PREFACE

History

The Queensland University of Technology (QUT) was created in January 1989 by redesignation of the Queensland Institute of Technology (QIT). QIT had its origins in the Central Technical College, which was established in 1914 on what is now the University’s Gardens Point campus. On its formation in 1965, QIT absorbed the professional courses offered by the Central Technical College and in its first year enrolled some 2000 part-time students.

In May 1990, QUT amalgamated with the Brisbane College of Advanced Education (BCAE), a large multi-campus institution specialising in the arts, business, education and the social sciences. BCAE was formed by an amalgamation that took place in January 1982, its precursors being the Kelvin Grove, Mount Gravatt and North Brisbane Colleges of Advanced Education and the Brisbane Kindergarten Teachers’ College. These institutions were established, under other designations, in 1914, 1969, 1961 and 1907 respectively. The Mount Gravatt campus of BCAE was transferred to Griffith University in January 1990 prior to BCAE commencing amalgamation negotiations with QUT.

The institution resulting from the amalgamation of BCAE with QUT has retained the title Queensland University of Technology. It is a major university in the Australian context with a broad academic profile and an increasing involvement in research and postgraduate education. QUT has an enrolment approaching 25,000 students and expectations of sustained growth. It has campuses at Carseldine, Kedron Park, Kelvin Grove and Gardens Point, all in metropolitan Brisbane, and is in the process of developing a new campus on the Sunshine Coast, north of Brisbane.

Mission

Within its mission statement QUT has identified three main goals:

- **Teaching** – to ensure that its graduates acquire knowledge, professional competence, a sense of community responsibility, and a capacity to continue their professional and personal development throughout their lives.

- **Research** – to advance and apply knowledge germane to the professions and to the communities with which it interacts, and relevant to the enhancement of economic, cultural and social conditions.

- **Service** – to contribute to the development of Australia’s international responsibility and competitiveness; to enhance QUT’s relationship with the professions; and to increase community awareness of issues through professional service and social commentary.

Council

The Council is the University’s governing body, with responsibility for advertising the University in accordance with the *Queensland University of Technology Act 1988-1990*. The Council consists of 22 members, of whom eight are nominees of the Minister for Education, one is a nominee of the Director-General of Education, two are nominees of the Council, two are elected non-academic staff members, three are elected academic
staff members, two are elected student members and two are elected Convocation members. The Chancellor and Vice-Chancellor are members ex officio. The Chancellor is Chairperson of the Council and the Registrar is Secretary.

**Convocation**

Convocation represents the interests of QUT graduates through its representation on Council and its influence on University decision making, particularly in regard to teaching and applied research.

Convocation is chaired by a Warden and is served by a Standing Committee. The full Convocation meets annually and its functions are performed through the year by the Standing Committee.

**Information**

In addition to the Handbook, the University produces a range of publications to which the public has access. These include the Research and Consultancy Report, the Annual Report and the Admission Procedures booklet. These and other publications or information about the University may be obtained on request from the Registrar.

COUNCIL AND COMMITTEES

Council

Composition, membership, powers and responsibilities of QUT Council are governed by the Queensland University of Technology Act. Procedures for elections, meetings and dealing with business in Council, are specified in QUT Statute 2 – Council.

Council is empowered to establish committees and to delegate power to committees or officers of the University. While Council is ultimately responsible for the management and operation of QUT, it has delegated authority to the chief executive officer, the Vice-Chancellor, and to various senior administrators of QUT for much of the day-to-day management of the University. Council has also established a number of advisory committees, some of which have been authorised to make decisions in respect of prescribed policy and procedural matters.

Australian Centre in Strategic Management

The Australian Centre in Strategic Management was established at QUT’s Gardens Point campus by the Australian Research Council (ARC) and the federal Department of Employment, Education and Training (DEET) in 1989 following a national competition. The Centre has links with the Australian Organisation for Quality (AOQ), Technical and Further Education (TAFE) and other universities and research centres around Australia and overseas as well as with many enterprises in the private and public sectors. The Centre is a bridge between tertiary education and business enterprises, governments, unions and the wider community. It includes Australia’s first and only Professor of Quality Management (in a Chair sponsored by the Queensland Government).

The Centre’s mission is to develop and disseminate to academics and practitioners ideas, knowledge and experience emanating from research of the highest international standards about the formulation and implementation of organisational strategies.

The Key Centre’s policies are to:

- focus on organisational strategy, structure and culture, defined to include quality management, employment relations (incorporating high performance, productivity improvement, microeconomic reform, industrial relations and human resource issues), organisational and technological change, and management education
- focus on the context of small and medium-sized enterprises, as well as on large enterprises
- maintain and further develop its role as a national and international centre of excellence in research and teaching in its selected areas of focus
- attract researchers, academics, practitioners, consultants and resources to contribute in the Centre’s areas of focus
- bring the benefits of its research to the communities with which it interacts through publishing, designing learning opportunities, public speaking, networking and providing advisory and consulting services
- contribute to education via its PhD, Master of Quality, Graduate Diploma in Quality, Women in Management and Management Certificate Programs, open Seminar Series and various short courses
- foster the development of QUT with regard, for example, to its mission and research management plan
- be a catalyst to encourage research in the Centre’s area of focus and thereby contribute to the continuing development of research and tertiary education in Australia and overseas
- provide an environment in and around the Centre which fosters the development of staff and students’ research skills and professional growth.

Research is a high priority for the Centre. It is a hub for a network of researchers including honours, masters, doctoral and postdoctoral students, visiting professors and teams of academics working with practitioners. Research is funded by a range of sources, including the federal and state governments, Australian and overseas competitive research grants, and contracts for applied research or consulting. The Centre’s current projects include a three-year ARC research grant of over $110 000 to study the possible
use of Japanese-style and high-performance management strategies in Australia and other countries, and a share of a one-year National Priority (Reserve) Fund grant of $250 000 to investigate quality, leadership and management development in a university context.

The Centre convenes conferences and seminars; conducts educational programs; produces books, articles, working papers, reprints and other publications; and welcomes short-term and medium-term research visitors, who, for example, are on secondment or study leave. The Centre’s significant progress towards fulfilling its mission is illustrated in its various publications, which, including its Annual Report, are available on request.

Australian Key Centre in Land Information Studies

The Australian Key Centre in Land Information Studies (AKCLIS) was established in 1985 and aims to be a world-recognised Centre of Excellence dealing with geographic information (in its broadest sense) which is of academic and commercial significance to Australia.

Participating members are QUT, the Queensland Department of Lands, University of Queensland and James Cook University of North Queensland.

The Centre’s mission is to support and foster research, formal education and training in the land information industry; support industry in developing new markets for Australia and abroad; transfer and diffuse technology throughout the industry; and seek funding for research and training programs.

During 1992, the Centre convened a national workshop attracting researchers and teachers from the private and public sectors and from teaching institutions across Australia to assist in identifying the most pressing requirements still outstanding in research, education and training, thus guiding its research program.

In 1991-93 the Centre delivered, participated in, or coordinated training programs totalling more than four work years for local, interstate and international trainees. Over 80 per cent of the training conducted by the Centre was undertaken for overseas governments or overseas locations. Extensive consultancies in training have been undertaken in South-East Asia and the South-West Pacific.

In an innovative advance in teaching remote sensing, the Centre developed a computer-aided learning package for use in senior high schools, undergraduate training in universities and continuing professional education. The program has won recognition and awards from the Australian Institute of Cartographers and the Australian Society for Educational Technology and is being marketed internationally.

The Centre also plays a role overseas and was recognised as a Centre of Excellence in Land Information Studies by the prestigious Institute for Land Information based in Washington DC. The Centre provided training for the five-year Natural Resources Management and Development Program in the Philippines which was funded by AIDAB. In addition, training in remote sensing has been conducted in the Pacific, and the Centre has a postgraduate exchange program with the University of Wuhan, China.
More than 60 learned papers were presented in 1992-93 by AKCLIS researchers at conferences, seminars and workshops both in Australia and overseas.

Director: S. Johnston, BBus (Man) QIT, MSc Bath

Centre for Biological Population Management

The Centre for Biological Population Management provides a focus for research and education in various aspects of the management of biological populations. The Centre is located within the School of Life Science and the research and postgraduate education programs are closely articulated with the undergraduate teaching programs of the School. The Centre’s goal is to provide practical solutions to problems in population management by:

- developing cost-effective and environmentally sound management strategies for economically important species
- developing new economic resources through the application of biotechnology
- offering training and education of an international standard.

The staff of the Centre are from diverse areas of the life sciences ensuring a wide skills base and a multidisciplinary approach to complex research problems. The overall objective in all Centre projects is to investigate the mechanisms and processes related to the regulation of animal populations of economic significance by utilising techniques at the molecular, cellular, organismic and population levels.

The Centre has a significant national profile in aquaculture and the management of pest species. In the international arena the Centre is currently engaged in collaborative projects in aquaculture with Malaysia and Fiji that are funded by the Australian Centre for International Agricultural Research.

Research activities within the Centre are concentrated in two research foci:

- **Cultured aquatic species**
  - Identification of genetic characteristics to optimise the growth and reproductive potential of species for aquaculture
  - Identification of growth regulatory mechanisms and their application in aquaculture
  - Husbandry in the aquatic environment (nutrition, reproduction, osmoregulation and respiration)
  - Aquaculture population dynamics

- **Management of economically important species**
  - Vertebrate pest management
  - Ecology and management of exploited species.

Centre for Eye Research

The Centre for Eye Research was established in the School of Optometry in 1986 to coordinate the wide range of research activities in the visual and ophthalmic sciences. The Centre has a vigorous program of research investigating human vision and how the problems people have with vision may be resolved or alleviated.

In 1988 the Centre was given University Centre status and provided with support funding to pursue its mission of developing the research and postgraduate activities of the School of Optometry. In 1989, the Centre’s first PhD students were enrolled.

The research activities of the Centre encompass the clinical, theoretical and applied aspects of the visual sciences. There is an emphasis on the functional and performance aspects of vision. The Centre also undertakes research for the ophthalmic and pharmaceutical industries towards the development of improved ophthalmic appliances and materials. In addition to investigating the causes of human vision problems, the Centre also undertakes research work for government, industry and business to resolve visual problems in the workplace, in transport and in industry.

The Centre for Eye Research serves as a focus for collaboration with groups internal and external to QUT. This collaboration with industry and with other research units is well established, and the Centre has attracted significant research grants from industry and government funding agencies.

The Centre’s facilities and resources are unique in Queensland and provide a resource for the development of the visual and ophthalmic sciences and industries in the State.

Director: Professor L.G. Carney, BAppSc MSc(Optom) PhD Melb., LOSc, FAAO

Centre for Instrumental and Developmental Chemistry

The Centre for Instrumental and Developmental Chemistry was formed in January 1992. It emphasises high quality fundamental research and expert service of community needs through research, postgraduate education, development projects and consultancy.

Research

The Centre specialises in three main areas:

Analytical Science

Research in this area was initiated within the now superseded Centre for Analytical Science. Project areas currently being researched in the analytical science program include the development of new analytical instrumentation; use of chemometrics; elucidation of three-dimensional structures of complex molecules by NMR, X-ray diffraction and mass spectrometry; and use of vibrational spectroscopy for the characterisation of polymers, minerals, biological molecules and dyes.

Applied Organic Chemistry

The program encompasses a wide range of industrial sectors, and research makes extensive use of the instrumental infrastructure of the Centre. Current areas of activity include the synthesis of new molecules for use in industrial electronics and in the medical field; isolation and characterisation of new compounds of medicinal benefit from natural sources; development of new synthetic procedures, especially those based on the use of...
enzyme technology; and development of new procedures in enzyme fermentation, enzyme technology, and biochemical engineering and processing.

**Material Science**
This area of Centre activities has been well supported by industrial grants. Research is carried out in a number of important areas encompassing organic, inorganic and metallic materials. Significant project areas include synthetic polymers, particularly degradation studies and polymerisation kinetics; corrosion of metals and alloys in industrial environments; investigation of the electrodeposition of copper during the refining process; study of the structure and properties of clays; and preparation of advanced ceramics by the sol-gel process.

**Consulting, Testing and Continuing Education**
The previous Centre for Analytical Science was very active in consulting and testing. This activity earned valuable funds and forged strong links with the industrial community, leading to joint research projects. The new Centre for Instrumental and Developmental Chemistry will continue and expand this activity. Centre staff have established a reputation in continuing education by developing short courses in corrosion science and in vibrational spectroscopy. These courses have been given in every capital city of Australia and in South-east Asia. Future opportunities exist for the Centre to expand its continuing education activities.

**Equipment**
Activities revolve around sophisticated, high-cost instrumentation, including mass spectrometry, nuclear magnetic resonance spectrometry, fourier transform raman and infrared spectroscopy, inductively coupled plasma emission spectrometry, inductively coupled plasma mass spectometry, and thermal analysis.

*Director: P.M. Fredericks, BSc(Hons) DPhil Sus., FRACI*

**Centre for Mathematics and Science Education**
The Centre for Mathematics and Science Education seeks to promote a numerate and scientifically literate society by coordinating research in the teaching and learning of mathematics and science. It applies this research through graduate teaching, consultancy, curriculum development and the production of educational resources. It is affiliated with the Faculty of Education, and staff are drawn primarily from the School of Mathematics, Science and Technology Education as well as from other schools and faculties. An administrative office, clinical facility, and facilities for research assistants and higher degree students are located on Kelvin Grove campus.

**Research**
Research is a major Centre priority. The research program may be classified broadly into four categories relating to mathematics, science and technology education:
- curriculum and instruction
- cognition and metacognition
The Centre offers PhD and MEd (Research) courses and a professional doctorate in education (EdD).

**Teaching**

The Centre aims towards teaching excellence with a staff experienced in undergraduate, higher degree and continuing education courses, and in supervising theses in mathematics and science education. The Master in Education (MEd) and professional doctorate in education (EdD) degrees are offered by coursework and dissertation and allow specialisation in mathematics, science and technology education. Staff are active in writing teacher-education materials and classroom texts in mathematics and science education.

**Consultancy**

Through consultancy, the Centre aims to promote success and excellence in mathematics and science for students of all ages and backgrounds. Staff are actively involved in a range of consultancy services to meet the needs of schools, industry and the general community. These services include diagnostic, remedial and enrichment activities with students; in-service seminars and short courses for industry and educators; cooperative projects with business and the Department of Education; and writing and editing for publishers. The Centre welcomes enquiries for the provision of services to the profession and the community.

*Director (Acting): Dr C. J. McRobbie, BSc Qld, MSc Pacific, PhD Monash*

**Centre for Medical and Health Physics**

The Centre for Medical and Health Physics provides a formalised focus and vehicle through which to foster the application of physics and supporting disciplines to clinical and occupational health areas in the community.

The Centre has the following functions:

- to undertake research and development relating to the clinical and health areas
- to conduct programs aimed at educating the health industry in new technologies
- to disseminate knowledge through postgraduate studies at both master and doctoral levels
- to facilitate the integrated and coordinated transfer of appropriate technology to the countries of South-East Asia and the Pacific Basin by admitting overseas students to postgraduate studies within the Centre; arranging exchange between staff associated with the Centre and overseas scientists; encouraging the secondment of staff associated with the Centre to overseas countries to undertake sponsored applied research and consultancy; and offering specialist courses
- to develop new products in medical and health-related fields
- to improve the performance of existing medical instrumentation by participating in quality assurance and instrumentation development projects
- to encourage the active involvement of its members, industry (in its broadest sense) and the medical profession to achieve the above.
Education
The Centre’s staff provides support for undergraduate and postgraduate studies in the following programs:

- Bachelor of Applied Science – Physics major
- Bachelor of Applied Science – Medical Radiation Technology, with majors in Medical Imaging Technology and Radiotherapy Technology
- Bachelor of Applied Science (Honours) – Medical Physics
- Graduate Diploma in Applied Science, with majors in Medical Physics and Medical Ultrasound
- Master of Applied Science, with majors in Medical Physics and Medical Ultrasound
- PhD programs.

Continuing Education
The Centre offers short courses in:

- radiation health physics
- principles and practices of noise management
- management of noise in shops, offices, factories and their environs
- radiography
- environmental physics for industrial application
- diagnostic ultrasound.

Research and Consultancy
The Centre’s current areas of research and development are in:

- medical physics (imaging science)
- medical physics (body composition)
- health physics (occupational and environmental radiations).

The Centre’s major areas of consultancy are:

- measurement of radioactivity
- shielding design for radiological practices
- measurement of light transmittance/reflectance
- measurement of noise levels.

Director: Associate Professor B.W. Thomas, DipEd MSc PhD W.Aust., FAIP, MACPSEM, FAIM

Centre for Molecular Biotechnology
The Centre for Molecular Biotechnology has as its primary objectives research and postgraduate education in medical and plant biotechnology. The Centre was established in 1988 and currently has a staff and student complement of more than 70. The Centre is located on the Gardens Point Campus in a modern, well-equipped laboratory complex with associated facilities. Postgraduate education includes PhD and Masters programs and components of the Honours and Graduate Diploma in Biotechnology courses. Undergraduate course components are also supported. Research is concentrated into a
few programs and involves considerable collaboration with other Australian and overseas institutions as well as industry.

The principal research programs are:
- molecular plant pathology
- human growth factor research
- molecular biology of photosynthesis
- chlamydia diagnosis and control
- plant tissue culture and transformation
- arbovirus pathogenesis.

*Director:* Associate Professor J.L. Dale, BScAgr PhD Syd., MASM

### Centre for Signal Processing Research

The Centre for Signal Processing Research grew from a significant research concentration in the rapidly expanding area of signal processing. Established in 1986, the concentration received Faculty Centre status in 1990 and University Centre status in 1991.

The Centre supports the majority of research students in the School of Electrical and Electronic Systems Engineering. Signal processing has a wide range of application areas and has undergone explosive growth within the last 10 years. The Centre is the focus for signal processing research at QUT. It also provides an important resource for industry, government, the engineering profession and the community in general. The Centre’s research activities encompass both theoretical and applied aspects of signal processing.

The Centre offers high level technological expertise combined with an ability to apply research commercially and technically.

The Centre has four main objectives:
- to remain at the forefront of technological research advances
- to provide clients with state-of-the-art results
- to provide stimulating postgraduate education
- to maintain and enhance the University’s research profile.

It serves to foster postgraduate research and teaching with 16 PhD candidates and three Masters students currently enrolled with the Centre. Staff have established good contacts with academics in other Australian universities, government-funded research agencies and industries. They have also built up an international profile through conference attendance and research collaboration. The director of the Centre is the general Chairman of the International Symposium on Signal Processing and its Applications which is held biennially on Queensland’s Gold Coast.

The Centre’s researchers are active in the areas of image processing, signal theory and speech processing/signal compression. They undertake research for government agencies and industry to resolve a range of signal processing problems. Contracts are in place with granting bodies such as DSTO, CSIRO, Auspace and the Australian Federal Police.

The signal theory group has specialised in the areas of algorithm development for efficient signal processing implementation, detection of signal in noise, estimation of signal parameters in a noise-effected environment, sonar and radar applications and spectral analysis.
Speech processing/signal compression is involved in artificial neural network speech recognition, digital filtering, speaker verification for law enforcement agencies, voice encryption and scrambling and tape recording enhancement.

Image processing and computer vision areas have concentrated on analysis of data in digital images, development of efficient algorithms, enhancement of images for information recovery, robot vision, and computer recognition of three-dimensional objects and interpretation of images.

Director: Professor B. Boashash, BE Lyon, MSc PhD Inst. Nat. Poly. Grenoble, SMIEEE, FIREE

Centre in Statistical Science and Industrial Mathematics

The mission of the Centre is to create new knowledge in statistical science and industrial mathematics and to bring the benefits of this knowledge, its scholarship and expertise to QUT and the community at large. This has and will be achieved through:

- performing high quality research
- providing a focus and resources for researchers to perform research in statistical science and industrial mathematics
- providing postgraduate and honours level teaching
- providing continuing education of relevance to the community
- providing a consulting service to the community
- promoting collaborative projects between the Centre and other QUT centres and organisations in Queensland, interstate and overseas.

The Centre acknowledges the need to carry out research which is of significance to industry, government and society and therefore the need to forge links with external organisations. It also aims to maintain and develop strong links with local industry by providing expert consulting in statistics and mathematics.

The Centre in Statistical Science and Industrial Mathematics has, as its main research focus, the development of statistical and mathematical models and efficient algorithms for the analysis of problems of significance to industry, government and the community. It received university centre status at the end of 1992.

The research programs of the Centre are grouped as follows:

- Time series analysis
- Spatial statistics
- Statistical modelling and data analysis
- Industrial mathematics.

There are a number of research projects in each of these areas.

A major feature of the Centre is the high proportion of collaboration in research projects with other researchers from within QUT, other universities, CSIRO, government departments and industry. Several projects involve contract research for industry.

Consulting services are provided within QUT and to external clients in industry and government by the Statistical Consulting unit and by other staff of the Centre.
The Centre has a strong postgraduate teaching program with 15 PhD and three research masters students enrolled in 1993. Many of these students are working on collaborative projects with supervisors from outside QUT in industry or research organisations.

Staff of the Centre are involved in the provision of statistical education for postgraduate students at QUT and external organisations.

The Centre has excellent computing facilities with its own Silicon Graphics Iris and Indigo workstations, networked PCs and Macs, and centrally provided research supercomputing facilities.

**Director:** Professor A.N. Pettitt, BSc (Hons) MSc PhD Nott., FSS, MSSA

### Information Security Research Centre

The Information Security Research Centre, formed in July 1988, is a joint venture between industry and QUT’s Faculty of Information Technology. Its Director, Professor W.J. Caelli, is Chairman of Technical Committee 11 (Security and Protection in Information Processing Systems) of the International Federation for Information Processing (IFIP), an international body of computer professionals established in 1960 under the auspices of UNESCO.

The Centre’s activities focus on the control, management and security of computer systems and networks. Its role is to undertake research, development, consultancy and education activities in this designated area.

The Centre has areas of major research concentration in:

- cryptology
- information security management
- security in telecommunications and computer networks, including electronic data interchange (EDI), electronic funds transfer (EFT) and open systems interconnection (OSI)
- database and operating system security.

The Centre supports other areas of research, such as:

- small system integrity (including viruses and anti-virus products) through the Computer Virus Information Group (CVIG)
- reverse engineering and tools for the analysis of software systems as well as computer architecture for secure systems (CASS) in collaboration with the Programming Languages Laboratory – School of Computing Science
- projects under the Distributed Systems Technologies Centre (DSTC), a Federal Government-funded Cooperative Research Centre jointly set up by QUT, the University of Queensland, Griffith University and Bond University.

Since its formation, the Centre has carried out applied research and consultancy for a wide range of organisations in both the public and private sectors concerned with information security. The Centre has established research links with several overseas universities. In addition the Centre has developed its educational role by offering research Masters and PhD programs as well as teaching specialist subjects for postgraduate coursework students.

**Director:** Professor W.J. Caelli, BSc(Hons) N’cle(NSW), PhD ANU, FACS, FTICA

Physical Infrastructure Centre

The Physical Infrastructure Centre is the research centre for the School of Civil Engineering. The Centre’s role is to develop rehabilitation and management strategies and new products for the civil engineering profession, government and industry.

The Centre is concerned with roads, railways, bridges, water and wastewater treatment plants, urban drainage, coastal engineering, and solid waste treatment systems, building structures and associated earthworks, pavements and materials. The Centre undertakes consultation, continuing education and research in these areas.

The Centre has been in existence since 1990 and attracts an average of $1m in industry projects per year.

Research has included:

- involvement in the rehabilitation of the Story Bridge
- working with the World Bank to develop efficient, affordable roadways for developing countries
- investigating individual household package plants for wastewater treatment
- improving traffic flows by examining the traffic interaction between roundabouts, signalised and unsignalised intersections
- devising a new portal frame building system using recently-developed hollow flange beams sections.

The Physical Infrastructure Centre is currently developing a full scale research facility at Carseldine. This field station will play a leading role in research into the physical infrastructure, an asset which is valued at several billion dollars. The Physical Infrastructure Centre is contributing to Australia’s economic performance by ensuring this resource is maintained and operated at the highest level.

Since 1989, staff involved in the Centre have produced 175 refereed journal articles and conference proceedings and 136 other publications. The Centre presently has 20 researchers and 38 postgraduate students.

ACADEMIC AND STUDENT SERVICES

Aboriginal and Torres Strait Islander Unit

The Aboriginal and Torres Strait Islander Education Program was established in 1984 to meet the needs of students and to respond to a growing demand by both staff and students for the provision of Aboriginal and Torres Strait Islander perspectives across all courses. At the beginning of 1991 the Aboriginal and Torres Strait Islander Unit (ATSIU) was formed. A major aim of the Unit is to develop and improve the participation of and successful outcomes for Aboriginal and Torres Strait Islander students.

The Unit’s central office is on the Kelvin Grove campus with offices on the Gardens Point and Carseldine campuses. In addition to teaching and research services the Unit provides academic and welfare support to all Aboriginal and Torres Strait Islander students at QUT.

In 1992 the Unit responded to increased demand for entrance to a diversity of courses across the faculties and campuses. Aboriginal and Torres Strait Islander students gained entry into a wide range of courses including the Bachelor of Social Science, Bachelor of Business, Bachelor of Education, Bachelor of Arts, Bachelor of Laws, Bachelor of Nursing, and Bachelor of Applied Science.

The Unit also fulfils a research, advisory and consultancy function for tertiary researchers, government departments and community and Aboriginal and Torres Strait Islander organisations in order to promote Aboriginal Studies and Torres Strait Islander Studies as academic disciplines.

The Unit provides staff development opportunities in the field of cross-cultural communication and conducts courses, conferences and seminars relevant to the development of Aboriginal Studies and Torres Strait Islander Studies.

Staff in the Unit assist in teaching mainstream courses throughout the University.

Coordinator: P. Duncan, DipTeach Syd.TC., BLitt ANU, MEd Canb.

Chaplaincy Services

The University caters for the emotional and spiritual needs of students and staff through the provision of Chaplaincy Services. The Ecumenical Chaplaincy is a joint venture of QUT and the major Christian denominations. There are presently two full-time chaplains working at QUT, operating on a schedule of weekly visits to each campus.

Chaplaincy Centres and Chapel

The Chaplaincy Centres are ecumenical, and although the chaplains represent the major Christian denominations, they are available to people of other religions as well. If necessary, they are able to put people in touch with appropriate contacts from different denominations or religions.

The Chaplaincy Centres are a focus for Christians from a diversity of traditions and theological emphases. The purpose is to encourage community spirit and to be a lively influence within each campus. The chaplains aim to relate Christian faith to both personal commitment and to the corporate structures of church and society. Activities include counselling, social gatherings, discussion groups, eucharist, prayer and meditation.
groups. Chaplaincy can also serve as a bridge across the divisions that may surface in any human institution.

At the Gardens Point campus there is a Muslim mosque in a room adjacent to the main chaplaincy rooms.

A chaplain is available at the Chaplaincy Centres below:

Computing Services

The Department of Computing Services provides a wide range of computing and communications services and information systems to all QUT campuses. The University-wide communications network gives PC or workstation access to:

- information systems including student, staff, research, financial and other university management systems
- electronic mail within the University and throughout the world
- several host computers including a mini super-computer providing teaching and research software
- the library catalogue
- the Australian Academic and Research Network (AARNet) and all its resources, including Internet (international computing networks).

Computing Services also provides a number of 24-hour PC laboratories on each campus, and a comprehensive support infrastructure including management information systems development, faculty liaison and consulting services, teaching and research assistance, training, set-up of local-area networks and office automation, and repair and maintenance of equipment throughout the University. A central Help Desk (telephone 864 4275) is the first point of reference for all problems.

The Department maintains service centres on each campus, and staff regularly travel between campuses to ensure specialist expertise is available wherever it is needed.

Counselling and Health Services

The Department of Counselling and Health is an autonomous professional department of QUT which takes an active role in promoting the personal, career and educational development of students and staff and providing for their health and well-being.
Counselling and Careers Services

The Counselling Section assists with normal development needs. Personal and social matters, educational difficulties, welfare and financial issues, and decision making on future career and personal planning are some of the areas handled by counsellors.

The Careers and Employment Section organises the Campus Interview Program for final year students, and helps students prepare for these interviews. It also conducts a survey of graduate destinations in the year following graduation.

The Counselling and Careers and Employment Services offer programs designed to aid the development of personal maturity and effective patterns of living, studying and working. These include workshops on communication, assertiveness, job-hunting skills and career planning; stress management groups; and reading efficiency and tertiary learning skills programs.

Complementing these is a range of general welfare and guidance services including financial aid, course and career information and an accommodation self-help service. Contact with community agencies offering services to students is also provided.

Services are provided by professionally qualified staff. Facilities vary across campuses but generally include consultation rooms and a library of course and welfare information. Services are free of charge and available to students (both full- and part-time) and staff at all campuses, as well as to others intending to enrol at QUT in the future. All consultations are strictly confidential. Counsellors are available during normal University hours; however, out-of-hours appointments can be arranged.

Health Services

QUT Health Services are available to all students and staff. Services include:

Comprehensive general practice patient-care: Lifestyle advice, including information on exercise, stress, drugs and sexually transmitted diseases; minor surgery including removal of warts, moles and sunspots; pathology services including blood tests.

‘Well-woman’ care: Smear tests, breast examination and contraceptive advice.

Campus accident and emergency care: First aid treatment of injury and acute illness occurring on campus.

On-going nursing care: General advice on health maintenance; continuing care of injuries and minor operations; surveillance of medical conditions such as hypertension, asthma and diabetes; vaccinations and international travel advice; health education information and pamphlets.

Health Services are available on each campus and all consultations are strictly confidential. A Medicare card or Medibank book (for international students) is necessary for medical consultation.
Students with Disabilities/Health Problems

Students with disabilities or health problems who may require additional assistance or support during their studies are encouraged to make early contact with the Disability Officer at the Department of Counselling and Health (telephone (07) 864 1219) or the relevant course coordinator. They are also requested to indicate such needs at enrolment. Those with temporary disabilities arising from accidents and illness that may occur during the year should also make known their needs if additional support services are required.

The University seeks to provide appropriate support services for students with disabilities. These may include:

- locating accessible parking for those with mobility problems
- organising effective learning/study skills workshops
- scheduling classes in accessible rooms
- lending special audiovisual equipment
- assisting with access to library resources
- arranging lecture material in different formats such as tapes, braille, large print, computer disks
- arranging a note-taker to assist in lectures
- arranging an interpreter for deaf students
- investigating alternative academic assessment procedures.

Early contact should be made with a counsellor or the course coordinator to discuss additional needs. Assistance with physical and study facilities and informing appropriate staff of additional needs can be expedited with early notice. An information booklet – *A Guide to Students with Disabilities* – is available on request from counsellors.

International Students

The International Students Program

QUT welcomes international students to its four Brisbane campuses. All full-time degree courses offered by QUT are accredited for offer to international students. QUT also offers a range of preparatory programs to assist international students to meet academic and English language requirements for entry to QUT courses.

An international student is any student who is not a citizen or permanent resident of Australia or a citizen of New Zealand.

There are a number of sections within QUT with specific responsibilities for aspects of the International Students Program.
International Relations Unit

The International Relations Unit is part of the Office of Educational Services within the QUT Division of Research and Advancement.

The International Relations Unit is responsible for the international promotion of QUT. Specifically, the Unit:

- coordinates publication and distribution of QUT international promotional material
- arranges for the representation of QUT at international recruitment activities
- manages the University’s relationship with Australian Education Centres, commercial agents, and other relevant private and public sector agencies
- manages the University’s institutional exchange programs
- receives international visitors.

GARDENS POINT CAMPUS
Level 3, U Block
Telephone: (61 7) 864 2200
Facsimile: (61 7) 221 0313

The Office of International Students

The Office of International Students is located in the Student Administration Department and is responsible for the administrative aspects of the International Students Program. The Office undertakes the following:

- answering all written enquiries and advising students regarding admission and course requirements for all courses including the Foundation and Bridging Programs
- processing all international student applications
- making all offers and monitoring course quotas
- handling all visa related matters
- collecting tuition and Medibank payments and administering refund policy
- administering international student scholarships.

Application and Enrolment

All international students, except those studying Year 12 in Australia, should apply on a QUT ‘F’ form. Year 12 international students in Australia should apply through the Queensland Tertiary Admissions Centre (QTAC). Applications and general information about entry requirements and tuition fees for all courses may be obtained by writing to the Office of International Students.

All degree students must meet the minimum English language entry requirements of IELTS 6.5 or TOEFL 575 for entry to be confirmed. Some linguistically demanding courses (such as communication courses and postgraduate business courses) require IELTS 7 or TOEFL 600.

Following acceptance of an offer and payment of one semester’s fees and one year’s health cover charges, a student will be issued with an Acceptance Advice Form to apply for a visa to travel to Australia. Enrolment will be completed during Orientation.
Attendance
To meet student visa regulations, students must fulfill all course requirements. This includes full-time enrolment, defined as 75 per cent or more of a full-time credit load for the course. Special approval must be obtained through the Office of International Students for part-time study.

Fees
Full tuition fees are charged for students enrolled in 75 per cent or more of a full-time credit load. Fees include student guild payments and all international student support services including airport greeting, accommodation service and English language support. International students are exempt from the Higher Education Contribution Scheme (HECS).

Tuition fees must be paid in advance by the due date in order for re-enrolment to be confirmed for the following semester. Failure to re-enrol or pay semester tuition fees will result in cancellation of the student visa. The Overseas Student Health Cover (OSHC) charge must be paid every 12 months before re-enrolment.

Students returning to full-time study after a period of absence or exclusion are required to pay tuition fees appropriate at the time of return.

Tuition fees are partially refunded to students who withdraw from their course up to the end of Week 6 of the semester. After that time, no refund is available.

Fees for students on approved part-time study are levied pro rata according to the proportion of full-time credit points being studied.

In some limited cases, applicants on temporary resident visas may be allowed to enrol part-time. Fees are levied on a pro rata basis as for other part-time international students.

International Student Services
Living and studying in a new country requires significant adjustment in terms of language, culture and style of learning. In addition to the academic and professional challenges, students experience considerable personal and social development. Because international students do not have their usual sources of support and assistance (family, friends, community groups) available to them, QUT provides extensive support services.

International Students Services is located in the Department of Counselling and Health and is responsible for the following:

- preparing pre-departure briefings
- arranging on-arrival reception and accommodation
- conducting Orientation Programs
- offering direct counselling and welfare support
- developing student and community support networks
- arranging social and cultural activities
- offering English as a second language and learning skills support
ensuring preparation for students returning home

- assisting graduate employment.

**International Education Programs**

The International Education Programs’ major function is to help international students meet QUT entry requirements and access professional employment. Courses offered include:

- the Foundation Program
- the Bridging Program
- English language programs
- Migrant professional programs.

**QUT Foundation Program**

The QUT Foundation Program prepares international students for courses at university level. It provides students who do not meet degree entry requirements with an opportunity to prepare for entry into QUT faculties.

QUT Foundation Program students who attain the minimum results for entry to a degree, as specified by the relevant faculty, will be guaranteed a place in the QUT degree course for which they have applied.

**QUT Bridging Program**

The Bridging Program is designed for students who plan to study at QUT in an undergraduate or postgraduate program in the following year and who already meet minimum academic admission criteria for their course. The Program is available in second semester, commencing in July.

Students will be given an opportunity to:

- familiarise themselves with QUT and its facilities, such as libraries and computer systems
- revise and learn new skills in English language where necessary
- develop an understanding of academic skills needed for tertiary study in Australia
- study a unit for degree credit
- make friendships and establish a network of contacts.

**QUT General English (GE) courses**

General English courses are offered in six-week sessions. Courses cater for students at all levels of English language from elementary to intermediate and advanced.
QUT English for Academic Purposes (EAP) courses
The English for Academic Purposes course caters for students with an advanced level of English who are about to commence a degree program at university.

The EAP program aims to develop specific English language skills and other skills needed to undertake academic study successfully in Australia.

QUT Migrant Professional Programs
These programs offer English as a Second Language courses for overseas-trained professionals who require English language training to access professional employment.

QUT Foundation
The QUT Foundation promotes the University's reputation through activities that strengthen links between QUT and the wider community. Interaction among our closest associates contributes to the lifelong learning of members and extends the quality of QUT's research and education programs.

The QUT Foundation offers a number of avenues through which students, graduates and friends can keep in touch.

QUT students undertaking their first full-time course are eligible for free Associate Membership. Associate members receive invitations to Foundation functions, Inside QUT and QUT Links magazine.

All QUT Foundation members can also join an Alumni. The chapters are based on common professional, industry, faculty, geographic or other interest areas. Established alumni include Education, Built Environment, Engineering and Surveying, Nursing, Home Economics, Optometry and the MBA Association.

For further information and membership applications telephone the Alumni-Relations Coordinator on (07) 864 2147 or visit the Development Office, Gardens Point campus.

University Library
Students and staff of QUT have access to a wide range of information and audiovisual services and professional advice in these areas. Holdings of books, periodicals and other media have been developed in conjunction with teaching and research in the University
and primarily reflect these activities. Materials are arranged on open access shelving. Access is provided via online catalogues available within the library buildings, via campus networks, and on a dial-in basis for persons with modems.

**Locations**
Libraries are located on all campuses. There is a separate Law Library at Gardens Point and a joint QUT/TAFE.TEQ library at the Sunshine Coast Centre.

**Hours**
Hours differ from campus to campus and sometimes at different service points within a library. Opening hours details are available through the Library catalogue and are advertised at each location and through a variety of publications.

**Membership**
All staff, full-time and part-time students are automatically members of the Library and may borrow materials on any campus. Identification cards are required whenever and wherever a user borrows.

The QUT Library has extensive reciprocal borrowing arrangements with Griffith University. As well, staff and students may also be eligible to register for reciprocal privileges from a number of other tertiary institutions. Details are available from Loans Desks.

**Services**
A variety of services is available on most of the campuses.

**Information Services**
Staff are on duty at the Information Desks to answer queries and assist users in finding and using collections and resources. If the materials required by users are not held on their home campus, they may request an intercampus loan. Similarly, users with special research needs may be eligible for an interlibrary loan if the items are not held anywhere within QUT. Special reciprocal loans may be requested if the items are held by Griffith University. Online searches of a large number of databases are also available.

**Academic Liaison**
Consultation with academic staff on the development of resources and services is achieved through a liaison service. A reference librarian works closely with each School in order to ensure that collections and programs reflect School priorities.

**User Education**
Professional staff teach students efficient information-seeking skills through a variety of formal and informal programs. Persons interested in these programs may wish to contact the User Education Coordinator (telephone (07) 864 1592). As well, teaching staff may contact their reference librarian and students should enquire at the Information Desk or ask their lecturers.

**Other facilities**

STUDENT GUILD

The QUT Student Guild plays a major role in the life of the University by providing students with services, facilities, activities and representation that enhance campus life. All students are members of the Guild and have access to all Guild services. The Guild can only continue to be effective through the support and involvement of its members.

Guild Council

The Guild is governed by Guild Council which consists of the Executive (President, General Secretary, Women's Services Director, Education Director, Welfare Services Director, Recreation Director and five Campus Directors), campus representatives and specialist representatives (for postgraduate students, part-time and external students, Aboriginal and Torres Strait Islander students and overseas students).

All members of Guild Council are elected at the annual general elections and all students are eligible to stand for positions in the elections. Students can also nominate and vote for campus coordinators who organise activities and services on the respective campuses.

Facilities and Services

The Guild operates Student Information Centres on each campus. Students can access all Guild services, facilities and equipment through these centres and Student Information Officers can answer enquiries about the Guild, the University and campus life.

Student Information Centres

As well as information, the Student Information Centres provide a range of equipment for use by students, including photocopiers, forodigraph machines, thermal copiers and typewriters.

Other services provided through these Centres include identity photographs, stationery and stamp sales, Queensland Teachers Credit Union Agencies (Kelvin Grove, Kedron Park, Carseldine), photo developing, laminating, and sales of cassette tapes, computer disks, T-shirts and sweatshirts.

The following is a list of the services provided by the Guild. For more information, call into any Student Information Centre or telephone Student Information Officers: Gardens Point (07) 864 1680; Kelvin Grove (07) 864 3704; Kedron Park (07) 864 4016 and Carseldine (07) 864 4714.

Education and Welfare Services

ACADEMIC APPEALS ASSISTANCE

Students can appeal against an academic grade or academic ruling (for example, exclusion) of the University – and the Guild can help. For more information telephone (07) 864 4010, or visit a Student Information Centre.

AUSTUDY ADVICE

Free specialist advice is available to students on how to apply for Austudy or appeal a decision on Austudy eligibility. For more information telephone (07) 864 4009 or visit a Student Information Centre.
LEGAL SERVICE
The Guild provides advice and referrals free to students. Appointments can be made through Student Information Centres.

STUDENTPLAN ACCIDENT INSURANCE
All full-time and part-time students of the University are covered by StudentPlan Accident Insurance, a comprehensive policy that provides medical, hospital and other benefits to students in the event of accidents in certain circumstances, 24 hours a day. Further information is available from Student Information Centres.

ACCOMMODATION SERVICE
The Guild can assist students in finding suitable accommodation including hostels, flats, private board, and share houses. For more information, contact a Student Information Centre.

PART-TIME EMPLOYMENT
The Guild operates a part-time employment service through the Student Information Centres. The Guild can also help with resume and interview techniques. For more information contact the Student Employment Officer on (07) 864 4007 or contact a Student Information Centre.

TYPING SERVICE
Students can have their assignments or job applications typed quickly, accurately and cheaply by other QUT students. Documents are printed on a high quality machine, and will conform to industry standards. Student Information Centres supply lists of local typists.

CHILD CARE CENTRES
The Guild operates two Child Care Centres (at Gardens Point and at Carseldine). Care is available in home-like settings for children aged three months to five years. Advanced educational programs are offered. Fees are reasonable and fee relief is available.

The Gardens Point Centre offers 25 places (telephone (07) 864 1690). The Carseldine Centre offers 56 places (telephone (07) 864 4801).

SECOND-HAND BOOK SHOPS
Students may sell and buy textbooks and other resources in the second-hand book shops in the Student Information Centres on each campus. A 15 per cent handling fee is charged.

EXTERNAL STUDENTS' SERVICES
008 773 219 is the Guild’s free telephone service for external students with questions about Guild services, local information for students attending study schools and assistance for students pursuing academic appeals or other grievances related to their studies. This service is provided Monday to Friday from 8.30am to 5.00pm.

Please note: all queries regarding units, course materials, assignments, etc should be directed through the University’s External Studies Section, telephone (07) 864 3395.

ALTERNATIVE HANDBOOK
The Guild conducts surveys of students each year to find out their opinion of courses, lecturers and standard of education received. A handbook containing results of surveys and other general information is published each year.

NATIONAL UNION OF STUDENTS
The Guild is a member of the National Union of Students (NUS) and participates in a range of State and national forums on education issues. All students are eligible to nominate and vote for NUS delegates.
Sport, Recreation and Activities

QUT SPORTS CENTRE
The QUT Sports Centre is located at Gardens Point and is open seven days a week. It contains a 25-metre indoor heated swimming pool, two squash courts, physiotherapy clinic, sundeck and kiosk. Activities include rebound volleyball, table tennis, aqua-aerobics, training sessions, child and adult learn-to-swim classes, general fitness and relaxation swimming, and Dive-in Movies. For information telephone (07) 864 1688.

FITNESS CENTRES/GYMNASIUMS
The Guild operates fitness centres at Kelvin Grove (telephone (07) 864 3710) and Gardens Point (telephone (07) 864 1685) offering fitness assessments, weights, aerobics, squash courts (Kelvin Grove), sports medicine clinics, and other recreation activities.

PHYSIOTHERAPY CENTRES
The Guild contracts with a physiotherapy clinic to provide a physiotherapy service at Kelvin Grove (telephone (07) 864 3711) and Gardens Point (telephone (07) 864 1687). Fees are very reasonable.

WEIGHT TRAINING ROOMS
Kedron Park and Carseldine have weight training rooms available for use by students. Contact Student Information Centres for further information.

GAMES ROOMS
All campuses have games rooms containing facilities ranging from pinball machines and darts equipment to table tennis and pool tables.

CLUBS AND SOCIETIES
The Guild provides financial and organisational assistance to clubs and societies which meet the Guild’s requirements for affiliation. Clubs and societies may be educational, cultural, social, political, religious, sporting or recreational. For information telephone the Clubs and Societies Officer on (07) 864 1213.

SOCIAL AND CULTURAL ACTIVITIES
A variety of social and cultural events and activities are organised throughout the year. These include balls, cabarets, bands, barbecues, films and theatre events and may be run on each campus or as cross-campus activities. Watch noticeboards for information.

SPORTING COMPETITIONS
The Guild organises intercampus and interfaculty sporting competitions throughout the year. Students also have the opportunity to participate in intercollegiate sporting competitions at state and national levels.

RECREATION COURSES
A range of recreation courses is offered by the Guild. These include ski trips, exercise courses, martial arts, massage, health and relaxation, golf, self-defence, abseiling, scuba diving, parachuting and special trips such as whale watching. Information brochures are distributed throughout the year.

RECREATION EQUIPMENT
A limited equipment pool is available for use by students.

For more information about sport, recreation and activities contact: Recreation Officer (Gardens Point) telephone (07) 864 1685; Recreation Officer (Kelvin Grove) telephone (07) 864 3708; Recreation Officer (Kedron Park) telephone (07) 864 4019; Recreation Officer (Carseldine) telephone (07) 864 4716.
Media and Publications

STUDENT NEWSPAPER
The Guild regularly publishes a free community newspaper called UTOPIA to which students can contribute. It acts as a forum for a wide range of topics of student interest. A women’s edition called Philosophia is produced once a year. Editors of the paper are elected each year and all students are eligible to stand for election. For more information, telephone (07) 864 4012.

PUBLICATIONS
The Guild produces a range of publications throughout the year including a diary, wallplanner, newsletters, clubs and societies handbook, Annual Report and various brochures on services and activities.

Women’s Services

RESOURCE AREA
The Guild employs two Women’s Services Officers, who can assist with information, complaints and problems, and who work to educate the campus community about women’s issues. Telephone (07) 864 1682 or (07) 864 3709.

WOMEN’S LIBRARY
A wide range of books and publications is available for loan from the women’s resource library through Student Information Centres.

WORKSHOP AND SEMINARS
The women’s area conducts workshops and seminars on a range of topics that are either specifically relevant to women or of general interest. Topics include health, stress management, women and politics, women and media, relaxation, women and sport, meeting procedures, assertiveness training, women and careers, and self-defence. Contact a Student Information Centre for more information and to make bookings.

SPECIAL EVENTS AND ENTERTAINMENT
A number of special women’s events occur each year, such as International Women’s Day and Blue Stocking Week. These often include a range of entertainment such as films, bands, theatre, dances and art exhibitions. Look for posters, Philosophia (the women’s edition of Utopia), or contact a Student Information Centre.

CAMPAIGNS AND INFORMATION
The Women’s area runs campaigns throughout the year to highlight issues relating to women. These include sexual harassment, discrimination, child care, women in sport and women’s health.

For more information about the Women’s area and services telephone (07) 864 1682 or (07) 864 3709 or contact a Student Information Centre.

ART COLLECTION

Queensland University of Technology houses a significant collection of nearly 1000 international and Australian paintings, sculptures, decorative arts and works on paper. These holdings represent the fourth largest public art collection in Queensland.

Established in 1945, the collection encompasses historical and contemporary works, spanning the period from the late eighteenth century to the present day. The greatest strengths lie in the extensive collection of works by Queensland-based artists from the 1940s onwards and the outstanding holdings of Australian art of the 1970s, particularly paintings, prints and ceramics.

The collection features a number of excellent Australian paintings of the 1970s by Lesley Dumbrell, John Firth-Smith, Richard Larter, Alun Leach-Jones, Keith Looby, Victor Majzner, Allan Mitelman, John Olsen and Ken Whisson.

QUT’s rapidly expanding collection of Australian prints comprises works by artists who were actively involved in the graphic arts during the 1970s such as George Baldessin, Roger Kemp, Bea Maddock, John Olsen, Lloyd Rees and Jan Senbergs. These significant holdings form an interesting complement to earlier prints by Margaret Preston, Lionel Lindsay, Murray Griffin, Elaine Haxton, Charles Blackman, Arthur Boyd and Fred Williams. The collection has recently been enriched by the acquisition of several contemporary prints, including fine examples by Ray Arnold, Jenuarrie, Diane Mantzaris, Mike Parr, Jimmy Pike and Turkey Tolson Tjupurrula.

QUT possesses a small but distinguished group of twentieth century American and European prints by Georges Braque, Alexander Calder, Hans Hartung, R.B. Kitaj, L.S. Lowry, Henry Moore, William Scott, Graham Sutherland, Victor Vasarely and Paul Wunderlich. In addition, the collection contains some outstanding Japanese woodcuts of the late eighteenth and nineteenth centuries.

Contemporary Australian ceramics have been acquired consistently since the early 1970s and several important purchases have been made. Highlights include major sculptural pieces by Olive Bishop, Margaret Dodd, Marea Gazzard and Lorraine Jenyns, and exquisite vessels by Stephen Benwell, Greg Daly, Gwyn Hanssen-Pigott, Carl McConnell, Milton Moon, Jenny Orchard, Alan Peascod and Sandra Taylor.

Acquisitions made during the past three years reflect the high priority and commitment given by QUT to the work of young, emerging artists. The purchase of representative works by Gordon Bennett, Dean Bowen, Eugene Carchesio, Thecla Puruntatameri, Anne Wallace and Judy Watson exemplifies the significance and depth of this commitment.

Displayed in various designated spaces at QUT’s four Brisbane campuses, the collection is a rich cultural and educational resource, offering the opportunity for students, staff and the wider community to enjoy and study fine works of art by leading Australian and international artists.

Policy, procedures and funding of the collection are determined by the Art Collection Committee, comprising senior staff members of the University and external members appointed by the Vice-Chancellor. The Committee is currently chaired by QUT’s Chancellor, Victor Pullar AO.

Development, management, research, preservation and display of the collection are administered by the University Curator, Stephen Rainbird and Assistant Curator, Tracy Muche. For further information telephone (07) 864 3240.
