#QUTOpenDay

Register  
online for your  
chance to

**WIN**  
**a MacBook**

# Open Day is *all about you*

What does your future look like? Come and find out at QUT Open Day on Sunday 28 July. Experience campus life, attend information sessions and go on tours of our facilities to give you a taste of what it's like to be a QUT student. Open Day is your chance to see why studying with us will be the best decision you'll ever make.

Ask questions, have fun and get excited about your future. Here are our tips for your must-do list.

- ✓ **Register online** at [qut.edu.au/open-day](http://qut.edu.au/open-day) and you'll go in the draw to win a MacBook. See the website for terms and conditions
- ✓ **Plan your day online** so you don't miss what you want to see
- ✓ **Explore the transport options** and plan your journey in advance
- ✓ **Talk to staff** and current students from all study areas—including courses based at Kelvin Grove—at our course information tents at Gardens Point campus
- ✓ **Attend information sessions**
- ✓ **Take a guided tour** to see our beautiful campuses, study spaces and facilities
- ✓ **Share your Open Day experience!** Follow us @qutrealworld and post on Instagram with #QUTOpenDay

# Getting to Open Day

## Gardens Point campus

This campus is centrally located in Brisbane city, beside the Brisbane River and City Botanic Gardens. Staff and students from all faculties and study areas—including courses based at Kelvin Grove campus—will be at Gardens Point campus to answer all your questions. Most information sessions are held at this campus. See pages 5–11 for the Gardens Point program.

### Getting to Gardens Point campus

It's easy to get to Gardens Point by public transport—bus, train and CityCat.

Walk from the King George Square and Queen Street bus stations in the city, or the Mater Hill or South Bank bus stations (a short walk across the Goodwill Bridge).

Catch a train to South Bank station and then walk across the Goodwill Bridge to Gardens Point campus. Or catch a train to Central station and walk through the city to the campus.

Catch a CityCat to the QUT Gardens Point ferry terminal.

## Kelvin Grove campus

Kelvin Grove is located just three kilometres from the city and is part of the Kelvin Grove Village. There'll be tours of selected facilities at Kelvin Grove campus and some information sessions. See pages 12–15 for the Kelvin Grove program.

### Getting to QUT Kelvin Grove campus

Our Kelvin Grove campus is well-accessed by public transport—bus and train.

Catch a bus to the QUT Kelvin Grove station, located on the Northern Busway. There are also bus stops along Kelvin Grove Road within walking distance to campus.

If you're travelling by train, you can catch a connecting bus from Roma Street station to QUT Kelvin Grove station.

## Free shuttle bus between campuses

Catch the free shuttle bus between Gardens Point and Kelvin Grove campuses every 10 minutes from 8am to 3.45pm. You should plan about 15 minutes to travel between campuses on the shuttle bus.

Use the journey planner to access public transport timetables and services at [translink.com.au](http://translink.com.au) or call 13 12 30.

For all parking and transport options visit [qut.edu.au/open-day](http://qut.edu.au/open-day)

If you have mobility difficulties refer to the accessibility map at [qut.edu.au/campuses-and-facilities](http://qut.edu.au/campuses-and-facilities) or contact us on 3138 2000.

The Queensland University of Technology (QUT) acknowledges the Turrbal and Yugara, as the First Nations owners of the lands where QUT now stands. We pay respect to their Elders, lores, customs and creation spirits. We recognise that these lands have always been places of teaching, research and learning. QUT acknowledges the important role Aboriginal and Torres Strait Islander people play within the QUT community.

# Talk to us at Gardens Point campus

Visit course information and support service areas between 9am–3pm to get advice and have all your questions answered.

## Course information tents

Chat to staff, students and graduates at the course information tents.

Services for success in your career and learning	⑨
Study abroad and student exchange program	⑨

# Explore our world-class learning facilities at Gardens Point

See for yourself what makes QUT a university for the real world. Check the program on pages 8–11 for opening times and scheduled tours of our facilities at Gardens Point campus. For Kelvin Grove facilities see pages 12–15.

## Business

As a business student, you'll take advantage of the student lounge area with cafés, study areas, televised news, and digital announcements, in Z Block level 4 at Gardens Point. Tour the Economics and Finance Bloomberg Lab that gives you access to financial data to conduct real-world financial analysis.

## Law

The QUT Law Library provides specialised legal information, resources and access to highly qualified, industry-experienced law librarians. We have two on-campus courtrooms, the QUT Law Moot Court and the Industrial Court, providing real world spaces for students to sharpen their courtroom skills.

## Creative Industries—Design studios and workshops

When you join the renowned School of Design your studies will be enhanced by dedicated studios, workshop facilities and modern lecture, social and collaborative spaces. See our specialist studios for design, drawing, drafting, as well as design fabrication labs for designing models and prototypes, tools and technologies including hand and power tools, laser cutters and 3D solid model printers.

## Radiation therapy

The Virtual Environment for Radiotherapy Training (VERT) uses 3D technology to create a virtual environment that features life-size treatment tables, external beam machines, and life-like patients. The VERT will show you the result of a radiation plan you have created for a patient, determine if the angle is correct, and if the beam will avoid sensitive body structures and organs.

## Medical imaging

From your first semester of first year you'll work in our simulation lab that's designed to mirror the set up at hospitals and clinical facilities that feature lead-lined x-ray rooms. As a medical imaging student you'll also use our specialist equipment for digital radiography, general X-ray, mobile X-ray, mammography and dental.

## Science and Engineering Centre

The Science and Engineering Centre houses stimulating learning and research spaces, as well as food and retail outlets, collaborative study spaces, lecture theatres and a 50m swimming pool. The centre includes The Cube, which at two-storeys high is one of the world's largest and most advanced digital interactive learning and display spaces.

### Engineering Precinct Open House

Head to the Engineering Precinct (level 1, O block) to check out our lab and workshop facilities. There are equipment displays and experiments on the go all day—wander around at your leisure. Speak with academics and our technical teams about the hands-on activities you'll undertake as a STEM student. Talk to students about their experiences in the use of our facilities. Head on up to level 2 to view LaunchPad, a workspace specially designed for our students to design, create and build their projects. It has tools and materials specifically for QUT STEM students, including a 3D printer and laser cutter

### Entrepreneurship at QUT

If you have a startup idea or want to find out more about entrepreneurship, Open Day is a great chance to chat to QUT staff about the range of opportunities for you. Find out about entrepreneurship, free co-working spaces, accelerator programs, startup weekends, innovation challenges, hackathons, pitch competitions and workshops. Join our QUT alumni entrepreneurs and test your entrepreneurial ideas in an idea surgery at 10am and 12pm in B block, level 2 in the foundry.

### STEM guided tours

Join our ambassadors on guided tours of our STEM facilities. For those of you keen to explore our science facilities, you can visit our key chemistry, physics, and environmental sciences labs. If you're considering engineering or IT, be sure to take the tour visiting our key robotics and IT labs, as well as our engineering facilities.

### Student clubs and societies

Also in the Engineering Precinct (level 1, O block) you can chat to our student clubs and society reps to find out about opportunities to get involved as a STEM student. QUT Motorsport is throwing the doors open to its workspace—head down to check out the awesome vehicle and do a few test laps. Check out the small multi-rotors to larger fixed wing UAV's from the QUT Aerospace Society. If you're into gaming, you should definitely speak with the representatives from the Game Development Club.

# Information sessions and tours

## Gardens Point–morning

8.45am–9.00am

Tour of design studios	1.30–1.50pm	D		Outside
Tour of design workshops	1.30–1.50pm	J		Outside

What I loved most about Open Day was hearing from real students and how they got into uni. I was a bit afraid about asking questions but it was so interactive and everyone just wanted to help. Seeing the campus was great—it gave me a feel for the uni, the classrooms and the technology available. I could see myself going there.

Samantha Ballinger  
Business and creative industries

Seminar/Tour	Time	Block	Level	Room
<b>EDUCATION</b>				
Secondary teaching—English, geography, HPE, history, maths, science, business, information technology	1.00–1.50pm	S	4	410

# Experience our Kelvin Grove campus

Explore our world-class learning spaces and facilities available to you at our Kelvin Grove campus.

Note: all course information tents and most information sessions are at Gardens Point campus.

## Creative Industries Precinct

Want to study at the most sophisticated and technically advanced creative spaces in Australia? The Creative Industries Precinct at Kelvin Grove campus will give you access to working spaces that include experimental black-box theatres, digital facilities, music and dance studios, production, performance, multimedia and visual art spaces.

## Clinical Simulation Centre

Our Clinical Simulation Centre immerses nursing and paramedic students in training situations using technology and equipment that simulates real-world experiences. You can tour operational hospital rooms, life-sized ambulance simulators, and multi-casualty sites that imitate a building collapse, car accident or explosion. You can also use industry equipment to treat manikins that offer a realistic patient experience.

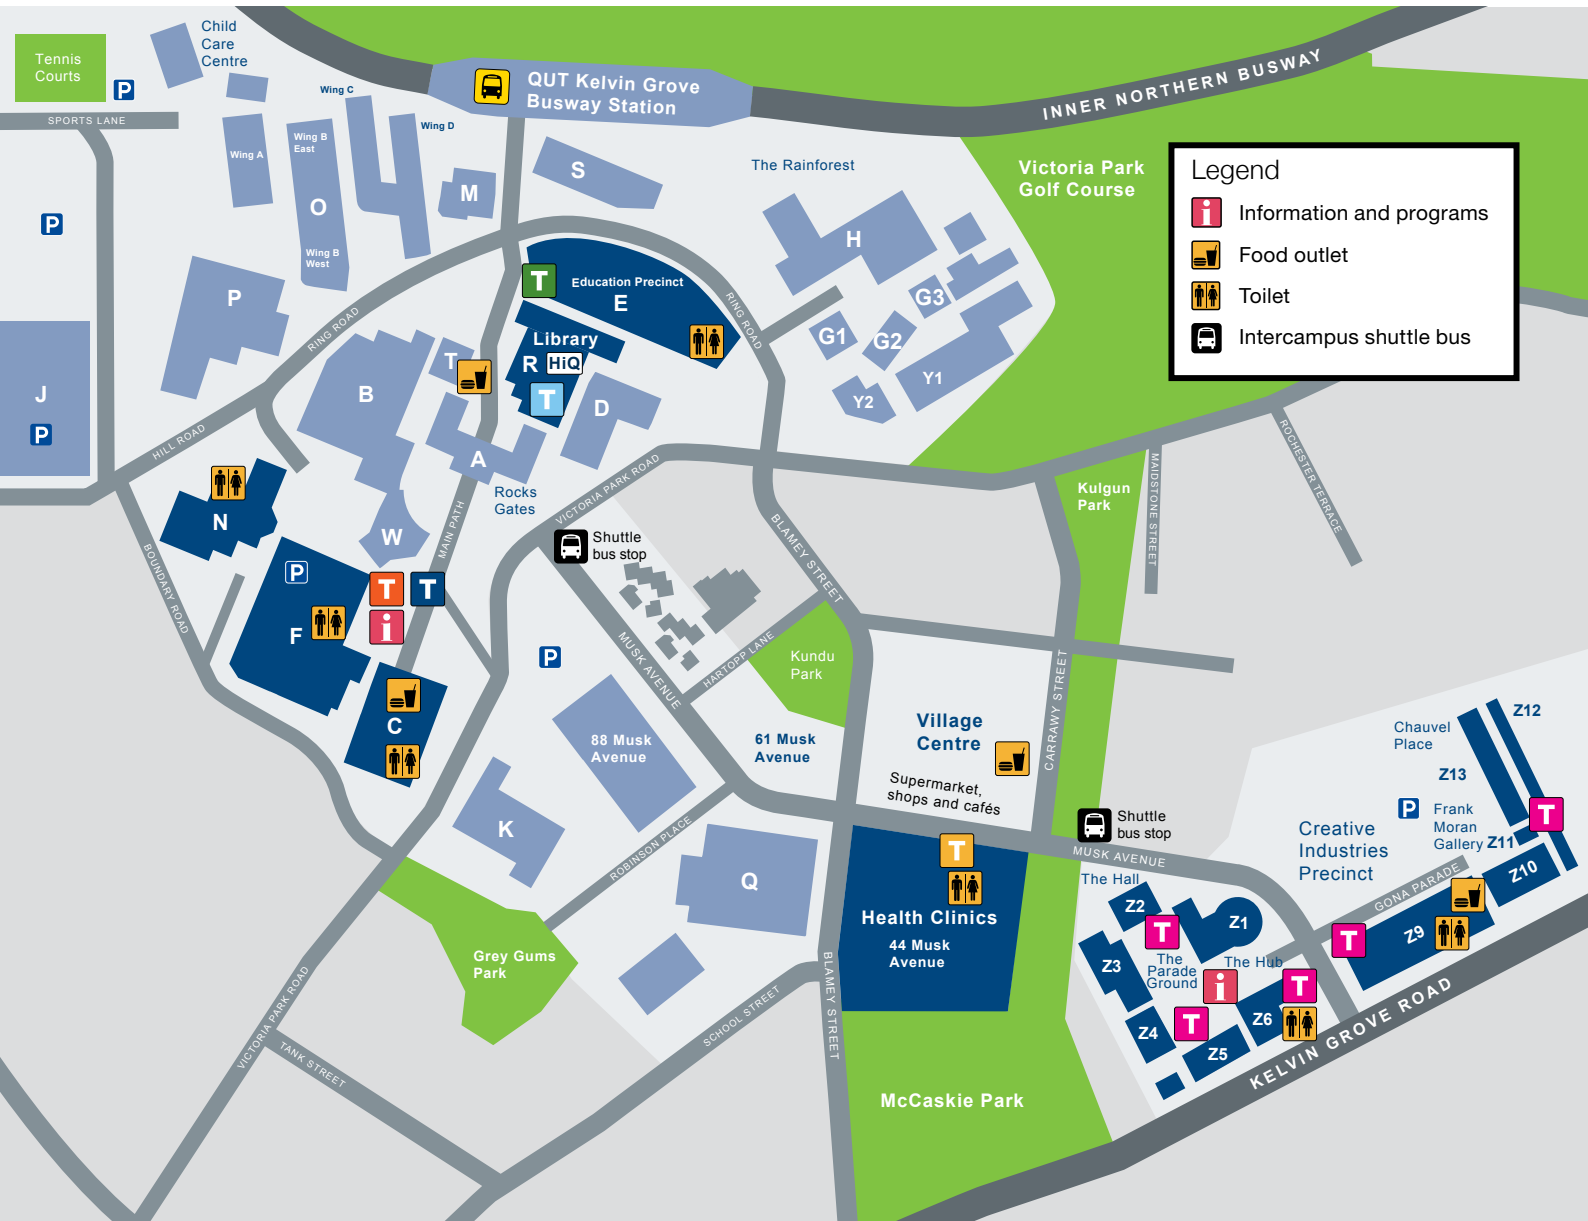

## Education at QUT

As an education student, you'll have the opportunity to experiment and innovate in our on-campus learning spaces to prepare for professional experiences in schools and early childhood settings. Visit our Education Precinct, a world-class teaching facility with study pods, community spaces and the Sphere— a two-storey digital display featuring educational content. Learn more about how QUT will prepare you to teach in the classrooms of the future.

## QUT Health Clinics

Students have the opportunity to work with real patients under the supervision of professionals in optometry, podiatry, clinical exercise physiology, psychology and counselling, social work, and nutrition and dietetics, at the QUT Health Clinics.

Open Day was a great place to get insight into the various areas of study at uni. It was really helpful to talk to current students and graduates about the degree I was interested in and get their perspective on their course. This had a huge influence on my decision to choose this area of study at QUT.

Gemma Price  
Engineering and science

### Moving to Brisbane?

If you're moving to Brisbane, we have plenty of help available at Open Day to make the move easier. Chat with the student accommodation services team and representatives from many accommodation providers and residential colleges all in one place—outside D block in the accommodation and transport hub.

### Help for parents

We understand helping your child to make course and career decisions is much easier with the right information. Attend one of our information sessions for parents at 9am or 12pm and our counselling staff will provide advice about how you can help your child as they transition from school to university.

## Ask us

QUT staff are ready to help if you have more questions after Open Day.
