

The QUT logo consists of the letters 'QUT' in a bold, blue, sans-serif font, positioned inside a white square.

BRISBANE  
AUSTRALIA

A man with a beard and short dark hair is smiling broadly. He is wearing a polo shirt with a white horizontal stripe and a dark blue horizontal stripe. He is holding a dark jacket in his left hand. The background is a blurred outdoor setting with trees and a building.

# Australia Awards Scholarship

FOR INTERNATIONAL STUDENTS

the university for the real world®

# Why choose QUT?

## Industry and research connections

Access to leaders and experts in business and research

## #22 top student city in the world

QS Best Student Cities 2024

## Over 100 real-world courses

Opportunity for real work experience and projects

We're a young university with a global outlook. We're ambitious and ready to take on new challenges with a future-focused drive. We strive to connect our students with the real world through practical hands-on learning that prepares our graduates for the careers of tomorrow and the future.

## Industry connections

We create opportunities for connection between our students and industry employers through integrated placements, internships and real-world collaborative projects.

## Sustainability

Our vision is a low-carbon future. We aim to tackle global challenges and achieve sustainability through research, teaching and strategic partnerships.

## Graduates for the future

A degree from QUT makes you an unstoppable force ready to build, create and connect into the future of tomorrow.

## Choose Brisbane

On the east coast of Australia, Brisbane proudly stands as the capital of Queensland, also known as the Sunshine State. Brisbane is affordable and offers all the perks of being a vibrant, energetic and innovative city. With a subtropical

climate and dynamic, culturally diverse atmosphere, Brisbane offers one of the finest combinations of education and vibrant living anywhere in the world.

## Student Services

### Help settling in

Moving to a new country can be a big change, but also an exciting opportunity. We can help you make the transition to living in Brisbane and studying at QUT easy and stress free. Our dedicated support services include accommodation support, airport reception, counselling services, international orientation and more.

### Support for academic and professional skills

Access support for language, learning and employment, like assignment feedback, research and referencing support, STEM support, professional development workshops and networking events.

## Health, disability and accessibility services

If you have a disability, injury or health condition—whether it's permanent, temporary, episodic or fluctuating—talk to one of our disability advisers. It's free and confidential. If you need medical care, information or advice, you can visit the QUT Medical Centre, which covers general medicine, men's and women's health, travel medicine, immunisations, sexual health, mental health and skin checks.

## Personal, financial and cultural support

Find your social, spiritual and cultural community with a range of student clubs and societies, as well as support services and counselling. Our welfare officers can help you manage your finances and access financial support.

# What is the Australia Awards Scholarship?

The Australia Awards Scholarship is an Australian Government initiative that aims to develop capacity and leadership skills so individuals can contribute to development in their home country. It aims to build people-to-people linkages at the individual, institutional and country levels.

The Australia Awards support students through key study areas relevant to the social, economic, environmental and political development of students' home countries. These include, but may not be limited to, the study areas listed below. Visit the QUT website for a full list of our available courses: [qut.edu.au/study/international](http://qut.edu.au/study/international)

You can find more information about the scholarship including the applying process and key application dates online at [dfat.gov.au/people-to-people/australia-awards](http://dfat.gov.au/people-to-people/australia-awards)

Approved priority study areas	Matching QUT study areas	QUT courses
<b>Business, Finance and Communication</b>	Business Communication	Bachelor of Business Bachelor of Communication Master of Business Master of Digital Communication

The learning and teaching approach at QUT is designed to assist students in developing the skills and confidence to become the next generation of change makers. We help you 'look beyond the horizon' to create innovative and entrepreneurial solutions. Your world-class education at QUT will prepare you for the ever-changing world of work and for your future.

# Your scholarship benefits

As an Australia Awards Scholarship recipient, you will receive the following financial and academic support:

- The tuition fees for your course.
- Air travel allowance. Your scholarship covers one return, economy-class airfare to and from Australia.
- An establishment allowance. This one-off payment helps you get set up with accommodation and study materials.
- Contribution to Living Expenses (CLE). This fortnightly payment helps pay your living costs like food, accommodation, and transport.
- Overseas Student Health Cover (OSHC) to cover basic medical costs.
- Pre-course English fees if necessary.
- Fieldwork expenses. For eligible research and masters courses where fieldwork is compulsory, your travel costs to complete your fieldwork may be covered.
- Introductory Academic Program. This program is compulsory and is provided by QUT. It helps you prepare for study in Australia.

## The Introductory Academic Program (IAP)

You'll attend a five-week Introductory Academic Program (IAP), which will help you with your enrolment, learning skills, settling into life in Brisbane, language expectations and our technology and teaching systems. You'll be able to practise these skills during the program through training, excursions and workshops.

## University skills

- Practical information and advice about settling into life in Brisbane.
- Excursions to visit important city locations (such as shopping centres, pharmacies, libraries and religious centres).
- An introduction to how things work at QUT (including administrative systems, enrolment procedures and our student code of conduct).

## Technical skills

- Formal computer training in Microsoft Word, PowerPoint and email.
- Training to use information systems (such as Advanced Information Retrieval Skills) for researchers.

## Academic skills

- General study skills (such as time management and library skills).
- Core academic skills (such as note taking, reading and research, oral presentations and academic writing).

# Architecture and built environment

Graduate with confidence by undertaking hands-on projects and 30 days of built environment work experience.

Learn first hand with regular field trips to major construction sites and innovative urban precincts.

Be taught by real-world architects and built environment professionals who have industry experience and connections.

Course	Course code	CRICOS	Duration	Fees per year*	Intake	IELTS**
<b>Bachelor of Built Environment (Honours)</b> (Construction management and quantity surveying; Interior design; Landscape architecture; Urban and regional planning)	AB01	113182E	4 years	\$34,800	Feb, Jul	6.5 (6)
<b>Master of Project Management</b>	PM20	084927B	1-1.5 years	\$36,800	Feb, Jul	6.5 (6)

\* 2024 tuition fees per year as shown in Australian dollars. Subject to annual review.

\*\*IELTS overall score required with sub-scores for bands required in brackets. We accept results from a variety of standardised tests. You can see the minimum test scores required via your course information.

**Urban studies and planning researcher – #1 in Australia**

**Advanced design and fabrication workshops to bring your concepts to life**

Operated by our dedicated technical team

# Business

**I decided to do a Bachelor of Business to equip myself with the necessary skills to start and effectively run my own business, so I can make a positive impact on the lives of those within my community.**

I chose QUT mainly because of its high student satisfaction rate. My course has been a challenging but rewarding experience thus far.

**LILY NIN CHAN**

Solomon Islands  
 Bachelor of Business (Accounting)

Prepare yourself to thrive in the changing world of business with a degree from the top one per cent of business schools in the world.

Work alongside industry professionals to solve real-world problems.

We offer hands-on learning experiences to participate in international study tours, exchanges, projects and internships.

Course	Course code	CRICOS	Duration	Fees per year*	Intake	IELTS**
<b>Bachelor of Business</b> (Accounting; Advertising; Behavioural economics; Economics; Entrepreneurship and innovation; Finance; Financial planning; Human resource management; International business; Management; Marketing; Public relations)	BS05	003491G	3 years	\$33,700	Feb, Jul, Nov	6.5 (6)
<b>Master of Business</b> (Applied finance; Customised; Human resource management; Integrated marketing communication; International business; Management; Marketing; Philanthropy and nonprofit studies; Professional accounting)	BS11	085448J	1.5-2 years	\$36,800	Feb, Jul	6.5 (6)

\* 2024 tuition fees per year as shown in Australian dollars. Subject to annual review.

\*\*IELTS overall score required with sub-scores for bands required in brackets. We accept results from a variety of standardised tests. You can see the minimum test scores required via your course information.

**Postgraduate business studies – #3 in Australia**

AFR's BOSS Best Business School 2023 rankings

**More than 80 overseas partner institutions**

in 33 countries

Australia's first business school with triple international accreditation

# Communication

Learn to think strategically and communicate effectively across a range of media and communication platforms.

Choose a major that appeals most to you, combined with the second major, minor and electives that will steer your career in the right direction.

Our lecturers are internationally recognised experts who study today's top platforms and technologies.

Course	Course code	CRICOS	Duration	Fees per year*	Intake	IELTS**
<b>Bachelor of Communication</b> (Digital advertising; Journalism; Media and communication industries; Community and public relations)	KC40	096577J	3 years	\$34,400	Feb, Jul	6.5 (6)
<b>Master of Digital Communication</b>	KC88	099302A	1.5–2 years	\$32,400	Feb, Jul	6.5 (6)

\* 2024 tuition fees per year as shown in Australian dollars. Subject to annual review.

\*\*IELTS overall score required with sub-scores for bands required in brackets. We accept results from a variety of standardised tests. You can see the minimum test scores required via your course information.

**#1 in Australia and #19 globally for communication and media studies**

QS World University Rankings by Subject 2024

**Get real-world experience with our work integrated learning units**

**Learn from industry partners and global leaders in research**

**I was drawn to the QUT Master of Digital Communication because it is carefully designed for 21st century communication professionals.**

From classical and modern digital communication theories to prime examples of successful marketing brands in Australia and around the world, I have thoroughly enjoyed every unit whilst being able to apply the knowledge throughout my assessments.

During my internship with the QUT Office of Industry Engagement, QUT colleagues and my supervisor have been so supportive and flexible of my study schedule, and they make sure I can work on the projects that will benefit my imminent professional career.

**CHANSEREYPICH SENG**

Cambodia  
 Master of Digital Communication

# Engineering

**Working on group assignments with students from different engineering backgrounds has allowed me to appreciate the ideas and considerations that others have in order to create better solutions for the future.**

Unit electives allowed me to tailor my degree to explore and develop my understanding of a broad range of topics ranging from the planning and management of solar farms to the design and construction of bridges.

QUT courses encourage students to consider the implications and consequences of our actions. By mimicking real-world scenarios, I have gained skills to develop unique solutions for the many challenges we may face.

**FOLIGA MUNDIA**

Samoa  
 Master of Professional Engineering

Gain professional accreditation from Engineers Australia and graduate with a degree that is recognised in Australia and overseas.

Gain exclusive work placements with leading companies such as Origin Energy, Rio Tinto, Boeing and Technology One, and present your work to industry at our end-of-year showcase.

Learn from real-world lecturers who are leaders in their field, including Australia's top researchers in robotics.

Course	Course code	CRICOS	Duration	Fees per year*	Intake	IELTS**

# Information technology and data science

At QUT, students are truly prepared and given the best experience they can to meet the real world. Apart from my core units, I have joined the QUT Robotics and QUT Motorsports clubs.

QUT Robotics Club has projects every Tuesday night, where we learn how to design and build robots. At the QUT Motorsports Club, I am part of the Driverless Team—a group of brilliant students who work on the autonomy of the self-driving race car that QUT students have built from the ground up. It is amazing what they do, and what I am learning from them. Being a part of these student clubs has been challenging and fun.

**SCOTT BILAU**

Papua New Guinea  
Master of Information Technology

QUT IT courses are recognised by the signatories of the Seoul Accord and accredited by the Australian Computer Society (ACS), providing eligibility for ACS membership.

Showcase your skills and gain networking opportunities by undertaking a major project for a real-world client that will be unveiled at the IT and Games Showcase.

Study Queensland’s only specialist undergraduate data science degree at QUT.

# Research

At QUT, we tackle some of the biggest questions facing the planet by combining different disciplines and capabilities. Our transdisciplinary research approach is delivering unique solutions.

We work closely with partners across all sectors who will apply our research outcomes to create solutions. We're engaging with government and industry to translate our research to deliver real-world impacts. We are harnessing our technological strengths across different disciplines to transform research by identifying new opportunities and delivering solutions to real-world problems.

As a research student, you will have access to everything you need to create a productive and successful research environment — including engaging spaces to undertake your research, any tools and software you need to conduct your research, QUT laboratory or studio space, and specialised resources and support through the faculty or school you're researching with.
