

# Disaster Response and Recovery

## Professional Development Programs

Thursday 20 – Friday 21 September 2018

### Overview

Effective response by the health system to major incidents and disasters requires individuals who can help such organisations plan, prepare, respond and recover.

Disaster Response and Recovery will examine a number of topics including the incident management framework, infrastructure protection and recovery of communities and organisations confronted with major challenges including disasters. This program is shared by students enrolled in postgraduate programs at QUT.

### Disaster Response and Recovery

- Course developed and delivered by experts in health management and disaster response.
- Ideal for individuals currently/potentially involved in or responsible for planning, preparation and management of health services during major incidents and disasters.

### Course structure

- Thursday 20 and Friday 21 September 2018, 9am-5pm daily
- Delivered at QUT Kelvin Grove campus
- Recognition of participation.

### The course will include the following elements:

These two separate, day-long seminars include workshops and independent learning activities.

Day 1: Incident management

Day 2: Disaster recovery

### Cost

Students have the option of attending a single day at a cost of \$489.20 per day or \$978.40 for both days.

10 per cent early-bird discount applies.

ACHSM members receive a 15 per cent discount.
