**Your course**

**Year 1**
Your foundation year sets the groundwork for architecture design and theory units. Five units are common to the design degree or Faculty and these cover design, design history, design and sustainability and digital communications. You undertake two units of introductory core architecture design studios and the first unit dealing with place making.

**Year 2**
You participate in two design studios covering process of design, dwelling, tectonics and public spaces. Further design units which integrate technology (climate) and history/theory (culture and space) are covered and lecture-based units address history/theory (architecture in the twentieth century) and architectural technology (building construction). You complete the first two units for your second major or first minor.

**Year 3**
Design studios address course focus areas of digital tools and sustainability. Design units continue, integrating specific knowledge of technology (structure). Additionally there is a collaborative design unit where you work with students in other disciplines of design. Two lecture-based units address history/theory (architecture and the city), and architectural technology (building services). You complete a further two units for your second major or first minor.

**Year 4**
Core design studios are of an advanced level, addressing the context of buildings in the urban setting, and culminating with a design project that demonstrates the integration of knowledge accumulated through the course. You also complete two common units in design research and professional practice. You complete a further four units of your second major or four units of your second minor.

International Course structure
Your course
Year 1
The foundation year includes a diverse range of subjects in order to expose the breadth of design process and theory. Five common units cover design, design history, design and sustainability and digital communication. There are three units specific to the discipline, two concerned with core interior design studios and the other dealing with design technology.

Year 2
You complete two design studios exploring issues of inhabitation in both transitory and permanent residential situations, and discuss these relative to theory and practice of leading designers. This is supported by two units that advance understanding of interior systems and technology, alongside further topics in colour and the environment that engage issues of aesthetic and psychological perceptions of space. There is opportunity to commence second major or first minor units.

Year 3
This year departs from previous years to take a more experimental attitude to design studios. A range of topics allow you to discover differing approaches to the interior. Alongside these studios are lecture-based units addressing interior theory and environments in transition, raising issues such as gendered spaces, interiority and globalisation. A collaborative unit with other design students facilitates interdisciplinary or transdisciplinary studies. You complete two second major or minor units.

Year 4
Two semi-structured research-led design studios allow you to develop a body of work that distinguishes and advances your own design interests. Supporting this area of study are two common design units in design research and professional practice, providing a context for design practice. A further four units of second major or four units of a second minor can also be taken in this year.

- Entertainment and Public Relations
- Entertainment and Media and Communication

- Journalism and Media and Communication.

Your BCI core units provide you with well-developed communication and digital media skills, an up-to-date insight into the creative economy, and an appreciation of creative collaboration. Creative Industries Transitions units in your final year will prepare you for your creative career as an entrepreneur, consultant, project manager or creative professional, or give you the hunger for higher degree research.

You will choose a creative industries major and from there you may select a second major to develop a significant depth of knowledge and skill in two discipline areas. Alternatively, you might prefer to develop a wide breadth of knowledge across three or more discipline areas by adding to your chosen creative industries major with two minors and two electives.

Your course

Year 1

You will undertake two BCI core units, which provide you with well-developed communication skills and teach you how leading creative industries practitioners exploit their creativity for commercial and artistic gain. Study in your majors and minors commences from your first semester, so you take control of your creative direction from day one.

You will continue your studies in your major(s) and/or minor(s) and enhance your career prospects by undertaking further BCI core units in visual communication and project management.

Year 3

You will continue to build your creative skills and knowledge through your majors and/or minors. The Creative Industries Transitions program offers end-of-course units in which you can set yourself up for the creative career you desire. You will undertake at least two units that will allow you to use the skills and knowledge gained during this course and assist your transition out of university. These units comprise:

- an internship program with one of our industry partners
- a creative industries project which can prepare you for work as a freelancer or consultant
- an international study tour, usually to New York, Paris, or another international creative industries city
- an introduction to research unit which will prepare you for higher degree research study (honours, masters, PhD).

Animation

You will gain skills and knowledge in the field of animation, including the history and practices of animation. You will develop practical skills in drawing, motion graphics, 3D graphics and real-time modelling for virtual environments.

1. Submit to the Creative Industries Faculty by the extended closing date of 14 October 2011. ### Offers

The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

### The Portfolio - further details

Your Portfolio must contain three things.

1. **Academic Records** - include your most up-to-date records.
2. **Personal statement** - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).
3. **Maximum 20 single-sided A4 pages** which should include a range of examples that demonstrate your potential as a fashion designer. This could include but is not limited to: Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic), Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking. Selected photographs that show good examples of any garments you have made.

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you don’t like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Do not send original documents, colour photocopies only please

Will my portfolio by returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

Overview
Interactive and visual design plays a pivotal role in the rapidly expanding fields of contemporary communication and new technologies. Careers in this area provide the opportunity to design for electronic and print media, Web and mobile technologies, games and physical computing, as well as new technologies as they continue to emerge.

This course will provide you with the conceptual understanding, practical skills and working methods you will need to become a creative and innovative designer. As well as developing core understandings in visual design for a range of media including mobile and virtual environment, you will choose study pathways to develop a specialist focus in graphic design, animation or design for tangible and physical computing.

Career Outcomes
This course will prepare you for a range of careers in the creative industries such as advertising and marketing, print design, Web design and electronic publishing, multimedia and interactive entertainment design, games design, and interactive exhibition design. Graduates from this study area work in traditional design companies in fields such as graphic design, marketing, branding and print and television campaigns, Web Design, interaction design, usability, knowledge management and information architecture. They also gain employment in new, rapidly expanding industries. For example, games companies employ graduates to work on content production, interaction design, visual design and real-time and virtual environments modelling; film and television companies employ graduates in post-production and branding; museums and other cultural institutions employ graduates in multimedia design and interactive installation. In addition, visualisation companies increasingly provide opportunities for graduates across industries as diverse as mining, architectural and medical visualisation.

Course Structure
In order to complete this course, students must complete 192 credit points of specified units and 96 credit points of Complementary Studies made up of either a Second Major, Minors or Unit Options.

Pathways to further study
On successful completion of this course, you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Domestic Course structure
Your course

You will focus on developing an individual design practice. Working with a variety of media in the design studios, you will develop a foundational understanding of visual communication, motion graphics, and temporal and interaction design principles. You will also acquire the technical skills needed to implement your designs in print and electronic media. By responding to design briefs, you will learn to target your design to a specific audience, context and purpose. You will participate in critical reviews and discover how they benefit the development of design solutions.

Year 2
Extending your visual and interaction design skills, you will develop your design practice through a specialist focus in graphic design, 3D computer graphics and virtual environments, animation or interaction design for tangible media. Real-world client briefs will introduce you to collaboration in interdisciplinary project teams and industry workflows. You will also begin your elective studies.

Overview
You're part of a new generation, ready for the challenge of leadership in the evolving and rapidly growing entertainment industry. Creativity and innovation are your best qualities, combined with your ability to build partnerships and collaborate. Producing entertainment is your dream and you want to deliver a superior entertainment experience for audiences. Accordingly, you aspire to develop the necessary skills and knowledge in creativity, business and law. You're ready to start a career in the exciting and thriving global entertainment industry.

Entertainment has never been more important. The entertainment industry is diverse and incorporates live performances, tourism events, sport, online gaming, film, television, videos and radio productions. And while digital entertainment is increasing rapidly, non-digital entertainment will account for two thirds of the total global spending on entertainment in 2014. Producers of entertainment are not only focused on engaging existing audiences but also new audiences of the future.

Why choose this course
The Bachelor of Entertainment Industries, commencing in 2012, will train you to work as an entertainment producer where you will originate, design and run entertainment projects. The entertainment industry is a thriving and growing industry in Brisbane, Australia and overseas. Entertainment is a recession proof industry and was worth $1.5 trillion globally in 2007, projected to grow to $2.2 trillion by 2012.

This new course was designed in close collaboration with the entertainment industry. Strong industry involvement in the development and ongoing delivery of the course ensures you will benefit from practical experiences, original and engaging learning exercises and direct contact with entertainment producers. Currently, our industry partners include Nova radio in Brisbane, Warner Bros. Movie World theme park and the Ekka.

You will gain unique skills and knowledge from the combination of expertise in creative industries, business and law. Further, you will have the opportunity to supplement your studies in entertainment and gain additional career advantage by choosing a second major from the 12 specialised majors available in the Creative Industries Faculty. Together, this diverse range of experience will prepare you for the business side of producing entertainment in the modern world.

Career Outcomes
Graduates may work as producers, researchers, online producers, publishers, agents or promoters within the growing entertainment industry. The industry is diverse and includes entertainment in the context of tourism events, large-scale performances, radio programming and theme parks to name a few. You will be employed by an organisation that produces entertainment or become self-employed in generating new forms of entertainment for the future.

Your Course
Year 1
You will meet real-life entertainment producers and be introduced to their work as well as visit entertainment companies. Learning how entertainment works and how to identify the key characteristics of successful entertainment will be included in your studies. An investigation of how entertainment circulates globally will complement an analysis of global entertainment genres like soap operas and theme parks, and specific places like Hollywood, Bollywood, and South Korean gaming. You will be introduced to the business, creative and legal sides of working as an entertainment producer.
### Bachelor of Entertainment Industries

**Year 2**
You will learn how to sell your entertainment products, through marketing concepts including segmentation and management information systems, and explore marketing specialisations such as services marketing, e-marketing, and strategic marketing. You will also meet lawyers who work in entertainment and be introduced to how the legal system affects entertainment production. Working with entertainment producers in order to learn how to balance business and creativity, and design proposals for entertainment projects is included in second year.

**Year 3**
You will make contact with entertainment companies operating in Brisbane and map the sector of potential employers as well as learning how to manage an entertainment project. Your studies in entertainment marketing will be extended and you will gain a thorough understanding of how marketing works in the various entertainment sectors. As you prepare to go out into the real world you will learn about entertainment law and legal issues including copyright, intellectual property, and contract law. By the time you graduate you will also have undertaken at least one industry placement or project as part of your studies, which will ensure you graduate with professional experience and network contacts.

### Limits of grades of 3
A new policy concerning grades of 3 came into effect from 1 January 2009 (QUT MOPP C/5.2). With effect from this date grades of 3 are no longer considered a conceded or low pass but are classified as a fail grade. Any grades of 3 awarded prior to 1 January 2009 retain the conceded pass status and will be counted for graduation purposes up to the maximum number of grades of 3 permitted for your course. Grades of 3 incurred in units that commence after 1 January 2009 will not count towards your degree. Further information is available on the Student Services website.

### Pathways to further study
The Bachelor of Entertainment Industries (Honours) is currently under consideration, for commencement in Semester 1, 2014. Pending final approval, KK35 graduates who achieve minimum GPA requirements, will be eligible to apply for the Bachelor of Entertainment Industries (Honours).

Why choose this course?
QUT’s Bachelor of Music is the only Brisbane-based degree which focuses on contemporary music. Our teaching staff have professional links with Q-Music, the Australian Independent Record Labels Association (AIR), Arts Queensland, Ellaways Music, Creative Media Warehouse and ITC Software Development.

There is an emphasis on creativity and new music and you will be encouraged to explore new connections and different styles or genres of music. You will experience both live and recording studio environments, whether your focus is as a player or producer, and learn how to use technology to create music, record and distribute your works and market your talent.

You will be immersed in the industry through internships and media opportunities, and you will launch your career through public performances in Brisbane’s live music venues. In 2008, music students presented live performances in venues such as The Zoo, the Brisbane Powerhouse, Valley Studios and QPAC, as well as at the Brisbane Festival.

In order to complete this course, students must complete 192 credit points of Music units and 96 credit points of Complementary Studies.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

Working with Children Check: blue card
A Blue Card is required as you will be working with children and young people as part of this course. You can apply for a Blue Card through QUT at no cost.

If you do not receive your blue card before the start of a unit that requires contact with children, you may not be able to participate and your grades may be affected. You may also still be liable to pay fees for the unit.

Literacy modules have been developed as a remedial action for students who do not attain satisfactory standards on the relevant literacy criterion during their assessment in the first year of their studies. Students will have the support of the First Year Experience Coordinator. Students may attempt these modules any number of times during the first three years of their program.

At the end of year three, unsatisfactory results within course work and these modules may result in a recommendation for an early exit from the four-year degree. The literacy requirement will also apply to double degree students with a slight variation.

If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Fashion at the QUT Creative Industries Faculty.

To be considered for a place you must do two things.

1. Submit to the Creative Industries Faculty by the extended closing date of 14 October 2011. A Fashion 2012 Registration Form copy of the QUTPay confirmation page from your online credit card payment for the $33 service charge (PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee). A Portfolio with this Registration Form

2. Apply through QTAC by 30 September. (See the QTAC website for more information)

Interviews

Following the submission applicants will be shortlisted. QUT will be conducting interviews in November 2011. Should you be shortlisted you will be notified via email. Only submissions that include all the above stated requirements will be processed.

Offers

The portfolio assessment is managed by QUT Creative Industries; however, all offers for the course will be made through QTAC in the 15 December 2011 offer round.

The Portfolio - further details

Your Portfolio must contain three things.

1. Academic Records - include your most up-to-date records.
2. Personal statement - A typewritten personal statement outlining your reasons for applying to this particular course, indicating your personal strengths and your future ambitions (max 300 words).
3. Maximum 20 single-sided A4 pages, which should include a range of examples that demonstrate your potential as a fashion designer. This could include but is not limited to: Good examples of your sketchbook work (to demonstrate your ability to research a topic and develop ideas based on that topic), Fashion design drawings (showing your ability to create fashion designs, based on research and a concept). We are looking for evidence of fabric awareness, colour, and 3D thinking. Selected photographs that show good examples of any garments you have made.

There is no one particular type of folio we are looking for, as long as you keep to the requirements of 20 single-sided A4 pages of your work. We are looking for something individual; a folio that expresses you, your talents and potential within the fashion industry. We would like to know what you think about fashion and what you like about fashion - or even what you don't like about fashion. Think of the folio as a way of introducing yourself to us - and showing us your creativity and thought processes. Show us what inspires you and excites you.

Do not send original documents, colour photocopies only please

Will my portfolio be returned?

You will need to provide with your registration form, a stamped, self-addressed envelope (appropriate to the size of the portfolio submitted) for your portfolio to be returned. Portfolio materials will only be returned to applicants that provide the envelope.

The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.
Bachelor of Creative Industries/Bachelor of Information Technology

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Cooperative Education
The Faculty’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admissions Rules, subject to final approval. It will enable you to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

Law School Electives Information
Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree.

Graduate Destination Streams
The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degree there are more opportunities to participate in subjects where they engage in ‘real world learning’, for example, working within law firms and government departments in placement electives.

Pathways to further study
On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have achieved the required GPA.

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow...
you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

Course Structure
The Bachelor of Fine Arts component is made up of 192 credit points from the Creative and Professional Writing major.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Law School Electives Information
Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:

- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyering and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams
The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’, for example, working within law firms and government departments in placement electives.

Pathways to further study
On successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required
Bachelor of Fine Arts (Creative and Professional Writing)/Bachelor of Laws

On successful completion of the Bachelor of Laws, there are a number of further study options open to you. The Bachelor of Laws meets the entry requirements for Practical Legal Training courses (for example, the QUT Graduate Diploma in Legal Practice). In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

This double degree will set you up for a career in the rapidly expanding fields of contemporary communication and the application of new media technologies.

Professional Recognition
This course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Information Technology, and Interactive and Visual Design) comprises 192 credit points.

Study Areas
The Bachelor of Information Technology will not have nominated majors and minors and consequently there will not be a Study Area A shown on a graduate’s parchment. Instead, it will have specialisations. The specialisation areas that will be available for students will include:

- Business Process Management
- Data Warehousing
- Digital Environments
- Enterprise Systems
- Information Management
- Network Systems
- Software Engineering
- Web Technologies

Pathways to Further Studies
In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have achieved the required GPA.

Cooperative Education
The Faculty of Science and Engineering’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energey, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens.

Information
Students who are enrolled in LW34 (straight law undergraduate entry) are required to undertake two contextual electives in the first year of their degree (one in each semester). Contextual electives may also be undertaken by any student as an ordinary elective within their degree. The contextual electives are:
- LWB142 Law Society and Justice
- LWB144 Law and Global Perspectives
- LWB149 Indigenous Legal Issues
- LWB150 Lawyer and Dispute Resolution.

Students who are enrolled in any of the law double degrees commence their law electives in the second semester of their second year.

Students who are enrolled in LW35 (Graduate Entry) commence their law electives in first semester of their second year.

Law students other than Graduate Entry students can undertake 4 non-law units as electives within their law degree. Students may be particularly interested in elective options within the School of Justice which relate to human rights and criminal justice.

Graduate Destination Streams
The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a...
government department)
• Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in ‘real world learning’, for example, working within law firms and government departments in placement electives.

Registration for 2012 intake was due on the 23 September 2011 and have now closed. If had not registered and you are considering applying to study in 2013 we recommend you read the following information as a guide only as it details requirements for entry in 2012 and these may change prior to the 2013 intake.

Thank you for your interest in Dance at the QUT Creative Industries Faculty. To be considered for a place you must both apply through QTAC and submit a Dance Registration Form to the Creative Industries Faculty. Please read through the following information carefully to ensure you are prepared to apply at that time.

What is the closing date for additional entry registration with Dance at QUT Creative Industries?

- Registration for the 2012 intake will close by the extended closing date of 23 September, 2011. To register for an audition, you must submit a Dance Registration Form.
- You must also apply to QTAC, where the due date for on-time applications is 30 September. See the QTAC website for more information.

What are the additional entry requirements?

You must submit the following and attend an audition:

- Academic record
- Personal statement Personal statement form is included in the Application Guide
- Photograph A current passport sized photograph ANDA full body shot, facing front in parallel, in leotard / swim suit (no board shorts)

- a ballet class (no pointe work)
- a contemporary dance class
- a jazz class (for course code 429162 only)
- a course talk given by the Head of Dance
- a written interpretative exercise

The written exercise requires no preparation. It is a half hour session that looks at the applicant's interpretative skills and writing skills - e.g. spelling, punctuation, grammar - in response to an image presented on the day.

Round Two:

- a one minute solo in a dance genre of the applicant's choice
- This solo is an opportunity for you to dance in a genre of your own choice that you may feel better demonstrates your performance abilities - e.g. hip hop, adagio, Irish, tap. The solo is one minute long and music (if used) should be on CD. The solo may be choreographed by the applicant or someone else - e.g. teacher, guest choreographer
- a more advanced ballet and contemporary class, which includes pointe work (for course code 421822 only)

- men: tights and a light-coloured singlet or t-shirt and ballet shoes. If you do not own ballet shoes, please bring cotton socks. If you do not own tights, please wear bike pants and jock strap.

Contemporary class:

- Same as above, but able to work in bare feet when required in this genre.

Solo:

What do I need to bring on the day?

Please bring your dance gear and water bottle. If you bring lunch it can be stored in the fridge in the dance corridor. There are no cafes open on campus on
Bachelor of Fine Arts (Dance)/Graduate Diploma in Education (Senior Years)

weekends.

I have no formal training in classical / contemporary ballet. Can I still audition?

You are assessed on potential, but formal training would benefit applicants. The selection panel looks at you for your movement potential, alignment, sense of musicality, and your degree of confidence. Studying a different technique (e.g. jazz, tap, contemporary) will also help you develop these skills.

What do I have to do in the solo presentation?

The solo presentation is one minute (maximum), which can be improvised or choreographed by yourself or another person, in a style of your choice (e.g. Tap, Irish Dance). The selection panel looks for confidence, appropriate quality and performance integrity.

How do I apply?

There are two steps to an application for Round 2 (Call Back):

1. You must register for an audition by submitting a Dance Registration Form to the Creative Industries Faculty by the extended closing date of 23 September 2011. This should also include a copy of the QUTpay confirmation page from your online credit card payment of the $33 service charge. PLEASE NOTE: Q-Step and ATSI applicants are exempt from the service fee
