

Module Plus - Creating Apps in the Classroom

Design and build an educational app to meet your students' needs and evaluate its use in your classroom.

This Module Plus is an opportunity to design, develop and implement an app for the purpose of meeting a specific learning need, encouraging your students to engage with a concept, sharing teaching resources or supporting students in making their own apps. The customised app may be the fulfilment of the prototype you created in the learning module.

This is an opportunity to deepen your understanding of how to create and use apps in education through a guided process of design, development, implementation, evaluation, review and reflection.

On successful completion, you'll earn credit for a postgraduate unit (six credit points) that will be applied as advanced standing when you enrol in QUT's [Graduate Certificate in Education](#) or [Master of Education](#).

 Duration: 62 hrs over 4 weeks

 Certificate of Attainment for 62 hours of CPD

 Cost: From \$556.30

Evolve with QUTeX

QUTeX furthers the professional development of educators with real-world learning activities relevant to real classrooms. With this course, you'll identify a learning need in your teaching context and learn how to make an app for your school or classroom customised to your students.

Core concepts

During this online assessment you will:

- Design and develop an educational app that meets a specific learning need.
- Critically reflect on your learning experiences during the app development process to inform your development as a teacher.
- Evaluate the effectiveness of the app and recommend improvements for future designs.

Who should participate?

This online module is for participants who have completed the 13-hour *Creating apps in the classroom* learning module. It provides practitioners with evidence of their professional learning.

For Australian educators, this module aligns with the following Australian Professional Standards for Teachers (APST):

- 1.2 Understand how students learn
- 2.6 Information and Communication Technology
- 3.3 Use teaching strategies
- 3.4 Select and use resources
- 4.1 Support student participation
- 4.5 Use ICT safely, responsibly and ethically
- 6.1 Identify and plan professional learning needs
- 6.2 Engage in professional learning and improve practice
- 6.3 Engage with colleagues and improve practice
- 7.4 Engage with professional teaching networks and broader communities

This online module is open for international enrolments.

Your expert facilitator Dr Vinesh Chandra

Dr Vinesh Chandra is a teacher and a researcher at QUT. He is particularly interested in using technologies to enhance the quality of education in classrooms throughout the world.
