HISTORY

QUT is a leading Australian university with a colourful history dating back to the beginning of technical and teacher education in Queensland when the Brisbane School of Arts was established in 1849.

Vocation-linked education

In 1908 the Central Technical College began offering technical education courses on the site of QUT's present Gardens Point campus, continuing the Central Technical College's tradition of vocation-linked education.

In the same decade training colleges in Queensland began providing career-centred education for the teaching profession. The institutions which evolved from the teacher training colleges combined in 1982 with the North Brisbane College of Advanced Education to become the Brisbane College of Advanced Education.

Thus, QUT's emphasis of combining a scholarly ethos with effective professional training builds on its predecessor institutions' long record of providing professional education in Queensland.

Top artists, sit-ins and a boxing ring

Some of Queensland and Australia's most important artists trained at the Central Technical College's art department, and the history of the 13 predecessor institutions also includes radicalism, sit-ins, a College principal who built a boxing ring at what is now Kelvin Grove campus, and drama productions closed down by community groups.

The eventful history of QUT's predecessor institutions is examined through lively accounts and photographs in the book *A Class of its Own: A History of Queensland University of Technology*.

The Central Technical College's courses became the responsibility of the Queensland Institute of Technology (QIT) in 1965 when it was established to meet the growing needs of industry.

Top teaching with industry links

While still an institute of technology, QIT had a strong research and development profile as well as a record of effective teaching. The Queensland University of Technology (QUT) was created in January 1989 by redesignation of the Queensland Institute of Technology.

In May 1990 QUT amalgamated with the Brisbane College of Advanced Education (BCAE) which specialised in courses in arts, business, education and social sciences. The institution resulting from the amalgamation of BCAE with QUT retained the title 'Queensland University of Technology'.

Today QUT has an enrolment of around 40 000 students. Its prime concerns are the quality of its teaching, the employability of its graduates and the application of its research for the benefit of the community.

MISSION

QUT's mission is to bring to the community the benefits of teaching, research, technology, and service. The University's distinctiveness lies in the approaches it takes to realise this mission, which places a strong emphasis on practical engagement with the world of the professions, industry, government, and the broader community. QUT is committed to the highest quality in teaching, learning, research, and a wide range of professional and community activities.

The University values:

- scholarship, learning, and achievement in all student and staff endeavours

- engagement with, and responsiveness to, its diverse internal and external communities
- social justice and equal opportunity in education and employment
- a safe, supportive, and healthy working environment which supports work/life balance
- honesty, integrity, and ethical behaviour and practices
- a spirit of experimentation, innovation, entrepreneurialism, and client service.

The top priorities for the University as set in the QUT Blueprint are to:

- build research capacity in selected areas
- strengthen QUT's reputation for quality teaching and learning and provide one of the best learning environments in Australia
- strengthen the 'real-world' positioning in teaching and research through better partnerships across internal and external boundaries
- integrate information and communications technology into teaching, research, business/support functions, and infrastructure
- develop environments that foster and reward high-quality scholarship, and build a sense of community.

COMMUNITY SERVICE

QUT's planning framework comprises three levels of planning:

- Institutional plan (QUT Blueprint)
- Top level plans
 - Research and Innovation
 - Learning and Teaching
 - People and Culture
 - Finance and Infrastructure
- Faculty and Divisional plans.

INFORMATION

In addition to the Handbook, the University produces a range of publications which the public can access. These include the Annual Report and the University's Manual of Policy and Procedures (MOPP). These publications are available online via QUT's web site at www.qut.edu.au or from the University's libraries.

Research and Commercialisation

PRINCIPAL DATES

PUBLIC HOLIDAYS 2006

2 January	New Year's Day
26 January	Australia Day
14 April	Good Friday
15 April	Easter Saturday
17 April	Easter Monday
25 April	ANZAC Day
1 May	Labour Day
12 June	Queen's Birthday
16 August	Royal National Show
25 December	Christmas Day
26 December	Boxing Day

SEMESTER 1, 2006

20-24 February	Orientation Week
27 February-3 March	Week 1
6-10 March	Week 2
13-17 March	Week 3
20-24 March	Week 4
27-31 March	Week 5
3-7 April	Week 6
10-14 April	Week 7
17-21 April	Vacation
24-28 April	Week 8
1-5 May	Week 9
8-12 May	Week 10
15-19 May	Week 11
22-26 May	Week 12
29 May-2 June	Week 13
5 June	Classes in lieu of Labour Day Holiday
6 June	Classes in lieu of Anzac Day Holiday
7 June	Classes in lieu of Good Friday Holiday
5-9 June	Exam Preparation
10 June	Exams
12-17 June	Exams
19-24 June	Exams
26-27 June	Exams
28-30 June	Vacation
3-7 July	Vacation
10-14 July	Vacation

SEMESTER 2, 2006

10-14 July	Orientation Week
17-22 July	Week 1
24-28 July	Week 2
31 July-4 August	Week 3
7-11 August	Week 4
14-18 August	Week 5
21-25 August	Week 6
28 August-1 September	Week 7
4-8 September	Week 8
11-15 September	Week 9
18-22 September	Week 10
25-29 September	Vacation
2-6 October	Week 11
9-13 October	Week 12
16-20 October	Week 13
23 October	Classes in lieu of Royal National Show Holiday
23-27 October	Exam Preparation
30 October-4 November	Exams
6-11 November	Exams
13-18 November	Exams

SUMMER PROGRAM 2006/2007

20-24 November	Week 1
27 November-1 December	Week 2
4-8 December	Week 3
11-15 December	Week 4
18-22 December	Week 5
25-29 December	Vacation

22-26 January	Week 9
29 January-2 February	Week 10
5-9 February	Week 11
12-17 February	Week 12/Examinations
19-24 February	Examinations/Orientation Week
26 February	First semester 2006 commences

COUNCIL

Composition, membership, powers and responsibilities of QUT Council are governed by the QUT Act 1998 (see MOPP Appendix 1). Procedures for regulating the University's committee system, including conduct of business by Council, are detailed in Council Procedure 1 — Committees (see MOPP Appendix 2).

QUT Council comprises senior members of the professions for which QUT prepares graduates; appointees from higher education, government, commerce and industry; elected staff, students and members of Alumni; and the University's chief executive officer. Council is responsible for the good governance of the University.

Council is empowered to establish committees and to delegate power to committees or officers of the University. While Council is ultimately responsible for the management and operation of QUT, it has delegated authority to the chief executive officer, the Vice-Chancellor, and to various senior administrators of QUT for much of the day-to-day management of the University (see MOPP Appendix 3). Council has also established a number of committees, some of which have been authorised to make decisions in respect of prescribed policy and procedural matters.

COUNCIL MEMBERSHIP (AS AT 4 JANUARY 2006)

Chancellor (Chair)

Major General P. (Peter) Arnison, AC, CVO (Retd), BEc DLaws *Qld*, DUniv *Griff*, DLetters *S Qld*, DUniv, FAICD, ASIA

Vice-Chancellor

Prof P. (Peter) Coaldrake, BA(Hons) *James Cook*, PhD *Griff*, FAIM, FRIPAA

Nominees of the Minister for Education

Dr T. (Terry) Cutler, BA(Hons) *Melb*, PhD *NSW*, DUniv. Principal, Cutler & Company Pty Ltd

Mr K. (Keith) Hilless, BE(Elec) *Qld*. Chairman, Ergon Energy

Mr S. (Stephen) Keim, BA LLB(Hons) *Qld*. Barrister

Prof A. (Anne) Kelso, BSc(Hon), PhD *Melb*. Director, CRC for Vaccine Technology

Dr E. (Elizabeth) Mellish, EdD (Leadership). Director, Mellish and Associates

Dr C. (Chris) Sarra, PhD *Murd.*, DipTeach BEd MEd. Director, Institute for Indigenous Leadership and Development

Ms R. (Rosemary) Vilgan, DipSupMgt *Macq*, BBus, FASFA, FAICD. Chief Executive Officer, Government Superannuation Office; Executive Officer, QSuper

Nominees of Council

Dr D. (Doug) McTaggart, BEc *ANU*, MA PhD *Chicago*, FAICD, FAIM. Chief Executive Officer, Queensland Investment Corporation

Mr H. (Hugh) Nalder, B Bus (Acc), MICA, MASCPA, MAIMM. Partner, PricewaterhouseCoopers

Elected Professional Staff Members

Mr M. (Martin) Waterworth, BSci *Lond*. Division of Technology, Information and Learning Support

Ms D. (Denise) Redfern, BA *W Aust*, Hons *UCQ*, DipEd *Syd*, GradCert(Services Comm) *C Qld*. Faculty of Built Environment and Engineering

Elected Academic Staff Members

Dr R. (Bob) Cope, CertT *Sydney TC*, BEd(Hons) *James Cook*, MEdSt *Qld*, PhD. Faculty of Education

Mr R. (Ross) Daniels, BA(SocWk) BA(Econs) MSPD *Qld*. School of Humanities and Human Services, QUT Carseldine

Prof J. (John) Gough, MSc PhD *Well*. Faculty of Information Technology

Elected Student Members

Ms R. (Rebecca) Leeks, President, QUT Student Guild

Ms B. (Brittany) McKee, General Secretary, QUT Student Guild

Elected Alumni Members

Mrs M-C. (Marie-Claire) Grady, BBus(HRM) MBus. Strategy Advisor, Human Resources, Suncorp

Dr G. (Graham) Drummond, Dip(C Eng) Grad-Dip(BusAdmin) DUniv. Professional Director.

Secretary

Dr C. (Carol) Dickenson, BBus *QIT*, PhD *Qld*. Registrar.

Deputy Vice-Chancellor, Academic (attends by invitation)

Prof D. (David) Gardiner, BA LLB LLM(Hons) *Syd*. Deputy Vice-Chancellor.

Tenure

Council serves a four-year term from 21 November 2004.

COMMITTEES

QUT committees form the major decision-making structure of the University and student representation is provided for on both University and faculty committees. The major University committees that have student representation as part of their membership are:

- Academic Policy and Procedures Committee
- Appeals Committee
- Community Service Advisory Committee
- Cultural Diversity Committee
- Disability Services Committee
- Equity Awards Committee
- Equity Board
- Outstanding Contribution Award (Academic Staff) Committee
- Outstanding Contribution Award for Professional Staff Committee
- QUT Council
- Teaching and Learning Committee
- University Academic Board
- University Health and Safety Committee

QUT encourages student representation on the above committees. If you are interested in finding out more about University committees contact Governance Services on 07 3138 2088.

CHANCELLERY

Vice-Chancellor: Professor O.P. Coaldrake, BA(Hons)
James Cook, PhD Griff, FAIM, FRIPAA
Deputy Vice-Chancellor (Academic): Professor D.G. Gardiner, BA LLM(Hons) Syd
Director, Academic Policy and Programs: Dr D.W. Field, BSc(Hons) PhD Adel, DipT Adel CAE, FAIP
Director, Efficiency and Audit: S. Patel, BA(Acctg) S Pacific, CPA
Manager, Oodgeroo Unit: V. Hart

DIVISION OF ADMINISTRATIVE SERVICES

University Registrar and Head, Administrative Services:
Dr C. Dickenson, BBus QIT, PhD Qld
Director, Student Support Services: R.P. Morley, BBus QIT, MAdmin Griff
Director, Student Business Services: K. Grgic, BA Grad-DipEd Adel, GradDipLib S Aust Institute of Technology, MAppSci C Sturt, AFAIM, MAHRI
Director, Marketing and Communication: P.H. Hinton, BA Qld
Director, Human Resources: G. MacAulay, BBus GradCert (Mgmt) GradDipBusAdmin(Distinction)
Associate Director, Human Resources Client Services: W. Ryan, BSc(Hons) Qld, MBus(Mgt)
Associate Director, Human Resources Health and Safety Advisory Services: S. Lusan, DipAppSci(ComNursing) BBus(Comm)(Distinction) QIT, MPhil (Qual) Griff, RN, RM
Director, Facilities Management: A. Frowd, BEng(Hons) QIT, MEngSc Mon, GradDipMgtStud RAAFC, GradDipMgt Deakin, MEngSc, FIEAust, CPEng
Associate Director, Campus Services (Gardens Point/Kelvin Grove/Carseldine): D.W. Spann, BA Qld
Associate Director, Major Projects: A. Madan, BArch New Delhi, GradDipProjMgt, MAIPM
Associate Director, Operations: A. Perrau, BEng(Hons) Newcastle(NSW)
Associate Director, Capital Works: B. Fenn, BSc Birm, MBA Qld
Manager, Governance Services: S. Johnstone, BA ANU, DipConEd NE
Coordinator, Equity: M.A. Kelly, BA DipEd Qld
Student Ombudsman: Dr N. Bofinger, BSc UNE, PhD Qld, GradDipCompSci

DIVISION OF FINANCE AND RESOURCE PLANNING

Executive Director, Finance and Resource Planning: P.G. Sullivan, BBus Brisbane CAE, FCPA
Director, Financial Services: T.A. Leighton, BBus(Acctg) Brisbane CAE, FCPA
Associate Director (Acting), Corporate Performance: P. Alner, BInfoTech Griff, GradDipComm MBus(ComnSt)
Associate Director (Acting), Financial Management: C. Lambert, BComm UOW
Associate Director, Financial Systems: R. Bryde, BA(Mngt Science) Canberra
Associate Director, Accounting Services: J. Ganasan, CPA NZ, Fellow CIMA NZ, GradDipInfoScience NZ

Project Director, Kelvin Grove Urban Village: S.W. Pincus, BSc Griff, GradDipAppEcon Canberra
Associate Director, Strategic Information and Analysis: P. Watson, BAdmin(Mktg) Griff
Associate Director, Development & Training: R. Hine, BEc Qld, BBus(Acc)

DIVISION OF TECHNOLOGY, INFORMATION AND LEARNING SUPPORT

Deputy Vice-Chancellor — Technology, Information and Learning Support: T. Cochrane, BA Qld, MPhil Griff, AALIA
Director, Information Technology Services: N. Thelander, CMACS, PCP
Director, Library Services: G.M. Austen, BA(Hons) Melb, DipLib Canb, MBA Qld, AALIA
Director, Teaching and Learning Support Services (TALSS):
N. Carrington, DipTeach Griff, MEd (SpecEd) MEd (Guid & Couns) James Cook, PhD NE, GradDipResTeach
Associate Director, Learning and Teaching Capabilities, TALSS:
H. Goss, DipTeach(Maths/Sci) Mt Gravatt CAE, BAppSci (CompSci) QCU, MACS, PCP
Associate Director, Learning and Teaching Resources, TALSS:
A.M. Brown, BA Melb, DipEd Rusden, MEd S Aust
Associate Director, Learning and Teaching Environments, TALSS:
G. Mitchell, BInfoTech(Hons) GradCertHigherEd Griff, PhD Well
Associate Director, Learning and Teaching Development, TALSS:
D. Southwell, MEd ECU, BEd ECU, DipTeach WACAE, DipBibStud BTCQ
Associate Director, Corporate Information Services: J. Dascoli, BA CU
Associate Director and Manager, Network Services: R.A. Gorham, BE(Hons), DipCompSci Qld, MBA Deakin, MACS, AIMM
Associate Director, Library Services, Development: J. McCarthy, BA Qld, DipLib NSW
Associate Director, Library Services, Information Resources:
C. Young, BA Qld, AALIA

DIVISION OF RESEARCH AND COMMERCIALISATION

Deputy Vice-Chancellor, Research and Commercialisation:
Professor A. Sharma, MSc BITS, PhD SUNY Buffalo
Director, Research and Research Training: Professor R.C. Wissler, BA(Hons) PhD Qld
Manager, Office of Commercial Services: C. Melvin, BBus(Mgmt) QIT, MBA Qld
Manager, Office of Research: M. McArdle, BA UQ

DIVISION OF INTERNATIONAL AND DEVELOPMENT

Deputy Vice-Chancellor, International and Development:
Professor S. Harding, BSc(Hons) ANU, MPubAdmin Qld, PhD North Carolina, FAICD, FAIM
QUT International College
Director, QUT International College: E. McDade, TDipCom Strathclyde, TCert Jordanhill, BEdSt Qld, MAcc C. Sturt

Director of Studies, English Language Programs: I. McGregor, BA Griff, GradDipEd PostGradDipSocSc Qld, MEd (TESOL) NE

QUT International

Executive Director, QUT International: H. Cook, BA DipEd MEd Qld, GradDip BA BCAE

Director, International Policy and Communication: M. Parker, DipTeach(Primary) BBus(PubAdmin) MPubPolicy

Director, Program Development: G. Edmondson, BA Griff

Director, International Relations: K. O'Brien, MA Trinity

Development Office

Director, University Advancement and Alumni: S. Garske, BBus(Com) MBA

QUT Precincts

Director, Precincts: Professor P. Lavery, BA DipEd Qld, DipD Brist, MLitt NE

The University may award medals known as Queensland University of Technology Medals to graduands of certain courses who have achieved an exceptionally high level of performance in their studies. Medals are awarded by University Academic Board on the recommendation of the relevant faculty academic board.

For the award of a medal, a graduand should have reached a distinguished academic standard based on a grade point average in all units, and in a thesis where such is required. The standard should be at a higher level than would normally be expected from an excellent graduand. The medal should be testimony that the recipient not only shows exceptional academic promise at the time of the award, but also exhibits a distinguished and consistent record of achievement throughout the whole of the degree.

Eligibility to be considered for the award of a University Medal is limited to:

- graduands of 'end-on' honours degrees where performance in the related bachelor degree is also taken into account
- graduands of degrees with honours, including components of double degree programs where awards with honours are made
- graduands of bachelor degrees of at least three years normal duration where no honours award is

available, including relevant components of double degree programs where no honours award is available.

In completing one of the above degrees, graduands must have been enrolled at QUT for at least two years of full-time study or equivalent. The two years of study at QUT must be directly relevant to the course for which the medal is awarded.

For graduands of double degrees, University medals are awarded as appropriate for each of the component degrees.

As the University medal is awarded only for distinguished achievement, University Academic Board has indicated as a guide to faculties that the proportion of graduands who may receive medals in any year should normally be not more than one per 200 bachelor-level graduands (or part thereof) per faculty.

The award is a silver medallion, suitably embossed and inscribed, together with a certificate attesting the award. The medallion is 5.5 centimetres square with rounded corners. The QUT logo is embossed one side and the reverse carries an inscription citing the year of the award and the name of the awardee. Further details may be placed on the certificate.

ACADEMIC AND STUDENT SUPPORT SERVICES

Careers and Employment

Careers and Employment (C&E) assists prospective and enrolled students, as well as recent graduates, to make informed course and career decisions in order to reach their employment goals.

The C&E web site (<http://careers.qut.edu.au/>) is accessible to all QUT students and staff and provides:

- immediate, international, graduate and vacation job listings
- help on making course and career choices
- graduate destinations information
- employment preparation resources
- career planning web site
- international discussion forum and work placement scheme information
- career resources for postgraduate students
- employer listings
- online resume builder
- workshops schedule
- career mentor scheme information
- online employer services
- work experience insurance information
- links to other useful web sites

For contact details and other services offered, go to the C&E web site (<http://careers.qut.edu.au/>).

Chaplaincy

The University caters for the emotional and spiritual needs of students through the provision of chaplaincy services. The chaplaincy centres are ecumenical and, although the chaplains represent the major Christian denominations, they are also available to people of other religions. The chaplains are available at any time and are happy to discuss matters of a spiritual, religious, ethical or personal nature.

A chapel is available at the Gardens Point and Kelvin Grove campuses for quiet prayer, worship services and prayer meetings. The centre has a room with tea and coffee making facilities. At Gardens Point, there is also a Muslim Mosque in rooms adjacent to the main chaplaincy rooms.

At Carseldine campus, the chaplain conducts weekly visits and ecumenical services as well as periodic Catholic Mass.

Chaplaincy Service locations:

- Carseldine Room C310
- Gardens Point Old Government House (near entrance to the Library and U Block)
- Kelvin Grove Room A131 (ground floor near the Library)

You can also contact the chaplain on 07 3138 2700, mobile: 041 464 2700 or email: bj.clarke@qut.edu.au

Computing and Technology Services

The **Student Computing Guide** covers essential computing information for QUT students. The guide is available on

the web at www.scg.qut.edu.au. Details on finding student computer labs, using email, setting up your computer passwords etc can be found in this guide.

QUT Virtual is a large, integrated database that contains information relating to QUT students and their courses. Each student has a personal profile within QUT Virtual which displays information personalised to them. QUT Virtual is accessed using your QUT Access username and password. More information is located on the Student Computing Guide web site.

Features found within QUT Virtual include:

- online continuing and change to enrolment forms
- class timetables
- class allocations
- unit outlines
- booklists
- library borrowing information
- Internet access quota balances and usage history
- exam timetables
- exam results and academic history

QUT Virtual is located at: <https://qutvirtual.qut.edu.au>

Internet access: Each semester QUT provides students with a free Internet Access Service allocation to cover educational needs. Details about accessing and using the Internet through QUT can be found at <https://ias.qut.edu.au/>.

Email: All students are given access to the QUT student email service.

The student email service is accessed and used through the World Wide Web. Webmail is located at <http://email.qut.edu.au>. More information about using email at QUT is available at www.scg.qut.edu.au

IT Helpdesk: This service provides phone support for students and staff using QUT's computing systems, needing to change passwords etc. Phone 07 3138 4000.

Student Computing Labs: Students can access the Internet, email, databases, lecture notes, tutorials and much more in the central student computing labs on each campus. Lab advisors are on hand in some central labs to provide assistance.

Audiovisual Equipment: Students have access to video camcorders, still cameras, mini-disk recorders, video projectors and a range of other equipment through the Audiovisual Services outlets at each campus. Studio and video duplication, video conversion, video editing and audio recording are also available. (In most cases prior approval from your lecturer is required. Hire fees apply without this approval).

Counselling Service

Counselling Services provides professional, confidential and free counselling to students. Students are welcome to contact Counselling Services to make use of the following services:

- **Personal counselling:** Counselling Services provides opportunities for students to discuss in confidence issues and concerns including personal development/growth, relationship/family difficulties, stressful situations, grief, personal concerns, study and course difficulties.
- **Welfare and advocacy:** Counselling Services offers information, advisory, advocacy and referral

services on a range of matters including finance, AUSTUDY, loan schemes, QUT rules, and procedures and policies. In certain cases, counsellors may provide a supportive, mediating and advocacy role in assisting you with problems or difficult issues relating to general welfare.

- **Probation or withdrawal:** students placed on probation or considering withdrawal from their course are strongly advised to discuss issues related to this situation with a counsellor.
- **Workshops:** occasionally workshops are offered through the Service. Details of these may be obtained from Counselling Services on each campus.

Students wishing to make an appointment should telephone or visit the Counselling Service at the campus most convenient to them.

Appointments: Students wishing to make an appointment should telephone or visit the Counselling Service at the campus most convenient to them. Appointments are available in two forms. A walk-in service of short appointments is available daily at each campus (note that Carseldine counselling service is only open Monday to Wednesday during semester). Longer appointments of 50 minutes are available for students who require more time.

Counselling Service locations:

Carseldine Level 2, C Block

Phone: 07 3138 4539

Gardens Point Ground Floor, Y Block

Phone: 07 3138 2383

Kelvin Grove Level 4, C Block

Phone: 07 3138 3488

Web: <http://www.counselling.qut.edu.au/web/>

Equity Programs and Services

QUT strives to support cultural and social diversity in our student body by providing a learning environment which:

- promotes the principles of equity and social justice
- is inclusive and supportive of people from all backgrounds
- is free from discrimination and harassment.

QUT provides a range of support programs to help remove barriers to success faced by some students including:

- **students from low income backgrounds:** admission, orientation and support services through the Q-Step Program. Phone: 07 3138 3731. Also the Equity Section provides information on a range of financial support measures aimed at low-income students including Commonwealth Learning Scholarships, Equity scholarships and bursaries. Information on faculty-based scholarships and prizes is also available, as well as other financial support measures across the university. Phone 07 3138 5601 for more information on financial support measures or go to the Equity Section web site.
- **Aboriginal students and Torres Strait Islander students:** admission, orientation and support services coordinated by the Oodgeroo Unit. Look out for details on

Aboriginal and Torres Strait Islander pre-orientation activities in the Orientation Program. Phone: 07 3138 3610

- **people from non-English speaking backgrounds:** language and learning skills support provided by International Student Services.
- **people with disabilities:** assistance and support coordinated, or negotiated, by the Disability Officer. Refer to the Enrolment Guide and contact the Equity Section for a copy of the *Guide for Students with Disabilities*.

The Equity Section also has information on the following:

- **inclusive learning experiences and services:** whether we mean to or not, the language we use can sometimes demean or exclude people. The booklet *Working with Diversity: A guide to inclusive language and presentation* provides examples of inclusive and non-discriminatory language. It is a valuable guide for all communication, including assignments and presentations.
- **discrimination and harassment:** QUT will not tolerate unfair treatment on the basis of characteristics such as sex, cultural identity, age, disability, religion or sexual orientation. The University has specific policies and procedures regarding sexual and gender-based harassment, and racial discrimination and harassment. These policies are included in the Student Rules section of the QUT Handbook online. If at any time during your study at QUT you experience discrimination or harassment, you should report it - even if you do not want to make a formal complaint. QUT has trained discrimination contact officers to provide you with information and confidential advice on your options (the list of discrimination contact officers is available from the Equity Section).

Health Service

QUT Health and Medical Service is an accredited facility available to the University community including students, staff, contractors and visitors to QUT.

Health and Medical Services is a Student Support Service that seeks to assist students with their health needs so that they may achieve an optimal academic performance in the shortest possible time.

Our team of medical practitioners, registered nurses, and administration staff are experienced to provide a safe, confidential and professional environment for students and staff to address medical, health and emotional issues.

A Consultant Psychiatrist is available on site at Kelvin Grove for student appointments. You must be referred initially by one of the doctors at QUT Health Services.

Library

QUT Library branches are located at:

- V Block, Gardens point campus
- R Block, Carseldine
- R Block, Kelvin Grove campus
- C Block (Law Library), Gardens Point campus
- E Block, Caboolture campus

The libraries have PC labs, group study rooms, PC and multimedia equipped study rooms, lounge and reading areas and quiet study areas available for your use. You can borrow material from any branch library either in person or using the intercampus loan delivery service.

The Library has the specialised resources you need in your study area, and holds more than 724,000 books, ebooks, multimedia items and internet resources; and 36,000 electronic and print journals and over 500 databases. Book chapters, journal articles and readings recommended by your lecturer are available online from the Course Materials Database, linked from your unit OLT page; or in print in the Course Reserve Collection, in each library.

The Library web site gives you 24/7 access to many of these electronic resources. Using the online self-service functions of the library catalogue, you can check what you have borrowed, request a book on loan or held at another library, and renew your loans.

For assistance in using the library, finding information or searching databases, you can get expert help from librarians and other staff:

- Information Desks
- Ask a Librarian web chat and email reference service.

You can develop your information retrieval and evaluation skills by doing our web-based tutorial, PILOT: Your Information Navigator or you can attend our free information skills classes on searching databases or how to be an expert 'googler'.

Library Hours vary throughout the year and between each branch library. Check signs or the Library website.

You can contact the Library on the following telephone numbers:

Carseldine: 07 3138 4555

Gardens Point: 07 3138 2083

Kelvin Grove: 07 3138 3079

Law Library: 07 3138 2842

Oodgeroo Unit

The Oodgeroo Unit is the centre of QUT's activities in Aboriginal and Torres Strait Islander education, studies and research. The Unit has a commitment to developing better access to university education for Aboriginal and Torres Strait Islander people. Providing cultural, personal and academic support to Indigenous students, the Oodgeroo Unit actively promotes cultural awareness amongst all students. All Aboriginal and Torres Strait Islander students enrolled at QUT are welcome to use the Unit's facilities at Carseldine (C Block), Gardens Point (X Block) and Kelvin Grove (B Block).

Further information can be obtained from:

Phone: 07 3138 3610

Fax: 07 3138 3982

Web: www.oodgeroo.qut.edu.au

Student Centre

Student Centres are the first point of contact for students seeking information on administrative, course or other student matters. A Student Centre is located on each QUT campus:

Caboolture H Block
Hours: 8.30am-4.30pm

Carseldine Level 2, C Block
Hours: 9.00am-5.00pm

Gardens Point Level 1, A Block
Hours: Mon and Tues 9.00am-5.30pm, Wed-Fri
9.00am-5.00pm

Kelvin Grove Level 4, F Block
Hours: 9.00am-5.00pm

Student Centre staff assist students with enquiries regarding admission, academic credit, enrolment, fees, student ID cards, transport concessions and other student administration or general enquiries. Student Centres are also the place to obtain and lodge Student Services application forms and other general forms.

Hours will be extended in peak periods. Please refer to the Orientation Program for details.

Marketing lounges

Marketing lounges have been conveniently placed in Student Centres at Gardens Point, Kelvin Grove and Carseldine campuses. Electronic, self-help facilities allow prospective and current students to find course information and browse the QUT website. A wide range of course information brochures and booklets are also provided.

QUT Information

QUT Information is a phone service that assists students with student administration and other general student matters.

Phone 07 3138 2000
Monday to Friday, 8.00am-5.30pm

Student Ombudsman

Dr Neville Bofinger is your QUT Student Ombudsman, an independent officer of the University, fully supported by the Vice-Chancellor for the purpose of assisting you to resolve grievances. The Student Ombudsman is available to discuss your concerns, particularly those associated with administrative or academic decisions that affect you, and to provide you with relevant advice or assistance. The Student Ombudsman can become involved in resolution processes through mediation, negotiation, conciliation or representation, as appropriate, and may also assist you by referring you to other sources of assistance, either internal to the QUT or external agencies. This is a free and confidential service.

If you have any issues concerning fair treatment by staff or other students, proper application of procedures or resolution of complaints, then you should not hesitate to contact the Student Ombudsman.

Phone: 07 3138 2457
Fax: 07 3138 4472

QUT ALUMNI

When you graduate from QUT, you will become a member of the University's Alumni. QUT Alumni promotes friendly communication and cooperation among the University's graduates, students, faculty staff and close associates. Membership of QUT Alumni is free.

The Alumni Office at QUT provides services and programs for graduates to enhance professional development, promote lifelong learning, and create opportunities for keeping in touch with other graduates and continuing involvement with the University. As a current student of QUT, you can benefit from the news, programs and services organised by QUT Alumni for the University community.

The Alumni web site (<http://www.alumni.qut.edu.au/>) provides useful information about QUT Alumni and its sponsored activities. Visit the site to:

- discover how to participate in the **Mentor Scheme**, which is an opportunity for current students to link with graduates for encouragement and support and to get a practical start to understanding the workplace
- learn about the QUT Alumni **Student Leadership Awards** that recognise students of QUT for their contributions to the University and the wider community and discover how you could become the **QUT Alumni Student Leader of the Year**
- explore **QUT Links** magazine online. QUT publishes this magazine for its Alumni, close associates and interested members of the University community including business and industry professionals. The magazine profiles successful graduates and provides information on what's

happening in the lives of QUT Alumni members as well as what is happening at QUT

- discover the latest news on Alumni events and other activities for graduates by checking out the events listing at **QUT Events**
- learn about the **Outstanding Alumni Awards** which recognise graduates who have performed exceptionally in their chosen career and who have made outstanding contributions to the community
- learn about the existing **Alumni Chapters** at QUT
- find out about the **benefits and services** that the University has to offer its Alumni
- find out about the **Alumni Annual Appeal** that supports University projects, in particular scholarships for disadvantaged students.

Giving to QUT

QUT is proud of the strong support it receives from the community.

Alumni, individuals, corporations, foundations and government give generously to the University's teaching, research and community outreach activities.

This ensures support for students through scholarships and prizes, an improved learning environment and world-leading research that solves real world problems.

Donations to QUT are fully tax deductible. Bequests for general or specific purposes may also be made to the University. For further information visit the giving web site or contact QUT Development on 07 3138 1838.

QUT Gardens Cultural Precinct, located at the University's Gardens Point campus, is situated on one of Queensland's most central and historically important sites. The Precinct encompasses QUT Art Museum, one of Australia's most sophisticated contemporary art museums; Gardens Theatre, with a 400 seat state-of-the-art theatre; and Old Government House.

This world class facility for performing and visual arts was launched in July 2000 providing the community with accessible venues to enjoy and nurture the talents of our artists, craftworkers, musicians and performers. It also hosts a broad-based education program through which participants gain valuable insights into their arts and cultural heritage.

Gardens Cultural Precinct is at the centre of a circuit of culture and recreation incorporating the South Bank precinct with its parklands and cultural centre; the city heart with its galleries and shopping; and Gardens Point itself with its Botanic Gardens, Riverstage, historic campus buildings and Parliament House.

In addition to the core activity of exhibitions and performances, Gardens Cultural Precinct offers unique arts-based educational programs that provide practical ways for Queensland University of Technology to extend the benefits of its knowledge, research and services to the wider Queensland community. These programs have a practical emphasis and include hands-on sessions with curators, artists talks, activity booklets, guided tours and demonstrations.

Gardens Cultural Precinct also offers a choice of stunning spaces for hire. QUT Art Museum provides an elegant and sophisticated space for cocktail parties; Gardens Theatre provides a picturesque and spacious function area, within the glass walled foyer overlooking the City Botanic Gardens; and Old Government House adds heritage glamour to any event.

Location

QUT Gardens Point
2 George Street, Brisbane (next to City Botanic Gardens)

Gardens Theatre

Gardens Theatre is a premium and versatile venue offering an annual program of student and professional productions.

Featuring a spacious foyer overlooking the City Botanic Gardens and an auditorium that seats 400, Gardens Theatre provides an intimate performance space for both QUT Creative Industries' presentations as well as local and visiting drama, music and dance productions.

During 2006 it will offer a regular program of professional theatre productions, comedy and children's theatre, as well as QUT Showcase productions.

This state-of-the-art venue is located on QUT's Gardens Point campus at the heritage end of George Street in Brisbane's CBD. Acknowledged as one of the city's premier performing arts venues, Gardens Theatre also features exceptional facilities for audiences including a licenced bar, palm tree atrium, disabled access and a Bar Merlo cafe.

Gardens Theatre facilities and foyer area are available for hire (subject to availability).

Location

QUT Gardens Point
2 George Street, Brisbane (next to City Botanic Gardens)

Box Office

Open Monday - Friday (9am - 6pm) and one hour prior to all scheduled performances.

QUT Art Museum

QUT Art Museum is an important cultural facility for the city of Brisbane. The Museum plays a vital role in the educational and intellectual life of the University. It houses a significant art collection that has become a valuable cultural resource for the students and staff of the University, and for the wider community.

The collection is one of the largest in Queensland and contains holdings of great quality and diversity, mostly by Australian artists. It includes fine early paintings, choice ceramics and prints, important examples of indigenous art and challenging contemporary works in a range of art forms.

As part of its exciting and dynamic program the Art Museum offers changing exhibitions drawn from the collection, touring exhibitions from other galleries and collections, and works from several creative academic disciplines within the University. The Museum's educational services are designed to complement and enhance the exhibitions program for the benefit and enjoyment of the public.

Location

QUT Gardens Point
2 George Street, Brisbane (next to City Botanic Gardens)

Museum Hours

Tuesday - Friday: 10am – 5pm
Wednesday: until 8pm
Saturday - Sunday: 12noon – 4pm
Closed Mondays and Public Holidays

Old Government House

Old Government House was the official residence of the Governors of Queensland from 1862-1909. Since that time the house has been occupied by the University of Queensland; the National Trust of Queensland; and Queensland University of Technology's predecessor institutions, Central Technical College and Queensland Institute of Technology.

QUT CULTURAL PRECINCT

Old Government House is owned by the Queensland Government. In October 2002, a Heads of Agreement was signed between the Queensland Government, National Trust of Queensland and Queensland University of Technology for the future conservation, management and use of Old Government House.

QUT has accepted responsibility for the continued enhancement of Old Government House and the accompanying grounds in accordance with the Government's Conservation Plan.

To celebrate its history and advance knowledge of Queensland's architectural, political and educational heritage, QUT has opened the doors of Old Government House to provide a welcoming environment for all Queenslanders and visitors to enjoy and learn about the building and its site. Guided tours are available on request.

Location

QUT Gardens Point
2 George Street, Brisbane (next to City Botanic Gardens)

QUT STUDENT GUILD

The QUT Student Guild fosters the welfare of all QUT students and protects their rights. It advocates for students who experience difficulties during their time at QUT and represents all students on various University committees. Being a member of the Student Guild is like having an insurance policy; the Guild exists to help students deal with issues that may negatively impact on their performance at QUT.

The QUT Student Guild is owned and operated by and for students.

The Student Guild is governed by Guild Council which consists of the Executive (President, General Secretary, Education Director, International Student Services Director, Women's Services Director, Welfare Services Director, Recreation Director, Indigenous Services Director, Queer Services Director, and three Campus Directors), campus representatives, and specialist representatives (for part-time and external students, Aboriginal and Torres Strait Islander students, and postgraduate students).

Members of the Guild Council are elected at the annual general election and all students are eligible to stand for positions at the election. Students are also able to nominate and vote for campus coordinator positions to help organise activities and services on campuses.

The Student Guild sends representatives to express students' views to many University committees, including the University Academic Board.

The QUT Student Guild is an organisation which offers support, advocacy and representation to all students at QUT on issues ranging from academic appeals to lobbying the state and federal governments on higher education issues. Quite often, access and equity to education can be affected by government policy. The Student Guild will often call on its members to attend rallies to stop regressive changes to the education system. The Student Guild fully supports a free public education system where everyone has equal access.

The QUT Student Guild also operates several commercial services across all campuses. These consist of the Guild Fitness Centres, Guild Bars, Guild Aquatic and Squash Centre, Guild News and Post Office, the Guild Child Care Centres and Creche, Academic Gown Hire and the Guild Second Hand Textbook Shop.

The Guild has a presence on the web which can be accessed at www.guildonline.net. All of the Guild's services are listed there along with an events page where students can find out what is happening on their campus as well as up-to-date accommodation and part-time employment listings.

INTRODUCTION

Please refer to the online Manual of Policies and Procedures for the latest version of the Student Rules www.qut.edu.au/admin/mopp.

The QUT Student Rules published here were approved by QUT Council on 23 October 2002, following a major review. Detailed information about procedural aspects of these rules can be obtained by accessing relevant topics at Student Services website or by contacting the Student Business Services Department.

For information on the University's admission policy and procedures, please refer to the various booklets available from QUT's Student Business Services.

STUDENTS ARE WARNED THAT PENALTIES (INCLUDING FINES, SANCTIONS, WITHHOLDING RESULTS, EXCLUSION OR EXPULSION) MAY BE IMPOSED ON STUDENTS WHO CONTRAVENE THESE OR ANY OTHER QUT RULE OR POLICY, OR WHO FAIL TO MEET THEIR OBLIGATIONS (INCLUDING FAILING TO PAY PRESCRIBED FEES, LATE FEES OR FINES, OR FOR FAILING TO RETURN LIBRARY/FACULTY MATERIALS OR EQUIPMENT).

These Student Rules are made pursuant to:

- QUT Statute No. 1 (Course of Study) 1999
- QUT Statute No. 2 (Student Discipline) 1999
- QUT Statute No. 3 (Fees) 1999

They should also be read in conjunction with:

- Schedule 1 to the QUT Act 1998, Conduct on University Land. This Schedule authorises certain University officers to direct disorderly persons or those creating disturbances to leave the University. A person failing to comply with such a direction may be fined
- Information Facilities Rules (pursuant to QUT Statutes 2 and 3, and to the relevant staff conditions and awards)

THE RULES

PART 1 - PRELIMINARY

Division 1 - Interpretation

1. Definitions

In these rules:

'assessment' means work (for example, an examination, assignment, practical, performance) which a student is required to complete for any one or more of the following purposes -

- (a) the fulfilment of an educational purpose (for example, to motivate learning, to provide feedback);
- (b) to provide a basis for a record of achievement or certification of competency;
- (c) to permit grading.

'award course' means a program of study leading to the award of a degree, diploma or certificate accredited by QUT.

'cancellation of enrolment' means that a student has discontinued an award course or a program of non-award studies.

'course coordinator' includes a staff member performing the functions of course coordinator specified by the director, QUT international college.

'course requirements' means the specific requirements for completing an award course approved by university academic board and includes the following -

- (a) the course structure;
- (b) any conditions for enrolment in or for completion of particular units required for the course;
- (c) any conditions for academic progression through the course;
- (d) any requirements for attendance type or mode of study.

'dean' means the executive dean of the faculty having responsibility for a unit or an award course and includes -

- (a) the executive director, northern campuses, in the case of a unit or an award course for which that officer is responsible; and
- (b) the director, QUT international college, in the case of a program of non-award studies for which the director is responsible.

'faculty academic board' means the body established by university academic board to manage academic policy and practices within the faculty or QUT Carseldine.

'international student' has the same meaning as 'overseas student' in the *Higher Education Support Act 2003 (Cwth)*.

'non-award studies' means a unit or group of units which a student undertakes at the university other than as part of an award course of QUT.

'QUT' means the Queensland University of Technology.

'registrar' means the university's chief administrative officer.

'unit coordinator' includes a staff member performing the functions of unit coordinator specified by the director, QUT international college.

'university academic board' means the body established by council to provide leadership on academic policy and practices of QUT.

1A. Academic calendar and teaching periods

(1) In these rules, 'teaching period' means a designated period of weeks in which the program of study and instruction for a unit or an award course is undertaken.

(2) The vice-chancellor approves the academic calendar for each year.

(3) The registrar -

- (a) designates the teaching periods in which programs of study or instruction may be offered; and
- (b) sets the dates for teaching periods within the academic calendar; and
- (c) designates unit addition and withdrawal periods in Schedule 1; and
- (d) sets the dates for unit addition and withdrawal in accordance with Schedule 1.

2. Attendance type and mode

(1) A student's attendance type is normally designated as full-time if the enrolment program for the teaching period is -

- (a) in the case of a student enrolled in an award course, at least 75 per cent of the number of credit points for a standard enrolment program load for full-time enrolment in that course in a teaching period; or
- (b) in the case of a student undertaking non-award studies, at least 75 per cent of the number of credit points for a

standard enrolment program load designated by the registrar for that purpose.

(2) If a student's enrolment program load is less than the amount specified in rule 2(1), the student's attendance type is normally designated as part-time.

(3) Addition or withdrawal of units in accordance with division 2 of part 3 of these rules may be deemed by the registrar to change a student's attendance type.

(4) For the purposes of these rules and for course requirements, a student's attendance mode is designated as -

(a) internal, where instruction or supervision in all units in which the student is enrolled in a teaching period is delivered by attendance at a place designated by the registrar as a campus of the university; or

(b) external, where instruction or supervision in all units in which the student is enrolled in a teaching period is delivered other than by attendance at a campus of the university (for example, by posting instructional materials to the student); or

(c) multi-modal, where instruction in some, but not all units, is in internal mode.

Division 2 - Students' responsibilities under these rules

3. Student responsibility for compliance with these rules and other requirements

(1) It is the student's responsibility to do all acts associated with admission, enrolment and academic progression in compliance with these rules, including, but not limited to -

(a) providing information to the university under rule 7(2), including statistical information and a mailing address; and

(b) re-enrolling at the university each year; and

(c) submitting an appropriate enrolment program and rectifying any known discrepancies with the enrolment program.

(2) In the case of international students, the student must also comply with any requirements for enrolment or study at the university specified in the Educational Services for Overseas Students Act 2000 (Cwth), including, but not limited to -

(a) any requirements relating to attendance type or mode; and

(b) any conditions for enrolment programs and progress through an award course; and

(c) any conditions relating to leave of absence.

PART 2 - ADMISSION

4. Application for admission

(1) A person must apply for admission to the university before first enrolling in an award course or non-award studies.

(2) Except where specified by the registrar, a person must apply for admission before each teaching period in which they propose to enrol in non-award studies.

(3) A person who seeks to re-enrol in an award course must apply for re-admission following -

(a) cancellation of enrolment in an award course or program of non-award studies; or

(b) an unapproved period of absence; or

(c) a period of exclusion from an award course imposed under part 6 of these rules.

(4) The registrar must prescribe the dates for and the manner of applying for admission to the university.

5. Criteria for admission

(1) University academic board may specify general requirements to be met by a person applying for admission to the university.

(2) The faculty academic board having responsibility for an award course must specify minimum course entry requirements and may specify different requirements for different major areas of study within an award course.

(3) The registrar determines the maximum number of persons to be offered admission to the university.

6. Offer of admission

(1) The registrar makes offers of admission.

(2) An offer of admission may be conditional upon the person providing documents or fulfilling other requirements specified in the offer.

(3) The registrar may withdraw an offer of admission and reject enrolment where -

(a) the person fails to provide documents or to fulfil other requirements specified in the offer of admission; or

(b) the offer of admission has been made as a result of the provision of incomplete or inaccurate information by the person or a certifying authority; or

(c) the person fails to submit an enrolment program in accordance with the offer of admission by the specified date.

PART 3 - ENROLMENT

Division 1 - General requirements for enrolment

7. Enrolment procedures

(1) The registrar -

(a) must prescribe closing dates for submission of an enrolment program for each teaching period; and

(b) may prescribe different closing dates for different categories of students.

(2) The registrar must prescribe the manner of submitting the enrolment program, and the information to be included with the enrolment program.

(3) For each teaching period, the registrar must -

(a) publish the closing dates for addition or withdrawal of units in accordance with schedule 1; and

(b) specify the manner of submitting changes to the enrolment program.

8. Valid enrolment

(1) Subject to rule 8(2), enrolment in any teaching period means that the student has submitted an enrolment program for study, instruction or research at the university in that teaching period.

(2) A student is validly enrolled upon -

(a) submission of an enrolment program for the teaching period by the specified date or such later time as permitted by the registrar; and

(b) acceptance of the enrolment program by the registrar¹; and

(c) payment of fees and charges required under these rules by the specified date or such later time as permitted by the registrar; and

(d) fulfilment of any other requirements specified in these rules.

(3) The registrar may reject a student's enrolment where the student has not met all of the requirements of rule 8(2).

Division 2 - Enrolment programs

9. Requirements for enrolment programs

- (1) A student's enrolment program must comply with the general requirements specified in this division.
- (2) In the case of a student enrolled in an award course, the student's enrolment program must also comply with the course requirements.

10. Addition of a unit to enrolment program

Subject to the requirements of this division, a student may add a unit to their enrolment program in a teaching period if -

- (a) the unit is added by the addition date published in accordance with schedule 1; or
- (b) where the student proposes to add the unit after the addition date published in accordance with schedule 1 -
 - (i) the student pays the administrative charge specified in schedule 2; and
 - (ii) the unit coordinator agrees to the addition of the unit; and
 - (iii) the registrar is satisfied that the student has demonstrated that exceptional circumstances for addition of the unit exist.

11. Withdrawal from a unit

- (1) Subject to the requirements of this division, a student may withdraw from enrolment in a unit -
 - (a) by the withdrawal date published by the registrar in accordance with schedule 1 - without academic penalty; or
 - (b) after the withdrawal date published by the registrar in accordance with schedule 1 - with academic penalty.
- (2) Despite rule 11(1)(b), the registrar may permit withdrawal without academic penalty if, following advice from the dean, the registrar is satisfied that the student has demonstrated that exceptional circumstances for withdrawal from the unit exist.
- (3) In this section, 'academic penalty' means that the unit in question is awarded a failing grade.

12. Relationship between units of study

- (1) Course requirements may specify any of the following conditions for enrolment in a specified unit -
 - (a) a student must have achieved a passing grade in a pre-requisite unit before enrolment in the specified unit;
 - (b) a student may enrol in the specified unit only if -
 - (i) the student also enrolls in a corequisite unit at the same time; or
 - (ii) the student has previously achieved a passing grade in the corequisite unit;
 - (c) a student must not enrol in the specified unit if the student has achieved a passing grade in an incompatible unit.
- (2) A unit coordinator may permit a student to enrol in a specified unit without having satisfied the condition listed in rules 12(1)(a) or 12(1)(b) if the unit coordinator is satisfied that the student has demonstrated sufficient knowledge to undertake the unit.
- (3) In this section, an 'incompatible unit' means a unit in which the subject matter or the body of learning is substantially similar to that included in the specified unit.

13. Maximum and minimum enrolment program load

Course requirements may specify either or both of the following:

- (a) the maximum number of credit points for full-time enrolment;
- (b) the minimum number of credit points for part-time enrolment.

14. Time limits for completion of an award course

University academic board must specify time limits for completion of an award course, and may impose different time limits for different categories of courses.

15. Acceptance of enrolment program

The registrar may not accept a student's enrolment program in any of the following circumstances -

- (a) the student has not enrolled in accordance with their offer of admission, including, where specified, major area of study, attendance type, attendance mode and location of study;
- (b) if the student is enrolled in an award course, the student has not submitted an enrolment program which is consistent with course requirements;
- (c) except where permitted by the course or unit coordinator, as the case may be, the student has not complied with the requirements of division 2 of part 3 of these rules;
- (d) if the student is enrolled in an award course, the student has not met the requirements of part 6 of these rules;
- (e) the student is subject to a penalty imposed under rule 29 or *Statute No 2 (Student Discipline) 1999* which prohibits their enrolment in the current teaching period;
- (f) the student is in breach of any other statute or rule of the university which specifies rejection or suspension of enrolment as a penalty.

16. Amendment of enrolment program

The registrar may amend an enrolment program, after consultation with the course coordinator, if any of the following conditions exist -

- (a) the student has not complied with the requirements of rule 13;
- (b) the student has not complied with other course requirements;
- (c) the student cannot attend classes or meet other unit requirements due to timetable incompatibility;
- (d) the student has not complied with any conditions of probationary enrolment imposed under part 6 of these rules.

Division 3 - Credit

17. Credit for previous studies

- (1) University academic board may specify the amount and type of credit for previous studies which may be granted in award courses, and may specify different amounts of credit for different categories of award courses or students.
- (2) The registrar must specify the procedures to be followed, and the documentation to be supplied, by students applying for credit.
- (3) The course coordinator must determine the amount and type of credit to be granted in accordance with university academic board determinations.

Division 4 - Discontinuation or interruption of enrolment

18. Leave of absence

(1) University academic board may specify the circumstances in which a student may take leave of absence from an award course.

(2) A student must apply to the registrar for leave of absence from the award course.

(3) The registrar determines the student's application for leave of absence.

19. Cancellation of enrolment

(1) A student must notify the registrar if they wish to cancel their enrolment in an award course or non-award studies.

(2) A student who cancels their enrolment is deemed to have withdrawn from enrolment in all units in their enrolment program in accordance with rule 11.

PART 4 - FEES

20. Definitions for this part

In this part:

'HES Act' means the Higher Education Support Act (Cwth) as amended from time to time.

'student contribution amount' means an amount being the contribution for the teaching period in question determined by the university in accordance with the HES Act.

21. Imposition of fees and charges

(1) Except as specified under the HES Act, the university may impose student contribution amounts and fees for enrolment and study at the university, or for services and facilities associated with enrolment and study, and may impose different student contribution amounts and fees for different categories of students.

(2) The officer or body listed in schedule 2 sets the student contribution amounts and fees.

(3) For each teaching period, the registrar must prescribe the dates for payment of student contribution amounts and fees.

(4) A student must pay the student contribution amounts and fees specified in these rules by the prescribed dates.

(5) A student is not validly enrolled² unless all student contribution amounts and fees specified in these rules have been paid, including any additional student contribution amount or tuition fee required to be paid as a result of addition of a unit to a student's enrolment program in accordance with rule 10.

22. (Repealed - 19.04.06)

23. Liability for a student contribution amount

(1) Except as specified in the HES Act, a student who enrolls in any teaching period in a unit or units for an award course is liable for a student contribution amount.

(2) A student who is liable for a student contribution amount must submit a Commonwealth assistance form specifying the method for payment of the contribution in any of the following circumstances –

- (a) when the student first enrolls at the university;
- (b) when the student changes to another award course;
- (c) if the student elects to pay the contribution by another method.

(3) For each teaching period, the registrar must prescribe the date for submission of the Commonwealth assistance form.

(4) Except as specified in the HES Act, a student may discharge a liability for a student contribution amount by –

- (a) paying the required amount directly to the university by the date specified by the registrar; or
- (b) supplying a tax file number to the university; or
- (c) a combination of (a) and (b).

24. Tuition fee

(1) This rule applies to students who are not liable to pay a student contribution amount for a teaching period or a unit.

(2) A student (other than an international student or a student deemed by the registrar to be liable to pay a student contribution amount) who enrolls in a unit or units for an award course must pay the tuition fee specified in schedule 2.

(3) A visiting student (other than a visiting international student) who enrolls in a unit or units must pay the tuition fee specified in schedule 2, except that the dean may specify a different fee for students undertaking a designated enrolment program.

(4) An international student must pay to the university, for each teaching period, the international student tuition fee specified in the offer of admission.

(5) Where the HES Act specifies, a student who is normally liable to pay a student contribution amount may be required to pay the tuition fee specified in schedule 2 for enrolment in a particular teaching period or unit.

(6) For this rule –

a 'visiting student' means a student who enrolls in non-award studies, but does not include a cross-institutional Commonwealth supported student who enrolls in a unit or units at QUT to obtain credit towards an award course at another Australian university.

'Commonwealth supported student' means a student who is liable to pay a student contribution amount for a unit or units for an award course in accordance with the HES Act.

25. Incidental fees

(1) A student or a person applying for admission must pay the relevant incidental fee prior to taking the action or requesting the service listed in schedule 2.

(2) If the fee has not been paid, the student's action or request for the service has no effect.

26. Cancellation fee and refunds

(1) The university may retain a proportion of student contribution amounts or fees paid by a student as a charge for cancellation of enrolment, and may impose different cancellation fees for different categories of students.

(2) Schedule 2 specifies the amount which will be retained by the university where a student cancels their enrolment in a unit or units.

(3) A student who withdraws from enrolment in a unit or units must apply by the date specified by the registrar for a refund of student contribution amounts or fees paid to the university.

26A. Exemption or deferment of payment of fees

(1) The vice-chancellor must specify the circumstances in which students may be granted exemption from payment of fees.

(2) The registrar determines whether a student may be granted exemption from payment, either in whole or in part.

(3) The registrar may permit a student to defer payment of fees for a specified time during a teaching period.

27. Consequences of non-payment of fees and charges

Except where action is taken by the registrar under rule 26A, the registrar may do either or both of the following if a student does not pay by the specified date the full amount of fees required by the university under this part –

- (a) reject the student's enrolment in accordance with rule 8;
- (b) require the student to pay an incidental fee specified in schedule 2.

PART 5 - ASSESSMENT

Division 1 - General requirements for assessment

28. Notice of assessment requirements

A student who is enrolled in a unit must receive notification of assessment requirements in the manner and by the time prescribed by university academic board.

29. Academic dishonesty

(1) A student must not act in a manner which constitutes academic dishonesty.

(2) Academic dishonesty means an action or practice which may compromise or defeat the purposes of assessment, and includes, but is not limited to -

- (a) cheating, or attempting to cheat;
- (b) plagiarism;
- (c) misrepresenting or fabricating data or results or other assessable work;
- (d) breaching requirements specified by university academic board under rule 32 for conduct during examinations, in a way that may compromise or defeat the purposes of the assessment.

(3) University academic board may prescribe procedures for investigating allegations of academic dishonesty.

(4) The penalties for academic dishonesty are -

- (a) mark reduction or zero mark for an assessment item; or
- (b) awarding of a failing grade in the unit in which academic dishonesty is detected; or
- (c) awarding of a failing grade in the unit in which academic dishonesty is detected and in another unit or all other units undertaken in that teaching period; or
- (d) suspension from the university for a specified period of time, together with the allocation of failing grades specified in rule 29(4)(c); or
- (e) permanent expulsion from the University, together with the allocation of failing grades specified in rule 29(4)(c).

(5) The dean may impose the penalties listed in rule 29(4)(a) and 29(4)(b).

(6) The registrar may impose any of the penalties listed in rule 29(4).

Division 2 - Examinations

30. Availability for examinations

(1) A student must be available to undertake an examination -

- (a) at the time and place specified for the examination in the central examination period; and

(b) at any other time specified for an examination in the notification of assessment requirements.

(2) The registrar publishes an examination timetable for each central examination period.

(3) In this rule, 'central examination period' means a period of at least 2 weeks at the end of each semester or other teaching period designated for conducting examinations.

31. Alternative examination sittings

A student who holds religious convictions which preclude attendance at an examination at the time specified in the published examination timetable, may apply in the manner prescribed by the registrar for an alternative examination sitting.

32. Conduct during examinations

University academic board must specify procedures for examinations, including -

- (a) requirements for a student entering or leaving the examination room; and
- (b) requirements for a student's conduct during the examination.

33. Deferred examinations

(1) A student who, due to exceptional circumstances beyond the student's control, is unable to attend an examination at the prescribed time may apply in the manner prescribed by the registrar for a deferred examination.

(2) The dean determines the outcome of an application for a deferred examination.

Division 3 - Final grades

34. Grading scale

University academic board must specify the grading scale to be used in allocating a record of achievement for studies at the university.

35. Allocation and notification of grades

(1) The dean approves a student's final grade for a unit.

(2) A student will be notified of their grades in the manner determined by the registrar.

36. Special consideration

(1) A student who believes that their performance in completing an assessment item has been adversely affected by exceptional circumstances may apply for special consideration in the manner prescribed by the registrar.

(2) The head of school determines whether the application for special consideration should be granted.

(3) The faculty academic board may specify the manner in which special consideration is to be applied to an assessment item.

(4) The unit coordinator determines whether additional marks for the assessment item should be granted, and must do so in accordance with any faculty academic board determinations made in accordance with rule 36(3).

(5) In this rule -

'head of school' means the head of the school in which instruction in a unit is given, or in the case of QUT international college, the director of studies.

'faculty academic board' includes the QUT international college advisory board with respect to a program of non-award studies offered by the college.

37. Supplementary assessment

Supplementary assessment may be granted to a student only in the circumstances prescribed by university academic board.

PART 6 - UNSATISFACTORY ACADEMIC PERFORMANCE

38. Requirement to perform satisfactorily in studies

(1) In this part, a 'program of study' means an award course or a structured program of non-award studies.

(2) A student undertaking a program of study must maintain a satisfactory level of academic performance in accordance with this part.

39. Probationary enrolment

(1) The registrar must place a student undertaking a program of study on probationary enrolment if the student -

(a) achieves a grade point average of less than 3.0 for units which the student has undertaken towards the program of study; or

(b) is awarded a failing grade in a unit which the student has previously failed.

(2) The registrar determines the students to be placed on probationary enrolment at the end of each academic year.

(3) The registrar must notify a student in writing of the decision to place the student on probationary enrolment.

40. Conditions of probationary enrolment

(1) A student is placed on probationary enrolment for 12 months.

(2) While on probationary enrolment, a student must -

(a) consult the course coordinator about their enrolment program; and

(b) if the course coordinator specifies an enrolment program, submit the enrolment program as specified.

(3) If a student on probationary enrolment cancels their enrolment in the program of study but is subsequently re-admitted by the registrar to the same program of study in accordance with part 2 of these rules, the registrar, upon re-admission -

(a) must place the student on probationary enrolment for the remainder of the academic year; and

(b) may require the student to submit an enrolment program specified by the course coordinator.

41. Exclusion from enrolment in an award course

(1) A student is an 'eligible student' for the purposes of exclusion if -

(a) the student has previously been placed or is currently on probationary enrolment and qualifies for a further period of probationary enrolment on the basis of rule 39; or

(b) the student is awarded a failing grade in a designated unit; or

(c) having been readmitted to the program of study following a period of exclusion, the student achieves a grade point average of less than 3.5 for units in which the student has enrolled in the academic year following readmission; or

(d) in the case of a student enrolled in an award course, the

student has exceeded the maximum time limit for the award course imposed in accordance with rule 14.

(2) At the end of each year, the faculty academic board responsible for the program of study may exclude an eligible student from enrolment in that program.

(3) If the faculty academic board does not exclude an eligible student, the registrar may place the eligible student on probationary enrolment in accordance with this part.

(4) The registrar must notify a student in writing of the decision to exclude the student from enrolment in the program of study.

(5) University academic board must specify the circumstances in which the registrar may exclude an eligible student from enrolment in other award courses or programs at the university.

(6) In this rule, 'designated unit' means a unit which a faculty academic board requires a student to complete with a passing grade in order to continue in an award course.

42. Consequences of exclusion

(1) If exclusion is imposed on a student under rule 41, the student is excluded from a program of study indefinitely, unless permitted to re-enrol in accordance with rule 43.

(2) A student who is excluded from a program of study is not permitted to enrol in any units forming part of that program.

43. Enrolment following exclusion

(1) An excluded student may re-enrol in a unit or units as part of the program of study if -

(a) the student successfully appeals against exclusion; or

(b) the student, following exclusion for at least 12 months, is re-admitted to the program of study by the registrar.

(2) Where a student re-enrols in the program of study in accordance with rule 43(1), the registrar must place the student on probationary enrolment for the balance of the academic year.

PART 7 - ELIGIBILITY TO GRADUATE

44. Minimum passing grades for graduation

For the purpose of determining a student's eligibility to graduate from an award course, a faculty academic board may designate the maximum number of units for which the student can be awarded a minimum passing grade.

45. Eligibility to graduate from an award course

(1) Subject to rule 44, a student is eligible to graduate from an award course upon completion of all course requirements.

(2) Faculty academic board determines whether a student has completed all course requirements.

(3) University academic board confers the award on a student who is eligible to graduate.

PART 8 - REVIEW AND APPEALS

46. Review of grades and academic rulings

(1) University academic board must prescribe procedures for dealing with applications for review of grades and academic rulings.

(2) A student may apply for a review of -

- (a) their grade for a unit; or
- (b) other academic rulings made under these rules.

47. Appeal to university academic board

- (1) A person who has been refused admission to the university may appeal to university academic board.
- (2) A student may appeal to university academic board if -
 - (a) the student has been excluded from an award course under rule 41 ; or
 - (b) the student has been penalised by the dean or the registrar under rule 29.

48. Status pending outcome of review or appeal

Pending the outcome of a review or appeal, the registrar may permit a student to attend classes or undertake examinations.

PART 9 - MISCELLANEOUS

49. Research higher degree students

- (1) For students undertaking the doctor of philosophy degree, university academic board must specify general requirements for -
 - (a) admission as a candidate for the degree; and
 - (b) enrolment and progression as a candidate; and
 - (c) submission and examination of the thesis.
- (2) For students undertaking another research higher degree, faculty academic board must specify course requirements.

50. Delegation of powers and functions³

- (1) Where these rules specify that a particular person or body exercises a power or function, that person or body may delegate the power or function to another person or body.
- (2) Despite rule 50(1), a course coordinator or a unit coordinator may not delegate a function or power to another person.

End Notes

¹ See rule 15.

² See rule 8.

³ See section 27A of the *Acts Interpretation Act 1954*.³ See section 27A of the *Acts Interpretation Act 1954*.

SCHEDULE 1 – UNIT ADDITION AND WITHDRAWAL DATES

Teaching Period	Last day to add units	Last day to withdraw from units without academic penalty
Semester 1 (SEM-1) Semester 2 (SEM-2)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 9th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 9th week of teaching period.
Summer Program (SUM) 13 Week Teaching Period (13TP1-3)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 9th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 9th week of teaching period.
12 Week Teaching Period (12TP1-3)	Close of business, Friday, 2nd week of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 8th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 8th week of teaching period.
6 Week Teaching Period (6TP1-6) Summer Program 1 (SUM-1) Summer Program 2 (SUM-2)	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 4th week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 4th week of teaching period.
5 Week Teaching Period (5TP1-9)	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 3rd week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 3rd week of teaching period.
Non-standard intensive teaching periods (* 2 weeks in length) where unit enrolment is either in Semester 1 or Semester 2 teaching periods	1st day of teaching period	No academic penalty if withdrawal prior to commencement of teaching. 'Withdrawn-Failure' recorded if cancellation after commencement of teaching.
Non-standard intensive teaching periods (> 2 weeks but < 6 weeks in length) where unit enrolment is either in Semester 1 or Semester 2 teaching periods	1st day of teaching period	No academic penalty if withdrawal prior to close of business, Friday, 2nd week of teaching period. 'Withdrawn-Failure' recorded if cancellation after close of business, Friday, 2nd week of teaching period.

SCHEDULE 2 – FEES AND CHARGES

TABLE A – STUDENT CONTRIBUTION BANDS

Student contribution bands for 2006	Non-differential (pre-1997)	Pre-2005 HECS students	2006 students
Band 3: law, dentistry, medicine, veterinary science	\$2943	\$6535	\$8170
Band 2: accounting, administration, economics, commerce, mathematics, statistics, computing, built environment, health, engineering, science, surveying, agriculture	\$2943	\$5583	\$6979
Band 1: humanities, behavioural science, social studies, foreign languages, visual and performing arts	\$2943	\$3920	\$4899
Band 4: National priorities: education, nursing	\$2943	\$3920	\$3920

TABLE B - DOMESTIC POSTGRADUATE TUITION FEES

Course Code	Course Title	Fee paid by student first enrolling in 2006 per credit point
AR61	Graduate Diploma in Industrial Design	Commonwealth Supported Place
AR62	Graduate Diploma in Interior Design	Commonwealth Supported Place
AR65	Graduate Certificate in Building Fire Safety	\$120
BN71	Master of Applied Science (Research)	RTS/RTA
BN72	Master of Engineering	RTS/RTA
BS33	Master of Business (Professional Accounting) - Advanced	\$130
BS33	Master of Business (International Business) - Advanced	\$130

PS71	Master of Landscape Architecture	Commonwealth Supported Place
PS72	Graduate Diploma in Urban and Regional Planning	Commonwealth Supported Place
PS73	Graduate Certificate in Geomatics	\$120
PS74	Graduate Diploma in Geomatics	\$120
PS75	Graduate Certificate in Landscape Techniques	\$120
PS76	Graduate Certificate in Landscape Design	\$120
PS77	Graduate Certificate in Advanced Landscape Techniques	\$120
PS78	Graduate Diploma in Geographic Information Systems	\$120
PS79	Graduate Certificate in Geographic Information Systems	\$120
PS82	Graduate Certificate in Planning Studies	\$120
PU30	Graduate Certificate in Public Health	\$110
PU32	Graduate Certificate in Environmental Health	\$110
PU38	Graduate Certificate in Health Services Management	\$110
PU39	Graduate Certificate in Health Promotion	\$110
PU60	Graduate Diploma in Public Health	\$110

SCHEDULE 2 – FEES AND CHARGES

Course Code	Course Title	Fee paid by student first enrolling in 2006 per credit point
PU65	Graduate Diploma in Health, Safety and Environment	\$110
PU67	Graduate Diploma in Environmental Health	\$110
PU85	Master of Public Health	\$110
PY08	Graduate Diploma in Psychology	\$110
PY09	Bachelor of Behavioural Science (Honours Psychology)	Commonwealth Supported Place
PY12	Master of Counselling	\$110
PY18	Master of Clinical Psychology	\$110
PY20	Postgraduate Diploma in Psychology	\$110
PY40	Graduate Certificate in Road Safety	\$110
PY41	Graduate Diploma in Road Safety	\$110
PY50	Doctor of Psychology (Clinical)	\$110
SC01 + SC60	Bachelor of Applied Science and Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program	Commonwealth Supported Place
SC60	Bachelor of Applied Science (Honours)	Commonwealth Supported Place
SC71	Graduate Diploma in Applied Science	Commonwealth Supported Place
SC80	Master of Applied Science (Research)	Commonwealth Supported Place

Table C - International Student Tuition Fees

These fees are set in accordance with rule 24(4), QUT Student Rules by the authority of the Vice-Chancellor.

Application fee for award courses: \$55 (incl GST)

Note: The quoted fee is based on a standard credit point load. The actual cost of the program will depend on the number of credit points enrolled. Pro-rata increase in fees will be charged when more than a normal course load is taken in any semester.

Course Code	Course Title	Fee per course per teaching period
AR48	Bachelor of Architecture	A\$10,000
AR61	Graduate Diploma in Industrial Design	A\$10,500
AR62	Graduate Diploma in Interior Design	A\$10,500
BN31	Bachelor of Built Environment (Industrial Design)	A\$10,000
BN31	Bachelor of Built Environment (Urban and Regional Planning)	A\$10,000
BN31	Bachelor of Built Environment (Interior Design)	A\$10,000
BN31	Bachelor of Built Environment (Landscape Architecture)	A\$10,000
BN71	Master of Applied Science (Research)	A\$10,500
BN72	Master of Engineering	A\$10,500
BS33	Master of Business (Professional Accounting) - Advanced	A\$8,500
BS33	Master of Business (International Business) - Advanced	A\$8,500
BS39	Graduate Certificate in Business	A\$8,500
BS40	University Diploma in Business	A\$7,000
BS56	Bachelor of Business (Advertising)	A\$8,000
BS56	Bachelor of Business (Economics)	A\$8,000
BS56	Bachelor of Business (Marketing)	A\$8,000
BS56	Bachelor of Business (Banking and Finance)	A\$8,000
BS56	Bachelor of Business (Public Relations)	A\$8,000
BS56	Bachelor of Business (Electronic Business)	A\$8,000
BS56	Bachelor of Business (Accountancy)	A\$8,000
BS56	Bachelor of Business (International Business)	A\$8,000
BS56	Bachelor of Business (Management)	A\$8,000
BS56	Bachelor of Business (Human Resource Management)	A\$8,000
BS63	Bachelor of Business (Honours)	A\$8,500
BS92	Master of Business (Research)	A\$8,500
CE44	Bachelor of Engineering (Civil)	A\$10,000
CE46	Bachelor of Engineering (Civil and Environmental Management)	A\$10,000
CE62	Graduate Certificate in Civil Engineering	A\$10,500
CE64	Graduate Diploma in Civil Engineering	A\$10,500
CE74	Master of Engineering Science (Civil Engineering)	A\$10,500
CE75	Master of Engineering Science (Civil Engineering Studies)	A\$10,500
CN51	Bachelor of Applied Science (Construction Management)	A\$10,000
CN53	Bachelor of Applied Science (Quantity Surveying)	A\$10,000
CN54	Bachelor of Property Economics	A\$10,000
CN64	Graduate Diploma in Project Management	A\$10,500
CN77	Master of Project Management	A\$10,500
CN81	Graduate Certificate in Project Management	A\$10,500
CN89	Doctor of Project Management	A\$2,040 per unit
CN90	Graduate Certificate in Property Economics	A\$10,500
CN91	Graduate Diploma in Property Economics	A\$10,500
CN92	Master of Property Economics	A\$10,500
DB69	Graduate Diploma in Urban Design	A\$10,500
DB73	Master of Built Environment (Urban Design)	A\$10,500
DE40	Bachelor of Design (Interior Design)	A\$10,000
DE40	Bachelor of Design (Landscape Architecture)	A\$10,000
DE40	Bachelor of Design (Architectural Studies)	A\$10,000
DE40	Bachelor of Design (Industrial Design)	A\$10,000
ED09	Master of Learning Innovation (Teacher-Librarianship)	A\$8,000
ED09	Master of Learning Innovation	A\$8,000
ED09	Master of Learning Innovation (Early Childhood Teaching)	A\$8,000
ED11	Doctor of Education	A\$8,000

SCHEDULE 2 – FEES AND CHARGES

Course Code	Course Title	Fee per course per teaching period
ED12	Master of Education (Research)	A\$8,000
ED14	Master of Education (Teaching English to Speakers of Other Languages - TESOL)	A\$8,000
ED26	Bachelor of Education (Inservice)	A\$7,000
ED38	Graduate Diploma in Education (for International Students)	A\$7,000
ED61	Graduate Certificate in Education	A\$1,875 per unit
ED77	Graduate Certificate in Education (Teaching English to Speakers of Other Languages - TESOL)	A\$7,500
ED82	Bachelor of Early Childhood Studies	A\$7,000
ED83	Bachelor of Early Childhood	A\$1,750 per unit
ED84	Bachelor of Adult and Community Learning	A\$7,000
ED90	Bachelor of Education (Secondary)	A\$7,000
ED91	Bachelor of Education (Primary)	A\$7,000
ED92	Bachelor of Education (Early Childhood)	A\$7,000
ED93	Bachelor of Education (Preservice Early Childhood)	A\$1,750 per unit
EE41	Bachelor of Engineering (Electrical and Computer Engineering)	A\$10,000
EE46	Bachelor of Engineering (Computer Systems)	A\$10,000
EE47	Bachelor of Engineering (Telecommunications)	A\$10,000
EE48	Bachelor of Engineering (Aerospace Avionics)	A\$10,500
EE61	Graduate Certificate in Computer and Communications Engineering	A\$10,500
EE67	Graduate Diploma in Computer and Communications Engineering	A\$10,500
EE74	Master of Engineering Science (Computer and Communications Engineering)	A\$10,500
EE77	Master of Engineering Science (Electrical Engineering Studies)	A\$10,500
EN40	Bachelor of Engineering - Dean's Scholars Program	A\$10,000
EN40	Bachelor of Engineering (Aerospace Avionics)	A\$10,500
EN40	Bachelor of Engineering (Civil and Environmental)	A\$10,000
EN40	Bachelor of Engineering (Computer Systems)	A\$10,000
EN40	Bachelor of Engineering (Mechanical)	A\$10,000
EN40	Bachelor of Engineering (Electrical)	A\$10,000
EN40	Bachelor of Engineering (Civil and Construction)	A\$10,000
EN40	Bachelor of Engineering (Civil)	A\$10,000
EN40	Bachelor of Engineering (Infomechatronics)	A\$10,000
EN40	Bachelor of Engineering (Telecommunications)	A\$10,000
EN40	Bachelor of Engineering (Medical)	A\$10,500
GS75	Master of Business Administration (MBA)	A\$11,500
GS76	Master of Business Administration (Major)	A\$11,500
GS97	Master of Business Administration (Major)	A\$11,500
HH01	Bachelor of Arts	A\$7,000
HH02	Bachelor of Social Science (Human Services)	A\$7,000
HH03	Bachelor of Social Science	A\$7,000
HH04	Bachelor of Social Science	A\$7,000
HH21	Bachelor of Arts (Honours)	A\$7,500
HH22	Bachelor of Social Science (Human Services) (Honours)	A\$7,500
HH23	Bachelor of Social Science (Honours)	A\$7,500
HH30	Graduate Certificate in Social Science (Human Services)	A\$7,500
HH31	Graduate Diploma in Social Science (Human Services)	A\$7,500
HH32	Master of Social Science (Human Services)	A\$7,500
HH40	Master of Arts (Research) (Humanities and Human Services)	A\$7,500
HH50	Doctor of Social Science	A\$10,000
HL38	Graduate Certificate in Health Science	A\$8,500
HL40	Bachelor of Nursing/Bachelor of Applied Science (in Human Movement Studies)	A\$8,000
HL42	Bachelor of Health Science (Nutrition and Dietetics)/Bachelor of Applied Science (Human Movement Studies)	A\$8,000
HL43	Bachelor of Health Science (Podiatry)/Bachelor of Applied Science (Human Movement Studies)	A\$8,000
HL46	Bachelor of Nursing/Bachelor of Health Science (Public Health)	A\$8,000
HL50	Bachelor of Nursing (Honours)	A\$8,500
HL52	Bachelor of Applied Science (Honours)	A\$8,500
HL55	Bachelor of Health Science (Honours)	A\$8,500
HL68	Graduate Diploma in Health Science	A\$8,500
HL84	Master of Applied Science (Research)	A\$8,500
HL88	Master of Health Science	A\$8,500
HL90	Doctor of Health Science	A\$10,000
HM42	Bachelor of Applied Science (Human Movement Studies)	A\$8,000
HM45	Bachelor of Applied Science (Exercise and Sports Nutrition)	A\$8,000
IF01	Graduate Certificate in Arts and Creative Industries Management	A\$8,500
IF04	Master of Arts and Creative Industries Management	A\$8,500
IF05	Bachelor of Journalism/Bachelor of Business (Advertising, International Business, Public Relations)	A\$8,000
IF06	University Diploma in Professional Communication	A\$7,000
IF07	Bachelor of Journalism/Bachelor of Laws	A\$8,500
IF09	Bachelor of Creative Industries (Media and Communication)/Bachelor of Business (Advertising, International Business, Public Relations)	A\$8,000
IF10	Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws	A\$8,500
IF12	Bachelor of Arts/Bachelor of Behavioural Science (Psychology)	A\$8,000
IF21	Bachelor of Engineering (Electrical)/ Bachelor of Mathematics	A\$10,000
IF27	Bachelor of Mass Communication	A\$8,000
IF28	Bachelor of Engineering (Electrical)/Bachelor of Business	A\$10,000
IF29	Bachelor of Applied Science/Bachelor of Information Technology	A\$9,000
IF30	Bachelor of Arts/Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing)	A\$8,000
IF30	Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management or Public Relations)	A\$8,000
IF37	Bachelor of Business (Accountancy)/Bachelor of Laws	A\$8,500
IF38	Bachelor of Information Technology/Bachelor of Laws	A\$9,000
IF39	Bachelor of Applied Science/Bachelor of Laws	A\$9,000
IF41	Bachelor of Business/Bachelor of Laws	A\$8,500
IF43	Bachelor of Arts/Bachelor of Laws	A\$8,500

SCHEDULE 2 – FEES AND CHARGES

Course Code	Course Title	Fee per course per teaching period
IF47	Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing)/Bachelor of Health Science (Health Services Management)	A\$8,000
IF47	Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management or Public Relations)/Bachelor of Health Science (Health Services Management)	A\$8,000
IF48	Bachelor of Business/Bachelor of Information Technology	A\$9,000
IF49	Doctor of Philosophy (Health)	A\$10,000
IF49	Doctor of Philosophy (Business)	A\$11,000
IF49	Doctor of Philosophy (Built Environment, Engineering)	A\$11,000
IF49	Doctor of Philosophy (Law)	A\$10,000
IF49	Doctor of Philosophy (Mathematics)	A\$10,000
IF49	Doctor of Philosophy (Creative Industries)	A\$10,000
IF49	Doctor of Philosophy (Science)	A\$10,500
IF49	Doctor of Philosophy (Information Technology)	A\$10,000
IF49	Doctor of Philosophy (Education)	A\$8,000
IF49	Doctor of Philosophy	A\$10,000
IF58	Bachelor of Mathematics/Bachelor of Information Technology	A\$9,000
IF59	Bachelor of Engineering (Electrical)/Bachelor of Information Technology	A\$10,000
IF60	Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics)	A\$9,000
IF61	Bachelor of Applied Science/Bachelor of Business	A\$9,000
IF62	Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Business (Advertising, Human Resource Management, International Business, Management or Public Relations)	A\$8,000
IF62	Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Business (Accountancy, Banking and Finance, Economics or Marketing)	A\$8,000
IF86	Bachelor of Arts/Bachelor of Applied Science	A\$9,000
IF90	Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology	A\$9,000
IF93	Bachelor of Creative Industries (Creative Writing) / Bachelor of Laws	A\$8,500
IF94	Graduate Certificate in Advertising	A\$8,500
IF96	Master of Advertising (Strategic Advertising)	A\$8,500
IT10	University Diploma in Information Technology	A\$7,000
IT21	Bachelor of Information Technology	A\$9,000
IT22	Bachelor of Information Technology	A\$9,000
IT28	Bachelor of Information Technology (Honours)	A\$9,500
IT29	Bachelor of Information Technology (Honours) - Accelerated Program	A\$9,500
IT35	Graduate Diploma in Information Technology (IT Graduates)	A\$9,500
IT38	Graduate Diploma in Information Technology (Non-IT Graduates)	A\$9,500
IT40	Master of Information Technology (IT Graduates)	A\$9,500
IT45	Master of Information Technology (Non-IT Graduates)	A\$9,500
IT48	Master of Information Technology (Advanced)	A\$9,500
IT60	Master of Information Technology (Research)	A\$9,500
IT70	Master of Information Management	A\$9,500
IX01	Bachelor of Arts/Bachelor of Education (Secondary)	A\$7,000
IX02	Bachelor of Applied Science/Bachelor of Education (Secondary)	A\$9,000
IX03	Bachelor of Business(Accountancy and Economics)/Bachelor of Education (Secondary)	A\$8,000
IX04	Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)	A\$8,000
IX07	Bachelor of Music/Bachelor of Education (Secondary)	A\$8,000
IX09	Bachelor of Information Technology/Bachelor of Education (Secondary)	A\$9,000
IX11	Bachelor of Arts/Bachelor of Education (Early Childhood)	A\$7,000
IX12	Bachelor of Arts/Bachelor of Education (Primary)	A\$7,000
IX14	Bachelor of Applied Science/Bachelor of Education (Primary)	A\$9,000
IX16	Bachelor of Creative Industries (Visual Arts)/Bachelor of Education (Secondary)	A\$8,000
IX16	Bachelor of Creative Industries (Dance)/Bachelor of Education (Secondary)	A\$8,000
IX16	Bachelor of Creative Industries (Drama)/Bachelor of Education (Secondary)	A\$8,000
IX20	Master of Psychology (Educational and Developmental)	A\$8,500
IX25	Bachelor of Engineering (Software Engineering)	A\$10,000
IX96	Master of Advertising (Creative Advertising)	A\$8,500
JS31	Bachelor of Justice	A\$8,000
JS40	Bachelor of Justice (Honours)	A\$8,500
JS52	Master of Justice (Research)	A\$8,500
KD16	University Certificate in Dance Teaching	A\$6,000
KD17	University Diploma in Dance Teaching	A\$6,000
KD35	Graduate Certificate in Creative Industries (Dance Teaching)	A\$6,000
KD36	Graduate Diploma in Creative Industries (Dance Teaching)	A\$6,000
KD42	Master of Creative Industries (Dance Teaching)	A\$6,000
KI35	Graduate Certificate in Creative Industries (Communication Design)	A\$9,500
KI43	Master of Creative Industries (Communication Design)	A\$9,500
KJ32	Bachelor of Journalism	A\$8,000
KJ35	Graduate Certificate in Journalism	A\$8,500
KJ36	Graduate Diploma in Journalism	A\$8,500
KJ42	Master of Journalism	A\$8,500
KK33	Bachelor of Creative Industries (Interdisciplinary)	A\$8,000
KK33	Bachelor of Creative Industries (Visual Arts)	A\$8,000
KK33	Bachelor of Creative Industries (Television)	A\$8,000
KK33	Bachelor of Creative Industries (Dance)	A\$8,000
KK33	Bachelor of Creative Industries (Media & Communication)	A\$8,000
KK33	Bachelor of Creative Industries (Communication Design)	A\$8,000
KK33	Bachelor of Creative Industries (Drama)	A\$8,000
KK33	Bachelor of Creative Industries (Creative Writing)	A\$8,000
KK34	Bachelor of Fine Arts (Animation)	A\$8,000
KK34	Bachelor of Fine Arts (Sound Design)	A\$8,000
KK34	Bachelor of Fine Arts (Dance)	A\$8,000
KK34	Bachelor of Fine Arts (Film and Television)	A\$8,000
KK34	Bachelor of Fine Arts (Visual Arts)	A\$8,000

SCHEDULE 2 – FEES AND CHARGES

Course Code	Course Title	Fee per course per teaching period
KK34	Bachelor of Fine Arts (Fashion)	A\$8,000
KK34	Bachelor of Fine Arts (Creative Writing Production)	A\$8,000
KK34	Bachelor of Fine Arts (Technical Production)	A\$8,000
KK34	Bachelor of Fine Arts (Acting)	A\$8,000
KK42	Master of Fine Arts	A\$8,500
KK49	Doctor of Creative Industries	A\$10,000
KK51	Master of Arts (Research) (Creative Industries)	A\$8,500
KK52	Bachelor of Creative Industries (Honours) (Communication Design, Creative Writing, Dance, Drama, Interdisciplinary, Media and Communication, Visual Arts)	A\$8,500
KK53	Bachelor of Fine Arts (Honours) (Communication Design, Creative Writing, Dance, Fashion Design, Film and Television Production, Visual Arts)	A\$8,500
KK54	Bachelor of Journalism (Honours)	A\$8,500
KK55	Bachelor of Music (Honours)	A\$8,500
KM32	Bachelor of Music	A\$8,000
KM35	Graduate Certificate in Music	A\$9,500
KM36	Graduate Diploma in Music	A\$9,500
KM42	Master of Music	A\$9,500
KW35	Graduate Certificate in Creative Industries (Creative Writing)	A\$8,500
KW36	Graduate Diploma in Creative Industries (Creative Writing)	A\$8,500
LP41	Graduate Diploma in Legal Practice	A\$14,000 per 24 week teaching period
LS37	Bachelor of Applied Science (Medical Science)	A\$9,000
LS50	Bachelor of Biotechnology Innovation	A\$8,500
LS66	Graduate Certificate in Biotechnology	A\$9,000
LS76	Graduate Diploma in Biotechnology	A\$9,000
LS86	Master of Biotechnology	A\$9,000
LS96	Master of Biotechnology (Advanced)	A\$9,000
LW33	Bachelor of Laws	A\$9,000
LW42	Bachelor of Justice/Bachelor of Laws	A\$8,500
LW50	Doctor of Juridical Science	A\$10,000
LW51	Master of Laws	A\$8,500
LW52	Master of Laws (Research)	A\$8,500
LW60	Graduate Certificate in Law	A\$8,500
LW65	Graduate Certificate in Legal Studies	A\$8,500
LW70	Graduate Diploma in Legal Studies	A\$8,500
MA54	Bachelor of Mathematics	A\$8,500
MA65	Graduate Certificate in Mathematical Science	A\$9,000
MA75	Graduate Diploma in Mathematical Science	A\$9,000
MA85	Master of Mathematical Science	A\$9,000
ME40	Bachelor of Engineering (Infomechatronics)	A\$10,000
ME41	Bachelor of Engineering (Mechanical)	A\$10,000
ME41	Bachelor of Engineering (Mechanical) Conversion Program from Bachelor of Technology ME36/ME37	A\$10,000
ME48	Bachelor of Engineering (Medical)	A\$10,500
ME75	Graduate Certificate in Engineering Management	A\$10,500
ME76	Master of Engineering Management	A\$10,500
ME80	Master of Engineering Science (Mechanical Engineering Studies)	A\$10,500
NA05	International Visiting Students	A\$2,000 per unit
NS40	Bachelor of Nursing	A\$8,000
NS40	Bachelor of Nursing - Graduate Entry	A\$8,000
NS45	Bachelor of Nursing and Health Services Management	A\$8,000
NS64	Graduate Diploma in Nursing	A\$8,500
NS68	Graduate Diploma in Midwifery	A\$8,500
NS85	Master of Nursing	A\$8,500
OP42	Bachelor of Applied Science (Optometry)	A\$10,000
PH38	Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology)	A\$9,000
PH71	Graduate Diploma in Applied Science (Medical Physics)	A\$9,000
PH80	Master of Applied Science (Medical Physics)	A\$9,000
PS47	Bachelor of Surveying	A\$10,000
PS66	Graduate Diploma in Landscape Architecture	A\$10,500
PS70	Master of Urban and Regional Planning	A\$10,500
PS71	Master of Landscape Architecture	A\$10,500
PS72	Graduate Diploma in Urban and Regional Planning	A\$10,500
PS73	Graduate Certificate in Geomatics	A\$10,500
PS74	Graduate Diploma in Geomatics	A\$10,500
PS75	Graduate Certificate in Landscape Techniques	A\$10,500
PS76	Graduate Certificate in Landscape Design	A\$10,500
PS78	Graduate Diploma in Geographic Information Systems	A\$10,500
PS79	Graduate Certificate in Geographic Information Systems	A\$10,500
PS82	Graduate Certificate in Planning Studies	A\$10,500
PU30	Graduate Certificate in Public Health	A\$10,000
PU40	Bachelor of Health Science (Nutrition)	A\$8,000
PU40	Bachelor of Health Science (Public Health)	A\$8,000
PU40	Bachelor of Health Science (Health Information Management, Health Services Management and Public Health)	A\$8,000
PU43	Bachelor of Health Science (Podiatry)	A\$8,000
PU43	Bachelor of Health Science (Nutrition and Dietetics)	A\$8,000
PU60	Graduate Diploma in Public Health	A\$10,000
PU65	Graduate Diploma in Health, Safety and Environment	A\$8,500
PU85	Master of Public Health	A\$10,000
PY08	Graduate Diploma in Psychology	A\$8,500
PY09	Bachelor of Behavioural Science (Honours Psychology)	A\$8,500
PY18	Master of Clinical Psychology	A\$8,500
PY20	Postgraduate Diploma in Psychology	A\$8,500

SCHEDULE 2 – FEES AND CHARGES

Course Code	Course Title	Fee per course per teaching period
PY40	Graduate Certificate in Road Safety	A\$8,500
PY41	Graduate Diploma in Road Safety	A\$8,500
PY45	Bachelor of Behavioural Science (Psychology)	A\$8,000
QC01	Foundation Program (1 Semester)	A\$6,500
QC02	Foundation Program (2 Semesters)	A\$6,500
QC03	Bridging Program	A\$6,500
QC04	Extended Foundation Program (3 Semesters)	A\$14,300 (full course fee)
QC10	English for Academic Purposes for degree programs	A\$3,600 per 12 week session + A\$100 non-refundable enrolment fee
QC10	English for Academic Purposes for Foundation and University Diploma Programs	A\$3,600 per 12 week session + A\$100 non-refundable enrolment fee
QC20	General English	A\$1,500 per 5 week session + A\$100 non-refundable enrolment fee
QC22	English for Tertiary Preparation	A\$600 + A\$100 non-refundable enrolment fee
QC25	Cambridge First Certificate in English Preparation course - International	A\$4,152 (full course fee)
SC01	Bachelor of Applied Science (Carseldine First-year Experience Program)	A\$8,500
SC01	Bachelor of Applied Science	A\$8,500
SC01 + SC60	Bachelor of Applied Science and Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program	A\$10,000
SC20	Bachelor of Applied Science/Bachelor of Mathematics	A\$8,500
SC40	Bachelor of Biomedical Science	A\$8,500
SC45	Bachelor of Pharmacy	A\$10,000
SC60	Bachelor of Applied Science (Honours)	A\$9,000
SC71	Graduate Diploma in Applied Science	A\$9,000
SC80	Master of Applied Science (Research)	A\$9,500
UD40	Bachelor of Urban Development (Property Economics)	A\$10,000
UD40	Bachelor of Urban Development (Spatial Science)	A\$10,000
UD40	Bachelor of Urban Development (Urban and Regional Planning)	A\$10,000
UD40	Bachelor of Urban Development (Construction Management)	A\$10,000
UD40	Bachelor of Urban Development (Quantity Surveying)	A\$10,000

TABLE D - DOMESTIC UNDERGRADUATE NON-AWARD TUITION FEES

These fees are set in accordance with rule 24(3), QUT Student Rules by the authority of the Vice-Chancellor.

Course Code	Course Type	Fee per credit point	
		2005	2006
BS20/BS21/BS22	Management Certificate (Undergraduate)	\$90	\$125
KD05	Certificate in Dance Teaching	\$80	\$110
KD06	Advanced in Certificate in Dance Teaching	\$80	\$110

TABLE E - SUMMER PROGRAM TUITION FEES (INCLUDING HECS COURSES WITH SUMMER AS NORMAL PROGRESSION)

These fees are set in accordance with rule 24(5), QUT Student Rules by the authority of the Vice-Chancellor. Does not include International Student Tuition Fees.

SUMMER PROGRAM TUITION FEES	Units with a census date in 2006
Students enrolled in existing fee-paying courses (postgraduate)	Refer to Table B
QUT Commonwealth supported students enrolled in a unit offered to satisfy standard enrolment pattern for Commonwealth supported students	Refer to Table A
Students enrolled in Summer Tuition Fee paying unit (includes Commonwealth supported QUT students)	Refer to Table F
Visiting and cross-institutional students	Refer to Table F

TABLE F - VISITING STUDENT TUITION FEES

These fees are set in accordance with rule 24(3), QUT Student Rules by the authority of the Vice-Chancellor.

STUDENT TYPE	2006 FEE PER CREDIT POINT
Students enrolled in any undergraduate unit	\$120
Students enrolled in a postgraduate unit (except Faculty of Business, Faculty of Education, Faculty of Health, Faculty of Information Technology)	\$120
Students enrolled in a postgraduate unit offered by the Faculty of Business	\$130
Students enrolled in a postgraduate unit offered by the Faculty of Health, Faculty of Education and the Faculty of Information Technology	\$110

SCHEDULE 2 – FEES AND CHARGES

TABLE G - STUDENT GUILD FEE (Pre VSU)

Voluntary Student Unionism (VSU) will be implemented from 1 July 2006.

Students will not be required to pay Student Guild Fee for any teaching period with a census date on or after 1 July 2006. Any Student Guild Fee incurred prior to this date must be paid by 30 June 2006.

These fees are set in accordance with rule 22, QUT Student Rules by the authority of QUT Council.

Attendance Mode	2006 (fee per semester)
Full-time	\$121.00
Part-time	\$60.50
External	\$24.20
Summer	\$24.20

TABLE H - QUT ADMINISTRATIVE CHARGES

These charges are set in accordance with rule 24, QUT Student Rules by the authority of the Registrar.

TYPE OF ADMINISTRATIVE CHARGE	2005/2006 CHARGE (INC GST)
Late lodgement of application for admission	\$50.00
Late lodgement of enrolment form	\$50.00
Late addition to enrolment program	\$50.00
Addition to enrolment program not made on prescribed form	\$50.00
Reinstatement of enrolment following administrative cancellation	\$100.00
Review of Pass Grades (refundable):	
Step 2: school level review	\$20.00
Step 3: faculty level review	\$30.00
Copy of examination script	\$10.00
Statement of Academic Record	\$10.00
Re-issue of student ID card	\$10.00
Re-issue of Award Certificate	\$50.00
Re-issue of receipt for fees paid/statement of fees paid	\$10.00
Late fee for non-payment of fees	\$50.00

TABLE I - DOMESTIC TUITION CANCELLATION CHARGES

These fees are set in accordance with rule 26, QUT Student Rules by the authority of the Vice-Chancellor.

Students should note that academic penalties may also apply to withdrawal of units. Refer to Schedule 1: Unit Addition and Withdrawal for more information.

UNIT TEACHING PERIOD	WITHDRAWAL RULE	CANCELLATION CHARGE
Semester 1 (SEM-1) Semester 2 (SEM-2) Summer Program (SUM)	Commonwealth supported place: on or before census date	NIL
	Commonwealth supported place: after census date	100% student contribution
	Domestic Tuition (including FEE-HELP) students: until Friday of Week 2	NIL
	Domestic Tuition (including FEE-HELP) students: on or after Saturday of week 2 until census date	25% of tuition fee*
	Domestic Tuition (including FEE-HELP) students: after census date	100% of tuition fee
6 Week Teaching Period (6TP1-6) Summer Program 1 (SUM-1) Summer Program 2 (SUM-2)	Commonwealth supported place: on or before census date	NIL
	Commonwealth supported students: after census date	100% of student contribution
	Domestic Tuition (including FEE-HELP) students: before 1st day of teaching period	NIL
	Domestic Tuition (including FEE-HELP) students: on or after 1st day of teaching period until census date	25% of tuition fee*
	Domestic Tuition (including FEE-HELP) students: after census date	100% of tuition fee
Non-standard intensive teaching periods (2 weeks or less in length)	Domestic Tuition (including FEE-HELP) students: before 1st day of teaching period	NIL
	Domestic Tuition (including FEE-HELP) students: on or after 1st day of teaching period	100% of tuition fee
Non-standard intensive teaching periods (greater than 2 weeks but less than 6 weeks in length)	Domestic Tuition (including FEE-HELP) students: before 1st day of teaching period	NIL
	Domestic Tuition (including FEE-HELP) students: on or after 1st day of teaching period until Friday of Week 2	25% of unit tuition fee*
	Domestic Tuition (including FEE-HELP) students: on or after Saturday of Week 2	100% of unit tuition fee

* FEE-HELP students: 25% late cancellation charge cannot be deferred to the ATO. Students in this situation will receive an invoice from QUT.

SCHEDULE 2 – FEES AND CHARGES

TABLE J - INTERNATIONAL TUITION CANCELLATION CHARGES

These fees are set in accordance with rule 26, QUT Student Rules by the authority of the Vice-Chancellor.

Students should note that academic penalties may also apply to withdrawal of units. Refer to Schedule 1.

Note: withdrawal from course penalties listed above will apply (Section 10.3) if withdrawal from unit(s) results in no unit enrolment in the course.

WITHDRAWAL FROM COURSE			
Teaching period	Course	Withdrawal period	Cancellation charges
New students (not yet commenced)			
All except 5TP1-9 (5 wk teaching period)	All courses (includes foundation programs, bridging, diploma and degree courses) except QUTIC English language programs	From entire course, due to inability to obtain visa or meet all the conditions stated in offer letter or extenuating circumstances	No cancellation charge – 100% of tuition fee refunded
		From entire course, prior to the commencement date of teaching period	10% of first teaching period tuition fee
5TP1-9 (5wk teaching period) SEM 1 (Semester 1) SEM 2 (Semester 2) SUM (Summer)	QUTIC English language programs (preparatory courses such as General English, English for Academic Purpose)	Withdrawal from course more than 28 days before commencement	No cancellation charge – 100% of tuition fee refunded
		Withdrawal from course 28 days or less before course commencement	20% of the total unused tuition fee paid for the course
SEM 1 (Semester 1) SEM 2 (Semester 2) 13TP1-3 (13wk teaching period) 12TP1-3 (12wk teaching period)	English language <i>packaged</i> programs (English language course followed by a non-English language course)	Withdrawal from English language packaged program prior to the commencement date of teaching period for the non-English language course	10% of tuition fees invoiced for the first teaching period published for that year for the non-English language course
Continuing students			
12 weeks or more duration, eg SEM 1 (Semester 1) SEM 2 (Semester 2) 13TP1-3 (13wk teaching period) 12TP1-3 (12wk teaching period)	All courses except QUTIC English language programs	From entire course or leave of absence, within first four weeks of teaching period	50% of tuition fee invoiced for the teaching period
		From entire course or leave of absence, after first four weeks of teaching period	100% of tuition fee invoiced for the teaching period
	Research higher degree programs	From entire course or leave of absence, within first four weeks of teaching period	No cancellation charge –100% of tuition fee refunded
		From entire course or leave of absence, after first four weeks of teaching period	100% of tuition fee invoiced for the teaching period
6 weeks or less duration, eg 6TP1-6 (6wk teaching period)	All courses except QUTIC English language programs	From entire course or leave of absence within first two weeks of teaching period	50% of tuition fee invoiced for the teaching period
		From entire course or leave of absence after first two weeks of teaching period	100% of tuition fee invoiced for the teaching period
	QUTIC English language programs	Withdrawal from course after commencement of program of English language course(s)	– No refund of the current teaching period tuition fees for the English language course
		Withdrawal from course after commencement of program of English language course(s) but prior to commencement of non-English language course(s)	– 20% of tuition fees invoiced for subsequent teaching periods for the English language course and – Students who have accepted a <i>packaged offer</i> (English with additional courses) 10% of tuition fees invoiced for the first teaching period published for that year for the non-English language course.
WITHDRAWAL FROM UNITS			
Teaching period	Withdrawal period		Cancellation charge
12 weeks or more duration, eg SEM 1 (Semester 1) SEM 2 (Semester 2) SUM (Summer)	Within first four weeks of commencement		No late cancellation charge – 100% of fee paid refunded
	After first four weeks of commencement		100% of unit tuition fee
6 weeks or less duration, eg 6TP1-6 (6wk teaching period) SUM 1 (Summer 1) SUM 2 (Summer 2)	Within first two weeks of commencement		No charge
	After first two weeks of commencement		100% of unit tuition fee

ACADEMIC POLICIES

Access to assessment results

The University is committed to a policy of openness with respect to the release of assessment results. QUT policy on access to assessment results and/or marks is as follows.

- For units where percentage marks are calculated, such marks will be placed on the confidential individual student records located in the QUT Virtual web pages (<https://qutvirtual.qut.edu.au/>).
- Faculty academic boards must make appropriate arrangements for students who request to peruse their own examination scripts or written answers to examination questions or other forms of assessment, provided that the request is made within three months of the release of the examination results. Should students request a photocopy of their script, a fee will be levied.
- Where examination question papers or other forms of assessment will be re-used in successive examinations, faculty academic boards must arrange for students to receive advice on their performance with reference to their own examination scripts in a way which does not prejudice the examination mode.

Assessment for students with disabilities

Students with permanent or temporary disability have the right to alternative arrangements for assessment which provide equality of opportunity to enable students to fulfil course requirements.

Students should contact the relevant campus Disability Officer early in the teaching period and preferably prior to the published date for withdrawal without financial penalty for the relevant teaching period.

Alternative arrangements for assessment are negotiated between the student, Disability Officer and the course coordinator.

Students are required to present evidence to the Disability Officer, usually in the form of documentation from a medical or other relevant specialist practitioner which substantiates the nature of the special need. The University adheres to principles of confidentiality and privacy and documentation together with records of interviews, are maintained by the Disability Officer.

The Disability Officer will develop a service plan which includes recommendations for alternative arrangements for assessment for approval by the relevant course coordinator. Service plans are reviewed and re-negotiated each semester. The student will be advised in writing of any alternative arrangements for their assessment.

Further information on support provided by the University for students with disabilities is contained in the Guide for Students with Disabilities. Refer also to University policy on disability services (see section A/8.3).

a) Centrally organised assessment

For centrally organised examinations, responsibility for the conduct and administration of alternative assessment provisions for students with disabilities, including the costs of employing invigilators, personal assistants and providing examination materials, rests with the Student Business Services Department.

b) School-based assessment

For assessment other than central examinations, administrative and financial responsibility, including organisation of appropriate equipment and support personnel, rests with faculties and schools.

For assessment other than central examinations, administrative and financial responsibility, including organisation of appropriate equipment and support personnel, rests with faculties and schools.

Awards with honours

This policy does not deal with honours programs which are end-on to a bachelor degree course (see MOPP section C/3.3.5).

In degree courses of four or more years, a degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program. Degrees with honours are also awarded to students who have recorded outstanding achievement in a component of a double degree program where that component is a degree for which awards with honours are made (see MOPP section C/3.3.6).

First class honours, second class honours division A and second class honours division B may be awarded. Candidates for a degree with honours must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the relevant faculty academic board and approved by University Academic Board.

Honours are awarded

- to indicate that students may appropriately proceed to higher degrees
- to encourage students to work consistently throughout a course
- to ensure that QUT students can apply equally for employment in competition with honours graduates from other institutions
- to ensure that QUT graduates are eligible for the same level of salary on commencement as graduates from other institutions
- to enable QUT graduates to compete equally for scholarships.

Supplementary assessment

Supplementary assessment is provided to facilitate the course completion of students.

Students may be granted:

- up to two supplementary assessments in the final 96 credit points of study, at the faculty's discretion, for coursework programs of three or more years full-time duration or equivalent; and
- one supplementary assessment in the final 48 credit points of study, at the faculty's discretion, for coursework programs of less than three years full-time duration or equivalent (this includes students enrolled in a QUTIC diploma).

Supplementary assessment is not a reassessment of the student's overall grade or the mark for an individual assessment item. It is a new item of assessment designed to assist students to complete requirements for their qualification, and is thus available for units undertaken in the final semester or year of study (as applicable).

Faculty academic boards are responsible for determining eligibility for supplementary assessment at the time that examination results are considered. Faculty academic

boards will be guided by advice from the relevant school(s) as to whether, given the student's grades for the unit(s) and the nature of the unit(s), it is possible for the student to achieve a passing standard through supplementary assessment.

The form and type of supplementary assessment is at the discretion of the faculty, which will ensure that academic standards are maintained.

Supplementary assessment should only be provided when a student receives:

- a grade of 3 in a unit where a 4 is required for course completion;
- a grade of 2 in a unit where a 3 is required for course completion.

Supplementary assessment will not be granted:

- to students enrolled in designated units listed in the QUT Handbook;
- to students who have been graded 1 low fail or K withdrawn failure.

Students who are not granted supplementary assessment but believe they are entitled to supplementary assessment may request a review of the decision under the University's procedures for reviews of academic rulings (see Student Rules in Appendix 1(c) for details).

The only grades that will be recorded following supplementary assessment are S3 (pass supplementary) and S2 (fail supplementary).

LIFE ON CAMPUS

QUT policy on children on campus

QUT recognises the diversity of needs and demands placed on staff and students when balancing work, study and family responsibilities, and that occasionally it may be necessary to bring a child or children onto campus.

This policy should be read in conjunction with the University's policy on childcare and family responsibilities (see section A/8.6).

Application

The children on campus policy applies to all students and staff members. This policy does not apply to situations where a child is brought on campus for the purpose of attending a registered child care facility, the Early Childhood Development Unit, clinics and approved programs such as vacation care.

Principles

Under the Queensland Workplace Health and Safety Act 1995 QUT has obligations to ensure the health and safety of all, including children, at or near the workplace. The legislation requires that students and staff meet the following obligations:

- to follow instructions related to their study or employment at QUT
- to not interfere with or misuse anything provided for health and safety
- to not place others or themselves at risk.

Consistent with these obligations, a student or staff member must consider the following issues prior to bringing a child on campus.

- It is anticipated that students will make all reasonable attempts to arrange alternative childcare before bringing a child to the workplace.
- It is anticipated that staff will make all reasonable attempts to arrange alternative child care before bringing a child to the workplace or avail themselves of flexible work practices (eg flexitime) or leave options (eg Personal leave) where available and appropriate.
- Approval to bring a child on campus should be obtained from the relevant staff member or supervisor as soon as practical, ie in advance if possible or on arrival.
- Children must not enter areas where potentially dangerous equipment or hazardous substances are present or areas that are subject to particular statutory or local regulations.
- A common sense approach is necessary when bringing children on campus. For example, children recently exposed to an infectious illness (eg chicken pox, rubella, mumps etc), or who are known to be ill, must not be brought on campus.
- It is important that the child's presence on campus does not result in disruption to the workplace, including classes and non-teaching areas such as the Library.

Further information and detailed procedures relating to this policy are available from HR Health and Safety Advisory Services.

Policy on smoking

Given the proven health risks of smoking, QUT is moving towards making the University a smoke-free environment.

Smoking is prohibited:

- in all buildings or parts of buildings under QUT's control
- in QUT vehicles
- within 10 metres of any entrance to buildings, air conditioning intakes, ventilation louvres or opened windows
- on all semi-enclosed thoroughfares such as verandahs or colonnades and on all elevated walkways with or without fixed roof structures which require people using building entrances or moving between buildings to pass through tobacco smoke emissions
- in any other area not specified above where there is signage expressly prohibiting smoking.

Smokers are required to follow directions given by authorised QUT staff and Security personnel in regard to the implementation and enforcement of the University's policy on smoking.

Policy on inclusive language and presentation

Under its equal opportunity policy (1993), QUT aims to 'provide equal employment and educational opportunities within QUT and identify and remove barriers to participation and progression in employment and education.'

To this end, QUT supports a policy of inclusive language and presentation in all administrative and academic activities of the University. This means that QUT will

- actively promote the use of inclusive language and presentation by staff and students in all QUT documents and materials, both written and otherwise
- actively promote the use of inclusive texts and materials in all QUT teaching and presentations

- works towards the elimination of demeaning or discriminatory language and visual representations at QUT
- take active steps to ensure that all staff and students are aware of their responsibilities under the policy, and take appropriate action to assist staff to comply
- develop and maintain a procedure for resolving complaints of demeaning or discriminatory language and presentation.

For the purpose of this policy

- **inclusive language and presentation** positively reflects the richness of the social and cultural diversity of Australian society and the QUT community by embracing the lifestyles, experiences and values of all groups of people
- **discriminatory language and presentation** devalues or demeans people or groups of people by harassing them, highlighting individual characteristics in an offensive or prejudicial manner, or by excluding them.

QUT recognises that use of inclusive language and presentation in all activities will assist in the University's mission to bring the benefits of teaching, research and learning to the community.

Responsibilities

QUT expects all staff, students and other members of the University community to act in accordance with this policy.

Executive deans, heads of division and Chancellery are responsible for ensuring that their staff and, where applicable, students comply with this policy.

Disability services policy

In accordance with QUT's equal opportunity policy (see section A/8.4), the University recognises its social and legal obligation to provide an accessible and inclusive environment for people with disabilities. QUT is bound by the *Commonwealth Disability Discrimination Act 1992* and the *Queensland Anti-Discrimination Act 1991*, under which the University can be vicariously liable for discrimination or harassment against a person with a disability by a member of staff or any of its agents.

This policy seeks to ensure equal opportunities for people with disabilities to participate in all aspects of University life, including education and employment. It is based on the philosophy of inclusion, which promotes strategies to develop a flexible work and study environment which is able to meet the needs of a diverse range of users.

The policy is accompanied by detailed operational guidelines available from the Equity Section, or from the Equity Section webpage (<http://www.qut.edu.au/admin/equity/>).

Principles

QUT is committed to the creation of an environment which promotes dignity, acknowledges the right to privacy and confidentiality, and cultivates an awareness of the needs and rights of people with disabilities.

In creating this environment, the University is guided by the following principles:

- Reasonable accommodations are to be provided for people with disabilities. It is the responsibility of the student or staff member to substantiate their eligibility for disability services.

- The needs of people with disabilities are to be assessed in consultation with them by the University's Disability Officer/s on an individual basis.
- Accommodations for people with disabilities will neither advantage nor disadvantage them in comparison to other people not receiving disability support services, but will be designed to ensure that people with a disability have equal access to employment or education.
- Any information in relation to a person's disability remains confidential, is not part of the person's open record of employment or academic progress, and will not be disclosed without prior written consent, except for statistical reports designed for monitoring and evaluation. (See section F/9.1 for policy on confidentiality of staff and student records).
- The University may seek information about a person's disability only insofar as it relates to the request for reasonable accommodation and/or the need for general accountability to funding agencies, policy development or monitoring and evaluation of policies and programs, including affirmative action programs for staff with disabilities.
- By law, access to work and study may not be limited on the basis of the cost of services and accommodations required, unless the adjustments would impose "unjustifiable hardship" on the University.
- People with disabilities should be able to access and negotiate each campus in safety and with ease.
- People with disabilities should have access to existing information networks (eg advertisements, publications, promotional material) in appropriate formats.

Definitions

Disability

As outlined in the relevant legislation, a disability may be either temporary or permanent, total or partial, physical, psychological or psychiatric, life-long or acquired. Also included are people who require devices or aids for assistance, or are accompanied by guide dogs.

Reasonable Accommodation

Reasonable accommodation refers to administrative, physical or procedural alterations required to ensure equal opportunity for a person with a disability.

Unjustifiable Hardship

In some cases it may be unreasonable for the University to make certain adjustments. Relevant circumstances in determining unjustifiable hardship include:

- the nature of the benefit or detriment likely to accrue or be suffered by any persons concerned
- the financial circumstances of the institution and the cost of making the required adjustments.

A thorough understanding of the effect of the disability on the individual and the impact of any adjustment or alteration is required in order to determine whether such adjustments are reasonable and necessary. The relevant State and Commonwealth administrative bodies require detailed evidence to support a claim of unjustifiable hardship.

Provisions

QUT's disability services policy makes the following provisions

Entry to Work and Study

QUT does not discriminate on grounds other than academic and merit based criteria when considering applications for admission as a student or staff member.

Access to Academic Programs and Employment

The University will endeavour to make all its academic programs, employment and development opportunities available to prospective students and staff members with a disability, consistent with the entry provisions above.

Support Services

QUT has a wide range of support services available to all staff and students. The University recognises that students and staff with disabilities may require specialised assistance. Support services include note-takers, alternative formatting of learning material, participation assistants etc.

Adapting the Learning and Working Environment

The University supports the practice of job re-design, workplace modifications and alternative teaching and assessment practices to enable a staff member or a student with a disability to fulfil the requirements of a particular position or academic course.

Creation of Employment/Study Opportunities

The University aims to provide equal employment and educational opportunities and to implement affirmative action programs for equity groups (see MOPP section A/8.4). The University develops strategies to take full advantage of funding initiatives by Government agencies aimed at providing employment opportunities for people with disabilities, including its own graduates.

The Physical Environment

The built environment should be accessible to people with disabilities. All new buildings are designed in accordance with the appropriate standards and codes. The University endeavours to improve access to older buildings which do not meet these standards.

Promotion of Disability Awareness

All staff and students will be given the opportunity to acquire the understanding and skills necessary to meet the employment, educational and social support needs of people with disabilities.

Non-Discriminatory Presentation and Practice

In accordance with QUT's policy and guidelines on inclusive language and presentation (see MOPP section A/8.7), the University will endeavour to ensure that all essential educational, administrative and promotional material is available in alternative formats for access by people with disabilities.

Community Service and Outreach

The University has a responsibility to make its human and physical resources available in a manner which is responsive to the needs and aspirations of people with disabilities, unless to do so would cause unjustifiable hardship for the University.

Quality Assurance Measures

The University is committed to the continued review of policy and procedures, and to the involvement of people with disabilities in matters that affect them. The University will actively seek to involve consumers in decision making, and develop quality assurance mechanisms to support this policy.

Information access and privacy

QUT's functions necessitate the collection and use of personal information about its students, staff and other clients. QUT recognises that, in collecting, storing, and using this information, it has obligations for the protection of personal privacy.

QUT's commitment to protecting privacy is part of a broader framework of privacy compliance requirements applying to Queensland government departments and agencies, including statutory authorities such as QUT. The privacy regime is found in Information Standard No 42 - Information Privacy (IS42) and supporting guidelines. Implementation of this standard by QUT is mandatory, as the standard has been issued under the *Financial Administration and Audit Act 1977*.

General principles and responsibilities for privacy

QUT must comply with 11 information privacy principles, which govern how personal information is collected, stored, used and disclosed. QUT recognises that staff and students, both past and present, and other clients and individuals having links to QUT, have a legitimate expectation that the University will protect and appropriately manage the personal information it collects and holds about them.

It is the responsibility of all staff to respect personal privacy in so far as they collect, access or use personal information in the course of their duties, and to comply with the specific requirements of this policy. Privacy must also be appropriately respected in the human research context, and all researchers must comply with the University's specific policy settings and procedures for research involving personal information.

The functions of many organisational units within the University require the collection or management of personal information, and responsibility for implementing business processes which are consistent with privacy principles rests with the head of each organisational unit. The Registrar, as chief administrative officer, has general responsibility for privacy management, and has designated a Privacy Contact Officer in the University Secretariat to facilitate the implementation of IS42 at QUT.

Definition of personal information

This policy applies to 'personal information'. This is defined as any information or opinion, whether true or not, and whether recorded in a material form or not, about an individual whose identity is apparent, or can reasonably be ascertained, from the information or opinion. For the purposes of this definition, information includes unique identifiers such as student/staff numbers, tax file numbers, photographs and images, and extends to information in any format. Where data is recorded in a way which does not link it to a known individual, then the privacy principles do not apply.

Collection of personal information

In accordance with Information Privacy Principles 1-3, personal information should be collected by the University for inclusion in its records or publications only where:

- it is collected for a lawful purpose relating to a function or activity of the University;
- the information is relevant to the purpose of collection; and
- the information is as up-to-date and complete as can reasonably be expected.

Moreover, the University must not collect personal information by unlawful, unfair or intrusive means, and must take reasonable steps to ensure that an individual from whom information is collected is generally aware of:

- the purpose for which the personal information is being collected;
- the authority for collecting the information; and

- the University's usual practices for disclosure.

These general principles have a number of implications for an organisational unit engaged in activities requiring the collection of personal information:

- the need to regularly review data collection activities to exclude collection of personal information irrelevant to the business process or where there is no specific and immediate use for the information collected (privacy principles are infringed if personal information is collected just because it might be useful in the future);
- the need to develop appropriate privacy notices when collecting information directly from the person concerned, whether the collection occurs orally (in interviews or telephone calls), in writing or via hard copy or electronic forms;
- the need to determine whether recording names or other identifying details is necessary (for instance, whether data can be recorded in a de-identified way when undertaking surveys or other statistical analysis).

Special considerations apply to data collection practices in the context of human research. Staff or students undertaking research where identified or re-identifiable personal information data is involved must comply with the guidelines issued by the University's Human Research Ethics Committee governing appropriate data collection methodologies and practices.

Guidelines have been developed to assist in the preparation of privacy notices [pending].

Access to personal information records

A significant means of protecting personal privacy within the University is by ensuring that individual staff access personal information records (whether in physical files or computerised formats) only where there is a legitimate need to do so, and only to the extent required to perform the staff member's duties. This is consistent with Information Privacy Principle 4.

Management of access is a responsibility of the head of each organisational unit for personal information records held by that unit. The head of the unit is also responsible for granting, for staff within the unit, appropriate permissions for access to QUT's information systems. Access to personal information in information systems should be granted on the 'least privilege principle' in accordance with the Information Systems Security policy (MOPP F/1.2), so that rights to modify personal information are granted with particular care. Systems and processes should be in place to revoke access that is no longer required, for example, in the case of a change in position or formal responsibilities or termination of employment.

For personal data in information systems, the system custodian has formal responsibility for access permissions and management. Access rights should be formally documented and reviewed periodically.

Security of personal information

Consistent with Information Privacy Principle 4, the University has a responsibility to implement procedures to protect the security of personal information, to prevent loss and unauthorised access, use, modification, disclosure or any other misuse of such information.

Computerised records

All staff must take responsibility for IT security, as this is an integral means of protecting personal privacy. Detailed arrangements for management of information security are

found in the Information Systems Security Policy (MOPP F/1.2). Individual user responsibilities relating to security are outlined in QUT's Information Facilities Rules (MOPP Appendix 1(c)).

Security of physical (hard copy) files and records

Personal information records held in physical files must also be secured - care should be taken by all staff handling physical files to ensure that storage facilities such as filing cabinets, safes and compactuses are locked when not in use and that offices and work areas where these are housed are also adequately secured.

In addition, good records management practices for physical files, for instance, recording file movements, undertaking file audits, placing appropriate security classifications on files, and managing records retention, are designed to safeguard against loss or unauthorised access. Care must be taken to ensure secure and confidential destruction of records containing personal information (which may only be undertaken in accordance with the University's disposal schedule). Refer to QUT's records management policies (MOPP F/8.1 and F/8.2).

Use of personal information records

Use of personal information by the University is governed by several principles:

- the requirement to take reasonable steps to ensure that information is accurate, up-to-date and complete before it is used, since it is important that decisions or actions by the University are based on accurate and complete facts (Information Privacy Principle 8);
- the requirement to use information only in circumstances where it is relevant, and provided that it is used only for the purpose for which it has been collected or a directly related purpose (Information Privacy Principles 9 and 10).

However, there are several recognised but limited exceptions to the restrictions on use of personal information (which mirror the exceptions relating to non-disclosure of personal information described below, and include consent, legal compulsion, law enforcement enquiries, threats to life or safety). Protocols for managing these limited situations are under development [pending].

Prohibition on disclosure of personal information

Disclosure refers to release of personal information out of the effective control of the University (that is, to a body, agency or person separate from the University). Information Privacy Principle 11 prohibits the disclosure of personal information held by the University. Staff must not disclose personal information outside the University except as specified in this policy and in accordance with supporting guidelines and protocols.

Exceptions relating to disclosure of personal information

The general principle is that personal information must not be disclosed outside the University. There are, however, several limited exceptions to this principle.

Consent

Personal information may be disclosed where the individual concerned has consented to that disclosure. A common example is the consent given by staff or students for the release of their photographs via QUT Virtual. Consent must be expressly given and it is expected that the consent will be given in writing. In limited circumstances, verbal consent may be acceptable if it is verifiable and the disclosure is

clearly in the best interests of the individual. Staff proposing to release information without a written consent must discuss the circumstances with the Privacy Contact Officer before disclosure occurs (or the Registrar's Executive Officer if the Privacy Contact Officer is unavailable).

Implied consent must not generally be relied upon as a basis for disclosure. Where a person seeks personal information as a representative or agent of another, then documentation confirming the scope of the agent's authority should be obtained before release of any personal information held by the University.

Previous provision of a privacy notice

In addition, personal information may be disclosed where individuals have been informed of the usual practices for disclosure. For instance, the University may routinely disclose information to the Student Guild about students who are members, as this practice has been incorporated into a student privacy notice.

Other situations

In rare circumstances, disclosure of personal information may also be permitted where:

- disclosure is necessary to prevent or lessen an imminent and serious threat to a person's life or health;
- disclosure is required by law (for example, if the University's records are subpoenaed, or if there are statutory requirements to provide information to a government department such as the Australian Taxation Office, Centrelink, or DEST);
- disclosure is necessary for enforcement of criminal or other laws imposing penalties such as fines.

With the exception of routine disclosures under statutory authority (eg to ATO, Centrelink or DEST), disclosure of personal information in these three situations should be discussed with the Privacy Contact Officer (or the Registrar's Executive Officer if the Privacy Contact Officer is unavailable), pending development of protocols for assisting staff in managing these situations.

Register of graduates

Privacy principles do not apply to material which is maintained on a public register. Given that one of QUT's primary functions is to confer higher education degrees and awards, QUT maintains a register of its graduates (via the student information system). Information concerning a person's status as a graduate of the University is available to any member of the public upon formal request in writing. The request must be made to the Student Business Services Department, who will confirm a graduate's name, the degree conferred and the date of conferral only.

No other personal information is regarded as being on a public register.

Access to and amendment of an individual's own record

Information Privacy Principles 6 and 7 generally entitle an individual to have access to the personal information which the University holds about them, and to amend it where it is inaccurate, incomplete, out-of-date or misleading. Information Standard 42 recognises that, in Queensland, these rights are dealt with in the Freedom of Information Act 1992.

However, QUT is committed to providing, as far as practicable, an open environment which enables members of the QUT community to obtain access to their personal information without recourse to formal procedures contained in the

FOI Act (see FOI policy - MOPP F/10.1). To achieve this, QUT has in place administrative procedures for information access by staff and students.

QUT Privacy Plan

As required by Information Standard 42, QUT publishes a privacy plan which is updated regularly. The objective of the plan is to describe the nature of the personal information records held by QUT, conditions within the University for access and use and how long such records are retained. The plan includes a complaint mechanism. The Privacy Contact Officer is responsible for publishing the plan.

Contracts involving personal information

The University has a small number of contractual and other arrangements in place which may involve access to or use of personal information held by QUT. Typically these arrangements may outsource routine support functions, though some contractual arrangements may also relate to commercial research and consultancies.

Any contracts which are entered into by the University must place appropriate safeguards on protection of personal privacy. It is the responsibility of senior officers who are involved in negotiating these agreements on the University's behalf or who have delegated authority to enter contracts and commercial arrangements, to ensure that privacy is adequately addressed and incorporated into the formal terms of the contract where necessary. Contractual arrangements must ensure compliance with the requirements of IS42.

Queries concerning appropriate contractual provisions covering QUT's privacy obligations may be directed to the Privacy Contact Officer or the Office of Commercial Services.

Equal opportunity policy

QUT Council is committed to a policy of equal opportunity and freedom from all forms of discrimination as determined by legislation or by Council. The policy is issued on the basis that it is fair and just and contributes to the fulfilment of QUT's mission and goals.

In fulfilling this policy, the University aims to

- promote the development of a University culture supportive of equity principles
- ensure all of its management and educational policies and practices reflect and respect the social and cultural diversity contained within the University and the community it serves
- ensure that the appointment and advancement of staff and admission and progression of students within QUT are determined on the basis of merit
- provide equal employment and educational opportunities within QUT and identify and remove barriers to participation and progression in employment and education, and implement an affirmative action program for equity groups
- eliminate unlawful discrimination against staff and students on the grounds of sex, marital status, pregnancy, breastfeeding, race, age, parenthood, physical, intellectual and mental impairment, religious belief, lawful sexual activity, trade union activity, criminal record, social origin, medical record, nationality, political belief or activity
- comply with state and federal legislation on discrimination, equal opportunity and affirmative action and binding international human rights instruments.

The Vice-Chancellor, through the Registrar and the management of the University, is responsible for implementation of this policy. The Registrar is assisted by the Equity Coordinator.

QUT expects all staff, students and members of the University community to act in accordance with this policy.

OVERVIEW

The Faculty of Built Environment and Engineering is one of QUT's largest faculties, enrolling approximately 5000 students in a broad range of undergraduate and postgraduate courses. The Faculty's teaching initiatives and courses are designed and maintained through strong linkages with industry and the professions in order to prepare graduates who are open to change and equipped with the capacity and ability for lifelong learning.

To facilitate this aim, the Faculty promotes problem-based learning and teaching and leadership in applied research that directly benefits industry, the professions, and the community. Our academic staff combine their experience in professional practice with their qualifications in advanced postgraduate research.

The Faculty has undergone an exciting period of change to further enhance the unique opportunity for cross disciplinary teaching, research and applications. The three new Schools of the Faculty offer a variety of courses in Design, Urban Development and Engineering Systems that will further enhance students' career prospects and include the opportunity to gain practical experience.

The School of Design offers undergraduate and postgraduate courses across a number of the Design disciplines: Architecture, Industrial Design, Interior Design, Landscape Architecture, and Urban Design. This unique combination of disciplines offers students and staff an outstanding opportunity for collaborative and inter-disciplinary programs. The School is building an international reputation for innovative interdisciplinary design and research. Courses are designed around a project-oriented studio-centred learning environment. Projects are based in the real world, and through our part-time staff and collaborative projects, we maintain a strong link with practice, the community, government and industry. The School has a vigorous program to attract international and national practitioners and academics, to run studios and lecture programs.

The School of Urban Development offers professional undergraduate and postgraduate programs in Civil and Environmental Engineering, Construction Management, Property Economics, Quantity Surveying, Surveying, and Urban and Regional Planning. We strive to make the learning process productive and imaginative and to equip our graduates with the skills needed for the challenges of modern society. The School maintains a consistently high standard of teaching, fosters industry involvement, and stays at the forefront of the professions through an active research program.

The School of Engineering Systems offers a range of innovative programs that are tailored in response to the challenging demands of industry and the professions. The School offers courses in Mechanical, Medical, Infomechanics, Aerospace Avionics, Computer, Telecommunications, Electrical and Computer and Software Engineering. The School's courses offer a balance of theory and 'hands on experience' which ensures graduates are immediately employable in a very diverse range of organisations and industries.

The School also offers three undergraduate double degrees in Electrical and Computer Engineering/Mathematics; Electrical and Computer Engineering/ Business; and Electronic Engineering/Information Technology.

Research Themes

- Design

- Medical Engineering
- Smart Systems
- Infrastructure

Cooperative Research Centres

- Advanced Automotive Technology
- Australian Centre for Tropical Crops and Biocommodities
- Australian Housing and Urban Research Institute (AHURI)
- Centre for Subtropical Design
- CRC Automotive
- Construction Innovation
- Institute of Sustainable Resources
- Integrated Engineering Asset Management
- Railway Engineering and Technologies
- Queensland Sustainable Energy Industry Development Group

SENIOR STAFF

Faculty Office

Executive Dean: Professor M. Betts, BSc (Hons) *Reading*, PhD CNA, FCI, FRICS, FIEAust, FRSA

Assistant Dean, Teaching and Learning: Associate Professor S. Savage, BArch (Hons) MArch *Qld*, DipAdultVocEd *Griff*

Assistant Dean, Research: Professor Bell, J. M., BSc *Syd*, PhD *NSW*

Assistant Dean, External Relations: L. Shutter, BArch *Adel* MSc (Arch) *Columbia*, RAIA

School of Design

Acting Head: Associate Professor J. M. Franz, BAppSc (BitEnv) *QIT*, DipTeach *TAFE*, MEdSt *Qld*, PhD *QUT*, MDIA (Accredited Designer), RegTeach (Qld)

Professors:

Dr S. Lehmann, DiplDes *Mainz*, PhD *Berlin*, Architekt BDA

C.C. Tan, BSc (Hons) PhD *Lond*, CEng, MIMechE, FIEAust, MIEM
R.A. Walker, BE (Electronics)(Hons), BAppSc (Comp), PhD *QUT*, MIEEE, MESA, MION
Y. Xiao, BSc, MDSc *Hubei Med*, PhD *Qld*

RESEARCH THEMES

Design

The design theme includes research in Architecture, Industrial Design, Interior Design, Landscape Architecture and Urban Design. It focuses on Subtropical Design, Digital Design, Human-centred Design Research and Useability, Built Environment Design Areas, Cultural Landscape, Design for Ageing, Design and Research Methodologies, and Design Education. The theme is cross/inter-disciplinary related with relevant fields in the Faculty (eg mechanical/manufacturing/ medical engineering; transport engineering; structures and designs; electronic systems and informatics environment) and across the University community (eg Institute for Health and Biomedical Innovation (IHBI), Institute for Creative Innovation (iCi), Information Security Institute (ISI), Institute for Sustainable Resources and relevant Collaborative Research Centres (CRC).

Medical Engineering

This program aims to engender sustainable improvements in quality of life for everybody through the innovative application of new and emerging technologies which will not only help reduce the economic burden of healthcare provision, but also generate wealth for the nation through the stimula-

tion of local industry. Under two broad headings, the program encompasses the following research areas:

Orthopaedic and Trauma

The Orthopaedic and Trauma group has seven principal areas of focus: bone defects, fracture healing, pathogenesis and repair of osteoarthritis, biomaterials, new approaches to minimally invasive surgery, paediatric and adult spine research, and clinical outcomes.

Biomechanics, Modelling and Simulation

Apart from orthopaedic research, the Medical Engineering program also encompasses many other areas studying the application of mechanical and electrical engineering to clinically related healthcare problems. These include amputee gait analysis; paediatric gait analysis; performance of paralympic athletes; osseointegrated implants; spinal and pelvic mechanics; paediatric spine deformity; artificial organs, specifically ventricular assist devices (artificial heart) and artificial lungs; tissue mechanics; bioelectrical signal analysis; tribology of artificial joints; and the interface between devices and the human body.

Smart Systems

Infrastructure and Asset Management

Infrastructure research, in collaboration with industry, government and professions, aims to strengthen the nation's building and infrastructure systems. Research concentrates on investigating the performance of existing and new building and infrastructure systems under realistic structural and environmental loadings including those due to natural, accidental and man-made hazards. It uses smart materials, systems and technologies, and advanced computer analysis and test methods to assess and improve the performance of existing and new building and infrastructure systems.

Asset Management research focuses on innovative industry-directed research and development, education and commercialisation in an integrated approach to lifecycle physical asset management to meet present and future needs to ensure international competitiveness and sustainability of Australian industry. The overall research program will be focused on five main industry sectors: Defence, Water and Waste, Power Generation and Distribution, Extraction and Process, and Transport Infrastructure.

This research is closely aligned to the CRC for Construction Innovation and the CRC for Integrated Engineering Asset Management.

Robotics and Automation

The Robotics and Automation program is focused on world-class research on robotics and navigation systems for unmanned aerial vehicles, and involves collaboration with CSIRO and Boeing. However similar automation strategies and technologies are used in a variety of control applications such as energy network control, and infomechatronic systems, and satellites.

Speech and Signal Processing

This program conducts internationally competitive research in order to solve practical problems, which enable Speech and Signal Processing to be applied in products and processes. Research focuses on, state-of-the-art speech audio and video technologies including speech/speaker recognition and personal identification technologies for forensic and security applications; speech coding for storage and communication; speech synthesis for voice response systems; audio compression for broadcasting, television and

Internet applications, video compression, and image recognition and restoration.

Infrastructure

Energy

The provision of sustainable energy supplies is of critical importance to the future of Australia, and this research involves experimental and theoretical research on solar cells, wind energy and solar thermal energy generation as well as fundamental research on energy supply networks, including distributed generation technology and energy policy. This research is conducted in collaboration with energy utilities and the Queensland Sustainable Energy Industry Development Group.

Water

The supply of fresh water and the quality of water supply are key issues facing Australia over the next 20 years, and this research looks at water re-use technology and policy. The research is practically focused with significant collaboration with local government in South-East Queensland.

Transport

The aim of this program is to focus research effort in the freight and logistics area with an emphasis on multi-modal transportation systems. The main research areas include freight vehicle impacts, freight and logistics e-business systems, freight corridor evaluation analysis, ITS applications in freight and logistics, emissions modelling, transit evaluation methodologies, rail track modelling and analysis, and intermodal terminal planning and operations.

Housing and Construction

This research makes contributions to improved practice in the specific areas of housing, urban planning, international project management, construction and property performance, construction information and procurement technologies, and property market choice, investments, constraints opportunities, internationalisation, taxation, lifecycles, risk and culture.

Cooperative Research Centres (CRC)

The faculty is also involved in the following Cooperative Research Centres (CRC) and externally-funded collaborative research ventures:

CRC for Construction Innovation

The Centre aims to create and commercially exploit tools, technologies and management systems to deliver innovative constructed assets of financial, environmental and social benefit to the community. The centre combines basic research with strategic research and development in five related programs: virtual environments for lifecycle design and construction; construction project delivery strategies; environmental sustainability; integrated design and construction support systems; and management, adaptability and the future of built assets.

CRC for Integrated Engineering Asset Management

The CRC for Integrated Engineering Asset Management (CIEAM) delivers capabilities and technologies for integrated and sustainable asset management to a wide range of Australian industries in both the private and the public sectors. CIEAM consists of leading edge researchers and practitioners focused on industry directed R&D and education in the management of Australia's major engineering assets in the Defence, Utilities (power, water and gas), Process and extraction, and Transportation industries. CIEAM involves five research program areas. These are Models and decision systems, Advanced sensors, Intelli-

gent diagnostics and life prediction, Systems integration and IT, and Strategic human dimensions.

CRC for Railway Engineering and Technologies

The Centre aims through research to develop an internationally competitive, efficient and sustainable rail industry and to facilitate the development of an Australian export industry in railway technologies. Benefits will flow in terms of improved rail efficiency and infrastructure capacity, energy savings, reduced maintenance cost, and better asset utilisation. The main research areas include 'Smart train' intelligent systems; innovative/automated maintenance and upgrading technologies; optimal traffic control and scheduling; IT systems and standards for rail management; new materials, systems and components for railways; and industry skills development (education and training).

CRC for Advanced Automotive Technology

The CRC for Advanced Automotive Technology brings the automotive industry together with researchers in design, engineering and manufacturing to enhance the industry's international competitiveness. The aim of the research is to reduce the concept-to-product cycle times; improve manufacturing flexibility and efficiency; and the development of new material systems to meet the challenges of weight reduction, increased safety and greater functionality. The CRC will also improve vehicle safety through improvements in the crash worthiness of vehicles and new intelligent products/systems that provide increased comfort, performance and entertainment.

Australian Housing and Urban Institute (AHURI)

The Institute is a consortium of CSIRO Division of Building, Construction and Engineering; Queensland University of Technology; University of Queensland; Monash University; and Royal Melbourne Institute of Technology (RMIT). Its broad objective is to conduct research into issues in housing and urban fields in Australia and the Asia-Pacific region.

Centre for Subtropical Design

The Centre for Subtropical Design is one of the Faculty's first funded units in one of our major targeted areas: sustainable development. This Centre will promote high quality planning, design and development that responds to the City of Brisbane and South-East Queensland region's cultural, landscape, and climatic characteristics in ways that are sustainable and enhance the enjoyment of the region's subtropical lifestyle.

Queensland Sustainable Energy Industry Development Group

This group, formed in 2004 by QUT, the University of Queensland, Central Queensland University, Stanwell Corporation, CS Energy, and the Queensland Conservation Council, is continuing the work of the Australian CRC for Renewable Energy in areas of energy policy, training for the sustainable energy industry (supply and use), and renewable energy technology.

Australian Centre for Sugar Research Innovation

This Centre is the research division of the former Sugar Research Institute which transferred to QUT in July 2005. This Centre conducts research into the post-harvest processing and economics of sugar cane, and has a particular expertise in milling technology (mechanical engineering and computational fluid dynamics modelling), separation science, and total biomass utilisation, in particular the transformation of sugar cane waste into biofuels (ethanol) and biopolymers to provide renewable fuels and industrial chemicals.

□ **Notes for BEE postgraduate courses**

Course progression

It is important that students follow as normal a progression through their courses as possible. Units should be taken in an orderly sequence as set out in published course structures. Units failed should be picked up in the next semester they are offered. Prerequisite units must normally be passed before a student may proceed to a further unit which has the prerequisite so specified. The course coordinator should be consulted regarding variations from the course structure. This is considered to be a major concession. Students who have failed units or have doubts about having the necessary background to proceed should seek the advice of the course coordinator.

Supplementary assessment

Students may be granted up to two supplementary assessments in the final 96 credit points of study, for coursework programs of three or more year's full-time duration or equivalent; and one supplementary assessment in the final 48 credit points for coursework programs of less than three years full-time duration or equivalent

Eligibility for supplementary assessment will be determined by the Dean and will normally only be considered when a student receives a grade of 2 in a unit where a 3 is required for course completion or a grade of 3 in a unit where a 4 is required for course completion. The only grade that will be recorded following supplementary assessment is S3 (pass supplementary) and S2 (fail supplementary).

Awards with distinction

Awards 'with distinction' may be awarded to graduands of graduate diploma courses undertaken in the Faculty of Built Environment and Engineering. Candidates for a graduate diploma 'with distinction' must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty Academic Board and approved by the University Academic Board.

Eligibility for 'With Distinction'

Eligibility for awards 'with distinction' is not affected by the time taken to complete a course. However, to be eligible for such an award, a graduand must have completed the course within the maximum number of calendar years specified in the policy on time limits for completion of courses (see student rules).

Personal Protection Equipment (PPE) Policy

Protective equipment refers to safety glasses/goggles, hearing protection, safety boots, gloves and similar items. While all care is taken to reduce the risks to which students are exposed, protective equipment will be required to be worn in some practical sessions and field excursions. Students are required to wear PPE where and when it has been made clear that it is needed. Students are required to provide certain PPE as indicated by each school within the Faculty.

Students enrolled in units specified by the faculty of Built Environment and Engineering will be required to wear safety shoes for most laboratory practicals and/or field trips. Students not wearing appropriate safety shoes on these occasions will be barred from (i) participating in activities in these units, and (ii) submitting any assessment associated with these activities. Students must provide their own safety shoes, safety glasses/goggles and hearing protection equipment.

■ **Master of Applied Science (Research) BN71**

Award title: Master of Applied Science (Research)

CRICOS code: 003462A

Campus: Gardens Point

Duration: 1 year (minimum), 2 years (maximum) full-time or 2 years (minimum), 4 years (maximum) part-time

1 - General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act 1988.

1.2 The Council's power to approve recommendations from Faculty Academic Boards regarding the registration, supervision and examination of research degree candidates and to develop policy and procedures relating to research degrees is exercised through a University Research Committee which is a subcommittee of University Academic Board.

1.3 University Research Committee has delegated responsibility for day-to-day administration of research masters degree courses to faculty academic boards. Academic boards shall report biannually to University Research Committee on progress made by Research Masters degree candidates.

1.4 This program is administered by the Academic Board of the Faculty of Built Environment and Engineering through its Faculty Research Committee. The program is offered in Architecture, Civil Engineering, Construction Management, Electrical and Electronic Systems Engineering, Industrial Design, Interior Design, Landscape Architecture, Mechanical, Manufacturing Engineering and Medical Engineering, Property Economics, Planning and Surveying.

1.5 In order to qualify for the award of the degree of Master of Applied Science (Research) or Master of Engineering a candidate must:

- have completed the approved program involving advanced work under the supervision of a Thesis Panel prescribed by the Faculty Research Committee of the Built Environment and Engineering Academic Board
- have submitted, and the Faculty Research Committee accepted a thesis, together with reports and/or documents where applicable, prepared under the supervision of the Thesis Panel
- have completed such other work as may be prescribed by the Faculty Research Committee, and
- submit to the Faculty Research Committee a declaration signed by the candidate that they have not been a candidate for another tertiary award without permission of the Faculty Research Committee.

2 - Registration

2.1 Applications shall be accepted subject to the availability of facilities and supervision.

2.2 Applications may be lodged with the Registrar at any time.

2.3 There is a six-month maximum period for domestic students and nine months for international students, between acceptance by the Faculty Research Committee and enrolment by the candidate in the Master of Applied Science (Research) or Master of Engineering before the offer of admission to the program lapses. Candidates are required to complete an enrolment form each semester.

A Note Regarding Enrolment

The Faculty and Student Services are to be advised of any changes to name, address or other personal details. Application to vary any aspect of the candidacy must be made in writing directly to the Faculty Research Committee for Built

Environment and Engineering and be endorsed by the principal supervisor.

2.4 The minimum academic qualifications for admission to the Master of Applied Science (Research) or Master of Engineering are:

- a four-year degree in an appropriate discipline in which the candidate has received at least second class Honours from the Queensland University of Technology, or
- a qualification judged equivalent by the Faculty Research Committee, or
- a grade point average of 5.0 or better in a graduate diploma program, in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing, or
- a grade point average of 5.0 or better in a coursework masters degree program in a relevant discipline, together with demonstrated potential for further study and/or evidence of professional standing.

An applicant for the Master of Applied Science (Research) or Master of Engineering program without the minimum entry requirement may present a case for admission based on the submission of evidence of qualifications which demonstrate the applicant's capacity to pursue the course of study.

The case may be based on the following:

(a) three years professional experience in the general field in which the proposed work lies, or

(b) satisfactory completion of an appropriate Masters qualifying program including formal coursework and/or reading program in related fields stipulated by the Faculty Research Committee, or

(c) the submission of technical publications or other appropriate evidence which satisfies the Faculty Research Committee that advanced knowledge has been acquired in a branch of applied science relevant to the built environment or a division of engineering in which the applicant has worked as a professional practitioner in a position of responsibility. This knowledge should be relevant to the field of study proposed.

2.5 A candidate will be eligible to be registered as a graduate student if they are considered by Faculty Research Committee to meet the requirements for entry.

2.6 A candidate shall receive confirmed registration as a graduate student when they:

- have satisfied the requirements for admission and achieved by work and study a standard recognised by Faculty Research Committee, or
- have satisfied Faculty Research Committee that they are a suitable person to undertake the program, and
- have satisfied Faculty Research Committee that they can devote sufficient time to the research and study.

2.7 In considering an applicant for registration, the Faculty Research Committee shall, in addition to assessing the applicants suitability, be satisfied that:

- the proposed program is relevant to the aims and objectives of the University
- the proposed program has relevance to the needs of society or industry, and
- adequate resources are available to support the proposed program.

2.8 An application for registration should set out systematically and fully the candidates intended course of study including the following:

- a description of the area of study within which the candidate's course lies
- a summary of the work to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program, its background, the significance and possible

application of the research program, and the research plan

- the location at which the work will be undertaken, the amount of time which will be devoted to it and the resources required
- details of academic qualifications and supporting evidence, including copies of results for each year of courses undertaken
- a brief account of industrial experience
- a list of publications
- sponsorship details
- statement of approval by Head of School and/or Postgraduate Research Coordinator, and
- any other relevant material.

2.9 The program is offered on a full-time or a part-time basis and may be undertaken externally. Part-time students normally will be employed in some professional capacity during the day and carry out their research projects on a part-time basis at QUT, in their place of employment or in a sponsoring organisation.

2.10 Full-time students may be on a scholarship from industry or QUT, and may carry out their research at QUT or in a sponsoring organisation. Normally full-time students would be expected to work on their research projects at QUT for not less than three-quarters of a normal working week, averaged over each year of candidacy. Such a candidate may not devote more than 300 hours annually to teaching activities, including preparation and marking.

2.11 A candidate may be based at QUT or at a place of employment or sponsoring institution. Normally, support of the sponsoring institution for the candidate's application is required for registration. A candidate may also be external where their residence is outside of Brisbane.

2.12 The Faculty Research Committee may cancel a candidate's registration if, after consulting a candidate's supervisor and having taken account of all relevant circumstances, the committee is of the opinion that the candidate either has effectively discontinued their studies or has no reasonable expectation of completing the course of study within the maximum time allowed (see Section 4).

2.13 A candidate whose registration has lapsed or has been cancelled, and who wishes subsequently to re-enter the course of study to pursue a research program which is substantially the same as the previous investigation may be re-admitted under such conditions as the Faculty Research Committee shall prescribe.

3 - Course of Study

3.1 A candidate for the degree of Master of Applied Science (Research) or Master of Engineering will undertake a program of research and investigation on a topic approved by the Faculty Research Committee.

3.2 All projects should be supported by outside agencies such as industry, government authorities and professional organisations, or by QUT itself. This provision is to ensure that programs are relevant to the aims of the University and the community. It is important that projects be primarily directed towards society or industry need.

3.3 The program must be such as to enable the candidate to develop and demonstrate a level of scientific competence significantly higher than that expected of a first degree graduate. The required competence normally would include mastery of relevant techniques, investigatory skills, critical thinking, and a high level of knowledge in the specialist area.

3.4 Where advised, a candidate may be required to complete satisfactorily a program of formal coursework in subjects relevant to the field of study up to a total class contact of 32 credit points.

3.5 The course of study normally will include:

- participation in University scholarly activities such as research seminars, teaching and publication
- regular face-to-face interactions with supervisors, and
- a program of supervised research, design, investigation, development, construction, or any combination thereof.

The course of study may also include a program of assessed coursework.

3.6 Coursework at masters level demands a capacity for critical analysis and a specialisation of research interests not normally appropriate for an undergraduate program. Such coursework may be conducted in a number of ways:

- as advanced lecture courses
- as seminars in which faculty and candidates present critical studies of selected problems within the subject field
- as independent study or reading courses, or
- as research projects conducted under faculty supervision.

Candidates will be encouraged to attend conferences where these are related to the field of the research.

In all cases, coursework will be based upon a formal syllabus setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course.

3.7 Maximum and Minimum Coursework Requirements:

Thesis - 96 credit points minimum (at least two-thirds of the degree content)

- Maximum coursework requirement - 32 credit points
- Minimum coursework requirement - 4 credit points - IFN001 Advanced Information Retrieval Skills
- Maximum of 16 credit points per semester for each semester of the program
- Additional Requirements:
 - Attendance and participation in School of Research Centre seminars/workshops (compulsory).
 - Students must contact the Postgraduate Research Coordinator in their School to finalise any other coursework component of their program.

4 - Period of Time for Completion of Course of Study

4.1 The duration of study will normally be a minimum of one year and a maximum of two years or the part-time equivalent.

4.2 In order to encourage completion of research degrees within a reasonable timeframe, QUT has set a limit of two years on the length of time for which it will fund a faculty for full-time research masters degree candidates.

4.3 A registered full-time graduate student shall present the thesis for examination after a period of at least one year but not more than two years has elapsed from the time of confirmed registration. A registered part-time graduate student shall present the thesis for examination after a period of at least two years. The maximum time is four years from the time of confirmed registration. In special cases the Faculty Research Committee may approve a shorter period.

4.4 Time limits are measured in years from the time of first registration as a graduate student. Periods of exclusion or absence without approval are included.

4.5 Candidates who exceed these limits may be asked to show cause why they should not have their registration in the program terminated. Such candidates must make formal application to the Faculty Research Committee to have their registration extended beyond the normal time. Details

of the candidate's progress shall be presented to the committee together with the reasons for the delay in completing the course and the expected date of completion. Where the committee agrees to an extension, a time limit will be set for the maximum period of registration in the program.

4.6 Candidates are notified of termination by registered mail. They have right of appeal to the Academic Appeals Committee.

5 - Supervision

5.1 The Faculty Research Committee shall appoint at least one supervisor the principal supervisor and also at least one associate supervisor. Each member of the supervisory panel shall bring appropriate experience in the research area of the student.

5.2 The Principal Supervisor shall normally be from the academic staff of the QUT school in which the candidate is enrolled.

5.3 The Supervisory Panel shall supervise all aspects of the candidate's work program, shall receive reports from the candidate on progress and shall recommend to the Faculty Research Committee both on successful and unsuccessful completion of components of the coursework incorporated in the candidate's program, on progress on the thesis research project and on continued enrolment.

5.4 The Supervisory Panel shall receive a formal oral and written report from the candidate at least once every semester on progress on the research project.

5.5 Summary of Faculty Supervisory registration process: To ensure that students receive appropriate supervision from experienced supervisors and active researchers the Faculty has introduced a Supervisors Register which requires registered supervisors to demonstrate performance in three areas.

1. Practice - previous supervisory experience of at least five years.
2. Research - evidence of active research through grants and publications
3. Continuous development

6 - Place and Conditions of Work

6.1 The research program will normally be carried out under supervision in a suitable environment within Brisbane. However, external study is possible. External candidates will be required to spend a minimum of four weeks at QUT annually.

6.2 The Faculty Research Committee shall not admit a candidate to a program of research based at the University unless it has received:

- a supporting statement from the Head of the QUT School and/or Postgraduate Research Coordinator in the School in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the masters degree, that the program is supported, that the school is willing to undertake the responsibility of supervising the work of the applicant and that resources are available to support the proposed research.

6.3 The Faculty Research Committee shall not admit a candidate to a program of research based at a sponsoring establishment unless it has received:

- a supporting statement from the employer or director of the sponsoring institution that they are aware of the course rules and are prepared to sponsor and support the applicant, that the applicant will be provided with facilities and time to undertake the research project and that they are willing to accept responsibility for supervising the applicant's work, and

- a supporting statement from the head of the QUT school or Postgraduate Research coordinator in which the study is proposed indicating that, in their opinion, the applicant is a suitable person to undertake a research program leading to the Masters degree, that the program is supported, and that after examination of the proposed external facilities and supervision, the school is willing to accept the responsibility of supervising the work.

7 - Thesis

7.1 In the form of presentation, availability and copyright, the thesis shall comply with all the requirements of the document Requirements for Presenting Theses (Appendix 51 in the Manual of Policies and Procedures).

7.2 A candidate shall submit the title of their thesis for approval by the Faculty Research Committee with their application, and after approval has been granted, no change will be made except with the permission of the committee.

7.3 The candidate shall give two months' written notice of intention to submit their thesis through the Principal Supervisor.

7.4 The thesis shall comply with the following requirements:

- a significant proportion of the work described (as determined by the Faculty Research Committee) must have been carried out subsequent to initial registration for the Masters degree.
- it must describe a program of work carried out by the candidate and must involve either an advanced contribution to the knowledge of the subject or an advanced application of existing knowledge.
- it must reach a satisfactory standard of literary presentation.
- it shall be the candidate's own account of the work. Where work is carried out conjointly with other persons, the Faculty Research Committee shall be advised of the extent of the candidate's contribution to the joint work.
- the thesis shall not contain as its main content any work or material which the candidate has previously submitted for another degree or similar award.
- the thesis may consist primarily of reports, plans and/or documents or may be supported by these if they have a bearing on the subject of the thesis. Other supporting documents such as published papers may also be submitted with the thesis.
- the thesis shall contain an abstract of not more than 300 words.

7.5 Except with the specific permission of the Faculty Research Committee, the thesis must be presented in the English language. Such permission must be sought at the time of application for registration, and will not be granted solely on the grounds that the candidate's ability to satisfy the examiners will be affected adversely by the requirement to present the thesis in English.

7.6 Subject to QUT's Intellectual Property policy, the copyright of the thesis is vested in the candidate.

7.7 Where a candidate, supervisor or the sponsoring establishment wishes the thesis to remain confidential for a period of time after completion of the work, application for approval must be made to the Faculty Research Committee when the thesis is submitted. The period normally shall not exceed two years from the date on which the examiners recommend acceptance of the thesis, during which time the thesis will be held on restricted access in the QUT Library.

7.8 Except where confidentiality of the thesis is necessary, students shall submit their thesis electronically after completion of the examination process and any corrections required to the QUT Library for inclusion in the Australian Digital Thesis Project.

8 - Examination of Thesis

8.1 The Faculty Research Committee shall appoint three examiners, at least one of whom shall be from outside of the University. No supervisor of the candidate shall be appointed as one of the examiners.

8.2 Normally, examiners must agree to read and report upon the thesis within two months of its receipt.

8.3 A candidate may be required to make an oral defence of the thesis.

8.4 On receipt of the reports from the examiners, the Faculty Research Committee shall:

- (a) recommend that the thesis be accepted without modification, and to Academic Board that the candidate be awarded the degree, or
- (b) recommend to Academic Board that the candidate be awarded the degree, after any minor amendments requested by the examiners have been made, or
- (c) recommend that the thesis not be accepted until major revisions have been made. Such revisions might be rewriting one of the sections, with or without additional work, or
- (d) not accept the thesis and terminate the candidate's registration.

8.5 If the examiners' reports are conflicting, the Faculty Research Committee may, after appropriate consultation with the Thesis Panel, resubmit the thesis to the examiners with copies of the examiners' reports and/or seek the advice of a further external examiner. After due consideration of further reports from the examiners, a majority decision will be accepted by the Faculty Research Committee.

■ Master of Built Environment (Urban Design) DB73

Award title: Master of Built Environment

CRICOS code: 003475G

Campus: Gardens Point

Duration: 3 semesters including Summer semester full-time or 5 semesters part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Danny O'Hare

Focus in the Masters Program

The masters program includes skills and knowledge development through set coursework in common with the Graduate Diploma in Urban Design, but also requires individual research and the writing of a dissertation. An Urban Design Master Studio is conducted over the Summer semester.

Master of Built Environment (Urban Design)

The normal progression will extend the graduate diploma program by a flexibly delivered summer semester (see Course Structure) for part-time and full-time students. Articulation from the graduate diploma to the masters level program will be available after one semester full-time or two semesters part-time provided that applicants have completed the preceding course work with a grade point average of 5.0 or better.

Course structure

Summer Semester - Introductory Unit

DBP403 Design Communication

Year 1, Semester 1 Full-Time Structure

ARB081 History, Theory and Criticism of Urban Design

ARB082 Urban Design Studio B

■ **Master of Engineering BN72**

Award title: Master of Engineering

CRICOS code: 003465J

Campus: Gardens Point

Duration: 1 year (minimum), 2 years (maximum) full-time or 2 years (minimum), 4 years (maximum) part-time

■ **Master of Engineering Management ME76**

Award title: Master of Engineering Management

CRICOS code: 006368G

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Dr Gopi Chattopadhyay

Course Structure

Masters students take eight units or 96 credit points. Units MEN172, MEN177, and MEN280 are normally compulsory, but may be substituted with the approval of the courses coordinator if the student has adequate prior knowledge in the relevant field. With approval of the Course Coordinator students can take up to two graduate level electives from other disciplines.

Block Mode#

MEN177 Total Quality Management

MEN171 Advanced Manufacturing Technologies

MEN241 Reliability and Maintenance Management

MEN280 Engineering Project Management

MEN273 Engineering Knowledge Management

MEN172 Cost Analysis and Asset Management

MEN175 Energy and Environmental Management

MEN170 Systems Modelling and Simulation

MEN272 Enterprise Resource Planning

Up to two graduate level units from any School within the University*

Semester 1 or 2

MEN190-1 Project

MEN190-2 Project

Project may be taken over one or two semesters. Students taking Project over one semester must enrol in both components of the unit concurrently. Course coordinator approval is required to take Project.

Block Mode

Block mode classes are held in teaching periods, which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks

of a teaching period. Please check QUT Virtual or contact the School Administration Officer for details of teaching periods for the above block mode units.

Note:

Students complete 8 units. Units MEN172, MEN177 and MEN280 are normally compulsory, but may be substituted with the approval of the course coordinator if the student has adequate prior knowledge in the relevant field.

* Permission of the course coordinator required.

■ **Master of Engineering Science (Civil Engineering) CE74**

Award title: Master of Engineering Science (Civil)

CRICOS code: 020300M

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (part-time standard semester: 24)

Course coordinator: Mr Yin Foong

Course Structure

The course consists of units and a thesis project totalling 96 credit points. 24 credit points allocated to a project and the remainder to the non project units. The majority of the units are common with the Graduate Diploma in Civil Engineering (CE64). Students who do not wish to undertake the Environmental major must complete the generic core units plus any combination of elective units as listed below, to make up the minimum total of 96 credit points. Such programs should be devised in consultation with the course coordinator.

Course structure (full-time)

Environmental Engineering Major

Semester 1

CEP291 Environmental Law and Assessment

CEP997-1 Project B

2 Electives

Semester 2

CEP141 Studies in Environmental Engineering

CEP997-2 Project B

2 Electives

Core Units

Semester 1

CEP201 Process Modelling

CEP997-1 Project B

2 Electives

Semester 2

CEP295 Civil Engineering Management in a Project Environment

CEP997-2 Project B

2 Electives

Electives

Semester 1

CEP142 Water Pollution Control

CEP161 Professional Development Studies 1

CEP201 Process Modelling

CEP218 Transportation Engineering

CEP291 Environmental Law and Assessment

CEP293 Pavement Design

CEP294 Engineering Contract Development and Administration

Semester 2

CEP141 Studies in Environmental Engineering

CEP161 Professional Development Studies 1

CEP262 Professional Development Studies 2

CEP295 Civil Engineering Management in a Project Environment

Note:

Advice must be sought from the Course Coordinator before enrolling in either CEP161 or CEP262.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

With permission of the Course Coordinator students may be permitted to take electives from other engineering areas.

■ **Master of Engineering Science (Computer and Communications Engineering) EE74**

Award title: Master of Engineering Science (Computer Engineering) or Master of Engineering Science (Communication Engineering)

CRICOS code: 040343A

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Dr John Edwards

Masters Upgrade Program

Those who have completed the Graduate Diploma in Computer and Communications Engineering (EE67) may upgrade by undertaking further study in the Master of Engineering Science (Computer & Communications Engineering) and be given credit for the units which they have completed at Graduate Diploma level. The structure of the course dictates that this upgrade program be undertaken on a part-time basis.

Students undertaking the Masters Upgrade Program will enrol in the following units:
 EEP301/1 Project
 EEP301/2 Project.

Course Structure

Masters students select either a total of six units from Semester 1 and Semester 2 lists and complete a 24 credit point project (EEP301, or seven units plus EEP304 Project Component.

Semester 1

- EEP101 Algorithms for Control and Engineering
- EEP102 Unix and C for Engineers
- EEP103 Computer Hardware and Interfacing
- EEP124 Data Communications
- EEP126 Communications Digital Signal Processing
- EEP301-1 Project
- Elective unit 1

Semester 2

- EEP104 Real-Time Operating Systems
- EEP120 Networks and Distributed Computing
- EEP123 Process Control and Robotics
- EEP129 Image Processing and Computer Vision
- EEP135 Digital Signal Processing and Applications
- EEP301-2 Project

or
 EEP304 Project Component
 Elective unit 2

Elective Units

- EEB911 Electrical Energy Systems
- EEB941 Modern Signal Processing
- EEB960 Wireless Communications
- EEB961 RF and Applied Electromagnetics
- EEB976 Advanced Industrial Electronics
- EEB992 VLSI Circuits and Systems
- EEP127 Advanced Topic B

Note:

At the discretion of the course coordinator, students maybe allowed to select an elective from any advanced topics offered by the University.

■ **Master of Engineering Science (Electrical Engineering Studies) EE77**

Award title: Master of Engineering Science (Electrical Engineering Studies)

CRICOS code: 042260K

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96

Course coordinator: Dr John Edwards

Full-time Course Structure

Band 1 Units

Choose 3 units from the following Band 1 units. Most of these units are offered once a year (either in Semester 1 or Semester 2). Students are advised to check the unit availability prior to enrolling.

Semester 1

- CEP291 Environmental Law and Assessment
- CEP201 Process Modelling
- EEP101 Algorithms for Control and Engineering
- EEP102 Unix and C for Engineers
- EEP103 Computer Hardware and Interfacing
- MEN101 Research Methodology
- MEN172 Cost Analysis and Asset Management
- MEN280 Engineering Project Management

Semester 2

- CEP141 Studies in Environmental Engineering
- CEP295 Civil Engineering Management in a Project Environment
- EEP129 Image Processing and Computer Vision
- MEN101 Research Methodology
- MEN170 Systems Modelling and Simulation

Band 2 Units

Choose 3 units from the range of Band 2 units. The following units are offered in EE61/66/76, and may be cancelled due to insufficient enrolment numbers.

Students are advised to check the unit availability prior to enrolling.

Semester 1

- EEP101 Algorithms for Control and Engineering
- EEP102 Unix and C for Engineers
- EEP103 Computer Hardware and Interfacing
- EEP124 Data Communications
- EEP126 Communications Digital Signal Processing
- Elective Unit 1

Semester 2

- EEP104 Real-Time Operating Systems
- EEP120 Networks and Distributed Computing
- EEP123 Process Control and Robotics
- EEP129 Image Processing and Computer Vision
- EEP135 Digital Signal Processing and Applications
- Elective Unit 2

Band 3 Units

Students must complete their 24 cp project over one or two semesters by enrolling in the following two 12 cp project units

- EEP301-1 Project
- EEP301-2 Project

Elective Units

- EEB911 Electrical Energy Systems
- EEB941 Modern Signal Processing

EEB960 Wireless Communications
 EEB961 RF and Applied Electromagnetics
 EEB976 Advanced Industrial Electronics
 EEB992 VLSI Circuits and Systems
 EEP127 Advanced Topic B

Note:

At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

■ **Master of Engineering Science (Mechanical Engineering Studies) ME80**

Award title: Master of Engineering Science (Mechanical Engineering Studies)

CRICOS code: 042261J

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96

Course coordinator: Dr Gopi Chattopadhyay

Course Structure

The flexible Master of Engineering Science (Mechanical Engineering Studies) program allows students to choose 3 units from a common pool of units offered by all the Engineering Schools (Band 1). A band of Mechanical Engineering units is then offered from which students choose 3 (Band 2). Any units from Band 1 could also be chosen for Band 2 provided that they come from the School of Mechanical, Manufacturing and Medical Engineering. Mechanical Engineering Specialised units allow students to undertake study in the areas of Medical Engineering, Info-mechatronics, Engineering Management and general mechanical engineering, such as tribology, maintenance, manufacturing etc. Band 3 requires enrolment in a Mechanical Engineering Project (equivalent to 24 credit points).

Full-time Course Structure

Band 1 Units

Choose 3 units from the following Band 1 units.

Semester 1

CEP291 Environmental Law and Assessment
 CEP294 Engineering Contract Development and Administration

EEP101 Algorithms for Control and Engineering

EEP102 Unix and C for Engineers

EEP103 Computer Hardware and Interfacing

MEN101 Research Methodology

Semester 2

CEP141 Studies in Environmental Engineering

CEP201 Process Modelling

CEP295 Civil Engineering Management in a Project Environment

EEP129 Image Processing and Computer Vision

MEN102 Advanced Mechanical Engineering Studies

Block Mode#

MEN170 Systems Modelling and Simulation

MEN172 Cost Analysis and Asset Management

MEN280 Engineering Project Management

#Block mode classes are held in teaching periods, which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period. Please check QUT Virtual or

the School Administration Officer for details of teaching periods for the above block mode units.

Band 2 Units

3 units are to be chosen from the range of Band 2 units.

Block Mode#

MEN171 Advanced Manufacturing Technologies

MEN175 Energy and Environmental Management

MEN177 Total Quality Management

MEN241 Reliability and Maintenance Management

MEN272 Enterprise Resource Planning

MEN273 Engineering Knowledge Management

#For block mode classes see above.

Semester 1,2 or 3

MEN103 Mechanical Engineering Specialised Unit 1

MEN104 Mechanical Engineering Specialised Unit 2

MEN105 Mechanical Engineering Specialised Unit 3

Students must consult with the course coordinator before enrolling in MEN103, 104 or 105.

Band 3 Project

Project must normally be taken but may be substituted with the approval of the course coordinator for two additional Band 2 units

Semester 1 or 2

MEN190-1 Project

MEN190-2 Project

Note:

Unit MEN177 Total Quality Management, MEN101 Research Methodology and MEN102 Advanced Mechanical Engineering Studies must normally be taken, but may be substituted with the approval of the course coordinator if the student has adequate prior knowledge in the relevant field.

■ **Master of Engineering Science (Mechanical Engineering Studies) ME81**

Award title: Master of Engineering Science (Mechanical Engineering Studies)

CRICOS code: Not required

Campus: Singapore

Duration: 1 Year full-time or 2 Years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Professor Prasad Yarlagadda

Course structure

Semester 1

MEZ101* Research Methodology

MEZ190-1* Project

Choose 1 unit from the following:

MEZ102** Mechanical Engineering Specialised Studies 5

MEZ103** Mechanical Engineering Specialised Studies 4

MEZ104** Mechanical Engineering Specialised Studies 2

MEZ105** Mechanical Engineering Specialised Studies 3

Semester 2

Choose 2 units from the following:

MEZ102** Mechanical Engineering Specialised Studies 5

MEZ103** Mechanical Engineering Specialised Studies 4

MEZ104** Mechanical Engineering Specialised Studies 2

MEZ105** Mechanical Engineering Specialised Studies 3

Choose 2 units from the following:

MEZ190-2* Project

MEZ280 Engineering Project Management

MEZ177 Total Quality Management

MEZ273 Engineering Knowledge Management

Block mode classes are held in teaching periods instead of semesters, e.g. 6TP1, which runs for 6 weeks at a time.

Classes will be held Monday to Friday from 9am to 5pm, and Saturday from 9am to 5pm.

*MEZ101 and MEZ190 is compulsory.

** These units are taught by CAD-IT. Teaching periods/offerings may vary - please contact the office of CAD-IT Consultants, Singapore for further details.

■ **Master of Landscape Architecture PS71**

Award title: Master of Landscape Architecture

CRICOS code: 020301K

Campus: Gardens Point

Duration: 1 year plus 1 year part-time Built Environment (Landscape Architecture) graduates or equivalent; 2 years plus 1 year part-time (Other graduates) full-time or 3 years Built Environment (Landscape Architecture); 5 years (Other graduates) part-time

Credit points: 228 (excluding any Masters qualifying units)

Course coordinator: Associate Professor Glenn Thomas

■ **Master of Project Management CN77**

Award title: Master of Project Management

CRICOS code: 016350B

Campus: Gardens Point

Duration: 1.5 years full-time or 3 years part-time

Credit points: 144 (full-time standard semester: 48)

Course coordinator: Professor Martin Skitmore

Course Structure Information

The first two semesters full-time or four semesters part-time are identical to the Graduate Diploma in Project Management (CN64). Persons admitted to the Masters program who are graduates of the Graduate Diploma in Project Management (CN64) will need to submit an Application for Academic Credit form for the units they have already completed. At the completion of the coursework component of the Masters Degree program but before the completion of the Dissertation, students may elect to exit with the Graduate Diploma in Project Management.

■ **Master of Property Economics CN92**

Award title: Master of Property Economics

CRICOS code: 036432A

Campus: Gardens Point

Duration: 1.5 years full-time or 3 years part-time

Credit points: 144 (full-time standard semester: 48)

Course coordinator: Mr Gary Garner

Additional Information

The first two semesters full-time or four semesters part-time are identical to the Graduate Diploma in Property Economics (CN91). Persons admitted to the Masters program who are graduates of the Graduate Diploma in Property Economics (CN91) will need to submit an Application for Academic Credit form for the units they have already completed.

At the completion of the coursework component of the Masters Degree program but before the completion of the Dissertation, students may elect to exit with the Graduate Diploma in Property Economics.

Majors

While the course provides an overview of property as an asset, there are majors in Property Investment and Management and Property Development. There are several common units across the majors however applicants are required to select one major.

Course Structure

Variations to the recommended study program require prior approval from the course coordinator.

Full-time Course Structure - Property Development Major

Year 1, Semester 1

CNP520 Project Management
 CNP521 Project Cost and Risk Management
 CNP547 Property Investment
 CNP555 Property Market Analysis

Year 1, Semester 2

CNP545 Project Development
 CNP554 Advanced Land Development
 Two Electives

Year 2, Semester 1

CNN442-1 Dissertation
 CNN442-2 Dissertation

Full-time Course Structure - Property Investment and Management Major

Year 1, Semester 1

CNP547 Property Investment
 CNP555 Property Market Analysis
 CNP556 Property Management and Contracts
 EFN406 Managerial Finance

Year 1, Semester 2

CNP554 Advanced Land Development
 CNP557 Property Finance and Capital Markets
 Two Electives

Year 2, Semester 1

CNN442-1 Dissertation
 CNN442-2 Dissertation

Part-time Course Structure - Property Development Major

Year 1, Semester 1

CNP547 Property Investment
 CNP555 Property Market Analysis

Year 1, Semester 2

CNP545 Project Development
 CNP554 Advanced Land Development

Year 2, Semester 1

CNP520 Project Management
 CNP521 Project Cost and Risk Management

Year 2, Semester 2

Two Electives

Year 3, Semester 1

CNN442-1 Dissertation

Year 3, Semester 2

CNN442-2 Dissertation

Part-time Course Structure - Property Investment and Management Major

Year 1, Semester 1

■ **Master of Urban and Regional Planning PS70**

Award title: Master of Urban and Regional Planning

CRICOS code: 020299K

Campus: Gardens Point

Duration: 1.5 years for Bachelor of Built Environment graduates; 2 years for other graduates full-time or 75% progression; 2 years for Bachelor of Built Environment graduates; 3 years for other graduates/50% progression; 3 years for Bachelor of Built Environment graduates; 4 years for other graduates part-time

Credit points: 216

Course coordinator: Assoc Prof Phil Heywood

Professional recognition

This course is professionally accredited by the Planning Institute of Australia

Full-Time Course Structure

Structure for non BBE graduates

Year 1, Summer Program

DBP403 Design Communication

DBP406 Computer Applications in Planning

Note: DBP403 is a full-fee paying foundation unit for student from a non-design background.

Year 1, Semester 1

DBP401 Urban Design and Site Analysis

DBP402 Planning Processes

DBP409 Urban Planning Practice

DBP410 Research Methods in Planning

Year 1, Semester 2

DBP404 Economic and Social Foundations of Planning

DBP408 Planning Implementation and Law

DBP413 Regional Planning Practice

DBP414 Regional and Metropolitan Policy

DBP417 Comparative Planning

Note: DBP417 can be taken any time during the course.

Year 2, Semester 1

DBP407 Environmental Planning and Management

DBP411 Community Planning

DBP412 Planning Theory and Ethics

DBP415 Professional Practice or Research Project

Year 2, Semester 2

DBP501 Specialisation

DBP502 Professional Practice or Research Dissertation

DBP503 Masters Seminar

Structure for BBE graduates

Year 1, Semester 1

DBP409 Urban Planning Practice

DBP410 Research Methods in Planning

DBP411 Community Planning

DBP412 Planning Theory and Ethics

Year 1, Semester 2

DBP413 Regional Planning Practice

DBP414 Regional and Metropolitan Policy

DBP415 Professional Practice or Research Project

DBP417 Comparative Planning

DBP503 Masters Seminar

Note: DBP417 can be taken any time during the course.

Year 2, Semester 1

DBP416 Elective

DBP501 Specialisation

DBP502 Professional Practice or Research Dissertation

Part-Time Course Structure - 50% Progression Rate

Structure for non BBE graduates

Year 1, Summer Program

DBP403 Design Communication

DBP406 Computer Applications in Planning

Note: DBP403 is a full-fee paying foundation unit for student from a non-design background.

Year 1, Semester 1

DBP401 Urban Design and Site Analysis

DBP402 Planning Processes

Year 1, Semester 2

DBP404 Economic and Social Foundations of Planning

DBP408 Planning Implementation and Law

Year 2, Semester 1

■ **Graduate Diploma in Civil Engineering CE64**

Award title: Graduate Diploma in Civil Engineering

CRICOS code: 036430C

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96

Course coordinator: Mr Yin Foong

Course structure

Environmental Engineering Major

Semester 1

CEP291 Environmental Law and Assessment

3 Electives from the list below

Semester 2

CEP141 Studies in Environmental Engineering

3 Electives from the list below

Core Units

Semester 1

CEP201

3 Electives from the list below

Semester 2

CEP295

3 Electives from the list below

Electives - Semester 1

CEP142 Water Pollution Control

CEP161 Professional Development Studies 1

CEP201 Process Modelling

CEP218 Transportation Engineering

CEP291 Environmental Law and Assessment

CEP293 Pavement Design

CEP294 Engineering Contract Development and Administration

Electives - Semester 2

CEP141 Studies in Environmental Engineering

CEP161 Professional Development Studies 1

CEP262 Professional Development Studies 2

CEP295 Civil Engineering Management in a Project Environment

Note:

Advice must be sought from the course coordinator before enrolling in either CEP161 or CEP262.

The School reserves the right to offer the units according to enrolment quotas and staff availability.

With the approval of the Course Coordinator students may be permitted to take units from other engineering areas.

■ **Graduate Diploma in Computer and Communications Engineering EE67**

Award title: Graduate Diploma in Computer and Communications Engineering

CRICOS code: 015184G

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Dr John Edwards

Course Structure

Graduate Diploma students select a total of eight units from Semester 1 and Semester 2 lists.

Course structure

Semester 1

EEP101 Algorithms for Control and Engineering

EEP102 Unix and C for Engineers

EEP103 Computer Hardware and Interfacing

EEP124 Data Communications

EEP126 Communications Digital Signal Processing

Elective unit 1

Semester 2

EEP104 Real-Time Operating Systems

EEP120 Networks and Distributed Computing

EEP123 Process Control and Robotics

EEP129 Image Processing and Computer Vision

EEP135 Digital Signal Processing and Applications

Elective unit 2

Elective Units

EEB911 Electrical Energy Systems

EEB941 Modern Signal Processing

EEB960 Wireless Communications

EEB961 RF and Applied Electromagnetics

EEB976 Advanced Industrial Electronics

EEB992 VLSI Circuits and Systems

EEP127 Advanced Topic B

Note:

Graduate Diploma students complete 8 units from semester 1 and 2 lists.

At the discretion of the course coordinator, students maybe allowed to select an elective from any advanced topics offered by the University.

■ **Graduate Diploma in Geographic Information Systems PS78**

Award title: Graduate Diploma in Geographic Information Systems

CRICOS code: 040337K

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96

Course coordinator: Dr John Hayes

Please note:

The School reserves the right to offer this course according to enrolment quotas and staff availability

Full-time Course structure

Year 1, Semester 1

PSB631 Geographic Information Systems 1

PSB655 Remote Sensing

Two Electives*

Year 1, Semester 2

PSB654 Topics in Spatial Information Science

PSN213 Specialisation

Two Electives*

Electives* (subject to availability)

Please consult with the Course Coordinator before finalising your enrolment.

Please refer to the electives list.

Part-Time Course structure

PSB631 Geographic Information Systems 1

1 Elective*

Year 1, Semester 2

PSB654 Topics in Spatial Information Science

1 Elective*

Year 2, Semester 1

PSB655 Remote Sensing

1 Elective*

Year 2, Semester 2

PSN213 Specialisation

1 Elective*

Please consult with the Course Coordinator before finalising your enrolment.

Please refer to the electives list.

Electives* (Subject to availability)

Semester 1

BNB011 Fundamentals of Synthetic Environments

DBP401 Urban Design and Site Analysis

DBP402 Planning Processes

DBP407 Environmental Planning and Management

PSB612 Spatial and Land Information Management

PSB630 Cartography and Digital Mapping

PSB633 Map Production: Principles and Practice

PSB644 Advanced Geodesy

PSP311 Professional Practice Management

Semester 2

BNB011 Fundamentals of Synthetic Environments

PSB632 Photogrammetry

PSB643 Geodesy

PSP268 Site Planning

PSP273 Landscape Planning

Notes:

Please consult with the course coordinator before finalising your enrolment.

Full-time students are required to enrol in 48 credit points per semester. This includes two core units and two elec-

tives per semester (from the list above or from other undergraduate and postgraduate units).

Part-time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the electives listed, of from other undergraduate and postgraduate units.

Please note: Electives are subject to availability

The following units and semesters of offer are only available to postgraduate students subject to discussion with the course coordinator:

Semester 1:

PSB633 Map Production: Principles & Practice

PSB644 Advanced Geodesy

Semester 2:

PSB643 Geodesy

PSB654 Topics in Spatial Information Science

■ **Graduate Diploma in Industrial Design AR61**

Award title: Graduate Diploma in Industrial Design

CRICOS code: 003479C

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Mr Andrew Scott

Professional Recognition

The Graduate Diploma in Industrial Design has been recognised by the Design Institute of Australia (DIA). Graduates are eligible for associate membership. The QUT program is an educational member of the International Council of the Society of Industrial Design (ICSID).

Full-time Course Structure

Semester 1

ADP207 Industrial Design 5

ADP267 Industrial Design Research 1

ADP217 Professional Practice and Management

ADP247 Advanced Computer Aided Industrial Design

Semester 2

■ Graduate Diploma in Urban Design DB69

Award title: Graduate Diploma in Urban Design
CRICOS code: 014018G
Campus: Gardens Point
Duration: 1 year full-time or 1.5 years part-time
Credit points: 96 (full-time standard semester: 48)
Course coordinator: Dr Danny O'Hare

Course Requirements

Students must complete a minimum of 48 credit points per semester in the full-time course and a minimum of 24 credit points per semester in the part-time course. Students with a grade point average of 5 or better may articulate into the Masters program after one semester full-time or two semesters part-time study.

Course structure

Summer Semester - Introductory Unit
 DBP403 Design Communication

Full-time Structure

Year 1, Semester 1

ARB081 History, Theory and Criticism of Urban Design
 ARB082 Urban Design Studio B
 PSP453 Urban Systems and the Physical Environment

Year 1, Semester 2

PSN214 Elective
 OR
 PSN211 Research Project 1
 PSP452 Urban Design Studio A
 PSP451 Production and Use of the Built Environment

Part-time Structure

Year 1, Semester 1

ARB081 History, Theory and Criticism of Urban Design
 PSP453 Urban Systems and the Physical Environment

Year 1, Semester 2

PSP452 Urban Design Studio A
 PSP451 Production and Use of the Built Environment

Year 2, Semester 1

ARB082 Urban Design Studio B
 PSN214 Elective
 OR
 PSN211 Research Project 1

■ Graduate Certificate in Advanced Landscape Techniques PS77

Award title: Graduate Certificate in Advanced Landscape Techniques
CRICOS code:
Campus: Gardens Point
Duration: 2 semesters part-time
Credit points: 48
Course coordinator: Associate Professor Glenn Thomas

Please note

The School reserves the right to offer this course according to enrolment quotas and staff availability.

Course structure

Part-time Course Structure

Semester 1

PSP269 Advanced Construction and Practice 1
 PSP270 Elective

Semester 2

PSP272 Advanced Construction and Practice 2

PSP273 Landscape Planning

■ Graduate Certificate in Building Fire Safety AR65

Award title: Graduate Certificate in Building Fire Safety
CRICOS code:
Campus: Gardens Point
Duration: 2 semesters part-time
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Mr Jack Williamson

Professional Recognition

Support has been received from the Australian Institute of Building Surveyors, the Institution of Fire Engineers, The Institution of Engineers Australia; Society of Fire Safety, Queensland Fire Protection Industry Association Inc., Queensland Department of Local Government and Planning, Queensland Department of Public Works and Housing, The Royal Australian Institute of Architects, Queensland Fire and Rescue Authority.

Course structure

Semester 1

ARB801 Fire Technology and Science
 ARB803 Fire and Building Legislation

Semester 2

ARB802 Human Behaviour and Fire
 ARB804 Fire Safety System Design
 ARB801 and ARB803 are prerequisites to ARB804, ARB802 is a corequisite with ARB804.

Note:

The units are offered in block mode. It is anticipated that the two week intensive workshops will be in early July and late November for further details please contact the School.

■ Graduate Certificate in Civil Engineering CE62

Award title: Graduate Certificate in Civil Engineering
CRICOS code: 040341C
Campus: Gardens Point
Duration: Full-time may be available in consultation with course coordinator. full-time or 2 semesters part-time
Credit points: 48
Course coordinator: Mr Yin Foong

Articulation

Students who achieve a grade point average of 5.0 or above in the Graduate Certificate will be able to apply for entry to the Master of Engineering Science (Civil) (CE74) on the condition that they possess an undergraduate degree in engineering.

Course structure

Environmental Engineering Major

Semester 1

CEP291 Environmental Law and Assessment
 Elective

Semester 2

CEP141 Studies in Environmental Engineering
 Elective

Engineering Administration Major

Semester 1

CEP294 Engineering Contract Development and Administration
 Elective

Semester 2

CEP295 Civil Engineering Management in a Project Environment
Elective

Electives

Semester 1

CEP142 Water Pollution Control
CEP161 Professional Development Studies 1
CEP201 Process Modelling
CEP218 Transportation Engineering
CEP291 Environmental Law and Assessment
CEP293 Pavement Design
CEP294 Engineering Contract Development and Administration

Semester 2

CEP141 Studies in Environmental Engineering
CEP161 Professional Development Studies 1
CEP262 Professional Development Studies 2
CEP295 Civil Engineering Management in a Project Environment

Note:

Advice must be sought from the course coordinator before enrolling in either CEP161 or CEP262. The School reserves the right to offer the units according to enrolment quotas and staff availability. With permission of the Course Coordinator students may be permitted to take an elective from other engineering areas.

■ **Graduate Certificate in Computer and Communications Engineering EE61**

Award title: Graduate Certificate in Computer and Communications Engineering
CRICOS code: 043119G
Campus: Gardens Point
Duration: 1 semester full-time or 2 semesters part-time
Credit points: 48
Course coordinator: Dr John Edwards

Course Structure

In the Graduate Certificate students select a total of four units from semester 1 or semester 2 lists.

Course structure

Semester 1

EEP101 Algorithms for Control and Engineering
EEP102 Unix and C for Engineers
EEP103 Computer Hardware and Interfacing
EEP124 Data Communications
EEP126 Communications Digital Signal Processing
Elective Unit 1

Semester 2

EEP104 Real-Time Operating Systems
EEP120 Networks and Distributed Computing
EEP123 Process Control and Robotics
EEP129 Image Processing and Computer Vision
EEP135 Digital Signal Processing and Applications
Elective Unit 2

Elective Units

EEB911 Electrical Energy Systems
EEB941 Modern Signal Processing
EEB960 Wireless Communications
EEB961 RF and Applied Electromagnetics
EEB976 Advanced Industrial Electronics
EEB992 VLSI Circuits and Systems
EEP127 Advanced Topic B

Note:

At the discretion of the course coordinator, students maybe allowed to select an elective from any advanced topics offered by the University.

■ **Graduate Certificate in Electricity Supply Engineering EE82**

Award title: Graduate Certificate in Electricity Supply Engineering
CRICOS code:
Campus: Gardens Point and External
Duration: 2 semesters (minimum) part-time
Credit points: 48
Course coordinator: Professor Gerard Ledwich

Course Structure

Choose 12 units from list

EEP201 Fundamentals of Power System Earthing
EEP202 Thermal Ratings and Heat Transfer
EEP203 Testing and Condition Monitoring
EEP204 Power System Load Flow Analysis
EEP205 Power System Fault Calculations
EEP206 Project Management
EEP207 Overhead Line Route Selection - Environmental Factors
EEP208 Economic Analysis for Power System Engineers
EEP209 Power System Harmonics
EEP210 Abnormal System Voltages
EEP211 Basic Power System Protection
EEP212 Advanced Power System Protection
EEP213 Statistics
EEP214 Risk Assessment in the Electricity Supply Industry
EEP215 Reliability
EEP216 Overhead Line Design - Electrical
EEP217 Overhead Line Design - Mechanical
EEP218 Introduction to Automated System Control and Supervisory Systems
EEP219 High Voltage Substation Equipment: Power Transformers and Reactive Power Plant
EEP220 Distribution Planning
EEP221 Limits to Power System Stability
EEP222 Maintenance of Electricity Supply Systems
EEP223 Load Forecasting
EEP224 Power System Operation
EEP240 Organisation and Financial Management in the Electricity Supply Industry
EEP241 Distance Protection
EEP242 Efficient Marketing and Utilisation of Electricity: Demand and Supply Side Solutions
EEP243 Contract Administration
EEP244 Circuit Breakers - Switchgear
EEP245 Introduction to Substation Design
EEP246 Customer Metering
EEP248 Introduction to Electricity Markets

Units available by distance education with flexible enrolment year round.

EEP202 Thermal Ratings and Heat Transfer
EEP204 Power System Load Flow Analysis
EEP208 Economic Analysis for Power System Engineers
EEP209 Power System Harmonics
EEP210 Abnormal System Voltages
EEP211 Basic Power System Protection
EEP212 Advanced Power System Protection
EEP213 Statistics
EEP214 Risk Assessment in the Electricity Supply Industry
EEP215 Reliability
EEP220 Distribution Planning

EEP241 Distance Protection

■ **Graduate Certificate in Engineering Management ME74**

Award title: Graduate Certificate in Engineering Management

CRICOS code: Not required

Campus: Singapore

Duration: 6 months full-time or 1 year part-time

Credit points: 48

Course coordinator: Professor Prasad Yarlagadda

Course Outline

The course consists of four coursework units. The units are offered on a block basis.

Course structure

Semester 1

MEZ101* Research Methodology

Choose 1 unit from the following:

MEZ102** Mechanical Engineering Specialised Studies 5

MEZ103** Mechanical Engineering Specialised Studies 4

MEZ104** Mechanical Engineering Specialised Studies 2

MEZ105** Mechanical Engineering Specialised Studies 3

Semester 2

Choose 1 unit from the following:

MEZ102** Mechanical Engineering Specialised Studies 5

MEZ103** Mechanical Engineering Specialised Studies 4

MEZ104** Mechanical Engineering Specialised Studies 2

MEZ105** Mechanical Engineering Specialised Studies 3

Choose 1 unit from the following:

MEZ273 Engineering Knowledge Management

MEZ280 Engineering Project Management

MEZ177 Total Quality Management

Block mode classes are held in teaching periods instead of semesters, e.g. 6TP1, which runs for 6 weeks at a time. Classes will be held Monday to Friday from 9am to 5pm, and Saturday from 9am to 5pm.

*MEZ101 is compulsory.

** These units are taught by CAD-IT. Teaching periods/offering may vary - please contact the office of CAD-IT Consultants, Singapore for further details.

■ **Graduate Certificate in Engineering Management ME75**

Award title: Graduate Certificate in Engineering Management

CRICOS code: 018208C

Campus: Gardens Point

Duration: 6 months full-time or 1 year part-time

Credit points: 48

Course coordinator: Dr Gopi Chattopadhyay

Course Structure

Graduate Certificate students will take four units all of which are offered as part of the Master of Engineering Management.

Course structure

Block Mode #

MEN177 Total Quality Management

MEN171 Advanced Manufacturing Technologies

MEN241 Reliability and Maintenance Management

MEN280 Engineering Project Management

MEN273 Engineering Knowledge Management

MEN172 Cost Analysis and Asset Management

MEN175 Energy and Environmental Management

MEN170 Systems Modelling and Simulation

MEN272 Enterprise Resource Planning

Block mode

Students take 4 units.

Block mode classes are held in teaching periods which run consecutively for 5 weeks at a time, instead of semesters. Classes are held on Tuesday and Thursday from 4pm to 8pm, and Saturday from 9am to 5pm in the first two weeks of a teaching period.

Please check QUT Virtual or contact the School Administration Officer for details of teaching periods for the above block mode units.

■ **Graduate Certificate in Geographic Information Systems PS79**

Award title: Graduate Certificate in Geographic Information Systems

CRICOS code: 040339G

Campus: Gardens Point

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48

Course coordinator: Dr John Hayes

Full-time course structure

Semester 1

PSB631 Geographic Information Systems 1

PSB654 Topics in Spatial Information Science

Choose 2 Electives*

Electives* (subject to availability)

Semester 1

BNB011 Fundamentals of Synthetic Environments

DBP401 Urban Design and Site Analysis

DBP402 Planning Processes

DBP407 Environmental Planning and Management

PSB612 Spatial and Land Information Management

PSB630 Cartography and Digital Mapping

PSB633 Map Production: Principles and Practice

PSB644 Advanced Geodesy

PSP311 Professional Practice Management

Semester 2

BNB011 Fundamentals of Synthetic Environments

PSB632 Photogrammetry

PSB643 Geodesy

PSP268 Site Planning

PSP273 Landscape Planning

Notes:

Please consult with the course coordinator before finalising your enrolment.

Full-time students are required to enrol in 48 credit points per semester. This includes two core units per semester and two Electives from the list above, or from other undergraduate and postgraduate units with approval of your course coordinators.

The following units and semesters of offer are only available to postgraduate students subject to discussion with the course coordinator:

Semester 1:

PSB633 Map Production: Principles & Practice

PSB644 Advanced Geodesy

Semester 2:

PSB643 Geodesy

PSB654 Topics in Spatial Information Science

Part-time course structure

Year 1, Semester 1

PSB631 Geographic Information Systems 1

Choose 1 Elective*

Year 1, Semester 2

PSB654 Topics in Spatial Information Science
Choose 1 Elective*

Electives* (subject to availability)

Please refer to Full-Time Course Structure for list of Electives.

Notes:

Please consult with the course coordinator before finalising your enrolment.

Part-Time students are required to enrol in 24 credit points per semester. Select one core unit and any other unit from the Electives listed, or from other undergraduate and post-graduate units.

■ **Graduate Certificate in Landscape Techniques PS75**

Award title: Graduate Certificate in Landscape Techniques

CRICOS code: 037545F

Campus: Gardens Point

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48

Course coordinator: Associate Professor Glenn Thomas

Full-Time Course Structure*

Year 1, Semester 1

DLB130 Introducing Landscape Design
PSB434 Landscape Construction A (L'scape Only)
PSP263 Landscape Ecology
PSP264 Spatial Design Theory

* Please Note

Course structure under review and subject to University approval.

Part-Time Course Structure*

Year 1, Semester 1

DLB130 Introducing Landscape Design
PSB434 Landscape Construction A (L'scape Only)

Year1 - Semester 2

PSB444 Landscape Construction B (L'scape Only)
DEB201 Digital Design Communication
OR

Elective approved by course coordinator. (program to be agreed with Course Coordinator to suit existing qualifications)

*Please note;

This course structure is under review and subject to University approval

■ **Graduate Certificate in Planning Studies PS82**

Award title: Graduate Certificate in Planning Studies

CRICOS code: 040336M

Campus: Gardens Point

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48

Course coordinator: Assoc Prof Phil Heywood

Professional Recognition

This course is registered with the Planning Institute of Australia (formerly RAPI) as a recognised Continuing Professional Development Course rated at ten credit points.

Course Structure

An overview of current planning methods is presented in Planning Processes and applied in Urban Analysis and Design and Planning Implementation. These method and practice units are accompanied by opportunity for focused

study within the Elective unit, chosen in discussion with the course coordinator.

Full-time Course structure

Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning

Semester 1

DBP401 Urban Design and Site Analysis
DBP402 Planning Processes
DBP411 Community Planning
DBP501 Specialisation

Part-time Course structure

Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning

Semester 1

DBP402 Planning Processes
DBP411 Community Planning

Semester 2

DBP404 Economic and Social Foundations of Planning
DBP416 Elective
DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

Mid-Year Entry Course structure (Full-time)

Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning

Semester 2

DBP404 Economic and Social Foundations of Planning
DBP408 Planning Implementation and Law
DBP414 Regional and Metropolitan Policy
DBP416 Elective
DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

Mid-Year Entry Course structure (Part-time)

Students may choose the Community Planning focus (units listed below) or any four units from the Graduate Diploma in Urban and Regional Planning

Semester 2

DBP404 Economic and Social Foundations of Planning
DBP416 Elective
DBP416 Elective offers Specialisations in Urban Housing, Urban Design and Environmental and Social Planning. Other topics may be offered depending on staff availability.

Semester 1

DBP402 Planning Processes
OR
DBP401 Urban Design and Site Analysis
DBP411 Community Planning

■ **Graduate Certificate in Project Management CN81**

Award title: Graduate Certificate in Project Management

CRICOS code: 012705A

Campus: Gardens Point

Duration: 1 semester full-time or 1 year part-time

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Professor Martin Skitmore

Course Structure

The first semester full-time or two semesters part-time are identical to the Graduate Diploma in Project Management (CN64). Students who complete the Graduate Certificate in

Project Management (CN81) and are successful in gaining entry into the Graduate Diploma in Project Management (CN64) or Master of Project Management (CN77) will be eligible to receive credit for all units studied in the Graduate Certificate.

The full-time Graduate Certificate can only be completed in Semester 1 of any year.

Students who commence mid-year should enrol in Semester 2 units.

Course structure - February entry

 CNP555 Property Market Analysis

Year 1, Semester 2

CNP557 Property Finance and Capital Markets
 CNP554 Advanced Land Development

□ Notes for BEE undergraduate courses

Course progression

It is important that students follow as normal a progression through their courses as possible. Units should be taken in an orderly sequence as set out in published course structures. Units failed should be picked up in the next semester that they are offered. Prerequisite units must normally be passed before a student may proceed to a further unit which has the prerequisite so specified. The course coordinator should be consulted regarding variations from the course structure. Students who have failed units, or have doubts about having the necessary background to proceed, should seek the advice of the course coordinator.

Supplementary assessment

Students may be granted up to two supplementary assessments in the final 96 credit points of study, for coursework programs of three or more years full-time duration or equivalent; and one supplementary assessment in the final 48 credit points for coursework programs of less than three years full-time duration or equivalent.

Eligibility for supplementary assessment will be determined by the Dean and will normally only be considered when a student receives a grade of 2 in a unit where a 3 is required for course completion or a grade of 3 in a unit where a 4 is required for course completion. The only grade that will be recorded following supplementary assessment is S3 (pass supplementary) and S2 (fail supplementary).

Awards with honours

Honours may be awarded to graduands of the Bachelor of Architecture, the four-year single degree and five-year double degree Bachelor of Engineering and Surveying courses, the four-year Bachelor of Applied Science courses in Construction Management and Quantity Surveying, and the Bachelor of Property Economics. First class honours, second class honours division A and second class honours division B may be awarded. Candidates for a degree with honours must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty Academic Board and approved by University Academic Board.

Eligibility for honours

Eligibility for awards with honours is not affected by the time taken to complete a course. However, to be eligible for such an award, a graduand must have completed the

course within the maximum number of calendar years specified in the Student Rules (see the student rules section). Three- and four-year (full-time) courses must be completed in ten years. Combined degree courses must be completed in eleven years. Time limits are measured in calendar years from the first day of the first semester in which the student was enrolled and include periods of interruption such as leave of absence. In addition, to be eligible for an award with honours, a graduand must have been enrolled in the course at QUT for at least two years of full-time study or its equivalent.

Honours based on grade point average

The Built Environment and Engineering Academic Board has resolved that awards with honours for students graduating post-1992 will be based on grades achieved by students throughout the whole of their course as determined by the Grade Point Average (GPA) calculation.

The GPA calculation includes all attempts at units which are awarded a numeric grade, or the result 'Withdrawn — Failure' (which is converted to a grade of 1).

Students obtaining a GPA of 6.0 or greater will normally qualify for the award of first class honours. Students obtaining a GPA of 5.5 to 5.99 will normally qualify for the award of second class honours division A. Students obtaining a GPA of 5.0 to 5.49 will normally qualify for the award of second class honours division B.

Students enrolled in double degrees must obtain the required GPA in the Engineering degree component to be eligible for Honours.

Awards with distinction

Awards 'with distinction' may be awarded to graduands of the three-year single degree courses and the graduate diploma courses undertaken in the Faculty of Built Environment and Engineering. Candidates for a degree 'with distinction' must fulfil the requirements for a pass degree and achieve a standard of proficiency in all course units as may from time to time be determined by the Faculty Academic Board and approved by the University Academic Board.

Eligibility for 'With Distinction'

See Eligibility for Honours.

With Distinction based on grade point average

The Built Environment and Engineering Academic Board has resolved that awards 'with distinction' will be based on grades achieved by students throughout the whole of their course as determined by the grade point average calculation.

The GPA calculation includes all attempts at units which are awarded a numeric grade, or the result 'Withdrawn — Failure' (which is converted to a grade of 1).

Students obtaining a GPA of 5.5 or greater will normally qualify for the award of with distinction.

Dean's list

The Dean's List comprises students who have achieved a GPA of 6.50 or more within a semester. These students receive a certificate in recognition of their achievement.

Use of calculators in examinations

Restrictions apply on the use of calculators in examinations. Students should consult their unit coordinator for details.

Field trips

Attendance at field trips or field projects in engineering and surveying/mapping courses is compulsory.

Personal Protection Equipment (PPE) Policy

Protective equipment refers to safety glasses/goggles, hearing protection, safety boots, gloves and similar items. While all care is taken to reduce the risks to which students are exposed, protective equipment will be required to be worn in some practical sessions and field excursions. Students are required to wear PPE where and when it has been made clear that it is needed. Students are required to provide certain PPE as indicated by each school within the Faculty.

Students enrolled in units specified by the Faculty of Built Environment and Engineering will be required to wear safety shoes for most laboratory practicals and/or field trips. Students not wearing appropriate safety shoes on these occasions will be barred from (i) participating in activities in these units, and (ii) submitting any assessment associated with these activities. Students must provide their own safety shoes, safety glasses/goggles and hearing protection equipment.

All students are bound by the Queensland Workplace Health and Safety Act. In this respect, students carrying out their final year projects will be required to do a risk assessment of such projects, including risk management and control to prevent incident and accidents.

Industrial experience for Engineering and Surveying/Mapping courses (students who commenced prior to 2006)

Industrial Experience forms part of the requirements of engineering and surveying degree courses, in order to provide a realistic background for formal academic studies and to ensure that students become effectively balanced in their professional development. For engineering students, it is a requirement of the Institution of Engineers, Australia, for graduate membership. Industrial Experience is usually undertaken during the long vacation or the mid-semester recess as an employee of a private firm, government agency or local authority, but can also be accumulated during part-time/full-time employment.

Candidates must submit a report no later than the fourth week of the semester, following each period of Industrial Experience. The report is to be written in the required format describing work carried out during the period of Industrial Experience. An Industrial Experience Record Form signed by the employer is also to be submitted. Industrial Experience Record Forms are available from www.bee.qut.edu.au/students/services.

A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience in an engineering environment approved by the course coordinator.

A candidate for the degree of Bachelor of Technology (Mechanical) must obtain at least 50 days of industrial experience approved by the course coordinator.

Engineering students must obtain at least 60 days of Industrial Experience in an engineering environment approved by the course coordinator.

Bachelor of Surveying students must obtain at least 90 days of industrial experience in a surveying environment approved by the course coordinator.

Bachelor of Engineering (Aerospace Avionics) students are required to obtain 10 days specialist experience in the avionics industry. This is in addition to the 60 days industrial experience requirement.

Industrial Experience information can be obtained from the Student Services Officer, Industrial Experience, on Level 3, D Block, Gardens Point campus.

Enrolment in industrial experience

Surveying/mapping and Engineering students should not formally enrol in industrial experience.

Industrial experience requirements for Bachelor of Architecture (AR48) course

A Bachelor of Architecture student must be engaged in approved employment for at least 72 recognised weeks within the last 2-3 years of the course (ADB796 Practice Experience B). Prior to entering Year 4 Semester 1 students enrolled in the full-time course structure, must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B. Students enrolled in the flexible full-time course structure must be engaged in approved employment for at least 48 recognised weeks within the first 3 years of the course (ADB795 Practice Experience A). Flexible full-time students enrol in ADB795 Practice Experience A in second semester of third year. All students enrol in ADB796 Practice Experience B in the second semester of the final year of the course.

Approved employment means working under the direction of an architect who is registered at the place of practice where the experience is obtained.

A recognised week is 5 days actually worked (7.6 hrs per day with a maximum of 42 hours per week). The minimum period with one employer is 8 weeks.

Allied experience can be obtained in approved areas allied to architecture (eg, Civil Engineering, Interior Design, Industrial Design, Quantity Surveying, Construction Management, Town Planning, Landscape Architecture, Building, etc). The maximum period of allied experience is 12 recognised weeks in ADB795 and 18 recognised weeks in ADB796.

Prior work experience under the direction of a registered architect before enrolment in the course is accepted up to a maximum of 24 weeks in ADB795 and a maximum of 36 weeks in ADB796.

Approved employment during leave of absence is accepted (a) in ADB795 up to a maximum of 24 recognised weeks and (b) in ADB796 after completion of at least one semester of fourth year and prior approval of the course coordinator up to a maximum of 36 recognised weeks.

Reporting each month is required on the electronic logbook. Students without access to the electronic logbook system, are to contact the course coordinator who will establish the reporting arrangements for their work experience. The electronic logbook automatically produces the AACA log-sheets required in ADB796.

Credited employment period only counts once (eg, period required for ADB795 cannot also be used for the 20 week period for entry in the last 2 years full-time mode). The employment period of ADB795 for students admitted directly into the third year of the flexible full-time course is 24 recognised weeks and the employment period of ADB796 for students admitted directly into the last year of the course is one year (52 recognised weeks).

Types of experience required:

- ADB795 Practice Experience A
At least 50% of time in undertaking design and/or documentation duties.
- ADB796 Practice Experience B
 - (a) At least 50% of time in undertaking design and documentation duties.
 - (b) Provide the following experiences on the electronic AACA log sheets:
 - contract documentation experience (AACA element 2.2.2); and
 - preliminary site investigation and evaluation of at least one project during the last 2-3 years of the course (AACA element 3.1.2); and
 - some aspect of the administration of the project contract of at least one project during the last 2-3 years of the course which can be 'observer' status where direct experience is unavailable (AACA element 3.3.1).

Industrial experience requirements for DE40 Bachelor of Design (Architectural Studies)

Graduates of the DE40 Bachelor of Design (Architectural Studies) will be subject to a GPA requirement to qualify for entry to the postgraduate course DE80 Master of Architecture. Graduates who successfully complete both degrees (DE40 and DE80) will meet the academic requirements for membership of the Royal Australian Institute of Architects (RAIA). Successful graduates of both degrees (DE40 and DE80) who have completed a minimum of 2 years' practical experience, of which at least one year is postgraduate experience, will be eligible to undertake the Architectural Practice Examination, which (if successful) will enable the graduate to be eligible for registration with any Board of Architects in Australia.

Graduates of the DE40 Bachelor of Design (Architectural Studies) will also meet the academic (technical) requirement for the Building Design Licence with the Queensland Building Services Authority.

Types of experience required: Students will have the opportunity of undertaking a minor or major in Work Integrated Learning, which will count towards their practical experience.

■ Bachelor of Applied Science (Construction Management) CN51

Award title: Bachelor of Applied Science (Construction Management)

CRICOS code: 006363B

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr John Hayes

Discipline coordinator: Mr Paul Den Ronden

Special Course Requirements

All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of CNB409 Professional Practice 1 and CNB423 Professional Practice 2.

Professional Recognition

Graduates with relevant experience are eligible for membership of the Australian Institute of Building.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Course structure - Full-time

Year 2, Semester 1

- CNB201 Construction 3

■ Bachelor of Applied Science (Quantity Surveying) CN53

Award title: Bachelor of Applied Science (Quantity Surveying)

CRICOS code: 003500M

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr John Hayes

Discipline coordinator: Mr Jason Gray

Special Course Requirements

All students are required to obtain a minimum of 100 days of employment in the final year of the course as a part of the units Professional Practice 1 and Professional Practice 2. Only international students are eligible to complete a portion of their work experience offshore, and in this case students will receive no assistance in gaining work experience.

Professional Accreditation and Recognition

The course is offered with or without honours. Both the honours and non-honours versions of the course are fully accredited by the Australian Institute of Quantity Surveyors and the Board of Quantity Surveyors Malaysia (BQSM). Re-accreditation with the Royal Institution of Chartered Surveyors (honours version only) and Singapore Institute of Surveyors and Valuers is currently being sought.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion, but this will affect professional accreditation and recognition in relation to RICS and SISV. The course coordinator will therefore need to be satisfied that the student fully understands the implications that the minor will have on professional accreditation and recognition before approval to the minor is granted. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Course structure - February Entry - Full-time

■ **Bachelor of Architecture AR48**

Award title: Bachelor of Architecture
CRICOS code: 052308E
Campus: Gardens Point
Duration: 5 years full-time full-time
Credit points: 480 (full-time standard semester: 48)
Course coordinator: Ms Sheona Thomson

Additional Admission Information

The AR48 Bachelor of Architecture course has been replaced by DE40 Bachelor of Design (Architectural Studies) from 2006 onwards. There will be no intake into the AR48 course in 2007 with the exception of QTAC applicants commencing their studies with at least 168 credit points of advanced standing (academic credit); i.e. those students who will be starting in the third year of the program.

If offered a place you are not required to lodge an academic credit form, as academic credit will be awarded by QUT before the census date of your first teaching period.

After being awarded this credit and if you wish to seek for additional academic credit, you are then required to lodge an Application for Academic Credit form for that additional credit by the due date and subject QUT rules.

Professional Recognition

Graduates of the Bachelor of Architecture degree meet the academic requirements for membership of the Royal Australian Institute of Architects and, following one year of post-graduate architectural experience, are eligible to undertake the registration examinations of the Board of Architects of Queensland.

Special course requirements

A Bachelor of Architecture student must be engaged in approved employment for at least 72 recognised weeks within the last 2-3 years of the course (ADB796 Practice Experience B). Prior to entering Year 4 Semester 1 stu-

dents enrolled in the full time course structure, must have completed 20 recognised weeks of approved employment which will be credited to the requirements of Practice Experience B. Students enrolled in the flexible full-time course structure must be engaged in approved employment for at least 48 recognised weeks within the first 3 years of the course (ADB795 Practice Experience A).

Note:

This course is currently under review.

Course structure - full-time

Special Course Notes

- 1 Students must complete all units in the Years 1, 2 and 3 prior to enrolling in any unit in the Year 4 schedule of AR48. The course coordinator may consider cases of special hardship.
- 2 Students must meet pre-requisites in all subjects.
- 3 Penalties for late assignments apply.
- 4 Course will involve compulsory field work within some units.
- 5 Students currently enrolled in BN31 cannot transfer to AR48 in years 2 and 3.
- 6 Acceptance into the flexible full-time mode requires approval of the course coordinator and by providing evidence of employment in an Architects office.

■ **Bachelor of Built Environment (Industrial Design) BN31**

Award title: Bachelor of Built Environment (Industrial Design)
CRICOS code: 003507D
Campus: Gardens Point
Duration: 3 years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Ms Sheona Thomson

Discipline coordinator: Mr Andrew Scott

Other Majors

See also entries for the following majors in this course: Interior Design, Landscape Architecture, and Urban and Regional Planning.

Professional Recognition

Graduates of the Bachelor of Built Environment (Industrial Design) who go on to complete the Graduate Diploma in Industrial Design are eligible for associate membership of the Design Institute of Australia. QUT is an Educational Member of the International Council of Societies of Industrial Design (ICSID).

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

■ **Bachelor of Built Environment (Interior Design) BN31**

Award title: Bachelor of Built Environment (Interior Design)

CRICOS code: 003507D

Campus: Gardens Point

Duration: 3 years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Ms Sheona Thomson

Discipline coordinator: Dr Dianne Smith

Other Majors

See also entries for the following majors in this course: Industrial Design, Landscape Architecture, and Urban and Regional Planning.

Professional Recognition

Successful completion of the Bachelor of Built Environment (Interior Design) satisfies the requirements for entry into the Graduate Diploma in Interior Design. Together the courses are recognised by the Design Institute of Australia as meeting the basic requirements for professional practice.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

■ Bachelor of Built Environment (Landscape Architecture) BN31

Award title: Bachelor of Built Environment (Landscape Architecture)

CRICOS code: 003507D

Campus: Gardens Point

Duration: 3 years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Ms Sheona Thomson

Discipline coordinator: Ms Delwynn Poulton

Other Majors

See also entries for the following majors in this course: Interior Design, Industrial Design, and Urban and Regional Planning.

Professional Recognition

Successful performance in the Bachelor of Built Environment (Landscape Architecture) enables students to gain entry to the Graduate Diploma/Master courses. The Graduate Diploma in Landscape Architecture is the only course of its kind in Queensland, and is accredited by the Australian Institute of Landscape Architects (AILA). Graduates from the Graduate Diploma or Master of Landscape Architecture are recognised in New Zealand and Hong Kong and overseas generally through their AILA membership.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

■ Bachelor of Built Environment (Urban and Regional Planning) BN31

Award title: Bachelor of Built Environment (Urban and Regional Planning)

CRICOS code: 003507D

Campus: Gardens Point

Duration: 3 years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Dr John Hayes

Discipline coordinator: Associate Professor Phil Heywood

Other Majors

See also entries for the following majors in this course: Interior Design, Industrial Design, and Landscape Architecture.

Professional Recognition

Successful completion of the Bachelor of Built Environment (Urban and Regional Planning) enables students to gain entry to the Graduate Diploma/Masters in Urban and Regional Planning, which are both fully accredited by the Planning Institute of Australia (PIA).

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from another study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

■ **Bachelor of Engineering - Dean's Scholars Program EN40**

Award title:

CRICOS code: As per course of study

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384

Course coordinator: Dr R.Mahalinga-Iyer

Special Course Requirements

Students enrolled in the Dean's Scholars program must maintain a GPA of 5.5 throughout their course. For a copy of the program rules and regulations please contact the Faculty Office or www.bee.qut.edu.au/bee/scholarships

Students must complete at least 60 days of industrial experience in order to graduate.

Civil - Dean's Scholars Course Structure

Please note for students commencing 2006.

Year 1, Semester 1

BEB100 Introducing Professional Learning
 ENB101 Engineering Mechanics 1
 ENB104 Engineering Materials
 MAB180 Engineering Mathematics 1

Year 1, Semester 2

BEB200 Introducing Sustainability
 ENB102 Engineering Mechanics 2
 ENB103 Electrical Engineering
 MAB132 Engineering Mathematics 1B

Please note for students commencing prior to 2006.

Year 1, Semester 1

CEB109 Engineering Mechanics 1
 MMB131 Engineering Materials
 CEB213 Environmental Science
 MAB131 Engineering Mathematics 1A
 or
 MAB180 Engineering Mathematics 1
 MAB180 Engineering Mathematics 1 is to be taken by those students not obtaining a SA or better in Queensland Year 12 Mathematics C (or equivalent).

Year 1, Semester 2

BNB007 Professional Studies 1
 CEB110 Engineering Mechanics 2
 EEB112 Electrical and Computer Engineering 1
 PCB136 Engineering Physics 1C

Year 1 - Summer Program

CEB217 Hydraulic Engineering 1
 MAB132 Engineering Mathematics 1B

Year 2, Semester 1

CEB207 Professional Studies 2 (Timber Structures & Earthworks)
 CEB208 Materials Science
 CEB209 Geotechnical Engineering 1
 CEB317 Professional Studies 4 (Project Documentation & Roads)
 CEB319 Water Engineering

Year 2, Semester 2

CEB214 Professional Studies 3 (Environmental & Transport)
 CEB215 Structural Engineering 1
 CEB216 Project Engineering 1
 CEB321 Water and Wastewater Treatment
 CEB322 Geotechnical Engineering 2

Year 3, Semester 1

CEB318 Structural Engineering 2
 CEB412 Project Engineering 2
 CEB424 Professional Studies 6 (Concrete Structures & Geotechnical Engineering)
 MAB138 Engineering Statistics and Numerical Methods

Year 3, Semester 2

CEB323 Transport Engineering 1
 CEB329 Professional Studies 5 (Steel Design & Construction)
 CEB413 Structural Engineering 3
 CEB425 Professional Studies 7 (Civil Design Project)

Year 3 - Summer Program

CEB411 Thesis Project A
 Master of Engineering Science unit

Year 4, Semester 1

CEB415 Thesis Project B
 Master of Engineering Science unit
 Master of Engineering Science unit
 Master of Engineering Science unit

Year 4, Semester 2

CEP997-1 Project B
 CEP997-2 Project B
 Master of Engineering Science unit
 Master of Engineering Science unit
 Students must complete 60 days industrial experience before graduating.

There may be minor variations in the program as CEB209 and CEB217 are offered in alternate Summer program.

■ **Bachelor of Engineering (Aerospace Avionics) EE48**

Award title: Bachelor of Engineering (Aerospace Avionics)

CRICOS code: 037543G

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Bouchra Senadji

Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is also professionally recognised by many international professional institutions.

Minors

Subject to the approval of the course coordinator, students in this course may gain a minor in Systems Engineering by choosing the same group project through the Aerospace Design units and the final year project providing they comply with Systems Engineering principles.

Optional Pathway

Subject to normal course entry rules students may transfer internally from the QUT Bachelor of Engineering (Electrical and Computer Engineering) course to this degree after the completion of the first year full-time if they have obtained a sufficiently high grade point average that will meet the course cut-off for that year.

Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

Course structure

Year 2, Semester 1

EEB312 Analog and Digital Electronics
 EEB340 Introduction to Telecommunications
 MAB134 Electrical Engineering Mathematics 3

■ **Bachelor of Engineering (Civil and Construction) EN40**

Award title:

CRICOS code: 056529D

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-lyer

Discipline coordinator: Dr Jon Bunker

Professional Recognition

Professional accreditation will be sought from Engineers Australia (EA).

Minors

You will have the opportunity to undertake two minors (a minor is four units or 48 credit points) in the same discipline. For professional recognition you will undertake an Applications Minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second

minor may be taken from an approved list outside your discipline.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Construction) must complete at least 60 days of industrial experience/ practice in an engineering construction environment as approved by the course coordinator.

■ **Bachelor of Engineering (Civil and Environmental Management) CE46**

Award title: Bachelor of Engineering (Civil and Environmental Management)

CRICOS code: 040310K

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Jon Bunker

Professional Recognition

This course has provisional accreditation from Engineers Australia (EA).

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Other options

This course is also offered as an accelerated program for mid-year entry students. The course can be completed in three and a half years full-time through attendance at the Summer Program.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Environmental Management) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Course Structure

Year 2, Semester 1

CEB207 Professional Studies 2 (Timber Structures & Earthworks)
 CEB230 Engineering Materials and the Environment
 CEB232 Geotechnical Engineering 1 and the Environment

Campus: Gardens Point
Duration: 4 years full-time
Credit points: 384 (full-time standard semester: 48)
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Jon Bunker

Professional Recognition

Professional accreditation from Engineers Australia will be sought.

Minors

You will have the opportunity to undertake two minors; a minor is four units (48 credit points) in the same discipline. For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second minor may be taken from an approved list outside your discipline.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil and Environmental) must obtain at least 60 days of industrial experience/practice in an engineering environment as approved by the course coordinator.

Award title: Bachelor of Engineering (Civil)
CRICOS code: 037544G
Campus: Gardens Point
Duration: 4 years full-time
Credit points: 384 (full-time standard semester: 48)
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Jon Bunker

Professional Recognition

This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, The Institution of Engineers, Ireland and the various professional engineering registry bodies in the USA.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Mid-year entry

The CE45 Bachelor of Engineering (Civil) midyear course has been replaced by EN40 Bachelor of Engineering (Civil) from 2006 onwards. There will be no intake into the CE45 course in 2006 with the exception of QTAC applicants commencing their studies with at least 72 credit points of advanced standing (academic credit).

If offered a place, you may be required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Articulation to Master of Engineering Science

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil) must obtain at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Professional Recognition

Professional accreditation from Engineers Australia will be sought

Minors

You will have the opportunity to undertake two minors; a minor is four units (48 credit points) in the same discipline. For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and two specialised civil engineering units. The second minor may be taken from an approved list outside your discipline.

Early exit option

After completing a designated program you will have the option to exit after 3 years with a Bachelor of Technology (Civil). To be eligible for this option, students must advise the Course Coordinator of their intention by the end of Year 2 at the latest.

Mid-year Entry

This course is also offered as an accelerated program for mid-year entry students, in which the course can be completed in three and a half years full-time through attendance at the Summer Program.

Applicants who are offered place and eligible to receive 72 credit points (or more) of advanced standing will be admitted to the CE45 Bachelor of Engineering (Civil).

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Civil) must obtain at least 60 days of industrial experi-

ence/practice in an engineering environment as approved by the course coordinator.

■ **Bachelor of Engineering (Computer Systems) EE46**

Award title: Bachelor of Engineering (Computer Systems)

CRICOS code: 040309C

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-lyer

Discipline coordinator: Dr Bouchra Senadji

Professional Recognition

The course is provisionally accredited by Engineers Australia (EA).

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Optional Pathways

Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Telecommunications) course can change to the Bachelor of Engineering (Computer Systems) at the end of the first year without loss of credit, subject to approval from the course coordinator and meeting minimum course requirements.

Special Course Requirements

Students must complete at least 60 days industrial experience in order to graduate.

Award title: Bachelor of Engineering (Electrical and Computer Engineering)

CRICOS code: 003490G

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Bouchra Senadji

Professional Recognition

This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. It is professionally recognised by many international professional institutions including the Professional Engineers Board Singapore.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Mid-year Entry

The EE42 Bachelor of Engineering (Electrical and Computer Engineering) course has been replaced by EN40 Bachelor of Engineering (Electrical) from 2006 onwards. There will be no midyear intake into the EE42 course in 2007 with the exception of QTAC applicants commencing their studies with at least 168 credit points of advanced standing (academic credit).

If offered a place, you may be required to attend an in-person academic credit and enrolment session as detailed in your enrolment materials.

Industry Cooperative Education Program

High achieving domestic students in third year may also be eligible to participate in the Industry Cooperative Education Program, based on a three-way partnership between the student, University and industry, and involving a full-time, one semester, paid and supervised workplace position with the industry partner.

Articulation to Masters

Subject to University approval, students achieving a certain minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science level units as electives.

After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science courses can then have these two units credited towards the Masters Program.

Special Course Requirements

To graduate, students must complete at least 60 days industrial experience in an engineering environment which is approved by the course coordinator.

EEB612 Software Systems Design
 EEB641 Fields Transmission and Propagation

Year 6 - Semester 1

EEB560 Digital Communications
 EEB584 Introduction to Design

Year 6 - Semester 2

EEB684 Advanced Design

Select one of:

EEB640 Digital Signal Processing
 EEB650 Power Systems Analysis

Year 7 - Semester 1

Elective Unit 1 (Technical)
 Elective Unit 2 (Technical)

Year 7 - Semester 2

Elective Unit 3 (Technical)
 Elective Unit 4 (Technical)

Year 8 - Semester 1

EEB781 Professional Studies 2
 EEB889-1 Project

Students normally enrol in EEB889-1 in semester one

Year 8 - Semester 2

EEB889-2 Project

Students normally enrol in EEB889-2 in semester two

General Elective

Students must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Electives

Refer to elective list under Full-time Course Structure.

■ **Bachelor of Engineering (Electrical) EN40**

Award title:

CRICOS code: 056529D

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Bouchra Senadji

Professional recognition

Professional accreditation from Engineers Australia (EA) will be sought.

Minors

You will have the opportunity to undertake two minors; a minor is four units (48 credit points). For professional recognition you will undertake Applications minor which consists of a project unit and specialised engineering units. The second minor may be taken from an approved list outside your discipline.

Mid-year Entry

This course is also offered as an accelerated program for mid-year entry students, in which the course can be completed in three and a half years full-time through attendance at the Summer Program.

Applicants who are offered place and eligible to receive 72 credit points (or more) of advanced standing will be admitted to the EE42 Bachelor of Engineering (Electrical and Computer Engineering).

Special Course Requirements

To graduate, students must complete at least 60 days industrial experience in an engineering environment which is approved by the course coordinator.

■ **Bachelor of Engineering (Mechanical)
(Conversion Program from Bachelor of
Technology ME36/ME37) ME41**

Award title: Bachelor of Engineering (Mechanical)
CRICOS code: 003490G
Campus: Gardens Point
Duration: 1.5 years full-time
Credit points: 144
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick

Professional Recognition

This degree is recognised for the purpose of membership of Engineers Australia. It is professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. Graduates meet the requirements for membership of the Singapore Professional Engineers Board, and the Lembaga Jurutera (Board of Engineers) Malaysia. The course is also accredited by the Indonesian Directorate of Higher Education as equivalent to the appropriate Indonesian degree.

Course structure

Professional Recognition

Professional accreditation from Engineers Australia (EA) will be sought.

Minors

You will have the opportunity to undertake two minors; a minor is four units (48 credit points). For professional recognition you will undertake an Applications minor which consists of a Work Place Integrated Learning unit, a project unit and 2 specialised engineering units. The second minor may be taken from an approved list outside your discipline.

Special Course Requirements

A candidate for the degree of Bachelor of Engineering (Mechanical) must complete at least 60 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Early Exit Option

After completing a designated program you may have the option to exit after 3 years with a Bachelor of Technology (Mechanical). To be eligible for this option, students must advise the Course Coordinator of their intention by the end of Year 2 at the latest.

Mid-year Entry

This course is also offered as an accelerated program for mid-year entry students, in which the course can be completed in three and a half years full-time through attendance at the Summer Program.

Applicants who are offered place and eligible to receive 72 credit points (or more) of advanced standing will be admitted to the ME42 Bachelor of Engineering (Mechanical).

■ **Bachelor of Engineering (Mechanical)
 ME41**

Award title: Bachelor of Engineering (Mechanical)
CRICOS code: 003490G
Campus: Gardens Point
Duration: 4 years full-time
Credit points: 384 (full-time standard semester: 48)
Course coordinator: Dr R.Mahalinga-Iyer
Discipline coordinator: Dr Gary Chadwick

Professional Recognition

Graduates meet the requirements for membership of Engineers Australia, the Singapore Professional Engineers Board and the Lembaga Jurutera (Board of Engineers) Malaysia. The course is also professionally recognised by the Hong Kong Institution of Engineers, the UK Institution of Mechanical Engineers, the Institution of Professional Engineers, New Zealand, and the Institution of Engineers, Ireland. The Indonesian Directorate of Higher Education accredit the course as equivalent to the appropriate Indonesian degree.

Minors

Subject to the approval of the Course Coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Articulation to Masters

Subject to University approval, students achieving a minimum performance criteria at the end of year 3 of the Bachelor of Engineering course, may be eligible to study two Master of Engineering Science or Master of Engineering Management units as electives. After successfully completing the Bachelor of Engineering course, students eligible to enrol in the Master of Engineering Science or Master of Engineering Management courses can then have these two units credited towards the Masters Program.

 MMB375 Industrial Engineering
 Two units electives from Group C.

Year 4, Semester 2
 MMB402-1 Engineering Management Project
 MMB402-2 Engineering Management Project

Electives - Group A

MMB353 Tribology
 MMB375 Industrial Engineering
 MMB411 Advanced Automatic Control
 MMB412 Finite Element Analysis
 MMB413 Industrial Noise and Vibrations
 MMB430 Advanced Materials
 MMB450 Air Conditioning
 MMB451 Energy Management
 MMB461 Process Systems Design
 MMB471 Computer Integrated Manufacturing
 MMB472 Design for Manufacturing 2
 Any unit from another Faculty approved by the Course Coordinator.

Electives - Group B

MMB470 Engineering Asset Management and Maintenance
 MMB476 Operations Management
 Any Management unit approved by the Course Coordinator.

Electives Group C

AMB240 Marketing Planning and Management
 BSB122 Quantitative Analysis and Finance
 MGB211 Organisational Behaviour

MMB451 Energy Management

Electives Note

Not all electives are available every semester.

MMB430 is available in odd years only, MMB450 is available in even years only.

MMB451, MMB461, MMB472 and MMB470 are available in semester 1 only.

MMB411 (odd years), MMB413 (even years), MMB471 and MMB476 are available in semester 2 only.

■ **Bachelor of Engineering (Telecommunications) EE47**

Award title: Bachelor of Engineering (Telecommunications)

CRICOS code: 040308D

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Bouchra Senadji

Professional Recognition

The course is provisionally accredited by Engineers Australia (EA).

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Optional Pathway

Students entering the Bachelor of Engineering (Electronics)/Bachelor of Information Technology course or the Bachelor of Engineering (Computer Systems) course may transfer to the Bachelor of Engineering (Telecommunications) at the end of the first year without loss of credit, subject to approval from the course coordinator, and meeting minimum course requirements.

Special Course Requirements

Students must complete at least 60 days of industrial experience in order graduate.

Course structure

Year 2, Semester 1

General Elective Units

BSB113 Economics
 BSB115 Management, People and Organisations
 BSB119 International and Electronic Business
 LSB118 Life Science
 MAB380 Introduction to Supercomputing
 MAB481 Visualisation and Data Analysis

Any language offered by QUT.

Note:

Please check unit availability as not all units are offered every year.

At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University. Also potential honours students may, with the approval of the course coordinator, select an elective from the postgraduate degree courses offered by the School of Engineering Systems.

■ **Bachelor of Engineering (Telecommunications) EN40**

Award title:

CRICOS code: 056529D

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr R.Mahalinga-lyer

Discipline coordinator: Dr Bouchra Senadji

Professional Recognition

Professional accreditation from Engineers Australia (EA) will be sought.

Optional Pathways

If you enter the Bachelor of Engineering (Electrical)/Bachelor of Information Technology course or the Bachelor of Engineering (Computer Systems) course, subject to the approval of the course coordinator, and if you meet the minimum course requirements you can apply to change to the Bachelor of Engineering (Telecommunications) at the end of the first year without loss of credit.

Special Course Requirements

To graduate you must complete at least 60 days of approved industrial experience in an engineering environment.

Course structure

Year 1, Semester 1

BEB100 Introducing Professional Learning
 ITB001 Problem Solving and Programming
 MAB131 Engineering Mathematics 1A
 OR

MAB180 Engineering Mathematics 1
 PCB136 Engineering Physics 1C

Year 1, Semester 2

ENB103 Electrical Engineering
 ITB003 Object Oriented Programming
 ITB006 Networks

MAB132 Engineering Mathematics 1B
 OR

MAB182 Engineering Mathematics 2B

Year 2, Semester 1

BEB200 Introducing Sustainability
 ENB240 Introduction to Electronics
 ITB711 Programming Abstraction

MAB233 Engineering Mathematics 3

Year 2, Semester 2

ENB242 Introduction to Telecommunications
 ENB243 Linear Circuits and Systems
 ENB244 Microprocessors and Digital Systems
 IT Elective

Year 3, Semester 1

ENB341 Introduction to Design
 ENB342 Signals, Systems and Transforms
 ENB343 Fields Transmission and Propagation

ITB720 Internet Protocols and Services

Year 3, Semester 2

ENB345 Advanced Design

ENB346 Digital Communications

ENB352 Signal Processing and Filtering

ITB723 Wireless and Mobile Devices

Year 4, Semester 1

ENB401 Project A

ENB440 RF and Applied Electromagnetics

ENB446 Wireless Communications

ITB732 Cryptology and Protocols

Year 4, Semester 2

ENB202 Instrumentation and Control

ENB400 Work Integrated Learning

ENB402 Project B

ENB445 Communication Technologies

■ **Bachelor of Property Economics CN54**

Award title: Bachelor of Property Economics

CRICOS code: 040319A

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 or 288 for 3 years early exit option

Course coordinator: Dr John Hayes

Discipline coordinator: Ms Connie Susilawati

Special Course Requirements

All students must undertake 60 days' professional work experience during the course as part of CNB390 Professional Practice. All work experience must be approved by the course coordinator to verify that it is appropriate. A work experience diary is to be maintained and available for inspection by the unit coordinator as a formal assessment component.

A student registered in the flexible or part-time study program must be employed full-time in an approved organisation for three of the final four years of the course. Part-time study generally involves around 8 formal contact hours per week and some release from employment is required.

Professional Recognition

Graduates with relevant professional experience are eligible for membership of the Australian Property Institute and registration by the Valuers' Registration Board of Queensland. The course is accredited by the Royal Institution of Chartered Surveyors. Accreditation by the Singapore Institute of Surveyors and Valuers will be sought in 2004.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. This will not affect the total number of credit points required for course completion. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Special Note

Students may elect to complete their studies on the completion of 3 years (or flexible part-time equivalent). Students who select this option will graduate with a Bachelor of Applied Science (Property Economics) degree. This degree provides full domestic accreditation with the Australian Property Institute and Valuers' Registration Board of Queensland. Students graduating on the four year program have the potential to graduate with honours according to their overall grade point average.

Course structure

Year 2, Semester 1

CNB290 Building Studies 2

CNB291 Urban Land Economics

CNB292 Property Investment Valuation

CNB293 Real Estate Accounting and Taxation

Year 2, Semester 2

CNB294 Agency Practice and Marketing

CNB295 Planning Theory and Processes

CNB395 Research Methods

CNB297 Property Finance

OR

EFB210 Finance 1

Note: Students who wish to undertake a Finance major should enrol in EFB210

Year 3, Semester 1

CNB390 Professional Practice

CNB391 Statutory and Applied Valuation

EFB307 Finance 2

OR Elective if Finance Major is not taken

Year 3, Semester 2

CNB296 Contemporary Issues

CNB392 Property Investment Analysis

CNB393 Property and Asset Management

CNB394 Property Development

Year 4

CNB490-1 Research Dissertation

CNB490-2 Research Dissertation

EFB202 Business Cycles and Economic Growth

Students must complete the 3 core units above plus

ALL FIVE units from any one of the elective options below

All electives must be approved by the course coordinator prior to year 4 enrolment.

Option 1- Valuation and Analysis

EFB318 Portfolio and Security Analysis

CNB494 Advanced Market Research Analysis

CNB491 Rural Valuation

CNB492 Business and Specialist Valuation

CNB493 Advanced Property Valuation and Analysis

Option 2- Property and Asset Management

CNB494 Advanced Market Research Analysis

EFB318 Portfolio and Security Analysis

CNB495 Strategic Property and Facilities Management

EFB326 Applied Portfolio Management

MGB207 Human Resource Issues and Strategy

Option 3 - Development Management

CNB496 Project Management

CNB497 Project Cost and Risk Management

CNB498 Project Human Resource Management

CNB499 International Project Development Management

EFB312 International Finance

Option 4 - Faculty specified minor

4 Faculty minor electives

Free choice elective

■ **Bachelor of Surveying PS47**

Award title: Bachelor of Surveying

CRICOS code: 016354J

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384

Course coordinator: Dr John Hayes

Discipline coordinator: Mr Kevin Jones

Professional Recognition

Australia: The Bachelor of Surveying degree meets the requirements for membership of The Spatial Science Institute (Incorporating the Institution of Surveyors, Australia, the Institution of Engineering and Mining Surveyors, Australia and the Mapping Sciences Institute, Australia).

Overseas: Surveying graduates are readily accepted internationally.

Minors

Subject to the approval of the course coordinator, students may be able to choose a minor area of study. A minor is a collection of four units, from the one study area, that totals 48 credit points. Students may choose from the list of minors, available from the office of the Faculty of Built Environment and Engineering.

Special Course Requirements

Students are required to attend compulsory field practicals off-campus in the Moreton Region and have access to an advanced scientific calculator for use during the course. Students must obtain at least 90 days of industrial experience/practice in a surveying/mapping environment, approved by the course coordinator.

Course structure

Year 2, Semester 1

- MAB137 Surveying Mathematics 1
- PSB610 Government and Law
- PSB620 Cadastral Surveying and Mapping
- PSB630 Cartography and Digital Mapping

Year 2, Semester 2

- MAB730 Surveying Mathematics 2
- PSB611 Introduction to Urban and Regional Economics
- PSB631 Geographic Information Systems 1
- PSB641 Engineering Surveying

Year 3, Semester 1

- CEB259 Engineering Design for Land Development
- PSB612 Spatial and Land Information Management
- PSB642 Control Surveying and Analysis
- Elective

Year 3, Semester 2

- PSB613 Land Development Principles and Policies
- PSB632 Photogrammetry
- PSB643 Geodesy
- Elective

Year 4, Semester 1

- PSB614 Urban and Rural Design Principles
- PSB633 Map Production: Principles and Practice
- PSB644 Advanced Geodesy
- Elective/Project

Year 4, Semester 2

- PSB615 Urban and Rural Design Practice
 - PSB621 Advanced Cadastral Surveying
 - PSB645 Surveying and Mapping Practice
 - Elective/Project
- Students in this course must complete 90 days industrial experience before graduating.

Recommended Surveying Electives

Year 3, Semester 1

- PSB655 Remote Sensing

Year 3, Semester 2

- PSB652 Topics in Land Administration

Year 4, Semester 1

- PSB655 Remote Sensing
- PSB654 Topics in Spatial Information Science
- PSB650 Project 1

Year 4, Semester 2

- PSB652 Topics in Land Administration

- PSB653 Topics in Surveying Engineering
- PSB651 Project 2

■ **Bachelor of Urban Development (Construction Management) UD40**

Award title:

CRICOS code: 056387B

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr John Hayes

Discipline coordinator: Mr Paul Den Ronden

Special Course Requirements

All students are required to obtain a minimum of 100 days of approved industrial experience.

Professional Recognition

Recognition is being sought from the Australian Institute of Building and the Australian Institute of Building Surveyors.

Minors

For accreditation purposes you are required to undertake specified minors which will include employment practice.

Course structure

Year 1, Semester 1

- BEB100 Introducing Professional Learning
- UDB101 Stewardship of Land
- UDB110 Residential Construction and Engineering
- UDB111 Engineering Construction Materials

Year 1, Semester 2

■ **Bachelor of Urban Development (Property Economics) UD40**

Award title:
CRICOS code: 056387B
Campus: Gardens Point
Duration: 4 years full-time
Credit points: 384 (full-time standard semester: 48)
Course coordinator: Dr John Hayes
Discipline coordinator: Ms Connie Susilawati

Professional Recognition

Both the 3 and 4 year degrees have professional recognition from the Australian Property Institute and the Valuers' Registration Board of Queensland. Professional accreditation for the 4 year degree is currently being sought from the Royal Institution of Chartered Surveyors and the Singapore Institute of Surveyors and Valuers.

Early Exit Option

After completing a designated program you will have the option to exit after 3 years with a Bachelor of Urban Studies (Property Economics). To be eligible for this option, students must advise the Course Coordinator of their intention by the end of Year 2 at the latest.

Majors/Minors

In your final two years you will have the opportunity to undertake a major (8 units) or 2 minors (4 units) from other areas of interest.

Course structure

Year 1, Semester 1

■ **Bachelor of Urban Development (Urban and Regional Planning) UD40**

Award title:

CRICOS code: 056387B

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr John Hayes

Discipline coordinator: Associate Professor Phil Heywood

Professional Recognition

Accreditation with Australian Institute of Quantity Surveyors and the Royal Institution of Chartered Surveyors (honours version only) is currently being sought.

Minors

You will have the opportunity to undertake a minor (4 Units from one discipline area) which can be used to extend your construction knowledge into more advanced and specialised construction issues. Alternately, the minor can be used to broaden students' education by undertaking units from other faculties within the university subject to accreditation requirements.

Course structure

Year 1, Semester 1

BEB100 Introducing Professional Learning
 UDB101 Stewardship of Land
 UDB161 Introduction to Planning and Design
 UDB162 History of Built Environment

■ **Advanced Diploma in Engineering (Mechanical)/Bachelor of Technology (Mechanical) ME37**

Award title: Bachelor of Technology (Mechanical)

CRICOS code:

Campus: Gardens Point

Duration: 3 years full-time

Credit points: 288 (including 120 cp advanced standing)

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Vladis Kosse

Professional Recognition

This course has provisional accreditation from Engineers Australia (EA).

Special Course Requirements

Students must obtain at least 50 days of industrial experience with a minimum of 25 days in a engineering environment approved by the course coordinator.

Course structure

Year 1, Semester 1 - TAFE

MEM30.2A Produce basic engineering graphics (with MEM30.3A)

MEM30.3A Produce engineering drawings (with MEM30.2A)

MEM16.8A Interact with computer technology

MEM12.25B Use graphical techniques & perform simple Statistical computations (with MEM23.41A)

MEM23.41A Apply basic scientific principles and techniques in mechanical engineering situations (With MEM12.25A)

MEM12.24A Perform Computations (with MEM30.12A)

MEM30.12A Apply mathematical techniques (with MEM12.24A)

MEM30.1A Use CAD systems to produce basic engineering drawings

MEM30.7A Select common Engineering Materials (with MEM23.61A Semester 2)

CEA101 Civil engineering maths (Southbank)

Year 1, Semester 2 - TAFE

MEM9.5B Perform basic engineering detail drafting

MEM23.61A Select and test mechanical engineering materials (with MEM30.7A Semester 1)

MEM23.71A Select and Apply mechanical engineering method, processes and construction techniques

MEM30.5A Calculate force systems within simple beam structures

MEM23.41A Apply basic scientific principles and techniques in mechanical engineering situations (continue from semester 1)

CEA108 Advanced Mathematics (Southbank)

Year 2, Semester 1 - TAFE/QUT

MEM30.8A Apply basic economic and ergonomic concepts to evaluate engineering applications

MEM23.81A Apply scientific principles and techniques in mechanical engineering situations

MEM23.3A Operate and program computers and or controllers in engineering situations

MEM30.6A Calculate stresses in simple structures

MEM23.91A Apply mechanical system design principles and techniques in mechanical engineering situations

MEM23.51A Apply Basic electro and control scientific principles and techniques in mechanical manufacturing engineering situations

MAB132 Engineering Mathematics 1B

MMB211 Mechanics 1

Elective

Year 2, Semester 2 - TAFE/QUT

MEM22.1A Perform Engineering Activities (Occupational Health & Safety)

MEM22.1A Perform Engineering Activities (Machining)

MEM22.1A Perform Engineering Activities (Hand & Power tools)

ENB103 Electrical Engineering

MAB136 Engineering Statistics

MMB232 Materials Technology

Year 3, Semester 1 - QUT

EEB220 Electrical Engineering 2M

MMB300 Project 2T

MMB371 Manufacturing Processes

MMB381 Design of Mechanical Components and Machines

Year 3, Semester 2 - QUT

MMB252 Thermofluids

MMB212 Mechanics 2

MMB312 Mechanical Measurement

MMB376 Professional Practice (Engineering Management)

Note:

MMB, EEB and MAB units = QUT units.

■ **Associate Degree in Civil Engineering/Bachelor of Technology (Civil) CE35**

Award title: Bachelor of Technology (Civil)

CRICOS code:

Campus: Gardens Point

Duration: 3 years full-time

Credit points: 288

Course coordinator: Dr R.Mahalinga-Iyer

Discipline coordinator: Dr Jon Bunker

Professional Recognition

The course has provisional recognition by Engineers Australia.

Dual TAFE/QUT Awards

This dual award is a cooperative arrangement between Southbank Institute (SBI) and the Faculty of Built Environment and Engineering, Queensland University of Technology. Initial entry is to a specially designed two-year associate degree at SBI, followed by a third year at QUT, to qualify for the Bachelor of Technology degree. In their second year students study units from QUT and SBI which form part of the Advanced Diploma, and in third year students study one module at SBI together with their QUT units to complete their Bachelor of Technology (Civil) degree.

Subject to final approval.

Special Course Requirements

A candidate for the degree of Bachelor of Technology (Civil) must obtain at least 45 days of industrial experience/practice in an engineering environment approved by the course coordinator.

Course structure

Please Note:

SBIT: 1st Trimester - February-May

2nd Trimester - June-July

OVERVIEW

Business is QUT's largest faculty, attracting over a quarter of the University's enrolments, and is also one of the largest business faculties in Australia.

Through various collaborations with industry and professional bodies, we are a key player in the business community with extensive local and international links.

We are the first business school in Australia to have our business courses accredited by the three leading international bodies – EQUIS (the accrediting body of the European Foundation of Management Development), AACSB International (The Association to Advance Collegiate Schools in Business) and AMBA (the Association of MBAs). This 'triple crown' of international accreditation means your QUT business degree is even better recognised by employers globally.

We know what employers want in today's business graduates - because we ask them. We regularly involve representatives from the business community in the development and review of our courses. And we employ part-time lecturers and tutors currently working in business.

As a student, you will be encouraged to undertake real-world projects to help you develop your own strong links. And you can take advantage of our extensive exchange program and our international study tours options.

This strong practical component of our courses is complemented by our academic excellence. The diversity of interests, experiences, and expertise of our locally and internationally drawn academic staff creates a rich learning and research environment.

Our innovative 'Business Advantage' program develops business graduates who can contribute effectively as citizens, as leaders in the wider community, and as competent professionals within their chosen disciplines. A variety of short programs provide skills in areas such as leadership, teamwork, public speaking and entrepreneurship. The program also provides the opportunity to work with other students on community projects, development programs, and participate in conferences and seminars.

As a QUT business graduate you will enter the business community with the acumen and entrepreneurial skills needed to turn any good idea into a successful enterprise within today's competitive international environment. And you will be able to anticipate the business challenges and opportunities of the future.

Undergraduate

We recognise that in the ever-changing world of business you need a solid foundation in business principles along with the flexibility to pursue studies in multiple areas. Our Bachelor of Business includes eight core units which will equip you with generic skills and competencies for today's business environment. You also have the opportunity to tailor your studies to suit your own needs and career aspirations. Students enrolling at our Gardens Point campus will choose a major from:

- Accountancy
- Advertising
- Banking & Finance
- Economics
- Electronic Business
- Human Resource Management
- International Business

- Management
- Marketing
- Public Relations.

You will then choose other business study areas to steer your future career direction. You can:

- maximise your career options with an added breadth of knowledge by completing another of the business majors
- add a depth of knowledge in your area of interest by extending your studies within the primary business major
- add a flavour or emphasis to your degree with study in another of our business areas.

You will also choose elective units from Business or other faculties within QUT. We encourage you to consider utilising these electives to complete an approved University minor. Double degrees are also a popular option. A number of combinations are available, giving you expanded career options and a competitive edge on graduation.

The Bachelor of Business is also available at the Caboolture campus, with majors in marketing, management, and a minor in small business management.

Our first year program at Carseldine campus allows you to commence study before choosing your business major. At the end of your first year you'll move into their major of choice at our Gardens Point or Caboolture campus.

Postgraduate

There are many reasons for considering postgraduate study. Whether you're looking for career advancement, a change in career direction, personal development, or research opportunities we can help you with postgraduate studies to suit your needs. Choose from:

- Honours
- Graduate Certificate
- Masters (Coursework & Research)
- MBA
- PhD.

Coursework Programs

Our postgraduate programs allow you to enhance your career options by building on existing qualifications, or change careers through study in a different field. For non-degree holders, we offer alternative pathways that build on your work experience.

You can choose from a focused, four-subject Graduate Certificate to a 12-subject coursework Masters qualification in:

- Accountancy
- Advertising
- Applied Finance
- Business Administration (MBA)
- Event Marketing and Management
- Human Resource Management
- Integrated Marketing Communication
- International Business
- Marketing
- Philanthropy & Nonprofit studies
- Public Management
- Public Relations.

Innovative MBA Programs

We also offer one of Australia's most innovative MBAs, giving you greater choice and flexibility when designing your course. With shorter, sharper units, you'll cover a wide

range of core units and have a greater choice of electives. This opportunity for greater depth and breadth of knowledge gives you a distinct career advantage.

The MBA is available in a variety of delivery options including our International MBA, which allows students to complete one semester of study overseas. Our Executive MBA is a tailored program for more experienced managers offered in an intensive, flexibly delivered format.

Our MBA was one of three Australian MBAs to be recognised in the 'Top 100 MBAs of 2004' in the *Financial Times*, and in 2005 was ranked as a 'top tier' Australian MBA program by the *BOSS* magazine from the *Australian Financial Review*.

Extensive Research Opportunities

As well as being highly respected for the quality of our postgraduate coursework teaching, the Faculty also provides extensive research opportunities.

Our researchers engage in collaborative, cross disciplinary research that impacts on the domestic and international business communities. The Australian Centre for Business Research, housed within the Business Faculty, links QUT's business research strengths to solving industry, government and community problems.

We also offer professional development programs, and contract research and consultancy services. And because we believe in giving something back to the community, our staff - individually and in groups - engage in a wide range of community service activities.

We are a business faculty for the real world.

SENIOR STAFF

Faculty Office

Executive Dean: Professor P. Little, LLB LLM Qld, PhD Bond

Assistant Dean/Director of Accreditations: Associate Professor L. Simpson, DipT Mt Gravatt CAE, BEd Brisbane CAE, MEd James Cook

RESEARCH CENTRES

Australian Centre for Business Research

The Australian Centre for Business Research, established in 2003, is a Centre of excellence in business research in Australia and conducts leading research that impacts on both the domestic and international research and business communities. The Centre supports four Major Programs which undertake large scale, high profile research in:

- Applied Modelling in Economics and Finance Research Program;
- Service Leadership and Innovation Research Program;
- Work Effectiveness Research Program; and
- Work and Industry Futures Research Program.

The Faculty fosters a vibrant research community that achieves excellence in targeted areas of business research and supports collaborative, cross-disciplinary and new research to inform and serve business, industry, government and the community. The Centre supports all postgraduate research study undertaken within the Faculty.

Enquiries to Jenny Worthington, Senior Administration Officer, Research Support Office.

Phone 07 3138 1407

Email bus.research@qut.edu.au

Centre for Philanthropy and Nonprofit Studies

The Centre for Philanthropy and Nonprofit Studies was established in 2001 as a QUT Collaborative Centre, and aims to bring to the community the benefits of teaching, research, technology and service relevant to philanthropic and nonprofit communities.

The Centre builds on the work of the Program on Nonprofit Corporations (PONC) established in the School of Accountancy within the Faculty of Business in 1991. Between 1991 and 2001 the Program involved various QUT staff in research, consultancy and community service in the areas of law, tax, management, marketing, fundraising and ethics of nonprofit, and philanthropic organisations.

Director: Professor Myles McGregor-Lowndes, BA LLB Qld, MAdmin PhD *Griff, JP*, Solicitor of Supreme Court of Queensland and High Court of Australia

GSN404 Financial Statements Analysis 1

Required Units:

GSN427 Financial Statement Analysis 2

Elective units:

Choose 48 credit points from the following elective units:

AYN417 Financial Accounting 2
AYN414 Cost and Management Accounting
AYN418 Financial Accounting 3
AYN424 International Accounting
AYN439 Management Accounting
AYN443 Electronic Commerce Cycles

Economics

Core Units:

GSN491 Economics in Business 1

Required Units:

GSN492 Economics in Business 2

Elective units:

Choose 48 credit points from the following elective units:

BSN506 Econometric Methods
EFN410 Economic and Financial Modelling
EFN500 Contemporary Macroeconomic Theory
EFN502 Developments in Microeconomic Theories

Students undertaking EFN500 and EFN502 would need to have completed the equivalent of a second year undergraduate degree at a recognised University. This would involve completing intermediate undergraduate macro and micro economics at the very least.

Entrepreneurship

Core Units:

GSN410 Entrepreneurship
GSN416 Business Plans 1
GSN460 Creative Problem Solving

Required Units:

GSN420 New Venture Strategy
GSN426 Business Plans 2
GSN429 New Venture Marketing
GSN430 New Venture Funding

Elective units:

Choose 18 credit points from the following elective units:

GSN427 Financial Statement Analysis 2
GSN431 New Venture Growth and Transitions
GSN432 New Venture Leadership and HRM
GSN434 Venture Capital
GSN479 Spreadsheet Modelling for Managers
GSN494 Innovating for Business Competitiveness

Finance

Core Units:

GSN413 Financial Management 1
GSN491 Economics in Business 1

Required Units:

GSN423 Financial Management 2

Elective units:

Choose 42 credit points from the following elective units:

GSN430 New Venture Funding

GSN434 Venture Capital
GSN479 Spreadsheet Modelling for Managers
GSN492 Economics in Business 2
EFN401 Advanced Financial Institutions Management
EFN412 Advanced Managerial Finance
EFN414 International Finance
EFN415 Security Analysis
EFN416 Treasury and Portfolio Management
EFN417 An Introduction to International Finance
EFN501 Corporate and Commercial Lending
EFN506 Advanced International Finance

Information Technology Management

Core Units:

GSN490 Managing Technological Innovation

Required Units:

GSN470 E-Business

GSN470 E-Business is no longer offered. However, it may be counted toward this major.

Elective units:

Choose 48 credit points from the following elective units:

GSN447 Strategic Internet Marketing 1

ITN220 Major Issues in Information Systems

ITN252 Process Engineering

ITN255 Knowledge Management

ITN266 Information Management

ITN272 Information Technology Project Management

ITN330 Information Issues and Values

Research Studies

Required Units:

BSN501-1 Dissertation

BSN501-2 Dissertation

BSN501-3 Dissertation

BSN501-4 Dissertation

BSN502 Research Methodology

Plus either

AMN403 Marketing and Survey Research

or

BSN412 Qualitative Research and Analytical Techniques

Elective Units:

Students choose 24 credit points of elective units in chosen area of research (selected from required and elective units in the GS40 MBA concentration and minor list, or other units offered within the Faculty of Business and other Faculties at QUT, with the permission from the MBA Director)

■ Master of Business Administration (MBA) GS75

Award title: Master of Business Administration

CRICOS code: 045502F

Campus: Gardens Point

Duration: 3 semesters (1.5 years. Study will not be undertaken during Summer Program) full-time

Students are required to undertake 15 core units and 2 integrative core units of 6 credit points each and a further 42 credit points of elective units.

The intake for the EMBA is in December and the program runs for 22 months. Classes are scheduled once a month over a Friday to Sunday weekend session, with 20 hours of classes per weekend session each month of the program plus two residential sessions of 10-14 days in January of each year. The intensive block sessions allow the students to schedule some dedicated time to study with minimal interference to their business commitments.

One intensive sessions of 13-15 days is scheduled each January which includes an International Study Tour to China.

For more information about the EMBA, consult the BGSB web site at www.bgsb.qut.edu.au/mbaprograms/mbaexec/index.jsp

Students must complete the following 15 core units:

GSN401 Managing in the Global Business Environment

GSN403 Understanding Data

GSN404 Financial Statements Analysis 1

GSN405 Strategic Management

GSN406 Human Resource Management Issues

GSN407 Business Communication

GSN408 Fundamentals of Marketing Management

GSN409 Organisational Behaviour 1

Plus two Integrative core units:
GSN416 Business Plans 1
GSN473 Corporate Governance and Accountability

Plus the following 42 credit points of Elective Units:
GSN425 Leadership Development
GSN428 International Study Tour
GSN455 Special Topic 3
GSN462 Negotiation Strategies
GSN474 Strategy Planning & Development
GSN480 Business Sustainability and Competitive Advantage
GSN496 Public Relations and Crisis Management

Students may choose other electives available in the weekday delivery schedule.

Concentration and minors may be attainable through the choice of elective units other than those listed above. Concentrations and minors are listed within the GS40 Master of Business Administration course structure.

■ International Master of Business Administration GS44

Award title: Master of Business Administration

Campus: Gardens Point

Duration: 3 semesters. Normally, the course can be completed in 14-16 months. full-time

Credit points: 144 (full-time standard semester: 48)

Course coordinator: Dr Lyndal Drennan, MBA Director.
Email: bgsbenq@qut.edu.au

Course Structure

Students must complete 144 credit points. The IMBA course structure is equivalent to that of the existing MBA structure, where the equivalent of one semester full-time study is undertaken at three institutions.

Students undertake studies at QUT and select two of the following partner institutions: ESC-Grenoble, (France); Shanghai Jiao Tong, (China); Copenhagen Business School, (Denmark); Jönköping International Business School, (Sweden); and the Indian Institute of Management-Bangalore, (India).

Each student will be required to write a major paper (12cp) of Master's level standard relating to doing business with each of the overseas countries in which they study, under the supervision of a QUT academic, and submit it for evaluation by that QUT academic for credit to their MBA program.

Units to be completed at QUT:

Core Units:

GSN401 Managing in the Global Business Environment
GSN403 Understanding Data
GSN404 Financial Statements Analysis 1
GSN412 Business Law 1
GSN460 Creative Problem Solving
GSN490 Managing Technological Innovation

Plus 2 Integrative Core units:

GSN416 Business Plans 1
GSN473 Corporate Governance and Accountability

Plus 2 Required units:
GSN221 Special Topic 1
GSN222 Special Topic 2
Or
IBN403 Business in Asia
IBN404 Business in Europe

Units to be completed at other universities#:

Core Units:

GSN405 Strategic Management
GSN406 Human Resource Management Issues
GSN407 Business Communication
GSN408 Fundamentals of Marketing Management
GSN409 Organisational Behaviour 1
GSN410 Entrepreneurship
GSN413 Financial Management 1
GSN415 Understanding Leadership
GSN491 Economics in Business 1

Plus Elective units:

18 credit points of elective units

#units are subject to availability at partner institution. Students may need to complete some of these units at QUT and/or may take the following units at the respective partner institution, in order to meet the program requirements:

GSN401 Managing in the Global Business Environment
GSN403 Understanding Data
GSN404 Financial Statements Analysis 1

■ Graduate Certificate in Business Administration GS42

Award title: Graduate Certificate in Business Administration

CRICOS code: 031575D

Campus: Gardens Point

Duration: 1 semester. The course must be completed within a maximum time period of two years. full-time or 2 semesters. The course must be completed within a maximum time period of two years. part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Lyndal Drennan, MBA Director:
email: mbadirector@qut.edu.au

Course Structure

Students must complete a minimum of 6 units (36 credit points) from the MBA core and no more than 12 credit points of elective units.

BGSB offers six credit point units, delivered in seven-week modules giving students the flexibility to commence study at the beginning or mid-point of any semester, offering six different entry points each year.

Students who successfully complete the Graduate Certificate in Business Administration program with a GPA of 4.5 or above (on a 7 point scale) may enrol in the Master of Business Administration (MBA).

Students have two options within this program:

Option 1:

Select a minimum of 6 units from the following MBA core units plus no more than 12 credit points of any postgraduate business unit approved by the MBA Director:

BSN501-2 Dissertation

BSN501-3 Dissertation

BSN501-4 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

Banking and Finance

Students must complete three prescribed units (36 credit points), one elective (12 credit points), and a dissertation (48 credit points).

One Compulsory Core Unit:

BSN506 Econometric Methods

Plus two Banking and Finance Units:

EFN504 Finance Honours
EFN505 Financial Risk Management

Plus choose one Elective unit:
The elective unit may be taken from any postgraduate unit offered by the School of Accountancy or School of Economics and Finance subject to the approval of the Course Coordinator or Head of School

Plus
BSN501-1 Dissertation
BSN501-2 Dissertation
BSN501-3 Dissertation
BSN501-4 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

Economics

Students must complete three prescribed units (36 credit points), one elective (12 credit points), and a dissertation (48 credit points).

One Compulsory Core Unit:
BSN506 Econometric Methods

Plus two Economics Units:
EFN500 Contemporary Macroeconomic Theory
EFN502 Developments in Microeconomic Theories

Plus one Elective unit:
The elective unit may be taken from any postgraduate unit offered by the School of Accountancy or School of Economics and Finance, subject to the approval of the Subject Area Coordinator or Head of School

Plus
BSN501-1 Dissertation
BSN501-2 Dissertation
BSN501-3 Dissertation
BSN501-4 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

Human Resource Management

Students must complete four units (48 credit points) and a dissertation (48 credit points)

Two Compulsory Core Units:
BSN502 Research Methodology
BSN503 Research Seminar

Plus two of the following units:
MGN506 Contemporary Issues in HRM
MGN508 HRM Cases

Elective unit
The elective unit may be undertaken from any 12 credit point postgraduate unit offered in the School of Management or other postgraduate unit, with the approval of the subject area coordinator.

Plus
BSN501-1 Dissertation
BSN501-2 Dissertation
BSN501-3 Dissertation
BSN501-4 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

International Business

Students must complete two prescribed units (24 credit points), two electives (24 credit points), and a dissertation (48 credit points).

Two Compulsory Core Units:
BSN502 Research Methodology
BSN503 Research Seminar

Plus two Elective units:
The elective units may be taken from any 12 credit point postgraduate unit offered by the School of International Business, in the specialisation area (International Business), subject to the approval of the Subject Area Coordinator

Plus
BSN501-1 Dissertation
BSN501-2 Dissertation
BSN501-3 Dissertation
BSN501-4 Dissertation

Whilst enrolled in part one of the Dissertation (BSN501-1) students are required to present a seminar detailing their research proposal.

Management

Students must complete four prescribed units (48 credit points) and a dissertation (48 credit points)

Two Compulsory Core Units:
BSN502 Research Methodology
BSN503 Research Seminar

Plus two of the following units:
MGN501 Readings in Management
MGN507 Contemporary Issues in Management

Elective unit
The elective unit may be undertaken from any 12 credit point postgraduate unit offered in the School of Management or other postgraduate unit, with the approval of the subject area coordinator.

Plus

(C) SPECIALISATIONS

Students should note that not all specialisations will be timetabled in every year or semester. Hence, it is important that you confirm that the specialisation in which you are interested is offered. Students are also able to undertake an Interfaculty Specialisations (IFS) with the approval of the Director of Undergraduate Studies. Full details are available from the Faculty of Business Student Enquiries Counter, level 4, Z Block, Gardens Point or on (07) 3138 2050 or via bus@qut.edu.au

- Business Law and Tax (BLS) for Business students without an Accountancy Major.
- Financial Economics (FES) for Business students without an Economics or Banking & Finance Major.
- Integrated Marketing Communication (IMS) for Business students with any major.
- Language (LGS) for Business students with any major. Students may study French, German, Indonesian or Japanese, or also seek approval to undertake a different language at another tertiary institution. Students undertaking a language specialisation must complete a minimum of four language units, plus either; two additional language units; or IBB205 Cross Cultural Communication & Negotiation, and one other International Business unit, provided pre-requisite requirements are met.

Special Requirements

A full-time student may only enrol in units selected from those contained in the normal course program for semesters 1 and 2 in the first year of study unless in exceptional circumstances, and with the approval of the Executive Dean of Business. Similarly, a part-time student may only select units from those listed for years 1 and 2 in the first two years of study.

A student must enrol for more than one unit in any semester, unless they have the approval of the Executive Dean. Copies of the Undergraduate Guidelines outlining the faculty rules and procedures are available from the Faculty of Business Student Enquiries Counter at Gardens Point in Z407, or Carseldine in C301.

Definitions

Double Major: a second major core (six units) chosen from (B) above. Six units must be completed for a double major. When a unit is common to both majors, or a unit that is incompatible has already been completed an alternative

double major option unit must be substituted. Approval for the substitute unit should be sought from the Major Coordinator.

Extended Major: an additional group of six specified units in the same discipline area as the primary major core. A list of possible extended majors are provided with the respective primary major structures.

Specialisation: a coherent group of six specified units in a discipline area. Specialisations for business students may be chosen from a number of areas (refer to C above). Six units must be completed for a specialisation. When a unit is common to the major and specialisation, or when a unit that is incompatible has already been completed An alternative specialisation option unit must be substituted. Approval for the substitute unit should be sought from the Major Coordinator.

Elective: a unit of 12 credit points chosen from any degree course at QUT including approved degree level study tours. Electives may also be taken at other recognised universities if the student obtains written approval from the Course Coordinator and the Head of School.

Prescribed unit: a 12 credit point unit (HHB116 Applied Skills and Scholarship) that all students commencing at Carseldine campus must undertake to develop their generic study and learning competencies.

Discipline coordinator: Ms Ros Kent

BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

Other Majors

See also separate entries for the following majors in this course: Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing, and Public Relations.

Professional Recognition

Students completing the Bachelor of Business (Accountancy) degree with an extended major in Professional Accounting meet the academic requirements for Associate membership of CPA Australia and enrolment in the CPA program and the academic requirements for enrolment in the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA).

Students completing the Bachelor of Business (Accountancy) degree with an extended major in Business Law and Tax will need to select the following elective units to meet the academic requirements for Associate membership of CPA Australia and enrolment in the CPA program and the academic requirements for enrolment in the Chartered Accountants Program of the Institute of Chartered Accountants in Australia:

- EFB210 Finance 1, and

- AYB311 Financial Accounting Issues or AYB321 Strategic Management Accounting

The School of Accountancy strongly recommends students undertake both AYB311 Financial Accounting Issues and AYB321 Strategic Management Accounting.

Students will also meet the academic requirements for enrolment in the Graduate Diploma in Applied Corporate Governance at the Chartered Secretaries Australia (CSA). On completion of the Graduate Diploma in Applied Corporate Governance, students will meet the academic requirements for professional membership of the Chartered Secretaries Australia (CSA). These programs are also accredited with the Tax Agents' Board of Queensland.

Students completing the Accountancy major in combination with another business major may meet professional body (CPA Australia/ICAA) requirements by undertaking specified QUT units (normally four) as electives in the course. For further information on professional recognition for double majors and the required units that must be studied as electives, please contact the School of Accountancy on (07) 3138 5292 or email accenq@qut.edu.au

Please note that students with advanced standing (i.e. academic credit) may be required to undertake additional studies in order to meet professional body requirements. Students must also comply with CPA Australia and ICAA policy on conceded and terminal passes.

Year 6, Semester 1

MGB309 Strategic Management

Elective unit

Year 6, Semester 2

Double Major/Extended Major/Specialisation unit

Elective unit

The unit MGB220 Management Research Methods and AMB201 Market and Audience Research are incompatible units. Students undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From semester 2, 2003 students who complete both AMB201 & MGB220 will be required to undertake an approved substitute unit to satisfy course requirements.

■ **Bachelor of Business (International Business) BS56**

Award title: Bachelor of Business (International Business)

CRICOS code: 003491G

Campus: Gardens Point and Carseldine

Duration: 3 years full-time or 6 years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Mr Andrew Paltridge

Discipline coordinator: Dr Beverley Kitching

BS56 Course Notes

See BS56 Course Notes entry for information about the course design and definitions.

Other Majors

See also separate entries for the following majors in this course: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, Management, Marketing, and Public Relations.

Languages Option

The course structure for both full-time and part-time International Business students varies depending on whether languages are selected as an option. Alternative course structures are included: one outlines the course structure if no languages are taken, the other outlines the structure for those who wish to undertake a language specialisation. If languages are taken as a specialisation, language units should commence in the first semester of the first year to maintain continuity from earlier pre-QUT language studies. All language units must normally be taken in the same language. International students must take a language that is not their native tongue.

Full-time Course Structure

Year 1, Semester 1

BSB113 Economics

BSB115 Management, People and Organisations

BSB119 International and Electronic Business

BSB126 Marketing

Year 1, Semester 2

OVERVIEW

QUT Creative Industries has a distinctive reputation for its strong vocational focus, links with industry, and breadth of course offerings throughout a growing and changing industry sector.

Exciting creative industries study areas include:

- Acting and Technical Production
- Communication Design
- Creative Writing and Cultural Studies
- Dance
- Fashion
- Film and Television
- Journalism
- Media and Communication
- Music and Sound
- Performance Studies
- Visual Arts

The faculty offers the following undergraduate degree programs:

- Bachelor of Fine Arts degrees characterised by intense studio and/or project-based practice
- Professional Bachelor of Creative Industries degrees that offer a balance between theory and practice with a strong industry focus applied
- Bachelor of Creative Industries that provides flexibility to design your own degree across various study areas
- Accelerated double degree programs with the Faculties of Business, Education, Information Technology and Law.
- Postgraduate coursework programs including graduate certificates, graduate diplomas, masters and doctorates offer students a strong conceptual and practical framework. Postgraduate research is applied in nature and encourages collaborative and interdisciplinary approaches creating innovative partnerships between students, academics, industry experts and sponsors.

Working closely with partners from government and industry, the Faculty has positioned itself as a leader in the development of creative industries and aims to become an internationally networked hub of creative enterprise.

RESEARCH CENTRES

Postgraduate research at the Creative Industries Faculty provides a focus for the ongoing development of the creative industries as an industry sector through applied real-world research. The Faculty provides a strategic and inspiring environment for postgraduate research training.

Priority research areas include:

- Industry and policy research in the creative industries
- Interaction design
- Computer games research and design
- Music production technology
- Performance innovation
- Educational media and learning services
- Visual arts and design
- Indigenous creative enterprise
- Film and television production
- Journalism
- Creative writing
- Chinese media and the media of the region
- Community media.

Research at the Creative Industries Faculty is boosted through its association with the Australasian Cooperative Research Centre for Interaction Design (ACID) and a new Australian Research Council Centre of Excellence for Creative Industries and Innovation.

The Creative Industries Faculty is also the lead agency in the Institute for Creative Industries and Innovation (iCi) which is a new multi-faculty research institute at QUT. iCi

combines researchers and PhD students from Creative Industries, Business, Information Technology, Education, Law, Built Environment and Engineering, and QUT Carseldine in groundbreaking research and commercialisation ventures.

■ **Doctor of Creative Industries KK49**

Award title: Doctor of Creative Industries

CRICOS code: 046050K

Campus: Kelvin Grove

Duration: Normal enrolment is 6 semesters - this can vary depending on entry requirements. full-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Brad Haseman

Course Structure

The course comprises two components - coursework and Professional projects.

Coursework is taken at the beginning of candidature and provides candidates with the essential conceptual tools they need for doctoral level analysis and reflection on their Professional practice and related contextual factors. Candidates will design, implement and evaluate a number of Professional projects during the period of their candidature. The scale, scope and focus of these projects will be determined in consultation with supervisors.

■ **Master of Arts (Research) (Creative Industries) KK51**

Award title: Master of Arts (Research)

CRICOS code: 046055E

Campus: Kelvin Grove

Duration: Entry with 3 year qualification 1.5 years full-time; Entry with 4 year qualification (Honours) 1 year full-time full-

time or Entry with 3 year qualification 3 years part-time; Entry with 4 year qualification (Honours) 2 years part-time part-time

Credit points: 3-year qualified entry: 144; 4 year qualified entry: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Brad Haseman

Course Structure

*** ENTRY WITH 3 YEAR QUALIFICATION: (Bachelors degree or equivalent)**

Students normally will undertake 48 credit points of coursework and a 96 credit point research project.

*** ENTRY WITH APPROVED 4 YEAR QUALIFICATION: (Bachelors degree plus Honours/Graduate Diploma or equivalent)**

Students will not normally undertake coursework units, unless otherwise recommended by the Discipline Coordinator. They will be required to undertake a 96 credit point research project or thesis.

With approval from the relevant Discipline Coordinator, instead of undertaking 96 credit points of research, students may enrol in 12 or 24 credit points of course work, and reduce the weighting of their research project to 84 or 72 credit points.

Research Component

Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7,500-10,000 words).

Students can undertake:

- a significant creative work such as a theatrical or musical production
- a work of fiction or non-fiction
- a screen-based script or production
- a multimedia script or production.

Any project likely to involve University resources must have the support of the appropriate Head of Discipline.

All Disciplines - with 4-year qualified entry

Semester 1

KKP614-1 Research Project

KKP614-2 Research Project

KKP614-3 Research Project

KKP614-4 Research Project

Semester 2

KKP614-5 Research Project

KKP614-6 Research Project

KKP614-7 Research Project

KKP614-8 Research Project

Dance, Drama, Music, Visual Arts, Communication Design - with 3-year qualified entry

Semester 1

KKP601 Approaches to Enquiry in the Creative Industries

KKP614-1 Research Project

KKP614-2 Research Project

KVP400 Contemporary Aesthetic Debates

Semester 2

KKP614-3 Research Project

KKP614-4 Research Project

KKP614-5 Research Project

Elective

Note: An elective of 12 credit points is chosen by students, in consultation with their Principal Supervisor from university wide offerings.

 KKN330 Workplace Learning
 KKN340-1 Workplace Learning
 KKN340-2 Workplace Learning
 LWN153 Select Issues in Art, Culture and the Law

■ **Master of Creative Industries (Communication Design) KI43**

Award title: Master of Creative Industries (Communication Design)

CRICOS code: 031870G

Campus: Kelvin Grove

Duration: 3 semesters full-time or 6 semesters part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Michael Docherty

Discipline coordinator: Associate Professor Michael Docherty

Entry Requirements

A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate, with the possibility of articulation into the Masters degree if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

Advanced standing for prior study and/or Professional experience is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points. Students seeking articulation to the Masters must successfully complete the Graduate Certificate with a grade point average of 4.5 or above.

■ **Master of Creative Industries (Dance Teaching) KD42**

Award title: Master of Creative Industries (Dance Teaching)

CRICOS code: Not required

Campus: External

Duration: 3 semesters and summer (by correspondence and residencies) full-time or 6 semesters (by correspondence and residencies) part-time

Credit points: 144 (full-time standard semester: 48)

Course coordinator: Ms Lesley Graham

Discipline coordinator: Assoc Prof Cheryl Stock

Course Structure

Masters students complete ten units. It is required that Masters students complete the units, The Reflective Practitioner 1 and Professional Practice Project, in the final semester/s of the course.

Students are required to complete 10 units. There are nine core units and one elective unit. It is recommended that

students complete the units The Reflective Practitioner 1 and Professional Practice Project in the final two semesters of the course. The Reflective Practitioner should be undertaken prior to the Professional Practice Project.

Full time students

In the first year of the course students should select three to four units from both First and Second Semester, and both units in the Summer Program.

Part time students

Select two units from both First and Second Semester, and either one or both units in the Summer Program.

Semester 1

- KDP401 Safe Dance Practice
- KDP402 Professional Practice and Business Administration for Dance Teachers
- KDP403 Dance Teaching Methodologies
- KDP404 Dance Analysis and Dance Histories
- KDP410 Professional Practice Project
- KKP602 The Reflective Practitioner 1 (KKP602 includes an on-campus intensive component)

Semester 2

- KDP401 Safe Dance Practice
- KDP402 Professional Practice and Business Administration for Dance Teachers
- KDP403 Dance Teaching Methodologies
- KDP405 Dance Assessment and Reporting
- KDP406 Stagecraft and Costume for Dance
- KDP410 Professional Practice Project
- KKP602 The Reflective Practitioner 1 (KKP602 includes an on-campus intensive component)

Summer Program

Both of the below units are offered via an on-campus intensive in Brisbane, Australia.

- KDP407 Dance Teaching Studies 1
- KDP408 Dance Teaching Studies 2

■ **Master of Creative Industries (Drama Teaching) KT42**

Award title: Master of Creative Industries (Drama Teaching)

CRICOS code: 046674M

Campus: Kelvin Grove

Duration: 3 semesters full-time or 6 semesters part-time (part-time mode may not be available by evening study)

Credit points: 144 (full-time standard semester: 48)

Course coordinator: Judith McLean; Administrator: Sandra Gattenhof

Discipline coordinator: Judith McLean

Full-time Course Structure

Year 1, Semester 1

- KTP401 Contemporary Performance

- KWB204 Creative Non-Fiction: Life Writing
- KWB206 Youth and Children's Writing
- KWB303 Writing and Publishing Industry
- KWP400 Creative Writing: Novel and Genre
- KWP401 Media Writing
- KWP402 Persuasive Writing
- KWP403 Creative Writing: The Short Story
- KWP404 Editing and Developing the Manuscript
- KWP405 Corporate Writing and Editing

■ **Graduate Diploma in Music KM36**

Award title: Graduate Diploma in Music
CRICOS code: 034717D
Campus: Kelvin Grove
Duration: 2 semesters full-time or 4 semesters part-time
Credit points: 96
Course coordinator: Adjunct Professor Richard Vella
Discipline coordinator: Prof. Andy Arthurs

Course Structure

Pathway: Music Composition for the Creative Industries

- KMB105 Music and Sound Technology
- KMB107 Sound and Image
- KMB108 Sound Recording and Acoustics
- KMB212 Arranging
- KMB301 The Music Industry
- KMP405 Materials of Music
- KMP415 Independent Project

Pathway: Music and Media Technologies

- KMB105 Music and Sound Technology
- KMB108 Sound Recording and Acoustics
- KMB205 Sound Media Musicianship
- KMB301 The Music Industry
- KMP400 Digital Recording
- KMP402 Music and Sound for Digital Media

- KMP415 Independent Project
- KKB007 Introduction to Multimedia Technology

Pathway: Instrumental Music Teaching/Music Coaching

- KMB101 Music (Primary/Instrumental) Curriculum Studies 1
- KMB102 Music (Primary/Instrumental) Curriculum Studies 2
- KMB209 Conducting
- KMB212 Arranging
- KMP403 Multi-Instrumental Studies 1
- KMP404 Multi-Instrumental Studies 2
- OR
- KMB003 Sex Drugs Rock 'n' roll
- KMP415 Independent Project

Other music units available for selection:

- KMB002 Music and Spirituality
- KMB004 World Music
- KMB101 Music (Primary/Instrumental) Curriculum Studies 1
- KMB102 Music (Primary/Instrumental) Curriculum Studies 2
- KMB103 Music (Primary/Instrumental) Curriculum Studies 3
- KMB107 Sound and Image
- KMB201 Music (Secondary) Curriculum Studies 1
- KMB202 Music (Secondary) Curriculum Studies 2
- KMB203 Music (Secondary) Curriculum Studies 3

These are suggested pathways. Under advice from the Coordinator, students may choose from other units on the page.

■ **Graduate Certificate in Arts and Creative Industries Management IF01**

Award title: Graduate Certificate in Arts and Creative Industries Management
CRICOS code: 056187K
Campus: Gardens Point and Kelvin Grove
Duration: 1 semester full-time or 2 semesters part-time
Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Associate Professor Terry Flew

Full-time Course Structure

- Semester 1**
- KCP401 Creative Industries: Theory and Policy
 - KKP402 Business Development in Creative Industries
 - KTP406 Creative Industries: Events and Festivals
 - KTP408 Marketing Arts and Culture
 - OR
 - KTP409 Arts and Cultural Management

Part-time Course Structure

- Semester 1**
- KCP401 Creative Industries: Theory and Policy
 - KKP402 Business Development in Creative Industries
- Semester 2**
- KTP406 Creative Industries: Events and Festivals
 - KTP408 Marketing Arts and Culture
 - OR
 - KTP409 Arts and Cultural Management

■ **Graduate Certificate in Creative Industries (Communication Design) KI35**

Award title: Graduate Certificate in Creative Industries (Communication Design)
CRICOS code: 043124K
Campus: Kelvin Grove
Duration: 2 semesters part-time
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Associate Professor Michael Docherty

Discipline coordinator: Associate Professor Michael Docherty

Part-time Course Structure

Semester 1

KIP401 Foundations of Communication Design 1
KIP403 Media Technology 1

Semester 2

KIP402 Foundations of Communication Design 2
KIP404 Media Technology 2

■ **Graduate Certificate in Creative Industries (Creative Writing) KW35**

Award title: Graduate Certificate in Creative Industries (Creative Writing)

CRICOS code: 040322F

Campus: Kelvin Grove

Duration: 1 semester full-time or 2 semesters (part-time mode of this course may not be available by evening study) part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Philip Neilsen

Discipline coordinator: Associate Professor Philip Neilsen

Full-time Course Structure

Year 1, Semester 1

Please note: Some of the below units run in Semester 1 only and some run in semester 2 only. Click on each of the unit codes for specific information on semester(s) of offer.

KWP400 Creative Writing: Novel and Genre
OR

KWP404 Editing and Developing the Manuscript
Plus choose three of the following:

- KWB101 Introduction to Creative Writing
- KWB105 Film and Television Scriptwriting
- KWB107 Introduction to Creative Non-Fiction
- KWB201 Creative Writing: Digital Media
- KWB204 Creative Non-Fiction: Life Writing
- KWB206 Youth and Children's Writing
- KWB303 Writing and Publishing Industry
- KWP401 Media Writing
- KWP402 Persuasive Writing
- KWP403 Creative Writing: The Short Story
- KWP405 Corporate Writing and Editing
- KWP406 Creative Writing: The Novel

Note:

Please check semester of offer when enrolling in units.

It is recommended that students complete KWP406 Creative Writing: The Novel before KWP400 Creative Writing: Novel and Genre, if possible, as KWP406 helps prepare for KWP400.

Part-time Course Structure

Note:

You may do one, two, or three units in a semester, chosen from the same list as for the full-time structure. The only compulsory unit is KWP400 Creative Writing: Novel and Genre or KWP404 Editing and Developing the Manuscript.

■ **Graduate Certificate in Creative Industries (Dance Teaching) KD35**

Award title: Graduate Certificate in Creative Industries (Dance Teaching)

CRICOS code: Not required

Campus: External

Duration: 1 semester full-time; 2 semesters part-time external

Credit points: 48

Course coordinator: Ms Lesley Graham

Discipline coordinator: Assoc Prof Cheryl Stock

Course Structure

Students enrolling in the four-unit Graduate Certificate course will need to complete the core units: Safe Dance Practice, and Professional Practice and Business Administration for Dance Teachers, plus two others from the list of four units. It is recommended students consider Dance Teaching Methodologies as one of their unit choices.

Full-time Students

Select 4 units (2 core and 2 electives) from first or second semester.

Students can replace one elective from Semester 1 or 2 with a residency unit in the Summer Program.

Part-time Students

Select 4 units (2 core and 2 electives) across first and second semester.

Students can replace one elective from Semester 1 or 2 with a residency unit in the Summer Program.

Semester 1

Core Units

KDP401 Safe Dance Practice

KDP402 Professional Practice and Business Administration for Dance Teachers

Electives

KDP403 Dance Teaching Methodologies

KDP404 Dance Analysis and Dance Histories

Semester 2

Core Units

KDP401 Safe Dance Practice

KDP402 Professional Practice and Business Administration for Dance Teachers

Electives

KDP403 Dance Teaching Methodologies

KDP405 Dance Assessment and Reporting

Summer Program

KDP407 Dance Teaching Studies 1

(intensive residency in Brisbane, Australia)

Note:

Students should contact the Course Coordinator to discuss their enrolment program.

■ **Graduate Certificate in Creative Industries (Drama Teaching) KT35**

Award title: Graduate Certificate in Creative Industries (Drama Teaching)

CRICOS code: 046043J

Campus: Kelvin Grove

Duration: 1 semester full-time or 2 semesters (part-time mode of this course may not be available by evening study) part-time

Credit points: 48

Course coordinator: Associate Professor Adrian Thomas

Discipline coordinator: Dr Paul Makeham

Full-time Course Structure

Year 1 - Commencing in semester one

KTP401 Contemporary Performance

KTP402 Teaching Drama From 1-10

Select two units from List A

OR

Year 1 - Commencing in semester two

Select two of the following core units

KTP403 Performing Narratives

KTP404 Applying Information Technology in the Drama Classroom

KTP405 Implementing Drama From 1-10

AND

Select two units from List A

Part-time Course Structure

Year 1, Semester 1

KTP401 Contemporary Performance

KTP402 Teaching Drama From 1-10

Year 1, Semester 2

Select two from the following core units:

KTP403 Performing Narratives

KTP404 Applying Information Technology in the Drama Classroom

KTP405 Implementing Drama From 1-10

Year 2, Semester 1

Select two units from List A

Year 2, Semester 2

Select two units from List A

List A - Electives

KKP601 Approaches to Enquiry in the Creative Industries

KKP616 Independent Study

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:
 KVB102 Modernism
 KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)
 KVB108 Contemporary Asian Visual Culture
 KVB110 2D Media and Processes
 KVB111 3D Media and Processes

KVB304 Contemporary Art Issues
 KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:
 KVB102 Modernism
 KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor. KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History
 DAB420 Architecture, Culture and Space (required) (from 2007)
 DAB325 Architecture in the 20th Century (from 2007)
 DAB525 Architecture and the City (from 2008)
 KVB212 Australian Art, Architecture and Design
 KVB307 Theories of Spatial Culture

Communication

Introductory Units:
 KCB101 Communication in the New Economy
 KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 OR
 KWB106 Corporate Writing and Editing
 KCB104 Media and Communications Industries
 KCB105 Media and Communication Research Methods
 KCB302 Political Communication
 KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units
 KWB101 Introduction to Creative Writing
 KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 KWB103 Persuasive Writing
 KWB104 Creative Writing: The Short Story
 KWB106 Corporate Writing and Editing
 KWB107 Introduction to Creative Non-Fiction
 KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
 BSB126 Marketing
 KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations
 KTB061 Creative Industries Management
 KTB062 Creative Industries Events and Festivals
 KTB104 Performance Innovation
 KTB306 Directing for Events and Festivals
 MGB223 Creating New Enterprises

Dance

Introductory Units
 KDB109 Funk, Tap and all that Jazz
 KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body
 KDB106 Dance Analysis

KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:
KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1

KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations

KTB061 Creative Industries Management

KTB062 Creative Industries Events and Festivals

KTB104 Performance Innovation

KTB306 Directing for Events and Festivals

MGB223 Creating New Enterprises

Dance

Introductory Units:

KDB109 Funk, Tap and all that Jazz

KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body

KDB106 Dance Analysis

KDB108 World Dance

KDB204 Australian Dance

Digital Media

Introductory Units:

KCB102 Media and Society: From Printing Press to Internet

KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures

KCB203 Consumer Cultures

KIB101 Foundations of Communication Design 1

KIB103 Media Technology 1

KPB106 Australian Television

KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:

KFB103 Introduction to Fashion Design

KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor

KVB212 Australian Art, Architecture and Design (required)

KFB203 Fashion, Art and the Body (required)

KCB203 Consumer Cultures

KFB205 Fashion and Style Journalism

KVB104 Photomedia and Artistic Practice

KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:

HHB123 Indigenous Australian Culture Studies

KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KKB004 Indigenous Creative Industries

HHB255 Indigenous Politics And Political Culture

HHB210 Indigenous Australia: Country, Kin And Culture

EDB007 Culture Studies: Indigenous Education

JSB352 Indigenous Justice

HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:

KIB101 Foundations of Communication Design 1

KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1

KIB104 Media Technology 2

KIB105 Animation and Motion Graphics

KIB108 Animation Practices

KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:

KJB101 Journalism Information Systems

KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KFB205 Fashion and Style Journalism

KJB121 Journalistic Inquiry

KJB224 Feature Writing

KJB239 Journalism Ethics and Issues

KJB280 International Journalism

KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:

KWB001 Introduction to Literary Theory and Cultural Studies

KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB003 Modern Times (Literature and Culture in the 20th Century)
 KWB004 Shakespeare, Then and Now
 KWB005 Wonderlands: Literature and Culture in the 19th Century

 KWB103 Persuasive Writing
 KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
 KMB003 Sex Drugs Rock 'n' roll
 KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor

KMB002 Music and Spirituality
 KMB004 World Music
 KMB007 Introductory Ensemble
 KMB104 Introductory Musicianship
 KMB105 Music and Sound Technology
 KMB108 Sound Recording and Acoustics
 KMB204 Music and Sound Textures

Performance Studies

Introductory Units:
 KTB101 20th Century Performance
 KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KTB102 Process Drama
 KTB103 Performing Skills 1: Body and Voice and Role
 KTB106 Performing Skills 2: Style and Form
 KTB204 Understanding Performance
 KTB207 Staging Australia
 KTB209 Applied Performance

Screen Studies

Introductory Units:
 KPB103 Film Genres
 KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB102 Film History
 KPB203 Australian Film
 KPB205 Documentary Theory and Practice
 KPB206 International Cinema

Television

Introductory Units:
 KPB106 Australian Television
 KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB105 Narrative Production
 KPB107 Television Genres
 KPB303 Critical Thinking About Television
 KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:
 BSB126 Marketing
 AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning
 AMB221 Advertising Copywriting
 AMB200 Consumer Behaviour

AMB320 Advertising Management

Entrepreneurship

Introductory Units:
 BSB126 Marketing
 BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication
 AMB251 Innovation and Market Development
 BSB212 Electronic Business Applications
 MGB218 Venture Skills
 MGB223 Creating New Enterprises

Public Relations

Introductory Units:

■ **Bachelor of Creative Industries (Dance)
 KD32**

Award title: Bachelor of Creative Industries (Dance)

CRICOS code: 040303J

Campus: Kelvin Grove

Duration: 3 years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Associate Professor Adrian Thomas

Discipline coordinator: Ms Rachel Mathews

Creative Industries Core Units

KKB007 Introduction to Multimedia Technology
 KKB008 Narrative in the Creative Industries
 KKB009 Writing for Creative Industries
 KKB010 Cultures and Creativity
 KKB018 Creative Industries

Submajors

Art and Visual Culture (KAV)

Introductory Units: - compulsory
 KVB702 Australian and Indigenous Art
 KVB447 Drawing

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor

KVB712 Contemporary Art Issues (required)
 KVB701 Modernism (required)
 KVB444 Contemporary Asian Visual Culture
 KVB703 Video Art and Culture
 KVB457 Sculpture
 KVB704 Theories of Spatial Culture

Communication (KCN)

Introductory Units: - compulsory
 KCB101 Communication in the New Economy
 KCB213 Strategic Speech Communication

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor

KWB314 Corporate Writing and Editing
 KWB111 Media Writing
 KCB150 Media and Communications Industries
 KCB311 Political Communication
 KCB334 Media and Communication Research Methods

Communication Design (KCD)

Introductory Units: - compulsory
 KIB814 Enabling Immersion
 KIB825 Animation Practices

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor

KIB811 Visual Interactions
 KIB808 Media Technology 2
 KIB813 Contemporary Issues in Design and Technology
 KIB804 3-D Animation 1

Creative and Professional Writing (KCW)

Introductory Units: - compulsory
 KWB250 Introduction to Creative Writing
 KWB380 Creative Nonfiction: Life Writing

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor

KWB315 Persuasive Writing (required)
 KWB314 Corporate Writing and Editing (required)
 KWB381 Creative Nonfiction: Arts, Humour, Travel
 KWB111 Media Writing
 KWB712 Youth and Children's Writing
 KWB350 Creative Writing: The Short Story

Dance (KDN)

Introductory Units:

KDB125 Deconstructing Dance in History *

*Deconstructing Dance in History can be substituted with either World Dance or Architecture of the Body in Year 1, Semester 1.

KDB176 Popular Dance Styles

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor

KDX104 Architecture of the Body
 KDB106 Dance Analysis
 KDB172 World Dance
 KDB114 Australian Dance

Digital Media (KDM)

Introductory Units: - compulsory
 KCB140 Media and Society: From Printing Press to Internet
 KCB150 Media and Communications Industries

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor

KCB295 Virtual Cultures
 KCB336 New Media Technologies
 KPB209 Australian Television
 KCB204 Globalisation and New Media

Indigenous Studies (KIS)

Introductory Units: - compulsory
 HHB123 Indigenous Australian Culture Studies
 KWB701 Indigenous Writing

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor

HHB210 Indigenous Australia: Country, Kin And Culture
 HHB255 Indigenous Politics And Political Culture
 JSB352 Indigenous Justice
 EDB007 Culture Studies: Indigenous Education
 KKB704 Indigenous Creative Industries
 HHB276 Indigenous Knowledge: Research Ethics and Protocols *to be confirmed

Interaction Design (KIN)

Introductory Units: - compulsory
 KIB801 Foundations of Communication Design 1
 KIB808 Media Technology 2

CREATIVE INDUSTRIES

Advanced Units - choose all three required units plus one other to complete submajor; or KIB809 plus any other advanced unit to complete minor

KIB809 Interaction Design (required)
KIB815 Interfacing Media (required)
KIB822 Informational Arts (required)
KIB810 Information Architecture
KIB821 Mixed Realities

Journalism (KJO)

Introductory Units: - compulsory
KJB101 Journalism Information Systems
KJB120 Newswriting

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor

KJB121 Journalistic Inquiry (required)
KJB224 Feature Writing (required)
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB339 Fashion and Style Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies (KLC)

Introductory Units: - compulsory
KWB716 Introduction to Literary Theory and Cultural Studies
KWB710 Ozlit

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor

KWB321 Modern Times: Literature and Culture in the 20th Century

KWB625 American Stories
KWB712 Youth and Children's Writing
KWB724 Wonderlands: Literature and Culture in the 19th Century
KWB725 Popular Fictions, Popular Culture

Music and Sound Studies (KMS)

Introductory Units: - compulsory
KMB640 Sex Drugs Rock N Roll
KMB638 Sound and Image

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor

KMB631 World Music (required)
KMB667 Music and Spirituality (required)
KMB621 Sound Recording And Acoustics
KMB619 Music And Sound Technology
KMB649 Introductory Musicianship
KMB650 Introductory Ensemble

Screen Studies (KSC)

Introductory Units: - compulsory
KPB130 Media Text Analysis
KPB305 American Film: Genres and Directors
OR
KPB141 Film and Television Languages

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor

KPB359 Film History
KPB358 Documentary Theory And Practice
KPB343 Australian Film
KPB344 International Cinema

Television (KTV)

Introductory Units: - compulsory
KPB370 Principles of Television
KPB141 Film and Television Languages

Advanced Units - choose all 4 to complete submajor; or both required units to complete minor

KPB314 Media Business (required)
KPB155 Media Production (required)
KPB260 Community and Educational Video
OR
KPB185 Informational Production
KPB371 Advanced Principles of Television

Performance Studies (KTP)

Introductory Units: - compulsory
KTB208 Elements of Drama
KTB251 20th Century Performance

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor

KSB259 The Performance Instrument: Body and Voice
KTB271 Studies in Directing
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB257 Studies in Acting 1

 KKB010 Cultures and Creativity

KKB018 Creative Industries

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:

KVB102 Modernism

KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)

KVB108 Contemporary Asian Visual Culture

KVB110 2D Media and Processes

KVB111 3D Media and Processes

KVB304 Contemporary Art Issues

KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:

KVB102 Modernism

KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor. KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History

DAB420 Architecture, Culture and Space (required) (from 2007)

DAB325 Architecture in the 20th Century (from 2007)

DAB525 Architecture and the City (from 2008)

KVB212 Australian Art, Architecture and Design

KVB307 Theories of Spatial Culture

Communication

Introductory Units:

KCB101 Communication in the New Economy

KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing

OR

KWB106 Corporate Writing and Editing

KCB104 Media and Communications Industries

KCB105 Media and Communication Research Methods

KCB302 Political Communication

KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:

KWB101 Introduction to Creative Writing

KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing

KWB103 Persuasive Writing

KWB104 Creative Writing: The Short Story

KWB106 Corporate Writing and Editing

KWB107 Introduction to Creative Non-Fiction

KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:

BSB126 Marketing

KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations

KTB061 Creative Industries Management

KTB062 Creative Industries Events and Festivals

KTB104 Performance Innovation

KTB306 Directing for Events and Festivals

MGB223 Creating New Enterprises

Dance

Introductory Units:

KDB109 Funk, Tap and all that Jazz

KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body

KDB106 Dance Analysis

KDB108 World Dance

KDB204 Australian Dance

Digital Media

Introductory Units:

KCB102 Media and Society: From Printing Press to Internet

KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures

KCB203 Consumer Cultures

KIB101 Foundations of Communication Design 1

KIB103 Media Technology 1

KPB106 Australian Television

KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:

KFB103 Introduction to Fashion Design

KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor

KVB212 Australian Art, Architecture and Design (required)

KFB203 Fashion, Art and the Body (required)

KCB203 Consumer Cultures

KFB205 Fashion and Style Journalism

KVB104 Photomedia and Artistic Practice

KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:

KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1

KIB104 Media Technology 2

KIB105 Animation and Motion Graphics

KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:
KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:
KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor
KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:
KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:
KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice

KPB206 International Cinema

Television

Introductory Units:
KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB107 Television Genres
KPB303 Critical Thinking about Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:
BSB126 Marketing
AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor
AMB222 Media Planning
AMB221 Advertising Copywriting
AMB200 Consumer Behaviour
AMB320 Advertising Management

Entrepreneurship

Introductory Units:
BSB126 Marketing
BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development
BSB212 Electronic Business Applications
MGB218 Venture Skills
MGB223 Creating New Enterprises

Public Relations

Introductory Units:
BSB126 Marketing
AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor
AMB261 Media Relations and Publicity
AMB262 Public Relations Writing
AMB201 Marketing and Audience Research
AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:

- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen Submajor area.
- you must obey any elective rules as set out in your course requirements
- you must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

Semester 1

Media & Communication Discipline

KCB101 Communication in the New Economy
 KCB102 Media and Society: From Printing Press to Internet
 KCB103 Strategic Speech Communication
 KCB201 Virtual Cultures
 KCB302 Political Communication

Dance Discipline

 KWB204 Creative Non-Fiction: Life Writing

KWB206 Youth and Children's Writing

Notes:

- * Only one Workplace Learning unit may be completed
- * KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

■ **Bachelor of Creative Industries (Interdisciplinary) KK33**

Award title: Bachelor of Creative Industries (Interdisciplinary)

CRICOS code: 056186M

Campus: Kelvin Grove and Caboolture

Duration: 3 years full-time

Credit points: 288cp (full-time standard semester: 48cp)

Course coordinator: Associate Professor Adrian Thomas

Discipline coordinator: Dr Paul Makeham

Course Structure

In order to complete this course, students must undertake 4 Faculty Core Units (selecting from core studies in Creative Industries covering Narrative in the Creative Industries, Creative Industries, Cultures and Creativity, Writing for Creative Industries and Introduction to Multimedia) and by following either:

Structure One:

- 4 Creative Industries Core Units
- 3 Submajors (6 units each)
- 2 Electives

or

Structure Two:

- 4 Creative Industries Core Units
- 2 Submajors (6 units each)
- 1 Minor (4 units)
- 4 Electives

or

Structure Three:

- 4 Creative Industries Core Units
- 2 Submajors (6 units each)
- 2 Minors (4 units each)
- No elective units

Study Areas:

- Art and Visual Culture
- Art History, Architecture and Design
- Communication
- Creative and Professional Writing
- Creative Industries Management
- Dance
- Digital Media
- Fashion, Art and Communication
- Indigenous Studies
- Interaction Design
- Journalism
- Literary and Cultural Studies
- Music and Sound Studies
- Screen Studies
- Television
- Performance Studies

Students may complement their studies with units from another QUT Faculty including Business, Information Technology, Science, Law, Health, Built Environment and Engineering, Education and Social Science. Please note that

submajors in Entrepreneurship, Advertising and Public Relations are available through the Faculty of Business.

In their final year Bachelor of Creative Industries students will have the opportunity to engage in internships, industry placements and practical projects in order to prepare themselves for entry-level positions in their chosen career.

Full-time Course Structure

Students are required to conform to one of the following three course structures:

Structure One

- Four Creative Industries Faculty Core Units
- Three Submajors (6 units each)
- Two elective units

Year 1, Semester 1

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Submajor 3

Year 1, Semester 2

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Submajor 3

Year 2, Semester 1

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Submajor 3

Year 2, Semester 2

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Submajor 3

Year 3, Semester 1

- Submajor 1
- Submajor 2
- Submajor 3
- Elective

Year 3, Semester 2

- Submajor 1
- Submajor 2
- Submajor 3
- Elective

Structure Two

- Four Creative Industries Faculty Core Units
- Two Submajors (6 units each)
- One Minor (4 units)
- Four elective units

Year 1, Semester 1

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Minor

Year 1, Semester 2

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Minor

Year 2, Semester 1

- Creative Industries Core Unit
- Submajor 1
- Submajor 2
- Elective

Year 2, Semester 2

- Creative Industries Core Unit
- Submajor 1

Submajor 2
Elective

Year 3, Semester 1

Submajor 1
Submajor 2
Minor
Elective

Year 3, Semester 2

Submajor 1
Submajor 2
Minor
Elective

Structure Three

Four Creative Industries Faculty Core Units
Two Submajors (6 units each)
Two Minors (4 units each)
No elective units

Year 1, Semester 1

Creative Industries Core Unit
Submajor 1
Submajor 2
Minor 1

Year 1, Semester 2

Creative Industries Core Unit
Submajor 1
Submajor 2
Minor 2

Year 2, Semester 1

Creative Industries Core Unit
Submajor 1
Submajor 2
Minor 1

Year 2, Semester 2

Creative Industries Core Unit
Submajor 1
Submajor 2
Minor 2

Year 3, Semester 1

Submajor 1
Submajor 2

KKB009 Writing for Creative Industries
KKB010 Cultures and Creativity
KKB018 Creative Industries

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:
KVB102 Modernism
KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)
KVB108 Contemporary Asian Visual Culture
KVB110 2D Media and Processes
KVB111 3D Media and Processes

KVB304 Contemporary Art Issues
KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:
KVB102 Modernism
KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor. KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History
DAB420 Architecture, Culture and Space (required) (from 2007)
DAB325 Architecture in the 20th Century (from 2007)
DAB525 Architecture and the City (from 2008)
KVB212 Australian Art, Architecture and Design
KVB307 Theories of Spatial Culture

Communication

Introductory Units:
KCB101 Communication in the New Economy
KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
OR
KWB106 Corporate Writing and Editing
KCB104 Media and Communications Industries
KCB105 Media and Communication Research Methods
KCB302 Political Communication
KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
KWB101 Introduction to Creative Writing
KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
KWB103 Persuasive Writing
KWB104 Creative Writing: The Short Story
KWB106 Corporate Writing and Editing
KWB107 Introduction to Creative Non-Fiction
KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
BSB126 Marketing
KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB306 Directing for Events and Festivals
MGB223 Creating New Enterprises

Dance

Introductory Units:
KDB109 Funk, Tap and all that Jazz
KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body
KDB106 Dance Analysis

KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:
KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1
KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:
KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor
KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:
HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor
KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics and Political Culture
HHB210 Indigenous Australia: Country, Kin and Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:
KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KIB103 Media Technology 1
KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:
KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:
KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor
KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:
KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:
KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Television

Introductory Units:
KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KPB105 Narrative Production
KPB107 Television Genres
KPB303 Critical Thinking About Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:

BSB126 Marketing
AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning
AMB221 Advertising Copywriting
AMB200 Consumer Behaviour
AMB320 Advertising Management

Entrepreneurship

Introductory Units:
BSB126 Marketing
BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development
BSB212 Electronic Business Applications
MGB218 Venture Skills
MGB223 Creating New Enterprises

Public Relations

Introductory Units:
BSB126 Marketing
AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB261 Media Relations and Publicity
AMB262 Public Relations Writing
AMB201 Marketing and Audience Research
AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:

- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen submajor area.

 KWB105 Film and Television Scriptwriting
 KWB106 Corporate Writing and Editing
 KWB204 Creative Non-Fiction: Life Writing
 KWB206 Youth and Children's Writing

Notes:

* Only one Workplace Learning unit may be completed
 * KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

Caboolture Course structure - Overview

Students are required to follow one of the following three course structures as detailed below:

Structure One

4 Creative Industries Faculty Core Units
 1 Pathway (A or B)
 2 Creative Industries Submajors

2 Electives

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology Pathway (3 units - each 12cp)

Year 1, Semester 2

KKB018 Creative Industries
 Continue with the Semester 1 pathway (3 units - each 12cp)

Year 2, Semester 1

Creative Industries Faculty Core Unit
 Submajor One
 Submajor One
 Submajor Two

Year 2, Semester 2

Creative Industries Faculty Core Unit
 Submajor One
 Submajor One
 Submajor Two

Year 3, Semester 1

Submajor One
 Submajor Two
 Submajor Two
 Elective

Year 3, Semester 2

Submajor One
 Submajor Two
 Submajor Two
 Elective

Structure Two

If you are completing pathways A or B you can choose to follow this structure:

4 Creative Industries Faculty Core Units
 1 Pathway (A or B)
 1 Creative Industries Submajor
 1 Minor
 4 Electives

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology Pathway A or B (3 units - each 12cp)

Year 1, Semester 2

KKB018 Creative Industries
 Continue with the Semester 1 pathway

Year 2, Semester 1

Creative Industries Faculty Core Unit
 Submajor One
 Submajor One
 Minor

Year 2, Semester 2

Creative Industries Faculty Core Unit
 Submajor One
 Submajor One
 Minor

Year 3, Semester 1

Submajor One
 Minor
 Elective
 Elective

Year 3, Semester 2

Submajor One
 Minor
 Elective
 Elective

Structure Three

If you are completing pathways A or B you can choose to follow this structure:

4 Creative Industries Faculty Core Units
 1 Pathway (A or B)

1 Creative Industries Submajor
2 Minors
No Elective Units

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
Pathway A or B (3 units - each 12cp)

Year 1, Semester 2

KKB018 Creative Industries
Continue with the Semester 1 pathway (3 units - each 12cp)

Year 2, Semester 1

Creative Industries Faculty Core Unit
Submajor One

Caboolture Pathways

Pathway A - Education Submajor

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
EDB001 Teaching and Learning Studies 1: Teaching in New Times

EDB006 Learning Networks

Choose one unit from:

CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies
MDB001 Integrated Foundations Studies 2: Scientific and Quantitative Literacy

Year 1, Semester 2

KKB018 Creative Industries
EDB007 Culture Studies: Indigenous Education
Choose two units from:

CLB005 Integrated Foundation Studies 3: Wellness and Active Citizenship
CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1
MDB002 Primary Curriculum and Pedagogies: Mathematics 1

Years 2 & 3 at Kelvin Grove to complete course:

2 Creative Industries Faculty Core Units; 2 Creative Industries submajors and 2 electives
OR

2 Creative Industries Faculty Core Units; 1 Creative Industries submajor; 1 Creative Industries Minor and 4 electives
OR

2 Creative Industries Faculty Core Units; 1 Creative Industries submajor; 2 Creative Industries Minors and no electives

Pathway B - Business Submajor

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
CTB119 International and Electronic Business
CTB122 Quantitative Analysis and Finance

Choose one unit from:

CTB110 Accounting
CTB114 Government, Business and Society

Year 1, Semester 2

KKB018 Creative Industries
CTB115 Management, People and Organisations
CTB126 Marketing

Choose two units from:

CTB111 Business Law and Ethics
CTB113 Economics

Years 2 & 3 at Kelvin Grove to complete course:

2 Creative Industries Faculty Core Units; 2 Creative Industries submajors and 2 electives
OR

2 Creative Industries Faculty Core Units; 1 Creative Industries submajor; 1 Creative Industries Minor and 4 electives
OR

2 Creative Industries Faculty Core Units; 1 Creative Industries Submajor; 2 Creative Industries Minors and no electives

Pathway C - Education Minor

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
EDB006 Learning Networks

Choose one unit from:

HHB106 Australian Society and Culture
HHB116 Applied Skills and Scholarship
Elective - Choose any Semester 1 unit offered by Humanities OR Business at Caboolture campus

Choose one unit from:

CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies
MDB001 Integrated Foundations Studies 2: Scientific and Quantitative Literacy

Year 1, Semester 2

KKB018 Creative Industries
EDB001 Teaching and Learning Studies 1: Teaching in New Times

EDB007 Culture Studies: Indigenous Education

Elective - Choose any semester 2 unit offered by Humanities OR Business at Caboolture

Years 2 & 3 at Kelvin Grove to complete course:

2 Creative Industries Faculty Core Units; 2 Creative Industries submajors and 2 electives

Pathway D - Business Minor

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
Elective - Choose any Semester 1 unit offered by Humanities OR Education at Caboolture campus

Choose one unit from:

HHB106 Australian Society and Culture
HHB116 Applied Skills and Scholarship
Elective - Choose any Semester 1 unit offered by Humanities OR Education at Caboolture campus

Choose one unit from:

CTB110 Accounting
CTB114 Government, Business and Society
CTB119 International and Electronic Business
CTB122 Quantitative Analysis and Finance

Year 1, Semester 2

KKB018 Creative Industries
CTB115 Management, People and Organisations
CTB126 Marketing

Choose one unit from:

CTB111 Business Law and Ethics
CTB113 Economics

Years 2 & 3 at Kelvin Grove to complete course:

2 Creative Industries Faculty Core Units; 2 Creative Industries submajors and 2 electives

Pathway E - Humanities Minor

Year 1, Semester 1

KKB007 Introduction to Multimedia Technology
 HHB116 Applied Skills and Scholarship
 HHB110 Introduction to International and Global Studies
 Choose one unit from:

HHB106 Australian Society and Culture
 Elective - Choose any Semester 1 unit offered by Business OR Education at Caboolture campus

Year 1, Semester 2

KKB018 Creative Industries
 HHB104 Understanding Society: Intro to Sociology
 HHB114 Introduction to Human Rights And Ethics
 Elective - Choose any semester 2 unit offered by Business or Education at Caboolture campus

Years 2 & 3 at Kelvin Grove to complete course:

2 Creative Industries Faculty Core Units; 2 Creative Industries submajors and 2 electives

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:
 KVB102 Modernism
 KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)
 KVB108 Contemporary Asian Visual Culture
 KVB110 2D Media and Processes
 KVB111 3D Media and Processes
 KVB304 Contemporary Art Issues
 KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:
 KVB102 Modernism
 KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor. KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History
 DAB420 Architecture, Culture and Space (required) (from 2007)
 DAB325 Architecture in the 20th Century (from 2007)
 DAB525 Architecture and the City (from 2008)
 KVB212 Australian Art, Architecture and Design
 KVB307 Theories of Spatial Culture

Communication

Introductory Units:
 KCB101 Communication in the New Economy
 KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
 KWB102 Media Writing

OR
 KWB106 Corporate Writing and Editing
 KCB104 Media and Communications Industries
 KCB105 Media and Communication Research Methods
 KCB302 Political Communication
 KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
 KWB101 Introduction to Creative Writing
 KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 KWB103 Persuasive Writing
 KWB104 Creative Writing: The Short Story
 KWB106 Corporate Writing and Editing
 KWB107 Introduction to Creative Non-Fiction
 KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
 BSB126 Marketing
 KTB207 Staging Australia

CREATIVE INDUSTRIES

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
BSB115 Management, People and Organisations
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB306 Directing for Events and Festivals
MGB223 Creating New Enterprises

Dance

Introductory Units:
KDB109 Funk, Tap and all that Jazz
KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KDB105 Architecture of the Body
KDB106 Dance Analysis
KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:
KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1
KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:
KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor
KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:
HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor
KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics and Political Culture
HHB210 Indigenous Australia: Country, Kin and Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:
KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KIB103 Media Technology 1

KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:
KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:
KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor
KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:
KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:
KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KPB102 Film History

KPB203 Australian Film
 KPB205 Documentary Theory and Practice
 KPB206 International Cinema

Television

Introductory Units:
 KPB106 Australian Television
 KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
 KPB105 Narrative Production
 KPB107 Television Genres
 KPB303 Critical Thinking about Television
 KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:
 BSB126 Marketing
 AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor
 AMB222 Media Planning
 AMB221 Advertising Copywriting
 AMB200 Consumer Behaviour
 AMB320 Advertising Management

Entrepreneurship

Introductory Units:
 BSB126 Marketing
 BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
 AMB202 Integrated Marketing Communication
 AMB251 Innovation and Market Development
 BSB212 Electronic Business Applications
 MGB218 Venture Skills
 MGB223 Creating New Enterprises

Public Relations

Introductory Units:
 BSB126 Marketing
 AMB260 Public Relations Theory and Practice

KIB825 Animation Practices

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
KIB811 Visual Interactions
KIB808 Media Technology 2
KIB813 Contemporary Issues in Design and Technology
KIB804 3-D Animation 1

Creative and Professional Writing (KCW)

Introductory Units: - compulsory
KWB250 Introduction to Creative Writing
KWB380 Creative Nonfiction: Life Writing

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor
KWB315 Persuasive Writing (required)
KWB314 Corporate Writing and Editing (required)
KWB381 Creative Nonfiction: Arts, Humour, Travel
KWB111 Media Writing
KWB712 Youth and Children's Writing
KWB350 Creative Writing: The Short Story

Dance (KDN)

Introductory Units:
KDB125 Deconstructing Dance in History *
*Deconstructing Dance in History can be substituted with either World Dance or Architecture of the Body in Year 1, Semester 1.
KDB176 Popular Dance Styles

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
KDX104 Architecture of the Body
KDB106 Dance Analysis
KDB172 World Dance
KDB114 Australian Dance

Digital Media (KDM)

Introductory Units: - compulsory
KCB140 Media and Society: From Printing Press to Internet
KCB150 Media and Communications Industries

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
KCB295 Virtual Cultures
KCB336 New Media Technologies
KPB209 Australian Television
KCB204 Globalisation and New Media

Indigenous Studies (KIS)

Introductory Units: - compulsory
HHB123 Indigenous Australian Culture Studies
KWB701 Indigenous Writing

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
HHB210 Indigenous Australia: Country, Kin and Culture
HHB255 Indigenous Politics and Political Culture
JSB352 Indigenous Justice
EDB007 Culture Studies: Indigenous Education
KKB704 Indigenous Creative Industries
HHB276 Indigenous Knowledge: Research Ethics and Protocols *to be confirmed

Interaction Design (KIN)

Introductory Units: - compulsory
KIB801 Foundations Of Communication Design 1
KIB808 Media Technology 2

Advanced Units - choose all three required units plus one other to complete submajor; or KIB809 plus any other advanced unit to complete minor
KIB809 Interaction Design (required)
KIB815 Interfacing Media (required)
KIB822 Informational Arts (required)
KIB810 Information Architecture
KIB821 Mixed Realities

Journalism (KJO)

Introductory Units: - compulsory
KJB101 Journalism Information Systems
KJB120 Newswriting

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor
KJB121 Journalistic Inquiry (required)
KJB224 Feature Writing (required)
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB339 Fashion and Style Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies (KLC)

Introductory Units: - compulsory
KWB716 Introduction to Literary Theory and Cultural Studies
KWB710 Ozlit

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
KWB321 Modern Times: Literature and Culture in the 20th Century
KWB729 Shakespeare: Then and Now
KWB625 American Stories
KWB712 Youth and Children's Writing
KWB724 Wonderlands: Literature and Culture in the 19th Century
KWB725 Popular Fictions, Popular Culture

Music and Sound Studies (KMS)

Introductory Units: - compulsory
KMB640 Sex Drugs Rock N Roll
KMB638 Sound and Image

Advanced Units - both required units plus any 2 to complete submajor; or both required units to complete minor
KMB631 World Music (required)
KMB667 Music and Spirituality (required)
KMB621 Sound Recording and Acoustics
KMB619 Music and Sound Technology
KMB649 Introductory Musicianship
KMB650 Introductory Ensemble

Screen Studies (KSC)

Introductory Units: - compulsory
KPB130 Media Text Analysis
KPB305 American Film: Genres and Directors
OR
KPB141 Film and Television Languages

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
KPB359 Film History
KPB358 Documentary Theory and Practice
KPB343 Australian Film
KPB344 International Cinema

Television (KTV)

Introductory Units: - compulsory
KPB370 Principles of Television
KPB141 Film and Television Languages

Advanced Units - choose all 4 to complete submajor; or both required units to complete minor
KPB314 Media Business (required)
KPB155 Media Production (required)
KPB260 Community And Educational Video
OR
KPB185 Informational Production
KPB371 Advanced Principles of Television

Performance Studies (KTP)

Introductory Units: - compulsory
KTB208 Elements of Drama
KTB251 20th Century Performance

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
KSB259 The Performance Instrument: Body and Voice
KTB271 Studies in Directing
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB257 Studies in Acting 1
KTB258 Studies in Acting 2

Where it allows, students can take a maximum of 8 units outside the Creative Industries Faculty (depending on the course the student is currently enrolled in). The following submajors/minors are offered through the Faculty of Business. Students may take only ONE of these as a complete submajor. For information about availability of non-Creative Industries Units, contact the Course Coordinator

Advertising (KAD)

Introductory Units: - compulsory
BSB126 Marketing
AMB200 Consumer Behaviour

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
AMB220 Advertising Theory and Practice
AMB222 Media Planning
AMB221 Advertising Copywriting
AMB320 Advertising Management
AMB321 Advertising Campaigns

Entrepreneurship (KEN)

Introductory Units: - compulsory
BSB126 Marketing
BSB115 Management, People and Organisations

Advanced Units - choose any 4 to complete submajor; or any 2 to complete minor
MGB223 Creating New Enterprises
MGB218 Venture Skills
BSB212 Electronic Business Applications
AMB241 E-Marketing Strategies
AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development

Public Relations (KPR)

Introductory Units: - compulsory
BSB126 Marketing
AMB201 Marketing and Audience Research

Advanced Units - choose all 4 to complete submajor; or any 2 to complete minor
AMB260 Public Relations Theory and Practice
AMB261 Media Relations and Publicity
AMB262 Public Relations Writing
AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing

OR

KWB106 Corporate Writing and Editing
KCB104 Media and Communications Industries
KCB105 Media and Communication Research Methods
KCB302 Political Communication
KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
KWB101 Introduction to Creative Writing
KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
KWB103 Persuasive Writing
KWB104 Creative Writing: The Short Story
KWB106 Corporate Writing and Editing
KWB107 Introduction to Creative Non-Fiction
KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
BSB126 Marketing
KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB306 Directing for Events and Festivals
MGB223 Creating New Enterprises

Dance

Introductory Units:
KDB109 Funk, Tap and all that Jazz
KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body
KDB106 Dance Analysis
KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:
KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1
KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:
KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor

KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:
HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics And Political Culture
HHB210 Indigenous Australia: Country, Kin And Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:
KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1
KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:
KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:
KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor

KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology

KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:

KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:

KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Television

Introductory Units:

KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB105 Narrative Production
KPB107 Television Genres
KPB303 Critical Thinking About Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:

BSB126 Marketing
AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning
AMB221 Advertising Copywriting
AMB200 Consumer Behaviour
AMB320 Advertising Management

Entrepreneurship

Introductory Units:

BSB126 Marketing
BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development
BSB212 Electronic Business Applications
MGB218 Venture Skills
MGB223 Creating New Enterprises

Public Relations

Introductory Units:

BSB126 Marketing
AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB261 Media Relations and Publicity
AMB262 Public Relations Writing
AMB201 Marketing and Audience Research
AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

 KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
 KWB101 Introduction to Creative Writing
 KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 KWB103 Persuasive Writing
 KWB104 Creative Writing: The Short Story
 KWB106 Corporate Writing and Editing
 KWB107 Introduction to Creative Non-Fiction
 KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
 BSB126 Marketing
 KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations
 KTB061 Creative Industries Management
 KTB062 Creative Industries Events and Festivals
 KTB104 Performance Innovation
 KTB306 Directing for Events and Festivals
 MGB223 Creating New Enterprises

Dance

Introductory Units:
 KDB109 Funk, Tap and all that Jazz
 KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body

KDB106 Dance Analysis
KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:

KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1
KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:

KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor

KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:

HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics And Political Culture
HHB210 Indigenous Australia: Country, Kin And Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:

KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1
KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:

KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism

KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:

KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:

KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor

KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:

KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:

KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Television

Introductory Units:

KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB105 Narrative Production
KPB107 Television Genres
KPB303 Critical Thinking About Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:

BSB126 Marketing

AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning

AMB221 Advertising Copywriting

AMB200 Consumer Behaviour

AMB320 Advertising Management

Entrepreneurship

Introductory Units:

BSB126 Marketing

BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication

AMB251 Innovation and Market Development

BSB212 Electronic Business Applications

MGB218 Venture Skills

MGB223 Creating New Enterprises

Public Relations

Introductory Units:

BSB126 Marketing

AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB261 Media Relations and Publicity

AMB262 Public Relations Writing

AMB201 Marketing and Audience Research

AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

 KWB204 Creative Non-Fiction: Life Writing
 KWB206 Youth and Children's Writing

Notes:

* Only one Workplace Learning unit may be completed
 * KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

■ **Bachelor of Fine Arts (Acting) KS25**

Award title: Bachelor of Fine Arts (Acting)

CRICOS code: 040300A

Campus: Kelvin Grove

Duration: 3 Years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Associate Professor Adrian Thomas

Discipline coordinator: Ms Dianne Eden

Course Structure

Year 1, Semester 1

KSB202 Acting 1
 KSB204 Voice and Movement 1
 Creative Industries Core Unit
 Elective (see note 1)

Year 1, Semester 2

KSB203 Acting 2
 KSB205 Voice and Movement 2
 KTB251 20th Century Performance
 Creative Industries Core Unit

Year 2, Semester 1

KSB011 Music Theatre Skills
 KSB247 Acting 3
 KSB233 Voice and Movement 3
 Elective (see note 1)

Year 2, Semester 2

KSB012 Music Theatre Project
 KSB248 Acting 4
 KSB234 Voice and Movement 4
 KTB271 Studies in Directing

Year 3, Semester 1

KTB253 Staging Australia
 KSB255 Theatre Project 1

Year 3, Semester 2

KSB056 Professional Studies
 KSB256 Theatre Project 2

Notes:

1. Students must choose two electives from outside the Acting discipline.
2. KSB202 and KSB203 are Designated units. These units are compulsory units which result in the development of particular skills and abilities. A satisfactory level of performance in a designated unit is a grade of 3 or higher, or S-Satisfactory. This level of achievement is required for successful completion of this course. See Student Rules for more details.

Creative Industries Core Units

KKB007 Introduction to Multimedia Technology
 KKB008 Narrative in the Creative Industries
 KKB009 Writing for Creative Industries
 KKB010 Cultures and Creativity
 KKB018 Creative Industries

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:

KVB102 Modernism

KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)

KVB108 Contemporary Asian Visual Culture

KVB110 2D Media and Processes

KVB111 3D Media and Processes

KVB304 Contemporary Art Issues

KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:

KVB102 Modernism

KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor.
KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History

DAB420 Architecture, Culture and Space (required) (from 2007)

DAB325 Architecture in the 20th Century (from 2007)

DAB525 Architecture and the City (from 2008)

KVB212 Australian Art, Architecture and Design

KVB307 Theories of Spatial Culture

Communication

Introductory Units:

KCB101 Communication in the New Economy

KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing

OR

KWB106 Corporate Writing and Editing

KCB104 Media and Communications Industries

KCB105 Media and Communication Research Methods

KCB302 Political Communication

KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:

KWB101 Introduction to Creative Writing

KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing

KWB103 Persuasive Writing

KWB104 Creative Writing: The Short Story

KWB106 Corporate Writing and Editing

KWB107 Introduction to Creative Non-Fiction

KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:

BSB126 Marketing

KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations

KTB061 Creative Industries Management

KTB062 Creative Industries Events and Festivals

KTB104 Performance Innovation

KTB306 Directing for Events and Festivals

MGB223 Creating New Enterprises

Dance

Introductory Units:

KDB109 Funk, Tap and all that Jazz

KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body

KDB106 Dance Analysis

KDB108 World Dance

KDB204 Australian Dance

Digital Media

Introductory Units:

KCB102 Media and Society: From Printing Press to Internet

KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures

KCB203 Consumer Cultures

KIB101 Foundations of Communication Design 1

KIB103 Media Technology 1

KPB106 Australian Television

KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:

KFB103 Introduction to Fashion Design

KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor

KVB212 Australian Art, Architecture and Design (required)

KFB203 Fashion, Art and the Body (required)

KCB203 Consumer Cultures

KFB205 Fashion and Style Journalism

KVB104 Photomedia and Artistic Practice

KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:

HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics And Political Culture
HHB210 Indigenous Australia: Country, Kin And Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:

KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1
KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:

KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:

KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:

KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor

KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:

KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:

KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Television

Introductory Units:

KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB105 Narrative Production
KPB107 Television Genres
KPB303 Critical Thinking About Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:

BSB126 Marketing
AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning
AMB221 Advertising Copywriting
AMB200 Consumer Behaviour
AMB320 Advertising Management

Entrepreneurship

Introductory Units:

BSB126 Marketing
BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development
BSB212 Electronic Business Applications
MGB218 Venture Skills
MGB223 Creating New Enterprises

Public Relations

Introductory Units:

BSB126 Marketing

AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB261 Media Relations and Publicity
AMB262 Public Relations Writing

AMB201 Marketing and Audience Research
AMB361 Public Relations Campaigns

Creative Industries Core Units

KKB007 Introduction to Multimedia Technology
 KKB008 Narrative in the Creative Industries
 KKB009 Writing for Creative Industries
 KKB010 Cultures and Creativity
 KKB018 Creative Industries

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:
 KVB102 Modernism
 KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)
 KVB108 Contemporary Asian Visual Culture
 KVB110 2D Media and Processes
 KVB111 3D Media and Processes
 KVB304 Contemporary Art Issues
 KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:
 KVB102 Modernism
 KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor. KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History
 DAB420 Architecture, Culture and Space (required) (from 2007)
 DAB325 Architecture in the 20th Century (from 2007)
 DAB525 Architecture and the City (from 2008)
 KVB212 Australian Art, Architecture and Design
 KVB307 Theories of Spatial Culture

Communication

Introductory Units:
 KCB101 Communication in the New Economy
 KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 OR
 KWB106 Corporate Writing and Editing
 KCB104 Media and Communications Industries
 KCB105 Media and Communication Research Methods
 KCB302 Political Communication
 KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
 KWB101 Introduction to Creative Writing
 KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
 KWB103 Persuasive Writing
 KWB104 Creative Writing: The Short Story
 KWB106 Corporate Writing and Editing
 KWB107 Introduction to Creative Non-Fiction
 KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
 BSB126 Marketing
 KTB207 Staging Australia

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

BSB115 Management, People and Organisations
 KTB061 Creative Industries Management
 KTB062 Creative Industries Events and Festivals
 KTB104 Performance Innovation
 KTB306 Directing for Events and Festivals
 MGB223 Creating New Enterprises

Dance

Introductory Units:
 KDB109 Funk, Tap and all that Jazz
 KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KDB105 Architecture of the Body
 KDB106 Dance Analysis
 KDB108 World Dance
 KDB204 Australian Dance

Digital Media

Introductory Units:
 KCB102 Media and Society: From Printing Press to Internet
 KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KCB201 Virtual Cultures
 KCB203 Consumer Cultures
 KIB101 Foundations of Communication Design 1

KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:

KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor
KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:

HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics And Political Culture
HHB210 Indigenous Australia: Country, Kin And Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:

KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KIB103 Media Technology 1
KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:

KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:

KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now

KWB005 Wonderlands: Literature and Culture in the 19th Century

KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:

KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor

KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:

KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:

KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB102 Film History
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Television

Introductory Units:

KPB106 Australian Television
KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor

KPB105 Narrative Production
KPB107 Television Genres
KPB303 Critical Thinking About Television
KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:

BSB126 Marketing
AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB222 Media Planning
AMB221 Advertising Copywriting
AMB200 Consumer Behaviour
AMB320 Advertising Management

Entrepreneurship

Introductory Units:

BSB126 Marketing
BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

AMB202 Integrated Marketing Communication
AMB251 Innovation and Market Development
BSB212 Electronic Business Applications
MGB218 Venture Skills
MGB223 Creating New Enterprises

Public Relations

Introductory Units:
BSB126 Marketing
AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor

AMB261 Media Relations and Publicity
AMB262 Public Relations Writing
AMB201 Marketing and Audience Research
AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:

- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen submajor area.
- you must obey any elective rules as set out in your course requirements
- you must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

Semester 1

Media & Communication Discipline

KCB101 Communication in the New Economy
KCB102 Media and Society: From Printing Press to Internet
KCB103 Strategic Speech Communication
KCB201 Virtual Cultures
KCB302 Political Communication

Dance Discipline

KKB008 Narrative in the Creative Industries
KKB009 Writing for Creative Industries

KKB010 Cultures and Creativity
KKB018 Creative Industries

Creative Industries Submajors and Minors

Art and Visual Culture

Introductory Units:
KVB102 Modernism
KVB103 Australian Art

Subsequent Units: required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor

KVB211 Post 1945 Art (required)
KVB108 Contemporary Asian Visual Culture
KVB110 2D Media and Processes
KVB111 3D Media and Processes
KVB304 Contemporary Art Issues
KVB306 Video Art and Culture

Art History, Architecture and Design

Introductory Units:
KVB102 Modernism
KVB211 Post 1945 Art

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor.
KK33 (Visual Arts) and KK34 (Visual Arts) students can complete a minor comprising DEB102, DAB420, DAB325 and DAB525.

DEB102 Introducing Design History
DAB420 Architecture, Culture and Space (required) (from 2007)
DAB325 Architecture in the 20th Century (from 2007)
DAB525 Architecture and the City (from 2008)
KVB212 Australian Art, Architecture and Design
KVB307 Theories of Spatial Culture

Communication

Introductory Units:
KCB101 Communication in the New Economy
KCB103 Strategic Speech Communication

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KWB102 Media Writing

OR

KWB106 Corporate Writing and Editing
KCB104 Media and Communications Industries
KCB105 Media and Communication Research Methods
KCB302 Political Communication
KKB004 Indigenous Creative Industries

Creative and Professional Writing

Introductory Units:
KWB101 Introduction to Creative Writing
KWB204 Creative Non-Fiction: Life Writing

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor

KWB102 Media Writing
KWB103 Persuasive Writing
KWB104 Creative Writing: The Short Story
KWB106 Corporate Writing and Editing
KWB107 Introduction to Creative Non-Fiction
KWB206 Youth and Children's Writing

Creative Industries Management

Introductory Units:
BSB126 Marketing
KTB207 Staging Australia

CREATIVE INDUSTRIES

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
BSB115 Management, People and Organisations
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB306 Directing for Events and Festivals
MGB223 Creating New Enterprises

Dance

Introductory Units:
KDB109 Funk, Tap and all that Jazz
KDB110 Deconstructing Dance in History

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KDB105 Architecture of the Body
KDB106 Dance Analysis
KDB108 World Dance
KDB204 Australian Dance

Digital Media

Introductory Units:
KCB102 Media and Society: From Printing Press to Internet
KCB202 New Media Technologies

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KCB201 Virtual Cultures
KCB203 Consumer Cultures
KIB101 Foundations of Communication Design 1
KIB103 Media Technology 1
KPB106 Australian Television
KVB306 Video Art and Culture

Fashion, Art and Communication

Introductory Units:
KFB103 Introduction to Fashion Design
KFB105 Fashion and Modernity

Subsequent Units: both required units plus any 2 to complete submajor; or both required units to complete minor
KVB212 Australian Art, Architecture and Design (required)
KFB203 Fashion, Art and the Body (required)
KCB203 Consumer Cultures
KFB205 Fashion and Style Journalism
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture

Indigenous Studies

Introductory Units:
HHB123 Indigenous Australian Culture Studies
KWB007 Indigenous Writing

Subsequent Units: choose required unit plus any 3 to complete submajor; or required unit plus any other unit to complete minor
KKB004 Indigenous Creative Industries
HHB255 Indigenous Politics And Political Culture
HHB210 Indigenous Australia: Country, Kin And Culture
EDB007 Culture Studies: Indigenous Education
JSB352 Indigenous Justice
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Interaction Design

Introductory Units:
KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KIB103 Media Technology 1

KIB104 Media Technology 2
KIB105 Animation and Motion Graphics
KIB108 Animation Practices
KIB210 Design Studio 1: Interaction Design

Journalism

Introductory Units:
KJB101 Journalism Information Systems
KJB120 Newswriting

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KFB205 Fashion and Style Journalism
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
KJB280 International Journalism
KJB337 Public Affairs Reporting

Literary and Cultural Studies

Introductory Units:
KWB001 Introduction to Literary Theory and Cultural Studies
KWB002 Ozlit

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB004 Shakespeare, Then and Now
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB006 Popular Fictions, Popular Culture
KWB103 Persuasive Writing
KWB206 Youth and Children's Writing

Music and Sound Studies

Introductory Units:
KMB003 Sex Drugs Rock 'n' roll
KMB107 Sound and Image

Subsequent Units: choose any 4 to complete submajor; or both required units to complete minor
KMB002 Music and Spirituality
KMB004 World Music
KMB007 Introductory Ensemble
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures

Performance Studies

Introductory Units:
KTB101 20th Century Performance
KTB104 Performance Innovation

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
KTB102 Process Drama
KTB103 Performing Skills 1: Body and Voice and Role
KTB106 Performing Skills 2: Style and Form
KTB204 Understanding Performance
KTB207 Staging Australia
KTB209 Applied Performance

Screen Studies

Introductory Units:
KPB103 Film Genres
KPB108 Media Text Analysis

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
KPB102 Film History

KPB203 Australian Film
 KPB205 Documentary Theory and Practice
 KPB206 International Cinema

Television

Introductory Units:
 KPB106 Australian Television
 KPB101 Foundations of Film and Television Production

Subsequent Units: choose all 4 to complete submajor; or any 2 to complete minor
 KPB105 Narrative Production
 KPB107 Television Genres
 KPB303 Critical Thinking About Television
 KPB104 Film and Television Production Resource Management

Advertising

Introductory Units:
 BSB126 Marketing
 AMB220 Advertising Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor
 AMB222 Media Planning
 AMB221 Advertising Copywriting
 AMB200 Consumer Behaviour
 AMB320 Advertising Management

Entrepreneurship

Introductory Units:
 BSB126 Marketing
 BSB115 Management, People and Organisations

Subsequent Units: choose any 4 to complete submajor; or any 2 to complete minor
 AMB202 Integrated Marketing Communication
 AMB251 Innovation and Market Development
 BSB212 Electronic Business Applications
 MGB218 Venture Skills
 MGB223 Creating New Enterprises

Public Relations

Introductory Units:
 BSB126 Marketing
 AMB260 Public Relations Theory and Practice

Subsequent Units: choose all 4 to complete submajor; or both required units to complete minor
 AMB261 Media Relations and Publicity
 AMB262 Public Relations Writing
 AMB201 Marketing and Audience Research
 AMB361 Public Relations Campaigns

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen Submajor area.
- you must obey any elective rules as set out in your course requirements
- you must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

Semester 1

Media & Communication Discipline

KCB101 Communication in the New Economy
 KCB102 Media and Society: From Printing Press to Internet
 KCB103 Strategic Speech Communication
 KCB201 Virtual Cultures
 KCB302 Political Communication

Dance Discipline

KDB105 Architecture of the Body
 KDB108 World Dance
 KDB110 Deconstructing Dance in History

Fashion Discipline

KFB103 Introduction to Fashion Design

Journalism Discipline

KJB101 Journalism Information Systems
 KJB120 Newswriting
 KJB121 Journalistic Inquiry
 KJB224 Feature Writing
 KJB239 Journalism Ethics and Issues

Faculty

KKB004 Indigenous Creative Industries
 KKB290 Supervised Group Project
 KKB357 Independent Study
 KKB320 Workplace Learning
 KKB330 Workplace Learning
 KKB340-1 Workplace Learning
 KKB340-2 Workplace Learning

Music & Sound Discipline

KMB003 Sex Drugs Rock 'n' roll
 KMB004 World Music
 KMB104 Introductory Musicianship
 KMB105 Music and Sound Technology
 KMB108 Sound Recording and Acoustics
 KMB204 Music and Sound Textures

Film & Television Discipline

KPB102 Film History
 KPB106 Australian Television
 KPB108 Media Text Analysis
 KPB203 Australian Film
 KPB303 Critical Thinking About Television

Performance Studies Discipline

KTB061 Creative Industries Management
 KTB062 Creative Industries Events and Festivals
 KTB101 20th Century Performance
 KTB204 Understanding Performance
 KTB306 Directing for Events and Festivals

Visual Arts Discipline

KVB102 Modernism
 KVB104 Photomedia and Artistic Practice
 KVB110 2D Media and Processes
 KVB212 Australian Art, Architecture and Design
 KVB304 Contemporary Art Issues

Creative Writing & Cultural Studies Discipline

KWB001 Introduction to Literary Theory and Cultural Studies
 KWB003 Modern Times (Literature and Culture in the 20th Century)
 KWB005 Wonderlands: Literature and Culture in the 19th Century
 KWB101 Introduction to Creative Writing
 KWB102 Media Writing
 KWB103 Persuasive Writing
 KWB104 Creative Writing: The Short Story

KWB105 Film and Television Scriptwriting
KWB107 Introduction to Creative Non-Fiction

Semester 2

Media & Communication Discipline

KCB101 Communication in the New Economy
KCB103 Strategic Speech Communication
KCB104 Media and Communications Industries
KCB105 Media and Communication Research Methods
KCB202 New Media Technologies
KCB203 Consumer Cultures

Dance Discipline

KDB106 Dance Analysis
KDB109 Funk, Tap and all that Jazz
KDB204 Australian Dance

Faculty

KKB004 Indigenous Creative Industries
KKB290 Supervised Group Project
KKB357 Independent Study
KKB320 Workplace Learning
KKB330 Workplace Learning
KKB340-1 Workplace Learning
KKB340-2 Workplace Learning

Fashion Discipline

KFB105 Fashion and Modernity

Journalism Discipline

KJB101 Journalism Information Systems
KJB120 Newswriting
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB280 International Journalism
KJB337 Public Affairs Reporting

Music & Sound Discipline

KMB002 Music and Spirituality
KMB007 Introductory Ensemble
KMB105 Music and Sound Technology
KMB107 Sound and Image
KMB108 Sound Recording and Acoustics

Film & Television Discipline

KPB103 Film Genres
KPB104 Film and Television Production Resource Management
KPB107 Television Genres
KPB205 Documentary Theory and Practice
KPB206 International Cinema

Performance Studies Discipline

KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB207 Staging Australia

Visual Arts Discipline

KVB103 Australian Art
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture
KVB211 Post 1945 Art
KVB306 Video Art and Culture
KVB307 Theories of Spatial Culture

Creative Writing & Cultural Studies Discipline

KWB002 Ozlit
KWB004 Shakespeare, Then and Now

Note:

*Designated units are compulsory units which result in the development of particular skills and abilities. A satisfactory level of performance in a designated unit is a grade of 3 or higher, or S - Satisfactory. This level of achievement is required for successful completion of this course. See Student Rules for more details.

In addition to QUT units, arrangements exist for cross-institutional enrolments in Art History and Theory subjects offered by The University of Queensland. Contact Course Coordinator for details.

Intermedia Students cannot count KKB818 as a Faculty Core Unit.

Creative Industries Core Units

KKB007 Introduction to Multimedia Technology

KKB008 Narrative in the Creative Industries

KKB009 Writing for Creative Industries

KKB010 Cultures and Creativity

KKB018 Creative Industries

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:

- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen submajor area.
- you must obey any elective rules as set out in your course requirements
- you must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

Semester 1

Media & Communication Discipline

KCB101 Communication in the New Economy

KCB102 Media and Society: From Printing Press to Internet

KCB103 Strategic Speech Communication

KCB201 Virtual Cultures

KCB302 Political Communication

Dance Discipline

KDB105 Architecture of the Body

KDB108 World Dance

KDB110 Deconstructing Dance in History

Fashion Discipline

KFB103 Introduction to Fashion Design

Journalism Discipline

KJB101 Journalism Information Systems

KJB120 Newswriting

KJB121 Journalistic Inquiry

KJB224 Feature Writing

KJB239 Journalism Ethics and Issues

Faculty

KKB004 Indigenous Creative Industries

KKB290 Supervised Group Project

KKB357 Independent Study

KKB320 Workplace Learning

KKB330 Workplace Learning

KKB340-1 Workplace Learning

KKB340-2 Workplace Learning

Music & Sound Discipline

KMB003 Sex Drugs Rock 'n' roll
 KMB004 World Music
 KMB104 Introductory Musicianship
 KMB105 Music and Sound Technology
 KMB108 Sound Recording and Acoustics
 KMB204 Music and Sound Textures

Film & Television Discipline

KPB102 Film History
 KPB106 Australian Television
 KPB108 Media Text Analysis
 KPB203 Australian Film
 KPB303 Critical Thinking about Television

Performance Studies Discipline

KTB061 Creative Industries Management
 KTB062 Creative Industries Events and Festivals
 KTB101 20th Century Performance
 KTB204 Understanding Performance
 KTB306 Directing for Events and Festivals

Visual Arts Discipline

KVB102 Modernism
 KVB104 Photomedia and Artistic Practice
 KVB110 2D Media and Processes
 KVB212 Australian Art, Architecture and Design

■ **University Diploma in Dance Teaching
KD17**

Campus: External

Duration: 1 year (3 semesters) (by external study) full-time or 2 years (by external study) part-time

Credit points: 96 (full-time standard semester: 36 cp in First and Second semester; 24 in Summer semester; part-time standard semester: 24 cp in First and Second semester; and either one or both units in the Summer Program)

Course coordinator: Ms Lesley Graham

Discipline coordinator: Assoc Prof Cheryl Stock

Course Structure

Students are required to complete eight units.

Students should contact the Course Coordinator to discuss their enrolment program.

Full-time students

Select three units from both first and Semester 2 and both units in the Summer program.

Part-time students

Select two units from both first and Semester 2 and either one or both units in the Summer program.

Course Structure

Students are required to complete eight units. Students should contact the course coordinator to discuss their enrolment program.

Full time: select three units from both first and second semesters and both units in the summer program.

Part time: select two units from both first and second semesters, and either one or both units in the summer program.

Semester 1

KDB190 Professional Practice and Business Administration for Dance Teachers
KDB191 Dance Teaching Methodologies
KDB197 Dance Analysis And Dance Histories
KDB198 Safe Dance Practice

Semester 2

KDB189 Dance Assessment and Reporting
KDB190 Professional Practice and Business Administration for Dance Teachers
KDB191 Dance Teaching Methodologies
KDB192 Stagecraft and Costume for Dance
KDB198 Safe Dance Practice

Summer Program

KDB195 Dance Teaching Studies 1
KDB196 Dance Teaching Studies 2

* Full time students select both units; part time students select one or both units

KDB195 and KDB196 are offered via intensive residency in Brisbane.

■ **Advanced Certificate in Dance Teaching
KD06**

Award title: Advanced Certificate in Dance Teaching

Campus: External

Duration: 1 year full-time (3 semesters); 2 years part-time external

Credit points: 96

Course coordinator: Ms Lesley Graham

Discipline coordinator: Assoc Prof Cheryl Stock

Course Structure

Students are required to complete eight units. Students should contact the Course Coordinator to discuss their enrolment program

Full-time Students

Select three units from both First and Second semesters and both units in the Summer Program.

Part-time Students

Select two units from both First and Second semesters and one or both units in the Summer Program.

Semester 1

KDB190 Professional Practice and Business Administration
for Dance Teachers
KDB191 Dance Teaching Methodologies
KDB197 Dance Analysis And Dance Histories
KDB198 Safe Dance Practice

Semester 2

KDB189 Dance Assessment and Reporting
KDB190 Professional Practice and Business Administration
for Dance Teachers
KDB191 Dance Teaching Methodologies
KDB192 Stagecraft and Costume for Dance
KDB198 Safe Dance Practice

Summer Program

(Full-time students select both units; part-time students
select one or both units)

KDB195 Dance Teaching Studies 1
KDB196 Dance Teaching Studies 2
Both KDB195 and KDB196 are on-campus intensive in
Brisbane.

■ **Certificate in Dance Teaching KD05**

Award title: Certificate in Dance Teaching

Campus: External

Duration: 1 semester (by external study) full-time or 1 year
(by external study) part-time

Credit points: 48 (full-time standard semester: 48; part-
time standard semester: 24)

Course coordinator: Ms Lesley Graham

Discipline coordinator: Assoc Prof Cheryl Stock

Course Structure

Students are required to complete four units - the two core
units and two electives. All students should contact the
Study Area Coordinator to discuss their enrolment program.

Full-time Students

Select four units (two core and two electives) from either
First or Second Semester. Students may choose to replace
one elective with the Summer residency unit (Third Semes-
ter).

Part-time Students

Select four units (two core and two electives) across First
and Second Semesters. Students may choose to replace
one elective with the Summer residency unit.

Semester 1

KDB198 Safe Dance Practice
KDB190 Professional Practice and Business Administration
for Dance Teachers
KDB191 Dance Teaching Methodologies
KDB197 Dance Analysis And Dance Histories

Semester 2

KDB198 Safe Dance Practice
KDB189 Dance Assessment and Reporting
KDB190 Professional Practice and Business Administration
for Dance Teachers
KDB191 Dance Teaching Methodologies

Summer Program

KDB195 Dance Teaching Studies 1
(intensive residency in Brisbane) (elective)

OVERVIEW

QUT's Faculty of Education is one of the largest education faculties in Australia with over 5500 students, of which 2100 are in postgraduate courses.

Based at the Kelvin Grove campus of QUT, the Faculty of Education is a dynamic place for people pursuing a career in education, and for educators seeking to advance their qualifications.

The Faculty is composed of more than 130 academic staff, many of them real-world professionals committed to fostering learning for students of all ages, and ensuring course content is contemporary and relevant.

The strong, practical theme in the faculty's courses provides a balance of theory and practical skills that ensures graduates are not limited by the employment opportunities provided by classroom teaching alone.

SENIOR STAFF

Faculty Office

Executive Dean: Professor V. McLean, DipT *BKTC*, BEdSt *Qld*, MEd PhD *Arizona*

RESEARCH CENTRE

Centre for Learning Innovation

The Faculty of Education has a strong research culture driven by a commitment to innovation, enhancing educational professional practice and solving real-world issues. The Faculty has implemented cutting-edge innovations in research training, and has attained a critical mass of educational researchers that attract many competitive and contracted research grants. The Doctor of Education course is one of the most successful in Australia.

The Faculty has been extremely successful in securing Australian Research Council (ARC) grants for major research projects as well as many forms of commercial research projects.

In 2005, the exciting new Centre for Learning Innovation opened. The aim of the CLI is to become a leader in collaborative research with the education professions and a recognised innovator in research education, both nationally and internationally.

Research in the CLI will be clustered into programs:

- Early Years
- Cognition and Creativity
- Indigenous Capacity Building
- Scholarship of teaching in Higher Education
- Advancement of Knowledge in Science, Technology and Maths
- Cultural transformations
- Creative Workforce
- Development and disability.

These research cultures are designed to offer opportunities for joint projects with other faculties and units within QUT, such as the Oodgeroo Unit and the Faculties of Science, Built Environment and Engineering, Creative Industries and Health.

The CLI is also a key partner in the ARC Centre of Excellence.

■ **Doctor of Education ED11**

Award title: Doctor of Education

CRICOS code: 015023C

Campus: Kelvin Grove

Duration: 3.5 years part-time for holders of a relevant Masters degree; 4.5 years part-time without a relevant Masters part-time

Credit points: 288 (part-time standard semester: 24)

Course coordinator: Dr Susan Danby

Course Structure

The degree consists of 288 credit points of which 72 credit points are coursework, followed by a thesis of 216 credit points. All coursework must be completed before work can commence on the thesis. For the unit Interdisciplinary Education Studies (a 24 credit point unit), students undertake a four-day, on-campus study school in January of their commencing year. Subsequently, in the second and third semesters of their enrolment, students attend two four-day study schools on campus (July and the following January) in which they work on the methodology and design of their thesis (each unit worth 24 credit points). The thesis is undertaken in the Faculty's research centre. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

Course Structure

Year 1, Semester 1

EDR703 Interdisciplinary Education Studies (Advanced Seminars)

Year 1, Semester 2

EDR702/1 Thesis (Preparation)

Year 2, Semester 1

EDR702/2 Thesis (Preparation)

Year 2, Semester 2

EDR702/3 Thesis (Confirmation)

Confirmation must occur in the semester of enrolment in EDR702/3.

Students cannot progress to the next stage until they have successfully completed the Thesis Confirmation.

Year 2, Summer Program

EDR702/4 Thesis (Implementation)

Year 3, Semester 1

EDR702/5 Thesis (Implementation)

Year 3, Semester 2

■ **Master of Education (Research) ED12**

Award title: Master of Education (Research)

CRICOS code: 002501G

Campus: Kelvin Grove

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Professor Lyn English

Course Structure

The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

The preparation stage involves the acquisition of knowledge of a range of appropriate research methods, in-depth knowledge of the research method to be used in the study, and commencement of a literature search. During the preparation stage, students will complete the units Professional Applications of Research and Conducting Innovative Research in Educational Contexts. Students who have undertaken prior study of an equivalent nature may apply for an exemption from one or both of these units.

The confirmation of candidature stage includes the adoption of an appropriate research design for the proposed research, preparation of a research proposal including a draft review of the literature and research methods, and presentation and justification of the proposal to other students and academic staff at a confirmation of candidature seminar.

The implementation involves execution of the research for the thesis.

The submission stage is the completion and presentation of a thesis at a Final Oral seminar for approval by the final oral review panel, followed by production of the thesis in a suitable form for examination.

Course Requirements

University and Faculty rules governing credit, supervision, confirmation of candidature and examination of thesis apply to the Master of Education (Research).

Full-time Course Structure

First Semester of Study

EDN611 Professional Applications of Research

IFN300 Masters Research

Note: Students must either undertake EDN611 before EDN612 or undertake them concurrently.

Second Semester of Study

EDN612 Conducting Innovative Research in Educational Contexts

IFN300 Masters Research

In instances where a candidate has exceeded the normal course duration and an extension of time has been approved students may enrol in:

IFN101 Full-Time Masters Research (Extension)

Part-time Course Structure

First semester of study

EDN611 Professional Applications of Research

IFN302 Masters Research

Note: Students must either undertake EDN611 before EDN612

or undertake them concurrently.

Second semester of study

EDN612 Conducting Innovative Research in Educational Contexts

IFN302 Masters Research

Third semester of study

IFN200 Masters Research

Fourth semester of study

IFN200 Masters Research

In instances where a candidate has exceeded the normal course duration and an extension of time has been approved students may enrol in:

IFN201 Part-time Masters Research (extension)

■ **Master of Education (Teaching English to Speakers of Other Languages - TESOL) ED14**

Award title: Master of Education (TESOL)

CRICOS code: 002330K

Campus: Kelvin Grove

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Jane Crawford

Entry requirements

Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean OR other qualifications acceptable to the Executive Dean, which may include substantial work experience in TESOL or involvement in other relevant professional research activities AND at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

Course Structure

Students in the Masters program are required to complete 96 credit points of study including the two compulsory units, Second Language Acquisition and Principles of Second Language Methodology, of 12 credit points each. Students then have the choice of pursuing one of two options:

Option 1:

requires the completion of six elective units of 12 credit points each from the list of elective units below:

- Second Language Curriculum Design Options
- Directed Reading in Second Language Education
- Language Assessment and Program Evaluation in TESOL
- Personalised Language Development
- Technology and Second Language Learning
- Adult Literacy and Second Language Learners
- Sociolinguistics
- From Theory to Practice: Practical Applications in the TESOL Classroom
- Grammar for Teachers
- English Language Teaching Management
- Functional Grammar and Discourse
- Language and Culture
- Research Methods in Second Language Education

Option 2:

requires the completion of elective units and a 24 or 36 credit point research project to total 96 credit points. Students must consult with the Course Coordinator to discuss their research topic and complete the appropriate forms before enrolling in research units.

CLN641 From Theory To Practice -Practical Applications In The Tesol Classroom

CLN642 Grammar for Teachers

CLN643 English Language Teaching Management

CLB339 Adult Literacy and Second Language Learners

Note Assessment for CLB339 is completed at Masters level.

Students must consult with the Course Coordinator to discuss their research topic and to complete the appropriate forms before enrolling in the following:

EDN603 Facilitated Study Unit

EDN608 Project

EDN620 Dissertation

EDN611 Professional Applications of Research

EDN612 Conducting Innovative Research in Educational Contexts

■ Master of Learning Innovation ED09

Award title: Master of Learning Innovation

CRICOS code: 053490E

Campus: External and Kelvin Grove

Duration: 1 year full-time or 2 years part-time or 1 year full-time or 2 years part-time external

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Assoc Prof John Lidstone

Special Entry Requirements (Early Childhood Teaching Study Areas only)

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre. Students should apply for a card as soon as they are accepted into the course. It is now a requirement of all Queensland sites that preservice teachers have obtained the Blue Card prior to starting field experience. For more information visit blue-card.qut.com

Course Structure

Students will complete a program of study comprising the two core units and six electives as specified by the course

rules and chosen to meet their personal and professional learning needs. In addition, there will be opportunities to complete specialised study in Teacher-Librarianship or Early Childhood Teaching as Study Area A options or a range of Study Area B options.

Study Area A options are:

Teacher-Librarianship
 Early Childhood Teaching
 Study Area B

To qualify for a Study Area B students must complete a minimum of 3 approved units (36 credit points) in one of the following areas:

Adult Learning and Knowledge Management
 Asian Studies
 Career Guidance
 Cyberlearning
 Global Studies
 Guidance and Counselling
 Higher Education
 Leadership and Management
 Learning in Scientific Contexts
 Learning Support
 Managing Learners
 Middle Years
 Multiple Languages and Literacies
 Sustainability Education
 The Early Years

■ **Master of Learning Innovation (Early Childhood Teaching) ED09**

Award title: Master of Learning Innovation (Early Childhood Teaching)

CRICOS code: 053490E

Campus: Kelvin Grove and Internet

Duration: 1 year full-time or 2 years part-time or 1 year full-time or 2 years part-time external

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Ann Heirdsfield

Special Entry Requirements

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre. Students undertaking the practicum unit in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child Care Centre, Day Care, Long Day Care, Kindergarten or independent pre-school setting. It is essential that you apply for this Blue Card at least 16 weeks prior to the commencement of your field studies. Forms can be downloaded at: <http://www.childcomm.qld.gov.au/employment/index.html>

If you require further information on this please contact Ms Shirley Richards from the Field Experience Office on email feo@qut.edu.au. Students who do not have a valid Blue Card and are required to do so for their placement will not be permitted to commence their practicum. You may incur penalties if you failed to submit your application within the recommended time-frame.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Teaching Area Entry Requirements

Students admitted into a teaching area must complete the course in that teaching area. It is assumed that current knowledge in the chosen teaching area has been maintained since completion of the relevant units.

Dance Education (not available mid-year, offered in internal mode only, quota restrictions apply)

A range of units covering Dance theory and practice at a university level. Applicants who satisfy the academic entry requirements will be contacted by Dance, Creative Industries Faculty for an interview. Interviews will be held in December. An audition may be required after the interview.

Drama Education (not available mid-year, offered in internal mode only, quota restrictions apply)

A range of units covering theory and performance at university level. Applicants who satisfy the academic entry requirements will be contacted by Drama, Creative Industries Faculty for an interview. Interviews will be held in December. An audition may be required after the interview.

English Education

A range of English units covering the areas of language and literacy, literary and cultural, and media and film stud-

ies. Applicants may not be accepted if their studies are too narrowly focused on one area.

Languages Education (not available mid-year, offered in internal mode only)

Applicants must have completed at least a minimum of six language units in sequence beyond the secondary school level (or the equivalent). Native speakers can also apply and must be able to demonstrate completion of schooling and/or tertiary study in the first/native language and/or demonstrated/documentated appropriate levels of language proficiency. Interview may be required. Languages available are French, German, Japanese, Indonesian, Chinese and Italian.

Mathematics Education

A range of mathematics units.

Music (Secondary) Education (not avail mid-yr, offered internal mode only, quota restrictions apply)

A degree in music or approved equivalent at university level. Applicants who satisfy the academic entry requirements will be contacted by Music, Creative Industries Faculty for an interview. Interviews will be held in December. An audition may be required after the interview.

Visual Arts Education (not available mid-year, offered internal mode only, quota restrictions apply)

A range of Visual Arts units, which must include studio practice and art history/theory units at university level. Applicants who satisfy the academic entry requirements will be contacted by Visual Arts, Creative Industries Faculty for an interview. Interviews will be held in December. A portfolio may be required after the interview.

Business Education (Accounting/Business Management)

A range of units in accounting and business management, with at least three accounting units of appropriate content.

Business Education (Business Communication and Technologies)

A range of units in business and business technology.

Business Education (Information, Communications and Technologies Education)

A range of units in the areas of computer systems and programming, information systems theory, and information technology.

Business Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Social Education (Geography)

A range of units from the fields of geography, geology, and environmental studies.

Social Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Social Education (History)

A range of History units. Applicants may not be accepted if their studies of history are too narrowly focused on one geographical area (eg Asia, Europe) or on one theme (eg warfare, colonisation).

Social Education (Social Science)

Applicants must have completed at least one (1) unit of history. One (1) unit of geography and one (1) unit of sociology is desirable. Other units may be drawn from the fields

of ethics, gender studies, political studies, sociology, indigenous studies, and international and global studies.

Science Education (Biology)

A range of Biology units covering the areas of plant and animal studies.

Science Education (Chemistry)

A range of Chemistry units covering the areas of physical, inorganic, bio-organic, analytical and environmental chemistry.

Science Education (Earth Science)

A range of units from the fields of environmental science, geology, geoscience and ecology.

Science Education (Physics)

A range of units from the areas of physics and mathematics.

Science Education (Science Studies)

A range of units from the areas of physics, chemistry, biology, earth science, and astronomy.

Teaching Area Entry Requirements

Students admitted into a teaching area must complete the course in that teaching area. It is assumed that current knowledge in the chosen teaching area has been maintained since completion of the relevant units.

Dance Education (not available mid-year, quota restrictions apply)

A range of units covering Dance theory and practice at a university level. Interview is required (compulsory). An audition may be required after the interview. Contact Dance, Creative Industries Faculty on (07) 3138 5688.

Drama Education (not available mid-year, quota restrictions apply)

A range of units covering theory and performance at university level. Interview is required (compulsory). An audition may be required after the interview. Contact Drama, Creative Industries Faculty on (07) 3138 3468.

English Education

A range of English units covering the areas of language and literacy, literary and cultural, and media and film studies. Applicants may not be accepted if their studies are too narrowly focused on one area.

Languages Education (not available mid-year)

Applicants must have completed at least a minimum of six language units in sequence beyond the secondary school level (or the equivalent). Native speakers can also apply and must be able to demonstrate completion of schooling and/or tertiary study in the first/native language and/or demonstrated/documentated appropriate levels of language proficiency. Interview may be required. Languages available are French, German, Japanese, Indonesian, Chinese and Italian.

Mathematics Education

A range of Mathematics units.

Music (Secondary) Education (not available mid-year, quota restrictions apply)

A degree in music or approved equivalent at university level. Interview is required (compulsory). An audition may be required after the interview. Contact Music, Creative Industries Faculty on (07) 3138 3691.

Visual Arts Education (not available mid-year, quota restrictions apply)

A range of Visual Arts units, which must include studio practice and art history/theory units at university level. Interview is required (compulsory). A folio may be required after the interview. Contact Visual Arts, Creative Industries Faculty on (07) 3138 3092.

Business Education (Accounting/Business Management)

A range of units in accounting and business management, with at least three accounting units of appropriate content.

Business Education (Business Communication and Technologies)

A range of units in business and business technology.

Business Education (Information, Communications and Technologies Education)

A range of units in the areas of computer systems and programming, information systems theory, and information technology.

Business Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Social Education (Geography)

A range of units from the fields of geography, geology, and environmental studies.

Social Education (Legal Studies)

A range of units from the fields of law, justice studies, and criminology.

Social Education (History)

A range of History units. Applicants may not be accepted if their studies of history are too narrowly focused on one geographical area (eg Asia, Europe) or on one theme (eg warfare, colonisation).

Social Education (Social Science)

Applicants must have completed at least one (1) unit of history. One (1) unit of geography and one (1) unit of sociology is desirable. Other units may be drawn from the fields of ethics, gender studies, political studies, sociology, indigenous studies, and international and global studies.

Science Education (Biology)

A range of Biology units covering the areas of plant and animal studies. Human biology is included in animal biology and ecology, and environmental sciences are included in plant biology.

Science Education (Chemistry)

A range of Chemistry units covering the areas of physical, inorganic, bio-organic, analytical and environmental chemistry.

Science Education (Earth Science)

A range of units from the fields of environmental science, geology, geoscience and ecology.

Science Education (Physics)

A range of units from the areas of physics and mathematics.

Science Education (Science Studies)

A range of units from the areas of physics, chemistry, biology, earth science, and astronomy.

■ **Graduate Certificate in Education (Teaching English to Speakers of Other Languages - TESOL) ED77**

Award title: Graduate Certificate in Education (TESOL)

CRICOS code: 014019G

Campus: Kelvin Grove

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Jane Crawford

Course Structure

The Graduate Certificate in Education (TESOL) consists of four units taken from the Master of Education (TESOL) course. Students are required to complete the two core units Second Language Acquisition and Principles of Second Language Methodology and two electives.

Full-time Course Structure

First semester of study

Students enrol in two core units:

CLN608 Second Language Acquisition

CLN612 Principles of Second Language Methodology

and choose two electives from the list of elective units.

Elective unit

Elective unit

Part-time Course Structure

First semester of study

Students enrol in the two core units:

CLN608 Second Language Acquisition

CLN612 Principles Of Second Language Methodology

Second semester of study

and choose two electives from the list of elective units.

Elective unit

Elective unit

Elective List

Note, a selection of these units will be offered each semester.

Some electives may be offered in Summer Program.

CLN613 Second Language Curriculum Design Options

CLN615 Directed Reading in Second Language Education

CLN616 Language Assessment and Program Evaluation In Tesol

CLN617 Personalised Language Development

CLN618 Technology and Second Language Learning

CLB339 Adult Literacy and Second Language Learners

NOTE Assessment for CLB339 is completed at Masters level.

CLN640 Sociolinguistics

CLN641 From Theory To Practice -Practical Applications In The Tesol Classroom

CLN642 Grammar for Teachers

CLN643 English Language Teaching Management

CLN619 Functional Grammar and Discourse

CLN620 Language and Culture

CLN614 Research Methods and Second Language Education

■ **Graduate Certificate in Education ED61**

Award title: Graduate Certificate in Education (Study Area A)

CRICOS code: Not required

Campus: External and Kelvin Grove

Duration: 1 semester (subject to unit availability) full-time or 2 semesters part-time or 2 semesters external

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Mr Alan Roberts

Course Structure

The Graduate Certificate in Education course consists of 48 credit points of study from the Master of Learning Innovation deemed by the Executive Dean to form a coherent program of study. Units can be presented in internal, flexible or block mode (where students are required to attend campus for up to five days normally during the January or July school holiday period). In some instances units can be

EDUCATION

completed in a modularised form which allows students to complete the assessment on a credit point basis.

Study Areas

The study areas include:

Adult Learning and Knowledge Management
Autistic Spectrum Disorder
Behaviour Management
Career Guidance
Early Childhood
Educational Counselling
Executive Leadership
Higher Education
Information and Communication Technology
Leadership and Management
Learning Futures
Learning Support and Inclusive Education
Mathematics Education
Middle Years of Schooling
Science education

Course structure

Adult Learning and Knowledge Management

SPN624 Adult and Professional Learning
EDN603 Facilitated Study Unit
SPN637 Managing Knowledge in Learning Organisations
SPN628 Leadership for Change
SPN629 Current Issues in Leadership
SPN618 Innovative Career Development Program
EDN610 The Learning Innovator

Autistic Spectrum Disorder

Module 1: Introduction to Autistic Spectrum Disorder
Module 2: Behaviour Management for Autistic Spectrum Disorder
EDN603 Facilitated Study Unit
SPN615 Managing Learners with Disabilities and Challenging Behaviours in the Classroom
EDN610 The Learning Innovator

Behaviour Management

SPN615 Managing Learners with Disabilities and Challenging Behaviours in the Classroom
SPN616 Innovations in Programs and Planning for Behaviour Management
SPN617 Foundations of Behaviour and Classroom Management

Career Guidance

SPB006 Educational Counselling
SPN610 Advanced Educational Counselling
SPN618 Innovative Career Development Program
SPN619 Constructing Career Theory
SPN620 Career Counselling
Early Childhood
EAN601 Investigating Curriculum and Pedagogy in Early Childhood
Plus three units from:
EAN603 Child Development in Context
EAN616 Language, Literacies and Communication in Early Childhood
EAN615 Mathematics in Early Childhood
EAN614 Arts and Sciences in Early Childhood
EDN635 Practicum in Early Childhood
Students undertaking the unit EDN635 Practicum in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child

Care Centre, Day Care, Long Day Care, Kindergarten or independent pre-school setting.

or:-

EDN610 The Learning Innovator

Educational Counselling

SPB006 Educational Counselling
SPN610 Advanced Educational Counselling
SPN611 Educational Counselling Professional Practice
SPN618 Innovative Career Development Program
EDN610 The Learning Innovator

Executive Leadership

SPN625 Changing Agendas in Leadership
EDN602 Advanced Seminars
Unit 3 may be selected from the Master of Learning Innovation or from any other Masters level unit at QUT, subject to course coordinator approval.
Unit 4 may be selected from an appropriate Masters level unit from any QUT faculty, subject to course coordinator approval OR a Facilitated Study Unit - to be discussed with the Area of Interest Coordinator

Higher Education

EDN626 Learning and Teaching In Higher Education
EDN627 Contexts and Issues In Higher Education
EDN629 Presentation and Delivery Modes In Higher Education
EDN630 Higher Education: Curriculum Design, Assessment and Evaluation

Information and Communication Technology

■ **Bachelor of Adult and Community Learning ED84**

Award title: Bachelor of Adult and Community Learning
CRICOS code: 046302F
Campus: Kelvin Grove and External
Duration: 2 years full-time or 2 to 4 years external

Course Structure

The Bachelor of Adult and Community Learning is a four-year undergraduate degree program. On entry students are granted 192 credit points or two years credit as recognition of prior knowledge, experience and skills. The remaining two years full-time or four years part-time focuses on adult and community learning. The development of a professional portfolio throughout the degree enables students to individualise their own program to suit their professional development needs.

Part-time Course structure

Year 1, Semester 1

EDB101 Professional Foundations for Learning Facilitation 1
 SPB102 Professional Communication in Adult Learning Contexts

Year 1, Semester 2

EDB102 Professional Foundations for Learning Facilitation 2
 SPB104 Practitioner Research and Inquiry

Year 2, Semester 1

SPB100 Introduction to Adult Learning and Development
 SPB101 Getting to Know Great Thinkers in Adult Education

Year 2, Semester 2

SPB103 Program Design, Assessment, Reporting and Evaluation
 Elective

Year 3, Semester 1

SPB105 Politics of Diversity and Identity

■ **Bachelor of Early Childhood ED83**

Award title: Bachelor of Early Childhood
CRICOS code: Not required
Campus: External
Duration: 3 years external
Credit points: 288 (part-time standard semester: 24)
Course coordinator: Dr Julie Davis

Professional Recognition

The Bachelor of Early Childhood is accredited by the Department of Families, Youth and Community Care for employment in the area of child care. Graduates of the Bachelor of Early Childhood are not eligible for registration with the Queensland Board of Teacher Registration.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Part-time course structure

■ Bachelor of Education (Early Childhood) ED92

Award title: Bachelor of Education (Early Childhood)

CRICOS code: 000783G

Campus: Kelvin Grove

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Kerryann Walsh

Professional Recognition

The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Early Childhood) is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children's services.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course structure

Year 1, Semester 1

- EDB006 Learning Networks
- EDB001 Teaching and Learning Studies 1: Teaching in New Times
- EAB008 Early Childhood Language and Literacies and Communication 1
- EAB001 Early Childhood Foundations 1: Historical and Comparative Perspectives of Early Childhood Education

Year 1, Semester 2

- EDB007 Culture Studies: Indigenous Education
- EAB003 Development and Learning in Early Childhood 1
- EAB011 Early Childhood Curriculum: Arts 1
- EAB002 Early Childhood Foundations 2: Families and Childhoods in Early Childhood Education and Care

Year 2, Semester 1

- EAB004 Development and Learning Early Childhood 2
- EDB011 Early Childhood Field Studies 1: Development and Learning in the Field
- EAB013 Early Childhood Society, Environment and Health Education
- EAB027 Early Childhood Mathematics Education 1: Birth to Six Years

Year 2, Semester 2

- EDB003 Teaching and Learning Studies 3: Practising Education
- EDB012 Early Childhood Field Studies 2: Practising Education in the Field
- EAB015 Early Childhood Science and Information and Communication Technologies Education
- EAB009 Early Childhood Language and Literacies and Communication 2

Year 3, Semester 1

- EAB005 Inclusion in Early Childhood Settings
- EDB013 Early Childhood Field Studies 3: Immersion in Inclusive Educational Practices
- EAB012 Early Childhood Curriculum: Arts 2
- EAB016 Research in Early Childhood Education

Year 3, Semester 2

- EAB028 Early Childhood Mathematics 2: Four to 8 Years

- EAB010 Early Childhood Language and Literacies and Communication 3
- Pathway Studies 1
- Pathway Studies 2

Year 4, Semester 1

- EAB026 Early Childhood Community Arts Project
- EAB006 Leadership and Management in Early Childhood Services
- Pathway Studies 3
- Pathway Studies 4

Year 4, Semester 2

- EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
- EDB014 Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field
- EDB015 Internship (Early Childhood)
- EAB017 Integrated Early Childhood Curriculum

Research Pathway Option

Students with a GPA of 5.5 or above will be invited to undertake the research pathway option.

The research pathway option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research oriented, reflective approach to teaching. The amended structure for Research Pathway students will be:

Year 3, Semester 1

- EAB005 Inclusion in Early Childhood Settings
- EDB013 Early Childhood Field Studies 3: Immersion in Inclusive Educational Practices
- EAB012 Early Childhood Curriculum: Arts 2
- EAB410 Introduction to Research Methods In Education

Year 3, Semester 2

- EAB010 Early Childhood Language and Literacies and Communication 3
- EAB028 Early Childhood Mathematics 2: Four to 8 Years
- EAB411 Dissertation Elective

Year 4, Semester 1

- EAB006 Leadership and Management in Early Childhood Services
- EAB026 Early Childhood Community Arts Project
- EAB411 Dissertation
- EAB411 Dissertation

Year 4, Semester 2

- EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
- EAB014 Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field
- EAB015 Internship (Early Childhood)
- EAB017 Integrated Early Childhood Curriculum

List 1: Pathway Studies Electives

All students (except those following the LOTE pathway) take a total of four units from this list during Years 2 - 4 (refer to course structure on previous pages for exact semesters).

The 4 units should be drawn from one of the specified groups below.

Students electing to undertake EDB440 Independent Study, will undertake this unit if offered in their chosen pathway and in the final semester of study. The opportunity to take EDB440 is dependent upon staff availability within the Faculty. The area of study will be specific to the chosen pathway area.

EDUCATION

Research Pathway

(see above for complete research pathway)

EDB410 Introduction To Research Methods In Education
EDB411/1 Dissertation (Part 1)
EDB411/2 Dissertation (Part 2)
EDB411/3 Dissertation (Part 3)

Middle Years of Schooling Pathway

CLB323 Teaching Adolescent Literature
MDB021 Mathematics Curriculum Studies 1
SPB022 The Middle Years Curriculum
SPB008 The Middle Years of Schooling
SPB020 Classroom Assessment Practices
SPB018 Teaching Strategies
EDB440 Independent Study

Studies in Inclusive Education

Students may also select units from Studies in Indigenous Education and Intercultural and International Teacher
EAB005 Inclusion in Early Childhood Settings
MDB030 Understanding and Education Gifted Learners
SPB003 Teaching Children with Low Incidence Disabilities and Health Problems
SPB004 Teaching Students with Learning Difficulties
SPB007 Human Sexuality and Learning

Studies In Indigenous Education

Students may also select units from Intercultural and International Teacher and/or Studies in Inclusive Education
CLB402 Issues in Indigenous Education
CLB403 Gender and Sexuality Issues for Teachers
HHB123 Indigenous Australian Culture Studies
HHB210 Indigenous Australia: Country, Kin and Culture
KKB701 Indigenous Australian Writing (to be confirmed)
EDB440 Independent Study

Managing Learners and Learning

SPB004 Teaching Students with Learning Difficulties
SPB006 Educational Counselling
SPB010 Education, Law and the Beginning Teacher
SPB012 Classroom and Behaviour Management
SPB018 Teaching Strategies
EDB440 Independent Study

Intercultural and International Teacher

Students may also select units from Studies in Inclusive Education and/or Studies in Indigenous Education.
CLB045 Becoming a second language user
CLB049 The Global Teacher
CLB347 Teaching English as an Additional Language
CLB401 Cultural Diversity and Education
CLB403 Gender and Sexuality Issues for Teachers
EDB440 Independent Study

DISCIPLINE BASED PATHWAYS

Literature and Media Studies

CLB441 Children's Literature
CLB452 Media Literacy and The School
CLB323 Teaching Adolescent Literature
CLB050 Movies and Popular Culture
EAB361 Storytelling in Early Childhood
EDB440 Independent Study

Lifelong Numeracy and Mathematics

Students may select units from Exploring the Science, Information and Communication Technologies and/or ED Maths, Science and ICT
EAB023 Mathematical Explorations in Early Childhood
EAB024 Sociology of Early Childhood Mathematics Education

MDB349 Numeracy and Mathematical Reasoning for the 21st Century
MDB388 Numeracy in Games of Skill and Chance
MDB453 Middle School Mathematics Education
MDP529 Assessment and Intervention in Mathematics
EDB440 Independent Study

Exploring the Sciences

MDB389 Life and Living Processes
MDB390 Natural and Processed Materials
MDB391 Earth and Space
MDB454 Science, Technology and Society
EAB022 Early Childhood Science Education
EDB440 Independent Study

■ Bachelor of Education (Preservice Early Childhood) ED93

Award title: Bachelor of Education (Preservice Early Childhood)

CRICOS code: Not required

Campus: External

Duration: 5 years external

Credit points: 384 CP (part-time standard semester: 24 CP)

Course coordinator: Dr Julie Davis

Professional Recognition

The Bachelor of Education (Preservice Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Preservice Early Childhood) is an approved child care qualification with the Queensland Government Department of Communities and is accredited

by the New South Wales Department of Community Services for employment in children's services.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Part-time course structure

Students are required to complete 20 units over 5 years part-time.

Year 1, Semester 1

■ Bachelor of Education (Primary) ED91

Award title: Bachelor of Education (Primary)

CRICOS code: 000783G

Campus: Kelvin Grove and Caboolture

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Annah Healy

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Languages Other Than English (LOTE) Pathway

Students undertaking a LOTE pathway may be required to attend other campuses. Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway

Certain students will be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

■ **Bachelor of Education (Secondary) ED90**

Award title: Bachelor of Education (Secondary)

CRICOS code: 000783G

Campus: Kelvin Grove, Carseldine and Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Peter Bond

Professional Recognition

The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Working With Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Structure

The Bachelor of Education is an exciting new learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

- Each program consists of several different types of units:
- core units cover material which is considered essential
 - parallel units are specific to each program
 - strand units focus on issues related to that program
 - specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Students complete a total of 384 credit points of study and will specialise in two teaching areas appropriate for teaching grades 8-12 in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 100 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, Indigenous and sociocultural studies. Applied curriculum tasks give students the opportunity to relate their practical school experiences to their theoretical studies.

Successful applicants receive an offer in one of three streams: General, Home Economics or Physical Education. Restrictions apply to some teaching area combinations.

Students will select their two teaching areas from the following lists (one from Group X and one from Group Y):

Course structure

Possible Combinations of Subject Areas

Group X

Accounting/Business Management

EDUCATION

Business Communication & Technologies
Computing
English
Home Economics (available only to students entering through the Home Economics entry point)
Mathematics
Physical Education (available only to students entering through the Physical Education entry point)
Science Studies
Social Science
English as a Second Language (ESL)

Group Y

Accounting/Business Management
Biology
Business Communications & Technologies
Chemistry
Earth Science
English
Film & Media Studies (subject to quota)
French
Geography
German
Health Education
History
Indonesian
Japanese
Legal Studies
Mathematics
Physics

Note:

Where the same subject is listed in both Groups X and Y (eg. English), it may only be selected once.

There may be limited places in some disciplines as a second teaching area

Students selecting Home Economics or Physical Education are to complete 96 credit points in these areas.

Some subjects are taught at Gardens Point and Carseldine campuses and timetable incompatibilities may exist with subjects taught at Kelvin Grove.

Students wishing to take biology, chemistry, earth science, or physics with subject areas other than mathematics or science studies should check for possible timetable difficulties.

Mathematics has an Assumed Knowledge of Maths B (4 SA)

OVERVIEW

The Faculty of Health is an industry leader that educates professionals for a range of health related areas, conducts research and is actively engaged in continuing education and community service.

The Faculty has more than 3500 students enrolled in undergraduate and postgraduate programs. Undergraduate degree programs are delivered through five discipline-based schools of Human Movement Studies, Nursing, Optometry, Psychology and Counselling, and Public Health.

The **School of Human Movement Studies** offers programs that respond to the increasing community awareness of health, exercise, well-being, and fitness. A degree in Human Movement Studies equips graduates with the knowledge and skills for an active career in physical education, health education, rehabilitation, weight management, or exercise and sports science.

The **School of Nursing** is Queensland's oldest provider of nursing education. Always at the cutting-edge of its field, the School offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. Nursing graduates go on to work in a range of areas, including and beyond the traditional hospital ward. The School offers an undergraduate program in nursing, as well as specialised postgraduate programs.

The **School of Optometry** is the only optometry training facility in Queensland and one of three in Australia. As such, Optometry graduates are always in demand. The optometry degree prepares graduates for entry into the professional workforce and for Australia-wide registration. Students apply their knowledge through supervised clinical practice both in the School's purpose-built public optometry clinic and in the community. Postgraduate research programs are offered by the School at Masters and PhD level.

The **School of Psychology and Counselling** is located on QUT's spacious bushland campus at Carseldine. The School offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Programs provide graduates with the opportunity to gain practical qualifications that are well regarded in the community. The Bachelor of Behavioural Science (Psychology) is a three-year degree program that prepares graduates for further studies in psychology and for employment in a number of fields. Graduates aiming for professional registration may seek admission to a fourth year of study in either the Bachelor of Psychology (Honours) or the Postgraduate Diploma in Psychology. The School's postgraduate offerings include Masters in Counselling, Clinical Psychology and Psychology (Educational and Developmental), and Graduate Diplomas or Certificates in Psychology and Road Safety. Studies can also be undertaken at doctorate level.

The School has a Family and Counselling Clinic, which is open to the public, and a research centre in Road Safety and Accident Prevention.

The **School of Public Health** is the most diverse of the Faculty's schools, offering undergraduate majors in podiatry, nutrition and dietetics, health information management, health services management, paramedic and public health. A range of articulated postgraduate programs is also offered in a number of specialised fields such as environmental health, health promotion, occupational health and safety, risk management, and health science.

Staff in the Faculty maintain excellent ties with the health industry and work closely with national and international health and welfare organisations. These industry ties ensure that the Faculty's programs deliver relevant skills and respond rapidly to new and emerging needs in health education in an era of advancing health technology.

The **Faculty of Health** is primarily based at QUT's Kelvin Grove campus, with the School of Psychology and Counselling located at Carseldine campus in the northern suburbs of Brisbane. At Kelvin Grove campus, two purpose-built complexes house state-of-the-art facilities including:

- teaching clinics for Podiatry, Optometry and Human Movement Studies (children's activity and weight management programs, balance and gait assessment, health and fitness appraisals, and exercise prescriptions)
- a Nursing clinical practice laboratory
- Human Movement laboratories for biomechanics, exercise physiology, motor control, and functional anatomy
- student computer laboratories with the latest in general and health-related software
- multimedia lecture theatres and tutorial rooms
- fully equipped research laboratories
- and an ergonomics laboratory.

At Carseldine, a Family Therapy and Counselling Clinic provides supervised clinical experience for Counselling students.

Associate Professors:

S. Ash, BSc DipNutrDiet *Syd*, MHP *NSW*, PhD *Syd*
M.P. Dunne, BA(Hons) PhD *Murdoch*

RESEARCH CENTRES**Centre for Health Research**

The Centre for Health Research is a multidisciplinary research centre, fostering collaboration and groundbreaking research across a number of health-related areas. The key strengths of the Centre for Health Research are:

Ageing

The effect of an ageing population has been identified as a global health and social issue. Research questions related to both the impact of age-related disease and successful ageing underpin current research projects in the Centre for Health Research. Research activities in this area relate to community and residential care; pain and symptom management; palliative care; ocular disease and the effects of vision impairment; foot health; gait; mobility and posture analysis; disorders of movement; injury in older people; social identity; families; mental health; nutrition; cognition and cognitive/memory deficit; the older driver; the older worker; and active ageing.

Physical Activity, Disability, Injury and Rehabilitation

The role of physical activity in the maintenance and restoration of health is a significant emerging area. There is increasing evidence of the role of physical activity in the prevention, treatment and management of a range of chronic disorders. This program of research is aimed at the promotion of physical activity during childhood and adolescence and the prescription of exercise in the context of chronic disease, and at community-based health behaviour interventions. Research into prevention and rehabilitation of occupational and sporting injuries requires assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on highrisk

groups and prevention of older peoples' injuries. Other research into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease, and sleep apnoea is also being conducted.

Human Health and Wellbeing

Research activities in this area relate to health services, policy and management, and population health. Areas of strength include the management of chronic diseases such as cancer, diabetes, obesity, coronary heart disease, and other emerging health conditions. These include quality of life and resilience; improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; health-promoting schools and early childhood environments; and prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention, development and implementation of nutrition assessment and screening tools, and evaluation of nutritional status.

Human Behaviour

Research in human behaviour embraces fundamental social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision making, child and adolescent development, memory, psycholinguistics, and the development of reading. Opportunities include research in addictive behaviour, eating, exercise, organic mental disorder, and health promotion. A range of research methods has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy, and counselling supervision.

Vision

Vision research provides an important resource for the community, industry, government and eye-care professions. There are a number of areas of collaboration with research activities in the other programs and across faculties deriving from the main research activities in this program which are visual optics, including aberrations of the eye and their correction; lens design and performance; myopia and optics of the eye; visual performance studies, including vision rehabilitation, vision and driving, and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electroretinography.

Centre for Accident Research and Road Safety (CARRS-Q)*Accident and Injury Prevention Research*

Road safety and workplace accident prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety—Queensland (CARRS—Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre's charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on roads, in workplaces and in communities.

The Centre aims to strengthen and broaden research and intervention development in the areas of vulnerable road users; illegal and high-risk behaviours; the human behaviour and technology interface; school and community-based road safety education; and workplace safety.

Institute of Health and Biomedical Innovation

The Institute of Health and Biomedical Innovation (IHBI) will be based in a state-of-the-art facility at the Kelvin Grove Urban Village in Brisbane, Australia.

As the largest institute of the Queensland University of Technology (QUT), IHBI benefits from QUT's highly successful track record in real-world commercial partnerships and sustainable biotech companies.

Due for completion in May 2006, the \$60 million, seven-floor facility was made possible due to generous donations by The Atlantic Philanthropies, the Queensland State Government and QUT.

IHBI has continuous links with local and interstate hospitals, medical researchers world-wide, clinical specialists and industry professionals. By working together, IHBI believes it is possible to bridge the gap between science and better health for everyone.

We are making it our business to:

- bring together Australia's most creative and innovative minds in health, science and biomedical engineering research
- create teams to seek solutions that would not be possible if each research area worked in isolation
- contribute to a better health care industry by ensuring our knowledge is transferred into public policy
- develop new products and generate new companies to bring our research solutions into your world
- advance health and biomedical innovation to make better health a reality—in your lifetime.

IHBI is an exciting new endeavour that is redefining models for traditional university-based biomedical research. Postgraduate training is a core element of IHBI's mission and the Institute offers world-class career opportunities across the spectrum of health, science, and biomedical engineering research. Postgraduate students enrol in QUT through one of the faculties and are then able to conduct research through IHBI according to the nature of their projects. The research programs at IHBI encompass:

Human Health and Wellbeing

Exploring critical health issues and designing better community healthcare options

Advanced Diagnostics and Medical Devices

Developing technologies to assist practitioners diagnose illness and injuries more accurately

Injury Prevention and Rehabilitation

Analysing and modifying human behaviour to avoid dangerous situations, and developing strategies for damage recovery

Tissue Repair and Bio-regeneration

Restoring functionality to damaged human tissue—skin, muscles, bones, joints and eyes

Tropical Crops and Biocommodities

Growing plants that produce beneficial materials for human nutrition and therapy

Vision Improvement

Caring for the eyes by advancing the techniques used to correct and maintain clear sight.

■ Doctor of Health Science HL90

Award title: Doctor of Health Science

CRICOS code: 037680K

Campus: Kelvin Grove

Duration: 3 Years full-time or 6 Years part-time

Credit points: 288 (96 coursework credit points and 192 research portfolio credit points) (full-time standard semester: 48 (average))

Course coordinator: Dr Elizabeth Parker

Major Study Areas

- Health Services Management and Policy Sciences
- Nursing
- Occupational and Environmental Health Sciences
- Public Health

Application for Admission

Before submitting an application, potential candidates should contact the Course Coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying any specified documentation. The application should be accompanied by a brief proposal for the course of study and the research field.

Advanced Standing and Articulation

Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate Masters qualification or its equivalent.

The Doctor of Health Science articulates with the Master of Health Science. Students in the MHLthSc who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

Course Structure

Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students:

- choose one of the major study areas list above
- complete four (4) units from this major study area (at least two units must be from List B)
- complete two (2) units in research methods
- complete one unit from the major study areas list or other approved unit.

Full-time Course Structure

Year 1, Semester 1

Research Methods Core Unit 1

Research Methods Core Unit 2

Major Study Unit 1

Major Study Unit 2

Year 1, Semester 2

Major Study Unit 3

Major Study Unit 4

HLR710-6 Research Project

Year 6, Semester 1

HLR710-7 Research Project

Year 6, Semester 2

HLR710-8 Research Project

Research Methods Core Units

Two units must be completed from the following:

HLN405 Qualitative Research

HLN705 Introduction to Quantitative Research Methods

HLN706 Advanced Quantitative Research Methods

PUN105 Health Statistics

PUN743 Foundations and Practice of Epidemiology

Note:

Students who have completed PUB316 (or equivalent) are ineligible to undertake HLN705.

Major Study Area Units

Students must complete four units from their major study area. Two additional elective units can be chosen from the list. Please check unit availability for 2006.

Health Services Management and Policy Sciences

HLN701 Independent Study

PUN608 Health Economics

PUN610 Health Services Management

PUN615 Advanced Health Service Management

PUN634 International Health Management and Planning

PUN635 Evidence Based Health Policy

Public Health

HLN701 Independent Study

PUN103 Advanced Epidemiology

PUP034 Advanced Studies and Practice in Health Promotion

PUP037 Health Program Evaluation

Occupational and Environmental Health Sciences

HLN701 Independent Study

PUN008 Risk Assessment

PUN010 Implementing Risk Management
 PUN106 Population Health
 PUN617 Environmental Health Management
 PUP250 Occupational and Environmental Monitoring
 PUP415 Occupational and Environmental Health

Nursing

(Only available to candidates eligible for registration as a nurse in Australia.)

HLN701 Independent Study
 NSN424 Evidence Based Practice
 NSN507 Contemporary Practice Issues
 NSN508 Advanced Readings in Nursing
 NSN515 Clinical Leadership and Management

Electives

Electives may be selected from the Major Study Areas List or from units in other discipline fields following consultation with the Course Coordinator.

■ **Doctor of Psychology (Clinical) PY50**

Award title: Doctor of Psychology (Clinical)

Campus: Carseldine

Duration: 3 years full-time or 6 years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Robert Schweitzer

Advanced Standing

Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

Course Structure

The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

Professional Recognition

The Doctor of Psychology (Clinical) has been designed to meet the Psychologists Board of Queensland (PBQ) requirements for full registration as a Psychologist.

Full-time Course Structure

Year 1, Semester 1

PYN026 Clinical Psychological Interventions 1
 PYN027 Clinical Psychological Assessment
 PYN028 Clinical Psychopathology
 PYN035 Supervised Practicum 1

Year 1, Semester 2

PYN030 Professional Practice in Clinical Psychology
 PYN036 Supervised Practicum 2
 PYN005 Research Methods and Issues; Evidence Based Practice

PYN029 Clinical Psychological Interventions 2

Year 2, Semester 1

PYN034 Childhood Psychopathology and Treatment
 PYN037 Supervised Practicum 3
 PYN053 Advanced Integrative Psychotherapy
 PYN052-1 Research Thesis (Part 1)

Year 2, Semester 2

PYN038 Supervised Practicum 4
 PYN039 Health Psychology and Rehabilitation
 PYN052-2 Research Thesis (Part 2)
 PYN052-3 Research Thesis (Part 3)

Year 3, Semester 1

■ **Master of Applied Science (Research) HL84**

Award title: Master of Applied Science (Research)

CRICOS code: 007897G

Campus: Carseldine and Kelvin Grove

Duration: 1-2 years full-time or 2-4 years part-time

Course coordinator: Professor Mary Courtney

Application for Admission

The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee.

Applications for admission should set out fully the candidate's intended course of study. The proposed course of study should include the area of study, the coursework to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School and Director of Centre in which the proposed research program is to be undertaken.

Course Structure

Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program. The course of study normally includes: a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation.

Course Coordination

Students undertake their program of research through one of the Faculty's Schools. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant School or Research Centre prior to submitting an application to discuss the proposed research project, supervision and facilities.

■ **Master of Clinical Psychology PY18**

Award title: Master of Clinical Psychology

CRICOS code: 052769J

Campus: Carseldine

Duration: 4 semesters full-time or 8 semesters part-time

Credit points: 192 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Robert Schweitzer

Entry Requirements

Entry to this course is competitive. To be considered for admission, candidates:

- should hold an Australian Psychology Accreditation Council (APAC) approved four years training or its equivalent from QUT or another recognised institution; and
- must have a minimum Grade Point Average (GPA) of 5 or above in their fourth year; and
- must provide the names of two referees who can comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application.

Candidates are shortlisted in priority order on the basis of their GPAs. Shortlisted candidates are required to attend an interview for assessment of their interpersonal skills in a clinical context. Admission is based on the candidate's GPA and his or her interview.

In addition to the above requirements, international candidates require:

- an IELTS score of 7.0;
- certification by the Australian Psychology Accreditation Council that their degree is equivalent to an APAC approved four years training in psychology or its equivalent from QUT or another recognised institution.

Interviews for shortlisted international students will be conducted via telephone.

Professional recognition

The course is designed to meet the accreditation requirements of the Australian Psychology Accreditation Council

(APAC), the College of Clinical Psychologists and the Psychologists Board of Queensland and provides a graduate with eligibility to apply to register as a Psychologist in Queensland or any other state or territory in Australia.

■ Master of Health Science HL88

Award title: Master of Health Science (Study Area A)

CRICOS code: 009030K

Campus: Gardens Point and Kelvin Grove

Duration: 3 semesters full-time or 6 semesters part-time or 6 semesters external

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Elizabeth Parker

Majors

- Majors are offered in the following areas:
- Aged Care
- Environmental Health
- Health Promotion
- Health Services Management
- Health, Safety and Environment
- Risk Management
- Women's Health

or a cross-specialisation where no major is taken, but students study across a variety of fields

To complete a major, students must complete at least four units from the same discipline area from within the Faculty of Health.

Course Structure

The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

Special Notes

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Health, Safety and Environment unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

Course Articulation

Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

HL38 Graduate Certificate in Health Science, HL68 Graduate Diploma in Health Science and PU65 Graduate Diploma in Health, Safety and Environment, fully articulate into HL88 Master of Health Science.

NS64 Graduate Diploma in Nursing and NS85 Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards HL88 Master of Health Science. No advanced standing will be granted towards HL38 Graduate Certificate in Health Science or HL68 Graduate Diploma in Health Science. This is in addition to any List A units completed.

The following courses also articulate with the Master of Health Science:

- Graduate Certificate in Aged Care
- Graduate Certificate in Ambulance Management (QAS)
- Graduate Certificate in Community Practice
- Graduate Certificate in Environmental Health
- Graduate Certificate in Health Management (QH)
- Graduate Certificate in Health Promotion
- Graduate Certificate in Health Services Management
- Graduate Certificate in Risk Management
- Graduate Certificate in Women's Health

■ **Master of Nursing NS85**

Award title: Master of Nursing (Study Area A)

CRICOS code: 012644J

Campus: Kelvin Grove

Duration: 3 semesters full-time or 6 semesters part-time or 3 semesters (full-time) or 6 semesters (part-time) external

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Fiona Coyer

Majors

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Midwifery *^
- Paediatric, Child and Youth Health Nursing ~
- Professional Studies
- Women's Health

* Midwifery is not offered in the Graduate Diploma in Nursing but is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

^ Only offered in the February intake

~ For the July intake this major is only offered a part-time basis

Entry Requirements – Domestic Students

Domestic students:

- must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence;
- have gained a degree in nursing (or equivalent) from a recognised institution at a grade point average of 5 or above;
- normally have at least one year of appropriate post-registration clinical experience.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

The following additional entry requirements for the specific majors apply:

Intensive Care

Students enrolling in the Intensive Care major must also have had at least three months recent clinical experience in

an Intensive Care Unit and be working at least 0.6 FTE in an Intensive Care Unit.

Cancer Nursing and Paediatric, Child and Youth Health Nursing

Students enrolling in the Cancer Nursing and Paediatric, Child and Youth Health majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical

Students are required to undertake suitable workplace-based clinical experience during the program to meet the requirements of the course by either:

- (a) maintaining employment in a medical/surgical practice setting; or
- (b) undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Midwifery

A student who enters the Midwifery major must be registered as a nurse with the Queensland Nursing Council.

Entry Requirements - International Students

International students who enter the Cancer Nursing, Women's Health, Aged Care, Medical/Surgical, Paediatric, Child and Youth Nursing, Community Practice and Professional Studies strands must:

- have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia;
- be registered or authorised to practise in their country of origin or residence;
- have gained a degree in nursing (or equivalent) from a recognised institution; and
- normally have at least one year of appropriate post-registration clinical experience.

Students enrolling in the Intensive Care major must:

- have current temporary or full registration as a nurse with the Queensland Nursing Council (QNC);
- have gained a degree in nursing (or equivalent) from a recognised institution; and
- normally have at least one year of appropriate post-registration clinical experience.

Students enrolling in the Intensive Care major must also have had at least three months recent clinical experience in an Intensive Care Unit.

International students may also apply for Alternative Entry, on the basis of relevant experience at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC students are required to submit appropriate application forms and to pay an application fee (currently AUS \$45) plus an annual license fee (currently AUS \$72). Eligibility for temporary registration is assessed by the Queensland Nursing Council. This process may take up to 3 months.

For enquiries regarding entry requirements or eligibility, please call Dr Debra Anderson on +61 7 3138 3881.

Course Structure

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing

practice. Students may undertake one of ten different majors.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units, a 24 credit point clinical project or a 24 credit point thesis relevant to the major.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time modes.

Students may complete their program by internal or external mode.

Course Articulation

The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Student who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

Full-time Course Structure

Year 1, Semesters 1 and 2

Students are required to complete the two semesters of the Graduate Diploma in Nursing content in their major area of study or the Graduate Diploma in Midwifery before continuing onto the third semester of the Master of Nursing

Year 2, Semester 1

OPTION 1

Two electives from List A
NSN422 Pharmacology and Therapeutics in Extended Nursing Practice
AND a choice of either:
NSN421 Assessment and Diagnosis in Extended Practice
OR
NSN424 Evidence Based Practice

OPTION 2

One elective from List A
NSN422 Pharmacology and Therapeutics in Extended Nursing Practice
NSN506 Clinical Project

OPTION 3

NSN850 Thesis

Part-time Course Structure

Students complete all of the requirements for Option 1 or Option 2 or Option 3

Year 1, Semesters 1 and 2

Students are required to complete two semesters of the Graduate Diploma in Nursing content in their major area of study

Year 2, Semesters 1 and 2

Students are required to complete two semesters of the Graduate Diploma in Nursing content in their major area of study before continuing onto the third year of the Master of Nursing.

Year 3, Semester 1

OPTION 1

One elective from List A
NSN422 Pharmacology and Therapeutics in Extended Nursing Practice

OPTION 2

One elective from List A
NSN422 Pharmacology and Therapeutics in Extended Nursing Practice

OPTION 3

NSN825-1 Thesis (Part 1)

Year 3, Semester 2

OPTION 1

One elective from List B
NSN424 Evidence Based Practice

OPTION 2

NSN506 Clinical Project

OPTION 3

NSN825-2 Thesis (Part 2)

Elective Lists

List A (Semester 1)

NSN725 Specialisation in Medical/Surgical and Cancer Nursing
NSN822 Practice Issues in Ageing
NSN929 Psychosocial Rehabilitation
NSN424 Evidence Based Practice
NSN424 is only available to Master of Nursing students
* In selected modules, students studying NSN723 and NSN725 must be working in a practice setting relevant to the areas of study, or be willing to undertake additional clinical experiences. Contact the course coordinator for further information.

■ Master of Nursing Science (Nurse Practitioner) NS86

Campus: Kelvin Grove

Duration: 2 semesters full-time or 4 semesters part-time or 2 semesters full-time or 4 semesters part-time external
Course coordinator: Dr Fiona Coyer

Course Structure

The proposed course consists of seven units - six theoretical units and an internship. The six theoretical units will all be offered from the Faculty of Health and will include an elective. The internship aims to provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning, enabling the candidate to meet the competency and capability standards for the nurse practitioner. This is a field-based unit that is focused towards consolidation of skills and knowledge related to nurse practitioner practice in a specialty area of health care.

Full-time Course Structure (February entry)

■ **Master of Public Health PU85**

Award title: Master of Public Health (Study Area A)

CRICOS code: 009029C

Campus: Kelvin Grove

Duration: 3 semesters full-time or 6 semesters part-time or 3 semesters (full-time) or 6 semesters (part-time) external

Credit points: 144

Course coordinator: Dr Elizabeth Parker

Overview

The Master of Public Health is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland. Students have opportunities to undertake electives at these institutions only after consultation with the course coordinator.

Course Structure

Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:

- four core units (Part A),
- one research methods unit (HLN405, HLN705 or HLN706) and
- seven advanced elective units (Part B)

(2) Option two is to undertake coursework with a project component:

- four core units (Part A)
- one research methods unit (HLN405, HLN705 or HLN706) and
- five advanced elective units (Part B) and
- one project unit (HLN703).

(3) Option three is coursework with a thesis component:

- four core units (Part A)
- four advanced elective units (Part B)
- dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

Full-time Course Structure

PART A

Semester 1

Core Units (Option 1, 2, 3)

PUN105 Health Statistics

PUN692 Health Care Delivery Systems

PUN106 Population Health

PUN743 Foundations and Practice of Epidemiology

PART B - Semester 2 - Advanced Elective Units offered by QUT (Option 1, 2, 3)

4 electives from same major

or

4 electives across majors

PART C

Semester 3

Coursework (Option 1 only)
Students select further electives from advanced elective list, one of which must be from HLN405, HLN705 or HLN706

OR

PART C

Semester 3

Project (Option 2 only)
HLN703 Project A
plus electives from advanced elective list, one of which must be from HLN405, HLN705 or HLN706

OR

PART C

Semester 3

Dissertation (Option 3 only)
HLN700 Thesis

Part-time Course Structure

PART A

Semester 1

Core Units
PUN743 Foundations and Practice of Epidemiology
PUN105 Health Statistics
PART B - Semester 2 - Advanced Elective Units Offered By QUT (Option 1, 2, 3)
2 electives from same major
or
2 electives across majors

PART A

Semester 3

Core Units
PUN106 Population Health
PUN692 Health Care Delivery Systems
PART B - Semester 4 - Advanced Elective Units Offered By QUT (Option 1, 2, 3)
2 electives from same major
or
2 electives from across majors

■ **Graduate Diploma in Environmental Health PU67**

Award title: Graduate Diploma in Environmental Health
Campus: Kelvin Grove
Duration: 2 semesters full-time or 4 semesters part-time or 4 semesters part-time (from 2007) external
Course coordinator: Dr Elizabeth Parker

Course Structure

Students follow a prescribed enrolment program and are required to complete seven units in environmental health and one elective unit.

Course Articulation

This program articulates into the Master of Health Science.

Course Structure

Year 1, Semester 1

PUN620 Concepts of Environmental Health
PUN363 Environmental Health Law
PUN364 Food Safety
PUN106 Population Health
Year 1 Semester 2
PUN617 Environmental Health Management
PUN466 Communicable diseases
PUN465 Environmental Protection
PUN467 Public Health Risk Assessment

■ **Graduate Diploma in Health Science HL68**

Award title: Graduate Diploma in Health Science (Study Area A)
CRICOS code: 020308C
Campus: Kelvin Grove
Duration: 2 semesters full-time or 4 semesters part-time or 2 semesters (full-time) or 4 semesters (part-time) external
Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Elizabeth Parker

Majors

Majors are offered in the following areas: environmental health, health services management, health promotion, risk management, women's health, aged care and cross specialisation. To complete a major, students must complete at least four units from the same discipline area from with the Faculty of Health.

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Course Structure

The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by Schools within the Faculty of Health (List A units). No more than two (24 credit points) advanced undergraduate health units can be included in the total.

Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, eg. Graduate Diploma in Health Science (Health Promotion).

Course Articulation

This course articulates fully into HL88 Master of Health Science.

HL38 Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

Full-time Course Structure

Year 1, Semester 1

Select four units from List A

Year 1, Semester 2

Select four units from List A

Part-time Course Structure

Year 1, Semester 1

Graduate Diploma in Public Health PU60**Award title:** Graduate Diploma in Public Health (Study Area A)**CRICOS code:** 020306E**Campus:** Kelvin Grove**Duration:** 2 semesters full-time or 4 semesters part-time or 2 semesters (full-time) or 4 semesters (part-time) external**Credit points:** 96 (full-time standard semester: 48)**Course coordinator:** Dr Elizabeth Parker**Overview**

The Graduate Diploma in Public Health and Master of Public Health Programs are offered and taught conjointly by a consortium of three universities (QUT, Griffith University, and The University of Queensland). Students enrol through one of these universities and are required to complete four compulsory core units and four elective units selected from a specialised stream.

Majors

Majors are offered in the areas of:

- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

Course Structure

Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units and four advanced elective units. Elective units will normally be selected according to choice of a stream of study.

Course Articulation

This course fully articulates into the Master of Public Health.

Course Structure**Part A - Core Units**

PUN105 Health Statistics

PUN106 Population Health

PUN692 Health Care Delivery Systems

PUN743 Foundations and Practice of Epidemiology

Part B - Advanced elective units offered by QUT

Health Services Management and Policy Sciences

PUN608 Health Economics

PUN610 Health Services Management

PUN634 International Health Management and Planning

PUN635 Evidence Based Health Policy

Occupational and Environmental Health Science

EFN418 Introduction to Financial Risk Management

PUN001 Contemporary Risk Management

PUN008 Risk Assessment

PUN010 Implementing Risk Management

PUN301 Health, Safety and Environmental Law and Management

PUN467 Public Health Risk Assessment

PUN500 Systems Safety for Health, Safety and Environment

PUN617 Environmental Health Management

PUN620 Concepts of Environmental Health

PUP116 Ergonomics

PUP250 Occupational and Environmental Monitoring

PUP415 Occupational and Environmental Health

Health Promotion

PUB644 Health Promoting Schools
 PUP032 Intervention Design and Theories of Change
 PUP034 Advanced Studies and Practice in Health Promotion
 PUP037 Health Program Evaluation
 PUP038 New Developments in Health Promotion

Epidemiology and Research Methods

HLN405 Qualitative Research
 HLN705 Introduction to Quantitative Research Methods
 HLN706 Advanced Quantitative Research Methods
 PUN103 Advanced Epidemiology

■ **Graduate Diploma in Road Safety PY41**

Award title: Graduate Diploma in Road Safety
CRICOS code: 040335A
Campus: Carseldine
Duration: 2 semesters full-time or 4 semesters part-time
Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Dr Barry Watson

Course Structure

The Graduate Diploma in Road Safety course consists of two core units plus six electives. The program structure is designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two are available in intensive week-long blocks. The program has recently been enhanced with the introduction of distance education delivery for select units.

Full-time Course Structure

Year 1, Semester 1

PYP401 Introduction to Road Safety and three of the following units
 PYP402 Traffic Psychology and Behaviour
 CEP127 Road and Traffic Engineering
 PYP504 Applying Traffic Psychology
 PYP407 Independent Study
 Elective as approved by Course Coordinator

Year 1, Semester 2 and Summer Semester

PYP406 Road Safety Theory to Practice and three of the following units not previously taken
 PYP404 Applying Traffic Psychology
 PYP407 Independent Study
 PYP405 Road Safety Evaluation Models
 CEP151 Road Safety Audit
 Elective as approved by the Course Coordinator

Notes:

CEP151 Road Safety Audit is conducted jointly by QUT and Main Roads and may be offered at other times of the year, subject to demand

PYP501, PYP502, PYP504 and PYP506 are all flexible delivery versions of the campus-based units and can be undertaken in distance education mode.

Part-time Course Structure

Year 1, Semester 1

PYP401 Introduction to Road Safety and one of the following units:
 PYP402 Traffic Psychology and Behaviour
 CEP127 Road and Traffic Engineering

Year 1, Semester 2

PYP404 Applying Traffic Psychology
 Any approved elective or a unit offered in Summer Program listed below:

Year 1, Summer Program

PYP405 Road Safety Evaluation Models
 CEP151 Road Safety Audit - Principles and Practice
 Consideration will be given to offering core or elective units in block mode, as demand warrants

Year 2, Semester 1

Any two of the following units, not completed in Year 1:
 PYP402 Traffic Psychology and Behaviour
 PYP407 Independent Study
 CEP127 Road and Safety Engineering

Year 2, Semester 2

PYP406 Road Safety Theory to Practice
 And one of the following units or a unit offered in Summer Program:

PYP404 Applying Traffic Psychology
 PYP407 Independent Study

Year 2, Summer Program

PYP405 Road Safety Evaluation Models
 CEP151 Road Safety Audit - Principles and Practice
 Consideration will be given to offering core or elective units in block mode, as demand warrants

Notes:

CEP151 Road Safety Audit is conducted jointly by QUT and Main Roads and may be offered at other times of the year, subject to demand.

PYP501, PYP502, PYP504 and PYP506 are all flexible delivery versions of the campus-based units and can be undertaken in distance education mode.

■ **Postgraduate Diploma in Psychology PY20**

Award title: Post Graduate Diploma in Psychology

CRICOS code: 034714G

Campus: Carseldine

Duration: 2 semesters full-time or 4 semesters (may not be available by evening study) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Herbert Biggs

QUT Applicants

For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Postgraduate Diploma in Psychology program will be:

- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.

Entry is competitive based on GPA in these prescribed units:

PYB201 Perception
 PYB203 Developmental Psychology
 PYB205 Social Psychology
 PYB206 Personality
 PYB208 Counselling Theory and Practice 1
 PYB210 Research Design and Data Analysis
 PYB302 Industrial and Organisational Psychology
 PYB303 Cognitive Psychology
 PYB304 Physiological Psychology
 PYB306 Psychopathology
 PYB311 Psychological Assessment

Non-QUT Applicants

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

Course Structure

The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units chosen from advanced cognitive, organisational, counselling, developmental and social theory. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have 3 contact hours per week. The contact for research thesis units is as required by the supervisor.

Full-time Course Structure**Year 1, Semester 1**

PYB450-1 Research Thesis (Part 1)

Plus ONE research methods unit selected from the following options:

PYB401 Advanced Research Methods

HNB232 Survey Methods

Plus TWO advanced psychology units selected from the following options:

PYB402 Counselling Psychology

PYB403 Cognitive Neuropsychology

PYB404 Issues in Social Developmental Psychology

PYB405 Advanced Organisational Psychology

PYB408 Advanced Social Cognition

Year 1 Semester 2

PYB407 Research and Professional Development Seminar

PYB450-2 Research Thesis (Part 2)

PYB450-3 Research Thesis (Part 3)

Plus ONE cognate elective, at 3rd year level or above, selected from a list approved by the Course Coordinator.

Part-time Course Structure**Year 1, Semester 1****Option A**

Two units from the following options:

PYB402 Counselling Psychology

PYB403 Cognitive Neuropsychology

PYB404 Issues in Social Developmental Psychology

PYB405 Advanced Organisational Psychology

PYB408 Advanced Social Cognition

OR

Option B

One unit from the following options:

PYB402 Counselling Psychology

PYB403 Cognitive Neuropsychology

PYB404 Issues in Social Developmental Psychology

PYB405 Advanced Organisational Psychology

PYB408 Advanced Social Cognition

AND

One unit from the following options:

PYB401 Advanced Research Methods

HNB232 Survey Methods

Year 1, Semester 2

PYB407 Research and Professional Development Seminar

AND

One cognate elective, at 3rd year level or above, selected from a list approved by the course coordinator

Year 2, Semester 1

PYB450-1 Research Thesis (Part 1)

AND

Option A Continued

One unit from the following options:

PYB401 Advanced Research Methods

HNB232 Survey Methods

OR

Option B Continued

One further unit from the following options:

PYB402 Counselling Psychology

PYB403 Cognitive Neuropsychology

PYB404 Issues in Social Developmental Psychology

PYB405 Advanced Organisational Psychology

PYB408 Advanced Social Cognition

Year 2, Semester 2

PYB450-2 Research Thesis (Part 2)

PYB450-3 Research Thesis (Part 3)

■ Graduate Certificate in Aged Care NS39

Award title: Graduate Certificate in Aged Care

Campus: Kelvin Grove

Duration: 2 semesters part-time or 2 semesters external

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Dr Fiona Coyer

Part-time Course Structure**Year 1, Semester 1**

NSN801 Health Assessment in Aged Care

NSN821 Key Issues in Ageing

Year 1, Semester 2

NSN822 Principles of Aged Care Practice

Elective OR

Any other 12 credit point postgraduate unit offered by the Faculty of Health for which the student has the necessary pre-requisites.

Elective List

HLN405 Qualitative Research

NSN427 Prevention of Violence Against Women

NSN508 Advanced Readings in Nursing

NSN516 Sexual and Reproductive Health

NSN626 Dementia and Aged Care Services

■ Graduate Certificate in Cancer Nursing NS31

Award title: Graduate Certificate in Cancer Nursing

CRICOS code:

Campus: Kelvin Grove

Duration: 2 semesters part-time or 2 semesters external

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Dr Fiona Coyer

Discipline coordinator: Prof Patsy Yates

Course Articulation

The Graduate Certificate in Cancer Nursing has full articulation with NS64 Graduate Diploma of Nursing or NS85 Master of Nursing.

Part-time Course Structure**Year 1, Semester 1**

NSN701 Advanced Health Assessment

NSN724 Advanced Nursing Practice

Year 1, Semester 2

NSN726 Advanced Clinical Practice

NSN723 Specialisation in Critical Care Nursing

or

NSN725 Specialisation in Medical/Surgical and Cancer Nursing

■ Graduate Certificate in Community Practice NS34

Award title: Graduate Certificate in Community Practice
Campus: Kelvin Grove
Duration: 2 semesters part-time or 2 semesters external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Fiona Coyer
Discipline coordinator: Ms Fran Sanders

Course Articulation

The Graduate Certificate in Community Practice has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing programs.

Part-time Course Structure

Year 1, Semester 1

NSN701 Advanced Health Assessment
 or
 NSN801 Health Assessment in Aged Care
 Select one of:

PUN106 Population Health
 PUN634 International Health Management and Planning
 PUP038 New Developments in Health Promotion

Year 1, Semester 2

Elective (List B)
 OR any other 12 credit point postgraduate unit offered by the Faculty of Health for which the student has the necessary prerequisites
 AND

Select one of the following three units:

NSN726 Advanced Clinical Practice (available to registered nurses only)
 OR
 PUP034 Advanced Studies and Practice in Health Promotion
 OR
 PUP037 Health Program Evaluation

Electives (List B)

HLN405 Qualitative Research
 NSN508 Advanced Readings in Nursing
 NSN427 Prevention of Violence Against Women
 NSN626 Dementia and Aged Care Services
 NSN516 Sexual and Reproductive Health

■ Graduate Certificate in Emergency Nursing NS41

Award title: Graduate Certificate in Emergency Nursing
Campus: Kelvin Grove
Duration: 2 semesters part-time or 2 semesters external
Credit points: 48 (part-time standard semester: 12)
Course coordinator: Dr Fiona Coyer
Discipline coordinator: Dr Fiona Coyer

Course Structure

The Graduate Certificate comprises 48 credit points made up of 24 credit points advanced standing from accredited programs, plus 24 credit points from units offered by the School of Nursing.

The course may be undertaken in internal or external mode and is available for mid-year entry.

Course Articulation

All units successfully completed may be credited towards NS64 Graduate Diploma in Nursing or NS85 Master of Nursing.

Part-time Course Structure

Year 1, Semester 1

NSN721 Key Issues in Emergency and Intensive Care Nursing

Year 1, Semester 2

NSN723 Specialisation in Critical Care Nursing

■ Graduate Certificate in Environmental Health PU32

Award title: Graduate Certificate in Environmental Health
Campus: Kelvin Grove
Duration: 2 semesters part-time or 2 semesters part-time external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Elizabeth Parker

Part-time Course Structure

Semester 1

PUN363 Environmental Health Law
 PUN620 Concepts of Environmental Health

Semester 2

PUN465 Environmental Protection
 PUN467 Public Health Risk Assessment

■ Graduate Certificate in Health Promotion PU39

Award title: Graduate Certificate in Health Promotion
Campus: Kelvin Grove
Duration: 2 semesters part-time or 2 semesters external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Elizabeth Parker

Part-time Course Structure

Year 1, Semester 1

PUP032 Intervention Design and Theories of Change
 PUP038 New Developments in Health Promotion

Year 1, Semester 2

PUP034 Advanced Studies and Practice in Health Promotion
 AND
 PUP037 Health Program Evaluation
 OR
 PUB644 Health Promoting Schools

■ Graduate Certificate in Health Science HL38

Award title: Graduate Certificate in Health Science
CRICOS code: 027285D
Campus: Kelvin Grove
Duration: 1 semester full-time or 2 semesters part-time or 2 semesters part-time external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Elizabeth Parker

Course Structure

Students are required to complete any four units (totalling 48 credit points) from List A. No more than two (24 credit points) senior undergraduate units can be included in the total.

Course Articulation

This course articulates fully into HL68 Graduate Diploma in Health Science and HL88 Master of Health Science

Special Note

Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduates to practice in these areas.

Part-time Course Structure

Year 1, Semester 1

Select two units from List A

Year 1, Semester 2

Select two units from List A

 or
 NSN005 Community Child and Youth Health Nursing

■ **Graduate Certificate in Public Health PU30**

Award title: Graduate Certificate in Public Health
CRICOS code: 048295F
Campus: Kelvin Grove
Duration: 1 semester full-time or 1 semester external
Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Dr Elizabeth Parker

Course Structure

The course consists of 4 core units (48 credit points) from the Master of Public Health (PU85)/Graduate Diploma in Public Health (PU60). The course is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland.

Course Structure

Semester 1

PUN692 Health Care Delivery Systems
 PUN106 Population Health
 PUN743 Foundations and Practice of Epidemiology
 PUN105 Health Statistics

■ **Graduate Certificate in Risk Management IF88**

Award title: Graduate Certificate in Risk Management
Campus: Kelvin Grove
Duration: 2 semesters external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Elizabeth Parker

Course Structure

Students complete four specified units part-time over two semesters. This course is offered by external study only.

Course Articulation

This course fully articulates into the Master of Health Science.

Part-time Course Structure

Year 1, Semester 1

PUN001 Contemporary Risk Management
 PUN008 Risk Assessment

Year 1, Semester 2

EFN418 Introduction to Financial Risk Management
 PUN010 Implementing Risk Management

■ **Graduate Certificate in Road Safety PY40**

Award title: Graduate Certificate in Road Safety
CRICOS code: 040334B
Campus: Carseldine
Duration: 1 semester full-time or 2 semesters part-time or 2 semesters external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Barry Watson

Course Structure

The Graduate Certificate in Road Safety consists of one core unit plus three electives. The majority of the units are delivered on a semester basis, although two are delivered as intensive week-long blocks at the Carseldine campus. The program has recently been enhanced with the introduction of distance education delivery for select units.

Distance Education Units

Four units have been approved for delivery in distance education mode:

PYP501 Introduction to Road Safety
 PYP502 Traffic Psychology and Behaviour
 PYP504 Applying Traffic Psychology
 PYP506 Road Safety Theory to Practice

Course Structure

Year 1, Semester 1

PYP401 Introduction to Road Safety
 and one of the following units:
 PYP402 Traffic Psychology and Behaviour
 CEP127 Road and Traffic Engineering

Year 1, Semester 2

PYP406 Road Safety Theory to Practice
 PYP404 Applying Traffic Psychology
 The above units can be replaced with one or two units offered in Summer Program

Year 1, Summer Program

PYP405 Road Safety Evaluation Models
 CEP151 Road Safety Audit - Principles and Practice
 Consideration will be given to offering core or elective units in block mode, as demand warrants
 * CEP151 is conducted jointly by QUT and Main Roads and may be offered at other times of the year, subject to demand.

Notes:

PYP501, PYP502, PYP504 and PYP506 are all flexible delivery versions of the campus-based units and can be undertaken in distance education mode.

■ **Graduate Certificate in Women's Health NS36**

Award title: Graduate Certificate in Women's Health
Campus: Kelvin Grove
Duration: 2 semesters part-time or 2 semesters external
Credit points: 48 (part-time standard semester: 24)
Course coordinator: Dr Fiona Coyer
Discipline coordinator: Dr Deborah Anderson

Course Articulation

The Graduate Certificate in Women's Health has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing, and HL68 Graduate Diploma in Health Science and HL88 Master of Health Science.

Part-time Course Structure

Year 1, Semester 1

NSN517 Women's Health Issues

Elective unit or any other 12 credit point postgraduate unit offered by the Faculty of Health for which the student has the necessary prerequisites

Year 1, Semester 2

NSN427 Prevention of Violence Against Women
NSN516 Sexual and Reproductive Health

Elective List

HLN405 Qualitative Research
HLN705 Introduction to Quantitative Research Methods
NSN002 Key Issues in Child and Youth Health Nursing
NSN508 Advanced Readings in Nursing
NSN701 Advanced Health Assessment
NSN801 Health Assessment in Aged Care
NSN821 Key Issues in Ageing

■ **Bachelor of Applied Science (Honours)
HL52**

Award title: Bachelor of Applied Science (Honours)

CRICOS code: 043118G

Campus: Kelvin Grove

Duration: 2 semesters full-time or 4 semesters part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Professor Mary Courtney

Full-time Course Structure

Year 1, Semester 1

HLP101 Advanced Discipline Readings
HLP103 Dissertation

Select one of the following units:

HLN405 Qualitative Research
HLN706 Advanced Quantitative Research Methods
PUN105 Health Statistics

AND

one elective unit

Year 1, Semester 2

HLP102 Research Seminars
HLP103
HLP103 Dissertation
HLP103 Dissertation

Electives

Students undertake a 12 credit point elective. This may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the students supervisor and the course coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is germane to the students study program. For further information on available units contact the relevant school honours coordinator. Students may also select either HLN405 Qualitative Research or HLN706 Advanced Quantitative Research Methods or MAN009 Experimental Design and Statistical Analysis for Research as an elective.

Dissertation

The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

Part-time Course Structure

Year 1, Semester 1

■ **Bachelor of Applied Science (Human Movement Studies) HM42**

Award title: Bachelor of Applied Science (Human Movement Studies)

CRICOS code: 012659B

Campus: Kelvin Grove

Duration: 4 Years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Michael McDonald

Professional Membership

Graduates are eligible for membership of the Australian Association for Exercise and Sports Science.

Special Course Requirements

Students must complete units totalling 384 credit points including foundation units, a major and a minor study, elective units, practicum experiences and fourth-year studies.

A major (10 units-120 credit points) must be completed in the specified discipline area of Exercise and Sport Science. This includes six compulsory second-level units (72 credit points), two compulsory third-level units (HMB379 and HMB382) (24 credit points), a Practicum unit (HMB470) (12 credit points) and one additional third-level unit (12 credit points).

As a professional degree, the program has a number of compulsory practicum experiences throughout the first two years in preparation for the third year practicum and substantive practicum period in Year 4.

Two minors must be completed. One minor (48 credit points) consisting of four units from level three Human Movement Electives. The second minor (48 credit points) may be undertaken from any approved discipline within QUT. It should consist of at least two units from level two and three.

The degree may be awarded with Honours: First Class Honours; Second Class Honours Division A; and Second Class Honours Division B. Candidates for the degree with Honours must fulfil the requirements for the pass degree and achieve such a standard of proficiency in all the units of the course as may from time to time be determined by the Health Academic Board and approved by the University Academic Board.

Note:

Students who have successfully completed 288 credit points and have met the general requirements for a three year degree, may graduate with a Bachelor of Applied Science after seeking approval through the School of Human Movement Studies Student Affairs Officer on (07) 3138 5846.

■ Bachelor of Applied Science (Optometry) OP42

Award title: Bachelor of Applied Science (Optometry)

CRICOS code: 009031J

Campus: Kelvin Grove

Duration: 4 Years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Assoc Prof Peter Swann

Professional Membership

In each State and Territory of Australia, the practice of optometry is regulated by Boards of Optometrical Registration which are statutory bodies set up under the Acts of the respective State Parliaments. Under these Acts, the practice of optometry is restricted to persons whose names appear on the Register. On completion of the degree at QUT, the graduate will have satisfied the requirements of the Optometrists' Board of Queensland and may apply for registration to practise as an optometrist in Queensland and all States and Territories of Australia.

Special Course Requirements

The degree may be awarded with Honours, First Class Honours, Second Class Honours Division A and Second Class Honours Division B. Candidates for the degree with Honours must fulfil the requirements for the pass degree and achieve such standard of proficiency in all the units of the course as may from time to time be determined by the Health Academic Board.

Ophthalmic instruments are required by students for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regard-

ing the purchase of these instruments. Costs are estimated to be \$5000. Students are also required to undertake first aid certification before entering the clinical program.

■ Bachelor of Behavioural Science (Honours Psychology) PY09

Award title: Bachelor of Behavioural Science (Honours Psychology)

CRICOS code: 034711K

Campus: Carseldine

Duration: 2 Semesters full-time or 4 Semesters (may not be available by evening study) part-time

Credit points: 96

Course coordinator: Dr Herbert Biggs

QUT Applicants

For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:

- a minimum GPA of 5 in the overall undergraduate degree program
- at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their

equivalent. Entry is competitive based on GPA in these prescribed units:

PYB201 Perception
 PYB203 Developmental Psychology
 PYB205 Social Psychology
 PYB206 Personality
 PYB208 Counselling Theory and Practice 1
 PYB210 Research Design and Data Analysis
 PYB302 Industrial and Organisational Psychology
 PYB303 Cognitive Psychology
 PYB304 Physiological Psychology
 PYB306 Psychopathology
 PYB311 Psychological Assessment

Non-QUT Applicants

For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

Course Structure

The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from advanced cognitive, organisational/counselling theory. The research component of the program entails one Research Methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

Full-time Course Structure

Year 1, Semester 1

PYB400-1 Thesis (Part 1)
 PYB401 Advanced Research Methods
 Two Elective Units

Year 1, Semester 2

PYB400-2 Thesis (Part 2)

List A: Social Science Foundation Units

In your first year of study (or first two years of study for part-time students), you are required to study one compulsory Social Science Foundation Unit from the list below, and one other elective unit. The Social Science Foundation unit can be completed in either 1st or 2nd semester, depending on your choice of unit and its availability. You should enrol in an elective unit in the other semester.

HNB103 Contemporary Social and Community Issues

HNB104 Understanding Society: Intro. To Sociology

HNB105 Exploring Change

HNB110 Introduction to International and Global Studies

HNB114 Introduction to Human Rights and Ethics

HNB115 Human Identity and Change

HNB210 Indigenous Australia: Country, Kin and Culture

Psychology Electives

The following electives are offered in the Psychology program to enable diversity of choice at undergraduate and early postgraduate level and to allow innovative approaches to current and perceived community needs. However, such electives will be offered subject to staff availability and sufficient student enrolment to justify running the unit.

PYB054 Psychology & Gender

PYB067 Human Sexuality

PYB158 Introduction to Substance Abuse in Australia

PYB159 Alcohol & Other Drug Studies

PYB215 Forensic Psychology and the Law

PYB257 Group Work

PYB258 Introduction to Theory and Research in Hypnosis

PYB260 Psychopharmacology of Addictive Behaviour

PYB305 Applied Social Psychology

PYB307 Health Psychology

PYB353 Occupational and Vocational Psychology

PYB356 Counselling Theory and Practice 2

PYB358 Advanced Developmental Psychology

PYB359 Introduction to Family Therapy

PYB360 Interventions for Addictive Behaviours

PYB371 Introduction to Road Safety
 PYB372 Traffic Psychology and Behaviour
 PYB374 Applying Traffic Psychology
 PYB350 Advanced Statistical Analysis
 (essential for intending Honours students)

Elective units are subject to prerequisite requirements. Minor sequences are available in public health and human services. Alternatively, students may wish to develop a major or minor sequence in any other School of the University, particularly within courses that have relevance to Psychology.

■ **Bachelor of Health Science (Health Information Management, Health Services Management and Public Health) PU40**

Award title: Bachelor of Health Science (Health Information Management, Health Services Management and Public Health)

CRICOS code: 022142D

Campus: Kelvin Grove

Duration: 3 Years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Mrs Melinda Service

Discipline coordinator: Health Information Management: Dr Josie Di Donato; Health Services Management: Dr Josie Di Donato

Majors

This course has been to offer a common first year for the Health Information Management, Health Services Management and Public Health majors. Students are able to choose one of these majors in their second year.

See also the separate entry for the Nutrition major.

Professional Membership

Health Information Management

Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia, the Clinical Coders Society of Australia, and the Australian College of Health Service Executives.

Health Services Management

Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives.

Public Health

Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

Health Services Management Elective List

Minor Elective Information for the Health Services Management Major

The course structure for the Health Services Management major consists of:

a) a major in Health Services Management PLUS the opportunity to select from one of the following:

b) a major in Public Health (Major 2) comprised of 84cp including the following core units: PUB201, PUB329, PUB416, PUB461, PUB561, PUB565, PUB406, and one 12cp unit selected from the minor elective lists below.

OR

c) two minors (Minor 1 and Minor 2) each of which are comprised of 48cp selected from the minor electives lists below.

OR

d) one minor and four electives (Minor 1 and Electives) selected from the minor elective lists below. You must ensure that you satisfy all prerequisites and that only one of the four electives is at an introductory level.

Please note:

* To select a minor or elective from outside the recommended list below, you must seek approval from the Academic Affairs Officer.

* You may only select up to four minor elective units (48 credit points) from outside of the School of Public Health.

Course coordinator: Mrs Melinda Service

Discipline coordinator: Dr Michael Dunne

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

Public Health Major Elective Lists

Minor Elective Information for the Public Health Major

The course structure consists of:

- a major in Public Health PLUS the opportunity to select from one of the following:
- one minor or four electives selected from the minor elective lists below. You must ensure that you satisfy all prerequisites and that only one of the four electives is at an introductory level.

Please note:

* To select a minor or elective from outside the recommended list below, you must seek approval from the Academic Affairs Officer.

Alcohol and Drug Studies

PYB158 Introduction to Substance Abuse in Australia

PYB159 Alcohol & Other Drug Studies

PYB260 Psychopharmacology of Addictive Behaviour

PYB360 Interventions for Addictive Behaviours

Community Nutrition

Award title: Bachelor of Nursing

CRICOS code: 003501K

Campus: Kelvin Grove and Caboolture

Duration: 3 Years full-time or 6 Years (Kelvin Grove campus - February entry only) part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Alan Barnard

Streams in NS40 Bachelor of Nursing

The Bachelor of Nursing (NS40) course provides streams of study for both preregistration and postregistration students (ie those who have already completed a qualification leading to registration as a nurse).

Professional Membership

This course is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. The Bachelor of Nursing is an accredited Nursing Pre-registration course of the Queensland Nursing Council. Domestic or international students who complete the pre-registration stream of studies (288 credit points) are eligible to apply for registration with the Queensland Nursing Council. For further information on registration requirements please refer to www.qnc.qld.gov.au.

Award title: Bachelor of Nursing

CRICOS code: 046054F

Campus: Kelvin Grove

Duration: 2 Years full-time

Credit points: full-time standard semester: 48; part-time standard semester: 24

Course coordinator: Dr Alan Barnard

Streams in NS40 Bachelor of Nursing

The Bachelor of Nursing (NS40) course provides streams of study for both preregistration and postregistration students (ie those who have already completed a qualification leading to registration as a nurse).

Professional Membership

This course is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. The Bachelor of Nursing is an accredited Nursing Pre-registration course of the Queensland Nursing Council. Domestic or international students who complete the pre-registration stream of studies (288 credit points) are eligible to apply for registration with the Queensland Nursing Council. For further information on registration requirements please refer to www.qnc.qld.gov.au.

Course Requirements

The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website www.health.qld.gov.au/SOP/html/Essentials_Homepage.asp.

Award title: Bachelor of Nursing/Bachelor of Applied Science

CRICOS code: 031578A

Campus: Kelvin Grove

Duration: 4 Years full-time

Credit points: 432

Course coordinator: Nursing: Dr Alan Barnard; Human Movement Studies: Dr Michael McDonald

Professional Membership

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional Member. Graduates are eligible for membership of the Australian Association for Exercise and Sports Science.

Course Requirements

Students are required to complete 432 credit points within the integrated course. The clinical practice units require students to undertake block practicums of two or more weeks duration during semester. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150.

Students in the Nursing program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Bachelor of Nursing/Bachelor of Health Science (Public Health) HL46

Award title: Bachelor of Nursing/Bachelor of Health Science (Public Health)

CRICOS code: 031576C

Campus: Kelvin Grove

Duration: 4 Years full-time

Course coordinator: Dr Alan Barnard

Professional Membership

The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. Graduates are eligible for membership of the Public Health Association of Australia and the Australian Association of Health Promotion Professionals.

Course Requirements

Students are required to complete 432 credit points within the integrated course. The clinical practice units require students to undertake block practicums of two or more weeks duration during semester. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately \$150.

Students in the Nursing program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

OVERVIEW

The School of Humanities and Human Services within QUT Carseldine is focused on multidisciplinary teaching and research and offers a range of subjects which focus on contemporary international, local and community issues.

- The **Bachelor of Arts** offers students the opportunity for professional majors in International and Global Studies, Ethics and Human Rights, Society and Change, Community Studies, and Australian Studies. Discipline majors in History, Geography, Languages, Social Sciences (Sociology and Political Studies) are also available together with a broad range of co-majors from other areas of the University. The first year of this program can also be undertaken at the Caboolture Campus.
- The **Bachelor of Social Science** offers majors in Applied Ethics, Geography and Environmental Studies, Human Services and Social Policy, International and Global Studies, Political Studies, and Sociology. The first year of this program can also be undertaken at the Caboolture Campus.
- The **Bachelor of Social Science (Human Services)** focuses on contemporary issues and offers a suite of skills units that will prepare students for work in aged services, disability services, and corrections; and for working with children and family, and with young people.
- Associated **postgraduate research** and **course-work programs** and **honours programs** are also available in the School.

Staff of QUT Carseldine are committed to maintaining strong links with industry and the professions served by the courses on offer. QUT Carseldine is also responsible for the coordination of academic and support activities at the Carseldine campus, and for the continued development of the campus and its relationships with community partners. Research and community service activities are regarded as key strategies for ensuring the on-going relevance of the academic programs at all levels and for maintaining the strong success record of graduates.

SENIOR STAFF

G.J. Ianziti, BA San Fran, MA PhD Nth Car

G. Kendall, MA Camb, MSc Manc, PhD Lond

RESEARCH CENTRE

Centre for Social Change Research

The Centre's purpose is to develop a research environment that promotes understanding of the drivers of social change and the implications of change for individuals, families, communities and nations. The Centre's mission is:

To create an environment that promotes change and transformation, engagement and leadership through research that is careful, independent, critical and ethical, and that contributes to a sustainable world and better outcomes for people and communities.

The Centre facilitates research with a strong applied social research orientation, which allows the human, ethical and societal dimensions of technological, environmental, economic and political change to be assessed, and responses to these changes to be identified. This is achieved through careful, critical, independent and ethical research, which contributes to better outcomes for individuals and communities, and addresses issues of national and global significance.

Staff and students are offered

- a centre of excellence in the 'craft of research', with a recognised reputation
- a distinctive, applied research culture, underpinned by a solid research base
- a focus on international and local issues related to the humanities, social sciences and human services
- an ethical engagement with a wide range of public policy and practices related to government, business and the community, including human services, health care, biotechnology and the professions
- strong collaborative partnerships with community, government, academic, and private organisations
- cutting edge critical public debate
- an open, people-centred and change-oriented approach
- a nurturing environment for the development of excellence in the next generation of researchers through expert mentoring and guidance by experienced researchers.

The Centre's strengths include:

- expertise in topical and important areas within the social research arena, including
 - Applied Ethics
 - Asia-Pacific Studies
 - Community Services
 - European Studies
 - Family and Social Policy
 - History
 - Gender Studies
 - Sustainability
 - Geography and Environmental Studies
 - Gerontology
 - Human rights
 - Politics
 - Sociology
 - Disability
 - Youth Services
 - Social Capital
 - Triple Bottom Line

- Community Engagement

- experience in the use of diverse research approaches, including political, sociological, applied ethics, historical, and social science research approaches
- solid links with the community, industry, business and government organisations that enable the development of collaborative research alliances
- cross-disciplinary linkages at the local, national and international level
- a high publication rate.

The Centre aims to foster:

- a positive research culture that supports post-graduate candidates and staff researchers of an international standard
- solid links with the community, business, government and professional organisations that enable the development of collaborative research alliances and consultancies, working with people to deal with real issues in real time
- cross-disciplinary teams able to work together to offer alternative approaches to solve complex problems
- linkages with other faculties and departments throughout Australia and overseas, as well as within the Queensland University of Technology.

■ **Doctor of Social Science HH50**

Award title: Doctor of Social Science

CRICOS code: 048293G

Campus: Carseldine

Duration: 6 semesters (3 years) full-time or 12 semesters (6 years) part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Assoc Prof Gavin Kendall

Course Structure

The course is divided into coursework and three theses. All three theses have conference presentation/communication of research finding units attached to them. Students will first complete their coursework and their first project, as well as HHR510 before they will be permitted to work on their second project. Similarly students must complete the second project as well as HHR520 before they are permitted to begin work on their third project. The course therefore has a three-part format and students are required to pass three stages in turn to guarantee progression.

■ **Master of Arts (Research) (Humanities and Human Services) HH40**

Award title: Master of Arts (Research)

CRICOS code: 012707K

Campus: Gardens Point and Carseldine

Duration: 3 semesters (3-year qualified entry); 2 semesters (4-year qualified entry) full-time or 6 semesters (3-year qualified entry); 4 semesters (4-year qualified entry) part-time

Credit points: 144 (3-year qualified entry); 96 (4-year qualified entry) (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Barbara Hanna

Overview

The Master of Arts by Research is offered in various disciplines by the academic units that make up the School of Humanities and Human Services. Study areas available include:

- Aged Services
- Applied Ethics
- Asia-Pacific Studies
- Child and Family Services
- Disability Services
- European Studies
- Geography and Environmental Studies
- History
- Human Services
- International and Global Studies
- Languages (French, German, Indonesian, Japanese, Mandarin)
- Political Studies
- Services to Young People
- Sociology.

Course Structure

For those with a three-year degree, the Master of Arts (Research) normally comprises 48 credit points of coursework and a 96 credit point research project. For those with a four-year degree it normally comprises a 96 credit point research project. However, with the approval of the post-graduate studies coordinator it is possible to enrol in a 12 credit point coursework plus 84 credit point research project; or a 24 credit point coursework plus 72 credit point research project.

Research Component

Dependent on the discipline, the research component may be undertaken as a research thesis (30 000-50 000 words).

Entry with three-year qualification

■ **Master of Social Science (Human Services) HH32**

Award title: Master of Social Science (Human Services)

CRICOS code: 027281G

Campus: Carseldine

Duration: 3 semesters full-time or 6 semesters part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Judith Burton

Course Structure

You will study four core units and have a wide choice of elective units. You may choose electives from those listed here or, in consultation with the course coordinator, any advanced unit across the University. The scope of elective choice depends on your undergraduate degree. For the Practice Related Research units, you will select and work

under the supervision of a member of academic staff to undertake a research project. The resulting report, the thesis (15 000 -18 000 words), should demonstrate your in-depth knowledge of a topic of your choice as well as your ability to design and conduct research.

All Graduate Studies units are offered subject to availability.

Please contact the course coordinator for advice on nominating a part-time course load.

Full-time Course Structure

Year 1, Semester 1

HHP011 Critical Issues in The Human Services
HHN410 Logic of Social Inquiry

Two elective units selected from the following, or any postgraduate unit as approved by the postgraduate coordinator:

HHP012 Leadership in The Human Services
MGN517 Program Management and Evaluation
HHB201 Initial Professional Practice

HHB210 Indigenous Australia: Country, Kin and Culture

■ Graduate Certificate in Social Science (Human Services) HH30

Award title: Graduate Certificate in Social Science (Human Services)

CRICOS code: 040287D

Campus: Carseldine

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Judith Burton

Course Structure

Students may discuss alternative unit selections with the course coordinator. Graduate Certificate students should do:

- At least two units from Group A
- One or two units from Group B
- No more than one unit from Group C

All Graduate Studies units are offered subject to availability.

Part-time students can complete the equivalent of the full-time program in any order in either two, three or four semesters.

Course Structure - Standard Enrolment

Full-time Course Structure

Group A

At least two units from Group A

■ Bachelor of Arts (Honours) HH21

Award title: Bachelor of Arts (Honours)

CRICOS code: 020294D

Campus: Carseldine

Duration: 2 Semesters full-time or 4 Semesters part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Judith Burton

Course Structure

The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Full-time Course Structure

Year 1, Semester 1

HHN410 Logic of Social Inquiry

HHB403 Literature Review

■ **Bachelor of Arts HH01**

Award title: Bachelor of Arts

CRICOS code: 037577J

Campus: Gardens Point, Carseldine and Caboolture

Duration: 3 years full-time or 6 years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr John Synott

Course Requirements

The Bachelor of Arts consists of 24 units of study.

You are REQUIRED to complete:

One Multi-disciplinary Major (7 units)

You MAY also include:

- an additional Multi-disciplinary Major (7 units)
- a Discipline major (6 units)
- a Co-major in another QUT course (or up to 8 units)
- a work-based Internship (2 units)

First Year at Caboolture

By including the Caboolture option on your QTAC application you have the opportunity to take the first year of the Bachelor of Arts at QUT's Caboolture campus. It is the same course as at Carseldine campus with the exception that the first year is tailored towards the availability of units offered at that campus. After completing your first year (or 96 credit points), you must then continue with the remainder of the course at the Carseldine campus.

It should be noted that credit/advanced standing will not be granted for Caboolture students - excluding START QUT studies. To receive credit, you must apply for entry to the program offered at Carseldine.

International and Global Studies Multidisciplinary Major

The International and Global Studies major is an ideal choice if you wish to work in areas that demand and value knowledge of trends and outcomes in internationalisation; understanding of cultural diversity; knowledge of world regions, cultures and societies; and skills associated with global literacy. You may choose to concentrate on global perspectives or international studies (Asian studies, European studies or Pacific studies). You may combine this major with language study in Indonesian, French, Japanese, German or Mandarin.

Society and Change Multidisciplinary Major

The Society and Change major provides a multidisciplinary approach to understanding the dynamics of social change with particular emphasis on the environment, change and society; societies in transition; and the individual and society. You will acquire substantive knowledge on social and cultural aspects of change, and will be challenged to take a critical and analytical approach to your study. Many of the units provide case studies of social change, and as a graduate of this major, you will be equipped with transferable analytical, research and interpersonal skills that are in demand in policy, research and community work.

Ethics and Human Rights Multidisciplinary Major

The Ethics and Human Rights major provides you with the opportunity to develop as a socially responsible and responsive practitioner. Dramatic changes in the human condition, such as those already emerging from globalisation and biotechnology, will be a significant feature of life in the twenty-first century. This major will equip you with understanding, skills and strategies that will enable you to address change in ways that promote the wellbeing of individuals and communities. The major is organised around five themes: ethical understandings and theory, human rights, identity studies, ethics and technology, and ethical practice.

Australian Studies Multidisciplinary Major

The Australian Studies major examines past, present and future Australia from a variety of discipline and interdisciplinary approaches. Australian studies is a contested, endless conversation and the units reflect the many perspectives which researchers now adopt in trying to understand what Australia is like as a society, a nation, a place and a home to Indigenous and non-Indigenous citizens. The major will equip you with knowledge about Australians and Australia and its role in the world. In addition, as a graduate you will have the confidence to engage in empirical and theoretical debates about what has happened and should happen in Australia.

Community Studies Multidisciplinary Major

In the Community Studies major the 'knowledge explosion' is addressed by an open-ended teaching and learning approach to equip you to better understand the communities to which you belong from past, present and future perspectives. As you get to know how communities are structured, you will consider what holds communities together and what undermines them, and consider how communities can be enhanced. The major encompasses the concept of community and a detailed investigation of community processes.

Minors

All multidisciplinary and discipline majors in the Bachelor of Arts can also be taken as four-unit minors.

Note also that all QUT faculties offer agreed sets of units as 'university minors'.

HHB330 Internship Program

Electives - International and Global Studies Professional Major

Strand A - Global Perspectives

HHB107 World Regions
HHB226 Consuming Cultures
HHB241 Gender and Globalisation
HHB263 Politics of Globalisation
HHB269 Ethics, Technology and the Environment
HHB310 Globalisation and Social Theory
HHB311 Colonial Fantasies and Postcolonial Identities
HHB331 Advanced Seminar -
HHB315 Sex and Drugs In South-East Asia
HHB248 The USA and the Asia Pacific Region
HHB223 Islam and Islamic Societies

Strand B - International Studies

HHB245 Australia and the South Pacific
HHB238 Asian Cultures and Societies
HHB260 Nations and Nationalism In Modern Europe
HHB229 Windows on Japan
HHB239 Korean Culture and Societies
HHB256 Europe Since 1945
HHB243 The Pacific Since 1945
HHB244 Southeast Asia in Focus
HHB246 Modern China
HHB323 Fieldwork Studies

Language Studies/International and Global Studies

Upon consultation with the Languages coordinator, students may select one language unit as an elective in the International & Global Studies Strand.

Students may also undertake a Combined Major in Languages/International and Global Studies, comprising:

- 1 Introductory Unit
- 2 Elective units, preferably one from each strand
- 4 units in a chosen language

Electives - Society and Change Professional Major

Introductory Units

HHB104 Understanding Society: Intro To Sociology
HHB105 Exploring Change

Strand A - The Individual and Society

HHB102 The Human Condition
HHB113 Interpersonal Communication
HHB215 Crisis and Conflict Resolution
HHB225 Political Sociology
HHB230 Political Behaviour
HHB233 Sex, Gender and Society
HHB234 Sociological Theory
HHB236 Virgins, Saints and Sinners: Sociology of Religion
HHB240 Sociology of Crime and Deviance
HHB268 Vulnerable Identities

HHB335 Bodies, Cyborgs and Cyberspace

Strand B - Environment Society and Change

HHB127 Environment and Society
HHB210 Indigenous Australia: Country, Kin and Culture
HHB226 Consuming Cultures
HHB228 Environmental Hazards
HHB231 Health, Society and Environment
HHB251 Australian Resource Management

Strand C - Societies in Transition

HHB242 Pacific Culture Contact
HHB249 Social Movements in Australia
HHB253 Conspiracy and Dissent in Australian History
HHB257 The Classical World
HHB258 Foundations of Modern Europe
HHB259 War and Revolution in Europe 1914-1945
HHB261 Medieval Europe
HHB262 Political Ideologies
HHB315 Sex and Drugs in South-East Asia

Change Management and Project Units

HHB212 Community Work

Caboolture students should note that after completion of 96 credit points of study they will need to transfer to the QUT Carseldine campus to continue their course

■ **Bachelor of Arts/Bachelor of Social Science (Human Services) HH10**

Award title: Bachelor of Arts/Bachelor of Social Science (Human Services)

Campus: Carseldine

Duration: 4 years full-time or 8 years part-time

Credit points: 384 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Phil Crane

Course Structure

This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies.

In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

■ **Bachelor of Social Science HH03**

Award title: Bachelor of Social Science

CRICOS code: 001819D

Campus: Carseldine

Duration: 3 years full-time or 6 years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Hossein Adibi

Course Requirements

Students are required to complete the first year program as follows:

- HHB116 Applied Skills and Scholarship
- Two Foundation Units
- Two to three Introductory Units
- Two to three Elective Units

Students are REQUIRED to complete (over their entire course):

- 6 Social Science Skills Units
- 1 (7 unit) Primary Major

Students must ENSURE that:

- They maintain a 50% enrolment in the units that are HHB-coded until they have completed eight units;
- That a minimum of 12 of the total of 24 course units must be chosen from units that are HHB-coded.

Students who enter the course with advanced standing should discuss their enrolment with the Course Coordinator.

Part-time Students - Year 1

During their first year, part-time students normally enrol in four units.

■ **Bachelor of Social Science HH04**

Award title: Bachelor of Social Science

CRICOS code: 001819D

Campus: Carseldine and Caboolture

Duration: 3 years; Caboolture campus: After the completion of first year (ie 96 credit points of study), students must

transfer to Carseldine campus for the remainder of the course. full-time or 6 years; Caboolture campus: After the completion of first year (ie 96 credit points of study), students must transfer to Carseldine campus for the remainder of the course. part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Hossein Adibi

Course Requirements

The Bachelor of Social Science consists of 24 units of study.

You are REQUIRED to complete:

- One social science Major (7 units)
- Social science skills units (6 units)

You MAY also complete:

- an additional social science Major (7 units)
- a social science Minor (4 units)
- a foreign language (4-6 units)
- a co-major in another QUT course (up to 8 units)
- a work-based Internship (2 units)
- a social science project (2 units)

First Year at Caboolture

By including the Caboolture option on your QTAC application, you have the opportunity to take the first year of the Bachelor of Social Science at QUT's Caboolture campus. After completing first year (or 96 credit points), you must then continue with the remainder of the course at the Carseldine campus.

It should be noted that credit/advanced standing will not be granted for Caboolture students - excluding START QUT studies. To receive credit, applicants must apply for the course offered at the Carseldine Campus.

Minors

All the social science majors can also be taken as four-unit minors.

Note also that all QUT faculties offer agreed sets of units as 'university minors'.

Social Science Skills Units

Students choose a minimum of six units from the following options (with advice that they do a maximum of three at first year level)

First Year Units

HHB113 Interpersonal Communication
HHB116 Applied Skills And Scholarship
HHB117 Introduction To Social Research Methods
HHB121 Interpreting The Past
BSB113 Economics
PYB110 Psychological Research Methods
HHB213 Social Policy Processes
HHB214 Team Practice and Group Processes
HHB215 Crisis And Conflict Resolution
HHB217 Conflict Management Skills for Professionals
HHB220 Intervention Theories And Methods
HHB221 Intervention Processes And Ethics
HHB224 Qualitative Research Methods
HHB232 Survey Methods
HHB264 Public And Professional Ethics
HHB276 Indigenous Knowledge: Research Ethics and Protocols

Third Year Units

HHB312 Geographical Research Design
HHB316 Social Science Project

Major Electives**Sociology Major**

Introductory Unit: HHB104 Understanding Society: Intro. To Sociology

Students must complete the Introductory Unit plus six Sociology units from the following:

HHB216 The Human Dimensions Of Space
HHB224 Qualitative Research Methods
HHB223 Islam and Islamic Societies
HHB225 Political Sociology
HHB226 Consuming Cultures
HHB231 Health, Society And Environment
HHB232 Survey Methods
HHB233 Sex, Gender And Society
HHB234 Sociological Theory
HHB236 Virgins, Saints And Sinners: Sociology Of Religion
HHB240 Sociology Of Crime And Deviance
HHB335 Bodies, Cyborgs and Cyberspace
HHB310 Globalisation And Social Theory

Politics and History Major

Introductory Unit (Politics): HHB112 Australian Politics
Introductory Unit (History): HHB109 Australian Historical Studies

Students must complete the Introductory Unit plus six Politics/History units from the following:

Politics Units

HHB213 Social Policy Processes
HHB224 Qualitative Research Methods
HHB225 Political Sociology
HHB230 Political Behaviour
HHB232 Survey Methods
HHB249 Social Movements In Australia
HHB255 Indigenous Politics And Political Culture
HHB262 Political Ideologies

HHB263 Politics Of Globalisation

HHB265 The Just Society

History Units

HHB121 Interpreting The Past
HHB122 Colonialism And Independence In Asia Pacific
HHB237 Brisbane in the Twentieth Century
HHB238 Asian Cultures And Societies
HHB239 Korean Culture And Societies
HHB242 Pacific Culture Contact
HHB243 The Pacific Since 1945
HHB245 Australia And The South Pacific
HHB246 Modern China
HHB248 The USA and The Asia Pacific Region
HHB253 Conspiracy And Dissent In Australian History
HHB256 Europe Since 1945
HHB257 The Classical World
HHB258 Foundations of Modern Europe
HHB259 War And Revolution In Europe 1914-1945
HHB261 Medieval Europe
HHB260 Nations And Nationalism In Modern Europe
HHB311 Colonial Fantasies And Postcolonial Identities
HHB315 Sex And Drugs In South-East Asia

Geography and Environment Major

Introductory Unit; HHB107 World Regions
Students must complete the Introductory Unit plus six Geography and Environment units from the following:

HHB127 Environment And Society
HHB228 Environmental Hazards
HHB229 Windows On Japan
HHB244 Southeast Asia In Focus
HHB250 Australian Geographical Studies
HHB251 Australian Resource Management
HHB269 Ethics, Technology And The Environment
HHB312 Geographical Research Design
NRB100 Environmental Science
NRB501 Spatial Analysis of Environmental Systems
PSB443 Population and Urban Studies
PSB631 Geographic Information Systems 1
PSB655 Remote Sensing

Indigenous Perspectives and Issues Major

Introductory Unit: HHB123 Indigenous Australian Culture Studies

Students must complete the Introductory Unit plus six Indigenous Perspectives and Issues units from the following:

HHB210 Indigenous Australia: Country, Kin And Culture
HHB255 Indigenous Politics And Political Culture
HHB276 Indigenous Knowledge: Research Ethics and Protocols
EDB007 Culture Studies: Indigenous Education
JSB135 Unlocking Criminal Justice
JSB137 Politics of Law
JSB352 Indigenous Justice

Human Services and Social Policy

Introductory Unit: HHB103 Contemporary Social And Community Issues

Students must complete the Introductory Unit plus six Human Services and Social Policy units from the following list

HHB100 Introduction To Human Services
HHB113 Interpersonal Communication
HHB200 Working In Human Service Organisations
HHB203 Aged Services: Introduction
HHB204 Child And Family Services: Introduction
HHB205 Corrective Services: Introduction
HHB206 Disability Services: Introduction
HHB207 Services To Young People: Introduction
HHB210 Indigenous Australia: Country, Kin And Culture

HHB211 Casework And Case Management
 HHB212 Community Work
 HHB213 Social Policy Processes
 HHB214 Team Practice and Group Processes
 HHB215 Crisis And Conflict Resolution
 HHB217 Conflict Management Skills for Professionals
 HHB220 Intervention Theories And Methods
 HHB319 Child Protection Intervention Skills
 PUB251 Contemporary Public Health
 PUB326 Epidemiology
 PUB406 Health Promotion Strategies
 PUB557 Health Needs of Indigenous Australians and Other Populations

Minor Electives

Peace and Conflict Resolution Minor

Students choose four electives from the following units:

HHB111 Issues In International And Global Studies
 HHB113 Interpersonal Communication
 HHB114 Introduction To Human Rights And Ethics
 HHB215 Crisis And Conflict Resolution
 HHB217 Conflict Management Skills for Professionals
 HHB268 Vulnerable Identities
 HHB274 Human Rights: International And Regional Activism
 HHB275 Human Rights: Australian Activism
 JSB932 Alternative Justice Processes

Gender and Sexuality Minor

Students choose four electives from the following units:

HHB233 Sex, Gender And Society
 HHB241 Gender and Globalisation
 HHB267 Feminism And Ethics
 HHB270 Gene Technology And Ethics
 HHB315 Sex And Drugs In South-East Asia
 HHB335 Bodies, Cyborgs and Cyberspace
 JSN015 Women and the Australian Legal System
 KWB321 Modern Times: Literature and Culture in the 20th Century

OVERVIEW

QUT's Faculty of Information Technology is one of the leading providers of information technology courses in Australia. The Faculty is also well known internationally for research excellence in five key areas:

- Complex Systems Engineering
- Security and Trust
- Business Process Management
- Social Technical Systems
- Human Centred Smart Systems.

The Faculty is located at QUT's inner-city Gardens Point campus and also offers courses at the University's north campus in Brisbane—Carseldine.

The Faculty comprises two schools:

- School of Information Systems
- School of Software Engineering and Data Communications.

QUT benefits from close linkages with industry in our education and research activities. Industry representatives actively contribute to the development and continual refinement of our course offerings, collaborate on multiple research projects with the University, and utilise our expertise through consulting engagements. The Faculty of Information Technology coordinates a very successful student internship program—the Cooperative Education Program—with its industry and government partners. This program offers high achieving IT students the option of completing 10-12 months paid professional experience in the workforce.

The Faculty has almost 3000 students, with a third being international students from some 54 countries. Our courses are geared to develop graduates who can face today's challenges and also tackle an unimagined future with confidence and innovation.

Students are attracted to QUT's focus on real-world experience which involves practical teaching in addition to leadership in applied research that directly benefits industry and the professions. Our lecturers are real-world professionals with years of relevant experience in a variety of industry sectors.

The Faculty draws on the talents of academic staff from diverse backgrounds allowing a dynamic exchange of culture, knowledge and expertise.

RESEARCH CENTRE

Information Security Institute (ISI)

The Information Security Institute (ISI) is a collaborative research undertaking of the Faculty of Built Environment and Engineering (BEE), the Faculty of Business (BUS), the Faculty of Information Technology (IT), and the Faculty of Law (LAW). The ISI has been established to pursue multi-disciplinary research in technology, legal, policy and governance issues related to information security. The ISI undertakes research in eight broad research domains: Cryptology, E-Business and E-Government, Governance and Information Protection, Trusted Systems and Network Security, Computer Intrusion, Forensics and Evidence, Technology, Law and Policy, Biometric Person Authentication, and Social and Behavioural Issues.

■ **Master of Information Management IT70**

Award title: Master of Information Management
CRICOS code: 053705F
Campus: Gardens Point
Duration: 3 semesters full-time or 6 semesters part-time
Credit points: 144
Course coordinator: Dr Gillian Hallam

Course Structure

To graduate from the Master of Information Management (IT70) students are required to complete the 12 units (10 compulsory and 2 electives).

To exit the Masters course with a Graduate Diploma in Information Management (IT72) students are required to complete the eight specified units.

In addition, there are four Graduate Certificate in Information Management programs available. Students are required to complete four specified units to graduate.

Professional Recognition

Course recognition will be sought from the Australian Library and Information Association (ALIA) for the Master of Information Management. Recognition will also be sought from the Records Management Association Australia for both the Graduate Diploma and the Master of Information Management.

Full-time Course Structure

Year 1, Semester 1

ITN200 Database Systems
 ITN201 Enterprise Architecture
 ITN273 Information Retrieval
 ITN274 Management Issues for Info Professionals

Year 1, Semester 2

ITN275 Information Organisation
 ITN276 Information Services
 ITN266 Information Management
 Specialisation Unit 1

Year 2, Semester 1

ITN278 Web Content Reliability
 ITN279 Information Literacy Education
 ITN280 Professional Practice
 Specialisation Unit 2

Students who choose to undertake ITS010 Cooperative Education Program substitute for ITN280.
 Specialisations (select two (2) units from a specialisation)

Part-time Course Structure

Year 1, Semester 1

ITN200 Database Systems
 ITN273 Information Retrieval

Year 1, Semester 2

ITN201 Enterprise Architecture

Year 3, Semester 2

ITN280 Professional Practice
 Specialisation Unit 2

Students who choose to undertake ITS010 Cooperative Education Program substitutes for ITN280.
 Specialisations (select two (2) units from a specialisation)

Library Studies

ITN315 Information Management Project
 ITN316 Digital Library Systems
 ITN317 Advanced Information Services
 ITN318 Information Organisation 2
 ITN320 Law Library Management
 ITN321 Law Librarianship - Legal Research
 ITN330 Information Issues and Values
 CLN601 Cyberlearning: Information & Knowledge in the Digital Age
 CLN603 Designing Spaces for Learning
 CLN647 Youth, Popular Culture, and Texts
 EDB007 Culture Studies: Indigenous Education
 HHB123 Indigenous Australian Culture Studies
 SPN624 Adult and Professional Learning

Information and Knowledge Management

ITN255 Knowledge Management
 ITN315 Information Management Project
 SPN621 Adult and Workplace Education: Principles And Practices

Records Management

ITN315 Information Management Project
 ITN319 Records Systems

Web Management

ITN007 Web Development
 ITN239 Enterprise Data Mining
 ITN315 Information Management Project

Specialisation Lists

Specialisations (select two (2) units from a specialisation)

Library Studies

ITN315 Information Management Project
 ITN316 Digital Library Systems
 ITN317 Advanced Information Services
 ITN318 Information Organisation 2
 ITN330 Information Issues and Values

Web Management

ITN007 Web Development
 ITN239 Enterprise Data Mining
 ITN295 XML: Data and Document Processing
 ITN315 Information Management Project

■ **Master of Information Technology (Advanced) IT48**

Award title: Master of Information Technology (Advanced)
CRICOS code: 053123F
Campus: Gardens Point
Duration: 2 years (4 semesters) full-time or 4 years (8 semesters) part-time
Credit points: 192 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Hamish Bentley

Course Structure

To graduate from the Master of Information Technology (Advanced) students are required to complete 16 units, consisting of:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a maximum of 4 Intermediate Units
- a minimum of 7 Advanced Level 1 Units
- a minimum of 1 Advanced Level 2 Units; and
- a maximum of 3 x PG level Elective Units selected from outside the Faculty, in consultation with the Course Coordinator

Advanced Level 1 Units

ITN220 Major Issues in Information Systems
 ITN233 Enterprise Systems Applications
 ITN237 Advanced Databases
 ITN239 Enterprise Data Mining
 ITN245 R/3 Systems Administration
 ITN254 Interactivity Design
 ITN255 Knowledge Management
 ITN257 Multimedia Systems
 ITN260 E-Commerce Site Development
 ITN264 Information Systems Consulting
 ITN267 Business Analytics
 ITN272 Information Technology Project Management
 ITN293 Java for E-Commerce Applications
 ITN297 Web Site Design
 ITN298 Process Engineering
 ITN341 Strategic Information and Knowledge Management
 ITN713 Advanced Java Programming
 ITN715 Web Services
 ITN716 Advanced Web Applications Development
 ITN717 Enterprise Software Architecture
 ITN722 Network Planning and Deployment
 ITN723 Wireless and Mobile Networks
 ITN731 Security Technologies
 ITN733 Network Security
 ITN741 Information Retrieval Technology
 ITN742 Computational Intelligence
 ITN746 Modelling and Animation Techniques
 ITN748 Configurable Computing
 ITN341 Strategic Information and Knowledge Management
 ITS702 Ccna 3 & 4: Switching and Wide Area Networking
 ITS703 Ccnp 1: Advanced Routing
 ITS704 Ccnp 2: Remote Access Networks
 ITS705 Ccnp 3: Multilayer Switching
 ITS706 Ccnp 4: Network Troubleshooting
 ITS707-1 Securing Cisco Hardware
 Project - 12 and 24 credit points (See Project Units for codes)

Advanced Level 2 Units

ITN100 Introduction to Research
 ITN232 Database Management
 ITN235 Distributed Object Information Systems
 ITN253 Case Studies In Enterprise Systems
 ITN259 Advanced Multimedia Systems
 ITN269 Special Topic 2B
 ITN299 Workflow Management
 ITN747 Real Time Rendering Techniques

ITN761 SEDC Special Topic 1
 ITN765 SEDC Special Topic 5
 ITN770 Internationalisation of Software
 ITN771 Advanced Network Management
 ITN773 Trusted Systems
 ITN774 Computer Forensics
 Project - 48 credit points (See Project Units for codes)

Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 units are 48 credit points.

ITN246 Minor Project 1 (IS)
 ITN248 Minor Project 2 (IS)
 ITN162 Project (IS)
 ITN172 Project (IS) (Part-time)
 ITN142 Major Project (IS) Full-Time
 ITN791 Minor Project 1 (SEDC)
 ITN792 Minor Project 2 (SEDC)
 ITN793 Project (SEDC)
 ITN794-1 Project (SEDC) PT
 ITN794-2 Project (SEDC) PT
 ITN795 Major Project (SEDC)
 ITN796-1 Major Project (SEDC) PT
 ITN796-2 Major Project (SEDC) PT
 ITN152-1 Major Project (IS) Part Time
 ITN152-2 Major Project (IS) Part Time
 ITN172-1 Project (IS) Part Time
 ITN172-2 Project (IS) Part Time

Intermediate Level Units

With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

ITN007 Web Development
 ITN218 Applications Programming
 ITN222 Business Systems Analysis and Design
 ITN223 Software Development with Oracle
 ITN228 Enterprise Systems
 ITN229 Database Design
 ITN241 Information Technology Management
 ITN266 Information Management
 ITN294 Information Quality
 ITN295 XML: Data and Document Processing
 ITN296 Information Systems Theory and Applications
 ITN322 Information Resources
 ITN330 Information Issues and Values
 ITN710 Fundamentals of Computer Science
 ITN711 Programming Abstraction
 ITN712 Software Engineering Principles
 ITN720 Internet Protocols and Services
 ITN721 Computer Network Administration
 ITN730 Information Security Fundamentals
 ITN732 Cryptology and Protocols
 ITN740 Agent Based Software Engineering
 ITN743 Artificial Intelligence
 ITN744 Computer Architecture
 ITN745 Operating Systems
 ITN749 Scientific Programming
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics

■ **Master of Information Technology (IT Graduates) IT40**

Award title: Master of Information Technology (Study Area A)

CRICOS code: 003776E

Campus: Gardens Point

Duration: 3 semesters full-time or 6 semesters part-time

Credit points: 144

Course coordinator: Hamish Bentley

Course Structure

To graduate from the Master of Information Technology, students are required to complete 12 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a minimum of 6 x Advanced Level 1 Units
- a minimum of 1 x Advanced Level 2 Units
- a maximum of 3 x PG level Elective Units selected from outside the Faculty, in consultation with the Course Coordinator

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to have completed 8 units, including:

- a minimum of 5 x Advanced Level 1 Units
- a minimum of 1 x Advanced Level 2 Units

In addition, students may also gain credit for one or more graduate certificate awards while completing the Masters program. Graduate Certificates in IT consist of 4 designated units which highlight career specialisations in Computer Networks, Information Security, Enterprise Wide Software, Electronic Commerce, Management of Information Technology, Multimedia and Component Software and Web Services.

Advanced Level 1 Units

- ITN220 Major Issues in Information Systems
- ITN233 Enterprise Systems Applications
- ITN237 Advanced Databases
- ITN239 Enterprise Data Mining
- ITN245 R/3 Systems Administration
- ITN254 Interactivity Design
- ITN255 Knowledge Management
- ITN257 Multimedia Systems
- ITN260 E-Commerce Site Development
- ITN264 Information Systems Consulting
- ITN267 Business Analytics
- ITN272 Information Technology Project Management
- ITN293 Java for E-Commerce Applications
- ITN297 Web Site Design
- ITN298 Process Engineering
- ITN341 Strategic Information and Knowledge Management
- ITN713 Advanced Java Programming
- ITN715 Web Services
- ITN716 Advanced Web Applications Development
- ITN717 Enterprise Software Architecture
- ITN722 Network Planning and Deployment
- ITN723 Wireless and Mobile Networks
- ITN731 Security Technologies
- ITN733 Network Security
- ITN741 Information Retrieval Technology
- ITN742 Computational Intelligence
- ITN746 Modelling and Animation Techniques
- ITN748 Configurable Computing
- ITN341 Strategic Information and Knowledge Management
- ITS702 Ccna 3 & 4: Switching and Wide Area Networking
- ITS703 Ccnp 1: Advanced Routing
- ITS704 Ccnp 2: Remote Access Networks
- ITS705 Ccnp 3: Multilayer Switching
- ITS706 Ccnp 4: Network Troubleshooting
- ITS707-1 Securing Cisco Hardware
- Project - 12 and 24 credit points (See Project Units for codes)

Advanced Level 2 Units

- ITN100 Introduction to Research
- ITN232 Database Management
- ITN235 Distributed Object Information Systems
- ITN253 Case Studies in Enterprise Systems
- ITN259 Advanced Multimedia Systems
- ITN269 Special Topic 2B
- ITN299 Workflow Management
- ITN747 Real Time Rendering Techniques
- ITN761 SEDC Special Topic 1
- ITN765 SEDC Special Topic 5
- ITN770 Internationalisation of Software
- ITN771 Advanced Network Management
- ITN773 Trusted Systems
- ITN774 Computer Forensics
- Project - 48 credit points (See Project Units for codes)
- Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 units are 48 credit points.

- ITN246 Minor Project 1 (IS)
- ITN248 Minor Project 2 (IS)
- ITN162 Project (IS)
- ITN172 Project (IS) (Part-time)
- ITN142 Major Project (IS) Full-Time
- ITN791 Minor Project 1 (SEDC)
- ITN792 Minor Project 2 (SEDC)
- ITN793 Project (SEDC)
- ITN794-1 Project (SEDC) PT
- ITN794-2 Project (SEDC) PT
- ITN795 Major Project (SEDC)
- ITN796-1 Major Project (SEDC) PT
- ITN796-2 Major Project (SEDC) PT
- ITN152-1 Major Project (IS) Part Time
- ITN152-2 Major Project (IS) Part Time
- ITN172-1 Project (IS) Part Time
- ITN172-2 Project (IS) Part Time

Intermediate Level Units

With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

- ITN007 Web Development
- ITN218 Applications Programming
- ITN222 Business Systems Analysis and Design
- ITN223 Software Development with Oracle
- ITN228 Enterprise Systems
- ITN229 Database Design
- ITN241 Information Technology Management
- ITN266 Information Management
- ITN294 Information Quality
- ITN295 XML: Data and Document Processing
- ITN296 Information Systems Theory and Applications
- ITN322 Information Resources
- ITN330 Information Issues and Values
- ITN710 Fundamentals of Computer Science
- ITN711 Programming Abstraction
- ITN712 Software Engineering Principles
- ITN720 Internet Protocols and Services
- ITN721 Computer Network Administration
- ITN730 Information Security Fundamentals
- ITN732 Cryptology and Protocols
- ITN740 Agent Based Software Engineering
- ITN743 Artificial Intelligence
- ITN744 Computer Architecture

ITN745 Operating Systems
 ITN749 Scientific Programming
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics

■ **Master of Information Technology (Non-IT Graduates) IT45**

Award title: Master of Information Technology
CRICOS code: 003776E
Campus: Gardens Point
Duration: 3 semesters full-time or 6 semesters part-time
Credit points: 144
Course coordinator: Hamish Bentley

Course Structure

To graduate from the Master of Information Technology (IT45) students are required to complete 12 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a minimum of 3 x Basic Level Units
- a minimum of 3 x Advanced Level 1 Units

To exit the Masters course with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a minimum of 3 x Basic Level Units
- 4 x chosen from Intermediate or Advanced Level 1 Units

Compulsory Unit*

ITN272 Information Technology Project Management
 * For students who commenced Semester 2, 2006 or later

Basic Level Units

ITN200 Database Systems
 ITN201 Enterprise Architecture
 ITN700 Programming Principles
 OR
 ITB001 Problem Solving and Programming
 ITN701 Networks and Systems

Intermediate Level Units

ITN007 Web Development
 ITN218 Applications Programming
 ITN222 Business Systems Analysis and Design
 ITN223 Software Development with Oracle
 ITN228 Enterprise Systems
 ITN229 Database Design
 ITN241 Information Technology Management
 ITN266 Information Management
 ITN294 Information Quality
 ITN295 XML: Data and Document Processing
 ITN296 Information Systems Theory and Applications
 ITN322 Information Resources
 ITN330 Information Issues and Values
 ITN710 Fundamentals of Computer Science
 ITN711 Programming Abstraction
 ITN712 Software Engineering Principles
 ITN720 Internet Protocols and Services
 ITN730 Information Security Fundamentals
 ITN721 Computer Network Administration
 ITN732 Cryptology and Protocols
 ITN740 Agent Based Software Engineering
 ITN743 Artificial Intelligence
 ITN744 Computer Architecture
 ITN745 Operating Systems
 ITN749 Scientific Programming
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics

Advanced Level 1 units

ITN220 Major Issues in Information Systems

ITN233 Enterprise Systems Applications
 ITN237 Advanced Databases
 ITN239 Enterprise Data Mining
 ITN245 R/3 Systems Administration
 ITN254 Interactivity Design
 ITN255 Knowledge Management
 ITN257 Multimedia Systems
 ITN260 E-Commerce Site Development
 ITN267 Business Analytics
 ITN272 Information Technology Project Management
 ITN293 Java for E-Commerce Applications
 ITN298 Process Engineering
 ITN297 Web Site Design
 ITN341 Strategic Information and Knowledge Management
 ITN713 Advanced Java Programming
 ITN715 Web Services
 ITN716 Advanced Web Applications Development
 ITN717 Enterprise Software Architecture
 ITN722 Network Planning and Deployment
 ITN723 Wireless and Mobile Networks
 ITN731 Security Technologies
 ITN733 Network Security
 ITN741 Information Retrieval Technology
 ITN742 Computational Intelligence
 ITN746 Modelling and Animation Techniques
 ITN748 Configurable Computing
Project Units
 ITN246 Minor Project 1 (IS)
 ITN248 Minor Project 2 (IS)
 ITN791 Minor Project 1 (SEDC)
 ITN792 Minor Project 2 (SEDC)

■ **Master of Information Technology (Research) IT60**

Award title: Master of Information Technology (Research)
CRICOS code: 020309B
Campus: Gardens Point
Duration: 1.5 years or 3 semesters full-time or 3 years or 6 semesters part-time
Credit points: 144
Course coordinator: Associate Professor Colin Boyd

Course Structure

The length of the program is generally expected to be one-and-a-half years if the candidate enrolls as a full time student (including six months of provisional registration) and three years for part time (including one year of provisional registration).

Students with second class Honours division A (or better) in an information technology-related course will normally be enrolled in the Master of Information Technology (Research) and complete the degree in one year full-time.

Assessment for the award of Masters by Research is based on a program of supervised research and investigation, culminating in a thesis. Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular interaction with supervisors and to participate in scholarly activities such as research seminars and publication.

Course Structure

Full-time Course Structure

A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee (Workload equivalent to 48 credit points per semester)

Part-time Course Structure

A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee (Workload equivalent to 24 credit points per semester)

■ **Graduate Diploma in Information Technology (IT Graduates) IT35**

Award title: Graduate Diploma in Information Technology (Study Area A)

CRICOS code: 018771J

Campus: Gardens Point

Duration: 1 years full-time or 2 years part-time

Credit points: 96

Course coordinator: Hamish Bentley

Course Structure

To graduate from the Graduate Diploma in IT, students are required to have completed 8 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a minimum of 5 x Advanced Level 1 Units
- a minimum of 1 x Advanced Level 2 Units

Students may also gain credit for one or more graduate certificate awards while completing the Grad Dip or Masters program.

Graduate Certificates in Information Technology consist of 4 designated units which highlight career specialisations. Graduate certificate awards are available in Computer Networks, Information Security, Enterprise Wide Software, Electronic Commerce, Management of Information Technology, Multimedia and Component Software and Web Services.

Articulation

Students who successfully complete the Graduate Diploma (96 credit points) are eligible for admission to the Masters and are only required to undertake an additional four units to meet the requirements for the Masters degree.

Advanced Level 1 Units

- ITN220 Major Issues in Information Systems
- ITN233 Enterprise Systems Applications
- ITN237 Advanced Databases
- ITN239 Enterprise Data Mining
- ITN245 R/3 Systems Administration
- ITN254 Interactivity Design
- ITN255 Knowledge Management
- ITN257 Multimedia Systems
- ITN260 E-Commerce Site Development
- ITN264 Information Systems Consulting
- ITN267 Business Analytics
- ITN272 Information Technology Project Management
- ITN293 Java for E-Commerce Applications
- ITN297 Web Site Design
- ITN298 Process Engineering
- ITN341 Strategic Information and Knowledge Management
- ITN713 Advanced Java Programming
- ITN715 Web Services
- ITN716 Advanced Web Applications Development
- ITN717 Enterprise Software Architecture
- ITN722 Network Planning and Deployment
- ITN723 Wireless and Mobile Networks
- ITN731 Security Technologies
- ITN733 Network Security
- ITN741 Information Retrieval Technology
- ITN742 Computational Intelligence
- ITN746 Modelling and Animation Techniques

- ITN748 Configurable Computing
- ITN341 Strategic Information and Knowledge Management
- ITS702 Ccna 3 & 4: Switching and Wide Area Networking
- ITS703 Ccnp 1: Advanced Routing
- ITS704 Ccnp 2: Remote Access Networks
- ITS705 Ccnp 3: Multilayer Switching
- ITS706 Ccnp 4: Network Troubleshooting
- ITS707-1 Securing Cisco Hardware
- Project - 12 and 24 credit points (See Project Units for codes)

Advanced Level 2 Units

- ITN100 Introduction to Research
- ITN232 Database Management
- ITN235 Distributed Object Information Systems
- ITN253 Case Studies In Enterprise Systems
- ITN259 Advanced Multimedia Systems
- ITN269 Special Topic 2B
- ITN299 Workflow Management
- ITN747 Real Time Rendering Techniques
- ITN761 SEDC Special Topic 1
- ITN765 SEDC Special Topic 5
- ITN770 Internationalisation of Software
- ITN771 Advanced Network Management
- ITN773 Trusted Systems
- ITN774 Computer Forensics
- Project - 48 credit points (See Project Units for codes)
- Project Units

Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 units are 48 credit points.

- ITN246 Minor Project 1 (IS)
- ITN248 Minor Project 2 (IS)
- ITN162 Project (IS)
- ITN172 Project (IS) (Part-time)
- ITN142 Major Project (IS) Full-Time
- ITN791 Minor Project 1 (SEDC)
- ITN792 Minor Project 2 (SEDC)
- ITN793 Project (SEDC)
- ITN794-1 Project (SEDC) PT
- ITN794-2 Project (SEDC) PT
- ITN795 Major Project (SEDC)
- ITN796-1 Major Project (SEDC) PT
- ITN796-2 Major Project (SEDC) PT
- ITN152-1 Major Project (IS) Part Time
- ITN152-2 Major Project (IS) Part Time
- ITN172-1 Project (IS) Part Time
- ITN172-2 Project (IS) Part Time

Intermediate Level Units

With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

- ITN007 Web Development
- ITN218 Applications Programming
- ITN222 Business Systems Analysis and Design
- ITN223 Software Development with Oracle
- ITN228 Enterprise Systems
- ITN229 Database Design
- ITN241 Information Technology Management
- ITN266 Information Management
- ITN294 Information Quality
- ITN295 XML: Data and Document Processing
- ITN296 Information Systems Theory and Applications
- ITN322 Information Resources
- ITN330 Information Issues and Values

ITN710 Fundamentals of Computer Science
 ITN711 Programming Abstraction
 ITN712 Software Engineering Principles
 ITN720 Internet Protocols and Services
 ITN721 Computer Network Administration
 ITN730 Information Security Fundamentals
 ITN732 Cryptology and Protocols
 ITN740 Agent Based Software Engineering
 ITN743 Artificial Intelligence
 ITN744 Computer Architecture
 ITN745 Operating Systems
 ITN749 Scientific Programming
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics

■ **Graduate Diploma in Information Technology (Non-IT Graduates) IT38**

Award title: Graduate Diploma in Information Technology
CRICOS code: 018771J
Campus: Gardens Point
Duration: 2 semesters full-time or 4 semesters part-time
Credit points: 96
Course coordinator: Hamish Bentley

Course Structure

To graduate with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- a Minimum of 3 x Basic Level Units
- 4 x Chosen from Intermediate or Advanced Level 1 Units

Compulsory Unit*

ITN272 Information Technology Project Management
 * For students who commenced Semester 2, 2006 or later

Basic Level Units

ITN200 Database Systems

■ **Graduate Certificate in Information Technology (Component Software and Web Services) IT99**

Award title: Graduate Certificate in Information Technology (Component Software and Web Services)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Four (4) units to be selected from the following
 ITN295 XML: Data and Document Processing
 ITN711 Programming Abstraction
 ITN713 Advanced Java Programming
 ITN715 Web Services
 ITN716 Advanced Web Applications Development
 ITN717 Enterprise Software Architecture

■ **Graduate Certificate in Information Technology (Computer Networks) IT90**

Award title: Graduate Certificate in Information Technology (Computer Networks)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Course Structure

Core Units

ITN720 Internet Protocols and Services
 ITN721 Computer Network Administration
 Select 2 units from the following
 ITN723 Wireless and Mobile Networks
 ITN771 Advanced Network Management
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics
 ITS702 Ccna 3 & 4: Switching and Wide Area Networking
 ITS703 Ccnp 1: Advanced Routing
 ITS704 Ccnp 2: Remote Access Networks
 ITS705 Ccnp 3: Multilayer Switching
 ITS706 Ccnp 4: Network Troubleshooting
 ITS707-1 Securing Cisco Hardware

■ **Graduate Certificate in Information Technology (Enterprise Wide Software) IT93**

Award title: Graduate Certificate in Information Technology (Enterprise Wide Software)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Course Structure

Four (4) units to be selected from the following
 ITN220 Major Issues in Information Systems
 ITN228 Enterprise Systems
 ITN233 Enterprise Systems Applications
 ITN245 R/3 Systems Administration
 ITN253 Case Studies In Enterprise Systems
 ITN298 Process Engineering

■ **Graduate Certificate in Information Technology (Information Security) IT92**

Award title: Graduate Certificate in Information Technology (Information Security)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Course Structure

Four (4) units to be selected from the following
 ITN730 Information Security Fundamentals
 ITN731 Security Technologies
 ITN732 Cryptology and Protocols
 ITN733 Network Security
 ITN765 SEDC Special Topic 5
 ITN773 Trusted Systems

■ **Graduate Certificate in Information Technology (Information Technology Management) IT96**

Award title: Graduate Certificate in Information Technology (Information Technology Management)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Course Structure

Four (4) units to be selected from the following
 ITN220 Major Issues in Information Systems
 ITN241 Information Technology Management
 ITN255 Knowledge Management
 ITB264 Information Systems Consulting
 ITN266 Information Management
 ITN272 Information Technology Project Management

■ **Graduate Certificate in Information Technology (Multimedia) IT98**

Award title: Graduate Certificate in Information Technology (Multimedia)
Campus: Gardens Point
Duration: 2 semesters or 26 weeks (based on completing 2 units/sem) part-time
Credit points: 48
Course coordinator: Hamish Bentley

Course Structure

Four (4) units to be selected from the following
 ITN007 Web Development
 ITB254 Interactivity Design
 ITN257 Multimedia Systems
 ITN259 Advanced Multimedia Systems
 ITN295 XML: Data and Document Processing
 ITN297 Web Site Design

■ **Bachelor of Information Technology (Honours) IT28**

Award title: Bachelor of Information Technology (Honours)
CRICOS code: 017323G
Campus: Gardens Point
Duration: 1 year full-time or 2 years part-time
Credit points: 96
Course coordinator: Dr Wayne Kelly

The "Accelerated" Honours Program

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology (IT21 or IT22) students to continue into the Faculty's Honours Program. See IT29 for further information.

Full-time Course Structure

Year 1, Semester 1

ITN100 Introduction to Research
 ITN150-1 Honours Dissertation
 Elective
 Elective

Year 1, Semester 2

ITN150-2 Honours Dissertation
 ITN150-3 Honours Dissertation
 ITN150-4 Honours Dissertation
 Elective

Part-time Course Structure

Year 1, Semester 1

ITN100 Introduction to Research
 ITN150-1 Honours Dissertation

Year 1, Semester 2

ITN150-2 Honours Dissertation
 Elective

Year 2, Semester 1

ITN150-3 Honours Dissertation
 Elective

Year 2, Semester 2

ITN150-4 Honours Dissertation
 Elective

Elective Units - Students should choose from the list of advanced level postgraduate units. Normally units are undertaken in the area of the student's undergraduate major. Students wishing to enrol in a unit other than those listed should contact the Course Coordinator.

Full-time students should be aware many electives may be offered evenings only.

IT Honours Elective Units

Elective units should normally be chosen from the following list of approved honours electives. At least one of your three electives must be chosen from the list of Advanced Honours Electives. You may enrol in at most one unit not listed below (including units offered by other Faculties) if your supervisor submits a request to the course coordinator indicating that said unit will directly support your honours dissertation. Please note that many units are only offered once per year and many have prerequisite requirements, so you will need to carefully plan ahead. If you require assistance in selecting suitable units from the lists below, please discuss it with your supervisor and course coordinator as soon as possible.

Approved Honours Electives

ITN007 Web Development
 ITN220 Major Issues in Information Systems
 ITN233 Enterprise Systems Applications
 ITN237 Advanced Databases
 ITN239 Enterprise Data Mining
 ITN241 Information Technology Management
 ITN245 R/3 Systems Administration
 ITN254 Interactivity Design
 ITN255 Knowledge Management
 ITN257 Multimedia Systems
 ITN260 E-Commerce Site Development
 ITN264 Information Systems Consulting
 ITN267 Business Analytics
 ITN272 Information Technology Project Management

ITN293 Java for E-Commerce Applications
 ITN295 XML: Data and Document Processing
 ITN297 Web Site Design
 ITN298 Process Engineering
 ITN710 Fundamentals of Computer Science
 ITN713 Advanced Java Programming
 ITN715 Web Services
 ITN716 Advanced Web Applications Development
 ITN717 Enterprise Software Architecture
 ITN720 Internet Protocols and Services
 ITN722 Network Planning and Deployment
 ITN723 Wireless and Mobile Networks
 ITN730 Information Security Fundamentals
 ITN731 Security Technologies
 ITN733 Network Security
 ITN740 Agent Based Software Engineering
 ITN741 Information Retrieval Technology
 ITN742 Computational Intelligence
 ITN744 Computer Architecture
 ITN746 Modelling and Animation Techniques
 ITN748 Configurable Computing
 ITN749 Scientific Programming

Advanced Honours Electives

ITN232 Database Management
 ITN235 Distributed Object Information Systems
 ITN253 Case Studies In Enterprise Systems
 ITN259 Advanced Multimedia Systems
 ITN299 Workflow Management
 ITN747 Real Time Rendering Techniques
 ITN761 SEDC Special Topic 1
 ITN765 SEDC Special Topic 5
 ITN770 Internationalisation of Software
 ITN771 Advanced Network Management
 ITN773 Trusted Systems
 ITN774 Computer Forensics

■ **Bachelor of Information Technology
 (Honours) - Accelerated Program IT29**

Award title: Bachelor of Information Technology (Honours)
CRICOS code: 017323G
Campus: Gardens Point
Duration: 2 semesters full-time
Credit points: 96
Course coordinator: Dr Wayne Kelly

Course Structure

Year 3, Semester 1*
 Elective

Year 3, Semester 2

■ **Bachelor of IT/Bachelor of IT (Honours)
 Dean's Scholars Program IT22/IT29**

CRICOS code: 012656E / 017323G

Campus: Gardens Point

Duration: 3 years full-time

Course coordinator: Ruth Christie

Professional Recognition

As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Business Systems Engineering Major

Compulsory Units

ITB222 Systems Analysis and Design
 ITB228 Enterprise Systems
 ITB298 Business Process Engineering
 ITB292 Enterprise Architecture
 ITB245 R/3 System Administration
 ITB296 Information Systems Theory and Applications
 Note: Replace ITB292 with ITB245; Replace ITB296 with any ITB2xx or ITB3xx unit.

Elective Units

Select one (1) unit from the following list
 ITB218 Applications Programming
 ITB223 Software Development with ORACLE
 ITB230 Project
 ITB237 Advanced Databases
 ITB267 Business Analytics
 ITB272 Information Technology Project Management
 ITB330 Information Issues and Policy
 ITB293 Java for Electronic Commerce Applications

Databases Major

Compulsory Units

ITB229 Database Design
 ITB232 Database Management
 ITB239 Enterprise Data Mining
 ITB295 XML: Data and Document Processing
 ITB299 Workflow Management

Elective Units

Select one (1) unit from the following list
 ITB218 Applications Programming
 ITB223 Software Development with ORACLE
 ITB230 Project
 ITB237 Advanced Databases
 ITB245 R/3 System Administration
 ITB267 Business Analytics
 ITB293 Java for Electronic Commerce Applications
 ITB272 Information Technology Project Management
 ITB330 Information Issues and Policy

Electronic Business Major

Compulsory Units

ITB233 Enterprise Systems Applications
 ITB239 Enterprise Data Mining
 ITB260 E-Commerce Site Development
 BSB212 Electronic Business Applications
 BSB213 Governance Issues in E-Business
 BSB314 E-Business Intelligence

Games Technology Major

Compulsory Units

ITB711 Programming Abstraction
 ITB743 Artificial Intelligence
 ITB746 Modelling and Animation Techniques
 ITB747 Real Time Rendering Techniques
 ITB749 Scientific Programming
 MAB281 Mathematics for Computer Graphics

Information and Knowledge Management Major

Compulsory Units

ITB266 Information Management
 ITB294 Information Quality
 ITB297 Web Site Design
 ITB322 Information Resources
 ITB341 Strategic Information and Knowledge Management
 Note: ITB297 is replaced with any ITB2xx or ITB3xx unit for semester 2, 2006
 Note: ITB341 is replaced with one unit from the following list for semester 2, 2006
 ITB264 Information Systems Consulting
 ITB241 Information Technology Management
 ITB272 Information Technology Project Management
 ITB330 Information Issues and Policy

Elective Units

Select one (1) unit from the following list
 ITB218 Applications Programming
 ITB223 Software Development with ORACLE
 ITB230 Project
 ITB237 Advanced Databases
 ITB245 R/3 System Administration
 ITB267 Business Analytics
 ITB293 Java for Electronic Commerce Applications
 ITB330 Information Issues and Policy

Information Systems Major

Compulsory Units

ITB222 Systems Analysis and Design
 ITB228 Enterprise Systems

ITB229 Database Design
 ITB260 E-Commerce Site Development
 ITB296 Information Systems Theory and Applications
 Note: ITB296 is replaced with any ITB2.. or ITB3xx unit for semester 2, 2006

IS Elective Units

Select one (1) unit from the following list
 ITB218 Applications Programming
 ITB223 Software Development with ORACLE
 ITB230 Project
 ITB237 Advanced Databases
 ITB245 R/3 System Administration
 ITB267 Business Analytics
 ITB272 Information Technology Project Management
 ITB293 Java for Electronic Commerce Applications
 ITB330 Information Issues and Policy

Information Technology Management Major

Compulsory Units

ITB222 Systems Analysis and Design
 ITB241 Information Technology Management
 ITB264 Information Systems Consulting
 ITB272 Information Technology Project Management
 ITB296 Information Systems Theory and Applications
 Note: ITB296 is replaced with any ITB2xx or ITB3xx unit for semester 2, 2006

Elective Units

Select one (1) unit from the following list
 ITB218 Applications Programming
 ITB223 Software Development with ORACLE
 ITB230 Project
 ITB237 Advanced Databases
 ITB245 R/3 System Administration
 ITB267 Business Analytics
 ITB272 Information Technology Project Management
 ITB293 Java for Electronic Commerce Applications
 ITB330 Information Issues and Policy

Intelligent Systems Major

Compulsory Units

ITB239 Enterprise Data Mining
 ITB295 XML: Data and Document Processing
 ITB740 Agent Based Software Engineering
 ITB741 Information Retrieval Technology

Elective Units

Select two (2) units from the following list
 ITB322 Information Resources
 ITB710 Fundamentals of Computer Science
 ITB715 Web Services
 ITB742 Computational Intelligence
 ITB743 Artificial Intelligence

Interactive Media Major

Compulsory Units

ITB254 Interactivity Design
 ITB257 Multimedia Systems
 ITB259 Advanced Multimedia Systems
 KIB101 Foundations of Communication Design 1
 KIB102 Foundations of Communication Design 2

Elective Units

Select one (1) unit from the following list
 KIB103 Media Technology 1
 KIB105 Animation and Motion Graphics
 KIB108 Animation Practices

Network Systems Major

Compulsory Units

ITB720 Internet Protocols and Services
 ITB721 Unix Network Administration
 ITB722 Network Planning and Deployment

Elective Units

Select three (3) units from the following list
 ITB710 Fundamentals of Computer Science
 ITB723 Wireless and Mobile Devices
 ITB745 Operating Systems
 ITS601 Networking and Routing Basics
 OR
 ITS701 Ccna 1 & 2: Internetworking and Routing Basics
 ITS602 Switching and WAN Technologies
 OR
 ITS702 Ccna 3 & 4: Switching and Wide Area Networking

Security Major

Compulsory Units

ITB720 Internet Protocols and Services
 ITB721 Unix Network Administration
 ITB730 Information Security Fundamentals
 ITB731 Security Technologies
 ITB732 Cryptology and Protocols
 ITB733 Network Security

Software Architecture Major

Compulsory Units

ITB229 Database Design
 ITB710 Fundamentals of Computer Science
 ITB711 Programming Abstraction
 ITB712 Software Engineering Studies
 ITB713 Advanced Java Programming
 ITB717 Enterprise Software Architecture

Web Services and Applications Major

Compulsory Units

ITB295 XML: Data and Document Processing
 ITB715 Web Services
 ITB229 Database Design
 ITB297 Web Site Design
 ITB717 Enterprise Software Architecture
 ITB716 Advanced Web Applications Development
 Note: ITB297 is replaced with ITB260 for semester 2, 2006

■ **Bachelor of Information Technology IT21**

Award title: Bachelor of Information Technology (Study Area A)

CRICOS code: 012656E

Campus: Gardens Point and Carseldine

Duration: 3 years (International students must study at Gardens Point) full-time or 6 years (not available at Carseldine) part-time

Credit points: 288

Course coordinator: Ruth Christie

Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Co-operative Education Program

The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Entry to the program is based on academic performance in the first two years of the Bachelor of Information Technology. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

Please note this program is only offered to Australian residents and permanent residents.

Course Outline

Block 1: Common First Year (8 Units)

Block 2: Major (12 Units)

Data Communications
Electronic Commerce
Information Systems
Software Engineering

Block 2: Major (14 Units)

Emerging Technologies
Data Communications and Information Systems
Data Communications and Software Engineering

Block 3: General Electives

4 Units for the following majors

Data Communications
Electronic Commerce
Information Systems
Software Engineering

2 Units for the following majors

Emerging Technologies
Data Communications and Information Systems
Data Communications and Software Engineering

Common First Year

ITB001 Problem Solving and Programming
ITB002 IT Professional Studies
ITB003 Object Oriented Programming
ITB004 Database Systems
ITB005 Systems Architecture
ITB006 Networks
ITB008 Modelling, Analysis and Design
IT Elective Unit

Data Communications Major

ITB710 Fundamentals of Computer Science
ITB711 Programming Abstraction
ITB720 Internet Protocols and Services
ITB721 Unix Network Administration
ITB722 Network Planning and Deployment
ITB723 Wireless and Mobile Devices
ITB730 Information Security Fundamentals
Five (5) Major Elective Units to be chosen from the IT Elective List

Electronic Commerce Major

BSB213 Governance Issues in E-Business
ITB007 Web Development
ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB229 Database Design
ITB260 E-Commerce Site Development
ITB720 Internet Protocols and Services
ITB730 Information Security Fundamentals
Four (4) Major Elective Units to be chosen from the IT Elective List

Emerging Technologies Major

ITB222 Systems Analysis and Design
OR

ITB712 Software Engineering Studies
ITB009 Core Project Initiation
ITB272 Information Technology Project Management
MGB218 Venture Skills
OR
MGB223 Creating New Enterprises
Ten (10) Major Elective Units to be chosen from the IT Elective List

Information Systems Major

ITB007 Web Development
ITB009 Core Project Initiation
ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB229 Database Design
ITB232 Database Management
Six (6) Major Elective Units to be chosen from the IT Elective List

Software Engineering Major

ITB009 Core Project Initiation
ITB710 Fundamentals of Computer Science
ITB711 Programming Abstraction
ITB712 Software Engineering Studies
ITB008 must be completed prior to completing ITB712
ITB720 Internet Protocols and Services
ITB744 Computer Architecture
ITB745 Operating Systems
Five (5) Major Elective Units to be chosen from the IT Elective List

Data Communications & Information Systems Major

ITB007 Web Development
ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB229 Database Design
ITB232 Database Management
ITB710 Fundamentals of Computer Science
ITB720 Internet Protocols and Services
ITB721 Unix Network Administration
ITB723 Wireless and Mobile Devices
ITB730 Information Security Fundamentals
Four (4) Major Elective Units to be chosen from the IT Elective List

Data Communications & Software Engineering Major

ITB009 Core Project Initiation
ITB710 Fundamentals of Computer Science
ITB711 Programming Abstraction
ITB712 Software Engineering Studies
ITB008 must be completed prior to completion of ITB712

■ **Bachelor of Information Technology IT22**

Award title: Bachelor of Information Technology (Study Area A)

CRICOS code: 012656E

Campus: Carseldine and Gardens Point

Duration: 3 years full-time or 6 years (not available at Carseldine) part-time

Credit points: 288

Course coordinator: Ruth Christie

Professional Recognition

Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Cooperative Education Program

The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Students' entry to the program is based on academic performance in the first two years of their undergraduate studies. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

Please note this program is only offered to Australian residents and permanent residents.

Course Structure

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year, while the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course Coordinator.

Recommended Core Unit Progression

Year 1, Semester 1

ITB001 Problem Solving and Programming
 ITB002 IT Professional Studies
 ITB004 Database Systems
 ITB005 Systems Architecture

Year 1, Semester 2

ITB003 Object Oriented Programming
 ITB006 Networks
 ITB007 Web Development
 ITB008 Modelling, Analysis and Design

Year 2, Semester 1

Block B or Block C Unit
 Block B or Block C Unit
 Block B or Block C Unit
 Block B or Block C Unit

Year 2, Semester 2

ITB009 Core Project Initiation
 Block B or Block C Unit
 Block B or Block C Unit
 Block B or Block C Unit

Year 3, Semester 1

ITB010 Core Project Implementation
 Block B or Block C Unit
 Block B or Block C Unit
 Block B or Block C Unit

Year 3, Semester 2

Block B or Block C Unit
 Block B or Block C Unit

Block B or Block C Unit
Block B or Block C Unit

Course Structure (Carseldine)

First year only is offered at Carseldine. Students complete remainder of course at Gardens Point

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year. While the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course Coordinator.

Year 1, Semester 1

ITB001 Problem Solving and Programming
ITB002 IT Professional Studies
ITB004 Database Systems
ITB005 Systems Architecture

Year 1, Semester 2

ITB003 Object Oriented Programming
ITB008 Modelling, Analysis and Design
ITB006 Networks

OR

Block C Unit
ITB007 Web Development
OR

Block C Unit
ITB006 and ITB007 are only offered at Gardens Point campus.

Business Systems Engineering Major

Compulsory Units

ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB298 Business Process Engineering
ITB292 Enterprise Architecture
ITB245 R/3 System Administration
ITB296 Information Systems Theory and Applications
Note: Replace ITB292 with ITB245; Replace ITB296 with any ITB2xx or ITB3xx unit.

Elective Units

Select one (1) unit from the following list
ITB218 Applications Programming

■ Bachelor of Laws LW33	378

OVERVIEW

The QUT Faculty of Law is Australia's largest tertiary educator in Law and Justice Studies. The Faculty is an acknowledged leader in its field and provides a sound balance of practical and theoretical training, which enables graduates to progress into the real world with ease. The Faculty consists of the School of Law, the School of Justice Studies and the Legal Practice Unit.

The Faculty is also the home of the first specially designed electronic moot court in the southern hemisphere.

The Faculty's teaching and learning programs develop legal research and analysis skills within contextual and conceptual frameworks. A global approach to education is adopted which includes international visiting scholars, exchange programs for staff and students, and offshore programs.

The Faculty is continually striving for excellence in learning and teaching in response to the demands of its graduates, their employers, professional bodies and the practising professions. The Bachelor of Laws keeps abreast of the changing and challenging demands of a modern and relevant legal education while the Bachelor of Justice provides students with more flexibility and a greater degree of specialisation. The Legal Practice Unit offers its Graduate Diploma in Legal Practice online to graduates who are working full-time in law firms or other workplaces. The online course provides students with an electronic learning environment in which they can work on realistic practical legal problems.

Other initiatives to enhance the quality of students' tertiary legal and justice education are online delivery of teaching and curricula designed to develop graduate capabilities, a field in which the Faculty is an acknowledged leader. The Faculty's online teaching sites provide electronic access to course materials and other Internet resources, together with greater opportunities for communication between academic staff and students.

A feature that sets QUT Faculty of Law apart is its focus on education 'for the real world' through liaison and collaboration with the legal profession and justice industries. Emphasis on real world experience, projects and case studies is an essential part of the education process.

The Faculty offers undergraduate study through the Bachelor of Laws and Bachelor of Justice courses. A range of double degree programs is also available, offering the Bachelor of Laws in conjunction with the Bachelor of Justice or with a bachelor degree in Applied Science, Arts, Business, Creative Industries, Journalism or Information Technology.

A three-year accelerated Bachelor of Laws program is available for students who already hold a bachelor degree in another discipline. These students may also have the opportunity to select their elective units from the Law School's postgraduate program and graduate concurrently with a Graduate Certificate in Law.

The Faculty offers a range of postgraduate study options, including graduate certificate and graduate diploma courses, masters degrees by coursework or research, and doctoral programs. Many of these courses provide students with the opportunity to build on relevant undergraduate study or professional experience, and develop their expertise in a specialist area.

The Faculty offers a Legal Practice Course (the Graduate Diploma in Legal practice) that prepares law graduates for

admission as legal practitioners. The course satisfies the practical training requirements of Queensland's legal practitioner admission rules. We offer the course twice a year in full-time, part-time (in-practice) and part-time (general) modes. Our part-time in-practice mode is specially designed for persons who are already working in private or government law offices. Our part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. The course premises are being refurbished in February 2006 to provide every person who completes the course on a full-time on-campus basis with a purpose-built work station and networked PC while they are working on campus. We are Queensland's longest established practical legal training course and we have successfully prepared over 1000 law graduates for admission as legal practitioners.

The Faculty of Law achieves consistently high graduate employment rates which support its position as one of Australia's leading law faculties. The Law School prepares students for careers in law firms, government and other industries. The School of Justice Studies produces graduates with qualifications for employment in policing, justice, defence, security and other social justice areas.

The Faculty has staff qualified to supervise research in many fields including, but not limited to:

- Commercial Leases
- Commercial/Business Law
- Competition
- Consumer Protection
- Contract Law
- Crime and Criminology
- Cyber Law / E-Commerce
- Environmental Law
- Health Law
- Human Rights
- Indigenous Issues
- Intelligence and Security
- Legal / Justice Education
- Media Law
- Natural Resources Law
- Negligence
- Policing
- Property Law
- Public Law
- Tax Law
- Technology and Law
- Trade Practices.

■ Doctor of Juridical Science LW50

Award title: Doctor of Juridical Science

CRICOS code: 012652J

Campus: Gardens Point and Kelvin Grove

Duration: 1 1/2 years (minimum) full-time or 3 years (minimum) part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Assistant Dean, Research

Award

The SJD will be awarded subject to the Faculty of Law Academic Board receiving:

- (i) a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor and the Assistant Dean, Research;
- (ii) a declaration signed by the candidate that he/she has not been a candidate for another tertiary award during the tenure of his/her SJD candidature;
- (iii) a declaration signed by the candidate stating original authorship of a thesis;
- (iv) a certificate signed by the Principal Supervisor, and Assistant Dean, Research stating that the candidate has satisfactorily completed the examination process, including completing any revisions or re-examination required by the external examiners; and
- (v) two final copies of the thesis in the prescribed format.

For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

- (i) holds or has completed the requirements for the degree of (a) Bachelor of Laws or (b) Bachelor of Justice with at least Second Class Honours Division A at the Queensland University of Technology or its equivalent from another institution; or
- (ii) holds or has completed the requirements for the degree of (a) Master of Laws by Coursework or (b) Master of Arts (Justice Studies) with a grade point average of at least 5.0 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean (Research) maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Arts (Justice Studies) respectively at the Queensland University of Technology; and, in the case of (i) or (ii) an applicant must also satisfy the following:
 - (iii) has a minimum of two years professional experience appropriate to the proposed course of study; and
 - (iv) that the applicant can demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean (Research) for example, by the publication of articles in refereed research journals; and
 - (v) can demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

1.2 Alternative Entry

In exceptional circumstances, applicants with lesser academic qualifications but with exemplary professional experience may be given provisional enrolment on the approval of the Assistant Dean, Research. Applicants seeking entry under this rule would normally have completed a

three-year bachelor level degree from the Queensland University of Technology or another recognised institution. In addition, in order to assess the adequacy of the professional experience of the applicant, they will be required to address the following criteria as it relates to the proposed area of research:

- (i) evidence of professional leadership
- (ii) quality of academic achievement
- (iii) evidence of professional involvement in research and/or consultancy
- (iv) referees reports

Overview

As an experienced legal professional, you will follow a program of advanced coursework study and applied research that relates directly to your professional and educational needs.

Course Structure

The value of the course is set at 288 credit points, comprising 96 credit points of postgraduate coursework units and a dissertation of 50,000-60,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as part of the coursework component.

2. Application Procedure

2.1 An application for admission shall be made on the prescribed form (PR/FR Form) which shall involve a two-stage process.

2.2 Stage 1 of the application process must include:

- the completion of the PR Form for admission (if the applicant holds citizenship or permanent residency in Australia or New Zealand);
- the completion of the FR Form for admission (if the applicant is an international candidate);
- a certified copy of the results of the degree relied upon for admission;
- personal data;
- details of relevant research experience. (In the case of a candidate relying upon a Master of Laws by Coursework for admission, this criterion may be satisfied if the student demonstrates that they have completed the unit Advanced Legal Research at a grade of 5 or above at the Queensland University of Technology or some equivalent unit from a comparable institution during the course of their masters studies or can demonstrate other relevant research experience, eg by publication. In the case of a candidate relying upon a Master of Arts (Justice Studies) for admission, the candidate shall demonstrate that she or he has undertaken either a unit in that course or as part of the requirements for the completion of a Bachelor of Justice Studies (Honours) a unit in the area of research methodology at a grade of 5 or above or some equivalent unit from a comparable institution during the course of Masters studies or can demonstrate relevant research experience, eg by publication). Where an applicant cannot satisfy this criteria by way of completion of an advanced research unit or publications as set out above, the applicant will be required to undertake the unit Advanced Legal Research or Advanced Information Retrieval Skills or an equivalent unit from a comparable institution during their candidature; and

- a brief outline (200-300 words) of the project to be undertaken;
- the proposed coursework program to be undertaken;
- details of any relevant professional experience (applicants entering under alternative entry provisions must address the criteria in 1.2 above); and
- any other information the candidate considers relevant in support of the application.

2.3 Where a candidate's qualification for admission is other than a Bachelor or Master of Laws from the Queensland University of Technology, or an equivalent degree, the candidate must undertake research in a field of criminology or other area of Justice Studies approved by the Assistant Dean (Research).

2.4 The application is to be approved by the Faculty Research Committee which will determine whether the applicant meets the criteria for admission or, if deficiencies exist, identify them and how they might be remedied.

2.5 Candidature shall be deemed to have commenced on the date of admission being the date of the approval of the application by the Faculty Research Committee except in the case of international students. International students shall be deemed to have commenced candidature on the date of enrolment.

2.6 Within two months of commencement of the thesis component for full-time students (up to four months for part-time and international candidates) and after consultation with appointed supervisors, the candidate must complete and submit the Stage 2 application form (SJD2) setting out:

- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;
- the research methods and plan;
- the relationship of the study to previous work in the same field by the candidate and others;
- the coursework to be completed;
- a preliminary literature review;
- a substantial bibliography;
- a timeline for the completion of the research;
- a research ethics review checklist;
- the names of proposed supervisors, their qualifications and experience with relevant publications; and
- an Intellectual Property Agreement (if required).

2.7 The second stage application must be submitted to the Assistant Dean, Research for approval by the Faculty Research Committee.

2.8 If the Stage 2 application is not submitted within the time specified, the Assistant Dean, Research may, on the advice of the Faculty Research Committee and the Principal Supervisor, terminate the candidature. In exceptional cases, upon a written request stating reasons for delay, an extension of up to a further one month for full-time candidates or two months for part-time candidates may be granted to meet the requirements of Stage 2.

2.9 The Faculty Research Committee shall, as part of the approval of the Stage 2 process, confirm:

- the proposed topic of research is consistent with the aims of the School; and
- the Head of School is willing and able to provide appropriate accommodation, facilities and financial resources necessary for the proposed study for the duration of candidature.

2.10 Upon approval by the Faculty Research Committee of the Stage 2 Application the applicant will be admitted to candidature unconditionally (except for those being admitted under alternative entry provisions) and the appointment of the supervisors shall be confirmed. Those candidates admitted under alternative provisions will continue on provisional enrolment until such time as the requirements of this enrolment have been fulfilled (refer to 4).

3. Studies during the Candidature

A candidate for the degree of SJD is required to successfully complete a planned research program that should result in a notable contribution to professional knowledge and practice in the field of study. This contribution may be in the form of new knowledge in practice, or of significant and original adaptation, application and interpretation of existing knowledge and practice.

3.1 The degree comprises both a coursework (33%) and a thesis component (66%). Candidates will pursue an approved course of advanced study and research, comprising 96 credit points of coursework selected from within the unit offerings for the LLM by Coursework or the MA(Justice Studies) by Coursework (as appropriate) at the Queensland University of Technology or an equivalent institution at a grade point average of at least 5. The candidate will also pursue a thesis in accordance with Rule 9. One of the units studied for the coursework requirements must be Advanced Legal Research, or Advanced Information Retrieval Skills, or an equivalent unit from a comparable institution, together with any other unit or units deemed necessary by the Law Faculty Research Committee. For the purposes of this rule, completion of a unit in the area of research methodology as part of the MA(Justice Studies) or Bachelor of Justice (Honours) at a grade point average of 5 will be deemed equivalent to completion of Advanced Legal Research.

3.2 Candidates must successfully complete all coursework requirements at the appropriate standard prior to commencing the thesis. As far as possible, the topic of the thesis should extend the coursework component. Whilst enrolled in the coursework component of the degree all policies and procedures relevant to the Master of Laws by Coursework or the Master of Arts (Justice Studies), as the case may be, form part of these rules.

3.3 The planned research program will normally include

- participation in university scholarly activity such as research seminars, teaching and publication;
- regular interaction with supervisors; and
- a program of supervised research and investigation.

3.4 The course of study must be such to enable a candidate to acquire competence in relevant methods of research and scholarship relating to the subject of the proposed investigation and to demonstrate sustained independent research effort.

3.5 The Faculty of Law Research Committee may on the recommendation of the Assistant Dean (Research) approve a variation in the candidate's course of study and research, an application for variation must be supported in writing by the Principal Supervisor.

4. Provisional Enrolment

Applicants with lesser academic qualifications but with exemplary professional experience may be given provisional enrolment on the approval of the Assistant Dean, Research (refer to rule 1.2).

4.1 A candidate so admitted shall be required to complete designated qualifying units at a grade point average of at

least 5 on a 7 point scale. The designated qualifying units will include the unit LWN048 or equivalent as stipulated by the Assistant Dean, Research on the advice of the Faculty Research Committee.

4.2 A candidate who completes coursework units at a satisfactory level during the period of provisional enrolment will be permitted to count that coursework towards the degree.

4.3 Unless exceptional circumstances justify extension of provisional status, the stipulated enrolment program must be completed within one calendar year from enrolment in the course.

4.4 If an extension to the provisional enrolment period is required application should be made in writing to the Assistant Dean, Research setting out the exceptional circumstances. In any event, the period of extension of provisional enrolment shall be no more than six months.

5. Advanced Standing and Articulation

5.1 Advanced standing up to a maximum of 96 credit points may be granted to candidates who have completed the Master of Laws by Coursework or Master of Arts (Justice Studies) at the Queensland University of Technology, or its equivalent at another institution, at a grade point average of at least 5 on a 7 point scale.

5.2 Where a candidate has undertaken part of a post-graduate degree deemed to be equivalent to the Master of Laws by Coursework or Master of Arts (Justice Studies), that candidate may be granted advanced standing provided that the work for which a candidate seeks credit has been completed at a grade point average of at least 5 on a 7 point scale.

5.3 The Doctor of Juridical Science will fully articulate with the Master of Laws (Research) and Master of Arts (Justice Studies) by Research.

5.4 In exceptional circumstances, a student exiting prior to completion of the program may be eligible to receive the award of Master of Laws by Coursework or Master of Arts (Justice Studies) if this has not previously been awarded. In such cases, as these courses normally attract up-front tuition fees, students exiting in this way will be liable for any fees which would otherwise have been payable. Payment of any such fees is required to be made before conferral of the degree.

6. Period of Time for Completion of Program

6.1 The minimum period of candidature is:

- Full-time candidates _ eighteen months from date of commencement;
- Part-time candidates _ thirty-six months from date of commencement;

In exceptional cases the Law Faculty Research Committee may approve submission of the thesis within a shorter period.

6.2 The maximum period of candidature is:

- Full-time candidates _ forty-eight months from date of commencement;
- Part-time candidates _ ninety-six months from date of commencement;

6.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form to the Faculty Research Committee through the office of the Assistant Dean, Research. International students studying on student visas are unable to alter their

mode of study from full-time to part-time unless they are in their final semester of study.

6.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form (SJD3) through the Assistant Dean, Research for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous supervisor's reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor are not usually considered exceptional.

7. Candidate May Take Leave of Absence for a Specified Period from the Program

7.1 Application must be made on the prescribed form (SJD4) through the Assistant Dean, Research and approved by the Faculty Research Committee. The application must include reasons for the leave of absence, the written endorsement of the Principal Supervisor and the exact start and finish dates of the period of leave. If the leave is approved, the duration of the specified time will be added to the maximum and minimum submission dates of the candidature. International students studying on student visas are not normally permitted to take leave of absence unless there are exceptional circumstances, eg bereavement. International students should consult the Assistant Dean, Research and Office of International Students if a period of leave is required.

7.2 The maximum period of leave of absence for which a candidate may be given approval (for any reasons) is twelve months for a full-time candidate and twenty-four months for a part-time candidate

8. Supervision

8.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 66).

8.2 A Principal Supervisor from QUT and one Associate Supervisor shall be appointed.

8.3 The Principal Supervisor has responsibility for supervising a candidate on a frequent basis and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates, and shall have an established research record in the area of the proposed project.

8.4 The Associate Supervisor may be a member of the QUT staff but must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

8.5 Where the Principal Supervisor is absent from QUT for a period of three consecutive months or longer during the period of candidature, the Associate Supervisor (if that person is a QUT staff member) will normally become the Acting Principal Supervisor for this period.

8.6 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of Acting Principal Supervisor immediately until a new Principal Supervisor is appointed by the Faculty Research Committee.

tee in consultation with the candidate. A formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

9. Confirmation of Candidature

9.1 Within six months of commencement of the thesis component for full-time candidates and twelve months for part-time candidates, the candidate shall present (in consultation with his/her supervisors) a plan of the research program for the remainder of the candidature and report of the work done to that tie. The confirmation report form (SJD5) shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to date. The plan shall include details of:

- The area of study in which the candidate's course is located;
- The nature of participation in scholarly activities in the Centre in which the degree is being undertaken;
- The objectives of the program of research and its relationship to published research in the same field;
- Research methods followed and to be followed;
- The title of the thesis; and
- A timeline for completion of the research program.

9.2 The candidate shall present the confirmation report and details of the research program at a Confirmation Seminar open to the public.

9.3 A candidate who is not able to complete a Confirmation of Candidature within the timeframe required must apply for an extension at least one month in advance of that deadline through the Assistant Dean, Research to the Faculty Research Committee. A maximum of three months extension may be granted.

9.4 A Review Panel shall review the candidate's progress and planned research program and shall make recommendations on Form SJD5 to the Faculty Research Committee. These recommendations shall include:

- An appraisal of the candidate's progress and suitability for continuation of the program;
- Documents prepared by the candidate;
- A statement that the research program is of a standard required for an SJD;
- A statement of whether the studies continue to be within the aims and objectives and physical and human resources of the Centre; and
- A report on the candidate's seminar.

9.5 The Faculty Research Committee will, if satisfied:

- Confirm the candidature and notify the candidate; or
- May require changes to the planned research program; or
- If the recommendation is not to confirm the candidature immediately, place the candidate under review for three months. At the end of the review period the Assistant Dean, Research must advise the Faculty Research Committee whether the conditions of review have been met.

9.6 Where a candidate is placed under review following the Confirmation Seminar, the Principal Supervisor must advise the candidate in writing within seven days of the conditions to be met, in the form of clear written guidelines of the work required and due dates for submission and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, the supervisor (supervisors), Director of the Centre and Assistant Dean, Research.

9.7 Where a candidate's progress remains unsatisfactory after the review period, the Faculty Research Committee, on advice from the Assistant Dean, Research shall either grant a further extension of the period of up to three months or may ask the candidate to show cause in writing why action should not be taken to terminate the candidature.

10. Reporting Procedures

10.1 The Principal Supervisor and candidate are required to report annually by 30 September on the prescribed form on the candidate's progress and future plans. Reports shall be signed both by the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee. at its discretion, the Faculty Research Committee may request an additional six monthly report if it has concerns for the candidate's progress or feels that the candidate would benefit from such process.

10.2 Where a candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve the continuation of the candidature.

10.3 Where the progress is deemed unsatisfactory, in the Confirmation of Candidature, six monthly report or other interim faculty report, the Research Degrees Committee, on advice from the Faculty Research Committee will normally place a candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The candidate will be advised of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty Research Committee.

10.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

10.5 If progress is still unsatisfactory after the review period, the Research Degrees Committee, on the advice of the Faculty Research Committee shall ask the candidate to show cause in writing why the enrolment shall not be terminated.

10.6 When a candidate's progress has been reported as unsatisfactory in any two consecutive reports during candidature, the Research Degrees Committee shall ask the candidate to show cause in writing why the enrolment of the candidate shall not be terminated.

10.7 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

10.8 If the candidate does not show cause why the enrolment shall not be terminated, the Research Degrees Committee may terminate the candidate's enrolment

11. Thesis Guidelines

11.1 The thesis must be presented in accordance with the requirements of the University, including any accompanying declarations and in accordance with Appendix 51 of the Manual of Policies and Procedures _ Requirements for

Presenting Theses (MOPP 51). The main body of the text should be between 50,000 and 60,000 words.

11.2 The thesis must be presented in the English language.

11.3 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD-ROMS, software programs etc) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

11.4 An SJD degree may not be awarded on the basis of the submission of published papers.

11.5 A candidate's name will not be placed on the graduation list until the final copies of the thesis (one bound and one electronic) are received in the Research Students' Centre, Office of Research. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

11.6 When these final copies of the thesis have been lodged with the Research Students' Centre, Office of Research, the names of examiners will be released to the candidate upon request, providing that the examiner has not indicated otherwise.

12. Examination of Thesis

12.1 At least three months prior to the maximum candidature date or anticipated completion date, the Principal Supervisor having obtained the agreement of the Faculty Committee, shall recommend to the Faculty Research Committee the composition of the proposed Examination Committee and the title of the candidate's thesis.

12.2 The Examination Committee shall comprise two external examiners who will examine the thesis plus an external examiner to be called upon only if the first two examiners are in disagreement.

12.3 In exceptional circumstances, the University Research Degrees Committee may act directly to facilitate the examination process of a thesis including the appointment of examiners.

12.4 A candidate's Principal or Associate Supervisor may not be nominated by the Faculty as an examiner.

12.5 Examiners must have demonstrable and substantial publications and research experience in the area under investigation and one examiner would normally have a research degree. At least one of the nominated examiners should be an academic from a recognised university or equivalent research institution. At least one examiner would normally be a specialist practitioner recognised as an expert in the particular field of the research constituting the thesis. Preferably, at least one examiner should also have substantial experience of examining research degree candidates at doctoral level.

12.6 Agreement will be sought from examiners to examine the thesis within eight weeks of receipt.

12.7 If more than six months has elapsed between the nomination of examiners and the submission of the thesis, the faculty must notify the Research Degrees Committee that the nominated examiners are still willing and able to examine the thesis within two months of its receipt. If any

previously nominated examiner is unable to examine the thesis, a replacement examiner must be nominated by the Principal Supervisor (with the agreement of the Faculty) for approval by the Research Degrees Committee.

12.8 In order to determine whether the thesis is acceptable for examination by the Examination Committee, the candidate shall be required to present a Final Seminar based on the work described in the thesis to the Faculty to which he/she is attached.

- The final seminar shall normally take place no more than six months prior to the anticipated submission date.
- The Faculty shall constitute a panel of three including the Principal Supervisor to attend the seminar and to report on the readiness of the thesis for external examination. The panel shall be chaired by the Principal Supervisor, and shall question the candidate on the content of the thesis at the conclusion of the seminar. Each member of the panel must receive a copy of the draft thesis 14 days prior to the final seminar.
- The panel may require changes to the thesis or ask that further work be done prior to submission of the thesis. The thesis is accepted by the University for external examination only when the panel signifies its belief that the degree requirements have been met. The Faculty panel shall use the prescribed form when advising Research Degrees Committee that the thesis is ready for external examination.
- The final seminar shall be open to the public and shall be widely advertised by the Faculty so as to ensure attendance by researchers and research students within the Faculty.
- In all other matters the form and timing of the final seminar is determined by the Faculty.

12.9 The thesis must be accompanied by a certificate form (SJD7) endorsed by the Principal Supervisor, Assistant Dean, Research and the Faculty panel, stating that all reasonable efforts have been made by the Faculty to ensure that:

- The thesis makes notable contribution to professional knowledge and practice;
- The methodology applied in the candidate's research is effective and appropriate for the thesis topic;
- The thesis reflects competence in the survey of literature and documentation of statements;
- The thesis is of the required standard for external examination;
- The thesis is within the prescribed word limit;
- The candidate has presented a Final Seminar;
- That acknowledgment is given regarding the inclusion of all published and other sources of information together with any substantial financial assistance received for the project.

12.10 In exceptional circumstances the Research Degrees Committee may allow a candidate to submit his or her thesis for external examination without the requirement for certification. The candidate must apply in writing to the Research Degrees Committee for such permission, outlining reasons why the certification is not included.

12.11 Three copies of the thesis in the prescribed format must be submitted to the Research Students' Centre, Office of Research, no later than the maximum candidature date.

12.12 The Office of Research, on the advice of the Research Degrees Committee, shall provide the examiners with a copy of the thesis and of the Regulations for the

Award of the Degree of the Doctor of Juridical Science and any other relevant information.

12.13 Each examiner will be asked to provide a written report to the Office of Research on the candidate's thesis and to recommend on the following courses of action:

Recommendation 1: The candidate should be awarded the degree without the requirement for revision, further examination or modification (minor corrections and typographical errors only); or

Recommendation 2: The candidate should be awarded the degree subject to minor nominated revisions being completed to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or

Recommendation 3: The candidate should be awarded the degree following the completion of major nominated revisions to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or

Recommendation 4: The candidate should be permitted to substantially revise and submit the thesis for re-examination within twelve months after a specified amount of further work, which may alter the substantive conclusions of the thesis, has been completed under approved supervision and the thesis appropriately amended to reflect the additional research; or

Recommendation 5: The thesis should be rejected, the degree should not be awarded and the candidate should not be permitted to submit the thesis for re-examination for the degree.

12.14 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

13. Examiners in Agreement

13.1 Where both examiners recommend that the candidate should be awarded the degree (recommendation 1, 2 or 3), the Assistant Dean, Research will consult with the Principal Supervisor and Centre Director to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

13.2 Where corrections or revisions are to be made to the satisfaction of the Assistant Dean, Research or nominee, the Head of School or nominee must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the SJD degree.

13.3 Where both examiners recommend that the thesis be revised and resubmitted for examination (Examiners Report Recommendation 4), after consultation with the Principal Supervisor and the Centre Director, the Assistant Dean, Research will make written recommendation to the Research Degrees Committee within seven days of the receipt of the Examiners Reports listing any revisions required. Once these are approved by the Research Degrees Committee, the Research Degrees Committee will inform the candidate of the revisions and/or any action required.

14. Examiners Not in Agreement

14.1 Where the recommendations of the external examiners are not in agreement as to whether the thesis should be accepted for the award of SJD or as to whether the thesis

may be revised and resubmitted, the thesis will be sent to the third nominated examiner.

14.2 Upon receipt of the third examiner's report, a majority decision shall be adopted.

14.3 Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decisions of the examiners as the case may be.

14.4 Where the majority decision is that the candidate be required to submit for re-examination or the thesis fail, the procedures in Section 11.3 shall apply.

14.5 Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

15. Re-Examination

15.1 A candidate who is required to submit for re-examination may be re-examined only once except in the case of an upheld appeal.

15.2 Re-examination shall take place within twelve months from the date on which the candidate is advised in writing by the Assistant Dean, Research or nominee of such re-examination. The Research Degrees Committee may, on written application by the candidate and supported by the Principal Supervisor and Centre Director with suitable justification, approve an extension to this period which, under normal circumstances, may be a maximum of a further twelve months.

15.3 A candidate who is required to submit his/her thesis for re-examination must re-enrol in the SJD program.

15.4 The thesis shall be re-examined by the same two examiners unless:

- Any of the examiners is unable to re-examine the thesis in which case the Assistant Dean, Research or nominee with the agreement of the Principal Supervisor and the Faculty shall nominate a replacement examiner(s) who must be approved by the Research Degrees Committee; or
- The Research Degrees Committee replaces one or more of the examiners on advice from the RDC Chair and with suitable justification.

15.5 Examiners re-examining a thesis will be asked to provide a written report on the candidate's thesis and to recommend one of the following courses of action:

- (a) the candidate should be awarded the degree with or without minor nominated revisions; or
- (b) the candidate should be awarded the degree a masters level with or without minor nominated revisions; or
- (c) the thesis should be rejected and the degree should not be awarded.

15.6 Regulations applicable to SJD examination shall apply to the re-examination.

16. Appeals

16.1 A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process.

16.2 The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

16.3 An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the

outcome of the examination. This appeal must include the specific grounds on which the appeal is based.

16.4 Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal.

16.5 In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision, to consider the appeal.

16.6 The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty, school or centre/research concentration as appropriate.

16.7 The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that that thesis be re-examined. This re-examination shall be carried out in accordance with the Section 6.143 taking account of the issues raised in the successful appeal.

16.8 The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

Course Structure

Full-time Course Structure

Year 1, Semesters 1 & 2

Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 48 credit points per semester

■ Master of Justice (Research) JS52

Award title: Master of Justice (Research)

CRICOS code: 020310J

Campus: Kelvin Grove

Duration: 1 year full-time or 2 years part-time

Credit points: 96

Course coordinator: Professor Rod Broadhurst

1. Award

1.1 The following rules apply to the degree of Master Justice to be obtained by research and thesis awarded by the Queensland University of Technology, and are made with the authority of the Academic Board of this University.

1.2 For the purposes of these Rules the Course Coordinator acts as the delegate of the Dean, Faculty of Law, and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

2. Entry Requirements

The following persons shall be eligible to apply for admission as a student for the degree:

2.1 A person who has completed the requirements for the degree of Bachelor of Justice (Honours) of QUT, or

2.2 A person who has completed the requirements for the Graduate Certificate from the School of Justice Studies of QUT, or

2.3 A qualification that is deemed equivalent and possesses appropriate research skills or substantial professional experience in the proposed field of research as deemed appropriate by the Course Coordinator, or

2.4 Professional publications, etc that the Course Coordinator and the Faculty Research Committee accept as proof of a student's advanced knowledge and research ability in the proposed field of research.

3. Admissions and Enrolment

3.1 An application for admission shall be made on the prescribed form:

- (i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
- (ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Course Coordinator on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

4. Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office

of Research for consideration by the Research Degrees Committee.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidature under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

5. Thesis Requirements

5.1 Students undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis submitted for the degree shall be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminal justice (eg criminology, law enforcement, strategic intelligence). It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Course Coordinator within two months of admission to candidature. The research outline should include the following:

- The proposed title of the thesis;
- The objectives of the program of research and investigation;
- An outline of the proposed research;
- The Research methods and plan;
- The relation of the study to previous work in the same field by the candidate and others;
- A preliminary literature review;
- A substantial bibliography;
- A timeline for the completion of the research
- A copy of the Research Ethics Review Checklist
- The proposed supervisor(s) and their credentials
- An intellectual property agreement if required
- Memo of Understanding for any external supervisor.

5.3 The Law Faculty Research Committee may, upon the recommendation of the Course Coordinator vary the title of the thesis topic.

5.4 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Course Coordinator.

5.5 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Course Coordinator not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.6 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.7 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis: (i) be accepted (ii) not be accepted, or (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Course Coordinator, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Course Coordinator will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the MJust (Research) degree.

Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for the award of MJust (Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Course Coordinator or

nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The University Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the University Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The University Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the University Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The University Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

6. Credit for Research Work Done Elsewhere

6.1 The Course Coordinator may grant credit toward the Master of Justice degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Course Coordinator:

- (i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
- (ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

7. Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Course Coordinator:

- (i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;

(ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eight semester of the candidature. International students studying on student visas must be enrolled on a full-time basis.

7.2 The Course Coordinator may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules. Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Course Coordinator and the Office of International Students if an extension of time is required.

8. Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Justice (Research) by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee.

■ Master of Justice by Coursework JS51

Award title: Master of Justice (Study Area A)

Campus: External and Kelvin Grove

Duration: 1 year full-time or 2 years part-time or 2 years external

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Professor Rod Broadhurst

Course Requirements

The basic course structure appears in the table. Students must complete eight units of equal weighting totalling 96 credit points. The eight units can comprise:

- (a) four units from one major study area
AND
- (b) four units chosen from across the Masters program including either Theories of Justice or Intelligence, Justice and Accountability (for Strategic Intelligence students)
OR
- (c) eight units chosen from across the Masters program including either Theories of Justice or Intelligence, Justice and Accountability.
OR
- (d) six units chosen from across the Graduate Certificate and Masters program including either Theories of Justice or Intelligence, Justice and Accountability and no more than four units taken from the Graduate Certificate program and the two Independent Studies units collapsed into one Research Project of 24 CP.

Course Structure

Year 1, Semester 1 (Full time)

JSN001 Theories of Justice
OR
JSN016 Intelligence, Justice and Accountability

Plus Select one elective unit from Sem 1 elective list below and 2 further units from electives or two from major study area (listed further below)

Year 1, Semester 2 (Full time)

Choose 2 units from Sem 2 elective list below and 2 further units from elective list or two from major study area (listed further below)

Electives Semester 1

JSN006 Independent Study 1
 JSN018 Advanced Crime Research Methods
 JSN161 Fundamentals of Intelligence
 JSN162 Managing Intelligence
 JSN131 Juvenile Justice
 JSN141 Organised Crime and Corruption
 JSN142 Forensic Investigation Methods and Strategies

Electives Semester 2

JSN007 Independent Study 2
 JSN017 Intelligence and Decision Making
 JSN019 Contemporary Issues in Sentencing Law
 JSN023 Justice, Law and Democracy
 JSN134 Crime Control and Governance
 JSN143 Proceeds of Crime and Money Laundering
 JSN144 Evidence in Organised Crime Investigations
 JSN154 Human Rights and Global Justice
 JSN163 Intelligence Research Issues & Methodology
 JSN164 Intelligence and National Security

Electives Summer Program

JSN014 Law, Justice and New Genetic Technologies

Year 1 Semester 1 Part-time/External

JSN001 Theories of Justice

OR

JSN016 Intelligence, Justice and Accountability

Plus Select one elective

Year 1 Semester 2 Part-time/External

Select 2 electives

Year 2 Semester 1 Part-time/External

Select 2 units from elects or major study area

Year 2 Semester 2 Part-time/External

Select 2 units from elects or major study area

NB: Students may take underload of one unit only per semester

Major Study Areas

Strategic Intelligence

JSN161 Fundamentals of Intelligence
 JSN162 Managing Intelligence
 JSN163 Intelligence Research Issues & Methodology
 JSN164 Intelligence and National Security

Organised Crime and Corruption Investigation

JSN141 Organised Crime and Corruption
 JSN142 Forensic Investigation Methods and Strategies
 JSN143 Proceeds of Crime and Money Laundering
 JSN144 Evidence in Organised Crime Investigations

■ Master of Laws (Research) LW52

Award title: Master of Laws (Research and Thesis)

CRICOS code: 012654G

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Assistant Dean (Research)

1. Award

1.1 The following rules apply to the degree of Master of Laws to be obtained by research awarded by the Queensland University of Technology, and are made with the authority of the Academic Board of this University.

1.2 For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and the Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

2. Entry Requirements

The following persons shall be eligible to apply for admission as a student for the degree:

2.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

2.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

2.2 Candidates falling within sub-clauses 2.1.1 and 2.1.2 must also satisfy the following to be eligible for admission:

2.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

2.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

2.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

2.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

3. Admission and Enrolment

3.1 An application for admission shall be made on the prescribed form:

- (i) The Postgraduate Research application form (PR Form) (if the applicant holds citizenship or permanent residency in Australia or New Zealand); or
- (ii) The Foreign Research application form (FR Form) (if the applicant is an international candidate).

3.2 Admission of a person as a candidate for the degree shall be at the discretion of the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee.

3.3 A person applying for admission as a candidate for the degree shall apply in accordance with the requirements of the Registrar and shall pay all prescribed fees.

3.4 A person admitted as a candidate may enrol as either a full-time student or a part-time student. International students studying in Australia on student visas may only enrol in full-time programs.

4. Progress Reports

4.1 The Principal Supervisor and candidate are required to report on a six monthly basis (by 30 April and 30 September) on the prescribed form on the candidate's progress and research plans. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee.

4.2 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

4.3 Where progress is deemed unsatisfactory, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty.

4.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

4.5 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the Faculty Research Committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.6 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

4.7 Upon failure of the candidate to show cause the candidate's enrolment will be terminated.

5. Thesis Requirements

5.1 The thesis submitted for the degree shall be not less than 50,000 words and not more than 60,000 words in length and shall constitute a substantial contribution to knowledge and understanding in the area of the law and subject of the research. It shall include a title page, table of contents and bibliography, and shall otherwise comply with the University's requirements for presenting theses.

5.2 The candidate shall submit a detailed research outline to the Assistant Dean, Research within two months of admission to candidature. The research outline should address the following:

- The proposed title of the thesis;
- The objectives of the program of research and investigation;
- An outline of the proposed research;
- The Research methods and plan;

- The relation of the study to previous work in the same field by the candidate and others;
- A preliminary literature review;
- A substantial bibliography;
- A timeline for the completion of the research
- A copy of the Research Ethics Review Checklist
- The proposed supervisor(s) and their credentials
- An intellectual property agreement if required
- Memo of Understanding for any external supervisor.

5.2 The Law Faculty Research Committee may, upon the recommendation of the Assistant Dean, Research vary the title of the thesis topic.

5.3 A candidate enrolled for the degree shall, at least once per semester during the period of candidature, consult with the Principal Supervisor and, where appropriate, any Associate Supervisor appointed by the Law Faculty Research Committee on the advice of the Assistant Dean, Research.

5.4 A candidate shall submit three copies of the thesis in the form prescribed by the University for the submission of theses to the Assistant Dean, Research not later than the end of November or May, as the case may be, in the year in which the candidate is required to complete the degree. On submission of the thesis, the candidate shall furnish a written statement to the effect that the thesis is that candidate's work alone, except where due acknowledgment is made in the text, and does not include material which has been previously submitted or accepted for a degree or diploma.

5.5 The Principal Supervisor shall recommend to the Faculty Research Committee the names of two examiners for the thesis, at least one of whom must be external to the University and neither of whom are the candidate's supervisor.

5.6 The Law Faculty Research Committee, through the Office of Research, shall refer the thesis to two examiners. Each examiner shall report, normally within two months of receipt of the thesis, whether in the examiner's opinion, the thesis is of the standard required for the award of the degree. Each examiner shall also recommend that the thesis: (i) be accepted (ii) not be accepted, or (iii) be accepted subject to amendments to be made to the satisfaction of the Principal Supervisor.

5.8 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

Examiners in Agreement

Where both examiners recommend that the thesis be accepted (recommendations (i) or (iii)), the Assistant Dean, Research will consult with the Principal Supervisor to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

Where corrections or revisions are to be made to the satisfaction of the Principal Supervisor, the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the LLM (Research) degree.

Examiners not in Agreement

Where the recommendations of the examiners are not in agreement as to whether the thesis should be accepted for

the award of LLM(Research) or as to whether the thesis may be revised, the Law Faculty Research Committee will refer the thesis to a third examiner.

Upon receipt of the third examiner's report, a majority decision shall be adopted. Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decision of the examiners as the case may be. Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

Appeals

A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process. The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based. Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal. In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision to consider the appeal.

The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty or school as appropriate. The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that the thesis be re-examined.

The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

5.9 Following final acceptance of the thesis, one bound copy and one electronic copy of the thesis must be submitted to the Office of Research for inclusion in the QUT Faculty of Law Library. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

6. Credit for Research Work Done Elsewhere

6.1 The Assistant Dean, Research may grant credit toward the Master of Laws degree by Research for work done at another institution of similar standing. Such credit shall not be granted unless the candidate provides to the Assistant Dean, Research:

- (i) evidence that the candidate has cancelled or terminated enrolment at the other institution, and
- (ii) a written undertaking that the candidate will not seek credit in any form or manner for work done at the other institution or any other institutions except to complete the degree at QUT.

7. Time for Completion Requirements

7.1 Except in special circumstances and with the approval of the Assistant Dean, Research:

- (i) a full-time candidate shall complete all the requirements for the degree not earlier than the end of the second semester and not later than the end of the sixth semester of candidature;
- (ii) a part-time candidate shall complete all the requirements for the degree not earlier than the end of the fourth semester and not later than the end of the eight semester of the candidature. International students studying on student visas must be enrolled on a full-time basis.

7.2 The Assistant Dean, Research may, upon the application of the candidate, extend any time limited by the rules by such further period as may be consistent with general University rules. Extensions of time for international students will only be made in exceptional circumstances. International students should consult the Assistant Dean, Research and the Office of International Students if an extension of time is required.

8. Award of Degree

8.1 A candidate who has fulfilled the requirements of these rules and who has otherwise complied with the provisions of all statutes and other rules applicable may be admitted to the degree of Master of Laws by the University Academic Board on the recommendation of the Law Academic Board and the University Research Degrees Committee

■ Master of Laws LW51

Award title: Master of Laws (Study Area A)

CRICOS code: 006380A

Campus: Gardens Point

Duration: 1 year full-time or 2 years part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Director, Graduate Programs

Articulation

This course articulates with the Doctor of Juridical Science (SJD).

Course Structure

Students must undertake a total of 96 credit points (8 units). This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose units to the value of 96 credit points from that particular major*;
- or
2. Students can complete a "generic" major by choosing any postgraduate law unit to the value of 96 credit points.

The units from which 96 credit points shall be chosen are subject to availability.

Advanced Standing

Graduates of QUT's Graduate Diploma in Legal Practice (LP41), who graduated from the first course in 2000 or from subsequent courses, may be deemed to have passed the equivalent of 48 credit points of units in LW51 and may be granted unspecified credit for such units.

Graduates from QUT's Graduate Diploma in Legal Practice prior to 2000 or from another Australian university, the Leo Cussens Institute or the College of Law are eligible for up to 24 credit points of unspecified credit.

Course Structure

Students must undertake a total of 96 credit points (8 units). This can be achieved in 1 of 2 ways:

Option 1 Students may nominate a major from the lists below and choose all 8 units from within that particular major; OR

Option 2 Students can complete a "generic" major by choosing 8 units from any of the lists below to the value of 96 cps

Note: International students may normally only be able to undertake a "generic" major

List of Majors available:

Commercial Law

■ Graduate Certificate in Critical Criminology JS26

Award title: Graduate Certificate in Critical Criminology

CRICOS code: Not required

Campus: Kelvin Grove and External

Duration: 1 year multimodal or external part-time or 1 year external

Credit points: 48

Course coordinator: Professor Rod Broadhurst

Course Requirements

The Graduate Certificate in Critical Criminology consists of four units of twelve credit points each. The four units focus on foundations in criminology, juvenile justice, crime prevention and crime control.

Articulation to Master of Justice

A student who has successfully completed the Graduate Certificate in Critical Criminology with a GPA of 5.0 or better, may articulate to the Master of Justice (Critical Criminology) and receive credit for their specialist area study of 48 credit points.

Part time/External Course Structure

Semester 1

JSP131 Juvenile Justice

JSP132 Foundations in Criminology

Semester 2

JSP133 Crime Prevention

JSP134 Crime Control and Governance

■ Graduate Certificate in Justice JS25

Award title: Graduate Certificate in Justice

Campus: External and Kelvin Grove

Duration: 6 months multimodal or external full-time or 1 year part-time or 1 year part-time multimodal or external

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Professor Rod Broadhurst

Course Requirements

The Graduate Certificate in Justice consists of four units of 12 credit points each. The four units will be chosen from across any of the Graduate Certificate Programs (Strategic Intelligence JS29; Critical Criminology JS26; Organised Crime and Corruption Investigation JS27; and Justice Policy JS28).

Articulation to Master of Justice

A student who has successfully completed the Graduate Certificate in Justice with a GPA of 5.0 or better, may articulate to the Master of Justice and receive credit of 48 credit points.

Course Structure

Full-time Course Structure

Semester 1

Select any four units from:

JSP131 Juvenile Justice

JSP141 Organised Crime and Corruption

JSP142 Forensic Investigation Methods and Strategies

JSP161 Fundamentals of Intelligence

JSP162 Managing Intelligence

Semester 2 (MID-YEAR ENTRY)

Select any four units (48 cps) from the following:

JSP134 Crime Control and Governance

JSP143 Proceeds of Crime and Money Laundering

JSP144 Evidence in Organised Crime Investigations

JSP154 Human Rights and Global Justice

JSP163 Intelligence Research Issues & Methodology

JSP164 Intelligence and National Security

Part-time/External Course Structure

Select any 2 units from both Sem 1 & 2 Full Time Programs above (total of 48cps)

NB: Students may take underload of one unit only per semester

■ Graduate Certificate in Law LW60

Award title: Graduate Certificate in Law (Study Area A)

CRICOS code: 027286C

Campus: Gardens Point

Duration: 1 semester (Generic course and select majors only) full-time or 2 semesters part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Director, Graduate Programs

Course Structure

Students must undertake a total of 48 credit points (4 units). This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose 4 units from that particular major* (or to the value of 48 credit points);

or

2. Students can complete a "generic" major by choosing any 4 postgraduate law units (or to the value of 48 credit points)

The units from which 48 credit points shall be chosen are subject to availability.

Majors

Commercial Transactions, Corporate Law, Criminal Justice, Environment, International Law, Media and Communications Law, Planning and Resources, Property, Public Law, Generic

*currently under review

NOTE: International students are normally only able to undertake a "generic" major

Articulation to the Master of Laws by Coursework

A student who has successfully completed the Graduate Certificate in Law and who does not hold a Bachelor of Laws degree or equivalent, may be permitted to enter the Master of Laws course if they achieve a minimum GPA of 5.5 in the Graduate Certificate in Law, and with the approval of the Director of Graduate Programs.

Course Structure

Students must undertake a total of 48 credit points (4 units). This can be achieved in 1 of 2 ways:

Option 1 Students may nominate a major from the lists below and choose all 4 units from within that particular major; OR

Option 2 Students can complete a "generic" major by choosing 4 units from any of the lists below to the value of 48cps

Note: International students may normally only be able to undertake a "generic" major

■ Graduate Certificate in Legal Studies LW65

Award title: Graduate Certificate in Legal Studies

CRICOS code: 040307E

Campus: Gardens Point and External

Duration: 1 semester full-time or 2 semesters part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Director, Graduate Programs

Advanced Standing

Students who have previously undertaken undergraduate law units (equivalent to core units in LW65) at QUT may apply for a maximum of 24 credit points for these units towards the LW65 Graduate Certificate in Legal Studies

Full-time Course Structure

Introduction to Legal Research

LWB136 Contracts A

LWB138 Fundamentals of Torts

LWB141 Legal Institutions and Method

PLUS

LWB142 Law, Society and Justice

OR

LWB143 Legal Research and Writing

Depending on Semester on entry, students will undertake either LWB142 OR LWB143

Part-time Course Structure

Option 1: LWB142 Law, Society & Justice

Year 1, Semester 1

Introduction to Legal Research

LWB141 Legal Institutions and Method

LWB142 Law, Society and Justice

Year 1, Semester 2

LWB136 Contracts A

LWB138 Fundamentals of Torts

Option 2: LWB143 Legal Research & Writing

Year 1, Semester 1

Introduction to Legal Research

LWB136 Contracts A

LWB141 Legal Institutions and Method

Year 1, Semester 2

LWB138 Fundamentals of Torts

LWB143 Legal Research and Writing

These course structures are based on Semester 1 entry to the course

■ Graduate Certificate in Organised Crime and Corruption Investigation JS27

Award title: Graduate Certificate in Organised Crime and Corruption Investigation

CRICOS code: Not required

Campus: Kelvin Grove and External

Duration: 1 year multimodal or external part-time or 1 year external

Credit points: 48

Course coordinator: Professor Rod Broadhurst

Course Requirements

The Graduate Certificate in Organised Crime and Corruption Investigation consists of four units of twelve credit points each. They comprise: Organised Crime & Corruption; Forensic Investigation Methods and Strategies; Proceeds of Crime and Money Laundering; Evidence in Organised Crime Investigations.

Articulation to Master of Justice

A student who has successfully completed the Graduate Certificate in Organised Crime and Corruption Investigation with a GPA of 5.0 or better, may articulate to the Master of Justice (Organised Crime and Corruption Investigation) and receive credit for their specialist area study of 48 credit points.

Course Structure

Part time/External Course Structure

Semester 1

JSP141 Organised Crime and Corruption

JSP142 Forensic Investigation Methods and Strategies

Part time/External Course Structure

Semester 2

JSP143 Proceeds of Crime and Money Laundering

JSP144 Evidence in Organised Crime Investigations

NB: Students may take underload of one unit only per semester

■ Graduate Certificate in Strategic Intelligence JS29

Award title: Graduate Certificate in Strategic Intelligence

CRICOS code: Not required

Campus: External

Duration: 1 year part-time external

Credit points: 48

Course coordinator: Dr Ian Wells

Discipline coordinator: Dr Ian Wells

Course Requirements

The Graduate Certificate in Strategic Intelligence consists of four units of twelve credit points each: Fundamentals of Intelligence; Intelligence Research Issues & Methodology; Intelligence & National Security; & Managing Intelligence.

Articulation to Master of Justice

A student who has successfully completed the Graduate Certificate in Strategic Intelligence with a GPA of 5.0 or better, may articulate to the Master of Justice (Strategic Intelligence) and receive credit for their specialist area study of 48 credit points.

Course Structure

Part time/External Course Structure

Semester 1

JSP161 Fundamentals of Intelligence

JSP162 Managing Intelligence

Part time/External Course Structure

Semester 2

JSP163 Intelligence Research Issues & Methodology
 JSP164 Intelligence and National Security
 NB: Students may take underload of one unit only per semester

■ Bachelor of Justice (Honours) JS40

Award title: Bachelor of Justice (Honours)
CRICOS code: 020313F
Campus: Kelvin Grove
Duration: 1 year full-time or 2 years part-time
Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Professor Rod Broadhurst

Course Structure

The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

Full-time Course Structure

Year 1, Semester 1

JSB411 Theories Of Justice
 JSB415 Advanced Research Management
 One approved research methods unit
 Approved Elective

■ Bachelor of Justice JS31

Award title: Bachelor of Justice
CRICOS code: 006117E
Campus: Kelvin Grove and External
Duration: 3 years full-time or 6 years part-time or 6 years (February entry only) external
Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Prof. Rod Broadhurst

Course Requirements

The course will be offered over 3 years full-time, 6 years part-time and external mode. The course structure consists of 24 units - a total of 288 credit points. Students must complete eight Justice Studies core units (96 credit points) and a primary major comprising six units (72 credit points), to be selected from ONE of three areas of specialisation available in Critical Criminology; Investigations and Policing, and Justice Policy. The remaining ten units (120 credit points) may consist of either a second major of six units (72 credit points) and 4 electives OR 10 elective units selected from the Justice Studies areas of specialisation and electives. Students may enrol in up to four units (48 credit points) offered outside of the School, which may include up to two units (24 credit points) from another institution, subject to prior approval from the course coordinator.

JSB936 Compensation and Reparation
JSB937 Forensic Scientific Evidence

■ **Bachelor of Justice (International Policing) JS91**

Award title: Bachelor of Justice (International Policing)

Duration: 3 Semesters external

Admission

This course is designed for serving officers of the Singapore Police Force only.

■ **Bachelor of Justice/Bachelor of Laws LW42**

Award title: Bachelor of Justice/Bachelor of Laws

CRICOS code: 018380B

Campus: Gardens Point

Duration: 5 years full-time

Credit points: 528 (full-time standard semester: 54)

Course coordinator: Professor Rod Broadhurst (Justice),
Director - Undergraduate Programs (Law)

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Solicitors' Admission Rules and Barristers' Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practice as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Course Overview

Students study a combination of Justice Studies and Law units in the first three years of the course, whilst the final two years are devoted to the study of Law units only. In the Bachelor of Justice component of the course, students are required to select a major (6 units) from one of the following fields:* Critical Criminology *Investigations and Policing * Justice Policy.

Course Structure

Year 1, Semester 1

JSB131 Framing Social Justice
JSB132 Professional Skills
JSB134 Social Ethics and the Justice System
Introduction to Legal Research
LWB141 Legal Institutions and Method
LWB142 Law, Society and Justice

Year 1, Semester 2

JSB135 Unlocking Criminal Justice
JSB136 Forensic Psychology and the Law
JSB138 Crimes of Violence
LWB143 Legal Research and Writing
LWB144 Laws and Global Perspectives

Year 2, Semester 1

LWB136 Contracts A

■ Bachelor of Laws LW33**Award title:** Bachelor of Laws**CRICOS code:** 003486D**Campus:** Gardens Point and External**Duration:** 4 years full-time or 6 years part-time or 6 years external**Credit points:** 384 (full-time standard semester: 48)**Course coordinator:** Director, Undergraduate Programs
Phone: 3138 2707**Distance Education (External) Special Entry Requirements**

Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admissions application form.

Other Course Requirements

It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

Professional Recognition

The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

OVERVIEW

The Faculty of Science seeks to provide graduates with interesting and rewarding careers.

Fully equipped scientific and computing laboratories and state-of-the art lecture theatres assist in the practical delivery of innovative teaching programs.

Science education in the Faculty is further enriched by a number of research programs which come under the control of the Science Research Centre.

The Deans Scholars Accelerated Honours Program for high achieving students fast tracks science studies while workplace learning links with industry provide students with the opportunity to earn a salary while progressing through their degree.

Double degree options are available as part of a flexible program of academic studies.

The Bachelor of Pharmacy course offered at Gardens Point focuses on community and hospital pharmacy practice.

The Faculty offers a range of courses within its four multi-disciplinary schools: School of Life Sciences, School of Mathematical Sciences, School of Natural Resource Sciences and School of Physical and Chemical Sciences.

The School of Life Sciences offers studies in courses focused on biomedical and medical sciences, biotechnology, microbiology, and biochemistry. The School enjoys close working relationships with industry which, in turn, help to provide students with a 'hands-on' approach to all of its courses.

The School of Mathematical Sciences offers studies in applied mathematics, mathematical finance, applied statistics, scientific computation and visualisation, and operations research. There is an emphasis on the applications of mathematics and many of the units are enriched by examples from business and industry.

The School of Natural Resource Sciences offers major studies in environmental science, ecology and geoscience, complemented with the co-majors in biodiversity, and applied geology.

The School of Physical and Chemical Sciences offers majors in both Physics and Chemistry with co-majors in astrophysics, applied physics, forensic science and industrial chemistry. Forensic science can also be taken as a double major with chemistry or biotechnology. The School also offers courses in medical imaging technology and radiotherapy technology, leading to careers in diagnostic and therapeutic radiography.

The first year of the Applied Science course is offered at the Carseldine campus as well as at Gardens Point.

RESEARCH CENTRES

Science Research Centre

The Science Research Centre (SRC) provides an environment within which a variety of programs interact, developing new and innovative collaborations at the interface be-

tween disciplines. Our knowledge of nature is expanding at virtually an exponential rate and with this comes opportunities in complex areas requiring multi-disciplinary research teams. The SRC has been structured so as to capture opportunities in these multi-disciplinary projects, bringing together the expertise from different research programs to focus on a complex research problem.

The SRC has a broad range of programs which are grouped within four clusters: molecular biotechnology, physical and chemical sciences, natural resources and mathematical sciences. These clusters provide and maintain state of the art technology equipment and facilities; importantly, these facilities are shared across the SRC and are available to all programs giving researchers and research students access to the extensive range of equipment and technologies with the SRC.

Cooperative Research Centre for Diagnostics

The CRC for Diagnostics (<http://diagnosticscrc.org>) based at QUT is a cooperative venture between research organisations (QUT, LaTrobe University, CSIRO and Child Health Research Institute) and Queensland Medical Laboratory. Centre participants are located in Queensland, Victoria and South Australia. Through effective technology transfer, outcomes will be: reduced health care costs through the better targeting of therapeutics, earlier diagnosis, and exploitation of genomics and proteomics information to allow greater specificity in diagnosis and treatment of an individual. Achievements to date include the multi-million dollar sale of a DNA detection method to Affymetrix (a large US biotechnology company) and the formation in 2002 of a new company, Evogenix, based in Melbourne. Other achievements include numerous patented DNA detection methods and diagnostic kits. Originally formed as the CRC for Diagnostic Technologies in 1995, this \$80 million centre was re-funded as a new centre in 2001 and is jointly funded by the participants and the Commonwealth and State Governments.

Research programs

- Protein profiling: expression profiles for the diagnosis and monitoring of autoimmune diseases
- High Affinity Reagents: identification of novel reagents and platforms for library construction
- Genome Diagnostics: discovery of SNPs for human physical characteristics and disease
- Infectious Disease Diagnostics: novel methods and reagents for improved detection
- Homogenous Reporter Systems for one-step diagnostic assays.

CRICOS code: 043548G

Campus: Gardens Point

Duration: 3 semesters (1.5 years) full-time or 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Brian J Thomas

Discipline coordinator: Dr Andrew Fielding

Other Majors

See also the separate entry for the following major in this course: Master of Applied Science (Medical Ultrasound).

Course Design

This degree consists of two stages. Stage 1 (which is equivalent to the Graduate Diploma - PH71) comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

In Stage 2 (Master of Applied Science - PH80) students undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution. Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Course Structure - First Semester Entry

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

Year 1, Semester 1 (February to June)

LSB142 Human Anatomy and Physiology

PCN113 Radiation Physics

PCN114 Microprocessors and Instrumentation

PCN211 Physics of Medical Imaging

Year 1, Semester 2 (July to October)

PCN112 Medical Imaging Science

PCN212 Radiotherapy

PCN214 Health and Occupational Physics

PCN218 Research Methodology and Professional Studies

STAGE 2: (Project units in Stage 2 are offered in all semesters)

Project Over One Semester or Summer Program

PCN520 Project (Full-time)

Project Over Two Semesters

PCN540-1 Project (Part-time)

PCN540-2 Project (Part-time)

Note:

A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

Course structure - Mid-year Entry

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

First Semester (July to October)

LSB258 Principles of Human Physiology

PCN112 Medical Imaging Science

PCN212 Radiotherapy

PCN214 Health and Occupational Physics

Second Semester (February to June)

PCN113 Radiation Physics

PCN114 Microprocessors and Instrumentation

PCN211 Physics of Medical Imaging

PCN218 Research Methodology and Professional Studies

STAGE 2: (Project units in Stage 2 are offered in all semesters)

Project Over One Semester or Summer Program

PCN520 Project (Full-time)

Project Over Two Semesters

PCN540-1 Project (Part-time)

PCN540-2 Project (Part-time)

Note:

A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

■ Master of Applied Science (Medical Ultrasound) PH80

Award title: Master of Applied Science (Medical Ultrasound)

CRICOS code:

Campus: Gardens Point

Duration: 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Brian Thomas

Discipline coordinator: Natasha Kazich

Other Majors

See also the separate entry for the following major in this course: Master of Applied Science (Medical Physics).

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive four to five week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external su-

pervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Course Structure

STAGE 1: Students must complete the units listed below (total 96 credit points)

Semester 1

PCN159 Ultrasonic Examination 1
PCN162 Principles of Medical Ultrasound
PCN197-1 Clinical Attachment 1

Semester 2

PCN197-2 Clinical Attachment 1
PCN356 Ultrasonic Examinations 2

Semester 3

PCN297-1 Clinical Attachment 2
PCN355 Vascular Ultrasound
PCN357 Advanced Ultrasound Topics

Semester 4

PCN218 Research Methodology and Professional Studies
PCN297-2 Clinical Attachment 2

Notes:

The PCN197 and PCN297 clinical attachment units are 2-semester units.

Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

STAGE 2:

Project Over One Semester or Summer Program

PCN520 Project (Full-time)

Project Over Two Semesters

PCN540-1 Project (Part-time)

PCN540-2 Project (Part-time)

Note:

A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, shall be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

■ Master of Applied Science (Research) SC80

Award title: Master of Applied Science

CRICOS code: 014020C

Campus: Gardens Point

Duration: 4 semesters (2 years) full-time or 8 semesters (4 years) part-time

Credit points: 192 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Peter Fredericks

Discipline coordinator: Dr Godwin Ayoko (Chemistry); Associate Professor Terry Walsh (Life Sciences); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Associate Professor Brian J Thomas (Physics)

Course Design

This degree consists of coursework that can comprise up to one-third of the course and research, which must be at

least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses, or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or its equivalent to candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

1. General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act 1988.

1.2 The Council's power to approve recommendations from faculty academic boards regarding the registration, supervision and examination of research degree candidates and to develop policy and procedure relating to research degrees is exercised through a Research Management Committee which shall be a subcommittee of University Academic Board.

1.3 Research Management Committee has delegated responsibility for day-to-day administration of research masters degree courses to Faculty academic boards. Academic boards shall report semi-annually to the Research Management Committee on progress made by research masters degree candidates.

1.4 Unless the context otherwise indicates or requires, the words academic board and faculty shall refer to the faculty in which the candidate registers.

1.5 In order to qualify for the award of the degree of Master of Applied Science, a candidate must:

- have completed the approved course of study under the supervision prescribed by the Academic Board
- have submitted, and the Academic Board have accepted, a thesis prepared under the supervision of the supervisor

- have completed any other work prescribed by the Academic Board, and submit to the Academic Board a declaration signed by the candidate that he/she has not been a candidate for another tertiary award without permission of the Academic Board during the term of enrolment.

2. Registration

2.1 Applications shall be accepted subject to the availability of facilities and supervision.

2.2 Applications may be lodged with the Registrar at any time.

2.3 The minimum academic qualifications for admission to a program leading to a Master of Applied Science shall be:

- possession of a bachelor degree in applied science from the Queensland University of Technology, or
- possession of an equivalent qualification, or
- submission of such other evidence of qualifications as will satisfy the Academic Board that the applicant possesses the capacity to pursue the course of study.

2.4 Additional requirements for admission to a particular program may be laid down by the Academic Board.

2.5 In considering an applicant for registration the Academic Board shall, in addition to assessing the applicants suitability, assess the proposed program and its relevance to the aims and objectives of the University.

2.6 A candidate may register either as a full-time or as a part-time student.

2.6.1 To be registered as a full-time student, a candidate must be able to commit to the course not less than three-quarters of a normal working week, averaged over each year of candidacy. Such a student may not devote more than 300 hours annually to teaching activities (or other paid work), including preparation and marking.

2.6.2 A candidate who is unable to devote to the course the proportion of time specified in section 2.6.1 may register as a part-time student.

2.7 A candidate may be internal or external. An external candidate is one whose program of research and investigation is based at a place of employment or sponsoring institution. Normally, support of the sponsoring institution for the candidate's application is required for a registration.

2.8 The Academic Board may cancel a candidate's registration if, after consulting the supervisors and having taken account of all relevant circumstances, the Academic Board is of the opinion that the candidate either has effectively discontinued his/her studies or has no reasonable expectation of completing the course of study within the maximum time allowed (see section 4).

2.9 A candidate whose registration has lapsed or has been cancelled and who wishes subsequently to re-enter the course to undertake a program which is the same or essentially the same as the previous program may be re-admitted under such conditions as the Academic Board may prescribe.

3. Course of Study

3.1 A candidate for the degree of Master of Applied Science shall undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

3.2 The program must be such as to enable the candidate to develop and demonstrate a level of scientific competence significantly higher than that expected of a first degree graduate. The required competence normally would include mastery of relevant techniques, investigatory skills, critical thinking, and a high level of knowledge in the specialist area.

3.3 The program includes both coursework and research.

For all Schools except Mathematical Sciences the coursework is a program of up to 52 credit points as defined in sections 3.9 and 3.12 as appropriate for each candidate. The unit IFN001 Advanced Information Retrieval Skills (4 credit points) should normally be included.

The research component is a program of supervised research and investigation of at least 140 credit points as described in 3.1 and 3.2.

For Mathematical Sciences the proportion of coursework to research work is tailored to the individual student and will be approved by the School Director of Research.

3.4 The student's progress will be monitored throughout the first 96 credit points of the course. Between 9 and 12 months into the program the student is required to undertake a Confirmation process. Where the School Research & Postgraduate Training Committee, or the School Director of Research, on the advice of the examination panel, is of the opinion that progress is not satisfactory, the student will be advised to transfer his/her enrolment to the SC71 Graduate Diploma in Applied Science course.

3.5 The Confirmation will comprise several elements:

- (i) a literature survey of the topic under study
- (ii) a seminar on the background to the topic, progress to date, and future work to be presented to the School
- (iii) a plan of work (including timeline) which will lead to submission of the thesis by the defined submission date.

3.6 At Confirmation an Examination Panel will be appointed consisting of three members, two of whom should be the Principal Supervisor and the Associate Supervisor (if one has been appointed) and other Academic Staff member(s) appointed by the School Director of Research. This Panel will decide if progress is satisfactory and if the plan of research is realistic. If necessary, they will assist the student to formulate an improved plan.

3.7 The student is normally required to submit their thesis by a particular date 1 year and nine months after commencing the Program. This date will be calculated when the student commences the Program and the student will be advised of its significance.

3.8 If a student is unable to undertake confirmation or submit his/her thesis then he/she may request an extension from the School Research & Postgraduate Training Committee. Such a request should be made at least one month before the due date. The student is expected to have a good reason, backed by hard evidence, for such a request.

3.9 Coursework at masters level may be conducted in a number of ways such as:

- advanced lecture courses
- seminars in which faculty and students present critical studies of selected problems within the subject field
- independent study or reading courses.

In all cases, coursework is based upon a formal syllabus setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed read-

ing material and the method of assessment of progress through and at the end of the course.

3.10 A candidate shall be required to participate in and present seminars as considered appropriate by the Principal Supervisor. The candidate shall be notified of minimum attendance requirements at the time of acceptance of enrolments.

3.11 Students entering the course with an Honours degree or its equivalent, or candidates with substantial relevant work experience, may gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

3.12 Students entering the course with a Graduate Diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

3.13 An application for registration should set out the candidate's intended course of study in broad outline but with specific objectives for the first year. The description should include the area of study within which the candidate's course lies, the coursework to be undertaken and the proposed title of the thesis to be written.

4. Period of Time for Completion of Course of Study

4.1 A full-time candidate who does not hold an Honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. To assist in meeting this goal there is a fixed submission date for the thesis 1 year and 9 months after commencing the Program. For students enrolled part-time the thesis submission date will be 3 years and 6 months after commencement.

4.2 A holder of an Honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

4.3 Where application is made for permission to extend the fixed submission date, details of the candidate's progress shall be presented to the School Research & Postgraduate Studies Committee together with the reasons for the delay in completing the work and the expected date of completion. Where the Committee agrees to an extension, it will set a new submission date and may set a limit to the maximum period of registration in the program.

5. Transfer of Registration

5.1 Where a candidate has undertaken part of a proposed course of study as a registered student in another institution, this period of registration may, on application in writing to the Academic Board at the time of application for registration, be counted towards the candidate's period of registration in the QUT course. The application must include details of the work already undertaken, the reasons for the transfer and the expected date of completion.

5.2 Applications for transfer normally should be submitted at least 12 months in advance of the probable date of submission of the thesis.

6. Supervision

6.1 For each candidate the Academic Board shall appoint one or more supervisors with appropriate experience pro-

vided that, where more than one supervisor is appointed, one shall be nominated as the Principal Supervisor and the others as Associate Supervisors.

6.2 In the case of an internal student, the Principal Supervisor normally shall be from the academic staff of the school where the student carries out the work.

6.3 In the case of an external student, the Principal Supervisor normally shall be from the academic staff of the school supporting the work and at least one Associate Supervisor shall be from the sponsoring organisation.

7. Place and Conditions of Work

7.1 The research program is carried out under supervision in a suitable environment normally in Australia.

7.2 The Academic Board shall not admit a candidate to undertake a program of research based at the University unless it has received a statement from the Head of School in which the study is proposed that, in their opinion, the applicant is a fit person to undertake a research program leading to the masters degree, that the program is supported, and that the school/centre is willing to undertake the responsibility of supervising the applicants work.

7.3 The Academic Board shall not admit a candidate to undertake a research program based at a sponsoring establishment unless it has received:

- a statement from the employer or director of the sponsoring institution that the applicant will be provided with facilities to undertake the research project and that they are willing to accept responsibility for supervising the applicants work, and
- a statement from the Head of School or the Director of the Centre in which the study is proposed that, in their opinion, the applicant is a fit person to undertake a research program leading to the Masters degree, that the program is supported, and that after consideration of the proposed external facilities and supervision, the school is willing to accept the responsibility of supervising the work.

8. Thesis

8.1 In the form of presentation, availability and copyright, the thesis shall comply with the provisions of the document Requirements for Presenting Theses.

8.2 The candidate's application for registration should set out the intended course of study in broad outline but with specific objectives for the first year. The description should include the area of study within which the candidate's course lies, the coursework to be undertaken and the proposed title of the thesis to be written.

Between 9 and 12 months into the program the student is required to undertake a Confirmation process which will include a plan of work (including timeline) which will lead to submission of the thesis by the defined submission date.

The candidate shall give two months notice of intention to submit the thesis. Such notice shall be accompanied by the appropriate fee, if any.

8.3 The thesis shall comply with the following requirements:

- a significant portion of the work described must have been carried out subsequent to initial registration for the degree.
- it must describe a program of work carried out by the candidate, and must involve either an original contribu-

tion to knowledge or an original application of existing knowledge.

- it must reach a satisfactory standard of literary presentation.
- it shall be the candidate's own account of the work. Where work is carried out jointly with other persons, the Academic Board shall be advised of the extent of the candidate's contribution to the joint work.
- the thesis shall not contain as its main content any work or material which the student has previously submitted for another degree or similar award.
- supporting documents, such as published papers, may be submitted with the thesis if they have a bearing on the subject of the thesis.
- the thesis shall contain a concise abstract.

8.4 Except with the specific permission of the Academic Board, the thesis must be presented in the English language. Such permission must be sought at the time of application for registration, and will not be granted solely on the grounds that the candidate's ability to satisfy the examiners will be affected adversely by the requirement to present the thesis in English.

8.5 Subject to QUT's Intellectual Property policy, the copyright of the thesis is vested in the candidate.

8.6 Where a candidate or the sponsoring establishment wishes the thesis to remain confidential for a period of time after completion of the work, application for approval must be made to the Academic Board when the thesis is submitted. The period of confidentiality normally shall not exceed two years from the date on which the examiners recommend acceptance of the thesis, during which time the thesis will be held on restricted access in the QUT Library.

9. Examination of Thesis

9.1 The Academic Board shall appoint at least two examiners, of whom at least one shall be from outside the University. Normally examiners will be required to agree to read and report upon the thesis within two months of its receipt.

9.2 A candidate may be required to make an oral defence of the thesis.

9.3 On receipt of satisfactory reports from the examiners, and when the provisions of 7.1 have been fulfilled, the Academic Board shall recommend to University Academic Board that the candidate be awarded the degree.

9.4 If the examiners reports are conflicting, the Academic Board may, after appropriate consultation with the Principal Supervisor, seek advice from a further external examiner.

9.5 If, on the basis of the examiner's reports, the Academic Board does not recommend that the degree be awarded, then it shall:

- permit the student to resubmit the thesis within one year for re-examination, or cancel the student's registration.

If a candidate is required to revise and resubmit a thesis, the examiner's reports will be made available to the candidate, the anonymity of the examiners being maintained.

9.6 After the examination process is complete, examiner's reports are to be made available to the candidate on request. The names of examiners will be released on request providing the examiner has indicated willingness to have his/her identity revealed to the candidate.

Coursework

The unit IFN001 Advanced Information Retrieval Skills (4 credit points) should normally be included.

The coursework units for individual strands are as follows. All the units shown are units designed for this course. Selections from other courses may be approved.

Course Structure

Chemistry Strand

PCN701 Topics in Advanced Chemistry 1
 PCN705-1 Research Methodology
 PCN705-2 Research Methodology
 PCN801 Topics in Advanced Chemistry 2
 Select two of the following Elective Units:
 PCN710 Chemical Instrumentation
 PCN720 Chemometrics
 PCN730 Advanced Physical Methods in Chemistry
 PCN740 Laboratory Techniques for Preparative Chemistry

Ecology, Environmental Science & Geoscience Strands

Essential units:

NRN100 Readings in Natural Resource Sciences 1
 NRN102 Confirmation of Candidature Seminar
 NRN103 Final Seminar

Select up to two of the following units if required:

NRN101 Readings in Natural Resource Sciences 2
 NRN104 Advanced Topics in Natural Resource Sciences 1
 NRN105 Advanced Topics in Natural Resource Sciences 2

Life Science Strand

LSN011 Research Seminars in Life Science 1
 LSN013 Readings in Life Science 3
 LSN023 Research Seminars in Life Science 3

Mathematics Strand

Selections from other School programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, to a maximum of 60 credit points

Physics Strand

PCN715 Advanced Topics in Physics 1
 PCN716 Advanced Topics in Physics 2
 and/or alternative unit(s) approved by the Physics coordinator

Research Work

The Research Work component of the degree must constitute at least 128 credit points. The units below have been devised to represent the EFTSU (Effective Full-time Student Unit) and attendance type of graduate research students.

Full-time Students

The minimum number of credit points per semester for full-time status is 36. The standard number is 48. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to the degree rules.

Full-time Course Structure

Full-time students undertaking research but no coursework units enrol in
 IFN100 Full-Time Masters Research

Full-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 48 credit points per semester.
 IFN300 Masters Research

IFN301 Masters Research
 IFN302 Masters Research
 IFN303 Masters Research
 IFN304 Masters Research

Part-time Students

The maximum number of credit points per semester for part-time status is 36. The standard number is 24. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to degree rules.

Part-time Course Structure

Part-time students undertaking research but no coursework units enrol in:

IFN200 Part-Time Masters Research

Part-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 24 credit points:

IFN302 Masters Research
 IFN303 Masters Research
 IFN304 Masters Research

■ **Master of Biotechnology LS86**

Award title: Master of Biotechnology

CRICOS code: 018479B

Campus: Gardens Point

Duration: 3 semesters (1.5 years) full-time or 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the bio-molecular sciences and area of interest in biotechnology. The LS86 Master of Biotechnology program follows on from successful completion of core and elective units offered in both LS66 Graduate Certificate in Biotechnology and LS76 Graduate Diploma in Biotechnology. The program not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. LS86 Master of Biotechnology is comprised of 144 credit points of assessed coursework and is designed to give students further training and specialisation in general, medical and/or plant biotechnology. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS86 in their first semester.

Full-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences
 LSN102 Cellular Biosciences
 LSN103 Postgraduate Learning and Research Skills
 LSB468 Molecular Biology

Year 2, Semester 1 (MODULE 2)

LSP127 Business Aspects of Biotechnology
 Either
 LSB509 Medical Biotechnology 1
 Or
 LSB577 Plant Biotechnology 1

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies will be offered in the 2007 semester break - please contact the unit coordinator for further details

Year 2, Semester 2 (MODULE 3)

BSB311 Research, Development and Commercialisation Strategies
 Either
 LSB609 Medical Biotechnology 2
 Or
 LSB677 Plant Biotechnology 2

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing
 LSB607 Protein Purification
 LSB608 Protein Science
 LSB609 Medical Biotechnology 2
 LSB619 Genomics and Bioinformatics
 LSB677 Plant Biotechnology 2
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 MGN409 Introduction to Management
 MGN428 Creating New Businesses

Part-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences
 LSN102 Cellular Biosciences
Year 2, Semester 1 (MODULE 1)
 LSN103 Postgraduate Learning and Research Skills
 LSB468 Molecular Biology

Year 2, Semester 2 (MODULE 3)

In consultation with the course coordinator, choose 12 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing
 LSB607 Protein Purification
 LSB608 Protein Science
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 MGN409 Introduction to Management
 MGN428 Creating New Businesses

Year 3, Semester 1 (MODULE 2)

LSB127 Business Aspects of Biotechnology
 Either
 LSB509 Medical Biotechnology 1
 Or
 LSB577 Plant Biotechnology 1
Year 3, Semester 2 (MODULE 3)
 BSB311 Research, Development and Commercialisation
 Strategies
 Either
 LSB609 Medical Biotechnology 2
 Or
 LSB677 Plant Biotechnology 2
Year 4, Semester 1 (MODULE 2)
 In consultation with the course coordinator, choose 24
 credit points from the following units:
 LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies
 will be offered in the 2007 semester break - please contact
 the unit coordinator for further details

■ Master of Biotechnology (Advanced) LS96

Award title: Master of Biotechnology (Advanced)
CRICOS code: 054279M
Campus: Gardens Point
Duration: 4 semesters (2 years) full-time or 8 semesters (4
 years) part-time
Credit points: 192 (full-time standard semester: 48; part-
 time standard semester: 24)
Course coordinator: Dr Mark O'Brien

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian
 Society for Biochemistry and Molecular Biology, and the
 Australian Society for Microbiology.

Course Design

The program of study for an individual student will be de-
 cided in consultation with the course coordinator and will
 take into account the student's background in the bio-
 molecular sciences and area of interest in biotechnology.
 LS96 Master of Biotechnology (Advanced) completes the
 comprehensive training of students and follows successful
 completion of core and elective units offered in LS66, LS76
 and LS86. It is comprised of 192 credit points of assessed
 coursework in general, medical and/or plant biotechnology.
 In their final semester of the program, students may un-
 dertake a supervised research project either at QUT or in the
 workplace. Students must discuss research project areas
 prior to enrolment in this course to select both a suitable
 project and a project supervisor(s) prior to entry (or as soon
 as possible thereafter). While the School of Life Sciences
 has a wide range of research project areas available, it may
 not always be possible for students to conduct a research
 project exactly in the area they desire. Part-time students
 may also elect to do a research project at their place of
 work, with both a workplace supervisor and a QUT supervi-
 sor. Alternative options are available. For students not un-

dertaking a research project, additional coursework must be
 completed. Students will need to consult with the course
 coordinator in selecting additional coursework units. The
 LS96 Master of Biotechnology (Advanced) program not
 only offers students opportunities to pursue study in several
 relevant focus areas including the theoretical and practical
 aspects of biotechnology, but also the business of biotech-
 nology, marketing, commercialisation, as well as the legal
 and ethical aspects of biotechnological applications. Ad-
 vanced standing may be given for the suite of units offered
 in the foundation program, LS66 Graduate Certificate in
 Biotechnology, if the student has a bachelor degree or
 equivalent with a recent and appropriate undergraduate-
 level knowledge and practical experience in the key areas
 of molecular biology, cell biology, biochemistry and/or mi-
 crobiology at an advanced level. If advanced standing is
 granted, students can enrol directly in LS96 in their first
 semester.

Full-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences
 LSN102 Cellular Biosciences
 LSN103 Postgraduate Learning and Research Skills
 LSB468 Molecular Biology

Year 2, Semester 1 (MODULE 2)

LSP127 Business Aspects of Biotechnology
 Either
 LSB509 Medical Biotechnology 1
 Or
 LSB577 Plant Biotechnology 1

In consultation with the course coordinator, choose 24
 credit points from the following units:

LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies
 will be offered in the 2007 semester break - please contact
 the unit coordinator for further details

Year 2, Semester 2 (MODULE 3)

BSB311 Research, Development and Commercialisation
 Strategies
 Either
 LSB609 Medical Biotechnology 2
 Or
 LSB677 Plant Biotechnology 2

In consultation with the course coordinator, choose 24
 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing
 LSB607 Protein Purification
 LSB608 Protein Science
 LSB609 Medical Biotechnology 2
 LSB619 Genomics and Bioinformatics
 LSB677 Plant Biotechnology 2
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 MGN409 Introduction to Management
 MGN428 Creating New Businesses

Year 3, Semester 1 (MODULE 4)

LSN710 Project

For those students NOT undertaking LSN710 Project, in consultation with the course coordinator, choose 48 credit points from the following units:

LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies will be offered in the 2007 semester break - please contact the unit coordinator for further details

Part-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences
 LSN102 Cellular Biosciences

Year 2, Semester 1 (MODULE 1)

LSN103 Postgraduate Learning and Research Skills
 LSB468 Molecular Biology

Year 2, Semester 2 (MODULE 3)

In consultation with the course coordinator, choose 12 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing
 LSB607 Protein Purification
 LSB608 Protein Science
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 MGN409 Introduction to Management
 MGN428 Creating New Businesses

Year 3, Semester 1 (MODULE 2)

LSP127 Business Aspects of Biotechnology
 Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

Year 3, Semester 2 (MODULE 3)

BSB311 Research, Development and Commercialisation Strategies

Either

LSB609 Medical Biotechnology 2

Or

LSB677 Plant Biotechnology 2

Year 4, Semester 1 (MODULE 2)

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies will be offered in the 2007 semester break - please contact the unit coordinator for further details

Year 4, Semester 2 (MODULE 4)

LSN711 Project 1

For those students NOT undertaking LSN711 Project 1, in consultation with the course coordinator, choose 24 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing
 LSB607 Protein Purification
 LSB608 Protein Science
 LSB609 Medical Biotechnology 2
 LSB619 Genomics and Bioinformatics
 LSB677 Plant Biotechnology 2
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 MGN409 Introduction to Management
 MGN428 Creating New Businesses

Year 5, Semester 1 (MODULE 4)

LSN712 Project 2

For those students NOT undertaking LSN712 Project 2, in consultation with the course coordinator, choose 48 credit points from the following units:

LSB509 Medical Biotechnology 1
 LSB527 Biomedical Research Technologies
 LSB537 Genetic Engineering
 LSB577 Plant Biotechnology 1
 LSN103 Postgraduate Learning and Research Skills
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations
 MAB523 Introduction to Quality Management
 JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies will be offered in the 2007 semester break - please contact the unit coordinator for further details

■ **Master of Biotechnology (For Continuing Students Only) LS80**

Award title: Master of Applied Science (Life Science)

CRICOS code: 018479B

Campus: Gardens Point

Duration: 3 semesters (1.5 years) full-time or 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Mark O'Brien

Full-time Course Structure

Year 1, Semester 1

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB537 Genetic Engineering
 LSB509 Medical Biotechnology 1
 LSB577 Plant Biotechnology 1
 LSB850-1 Research Strategies
 JSN014 Law, Justice and New Genetic Technologies
 HHB270 Gene Technology And Ethics
 IBN408 Global Business Operations

MAB523 Introduction to Quality Management
 GSN408 Fundamentals of Marketing Management
 GSN418 Marketing Strategy Development
 Students who qualify for an exemption from LSB509 or LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

Year 1, Semester 2

BSB311 Research, Development and Commercialisation Strategies

Either

LSB609 Medical Biotechnology 2

Or

LSB677 Plant Biotechnology 2

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB619 Genomics and Bioinformatics

LSB609 Medical Biotechnology 2

LSB677 Plant Biotechnology 2

LSB850-1 Research Strategies

LSB607 Protein Purification

MGN409 Introduction to Management

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

MGN428 Creating New Businesses

Students who qualify for an exemption from LSB609 or

LSB677 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

Year 2, Semester 1

LSN710 Project

Please note: Students who will NOT be undertaking a research project choose 48 credit points from the following units in consultation with the course coordinator. No credit will be given for any units already taken within an undergraduate degree. You are expected to undertake a program of study that extends the coursework within your undergraduate degree.

LSB509 Medical Biotechnology 1

LSB577 Plant Biotechnology 1

LSB537 Genetic Engineering

LSB850-1 Research Strategies

JSN014 Law, Justice and New Genetic Technologies

LSN160 Epidemiology for Life Scientists

HHB270 Gene Technology And Ethics

IBN408 Global Business Operations

MAB523 Introduction to Quality Management

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

Students who qualify for an exemption from LSB509 or

LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

Part-time Course Structure

Year 1, Semester 1

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

Year 1, Semester 2

BSB311 Research, Development and Commercialisation Strategies

Either

LSB609 Medical Biotechnology 2

Or

LSB677 Plant Biotechnology 2

Year 2, Semester 1

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

Year 2, Semester 2

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

Year 3, Semester 1

LSN711 Project 1

For those students who will not be undertaking a research project, in consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

Year 3, Semester 2

LSN712 Project 2

For those students who will not be undertaking a research project, in consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

■ **Master of Cardiac Ultrasound PH85**

Award title: Master of Cardiac Ultrasound

Campus: Gardens Point

Duration: 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Bonita Anderson

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Course Structure

STAGE 1: To complete Stage 1, students must complete the units listed below (total 96 credit points):

Year 1, Semester 1

LSN259 Cardiac Anatomy, Embryology and Pathology

PCN162 Principles of Medical Ultrasound

PCN497-1 Clinical Attachment 4

Year 1, Semester 2

PCN259 Cardiac Ultrasound 1

PCN497-2 Clinical Attachment 4

Year 2, Semester 1

PCN218 Research Methodology and Professional Studies

PCN359 Cardiac Ultrasound 2

PCN597-1 Clinical Attachment 5

Year 2, Semester 2

PCN459 Advanced Cardiac Ultrasound

PCN597-2 Clinical Attachment 5

Note: The PCN497 and PCN597 clinical attachment units are 2 semester units.

STAGE 2:* To complete Stage 2, students must complete the units listed below (48 credit points):

First Semester ** (Project Over Two Semesters)

PCN640-1 Project

PCN640-2 Project

Notes:

A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.

A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

* Masters project units are offered in both semesters.

** Second Semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.
2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester#

Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Students in the Master of Cardiac Ultrasound (PH85) wishing to exit with the Graduate Diploma in Cardiac Ultrasound (PH75) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

■ **Master of Lighting (off-shore) PH83**

Award title: Master of Lighting

Campus: City University of Hong Kong

Duration: 3 semesters (1 year) full-time and 6 semesters (2 years) part-time (Hong Kong) external

Credit points: 144 (part-time standard semester: 24)

Course coordinator: Dr Ian Cowling

Course Design

Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

Full-time Course Structure

First Semester (September to December)

PCZ121 Vision Colour and Photometry

PCZ123 Sustainability and Human Factors

PCZ124 Lamps and Luminaires

PCZ224 Applied Lighting

Second Semester (January to April)

PCZ122 Lighting Design

PCZ221 Best Practices in Lighting

PCZ321 Reading Topic 1

PCZ322 Reading Topic 2

Third Semester (May to August)

PCZ222 Advanced Lighting Design

PCZ223 Lighting Applications

PCZ320 Lighting Project

Part-time Course Structure

First Semester (September to December)

PCZ121 Vision Colour and Photometry

PCZ124 Lamps and Luminaires

Second Semester (January to April)

PCZ122 Lighting Design

PCZ123 Sustainability and Human Factors

Third Semester (May to August)

PCZ222 Advanced Lighting Design

PCZ223 Lighting Applications

Fourth Semester (September to December)

PCZ221 Best Practices in Lighting

PCZ224 Applied Lighting

Fifth Semester (January to April)

PCZ321 Reading Topic 1

Or approved elective

PCZ322 Reading Topic 2

Or approved elective

Sixth Semester (May to August)

PCZ320 Lighting Project

Note:

PH83 will be offered full-time and part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. For the first three semesters the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. For the fourth and fifth semesters both units will commence together at the start of the semester.

Students in the Master of Lighting (PH83) wishing to exit with the Graduate Certificate in Lighting (PH63) or Graduate Diploma in Lighting (PH73) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

■ **Master of Lighting (on-shore) PH82**

Award title: Master of Lighting

Campus: Gardens Point

Duration: 3 semesters (1.5 years) (Internal only) full-time or 6 semesters (3 years) (Internal and External) part-time

Credit points: 144 (part-time standard semester: 24)

Course coordinator: Dr Ian Cowling

Course Design

Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

Full-time Course Structure

Year 1, Semester 2 (July to October)

PCN121 Vision Colour and Photometry

PCN123 Sustainability and Human Factors

PCN124 Lamps and Luminaires

Elective - One unit from:

CNP521 Project Cost and Risk Management
 MEN177 Total Quality Management
 PCN224 Applied Lighting

Year 2, Semester 1 (February to June)

PCN122 Lighting Design
 PCN221 Best Practices in Lighting
 Electives - Two units from:

CNP520 Project Management
 MEN272 Enterprise Resource Planning
 PCN321 Reading Topic 1
 PCN322 Reading Topic 2

Year 2, Semester 2 (July to October)

PCN223 Lighting Applications
 PCN320 Lighting Project
 Elective - One unit from:
 CNP521 Project Cost and Risk Management
 MEN177 Total Quality Management
 PCN222 Advanced Lighting Design

Part-time Course Structure

Year 1, Semester 2 (July to October)

PCN121 Vision Colour and Photometry
 PCN124 Lamps and Luminaires

Year 2, Semester 1 (February to June)

PCN122 Lighting Design
 PCN123 Sustainability and Human Factors

Year 2, Semester 2 (July to October)

PCN223 Lighting Applications
 Elective - One unit from:
 MEN272 Enterprise Resource Planning
 PCN222 Advanced Lighting Design
 PCN224 Applied Lighting

Year 3, Semester 1 (February to June)

PCN221 Best Practices in Lighting
 Elective - One unit from:
 CNP520 Project Management
 CNP521 Project Cost and Risk Management
 MEN177 Total Quality Management
 PCN224 Applied Lighting

Year 3, Semester 2* (July to October)

PCN321 Reading Topic 1
 or approved elective
 PCN322 Reading Topic 2
 or approved elective

Year 4, Semester 1* (February to June)

PCN320 Lighting Project

* The Fifth and Sixth semesters can be taken concurrently in full-time mode.

PH82 is offered full-time internally and part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Students in the Master of Lighting (PH82) wishing to exit with the Graduate Certificate in Lighting (PH62) or Graduate Diploma in Lighting (PH72) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

■ **Master of Mathematical Science MA85**

Award title: Master of Mathematical Science

CRICOS code: 046042K

Campus: Gardens Point

Duration: 3 semesters (1.5 years) full-time or 6 semesters (3 years) part-time

Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Troy Farrell

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

Course Structure

At least 36 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.

Up to 24 credit points can be taken from other than mathematics units.

Limit of 48 credit points can be taken from project units.

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations
 MAN201 Mathematics
 MAN700 Project
 MAN717 Minor Project
 MAN787-1 Project
 MAN787-2 Project
 MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

Mathematical Modelling/Applied Mathematics

Postgraduate Mathematics Units:

MAN761 Analysis

MAN764 Applied Mathematical Modelling

MAN774 Perturbation Methods
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB413 Differential Equations
 MAB422 Mathematical Modelling
 MAB521 Applied Mathematics 3
 MAB613 Partial Differential Equations
 MAB672 Advanced Mathematical Modelling

Computational Mathematics

Postgraduate Mathematics Unit:
 MAN771 Computational Mathematics 4
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB220 Computational Mathematics 1
 MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB420 Computational Mathematics 2
 MAB522 Computational Mathematics 3
 Note: MAB480 Introduction to Scientific Computation or knowledge of programming is required.

Discrete Mathematics

Postgraduate Mathematics Unit:
 MAN778 Applications of Discrete Mathematics
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB621 Discrete Mathematics

Statistics/Statistical Modelling

Postgraduate Mathematics Units:
 MAN526 Time Series Analysis
 MAN624 Applied Statistics
 MAN765 Bayesian Data Analysis
 MAN766 Applied Time Series Analysis
 MAN775 Statistical Modelling of Financial Processes
 Prerequisite Units:
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB314 Statistical Modelling 2
 MAB414 Applied Statistics 2
 MAB524 Statistical Inference

Quantitative Analysis/Financial Mathematics

Postgraduate Mathematics Units:
 MAN526 Time Series Analysis
 MAN624 Applied Statistics
 MAN765 Bayesian Data Analysis
 MAN766 Applied Time Series Analysis
 MAN769 Mathematics of Finance
 MAN775 Statistical Modelling of Financial Processes
 Prerequisite Units:
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB312 Linear Algebra
 MAB313 Mathematics of Finance
 MAB314 Statistical Modelling 2
 MAB413 Differential Equations
 MAB414 Applied Statistics 2
 MAB524 Statistical Inference
 MAB623 Financial Mathematics

Operations Research

Postgraduate Mathematics Units:
 MAN768 Advanced Techniques in Operations Research
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB315 Operations Research 2
 MAB525 Operations Research 3A
 MAB625 Operations Research 3B

Scientific Computation and Visualisation

MAN681 Advanced Visualisation and Data Analysis
 Prerequisite Mathematics Units:
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB281 Mathematics for Computer Graphics
 MAB480 Introduction to Scientific Computation
 MAB481 Visualisation and Data Analysis
 MAB580 Scientific Computation

Mathematics for Secondary Teaching

Postgraduate mathematics units:
 MAN700 Project
 Plus at least one other postgraduate mathematics unit (or other combination to give at least 36 credit points from appropriate postgraduate mathematics units)
 Other mathematics units:
 Students would usually select across a range of areas of mathematics and statistics
 Non-mathematics units:
 Students can select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics

■ Graduate Diploma in Applied Science SC71

Award title: Graduate Diploma in Applied Science

CRICOS code: 020314E

Campus: Gardens Point

Duration: 2 semesters (1 year) full-time or 4 semesters (2 years) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Peter Fredericks

Discipline coordinator: Dr Godwin Ayoko (Chemistry); Dr Mark O'Brien (Life Science); Dr Troy Farrell (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Associate Professor Brian Thomas (Physics)

Course Design

This coursework program allows students to complete a minor project in some disciplines. The assessed coursework may include advanced lecture courses, seminars, reading courses or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course, and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Candidates of the Graduate Diploma in Applied Science undertake a program of coursework, or coursework and a minor research project, as approved by the Academic Board on the advice of the Head of School.

Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of course-

work, and up to 36 credit points as a minor research project.

Coursework units will be selected from the specific units available within the Master of Applied Science (PH80) course and may contain units selected from other post-graduate courses or advanced undergraduate courses where the background of the student requires this.

Course Structure

Chemistry Strand

PCN701 Topics in Advanced Chemistry 1
 PCN705-1 Research Methodology
 PCN705-2 Research Methodology
 PCN710 Chemical Instrumentation
 PCN720 Chemometrics
 PCN730 Advanced Physical Methods in Chemistry
 PCN740 Laboratory Techniques for Preparative Chemistry
 PCN801 Topics in Advanced Chemistry 2

Ecology, Environmental Science & Geoscience Strands

NRN100 Readings in Natural Resource Sciences 1
 NRN101 Readings in Natural Resource Sciences 2
 NRN102 Confirmation of Candidature Seminar
 NRN104 Advanced Topics in Natural Resource Sciences 1
 NRN105 Advanced Topics in Natural Resource Sciences 2
 And units approved by the Strand Coordinator

Life Science Strand

LSN011 Research Seminars in Life Science 1
 LSN013 Readings in Life Science 3
 LSN023 Research Seminars in Life Science 3

Mathematics Strand

Units selected from other programs, such as MA75 Graduate Diploma in Mathematical Science and MA85 Master of Mathematical Science, offered by the School of Mathematical Sciences and approved by the Mathematics coordinator.

Physics Strand

PCN715 Advanced Topics in Physics 1
 PCN716 Advanced Topics in Physics 2
 And/or alternative unit(s) approved by the Physics Coordinator

■ Graduate Diploma in Applied Science (Medical Physics) PH71

Award title: Graduate Diploma in Applied Science (Medical Physics)

CRICOS code: 020315D

Campus: Gardens Point

Duration: 2 semesters (1 year) full-time or 4 semesters (2 years) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Brian J Thomas

Discipline coordinator: Dr Andrew Fielding

Course Design

This degree comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

Students who have completed the Graduate Diploma may enter Stage 2 of the Master of Applied Science - PH80 where they undertake a program of supervised research

and investigation that can be completed at QUT, or in a suitable external institution.

Course structure - First Semester Entry First Semester (February to June)

LSB142 Human Anatomy and Physiology

PCN113 Radiation Physics

PCN114 Microprocessors and Instrumentation

PCN211 Physics of Medical Imaging

Second Semester (July to October)

PCN112 Medical Imaging Science

PCN212 Radiotherapy

PCN214 Health and Occupational Physics

PCN218 Research Methodology and Professional Studies

Course structure - Mid-Year Entry First Semester (July to October)

LSB258 Principles of Human Physiology

PCN112 Medical Imaging Science

PCN212 Radiotherapy

PCN214 Health and Occupational Physics

Second Semester (February to June)

PCN113 Radiation Physics

PCN114 Microprocessors and Instrumentation

PCN211 Physics of Medical Imaging

PCN218 Research Methodology and Professional Studies

■ Graduate Diploma in Applied Science (Medical Ultrasound) PH71

Award title: Graduate Diploma in Applied Science (Medical Ultrasound)

Campus: Gardens Point

Duration: 4 semesters (2 years) part-time

Credit points: 96 (part-time standard semester: 24)

Course coordinator: Associate Professor Brian J Thomas

Discipline coordinator: Natasha Kazich

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design

This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive 4-5 week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Part-time Course Structure

Students must complete the units listed below (total 96 credit points)

Year 1, Semester 1

PCN159 Ultrasonic Examination 1

PCN162 Principles of Medical Ultrasound

PCN197-1 Clinical Attachment 1

Year 1, Semester 2

PCN197-2 Clinical Attachment 1

PCN356 Ultrasonic Examinations 2

Year 2, Semester 1

PCN297-1 Clinical Attachment 2

PCN355 Vascular Ultrasound

PCN357 Advanced Ultrasound Topics

Year 2, Semester 2

PCN218 Research Methodology and Professional Studies

PCN297-2 Clinical Attachment 2

Notes The PCN197 and PCN297 clinical attachment units are 2 semester units

Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

■ **Graduate Diploma in Biotechnology LS76**

Award title: Graduate Diploma in Biotechnology

CRICOS code: 016975B

Campus: Gardens Point

Duration: 2 semesters (1 year) full-time or 4 semesters (2 years) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Mark O'Brien

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the bio-molecular sciences and area of interest in biotechnology. The LS76 Graduate Diploma in Biotechnology builds upon concepts covered in the foundation program, LS66 Graduate Certificate in Biotechnology. The Graduate Diploma in Biotechnology not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. The Graduate Diploma in Biotechnology is comprised of 96 credit points of assessed coursework. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS76 in their first semester.

Full-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences

LSN102 Cellular Biosciences

LSN103 Postgraduate Learning and Research Skills

LSB468 Molecular Biology

Year 2, Semester 1 (MODULE 2)

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB509 Medical Biotechnology 1

LSB527 Biomedical Research Technologies

LSB537 Genetic Engineering

LSB577 Plant Biotechnology 1

LSN103 Postgraduate Learning and Research Skills

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

HHB270 Gene Technology And Ethics

IBN408 Global Business Operations

MAB523 Introduction to Quality Management

JSN014 Law, Justice and New Genetic Technologies

Note: JSN014 Law, Justice and New Genetic Technologies will be offered in the 2007 semester break - please contact the unit coordinator for further details

Part-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences

LSN102 Cellular Biosciences

Year 2, Semester 1 (MODULE 1)

LSN103 Postgraduate Learning and Research Skills

LSB468 Molecular Biology

Year 2, Semester 2 (MODULE 3)

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB605 Protein Engineering and Bioprocessing

LSB607 Protein Purification

LSB608 Protein Science

LSN103 Postgraduate Learning and Research Skills

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

MGN409 Introduction to Management

MGN428 Creating New Businesses

Year 3, Semester 1 (MODULE 2)

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

■ **Graduate Diploma in Biotechnology (For Continuing Students Only) LS70**

Award title: Graduate Diploma in Biotechnology

CRICOS code: 016957B

Campus: Gardens Point

Duration: 2 semesters (1 year) full-time or 4 semester (2 years) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Mark O'Brien

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest in biotechnology.

The course consists of two stages: Stage 1 (Graduate Diploma in Biotechnology - LS70) and Stage 2 (Master of Biotechnology - LS80).

The Graduate Diploma in Biotechnology comprises 96 credit points of assessed coursework in medical, plant and/or general biotechnology. Students can graduate with a Graduate Diploma in Biotechnology after successfully completing Stage 1. Students commencing in July enrol in semester two units first. Credit will not be given for any units already taken within an undergraduate degree, as students

are expected to undertake a program of study that extends the coursework studied within an undergraduate degree.

In Stage 2, the Master of Biotechnology - LS80), students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available.

If students do not undertake a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. Please contact the course coordinator for further information and assistance in this regard.

Full-time Course Structure

Year 1, Semester 1

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB537 Genetic Engineering

LSB509 Medical Biotechnology 1

LSB577 Plant Biotechnology 1

LSB850-1 Research Strategies

JSN014 Law, Justice and New Genetic Technologies

HHB270 Gene Technology And Ethics

IBN408 Global Business Operations

MAB523 Introduction to Quality Management

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

Students who qualify for an exemption from LSB509 or LSB577 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

Year 1, Semester 2

BSB311 Research, Development and Commercialisation Strategies

Either

LSB609 Medical Biotechnology 2

Or

LSB677 Plant Biotechnology 2

In consultation with the course coordinator, choose 24 credit points from the following units:

LSB619 Genomics and Bioinformatics

LSB609 Medical Biotechnology 2

LSB677 Plant Biotechnology 2

LSB850-1 Research Strategies

LSB607 Protein Purification

MGN409 Introduction to Management

GSN408 Fundamentals of Marketing Management

GSN418 Marketing Strategy Development

MGN428 Creating New Businesses

Students who qualify for an exemption from LSB609 or LSB677 on the basis of undergraduate studies are required to undertake an additional unit from the list above.

Part-time Course Structure

Year 1, Semester 1

LSP127 Business Aspects of Biotechnology

Either

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

Year 1, Semester 2

BSB311 Research, Development and Commercialisation Strategies

Either

LSB609 Medical Biotechnology 2

Or

LSB677 Plant Biotechnology 2

Year 2, Semester 1

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 1 in the above full-time course

Year 2, Semester 2

In consultation with the course coordinator, select 24 credit points under Year 1 Semester 2 in the above full-time course

■ Graduate Diploma in Cardiac Ultrasound PH75

Award title: Graduate Diploma in Cardiac Ultrasound

Campus: Gardens Point

Duration: 4 semesters (2 years) part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Bonita Anderson

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design

This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Course Structure

Year 1, Semester 1

LSN259 Cardiac Anatomy, Embryology and Pathology

PCN162 Principles of Medical Ultrasound

PCN497-1 Clinical Attachment 4

Year 1, Semester 2

PCN259 Cardiac Ultrasound 1

PCN497-2 Clinical Attachment 4

Year 2, Semester 1

PCN218 Research Methodology and Professional Studies

PCN359 Cardiac Ultrasound 2

PCN597-1 Clinical Attachment 5

Year 2, Semester 2

PCN459 Advanced Cardiac Ultrasound

PCN597-2 Clinical Attachment 5

Notes:

The PCN497 and PCN597 clinical attachment units are 2 semester units.

Domestic students in the Graduate Diploma in Cardiac Ultrasound (PH75) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Cardiac Ultrasound (PH85).

■ Graduate Diploma in Lighting (off-shore) PH73

Award title: Graduate Diploma in Lighting
Campus: City University of Hong Kong
Duration: 4 semesters part-time (Hong Kong) external
Credit points: 96 (part-time standard semester: 24)
Course coordinator: Dr Ian Cowling

Course Design

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality.

Part-time Course Structure

First Semester (September to December)

PCZ121 Vision Colour and Photometry
 PCZ124 Lamps and Luminaires

Second Semester (January to April)

PCZ122 Lighting Design
 PCZ123 Sustainability and Human Factors

Third Semester (May to August)

PCZ222 Advanced Lighting Design
 PCZ223 Lighting Applications

Fourth Semester (September to December)

PCZ221 Best Practices in Lighting
 PCZ224 Applied Lighting

Notes:

PH73 is offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Except for the fourth semester, the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. In the fourth semester both units will commence at the start of the semester.

Students in the Graduate Diploma in Lighting (PH73) wishing to continue their studies in the Master of Lighting (PH83), on successful completion of 96 credit points, are required to seek admission using an International Student Degree Program Application (F) Form.

Students in the Graduate Diploma in Lighting (PH73) wishing to exit with the Graduate Certificate in Lighting (PH63) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

■ Graduate Diploma in Lighting (on-shore) PH72

Award title: Graduate Diploma in Lighting
Campus: Gardens Point
Duration: 4 semesters (2 years) (Internal and External) part-time
Credit points: 96 (part-time standard semester: 24)
Course coordinator: Dr Ian Cowling

Course Design

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality Management.

Part-time Course Structure

Year 1, Semester 2 (July to October)

PCN121 Vision Colour and Photometry
 PCN124 Lamps and Luminaires

Year 2, Semester 1 (February to June)

PCN122 Lighting Design
 PCN123 Sustainability and Human Factors

Year 2, Semester 2 (July to October)

PCN223 Lighting Applications

Elective - One unit from:

MEN272 Enterprise Resource Planning
 PCN222 Advanced Lighting Design
 PCN224 Applied Lighting

Year 3, Semester 1 (February to June)

PCN221 Best Practices in Lighting

Elective - One unit from:

CNP520 Project Management
 CNP521 Project Cost and Risk Management
 MEN177 Total Quality Management
 PCN224 Applied Lighting

Notes:

PH72 is offered part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Domestic students in the Graduate Diploma in Lighting (PH72) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Lighting (PH82).

Students in the Graduate Diploma in Lighting (PH72) wishing to exit with the Graduate Certificate in Lighting (PH62) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

■ Graduate Diploma in Mathematical Science MA75

Award title: Graduate Diploma in Mathematical Science
CRICOS code: 046041M
Campus: Gardens Point
Duration: 2 semesters (1 year) full-time or 4 semesters (2 years) part-time
Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Dr Troy Farrell

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Diploma, at least 24 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 36 credit points from project units.

Course Structure

At least 24 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.

Up to 24 credit points can be taken from units other than mathematics units.

Limit of 36 credit points from project units.

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only. The unit MAN700 Project can be used to satisfy the rule requiring at least 24 credit points from postgraduate mathematics units other than MAN200 and/or MAN201.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations
 MAN201 Mathematics
 MAN700 Project
 MAN717 Minor Project
 MAN787-1 Project
 MAN787-2 Project
 MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

Mathematical Modelling/Applied Mathematics

Postgraduate Mathematics Units:
 MAN761 Analysis
 MAN764 Applied Mathematical Modelling
 MAN774 Perturbation Methods
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB413 Differential Equations
 MAB422 Mathematical Modelling
 MAB521 Applied Mathematics 3
 MAB613 Partial Differential Equations
 MAB672 Advanced Mathematical Modelling

Computational Mathematics

Postgraduate Mathematics Unit:
 MAN771 Computational Mathematics 4
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB220 Computational Mathematics 1
 MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB420 Computational Mathematics 2
 MAB522 Computational Mathematics 3
 Note: MAB480 Introduction to Scientific Computation or knowledge of programming is required.

Discrete Mathematics

Postgraduate Mathematics Unit:
 MAN778 Applications of Discrete Mathematics
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB621 Discrete Mathematics

Statistics/Statistical Modelling

Postgraduate Mathematics Units:
 MAN526 Time Series Analysis
 MAN624 Applied Statistics
 MAN765 Bayesian Data Analysis
 MAN766 Applied Time Series Analysis
 MAN775 Statistical Modelling of Financial Processes
 Prerequisite Units:
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB314 Statistical Modelling 2
 MAB414 Applied Statistics 2
 MAB524 Statistical Inference

Quantitative Analysis/Financial Mathematics

Postgraduate Mathematics Units:
 MAN526 Time Series Analysis
 MAN624 Applied Statistics
 MAN765 Bayesian Data Analysis
 MAN766 Applied Time Series Analysis
 MAN769 Mathematics of Finance
 MAN775 Statistical Modelling of Financial Processes
 Prerequisite Units:
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB312 Linear Algebra
 MAB313 Mathematics of Finance
 MAB314 Statistical Modelling 2
 MAB413 Differential Equations
 MAB414 Applied Statistics 2
 MAB524 Statistical Inference
 MAB623 Financial Mathematics

Operations Research

Postgraduate Mathematics Units:
 MAN768 Advanced Techniques in Operations Research
 Prerequisite Units:
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB315 Operations Research 2
 MAB525 Operations Research 3A
 MAB625 Operations Research 3B

Scientific Computation and Visualisation

MAN681 Advanced Visualisation and Data Analysis

Prerequisite Mathematics Units:

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB281 Mathematics for Computer Graphics

MAB480 Introduction to Scientific Computation

MAB481 Visualisation and Data Analysis

MAB580 Scientific Computation

Mathematics for Secondary Teaching

Postgraduate mathematics units:

MAN700 Project

Or other postgraduate mathematics units provided you are able to satisfy the prerequisites.

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics.

Non-mathematics units:

Students could select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics.

■ Graduate Certificate in Applied Science (Breast Ultrasound) PH60

Award title: Graduate Certificate in Applied Science (Breast Ultrasound)

Campus: Gardens Point

Duration: 2 semesters (1 year) part-time

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Associate Professor Brian J Thomas

Discipline coordinator: Natasha Kazich

Professional Recognition

This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Structure

To complete the Graduate Certificate in Applied Science (Breast Ultrasound) students must complete the units listed below (total 48 credit points)

Semester 1

PCN162 Principles of Medical Ultrasound

PCN187 Specialist Studies

PCN397-1 Clinical Attachment

Semester 2

PCN184 Breast Imaging

PCN397-2 Clinical Attachment

Note: The PCN397 clinical attachment unit is a 2 semester unit

■ Graduate Certificate in Biotechnology LS66

Award title: Graduate Certificate in Biotechnology

CRICOS code: 054278A

Campus: Gardens Point

Duration: 1 semester (0.5 year) full-time or 2 semesters (1 year) part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Mark O'Brien

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design

LS66 Graduate Certificate in Biotechnology is a foundation program for those people without a science degree or for those who do not have a recent background in the bio-molecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program which comprises 48 credit points of assessed coursework. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning. Students must commence in July and enrol in Semester 2 units first. Advanced standing may be given for this foundation program if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in any of the more advanced biotechnology programs (LS76, LS86 or LS96) in their first semester.

Full-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences

LSN102 Cellular Biosciences

LSN103 Postgraduate Learning and Research Skills

LSB468 Molecular Biology

Part-time Course Structure

Year 1, Semester 2 (MODULE 1)

LSN101 Molecular Biosciences

LSN102 Cellular Biosciences

Year 2, Semester 1 (MODULE 1)

LSN103 Postgraduate Learning and Research Skills

LSB468 Molecular Biology

■ Graduate Certificate in Lighting (off-shore) PH63

Award title: Graduate Certificate in Lighting

Campus: City University of Hong Kong

Duration: 2 semesters part-time (Hong Kong) external

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Dr Ian Cowling

Course Design

Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, daylighting and the human factors of lighting.

Part-time Course Structure

Year 1, Semester 2 (September to December)

PCZ121 Vision Colour and Photometry

PCZ124 Lamps and Luminaires

Year 2, Semester 1 (January to April)

PCZ122 Lighting Design

PCZ123 Sustainability and Human Factors

Notes:

PH63 is offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. The two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be

a follow-up face-to-face session about three weekends later.

Students in the Graduate Certificate in Lighting (PH63) wishing to continue their studies in the Graduate Diploma of Lighting (PH73), on successful completion of 48 credit points, are required to seek admission using an International Student Degree Program Application (F) Form.

■ Graduate Certificate in Lighting (on-shore) PH62

Award title: Graduate Certificate in Lighting

Campus: Gardens Point

Duration: 2 semesters (1 year) (Internal and External) part-time

Credit points: 48 (part-time standard semester: 24)

Course coordinator: Dr Ian Cowling

Course Design

Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, sustainability issues and human factors.

Part-time Course Structure

Year 1, Semester 2 (July to October)

PCN121 Vision Colour and Photometry

PCN124 Lamps and Luminaires

Year 2, Semester 1 (February to June)

PCN122 Lighting Design

PCN123 Sustainability and Human Factors

Notes:

PH62 is offered part-time comprising a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends.

Domestic students in the Graduate Certificate in Lighting (PH62) will be invited, on successful completion of 48 credit points, to continue with studies in the Graduate Diploma in Lighting (PH72).

International students wishing to change courses should consult International Student Business Services.

■ Graduate Certificate in Mathematical Science MA65

Award title: Graduate Certificate in Mathematical Science

CRICOS code: 046044G

Campus: Gardens Point

Duration: 1 semester (0.5 year) full-time or 2 semesters (1 year) part-time

Credit points: 48 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Troy Farrell

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from mathematics units and up to 12 credit points can be taken from units other than mathematics units.

Course Structure

At least 36 credit points must be taken from mathematics units.

Up to 12 credit points can be taken from units other than mathematics units.

The program of study for an individual student will be decided in consultation with the Course Coordinator and will take into account the student's background and area of interest within the mathematical sciences.

Students must contact the course Coordinator prior to commencing.

The units selected may include:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

These units listed are units suitable for students who have not studied mathematics at university but who have achieved a background equivalent to having successfully studied Senior Mathematics B (or B and C). The actual units recommended for an individual student will depend upon their secondary mathematics background, length of time since they have studied mathematics, any tertiary mathematics studies and their area of interest. For other available units please see the list of Undergraduate and Postgraduate Mathematics Units which is obtainable from the School of Mathematical Sciences or go to Unit Outlines under Course Information on the QUT website and enter MA for unit code. Your Course Coordinator can assist with non-mathematics units.

■ Bachelor of Applied Science (Honours) SC60

Award title: Bachelor of Applied Science (Honours) (Study Area A)

CRICOS code: 009041G

Campus: Gardens Point

Duration: 1 Year full-time or 2 Years part-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Associate Professor Peter Fredericks

Discipline coordinator: Dr John Bartley (Chemistry); Dr Tony Clarke (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geology); Associate Professor Terry Walsh (Life Science); Dr Troy Farrell (Mathematics); Dr Esa Jaatinen (Physics)

Professional Recognition

Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

Course Structure

The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in Chem-

istry, Ecology, Environmental Science, Geology, Life Science, Mathematics and Physics.

Course Structure

Chemistry Major

Year 1, Semester 1

PCB700-1 Research Project
 PCB700-2 Research Project
 PCB742 Elective Unit
 PCB780-1 Advanced Topics in Chemistry 1

Year 1, Semester 2

PCB700-3 Research Project
 PCB700-4 Research Project
 PCB700-5 Research Project
 PCB780-2 Advanced Topics in Chemistry 1
 Note: Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Ecology, Environmental Science, Geology Major

Year 1, Semester 1

NRB720-1 Project
 NRB730-1 Research Methods and Strategies
 NRB730-2 Research Methods and Strategies
 NRB735 Advanced Studies in Resource Sciences

Year 1, Semester 2

NRB720-2 Project
 NRB720-3 Project
 NRB720-4 Project
 NRB720-5 Project
 Note: Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Life Science Major

Year 1, Semester 1

LSB850-1 Research Strategies
 LSB851-1 Readings in Life Science 1
 LSB852-1 Project

Year 1, Semester 2

LSB850-2 Research Strategies
 LSB851-2 Readings in Life Science 1
 LSB852-2 Project
 Note: Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Mathematics Major

Year 1, Semester 1

MAN787-1 Project
 36 credit points of elective units selected from the list below*

Year 1, Semester 2

MAN787-2 Project
 MAN787-3 Project
 24 credit points of elective units selected from the list below*

Elective List (Mathematics)

60 credit points to be selected
 MAN717 Minor Project
 MAN761 Analysis
 MAN764 Applied Mathematical Modelling
 MAN765 Bayesian Data Analysis
 MAN766 Applied Time Series Analysis
 MAN768 Advanced Techniques in Operations Research

MAN769 Mathematics of Finance
 MAN771 Computational Mathematics 4
 MAN774 Perturbation Methods
 MAN775 Statistical Modelling of Financial Processes
 MAN778 Applications of Discrete Mathematics

Up to 12 credit points from the following lists can be included in the 60 credit points of electives:

MAB522 Computational Mathematics 3
 MAB524 Statistical Inference
 MAB526 Statistical Science 3
 MAB613 Partial Differential Equations
 MAB672 Advanced Mathematical Modelling

Up to two units of a quantitative nature from another Faculty or School may be included with the permission of the Mathematics Coordinator. The unit(s) must be of honours level and relevant to the proposed program. Examples of suitable units are:

EFN505 Financial Risk Management
 PCB706 Quantum Mechanics

* The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

Note:

Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Physics Major

Year 1, Semester 1

PCB700-1 Research Project
 PCB700-2 Research Project
 PCB706 Quantum Mechanics
 Elective

Note: An alternative to PCB706 Quantum Mechanics may be permitted

Year 1, Semester 2

PCB700-3 Research Project
 PCB700-4 Research Project
 PCB700-5 Research Project
 Elective

Note: Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Elective List (Physics)

PCB664 Lasers and Photonics
 PCB669 Astrophysics 2
 PCB708 Advanced Topics in Physics
 PCN716 Advanced Topics in Physics 2

Note: PCB708 and PCN716 typically comprise two components chosen from atmospheric aerosol physics, classical mechanics, non-linear optics, quantum electrodynamics, advanced general relativity or aspects of units from the Masters in Medical Physics course.

■ Bachelor of Applied Science and Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program SC01 + SC60

Award title: Bachelor of Applied Science (Honours) (Study Area A)

CRICOS code: 003502J

Campus: Gardens Point

Duration: 3 Years (plus initial summer term) full-time

Credit points: 384 [BAppSc 288 cp and BAppSc(Hons) 96 cp]

Course coordinator: Associate Professor Bruce Cornish

Discipline coordinator: Dr John Aaskov (Life Sciences); Dr Graeme Pettet (Mathematics); Associate Professor David Gust (Natural Resource Sciences); Dr Dennis Arnold (Physical and Chemical Sciences - Chemistry); Dr Dmitri Gramotnev (Physical and Chemical Sciences - Physics)

Professional Recognition

As a graduate of the Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Course Design

This course is designed to allow Dean's Scholars to complete both the Bachelor of Applied Science and Bachelor of Applied Science (Honours) courses in an enriched and accelerated manner.

All of the majors and co-majors offered in the SC01 course are available within the Bachelor of Applied Science component of the Dean's Scholars Accelerated Honours Program. The majors available are: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Geoscience, Mathematics, Microbiology and Physics. Co-majors include: Applied Geology, Applied Physics, Astrophysics, Biodiversity, Biomolecular Sciences, Environmental Studies, Forensic Science, Scientific Computation and Visualisation, Statistics. In addition all of the majors offered in the Bachelor of Applied Science (Honours) course are available to Dean's Scholars. (Full details of the SC01 BAppSc and SC60 (Hons) courses are available under the separate entries for these programs.)

Dedicated Dean's Scholars units that facilitate the acceleration and provide enrichment are indicated below:

SCB301 Science for Dean's Scholars

SCB303 Tutorial Program for Dean's Scholars

(substituted by a mathematics unit for mathematics majors)

SCB401 Research Methods for Dean's Scholars (substituted by a mathematics unit for mathematics majors)

SCB501 Research Project for Dean's Scholars (optionally substituted by MAB640 Industry Project for Mathematics majors)

SCB501-1 Research Project for Dean's Scholars (optionally substituted by MAB640 Industry Project for Mathematics majors)

Course Structure

Biochemistry, Biotechnology and Microbiology Majors

Year 1, Summer (24 cp)

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 1, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 1 (72 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Normal BAppSc and BAppSc(Hons) unit:

LSB657 Perspectives in Life Science

Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (12cp + 36 cp respectively)
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

Chemistry Major

Year 1, Summer (24 cp)

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 1, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit: Elective (12 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB401 Research Methods for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 2 (70 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (12 cp + 36 cp respectively)
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

Mathematics Major

Year 1, Summer (24 cp)

Dean's Scholars Program enrichment unit (MS module + MA module + one of the PH, CH, and LS modules):

SCB301 Science for Dean's Scholars

SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

Year 1, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

Year 2, Semester 1 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

Year 2, Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (36 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

Year 3, Semester 1 (60 cp) and Semester 2 (60 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (24 cp + 60 cp respectively)
Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (36 cp)

Physics Major

Year 1, Summer (24 cp)

Dean's Scholars Program enrichment unit:

SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit:

SCB303 Tutorial Program for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 1, Semester 2 (60 cp)

Dean's Scholars Program enrichment unit: Elective (12 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 1 (60 cp)

Dean's Scholars Program enrichment unit (approved Physics elective)

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

Year 2, Semester 2 (72 cp)

Dean's Scholars Program enrichment unit:

SCB501-1 Research Project for Dean's Scholars

Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (24 cp)

Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)

Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (12 cp + 36 cp respectively)

Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

■ **Bachelor of Applied Science SC01**

Award title: Bachelor of Applied Science (Study Area A)

CRICOS code: 003502J

Campus: Gardens Point and Carseldine

Duration: 3 Years full-time; Carseldine campus: After the completion of first year (ie 96 credit points of study), students must transfer to Gardens Point campus for the remainder of the course. 6 Years part-time; Carseldine campus: After the completion of first year (ie 96 credit points of study), students must transfer to Gardens Point campus for the remainder of the course.

Credit points: 288 (minimum) (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Megan Hargreaves

Discipline coordinator: Dr Peter Cooke (Biochemistry); Dr Marion Bateson (Biotechnology); A/Prof Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Graham Kimber (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Glenn Fulford (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

Course Design

The Bachelor of Applied Science course program comprises a set of foundation core science units studied in your first year, after which you choose a major and a co-major area of study during your second and third years. A choice of ten science majors and a range of co-major areas of study are available across both science and non-science disciplines.

The QUT Applied Science course is the only science course offered that gives you such a broad range of science options and the flexibility to create your own personal science degree program. If you are not sure what major to choose, don't worry because this decision can be delayed until after you have completed your first semester of study. Academic staff are available to advise on how best to structure your degree to suit your personal and career aspirations and ensure you meet eligibility criteria for membership of professional bodies when you graduate.

Our first semester core units are designed as a foundation to broaden your science experience and give you a sample of the breadth of disciplines available. The four first-semester units you study will generally include at least three of the following:

Life Science: an introduction to the study of life processes, with cells and organisms as the central point of reference.

Statistical Data Analysis: how to extract valid results from data collected.

Environmental Science: incorporating the chemical, physical and biological processes that influence the air, the earth and the atmosphere.

Physical Science: involving the basic concepts of physics and chemistry.

Science Majors, Science Co-majors and Non-Science Co-majors

Science Majors:

- Biochemistry
- Biotechnology
- Chemistry
- Ecology
- Environmental Science
- Forensic Science*
- Geoscience
- Mathematics
- Microbiology
- Physics

* The Forensic Science major must be taken as a double major with another science area eg Chemistry or Biotechnology.

Science Co-majors:

One of the majors listed above or:

- Applied Geology
- Applied Physics
- Astrophysics
- Biodiversity
- Biomolecular Sciences
- Industrial Chemistry
- Scientific Computation and Visualisation
- Statistics
- Or a non-science co-major

Examples of Non-Science Co-majors:

- Accountancy
- Aviation
- Banking and Finance
- Communication
- Economics
- Environmental Studies
- Human Resource Management
- Marketing
- Psychology

Course Rules

1. To fulfil the requirements for the award of the Bachelor of Applied Science degree, a student must complete a total of at least 288 credit points, comprising at least 192 credit points in units offered by the Faculty of Science. The units completed for the award of the degree must include:
 - (a) at least six faculty core units, including at least three foundation units, and three other first year science units
 - (b) a major study
 - (c) a co-major study (or group of units constituting 72 credit points at advanced level in any approved area of study in the University).

Major and co-major studies are defined in terms of the discipline area and the academic level at which the units are offered.

A major must be completed in one of the following discipline areas: biochemistry; biotechnology; chemistry; ecology; environmental science; geoscience; mathematics; microbiology; physics. A major comprises 96 credit points of units at advanced level, including at least 48 credit points at the third level.

A co-major may be completed by selecting appropriate units from another major, or from the following discipline areas: applied geology, applied physics, astrophysics, biodiversity, biomolecular science, environmental management, environmental science, forensic science, industrial chemistry, scientific computation and visualisation, statistics. A co-major comprises 72 credit points at advanced level. Alternatively, the co-major may be constituted by an approved group of units comprising 72 credit points at advanced level in any approved area of study in the university. Major and co-major studies may be taken in closely related discipline areas.

2. The maximum number of credit points that may be counted from units other than those at advanced level is 120 credit points.

3. Elective units may be chosen from (a) SCO1 majors/co-majors other than those undertaken by a student, (b) other appropriate units offered by the Faculty of Science, and (c) units offered by other faculties.

4. Students are normally expected to complete the course in minimum time. A full-time student normally enrolls in an average of 48 credit points per semester for six semesters and a part-time student normally enrolls in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)

5. All commencing and certain continuing students may attend scheduled academic advising sessions to plan their progression through the course, and should obtain the approval of an academic adviser prior to effecting any change of enrolment.

Notes on the Rules

1. For offerings in the Faculty of Science, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Faculty of Science, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or co-major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/co-major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BAppSc and will appear in the award title in parentheses. The general form of the award will therefore be: BAppSc(Major).

Industrial Internship Program

A registered student who has successfully completed the equivalent of the first and second year of the standard full-time course, normally with a grade point average (GPA) of not less than 4.5 overall, may, at the discretion of the Industrial Internship Coordinator, apply to undertake the Industrial Internship Program.

This program involves 10-12 months of paid full-time employment in an approved industrial/commercial environment during which time the student is enrolled in the unit SCB100 Cooperative Education. On completion of the approved industrial internship placement the student resumes formal studies.

General Requirements for Majors

The units referred to in the general requirements for majors are listed in Schedules 1, 2 and 3.

Course Structure

Biochemistry

First Level Units

Semester 1

MANDATORY UNIT:

LSB118 Life Science

MAB101 Statistical Data Analysis 1

PLUS EITHER:

PCB140 Introductory Chemistry

OR

PCB142 Chemistry 1

Plus ONE other unit, for example:

MAB105 Preparatory Mathematics

NRB100 Environmental Science

PCB101 Physical Science

Semester 2

MANDATORY UNITS:

LSB238 Cell and Molecular Biology 1

NRB270 Animal and Plant Structure and Function

PCB242 Chemistry 2

Plus ONE other unit, for example:

LSB258 Principles of Human Physiology

MAB101 Statistical Data Analysis 1

PYB012 Psychology

Second Level Units

Semester 1

MANDATORY UNITS:

LSB308 Biochemistry

LSB338 Cell and Molecular Biology 2

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

LSB408 Metabolism

LSB468 Molecular Biology

Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNIT:

LSB508 Advanced Metabolism

PLUS:

LSB527 Biomedical Research Technologies

Or choose a unit from:

LSB509 Medical Biotechnology 1

LSB537 Genetic Engineering

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNIT:

LSB608 Protein Science

PLUS

LSB607 Protein Purification

Or choose a unit from:

LSB609 Medical Biotechnology 2

LSB619 Genomics and Bioinformatics

Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Biomolecular Sciences, Biotechnology, Chemistry, Forensic Science, Microbiology

Biotechnology Major

First Level Units

Semester 1

MANDATORY UNITS:

LSB118 Life Science

MAB101 Statistical Data Analysis 1

PLUS EITHER:

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Plus ONE other unit, for example:

MAB105 Preparatory Mathematics

NRB100 Environmental Science

PCB101 Physical Science

Semester 2

MANDATORY UNITS:

LSB238 Cell and Molecular Biology 1

NRB270 Animal and Plant Structure and Function

PCB242 Chemistry 2

Plus ONE other unit, for example:

LSB258 Principles of Human Physiology

MAB101 Statistical Data Analysis 1

PYB012 Psychology

Second Level Units

Semester 1

MANDATORY UNITS:

LSB308 Biochemistry

LSB338 Cell and Molecular Biology 2

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

LSB449 Human Cell Biology

LSB468 Molecular Biology

Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNITS:

LSB537 Genetic Engineering

PLUS EITHER:

LSB509 Medical Biotechnology 1

Or

LSB577 Plant Biotechnology 1

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

LSB609 Medical Biotechnology 2

OR

LSB677 Plant Biotechnology 2

Plus TWO other units selected according to the comajor requirements, for example:

LSB605 Protein Engineering and Bioprocessing

LSB619 Genomics and Bioinformatics

Recommended Comajors:

Biomolecular Sciences, Biochemistry, Forensic Science, Microbiology

Chemistry Major

First Level Units

Semester 1

MANDATORY UNITS:

PCB101 Physical Science

PCB142 Chemistry 1

PLUS EITHER:

MAB100 Mathematical Sciences 1A

Or

MAB105 Preparatory Mathematics

Or

MAB111 Mathematical Sciences 1B

Plus either:

LSB118 Life Science

Or

NRB100 Environmental Science

Semester 2

MANDATORY UNITS:

MAB101 Statistical Data Analysis 1

PCB242 Chemistry 2

Plus TWO other units, for example:

PCB150 Physics 1H

PCB200 Chemical Technology 1

PYB012 Psychology

Second Level Units

Semester 1

MANDATORY UNITS:

PCB334 Inorganic Chemistry

PCB354 Structure and Mechanism in Organic Chemistry

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

PCB405 Principles of Physical Chemistry

PCB444 Spectroscopy

Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNITS:

PCB505 Advanced Physical Chemistry

PCB554 Synthesis and Reactivity in Organic Chemistry

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

PCB634 Organometallic and Coordination Chemistry

PCB644 Frontiers in Chemistry

Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Biochemistry, Biotechnology, Forensic Science, Industrial Chemistry

Ecology Major

First Level Units

Semester 1

MANDATORY UNITS:

SCIENCE

LSB118 Life Science
NRB100 Environmental Science
PCB101 Physical Science
PLUS EITHER:
MAB101 Statistical Data Analysis 1
Or
MAB105 Preparatory Mathematics
Or
NRB230 Planet Earth

Semester 2

MANDATORY UNIT:
NRB270 Animal and Plant Structure and Function
OPTIONAL UNITS:
LSB238 Cell and Molecular Biology 1
MAB101 Statistical Data Analysis 1
NRB240 History of Life on Earth

Second Level Units

Semester 1

MANDATORY UNITS:
NRB301 Earth Surface Systems
NRB311 Population Ecology
Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:
NRB410 Genetics and Evolution
NRB412 Experimental Design
Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNITS:
NRB510 Population Genetics
NRB511 Population Management
Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:
NRB610 Ecological Applications
NRB611 Conservation Biology
Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Biodiversity, Environmental Science

Environmental Science Major

First Level Units

Semester 1

MANDATORY UNITS:
LSB118 Life Science
NRB100 Environmental Science
PLUS EITHER:
MAB101 Statistical Data Analysis 1
Or
MAB105 Preparatory Mathematics
Plus either:
PCB140 Introductory Chemistry
Or
PCB142 Chemistry 1
Or
NRB230 Planet Earth

Semester 2

MANDATORY UNIT:
NRB270 Animal and Plant Structure and Function
OPTIONAL UNITS:

LSB238 Cell and Molecular Biology 1
MAB101 Statistical Data Analysis 1
NRB240 History of Life on Earth

Second Level Units

Semester 1

MANDATORY UNITS:
NRB301 Earth Surface Systems
PLUS EITHER:
NRB311 Population Ecology
Or
NRB370 Invertebrate Biology
Or
NRB371 Plant Biology
Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:
NRB412 Experimental Design
NRB440 Environmental Chemistry
Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNITS:
NRB500 Environmental Systems and Modelling
NRB601 Field Mapping and Monitoring of Natural Resources
Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:
NRB501 Spatial Analysis of Environmental Systems
NRB600 Sustainable Environmental Management
Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Biodiversity, Ecology, Geoscience

Forensic Science Major

Note: Must be taken as a double major with Biochemistry, Biotechnology, Chemistry or Microbiology

First Level Units

Semester 1

MANDATORY UNITS:
LSB118 Life Science
MAB101 Statistical Data Analysis 1
PLUS EITHER:
PCB140 Introductory Chemistry
Or
PCB142 Chemistry 1
Plus either:
NRB100 Environmental Science
Or
PCB101 Physical Science

Semester 2

MANDATORY UNITS:
LSB238 Cell and Molecular Biology 1
NRB270 Animal and Plant Structure and Function
PCB242 Chemistry 2
Plus ONE other unit, for example:
LSB258 Principles of Human Physiology
MAB101 Statistical Data Analysis 1
PYB012 Psychology

Second Level Units

Semester 1

MANDATORY UNITS:

LSB468 Molecular Biology
 PCB414 Industrial and Environmental Analytical Chemistry
 SCB384 Forensic Science
 Plus ONE or TWO other units selected according to the second-major requirements

Semester 2

MANDATORY UNITS:

JSB937 Forensic Scientific Evidence
 LSB468 Molecular Biology
 PCB414 Industrial and Environmental Analytical Chemistry
 Plus ONE or TWO other units selected according to the second-major requirements

Third Level Units

Semester 1

MANDATORY UNITS:

PCB514 Instrumental Analysis
 PCB584 Forensic Examination of Physical Evidence
 Plus TWO other units selected according to the second-major requirements

Semester 2

MANDATORY UNITS:

LSB684 Forensic DNA Profiling
 PCB684 Forensic Analysis and Toxicology
 Plus TWO other units selected according to the second-major requirements

Geoscience Major

First Level Units

Semester 1

MANDATORY UNITS:

MAB101 Statistical Data Analysis 1
 NRB100 Environmental Science
 NRB230 Planet Earth
 PCB101 Physical Science

Semester 2

MANDATORY UNITS:

MAB100 Mathematical Sciences 1A
 NRB240 History of Life on Earth
 PCB142 Chemistry 1
 Plus ONE other unit, for example:
 SCB222 Exploration of the Universe

Second Level Units

Semester 1

MANDATORY UNITS:

NRB301 Earth Surface Systems
 NRB333 Mineralogy
 Plus TWO other units selected according to the comajor requirements, for example:
 NRB331 Sedimentary Geology

Semester 2

MANDATORY UNITS:

NRB434 Structural Geology
 NRB436 Introduction to Igneous and Metamorphic Petrology
 Plus TWO other units selected according to the comajor requirements, for example:
 NRB437 Stratigraphy and Depositional Environments

Third Level Units

Semester 1

MANDATORY UNITS:

NRB534 Geophysics
 NRB536 Petrology and Geochemistry

NRB601 Field Mapping and Monitoring of Natural Resources

Plus ONE other unit selected according to the comajor requirements, for example:

NRB535 Geology of Fossil Fuels

Semester 2

ONE OF:

NRB633 Hydrogeology
 NRB635 Plate Tectonics and Advanced Structural Geology
 NRB636 Stratigraphy and Basin Analysis
 PSB655 Remote Sensing
 Plus THREE other units selected according to the comajor requirements

Recommended Comajors:

Applied Geology, Environmental Science

Mathematics Major

First Level Units

Semester 1

MANDATORY UNITS:

MAB100 Mathematical Sciences 1A
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 PLUS ONE OR TWO OF FOUNDATION UNITS:
 LSB118 Life Science
 NRB100 Environmental Science
 PCB101 Physical Science

Semester 2

MANDATORY UNITS:

MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB220 Computational Mathematics 1
 PLUS ONE OR TWO OF FOUNDATION UNITS:
 LSB118 Life Science
 PCB101 Physical Science

Second Level Units

Semester 1

Note: Select 96 credit points of advanced level units from Levels 2 and 3. Students must complete at least one of MAB311, MAB312 or MAB413

OPTIONAL UNITS:

MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB313 Mathematics of Finance
 MAB314 Statistical Modelling 2
 MAB481 Visualisation and Data Analysis

Semester 2

OPTIONAL UNITS:

MAB315 Operations Research 2
 MAB413 Differential Equations
 MAB414 Applied Statistics 2
 MAB420 Computational Mathematics 2
 MAB422 Mathematical Modelling
 MAB480 Introduction to Scientific Computation

Third Level Units

Semester 1

OPTIONAL UNITS:

MAB521 Applied Mathematics 3
 MAB522 Computational Mathematics 3
 MAB523 Introduction to Quality Management
 MAB525 Operations Research 3A
 MAB526 Statistical Science 3
 MAB580 Scientific Computation

MAB672 Advanced Mathematical Modelling

Semester 2

OPTIONAL UNITS:

- MAB526 Statistical Science 3
- MAB613 Partial Differential Equations
- MAB621 Discrete Mathematics
- MAB623 Financial Mathematics
- MAB624 Applied Statistics 3
- MAB625 Operations Research 3B
- MAB681 Advanced Visualisation and Data Analysis

Recommended Comajors:

Maths, Physics, Statistics, Scientific Computation and Visualisation

Microbiology Major

First Level Units

Semester 1

MANDATORY UNIT:

- LSB118 Life Science
- MAB101 Statistical Data Analysis 1

PLUS EITHER:

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Plus ONE other unit, for example:

- MAB105 Preparatory Mathematics
- NRB100 Environmental Science
- PCB101 Physical Science

Semester 2

MANDATORY UNITS:

LSB238 Cell and Molecular Biology 1

PCB242 Chemistry 2

OPTIONAL UNIT:

NRB270 Animal and Plant Structure and Function

Plus ONE other unit, for example:

LSB258 Principles of Human Physiology

MAB101 Statistical Data Analysis 1

PYB012 Psychology

Second Level Units

Semester 1

MANDATORY UNITS:

LSB308 Biochemistry

LSB328 Microbiology 1

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNIT:

LSB428 Microbiology 2

Plus either:

LSB408 Metabolism

Or

LSB449 Human Cell Biology

Or

LSB468 Molecular Biology

Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

Select TWO units from:

- LSB528 Environmental Microbiology
- LSB547 Bacterial Pathogenesis and Disease Diagnosis
- LSB568 Electron Microscopy
- LSB578 Virology

Plus TWO other units selected according to the comajor requirements

Semester 2

Select TWO units from:

- LSB628 Food Microbiology
- LSB647 Clinical Mycology and Parasitology
- LSB648 Molecular Microbiology
- Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Biochemistry, Biomolecular Sciences, Biotechnology, Forensic Science

Physics Major

First Level Units

Semester 1

MANDATORY UNITS:

MAB111 Mathematical Sciences 1B

PCB101 Physical Science

OPTIONAL UNITS:

PCB107 Physics and Quantitative Techniques

Plus either:

LSB118 Life Science

Or

NRB100 Environmental Science

Semester 2

MANDATORY UNITS:

MAB112 Mathematical Sciences 1C

PCB250 Physics 1

PCB260 Physics 1A

Select ONE other unit

Second Level Units

Semester 1

MANDATORY UNITS:

MAB311 Advanced Calculus

PCB361 AC Theory and Electronics

PCB362 Physics 2

Plus ONE other unit selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

PCB460 Instrumentation and Computational Methods

PCB462 Thermodynamics and Solid State Physics

Plus TWO other units selected according to the comajor requirements

Third Level Units

Semester 1

MANDATORY UNITS:

PCB561 Quantum and Condensed Matter Physics

PCB562 Physical Methods of Analysis

Plus TWO other units selected according to the comajor requirements

Semester 2

MANDATORY UNITS:

PCB661 Experimental Physics

PCB665 Physics 3

Plus TWO other units selected according to the comajor requirements

Recommended Comajors:

Applied Physics, Astrophysics, Mathematics

Applied Geology Comajor

First Level Units

First year units as for Geoscience major

Second Level Units

ENVIRONMENTAL GEOLOGY EMPHASIS

NRB331 Sedimentary Geology

NRB437 Stratigraphy and Depositional Environments
NRB440 Environmental Chemistry

EXPLORATION GEOLOGY EMPHASIS

NRB331 Sedimentary Geology
NRB437 Stratigraphy and Depositional Environments
NRB440 Environmental Chemistry

Third Level Units

ENVIRONMENTAL GEOLOGY EMPHASIS

NRB501 Spatial Analysis of Environmental Systems
NRB633 Hydrogeology

EXPLORATION GEOLOGY EMPHASIS

NRB535 Geology of Fossil Fuels
NRB635 Plate Tectonics and Advanced Structural Geology
NRB636 Stratigraphy and Basin Analysis

Recommended Major:

This comajor is recommended for Geoscience majors

Applied Physics Comajor

First Level Units

First year units as for Physics major, plus ITB111 Software Development

Second Level Units

PCB445 Nanotechnology and Nanoscience
PCB563 Global Energy Balance and Climate Change

Third Level Units

MAB312 Linear Algebra
PCB562 Physical Methods of Analysis
PCB593 Digital Image Processing
PCB664 Lasers and Photonics

Recommended Majors:

This comajor is recommended for Physics majors

Astrophysics Comajor

First Level Units

First year units as for Physics major, plus SCB222 Exploration of the Universe

Second Level Units

PCB469 Astrophysics 1
PCB563 Global Energy Balance and Climate Change

Third Level Units

MAB312 Linear Algebra
PCB593 Digital Image Processing
PCB669 Astrophysics 2
PCB562 Physical Methods of Analysis

Or

PSB655 Remote Sensing

Recommended Majors:

This comajor is recommended for Physics majors

Biodiversity Comajor

First Level Units

First year units as for Ecology major

Second Level Units

LSB397 Plant Physiology

Or

NRB501 Spatial Analysis of Environmental Systems
NRB370 Invertebrate Biology
NRB371 Plant Biology
NRB470 Vertebrate Biology

Third Level Units

NRB572 Terrestrial Ecosystems
NRB672 Marine and Freshwater Ecosystems

Recommended Majors:

This comajor is recommended for Ecology majors

Biomolecular Sciences Comajor

First Level Units

First year units as for Life Science majors

Second and Third Level Units

Six (6) approved units chosen from advanced level Life Science units. May include Physiology units: LSB358, LSB458, LSB558 and LSB658.

Recommended Majors:

This comajor is recommended for Life Science majors

Industrial Chemistry Comajor

First Level Units

First year units as for Chemistry major, but including PCB200 Chemical Technology 1

Second Level Units

PCB314 Concepts in Analytical Chemistry
PCB414 Industrial and Environmental Analytical Chemistry

Third Level Units

PCB514 Instrumental Analysis
PCB524 Unit Operations
PCB614 Advanced Analysis
PCB624 Chemistry in Industry and Technology

Recommended Majors:

This comajor is recommended for Chemistry majors

Scientific Computation and Visualisation Comajor

First Level Units

First year units as for Maths major, except do not need MAB210 Statistical Modelling 1. Recommended: MAB112 Mathematical Sciences 1C

Second Level Units

MAB480 Introduction to Scientific Computation
MAB481 Visualisation and Data Analysis

Third Level Units

MAB580 Scientific Computation
(Note: MAB580 not offered after 2006)

Or

MAB681 Advanced Visualisation and Data Analysis

Recommended Majors:

This comajor is recommended for Mathematics or Physics majors (others please see coordinator)

Statistics Comajor

First Level Units

MAB100 Mathematical Sciences 1A

Or

SA in Senior Maths B

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

Second Level Units

MAB210 Statistical Modelling 1

MAB414 Applied Statistics 2

Third Level Units

Plus four approved advanced level Mathematics units

Recommended Majors:

This major is recommended for most other majors, particularly Mathematics, Physics and Ecology

Additional Comajors

You may choose your comajor from one of the Majors

Biochemistry

LSB308 Biochemistry
 LSB408 Metabolism
 LSB508 Advanced Metabolism
 LSB608 Protein Science
 Plus TWO approved units

Biotechnology

LSB308 Biochemistry
 LSB338 Cell and Molecular Biology 2
 LSB468 Molecular Biology
 LSB537 Genetic Engineering
 LSB408 Metabolism
 Or
 LSB497 Plant Molecular Biology
 Plus ONE approved unit

Chemistry

SIX of the mandatory units in the Chemistry major
 Ecology
 SIX of the mandatory units in the Ecology major

Environmental Science

FOUR of the mandatory units from the major
 Plus TWO approved Science units at advanced level

Forensic Science

JSB937 Forensic Scientific Evidence
 LSB468 Molecular Biology
 PCB414 Industrial and Environmental Analytical Chemistry
 SCB384 Forensic Science
 Plus TWO other units as approved by the coordinator

Geoscience

SIX approved units from the Geoscience major
 Mathematics
 SIX approved level Mathematics units (may include MAB210/MAB220)

Microbiology

LSB328 Microbiology 1
 LSB428 Microbiology 2
 Plus FOUR third level Microbiology units selected from the major list

Physics

MAB134 Electrical Engineering Mathematics 3
 PCB361 AC Theory and Electronics
 PCB362 Physics 2
 PCB460 Instrumentation and Computational Methods
 PCB462 Thermodynamics and Solid State Physics

Aviation Comajor

Suitable aviation studies (an approved Associate Diploma in aviation or equivalent) can be accepted as a comajor within the Bachelor of Applied Science course SC01. A total of 96 credit points can be credited for the aviation studies; this is based on 72 credit points for the comajor plus an additional 24 credit points generally required to underpin a comajor.

In the BAppSc with aviation, students can either (a) study for the BAppSc degree and the aviation Associate Diploma concurrently, or (b) obtain credit for the SC01 course for an approved Associate Diploma in aviation that had been completed prior to gaining entry to the SC01 course.

(a) Students who wish to study for the BAppSc and the aviation Associate Diploma concurrently are required to apply to an accredited flying school or TAFE college for entry to the Associate Diploma. The aviation studies are undertaken at the same time as the SC01 course. This joint program generally requires at least four years.

(b) Students who have already completed an approved Associate Diploma prior to admission to the SC01 course will be granted 96 credit points towards the BAppSc degree.

Non-Science Comajors (subject to timetable restrictions)

For comajors in humanities, business, IT or Psychology, please consult with your major coordinator, or the Course Coordinator, Dr Megan Hargreaves (phone 3138 2244 or email m.hargreaves@qut.edu.au)

■ **Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) PH38**

Award title: Bachelor of Applied Science (Medical Radiation Technology)

CRICOS code: 037588F

Campus: Gardens Point

Duration: 3 Years full-time

Credit points: 288 (full-time standard semester: 48)

Course coordinator: Associate Professor Pam Rowntree

Other Majors

See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology).

Special Requirements

Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their clinical placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

Professional Recognition

On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

Course Structure

Medical Imaging Technology

Year 1, Semester 1

LSB145 Anatomy 1
 PCB007 Patient Care in Professional Practice
 PCB107 Physics and Quantitative Techniques
 PCB178 Principles of Medical Radiations

Year 1, Semester 2

LSB245 Anatomy 2 and Introductory Pathology
 PCB272 Radiation Physics
 PCB276 General Radiography 1
 PCB277 Radiographic Practice

Year 2, Semester 1

LSB321 Systematic Pathology
 LSB345 Regional & Imaging Anatomy 1
 PCB375-1 Radiographic Equipment
 PCB377 General Radiography 2
 PCB379 Clinical Radiography 1

Year 2, Semester 2

LSB445 Regional and Imaging Anatomy 2
 PCB375-2 Radiographic Equipment
 PCB476 Special Procedures

PCB477 Complementary Imaging Techniques

PCB479 Clinical Radiography 2

Year 3, Semester 1

PCB567 Advanced Radiographic Technique 1

PCB580-1 Clinical Radiography 3

PCB593 Digital Image Processing

PCB672-1 Project

PCB681 Computed Tomography Imaging

Year 3, Semester 2

PCB580-2 Clinical Radiography 3

PCB667 Advanced Radiographic Technique 2

PCB672-2 Project

PCB675 Radiation Safety and Biology

PCB682 Magnetic Resonance Imaging

■ **Bachelor of Applied Science (Carseldine First-year Experience Program) SC01**

Award title: Bachelor of Applied Science (Study Area A)

CRICOS code: 003502J

Campus: Carseldine

Duration: 1 year at Carseldine and then 2 years at Gardens Point full-time or 2 years at Carseldine and then 4 years at Gardens Point part-time

Credit points: 96 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Megan Hargreaves

Discipline coordinator: Dr Habib Yezdani (Science Carseldine Coordinator); Dr Peter Cooke (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Mr Graham Kimber (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Christine Knox (Microbiology)

Professional Recognition

For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Geological Society of Australia, Australian Society for Microbiology.

Course Design

The Bachelor of Applied Science course allows students to major in one of 10 scientific fields. The first year program at Carseldine will allow students to transfer to all Science majors at Gardens Point campus to complete the Bachelor of Applied Science degree, except for Physics and Mathematics majors which must be done wholly at Gardens Point.

Students should undertake THREE of the four foundation units (LSB118 Life Science, MAB101 Statistical Data Analysis 1, NRB100 Environmental Science, PCB101 Physical Science), according to the requirements of their intended major. Most majors require MAB101, and if students have not done Maths B at year 12 level, they will need to take MAB105 in semester 1, before progressing to MAB101 in second semester.

Upon completion of the first year program students will transfer to the Bachelor of Applied Science (SC01) at Gardens Point Campus. For further details of the major areas of study offered, see the Bachelor of Applied Science (SC01) course offered at Gardens Point Campus

Semester 1

Four units from:

LSB118 Life Science
MAB105 Preparatory Mathematics
NRB100 Environmental Science
PCB101 Physical Science
PCB140 Introductory Chemistry
Note: Select MAB105 if no Maths B

Semester 2

Four units from:

LSB238 Cell and Molecular Biology 1
MAB101 Statistical Data Analysis 1
NRB230 Planet Earth
NRB270 Animal and Plant Structure and Function
PCB242 Chemistry 2
Note: Select NRB230 for Geoscience majors

■ Bachelor of Applied Science (Medical Science) LS37

Award title: Bachelor of Applied Science (Medical Science)

CRICOS code: 020331D

Campus: Gardens Point

Duration: 3 Years full-time or 6 Years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Dr Trevor Forster

Special Course Requirements

Students are required to undertake a minimum four-week work experience program in a practising pathology laboratory. This takes place at the end of the second year in the full-time program and in a suitable vacation period during the part-time program. Proof of successful vaccination against Hepatitis B must be provided by students at the end of first semester of year two of the program.

Professional Recognition

Graduates are immediately eligible for graduate membership of the Australian Institute of Medical Scientists and will have completed the academic requirements for admission as Members.

Full-time Course Structure**Year 1, Semester 1**

LSB118 Life Science
MAB141 Mathematics and Statistics for Medical Science
PCB142 Chemistry 1
PCB150 Physics 1H

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1

LSB565 Histopathology 2

Year 6, Semester 2

LSB655 Haematology 2
LSB665 Immunohaematology

■ Bachelor of Applied Science/Bachelor of Mathematics SC20

Award title: Bachelor of Applied Science (Study Area A)/Bachelor of Mathematics

CRICOS code: 049434C

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Megan Hargreaves (Science); Dr Graeme Pettet (Mathematics)

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available. For professional recognition relating to the science majors refer to Bachelor of Applied Science (SC01).

Course Design

This four year double degree course integrates studies in one of the science majors with studies in Mathematics. The Science majors available are Biochemistry, Biotechnology,

Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

Course Structure

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:

Level 1 Units:

Students must complete the following Level 1 Mathematics units:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB210 Statistical Modelling 1

MAB220 Computational Mathematics 1

Note: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent).

Students must complete at least TWO of the following Level 1 Science Foundation units:

LSB118 Life Science

NRB100 Environmental Science

PCB101 Physical Science

In addition, students are required to complete any mandatory units - and should complete all recommended units, specified for the science major selected.

Level 2 and 3 Mathematics Units:

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:

Students must complete:

MAB311 Advanced Calculus

MAB312 Linear Algebra

And at least one of:

MAB315 Operations Research 2

MAB413 Differential Equations

MAB414 Applied Statistics 2

MAB422 Mathematical Modelling

Level 2 and 3 Science Units:

At least 96 credit points (8 twelve-credit point units) must be taken from Level 2 and Level 3 Science units with at least 48 credit points (4 twelve credit point units) from Level 3 Science units. The science units must meet the advanced level requirements of one of the following majors of the SC01 Bachelor of Applied Science course: Biochemistry; Biotechnology; Chemistry; Ecology; Environmental Science; Forensic Science; Geoscience: Microbiology or Physics.

Elective Units:

Elective units (number depends upon major selected) can be taken from Faculty of Science units. Because up to two MAB units may normally be specified in a Science degree depending on the major selected, an equivalent number of units may be substituted with units from another Faculty if such units are required as prerequisites.

Science Units: Level 1 Science Foundation Units

Students must select at least TWO of these units:

LSB118 Life Science

NRB100 Environmental Science

PCB101 Physical Science

Science Units: Biochemistry Major

Level 1

LSB118 Life Science

LSB238 Cell and Molecular Biology 1

NRB270 Animal and Plant Structure and Function

PCB242 Chemistry 2

Either

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Recommended Unit:

LSB258 Principles of Human Physiology

Level 2

LSB308 Biochemistry

LSB408 Metabolism

Two other Level 2 units from:

LSB338 Cell and Molecular Biology 2

LSB449 Human Cell Biology

LSB468 Molecular Biology

LSB605 Protein Engineering and Bioprocessing

Level 3

LSB508 Advanced Metabolism

LSB608 Protein Science

Two other Level 3 units from:

LSB509 Medical Biotechnology 1

LSB527 Biomedical Research Technologies

LSB537 Genetic Engineering

LSB607 Protein Purification

LSB609 Medical Biotechnology 2

LSB619 Genomics and Bioinformatics

Science Units: Biotechnology Major

Level 1

LSB118 Life Science

LSB238 Cell and Molecular Biology 1

NRB270 Animal and Plant Structure and Function

PCB242 Chemistry 2

Either

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Recommended Unit:

LSB258 Principles of Human Physiology

Level 2

LSB308 Biochemistry

LSB338 Cell and Molecular Biology 2

LSB468 Molecular Biology

One other Level 2 unit from:

LSB328 Microbiology 1

LSB397 Plant Physiology

LSB408 Metabolism

LSB449 Human Cell Biology

LSB497 Plant Molecular Biology

LSB605 Protein Engineering and Bioprocessing

Level 3

LSB537 Genetic Engineering

Three other Level 3 units from:

LSB509 Medical Biotechnology 1

LSB577 Plant Biotechnology 1

LSB609 Medical Biotechnology 2

LSB619 Genomics and Bioinformatics

LSB677 Plant Biotechnology 2

Science Units: Chemistry Major

Level 1

PCB101 Physical Science
 PCB142 Chemistry 1
 PCB242 Chemistry 2
 Recommended Units:
 PCB200 Chemical Technology 1
 PCB260 Physics 1A

Level 2

PCB334 Inorganic Chemistry
 PCB354 Structure and Mechanism in Organic Chemistry
 PCB405 Principles of Physical Chemistry
 PCB444 Spectroscopy

Level 3

PCB505 Advanced Physical Chemistry
 PCB554 Synthesis and Reactivity in Organic Chemistry
 PCB634 Organometallic and Coordination Chemistry
 PCB644 Frontiers in Chemistry

Science Units: Ecology Major

Level 1

LSB118 Life Science
 NRB100 Environmental Science
 NRB270 Animal and Plant Structure and Function
 PCB101 Physical Science
 Recommended Units:
 NRB230 Planet Earth
 NRB240 History of Life on Earth

Level 2

NRB301 Earth Surface Systems
 NRB311 Population Ecology
 NRB410 Genetics and Evolution
 NRB412 Experimental Design

Level 3

NRB510 Population Genetics
 NRB511 Population Management
 NRB610 Ecological Applications
 NRB611 Conservation Biology

Science Units: Environmental Science Major

Level 1

LSB118 Life Science
 NRB100 Environmental Science
 NRB240 History of Life on Earth
 Either
 PCB140 Introductory Chemistry
 Or
 PCB142 Chemistry 1
 Recommended Units:
 NRB230 Planet Earth
 NRB270 Animal and Plant Structure and Function

Level 2

NRB301 Earth Surface Systems
 NRB311 Population Ecology
 NRB412 Experimental Design
 NRB440 Environmental Chemistry

Level 3

NRB500 Environmental Systems and Modelling
 NRB572 Terrestrial Ecosystems

NRB600 Sustainable Environmental Management
 NRB672 Marine and Freshwater Ecosystems

Science Units: Forensic Science Major

Level 1

LSB118 Life Science
 LSB238 Cell and Molecular Biology 1
 NRB270 Animal and Plant Structure and Function
 PCB101 Physical Science
 PCB242 Chemistry 2
 Either
 PCB140 Introductory Chemistry
 Or
 PCB142 Chemistry 1
 Recommended:
 LSB258 Principles of Human Physiology

Level 2

JSB937 Forensic Scientific Evidence
 LSB468 Molecular Biology
 PCB414 Industrial and Environmental Analytical Chemistry
 SCB384 Forensic Science

Level 3

LSB684 Forensic DNA Profiling
 PCB514 Instrumental Analysis
 PCB584 Forensic Examination of Physical Evidence
 PCB684 Forensic Analysis and Toxicology

Science Units: Geoscience Major

Level 1

NRB100 Environmental Science
 NRB230 Planet Earth
 NRB240 History of Life on Earth
 PCB101 Physical Science
 Either
 PCB140 Introductory Chemistry
 Or
 PCB142 Chemistry 1

Level 2

NRB331 Sedimentary Geology
 NRB333 Mineralogy
 NRB434 Structural Geology
 NRB436 Introduction to Igneous and Metamorphic Petrology

Level 3

NRB534 Geophysics
 NRB536 Petrology and Geochemistry
 NRB601 Field Mapping and Monitoring of Natural Resources
 One other Level 3 unit from:
 NRB535 Geology of Fossil Fuels
 NRB633 Hydrogeology
 NRB635 Plate Tectonics and Advanced Structural Geology
 NRB636 Stratigraphy and Basin Analysis
 PSB655 Remote Sensing

Science Units: Microbiology Major

Level 1

LSB118 Life Science
 LSB238 Cell and Molecular Biology 1
 NRB270 Animal and Plant Structure and Function
 PCB242 Chemistry 2
 Either

SCIENCE

PCB140 Introductory Chemistry
Or
PCB142 Chemistry 1
Recommended Unit:
LSB258 Principles of Human Physiology

Level 2

LSB308 Biochemistry
LSB328 Microbiology 1
LSB428 Microbiology 2
One other Level 2 unit from:
LSB338 Cell and Molecular Biology 2
LSB358 Physiology 1
LSB408 Metabolism
LSB458 Physiology 2
LSB468 Molecular Biology

Level 3

Select at least four units from:
LSB528 Environmental Microbiology
LSB547 Bacterial Pathogenesis and Disease Diagnosis
LSB568 Electron Microscopy
LSB578 Virology
LSB628 Food Microbiology
LSB647 Clinical Mycology and Parasitology
LSB648 Molecular Microbiology

Science Units: Physics Major

Level 1

PCB101 Physical Science
PCB250 Physics 1
PCB260 Physics 1A
Recommended:
PCB107 Physics and Quantitative Techniques
Mathematics units equivalent to: #
MAB131 Engineering Mathematics 1A
MAB132 Engineering Mathematics 1B

Level 2

PCB361 AC Theory and Electronics
PCB362 Physics 2
PCB460 Instrumentation and Computational Methods
PCB462 Thermodynamics and Solid State Physics
Mathematics unit equivalent to: #
MAB134 Electrical Engineering Mathematics 3
Note: Engineering Mathematics units have been listed under this major as these are the requirements for the Physics major in SC01 Bachelor of Applied Science. *You should not enrol in these units.* The equivalent Mathematics units are MAB100, MAB111, MAB112 and MAB311. Students who may have already completed some or all of the Engineering Mathematics units should consult the Mathematics Course Coordinator for SC20.

Level 3

PCB561 Quantum and Condensed Matter Physics
PCB562 Physical Methods of Analysis
PCB661 Experimental Physics
PCB665 Physics 3

Mathematics Units

Level 1

MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C

MAB210 Statistical Modelling 1
MAB220 Computational Mathematics 1
Note: MAB100 for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

Level 2

MAB311 Advanced Calculus
MAB312 Linear Algebra
At least one of:
MAB315 Operations Research 2
MAB413 Differential Equations
MAB414 Applied Statistics 2
MAB422 Mathematical Modelling
Other Level 2 units:
MAB313 Mathematics of Finance
MAB314 Statistical Modelling 2
MAB420 Computational Mathematics 2
MAB480 Introduction to Scientific Computation
MAB481 Visualisation and Data Analysis

Level 3

Select at least four units from:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB524 Statistical Inference
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB580 Scientific Computation
MAB613 Partial Differential Equations
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B
MAB640 Industry Project
MAB672 Advanced Mathematical Modelling
MAB681 Advanced Visualisation and Data Analysis
Other Level 3 units:
MAB523 Introduction to Quality Management
MAB621 Discrete Mathematics
Students should check semester of offer, prerequisites and corequisites
Note: MAB420 Computational Mathematics 2 and MAB481 Visualisation and Data Analysis require ITB111 Software Development 1 to be taken as an elective and MAB380 Introduction to Supercomputing requires ITB111 Software Development 1 and ITB112 Software Development 2 to be taken as electives.

■ Bachelor of Biomedical Science SC40

Award title: Bachelor of Biomedical Science
CRICOS code: 052768K
Campus: Gardens Point
Duration: 3 Years full-time or 6 Years part-time
Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)
Course coordinator: Dr Catherine Dallemagne

Professional Recognition

Depending on the subjects selected in the final year of the course, graduates will be eligible for membership of one or more of the following organisations: Australian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Microbiology.

Full-time Course Structure

Year 1, Semester 1

LSB118 Life Science
MAB141 Mathematics and Statistics for Medical Science

PCB142 Chemistry 1
 PYB007 Interpersonal Processes and Skills

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1
 LSB255 Human Anatomy
 PCB150 Physics 1H
 PCB242 Chemistry 2

Year 2, Semester 1

LSB325 Biochemistry
 LSB328 Microbiology 1
 LSB338 Cell and Molecular Biology 2
 LSB468 Molecular Biology

Year 2, Semester 2

HHB114 Introduction To Human Rights And Ethics
 LSB425 Quantitative Medical Science
 LSB449 Human Cell Biology
 LSB458 Physiology 2

Year 3, Semester 1

LSB358 Physiology 1
 LSB509 Medical Biotechnology 1
 LSB525 Clinical Biochemistry 1
 LSB547 Bacterial Pathogenesis and Disease Diagnosis

Year 3, Semester 2

LSB609 Medical Biotechnology 2
 LSB625 Clinical Biochemistry 2
 LSB647 Clinical Mycology and Parasitology
 LSB658 Clinical Physiology

Note for Year 3

Third year students may substitute ONE unit from EACH of Year 3/Semesters 1 and 2 with an approved pair of electives from the following list, providing that a MATCHING SET of science units is deleted: (eg [a] LSB509 and LSB609 OR [b] LSB525 and LSB625 OR [c] LSB547 and LSB647). The elective options are subject to timetabling and campus offerings.

HEALTH COUNSELLING

Semester 1

PYB012 Psychology

Semester 2

PYB208 Counselling Theory and Practice 1

PUBLIC HEALTH

Semester 1

PUB104 Introduction to Health Services Management

Semester 2

PUB251 Contemporary Public Health

EXERCISE SCIENCE FOR PREVENTIVE MEDICINE

Semester 1

HMB271 Foundations of Motor Control, Learning and Development

Semester 2

HMB273 Exercise Physiology 1

INDIGENOUS PERSPECTIVES

Semester 1

HHB123 Indigenous Australian Culture Studies

Semester 2

HHB276 Indigenous Knowledge: Research Ethics and Protocols

CONTEMPORARY ETHICS

Semester 1

HHB270 Gene Technology And Ethics

Semester 2

HHB269 Ethics, Technology And The Environment

Part-time Course Structure

Year 1, Semester 1

LSB118 Life Science
 MAB141 Mathematics and Statistics for Medical Science

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1
 LSB255 Human Anatomy

Year 2, Semester 1

PCB142 Chemistry 1
 PYB007 Interpersonal Processes and Skills

Year 2, Semester 2

PCB150 Physics 1H
 PCB242 Chemistry 2

Year 3, Semester 1

LSB325 Biochemistry
 LSB338 Cell and Molecular Biology 2

Year 3, Semester 2

LSB425 Quantitative Medical Science
 LSB449 Human Cell Biology

Year 4, Semester 1

LSB328 Microbiology 1
 LSB358 Physiology 1

Year 4, Semester 2

LSB458 Physiology 2
 HHB114 Introduction To Human Rights And Ethics

Year 5, Semester 1

LSB468 Molecular Biology
 LSB509 Medical Biotechnology 1

Year 5, Semester 2

LSB609 Medical Biotechnology 2
 LSB658 Clinical Physiology

Year 6, Semester 1

LSB525 Clinical Biochemistry 1
 LSB547 Bacterial Pathogenesis and Disease Diagnosis

Year 6, Semester 2

LSB625 Clinical Biochemistry 2
 LSB647 Clinical Mycology and Parasitology

Note for Years 5 and 6:

In Year 5 and 6, you may substitute one pair of units (LSB509 and LSB609, or LSB525 and LSB625, or LSB547 and LSB647) with any pair of units from the list which appears under the Note for Year 3 in the Full-time course structure. (Please consult the course coordinator if you wish to do this)

■ **Bachelor of Biotechnology Innovation LS50**

Award title: Bachelor of Biotechnology Innovation

CRICOS code: 037681J

Campus: Gardens Point

Duration: 4 years full-time or 8 years part-time

Credit points: 384 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Chris Collet

Professional Recognition

On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society of Biochemistry and Molecular Biology.

Full-time Course Structure

Year 1, Semester 1

BSB110 Accounting
 LSB118 Life Science
 MAB101 Statistical Data Analysis 1

PCB142 Chemistry 1

Year 1, Semester 2

BSB115 Management, People and Organisations

■ **Bachelor of Mathematics MA54**

Award title: Bachelor of Mathematics

CRICOS code: 049433D

Campus: Gardens Point

Duration: 3 Years full-time or 6 Years part-time

Credit points: 288 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Professor Ian Turner

Professional Recognition

Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available.

Course Structure

Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:

Level 1 Mathematics Units

Students must complete the following Level 1 Mathematics units:

MAB100 Mathematical Sciences 1A

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

MAB210 Statistical Modelling 1

MAB220 Computational Mathematics 1

Note: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

Level 2 and 3 Mathematics Units

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units.

Students must complete:

MAB311 Advanced Calculus

MAB312 Linear Algebra

And at least one of:

MAB315 Operations Research 2

MAB413 Differential Equations

MAB414 Applied Statistics 2

MAB422 Mathematical Modelling

Other Units

Up to a maximum of 96 credit points may be taken, normally from Information Technology and/or Business units, with not more than 48 credit points from first level units.

Note: A first level unit is classified as a unit that is normally taken in the first year of a single degree.

Units from other areas, including Science, Creative Industries or a language, can be selected with the approval of the Course Coordinator. The Course Coordinator will assist with correct unit enrolment in these areas. A maximum of 96 credit points may be taken, with no more than 48 credit points from first level units.

The balance of credit points needed to complete the minimum requirement of 288 credit points will be Mathematics units.

Mathematics Units

Students should not enrol in Mathematics units other than those listed below:

Level 1 Mathematics Units

MAB100 Mathematical Sciences 1A
 MAB101 Statistical Data Analysis 1
 MAB111 Mathematical Sciences 1B
 MAB112 Mathematical Sciences 1C
 MAB210 Statistical Modelling 1
 MAB220 Computational Mathematics 1

Level 2 Mathematics Units

MAB281 Mathematics for Computer Graphics
 MAB311 Advanced Calculus
 MAB312 Linear Algebra
 MAB313 Mathematics of Finance
 MAB314 Statistical Modelling 2
 MAB315 Operations Research 2
 MAB413 Differential Equations
 MAB414 Applied Statistics 2
 MAB420 Computational Mathematics 2
 MAB422 Mathematical Modelling
 MAB480 Introduction to Scientific Computation
 MAB481 Visualisation and Data Analysis

Level 3 Mathematics Units

MAB521 Applied Mathematics 3
 MAB522 Computational Mathematics 3
 MAB524 Statistical Inference
 MAB525 Operations Research 3A
 MAB526 Statistical Science 3
 MAB580 Scientific Computation
 MAB613 Partial Differential Equations
 MAB623 Financial Mathematics
 MAB624 Applied Statistics 3
 MAB625 Operations Research 3B
 MAB640 Industry Project
 MAB672 Advanced Mathematical Modelling
 MAB681 Advanced Visualisation and Data Analysis
 Other Level 3 Mathematics Units
 MAB523 Introduction to Quality Management
 MAB621 Discrete Mathematics

Non-Mathematics Units

Up to a maximum of 96 credit points (8 twelve credit point units) can be taken from units other than mathematics units, with not more than 48 credit points (4 twelve credit point units) from first level units. A first level unit is classified as a unit that is normally taken in the first year of a single degree.

First Level Information Technology Units

These units are all 12 credit points and available Semester 1 and Semester 2. No more than four first level units can be included in the course.

ITB001 Problem Solving and Programming

ITB002 IT Professional Studies
 ITB003 Object Oriented Programming
 ITB004 Database Systems
 ITB005 Systems Architecture
 ITB006 Networks
 ITB007 Web Development
 ITB008 Modelling, Analysis and Design

Refer to IT22 Bachelor of Information Technology or your Course Coordinator for more information on information technology units. Note: if you have already completed any information technology units you will need to check for incompatibility or equivalence with the new units

First Level Business Units

These units are all 12 credit points and available Semester 1 and Semester 2. No more than four first level units can be included in the course.

BSB110 Accounting
 BSB111 Business Law and Ethics
 BSB113 Economics
 BSB114 Government, Business and Society
 BSB115 Management, People and Organisations
 BSB119 International and Electronic Business
 BSB122 Quantitative Analysis and Finance
 BSB126 Marketing

FINANCE: Select a maximum of 8 units from the list below:

BSB110 Accounting
 BSB113 Economics
 EFB102 Economics 2
 EFB201 Financial Markets
 EFB210 Finance 1
 EFB307 Finance 2
 EFB308 Finance 3
 EFB309 Financial Derivatives
 EFB312 International Finance
 EFB318 Portfolio and Security Analysis

ECONOMICS: Select a maximum of 8 units from the list below:

BSB113 Economics
 EFB102 Economics 2
 EFB200 Applied Regression Analysis
 EFB202 Business Cycles and Economic Growth
 EFB211 Firms, Markets and Resources
 EFB314 International Trade and Economic Competitiveness
 EFB323 Financial and Monetary Economics
 EFB324 Macroeconomics and Global Financial Markets
 EFB325 Financial Microeconomics

Refer to BS56 Bachelor of Business or your Course Coordinator for more information on the units available for the various areas of business.

■ Bachelor of Pharmacy SC45

Award title: Bachelor of Pharmacy

CRICOS code: 055902G

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Fraser Ross

Professional Recognition

Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland. Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia (PSA), the Pharmacy Guild and the Society of Hospital Pharmacists of Australia (SHPA).

Course Design

The Bachelor of Pharmacy comprises four years of study in areas ranging from pharmacy practice, pharmaceuticals, pharmacology, drug metabolism, physiology and chemistry. Students will also undertake professional practice units in QUT's on-campus dispensary and counselling facilities before embarking on a series of professional placements in hospitals and community pharmacy environments.

In 2006 only the first and second years of the course are available.

Course Structure

Year 1, Semester 1

LSB118 Life Science
MAB141 Mathematics and Statistics for Medical Science

OVERVIEW

QUT International College (QUTIC), an integral part of QUT, offers a range of programs to assist international students to meet university entry requirements at QUT and other Australian universities. In addition, the College offers English Language Programs for students who wish to upgrade their English Language skills for work or other purposes.

The programs, designed to meet the different needs of international students, include English for Academic Purposes, General English, Foundation, University Diplomas, Bridging and Postgraduate Pathway Programs.

Students receive high quality tuition and support in small classes and excellent College facilities while at the same time enjoying the full use of all University facilities including libraries, student services, recreational and computer facilities.

SENIOR STAFF

Director, QUT International College: E. McDade, TDipCom Strathclyde, TCert Jordanhill, BEdSt Qld, MAcc C.Sturt

Director of Studies, University Entry Programs: S. Leisemann, DEd BA Qld, PGDip La Trobe, MBA Bond

Director of Studies, English Language Programs: I. McGregor, BA Griff, GradDipEd PGDipSocSc Qld, MEd (TESOL) NE

Senior Administration Coordinator, QUTIC Administration: N.Marsh, BA (Hons) Soton

■ Bridging Program QC03

CRICOS code: 003518A

Campus: Kelvin Grove

Duration: 1 semester full-time

Credit points: 48 (full-time standard semester: 48)

Course coordinator: Scott Leisemann

Entry Requirements- English Language

IELTS 6.0 with no sub-score less than 5.0 or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description

This program provides two alternative streams. Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in a Bridging program. Those with advanced standing may be able to undertake two degree units. Stream B is for students who have met English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the Bridging Program. Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Progression

In order to progress to an award course, students must:

- i) fulfil the Bridging course requirements
- ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) meet any other conditions detailed in the 'letter of offer' from International Student Business Services.

Full-time Course Structure

Stream A # (for those with IELTS 6.0)

QCD111 Communication 1

QCD211 Communication 2

QCS230 Computing

DEGREE UNIT

Undergraduate students will need to enrol in the units

QCD110 and QCD210

Stream B (for those with IELTS 6.5)

QCD111 Communication 1

QCD211 Communication 2

DEGREE UNIT One

DEGREE UNIT Two

Undergraduate students will need to enrol in the units

QCD110 and QCD210

Note:

#If you have advanced standing, you may be able to undertake two degree units during your Bridging Program

■ English for Academic Purposes for degree programs QC10

CRICOS code: 011424G

Campus: Kelvin Grove

Duration: 12 weeks full-time

Credit points: 48

Course coordinator: Judith Douse

Entry Requirements - Academic

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or
2. Produce original documentary evidence of an IELTS score of a minimum 5.5 with no sub-score less than 5.0 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Progression

Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

Course Structure

Modules

QCE003 English for Academic Purposes for Direct Entry to QUT

The EAP course consists of the following integrated modules:

- Seminars and Presentations
- Academic Reading and Note-taking
- Academic Writing
- Listening and Note-taking from Lectures
- Speaking in Academic Settings
- Academic Study Skills
- Computer Word-processing and Internet research skills
- Library research skills

■ English for Academic Purposes for Foundation and University Diploma Programs QC10

CRICOS code: 011424G

Campus: Kelvin Grove

Duration: 12 weeks full-time

Credit points: 48

Course coordinator: Judith Douse

Entry requirements*

To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT Foundation or Diploma program and successfully complete the relevant EAP entry test; or
2. Produce original documentary evidence of an IELTS score of a minimum 5.0 with reading and writing sub-score of at least 5.0 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Progression

Successful completion of this EAP course is a pathway into QUT International College Foundation and Diploma programs and the Associate Degree in Dance.

Modules

QCE004 English for Academic Purposes for QUTIC Courses

The EAP course consists of the following integrated modules:

- Seminars and Presentations
- Academic Reding and Note-taking
- Academic Writing
- Listening and Note-taking from Lectures
- Speaking in Academic Settings

- Academic Study Skills
- Computer Word-processing and Internet research skills
- Library research skills

■ English for Tertiary Preparation QC22

CRICOS code: 045062C

Campus: Kelvin Grove

Duration: 2 weeks full-time

Credit points: 8

Course coordinator: Michael Miller

Entry Requirements

Academic requirements:

An offer of acceptance for a QUT Foundation or University Diploma course.

English requirements:

An IELTS score of at least 5.5 (with sub-scores of at least 5.0) or approved equivalent.

English for Tertiary Preparation

QCE005 English for Tertiary Preparation Studies

■ Extended Foundation Program (3 Semesters) QC04

CRICOS code: 050167G

Campus: Kelvin Grove

Duration: 3 Semesters full-time

Credit points: 132 (full-time standard semester: 13TP1 - 48CP, 13TP2 - 60CP, 13TP3 - 24CP)

Course coordinator: Scott Leisemann

Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Progression

Conditions of progressing to a guaranteed place in the first year of a QUT degree:

- fulfil the Foundation course requirements,
- obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
- obtain a Grade Point Average (GPA) as indicated in the table of Faculty Requirements below - calculated on five (5) Level 2 units.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2

Humanities & Human Services - Required GPA 4.2

Creative Industries - Required GPA 4.4

Built Environment - Required GPA 4.6

Engineering (except Aerospace Avionics) - Required GPA 4.6

Education - required GPA 4.6

Health (except Optometry & Psychology) - Required GPA 4.6

Science - Required GPA 4.6

Business - Required GPA 4.8

Law (except Justice Studies) - Required GPA 4.8

Information Technology - Required GPA 4.8

Health - Psychology - Required GPA 5.0

Engineering - Aerospace Avionics - Required GPA 5.8

Health - Optometry - Required GPA 5.8

Note: Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Semester One

QCF115 Foundation English

QCF156 Mathematics A1

OR

QCF157 Mathematics B1

+ TWO ELECTIVES from the following list

QCF120 Accounting 1

QCF121 Economics 1

QCF153 Physical Sciences 1

QCF122 Organisations And Management

QCF252 Life Science

QCF240 Legal Studies

Notes:

QCF240 is offered subject to demand and may be offered in alternate semesters. Students should seek advice from the Course Coordinator.

QCF252 is only offered in ALTERNATE semesters. Students should seek advice from the Course Coordinator.

In some semesters some elective units may not be offered if there is insufficient demand.

Semester Two

QCF111 Tertiary Preparation Studies 1

QCF112 Communication 1

QCF256 Mathematics A2

OR

QCF257 Mathematics B2

OR

QCF260 Professional Studies

+ TWO ELECTIVES from the following list

QCF122 Organisations And Management

QCF160 Introduction to Creativity

QCF220 Accounting 2

QCF221 Economics 2

QCF254 Physics

QCF255 Chemistry

QCF210 Applied Psychology

QCF230 Information Processing

QCF240 Legal Studies

QCF252 Life Science

Approved diploma units (Business, IT or Professional Communication students only). Diploma units can only be taken under special circumstances and with the approval of the Course Coordinator.

Notes:

QCF240 is offered subject to demand and may be offered in alternate semesters. Students should seek advice from the Course Coordinator.

QCF252 is only offered in ALTERNATE semesters. Students should seek advice from the Course Coordinator.

In some semesters some elective units may not be offered if there is insufficient demand.

Semester Three (8 Week Teaching Period)

QCF211 Tertiary Preparation Studies 2

QCF212 Communication 2

Note:

In this semester students focus on the higher level tertiary preparation and communication skills and attend 18 hours

of study per week in their classes over a 8 week teaching period.

■ Foundation Program (2 Semesters) QC02

CRICOS code: 003287M

Campus: Kelvin Grove

Duration: 2 semesters full-time

Credit points: 120 (full-time standard semester: 60)

Course coordinator: Scott Leisemann

Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree :

- i) fulfil the Foundation course requirements,
- ii) obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
- iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2
 Humanities & Human Services - Required GPA 4.2
 Creative Industries - Required GPA 4.4
 Built Environment - Required GPA 4.6
 Engineering (except Aerospace Avionics) - Required GPA 4.6
 Education - Required GPA 4.6
 Health (except Optometry & Psychology) - Required GPA 4.6
 Science - Required GPA 4.6
 Business - Required GPA 4.8
 Law (except Justice Studies) - Required GPA 4.8
 Information Technology - Required GPA 4.8
 Health - Psychology - Required GPA 5.0
 Engineering - Aerospace Avionics - Required GPA 5.8
 Health - Optometry - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Semester One

QCF112 Communication 1
 QCF111 Tertiary Preparation Studies 1

 + TWO ELECTIVES from the following list
 QCF115 Foundation English
 QCF120 Accounting 1
 QCF121 Economics 1
 QCF122 Organisations And Management
 QCF153 Physical Sciences 1
 QCF160 Introduction to Creativity
 QCF240 Legal Studies
 QCF252 Life Science

Note:

QCF240 is offered subject to demand and may be offered in alternate semesters only. Students should seek advice from the Course Coordinator.

QCF252 is only offered in ALTERNATE semesters. Students should seek advice from the Course Coordinator.

In some semesters some elective units may not be offered if there is insufficient demand.

Semester Two

QCF212 Communication 2
 QCF211 Tertiary Preparation Studies 2
 QCF256 Mathematics A2
 OR
 QCF257 Mathematics B2
 OR
 QCF260 Professional Studies
 +TWO ELECTIVES from the following list
 QCF122 Organisations And Management
 QCF160 Introduction to Creativity
 QCF220 Accounting 2
 QCF221 Economics 2
 QCF254 Physics
 QCF255 Chemistry
 QCF210 Applied Psychology
 QCF230 Information Processing
 QCF240 Legal Studies
 QCF252 Life Science

Approved diploma units (Business, IT or Professional Communication students only). Diploma units can only be taken under special circumstances and with the approval of the Course Coordinator.

QCF240 is offered subject to demand and may be offered in alternate semesters only. Students should seek advice from the Course Coordinator.

QCF252 is only offered in ALTERNATE semesters. Students should seek advice from the Course Coordinator.

In some semesters some elective units may not be offered if there is insufficient demand.

■ Foundation Program (1 Semester) QC01

CRICOS code: 003287M

Campus: Kelvin Grove

Duration: 1 semester full-time

Credit points: 60

Course coordinator: Scott Leisemann

Entry Requirements - English Language

IELTS 6.0 with no sub-score less than 5.5 or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree:

- i) fulfil the Foundation course requirements,
- ii) obtain a grade of 5 (Credit) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Required Foundation Grade Point Average by Faculty

Law - Justice Studies - Required GPA 4.2
 Humanities & Human Services - Required GPA 4.2
 Creative Industries - Required GPA 4.4

Built Environment - Required GPA 4.6
 Engineering (except Aerospace Avionics) - Required GPA 4.6
 Education - Required GPA 4.6
 Health (except Optometry & Psychology) - Required GPA 4.6
 Science - Required GPA 4.6
 Business - Required GPA 4.8
 Law (except Justice Studies) - Required GPA 4.8
 Information Technology - Required GPA 4.8
 Health - Psychology - Required GPA 5.0
 Engineering - Aerospace Avionics - Required GPA 5.8
 Health - Optometry - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Full-time Course Structure

Semester One

QCF212 Communication 2
 QCF211 Tertiary Preparation Studies 2
 QCF256 Mathematics A2
 OR
 QCF257 Mathematics B2
 OR
 QCF260 Professional Studies
 + TWO ELECTIVES from the following list
 QCF122 Organisations And Management
 QCF160 Introduction to Creativity
 QCF220 Accounting 2
 QCF221 Economics 2
 QCF254 Physics
 QCF255 Chemistry
 QCF210 Applied Psychology
 QCF230 Information Processing
 QCF252 Life Science

■ General English QC20

CRICOS code: 011426E

Campus: Kelvin Grove

Duration: 5 weeks full-time

Credit points: 20

Course coordinator: Ian Davies

Progression

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

General English

QCE001 General English (Full-time)

While specific content varies according to level, broadly the course consists of:

- English Language Structures & Systems
- Grammar
- Vocabulary

- Integrated Skills Development (reading, writing, speaking, listening)
- Cultural Studies, including field trips and excursions (which may incur some additional, minimal cost)
- Electives Activities Program
- Computer-based language learning
- Independent learning skills

■ General English Extension QC21

Campus: Kelvin Grove

Duration: 5 weeks full-time

Credit points: 20

Course coordinator: Ian Davies

Progression

Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

General English Extension

QCE001 General English (Full-time)

While specific content varies according to level, broadly the course consists of:

- English Language Structures & Systems
- Grammar
- Vocabulary
- Integrated Skills Development (reading, writing, speaking, listening)
- Cultural Studies, including field trips and excursions (which may incur some additional, minimal cost)
- Electives Activities Program
- Computer-based language learning
- Independent learning skills

■ University Diploma in Business BS40

Award title: University Diploma in Business

CRICOS code: 025282A

Campus: Kelvin Grove

Duration: 2 semesters full-time

Credit points: 96 (full-time standard semester: 48)

Course coordinator: Elizabeth McDade

Entry Requirements - English Language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (NB Students should also check visa requirements).

Progression

Requirements for progression to the second year of QUT Bachelor of Business:

- fulfil the Diploma course requirements,
- a minimum Grade Point Average (GPA) of 4, and
- an IELTS score of 6.5 or its equivalent.

Full-time Course Structure

Semester One

BSD110 Accounting

BSD113 Economics

BSD126 Marketing

QCD110 Communication for Business 1

Semester Two

BSD122 Quantitative Analysis and Finance
 BSD115 Management, People and Organisations
 BSD119 International and Electronic Business
 QCD210 Communication for Business 2

■ University Diploma in Information Technology IT10

Award title: University Diploma in Information Technology
CRICOS code: 025283M
Campus: Kelvin Grove
Duration: 2 semesters full-time
Credit points: 96 (full-time standard semester: 48)
Course coordinator: Elizabeth McDade

Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Course Completion

Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low pass) in the remaining unit.

Progression

Requirements for progression to the second year of QUT Bachelor of Information Technology:
 i) fulfil the Diploma course requirements,
 ii) a minimum Grade Point Average (GPA) of 4, and
 iii) an IELTS score of 6.5 or its equivalent.

Full-time Course Structure

Semester One

ITD001 Problem Solving and Programming
 ITD004 Database Systems
 ITD005 Systems Architecture
 QCD120 Communication for Information Technology 1

Semester Two

ITD002 IT Professional Studies
 ITD003 Object Oriented Programming
 ITD006 Networks
 QCD220 Communication for Information Technology 2

■ University Diploma in Professional Communication IF06

Award title: University Diploma in Professional Communication
CRICOS code: 039083D
Campus: Kelvin Grove
Duration: 2 semesters full-time
Credit points: 96 (full-time standard semester: 48)
Course coordinator: Elizabeth McDade

Entry Requirements - English language

Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Progression

Requirements for a guaranteed place in the second year of the following QUT Bachelors degrees:
 i) fulfil the University Diploma course requirements,
 ii) an IELTS score of 6.5 or its equivalent,
 iii) achieve a minimum Grade Point Average (GPA) as detailed below for the following course:

Grade Point Average of at least 4 for:

Bachelor of Mass Communication
 Bachelor of Creative Industries (Interdisciplinary Studies)

Grade Point Average of at least 4.5 for:

Bachelor of Creative Industries (Media and Communication)
 Bachelor of Creative Industries (Creative Writing)
 Bachelor of Journalism

Grade Point Average of at least 5.0 for:

Bachelor of Creative Industries (Communication Design)
 Bachelor of Fine Arts (Film and Television)*

*Please note that students articulating to Bachelor of Fine Arts (Film and Television) will only receive 1 semester of credit.

Full-time Course Structure

Semester One

KKD009 Writing For Creative Industries
 KKD010 Cultures and Creativity
 BSD126 Marketing
 QCD110 Communication for Business 1
 Note: KKD009 and KKD010 are offered in ALTERNATE semesters.

Semester Two

KKD018 Creative Industries
 KKD007 Introduction To Multimedia Technology
 QCD210 Communication for Business 2
 Elective
 Note: KKD018 and KKD007 are offered in ALTERNATE semesters.

■ Doctor of Philosophy Regulations IF49

Please contact individual faculties for details on individual PhD programs.

Introduction

The main purpose of graduate study is to encourage independence and originality of thought in the quest for knowledge. The Doctor of Philosophy degree is awarded in recognition of a student's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge. The candidate's research must reveal high critical ability and powers of imagination and synthesis, and may be in the form of new knowledge, or of significant and original adaptation, application and interpretation of existing knowledge.

1. General Conditions

1.1 The Council of the Queensland University of Technology was established in 1989 under the Queensland University of Technology Act.

1.2 This document sets out the Regulations governing the award of the degree of Doctor of Philosophy (PhD) at the Queensland University of Technology (QUT).

1.3 The Council's power to approve arrangements for the registration and examination of candidates for the degree of PhD at QUT is exercised through a Research Degrees Committee, which shall be a subcommittee of the University Research Committee. In exercising this power, the Research Degrees Committee shall be advised by faculty academic boards, deans of faculties and heads of schools as appropriate.

1.4 The PhD will be awarded subject to the Research Degrees Committee receiving:

- a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor, Head of School and endorsed by the faculty;
- a declaration signed by the candidate that she/he has not been a candidate for another tertiary award during the tenure of her/his PhD candidature without the permission of the Research Degrees Committee;
- a declaration signed by the candidate stating original authorship of the thesis;
- an application for the conferral of the degree, signed by the Principal Supervisor, Director of Centre/Res Con, Head of School, stating that the candidate has satisfactorily completed the examination process including completing any revisions or re-examination required by the external examiners; and
- at least one final copy of the thesis in the prescribed format.

2. Definitions

2.1 Candidate means any person admitted to the planned program of research leading to the degree of PhD.

2.2 Candidature means the period of study towards the degree of PhD being the period from the date of commencement as advised by the Office of Research until the thesis is submitted for examination or until the candidature is terminated, after which time the candidate holds the status of 'Under Examination'.

2.3 Confirmed candidature means the period of study towards the degree of PhD from the date of successful completion of Confirmation of Candidature as approved by Research Degrees Committee to the approval of the award of the degree of PhD by the University Academic Board.

2.4 Collaborative research group means the group of researchers which is directly involved with the candidate's research project or a larger research project of which the candidate's study forms a part. This does not include other researchers from any collaborating organisation who do not have input into the specific research project.

2.5 The degree of Doctor of Philosophy or (PhD) at QUT signifies that the holder has undertaken a substantial piece of original research which has been conducted and reported under proper academic supervision and in a research environment for a prescribed period. The PhD's contribution to knowledge rests on the originality of the approach and/or interpretation of findings and, in some cases, the discovery of new knowledge. The award of a PhD demonstrates that the candidate has the ability to communicate research findings effectively in the professional arena and in an international context.

2.6 Examination means the formal testing of the candidate's thesis to critically evaluate whether the conditions for the award of the degree of PhD have been met.

2.7 Examination Committee means the committee of external examiners appointed to undertake examination of the candidate's thesis.

2.8 External candidate means a candidate who will undertake his or her study overseas, interstate, remote from Brisbane or at a place of professional employment or another research institution in Brisbane (for example Queensland Institute of Medical Research).

2.9 Faculty means the relevant faculty of QUT.

2.10 Faculty Committee means the duly constituted committee responsible for the management and oversight of postgraduate candidates within the faculty.

2.11 A Final Seminar means the public seminar called by the faculty to determine whether the thesis is acceptable for examination by the Examination Committee.

2.12 Internal candidate means a candidate who will complete his or her study whilst physically attending a campus of QUT.

2.13 Masters by coursework means a master's degree, which has a research component comprising less than 66% of the total course of study.

2.14 Masters by research means a master's degree, which has a research component comprising 66% or more of the total course of study.

2.15 Prescribed Form means the relevant form found via the Research Students Section of the QUT Office of Research Home Page.

2.16 Professional Doctorate (Research) means a doctoral degree at QUT, which has a significant formal coursework component, which is no more than 33% of the total course of study.

2.17 Recognised institution means any tertiary education institution accepted by the Research Degrees Committee for the purposes of these Regulations.

2.18 Research centre/research concentration means the relevant research centre/research concentration of QUT.

2.19 Review Period means a period of up to three months after completion of a progress report, eg the Confirmation of Candidature, Annual report or interim faculty report during which the candidate is required to do more work until

the faculty advises the Research Degrees Committee that the candidature should be continued or terminated.

2.20 School means the relevant school of QUT.

2.21 Thesis means the collection of materials submitted by the candidate to the Examination Committee for examination.

3. Admission to Candidature

3.1 To gain admission into a planned research program leading to the award of PhD a candidate normally shall hold a relevant first class or second class division A honours degree or equivalent, an appropriate masters degree (by research or coursework), or a professional doctorate, from a recognised institution.

3.2 Masters degrees by coursework and professional doctorates must contain a significant research component, which would normally be no less than 33% of the total degree in order to qualify an applicant for admission to the PhD program. Normally, applicants holding a masters by coursework or a coursework professional doctorate must have a GPA of at least 5.0 on a 7 point scale or equivalent standing as certified by the faculty in which the candidate wishes to enrol before they may be admitted to PhD candidature.

3.3 Coursework masters and professional doctorates which do not contain the research component defined in Regulation 3.2 are not considered adequate to allow admission to the PhD program unless (a) the applicant can demonstrate a grade point average of at least 5.0 on a 7 point scale in such a course; and (b) an additional level of research experience and potential which is deemed acceptable to the faculty and approved by the Research Degrees Committee. For example, by the publication of articles in refereed research journals.

3.4 Applicants must demonstrate sufficient command of English to complete the proposed course of study in English, that is, the Confirmation Seminar, the Final Seminar, and the written thesis. (Exceptions may apply, see Section 13.2).

4. Application Procedure and Commencement

4.1 Candidature shall have commenced on the date of admission or at some later date as determined by the Research Degrees Committee.

4.2 An application for admission shall be made on the prescribed form and shall involve a two-stage process.

4.3 Stage 1 of the application process must include:

- Doctor of Philosophy Stage 1 Application Form (if the applicant holds citizenship or permanent residency in Australia or New Zealand);
- Application for Admission to QUT as an International Candidate Form F (if the applicant is an international candidate);
- personal data;
- details of relevant professional research experience;
- the proposed field of study;
- brief (200-300 words) outline of the project to be undertaken;
- the centre/research concentration in which the research is to be undertaken; and
- a certified copy of the candidate's academic record.

The application must be approved by the duly constituted faculty committee which will determine whether the applicant meets the criteria for admission (Section 3) or, if defi-

ciencies exist, what they are and how they can be remedied.

4.4 The Stage 2 application must be completed and submitted to the Research Degrees Committee within three months of conditional admission (up to six months for part-time candidates and international candidates) and must include:

- a completed Doctor of Philosophy Stage 2 Application form;
- the proposed title of the thesis;
- the objectives of the program of research and investigation;
- an outline of the proposed research;
- the research methods and plan;
- the relation of the study to previous work in the same field by the candidate and others;
- a preliminary literature review;
- a substantial bibliography;
- a timeline for completion of the proposed research;
- a statement of individual contribution if the proposed plan of study is part of a group project;
- the coursework to be completed;
- a Research Ethics Review Checklist;
- the proposed supervisors and their credentials; and
- an Intellectual Property Agreement if required (ref. Regulation 6.7).

Stage 2 of the application must be approved by the faculty committee and then recommended to the Research Degrees Committee for final approval.

4.5 If the Stage 2 application is not submitted to the Research Degrees Committee within the time specified, the Research Degrees Committee may, on advice from the faculty committee and Principal Supervisor, terminate the candidature. In exceptional cases an extension of approximately three months may be granted in order to meet the conditions of the Stage 2 application.

4.6 To complete Stage 2 of the application process, the faculty shall confirm to the Research Degrees Committee:

- that the applicant's proposed topic of research is consistent with the aims and objectives of the centre/research concentration; and
- that the centre/research concentration is willing and able to provide appropriate accommodation, facilities and physical, human and financial resources for the proposed study for the duration of the candidature.

4.7 Following receipt of the faculty's advice on the Stage 2 application, the Research Degrees Committee shall determine that:

- the applicant be admitted to PhD candidature in which case it shall confirm the appointment of supervisors; or
- the applicant be required to submit further information which shall be considered at a subsequent meeting of Research Degrees Committee; or
- the applicant be admitted to masters by research candidature with the option of later applying to upgrade to PhD candidature (ref. Section 7), or
- the applicant not be admitted;
- and may set conditions regarding the offer of admission. An applicant who is not admitted to candidature may re-apply for admission at a later date after addressing issues raised.

5. Enrolment

5.1 Once admitted to PhD candidature, a candidate may enrol either as a full-time or a part-time internal candidate

or a full-time or part-time external candidate though restrictions apply to some Scholarship holders.

5.2 To be enrolled as a full-time candidate, a candidate must be able to commit to the course 30 hours per week averaged over each year of candidature. Paid work, including preparation, teaching, marking and research assistant duties, may be undertaken but must not interfere with a candidate's study program. A candidate in receipt of a scholarship is subject to additional restrictions on the amount of paid work allowable as described in the relevant scholarship guidelines.

5.3 A candidate who is unable to devote to the course the proportion of time specified in Regulation 5.2 may enrol as a part-time candidate. A part-time candidate will be expected to progress at half the rate of a full-time candidate: an average of 15 hours per week.

5.4 It is the candidate's responsibility to remain enrolled from the date of commencement until the thesis is submitted for external examination to the Research Students' Section, Office of Research (ref. Section 9).

5.5 The Research Degrees Committee may cancel a candidate's enrolment, having taken account of all relevant documented circumstances and having given the candidate opportunity to show cause why enrolment should not be cancelled if:

- it is of the opinion that the candidate either has effectively discontinued his/her studies or has no reasonable expectation of completing the course of study within the maximum time allowed (ref. Section 8); or
- the quality and progress of research gives no reasonable expectation of successful completion of the degree based on written/formal communications between the candidate and relevant staff members including supervisor and Centre Director as recorded in progress reports; or
- the candidate's grade point average in coursework undertaken is below 5.00 on a scale of seven or other measure agreed to between candidate and supervisor.

5.6 A candidate whose enrolment has lapsed or has been cancelled and who wishes subsequently to re-enter the course of study to pursue an investigation, which is substantially the same as her/his previous investigation, must apply in writing to the faculty. If the faculty supports the readmission of the candidate, the application will be forwarded to the Office of Research for consideration by the Research Degrees Committee, which may set conditions for readmission to the course.

5.7 Normally, PhD candidates must be affiliated with a centre/or research concentration, which is appropriate to the planned research program. Sole supervisors may be approved by University Research Committee under the terms included in MOPP Appendix 35 [1].

5.8 It is the faculty's responsibility to ensure that candidates are affiliated with the appropriate centre/research concentration. Once the candidate is enrolled, he/she cannot transfer to another centre/research concentration without faculty endorsement, which must incorporate advice from the relevant Centre Directors, and Research Degrees Committee approval. Reasons for transfer include:

- the centre/research concentration ceases to exist;
- the centre/research concentration cannot continue to provide the necessary supervision and/or support;
- the Principal Supervisor transfers to another centre/research concentration, faculty or institution; and

- the candidate asks to be transferred with supportable justification.

Any request for transfer must be made on the prescribed form.

6. Planned Research Program

6.1 A candidate for the degree of PhD is required to complete successfully a planned research program that will result in the candidate making a significant individual contribution to the body of knowledge. This contribution may be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.

6.2 The planned research program will normally include:

- a program of assessed coursework including the Advanced Information Retrieval Skills unit;
- participation in university scholarly activities such as research seminars, teaching and publication;
- regular interaction with supervisors;
- a program of supervised research and investigation;
- and must be such as to enable the candidate to acquire competence in relevant methods of research and scholarship related to the subject of the proposed investigation and to demonstrate sustained independent research effort.

6.3 Coursework in the PhD program demands a capacity for critical analysis and a specialisation of research interests not normally appropriate for an undergraduate program. Such coursework may be conducted in a number of ways:

- as advanced lecture courses;
- as seminars in which faculty and candidates present critical studies of selected problems within the subject field;
- as independent study or reading courses under faculty supervision;
- as research projects conducted under faculty supervision.

In all cases, coursework will be based upon a written plan briefly setting out the educational outcomes expected from the course, a list of topics to be covered, the prescribed reading material and the method of assessment of progress through and at the end of the course. This coursework will be planned by the candidate and the Principal Supervisor to contribute to, and or, provide structure to the overall program of research.

6.4 Assessed coursework as described in 6.3 will comprise not more than one third of candidature and will normally be completed within the first half of the candidature.

6.5 A candidate is normally expected to pursue the approved program of research and investigation throughout the period of candidature. Where circumstances make significant modification of the program desirable, approval for the proposed change must be sought in writing from the Research Degrees Committee through the faculty committee. Permission to continue the candidature may be given by the Research Degrees Committee in such circumstances provided that the planned research program remains in the same field.

6.6 Where an approved program of research and investigation forms part of the work of a research team or a larger research project, the application must indicate clearly the individual contribution expected to be made by the candidate, her/his individual research activities and responsibilities.

ties and the extent to which the work is to be carried out in collaboration with others.

6.7 Where an approved program of research and investigation is carried out jointly in QUT and in an industrial, commercial, professional or research establishment, an outline of the interrelationship of the work to be undertaken at each of the sites in relation to the whole project must be provided as part of the Stage 2 application. An intellectual property agreement must also be completed on the prescribed form.

7. Transfer of Candidature from other Research Degrees

7.1 Internal Applicants From Within QUT

7.1.1 A person who has completed 12 months full-time equivalent of candidature in a QUT masters by research program or a QUT professional doctorate (research) may apply to the Research Degrees Committee for entry into the PhD if the following conditions have been met:

- (a) meets the requirements outlined in Section 3;
- (b) has demonstrated the capacity to undertake research at the PhD level;
- (c) has a research project that is clearly capable of being extended and converted to PhD level; and
- (d) has completed the Confirmation of Candidature process including the Confirmation Seminar.

A request for transfer must be made on the prescribed form (the Confirmation of Candidature form) and returned to the Office of Research, through the faculty committee, for consideration by the Research Degrees Committee.

7.1.2 A candidate enrolled in a masters by research will only be approved for transfer to PhD candidature when the candidate is able to satisfy all the requirements outlined in Regulation 7.1.1. Where course work has been undertaken as part of the masters by research degree or professional doctorate (research), a transfer normally will be approved only if the candidate has attained a grade point average of at least five on a seven point scale or equivalent standing as certified by the faculty in which the candidate wishes to enrol. Normally a maximum of twelve months_ credit from the masters program or professional doctorate (research) may be carried forward to the PhD program.

7.1.3 Applications to transfer into the PhD shall be made on the prescribed form and submitted via the faculty committee, to the Research Degrees Committee for consideration. Such application shall consist of:

- required administrative details;
- reasons for transfer;
- substantial details of progress to date;
- full course of study;
- a time-line for completion of the project;
- a certified copy of the candidate's academic record (if transferring from another recognised institution);
- a formal request for the amount of credit to be granted for previous candidature;
- a Research Ethics Checklist or a copy of QUT Ethics Committee Clearance;
- proposed supervisors and their credentials; and
- an Intellectual Property Agreement if required (ref. Regulation 6.7).

7.2 External Applicants From Another Institution

7.2.1 PhD, masters or professional doctorate (research) candidates transferring enrolment to a QUT PhD program from another institution will normally be required to undergo the full QUT Confirmation of Candidature process including

presentation of a seminar if transferring after twelve months or more of full-time candidature or part-time equivalent at their former institution unless they have successfully completed an equivalent procedure at their previous institution. Candidates seeking transfer to QUT in under twelve months/full-time or twenty-four months/part time will normally be required to submit a Stage 2 application.

7.2.2 External Transfer application to the PhD shall be made on the prescribed form.

7.2.3 The faculty shall first review the candidate's progress and planned research program and append to the Application for Transfer, a statement which sets out:

- the nature, duration and quality of the work already done, its relevance to the proposed PhD thesis and the recommended amount of credit;
- an appraisal of the candidate's progress and suitability for transfer of candidature and confirmation of PhD candidature;
- an agreement that the proposed research is within the aims and objectives and physical and human resources of the centre/research concentration; and
- an agreement that the centre/research concentration is willing and able to provide the accommodation, facilities and physical and human resources for the duration of the study.

7.2.4 In considering the application for Transfer of Candidature, the Research Degrees Committee shall:

- approve the transfer of candidature, normally confirming PhD candidature, and determine the amount of credit to be allowed, the date of admission and minimum and maximum candidature dates; or
- request changes to the planned research program which must be addressed by the candidate and resubmitted to the Research Degrees Committee; or
- not approve the transfer.

8. Place and Conditions of Work

8.1 Internal candidates (part-time and full-time) are expected to carry out their research program in a suitable environment at a QUT Campus.

8.2 The Research Degrees Committee must be satisfied that appropriate arrangements as set out in these Regulations regarding coursework, participation in scholarly activities, supervision, facilities in training and research methods can be made for each candidate including part-time candidates. The Head of School must ensure that accommodation, equipment and access to library and computing facilities meet the needs of the approved planned research program for the duration of the candidature.

8.3 The Research Degrees Committee may permit a PhD candidate to conduct his/her research as an external candidate either elsewhere in Australia or overseas or to approve a change of enrolment from internal to external status or vice versa.

8.4 The candidate and the Principal Supervisor, at Stage 1 of the application process or prior to the requested transfer to external status, must provide written evidence to the Research Degrees Committee that:

- the arrangement for the research at the external location (normally a recognised research establishment or place of professional employment) meets the normal requirements of the PhD program;
- the candidate has opportunity to participate in scholarly activities;

- academic standards in the conduct of the PhD research can be assured;
- a suitable program of contacts between the candidate and the Principal Supervisor can be maintained and the methods by which this will be achieved are explained;
- a suitable Associate Supervisor will be responsible for regular supervision is available at the external establishment or an explanation as to why this is unnecessary is given;
- a letter of support from the external establishment stating that the resources required for the study are available and accessible to the candidate and will continue to be available for the duration of candidature is provided; and
- in exceptional circumstances the candidate, Principal Supervisor and Centre Director may present a case for exemption from the above requirements.

8.5 External candidates must normally spend a minimum of three months at QUT during the course of their candidature and must normally be present for the Confirmation of Candidature and for the Final Seminar presentation (ref. Regulation 16.9) of the thesis.

8.6 In exceptional circumstances, the candidate may be permitted to complete the Final Seminar by video-conference. At least three months notice must be given of this intention to allow the school to make adequate arrangements.

9. Period of Time for Completion of Planned Research Program

9.1 The minimum period of candidature is:

- full-time candidates: twenty-four months from the date of commencement
- part-time candidates: forty-eight months from the date of commencement

In special cases, the Research Degrees Committee may approve a shorter period.

9.2 The maximum period of candidature is:

- full-time candidates: forty-eight months from the date of commencement
- part-time candidates: ninety-six months from the date of commencement

9.3 Where a candidate wishes to change from full-time to part-time candidature or vice versa, application must be made on the prescribed form and returned to the Office of Research, through the faculty committee, for consideration by the Research Degrees Committee.

9.4 A candidate must submit his/her thesis to the Research Students_ Section, Office of Research, for external examination no later than the maximum candidature date.

9.5 A candidate who does not expect to submit her/his thesis by the maximum candidature date must apply for an extension on the prescribed form and returned to the Office of Research, through the faculty committee, for consideration by the Research Degrees Committee prior to the expiry of her/his maximum candidature date. The application must include the reasons for the delay, the written endorsement of the Principal Supervisor and a revised time-line for completion. Applications for extensions will not normally be considered by the Research Degrees Committee unless the reasons for the delays have been documented in previous annual reports (ref. Section 11).

9.6 The maximum period of extension for which a candidate may be given approval is 12 months past the original

maximum candidature date for full-time candidates and 24 months for part-time candidates. In exceptional circumstances, which must be documented, the Research Degrees Committee may approve a further extension. Minor breakdown of computer equipment or absence of the Principal Supervisor are not usually considered exceptional.

9.7 A candidate who wishes to take leave of absence for a specified period from his/her PhD program must apply in advance on the prescribed form and return it to the Office of Research, through the faculty committee, for consideration by the Research Degrees Committee. The application must include the reasons for the leave of absence, the written endorsement of the Principal Supervisor and the start and end dates of the period of leave. If the Research Degrees Committee approves the period of leave of absence, the duration of the specified period will be added to the minimum and maximum submission dates of the candidature.

9.8 The maximum period of leave of absence for which a candidate may be given approval is 12 months for a full-time candidate and 24 months for a part-time candidate during the term of his/her candidature. A candidate who wishes to take leave of absence for a longer period must withdraw from candidature and apply for re-entry at a later date, on the prescribed form.

9.9 A candidate who remains not currently enrolled for a period greater than twelve months will be deemed to have ceased his/her program of study and his/her candidature will be terminated. If a candidate is unable to complete the approved course of study the candidate may apply for transfer to an appropriate master degree.

9.10 Candidates are entitled to receive up to twelve months parental (maternity/paternity/ adoption) leave. The Research Degrees Committee must be notified on the prescribed form and supplied with a medical certificate (and in the case of paternity leave a marriage certificate or statutory declaration showing the candidate's relationship to the mother), and the written endorsement of the Principal Supervisor. Periods of parental leave shall not be included as part of the 12 or 24 month leave of absence maximum.

10. Supervision

10.1 Supervision of PhD candidates shall be conducted according to the QUT Code of Good Practice for Post-graduate Research Studies and Supervision (see MOPP Appendix 66)

10.2 A Principal Supervisor and at least one Associate Supervisor from QUT shall be appointed.

10.3 The Principal Supervisor has responsibility for supervising the candidate on a frequent basis and must be a current member of QUT staff or an Emeritus Professor of QUT still active in research. The Principal Supervisor shall have undertaken successful supervision of research degree candidates, shall normally have a PhD and shall have an established research record in the area of the proposed project.

10.4 One Associate Supervisor must be a member of QUT staff. Where appropriate, more than one Associate Supervisors may be appointed and additional Associate Supervisors may be from either QUT or another appropriate industrial, professional, commercial or research establishment. Associate Supervisors should possess appropriate expertise in the research field and normally have undertaken successful supervision of research degree candidates and must indicate their agreement to supervise on the pre-

scribed form. An Associate Supervisor must be appointed from an establishment formally collaborating on a research project.

10.5 For a candidate studying externally, an Associate Supervisor from the external institution linked to the project will normally be appointed. In such cases there will be no requirement for a QUT based Associate Supervisor as Centre Director would be considered as ex-officio associate.

10.6 A person who is currently a candidate for a PhD (at QUT or elsewhere) may not act as a Principal Supervisor for a PhD candidate at QUT, and should not normally act as an Associate Supervisor unless approved by Research Degrees Committee.

10.7 Where the Principal Supervisor will be absent from QUT for a period of three consecutive months or longer during the period of candidature, the QUT Associate Supervisor will become acting Principal Supervisor for this period.

10.8 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of acting Principal Supervisor immediately and until a new Principal Supervisor is appointed by the faculty, with the agreement of the candidate. A formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

11. Reporting Procedures

11.1 The Principal Supervisor and candidate are required to report annually on the prescribed form to the Research Degrees Committee on the candidate's progress and research plans. Reporting dates shall be tied to the candidate's commencement date. Reports shall be signed by both the candidate and by the Principal Supervisor and submitted through the faculty committee, Head of School and director of the centre/research concentration to the Office of Research for consideration by the Research Degrees Committee.

11.2 Faculties should develop additional internal policies and procedures for review of candidates' progress between annual reports that ensure unsatisfactory progress is dealt with expeditiously.

11.3 Where the candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve continuation of candidature.

11.4 Where progress is deemed unsatisfactory, in the Confirmation of Candidature, Annual Report or other interim faculty report, the Research Degrees Committee, on advice from the Faculty Research Committee, will normally place the candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The Research Degrees Committee will inform the candidate of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the faculty.

11.5 After the Review Period the Faculty Research Committee must forward to the Research Degrees Committee a report on the Candidate's progress which will include written documentation of the steps that have been taken to resolve the specified deficiencies in the candidate's program and an assessment of progress during the Review Period. The Research Degrees Committee will then approve continuation of candidature if the progress is deemed satisfactory.

11.6 If progress is still unsatisfactory after the Review Period, the Research Degrees Committee, on advice from the faculty committee, shall ask the candidate to show cause why the enrolment of the candidate should not be terminated (ref. Regulation 12.8).

11.7 A candidate who has been placed under review after an unsatisfactory annual report or interim report established by the faculty may not take leave of absence until the continuation of the candidature has been approved by the Research Degrees Committee.

11.8 When a candidate's progress has been reported to the Research Degrees Committee as unsatisfactory in any two consecutive reports during the candidature, the Research Degrees Committee shall ask the candidate to show cause why the enrolment of the candidate should not be terminated.

11.9 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

11.10 Applications for extensions of candidature or scholarships or leave of absence due to delays or problems with the planned research program will not normally be considered by the Research Degrees Committee unless the delays or problems have been documented in previous reports.

11.11 If the candidate does not show cause (refer Regulations 11.6, 11.8) why the enrolment should not be terminated, the Research Degrees Committee may terminate the candidate's enrolment or with the agreement of the faculty offer admission to candidature for the degree of master (research).

12. Confirmation of Candidature

12.1 Within twelve months of admission for full-time candidates and twenty-four months for part-time candidates, eighteen months for International Candidates, the candidate shall present (in consultation with her/his supervisors) a plan of the research program for the remainder of the candidature and a report on the work done to this point. This confirmation report shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to this point. The plan shall include:

- the area of study in which the candidate's course is located;
- any remaining coursework to be completed including an assessment plan;
- the nature of participation in scholarly activities of the centre/research concentration, school, or faculty in which the study is being undertaken;
- the objectives of the program of research and investigation and its relationship to published research in the same field;
- the research methods to be followed;
- the title of the thesis; and
- a time-line for completion of the research program.

12.2 The candidate shall present this confirmation report and planned research program at a Confirmation Seminar open to faculty members and the public.

12.3 A candidate who is not able to complete Confirmation of Candidature within the timeframe listed in Regulation

12.1 must apply for an extension at least one month in advance of that deadline through the faculty to the Research Degrees Committee. Normally, a maximum of three months extension may be granted.

12.4 The faculty shall review the candidate's progress and planned research program and shall submit their recommendations on the prescribed form to the Research Degrees Committee. This shall include:

- an appraisal of the candidate's progress and suitability for continuation in the PhD program;
- the documents prepared by the candidate pursuant to Regulation 12.1;
- a statement that the research program is of the standard required for a PhD program;
- statements of whether the studies continue to be within the aims and objectives and physical and human resources of the centre/research concentration; and
- a report on the candidate's seminar.

12.5 Candidates who are undertaking confirmation in order to transfer from a masters by research or a professional doctorate (research) at QUT must complete the confirmation process and should refer to Regulation 7.1.

12.6 In considering the application for Confirmation of Candidature, the Research Degrees Committee will, if the conditions are met:

- confirm the candidature and notify the candidate; or
- may require changes to the planned research program; or
- if the recommendation of the faculty is not to confirm the candidature immediately, place the candidate under review for up to three months).

At the end of the Review Period, the faculty must advise the Research Degrees Committee whether the conditions of the review have been met.

12.7 Where a candidate is placed under review following the Confirmation Seminar, the Principal Supervisor must advise the candidate within seven days of the seminar of the conditions to be met in the form of clear, written guidelines on the work to be completed and due dates for the submission of materials and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, supervisor(s), director of centre/research concentration, the Head of School, chair of the appropriate faculty committee or dean as appropriate and be forwarded within fourteen days to the Office of Research for noting by the Director, Postgraduate Research Studies.

12.8 Where a candidate's progress remains unsatisfactory after the Review Period the Research Degrees Committee, on advice from the faculty, shall either grant a further extension of the Review Period of up to three months or, after giving the candidate the opportunity to show why one of the following courses of action should not be taken:

- terminate the candidature with an offer of admission to the degree of master, or
- terminate the candidature with no such offer.

13. Thesis Guidelines

13.1 The thesis must be presented in accordance with the requirements of the Council, including any accompanying declarations and in accordance with Appendix 51 of the Manual of Policies and Procedures _ Requirements for Presenting Theses (see MOPP Appendix 51) and the main body of the text must not exceed 100,000 words.

13.2 Except with the specific permission of the Research Degrees Committee the thesis must be presented in the

English language. Such permission must be sought at Stage 1 of the application for admission to the PhD program and will not be granted solely on the grounds that the candidate's ability to satisfy the External Examination Committee will be affected adversely by the requirement to present the thesis in English.

13.3 Where a candidate's research program forms part of the work of a research team or larger research project, the thesis must indicate clearly the candidate's individual contribution and the extent to which co-workers contributed to the candidate's program.

13.4 Subject to Quits intellectual property policy (see MOPP Appendix 22 - 3.1) the copyright of the thesis is vested in the candidate.

13.5 Where a candidate or the sponsoring establishment wishes the thesis to remain confidential for a period of time after the completion of the work, written application for approval stating the reasons must be made to the Research Degrees Committee when the thesis is submitted for external examination. The period normally shall not exceed two years from the date on which the Head of School or nominee recommends acceptance of the thesis to the Research Degrees Committee.

13.6 A candidate may not present in the thesis any work for which another degree or diploma has been awarded by QUT or any other academic institution, but such a candidate shall not be precluded from incorporating extracts from such work in the thesis provided that the sum of any such extracts does not constitute more than 10% of the thesis and provided also that the source of each such extract is stated explicitly.

13.7 Prior approval must be obtained from the Research Degrees Committee for any course of PhD study leading to the presentation of a thesis other than in writing. Full details of the alternative course of study should be provided formally at Stage 2 together with a proposal regarding the form the final thesis and its examination is expected to take.

13.8 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD -ROMS, models, software programs, evidence of exhibitions, or other materials for the purposes of illustration) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

13.9 A PhD may be awarded on the basis of the submission of published papers as per the Section 14.

13.10 A PhD may be awarded on the basis of the submission of a creative work as per the Regulations set out in Section 15.

13.11 A candidate's name will not be placed on the list for graduation until the final copy of the thesis is received in the Research Students_ Section, Office of Research.

13.12 A candidate who passes but is required to make revisions to the thesis after external examination must lodge the final copy of the thesis with the Research Students_ Section, Office of Research, no later than 12 months after the date of receipt of examiners_ reports or the candidate shall be deemed to have failed unless an extension has been approved by the Research Degrees Committee.

13.13 When the final copy of the thesis has been lodged with the Research Students_ Section, Office of Research,

the names of the examiners will be released to the candidate on request, providing that the examiner has not indicated otherwise.

14. Presentation of PhD Theses by Published Papers

14.1 Introduction

14.1.1 The Queensland University of Technology permits the presentation of theses for the degree of Doctor of Philosophy in the format of published and/or submitted papers. Where such papers have been published, accepted or submitted during the period of candidature.

14.1.2 Papers submitted as a PhD thesis must be closely related in terms of subject matter and form a cohesive research narrative.

14.2 Format

14.2.1 The thesis may be comprised of published papers, manuscripts accepted for publication, manuscripts submitted for publication or under review.

14.2.2 The minimum number of papers and/or manuscripts is normally three. At least one paper must have been published, accepted, or be undergoing revision following refereeing.

14.2.3 Where the papers have multiple authorship, the candidate must be principal author on at least two of the three papers and have written permission of the co-authors.

14.2.4 Normally, the thesis shall include the following:

- title page;
- abstract and key words;
- list of publications and/or manuscripts;
- contents;
- statement of original authorship;
- acknowledgments;
- introduction;
- literature review; published papers and submitted manuscripts; and
- general discussion.

14.2.5 The abstract summarises the main findings presented in each published paper or submitted manuscript and should indicate how the included works, when considered together, demonstrate a significant contribution to knowledge in the discipline.

14.2.6 The introduction should contain succinct statements under the following headings:

- description of research problem investigated;
- overall objectives of the study;
- specific aims of the study; and
- account of research progress linking the research papers.

The account of research progress must link together the various papers submitted as part of the thesis. The intention of this Section is to provide continuity for the entire thesis so that the reader can move from one chapter to the next understanding the logic behind the progression of the research program.

14.2.7 The literature review will, of necessity, replicate literature cited in subsequent chapters but must contain a clear statement on the significance of the project aims, a critical review of relevant literature, identification of knowledge gaps, and the relationship of the literature to the experimental program.

14.2.8 Published papers/papers submitted in the following categories may be included but each must be presented as an individual chapter in the thesis:

- published papers;
- manuscripts accepted for publication;
- manuscripts submitted and under review by referees; and
- manuscripts under revision following referees' reports.

14.2.9 Only papers which have been published by or submitted to journals approved by the faculty committee are allowable under these Regulations. Whilst Short Communications and Letters are acceptable, their number should be less than that of full length papers.

14.2.10 Manuscripts which have been rejected by a journal must not be included unless they have been substantially rewritten to address referees' comments as certified in the Final Seminar documentation.

14.2.11 Each chapter comprised of a published paper or submitted manuscript must begin with a clear statement of the contribution made by each author of any jointly authored paper. The description must be sufficiently detailed to describe accurately the contribution of each author.

14.2.12 The thesis must contain an overarching discussion of the main features linking the publications and include a statement of the significance of the findings, problems encountered and the future directions of the work.

14.3 Presentation

14.3.1 The thesis must be presented in accordance with the requirements of the Council, including any accompanying declarations and in accordance with MOPP Appendix 51.

15. Presentation of PhD Theses by Creative Works

15.1 Introduction

15.1.1 In the case of a thesis submitted in the area of artistic practice, presentation may be in one of two forms: a theoretical thesis or artwork and exegesis. The artwork may be in the form of exhibition, performance, literary work, film, CD Rom or other approved format. The artwork and exegesis will be examined as an integrated whole. The artwork should provide a coherent demonstration that the candidate has reached an appropriate standard in the research and has made a significant and original contribution to knowledge in the area. The exegesis should describe the research process and elaborate, elucidate and place in context the artistic practice undertaken. In the case of visual or performing arts, the examiners will attend the exhibition/performance, at which time they will be given a copy of the exegesis in temporary binding. A final copy of the exegesis will be provided to the examiners within three months of their viewing the artwork.

15.2 Examination of a Creative Work Other Than a Printed Thesis

15.2.1 Where other materials are to be examined, such as in the areas of visual, performing, literary or media arts, the candidate must seek approval from Research Degrees Committee for the form and presentation of the thesis at the time of the Stage 2 application for entry to the PhD program.

15.2.2 Artistic practice may be examined by a theoretical thesis or by artwork and exegesis. The artwork and the exegesis will not be examined separately but as an inte-

grated whole constituting the original and substantial contribution to knowledge required from doctoral candidates.

15.2.3 A theoretical thesis is a written document which would conform in all respects to the remainder of this policy.

15.2.4 Studio-based inquiry may result in a thesis presented by artwork and exegesis. The artwork should be the research outcome, while the exegesis should describe the research process and elaborate, elucidate and place in context the artistic practice undertaken.

15.2.5 The exegesis would normally not exceed 50,000 words and would conform in all respects to the remainder of this policy. It should also contain a description of the form and presentation of the artistic practice which constitutes the remainder of the thesis.

15.3 Presentation

15.3.1 The thesis must be presented in accordance with the requirements of the Council, including any accompanying declarations and in accordance with MOPP Appendix 51.

16. Examinations

16.1 Any fees payable in relation to the examination of a candidate shall be determined by the Council.

16.2 At least three months prior to the maximum candidature date (or anticipated completion date) the Principal Supervisor having obtained the agreement of the faculty committee, shall recommend to the Research Degrees Committee, on the prescribed form, the composition of a proposed Examination Committee and the title of the candidate's thesis.

16.3 The Examination Committee shall comprise two external examiners who will examine the thesis plus an additional external examiner to be called upon only if the first two examiners are in disagreement. (ref. Section 18)

16.4 In exceptional circumstances, the Research Degrees Committee may act directly to facilitate the examination process of a thesis including the appointment of examiners.

16.5 Any person who has acted as the candidate's Principal or Associate Supervisor; or participated in the candidate's research group or in any capacity where a conflict of interest is seen to exist may not be nominated by the faculty as an examiner. (refer to MOPP Appendix 9 _ QUT Code of Conduct _ Integrity _ section (e))

16.6 Examiners must have demonstrable and substantial publications and research experience in the area under investigation, preferably have a PhD and be widely recognised in the relevant field. At least one of the nominated examiners should be from an internationally recognised university or equivalent research institution. However all of the examiners may be from Australian institutions provided that they are widely recognised as experts with demonstrable and substantial publications and research experience in the relevant field of research. At least one examiner must also have had substantial experience of examining research degree candidates at the doctoral level. Agreement will be sought from examiners to examine the thesis within 8 weeks of receipt of the thesis.

16.7 If more than six months has elapsed between the nomination of examiners and the submission of the thesis, the faculty must notify the Research Degrees Committee that the nominated examiners are still willing and able to examine the thesis within two months of its receipt. If any

previously nominated examiner is unable to examine the thesis, a replacement examiner must be nominated by the Principal Supervisor with the agreement of the faculty for approval by the Research Degrees Committee.

16.8 In order to determine whether the thesis is acceptable for examination by the Examination Committee, the candidate shall be required to present a Final Seminar based on the work described in the thesis to the faculty to which he/she is attached.

- This final seminar shall normally take place no more than six months prior to the anticipated submission date.
- The faculty shall constitute a panel of three including the Principal Supervisor to attend the seminar and to report on the readiness of the thesis for external examination. The panel shall be chaired by the Principal Supervisor, and shall question the candidate on the content of the thesis at the conclusion of the seminar. Each member of the panel must receive a copy of the draft thesis 14 days prior to the final seminar.
- The panel may require changes to the thesis or ask that further work be done prior to submission of the thesis. The thesis is accepted by the University for external examination only when the panel signifies its belief that the degree requirements have been met. The faculty panel shall use the prescribed form when advising Research Degrees Committee that the thesis is ready for external examination.
- The final seminar shall be open to the public and shall be widely advertised by the faculty so as to ensure attendance by researchers and research students within the faculty.
- In all other matters the form and timing of the final seminar is determined by the faculty.

16.9 The thesis must be accompanied by a certificate endorsed by the Principal Supervisor, Head of School or nominee, and the faculty committee stating that all reasonable efforts have been made by the faculty to ensure that:

- the thesis makes an original and significant contribution to the field of research;
- the methodology applied in the candidate's research is effective and appropriate for the thesis topic and the PhD;
- the thesis reflects competence in the survey of literature and documentation of statements;
- the thesis is of the required standard for external examination;
- the thesis is within the prescribed word limit;
- the candidate has presented a Final Seminar;
- that an external candidate has spent at least three months minimum at QUT during the course of his/her enrolment; and
- original correspondence from editors has been sighted and that editorial advice has been followed in the manuscripts submitted for examination (if applicable) and
- acknowledgment is given regarding the inclusion of all published and other sources of information, together with any substantial financial assistance received for the project.

16.10 In exceptional circumstances, the Research Degrees Committee may allow a candidate to submit his or her thesis for external examination without the requirement for certification (ref. Regulation 16.9). The candidate must apply in writing to the Research Degrees Committee for such permission, outlining the reasons why the required certification is not included.

16.11 Three copies of the thesis, in the prescribed format must be submitted to the Research Students_ Section, Office of Research, no later than the maximum candidature date.

16.12 The Office of Research, on the advice of the Research Degrees Committee, shall provide the examiners with a copy of the thesis and of the Council's Regulations for the Award of the Degree of Doctor of Philosophy, and any other relevant information.

16.13 Each examiner will be asked to provide a written report to the Office of Research on the candidate's thesis and to recommend one of the following courses of action:

Recommendation 1: The candidate should be awarded the degree without the requirement for revision, further examination or modification (minor corrections and typographical errors only); or

Recommendation 2: The candidate should be awarded the degree subject to minor nominated revisions being completed to the satisfaction of the Head of School and Principal Supervisor; or

Recommendation 3: The candidate should be awarded the degree following the completion of major nominated revisions to the satisfaction of the Head of School and Principal Supervisor; or

Recommendation 4: The candidate should be permitted to substantially revise and submit the thesis for re-examination within twelve months after a specified amount of further work, which may alter the substantive conclusions of the thesis, has been completed under approved supervision and the thesis appropriately amended to reflect the additional research; or

Recommendation 5: The candidate should be awarded the degree at Masters level: without the requirement for further revision or further examination; subject to nominated revisions being completed to the satisfaction of the Head of School and Principal Supervisor; subject to revision and submission for re-examination after completion of further work; or

Recommendation 6: The thesis should be rejected, the degree should not be awarded and the candidate should not be permitted to submit the thesis for re-examination for the degree.

16.14 After both examiners_ reports are received the Office of Research will forward them to the Head of School or nominee, the Principal Supervisor and the candidate with an appropriate covering letter. (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate.)

17. Examiners in Agreement

17.1 Where both examiners recommend that the candidate should be awarded the degree (recommendation 1, 2 or 3) the Head of School, or nominee will consult with the Principal Supervisor, Centre Director and Postgraduate Studies coordinator to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

17.2 When all corrections or revisions have been made to the satisfaction of the Head of School or nominee and the Principal Supervisor, the Head of School or nominee and the Principal Supervisor must certify to the Research Degrees Committee that they recommend acceptance of the

thesis in fulfilment of the conditions for the award of the PhD degree.

17.3 Where both examiners recommend that the thesis be revised and resubmitted for examination (Examiners Report Recommendation 4), after consultation with the Principal Supervisor and the Centre Director, the Head of School or nominee will make written recommendation to the Research Degrees Committee within 7 days of the receipt of the Examiners Reports listing any revisions required. Once these are approved by the Research Degrees Committee, the Research Degrees Committee will inform the candidate of the revisions and/or any action required

17.4 Where both examiners recommend that the candidate should be awarded the degree at masters level, (Recommendation 5), the Head of School or nominee will consult with the Principal Supervisor to discuss any revisions that the candidate may be required to make and forward a recommendation to the Research Degrees Committee. Once approved the Head of School will meet with the Centre Director and Principal Supervisor to discuss outcome with the Principal Supervisor responsible for informing the candidate of the decision.

18. Examiners Not In Agreement

18.1 Where the recommendations of the external examiners are not in agreement as to whether the thesis should be accepted for the award of PhD or as to whether the thesis may be revised and resubmitted the thesis will be sent to the third nominated examiner.

18.2 Upon receipt of the third examiner's report, a majority decision shall be adopted.

18.3 Where the majority decision is that the thesis be accepted for the award or the thesis be accepted for the award of a masters degree or the thesis be rejected and the candidate not be permitted to resubmit, the procedures in Section 17 shall apply.

18.4 Where the majority decision is that the candidate be required to submit for re-examination or the thesis fail, the procedures in Section 17 shall apply.

18.5 Where the recommendations of the three examiners clearly differ and no clear majority exists, the Head of School or nominee shall liaise with the Director, Postgraduate Research Studies, and the Principal Supervisor to determine the further course of action which may involve any of the outcomes listed in Regulation 16.13.

19. Re-examination

19.1 A candidate who is required to submit for re-examination may be re-examined only once except in the case of an upheld appeal.

19.2 Re-examination shall take place within twelve months from the date on which the candidate is advised in writing by the Head of School or nominee of such re-examination. The Research Degrees Committee may, on written application by the candidate and supported by the Principal Supervisor and Centre Director with suitable justification, approve an extension to this period which, under normal circumstances, may be a maximum of a further twelve months.

19.3 A candidate who is required to submit his/her thesis for re-examination must re-enrol in the PhD program.

19.4 The thesis shall be re-examined by the same two examiners unless:

- any of the examiners is unable to re-examine the thesis in which case the Head of School or nominee with the agreement of the Principal Supervisor and the faculty shall nominate a replacement examiner(s) who must be approved by the Research Degrees Committee; or the Research Degrees Committee replaces one or more of the examiners on advice from the RDC Chair and with suitable justification.

19.5 Examiners re-examining a thesis will be asked to provide a written report on the candidate's thesis and to recommend one of the following courses of action:

- the candidate should be awarded the degree with or without minor nominated revisions; or
- the candidate should be awarded the degree at masters level with or without minor nominated revisions; or
- the thesis should be rejected and the degree should not be awarded.

19.6 Regulations applicable to PhD examination shall apply to the re-examination.

20. Appeals

20.1 A candidate whose thesis has been failed or whose thesis has been recommended for the award of the degree of master may lodge an appeal against the outcome of the examination process.

20.2 The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

20.3 An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based.

20.4 Appeals as described in Section 20 must be submitted, in writing, to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to her/his consideration of the appeal.

20.5 In cases where a conflict of interest exists, the Director, Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision, to consider the appeal.

20.6 The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the faculty, school or centre/research concentration as appropriate.

20.7 The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that: the thesis be re-examined. This re-examination shall be carried out in accordance with the Section 19 taking account of the issues raised in the successful appeal.

20.8 The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

■ Master of Advertising (Creative Advertising) IX96

Award title: Master of Advertising (Creative Advertising)
CRICOS code: 048322G

Campus: Kelvin Grove and Gardens Point

Duration: 3 semesters full-time or 6 semesters part-time
Credit points: 144 (full-time standard semester: 48; part-time standard semester: 24)

Course coordinator: Associate Professor Terry Flew

Discipline coordinator: Associate Professor Terry Flew

■ Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary) IX04

Award title: Bachelor of Applied Science (in Human Movement Studies)/ Bachelor of Education (Secondary)

CRICOS code: 020323D

Campus: Kelvin Grove, Carseldine and Gardens Point

Duration: 4 years full-time

Credit points: 432

Course coordinator: Education Coordinator: Dr Peter Bond, Human Movement Studies Coordinator: Dr Tom Cuddihy

Discipline coordinator:

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration, and for associate membership of the Australian Association for Sports Science.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

■ **Bachelor of Applied Science/Bachelor of Business IF61**

Award title: Bachelor of Applied Science (Study Area A)/Bachelor of Business (Study Area A)

CRICOS code: 042263G

Campus: Gardens Point

Duration: 4 years full-time

Credit points: 432 (full-time standard semester: 54 (average))

Course coordinator: Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)

Discipline coordinator: Ms Ros Kent (Accountancy); Dr Gayle Kerr (Advertising); Ms Sherrena Buckby (Electronic Business); Dr Amanda Gudmundsson (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); Ms Robina Xavier (Public Relations); Dr John Chen (Banking & Finance) and Dr Radhika Lahiri (Economics); Science Discipline Coordinator details are listed under Contact Details below

Professional Recognition

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership of: CPA Australia; Institute of Chartered Accountants in Australia; Chartered Secretaries Australia; Advertising Federation of Australia; Australian Association of National Advertisers; Australian Direct Marketing Association; Queensland Commercial Radio Association; Financial Services Institute of Australasia (FINSIA); Economics Society of Australia; Australian Human Resources Institute; Australian Institute of Management; Australian Institute of Training and Development; Australian Institute of Export; Australian Marketing Institute; Marketing Research Society of Australia; American Marketing Association and Public Relations Institute of Australia.

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Applied Science program and 240 credit points from the Bachelor of Business program.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position students within the broad range of science disciplines and qualify them as competent professionals within their chosen fields. Students can major in Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology or Physics. See the Bachelor of Applied Science (SC01) course for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the business program.

Students can specialise in one or more of the following business majors: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations.

 AMB320 Advertising Management
 Business Double Major/Extended Major/ Specialisation Unit
 Business Double Major/Extended Major/ Specialisation Unit

Year 4, Semester 2
 AMB321 Advertising Campaigns
 Business Double Major/Extended Major/ Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

Course Structure

Banking & Finance

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB110 Accounting
 BSB113 Economics

Year 1, Semester 2

BSB122 Quantitative Analysis and Finance
 EFB102 Economics 2

Year 2, Semester 1

BSB119 International and Electronic Business
 BSB126 Marketing
 EFB210 Finance 1

Year 2, Semester 2

BSB114 Government, Business and Society
 EFB307 Finance 2

Year 3, Semester 1

BSB111 Business Law and Ethics
 Business Double Major / Extended Major / Specialisation Unit

Year 3, Semester 2

BSB115 Management, People and Organisations
 EFB312 International Finance
 Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 1

EFB201 Financial Markets
 Business Double Major / Extended Major / Specialisation Unit
 Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 2

Business Double Major / Extended Major / Specialisation Unit
 Business Double Major / Extended Major / Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

Course Structure

Economics

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB113 Economics
 BSB122 Quantitative Analysis and Finance

Year 1, Semester 2

BSB119 International and Electronic Business
 EFB102 Economics 2

Year 2, Semester 1

BSB110 Accounting
 BSB126 Marketing
 EFB202 Business Cycles and Economic Growth

Year 2, Semester 2

BSB114 Government, Business and Society
 Business Double Major / Extended Major/ Specialisation Unit

Year 3, Semester 1

EFB211 Firms, Markets and Resources
 Business Double Major / Extended Major / Specialisation Unit

Year 3, Semester 2

BSB115 Management, People and Organisations
 EFB314 International Trade and Economic Competitiveness
 EFB329 Contemporary Applications of Economics Theory

Year 4, Semester 1

BSB111 Business Law and Ethics

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 2

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

Course Structure

Electronic Business

These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB119 International and Electronic Business

BSB122 Quantitative Analysis and Finance

Year 1, Semester 2

BSB110 Accounting

BSB115 Management, People and Organisations

BSB113 Economics

Year 2, Semester 1

BSB111 Business Law and Ethics

BSB126 Marketing

BSB212 Electronic Business Applications

Year 2, Semester 2

BSB213 Governance Issues in E-Business

BSB114 Government, Business and Society

Year 3, Semester 1

BSB314 E-Business Intelligence

ITB233 Enterprise Systems Applications

Year 3, Semester 2

ITB823 Web Sites For Electronic Commerce

ITB239 Enterprise Data Mining

Business Double Major Unit

Year 4, Semester 1

Business Double Major Unit

Business Double Major Unit

Business Double Major Unit

Year 4, Semester 2

Business Double Major Unit

Business Double Major Unit

Students should refer to the BS56 Course Notes entry for information on double major units

Course Structure

Human Resource Management

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB115 Management, People and Organisations

BSB122 Quantitative Analysis and Finance

Year 1, Semester 2

BSB113 Economics

BSB114 Government, Business and Society

MGB222 Managing Organisations

Year 2, Semester 1

BSB119 International and Electronic Business

BSB126 Marketing

MGB220 Management Research Methods

Year 2, Semester 2

BSB110 Accounting

BSB111 Business Law and Ethics

Year 3, Semester 1

MGB207 Human Resource Issues and Strategy

MGB211 Organisational Behaviour

Year 3, Semester 2

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 1

MGB314 Organisational Consulting and Change

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 2

MGB309 Strategic Management

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Marketing or Public relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

Course Structure

International Business

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB113 Economics

BSB119 International and Electronic Business

Year 1, Semester 2

BSB114 Government, Business and Society

BSB126 Marketing

IBB202 Fundamentals of International Finance

Year 2, Semester 1

BSB115 Management, People and Organisations

BSB122 Quantitative Analysis and Finance

IBB213 International Marketing

Year 2, Semester 2

BSB110 Accounting

BSB111 Business Law and Ethics

Year 3, Semester 1

IBB210 Export Management

International Business Area Study 1

Year 3, Semester 2

International Business Area Study 2

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 1

IBB300 International Business Strategy

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 2

Business Double Major / Extended Major / Specialisation Unit

Business Double Major / Extended Major / Specialisation Unit

International Business Area Study Options:

Students must select one of the following pairs of area study units:

IBB208 European Business Development
 IBB308 Contemporary Business in Europe
 OR
 IBB217 Asian Business Development
 IBB317 Contemporary Business in Asia

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

Course Structure

Management

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB115 Management, People and Organisations
 BSB122 Quantitative Analysis and Finance

Year 1, Semester 2

BSB113 Economics
 BSB114 Government, Business and Society
 MGB222 Managing Organisations

Year 2, Semester 1

BSB119 International and Electronic Business
 BSB126 Marketing
 MGB220 Management Research Methods

Year 2, Semester 2

BSB110 Accounting
 BSB111 Business Law and Ethics

Year 3, Semester 1

MGB210 Production and Service Management
 MGB211 Organisational Behaviour

Year 3, Semester 2

MGB334 Managing in a Changing Environment
 Business Double Major /Extended Major/Specialisation Unit

Year 4, Semester 1

Business Double Major /Extended Major/Specialisation Unit
 Business Double Major /Extended Major/Specialisation Unit
 Business Double Major /Extended Major/Specialisation Unit

Year 4, Semester 2

MGB309 Strategic Management
 Business Double Major /Extended Major/Specialisation Unit
 Business Double Major /Extended Major/Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

Course Structure

Marketing

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB122 Quantitative Analysis and Finance
 BSB126 Marketing

Year 1, Semester 2

AMB200 Consumer Behaviour
 AMB240 Marketing Planning and Management

BSB114 Government, Business and Society

Year 2, Semester 1

AMB201 Marketing and Audience Research
 BSB115 Management, People and Organisations
 BSB119 International and Electronic Business

Year 2, Semester 2

AMB241 E-Marketing Strategies
 Business Double Major/Extended Major/Specialisation Unit

Year 3, Semester 1

BSB113 Economics
 Business Double Major/Extended Major/Specialisation Unit

Year 3, Semester 2

BSB110 Accounting
 BSB111 Business Law and Ethics
 Business Double Major/Extended Major/Specialisation Unit

Year 4, Semester 1

AMB340 Services Marketing
 Business Double Major/Extended Major/Specialisation Unit
 Business Double Major/Extended Major/Specialisation Unit

Year 4, Semester 2

AMB341 Strategic Marketing
 Business Double Major/Extended Major/Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

Course Structure

Public Relations

Note: These Business Units are studied in conjunction with Science units each semester

Year 1, Semester 1

BSB122 Quantitative Analysis and Finance
 BSB126 Marketing

Year 1, Semester 2

AMB260 Public Relations Theory and Practice
 BSB114 Government, Business and Society
 BSB119 International and Electronic Business

Year 2, Semester 1

AMB201 Marketing and Audience Research
 AMB261 Media Relations and Publicity
 BSB115 Management, People and Organisations

Year 2, Semester 2

AMB262 Public Relations Writing
 Business Double Major / Extended Major / Specialisation

Year 3, Semester 1

BSB113 Economics
 Business Double Major / Extended Major / Specialisation

Year 3, Semester 2

BSB110 Accounting
 BSB111 Business Law and Ethics
 Business Double Major / Extended Major / Specialisation

Year 4, Semester 1

AMB360 Corporate Communication Management
 Business Double Major / Extended Major / Specialisation
 Business Double Major / Extended Major / Specialisation

Year 4, Semester 2

AMB361 Public Relations Campaigns
 Business Double Major / Extended Major / Specialisation

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

Science Component

Faculty Core Units

6 faculty core units, including three Foundation units

Foundation Units

LSB118 Life Science
MAB101 Statistical Data Analysis 1
NRB100 Environmental Science
PCB101 Physical Science

Other Science Units

LSB238 Cell and Molecular Biology 1
LSB258 Principles of Human Physiology
MAB100 Mathematical Sciences 1A
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
NRB230 Planet Earth
NRB240 History of Life on Earth
NRB270 Animal and Plant Structure and Function
PCB140 Introductory Chemistry
PCB142 Chemistry 1
PCB242 Chemistry 2
PCB250 Physics 1
PCB260 Physics 1A

Course Structure

Biochemistry

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

LSB118 Life Science
PCB101 Physical Science

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1
NRB270 Animal and Plant Structure and Function

Year 2, Semester 1

MAB101 Statistical Data Analysis 1
Either

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Year 2, Semester 2

LSB258 Principles of Human Physiology
PCB242 Chemistry 2

Year 3, Semester 1

LSB308 Biochemistry
LSB338 Cell and Molecular Biology 2

Year 3, Semester 2

LSB408 Metabolism
LSB468 Molecular Biology

Year 4, Semester 1

LSB508 Advanced Metabolism
LSB527 Biomedical Research Technologies

Year 4, Semester 2

LSB607 Protein Purification
LSB608 Protein Science

Course Structure

Biotechnology

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

LSB118 Life Science
PCB101 Physical Science

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1
NRB270 Animal and Plant Structure and Function

Year 2, Semester 1

MAB101 Statistical Data Analysis 1
Either

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Year 2, Semester 2

LSB258 Principles of Human Physiology
PCB242 Chemistry 2

Year 3, Semester 1

LSB308 Biochemistry
LSB338 Cell and Molecular Biology 2

Year 3, Semester 2

LSB449 Human Cell Biology
LSB468 Molecular Biology

Year 4, Semester 1

LSB509 Medical Biotechnology 1
LSB537 Genetic Engineering

Year 4, Semester 2

LSB609 Medical Biotechnology 2
LSB619 Genomics and Bioinformatics

Course Structure

Chemistry

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

MAB100 Mathematical Sciences 1A
PCB101 Physical Science

Year 1, Semester 2

LSB118 Life Science
MAB101 Statistical Data Analysis 1

Year 2, Semester 1

NRB100 Environmental Science
PCB142 Chemistry 1

Year 2, Semester 2

PCB242 Chemistry 2
PCB260 Physics 1A

Year 3, Semester 1

PCB334 Inorganic Chemistry
PCB354 Structure and Mechanism in Organic Chemistry

Year 3, Semester 2

PCB405 Principles of Physical Chemistry
PCB444 Spectroscopy

Year 4, Semester 1

PCB505 Advanced Physical Chemistry
PCB554 Synthesis and Reactivity in Organic Chemistry

Year 4, Semester 2

PCB634 Organometallic and Coordination Chemistry
PCB644 Frontiers in Chemistry

Course Structure

Ecology

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

NRB100 Environmental Science

PCB101 Physical Science

Year 1, Semester 2

LSB118 Life Science

NRB240 History of Life on Earth

Year 2, Semester 1

MAB101 Statistical Data Analysis 1

Either

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Year 2, Semester 2

LSB238 Cell and Molecular Biology 1

NRB270 Animal and Plant Structure and Function

Year 3, Semester 1

NRB301 Earth Surface Systems

NRB311 Population Ecology

Year 3, Semester 2

NRB410 Genetics and Evolution

NRB412 Experimental Design

Year 4, Semester 1

NRB510 Population Genetics

NRB511 Population Management

Year 4, Semester 2

NRB610 Ecological Applications

NRB611 Conservation Biology

Course Structure

Environmental Science

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

NRB100 Environmental Science

PCB101 Physical Science

Year 1, Semester 2

LSB118 Life Science

NRB240 History of Life on Earth

Year 2, Semester 1

MAB101 Statistical Data Analysis 1

Either

NRB230 Planet Earth

Or

PCB140 Introductory Chemistry

Or

PCB142 Chemistry 1

Year 2, Semester 2

NRB270 Animal and Plant Structure and Function

PCB414 Industrial and Environmental Analytical Chemistry

Year 3, Semester 1

NRB301 Earth Surface Systems

NRB311 Population Ecology

Year 3, Semester 2

NRB440 Environmental Chemistry

NRB412 Experimental Design

Year 4, Semester 1

NRB500 Environmental Systems and Modelling

NRB601 Field Mapping and Monitoring of Natural Resources

Year 4, Semester 2

NRB501 Spatial Analysis of Environmental Systems

NRB600 Sustainable Environmental Management

Course Structure

Forensic Science

Note: These Science units are studied in conjunction with Business Units each semester

Year 1, Semester 1

LSB118 Life Science

PCB260 Physics 1A

Year 3, Semester 1

PCB361 AC Theory and Electronics

PCB362 Physics 2

Year 3, Semester 2

PCB460 Instrumentation and Computational Methods

PCB462 Thermodynamics and Solid State Physics

Year 4, Semester 1

PCB561 Quantum and Condensed Matter Physics

PCB562 Physical Methods of Analysis

Year 4, Semester 2

PCB661 Experimental Physics

PCB665 Physics 3

■ **Bachelor of Applied Science/Bachelor of Education (Primary) IX14**

Award title: Bachelor of Applied Science (Study Area

A)/Bachelor of Education (Primary)

CRICOS code: 037540M

Campus: Kelvin Grove and Gardens Point

Duration: 4 years full-time

Credit points: 384 (full-time standard semester: 48)

Course coordinator: Dr Megan Hargreaves (Science): Ms Jenny Masters (Education)

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. To undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Structure

Geoscience Major

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

NRB100 Environmental Science

NRB230 Planet Earth

PCB101 Physical Science

Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field

MAB100 Mathematical Sciences 1A

PCB142 Chemistry 1

NRB240 History of Life on Earth

Year 2, Semester 1

MDB120 Mathematics Curriculum and Pedagogies

NRB301 Earth Surface Systems

NRB331 Sedimentary Geology

NRB333 Mineralogy

Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

NRB434 Structural Geology

NRB436 Introduction to Igneous and Metamorphic Petrology

NRB633 Hydrogeology

Year 3, Semester 1

MAB101 Statistical Data Analysis 1

NRB534 Geophysics

NRB536 Petrology and Geochemistry

NRB601 Field Mapping and Monitoring of Natural Resources

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education

EDB022 Primary Field Studies 2: Practising Education in the Field

HMB300 Primary Curriculum and Pedagogies: Health and Physical Education

CLB123 Multiliteracies: Designs for Learning

Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Inclusive Education

EDB023 Primary Field Studies 3: Immersion in Inclusive Educational Practices

KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts & Media

OR

KKB202 Primary Curriculum and Pedagogies: Dance and Drama

MDB006 Primary Curriculum & Pedagogies: Science

Year 4, Semester 2

EDB005 Teaching and Learning Studies 5: Professional Work of Teachers

EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field

EDB025 Internship (Primary)

MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

Course Structure

Mathematics Major (WITH Maths C)

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

MAB101 Statistical Data Analysis 1

MAB111 Mathematical Sciences 1B

MAB112 Mathematical Sciences 1C

Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field

MAB210 Statistical Modelling 1

MAB220 Computational Mathematics 1

PCB101 Physical Science

Year 2, Semester 1

MDB120 Mathematics Curriculum and Pedagogies

One Science unit - selected from:

LSB118 Life Science

NRB100 Environmental Science

Two Level 2 Mathematics units - available units are:

MAB311 Advanced Calculus

MAB312 Linear Algebra

MAB313 Mathematics of Finance

MAB314 Statistical Modelling 2

Note: Students must complete at least one of MAB311, MAB312, MAB413

Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

Two Level 2 Mathematics units - available units are:

MAB315 Operations Research 2

MAB413 Differential Equations

MAB414 Applied Statistics 2

MAB420 Computational Mathematics 2

MAB422 Mathematical Modelling

MAB480 Introduction to Scientific Computation

One Level 3 Mathematics units - available units are:

MAB621 Discrete Mathematics

MAB623 Financial Mathematics

Note: Students must complete at least one of MAB311, MAB312, MAB413

Year 3, Semester 1

One Science Elective

Three Level 3 Mathematics units - available units are:

MAB521 Applied Mathematics 3

MAB522 Computational Mathematics 3

MAB523 Introduction to Quality Management

MAB525 Operations Research 3A

MAB526 Statistical Science 3

MAB672 Advanced Mathematical Modelling

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education

EDB022 Primary Field Studies 2: Practising Education in the Field

HMB300 Primary Curriculum and Pedagogies: Health and Physical Education

CLB123 Multiliteracies: Designs for Learning

Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Inclusive Education
 EDB023 Primary Field Studies 3: Immersion in Inclusive Educational Practices
 KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts & Media
 OR
 KKB202 Primary Curriculum and Pedagogies: Dance and Drama
 MDB006 Primary Curriculum & Pedagogies: Science
Year 4, Semester 2
 EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
 EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
 EDB025 Internship (Primary)
 MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

Course Structure

Mathematics Major (WITHOUT Maths C)

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning

 EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
 EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
 EDB025 Internship (Primary)
 MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

Course Structure

Microbiology Major

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning
 LSB118 Life Science
 PCB101 Physical Science

Either
 PCB140 Introductory Chemistry
 Or
 PCB142 Chemistry 1

Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field
 LSB238 Cell and Molecular Biology 1
 NRB270 Animal and Plant Structure and Function
 PCB242 Chemistry 2

Year 2, Semester 1

LSB308 Biochemistry
 LSB328 Microbiology 1
 MAB101 Statistical Data Analysis 1
 MDB120 Mathematics Curriculum and Pedagogies

Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment
 LSB408 Metabolism
 LSB428 Microbiology 2

Either
 LSB647 Clinical Mycology and Parasitology
 Or
 LSB648 Molecular Microbiology

Year 3, Semester 1

LSB528 Environmental Microbiology
 LSB547 Bacterial Pathogenesis and Disease Diagnosis
 LSB568 Electron Microscopy
 One Science Elective (eg LSB338)

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education

EDB022 Primary Field Studies 2: Practising Education in the Field
 HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
 CLB123 Multiliteracies: Designs for Learning
Year 4, Semester 1
 EDB004 Teaching and Learning Studies 4: Inclusive Education
 EDB023 Primary Field Studies 3: Immersion in Inclusive Educational Practices

 OR
 KKB202 Primary Curriculum and Pedagogies: Dance and Drama
 MDB006 Primary Curriculum & Pedagogies: Science
 EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
 EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
 EDB025 Internship (Primary)
 MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

Course Structure

Physics Major

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning
 PCB101 Physical Science
 PCB107 Physics and Quantitative Techniques
 Either
 MAB180 Engineering Mathematics 1
 Or
 MAB131 Engineering Mathematics 1A

Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field
 MAB132 Engineering Mathematics 1B
 PCB250 Physics 1
 PCB260 Physics 1A

Year 2, Semester 1

MAB134 Electrical Engineering Mathematics 3
 MDB120 Mathematics Curriculum and Pedagogies
 PCB361 AC Theory and Electronics
 PCB362 Physics 2

Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment
 PCB445 Nanotechnology and Nanoscience
 PCB460 Instrumentation and Computational Methods
 PCB462 Thermodynamics and Solid State Physics

Year 3, Semester 1

PCB561 Quantum and Condensed Matter Physics
 PCB562 Physical Methods of Analysis
 PCB661 Experimental Physics
 Either
 LSB118 Life Science
 Or
 NRB100 Environmental Science

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education
 EDB022 Primary Field Studies 2: Practising Education in the Field
 HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
 CLB123 Multiliteracies: Designs for Learning

Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Inclusive Education
 EDB023 Primary Field Studies 3: Immersion in Inclusive Educational Practices
 KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts & Media
 OR
 KKB202 Primary Curriculum and Pedagogies: Dance and Drama
 MDB006 Primary Curriculum & Pedagogies: Science

Year 4, Semester 2

EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
 EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
 EDB025 Internship (Primary)
 MDB004 Primary Curriculum & Pedagogies: Information and Communication Technologies

■ Bachelor of Applied Science/Bachelor of Education (Secondary) IX02

Award title: Bachelor of Applied Science (Study Area A)/Bachelor of Education (Secondary)

CRICOS code: 020322E

Campus: Kelvin Grove and Gardens Point

Duration: 4 years full-time

Credit points: 432 (full-time standard semester: 48 (semesters 1, 6-8), 60 (semesters 2-5))

Course coordinator: Dr Megan Hargreaves (Science); Dr Peter Bond (Secondary)

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.
