FIRE SYSTEM OR ASSOCIATED EQUIPMENT IMPAIRMENT NOTIFICATION

FACILITIES MANAGEMENT

Guidelines

This form must be utilised as an application of or in conjunction with works carried out which may or will impair, render, disabled or adversely affect any Fire system(s), egress paths and associated equipment and components that are deemed to be required under the QLD Fire Safety Act 2008, Fire and Emergency Services Act 1990, National code of construction or as deemed relevant by any Authority Having Jurisdiction (AHJ) eg, BCC or QFES.

These include but are not limited to:

- Automatic detection and alarm Systems
- Emergency warning systems
- Hydrant and Hose Reel Systems
- Sprinkler / Deluge Systems
- Fire Pump Sets
- Emergency Lighting
- Paths of egress for emergency proposes including stairwells
- Fire Doors/ Smoke curtains or activated barriers
- Air handling systems that form part of or are integrated with smoke management systems
- Extinguishers / Fire blankets

Note:

For further information – Refer to minor fire related system isolations.
