.

Find out more about the Cooperative Education Program.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column you are not permitted to enrol in the listed new code.

Intermediate Level Electives

If you have not completed ITB008 you will need to replace it with one of the following intermediate level elective units.
• INB120 Corporate Systems
• INB220Business Analysis
• INB255 Security
• INB272 Interaction Design
Or, an INB300 level unit as approved by the course coordinator

- Enterprise Systems Applications
- Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:
- Business Process Modelling
- Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

International Course structure
Your course
Year 1
In your first semester, you will complete the first four core units:
- Impact of IT
- Industry Insights
- Corporate Systems
- Organisational Databases.

In your second semester, you will complete three more core units:
- Management, People and Organisations
- Project Management Practice
- Information Systems Development.

You will also choose your specialisation and complete your first specialisation unit, or start your electives.

Year 2
In first semester, you will complete three core units:
- Business Analysis
- Technology Management
- Creating New Enterprises.

You will also complete your second specialisation unit or electives.

In second semester, you will complete two core units:
- Marketing
- Web Sites for Electronic Commerce.

You will also complete two more specialisation units or electives.

Year 3
In your first semester, you will complete two core units:
- Enterprise Systems Applications
- Information Systems Consulting.

You will also complete two more specialisation units or electives.

In your second semester, you will complete the last two core units:
- Business Process Modelling
- Corporate Systems Management Project (your final-year showcase project).

You will also complete the last two units of your specialisation or electives.

Bachelor of Information Technology - Dean's Scholars Program

Handbook

Year	2012
QUT code	IT22
Duration (full-time)	3 years
OP	3
Rank	96
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $4,025 per Semester
International fee (indicative)	2012: $11,700 per Semester
Total credit points	
Course Coordinator	Mr Richard Thomas
Discipline Coordinator	

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Financial Support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Cooperative Education Program

The Faculty's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

New Unit Translations/Incompatability Table

Details on the translation and incompatibility of old and new units is located here:
Undergraduate Translation Table and
Postgraduate Translation Table
If you have completed the unit(s) listed under the "Translation Unit Codes" column you are not permitted to enrol in the listed new code.

Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (English (4, SA) and Maths A, B or C (4, SA)).

International Entry requirements

Must be a current Year 12 student or students returning from a gap year who completed their Year 12 education in Australia; successful questionnaire; an interview may be required.

Shortlisted registrants may be required to attend an interview in December and will be notified of date and venue after registrations close.

International Subject prerequisites

- English

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies (English (4, SA) and Maths A, B or C (4, SA)).

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Domestic Course structure

Design your own degree

The Bachelor of Information Technology provides you with the practical skills and theoretical knowledge to become an effective professional. The 24-unit degree comprises:

- 8 core units - 4 introductory units in

first semester to introduce you to the breadth of information technology and its relationship to modern society. Then there are 4 advanced units spread over the rest of your degree program to develop your professional skills in preparation for your career
- 4 breadth units (intermediate level units) - these units give you broad technical experience across a range of fields in information technology. They also give you an introduction to choose the specialisation you wish to focus on
- 4 specialisation units (advanced level units) - these units allow you to focus on your chosen area of study, or you may choose to continue to broaden your information technology skills. This option allows you to study across a selection of study areas rather than focusing on one specialisation
- 8 optional units - these units allow you to customise your degree by studying in another professional discipline (for example, business, health, or science). Or you may choose to gain further depth in other areas of information technology.

Your course

Year 1

In your first semester you will explore how information technology has changed the world and what the possibilities are for the future. You will look at the details of information, computing and communication technologies to understand how they work. You will take part in hands-on projects developing small information technology systems.

Core units for Year 1:
- Impact of IT
- Emerging Technology
- Industry Insights
- Building IT Systems.

In Semester 2 you will undertake three breadth units and one optional unit.

Year 2

In your second year you will take part in a collaborative team setting, working on small projects that integrate the skills you learnt during Year 1. You will also start studying more advanced units in your chosen field of specialisation.

Core unit for Year 2:
- Scalable Systems Development.

Throughout Year 2 you will undertake one breadth unit, two specialisation units and four optional units.

Year 3

In third year you will be able to undertake workplace experience opportunities offered by the Faculty, while earning credit towards your degree. You will continue studying in your area of specialisation. In your final semester you will develop a major project, which will showcase what you have learnt during your degree and provide you with a key part of your portfolio when seeking a job.

Core units for Year 3:
- Professional Practice in IT
- The Business of IT
- IT Capstone Project.

Throughout Year 3 you will undertake two specialisation units and three optional units.

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Why Do Honours

The honours program will expand your career options through exposure to the world of research. Honours is also the perfect pathway to an academic career through PhD studies, where you can become an independent researcher in your own right.

An honours degree signals to potential employers that you are someone with exceptional ability, motivation and commitment to your field. It gives you the chance to integrate the practical and conceptual knowledge gained through your degree. As an honours graduate, you can clearly demonstrate an ability to undertake rigorous independent research. These skills are unique to the honours program and will differentiate you from your peers in the employment market.

Course Design

The core of the honours program is a 36, 48, or 60 credit-point project (depending on your study area) that will provide students with the opportunity to learn about research by conducting a research project with an experienced researcher who acts as both supervisor and mentor. Students will learn the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

Career Outcomes

Information technology is an integral part of all commercial, industrial, government, social and personal activities. In the long term, your career opportunities are unbounded. Some information technology graduates retain a technical focus in roles such as web developer, database manager, network administrator, electronic commerce developer, data communications specialist, software engineer, systems programmer, computer scientist, systems analyst or programmer. Others evolve into domain experts as chief technology officers, chief information officers, managers, executives, business analysts, entrepreneurs or researchers. Graduates have the opportunity to achieve the highest levels of their profession.

Professional Recogntion

You will qualify for professional accreditation and employment in the field relevant to the specialisations chosen.

Pathways

You have the opportunity to choose a study pathway:

• **professional pathway** – you will learn how to think strategically, identify opportunities and solve problems that we don't even know are problems yet. This pathway will enable you to acquire the business and IT skills to have a career as an IT professional within any industry.

• **research pathway** – if you are interested in shaping the future of the IT industry you can pursue a research career. You will have opportunities to work with researchers on projects and progress on to an honours degree. You will have access to world-leading researchers within the Faculty.

• **entrepreneurship pathway** – you now have the opportunity to gain the entrepreneurial skills to develop an idea

into a commercial opportunity. You will be able to take advantage of the Faculty's close relationship with local technology entrepreneurs to learn from their experiences.

In 2001, the Faculty introduced an accelerated Honours program to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of the Bachelor of Information Technology which would be counted both for completion of the degree and towards Honours. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

The Dean's Scholars program was introduced in Semester 1, 2006. This program provides a scholarship for OP 1 and 2 students throughout their Bachelor and Honours degrees. Students in the program are required to maintain a high GPA to continue to qualify for the scholarship each semester. Students in the Dean's Scholars program will be able to take advantage of the Accelerated Honours program. Students in the Dean's Scholars program will have an option to follow an accelerated pathway through the Bachelor of Information Technology, allowing them to complete the Bachelor of Information Technology course plus the Bachelor of Information (Honours) course in a total of three years.

To encourage students to enter the Dean's Scholars program, domestic students have their undergraduate HECS paid by the Faculty and those proceeding to Honour's level will also receive full HECS support. International students who have completed a Year 12 education in Australia and meet the entry requirements for the program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete IT23 with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Important Information

Duration
Except in special circumstances as approved by the Dean, the requirements for an Honours degree must be completed within two successive years following first enrolment.

Unsatisfactory Progress
Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:
- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

Assessment
The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable).
A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding.
Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

Determination of Level of Honours Awards
The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:
Honours 1 - First Class Honours
Honours 2A - Second Class Honours, Division A
Honours 2B - Second Class Honours, Division B
Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:
Honours 1 - GPA 6.50-7.00, or equivalent
Honours 2A - GPA 5.50-6.49, or equivalent
Honours 2B - GPA 4.50-5.49, or equivalent
Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of the Bachelor of Information Technology which would be counted both for completion of the degree and towards Honours. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

The Dean's Scholars program was introduced in Semester 1, 2006. This program provides a scholarship for OP 1 and 2 students throughout their Bachelor and Honours degrees. Students in the program are required to maintain a high GPA to continue to qualify for the scholarship each semester. Students in the Dean's Scholars program will be able to take advantage of the Accelerated Honours program. Students in the Dean's Scholars program will have an option to follow an accelerated pathway through the Bachelor of Information Technology, allowing them to complete the Bachelor of Information Technology course plus the Bachelor of Information (Honours) course in a total of three years.

To encourage students to enter the Dean's Scholars program, domestic students have their undergraduate HECS paid by the Faculty and those proceeding to Honour's level will also receive full HECS support. International students who have completed a Year 12 education in Australia and meet the entry requirements for the program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete IT23 with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Elective Units - Students should choose advanced level postgraduate units. Normally units are undertaken in the area of the student's undergraduate major. Students wishing to enrol in a unit that is not of an advanced level should contact the Course Coordinator.	

INN701 enrolment - Though students are required to enrol in INN701 in their first semester of honours, the unit offers flexible enrolment through (a) a choice of modules on offer, and through (b) the option of undertaking the minimum necessary number of modules across more than one semester (see INN701 week 1 document for further details on enrolment flexibility).
Full-time students should be aware that many electives may be offered evenings only.

Overview

The **'Accelerated Honours'** program has been structured to provide an incentive for high achieving IT undergraduate students to continue into the Honours Program. Benefits of this accelerated program are:
* you are approved to undertake a concurrent enrolment in the final semester of your IT undergraduate course, that is to say, the student may enrol in undergraduate units and Honours.
* 12 credit points will be credited towards Block 3 electives in your IT undergraduate course on the basis of coursework studies completed in IT29 Honours.
* you are able to complete a four year program within 3 1/2 years.

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Please note: tuition fees normally apply for Summer enrolment.

Why Do Honours

The honours program will expand your career options through exposure to the world of research. Honours is also the perfect pathway to an academic career through PhD studies, where you can become an independent researcher in your own right.

An honours degree signals to potential employers that you are someone with exceptional ability, motivation and commitment to your field. It gives you the chance to integrate the practical and conceptual knowledge gained through your degree. As an honours graduate, you can clearly demonstrate an ability to undertake rigorous independent research. These skills are unique to the honours program and will differentiate you from your peers in the employment market.

Career Outcomes

Information technology is an integral part of all commercial, industrial, government, social and personal activities. In the long term, your career opportunities are unbounded. Some information technology graduates retain a technical focus in roles such as web developer, database manager, network administrator, electronic commerce developer, data communications specialist, software engineer, systems programmer, computer scientist, systems analyst or programmer. Others evolve into domain experts as chief technology officers, chief information officers, managers, executives, business analysts, entrepreneurs or researchers. Graduates have the opportunity to achieve the highest levels of their profession.

Professional Recognition

You will qualify for professional accreditation and employment in the field relevant to the specialisations chosen.

Important Information

Assessment

The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable).
A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding.
Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

Determination of Level of Honours Awards

The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of

the candidate's performance in all units and appropriate weight applied to the dissertation:

Honours 1 - First Class Honours
Honours 2A - Second Class Honours, Division A
Honours 2B - Second Class Honours, Division B
Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

Honours 1 - GPA 6.50-7.00, or equivalent
Honours 2A - GPA 5.50-6.49, or equivalent
Honours 2B - GPA 4.50-5.49, or equivalent
Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

Unsatisfactory Progress
Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:
- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

CRICOS	049433D + 009041G
Duration (full-time)	4 years
OP	1
Rank	99
Campus	Gardens Point
Domestic fee (indicative)	2012: CSP $2,873 per Semester
Total credit points	384 (BMaths 288 cp and BAppSc(Hons) 96cp)
Credit points full-time sem.	48
Start months	February Fixed Closing Date - 30 November 2011
Int. Start Months	February This course is only available to international students completing Year 12 in Australia.
Deferment	You can defer your offer and postpone the start of your course for one year
Course Coordinator	Mr Richard Thomas
Discipline Coordinator	A/Prof Dann Mallet 07 3138 2354 dg.mallet@qut.edu.au

Domestic Entry requirements 2012 applications and registrations have closed.

Applications at QTAC and submission of the online questionnaire with QUT for 2012 was due on the 30 November 2011 and have now closed. Late applications and/or questionnaire submissions will not be accepted.

Applicants are required to complete an online questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Physics
- Maths C
- Maths B
- English
- Chemistry

Assumed knowledge includes English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

International Entry requirements

International Students must have completed year 12 at an Australian school.

Applicants are required to complete a questionnaire, and may be required for interview by QUT Faculty of Science and Technology.

International Subject prerequisites

- Physics
- Maths C
- Maths B
- English
- Chemistry

Subject prerequisites include English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

Minimum english requirements

Students must meet the English proficiency requirements.

overall	6.5

Overview

The Dean's Scholars Program in Mathematics offers an enriched course of study, with an early introduction to mathematical research, for students who obtain outstanding levels of academic achievement at Secondary School. At the same time it provides the option of an accelerated pathway by which these students are able to complete the Bachelor of Mathematics course plus the Bachelor of Applied Science (Honours) course in a total of just three years.

Mathematics Dean's scholars are able to undertake research enrichment units and individually-tailored tutorial programs:

Sample Structure

- Year 3, Semester 1 (48 cp)
- Year 3, Semester 2 (48 cp)
- Year 4, Semester 1 (48 cp) and Semester 2 (48 cp)
- Notes:

Code	Title
Year 1, Semester 1 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (48 cp)	
Year 1, Semester 2 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB303	Tutorial Program for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 1 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB401	Research Methods for Dean's Scholars
Or other approved unit	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 2, Semester 2 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (48 cp)	
Year 3, Semester 1 (48 cp)	

Bachelor of Mathematics & Bachelor of Applied Science (Honours) - Dean's Scholars Honours Program

Dean's Scholars Program enrichment unit:	
SCB501-1	Research Project for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BAppSc Coursework (36 cp)	
Year 3, Semester 2 (48 cp)	
Dean's Scholars Program enrichment unit:	
SCB501-2	Research Project for Dean's Scholars
Normal BMaths and BAppSc(Hons) units: BMaths Coursework (36 cp)	
Year 4, Semester 1 (48 cp) and Semester 2 (48 cp)	
Normal BMaths and BAppSc(Hons) units: BAppSc(Hons) Coursework/Research (48 cp)	
Normal BMaths and BAppSc(Hons) units: BAppSc(Hons) Coursework/Research (48 cp)	
Notes:	
- The exact timing of Dean's Scholars Program enrichment units may be varied to suit the student's chosen program of study.	
- It is also possible to complete the program in 3.5 years using a combination of the 3 and 4 year structures. There is also flexibility for students to undertake Dean's Scholars Program enrichment units during the summer semesters between years 1 and 2, and years 2 and 3 to lighten regular semester study loads or to assist in acceleration.

Course update

From Semester One 2013 this course will not be available for commencing students. SC01 will only be available for continuing students. New students - please refer to ST01. Please contact sef.enquiry@qut.edu.au for any enquiries.

Overview

The Bachelor of Applied Science Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

Professional Recognition

As a graduate of the Bachelor of Applied Science Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Financial support

Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Course Structure

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following nine majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

Majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology, Physics.

Co-majors: Applied Geology, Astrophysics, Biodiversity, Chemistry for Industry, Life Science Technologies.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

SCB301 Science for Dean's Scholars
An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

SCB303 Tutorial Program for Dean's Scholars
An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

SCB401 Research Methods for Dean's Scholars
The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

SCB501 Research Project for Dean's Scholars
An individually tailored research project is carried out under the supervision of a research mentor.

Honours Program
Following the successful completion of the coursework and your initial research project in the first two years of the program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

Note:
The Faculty may wish to make your project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Overview

Through a combination of research and advanced coursework units, students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Course Design

The core of the honours program is a 36, 48, or 60 credit-point project (depending on your study area) that will provide students with the opportunity to learn about research by conducting a research project with an experienced researcher who acts as both supervisor and mentor. Students will learn the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

Note:
The Faculty may wish to make your honours project or thesis work available to other students undertaking Honours studies as an exemplar. As the copyright owner of the work you have created, the Faculty will respect your rights and will seek your authorisation to share your work.

Professional Recognition

Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

Course Structure

The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in chemistry, ecology, environmental science, geology, life science, mathematics and physics.

Domestic Course structure

Course Design

The core of the honours program is a 36, 48, or 60 credit-point project (depending on your study area) that will provide students with the opportunity to learn about research by conducting a research project with an experienced researcher who acts as both supervisor and mentor. Students will learn the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

Course Structure

The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in chemistry, ecology, environmental science, geology, life science, mathematics and physics.

International Course structure

Graduate Certificate In Built Environment and Engineering

Handbook

Year	2012
QUT code	BN85
CRICOS	060808G
Duration (full-time)	6 months
Duration (part-time domestic)	12 months
Campus	Gardens Point
Domestic fee (indicative)	2012: $9600 per Semester
International fee (indicative)	2012: $11600 per Semester
Total credit points	48
Credit points full-time sem.	48
Start months	February, July
Int. Start Months	February, July
Course Coordinator	ASPRO Bambang Trigunarsyah
Discipline Coordinator	Science and Engineering Faculty 3138 8822 sef.enquiry@qut.edu.au

Domestic Entry requirements

A four-year full-time bachelor degree in a relevant discipline area; or a three-year full-time diploma and three or more years of relevant professional experience in a relevant discipline; and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

International Entry requirements

A four-year full-time bachelor degree in a relevant discipline area; or a three-year full-time diploma and three or more years of relevant professional experience in a relevant discipline; and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Overview

This course serves as a preparation and pathway program for students wishing to enter a masters program in Engineering or Built Environment in the Science and Engineering Faculty. It is particularly aimed at students with either a three-year undergraduate degree, or a degree in a different area to the masters of their choice.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Special Note

The course structures are divided into two major categories: Standard program and UD50 Articulation program.
All students, except those intending to advance to UD50 Masters of Urban Development (Urban and Regional Planning), must follow the standard program.

Further Information

Science and Engineering Faculty - Phone +61 7 3138 8822, Email: sef.enquiry@qut.edu.au

Sample Structure

Code	Title
Full-time Structure - Year 1, Semester 1	
BEE Undergraduate Unit 1	
BEE Undergraduate Unit 2	
Other Faculty Postgraduate Unit A	
Other Faculty Postgraduate Unit B	
All units to be approved by Postgraduate Coordinator prior to enrolment.	
Part-time Structure	
A part-time course structure will require completion of 1 BEE undergraduate level unit and 1 Other Faculty postgraduate level elective unit each semester (50% of standard load as above.)	

Graduate Certificate in Engineering (Power Generation)

Handbook

Year	2012
QUT code	BX21
Duration (part-time domestic)	2 years
Campus	Gardens Point and University of Queensland
Domestic fee (indicative)	$3480 AUD per unit
Total credit points	48
Start months	Entry into this program is available throughout the year. For further details, contact sef.enquiry@qut.edu.au.
Course Coordinator	Professor Ted Steinberg
Discipline Coordinator	Science and Engineering Faculty 3138 8822 sef.enquiry@qut.edu.au

Domestic Entry requirements

- Bachelor of Engineering degree or equivalent as determined by the Faculty.
- Or Advanced Diploma with industry experience.
- Students with the degree qualification but who do not have second class honours may transfer after completing the Graduate Certificate provided they achieve a grade point average of 5 or more.
- Applicants must provide a letter of support from an industry that utilise power generation to be eligible to enter the program.
- Students who do not meet the entry requirements for the Master of Engineering (Power Generation) may be eligible to enrol in the Graduate Certificate in Engineering (Power Generation) as a pathway to the masters program.
- Students can also study individual power generation units through CPE

Minimum english requirements

Students must meet the English proficiency requirements.

Why study Power Generation

- Designed by industry experts and specialist staff at three of Australia's premier universities
- Study in a number of locations and a variety of formats to enable you to work full time and access the professional development easily
- Enhance your technical competency; increase your knowledge and skill set within the power generation sector
- Tailored program taught by industry experts
- Build a career in the dynamic power generation industry
- Study individual units through Continuing Professional Education .

Overview

Developed collaboratively by industry experts and specialist staff at three partner universities, the program is designed to meet the needs of the Australian power generation industry and its current and future workforce by capturing the knowledge and expertise of power generation engineers working in the power industry.

The program has been designed to enhance the technical competency of professional engineers and those working in Para-professional roles within the power generation sector through professional development.

Graduates will gain skills and knowledge in a range of areas related to the design, construction, maintenance and management of power generation. The degree offers both theoretical understanding and practical applications of advanced professional practice.

Study mode

The Graduate Certificate in Engineering (Power Generation) is delivered in intensive learning sessions on campus and generator sites. Units are delivered in a variety of formats and locations to enable those working in full-time roles to access the professional development easily.

Course Overview

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Graduate Certificate course has interfaculty contributions from the Faculties of Science & Engineering, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in the structure of this course through ten different majors:

• No Major
• Digital Environments
• Enterprise Systems
• Executive Information Practice
• Games Design
• Games Production
• Information Management
• Library and Information Science
• Network Management
• Security
• Software Architecture

The Graduate Certificate in Information Technology IT85 is an entry point that is nested within the IT43 Masters and IT44 Masters Advanced programs. Students who successfully complete the IT85 course may articulate to IT43 Masters or IT44 Masters Advanced Programs.

The IT85 Graduate Certificate in Information Technology does not provide a pathway to follow on with a research degree. However, students who graduate from the IT85 Graduate Certificate in Information Technology may articulate to the IT43 Master of Information Technology or IT44 Master of Information Technology Advanced coursework programs.

Course Structure

Students are required to complete 48 credit points of units. Please refer to the course structures for information on specific unit requirements for each major. This course may be taken over two semesters part-time. However if the timetable permits a student may complete this course full time in one semester.

Course completion rules

Students should meet the following requirements before they are able to complete the Graduate Certificate program:
• Students are required to complete 48 credit points of units.
• Students must complete the specific unit requirements for a graduate certificate in a major.

Students undertaking units from the MBA program (GSN units) in the Graduate School of Business (GSB) must meet the MBA entry requirements. Please see the GSB website for further information.

Further Information

Email: sef.enquiry@qut.edu.au

Domestic Course structure

Course design

This course allows students who might like exposure to a number of units across several specialisation areas to undertake 48 credit points from any postgraduate Information Technology units offered. This program suits students who are not looking to undertake a discipline-specific postgraduate program, but rather complementary studies. This study area is the most flexible of the areas offered and thus is the default for students who do not select any major.

International Course structure

Course design

This course allows students who might like exposure to a number of units across several specialisation areas to undertake 48 credit points from any postgraduate Information Technology units offered. This program suits students who are not looking to undertake a discipline-specific postgraduate program, but rather complementary studies. This study area is the most flexible of the areas offered and thus is the default for students who do not select any major.

Overview

These courses enable graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/ statistical modelling, quantitative analysis/financial mathematics and operations research.

These courses recognise that students may not have studied mathematics for some time.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from postgraduate mathematics units and up to 12 credit points can be taken from units other than mathematics units.

PCN224	Applied Lighting
Year 2, Semester 2	
PCN222	Advanced Lighting Design
PCN223	Lighting Applications
Course Notes	
PH72 is offered part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.	
Domestic students in the Graduate Diploma in Lighting (PH72) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Lighting (PH82).	
Students in the Graduate Diploma in Lighting (PH72) wishing to exit with the Graduate Certificate in Lighting (PH62) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.	
International students wishing to change courses should consult International Student Business Services.

Overview

This course offers students currently employed in industry the opportunity to upgrade their professional qualificiations in one of our science disciplines. The course is a one-year-full-time (or two-year-part-time) postgraduate qualification by coursework, or coursework and a minor research project.

Career Outcomes

Graduates find employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies, in careers such as medical physicists or biomedical engineers.

Course Design

This coursework program allows students to complete a minor research project of up to 36 credit points in some discipliines (as approved by the Academic Board). The assessed coursework may include advanced lectures, seminars, reading units or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Overview

This course offers an engineering management qualification to practising engineers through formal study in management and advanced engineering skills and knowledge. It provides graduates with analytical tools and methods required to improve operational efficiencies, typically within manufacturing and service organisations. It will prepare engineering graduates to take up management-level roles in operations management, quality control management, logistics or supply chain management.

Advanced Standing

Students completing two Masters courses in the following Master Courses - BN87, BN88, BN89, EN50(Systems), UD50 - will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

Master of Engineering (Power Generation)

Handbook

Year	2012
QUT code	BX20
Duration (part-time domestic)	4 years
Campus	Gardens Point and University of Queensland
Domestic fee (indicative)	$3480 AUD per unit
Total credit points	96
Start months	Entry into this program is available throughout the year. For further details, contact sef.enquiry@qut.edu.au
Course Coordinator	Professor Ted Steinberg
Discipline Coordinator	Science and Engineering Faculty 3138 8822 sef.enquiry@qut.edu.au

Domestic Entry requirements

Applicants for this course must possess a:

- Bachelor of Engineering degree
- and a grade point average of 5 or more (on a 7-point scale)
- or an equivalent qualification as determined by the Faculty.

Applicants must provide a letter of support and sponsorship from an industry with a power generation component to be eligible to enter this program. Sponsorship can range from the employer giving simple approval through to full payment of fees.

Students who do not meet the entry requirements for the Master of Engineering (Power Generation) may be eligible to enrol in the Graduate Certificate in Engineering (Power Generation) as a pathway to the masters program.

International Entry requirements

Please see the Continuing Professional Education Office or the Power Generation Skills Development for details of entry requirements.

Minimum english requirements

Students must meet the English proficiency requirements.

Why study Power Generation

- Designed by industry experts and specialist staff at three of Australia's premier universities
- Study in a number of locations and a variety of formats to enable you to work full time and access the professional development easily
- Enhance your technical competency; increase your knowledge and skill set within the power generation sector
- Tailored program taught by industry experts
- Build a career in the dynamic power generation industry
- Study individual units through Continuing Professional Education .

Study mode

The Master of Engineering (Power Generation) is delivered in intensive learning sessions on campus and generator sites. Units are delivered in a variety of formats and locations to enable those working in full-time roles to access the professional development easily.

Further Information

Please visit here to find out how to apply and for further information

Overview

Developed collaboratively by industry experts and specialist staff at three partner universities, the program is designed to meet the needs of the Australian power generation industry and its current and future workforce by capturing the knowledge and expertise of power generation engineers working in the power industry.

The program has been designed to enhance the technical competency of professional engineers and those working in Para-professional roles within the power generation sector through professional development.

Graduates will gain skills and knowledge in a range of areas related to the design, construction, maintenance and management of power generation. The degree offers both theoretical understanding and practical applications of advanced professional practice.

Early Exit Option

An early exit with BX21 - Graduate Certificate in Engineering (Power Generation) is available.

Domestic Course structure

Program structure

To obtain a Masters qualification, students must complete eight courses: five core courses and three electives. There is an option for students to exit with a Graduate Certificate award after completion of four courses (if requirements for a Graduate Certificate are met).

The Power Generation Masters program is built around five core courses:

- Introduction to Power Plant (QUT)
- Asset Management Systems (CQU)
- Rotating Machinery (UQ)
- Project Delivery (QUT)
- Regulation, Compliance and Safety (UQ)

Students can then choose three electives from the following list:

- Applied Thermodynamics (QUT)
- Advanced Power Plant (CQU)
- Plant Control Systems (UQ)
- Power Plant Chemistry (CQU)
- Bulk Materials and Waste Products (CQU)
- Industrial Electrical Power

Distribution (QUT)
- Plant Materials (CQU)
- Generator Technology Design and Application (UQ)
- Transformer Technology Design and Operation (UQ)
- Industrial Electrical Power Systems (QUT)
- Gas Plant and Systems (UQ)

For more information on any of the units from UQ or CQU visit the Power Generation Skills Development site.

International Course structure

Program structure

Students can undertake any of these units as one-off continuing professional development. International students can enrol in an award program at UQ or CQU.

Core units:
- Introduction to Power Plant (QUT)
- Asset Management Systems (CQU)
- Rotating Machinery (UQ)
- Project Delivery (QUT)
- Regulation, Compliance and Safety (UQ)

Elective units:
- Applied Thermodynamics (QUT)
- Advanced Power Plant (CQU)
- Plant Control Systems (UQ)
- Power Plant Chemistry (CQU)
- Bulk Materials and Waste Products (CQU)
- Industrial Electrical Power Distribution (QUT)
- Plant Materials (CQU)
- Generator Technology Design and Application (UQ)
- Transformer Technology Design and Operation (UQ)
- Industrial Electrical Power Systems (QUT)
- Gas Plant and Systems (UQ)

For more information on any of the units from UQ or CQU visit the Power Generation Skills Development site.

Sample Structure

Code	Title
Core units (QUT)	
EPG001	Introduction To Power Plant
EPG005	Project Delivery
PLUS select one unit from the Power Generation Unit Options. You will be granted 60cp of advanced standing based on completion of approved units from UQ and CQU.	
If you wish to undertake 24cp of this 60cp at QUT, please consult the faculty.	
Unit electives (QUT)	
EPG006	Applied Thermodynamics
EPG011	Industrial Electrical Power Distribution
EPG015	Industrial Electrical Power Systems

Master of Engineering (Railway Infrastructure)

Handbook

Year	2012
QUT code	BX30
CRICOS	External Study Only
Duration (part-time)	4 years
Domestic fee (indicative)	$3044 AUD per unit
International fee (indicative)	$3044 AUD per unit
Total credit points	96
Start months	February, July
Int. Start Months	February, July
Course Coordinator	Dr Martin Murray and Mr Mike Garrett
Discipline Coordinator	Science and Engineering Faculty 3138 8822 sef.enquiry@qut.edu.au

Domestic Entry requirements

Entry to this course is open to employees of companies conducting business in the railway industry and whose employer is prepared to sponsor or support their study of this course. That is, applicants must be working in the railway industry and have the support of their employer.

You will also need a four-year full-time bachelor degree in a civil engineering related field or a three-year full-time diploma and three or more years of relevant professional experience in the railway industry. You will also need a grade point average of 5.0 or more on a 7-point scale in that study, or an equivalent qualification determined by the Faculty. You must supply original copies of qualifications claimed in your application.

English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. If you obtained your qualifications overseas you may still require an IELTS or TOEFL test, even if you are now resident in Australia.

International Entry requirements

Entry to this course is open to employees of companies conducting business in the railway industry and whose employer is prepared to sponsor or support their study of this course. That is, applicants must be working in the railway industry and have the support of their employer.

You will also need a four-year full-time bachelor degree in a civil engineering related field or a three-year full-time diploma and three or more years of relevant professional experience in the railway industry. You will also need a grade point average of 5.0 or more on a 7-point scale in that study, or an equivalent qualification determined by the Faculty. You must supply original copies of qualifications claimed in your application.

Minimum english requirements

Students must meet the English proficiency requirements.

Why study Railway Infrastructure

- study part-time by flexible online learning – wherever you are in the world
- developed exclusively for engineers employed in the rail industry
- designed by Australian rail industry and academic personnel and fully endorsed by Rail Innovation Australia
- comprehensive best-practice learning material from one of the world's leading heavy haul nations
- study individual units through Continuing Professional Education .

Overview

Developed as a cooperative project between the rail industry and the Queensland University of Technology, this course captures the knowledge and expertise of civil infrastructure engineers working in the Australian rail industry. It is provided as a professional development program for people working in the rail industry. Graduates will gain skills and knowledge in a range of areas related to the design, construction, maintenance and management of railway infrastructure. The degree offers both theoretical understanding and practical applications of advanced professional practice.

Study Mode

The course is delivered via flexible online learning suitable for mature age students studying part-time and working full-time .There are no on-campus classes and you can complete the course from any location world-wide. You will study using a combination of online, CD and print material and submit assignments for assessment.

Further Information

Please visit here to find out how to apply and to register for the newsletter.

Early Exit Option

An early exit with BX31 - Graduate Certificate in Engineering (Railway Infrastructure) is available.

Assumed Knowledge

It is assumed upon entry to the Masters program that students are proficient in prerequisite knowledge relevant to the intended Study Area A:

• **Electrical Engineering:** students are assumed to be proficient in the general areas of electrical engineering, electronic engineering or relevant disciplines.
• **Mechanical Engineering:** students are assumed to be proficient in the general areas of mechanical engineering, metallurgy, materials or relevant disciplines.
• **Sustainable Energy:** students are assumed to be proficient in general engineering including electrical, mechanical and civil or relevant science disciplines.
• **Transport:** students are assumed to be proficent in general engineering, preferably with civil and transport related disciplines.

Course Structure

To graduate with a Master of Engineering students are required to complete 96 credit points (8 units) of course units.

a) 2 Core units + 2 Project units (of a specialisation area) + at least 3 electives with the same specialisation tag to claim Master of Engineering (Specialisation); or

b) 2 Core units + 2 Project units + any 4 electives to claim Master of Engineering, i.e. no specialisation (Students fulfilling the specialisation requirement may choose not to have a specialisation in the award title)

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Early Exit Options

Early exit with the Graduate Diploma in Built Environment and Engineering is available upon completion of the two core units ENN541 and ENN542 and any two Project or specialisation units in the course.

Professional Recognition

The Master of Engineering is a post-professional qualification and, as such, is beyond the usual qualifications required for membership of professional organisations.

overall	6.0

Please Note:

EN50 Master of Engineering (Systems) will not be offered after Semester 1 2012, and will be replaced by EN50 Master of Engineering with the following new majors:

Sample Structure

Code	Title
Year 1, Semester 1	
BEN610	Project Management Principles
ENN520	Advanced Signal Processing and Systems
ENN540	Engineering Optimisation
AMN435	Communication, Negotiation and Leadership
Year 1, Semester 2	
BEN710	Sustainable Practice in Built Environment and Engineering
BEN910	Integrated Project
ENN560	System Design
ENN580	Automated Control Systems

Master of Information Technology

Handbook

Year	2012
QUT code	IT43
CRICOS	003776E
Duration (full-time)	1.5 years
Duration (part-time domestic)	3 years

Domestic fee (indicative)	2012: $9400 per Semester
International fee (indicative)	2012: $11300 per Semester
Total credit points	144
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	February, July LIS part-time only in July
Int. Start Months	February, July
Course Coordinator	Dr Ross Hayward

Domestic Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• Evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

Domestic students:
Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Students:
International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• Evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

Domestic students:
Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Students:
International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Master of Information Technology

Course Overview

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Master of Information Technology course has interfaculty contributions from the Faculties of Science & Engineering, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in the structure of this course through ten different majors other than the "No Major" option:

- Software Architecture
- Network Management
- Enterprise Systems
- Games Production
- Games Design
- Security
- Library and Information Studies (Multi-modal)
- Information Management
- Digital Environments
- Executive Information Practice

The structure of this course is designed so that a student does not have to decide on a major until after the first semester. Elective and core units may be selected first. Students must generally complete the core unit and seven units from within their major. The only exception to this structure is in the Library and Information Studies major.

Students who complete the Master of Information Technology (IT43) may return to complete the Master of Information Technology (Advanced) (IT44) at a later date and claim credit for all units completed in IT43.

Electives:
Students can generally select up to 4 electives; again, the exception is in the Library and Information Studies major, where students can select no more than two electives.

Non-cognate students are recommended to select three Basic Elective Units as their electives.

Students wishing to use the Masters program as a pathway to a PhD program within QUT are recommended to select 4 advanced research or project units as their electives. These students are also advised to enrol in INN700 Introduction to Research as part of their major.

It is possible, for students who wish, to complete dual Master degrees. Students can receive up to four units of credit for a previous Masters degree as part of their elective unit block. Thus, they are only required to complete the major and core. Students may then receive their Masters degree from the Science and Engineering Faculty in two semesters.

Students undertaking units from the MBA program (GSN units) in the Graduate School of Business (GSB) must meet the MBA entry requirements. Please see the GSB website for further information.

The Library and Information Studies major is offered in multimodal delivery allowing students to complete their studies either face-to-face or online.

Online Delivery

The Library and Information Studies major is offered in multimodal delivery allowing students to complete their studies either face-to-face or online.

The Executive Information Practice major is offered in external mode allowing students to complete their studies online.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters program:

- Students are required to complete 144 credit points of units.
- Students are required to complete the specified core unit.
- Students wishing to specialise must complete the specific unit requirements for a major.
- Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
- Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points

Further Information

For further information about this course, please contact:

Ross Hayward

Email: sef.enquiry@qut.edu.au

Domestic Course structure

Course design

This course allows students who might like exposure to a number of units across several specialisation areas to undertake 84 credit points from any postgraduate Information Technology units offered. This program suits students who are not looking to undertake a discipline-specific postgraduate program, but rather complementary studies. This study area is the most flexible of the areas offered and thus is the default for students who do not select any major.

International Course structure

reading	6.0
listening	6.0
overall	6.5

Career Progression

Graduates of Executive Information Practice will take on key positions in middle and high level management in a broad range of industries. While the career outcomes from the major are limited only by the drive and imagination of the graduates, key positions could include chief information officer, IT program manager, library director, cultural services manager or senior librarian.

Special entry requirements

Executive Information Practice has core units from the MBS and as such must also meet the MBA entry requirements:
- Demonstrate competency in the English language
- Have a GMAT score of at least 500
- Have at least three years work experience
- At least 10 points from at least two of the three categories - prior work experience, academic achievement and management aptitute

For further information, including details regarding the allocation of points, please see the table at http://www.bgsb.qut.edu.au/study/entryreq/

Course completion rules

Students should meet the following requirements before they are able to complete the Masters program:
• Students are required to complete 144 credit points of units.
• Students are required to complete the specified core unit.
• Students wishing to specialise must complete the specific unit requirements for a major.
• Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points

Domestic Course structure

Course design

This major is where the Master of Business Administration (MBA) meets IT, with MBA units incorporated into the course. This is the first Australian qualification designed to meet the needs of mid-career information and IT professionals who are seeking to advance their career opportunities. Very few qualifications provide the opportunity for midcareer professionals to further develop and refine their information and IT skills and knowledge while also having the opportunity to acquire a working knowledge of management practice.

Core units are offered by the areas of IT and business. You are able to study units in marketing, international business, accounting, public administration and evidence-based practice along with information security, systems and networks, information management, interaction design, data mining, and library and information science.

Those interested in pursuing a Master of Business Administration at QUT are eligible for advanced standing towards the qualification, making this major an excellent pathway to the MBA.

Domestic Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• Evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

Domestic students:
Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Students:
International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

Professional Recognition
Graduates from the specialisation will be eligible for associate membership of the Australian Library and Information Association (ALIA).

Course completion rules
Before they are able to complete the Masters program:
• Students are required to complete 144 credit points of units.
• Students are required to complete the specified core unit.
• Students wishing to specialise must complete the specific unit requirements for a major.
• Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Online delivery
The Library and Information Science major is offered in multimodal delivery allowing students to complete their studies either face-to-face or online.

Early exit options
Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points.

Domestic students:
Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Students:
International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)

OR

• Evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

Domestic students:
Domestic students who have completed an undergraduate degree (in any field) with a minimum grade point average (GPA) of at least 4.5 (on a 7-point scale) are eligible for the programs described in this proposal.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

International Students:
International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Applicants without an undergraduate degree in Information Technology (or equivalent) are recommended to select 3 Basic Elective Units as their electives. These electives are to be taken at the beginning of their studies.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Master of Information Technology (Network Management)

Course completion rules

Students should meet the following requirements before they are able to complete the Masters program:
• Students are required to complete 144 credit points of units.
• Students are required to complete the specified core unit.
• Students wishing to specialise must complete the specific unit requirements for a major.
• Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points.

Description

Information technology is now firmly ensconced in society with all the other business practices that constitute modern organisations. This Master of Information Technology (Advanced) course has interfaculty contributions from the Faculties of Science & Engineering, Business, Creative Industries and Law, matching closely to their relevant IT research areas. Recognition of the burgeoning of specialised areas within the Information Industries is reflected in course structures that provide for ten different majors other than the "No Major" option:

• Software Architecture
• Network Management
• Enterprise Systems
• Games Production
• Games Design
• Security
• Library and Information Studies
• Information Management
• Digital Environments
• Executive Information Practice

The structure of this course is designed so that a student does not have to decide on a major until after the first semester. Elective and core units may be selected first. Students must generally complete the core unit and seven units from within their major. The only exception to this structure is in the Library and Information Studies major.

Electives:
Students can generally select up to 4 electives; again, the exception is in the Library and Information Studies major, where students can select no more than two electives.

Non-cognate students are recommended to select three Basic Elective Units as their electives.

Advanced Research Units (Complementary Studies):
Students who enrol in the Masters Advanced program must complete four advanced research or project units. It is recommended that students complete advanced research and project units in the latter half of their course.

Students wishing to use the Masters Advanced program as a pathway to a PhD program within QUT are advised to

enrol in INN700 Introduction to Research as part of their major and take INN701 Advanced Research Methodologies as an elective.

It is possible for students to complete dual Master degrees. Students can receive up to four units of credit for a previous Masters degree as part of their elective unit block. Thus, they are only required to complete the major and core. Students may then receive their Masters degree from the Science and Engineering Faculty in two semesters.

Students undertaking units from the MBA program (GSN units) in the Graduate School of Business (GSB) must meet the MBA entry requirements. Please see the GSB website for further information.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Domestic Course structure

Course design

This course allows students who might like exposure to a number of units across several specialisation areas to undertake 84 credit points from any postgraduate Information Technology units offered. This program suits students who are not looking to undertake a discipline-specific postgraduate program, but rather complementary studies. This study area is the most flexible of the areas offered and thus is the default for students who do not select any major.

Overview

Web technologies and applications are reshaping contemporary organisations. This major allows you to study how developments in IT shape society through applications like FaceBook, MySpace, Second Life, Smart Phones, iPods and gaming devices.

This major has been designed to meet the needs of professionals and organisations seeking to harness the benefits of social computing to advance business goals. Students will explore the ways in which IT has altered the production of knowledge, community building collaboration and the design and delivery of organisational activities and services. This major is aimed at professionals and organisations seeking to be not just IT-savvy users but leaders and innovators.

Why study this Major?

Increasingly, web 2.0 technologies such as wikis, blogs and social networks are being used within organisations. A future trend will see successful contemporary professionals and organisations requiring expertise in not just business and management practice but in the critical design, use and consequences of new and emerging social technologies. The Digital Environments major represents a new and emerging field for the IT discipline. It symbolises the growing interlink between IT, business and society.

Career Progression

Graduates from the Digital Environments major will find positions in a broad range of industries and will be well placed to contribute to organisational success. Some key positions include online community manager, social network analyst, community organiser, e-marketer, web analyst, systems administrator, IT project manager, application developer, web developer, communications and marketing manager, IT manager, web manager, knowledge manager, IT analyst, technology officer, technology consultant.

Course completion rules

Course completion rules
Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.

• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Overview

This major is where the MBA meets IT: Master of Business Administration units are incorporated into this course. It is the first Australian qualification designed to meet the needs of mid-career information and IT professionals who are seeking to advance their career opportunities. Very few qualifications provide the opportunity for mid-career professionals to further develop and refine their information and IT skills and knowledge while also having the opportunity to acquire a working knowledge of management practice.

Core units are offered by the areas of IT and business. You are able to study units in marketing, international business, accounting, public administration and evidence-based practice along with information security, systems and network, information management, interaction design, data mining and library and information science.

Those interested in pursuing a Master of Business Administration at QUT are eligible for advanced standing towards the qualification, making it an excellent pathway to QUT's Master of Business Administration (MBA).

Why study this Major?

Australia needs information and IT leaders who will help shape the future of our nation's information-rich and technology-driven economy.

Graduates of this course will possess a comprehensive working knowledge of contemporary management issues, advanced-level information and IT skills and the communication and leadership abilities essential for the executive or management role.

Career Progression

Graduates of Executive Information Practice will take on key positions in middle and high level management in a broad range of industries. While the career outcomes from the major are limited only by the drive and imagination of the graduates, key positions could include chief information officer, IT program manager, library director, cultural services manager or senior librarian.

Master of Information Technology (Advanced) (Executive Information Practice)

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Overview

This course focuses on developing the design and storytelling skills required to create games and interactive technology. You will have the opportunity to develop and apply these skills to your own discipline area. You will develop advanced project management skills together with the capability to analyse design and requirements appropriate to interactive environments, taking into consideration such aspects as the type of interaction required for your targeted users and the social implications of that interaction. You will also have the opportunity to research and apply the most up-to-date methods and techniques in this discipline. This course allows current industry members to take those skills that they have already acquired and extend them to support career development.

Why study this Major?

As entertainment technologies improve so do the expectations of the users of these technologies. Entertainment technologies have expanded to other applications such as education, simulation, training and more. Young people are growing up in a world of three-dimensional virtual environments. This course gives people within industries not traditionally related to entertainment the opportunity to develop skills within this area to enhance interactive techniques applicable to their own discipline. It allows members of unrelated industries to take the skills developed over many years in the interactive entertainment industries and apply them within a different context.

Career Progression

This postgraduate course allows a graduate to learn the process of designing games even when their profession is not in the games industry, e.g. education, training and simulation. A career outcome includes a games or simulation designer.

Course completion rules

before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of

specialisation must complete the specific unit requirements for a major.

Overview

This course focuses on developing managerial skills required to produce games; that is, the management of a team and the production of an interactive project. You will establish an understanding of the production process and the skills relating to the management of a team of people in a creative environment. You will also have the opportunity to gain hands-on experience in this endeavour through the supervision of undergraduate final-year project teams from project inception to completion.

Why study this Major?

As the video games and related industries develop, so does the need for people within those industries, to enhance their skills beyond the technical to production and management. The Games Production stream has been developed to meet the skill sets required at higher management levels. It allows current industry members to take those skills that they have already acquired and extend them to support career development.

Career Progression

Games production is an exciting multibillion dollar emerging industry. Careers include game/simulation developer or game/simulation producer. If you already work in the games or related industries, you could progress your career to management or executive-level positions.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Domestic Entry requirements

Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• the Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)
OR
• evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

International Entry requirements

Entry requirements

To be eligible for this Masters Coursework program, students must meet one of the following criteria:

• the Australian equivalent of a bachelor's degree in any discipline with a grade point average of at least 4.5 (on a 7-point scale)
OR
• evidence of recognised prior higher learning in the field of Information and Information Technology (e.g. at least five years of relevant full-time work experience). Industry certification alone is not sufficient evidence.

International students must complete the above requirements and also achieve an IELTS overall band score of 6.5 or more with no sub-band below 6.0.

International students with an IELTS overall band score between 6.0 and 6.5 with no sub-band below 5.0 are permitted to complete communication units offered by QUT International College as elective units within their Masters degree. These units must be successfully completed in the first semester of the Masters program.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

The Information Management major provides you with the skill and knowledge to find employment in the information and knowledge management industry. You will gain awareness of the activities in which information management professionals are engaged, in various organisational contexts. You will have the opportunity through electives to tailor your learning to specific contexts such as health services, educational settings, creative industries and information technology.

You will develop skill and knowledge in information management including the alignment of enterprise information and business planning, enterprise information policy, evaluation of information resources and systems, and the design, delivery and evaluation of information services to meet client or organisational needs.

Why study this Major?

Information is now viewed as one of the most significant assets in an organisation. The ability to obtain and manage information on an ongoing basis is an important component of competitive success. Internal and external information resources are used constantly in any organisation. Information managers help organisations to more effectively interact with and utilise information for business development and success. Information managers require the knowledge and expertise to design, plan, develop, manage and evaluate information services to meet the information needs of their organisation.

Career Progression

Careers include information broker, information manager, knowledge manager, database manager, webmaster, information architect, information coordinator, policy officer, research analyst, information services manager, document manager, metadata analyst, community information officer or learning resources officer.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.

• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Overview

The Library and Information Studies major provides graduates with the skills to find employment in the library and information industry. You will acquire the knowledge and expertise required to design, plan, develop, manage and evaluate library and information services to meet the information needs of clients.

This major is offered in a flexible delivery mode, allowing students to complete their studies either face-to-face or online.

Why study this Major?

Libraries play a vital role in our information society. They help to connect people with the ever changing world of information. Librarians help individuals to more effectively interact with, and use, information in all aspects of their lives. Librarians require the knowledge and expertise to design, plan, develop, manage and evaluate library and information services to meet the information needs of their clients and assist them to become information literate. This course provides the core skills and knowledge required by the successful librarian in today's information-rich and technology-driven age.

Professional Recognition

Graduates from the specialisation will be eligible for associate membership of the Australian Library and Information Association (ALIA).

Career Progression

Careers include librarian, information broker, information manager, knowledge manager, database manager, webmaster, information architect, information coordinator, policy officer, research analyst, corporate librarian, information services manager, document manager, web librarian, metadata analyst, specialist liaison librarian, community information officer, cataloguer, digital library coordinator, systems librarian, law librarian, learning resources officer or library media specialist.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the

specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Overview

The Network Management major provides the practical skills and the theory to make you a more effective network manager. It offers in-depth study of emerging network management issues such as security, network monitoring and high availability design.

You will gain up-to-date technical skills for the administration and management of computer networks using an environment that is currently used in industry as well as the theory and practical aspects of network administration and management. Network Management graduates are required to plan either new networks or the upgrading of existing networks. You will be exposed to methodologies and procedures that are useful in addressing the issues involved in network planning and management. Ensuring that the network is secure is a theme that is maintained throughout the course.

Why study this Major?

Computer networks are essential for the running of today's organisations. Employees spend an ever increasing amount of time remote from their individual workspace. This has led to organisations seeking to deploy appropriate networks that allow real-time access to the corporate network anywhere around the world. The scope of the field of data communications and networks is constantly changing. Voice and data networking technologies are converging to provide more advanced systems with additional functionality and efficiencies. To ensure the effective and efficient operation of computer networks, they need to be designed, deployed and administered by competent technical people, which is why the Faculty has a dedicated major in this field.

Career Progression

Careers include business analyst, systems analyst, systems manager, data communications specialist, network administrator, network manager or Internet professional.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.

• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.

Overview

This course offers advanced studies in information security, both in the business and technical sense. You are introduced to a range of information security issues and its broad context; the people, processes and technologies involved with interacting in this new online era. You will explore these topics through participation in the form of projects (research related and industry related) and practice in the community (small groups focusing on particular advanced topics). You will be exposed to the research and industry best-practice environment within QUT's Information Security Institute (ISI) through collaboration with its staff and students. Students will graduate with an understanding and appreciation of what it means to be a security professional in contemporary global environments.

Why study this Major?

IT systems are increasingly used to store, process and exchange information ranging from e-commerce applications to critical infrastructure such as utilities, financial institutions, transport and telecommunications networks. Security breaches are routinely reported in the mainstream media, making security assurance no longer a choice but a requirement. Associated with this increased awareness and organisational compliance requirement is a growth in demand for IT personnel with management expertise and technical skills in information security.

Career Progression

Careers include information security specialist, information consultant, information assurance professional, information manager and progression to research career in information security.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of specialisation must complete the specific unit requirements for a major.

Overview

This major will enhance your capabilities as a software developer. It will provide you with an understanding of the issues, structure and technologies used for developing software architectures. The course will provide you with the theoretical and practical skills needed to develop enterprise critical applications using state-of-the-art technologies. A comparative technology approach is taken, including an analysis of how software development technologies have evolved to date, in order to identify common themes and to better enable you to comprehend and critically evaluate future software technology offerings.

Why study this Major?

A software architect is responsible for the high-level design and structure of an IT system. The systems developed by a software architect form a key part of the critical infrastructure of an organisation and the architect must balance a wide range of issues such as response time, portability, scalability and availability when designing solutions for a client. Consequently the software architect needs a thorough understanding of advanced software development techniques and technologies and how to take advantage of modern development environments and languages.

Understanding how and why programming approaches enable greater efficiency and flexibility is essential for graduates working in the IT industry. There are a wide variety of technologies available for developing software applications and they are continuing to evolve at a rapid pace.

Career Progression

Careers include business analyst, electronic commerce developer, internet professional, multimedia designer, senior programmer, software engineer or systems programmer.

Course completion rules

Students should meet the following requirements before they are able to complete the Masters Advanced program:
• Students are required to complete 192 credit points of units.
• Students are required to complete the specified core unit.
• Students seeking a single area of

specialisation must complete the specific unit requirements for a major.
• Students not seeking a single area of specialisation may graduate with no major.
• Students must complete 48 credit points of project or advanced research units.
• Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

Early exit options

Students enrolled in this course may be eligible to exit their courses with a Graduate Certificate (IT85), after successful completion of an approved 48 credit points, or with a Graduate Diploma (IT37), after successful completion of an approved 96 credit points, or with a Masters (IT43) after successful completion of an approved 144 credit points.

Domestic Course structure

Course completion rules

Before they are able to complete the Masters Advanced program:

- Students are required to complete 192 credit points of units.
- Students are required to complete the specified core unit.
- Students seeking a single area of specialisation must complete the specific unit requirements for a major.
- Students not seeking a single area of specialisation may graduate with no major.
- Students must complete 48 credit points of project or advanced research units.
- Students may be allowed to take up to four units of electives. These units may be selected from postgraduate units outside of the Science and Engineering Faculty.

International Course structure

Course Overview

The Master of Business Process Management will provide graduates with the skills and knowledge to create and align information systems to effectively support business and enable business strategy.

The program examines business-IT alignment issues through appropriate theory and skill development, and provides career enhancement opportunities into senior management and governance roles.

Students may undertake study in the areas of corporate systems and business process management, IT professional services (including project management and IT consulting), enterprise architecture and systems, and information and knowledge management within business processes.

Course Structure

Students may be eligible to receive a Graduate Certificate in Business Process Management after completing 48 credit points (4 units) consisting of the four specified units.

Students may also be eligible to receive a Graduate Certificate in Corporate Systems Management after completing 48 credit points (4 units) consisting of the four specified units.

Unit Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:
Postgraduate Translation Table
If you have completed the unit(s) listed under the “Translation Unit Codes” column, you are not permitted to enrol in the listed new code.

Further Information

International Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

Sample Structure

speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Overview

This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics and operations research. This course recognises that students may not have studied mathematics for some time.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from advanced postgraduate mathematics units. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

Further Information

For further information about this course, please contact:

Troy Farrell (Course Coordinator) or
James McGree (Assistant Course Coordinator)
Phone: +61 7 3138 8822
Email: sef.enquiry@qut.edu.au

Master of Cardiac Ultrasound

Handbook

Year	2012
QUT code	PH85
Duration (part-time domestic)	3 years
Domestic fee (indicative)	2012: $7600 per Semester
Total credit points	144
Credit points full-time sem.	48
Credit points part-time sem.	24
Dom. Start Months	February, July February: Early Closing Date - 1 December 2011. Stage 1 of this course commences in February and July (students with advanced standing). Stage 2 commences in February and July 2012.
Course Coordinator	Bonita Anderson
Discipline Coordinator	07 3138 1938 medicalradiations@qut.edu.au

Domestic Entry requirements

To be eligible for admission, an applicant:

· will normally have a diploma level qualification with a minimum of 5 years clinical experience in cardiac ultrasound degree or a bachelor degree in a relevant science or allied health field

· must provide written proof of a minimum of three months full-time equivalent prior supervised, hands-on clinical experience in cardiac ultrasound

· must have access to suitable clinical experience for the duration of the course.

July entry into the Master of Cardiac Ultrasound is available only to students who have completed the Graduate Diploma in Cardiac Ultrasound or students with advanced standing.

Advanced standing is granted to students who hold the Diploma in Medical Ultrasonography (Cardiac) awarded by the Australasian Society for Ultrasound in Medicine. An appropriate program of coursework should be discussed with the course coordinator.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0

Sample Structure

Semesters

- STAGE 1: Students must complete the units listed below, totalling 96 credit points:
- Year 1, Semester 1
- Year 1, Semester 2
- Year 2, Semester 1
- Semester 2, Semester 2
- STAGE 2:* Students must complete the units listed below, totalling 48 credit points:
- First Semester ** (Project Over Two Semesters)

Code	Title
STAGE 1: Students must complete the units listed below, totalling 96 credit points:	
Year 1, Semester 1	
PCN155	Cardiac Ultrasound 1
PCN162	Principles of Medical Ultrasound
PCN497-1	Clinical Attachment 4
Year 1, Semester 2	
PCN259	Cardiac Ultrasound 2
PCN497-2	Clinical Attachment 4
Year 2, Semester 1	
PCN218	Research Methodology and Professional Studies
PCN359	Cardiac Ultrasound 3
PCN597-1	Clinical Attachment 5
Semester 2, Semester 2	
PCN459	Advanced Cardiac Ultrasound
PCN597-2	Clinical Attachment 5
The PCN497 and PCN597 clinical attachment units are 2 semester units.	
STAGE 2:* Students must complete the units listed below, totalling 48 credit points:	
First Semester ** (Project Over Two Semesters)	
PCN640-1	Project
PCN640-2	Project
Course Notes	
Notes: A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.	
A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.	

* Masters project units are offered in both semesters.
** Second Semester enrolments for PH85 will only be accepted under the following circumstances:
1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.
2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester.#
Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).
Students in the Master of Cardiac Ultrasound (PH85) wishing to exit with the Graduate Diploma in Cardiac Ultrasound (PH75) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

Handbook

Year	2012
QUT code	UD50
CRICOS	060809F
Duration (full-time)	1 year
Duration (part-time)	2 years
Campus	Gardens Point
Domestic fee (indicative)	2012: $8,800 per Semester
International fee (indicative)	2012: $12,000 per Semester
Total credit points	96
Credit points full-time sem.	48
Start months	February, July
Int. Start Months	February, July
Course Coordinator	ASPRO Tan Yigitcanlar
Discipline Coordinator	Science and Engineering Faculty 3138 8822 sef.enquiry@qut.edu.au

Domestic Entry requirements

A four-year full-time bachelor degree in a relevant urban development discipline area and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

International Entry requirements

A four-year full-time bachelor degree in a relevant urban development discipline area and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty. English language requirements for the course are an English Language Proficiency level in accordance with QUT requirements (IELTS score of 6.0 with no sub-band below 6.0) if English is not your first language. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.0

Professional Recognition

Students completing the Graduate Certificate in Built Environment and Engineering, with appropriate unit selection, and the Master of Urban Development (Urban and Regional Planning), will be eligible for graduate membership of the Planning Institute of Australia.

International Student Entry

International students must maintain an enrolment program that will allow them to complete their course within the specified timeframe of their eCoE (electronic Confirmation of Enrolment).

Advanced Standing

Students completing two Masters courses in the following Master Courses - BN87, BN88, BN89, EN50(Systems), UD50 - will be eligible to apply for a maximum of 24 credit points advanced standing in the second course on the basis of common units already completed. Such students will be required to complete a minimum of 72cp to be determined in consultation with the nominated Course Leader, to achieve the second Masters.

Domestic Entry requirements

To be eligible for this course, applicants must have:

· an approved degree in information technology from a recognised tertiary institution or an equivalent qualification, with a grade point average of 5 (on a 7-point scale), or

· an approved degree from a recognised tertiary institution plus evidence of professional experience and skills to satisfy the Academic Board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

In addition to assessing qualifications, the Faculty must also be satisfied that adequate supervision and resources are available to support the applicant's proposed research.

Research Areas

Areas of research interest and contact details can be obtained from the Faculty website

Course Structure

Students entering the degree with second-class honours division A (or better) in an IT-related course will often complete the degree in one year full-time. The length of the program is generally expected to be 18 months full-time (including six months of provisional registration) or three years part-time (including one year of provisional registration).

Assessment for this research masters is based on a program of supervised research and investigation, culminating in a thesis.

Programs may include some coursework in support of the conduct of research and preparation of a thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

Course Design

This degree consists of coursework that can comprise up to one-third of the course and research, which must be at least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or equivalent substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

Overview

The objectives of this course are to:

Sample Structure

reading	6.0
listening	6.0
overall	6.5

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:
. a relevant first or second class division A honours degree or equivalent, or
. an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:
• have a grade point average of at least 5.0 on a 7 point scale and
• present evidence of research experience and potential for approval
English language proficiency requires International applicants to meet an IELTS overall bandscore of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE
Acceptable forms of evidence include:
- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography

Domestic Entry requirements

To be eligible for this course, applicants must have industry experience in a field relevant to the professional doctorate and possess one of the following:

· a four-year degree or its equivalent with first-class or second-class honours division A

· a masters degree

· a three-year bachelor degree and industry experience

· an equivalent combination of experience and/or education and training.

Students with exemplary professional practice and who do not meet one of the above criteria may still be eligible to apply and should consult the course coordinator.

Before submitting an application for enrolment, potential candidates should consult the course coordinator for assistance with preparation of the appropriate application form concerning eligibility and special interests.

International Entry requirements

To be eligible for this course, applicants must have industry experience in a field relevant to the professional doctorate and possess one of the following:

· a masters degree

· a three-year bachelor degree and industry experience

· an equivalent combination of experience and/or education and training.

Students with exemplary professional practice and who do not meet one of the above criteria may still be eligible to apply and should consult the course coordinator.

Before submitting an application for enrolment, potential candidates should consult the course coordinator for assistance with preparation of the appropriate application form concerning eligibility and special interests.

Minimum english requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	6.0
writing	6.0
reading	6.0
listening	6.0
overall	6.5

Course Structure

The degree consists of 288 credit points of which up to 96 credit points are coursework, and the balance is research. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice. The Doctor of Information Technology will provide focused research and coursework studies in the IT's research areas.

Research Area

Areas of research interest and contact details can be obtained from the Faculty website.

Further Information

This is an indicative course structure only. Students should discuss their program with the Course Coordinator.	
Year 1, Semester 1	
PG coursework elective unit	
PG coursework elective unit	
PG coursework elective unit	
INN690	Minor Project 1
Allows you an opportunity to extend your knowledge in related fields, improve your understanding of project management, develop venture capital, leadership competencies or to lead research groups.	
Coursework should normally be completed within the first year, subject to unit availability. Variations to this would be made in consultation with your supervisory team.	
Year 1, Semester 2	
INN700	Introduction To Research
A literature review of the related theory.	
INN691	Minor Project 2
A literature review of the relevant reseach methods and approaches that may be of use.	
INN701	Advanced Research Topics
A pilot study of the selected theory and method to a subset of the problem in order to test the efficacy of the methods and theories selected.	
INN692	Minor Project 3
Students construct an integrated research proposal.	
Year 2 to Year 3	
Computer Science

Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

i) fulfil the Foundation course requirements,
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass)]. SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science – Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)AND an IELTS of 7.0 (no subscores less that 6.0), and
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty

Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering - Required GPA 4.6
Health - Human Services - Required GPA 4.2
Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6
Health - Nutrition & Dietetics - Required GPA 5.8
Health - Optometry - Required GPA 5.8
Health - Podiatry - Required GPA 5.8
Health - Psychology - Required GPA 5.0
Law (except Justice Studies) - Required GPA 4.8
Law - Justice Studies - Required GPA 4.2
Science & Technology (except IT, Pharmacy & Medical Imaging Technology) - Required GPA 4.6
Science & Technology - Information Technology - Required GPA 4.8
Science & Technology - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

overall	6.5

Course Description

The QUT Study Abroad Certificate is awarded to students who complete one semester of an approved study program. To be eligible, you must successfully complete credit points with a minimum grade of 4 in each unit. These subjects can be used for 48 academic credit at your home institution (subject to approval by the home institution).

What can I study?

You can select from a comprehensive range of QUT subjects and custom-design your program to suit your interests and meet the requirements of your home university. You can choose from over 2200 units, including well over 300 pre-approved units for Study Abroad and Exchange students, in Built Environment and Engineering, Business, Creative Industries, Education, Health, Law, Justice and Science and Technology.

Entry Requirements

To be eligible for the Study Abroad program you need:

• a minimum one year of full-time study at a recognised university (this criteria applies to a majority of applicants however, high school students from some countries may meet the entry requirements).

• a GPA (Grade Point Average) of 2.5 or better (on a 4-point scale) or equivalent.

• an English Language Proficiency level in accordance with QUT requirements* if English is not your first language (QUT requirements are an IELTS overall score of 6.5 with no less than 6.0 in the sub-bands, or a TOEFL score of 575, or a computerised TOEFL score of 230).

* You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language subject or one or more Communication subjects.

If students meet academic entry requirements but do not meet English requirements please email studyabroad@qut.edu.au for alternative entry options.

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
speaking	5.0
writing	5.5
reading	5.5
listening	5.0
overall	5.5

Entry Requirements - Academic

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or

2. Degree Entry (IELTS 6.5) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with reading and writing no less than 5.5 and no other sub-band less than 5 (or approved equivalent); OR

3. Degree Entry (IELTS 6.0) - Produce original documentary evidence of an IELTS score with an overall minimum of 5.5 with no sub-band less than 5 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Progresssion

Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

IELTS Academic Overall 5.0 with Writing 5.0 and Reading 5.0 IBT TOEFL Overall of 60 with Writing 18 and Reading 18

Entry Requirements - Academic

To be eligible for entry, applicants must have:

1. A conditional offer for a QUT degree program. Students without a conditional offer who wish to improve their academic English may also apply if they meet the English language entry requirements.

OR

2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-scores of at least 5.0 (or approved equivalent). Students will also sit a placement test at the beginning of their course.

* You should check the English language requirements for a Student Visa from your country of origin.

Description

EAP Plus has been specifically developed for students who wish to commence their entry into an English for Academic Purposes course earlier. Successful applicants can enter the course at pre-intermediate level and immediately begin developing their English language and study skills in an academic context.

EAP Plus enables students to begin developing their English language and study skills in an academic context from a pre-intermediate level. The course aims to prepare students to attain the level of proficiency required for gaining entrance to, and succeeding in QUT undergraduate and postgraduate award programs. EAP Plus courses include:

- Academic reading and note-making
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computing and Internet skills
- Library research

During the first 12 weeks of the EAP Plus course, students will develop their paragraph writing, reading, listening and note-taking skills through theme-based topics at an introductory academic level, along with speaking and oral presentation skills in a highly-supported environment. Weekly grammar, paraphrasing and vocabulary development supports the reading, writing and note-taking components. Reading skills are also enhanced via extended reading practice and specific reading skills lessons.

The second half of the course will further develop independent study skills enabling students to operate effectively in an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

EAP Plus has its own internal assessment consisting of exams and assignments, and successful students will meet QUT's English language requirements.

Course Completion

To be eligible to receive EAP Plus Certificate at the end of the course, studfents must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression

Successful completion of the EAP Plus course provides a pathway into QUT undergraduate and postgraduate award programs for students who meet the academic requirements for these programs.

Domestic Course structure

Course structure

The Graduate Certificate in Research Commercialisation is designed to develop the skills and capacity to identify the commercial potential of your research. This includes the development and implementation of a strategy and business plan for commercialisation. You may also choose to develop skills in project managing your research, leadership, entrepreneurship or managing your research career. You can also build knowledge foundations in research and development (R&D) management and the relationship between research and public policy.

Course Enquiries

research.enrolment@qut.edu.au
This course is offered jointly by the 5 ATN universities - Curtin University of Technology ; Queensland University of Technology; RMIT University; University of South Australia ; University of Technology Sydney

Part-time students

Part- time students can enrol in one or two units per semester for up to six semesters maximum.

Early Exit Options

Graduate Certificate and Diploma exit points are available following completion of four and eight units.

Advanced Standing

Students with appropriate prior qualifications and/or professional experience may apply for advanced standing of up to 48CP towards the Master of R&D Management.
Recognition for concurrent Professional Development activities may be possible.
Registered members of professional societies may be eligible to receive advanced standing for approved professional development activities completed during enrolment in the award.

Concurrent Enrolment

Research students are allowed to enrol concurrently in the Graduate Certificate and in their research course subject to the approval of the Research Degrees Committee.
Research students may apply for leave of absence from their research course for the period of full time enrolment in the Graduate Certificate.
For further information relating to enrolment into a Research and Development Course, including pathways, please refer to Research and Development Courses - Enrolment website

Domestic Course structure

Course structure

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research management leaders, administrators and active researchers in corporations, universities and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in research management and commercialisation. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you and, where possible, undertaking assessment through workplace-based projects.

Students enrolled in the masters-level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

Course Description

The QUT Study Abroad Certificate is awarded to students who complete one semester of an approved study program. To be eligible, you must successfully complete credit points with a minimum grade of 4 in each unit. These subjects can be used for 48 academic credit at your home institution (subject to approval by the home institution).

What can I study?

You can select from a comprehensive range of QUT subjects and custom-design your program to suit your interests and meet the requirements of your home university. You can choose from over 2200 units, including well over 300 pre-approved units for Study Abroad and Exchange students, in Built Environment and Engineering, Business, Creative Industries, Education, Health, Law, Justice and Science and Technology.

Entry Requirements

To be eligible for the Study Abroad program you need:

• a minimum one year of full-time study at a recognised university (this criteria applies to a majority of applicants however, high school students from some countries may meet the entry requirements).

• a GPA (Grade Point Average) of 2.5 or better (on a 4-point scale) or equivalent.

• an English Language Proficiency level in accordance with QUT requirements* if English is not your first language (QUT requirements are an IELTS overall score of 6.5 with no less than 6.0 in the sub-bands, or a TOEFL score of 575, or a computerised TOEFL score of 230).

* You may be exempt from taking a formal test if your secondary or post-secondary studies were conducted entirely in English and you have passed an English language subject or one or more Communication subjects.

If students meet academic entry requirements but do not meet English requirements please email studyabroad@qut.edu.au for alternative entry options.
