Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#)

Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a [Master of Clinical Psychology](#) or [Master of Psychology \(Educational and Developmental\)](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please phone on +61 7 3138 4831 or

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus one of Chemistry, Physics or Biology; and Recommended study: Health Education or Physical Education.

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus at least one of Chemistry, Physics or Biology. You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended study: Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Graduates are eligible for membership of Exercise and Sports Science Australia (ESSA) as exercise scientists.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways

Graduates of XN53 Bachelor of Exercise and Movement Science can apply for admission to the XN54 Bachelor of Clinical Exercise Physiology if they wish to achieve full Exercise Physiologist status.

Further information

For information about this course, please call the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email exercise@qut.edu.au

Domestic Entry requirements

Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires you to demonstrate you can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and writing sub-scores of 24 or better, and speaking sub-score of 23 or better

The test must have been completed within two years prior to the proposed course start month.

Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0

International Entry requirements

Commencing the Bachelor of Social Work in 2022?

From February 2022 the English language requirement is an IELTS overall score 7.0 with no sub-scores below 7.0 (or equivalent other approved test). If you are commencing the bachelor program in Semester 2 2021 the English language requirements listed below apply.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Graduates are eligible for membership of the Australian Association of Social Workers (AASW) as a Social Worker. Students seeking eligibility to apply for registration with the Psychology Board of Australia must also complete an approved additional year of study, either Bachelor of Behavioural Science (Honours Psychology), or a Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have

associated costs. Information is available from the [Additional course requirements and costs](#) website.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus one of Chemistry, Physics or Biology. We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Recommended study: Health Education or Physical Education.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Plus one of Chemistry, Physics or Biology. Recommended study: Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#). To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. For this degree this currently involves completing a fifth year of study in psychology (eg [Bachelor of Behavioural Science \(Honours Psychology\)](#) or [Graduate Diploma in Behavioural Science \(Psychology\)](#)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a [Master of Clinical Psychology](#) or [Master of Psychology \(Educational and Developmental\)](#)

The Bachelor of Exercise and Movement Science is accredited by [Exercise and Sports Science Australia \(ESSA\)](#).

Graduates are eligible for membership of Exercise and Sports Science Australia

(ESSA) as exercise scientists.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways

On completion of the course graduates may apply for admission to a further year of study in either the [Bachelor of Behavioural Science \(Honours Psychology\)](#) or [Graduate Diploma in Behavioural Science \(Psychology\)](#)

Further information

For information about this course, please contact the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or exercise@qut.edu.au OR contact the School of Psychology and Counselling on +61 7 3138 4520 or psychology@qut.edu.au

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Australian College of Nursing.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Nursing and Midwifery Board of Australia website <http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology you must be registered with the Psychology Board

of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Please refer to the Psychology Board of Australia website <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

This course has a number of compulsory clinical practice units. One of these units will require students to undertake a 4 week clinical placement experience scheduled during the November – February summer break prior to the commencement of the final year of studies.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Further information

For further information about this double degree, please call the School of Nursing +617 3138 3824 or email nursing@qut.edu.au OR the School of Psychology and Counselling on +617 3138 4520 or email psychology@qut.edu.au

Domestic Course structure Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Human Services. You will undertake the two components of the double degree concurrently.

Creative Industries component

The core of the program centres on Creative Enterprise studios that offer authentic, problem-based activities, coupled with work integrated learning, skills in entrepreneurship and commercial links that engage in creative start-ups. Early in your degree, you choose 24 credit points of introductory units to experience your preferred majors, with the option to undertake defined breadth units in other relevant areas. Using this experience, you then decide upon a creative industries major.

You will complete:

- core units - 72 credit points
- creative industries introductory units - 24 credit points
- a creative industries major - 96 credit points from one of the specified majors including: Creative and Professional Writing; Media and Communication; Drama and Performance; Entertainment; Fashion Communication; Interactive and Visual Design; Music and Sound; and Screen Content Production.

Human Services component

You will complete 108 credit points of core human services units, 48 credit points of professional practice studies and 36 credit points of human services elective studies.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Human Services. You will undertake the two components of the double degree concurrently.

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of 96 credit points of core units and 96 credit points of a selected major.

International Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of

96 credit points of core units and 96 credit points of a selected major.

Year	2021
QUT code	IX42
CRICOS	088346B
Duration (full-time)	4 years
ATAR/Selection rank	76.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2021: CSP \$12,200 per year full-time (96 credit points)
International fee (indicative)	2021: \$31,400 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	socialwork@qut.edu.au; Director of Studies, QUT Business School; email: askqut@qut.edu.au; ph: +61 7 3138 2000
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

And for Accountancy, Finance, Economics and Marketing majors: General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them. Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information call the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit

points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on [BS63](#) for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as four psychology electives. The psychology core allows the student to complete a three-year APAC-accredited psychology sequence across four years of study.

On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

The business major can be selected from all majors offered within the [BS05 Bachelor of Business](#). The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point campus.

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

International Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192 credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as four psychology electives. The psychology core allows the student to complete a three-year APAC-accredited psychology sequence across four years of study. Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

International Subject prerequisites

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Nutrition Society, and associate membership of the Dietitians Association of Australia (DAA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available

from the [Additional course requirements and costs](#) website.

Pathways to Further Study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have met entry requirements.

Further information

For further information, contact the Creative Industries Faculty ci@qut.edu.au or 07 3138 8114 or the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email nutrition@qut.edu.au

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Media and Communication and 192 credit points from the Bachelor of Nutrition Science. You will undertake the two components of the double degree concurrently.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Media and Communication and 192 credit points from the Bachelor of Nutrition Science. You will undertake the two components of the double degree concurrently.

Location

Psychology units are offered at Kelvin Grove campus and Justice Units are offered at Gardens Point campus.

Course Structure

In order to complete the Bachelor of Behavioural Science (Psychology)/Bachelor of Justice (Study Area A) you must complete a total of 384 credit points made up of:

Bachelor of Behavioural Science (Psychology) 192 credit points
Psychology core units (12 units = 144 credit points)
Psychology elective units (4 units = 48 credit points)

Bachelor of Justice (Study Area A) 192 credit points
Justice core units (8 units = 96 credit points)
Justice Study Area A Units (8 units = 96 credit points)

Professional Recognition

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in psychology, in order to gain provisional

registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYP350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the School of Justice on +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology and policing, interpersonal processes and skills, justice and society, and professional academic skills.

In second year you will expand your knowledge in social and organisational psychology, research analysis, social

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

ethics, developmental psychology and counselling. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

During the third year you will complete compulsory and elective psychology units, select your chosen justice major and complete the relevant justice major core units.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology and Advanced Statistical Analysis. You will complete two core units from your Justice majors and select two major elective units.

International Course structure

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Completion of the Bachelor of Human Services entitles graduates to apply for membership of the Australian Community Workers Association.

Course Requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further Information

For further information contact the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au; or the School of Justice 07 3138 2707 or lawandjustice@qut.edu.au

Domestic Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

International Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation

Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)

- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law

electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to

undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

You can complement your core law units with a minor in law, technology and innovation. Learn the skills needed to communicate and collaborate with technologists, innovators, regulators, engineers, designers and policy makers. Apply big data analytics and come up with creative solutions to address pressing social problems, and learn from experts at the forefront of artificial intelligence and technology regulation.

Law, Technology and Innovation Minor	
Code	Title
Choose four units to complete the minor	
LLB250	Law, Privacy and Data Ethics
LLB251	Law and Design Thinking
LLB252	Legal Tech
LLB341	Artificial Intelligence, Robots and the Law
LLB345	Regulating the Internet

Year	2021
QUT code	IX92
CRICOS	085233B
Duration (full-time)	4 years
ATAR/Selection rank	76.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$11,200 per year full-time (96 credit points)
International fee (indicative)	2021: \$40,100 per year full-time (96 credit points)
Total credit points	384
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on

professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Important information for business students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the QUT Business School bus@qut.edu.au or 07 3138 2050.

Minimum English requirements

Students must meet the English proficiency requirements.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Professional recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the [AHPRA website](#)

Please refer to the [Podiatry Board of Australia website](#) for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Sample Structure

There is no direct entry into CS46 Bachelor of Podiatry (Honours). Students complete Year 1 and Year 2 of CS44 Bachelor of Podiatry and apply for entry into CS46.

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to

health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent.

Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Minimum English requirements

Students must meet the English proficiency requirements.

At the end of the second year of study in CS49, students with a GPA of 6 or over will have the option to apply for CS50 Bachelor of Radiation Therapy (Honours). Entry to CS50 will be competitive, based on GPA. On entry to CS50, students will retain all of the credit successfully completed in CS49 and will complete a further two years of fulltime study which will include an honours research project.

Domestic Entry requirements

Entry requirements
A completed recognised bachelor degree (or equivalent) in a relevant science or allied health field (e.g. medical imaging science, biomedical science or nursing); *and*

A minimum of three months full-time equivalent prior supervised, postgraduate hands-on clinical experience in cardiac ultrasound; *and* written proof of access to suitable clinical experience*.

*You'll need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in cardiac ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

In order to provide evidence of prior clinical experience and access to clinical experience, you must submit a completed [Clinical supervisor form](#) with your application for admission.

Closing date

The final date to apply is 14 December. Applications for the next intake will open 1 July.

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no subscore below 6.5
- PTE: 65 or better overall with no subscore below 58
- TOEFL (IBT): 98 or better overall with a writing subscore of 24 or better, and no other subscore lower than 20
- CAE: 185 or better overall with no subscore below 176

The test must have been completed within 2 years prior to the proposed course start month.

Minimum English requirements

Students must meet the English proficiency requirements.

Professional Recognition

This course is accredited with the [Australasian Sonographer Accreditation Registry \(ASAR\)](#)

Further Information

For more information about this course, please contact the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The Graduate Diploma in Cardiac Ultrasound takes two years of part-time study to complete. All students are required to attend an intensive on campus block in semester 1-3 of the course and a final, clinical exam in semester 4.

The structure of this course includes:

- formal classroom components and clinical skills development sessions conducted during the intensive on-campus blocks
- comprehensive online lectures and self-assessment tutorials.

Applicants will need to maintain access to suitable clinical experience for the duration of the course.

Domestic Entry requirements

A recognised bachelor degree in agriculture science, engineering, health, information technology, mathematics, science, or veterinary science with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 2 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

If you do not meet the grade point average requirement but you have:

- Excelled in the final semesters of your degree; *or*
- Completed a double degree and excelled in the relevant degree part of your double degree

you are encouraged to apply.

Places are subject to supervisor availability, infrastructure, and other required resources.

International Entry requirements Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Entry Requirements

A recognised bachelor degree in agriculture science, engineering, health, information technology, mathematics, science, or veterinary science with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 2 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

If you do not meet the grade point average requirement but you have:

- Excelled in the final semesters of your degree; *or*
- Completed a double degree and excelled in the relevant degree part of your double degree

you are encouraged to apply.

Places are subject to supervisor availability, infrastructure, and other required resources.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Pathways to further study

An honours qualification enhances your professional employability in your chosen discipline, and opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy, Doctor of Health Science and Master of Applied Science (Research) courses.

Professional recognition

Relevant scientific professional bodies include Australasian Graduates may seek membership of various organisations as follows:

Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, and Australian Society for Microbiology. Eligibility for membership is based on the combination of units undertaken in the Honours degree and the Bachelor course that underpins it.

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

The core of the honours program is a 48 credit point project that will provide you with the opportunity to learn about research by completing a project with an experienced researcher who acts as both supervisor and mentor. You will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical

Bachelor of Biomedical Science (Honours)

science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

- cancer
- chronic disease, supportive and palliative care
- environmental health
- exercise, nutrition and metabolism
- health services
- infectious diseases
- injury prevention
- mental health and wellbeing
- social determinants of health
- vision improvement
- wound and tissue restoration.

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation

Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal

Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)

practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law

electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to

undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Course Coordinator	Enquiries to psychology@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Prerequisite

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society](#) stating their degree is equivalent to APAC-approved, three-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirements

- A grade of at least 4 (on a 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completion of an APAC-accredited advanced statistical analysis unit at third-year level.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis.

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of:

- QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and

- All other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA.

Closing date

Closing date is 30 September. Applications received after this date will not be considered. Applications for the next intake will open 1 July.

Applicants will be notified of their application outcomes in mid-December.

International Entry requirements

Prerequisite

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to the APAC-approved, three-year training in psychology. The APS advises that the average processing time is 8 weeks, therefore applicants with overseas qualifications are strongly encouraged to seek certification by no later than July.

Additional entry information

- A grade of at least 4.0 (on QUT's 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completion of an APAC-accredited *advanced statistical analysis* unit at third-year level.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data

Bachelor of Behavioural Science (Honours Psychology)

- analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and all other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year. Applicants will be notified of their application outcomes in mid-December.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Successful completion of the Bachelor of Behavioral Science (Honours Psychology) meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:
<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website:

<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

International Student Entry

International students may enrol only in full-time studies.

Please refer to the Psychology Board of Australia website
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The honours program comprises eight units, which can be completed in full-time or part-time study mode.

Core units include PYH401 Advanced Research Methods, PYH402 Counselling Psychology and PYH407 Research and Professional Development Seminar. There is one elective unit. Students can be chose from Cognitive and Neuropsychology or Social and Developmental Psychology as their elective. Core units require 3 contact hours per week, and electives are offered in intensive formats.

This course also includes a research component, which entails an individual thesis. PYH400-1to4 Thesis is undertaken in modules throughout the program. Initially students complete a research plan, which sets out the rational and methodology of the project. This is followed by data collection, analysis and writing-up the research thesis. Contact hours for the research component are as required by the project and supervisor.

International Course structure

The honours program comprises eight units, which can be completed in full-time or part-time study mode.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Minimum English requirements

Students must meet the English proficiency requirements.

Sample Structure

At the end of the second year of study in XN50 or XN51, students will have the option to apply for XN52 Bachelor of Clinical Exercise Physiology (Honours). Entry to XN52 will be competitive, based on GPA.

On entry to XN52, students will retain all of the credit successfully completed in XN50 or XN51 and will complete a further two years of full-time study which will include an honours research project.

Year	2021
QUT code	CS30
Duration (part-time domestic)	1 year
Campus	Kelvin Grove
Total credit points	48
Credit points part-time sem.	24
Dom. Start Months	February
Course Coordinator	Enquiries to podiatry@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

Academic entry requirement

A completed recognised four year degree (or equivalent) in podiatry; *and*

Current registration with the Podiatry Board of Australia (or equivalent).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or email podiatry@qut.edu.au

Domestic Course structure

Offered on a part-time basis over two semesters, there will be on-campus intensive sessions for the discussion of key content, peer review and interaction, practical sessions, and assessment. These intensives will be supplemented by sophisticated online resources using case scenarios to simulate key dilemmas and challenges in clinical practice. A revision of the fundamental biomedical sciences related to pharmacology and pharmacotherapeutics is also incorporated at the start of the program.

The case studies and other learning activities highlight the National Prescribing Service competencies required to prescribe medicines and enable self-reflection and assessment of podiatric therapeutic practice skills for continuing quality improvement.

In the final semester, you will acquire the clinical decision-making practical skills required for prescribing scheduled medicines, through on-campus clinic sessions where you will: discuss medical and medication histories with experienced clinicians; participate in supervised external placements, online case simulations, workshops and assessment.

Throughout the course you will develop an understanding of the elements of safe

prescribing and the core information sources and guidelines for this scope of practice, so that in your podiatric practice you will be able to remain abreast of developments in the field of medication and pharmacological issues.

International Entry requirements

Academic entry requirements Environmental Health major

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline; *and* a minimum of 48 credit points (equivalent of one semester full time study) of basic science units that were completed at the bachelor degree level *and* must include:

- 12 credit points (one subject) of foundation chemistry; *and*
- 36 credit points in other science areas (e.g. microbiology, physics, anatomy and physiology, life science).

Pathway leading to [Master of Health, Safety and Environment \(Environmental Health\)](#)

Graduate Certificate in Communication for Health (Environmental Health) (1 semester) July entry leading to Master of Health, Safety and Environment (Environmental Health) (4 semesters) February entry (24 credit points advanced standing)

Nursing major

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in nursing; or a completed recognised associate degree in nursing and one of year work experience as a registered nurse (or equivalent).

The Master of Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the [Australian Health Practitioner Regulation Agency](#) for further advice or consider our [Bachelor of Nursing](#) program.

Pathway leading to [Master of Advanced Practice Nursing](#)

Graduate Certificate in Communication for Health (Nursing) (1 semester) into:

- February or July entry leading to Master of Advanced Practice Nursing (Chronic Health Care Nursing) (3 semesters) February or July entry (24 credit points advanced standing).
- February or July entry leading to Master of Advanced practice Nursing (Health Professional Education) (3 semesters) February or July entry (24 credit points advanced standing).

- February or July entry leading to Master of Advanced practice Nursing (Cross- Specialisation) (3 semesters) February or July entry (24 credit points advanced standing).

Public Health major

Occupational Health and Safety

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Pathway leading to [Master of Health, Safety and Environment \(Occupational Health and Safety\)](#)

Graduate Certificate in Communication for Health (Environmental Health) (1 semester) July entry leading to Master of Health, Safety and Environment (Occupational Health and Safety) (4 semesters) February entry (24 credit points advanced standing)

Public Health

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Pathway leading to [Master of Public Health](#)

Graduate Certificate in Communication for Health (Public Health) (1 semester) February or July entry leading to Master of Public Health (3 semesters) February or July entry (48 credit points advanced standing).

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Entry requirements
A completed recognised bachelor degree in any discipline; *or*

A completed recognised diploma qualification (or higher award) with at least three years full-time equivalent (FTE) professional work experience which includes at least one year in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality assurance, and/or policy development); *or*

Current registration within the applicant's field of practice with a nationally recognised professional body with at least three years full-time equivalent (FTE) professional work experience.

For applicants working in a field of practice that does not have a nationally recognised professional body, at least seven years full-time equivalent (FTE) professional experience in a supervisory or leadership role (eg: with responsibility for decision making, team work, quality assurance, and/or policy development).

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 6.5 or better overall with no subscore below 6.0
- PTE: 58 or better overall with no subscore below 50
- TOEFL (IBT): 79 or better overall with a writing subscore of 21 or better, a speaking subscore of 18 or better and no other subscore lower than 16
- CAE: 176 or better overall with no subscore below 169

The test must have been completed within 2 years prior to the proposed course start month.

International Entry requirements

Academic entry requirement

A completed recognised bachelor degree in any discipline; *or*

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Structure

Students are required to complete four units (totaling 48 credit points) from one study area.

Study areas

- Emergency and disaster management (part-time only available)
- Environmental health
- Health promotion (part-time only available)
- Health services management (part-time only available in 2015)
- Occupational health and safety
- Quality and patient safety (part-time only available)
- Risk management

Graduate Certificate in Health Science

International students starting in February may specialise in:

- Environmental Health
- Health Services Management
- Occupational Health and Safety
- Risk Management

International students starting in July may specialise in:

- Environmental Health
- Occupational Health and Safety

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Further Information

For information about this course, please contact the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students in the Graduate Certificate in Health Science complete four units from one study area. To complete a major, students must complete at least four units from the same study area within the Faculty of Health. Students can graduate with one specified major only.

Study areas

Study areas are offered in the following:

- Emergency and Disaster Management
- Environmental Health*
- Health Policy and Planning
- Health Promotion
- Health Services Management
- Occupational Health and Safety*
- Quality and Patient Safety

* Students wishing to complete a graduate diploma qualification in Environmental Health or Occupational Health and Safety should apply for entry into the [Graduate Diploma in Environmental Health](#) or [Graduate Diploma in Occupational Health and Safety](#).

Graduate Certificate in Care of the Aged seeks to provide existing health practitioners with the opportunity to specialise in meeting the complex care needs of older Australians.

Domestic Entry requirements

Academic entry requirements

You can gain entry into the Graduate Certificate in Care of the Aged with:

- a completed bachelor degree (or higher qualification) in a nursing, medical or allied health discipline, or
- current AHPRA registration within the applicant's field of practice and at least three years full-time (or equivalent) professional work experience in the same field as the current AHPRA registration.

Course structure

To meet the course requirements for the Graduate Certificate in Care of the Aged, you must complete a total of 48 credit points.

Units

Ageing and Health Assessment
Healthy Ageing
Skin and Wound Care
Dementia

Advanced Standing

Your past studies or work experience may count as credit towards your QUT Online course; we call this 'advanced standing'. That means you might not have to complete all of the units listed in your course structure and you may be able to graduate sooner.

In exceptional circumstances, extensive work experience in a particular field can also be recognised.

Domestic Entry requirements

Entry requirement

Current registration as a Nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

Study area requirements

In some study areas, applicants will need to comply with certain clinical requirements.

You will be asked to confirm that you have specific professional experience prior to enrolling in units that require workplace-based clinical practice. You will also need to maintain access to the relevant practice setting for the duration of the course. If you do not confirm your professional experience or maintain access to a relevant practice setting, you will not be able to complete the clinical assessment components required to complete units in the study area.

Please refer to study area information in the 'Units' tab for specific details.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Cross-specialisation - Gastroenterology

The specialist gastroenterology units are currently only available to nurses currently working for Queensland Health.

Pathways to future study

The Graduate Certificate in Nursing fully articulates with the Master of Nursing.

International students

The Graduate Certificate in Nursing is offered part-time only in internal or external mode and is not available to international students.

Further information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice. The following study areas are offered:

- acute care nursing
- cancer nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- chronic health care nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute Care Nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an

- emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Health Professional Education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

NO major option

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Graduate Certificate in Emergency and Disaster Management with QUT Online, you will examine the underlying drivers of risk, taking into account the risk factors during, and in the aftermath of, an emergency.

Domestic Entry requirements

Academic entry requirements

You can gain entry into the Graduate Certificate in Emergency and Disaster Management with:

- a completed bachelor degree (or higher qualification) in a nursing, medical or allied health discipline, or
- current AHPRA registration within the applicant's field of practice and at least three years full-time (or equivalent) professional work experience in the same field as the current AHPRA registration.

Course structure

To meet the course requirements for the Graduate Certificate in Emergency and Disaster Management, you must complete a total of 48 credit points.

Units

Ageing and Health Assessment
Healthy Ageing
Skin and Wound Care
Dementia

Advanced Standing

Your past studies or work experience may count as credit towards your QUT Online course; we call this 'advanced standing'. That means you might not have to complete all of the units listed in your course structure and you may be able to graduate sooner.

In exceptional circumstances, extensive work experience in a particular field can also be recognised.

Domestic Entry requirements

Academic entry requirements

A recognised bachelor degree (or equivalent) in a relevant allied health field (e.g. medical radiation, nursing, podiatry or physiotherapy); *and* access to suitable clinical experience in medical ultrasound for the duration of the course demonstrated by providing a completed [Clinical Supervisor form \(PDF file, 108 KB\)](#) with your application.*

*Students will need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in medical ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

Overseas qualifications

QUT will consider equivalent overseas qualifications for admissions purposes. If you have tertiary qualifications from countries where English is not the standard language of instruction, you must provide evidence of English language proficiency.

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 6.5
- PTE: 65 or better overall with no sub-score below 58
- TOEFL (IBT): 98 or better overall with a writing sub-score of 24 or better, and no other sub-score lower than 20
- CAE: 185 or better overall with no sub-score below 176

The test must have been completed within 2 years prior to the proposed course start month.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Course Structure

The course takes four semesters of part-time study to complete. Lectures are conducted in an intensive one week block at the start of semesters 1, 2 and 3 in the standard part-time program. Students undertake clinical experience throughout each semester.

Professional Recognition

This course is accredited with the [Australasian Sonographer Accreditation Registry \(ASAR\)](#)

Further Information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The graduate diploma takes four semesters of part-time study to complete. All students are invited to attend an intensive one-week block of classes at the beginning of the first three semesters. Students undertake clinical experience throughout the semester and need to maintain access to suitable clinical experience for the duration of the course.

Other course requirements

The course is offered internally and externally and all the study material and lecture recordings are made available to both internal and external students. In some units on-campus workshops are held for both internal and external students. Attendance at these workshops is not compulsory, although it is encouraged. Students, particularly external students, will need a reliable internet connection and up-to-date hardware (including a multimedia headset with microphone) and up-to-date software. Some units include pod-casts and on-line discussion forums.

Course articulation

This course fully articulates into the Master of Health, Safety and Environment.

Professional recognition

This course is accredited with the Australian OHS Education Accreditation Board.

International student entry

International students may only enrol in full-time studies on-shore, but may enrol full-time or part-time off-shore.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, mental disorders, cancer, musculoskeletal disorders and the needs of special groups.
- Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating,

Domestic Entry requirements

- A recognised bachelor degree (or higher) in any discipline; *and*
- At least 36 credit points (three units) of recognised basic science units completed at bachelor degree level (or higher); *and*
- At least 12 credit points (one unit) of foundation chemistry completed at bachelor degree level (or higher).

International Entry requirements

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline; *and*

A minimum 48 credit points (equivalent of one semester full-time study) of recognised basic science units that were included at Bachelor level and must include:

- a minimum of 12 credit points (one subject) of foundation chemistry; *and*
- a further 36 credit points (equivalent to three subjects) in other science areas (e.g. microbiology, physics, anatomy and physiology, life science).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

This course is accredited with Environmental Health Australia and graduates are eligible to practise as Environmental Health Officers.

Course Articulation

This course articulates into the Master of Health, Safety and Environment.

International Student Entry

International students may enrol only in full-time programs in internal mode.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available.

Note: All students are encouraged to attend on campus workshops in six units. The workshops focus on developing practical skills which employers consider desirable.

International Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available.

Note: All students are encouraged to attend on campus workshops in six units. The workshops focus on developing practical skills which employers consider desirable.

Master of Gerontology will challenge you to extend your leadership ability in the field, preparing you for organisational leadership with a focus on ensuring health and aged care services evolve to meet changing community needs.

Domestic Entry requirements

Academic entry requirements

You can gain entry into the Graduate Diploma in Health Management with the following:

- a completed bachelor degree (or higher qualification) in a nursing, medical or allied health discipline or
- current AHPRA registration within the applicant's field of practice and at least three years full-time (or equivalent) professional work experience in the same field as the current AHPRA registration experience.

Course structure

To meet the course requirements for the Master of Gerontology, you must complete a total of 144 credit points.

Core units

Ageing and Health Assessment
 Healthy Ageing
 Skin and Wound Care
 Dementia
 Aged Care Law, Ethics and Culturally Safe Practice
 Complex Care for the Older Person
 Palliative and End of Life Care
 Quality Management in Health
 Research Methods in Health
 Project 1
 Project 2
 Leadership in Gerontology

Advanced Standing

Your past studies or work experience may count as credit towards your QUT Online course; we call this 'advanced standing'. That means you might not have to complete all of the units listed in your course structure and you may be able to graduate sooner.

In exceptional circumstances, extensive work experience in a particular field can also be recognised.

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience and/or further studies since course completion with your application for it to be considered.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum Grade Point Average (GPA) score of 4.00 on QUT's 7 point scale completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience; and; or further studies since course completion with your application for it to be considered.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Entry requirements

- A recognised bachelor degree (or higher) in nursing.
- Current registration as a Nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

International Entry requirements

Academic entry requirements

You need either:

- a completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in nursing; or
- a completed recognised associate degree in nursing and one of year work experience as a registered nurse (or equivalent).

The Master of Advanced Practice Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the [Australian Health Practitioner Regulation Agency](#) for further advice or consider our [Bachelor of Nursing](#) program.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no specialisation. You will have the option to study either the Project Stream or the Dissertation Stream. The Project Stream is recommended for nurses wishing to pursue a career as Nurse Unit Managers, Clinical Nurse Consultants, Directors of Nursing or Clinical Nurse Educators. The Dissertation Stream is recommended for nurses wishing to pursue a career as Nurse Researchers, Nurse Academics or

progress onto a PhD.

Additional electives are available to students undertaking the Project Stream.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialisations or electives.

Acute care nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of

chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Health professional education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice. Students implement and evaluate learning and teaching activities in diverse settings and critically reflect on the effectiveness of a learning program including assessment review.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

International Course structure

International students can only undertake no major or a major in:

- chronic health care nursing
- health professional education.

No major provides the option of choosing units from more than one study area.

Sample Structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no major. All students undertake research studies by choosing a project or thesis pathway. Additional electives are available to students undertaking the project pathway.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute care nursing - Domestic Students Only

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing - Domestic Students Only

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing - Domestic or International Students

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing - Domestic Students Only

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting; and
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing - Domestic Students Only

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine; and
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing - Domestic Students Only

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Health Professional Education - Domestic or International Students

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing - Domestic Students Only

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option - Domestic or International Students

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

Domestic Entry requirements

Prior study entry requirements

A completed postgraduate qualification from a recognised higher education institution in a relevant clinical field.

Registration entry requirements

Current registration as a nurse (Division 1) without conditions with the Australian Health Practitioner Regulation Agency.

Clinical practice entry requirements

You must provide:

- a statement of service on an official letterhead confirming you have a minimum of four years full-time (or equivalent) clinical practice experience as a registered nurse in the nominated speciality
- a [letter supporting advanced practice \(PDF, 292 KB\)](#) confirming your recent clinical practice experience includes a minimum of two years full-time (or equivalent) experience (within the last six years) in an advanced nursing practice role in the nominated speciality area
- a [letter of support from the Executive Director of Nursing \(or equivalent\) \(PDF, 174 KB\)](#) confirming their support for you to undertake the course
- a completed [applicant details form \(PDF, 190 KB\)](#) and be currently working in an advanced nursing practice role.

For a definition of 'advanced practice nursing,' see the Fact Sheet for Advanced practice nursing issued by the Nursing and Midwifery Board of Australia (NMBA). The Fact Sheet is available on the [NMBA website](#).

Closing date

The final date to apply is 31 January.

Late applications will not be considered and cannot be submitted. Applications for the next intake will open 1 July.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Entry requirement
Completion of QUT's Bachelor of Vision Science within the last two years.

Additional information

All current QUT Bachelor of Vision Science graduates will automatically receive an offer to start within three weeks of the current semester two results being released.

Deferment

This course is open to deferment. Requests are made by responding to the offer email.

2022 and onwards entry

Completion of QUT's Bachelor of Vision Science with a minimum grade point average (GPA) of 4.00 within the last two years.

International Entry requirements

Applications in 2022
In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Academic entry requirements

Successful completion of QUT's Bachelor of Vision Science with a minimum grade point average (GPA) score of 4.0 on QUT's 7 point scale completed within two years of commencing the Master of Optometry.

Students who have not completed QUT's Bachelor of Vision Science

The Master of Optometry course provides the second component of the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree entry-level program which leads to registration as an optometrist for practice in the optometry profession in Australia. It is not designed to provide qualified optometrists with a masters level qualification.

If you already have an optometry qualification and are seeking to practice as an optometrist in Australia, you should contact the Optometry Council of Australia and New Zealand (www.ocanz.org) regarding the assessment process for overseas trained optometrists wishing to practice optometry in Australia. If you wish to obtain an Australian optometry qualification then you will need to apply for the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree award. Your previous overseas studies in optometry may be considered for advanced standing towards the five-year program.

Your application for OP45/OP85 should include:

- Details of your Optometry/Vision Science undergraduate degree including course overview and unit outlines.
- Details of any assessment regarding your qualifications you may have received from the Optometry Council of Australia and New Zealand

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit

Master of Optometry

the AHPRA website:

<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Optometry Board of Australia website

<http://www.optometryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

OPN365	Clinical Practice 9
Year 2 Semester 2	
OPN461	Optometry in Professional Practice
OPN462	Specialist Clinic 10
OPN465	Clinical Practice 10

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements

2 year program

A recognised bachelor degree (or higher) in any discipline.

1.5 year program

A recognised bachelor degree in health, business or law.

International Entry requirements

2 year program

A completed recognised bachelor degree (or higher) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

1.5 year program

A completed recognised bachelor degree (or higher award):

- in health, business or law with a minimum grade point average of 4.0 (on QUT's 7 point scale); *or*
- in any other discipline with a minimum grade point average of 4.0 (on QUT's 7 point scale) *and* with at least 3 years (full-time or equivalent) experience working in health management at a middle to senior level. Middle to senior level experience is defined as experience in a supervisory or leadership role (e.g. with responsibility for decision making, team work, quality assurance and/or policy development).

Students applying on the basis of work experience must submit a detailed CV, position details and employment statements

You do not need to apply for the 1.5 year program as you will be automatically assessed for eligibility as part of QUT's application for admission process.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure

Students who have been awarded advanced standing and are undertaking the 1.5 year program are required to complete a total of 144 credit points for the award of the degree.

- You must complete six core units and one research methods unit.
- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.
- If you wish to undertake a specialisation, then you will need to complete two core units from the specialisation and undertake your project or internship in that field.
- You may choose electives from across the program to complete your 144 credit points.

Students undertaking the 2 year program are required to complete 192 credit points of study.

- You must complete six core units and one research methods unit.
- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.
- If you wish to undertake a specialisation, then you will need to complete at least two core units from the specialisation and either complete two other units from the choices available or undertake your project or internship in that field.

Students who wish to proceed to a research higher degree (e.g. PhD) should undertake a dissertation.

Professional recognition

The program is designed to meet the accreditation requirements of The Australasian College of Health Service

Managers (ACHSM) subject to their experiential and other requirements.

The MHM also meets the academic component for medical practitioners who are seeking Fellowship of the Royal Australasian College of Medical Administrators (RACMA). Obtaining Fellowship is subject to the other experiential and examination requirements of RACMA.

Domestic Entry requirements

2-year program

A recognised bachelor degree (or higher qualification) in any discipline.

1.5-year program: all majors

A recognised bachelor degree in one of the following disciplines:

- Behavioural science, psychology
- Health information management
- Medicine (Australian degrees only)
- Nursing
- Nutrition, dietetics
- Paramedic science
- Public health

1.5-year program: cross specialisation

A recognised bachelor degree in one of the following disciplines:

- Any other health discipline not listed above
- Biomedical science
- Human services
- Journalism
- Media and communication
- Medical laboratory science
- Social work

International Entry requirements

Academic entry requirements

Master of Public Health - 2 year program

A completed recognised bachelor degree (or higher) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Master of Public Health - 1.5 year program

Applicants who have a completed recognised bachelor degree with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in health will be eligible for 48 credit points of advanced standing which will reduce your course to three semesters full-time (1.5 years).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5

----------	-----

Majors

Flexible plan
Emergency and disaster management
Epidemiology and research methods
Health promotion
Health, Safety and Environment
Health services management

Course articulation

The Graduate Diploma in Public Health fully articulates into the Master of Public Health.

Students admitted to the Master of Public Health may be eligible to exit early with a Graduate Diploma in Public Health or a Graduate Certificate in Health Science, depending on choice of units.

International student entry

International students may only enrol in full-time studies.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

The Master of Public Health consists of 192 credit points. You must complete 96 credit points of core units (eight units); a 48 credit point major (four units) and up to 48 credit points of research studies.

You will need to choose your major when commencing this degree as course structure is related to your major.

You may choose to undertake a 48 credit point dissertation or a 24 credit point research project. If you undertake the 24 credit point research project, you will have 24 credit points of electives available.

Majors available are:

- emergency and disaster management
- epidemiology and research methods
- health promotion
- health, safety and environment
- health services management.

Students are also able to complete a cross-specialisation and complete units from more than one major.

Sample Structure

Students complete 96 credit points of core units; 48 credit points of major units and up to 48 credit points of research

Master of Public Health

studies.

You will need to choose your major when commencing this degree as course structure is related to your major.

Domestic Entry requirements

Academic entry requirements

A completed recognised:

- bachelor degree in health, education, or human resource management; *or*
- bachelor honours, graduate certificate, graduate diploma, masters or doctorate degree in any discipline area; *or*
- bachelor degree in any discipline with a minimum three years full-time equivalent relevant experience.

Relevant work experience could include:

- The facilitation and management of ongoing helping relationships that employs intentional use of therapeutic conversation and a therapeutic relationship;
- Volunteer or community work that is supervised/mentored within an ethical framework;
- Work that provides opportunities and support for professional development and reflective helping practice, including the provision of feedback and training.

Additional entry requirements

Applicants who satisfy the above criteria will be contacted by QUT to attend an interview to assess their suitability for counselling. Admission is based on prior studies and interview. Interviews will be conducted either in-person on Kelvin Grove campus or online from mid-October through to early November.

Application dates

Closing date is 30 September. Applications received after this date will not be considered. Places are limited.

Apply now to ensure your application is considered.

International Entry requirements

Academic entry requirements

A completed recognised:

- bachelor degree in health, education, or human resource management with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- bachelor honours, graduate certificate, graduate diploma, masters or doctorate degree in any discipline area with a minimum grade point average (GPA) score of 4.0 on QUT's 7-point scale; *or*
- bachelor degree in any discipline with a minimum grade point average

(GPA) score of 4.0 on QUT's 7-point scale and with a minimum three years full-time equivalent relevant* experience.

*Relevant work experience could include:

- The facilitation and management of ongoing helping relationships and that employs intentional use of therapeutic conversation and a therapeutic relationship;
- Volunteer or community work that is supervised/mentored within an ethical framework;
- Work that provides opportunities and support for professional development and reflective helping practice, including the provision of feedback and training.

Students applying on the basis of work experience must submit a detailed CV including position details and employment statements.

Additional entry requirement

Applicants who satisfy the above criteria will be contacted by QUT to attend an interview to assess their suitability for counselling training. Admission is based on prior studies and interview.

Additional information

Entry to this course is competitive. Shortlisted applicants will be contacted in mid-October for interviews in late October/early November.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

International Student Entry

This course is not available to international students.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The Master of Counselling is offered on a full-time basis over two years or a part-time basis over three or four years. Units are delivered in intensive, evening and weekend format.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. Student learning is supported by facilitated small group work which offers a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

A completed recognised psychology honours or four-year bachelor degree (or higher) in psychology completed within the last 10 years*; *and*

A minimum fourth year psychology units grade point average (GPA) of 6.0 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a four-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

Applicants with overseas qualifications must provide certification with their application from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to APAC-approved, four-year training in psychology. The Australian Psychological Society advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirements

1. Ask two referees to provide us with confidential reports via the [Psychology Reference System](#). You will also need to ensure that you have shared these reports with QUT in the Psychology Reference System. *Please note: This system is the same across many Australian universities. To be able to use the system, you will need to have an active annual subscription. The cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.*
2. Completed [questionnaire \(PDF file, 336 KB\)](#); the questionnaire must be provided with your application.
3. Provide your current CV with your application.
4. Successful interview, if shortlisted.

Selection process for interview

Applicants are shortlisted in priority order based on their GPA, referee reports and questionnaire. Shortlisted applicants for the first round will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. If required, a second round of in-person interviews will be conducted in late November/early December.

Admission process

Admission is based on GPA, interview, questionnaire, and referee reports. Mid-November is when first round of offers will be issued to selected interviewed applicants along with notifications to unsuccessful applicants. If you were interviewed or did not receive an outcome in mid-November, your application is being held for consideration in late November/early December should places become available.

* Qualifications completed more than 10 years ago

Applicants who completed their degree with the required GPA more than 10 years ago must either successfully complete refresher training (see below) OR provide evidence of current registration as a psychologist with the Psychology Board of Australia.

Refresher training

At QUT we recommend you undertake:

1. Assessment and diagnosis: PYB309 Individual differences and assessment and PYB306 Psychopathology
2. Psychological Interventions: PYH402 Counselling Psychology
3. Psychopathology: PYB306 Psychopathology
4. Ethics: PYH407 Research and professional development seminar

This training may be completed as single units of study and applicants can apply for admission online. To fulfil Psychology Board requirements, refresher training needs to have been completed within the last ten 10 years.

Early closing date

Closing date is 30 September. Applications, questionnaires, CV and/or (if applicable) APS certifications received after this date will not be considered.

Places are limited. Apply now to ensure your application is considered.

International Entry requirements

A completed recognised psychology honours or four-year bachelor degree (or higher) in psychology completed within the last 10 years; *and*

A minimum fourth year psychology units grade point average (GPA) of 6.0 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

Master of Clinical Psychology

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a four-year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

Applicants with overseas qualifications must provide certification with their application from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to APAC-approved, four-year training in psychology. Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Professional recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website: <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Registration requirements

All students seeking registration with the Psychology Board of Australia as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Please refer to the Psychology Board of Australia website <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's Registration Standards.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The coursework component of this program provides training on how to assess and diagnose clinical presentations. It provides unique training on how to conceptualise and treat a broad range of child and adult clinical presentations from relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

Clinical placements begin in the first semester with an internship spanning the first year. Students complete the internship under intense supervision at the specialised [Psychology and Counselling Clinic](#) at QUT's Kelvin Grove campus. During the internship, students gain experience in assessing and treating a range of clinical cases across the lifespan.

Once students are deemed competent through the internship, they continue their clinical training with external placements in hospitals, community agencies and a variety of child and adult mental health settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Domestic Entry requirements

Academic entry requirements

You must have a completed recognised bachelor degree and have passed one year (8 units) of full-time studies in social sciences such as:

- studies in society
- human development
- education
- human services
- law
- media and communication
- psychology
- sociology
- urban and regional planning.

This course is not designed for students who already have a bachelor degree in social work.

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

International qualifications

We recognise that not all overseas social work qualifications will meet the professional requirements to gain membership with the [Australian Association of Social Workers \(AASW\)](#). We will consider applications from overseas qualified applicants for this course.

If you are a qualified social worker in your country of residence, you should also contact the [Australian Association of Social Workers \(AASW\)](#) to determine any study you may need to undertake to be eligible for membership in Australia. This assessment may indicate that you won't need to complete the full two years of study and you may be eligible for some credit for prior learning (advanced standing) towards your study.

International Entry requirements

Academic entry requirements

You must have a completed recognised bachelor degree with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) that includes the equivalent of at least one year of full-time studies in social sciences, for example:

- studies in society
- human development
- education
- human services
- law
- media and communication
- psychology
- sociology
- urban and regional planning.

Note

This course is not designed for students who already have the equivalent of a Bachelor in Social Work. However, QUT recognises that not all overseas social work qualifications will meet the professional requirements to gain membership with the [Australian Association of Social Workers \(AASW\)](#) and will consider applications from overseas qualified applicants for this course.

Applicants who are qualified Social Workers in their country of residence should also contact the [AASW](#) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Domestic Course structure

The Master of Social Work - Qualifying consists of 12 units and can be studied full time (two years) or part time (four years).

The course includes a minimum 1,000 hours of field placements supervised by a professional social worker. These placements are undertaken over two professional practice units, each worth 36 credit points (SWN021 and SWN022).

International Course structure

The Master of Social Work - Qualifying consists of 12 units and can be studied full time (two years) or part time (four years).

The course includes a minimum 1,000 hours of field placements supervised by a professional social worker. These placements are undertaken over two professional practice units, each worth 36 credit points (SWN021 and SWN022).

Year	2021
QUT code	IF80
CRICOS	095410G
Duration (full-time domestic)	1.5 - 2 years
Duration (full-time international)	2 years
Duration (part-time domestic)	4 years
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2021: \$26,800 - \$33,300 per year full-time if you exceed the maximum time under RTP
International fee (indicative)	2021: \$30,300 - \$36,800 per year full-time
Total credit points	144
Start months	December, November, October, September, August, July, June, May, April, March, February, January
Int. Start Months	December, November, October, September, August, July, June, May, April, March, February, January

Domestic Entry requirements

To be eligible for this course, you need either:

- a completed recognised bachelor honours degree in a discipline relevant to your intended area of study or
- a completed recognised bachelor degree or equivalent in a discipline relevant to your intended area of study with: a minimum grade point average (GPA) score of 5.00 (on QUT's 7 point scale) relevant professional and/or research experience (as determined by the faculty).

Applications and proposed research projects are subject to supervisor availability and resources available within the faculty.

International Entry requirements

To be eligible for this course, you need either:

- a completed recognised bachelor honours degree in a discipline relevant to your intended area of study or
- a completed recognised bachelor degree or equivalent in a discipline relevant to your intended area of study with: a minimum grade point average (GPA) score of 5.00 (on QUT's 7 point scale) relevant professional and/or research experience (as determined by the faculty).

Applications and proposed research projects are subject to supervisor availability and resources available within the faculty.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Mandatory units

You'll need to complete:

- a time-based thesis
- IFN001 Advanced Information

Research Skills.

You may need to complete other units that are recommended by your faculty, negotiated with you and based on the skills gaps identified in your research degree skills audit.

Study areas

Your faculty may have several specialisations (study areas) that your research will align with. This will appear on your testamur at graduation:

Business

- Master of Philosophy (Accountancy)
- Master of Philosophy (Advertising)
- Master of Philosophy (Economics)
- Master of Philosophy (Entrepreneurship and Innovation)
- Master of Philosophy (Finance)
- Master of Philosophy (Human Resource Management)
- Master of Philosophy (International Business)
- Master of Philosophy (Management)
- Master of Philosophy (Marketing)
- Master of Philosophy (Philanthropy and Nonprofit Studies)
- Master of Philosophy (Public Relations)

Creative Industries

- Master of Philosophy (Design)
- Master of Philosophy (Communication)
- Master of Philosophy (Creative Practice)

Education

- Master of Philosophy (Education)

Health

- Master of Philosophy (Biomedical Sciences)
- Master of Philosophy (Exercise Sciences)
- Master of Philosophy (Materiobiology)
- Master of Philosophy (Medical Radiations)
- Master of Philosophy (Nursing)
- Master of Philosophy (Nutrition and Dietetics)
- Master of Philosophy (Optometry)
- Master of Philosophy (Paramedicine)
- Master of Philosophy (Pharmacy)
- Master of Philosophy (Physical Education)
- Master of Philosophy (Podiatry)
- Master of Philosophy (Public Health)
- Master of Philosophy (Psychology)
- Master of Philosophy (Social Work)

Master of Philosophy

Law

- Master of Philosophy (Law)
- Master of Philosophy (Justice)

Science and Engineering

- Master of Philosophy (Engineering)
- Master of Philosophy (Information Technology)
- Master of Philosophy (Magnetic Resonance in Medicine)
- Master of Philosophy (Mathematics)
- Master of Philosophy (Science)
- Master of Philosophy (Urban Development)

Domestic Entry requirements

Academic entry requirements

You must have either:

- a completed recognised relevant honours degree (first class or second class Division A) or equivalent
- a completed recognised masters degree or professional doctorate (by research or coursework)

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

For more information on eligibility, read the [admission criteria for the Doctor of Philosophy \(PDF, 98.5KB\)](#).

Once you've started your PhD, you'll need to complete your Stage 2 milestone to be fully admitted to your course. You'll usually complete this milestone within the first three months of study.

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; *and*
- present evidence of research experience and potential for approval

Domestic Course structure

Mandatory:

- time based thesis
- IFN001 Advanced Information Research Skills.

Other units as agreed by student in negotiation with their supervisor and faculty.

Study areas

Doctoral studies may be completed in any area of research supported by the Faculty of Health.

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

Doctor of Philosophy (Hosted by Faculty of Health)

Injury prevention and trauma management

- injury prevention
- orthopaedics, trauma and emergency
- tissue repair and regeneration.

- palliative care
- Vision and eye

Health determinants and health systems

- behavioural neuroscience and mental health
- child and adolescent health
- environmental health
- health services
- healthy lifestyles.

Chronic disease and ageing

- cancer and molecular medicine
- chronic conditions and management
- infectious diseases
- healthy ageing, dementia and palliative care
- vision and eye.

International Course structure

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0

Domestic Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics

(Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical sciences electives (Year 2)
- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

International Course structure

This vertical double degree is made up of LV41 Bachelor of Biomedical Science plus IN27 Master of Data Analytics (Biomedical Science). You will be able to progress on to the Master of Data Analytics upon successful completion of the bachelor degree. The full vertical double degree normally takes 4 years to complete full-time (3 years for the bachelor component plus 1 year for Master component).

To meet the requirements of the Bachelor of Biomedical Science component of the vertical double degree, you must complete a total of 288 credit points. You may choose to undertake:

- Choice of ONE Biomedical Science Major (Study Area A) OR
- Choice of TWO Biomedical Science Minors (Study Areas B)

To undertake a Study Area A, you must

Bachelor of Biomedical Science/Master of Data Analytics

complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical sciences electives (Year 2)
- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

To undertake two Study Areas B, you must complete:

- 8 Biomedical Science core units (Year 1)
- 4 units from Study Areas B and 4 biomedical sciences electives (Year 2)
- 4 units from a Study Areas B and 5 postgraduate Data Science units (Year 3).

Sample Structure

To undertake a Study Area A, you must complete:

- 8 Biomedical Science core units (Year 1)
- 2 units from Biomedical Science List A core option units and 6 biomedical sciences electives (Year 2)
- 4 units from a Study Area A and 5 postgraduate Data Science units (Year 3).

Domestic Course structure

Your QUT Bachelor of Data Science degree consists of 288 credit points (24 units) arranged as follows:

- (a) 192 credit points (16 units) of Core discipline units; and
 (b) 96 credit points of complementary studies comprising of two Minors (4 unit set each) chosen from:

- Computational and Simulation Science
- Data Mining and Artificial Intelligence
- Information Systems
- Optimisation and Stochastic Modelling
- Advanced Computing for Data Science

International Course structure

Your QUT Bachelor of Data Science degree consists of 288 credit points (24 units) arranged as follows:

Domestic Entry requirements Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

This degree equips you to build and apply creative, innovative IT solutions across diverse industries. A hands-on, real world based curriculum gives you the opportunity to explore a wide range of areas within IT, and gain deep understanding within your chosen area specialty, such as networking, software development, data warehousing, business processes, information management, web technologies, or digital societies. You experience an innovative, hands-on approach to learning through projects where you develop IT systems. You will be able to gain entrepreneurial skills if you wish to learn how to develop an idea into a commercial opportunity. You learn to harness your creativity and people skills to maximise the impact of your technical know-how relative to the IT marketplace. It positions you for a challenging and rewarding career within the global economy.

Course Design

Requirements for the completion of IN01 Bachelor of Information Technology (Study Area A) are as follows:

- 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
- 120 credit points (10 units) of Major Core units
- 96 credit points of complementary studies comprising of either a Second Major (8 unit set); or two Minors (4 unit set each); or one Minor (4 unit set) plus 4 elective units.

Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). You are able to undertake these options in any semester. The options include introductory units from a wide variety of disciplines offered at QUT.

Complementary Studies

Students may elect to undertake a Second Major (8 unit set), or two Minors (4 unit set each), or one Minor (4 unit set) plus 4 elective units.

Second Major:

A choice of one second major from:

- Technology Innovation and Design
- Computational and Simulation Science

Minors:

A choice of two minors from either Faculty or University Wide Options.

Professional Recognition

Professional recognition can be found in the individual majors of the Bachelor of Information Technology (IN01).

Pathways for Further Study

The QUT Bachelor of Information Technology is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in these disciplines with an additional honours year in [\(IN10\) Bachelor of Information Technology \(Honours\)](#).

Year	2021

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Computer science is the scientific and practical approach to computer-based system design, development and operation. Its subfields range from the fundamental principles of computation through to tools and techniques for IT system development and evaluation. It includes identifying and solving systems design issues associated with achieving critical properties such as correctness, efficiency, robustness, usability and security. Its application extends into

specialised areas including mobile computing, artificial intelligence, robotics, and large-scale information management involving information retrieval and web search engines.

Career Outcomes

Computer Science graduates will:

- be experienced in the principles and practice of software development;
- be familiar with the principles and operation of networked systems; and
- have a sound understanding of the shared foundations underlying all modern computer-based technologies.

In addition, depending on their choice of optional study areas, they will have the opportunity to gain specific expertise in Information Security, Networks and Communications, Intelligent Systems, Data-Centric Computing, or Human-Computer Interaction.

Course Design

Your QUT Bachelor of Information Technology (Computer Science) degree consists of 288 credit points (24 units) arranged as follows:

a) 72 credit points (6 units) of Computer Science Core units, which includes 2 units from a selected options list.

b) 120 credit points (10 units) of Computer Science discipline units

c) 96 credit points of complementary studies comprising of either a Second Major (8 unit set); or two Minors (4 unit set each); or one Minor (4 unit set) plus 4 elective units.

Computer Science Core Units

These units will engage you in understanding Computer Science from a practical approach with an understanding of a range of disciplinary and multidisciplinary perspectives. Later core units, together with the discipline specific units, will progress your learning development through experiential and enquiry based learning to apply this knowledge in practical systems development projects.

Computer Science Major Discipline Units

These units give you discipline level knowledge, skills and application competencies from introductory through intermediate, culminating with advanced graduate level units. They focus on

Bachelor of Information Technology (Computer Science)

developing your knowledge, practice and higher order thinking to an advanced level.

Complementary Studies Options

Second Major:

A choice of one second major from:

- Technology Innovation and Design Second Major
- Computational and Simulation Science Second Major

Minors:

A choice of two minors from the lists below:

- Business Process Management Minor
- Data-Centric Computing Extension Minor
- Information Systems Minor
- Enterprise Systems Minor
- Human-Computer Interaction Minor
- Intelligent Systems Minor
- Mobile Applications Minor
- Networks and Security Minor
- Social Technology Minor
- Software Development for IS and Games Minor
- Technology Innovation Minor
- [University Wide Minors](#)

Professional membership

Graduates are eligible for membership of the ACS (Australian Computer Society)

Overview

Information systems focuses on identifying organisational requirements for applications and acquiring effective systems solutions, whether custom designed and built or selected and implemented, to meet the requirements. Skills involve the design and development of large database applications for business, as well as the purchase and implementation of packaged software addressing business problems. It does not require in-depth knowledge of computer programming but rather in-

depth specialised knowledge of databases and software used in business or of the means to analyse business needs and, in partnership with the systems users, design solutions to the inefficiencies or ineffectiveness of business processes.

Career Outcomes

Information Systems graduates will have skills in design, systems thinking, stakeholder engagement and modelling and abstraction which position them to work as Business Analysts, IS Consultants, solving a range of organisational problems. In addition, depending on their choice of optional study areas, they will have the opportunity to gain specific expertise in Business Process Management, Social Media, Mobile Application Development or Services & Solutions undertaken through complementary minors. Specific skills in Service and Outcomes Management can be gained in the complementary minor called Service and Outcomes Management, which positions graduates for IT management roles within organisations. Finally, further knowledge of and skills in design and innovation can be gained in the secondary major of Systems Innovation, which will lead to careers as IT innovators within enterprises, consulting companies or in their own start-ups.

Course Design

Your QUT Bachelor of Information Technology (Information Systems) degree consists of 288 credit points (24 units) arranged as follows:

- 72 credit points (6 units) of Information Systems Core units, which includes 2 units from a selected options list.
- 120 credit points (10 units) of Information Systems discipline units.

Course Overview

The Bachelor of Mathematics course provides a modern and rigorous training in mathematics to prepare students both for graduate careers in industry and government as well as for honours and postgraduate research work. This course provides students with a mathematics degree that clearly defines paths of study associated with different graduate outcomes in order to meet the wide range of employment possibilities open to mathematics graduates. As well as this, it maintains for students the option to complete a degree that is heavily mathematical through the inclusion of second major and minor options in mathematics and statistics.

The course combines underlying theory with modelling, computational skills and the latest computer technology to enable students to solve real-world problems and prepare them for their future career. Skill development in communication, problem solving, critical thinking and teamwork form an integral part of this course.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

(a) 72 credit points (6 units) of Core units, which are further divided into 48 credit points (4 units) of Mathematics Core units, and 24 credit points (2 units) of Core Option units selected from an approved list.

(b) 120 credit points (10 units) of Major Core units, comprising from a choice of one (1) Major in either:

- Applied and Computational Mathematics;
- Decision Science; or
- Statistical Science.

(c)

Professional Recognition

Professional recognition can be found in the individual majors of the Bachelor of Mathematics (MS01).

Pathways to Further Study

The QUT Bachelor of Mathematics is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in this discipline with an additional honours year in ([MS10](#)) [Bachelor of Mathematics \(Honours\)](#).

Overview

The Applied and Computational Mathematics major provides high quality learning for students who want to combine their studies in mathematics with considerable involvement in real-world applications and computational simulations. The major introduces you to a wide range of concepts in mathematical foundations, modelling and computational methods, and provides strong links between theory and application. You will investigate underlying mathematical theory to see how it can be applied to real-world scenarios from many fields of study including the physical and chemical sciences, biology, engineering and the social sciences. You will also develop computational solution and simulation methods to couple with modelling skills in order to investigate large-scale applied problems.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

(a) 72 credit points (6 units) of Core units, which are further divided into 48 credit points (4 units) of Mathematics Core units, and 24 credit points (2 units) of Core Option units selected from an approved list.

(b) 120 credit points (10 units) of Major Core units

(c) 96 credit points of complementary studies comprising of either a Second Major (8 unit set) or two Minors (4 unit set each).

Mathematics Core Units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Core Option Units List

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

Major Units

Your major is your area of specialisation, in which you will acquire in-depth knowledge and expertise, preparing you for your entry into the workforce or for further study. All majors share the same introductory and advanced units in algebra and calculus, meaning you do not need to decide on your major upfront.

Complementary Studies

Applied and Computational Mathematics Major students may elect to undertake a Second Major (8 unit set) or two Minors (4 unit set each)

Second Major:

A choice of one second major from:

- Decision Science
- Statistical Science
- Computational and Simulation Science

-
- Accountancy
-
- Applied Economics and Finance
-
- Logistics Management
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics

Minors:

- Decision Science
-
- Statistical Science
-
- Discrete Mathematics
-
- Computational and Simulation Science
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics
-
- International exchange
-
- [University Wide Minors](#)

Career Outcomes

As a graduate of the Bachelor of Mathematics (Applied and Computational Mathematics) you will find employment opportunities across a wide range of areas, such as finance, investment, information technology, environmental management, health, marketing, logistics, defence, medicine, education and research. In addition to your knowledge and abilities in mathematics, you will also be highly valued for your analytical and problem-solving skills.

Professional Recognition

Graduates are eligible for membership in the Australian Mathematical Society (AMS), and ANZIAM.

Domestic Course structure

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, including 12 credit points (1 unit) of core option selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Core option units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

***Note: Students who haven't completed Specialist Mathematics (Maths C) in high school must select MXB100 as at Core Option in semester 1.

Major units

Your major is your area of specialisation, in which you will acquire in-depth knowledge and expertise, preparing you for your entry into the workforce or for further study. All majors share the same introductory and advanced units in algebra and calculus, meaning you do not need to decide on your major until your second year of study.

Second major or minors

You may choose to undertake a second major: an eight-unit set in which you will acquire a significant depth of knowledge

and expertise in an area to complement your major. You may choose a second major in decision science, statistical science, computational and simulation science, accountancy, applied economics and finance, physics, chemistry, biological science, earth science or environmental science.

Alternatively you may choose to undertake two minors: four-unit sets with intermediate to advanced level content which extend or supplement studies in your major. Minors are available from a range of inter- and intra-faculty disciplines, as well as experiential minors such as international exchange.

International Course structure

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, including 12 credit points (1 unit) of core option selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Overview

Decision science is a mathematical discipline that considers how to make appropriate and better decisions in complex decision-making problems. It deals with how best to design, operate and/or predict behaviour of complex systems like people, machinery, materials and money in industry, business, finance, education, government and defence. The Decision Science major encompasses the study of quantitative techniques relevant to decision-making in its broadest sense. You will employ a problem-solving approach, using advanced analytical methods such as operations research, financial mathematics, stochastic and mathematical modelling, and mathematical optimisation. Along the way you will also use a variety of software and improve your information technology skills. Because of its emphasis on human-technology interaction and its focus on practical applications, Decision Science overlaps with other disciplines, notably industrial engineering and operations management, economics and finance. This is a multi-disciplinary field.

The coursework also introduces you to different industries and processes that greatly contribute to the economy and environment of nations around the world. These include manufacturing and production, management, health care, finance and economics, goods and services, infrastructure, transportation and logistics, mining, defence, etc. This study area provides a foundation for a variety of careers, and further study.

There is a strong emphasis on:

Overview

The Statistical Science major will provide you with the methodology for analysing data using empirical, theoretical and computational tools. You will discover complex statistical techniques and concepts through applications and datasets from the real world, providing strong links between theory and application. Many of our academics are world leaders in research and have strong industry ties that ensure the relevance of teaching material and high-quality learning experiences. The major will provide you with a fundamental and thorough understanding of statistics and statistical methodology, and the ability to apply such quantitative skills in real-world scenarios. Thus we aim to prepare you for a career in industry, government and/or research.

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

(a) 72 credit points (6 units) of Core units,

which are further divided into 48 credit points (4 units) of Mathematics Core units, and 24 credit points (2 units) of Core Option units selected from an approved list.

(b) 120 credit points (10 units) of Major Core units

(c) 96 credit points of complementary studies comprising of either a Second Major (8 unit set) or two Minors (4 unit set each).

Mathematics Core Units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Complementary Studies

Statistical Science Major students may elect to undertake a Second Major (8 unit set) or two Minors (4 unit set each)

Second Major:

A choice of one second major from:

- Applied and Computational Mathematics
- Decision Science
- Accountancy
- Applied Economics and Finance

-
- Logistics Management
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics

Minors:

- Applied and Computational Mathematics
-
- Decision Science
-
- Discrete Mathematics
-
- Computational and Simulation Science
-
- Biological Sciences
-
- Chemistry
-
- Earth Science
-
- Environmental Science
-
- Physics
-
- International exchange
-
- [University Wide Minors](#)

Career Outcomes

Career outcomes for graduates of the Bachelor of Mathematics (Statistical Science) include data analyst, quantitative analyst, researcher, risk analyst, and statistician. Positions of this nature are often found with employers such as the Australian Bureau of Statistics, Queensland Treasury, state and Commonwealth governments, financial institutions, CSIRO, insurance companies, medical companies.

Professional Recognition

Graduates are eligible for membership in the Statistical Society of Australia

Domestic Course structure

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, which include a core option units selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; operations research; and statistics.

Core option units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

*** Please note: Students who haven't taken Specialist mathematics (Maths C) in high school must take MXB100 in Semester 1 instead of MXB161. This unit will count as their core option.

Major units

Your major is your area of specialisation, in which you will acquire in-depth knowledge and expertise, preparing you for your entry into the workforce or for further study. All majors share the same introductory and advanced units in algebra and calculus, meaning you do not need to decide on your major until your second year of study.

Second major or minors

You may choose to undertake a second major: an eight-unit set in which you will acquire a significant depth of knowledge and expertise in an area to complement your major. You may choose a second major in applied and computational mathematics, operations research, computational and simulation

science, accountancy, applied economics and finance, physics, chemistry, biological science, earth science or environmental science.

Alternatively you may choose to undertake two minors: four-unit sets with intermediate to advanced level content which extend or supplement studies in your major. Minors are available from a range of inter- and intra-faculty disciplines, as well as experiential minors such as international exchange.

International Course structure

Course Design

Your QUT Bachelor of Mathematics degree consists of 288 credit points (24 units) arranged as follows:

- 96 credit points (8 units) of core units, which include a core option units selected from an approved list
- 96 credit points (8 units) of major units
- 96 credit points of complementary studies comprising of either a second major (8 unit set) or two minors (4 unit set each)

Mathematics Core Units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; operations research; and statistics.

Core Option Units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

*** Please note: Students who haven't taken Specialist mathematics (Maths C) in high school must take MXB100 in Semester 1 instead of MXB161. This unit will count as their core option.

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written

statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Rules

1. To fulfil the requirements for the award of the Bachelor of Science degree, you must complete a total of at least 288 credit points, comprising at least 192 credit points of science units. The units completed for the award of the degree must include:

- (a) the first year program as outlined in the course summary
- (b) a major study
- (c) a second major study or two minor areas of study

Major and second major studies are defined in terms of the discipline area and the academic level at which the units are offered.

Major

A major must be completed in one of the following discipline areas: biological sciences; chemistry; earth science; environmental science; physics. A major comprises 120 credit points of units at advanced level, including at least 48 credit points at the third level.

Second Major

A second major may be completed by selecting appropriate units from another major, or from the following additional discipline areas: Human Biomolecular Science, Innovation and Entrepreneurship, Policy & Governance, Sustainable Environments for Health, Computational Science, Science Communication.

Minors and Extension Minors

Minors and Extension Minors are offered in the following disciplines:

Analytical Chemistry, Astrophysics, Cell and Molecular Biology, Human Health and Disease, Industrial Chemistry, Sustainable Environments for Health, Wildlife Biology, Marine Science, Plant Biotechnology, Genetics and Genomics, Forensic Science, Applied Ecology.

Non-Science: corporate IT systems, environmental engineering studies, ethics and human rights, foreign languages, games technology, management, marketing, music, nutrition, psychology etc.

Note: A second major comprises 96 credit points with at least 60 credit points at advanced level for the Science second majors and at least 48 credit points for the non-Science second majors. Major and second major studies may be taken in closely related discipline areas.

2. Optional (elective) units may be chosen from (a) ST01 majors/second majors other than those undertaken by a student, (b) other appropriate units offered by the Science and Engineering Faculty, and (c) units offered by other faculties.

3. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

Notes on the Rules

1. For offerings in the Science and Engineering Faculty, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Science and Engineering Faculty, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or second major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/second major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BSc and will appear in the award title in parentheses. The general form of the award will therefore be: BSc(Major).

Domestic Course structure Your science degree

At QUT you'll create your own personal science degree program of 24 units. During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These five units give you an introduction to the principles of science the opportunity to learn by enquiry, and to broaden your understanding of the core sciences. You'll study four Faculty core units and an Optional unit of your choice.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study.

It comprises 11 units and there are five majors to choose from:

- biological sciences
- chemistry
- earth sciences
- environmental sciences
- physics.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a

wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a Second major (eight units); or an Extended minor (four units) or Breadth minor (four units), plus either a Faculty minor (four units) or Breadth minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second Science discipline, or explore different perspectives which might include:

- computational science
- innovation
- science communication, or
- policy and governance.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major two minors.

Domestic Entry requirements QUT Year 12 Early Offer Scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Diploma of Laboratory Technology](#)

Upon completion of the TAFE-Qld diploma you will be able to enrol at QUT. You will also automatically receive half a year (48 credit points) credit transfer and be able to complete the degree in 2.5 years as a full-time student (or equivalent part-time). More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence

online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Biology is the study of life and living things: animals, insects, plants, and microorganisms; everything that breathes, grows and feeds us; creatures that fly through the air majestically and those that lurk in the depths of the ocean, under rocks, or even under the toilet seat.

Biologists are curious about all these things and want to know how they work, how to grow and protect them—how to get involved with life on this planet.

Biologists also love a challenge. How will we feed a population of eight billion people in 2025? Can we use biological waste to solve our energy crisis? How can we protect our plants and animals from new and fiendish exotic diseases? And how many rare species can we save from extinction?

Why choose this course?

This course will provide a strong foundation in the core biological sciences such as physiology, genetics, zoology, plant sciences and microbiology. It has been designed to be hands on, to develop problem solving skills through active learning, and to give an early appreciation

Bachelor of Science (Biological Sciences)

of the way that many disciplines can be brought to bear on a single problem.

As well as receiving core training in the basics through the biology major, students can either add breadth to their degree by choosing a minor from a complementary discipline (e.g. chemistry), or depth to their biological skills through a specialised minor such as biotechnology.

During the course you will experience some of the most advanced laboratories in Australia and be taught by staff who are at the top of their research fields internationally. You can also expect to stay in touch with the real world, as guest lectures, site visits and opportunities for work-integrated learning bring a strong industry flavour to the degree.

Career outcomes

Biology graduates work in a wide range of jobs throughout the public and private sectors, and in a range of environments including offices, laboratories, farms, fields, factories cities and forests.

Laboratory-based careers may include laboratory management, basic research, forensic microbiology, or molecular genetics. Farm and field-based work could entail animal management, plant breeding, entomology, marine biology, or pest and disease management. Industrial work might involve biotechnology to produce food, fuel or pharmaceuticals. Other careers could involve science writing, teaching, policy development, or the commercialisation and the management of biological products and processes.

Professional recognition

Professional recognition can be achieved through membership of an appropriate scientific society, such as the Australian Society for Biochemistry and Molecular Biology, the Ecological Society of Australia, the Australian Society of Horticultural Science and many more.

Domestic Course structure

During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These five units give you an introduction to the principles of science. The inquiry based experimental science units will give you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study. Your primary major comprises 11 units.

Domestic Entry requirements QUT Year 12 Early Offer Scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Helping you to get into your course

If you don't think your ATAR or selection rank is high enough to get into this course, you can guarantee your entry with guaranteed advanced standing by upgrading through one of the following programs which you can select as one of your QTAC preferences:

Dual TAFE-Qld Brisbane/QUT award

If you enrol in a QTAC offer in the following dual TAFE-Qld Brisbane/QUT award you will automatically receive a QUT conditional offer in June after your enrolment at TAFE-Qld Brisbane is confirmed.

- [Diploma of Laboratory Technology](#)

Upon completion of the TAFE-Qld diploma you will be able to enrol at QUT. You will also automatically receive half a year (48 credit points) credit transfer and be able to complete the degree in 2.5 years as a full-time student (or equivalent part-time). More details will be provided in your QUT conditional offer letter.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence

online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Chemists are involved in most areas of science, technology, environment and industry; for example, medicinal drugs, nanotechnology, water and air quality and energy production. Manufacturing industries rely on chemists to ensure that quality and safety standards are maintained. The development of better and safer drugs depends heavily on the input of chemists.

Chemistry is the study of structures, properties, synthesis and reactions of molecules and materials and these principles are fundamental to many other disciplines, including biotechnology, environmental science, geosciences, materials science and food science.

At QUT you will study analytical, physical, organic and inorganic chemistry with an additional focus on modern applications such as nanotechnology, analytical chemistry, and spectroscopy.

Why choose this course?

The QUT chemistry degree is a qualification that is known and respected by employers. Many employers prefer QUT chemistry graduates, especially

those with an extension minor in chemistry, because of their advanced technical skills, their experience with modern instrumentation and their training in scientific communication.

After two years' study, you will be eligible to apply for the Queensland Health Analytical Chemistry Scholarship (available only to QUT chemistry students), which pays \$21 000 for your third year, with guaranteed employment for two years after graduation#.

Our training in analytical chemistry throughout the chemistry degree is renowned nationally. You will undertake a comprehensive laboratory program including experiments using modern computer-based analytical instruments and gain vital knowledge and experience in the health and safety aspects of handling chemicals. You will learn under the guidance of highly respected lecturers, most of whom are actively involved in cutting-edge research.

Career outcomes

Among a diverse range of employment opportunities, you may become an industrial chemist, materials scientist, environmental chemist, quality control analyst, laboratory supervisor, food chemist, or an organic/inorganic chemist. Your interaction with QUT experts in current fields of interest, including drug development, clay and minerals chemistry, renewable energy sources, nanotechnology, environmental monitoring, and applications of modern analytical instrumentation, may lead to careers in these areas.

QUT graduates are sought after by police and other forensics laboratories because of their extensive practical training using modern analytical instrumentation. With the addition of a postgraduate diploma in education, you may wish to pursue opportunities in the teaching profession.

Professional recognition

Graduates completing the chemistry major with the chemistry for industry second major are eligible for membership of the Royal Australian Chemical Institute.

Domestic Course structure

During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These five units give you an introduction to the principles of science. The inquiry based experimental science units will give

you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study. Your primary major comprises 11 units. From 2018 MXB100 Introductory Calculus and Algebra will also be part of your major.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a second major (eight units); or a minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second science discipline (biological sciences, chemistry,

environmental science or physics), or explore different perspectives which might include:

- computational and simulation science
- innovation and entrepreneurship
- science communication, or
- policy and governance.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major with two minors.

Overview

The Earth is an amazing place and for an earth scientist, it offers a unique natural laboratory that covers both space and time. Earth science is a multidisciplinary science that applies the tools of chemistry, physics, biology and mathematics to understand earth processes, decipher its past and predict its future. Earth scientists work to monitor changes in the Earth's environment and suggest solutions to environmental problems. They study natural hazards to find ways to lessen the loss of life and reduce property damage.

Earth scientists play key roles in the search for fuels and minerals. Climate change, earthquakes, and geothermal energy are just a few of the issues that require knowledge of earth science. Earth science (also known as geoscience) blends the traditional fields of geology, physical geography and oceanography/hydrology. Geology describes the rocky parts of the Earth's crust (or lithosphere) and its historic development. Physical geography, which studies the Earth's surface, includes geomorphology, soil science, and biogeoscience. The marine and freshwater parts of Earth define the

Bachelor of Science (Earth Science)

fields of oceanography and hydrology.

Why choose this course?

Earth science is an exciting and fun science with many interesting and practical applications and a great number of travelling opportunities. If you enjoy working outdoors and are interested in understanding how the world works, then you will find earth science a rewarding area of study. Blending current research issues and problem solving with theory and industry-related, hands-on practicals, the earth science major provides you with a fundamental background to pursue a career in either the resource or the environmental sector.

Career outcomes

There is currently a shortage of earth scientists in Australia and employment rates are high and salaries great. Earth scientists are in high demand in the energy sector (oil, gas, coal, geothermal) and exploration and mining industries. Many earth scientists find employment in environmental consulting companies tackling geotechnical, groundwater contamination, natural hazards or climate change issues. Earth scientists may work for government agencies such as CSIRO and Geoscience Australia doing applied research, or for state or local governments.

Domestic Course structure

During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These five units give you an introduction to the principles of science. The inquiry based experimental science units will give you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

Why choose this course?

The environmental science course at QUT is designed to provide hands-on skills and field experiences using real-world industry examples and methods to allow you to pursue a variety of careers as an environmental scientist. The program has particular strengths in the areas of land resources, hydrogeology, environmental geology, biogeochemistry, geographic information systems and field mapping, systems modelling and sustainable management.

The program also emphasises practical skills and experience, including day-long and extended field trips. You will learn from guest lecturers from relevant government agencies, industry and QUT staff who regularly provide advice for industry, government and community groups.

Overview

We rely on our natural environment to sustain our lives and our lifestyles. Do you want to help the earth's natural environment to maintain its integrity while continuing our urban and rural development? Have you wanted to be part of the solution to our increasing

Bachelor of Science (Environmental Science)

environmental issues such as climate change, air, water and soil quality, soil erosion, dry land salinity or water resources? We continually need to improve our understanding and management of the natural environment to balance our development with wise management while minimising impacts and degradation.

An understanding of the mechanisms controlling environmental systems provides the skills required to undertake a great range of scientific environmental planning and management, and tackle problems such as local water quality and ecosystem impacts, soil erosion, catchment and groundwater use, or adaptation to global climate change.

Career outcomes

Environmental scientists are continually needed in a wide variety of planning, management, monitoring and research careers. These roles are usually found in government departments and agencies, local councils, consultancy, and industrial and mining companies. As an environmental science graduate, you could be working in urban, rural or remote settings depending on your interests.

Graduates are equipped to assess resources, implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas. These include strategic land use planning; waste disposal; pollution measurement and control; coastal protection; environmental impact of mining, tourism and urban development; rehabilitation and reforestation of degraded sites; ground water assessment and modelling; flood plain planning; erosion control; and marine science.

Professional recognition

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand and a variety of other scientific societies, including the Soil Science Society of Australia and the Ecological Society of Australia.

Domestic Course structure

Your science degree

During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These six units give you an introduction to the principles of science. The inquiry based experimental science units will give

you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study. Your primary major comprises 10 units.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a second major (eight units); or an extended minor (four units) or breadth minor (four units), plus either a faculty minor (four units) or breadth minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second science discipline

(biological sciences, chemistry, environmental science or physics), or explore different perspectives which might include:

- computational and simulation science
- innovation and entrepreneurship
- science communication, or
- policy and governance.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to your chosen science major with two minors. Minors include:

Extension minor (four units)

Gain further insights and depth in your primary area of study. Intensify your chosen major to develop additional knowledge, skills and experience for your career in science.

Breadth minor (four units)

Broaden your studies to include minors from the list of science majors, second majors or from the list of university-wide minors.

Overview

Physicists are involved in finding solutions to many current and future challenges facing our world. These include developing instruments for environmental monitoring, computer models for climate change prediction, and developing solar and renewable energy systems. Physicists are also attempting to address the world's ever-increasing appetite for information and information processing by undertaking research into quantum computers, nanotechnology, lasers and photonics.

Physics deals with the natural laws and processes, and the states and properties, of matter, energy, space and time. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and optics, medical physics, computational physics, nuclear and radiation physics, astronomy and astrophysics, thermodynamics, quantum mechanics and relativity.

Why choose this course?

QUT's physics course has a strong applied emphasis so you will spend a

Bachelor of Science (Physics)

significant amount of time in the undergraduate teaching laboratories. In each unit that you study the theory will be supported by experimental work. In your final year, you will undertake research and gain exposure to the research laboratories through the experimental physics unit.

You can also apply for a Vacation Research Experience Scholarship to gain experience working on a research project. Many of the lecturers at QUT have worked in industry and QUT works closely with industry through consultancy and research projects, so you can be sure that the course will be up to date and relevant to the real world.

Career outcomes

Physicists are an asset to almost any industry. Employment areas of QUT physics graduates are very wide ranging. These include research and development departments of large manufacturing companies, mining and exploration companies, research institutions such as the Commonwealth Scientific and Industrial Research Organisation and the Defence Science and Technology Organisation, government bodies such as the Bureau of Meteorology, environmental protection agencies and health departments, schools, universities and hospitals.

Broad training in data analysis and problem-solving skills also makes physicists well suited to management and consulting roles in a range of technology based industries.

Professional recognition

Graduates are eligible for membership of the Australian Institute of Physics, dependent on choice of study options.

Domestic Course structure

During your first year of study you'll get to sample a range of core science disciplines, allowing you to decide on your major later.

Faculty core units

These five units give you an introduction to the principles of science. The inquiry based experimental science units will give you the opportunity to learn by enquiry and become familiar with the methods of scientific inquiry.

From your very first semester, you will collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real-world problems from multiple scientific perspectives and learn the tools of the

trade. Depending on your choices, you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet.

Working with data you have collected, you'll study how to apply fundamental methods of scientific practice, perform scientific analysis, and learn the tools to present your findings. You'll have the opportunity to explore and discover the range of career and professional outcomes available to you, so you can gain the most from your unit selection and the flexibility the Bachelor of Science has to offer.

Primary major

Your major is your main area of study for what you aspire to become professionally. You will receive in-depth knowledge and expertise within your chosen scientific discipline, preparing you for entry into the workforce or further study. Your primary major comprises 11 units.

Complementary study areas

This is where you make the degree your own, tailoring your studies to further match your individual career goals with a wide range of complementary study options available. You'll have the opportunity to develop sought-after professional skills, deepen your understanding of your major discipline, pursue an interest from across the university, or broaden your scientific understanding. You can even work with industry or study overseas to gain credit towards your degree.

You can choose: a second major (eight units); or a minor (four units).

Second major (eight units)

Choose a second area of study to complement your major, and develop a significant depth of knowledge and skills in two discipline areas. Experience another field, learn another academic methodology and experience interdisciplinary networking.

Choose a second science discipline (biological sciences, chemistry, environmental science or physics), or explore different perspectives which might include:

- computational and simulation science
- innovation and entrepreneurship
- science communication, or
- policy and governance.

Minor (four units)

You might prefer to expand the breadth and depth of your studies by adding to

your chosen science major with two minors. Minors include:

- Astrophysics
- Nanotechnology

Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,400 per year full-time (96 credit points)
International fee (indicative)	2021: \$39,800 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February Commencing studies in 2022: this program is available for on-campus studies only.
Course Coordinator	Associate Professor Peter Prentis

Domestic Entry requirements Prerequisites

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- Mathematical Methods (Units 3 & 4, C); *and*
- Biology (Units 3 & 4, B); *and*
- completion of Year 12 or attained age 18 years.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- One of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, Marine Science, Physics, or Psychology (Units 3 & 4, C)
- Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Academic entry requirements

You must be a current student completing Year 12 in Australia.

You will be considered solely on the basis of your ATAR or IB Diploma results.

Please refer to the [Guide to entry thresholds](#).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5

- Wildlife Ecology Minor
- Advanced Science Minor

Sample Structure

The Biological Sciences major in the Bachelor of Science Advanced (Honours) is structured to provide high-achieving students with a strong applied knowledge of biology, building on foundational knowledge obtained in high school. The major will extend understanding of the structure, function and diversity of living things, from cells to whole organisms, including key areas of plant and animal biology and microbiology and the interaction with each other and the environment. The Biological Sciences major is complemented and extended with a minor in either Biotechnology & Genetics or Wildlife Ecology or a minor specifically tailored to future research goals. Students will study units in their first semester which help them identify which area they wish to pursue. By integrating theory and practice and with a strong focus on experimental design, students will learn to apply key biological principles to important areas such as conservation, food security and biotechnology that will lead to research opportunities third and fourth year research units. All students in the major will have the opportunity to participate in research-based activities in these or other key areas of biology through the ST20 core units and through extracurricular activities. Graduates of the Biological Science major will be skilled at the desk, in the laboratory and in the field with strong skills in one of the areas closely aligned to research. They will have advanced research skills and critical thinking ability needed to tackle real-world problems in biology and undertake cutting edge research. These attributes will support high-achieving students in post-graduate study and a research career.

Sample Structure

Earth Science is critical for Australia's future sustainable development as our natural resources are a major building block of the nation's economy. Geoscientists play a leading role in finding, developing and managing these resources, as well as studying climate change and managing environmental issues, such as chronic water shortage, dry land salinity and coastal development.

An understanding of Planet Earth is fundamental to your career as a Scientist. Earth Science provides us with an understanding of Earth materials, the natural processes acting in and upon our planet, and its history. You will gain advanced skills needed to become a professional Earth Scientist with special emphasis on hands-on skills acquired through laboratory work and field studies for both resource exploration and management and environmental applications. The program provides you with particular strengths in the areas of sedimentary geology, structural geology, igneous processes and geology, hydrogeology, marine geology, and environmental geology - all these subject areas are of particular importance to Queensland and key industrial sectors that underpin our economy. The Earth Science major in the Bachelor of Science Advanced (Honours) will qualify you with an advanced and coherent knowledge in Earth Science.

Academic entry requirements

You must be a current student completing Year 12 in Australia.

You will be considered solely on the basis of your ATAR or IB Diploma results.

Please refer to the [Guide to entry thresholds](#).

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- One of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, Marine Science or Physics (Units 3 & 4, B)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

ST20 Bachelor of Science Advanced (Honours) comprises 384 credit points (32 units), including 4 core units (STB100, STB200, STB300 and a core option), 240 credit points (20 units) discipline specific major units (including 8 Honours level units) and 96 credit points (8 units) of complementary studies (2 minors).

Study Area B requirements for an Environmental Science Major are:

- Statistical Modelling minor

And one minor (48 cp from)

- Environmental Management Minor
- Advanced Science Minor

International Course structure

ST20 Bachelor of Science Advanced (Honours) comprises 384 credit points (32 units), including 4 core units (STB100, STB200, STB300 and a core option), 240 credit points (20 units) discipline specific major units (including 8 Honours level units) and 96 credit points (8 units) of complementary studies (2 minors).

Study Area B requirements for an

Bachelor of Science Advanced (Honours) (Environmental Science)

Environmental Science Major are:

- Statistical Modelling minor

And one minor (48 cp from)

- Environmental Management Minor
- Advanced Science Minor

Sample Structure

The Environmental Science major in the Bachelor of Science Advanced (Honours) will qualify students with an advanced and coherent knowledge of environmental processes and systems. The study of Environmental Science provides an in depth knowledge of the Earth's natural resources and an understanding of the mechanisms, natural processes and human impacts that shape environmental systems. Environmental Scientists play an integral role in managing Australia's future sustainable development, environment impacts and resource management while minimising impacts and degradation.

Within this major students will gain the skills required to pursue a career as a professional environmental scientist, science educator or resource manager. This will be achieved with an emphasis on developing theoretical understanding of environmental processes and systems together with hands-on skill development and hypothesis testing through practical and field studies. The major will provide students with particular strengths in the areas of land resources, environmental impacts, geographic information systems and field mapping, systems modelling and environmental management.

Year	2021
QUT code	ST20
CRICOS	102820D
Duration (full-time)	4 years
ATAR/Selection rank	90.00
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,400 per year full-time (96 credit points)
International fee (indicative)	2021: \$39,800 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February Commencing studies in 2022: this program is available for on-campus studies only.
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Associate Professor Peter Prentis
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Prerequisites

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- Mathematical Methods (Units 3 & 4, C); *and*
- Physics (Units 3 & 4, B)

Assumed knowledge

Before you start this course, we assume you have sound knowledge of the subject/s listed below. If you don't have the subject knowledge, you can still apply for the course but we encourage you to undertake bridging studies to gain the knowledge:

- Specialist Mathematics (Units 3 & 4, C); *and*
- At least one of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, or Marine Science (Units 3 & 4, C).

Adjustments to your ATAR/selection rank

Elite Athlete Scheme adjustments do not apply to this course. Any other adjustment you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank.](#)

International Entry requirements Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.5
Listening	8.0
Reading	7.0

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

Course requirements: Literacy and numeracy

You will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate from the course. You are permitted three test attempts in total for each component as a student at QUT. If you fail three test attempts for each component, you will not be able to graduate. You are not eligible to apply for a place in the course if you have failed

two test attempts for one or more components, at another institution. The test will assess your personal literacy and numeracy skills. QUT provides you with one reimbursement to cover the cost of the test. For more information view additional course requirements.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Information Technology. You will undertake the two components of the double degree concurrently.

Creative Industries component

The core of the program centres on Creative Enterprise studios that offer authentic, problem-based activities, coupled with work integrated learning, skills in entrepreneurship and commercial links that engage in creative start-ups. Early in your degree, you choose 24 credit points of introductory units to experience your preferred majors, with the option to undertake defined breadth units in other relevant areas. Using this experience, you then decide upon a creative industries major.

You will complete:

- core units - 72 credit points
- creative industries introductory units - 24 credit points
- a creative industries major - 96 credit points from one of the specified majors including: Creative and Professional Writing; Media and Communication; Drama and Performance; Entertainment; Fashion Communication; Interactive and Visual Design; Music and Sound; and Screen Content Production.

Information Technology component

You will complete:

- six core units (72 credit points: 48cp + 24cp core options)
- 10 major core units (120 credit points).

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Information Technology. You will undertake the two components of the double degree concurrently.

Consulting

Year	2021
QUT code	ID10
CRICOS	096583M
Duration (full-time)	4 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2021: CSP \$12,200 per year full-time (96 credit points)
International fee (indicative)	2021: \$33,000 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Program Director, School of Communication; Dr Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Elija Cassidy (Digital Media); Dr Wayne Kelly (Computer Science); Dr Erwin Fieft (Information Systems) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Communication (Digital Media) and 192 credit points from the Bachelor of Information Technology. You will undertake the two components of the double degree concurrently.

Communication component

You will complete:

- four core units (48 credit points)
- a communication major (144 credit points) in digital media.

Information technology component

You will complete:

- six core units (72 credit points)
- ten major core units (120 credit points) from either the information systems or computer science major.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Discipline Coordinator	Dr Jason Sternberg (Journalism); Dr Marion Bateson (Biological Science); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); Dr Konstantin Momot (Physics) (Science) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Communication (Journalism) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree

concurrently.

Communication component

You will complete:

- four core units (48 credit points)
- a communication major (144 credit points) in journalism.

Science component

You will complete five core units (60 credit points) and a science major (132 credit points) in one of the following study areas:

- biological sciences
- chemistry
- earth science
- environmental science
- physics

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2021
QUT code	ID11
CRICOS	096584K
Duration (full-time)	4 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2021: CSP \$11,600 per year full-time (96 credit points)
International fee (indicative)	2021: \$34,300 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February Commencing studies in 2022: this program is available for on-campus studies only.
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Program Director, School of Communication; Dr Graham Johnson (Science)
Discipline Coordinator	Dr Glen Thomas (Professional Communication); Dr Marion Bateson (Biological Science); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); Dr Konstantin Momot (Physics) (Science) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Communication (Professional Communication) and 192 credit points from the Bachelor of Science. You will undertake the two components of the

double degree concurrently.

Communication component

You will complete:

- four core units (48 credit points)
- a communication major (144 credit points) in professional communication.

Science component

You will complete five core units (60 credit points) and a science major (132 credit points) in one of the following study areas:

- biological sciences
- chemistry
- earth science
- environmental science
- physics

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Communication (Professional Communication) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree concurrently.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Year	2021
QUT code	ID20
CRICOS	096575M
Duration (full-time)	4 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$8,000 per year full-time (96 credit points)
International fee (indicative)	2021: \$35,000 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Program Director, School of Design; Dr Graham Johnson (Science)
Discipline Coordinator	Dr Greg Mewes (Landscape Architecture); Dr Marion Bateson (Biological Science); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); Dr Konstantin Momot (Physics) (Science) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements Prerequisites

Satisfactory completion of Year 12 in an Australian school system or equivalent.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree concurrently.

Design component

You will complete:

- four school-wide impact lab units (48 credit points)
- the landscape architecture major (144 credit points), including: four shared foundation units (48 credit points) eight units (96 credit points) from the discipline.

Science component

You will complete five core units (60 credit points) and a science major (132 credit points) in one of the following study areas:

- biological sciences
- chemistry
- earth science
- environmental science
- physics

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course.

International Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Design (Landscape Architecture) and 192 credit points from the Bachelor of Science. You will undertake the two components of the double degree concurrently.

Design component

You will complete:

Year	2021
QUT code	ID22
CRICOS	099057J
Duration (full-time)	4.5 years
Duration (part-time domestic)	9 years
ATAR/Selection rank	72.00
Offer Guarantee	Yes
Campus	Gardens Point, Kelvin Grove
Domestic fee (indicative)	2021: CSP \$6,300 per year full-time (96 credit points)
International fee (indicative)	2021: \$34,200 per year full-time (96 credit points)
Total credit points	432
Credit points full-time sem.	48
Credit points part-time sem.	24
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Prerequisites

You must have passed four semesters (Units 3 & 4, C) at an Australian high school level or equivalent:

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- at least one of General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Haven't completed the prerequisite subjects?

You may be able to meet the prerequisite requirements if you've completed equivalent subjects or by completing bridging courses.

[How to meet prerequisite requirements](#)

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QUTAC initial teacher education webpage](#).

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

International Entry requirements Prerequisites

You must have passed four semesters (Units 3 & 4, C) at an Australian high school level or equivalent:

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- at least one of General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Haven't completed the prerequisite subjects?

You may be able to meet the prerequisite requirements if you've completed equivalent subjects or by completing bridging courses.

[How to meet prerequisite requirements](#)

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) capabilities criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0

Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Biology (Units 3 & 4, C)
- Chemistry (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of 96 credit points of core units and 96 credit points of a selected major.

International Course structure

Biomedical Science component consists of 96 credit points of core biomedical science studies and either one 72 credit point Biomedical Science Major and 24 credit points of elective units, or two Biomedical Science Minors (each worth 48 credit points).

The Mathematics component consists of

96 credit points of core units and 96 credit points of a selected major.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This course combines the Bachelor of Business and the Bachelor of Data Science degrees. The business degree is uniquely designed to inspire students to realise their potential, to think entrepreneurially, and to ethically and sustainably shape the future of business. Students will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. The data science component covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. Ethical considerations, communication, collaboration and critical thinking skills are all given first-class coverage.

Course structures will be available soon.

International Course structure

This course combines the Bachelor of Business and the Bachelor of Data Science degrees. The business degree is

uniquely designed to inspire students to realise their potential, to think entrepreneurially, and to ethically and sustainably shape the future of business. Students will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. The data science component covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. Ethical considerations, communication, collaboration and critical thinking skills are all given first-class coverage.

Course structures will be available soon.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This course allows students to combine their interest in the property industry in the Australian and international economy with a data science degree and graduate with a diverse set of skills to enhance employment options in both fields. Across this double degree, students benefit from meaningful connections with high profile industry employers, practical and effective hands-on learning experiences during their studies, classes with leading and expert teachers, international study and placement opportunities, and the convenience of a city-based campus.

Course structures will be available soon.

International Course structure

This course allows students to combine their interest in the property industry in the Australian and international economy with a data science degree and graduate with a diverse set of skills to enhance employment options in both fields. Across this double degree, students benefit from

meaningful connections with high profile industry employers, practical and effective hands-on learning experiences during their studies, classes with leading and expert teachers, international study and placement opportunities, and the convenience of a city-based campus.

Course structures will be available soon.

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Communication and 192 credit points from the Bachelor of Data Science. You will undertake the two components of the double degree concurrently.

Communication component

You will complete:

- four core units (48 credit points)
- a communication major (144 credit points) from one of the following disciplines: Digital Media, Entertainment Industries, Journalism, or Professional Communication.

Data science component

You will complete 192 credit points of Data Science core units.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure Your course

In order to complete this course, you must complete a total of 384 credit points, made up of 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Data Science. You will undertake the two components of the double degree concurrently.

Creative Industries component

The core of the program centres on Creative Enterprise studios that offer authentic, problem-based activities, coupled with work integrated learning, skills in entrepreneurship and commercial links that engage in creative start-ups. Early in your degree, you choose 24 credit points of introductory units to experience your preferred majors, with the option to undertake defined breadth units in other relevant areas. Using this experience, you then decide upon a creative industries major.

You will complete:

- Core units - 72 credit points

- Creative Industries introductory units - 24 credit points
- A Creative Industries major - 96 credit points from one of the specified majors including: Creative and Professional Writing; Media and Communication; Drama and Performance; Entertainment; Fashion Communication; Interactive and Visual Design; Music and Sound; and Screen Content Production.

Data Science component

You will complete 192 credit points of Data Science core units.

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Data Science program and 336 credit points for the Bachelor of Laws (Honours) program. You will study data science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the data science component, students will complete 192 credit points (16 units) consisting of :

- 14 core units (168 credit point)
- 2 data science elective units (24 credit points)

Under the law component, you will complete 336 credit points of core units and a mixture of law electives made up of:

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students may select a general law elective in place of the introductory law elective

**Students have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

This double degree will give you a broad base of commercial knowledge in business and information technology. Business is highly dependent on information technology infrastructure, so having the expertise in both makes you more attractive to employers looking for multidisciplinary staff.

Businesses look for staff who can communicate well from both the business and information technology disciplines, so

having the skills and knowledge across both gives you a competitive edge over other graduates. You will have the opportunity to complement your information technology studies in either information systems or computer science with a business major in accountancy, advertising, economics, finance, human resource management, international business, management, marketing or public relations.

Career Outcomes

This double degree will give you the particular skills to acquire a role requiring knowledge in both business and information technology. These include business and systems analyst, systems manager, product manager for an information technology product, team leader for multidisciplinary staff, pre-sales consulting, after-sales support, technical manager or consultant. Future career prospects include chief financial officer, chief information officer and chief technical officer.

Study Areas

IX22 has nominated majors in Information Systems and Computer Science in the Information Technology component of the degree. There will now be a Study Area A shown on a graduate's parchment.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, allow graduates to satisfy the academic requirements for membership to a number of professional bodies. Further information is available from the discipline schools.

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Information Technology program and 192 credit points from the Bachelor of Business program.

Business component:

- Eight Business School core units (96 credit points) *
- Eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accountancy

Bachelor of Business/Bachelor of Information Technology

major units to allow them to complete professional requirements.

Information Technology component:

- Six (6) Core IT units (72 credit points - 48cp + 24cp core options)
- Ten (10) major core units (120 credit points)

International Course structure

"Select a unit from the Economics Options List or the Core Options Unit List" is repeated 5 times in this course progression. Please note that there are two (2) core options units and three (3) Economics Option Units in this pool. This has been done to give flexibility of choice as to when option units from the two groups may be undertaken.

Domestic Entry requirements

QUT year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly in a science-based career.

Aim

Through the combination of science and business, you will equip yourself for an exciting career at the cutting edge of

scientific innovation within a range of public, private and non-profit industries.

Career outcomes

By combining your science studies with business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As well as the range of science-based careers available such as a scientific modeller, engineering software developer, scientific programmer, and computational scientist you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.

Professional membership

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors.

Non-standard attendance

Field work is a requirement of some areas of science.

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor Science program and 192 credit points from the Bachelor of Business program.

Business component:

- eight Business School core units (96 credit points) *
- eight major core units (96 credit points)

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

International Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor Science program and 192 credit points from the Bachelor of Business program.

Business component:

- eight Business School Core units (96 credit points) *
- eight Major Core units (96 credit points)

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

Year 4, Semester 1	
AMB320	Advertising Management
AMB330	Digital Optimisation
Year 4, Semester 2	
AMB339	Advertising Campaigns
BSB399	Real World Ready - Business Capstone
Core Options Units List:	
Select two units (24 credit points) from the following:	
BSB130	Social Enterprises
BSB131	Applied Business Analytics
BSB305	Undergraduate Business Internship
BSB110	Accounting
BSB111	Business Law and Ethics
BSB009	Experiential Learning: Innovation, Ideas and Enterprise Skills

“Select a unit from the Economics Options List or the Core Options Unit List” is repeated 5 times in this course progression. Please note that there are two (2) core options units and three (3) Economics Option Units in this pool. This has been done to give flexibility of choice as to when option units from the two groups may be undertaken.

Bachelor of Science/Bachelor of Business

Code	Title
Year 1, Semester 1	
BSB106	Dynamic Markets
BSB105	The Future Enterprise
Year 1, Semester 2	
BSB108	Business Environment
BSB107	Financial Performance and Responsibility
Year 2, Semester 1	
EFB222	Introduction to Applied Econometrics
Select a unit from the Core Options Unit List or The Economics Options List	
*Students undertake EFB222 as one of the Economics Options Units.	
Year 2, Semester 2	
EFB223	Economics 2
Select a unit from the Core Options Unit List or The Economics Options List	
Year 3, Semester 1	
EFB331	Intermediate Microeconomics
Select a unit from the Core Options Unit List or The Economics Options List	
Year 3, Semester 2	
BSB250	Business Citizenship
Select a unit from the Core Options Unit List or The Economics Options List	
Year 4, Semester 1	
BSB399	Real World Ready - Business Capstone
EFB330	Intermediate Macroeconomics
Year 4, Semester 2	
EFB338	Contemporary Application of Economic Theory
Select a unit from the Core Options Unit List or The Economics Options List	
Core Options Units	
Select two units (24 credit points) from the following:	
BSB130	Social Enterprises
BSB131	Applied Business Analytics
BSB305	Undergraduate Business Internship
BSB110	Accounting
BSB111	Business Law and Ethics
BSB009	Experiential Learning: Innovation, Ideas and Enterprise Skills
Economics Options List	
Select four units (48 credit points) from the Quantitative and/or Applied Economics Units List:	
EFB222	Introduction to Applied Econometrics
EFB332	Applied Behavioural Economics
EFB333	Applied Econometrics

EFB337	Game Theory and Applications
EFB201	Financial Markets
EFB225	Economics for the Real World
EFB226	Environmental Economics and Policy
EFB336	International Economics

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

Your Business studies will combine the broad knowledge of business practice and in depth studies in at least one business discipline area in the Bachelor of Business with the advanced quantitative skills and problem solving abilities that you will develop with the Bachelor of Mathematics.

You will develop the ability to apply mathematics, statistics, computational methods and decision science to real world problems. You will also gain understanding of the broad principles of Business at the same time as developing the skills and discipline knowledge necessary to enter the business career of your choice.

Career Outcomes

Combining business and mathematics offers diverse and sustainable career opportunities.

Business graduates are equipped to undertake sophisticated economic and financial modelling which is important in

business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Business graduates may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

Mathematics graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, data analytics, defence and national security, research, information technology, environmental science, health, management, marketing, logistics, media, and education. In addition to their knowledge and skills in mathematics, graduates are also highly valued for their analytical and problem-solving skills. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

Favourable career outcomes for Bachelor of Mathematics graduates are likely due to the current demand for qualified statisticians and mathematicians.

Professional Recognition

Both degrees allow you to satisfy the requirements of membership of the relevant professional body for your chosen majors.

Financial Support

You should consider applying for an industry-sponsored mathematics bursary or a business scholarship to help you financially throughout your studies. For further information visit [Scholarships](#).

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:

- eight Business School core units (96 credit points) including MGB227 (see below)*

Bachelor of Business/Bachelor of Mathematics

- eight major core units (96 credit points)

*Please note that BSB123 Data Analysis (one of the Business School core units) is not required as the content of MXB107 covers similar topics.

MGB227 Entrepreneurship replaces BSB123.

*Accounting major students complete six business core units and 10 accountancy major units to allow them to complete professional requirements.

Mathematics component:

- six core units (72 credit points), which are further divided into four mathematics core units (48 credit points), and two core option units (24 credit points) selected from an approved list
- 10 major core units (120 credit points)

Mathematics core units

These units give you the grounding in mathematical theory and practice upon which your major units will build, and also provide an introductory taste of each of the three majors: applied and computational mathematics; decision science; and statistical science.

Core option units

You may choose from a wide variety of introductory units from other disciplines offered at QUT, or you may choose additional mathematics units. The additional mathematics units include a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems.

International Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Mathematics program and 192 credit points from the Bachelor of Business program.

Business component:

- eight Business School core units (96 credit points) including MGB227 (see below)*

“Select a unit from the Economics Options List or the Core Options Unit List” is repeated 5 times in this course progression. Please note that there are two (2) core options units and three (3) Economics Option Units in this pool. This has been done to give flexibility of choice as to when option units from the two groups may be undertaken.

Domestic Entry requirements

QUT year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

This double degree allows you to complement your technical skills with creative skills through digital media and film production. You will learn to merge the creative and imaginative with the technical to develop sophisticated and innovative digital products. You can choose to complement your skill set through a range of information technology and creative industries areas of interest to diversify your studies, including:

- animation

- art and design history
- creative and professional writing
- dance studies
- digital media
- entertainment industries
- entrepreneurship
- fashion communication
- film, television and screen game design
- interactive and visual design
- journalism, media and communication
- literary studies
- music
- online environments

Career Outcomes

As a graduate you can enjoy the more creative side of information technology careers including digital media programmer, simulation designer or developer, games producer or designer, sound designer, mobile entertainment and communications developer, user interface developer, knowledge worker in music and sound, web developer and digital product strategist.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Design

You will undertake the Bachelor of Creative Industries core units as well as one creative industries major. Your information technology degree component comprises eight core units, four breadth units, and four units in your information technology specialisation.

Study Areas

The Bachelor of Information Technology has majors in Information Systems and Computer Science which will be shown on the a graduate's parchment.

Pathways to Further Studies

On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Creative Industries (Honours), provided you have met entry requirements.

The QUT Bachelor of Information Technology is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in this discipline with an additional honours year in (IN10) Bachelor of Information Technology (Honours).

Work Integrated Learning

The Faculty's Work Integrated Learning Minor gives you the opportunity of industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments.

Unit

Incompatibility/Translation Information

Details on the translation and incompatibility of old and new units is located here:

[Undergraduate Translation Table](#)

If you have completed the unit(s) listed under the "Translation Unit Codes" column, you are not permitted to enrol in the listed new code.

Domestic Course structure

You will undertake the Bachelor of Creative Industries core units (96 credit points) as well as 96 credit points from a creative industries major.

The Bachelor of Information Technology degree comprises of:

- 72 credit points (6 units) of information technology core units, which includes 24 credit points (2 units) of option units* selected from an approved list
- 120 credit points (10 units) of major core units (Information Systems or Computer Science).

Study overseas

[Study overseas](#) while earning credit towards your QUT degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course.

International Course structure

You will undertake the Bachelor of Creative Industries 96cp core units as well as 96cp from a creative industries major.

The Bachelor of Information Technology degree comprises of ;

- 72 credit points (6 units) of Information Technology Core units, which includes 24 credit points (2 units) of Option Units* selected from

an approved list.

- 120 credit points (10 units) of Major Core units (Information Systems or Computer Science).

Study overseas

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Career Outcomes

This double degree will set you up for a career in the rapidly expanding fields of contemporary communication and the application of new media technologies.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study Areas

The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate's parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management

- Data Warehousing
- Digital Environments
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have met entry requirements.

Cooperative Education

The Faculty of Science and Engineering's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the [Cooperative Education Program](#).

Domestic Course structure

This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study areas

Course Structure Information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the Bachelor of Science (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the

Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96 Honours Level Units

96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons): LLH201 Legal Research, LLH206 Administrative Law, LLH302 Ethics and the Legal Profession, LLH305 Corporate Law, LLH401 Legal Research Capstone (24 cps) and two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. Graduates will satisfy the requirements for membership in the relevant professional body for their science major.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You have a broad range of options to choose from and the flexibility to create your own personal science degree program.

Bachelor of Science/Bachelor of Laws (Honours)

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations. Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Non-standard attendance

Field work is a requirement in some areas of science.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the [Bachelor of Science](#) (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may

select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the [Bachelor of Science](#) (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of

the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Sample Structure

Before enrolling in an option (elective) unit, you must ensure you have met any pre- or co-requisite requirements. You can check this by referring to the unit outlines on [QUT Virtual](#).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

- 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
- 120 credit points (10 units) of Major Core units

Information Technology Majors
Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List
The Bachelor of Information Technology

Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons): LLH201 Legal Research, LLH206 Administrative Law, LLH302 Ethics and the Legal Profession, LLH305 Corporate Law, LLH401 Legal Research Capstone (24 cps) and two Advanced Electives in law.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

Graduates may develop careers in cyberlaw, intellectual property and privacy, dealing with the legal regulation of the Internet including downloading music, mobile phone camera use or copyright issues. You may become a

legal practitioner, barrister, in-house counsel, government lawyer or policy adviser. There is also increased demand for roles in edemocracy both in e-government service delivery and political campaigning.

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations. Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Pathways to Further Studies

The QUT Bachelor of Information Technology is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in this discipline with an additional honours year in (IN10) Bachelor of Information Technology (Honours).

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit

points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

1. 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
2. (b) 120 credit points (10 units) of Major Core units

Information Technology Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)

- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

1. 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
2. (b) 120 credit points (10 units) of Major Core units

Information Technology Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Games and Interactive Environments program.

Business component:

- 8 units (96 credit points) of Business School core units
- 8 units (96 credit points) of Major core units*

* Please note Accounting major students complete 6 business core units (72 credit points) and 10 accountancy major units (120 credit points) to allow them to complete professional requirements.

Games and Interactive Environments component:

- 6 units (72 credit points) of games and interactive environments core units, which includes 2 units (24 credit points) of option units**

selected from an approved list.

- 10 units (120 credit points) of Major core units.

** Unit options list - comprises a range of units from which you choose to undertake two (2). The core option choices provide you with space in your course to explore other fields such as within Games and Interactive Environments, Information Technology. The core option choices can be used to complement your Major studies.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12 credit point work placement unit and a 12 credit point research methods unit.
- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units including one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

International Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Course Overview

Studying a double degree in applied science and mathematics will provide you with advanced knowledge and skills that are highly sought after by employers. The course is made up of 384 credit points, with each component degree (i.e. Science and Mathematics) comprising 192 credit points each.

From the very first semester, in both your science and your mathematics studies, you will have the opportunity to collaborate with your peers and teaching staff in QUT's exciting new learning environments. You will explore real world problems from multiple scientific, mathematical and statistical perspectives and learn the tools of the trade. Depending on your choices you may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet. Working with data that you have collected, you will apply fundamental methods of scientific practice, perform scientific analysis, and present your findings. You will learn about

a range of career and professional outcomes so that you can get the most from the flexibility the Bachelor of Science has to offer. Your mathematics studies will strengthen your quantitative analysis skills.

Your choice of science major will provide you with in-depth knowledge and expertise in a scientific discipline. Your choice of mathematics units/major will allow you to develop more advanced quantitative skills and problem solving capabilities that can be applied to larger and more complex real world problems. Both of which will prepare you for entry into the workforce or further study. You can even work with industry or get credit to study overseas.

Aim

This double degree aims to provide graduates with opportunities to develop their skills and knowledge in mathematics and science. You will develop the ability to apply mathematics, statistics, computational methods and decision science to real world problems. The Bachelor of Science aims to deliver:

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

Mathematics and information technology are interrelated disciplines. This double degree provides you with the knowledge and skills to develop solutions for complex problems that provide great benefits to society. In the first year you will build a foundation in mathematics and information technology and then select integrated strands combining units from the areas of applied mathematics, computational mathematics, operations research, statistics or financial mathematics with the combined information technology major from either Information Systems of Computer Science.

Career Outcomes

Mathematics underpins much of information technology, especially in the more advanced areas of development and analysis. As a graduate you may find employment as a technical support specialist, data visualisation specialist, operations research specialist, computational scientist, statistician (there

is high demand in the insurance industry), or work in complex system and scientific modelling.

Professional Recognition

Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society for Operations Research. This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Domestic Course structure The Bachelor of Mathematics component consists of:

- Six (6) core units (72 credit points - 48cp + 24cp core options)
- Ten (10) major core units (120 credit points).

The Bachelor of Information Technology component consists of:

- Six (6) core units (72 credit points - 48cp + 24cp core options)
- Ten (10) major core units (120 credit points).

International Course structure

The Mathematics Component consists of:

- Six (6) Core units (72 credit points - 48cp + 24cp Core options)

- Ten (10) Major Core units (120 credit points)

The Bachelor of Information Technology component consists of:

- Six (6) Core units (72 credit points - 48cp + 24cp Core options)

- Ten (10) Major Core units (120 credit points)

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x Advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

Year	2021
QUT code	SE50
CRICOS	080489G
Duration (full-time)	4 years
Duration (part-time domestic)	8 years
ATAR/Selection rank	70.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,900 per year full-time (96 credit points)
International fee (indicative)	2021: \$37,000 per year full-time (96 credit points)
Total credit points	384
Start months	July, February
Int. Start Months	July, February
Deferral	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Graham Johnson (Science); Dr Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Marion Bateson (Biological Sciences); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); Dr Konstantin Momot (Physics); Dr Wayne Kelly (Computer Science); and Dr Erwin Fieft (Information Systems). +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

QUT year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Overview

This double degree prepares you for an increasing range of careers that involve the application of information technology to science. It gives you the ability to use creative as well as analytical methods to solve scientific problems. Studying this double degree allows you to develop the technical skills required for your relevant field of study in science.

The science component of the course offers you the choice of majoring in Biological Sciences, Physics, Chemistry, Environmental Science or Earth

Sciences. Theoretical aspects are balanced by strong practical components in this science and information technology double degree.

The Information Technology component of this degree offers a choice of majors in Information Systems or Computer Science.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Career Outcomes

Graduates may find roles where they can use their information technology skills within the science discipline. Areas include sensor networks, complex system and scientific modelling, and science. As a graduate, you can expect to work in roles such as a scientific modeller, engineering software developer, scientific programmer, and computational scientist.

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Science program and 192 credit points from the Bachelor of Information Technology program.

Science component:

- 5 Science Core units (60 credit points), includes 1 unit (12 credit points) from the approved list of Option Units.
- 11 Major Core units (132 credit points)

Information Technology component:

- 6 Information Technology Core units (72 credit points), includes 2 units (24 credit points) of Option Units** selected from an approved list.
- 10 Major Core units (120 credit points)

**Options List - comprises a range of units from which you choose to undertake two (2). You are able to undertake these options in any semester. The options include introductory units from a wide variety of disciplines offered at QUT.

International Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Science

Bachelor of Science/Bachelor of Information Technology

program and 192 credit points from the Bachelor of Information Technology program.

Science component:

- 5 Science Core units (60 credit points), includes 1 unit (12 credit points) from the approved list of Option Units.
- 11 Major Core units (132 credit points)

Information Technology component:

- 6 Information Technology Core units (72 credit points), includes 2 units (24 credit points) of Option Units** selected from an approved list.
- 10 Major Core units (120 credit points)

**Options List - comprises a range of units from which you choose to undertake two (2). You are able to undertake these options in any semester. The options include introductory units from a wide variety of disciplines offered at QUT.

Year	2021
QUT code	SE60
CRICOS	084923F
Duration (full-time)	5 years
ATAR/Selection rank	75.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,100 per year full-time (96 credit points)
International fee (indicative)	2021: \$36,800 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Wayne Kelly (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron McFadyen (Electrical & Aerospace); Dr Wim Dekkers/Professor Ted Steinberg (Mechanical); Associate Professor Luis Alvarez (Mechatronics); Associate Professor Devakar Epari (Medical); Dr Wayne Kelly (Computer Science); and Dr Erwin Fieft (Information Systems) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- 72 credit points (6 units) of IT Core units, which includes unit from an approved options list.
- 120 credit points (10 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- 72 credit points (6 units) of IT Core units, which includes unit from an approved options list.
- 120 credit points (10 units) of Major Core units

Sample Structure

PLEASE NOTE:

For students taking the **IT: Computer Science major with Engineering: Computer & Software Systems major**, please refer to the "[IT Units: Computer Science/Eng Computer Software Sys Majors ONLY \(SE60MJR-CSSSES\)](#)" structure instead.

Code	Title
Semester 1 (February) commencing	

Bachelor of Engineering (Honours)/Bachelor of Information Technology

Year 1, Semester 1	
IFB102	Introduction to Computer Systems
IFB103	IT Systems Design
Year 1, Semester 2	
IFB104	Building IT Systems
IFB105	Database Management
Year 2, Semester 1	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
IT Core Unit Option	
IT Core Unit Option	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
CAB201	Programming Principles
Year 2, Semester 2	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
CAB201	Programming Principles
CAB202	Microprocessors and Digital Systems
(Note: Select CAB202 from the Computer Science Major Option list - this is compulsory in the IT component if majoring in these engineering majors.)	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
Computer Science Major Unit Option 1	
(Note: CAB202 will be available as core in the engineering component if majoring in these engineering majors.)	
Year 3, Semester 1	
CAB203	Discrete Structures
CAB302	Software Development
Year 3, Semester 2	
CAB303	Networks
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
CAB302	Software Development
Year 4, Semester 2	
IFB398	Capstone Project (Phase 1)
IT Core Unit Option	
OR	
Computer Science Major Unit Option 2	
Year 5, Semester 1	
IFB399	Capstone Project (Phase 2)
Computer Science Major Unit Option 2	
OR	
IT Core Unit Option	
(Select IT Core Unit Option here, if not selected previously.)	
Computer Science Major Unit Options	
CAB202	Microprocessors and Digital Systems
(CAB202 is CORE unless your Engineering major is in Computer & Software Systems, Electrical, Electrical & Aerospace or Mechatronics in which you will complete CAB202 in your Engineering component.)	
CAB220	Fundamentals of Data Science
CAB320	Artificial Intelligence
CAB340	Cryptography
CAB401	High Performance and Parallel Computing
CAB402	Programming Paradigms
CAB403	Systems Programming
CAB420	Machine Learning
CAB430	Data and Information Integration
CAB432	Cloud Computing
CAB440	Network and Systems Administration

IFB105	Database Management
Year 2, Semester 2	
CAB201	Programming Principles
IT Core Option	
Year 3, Semester 1	
CAB203	Discrete Structures
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
CAB202	Microprocessors and Digital Systems
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
Computer Science Major Unit Option 1	
Year 3, Semester 2	
CAB303	Networks
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
CAB302	Software Development
Year 4, Semester 2	
IFB398	Capstone Project (Phase 1)
IT Core Unit Option	
OR	
Computer Science Major Unit Option 2	
Year 5, Semester 1	
IFB399	Capstone Project (Phase 2)
Computer Science Major Unit Option 2	
OR	
IT Core Unit Option	
(Select IT Core Unit Option here, if not selected previously.)	
Computer Science Major Unit Options	
CAB202	Microprocessors and Digital Systems
(CAB202 is CORE unless your Engineering major is in Computer & Software Systems, Electrical, Electrical & Aerospace or Mechatronics in which you will complete CAB202 in your Engineering component.)	
CAB220	Fundamentals of Data Science
CAB320	Artificial Intelligence
CAB340	Cryptography
CAB401	High Performance and Parallel Computing
CAB402	Programming Paradigms
CAB403	Systems Programming
CAB420	Machine Learning
CAB430	Data and Information Integration
CAB432	Cloud Computing
CAB440	Network and Systems Administration

PLEASE NOTE:

This structure is ONLY for the combination of IT Computer Science and Engineering Computer & Software Systems Majors.

Year	2021
QUT code	SE70
CRICOS	092653A
Duration (full-time)	4 years
ATAR/Selection rank	87.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$6,300 per year full-time (96 credit points)
International fee (indicative)	2021: \$34,000 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Associate Professor Ross Brown (Games and Interactive Environments); Professor Tim Moroney (Mathematics)
Discipline Coordinator	Dr Pascal Buenzli (Applied and Computational Mathematics); Dr Paul Wu (Operations Research; and Statistics). +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Games and Interactive Environment program and 192 credit points from the Bachelor of Mathematics program.

Games and Interactive Environments component:

- 6 units (72 credit points) of games and interactive environments core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units

Mathematics component:

- 6 core units (72 credit points), which are further divided into 4 mathematics core units (48 credit points), and 2 core option units* (24 credit points) selected from an approved list.
- 10 major core units (120 credit points).

* Unit options list - comprises a wide

variety of foundation units from a range of disciplines offered at QUT. In the Mathematics component, there is an opportunity to choose additional mathematics units, which includes a unit specially designed to assist students without a background of successful study in Mathematics C at high school; an alternative unit aimed at high achieving students that explores some interesting and unusual aspects of mathematics in some detail; and a unit introducing the field of computational and simulation science which combines mathematics, science and computing to simulate real-world problems. The core option choices can be used to complement your Major studies.

Year 4 Semester 1	
MXB341	Statistical Inference
MXB344	Generalised Linear Models
Year 4 Semester 2	
MXB343	Modelling Dependent Data
MXB348	Work Integrated Learning in Statistics

Year	2021
QUT code	SE80
CRICOS	084924E
Duration (full-time)	5 years
ATAR/Selection rank	75.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,200 per year full-time (96 credit points)
International fee (indicative)	2021: \$38,700 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Graham Johnson (Science)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Wayne Kelly (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron McFadyen (Electrical & Aerospace); Dr Wim Dekkers/Prof Ted Steinberg (Mechanical); Aspro Luis Alvarez (Mechatronics); Aspro Devakar Epari (Medical); Dr Marion Bateson (Biological Science); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); and Aspro Jamie Trapp (Physics) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 6 units (72 credit points) of science core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 6 units (72 credit points) of science core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Science program and 192 credit points from the Bachelor of Games and Interactive Environments program.

Science component:

- 6 units (72 credit points) of science core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

Games and Interactive Environments component:

- 6 units (72 credit points) of games and interactive environments core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

* Unit options list - comprises a wide variety of foundation units from a range of disciplines offered at QUT. The core

option choices can be used to complement your Major studies.

Domestic fee (indicative)	2021: CSP \$8,800 per year full-time (96 credit points)
International fee (indicative)	2021: \$33,000 per year full-time (96 credit points)
Total credit points	528
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Data Science program and 336 credit points for the Bachelor of Laws (Honours) program. You will study data science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the data science component, students will complete 192 credit points (16 units) consisting of :

- 14 core units (168 credit point)
- 2 data science elective units (24 credit points)

Under the law component, you will complete 336 credit points of core units and a mixture of law electives made up of:

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students may select a general law elective in place of the introductory law elective

**Students have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Domestic Entry requirements

A recognised bachelor degree in information technology or relevant discipline with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 5 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

Places are subject to supervisor availability.

International Entry requirements

A recognised bachelor degree in information technology or equivalent with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 5 years; *plus*:

- Suitable honours topic
- Proposed honours supervisor

Places are subject to supervisor availability.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

The Bachelor of Information Technology (Honours) allows you to further develop specific areas of expertise in information technology and related discipline areas and is a pathway into research higher degree study. You will develop high level skills in a specific discipline area and acquire research skills appropriate to your discipline. You will apply analytic processes involving abstraction and modelling to solve complex problems and / or develop new opportunities through the use of information technology and will apply a deep understanding of the discipline to accurately assess its impact on individuals, organisations and society. You will receive individual supervision from an experienced researcher to complete a project. This project allows you to demonstrate your advanced academic capability and culminates in the completion of an honours thesis.

Course Design

Requirements for the completion of IN10 Bachelor of Information Technology (Honours) are as follows:

CORE: Foundations of Research unit and Reviewing the Field unit

OPTION: A choice of either the *Expanded Research Strand* or the *Extended Coursework Strand*

Each strand comprises of coursework and a major research project supervised by QUT staff.

Career Outcomes

Information technology is an integral part of all commercial, industrial, government, social and personal activities. Graduates from the honours program have the opportunity to achieve the highest levels of their profession. Career opportunities include roles such as web developer, database manager, network administrator, electronic commerce developer, data communications specialist, software engineer, systems programmer, computer scientist, systems analyst or programmer. Additionally, graduates may evolve into domain experts working as chief technology officers, chief information officers, managers, executives, business analysts and entrepreneurs. Graduates of this degree may go into academic and research careers.

Professional Recognition

Graduates of the Bachelor of Information Technology (Honours) meet the knowledge requirement for admission to the Australian Computer Society (ACS).

Pathways to Further Study

The QUT Bachelor of Information Technology (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible to apply to the Doctor of Philosophy within the Science and Engineering Faculty.

Domestic Course structure

You'll need to choose between either the expanded research or extended coursework options.

International Course structure

You'll need to choose between either the expanded research or extended coursework options.

Bachelor of Information Technology (Honours)

Sample Structure

The Bachelor of Information Technology (Honours) is a one year full-time degree comprising of 96 credit points.

72 credit points Core research units (6 units)

24 credit points Coursework units (2 units)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Structure Information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the Bachelor of Science (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the

Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96 Honours Level Units

96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons): LLH201 Legal Research, LLH206 Administrative Law, LLH302 Ethics and the Legal Profession, LLH305 Corporate Law, LLH401 Legal Research Capstone (24 cps) and two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. Graduates will satisfy the requirements for membership in the relevant professional body for their science major.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You have a broad range of options to choose from and the flexibility to create your own personal science degree program.

Bachelor of Science/Bachelor of Laws (Honours)

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations. Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Non-standard attendance

Field work is a requirement in some areas of science.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the [Bachelor of Science](#) (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may

select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Under the Science component students will complete 16 units in total. Students will choose any of the following science majors that are offered in the [Bachelor of Science](#) (ST01) course: biology, chemistry, earth science, environmental science and physics.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of

the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Sample Structure

Before enrolling in an option (elective) unit, you must ensure you have met any pre- or co-requisite requirements. You can check this by referring to the unit outlines on [QUT Virtual](#).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

- 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
- 120 credit points (10 units) of Major Core units

Information Technology Majors
Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List
The Bachelor of Information Technology

Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons): LLH201 Legal Research, LLH206 Administrative Law, LLH302 Ethics and the Legal Profession, LLH305 Corporate Law, LLH401 Legal Research Capstone (24 cps) and two Advanced Electives in law.

Professional Recognition

This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

Graduates may develop careers in cyberlaw, intellectual property and privacy, dealing with the legal regulation of the Internet including downloading music, mobile phone camera use or copyright issues. You may become a

Bachelor of Information Technology/Bachelor of Laws (Honours)

legal practitioner, barrister, in-house counsel, government lawyer or policy adviser. There is also increased demand for roles in edemocracy both in e-government service delivery and political campaigning.

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations. Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Pathways to Further Studies

The QUT Bachelor of Information Technology is located at Level 7 of the Australian Qualifications Framework (AQF). Eligible graduates may continue their studies in this discipline with an additional honours year in (IN10) Bachelor of Information Technology (Honours).

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit

points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

1. 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
2. (b) 120 credit points (10 units) of Major Core units

Information Technology Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)

- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Information Technology program and 336 credit points for the Bachelor of Laws program.

Requirements for the completion of the Bachelor of Information Technology component are as follows:

1. 72 credit points (6 units) of IT Core units, which includes 24 credit points (2 units) of Option Units selected from an approved list.
2. (b) 120 credit points (10 units) of Major Core units

Information Technology Majors

Choose your primary area of study, also known as your major, in the following specialisation areas: Information Systems or Computer Science.

Information Technology Options List

The Bachelor of Information Technology Core Unit Options List comprises a range of units from which you choose to undertake two (2). The options include introductory units from a wide variety of disciplines offered at QUT.

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)

Domestic Entry requirements

A completed recognised bachelor degree with a minimum grade point average (GPA) score of 5.00 (on QUT's 7-point scale) completed within the last 5 years in one of the fields of:

- mathematics
- computer science
- economics
- finance
- physics
- engineering

plus:

- Suitable honours topic
- Proposed honours supervisor

Places are subject to supervisor availability.

International Entry requirements

Prerequisite

A completed recognised bachelor degree with a minimum grade point average (GPA) score of 5.00 (on QUT's 7-point scale) completed within the last 5 years in the fields of:

- mathematics
- computer science
- economics or finance
- physics
- engineering

Applicants are required to nominate their proposed topic and supervisor. Places are subject to supervisor availability.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Design

Students undertake a 36 credit point Research Project.

Overview

The Bachelor of Mathematics (Honours) course provides extended modern and rigorous training in mathematical sciences and related research, to prepare students both for higher-level graduate careers in industry and government and for research

at PhD or Research Masters level. The course contributes to addressing the continuing shortage of highly trained mathematical scientists in Australia and abroad.

Through a combination of research and advanced coursework units, students pursue specialised studies in an area of mutual interest with a personal research mentor/supervisor. Research units will enable students to develop an understanding of the nature of mathematical and statistical approaches to solving real world, current research problems. Coursework units provide students the opportunity to develop much more advanced skills and knowledge compared with those built in the undergraduate course. The coursework emphasises mathematics and statistics that is required for current research and for a competitive edge in the employment market.

The course provides students with further depth of knowledge and analytical skills expected of professionals who apply mathematics, computational methods, decision science and statistics in the workplace and in further research.

Course Structure

Requirements for the completion of MS10 Bachelor of Mathematics (Honours) are as follows:

CORE: Foundations of Research unit and Reviewing the Field unit

OPTION: A choice of either the *Expanded Research Strand* or the *Extended Coursework Strand*

Each strand comprises of coursework and a major research project supervised by QUT staff.

Career Outcomes

Mathematics graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, data analytics, defence and national security, research, information technology, engineering modelling and simulation, environmental science, health, management, marketing, logistics, media, and education. In addition to their knowledge and skills in mathematics, graduates are also highly valued for their analytical and problem-solving skills. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

Bachelor of Mathematics (Honours)

Professional Recognition

Graduates of this course may be eligible for membership of the Australian Mathematical Society, Statistical Society of Australia and/or the Australian Society for Operations Research

Pathways to Further Study

The QUT Bachelor of Mathematics (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Graduates may be eligible for discipline relevant Research Masters and/or Doctoral level programs.

Domestic Course structure

Requirements for the completion of MS10 Bachelor of Mathematics (Honours) are as follows:

MXN400 Mathematical Research Training (12 cp)

MXN404-1 Honours Research Project-1 (12 cp)

MXN404-2 Honours Research Project-2 (12 cp)

MXN404-3 Honours Research Project-3 (12 cp)

and 4 Advanced Coursework units (48 credit points)

International Course structure

Requirements for the completion of MS10 Bachelor of Mathematics (Honours) are as follows:

MXN400 Mathematical Research Training (12 cp)

MXN404-1 Honours Research Project-1 (12 cp)

MXN404-2 Honours Research Project-2 (12 cp)

MXN404-3 Honours Research Project-3 (12 cp)

and 4 Advanced Coursework units (48 credit points)

Domestic Entry requirements

QUT year 12 early offer scheme

If you're a current Queensland Year 12 student, you may be eligible to receive an offer for this course on 20 November, before receiving your ATAR or selection rank.

[Find out more about the QUT Year 12 Early Offer Scheme](#)

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12 credit point work placement unit and a 12 credit point research methods unit.
- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units including one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

International Course structure

For this course you must complete a total of 480 credit points, made up of 288 credit points from the Bachelor of Urban Development (Honours) (Urban and Regional Planning) and 192 credit points from the Bachelor of Science (Environmental Science). You will study both science and urban development units in your first four years, and concentrate on urban development studies for the remainder of this course.

Urban and Regional Planning component

Students are required to complete 288 credit points of study comprising:

- 72 credit points of core Urban Development units including a 12 credit point work placement unit and a 12 credit point research methods unit
- 216 credit points of Urban and Regional Planning major discipline units including 24 credit points of capstone project.

Environmental Science Component

Students are required to complete 192 credit points of study comprising:

- 60 credit points of core Science units including one option unit (12cp) to be selected from a unit options list.
- 132 credit points of Environmental Science major discipline units.

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE40, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x Advanced major units 60cp.

To graduate with a Bachelor of Mathematics in SE40, students are required to complete 192 credit points of course units, as outlined below:

- 96 credit points (8 units) of Core units, which include 24 credit points (2 units) of Core Option units selected from an approved list.
- 96 credit points (8 units) of Major Core units

EGB121	Engineering Mechanics
Year 2 - Semester 2	
EGB123	Civil Engineering Systems
Foundation Unit Option	
Year 3 - Semester 1	
EGB270	Civil Engineering Materials
EGB272	Traffic and Transport Engineering
Year 3 - Semester 2	
EGB273	Principles of Construction
EGB373	Geotechnical Engineering
Year 4, Semester 1	
EGB275	Structural Mechanics
EGB371	Engineering Hydraulics
Year 4 - Semester 2	
EGB376	Steel Design
EGH471	Advanced Water Engineering
Year 5 - Semester 1	
EGB375	Design of Concrete Structures
EGH400-1	Research Project 1
EGH404	Research in Engineering Practice
EGH473	Advanced Geotechnical Engineering
Year 5 - Semester 2	
EGH400-2	Research Project 2
EGH472	Advanced Highway and Pavement Engineering
EGH475	Advanced Concrete Structures
EGH479	Advances in Civil Engineering Practice

Year	2021
QUT code	SE60
CRICOS	084923F
Duration (full-time)	5 years
ATAR/Selection rank	75.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,100 per year full-time (96 credit points)
International fee (indicative)	2021: \$36,800 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Wayne Kelly (Information Technology)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Wayne Kelly (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron McFadyen (Electrical & Aerospace); Dr Wim Dekkers/Professor Ted Steinberg (Mechanical); Associate Professor Luis Alvarez (Mechatronics); Associate Professor Devakar Epari (Medical); Dr Wayne Kelly (Computer Science); and Dr Erwin Fieft (Information Systems) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- 72 credit points (6 units) of IT Core units, which includes unit from an approved options list.
- 120 credit points (10 units) of Major Core units

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE60, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Information Technology in SE60, students are required to complete 192 credit points of course units, as outlined below:

- 72 credit points (6 units) of IT Core units, which includes unit from an approved options list.
- 120 credit points (10 units) of Major Core units

Sample Structure

PLEASE NOTE:

For students taking the **IT: Computer Science major with Engineering: Computer & Software Systems major**, please refer to the "[IT Units: Computer Science/Eng Computer Software Sys Majors ONLY \(SE60MJR-CSSSES\)](#)" structure instead.

Code	Title
Semester 1 (February) commencing	

Bachelor of Engineering (Honours)/Bachelor of Information Technology

Year 1, Semester 1	
IFB102	Introduction to Computer Systems
IFB103	IT Systems Design
Year 1, Semester 2	
IFB104	Building IT Systems
IFB105	Database Management
Year 2, Semester 1	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
IT Core Unit Option	
IT Core Unit Option	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
CAB201	Programming Principles
Year 2, Semester 2	
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
CAB201	Programming Principles
CAB202	Microprocessors and Digital Systems
(Note: Select CAB202 from the Computer Science Major Option list - this is compulsory in the IT component if majoring in these engineering majors.)	
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
IT Core Unit Option	
Computer Science Major Unit Option 1	
(Note: CAB202 will be available as core in the engineering component if majoring in these engineering majors.)	
Year 3, Semester 1	
CAB203	Discrete Structures
CAB302	Software Development
Year 3, Semester 2	
CAB303	Networks
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
CAB302	Software Development
Year 4, Semester 2	
IFB398	Capstone Project (Phase 1)
IT Core Unit Option	
OR	
Computer Science Major Unit Option 2	
Year 5, Semester 1	
IFB399	Capstone Project (Phase 2)
Computer Science Major Unit Option 2	
OR	
IT Core Unit Option	
(Select IT Core Unit Option here, if not selected previously.)	
Computer Science Major Unit Options	
CAB202	Microprocessors and Digital Systems
(CAB202 is CORE unless your Engineering major is in Computer & Software Systems, Electrical, Electrical & Aerospace or Mechatronics in which you will complete CAB202 in your Engineering component.)	
CAB220	Fundamentals of Data Science
CAB320	Artificial Intelligence
CAB340	Cryptography
CAB401	High Performance and Parallel Computing
CAB402	Programming Paradigms
CAB403	Systems Programming
CAB420	Machine Learning
CAB430	Data and Information Integration
CAB432	Cloud Computing
CAB440	Network and Systems Administration

IFB105	Database Management
Year 2, Semester 2	
CAB201	Programming Principles
IT Core Option	
Year 3, Semester 1	
CAB203	Discrete Structures
For Engineering students majoring in: Civil, Mechanical, Medical or Process/Chemical Process major -	
CAB202	Microprocessors and Digital Systems
For Engineering students majoring in: Electrical, Electrical & Aerospace or Mechatronics major -	
Computer Science Major Unit Option 1	
Year 3, Semester 2	
CAB303	Networks
IFB295	IT Project Management
Year 4, Semester 1	
CAB301	Algorithms and Complexity
CAB302	Software Development
Year 4, Semester 2	
IFB398	Capstone Project (Phase 1)
IT Core Unit Option	
OR	
Computer Science Major Unit Option 2	
Year 5, Semester 1	
IFB399	Capstone Project (Phase 2)
Computer Science Major Unit Option 2	
OR	
IT Core Unit Option	
(Select IT Core Unit Option here, if not selected previously.)	
Computer Science Major Unit Options	
CAB202	Microprocessors and Digital Systems
(CAB202 is CORE unless your Engineering major is in Computer & Software Systems, Electrical, Electrical & Aerospace or Mechatronics in which you will complete CAB202 in your Engineering component.)	
CAB220	Fundamentals of Data Science
CAB320	Artificial Intelligence
CAB340	Cryptography
CAB401	High Performance and Parallel Computing
CAB402	Programming Paradigms
CAB403	Systems Programming
CAB420	Machine Learning
CAB430	Data and Information Integration
CAB432	Cloud Computing
CAB440	Network and Systems Administration

PLEASE NOTE:

This structure is ONLY for the combination of IT Computer Science and Engineering Computer & Software Systems Majors.

Year	2021
QUT code	SE80
CRICOS	084924E
Duration (full-time)	5 years
ATAR/Selection rank	75.00
Offer Guarantee	Yes
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,200 per year full-time (96 credit points)
International fee (indicative)	2021: \$38,700 per year full-time (96 credit points)
Total credit points	480
Start months	July, February
Int. Start Months	July, February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Dr Jacob Coetzee (Engineering); Dr Graham Johnson (Science)
Discipline Coordinator	Dr Thomas Rainey (Chemical Process), Associate Professor Jonathan Bunker (Civil); Dr Wayne Kelly (Computer & Software Systems); Dr Jacob Coetzee (Electrical); Dr Aaron McFadyen (Electrical & Aerospace); Dr Wim Dekkers/Prof Ted Steinberg (Mechanical); Aspro Luis Alvarez (Mechatronics); Aspro Devakar Epari (Medical); Dr Marion Bateson (Biological Science); Aspro Tim Dargaville (Chemistry); Dr Luke Nothdurft (Earth Science); Dr Andrew Baker (Environmental Science); and Aspro Jamie Trapp (Physics) +61 7 3138 2000 askqut@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 6 units (72 credit points) of science core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

International Course structure

To graduate with a Bachelor of Engineering (Honours) in SE80, students are required to complete 288 credit points of course units, as outlined below:

- First year: four (4) core units 48cp + two (2) discipline foundation units 24cp + two (2) option units 24cp (96 credit points)
- Major: one (1) block of eight (8) major units 96cp plus eight (8) honours-level units 96cp (192 credit points).

Honours units to consist of:

- Research methods 12cp
- Project 24cp
- 5 x advanced major units 60cp.

To graduate with a Bachelor of Science in SE80, students are required to complete 192 credit points of course units, as outlined below:

- 6 units (72 credit points) of science core units, which includes 2 units (24 credit points) of option units* selected from an approved list.
- 10 units (120 credit points) of Major core units.

Year	2021
QUT code	ST10
CRICOS	080487J
Duration (full-time)	1 year
Duration (part-time domestic)	2 years
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$8,000 per year full-time (96 credit points)
International fee (indicative)	2021: \$39,600 per year full-time (96 credit points)
Total credit points	96
Credit points full-time sem.	48
Start months	July, February
Int. Start Months	July, February Commencing studies in 2022: this program is available for on-campus studies only.
Course Coordinator	Dr Melody de Laat
Discipline Coordinator	Dr Melody de Laat (Biological Sciences), Dr James Blinco (Chemistry), Dr Christoph Schrank (Earth Sciences), Professor Stuart Parsons (Environmental Science), Dr Konstantin Momot [SEM-1]/ Professor Ken Ostrikov [SEM-2] (Physics) +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements

A recognised bachelor degree in science or relevant discipline with a minimum grade point average of 5.00 (on QUT's 7-point scale), completed within the last 5 years, *plus*:

- Suitable honours topic
- Proposed honours supervisor

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Entry Requirements or relevant discipline

plus

:

- Suitable honours topic
- Proposed honours supervisor

Places are subject to supervisor availability.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Overview

The Bachelor of Science (Honours) allows you to further develop specific areas of expertise in science by providing extended modern and rigorous training in science. It prepares you both for higher-level graduate careers in industry and government and for research at PhD or Research Masters level.

Through a combination of research and advanced coursework units, you will pursue specialised studies in an area of mutual interest with a personal research mentor/supervisor. You will develop high level skills in a specific discipline area (Biological Science, Earth Science, Environmental Science, Chemistry or Physics) and acquire research skills appropriate to your discipline. Coursework units provide you the opportunity to develop much more advanced skills and knowledge compared with those built in the undergraduate course. You will design and undertake experimental programs in either laboratory or field settings to solve complex problems. A research project allows you to demonstrate your advanced academic capability and culminates in the completion of an honours thesis.

Course Design

Requirements for the completion of ST10 Bachelor of Science(Honours) (Study Area A) are as follows:

STUDY AREA A: 96 credit points (6 units) comprising One (1) Major from the following:

- Biological Sciences
- Chemistry
- Earth Science
- Environmental Science
- Physics

Each Major is comprised of the Core units Foundations of Research and Reviewing the Field, and the choice of either the *Expanded Research* Strand or the *Extended Coursework* Strand.

Each strand comprises of coursework and a major research project supervised by QUT staff.

Career Outcomes

Research, Graduate employment in industry or government.

Professional Recognition

Membership in professional organisations is not specifically tied to the completion of an Honours degree as entry requirements are met by the completion of the Bachelors degree.

Pathways to Further Study

The QUT Bachelor of Science (Honours) is located at Level 8 of the Australian Qualifications Framework (AQF). Honours provides the key research pathway to postgraduate study. The program is

Bachelor of Science (Honours)

designed to easily articulate into a Master of Science (Research) with one year advanced standing or into a PhD (depending upon the level of Honours attained).

Domestic Course structure

You must complete 96 credit points (8 units) from one of the following study areas:

- Biological Sciences
- Chemistry
- Earth Science
- Environmental Science
- Physics

International Course structure

You must complete 96 credit points (8 units) from one of the following study areas:

- Biological Sciences
- Chemistry
- Earth Science
- Environmental Science
- Physics

Domestic Entry requirements Prerequisites

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- Mathematical Methods (Units 3 & 4, C); *and*
- Biology (Units 3 & 4, B); *and*
- completion of Year 12 or attained age 18 years.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- One of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, Marine Science, Physics, or Psychology (Units 3 & 4, C)
- Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Academic entry requirements

You must be a current student completing Year 12 in Australia.

You will be considered solely on the basis of your ATAR or IB Diploma results.

Please refer to the [Guide to entry thresholds](#).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5

Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Year	2021
QUT code	ST20
CRICOS	102820D
Duration (full-time)	4 years
ATAR/Selection rank	90.00
Campus	Gardens Point
Domestic fee (indicative)	2021: CSP \$7,400 per year full-time (96 credit points)
International fee (indicative)	2021: \$39,800 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February Commencing studies in 2022: this program is available for on-campus studies only.
Deferment	You can defer your offer and postpone the start of your course for one year.

Domestic Course structure

ST20 Bachelor of Science Advanced (Honours) comprises 384 credit points (32 units), including 4 core units (STB100, STB200, STB300 and a core option), 240 credit points (20 units) discipline specific major units (including 8 Honours level units) and 96 credit points (8 units) of complimentary studies (2 minors).

The Biological Sciences Major consists of twenty (20) units [240cp]:

Biological Sciences Majors are also required to complete the following study area B components (Minors)

- Statistical Modelling minor

and one minor (48 cp) from:

- Biotechnology and Genetics minor
- Wildlife Ecology Minor
- Advanced Science Minor

Biological Sciences Majors are also required to complete the following study area B components (Minors)

- Statistical Modelling minor

and one minor (48 cp) from:

- Biotechnology and Genetics minor
- Wildlife Ecology Minor
- Advanced Science Minor

Sample Structure

The Biological Sciences major in the Bachelor of Science Advanced (Honours) is structured to provide high-achieving students with a strong applied knowledge of biology, building on foundational knowledge obtained in high school. The major will extend understanding of the structure, function and diversity of living things, from cells to whole organisms, including key areas of plant and animal biology and microbiology and the interaction with each other and the environment. The Biological Sciences major is complemented and extended with a minor in either Biotechnology & Genetics or Wildlife Ecology or a minor specifically tailored to future research goals. Students will study units in their first semester which help them identify which area they wish to pursue. By integrating theory and practice and with a strong focus on experimental design, students will learn to apply key biological principles to important areas such as conservation, food security and biotechnology that will lead to research opportunities third and fourth year research units. All students in the major will have the opportunity to participate in research-based activities in these or other key areas of biology through the ST20 core units and through extracurricular activities. Graduates of the Biological Science major will be skilled at the desk, in the laboratory and in the field with strong skills in one of the areas closely aligned to research. They will have advanced research skills and critical thinking ability needed to tackle real-world problems in biology and undertake cutting edge research. These attributes will support high-achieving students in post-graduate study and a research career.

Sample Structure

Earth Science is critical for Australia's future sustainable development as our natural resources are a major building block of the nation's economy. Geoscientists play a leading role in finding, developing and managing these resources, as well as studying climate change and managing environmental issues, such as chronic water shortage, dry land salinity and coastal development.

An understanding of Planet Earth is fundamental to your career as a Scientist. Earth Science provides us with an understanding of Earth materials, the natural processes acting in and upon our planet, and its history. You will gain advanced skills needed to become a professional Earth Scientist with special emphasis on hands-on skills acquired through laboratory work and field studies for both resource exploration and management and environmental applications. The program provides you with particular strengths in the areas of sedimentary geology, structural geology, igneous processes and geology, hydrogeology, marine geology, and environmental geology - all these subject areas are of particular importance to Queensland and key industrial sectors that underpin our economy. The Earth Science major in the Bachelor of Science Advanced (Honours) will qualify you with an advanced and coherent knowledge in Earth Science.

Study Area B requirements for an

Bachelor of Science Advanced (Honours) (Environmental Science)

Environmental Science Major are:

- Statistical Modelling minor

And one minor (48 cp from)

- Environmental Management Minor
- Advanced Science Minor

Sample Structure

The Environmental Science major in the Bachelor of Science Advanced (Honours) will qualify students with an advanced and coherent knowledge of environmental processes and systems. The study of Environmental Science provides an in depth knowledge of the Earth's natural resources and an understanding of the mechanisms, natural processes and human impacts that shape environmental systems. Environmental Scientists play an integral role in managing Australia's future sustainable development, environment impacts and resource management while minimising impacts and degradation.

Within this major students will gain the skills required to pursue a career as a professional environmental scientist, science educator or resource manager. This will be achieved with an emphasis on developing theoretical understanding of environmental processes and systems together with hands-on skill development and hypothesis testing through practical and field studies. The major will provide students with particular strengths in the areas of land resources, environmental impacts, geographic information systems and field mapping, systems modelling and environmental management.

Int. Start Months	February Commencing studies in 2022: this program is available for on-campus studies only.
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Associate Professor Peter Prentis
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Domestic Entry requirements Prerequisites

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); *and*
- Mathematical Methods (Units 3 & 4, C); *and*
- Physics (Units 3 & 4, B)

Assumed knowledge

Before you start this course, we assume you have sound knowledge of the subject/s listed below. If you don't have the subject knowledge, you can still apply for the course but we encourage you to undertake bridging studies to gain the knowledge:

- Specialist Mathematics (Units 3 & 4, C); *and*
- At least one of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, or Marine Science (Units 3 & 4, C).

Adjustments to your ATAR/selection rank

Elite Athlete Scheme adjustments do not apply to this course. Any other adjustment you receive to your ATAR or selection rank will be applied to this course.

[Find out if you're eligible for an adjustment to your ATAR or selection rank.](#)

International Entry requirements Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Academic entry requirements

You must be a current student completing Year 12 in Australia.

You will be considered solely on the basis of your ATAR or IB Diploma results.

Please refer to the [Guide to entry thresholds](#).

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)
- Physics (Units 3 & 4, B)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

International Entry requirements

A completed recognised bachelor degree in information technology with a minimum grade point average (GPA) score of 4.0 (on QUT's 7 point scale).

Pathway to the Master of Information Technology

- Graduate Certificate in Communication for Information Technology (IN17) (one semester) to [Master of Information Technology](#) (IN20) (three semesters)

Students with bachelor degrees in disciplines other than information technology may consider the [University Certificate in Tertiary Preparation for Postgraduate Studies](#) (QC06) or [English for Academic Purposes](#) pathways.

Pathway to Master of Data Analytics

- Graduate Certificate in Communication for Information Technology (IN17) (one semester) leading to [Master of Data Analytics](#) (IN27) (three semesters)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.0
Listening	5.0
Reading	5.5
Writing	5.5
Speaking	5.0

Successful completion of QUT's English for Academic Purposes (EAP)(Direct Stream) with 50% or better or QC32 English for Academic Purposes 2.

Course Design

The Graduate Certificate in Communication for Information Technology will provide you with core discipline studies and communication knowledge and skills.

The course structure consists of 48 credit points of units. There are two common core communications units (24cp) and two information technology unit options (24cp) from the following information technology areas: Computer Science/Data Science, Enterprise Systems, Networks, Security, or Business Process Management.

NB: If you intend to follow a major pathway into IN20/21 MIT you should select the recommended IT units for those majors on commencement of IN17.

Pathways to Further Study

The QUT Graduate Certificate in Communication for Information Technology is located at Level 8 of the Australian Qualifications Framework (AQF). Eligible graduates may articulate from the Graduate Certificate in Communication for Information Technology into the related [IN20 Master of Information Technology/ IN21 Master of Information Technology - Graduate Entry](#) course.

International Course structure

The course structure consists of 48 credit points of units. There are two common core communications units (24 credit points) and two information technology unit options (24 credit points) from the following information technology areas:

- computer science/software development
- cyber security and networks
- business analysis
- business process management
- data science
- enterprise systems
- executive IT

NOTE: You should select the recommended IT units for your [chosen major](#) on commencement of IN17. Please contact the Course Coordinator for assistance with any IT unit selection.

Sample Structure Important Course Information

You should select the recommended IT units for your [chosen major](#) on commencement of IN17. Please contact the Course Coordinator for assistance with any IT unit selection.

Information Technology unit options are available from the following IT areas:

Business Process Management related units - IFN515, *IFN521*, *IFN562*
 Business Analysis related units - IFN562, *IFN561*, *IFN515*, *IFN521*
 Computer Science related units - IFN563 (6CP) + IFN564 (6CP), *IFN507*, *IFN509*, *IFN541*, *IFN591*
 Cyber Security & Networks related units - IFN507, IFN541, *IFN591*

Graduate Certificate in Communication for Information Technology

Decision Science related units -

IFN509, *IFN521*

Software Development related units -

IFN563 (6CP) + IFN564 (6CP)

Enterprise Systems related units -

IFN515, IFN541, IFN561, IFN562

Executive IT related units -

IFN561, *IFN521*

* *Italics = option units in the MIT major*

PLEASE NOTE: IFN563 and IFN564 are 6 credit point (cp) units (delivered in block mode - 5 week teaching period).

IMPORTANT: When you select a 6cp unit you must select another 6cp unit together with it. The units are delivered in 5 week teaching period:

- 5 Week A runs from week 1 to 5 of semester 1
- 5 Week B runs from week 9 to 13 of semester 1
- 5 Week C runs from week 1 in semester 2
- 5 Week D runs from week 9 in semester 2.

Due to the shorter timeframes involved the 5 Week sessions have different enrolment and [census dates](#).

Graduate Certificate in Business Analysis is a course designed for existing professionals who have a background working in IT, and wish to upskill in business analysis.

Domestic Entry requirements

Academic entry requirements

You can gain entry into the Graduate Certificate in Business Analysis with the following:

- a completed bachelor degree (or higher qualification) in Information Technology or related discipline; or
- a completed bachelor degree (or higher qualification) in any discipline and three years full-time (or equivalent) professional work experience in an IT-related field; or
- a completed diploma (or higher qualification) in Information Technology or related discipline and two years full-time (or equivalent) professional work experience in an IT-related field; or
- five years full-time (or equivalent) professional work experience in an IT-related field.

Course structure

To meet the course requirements for the Graduate Certificate in Business Analysis, you must complete a total of 48 credit points.

Units

Advanced Business Analysis
 Fundamentals of Business Process Management
 Foundations of Decision Science
 Enterprise Systems Lifecycle Management

Advanced Standing

Your past studies or work experience may count as credit towards your QUT Online course; we call this 'advanced standing'. That means you might not have to complete all of the units listed in your course structure and you may be able to graduate sooner.

In exceptional circumstances, extensive work experience in a particular field can also be recognised.

Domestic Entry requirements 1 year program

- A recognised bachelor degree (or higher qualification) in any discipline; *or*
- A recognised diploma (or higher qualification) in information technology and at least two years full-time (or equivalent) professional work experience in the information technology field; *or*
- At least five years full-time (or equivalent) professional work experience in the information technology field

0.5 year program

- Successful completion of QUT's [IN18 Graduate Certificate in Information Technology](#)

International Entry requirements 1 year program

- A recognised bachelor degree (or higher qualification) in any discipline; *or*
- A recognised diploma (or higher qualification) in information technology and at least two years full-time (or equivalent) professional work experience in the information technology field; *or*
- At least five years full-time (or equivalent) professional work experience in the information technology field

0.5 year program

- Successful completion of QUT's [IN18 Graduate Certificate in Information Technology](#)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

To graduate with a Graduate Diploma in Information Technology you are required to complete 96 credit points of course units consisting of:

- 48 credit points of core units, comprising of eight 6 credit points of

- IT foundation units; plus
- 48 credits points of discipline units from your chosen major selection.

Study Areas

Select a major from the following disciplines:

- Business Analysis
- Computer Science
- Cyber Security and Networks

International Course structure

To graduate with a Graduate Diploma in Information Technology you are required to complete 96 credit points of course units consisting of:

- 48 credit points of core units, comprising of eight 6 credit points of IT foundation units; plus
- 48 credits points of discipline units from your chosen major selection.

Study Areas

Select a major from the following disciplines:

- Business Analysis
- Computer Science
- Cyber Security and Networks

Sample Structure

Note: These Foundation Units are 6 credit points unit and are delivered in 5 week teaching period.

- 5 Week A runs from week 1 to 5 of semester 1
- 5 Week B runs from week 9 to 13 of semester 1
- 5 Week C runs from week 1 in semester 2
- 5 Week D runs from week 9 in semester 2.

When you enrol in a 6cp unit you must enrol in another 6cp unit together with it (one unit in 5-Week-A and the other in 5-Week-B for semester 1; and one unit in 5-Week-C and the other 5-Week-D for semester 2)

Due to the shorter timeframes involved the 5 Week sessions have different enrolment and [census dates](#).

Domestic Entry requirements

A recognised bachelor degree (or higher qualification) in one of the following fields:

- Biomedical, medical, medical electronics etc engineering
- Biophysics
- Electrical, avionics etc engineering
- Geophysics
- Mechanical engineering
- Medical physics
- Physics

The following degrees (or higher qualification) are not acceptable:

- Medical imaging
- Radiotherapy
- Medical radiation

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in physics.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Career Outcomes

Graduates can seek employment in hospitals, health departments, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer.

Professional medical/health physicists:

- apply electronic tools and medical software, ultrasonics, radiation and computers to clinical and environmental problems
- monitor the environment to maintain acceptable standards in the workplace and the community
- apply fundamental physical research in development programs
- are responsible for calibration, care and maintenance of instruments and apparatus.

Course Design

Stage 1— Graduate Diploma (PH71) comprises assessed coursework such as advanced lectures, seminars, reading units or independent study. Full-time students will need an average of 14 hours a week of formal contact (seven hours for parttime students). Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Stage 2— Master of Applied Science (PH80) students undertake a program of supervised research and investigation that can be completed at QUT or in a suitable external institution.

Professional Recognition

The course is accredited by the Australasian College of Physical Sciences and Engineers in Medicine.

Domestic Entry requirements

2 year program

A recognised bachelor degree (or higher) in any discipline with a minimum grade point average (GPA) of 4.00 (on QUT's 7 point scale).

1.5 year program

- A recognised bachelor degree (or higher) in information technology with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale); or
- A recognised bachelor degree in any other discipline with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale) *plus* 3 full-time years (or equivalent) of professional work experience in information technology.

1 year program

- A recognised bachelor honours degree in information technology with a minimum grade point average of 4.00 (on QUT's 7 point scale); or
- A recognised graduate diploma (or higher) in information technology with a minimum grade point average of 4.00 (on QUT's 7 point scale); or
- A recognised bachelor degree (or higher) in information technology with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale) *plus* completion with a minimum grade point average (GPA) score of 4.00 of one of QUT's:
 - [Graduate Certificate in Business Analysis](#)
 - [Graduate Certificate in Computer Science](#)
 - [Graduate Certificate in Cyber Security and Networks](#)

International Entry requirements

2 year program

A completed recognised bachelor degree in any discipline with a minimum grade point average of 4.0 (on QUT's 7 point scale).

1.5 year program*

A completed recognised bachelor degree in information technology with a minimum grade point average of 4.0 (on QUT's 7 point scale); or

A completed recognised graduate certificate in information technology with a minimum grade point average of 4.0 (on QUT's 7 point scale).

1 year program*

A completed Australian honours bachelor degree in information technology with a minimum grade point average of 4.0 (on QUT's 7 point scale); or

A completed recognised graduate diploma in information technology with a minimum grade point average of 4.0 (on QUT's 7 point scale).

**Note: As part of QUT's application for admission process, you will be automatically assessed for the 1.5 or 1 year program, if eligible. If you wish to be considered for the 2 year program only, please indicate this on your application form.*

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

If you have an IELTS score of 6 (with Reading and Writing no less than 5.5) and (Listening and Speaking no less than 5) (or accepted equivalent), you may be considered for the Graduate Certificate in Communication for Information Technology pathway.

Course Overview

Graduates of the Master of IT degree will have the specialist knowledge and skills required for senior IT-related professional positions (both technical and managerial). The range of majors offered within the degree opens opportunities for students across the IT sector.

Students who graduate from this degree will have the ability to demonstrate advanced knowledge, based on research practices, in at least one IT discipline. They will undertake a significant research-based project that allows them to constructively apply the analytical skills they develop within an IT problem domain. The course will provide students with the ability to formulate best practice IT strategies and solutions and during this process create new IT discipline knowledge.

The degree aims to prepare students for work in a specialist IT area through a program of study that balances theoretical content, project-based experiences and industry-oriented perspectives.

Core Units

Students must complete core units in Research Based Practice, Project Management and a major Project or 2 small Projects on the approval of their Course Coordinator.

Majors

Students may select a major of 48 credit points from the following disciplines;

* Data Science

The data science major provides you with the knowledge and skills to extract information from large, complex and disparate data sets, using leading edge algorithms and tools.

* Enterprise Systems

Enterprise systems are engineered information systems that consist of applications and associated information, forming the fundamental structure of organisational processes in most large organisations. Enterprise systems provide comprehensive administrative systems and help to automate and streamline business processes.

* Security

The Security major provides you with the skills and knowledge appropriate for a information security professional. You will develop skills in risk management security policies and be aware of the technical security mechanisms and issues.

* Computer Science

The computer science major extends your understanding of computer programming beyond being a mere user of programming language to an appreciation of their design and implementation.

* Business Process Management

The Business Process Management Major will provide graduates with complementary skills and knowledge to create and align information systems to effectively support business and enable business strategy.

* Networks

The Networks major provides you with the practical skills and theoretical knowledge required by a network administrator. You will gain experience with designing, implementing and maintaining network systems for a wide range of organisations.

* Human Computer Interaction

The HCI major develops the advanced knowledge & skills in human-centred design activities involving emerging technologies in order to create new forms of human-computer interaction.

* Information Management

The Information Management major provides you with the skills and knowledge to find employment in the information management industry. You will gain awareness of the activities in which information management professionals are engaged, in various organisational contexts.

* No Major

Students may select any 4 Advanced level units

Masters Strand Options

Students must complete 72 credit points from the Transition/Advanced Unit Options

Course Completion Rules

Students should meet the following requirements before they are able to complete the Masters program:

For students with an undergraduate degree in an IT-related field wishing to complete the 2 year MIT:

- Students are required to complete 192 credit points of units.
- Students are required to complete the specified core units.
- Students wishing to specialise must complete the specific unit requirements for a major.
- Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
- Students may be allowed to take up to 72 credit points of electives from the list of approved elective units provided.

Entry Requirements

A completed recognised Level 7 Bachelor Degree in any discipline with a minimum GPA of 4 (on a 7 point scale).

IELTS overall band score of 6.5 with no sub-band below 6.0, or equivalent.

Students who have completed a recognised Level 7 Bachelor Degree in the field of Information Technology and are eligible to enter IN21 (graduate entry) MUST indicate 2 year entry option at point of application.

Domestic Course structure

To meet the course requirements for the Master of Information Technology (Study Area A) you are required to complete 192 credit points of course units consisting of:

- 96 credit points of core units, which includes 48 credit points of IT foundation units, and 2 x 24 credit points of industry and research based project units.
- 60 credit points of discipline units from your selected Major.
- 36 credit points of IT related elective units selected from an approved list of units, which is drawn from units offered in each of the IT majors. The unit choices allow you to explore an area in more depth (e.g., Software Development, Data Science), or provide the opportunity for you to develop a breadth of understanding (e.g., Business Analysis, Computer Science).

International Course structure

To meet the course requirements for the Master of Information Technology (Study Area A) you are required to complete 192 credit points of course units consisting of:

- 96 credit points of core units, which includes 48 credit points of IT foundation units, and 2 x 24 credit points of industry and research based project units.
- 60 credit points of discipline units from your selected Major.
- 36 credit points of IT related elective units selected from an approved list of units, which is drawn from units offered in each of the IT majors. The unit choices allow you to explore an area in more depth (e.g., Software Development, Data Science), or provide the opportunity for you to develop a breadth of understanding (e.g., Business Analysis, Computer Science).

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree in information technology with a minimum grade point average (GPA) score of 4.0 (on QUT's 7 point scale).

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree in information technology with a minimum grade point average (GPA) score of 4.0 (on QUT's 7 point scale).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Entry Requirements

A completed recognised Bachelor Degree in the discipline of Information Technology with a minimum GPA of 4 (on a 7 point scale).

IELTS overall band score of 6.5 with no sub-band below 6.0, or equivalent.

Course Overview

Graduates of the Master of IT degree will have the specialist knowledge and skills required for senior IT-related professional positions (both technical and managerial). The range of majors offered within the degree opens opportunities for students across the IT sector.

Students who graduate from this degree will have the ability to demonstrate advanced knowledge, based on research practices, in at least one IT discipline. They will undertake a significant research-based project that allows them to constructively apply the analytical skills they develop within an IT problem domain. The course will provide students with the ability to formulate best practice IT strategies and solutions and during this process create new IT discipline knowledge.

The degree aims to prepare students for

work in a specialist IT area through a program of study that balances theoretical content, project-based experiences and industry-oriented perspectives.

Core Units

Students must complete core units in Research Based Practice, Project Management and a major Project or 2 small Projects on the approval of their Course Coordinator.

Majors

Students may select a major of 48 credit points from the following disciplines;

- * Enterprise Systems
- * Security
- * Computer Science
- * Data Science
- * Business Process Management
- * Networks
- * Human Computer Interaction
- * Information Management
- * No Major

See Major Structure Lists for overviews

Masters Strand Options

Students must complete 24 credit points of Advanced Unit Options from the Options Strand

Course Completion Rules

Students should meet the following requirements before they are able to complete the IN21 program:

- Students are required to complete 144 credit points of units.
- Students are required to complete the specified core units.
- Students wishing to specialise must complete the specific unit requirements for a major.
- Students wishing to complete their postgraduate studies without a single area of specialisation must satisfy the unit requirements for graduation with no major.
- Students may be allowed to take up to two units of electives from the list of approved elective units provided.

Overview

This degree prepares you for entry into the dynamic and exciting world of the information industry. It has been designed to provide a rich and stimulating learning environment that helps you to develop the skills, knowledge and attitudes needed by contemporary information professionals. You will acquire the knowledge and expertise required to design, plan, develop, manage and evaluate information services to meet the information needs of clients. A hands-on and real world based curriculum gives you the opportunity to explore a wide range of areas within the information field and gain deep understanding within your chosen speciality such as information management or library and information practice.

You will have the opportunity to interact with peers, lecturers and the information sector through social technologies and immersive learning environments. Designed to suit your busy lifestyle the degree can be taken online or face-to-face or a mix of both – the choice is yours. This course will position you for a challenging and rewarding career in today's information-rich and technology-driven age.

Entry Requirements

Domestic students:

A completed recognised Level 7 Bachelor Degree in any discipline with a minimum

GPA of 4 (on a 7 point scale).

International students:

A completed recognised Level 7 Bachelor Degree in any discipline with a minimum GPA of 4 (on a 7 point scale). IELTS overall band score of 6.5 with no sub-band below 6.0, or equivalent.

Course Completion Rules

Students should meet the following requirements before they are able to complete the IN22 program:

- Students are required to complete 192 credit points of units.
- Students are required to complete 60cp of core units comprising a research methods (12cp) unit and 48cp of research project work;
- Students are required to complete 96cp major comprising 8, 12cp units; and
- Students are required to complete 36cp of elective units including suitable units from the MBPM and the MIT

Why Study Information Science ?

Through this degree you will develop a broad understanding of the information science discipline with strong skills in a major selected from Information Management, or Library and Information Practice. The degree will position you to become a professional in a rapidly changing, technology driven and information rich world, having the communication, interpersonal skills and teamwork skills needed to work effectively in a global environment.

Professional Membership

Graduate eligible for membership of the Australian Library and Information Association (ALIA)

Flexible Delivery

This degree is designed to suit your busy lifestyle. Classes run in the evenings and many of the core units can be taken online, face-to-face or a mix of both - the choice is yours.

Domestic Course structure

This degree prepares you for entry into the dynamic and exciting world of the information industry. It has been designed to provide a rich and stimulating learning environment that helps you to develop the skills, knowledge and attitudes needed by contemporary information professionals. You will acquire the knowledge and expertise required to design, plan, develop, manage and evaluate

information services to meet the information needs of clients. A hands-on and real world based curriculum gives you the opportunity to explore a wide range of areas within the information field and gain deep understanding within your chosen speciality such as information management or library and information practice.

International Course structure

This degree prepares you for entry into the dynamic and exiting world of the information industry. It has been designed to provide a rich and stimulating learning environment that helps you to develop the skills, knowledge and attitudes needed by contemporary information professionals. You will acquire the knowledge and expertise required to design, plan, develop, manage and evaluate information services to meet the information needs of clients. A hands-on and real world based curriculum gives you the opportunity to explore a wide range of areas within the information field and gain deep understanding within your chosen speciality such as information management or library and information practice.

Planning your enrolment and key dates

Enrolment is undertaken on your Study Plan in QUT Virtual. Read the information under the Course Structure tab, note your **important enrolment key dates**, then access your Study Plan to enrol. **More information about Study Plans.**

Overview

The Graduate Certificate in Insolvency and Restructuring:

- Will boost your career by completing this specialised qualification in insolvency and restructuring.
- Provide you with in depth knowledge to understand and manage insolvency and restructuring issues
- Is delivered by professors and practitioners who have extensive experience in insolvency and restructuring. They will share their personal expertise to benefit your career
- Is available online, Australia-wide, with optional workshops in selected major capital cities

Aim

The course aims to provide suitably qualified graduates with a unique and specialist course responding directly to the needs of Australian and international practitioners in insolvency, restructuring and turnaround solutions. Comprising three core units and the choice of one elective, the course material will be presented in mostly modular format and will be developed according to the contemporary and up-to-the-minute needs of the industry. The course will deal with corporate and personal insolvency, placing an emphasis on corporate insolvency. It will examine turnaround and restructuring options and further, will focus on the protocols in ethics and professional responsibility to be cultivated in the insolvency practitioner. The course will also work to develop a suitable sense of commercial judgement in the emerging insolvency professional.

Entry Requirements

Domestic students

A recognised Bachelor degree or higher in law, accounting, economics or finance.

International Students

The course is not available to international student visa holders. It is available in an external mode only.

English Language Requirements

IELTS Overall 6.5 (with no sub-score less than 6.0) or equivalent accepted by QUT.

2015 Course Structure

Students admitting in 2015 semester one or two will complete one unit only per semester:

Semester 1: LWN805 Restructuring, Professionalism and Ethics in Insolvency Practice

5TP4: LWN803 Cross Border Insolvency or

Semester 2: LWN804 Regulatory Issues Impacting Insolvency Practice

Course Structure

The course consists of three core units and one elective.

LWN801 Insolvency Law and Professional Practice 1;

LWN802 Insolvency Law and Professional Practice 2; and

LWN805 Restructuring, Professionalism

and Ethics in Insolvency Practice

Choose one elective unit:

LWN803 Cross-Border Insolvency or
LWN804 Regulatory Issues Impacting
Insolvency Practice

Further study options

This qualification articulates into the Master of Laws (for those with a Law Degree) or the Master of Applied Law (for non-law professionals) for additional career development. On completion of this Graduate Certificate, you can apply for four units advanced standing toward either of these Masters Programs.

Overview

Librarians empower people by connecting them with information. Libraries provide access to information and technology, as well as programs and services that support business, government and education. They support individuals' lifelong learning and leisure pursuits and assist people to develop literacies.

This degree will prepare you for a rewarding career as a librarian. It has been designed to provide a dynamic, rich and stimulating learning experience that helps you to develop the skills, knowledge and attitudes needed by contemporary information professionals. You will learn how to design, plan, implement, manage and evaluate information services to meet the needs of clients. You will also learn about the management, curation and preservation of information artifacts, as well as the applications of emerging technologies in information practice. In addition to core skills and knowledge related to information practice, you will develop the communication, interpersonal and teamwork skills needed to work effectively in a global environment.

A hands-on, real world based curriculum gives you the opportunity to explore the information professions broadly and to

gain a deep understanding of library and information practice.

Flexible Learning

This degree is designed to suit your busy lifestyle. Our flexible approach to teaching allows you to study online or face-to-face, or a mix of both. A blend of on campus classes, online classes, and class recordings provide you with options for how, when and where you engage with unit material.

Why choose this course?

Are you looking for a career in librarianship or the information professions more broadly? In this rapidly changing, technology driven and information rich age, careers in the information professions are varied and exciting. In this course, you will explore the interrelationships between information, technology and people and develop specialist skills and knowledge that will equip you for a variety of roles in the information professions.

Our innovative, flexible approaches to teaching and learning allow you to balance study with your other commitments.

Real world learning

The degree aims to prepare students for work as information professional through a program of study that balances theoretical content, project based experiences and industry orientated perspectives.

During your studies, you will:

- Undertake authentic learning and assessment activities that set the key learning activities within actual libraries and information centres or interacting directly with industry practitioners.
- Hear from invited speakers who present their own employment situation as an example of the topic or theme covered in the class.
- Explore real world or research inspired problems within units.
- Undertake industry based research projects, undertaken with both an industry supervisor and an academic supervisor.
- Participate in the QUT Career Mentoring Scheme where students are partnered with a current industry practitioner for 6 months.

Career outcomes

As a graduate of this course, you will be ready to take on a career as a librarian, specialist librarian, database manager,

Master of Information Science (Library and Information Practice)

web content manager, information architect, cataloguer, knowledge manager, or intranet manager.

Employment opportunities are extensive. Your ALIA accredited qualification can take you into a range of libraries, including

- academic libraries
- public libraries
- state and national libraries
- special libraries and information centres such as
 - o law libraries
 - o health and medical centres
 - o music libraries.

Opportunities also exist beyond traditional library contexts, including careers in

- knowledge management
- records management
- web and intranet development
- research, development and policy.

Professional recognition

As a graduate, you will be eligible for membership of the Australian Library and Information Association (ALIA).

Research pathways

This Masters degree provides a pathway to a research degree (Research Masters, Professional Doctorate or PhD). Students who successfully complete IFN600 Research Based Practice and a 48 credit point research project are encouraged to apply for enrolment in a doctoral program. IN22 provides direct pathways for entry to a PhD program as well as to the Faculty's Professional Doctorate, Doctor of Information Technology.

Course Overview

The Master of Business Process Management will provide graduates with the skills and knowledge to create and align information systems to effectively support business and enable business strategy. The program examines business-IT alignment issues through appropriate theory and skill development, and provides career enhancement opportunities into senior management and governance roles. Students will study specialist units in Business Process Management specialisation and may undertake additional study in the areas of corporate systems, IT professional services, enterprise architecture and systems, and information and knowledge management.

Course Structure

To be eligible for the Master of Business Process Management (IN23):

- Students are required to complete 144 credit points of units.
- Students are required to complete the specified core units (120cp) which includes 48cp in specialist Business Process Management units
- Students must also complete two units (24cp) of electives from the list of approved elective units provided.

Domestic Course structure

To meet the course requirements for the Master of Data Analytics, you must complete 192 credit points of course units, consisting of:

- 48 credit points of core units
- 96 credit points of discipline units from your selected Major, or a range of units from across the majors if you choose not to nominate a major.
- 48 credit points of data analytics related elective units selected from an approved list of units, which is drawn from units offered in each of the majors.

Study Areas:

Choose your major in the following specialisation areas -

- Biomedical Data Science;
- Computational Data Science;
- Statistical Data Science; or
- No Major option

Students in the 1.5 year program

Please note: study plans are determined based on prior qualifications. The placement of the 48 credit point reduction across the study plan may vary between students. Clarification can be sought from the Course Coordinators once admitted.

Domestic Entry requirements

A recognised bachelor degree (or higher qualification) in one of the following fields:

- Biomedical, medical, medical electronics etc engineering
- Biophysics
- Electrical, avionics etc engineering
- Geophysics
- Mechanical engineering
- Medical physics
- Physics

The following degrees (or higher qualification) are not acceptable:

- Medical imaging
- Radiotherapy
- Medical radiation

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in physics or in science with a major in physics.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course Design

Stage 1— Graduate Diploma (PH71) comprises assessed coursework such as advanced lectures, seminars, reading units or independent study. Full time students will need an average of 14 hours a week of formal contact (seven hours for parttime students). Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Stage 2— Master of Applied Science (PH80) students undertake a program of supervised research and investigation that can be completed at QUT or in a suitable external institution.

Professional Recognition

The course is accredited by the Australasian College of Physical Sciences and Engineers in Medicine.

Domestic Entry requirements

To be eligible for this course, you need either:

- a completed recognised bachelor honours degree in a discipline relevant to your intended area of study or
- a completed recognised bachelor degree or equivalent in a discipline relevant to your intended area of study with: a minimum grade point average (GPA) score of 5.00 (on QUT's 7 point scale) relevant professional and/or research experience (as determined by the faculty).

Applications and proposed research projects are subject to supervisor availability and resources available within the faculty.

International Entry requirements

Domestic Course structure

Mandatory units

You'll need to complete:

- a time-based thesis
- IFN001 Advanced Information

Research Skills.

You may need to complete other units that are recommended by your faculty, negotiated with you and based on the skills gaps identified in your research degree skills audit.

Study areas

Your faculty may have several specialisations (study areas) that your research will align with. This will appear on your testamur at graduation:

Business

- Master of Philosophy (Accountancy)
- Master of Philosophy (Advertising)
- Master of Philosophy (Economics)
- Master of Philosophy (Entrepreneurship and Innovation)
- Master of Philosophy (Finance)
- Master of Philosophy (Human Resource Management)
- Master of Philosophy (International Business)
- Master of Philosophy (Management)
- Master of Philosophy (Marketing)
- Master of Philosophy (Philanthropy and Nonprofit Studies)
- Master of Philosophy (Public Relations)

Creative Industries

- Master of Philosophy (Design)
- Master of Philosophy (Communication)
- Master of Philosophy (Creative Practice)

Education

- Master of Philosophy (Education)

Health

- Master of Philosophy (Biomedical Sciences)

Domestic Entry requirements

Academic entry requirements

You must have either:

- a completed recognised relevant honours degree (first class or second class Division A) or equivalent
- a completed recognised masters degree or professional doctorate (by research or coursework)

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

For more information on eligibility, read the [admission criteria for the Doctor of Philosophy \(PDF, 98.5KB\)](#).

Once you've started your PhD, you'll need to complete your Stage 2 milestone to be fully admitted to your course. You'll usually complete this milestone within the first three months of study.

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; *and*
- present evidence of research experience and potential for approval

International Entry requirements

Overview

The Doctor of Philosophy (PhD) offers the opportunity to work with an experienced supervisory research team to make a significant and original contribution to disciplinary knowledge. A PhD candidate's research must reveal high critical ability and powers of imagination and synthesis and may be, depending on discipline, demonstrated in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge. This world-class program provides a basis for critical inquiry and welcomes collaborative and interdisciplinary research projects. A QUT PhD graduate will be equipped to seek employment in industry, research organisations and universities.

Entry requirements

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- . a relevant first or second class division A honours degree or equivalent, or
- . an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a

Doctor of Philosophy (Hosted by Faculty of Science)

significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

International Student Entry

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

An applicant would normally hold:

- . a relevant first or second class division A honours degree or equivalent, or
- . an appropriate Masters degree or Professional Doctorate (by research or coursework)

Masters and Professional Doctorates degrees by coursework must contain a significant research component, normally no less than 25%.

Holders of Masters and Professional Doctoral by Coursework must:

- have a grade point average of at least 5.0 on a 7 point scale and
- present evidence of research experience and potential for approval

English language proficiency requires International applicants to meet an IELTS overall band score of 6.5 with no sub-score below 6.0.

FINANCIAL GUARANTEE

Acceptable forms of evidence include:

- A letter from an approved employer confirming the continuation of your salary; OR
- A signed Scholarship Agreement between QUT and your sponsoring agency; OR
- An accepted letter of offer from QUT for a postgraduate research scholarship; OR
- An approved external scholarship.

Location & duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course Structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Fees

Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level for domestic and international students.

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written

statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a 'satisfactory' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

Domestic Entry requirements

Additional entry requirements

You must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

To demonstrate this you must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. Details are available from the [QTAC initial teacher education webpage](#).

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)
- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

International Entry requirements

Applications in 2022

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

If you've achieved a '*satisfactory*' result for one or more components of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the '*satisfactory*' result can be carried across with your admission application. You are not eligible to apply for a place in this course if one or more components of LANTITE remains at '*unsatisfactory*' after two test attempts for that component.

International Subject prerequisites

- Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C)

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.5
Listening	8.0
Reading	7.0

In response to COVID-19, QUT has reviewed the availability of courses to be delivered offshore for students studying in 2022.

You must be onshore in Australia to apply for this course and cannot commence online.

If the Australian Government makes any changes to the international border closure, QUT will communicate directly with students who have an offer and may be eligible to commence earlier than 2023.

Additional entry requirements

Pass the Initial Teacher Education Course (ITE) Capabilities Criteria.

Applicants must demonstrate possession of key competencies outlined by the Australian Institute for Teaching and School Leadership (AITSL) as those attributes and motivations common to effective teachers.

You must complete an online questionnaire to demonstrate your motivation for and understanding of, the course and profession. In the questionnaire you will be asked to:

- Rank a series of potentially appropriate statement responses, in order of what you think is most to least important.
- Provide two x 500 word written statements addressing the categories and indicators as outlined on the [Teacher Entry Fact Sheet](#).

QUT will send you details on how to complete the Initial Teacher Education Course (ITE) Capabilities Criteria questionnaire and submit your written statements after you have lodged an application.

Course requirements: Literacy and numeracy

You will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate from the course. You are permitted three test attempts in total for each component as a student at QUT. If you fail three test attempts for each component, you will not be able to graduate. You are not eligible to apply for a place in the course if you have failed

two test attempts for one or more components, at another institution. The test will assess your personal literacy and numeracy skills. QUT provides you with one reimbursement to cover the cost of the test. For more information view additional course requirements.

Minimum English requirements

Students must meet the English proficiency requirements.

Overview

The Diploma in Engineering, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Engineering. In this program, students study six first year faculty core units as

well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Engineering. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Entry Requirements - Academic

Successful completion of senior high school with the required grades. Students can find more detailed country specific entry requirements at the following web site:

<http://www.qut.edu.au/international/apply>
ng

English Language Requirements

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Progression

Requirements for progression to the second year of the QUT Bachelor of Engineering program:

- fulfil the Diploma course requirements,
- achieve a minimum GPA of 4.0

Course Completion

Students must obtain at least a grade of 4 (Pass) or better in all units.

Description

The Diploma in Creative Industries (previous title: University Diploma in Creative Industries), which has intakes for international students in February, June and October, is primarily a pathway for entry to bachelor degrees within Creative Industries, with the Bachelor of Creative Industries KK33 being the most prevalent course progression pathway. Students gain coherent and integrated theoretical, technical and practical knowledge with emphasis on developing technical, analytical, decision-making, problem solving, teamwork and communication skills in well-defined, structured environments and with real world application.

In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

Progression

Students who successfully complete the Diploma of Creative Industries and achieve a GPA of 4.0 will **receive one year's advanced standing** and be **guaranteed a place in one of the available bachelor programs** from the Creative Industries Faculty.

96 credit points of advanced standing with:

4 semesters to complete:

QUT International College

International students may upgrade to the QUT Bachelor of Information Technology through QUT International College at our Kelvin Grove campus.

The University Diploma in Information Technology is equivalent to two semesters of the Bachelor of Information Technology degree with a total of 96 credit points (48 standard credit points for a full-time semester).

In the University Diploma program, students study six degree core units as well as two English language units that have been designed to support the other core units.

Progression to the Bachelor of Information Technology

Students who successfully complete these eight units with a grade point average of 4 (on a 7-point scale) and obtain a grade of at least 4 in Professional Communication 2 are given two semesters full-time advanced standing towards their degree and are guaranteed a place in the Bachelor of Information Technology.

Students who complete the University Diploma in Information Technology are also eligible for 96 credit points towards the Bachelor of Corporate Systems Management and Bachelor of Games and Interactive Entertainment.

Year	2021
QUT code	QC05
CRICOS	089122K
Duration (full-time international)	13 weeks
International fee (indicative)	2021: \$10,050 per course (48 credit points)
Total credit points	48
Credit points full-time sem.	48
Course Coordinator	Dr Annetta Spathis (annetta.spathis@qut.edu.au)
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

International Entry requirements

Successful completion of Year 12 or overseas equivalent at the required level.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.0
Listening	5.0
Reading	5.5
Writing	5.5
Speaking	5.0

Entry Requirements - Academic

Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

Entry Requirements- English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description

The University Certificate in Tertiary Preparation is a one-semester program that enables students to receive a University certificate on successful completion. It is designed for students who may have already met the academic entry requirements for a QUT undergraduate or postgraduate degree, but who may not have met the English language and/or prerequisite requirements.*

This program provides two alternative streams:

Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in the University Certificate in Tertiary Preparation program.

Stream B is for students who have met English requirements but not prerequisite

requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the University Certificate in Tertiary Preparation Program.

Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Alternatively, there may be some students who have already met both the academic and English requirements for a QUT degree entry, but who would prefer to undertake the University Certificate in Tertiary Preparation in order to prepare for academic study in a different tertiary environment.

*Students who require a Student Visa should check the English language requirements for a student visa from their country of origin.

Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

Progression

In order to progress to an award course, students must:

- fulfil the University Certificate in Tertiary Preparation course requirements
- gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- meet any other conditions detailed in the 'letter of offer' from Student Business Services.

Reading	6.5
Writing	6.5
Speaking	6.5

Domestic Course structure

The Undergraduate Certificate (Information Technology) provides you with foundational knowledge and skills related to the broad field of information technology. It serves as a taster to both areas critical to this field: Computer Science and Information Systems.

You will learn in a highly supportive environment and have access to a suite of services designed to help achieve your study goals and advance your career.

The four units of study in this course can be used as credit towards the Bachelor of Information Technology.

Domestic Entry requirements

Additional entry requirements

You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries:

- Australia
- Canada
- New Zealand
- Republic of Ireland
- South Africa
- United Kingdom
- United States of America

If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test (refer below).

English language proficiency

QUT requires students to demonstrate that they can speak, write, read and comprehend academic English to a specified standard.

QUT's English proficiency requirements for this course are:

- IELTS (Academic): 7.0 or better overall with no sub-score below 7.0
- PTE: 65 or better overall with no sub-score below 65
- TOEFL (IBT): 98 or better overall with a writing sub-score of 27 or better, listening and writing sub-scores of 24 or better, and speaking sub-score of 23 or better.

The test must have been completed within 2 years prior to the proposed course start month.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C)

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0

Reading	7.0
Writing	7.0
Speaking	7.0

Domestic Course structure

The Undergraduate Certificate (Nursing) covers both practical and theoretical realms; you will learn about: law and ethics as related to healthcare; anatomy and physiology of the human body; person-centred care and partnerships in nursing practice; and the key attributes of the registered nurse in contemporary practice.

The four units of study in this course can be used as credit towards the Bachelor of Nursing.

Domestic Entry requirements

Edit in the CMS.

International Entry requirements

Edit in the CMS.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Course structure

(Edit in the CMS)

You can enrol in one unit per semester, in addition to your Year 12 studies. You don't need to list your chosen unit on your application form. Instead, you'll choose your unit once you've been offered a place in the program.

You can choose a unit from a different study area in each semester (for example, a science unit in Semester 1, and a business unit in Semester 2). This might be a good option if you are looking to study a double degree.

If you're hoping to receive advanced standing (credit) toward a degree for the units you complete, it's best to select those related to your chosen future study area. Your START QUT studies, including the grades you achieve, will be included as part of your official QUT record.

Current students

Year	2022
QUT code	Uniwide
Total credit points	96

Study areas

A second major is a set of related units in a particular study area. You may be able to choose one from another area of the University if your course rules allow. To find out, go to your study plan: if you have a complementary studies option block, search using the code in brackets above the unit list and if it exists you will be able to select it on plan.

Second majors can consists of 72 or 96 credit points. The credit points for these study areas are listed on the Overview tab.

The introductory units in each second major have no prerequisites. Later units may have earlier units as prerequisites. Depending on class timetabling it may not be possible to complete all units in a university wide second major. Consult with your course coordinator and relevant discipline coordinators prior to undertaking interfaculty studies.

Individual units completed in a university wide second major will appear on your academic transcript but it will only be recorded as a successfully completed study area if you have a). selected it as an option on your study plan and b). completed the correct number of credit points.

Animation

Course Notes	
Code	Title
KKBXSMJ-ANIMATN version 3	
Description: This second major provides you with important skills in the skills, principles, concepts and history of animation. Beginning with drawing for animation and exploration of the history of the animation industry and its practices, you will then apply this knowledge to current and emerging fields within the animation industry including motion graphics, 3D modelling and animation, real-time 3D and character animation. Through the creation of an interactive virtual environment you will be given the opportunity to refine your skills and expand your knowledge of the 3D animation industry.	
Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this second major.

Unit Synopses

AMB207 Entertainment Marketing in a Digital World

Pre-requisites	48 credit points of completed studies
Equivalents	AMX207
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

As one of the largest industries in the world, and having been hit dramatically by COVID-19, the entertainment industry offers significant opportunities along with unique challenges for the application of marketing and communication tools. The unit is designed to be part of the Tourism and Entertainment Marketing minor or to be taken as an elective by students with a particular interest in the area of entertainment marketing.

Second Major: Creative Industries

BSB126 Marketing

Anti-requisites	BSB116
Equivalents	BSD126, BSX126, CTB126
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

To operate successfully and profitably in today's competitive marketplace, business operators need to apply marketing principles and concepts. Survival and growth depend very much on understanding customer needs, as well as the marketing environment in which they compete. BSB126 Marketing introduces students to key marketing strategies and tactics in order to adapt and respond to a continuously changing marketplace. The elements of the marketing mix are explored with special reference to product, price, distribution and promotion, and key issues relating to services marketing, e-marketing and strategic marketing are canvassed. The unit also introduces students to the related disciplines of advertising and public relations, and provides a broad grounding in marketing practice that is relevant for all business disciplines.

CCB101 Media Issues and Debates

Equivalents	KCB102
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This introductory unit addresses key concepts, myths, controversies and debates surrounding the relationship between media and contemporary society. The media and communication theories and ideas about the role of communication in contemporary society and culture are foundational for communication professionals. The unit aids you to critically examine topics such as the relationship between media content and violence, and how media may or may not affect social behaviours. In doing so, the unit investigates the historical foundations, cultural context and factual accuracy of a series of 'common sense' arguments regarding how different kinds of media have or have not affected the way our society functions. The unit provides a critical approach to media scholarship about the role of media in society that underpins more advanced units such as Social Media, Self and Society and Communication Research Methods.

CCB102 Multi-Media Design

Equivalents	KJB103, KCB304, KJB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

Online
- SEM-2
External
- XCH-1

Visual communication techniques are essential in capturing the attention of an increasingly visually literate society. Understanding how to design well is growing in importance in a society that is time poor and overloaded with competing sources of media. You will learn how to apply design theory in a variety of visual communication contexts relevant to the journalism, media and communication industries. You will gain an understanding of the role of design as a communication tool in a variety of outputs including newspapers, magazines, online publications and other integrated communication resources. It introduces the theory of design, its formats, the use of desktop publishing software, the principles of typography and design and the development of stakeholder relationships (photographers, printers etc.).

[View unit details online](#) | [View unit timetable](#)

CCB200 Digital Platforms

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

It is critical for communication professionals to understand the cultural, political, economic and technical contexts from which contemporary digital platforms have emerged and in which they are continuing to evolve. This unit focuses on the core concepts that have shaped digital media's brief history, differentiating digital media from older media forms. It develops students' contextual understanding of digital platforms by exploring how key concepts in digital media map onto specific platforms and their audience and user cultures. CCB200 forms the foundation for more detailed analyses of digital media in future years.

CCB201 Australian Media

Pre-requisites	Completion of 48 credit points of study
Equivalents	KCB104
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit provides you with the skills to critically engage with media as a user and industry participant. By developing your current awareness of contemporary debates and developments in Australian media, you will learn about how national and local media are shaped by a range of factors including globalising media markets, questions of national culture and identity, and digital disruption. As such, the unit introduces the theories that seek to improve media industry visibility and its social and economic importance. It also addresses public policy strategies for critically assessing industry, government, citizen and consumer perspectives around media industry. A critical

Second Major: Creative Industries

understanding of media institutions helps to inform ethical media choices and professional communication practices. Current awareness of technological, economic and political drivers and impediments for change introduces you to leaders, change agents and experienced practitioners in a range of media sectors.

[View unit details online](#) | [View unit timetable](#)

CCB202 Social Media, Self and Society

Pre-requisites	CCB200 (can be enrolled in the same teaching period as CCB202); or enrolment in IF27 Media and Communication Major (IF27MJR-MEDCOMM); or admission to Bachelor of Media and Communication single or double degrees (KC30, IX67, IX70, IX75, IX86)
Equivalents	KCB206, KCB201
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

Social Media has had a tremendous impact on our lives as individuals and members of larger societies. The debates surrounding these new and powerful technologies are often multi-faceted in their complexity. In this unit you will learn to critically examine and contribute to debates about social media's impact on identity, privacy and the ethics of everyday life, drawing on scholarly research to evaluate opposing perspectives and become critically informed communication professionals.

[View unit details online](#) | [View unit timetable](#)

CCB203 Strategic Speech Communication

Equivalents	KCB103, KCD103, KCB213
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit addresses the theory and practice of speech and interpersonal communication. It introduces theories of language, rhetoric and persuasion which are interrelated to promote understanding and development of your communication skills. Classroom practice in simulated work situations will enhance the leadership abilities needed to become articulate presenters in a range of contexts, including personal presentations both live and mediated. The ability to present a spoken message is a highly desirable skill in education, employment and life. Across a range of fields and professions, graduates will have many opportunities to speak a message in different modes. Taking an audience-centred approach to speaking, this unit focuses on creating and analysing persuasive messages. The unit is designed to assist you in becoming an effective oral communicator and discerning listener.

[View unit details online](#) | [View unit timetable](#)

CCB204 Communication Planning and Practice

Pre-requisites	CYB101 or KCB101 or KJB102
Equivalents	KCB205
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1

This unit examines communication between individuals and teams in organisational settings. It aids in developing practical skills needed for effective communication such as analysis, communication proposal development, formal document production and professional presentation. The unit provides theoretical concepts that shape effective communication in professional settings, the experience to apply these skills and develop a strategic communication proposal for an external client, and the ability to understand professional teamwork and effective internal communication. The strategic process of planning, implementing and evaluating effective communication will prepare you for a career as a strategic communicator both in internal and external contexts.

CCB302 Digital Media Analytics

Pre-requisites	Completion of 96 credit points of study
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 External - XCH-1

This advanced level unit equips you with critical understanding and skills in contemporary computational research methods as they are applied to digital content, platforms and networks. From computational analyses of 'big social data' to close qualitative analysis of digital media platforms and practices, the approaches, methods and tools that are grounded in and suitable for the study of digital media are expanding and evolving rapidly. This unit aims to provide you with critical understanding and practical skills in how to select and implement contemporary digital approaches to the collection, analysis and interpretation of various forms of emerging communication data, such as social media content (both textual and visual) and geodata.

[View unit details online](#) | [View unit timetable](#)

CDB101 Managing Media and Entertainment

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit develops a critical understanding of the social dimension of work in the media and entertainment industries. It introduces core concepts and debates, analytical frameworks, and the professional practices necessary to understand and employ effective management principles in the media and

Second Major: Creative Industries

entertainment industries. The unit looks at management theories and practices, and how the often social and collaborative mode of work in the media and entertainment industries shapes managerial identities, roles and strategies. It also provides you with a broad overview of what obstacles and challenges to expect, such as managing teams and collaboration within and across diverse contexts in a rapidly evolving industry environment. Ultimately, it develops a solid theoretical foundation, essential for media and entertainment professionals that you will apply to authentic project management activities later in your course.

[View unit details online](#) | [View unit timetable](#)

CDB201 Entertainment Strategy

Pre-requisites	(CDB101 and CYB105) or completion of 48 credit points of study
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This unit develops an advanced, critical, in-depth understanding of economic and labour aspects of the media and entertainment industries. It examines key strategies and trends of entertainment management and work across media platforms, locations and audiences. This unit will give you a broad overview of the financial and commercial elements behind how a wide variety of entertainment products are made, circulated, and consumed. You will learn about emerging business models, changing labour conditions, the tensions of creativity and commercialisation, the role of fans, and dealing with the day-to-day commercial requirements of a creative venture. You will learn the core strategies entertainment producers use to bring creative ideas to life as they strive for a sustainable outcome.

[View unit details online](#) | [View unit timetable](#)

CDB202 Entertainment Cultures

Pre-requisites	CYB106 or completion of 96 credit points of study
Equivalents	KXB201
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1

This unit examines the cultural conditions of the entertainment industries. It introduces theories and methodologies to understand the complex cultural dynamics of producing commercial culture in the entertainment industries. It offers a practical framework to make sense of the cultural factors that both shape and are shaped by industry operations and individual decision-making. It surveys the structural factors as well as the sociocultural practices that constitute the production and consumption of entertainment media. In order to navigate such complex conditions, you must understand the structural factors

as well as the practices, values, and belief systems that constitute entertainment culture. For example, how does 'culture' shape how businesses and workers conceive of and conduct themselves in the entertainment industries; how industry understands and responds to emergent technologies, or how does race or gender identity shape workers' experiences of entertainment work?

Credit Points	12
Availabilities	Kelvin Grove - SEM-1

This foundational unit provides you with the understanding and skills in journalistic ways of thought, processes and practice, focusing on processes and practices that inform effective news writing. This is the first writing/reporting unit in Journalism. By adopting a hands-on newsroom approach and industry-based assessment, this unit provides a foundation for advanced and specialised professional journalistic reporting techniques. Professional journalists require these foundational knowledge and skills in order to practice in newsrooms. The unit addresses the foundations of news reporting, focusing on identifying, researching and then structuring news reports in an evolving news environment. You will learn how to recognise the fundamental attributes of news and others journalism forms; use available mobile technologies, evaluate events for their potential news value, to record interviews and perform other reporting tasks, and to write socially responsible news stories.

[View unit details online](#) | [View unit timetable](#)

CJB102 Visual Journalism

Equivalents	KJB104, KKB020
Credit Points	12
Availabilities	Kelvin Grove - SEM-1

This unit equips you with the knowledge, skills, and experiences to create, edit, and present visual journalism using camera-based approaches. You'll learn about journalistic principles, equipment and camera settings, light and optics, visual literacy and aesthetics, file management and organisation, captions, image editing and sequencing. You'll leave with a portfolio of still or moving images that demonstrate the skills you've learnt and the principles you've put into practice. You'll become a more thoughtful visual thinker and storyteller in this unit and will have the opportunity to demonstrate technical skills and work in key genres of visual journalism, such as environmental portraiture, news photography, sports photography, and picture or video stories.

[View unit details online](#) | [View unit timetable](#)

CJB103 Journalistic Inquiry

Pre-requisites	CJB101 or KJB120
Equivalents	KJB121
Credit Points	12
Availabilities	Kelvin Grove

Second Major: Creative Industries

- SEM-2

This unit addresses basic skills of newswriting: generating story ideas, researching, conducting interviews, finding news values and news angles and applying them in a practical context. It also advances generic newswriting skills, enhances writing competency and develops the use of social media and mobile technologies in journalism. As such, it develops media professionals who can generate accurate, interesting and insightful stories. It builds your capacity to independently examine issues and events from new angles, rather than uncritically complying with outside agendas, such as PR agencies, government or business. You develop your journalistic inquiry skills focusing on interviewing, data mining and right to information, and learn how they fit into an online environment. You are introduced to everyday journalism, rigorous deadlines, social media and mobile first technologies.

[View unit details online](#) | [View unit timetable](#)

CJB201 Feature Writing

Equivalents	KJB224
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 External - XCH-1

This unit provides advanced journalistic skills in feature writing, such as generating story ideas and new angles, researching and interviewing and writing interesting copy. Feature writing is a mainstay of journalism that practitioners cultivate during a career in this constantly evolving media space. The unit provides experience in the preparation of feature stories of professional quality and gives access to the benefits of reflection and a constructive critique of your research and writing. It aids you in producing credible non-fiction articles in a dynamic and appealing style, engaging skills that are transferable to areas outside journalism. It also provides awareness of the market for feature material for writers including freelance journalists. You are mentored to find publication opportunities in off-campus media.

[View unit details online](#) | [View unit timetable](#)

CJB202 Production Journalism

Pre-requisites	CJB101 or KJB120
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

Contemporary journalism increasingly requires multi-skilled practitioners able to engage and attract audiences through creatively and accurately edited content integrated with compelling visual design. This unit introduces you to the key functions of production journalism for print and digital media by teaching how to produce multimedia (video) and how to edit and design print and digital content prior to publication. It builds on foundation skills in journalism and engages you with the

dynamics of visual design and the application of design theory to journalistic practice. You learn to develop material to the publication-ready stage and to apply theoretical concepts in practical contexts. You also gain an understanding of the role of layout and design as a communication tool in print and digital media.

[View unit details online](#) | [View unit timetable](#)

CJB204 Journalism Ethics and Issues

Pre-requisites	((CJB101 or KJB120) and LWS011) or (CDB101 and LLB101)
Equivalents	KJB239
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 External - XCH-1

This unit aims to develop socially responsible, ethical journalists. As such, it looks at moral philosophical traditions and current journalistic practice in the context of Australian and international news media approaches. It introduces theories of ethical decision-making and their application; overviews professional codes of conduct and codes of ethics in the media industry and related professions; addresses major ethical concerns in journalism; examines the journalist's working environment and the public's perceptions of the media industry; provides opportunities to explore personal responses to ethical dilemmas and to work through examples of applied ethical decision-making; develops capabilities of self-care as well as your critical analytical abilities; and addresses the impact of developing information and communication technologies.

CWB101 Communication and Composition: Introduction to Academic Writing

Equivalents	KWB110
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces you to the conventions and practices of academic writing. It develops an understanding of how to interpret and analyse information and to argue a case based on evidence and logic. The unit also helps build your understanding of information literacies, research skills and how to evaluate evidence. Academic writing is an essential skill that you need to succeed in your university program, as academic writing underpins assessment tasks in all university degrees. This unit is placed in your first year to ensure that you have the necessary writing skills to complete your assessment at a high standard throughout your course of study.

[View unit details online](#) | [View unit timetable](#)

CWB102 Influence and Persuasion

Equivalents	KWB115
Credit Points	12

Second Major: Creative Industries

Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1

This foundational unit provides you with the theories, techniques and practices of analysing and creating persuasive texts. It introduces the theory and practice of persuasive communication across a number of genres to enhance your writing and communication skills. Persuasion and persuasive appeals are an integral (if often unconscious) element of professional communication. Advances in technology have made persuasion a pervasive element of contemporary communication, both personal and professional. Therefore, as a professional communication practitioner, you should be able to understand the principles of persuasion, use the vocabulary of persuasion, and evaluate the efficacy of different persuasive strategies.

[View unit details online](#) | [View unit timetable](#)

CWB112 Popular Culture: A 21st Century Communication Industry

Equivalents	KWB311
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2
	External
	- XCH-1

This unit is designed to provide you with skills in understanding popular culture/s. It addresses the production of popular culture via a range of texts and mediums and provides you with a framework to critique the operations of popular cultures. Given the increasing discussion of the importance of popular culture in contemporary society, the unit addresses the sites of such discussions and the changing status of popular culture. The unit provides you with an understanding of the notion of 'popular culture' and an opportunity to consider a range of cultural productions that have engaged with this term. You will consider a range of popular culture theories and a number of texts in relation to those ideas and will gain an understanding of the position of popular culture within cultural studies discourse.

CWB201 Corporate Writing and Editing

Equivalents	KWB213, KWB106
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2

This unit allows you to develop the ability to write in at least two corporate writing genres and be proficient in three other genres. It deals with both the fundamentals of language (grammar, punctuation, style) and common corporate writing genres (manuals, reports, speeches, brochures). Professional communication specialists must have a command of an extensive range of corporate writing genres to create and edit corporate documents. As a corporate writing specialist, you must

also be able to respond authoritatively to technical and stylistic writing questions when such matters arise in the workplace. You will develop your knowledge about how language works and be able to use that knowledge in practical writing applications. As a result, you will become a more confident writer and communicator in corporate and professional situations.

[View unit details online](#) | [View unit timetable](#)

CWB202 Rhetoric: Public Communication Skills

Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1

This unit provides advanced-level rhetorical tools, strategies, techniques and analytical methods related to communication in professional and workplace contexts and audiences. It builds upon prior knowledge (Influence and Persuasion) to further understand the role and function of rhetoric in contemporary society. Examples of advanced rhetoric in action are drawn from technical, political and business communication, and other fields. Rhetoric—the process of crafting written and spoken messages for specific audiences to inform, persuade, or achieve action—is a fundamental element of all forms of Professional Communication. Its practitioners need to be conversant with rhetorical topics, tools, techniques and analytical frameworks to be able to create sophisticated communication artefacts that inform, persuade and instruct depending on the specifics of audience and context.

[View unit details online](#) | [View unit timetable](#)

CWB303 Communication Project

Pre-requisites	Completion of 168 credit points of study
Equivalents	KCB303, KCB307
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1

This unit applies prior knowledge of media and/or communication research, industries, and practices; providing an environment in which to develop your communication and project management skills while contributing to the maintenance and development of publicly facing websites or other media. Content creation, project management skills, and collaborative work are extremely important in media and communication industries. You will use these skills and apply them to working on public websites and with industry. This is a capstone unit in which you contribute to a real-world project (research, industry/corporate-based or not for profit) that works to advance your future employability. In doing so, you will work on an online platform that incorporates academic research, is informed by content marketing research (industry/corporate-based), or provides professional content services for clients (not for profit).

CYB101 Introduction to Communication

Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1

Second Major: Creative Industries

Online
- SEM-1
External
- XCH-1

This foundational unit introduces you to written, spoken and visual communication skills. It focuses on audience, purpose, and context as they inform communication practice. The unit is designed to equip you with theoretical and practical skills and knowledge required for careers in the Communication Industries. As a student in the Communication program, you need to be able to express your ideas in written, spoken and visual form. Research shows that an aptitude for and facility in written, spoken and visual communication are essential for academic and professional success. This unit is one of four foundation units in the Bachelor of Communication program that are central to building the theoretical and practical knowledge required by QUT and industry.

[View unit details online](#) | [View unit timetable](#)

CYB102 Introduction to Media and Entertainment Industries

Equivalents	KXB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1, SEM-2 Online - SEM-1, SEM-2

This foundational unit introduces core concepts and debates, analytical frameworks and professional practices necessary to understand how the media and entertainment industries operate as complex economic and cultural activities. It develops capacity for subsequent study and employability in the media and entertainment industries. The unit provides a comprehensive overview of industry structures and functions, regulatory and technological conditions, and professional practice. It also presents you with the broader theoretical and practical implications of industry dynamics in political, economic, and social contexts. As such, this unit aims to develop a deeper and more critical understanding of media and entertainment industries and their dynamics.

[View unit details online](#) | [View unit timetable](#)

CYB104 Managing Social Media

Equivalents	CYD104
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This foundational unit gives an understanding of, and basic applied skills in, best practice social media management within professional communication contexts. It introduces you to the principles, tools and techniques of professional social media practice, social media presence and the development, implementation and analysis of digital communication strategies. It also provides opportunities to apply them in the ever-evolving

social media landscape. This is a foundation unit that supports learning activities in intermediate and capstone units and introduces you to individual and teamwork approaches to learning and teaching.

[View unit details online](#) | [View unit timetable](#)

CYB105 Understanding Audiences

Equivalents	KCB301
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This unit introduces the ways in which the media and entertainment industries have imagined, measured and monetised their audiences. Understanding that audiences are powerful constructions in the media and entertainment industries, the unit examines how conceptions of audiences shape marketing, branding and advertising strategies, and what broader cultural concerns are associated with our reading of audiences and their behaviours. The unit also examines audiences by looking at the complex relationship between industry's imagined audiences and its strategies and establishes a theoretical foundation in audience studies as well as overview of key qualitative and quantitative market research techniques.

[View unit details online](#) | [View unit timetable](#)

CYB106 Global Media and Entertainment Industries

Pre-requisites	CYB102 or KXB101
Equivalents	KXB102
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit provides a critical understanding of globalisation in the media and entertainment industries. It introduces key disciplinary debates about the creation, circulation and consumption of media and entertainment across different locations and cultures. For the successful media and entertainment professional, it is imperative to understand how media and entertainment operate and interact across local and global contexts. This unit introduces a range of entertainment industries and forms, and draws attention to the increasingly transnational nature of entertainment economics and culture. Specifically, it looks at entertainment industries as global players; their consumption and circulation; understanding them as an economic and cultural phenomenon; and how the interaction between global-local forces transforms entertainment industries, business practices, and products.

DAB200 Modern Architecture

Pre-requisites	DYB114
----------------	--------

Second Major: Creative Industries

Equivalents	DAB325
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit explores the global movement of modern architecture from its European roots. As many contemporary architects state, the movement still influences architecture and theory and this unit will enable you to locate contemporary global architecture within a framework of rich, complex and interconnected cultural, societal and historical contexts and traditions. You will acquire the facility to read seminal texts, to begin to understand your own design projects in an historical context, and to engage with the global architectural debates which inform architecture today. This unit is part of the history and theory stream in architectural studies. As an architect, you should be able to analyse developments in architectural history from multiple perspectives. Following on from DYB112 Spatial Materiality and DYB114 Spatial Histories, this unit explores and critically examines significant issues, influential individuals and exemplary works of the modern movement.

DFB102 Introduction to Fashion Communication

Equivalents	KFB103
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit provides an introduction to fashion communication and is intended to provide foundational knowledge and skills to pursue further studies in fashion communication. It aims to develop your understanding of fashion as both an everyday cultural form and a complex global industry. Learning in this unit will be important in order to gain an overview of the global fashion system and fashion cultures. You will develop and practise foundational fashion communication skills alongside learning how to apply key theoretical ideas to understanding fashion. This unit will provide you with the conceptual basis to pursue further studies in fashion communication.

[View unit details online](#) | [View unit timetable](#)

DFB104 Fashion Sustainability

Equivalents	DFB203, KFB104
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit is in the developmental stage of the program and provides you with a foundational knowledge of environmental and social impacts of fashion production and consumption. Throughout the unit you will examine the environmental and social impact of different industry business models, materials and production methods in order to develop the skills and mindset to apply more sustainable practices. It also introduces

fashion systems as complex supply chains spanning raw fibre through to manufacturing, design, retailing and garment use, disposal systems at end of life, fibre and textiles, industry structures, and business models grounded in sustainable and ethical practices.

DFB204 Fashion Product Development

Pre-requisites	DFB105, DYB122, DFB302, or KFB107
Equivalents	DFB406, KFB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This unit further develops your knowledge, skills and application for professional fashion communication and product development in the fashion industry. It focuses on commercial fashion design and product styling. Developing consumer products in the fashion industry requires diverse skills and knowledge in trend analysis, range building, sourcing, finishing, specification sheets and marketing to ensure successful and sustainable outcomes. By developing a foundational knowledge in product development you will be prepared to work in commercial fashion or to create your own fashion brand.

[View unit details online](#) | [View unit timetable](#)

DFB205 Fashion Media

Pre-requisites	Completion of 72 credit points of study
Equivalents	DFB304, KFB210
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit offers insight into the connection between media and fashion image making. It takes a critical historical, interdisciplinary and industrial approach to the study of fashion media, exploring media and digital social platforms that have contributed to the dissemination of fashion. Cross-pollination between fashion and media platforms from different historical times has contributed to the formation of taste, along with cultural and consumer discourses. This unit explores the evolving and complex fashion communication landscape that has captured key changes in fashion culture and industry, and the fragmentation and opening up of fashion communication to global consumers and identities.

[View unit details online](#) | [View unit timetable](#)

DFB206 Global Fashion Cultures

Pre-requisites	Completion of 72 credit points of study
Equivalents	DFB402, KFB207
Credit Points	12
Availabilities	Kelvin Grove - SEM-1

Second Major: Creative Industries

Online

- SEM-1

External

- XCH-1, XCH-2

This unit further develops your knowledge of the complexities of global fashion systems and builds on the application of your skills in fashion visual communication with an emphasis on visual analysis. It focuses on the diverse aesthetics and practices of global fashion cultures since the mid-twentieth century. The aim of this unit is to develop your knowledge of the diversity of global fashion aesthetics since the mid-twentieth century while focusing on consumer-led fashion developments alongside high-end designer fashion of this period. As such, it will deepen your knowledge of how design is connected to social and cultural developments.

[View unit details online](#) | [View unit timetable](#)

DFB207 Fashion and Style Journalism

Pre-requisites	DFB102 or CJB201 or KFB103 or KJB224
Equivalents	DFB404, KFB205
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit provides skills to conceptualise and produce fashion and style editorial content in various styles and in both Australian and international contexts. It maps the scope and practice of fashion and style journalism, a profession offering career options for journalists, photographers, designers, writers and fashion specialists. In this unit, you will use your developing professional skills to produce fashion and style editorial content and/or contribute to the production of a fashion and style zine and/or website. Print and digital media map key changes in fashion in similar ways, forming opinions about fashion, taste and the world. Fashion writing and styling is also a key skill in public relations for a brand curating and editing brand e-magazines, social media management and content creation in general. This unit addresses key skills learnt during the course and practising these skills in a real world, practice-based learning environment.

[View unit details online](#) | [View unit timetable](#)

DFB209 Global Fashion History

Equivalents	DFB303, KFB109
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces the foundations of fashion history through a global perspective of trade, culture and style flows between the West and the East. It presents a new approach to the study of fashion history as an exchange between cultures taking a critical and interdisciplinary approach to provide you with the opportunity to build your fashion knowledge in a context of complex global cultural and commercial exchanges in fashion. In doing so it unravels competing cultural and political discourses of dress in colonial contexts recognising the multiple sites that

contributed to the emergence of fashion and the influences and impact that these global sites had on local fashion. The unit presents instances of colonisation and resistance through dress, including an Australian Indigenous perspective. It provides you with skills in written and oral communication, research and visual analysis; and, importantly, it will help you to identify and understand current influences and future directions in contemporary fashion design.

[View unit details online](#) | [View unit timetable](#)

DFB305 Critical Fashion Studies

Pre-requisites	Completion of 48 credit points of Fashion units (DF% coded)
Equivalents	DFB602, KFB305
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This advanced level unit deepens your critical fashion engagement and consolidates your skills in fashion communication. It prepares you to play a leadership role in shaping the dialogues that are transforming fashion practices. The aim of this unit is to develop your critical, analytical and communication skills in the context of the global fashion industry and wider cultural debates. Embracing an interdisciplinary approach characteristic of current fashion scholarship, this final unit builds on the theoretical and practical knowledge developed in DFB206 Global Fashion Cultures and DFB209 Global Fashion History and provides you with the opportunity to develop sophisticated research and written communication skills, preparing you to contribute to shaping the dialogues and debates that are changing the contemporary fashion industry.

DVB101 Visual Communication Design

Equivalents	DXB102, KIB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This unit introduces the principles and conventions associated with the interpretation and production of meaning through visual representation. Visual Communication is based on the creation of meaning through image and text and this plays a critical role in our contemporary world which is visually and media driven. Visual communicators require a deep understanding of conceptual development, design process, typography and image making, and how image-based communication occurs. You will learn how to think and operate as a visual designer through studio-based learning and a series of industry-focused experiences.

[View unit details online](#) | [View unit timetable](#)

DVB102 Image Design and Production

Equivalents	DXB202, KIB120, KVB204
Credit Points	12

Second Major: Creative Industries

Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2
	External
	- XCH-2

This unit provides skills and knowledge for image creation and production across different contexts, styles and media. It also deals with issues of originality, creativity and suitability of images used in professional visual design, while increasing your skills and creative approaches to areas of illustration, information design, photography, and photo media design. It advances knowledge on aesthetic and formal qualities of new areas of image design and a growing technical skill set which will be built upon in further Visual Communication Design specialisation subjects. In a world of easily reproduced digital imagery, the ability to create your own original illustrations, photos, textures and patterns can be highly competitive. Along with developing practical skills to generate original imagery for your design work, the unit further develops your capacity to critique and reflect upon practice.

[View unit details online](#) | [View unit timetable](#)

DVB201 Typographic Design

Pre-requisites	DVB101 or DXB102
Equivalents	DXB302, KIB231, KIB335
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit provides knowledge and skills of typographic principles, composition and design strategies. It combines theory and practice, history and experimentation, and designing for print and digital media, all within a vibrant studio environment delivered face-to-face and online. You will engage with dynamic, creative briefs and use type as the main element of visual expression in your work. Typically typography is at the core of any visual communication work, independently of media. 'Good' typographic design demands well developed technical skills, constant attention to detail as well as a sharp understanding of the context and content of the message being transmitted. Upon completion of this unit you will be able to understand, apply and manipulate multiple aspects of typography as a powerful visual communication tool and to prepare and publish your work in multiple media contexts, including emerging technologies and environmental spaces.

DVB302 Data Visualisation and Information Design

Pre-requisites	Completion of 36 credit points of Visual Communication or Interaction units (DVB% or DXB%)
Anti-requisites	CCN104, CCN205
Equivalents	DXB502, KIB340
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

Information and data is now an essential aspect of everyday life in our technologically-driven and visually rich society. In the contemporary world, the generation of data is much greater than the ability to digest and visualise this as meaningful information. The unit provides advanced knowledge and skills in visual information design and data visualisation allowing you to apply these within a series of practice-based design works. The unit contextualises the growth of this information design specialisation for visual designers, raises issues relating to data collection and integrity, and provides you with a comprehensive understanding of the variety of design approaches that can be engaged within this area. It offers both a practical understanding of established information design models and also the opportunity to develop an innovative and future-forward approach to data visualisation, including utilising interactivity.

DXB110 Principles of Interaction Design

Equivalents	DXB201
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces Interaction Design theories, methods, tools and applications essential for the design of digital products, services and experiences for human interaction. It enables you to undertake user experience research in response to real world briefs, critique leading industry case studies and practices, iteratively prototype solutions, and evaluate usability of the

Second Major: Creative Industries

outcome with regard to user experience. Amidst global proliferation of digital products and services shaped by trends in augmented and virtual reality, automation, smart homes, and the Internet of Things; there is a greater emphasis on designing digital interactions, interfaces and systems that improve the human experience. In order to effectively achieve that, this unit provides foundational skills and knowledge in human-centred design, including aspects of the interaction design lifecycle, methods, tools and techniques needed to solve real world problems.

[View unit details online](#) | [View unit timetable](#)

DXB111 Introduction to Web Design

Equivalents	DXB203, KIB103
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit introduces concepts and skills underpinning the user-centred design of web sites using the web technologies such as HTML and CSS. It enables you to understand web technologies as a medium to explore design concepts and to build responsive, high-fidelity, mobile-first web sites. This includes translating conceptual designs into responsive websites while taking into account principles of interface and user experience design, layout, style and navigation. The unit enables you to formulate solutions to design problems, to produce high quality technical and aesthetic outcomes, and to understand the basic skills needed by web design professionals.

DXB205 Interactive Narrative Design

Pre-requisites	Completion of 24 credit points of study
Equivalents	DXB304, DXB404
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit serves as an introduction to creating immersive environments and building interactive worlds for player performance and dramatic agency. The role of the narrative designer is central to the success of any significant professional project in interactive media and game design. The unit addresses theoretical issues associated with immersive / non-linear story structures and interactive narrative forms through the analysis of game / play systems, the creation of original game concepts and the application of techniques of narrative design. It extends this understanding into practice through the application of relevant skills, which will scaffold you into the production of a portfolio work (suitable for interaction designers, visual communication designers, game designers, media designers, creative writers and performance studies).

[View unit details online](#) | [View unit timetable](#)

DXB210 Critical Experience Design

Pre-requisites	DXB110 or DXB201
Credit Points	12
Availabilities	Online - SEM-1 External - XCH-1

This unit explores the way in which critical and speculative design theory and practices can transform established design conventions in new and unexpected ways, leading to innovative design solutions. Design does not operate in isolation. All our decisions as designers affect not only the produced outcome, but the broader society and environments for which it is created. This unit provides you with design skills to create highly engaging and interactive speculative designs, services and experiences, while focusing on their impact and potential of design for change and deep societal transformation. In this unit you will adopt critical thinking and speculative design methods to re-imagine, analyse, design and present solutions for future scenarios (e.g. living in future cities, design of future hospitals and future of the environment) as a way to re-frame present interactions between people, spaces and technologies.

DXB211 Creative Coding

Pre-requisites	36cp of previous study
Equivalents	DXB303, KIB205
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This is an introductory programming unit for designers. It presents core principles of computer programming and explores how these can be applied to produce creative outcomes. It also surveys the ways that designers, artists and other creative practitioners have engaged with computer programming and reflects on the nature of code as a creative medium. A basic literacy with programming is essential in areas of professional practice such as interaction design, visual design, web design, mobile app design and game design. As such, it is important for you to develop core skills in computer programming, as well as knowledge of the aesthetics of computational processes in design and creative practice.

DXB212 Tangible Media

Pre-requisites	DXB211 or DXB303
Equivalents	DXB501, KIB314
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit provides in-depth knowledge of tangible media through

Second Major: Creative Industries

the production of an advanced tangible media design project. The design and production of computational and interactive media forms requires theoretical knowledge and an understanding of the processes that underpin the tangible as well as the embodied ways in which people interact with such systems. This unit builds upon previous interaction design studies and extends these studies into the field of tangible media.

[View unit details online](#) | [View unit timetable](#)

DYB112 Spatial Materiality

Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit provides an exploration of the materials of the built environment. It will focus on a number of thematic issues of materials: their physical properties, their histories, their environmental impacts, and their applications in making architecture, interiors and landscapes. Through activities of analysis, observation and research, you will discover materials' tectonic ability to heighten the human experience of the spatial environments around us. As such, the unit aims to foster a spirit of enquiry into the creation of spatial environments. As a foundation unit for architecture, interior architecture, and landscape architecture students, it offers a broad view of the spatial disciplines and the materiality of their design and creation.

[View unit details online](#) | [View unit timetable](#)

DYB114 Spatial Histories

Equivalents	DEB202, DED202, UXB130
Credit Points	12
Availabilities	Gardens Point - SEM-2

This foundation unit introduces the history of the built environment that will inform your study of global architectures that have occurred over several millennia putting the present into its relative context. It is designed to integrate the discipline specific content of architecture, interior architecture and landscape architecture within the broad context of a global understanding of spatial histories from multiple perspectives. The unit addresses key designs, ideas and issues that have shaped the aesthetic, environmental, socio-cultural and political factors that related to their production. It enables you to become familiar with the critical moments and paradigm shifts of the built environment through global perspectives and spatial justice theories; to develop an understanding of yourself as a participant in the continuum of the rich cultural tradition of designing and making places for human inhabitation.

[View unit details online](#) | [View unit timetable](#)

DYB122 Design Visualisations

Equivalents	DFB105, DFB302, DNB103, DEB103
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

External
- XCH-1

This unit Introduces you to design visualisation practice and how to employ a variety of techniques to visualise design ideas to assist you in design thinking, research, communication and presentation.

[View unit details online](#) | [View unit timetable](#)

DYB124 Design Consequences

Equivalents	DEB202, DED202
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Design Consequences is a foundational unit employing historical, theoretical, and applied methods to explore the ways in which design influences and is influenced by cultural traditions and practices, beliefs and biases. Working across frames of past, present and future, you will learn how to critically engage with and draw upon these cultural factors and influences to shape and define your design work and practice. The twenty-first century presents designers with a challenging context characterised by the increasingly dramatic effects of climate change, growing levels of inequality, and destabilised geopolitical conditions. This unit will introduce you to a range of ideas, methods, and approaches necessary to understand design not only as products, environments, services and experiences but also as a social, cultural, political, and economic agent.

KKB345 Creative Industries Project 1

Pre-requisites	Completion of 72 credit points of study relevant to the specific project
Credit Points	12
Availabilities	Online - SEM-1, SEM-2, SUM External - XCH-1, XCH-2

Undertake a supervised project in a team-oriented environment that involves practical application and critical reflection. The experience and skills gained will contribute towards your increased self-knowledge and confidence as a practitioner in the Creative Industries. Creative Industries graduates need to practise as professionals in their respective discipline or disciplines. Increasingly, a major part of such practice is instigating, managing, monitoring, and reporting on Creative Industries projects. **IMPORTANT:** Projects will be only promoted and can only be applied for through InPlace. These InPlace applications have strict closing dates, these dates will often occur well in advance of semester. **IMPORTANT: Please note, enrolment in this unit is by application only, if your application through InPlace is successful, you will be manually enrolled in this unit.**

[View unit details online](#) | [View unit timetable](#)

Second Major: Creative Industries

KKB346 Creative Industries Project 2

Pre-requisites	KKB345 (can be enrolled in the same teaching period)
Credit Points	12
Availabilities	Online - SEM-1, SEM-2, SUM

Undertake a supervised project in a team-oriented environment that involves practical application and critical reflection. KKB350 Creative Industries Study Tour

Pre-requisites	Completion of 72 credit points of study
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This unit is based on immersive learning and will provide opportunities for you to learn about nationally or internationally recognised creative industries practices and organisations and to interact with creative industries professionals beyond Brisbane. It is designed for those who have completed at least one year of full-time study and are ready to expand their horizons by gaining experience of national or international creative industries practices, organisations, and precincts. In the context of a study tour, the unit enables you to identify methods of developing, producing, distributing and marketing culture and creativity in a national and international context. It also refines your knowledge of contemporary creative industries to enhance your professional capacities and potential for employment in creative economies.

[View unit details online](#) | [View unit timetable](#)

KMB118 Musicianship 1

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces the foundational aural and analytical skills to develop your understanding of music and sound. These skills will be applied to a range of musical styles, settings and practices. The development of critical listening and analytical skills, combined with representational and demonstrational skills across a broad range of music and sound, is critical to the developing modern musician. The unit will foster a deeper understanding of music and sound to help inform and situate your creative practice. It complements other creative, practical

and analytical units in the degree by fostering a deeper understanding of music and sound.

[View unit details online](#) | [View unit timetable](#)

KMB119 Music Production 1

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit introduces you to the fundamental principles of music and sound production through a mix of theory and practice. You will gain an understanding of sound recording, sound production and live sound reinforcement while developing listening skills essential for music and sound production. The unit prepares you for later music production and creation units. Understanding how to capture and manipulate sound in live and recorded domains are core skills for anyone involved in making music or in any associated creative practice that involves the use of audio. You will develop a critical and practical understanding of the physical properties of sound, how it is perceived, and how it is recorded and processed to produce a final musical outcome.

[View unit details online](#) | [View unit timetable](#)

KMB128 Musicianship 2

Pre-requisites	KMB118 or (KMB122 and KMB137)
Equivalents	KMB139, KMB141
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit builds on the foundational aural and analytical skills introduced in Musicianship 1 to develop understanding of music and sound. These skills will be applied to a range of musical styles, settings and practices. The development of critical listening, analytical skills combined with representational and demonstrational skills across a broad range of music and sound is critical to the developing modern musician. The unit will foster a deeper understanding of music and sound to help inform and situate your creative practice. This unit develops your awareness, critical analytical and synthesis skills across a broad range of music and sound contexts and concepts. It complements other creative, practical and analytical units by fostering a deeper understanding of music and sound.

[View unit details online](#) | [View unit timetable](#)

KMB129 Music Production 2

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Second Major: Creative Industries

This unit builds on Music Production 1. It introduces you to sequencing, sound synthesis, and signal processing as approaches to contemporary music composition and production. You will gain an understanding of the approaches and aesthetics that underpin music production and performance in the digital domain. The unit prepares you for later music creation units.

[View unit details online](#) | [View unit timetable](#)

KMB217 Music Creation 1

Equivalents	KMB225
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit provides skills and understanding to create new music across a range of musical practices in performance, production and composition. It introduces musical contexts and concepts to help you to better understand your practice and that of your peers within a complex professional environment, and to be better positioned and equipped to respond appropriately. Successful musicians need to form and negotiate their creative practice within a complex professional environment. They need to develop critical skills to understand their music in context and how it can be connected to an audience. This unit establishes a platform for your practical skills in the creation and presentation of new music. As the first of four units in creative practice, it provides an opportunity for you to explore and present creative ideas with peers in a professionally engaged environment.

[View unit details online](#) | [View unit timetable](#)

KMB222 Music and Culture

Pre-requisites	Completion of 48 credit points of study
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This unit explores the way that music operates as a form of social, cultural and political communication. Drawing on interdisciplinary approaches, you will investigate and discuss the various contexts in which music circulates and is made meaningful. The unit explores traditional and contemporary music from a range of cultural contexts (including Australian First Peoples music and culture), providing opportunities to listen critically to music, while using key concepts from sociology, musicology, and cultural studies to discuss identity, culture, and the production and consumption of music. This unit is offered in the developmental stage of your course, and lays the groundwork for understanding why music exists in our lives and how it is placed in the cultural spectrum of music making and the perceived effects of globalisation and localism on music.

[View unit details online](#) | [View unit timetable](#)

KMB223 Music and Media

Pre-requisites	Completion of 48 credit points of study
----------------	---

Equivalents	KMB252, KMB107
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit explores how music is used as a storytelling device in a range of visual media. Building upon your awareness as a media consumer and your existing technological skills, you will explore and apply techniques in interdisciplinary contexts. As methods of media content delivery change, creative practitioners are required to enact a range of media production techniques in the communication of ideas. This unit is in the developmental stage of your course and engages you with practical and theoretical approaches, exploring the techniques and contexts of music and visual media in contemporary society.

[View unit details online](#) | [View unit timetable](#)

KMB227 Music Creation 2

Pre-requisites	KMB217
Equivalents	KMB235
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

Building on Music Creation 1, this unit develops skills and understanding to create new music across a range of musical practices in performance, production and composition. Successful musicians need to form and negotiate their creative practice within a complex professional environment. They need to develop critical skills to understand their music in context and how it can be connected to an audience. As the second of four units in Music Creation, it builds deeper engagement and knowledge used to present creative ideas with peers and industry professionals.

KNB125 Animation History and Context

Equivalents	KNB113, KNB122, KNB111, KIB110, KIB220, KVB106
Credit Points	12
Availabilities	Kelvin Grove - SEM-1

This introductory unit addresses key historical moments, thinking, and practices that have shaped the animation industry. Animation involves a broad range of creative approaches in the production of expressions for the dynamic screen practice. Animation in its truest form conveys believability, often fabricated through frame by frame construction. This knowledge will enable you to progress into units such as KNB135 Animation Aesthetics and KNB215 Animation Performance.

[View unit details online](#) | [View unit timetable](#)

KNB126 Motion Design

Equivalents	KNB123, KIB105
-------------	----------------

Second Major: Creative Industries

Credit Points	12
Availabilities	Kelvin Grove - SEM-1

This unit introduces aspects of visual narratives and explores the craft of expressing them in a sequential temporal format. The richly diverse field of motion design impacts a wide range of creative areas with fields such as graphic design, animation, visual effects, sequential art, film and games all offering opportunities in motion design. Motion Design has evolved to be more than 'graphics presented in motion'. With the advent of technology, applications and methods for creating them has rapidly expanded into a new form of visual communication, visual effects, infographics and visual artworks. The unit provides an understanding of motion design processes, theories and historical developments. It enables you to effectively design and communicate ideas using graphical and motion-based elements constructed using software and technologies common to the field of motion design.

[View unit details online](#) | [View unit timetable](#)

KNB127 CGI Foundations

Equivalents	KNB124, KIB111, KIB203
Credit Points	12
Availabilities	Kelvin Grove - SEM-1, SEM-2 External - XCH-1, XCH-2

This unit introduces the foundations of 3D computer graphics theory, the history of computer-generated animation and 3D production methods. It provides a solid theoretical understanding of 3D space; the technical skills to create 3D computer-generated imagery and the ability to resolve issues that arise during 3D production. In the evolving fields of animation, games and graphical visualisation, you will acquire new literacies and skills to participate fully in the 3D computer graphics production process.

[View unit details online](#) | [View unit timetable](#)

KNB135 Animation Aesthetics

Equivalents	KNB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This unit introduces basic to medium level techniques of 3D character animation by investigating the fundamental principles, concepts and approaches to body mechanics and character performance. The focus is on developing an understanding of methodology, planning and execution in order to achieve a sense of physicality and believability. When creating animated content for production, it is important to develop a solid methodology that allows an animator to work quickly and creatively while maintaining an acceptable level of quality. Being able to take direction and creatively respond to a brief while finding the best way to communicate an idea to an audience is a core skill that takes time to develop. The core communication skills of illustration, motion, blocking and layout follow industry standards in pre-production and are required for the generation and presentation of ideas, as well as the exploration of form and

character.

[View unit details online](#) | [View unit timetable](#)

KNB136 Visual Storytelling: Production Design

Equivalents	KNB112, KVB105
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

Animation is the art of impossible worlds, requiring a broad base of skills that address the nexus of theory and practice. Core animation skills such as observation, meaning-making, description, interpretation, representation and recording synthesise the foundations laid through critical thinking and affiliated practice. This unit explores the theoretical context for the use of techniques and processes involved in the development of concepts for production. It also introduces some of the drawing skills and processes employed in the visual development phase for animated, live-action production, motion media and games. It addresses design thinking, concept art, character design and modelling, in anticipation of production work. This unit provides a solid foundation for subsequent visual storytelling units, such as KNB216 Visual Storytelling: Cinematic Pre-Visualisation and KNB226 Visual Storytelling: Pre-Production, which inform final year capstone project.

[View unit details online](#) | [View unit timetable](#)

KNB137 Digital Worlds

Pre-requisites	KNB127 or KNB124
Equivalents	KNB212, KIB325, KIB215
Credit Points	12
Availabilities	Kelvin Grove - SEM-1, SEM-2 External - XCH-1, XCH-2

This unit provides a strong foundation in the practices and concepts associated with the creation of CGI assets for use within real-time graphics production. Applications of real-time 3D graphics now extend beyond the commonplace use in games into fields such as virtual production, virtual reality, augmented reality film and TV production offering new methods of production, storytelling and interactive experiences. The creation of these experiences requires a firm grounding in the practices, concepts and skills associated with real-time production and asset creation for use in a real-time 3D engine. This unit allows you to take advantage of 3D skills and knowledge developed during KNB127 CGI Fundamentals while laying the critical foundational knowledge and skills needed for more advanced practices undertaken in KNB217. It is a starting point to incorporating real-time technologies into your capstone projects.

[View unit details online](#) | [View unit timetable](#)

KNB215 Animation Performance

Pre-requisites	KNB135 or KNB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 External

Second Major: Creative Industries

- XCH-1, XCH-2

This unit advances knowledge on animation performance, including your ability to create complex animations by applying relevant processes and theories. To bring a character to life requires an animator to create more than a sound illusion of movement, you have to communicate and engage a viewer through an animated performance. This unit builds upon the fundamental content from KNB135 Animation Aesthetics, refining and further expanding on simple mechanical movements to focus on expressive communication and characterisation for storytelling.

[View unit details online](#) | [View unit timetable](#)

KNB216 Visual Storytelling: Cinematic Pre-Visualisation

Pre-requisites	KNB136 or KNB112
Credit Points	12
Availabilities	Kelvin Grove - SEM-1

Following exposure to animation's capabilities through critical thinking and practice, the unit builds on methodologies, skills and knowledge acquired in KNB136. The language of cinema is further explored and deployed for productions demonstrating critical practice. This unit deploys cinematic grammar, such as close-ups, composition, continuity, cutting and camera angles, to arrive at an understanding of the transition from literary (text) to visual language. You will be expected to demonstrate your appreciation and comprehension of screen language through rich illustrations that lead to vibrant storyboards and engaging animatics that culminate in enriched storytelling.

[View unit details online](#) | [View unit timetable](#)

KNB217 Digital Creatures

Pre-requisites	KNB137 or KNB212
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 External - XCH-1, XCH-2

This unit focuses on the creation of culturally contextualised narrative 3D characters within cinematic styles and genres of your choice. Building upon modeling and texturing techniques introduced in KNB127 CGI Foundations and KNB137 Digital Worlds, this unit covers an integral part of the animation production workflow focused on character design contextualized by a specific narrative, modeling texturing, and rigging. On completion of the unit, you will have an understanding of the theoretical and practical foundations of design of a production-ready 3D digital creature as characters.

[View unit details online](#) | [View unit timetable](#)

KNB225 Advanced Animation Performance

Pre-requisites	KNB215 or KNB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This unit advances your knowledge in character animation theory and practices in a project-based learning environment. In order to create an engaging animated character performance the audience can empathise with, it is important to have a good understanding of acting methods as well as animation principles and techniques. The theory and practice in this unit will introduce you to production management while focusing on developing further insights into planning, staging, cinematography, body language and facial expressions animation for character acting in a narrative context.

[View unit details online](#) | [View unit timetable](#)

KNB226 Visual Storytelling: Animation Pre-Production

Pre-requisites	KNB216 or KNB122
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This unit expands on story development, design and pre-visualisation techniques for productions. As such, it consolidates your exposure to concept development, production design and pre-production knowledge, and the skills introduced in KNB136 Visual Storytelling: Production Design and KNB216 Visual Storytelling: Cinematic Pre-Visualisation. The unit focuses on equipping students with the design and planning skills necessary for cinematic preproduction. These range from concept development through to design and storyboarding to production-ready documentation. As part of this unit you will develop, design, direct, pitch, produce a production bible and an animatic for an animated short. You will be required to draw and therefore be expected to build on illustration skills.

[View unit details online](#) | [View unit timetable](#)

KNB227 CGI Technologies

Pre-requisites	KNB137 or KNB212
Equivalents	KNB222, KIB226, KIB316
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 External - XCH-1, XCH-2

This unit offers you an opportunity to experiment with emerging forms of production, such as Virtual Production, and explores the theoretical context and the techniques of these new filmmaking methods. It also introduces some of the key technologies such as Motion Capture, Photogrammetry and In-Camera Virtual Production commonly employed in real-time production processes for animated, live-action film, games and live performance events. This unit builds upon the introduction of real-time technologies in KNB137 Digital Worlds and provides a solid foundation in advanced production techniques applicable to final year capstone projects.

KPB101 Introduction to Screen Production

Equivalents	KPB117
Credit Points	12

Second Major: Creative Industries

Availabilities	Kelvin Grove
	- SEM-1, SEM-2
	Online
	- SEM-1, SEM-2
	External
	- XCH-1, XCH-2

This unit introduces the principles and technologies of video production for both cinema and television, such as the roles and responsibilities of production teams, production management, design and practice. Lectures by experts in the areas of producing, directing, and cinematography, editing and sound will inform your practice. As the contemporary mediascape simultaneously converges and diversifies technologically and in market applications, there is a growing demand for new content with correlating skill sets in media production. Drawing on production processes and methodologies established in film, video and television, this unit will introduce you to content production both generated and outputted through new media technologies. Skills, knowledge and approaches will be drawn from the fields of scriptwriting, pre-production, production management, direction, producing, camera, sound, editing and post-production.

[View unit details online](#) | [View unit timetable](#)

KPB113 Screen Text Analysis

Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1, XCH-2

This unit considers Hollywood and independent film and television text forms, the industry processes that produce these texts, and the audiences that consume them. It introduces key textual analysis techniques to examine screen texts, while taking into account industry and audience contexts. Film and television text production is both an art-form and a business. Therefore, critically informed textual analysis approaches that examine the values, meanings and messages constructed by screen texts are valued by screen practitioners, critics, and educators.

[View unit details online](#) | [View unit timetable](#)

KPB116 Introduction to Screenwriting

Equivalents	KWB102
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1, SEM-2
	Online
	- SEM-1, SEM-2
	External
	- XCH-1, XCH-2

This unit introduces various principles, elements and stages that make up the scriptwriting process for narrative production. Skills needed to generate and select ideas, write synopses, and draft scripts will be developed through studying and applying the key creative components of writing for the screen. The unit addresses principles of storytelling, industry standards and practical skills involved in developing projects for narrative

productions within film, television and other media. The focus is on how to develop ideas, create engaging characters, and construct scenes for visual mediums. Writing scripts for a range of screen media formats is a learned craft and requires discipline, perseverance, and an understanding of industry practice. Possessing this key knowledge provides capabilities to develop concepts through to script stage.

[View unit details online](#) | [View unit timetable](#)

KPB120 Contemporary Screen Histories

Equivalents	KPB109, KIB108, KNB121
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2
	External
	- XCH-1, XCH-2

This unit engages with contemporary screen productions and the ways in which they look and sound. It assists you to develop an appreciation of the artistic and cinematic production practices of key individuals and studios. The styles of recent screen productions (how they look and sound) are the result of past and contemporary creative innovations associated with key individuals, production houses, and studios over an extended period of time. This unit considers the styles of screen productions such as motion pictures as being the result of evolving production practices, technological developments, individual and collaborative creative endeavours, and audience expectations.

[View unit details online](#) | [View unit timetable](#)

KPB121 Screen Business

Equivalents	KPB110
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2

This unit provides an introduction to producing, writing and the theoretical aspects of the movie, television and new media businesses. The production and distribution of screen-based audiovisual material is a significant global industry. In order to properly understand the cultural impact of this content it is important to understand how it functions as an industry. This is important both for those who intend to work in these businesses, and for those who are interested in understanding how cultural and creative business works. Apart from introducing media business, the unit provides an understanding of the importance of researching the expectations and desires of audiences in order to create commercial products designed to entertain, inform or educate.

[View unit details online](#) | [View unit timetable](#)

KPB122 Screen Crafts: Narratives

Pre-requisites	KPB101 or KPB117
Equivalents	KPB105
Credit Points	12

Second Major: Creative Industries

Availabilities	Kelvin Grove
	- SEM-1, SEM-2
	Online
	- SEM-1, SEM-2
	External
	- XCH-1, XCH-2

This unit develops your creative, technical and organisational abilities in the areas of screen storytelling and communication. Screen content specialisation requires you to develop an effective, industry-related range of skills. It builds on and advances basic understandings, skills and principles developed in KPB101 or KPB117. An introduction to the skills of sound and lighting complements the earlier core skills of camera, editing, directing and producing and the unit concentrates on the basics of telling a coherent fictional narrative story for the screen.

[View unit details online](#) | [View unit timetable](#)

KPB208 Screen Genres

Equivalents	KPB112
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1, XCH-2

This unit helps you to appreciate contemporary screen genres and to develop genre-related analytical skills. It also investigates the connections between genre theory and contemporary practice-based genre approaches. Genre is central to understanding the cultural and industrial contexts and visual forms of narrative screen productions. Since every screen production is a risk, both financial and creative, contemporary production organisations and creators attempt to minimise risk in their future ventures through screen genres. Genre productions appeal to local and international audiences. It is indeed crucial for fans, critics and practitioners to appreciate genre conventions, inventions and innovations, and those genre elements that contribute to the commercial, critical, or creative success of narrative screen productions.

KPB215 Advanced Screenwriting

Pre-requisites	KPB116 or KWB102
Equivalents	KPB207
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	External
	- XCH-1, XCH-2

This unit aids you to better understand screenwriting processes and structural concepts by offering a framework and strategies for the development of a short drama script. Screenwriting occurs within specific socioeconomic frameworks and is supported by specific industry practices. Working within these models, you will become aware of the scope and limitation of scriptwriting for screen projects. In this unit you will have the opportunity to build and extend basic screenwriting techniques

and explore topics such as the role of screenwriters in the industry.

[View unit details online](#) | [View unit timetable](#)

KPB216 Screen Content Production Management

Pre-requisites	KPB121 or KPB110 or KPB122
Equivalents	KPB210, KPB104
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1

This unit introduces film, television and screen business theory and practice, providing foundations for small and larger scale production management. It considers the role of the production manager with a particular focus on the phases of pre-production and production. People with an interest in producing film, television and multimedia productions need to develop knowledges and skills that form the basis of an effective industry-related repertoire in relation to working in a range of media businesses. This unit examines how the production manager supports the producer in screen production projects ensuring that the needs of the production have been addressed via a preliminary schedule and draft budget, within all legal and insurance constraints. The unit addresses the importance of working within the resources available in order to achieve the necessary production values on screen in a highly competitive market place.

KTB110 Plays that Changed the World

Equivalents	KTB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit investigates theatre and performance from Greek Theatre to Postmodernism and embraces socio-cultural/political/historical perspectives. It provides foundations in academic writing skills as required in the discipline of drama. It addresses the major movements in the evolution of performance in theatrical history while encouraging critical enquiry, debate and research through study and performance of seminal plays that shaped theatre. An understanding of the evolution of the theatrical form and its relationship with contemporary contexts is vital to a sound knowledge of performance. The facility to identify theatre traditions, the key junctures in the progress of content and form, and the advancement of theatre as an art-form, is foundational to the contemporary practitioner.

[View unit details online](#) | [View unit timetable](#)

KTB111 Acting in Realism: The Authentic Actor

Equivalents	KTB103, KSB116
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit surveys the theoretical and practical components of Stanislavski-based realism which strives towards authenticity. It focuses on the critical and creative theories and techniques needed to cultivate authenticity, imagination and emotion-awareness. Authenticity is the foundation for building and portraying characters for the performing artist. A combination of exercises and scene study will deepen the understanding and playing of action in the realistic mode. Stanislavski-based realism is arguably the most dominant style of acting in twentieth and twenty-first century practice. As such, it needs to be understood in its own terms. Therefore, in this unit you will be encouraged to learn to appreciate the basic construct of the actor craft, your relationship with your emotional interior, and the key concepts and language used to create an authentic performance as the basic skills needed to develop a personal methodology for acting.

KTB120 Diverse Theatre Practice

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

External
- XCH-1, XCH-2

This unit addresses artistic practices and narratives that, for historical, societal or political reasons, have struggled to find a safe place and a voice in our cultural landscape. Through direct engagement and individual self-reflection, the unit will provide foundational knowledge of the sensitivities of practice and protocols to enhance communication and appropriate professional conduct when collaborating with artists from diverse backgrounds and cultures. An appreciation of how performance and story manifest across distinct cultural boundaries and history is essential for a comprehensive understanding of theatre practice in the 21st century. Theatre practitioners require an awareness of cultural practices and protocols, and understanding of the multiplicity and complexity of a diverse, globalised world, to ensure the voice of Australian theatre reflects a true picture of contemporary society.

KTB121 Acting in Style: The Responsive Actor

Equivalents	KTB106, KSB126
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This unit engages theoretically and practically with interaction, reaction, participation and co-creation in non-realistic approaches to acting with emphasis on the different styles of comedy. The critical and creative theories and techniques needed to cultivate self-awareness, other-awareness, play and improvisation in acting in different styles, constitute the central focus of the unit. The basic premise of performance is sharing the conspiracy of theatre with the creative collaborators, fellow performers and, most importantly, the audience. Being comfortable with the uncertainty of the live act and empowered by its dynamism and ephemerality are key aspects of the development of the responsive actor. A combination of exercises and scene study will deepen the understanding and playing of action in the comedic mode.

[View unit details online](#) | [View unit timetable](#)

KTB217 Story and Performance

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit introduces concepts and techniques needed to develop storytelling and script writing skills, in a range of contexts including live performance. It develops professional dramaturgical proficiency in research, analysis, reflection and the giving and receiving of feedback. An understanding of storytelling forms and the development of scripts are fundamental communicative tools for artists. This unit introduces

Second Major: Creative Industries

a suite of professional practice skills-sets, including understanding traditions of First Nations' storytelling; dramaturgy in performance-making and writing for performance.

KTB225 Radical Theatre Forms

Equivalents	KTB302, KTB204
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This unit develops an appreciation of theatre innovation in both historical and contemporary contexts. It addresses concepts attributed to postdramatic theatre, immersive theatre forms, theatre as a hypermedium, and audience-centred work. Throughout history theatre has responded to changes within society and has developed styles that have reinterpreted and reinvented the notions of character, tension, audience, site, time and narrative. One way to understand new and radical theatre styles is to investigate the historical and contemporary contexts that are shaping current theatrical practice. These practices give rise to theatre that is responsive to site, places the audience at the centre of the experience and engages with non-linear narrative form. Understanding this enables theatre-makers to develop informed choices about where to locate, describe and promote their practice and product. This unit explores forms that reinvent notions of audience, narrative, space and linear time.

KTB227 Leadership in Creative Contexts: Directing Creativity

Equivalents	KTB213, KTB306
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This unit investigates notions and functions of leadership in the fields of theatre, drama and performance. Through engaging with models of directorial best-practice and examining influential practitioner-leaders, you will unpack the process of leading creativity from both a collaborative and personal perspective, with the aim of achieving a unified creative vision. Whether within conventional hierarchical structures or collaborative models, delivering creative outcomes requires not only knowledge of the personal, logistical and artistic processes of creation, but also an understanding of the processes to safely navigate from concept to fullest expression.

KVB102 Modernism in Art

Credit Points	12
Availabilities	Kelvin Grove

- SEM-2
External
- XCH-1, XCH-2

This unit addresses concepts and movements that comprise early twentieth-century modernism in art and culture. It provides a coherent theoretical-historical knowledge of the period, 1900-1945, while fostering written, and oral communication skills, as well as building capabilities for visual analysis of art works across different media. Modernism is a crucial area of study for understanding twentieth century and contemporary art and visual culture. A proper comprehension of this period will assist you to become an informed practitioner in contemporary art, design, architecture and art writing.

KVB113 Australian Art and Identity

Equivalents	KVB115, KVB103
Credit Points	12
Availabilities	Kelvin Grove - SEM-1

This unit introduces the history of Australian art in the 20th Century. It addresses the national, cultural and social frameworks within which this art has been produced, particularly after World War II, emphasising a number of movements and styles in Australian art and their relationship to international tendencies. The unit also considers the nature of Indigenous art and its contribution to the complexities of Australian cultural identity. All of these issues will assist in understanding that Australian art has, and has continued to be, an important expression of our cultural values. This includes the viewpoints of marginal voices from Indigenous culture and multiculturalism, and at the level of gender and sexual politics.

[View unit details online](#) | [View unit timetable](#)

KVB210 Time-Based Art: Moving Images

Credit Points	12
Availabilities	Kelvin Grove - SEM-1 External - XCH-1, XCH-2

This unit introduces the theory and practice of the moving image as an art form. It addresses ideas and languages in relation to contemporary video and filmic art and what it shares with television, cinema and other time-based media. These concepts inform the development of methods and skills in practical experience by creating moving-image artwork. The unit looks also at literacy in the meaning, formal codes and conventions of moving images in order to encourage critical and analytical thinking that can be used to effectively communicate concepts through creative practice. An expansive range of video, filmic and time-based imagery currently dominates the cultural landscape. This unit engages with the conceptual and artistic possibilities of moving images which constitute a crucial graduate capability for those committed to building a professional practice in visual meaning-making and communication.

Second Major: Creative Industries

KVB216 Post 1945 Art

Equivalents	KVB214, KVB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 External - XCH-1, XCH-2

This unit introduces the historical, philosophical, economic, political, social, cultural, artistic and formal issues related to art production since 1945 and into the post-modern era. It covers topics on neo-avant-garde, and art's engagement with consumerism, the philosophical underpinnings of movements such as Pop Art, Minimalism, Conceptualism, Performance and Earthworks, Feminist art practice, and post-modern art and architecture. The study of these movements will assist you in understanding the history behind arts production and the styles that have been adopted by other creative industries. This unit provides a skill-base for all Creative Industries students and applies to all disciplines and cultural industries including art criticism, arts practice, architecture, landscape architecture, fashion and music. You will also increase understanding and skills that are pertinent to the study of cultural literature and visual analysis.

[View unit details online](#) | [View unit timetable](#)

KVB223 Post 1989 Art

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 External - XCH-1, XCH-2

This unit introduces key ideas and styles of art practice that have emerged since 1989 in a global economy. It develops knowledge and skills that are relevant to cultural literature and visual analysis. It furthers your expertise in problem solving, creative thinking and effective communication of knowledge in a variety of contexts and modes. As a creative industries student, it is important to possess an informed knowledge of art and culture since 1989, including the rise of the experience economy and the centrality of entertainment and post-avant-garde art in global creative industries. The concepts and knowledge gained will aid you to organise and evaluate information, synthesise research material into a coherent form, and write and verbally articulate ideas. This unit is intended to provide a foundation skill-base for you in Creative Industries and is applicable to all disciplines including art criticism, arts practice, architecture and fashion.

KWB104 Writing the Short Story

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

The writing of short stories has traditionally been a starting place for writers to begin developing their craft. Via the short story, this

unit explores the elements of fiction such as character, voice, setting, plot, dialogue, point of view and modulation, and helps you acquire and practice skills in creative writing. In this unit you will also learn to analyse literary writing, in particular the short story, for craft elements in a way that informs and illuminates your own work. In addition to lectures, tutorial based peer-critique workshops are a central part of this unit. Within them, in a guided and structured way, you will get and give feedback on the stories as they are being written.

[View unit details online](#) | [View unit timetable](#)

KWB113 Introduction to Creative Writing

Equivalents	KWB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit provides the fundamental skills for writing fiction and poetry as well as the basic theoretical background that underpins them. It looks at the development of these literary forms as a way of understanding how a practitioner might best approach both the writing and critical analysis of them in the contemporary context. It develops a critical understanding of your own and others' approaches to writing life. You will be encouraged to develop the skills required for professional writing through a series of tasks that introduce key concepts such as characterisation, constructing a scene, and writing dialogue.

KWB116 Creative Non-Fiction

Equivalents	KWB107
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

The ability to recognise, analyse and use core types of non-fiction writing is an important part of the professional writer's practice and a highly useful aspect to develop early in a writing career. Creative non-fiction allows writers to combine real life stories with the creative writing techniques employed in fiction, and develops writing skills in a variety of non-fiction written modes and publishing contexts. These include personal essay and humorous writing, life writing and travel literature, and reviewing of books, film, music, and food. This unit encourages you to apply the creative writing techniques of these forms to your areas of interest, and has an industry focus in equipping you with practical and analytical skills in a range of non-fiction creative writing genres.

KWB211 Creative Writing: Style and Technique

Credit Points	12
---------------	----

Second Major: Creative Industries

Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1, XCH-2

This unit is a masterclass in literary style. Each week in this unit we will look at how one writer produces a particular technique or effect well, we will unpack at a language level exactly what they are doing, and then we will use this understanding to produce a written piece for the week employing that technique. In essence, this unit provides an opportunity to develop different writing techniques through guided writing exercises and theoretical analyses of texts with an emphasis on style and effect. Here you move beyond the basic elements of fiction and develop advanced techniques in creative and professional writing at a low, language-oriented level. Intensive tutorial-based work, self-directed creative practice, guided critical analysis and asynchronous on-line activities characterise the teaching and learning in this unit.

KWB212 Poetry and Poetics

Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2
	External
	- XCH-1, XCH-2

This unit provides important creative and critical skills in writing poetry and cultivating an understanding of how to interpret and use poetic techniques. It explores a spectrum of contemporary and traditional forms of poetry, and is designed for those who are interested in poetics and the use of words in precise, innovative, concentrated and musical ways. It equips students with knowledge of the techniques, poetic forms and modes, and the opportunity to apply this vocabulary in analysing and reading a wide range of contemporary poetry. The unit provides key creative and critical skills in writing poetry, while offering you the chance to practice in a variety of poetic forms and modes, reflectively writing about your own poetry and analytically writing about the stylistics of another person's work. The unit occurs at the mid-point of the creative writing major, building on KWB211 Creative Writing: Style and Technique, and preparing you for the advanced work of third year.

KWB214 The Artful Life: From Memoir to Fiction

Equivalents	KWB313
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1, XCH-2

This unit examines the relationship between imaginative literature, especially the novel, and the inspiration we derive from

our own lives. Memoir and fiction are major literary forms that are connected by their use of creative writing techniques and by the way they draw material from authors' personal experiences. They also are pervasive, complex and culturally important literary forms. This unit is designed to help you examine and understand the theory and practice of memoir and long-form fiction writing; the relationship between imagination and inspiration, and the process of planning and research leading to the development of a novel or memoir proposal, including an initial chapter and synopsis. As such, the unit addresses the scope, challenges and practices of developing fiction or memoir; the standards, conventions and possibilities of fiction and memoir forms; and the development of editorial skills in collaboration with others (feedback).

KYB201 Socially Engaged Arts Practice

Equivalents	KTB108, KTB209, KTB212
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	External
	- XCH-1, XCH-2

This unit addresses principles, practices and forms of performance that privilege community and cultural democracy. By examining the key ideology and teachings and contemporary Australian practice in community and cultural development (CCD), this unit aims to make connections between creative practice, community and their concerns. It also aims to provide opportunities for you to engage positively in these contexts through your respective art form. Creative practice can reach out beyond the walls of conventional performance space and use its transformative powers to activate solidarity and agency in people and communities to facilitate social action and positive change. Knowledge of the ethos, values and processes of working with communities in a responsive and consultative fashion is an important capability for a comprehensive career in arts and provides key career opportunities for emerging artists.

LWS008 Entertainment Law

Pre-requisites	LWS009 or BSB111 or LWB145 or LLB101
Anti-requisites	LWS011
Credit Points	12
Availabilities	Gardens Point
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1, XCH-2

The entertainment industry involves a myriad of transactions and interactions that are governed by a wide range of laws. A basic understanding of the laws most commonly encountered in the entertainment industry should assist those involved in the industry to have a better understanding of the legal context in which they are operating. This in turn may assist them in avoiding problems, or to have a better appreciation of when they should seek professional legal assistance.

Second Major: Creative Industries

[View unit details online](#) | [View unit timetable](#)

LWS009 Introduction to Law

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

For students involved in a wide range of industries, it is important to have a fundamental understanding of the nature of the Australian legal system. The unit introduces students to the sources of law (both cases and legislation) and will assist students in acquiring introductory knowledge about the Australian legal system and laws so that they will be equipped to complete other law units in their relevant course.

[View unit details online](#) | [View unit timetable](#)

LWS011 Journalism Law

Anti-requisites	LWS008
Equivalents	KKB175, KKB275
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

The study of law is important for journalists as they are endowed with a public responsibility to engage in sound legal and ethical practice. The public role journalists play in society means that there is a high level of scrutiny of their actions. Legal transgressions by journalists can prove costly and painful for journalists, their families, friends, colleagues and employers. Furthermore, journalists also need to have a good working understanding of the legal framework that applies to society in general, as the law will be relevant to a wide range of issues that will be reported by journalists in their professional practice. In addition, the unit seeks to foster an appreciation of the developing nature of the law through court decisions and its capacity to adapt to new circumstances, as well as providing you with the scope to appreciate the development of law through changes in policy through the intervention of parliaments.

JSB170 Introduction to Criminology and Policing

Equivalents	JSB131, JSB011, JSB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

Introduction to Criminology and Policing will provide you with an introduction to the disciplines of criminology and policing. This unit will provide you with a foundation for understanding theories, concepts, and issues related to criminology and policing in an Australian and international context. It begins with an exploration of the existing explanations of crime from both an individual and social theoretical perspective and will provide you with a background of policing in Queensland, Australia, and internationally. The remainder of the unit then covers topics of interest to those within the area of criminal justice, policing and criminology, for example, crimes in the home, crime in public, white collar crime, and youth crime.

[View unit details online](#) | [View unit timetable](#)

JSB173 Understanding the Criminal Justice System

Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Justice professionals require a thorough foundational understanding of how Australia's systems of justice operate structurally and how people progress through those systems. This unit provides a critical overview of the Australian Criminal Justice System through examinations of the key arms of policing, courts and corrections and their processes.

JSB207 Punishment and Penal Policy

Pre-requisites	96 Credit Points of Completed Study
Equivalents	JSB373
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

In the modern Western context, concerns with crime, victimisation and social harm are key concerns for the citizenry. These issues also make up a significant part of media and political discourse and it could thus be argued that crime and punishment are defining cultural motifs of modern Western societies, forever concerned with security and safety from the 'criminal other'. This unit offers you a critical overview of the evolution of Western responses to crime over the past two centuries. The unit introduces the philosophies and theories that have underpinned the development of penal policy during that period. Using Australian and other case studies, you will be introduced to a range of policies and interventions associated with the construction of the modern penal system. The various stages of the development of penal policy will be covered. The unit will challenge you to think critically about a range of key issues confronting the penal system and policy-makers.

DLB202	Landscape, People and Place Studio
DLB204	Planting Design
DLB301	Landscape Ecology
DLB302	Landscape Materiality and Constructs
DYB111	Create and Represent: Form
DYB112	Spatial Materiality
DYB113	Create and Represent: Materials
DYB114	Spatial Histories

*You may select a maximum of two units from KKB345, KKB346 and KKB350 and only if projects or tours suitable for Design students are being offered.

KKB345	Creative Industries Project 1
KKB346	Creative Industries Project 2
KKB350	Creative Industries Study Tour

*Note: DLB211 is permitted to count towards this second major if completed in 2020 or earlier.

*Note: DLB320 is permitted to count towards this second major if completed in 2019 or earlier.

Visual Communication

Course Notes

Code	Title
------	-------

DEBXSJM-VISCOMM

Description: In this second major you will develop both practical and theoretical skills in multiple visual communication design specialisations, including graphic design, typography, image making, information design, experience design, motion design and branding. You will build your expertise in professional studio settings and through a focus on both contemporary and emerging design practices. Through authentic design projects and a strong foundation of creative experimentation and critical

Second Major: Design

thinking, you will graduate fully prepared for future-focused and innovative positions across communication design fields and related industries.

SELECT	96cp from the Visual Communication Unit Options
DVB101	Visual Communication Design
DVB102	Image Design and Production
DVB201	Typographic Design
DVB202	Visual Design for Storytelling
DVB203	Theories and Methods of Visual Communication
DVB301	Kinetic Image and Text
DVB302	Data Visualisation and Information Design
DVB303	Experimental Visual Communication
DYB122	Design Visualisations
DYB123	Emerging Design Technology

Architectural Studies: discontinued end 2018

Course Notes

Code	Title
DEBXSMJ-ARCSTUD version 1	
Description: This second major will give you insight into architectural practices and knowledge to enable transference to your own discipline or to work more closely and effectively with architects in professional practice. You will learn about the foundations of how architects design buildings and structures that contribute to improving the human experience in the built environment. You will undertake architectural design projects in practical studio settings, learn about architectural technology and cultural factors.	
SELECT	96cp from the Architectural Studies Unit Options list

KKB346	Creative Industries Project 2
KKB350	Creative Industries Study Tour
*Note: DEB100 and DAB220 are permitted to count towards this second major if completed in 2018 or earlier.	
*Note: DAB525 and DAB530 are permitted to count towards this second major if completed in 2014 or earlier.	
*Note: DAB510, DAB610 and DAB635 are permitted to count towards this second major if completed in 2013 or earlier.	

Interactive and Visual Design: discontinued end 2018

Course Notes

Code	Title
KKBXSMJ-INVISDN	
Description: This second major will provide you with the design concepts and principles, practical skills and working methods needed by a contemporary designer of visual and interactive media. You will learn how to design effectively for print and electronic media, web and mobile media and computer games and become equipped with a versatile set of design practices to support you to enter careers in graphic design, marketing, web design, electronic publishing, interaction design and the creative aspects of game design.	
Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this second major.	
NOTE:	It is recommended that you review the requisite requirements for units to ensure your unit selection enables you to successfully complete the requirements of this major.
SELECT	48cp from the Introductory Interactive and Visual Design Unit Options list
DVB101	Visual Communication Design

*Note: DEB100 is permitted to count towards this second major if completed in 2018 or earlier.

*Note: DLB630 and DLB645 are permitted to count towards this second major if completed in 2013 or earlier.

Unit Synopses

DAB101 Architectural Design 1: Explorations

Equivalents	DAB110
Credit Points	12
Availabilities	Gardens Point - SEM-1

The aim of this unit is to provide a broad introduction to the discipline of architecture and an overview of the fields of knowledge with which architects must concern themselves. Design is arguably the core activity of architecture. This design unit offers a broad introduction to the practice of design in an architectural context and is therefore offered at the commencement of the course. It uses developmental exercises to enhance your perceptions of the built environment. Analysis of the constructed environment leads to design projects that engage with issues of context, tectonics, planning, form, and spatial quality. Orthogonal drawing exercises, freehand sketching, presentation graphics and model-making all form part of the unit content. Teaching and learning activities are spread across lectures and studio-based activities.

[View unit details online](#) | [View unit timetable](#)

DAB102 Architectural Design 2: Spaces

Equivalents	DAB210
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit examines technological and artistic processes of design within an architectural context. It seeks to provide the ability to develop architectural designs of controlled complexity, focusing on aspects of spatial quality. As such, this unit will expose you to the design of a small public building in the Brisbane area. Architectural design as a manageable process is explored through a number of exercises and design projects. Discrete steps in the process of architectural design are made explicit through staged activities that build to a complete design project. Orthogonal drawing exercises, freehand sketching, presentation graphics, and model making all form part of the unit content.

[View unit details online](#) | [View unit timetable](#)

Second Major: Design

DAB200 Modern Architecture

Pre-requisites	DYB114
Equivalents	DAB325
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit explores the global movement of modern architecture from its European roots. As many contemporary architects state, the movement still influences architecture and theory and this unit will enable you to locate contemporary global architecture within a framework of rich, complex and interconnected cultural, societal and historical contexts and traditions. You will acquire the facility to read seminal texts, to begin to understand your own design projects in an historical context, and to engage with the global architectural debates which inform architecture today. This unit is part of the history and theory stream in architectural studies. As an architect, you should be able to analyse developments in architectural history from multiple perspectives. Following on from DYB112 Spatial Materiality and DYB114 Spatial Histories, this unit explores and critically examines significant issues, influential individuals and exemplary works of the modern movement.

[View unit details online](#) | [View unit timetable](#)

DAB201 Architectural Design 3: Dwelling

Pre-requisites	DAB101 or DAB110
Equivalents	DAB310
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1

This unit provides you with an ability to develop architectural designs with a focus on aspects of problem solving through an appreciation of architectural principles and process. It advances research skills and investigates architectural principles through the examination of precedents. The unit focuses on dwelling design in the form of houses in a semi-urban or suburban context. It uses developmental exercises to enhance student perceptions of dwelling. Design problems of moderate complexity are tackled through a process of abstraction, experimentation, representation, imagination, and testing. This unit is part of the sequence of design units of the course that continues the development of your architectural design knowledge and skills. This design unit exposes architectural design as a rigorous process with measurable qualities with particular focus on dwelling, spatial qualities of residential living, and the relationship of a building to its landscape.

[View unit details online](#) | [View unit timetable](#)

DAB202 Architectural Design 4: Metro

Pre-requisites	DAB102 or DAB210
Equivalents	DAB410
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit provides you with an ability to develop architectural

designs of limited complexity with particular focus on aspects of urban context, planning and form through an understanding of site specificities, topography, urban infrastructure and the natural landscape. In particular the unit focuses on a small civic building design. It builds on prior knowledge gained in the first three design studios, but introduces a higher level of architectural thought via the practice of formalism in architecture, involving established aesthetic concepts of architectural object and language that underlie global architectural praxis. It also introduces urban design into the design studio thereby expanding your previous knowledge of site planning to a new level. It will teach new skills in architectural design, urban analysis, and architectural drawing, modelling and visualisation toward the formal synthesis of the architectural object in urban space.

[View unit details online](#) | [View unit timetable](#)

DAB211 Environmental Principles of Architectural Design

Pre-requisites	DYB112 and DYB113. DYB112 can be enrolled in the same teaching period as DAB211
Equivalents	DAB330
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1

This unit familiarises you with the basic design principles and passive strategies for heating, cooling and daylighting necessary for architectural designs that respond to human needs (human comfort), regionalism and climate. Understanding the importance of climate-responsive design and environmental factors on the design development of buildings provides you with the tools to integrate environmental design principals in buildings. In a world of finite resources, understanding the physical phenomenon we have to deal with in design is essential for responsible professionals. Technical and scientific issues are an integral part of design projects. It is a fundamental task of architectural design to achieve maximum comfort requirements of the users while minimising energy consumption.

[View unit details online](#) | [View unit timetable](#)

DAB212 Small Scale Building Construction

Equivalents	DAB435, UXB110
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit introduces building construction principles, an essential part of the vocabulary and knowledge of an architect. It increases your understanding of applied construction technologies and materials as key concepts for design development and resolution. It examines the role of building standards and the Building Code of Australia (BCA) in building design, including its housing provisions and associated codes for all types of buildings to achieve the requirements for building approvals. It also looks at domestic construction with emphasis on general material and structural properties of building components and systems; and common construction practices

Second Major: Design

used in dwellings, single storey and class 10 buildings. Comparison of building systems and their effect on domestic building design will be explored in detail.

[View unit details online](#) | [View unit timetable](#)

DFB102 Introduction to Fashion Communication

Equivalents	KFB103
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit provides an introduction to fashion communication and is intended to provide foundational knowledge and skills to pursue further studies in fashion communication. It aims to develop your understanding of fashion as both an everyday cultural form and a complex global industry. Learning in this unit will be important in order to gain an overview of the global fashion system and fashion cultures. You will develop and practise foundational fashion communication skills alongside learning how to apply key theoretical ideas to understanding fashion. This unit will provide you with the conceptual basis to pursue further studies in fashion communication.

[View unit details online](#) | [View unit timetable](#)

DFB104 Fashion Sustainability

Equivalents	DFB203, KFB104
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit is in the developmental stage of the program and provides you with a foundational knowledge of environmental and social impacts of fashion production and consumption. Throughout the unit you will examine the environmental and social impact of different industry business models, materials and production methods in order to develop the skills and mindset to apply more sustainable practices. It also introduces fashion systems as complex supply chains spanning raw fibre through to manufacturing, design, retailing and garment use, disposal systems at end of life, fibre and textiles, industry structures, and business models grounded in sustainable and ethical practices.

[View unit details online](#) | [View unit timetable](#)

DFB204 Fashion Product Development

Pre-requisites	DFB105, DYB122, DFB302, or KFB107
Equivalents	DFB406, KFB211
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External

- XCH-1

This unit further develops your knowledge, skills and application for professional fashion communication and product development in the fashion industry. It focuses on commercial fashion design and product styling. Developing consumer products in the fashion industry requires diverse skills and knowledge in trend analysis, range building, sourcing, finishing, specification sheets and marketing to ensure successful and sustainable outcomes. By developing a foundational knowledge in product development you will be prepared to work in commercial fashion or to create your own fashion brand.

[View unit details online](#) | [View unit timetable](#)

DFB205 Fashion Media

Pre-requisites	Completion of 72 credit points of study
Equivalents	DFB304, KFB210
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit offers insight into the connection between media and fashion image making. It takes a critical historical, interdisciplinary and industrial approach to the study of fashion media, exploring media and digital social platforms that have contributed to the dissemination of fashion. Cross-pollination between fashion and media platforms from different historical times has contributed to the formation of taste, along with cultural and consumer discourses. This unit explores the evolving and complex fashion communication landscape that has captured key changes in fashion culture and industry, and the fragmentation and opening up of fashion communication to global consumers and identities.

[View unit details online](#) | [View unit timetable](#)

DFB206 Global Fashion Cultures

Pre-requisites	Completion of 72 credit points of study
Equivalents	DFB402, KFB207
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit further develops your knowledge of the complexities of global fashion systems and builds on the application of your skills in fashion visual communication with an emphasis on visual analysis. It focuses on the diverse aesthetics and practices of global fashion cultures since the mid-twentieth century. The aim of this unit is to develop your knowledge of the diversity of global fashion aesthetics since the mid-twentieth century while focusing on consumer-led fashion developments alongside high-end designer fashion of this period. As such, it will deepen your knowledge of how design is connected to social and cultural developments.

[View unit details online](#) | [View unit timetable](#)

Second Major: Design

DFB207 Fashion and Style Journalism

Pre-requisites	DFB102 or CJB201 or KFB103 or KJB224
Equivalents	DFB404, KFB205
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit provides skills to conceptualise and produce fashion and style editorial content in various styles and in both Australian and international contexts. It maps the scope and practice of fashion and style journalism, a profession offering career options for journalists, photographers, designers, writers and fashion specialists. In this unit, you will use your developing professional skills to produce fashion and style editorial content and/or contribute to the production of a fashion and style zine and/or website. Print and digital media map key changes in fashion in similar ways, forming opinions about fashion, taste and the world. Fashion writing and styling is also a key skill in public relations for a brand curating and editing brand e-magazines, social media management and content creation in general. This unit addresses key skills learnt during the course and practising these skills in a real world, practice-based learning environment.

[View unit details online](#) | [View unit timetable](#)

DFB209 Global Fashion History

Equivalents	DFB303, KFB109
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces the foundations of fashion history through a global perspective of trade, culture and style flows between the West and the East. It presents a new approach to the study of fashion history as an exchange between cultures taking a critical and interdisciplinary approach to provide you with the opportunity to build your fashion knowledge in a context of complex global cultural and commercial exchanges in fashion. In doing so it unravels competing cultural and political discourses of dress in colonial contexts recognising the multiple sites that contributed to the emergence of fashion and the influences and impact that these global sites had on local fashion. The unit presents instances of colonisation and resistance through dress, including an Australian Indigenous perspective. It provides you with skills in written and oral communication, research and visual analysis; and, importantly, it will help you to identify and understand current influences and future directions in contemporary fashion design.

[View unit details online](#) | [View unit timetable](#)

DFB305 Critical Fashion Studies

Pre-requisites	Completion of 48 credit points of Fashion units (DF% coded)
Equivalents	DFB602, KFB305
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This advanced level unit deepens your critical fashion engagement and consolidates your skills in fashion communication. It prepares you to play a leadership role in shaping the dialogues that are transforming fashion practices. The aim of this unit is to develop your critical, analytical and communication skills in the context of the global fashion industry and wider cultural debates. Embracing an interdisciplinary approach characteristic of current fashion scholarship, this final unit builds on the theoretical and practical knowledge developed in DFB206 Global Fashion Cultures and DFB209 Global Fashion History and provides you with the opportunity to develop sophisticated research and written communication skills, preparing you to contribute to shaping the dialogues and debates that are changing the contemporary fashion industry.

[View unit details online](#) | [View unit timetable](#)

DLB101 Landscape Studio 1

Equivalents	DLB100, DLB130
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit is your first landscape design studio introducing you to foundational landscape design knowledge, skills and applications. You will acquire these in stages, covering a range of design principles, theories and processes which you will apply to real or simulated design scenarios. The first stage is an immersion in, and familiarisation with, understanding space and landscape architectural works, to interpret, test and represent space making and its logic. Next you will learn to apply basic design problem solving processes to articulate landscape architectural propositions in response to your interpretations. You will learn and experiment with design and discipline-specific language including application of the representational techniques. This studio prepares you for the ongoing series of landscape design studio units.

[View unit details online](#) | [View unit timetable](#)

DLB102 Landscape Studio 2

Pre-requisites	DYB111
Equivalents	DLB200, DLB210
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit introduces landscape design principles, theories and processes, and their application in problem solving and articulation of landscape architectural propositions. It consolidates and provides foundational skills and knowledge to develop ongoing landscape design studio units. Through critical thinking and experimental design propositions you will explore the relations between the process and concepts of landscape, space, scale, time and landscape atmospheres. You will experiment with design development processes and the language of landscape design to articulate and communicate ideas. This unit builds on DLB101 Landscape Studio 1 and DYB111 Create and Represent: Form, inviting you to interpret wider dimensions of landscape and experiment with design development and representation. It guides you to apply the representational techniques you will learn in DYB113 Create and Represent: Materials.

Second Major: Design

[View unit details online](#) | [View unit timetable](#)

DLB201 Landform, Technology and Techniques

Pre-requisites	DLB101 or DLB102 or DAB101 or DAB102 or DYB111 or DYB113
Equivalents	DLB240, DLB430
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit provides foundational landscape technology principles of landform and tectonics and processes, allowing you to understand and apply the technical manipulation of landforms as part of the landscape design process. This unit continues your development of a finer scale of design, detail and precision, including landform grading for drainage, circulation, platforms and other functions. It extends the design knowledge from studios, technical graphic design development and communication skills developed in Create and Represent units and prepares you for the subsequent Landscape Architecture units.

[View unit details online](#) | [View unit timetable](#)

DLB202 Landscape, People and Place Studio

Pre-requisites	DLB101 or DLB100
Equivalents	DLB300
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit introduces a range of theories, principles and approaches to contemporary place making through site planning skills and the critical examination of how people perceive and respond to their environment, both individually and collectively. It explores theories of environment and behaviour, place-making and environmental psychology essential to the formulation of sustainable landscape design propositions. These investigations and design propositions develop your research and design communication skills and will provide an intellectually rigorous foundation for the rest of this course and for later professional practice. This unit advances your skills to research and apply design theory in the creation of places for people. It addresses key physical, psychological and cultural theories that underpin our knowledge of the reciprocal relationship between people and their environments. You will also have the opportunity to improve your design communication skills.

[View unit details online](#) | [View unit timetable](#)

DLB204 Planting Design

Equivalents	DLB320, DLB230
Credit Points	12
Availabilities	Gardens Point - SEM-2

This second year unit builds on your knowledge of environmental sustainability and introduces you to scientific, horticultural and planting design principles and their application in sustainable site-based planting design, including the specific conventions of planting design communication. As such, the unit engages with the basic plant sciences (botany, ecology and horticulture)

including: botanical nomenclature, morphology, plant forms, assemblages and systems, and plant cultivation requirements. You will apply this knowledge to develop and articulate sustainable site-based planting design propositions and extend your communication techniques.

[View unit details online](#) | [View unit timetable](#)

DLB301 Landscape Ecology

Equivalents	DLB420, DLB330
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit applies theories of landscape ecology related to sustainable landscape design and planning in combination with an understanding of geomorphological structures and processes. It prepares you for further expansion of your intermediate-level design skills into Landscape Planning theory and application. It expands your understanding of landscape from a small site to a broad and holistic level. Landscape architects need to understand the systems that create and are created by the landscape and so this unit will develop your ability to comprehend the interconnectedness of landscape structures and processes, and how they interact within landscape systems, essential to the formulation of sustainable landscape design propositions. You will apply this knowledge in a semester-long landscape study project, extending the communication techniques you learnt in first and second year units.

[View unit details online](#) | [View unit timetable](#)

DLB302 Landscape Materiality and Constructs

Pre-requisites	DLB201 or DLB240
Equivalents	DLB440, DLB530
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit introduces landscape structural theories, material properties, and design and construction principles and processes. Its content will help you analyse technical briefs and critically evaluate and select appropriate materials and construction techniques to formulate sustainable landscape design propositions and implementation strategies. This unit also addresses the legislative environment governing landscape construction.

[View unit details online](#) | [View unit timetable](#)

DNB110 ID Studio 1: User Centred Design

Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit introduces you to User Centred Industrial Design. It addresses visual and creative thinking within the context of the industrial design process and provides human-centred knowledge focused on usability, usability methods and evaluation techniques. You will learn how to implement physical, cognitive and emotional factors to human-centred product design, services and systems. Understanding the needs and capabilities of people is essential to the design of usable,

Second Major: Design

desirable and viable products, services and systems. In order to do this you will need a solid understanding of user-centred design methods during the industrial design process and the application of form, structure, function and beauty in design.

[View unit details online](#) | [View unit timetable](#)

DNB111 ID Studio 2: Aesthetics and Visualisation

Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

This introductory unit advances knowledge and skills with analogue and digital visualisation techniques to explore, elaborate and communicate your design ideas effectively. The most common and complex aspect of industrial design deals with creating aesthetically pleasing products imbued with meaning and value through form and function. Continuing the development of design process knowledge and skills established in DNB110 ID Studio 1: User Centred Design, this unit delves deeper into ideas of aesthetics and meaning in order to advance the quality of everyday products.

[View unit details online](#) | [View unit timetable](#)

DNB210 ID Studio 3: Interaction and Experience

Pre-requisites	DNB110 or DNB101
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

A core responsibility of the Industrial Designer is the interpretation of human interactions with products or systems. This unit develops intermediate design research skills and strategies to gain a detailed understanding of the user within the product's social, cultural and technological context. It employs design strategies to identify opportunities of human interactions with products and systems and enhance the user-product experience. In this unit you will strengthen and apply your design, visualisation, model-making and CAD skills at an intermediate level while dealing with user-centred design (UCD) principles to produce interactive designs. This unit builds on knowledge and experience gained in earlier Industrial Design (ID) foundation units. It builds your skills and knowledge in the area of interaction and experience allowing for integration of skills and knowledge in the capstone units.

[View unit details online](#) | [View unit timetable](#)

DNB211 ID Studio 4: Manufacturing Technology

Pre-requisites	DNB110 or DNB101. DNB110 can be enrolled in the same teaching period as DNB211
Equivalents	DNB304, DNB303, DNB302
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This unit introduces the skills and knowledge to transform design ideas into manufacturable products. It provides experience and skills in creating 3D CAD models and using them to communicate design intent. The unit increases your knowledge of the commonly used materials and processes and of how their manufacturing constraints and opportunities affect the design process. The industrial designer needs to possess skills in translating these constraints and opportunities into viable product designs and to be able to communicate their design intent with sufficient detail to allow that product to be manufactured according to industry standards and capabilities. This unit introduces you to the principles of Design For Manufacture and Assembly (DFMA) and extends your Computer-Aided Design (CAD) skills. The skills and knowledge covered by this unit are amongst those highly sought after by employers and will be applied in all subsequent ID studio units.

[View unit details online](#) | [View unit timetable](#)

DNB212 ID Studio 5: Applied Technology

Pre-requisites	DNB211 or DNB304
Equivalents	DNB404
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

This unit provides the skills and knowledge required to design products for manufacture. It advances knowledge on commonly used materials allowing you to gain an understanding of how manufacturing constraints and opportunities affect the design process. Industrial Designers need to be able to design products that are viable for production. They also need to possess skills in translating these constraints and opportunities into viable product designs and to be able to efficiently communicate their design intent to allow that product to be manufactured according to industry standards and capabilities. The unit focuses on 3D parametric Computer Aided Design (CAD) and on how this is incorporated into the design process. Additionally, it provides skills in creating 3D CAD models and using them to communicate design intent. The unit builds on the DNB211 ID Studio 4: Manufacturing Technology unit as well as developing CAD and digital presentation skills.

DNB310 ID Studio 6: Systems Design

Pre-requisites	DNB212 or DNB404
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This unit introduces the concept of systems thinking and its application to design to solve complex societal, cultural and environmental challenges. It advances on Industrial design concepts, methods, strategies and processes for innovation with a particular focus on future products and systems. It also builds and consolidates knowledge and experience gained in earlier Industrial Design units, in particular skills and knowledge in the area of systems design. To be able to tackle the most critical

Second Major: Design

problems of our time, we must broaden our view to incorporate a more holistic and comprehensive view of design and systems. This requires the understanding and application of novel systems thinking approaches to the design of products, services and systems that are viable, feasible and desirable for people and the environment.

[View unit details online](#) | [View unit timetable](#)

DTB101 Interior Studio: Interiority

Pre-requisites	DYB111 can be studied in the same teaching period as DTB101
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

This unit introduces the principles and elements of design in the interior design context with an emphasis on dwelling and associated concepts of embodiment and interiority. Learning to design for interior design practice requires the development of coherent and advanced knowledge of design process, practice and content pertinent to the production of meaningful and socially responsive environments. This unit introduces you to this knowledge through lectures, readings, tutorials and projects that enable you to appreciate the knowledge and skills you already have that have application in design and how to enhance these with a specific focus on learning for interior design at a foundational level. The learning in this unit will be progressively developed through subsequent design units in the course.

[View unit details online](#) | [View unit timetable](#)

DTB102 Interior Studio: Inhabitation

Pre-requisites	DTB101
Equivalents	DTB201
Credit Points	12
Availabilities	Gardens Point - SEM-2

This first year Interior Architecture unit introduces the understanding of design not only as a language, but also as a spatial design activity through which you visualise your designs atmospherically and experientially. It addresses introductory concepts and approaches found in cinematic techniques and site-based research as applied to interior design. It builds on the elementary principles of two-dimensional and three-dimensional design introduced in DTB101 Interior Design 1. This unit comprises teaching activities, readings, and projects with a specific focus on learning for interior design at a foundational level. The learning in this unit will be progressively developed through subsequent design units in the course.

[View unit details online](#) | [View unit timetable](#)

DTB200 Interior Access and Assemblies

Pre-requisites	Completion of 72 credit points of Design units (D% units)
Equivalents	DTB303
Credit Points	12
Availabilities	Gardens Point

- SEM-1

This unit develops sound competency in the technical communication of commercial construction and detailing of interiors in order to apply this knowledge to project work. It provides opportunities to develop your knowledge of the information required to assemble a set of construction documents for a commercial interior design scenario. It links to other core interior design units by introducing you to the commercial sector, in particular exploring 2D and 3D digital drafting conventions and the application of building codes and standards with an emphasis on interior construction assemblies and access. This unit will develop your knowledge of the techniques and conventions required for digital documentation of technical material. It also covers the technical knowledge required to document a commercial project to meet relevant codes and standards. These are fundamental skills required by a professional interior designer.

[View unit details online](#) | [View unit timetable](#)

DTB204 Interior Studio: Inclusion

Pre-requisites	DTB101
Equivalents	DTB301
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1

This unit addresses aspects of multifunctional interiors within commercial contexts, focusing on large-scale spaces with vertical circulation as part of the greater urban social fabric. It integrates theoretical, technological, sociological and design methods to address design problems. A holistic view of the situation presented will be undertaken so that a synthesis of complex relationships can be managed. It provides you with opportunities to build on, practise and evidence your individual and collaborative sensory design process, design theory, and understanding of social urban context, which will provide a foundation for any subsequent units with more complex designs. Through the application of research-based design approaches, you will realise that complex design outcomes are multi-layered and therefore rich in meaning and significance, whilst responding to multi-function specific and realistic project requirements.

[View unit details online](#) | [View unit timetable](#)

DTB205 Design Psychology

Pre-requisites	Completion of 72 credit points of study
Equivalents	DTB403
Credit Points	12
Availabilities	Gardens Point - SEM-2

Drawing on environmental psychology relevant to spatial design, this unit provides the opportunity to develop a broad understanding of the transactional nature of the relationship between people and the built environment. The unit complements the socio-cultural aspects of design addressed in the Design in Society unit providing core theoretical and technical knowledge to support evidence-based design and ethical and sustainable practice. Interior designers require an

Second Major: Design

understanding of how people and the built environment engage physically, psychosocially and existentially if they are to help produce individually meaningful and socially responsive environments. They also require skills to explore person-environment interaction relevant to practice-based projects. This unit builds on introductory understandings of the nature of human engagement and inhabitation and, in so doing, prepares you to consolidate your design knowledge and skills.

[View unit details online](#) | [View unit timetable](#)

DTB210 Colour and Light

Pre-requisites	Completion of 72 credit points of study
Equivalents	DTB302
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit develops a broad and coherent understanding of colour, its psychology and complexity, and interdependence with light in the context of design theory and application in practice. As such, it introduces you to the attributes, influences and principles of implications of colour and light within the built environment. It develops broad knowledge and the skills to apply theoretical concepts relative to colour and lighting in the creation of spatial design projects. It focuses on the human response to colour and light through an understanding of the histories, theories, and methods of application relevant to two and three-dimensional environments.

[View unit details online](#) | [View unit timetable](#)

DTB304 Design in Society

Pre-requisites	Completion of 72 credit points of study
Equivalents	DTB504
Credit Points	12
Availabilities	Online - SEM-1

This unit addresses the relationships between design and everyday socio-cultural practices enabling you to apply this knowledge in contemporary designed environments analysis such as work and exhibiting environments and service scapes. It provides theoretical and analytical opportunities to develop knowledge of the way the designed world intersects with social life. These insights are crucial to the capacity of design to respond in an evidenced-based and socially responsible way to the designed world as lived and experienced. The unit reviews theories and case studies to illuminate the relationships between design and everyday practice across cultures and time and provides an opportunity to apply these insights in an analysis of a designed environment. It focuses on socio-cultural aspects of design and complements the psychologically oriented unit, DTB205 Design Psychology, while also helping consolidate your final year learning in preparation for professional practice.

[View unit details online](#) | [View unit timetable](#)

DTB305 Interior Studio: Integration

Pre-requisites	DTB204
Equivalents	DTH601
Credit Points	12

Availabilities

Gardens Point
- SEM-2

This unit provides you with the opportunity to undertake a 'real world' design project. You will develop design methodology and undertake an informed design exploration; critically analyse and generate solutions to unpredictable and complex problems. You will refine your written, verbal and visual communication skills to present design processes and solutions at a beginning professional standard. You will develop your critical knowledge of contemporary social contexts within actual built spaces, focusing on 'process' and 'solution'. The projects will address the role and relevance of research, while applying theoretical, technical, ethical and legislative constraints. Through semi-directed learning and studio delivery, the projects allow for the exploration of interior environments with an increased level of complexity and resolution.

[View unit details online](#) | [View unit timetable](#)

DTB306 Interior Systems

Pre-requisites	DTB200 or DTB303
Equivalents	DTB402
Credit Points	12
Availabilities	Gardens Point - SEM-2

This advanced unit aims to develop an understanding of the relationship between design, environmental quality, access and egress and technology while developing your technical communication skills. It introduces a greater complexity in commercial interior construction, services integration and code compliance while also developing your technical documentation skills. The unit links directly to your previous studies in DTB200 and provides the necessary knowledge, skills and application required to document the construction of your designs through all of your core units. DTB306 sits at the developmental stage of your course and provides you with opportunities to develop your knowledge of services integration, digital drafting and documentation requirements in a commercial workplace application with an emphasis on meeting codes and standards relating to fire safety.

[View unit details online](#) | [View unit timetable](#)

DVB101 Visual Communication Design

Equivalents	DXB102, KIB101
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1

This unit introduces the principles and conventions associated with the interpretation and production of meaning through visual representation. Visual Communication is based on the creation of meaning through image and text and this plays a critical role in our contemporary world which is visually and media driven. Visual communicators require a deep understanding of conceptual development, design process, typography and image making, and how image-based communication occurs. You will

Second Major: Design

learn how to think and operate as a visual designer through studio-based learning and a series of industry-focused experiences.

[View unit details online](#) | [View unit timetable](#)

DVB102 Image Design and Production

Equivalents	DXB202, KIB120, KVB204
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2 External - XCH-2

This unit provides skills and knowledge for image creation and production across different contexts, styles and media. It also deals with issues of originality, creativity and suitability of images used in professional visual design, while increasing your skills and creative approaches to areas of illustration, information design, photography, and photo media design. It advances knowledge on aesthetic and formal qualities of new areas of image design and a growing technical skill set which will be built upon in further Visual Communication Design specialisation subjects. In a world of easily reproduced digital imagery, the ability to create your own original illustrations, photos, textures and patterns can be highly competitive. Along with developing practical skills to generate original imagery for your design work, the unit further develops your capacity to critique and reflect upon practice.

[View unit details online](#) | [View unit timetable](#)

DVB201 Typographic Design

Pre-requisites	DVB101 or DXB102
Equivalents	DXB302, KIB231, KIB335
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit provides knowledge and skills of typographic principles, composition and design strategies. It combines theory and practice, history and experimentation, and designing for print and digital media, all within a vibrant studio environment delivered face-to-face and online. You will engage with dynamic, creative briefs and use type as the main element of visual expression in your work. Typically typography is at the core of any visual communication work, independently of media. 'Good' typographic design demands well developed technical skills, constant attention to detail as well as a sharp understanding of the context and content of the message being transmitted. Upon completion of this unit you will be able to understand, apply and manipulate multiple aspects of typography as a powerful visual communication tool and to prepare and publish your work in multiple media contexts, including emerging technologies and environmental spaces.

[View unit details online](#) | [View unit timetable](#)

DVB202 Visual Design for Storytelling

Pre-requisites	DVB101 or DXB102
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

While contemporary visual communication often applies concise and immediate messaging for targeted audiences, it can also require extended, multi-layered narrative-led messaging. This unit provides theoretical, conceptual, technical and research skills to produce narrative-based visual communication works. The unit addresses principles and techniques of visual storytelling across multiple media forms such as print, screen and space, and allows you to develop key portfolio pieces which are complex and creative. Visual Design for Storytelling builds upon the Visual Communication foundations, expanding the scope of projects you are equipped for.

[View unit details online](#) | [View unit timetable](#)

DVB203 Theories and Methods of Visual Communication

Pre-requisites	DVB101 or DXB102
Equivalents	DXB402, KIB207
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit builds on your understanding of the principles of visual communication and its role in determining the values of our contemporary cultures and societies. Through exploring theoretical perspectives, discussions and class exercises you will critique and analyse images and visual communication designs occurring in multiple contexts. In doing so, you will develop further expertise in the production of contemporary communication design and the ethical, social and professional responsibilities of a designer. This unit directly builds upon the Visual Communication and Image Production units while providing opportunities to engage with critical analysis of images and experiences and evidence this through written expression and report writing.

[View unit details online](#) | [View unit timetable](#)

DVB301 Kinetic Image and Text

Pre-requisites	Completion of 36 credit points of Visual Communication units (DVB%)
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

Moving image and typographic design has become a leading form of communication in contemporary society, from online contexts, to film and television, to digital signage. An in-depth understanding of and creative skills in motion-based design are essential for visual designers to work on major campaigns and

Second Major: Design

address all client needs. This unit provides you with knowledge of key theoretical approaches, techniques and methods of kinetic design and allows you to explore these through practice within studio-based assessment projects. In taking this focus, the unit builds directly upon prior foundations of Image Design and Typography in the Visual Communication specialisation and prepares students to work at a further, advanced level within the industry.

[View unit details online](#) | [View unit timetable](#)

DVB302 Data Visualisation and Information Design

Pre-requisites	Completion of 36 credit points of Visual Communication or Interaction units (DVB% or DXB%)
Anti-requisites	CCN104, CCN205
Equivalents	DXB502, KIB340
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

Information and data is now an essential aspect of everyday life in our technologically-driven and visually rich society. In the contemporary world, the generation of data is much greater than the ability to digest and visualise this as meaningful information. The unit provides advanced knowledge and skills in visual information design and data visualisation allowing you to apply these within a series of practice-based design works. The unit contextualises the growth of this information design specialisation for visual designers, raises issues relating to data collection and integrity, and provides you with a comprehensive understanding of the variety of design approaches that can be engaged within this area. It offers both a practical understanding of established information design models and also the opportunity to develop an innovative and future-forward approach to data visualisation, including utilising interactivity.

[View unit details online](#) | [View unit timetable](#)

DVB303 Experimental Visual Communication

Pre-requisites	Completion of 60 credit points of Visual Communication units (DVB%)
Equivalents	DXH601
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This capstone unit refines and extends your communication design skills through studio-driven explorations of emerging and future practices. It aids you to develop your own unique and innovative visual design language, culminating in the design of a signature work, which will assist you in defining a creative portfolio and future career directions. As well, this outcome represents a key design piece to be presented in your final year exhibition. Visual communication continues to be a vibrant and rapidly growing field of design. New design opportunities and career pathways continue to emerge and an understanding of

future industry directions – and an ability to actively engage and adapt to these – is essential in forging a long-term career. This subject provides you with the opportunity to explore emerging areas of visual communication through practice-based research, creative focus and through providing a dynamic community of learning.

[View unit details online](#) | [View unit timetable](#)

DXB110 Principles of Interaction Design

Equivalents	DXB201
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

This unit introduces Interaction Design theories, methods, tools and applications essential for the design of digital products, services and experiences for human interaction. It enables you to undertake user experience research in response to real world briefs, critique leading industry case studies and practices, iteratively prototype solutions, and evaluate usability of the outcome with regard to user experience. Amidst global proliferation of digital products and services shaped by trends in augmented and virtual reality, automation, smart homes, and the Internet of Things; there is a greater emphasis on designing digital interactions, interfaces and systems that improve the human experience. In order to effectively achieve that, this unit provides foundational skills and knowledge in human-centred design, including aspects of the interaction design lifecycle, methods, tools and techniques needed to solve real world problems.

[View unit details online](#) | [View unit timetable](#)

DXB111 Introduction to Web Design

Equivalents	DXB203, KIB103
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit introduces concepts and skills underpinning the user-centred design of web sites using the web technologies such as HTML and CSS. It enables you to understand web technologies as a medium to explore design concepts and to build responsive, high-fidelity, mobile-first web sites. This includes translating conceptual designs into responsive websites while taking into account principles of interface and user experience design, layout, style and navigation. The unit enables you to formulate solutions to design problems, to produce high quality technical and aesthetic outcomes, and to understand the basic skills needed by web design professionals.

[View unit details online](#) | [View unit timetable](#)

DXB205 Interactive Narrative Design

Pre-requisites	Completion of 24 credit points of study
Equivalents	DXB304, DXB404
Credit Points	12

Second Major: Design

Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2

This unit serves as an introduction to creating immersive environments and building interactive worlds for player performance and dramatic agency. The role of the narrative designer is central to the success of any significant professional project in interactive media and game design. The unit addresses theoretical issues associated with immersive / non-linear story structures and interactive narrative forms through the analysis of game / play systems, the creation of original game concepts and the application of techniques of narrative design. It extends this understanding into practice through the application of relevant skills, which will scaffold you into the production of a portfolio work (suitable for interaction designers, visual communication designers, game designers, media designers, creative writers and performance studies).

[View unit details online](#) | [View unit timetable](#)

DXB210 Critical Experience Design

Pre-requisites	DXB110 or DXB201
Credit Points	12
Availabilities	Online
	- SEM-1
	External
	- XCH-1

This unit explores the way in which critical and speculative design theory and practices can transform established design conventions in new and unexpected ways, leading to innovative design solutions. Design does not operate in isolation. All our decisions as designers affect not only the produced outcome, but the broader society and environments for which it is created. This unit provides you with design skills to create highly engaging and interactive speculative designs, services and experiences, while focusing on their impact and potential of design for change and deep societal transformation. In this unit you will adopt critical thinking and speculative design methods to re-imagine, analyse, design and present solutions for future scenarios (e.g. living in future cities, design of future hospitals and future of the environment) as a way to re-frame present interactions between people, spaces and technologies.

[View unit details online](#) | [View unit timetable](#)

DXB211 Creative Coding

Pre-requisites	36cp of previous study
Equivalents	DXB303, KIB205
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-1
	Online
	- SEM-1
	External
	- XCH-1

This is an introductory programming unit for designers. It presents core principles of computer programming and explores how these can be applied to produce creative outcomes. It also surveys the ways that designers, artists and other creative

practitioners have engaged with computer programming and reflects on the nature of code as a creative medium. A basic literacy with programming is essential in areas of professional practice such as interaction design, visual design, web design, mobile app design and game design. As such, it is important for you to develop core skills in computer programming, as well as knowledge of the aesthetics of computational processes in design and creative practice.

[View unit details online](#) | [View unit timetable](#)

DXB212 Tangible Media

Pre-requisites	DXB211 or DXB303
Equivalents	DXB501, KIB314
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2

This unit provides in-depth knowledge of tangible media through the production of an advanced tangible media design project. The design and production of computational and interactive media forms requires theoretical knowledge and an understanding of the processes that underpin the tangible as well as the embodied ways in which people interact with such systems. This unit builds upon previous interaction design studies and extends these studies into the field of tangible media.

[View unit details online](#) | [View unit timetable](#)

DYB111 Create and Represent: Form

Equivalents	DAB103, DTB103, DEB103, DLB103
Credit Points	12
Availabilities	Gardens Point
	- SEM-1
	External
	- XCH-1

This unit introduces you to the foundational visualisation skills and applications needed to formulate design propositions such as sketching, technical drawing, simple physical and digital model-making, rendering, composition and presentation. Visualisation is a crucial part of design thinking. The ability to use appropriate techniques and media to communicate design ideas is a vital part of the design process. Designers need to conceptualise and communicate two dimensional/three dimensional forms and spatial qualities. Therefore it is important for designers to learn how to imagine, visualise and communicate these ideas effectively. The unit is paired with DYB113 Create and Represent: Materials as part of the foundation block in the first year of study that will enable you to acquire the preliminary skills required for design communication in the Spatial Study Areas. These skills will be progressively applied throughout your course.

[View unit details online](#) | [View unit timetable](#)

DYB112 Spatial Materiality

Credit Points	12
Availabilities	Gardens Point
	- SEM-1

Second Major: Design

This unit provides an exploration of the materials of the built environment. It will focus on a number of thematic issues of materials: their physical properties, their histories, their environmental impacts, and their applications in making architecture, interiors and landscapes. Through activities of analysis, observation and research, you will discover materials' tectonic ability to heighten the human experience of the spatial environments around us. As such, the unit aims to foster a spirit of enquiry into the creation of spatial environments. As a foundation unit for architecture, interior architecture, and landscape architecture students, it offers a broad view of the spatial disciplines and the materiality of their design and creation.

[View unit details online](#) | [View unit timetable](#)

DYB113 Create and Represent: Materials

Equivalents	DAB203, DTB203, DEB203, DLB203
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit introduces you to the fundamentals of building materials and their representation through the development of foundation digital visualisation skills and applications and their integration with manual skills and analogue media. You will develop visualisation skills and techniques within the design process through understanding the drawing conventions associated with the representation of materials, as well as the ability to select the right visualisation technique for each phase of the design process. Visualisation and representation are crucial aspects of design thinking, with a particular emphasis on understanding the physical quality of building materials. This unit is paired with DYB112 which introduces representation techniques in the design process. In this unit you will learn to use two- and three-dimensional software applications and physical model making to present your ideas, which demonstrates an appreciation of the fundamental aspects of building materials.

[View unit details online](#) | [View unit timetable](#)

DYB114 Spatial Histories

Equivalents	DEB202, DED202, UXB130
Credit Points	12
Availabilities	Gardens Point - SEM-2

This foundation unit introduces the history of the built environment that will inform your study of global architectures that have occurred over several millennia putting the present into its relative context. It is designed to integrate the discipline specific content of architecture, interior architecture and landscape architecture within the broad context of a global understanding of spatial histories from multiple perspectives. The unit addresses key designs, ideas and issues that have shaped the aesthetic, environmental, socio-cultural and political factors that related to their production. It enables you to become familiar with the critical moments and paradigm shifts of the built environment through global perspectives and spatial justice theories; to develop an understanding of yourself as a participant in the continuum of the rich cultural tradition of designing and making places for human inhabitation.

[View unit details online](#) | [View unit timetable](#)

DYB121 Introducing Design Fabrication

Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This introductory hands-on unit explores concepts, skills and methods required to prototype and fabricate physical objects from your design ideas. Designers need to consider the capabilities of fabrication, associated processes and equipment, and materials available to produce a physical prototype of their design ideas. From this perspective, design fabrication is problem centric and requires a rationale behind the choice of materials and processes, an understanding of the quality of the fabrication outcome as part of an iterative process or for its temporal qualities for concept evaluation, as well as consideration of the ethics of fabrication. The foundational design fabrication skills acquired in this unit will be further developed in subsequent design units in the program.

[View unit details online](#) | [View unit timetable](#)

DYB122 Design Visualisations

Equivalents	DFB105, DFB302, DNB103, DEB103
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1

This unit introduces you to design visualisation practice and how to employ a variety of techniques to visualise design ideas to assist you in design thinking, research, communication and presentation.

[View unit details online](#) | [View unit timetable](#)

DYB123 Emerging Design Technology

Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

This unit introduces you to existing and emerging technology and how it applies to design. In this unit you will learn about how technology is used in the design process and to design solutions. Designers need to be familiar with technology to aid them in the design process as well as being able to create products that take advantage of emerging technologies.

[View unit details online](#) | [View unit timetable](#)

DYB124 Design Consequences

Equivalents	DEB202, DED202
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online

Second Major: Design

- SEM-2

Design Consequences is a foundational unit employing historical, theoretical, and applied methods to explore the ways in which design influences and is influenced by cultural traditions and practices, beliefs and biases. Working across frames of past, present and future, you will learn how to critically engage with and draw upon these cultural factors and influences to shape and define your design work and practice. The twenty-first century presents designers with a challenging context characterised by the increasingly dramatic effects of climate change, growing levels of inequality, and destabilised geopolitical conditions. This unit will introduce you to a range of ideas, methods, and approaches necessary to understand design not only as products, environments, services and experiences but also as a social, cultural, political, and economic agent.

[View unit details online](#) | [View unit timetable](#)

KKB345 Creative Industries Project 1

Pre-requisites	Completion of 72 credit points of study relevant to the specific project
Credit Points	12
Availabilities	Online - SEM-1, SEM-2, SUM External - XCH-1, XCH-2

Undertake a supervised project in a team-oriented environment that involves practical application and critical reflection. The experience and skills gained will contribute towards your increased self-knowledge and confidence as a practitioner in the Creative Industries. Creative Industries graduates need to practise as professionals in their respective discipline or disciplines. Increasingly, a major part of such practice is instigating, managing, monitoring, and reporting on Creative Industries projects. **IMPORTANT: Projects will be only promoted and can only be applied for through InPlace. These InPlace applications have strict closing dates, these dates will often occur well in advance of semester. IMPORTANT: Please note, enrolment in this unit is by application only, if your application through InPlace is successful, you will be manually enrolled in this unit.**

[View unit details online](#) | [View unit timetable](#)

KKB350 Creative Industries Study Tour

Pre-requisites	Completion of 72 credit points of study
Credit Points	12
Availabilities	Kelvin Grove - SEM-2

This unit is based on immersive learning and will provide opportunities for you to learn about nationally or internationally recognised creative industries practices and organisations and to interact with creative industries professionals beyond Brisbane. It is designed for those who have completed at least one year of full-time study and are ready to expand their horizons by gaining experience of national or international creative industries practices, organisations, and precincts. In the context of a study tour, the unit enables you to identify methods of developing, producing, distributing and marketing culture and creativity in a national and international context. It also refines your knowledge of contemporary creative industries to enhance your professional capacities and potential for employment in creative economies.

Current students

Year	2022
QUT code	Uniwide
Total credit points	96
Discipline Coordinator	AskQUT +61 7 3138 2000 askqut@qut.edu.au

Study areas

A second major is a set of related units in a particular study area. You may be able to choose one from another area of the University if your course rules allow. To find out, go to your study plan: if you have a complementary studies option block, search using the code in brackets above the unit list and if it exists you will be able to select it on plan.

Second majors can consists of 72 or 96 credit points.

The introductory units in each second major have no prerequisites. Later units may have earlier units as prerequisites. Depending on class timetabling it may not be possible to complete all units in a university wide second major. Consult with your course coordinator and relevant discipline coordinators prior to undertaking interfaculty studies.

Individual units completed in a university wide second major will appear on your academic transcript but it will only be recorded as a successfully completed study area if you have a). selected it as an option on your study plan and b). completed the correct number of credit points.

Please see next page for course structures and unit lists

Unit Synopses

CAB201 Programming Principles

Pre-requisites	IFB104 or ITD104 or MZB126 or EGD126 or ENB246 or MXB103 or INB104 or MAB220 or EGB103
Anti-requisites	ITD121
Equivalents	INB270, IND270
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-2

This unit builds on the gentle introduction to programming provided in IFB104, EGB103 or MZB126. In those units students learn how algorithms are constructed by combining the logical

structures of sequence, selection and iteration. Students also learn how functions can be used to abstract and reuse sections of code. These concepts are reinforced in this unit and extended with additional applications of abstraction necessary to combat complexity when building larger systems. Object-oriented principles are introduced where the program is structured around classes of objects that are identified from the real-world providing a high-level architecture that is better able to stand the test of time as requirements evolve throughout the lifetime of the system. This unit provides the foundation for the other more advanced and specialized programming units.

[View unit details online](#) | [View unit timetable](#)

CAB210 User Experience Fundamentals

Pre-requisites	IFB103 or INB103 or ITD103 or INB182 or EGB100 or ENB100
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

User experience (UX) means how a person feels when interacting with digital technology, like mobile applications, web services and games. This unit introduces user experience methods to study people's needs in a real-world context, and to evaluate the usability and experience with technologies. This unit is important to inform the design and development of technologies that meet the needs of people who are going to use them and the context within which they will be used. A stronger understanding of user experience will provide students with an edge in the market place for jobs such as interaction designers, usability engineers, game designers, app developers, information architects, and user experience designers. This unit builds on the design thinking skills developed in IFB103, and it provides the foundation for advanced interaction design skills through unit CAB310.

CAB230 Web Computing

Pre-requisites	IFB104 or ITD104 or MZB126 or EGD126
Equivalents	INB271
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

The World Wide Web is the most important platform for software systems and an integral part of modern life. Many companies owe their existence to the web, through applications deployed over the Internet using web protocols. All IT professionals require a good understanding of the web and its architecture, especially software developers and those tasked with maintaining and implementing web-based software systems. This unit is a technical introduction to modern web computing. You will design and implement clean and responsive user

Second Major: Information Technology

interfaces, taking account of accessibility and internationalisation. We will provide an introduction to JavaScript and you will use it throughout the semester, gaining practical experience with HTML, CSS and frameworks such as React on the client side, and node.js, Express and the node ecosystem on the server side. You will understand security threats and their mitigation and gain practical experience deploying an internet facing web server using HTTPS.

[View unit details online](#) | [View unit timetable](#)

CAB302 Software Development

Pre-requisites	CAB201 or INB270 or ITD121
Equivalents	INB370
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit teaches you how to work effectively in a team to develop large-scale software systems. It includes principles of teamwork, modern software development methodologies and tools that are needed when working in a team on a large project.

[View unit details online](#) | [View unit timetable](#)

DXB205 Interactive Narrative Design

Pre-requisites	Completion of 24 credit points of study
Equivalents	DXB304, DXB404
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

This unit serves as an introduction to creating immersive environments and building interactive worlds for player performance and dramatic agency. The role of the narrative designer is central to the success of any significant professional project in interactive media and game design. The unit addresses theoretical issues associated with immersive / non-linear story structures and interactive narrative forms through the analysis of game / play systems, the creation of original game concepts and the application of techniques of narrative design. It extends this understanding into practice through the application of relevant skills, which will scaffold you into the production of a portfolio work (suitable for interaction designers, visual communication designers, game designers, media designers, creative writers and performance studies).

[View unit details online](#) | [View unit timetable](#)

DXB210 Critical Experience Design

Pre-requisites	DXB110 or DXB201
Credit Points	12
Availabilities	Online - SEM-1 External - XCH-1

This unit explores the way in which critical and speculative design theory and practices can transform established design conventions in new and unexpected ways, leading to innovative design solutions. Design does not operate in isolation. All our decisions as designers affect not only the produced outcome, but the broader society and environments for which it is created. This unit provides you with design skills to create highly engaging and interactive speculative designs, services and experiences, while focusing on their impact and potential of design for change and deep societal transformation. In this unit you will adopt critical thinking and speculative design methods to re-imagine, analyse, design and present solutions for future scenarios (e.g. living in future cities, design of future hospitals and future of the environment) as a way to re-frame present interactions between people, spaces and technologies.

[View unit details online](#) | [View unit timetable](#)

IAB230 Design of Enterprise IoT

Pre-requisites	IFB104 or INB104 or ITD104
Equivalents	INB345
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit introduces the components of a mobile ubiquitous system, including stand alone and wearable sensors and wireless network protocols. It introduces the Internet of Things context and develops the skills in designing products and applications that use mobile and ubiquitous sensors and smart devices. The ability to critically review real case studies, expand awareness of interconnections between technologies, networks and user contexts and design a solution to a smart IT context problem is a requirement for a range of graduate positions. This is the first unit in the Mobile Application Development minor and builds on the skills that you developed in IFB103 IT Systems Design, and IFB104 Building IT Systems. IAB330 Mobile Application Development builds on this unit in which you design and build a working prototype system that uses mobile and ubiquitous system components.

[View unit details online](#) | [View unit timetable](#)

IAB260 Social Technologies

Pre-requisites	IFB103 or ITD103
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

This unit will introduce you to the theoretical and practical requirements to build and understand social technology platforms, social networks, and digital communities. You will learn concepts of social technology platforms practical manner, investigate the building blocks of successful digital communities and understand the critical design features. Digital communities are becoming a key feature of the future economy with online communities and social networks are increasingly employed as

Second Major: Information Technology

part of the business model. The success of Digital Communities varies wildly with some communities were successful and others were struggling. This unit explores how to develop successful online communities by incorporating both a theoretical perspective and an architectural perspective.

[View unit details online](#) | [View unit timetable](#)

IAB402 Information Systems Consulting

Pre-requisites	IAB204
Equivalents	INB322 IAB302
Credit Points	12
Availabilities	Gardens Point - SEM-1

In IAB402 Information Systems Consulting, you will gain an appreciation of the management of consulting practices and an understanding of the consulting sector generally. Having developed business requirements analysis skills in IAB305 to identify systems problems or opportunities and specify solution-approaches, Business Analysts and other IT professionals must be able to convincingly communicate these (problems, opportunities, requirements, solution-approach) to managers, colleagues and clients in the form of a proposal. Many roles benefit from such specialised proposal writing and communication capabilities. Organisations are increasingly moving to flatter, project-oriented, team structures, akin to consulting firms. A better appreciation of the consulting process will be beneficial to students working in these modern organisations as IT professionals. The unit will provide information on establishing a consulting practice and techniques to engage clients successfully.

[View unit details online](#) | [View unit timetable](#)

IFB103 IT Systems Design

Anti-requisites	ITD103
Equivalents	INB182
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

Developing an innovative, practical and cost-effective IT solution that is user-focused is a complex task for IT experts. It requires a systematic process that includes: 1) identifying and clarifying a business problem that an IT system can help to resolve; 2) collecting and interpreting requirements; 3) decomposing the system into its components; and, 4) prototyping techniques to ensure that all the components of the system satisfy the requirements. This unit presents students with authentic industry challenges in which you apply your IT knowledge, fundamental analysis and design techniques. It exposes you to design contexts, theories, processes, principles and methods that IT experts use, either individually or in a group, to analyse and design an IT system. The unit builds your skills towards any career related to operational analysis and design of a specific business scope, including Business Systems Analyst, Solution Architect, and Project Manager.

[View unit details online](#) | [View unit timetable](#)

IFB104 Building IT Systems

Anti-requisites	ITD104, CAB201, EGB103
Equivalents	INB104, IND104, ITB001
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

This unit provides a hands-on introduction to computer programming for students with no prior coding experience at all. It introduces the basic principles of programming in a typical imperative language, including expressions, assignment, functions, choice and iteration. It then shows how to use Application Programming Interfaces to complete common Information Technology tasks such as querying databases, creating user interfaces, and searching for patterns in large datasets. The emphasis is on developing skills through practice, so the unit includes numerous coding exercises and assignments, using a simple scripting language and code development environment. The unit establishes a foundation for later subjects that teach large-scale software development using industrial-strength programming languages.

[View unit details online](#) | [View unit timetable](#)

IFB105 Database Management

Equivalents	IFB130
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

This is an introductory unit on database addressing the core concepts, requirements and practices of databases. It introduces conceptual data modeling to address a key area of concern of modeling structured data to build a comprehensive understanding of the data aspect of a problem. You will learn how to transform such data model into a relational database design as well as how to effectively retrieve data through SQL queries. Normalization, database security/administration, other special topics and ethical aspects related to information systems are also covered. IAB207 Rapid Web App Development, IAB303 Data Analytics for Business Insights and the Capstone units IFB398 Capstone 1 and IFB399 Capstone 2 build on this unit for data storage/retrieval and business insights. IAB206 Modern Data Management extends this unit earning to unstructured data such as graphs and documents which are also gaining popularity in the real world.

[View unit details online](#) | [View unit timetable](#)

IGB100 Game Studio 1: Mini-Game Development

Pre-requisites	IFB103 or ITD103
Credit Points	12
Availabilities	Gardens Point - SEM-1

In Game Studio 1, you will begin to apply your emerging

Second Major: Information Technology

discipline knowledge within small scale game development activities. Game Studio units are fundamental to the BGIE, and focus on the integration of design principles with practical development skills. In this first studio unit, you will have the opportunity to experience, at a small scale, all facets of game development, from animation and design, through to implementation and production. In this unit you will engage in the tasks that designers and developers carry out in order to create engaging mini-games that utilise simple game mechanics and rules. This unit aims to provide you with foundational knowledge of game development activity, and to nurture the skills necessary for execution of effective designs in an integrated studio environment.

[View unit details online](#) | [View unit timetable](#)

IGB180 Computer Games Studies

Anti-requisites	INN180
Equivalents	INB180
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

This unit focuses on the social, cultural, and political aspects of videogames. It serves as a survey of topics useful for those interested in the study and creation of serious games, games for health, entertainment games, virtual and augmented reality, gamification and interactive environments. The units aims to help students become well played, well versed, and well read in and of games through the development of critical media skills. By the end of the semester students will be able to speak to current academic and industry trends around games, critically assess media and studies about games for veracity and reliability, leverage critical and creative thinking to express their positions on games, and converse about the history, and social-cultural impact of games.

[View unit details online](#) | [View unit timetable](#)

IGB200 Game Studio 2: Applied Game Development

Pre-requisites	IGB100 and (IGB180 or INB180)
Credit Points	12
Availabilities	Gardens Point - SEM-2 External - XCH-1, XCH-2

In Game Studio 2 you will develop a digital game-based experience to meet a defined project brief. Game Studio units are fundamental to the BGIE, and focus on the integration of design principles with practical development skills. In many contexts, game designers and developers work towards a predefined design brief, and in this unit you will build a game to meet the requirements set by an industry partner. You will work in teams to create this interactive experience, applying your discipline expertise and emerging project management skills. You will employ an agile development process that allows for evaluation of the emerging product. The processes employed throughout the unit will extend your understanding of industry practices, allowing you to develop the professional and

interpersonal skills required to succeed within this profession.

[View unit details online](#) | [View unit timetable](#)

IGB220 Fundamentals of Game Design

Pre-requisites	IGB180 or INB180
Equivalents	INB280
Credit Points	12
Availabilities	Gardens Point - SEM-2

It is crucial that a game designer understands how to create a game world, the rules that govern game play and other high level design tasks, as the result of these activities can determine whether the player finds the game enjoyable or not. This unit provides an introduction to game design, by starting with high level conceptual design tasks before moving to more concrete tasks. You will develop practical and theoretical knowledge of game design issues such as: how game systems work, how to define rules for the world, and how to balance the rules to ensure enjoyable game play. At the end of the unit, students will have worked individually and in a small project team to demonstrate their understanding of these concepts. In this unit you will analyse relevant theory, create a design document, build a prototype and undertake playtesting.

[View unit details online](#) | [View unit timetable](#)

IGB321 Immersive Game Level Design

Pre-requisites	IGB220 or INB280
Credit Points	12
Availabilities	Gardens Point - SEM-2

Level design is a critical, key component to any video game, no matter how abstract or realistic. It is crucial that a level designer has the ability to lay out levels, construct levels within game engines, plan gameplay scenarios and place non-player characters. This unit will help students develop these abilities as well as skills such as building terrain, building architecture and spaces, balancing gameplay, integrating narrative elements and goals, playtesting and implementing iterative design improvements, designing lighting and atmospheric effects and other genre-specific level design skills. Students are expected to have some degree of high level game design skills and preliminary scripting abilities for this unit.

Year	2022
QUT code	Uniwide
Total credit points	72
Discipline Coordinator	07 3138 2050 qut.languages@qut.edu.au

Study areas

Enhance your degree and diversify your career prospects by studying a foreign language.

Languages are available to QUT students through the Brisbane Universities Languages Alliance (BULA), a partnership between QUT, Griffith University and The University of Queensland. Through BULA, you'll have the opportunity to select from a large range of languages offered by all three universities.

Languages available for QUT students:

QUT: Mandarin

Griffith: Japanese, Italian, Spanish

QU: French, German, Indonesian, Japanese, Korean, Russian, Spanish

Varieties of language subjects are available for beginners, intermediate levels to advanced / native speakers. The entry point will vary depending on prior study and experience in the language. If you have not studied a language before, you will begin at an introductory level. If you have studied the language up to Grade 12 level or completed equivalent study elsewhere, you will normally begin at intermediate level. If you have studied to Grade 12 and then studied in-country for a year, you will normally begin at an advanced level. If in doubt, contact QUT Languages for advice on where to begin (qut.languages@qut.edu.au).

You may be able to complement your degree by undertaking language study. This may consist of:

- a second major (6 subjects / 72 credit points) or
- a minor (4 subjects / 48 credit points) or
- an option unit (general elective)

Language proficiency is an asset when competing for a career in a globalised economy, and multilingualism is vital to the economic and cultural health of Australia. Through the study of a language, you will have the opportunity to develop global knowledge, cross-cultural understanding and foreign language skills.

AMB050	Advanced Chinese - English Translation on Business Topics 2

Unit Synopses

AMB045 Chinese - English Translation for Business Communication

Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This language unit is suitable for students with native or near-native competencies in both Chinese and English and who have an interest or need to work with business-related documents and high-level written communications in both languages. The unit teaches basic translation theories and helps students to develop their skills through a large amount of varied translation practice using real world materials including general business correspondence and sample texts in areas of advertising and marketing. In addition to the translation practice, students are introduced to business Chinese and English, which will help them to improve their skills in writing business documents. The knowledge and skills gained through this unit will provide a competitive edge for students who aspire to work in international business and trade companies requiring people with skills in translating business documents between Chinese and English. Admission may require an interview.

[View unit details online](#) | [View unit timetable](#)

AMB046 Chinese - English Translation on Business Topics

Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Business communication between the English-speaking world and China has been increasing rapidly and on an extensive scale. Success of many business deals and transactions depends on truthful and effective translation of business documents between the two languages. This unit is suitable for students with native or near native competencies in both Chinese and English, and who have an interest or need to work

with business-related documents and high-level written communications in both languages. The unit teaches and expands students' strategies and skills in conducting translation tasks in business and, in particular, in the areas of accounting, banking, business contracts and international business through a large amount of varied translation practice using real world materials. In addition to the translation practice, students learn business Chinese and English language features, which helps them to improve their skills in writing business documents.

[View unit details online](#) | [View unit timetable](#)

AMB047 Chinese - English Liaison Interpreting

Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This language unit is designed for native or near-native Chinese speakers from any discipline with an interest in developing Chinese-English interpreting skills. The unit teaches basic interpreting knowledge and strategies, and helps students develop aural, note-taking and oral skills in dialogue interpreting, sight interpreting, and consecutive interpreting through a large amount of varied interpreting practice in authentic situations such as reception services, tours and visits, catering culture, exhibitions and fairs, business negotiations, overseas visits, interviews, sports and health services. The knowledge and skills the students acquire in this unit will position them to act as a communicative bridge, interpreting communications between the company or institution on one side and its Chinese or English-speaking clients on the other. Admission may require an interview.

[View unit details online](#) | [View unit timetable](#)

AMB048 Chinese - English Speech Interpreting

Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Contact and communication between the English-speaking world and China have been increasing rapidly and on an extensive scale. Successful communication between language speakers of Chinese and English depends greatly on truthful and effective interpreting of conversations and speeches from one language to the other. It is designed for students who are interested to interpret formal and ceremonial speeches in situations where they may find themselves in their future work places.

[View unit details online](#) | [View unit timetable](#)

AMB049 Advanced Chinese - English Translation on Business Topics 1

Pre-requisites	AMB045 and AMB046
Credit Points	12
Availabilities	Last run in 2021

This advanced unit builds on skills and knowledge of translation theories gained in AMB045 and AMB046 and is for students who

Second Major: Languages

have a strong interest in further developing their ability to comprehend and translate more complex texts related to personal finance management and other work situations. A wide range of authentic materials will be used in the translation practice, covering such topics as business news, taxation, equity/stock market, foreign currency exchanges, personal insurance and social securities (related mainly to Australian and Chinese contexts). Skills developed in this unit will enhance students' competitiveness for working in government and financial services sectors. And they will be able to develop their understanding of cross-cultural differences in the topics areas covered in addition to gaining practical insight into the different business cultures in the use of the two languages.

[View unit details online](#) | [View unit timetable](#)

AMB050 Advanced Chinese - English Translation on Business Topics 2

Pre-requisites	AMB045 and AMB046
Credit Points	12
Availabilities	Last run in 2021

This advanced unit complements AMB049. By consolidating and extending students' knowledge gained in AMB045 and AMB046, it helps students further develop their translation skills for business situations in which bilingual use of Mandarin Chinese and English is required. Students will apply learned skills to a wide range of authentic materials covering topics such as property economics, loans and mortgages, superannuation and pensions, asset allocation, estate planning (related mainly to Australian and Chinese contexts) and idioms used in business texts. Students in the unit will develop a high level of cross-cultural awareness – essential for performing professional translation tasks in government and companies providing financial services to the general public.

Study areas

A second major is a set of related units in a particular study area. You may be able to choose one from another area of the University if your course rules allow. To find out, go to your study plan: if you have a complimentary studies option block, search using the code in brackets above the unit list and if it exists you will be able to select it on plan.

Second majors can consists of 72 or 96 credit points. The credit points for this study area is listed on the Overview tab.

The introductory units in each second major have no prerequisites. Later units may have earlier units as prerequisites. Depending on class timetabling it may not be possible to complete all units in a university wide second major. Consult with your course coordinator and relevant discipline coordinators prior to undertaking interfaculty studies.

Individual units completed in a university wide second major will appear on your academic transcript but it will only be recorded as a successfully completed study area if you have a). selected it as an option on your study plan and b). completed the correct number of credit points.

Please see next page for course structures and unit lists

Online
- SEM-2

This unit is designed to introduce students to the practice and theorising of politics and policy making. It will provide you with a foundation to understand the people, systems and structures that influence how our government works. Understanding political dynamics and how good policy-making happens helps prepare students to work in government agencies, or to work more effectively in non-governmental roles concerning law and justice. In addition to providing a conceptual overview of the structures and functions of government, this unit introduces students to the practical elements of policy-making enabling you to develop basic political communication skills.

[View unit details online](#) | [View unit timetable](#)

JSB261 Theories of Government

Pre-requisites	96 Credit Points of Completed Study
Credit Points	12
Availabilities	Kelvin Grove - SEM-1 Online - SEM-1

You cannot fully understand our system of government without understanding the history of the theories that have led to this point. This is core knowledge for working in policy or politics. This unit will run through all the major theories of how governments should operate and the basis of authority, legitimacy and freedom. JSB261 Theory of Government will provide you with the necessary knowledge of what our system of government is designed to do and why we have this rather than another system of government.

[View unit details online](#) | [View unit timetable](#)

JSB263 Global Political Institutions

Pre-requisites	96 Credit Points of Completed Study
Credit Points	12
Availabilities	Kelvin Grove - SEM-2 Online - SEM-2

Justice graduates are increasingly taking on key roles working in or alongside political institutions. It is essential that graduates have a full and working knowledge of the structure and process of international governance in order to excel in these roles in an increasingly professionalised and globalised public sector. This unit will explore the establishment, evolution and functioning of key international and Australian political institutions, in order to increase students' understanding and awareness of our systems of governance.

[View unit details online](#) | [View unit timetable](#)

JSB266 White Collar Crime and Official Corruption

Pre-requisites	JSB172 or JSB178 or LLB101
Anti-requisites	JSB183, JSB265
Credit Points	12

Second Major: Policy and Governance

Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2
	External
	- XCH-1, XCH-2

The study of public sector ethics covers the types of actions and the methods of enforcement required to bring about performance in the public interest. This unit will introduce you in detail to the most important issues of public sector ethics, both in Queensland and the world. As government employees, it is essential that you not only understand these concepts but put them into practice. White collar crime is becoming more common in Australian society. There are a larger number of people in a position to participate in white collar crime and new opportunities are presented by a more corporatised and technological society. Greater resources are being applied to detect these crimes within police services. The study you will undertake in this unit follows on from learning in JSB172 Professional Academic Skills or JSB178 Policy, Governance and Justice.

[View unit details online](#) | [View unit timetable](#)

JSB273 Justice Research Methods

Pre-requisites	JSB170 or JSB172 or JSB178 or LLB101 or PYB007
Credit Points	12
Availabilities	Last run in 2021

Research within criminology highlights that in order for students to undertake research themselves and be able to critically read and assess the research of others they need to have a clear understanding of the research methods commonly used in the field (Kleck et al., 2006). This unit is designed to provide students with essential knowledge and skills required to undertake justice research. At completion of this unit, you will: (a) be able to take these learned skills and apply them to your practice as a future justice professional, and (b) develop skills that can be used for further advanced study in both quantitative and qualitative research methods and analysis.

[View unit details online](#) | [View unit timetable](#)

	- SEM-1
	Online
	- SEM-1

There is increasing demand in Australia for graduates with the skills and expertise required to contribute to the policy-making process and delivery of democracy. It is therefore necessary for students who wish to work in the public sector or as part of the political process to understand the role of people power in political decision-making. This unit offers students an insight into global and national social movements, political lobbying, and political participation.

JSB380 Critical Policy Analysis

Pre-requisites	JSB207 or JSB263
Credit Points	12
Availabilities	Kelvin Grove
	- SEM-2
	Online
	- SEM-2

Critical policy analysis is an essential ability in the justice sector, and policies in this field have significant social consequences. It is imperative that those employed in areas connected to justice are equipped with the skills to critically interrogate policy evidence, impacts and implications. This unit will draw on important debates in contemporary policy (including Indigenous policy) to explore some important ways policy works - as a practical expression of government intentions, as a mechanism for social inclusion and exclusion, and as an expression of social and political relationships. This unit provides the opportunity for you to draw together the knowledge and skills you have developed in this area, and build on them, in order to hone and practice these capabilities.

Study areas

A second major is a set of related units in a particular study area. You may be able to choose one from another area of the University if your course rules allow. To find out, go to your study plan: if you have a complimentary studies option block, search using the code in brackets above the unit list and if it exists you will be able to select it on plan.

Second majors can consists of 72 or 96 credit points. The credit points for this study area is listed on the Overview tab.

The introductory units in each second major have no prerequisites. Later units may have earlier units as prerequisites. Depending on class timetabling it may not be possible to complete all units in a university wide second major. Consult with your course coordinator and relevant discipline coordinators prior to undertaking interfaculty studies.

Individual units completed in a university wide second major will appear on your academic transcript but it will only be recorded as a successfully completed study area if you have a). selected it as an option on your study plan and b). completed the correct number of credit points.

Unit Synopses

BSB113 Economics

Equivalents	BSD113, BSX113, CTB113, UDB104
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Economics is the study of how to best use and distribute scarce resources to meet our needs and wants by looking at how people make decisions and the interaction of individuals in markets. Economics examines the role of government in either obstructing or improving market outcomes and the effect of those decisions on the well-being of society. Economics also studies the economy as a whole and key issues explored in this unit include economic growth, inflation, unemployment and international trade. In studying these issues economists can understand how to manage the economy for the good of its citizens. In this unit students develop an understanding of the key principles and tools that economists use to interpret and

critically analyse economic policies that impact on Australia and the global economy.

[View unit details online](#) | [View unit timetable](#)

LWS012 Urban Development Law

Equivalents	UDB102
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

This unit provides to students an introduction to the Australian legal environment in which context they will be working. It addresses specific legal issues that impact on urban development and is intended to inform the decisions that will need to be made while working in this area. An understanding of the legal framework is essential to professionals practising in all areas of the built environment. The foundation skills and knowledge acquired in this unit will underpin future learning.

[View unit details online](#) | [View unit timetable](#)

USB141 Building Big

Equivalents	UDB141
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Building Big builds on the construction fundamentals covered in the unit UXB110 Residential Construction and further develops these concepts and applies them to the industrial property, retail centres, high rise commercial and high rise residential property. The unit provides the construction and design background that defines good quality building materials, design, layout and construction. These concepts will provide the basis for the understanding of how construction type and quality are reflected in the market demand and value of these property types from a development, valuation and investment perspective.

[View unit details online](#) | [View unit timetable](#)

USB142 Residential Valuation

Anti-requisites	UDB140, USB140
Credit Points	12
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

Residential Valuation is an introductory unit in the Property Economics degree and provides the foundation skills and knowledge that will be the basis for the study of future units in property areas such as valuation, property development and property market analysis.

[View unit details online](#) | [View unit timetable](#)

Second Major: Property Economics

USB144 Investment Valuation

Pre-requisites	USB140 or USB142
Anti-requisites	USB242
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Investment Valuation is an intermediate unit in the Property Economics degree. The unit builds on the preliminary property fundamentals covered in USB142 Residential Valuation, expanding those key concepts to income producing and investment grade assets. This unit develops an understanding of the various commercial market sectors and how various features of these markets impact on the value of a property asset. The valuation methodologies used to value investment grade assets are also applied. The knowledge of this unit will be further developed in USB245 Property Investment Analysis, USB247 Money and Property and USB345 Specialised Valuation.

[View unit details online](#) | [View unit timetable](#)

USB145 Property Transactions

Anti-requisites	USB246
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Property Transactions provides the foundation knowledge to understand the fundamentals of property rights and the legal rights and responsibilities for a property professional participating in property transactions. You will develop an understanding of contracts associated with buying, selling and leasing property and how to maintain best practice to avoid exposure to legal liability. In addition you will be introduced to legal structures for the delivery of property development and investment projects.

[View unit details online](#) | [View unit timetable](#)

USB240 Market Analysis

Pre-requisites	BSB113 or UDB104
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

Market Analysis builds on the knowledge and technical skills developed in the foundation property and valuation units (USB142 and USB144). You will apply demographic, economic and key urban economic theories and policies in the property market environment. Understanding property markets will assist in the creation of marketing and investment strategies to meet targeted consumer supply and demand. You will gain knowledge and skills on how to conduct property market research, collect and analyse property data to support creative solutions and

interpret the findings from a range of research publications. The knowledge of this unit will be further developed in USB245 Property Investment Analysis, USB300 Development Process and USB344 Property Project.

[View unit details online](#) | [View unit timetable](#)

USB244 Asset Performance

Pre-requisites	Completion of 96 credit points or more of study
Equivalents	UDB344
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Asset performance provides a good grounding in property and asset management, as it applies to the diverse real estate property sectors and to demonstrate how property asset performance can be maximised, measured and benchmarked. Efficient asset management can result in significant cost benefits to both the owner and the occupier of the property. There has been a growing property industry awareness of the need to develop reliable, accurate and professional property management systems and analysis tools to ensure that property occupation costs are minimised, and space allocations are maximised in accordance with the short, medium and long term business goals of the organisation or company.

[View unit details online](#) | [View unit timetable](#)

USB245 Property Investment Analysis

Pre-requisites	USB144 or USB242
Equivalents	UDB246
Credit Points	12
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

This unit aims to provide students with an understanding of the investment markets and the role of property as an investment asset class. The unit further develops the skills and techniques required for the analysis of property investment objectives, strategies, and performance. The students will explore the concepts of return and risk, the discounted cash flow (DCF) analysis, the basics of investment decision (NPV, IRR, Financial ratios), measurement of property investment performance, the impact of financing and taxation on investment returns, portfolio theory and the role of real estate in mixed asset portfolios. This unit will help students develop the understanding and skills necessary to become successful property investment analysts and/or investors.

[View unit details online](#) | [View unit timetable](#)

USB247 Money and Property

Pre-requisites	USB144 or USB242
Anti-requisites	USB341
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1

Money and Property aims at providing students with analytical tools and skills necessary for understanding property finance and investment whilst developing their understanding of the role of property assets within the capital markets. It is important to understand the role and nature of property finance as it affects all aspects of property ownership, management, use and development. Due to its distinct characteristics of each asset class, debt and equity financing plays a major role in investment decisions. As such, this unit seeks to provide an understanding and competency in property finance fundamentals.

[View unit details online](#) | [View unit timetable](#)

USB300 Property Development

Pre-requisites	192 Credit Points
Equivalents	UDB302
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

Property Development provides understanding of property development, which is fundamental to the practice of property professionals. This unit brings together concepts gained on strategic evaluation, risk, organisational structure, planning, construction and development feasibility analysis. This unit provides an in depth look at the multi-disciplined, multi-faceted process involved in property development from site selection through to disposal of completed projects.

[View unit details online](#) | [View unit timetable](#)

USB341 Money and Property

Pre-requisites	USB245 or UDB246
Equivalents	UDB341
Credit Points	12
Availabilities	Last run in 2019

Property is a major asset class of all available investment options. Due to its distinct characteristics, debt and equity financing plays a major role in investment decisions. As such, this unit further develops students' understanding of property investment and financing techniques and the place of property assets within the capital markets. This unit covers the financing of a range of asset types including residential, income producing, development and property funds.

[View unit details online](#) | [View unit timetable](#)

UXB110 Residential Construction

Equivalents	UDB110, DAB212
Credit Points	12
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

This unit develops your knowledge, skills and application for residential construction management. The unit introduces current domestic construction techniques and materials that are the core of any construction process. You are taught to read plans and build a house by studying construction theory and legislation, visiting building sites, sketching construction details and drawing simple plans. This first year unit complements UXB100 and prepares you for Integrated Construction Management and Commercial Construction Management.

[View unit details online](#) | [View unit timetable](#)

UXB134 Land Use Planning

Equivalents	UDB163
Credit Points	12
Availabilities	Gardens Point - SEM-2

This is a foundation unit that provides opportunities for acquiring, refining and applying knowledge of and skills in land use planning and geographic information system in an integrated way. The unit introduces spatial analysis techniques required to undertake contemporary real-world urban analyses required for land use planning. Gaining skills to confidently apply spatial analysis techniques in land use planning is critical for an urban planning practitioner whether working in public or private sector. The unit also helps in gaining knowledge and skills in analysing substantive theoretical and practical concepts involved in land use planning, evaluating data and applying regulatory frameworks to inform land use decision-making, communicating land use planning concepts both visually and in writing, and proposing solutions to complex land use problems.

UXB113 Measurement for Construction

Equivalents	UDB113
Credit Points	12
Availabilities	Gardens Point - SEM-2 External - XCH-1, XCH-2

This unit is predominantly concerned with the activities undertaken by construction cost management professionals in

Second Major: Urban Development

preparing Bills of Quantities (BQs) for construction work of a simple nature. It teaches you to how formally measure to BQ items for residential and small commercial building works in accordance with the Australian Standard Method of Measurement in the context of the tendering/procurement process. The unit also provides a basic appreciation of virtual building graphical models as they relate to integrated practice concepts used in industry, by way of the graphical representation and spatial relationships of digital building models, and an introduction to cost management/building area measurement. The unit is an integral part of the Quantity Surveying-Cost Engineering degree, in linking with foundation units in construction technology and preparing you for further advanced units in building and infrastructure measurement and construction estimating.

UXB114 Integrated Construction

Equivalents	UDB112
Credit Points	12
Availabilities	Gardens Point - SEM-2 External - XCH-1, XCH-2

This is a foundation unit integrating residential/ small commercial construction processes in a collaborative digital environment by utilizing building information modelling and related technology. The ability to use building information modelling and related technology in construction processes in a collaborative digital environment involving a project team from different disciplines is important to work in the industry. This unit prepares you for UXB211 Building Services and other units.

[View unit details online](#) | [View unit timetable](#)

UXB135 Negotiation and Conflict Resolution

Equivalents	UDB369, UXB232
Credit Points	12
Availabilities	Gardens Point - SEM-2

The development of conflict management and negotiation skills is essential for those tasked with shaping the built environment. In this unit, you will acquire skills in effective communication, analysis of disputes and creative problem-solving through active participation in role-playing and reflective activities and intense investigation of real world conflicts that arise through the development of land. Learning to think about and respond to conflict in a rational manner will prepare you for group work within your studies and into professional practice. This unit is placed within the first year of the urban and regional planning course to ensure that students build negotiation and conflict resolution skills in advance of engaging in work placements. Stakeholder Engagement and Planning Law units undertaken in the second year of the course build on this unit.

[View unit details online](#) | [View unit timetable](#)

UXB210 Commercial Construction

Pre-requisites	UXB110 or UDB110
Equivalents	UDB210, DAB311

Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

This is a fundamental construction management unit that provides you with extensive theoretical knowledge to understand concepts, principles, and construction techniques and procedures to commercial construction. It critically evaluate projects in terms of procurement, constructability, construction methodology, planning, scheduling techniques and site organisation. The ability to manage and supervise the construction process of a cross section construction types such as low rise residential apartment buildings and commercial and industrial buildings is an essential requirement for construction management professionals. The knowledge and skills developed in this unit are relevant to both construction management and quantity surveying and cost engineering and build upon earlier units in residential and integrated construction, building services, preparing you for further advanced units in design for structures and high-rise construction management.

[View unit details online](#) | [View unit timetable](#)

UXB213 Advanced Measurement for Construction

Pre-requisites	UXB113 or UDB113
Equivalents	UDB212
Credit Points	12
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

Measurement is a core skill and attribute among building and infrastructure professionals, particularly important in relation to the production of descriptive and quantified documents within the design cost management process for the purposes of tendering, estimating and construction cost management practices within the construction and infrastructure sectors. This unit develops a deeper appreciation of the measurement of more complex work sections and trades and the development and application of suitable and accurate construction cost management documents in a concise and systematic manner. More advanced strategies will be explored with virtual building graphical models as they relate to integrated practice concepts used in industry. This unit builds on the measurement attributes developed in the first year studies and prepares you for further advanced units in Services & Heavy Engineering Measurement, construction estimating and other Cost management areas.

[View unit details online](#) | [View unit timetable](#)

UXH311 Contract Administration

Pre-requisites	LWS012 or UDB102 or EN40MJR-CVCOENG or EN01SMJ-CONSTRU or EN01SMJ-STRUENG
Equivalents	UDB312
Credit Points	12
Availabilities	Gardens Point - SEM-1

Second Major: Urban Development

External

- XCH-1, XCH-2

This unit develops knowledge, skills and application in the administration of construction type contracts which represents one of the core applications for construction managers, quantity surveyors and cost engineers. To gain an appreciation of the commercial implications of contract administration you will study administrative implications for both parties to the contract. It links to the work previously undertaken in the earlier years of the course such as Introduction to Law and Commercial Construction and prepares you for the final semester projects.

[View unit details online](#) | [View unit timetable](#)

UXH315 Construction Estimating

Pre-requisites	UXB113 or UDB113
Anti-requisites	UDB213, UXB214
Credit Points	12
Availabilities	Gardens Point - SEM-2

An advanced construction management unit focusing on construction cost quantification techniques linking to previous years' basic work and understanding. It includes an introduction to the interrelationship between professions in estimating and the techniques available to quantify cost; definition of the fundamental elements of cost and the methods of evaluating labour, materials, and equipment; assessing base estimates for major trades; assessment of offers from sub-contractors and implications for the tendering process; first principles estimating; review of an estimate; subsequent negotiations and application of estimating to variations and profit monitoring; outcome performance indicators; and introduction to current industry practice, tools, and technology.

[View unit details online](#) | [View unit timetable](#)

UXH321 Cost Planning and Controls

Pre-requisites	UXB114 or UDB112
Equivalents	UDB316
Credit Points	12
Availabilities	Gardens Point - SEM-2

This unit applies the fundamental principles of cost management including design and construction cost planning (pre-construction) and project controls (during construction), including important techniques in managing project cost in the context of working closely in multidisciplinary teams. It covers cost management in both building and non-building sectors (for example, civil engineering and resource sectors).

[View unit details online](#) | [View unit timetable](#)

UXH411 Programming and Scheduling

Pre-requisites	(UXB210 or UDB211) and (UXB213 or UDB212) or Admission to EN55
Equivalents	UDB313
Credit Points	12
Availabilities	Gardens Point - SEM-1

This unit develops your knowledge, skills and resource planning techniques in the process of time management. Controlling time and resources is an essential task in construction project management. This unit provides students an understanding in time management and real world practical skill sets in preparing project programs. This unit occurs in the final year of your course as it consolidates skills you have developed in the area of construction and project management.

Unit Synopses

AMB031 Mandarin 1

Anti-requisites	HHB051 and HUB453
Equivalent s	AMX031, HHB031
Credit Points	12
Campus	Gardens Point
Availabilities	Gardens Point - SEM-1

In this introductory language unit designed for students with little or no prior knowledge of Mandarin, students will gain skills in listening, speaking, reading and writing Mandarin in an integrated communicative environment. From the foundations of the Mandarin sound and tonal systems and Pinyin (Romanized Chinese phonetic spelling system), students will be taught the skills in writing Chinese characters and in performing basic language functions such as greetings, introducing oneself and others, talking about one's family relations, and describing places, objects, and locations. Chinese word processing will be taught as well so that students can access and use online Chinese learning resources. By studying this unit, students will not only build a solid foundation in the use of Mandarin (i.e. Modern Standard Chinese), but also get exposed to certain aspects of Chinese culture. This unit leads on to further studies and is the beginning of developing competency in Mandarin.

AMB032 Mandarin 2

Pre-requisites	AMB031 or HHB031 or HUB453 or HHB051
----------------	--------------------------------------

Anti-requisites	HHB052, HUB454
Equivalent s	AMX032, HHB032
Credit Points	12
Campus	Gardens Point
Availabilities	Gardens Point - SEM-2

This subject continues to help students develop the four macro-skills of listening, speaking, reading and writing through an integrated communicative approach. While there is still further consolidation of the knowledge of the Chinese phonetic spelling system (i.e. Pinyin), greater attention is to be devoted to the speech of everyday conversations and to the the reading and writing of Chinese characters. With progressive acquisition of the Chinese language, students will receive further exposure to aspects and characteristics of Chinese culture.

AMB033 Mandarin 3

Pre-requisites	AMB032 or HHB032
Equivalent s	AMX033, HHB033
Credit Points	12
Campus	Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1 External - XCH-1, XCH-2

This 2nd-year Mandarin unit caters for students' needs to expand their working knowledge of Mandarin Chinese and to further develop their macro-skills of listening, speaking, reading and writing

after completing their first year elementary Mandarin units. This unit will provide learning activities to consolidate students' command of the Mandarin pronunciation and tones and Pinyin (Romanized Chinese phonetic spelling system) and to enhance their competence in speaking and understanding conversations and simple speech in everyday situations. At the same time more attention will be given to increasing students' ability to read and write texts in Chinese characters. With progressive acquisition of the Chinese language, students will be further exposed to aspects of Chinese culture.

AMB034 Mandarin 4

Pre-requisites	AMB033 or HHB033
Equivalent s	AMX034, HHB034
Credit Points	12
Campus	Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-2 External - XCH-1, XCH-2

This unit follows on from Mandarin 3. It will continue to meet student need to expand their knowledge of Mandarin Chinese and further their skills of listening, speaking, reading and writing in the language. It will continue engaging students in activities to strengthen their command of the Mandarin Pinyin/Romanization system and also in activities to increase their competence in reading and writing Chinese

Units

characters as well as in speaking and understanding conversations and simple speech in everyday situations. With acquisition of the Chinese language, students will be further exposed to aspects of Chinese culture.

AMB035 Mandarin 5

Pre-requisites	AMB034 or HHB034

AMB044 In-Country Study - B

Pre-requisites	AMB043
Equivalent s	AMX043, HHB059
Credit Points	48
Campus	EXCHANGE
Availabiliti es	XCH - XCH-2

This unit outline is subject to change up until two weeks prior to the first day of class. For this reason students should not purchase textbooks or undertake assessments based upon this document until two weeks prior to the semester or until you have confirmed the details with the unit coordinator. This is also a 48-cp in-country study unit. It continues on from the first semester HHB058 in-country unit. The venue for the unit is Qingdao University in Shandong Province of the PRC. Students enrol in the in-country unit at QUT, paying the usual fees as required for QUT-based units (this unit is HECSed); in-country tuition fees are paid by QUT. Return airfares and living costs are to be met by students. Students who are eligible for Youth Allowance or AUSTUDY in Australia can still have that entitlement in China. Details of in-country accommodation and living costs are available from the unit coordinator. This unit continues to help students

develop the four macro-skills of listening, speaking, reading and writing through an integrated communicative approach. While the primary purpose of the subject is language acquisition, total immersion in the language-speaking environment provides a valuable insight into Chinese culture. Communicative competence to an intermediate level of language proficiency is acquired th

AMB045 Chinese - English Translation for Business Communication

Credit Points	12
Campus	Gardens Point and Online
Availabiliti es	Gardens Point - SEM-1 Online - SEM-1

This language unit is suitable for students with native or near-native competencies in both Chinese and English and who have an interest or need to work with business-related documents and high-level written communications in both languages. The unit teaches basic translation theories and helps students to develop their skills through a large amount of varied translation practice using real world materials including general business correspondence and sample texts in areas of advertising and marketing. In addition to the translation practice, students are introduced to business Chinese and English, which will help them to improve their skills in writing business documents. The knowledge and skills gained through this

Units

unit will provide a competitive edge for students who aspire to work in international business and trade companies requiring people with skills in translating business documents between Chinese and English.

Admission may require an interview.

AMB046 Chinese - English Translation on Business Topics

Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Business communication between the English-speaking world and China has been increasing rapidly and on an extensive scale. Success of many business deals and transactions depends on truthful and effective translation of business documents between the two languages. This unit is suitable for students with native or near native competencies in both Chinese and English, and who have an interest or need to work with business-related documents and high-level written communications in both languages. The unit teaches and expands students' strategies and skills in conducting translation tasks in business and, in particular, in the areas of accounting, banking, business contracts and international business through a large amount of varied translation practice using real world materials. In addition to the translation practice, students learn

business Chinese and English language features, which helps them to improve their skills in writing business documents.

AMB047 Chinese - English Liaison Interpreting

Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This language unit is designed for native or near-native Chinese speakers from any discipline with an interest in developing Chinese–English interpreting skills. The unit teaches basic interpreting knowledge and strategies, and helps students develop aural, note-taking and oral skills in dialogue interpreting, sight interpreting, and consecutive interpreting through a large amount of varied interpreting practice in authentic situations such as reception services, tours and visits, catering culture, exhibitions and fairs, business negotiations, overseas visits, interviews, sports and health services. The knowledge and skills the students acquire in this unit will position them to act as a communicative bridge, interpreting communications between the company or institution on one side and its Chinese or English-speaking clients on the other. Admission may require an interview.

AMB048 Chinese - English Speech Interpreting

Credit Points	12
---------------	----

Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Contact and communication between the English-speaking world and China have been increasing rapidly and on an extensive scale. Successful communication between language speakers of Chinese and English depends greatly on truthful and effective interpreting of conversations and speeches from one language to the other. It is designed for students who are interested to interpret formal and ceremonial speeches in situations where they may find themselves in their future work places.

AMB049 Advanced Chinese - English Translation on Business Topics 1

Pre-requisites	AMB045 and AMB046
Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-1 Online - SEM-1

This advanced unit builds on skills and knowledge of translation theories gained in AMB045 and AMB046 and is for students who have a strong interest in further developing their ability to comprehend and translate more complex texts related to personal finance management and other work situations. A wide range of authentic materials will be used in the translation practice, covering such topics as business news, taxation,

equity/stock market, foreign currency exchanges, personal insurance and social securities (related mainly to Australian and Chinese contexts). Skills developed in this unit will enhance students' competitiveness for working in government and financial services sectors. And they will be able to develop their understanding of cross-cultural differences in the topics areas covered in addition to gaining practical insight into the different business cultures in the use of the two languages.

AMB050 Advanced Chinese - English Translation on Business Topics 2

Pre-requisites	AMB045 and AMB046
Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-2 Online - SEM-2

This advanced unit complements AMB049. By consolidating and extending students' knowledge gained in AMB045 and AMB046, it helps students further develop their translation skills for business situations in which bilingual use of Mandarin Chinese and English is required. Students will apply learned skills to a wide range of authentic materials covering topics such as property economics, loans and mortgages, superannuation and pensions, asset allocation, estate planning (related mainly to Australian and Chinese contexts) and idioms used in

business texts. Students in the unit will develop a high level of cross-cultural awareness – essential for performing professional translation tasks in government and companies providing financial services to the general public.

AMB120 Bridging Cultures

Pre-requisites	Completion of 96 credit points or more of study
Anti-requisites	AMB390
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Understand the skills, behaviours and attitudes required to work effectively with people from different cultural backgrounds, and develop practical strategies to interpret difference and respond appropriately in culturally diverse situations. Our increasingly globalised workplaces need graduates with awareness, understanding, sensitivity to, and an ability to deal with cultural diversity. The knowledge and skills developed in this unit are particularly valuable for a range of international exchange students: those planning an outbound program and those already inbound, for shorter programs or full degrees at QUT. Students with an interest in intercultural communication and those who are learning or have learned a second

language will also benefit from this unit.

AMB200 Consumer Behaviour

Pre-requisites	24 Credit Points of Study
Anti-requisites	MIB204
Equivalent s	AMX200, CTB200
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2, SUM Online - SEM-1, SEM-2, SUM External - XCH-1, XCH-2

A fundamental component of effective and successful marketing activity is an understanding of consumers, their needs and behaviours. Studying the behaviour of consumers in a wide range of situations and circumstances provides marketers with clear guidelines for the development of marketing strategy. This unit provides the foundation theories for the marketing major.

AMB201 Marketing and Audience Analytics

Pre-requisites	48 credit points of completed studies
Anti-requisites	MGB220
Equivalent s	AMX201
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2, SUM, SUM-2 Online - SEM-1, SEM-2, SUM External

Units

- XCH-1, XCH-2

The systematic and objective identification, collection, analysis, and dissemination of information is essential for any business to make informed decisions about how to address problems and opportunities in their markets. All business leaders must understand the challenges, opportunities and limitations of the marketing research process; questions that marketing research can answer and questions it can't, and be able to draw appropriate conclusions from different types of data that may be collected during marketing research. This subject builds on basic marketing knowledge and students are involved in, and guided through, a practical, applied marketing research exercise based on a research brief chosen at the start of each semester. This provides the foundations for interpreting case studies, theories and research information presented in more advanced subjects.

AMB202 Integrated Marketing Communication

Pre-requisites	84 Credit Points of Study
Anti-requisites	COB207, MIB309
Equivalent s	AMX202
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External

- XCH-1, XCH-2

This unit gives learners an insight into an important growth area in marketing communication and a new employment field for graduates. In these uncertain times, and while communication is changing, the subject traces the development of IMC, while introducing the important areas of databases, communication, strategy and branding. It provides a theoretical framework, and relates it to traditional promotional concepts and marketing strategy. It is at an important point of the course, as well as the changing world that is in a state of flux, and it links beginner management and communication concepts with strategy.

AMB204 Purchasing and Procurement

Pre-requisites	BSB119 or CTB119
Anti-requisites	IBB312
Equivalent s	AMX204
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

All organisations require supplies and depend on a reliable and quality source of their supplies whether they are raw materials, components, spare parts, consumables or

services. The management of these supplies is a complex logistics process and is often of strategic importance both in global and domestic markets. This unit is provided to examine the role of procurement and purchasing in this process.

AMB206 Social Marketing

Pre-requisites	BSB126, CTB126, PUB104, BSB116, XNB151 or BSB117
Equivalent s	AMX206
Credit Points	12
Campus	EXCHANGE, Gardens Point, Online and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Social Marketing seeks to develop and integrate marketing concepts with other approaches to influence behaviours that benefit individuals and communities for the greater social good. It is increasingly being adopted by governments and stakeholders around the world as they seek effective solutions to solving social problems relating to health, well-being, environment, and inequality. This unit introduces students to the principles, concepts, theory and application of social marketing, explaining how strategic, critical, and systems thinking, use of theory and research insight, and use of techniques such as segmentation, designing and planning, and the social marketing intervention mix can be used to tackle health and

Units

social issues. Students will learn to analyse real world behavioural and social problems and develop innovative and creative solutions using social marketing frameworks. This is an elective unit for business and public health students.

AMB207 Entertainment Marketing

Pre-requisites	BSB126 or CTB126
Equivalent s	AMX207
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabiliti es	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

As one of the largest industries in the world, and having been hit dramatically by COVID-19, the entertainment industry offers significant opportunities along with unique challenges for the application of marketing and communication tools. The unit is designed to be part of the Tourism and Entertainment Marketing minor or to be taken as an elective by students with a particular interest in the area of entertainment marketing.

AMB209 Tourism Marketing

Pre-requisites	BSB126 or CTB126
Equivalent s	AMB351, AMX209
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabiliti	Gardens Point

es	- SEM-2 Online - SEM-2 External - XCH-1, XCH-2
----	--

The success of individual tourism businesses is reliant to some extent on the competitiveness of their destination. This unit explores how a destination marketing organisation (DMO) is formed when a community recognises the need to become organised in destination promotions. Examine opportunities for the DMO and tourism stakeholders to collaborate in the design of a destination marketing strategy. Learning resources and assessments explore how marketing theories can be applied to tourism marketing practice.

AMB210 Importing and Exporting

Pre-requisites	BSB108 or BSB119
Equivalent s	AMX210, IBB210
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabiliti es	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Trade in services, importing and exporting, countertrade and e-commerce has become fundamental to the survival and growth of many businesses in Australia as well as in other economies. International business students need a good knowledge and understanding of the many challenges

entailed in international trade transactions. The management of trade strategies and practices is an applied, technical and evolving area of international business operations that reflects the dynamic nature of trans-national trade in the global economy.

AMB211 Brand Management

Pre-requisites	BSB126
Equivalent s	AMX211
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabiliti es	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

The study and understanding of fundamental brand management concepts is relevant to students pursuing a variety of career outcomes (marketing, advertising, public relations, consulting, entrepreneurship, etc.) because brands are some of a firm's most valuable assets. Brands are an investment and an asset and help firms attract and, more importantly, keep customers.

AMB220 Advertising Works

Pre-requisites	BSB126 or BSB106
Anti-requisites	COB308
Equivalent s	AMX220
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External

Units

Availabilities	Gardens Point
	- SEM-1, SEM-2
	Online
	- SEM-1, SEM-2
	External
	- XCH-1, XCH-2

This unit serves as the introduction and prerequisite to later units in the advertising course and as a useful elective for business and communication students taking other courses. The unit provides you with a thorough knowledge of advertising principles and a practical understanding of the techniques and practices used by today's advertising agencies and clients, including strategy development, media planning, creative development, integration of other communications and analysing an advertising campaign.

AMB240 Marketing Planning and Management

Pre-requisites	24 Credit Points of Study
Equivalent s	AMX240, CTB240
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

AMB240 Marketing Planning and Management introduces students to marketing, and provides a focus on the implementation and evaluation of the marketing plan at a small business level. Emphasis is placed on the responsibilities within a marketing team for

planning, developing, organising, implementing, controlling, and evaluating marketing activities. The unit prepares students for other marketing units including market research and strategic marketing. The learning approach is innovative and uses role-play where students take the role of a marketing team member in a virtual simulated marketplace.

AMB251 Designing Innovative Goods and Services

Pre-requisites	48 credit points of completed studies
Anti-requisites	MIB227
Equivalent s	AMX251
Credit Points	12
Campus	Gardens Point, Online and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1

The need for innovative design of goods and services that create customer value and deliver exceptional customer experience are central to the growth and marketing success of every organisation. Therefore an understanding of how to create new goods and services that are market-oriented is vital for students seeking a career in marketing. This unit is an elective in the marketing major however there is no assumed knowledge in marketing so students in other disciplines are welcome.

AMB255 Avoiding the Dark Side: Marketing, Ethics and Society

Pre-requisites	48 credit points of completed studies
Credit Points	12
Campus	Online and Gardens Point
Availabilities	Gardens Point - SEM-2 Online - SEM-2

Avoiding the Dark Side: Marketing, Ethics and Society seeks to equip students with a strong understanding of the principles and practical tools necessary to understand the impact of marketing decisions and strategies on consumers, the natural environment and society with a view to avoiding the 'dark side' of marketing. A marketer's individual values and perspectives influence the approach to ethics in the design and delivery of marketing, and hence form part of the foundation of this unit. Students will discover their personal ethical approach as well as learn ethical principles, concepts, and theories, and how to apply these to a professional marketing context. Students will analyse real world ethical dilemmas and develop innovative and creative solutions to creating a better society, one step at a time. This is an elective unit.

AMB263 Introduction to Public Relations

Equivalent s	AMB260, AMX263
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point

Units

es	- SEM-1, SEM-2
	Online
	- SEM-1, SEM-2
	External
	- XCH-1, XCH-2

AMB263 Introduction to Public Relations answers three important questions: what is public relations, why we do it, and how we do it? It introduces the key concepts of public relations, and lays a foundation for subsequent study in the discipline. It integrates the idea of the role and influence of publics and the role of public relations in managing these demands on a range of organisations. The unit also shows students the range of potential careers available in the public relations industry. If you are undertaking a public relations major, AMB263 Introduction to Public Relations should be the first public relations unit you study. This unit may be taken concurrently with *AMB264 Media Relations and Publicity* especially by students undertaking the public relations major. It may also be taken by those students undertaking a public relations 'minor', or as a standalone unit.

AMB264 Media Relations and Publicity

Equivalent s	AMX264
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

AMB264 Media Relations and Publicity introduces you to the

tools and techniques you will need to maximise the chances of getting positive organisational stories in the media (legacy and social). AMB264 Media Relations and Publicity looks at how to develop effective key messages that you can use in creating powerful organisational stories; and how to use different media – including online channels – to convey them to audiences to achieve impact for organisations. There is an emphasis on understanding what makes news, and developing the skills needed to work successfully with the media.

AMB303 International Logistics

Pre-requisites	(AMB110 or AMB210) and 96 credit points of completed studies.
Equivalent s	AMX303
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Current and future managers in businesses need to comprehend the role which logistics and supply chain management play in enhancing corporate performance.

AMB305 Analysis for Consumer Insights

Pre-requisites	AMB200 and AMB201
Credit Points	12

Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-1 Online - SEM-1

The ability to prepare, analyse and interpret data to make informed business decisions are essential skills in any market driven organisation. The unit builds on the fundamental theoretical, technical and methodological concepts encountered in earlier introductory units like AMB200 and AMB201. This unit will enable students to use industry-relevant software packages and appropriate technical and analytical skills to draw meaningful inferences and to formulate evidence-based decisions and recommendations.

AMB306 Advanced Consumer Research

Pre-requisites	AMB200 and AMB201
Credit Points	12
Campus	null

In our information-driven society, consumers and organisations are increasingly using research to guide their decisions. Consequently, the ability to critically evaluate research evidence and research designs are essential business skills. The unit builds on fundamental theoretical and methodological concepts from earlier marketing units (e.g., AMB200, AMB201) to teach students how to critically evaluate research and develop effective and rigorous research proposals.

AMB318 Create Advertising

Pre-requisites	AMB220 or COB308
Equivalent s	AMB221, AMX318
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Advertising copywriting is an important addition to the knowledge base of all marketing communication students. It equips you with the skills to develop creative strategy and write well-grounded and well-crafted copy. For those students not interested in pursuing a career in copywriting, this unit is also vital because it provides the benchmarks to assess creative work and lend support to great creative ideas.

AMB319 Consumers and Media Channels

Pre-requisites	AMB220
Equivalent s	AMB222, AMX319
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

This unit introduces you to the strategic use of paid, owned and earned media to effectively reach consumers using media channels within an advertising

campaign. You will develop skills to analyse data to research consumer attitudes and behaviours and develop creative consumer insights. Based on these insights you will work together in a team to develop a media strategy. This unit works closely with media industry professionals and is accredited by the Media Federation of Australia. Completing this unit will be beneficial to students who would like to pursue careers in advertising, digital or media agencies or media sales.

AMB320 Advertising Management

Pre-requisites	AMB220
Equivalent s	AMX320
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

Advertising Management is designed to shift student thinking from a tactical to a strategic level. Instead of taking the approach of, 'This is what happens in advertising', it challenges students by raising important contemporary issues in advertising management and planning practice and asking, 'What should be done?'. It encourages students to understand and take ownership of the advertising management and planning process.

AMB330 Digital Optimisation

Pre-requisites	144 credit points of completed studies.
Equivalent s	AMX330
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

Digital has changed the nature of marketing communication as a discipline and the way we think, communicate and purchase as consumers. This unit is important as the digital environment permeates our decision making as advertising and marketing communication professionals. Hence, an understanding of how to optimise the digital environment, an ability to navigate its platforms and measure its performance is a critical vocational skill. This unit provides a real work integrated learning opportunity for students.

AMB331 Direct Marketing

Pre-requisites	AMB202, AMB220, AMB240, CTB240, or AMB249
Anti-requisites	COB315
Equivalent s	AMX331
Credit Points	12
Campus	External
Availabilities	External - XCH-1

Direct Marketing is a powerful tool that should be considered as part of an organisation's marketing strategy. In just over a century, it has grown beyond

Units

its traditional mail order foundations to embrace new technologies, relationship building techniques, and performance measures. One of the foundational marketing communication disciplines, this unit is a vital addition to the fundamentals of IMC or a contemporary and dynamic elective for the advertising, marketing or PR majors.

AMB336 International Marketing

Pre-requisites	96 credit points of completed studies
Equivalent s	AMX336
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2, SUM, SUM-2 Online - SEM-1, SEM-2, SUM External - XCH-1, XCH-2

Globalisation has required firms to look beyond their domestic markets to remain competitive and profitable. An understanding of marketing internationally is vital in today's global marketplace where different challenges and value systems exist.

AMB339 Advertising Campaigns

Pre-requisites	AMB320, AMB330 and a further 48 credit points of units in the Advertising Major.
Equivalent s	AMB321, AMX339
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point

es	- SEM-2 Online - SEM-2 External - XCH-1, XCH-2
----	--

The nature of advertising campaigns enables you to refine and enhance your understanding of the advertising process and to demonstrate your abilities to produce a strategic and synergistic advertising campaign. This involves client contact, team work and competitive industry pitches. It creates opportunities for client and agency contracts and portfolio development. As a capstone unit, advertising campaigns brings together everything learned in the advertising major in the ultimate rehearsal for the real agency environment.

AMB340 Services Marketing

Pre-requisites	AMB240 or CTB240, and AMB201 or CTB201
Anti-requisites	MIB311
Equivalent s	AMX340, CTB340
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

This unit uses the core characteristics of service experiences as the framework to guide an exploration of strategies for the marketing of services domestically and internationally. Services marketing is an important

growth area and students need to understand the unique aspects of the decision process for services and the appropriate application of services marketing principles to both the traditional elements of the marketing mix and the additional elements of the physical setting and processes of service delivery. This will be achieved by examining the application of marketing concepts, models and tools in services using case studies and practical experiences. Customer service planning and management, service quality management, and the pervading influence of relationship marketing are other critical topics which differentiate this unit within the marketing program.

AMB359 Strategic Marketing

Pre-requisites	AMB340, and AMB335 or AMB241 or AMB330
Equivalent s	AMB341, AMX359
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

This advanced level marketing unit is designed to consolidate prior knowledge and skills learned in other marketing units including Consumer Behaviour, Market and Audience Research and Marketing Planning and Management. Using real world examples, this unit investigates the key challenges for

managers in this ever challenging business environment. Developing a proactive strategic marketing management approach is important to ensure learners will be agile thinkers and strategic decision-makers in a changing marketplace and can apply these skills to successfully manage complex market conditions.

AMB369 International Business Strategy

Pre-requisites	AMB336, AMB303, IBB303, or IBB213
Equivalent s	AMX369, IBB300
Credit Points	12
Campus	EXCHANGE, Gardens Point, Online and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Business success internationally and domestically requires the implementation of strategies and policies that are relevant to the dynamic global environment. Via a student focused learning approach, and via understanding of theory, in-depth case analysis, and the formulation of an international strategic plan students will be able to develop a skill set of strategic capabilities to manage in a globalised environment.

AMB372 Public Relations Planning

Pre-requisites	AMB263 AND AMB264
Equivalent s	AMX372
Credit	12

Points	
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - XCH-1, XCH-2

AMB372 Public Relations Planning builds on the knowledge and skills developed in previous units in the public relations major, specifically AMB263 Introduction to Public Relations and AMB264 Public Relations Techniques. This unit introduces and examines the steps in the public relations planning process, which is central to the study and practice of public relations and links to the next sequence in the public relations major.

AMB373 Issues, Stakeholders and Reputation

Pre-requisites	96 credit points must be completed prior to enrolling in this unit
Equivalent s	AMX373
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

Issues, Stakeholders and Reputation (AMB373) focuses on public relations practice in an organisational setting. A key responsibility of this role is to anticipate and respond to issues that influence stakeholder relationships and

organisational reputations. AMB373 provides foundational skills and knowledge of the issues management process, including monitoring and tracking public opinion, analysis and developing appropriate organisational responses.

AMB374 Global Public Relations Cases

Pre-requisites	(AMB163 or AMB263) and (AMB164 or AMB264)
Equivalent s	AMX374
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - XCH-1, XCH-2

In today's dynamic and interconnected environment, organisations are increasingly challenged when making effective and well-considered decisions. The communication of these decisions and the way organisations react to events have far-reaching consequences. It is imperative that public relations professionals can identify context and make informed, criteria-based decisions. This unit strengthens students' critical thinking and evaluation skills in public relations through case-based learning across a range of practice areas, builds skills in decision-making to resolve global public relations problems, and develops collaborative skills through teamwork activities designed to encourage alternative

solutions. Students will extend their working knowledge of how public relations practice areas and the global nature of contemporary organisational communications drive organisational decision making. The skills focus of this unit prepares students well for the capstone unit.

AMB375 Internal Communication and Change

Pre-requisites	72 credit points of completed study
Equivalent s	AMX375
Credit Points	12
Campus	EXCHANGE, Gardens Point, Online and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - XCH-1, XCH-2

Communication is central to organisational practice. Internal Communication and Change will provide theoretical and practical insights to equip students to identify, analyse, and respond to communication challenges in contemporary organisations.

AMB379 Public Relations Campaigns

Pre-requisites	144 credit points of undergraduate study plus 48 credit points of the undergraduate Public Relations Major, must be completed prior to enrolling in this unit
Equivalent s	AMB361, AMX379
Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-2 Online

- SEM-2

As a capstone unit, Public Relations Campaigns integrates material from across the public relations major. Public Relations Campaigns provides students with the opportunity to synthesise and apply knowledge, while developing and refining skills in professional public relations practice. Public Relations Campaigns models and prepares students for the transition to professional practice, working with a real world organisation as a client and learning in both collaborative and independent settings.

AMB390 Bridging Cultures - International

Anti-requisites	AMB120
Other requisites	To enrol students must have completed 144cp (or equivalent to three semesters full-time study), have a course GPA of 4.5, which must include a minimum of 48cp of study in BS08
Assumed Knowledge	null
Credit Points	12
Campus	Gardens Point and Online
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

Understand the skills, behaviours and attitudes required to work effectively with people from different cultural backgrounds, and develop practical strategies to interpret difference and respond appropriately in culturally diverse situations. Our increasingly globalised

workplaces need graduates with awareness, understanding, sensitivity to, and an ability to deal with cultural diversity. The knowledge and skills developed in this unit are particularly valuable for a range of international exchange students: those planning an outbound program and those already inbound, for shorter programs or full degrees at QUT. Students with an interest in intercultural communication and those who are learning or have learned a second language will also benefit from this unit. This unit is specifically designed for students enrolled in BS08 Bachelor of Business - International.

AMN400 Consumer Insights for Marketing Success

Anti-requisites	MIN419
Equivalent s	AMX400
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

As marketers work to develop more effective strategies to attract, reach and maintain their customers, the need to understand how consumers are influenced by both internal and external factors is integral to strategy formulation. The managerial importance of consumer behaviour stems from the marketing concept, so as consumers and their needs

Units

become the focus of the business; consumer behaviour forms the cornerstone of marketing strategy.

AMN401 Integrated Marketing Communication

Anti-requisites	CON421
Equivalent s	AMX401
Credit Points	12
Campus	Gardens Point, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2

This unit represents a new way of thinking about IMC. Driven by the idea that everything is digital, this unit enhances traditional concepts of integration and synergy with new touchpoints of communication and new tools of measurement to deliver and optimise the ultimate customer experience.

AMN403 Developing Market Intelligence Skills for Decision Making

Anti-requisites	MIN413
Equivalent s	AMX403
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

Examine how market research is used to enhance

management decision making. The key to an organisation achieving business goals necessitates being more effective than competitors in creating, communicating and delivering value to customers. This means market decisions must be made with stakeholders in mind. Therefore managers are reliant on information about customers, non-customers, competitors and the operating environment. Learn how to develop a research design that would enable data collection and analysis to address real world management decision problems.

AMN405 Decisions and Issues in Integrated Marketing Communication

Pre-requisites	AMN401 or AMN420
Equivalent s	AMX405
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - SEM-2, XCH-1, XCH-2

The purpose of this unit is to develop a framework to understand and evaluate advertising and IMC theory, as it guides business decisions and impacts upon key issues in society. In doing so, this unit makes an important contribution to postgraduate studies by evaluating advertising and IMC in action, and exploring the ethical and legal considerations of

message and media from a personal, corporate and professional perspective.

AMN406 Project

Pre-requisites	Completion of 96cp of previous study of Business postgraduate units
Anti-requisites	CON405
Equivalent s	AMX406
Credit Points	24
Campus	Gardens Point and External
Availabilities	Gardens Point - SUM-2 External - SUM-2

This is a Work Integrated Learning unit with students focusing on the research and analysis of real world problems and issues and the development of business solutions in collaboration with selected industry partners. Working independently and in teams students will critically examine contemporary issues relevant to their discipline specialisation and will use and extend their discipline knowledge and skills through exposure to industry partners, practices and pressures. In addition to research, project planning and problem solving skills students will develop and practice key professional skills including reflective practice, collaboration and networking with peers and industry mentors.

AMN411 Independent Study

Other requisites	Subject to Unit Coordinator Approval
Assumed Knowledge	null
Credit Points	12

Units

Campus	Gardens Point
Availabilities	Gardens Point - SEM-1

Note: Students must have the prior consent of the Postgraduate Coordinator in the School of Advertising, Marketing and Public Relations before enrolling in this unit

AMN420 Manage Advertising

Anti-requisites	CON417
Equivalent s	AMX420
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

This unit is an important introduction to the management of successful advertising campaigns. Unless the advertising is based on research, well planned and has a strong strategic focus, the campaign will not be successful - regardless of how good the creative is or how effective the media is planned. Therefore, advertising management is the keystone of successful advertising. This makes this unit of vital importance to all who study advertising or marketing communication.

AMN423 Strategies for Creative Advertising

Anti-requisites	CON419
Equivalent s	AMX423
Credit Points	12
Campus	Gardens Point, Online and External

Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - SEM-2
----------------	---

This unit explores theory and practice of advertising message planning and creation for print, broadcast and digital media. Insight and strategy underpin creative and provides direction for ideation and the benchmark for evaluation. Therefore, an examination of insight, strategy, ideation and execution is essential to effective and creative advertising.

AMN425 Digital Strategy and Analytics

Pre-requisites	24 credit points of completed Postgraduate study
Equivalent s	AMX425
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

This course spans all the marketing communication disciplines and the practice of advertising, public relations and marketing to deliver a holistic approach to digital strategy. It introduces students to new digital skills that reflect the cutting edge of industry practice and important analytic understanding for decision-making. This unit satisfies the growing demand from industry for strategic thinking and

planning, and the expectation of strong digital skills and a desire for innovation.

AMN426 Content Creation and Management

Pre-requisites	24 credit points of completed Postgraduate study
Credit Points	12
Campus	Gardens Point, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - SEM-1

Content creation is an essential part of advertising, marketing and any communication strategy. Creating new, valuable, up-to-date content increases organic search traffic and improves brand positioning in search engine results. Further, high-quality content establishes the authority of a brand, builds relationships with consumers and ignites social sharing. Therefore, being able to produce content that is strategic, relevant and engaging is an important and employable skill in agencies and in organisations. This unit introduces students to principles and skills for creating content and managing online communities, and deepens students' understanding of data-informed decision making.

AMN430 International Logistics Management

Equivalent s	AMX430, IBN410
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and

Units

	External
Availability	Gardens Point - SEM-2
	Online - SEM-2
	External - XCH-1, XCH-2

This unit provides an introduction to the logistics functions that allow the planning, procurement, production, movement, distribution and positioning of goods and services for international business. The focus on supply chain management emphasises the requirement of integration of international business activities, and the necessary collaboration between firms to manage not simply the movement and positioning of inventory, but also the management of information, finance, data and knowledge across borders.

AMN431 Marketing Internationally

Anti-requisites	MIN421
Equivalent	AMX431, IBN421
Credit Points	12
Campus	Gardens Point, EXCHANGE, Online and External
Availability	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

International markets are becoming increasingly competitive as globalisation, technology changes and distribution changes influence the flows of goods and services. Recognising this

criticality, this advanced unit builds on strategic knowledge and skills developed in earlier units, extending students' ability to apply business and marketing principles, theories and frameworks to key issues in the contemporary international landscape. This unit gives students essential knowledge and skills to understand and strategically respond to the challenges and opportunities of international marketing. Students will evaluate and formulate international marketing strategies, develop and practice their critical thinking, data analysis, and decision making skills, and craft and defend their judgements to make effective contributions to marketing strategy informed by environmental, cultural and ethical understanding.

AMN436 Developing Cultural Intelligence

Credit Points	12
Campus	Online and Gardens Point
Availability	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2

In a globalised world, workplaces are increasingly filled with a diverse range of people from different nationalities, ethnicities, and cultural backgrounds. Diverse perspectives create more effective outcomes, yet can also cause misunderstanding, frustration, poor team performance, unintentional offense and lack of trust. This unit introduces Cultural Intelligence (CQ) – the ability to

adapt, relate and work effectively with teams across cultures. In this unit students will develop an understanding of the key aspects of CQ by engaging with theoretical frameworks for interpreting differences in cultural behaviour in conjunction with developing skills which can help in responding appropriately and effectively to culturally diverse situations. This unit will be of value to students seeking global careers and those currently working in multicultural team environments.

AMN443 Innovating Products and Customer Experiences

Anti-requisites	MIN423
Equivalent	AMX443
Credit Points	12
Campus	EXCHANGE, Gardens Point, Online and External
Availability	Gardens Point - SEM-1 Online - SEM-1 External - SEM-1, XCH-1, XCH-2

The need for innovation in products and services to compete effectively in a global economy is a core driver of organisational strategy. Digital innovation alone can deliver \$315 billion in gross economic value to Australia over the next decade (Data61 2018). This unit combines both the theory and practice of innovation and uses a service design process to show students how to develop new products.

AMN444 Achieving Service Excellence

Pre-requisites	24 credit points of completed Postgraduate study
Anti-requisites	MIN424
Equivalent s	AMX444
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - SEM-2, XCH-1, XCH-2

The service sector is a large and growing feature of the Australian economy. In addition, most manufacturing businesses encompass extensive service functions as well as production operations. Consequently, it is important for managers in all sectors to understand the problems and challenges inherent in designing and delivering high quality services for their customers and business partners. In this unit, students will be encouraged to explore and reflect on real world services marketing through examples, case studies and tutorial discussions that draw on relevant academic theory.

AMN445 Meaningful Marketing: Value Creation and Customer Engagement

Anti-requisites	AMN442 AND AMX442 AND MIN425
Equivalent s	AMX445
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2

Online
- SEM-1, SEM-2
External
- SEM-1, SEM-2, XCH-1, XCH-2

This unit provides an introduction to basic concepts, principles and activities of customer-driven marketing at post-graduate level. Some of the principal topics include value-based marketing, strategic marketing planning, consumer behaviour, segmenting and targeting markets, and marketing mix decisions. The overall objective of this unit is to provide each student with a working knowledge of the marketing function, its strategic importance for value creation, its relationship to other internal and external functions, its role in business plans, and its execution.

AMN446 Brand Analytics

Credit Points	12
Campus	Gardens Point, Online and External
Availabilities	Gardens Point - SEM-1 Online - SEM-1 External - SEM-1

Brands are critical assets to firms due to their ability to establish and sustain relationships with their consumers. Consequently, understanding the effects brands have on consumers is critical to future brand managers, market analysts and entrepreneurs across virtually all industries and types of organisations. This unit introduces students to the

practical analytic skills needed to engage in consumer-focused brand management.

AMN447 Contemporary Issues in Marketing

Anti-requisites	MIN407
Equivalent s	AMX447
Credit Points	12
Campus	null

This unit focuses on how contemporary issues in society shape and are shaped by marketing. These may include: marketing, globalisation and demographics; marketing, health and social issues, marketing technological issues, and marketing and ethics. Students will learn to understand and analyse real world contemporary issues and how these relate to marketing, and how marketing can respond. In Semester 2 2020 the unit will focus on the use of Strategic Social Marketing to tackle the COVID-19 pandemic - one of the biggest contemporary issues in society in recent times. Strategic Social Marketing involves the use of marketing principles, concepts and techniques to influence behaviour and social change that benefit individuals and communities for the greater social good. It is increasingly being adopted by governments and stakeholders around the world as they seek effective solutions to solving social problems relating to health, well-being, environment, and inequality.

AMN449 How to Strategically Market a Revolution

Anti-requisites	AMN447
Credit Points	12
Campus	Online and Gardens Point
Availabilities	Gardens Point - SEM-2 Online - SEM-2

In this unit, you will learn how marketing can be used strategically to bring about revolutionary social change to tackle social problems such as climate change, racism, obesity, and gender inequality. The unit focuses on social marketing - a strategic approach utilising marketing concepts alongside approaches to influence behaviours, practices and social outcomes that benefit individuals and communities for the greater social good. The unit advances the principles, concepts, theory and application of social marketing, explaining how strategic, critical, and systems thinking, the use of theory and research insight, the application of segmentation, designing and planning, and the social marketing intervention mix can be used to create value and help solve social problems, bringing about revolution to change the world. You will explore and critically analyse real world social problems and develop innovative and creative solutions using social marketing frameworks.

AMN461 Organisational Storytelling and Media Relations

Anti-requisites	CON424
Equivalent s	AMX461
Credit Points	12
Campus	Online, Gardens Point, EXCHANGE and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2, XCH-1, XCH-2

This unit looks at how organisations use storytelling in owned, shared, and earned media. You will learn how traditional and social media play an important role in responding to, and influencing, public opinion surrounding organisations, their issues, and reputations. You will develop a storytelling-based media strategy and portfolio of material to respond to the needs of a real-world organisation. There is a strong focus on media writing.

AMN462 Community Engagement

Pre-requisites	24 credit points of completed Postgraduate study
Equivalent s	AMX462
Credit Points	12
Campus	Online, Gardens Point and External
Availabilities	Gardens Point - SEM-2 Online - SEM-2 External - SEM-2

Community Engagement (AMN462) introduces students

to communication engagement, a key practice area of public relations. AMN462 investigates the theoretical foundations of contemporary strategies to inform research, planning, and implementation. Stakeholders (i.e., organisations, local community and government) have their own agendas and expectations of the processes and outcomes of these strategies. Effective engagement practitioners identify these expectations and facilitate communication, interaction, participation and dialogue to address questions of authenticity and voice. In this unit, students will develop the skills and knowledge needed to help organisations identify community expectations, develop and implement appropriate engagement programs, and evaluate engagement strategies within a framework of ethical practice. AMN462 aims to prepare students to help organisations plan for, implement, and evaluate community engagement.

AMN465 Public Relations Foundations

Anti-requisites	CON415
Equivalent s	AMX465
Credit Points	12
Campus	Online, Gardens Point and External
Availabilities	Gardens Point - SEM-1, SEM-2 Online - SEM-1, SEM-2 External - SEM-1, SEM-2

AMN465 Public Relations

Units

Foundations introduces students to public relations as a management function in contemporary organisations. Public relations is based on the management of relationships between organisations and the groups or individuals on whom their success or failure depends. This unit lays the foundation for students to begin to explore the nature of such relationships, and the tools, theories and strategies which may be deployed to successfully manage relationships between organisations and their publics.

AMN467 Strategic Communication Campaigns

Pre-requisites	24 credit points of completed Postgraduate study
Equivalent s	AMX467
Credit Points	12
Campus	Online, Gardens Point and External
Availabiliti es	Gardens Point - SEM-2 Online - SEM-2 External - SEM-2

Public Relations Campaigns builds on introductory units in postgraduate public relations study. In the unit, students explore both strategic and tactical aspects of public relations campaigns, including the relevant theories driving campaign development, delivery, and evaluation.

AMN468 Issues and Crisis Management

Pre-requisites	24 credit points of completed Postgraduate study
----------------	--

Anti-requisites	CON408
Equivalent s	AMX468
Credit Points	12
Campus	Gardens Point, Online and External
Availabiliti es	Gardens Point - SEM-1 Online - SEM-1 External - SEM-1

AMN468 is delivered in both internal and external modes. The external offering of this unit is only available to domestic students admitted to the BS16 Master of Business, BS17 Master of Business (Advanced), BS18 Master of Business/Master of Business courses and the BS39 Graduate Certificate in Business. Organisations face increasing uncertainty in their business environments. Understanding how to prepare for issues and crises are essential components to making communication decisions and mitigating further risk. Issues and crisis management encompass all professions and AMN468 will integrate a range of action strategies with a focus on communication approaches.

AMN469 Communication and Social Change

Pre-requisites	36 credit points of completed study
Credit Points	12
Campus	Gardens Point and Online
Availabiliti es	Gardens Point - SEM-1 Online - SEM-1

In this unit, you will explore the
