

Faculty of Health

Entry Programs (International)

- QC01 Foundation Program (1 Semester)
- QC02 Foundation Program (2 Semesters)
- QC03 Bridging Program
- QC04 Extended Foundation Program (3 Semesters)
- QC10 English for Academic Purposes for degree programs
- QC20 General English
- QC21 General English Extension
- QC22 English for Tertiary Preparation

Bachelor Degree

- HH02 Bachelor of Human Services 2008
- HH05 Bachelor of Social Work
- HM42 Bachelor of Applied Science (Human Movement Studies)
- HM45 Bachelor of Applied Science (Exercise and Sports Nutrition)
- NS40 Bachelor of Nursing (Graduate Entry)
- NS40 Bachelor of Nursing
- NS45 Bachelor of Nursing and Health Services Management
- OP42 Bachelor of Applied Science (Optometry)
- PU40 Bachelor of Health Science (Health Information Management, Health Services Management or Public Health)
- PU40 Bachelor of Health Science (Nutrition)
- PU43 Bachelor of Health Science (Nutrition and Dietetics)
- PU43 Bachelor of Health Science (Podiatry)
- PU46 Bachelor of Health Science (Paramedic)
- PU46 Bachelor of Health Science (Paramedic)- Graduate Entry
- PY45 Bachelor of Behavioural Science (Psychology)

Bachelor Degree (Double)

- HH10 Bachelor of Arts/Bachelor of Human Services
- HL40 Bachelor of Nursing/Bachelor of Applied Science (in Human Movement Studies)
- HL42 Bachelor of Applied Science (Human Movement Studies)/Bachelor of Health Science (Nutrition and Dietetics)
- HL43 Bachelor of Health Science (Podiatry)/Bachelor of Applied Science (Human Movement Studies)
- HL46 Bachelor of Nursing/Bachelor of Health Science (Public Health)
- HL48 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Health Science (Public Health)
- IF12 Bachelor of Arts/Bachelor of Behavioural Science (Psychology)
- IF73 Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Education (Secondary)
- IX04 Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)
- IX32 Bachelor of Business/Bachelor of Health Science (Health Services Management)
- IX43 Bachelor of Creative Industries/Bachelor of Human Services 2008
- IX45 Bachelor of Human Services/Bachelor of Justice 2008
- IX47 Bachelor of Applied Science (in Human Movement Studies) / Bachelor of Business
- IX50 Bachelor of Creative Industries (Media and Communication)/Bachelor of Health Science (Nutrition)

IX50 Bachelor of Creative Industries (Media and Communication)/Bachelor of Health Science (Public Health)

IX51 Bachelor of Behavioural Science (Psychology) / Bachelor of Business

IX52 Bachelor of Behavioural Science (Psychology) / Bachelor of Laws

NS50 Bachelor of Nursing / Bachelor of Midwifery

Honours

HH22 Bachelor of Human Services (Honours) 2008

HL50 Bachelor of Nursing (Honours)

HL52 Bachelor of Applied Science (Honours)

HL55 Bachelor of Health Science (Honours)

PY09 Bachelor of Behavioural Science (Honours Psychology)

Graduate Certificate

HH30 Graduate Certificate in Human Services 2008

HL38 Graduate Certificate in Health Science

IF88 Graduate Certificate in Risk Management

IX97 Graduate Certificate In Research Commercialisation

NS30 Graduate Certificate in Intensive Care Nursing

NS31 Graduate Certificate in Cancer Nursing

NS33 Graduate Certificate in Medical/Surgical Nursing

NS34 Graduate Certificate in Community Practice

NS35 Graduate Certificate in Paediatric, Child and Youth Health Nursing

NS36 Graduate Certificate in Women's Health

NS38 Graduate Certificate In Paediatric Intensive Care Nursing

NS39 Graduate Certificate in Aged Care

NS41 Graduate Certificate in Emergency Nursing

OP43 Graduate Certificate in Ocular Therapeutics

PU30 Graduate Certificate in Public Health

PU32 Graduate Certificate in Environmental Health

PU38 Graduate Certificate in Health Services Management

PU39 Graduate Certificate in Health Promotion

PY40 Graduate Certificate in Road Safety

Graduate Diploma

HH31 Graduate Diploma in Human Services 2008

HL68 Graduate Diploma in Health Science

NS64 Graduate Diploma in Nursing

NS68 Graduate Diploma in Midwifery

PU60 Graduate Diploma in Public Health

PU65 Graduate Diploma in Occupational Health and Safety

PU67 Graduate Diploma in Environmental Health

PY08 Graduate Diploma in Psychology

PY20 Postgraduate Diploma in Psychology

PY41 Graduate Diploma in Road Safety

Masters Degree (Coursework)

HH32 Master of Human Services 2008

HL88 Master of Health Science
IX20 Master of Psychology (Educational and Developmental)
NS85 Master of Nursing
NS86 Master of Nursing Science (Nurse Practitioner)
PU85 Master of Public Health
PY12 Master of Counselling
PY18 Master of Clinical Psychology

Masters Degree (Research)

HL84 Master of Applied Science (Research)

Doctoral

HL90 Doctor of Health Science
IF49 Doctor of Philosophy (Health)
PY50 Doctor of Psychology (Clinical)

Study Abroad (Non-degree)

NA05 International Visiting Students
NA06 International Visiting Students

Distance Learning

IF88 Graduate Certificate in Risk Management

Dual TAFE/QUT Awards

NA Diploma of Children's Services/Bachelor of Human Services
NA Diploma of Community Welfare Work/Bachelor of Human Services
NA Diploma of Justice Administration/Bachelor of Human Services
NA Diploma of Nursing (Pre-enrolment)/Bachelor of Nursing

University wide unit sets

Unit sets: Accounting and Economics

OVERVIEW

The QUT Faculty of Health aims to make significant contributions to the improvement of human health and wellbeing and the development of Australia's healthcare policy and services through our teaching, research and service activities.

The Faculty of Health is at the forefront of educating professionals in a range of allied health areas.

The Faculty of Health has a strong research focus and is actively engaged in continuing education and community service. The Faculty has more than 5000 students enrolled in undergraduate and postgraduate programs which are delivered through six discipline-based areas: Human Movement Studies, Nursing, Optometry, Psychology and Counselling, Public Health, and Social Work and Human Services.

Human Movement Studies offers programs that respond to the increasing community awareness of health, exercise, wellbeing, and fitness. A degree in Human Movement Studies equips graduates with the knowledge and skills for an active career in physical education, health education, rehabilitation, weight management, or exercise and sports science. Students apply their knowledge in supervised placements either off-campus or in the purpose-built clinical facility on campus.

QUT's **School of Nursing** is Queensland's oldest provider of nursing education. Always at the cutting-edge of its field, the School offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. Nursing graduates go on to work in a range of areas, including and beyond the traditional hospital ward. The School offers undergraduate programs in nursing, and nursing and midwifery as well as specialised postgraduate coursework and research programs.

Queensland's only **Optometry** training facility is located at QUT. The optometry degree prepares graduates for entry into the professional workforce and for Australia-wide registration. Students apply their knowledge through supervised clinical practice both in the School's purpose-built public optometry clinic and in community healthcare settings. A Graduate Certificate in Ocular Therapeutics is available. Postgraduate research programs are offered at Masters and PhD level.

Psychology and Counselling is located on QUT's spacious bushland campus at Carseldine. The School offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Programs provide students with the opportunity to gain practical qualifications that are well regarded in the community. The Bachelor of Behavioural Science (Psychology) is a three-year degree program that prepares graduates for further studies in psychology and for employment in a number of fields. Graduates aiming for professional registration may seek admission to a fourth year of study in either the Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology. Double degree programs are also available with Business and Law, providing students with a dual focus and extended employment opportunities. The School's postgraduate offerings include masters in counselling, clinical psychology and educational and developmental psychology, and a doctorate in clinical psychology. Postgraduate students have the opportunity to practice in the Psychology Clinic and a Family Therapy and Counselling Clinic.

Research programs are available at Masters and PhD level. A graduate certificate and graduate diploma in road safety is also available for those seeking qualifications in this specialist area.

Public Health is the most diverse of the Faculty's schools, offering undergraduate majors in podiatry, nutrition and dietetics, health information management, health services management, paramedic and public health. A range of articulated postgraduate programs is also offered in a number of specialised fields such as environmental health, health promotion, occupational health and safety, risk management, health services management, public health and health science.

Staff in the Faculty of Health maintain excellent ties with the health industry and work closely with national and international health and welfare organisations. These industry linkages ensure that the Faculty's programs deliver relevant skills and respond rapidly to emerging needs in health education in an era of advancing health technology.

A suite of **Social Work and Human Services** courses is available for those seeking employment in service and organisational settings including health and disability agencies, aged services, income support, child protection, juvenile justice, community programs, youth services, corrections, family support, counselling, international aid and development and social policy. The Human Services course is also offered as a double degree with Arts, Justice and Creative Industries to broaden career opportunities for graduates. Postgraduate programs in Human Services include a Graduate Certificate, Graduate Diploma and a Masters degree. Research programs are also available.

The **Faculty of Health** is headquartered at QUT's Kelvin Grove campus. At Kelvin Grove campus, three purpose-built complexes house state-of-the-art facilities including:

- teaching clinics for podiatry, optometry and human movement studies (children's activity and weight management programs, balance and gait assessment, health and fitness appraisals, and exercise prescriptions)
- a nursing clinical practice unit with operational hospital rooms and a clinical suite
- human movement laboratories for biomechanics, exercise physiology, motor control, and functional anatomy
- student computer laboratories with the latest in general and health-related software
- multimedia lecture theatres and tutorial rooms
- fully equipped research laboratories.

At the Caboolture campus a new nursing centre opens in 2008 to provide clinical practice facilities for nursing students studying at this campus.

SENIOR STAFF

Faculty Office

Dean: Professor K. J. Bowman AM, MScOptom *Melb*, LOsc, FAAO

Assistant Dean (Research): M.D. Courtney, BAdmin(Acctg) *Griff*, MHP *NSW*, PhD *NE*, RN, FRCNA

Social Work and Human Services

Professor: Vacant

RESEARCH CENTRES

Centre for Health Research

Research in the Faculty of Health is multidisciplinary, fostering collaboration and groundbreaking research across a number of health-related areas. The Faculty of Health is also involved in the Institute of Health and Biomedical Innovation (IHBI) which integrates Australia's most creative minds in Health, Science and Biomedical Engineering research. The key strengths of the Faculty of Health are:

Ageing

The effect of an ageing population has been identified as a global health and social issue. Research questions related to both the impact of age-related disease and successful ageing underpin current research projects in the Faculty of Health. Research activities in this area relate to community and residential care; dementia; pain and symptom management; palliative care; ocular disease and the effects of vision impairment; foot health; gait; mobility and posture analysis; disorders of movement; injury in older people; social identity; families; mental health; nutrition; cognition and cognitive/memory deficit; the older driver; the older worker; and active ageing.

Physical Activity

The role of physical activity in the maintenance and restoration of health is a significant emerging area. There is increasing evidence of the role of physical activity in the prevention, treatment and management of a range of chronic disorders. Research in this area is aimed at the promotion of physical activity during childhood and adolescence and the prescription of exercise in the context of chronic disease, and at community-based health behaviour interventions. Research into prevention and rehabilitation of occupational and sporting injuries requires assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on highrisk groups and prevention of older peoples' injuries. Other research into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease, and sleep apnoea is also being conducted.

Human Health and Wellbeing

Research activities in this area relate to health services, policy and management, and population health. Areas of strength include the management of chronic diseases such as cancer, diabetes, obesity, coronary heart disease, and other emerging health conditions. These include quality of life and resilience; improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; health-promoting schools and early childhood environments; and

prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention, development and implementation of nutrition assessment and screening tools, and evaluation of nutritional status.

Human Behaviour

Research in human behaviour embraces fundamental social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision making, child and adolescent development, memory, psycholinguistics, and the development of reading. Opportunities include research in addictive behaviour, eating, exercise, organic mental disorder, and health promotion. A range of research methods has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy, and counselling supervision.

Vision

Vision research provides an important resource for the community, industry, government and eye-care professions. There are a number of areas of collaboration with research activities in the other programs and across faculties deriving from the main research activities in this program which are visual optics, including aberrations of the eye and their correction; lens design and performance; myopia and optics of the eye; visual performance studies, including vision rehabilitation, vision and driving, and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electroretinography.

Centre for Accident Research and Road Safety (CARRS-Q)

Accident and Injury Prevention Research

Road safety and workplace accident prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety–Queensland (CARRS–Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre's charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on roads, in workplaces and in communities. The Centre aims to strengthen and broaden research and intervention development in the areas of vulnerable road users; illegal and high-risk behaviours; the human behaviour and technology interface; school and community-based road safety education; and workplace safety.

Institute of Health and Biomedical Innovation

How does your mind and body work?

Can you protect yourself from injury or illness?

What are the health care and treatment options?

The answers are not always available. Through research, IHBI is developing solutions that were previously unimaginable.

The Institute of Health and Biomedical Innovation (IHBI) integrates Australia's most creative minds in health, science and biomedical engineering.

IHBI takes a novel approach to solving health problems where there are no barriers and nothing is set in stone. IHBI researchers work at the interfaces between traditional scientific disciplines to solve the issues affecting the wellbeing of Australia and neighbouring communities.

Opening in 2006, IHBI is based in a progressive \$70-million facility at the Kelvin Grove Urban Village in Brisbane, Australia. IHBI is the result of collaboration between QUT, The Atlantic Philanthropies and the Queensland Government.

IHBI researchers, students and professional staff are organised into flexible teams able to apply their collective expertise to critical health issues.

Postgraduate training is a core element of IHBI's mission and the Institute offers world-class career opportunities across the spectrum of health, science and biomedical engineering research. Postgraduate students enrol in QUT through one of the faculties and are then able to conduct research through IHBI according to the nature of their projects. The research programs at IHBI are organised into six research domains including:

Cells and Tissue Domain

Investigating and restoring functionality to damaged human tissue: skin, muscles, bones, joints and eyes.

Tropical Crops and Biocommodities Domain

Growing plants that produce beneficial materials for human nutrition and therapy.

Vision Improvement

Caring for the eyes by advancing the techniques used to correct and maintain clear sight.

Medical Device Domain

Developing technologies to assist practitioners diagnose illness and injuries more accurately.

Human Health and Wellbeing Domain

Exploring critical health issues (eg ageing and chronic disease) and designing better community healthcare options.

Injury Prevention and Rehabilitation

Analysing and modifying human behaviour to avoid dangerous situations and developing strategies for damage recovery.

The Institute's business is promoting health and biomedical innovations in the community as well as in industry. The commercial outcomes of IHBI research generate new products and companies. IHBI facilitates the transfer of new knowledge into public policy, which leads to an improved health care industry. For more information visit www.ihbi.qut.edu.au

Bachelor of Human Services 2008**(HH02)****Year offered:** 2008**Admissions:** Yes**CRICOS code:** 058285C**Course duration (full-time):** 3 years**Course duration (part-time):** 6 years**Domestic fees (per credit point):** Commonwealth supported place; Full fee tuition 2008: \$135 per credit point (*subject to annual review*)**Domestic fees (indicative):** 2008: Full fee tuition \$12,960; CSP \$5,095**International Fees (per semester):** 2008: \$7,968 per semester (*subject to annual review*)**Domestic Entry:** February and July**International Entry:** February and July**QTAC code:** 440071**Past rank cut-off:** 69**Past OP cut-off:** 15**OP Guarantee:** Yes**Assumed knowledge:** English (4, SA)**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com**Total credit points:** 288**Standard credit points per full-time semester:** 48**Standard credit points per part-time semester:** 24**Course coordinator:** Ms Jenny Felton**Campus:** Carseldine**Course Outline**

The Bachelor of Human Services has a strong focus on contemporary social issues and produces competent human services workers who will care for and protect the rights of people, families and communities. You will complete 24 units of study.

You will specialise in at least one service area:

- aged services
- child and family services
- corrective services
- disability services
- services to young people

You will develop a range of professional skills such as:

- casework and case management
- social policy processes
- team practice and group processes
- community work
- crisis and conflict resolution
- social research methods
- Indigenous Australia
- child protection intervention

Professional Practice Placements

You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer

placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Service Contexts**AGED SERVICES**

Aged services units will focus your attention on the historical, social, and cultural scene within which services to older adults operate; aspects of intelligence, memory and learning in relation to ageing; and perspectives of work and retirement. You will investigate the home environment and living with change, relations with family members, and dealing with death and grief. You will explore issues around the health and wellness status of older adults and will investigate the needs of this group of people as they grow older in the Australian environment. Throughout this unit you will develop a critical awareness of practice issues and the impact of ethical considerations.

CHILD AND FAMILY SERVICES

Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES

In corrective services units you will examine contemporary issues and practices in corrective services through empirical data and current corrective services practices. You will explore the function of prisons, prisoner rehabilitation, criminal behaviour trends, capital punishment, juvenile justice, the future of prisons, victims of crime, and restorative justice. You will develop critical-thinking and problem-solving skills as well as strategies to prepare you for employment within corrective services.

DISABILITY SERVICES

Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to

HEALTH

explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE

These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.

Professional Membership

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Reaccreditation application is currently in process).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Full-time Course Structure

Year 1, Semester 1

HHB116	Applied Skills And Scholarship
HHB103	Contemporary Social And Community Issues
HHB114	Introduction To Human Rights And Ethics
HHB102	The Human Condition

Year 1, Semester 2

HHB100	Introduction to Human Services and Social Work
HHB113	Interpersonal Communication
	One unit from List C (as badged for first year)
	EITHER
HHB104	Understanding Society: Intro To Sociology
	OR
HHB112	Australian Politics

Year 2, Semester 1

HHB208	Introduction To Practice
HHB209	Developing Professional Frameworks
HHB278	Practice Theories
HHB279	Human Services processes and Methods

Year 2, Semester 2

HHB200	Working In Human Service Organisations
HHB277	Ethical and Legal Dimensions of Human Service
	One unit from List B
	One unit from either List B or List C

Year 3, Semester 1

HHB302	Complexity in Human Service Practice
	One unit from List D
	One unit from List C
	Any other elective unit

Year 3, Semester 2

HHB300	Current Developments In Human Services
HHB301	Advanced Professional Practice

Part-time Course Structure

Students wishing to study on a part-time basis should consult the

timetable and the course coordinator before selecting an enrolment program

NOTE: it may not be possible to undertake all units in the evening.

Electives (Lists B-D)

List B - Introductory Service Contexts Units (Available Semester 1 only)

HHB203	Aged Services: Introduction
HHB204	Child And Family Services: Introduction
HHB205	Corrective Services: Introduction

- HHB206 Disability Services: Introduction
- HHB207 Services To Young People: Introduction

List C - Professional Skills Units

- HHB117 Introduction To Social Research Methods
- HHB210 Indigenous Australia: Country, Kin And Culture
- HHB211 Casework And Case Management
- HHB212 Community Work
- HHB213 Social Policy Processes
- HHB214 Team Practice and Group Processes
- HHB216 The Human Dimensions Of Space
- HHB319 Child Protection Intervention Skills
- HHB282 Advanced Communication in Human Services

List D - Advanced Service Contexts Units (Available Semester 1 only)

- HHB303 Aged Services: Advanced
- HHB304 Child And Family Services: Advanced
- HHB305 Corrective Services: Advanced
- HHB306 Disability Services: Advanced
- HHB307 Services To Young People: Advanced

Potential Careers:

Administrator, Adult/Workplace Educator, Aged Services Worker, Child Protection Officer, Community Corrections Officer, Community Education Officer, Community Worker, Corrective Services Officer, Disability Services Worker, Family Services Officer, Government Officer, Human Services Practitioner, Policy Officer, Public Servant, Social Scientist, Youth Worker.

Bachelor of Social Work (HH05)

Year offered: 2008

Admissions: Yes

CRICOS code: 063034B

Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: Full fee tuition \$12,960; CSP \$5,095

International Fees (per semester): 2008: \$7,968 per semester (*subject to annual review*)

Domestic Entry: February and July

International Entry: February and July

QTAC code: 440402

Past rank cut-off: 74

Past OP cut-off: 13

OP Guarantee: Yes

Assumed knowledge: English (4,SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Mr Ross Daneils

Campus: Carseldine

Overview

The social work program at QUT is committed to promoting an inclusive society based on principles of social justice, empowerment and human rights. The combination of course work and field education is geared to developing an effective and ethically responsible professional who can apply disciplinary knowledge and theory using a variety of intervention processes and methods to everyday practice realities and contexts in a way that enhances the rights, worth, wellbeing and dignity of people.

Course Structure

The Bachelor of Social Work can be undertaken as either a four year undergraduate program or as an advanced standing two year program following two years of approved undergraduate study. Students will complete specialist units in child and family services, aged services, corrective services, disability services, or services to young people. Distinctive study pathways are also available. The child protection pathway will enable students to choose core and elective units which will best prepare them for practice in statutory child protection settings such as the Queensland Department of Child Safety. The international practice pathway will provide students with the knowledge and opportunity to undertake social work practice in other national contexts, and give them priority in undertaking a major placement in an overseas agency. The research pathway provides students with the knowledge and skills to undertake research designed to improve services and creates a solid foundation for postgraduate research programs. The social work program involves two placements, each of 490 hours, where the student's skills are further developed in real world settings. Students are able to graduate with honours on the basis of achieving a GPA of a certain standard.

ADDITIONAL SUMMER ENROLMENT COURSE

REQUIREMENTS FOR ALL ADVANCED STANDING STUDENTS (FEBRUARY AND JULY) AND 4 YEAR PROGRAM MID-YEAR ENTRY STUDENTS

HBB338 Social Work Practice and Fieldwork 1 and HBB339 Linking Social Work Theory, Ethics and Practice 1 are scheduled outside of semester (during the Summer teaching period) and students enrolled in these units will need to be available at that time to complete these units.

Career Outcomes

Social Workers are employed in a wide variety of service and organisational settings in Australia and overseas, both government and non-government. These include social work in health and disability agencies, income support, child protection, juvenile justice, community programs, youth services, corrections, family support, counselling, international aid and development and social policy.

Blue Card

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Recognition

Graduates are eligible to apply for membership of the Australian Association of Social Workers (AASW).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Bachelor of Arts/Bachelor of Human Services (HH10)

Year offered: 2008

Admissions: Yes

CRICOS code: 058397F

Course duration (full-time): 4 years

Course duration (part-time): 8 years

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: Full fee tuition \$12,960; CSP \$5,095

International Fees (per semester): 2008: \$7,968 per semester (*subject to annual review*)

Domestic Entry: February and July

QTAC code: 440091

Past rank cut-off: 69

Past OP cut-off: 15

OP Guarantee: Yes

Assumed knowledge: English (4, SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 384

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Iraphne Childs (Dr Phil Crane Humans Services)

Campus: Carseldine

Course Structure

This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements

As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning

plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Course duration (part-time): 4 semesters

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: Full fee tuition \$12,960; CSP \$4,996

International Fees (per semester): 2008: \$7,968 per semester (*subject to annual review*)

Domestic Entry: February and July

International Entry: February and July

Total credit points: 96

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Judith Burton

Campus: Carseldine

Overview

An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements

For QUT applicants graduating from the Bachelor of Human Services the following is required:

- an overall grade point average of 5; and
- a grade of 5 for the subject HHB117 Introduction to Social Research Methods.

For applicants graduating from other degrees the following is normally required:

- an overall grade point average of 5; and
- completion of at least eight units out of 16 at the second- and third-year level in human service subjects or their equivalent with a grade of 5 in at least two of these subjects.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure

The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all

units. The final mark for the course is determined on the basis of marks assigned in the coursework unit Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time Course Structure

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Full-time Course Structure

Semester 1

HHB403 Literature Review

HHB404 Honours Thesis 1

Advanced Elective (An advanced Unit selected in consultation with supervisor and approved by the honours coordinator. The recommended elective is HHP011 Critical Issues in the Human Services

Research Elective - to be selected in consultation with supervisor

Semester 2

Standard credit points per part-time semester: 24

Course coordinator: Dr Judith Burton

Campus: Carseldine

Overview

If you are an employee in the community services industry, this course will help you respond to industry restructuring. It will give you a comprehensive understanding of new styles of service delivery, and upgrade your professional and management skills, preparing you for leadership of human services agencies. If you hold an undergraduate degree in psychology, education, nursing or related professions and are seeking employment in human services, this course will provide you with core knowledge and skills in a range of practice fields.

Entry requirements

Applicants must have:

- a three year undergraduate degree in human services or social work; or

- a three-year non-human services undergraduate degree with at least one year of demonstrated employment experience in the community service industry or related occupations such as teaching, nursing or allied health, community development, psychology or law.

Alternatively, students with at least five years of experience in the human services industry who can establish to the satisfaction of the course coordinator that they have accumulated the requisite academic capacity to function at a postgraduate level will be accepted into the Graduate Certificate. Capacity may be established by presenting reports or a submission prepared.

HHP007	Youth Services - Graduate Studies

Potential Careers:

Aged Services Worker, Child Protection Officer, Community Corrections Officer, Community Education Officer, Community Worker, Corrective Services Officer, Disability Services Worker, Family Services Officer, Government Officer, Human Services Practitioner, Policy Officer, Public Servant, Social Scientist, Youth Worker.

Master of Human Services 2008 (HH32)**Year offered:** 2008**Admissions:** Yes**CRICOS code:** 058284D**Course duration (full-time):** 3 semesters**Course duration (part-time):** 6 semesters**Domestic fees (per credit point):** 2008: \$135 per credit point (*subject to annual review*)**Domestic fees (indicative):** 2008:\$12,960**International Fees (per semester):** 2008: \$7,968 per semester (*subject to annual review*)**Domestic Entry:** February and July**International Entry:** February and July**Total credit points:** 144**Standard credit points per full-time semester:** 48**Standard credit points per part-time semester:** 24**Course coordinator:** Dr Judith Burton**Campus:** Carseldine**Overview**

If you are an employee in the community services industry, this course will help you respond to industry restructuring. It will give you a comprehensive understanding of new styles of service delivery, and upgrade your professional and management skills, preparing you for leadership of human services agencies. If you hold an undergraduate degree in psychology, education, nursing or related professions and are seeking employment in human services, this course will provide you with core knowledge and skills in a range of practice fields.

Entry requirements

Applicants must have:

- a three-year undergraduate degree in human services or social work; or

- a three-year non-human services undergraduate degree with at least one year of demonstrated employment experience in the community service industry or related occupations such as teaching, nursing or allied health, community development, psychology or law; or

- successful completion of Graduate Diploma in Human Services; and

- normal requirement of grade point average of 5 or equivalent.

Course Structure

You will study four core units and have a wide choice of elective units. You may choose electives from those listed here or, in consultation with the course coordinator, any advanced unit across the University. The scope of elective choice depends on your undergraduate degree. For the Practice Related Research units, you will select and work under the supervision of a member of academic staff to undertake a research project. The resulting report, the thesis (15 000 -18 000 words), should demonstrate your in-depth knowledge of a topic of your choice as well as your ability to design and conduct research.

All Graduate Studies units are offered subject to availability.

Please contact the course coordinator for advice on nominating a part-time course load.

Related courses

Graduate Diploma in Human Services (HH31)

Full-time Course Structure

At least three units from the following:

HHP011	Critical Issues In The Human Services
HHP012	Leadership In The Human Services
HHP013	Managing Human Service Organisations
HHP015	Contracting and Policy in the Human Services

At least one of the following:

HHN410	Logic of Social Inquiry
HHN016	Research Methods for Professional and Organisational Development

These five project focused units

HHP020-1	Practice Related Research 1
HHP020-2	Practice Related Research 2

Up to 3 electives from the following or any postgraduate unit as approved by the Course Coordinator

HHP004	Child And Family Services - Graduate Studies
HHP006	Disability Services - Graduate Studies
HHP007	Youth Services - Graduate Studies

Potential Careers:

Aged Services Worker, Child Protection Officer, Community Education Officer, Community Worker, Corrective Services Officer, Counsellor, Disability Services Worker, Family Services Officer, Government Officer, Human Services Practitioner, Policy Officer, Public Servant, Social Scientist, Youth Worker.

New initiative - Health Professional Education study option

From second semester 2008 a new part-time study option, Health Professional Education, will be available to students enrolled in the Graduate Certificate in Health Science.

Students entering the program in 2008 will undertake EDN630 Higher Education: Curriculum Design, Assessment and Evaluation and an elective in second semester 2008, and EDN626 Learning and Teaching in Higher Education plus a new unit Clinical Education in Health in first semester 2009.

University approval is being sought to have study areas available in HL38 from 2009 and, if approval is given, Health Professional Education will become a study area in the program.

Overview

The course provides a broad range of options for study at the Graduate Certificate level. Students can select four (4) units from across a range of Faculty of Health units. It is designed for students who do not want to specialise but prefer to select a combination of units to meet their needs. Selection of units is subject to approval by the course coordinator.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and online learning.

Entry Requirements

Students must hold an appropriate bachelor degree or other qualifications/work experience acceptable to the Executive Dean.

Course Structure

Students are required to complete any four units (totalling 48 credit points) from List A. No more than two (24 credit

points) senior undergraduate units can be included in the total.

Course Articulation

This course articulates fully into the Graduate Diploma in Health Science and the Master of Health Science

Special Note

Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduands to practice in these areas.

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Overview

This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in nursing and is able to apply your knowledge and skills to clinical health, fitness and rehabilitation.

Why choose this course?

QUT has the longest running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course.

The course provides a good balance of nursing theory and practice and supporting studies in biological, behavioural and social science, and the humanities, together with studies in human movement relevant to many health care settings.

Career Outcomes

This double degree prepares multi-skilled professionals who meet current requirements for employment in the area of nursing and, in addition, can apply their knowledge and skills in exercise and sports science settings.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au

Graduates are also eligible for membership of the Australian Association for Exercise and Sports Science.

Recommended Study

Any of Maths B or C, Biological Science, Chemistry, Health Education, Physical Education or Physics.

Other Course Requirements

The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. You will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units and you are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1. Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately \$500.

The human movement studies component requires the purchase of the practicum shirt (approximately \$50). Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

blue card Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Further Information

For detailed information about this double degree, please call the School of Nursing +617 3138 3824 or email nursing.enquiries@qut.com

Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course coordinator: Human Movement Studies: Dr Michael McDonald; Nutrition and Dietetics: Dr Susan Ash
Campus: Kelvin Grove

Overview

This double degree program will prepare you as a multi-skilled professional who meets current requirements for employment as a nutritionist/dietitian, and in a range of exercise and sports science professions. At present, the demand for sports nutritionists is growing rapidly and there is a growing field in the area of rehabilitation science for people with dual qualifications.

Why choose this course?

This double degree will prepare you for a career in the exercise, health, rehabilitation, nutrition and dietetics, and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background, complemented by practical skills obtained from a variety of practicum placements. Practicum locations can include placements in rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, or the health and fitness industry. Opportunities exist to pursue these practicum placements at local, state, national and international locations.

Career Outcomes

Career settings include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, health and fitness industry, and personal training.

Professional Membership

Graduates are eligible for membership of the Dietitians Association of Australia (DAA), and may enrol in the Accredited Practising Dietitian (APD) program. Graduates are also eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS) with specialist accreditation as exercise physiologists.

Honours

A degree with honours may be awarded to a student who has recorded outstanding achievement in a component of the double degree program.

Other Course Requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately \$50), attainment of a current first aid certificate prior to the commencement of your third year, and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

Students who are required to undertake placements off-campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination is required before placement in Queensland Health facilities.

OP Guarantee

The OP Guarantee does not apply to this course.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and

accepted to continue as a fee-paying student.

Undergraduate domestic full fee places (Dfee) are not available in this course.

Find out more on Dfee.

Course coordinator: Dr Alan Barnard

Campus: Kelvin Grove

Overview

This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in the area of nursing and is able to apply knowledge of public health.

Why choose this course?

Graduates of this double degree develop skills the complementary areas of nursing and public health. Not only are graduates eligible for Queensland Nursing Council registration, but they also develop skills in public health areas such as Indigenous health, population health problems and risk factors for illness.

Career Options

Graduates will find employment in various health care settings or health promotion agencies.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au. Graduates are also eligible for membership of the Public Health Association of Australia and the Australian Association of Health Promotion Professionals (AAHPP).

Other Course Requirements

The clinical practice units require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice at a cost of approximately \$150. As part of the nursing program, you will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units. You will also be required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately \$500.

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

blue card Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Further Information

For detailed information about this double degree, please call the School of Nursing +617 3138 3824 or email nursing.enquiries@qut.com

Overview

This double degree program will prepare you as a multi-skilled professional who will have an understanding of exercise and sports science and public health. Graduates may work in the area of physical activity to develop policy and programs to improve the health of the public and to help prevent and manage chronic disease.

The human movement studies component develops skills for careers in health and wellness, clinical health, fitness and rehabilitation, workplace health, fitness and safety. Teaching clinics give students practical experience in various areas such as activity and weight management, health and fitness, and exercise prescription.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population's health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?

With the percentage of the Australian population with preventable chronic diseases such as diabetes, obesity and heart disease growing, there is a demand for graduates who can use their skills to address these health issues. Graduates from the double degree will have skills in the two

complementary areas of population health and physical activity so they can contribute effectively to improving the health of Australian communities.

Human Movement Studies

The course provides skills and theoretical knowledge across the basic sciences of human and functional anatomy, exercise physiology as well as studies in biomechanics, motor learning and control, and exercise and sports psychology.

Public Health

The course provides knowledge and skills to address major health issues with a focus on community health, nutrition, and health promotion. During the course students will study epidemiology, biostatistics, health promotion, understanding disease, culture, psychology and health behaviours.

Career Outcomes

Graduates of the double degree may work in local and state government and in family and community service organisations, as physical activity program planners, policy analysts, project managers, health promotion officers, and physical activity program evaluators.

Human Movement Studies

Graduates can work in a range of exercise and sports science settings such as corporate health, family and community services, the health and fitness industry, local/state government agencies, state sporting associations, institutes of sport, universities and colleges, and personal training.

Public Health

Graduates work as community health officers, policy officers, program evaluators, health promotion officers in community health, project officers, and consultants. They work in both public and private sectors such as state and federal health departments, population health units, community health centres, divisions of general practice, nongovernment and health organisations, and international health agencies.

Professional Membership

Australian Association of Exercise and Sports Science (AAESS); Public Health Association of Australia (PHAA), and the Australian Health Promotion Association (AHPA).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

The honours programs enable you to develop knowledge, problem-solving and conceptual skills at an advanced level. The programs provide you with education in the techniques and skills for later postgraduate research and enhance professional career progressions.

Entry requirements

Applicants should have completed QUT's Bachelor of Nursing or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Dissertation

The dissertation is one 48 credit point unit representing 50 per cent of the program. Preparation and presentation of the dissertation is completed under the guidance of a supervisor and is examined externally.

International Student Entry

International students may enrol only in full-time studies.

Further Information

Electives

Students undertake a 12 credit point elective. This may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the student's mentor/supervisor and the Course Coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is relevant to the student's study program. For further information on available units contact the relevant School Honours Coordinator. Students may also select one of HLN405 Qualitative Research, HLN706 Advanced Quantitative Research Methods or PUN105 Health Statistics as an elective.

Dissertation

The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

Overview

This course comprises the first two semesters of the Master of Health Science. The course is designed to enhance professional development in a range of specialisations. Cross-specialisation is also possible. To qualify for the award of a major, students must complete 48 credit points (four units) of advanced study in that area.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and online learning.

Entry requirements

To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean of Faculty, which may include substantial work experience or involvement in relevant research activities.

Majors

Majors are offered in the following areas:

- Aged care
- Environmental Health
- Health Services Management
- Health Promotion
- Risk management
- Women's health
- or a cross specialisation (where no major is taken but students study across a variety of fields).

To complete a major, students must complete at least four units from the same discipline area from within the Faculty of

Health.

Students can only graduate with one specified major (i.e. only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students wishing to complete a graduate diploma qualification in Occupational Health and Safety should apply for entry into the Graduate Diploma in Occupational Health and Safety and not the Graduate Diploma in Health Science.

Course Structure

The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by schools within the Faculty of Health (List A units). No more than two (24 credit points) advanced undergraduate health units can be included in the total.

Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, for example, Graduate Diploma in Health Science (Health Promotion).

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course coordinator.

Course Articulation

This course articulates fully into the Master of Health Science.

The Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

Special Note

Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduates to practice in these areas.

Students can graduate with one specified major only.

International Student Entry

International students may enrol only in full-time studies and only onshore.

Potential Careers:

Environmental Health Officer, Health Services Manager.

Master of Applied Science (Research) (HL84)

Year offered: 2008

Admissions: Yes

CRICOS code: 007897G

Course duration (full-time): 1-2 years

Course duration (part-time): 3 years

Course duration (external): 3 years

Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition \$135 per credit point (exceeded max. entitlement) (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960 (exceeded max. entitlement)

International Fees (per semester): 2008: \$9,504 per semester (*subject to annual review*)

Domestic Entry: At any time

International Entry: At any time

Course coordinator: Professor Mary Courtney

Campus: Kelvin Grove

Entry requirements

A bachelor degree in health science, applied science or other approved degree from QUT with a grade point average of at least 5 (on a 7-point scale), or an equivalent qualification, or submission of such other evidence of qualifications as will satisfy the academic board that the applicant possesses the capacity to pursue the course of study.

Application for Admission

The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee.

Applications for admission should set out in full the candidate's intended course of study. The proposed course of study should include the area of study, the coursework to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School in which the proposed research program is to be undertaken.

Course Structure

Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program. The course of study normally includes a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation. The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

Course Coordination

Students undertake their program of research through one of the Faculty's five schools. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant school prior to submitting an application.

Course Duration

The length of the course will vary depending on the applicants' qualifications on admission and their progress during the course. The minimum period of enrolment in the program is:

- 1.5 years for a full-time student with a three year undergraduate degree, or
- one year for a full-time student with a four year undergraduate degree, including honours or other relevant programs (including key research methods, literature review foundations and other coursework requirements), or
- one semester for a full-time student transferring from another higher degree research program.

The maximum period of enrolment for a full-time student is 2 years or equivalent (2 EFTSL).

International Student Entry

QUT advises that international students may enrol only in full-time studies.

Further Information

For more information about this course, please contact the Faculty on +617 3864 3075 or email health.research@qut.edu.au

Master of Health Science (HL88)

Year offered: 2008

Admissions: Yes

CRICOS code: 009030K

Course duration (part-time): 6 semesters

Course duration (external): 6 semesters

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

International Fees (per semester): 2008: \$9,504 per semester (*subject to annual review*)

Domestic Entry: February and July

International Entry: February and July

Total credit points: 144

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Thomas Tenkate

Campus: Gardens Point and Kelvin Grove

Overview

This course develops advanced knowledge and skills in a choice of health science disciplines. Its flexible design allows you a large choice of elective units to provide: specialisation in a professional discipline, cross-specialisation (with appropriate academic approval), or a broad understanding of health-related disciplines.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and transfer of material via the internet. This course is not available to international students who wish to study offshore.

Entry requirements

To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year Bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean, which may include substantial work experience or involvement in relevant research activities.

It is normally expected that candidates have attained a minimum GPA of 5.0 in the bachelor qualification. Candidates not meeting this requirement must provide additional information to support special admission.

Majors

Majors are offered in the following areas:

- Aged Care
- Environmental Health
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Risk Management
- Women's Health
- or a cross-specialisation (where no major is taken, but

students study across a variety of fields).

To complete a major, students must complete at least four units from the same discipline area from within the Faculty of Health.

Course Structure

The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

Course Articulation

Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

The Graduate Certificate in Health Science, the Graduate Diploma in Health Science and the Graduate Diploma in Occupational Health and Safety, fully articulate into the Master of Health Science.

The Graduate Diploma in Nursing and the Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards the Master of Health Science. No advanced standing will be granted towards the Graduate Certificate in Health Science or the Graduate Diploma in Health Science. This is in addition to any List A units completed.

The following courses also articulate with the Master of Health Science:

- * Graduate Certificate in Aged Care
- * Graduate Certificate in Ambulance Management (QAS)
- * Graduate Certificate in Community Practice
- * Graduate Certificate in Environmental Health
- * Graduate Certificate in Health Management (QH)
- * Graduate Certificate in Health Promotion
- * Graduate Certificate in Health Services Management

HEALTH

- * Graduate Certificate in Risk Management
- * Graduate Certificate in Women's Health

Special Notes

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Occupational Health and Safety unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

Completion of units in Occupational Health and Safety or Environmental Health does not qualify graduates to practice in these areas.

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Doctor of Health Science (HL90)

Year offered: 2008

Admissions: Yes

CRICOS code: 037680K

Course duration (full-time): 3 Years

Course duration (part-time): 6 Years

Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition \$135 per credit point (exceeded max. entitlement) *(subject to annual review)*

Domestic fees (indicative): 2008: \$12,960 (exceeded max entitlements)

International Fees (per semester): 2008: \$10,608 per semester *(subject to annual review)*

Domestic Entry: February and July

International Entry: February

Total credit points: 288 (96 coursework credit points and 192 research portfolio credit points)

Standard credit points per full-time semester: 48 (average)

Course coordinator: Dr Elizabeth Parker

Campus: Kelvin Grove

Overview

This course is designed to develop the knowledge, skills and generic attributes that will prepare health professionals for advanced positions in their profession and for leadership roles.

Students will develop an in-depth understanding of contemporary health science; extend competence in research methods; demonstrate high-level critical thinking and reflective practice skills; enhance their communication skills and contribute to the body of knowledge underpinning their profession.

Students complete one year full time equivalent of coursework including research methods units and advanced studies in an area of specialisation followed by a single or series of research workplace based or industry linked projects to complete the research work which may be presented as a thesis or portfolio.

Entry requirements

Applicants should hold a four-year degree or its equivalent with first-class honours or second-class honours division A, relevant Masters degree, or its equivalent from QUT or another recognised institution, and two years of practice in a position of professional responsibility appropriate to the proposed course of study.

If, in the Executive Dean's opinion, the candidate has not completed substantial professional practice, the candidate will be required to gain substantial professional experience during the course of the doctorate.

Application for Admission

Before submitting an application, potential candidates should contact the Course Coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying any specified documentation. The application should be

accompanied by a brief proposal for the course of study and the research field.

Advanced Standing and Articulation

Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

The Doctor of Health Science will fully articulate with the Master of Health Science and students who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

Course Structure

Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students must:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from this major study area plus one approved elective unit or complete five units from this major study area.

Students are required to attend a compulsory residential program of three days annually during their candidature.

International Student Entry

International students may enrol only in February in full-time studies.

Total credit points: 384

Standard credit points per full-time semester: 48

Course coordinator: Dr Michael McDonald

Campus: Kelvin Grove

Overview

Human movement studies graduates work in a diverse range of settings as exercise physiologists, sports administrators, exercise therapists, strength and conditioning specialists and rehabilitation specialists.

Why choose this course?

Human movement studies is a pathway to a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions. This course will provide you with both the necessary theoretical background and practical skills obtained from a variety of practicum placements at local, state, national and international locations. You can complement your degree with a choice of elective opportunities from within the Faculty or university-wide.

Career Options

The course provides skills for careers in a range of exercise and sports science professions. Career settings include:

- rehabilitation and hospital clinics
- family and community services
- corporate health and fitness
- local and state government agencies
- universities and colleges
- institutes of sport
- the health and fitness industry
- personal training.

Professional Membership

Graduates are eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS). This four-year degree will qualify you for exercise physiologist classification by the professional body.

Electives

Electives are available in various areas including psychology of rehabilitation, anatomy, physiology, biomechanics, motor control and learning, children in sport, sociology of sport and exercise prescription. Students must choose at least 4 out of the 6 units listed in LIST A. The remaining 5 units can be elected from either the remaining 2 units in List A and any 3 from the units in List B, or any units from List B, or from any approved discipline within QUT (with course coordinator's approval).

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Recommended Study

One of Maths B, Maths C, Biological Science, Chemistry, Physics, Health Education or Physical Education.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately \$50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Further Information

For detailed information about this course, please call the School of Human Movement Studies on +617 3138 3360 or email enquirieshms@qut.com

Course coordinator: Dr Michael McDonald

Campus: Kelvin Grove

Overview

This three-year degree course combines the complementary areas of human movement studies and nutrition.

Why choose this course?

This degree will provide you with a foundation for a career in the exercise, health, fitness and nutrition industries.

The degree also provides you with a range of practical experience, including 100 hours of work experience (practicum) in the third year. This is a valuable opportunity for you to gain hands-on experience in the industry. You can work in fitness centres, sports associations and other related organisations.

Career options

Graduates may find employment in the area of nutrition as well as in a range of health and fitness settings such as community services, the health and fitness industry and local and state government.

Graduates are not qualified as dietitians or exercise physiologists.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately \$50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Standard credit points per full-time semester: 48

Course coordinator: Dr Iraphne Childs (Arts); Dr Julie Hansen (Psychology)

Campus: Carseldine

Overview

In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Why choose this course?

The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with research and statistical methods that have wide applicability in psychology and other disciplines. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered

psychologist, or seek postgraduate studies in psychology or other disciplines.

Career Options

The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

Recommended Study

Maths A, B or C is recommended.

Psychology Electives

Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

Professional Membership

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Development).

Other Course Requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Further Information

For detailed information about this course, please call the School of Psychology and Counselling on +617 3138 4625 or email psyc.enquiries@qut.com

- Environmental health
- Health services research

The descriptions of research specialisations available are provided as a guide only and research in other related areas is welcomed.

International Student Entry

QUT advises that international students may enrol only in full-time studies.

Further Information

For more information please contact the Faculty of Health by phone on +617 3138 3075 or email health.research@qut.edu.au

Overview

Doctoral programs in the Faculty of Health provide in-depth research training in a particular area of health while broadening a candidate's knowledge in one or more of the following discipline areas: ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Students enrol in one of the five schools in the Faculty of Health: Nursing, Human Movement Studies, Optometry, Psychology and Counselling, or Public Health.

Entry requirements

Applicants must hold a relevant first or second-class division A (upper division) honours degree or an appropriate masters degree. In addition, international students must meet English language proficiency requirements.

Course Structure

Candidates undertake a supervised program of research and investigation that results in the submission of a thesis. The program of study may be supported by some coursework related to the conduct of research and preparation of the thesis. Candidates are required to have regular interaction with supervisors and to participate in University scholarly activities such as research seminars, events and training.

Doctoral studies may be completed in any area of research interest supported by the Faculty of Health. Current areas include

- Movement coordination and control
- Injury prevention and Rehabilitation
- Fitness, health and wellbeing
- Prevention and management of chronic disease
- Physical education
- Nursing research
- Cornea and contact lens
- Optical and visual performance
- Psychological therapies and counselling
- Social, cognitive and developmental processes
- Physical and psychological health
- Road Safety and traffic psychology
- Disease prevention and management

Graduate Certificate in Risk Management (IF88)

Year offered: 2008

Admissions: Yes

Course duration (external): 2 semesters

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Thomas Tenkate

Campus: Kelvin Grove

Overview

This course equips graduates with problem solving and information management skills that will enable them to apply their specialist background knowledge in the field of risk management. It is designed to draw on real issues that face professionals across a wide variety of settings.

The demand for risk managers has grown exponentially in recent times. This course provides students with opportunities to broaden their skills in this growing profession.

Entry requirements

Applicants should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Special entry can be considered if a student has experience and responsibility in risk management. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

Course Structure

Students complete four specified units part-time over two semesters. This course is offered by external study only.

Professional Accreditation

Graduates of this course are eligible to apply for Certified Practising Risk Management (CPRM) accreditation with the Risk Management Institute of Australia.

Course Articulation

This course fully articulates into the Master of Health Science.

International Student Entry

This course is not available to international students.

Further information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email sph.studentcentre@qut.edu.au

Total credit points: 432

Course coordinator: Education Coordinator: Dr Mal Shield, Human Movement Studies Coordinator: Dr Tom Cuddihy

Campus: Gardens Point, Kelvin Grove and Carseldine

Overview

This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?

This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options

The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition

Graduates are eligible for registration as a teacher in Queensland. Graduates will also satisfy the requirements for membership of the Australian Association for Exercise

and Sports Science (AAESS).

Other Course Requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately \$50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

computing requirement The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study

any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Further Information

Campus: Kelvin Grove and Carseldine

Overview

The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements

Applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average of 5 or above, two referee reports and an interview.

International students or applicants from whom English is not the first or native language require an IELTS score of 7.5 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants from whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - <http://www.psychologyboard.qld.gov.au>.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

Undertaking the supervised psychological practice component of the course requires provisional registration as a probationary psychologist with the Psychologists Board of Queensland.

Other Requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit <http://bluecard.qut.com>.

International Student Entry

QUT advises that international students may enrol only in full-time studies.

Campus: Gardens Point and Kelvin Grove

Overview

This double degree combines the strength of general business theory and skills as well as units specifically related to managing health services.

Why choose this course?

The degree will provide you with the theory and skills to manage change effectively in the health care system. You will gain a strong background of theory and practice to enable you to work effectively in the complex environment of health care and be influential in terms of decision making.

Career Options

Health Service Management graduates are employed in administrative and management capacities in private and public health services. Such services include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Your business degree will give you a broader base of

commercial knowledge, making you more attractive to employers in these environments. You also have the opportunity to major in a specific business area to strengthen your career choices. For more information on careers in business, please refer to studyfinder.qut.com

Professional recognition

Both degrees allow you to satisfy the requirements of membership for the relevant professional bodies. The Bachelor of Health Science (Health Services Management) degree may allow graduates, subject to unit selection, to satisfy the academic requirements for membership of the Australian College of Health Service Executives (ACHSE) and other professional associations.

Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Please refer to the Faculty of Business prospectus or studyfinder.qut.com for more information on recognition for graduates from the Bachelor of Business component.

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Health Science program and 192 credit points from the Bachelor of Business program.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Campus: Kelvin Grove and Carseldine

Overview

The course consists of 16 human services units and 16 creative industries units, and the program is integrated so that you will study both human services and creative industries units in each semester. In human services you may choose to focus on corrective, disability, aged, youth, or child and family services. You will also study a range of professional skills and then gain practical experience through professional practice placements in government or community organisations. For your creative industries major you may choose either drama or interdisciplinary.

Career Outcomes

This double degree prepares you as a multiskilled professional for careers in child safety and a range of welfare and community services. In particular you will have a set of skills which will be suitable for areas which combine human services and creative skills, for example, community development and cultural services, and youth arts.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Human Services) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from a Creative Industries major (either Drama or Interdisciplinary) and 24 credit points of elective units.

The Human Services component is made up of 144 credit

points of Faculty core units and 48 credit points of units from selected Human Services units.

Professional Recognition (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers. (Accreditation application in process).

OP Guarantee

The OP Guarantee does not apply to this course.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check

Working With Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

COURSE STRUCTURE - OVERVIEW

YEAR 1 SEMESTER 1

HHB114	Introduction To Human Rights And Ethics
HHB103	Contemporary Social And Community Issues
KKB101	Creative Industries: People and Practices
BCI	Mandated discipline unit

HEALTH

YEAR 1 SEMESTER 2

HHB100	Introduction to Human Services and Social Work
HHB113	Interpersonal Communication
KKB102	Creative Industries: Making Connections
BCI	Mandated discipline unit

YEAR 2 SEMESTER 1

HHB208	Introduction to practice
HHB209	Developing professional frameworks
BCI	Mandated discipline unit
BCI	Mandated discipline unit

YEAR 2 SEMESTER 2

HHB	Human Services List B unit
HHB277	Ethical and legal dimensions of human services practice
BCI	Mandated discipline unit
BCI	Mandated discipline unit

HHB279	Human service processes and methods
HHB278	Intervention theories
BCI	Mandated discipline unit
BCI	Mandated discipline unit

YEAR 3 SEMESTER 2

HHB	Human services List C unit
BCI	Mandated discipline unit
BCI	Mandated discipline unit
BCI	Mandated discipline unit

YEAR 4 SEMESTER 1

HHB	Human services List D unit
HHB	Human services List C unit
BCI	Mandated discipline Unit
BCI	Elective unit

YEAR 4 SEMESTER 2

HHB301	Advanced Professional Practice
BCI	Elective unit
	null
	null

Drama major

Year 1, Semester 1

KKB101	Creative Industries: People and Practices
KTB101	20th Century Performance

Year 1, Semester 2

KKB102	Creative Industries: Making Connections
--------	---

KTB104	Performance Innovation
--------	------------------------

Year 2, Semester 1

KTB102	Process Drama
KTB103	Performing Skills 1: Body and Voice and Role

Year 2, Semester 2

KTB105	Production 1: Story Making
KTB106	Performing Skills 2: Style and Form

Year 3, Semester 1

	Creative Industries Elective
KTB206	The Creating Body

Year 3, Semester 2

	Creative Industries Elective
KTB207	Staging Australia
KTB303	Production 3: Interpreting and Adapting

Year 4, Semester 1

KTB204	Understanding Performance
KTB301	Performing Self

Year 4, Semester 2

KTB305	The Entrepreneurial Artist
--------	----------------------------

Course structure for Interdisciplinary major

Year 1, Semester 1

KKB101	Creative Industries: People and Practices
KPB101	Foundations of Film and Television Production OR
KVB104	Photomedia and Artistic Practice

Year 1, Semester 2

KKB102	Creative Industries: Making Connections
KCB103	Strategic Speech Communication

Year 2, Semester 1

KKB221	Approaching Interdisciplinarity
SELECT:	Co-Major One First Unit

Year 2, Semester 2

KKB222	Interdisciplinarity in Practice
SELECT:	Co-Major One Second Unit

Year 3, Semester 1

SELECT:	Co-Major One Third Unit
SELECT:	Co-Major One Fourth Unit

Year 3, Semester 2

SELECT:	Co-Major One Fifth Unit
SELECT:	Co-Major One Sixth Unit
SELECT:	Co-Major One Seventh Unit

HEALTH

Year 4, Semester 1

SELECT: Transitions to New Professional Environment Unit

SELECT: Co-Major One Eighth Unit

Year 4, Semester 2

SELECT: Transitions to New Professional Environment Unit

Creative Industries Co-Majors

INSTRUCTIONS FOR CO-MAJORS

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these co-majors and/or minors. Any unit(s) that appear in multiple co-majors and/or minors can only contribute towards the completion of one of these co-majors or minors.

Advertising

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB200	Consumer Behaviour
AMB220	Advertising Theory and Practice
AMB221	Advertising Copywriting
AMB222	Media Planning
AMB320	Advertising Management
AMB321	Advertising Campaigns
AMB330	Advertising Strategy and Planning
BSB126	Marketing

Art and Design History

Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will assist in preparing you for work as a professional in these disciplines.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

DAB325	Architecture in the 20th Century
DAB420	Architecture, Culture and Space
DEB102	Introducing Design History
KVB102	Modernism
KVB103	Australian Art
KVB108	Contemporary Asian Visual Culture

KVB211	Post 1945 Art
KVB212	Australian Art, Architecture and Design
KVB304	Contemporary Art Issues
KVB306	Video Art and Culture

Communication Design

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KIB101	Foundations of Communication Design 1
KIB102	Foundations of Communication Design 2
KIB103	Media Technology 1
KIB104	Media Technology 2
KIB210	Design Studio 1: Interaction Design
KIB211	Design Studio 2: Web Development

Creative and Professional Writing

Description: The aim of this co-major is to prepare students to graduate with adequate skills and knowledge in the area of creative and professional writing; to provide a thorough grounding in a variety of genres that include fiction, creative non-fiction, media writing and corporate writing and editing, thereby equipping graduates with the versatility required of professional writers; to enhance the critical, analytical and peer-reviewing skills of students; to provide and understanding of creative writing in its social and generic contexts.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KWB101	Introduction to Creative Writing
KWB102	Media Writing
KWB103	Persuasive Writing
KWB104	Creative Writing: The Short Story
KWB106	Corporate Writing and Editing
KWB107	Introduction to Creative Non-Fiction
KWB203	Creative Writing: The Novel
KWB204	Creative Non-Fiction: Life Writing
KWB206	Youth and Children's Writing
KWB207	Great Books: The Literary Classics
KWB303	Writing and Publishing Industry

Dance

Description: This co-major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

Assumed Knowledge: Previously acquired knowledge or skill IS required for you to undertake this co-major. It is essential that you be physically able, fit and have basic knowledge in a dance technique, either ballet, jazz or contemporary to undertake the practical units.

- KDB103 Dance Technique Studies 1
- KDB104 Dance Technique Studies 2
- KDB105 Architecture of the Body
- KDB106 Dance Analysis
- KDB107 Choreographic Studies 1
- KDB108 World Dance
- KDB109 Funk, Tap and all that Jazz
- KDB110 Deconstructing Dance in History
- KDB204 Australian Dance
- KDB205 Dance in Education
- KSB225 Music Theatre Skills

Digital Media

Description: Online and interactive technologies now dominate creative and professional life. This co-major provides you with the opportunity to develop websites, multimedia projects, wikis and blogs, as well as allowing you to understand the guiding principals behind these new modes of communication and creative practice.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- KCB101 Communication in the New Economy
- KCB102 Media and Society: From Printing Press to Internet
OR
- KJB101 Digital Journalism
- KIB101 Foundations of Communication Design 1
- KCB104 Media and Communications Industries
OR
- KPB106 Australian Television
- KIB103 Media Technology 1
- KCB201 Virtual Cultures
- KCB202 New Media Technologies
- KCB203 Consumer Cultures
- KVB306 Video Art and Culture

Drama

Description: The co-major offers a balance of performance theory and practice. It is designed as a learning sequence, beginning with introductory concepts and practices, through intermediate and on to advanced learning. Underpinning the co-major is a twin focus on contemporary performance-making and events management. Both of these areas are balanced by studies in theatre history and theory. Core topics include acting; directing; twentieth-century performance theory and practice; and events management.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- KTB101 20th Century Performance
- KTB103 Performing Skills 1: Body and Voice and Role
- KTB104 Performance Innovation
- KTB106 Performing Skills 2: Style and Form
- KTB204 Understanding Performance
- KTB207 Staging Australia
- KTB061 Creative Industries Management
- KTB062 Creative Industries Events and Festivals
- KTB305 The Entrepreneurial Artist
- KTB306 Directing for Events and Festivals

Entrepreneurship

Description: To provide students with an introduction to basic business principles as well as the innovation, development, production and entrepreneurial activities required when starting a new business. Students who do the extended eight unit set will be able to supplement this with a range of broader business administration and promotional skills particularly in the marketing and management areas.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- AMB230 Internet Promotion
- AMB240 Marketing Planning and Management
- AMB251 Innovation and Market Development
- BSB115 Management, People and Organisations
- BSB126 Marketing
- EFB210 Finance 1
- IBB213 International Marketing
- MGB207 Human Resource Issues and Strategy
- MGB216 Managing Technological Innovation in Global Business
- MGB218 Managing Business Growth
- MGB222 Managing Organisations
- MGB223 Entrepreneurship and Innovation
- MGB335 Project Management

Fashion

Description: This co-major has been designed to offer a mix of theoretical and practical units.

HEALTH

The theory units will develop your knowledge and understanding of the history, industry and consumption of fashion and will introduce you to the critical legal issues surrounding the production and distribution of fashion. The practical units provide you with a variety of options to develop fashion related skills focusing on textile design, portfolio development and fashion journalism.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KFB103	Introduction to Fashion
KFB106	Unspeakable Beauty: A History of Fashion and Style
KFB206	Fashion and Modernity
KFB207	Contemporary Fashion
KVB213	Graphic Investigation
KFB204	Textile Design
KFB205	Fashion and Style Journalism
KFB208	Fashion Portfolio
KCB203	Consumer Cultures
KFB304	Fashion, Law and the Real World

Film, Television and Screen

Description: The aim of this co-major is to provide students with a range of understandings in the theory and practice of film, television and screen. This study area aims to enhance creative, technical and organizational abilities as well as building story telling and communication skills.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KPB101	Foundations of Film and Television Production
KPB102	Film History
KPB104	Film and Television Production Resource Management
KPB105	Narrative Production
KPB106	Australian Television
KPB107	Television's Greatest Hits
KPB202	Film and Television Business Skills: Entrepreneurship and Investment
KPB203	Australian Film
KPB205	Documentary Theory and Practice
KPB206	International Cinema
KPB303	Critical Thinking About Television

Integrated Marketing Communication

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB202	Integrated Marketing Communication
AMB220	Advertising Theory and Practice
AMB230	Internet Promotion
AMB240	Marketing Planning and Management

AMB260	Public Relations Theory and Practice
AMB261	Media Relations and Publicity
AMB331	Direct Marketing
AMB350	Sales and Customer Relationship Management
AMB354	Events Marketing
BSB126	Marketing

Journalism, Media and Communication

Description: This co-major offers you a range of options to develop an understanding of the parameters of the journalism and professional communication fields. You can choose a mix of units to suit your career aspirations. If you choose to focus more on the Journalism (KJB) units, the co-major will introduce you to a range of journalism writing styles and offers an insight into some specialist areas of reporting. If you choose to focus more on the Media and Communication (KCB) units, it has been designed to enable you to develop the skills and knowledge to prepare media material for organizations that wish to build, and maintain, a media profile.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB102	Media and Society: From Printing Press to Internet
	OR
KJB101	Digital Journalism
KJB120	Newswriting
KCB104	Media and Communications Industries
KJB121	Journalistic Inquiry
KCB103	Strategic Speech Communication
KJB224	Feature Writing
KJB239	Journalism Ethics and Issues
KFB205	Fashion and Style Journalism
	OR
KJB280	International Journalism
KCB301	Media Audiences
KCB302	Political Communication
KCB304	Managing Communication Resources
	OR
KJB322	Desktop Publishing And Editing
KJB337	Public Affairs Reporting

Literary and Cultural Studies

Description: The aims of this co-major are to prepare students to graduate with adequate skills and knowledge in the area of literary and cultural studies; to provide a thorough grounding in a range of texts, both literary and popular, ranging from Shakespeare to nineteenth and twentieth century literature and culture; to provide graduates with enhanced skills in critical thinking, writing and analysis; to provide graduates with an understanding of the social and historical context of literary and popular written texts; to provide some

HEALTH

understanding of the major approaches in literary theory.
Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KWB108	Introduction To Literary Theory and Cultural Studies
KWB109	Ozlit
KWB206	Youth and Children's Writing
KWB207	Great Books: The Literary Classics
KWB208	Modern Times (Literature and Culture in the 20th Century)
KWB209	Shakespeare, Then and Now
KWB307	Indigenous Writing
KWB308	Wonderlands: Literature and Culture in the 19th Century
KWB309	Popular Fictions, Popular Culture

Marketing

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB200	Consumer Behaviour
AMB201	Marketing and Audience Research
AMB202	Integrated Marketing Communication
AMB240	Marketing Planning and Management
AMB241	E-Marketing Strategies
AMB340	Services Marketing
AMB341	Strategic Marketing
BSB126	Marketing

Mathematics

Description: This co-major aims to provide you with powerful tools for the analysis of today's complex world and give an insight into many real-world problems of significant importance.
Assumed Knowledge: Maths B (if you do not have this you should include MAB105 as one of your first units)

MAB100	Mathematical Sciences 1A
MAB101	Statistical Data Analysis 1
MAB111	Mathematical Sciences 1B
MAB112	Mathematical Sciences 1C
MAB210	Statistical Modelling 1
MAB311	Advanced Calculus
MAB312	Linear Algebra
MAB314	Statistical Modelling 2

Public Relations

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB201	Marketing and Audience Research
AMB202	Integrated Marketing Communication

AMB260	Public Relations Theory and Practice
AMB261	Media Relations and Publicity
AMB262	Public Relations Writing
AMB360	Corporate Communication Management
AMB361	Public Relations Campaigns
AMB370	Public Relations Cases
BSB126	Marketing

Creative Industries Minors

INSTRUCTIONS FOR MINORS

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Domestic fees (indicative): 2008: Full fee tuition \$12,960; CSP \$6,800

International Fees (per semester): 2008: \$9,024 per semester (*subject to annual review*)

Domestic Entry: February

International Entry: February

QTAC code: 409092

Past rank cut-off: 74

Past OP cut-off: 13

OP Guarantee: Yes

Assumed knowledge: English (4, SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Dr Phil Crane (Human Services), Prof. Rod Broadhurst (Justice)

Campus: Gardens Point and Carseldine

Course Description

In this course students complete the requirements of two separate degrees in four years. The Human Services component of the course provides knowledge, values, ethics and skills for professional practice in human services. The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

Career opportunities

Career opportunities include human service worker, aged, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must

undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)

Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Accreditation application in process).

Campus: Gardens Point and Kelvin Grove

Overview

This double degree combines training for careers in a range of exercise and sports science settings with the strength of general business theory and skills.

Why choose this course?

This double degree will prepare you for a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background and practical skills obtained from a variety of practicum placements. Practicum locations can include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, and the health and fitness industry.

Career Options

The Bachelor of Applied Science (in Human Movement Studies) course provides skills for careers in a range of exercise and sports science settings such as corporate

health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training.

Your business degree will give you a broad base of commercial knowledge making you more attractive to employers, even if you wish to work predominantly in the health science area. You also have the opportunity to major in a specific business area. For more information on careers in a business, please refer to the Faculty of Business prospectus or visit studyfinder.qut.com.

Professional Recognition

Graduates of the Bachelor of Applied Science (in Human Movement Studies) degree are eligible for membership of the Australian Association for Exercise and Sports Science (AAESS). Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Course Design

Students are required to complete 408 credit points comprised of 216 credit points from the Bachelor of Applied Science (in Human Movement Studies) program and 192 credit points from the Bachelor of Business program.

Recommended Study

Any of: Maths B or C, Chemistry, Physics, Biological Science, Health Education, Physical Education, or Health and Physical Education.

Other Course Requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately \$50), the attainment of a current first aid certificate prior to commencement of year three and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately \$115).

Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferral.

Further Information

For more information about this course, please contact the School of Human Movement Studies on +617 3138 3360 or email enquirieshms@qut.com

Overview

This exciting new double degrees will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. The degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people's health and their lives.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The nutrition component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition, food studies, anatomy and physiology, nutritional science and nutrition education. The course has innovative and integrated industry placement options for practicum experience.

Why choose this course?

Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication

The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Nutrition

The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

Career Outcomes

Graduates of the double degree may work as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication

Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Nutrition

Graduates work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from Media and Communication units and up to 24 credit points of elective units.

The Nutrition component is made up of 192 credit points of

specified Health Science units.

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Further Information

For more information about this course, please contact the Faculty of Creative Industries phone +617 3864 8114 or email creativeindustries@qut.com or the School of Public Health Student Centre on +617 3138 3368 or email sph.studentcentre@qut.edu.au

Course structure

Year 1, Semester 1

KCB101	Communication in the New Economy
KKB101	Creative Industries: People and Practices

Course coordinator: Head, Undergraduate Studies ugenq.ci@qut.edu.au (Creative Industries component); Ms Melinda Service (Health Science component)

Discipline coordinator: Professor Alan Knight (Creative Industries)

Campus: Kelvin Grove

Overview

This exciting new double degree will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. This degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people's health and their lives. The course has innovative and integrated industry placement options for practicum experience.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population's health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?

Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication

The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Public Health

The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

The course has innovative and integrated industry placement options for practicum experience.

Career Outcomes

This double degree prepares graduates as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication

Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Public Health

Graduates may also work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Course Structure

This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from Media and Communication units and up to 24 credit points of elective units.

The Health Science component is made up of 180 credit points of specified Health Science units and a 12 credit

HEALTH

point elective.

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Standard credit points per full-time semester: 48

Course coordinator: Dr Julie Hansen (Psychology); Mr Andrew Paltridge, Director of Studies (Business)

Campus: Gardens Point and Carseldine

Overview

A double degree in business and psychology will prepare you to understand both the business and psychological forces that impact on organisations, both nationally and internationally. You will graduate with a solid understanding of human behaviour and how to apply this to organisational settings. You will also gain research and business skills that you can apply across a range of organisational and industrial situations.

Why choose this course

The course provides a thorough grounding in the scientific bases of psychology, and deals with the research and statistical methods used in the discipline. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. There is also the opportunity to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

The course offers you the flexibility to choose a business major in the discipline that most interests you, for example, **accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing or public relations.**

Your studies in business are built around a core of values that focus on employability and incorporate professional, business, as well as industry links. During your studies, you will be encouraged to undertake real-world projects to help you develop your skills.

You will also develop an understanding of society and high-level communication and social research skills that are valuable in a wide range of professions. While studying, you are exposed to the range of job opportunities in external organisations and industry and will be encouraged to undertake real-world projects.

Career options

You can choose to work in various careers in industry and the corporate world such as human resources and management, finance and banking, as well as marketing and accounting. With further psychology training, you would be eligible to work as an organisational or industrial psychologist. Graduates may also work in areas such as management, counselling, training and development.

Professional membership

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies. Visit Studyfinder for specific professional membership eligibility.

Recommended Study

Maths A, B or C for other majors.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course duration (full-time): 5 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: \$166 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$15,936

International Fees (per semester): 2008: \$9,552 per semester (*subject to annual review*)

Domestic Entry: February (no mid-year entry)

QTAC code: 409572

Past rank cut-off: 90

Past OP cut-off: 6

Assumed knowledge: English (4 SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 528

Course coordinator: Dr Julie Hansen (Psychology); Dr William Dixon Director Undergraduate Studies (Law)

Campus: Gardens Point and Carseldine

Overview

A double degree in law and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to legal issues and concerns.

Why choose this course

You have many opportunities to gain real workplace skills in each of your study disciplines. In psychology, students design and analyse original experiments, to enhance their research and analytical skills.

While studying, you are exposed to the range of job opportunities in external organisations and industry through careers seminars and opportunities for work experience. Students can also participate in a first-year peer mentor program and a career mentoring program.

In law, you can choose internship and legal clinic electives which provide a work experience placement to gain experience in legal firms, legal aid agencies or government departments.

Career options

With degrees in psychology and law, you will enter the work force with a solid scientific and practical base, making you suitable for positions in the development of mental health and legal policies, in research in the legal-psychological domain, and to work as either a lawyer or psychologist within legal, corporate, government, social, and clinical arenas.

You will be well placed to enter the work force in any number of work environments, including forensic areas (such as the prison service). In addition, you will have the option of pursuing your psychology training further in order

to become a registered psychologist. The double degree will also allow you to work in legal environments as a solicitor, barrister, in-house counsel or government lawyer.

Outside the specialist psychology and legal environments, the skills and knowledge you have acquired will be transferable to a wide range of areas, such as business, marketing, communication and policy advisors or officers.

Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with their State Registration Board. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

OP Guarantee

The OP Guarantee does not apply to this course.

Recommended Study

Maths A, B or C

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Further Information

For detailed information about this course, please call the School of Psychology and Counselling on +617 3138 4625 or email psyc.enquiries@qut.com

Domestic Entry: February and July

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Dr Fiona Coyer

Campus: Kelvin Grove

Overview

The Graduate Certificate in Intensive Care Nursing has been designed to provide graduates with a short, focused program to upgrade qualifications, knowledge and skills in intensive care nursing. The course will enable students to develop competence in the practice of intensive care nursing, examine major issues and trends in intensive care nursing scholarship and practice and develop an understanding of research applied to intensive care nursing practice. Students are required to undertake suitable workplace based clinical experience during the program, by maintaining employment in a level two or three intensive care unit at least 0.6 FTE.

Entry requirements

Applicants must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence, have a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience. Students enrolling must have had at least three months recent clinical experience in an intensive care facility and be working at least 0.6 FTE in a level two or three intensive care facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate in Intensive Care Nursing comprises four units. Three core units address topics including advanced health assessment; evidence based approaches to nursing practice in intensive care; and theory, processes and practices associated with preventing and managing common health problems experienced by clients within an intensive care environment. The fourth unit enables students to further develop knowledge and skills

relevant to a particular critical care environment. These environments may include cardiac, emergency or intensive care practice settings.

The course can be undertaken by internal or external mode and mid-year entry is available.

Course Articulation

The Graduate Certificate in Intensive Care Nursing has full articulation with the Graduate Diploma in Nursing and the Master of Nursing programs.

International Student Entry

This course is not available to international students.

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Prof Patsy Yates

Campus: Kelvin Grove

Overview

The Graduate Certificate in Cancer Nursing has been designed to provide graduates with a short, focused program to upgrade qualifications, knowledge and skills in cancer nursing. The course will enable students to develop competence in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, and develop an understanding of research applied to cancer nursing practice. Students are normally required to undertake suitable workplace based clinical experience during the program, by maintaining employment in an oncology/haematology setting at least 0.6 FTE.

Entry requirements

Applicants must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence, have a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Students not employed in a clinical setting relevant to their program may be required to undertake additional supernumerary clinical experiences to meet the requirements of the course.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

This course comprises three core units and one elective unit offered by the School of Nursing. Core units address topics including advanced health assessment, evidence based approaches to nursing practice in cancer care; and theory, processes and practices associated with preventing and managing common health problems experienced by people with oncological or haematological malignancies. The elective unit enables students to further develop knowledge and skills relevant to a particular speciality within the field of

cancer care. These may include chemotherapy practice settings, palliative care services, transplant units or other selected areas of cancer practice.

This course can be undertaken by internal or external mode and may be commenced mid-year.

Course Articulation

The Graduate Certificate in Cancer Nursing has full articulation with the Graduate Diploma of Nursing or the Master of Nursing.

International Student Entry

This course is not available to international students.

Graduate Certificate in Community Practice (NS34)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Course duration (external): 2 semesters

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February and July

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Ms Fran Sanders

Campus: Kelvin Grove

Overview

The Graduate Certificate in Community Practice has been designed to provide graduates from nursing and other health disciplines with a short, focused program to upgrade qualifications, knowledge and skills in community health. The course is designed for registered nurses or other health professionals working in community settings to enable them to develop advanced knowledge and skills in key areas of community health practice. Students will examine major issues and trends in community health practice, and develop an understanding of research and evaluation applied to community health practice.

Entry requirements

Applicants for admission must have a degree or diploma in a health profession (or equivalent). Applicants who are registered nurses or who hold other qualifications and/or professional experience approved by the Head of School of Nursing may be admitted.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate in Community Practice comprises three core units and one elective unit offered by the School of Nursing. Core units address topics including: principles of primary health care, including community participation, public health and health promotion; developing and maintaining collaborative partnerships in community practice; and project management and program planning, implementation and evaluation in community practice. The elective unit enables students to further develop knowledge and skills in an area of choice relevant to community health practice.

The course can be undertaken by internal or external mode and may be commenced mid-year.

Course Articulation

The Graduate Certificate in Community Practice has full articulation with the Graduate Diploma in Nursing and the Master of Nursing programs.

International Student Entry

This course is not available to international students.

Graduate Certificate in Paediatric, Child and Youth Health Nursing (NS35)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Course duration (external): 2 semesters

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Ms Jo Ramsbotham

Campus: Kelvin Grove

Overview

This course is designed for nurses working in either acute or community settings to enable them to develop competence in the practice of paediatric, child and youth health nursing. Students will examine major issues and trends in paediatric, child and youth health nursing scholarship and practice, and develop an understanding of research applied to paediatric, child and youth health nursing practice.

Students are normally required to undertake suitable workplace-based clinical experience during the program, by maintaining employment in an acute paediatric or community child or youth health setting at least 0.6 FTE. Students who are not working in a suitable clinical or community setting during the course will be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Entry requirements

Students must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Students who are not employed in a clinical setting relevant to their program may be required to undertake additional supernumerary clinical experiences to meet the requirements of the course.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Course Structure

This course comprises four units. The three core units address topics including child and family health assessment; evidence-based approaches to practice in paediatric, child and youth health nursing; and theory, processes and practices associated with primary and secondary prevention and management of common health problems experienced by individuals and families within paediatric, child and youth health settings.

The choice of elective units enables students to further develop knowledge and skills relevant to particular specialities within either acute paediatric or community child and youth health settings. This course may be undertaken by internal or external mode.

Course Articulation

The Graduate Certificate in Paediatric, Child and Youth Health Nursing has full articulation with the Graduate Diploma in Nursing and the Master of Nursing programs.

International Student Entry

This course is not available to international students.

Overview

The Graduate Certificate in Women's Health has been designed to provide graduates from health and related disciplines with a short, focused program to upgrade qualifications, knowledge and skills in women's health promotion. The program provides opportunities to develop theoretical and practical knowledge in women's health issues, the prevention of violence in all forms against women, sexual and reproductive health, and the screening and early detection of breast cancer. Students also have the opportunity to undertake women's health field visits and professional practice in organisations within their scope of practice. The course is suitable for registered nurses and other professionals working in women's health.

Entry requirements

A bachelor degree in the health professions (or equivalent). Registered nurses who hold other qualifications and/or professional experience approved by the Head of School of Nursing may be admitted.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

This course comprises two core units, one elective unit and one special topic unit. Core units address topics including women's health issues and sexual and reproductive health. The elective and special topic units provide students with the opportunity to develop knowledge and skills in areas including health promotion, prevention of violence against women, sexual and reproductive health, and the screening and early detection of breast cancer.

This course may be undertaken by internal or external mode and can be commenced mid-year.

Course Articulation

The Graduate Certificate in Women's Health has full articulation with the Graduate Diploma in Nursing, the Master of Nursing, the Graduate Diploma in Health Science and the Master of Health Science.

International Student Entry

This course is not available to international students.

Graduate Certificate In Paediatric Intensive Care Nursing (NS38)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Course duration (external): 2 semesters

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February and July

Total credit points: 48 (including 24 credit points advanced standing)

Standard credit points per part-time semester: 12

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Dr Jenny Fraser

Campus: Kelvin Grove

Overview

The Graduate Certificate in Paediatric Intensive Care Nursing has been designed to provide graduates with a short, focused program to upgrade qualifications, knowledge and skills in paediatric intensive care nursing. The course will enable students to develop competence and examine major issues and trends in paediatric intensive care nursing and, in addition, students practise and develop an understanding of research applied to paediatric intensive care nursing practice. Students are required to undertake suitable workplace-based clinical experience during the program, by maintaining employment in a paediatric intensive care unit at least 0.6 FTE.

Entry Requirements

Applicants must be eligible for registration as a nurse with the Queensland Nursing Council, have gained a degree in nursing (or equivalent) from a recognised institution, be currently enrolled or have completed the Queensland Health Transition to Practice Intensive Care Nurse Education Program (Paediatric) within the past three years, normally have at least one year of appropriate post-registration clinical experience, have at least three months recent clinical experience in a paediatric intensive care facility and be working at least 0.6FTE in a paediatric intensive care unit. This course maybe undertaken by internal or external mode and is available for mid-year entry.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate in Paediatric Intensive Care Nursing comprises 48 credit points made up of 24 credit points advanced standing from the Queensland Health Transition to Practice Intensive Care Nurse Education Program (Paediatric), plus 24 credit points from units offered by the School of Nursing. This course maybe undertaken by internal or external mode and is available for mid-year entry.

Course Articulation

All units successfully completed may be credited towards the Graduate Diploma of Nursing or the Master of Nursing.

International Student Entry

This course is not available to international students.

Campus: Kelvin Grove

Overview

The Graduate Certificate in Aged Care has been designed to provide graduates from health and related disciplines with a short, focused program to upgrade qualifications, knowledge and skills in aged care. The course will enable students to develop competence in the practice of aged care, examine major issues and trends in aged care policy and practice, and develop an understanding of research applied to aged care practice. The course is suitable for registered nurses and other professionals working in the field of aged care.

Entry requirements

Applicants must have a bachelor degree in the health profession (or equivalent) from a recognised institution; or alternatively, registered nurses who hold other qualifications or experience approved by the Head of School of Nursing may be admitted; and have a minimum of one year of recent experience in aged care.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate in Aged Care comprises four core units. These units address topics including health assessment in aged care, active ageing and wellness for older people living in the community, pathologies and associated practice interventions in caring for older people experiencing ill health, and policy and practice issues pertinent to the specialist practitioner in aged care, dementia, and family care.

The course can be undertaken by internal or external mode and can also be commenced mid-year.

Course Articulation

The Graduate Certificate in Aged Care has full articulation with the Graduate Diploma in Nursing, the Master of Nursing, the Graduate Diploma in Health Science, and the Master of Health Science.

International Student Entry

This course is not available to international students.

Overview

Nurses are an integral part of the health sector providing health care to individuals, families and communities in a wide range of settings.

Why choose this course?

QUT has the longest-running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course. The QUT School of Nursing is also the largest and most established centre in Australia and has an excellent reputation domestically and overseas, with strong international links.

The course provides a good balance of nursing theory and practice, and you will undertake supporting studies in biological, behavioural and social science, and the humanities. You are supervised by academic and clinical staff considered leaders in the nursing field.

Approximately half of the learning experiences are clinically based to ensure you gain extensive practical experience as a nurse. Clinical placements are available in a range of public and private hospitals and community services throughout Brisbane and in regional and rural areas of Queensland.

Career Options

Nursing graduates have excellent employment opportunities in a variety of health care settings or health promotion agencies. These include public and private hospitals and nursing homes as well as community service areas such as community health, occupational health, domiciliary nursing services, school health, Aboriginal health, pathology laboratories, alcohol and drug dependence and the armed

services.

Many nurses specialise in a specific area such as aged care, mental health, paediatrics, midwifery, intensive care, cancer, medical/surgical, community practice, emergency or women's health.

Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Entry Requirements

Applicants must have completed a bachelor degree (or equivalent) within the past 10 years. Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration. Please read *Real Options* for further information on Graduate Entry to QUT.

Students who admitted to the graduate entry program will automatically received one year of academic credit which will entitle the student to complete the degree in two years (full-time).

OP Guarantee

The OP Guarantee does not apply to this program.

Campus

This course is only available at the Kelvin Grove Campus.

Professional Membership

This course is recognised by the Royal College of Nursing, Australia (RCNA) as satisfying the academic requirements for admission as a professional member. The Bachelor of Nursing is an accredited Nursing Pre-registration course of the Queensland Nursing Council (QNC). For further information on registration requirements please refer to the Queensland Health website.

Other Course Requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q Health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit <http://bluecard.qut.com>.

additional costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform while

HEALTH

on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Deferment

QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview

Nurses are an integral part of the health sector, providing health care to individuals, families and communities in a wide range of settings.

Why choose this course?

QUT has the longest running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course.

Advanced standing is automatically awarded to applicants with a completed degree in another discipline (see Bachelor of Nursing-Graduate Entry). Students with a completed Diploma of Nursing (Pre-enrolment) will automatically receive one year of advanced standing (96 credit points) and can complete the degree in two years full-time.

The course provides a good balance of nursing theory and practice, and you will undertake supporting studies in biological, behavioural and social science, and the humanities. You will be supervised by academic and clinical staff considered leaders in the nursing field. Approximately half of the learning experiences are clinically based to ensure you gain extensive practical experience as a nurse. Clinical placements are available in a range of public and

private hospitals and community services throughout Brisbane and in regional and rural areas of Queensland.

Career Options

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings or health promotion agencies. These include public and private hospitals and nursing homes, as well as community service areas such as community health, occupational health, domiciliary nursing services, school health, Aboriginal health, pathology laboratories, alcohol and drug dependence and the armed services.

Many nurses specialise in a specific area such as aged care, mental health, paediatrics, midwifery, intensive care, cancer, medical/surgical, community practice, emergency or women's health.

Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership

This course is recognised by the Royal College of Nursing, Australia (RCNA) as satisfying the academic requirements for admission as a professional member. The Bachelor of Nursing is an accredited Nursing Pre-registration course of the Queensland Nursing Council (QNC). For further information on registration requirements please refer to the Queensland Nursing Council website.

Graduate entry

Students with a complete degree are eligible to be considered for Bachelor of Nursing - Graduate Entry program. For further details please read the separate course entry on Bachelor of Nursing - Graduate Entry.

Diploma entry

Students with a completed Diploma of Nursing (Pre-enrolment), Diploma of Nursing (Post-enrolment), or Diploma of Nursing Care (Pre-enrolment) from TAFE or Shafston Institute of Technology will receive one year of academic credit will be automatically awarded by QUT Admissions after the QTAC offer and prior to the start of classes.

If you have one the above diplomas and receive an offer, you will be able to undertake the diploma entry enrolment program that allows you to complete the Bachelor of Nursing in two years.

Other course requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a

HEALTH

Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit <http://bluecard.qut.com>.

additional costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Caboolture campus

The Bachelor of Nursing will be progressively offered at the Caboolture campus for full-time students only. In 2007, only the first year was offered, with second and third year to be introduced in 2008 and 2009.

International student places are not currently offered at Caboolture campus.

Graduate entry currently is not offered at the Caboolture campus.

Graduate Certificate in Emergency Nursing (NS41)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Course duration (external): 2 semesters

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February and July

Total credit points: 48

Standard credit points per part-time semester: 12

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Dr Fiona Coyer

Campus: Kelvin Grove

Overview

The Graduate Certificate in Emergency Nursing is offered in conjunction with key industry partners. Two units (24 credit points) are advanced standing from accredited programs, such as the Queensland Health Transition to Emergency Nursing program. The remaining two units (24 credit points) in the Graduate Certificate in Emergency Nursing address topics such as nursing assessment, evidence-based approaches to nursing practice in the emergency setting and the process and practices associated with managing common client presentations to the the emergency settings.

Entry Requirements

Applicants must be eligible for registration as a nurse with the Queensland Nursing Council (QNC), have a degree in nursing (or equivalent) from a recognised institution, have completed the Queensland Health Transition to Emergency Nursing Program (or its equivalent) within the past three years, normally have at least one year of appropriate post-registration clinical experience, have at least three months recent clinical experience in an emergency facility, and be working at least 0.6 FTE in a level four-six emergency facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of the School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate comprises 48 credit points made up of 24 credit points advanced standing from accredited programs, plus 24 credit points from units offered by the School of Nursing.

The course may be undertaken in internal or external mode and is available for mid-year entry.

Course Articulation

All units successfully completed may be credited towards the Graduate Diploma in Nursing or the Master of Nursing.

International Student Entry

This course is not available to international students.

Total credit points: 384

Standard credit points per full-time semester: 48

Course coordinator: Dr Alan Barnard

Campus: Kelvin Grove

Overview

This four-year degree program combines the complementary areas of nursing and health services management. The clinical and practical aspects of nursing are combined with the managerial and administrative side of health care delivery to provide you with a breadth of relevant knowledge and experience.

Why choose this course?

Along with being eligible to apply for registration as a nurse with the Queensland Nursing Council (QNC), you will also be multi-skilled in the management of health services, enhancing your employment and career prospects.

This course features both theoretical and practical subjects, including clinical placements ensuring you gain extensive, hands-on experience as a nurse. The course structure provides a balance of nursing and health management subjects including behavioural sciences, mental health, professional development, finance, planning and health promotion.

Career Options

Nurses work in public and private hospitals, residential care facilities, private homes, schools, pathology laboratories, medical clinics and other community-based and private work environments.

Graduates can also seek employment opportunities in managerial roles within the health sector.

Professional Membership

This course is recognised by the Royal College of Nursing, Australia (RCNA) as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on the requirements for QNC registration please refer to www.qnc.qld.gov.au Graduates are also eligible for membership of the Australian College of Health Service Executives (ACHSE).

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other Course Requirements

The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete 'The Essentials' component of the student orientation package which is available on the Queensland Health website www.health.qld.gov.au/SOP/html/Essentials_Homepage.asp

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview

This course combines the disciplines of nursing and midwifery. The program balances the development of clinical skills in nursing and midwifery with theoretical study and includes clinical placements in maternity settings, hospitals, and community facilities. The course is designed to provide graduates with the knowledge, skills and competencies to practise as registered nurses and endorsed midwives.

Note that graduates are awarded a Bachelor of Nursing and a Bachelor of Midwifery. The Bachelor of Midwifery is not offered alone as a separate course.

The course is four years full-time. Year 1 will be offered for the first time in 2008. Years 2 to 4 will be introduced progressively from 2009.

Career options

The course is designed to prepare graduates for employment as nurses or midwives. At present there are workforce shortages in both nursing and midwifery. Graduates will be able to work not only in hospital settings, but also in community and rural settings.

Registration

Registered General Nurse and Endorsed Midwife with Queensland Nursing Council (subject to approval).

A submission has been made to the Queensland Nursing Council for approval for nursing and midwifery registration. This is subject to approval.

Professional Membership

The program will satisfy the academic and educational requirements for admission as a professional member of the Royal College of Nursing, Australia, and Australian College

of Midwives Incorporated.

A submission has been made to the Queensland Nursing Council for approval for nursing and midwifery registration. This is subject to approval.

OP Guarantee

The OP Guarantee does not apply to this course.

Other course requirements

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

Blue Card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit bluecard.qut.com.

Additional Costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Deferment

Course coordinator: Dr Fiona Coyer

Campus: Kelvin Grove

Overview

The Graduate Diploma in Nursing provide the opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and to prepare registered nurses for specialist roles in selected areas of health care. The course demonstrates a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The course thus aims to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

The Graduate Diploma in Nursing fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Majors

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Paediatric, Child and Youth Health Nursing*
- Professional Studies
- Women's Health

*For the July intake this major is only offered a part-time basis.

Entry Requirements - Domestic Applicants

Applicants for the Graduate Diploma in Nursing must be registered as a nurse with the QNC or the nurse regulatory authority in the student's state or territory of residence, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year

of appropriate postregistration clinical experience. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Additional entry requirements for the specific majors include:

Intensive Care

Applicants for the Intensive Care major must also have had at least three months of recent clinical experience in an intensive care unit and be working at least 0.6 FTE in a level two or three intensive care facility.

Cancer Nursing, Paediatric, Child and Youth Health Nursing

Applicants for the Cancer Nursing and Paediatric, Child and Youth Health Nursing majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical

Students are required to undertake suitable workplace based clinical experience during the program to meet the requirements of the course by either maintaining employment in a medical/surgical practice setting or undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Entry Requirements - International Applicants

International applicants who wish to enter the Cancer Nursing; Women's Health; Aged Care; Intensive Care Nursing; Medical/Surgical Nursing; Paediatric, Child and Youth Health Nursing; Community Practice and Professional Studies strands must have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia; be registered or authorised to practise in their country of origin or residence; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate post-registration clinical experience. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applications for the Intensive Care major must also have had at least three months recent clinical experience in an intensive care unit.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD\$45) plus an annual

licence fee (currently AUD\$72). Eligibility for temporary registration is assessed by the QNC. This process may take up to three months.

International students may enrol only in February in full-time studies and may study only onshore.

Course Structure

The course structures offer a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice.

Students may undertake one of eight majors. For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study. The Graduate Diploma in Nursing consists of eight units each of 12 credit points making a total 96 credit points.

The Graduate Diploma may be undertaken by domestic students full-time or part-time in internal or external mode.

NB: Midwifery is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

Graduate Diploma in Nursing students who choose this major will complete three core units, and five elective units. The elective options enable students to customise their program of study to meet individual learning needs.

Course Pathways/Articulation

The Graduate Diploma in Nursing fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the QNC.

* In selected modules, students studying NSN723 and NSN725 must be working in a practice setting relevant to the areas of study, or be willing to undertake additional clinical experiences to be able to undertake the units. Contact the course coordinator for further

information.

Graduate Diploma in Midwifery (NS68)

Year offered: 2008

Admissions: Yes

CRICOS code: 040342B

Course duration (full-time): 2 semesters

Course duration (part-time): 4 semesters

Course duration (external): 2 semesters (full-time) or 4 semesters (part-time)

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

International Fees (per semester): 2008: \$9,504 per semester (*subject to annual review*)

Domestic Entry: February

International Entry: February

Total credit points: 96

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Fiona Coyer

Campus: Kelvin Grove

Overview

The Graduate Diploma in Midwifery is designed to prepare graduates for beginning level practice as midwives. Students undertake clinical and supporting studies units to enable them to develop competence in the area of midwifery, develop a critical awareness of major issues and trends in midwifery, and develop their understanding of research applied to midwifery. Graduates from the program are eligible to apply to the Queensland Nursing Council (QNC) for endorsement authorising practice as a midwife. Inherent in these course objectives is the expectation that, on completion of the course, students will have demonstrated their ability to meet the Australian College of Midwives Competencies (2005).

Entry Requirements - Domestic Applicants

Domestic applicants must be registered as a nurse with the QNC, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Entry Requirements - International Applicants

International applicants must have current temporary or full registration as a nurse with the QNC, have gained a degree in nursing (or equivalent) from a recognised institution and normally have at least one year of appropriate postregistration clinical experience.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD\$45) plus an annual licence fee (currently AUD\$72). The QNC assesses

eligibility for temporary registration. This process may take up to three months. International applicants may also apply for alternative entry on the basis of relevant experience at the discretion of the Head of School of Nursing. International students may enrol only in full-time studies.

Course Structure

Students enrolled in the Graduate Diploma in Midwifery undertake eight 12 credit point units, comprising five clinical studies units and three supporting studies units. These clinical units are designed to facilitate the development of knowledge, attitudes and skills which are commensurate with beginning practice as a midwife. A minimum of 720 hours of off-campus clinical experience is scheduled throughout the course. Clinical experience occurs in hospital settings, and a variety of community health agencies eg the family planning clinic, sexual health clinic, community support groups and childbirth education classes. The supporting studies component of the program comprises three units designed to further enhance students' professional growth through exploration, at a postgraduate level, of the nexus between research and practice, and issues in the development of midwifery as a discipline.

Course Articulation

This course fully articulates with the Master of Nursing.

Overview

The Master of Nursing provide an opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and prepare for specialist roles in selected areas of health care. The courses demonstrate a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The courses aim to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

This course fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the Queensland Nursing Council (QNC).

Majors

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Paediatric, Child and Youth Health Nursing#
- Professional Studies
- Women's Health
- Midwifery*

#For the July intake this major is only offered a part-time basis.

*Only offered in the February intake.

Entry Requirements - Domestic Applicants

Applicants for the Graduate Diploma in Nursing or Master of Nursing programs must be registered as a nurse with the QNC or the nurse regulatory authority in the student's state or territory of residence, have gained a degree in nursing (or

equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Additional entry requirements for the specific majors include:

Intensive Care

Applicants for the Intensive Care major must also have had at least three months of recent clinical experience in an intensive care unit and be working at least 0.6 FTE in a level two or three intensive care facility.

Cancer Nursing, Paediatric, Child and Youth Health Nursing

Applicants for the Cancer Nursing and Paediatric, Child and Youth Health Nursing majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical

Students are required to undertake suitable workplace based clinical experience during the program to meet the requirements of the course by either maintaining employment in a medical/surgical practice setting or undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Midwifery

Applicants for the Midwifery strand must be registered as a nurse with the QNC.

Entry Requirements - International students

International applicants who wish to enter the Cancer Nursing; Women's Health; Aged Care; Intensive Care Nursing; Medical/Surgical Nursing; Paediatric, Child and Youth Health Nursing; Community Practice and Professional Studies strands must have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia; be registered or authorised to practise in their country of origin or residence; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate post-registration clinical experience.

Candidates seeking entry to the Master of Nursing are required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Applications for the Intensive Care or (for the Master of Nursing) Midwifery majors must have current temporary or full registration as a nurse with the QNC.

Applications for the Intensive Care major must also have had at least three months recent clinical experience in an intensive care unit.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD\$45) plus an annual licence fee (currently AUD\$72). Eligibility for temporary registration is assessed by the QNC. This process may take up to three months.

International students may enrol only in February in full-time studies and may study only onshore.

Course Structure

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of nine different majors. For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units or a 24 credit point clinical project.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time in internal or external mode.

Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular speciality to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

Course Articulation

The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Student who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

Further Information

For more information about this course, please call the School of Nursing on +617 3864 3824.

Master of Nursing Science (Nurse Practitioner) (NS86)

Year offered: 2008

Admissions: Yes

Course duration (full-time): 2 semesters

Course duration (part-time): 4 semesters

Course duration (external): 2 semesters (full-time) or 4 semesters (part-time)

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: Full fee tuition \$12,960

Domestic Entry: February and July

Course coordinator: Dr Fiona Coyer

Campus: Kelvin Grove

Overview

The Master of Nursing Science (Nurse Practitioner) course is a one-year, full-time or two-year, part-time course. Upon successful completion of the program, graduates will be able to:

- assess and treat clients in a specialty field of nursing practice and health care
- order diagnostic investigations within a specialty field of nursing practice
- prescribe medications and other interventions from a specialty field of nursing practice
- directly refer patients to other healthcare professionals
- conduct advanced comprehensive health assessments relevant to a specialist field of nursing practice
- demonstrate an ability to conduct clinical services using high-level communication skills, innovation and leadership in both autonomous and multidisciplinary modes of practice
- demonstrate the capacity to think critically and creatively in complex and unfamiliar environments.

The Master of Nursing Science (Nurse Practitioner) is accredited by the Queensland Nursing Council (QNC). Graduates will be eligible to apply to QNC for authorisation to practise as nurse practitioners in Queensland.

Entry Requirements

Applicants must:

- be a registered nurse with the Queensland Nursing Council (QNC)
- have gained a degree in nursing (or equivalent) from a recognised institution and have gained a graduate certificate in nursing (or equivalent) in the area of nominated specialty from a recognised institution;
- have a minimum of three years full-time equivalent clinical practice experience in the nominated specialty
- be employed in an advanced practice nursing role for the duration of the course.

Alternatively, applicants without the required qualifications may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

To be accepted into the course, applicants will need to have access to a clinical support team in their speciality field of practice. The clinical support team will normally consist of an advanced health practitioner currently practising the extended clinical skills required by the candidate in their speciality field of practice (for example, a medical practitioner or a nurse practitioner), together with an advanced practice nurse in the speciality area (for example, a clinical nurse consultant or an advanced practice nurse). This support team will work with the candidates to assist with the development and extension of practise skills in their speciality field.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The course consists of seven units - six theoretical units including an elective and an internship over two semesters. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning. This course may be undertaken by internal or external mode and is available for mid-year entry.

International Student Entry

The course is not available to international students.

Further Information

For further information about this course, please contact the School of Nursing on +617 3864 3824 or email nursing.enquiries@qut.com

Standard credit points per full-time semester: 48

Course coordinator: Prof Michael Collins

Campus: Kelvin Grove

Overview

Optometrists examine people's eyes to protect and improve their vision and to detect and diagnose eye disease. As an optometrist, you will work with a range of complex instruments and techniques to test vision for defects such as short-sightedness, long-sightedness and astigmatism. Optometrists use their clinical judgement to treat patients in a variety of ways, including eye exercises, contact lenses, spectacles or advice on lighting and visual habits.

Why choose this course?

QUT has the only optometry school in Queensland and one of only three in Australia. Class numbers are small so you will receive individual attention from experienced lecturers.

An on-campus optometry clinic enables you to work directly with real patients, under the supervision of working optometrists.

You will gain hands-on experience throughout the course through participation in the practices of working optometrists, and in other clinical settings including a clinic for Indigenous patients and a clinic for children with impaired vision.

The QUT School of Optometry maintains strong professional and organisational links with industry. Clinical teachers come primarily from private practice settings, while many guest lectures are given by optometrists from private practice and allied disciplines such as ethics, financial, medical and pharmaceutical professions.

Career Options

Graduates are highly employable, with all students employed on graduation (2005 QUT Graduate Destinations Survey).

Graduates can work or specialise in areas such as contact lens practice, children's vision, occupational/public health optometry or low vision.

Many optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals, or they may enter the teaching and research fields after further study.

Professional Membership

Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists' Board of Queensland for registration to practise as optometrists in Queensland and all states and territories of Australia.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

International student

Strict quotas apply for entry to this course.

OP Guarantee

The OP Guarantee does not apply to this course.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

additional costs Ophthalmic instruments costing approximately \$5000 are required for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

Deferral

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Graduate Certificate in Ocular Therapeutics (OP43)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Domestic fees (per credit point): 2008: \$146 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: Full fee tuition \$14,016

Domestic Entry: July

International Entry: July (non student visa applicants only, not CRICOS registered)

Course coordinator: Dr Andrew Carkeet

Campus: Kelvin Grove

Overview

The Graduate Certificate in Ocular Therapeutics is designed to provide training to allow optometrists in Queensland to use a range of topical ocular pharmaceuticals for the treatment of eye disease. The design and implementation of this program has been in response to legislative changes in Queensland to allow suitably qualified optometrists to use a range of S4 drugs to treat eye disease. This course is the only local means whereby Queensland optometrists can gain a qualification in ocular therapeutics, and it will be supplementary to their normal optometric registration.

Entry Requirements

Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in any State or Territory of Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

International Student Entry

This course is not available to international students.

PUN105 Health Statistics

PUN640 Health Care Delivery and Reform

PUN106 Population Health

HLN710 Fundamentals of Epidemiology and Research Design

Overview

Public health professionals make a difference to the health of populations. These course provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

Entry Requirements

Applicants must have an approved bachelor degree from a recognised institution or a basic professional qualification plus at least two years of relevant post-qualification experience and/or training.

Course Structure

The course consists of 4 core units (48 credit points) from the Master of Public Health /Graduate Diploma in Public Health. The course is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland.

Course Pathways/Articulation

This course fully articulates into the Graduate Diploma in Public Health and the Master of Public Health.

Further Information

For more information about this course, please contact the School of Public Health on phone +617 3137 5878 or email sph.studentcentre@qut.edu.au

International Student Entry

International students may enrol only in full-time studies.

Course structure

Semester 1

Graduate Certificate in Environmental Health (PU32)

Year offered: 2008

Admissions: Yes

Course duration (part-time): 2 semesters

Course duration (external): 2 semesters part-time

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

Domestic Entry: February

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Thomas Tenkate

Campus: Kelvin Grove

Overview

This course provides the knowledge and skills required to enhance professional development in the area of environmental health and prepares students for further postgraduate study.

Entry requirements

Applicant must hold an undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

Course Articulation

The Graduate Certificate in Environmental Health articulates into the Graduate Diploma in Environmental Health.

International Student Entry

This course is not available to international students. The Graduate Certificate in Environmental Health is only offered part-time. International students may enrol only in full-time studies.

Further information

For more information about this course, please contact the School of Public Health on phone +617 3864 5878 or email sph.studentcentre@qut.com

Change

AND

PUN688 International Health Policy and Management

OR

PUN608 Health Economics

OR

PUB609 Health Resource Allocation

Potential Careers:

Government Officer, Health Services Manager, Policy Officer, Public Health Officer.

Overview

This course provides the knowledge and skills required to enhance professional development in Health Services Management. It also prepares students for further postgraduate study in health.

Entry requirements

An appropriate Bachelor degree, or other qualifications (or an acceptable professional qualification) or appropriate work experience acceptable to the Executive Dean.

Course Structure

Students will be required to follow a prescribed enrolment program to complete this area of specialisation although there are options for specialist units. The course is internal mode only although some units are available externally.

Academic credit will not be granted for units in this course on the basis of completion of units in any undergraduate program.

Course Articulation

The course articulates with the Graduate Diploma in Health Science and Master of Health Science.

International Student Entry

This course is not available to international students.

Campus: Kelvin Grove

Overview

Health Information Management

Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

Health Services Management

Health services managers plan, evaluate, and manage the delivery of health services. Their skills are used to assess a population's health needs, develop strategies to meet these needs, and then secure the resources needed to ensure the population's health is enhanced.

Public Health

Public health professionals are an essential part of any health-related organisation. Their primary aim is to promote the general health and wellness of a community or population through their work in the health care sector.

Majors

Three majors in the Bachelor of Health Science - Health Information Management, Health Services Management

and Public Health - have a common first year. Students are able to choose one of these majors in their second year.

Why choose this course?

Health Information Management

Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

If you are interested in working in a managerial role liaising constantly with medical nursing and administrative staff, other health professions and the public, then health information management may be the field for you. QUT's Bachelor of Health Science (Health Information Management) is the only course of its kind offered in Queensland and one of only four in Australia.

Health Services Management

The Bachelor of Health Science (Health Services Management) is designed for people who want to join the health care industry in an administrative or managerial capacity. It is also a valuable qualification for people already working in the health industry to upgrade their management knowledge and skills. This course is the only one of its kind offered in Queensland and is one of only a few in Australia. It prepares graduates with an understanding of business principles as well as policy and planning, project management, and computing. The course is flexible and allows options for elective study areas to meet individual interests. You will have the opportunity to do project work, facilitated by lecturers with strong industry links. The mentor program matches final-year students with senior staff in the health industry providing you with excellent networking and employment opportunities.

Public Health

If you have a desire to enhance people's lives through improved health care, then a career in public health may be for you. QUT has the longest running undergraduate public health course in Queensland. You will learn from experienced, expert staff with strong industry and international links. The three-year course will give you an understanding of public health, primary health care, community health and health promotion. You will also undertake a compulsory placement/practicum program to gain valuable professional experience and industry contacts.

Career Options

Health Information Management

Health information management practitioners work as health records administrators, clinical coders, information retrieval managers, human resource managers, health insurance workers, project officers and public health workers. Employment areas include public and private hospitals, community health centres, large group practices,

government, health departments, research organisations, commercial companies, universities, and consulting firms. The rapid growth of the health information management field means graduates are in demand and enjoy high starting salaries, average \$49 750, and excellent promotion opportunities (2005 QUT Graduate Destinations Survey).

Health Services Management

Employment prospects in this field are excellent; locally, nationally and internationally. The salaries for new graduates are among the highest for any professional group. Graduates work as health service or health administration managers or officers, project officers, health insurance workers, and human resource managers. Employment areas include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Public Health

Public health practitioners work as community health officers, policy officers, program evaluators, public health promoters and educators, project officers and consultants. They work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership

Health Information Management

Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia (HIMAA), the Clinical Coders Society of Australia (CCSA), and the Australian College of Health Service Executives (ACHSE).

Health Services Management

Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives (ACHSE).

Public Health

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Honours

Students who obtain high results throughout the course can study an additional one-year honours degree. Honours consists of a research component, which increases career opportunities and opens the way to further studies at PhD level.

Course design

The **Health Information Management** program has set units to be completed, that is, there are no opportunities to complete electives.

The **Health Services Management** program consists of a major in health services management, plus:

- a major in public health **or**
- two minors **or**
- one minor and four electives.

Minor/electives are available in the areas of:

- accounting and finance
- public health
- human resource management
- indigenous health
- international business
- management
- marketing
- gender issues
- science*
- general electives

The **Public Health** program consists of a major in public health plus the opportunity to select from one of the following minors/electives in the areas of:

- community nutrition
- indigenous health
- gender issues
- science*
- general studies in psychology
- counselling
- general electives

* Completion of the science minor is a prerequisite for entry into postgraduate courses, e.g. Graduate Diploma in Environmental Health.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Campus: Kelvin Grove

Overview

Nutritionists work with the wider population to influence dietary patterns and behaviours as well as the wider food supply. They can work in a range of settings as diverse as public health and community nutrition, indigenous nutrition and health, consumer and public health, and promotion of nutrition through the media as journalists and editors.

Why choose this course?

The study of public health with a major in human nutrition involves understanding the promotion of health, as well as the prevention of diet related disease. The course is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

The course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, health service and project management. Students will be expected to undertake practical placement outside the university in real world settings. This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

Professional Membership

Graduates of this three year full-time program are eligible to apply for membership of the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies, and Associate membership of the Dietitians Association of Australia (DAA).

Career options

Nutrition graduates can work in a variety of areas, including community health centres and public health areas; as service consultants to industry, government and both public and private institutions; in government, educational institutions, research, occupational health and the food industry.

The Bachelor of Health Science (Nutrition) also allows entry to other health-related and graduate positions.

Electives

Electives include clinical science, counselling, exercise science, health management and health promotion, public health and research.

Course structure

Year 1

You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2

Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to nutrition in chronic disease, as well as epidemiology and evidence based practice.

Year 3

You will now apply and contextualise more the knowledge and skills gained in the first 2 years in relation to the health needs of varying population groups. You will learn the principles of project management and then actually undertake projects working with and assisting practitioners in real world settings such as community health centres, schools or business organisations. You are also able to choose electives in areas of interest to further develop your knowledge and skills in a range of areas.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 384

Standard credit points per full-time semester: 48

Course coordinator: Mrs Melinda Service

Discipline coordinator: Mrs Jan Payne

Campus: Kelvin Grove

Overview

This course will enable you to become a credentialed dietitian. The study of nutrition and dietetics involves the promotion of health, as well as the prevention and treatment of diet-related disease. It is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

Why choose this course?

This course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, food service and health service management, medical nutrition therapy and practice in individual case management, community nutrition and food service management. Students will be expected to undertake practical placements outside the university in hospitals, community health centres, private industry and food service institutions. These working environments are sometimes available outside the semester times and places are limited by availability of placement sites and supervisors, thus places for the course are competitive.

This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition

and public health generally.

Career Options

Graduates have excellent rates of employment with a range of opportunities available. They can provide medical nutrition therapy to clients to assist in their medical management of disease and illness in hospitals, nursing homes, community health centres and private practice. They can be food service consultants to food industries, hospitals, nursing homes and institutional catering services. They can also become community or public health nutritionists in government and non-government organisations, or researchers in their chosen area of practice.

As a health qualification, the Bachelor of Health Science (Nutrition and Dietetics) also allows entry to other health-related and graduate positions.

Professional Membership

Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Electives

Elective studies are available in health promotion, counselling, clinical science, exercise science, research methods and projects.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements

additional costs Students who are required to undertake placements off campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination and Blue Card clearance are required before placement in Queensland Health and Education facilities.

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

OP Guarantee

The OP Guarantee does not apply to this course.

Course structure

Year 1

You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your

future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2

Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to epidemiology and evidence based practice.

Year 3

You will now apply and contextualise knowledge and skills gained in the first 2 years, in units focussed on potential future areas of dietetic practice, such as medical nutrition therapy, food service management and public health nutrition. Combined with health promotion, nutrition education principles and quantitative analysis for health, these units further develop important skills in researching, critical analysis and practical application. This practice will be consolidated in advanced food studies and introduction to dietetic practice.

Year 4

This year predominantly involves practice based placements which allow you to work with and assist qualified practitioners in real world settings. You will demonstrate competency by managing individual cases in hospitals and undertaking food service management and community nutrition projects in varied settings such as hospitals, community health centres, schools or business organisations throughout Queensland. Advanced dietetic management and research skills will also be applied in final year projects.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Course coordinator: Ms Melinda Service

Discipline coordinator: Dr Lloyd Reed

Campus: Kelvin Grove

Overview

Podiatrists diagnose and treat foot and lower limb problems. They use a range of clinical, surgical, and therapeutic techniques to treat patients and may work as a member of a medical team to deliver the best overall care for a patient with diabetes, rheumatoid arthritis, sports injuries, or walking difficulties.

Why choose this course?

If you possess good communication skills and a people-oriented personality and would like to help people with foot and lower limb disorders including sport-related conditions and those in special needs groups, then you may enjoy a career in podiatry.

QUT offers the only course in podiatry in Queensland. It features an on-campus clinic where students treat patients under the supervision of experienced clinical lecturers.

Podiatry staff have excellent, established health and medical industry links and the course has a strong reputation recognised throughout Australia and overseas.

This course will prepare you with an understanding of human anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine and surgery. You will also learn how to integrate aspects of podiatric surgery,

physical therapy, rehabilitation and counselling into the patient interaction.

Career Options

Employment opportunities for podiatry graduates are excellent. In recent years the number of positions available exceeded the number of graduates.

Podiatry graduates work in a broad range of health care setting including private practice, hospitals or community health centres.

Professional Membership

Graduates are eligible for state registration throughout Australia and for registration in the United Kingdom, New Zealand and some European countries. Graduates may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

OP Guarantee

The OP Guarantee does not apply to this course.

Electives

Students are required to select three elective units that constitute a coherent body of study. The course coordinator approves electives outside the recommended list.

Electives are available in exercise studies, public health and research.

Other course requirements

blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit <http://bluecard.qut.com>.

additional costs There are additional costs associated with this course including a practicum shirt and podiatry equipment(\$1000). Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements.

Honours

A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Course coordinator: Mrs Melinda Service

Campus: Kelvin Grove

Overview

Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

Why choose this course?

This course is Queensland's first and only degree in paramedics. If you are interested in a dynamic career helping to save lives, then this course may be for you.

The first year of the course provides foundation studies in the anatomy and physiology of the human body and an introduction to pathology, pathophysiology, pharmacology and clinical practice. Second and third years continue to develop the theoretical studies with increasing emphasis on clinical skills and practice with the final year involving supervised clinical practice with the Queensland Ambulance Service (QAS).

Career Options

The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

Other course requirements

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial

vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

d) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

e) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

f) Psychometric assessment (prerequisite for PUB670)

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately \$500).

Professional recognition

Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

OP Guarantee

The OP Guarantee does not apply to this course.

International student entry

This course is not available for international student entry.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work

experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

New courses planned for 2008

It is expected that the following new courses will be available from 2008:

Bachelor of Health Science (Paramedic) - Graduate entry (2 year program)

This is subject to approval and information will be at studyfinder.com.au mid-2007.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) will be available in this course in 2008.

Tuition fees are also applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Standard credit points per full-time semester: 48

Course coordinator: Mrs Melinda Service

Campus: Kelvin Grove

Overview

Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

Why choose this course?

This course was Queensland's first degree in paramedics. If you are interested in a dynamic career helping to save lives, then this course may be for you.

There is increasing emphasis on clinical skills through the course including supervised clinical practice with the Queensland Ambulance Service (QAS).

Career Options

The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

Entry requirements

Completion of a degree in a health field (eg nursing, physiotherapy, occupational therapy, medicine, optometry, pharmacy, medical science, human movement studies, nutrition) in the last 10 years.

Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

For more information QUT's admission policies regarding graduate entry please read *Real Options*.

Students who admitted to the graduate entry program will automatically received one year of academic credit which will entitle the student to complete the degree in two years (full-time).

Orientation program

A one-week Orientation Program, Transition to Paramedic Studies, is conducted on campus in the week preceding the first week of semester (Orientation Week). No credit points are awarded for completing the program and there are no costs to students.

The aim of this program is to familiarise students with the significant clinical aspects of the units PUB180 and PUB280 (Foundations of Paramedic Practice 1 and 2) which students completing the full three year program complete but graduate entry students do not.

This transition program is important for students' understanding of PUB390 and PUB391 (Paramedic Management of Medical and Surgical Emergencies A and B) in the first semester of their programs and is integral to understanding of the clinical component of paramedic practice.

Other course requirements

The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

d) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

e) Immunisations - It is a requirement for any student to be

immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

f) Psychometric assessment (prerequisite for PUB670)

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately \$500).

Professional recognition

Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

OP Guarantee

The OP Guarantee does not apply to this program.

International student entry

This course is not available for international student entry.

Deferment

QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, have consumed their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview

Public health professionals make a difference to the health of populations. These course provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

This course is offered and taught conjointly by a consortium of three universities (QUT, Griffith University, and The University of Queensland). Students enrol through one of these universities and are required to complete four compulsory core units and four elective units selected from a specialised stream.

Entry Requirements

Applicants come from many health-related fields, but you should have a recognised degree in health, behavioural, social or biological science and at least two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma. Admission on the basis of professional experience and/or research work will be considered.

Majors

Specialised stream units are available in the areas of:

- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

There is also the option of not completing a major and choosing units from more than one stream.

Course Structure

Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units (Part A) and four advanced elective units (Part B). Elective units will normally be selected according to choice of a stream of study.

Course Articulation

This course fully articulates into the Master of Public Health.

International Student Entry

International students may only enrol in full-time studies.

Further information

For more information about this course, please contact the School of Public Health on +617 3138 5878 or email sph.studentcentre@qut.edu.au

Course structure

Part A - Core Units

PUN105	Health Statistics
PUN640	Health Care Delivery and Reform
PUN106	Population Health
HLN710	Fundamentals of Epidemiology and Research Design

Part B - Advanced elective units offered by QUT

Health Services Management and Policy Sciences

PUN608	Health Economics
PUN632	Health Services Management, Leadership and Change
PUN649	Health Care Financial Management

Domestic Entry: February and July

International Entry: February and July

Total credit points: 96

Standard credit points per full-time semester: 48

Course coordinator: Dr Thomas Tenkate

Discipline coordinator: Dr Margaret Cook

Campus: Kelvin Grove

Overview

The design of this course is multidisciplinary. It covers occupational health and safety topics that include ergonomics, occupational health, hygiene, law and safety technology.

Entry requirements

Applicants should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Applicants may be considered for special entry if they have experience and responsibility in occupational health and safety. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

Course Structure

Students complete eight specified units. The course is available full-time and part-time. Internal and external modes are available (within Australia only).

Course Articulation

This course fully articulates into the Master of Health Science.

International Student Entry

International students may only enrol in full-time studies and may only study on-shore.

Further information

For more information about this course, please call the School of Public on phone +617 3138 5878 or email sph.studentcentre@qut.edu.au

Overview

This course provides the knowledge and skills required for graduates to be employed as environmental health practitioners and in particular they will be eligible to practice as environmental health officers. This award provides an entry pathway into environmental health professional practice for students with undergraduate degrees in public health, nutrition, nursing and science.

Entry requirements

Applicant must hold an undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

Course Structure

Students follow a prescribed enrolment program and are required to complete seven units in environmental health and PUN106 Population Health.

Students enrolling in external mode will be required to attend intensive practical sessions at Kelvin Grove campus for selected units in the course.

Course Articulation

This course articulates into the Master of Health Science.

International Student Entry

International students may enrol only in full-time programs in internal mode.

Further Information

For more information about this course, please contact the School of Public Health on phone +617 3138 5878 or email sph.studentcentre@qut.edu.au

Overview

Public health professionals make a difference to the health of populations. These courses provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

The Master of Public Health is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland. Students have opportunities to undertake electives at these institutions only after consultation with the course coordinator.

Entry requirements

Students come from many health-related fields, but should have a recognised degree in health, behavioural, social or biological science and not less than two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma.

Admission on the basis of professional experience and/or research work will be considered.

Majors

Specialised streams of study are offered in the areas of:

- . Health Services Management and Policy Sciences
- . Occupational and Environmental Health Science
- . Health Promotion
- . Epidemiology and Research Methods

There is also the option of not completing a major and choosing units from more than one stream.

Course Structure

Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:

- four core units (Part A),
- one research methods unit (HLN405, HLN705 or HLN706) and
- seven advanced elective units (Part B)

(2) Option two is to undertake coursework with a project component:

- four core units (Part A)
- one research methods unit (HLN405, HLN705 or HLN706) and
- five advanced elective units (Part B) and
- one project unit (HLN703).

(3) Option three is coursework with a thesis component:

- four core units (Part A)
- four advanced elective units (Part B)
- dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

Course Articulation

The Graduate Certificate in Public Health fully articulates into the Graduate Diploma in Public Health and Master of Public Health and the Graduate Diploma in Public Health fully articulates into the Master of Public Health.

International Student Entry

International students may only enrol in full-time studies.

Graduate Diploma in Psychology (PY08)**Year offered:** 2008**Admissions:** Yes**CRICOS code:** 036434K**Course duration (full-time):** 2 semesters**Course duration (part-time):** 4 semesters (may not be available by evening study)**Domestic fees (per credit point):** 2008: \$135 per credit point (*subject to annual review*)**Domestic fees (indicative):** 2008: \$12,960**International Fees (per semester):** 2008: \$9,504 per semester (*subject to annual review*)**Domestic Entry:** February (full-time and part-time) and July (part-time only)**International Entry:** February**Total credit points:** 96**Course coordinator:** Dr Julie Hansen**Campus:** Carseldine**Overview**

The Graduate Diploma in Psychology provides an Australian Psychology Accreditation Council (APAC) accredited undergraduate level of training in psychology, which can be added to a previous degree in another discipline. That is, this qualification is graduate level in timing, but undergraduate level in content, and qualifies students to apply for entry into an accredited fourth year, either the Bachelor of Behavioural Science (Honours Psychology) program or the Post Graduate Diploma in Psychology. Entry into these fourth year programs is competitive and normally requires a Grade Point Average (GPA) of at least 5 in the Graduate Diploma.

Entry requirements

An undergraduate degree plus successful completion of an introductory psychology unit (QUT equivalent PYB101, PYB102 or PYB100) and an introductory research and statistics unit (for example PYB110) equivalent to those accredited in the first year of QUT's Bachelor of Behavioural Science (Psychology) degree.

International Student Entry

QUT advises that international students may only enrol in February in full-time studies.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4625 or email psyc.enquiries@qut.com.

Course coordinator: Dr Renata Meuter

Campus: Carseldine

Overview

The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland.

Entry requirements

Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have with an overall Grade Point Average (GPA) of at least 5
- must have a GPA of at least 5 across APAC accredited second and third year psychology units
- must have successfully completed an APAC accredited third year statistics unit (PYB350 or equivalent).

QUT Applicants

For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:

- a minimum GPA of 5 in the overall undergraduate degree program
 - at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
 - a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.
- Entry is competitive based on GPA in these prescribed units:

PYB201 Perception

PYB203 Developmental Psychology

PYB205 Social Psychology

PYB206 Personality

PYB208 Counselling Theory and Practice 1

PYB210 Research Design and Data Analysis

PYB302 Industrial and Organisational Psychology

PYB303 Cognitive Psychology

PYB304 Physiological Psychology

PYB306 Psychopathology

PYB311 Psychological Assessment.

Non-QUT Applicants

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

Course Structure

The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. The research component of the program entails one research methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

International Student Entry

International students may enrol only in full-time studies.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on phone +617 3138 4625 or email psyc.enquiries@qut.com

Overview

The Master of Counselling offers preparation for a specialised position in counselling for practitioners from a variety of backgrounds. It has an applied, experiential component including Clinical practice which meets the training requirements for (PACFA) registration. It also provides knowledge, understanding and skills that will contribute to the development and practice of counselling in the professional environment.

Entry requirements

An approved degree in a human service or related area, at least 2 years of work experience, access to ongoing counselling work and personal suitability. Candidates with other qualifications/appropriate work experience may be admitted subject to approval by the Head of School of Psychology and Counselling.

International Student Entry

This course is not available to international students.

Course coordinator: Associate Professor Robert Schweitzer

Campus: Carseldine

Overview

The Master of Clinical Psychology offers students the opportunity for advanced training in clinical theory, skills and research. These are three skills fundamental to the professional practice of clinical psychology and psychotherapy.

The program emphasises an integrative approach drawing upon evidence-based psychotherapies including relational psychodynamic, cognitive-behavioural, and systemic narrative therapies across the lifespan.

A psychology clinic provides practicum opportunities to work with adults, children and families in a real-world learning context. There are opportunities for supervised practica in a variety of counselling and clinical setting including the clinic and external community agencies and health settings.

Career opportunities

The course prepares graduates to work in a wide range of hospital, community and private practice settings, in areas that require clinical and psychotherapy skills, case management, management of health services, needs assessment and program evaluation, health promotion and education, and supervision.

Entry Requirements

Entry to this course is competitive. To be considered for admission, applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average (GPA) of 5 or above in fourth year, and two referee reports. Referees will be required to comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application.

Applicants are shortlisted in priority order on the basis of their GPAs. Shortlisted applicants are required to attend an

interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this is conducted via telephone. Admission is based on the candidate's GPA, interview and referee reports.

Professional recognition

The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.

Registration requirements

All students seeking registration with the Queensland Psychologists Board as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program.

International Student Entry

International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - <http://www.psychologyboard.qld.gov.au>.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

Postgraduate Diploma in Psychology (PY20)

Year offered: 2008

Admissions: Yes

CRICOS code: 034714G

Course duration (full-time): 2 semesters

Course duration (part-time): 4 semesters (may not be available by evening study)

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

International Fees (per semester): 2008: \$9,504 per semester (*subject to annual review*)

Domestic Entry: February only (no mid-year entry). Closing date for applications is 31 October of the previous year in which you are applying for entry.

International Entry: February only (no mid-year entry)

Total credit points: 96

Standard credit points per full-time semester: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Renata Meuter

Campus: Carseldine

Overview

The Postgraduate Diploma in Psychology builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland. It provides an APAC accredited fourth year of training in psychology, similar to Honours.

Entry Requirements

Entry to this course is competitive. To be considered for admission, applicants must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an Honours Psychology program, for example QUT's Bachelor of Behavioural Science (Psychology), with a minimum grade point average of 5 achieved in the second- and third-year APAC-accredited psychology units.

Applicants with a QUT Degree

For applicants with a QUT bachelor award, the base level requirement for consideration for inclusion in the Postgraduate Diploma in Psychology program is a minimum overall grade point average of 5 in prescribed second- and third-year psychology units or their equivalent, specifically:

PYB201 Perception

PYB203 Developmental Psychology

PYB205 Social Psychology

PYB206 Personality

PYB208 Counselling Theory and Practice 1

PYB210 Research Design and Data Analysis

PYB302 Industrial and Organisational Psychology

PYB303 Cognitive Psychology

PYB304 Physiological Psychology

PYB306 Psychopathology

PYB311 Psychological Assessment

Applicants with a Non-QUT Degree

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

Course structure

The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. In consultation with the Course Coordinator, students also choose one cognate elective at third-year level or above. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have three contact hours per week. The contact for research thesis units is as required by the supervisor.

International Student Entry

International students may enrol only in full-time studies.

Graduate Certificate in Road Safety (PY40)

Year offered: 2008

Admissions: Yes

CRICOS code: 040334B

Course duration (full-time): 1 semester

Course duration (part-time): 2 semesters

Course duration (external): 1 semester (full-time) 2 semesters (part-time)

Domestic fees (per credit point): 2008: \$135 per credit point (*subject to annual review*)

Domestic fees (indicative): 2008: \$12,960

International Fees (per semester): 2008: \$9,504 per semester (*subject to annual review*)

Domestic Entry: February (full-time and part-time; external and internal) and July (internal part-time; external full-time and part-time)

International Entry: February

Total credit points: 48

Standard credit points per part-time semester: 24

Course coordinator: Dr Mark King

Campus: Gardens Point and Carseldine

Overview

The Graduate Certificate fosters specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention, and traffic and transport improvements. The program is relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields.

Students become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry (eg state transport, police, and the insurance industry). Students undertake field study, and are able to complete workplace-based projects where appropriate. They gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, and oral and written communication.

Entry requirements

For entry into the Graduate Certificate in Road Safety, applicants must possess a relevant degree from a university, an equivalent qualification relevant to road safety or two years of professional practice relevant to road safety.

For entry into the Graduate Diploma in Road Safety, applicants must possess a relevant degree from a university or a Graduate Certificate in Road Safety. Degrees suitable for entry into the Graduate Certificate and Graduate Diploma include bachelor degrees in civil engineering, psychology, and public health.

Entry with Advanced Standing

Credit will be given, on a case-by-case basis, for road safety-specific units in postgraduate courses.

See the credit precedent list at

www.creditprecedent.qut.edu.au

Undergraduate units will not be recognised.

Course Structure

The Graduate Certificate in Road Safety consists of one core unit plus three electives while the Graduate Diploma in Road Safety consists of two core units plus six electives. The program structures are designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two electives are delivered in intensive week-long blocks at Carseldine campus. The programs have recently been enhanced with the introduction of external delivery for selected units.

Currently the following units are available in external mode:

PYP401 Introduction to Road Safety
 PYP402 Traffic Psychology and Behaviour
 PYP404 Applying Traffic Psychology
 PYP406 Road Safety Theory to

International Student Entry

International students may enrol only in full-time studies as an internal student. Entry into the Graduate Certificate in Road Safety is available only in February. Entry into the Graduate Diploma in Road Safety would usually occur in February; however, students who have completed the Graduate Certificate may enter the Graduate Diploma in July.

Further Information

For further information about this course, please contact the CARRS-Q Education Administrator on phone +617 3138 4592, email psyc.enquiries@qut.com or consult the CARRS-Q website.

Campus: Gardens Point and Carseldine

Overview

Both the Graduate Certificate and Graduate Diploma in Road Safety foster specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention and traffic and transport improvements. The programs are relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields. You will become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry eg state transport, police, and the insurance industry. You will undertake field study, and be able to complete workplace-based projects where appropriate. You will gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, oral and written communication.

Entry requirements

A degree from a university or a three-year diploma relevant to road safety or a Graduate Certificate in Road Safety. (Suitable entry degrees include Bachelor of Civil Engineering, Psychology, Public Health.) *Candidates who have completed QUT's Graduate Certificate in Road Safety can apply for full-time study commencing in July.

Entry with Advanced Standing

Credit will be given, on a case by case basis, for road safety-specific units in postgraduate courses including QUT's Graduate Certificate in Civil Engineering; New England/Murdoch/Edith Cowan Universities' Graduate Certificate or Graduate Diploma in Road Safety. Undergraduate units will not be recognised.

Course Structure

The Graduate Diploma in Road Safety course consists of two core units plus six electives. The program structure is designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

Overview

Whether your fascination is with people and personalities, problem solving or the workings of the brain, psychology offers a pathway to a rewarding career.

Why choose this course?

The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas.

The course covers both theoretical and practical aspects of psychology. Core units introduce students to the scientific bases of psychology in areas including social and developmental psychology, research methods, physiology, perception and cognition, and as well as more applied areas such as counselling, individual differences and assessment, and psychopathology. In addition, students can choose electives from specialised units including organisational psychology, forensic psychology and the law, psychology and gender, family therapy, alcohol and drugs, health psychology, and road safety. Students can also include up to seven electives in areas of interest other than psychology (e.g. human services, science, humanities, criminology, education, public health, or business) to acquire a wide range of vocational skills.

You will also develop your ability to understand and apply psychological principles to personal, social, and organisational issues, as well as high-level communication

and social research skills that are valuable in a wide range of professions.

Recommended Study

Maths A, B or C.

Career Options

Psychology graduates have skills that equip them for many professional areas. The analytical, research and interpersonal skills acquired have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.

You are encouraged to structure your course to incorporate elective specialisations in other areas to provide a wide choice of career options.

On successful completion of the degree you may either pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist or seek postgraduate studies in psychology or other disciplines.

Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with your state registration board. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Professional Membership

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Doctor of Psychology (Clinical) (PY50)**Year offered:** 2008**Admissions:** Yes**CRICOS code:** 059989G**Course duration (full-time):** 3 years**Course duration (part-time):** 6 years**Domestic fees (per credit point):** 2008: \$135 per credit point (*subject to annual review*)**Domestic fees (indicative):** 2008: \$12,960**International Fees (per semester):** 2008: \$9,504 per semester (*subject to annual review*)**Domestic Entry:** February (closing date for applications is 31 October of the previous year in which you are applying for entry)**International Entry:** February**Total credit points:** 288**Standard credit points per full-time semester:** 48**Standard credit points per part-time semester:** 24**Course coordinator:** Associate Professor Robert Schweitzer**Campus:** Kelvin Grove**Overview**

The Doctor of Psychology (Clinical) offers students the option of a postgraduate program to develop more advanced professional knowledge and skills in clinical psychology than offered in the Master of Clinical Psychology. It includes advanced professional coursework units, specialised practical experience and an extended program of research, enabling graduates to undertake positions of greater responsibility in a broad range of clinical settings including hospitals, mental health facilities and other specialised treatment units.

The doctorate emphasises the development of applied research and clinical specialisations within an evidence-based, integrative psychotherapy framework.

Entry Requirements

Applicants must hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent with First Class Honours or Honours Class IIA from QUT or another recognised institution. Alternatively, a grade point average of 5.5 or above in the Postgraduate Diploma in Psychology or equivalent course is required. Applicants are required to provide two referee reports and attend an interview to assess their interpersonal and research skills in a clinical context.

Students who are not already registered with the Psychologists Board of Queensland will be required to register with the Board as a psychologist with probationary conditions for the duration of the program.

Advanced Standing

Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

Course Structure

The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

Course Articulation

The Master of Clinical Psychology articulates with the Doctor of Psychology (Clinical). Doctorate students who successfully complete the requirements of the masters course may exit with a Master of Clinical Psychology.

International Student Entry

International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - <http://www.psychologyboard.qld.gov.au>.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

Professional Recognition

The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.
