*The above list is intended to be used as a guide only and is not exhaustive. For a complete list, please visit www.qut.edu.au/exchange.

*The above information is provided 'as is' November 2017 and is subject to change by the Partner Institution. Please refer to the institution's website for program details.

Please note that exchange or study abroad opportunities may not be available for all Health courses. Any studies undertaken will need to be approved as equivalent to the studies you would normally expect to do at QUT and it may be difficult to find a program overseas that will provide the appropriate studies to fit in with your course progression.

Health students may also consider participation in an overseas short term program. Information on short term overseas experience programs may be found on the Faculty Student Noticeboard. <https://www.student.qut.edu.au/about/faculties-institutes-and-divisions/faculties/health/student-exchange-program>
