1 March 2012

The Honourable Cameron Dick MP
Minister for Education and Industrial Relations
30 Mary Street
Brisbane Qld 4000

Dear Minister

I am pleased to present the Annual Report 2011 for Queensland University of Technology.

I certify that this Annual Report complies with:

• the prescribed requirements of the Financial Accountability Act 2009 and the Financial and Performance Management Standard 2009, and

• the detailed requirements set out in the Annual report requirements for Queensland Government agencies.

A checklist outlining the annual reporting requirements
can be accessed at www.qut.edu.au/about/the-university/annual-report.

Yours sincerely

[Signature]

Major General (Ret’d) Peter Arnison AC, CVO
Chancellor
I have great pleasure in presenting this report for the year ending December 31, 2011 to the Honourable Cameron Dick MP, Queensland Minister for Education and Industrial Relations, as required by the Financial Accountability Act 2009, the Financial and Performance Management Standard 2009 and the Annual report requirements for Queensland Government agencies.

The report also addresses the requirements of the Australian Government’s Financial Statement Guidelines for Australian Higher Education Providers for the 2011 Reporting Period. A checklist outlining the annual reporting requirements can be accessed at www.qut.edu.au/about/the-university/annual-report.

QUT experienced strong demand for courses in 2011 and a significant improvement in entry standards.

In pursuit of its strategic goal to become a selectively research-intensive university, QUT was greatly encouraged this year by the results of a national research evaluation exercise in which the University was acknowledged for its world-class research across a wide range of disciplines. A solid performance in the major national competitive grant rounds and the attraction of several key research fellowships and awards, including a prestigious Laureate Fellowship from the Australian Research Council to Professor Peter Bartlett, strengthened QUT’s position in the research sector.

Success again in national teaching awards and programs and the completion of an extensive refurbishment program that supplied more high-quality, technologically advanced social learning spaces for students meant QUT continued to deliver quality teaching and learning outcomes. The redevelopment this year of the University’s website, incorporating student and staff gateways, provides improved accessibility to online services and information.

Efforts to encourage interest in tertiary study as a way of widening the participation of low-income and Indigenous people were rewarded at Caboolture campus where a 29 per cent increase in commencing students from low socioeconomic backgrounds was achieved.

Development of research in science, technology, engineering and mathematics (STEM) fields became a catalyst for change in 2011, with work undertaken to disband two faculties to make way for a new Science and Engineering Faculty from 2012, and a themed institute in the new $230 million Science and Engineering Centre, which is due for completion at QUT’s Gardens Point campus also in 2012.

These ambitions and achievements were underpinned by the University’s strong financial performance and a commitment to best practice in governance and management, for which I acknowledge the contribution of QUT Council members. With diligence and openness, Council members have worked with the Vice-Chancellor and University staff to further QUT’s outstanding higher education and research agenda, and I thank them for their efforts.

I commend this report to all our partners and stakeholders, including staff, students, alumni, donors, the professions, the business community, government, the media, and colleagues in the education and research sectors.

Peter Arnison
Chancellor
The volatility experienced over recent years in national and international circumstances continued to affect Australian higher education in 2011, and QUT experienced its share of challenges in this eventful year. These began with the Brisbane floods, and included downturns in international student demand, ongoing development of national policy, a comprehensive quality external audit and wild swings in investment returns. While rising to meet such external tests, the University continued its outstanding progress in working towards the goals outlined in the QUT Blueprint.

To take just a sample of this progress, in 2011 QUT recorded a significant improvement in the percentage of graduating students who have had an international study experience. We also:

• exceeded our targets for research students, with very strong growth in the international research cohort
• achieved a strong showing in national competitive research grants
• continued to dominate national teaching grants and awards
• made substantial progress in redeveloping our programs in the science, technology, engineering and mathematics domains.

At the beginning of the year the results of the 2010 national research quality assessment exercise (ERA) were published, verifying QUT’s growing strength with more than 70 per cent of our assessable research ranked world standard or above. Later in 2011 QUT underwent its national quality audit by the Tertiary Education Quality and Standards Agency (TEQSA) with preliminary feedback being very positive. Both exercises provided clear and independent confirmation that our efforts to focus on quality are on track.

On the infrastructure front, the University bedded in a new student administration system, restructured its website, and completed major improvements to the library at Kelvin Grove. The most visible change was the progress made with the new $230 million Science and Engineering development at Gardens Point. This major new set of facilities will be completed in 2012 and will not only transform our efforts in the science, engineering and technology-related fields but also reconfigure the way students, staff and the public interact with the campus.

Most importantly, QUT made great advances in strengthening the human dimension of its work. The program of regeneration of the academic workforce continued in 2011, with new high-quality staff joining the University at various levels. Significantly, QUT had a greatly improved result in national research career awards, with Professor Peter Bartlett securing an ARC Australian Laureate Fellowship, and four Future Fellowships and 10 Discovery Early Career Research Awards also being granted to QUT researchers. In 2011 we conducted our fifth climate survey of staff opinion, and the results showed that overall satisfaction is very strong and continues to improve although there are areas that need some attention and improvement.

Among the many achievements of our students and alumni, mention must be made of our fifth Rhodes Scholar, Amanda Rojek. This is the second consecutive year that a QUT graduate has been named as Rhodes Scholar, following on from engineering graduate James Tilbury.

Once again I thank the many people within and outside the University who have contributed to QUT’s performance throughout 2011, and I acknowledge in particular the leadership and guidance of QUT Council, and the great efforts of all our academic and professional staff.
The QUT Blueprint is the University’s institutional strategic plan. Its role is to identify major priorities, articulate broad strategies, and drive greater coherence and coordination of the University’s efforts. 2011 was the first year of implementation for the third iteration of the plan, titled Blueprint 3, which provides a revised planning framework for the University through to 2016.

Blueprint 3 renews QUT’s commitment to the idea of an engaged university which makes a real and positive difference to its students and to people in the wider community. It sets out priorities for the next five years, strategies and targets for the University’s three spheres of activity (students, learning and teaching; research and innovation; and people, culture and sustainability), and key performance indicators (KPIs).

QUT is a leading Australian university which aims to serve the community and strengthen its distinctive national and international reputation by combining academic strength and practical engagement with the world of the professions, industry, government, and the broader community.

In line with this aim, QUT’s overall vision for the future is:
• to provide outstanding learning environments and programs that lead to excellent outcomes for graduates, enabling them to work in and guide a diverse and complex world characterised by increasing change
• to undertake high-impact research and development in selected areas, at the highest international standards, reinforcing our applied emphasis and securing significant commercial and practical benefits for the community and for our partners
• to strengthen and extend our strategic partnerships with professional and broader communities to reflect both our academic ambitions and our civic responsibility.

QUT is a richly diverse and multicultural university, teaching Australians from both Indigenous and non-Indigenous backgrounds and international students from well over 100 countries. The Blueprint acknowledges that both staff and students will achieve their greatest potential in an environment which is intellectually invigorating, open and egalitarian, and which engages students, staff and alumni and engenders a sense of belonging. The QUT experience is characterised by a spirit of innovation, a sense of ownership and pride in the University.

QUT values:
• scholarship, learning and achievement in all student and staff endeavours
• engagement with and responsiveness to our diverse internal and external communities
• social justice and equal opportunity in education, employment and research, and a particular emphasis on strategies which enable Indigenous Australians to achieve excellent educational outcomes
• a safe, supportive and healthy working environment which supports work/life balance
• honesty, integrity and ethical behaviour and practices
• a spirit of experimentation, innovation, entrepreneurialism and responsive and reliable client service.

QUT has been guided by a Reconciliation Statement adopted in 2001 and an Indigenous Education Strategy to make explicit our commitment to improving educational outcomes for Indigenous Australians and addressing Indigenous issues in teaching and research. Blueprint 3 reaffirms these commitments and renews our strategies for making progress towards them.

The following pages offer detailed summaries of achievements against the objectives and key performance indicators of each of the key priorities of Blueprint 3, namely:
• Realigning student composition
• Strengthening teaching and learning
• Building QUT’s research reputation
• Developing a sustainable workforce
• Building further QUT’s community
• Focusing on sustainability.

BBus QUT, PhD Qld
University Registrar
The University values good corporate governance and seeks to adopt best practice where possible. The following report is structured under headings consistent with the ASX Corporate Governance Principles and Recommendations (Second Edition August 2007 with 2010 Amendments).

**MANAGEMENT AND OVERSIGHT**

**QUT governance overview**

The University is established under the *Queensland University of Technology Act 1998* and operates within a comprehensive framework of legislative and regulatory requirements mandated at the State and Commonwealth level. Its governing body is the QUT Council and its chief executive officer is the Vice-Chancellor.

As an institute of higher education and a public entity, QUT is committed to conducting its activities consistent with best governance practice, including its responsibility to make a positive contribution to the community through its activities. The University manages its governance obligations by fostering a culture of good governance, demonstrated by an actively engaged Council, supported by committed officers and a comprehensive suite of policies and procedures, including the QUT Governance Framework and the Council Charter.

During 2011, the Ministerial Council for Tertiary Education and Employment endorsed a Voluntary Code of Best Practice for the Governance of Australian Universities. The Council Charter and the QUT Governance Framework, together with the QUT Act and other University policies and procedures, address many of the matters set out in the Voluntary Code, and the other aspects of the University’s compliance with the requirements are set out in the following sections. From 2012, Council will undertake an annual review of its compliance against the Voluntary Code.

**Roles and responsibilities of QUT Council and the Vice-Chancellor**

Under the *Queensland University of Technology Act 1998*, Council is given the responsibility to appoint the University’s staff and to manage and control the University’s affairs, property and finances. The functions and powers of the University are set out in full in this report, including functions and reporting arrangements for related (controlled) entities. Council may delegate its functions to Council members, University staff or committees, excluding the making of statutes and rules, adopting the University’s annual budget, and the approval of the spending of specified funds.

The QUT Act appoints the Vice-Chancellor as chief executive officer of the University and allows for the delegation of any of his responsibilities to a member of the University’s staff. The authorities of Council and the Vice-Chancellor, and their nominated delegations, are comprehensively detailed in the University’s *Schedule of Authorities and Delegations*. The Schedule is reviewed on an annual basis and is publicly available on the QUT website.

**Roles and responsibilities of Council members and senior management**

On appointment, members of Council are provided with resources and an orientation program which explains members’ responsibilities set out in the QUT Act and the Council Charter, and includes information on the powers and role of Council and its relationship to the Vice-Chancellor, and introduces members to the University’s governance framework.

The duties of senior management positions are articulated through formal position descriptions. Senior staff are also required to prepare an annual performance agreement which details their responsibilities and the University’s expectations of their performance.

**ADDING VALUE THROUGH QUT COUNCIL**

**Structure of QUT Council**

QUT Council has up to 22 members and is constituted in accordance with the *Queensland University of Technology Act 1998*. Members are predominantly appointed by the Governor in Council or elected by staff, students and QUT Alumni, with a small number of official and additional members. Council’s term is for four years from 21 November 2008, with the exception of student members who serve a two-year term.
COUNCIL COMMITTEES AND COMMITTEE CHAIRS (NUMBER OF MEETINGS IN 2011)

Council committees

Council has established a number of committees, detailed below, to assist in overseeing the various activities of the University.

In addition, each faculty has an academic board, chaired by the executive dean, reporting to the University Academic Board. Faculty academic boards have other standing and advisory committees.

* reports through University Academic Board

^reports through University Research and Innovation Committee and University Academic Board
Council business in 2011

In 2011, Council met six times for ordinary meetings, and also held a one-day workshop in February, focusing on governance, external settings and challenges.

During 2011 Council considered the following items which were critical in assisting it to carry out its role:

- Corporate Performance Reports (February, June, August and December)
- reorganisation of academic organisational structures in some faculties, including establishment of the Science and Engineering Faculty
- establishment of a new Institute for Future Environments to encompass cross-disciplinary research in science, technology, engineering and mathematics disciplines
- revised QUT Staff Code of Conduct, and revised policies on investment, Public Interest Disclosures, Conflicts of Interest and QUT’s Quality Framework
- reports from QUT Enterprise Holdings (QEH) and its subsidiaries
- strategic reports on Teaching and Learning and Research and Commercialisation matters
- reports on the impact of the January 2011 floods and QUT’s response
- status reports on Science and Engineering Centre and other capital programs
- reports on preparations for the Tertiary Education Quality and Standards Agency/Australian University Quality Agency audit conducted in October 2011
- insider trading obligations and impacts of harmonisation of Health and Safety legislation
- reports on development of a Reconciliation Action Plan
- reports and relevant policy items from Council sub-committees.

Evaluation and professional development of Council

Council has a framework for evaluation and professional development as specified in the Council Charter. During 2011 the following relevant activities were undertaken:

- conduct of orientation/induction activities for four new members
- 2011 evaluation survey of Council performance (conducted in November–December 2011) which included for the first time interviews with Council members regarding Council performance
- participation by Council members in relevant activities at the University, including the Vice-Chancellor’s Forum, and attendance at the University’s Senior Leadership Group Conference in May 2011.

Other aspects of the University which provide critical support to Council in its pursuit of good governance are outlined in the following sections of this report.

ETHICAL AND RESPONSIBLE DECISION-MAKING

Corporate values

QUT values:

- scholarship, learning and achievement in all student and staff endeavours
- engagement with and responsiveness to its diverse internal and external communities
- social justice and equal opportunity in education, employment and research, and a particular emphasis on strategies which enable Indigenous Australians to achieve excellent educational outcomes
- a safe, supportive and healthy working environment which supports work/life balance
- honesty, integrity and ethical behaviour and practices
- a spirit of experimentation, innovation, entrepreneurialism and responsive and reliable client service.

Ethical conduct and social responsibility

The QUT Governance Framework describes how the structures, policies and practices of the University are integrated, and details the respective roles of Council and management, which are essential for the effective discharge of responsibilities. The Governance Framework also expresses QUT’s recognition of its obligation to act in a socially responsible manner.

The QUT Staff Code of Conduct applies to all employees of the University and to other ‘officers’ such as external committee members, adjunct and visiting academics, and volunteers acting on behalf of QUT, and outlines the ethical obligations of all staff for integrity, accountability, and the efficient use of University resources.
The Council Procedure 1 – Committees applies to members of Council and University committees. The Procedure describes the University’s expectations of individual members and assists them to discharge their responsibilities in an ethical and responsible manner.

The QUT Code of Conduct for Research sets out the obligations on all University researchers, staff and students to comply with the ethical framework governing research at the University and other relevant institutional and regulatory requirements. The University Animal Ethics Committee, established in accordance with relevant state legislation and national protocols, reviews all teaching and research activities involving animals. The University Human Research Ethics Committee, established in accordance with relevant national protocols, reviews all research involving humans. The University’s Biosafety Committee ensures relevant activity complies with the requirements of the National Gene Technology Regulator.

As part of the Australian Technology Network (ATN), the University signed an ATN Declaration of Commitment to Local, National and Global Sustainability, to make sustainability a focus in teaching and learning, research, operations, infrastructure, service and outreach to local, regional and global communities. QUT continues to make steady progress towards meeting its 2012–13 (-11 per cent) and 2020–21 (-29 per cent) ATN greenhouse gas reduction targets. Energy consumption, which represents 96 per cent of QUT’s reportable carbon equivalent emissions (CO₂-e), fell by around 9 per cent by December 2011. Reduction targets are measured against the ATN’s baseline year of 2007. Energy management has been an active program at QUT since 2005 and energy intensity has fallen by 17.6 per cent since that time.

The University recognises that the interests of public office and personal or other interests may come into conflict, and has developed procedures to assist staff in recognising and declaring such conflicts of interest. The Register of Disclosed Interests includes declarations of interests from members on all University-level committees and declarations from all staff on University-level matters. The University also has specific policies on conflicts of interest related to research activities and gifts.

The University is committed to maintaining an organisational culture in which effective corruption and fraud prevention is an integral part of all University activities. To this end, QUT’s Corruption and Fraud Control Plan was reviewed during 2011 and continued to be implemented to reinforce a culture of high ethical standards and accountability in learning and teaching, research and community-related activities.

Under section 61 of the Public Interest Disclosure Act 2010 (PID Act), the Public Service Commission (PSC) is now responsible for the oversight of public interest disclosures and preparing an annual report on the operation of the PID Act. From 1 January 2011 agencies were required to report information about public interest disclosures to the PSC. No public interest disclosures were received and investigated under the Public Interest Disclosure Act 2010 in 2011.

**QUT Staff Code of Conduct**

QUT completed a major review of the QUT Staff Code of Conduct in 2011. The revised Code of Conduct was approved by Council in June 2011 and aligned ethical responsibilities with the amended ethics principles and values set out in amendments to the Public Sector Ethics Act 1994 which came into effect in November 2010. In the latter half of 2011, the University introduced a communication strategy to senior staff on their role in supporting the principles set out in the Code of Conduct, and developed and implemented an online training module on ethical decision-making and behaviour. This training explains the application of the ethics principles, the contents of the Code and the consequences of non-compliance with it. All new employees are required to complete this within one month of commencement and other staff will complete the module as part of annual performance planning and review processes.

**Compliance Program**

The University’s Compliance Program takes an educative approach to developing and enhancing a positive compliance culture. The key elements of the program include a register of obligations, an annual compliance reporting process, including risk assessment, and an active communication strategy incorporating targeted education and training activities. The Compliance Program also includes a Register of Licences, which was updated in 2011 to ensure that a record of all current licences and registrations held by the University is available at all times.

**QUT Planning and Quality Frameworks**

Following the approval of the new QUT Blueprint and changes to the University Planning Framework in 2010, in 2011 the University developed the Blueprint Implementation Guide, which provides connections between the Blueprint and organisational area action plans. The Guide outlines how the strategies and targets of the Blueprint will be implemented in future years.

Changes to the QUT Quality Framework, providing for benchmarking and corporate surveys, were approved by QUT Council in August 2011. Benchmarking guidelines and a benchmarking registry were also established during the year.
The new Tertiary Education Quality and Standards Agency (TEQSA) assumed the responsibility for quality assurance from the former Australian Universities Quality Agency from 30 July 2011. TEQSA will begin its regulatory functions from January 2012.

The Quality Steering Group, chaired by the Deputy Vice-Chancellor (Academic), met 13 times during 2011 and continued its oversight of QUT’s preparation for the TEQSA Cycle 2 Audit. The preparation included a trial audit with external panel members in March, and the submission of QUT’s Performance Portfolio and supporting materials in July, as well as the logistical and organisational arrangements for the audit visit (including the interview schedule and information sessions).

The Cycle 2 audit visit, which took place in the period 17–20 October, focused on QUT’s Quality Management System and two themes: Building Research Capacity and International Activities. The audit panel spent two days at the Kelvin Grove campus and one day at the Gardens Point campus and spoke with approximately 300 people during the audit visit. Interviewees included the Chancellor and external members of Council, the Vice-Chancellor and senior management, academic staff, professional and sessional staff, representatives of staff and student associations, undergraduate and postgraduate students and representatives from the external community. It is expected that TEQSA will release the full audit report in February 2012.

In November 2011, TEQSA confirmed that from 29 January 2012, QUT will automatically be registered as a higher education provider until 31 October 2018.

Corporate reviews were suspended in 2011 to accommodate preparation for the TEQSA Cycle 2 audit and an evaluation of the review process. Reviews will resume in 2012, with preparations for the first review having been undertaken in late 2011.

The corporate reviews policy and processes were evaluated in 2011, in response to Planning and Resources Committee discussions in 2010 and recent revisions to the planning and quality frameworks. In 2012, the Corporate reviews policy will be further assessed to ensure that future corporate reviews support the directions and planning and quality framework of the University.

Manual of Policies and Procedures
All University-level policies are contained in the Manual of Policies and Procedures (MOPP), an online policy framework which is accessible to all staff and students. The MOPP also contains the University’s statutes, rules, Council procedures and the Schedule of Authorities and Delegations which comprehensively details the authorities of Council and the Vice-Chancellor and their delegations. All policies are reviewed on a regular basis by responsible officers.

Recordkeeping
Under the Public Records Act 2002, the University is required to make and keep full and accurate records of its activities in accordance with recordkeeping standards and policies issued by the State Archivist. The University’s Records Management Policy states that all staff and organisational areas have responsibilities for recordkeeping and specifies requirements for records capture and retention.

The University’s strategic approach is to capture records in electronic formats, taking account of the manner in which most transactional business is now conducted. For this purpose, the University uses an electronic recordkeeping and document management system, TRIM, which meets the system requirements of the relevant legislation and standards. Substantial work has been undertaken by the University to implement TRIM in a comprehensive way, and to integrate it with corporate information systems supporting key business processes. This work continued during 2011.

The University’s recordkeeping program is documented through its policies and procedures, a business classification scheme and a University sector-specific retention and disposal schedule. Audits of recordkeeping compliance are conducted annually in key areas and are also considered as part of the audits and reviews conducted by the University’s Assurance and Risk Management Services. A Records Management Services unit within the Division of Administrative Services is responsible for implementing QUT’s records management program and for supporting faculties and divisions in undertaking their records management activities.
INTEGRITY IN FINANCIAL REPORTING AND TIMELY AND BALANCED DISCLOSURE

Audit and Risk Management Committee

Audit and Risk Management Committee advises both Council and the Vice-Chancellor, as accountable officer, on the performance or discharge of functions and duties under the Financial Accountability Act 2009, Financial Accountability Regulation 2009, Financial and Performance Management Standard 2009 and the University’s Assurance and Risk Management Services Charter. Audit and Risk Management Committee’s main functions are to:

- assess and contribute to the audit process including evaluation and facilitation of the internal audit function
- oversee and approve financial and operational reporting
- review business risk as reported, including compliance, corruption and fraud.

EXTERNAL MEMBER WITH PROFESSIONAL ACCOUNTING, FINANCIAL OR AUDITING EXPERTISE NOMINATED FROM OR BY COUNCIL

Mr S (Stephen) Maitland (Appointed 20 April 2011, 4/4)
OAM, RFD, BEc Syd, MBus LLM QUT, FCPA, FAICD, FCIS, F Fin, FAIM
Principal, Delphin Associates

The Vice-Chancellor, the Executive Director Finance and Resource Planning, and the Director Assurance and Risk Management Services have rights of audience and debate but are not members of the Committee.

Relationship with Queensland Audit Office (QAO)

Staff from the University’s Financial Services and Assurance and Risk Management Services worked closely with Crowe Horwath (auditors appointed by QAO) during the year to facilitate the University’s annual audit. Staff from Crowe Horwath also attended two meetings of Audit and Risk Management Committee in 2011 and were given the opportunity to meet with the Committee without the presence of management.

Assurance and Risk Management Services

Assurance and Risk Management Services resides within Chancellery reporting to the Vice-Chancellor for administrative purposes and is functionally responsible to the Audit and Risk Management Committee of Council. The Assurance and Risk Management Services Charter, which is in line with the relevant audit and ethical standards, is the principal instrument establishing the role, scope, authority and the responsibility of the assurance and risk functions.

The primary purpose of Assurance and Risk Management Services is to add value to the University’s operations and assist the University to achieve its corporate goals by providing independent analysis, appraisals, recommendations, counsel and information on the University’s systems of internal control, effectiveness of risk management and the quality of performance. This is achieved by examining and evaluating the adequacy, effectiveness and efficiency of risk management, systems of internal control and the quality of management in an independent and professional manner.
The audit approach in 2011 involved:

- adoption of a ‘total audit approach’ incorporating a blend of compliance, operational, quality, integrated and information technology audits and reviews to achieve a two-fold impact of internal controls enhancement and business process improvements
- supporting management through proactive preventative auditing rather than ‘after the event’ detective auditing
- a risk-based and client-focused audit methodology
- providing management advice on an effective and efficient internal control framework
- assisting management in responding to emerging issues and the changing environment.

The Annual Assurance and Risk Management Plan for 2011 was achieved after the approved additions and deferrals.

Financial management and accountability

QUT has a number of policies relating to financial management and accountability, including specific policies on balance sheet management, user charging and expenditure. The University also has a Financial Management Practice and Procedures Manual and a Business Case Framework for the support of significant projects or proposals. The University’s financial statements are made publicly available through the QUT Annual Report, which is published on the QUT website.

RESPECTING THE RIGHTS OF THE COMMUNITY

As a public institution, QUT aims to provide as much information as is practicable to the general community on its functions and activities. QUT complies with provisions of the Queensland Government’s Right to Information Act 2009 and the Information Privacy Act 2009 and assists the community in this regard by making the University’s policies and procedures publicly available through the QUT website, together with the University’s organisational structure and staffing.

Public access was also provided via the QUT website to University committee agendas and minutes, with the exception of those committee activities which are considered to be confidential, private or of legal or commercial sensitivity.

QUT’s committee structure creates numerous opportunities for community involvement in the University’s functioning and policy direction. The University’s governing body, QUT Council, includes members of the general community, graduates, staff and students.

Council is assisted and advised in performing its functions by advisory and management committees which include representatives from Council, members of commerce, industry, government and the professions, QUT staff and students, and academics from other higher education institutions.

Community involvement is also provided through QUT Alumni, a forum of QUT graduates, academic staff, past and present Council members and other qualified persons.

RECOGNISING AND MANAGING RISK

QUT is committed to establishing an organisational philosophy and culture that ensures risk management is an integral part of all university activities and a core management capability. Risk management allows the University to take advantage of opportunities to improve its outcomes and outputs by ensuring that any risk taken is based on informed decision-making and on realistic analysis of possible outcomes.

QUT is also committed to business continuity management as an integral component of risk management, to ensure continuity of key business services which are essential for or contribute to achievement of QUT’s goals.

Council through the Audit and Risk Management Committee is responsible for ensuring there are adequate policies and procedures in relation to risk management, compliance and internal control systems. The Vice-Chancellor and the senior management team are responsible for the implementation of these policies and managers at all levels are accountable for effective risk management. Assurance and Risk Management Services is responsible for coordination of risk management activities to ensure a common and consistent approach to management of risks and reporting thereon is adopted within the University.

The University’s Risk Management Framework provides detailed guidelines on application of the risk management process, the roles and responsibilities of key stakeholders, level of documentation and reporting requirements. The detailed guidelines are designed to ensure strategic, operational, financial, compliance and reputational risks are identified, assessed, effectively and efficiently managed and monitored to enable achievement of the University’s goals and to support the strategic directions of divisions, faculties and institutes.
This is demonstrated through the integration of risk management within the following QUT frameworks:

- Governance (including Compliance Management)
- Planning
- Course Development and Quality Assurance
- Health and Safety
- Insurance
- Project Management
- Business Continuity Management
- Business Case
- Corruption and Fraud Control Plan.

Detailed control policies and procedures cover financial reporting, project management, business case appraisal, compliance, environment, health and safety, insurance, physical and virtual security and academic risk management issues.

As part of the University’s annual planning and reporting processes, faculties, divisions and institutes identify the risks and opportunities which could impact on achieving their objectives. Risk mitigating strategies are identified and implemented. The faculties, divisions and institutes are required to monitor and review their risks and opportunities on a quarterly basis.

Assurance and Risk Management Services review the risk management documents, analyse trends, assess adequacy of risk management strategies and provide reports to senior management and the Audit and Risk Management Committee for their ongoing monitoring.

FAIR AND RESPONSIBLE REMUNERATION

In 2011, Council and other committee members external to QUT were not remunerated. The determination on remuneration of the Vice-Chancellor is delegated by Council to the Chancellor’s Committee, which has established criteria for undertaking an annual review.

The remuneration of senior management at QUT is governed by the QUT Employee Collective Agreement for Senior Staff 2009–2012 which took effect in August 2009. Remuneration is in accordance with the classification level of each position, and remuneration levels for all staff are publicly available on the QUT website. Details on the remuneration of executive officers can be found on pages 85–87 of this report.
**KEY PERFORMANCE INDICATORS (KPIs)** relate to the key priorities of *Blueprint 3*.

**GLOSSARY:**
- QTAC: Qld Tertiary Admissions Centre
- SES: Socioeconomic Status
- HDR: Higher Degree Research
- CEQ: Course Experience Questionnaire
- GDS: Graduate Destinations Survey
- ERA: Excellence in Research for Australia
- GJ: Gigajoules
- GFA: Gross Floor Area

ATN MEMBER

QUT is a member of the Australian Technology Network (ATN) of universities that share QUT’s vocational heritage and applied nature. Other members are the University of Technology Sydney, RMIT University, the University of South Australia and Curtin University of Technology.

CRC PARTICIPANTS

In addition to two Cooperative Research Centres, Wound Management Innovation and Integrated Engineering Asset Management, based at QUT; the University is a participant in another eight CRCs: Automotive Australia 2020; Optimising Resource Extraction; Polymers; Railway Innovation; Spatial Information; Smart Services; National Plant Biosecurity; and Young People, Technology and Wellbeing.
With the appointment of Professor Martin Betts as Executive Dean Designate of the Science and Engineering Faculty, Professor Doug Hardgreaves was appointed Acting Executive Dean of the Faculty of Built Environment and Engineering until the end of 2011.

Professor Simon Kaplan resigned from QUT in May 2011. Professor Adrian Herington was appointed Acting Executive Dean of the Faculty of Science and Technology for the remainder of 2011.
Realigning student composition

Professor Ken Bowman AM
Deputy Vice-Chancellor (Academic)

HIGHLIGHTS

QUT’s student population increased slightly from 41,959 in 2010 to more than 42,500 enrolments in 2011.

Higher degree research (HDR) student load represented 4.7 per cent of QUT student load in 2011, an increase from 4.3 per cent in 2010.

Students from low socioeconomic (SES) backgrounds represented 13.9 per cent of domestic undergraduate students in 2011.

The proportion of Indigenous undergraduate students increased from 1.18 per cent in 2010 to represent 1.3 per cent of domestic undergraduate students in 2011.

International student enrolments in 2011 accounted for 16.2 per cent of the student population, with 10.2 per cent of international students being HDR students (up from 8.5 per cent in 2010).

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

Blueprint 3 has a target of at least 6 per cent of the student population being HDR students by 2016. In 2011 efforts to increase the number of HDR students focused on:

• increasing the number of QUT and externally funded international and domestic scholarships to support the achievement of HDR enrolment targets

• reducing the administrative burden on academic staff through the eforms project.

Various support mechanisms were employed during 2011 to assist HDR students. The Postgraduate Research Student Network (PGRSNet), piloted in 2010, was rolled out successfully. PGRSNet is designed to foster students’ self-confidence as independent researchers and provides workshops on a range of psychosocial skills and resources to build resilience. More than 300 international HDR students attended 40 sessions.

Research training sessions were incorporated into the Graduate Research Skills Program calendar coordinated through the Research Students Centre Student Gateway.

The Faculty of Health increased HDR enrolments and increased the numbers of research publications through strategies such as a two-day mentored writing retreat in the School of Nursing and Midwifery and in the School of Psychology and Counselling. The Faculty of Law increased HDR enrolments to a record high, as well as achieving the best result to date in Australian Postgraduate Award (APA) scholarship offers. The 2011 scholarship round produced seven APA scholarship offers to Law and Justice applicants as well as one Indigenous scholarship offer.

The Institute for Creative Industries and Innovation, in conjunction with the Creative Industries Faculty, offered two full scholarships to HDR students and provided an additional six top-up scholarships. The Institute of Health and Biomedical Innovation (IHBI) provided 10 top-up scholarships to support the achievement of HDR enrolment targets.

Indigenous students and students from low socioeconomic backgrounds

The Blueprint aims for QUT to increase the share of domestic undergraduate students from low SES backgrounds to 16 per cent in 2016 (aligning with progress toward national targets set for 2020) and lift Indigenous student representation to 1.5 per cent by 2016.

In 2011, QUT continued to participate in the Higher Education Participation and Partnerships Program (HEPPP), as part of the Australian Government’s aim to increase the participation of people from low SES backgrounds in higher education. Queensland’s eight universities are working collaboratively to stimulate interest in tertiary study, and their 2011 consortium submission for additional HEPPP funding from the Department of Education, Employment and Workplace Relations was successful, the funds from which will support additional outreach initiatives over the 2012–2014 period.

To strengthen Widening Participation, 14 internal memoranda of understanding that encode a broad range of activities from all faculties and relevant divisions in both outreach and support areas were established. These include targeted campus tours, in-school activities, regional outreach, and links with the Student Ambassador program where ambassadors from low SES and Indigenous backgrounds visit target schools. Student support services were expanded at Caboolture campus to help improve retention and increase the proportion of Indigenous students and students from low SES backgrounds. QUT’s faculties and divisions also undertook a range of activities:

• more than 200 students from 10 schools attended the Science and Engineering Challenge at Caboolture. The Extreme Engineering van conducted 15 workshops in high schools in the Caboolture region, visiting more than 350 students. Two new upper primary workshops were presented at schools, including two schools in the Caboolture region. On-campus activities were provided for more than 30 Explore Uni days, and some 130 workshops were delivered.

• the Faculty of Education has been actively engaged in the Federal Government Building Aspiration Agenda through involvement in the Caboolture Cluster Partnership Scheme at the Caboolture Centre of Excellence. To
encourage students from low SES backgrounds, the Faculty will offer year one of the Bachelor of Education (Early Childhood) at the Caboolture campus from 2012

- Faculty of Health activities at the Caboolture campus to widen participation centred on a peer mentoring program to assist TAFE diploma students to transition to university study in the nursing degree and bioscience units; mathematics access support; and monitoring learning engagement, success and just-in-time interventions. Health Clinic activities such as foot screenings and Nutrition Week also continue to promote the health professions
- two hundred personal computers were distributed to students in need.

QUT increased its Indigenous student representation to 1.3 per cent of domestic undergraduate students in 2011. Activities to support Indigenous students included:
- the Library allocated funds specifically for purchasing materials that support embedding Indigenous perspectives into QUT learning and teaching programs
- the Faculty of Health recruited 48 commencing Indigenous students to a range of courses, bringing the total enrolment to 102 including five Indigenous HDR students. This was a significant increase on the enrolment for 2010 of 85 Indigenous students
- the Faculty of Law continued to attract Indigenous students and those from low SES backgrounds, through strategies including a bridging program for Law and Justice students, an Indigenous-specific pathway into the Justice degree, and a Graduate Destinations workshop
- an Indigenous Careers Counsellor was employed at Caboolture campus. The campus also hosted Aboriginal and Torres Strait Islander Careers Day.

Student attrition

A particular target of the Blueprint is to reduce the commencing bachelor degree attrition rate to 14 per cent by 2016. In pursuit of this target, the Student Success program continued throughout 2011 with 8245 at-risk students being contacted. The comparative figure for 2010 was 4612, representing nearly a doubling in activity between 2010 and 2011. Analysis of first semester 2011 data shows that interventions continue to positively impact on student persistence and performance.

Students from low SES backgrounds and who have English as an additional language, and in particular those from refugee backgrounds, are recognised as being at risk at tertiary level. Through Widening Participation funding, specific language and personal support is being provided to these students through ESL Connect. Students attend workshops and individual language and counselling sessions as well as community development activities. There has been a particular focus on improving support for students with an African background.

The Faculty of Law continued to focus on reducing attrition with an expanded programs of peer-assisted support and academic support for first-year students, and is developing a project to identify at-risk students.

At Caboolture campus, programs and services to assist first-year students included:
- the introduction of Peer Learning Communities (PLCs), which are peer-led sessions backing on to tutorials to provide additional assistance to students for discipline-specific issues. PLCs are targeted at challenging units in nursing, education and business courses
- a campus-based welfare counsellor
- additional academic skills programs
- financial assistance to the value of $10 000 to students in financial difficulty.

International students

International students represented 16.2 per cent of total enrolments in 2011, exceeding the University target of 15 per cent. This is a good result, particularly in light of external factors (such as the high Australian dollar, the impact of the global financial crisis, and increased competition—from the USA) that had the potential to influence the demand for QUT courses in 2011. Efforts towards reinforcing the quality of the QUT brand; ramping up profiling activities through greater engagement by senior faculty representatives; reinforcing QUT’s commitment to partner institutions, agents and alumni; and strategies such as the English for Academic Purposes (EAP) scholarship initiative assisted in maintaining enrolment numbers. QUT saw continuing diversification of the international fee-paying overseas cohort with enrolments sourced from 99 countries in 2011. A total of 92 per cent of all QUT International College pathway students who successfully completed a College program in 2010 progressed to a QUT degree program in 2011.

Some 40 international students attended career confidence-building and job-seeking workshops. In addition, an agreement with Volunteering Queensland provided voluntary placements for 30 international students in local community organisations.

Semester-length language development programs in the faculties of Built Environment and Engineering, Health, and Science and Technology assisted HDR international students as they progressed through the stages of their research.
The number of fee waivers for international HDR students was increased. Up to November 2011, 351 students (excluding those under examination) held a fee waiver. The University also mapped supervision and infrastructure capacity in areas of research strength; introduced language assistance and faculty-specific research induction; continued to monitor student language abilities through the stage two milestone for PhD students; piloted an online innovative resource, Doorway to Research, for international HDR applicants prior to their arrival; and introduced an expression of interest process to fast track applicants through to potential supervisors.

QUT’s faculties and institutes increased their international student enrolments during 2011. In particular, the Faculty of Health attracted 40 international commencing HDR students in 2011 through a range of recruitment activities including promotion by senior researchers and uptake of international scholarships following study tour visits to QUT. The QUT Business School held the inaugural International Online Expo designed to attract international enrolments. There were 58 registrations for the event which focused on Malaysia. In the Institute of Health and Biomedical Innovation, 33 per cent of HDR students are international students.

As part of Blueprint 3, the University aims to increase the student population to around 44,000 students by 2016. QUT’s student enrolments increased slightly in 2011, and the total is progressing towards the 2016 target. The growth in student numbers in 2011 was in both HDR students and non-HDR students.

Several faculties were successful in increasing their numbers of non-HDR students. In the Faculty of Built Environment and Engineering, recruitment into engineering courses continued to be the priority for domestic marketing, focusing on both the number and the quality (entrance scores) of students. A full program of targeted Engineering Technology classes, hands-on workshop/campus visits, and school prizes was implemented, and engineering feeder high schools were invited to an on-campus event. The Creative Industries Faculty grew its postgraduate coursework enrolments by about 18 per cent. The Faculty of Law achieved growth in the Justice program by just over 3 per cent from 2010 to 2011, and further growth is expected through the introduction of new double degrees with Justice in 2012 and 2013. Caboolture campus experienced a 24 per cent increase in student load in 2011.

BENCHMARKING ACTIVITIES

QUT has established the following key performance indicators (KPIs) relating to the composition of the student population:

- undergraduate demand: Queensland Tertiary Admissions Centre (QTAC) first preferences: offers ratio
- share of domestic undergraduate students from low SES
- share of domestic undergraduate students who are Indigenous
- international student share of total population
- HDR student share of all students
- commencing ex-QUT bachelor degree attrition.

These KPIs compare QUT’s outcomes to prior years’ averages for universities in the Australian higher education sector, Group of Eight, Australian Technology Network (ATN) and Queensland. Progress reporting on these KPIs is undertaken on a quarterly basis.

Student and staff equity data are routinely benchmarked against past performance, against other universities, and against aspirational targets. Specifically, access, participation, success and retention data for equity students are compared annually, as are gender equity parameters relating to improved practice in promotion and training of women.

The Faculty of Law’s benchmarking activities include:

- analysis of QTAC figures to benchmark demand for its courses compared with The University of Queensland and Griffith University. This has helped identify options for double degrees and inform marketing strategies
- market research which has guided the introduction of new degrees.

The QUT Business School actively benchmarks itself to sustain its reputation as a world-class business school. In 2011, the Business School’s Corporate Education Unit was absorbed into the Graduate School of Business to strengthen market positioning and capabilities, and to deliver globally acclaimed discipline-specific and multidisciplinary postgraduate award and professional development programs at a national and international level.

In late 2010 the Faculty of Science and Technology conducted a competitor analysis of science offerings at Australian and international institutions, to inform discussions for the new Bachelor of Science. The Division of International and Development actively benchmarks the various elements of its business units against external organisations and is active in sector-wide benchmarking exercises i.e. ATN, Universities Australia, and the Australian Universities International Directors Forum.
HIGHLIGHTS

Since the full roll-out of Australian Learning and Teaching Council (ALTC) programs QUT has received more Australian Awards for University Teaching (AAUT) and ALTC Fellowships than any other university. Over the period 2006–2011 QUT submitted 130 AAUT nominations and secured 69 (53 per cent success ratio), 19 ATLC Fellowship applications and secured 10 (52 per cent success ratio), 52 ALTC Grant applications and secured 21 (40 per cent success ratio). This equates to approximately $6.4 million in funds over this period.

In 2011 RE fRAME was established as the university-wide project reconceptualising QUT's approach to learning, teaching and curriculum evaluation. With the implementation of REFRAME, the second semester of 2011 was the last period that the Learning Experience Survey (LEX) was the sole form of centrally supported evaluation.

QUT’s International English Language Testing System (IELTS) test centre became fully operational in 2011 with 2950 tests conducted. The IELTS test centre was nominated in the top eight worldwide for best ‘audit’ and in the top six for the biggest growth in enrolments worldwide of centres under 3000.

The Graduate Certificate in Academic Practice was approved for delivery in March 2011. The first intake was the 2011 Early Career Academic Recruitment and Development (ECARD) cohort who progressed through the first year of the two-year program.

Based on data in late 2011, the equivalent of 7.9 per cent of QUT’s graduating students have had an international study experience. This is a significant improvement on the comparable figure of 5.6 per cent in 2009. Blueprint 3 includes a target of 10 per cent by 2016.

The University has significantly invested in developing a curriculum design framework and facilitated processes to engage and support academic course teams in curriculum design.

Work Integrated Learning (WIL) policy and protocols were revised and resources developed to support students and staff manage risks associated with activities, and align WIL practices with legislation. Approaches to managing risks will be piloted through the Work Integrated Learning Information System Project.

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

Real-world courses and learning

QUT has significantly invested in developing a whole-of-course framework and facilitated processes to engage and support academic course teams in the design of curriculum. During 2011, some 290 academic learning and teaching leaders from across QUT faculties engaged with the framework.

QUT continued to develop courses and programs that capitalise on the opportunities of a deregulated market and make a difference to the real world. Course reviews and accreditations undertaken in 2011 included:

- the Architecture course received full ongoing professional accreditation for five years
- the Bachelor of Entertainment Industries degree proposal was launched both in Brisbane and in Singapore, for delivery in Brisbane. The new course has generated strong interest domestically, and is attracting international enquiries
- the Bachelor of Human Services, Bachelor of Social Work, and Bachelor of Nursing and associated double degrees were reviewed and approved during the year. Professional re-accreditation via the relevant external bodies is expected in the near future
- a new undergraduate elective unit on Indigenous Health was approved, and will be available from first semester, 2012
- the revised Bachelor of Justice and Master of Justice curricula were implemented
- the Bachelor of Education (Early Childhood) will commence at the Caboolture campus in 2012.

The development of the science, technology, engineering and mathematics (STEM) areas is a central theme of Blueprint 3, with strengthening of the University’s offerings in these areas a priority. In particular, the Master of Engineering was significantly revised and approved for commencement in July 2012. Course development in mechatronics/robotics was undertaken and will be implemented from first semester, 2012. The Master of Information Technology degrees, together with the Graduate Certificate in Information Technology degree, were reviewed in 2011. The Master of Information Technology (Library and Information Science) (advanced) and Bachelor of Applied Science (Chemistry major plus Chemistry for Industry second major and Chemistry and Forensic Science double major) were accredited by relevant professional bodies.
The Faculty of Science and Technology implemented 2010 Curriculum Review recommendations including development of new bachelor programs in Medical Imaging Science, Radiation Therapy, and Medical Laboratory Sciences.

During 2011 initiatives in postgraduate coursework and customised education included:

• expanding the Faculty of Education’s international short course programs with China to 17, six more than in 2010
• the first students graduated from the Master of Social Work
• developing a Graduate Certificate in Health Science (Chronic Disease Management) within a review of postgraduate courses offered by the School of Public Health and Social Work in 2012
• the Faculty of Law commenced an AusAID-funded project on capacity building for law and justice professionals in Bhutan, and was awarded a contract for a customised Graduate Diploma in Legal Practice from Clayton Utz
• the new Graduate Certificate in Applied Law will target graduates in health, project management, creative industries and commercial areas to equip them with legal knowledge and skills relevant to their professions
• the Master of Business Administration was ranked fourth nationally in the biennial Australian Financial Review Boss survey of MBA programs. This was a significant improvement on the previous ranking of tenth in 2009
• developing online delivery for the Graduate Diploma in Professional Accounting where all units will use a combination of information technologies to deliver content to students in a flexible environment
• the Graduate School of Business was awarded the tender for the Queensland Government Public Sector Management Program. This is a national program for middle managers and emerging leaders to build leadership and management skills and combines tertiary study with experiential learning.

The Clinical Simulation Centre opened for first semester. This has greatly facilitated expansion of simulation-based learning, and specifically designed scenarios have been introduced for nursing and paramedic students as well as students in the nursing paramedic double degree.

A new cross-faculty unit ‘Community Justice Projects’, in which Law and Justice students work together in teams on community social justice projects for the benefit of a community organisation, was developed for introduction in 2012. The Faculty of Law held the inaugural QUT Law and Justice Community Forum, which explored opportunities for students to work with community organisations and develop their understanding of privilege and disadvantage, intercultural competence, and professional capabilities.

Work was undertaken on policy, protocols and resources to manage risks associated with work integrated learning (WIL). In addition faculties enhanced opportunities for workplace learning and transitions into professional practice across undergraduate programs, for example:

• an eform was introduced to more effectively manage the 700 students undertaking WIL units each year in the Faculty of Built Environment and Engineering
• the Faculty of Health’s International Support Language and Learning Initiative continued to support developing international nursing students’ academic writing and communication skills in preparation for clinical placements. Participation in this voluntary program doubled in 2011
• the Graduate Diploma in Legal Practice was modified for 2012
• five Justice students undertook a professional placement with remote Indigenous communities
• some 180 Bachelor of Information Technology students were placed in professional practice and 45 students undertook 12-month cooperative education placements as part of their industry-based learning experience.

Teaching achievements

QUT’s teaching quality was highlighted through recognition of staff in the Australian Learning and Teaching Council Programs: Fellowship, Australian Awards for University Teaching, Grants and Discipline Scholar Networks.
Strengthening student engagement

A priority of the QUT Blueprint is to develop more comprehensive approaches to strengthening student engagement with their learning and with the University. During 2011 a range of activities and programs were advanced to progress this priority:

- the REFRAME project, which is an evaluation process designed to achieve flexible and 360-degree feedback on learning, teaching and teachers combined with analytics and reporting, provided stakeholders with tools to make informed improvements and decisions
- the work of the Student Success program continued with 8245 at-risk students being contacted
- the Open Web Lecture (OWL) tool was successfully piloted, and evaluation data revealed OWL increased levels of engagement by students, and that OWL can be a driver for change in academic pedagogical practice, fostering a move towards active or blended learning approaches in learning and teaching
- under the Precincts Student Engagement Program, 38 new staff were inducted; and 28 students undertook internships in the Creative Industries Precinct, Marketing and Communication Department, and the QUT Art Museum
- the QUT Community Service Learning Lab was established to support students to undertake community-based projects as part of their courses. Students working across faculties in multidisciplinary teams collaborated with community partners on real, current and complex issues facing communities
- QUT Blackboard introduced new faculty-based learning models which were well received and are expected to become the standard
- several faculties achieved strong or improved student satisfaction scores through LEX and the Course Experience Questionnaire
- the QUT Business School implemented targeted academic skills workshops for international students, focusing on academic writing and critical thinking
- new on-campus cultural events included Persian New Year, Africa Day, Good Evening Vietnam and JapanTown. The QUT Ball was introduced for the first time in 2011 as a key flagship event in QUT’s calendar, bringing together students from across all campuses and study disciplines to celebrate the achievements of QUT student volunteers and those in leadership roles.

English language proficiency

Activities during 2011 to improve English language proficiency were enhanced by the Support for International Student Learning (SISL) project and other initiatives. The development of IELTS preparation courses for full-time and part-time students contributed to the SISL project. QUT’s IELTS test centre became fully operational in 2011, and notable achievements included:

- 2950 tests were conducted during the year
- the centre was successfully audited by IELTS Australia
- the IELTS test centre was nominated in the top eight worldwide for best ‘audit’ and in the top six for biggest growth in enrolments worldwide of centres under 3000
- IELTS training programs commenced, with the full-time 15-week intensive coursework program for students aiming to achieve IELTS 7.

International study experience

QUT aims that, by 2016, 10 per cent of all graduating students will have had an international study experience. A range of opportunities were provided in 2011, including:

- legendary Bollywood actor Amitabh Bachchan launched a Creative Industries travel bursary in the name of his late father, Dr Harivansh Rai Bachchan. The bursary will assist students who take part in exchange programs to India
- the Faculty of Education negotiated a study abroad exchange program with two European universities, and a student exchange program with Minnesota, USA
- some 30 undergraduate students from nursing, human movement studies, and public health studied overseas through outbound mobility placements
- funding from the Department of Education, Employment and Workplace Relations supported students undertaking community justice work in Thailand
- a record number of QUT Business School students took up short-term offshore study opportunities with more than 80 undergraduate and postgraduate students travelling to 15 different international destinations.

BENCHMARKING ACTIVITIES

As part of the reform process led by Health Workforce Australia, QUT provided data on student clinical placements to a national study. Data will be used to assist in managing growth funding (which is intended to be recurrent) across training networks that are being established to increase training capacity.
QUT Business School maintained its focus on the external environment to capture opportunities to expand its brand and reputation as well as respond to environmental changes. In the past eight years, the School has been involved in 14 major reviews, which included six international reviews, three thematic reviews, one corporate review and two federal government reviews.

In the Faculty of Science and Technology, the benchmarking of Business Process Management (BPM) courses nationally and internationally highlighted that the Master of Business Process Management at QUT is the only dedicated tertiary course for BPM in Australia, and one of the few in the world.

2011 marked the second year QUT participated in the International Student Barometer (ISB). QUT international students were invited to participate in the ISB in March 2011; a response rate of 35 per cent was higher than the Australian Technology Network, national and international averages. New initiatives such as the 2011 international cultural festivals and events program, designed to support greater interaction between domestic and international students on campus, were introduced in response to the 2010 survey.

Each year the Australian Universities International Directors’ Forum commissions a benchmarking survey of outbound student mobility. The survey covers semester exchange, short-term programs and higher degree research.

QUT Library conducted the InSync Client Survey in late 2010. QUT’s results were then benchmarked in separate reports against the Libraries of the Australian Technology Network and against eight other Australian university libraries, including five Group of Eight universities, during 2011. QUT achieved excellent results.

Benchmarking studies were also undertaken of the Student ePortfolio and QUT Blackboard, with data expected to be available in early 2012.
HIGHLIGHTS

Construction of the biggest project in QUT’s history, the Science and Engineering Centre at Gardens Point campus, continued during the year. When completed later in 2012, the new $230 million centre will house QUT’s new research institute focused on themes around science, technology, engineering and mathematics (STEM). A high-performance world-class analytical facility will provide central laboratory capacity to support research.

During 2011, QUT performed strongly in the major national competitive grant rounds with the award of 19 Australian Research Council (ARC) Linkage grants worth $5 372 742 (Round 2, 2010 and Round 1, 2011); 17 ARC Discovery project grants worth $4 734 000; and nine National Health and Medical Research Council (NHMRC) grants with a total value of $5 004 675. In addition QUT was awarded two NHMRC fellowships worth $727 460.

Professor Peter Bartlett was awarded a Laureate Fellowship grant from the ARC valued at $2.78 million over six years. His research program will look at large-scale statistical machine learning.

QUT was awarded 10 Discovery Early Career Research Awards (DECRAs), ranking ninth in the sector behind the Group of Eight (Go8). In terms of success rate, QUT ranked fifth in the sector. Total income from DECRAs will be $3.75 million.

QUT was awarded four Future Fellowships with a total income of $3.63 million. QUT’s success rate was 40 per cent which is well above the national average of 30.7 per cent and ranked twelfth in the sector along with four other universities.

Professor Patsy Yates was again successful in receiving funding from the Department of Health and Ageing to run both the Program of Experience in the Palliative Care Approach and the Palliative Care Curriculum for Undergraduates program for an additional three years (total funding $11.8 million).

Professor Nicholas Graves received NHMRC funding to establish the Centre for Research Excellence in Reducing Healthcare Associated Infection. The Centre, one of only 15 funded in 2011, will receive funding of $2 495 795.

Three cooperative research centres (CRCs), in which QUT is a partner, were successful in their bids for funding extensions, receiving a total of more than $70 million in new funding: Automotive Australia 2020 ($26 million), Polymers CRC ($14.5 million), and National Plant Biosecurity CRC ($29.7 million). A new CRC for Young People, Technology and Wellbeing, in which QUT is a partner, received funding of $27 million over five years. The CRC will promote mental health and wellbeing through three complementary research programs.

QUT performed exceptionally well in the Australian Government’s Excellence in Research for Australia (ERA) assessment framework with more than 70 per cent of QUT’s assessable research ranked world standard or above.

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

Establishing a major and themed institute in the STEM area is a key plank of Blueprint 3. In 2011, the University Academic Board approved the establishment of the new institute with seven research themes:

- future energy systems and clean technologies
- secure and resilient infrastructure
- intelligent systems and adaptive communities
- healthy ecosystems and environmental monitoring
- sustainable tropical and sub-tropical production
- geo-systems and resources
- mathematics, computation, simulation and eResearch.

A fundraising and engagement strategy was developed for the Science and Engineering Centre and the new institute. The strategy aims for a financial target of $7 million over a four-year period.

During the year, the University maintained its focus on research potential and quality in staff recruitment with performance reports for all promotional rounds from the Research Activity Database and track record assessments for potential research-capacity applicants. The Faculty of Law recruited a number of new Early Career Academic and Development (ECARD) staff with doctorates in the discipline of law, to develop a stronger base of research-active staff in this field. The Faculty’s cohort of Dean’s Research Scholars in 2011 was the highest achieving group of students since the scheme was established, and these students will be encouraged to pursue research degrees in future, to further expand the Faculty’s research capacity. The Institute for Creative Industries and Innovation developed a strategy around adjunct appointments, and supported three visiting academics and one adjunct professor in 2011.
Success in competitive research grants, health research and centres of excellence

The QUT Blueprint aims for ‘top-two’ position in national competitive grants in at least five areas (education; creative industries; applied mathematics/statistics; information technology; and robotics, avionics and automation).

QUT’s faculties and institutes were active in national competitive research grants, including:

- the Faculty of Built Environment and Engineering was awarded 14 ARC and NHMRC grants totalling $5.3 million, was a partner in the successful CRC Automotive bid, and at the end of 2010 was successful in its rebid for the CRC in Infrastructure and Engineering Asset Management, winning a further three years of funding

- three ARC Discovery, three ARC Linkage, five DECRA, two Future Fellowship and one Australian Laureate Fellowship applications were submitted by the Creative Industries Faculty to ARC funding schemes in 2011. The ARC Linkage application ‘Social Media in Times of Crisis: Learning from Natural Disasters to Improve Future Strategies’ (Bruns, Burgess, Crawford and Flew) was the only grant awarded in the Communication and Media Studies field of research in Australia

- the Faculty of Education was the only one in an Australian university to receive two Faculty-led Discovery grants in curriculum and pedagogy with the highest overall funding in this category of $653,000. The Faculty also obtained two DECRAs, two ARC Linkage grants, a Women in Research grant, and was involved in two Collaborative Research Network projects

- the Faculty of Health’s School of Human Movement Studies research team was awarded $1,245 million to investigate heat stress associated with use of personal protective suits for bomb disposal. The project is jointly funded by the USA Department of Defence, the Department of the Prime Minister and Cabinet (Australia) and Australian state and territory bomb response units

- the Faculty of Law was awarded an ARC Linkage grant for research on ‘Futile Treatment at the End of Life: Legal, Policy, Sociological and Economic Perspectives’, which is expected to have an impact on future public policy and practice

- QUT Business School won two ARC Linkage grants and several ARC Discovery grants. Professor Benno Torgler was awarded an ARC Future Fellowship. This is an exceptional achievement with only five Future Fellowships awarded in economics research in the three years of the scheme’s operation

- the Faculty of Science and Technology was a major contributor to QUT’s research grant successes in 2011, achieving eight ARC Discovery grants, six ARC Linkage grants, four ARC DECRA grants, three NHMRC Project grants, and several other grants (e.g. Cancer Council Queensland, Marsden Fund New Zealand). The Faculty was a partner in two successful CRC bids: CRC for Plant Biosecurity and CRC for Polymers

- Institute for Creative Industries and Innovation researchers were successful in six Linkage grants and three Discovery grants

- projected external research income from competitive grants in the Institute of Health and Biomedical Innovation (IHBI) was more than $26 million. Institute researchers secured NHMRC project funding of $5 million, and in excess of $1.5 million in funding from the ARC.

The Blueprint aims to distinguish QUT’s health research by a focus on prevention and the use of technology for better health outcomes. In particular, the University strives to be a national research leader in nursing, wound healing, optometry, prostate cancer, and biomedical engineering:

- QUT is a partner in the new Queensland Children’s Hospital Academic Research Facility with Queensland Health and The University of Queensland. Detailed planning for the construction of the building and governance of the research progressed throughout the year

- Professor Graham Kerr was awarded a Queensland International Fellowship to collaborate with Oxford University to research deep brain stimulation treatment for Parkinson’s Disease, partnering with St Andrew’s War Memorial Hospital, Brisbane

- research momentum was maintained around nursing and wound healing through the Centre for Palliative Care Education and Research, the Wound Management Innovation CRC and the Dementia Collaborative Research Centre

- prevention of chronic disease and reduction of morbidity and mortality continued as a research focus in 2011 through major projects such as the LANDMark study (diabetes), National Institute of Health studies (cancer), and research into injury prevention.
the Health Services Research Innovation Centre—an IHBI and Royal Brisbane and Women’s Hospitals led collaboration between QUT, Queensland Health, The University of Queensland, Bond University, and St Andrew’s Medical Institute—was announced in December. The partners have contributed $3.2 million over three years to build teams of researchers, clinicians and policy makers to address crucial challenges in healthcare delivery

• Professor Ken Beagley and Professor Peter Timms began trials of their Chlamydia vaccine in koalas. Results are promising, bringing the possibility of a human vaccine closer to reality.

Leading at least six nationally endorsed centres of excellence in thematic areas of strength is an aim of the Blueprint. QUT was awarded an NHMRC funded centre of excellence for the Centre of Research Excellence in Reducing Healthcare Associated Infection.

Other efforts to strengthen QUT’s research standing focused on:
• the Creative Industries Faculty, to develop and submit a high-quality CRC bid in the field of creative industries
• the QUT Business School, to develop a high-quality CRC bid in the area of social philanthropy
• the Faculty of Built Environment and Engineering, which established an externally funded tier-two research centre in smart transport as a collaboration between industry, government and academia. In 2011, this centre achieved significant international recognition as a world-class research and knowledge broker in smart transport solutions.

QUT became home to a scanning probe microscope that can be used to develop efficient and cheap plastic solar cells to charge laptops and mobile phones. The microscope is the only one of its kind in Queensland, with four others in Australia. The microscope was purchased with the help of $800 000 in funding from the ARC and will be used by a consortium of universities.

Impact through research-based involvement in public policy and practice

QUT aims to strengthen impact through greater research-based involvement in public policy and practice. In 2011, public policy research with major federal and state government agencies continued in areas such as child protection, road safety, sun cancer prevention, nutrition, online mental health, and public health. The Faculty of Law’s work (with the Faculty of Education) in the field of reporting of child sexual abuse culminated in important changes to legislation in Queensland. This is a direct result of research and advocacy through the ARC Discovery Project, ‘Teachers Reporting Child Sexual Abuse: Towards Evidence-based Reform of Law, Policy and Practice’, a major interdisciplinary and empirical study across three states.

The Victorian Government conducted an independent review of the implementation of the Standard Chart of Accounts (SCOA) developed by researchers in the Australian Centre for Philanthropy and Nonprofit Studies. Modelling indicates that the Victorian non-profit sector will save about $3.1 million a year over the next 10 years. The SCOA implementation process was commended as a model for successful engagement with small and medium not-for-profit organisations.

HDR completions

QUT aims to have 350 annual HDR completions by 2016 and initiatives were introduced to increase completions, including:
• developing online forms for streamlined processing, and redesigning HDR forms so that only three levels of approval and sign-offs are required (previously up to five sign-offs were requested)
• enhancing and streamlining processes with one University-wide set of guidelines for accrediting HDR supervisors
• refining the Stage 2 guidelines
• ceasing the requirement for annual progress reports from HDR students in their first year
• developing a new Research Students Centre helpline
• reviewing the Nomination of Examiner Process.

Faculties and institutes reported that:
• in August, 18 Doctor of Philosophy students graduated along with four Doctor of Education students and four Master of Education (Research) students (Faculty of Education)
• a record 32 research students completed their studies (QUT Business School)
• at the time of reporting 46 students had completed, with an additional 39 students currently under examination (IHBI).
BENCHMARKING ACTIVITIES

QUT annually benchmarks its research income (particularly competitive grants performance) against the Australian Technology Network (ATN) and other Australian universities.

QUT participates in the National Survey on Research Commercialisation which benchmarks QUT against both Go8 and ATN universities.

QUT worked with the ATN universities to prepare a submission in response to the Australian Government’s 2011 Sustainable Research Excellence (SRE) Consultation Paper on Options for the Inclusion of ERA in SRE Funding Allocation Model.

QUT, in consultation with the University’s ERA Working Party, is preparing its ERA portfolio to the ARC for submission in March 2012.

As a major research faculty, Health worked closely with the Office of Research to assist preparation of QUT’s ERA submission for the 2012 national benchmarking activity. The ERA benchmarking conducted in 2010 was used to identify areas of strength and strategies to build research capacity for this subsequent round.
HIGHLIGHTS

QUT maintained its focus on regeneration of the academic workforce throughout 2011. Continued development and facilitation of the Early Career Academic Recruitment and Development (ECARD), Middle-Career Academic Development (MCAD) and Sessional Career Advancement Development (SCAD) programs were integral to this effort. The ECARD program had 61 participants, MCAD had 32 participants and SCAD had 68 participants.

QUT conducted its fifth staff opinion survey in 2011. These surveys are conducted every three years. The rating for the core dimension of ‘QUT satisfaction’ increased to 79 per cent from the 2008 score of 71 per cent. A separate survey was conducted of sessional academic staff.

The University cemented its position as one the nation’s preferred employers of women, with the ‘Employer of Choice for Women’ award for the tenth consecutive year. QUT was one of 99 employing authorities across Australia to receive this award.

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

Recruitment and workforce development programs

An aim of the QUT Blueprint is to enhance QUT’s recruitment and workforce development programs, including leadership development. A number of programs were offered in 2011 for employees to increase their leadership capabilities, including the Leading Others Program, Strategic Leadership Program, Women in Leadership, and the Senior Leadership Group Annual Conference. Leaders are increasingly engaging in individual and executive team-based coaching to develop performance, improve engagement with staff, and to achieve change. Almost 100 staff participated in leadership survey tools during 2011 with subsequent debriefings and development identified.

Consultation occurred with senior staff on the development of a leadership capability framework. The framework will be launched in 2012 with related capability development modules available to selected senior staff in a pilot arrangement.

A critical component of strategic planning is ensuring that QUT’s workforce is aligned with the future directions defined in Blueprint 3. Workforce planning facilitates this by defining QUT’s future desired workforce and identifying strategies that will assist in achieving that workforce. The 2011 Workforce Planning Review focused on academic workforce regeneration, workforce profile, and strengthening leadership capability for the period 2011–2014.

Workforce initiatives to ensure capabilities and knowledge are retained and enhanced included the following staff development strategies:

- ECARD, MCAD and SCAD programs
- Coaching Conversations for Supervisors (performance management)
- ChangeWise and ChangeSMART – (change management capability)
- Responding to Emotional Behaviour, and Communication – from Conflict to Resolution and the following retention strategies:
  - reward and recognition programs including the Vice-Chancellor’s Performance Fund and the Vice-Chancellor’s Awards for Excellence
  - 2011 staff opinion survey of all staff and separate survey of sessional academic staff
  - workload management strategies for academic staff
  - management support and engagement strategies for sessional academic staff
  - succession planning for key senior management positions.

In 2011, 450 sessional academics attended the Sessional Academic Program (SAP). In second semester a revised SAP, featuring a three-tiered suite of programs enabling sessional staff to build capacity over the semester, was piloted.

Efforts were made to increase the number of externally funded fellowships. QUT submitted three ARC Laureate Fellowships and was successful in receiving one, and submitted 10 Future Fellowships and was successful in receiving four.

Building academic quality and achieving major demographic change

QUT aims to maintain the momentum of building academic quality and achieving major demographic change by recruiting 500 people to the ECARD program and appointing 75 research capacity professors by 2016, including appropriate proportions of women and Indigenous people. During 2011 work towards realising this objective included the appointment of three research capacity building professors, bringing the total number of appointments...
to 33 (of which nine are women), and running a research boot camp for early-to-mid-career academics to increase their awareness of support available.

In 2011, the proportion of Indigenous staff was 1.1 per cent (target of 1.5 per cent). There were 45 Indigenous staff members identifying as Aboriginal and Torres Strait Islander at November 2011. A Reconciliation Action Plan (RAP) is being developed for consultation and approval by QUT Council in early 2012. The employment focus of the RAP will be on increasing the number of Indigenous people in academic and research roles.

The percentage of senior women continues to increase, up slightly in 2011 to 36.9 per cent against the 2011 target of 40 per cent.

During 2011 significant efforts were directed towards managing a major change process in the faculties of Built Environment and Engineering and Science and Technology to create the new Science and Engineering Faculty, which will function from January 2012. The amalgamation of the two faculties was designed to strengthen offerings in the science, technology, engineering and mathematics (STEM areas), and in postgraduate coursework and customised education. This process was guided by a change proposal plan and regular consultation with staff and unions to help manage the staff translation and voluntary redundancy process.

The merger of the faculties of Science and Technology and Built Environment and Engineering resulted in 70 professional and academic staff voluntary redundancies. Organisational change in other parts of the University resulted in an additional 20 redundancies.

Staffing and workplace policies

Staff wellness is promoted through the University’s ‘Wellness Matters’ program, which provides resources, training and individual appraisals to encourage staff to attain and maintain healthy lifestyles. During 2011 the program engaged leaders, linked health and wellness activities with community events, and promoted health, safety and wellness to all QUT staff.

QUT has a number of initiatives such as employee enterprise agreements and policy provisions that support flexible work practices for employees, including employees who are carers, as defined by the Carers (Recognition) Act 2008. The University has implemented a work-life balance framework that encompasses a range of policies, programs and support structures, for example:

- flexible hours and variable hours arrangements – a staff member can request to vary their span of hours or their work pattern to suit their individual circumstances
- reduced working year scheme – a staff member can ‘purchase’ up to an additional eight weeks annual leave per year
- pre-retirement employment arrangements – in the lead-up to retirement an employee can negotiate reduced hours as part of retirement transition
- leave entitlements – generous maternity and partner leave entitlements are offered to staff, along with sick leave and additional personal leave entitlements to assist with ‘carer’ requirements, and special leave to serve with community groups including the Australian Defence Force and State Emergency Services
- job sharing (professional staff) – voluntary arrangement where staff share a position, with each staff member working on a part-time basis
- workload allocation guidelines.

An online Manual of Policies and Procedures in plain English keeps employees informed and educated about all workplace policies and entitlements including the carers charter. The University website, which was redeveloped with a staff gateway during 2011, also provides quick and concise information. A ‘welcome to QUT’ link targets new employees, ensuring all staff have relevant information and support. HR consultants also are available to help employees understand their various entitlements.

Work is currently underway to formalise additional work-life balance arrangements which are encouraged, and in place, on an ad-hoc basis throughout the University, including working-from-home arrangements. A website on the University’s work-life balance framework has been drafted and is expected to go live early in 2012.
The terms and conditions of employment for the University’s senior, academic and professional staff are provided for within the relevant industrial instrument listed below:

- QUT Employee Collective Agreement (Senior Staff) 2009–2012

Work continued with faculties and divisions to provide appropriate performance, planning and review (PPR) training programs to encourage maximum participation, and support supervisors in ensuring employees receive optimum benefit from the PPR process. A program, ‘Coaching Conversations for Supervisors’, attracted about 100 participants. An online PPR training module, including conversation vignettes, has been completed for launch in early 2012.

Work also continued with faculties and divisions to respond to and address issues of inappropriate behaviour and incidents of misconduct. The QUT Staff Code of Conduct was revised and online Code of Conduct training was developed to guide all staff and visitors in making ethical decisions and acting in accordance with QUT’s expectations of responsible behaviour. The online module was launched in December 2011 with requirements around completion of the module embedded in appointment documentation for new staff and in PPR documentation for all staff.

BENCHMARKING ACTIVITIES

QUT has developed key performance indicators (KPIs) for student:staff ratios and the professional:academic staff ratio. These KPIs compare QUT’s outcomes to prior years’ averages for universities in the Australian higher education sector, the Group of Eight, Australian Technology Network and Queensland.

In 2011 QUT participated in the UniForum Professional Staff Benchmarking Activity with five other Australian and New Zealand universities. This resulted in benchmarking data on professional functions and activities which will be considered in future planning across the University.

Student and staff equity data is routinely benchmarked against past performance, against other universities, and against aspirational targets. Gender equity parameters relating to improved practice in promotion and training of women are compared annually.
HIGHLIGHTS

Significant infrastructure works continued on Gardens Point campus in 2011. A program of upgrades on nine buildings was completed and construction continued on the $230 million Science and Engineering Centre.

QUT mounted a major exhibition across the William Robinson Gallery and Art Museum to commemorate William Robinson’s seventy-fifth birthday. The William Robinson exhibition attracted more than 500 guests and a commemorative book on the work of William Robinson was published and distributed nationally.

Kelvin Grove Library was refurbished at a cost of $12.3 million.

A range of new on-campus cultural events and activities were introduced, along with increased collaboration with student clubs, the QUT Student Guild and the wider community.

Work commenced on the new Caboolture campus library building, which is due for completion in mid–2012.

The Confucius Institute at QUT (CIQ) hosted 23 different types of training including language (238 local teachers), Chinese culture and business. CIQ also organised 87 cultural events in 2011. Additionally the institute negotiated the signing of a memorandum of understanding with Education Queensland for a teacher training centre.

The culture of giving at QUT was successfully promoted and bolstered through the significant increase in staff giving to the Learning Potential Fund: from 182 in 2010 to 290 in 2011.

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

An aim of the QUT Blueprint is to make the University’s two city campuses extremely attractive destinations for students, staff and the wider community, combining excellent facilities for research and learning with precincts offering social spaces, services and amenities including food, sport and recreation, and entertainment venues, which are high quality, health promoting, coordinated and convenient.

Campus developments

The University’s campuses were further developed during 2011 with completion of a $50 million refurbishment program of more than 25,500 square metres of space in nine buildings at Gardens Point, research facilities at Banyo, and the upgrade of the Kelvin Grove Library. These improvements offer high-quality social learning spaces and enable new approaches to laboratory, teaching and learning, research and office accommodation, with flexibility of use as an underpinning principle. Features of the high-use spaces that will help to build further QUT’s sense of community include modular teaching and learning equipment, experiential learning environments, co-location of storage and technical staff, and wi-fi access throughout.

In advance of the opening of the new Science and Engineering Centre at Gardens Point campus in 2012, a retail strategy was prepared to enhance the quality and convenience of the services and amenities to be offered, including food, sport and recreation, and entertainment venues.

2011 continued to see technological innovation in physical learning spaces with a number of new tools and technologies slated for full release in the new Science and Engineering Centre in 2012. These include new multitouch screens for meeting rooms; a new software application (OWL) to encourage greater levels of lecture theatre interaction through student devices; and a new utility to allow remote control of theatres, classrooms and meeting spaces from any staff device. Pilot spaces were developed at Gardens Point and Kelvin Grove to provide academics with the opportunity to explore new pedagogical approaches, with communities of practice established to support the sharing of innovative practice and collaboration.

Specific developments in 2011 included:

• the Faculty of Education launched its new blended teaching and learning space in B240 at Kelvin Grove, and E Block staff office space was refurbished

• in the QUT Business School, Level 10 of Z Block underwent an extensive refurbishment program, providing more open-plan and user-friendly work spaces, with the consistent use of clear glass to enable greater natural light to penetrate work spaces and offices. The refurbishment also allowed for a well-defined entry to The Gibson Room, co-located on Level 10

• the Faculty of Science and Technology wet lab refurbishment project remodelled parts of R Block, E Block, M Block, H Block and Q Block at Gardens Point

• the Institute of Health and Biomedical Innovation’s facilities improved significantly with the certification of the Physical Containment Level 3 laboratory. This will benefit researchers in the infectious diseases group, permitting detailed study of higher risk diseases including viruses.
Community activities

A range of new on-campus cultural events and activities were introduced, along with increased collaboration with student clubs, the QUT Student Guild and the wider community. Harmony Day, Norwegian Constitution Day, The Singapore Spirit, East West Fest, M-Fest, Mid Autumn Moon Fest, Ramadan, Garba Night and Indian Independence Day were celebrated. New events on the cultural calendar included Persian New Year, Africa Day, Good Evening Vietnam and JapanTown—each offering food, dance and music of each of the regions. East West held two social soccer tournaments again, with strong participation from both international and local students.

The College of Excellence student conference was introduced in 2011 to bring together College of Excellence students, student leaders and mentors who seek more meaningful engagement on campus and with the wider community.

A record five Business Leaders’ Forums were held during 2011, with a major highlight being Sir Richard Branson, founder of the Virgin Group, as guest speaker at a special QUT Business Leaders Forum luncheon. Other guest speakers in 2011 included Cameron Clyne, Chief Executive Officer, National Australia Bank; Gail Kelly, Chief Executive Officer and Managing Director, The Westpac Group; Andrew Forrest, Chief Executive Officer of Fortescue Metals Group; and Ahmed Fahour, Managing Director and Chief Executive Officer, Australia Post. The QUT Business Leaders’ Forum continues to attract sell-out audiences and maintains its status as one of Brisbane’s premier business events.

QUT Business School hosted the annual Queensland Business Leaders Hall of Fame 2011 Induction Dinner. 2011 inductees were AP Eagers Limited, Sir John Nosworthy CBE (C), Queensland National Bank, Royal Flying Doctor Service of Australia (Queensland Section), Rhonda White, Terry White AO, and Thiess Pty Ltd.

Under the Precincts Student Engagement Program, students and recent graduates are employed and trained in front-of-house and events work. In 2011, 38 new staff were inducted, and 28 students undertook internships.

In 2011, the Library conducted sessions for high school students at the Caboolture and Gardens Point campuses, as part of the University Experience days.

The Faculty of Science and Technology hosted the highly successful second annual Science Educators Symposium with 100 attendees from across the country.

The Independent Music Project at QUT’s Gasworks Studio hosted the ‘100 Songs Project’, involving 100 songs, 100 hours and 72 acts in six days. From an astounding 431 applicants, the final 72 acts were selected with assistance from ‘Sounds Like Brisbane’ labels. Songs were recorded, mixed, and mastered in four-hour sessions, then broadcast within hours of completion by radio stations Triple J and 4ZZZ. The project promoted and uncovered new talent in Brisbane’s music scene, with 12 best artists launching a ‘best of’ album.

At Caboolture campus, activities included:
- Explore Uni program (1900 local school children on campus to experience university for a day)
- Student Business Competition (54 students from nine local schools)
- Science and Engineering Challenge on campus (220 local school children)
- Science in Schools program (30 primary school children on campus undertaking a range of science activities)
- QUT Equity Camp (485 students provided with a university experience)
- personal information sessions conducted with potential students to guide them through admissions processes and basic course advice (more than 120 sessions).

Activities that promote community engagement and build aspiration were conducted through the Health Clinics including:
- ‘back to school’ foot assessments at Kelvin Grove and Caboolture
- Healthy Foot Week screenings at Redland City Council offices, screening more than 70 council workers
- back-to-school vision screening (Kelvin Grove)
- University Experience days
- Nutrition Week ‘make a healthy lunch box’ activities at Kelvin Grove and Caboolture
- online dietetics consultations for Redland City Council workers and Caboolture and Kelvin Grove attendees of the Healthy Lunchbox workshops.

The Faculty of Education’s School of Mathematics, Science and Technology Education hosted the FIRST LEGO League Tournament.
QUT aims to further develop its international and alumni networks and partnerships, and activities in 2011 included:

- alumni networks were used to support and assist real-world learning through mentoring and work integrated learning opportunities. These were profiled in AlumniNews, via dedicated emails to alumni and in speeches at events
- the annual Student Leadership Awards resulted in 10 awards being presented to students from all faculties. The QUT Student Guild supported the awards
- Outstanding Alumni Awards were made to 10 individuals and a special publication, Inspire, was prepared to celebrate 20 years of the awards. Two alumni received Alumni service awards.
- a ‘Special Excellence in Research’ category was added to the Outstanding Alumni Awards celebrations
- Two editions of QUT Links magazine were produced. Circulation has increased to 128,000. AlumniNews is now being emailed to some 45,000 people each month. AlumniNet has been opened up to postgraduate Business alumni and will be distributed further in 2012.
- The Brisbane Kindergarten Teachers’ College Graduates and Friends Alumni Chapter celebrated 100 years since the predecessor institution commenced with the publication of an oral history.

Agreements, partnerships and international events

- The Alumni and Development Office renewed and maintained nine significant agreements, i.e. sponsored Chairs, scholarship support for higher degree research and research positions to a value of $12.35 million.
- The Faculty of Built Environment and Engineering extended in-bound student exchange through a greater focus on opportunities with partner universities and increased visibility of outbound opportunities.
- The School of Nursing and Midwifery led a successful bid to form a Queensland chapter of the prestigious global network of nurses, Sigma Theta Tau International.
- An International Collaborative Centre for Community Health Research was established in Hue, Vietnam.
- Major conferences were hosted in the School of Law (Australasian Law Teachers’ Association) and the School of Justice (Crime, Justice and Social Democracy conference), as well as the Human Rights and Governance Colloquium.
- The School of Economics and Finance hosted the ninth Biennial Pacific Rim Conference held by the Western Economics Association International. The National Centre for Econometric Research continued its collaboration with the Benheim Center for Finance at Princeton University by hosting the two-day workshop, ‘Frontiers in Financial Econometrics Workshop’ at QUT.
- Two new international double masters degrees were signed with EDHEC Business School, France and Maastricht University School of Business and Economics, Netherlands.
- Boeing, the world’s largest leading aerospace company and the largest manufacturer of commercial jetliners and military aircraft combined, joined sponsors Macarthur Coal, Energex and Auscript as part of QUT Business School’s Corporate Partners in Excellence Program.

Staff awards and achievements

- Four hundred and eighteen Vice-Chancellor’s Performance Fund Awards were presented across individual and team, academic and professional staff categories. Two hundred and thirteen awards for outstanding individual performance were made across all faculties and divisions, with team awards presented to an additional 205 staff in 45 outstanding teams.
- Vice-Chancellor’s Awards for Excellence were awarded to 62 staff.
- World Scientific publishers named Professor Dietmar Hutmacher as an author who is ranked by Thomson Reuters as one of the top 100 material scientists in the world.
- Associate Professor Clayton Adam was awarded a European Union Marie Curie InternationalIncoming Fellowship at Laboratoire de Biomécanique at ENSAM ParisTech from April 2012.
- The ‘Airports of the Future’ Pilot Project, led by Professor Prasad Yarlagadda in partnership with Brisbane Airport Corporation, won the Engineers Australia 2011 Queensland Engineering Excellence Award in the Research and Development category.
- The Australian Research Centre for Aerospace Automation Smart Skies Project team won a Queensland iAward for research and development in information and communication technology.
- Professor Ted Steinberg received the 2011 Professor of the Year Award from ASTM International. The award recognises and rewards the contributions of educators in developing students’ understanding of standards.
- Professor John Frazer won the 2011 ACADIA (Association for Computer Aided Design in Architecture) Award for Teaching Excellence, for innovative teaching in the field of digital architecture.
• Professor Terry Flew was appointed as a Commissioner to the Australian Law Reform Commission to chair the Classifications Review during 2011–2012.

• Associate Professor Helen Klaebe is one of just four Queensland researchers to be awarded a Queensland-Smithsonian Fellowship. She will trial innovative ways of evaluating the economic, cultural and audience impact of public programs at the Smithsonian Folk Life Festival in Washington DC.

• Staff in the Stronger Smarter Institute were successful in a tender to the Department of Education, Employment and Workplace Relations to assist in processes around funds distribution to identified focus schools.

• Professor Helen Edwards was awarded a Medal of the Order of Australia (OAM) in recognition of her service to nursing education and research and to professional associations.

• Professor Peter Coaldrake was awarded the Officer of the Order of Australia (AO) for distinguished service to higher education, particularly in Queensland, through a range of academic and executive roles, as an advocate for professional standards, to public sector policy management and reform, and to Australia-America relations.

• Professor David Atchison was awarded the prestigious American Optometric Foundation’s Glenn A. Fry Award for his contribution to ophthalmic optics, myopia and optical aberrations.

• Professor Zee Upton received the 2011 Queensland Life Sciences Industry Achievement Award in recognition of her contribution to the performance and success of the industry and breadth of impact across the sector in Queensland.

• The Centre for Accident Research and Road Safety-Queensland received the Institutional Widmark Award in 2010 from the International Council on Alcohol, Drugs and Traffic Safety.

• Dr Rene Bakker, Postdoctoral Fellow in the Australian Centre for Entrepreneurship Research, was awarded the 2011 International Project Management Association Outstanding Research Contribution of Young Researcher.

• Professor Lidia Morawska was awarded the highest recognition from the Clean Air Society of Australia and New Zealand; the Clean Air Medal ‘for her sustained and dedicated contribution to the understanding of fine particles in the air, their sources, their monitoring and their management’.

---

**Student achievements**

• PhD student Aaron McFadyen was awarded a 2012 Endeavour Research Fellowship.

• PhD student Wesam Alsabban won the iENA (International Technical fair for inventions, new product ideas) Gold medal.

• Medical Engineering student and Dean’s Scholar John Fox was awarded a Prime Minister’s Australia Asia Outgoing Undergraduate Award.

• Urban and Regional Planning students again featured in the tertiary students section of the Planning Institute of Australia (Queensland) awards with their winning entry, ‘West End: Building Social Resilience’ plus merit awards for two other projects.

• Third-year Creative Writing student Kathy George won the 2011 Undergraduate Queensland Writing Prize for her work *Dirty Secrets*.

• Postgraduate Creative Writing student Kate Zahnleiter was joint winner of the Australia-wide 2011 Postgraduate Queensland Writing Prize.

• Master of Journalism student James Dillon’s magazine *Battlespace* was voted Best Game Oriented Magazine in the 2011 Gaming Genius Awards at Comiccon in Montreal.

• QUT Business School’s growing Student Case Competition Group was successful in international business case competitions throughout the year, with wins in the Thammasat Undergraduate Business Challenge in Thailand, and the Asian Business Case Competition in Singapore. The group also achieved second place in the National University of Singapore DBS International Case Competition.

• A team of fourth-year Pharmacy students won the Pharmacy Guild National Business Plan Competition.

• In the Pharmacy Student of the Year competition run by the Pharmaceutical Society of Australia, Madeline Orange (Bachelor of Pharmacy) won the state finals and Zeke Steindl (Bachelor of Pharmacy) won the Student of the Year for Australia.

---

**BENCHMARKING ACTIVITIES**

A review of organisational structures around student service functions at campuses was undertaken in 2011. Detailed reviews of the operational functions of similar campuses, including support services, academic program delivery and governance structures are proposed for 2012.
HIGHLIGHTS

QUT continued to perform well in terms of energy management, with a reduction in energy consumption of 18 per cent since 2005.

The new Science and Engineering Centre, due for completion in 2012, will be a model for sustainable building practices and has already attained a 5-star Green Star rating in ‘Education’ for ‘Design’. Also registered for rating in the Green Star ‘As Built’ category, the centre will become one of the highest rated ‘green’ buildings in the Brisbane central business district.

The QUT website underwent a major redevelopment which saw the launch of a new student gateway, a new site for external audiences and a new staff gateway. The website especially improves accessibility for prospective students and potential researchers.

QUT introduced a new budgeting approach and the Hyperion Planning Budget solution.

Improved business processes included the implementation of corporate-wide electronic forms, streamlining processes and improving speed and quality of information for sessional appointment processing; commencement of duties notifications; and travel application and approvals.

The QUT Blackboard Reporting Project, designed to enable various stakeholders to create self-serve reports out of the Learning Management System, successfully completed its pilot stage.

The Creative Industries Digital Infrastructure Project was successfully launched. The project is designed to meet a QUT-wide need to support, protect, manage and share digital assets. It will complete an enterprise-wide implementation of a rich media repository over a three-year period.

QUT conducted a comprehensive financial systems gap analysis culminating in the delivery of a roadmap for change that will provide a foundation for the achievement of significant cost savings and more effective management of resources, through strategic procurement practices and consolidation of fragmented resources.

In 2011 QUT achieved an underlying operating margin of 5.8 per cent, compared to the University’s target for the margin to be 5 per cent over three years.

OUTCOMES AND ACHIEVEMENTS AGAINST THE KEY PRIORITIES OF THE QUT BLUEPRINT

An aim of the Blueprint is to sharpen the focus on environmental sustainability through academic activities (coursework and research) and QUT’s own operations, with a target reduction in energy use to 0.51 GJ/m² GFA by 2016. To this end, activities and achievements during 2011 included:

• two major online systems for safety problem reporting and investigations, and chemical manifests, were introduced. Early reporting and compliance has significantly increased with improved health and safety outcomes for QUT

• significant savings were achieved in cleaning costs and a program across campuses is encouraging students and staff to recycle waste

• procurement policy reforms were developed and implemented, embedding sustainability principles into QUT’s procurement lifecycle decision processes

• sustainable practices and the reduction of energy usage were encouraged. Measures such as setting printers to double-sided printing, discouraging unnecessary printing, automatically shutting down equipment that is not in use, and encouraging staff use of the campus bus shuttle service were introduced

• the Faculty of Education held a successful Teaching and Learning Showcase on sustainability in teaching and learning contexts

• Caboolture campus was shortlisted for the Australasian Campuses Towards Sustainability Green Gown Awards.

QUT continued to integrate information and communications technologies into its teaching, research, business support functions and infrastructure:

• the Student Academic Management System (SAMS) was embedded successfully and all business milestones met

• the Q-Step admission application and assessment process was integrated into the standard QTAC process, and QTAC Admissions reporting through Business Intelligence was launched in preparation for the University’s move to a ‘demand-driven funding environment’

• the first phase of the business case framework review which included recommendations for improvements to costing, project prioritisation and benefits harvesting was completed for implementation within the Budget Model review in 2012
• International Strategy Information System (ISIS) Phase 4 reporting module enhancements were completed and implemented in the post-SAMS ‘go-live’ environment. The uptake of new international acceptance reports is positive across the University.

• Information and communications technologies continued to be integrated into the University’s research support functions and infrastructure. This entailed upgrading ResearchMaster and supporting improved functionality of ResearchMaster and the Research Activity Database.

• Significant improvement to QUT’s telecommunications infrastructure took place with the completion of a project to improve the resilience and redundancy of the PABX system which incorporated the roll-out of an extra 700 Voice-Over-IP telephones.

• QUT’s research computation capability was doubled in 2011 and has been fully consumed as researchers take advantage of additional capacity. There has also been exponential growth in the use of QUT’s Online Survey System (Key Survey) and data storage for researchers.

• QUT completed two major projects with the Australian National Data Service. These projects helped QUT to remain at the forefront of research data publishing—a rapidly emerging national and international issue. The first project commissioned a metadata hub which allows QUT research datasets to be published in Research Data Australia (a national ‘eprints’ site for research data collections) while the second project involved the publication of nationally significant research data collections that are held and/or being generated by several leading QUT research groups.

• Assignment Minder was redeveloped and a self-service assignment facility at Gardens Point campus was implemented in the latter half of the year.

• Use of the AskQUT service continued to grow in 2011 with the number of queries rising from 4657 in 2009 to 54,906 in 2011. The number of searches rose from 110,398 in 2009 to 193,216 in 2011.

• Increase in the use of self-checkout terminals at the Gardens Point and Kelvin Grove libraries continued with about 75 per cent of eligible loans at these campuses being processed through these terminals.

• QUT Virtual Mobile was launched for start of first semester, 2011. Feedback was very positive and use exceeds all expectations. QUT Virtual Mobile won a gold award in the Intranet Innovation Award 2011 by Step Two Designs, for the innovative approach in enabling easy access to frequently used intranet functions via mobile devices.

QUT aims to strengthen and diversify its resource base to support the aims of Blueprint 3 and maintain financial viability by achieving an appropriate underlying budget surplus. To support this aim:

• The 2011–2013 Consolidated Budget for the University was approved by QUT Council in December 2010. QUT undertook full re-forecasts of the University’s 2011 budget in the first half and second half of 2011, which revised the full-year financial results based on changes to major influences (such as Commonwealth Government grants, student fee income, other external grants and changes to expenditure in various categories). For the underlying operating margin key performance indicator, in 2011 QUT achieved an underlying operating margin of 5.8 per cent, compared to the University’s target for the margin to be 5 per cent over three years.

• The University further developed its treasury function capability to effectively maximise returns of short-term cash holdings through active investment practices and reduce the risk of foreign currency exchange rate volatility impacting on expenditure budgets through effective hedging arrangements.

• 2011 SRE transparent costing and staff time allocation survey activities were implemented.

• The University exceeded its annual fundraising goal of $20 million in 2011. At 31 October 2011 $9.76 million in donations and bequests and $12.35 million of corporate sponsorship was receipted through the Alumni and Development Office. The QUT International College remained financially stable in 2011, ensuring there is sufficient funding for future developments and that language and learning resources are used efficiently and effectively.

• Bluebox continued the Proof of Concept (POC) Fund to enable the development of QUT intellectual property and to enhance QUT’s commercial goal of reinforcing its applied emphasis and securing significant commercial and practical outcomes.

• The Creative Industries Faculty commenced a three-year initiative to improve teaching efficiency in 2011. This program is addressing areas such as lecture and tutorial delivery methods, the introduction of effective blended learning techniques, and management of the number and types of assessment items in each unit.

• The Faculty of Law and QUT Business School are collaboratively pursuing a commercialisation agenda to generate income from corporate education programs.

• In the QUT Business School, a new cost structure for Corporate Education programs was implemented.
the Faculty of Science and Technology sought to increase funding from commercial operations by implementing recommendations from the review undertaken in 2010. For the 10 months to the end of October 2011, the Faculty achieved $3.326 million in gross revenue from commercial activities. This compares to a total of $2.843 million for the full 2010 year.

BENCHMARKING ACTIVITIES

QUT has established key performance indicators (KPIs) for philanthropy income, domestic fee-paying student income and annual energy intensity in GJ/m² GFA. These KPIs compare QUT’s outcomes to prior years’ averages for universities in the Australian higher education sector, Group of Eight, Australian Technology Network, and Queensland. Progress reporting on these KPIs is undertaken on a regular basis.

The University, via the Tertiary Education Facilities Management Association’s annual Benchmark Survey, continues to benchmark its services against other institutions in the Australasian region. The annual survey, in which 94 per cent of Australian universities participate, collects and reports performance data in the following areas: maintenance, cleaning, security, grounds, refurbishments, parking, energy, water, carbon, strategic asset management, space management, environmentally sustainable development and customer satisfaction.

These benchmarking activities relate to campus services in areas of cleaning and grounds maintenance for cost comparisons. Average costs are used to inform our tendering process and green cleaning contract content.

The University Bookshop engaged in an Australia-wide campus booksellers benchmark activity and was named Australian Publishers’ Association Campus Bookshop of the Year for the eighth consecutive year in 2011.

Learning Environments and Technology Services (LETS) participates and contributes to benchmarking activities through the Helpdesk Industry Association. Information collected has been used to inform and support an improvement program for these service desks. LETS also works with Facilities Management to survey the University’s central teaching spaces. This survey seeks feedback from academic staff on the quality of the facilities, technology and useability of these spaces. Results inform future planning and the ongoing maintenance program of these teaching spaces to meet the needs of students and teaching staff.
Functions and powers of the University*

Queensland University of Technology Act 1998

Part 2 – The University and its Council

DIVISION 1 – UNIVERSITY ESTABLISHMENT
AND GENERAL FUNCTIONS AND POWERS

Establishment of University

4. (1) The Queensland University of Technology is established.
(2) The University –
(a) is a body corporate
(b) has a seal; and
(c) may sue and be sued in its corporate name

Functions of the University

5. The University’s functions are –
(a) to provide education at university standard; and
(b) to provide facilities for, and encourage, study and research; and
(c) to encourage the advancement and development of knowledge, and its application to government, industry, commerce and the community; and
(d) to provide courses of study or instruction (at the level of achievement the Council considers appropriate) to meet the needs of the community; and
(e) to confer higher education awards; and
(f) to disseminate knowledge and promote scholarship; and
(g) to provide facilities and resources for the wellbeing of the University’s staff, students and other persons undertaking courses at the University; and
(h) to exploit commercially, for the University’s benefit, a facility or resource of the University, including, for example, study, research or knowledge, or the practical application of study, research or knowledge, belonging to the University, whether alone or with someone else; and
(i) to perform the functions given to the University under this or another Act.

General powers of the University

6. (1) The University has all the powers of an individual, and may, for example –
(a) enter into contract; and
(b) acquire, hold dispose of and deal with property; and
(c) appoint agents and attorneys; and
(d) engage consultants; and
(e) fix charges, and other terms, for services and other facilities it supplies; and
(f) do anything else necessary or convenient to be done for, or in connection with, its functions.

(2) Without limiting sub-section (1), the University has the powers given to it under this or another Act.

(3) The University may exercise its powers inside or outside Queensland.

(4) Without limiting sub-section (3), the University may exercise its powers outside Australia.

* The University was established on 1 January 1989.
DIVISION 2 – COUNCIL ESTABLISHMENT AND GENERAL FUNCTIONS AND POWERS

Establishment of Council

7. There is a Council of the University.

Functions of Council

8. (1) The Council is the University’s governing body.
   (2) The Council has the functions conferred on it under this or another Act.

Powers of Council

9. (1) The Council may do anything necessary or convenient to be done for, or in connection with, its functions.
   (2) Without limiting sub-section (1), the Council has the powers given to it under this or another Act and, in particular –
      (a) to appoint the University’s staff; and
      (b) to manage and control the University’s affairs and property; and
      (c) to manage and control the University’s finances.

Council to promote the University’s interests

10. The Council must act in a way that appears to it most likely to promote the University’s interests.

Delegation

11. (1) The Council may delegate its powers under this Act to –
       (a) an appropriately qualified member of Council; or
       (b) an appropriately qualified committee that includes one or more members of the Council; or
       (c) an appropriately qualified member of the University’s staff
       (2) However, the Council may not delegate its power to –
           (a) make the University’s statutes or rules; or
           (b) adopt the University’s annual budget; or
           (c) to approve spending of funds available to the University by way of bequest, donation or special grant.
       (3) Despite subsection (2) (c), the Council may delegate its power to approve spending of funds mentioned in the paragraph if the expenditure is for a scholarship or a prize funded by bequest, donation or special grant.
The University has continued to manage its resources diligently to generate a solid surplus and maintain a strong balance sheet which supports a significant capital development plan within an increasingly competitive and resource intensive higher education sector.

The 2011 annual operating surplus was up when compared to 2010 due to several factors including the increased upfront recognition of multi-year consulting revenue from the Commonwealth, an increase in Commonwealth grants, and HECS Help and Fee Help Loan programs. These increases were partly offset by a drop in investment returns largely driven by unrealised losses due to the continuing volatility in equity markets, and higher cost of operations through investment in staffing and research capacity building initiatives.

The University’s financial position remains strong, underpinned by considerable holdings of property, plant and equipment and liquid assets (cash and investments) with very low debt positions.

INCOME STATEMENT

Income
($786 million, increased $57 million or 8 per cent)

Australian Government grants increased by $24 million (8 per cent) through increases in Commonwealth Grant Scheme $11 million; DIISR research grants $3 million; capital grants $6 million; and other Australian Government financial assistance $4 million.

The Higher Education Loan Program payments contributed a further increase to income of $10 million (7 per cent).

State and Local Government funding had a net increase of $2 million (25 per cent).

Fee income from courses increased by just under $16 million, though this figure includes revenue recognised for the first time for domestic higher degree research student fee waivers ($6 million) which has a matching and offsetting increase in expense for miscellaneous scholarships issued by QUT. In prior years, no fees were raised and no offsetting scholarships were recognised in the University’s accounts. Thus the net increase in 2011 for course income excluding QUT scholarships is approximately $10 million (7 per cent).

Miscellaneous income increased by $2 million (4 per cent) and consultancy and contract income increased by $19 million (52 per cent), driven largely by the receipt of funding totalling $14.5 million for the Focus School Next Step Initiative.

Investment income dropped by $17 million, largely driven by unrealised losses due to the continuing volatility of domestic and international equity markets.

Expenses
($723 million, increased $41 million or 6 per cent)

Employee-related expenses were the largest contributor increasing by $26 million (6 per cent) driven by a combination of factors including enterprise bargaining salary rate increases, and the introduction of a new entitlement for academic and senior staff to accrued annual recreation leave entitlements which were previously deemed to have been taken in the year they were earned. The Fair Work Australia Act prohibits deeming of leave taken and consequently leave liabilities have increased, though active management of these balances is being implemented and actioned to mitigate further cost pressures.

Depreciation and amortisation expense increased by $3 million (6 per cent) in line with expectations following the first full year of amortisation of the University’s new Student and Academic Management System, which was implemented in November 2010.

Other expenses increased by $14 million (7 per cent) though this result was skewed by the introduction of the recognition of QUT-provided scholarships for domestic higher degree research students ($6 million), which has an equal and offsetting amount in the Student Fee income category. Thus the net increase in 2011 for other expenses excluding QUT scholarships is approximately $8 million (4 per cent).

Operating Result and Margin
($63 million, increased $16 million or 35 per cent)

The University achieved a solid operating surplus of $63.6 million or 8.1 per cent operating margin (2010: $47.2 million or 6.5 per cent). This year’s operating result represents an increase of $16.4 million when compared to the prior year.

The 2011 result includes the upfront recognition of multi-year income for programs such as the Focus School Next Step Initiative and impacts of the abnormal income, expense and unrealised losses. When these impacts are excluded by applying a standard approach recommended by the Australian Institute of Company Directors, the underlying operating result and margin are $43.4 million and 5.8 per cent respectively. This is a very positive result above the benchmark target rate of 5 per cent across the budget triennium.
FINANCIAL POSITION

The Statement of Financial Position outlines the financial strength of the University and its capacity to meet current obligations and support long term priorities.

Net Assets
($1,195 million increased $64 million or 6 per cent)

QUT’s net asset position as at 31 December 2011 was $1195 million, representing an increase of $63.8 million (6 per cent). This increase was driven by several key factors including:

- the increase in non-current assets totalling $92 million driven by property, plant and equipment increases of $87 million where the major contributor was the construction in progress of the Science and Engineering Centre at Gardens Point;
- the increase in non-current liabilities totalling $6 million primarily associated with further draw downs and revaluations of interest free loans;
- a decrease in current assets totalling $43 million driven by a decrease in cash and cash equivalents of $13 million to cover cash flow needs in the capital program; the once-off net divestment in 2010 of the Carseldine campus and donated land totalling $16 million; reduction of $10 million in current receivables impacted by the change to the timing of student invoicing for first semester 2012; and a net reduction of $4 million in other financial assets flowing from unrealised losses in investments;
- a decrease in current liabilities of $21 million with the main contributor being the change in timing of invoicing student fees for first semester in 2012.

Buildings, land improvement and artworks were independently valued during 2011 though the revaluations did not impact materially on the asset base.

Liquidity Ratio (2.8:1)

The University’s liquidity ratio of current assets to current liabilities is currently placed at 2.8:1. This is well within the generally accepted better practice range for universities of 1.5 to 3.0. This outcome is at the higher end of the range but is deemed appropriate given the active management of funds held in cash and cash equivalents for the purpose of supporting the University’s strategies and significant asset management plan.

In conclusion, the University produced a solid underlying operating result for 2011 and the financial position remains strong to support the University’s budgeted plans, objectives and longer term aspirations.

1 Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes separate financial statements for the Queensland University of Technology (QUT) as the parent entity and the consolidated entity consisting of QUT and its subsidiaries.

(a) Basis of preparation

The annual financial statements represent the audited general purpose financial statements, which have been prepared on an accrual basis in accordance with Australian Accounting Standards, AASB Interpretations, the requirements of the Department of Education, Employment and Workplace Relations and other State/Australian Government legislative requirements.

Compliance with IFRSs

Australian Accounting Standards include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRSs ensures that the financial statements and notes comply with International Financial Reporting Standards (IFRSs). The financial statements and notes of the University comply with Australian Accounting Standards, some of which contain requirements specific to not-for-profit entities that are inconsistent with IFRS requirements.

Date of authorisation for issue

The annual financial report was authorised for issue by the Audit and Risk Management Committee on delegation of University Council as per the Certificate of the Queensland University of Technology.

Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial assets and liabilities (including derivative instruments) at fair value through profit or loss, and certain classes of property, plant and equipment.

Critical accounting estimates

The preparation of financial statements in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the consolidated entities accounting policies. In 2011 there were no such disclosures to report.

Changes in accounting policy and methodology and prior period error

In 2011, included for the first time in the University’s operating results is revenue recognised for domestic Higher Degree Research scholarships provided by QUT. An equal and offsetting expense has been accounted for under Miscellaneous Scholarships. In prior years, no fees were raised and no offsetting scholarships were recognised in the University’s account. Comparative results for 2010 have not been adjusted as there is no adequate and reliable estimates for the value of the 2010 domestic Higher Degree Research scholarships provided.

During the preparation of the consolidated accounts it was identified that an amount of $282,410 had been incorrectly classified as a current trade and other payables in 2010 when it should have been classified as non-current trade and other payables. This figure has been reclassified in the restated consolidated results for 2010.

As part of the annual review of accrued expenses and other payables, an error was identified in the opening balance of the prior year. This error related to funds arising from outside consulting work undertaken by QUT academics which had been incorrectly reported as a liability. This error impacts only on the Statement of Financial Position and has been corrected through a prior period adjustment.
1 Summary of significant accounting policies (continued)

The effect of this adjustment on the consolidated and parent entities is set out in the table below:

(b) Basis of consolidation

(i) Subsidiaries

The consolidated financial statements incorporate the results, assets and liabilities of all subsidiaries of QUT (parent entity) as at 31 December 2011. QUT and its subsidiaries together are referred to in this financial report as the consolidated entity.

Subsidiaries are all those entities (including special purpose entities) over which the consolidated entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the consolidated entity controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the University. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the consolidated entity (refer to note 1(g)).

Inter-company transactions, balances and unrealised gains on transactions between consolidated entity companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

(ii) Associates

Associates are entities over which the consolidated entity has significant influence, but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are not accounted for using the equity method of accounting, due to materiality. Investments in listed securities are recorded at fair value and unlisted securities are recorded at the lower of cost and fair value.

(iii) Joint ventures

Joint venture operations

Interests in the assets, liabilities and expenses of the joint venture operation have been incorporated in the financial statements under the appropriate headings. Details of the joint venture are set out in note 35.

Joint venture entities

The interest in the joint venture entity is not accounted for in the consolidated financial statements due to materiality.
1 Summary of significant accounting policies (continued)

(c) Foreign currency translation

(i) **Functional and presentation currency**

Items included in the financial statements of each of the consolidated entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Australian dollars, which is QUT’s functional and presentation currency.

(ii) **Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in the income statement.

(iii) **Consolidated entity companies**

The results and financial position of all the consolidated entity’s subsidiaries (none of which has the currency of a hyperinflationary economy) do not have a functional currency different from the presentation currency.

(d) **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The consolidated entity recognises revenue when: the amount of revenue can be reliably measured and it is probable that the future economic benefits will flow to the consolidated entity; and specific criteria have been met for each of the consolidated entity’s activities as described below. The amount of revenue is not considered to be reliably measured until all contingencies relating to the sale have been resolved. The consolidated entity bases estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognised for the major business activities as follows:

(i) **Government Grants**

QUT treats operating grants received from Australian Government entities as income in the year of receipt (refer note 2). Grants are recognised at fair value where QUT obtains control of the right to receive the grant, it is likely that economic benefits will flow to QUT and it can be reliably measured.

(ii) **Student fees and charges (including Government Loan Programs)**

Fees and charges are recognised as income in the year of receipt, except to the extent that fees and charges relate to courses to be held in future periods. Such income is treated as income in advance. Fees and charges relating to debtors are recognised as revenue in the year to which the prescribed course relates.

(iii) **Human resources**

Contract revenue is recognised in line with the percentage of the service performed. Other human resources revenue is recognised when the service is provided.

(iv) **Lease income**

Lease income from operating leases is recognised as income on a straight-line basis over the lease term, where material.

(v) **Sale of goods**

Revenue from the sale of goods is recognised upon the delivery of the goods to customers.

(e) **Income tax**

QUT is exempt from income tax, however the following subsidiaries are not:

- GeneCo Pty Ltd
- Brisbane Business School Pty Ltd
- QUT Enterprise Holdings Pty Ltd
- QUT Enterprise Holdings Trust
- qutbluebox Pty Ltd
- QUT bluebox Trust
- Creative Industries Precinct Pty Ltd
1 Summary of significant accounting policies (continued)

For the 2011 Financial Statements, the consolidated entity has not incurred an income tax liability. However, should an income tax liability be incurred in the future, deferred tax assets will be recognised for unused tax losses in cases where it is probable that future taxable amounts will be available to utilise those losses.

Income tax on cumulative timing differences will also be set aside to the deferred tax liability or the deferred tax asset account at the rates which are expected to apply when those timing differences reverse.

(f) Leases

Leases of property, plant and equipment, where the consolidated entity, as lessee, has substantially all the risks and rewards of ownership, are classified as finance leases (note 22). As at 31 December 2011, the consolidated entity had not entered into any finance leases.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases (note 32). Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis, over the period of the lease, where material.

Lease income from operating leases is recognised as income on a straight-line basis over the lease term, where material.

(g) Business combinations

The purchase method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given, equity instruments issued or liabilities incurred or assumed at the date of exchange.

(h) Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. Value in use is assessed as the depreciated replacement cost of land, buildings and leasehold improvements and the depreciated cost of other property, plant and equipment.

(i) Cash and cash equivalents

For statement of cash flow presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, term deposits, and other short-term, highly liquid investments. These investments have original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(j) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Cash flows relating to short term receivables are not discounted if the effect of discounting is immaterial, as their carrying amount is assumed to approximate their fair value.

Trade and other receivables are due for settlement within 21 days. Debtors arising from student fees are recognised at the amounts receivable, as sanctions are applied to students who do not pay. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off.

A provision for impairment of receivables is established when there is objective evidence that the consolidated entity will not be able to collect all the amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable is impaired. The amount of the provision is recognised in the income statement.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recorded in the income statement against 'impairment of assets’. When a trade receivable is uncollectable, it is written off against the allowance account for trade receivables, with subsequent recovery of amounts previously written off credited against 'impairment of assets’ in the income statement.
1 Summary of significant accounting policies (continued)

(k) Inventories

(i) Raw materials and stores

Raw materials and stores are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and other costs directly attributable to the acquisition of the item. Costs are assigned to individual items of inventory on the basis of weighted average cost. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(ii) Bookshop

Inventories are stated at the lower of cost and net realisable value. Cost is determined using a weighted average method of calculation.

(l) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale and stated at the lower of their carrying amount and fair value less costs to sell, if their carrying amount will be recovered principally through a sale transaction rather than through continued use.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale, that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale.

During 2010 the consolidated entity began negotiations with the Queensland State Government for the transfer of its Carseldine Campus, which included both the land and buildings. As a result these assets were reclassified as held for sale and carried at their fair value less costs to sell. Settlement of the Carseldine sale took place on 25 February 2011.

In late 2010 the consolidated entity also reclassified a block of land from 'Inventories' to 'Non current assets classified as held for sale' and listed the land for sale. The land was carried at its fair value less costs to sell. Settlement of the land took place on the 30th of May 2011.

(m) Investments and other financial assets

The consolidated entity classifies its investments in the following categories; financial assets at fair value through profit or loss; loans and receivables; and available-for-sale financial assets. Management determines the classification of its investments at initial recognition and re-evaluates this designation at each reporting date.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading. Financial assets in this category are classified as current assets, if acquired principally for the purpose of selling in the short term, or as non-current assets if management does not intend to dispose of the investment within 12 months of the statement of financial position date.

The University classifies a portion of its investments with Queensland Investment Corporation (QIC) as non-current assets, which represent the endowment funds. These investments are used to fund scholarships, prizes, sponsorships and research initiatives.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in receivables in the statement of financial position.

(iii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the statement of financial position date.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the income statement as gains and losses from investment securities.
1 Summary of significant accounting policies (continued)

(n) Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The University designates certain derivatives as either; (1) hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge); or (2) hedges of highly probable forecast transactions (cash flow hedges).

(i) Fair value hedge
Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

(ii) Cash flow hedge
The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in the income statement within other income or other expense.

Amounts that have been recognised in other comprehensive income are reclassified from equity to profit or loss as a reclassification adjustment in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of forward foreign exchange contracts hedging export sales is recognised in the income statement within ‘sales’.

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in other comprehensive income from the period when the hedge was effective shall remain separately in equity until the forecast transaction occurs. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was recognised in other comprehensive income shall be reclassified to profit or loss as a reclassification adjustment.

(iii) Derivatives that do not qualify for hedge accounting
Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognised immediately in the income statement and are included in other income or other expenses.

(o) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets (such as available-for-sale securities) is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by the consolidated entity is the current bid price.

For those financial instruments not traded in active markets other valuation techniques are applied, including adopting the investee’s net assets as a fair value measure.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values, due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate, which is available to the consolidated entity for similar financial instruments.

(p) Property, plant and equipment

Asset recognition thresholds:

(i) Land
Land purchased with a value equal to or greater than $1 is recorded at cost.

(ii) Buildings (including heritage buildings and land improvements)
Buildings constructed since the last revaluation with a value equal to or greater than $10,000 are initially recorded at cost.
1 Summary of significant accounting policies (continued)

Buildings which are capable of disaggregation into significant components are recorded as complex assets, so that the significant components and their remaining service potential are identified and depreciated independently to provide more reliable and relevant information. Buildings which are not capable of disaggregation into significant components are recorded as minor buildings.

Heritage buildings are entered or provisionally entered on the Queensland Heritage Register pursuant to the Queensland Heritage Act 1992.

(iii) Major plant and equipment
This asset class may be used at management discretion and includes assets with high price volatility, for example, specialised vehicles, shipping vessels and earthmoving equipment. The consolidated entity has not classified any assets within the 'Major plant and equipment' category.

(iv) Plant and equipment
Plant and equipment with a value equal to or greater than $5,000 is initially recorded at cost. However, plant and equipment donated to the consolidated entity is recorded at the consolidated entity's estimate of fair value in the year of donation.

(v) Leasehold improvement assets
Leasehold improvement assets with a value equal to or greater than $10,000 are initially recorded at cost.

(vi) Library – Reference
The consolidated entity does not hold any assets within the 'Library – Reference' category.

(vii) Heritage and cultural assets
Art collection purchases are initially recorded at cost. However, artwork donated to the consolidated entity is recorded at the consolidated entity’s estimate of fair value in the year of donation.

Depreciation

Depreciation on assets is calculated using the straight-line method to allocate cost (or re-valued amounts), net of residual values, over estimated useful lives. An assets' useful life is reviewed and adjusted if necessary each year. The following is a schedule of useful lives allocated to new assets:

<table>
<thead>
<tr>
<th>Category</th>
<th>Life (years)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings</td>
<td>20 - 100</td>
</tr>
<tr>
<td>Plant and equipment:</td>
<td></td>
</tr>
<tr>
<td>Motor vehicles</td>
<td>5</td>
</tr>
<tr>
<td>IT equipment</td>
<td>3 - 8</td>
</tr>
<tr>
<td>Other plant and equipment</td>
<td>3 - 20</td>
</tr>
<tr>
<td>Leasehold improvement assets</td>
<td>Unexpired period of the lease</td>
</tr>
<tr>
<td>Heritage and cultural assets</td>
<td>100 - 120</td>
</tr>
</tbody>
</table>

Assets are depreciated from the month after acquisition or, in respect of buildings, land improvements and leasehold improvements constructed, from the month after the asset is completed and ready for use. Land is not depreciated.

Restricted assets

The majority of the consolidated entity’s land is reserved for educational purposes under the Land Act 1994 (Queensland). The consolidated entity cannot sell this land or the assets which attach to it without Queensland Government permission.

Revaluations

The following information outlines the revaluation basis and frequency for each asset class:

(i) Land
An independent valuation of land, based on fair value, is carried out at least every five years and indexed in intervening years. In accordance with these requirements the next independent valuation will occur in 2014.

(ii) Buildings (including heritage and land improvements)
An independent valuation of buildings (including heritage and land improvements), based on fair value, being depreciated replacement cost, is carried out at least every five years and is indexed in intervening years. In accordance with these requirements an independent valuation of the buildings occurred in 2011.
1 Summary of significant accounting policies (continued)

In accordance with Queensland State Treasury policy, accumulated depreciation is restated following revaluation, to reflect the lapsed utility in the asset, with the change in the gross carrying amount of the asset. The carrying amount of the asset after revaluation therefore equals its revalued amount.

Increases in the carrying amount arising from revaluation of buildings are credited to the asset revaluation reserve in other comprehensive income. However, if the increase reverses a decrease previously recognised in the income statement, the increase is first recognised in the income statement to the extent of the original decrease. Decreases that reverse previous increases of the same asset are first charged against revaluation reserves through other comprehensive income to the extent of the remaining reserves attributable to the asset class, all other decreases are charged to the income statement.

(iii) Plant and equipment
All plant and equipment is recorded at cost and is not independently valued or indexed.

(iv) Leasehold improvement assets
All leasehold improvement assets above $10,000 are recorded at cost and are not independently valued or indexed.

(v) Heritage and cultural assets
An external, independent valuation of the QUT Museum collections, based on fair value, being current market value, is carried out at least every five years and indexed in intervening years. In accordance with these requirements an independent valuation of the museum art collections occurred in 2011.

Increases in the carrying amount arising from revaluation of the art collection are credited to asset revaluation reserve in other comprehensive income. However, if the increase reverses a decrease previously recognised in the income statement, the increase is first recognised in the income statement to the extent of the original decrease. Decreases that reverse previous increases of the same asset are first charged against revaluation reserves directly in equity to the extent of the remaining reserves attributable to the asset, all other decreases are charged to the income statement.

Revaluation increments and decrements may only be offset against one another within a class of non-current assets.

Indexations

Indexation is undertaken annually across a range of asset classes within property, plant and equipment, when an independent valuation is not scheduled to take place.

The consolidated entity indexes buildings (including heritage and land improvements) using rates from the Australian Bureau of Statistics. Buildings are indexed using the 'Non-residential Construction - Implicit Price Deflator Total Non-residential Building' and land improvements using the 'Engineering Construction - Work Done Implicit Price Deflator'. The next indexation will occur in 2012.

The consolidated entity's land values are indexed using rates provided by an independent valuer on a 'per campus' basis. In 2011 the consolidated entity's land values were indexed as follows: Gardens Point and Kelvin Grove Campuses 0% (2010 Gardens Point and Kelvin Grove Campuses 3.8%; and Carseldine Campus 3.3%)

The University's heritage and cultural assets are indexed using rates provided by the University's Art Curator. The next indexation will occur in 2012.

(q) Intangible assets

(i) Research and development
Expenditure on research activities is recognised in the income statement as an expense, when it is incurred.

Expenditure on development activities, including software development, relating to the design and testing of a new or improved product is recognised as an intangible asset after considering whether: it is commercially and technically feasible; it is probable that the project will be completed and will generate future economic benefits; its cost can be measured reliably; and the cost is greater than $100,000. The capitalised expenditure comprises all directly attributable costs, including costs of materials, services and direct labour. Other development expenditure is recognised in the income statement as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development expenditure is recorded as intangible assets and amortised from the point at which the asset is ready for use. Amortisation is calculated using the straight-line method to allocate the cost over the period of the expected benefit, which varies from 3 to 10 years.
1 Summary of significant accounting policies (continued)

(ii) Computer software
Computer software is stated at historical cost less amortisation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the University and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Computer software is amortised using the straight-line method to allocate the cost over the period of the expected benefit, which varies from 3 to 15 years.

(iii) Trademarks and licences
During the reporting period, the consolidated entity did not hold any significant trademarks or licences.

(r) Unfunded superannuation
The consolidated entity does not have any unfunded superannuation liabilities.

(s) Trade and other payables
These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within agreed trading terms.

(t) Borrowings
Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the consolidated entity has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date. Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non cash assets transferred or liabilities assumed, is recognised in other income or other expenses.

(u) Employee benefits
(i) Key executive management personnel and remuneration
Key executive management personnel and remuneration disclosures are made in accordance with DEEWR Guidelines and the Financial Reporting Requirements for Queensland Government Agencies issued by Queensland Treasury.
1 Summary of significant accounting policies (continued)

- **Key Executive Management Personnel**

The following details for key executive management personnel include those positions that had authority and responsibility for planning, directing and controlling the activities of the University during 2011.

<table>
<thead>
<tr>
<th>Position</th>
<th>Responsibilities</th>
<th>Contract classification and appointment authority</th>
<th>Date appointed to position (Date resigned from position)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vice Chancellor</td>
<td>The Vice Chancellor (VC) is responsible for the operation of the University.</td>
<td>The QUT Act provides University Council with the authority to approve recommendations to appoint the VC and the VC's remuneration is determined by the Chancellor's Committee on delegation from QUT Council.</td>
<td>Appointed April 2003</td>
</tr>
<tr>
<td>Deputy Vice Chancellor, Academic</td>
<td>The Deputy Vice Chancellor (DVC), Academic is responsible for the academic standards of the University.</td>
<td>The VC has the authority to appoint the DVC, Academic and determine remuneration as set out in the QUT Manual of Policies and Procedures (MOPP)</td>
<td>Appointed August 2009</td>
</tr>
<tr>
<td>Deputy Vice Chancellor, Research and Commercialisation</td>
<td>The DVC, Research and Commercialisation is head of the Division of Research and Commercialisation and is responsible to the VC for leading the University's research and commercialisation agendas.</td>
<td>The VC has the authority to appoint the DVC Research and Commercialisation as set out in the QUT MOPP</td>
<td>Appointed January 2008</td>
</tr>
<tr>
<td>Deputy Vice Chancellor, Technology, Information &amp; Learning support</td>
<td>The DVC, Technology, Information and Learning Support is head of the Division of Technology, Information and Learning Support, and is responsible to the VC for leading and coordinating the University's technology, information and learning support functions.</td>
<td>The VC has the authority to appoint the DVC, Technology, Information &amp; Learning support as set out in the QUT MOPP</td>
<td>Appointed July 2003</td>
</tr>
<tr>
<td>Deputy Vice Chancellor, International &amp; Development</td>
<td>The DVC, International and Development is head of the Division of International and Development, and is responsible to the VC for leading the University's international, development and engagement activities.</td>
<td>The VC has the authority to appoint the DVC, International &amp; Development as set out in the QUT MOPP</td>
<td>Appointed February 2008</td>
</tr>
<tr>
<td>Deputy Vice Chancellor, Learning &amp; Teaching</td>
<td>The DVC, Learning and Teaching is responsible to the Vice-Chancellor for leading improvements and advancements in teaching and learning quality in the University.</td>
<td>The VC has the authority to appoint the DVC, Learning &amp; Teaching as set out in the QUT MOPP</td>
<td>Appointed February 2011</td>
</tr>
<tr>
<td>Registrar &amp; Head, Administrative Services</td>
<td>The Registrar is head of the Division of Administrative Services, Secretary to Council and the chief administrative officer of the University, responsible to the VC for the administration of the University.</td>
<td>The VC has the authority to appoint the Registrar as set out in the QUT MOPP</td>

</tr>
<tr>
<td>Executive Director, Finance &amp; Resource Planning</td>
<td>The Executive Director, Finance and Resource Planning is head of the Division of Finance and Resource Planning, and is responsible to the VC for the finances and planning functions of the University.</td>
<td>The VC has the authority to appoint the Executive Director, Finance &amp; Resource Planning as set out in the QUT MOPP</td>
<td>Appointed March 2009</td>
</tr>
</tbody>
</table>

- **Remuneration**

Remuneration policy for the university's key executive management personnel is determined by the Vice Chancellor and reviewed by the Chancellor's Committee. The remuneration for the Vice Chancellor is determined by the Chancellor's Committee. Remuneration and other terms of employment for the key executive management personnel are outlined in the Employee Collective Agreement (Senior Staff) 09-12 and under individual employment contracts. University policy provides for the provision of performance related bonuses and other benefits which can include motor vehicles. During the 2011 year, key management personnel salaries were benchmarked to market and overall remuneration (excluding leave accruals) for this group increased by 6.5%.

Remuneration packages for key executive management personnel comprise the following components:-

Short term employee benefits which include:

- **Base** – consisting of base salary, allowances and leave entitlements paid and provided for the entire year or for that part of the year during which the employee occupied the specified position. Amounts disclosed equal the amount expensed in the Statement of Comprehensive Income.
- **Non-monetary benefits** – consisting of provision of vehicle together with fringe benefits tax applicable to the benefit.

Long term employee benefits include long service leave accrued.
1 Summary of significant accounting policies (continued)

Post employment benefits include superannuation contributions.

Redundancy for non contracted appointments, the Employee Collective agreement provides the notice period to be given. For contracted staff the individual employment contract will provide the terms and conditions of redundancy that will apply.

Performance bonuses may be paid or payable annually depending upon satisfaction of key criteria. Performance payments of the key executive management are capped at 10% of total fixed remuneration and the Vice Chancellor’s is capped at 15%. In exceptional circumstances QUT policy does allow for a bonus of 20% of total fixed remuneration. The amounts payable are tied to the achievement of pre-determined individual targets and organisational performance. The Vice Chancellor’s bonus is determined by the Chancellors Committee and approved by QUT Council.

(ii) Annual leave
The liability for annual leave is recognised in current provisions for employee benefits as it is due to be settled within 12 months after the end of the reporting period. It is measured at the amount expected to be paid when the liability is settled. Regardless of the expected timing of settlements, provisions made in respect of employee benefits are classified as a current liability, unless there is an unconditional right to defer the settlement of the liability for at least 12 months after the reporting date, in which case it would be classified as a non-current liability.

(iii) Wages and salaries
Liabilities for wages and salaries, including non-monetary benefits, expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees’ services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for sick leave are recognised when the leave is taken and measured at the rates paid or payable.

(iv) Long service leave
The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to anticipated future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that approximate the estimated future cash outflows.

(v) Retirement benefit obligations
Employees of the consolidated entity are entitled to benefits on retirement, disability or death from the consolidated entity’s superannuation plan. The consolidated entity has a defined benefit division and a defined contribution division within its plan. The defined benefit division provides a defined lump sum benefit or pension based on years of service and final average salary.

The UniSuper Defined Benefit Division (DBD), which is the predominant plan within the University, is a defined benefit plan under superannuation law however, as a result of amendments to Clause 34 of the UniSuper Trust Deed; it is deemed a defined contribution plan under Accounting Standard AASB 119 Employee Benefits. The DBD receives fixed contributions from the consolidated entity and the consolidated entity’s legal or constructive obligation is limited to these contributions. Additionally, any actuarial risk and investment risk falls on the consolidated entity’s employees.

(vi) Termination benefits
Termination benefits are payable when employment is terminated before the nominated appointment end date, or when an employee accepts voluntary redundancy in exchange for these benefits. QUT recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal, or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after statement of financial position date are discounted to present value.

(v) Rounding of amounts
The financial statements preparation software (ValueFinancials) used within QUT for the preparation of these statements, has an automatic rounding function which sums all accounts in a mapping group before rounding to the nearest $1,000.

Rounding adjustments are off set against inventories in the statement of financial position.

(w) Goods and Services Tax (GST)
Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case, it is recognised as part of the cost of acquisition of the asset or as part of the expense.
1 Summary of significant accounting policies (continued)

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flows.

(x) Arrangements containing a lease

In accordance with AASB Interpretation 4 Determining whether an arrangement contains a lease, the consolidated entity has determined that the following arrangement conveys the right to use an asset and has accounted for it in accordance with AASB 117 Leases:

(i) Caboolture Campus Shared Use Agreement

The agreement permits the shared use of the Caboolture Campus and facilities by QUT and The Brisbane North Institute of TAFE.

(y) Investment properties

During the reporting period, the consolidated entity did not hold any investment properties.

(z) Comparative amounts

Where the presentation or reclassification of items in the financial report is amended, comparable amounts shall be reclassified unless reclassification is impracticable. When comparable amounts are reclassified, QUT shall disclose:

- the nature of the reclassification;
- the amount of each item or class of items that is reclassified; and
- the reason for the reclassification.

When it is impracticable to reclassify comparative amounts, QUT shall disclose:

- the reason for not reclassifying the amounts; and
- the nature of the adjustments that would have been made, if the amounts had been reclassified.

(aa) New accounting standards and interpretations

Certain new Accounting Standards and Interpretations have been published that are not mandatory for 31 December 2011 reporting period. QUT will not be early adopting any of these standards as instructed by the Queensland Government financial reporting requirements for state government agencies and the Australian Government DEEWR reporting guidelines.

There are no new Accounting Standards and Interpretations applicable to the 31 December 2011 reporting period that have not been adopted by QUT.

(ab) Issuance of financial statements

The QUT Council has delegated the power to approve the financial statements to the Audit and Risk Management Committee. The financial statements are authorised for issue by the Chancellor, Vice Chancellor and Director, Corporate Finance (Chief Finance Officer) at the date of signing the Management Certificate.

(ac) Non-adjusting events after the end of the reporting period

None
2 Australian Government financial assistance including HECS-HELP and FEE-HELP

(b) Cash at bank and on hand
Cash at bank is an interest bearing account with interest received monthly. The effective interest rate as at 31 December 2011 was 3.75% (2010: 4.25%)

(c) Deposits at call
Deposits at call are interest bearing on floating interest rates. The effective interest rate as at 31 December 2011 was 5.40% (2010: 5.68%). These deposits are repayable with 24 hours notice.

(d) Term deposits
Term deposits are held for the purpose of meeting short-term cash commitments. Term deposits are bearing floating interest rates between 5.60% and 6.20% (2010: 5.45% and 5.62%). These deposits have an average maturity of 70 days (2010: 46 days).

The value of student debtors decreased by $26.435 million due to a change in the timing of first semester billing which brought forward the raising of invoices through the implementation of the new student and academic management system (SAMS) in 2010, whereas the billing for first semester 2012 was deferred to January 2012. For further information refer note to 27.

(a) Impaired receivables

As at 31 December 2011 current receivables of the group were impaired, with a nominal value of $4.044 million (2010: $4.538 million), comprising: student loans of $87,000 (2010: $44,000); trade receivables of $3.828 million (2010: $4.494 million); and student fees of $129,000 (2010: $0).

The ageing analysis of these receivables is as follows:

17 Receivables (continued)

As at 31 December 2011, trade receivables that were past due but not impaired totalled $6.673 million (2010: $6.172 million) and student fees of $762,000 (2010 $3.343 million). A large portion of the outstanding debt is owed by government agencies, which is considered recoverable. The decline in student fees is attributable to the introduction of the new student billing system (SAMS) creating a spike in 2010. The 2011 figure is more consistent with student fees for under 3 months to other prior years.

The ageing of these receivables is as follows:

<table>

Changes in fair values of other financial assets are recorded in the income statement, excluding Leaf Energy Ltd which is an available for sale financial asset and changes are recorded in other comprehensive income.

**Managed investment funds**

The QIC investment funds are split into two classifications, namely: non-current assets aligned to established endowment funds, for the purpose of supporting scholarships, prizes, sponsorship and research; and current assets which are untied and readily converted to cash to meet the current liabilities for accrued leave and various University initiatives or working capital requirements where necessary.

The University’s investment in SciVentures Pre-Seed Fund is for the purpose of supporting pre-seed stage research and development activities carried out by universities and Commonwealth public sector research agencies. The University’s holding represents less than 2% of total unit holdings in the fund. Sciventures Pty Ltd is the funds management company, licensed by the Commonwealth to manage the fund. The fund is valued using the net asset method.

**Subsidiaries**

The details of subsidiaries are set out in note 34.

**Listed securities**

Tissue Therapies Ltd (ASX:TIS) was established to develop and commercialise tissue technology. The University holds less than 5% (2010: 6%) of the shareholding in Tissue Therapies Ltd. Tissue Therapies Ltd share price decreased 47% during 2011 (2010: increased 350%).

Impedimed Ltd (ASX:IPD) was listed in October 2007. The University holds less than 1% (2010: less than 2%) of the total shares in Impedimed Ltd.

**Unlisted securities**

The University has investments across a number of companies. The University has not equity accounted for any unlisted securities, as the University’s investments in these companies are not material.

The Australian CRC for Interactive Design (ACID) Pty Ltd was incorporated in Australia and its core business is the research, development and commercialisation of content and technologies for the creative industries. ACID is currently in the process of winding up and it is unlikely the University will receive any distributions upon winding up. Whilst the University has a significant influence with 51% (2010: 51%) of the shareholding, the University does not control the entity with respect to its voting rights.
19 Other financial assets (continued)

The University has no significant influence on its remaining investments as follows:

- AARNet Pty Ltd provides network connectivity for Australian universities and the CSIRO. The University has less than 3% of the total shareholding in AARNet Pty Ltd. The shares are valued at cost.

- Education Australia Ltd is a company offering student placement and English language testing services. The University holds less than 3% of the shareholding in Education Australia Ltd. The shares are valued using the net asset method.

The University also has holdings with immaterial value. These holdings carry minimal value due to there not being an active market to trade or the shares are held as part of membership. These holdings include the following unlisted entities: Interesection Medical Inc. (US holding, formerly called Impedance Cardiology Systems); Cellborne Lipids Pty Ltd; Wound Management CRC Pty Ltd; Sacron Innovations Pty Ltd (the successor to Cooperative Research Centre for Sugar Industry Innovation through Biotechnology); and Smart Services CRC Pty Ltd.

(a) Instruments used by the University

QUT received approval to undertake limited derivative transactions by the Governor in Council on 03 February 2011 as cited in the Statutory Bodies Financial Amendment Regulation (No 1) 2011. The University is limited to foreign exchange forward contracts and foreign exchange options contracts only. With transactions limited to hedge against exposure to foreign currency rate movements in relation to payment of annual library subscriptions and purchase of high cost assets (refer to note 37).

In April 2011, cash flow projections of the University Library subscriptions were confirmed and foreign exchange forward contracts for USD $2.84 million were established. These forwards were created to provide certainty for the majority of the annual expenditure that primarily occurs during the period September through to December 2011. All forward contracts were fully exercised by year end. Compared to the daily Travelex spot rate, there was a mark-to-market exchange gain by using the forward contracts of $69,000.

(i) Forward exchange contracts - cash flow hedges

The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised directly in equity and the ineffective portion in profit or loss. When the cash flows occur, the University adjusts the initial measurement of the component recognised in the statement of financial position by the related amount deferred in equity.

22 Property, plant and equipment (continued)

Property, plant & equipment includes all operational assets.

Other property, plant & equipment includes non-operational assets such as artworks.

Buildings include buildings which are heritage listed. The value of these assets represents their functional service to the University rather than their heritage value to the State of Queensland, as the University’s main purpose in holding these assets is to provide educational services.

(a) Valuations of land and buildings

Land was indexed in 2011 using rates provided by an independent valuer. The next independent valuation of land is due in 2014 as detailed in note 1(p).

An independent valuation of Buildings (including heritage and land improvements) was carried out in 2011 in line with University policy as detailed in note 1(p).

(b) Non-current assets pledged as security

There are no non-current assets pledged as security by QUT or any of its controlled entities.

(c) Valuation of other property, plant and equipment

An independent valuation of the QUT museum collections was carried out in 2011 in line with University policy as detailed in note 1(p).

</tbody>
</table>

OS-HELP is a loan scheme to assist eligible undergraduate students to undertake some of their course of study overseas. Due to the short-term nature of current trade creditors, the carrying value is assumed to approximate the fair value.

This major movement in accrued expenses was driven by a net reduction of $4.2 million in accrual for voluntary early retirement scheme in 2011 when compared to 2010.

A prior period adjustment to accrued expenses of $2.58 million was brought to account during the 2011 year. The adjustment reduced the liability within accrued expenses and as a result the 2010 figures have been restated.

A prior period reallocation from current trade and other payables to non-current trade and other payables of $282,410 resulted in a restatement of the consolidated 2010 figures.

25 Borrowings (continued)

The Queensland Government, through the Smart State Research Facilities Fund and the Innovation Building Fund, has lent a total of $45.457 million towards the construction of: the Institute of Health and Biomedical Innovation (IHBI) $22.5 million; the Medical Engineering Research Facility (MERF) $5 million; the Plant Growth Facility $500,000; the Australian Research Centre for Aerospace Automation (ARCAA) $3.53 million; the Mackay Sugar Research Facility $3.1 million; and the Science and Technology Precinct $10.827 million. The $45.457 million in borrowings has a net present value of $13.499 million. All Smart State Research Facility Fund loans have been fully received and the only remaining Innovation Building Fund loan is the Science and Technology Precinct, with a remaining $24.173 million to be received in 2012. All loans are interest free with repayments commencing in year 11 of the term.

In November 2011 the University was granted approval to borrow a total of $125 million through the Queensland Treasury Corporation (QTC) for the following infrastructure projects; $78 million to finance part of the construction costs of the Science and Technology precinct; and $47 million to finance part of the construction cost of the Creative Industries Precinct – Phase II. The proposed borrowings are expected to be drawn down as follows; Science and Technology, $78 million in 2012; and Creative Industries Precinct, $47 million over 2012 and 2013. The proposed borrowings will be repaid over a period of 30 years subject to terms and conditions by QTC.

Under the State’s Borrowing Program, the University has access to an $11.5 million working capital loan facility through QTC. The working capital loan facility, which is a temporary overdraft (limit of up to 30 days) used for cash flow management, was not accessed during 2010 or 2011.

(a) Interest rate risk exposure

Details of the University’s exposure to interest rate changes on interest bearing liabilities are set out in financial risk management (refer note 37).

(b) Fair value disclosures

Details of fair value of interest bearing liabilities for the University are set out in financial risk management (refer note 37).

(c) Security

The University does not have any assets pledged as security for current interest bearing liabilities.

The carrying amounts of the University’s borrowings are denominated in the following currencies:

</tbody>
</table>

The annual leave provision reflects the amount of annual leave accrued as at 31 December 2011.

The long service leave provision reflects the amount of long service leave accrued as at 31 December 2011. The provision is calculated on the probability, based on corporate experience, of employees reaching an entitlement to long service leave. The current provision reflects the accumulated cost of long service leave for employees with over 10 years of service. The non-current provision reflects the accumulated cost of long service leave for employees with under 10 years of service.

The significant increase in annual leave liability has arisen from the change in policy which previously "deemed" annual leave to have been taken for senior staff and academics to now comply with the requirements of the Fair Work Act which allows the carrying forward of unused annual leave entitlements.

</tbody>
</table>

Lease expenses reflect the difference between actual and straight-line payments for operating leases held by the University as at 31 December 2011. Lease expenses were previously disclosed under provisions.

Unearned revenue consists of student fees received in advance and unearned as at 31 December 2011. The 2010 result included $25.815 million of fees for 2011 teaching periods mainly from enrolled continuing students. In 2010 a new student system was implemented which facilitated enrolment for the 2011 year in 2010. This effect was mitigated in 2011 by not permitting continuing students to enrol until 2012, reducing the comparative figure for 2011 which is significantly lower due to the billing not occurring until 2012. This is reflected in a similar decrease in student debtors balances (refer note 17).

Unearned revenue also includes a building lease incentive which is being amortised over the life of the lease term through to October 2016. This lease incentive was received in 2009 and the residual amount consists of a non-current component $2.515 million (2010: $3.184m) and a current component $1.374 million (2010: $1.084m).

Nature and purpose of reserves

The property, plant and equipment revaluation reserve holds the amounts of indexation and revaluation increases or decreases over the life of the University’s assets.

The available for sale asset revaluation reserve holds the amounts of revaluation increases or decreases over the life of the University’s available for sale investments.

The endowment fund is to be held in perpetuity for the benefit of future students through the provision of scholarships and bursaries.
29 Key management personnel disclosures

(a) Names of responsible persons and executive officers

The following were responsible persons and executive officers of QUT or its subsidiaries during the financial year:

Chancellor: Major General P Arnison, AC CVO (Retd)

Deputy Chancellor: Mr H Nalder (Resigned 31 December 2011)

Vice Chancellor: Prof P Coaldrae

Chair, University Academic Board: Prof K Bowman

Nominees of the Governor in Council:
- Prof A Kelso
- Ms H Gluer
- Mr H Nalder
- Dr J Puttick
- Dr L Perry
- Mr N Jarro
- Ms R Vilgan
- Mrs P Francini-O'Hagan

Nominees of Council: Prof M Wainwright, Mr D Fishel

Elected professional staff: Ms W Harper, Ms S Eastman

Elected academic staff:
- Prof J Clements
- Mr R Daniels
- Prof J Lidstone (Appointed 21 February 2011)
- Prof R Wolff (Resigned 10 February 2011)

Elected student members: Ms K Henderson, Mr J Phillpot

Elected alumni members: Ms M Vecchio, Dr T Baker

Secretary: Dr C Dickenson

Directors of Creative Industries Precinct Pty Ltd:
- Mr B Richards
- Mr C Cooke
- Mr D Fishel (Resigned 07 April 2011)
- Ms R Drinkwater
- Mr S Sheppard
- Prof S Street (Resigned 07 April 2011)
- Mr M Smellie (Appointed 13 April 2011)
- Prof R Wissler (Appointed 11 April 2011)

Secretary of Creative Industries Precinct Pty Ltd: Mr C Melvin

Directors of QUT Enterprise Holdings Pty Ltd:
- Prof P Coaldrae
- Prof K Bowman (Alternate Director)
- Mr R Mortimer
- Mr S Pincus
- Ms S Rix
- Mr J Puttick

Secretary of QUT Enterprise Holdings Pty Ltd: Ms K Trott
29 Key management personnel disclosures (continued)

(a) Names of responsible persons and executive officers (continued)

Directors of qutbluebox Pty Ltd
- Prof T Cochrane
- Prof A Sharma
- Mr A Loch
- Mr H Nalder
- Dr T Evans

Secretary of qutbluebox Pty Ltd
- Mr S Denaro

(b) Other key management personnel

The following persons also had authority and responsibility for planning, directing and controlling the activities of QUT during the financial year:

- Prof P Coaldrake, Vice-Chancellor, QUT
- Prof T Cochrane, Deputy Vice-Chancellor, Technology, Information & Learning Support, QUT
- Dr C Dickenson, Registrar & Head, Administrative Services, QUT
- Prof S Vaughan, Deputy Vice-Chancellor, Learning & Teaching, QUT
- Prof K Bowman, Deputy Vice-Chancellor, Academic, QUT
- Prof A Sharma, Deputy Vice-Chancellor, Research & Commercialisation, QUT
- Prof S Sheppard, Deputy Vice-Chancellor, International & Development, QUT
- Mr S Pincus, Executive Director, Finance & Resource Planning, QUT

All of the above persons were also key management persons during the year ended 31 December 2011.

(c) Remuneration of Board Members and Executives

The Board Members and Executives who received remuneration from the University, including the Chancellor in his role as head of the University Council (the University leases and maintains a motor vehicle and pays a membership to the Queensland Club for the Chancellor):

The 2010 compensation does not include provision for accrued annual recreation leave (University policy in 2010 was that annual recreation leave was deemed to have been taken in the year it was earned). The University changed this policy in 2011 as a result of new requirements under the Fair Work Australia act and provision for accrued annual leave is included in 2011 compensation. This effect has contributed to the increase in compensation between 2010 and 2011.

i GeneCo Pty Ltd was established to undertake research into gene probe technology. There is 1 share of 1,562,553 shares in GeneCo Pty Ltd that is not owned by the University. GeneCo Pty Ltd did not trade during the year. The net book value of GeneCo Pty Ltd has been fully diminished.

ii Brisbane Business School Pty Ltd was established in 1999 in order to establish the business name 'Brisbane Business School'. Brisbane Business School Pty Ltd did not trade during the year.

iii QUT Enterprise Holdings Pty Ltd was established in 2001 to act as the corporate trustee for QUT Enterprise Holdings Trust. QUT Enterprise Holdings Pty Ltd did not trade during the year.
34 Subsidiaries (continued)

iv QUT Enterprise Holdings Trust was established in 2001 as a holding entity for QUT owned entities established to undertake or to initiate, promote, facilitate and oversee research and development projects, and education and training programs in relation to any University discipline.

v qutbluebox Pty Ltd was established in 2006 to act as the corporate trustee for QUT bluebox Trust. qutbluebox Pty Ltd did not trade during the year.

vi QUT bluebox Trust was established in 2006 as an entity to carry out the commercialisation of QUT intellectual property.

vii Creative Industries Precinct Pty Ltd (trading as QUT Creative Enterprise Australia) is a subsidiary of QUT Enterprise Holdings Trust. Creative Industries Precinct Pty Ltd was established in December 2001 to manage and operate the Creative Industries Enterprise Centre in Kelvin Grove.

35 Jointly controlled operations and assets

(a) Kelvin Grove Urban Village (KGUV)

The University entered into a joint venture operation with the Queensland Government to develop a 16.5 hectare site adjacent to the present Kelvin Grove campus. The joint venture established the Kelvin Grove Urban Village (KGUV) to provide new opportunities in teaching, research and community engagement for the University. The completed joint venture operations include; the Creative Industries Precinct (CIP); the Institute of Health and Biomedical Innovation (IHBI); the Student Learning and Support Centre; and the Centre for Physical Activity, Clinical Education and Health (CPACEH).

Each party owns and controls its own land, however the agreement provides for the development of the site in a cooperative and coordinated manner. The University and the Queensland Department of Housing signed a Co-operation Deed that prescribes the processes, organisation and responsibilities for the development.

(b) 44 Musk Avenue (formerly Lot 13)

The University has a commercial arrangement for the lease of land and sub-lease of facilities on University land in the urban village. The land known as Lot 13 was leased to ING Healthcare in 2008 for 80 years and is the site of the Centre for Physical Activity, Clinical Education and Health (CPACEH). Rental for the land lease commenced at $330,000 per annum (indexed) (2011: $355,000), with reviews to market at 20, 40, 50, 60 and 70 years. At the completion of the 80 year lease all developments on the site (including the building) will transfer to the University. During the lease period, the University has the opportunity to buy the building from the developer at market value. Call options are available at 40, 50, 60 and 70 years.

The anchor tenant for this building is the Australian Red Cross Blood Service. The facility has additional retail and commercial space for other tenants. QUT has entered into an 80 year sub-lease agreement for space to house QUT’s health clinics and associated community education facilities residing at 44 Musk Avenue, Kelvin Grove. A further space housing a centre for physical activity and health has been leased to the University which has sub-leased the management of the community recreation facility incorporating a gymnasium, swimming pool and sports court. At the commencement of the lease, the sum of $19.46 million was paid to the developer as pre-paid rent for the University’s 80 year sub-lease. During the lease period the University is committed to making annual contributions towards common space, and capital expenditure, and leasing of car parking spaces. The University’s commitments totalled $723,000 per annum (2006) and after annual indexations, commitments now total $834,000 (CPI 2011: 3.58%).

After considering all the factors associated with this development and seeking professional advice, the University has elected to treat these arrangements as operating leases. Any other costs such as fit-out will be capitalised as leasehold improvements and depreciated according to the University’s accounting policy.

37 Financial risk management

The University's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The University's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the University. The University uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, aging analysis for credit risk and benchmark analysis in respect of investment portfolios to determine market risk.

(a) Market risk

(i) Foreign exchange risk
The risk to the University that currency fluctuations will occur due to changes in the foreign exchange rates is usually minimal, as the majority of contracts are in Australian dollars. Fees charged to overseas students are generally denominated in Australian dollars. For the small number of contracts settled in other currencies payment is usually made within thirty days. The exception to this, are contracts placed by the Library in Euros, GB pounds and US dollars early in the year, of which the majority are settled between September and December. QUT received approval to undertake limited derivative transactions by the Governor in Council on 03 February 2011 as cited in the Statutory Bodies Financial Amendment Regulation (No 1) 2011. The University is limited to foreign exchange forward contracts and foreign exchange options contracts only. Transactions are limited to hedge against exposure to foreign currency rate movements in relation to the payment of annual library subscriptions and purchase of high cost assets. All foreign exchange forwards contracts were exercised prior to year end.

The University monitors its exposure to foreign currency risk and responds to this in an ongoing manner as part of its budget review procedures where material.

(ii) Price risk
The risk to the University is that the value of a financial instrument will fluctuate as a result of changes in market prices. The University prices goods and services based on a combination of cost recovery, or market forces depending on the type of item supplied. The University's biggest exposures to competitive market movements in price levels are for its market based investments with QIC, where funds are invested in the QIC Growth Fund and the QIC Capital Stable Fund. The University monitors its investments with QIC and provides regular reports to management and University Council for high level review and action as required.

(iii) Cash flow and fair value interest rate risk
QUT minimises its exposure to fluctuating market interest rates by diversifying the University's investments in both cash and short term funding with approved financial institutions. The risk sensitivity adopted by the University is +/- 1%. This reflects market conditions generally, whereby interest rates have the capacity to move by these margins within a 12 month period.
### 37 Financial risk management (continued)

#### (iv) Summarised sensitivity analysis

The following table summarises the sensitivity of QUT's financial assets and financial liabilities to interest rate risk, foreign exchange risk and other price risk.

(1)QUT through the Smart State Research Facilities Fund and the Innovation Building Fund has received a total of $45.457 million to date (2010: $32 million), with a net present value of $13.499 million (2010: $7.946 million). These borrowings are not subject to interest.

### (b) Credit risk

The risk to the University that one party of a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss is considered minimal. The University undertakes credit checks on new debtors where the assessed value exceeds $5,000. In addition, credit risk is minimised by trading with a substantial number of parties. Credit checks are not required for government departments, public statutory bodies, and government and semi-government agencies. Where a customer fails a credit check, any work undertaken by the University must be paid for in advance.

For wholesale customers without credit rating, the University generally retains title over the goods sold until full payment is received. For some trade receivables, the University may also obtain security in the form of guarantees, deeds of undertaking or letters of credit which can be called upon if the counterparty is in default under the terms of the agreement.
37 Financial risk management (continued)

(c) Liquidity risk

The risk to the University that the entity will encounter difficulty in raising funds to meet commitments is managed within the University’s investment and borrowings policy. In which the investment policy keeps a safety net level of cash and cash equivalent financial assets in order to satisfy the University’s financial liabilities as they fall due. The University has a very strong statement of financial position and regularly monitors liquidity as part of its treasury operations, budget review and reporting arrangements. In regards to borrowings the University has an established working capital loan facility (up to $11.5 million for thirty days) to act as a safety net for short term cash demands, this facility has not been used in 2011 or 2010. The University also has borrowings through the Smart State Research Facilities Fund; the Innovation Building Fund; and in November 2011 the University was granted approval to borrow a total of $125 million through the Queensland Treasury Corporation (QTC). The borrowings through the Queensland Government’s Smart State Research Facilities Fund and the Innovation Building Fund are interest free and one third of the loan will be forgiven if all conditions of the loan are met. The approved QTC borrowings for infrastructure projects are interest bearing thirty year commercial loan agreements.

The University’s accounts payables and receivables are considered to be short term in nature.

Maturities of financial assets and liabilities

The following tables summarise the maturity of the University’s financial assets and financial liabilities:

# Note that the QIC Growth Fund rate has been recorded above as it accounts for the largest portion of the funds. The average rate for other QIC funds are as follows; the QIC Stable fund was 1.44% (2010: 5.4%) and the QIC Australian Fixed Interest Fund was 9.90% (new in 2011).
37 Financial risk management (continued)

(d) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by QUT is the current bid price. The fair value of financial instruments which are not traded is the net book value of those instruments (refer note19)

The carrying value less impairment provision of trade receivables and payables is a reasonable approximation of their fair value due to the short-term nature of trade receivables.

The fair value of forward exchange contracts is determined using forward exchange market rates at the balance date.

The University has loans repayable through the Smart State Research Facilities Fund. These are recorded at their net present value.

Due to the short-term nature of the current receivables, their carrying value is assumed to approximate their fair value and based on credit history it is expected that the receivables that are neither past due nor impaired will be received when due.

Certificate of the Queensland University of Technology

We have prepared the annual financial report pursuant to the provisions of the *Financial Accountability Act 2009 and Financial and Performance Management Standard 2009*, and other prescribed requirements and certify that:

(a) the financial reports are in agreement with the accounts and records of the Queensland University of Technology and its controlled entities; and

(b) in our opinion:

i. the prescribed requirements in respect of the establishment and keeping of accounts have been complied with in all material respects;

ii. the financial reports have been drawn up to present a true and fair view of the transactions of the Queensland University of Technology for the period 1 January 2011 to 31 December 2011 and of the financial position as at 31 December 2011 in accordance with prescribed accounting standards and conform with the Financial Statement Guidelines for Australian Higher Education Providers for the 2011 Reporting Period issued by the Department of Education, Employment and Workplace Relations;

iii. at the time of the certificate, there are reasonable grounds to believe that the University will be able to pay its debts as and when they fall due; and

iv. the amount of Australian Government financial assistance expended during the reporting period was for the purpose(s) for which it was intended and Queensland University of Technology has complied with applicable legislation, contracts, agreements and program guidelines in making expenditure.

INDEPENDENT AUDITOR'S REPORT

To the Council of the Queensland University of Technology

I have audited the accompanying financial report of Queensland University of Technology, which comprises the statements of financial position as at 31 December 2011, the income statement, statements of changes in equity and statements of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and certificates given by the Chancellor, Vice-Chancellor and Director Corporate Finance of the entity and the consolidated entity comprising the University and the entities it controlled at the year’s end or from time to time during the financial year.

The Council is responsible for the preparation of the financial report that gives a true and fair view in accordance with prescribed accounting requirements identified in the Financial Accountability Act 2009 and the Financial and Performance Management Standard 2009, including compliance with Australian Accounting Standards. The Council’s responsibility also includes such internal control as the Council determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based on the audit. The audit was conducted in accordance with the Auditor-General of Queensland Auditing Standards, which incorporate the Australian Auditing Standards. Those standards require compliance with relevant ethical requirements relating to audit engagements and that the audit is planned and performed to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control, other than in expressing an opinion on compliance with prescribed requirements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Council, as well as evaluating the overall presentation of the financial report including any mandatory financial reporting requirements approved by the Treasurer for application in Queensland.

I believe that the audit evidence obtained is sufficient and appropriate to provide a basis for my audit opinion.
Independence

The Auditor-General Act 2009 promotes the independence of the Auditor-General and all authorised auditors. The Auditor-General is the auditor of all Queensland public sector entities and can only be removed by Parliament.

The Auditor-General may conduct an audit in any way considered appropriate and is not subject to direction by any person about the way in which audit powers are to be exercised. The Auditor-General has for the purposes of conducting an audit, access to all documents and property and can report to Parliament matters which in the Auditor-General’s opinion are significant.

Opinion

In accordance with s.40 of the Auditor-General Act 2009 –

(a) I have received all the information and explanations which I have required; and

(b) in my opinion –

(i) the prescribed requirements in relation to the establishment and keeping of accounts have been complied with in all material respects; and

(ii) the financial report presents a true and fair view, in accordance with the prescribed accounting standards, of the transactions of the Queensland University of Technology and the consolidated entity for the financial year 1 January 2011 to 31 December 2011 and of the financial position as at the end of that year.

Other Matters - Electronic Presentation of the Audited Financial Report

This auditor’s report relates to the financial report of the Queensland University of Technology and the consolidated entity for the year ended 31 December 2011. Where the financial report is included on University’s website the Council is responsible for the integrity of the University’s website and I have not been engaged to report on the integrity of the University’s website. The auditor’s report refers only to the subject matter described above. It does not provide an opinion on any other information which may have been hyperlinked to/from these statements or otherwise included with the financial report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the audited financial report to confirm the information contained in this website version of the financial report.

These matters also relate to the presentation of the audited financial report in other electronic media including CD Rom.

B P WORRALL, FCA
Delegate of the Auditor-General of Queensland

Brisbane, 27 February 2012
The below listed controlled entities were established under authority of the Queensland University of Technology Act 1998 (Section 60).

**Brisbane Business School Pty Ltd**
The Brisbane Business School Pty Ltd was established in 1999 in order to establish the business name ‘Brisbane Business School’.

The company did not trade in 2011.

**Creative Industries Precinct Pty Ltd**
Creative Industries Precinct Pty Ltd was established in December 2001 to manage and operate the Creative Industries Enterprise Centre in the Kelvin Grove Urban Village. It operates under the name QUT Creative Enterprise Australia.

Creative Industries Precinct Pty Ltd traded in 2011. The company accounts are independently prepared and consolidated into the accounts of QUT Enterprise Holdings Trust. The Creative Industries Precinct Pty Ltd is audited by Crowe Horwath.

**Geneco Pty Ltd**
GeneCo Pty Ltd was established to undertake research into gene probe technology.

The company did not trade in 2011.

**QUT Enterprise Holdings Pty Ltd**
QUT Enterprise Holdings Pty Ltd was established in 2001 to act as the corporate trustee for QUT Enterprise Holdings Trust.

The company did not trade in 2011.

**QUT Enterprise Holdings Trust**
QUT Enterprise Holdings Trust was established in 2001 as a holding entity for new QUT-owned entities established to undertake or to initiate, promote, facilitate and oversee research and development projects, and education and training programs in relation to any University discipline.

Creative Industries Precinct Pty Ltd and qutbluebox ptty ltd are subsidiaries of QUT Enterprise Holdings Trust.

The Trust traded in 2011. The accounts are presented to QUT and consolidated with QUT accounts. QUT Enterprise Holdings Trust accounts are audited by Crowe Horwath.

**qutbluebox ptty ltd**
qubluebox ptty ltd is a subsidiary of QUT Enterprise Holdings Trust.

qutbluebox ptty ltd was established in 2006 to act as the corporate trustee for QUT bluebox Trust. The company did not trade in 2011.

**QUT bluebox Trust**
QUT bluebox Trust was established in 2006 to manage commercialisation activities on behalf of QUT. Under an agreed management and governance framework, QUT bluebox Trust will make decisions in relation to registration and use of intellectual property and the establishment of spin-off companies.

The Trust traded in 2011. The accounts are presented to QUT Enterprise Holdings and consolidated with QUT Enterprise Holdings Trust. QUT bluebox Trust accounts are audited by Crowe Horwath.

COMPLIANCE WITH CARERS (RECOGNITION) ACT 2008

Informing and educating staff about the carers charter:
The University provides for sick/carer’s leave in its Enterprise Agreements and University policy, and also provides information on sick/carer’s leave on the Human Resources website: www.hrd.qut.edu.au/staff/leave.jsp
There is also a link to this information from QUT’s Orientation (Welcome to QUT) website for new staff to the University.
The definition for carer in University policy includes grandparents, as defined by the Act.

Ensuring staff actively consider and provide for carers when developing policy, programs and services and in the way programs and services are delivered:
The University strongly supports flexible work practices for staff, including staff who are carers, as defined by the Act. The University has implemented a Work Life Balance framework that encompasses a range of policies, programs and support structures:

- Flexible work arrangements including:
  - Flexible hours arrangements for professional staff (see Clause 29 of the Enterprise Agreement [Professional Staff] )
  - Variable working hours scheme for professional staff (see MOPP B/7.1 )
  - Part-time work (see Clause 28 of the Enterprise Agreement [Academic Staff] and Clause 39 of the Enterprise Agreement [Professional Staff] )
  - Pre-retirement employment arrangements (see MOPP B/7.5)
- Job sharing
- Working from home arrangements
- Leave provisions (see MOPP B/6) including:
  - Reduced working year scheme
  - Personal/sick/carer’s leave
- Supportive structures and programs, including:
  - Health, safety and wellness programs
  - Employee assistance programs.

A website on the University’s Work Life Balance framework has been drafted and will go live shortly.

Having HR policies which take into account the needs of employees who might be carers: See above response

Ways in which the agency has, where appropriate, sought the views of carers:
The University undertakes internal consultation within the University with relevant organisational units when drafting policies and programs in relation to workplace entitlements/flexibility arrangements such as outlined in previous responses. These units include the Equity Section, Health and Safety Advisory Services, Governance and Legal Services and Human Resources. The University also ensures that policies and procedures adhere to current legislation, as appropriate.

UNIVERSITY POLICIES AND PROGRAMS TO SUPPORT STUDENTS WITH A DISABILITY OR WHO REQUIRE CARE

The University has a comprehensive suite of policies and support arrangements to assist students with a disability, injury or health condition.

Each semester, some 500 students have an individual service plan which encodes the adjustments and accommodations to their learning and assessment programs to give them a fair chance to succeed in their study programs. These plans are drawn up by Disability Advisers in consultation with the student and relevant faculty. Each faculty has a Disability Contact Officer to receive and implement these plans.

University-wide services around note-taking, adaptive technology, and alternative formatting are used by many of these students, and are a key part of their support services.

Special staff development sessions are held each semester, a comprehensive handbook is available for both staff and students, and awareness-raising activities are conducted in Orientation Week and Disability Week.

Students who use QUT’s Disability Services are surveyed every two years regarding their satisfaction, and the success and retention rates of the cohort are tracked annually.

Disability Advisers are actively involved in a state-wide ‘community of practice’ with disability advisers from other universities to share ideas and solutions.
