This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BEd. Students develop the ability to plan, implement and evaluate effective teaching/learning programs in a wide range of settings for children aged from birth to eight years.

In this unit of the professional practices strand, students will have opportunities to undertake activities designed to help them refine an increasing number of strategies for teaching and working collaboratively with children and their parents, and with other professional colleagues.

**Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 20 days of supervised field experiences in before-school setting  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: EDB422**

**EDB012 Early Childhood Field Studies 2: Practising Education in the Field**

Designated Unit

This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the second set of teaching experiences, in a graduated sequence over the course of the BEd.

In this second unit of the professional practices strand, students will focus upon program planning and implementation in settings for children in lower primary.

Students will focus upon teaching in lower primary school classrooms, with an emphasis upon the development of knowledge of relevant policies and resources in curriculum provision. An emphasis will be maintained on understanding Early Childhood approaches to curriculum.

**Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: EDB421**

**EDB013 Early Childhood Field Studies 3: Diversity and Inclusivity**

Designated Unit

The aim in this unit is to develop professional support relationships that early childhood practitioners must provide for all children and their families, and an awareness of the need for the teacher to work as a member of the community and as a partner with parents and other colleagues.

**Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SUMMER**

**EDB014 Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field**

Designated Unit

This final early childhood practice unit is designed to provide a means of transition from the role of the tertiary student to that of a professional early childhood practitioner who is able to work across diverse settings. Students are encouraged to engage in reflection about their professional development and their future career paths and options.

**Prerequisite(s): EDB013, EDB011, EDB012  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: EDB423**

**EDB015 Internship (Early Childhood)**

Designated Unit

This unit aims to induct students into the professional work of teachers. The aim is for students to apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout the course in an extended time in the workplace.

**Prerequisite(s): EDB014 and successful completion of all other coursework  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2**

**EDB016 Early Childhood Field Experience (Child Care)**

Designated unit. This field experience unit is aimed at providing you with an initial experience in care and supervision in a child care setting. You will be encouraged to adopt a responsive approach in your work with children and adults

**Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2**

**EDB021 Primary Field Studies 1: Development and Learning in the Field**

Designated Unit

This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BEd. Students develop the ability to plan, implement and evaluate effective
teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)**  
**Designated Unit**  
Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. At the same time, the unit aims to develop students' pedagogical and curriculum skills as a teacher.

**Prerequisite(s):** EDB021  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet, Kelvin Grove and Caboolture  
**Teaching period:** 2008 SUM-2 and 2008 SEM-2

**EDB023 Primary Field Studies 3: Inclusive Educational Practices**  
**Designated Unit**  
As a final year teacher education student you will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. This field experience is designed for students to engage in teaching, learning and assessment practices in their field, interacting with individual students, small groups of students and whole class situations. Students will be required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in classes.

**Prerequisite(s):** EDB022  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field**  
**Designated Unit**  
Learners remain central to the work of teams and must be recognised as culturally and socially diverse as well as intellectually diverse. Within these constructs the graduating teachers are required to provide a range of educational opportunities that facilitate high quality and meaningful learning engagement for all students across differing educational contexts and sectors. This unit is designed to fully immerse the pre-service teacher into the field with a view to scaffolding their repositioning as autonomous, critically reflective, inclusive professional teachers on completion.

**Prerequisite(s):** EDB023  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 5TP2 and 2008 SEM-2

**EDB025 Internship (Primary)**  
**Designated Unit.**  
This unit aims to induct you into the professional work of teachers. The aim of this unit is for you to apply the knowledge, skills and understandings of teaching and learning that you have acquired throughout the course in an extended time in the workplace.

**Prerequisite(s):** EDB024 and successful completion of all other coursework  
**Corequisite(s):** EDB024  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 5TP3 and 2008 SEM-2

**EDB031 Secondary Field Studies 1: Development and Learning in the Field**  
**Designated Unit**  
This unit focuses on the students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BEd. Students develop the ability to plan, implement and evaluate effective teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDB032 Secondary Field Studies 2: Practising Education in the Field**  
**Designated Unit**  
Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. At the same time, the unit aims to develop students' pedagogical and curriculum skills as teachers.

**Prerequisite(s):** EDB031  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SUM-2 and 2008 SEM-2

**EDB033 Secondary Field Studies 3: Inclusive Educational Practices**  
**Designated Unit**  
Students will be required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in your classes. Students will be required to argue that their orientations to curriculum, teaching and assessment reflect practices that offer all students access to quality learning experiences.

**Prerequisite(s):** EDB032  
**Corequisite(s):** Curriculum 3X and 3Y  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDB034 Secondary Field Studies 4: Professional Work of Teachers - Induction into the Field**  
**Designated Unit**  
This unit is designed to fully immerse the pre-service teacher into the field with a view to scaffolding their repositioning as an autonomous, critically reflective, inclusive professional teacher on completion.

**Prerequisite(s):** EDB033  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove
EDB035 Internship (Secondary)
Designated Unit.
This unit aims to induct students into the professional work of teachers. The aim of this unit is to apply the knowledge, skills and understandings of teaching and learning that students have acquired throughout the course in an extended time in the workplace.

Prerequisite(s): EDB034 and successful completion of all course work  Corequisite(s): EDB034  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 5TP3 and 2008 SEM-2

EDB101 Introduction to Learning Facilitation
To operate effectively in learning environments and to inform their marketability in the global workplace, adult learning professionals need to be aware of their own capabilities, biases and preferred learning styles, skills and knowledge bases, and areas of potential. The unit will encourage the initiation and development of reflective practice, critical analysis and information synthesis skills which will be applied both personally and within the professional area. Using externalization and internalization, this unit will begin the student's journey to become a self directed life long learner.
Prerequisite(s): Nil  Corequisite(s): SPB102  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

EDB102 Advanced Learning Facilitation
Adult learning professionals must possess the micro-skills and macro-strategies required to manage and conduct semi-structured and unstructured learning experiences for adult learners. The unit is designed to develop the students' knowledge and skills in managing these sorts of processes of learning and to develop self-confidence. This is a practical unit which will enhance the skills and knowledge that students require for personal and portfolio development. This Unit is designed to build on the skills and knowledge students have developed in these areas in Introduction to Learning Facilitation.
Prerequisite(s): EDB101, SPB102  Corequisite(s): Nil  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EDB103 Work Integrated Learning: Problem Based
Using a problem based learning approach, this Unit provides students with an opportunity to enhance their understanding of a range of work practices and roles in adult, organisational and community learning contexts by undertaking an individualised or small team professional project. Foci for the project could include: teaching and learning; curriculum development and/or instructional design (including e-learning); consultancy and educational brokerage; organisational change and learning facilitation; international education; Indigenous education and training. The Unit will also provide students with an opportunity to extend their existing work contacts and to create new professional networks. Before commencing their professional project, students must satisfactorily complete a compulsory module on risk management.
Prerequisite(s): EDB101, EDB102, SPB102, SPB103, SPB104  Corequisite(s): Nil  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

EDB104 Work Integrated Learning: Action Research
Using an action learning approach this Unit provides students with further opportunities to enhance their understanding of a range of work practices and roles in adult, organisational and community learning contexts by undertaking an individualised or small team professional project. Foci for the project could be the same as or different from those pursued by the students in Work Integrated Learning: Problem Based. The Unit also provides students with further opportunities to extend their existing work contacts and to create new professional networks.
Prerequisite(s): EDB103  Corequisite(s): SPB108  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EDB200 Insights into Early Childhood Development
The unit aims to develop knowledge and understanding of early childhood development with a focus on children's thinking and communicating in a social context.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

EDB350 English for Teachers
This unit aims to continue the development of participants' own language proficiency and intercultural competence and to further develop their understandings of the importance of effective and appropriate use of language in successful TESOL classrooms.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12
Campus: Kelvin Grove  Teaching period: 2008 SEM-1

EDB351 TESOL Methodology 1
This unit is designed to help TESOL teachers to develop a range of understandings so that they can plan and implement effective TESOL programs for young learners and interpret and manage the classroom as a complex social environment for teaching and learning.
Corequisite(s): EDB350  Credit points: 12
Campus: Kelvin Grove  Teaching period: 2008 SEM-2
Incompatible with: CLB351

EDB352 TESOL Methodology 2
Language teachers are required to make informed pedagogical decisions which are response to the learning needs of their students and to the curriculum frameworks of the context in which they work. This unit extends the understandings and strategies developed TESOL Methodology 1 and encourages participants to expand their pedagogical repertoire as they refine their own developing teaching philosophy.
Prerequisite(s): EDB350, EDB351  Corequisite(s): EDB350, EDB351  Credit points: 12
Campus: Kelvin Grove  Teaching period: 2008 SEM-1
EDB353 TESOL Materials and Curriculum Development  
Effective language teachers working with young children need to be able to critically analyse, evaluate, develop and generate course materials and activities that engage young learners and support their language development in a principled and coherent fashion across the teaching period.  
**Prerequisite(s):** EDB350, EDB351  
**Corequisite(s):** EDB350, EDB351, EDB352  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

EDB354 Resources, Design and Evaluation for English as a Foreign Language  
This unit improves and expands the English language of participants. Helps them to select, develop and critically analyse resources in which EFL teachers of young children can work with resources in teaching/learning contexts.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

EDB355 Comparative Curriculum Study  
Students in this unit will consider varying orientations to curriculum as a framework from which they can understand their own and others’ education systems. In particular they will be able to examine curriculum and contexts in Malaysia and Australia.  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

EDB403 Field Experience 4  
In Part 7 (In-Field), students learn how to review assessment procedures in specific contexts, such as those stated in Part 6, check the consistency of the assessment decision, and report review findings. During Part 8 (Private Study), students reflect upon what they have learnt from Parts 2-7, how they overcame barriers/problems of learners in the training/education context, and how these experiences should assist them to become effective trainers/educators.  
**Prerequisite(s):** EDB400, EDB401, EDB402  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 20 day placement; pre- and post-tutorials  
**Campus:** External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB410 Introduction To Research Methods  
This unit provides a foundation for understanding research design and methods in education. It focuses on reading, understanding and evaluating educational research both within and across different paradigms and on enabling students to develop their own plan for a small-scale research project. It includes the development of skills in understanding, appreciating, and using the processes and techniques of research. Students are made aware of the variety of research cultures and theoretical perspectives, to become informed consumers of the research findings of others.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

EDB411-1 Dissertation (Stage 1)  
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.  
**Prerequisite(s):** EDB410  
**Corequisite(s):** EDB410  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB411-2 Dissertation (Stage 2)  
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.  
**Prerequisite(s):** EDB410  
**Corequisite(s):** EDB410  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB411-3 Dissertation (Stage 3)  
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.  
**Prerequisite(s):** EDB410  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB440 Independent Study  
This unit involves self-initiated and self-directed academic study in an area of educational management interest that allows study either to a depth not possible in electives, or in an area not covered by the course.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB443 Primary Professional Practice 4: Beginning Teaching  
Designated Unit  
In this unit, students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis is on planning and implementation of the total program. It includes thirty days of practice teaching in a primary school.  
**Prerequisite(s):** EDB432  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 30 days school placement  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDB445 Secondary Professional Practice 4: Beginning Teaching  
Designated Unit  
In this unit students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis is on planning and implementation of the total program. It includes 30 days of practice teaching.
in a secondary school.  
**Prerequisite(s):** EDB452  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  

**EDN602 Advanced Seminars**  
This unit provides for the special needs and interests of students. Small groups of students interact at an advanced level with specialists or visiting scholars in seminars, conferences and research projects.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN603 Facilitated Study Unit**  
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN604-1 Facilitated Study Unit 1/2**  
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN604-2 Facilitated Study Unit 2/2**  
See EDN604-1.  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN605-1 Facilitated Study Unit**  
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit will engage students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation. The unit also aims to develop skills and understandings about how issues of professional interest can be explored and reported for professional and academic audiences.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN605-2 Facilitated Study Unit 2/3**  
See Part 1 of unit  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN605-3 Facilitated Study Unit 3/3**  
See Part 1 of unit  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EDN610 The Learning Innovator**  
This unit aims to develop understanding of what it means to be an innovator and a leader in a contemporary professional context. The unit is underpinned by the notion that innovation means being more critical, being open, being able to engage with greater uncertainty and complexity, and being able to learn from the past in order to manage the future.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDN611 Professional Applications of Research**  
The unit focuses on the needs of professionals to seek research knowledge that addresses specific problems or issues in their practice and to develop a positive attitude towards research in general. It assists students to search databases and other sources to locate published research reports in their field and evaluate them critically.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDN612 Conducting Innovative Research in Educational Contexts**  
The unit aims to enhance capacities for undertaking research in educational and other learning contexts that is innovative in both its focus and its approach. The unit engages students in a comprehensive examination of relevant research theory and practical application.  
**Prerequisite(s):** EDN611 or equivalent  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EDN613-1 Thesis 1/3**  
This unit allows students to identify an area of research germane to their personal and professional interests and to develop and undertake an original piece of research.  
**Prerequisite(s):** EDN611, EDN612  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER  
**Incompatible with:** EDN620

**EDN613-2 Thesis 2/3**  
See Stage 1  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER

**EDN613-3 Thesis 3/3**  
See Stage 1  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER

**EDN614-1 Thesis 1/4**  
For students to identify an area of research germane to their personal and professional interests and to develop and undertake an original piece of research. The unit provides opportunity to extend and synthesise knowledge from the core and elective units into a research study.  
**Prerequisite(s):** EDN611, EDN612  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1
EDN614-2 Thesis 2/4
See Stage 1
Prerequisite(s): EDN611, EDN612 Credit points: 12
Teaching period: 2008 SEM-1

EDN614-3 Thesis 3/4
See Stage 1
Credit points: 12 Teaching period: 2008 SEM-1

EDN614-4 Thesis 4/4
See stage 1
Credit points: 12 Teaching period: 2008 SEM-1

EDN626 Learning And Teaching In Higher Education
This unit aims to develop the student's capacity to take a theoretically grounded approach to teaching and learning in higher education, specifically through increasing their knowledge of formal and informal theories of learning and teaching.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1

EDN627 Contexts And Issues In Higher Education
This unit aims to provide students with opportunities to develop an understanding of a range of contemporary historical, policy and social issues that impact on higher education at institutional, school, department, course and individual levels.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-2

EDN629 Presentation And Delivery Modes In Higher Education
This unit aims to provide students with the opportunity to gain the knowledge, skills and confidence to use a variety of delivery methods appropriate to their post-secondary student cohort, and to be able to evaluate and critique each mode of delivery within a pedagogical framework, which is student-centred and context-specific.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1

EDN630 Higher Education: Curriculum Design, Assessment And Evaluation
The unit aims to introduce students to key concepts and practices underpinning contemporary curriculum design, development, assessment and evaluation in rapidly changing global and local contexts.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-2

EDN631 Supervised Practicum 1
The aim is to provide students with a basic level of professional knowledge and skills in the practice of educational and development psychology and an awareness of ethical guidelines. Students will also develop a high standard of professional conduct through supervised practice.
Prerequisite(s): Provisional registration with the Psychologists Board of Queensland Corequisite(s): SPN640, SPN641, PYN601 Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-1

EDN632 Supervised Practicum 2
This unit aims to provide students with supervised experience in applying diagnostic, assessment and intervention skills in educational settings. This unit will also develop students' written and oral communication skills and provide them with practice in using these skills to communicate results of assessments and recommendations for interventions to school staff, parents and other stakeholders.
Prerequisite(s): EDN631 Corequisite(s): SPN642 Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2

EDN633 Supervised Practicum 3
The unit provides students with supervised experience in applying their diagnostic, assessment and intervention skills within non-educational settings. It will further develop their written and oral communication skills, and provide them with practice in using these skills to communicate results of assessments and intervention strategies within teams from non-educational settings.
Prerequisite(s): EDN631 Corequisite(s): Nil Credit points: 12 Contact hours: Approximately 2 days per week for practicum Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDN634 Supervised Practicum 4
This unit aims to provide students with support in ensuring that they have attained the level of knowledge and skill required to meet the competencies of the Psychologists Board of Queensland.
Prerequisite(s): EDN631, EDN632, EDN633 Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2

EDN635 Practicum in Early Childhood
In this unit, students are required to draw on professional knowledge and experience in making child observations and in planning, implementing and evaluating learning experiences for children.
Prerequisite(s): EAN601 Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP415 Engaging Diverse Learners
Increasingly rich and complex opportunities are offered to today's learners to engage in personal, contextual and technological approaches to knowledge construction. To participate effectively in modern learning environments, and to be able, in the future, to support the learning of diverse learners, students completing this unit will develop an understanding of the processes of learning, and the influence of both individual differences and socio-cultural contexts in personal, social and professional development.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP416 The Professional Practice of Educators
This Education Studies unit builds your professional and ethical capacity as an Early, Middle or Senior Phase Educator by developing a social science framework for
Prerequisite(s): EDP421 professional development for teachers. (33 days Field Studies) emphasising inquiry- and evidence-based approaches to beginning teachers in the early years. It aims to develop an opportunity to identify and discuss professional issues for on completion of this course. It provides you with the ability to develop strategies to maximize educational outcomes for all learners. (22 days Field Studies).

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP421 Early Years Field Studies 1: Engaging Diverse Learners
Designated Unit.
Inclusive philosophies and pedagogies are fundamental for schools and educators who seek to provide rich educational experiences for all learners in the early years of schooling. Teachers must be able to identify and reduce barriers to learning and maximize educational outcomes in response to the needs and interests of all students. This unit provides students with the opportunity to investigate and develop their ability to identify a range of social, cultural and political issues which may create barriers to learning. It also engages students with various pedagogical responses that may provide inclusive educational experiences for students in the early years. (22 days Field Studies).
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP422 Early Years Field Studies 2: The Professional Practice of Educators
Designated Unit.
This unit prepares you for your work as a beginning teacher, on completion of this course. It provides you with the opportunity to identify and discuss professional issues for beginning teachers in the early years. It aims to develop strong links between research, theory and practice by emphasising inquiry- and evidence-based approaches to teaching and learning in early childhood settings and professional development for teachers. (33 days Field Studies).
Prerequisite(s): EDP421 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP431 Middle Years Field Studies 1: Engaging Diverse Learners
Designated Unit.
This unit integrates and applies the current perspectives, issues and theoretical frameworks of inclusion and diversity. It enhances the student's ability to identify and address social, cultural, political and legislative issues to provide quality inclusive educational experiences for all learners. Students will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. To do this effectively students will need to identify barriers to student learning and develop strategies to maximize educational outcomes for all students. (22 days Field Studies).
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 }

EDP432 Middle Years Field Studies 2: The Professional Practice of Educators
Designated Unit. This unit identifies, discusses and applies the professional issues and responsibilities the beginning teacher needs to be aware of. The student's ability to identify the crucial professional issues for them personally will be enhanced. Students will not only engage with the challenges of addressing social, cultural, political and legislative issues and the development program that best accommodates their needs as a beginning teacher. (33 days Field Studies).
Prerequisite(s): EDP431 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP441 Senior Years Field Studies 1: Engaging Diverse Learners
Designated Unit. This field studies unit integrates and applies the current perspectives, issues and theoretical frameworks of inclusion and diversity. It enhances the student's ability to identify and address social, cultural, political and legislative issues to provide quality inclusive educational experiences for all learners. Students will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. To do this effectively students will need to identify barriers to student learning and develop strategies to maximize educational outcomes for all students. (22 days Field Studies).
Corequisite(s): Teaching Area Curriculum Studies 1 unit Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDP442 Senior Years Field Studies 2: The Professional Practice of Educators
Designated Unit. This Field Studies Unit is designed to alert you to the professional issues of ethical and equitable practice, to legal responsibilities that face any educator, and to the need to stay informed of new developments shaping professional practice. In the field study placement you will move towards becoming a beginning teacher, managing learning environments that are educationally productive, alert to student diversity and the legislative context, as well as mindful of the need for ongoing career enrichment and planning. (33 days Field Studies).
Prerequisite(s): EDP441 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

EDR702-1 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to
investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Campus:** Internet, Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDR702-2: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Campus:** Internet, Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDR702-3: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Campus:** Internet, Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

EDR702-4: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EDR702-5: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EDR702-6: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EDR702-7: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C: Thesis Imp

**Prerequisite(s):** EDR703  
**Credit points:** 24  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EDR702-8: 1-9 Thesis  
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It
allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C., Thesis Imp. Prerequisite(s): EDR703 Credit points: 24 Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EDR702-9 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student’s professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C., Thesis Imp. Prerequisite(s): EDR703 Credit points: 24 Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EEB411 Classical Control and Power Systems
The unit is a core unit with the modules Control Systems and Power Systems. It instils the foundation of feedback control theory for engineers and introduces the student to basic classical feedback control theory, analysis and synthesis. The second module covers power generation, and energy sources, electricity market operation, fault calculations, basic protection, and power system operation, in particular real and reactive power control. Prerequisite(s): EEB311, MAB132 Corequisite(s): EEB440 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

EEB412 Advanced Electronics and Embedded Systems
The two modules of this unit, Electronics B and Embedded Systems, provide a basis for electronic circuit design in general but also in connection with microprocessor systems. Operational amplifiers and comparators for use in signal conditioning and instrumentation amplifiers are presented as well as integrated circuits as building blocks for system design. Students are given a good grounding in the basic principles and practical use of embedded microprocessor/microcontroller systems. Prerequisite(s): EEB312 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point

EEB431 Aircraft Systems and Flight Control
The modern aircraft is an extremely complex machine comprised of many systems. These systems include propulsion, engine management, flight management, flight control, navigation, and life support and flight data recorders. The safe and reliable operation of all these systems is required to conduct a single flight. The modern avionics engineer requires an understanding of all these systems and how they operate on modern civil and military aircraft. This unit places emphasis on the flight control systems of modern aircraft which is one of the primary sub-systems. As part of this, methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft are introduced, along with the criteria for stability. Prerequisite(s): EEB130, EEB212, MMB251 Credit points: 12 Contact hours: 6 per week Campus: Gardens Point

EEB440 Classical Signal Processing
The unit covers the area of Signals in Linear Systems for which a detailed study of Fourier theory applied to analog signals and to the analysis of linear systems is given. System analysis is presented in time as well as in frequency and various characteristics and relationships in the two domains are discussed. Students are introduced to the classical design of filters such as the Butterworth and Chebyshev type along with a brief exposure to their realization as analog circuits. The sampling theorem and Nyquist criteria are discussed in detail and an introduction to discrete-time signal processing using the z-transform is provided. Prerequisite(s): EEB340, MAB134 Corequisite(s): MAB135 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

EEB511 Modern Control and Power Electronics
The unit comprises the modules Control Systems B and Power Electronics. Control Systems B introduces students to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. The second module covers power rectification, controlled rectification, inverters, AC and DC drives, uninterrupted power supplies, power switching components. Prerequisite(s): EEB411 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

EEB512 Industrial Electronics and Digital Design
Modules Electronics C and Digital Systems Design provide a basic understanding of linear and switch applications in industrial electronics. Practical knowledge associated with interfacing and design is developed. Students will also study
the theory and design of advanced embedded digital systems and practical implementation. The practical application of these circuits including interfacing and environment factors is considered. 

Prerequisite(s): EEB412  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point

EEB521 Digital Systems and Control
The unit comprises the modules 'Control Systems B' and 'Digital Systems Design'. Control Systems B introduces to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. As second module, it provides the theory and design of advanced digital systems and practical implementation. 

Prerequisite(s): EEB411, EEB412  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point  
Teaching period: 2008 SEM-1

EEB535 Modern Flight Control Systems
The modules of this unit are Control Systems B and Flight Control Systems. The unit provides students with an understanding of control system design and analysis for discrete time control systems as well as using the state space approach. Furthermore, it introduces students to different aspects of flight control including factors affecting the performance and simulation. Specific topics such as artificial stability and MILSTDs are also covered. 

Prerequisite(s): EEB412, EEB435  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point

EEB560 Digital Communications
Revolutionary developments in the field of Digital Communication Technology have enabled improvement in the characteristics of communication systems in order to meet the performance requirements for transmission of information for private, business and industrial applications. This unit which covers Elements of a Digital Communication System aims at providing the students with an in-depth understanding of the theory and applications of digital communication systems and technology. 

Prerequisite(s): EEB440  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point  
Teaching period: 2008 SEM-1

EEB566 Real-Time Computer-Based Systems
This unit covers the area of embedded systems and real-time kernels. C programming is reviewed in the context of real-time applications where it is often mixed with assembly language. Data representations, input-output programming, concurrency, scheduling, memory management and system initialisation are discussed. Programming laboratory exercises introduce development tools and reinforce fundamental concepts such as polling, interrupt driven input-output, serial port communication, pre-emptive and non pre-emptive scheduling, resource sharing, priority inversion and deadlock. Students develop a simple real-time process control application using programmable logic and micro-controllers. 

Prerequisite(s): EEB412, ITB421  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point  
EEB585 Systems Engineering Design
Students work in teams on specific pre-determined sub-projects. They will be exposed to principles in design specifications, feasibility studies, standards and technical writing. In particular, the following topic areas will be covered: introduction to systems engineering user requirements process; system requirements process; requirements traceability and analysis; project management tools; risk management; brainstorming and trade studies; cost/benefit criteria; feasibility studies; the project life cycle phases; detailed design; system qualification and acceptance testing; design review procedure. Students undertake a team-based preliminary design exercise. 

Credit points: 12  Contact hours: 1 per week  Campus: Gardens Point

EEB612 Software Systems Design
The unit introduces students to software engineering by considering a whole software lifecycle. Each step of the lifecycle is treated in detail, such as concept phase, requirement definition, software design, human-computer interaction, implementation, audits, and maintenance. Software design principles and techniques are presented coupled with a systems level study of modern operating systems, including real-time operating systems. Object oriented programming is introduced and exercised with a real-world design problem. 

Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

EEB640 Digital Signal Processing
The unit comprises the area of Digital Signal Processing and provides students with the fundamentals of discrete-time signal processing, discrete Fourier transform, discrete convolution, digital filters and digital spectral estimation. Examples and applications arising from various disciplines are presented to prepare the student to solve practical problems. 

Prerequisite(s): EEB440, MAB135  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point  
Teaching period: 2008 SEM-2

EEB641 Fields Transmission and Propagation
This unit addresses the following: fundamental concepts of static and time varying electromagnetic fields; Maxwell's equations and the characteristics of their solution, such as wave equations, losses in various media and energy flow; numerical methods; transmission line theory, terminated line, Smith Circle Chart usage and lattice diagram; propagation modes in waveguides and optical fibre; free-space propagation, reflection, refraction, diffraction; basic antenna theories and antenna parameters, Frii's transmission equation, half-wave dipole, two-element array. 

Prerequisite(s): MAB135  Credit points: 12  
Contact hours: 4 per week  Campus: Gardens Point

EEB650 Power Systems Analysis
This unit addresses the following: power system economics; costs of losses, tariffs, plant selection; the national electricity market; power flow calculation algorithms; protection systems; transformer protection motor protection, feeder
Prerequisite(s): EEB511  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

EEB666 Communication Environments for Embedded Systems
This unit addresses the following: computer networks; network programming; open network foundations; embedded systems; client/server; bus architectures; network controllers; distributed systems in automation and process control; embedded Java; distributed objects; distributed databases; distributed operating systems.
Prerequisite(s): EEB412, ITB421, EEB566  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

EEB684 Advanced Design
This unit introduces detailed design and realisation of typical electrical subsystems used in all areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. As part of the advanced design, this unit also covers a number of engineering skills including high-level thinking, project planning, information retrieval techniques, writing report and oral presentation skills. The student is required to write a detailed technical report and also to give an oral presentation on her/his design.
Prerequisite(s): EEB584  Credit points: 12  Contact hours: 1 per week  Campus: Gardens Point

EEB685 Advanced Systems Design
This unit presents detailed design and realisation of typical electronic subsystems used in all areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. The student is required to write a detailed technical report and also to give an oral presentation on her/his design.
Prerequisite(s): EEB585  Credit points: 12  Contact hours: 1 per week  Campus: Gardens Point

EEB686 Industry Practice
Industry Practice provides high achieving students with the opportunity to participate in a co-operative education environment created by a partnership between the student, industry and the University. The unit aims at developing knowledge of, and experience in, the practices and procedures in the workplace environment. Students will apply for paid employment with an industry partner registered for this program. The process will be open and competitive, and an interview will be conducted as for a typical job application process. The duration of the employment is expected to be from 4 to 6 months, with 24 to 40 hours per week, and must overlap the teaching period of semester 2.
Prerequisite(s): Completion of the first two years of the full-time course  Credit points: 24  Contact hours: 1 per week  Campus: Gardens Point

EEB732 Space Technology
This unit offers a general introduction to space technology. It includes the following: coordination of systems and time references used within space flight dynamics; discussion of rocket ascent trajectories and satellite orbit dynamics; detailed description and discussion of satellite as a system and subsystems; description and discussion of rocket as a system; introduction to satellite launch systems and satellite applications.
Prerequisite(s): EEB435 or EEB431  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB760 Aerospace Radio and Radar Systems
Radio and radar systems provide the backbone and arteries of all aerospace and avionics systems. A knowledge of the effects of electromagnetic compatibility and interference and the standards which apply as well as a detailed knowledge of the theory and techniques of ground, air and space based radio and radar systems is essential for all avionics engineers. Radio and radar systems are an integral part of the safe and efficient operation of aircraft movements and must be considered as part of the system as a whole.
Prerequisite(s): EEB560, EEB641  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB766 RF Communication Technologies
The unit covers various communication and signal processing technologies that are used in point to point and point to multi-point; wired and wireless communications including microwave terrestrial and satellite communication; last miles solutions including ADSL, VDSL and wireless local loops; ad hoc radio transmission such as the Bluetooth and Home RF, Wireless LANs including wireless infrared transmission and IEEE8012.11 standard.
Prerequisite(s): EEB560  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB781 Professional Studies 2
This is to provide adequate skills for young professional engineers to start a small business or be active partner in one. Personnel management skills are developed including: assertion training; interpersonal relationships; organisational change; professional ethics and negotiation.
As well the unit covers the basics of accounting practice, types of companies, marketing principles, business plans, intellectual property and statutory obligations on company managers.
Prerequisite(s): BNB007  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB782-1 Systems Project
In this unit an engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing,
control, communication, signal processing, and power and may include programming, circuit and system design. 

**Prerequisite(s):** Completion of the first three years of the course. 
**Credit points:** 12  
**Contact hours:** 1 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**EEB782-2 Systems Project**

In this unit an engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, and power and may include programming, circuit and system design. 

**Prerequisite(s):** First part of project  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**EEB831 Military Combat Electronics**

This unit addresses the following: sound generation propagation and analysis in the military environment; principles and application of lasers to sighting and guidance systems; principles of detection of submarines using magnetometers; infra red propagation and its use in detection and weapons guidance; ECM/EECM; sonar processing; laser processing and guidance; radar guidance/sighting; gun sights; weapons control systems; IFF/transponders; command and control; magnetic anomaly detection; tactical navigation systems; infra red. Some ethical, social and moral aspects concerning military systems will be discussed. 

**Prerequisite(s):** EEB435, EEB560, EEB640, EEB641  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**EEB833 Spacecraft Guidance and Navigation**

This unit includes the following: general introduction to spacecraft guidance and navigation systems and concepts; coordination of systems and time references applied within spacecraft guidance and navigation; discussion of spacecraft orbit and attitude dynamics; detailed description and discussion of GNSS system aspects; GPS observables and data processing; description and discussion of spacecraft guidance and navigation sensors and systems; methods for spacecraft orbit and attitude determination; discussion of spacecraft actuators. 

**Prerequisite(s):** EEB732  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**EEB835 Navigation Systems for Aircraft**

Modern aviation continues to flourish, with millions of passenger miles flown each year throughout the world and in all kinds of weather condition. Safe and reliable navigation is one of the primary functions that enable these flights. In past years pilots navigated visually but this relied on fair weather conditions. Today pilots use navigation aids to allow navigation in all types of weather conditions day or night. 

This unit presents the principles and practices of modern navigation sensors and systems. To be a competent Avionics Engineer, a detailed knowledge of the principles of navigation is mandatory. Navigation is a fundamental building block for all aspects of aerospace projects. 

**Prerequisite(s):** EEB560, EEB641  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**EEB882 Industry Project**

The CEED Industry Project may be completed in the first or second semester of the final year full time course. CEED is intended to introduce students to industry practices under the guidance of a qualified engineer/supervisor and prepare them with design, technical, teamwork and communication skills such as they are likely to encounter upon graduation. Because the project is industry based, the student will spend the majority of their allocated project time performing practical engineering at the industry premises. Individually structured projects are offered to final year students on a competitive basis through a formal application and selection process. 

**Prerequisite(s):** Completion of 3 years full-time study  
**Credit points:** 36  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EEB889-1 Project**

This unit is divided into two parts: EEB889-1 and EEB889-2. Students normally complete part 1 in semester 1 and part 2 in semester 2 in their final year of study. An engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, electrical power, or aerospace/avionics. The project may include programming, circuit and system design. 

**Prerequisite(s):** Completion of the first three years of the course  
**Credit points:** 12  
**Contact hours:** 1 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EEB889-2 Project**

This unit is divided into two parts: EEB889-1 and EEB889-2. Students normally would complete part 1 in semester 1 and part 2 in semester 2 in their final year of study. An engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, electrical power, or aerospace/avionics. The project may include programming, circuit and system design. 

**Prerequisite(s):** The student must have completed the first three years of the course  
**Corequisite(s):** This unit must be done in the final year of the course  
**Credit points:** 12  
**Contact hours:** 1  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**EEB911 Electrical Energy Systems**

This unit addresses the following: electricity transmission and distribution networks; structure and controls; quality and reliability of electricity supply; energy use in buildings; lifts fire systems standby generation, lighting, communication, air conditioning; renewable energy options; characteristics
UNIT SYNOPSES

and utilisation of alternate sources; the electricity market; distribution automation; data communications for distribution networks; earthing and soil resistivity; switchgear and protection; insulation coordination.

Prerequisite(s): EEB511, EEB584  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB941 Modern Signal Processing
This unit gives a comprehensive introduction to the representation and processing of signals distorted or corrupted by noise, and the systems needed to process them. Techniques for estimating signal parameters for the detection of signals in the presence of noise will be discussed. The methods presented will be tested on real data drawn from different engineering applications, such as wireless communications, biomedical EEG signals and brain models, speech and music synthesis, and radars.

Prerequisite(s): EEB640  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEB960 Wireless Communications
This unit addresses the following: cellular mobile radio system concepts; mobile radio propagation; spread spectrum techniques and CDMA; speech coding modulation and channel coding techniques for GSM and CDMA; fading mitigation through diversity; inter-symbol interference mitigation; the GSM and CDMA standards; the WAP and the GPRS; introductions to UMTS/IMT2000; introduction to personal communications; introduction to blue tooth technology; other wireless systems including wireless LAN, wireless local loop, microwave local multipoint distribution systems (LMDS) and LEO satellite communication.

Prerequisite(s): EEB560  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

EEB961 RF and Applied Electromagnetics
This unit addresses the following: lumped and distributed microwave and RF circuits, including \( [y] \), \([t]\) and \([s]\) parameters; impedance matching techniques; passive and active microwave devices; RF circuit design techniques; microwave and RF measurement techniques; linear antennas and microwave antennas; analysis and synthesis of antenna arrays; specialised antennas and antenna measurements; EMC definition, standards and regulations; test plan; measurements; interference coupling; susceptibility; EMC design techniques, component selection, circuit layouts, grounding, shielding, filters, suppressors, isolation and safety; EMC management; propagation of electromagnetic fields in electrical materials; application of numerical methods.

Prerequisite(s): EEB641  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

EEB976 Advanced Industrial Electronics
Two of the following modules will be offered each year: 1. Switching converters, variable speed drive control, power system compensation converters, UPSs, transformer switched mode power supplies, resonant power supplies. 2. Basic microprocessor systems, M68332 CPU, architecture, assembly language, MC6832 modules, system integration, queued serial communications, time processor unit, peripheral devices and interfacing, parallel/serial communications, ADC's, DAC's, waveform synthesizers. 3. RF systems, transmitters and receivers, superheterodyne, antenna, filters, LNA, mixer, LO, IF amplifier, demodulator, duplexer, RF switches, impedance matching, high frequency effect on components, microstrip techniques, CAD RF design.

Prerequisite(s): EEB412  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

EEB992 VLSI Circuits and Systems
This unit addresses the following: introduction to microelectronic circuits and systems; MOS transistor fundamentals; fabrication processes; mask layout rules; VLSI logic gates; combinational logic circuits; sequential logic circuits; memory structures; system and subsystem design; semi-custom design; circuit modelling and performance; circuit verification; testability; case studies; CAD tools for VLSI, VHDL system specification, modelling and verification. The unit includes a major design project.

Prerequisite(s): EEB412  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

EEP101 Algorithms for Control and Engineering
This unit addresses the following: solution of equations using numerical analysis methods and computer algorithms; differential and difference equations, numerical approximations and computational flow diagrams; computer control of closed-loop systems; continuous and discrete systems; system hardware; sampled data systems design techniques; system simulation; state-space theory, and system performance optimisation; state equation; transformations; state equation solution; closed-loop system pole-placement design; performance criteria; dynamic optimisation methods; spectral analysis and digital filtering; discrete time adaptive filters; an introduction to neural networks and to fuzzy logic.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEP102 Unix and C for Engineers
This unit covers C programming and the Unix operating system. Unix commands, file structure, processes, shells and shell scripts are discussed. C programming is covered without assumed prior knowledge but at a level and pace suited for the postgraduate or advanced undergraduate student. Data types, operators and expressions, control flow, functions, pointers and arrays, strings, data structures, memory allocation, input and output and support for real-time applications are discussed. Self-study tutorials are used to reinforce fundamental concepts. An engineering application is chosen for the assignment that is conducted in a problem-based learning framework.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

EEP103 Computer Hardware and Interfacing
This unit includes the following: state-of-the-art digital devices; design and implementation of digital systems; microprocessors and microcontroller systems and
interfacing; computer architectures, subsystems and peripherals.

**EEP104 Real-Time Operating Systems**
This unit covers operating systems principles with emphasis on real-time operating systems. Operating system fundamentals are introduced and concepts such as process management, input/output management, file management, resource allocation and scheduling, and protection are discussed in detail with a Unix-like operating system such as Minix or Linux as the example. Students enhance their C programming skills in assignments on multitasking, interrupt-driven input-output and device driver modification. Current commercial real-time operating systems such as QNX are reviewed.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

An advanced topic in the field of computers and communication engineering.

**EEP126 Communications Digital Signal Processing**
This unit includes the following: source and channel coding; waveform coding; adaptive filtering in communication; applications of speech technology in communication; applications of DSP technology; real time DSP devices and their applications in communications.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**EEP129 Image Processing and Computer Vision**
The aim of this unit is to provide theoretical and practical understanding of the fundamentals of image processing and computer vision with exposure to important algorithms and applications. It covers image acquisition, image representation and modelling, image enhancement, image restoration, edge detection, image segmentation, morphological techniques, shape description, classification and fundamentals of projective geometry and stereo vision.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**EEP135 Digital Signal Processing and Applications**
This unit includes the following: general properties of stationary processes; basic spectral properties of the processes; practical aspects of digital spectral estimation; identification of linear systems; digital higher-order spectral estimation; identification of non-linear systems; an update in the advances in digital signal processing.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**EEP201 Fundamentals of Power System Earthing**
This unit includes the following: electrode resistance, potential gradient areas of common types of electrodes; multiple electrodes; stratified grounds electric shock; calculation of step and touch potentials; introduction to substation earthing; ground potential rise; connection of services; grid and mesh potentials; measurement of soil resistivity and electrode resistance; earthing of transmission lines; tower foot resistance; current division between ground and aerial earth wires; division of earth currents at substations; earth current distribution on faulted lines; distribution systems; MEN; SWER; safety during faults; flow of lightning currents to ground.

**Credit points:** 4  **Contact hours:** 15 hours short course/distance education  **Campus:** Gardens Point  **Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP202 Thermal Ratings and Heat Transfer**
This unit includes the following: thermal conduction in simple geometries; forced and natural convection from plates and cylinders; common heat transfer correlations; radiation from hot surfaces; view factors; calculation of steady-state and time-varying temperatures in conductors; temperature measurement methods for high voltage equipment; thermal ratings of overhead lines; steady-state, cyclic and short-time ratings; cable rating; temperature rise due to step current, cyclic and emergency loads; temperature rise of power transformers; cooling methods; emergency overloads.

**Credit points:** 4  **Contact hours:** 15 hours short course/distance education  **Campus:** Gardens Point and External  **Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP120 Networks and Distributed Computing**
This unit includes the following: the open system interconnection model and the more common standards which support the model; layers 3-7 covered in depth, layers one and two covered by reference; computers, software packages; network topologies, software techniques, data transfer protocols; examples of local and wide area networks; hardware implementation of OSI layers and protocols; modern high performance networking protocols such as FDDI and ATM, treated as extensions of the OSI model.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**EEP123 Process Control and Robotics**
This unit includes the following: introduction to robotics; introduction to CNC machine tools; process control; controller tuning, plant characterisation and process optimisation; computer simulation and algorithms.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**EEP124 Data Communications**
This unit will provide an in-depth knowledge of the following: data transmission channels; the various types of modems, their use and specifications; the different aspects of interfacing for data communications; coding; compression and encryption of data; network models and other specialised topics.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**EEP127 Advanced Topic B**
EEP203 Testing and Condition Monitoring
This unit includes the following: HV testing; DC, 50 Hz, and impulse - equipment; measurement systems; standard test methods; certification and traceability; evaluation of test reports; HV test methods for insulators, bushings, circuit breakers, isolators and surge arrestors; temperature rise testing of electrical equipment, lines cables, and switchgear; current withstand testing; current interruption tests for fuses and circuit breakers; evaluation of test reports; accuracy and traceability; insulation testing; oil testing, DLA and PD tests; condition monitoring systems; plant temperature; circuit breaker dynamics; insulation condition; in situ methods.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP204 Power System Load Flow Analysis
This unit includes the following: data collection methods; p.u. revision; load flow algorithms: convergence criteria, multiple solutions, starting values, ordering and sparsity of matrices; single and three-phase models; transformers, tap changers, overhead transmission lines, underground cables, capacitors and filters, controlled reactive devices, generators and motors, load representation; load flow applications; base case and contingency analysis in planning augmentation options, system operations contingency analysis; load flow analysis methodology; use of load forecasts; establishment of 'base case'. Practice in analysis of transmission and distribution systems using an interactive package is included.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP205 Power System Fault Calculations
This unit includes the following: representation of generators, lines, transformers in positive sequence equivalent circuits; balanced fault analysis; selection of source voltages from pre-fault conditions; unbalanced fault conditions; complete sequence representation of power system equipment: transformers, cables and lines per unit positive, negative and zero sequence network diagrams; calculation of generator and transformer sequence equivalent circuits from manufacturer's test data; calculation of line sequence impedances from line layout and soil resistivity; inclusion of tower foot resistances in zero sequence models; residual currents in untransposed lines; interference with telecommunications circuits; short circuit calculations to AS3581 using an int
Prerequisite(s): EEP204 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP206 Project Management
This unit includes the principles of project management and the operation of project management packages. Emphasis is on the practical application of PC packages based on exercises related to the electricity supply industry and aimed at promoting the increased use of such packages by engineering and technical staff in the normal course of their work. Details include activity networks, Gantt charts, time schedules, analysis of critical path, types of resources, resource profiles, resource scheduling, and project monitoring and reporting.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP207 Overhead Line Route Selection - Environmental Factors
This unit includes an overview of legislation, standards and guides: radio interference, electromagnetic fields, low frequency induction, touch potentials, structure earthing, electrolytic corrosion, clearances, land legislation, and environmental impact statements. Current safety and environmental issues are addressed. Requirements of other public utilities, for example telcos, railways, roadworks, marine, water, gas and oil are also considered with cost of environmental enhancements and alternative technologies, right of way, and route selection principles: structure types, terrain shielding, identification of natural and man-made features.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP208 Economic Analysis for Power System Engineers
This unit considers the principles of economic analysis for a tax paying entity. Various evaluation techniques are addressed including both discounted and non discounted techniques. The net present value approach is settled on as being the most appropriate approach. Issues such as the effect of interest and inflation on nominal cash flows are addressed. Cost benefit analysis for engineering decision making: econometric models for ESI, maintenance, refurbishment and replacement are included as well as budgeting and cost control, budget preparation with spreadsheets, cash flows, monitoring expenditure and budget review, profit and loss and balance sheets and risk analysis including WACC calculations.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP209 Power System Harmonics
This unit includes the following: generation of harmonics, converters, arc furnaces, SVC, inverters, electronic control; system response characteristics, resonance conditions, effect of load, typical system responses; effects of harmonics, motors, generators, power cables, capacitors, electronic equipment, metering, relaying, telephone interference; reactive power compensation and harmonic control, converter power factor, reactive power compensation, control of harmonic currents; measurement of harmonics, recommended practices including AS2279.
Prerequisite(s): EEP205 Credit points: 4 Contact hours: 15 hours short course/distance education
EEP210 Abnormal System Voltages
This unit considers the following: supply quality standards, review of criteria, statutory requirements, emergency and short term limits; 50 Hz voltage, cause of voltage deviations, voltages during faults, motor starting; negative phase sequence voltages, AS1359 requirements, voltage unbalance studies, modelling, measurement; voltage transients and flicker: AS2279 requirements, disturbing loads, remedial measures, transient disturbances and power system plant; power system transient analysis, ATP studies.
Prerequisite(s): EEP205 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP211 Basic Power System Protection
This unit includes the following: protection systems, reliability and security; methods of grading relays; 'unit' and 'non-unit' protection; causes of faults occurring on power systems and the relays for detection; examination of local back-up protection; effects of substation configurations on protection system design and performance; current and voltage transformers; protection of HV buses; transformer protection; inverse time relays; setting overcurrent and earth fault relays to achieve a coordinated scheme; reclosers, sectionalisers and fuses application and coordination; commissioning and maintenance of protection systems; performance of protection under fault conditions; information available for the analysis of protection performance.
Prerequisite(s): EEP205 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP212 Advanced Power System Protection
This unit includes the following: high impedance protection of power system plant including CT requirements and use of shunt and series resistors, non-linear resistors, check schemes, back-up schemes and CT supervision; protection of transformers, biased and high impedance differential schemes; feeder differential protection: pilot wire, current differential and phase comparison schemes; protection of HV capacitor banks; application of single and 3 pole autoreclosing schemes to transmission systems; protection of large motors; protection of large generators.
Prerequisite(s): EEP211 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP213 Statistics
This unit includes the following: the role of statistics in electricity supply engineering; strategies for collecting and recording valid data from which statistical inferences can be made; use of operational and inventory data; graphical and numerical techniques to summarise data using statistical or spreadsheet packages; review of probability concepts, random variables, probability distributions; specific distributions used in system and component reliability studies.
Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP214 Risk Assessment in the Electricity Supply Industry
This unit includes the following: identification of hazards, failure modes and effects analysis, failure modes effects and criticality analysis; outcomes from possible failure modes; hazard and operability studies; assessment of frequency, fault tree analysis, event tree analysis; assessment of consequences, consequence analysis, criticality assessment in terms of chance of failure and consequences, incident scenario, damage criteria, damage identification; legal and economic consequences; case studies including identification of hazards, assessment of risks, and consequences in ESI; loss of load models in generation.
Prerequisite(s): EEP215 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP215 Reliability
This unit includes the following: basic reliability concepts, methods, and analysis methods; application of important distributions; failure rate/repair time/mean time failure; reliability of series/parallel/systems; discrete Markov Chains and processes, frequency and duration in reliability, the reliability evaluation of repairable systems; application of reliability evaluation in power distribution systems, including cost estimates; reliability assess; in subtransmission system planning, including non-constant transition rate; study of contingencies with switching to restore supply; maintenance in system modelling; probability and frequency of loss of load; unsupplied energy and average load at risk; maximum load at risk; average outage duration.
Prerequisite(s): EEP213 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP216 Overhead Line Design - Electrical
This unit includes the following: electrical design of transmission lines with ratings of 33kV to 500kV; economic conductor size; characteristics of conductors; standard and new technology insulators, power frequency, impulse and switching flashover voltage, pollution and creepage, wet and dry flashover, mechanical characteristics; feasible structure types; tower footing resistance and counterpoise; insulation coordination methodology, determination of overvoltage withstand, design for required outage; determination of RI using state of the art methods; design to ensure that electrostatic and electromagnetic fields do not exceed NH
and MRC guidelines.

**Prerequisite(s):** EEP201, EEP203, EEP205, EEP207, EEP210  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP217 Overhead Line Design - Mechanical**  
This unit includes the following: conductor selection; catenary theory; sag-tension-temperature calculations; requirements for survey data; statutory and enterprise requirements for line layout, clearances, mechanical loading, safety criteria; definition of loading conditions, structure capacities, layout clearances; applied mechanics of strung conductors; determination of everyday tensions from allowable stress or tension/mass ratio; determination of vibration protection; transmission line estimating techniques; selection of structure type based on optimum capitalised costs; line layout.  
**Prerequisite(s):** EEP208, EEP216  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP218 Introduction to Automated System Control and Supervisory Systems**  
This unit includes the following: SCADA fundamentals and protocols; SCADA equipment, master station, remote terminal units; transmission SCADA systems, distribution automation systems, distribution control systems, PC software applications; alarm philosophy and control principles, definition of system displays, data logging, database point processing and attributes, master station configuration; specification of MMI, identification of system functional requirements; computer system platforms, computer technology, computer hardware; communication system principles, communications bearer, data networks and protocols; data communications and I/O capacities and types, I/O processing; application of SCADA systems to transmission and distribution systems; cost/bene  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP219 High Voltage Substation Equipment: Power Transformers and Reactive Power Plant**  
This unit includes the following: principles of transformer design; distribution transformers to EHV transformers; ratings/windings/core structure and materials/insulation and cooling methods/insulation/lifetime; leakage and magnetising reactance; losses/harmonics/inrush currents; short circuit forces; tests to measure ratio/losses/impedance/phasing/temperature rise/accuracy and traceability of tests/interpretation of test results; surge phenomena in windings, RSG and impulse testing of power transformers, interpretation of test results; oil cooling systems; fire protection; tap changers and controls; analysis of transformer failure modes; in-phase and quad-boost regulators; series and shunt reactors; reactors for harmonic filters; S VCs; design considerations  
**Prerequisite(s):** EEP203  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP220 Distribution Planning**  
In this unit students are required to complete the following: identify data and techniques used in load forecasting; examine typical distribution network problems and identify performance limitations based on standards; relate network problems to different configurations and the effects on customers; study network reinforcement options on a simulation package including regulators, series and shunt capacitors and reconductoring; consider the above options to address a realistic network problem assessing line losses and voltage results; analyse network reliability and assess the impact of ties, switches and various network configurations; compare alternatives based on economic and technical considerations; prepare a logical case which recommends one option in t  
**Prerequisite(s):** EEP208, EEP211, EEP219  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP221 Limits to Power System Stability**  
This unit includes the following: time domain models and characteristics of synchronous machines; induction generator models; excitation system models, turbine governor models, boiler models, hydraulic system models; characteristics of load plant; evaluation of small signal adequacy by eigenvalue analysis; determination of modes of electromechanical and control systems; identification of modes with insufficient damping, eigenvalue participating states and eigenvectors; time domain dynamic simulations of power system operation; numerical models for prediction of large disturbance behaviour of interconnected power systems; stability of system under contingency and emergency conditions; stability improvement techniques.  
**Prerequisite(s):** EEP214, EEP215  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

**EEP222 Maintenance of Electricity Supply Systems**  
This unit includes the following: establishment of maintenance policies; review of failure rates; emergency spares; identify maintenance liabilities and critical success factors; dissemination of policy; maintenance planning; identify constraints; review of existing maintenance programs; establishment of plans for periodic actions; documentation of procedures; data recording and analysis; registers of defects; design of data collection and reporting; preparation of control charts; computer systems; database development; maintenance operations; resource evaluations; work procedures; acts and regulations; staff training; auditing; maintenance program evaluation; assessment against KPI; program modification.  
**Prerequisite(s):** EEP214, EEP215  
**Credit points:** 4  
**Contact hours:** 15 hours short course/distance education  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1,
EEP223 Load Forecasting

This unit includes the following: nature of load patterns; historical patterns; links between customers and loads and between energy and demand demographics; categories of DSM; costs of DSM options; benefits and limitations to DSM; tariffs and their impact; impact of economic trends on demand growth; load manipulation; load forecast methods: data collection and availability; weather correction; interpreting data; synthesising missing data; developing load forecast data; developing alternative scenario load forecasts; establishment of base loads from; historical load data; customer load predictions and other contributing factors; prediction of growth rates; generation of load forecasts.

Prerequisite(s): EEP213 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP224 Power System Operation

This unit includes the following: frequency control and AGC under normal load conditions; operation under emergency and contingency conditions; black starting; load shedding philosophy; generation operation; contract fuel prices; variations; automatic generation control systems; analysis of power station operating costs; establishment of optimum operating costs; management of forced outages; management of resources to restore system to normal in minimum time; abnormality control to prevent plant damage and maintain safety; logging and reporting of forced outages; coordination of planned outages including assessment of risks and contingency planning; control of reactive power and voltage levels under normal and abnormal conditions; load reduction.

Prerequisite(s): EEP202, EEP212, EEP214, EEP221, EEP223 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP230 Thesis A

In this unit, students work in industry for 100 days of supervised practice. As part of this practical training, one or more linked topics are identified that are related to the work of the section in which the training is carried out. A Masters thesis is prepared describing results of studies done by the student during the practical training. It is expected that the thesis will demonstrate that students have a deep background knowledge of the topic, can apply advanced skills to formulation and solution of engineering problems, and have an understanding of the relationship of the work to the overall objectives of the workgroup. The thesis will be examined by internal and external examiners appointed by the University.

Credit points: 12 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP231 Thesis B

Work done in this unit and the related unit EEP230 is examined by submission of a single Masters thesis.

Credit points: 12 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP240 Organisation and Financial Management in the Electricity Supply Industry

This unit includes the following: financial reporting, including profit and loss and balance sheet; interpretation of financial data and commercial practices with respect to various line items in financial reports; key performance indicators, the derivation, interpretation and pitfalls; financing arrangements; taxation issues that affect the industry including income tax, repairs, tax effect of depreciation and capital gains tax; various asset management issues including inventory and fixed assets; cost volume profit analysis including breakeven, contribution margin and EBIT.

Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP241 Distance Protection

This unit includes the following: current transformers: transient performance, saturation factors, effects on relay performance; voltage transformers: transient performance; distance protection: relay selection, characteristics - relay comparator operation, non-switched distance protection schemes, switched distance protection, effects of mutual coupling; design of protection schemes and setting relays for complex feeder systems with arc resistance, prevention of inadvertent tripping, prevention of load degradation of distance relay performance; developing grading plans to ensure coordination; understanding relay functions: switch-on-fault logic, VT supervision, memory, power swing blocking and healthy phase polarising; protection signal

Prerequisite(s): EEP211 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point and External Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

EEP242 Efficient Marketing and Utilisation of Electricity: Demand and Supply Side Solutions

This unit includes the following: assessment of future DSM options: state, national and international programs; local opportunities; impact of new and evolving technology. Comparison of options; determination of avoidable costs; assessment of marginal cost of supply and identification and avoidable costs; survey of customers: conducting market research; application of existing tariffs or new tariffs; planning market potential for DSM: comparison of options to meet customer needs and supply authority requirements; economic comparison of DSM and SSM options including combined options; design and implementation of DSM programs: targets, resources, in-house or contract; monitoring program performance; assessment of DSM.

Prerequisite(s): EEP208, EEP223 Credit points: 4 Contact hours: 15 hours short course/distance education
E Episcopal Administration  
This unit includes the following: categories of contracts: supply, maintenance, period; general conditions of contract: terms of payment and security deposit; QA procedures; retention conditions; special conditions: delivery and penalties for delay; technical provisions; penalty/bonus for such factors as efficiency/performance/maintenance/reliability; pre-tender negotiation practice; evaluation of tenders: tender adjustments; determination of the lowest price; tender acceptance; contract correspondence; drawings -standards, amendment; contract law, dispute resolving procedures; contract monitoring: approval of drawings and documents; approval of delivery; erection; site testing; acceptance; takeover; maintenance period retention provisions.  
Prerequisite(s): EEP208 Credit points: 4 Contact hours: 15 hours short course/distance education  
Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

E Episcopal Circuit Breakers - Switchgear  
This unit includes the following: SF6, Vacuum, GIS, minimum oil, airbreak, bulk oil circuit breakers; circuit-breaking principles; calculation of switching surges: TRV and ITRV, current inrush; interruption of load current, and small inductive current; capacitive switching; short-line-faults and out-of-phase switching; specification of circuit breakers: Australian and international standards; selection of circuit breakers: analysis of tenders; circuit breaker failure modes; catastrophic failures; condition monitoring techniques; maintenance and refurbishment; circuit breaker testing and test report evaluation; new circuit breaker technologies.  
Prerequisite(s): EEP210 Credit points: 4 Contact hours: 15 hours short course/distance education  
Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

E Episcopal Introduction to Substation Design  
This unit includes the following: preparation of design/site options: standard layouts (outdoor, indoor, GIS, package, single bus, 1.5 CB, etc) - cost, site, reliability lead time and communication factors; estimating procedures; comparison of design/site options; whole-of-life cost comparison including capital and operating costs; environmental and public issues; identification of design parameters: voltages, ratings, protection, metering, SCADA, communication, operational - preparation of one-line diagram and general arrangement; design scope; review with other parties.  
Prerequisite(s): EEP202, EEP219, EEP244 Credit points: 4 Contact hours: 15 hours short course/distance education  
Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

E Episcopal Customer Metering  
This unit includes the following: tariff structures network and retail; metered parameters kW, kWh, var, varh, VA, VAh, power factor, demand and their interrelationships; electronic metering multifunction, measurement methods, advantages and limitations; HV metering, import/export metering, limitations, Blondel's theorem, safety aspects; current and voltage transformers - theory of operation and accuracy limitations; metering in the deregulated market; single and polyphase electromechanical metering - method of operation and techniques used to measure reactive power; electronic registers, summation registers and other techniques for customers with multiple points of supply; communication methods in remote meter reading; standards and regulatory bodies - Austr  
Credit points: 4 Contact hours: 15 hours short course/distance education  
Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

E Episcopal Introduction to Electricity Markets  
This unit addresses the following: problems associated with monopoly utilities and the central planning model; economic models of markets including perfect competition, monopoly and oligopoly; deregulation of the electricity supply industry; applied competition on electricity generation: the spot market; theory of derivative instruments; applied risk management: the electricity derivatives market; electricity market simulation; potential failures in the deregulation environment.  
Credit points: 4 Contact hours: 15 hours short course/distance education  
Campus: Gardens Point Teaching period: 2008 6TP1, 2008 6TP2, 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

E Episcopal 1 Project  
Students carry out research or development work on a project in specified areas. This can be done over two semesters.  
Credit points: 12  
Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

E Episcopal 2 Project  
Students carry out research or development work on a project in specified areas. This can be done over two semesters.  
Credit points: 12  
Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

E Episcopal Project Component  
Basic engineering research, design and development skills are essential for engineers working on projects in the research field or in industry. A complete project will contain a number of development phases, to varying extents, in the areas of feasibility, literature review, specification, design, simulation, implementation and testing. In this unit students will concentrate on at least one of the above aspects of a project. They will get the opportunity to apply themselves to a research/design/development task, and produce a technical report on the progress achieved. This unit requires maturity and knowledge of earlier/concurrent course material and should be done at the end of the course. The project component can be industry or school based.
EFB102 Economics 2
Consumer behaviour, the role of the government in market intervention, allocative efficiency and market structure are some of the fundamental issues in microeconomics addressed in this unit. Business cycles and the related issue of macroeconomic stabilisation policy are analysed and explained within the Australian context. The significance of the international economy is described through a discussion of foreign exchange markets, the Australian dollar and the terms of trade.
Prerequisite(s): BSB113 or CTB113
Credit points: 12
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

EFB200 Applied Regression Analysis
This unit expands on the basic multiple regression model introduced in EFB101, by examining the practical problems encountered in using the single equation econometric model. In particular, the major problems encountered using real data, such as multicollinearity, serial correlation in time series data and heteroskedasticity in the case of cross-sectional data, specification error, and alternative functional form issues will be illustrated in the context of published Australian data. The unit includes extensive use of a commonly used computer package to allow the practical application of the various techniques.
Prerequisite(s): EFB101 or MAB101
Credit points: 12
Teaching period: 2008 SEM-1

EFB201 Financial Markets
This unit introduces students to the institutional structure of global financial markets, and thereby complements the understanding of theoretical finance gained in either BSB122 or EFB210. Topics covered include the functions of financial markets, the banking and payments system, financial system deregulation, non-bank financial institutions, stock exchange operations, debt markets, foreign exchange markets and markets for financial derivatives.
Prerequisite(s): BSB122 or CTB122 completed from Sem 2, 2004; or EFB210
Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

EFB202 Business Cycles and Economic Growth
This unit develops an analytical framework in order to evaluate the macroeconomic performance of the Australian economy and the policy actions taken by government. Key issues addressed include business cycle stabilisation, unemployment, inflation, economic growth, the balance of payments, the Commonwealth budget and national saving.
Prerequisite(s): EFB102
Credit points: 12
Teaching period: 2008 SEM-1

EFB210 Finance 1
This unit covers the following topics: an introduction to the financial institutional framework; an introduction to debt and equity instruments; financial mathematics applied to the pricing of debt and equity securities; a firm's investment decision including Net Present Value (NPV) and Internal Rate of Return (IRR); introduction to risk and uncertainty using the Capital Asset Pricing Model (CAPM) and Weighted Average Cost of Capital (WACC) concept and risk management.
Prerequisite(s): BSB110 and BSB113; or BSB122 or CTB122 completed from sem 2 2004
Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: EFB206

EFB211 Firms, Markets and Resources
This unit is concerned with the economic analysis of the decisions and actions of consumers, firms, and governments in modern economies. It develops student understanding of that body of economics that is expressly concerned with the operations of, and inter-relationships between, the individual units of the economy. The unit is designed, not only to foster both clear thinking about the interplay between government, private firms, and consumers, but also to develop the student's ability to apply microeconomic concepts to economic problems that the student has not previously encountered.
Prerequisite(s): EFB102
Credit points: 12
Teaching period: 2008 SEM-1

EFB213 Management Science
Introduces students to a range of modelling procedures which can be used to assist business in decision making under uncertainty. Constrained optimisation techniques are used to help minimise costs, time and resource use, or maximise profits in areas such as inventory management, resource allocation, queuing theory, and transportation among others. The use of computers allows students to concentrate on the applications of these techniques and their interpretation, and to recognise the strengths and weaknesses of these models. Topics covered include Linear Programming, Transport Analysis, Project Management and Scheduling, Inventory Analysis, Decision Theory, Queuing Theory and Simulation.
Prerequisite(s): BSB122 or CTB122
Credit points: 12
Teaching period: 2008 SEM-1

EFB307 Finance 2
This unit includes the following topics: the financing decision - capital structure, debt versus equity, lease versus debt, term structure versus default structure of interest rates; the dividend decision - dividends versus capital gains, franked versus unfranked income; firm valuation; free cash flow model; evaluation of takeovers; Risk and Return - diversification, the CAPM model, its practical application and its relationship to efficient market hypothesis; introduction to forwards, futures, options, warrants, convertibles and risk management using financial derivatives.
Prerequisite(s): EFB210
Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2
EFB308 Finance 3
This unit includes the following topics: a study of contemporary finance research; CAPM; beta estimation; valuation theory; market efficiency; value at risk; use of finance research tools; anomalies and extension of finance theories. Students are required to complete a research project combining theory and practice. This unit covers many topical areas in contemporary finance research. These include, but are not limited to: asset pricing; beta estimation; market efficiency; value at risk; mutual fund performance; volatility modelling; and the term structure of interest rates. Students are required to complete a research project combining theory and practice.
Prerequisite(s): EFB307 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

EFB309 Financial Derivatives
This unit extends students' knowledge of financial derivatives as obtained in Finance 2. Topics include: advanced option pricing models; advanced option trading strategies; exotic options; forward and futures pricing models; hedging commodities and equities by using futures; forward rate agreement and interest rate swaps; financial risk management issues.
Prerequisite(s): EFB307 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

EFB310 Financial Institutions - Control
This unit introduces students to the fundamental principles of controlling the risk profile and capital position of a deposit-taking financial institution to maintain solvency. The basic framework of the unit is based on the regulatory capital adequacy regimes, supplemented by consideration of the more sophisticated internal models of risk developed by financial institutions themselves. Relevant case studies demonstrate the imperative for, and application of, the risk management framework.
Prerequisite(s): EFB206 or EFB210 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

EFB311 Financial Institutions - Lending
This unit examines the fundamental motivations for lending by financial institutions, and the ways in which these are reflected in loan market practice. Specific topics cover the theoretical basis of lending as financial intermediation, the purpose and utilization of loans by borrowers, the major costs of lending for financial intermediaries (including a strong focus on credit costs), lenders' compensation, lending relationships, the structural features of loan agreements, loan security and enforcement, and special topics on syndicated lending and project finance.
Prerequisite(s): EFB210 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

EFB312 International Finance
This unit examines the theory and practice of international finance, including the mechanics and uses of the spot, forward, swap, futures and options markets in foreign exchange; the relationship between domestic and international capital markets; interest rate and exchange rate determination; risk management of foreign exchange; international trade finance; evaluation of offshore investment.
Prerequisite(s): EFB206 or EFB210 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: EFB212, IBB202

EFB314 International Trade and Economic Competitiveness
The unit analyses the increasing globalisation of world trade and investment, and develops an analytical framework to assess the impact of these flows on the Australian economy, its businesses, people and policy makers. It examines the patterns of trade and capital flow.
Prerequisite(s): EFB211 & EFB202 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: EFB212

EFB318 Portfolio and Security Analysis
This unit addresses the following topics: management of investment portfolios; diversification; performance management; risk management; advanced asset pricing models; equity valuation strategies and fixed interest risk analysis.
Prerequisite(s): EFB307 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

EFB324 Macroeconomics and Global Financial Markets
The unit provides an in-depth understanding of the interplay between macroeconomic policies and global financial markets. Macroeconomic frameworks adopted in this unit are practically oriented and much of the material with which they deal is drawn from relevant events of recent decades. The unit discusses various analytical tools and policy approaches to the macroeconomy as they affect both developed and developing countries. Particular emphasis is given to how a good knowledge of macroeconomics helps in understanding international financial market developments and also, to some extent, how fluctuations in such markets can have serious implications for macroeconomic conditions and economic policy.
Prerequisite(s): EFB202 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

EFB325 Financial Microeconomics
This unit addresses the theoretical microeconomic foundations of financial economics, focusing on how individuals and firms deal with uncertainty and situations involving strategic interactions. The theoretical concepts are illustrated with application from both the private and public sector. Contents include game theory and its economic applications, expected utility theory, risk analysis, intertemporal preferences, cost of capital, demand for capital, and asymmetric information.
Prerequisite(s): EFB211 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2
EFB326 Applied Portfolio Management
This unit introduces the student to the treasury environment in which financial institutions operate. The key to the unit is the raising of funds and the management of interest rate risk. This unique hands-on unit allows students to develop these skills by trading in a simulated environment of international economic uncertainty. Students have trading parameters within which they should operate. Students must make decisions concerning source of funds, term and duration, interest rate re-set, and risk management with derivatives. Trading will be conducted over a simulated four quarter year.
Prerequisite(s): EFB210 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

EFB328 Public Economics and Finance
The major topics/areas covered in this unit include principles underlying government provision, distribution and finance as responses to market failure, externalities and government intervention in the presence of externalities and economics of pollution control. Cost benefit analysis and the environment are also dealt with under this section. In the next section we provide an introduction to taxation and then we discuss tax compliance and reform of the tax system. Under education the unit will cover the following: Market failure and government failure in education, financing of education and education outcomes, consumer choice in education and economic analysis of current directions in education reform. Under health the unit will cover topics such as demand for health, health sector targets and instruments of public policy, health care financing and outputs in Australia and problems of information in the health sector.
Prerequisite(s): EFB211 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

EFB329 Contemporary Applications of Economics Theory
This capstone unit reinforces and extends the economic theory introduced to students in the major, and applies it to a number of topical issues that lend themselves to critical analysis using economic principles. Both macroeconomic and microeconomic theories are used with the emphasis placed on usefulness of the theory in development of a framework which assists with decision-making and informs critiques of public policy. Some of the perspectives taken in studying these topics will include: their impacts on efficiency and on specific economic agents and institutions; the role, if any, of government in their resolution; and the economic instruments available to analysts by which to frame their detailed consideration.
Prerequisite(s): 192 credit points of study, including EFB202 and EFB211 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: EFB323

EFN405 Managerial Economics
This unit addresses the following topics: managerial decision making in an economic environment; an introduction to economics, demand analysis, cost analysis,
UNIT SYNOPSES

warrants, convertibles and risk management using financial derivatives.

**Prerequisite(s):** EFN406  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EFN414 International Finance**
This unit introduces the theory and practice of international finance, the relationship between domestic and international financial markets, international parity conditions and arbitrage, foreign exchange risk management, country and political risk management, international trade finance, international portfolio investment, multinational cost of capital and capital structure, international capital budgeting and foreign direct investment.

**Prerequisite(s):** EFN406  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** EFN417

**EFN415 Security Analysis**
This unit deals with security analysis and portfolio management. The unit is both practical and theoretical. Topics covered include: portfolio theory and the capital asset pricing model; bond and equity portfolio management; fundamental valuation techniques; portfolio hedging; active vs. passive investment strategies; and the evaluation of portfolio performance. The ultimate purpose of this unit is to provide the necessary tools for students to manage investment risk and return, select mispriced securities, design and administer investment portfolios, accomplish goals in portfolio management, and measure the performance of investment management.

**Prerequisite(s):** EFN406  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** EFN408

**EFN416 Treasury and Portfolio Management**
This unit introduces the student to the treasury environment in which financial institutions operate. The key to the unit is the raising of funds and the management of interest rate risk. This unique hands-on unit allows students to develop these skills by trading in a simulated environment of international economic uncertainty. Students have trading parameters within which they should operate and decisions must be made concerning source of funds, term and duration, interest rate re-set, and risk management with derivatives. Trading will be conducted over a simulated four quarter year.

**Prerequisite(s):** EFN406  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**EFN419 Data Analysis**
The unit introduces the common statistical methods and tools for inference and decision making in business. It covers important methods of data analysis with an emphasis on interpreting and understanding reported business and economic data. Topics include the concept of sampling error and sampling distributions, estimation and hypothesis testing, regression analysis, time series and an introduction to non-parametric statistical methods.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** EFN417

**EFN420 Introduction To Financial Management**
This unit is a preliminary study of financial information and financial markets and it includes a number of techniques required for analysing financial information.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**EFN421 Financial Planning and Strategies**
This unit aims to give students a solid grounding in the world of Financial Planning and Superannuation. This will involve gaining knowledge of financial markets and instruments as well as the appropriate regulatory framework.

**Prerequisite(s):** Postgraduate enrolment  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**EFN500 Contemporary Macroeconomic Theory**
This unit introduces students to the latest theoretical developments in the field of macroeconomics using both qualitative and quantitative approaches. It places these theories in their historical, philosophical and societal contexts. This unit looks at New Classical, New Keynesian and other theoretical approaches to a range of issues. These include: theories of expectation formation, supply side economics, labour markets, monetary theory, real business cycle theory and growth theory.

**Prerequisite(s):** P/G enrolment; with an U/G degree in Economics or Finance  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**EFN501 Corporate and Commercial Lending**
Credit points: 12  **Teaching period:** 2008 SEM-1

**EFN502 Developments in Microeconomic Theories**
This unit involves the discussion and analysis of contemporary developments in microeconomic theory, such as game theory and its applications, consumer behaviour, problems of collective action, evolutionary economics, the economics of voting, externalities, public goods, and the market mechanism. It explores refinements in microeconomic theory which have been contemporaneously used in the development of government policies in areas such as the environment, energy, public enterprises and industrial development.

**Prerequisite(s):** P/G enrolment; with an U/G degree in Economics or Finance  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**EFN504 Finance Honours**
This unit provides an advanced coverage of the theory of financial management, building on work done in the undergraduate course with reference to empirical evidence where available; topics include: capital markets, investment decisions, market equilibrium, the capital asset pricing model, arbitrage pricing theory, capital structure, dividend policy, efficient capital markets. The unit provides a
theoretical basis allowing for evaluating policy problems in the area of financial management, a prerequisite for further specialisation in this area.

**Prerequisite(s):** P/G enrolment; with an U/G degree in Economics or Finance  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

**EFN505 Financial Risk Management**  
The unit covers the main areas of modern risk management. The focus is on measuring and managing risks in financial institutions. Particular attention is paid to developing understanding of the analytical techniques employed in the construction of hedging strategies and the interrelations between the main areas of risk management. The unit emphasises empirical applications and assessment of risk management techniques. Topics covered include the current state of prudential regulation of financial institutions, measurement and management of market risks, hedging strategies with derivatives and managing interest rate and exchange rate risks.

**Prerequisite(s):** EFN415 or equivalent (eg. UG degree in Economics or Finance)  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

**EFN507 Advanced Capital Budgeting**  
Topics in this unit include: capital investment analysis, the NPV rule, adjusted present value, replacement decisions, retirement decisions, unequal lives, optimal life, cost of capital, estimating beta, capital rationing, valuation of new issues, mergers and takeovers, analysis of financial and leverage leases, the impact of recent taxation changes on the financing, dividend and investment decisions of the firm, capital budgeting in an international context, access or the financing, dividend and investment decisions of the firm, capital budgeting in an international context, access or

---

**EFN510 Econometric Methods 2**  
This unit build on BSN506 Econometric methods and provides a second course in applied econometrics using EViews. While BSN506 is essentially a single equation based course this unit focuses on non-linear estimation and systems of equations.

**Prerequisite(s):** BSN506  
**Credit points:** 12  
**Contact hours:** TBA  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

---

**ENB102 Engineering Mechanics 2**  
Free body diagram, Stresses in beams and bars, Moments, shear and deflections in beams and frames, Torsion in shafts, Stress transformation and buckling. Module 2: (Mech): Thin walled structures, combined loading of structures and machine members; yield criteria for safe elastic loading.

**Prerequisite(s):** EFN505  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

---

**ENB103 Electrical Engineering**  
Fundamental quantities in circuits and network laws, response to sinusoidal sources, and circuit measurements, real and reactive power calculation, power factor improvement, electric and magnetic fields, three-phase system and applications, transformer theory.

**Prerequisite(s):** MAB180 or MAB131  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER

---

**ENB104 Engineering Materials**  
Atomic Bonding; Crystal Structure; Elastic Deformation; Elasticity Case Study; Plastic Deformation; Defects; Alloying and Strengthening in Metals; Diffusion; Fracture, Fatigue and Creep; Phase and Phase Diagrams; Iron-Carbon Phase Diagram; Transformation of Phases; Introductory to Corrosion; Ceramics, Polymers and Composite Materials, Electronic Materials.

**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER

---

**ENB105 Electrical and Computer Engineering**  
Module 1: Introductory Computing fundamentals of problem solving using computers and programming and techniques for writing correct and efficient programs. MATLAB and its applications.  
Module 2: Electrical machines and their characteristics, principles of transformers basic electronic circuits, filters, PLC and operational amplifier circuits and applications.

**Prerequisite(s):** EFN103  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

**ENB121 Aerodynamics**  
This unit includes the following: introductory concepts of fluid mechanics and thermodynamics; conservation of mass, energy and momentum, state properties of fluids, the standard atmosphere; dimensional analysis; experimental aerodynamics and aerodynamic coefficients; Reynolds number and Mach number effects; estimation aerodynamic forces and moments; fundamentals of aircraft performance;
estimating range and endurance; take off and landing calculations; flight envelopes.

**ENB140 Introduction to Avionics**
The unit introduces students to Avionics in a non-technical way. It focuses primarily on aviation navigation and provides a basic understanding of avionics. A complete flight system is studied at an introductory level. The unit also gives an overview of the electronics inside an aircraft, the aircraft environment, and flight simulation.

**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB201 Fluid Mechanics**
Fluid properties, behaviour of stationary and moving fluids, hydrostatics and buoyancy; theory and application of the energy and momentum equations; pipe and open channel flow; dimensional analysis and pump performance characteristics.

**Prerequisite(s):** ENB101, MAB180 or MAB131  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB211 Dynamics**
Fundamental equations of particle kinetics; energy, power, impulse and momentum; kinematics of rigid bodies in plane motion, relative motion and motion relative to rotating axes; kinetics of rigid bodies, Basic machine components, (Gears, clutches, brakes etc.), Single degree of freedom system.

**Prerequisite(s):** ENB101, MAB182/MAB132  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB215 Fundamentals of Mechanical Design**
Basic procedures of design, design for sustainability, universal design, Concept development, creative problem solving, Basic component design, computational scheme in design, manufacture & materials.

**Prerequisite(s):** ENB102, ENB104, MAB180 or MAB131  
**Credit points:** 12  
**Contact hours:** 5  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB222 Thermodynamics 1**
Thermodynamic behaviour of substances; theory and application of the 1st and 2nd laws of thermodynamics; thermodynamic cycles, including gas cycles, vapour power cycles and refrigeration cycles; gas-vapour mixtures and the principles of air-conditioning; fuels and combustion.

**Prerequisite(s):** MAB182 or MAB132  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB231 Materials and Manufacturing 1**
Materials and their engineering applications, Manufacturing systems and technology, material properties and manufacturing, material selection, failure, graphical communication.

**Prerequisite(s):** ENB104  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB240 Introduction To Electronics**
Module Electronics A provides a basic understanding of the characteristics and operation of discrete semiconductor components. Electronic circuit design is introduced with emphasis on the small signal low and high frequency response of those circuits. Module Digital Electronics gives students a good grounding in the basic principles of digital design, with particular regard to the fundamentals of digital number systems, Boolean algebra, combinational and sequential logic design.

**Prerequisite(s):** ENB103  
**Credit points:** 12  
**Contact hours:** 5  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB241 Software Systems Design**
The unit introduces students to Software Engineering by considering a whole Software Lifecycle. Each step of the lifecycle is treated in detail, such as concept phase, requirement definition, software design, human-computer interaction, implementation, audits, and maintenance. Software design principles and techniques are presented as well as real-time system design. CASE development tools are briefly introduced as well as object oriented programming for which a structured Object Oriented Analysis and Design are considered.

**Prerequisite(s):** ENB246  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB242 Introduction To Telecommunications**
Telecommunications systems and the principles underlying their operations are introduced starting from mathematical preliminaries such as the Fourier series and the Fourier transform. Analogue modulation techniques (AM and FM), systems and circuits for generation and demodulation, analogue to digital conversion, pulse modulation and baseband digital data communication techniques are studied using time and frequency domain analyses.

**Prerequisite(s):** MAB182/MAB132  
**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB243 Linear Circuits and Systems**
Network analysis; Laplace transform of signals and transfer functions of systems, time and frequency responses of linear circuits, feedback configurations and transfer functions, analyse and designing analogue systems using transistors and operational amplifiers, designing and synthesising analogue filters, signal conditioning.

**Prerequisite(s):** ENB103, MAB132 or MAB182  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB244 Microprocessors and Digital Systems**
This unit covers the basis for electronic circuit design in general but also in connection with microprocessor systems, theory and design of advanced embedded digital systems and practical implementation. The practical application of these circuits including interfacing and environment factors will be considered.

**Prerequisite(s):** ENB240, ENB246  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1
ENB245 Introduction To Design and Professional Practice
Introduction to general principles of electronic circuit and electrical equipment design and realisation; design and implementation of basic electronic circuits; experience in undertaking engineering projects, in report writing, and working in teams. The unit gives students the opportunity to apply their theoretical knowledge to real-life engineering problems.
Prerequisite(s): ENB240, ENB246 or ITB001 Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

ENB246 Engineering Problem Solving
This unit introduces students to the use of computers as tools for solving engineering problems. MATLAB is introduced as a numerical computing environment with the capacity to support complex mathematics and to be programmed to solve specific engineering problems. Stand alone application development using C++ is introduced as a means of exposing students to the high and low level computer programming concepts that are necessary to the implementation of engineering solutions in hardware specific programming environments.
Prerequisite(s): EN103  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB271 Design of Structural Timber and Earthworks
In this unit, students develop and define a problem statement and are encouraged to develop their own creative solutions through the semester. This introduces students to aspects of project work and prepares them for their professional lives. Architectural and project issues include aesthetics, fitness for purpose, and constructability. Geotechnical issues include: site investigation, earthworks and compaction, and site investigation. Structural issues include: design, loads, load paths, load factors, strength factors, time dependent loads, structural capacity and stability, rules of thumb, structural timber, material selection, and basic surveying principles.
Prerequisite(s): ENB102  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB272 Geotechnical Engineering 1
Soil mechanics is a part of geotechnical engineering, soil types, their description, classification and engineering properties. The unit includes the following: granular and cohesive soil classification systems; volume and mass components; density and air voids; determination of soil geostatic vertical pressures; pore water pressures and effective stress; permeability theory and fluid seepage in soil, with erosion and piping analysis; soil shear strength assessment and application to retaining wall lateral pressures; retaining wall design; slope stability analysis and stabilisation. Computer simulation and analysis programs are used where appropriate.
Prerequisite(s): ENB102  Credit points: 12  Contact hours: 6  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB273 Civil Materials
The unit provides students with a sound and practical approach to material properties and selection so that they may adapt to scientific and technological changes in the variety of products entering the market. They understand where the engineer fits in a quality assurance program and become aware of the numerous components of quality assurance and the costs generated by quality control and assurance. Students become aware of the effect of the working environment on different engineering materials. Among other things, they study the behaviour of concrete from the time it is manufactured to the end of its life, and develop knowledge of the parameters involved in manufacturing good concrete, and the consequences of delivering poor concrete.
Prerequisite(s): ENB102, ENB104  Credit points: 12  Contact hours: 5  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB274 Design of Environmentally Sustainable Systems
This unit extends and applies the knowledge developed in BEB200 Introducing Sustainability to important issues such as site investigation, development of site planning criteria, site planning, environmental management and quality, pollution prevention and control, and resources and waste management. BEB200 and ENB274 form the foundations of the civil and environmental degree. This unit builds upon generic competencies acquired in BEB100 Introducing Professional Learning and ENB271 Design of Structural Timber and Earthworks. It also provides transport planning fundamentals, which will be built upon in ENB372 Design and Planning of Highways and ENB379 Transport Engineering and Planning Applications.
Prerequisite(s): BEB200, ENB271  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB275 Project Engineering 1
The unit commences with the development of the construction techniques common to site investigation, earthworks, pile driving, deep foundations, reinforced and prestressed concrete and steel erection. This operational understanding is extended into a study of the practices used to estimate cost and to administer contracts, including planning and the legal implications of operating in a commercial environment. The unit concludes with the issues surrounding the uncertainty of weather and of operating in remote environs.
Prerequisite(s): ENB271, ENB273  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB276 Structural Engineering 1
This unit includes the following: development of the method of moment distribution and its application in analysis of continuous beams and frames; theory of influence lines and its application to determine the effects of moving loads on beams and trusses; ‘pattern loading' on frames and continuous beams; behaviour of reinforced concrete members; applications in the design of beams and columns.
Prerequisite(s): ENB102, ENB273  Credit points: 12
ENB277 Construction Engineering Law
A study of the Workplace Health and Safety Act 1989/1990, the regulations applying and Codes of Practice. The application of this legislation to a Site Safety Management Plan. Basic understanding of negligence, duty of care, nuisance, fraud and conversion. Contract Law including elements of contract, content of a valid contract, collateral, contract misrepresentation, implied terms; formal requirements and part performance; contract documents and their interpretations; substantial performance and quantum meruit.

Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB301 Instrumentation and Control
The unit introduces the student to classical control systems, analysis and synthesis, and implementation in an industrial control context. It introduces the principles of electrical measurements and instrumentation, sensors, PLC, DSC and industrial networks, and foundation of feedback control theory for engineers.

Prerequisite(s): ENB105 or ENB243, MAB182 or MAB132
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB311 Stress Analysis
Further analysis of stress and strain; torsion of prismatic sections and thin-walled sections; axisymmetric problems; energy methods; thin plates. Introduction to FEA including the use of a FEA software.

Prerequisite(s): ENB102, ENB211  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB312 Dynamics of Machinery
Kinematic and dynamic analysis of planar linkages and mechanisms; multi-degree of freedom systems with steady and transient vibrations, Introduction to noise.

Prerequisite(s): ENB211  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB316 Design of Machine Elements
Analysis of operating conditions and their impact on design solutions, design of fasteners, shafts and other mechanical components, design of springs, Design for manufacturability, fundamentals of lubrication, computer aided design (solid modelling), frames and housings.

Prerequisite(s): ENB215  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB317 Design and Maintenance of Machinery
Design of equipment for special applications such as pressure vessel, food processing, Design of machine system, Optimisation of design, machinery failure, prediction, analysis and prevention. Design for reliability application of FMEA, Condition monitoring, ethics, Fundamentals of friction , wear related to design, Failure analysis & OH&S.

Prerequisite(s): ENB201  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB318 Biomechanical Engineering Systems
Topics covered in this unit include an appreciation of the mechanics of the tissues of the joints (micro mechanics or tissue mechanics) and the function of the body during normal activities (macro-mechanics or biomechanics). This unit is designed to develop an understanding of the complex properties of the individual tissues and practical competencies in the evaluation of human function and performance from a biomechanical perspective. Biomedical engineers require the ability to analyse the mechanics of the human body for applications such as prosthetic design (both artificial limbs and replacement joints), design of assistive devices for people with disabilities, sporting performance, ergonomic tasks, and other health related areas.

Prerequisite(s): LSB131, LSB451, ENB101  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB319 Biomechanical Engineering Design
This unit is structured to further develop the engineering design skills of students, with particular emphasis on the role of computer-aided design (CAD), materials selection, manufacturing processes, assembly and maintenance in the design and management of bio-engineering devices. A knowledge of manufacturing processes, fundamentals of engineering design, engineering drawing and engineering materials is assumed. Contents include design for manufacture, materials selection, computer-aided design and solid modelling, rapid prototyping techniques, user interface, and case studies of selected medical devices.

Prerequisite(s): ENB215  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB321 Fluids Dynamics
Hydraulic and pneumatic systems; design, analysis and performance of pumps, turbines and fluid couplings; unsteady pipe flow; flow around solid bodies, including potential flow and boundary layers; compressible flow and shock waves.

Prerequisite(s): ENB201  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB322 Biofluids
The mechanics of fluids in biological and biomedical systems differs from industrial applications as most of the fluids encountered exhibit viscosity that changes in a non-linear manner with shear rate. It is therefore necessary, when designing a second course in the mechanics of fluids for medical engineers, to examine the particular properties of the fluids that might be encountered and to introduce techniques to analyse their behaviour. It is also important to consider how the properties of the fluids relate to their biological function and the relevance of their properties to the design of associated equipment.

Prerequisite(s): ENB201  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
ENB331 Materials and Manufacturing 2

Prerequisite(s): ENB231  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB333 Operations Management

This unit develops students' ability in applying quantitative techniques in solving different types of industrial operations problems. Topics include: product mix, assignment and transportation models; location and layout decisions, job design analysis; project planning; quality control and the use of simulation in operations management.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB334 Design For Manufacturing

Topics covered in this unit include: basic concepts in the analysis of a mechanical engineering design, relating the design requirements to a range of manufacturing processes; an understanding of the complete manufacturing specifications for mechanical designs based on functional requirements, manufacturing processes, interchangeability and standardisation; introduction to the basic principles in the design of jigs and fixtures in manufacturing.

Prerequisite(s): ENB231  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB335 Modelling and Simulation For Medical Engineers

Renewable energy sources including solar and wind energies are becoming more important than ever due to increasing energy demand, dwindling oil and gas supplies, increasing pollution levels in the atmosphere and the associated global warming effects. Renewables may also help improve competitiveness and have a positive impact on regional development and employment.

An overview of the different energy sources will be covered followed by an understanding of the characteristics of solar energy, radiation calculation, measurements and applications in remote, hybrid and grid interactive configurations. Students will be equipped with fundamentals of alternative energy sources including solar thermal, photovoltaics and wind conversion technologies.

Corequisite(s): ENB318  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

ENB336 Industrial Engineering

Prerequisite(s): MAB233  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB338 Biomaterials

Topics covered in this unit include: an understanding of the relationships between the properties, failure mechanisms, processing and microstructures of various materials used for medical applications and their interaction with human tissues; an understanding of the fundamentals of the use of materials in a medical environment and an understanding of the fundamentals of materials properties and processing; consideration of metallic, ceramic, polymeric implant materials; composites as biomaterials; structure-property relationships of biomaterials; tissue response to implants; soft tissue replacements; hard tissue replacements.

Prerequisite(s): ENB102, ENB104, LSB131  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB340 Power Systems and Machines

This is a core unit that develops the basic topics essential for an electrical engineer working in areas that include the resources sector, the process industries, electrical power utilisation, electric power generators as well the electricity supply industry. Topics covered in machines include magnetic circuits, single phase and three phase transformers; electric machines including electromechanical energy conversion, reluctance motors, induction motors, synchronous machines, D.C. machines, stepper motors, P.C. motors; motor control; heating, cooling and rating. Power system topics include power generation and energy sources, electricity market operation, fault calculations, basic protection and power system operation, in particular real and reactive power control.

Prerequisite(s): MAB180 or MAB131, ENB103  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB342 Signals, Systems and Transforms

The unit covers the area of Signals in Linear Systems for which a detailed study of Fourier theory applied to both analogue and discrete-time signals and to the analysis of linear systems will be given. Systems will be represented in time as well as in frequency and various characteristics and relationships in the two domains will be discussed. The students will be introduced to the fundamentals of analogue and discrete-time signal processing; analogue and discrete Fourier transform; linear and discrete convolution. Finally, the students will learn the fundamentals of digital filter design and implementation, with examples and applications arising from various disciplines.

Prerequisite(s): ENB242, ENB243, ENB246 or ITB001  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB343 Fields, Transmission and Propagation

Fundamental concepts of static and time varying electromagnetic fields; Maxwell's equations and the characteristics of their solution, such as wave equations, losses in various media and energy flow; numerical methods; transmission line theory, terminated line, Smith Circle Chart usage and lattice diagram; propagation modes in waveguides and optical fibre; free-space propagation, reflection, refraction, diffraction; basic antenna theories and antenna parameters, Frii's transmission equation, half-wave dipole, two-element array.

Prerequisite(s): MAB132 or MAB182, ENB240  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB344 Industrial Electronics

The unit gives a basic understanding of linear and switching applications in industrial electronics. Practical knowledge
associated with interfacing and design is developed. Students will also study the theory and design of advanced digital embedded systems as well as the practicalities associated with implementation. It also covers power rectification, controlled rectification, inverters, AC and DC drives, uninterruptible power supplies and power switching components.

**Prerequisite(s):** ENB244  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB345 Advanced Design and Professional Practice**
Detailed design and realisation of typical electronic subsystems used in all areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. The student is required to write a detailed technical report and also give an oral presentation on her/his design.

**Prerequisite(s):** ENB245  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB346 Digital Communications**
Revolutionary developments in the field of Digital Communication Technology have enabled improvement in the characteristics of communication systems in order to meet the performance requirements for transmission of information for private, business and industrial applications. This unit which covers Elements of a Digital Communication System aims at providing the students with an in-depth understanding of the theory and applications of digital communication systems and technology.

**Prerequisite(s):** ENB342, MAB233  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB347 Modern Flight Control Systems**
The modules of this unit are Control Systems B and Flight Control Systems. The unit provides students with an understanding of control system design and analysis for discrete time control systems as well as using the state space approach. Furthermore, it introduces students to different aspects of flight control including factors affecting the performance and simulation. Specific topics such as artificial stability and MILSTDs are also covered.

**Prerequisite(s):** ENB348  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB348 Aircraft Systems and Flight Control**
The modern aircraft is an extremely complex machine comprised of many systems. These systems include propulsion, engine management, flight management, flight control, navigation, and life support and flight data recorders. The safe and reliable operation of all these systems is required to conduct a single flight. The modern avionics engineer requires an understanding of all these systems and how they operate on modern civil and military aircraft. This unit places emphasis on the flight control systems of modern aircraft which is one of the primary subsystems. As part of this, methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft are introduced, along with the criteria for stability.

**Prerequisite(s):** ENB103, ENB121, ENB140  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB350 Real-time Computer-based Systems**
This unit covers the area of embedded systems and real-time kernels. C programming is reviewed in the context of real-time applications where it is often mixed with assembly language. Data representations, input-output programming, concurrency, scheduling, memory management and system initialisation are discussed. Programming laboratory exercises introduce development tools and reinforce fundamental concepts such as polling, interrupt driven input-output, serial port communication, pre-emptive and non pre-emptive scheduling, resource sharing, priority inversion and deadlock. Students develop a simple real-time process control application using programmable logic and micro-controllers.

**Prerequisite(s):** ENB244  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB352 Communication Environments For Embedded Systems**
This unit addresses the following: computer networks; network programming; open network foundations; embedded systems; client/server; bus architectures; network controllers; distributed systems in automation and process control; embedded Java; distributed objects; distributed databases; distributed operating systems.

**Prerequisite(s):** ENB350  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB354 Introduction To Systems Design**
Introduction systems engineering methodologies and techniques as applied to Aerospace Engineering projects. The students receive formal lectures and apply the knowledge gained to a specific case study or mini project.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ENB355 Advanced Systems Design**
Students apply the systems engineering documentation and specifications developed in ENB345 Introduction to Systems Design and complete the project to the final systems engineering review stage.

**Prerequisite(s):** ENB354  
**Credit points:** 12  
**Contact hours:** 2 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB356 Military Combat Electronics**

**Prerequisite(s):** ENB244, ENB343  
**Corequisite(s):** ENB346  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ENB371 Geotechnical Engineering 2**
This unit includes: further study on the behaviour of soil and rocks; determination of subsurface pressures from surface loadings; soil settlement including time related clay consolidation settlement and immediate settlements on sand and clay as related to shallow foundations;
assessment of bearing capacity and allowable bearing pressures under shallow foundations; pile foundation systems and analysis for capacity and settlement; rock mass behaviour, classification and joint shear strength applied to slope stability assessment and stabilisation measures.

Prerequisite(s): ENB272 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ENB372 Design and Planning of Highways
Civil engineers as professionals are responsible for the delivery of major transport infrastructure items through the stages of inception, planning, design, development, maintenance and management. The purpose of such projects is to improve the quality of life of the community by offering safe and efficient access to activity locations and mobility between locations. In delivering such infrastructure it is imperative that social, economic, and environmental impacts and benefits are considered and addressed. This unit offers students an opportunity to explore the role of the civil engineer in the preparation of a feasibility design study for a road as a major transport infrastructure item.

Prerequisite(s): ENB271, ENB274 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ENB373 Design and Construction of Steel Structures
This unit includes the study of steelwork: design and construction; structural systems; load paths; rules of thumb; building layout; function and form; cladding; element and wind loading evaluation; idealisation, analysis, design action effects; space gas, columns and rafters; trusses and bracing; connections; knee ridges; base plate design; procurement and fabrication; scheduling and erection.

Prerequisite(s): ENB273, ENB276, ENB375 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ENB375 Structural Engineering 2
This unit considers the following: limit states design of steel structures; buckling and ultimate strength behaviour of steel structures; tension members, compression members; local and global buckling (flexural and flexural torsional buckling modes) concepts as applied to compression members and beams; effective lengths of compression members and beams; design of beams; effect of lateral restraints on buckling; web stresses including web crippling and buckling; beam-columns; bolted and welded connections; unsymmetric bending of beams including principal second moments of area; shear stresses in beams of thin-walled open cross-sections and their shear centres. Most cold-formed steel sections are unsymmetric and hence the latter topics are useful in steel design.

Prerequisite(s): ENB276 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ENB376 Transport Engineering
The transport system is an essential part of our physical infrastructure. It is imperative that civil engineers are able to undertake typical road and traffic engineering investigations, analyses and designs. These require an understanding of the intent of individual road system elements, how they operate, and how they are delivered and managed: this understanding is developed in this unit. Further, it is important that civil engineers are able to undertake multimodal transport surveys to gain an understanding of the operation of a particular transport system.

Prerequisite(s): ENB274, ENB372 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ENB377 Water and Waste Water Treatment Engineering
The provision of a safe, wholesome and adequate supply of water and the proper treatment, disposal, and reuse of wastewater are essential for protecting human health and well-being. Water and wastewater treatment are required for the control of water-born diseases and the provision of proper sanitation for urban, rural, and recreational areas. Water and wastewater treatment engineering is a major field of civil and environmental engineering and is manifested by sound principles and practice in terms of solving sanitation problems.

Prerequisite(s): ENB201, ENB274 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ENB378 Water Engineering
The main topics to be covered in this unit follow: the hydrologic cycle and its application to the estimation of runoff from small catchments; probability and risk and the selection of design floods; hydrologic data; estimation of peak runoff using the Rational Formula estimation of runoff hydrographs using rainfall-runoff routing models; the hydraulic characteristics of open channels; uniform flow, gradually varied flow and rapidly varied flow; the hydraulic characteristics of culverts and retention basins; the operation of urban drainage systems.

Prerequisite(s): ENB201 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ENB380 Environmental Law and Assessment
The adverse consequences of human activity have resulted in the adoption of various international treaties, enactment of stringent legislative requirements, and a growing demand for improved management practices. Engineers need to be aware of the way in which the law works, to be able to communicate with lawyers, and to recognise the legal and political implications of their projects. An understanding of the local, state, and federal governments’ power to regulate development and the legal and planning requirements and assessment procedures is essential for professional engineering practice.

Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ENB381 Civil Engineering Construction
Detailed studies of the methods and equipment employed in the execution of civil engineering construction. Includes earthworks, heavy foundations, steel fabrication and erection, bridge construction, marine construction, water retaining structures, road and airfield construction and mechanical erection.

Prerequisite(s): UDB110, UDB214 Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENB382 Estimating in Engineering Construction
The majority of the unit applies construction, planning and commercial understanding previously developed to fundamental estimating skills suited to firm bidding. The conversion of an estimate to a tender, includes the review process, the determination of risk and profit and the drafting of a tender letter conclude the critical content. A comparison with sub-contract pricing and the use of Bills of Quantity is studied and is linked to conceptual estimating, preliminary estimates for budgets and proposals.
Prerequisite(s): ENB381, UDB313  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB383 Environmental Resource Management
This unit addresses management of solids and hazardous wastes generated from domestic, commercial, and industrial sources. It includes the following: waste minimisation; promotion of efficient use of resources; promotion the use of waste through recycling and energy production; viewing waste as a resource; reducing the mass, volume and toxicity of the waste; disposing of waste in a socially and environmentally acceptable manner; waste avoidance; recycling; energy production; treatment; disposal. Waste management is an important aspect of civil and environmental engineering education.
Prerequisite(s): ENB274  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB437 Health Legislation in the Medical Environment
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB452 Advanced Power Systems Analysis
Prerequisite(s): ENB301, ENB340  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB453 Power Equipment and Utilisation
Prerequisite(s): ENB340  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB458 Modern Control Systems
This unit introduces the student to the following concepts: Discrete time control systems and their design, state space modelling and control system design using state space techniques, linear optimal control, non-linear systems, and adaptive control with applications of neuro-computing and fuzzy logic.
Prerequisite(s): ENB301  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENB481 Civil Engineering Project Management
Prerequisite(s): ENB275, ENB372  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

ENN510 Engineering Knowledge Management
Knowledge management is an innovative process that needs to be closely aligned to organisation goals. The development of knowledge management systems requires a sound understanding of the related issues such as knowledge identification, knowledge development, knowledge preservation, knowledge representation and knowledge distribution. All engineering managers must have the fundamental skills and knowledge to understand, design and develop and manage knowledge management systems in an organisation. This unit provides the basic knowledge and skills to understand the complex issues of knowledge management that are essential to the career advancement of engineering managers.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENN515 Total Quality Management
Total Quality Management (TQM) has evolved beyond its roots in statistics and the quality control function. Today, many observers consider it to be a framework for "excellent" management. The dominant themes are: a data-based approach to problem solving; a strong emphasis on organizational and behavioral considerations; a customer-oriented market-sensitive approach to designing and delivering both products and services; and finally, a desire for continual improvement. TQM practice is a pathway to the achievement of world class competitiveness.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENN520 Advanced Signal Processing and Systems
The concepts of signals, images and systems arise in a wide variety of fields, and the ideas and techniques associated with these concepts play an important role in such diverse areas of science and technology as communications, aeronautics andastronautics, circuit design, acoustics, seismology, biomedical engineering, process control, and speech and image processing. The field of signal and image processing has grown rapidly in the last few decades and it continues to grow in importance as technologies such as very large scale integration, programmable logic devices and high performance computing make it possible to implement digital signal and image processing systems for many practical applications.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENN530 Asset and Facility Management
Professionals are often involved in the management of infrastructure including transportation, water, energy, buildings and telecommunications. In today's business environment, the efficient maintenance and management of these assets and associated risks is critical. The professionals need to know how to manage the whole of life cycle of assets; organise maintenance based on condition and reliability assessments; and create as well as implement effective asset management and maintenance plans so as to meet the business objectives of the organisation.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
ENN540 Engineering Optimisation
In a society that recognises the impact of resource depletion and industrial activity on the environment, it is critical that professional engineers are equipped with the skills necessary to develop effective engineering conceptual solutions, optimise them, and then deliver them. This highly practical unit will introduce you to a range of advanced tools used in engineering concept development and optimisation, using mathematical and numerical methods.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ENN560 System Design
A system comprises a number of elements which interact in order to perform a function that the individual elements could not. The systems engineering methodology considers whole of life cycle development, interactions between system elements, and interactions with other systems. The professional engineer requires the technical skills to implement the system engineering methodology, the ability in interact with other professionals, and to communicate in an appropriate and industry recognised manner.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENN570 Enterprise Resource Planning
Enterprise Resource Planning (ERP) plays an increasingly significant role in large corporations. Today, many business analysts consider ERP to be essential for effective corporate functionality and increased productivity for private and government industries.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ENN580 Control Systems
Feedback control systems form the basis of a large number of systems engineering applications in a diverse range of disciplines, including aerospace, robotics, power systems, and manufacturing. An advanced knowledge of real world control system issues, such as dealing with non-linearities and non-stationary phenomena, is essential for the advanced systems engineering practitioner.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

GSN221 Special Topic 1
This unit is offered to temporarily "house" subject matter which is not routinely offered by the Brisbane Graduate School of Business, but which is offered as a twelve credit point unit when specific subject matter is considered especially timely and/or in a semester when a visiting or adjunct professor is available with expertise that is not normally resident in the Faculty of Business.
Prerequisite(s): PG enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

GSN222 Special Topic 2
Like GSN221, this unit is offered to temporarily "house" subject matter which is not routinely offered by the Brisbane Graduate School of Business. This unit is offered to students who have already taken GSN221 and who wish to take a second "Special Topic" twelve credit point unit in the same program.
Prerequisite(s): PG enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

GSN224 Corporate Philanthropy
The nature of the relationship between the for-profit corporation and the nonprofit sector is invariably through corporate philanthropy. This unit examines five issues central to corporate philanthropy: legal and taxation, cause related alliances, corporate foundations, business giving models in Australia and corporate social responsibility. The unit is taught through case studies in Australian and international practice.
Prerequisite(s): PG enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

GSN233 Special Topic in Philanthropy and Nonprofit Studies
This unit is developed around the visiting adjunct professors or visiting scholars to the Centre of Philanthropy and Nonprofit Studies. It provides students with access to contemporary issues and experts in the field and involves in-depth examination of an issue of importance.
Prerequisite(s): PG Enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

GSN234 Contemporary Issues in Entrepreneurship
The unit introduces the students to the field of entrepreneurship research and the problems, theories and methods that are prevalent in (empirical) research on entrepreneurship. Students learn to "know the field" including its historical development; its "infrastructure" of journals, conferences and research centres, and its contemporary research questions and approaches. The students will develop an ability to assess the strengths and weaknesses of the field and gain insights into where and how they can contribute to its research frontier.
Prerequisite(s): PG enrolment only  Credit points: 12  Contact hours: 3 hrs per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

GSN235 Communication, Negotiation and Leadership
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: Nil

GSN401 Managing in the Global Business Environment
Competence in managing is the key to success for any organisation and for any person within that organisation. The knowledge and ability to manage within the global business environment are crucial requirements for today's and tomorrow's managers. This unit introduces the planning, leading, organising and controlling functions of management to elucidate current trends in management practice in the global environment.
Prerequisite(s): Must be taken in first semester of study  Credit points: 6  Contact hours: 3 per week  Campus:
GSN403 Understanding Data
This unit is designed to provide students with a clear understanding of different types of data and techniques to present and analyse real world problems relevant to business and managers. Students are introduced to various techniques of organising, presenting and analysing economic and business data. Topics include probability theory, descriptive and inferential statistics.

Prerequisite(s): Must be taken in first semester of study
Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1, 2008 6TP3, 2008 6TP4, and 2008 6TP5  Incompatible with: GSN204, MGN409

GSN404 Financial Statements Analysis
This unit introduces students to basic accounting concepts and financial statements, and then explores methods of analysing them to give an informed understanding of the financial well being of the entity. Throughout, it takes the perspective of the user of financial statements, and in this role, explores the information in financial statements and how the three basic accounting statements are linked, and interdependent. The course guides students through the process of analysing financial statements, how to interpret findings and how to understand what the analysis and other contextual data tell them about the business.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2, 2008 6TP4, 2008 6TP5 and 2008 6TP6  Incompatible with: EFN409

GSN405 Strategic Management
Strategy is the process of determining goals and moving towards the achievement of those goals in a business, government, or not-for-profit setting. This unit introduces the concept of strategy and explores the basic tenets of the strategy process, competitive advantage, and strategic management in a changing global environment. It lays in the foundations for students in terms of understanding contemporary thinking in the strategy field. The learning process is enhanced by practical real-time examples of strategy in action utilising the case study method of learning.

Prerequisite(s): GSN401  Corequisite(s): GSN401
Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1, 2008 6TP3 and 2008 6TP5

GSN406 Human Resource Management Issues
This unit examines the challenges faced by managers in achieving effective human resource management in the contemporary business environment. An issues-based approach is adopted to focus attention on the need for the individual managers to complement their technical expertise with knowledge and skills in people management. Specific attention is given to the human resource management implications arising from the global business environment and the changing nature of organisations.

Prerequisite(s): GSN401, GSN409  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 6TP2, 2008 6TP4 and 2008 6TP6  Incompatible with: GSN300

GSN407 Business Communication
Business Communication is an introductory unit that promotes effective written and spoken communication skills in a range of situations encountered by managers. Students will better understand the principles of effective written and spoken communication by exploring communication theory and undertaking several practical exercises and tasks.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2, 2008 6TP4 and 2008 6TP6  Incompatible with: CON404

GSN408 Fundamentals of Marketing Management
This unit provides students with the opportunity to critically examine and evaluate the role of marketing and its contribution to the strategic processes of the modern firm operating in an increasingly competitive national and international environment. Key marketing decision areas are examined, including the marketing concept, the marketing mix, marketing information systems and marketing research, market segmentation, targeting and positioning, and the process of marketing planning, implementation and control. Students have the opportunity to consider the evolution of marketing philosophy, determinants of consumer and organisational behaviour and the influences of environmental forces on marketing decision-making within the firm.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1, 2008 6TP3 and 2008 6TP5  Incompatible with: GSN206

GSN409 Organisational Behaviour 1
Organisational Behaviour 1 is an introductory unit which analyses human behaviour at work with a focus on issues of personality, motivation, group interaction, occupational stress, and health and organisational change. The unit examines issues related to aspects of the working environment and to the relationship between managerial strategies, organisational structures and their effects on performance, health and autonomy.

Corequisite(s): GSN401  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP3, 2008 6TP5 and 2008 5TP8  Incompatible with: MGN412

GSN410 Entrepreneurship
This unit introduces the student to the field of entrepreneurship and the management of innovation. Entrepreneurial behaviour can take place within existing organisations (as intrapreneurship) or by starting a new business venture that is created to exploit a new technology or to introduce a new product, service, or business process. Topics include entrepreneurial attitudes, abilities and behaviours and culture; opportunity recognition and the development of new venture ideas; viability screening for initial and sustainable competitive advantage; risk recognition and mitigation; intellectual property protection; and developing the business model for a new enterprise.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2, 2008 6TP4, 2008 5TP6 and 2008 6TP6  Incompatible with: GSN300
GSN412 Business Law 1
This unit provides managers with an overview of basic legal principles, which form the foundation of the laws of commercial transactions from the perspective, and with particular relevance to, managers. Students will learn key elements of the rules governing business dealings by the interaction of the laws of contract, agency and franchising, property law, securities and bailment, company law and consumer law. The unit also introduces students to the Australian legal and statutory structure and provides an overview of the legal nature of business entities.

**Prerequisite(s):** GSN401  
**Corequisite(s):** GSN401  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP3 and 2008 6TP5  
**Incompatible with:** AYN410; EFN413

GSN413 Financial Management 1
This unit introduces the student to the international financial environment in which business operates. The three major lessons in finance (time value, diversification and arbitrage) are introduced. Topics include time value of money, valuation, sources of funds, behaviour of firms and financial markets, introduction to investment evaluation, diversification, risk and return, and cost of capital.

**Prerequisite(s):** GSN403  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 6TP2, 2008 6TP4 and 2008 6TP6  
**Incompatible with:** EFN406

GSN415 Understanding Leadership
Leadership is the process of persuasion or example by which an individual influences others to pursue identified goals. The skills of leadership can be identified and learned. This unit explores the attributes, roles and tasks of leaders in contemporary business situations and the issues that impact on leadership, such as leader-follower interaction, ethics, leadership characteristics and leadership development. This unit culminates in the development of leadership profiles of contemporary leaders with an exploration of their characteristics and how their leadership roles are exercised.

**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1, 2008 6TP3, 2008 5TP5 and 2008 6TP5

GSN416 Business Plans 1
This unit offers students the opportunity to write a formal business plan for a new business venture or offshoot of an existing venture. As business planning is an intensive viability screening exercise in which the business planners must consider all strategic alternatives, students are required to choose a preferred 'business model' and analyse whether or not the proposed new venture appears to be viable. The business plan is a document that communicates this viability to an investor or other potential stakeholders in the new business and the structure and content of the business plan is crafted according to its intended role in a multi-stage communication process with the target reader.

**Prerequisite(s):** 96cp including GSN404, GSN408, GSN410, GSN413, GSN415  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP2, 2008 6TP4, 2008 SEM-2 and 2008 6TP6

GSN417 Effective Advocacy for Managers
This unit builds on work completed in GSN407. It is designed to enhance students' presentation skills. It covers the practical application of key theories of speech communication to create managers who are effective persuaders, opinion leaders, and facilitators of change in a business environment. The issues covered include: structuring and designing for an audience; developing a persuasive theme; using imagery and language effectively; developing presentations.

**Prerequisite(s):** GSN407  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP3 and 2008 6TP6

GSN418 Marketing Strategy Development
This unit builds upon the foundation provided by GSN408 and examines the managerial process involved in identifying and developing effective marketing strategies. It examines the role of marketing within the strategic processes of the modern firm and considers the process involved in strategic marketing in the global business context. It takes a case based approach to illustrating the effectiveness of key approaches to marketing strategy development and highlights the importance of new and emerging fields of marketing practice.

**Prerequisite(s):** GSN408  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP1 and 2008 6TP5  
**Incompatible with:** GSN206

GSN419 Organisational Behaviour 2
This unit builds upon work completed in Organisational Behaviour 1. It provides an extensive analysis of human behaviour with particular emphasis on behaviour in groups and the larger organisation. Topics include: organisational structure and design; teamwork and group work; organisational culture; power and politics; communication; conflict and negotiation; innovation and organisational development.

**Prerequisite(s):** GSN409  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP4  
**Incompatible with:** GSN412

GSN420 New Venture Strategy
This unit considers the requirements for resource-based sustainable competitive advantage in the context of new business ventures and the need to be strategically competitive. Topics include new venture strategic constraints; entry strategies; opportunity selection, connection between new venture strategy and marketing, disruptive strategy, strategy creation using applied Morphological Box, Value Innovation and TERMS methodologies. Students complete a Strategic Plan for a new venture as part of this unit.

**Prerequisite(s):** GSN405, GSN410  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 6TP4

GSN422 Business Law 2
UNIT SYNOPTES

Business Law 2 provides a continuing overview of key areas of commercial law in the Australian environment. The subject builds on the basic principles of contract, property law, securities and bailment, consumer law agency and franchising, company law principles, covered in Business Law 1. Students focus on the essential elements of legal compliance programs and specific elements of the rules that impact on business operations in the areas of insurance law, law of torts and professional negligence, personal and corporate insolvency, environmental law, employment law, occupational health and safety and privacy law.

Prerequisite(s): GSN412 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP4 Incompatible with: AYN410

GSN423 Financial Management 2
This unit builds on the material covered in GSN413 Financial Management 1. It extends the analysis of firms' decisions in the areas of investment, dividends and financing. Topics include capital budgeting and taxation, dividends and imputation, capital structures, risk management using options and futures, and an introduction to international finance.

Prerequisite(s): GSN413 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP1 and 2008 6TP5 Incompatible with: EFN406

GSN425 Leadership Development
This unit builds upon GSN415 to develop leadership ability, utilising a conceptual framework for self-understanding and the development of the requisite knowledge, skills and attitudes required to lead successfully in contemporary society. It is designed to allow individuals a better understanding of their own capacities as leaders. Individuals will learn the principles of effective leadership and how their own style affects leadership, decision making, vision building, organisational culture and the use of power. The focus is on the development of self-awareness and the improvement of the individual's capacity to understand, communicate with, and influence others.

Prerequisite(s): GSN415 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 6TP4

GSN426 Business Plans 2
This unit is a follow-on from GSN416 and culminates in the writing and presentation of a formal and professional business plan. The business plan is a major component of a multi-part communication strategy between new venture management and the potential investor or other potential stakeholder. Effective presentation and defence of the business plan is also considered in this unit. As part of the assessment, students complete a formal Business Plan for a proposed new venture, and present their plan to the class.

Prerequisite(s): GSN416, GSN420, GSN429 or GSN416, GSN420, GSN427, GSN430 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP1

GSN427 Financial Planning and Control
This unit explores the meaning of financial statements and their application in managerial decision-making. Information from financial statements is used to demonstrate how managers can understand and take control of the internal cost structure of their business. The unit introduces management accounting, basic costing concepts, cost behaviour and the cost-volume-profit model, budgeting and short-term decision-making.

Prerequisite(s): GSN404 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP3 Incompatible with: GSN202

GSN428 International Study Tour
This unit involves a group excursion to one or more international countries for students interested in learning more about doing business with that (those) countries. Students study the business environment and the underlying socio-political, geographical and historical aspects of that (those) countries in considerable detail. The international study tour will normally be scheduled during the semester break period, and involve 10-14 days overseas, accompanied by an Academic Advisor. The group attends organised briefings, meeting, presentations and site visits in the host countries. Assessment includes attendance and participation at all events and submission of a detailed Daily Journal.

Prerequisite(s): 48 credit points or permission of MBA Director Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SUM-2

GSN429 New Venture Marketing
New Venture Marketing is concerned with the special marketing needs of entrepreneurial businesses. In new ventures, market ignorance is often greater than in existing firms. Needs of potential customers must be analysed, product design and prototypes must be developed in line with marketing research results, new marketing channels must be created and access to existing channels must be secured. Potential customers must be identified, informed, and persuaded to try the new product. Pricing is also a problem area.

Prerequisite(s): GSN408, GSN410 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP3

GSN430 New Venture Funding
This unit is concerned with raising funds to establish, launch and grow a new business venture. Sources of funding considered include one's own resources, family and friends, 'social capital' transactions, business angels, venture capitalists, banks, and the public equity market. Methods of 'bootstrapping' and cash conservation, including agreements with suppliers, customers, and employees, are also considered. Pro-forma financial statements for the new venture, the financial valuation of the new venture, and the allocation of equity for intellectual property, seat equity, expenses incurred and funding provided are also examined.

Prerequisite(s): GSN404, GSN410 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP1 and 2008 6TP5

GSN431 New Venture Growth and Transitions
New ventures often start successfully but then flounder as rapid growth leads to problems in production, distribution, product quality, employee morale, cash flow or financing. Management's ability to make the transition from the new, small firm to a rapidly growing company is critical to its success. If the firm is to survive the entrepreneur must navigate the transition from 'hands on' involvement in every aspect of the business to a more detached management role.

Prerequisite(s): GSN405, GSN410  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2 and 2008 6TP6

GSN432 New Venture Leadership and HRM
The entrepreneur's ability to exercise leadership is a critical factor in the success of most new ventures, and thus the main purpose of this unit is to enhance entrepreneurial leadership skills. Human resource management issues, including international human resource and cross-cultural management, are introduced and applied to the new venture situation. The establishment of appropriate and sustainable company culture is an important element of New Venture Leadership and this unit explores how company cultures are formed and developed as well as the day to day managerial practices that support and enhance productivity.

Prerequisite(s): GSN410, GSN415  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP3

GSN434 Venture Capital
This unit considers, in the Australian and global financial market contexts, the operation of the venture capital industry and its rationing of relatively scarce risk capital among relatively abundant demands for new venture funding. Students gain an understanding of how the venture capital industry works and the criteria by which funds are committed to the support of new ventures. Students increase their ability to distinguish the less risky and more profitable investment opportunities from the more risky and less remunerative opportunities that may also be presented to venture capitalists.

Prerequisite(s): GSN404, GSN410, GSN413  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP4

GSN438 Production and Operations Management 1
The pivotal concept of management is that the organisation is a dynamic system affected by both external and internal forces. Operations management narrows the focus of general management philosophies to consider the production/operations sub-systems. These sub-systems physically produce goods and services, which are the value-adds result of the transformation of inputs. Forecasting, process selection and design, layout and capacity planning, location planning and aggregate planning are considered. Issues of quality and efficiency are introduced analytically with respect to strategies and constraints.

Prerequisite(s): GSN401  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP6

GSN440 Risk Management 1
This unit examines the role of risk management in contemporary management theory and practice. Key decision areas of risk (e.g., financial, human resource, physical - asset management etc) are considered in the context of the general management of the organisation.

Prerequisite(s): GSN401  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2

GSN441 Risk Management 2
This unit is an extension of GSN440, and continues the approach of examining the role of risk management in contemporary management theory and practice. Key decision area of risk (e.g., financial, human resource, physical - asset, etc) are considered in the context of the general management of the organisation.

Prerequisite(s): GSN440  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point

GSN442 Project Management 1
Managers are increasingly placed in a position of project manager, to manage projects as diverse as the construction of new facilities, expansion to global markets, implementation of change, information technology systems installation, or planning the major conference. This unit provides the fundamental skills in both the operational and strategic aspects of project management. Academic requirements are met through a minimum of fortnightly contact with the lecturer by each student, through reading of the text and associated publications, and through the preparation and submission of a written project proposal.

Prerequisite(s): GSN401  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP4

GSN443 Project Management 2
Managers are increasingly placed in the position of project manager, to manage projects as diverse as the construction of new facilities, expansion to global markets, implementation of change, information technology systems installation, or planning the major conference. This unit builds on the fundamental skills in both the operational and strategic aspects of project management, which are covered in GSN442. In distance mode, academic requirements are met through fortnightly contact with the lecturer by each student, through reference to the text and associate publications, and through the preparation and presentation of a written project proposal.

Prerequisite(s): GSN442  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1 and 2008 6TP5

GSN444 Special Topic 1
This unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business, but which is offered when specific subject matter is considered especially timely and/or in a semester when a visiting or adjunct professor is available with expertise that is not normally resident in the Faculty of Business.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2 and 2008 6TP6
GSN445 Special Topic 2
This unit is offered to temporarily ‘house’ subject matter that is not routinely offered by the Graduate School of Business, but which is offered when specific subject matter is considered especially timely and/or in a semester when a visiting or adjunct professor is available with expertise that is not normally resident in the Faculty of Business.
Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP3, 2008 6TP6 and 2008 SUMMER

GSN446 Applied Research Project A
The applied research project unit is an opportunity for accomplished students who are far into their studies to further deepen their knowledge in a particular area and apply it to a practical problem. The emphasis is on using academic tools - theories, methods and previous research findings - and linking them to practice. Under the guidance of a staff member who has agreed to supervise the project, and after approval by the Unit Coordinator, the student works in a self-motivated and self-directed manner towards the preparation of a concise but content-rich final report of approximately 3000 words, which forms the basis for assessment.
Prerequisite(s): 48 credit points, Unit Coordinator approval, GPA>5.5 Credit points: 6 Campus: Gardens Point Teaching period: 2008 6TP3, 2008 6TP4, 2008 6TP5 and 2008 6TP6

GSN452 International Human Resource Management
This unit provides students with an understanding of some of the key factors affecting the management of human resources in an international environment. The integrating theme to studying this area of HRM is the management of expatriate managers. The topic is considered from the perspective of the international management generally, through the recruitment and selection of expatriates, their preparation, in-post support and eventual repatriation.
Prerequisite(s): GSN406 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point

GSN455 Special Topic 3
Like GSN444 this unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business. This unit is offered to students who have already taken GSN444 and GSN445 and who wish to take an additional 'Special Topic' unit in the same award program.
Prerequisite(s): See unit outline - dependent on topic Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP6

GSN456 Personal Development and Ethics for Managers
This unit provides students with an opportunity to increase their understanding of themselves and how their interactions with others impact on their effectiveness as managers in a global environment. This unit also provides a framework of basic principles for ethical decision making. The roles of the individual and ethics in business decision making are explored through the use of international case studies. Students get the opportunity to evaluate, critically, the role of individual behaviour and ethical decision making, from not only a personal career perspective but as determinants of management and business effectiveness in an international context.
Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP1 and 2008 6TP5 Incompatible with: GSN208

GSN457 Organisational Communication and Influence
This unit focuses on how people relate with each other in modern organisational settings, from small businesses to multi-national organisations in the public and private sector. Drawing together theories of communication as they apply to workplace settings, the unit provides the opportunity to analyse and reflect on the role of communication in constructing the conditions for achieving effective leadership and participation in organisations.
Prerequisite(s): GSN407 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP4

GSN460 Creative Problem Solving
This unit introduces the student to the field of creative thinking for new business initiatives in the global business environment. The problem solving methods presented also have application for 'intrapreneurs' in established firms. Topics include organisational issues for managing creativity; methods of thinking; formal analysis approaches; individual creative techniques; and group based problem solving. Candidates will apply specific techniques to case studies during the semester. Video records of tutorials will be used to facilitate feedback for improved learning outcomes.
Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP2, 2008 5TP3, 2008 6TP4 and 2008 6TP6

GSN462 Negotiation Strategies
This unit explores the theory and practice of business negotiation strategies. By focusing on distributive and integrative negotiation strategies and exploring business negotiation practices in various contexts, the unit provides students with the opportunity to develop understanding and skills of negotiation in general and business negotiation under selected contexts in particular.
Prerequisite(s): GSN407 Credit points: 6 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 6TP3 and 2008 6TP6 Incompatible with: IBN409

GSN472 Legal Principles of Corporate Governance
Principles of Corporate Governance provides an introduction to the increasingly important area of corporate governance, as practiced by the Boards of Directors of companies. This subject provides an overview of the main concepts and history of corporate governance as a global trend, the core legal principles that underpin corporate governance including: relationships between key stakeholders; corporate governance in different contexts including small proprietary companies and large listed and unlisted entities and current issues; and includes arguments propounded for self regulation versus government intervention.
Prerequisite(s): GSN412 Credit points: 6
GSN473 Corporate Governance and Accountability

Boards of directors and managers of organisations are now legally as well as morally accountable for policies, processes, and outcomes to an increasingly vocal set of stakeholders. Many of these accountabilities are not new, although until recently they may have not been monitored rigorously or at all. Recent high-profile corporate collapses and the widespread impact of the costs of these failures have resulted in greater regulation supplanting the former self-regulation practices. GSN473 examines the roles of the board and management in implementing and monitoring a sound corporate culture, proactively identifying and dealing with risk, and safeguarding the company’s assets and its place in our society and economy.

Prerequisite(s): 96cps including GSN404, GSN405, GSN412
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 6TP2, 2008 6TP4, 2008 SEM-2 and 2008 6TP6

GSN474 Strategy Planning & Development

The understanding of strategic planning, development and implementation and the implications for the modern organisation underpin this unit. Based on the case study method of teaching, the unit discusses the strategy development process in the modern business context, and takes into account the various stakeholders and influences that determine the eventual success or failure of strategy initiatives.

Prerequisite(s): GSN405
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SUM-2, 2008 6TP2 and 2008 6TP6

GSN475 Strategic Analysis

Strategic analysis builds on the core understanding of the principles and foundations of strategic management. The capacity to critically analyse, to formulate options, and to recommend courses of action is an essential everyday tool for the strategist. The ability to analyse and present a point of view is the focus of the unit and incorporates presentation skills with strategic analysis.

Prerequisite(s): GSN405, GSN474
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 6TP3

GSN476 Sales Management

This unit introduces the student to the field of sales management in the business environment whether local, national or international. The unit provides the opportunity for developing an understanding of sales processes and the associated management concepts and processes that support business strategic and operational outcomes, and the people involved in the selling. Students examine various sales models and their applicability to different industries and critique several commission, reward and recognition plans and their effectiveness.

Prerequisite(s): GSN405, GSN406, GSN408
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 6TP3

GSN477 Contract Management

This unit provides managers with an understanding of some of the key factors involved in the management of contracts. Competence in this area is increasingly important as greater attention is paid to the negotiation and implementation of contracts, and as the trend to outsourcing various functions to other organisations continues.

Prerequisite(s): GSN405
Corequisite(s): GSN442
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 6TP3

GSN479 Spreadsheet Modelling for Managers

This unit provides students with the analytical modelling skills to enhance abilities in making business decisions under uncertainty. Students are introduced to a range of techniques that involve structuring, analysing and solving managerial business decisions problems using Excel spreadsheets and add-ins. Topics include optimisation modelling, simulations models, decision analysis and forecasting.

Prerequisite(s): GSN403, GSN413
Credit points: 6
Contact hours: 3 hours per week
Campus: Gardens Point
Teaching period: 2008 6TP2 and 2008 6TP6

GSN480 Business Sustainability and Competitive Advantage

This unit develops the business case for sustainability. Students will develop an understanding of sustainable development and triple bottom line thinking and practice within business strategy. The course explores the processes of sustainable value creation and organisational change for business sustainability. Students will learn how to evaluate critically the likely competitive effects on an organisation of a business model founded on sustainable development and corporate sustainability strategy.

Prerequisite(s): GSN411 or GSN414 or GSN491
Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2 and 2008 6TP6

GSN481 Philanthropic and Nonprofit Frameworks of Governance

The unit explores contemporary understandings of philanthropic and nonprofit governance in the context of social, economic and political systems. It locates these understandings in various theoretical and descriptive frameworks providing students with both the knowledge and analytical skills that are necessary to reflect critically on philanthropy and nonprofit governance systems and their environments.

Credit points: 6
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 6TP2
Incompatible with: GSN472, GSN229

GSN482 Philanthropic and Nonprofit Economics

The unit examines the role that economic theory can play in aiding decision-making in nonprofit organisations. It introduces students to the principles of microeconomics and explores their practical application to a range of decisions that confront nonprofits. Production theory, cost theory, elasticity and market failure are some of the topics explored in the nonprofit context.
service delivery options (offline and online) and integrated marketing communication including database marketing and relationship management.

Prerequisite(s): GSN408  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP5  Incompatible with: AMN482

GSN488 Fundraising Development Principles
This unit considers the broad factors that influence fundraising/development success. It applies theories of marketing, public relations and management to fundraising and development and builds an understanding of the philanthropic environment. It re-examines the principles of fundraising/development, institutional readiness, case statement preparation, leadership, constituencies and research to build understanding of the context in which good development practice occurs.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP5  Incompatible with: GSN232, MIN409, AMN481

GSN489 Fundraising Development Techniques
This unit builds on GSN488 to delve into particular techniques of resource mobilisation in nonprofit organisations. It considers a range of income generation vehicles and techniques including capital and major gifts, special events, bequests, direct mail, telemarketing, e-fundraising, gift clubs and the art of building donor relationships. It also examines professional evaluation of fundraising programs.

Prerequisite(s): GSN488  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP5  Incompatible with: GSN232, MIN409, AMN481

GSN490 Managing Technological Innovation
The role of technological innovation is crucial for the effective performance of modern enterprises. This unit explores the concepts of innovation and provides a managerial understanding of the major types of contemporary information technologies. These are used to explore the way technological innovation integrates and supports a broad range of business functions and processes and can be used strategically to provide advantage to an enterprise.

Prerequisite(s): completion of 48cps including GSN405
Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1, 2008 6TP3 and 2008 6TP5  Incompatible with: GSN402

GSN491 Economics in Business 1
This unit is designed to show how economics provides a framework of analysis, and a powerful set of tools that can be used by managers to understand the market conditions affecting business performance. It examines the forces that influence production and pricing decisions in individual markets and how market forces interact to determine the level of macroeconomic activity. The course provides a self-contained treatment of the major themes in micro and macro economics. It also provides a solid foundation for further study of the subject.

Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP2, 2008 6TP4,
GSN492 Economics in Business 2
This unit builds on the analysis developed in GSN491. It provides a basic understanding of some of the key micro and macroeconomic factors that influence business performance. On the micro side, the unit examines the nature of the firm as an organisation, business objectives and constraints, strategic pricing decisions, the influence of market structure on pricing, and the rationale for government policy intervention in markets. The macro analysis examines the forces that determine output growth and the relationship between growth, inflation and unemployment. It also examines how monetary and fiscal policy influence the business environment and how exchange rates are determined.
Prerequisite(s): GSN491  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1 and 2008 6TP3  Incompatible with: EFN405, GSN411, GSN414

GSN493 Customer Relationship Management
This unit introduces the student to the field of customer relationship management in the business environment whether local, national or international. The unit provides the opportunity for developing an understanding of customer relationship management (CRM) as a core business strategy with the associated technology dependencies and customer marketing concepts. Students will examine various business components of CRM, the CRM value chain technology tools, implementation processes and from case studies understand their applicability to different businesses and industries.
Prerequisite(s): GSN405, GSN408  Corequisite(s): GSN415  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP1 and 2008 6TP4

GSN494 Innovating for Business Competitiveness
Innovation is increasingly being recognised as a key driver of business competitiveness. Fundamentally there are two types of innovation - product or process. Product innovation is concerned with developing new products or services to meet market needs. Process innovation is focussed on developing better or cheaper ways of delivering product and services. This course is concerned with the link between innovation and the achievement of organisational goals. As such, it could alternatively be titled Strategic Management of Innovation. In fact, the unit adopts the familiar analysis, formulation, implementation notions of strategy, but focuses on the strategic role of innovation.
Prerequisite(s): GSN405, GSN410  Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP3

GSN495 Special Topic 4
This unit is offered to temporarily 'house' subject matter that is not routinely offered by the Graduate School of Business. This unit is offered to students who have already taken GSN444; GSN445 or GSN455 and who wish to take an additional 'Special Topic' unit in the same award program.
Prerequisite(s): dependent on topic - see unit outline
Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 6TP6

GSN496 Public Relations and Crisis Management
This unit has been designed to introduce managers to the role of public relations in managing stakeholder relationships and to specifically address this role during times of crisis. Crisis management is growing in importance as organisations face increased scrutiny at a local and global level. The ability to identify issues, negotiate with stakeholders where possible and handle effectively, communication during times of crisis is critical to the ongoing success of organisations. Managers require an understanding of the types of issues and crises that can occur and various action strategies to address the particular needs of their organisation.
Credit points: 6  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 6TP2 and 2008 6TP6

GSN501 The Strategic Management of Complex Projects
Complex projects are usually initiated to implement long range strategies in contexts of high complexity and uncertainty, where client outcomes are often emergent. This unit provides the fundamental skills that enable complex project managers to understand the project’s strategic context and develop project strategies capable of delivering successful client outcomes. Strategic management competencies are developed through the application of strategic and systems concepts and frameworks to real-life case studies of complex projects.
Credit points: 6  Teaching period: 2008 5TP2

GSN502 Systems Thinking
Managers of complex projects deal with complex problems whose resolution requires holistic approaches, sophisticated thinking and pluralist methodologies. This unit provides foundational knowledge related to systems methodologies and their underpinning epistemologies that enable project managers to solve complex project problems in context. Students will acquire systems skills in a reflexive process involving the application of systems methodologies in isolation and in combination.
Credit points: 6  Teaching period: 2008 5TP2

GSN503 Self Realisation and Personal Development
Self awareness provides a foundation for both personal and leadership development. This unit provides an opportunity for students to increase their understanding of themselves and how their interactions with others impact on their effectiveness as managers in a complex project management environment. Personal development is explored in the context of cultural understanding and ethics. This unit contributes to the core competencies of: Change and Journey; Innovation, Creativity and Working Smarter; Leadership; Culture and Being Human; and Probity and Governance; as it deals with the role, behaviour and development of the individual in a complex project management context.
Credit points: 6  Teaching period: 2008 13TP1
GSN504 Creative Problem Solving and Innovation
Organisations employ creativity and innovation to lead change in complex environments. This unit provides opportunities for improving individual and group creative problem solving skills in the context of complex projects under conditions of incomplete information, or where lateral and/or original thinking or reframing an existing paradigm is required. In addition to exploring how to turn creativity into innovation that benefits the customer and the business venture, bringing creativity and innovation into the organisation and building an environment to support these activities, the unit identifies barriers to creativity, approaches to minimise such barriers and methods to generate or recognise possibilities to solve commercial or operational problems.
Credit points: 6  Teaching period: 2008 13TP1

GSN505 Communicating Effectively
Effective communication is a key driver of success, particularly in complex environments. This unit explores the communicative qualities of the individual, including persuasiveness, assertiveness, responsiveness and versatility, and the communicative qualities of the complex organisational environment in which project managers operate, both nationally and internationally. The focus is on the development of participants who are identifiable by the communicative sophistication of their behaviour across all their responsibilities. The unit provides the foundation knowledge that supports each of the other competencies in the program.
Credit points: 6  Teaching period: 2008 5TP3

GSN506 Entrepreneurial Thinking
This unit introduces participants to the field of entrepreneurship and the management of innovation. Entrepreneurship involves the development of opportunities and is concerned with the creation and appropriation of value for the firm. The insights generated in this field will be applied to the complex environments in which project managers operate and the dynamics generated by entrepreneurial thinking. Topics explored include entrepreneurial attitudes, abilities, behaviours and culture; creative thinking, opportunity recognition and the development of new venture ideas; viability screening for initial and sustainable competitive advantage; risk recognition and mitigation; intellectual property protection; and the development of effective business models.
Credit points: 6  Teaching period: 2008 5TP3

GSN507 Building Effective Teams
Successful projects are dependent on people working together, and on the development and operation of high performance teams. This is particularly the case in large complex projects. This unit explores the role of teams and the contribution made by diverse individuals to team performance. It also explores the building of positive team environments, the emergence of virtual teams and the development of team leadership skills. This unit contributes to the core competencies of: Strategy and Project Management, Change and Journey, Organisational Architecture and Leadership; as teams are integral to the way organisations and complex projects operate.
Credit points: 6  Teaching period: 2008 5TP3

GSN508 People in Organisations
This course will develop an understanding of why employees feel and act the way they do in organisations, and provide methods for enhancing and promoting positive employee attitudes and behaviours and for improving organisational effectiveness. Concepts and theories relevant to the behaviour of individuals and groups such as individual differences, perception, motivation, conflict resolution and managing in complex environments will be used to identify, analyse and discuss organisational problems relevant to complex projects and develop behavioural responses to these situations. An additional focus is the broader organisation, its dynamic relationship with its environment and implications for organisational culture, power, change and development.
Credit points: 6  Teaching period: 2008 5TP3

GSN509 Workplace Project 1
As a work-integrated unit, Workplace Project 1 will be conducted using a problem-based learning approach. Each participant will identify a problem resulting from the management of a complex project in their workplace or a nominated other workplace. Working with a workplace mentor, an academic advisor, and a support team of project managers from the program, the participant will conduct research to understand the problem, identify the key dynamics and issues, and develop implementation plans to improve the situation. Participants will apply key learnings from units GSN 5101-508 to develop their plan.
Credit points: 6  Teaching period: 2008 5TP4

GSN510 Complex Projects and the Law
Project managers in managing complexity are often required to manage their projects both within and across a multitude of legal frameworks and systems (national and international). As a result, project managers need the skills and expertise to examine, interpret and where necessary enter contracts on behalf of their organisation with confidence and minimum risk of legal and financial exposure. This course has therefore been designed to examine different legal frameworks associated with complex project management (i.e. governance, contractual & financial management) in the commonwealth public sector and international settings.
Credit points: 6  Teaching period: 2008 5TP5

GSN511 Performance Measurement and Reporting
Project managers in managing complexity are increasingly required to establish appropriate project reporting frameworks and performance management methodologies. Further, such frameworks and methodologies should facilitate reporting of the project outcomes in a relevant and timely manner. As a result, this course focuses on aligning outcomes with project strategy, development of key performance indicators, benchmarking, and a variety of frameworks for reporting performance (e.g., balanced scorecard; dashboard performance monitoring and reporting; and exception reporting methods, and benefits realisation).
Credit points: 6  Teaching period: 2008 5TP5
GSN512 Planning For Risk and Change
Understanding and expertise in the analysis of organizational and systems vulnerability, in addition to continuity and recovery planning and risk management strategies, confer particular advantages to participants working in complex settings. This Unit examines issues relevant to applying risk-based analytical tools to complex organizational activities both nationally and internationally. Unit goals focus on developing conceptual and practical skills in vulnerability and uncertainty analysis as well as targeted mitigation strategies and seek to integrate this knowledge with competencies relevant to working in complex organizational and project settings.
Credit points: 6  Teaching period: 2008 5TP5

GSN513 Managing For Innovation
Managing for Innovation is a strategic process to create new products, processes and services which provide new business value for customers. Continuous innovation with a consistent output requires leadership, an organisational culture that embraces innovation as a core value, innovation processes as a core methodology and people who are focused, enthusiastic and committed to coming up with the best ideas and getting them speedily to market. Case examples of factors that shape and drive disruptive innovation which creates new markets and new business models, open innovation where research and development across the firm’s boundaries, through connect and deliver models, open innovation where research and development across the firm's boundaries, through connect and deliver processes and best practice approaches to the key management challenges of innovation are discussed.
Credit points: 6  Teaching period: 2008 5TP5

GSN514 Strategic Hrm
Organisations do best when they have the right people in the right place, doing the right things. Just as Defence relies on whole-of-life acquisition, operation, maintenance and disposal, so also Strategic Human Resource Management relies on attracting the best people, developing and supporting them, and creating organisations that build on their knowledge. This unit focuses on diagnosing HR strengths and weaknesses in the organisation, aligning HR practices and strategy, and technical processes such as recruitment and selection, change management and HR planning. SHRM gives you reasons to spend organisational resources on developing your people, to increase your organisation’s productivity and to make SHRM your personal area of management competence.
Credit points: 6  Teaching period: 2008 5TP5

GSN515 Business Planning
This unit offers participants the opportunity to write a formal business plan as part of the project management process. As business planning is an intensive viability screening exercise in which strategic alternatives must be considered, participants are required to choose a preferred ‘business model’ and demonstrate the viability of the project. The business plan summarises the proposed strategy and provides details on the operations, financing, marketing and management of the proposed project and is designed to facilitate the implementation of the selected strategy. The business plan communicates the viability of the project to stakeholders in the project and is potentially a powerful and useful tool in the development of bid submissions.
Credit points: 6  Teaching period: 2008 5TP6

GSN516 Negotiation Strategies
This unit builds upon GSN505 and embeds the requisite knowledge, skills and reflective abilities to identify potential sources of conflict, design alternative dispute resolution systems to avoid escalation of conflict, negotiate for results, identify and deal with the impact of power on the dynamics of the negotiation process and effectively implement distributive and integrative strategies in the management of complex project negotiations. Individuals will be encouraged to improve their capacity to negotiate for results in complex settings through role-play exercises and reflection on individual performance and outcomes. These skills will be further built upon in GSN520.
Credit points: 6  Teaching period: 2008 5TP6

GSN517 International Study Tour
Complex international environments are central to the work of complex project managers. This unit provides a structured learning environment in which participants will explore complex project sites by working with industry partners and international defence agencies. Particular focus will be given to managing across borders with multiple stakeholders and to managing knowledge and information systems. Participants will develop and write a bid submission for a complex project identified during the tour, including the development of project delivery implementation plans which respond to the issues of culture, distance, diversity and seamless integration of complex projects.
Credit points: 6  Teaching period: 2008 6TP5

GSN518 Implementation of Complex Projects
The successful implementation of complex projects requires managers to reflexively and discriminately integrate project, systems, strategy and management skills and approaches. As part of the study tour, this unit will provide opportunities to study and learn from the experiences of industry practitioners, and develop understanding and competencies related to the implementation of project plans, the establishment of appropriate project organisational architectures, and the selection of effective operational solutions.
Credit points: 6  Teaching period: 2008 6TP5

GSN519 Leadership For Results
Leadership is the process of persuasion by which an individual influences others to pursue identified goals. The skills of leadership can be identified and learned. This unit explores the various ways of defining and understanding leadership. The unit builds upon early units 503, Self Realisation and Personal Development, 507 Building Effective Teams, and 508 People in Organisations, to develop leadership ability, utilising a conceptual framework for self-understanding and the development of the requisite knowledge, skills and attitudes required to successfully lead complex projects. The focus is on the development of self-awareness and improvement of the individual’s capacity to understand, communicate with and influence others.
Credit points: 6  Teaching period: 2008 5TP6
GSN520 Change and Journey Management
Many traditional organisational structures and processes have proven inadequate for addressing the extraordinary dilemmas in complex project management. This unit explores key issues in change and leadership in diverse environments. As complex projects are dynamic emerging systems, dealing with change necessitates awareness that even small changes have multiple ongoing effects. Managing complex projects for effective outcomes necessitates constant monitoring of the system and adapting on the journey. The double loop learning approach utilised offers participants a process of problem-solving involving frequent stakeholder participation to identify espoused and actual theory-in-use, new sense-making, creating innovative change actions and generalising results.
Credit points: 6  Teaching period: 2008 6TP6

GSN521 Managing Contract Relationships
The business of complex global projects is dominated by concerns of jurisdiction, security, and trust. Within this operating context, the judicious attention to the social as well as technical aspects of project management becomes a core competency. This unit focuses attention of the processes and costs of developing, maintaining, and securing the contractual relationships within and between project partners. It pays particular theoretical and pragmatic attention to identifying and building strategic relationships and embedding trust as a core social relation in contracts. The management and measurement of trust and relationships is a further emphasis of the unit.
Credit points: 6  Teaching period: 2008 6TP6

GSN522 Accountability and Governance
This course focuses on good corporate governance principles and how these principles apply in the workplace. Specifically, candidates will gain an understanding of common principles of good corporate governance within a project management environment. With a backdrop of engaging stakeholders and making accountability real, candidates will gain a deep understanding of how to provide full transparency for critical activities and decisions, promote impartial decision-making and accountability throughout strict conflict of interest policies and measure results relative to overall strategic goals. This also includes defining clear relationships between activities and outcomes and embracing performance measurement and reporting.
Credit points: 6  Teaching period: 2008 6TP6

GSN523 Issues Management
There is increasing recognition internationally of the need for organisations to strategically manage their relationships with various stakeholders. This is particularly true in times of crisis, as organisations face increased scrutiny at a local and global level when such relationships are placed at risk, and the survival and success of the organisation may be in question. This unit provides the fundamental skills to identify potential issues and crisis areas within organisations, establish systems to manage the crisis process from issue identification through to implementing a crisis plan and debriefing, and demonstrate the importance of integrating communication and action plans in issues management and crisis communication.
Credit points: 6  Teaching period: 2008 6TP6

GSN524 Capstone Integrating Workplace Project
As a work-integrated unit, Capstone Integrating Workplace Project will be conducted using a problem-based learning approach. Each participant will identify a complex project opportunity in their workplace or a nominated other workplace. Working with a workplace mentor, an academic advisor, and a support team of project managers from the program, the participant will conduct research to understand the problem, and identify the key dynamics and issues. Participants will develop and write a bid submission for or workplace response to a complex project, including the development of a project delivery implementation plan. This unit draws on each of the competencies as a capstone unit.
Credit points: 6  Teaching period: 2008 6TP6

HBB050 Mandarin For Chinese
In this unit students will receive instructions in listening and speaking Putonghua, reading and writing Pinyin Romanisation and reading and writing simplified characters. They learn differences in structure and nuance between their native dialect and Putonghua.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SUM-1  Incompatible with: HUB450, HBB030

HBB051 Introductory Mandarin 1
This unit introduces students who have little or no prior knowledge of Chinese Mandarin to the four macro skills of listening, speaking, reading and writing through an integrated communicative approach to teaching. Content will include: the Mandarin sound and tonal systems; the Pinyin Romanisation system; introduction to Chinese character writing, greetings and introductions; family, identification of nationalities, places and objects, locations and directions.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUM-1  Incompatible with: HUB453, HBB031

HBB052 Introductory Mandarin 2
This subject continues to develop the four macro skills of listening, speaking, reading and writing through an integrated communicative approach. While there is further consolidation of the knowledge of the Pinyin Romanisation system, greater attention is devoted to the reading and writing of characters. With acquisition of language, students receive further exposure to aspects and characteristics of Chinese culture.
Prerequisite(s): HUB453 or HBB051  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SUM-2 and 2008 SEM-2  Incompatible with: HUB454, HBB032

HBB053 Intermediate Mandarin
This unit provides for in-country studies.
Credit points: 48  Campus: Gardens Point  Teaching period: 2008 SEM-1

HBB054 Advanced Mandarin
This unit provides for in-country studies.
Credit points: 48  Campus: Gardens Point  Teaching period: 2008 SEM-2

HHB068 French 8
This unit allows students to play with verbal and non-verbal aspects of French by studying gestures and idiomatic expressions. A final project allows students to relate the content to their own interests (e.g. translation, advertising, education). Students write and present a short play at the end of the course.

HHB071 Indonesian 1
This entry level unit aims to equip beginning students with elementary communicative competence in a variety of everyday situations. At the end of the year, students will have been exposed to about 2000 words and should be able to use most of the productive sentence patterns of Indonesian in comprehending and expressing information about basic needs in mostly familiar and predictable situations.

UNIT SYNOPTES

HHB073 Indonesian 3
This unit advances learners’ competence to intermediate level, with some analytical focus on sentence construction and word formation (the affix system). Authentic texts, especially reading materials, are increasingly used during this year, and by the end of the second semester, with the use of a dictionary, students can make good sense of straightforward Indonesian reading material from newspapers, books and magazines. An interview assignment each semester provides opportunities for interaction with native speakers.
Prerequisite(s): HHB072 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: HUB652

HHB074 Indonesian 4
This unit advances learners’ competence to intermediate level, with some analytical focus on sentence construction and word formation (the affix system). Authentic texts, especially reading materials, are increasingly used during this year, and by the end of the second semester, with the use of a dictionary, students can make good sense of straightforward Indonesian reading material from newspapers, books and magazines. An interview assignment each semester provides opportunities for interaction with native speakers.
Prerequisite(s): HHB073 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: HUB653

HHB075 Indonesian 5
At this level students view weekly audio-visual (tape-slide and video) programs produced in Indonesia for local consumption. Conversation, reading and writing classes reinforce and extend students' ability to communicate on a range of everyday topics relevant to modern Indonesian society. Students give weekly classroom presentations in the language.
Prerequisite(s): HHB074 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: HUB654

HHB076 Indonesian 6
At this level, students view weekly audio-visual (tape-slide and video) programs produced in Indonesia for local consumption. Conversation, reading and writing classes reinforce and extend students' ability to communicate on a range of everyday topics relevant to modern Indonesian society. Students give weekly classroom presentations in the language.
Prerequisite(s): HUB654, HHB075 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: HUB655

HHB077 Indonesian 7
At this level, students are comfortable in using authentic Indonesian source materials dealing with a range of sophisticated and complex issues. Students have the opportunity to pursue, in some depth, topics of special interest and relevance to their individual vocational, career or research needs.
Prerequisite(s): HUB655, HHB076 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Incompatible with: HUB656

HHB078 Indonesian 8
At this level, students are comfortable in using authentic Indonesian source materials dealing with a range of sophisticated and complex issues. Students have the opportunity to pursue, in some depth, topics of special interest and relevance to their individual vocational, career or research needs.
Prerequisite(s): HUB656, HHB077 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: HUB657

HHB081 Japanese 1
This unit is aimed at students with little or no experience in Japanese. Students learn to conduct conversations in a range of everyday situations using basic grammatical structures and colloquial expressions. The hiragana and katakana scripts are taught from the outset and a total of 74 kanji are introduced. Resources include textbook and workbook, audio CDs and interactive multimedia software. Cultural aspects are integrated into the course.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: HUB660

HHB082 Japanese 2
This unit develops the skills needed to speak, understand, read and write Japanese in a wider range of everyday situations using basic grammatical structures and colloquial expressions. Resources include textbook and workbook, audio CDs and interactive multimedia software. A further 96 kanji are introduced and cultural aspects are integrated into the course.
Prerequisite(s): HUB660, HHB081 or equivalent Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: HUB661

HHB083 Japanese 3
This unit is for students who have successfully completed the introductory units at QUT, Year 12 Japanese or equivalent study elsewhere. Students further develop skills needed to speak, understand, read and write Japanese in a wider range of everyday situations and prepare a group presentation on a given topic. Resources include textbook and workbook, audio CDs and interactive multimedia software. 73 additional kanji are introduced and cultural aspects are integrated into the course.
Prerequisite(s): HUB661, HHB082 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: HUB662

HHB084 Japanese 4
This unit further develops the skills needed to speak, understand, read and write Japanese in a wider range of everyday situations. Students are encouraged to engage in
free discussion on topics included in the course. Resources include textbook and workbook, audio CDs and interactive multimedia software. 116 additional kanji are introduced and cultural aspects are integrated into the course.

**Prerequisite(s):** HUB662, HHB083  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** HUB663

**HHB085 Japanese 5**
This unit is for students who wish to develop their communication skills to an intermediate level. Through Internet research and oral presentations, students will explore socio-cultural issues in Japan as well as other parts of the world. An interactive CD-ROM program provides extension exercises, particularly with new vocabulary and kanji.

**Prerequisite(s):** HUB663 or HHB084  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** HUB664

**HHB086 Japanese 6**
This unit continues the socio-cultural theme of HHB085. Students have the opportunity to further develop their language skills and knowledge of Japanese society through the study of socio-cultural issues related to Japan and the world. An interactive CD-ROM program provides students with extension exercises, particularly with new vocabulary and kanji.

**Prerequisite(s):** HUB664 or HHB085  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** HUB665

**HHB087 Japanese 7**
This unit is for students who wish to develop their communication skills to an advanced level. The focus of the unit is the language used in the Media. Television and radio news and documentary programs of social and cultural interest are made accessible through the use of an interactive CD-ROM. Reading/writing activities focus on newspaper articles. Students are encouraged to make use of the Internet to keep up-to-date with current affairs in Japan.

**Prerequisite(s):** HUB665 or HHB086  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** HUB666

**HHB088 Japanese 8**
The focus of this unit is business Japanese. The entire unit is based on a simulation of a Japanese company based in Australia. Since the operational language of the company is Japanese, students learn how to conduct themselves in formal situations, observing appropriate etiquette. The skills engendered in this unit include speaking formal Japanese, making telephone calls, expressing opinions appropriately, understanding job advertisements, writing a CV, writing formal letters and going for a job interview. These are skills needed by anyone who wants to reach an advanced standard of Japanese - not only business students.

**Prerequisite(s):** HUB666 or HHB087  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** HUB667

**HHB0891 German 1**
This unit assumes no prior knowledge of German. It aims to equip students with the necessary German language and socio-cultural skills to communicate in a variety of specific situations. Students will be able to talk and write simply about a number of topics: self; how to get to know someone; how to interact with other students; how to talk about family, friends, pets, home, the weather, likes/dislikes, and interests and feelings. Students will also become aware of the role and importance of extra-linguistic features in spoken and written communication.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** HUB735

**HHB0982 German 2**
This introductory unit is designed for students who have completed HHB091 (German 1) or have an equivalent language proficiency level. There will be an increased emphasis on reading and writing. Students will learn to talk and write about talents and plans, obligations, and physical and mental states. Learners will be able to discuss purchases, food, school and university, holidays, professions, careers, and how and where they live. Students will also expand their language and socio-cultural skills by extracting information from a variety of simple spoken and written texts and will begin to write short narratives.

**Prerequisite(s):** HUB735, HHB091 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2 and 2008 SUM-1  **Incompatible with:** HUB736

**HHB093 German 3**
German 3 is the entry point for students with year 12 German or equivalent. Its aim is to consolidate knowledge gained from diverse sources and ensure that students are familiar with common structures and confident in their basic abilities. There is continuing emphasis on spoken expression. Students spend much of class time speaking in pairs and small groups, and these interactions are supported by written compositions, grammatical analyses and Web quests. Students use more complex sentences to describe past events and improve their ability to distinguish oral styles from written narratives. Topics covered include holidays and transport, food, cooking, restaurant meals, purchases, food, school and university, holidays, and mental states. Learners will be able to discuss how to interact with other students; how to talk about family, friends, pets, home, the weather, likes/dislikes, and interests and feelings. Students will also become aware of the role and importance of extra-linguistic features in spoken and written communication. Students will also expand their language and socio-cultural skills by extracting information from a variety of simple spoken and written texts and will begin to write short narratives.

**Prerequisite(s):** HUB736 or HHB092  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** HUB737

**HHB094 German 4**
German 4 builds on skills acquired in German 3 to get students to the point where they will manage well in everyday situations in a German-speaking country. Writing exercises and grammatical analyses prepare students for oral performance and, as in German 3, there is a great deal of pairwork and small-group communication. Students study
the forms of polite requests, instructions and directions. Topics include finding one's way around cities, travel, clothing and shopping, accommodation, health and accidents, families and multiculturalism. Students are encouraged to apply to do an exchange to one of the five QUT exchange universities located in Germany and Austria. **Prerequisite(s):** HUB737, HHB093 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** HUB738

**HHB095 German 5**
The units German 5, 6, 7 and 8 form consecutive advanced units that repeat every four semesters. Students in German 5 & German 7 combine in 1st semester and complete the same content but with different assessment items and levels of difficulty. The same then occurs in German 6 & 8 for second semester. The content of these advanced units is designed for students planning to enter international business environments. Topics covered include planning and arranging meetings, establishing customer and client contacts, and composing business letters.  **Prerequisite(s):** HHB094 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**HHB096 German 6**
The units German 5, 6, 7 and 8 form consecutive advanced units that repeat every four semesters. Students in German 5 & German 7 combine in 1st semester and complete the same content but with different assessment items and levels of difficulty. The same then occurs in German 6 & 8 for second semester. The content of these advanced units is designed for students planning to enter international business environments. Topics covered include social and linguistic skills regarding routine business practices, problem solving and forward planning, and employment policies.  **Prerequisite(s):** HHB095 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**HHB097 German 7**
The units German 5, 6, 7 and 8 form consecutive advanced units that repeat every four semesters. Students in German 5 & German 7 combine in 1st semester and complete the same content but with different assessment items and levels of difficulty. The same then occurs in German 6 & 8 for second semester. The content of these advanced units is designed for students planning to enter international business environments. Topics covered include planning and arranging meetings, establishing customer and client contacts, and composing business letters.  **Prerequisite(s):** HHB096 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**HHB098 German 8**
The units German 5, 6, 7 and 8 form consecutive advanced units that repeat every four semesters. Students in German 5 & German 7 combine in 1st semester and complete the same content but with different assessment items and levels of difficulty. The same then occurs in German 6 & 8 for second semester. The content of these advanced units is designed for students planning to enter international business environments. Topics covered include social and linguistic skills regarding routine business practices, problem solving and forward planning, and employment policies.  **Prerequisite(s):** HHB097 or equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**HHB100 Introduction to Human Services and Social Work**
This unit provides an introduction to human services and social work and locates this within the broader context of the welfare state. It examines both the history, and global and national forces, which shape the current direction of welfare policy and the human service industry. The purpose of human service work and the various roles a human service worker may undertake or utilise are explored. The unit challenges students to reflect on their own understandings of human services and human service work, and provides a foundation for detailed study in later years of the course.  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-2  **Incompatible with:** HSB110

**HHB102 The Human Condition**
This unit introduces students to a range of individual, familial and social conditions that impact on the lives and lifestyles of Australians. Attention is directed toward the impact of factors such as age, ability, gender, culture and class, and the identification and exploration of key processes in human growth and development. Students become informed about theories from a range of disciplines and develop a critical and reflective approach to understanding human development. By examining how societies define and respond to human need and adversity students develop a framework for examining the dynamic interaction of individual, interpersonal and social forces.  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-1  **Incompatible with:** HSB121

**HHB103 Contemporary Social And Community Issues**
This unit explores a number of contemporary social issues relating to social marginalisation and human disadvantage. It locates these issues in a theoretical and descriptive framework thus providing students with both knowledge and analytical skills that are necessary for the ongoing exploration of social issues. It explores the connection between forces at a macro level and human disadvantage and examines the value assumptions that sustain structural inequity. It encourages students to reflect on the implications of structural disadvantage for human service practice and the role of the human service worker as a participant in civil society.  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and Carseldine  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** HSB122

**HHB104 Understanding Society: Intro. To Sociology**
This unit introduces students to the way sociology approaches the understanding of the social world in general
and Australian society in particular. The following important issues will be covered throughout the semester. Firstly, students will learn about the role and significance of sociology and sociological knowledge. The development of sociology and sociological knowledge will be outlined and students will learn about the major sociological themes and authors. Secondly, the importance and placement of sociology in the context of social science will be discussed. Thirdly, students will learn how to understand and utilize some of the central sociological concepts such as class/status, sex/gender, and race/ethnicity. It is essential that social science students understand these themes.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** HBB120

### HBB104 Understanding Society: Intro To Sociology

This unit introduces students to the way sociology approaches the understanding of the social world in general and Australian society in particular. The following important issues will be covered throughout the semester. Firstly, students will learn about the role and significance of sociology and sociological knowledge. The development of sociology and sociological knowledge will be outlined and students will learn about the major sociological themes and authors. Secondly, the importance and placement of sociology in the context of social science will be discussed. Thirdly, students will learn how to understand and utilize some of the central sociological concepts such as class/status, sex/gender, and race/ethnicity.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Kelvin Grove, Carseldine and Caboolture  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** HBB120

### HBB105 Exploring Change

As one of the core introductory units for the Society and Change major, Interpreting Change introduces students to ways of understanding the intersection of personal experience with social change. The unit will be organised around exercises that encourage students to place their personal experiences in the context of a bigger picture of societal, interpersonal and environmental change. The unit also introduces the conceptual, analytical, information retrieval, problem-solving and communication skills that form the basis of the Society and Change major. The three themes in the society and change major are Societies in Transition, Environment, Society and Change, and The Individual and Society.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** HUB146

### HBB106 Australian Society And Culture

This unit includes the following: historical, political, economic and cultural information about Australia and Australians; egalitarianism; religion; frontiers and rural Australia; the historical and future role of technology in Australia.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Carseldine and Caboolture  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** HUB600

### HBB107 World Regions

This unit includes an overview of world regional geography. It highlights key themes in both physical and human geography within specific regions such as human-environment interactions, resource management, natural hazards, population and culture, and economic development.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** HUB202

### HBB108 Australian Society And Culture For International Students

This unit provides students from overseas with experiences and knowledge that will enhance their understanding of contemporary Australian society. A number of social, cultural and political ideas, policies, and actions that have shaped the people of Australia will be studied.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### HBB109 Australian Historical Studies

Public access to history is increasing, but what is told about the past in books, plays, films, encyclopaedia, documentaries, museums, galleries and national celebrations is contested, uncertain, and controversial. Who should tell history, what should be told and what should be left out are hotly debated. History is no longer dominated by celebratory, chronological narratives. Multidisciplinary approaches, alternative viewpoints and a wide range of media are now used to project private, family, community and national myths and stories. Current Australian historical studies, research and teaching reflect these uncertainties.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

### HBB110 Introduction To International And Global Studies

This unit introduces students to a range of important perspectives in understanding international and global social change. Students will identify trends in globalisation from historical and theoretical frameworks, analyse regional trends and issues, and investigate the workings of significant international organisations and operations. In this unit students develop research and communication skills in print and electronic media.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:** Gardens Point, Carseldine and Caboolture  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** HUB221

### HBB111 Issues In International And Global Studies

The forces of internationalisation and globalisation represent a significant shift in the way people work, live and relate to each other in societies and cultures. To be 'globally literate' means to engage critically with the concepts and issues of contemporary social change. This unit provides students with opportunities to investigate and analyse these issues, their opportunities and their impacts and to develop skills in analysis, research and reporting, and online discussions.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus:**
Carseldine  Incompatible with: HUB222

**HHB112 Australian Politics**
This unit considers the following: the political life of the Australian citizen; the democratic political traditions and institutional bases of Australian political life; the process by which political decisions are made at all levels of Australian politics.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB694

**HHB113 Interpersonal Communication**
This unit introduces skills and processes of interpersonal communication as modified by culture, gender and power. Microskills are developed including building rapport, reflective listening, questioning to understand, facilitating and advocating for clients of human services. Interviewing skills and skills in group communication are highlighted. Collaborative models are emphasised and special application includes third party involvement in communication.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point and Carseldine  **Teaching period:** 2008 SEM-2 and 2008 SUM-1  Incompatible with: PYB052, HSB052

**HHB114 Introduction To Human Rights And Ethics**
This unit locates human rights in a broad political, legal, social, cultural and economic context. The unit draws on a number of academic disciplines. It consistently connects academic considerations to contemporary international, regional and national human rights events. Thus, students may examine human rights in particular countries, explore topics such as child soldiers and trafficking and investigate thematic issues concerning the human rights of women, children and indigenous peoples. Extensive use is made of the Internet and media. Assessment options allow students to present work in a variety of forms.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point, Carseldine and Caboolture  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  Incompatible with: HSB002

**HHB115 Human Identity And Change**
This unit includes: what it means to be human; ways human identities (for example cultural, sexual, professional) are created and transformed; issues of identity, morality and change confronting human units in their encounters with the demands of contemporary life.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and Carseldine  **Teaching period:** 2008 SEM-1  Incompatible with: HUB601

**HHB116 Applied Skills And Scholarship**
This unit aims to introduce students to key aspects of important generic attributes which QUT graduates are expected to acquire across the period of their studies. The unit covers a range of topics relating to information literacy, academic literacy, and technological literacy. These topics are addressed in a practical way so that students will easily be able to apply the skills learned across other units in their course. Students have the opportunity to develop their skills through a series of activities such as self-paced online exercises and quizzes, and through individual electronic access to a tutor. A variety of assessment items are spread across the semester.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine and Caboolture  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB000

**HHB117 Introduction To Social Research Methods**
Part of human service work involves the capacity to analyse, critique, and understand the logic and relationship to practice of research findings. The emphasis of the unit is on becoming a good consumer of research through the adoption of a critical approach to the reading and utilisation of research. This unit is also designed to develop basic research skills and to prepare students for post-graduate research. Social scientific knowledge, its uses and ethical implications in the human service context, research designs and methodologies, and data collection techniques are discussed.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-1  Incompatible with: HSB222

**HHB120 Ethics, Law And Health Care**
Nursing practice involves making decisions with and for others. This involves making evaluations of what is in the best interest of others, what are nurses' obligations to others and what will best protect or enhance their well-being. Hence, decision-making in nursing practice is bounded by normative considerations and these normative considerations fall into two groups: those constituted by the law and those constituted by ethics. This unit has been designed to provide for nursing students and practitioners an opportunity to develop a reflective understanding of the place of law and ethics in nursing and a professional awareness of current legal statutes and ethical discussions as they apply to nursing practice.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB009

**HHB121 Interpreting The Past**
This unit examines how the history discipline deals with the past, including questions of evidence and interpretation. It investigates, from a critical perspective, the status and value of historical knowledge, its construction, dissemination and meaning.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-1  Incompatible with: HUB649

**HHB122 Colonialism And Independence In Asia Pacific**
This unit is a general introduction to the history and geography of the Asia-Pacific region with a focus on the impacts of western imperialism, nationalism and economic modernisation. The unit also considers issues of population, the environment and urbanisation.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-2  Incompatible with: HUB610
HHB123 Indigenous Australian Culture Studies
This unit encourages an appreciation of the two distinct indigenous cultures of Australia and how external forces to Aboriginal and Torres Strait Islander cultures caused social, economic and political changes. It looks at traditional family life and organisation.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Coursework: HUB700, HHB227**

HHB127 Environment And Society
This unit includes a geographical systems approach to investigations of the natural and social environments, and human-environmental interactions. The emphasis is on explaining spatial patterns and variability in social and natural landscapes through the understanding of physical, social and cultural processes and systems at regional and local spatial scales. Through practical sessions, the acquisition of basic geographical field and mapping skill is fostered.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-1**  
**Incompatible with: HUB201, HHB227**

HHB200 Working In Human Service Organisations
This unit includes the following: service quality and the organisational dimension; industrialisation and development of human service work organisations; power based and empowering organisational paradigms; organisational cultures and gender; personal skills for human service workers including career, time and stress management; interpersonal skills for working collaboratively and resolving disagreement.  
**Prerequisite(s): HSB110, HSB120**  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB211**

HHB203 Aged Services: Introduction
This unit focuses specifically on human service work with older adults. It introduces the developmental, social and cultural environment which impact on ageing, including aspects of intelligence, memory and learning and perspectives of work and retirement. In addition, the home environment and living with change, relations with family members and dealing with loss and grief are discussed.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB213**

HHB204 Child And Family Services: Introduction
This unit is designed to introduce second year students to child and family welfare studies and focuses on approaches to supporting families and promoting change. Initially students will gain an overview of issues facing contemporary Australian families that contribute to family adversity and examine responses to the welfare needs of children and families, including Indigenous families. Students will then critically examine characterisations of successful family relationships and parenting, theories on causes and effects of domestic violence and child maltreatment and the effect of maltreatment on children.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB214**

HHB205 Corrective Services: Introduction
This unit introduces students to the development and function of corrective services within the Australian criminal justice system. Examining the history and changing role and functions of prisons, and the emergence of community corrections, the unit assists students in understanding social and philosophical underpinnings about the purpose and function of prisons and community corrections. The unit also examines theories of deviance, and types of offenders.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB215**

HHB206 Disability Services: Introduction
This unit links social justice, human rights and empowerment philosophies underpinning courses in the School. It examines the implications of these broad principles in the lives of people with disabilities. The unit explores the theoretical, social and political frameworks for analysing and understanding disability, the principles underpinning current service provision and their impact on the lives of people with disabilities using the service. Also explored are the cultural values and assumptions about disability, and the processes by which these values are translated into human service activity. Finally, the unit examines individual program planning and skill development practices.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB216**

HHB207 Services To Young People: Introduction
This unit provides an introduction to human services practice with young people. It gives students an overview from both theoretical and operational perspectives. The various theoretical and popular understandings about 'youth' or 'adolescence' which condition human services provision to young people will be critically explored. Diversity and marginalisation among young people in relation to socio-economic status, gender, race and ethnicity, disability, sexual identity, and geographic location will be examined. The unit briefly overviews contemporary policies, services, and practice frameworks oriented to young people.  
**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Carseldine**  
**Teaching period: 2008 SEM-2**  
**Incompatible with: HSB217**

HHB208 Introduction To Practice
**Credit points: 12**  
**Teaching period: 2008 SEM-1**

HHB209 Developing Professional Frameworks
In this unit students are required to attend a series of seminars/workshops that have been designed to provide them with the opportunity to gain specific knowledge and process skills for development of an initial framework for professional practice.  
**Prerequisite(s): HSB100 Introduction to Human Services and HSB113 Interpersonal Communication**  
**Corequisite(s): HHB278 Practice Theories, HHB279 Intervention Processes and Methods**  
**Credit points: 12**
Teaching period: 2008 SEM-1

HHB210 Indigenous Australia: Country, Kin And Culture
This unit aims to expand understanding of issues of importance to Indigenous people and to relate those issues to the practices in human service agencies. The Oodgeroo staff and leaders from the Indigenous community will work with staff from the School of Human Services in presenting this unit.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: HSB233

HHB211 Casework And Case Management
Casework and case management are the predominant human services practice methods and involve a range of processes and skills to ensure that service outcomes are effective and efficient. This unit compares and contrasts casework and case management strategies and approaches across a variety of practice contexts and scenarios. Students explore and analyse primary skills, tasks and roles including assessment, referral, brokering, review, advocacy, record keeping and workload management. Key learning strategies include problem based learning and the review, design and modification of a case management system for a particular practice context. Assessment is a scenario based exam and project paper.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-2 Incompatible with: HSB230

HHB212 Community Work
Community work as a distinct intervention skill is defined. The unit provides background to community work in Australia. Models of community work are introduced and analysed. Basic skills and techniques are developed: entering a community; building community involvement; developing community action; managing common problems.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-1 Incompatible with: HSB320

HHB213 Social Policy Processes
This unit includes the following: conceptualising economic, structural change in Australia; understanding emergent ideas about state and society; identifying and contrasting alternative social policies and strategies. The major debates in Social Policy are explored. Analyses of Australia's response and the impact on redistribution in the Welfare State. Current analyses of health, housing, income security, immigration and family policies at federal, state and local government level.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-2 Incompatible with: HSB231

HHB214 Team Practice and Group Processes
A significant methodology used in human service work involves facilitating, supporting or consulting with various groups of people. This unit focuses on the development of skills to utilise this type of intervention appropriately. The unit aims to provide a basic understanding of the various uses to which group processes may be applied. Group work is located as an intervention process within the human service arena as distinguished from other processes at individual, community and societal level.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-2 Incompatible with: HSB232

HHB216 The Human Dimensions Of Space
This unit is a component of the Community Studies major and covers the role of space in contemporary societies: key types of spaces and patterns in their usage; spaces as sites for cultural and symbolic expression; understanding the way inequality can and is reproduced through the configuration and management of space; understanding the way particular public spaces are used and experienced by particular sections of the community eg young people; key issues in public space configuration, management and policy eg enhancing social inclusion, safety and security; links between the economic and social, new urbanism; emerging theory and ideas about good practice in the development or reconfiguration of public and community accessed public spaces.
Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-2 Incompatible with: HSB235

HHB217 Conflict Management Skills for Professionals
This unit presents the psychological, relational and social impacts of interpersonal and organisational conflict. It examines relevant theoretical discourses and practice frameworks in order to enhance the student's capacity to manage and resolve conflict. The unit explores the nature and sources of conflict. It also presents a range of conflict management and resolution techniques, including negotiation and mediation approaches. Experiential and action learning exercises are used in order to allow students to trial alternative interventions and practice new skills. The unit is built around an integrated and self-reflective framework.
Credit points: 12 Contact hours: 37.5 Campus: Gardens Point Teaching period: 2008 SUM-2

HHB219 Iranian Society: Culture, Religion and Politics
This unit focuses on questions related to why religion and politics are separated in the western world and yet remain a unifying force in Iran; what are the social change trends in Iran and what influences do the EU, China, Israel, Iraq and the US have in determining Iran's future?
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

HHB223 Islam and Islamic Societies
This unit provides a valuable learning opportunity for students to explore the origin and development of Islam. It will examine the influence of Islam on various areas of life including social, economic, political and human values. This unit employs a wide range of learning tools to construct a comprehensive and critical understanding of Islam.
Credit points: 12 Contact hours: 36 Campus: Carseldine Teaching period: 2008 SUM-2 and 2008 SEM-1
HHB224 Qualitative Research Methods
This unit introduces students to the logic/s, techniques and contributions of qualitative methods. First, it focuses on the processes and logics involved in qualitative research, paying particular attention to theory construction, the inductive method and issues of reliability and validity. The unit looks at these processes with respect to the contribution and logic of the qualitative case study. Students acquire both conceptual and hands on skills in the application of a number of qualitative research techniques. These include ethnography and observational methods, accessing documents through Internet search techniques and the analysis of spoken interaction through conversation analysis.

Prerequisite(s): SSB969 or HUB133  Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HUB140

HHB225 Political Sociology
This unit examines a variety of sociological themes which might broadly be termed political. Central to the unit is an examination of sociological conceptions of power. Typically, sociologists have examined power in connection with the state; power has frequently been regarded as flowing from the state. The unit examines these debates, and considers recent theorisations that have begun to detach power from the state. Case studies to make these distinctions clearer, including the construction of an Australian administrative elite, the notion of police in seventeenth and eighteenth century Europe, and the compulsory education as the sphere of the reproduction of social relationships will be explored.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HUB134

HHB226 Consuming Cultures
Consumption is usually understood in economic terms as the 'flip-side' to production. However, the act of consuming can also be considered as a practice which has particular cultural/social connotations. Additionally, although the social relations of consumption and the way that consuming practices are read culturally are often understood in local or community terms, much contemporary debate centres on the implications of globalisation in the (re)formulation of cultures and cultural values. For example, does globalisation and its associated mass production of goods and services imply increasingly homogenised consumer cultures or are there other processes at work that act to challenge or unsettle such homogenising tendencies?

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine

HHB228 Environmental Hazards
This unit includes the following: the nature of hazard, risk and disaster; origins of hazards; nature of disaster; influences on the perception of risk; disaster prediction, preparation, response and recovery strategies.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HUB207

HHB229 Windows On Japan
The focus of this unit is contemporary Japan and Japanese people. Topics include a geographical overview of Japan, its natural resources and population; contemporary political, social and environmental change; Japan's role in the Asia Pacific region.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-1  Incompatible with: HUB220

HHB230 Political Behaviour
Topics covered include political socialisation and party identification, political culture and ideology, old and new political values, support for minor political parties, political campaigns and political issues, party leaders and local candidates, connections between elite and mass political behaviour and political participation.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine

HHB231 Health, Society And Environment
This unit provides sociological analysis of the health care models and institutions, healing relationships (between patients, nurses and doctors), theories of disease causation, and relationships in illness situations and illness behaviours. It also covers sociology of the body including exploration of the experience of illness and professional practice from the patient's perspectives, the influence of gender, age, ethnicity, social class and disability in their experience and the importance of social and cultural approach to environmental health issues.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine

HHB232 Survey Methods
This unit introduces students to the principles and procedures of survey research using a practical, applied approach that stresses the uses of survey research for investigating a range of different social problems and social science questions. It covers the fundamentals of designing and conducting surveys and then introduces students to the basics of how to analyse survey data once they have been collected. No prior knowledge of or experience with survey research or statistics is assumed.

Prerequisite(s): HUB120, HHB104 or SSB000  Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HUB130

HHB233 Sex, Gender And Society
This unit focuses on the history of feminist thought and contemporary perspectives with reference to issues of sociological inquiry. It examines the significance of perspectives from critical theory, structuralism, post-structuralism and action approaches in the development of feminist theory. The implications of feminist perspectives for research strategies are considered with reference to feminist philosophers of science and metatheorists such as Sandra Harding and Dorothy Smith.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-1
Incompatible with: HUB131

HHB234 Sociological Theory
This unit examines the relationship between sociological theories and sociological analysis. It covers a range of theoretical approaches and looks at their application in specific case studies. Students are encouraged to see the social world as an explorable milieu which can be approached from a variety of research strategies. The range of topics is explored in relation to theories of classical sociological authors such as Karl Marx, Georg Simmel, Max Weber and Emile Durkham, as well as many contemporary authors.
Prerequisite(s): HUB120 or HHB104  
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Incompatible with: HUB133

HHB237 Brisbane in the Twentieth Century
A study of local history often serves to highlight, in a more immediate way, trends which are apparent at the national and international level. This unit focuses on key turning points in the history of Brisbane. It examines sources for and approaches to the study of the history of Brisbane and district and then applies these ideas to selected case studies.
Credit points: 12  
Campus: Carseldine

HHB238 Asian Cultures And Societies
This is an introductory survey of Asian societies and cultures. It presents the diverse array of cultures, languages and peoples that comprise the many identities of the Asia Pacific region. It aims to introduce students to the environment, the cultures, and the societies of the Asia Pacific at the current time. Focus is placed on the nature of economic and political development in the region and the costs and benefits of that experience.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-2  
Incompatible with: HUB331

HHB240 Sociology Of Crime And Deviance
Crime, justice and deviance are central features of our social and political lives. A sociological approach to the study of crime and deviance takes it for granted that social values, processes and institutions shape the form and the content of crime and deviance. Students learn about the causes and forms of crime and deviance, and the unit gives students some of the theoretical and methodological skills necessary to collect, interpret and evaluate information about crime and deviance. While this unit is offered as an elective in the sociology major, it deals with one of the core concerns in sociology.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-2  
Incompatible with: HUB150

HHB242 Pacific Culture Contact
This unit includes key concepts including mobility, religion, morality, leadership, civilisations, society, change and continuity. It develops an appreciation of culture and sensitivity towards cultural heritage and considers case studies and comparative analysis that focus on the people of the Pacific at the time of initial European contact.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1

HHB243 The Pacific Since 1945
This unit examines national identity and nationhood in the context of contemporary events in the Pacific Islands, including indigenous and external attempts to create a regional identity. The major themes are cultural transformation, the invention of tradition, neo-colonialism, sovereignty and independence. Through an overview of the events that are important in the lives of Pacific Island people, the unit presents key concepts including mobility, adaptation, change, tradition, continuity, conflict and independence.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1

HHB244 Southeast Asia In Focus
Australia's interaction with South-East Asia, including our most populous nearest neighbour, Indonesia, has increased dramatically over the last fifty years. This unit examines aspects of South-East Asian geography, environment, society and culture in a contemporary framework.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine

HHB245 Australia And The South Pacific
This unit includes a critical analysis of the history of Australian bilateral and multilateral links with the Pacific islands region, including Pacific frontier theory, sub-imperialism, colonial rule and contemporary dialogue over aid, trade, regionalism, defence, cultural exchange and migration.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Incompatible with: HUB627

HHB246 Modern China
This unit includes a historical survey of China during the nineteenth and twentieth centuries. The primary focus is on the decline of the traditional Chinese state and the impact of foreign imperialism. Stress is placed on the growth of nationalism and the Chinese revolution. The modernisation of Chinese culture, the position of women and the forces which have brought China to resume its place as the major Asian force are studied.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1

HHB248 The USA and The Asia Pacific Region
Despite claims that it was not a colonial/imperial power, the USA had extensive territories - Hawaii, Philippines, Samoa, Micronesia - and historically was active in China, Vietnam, Korea, Taiwan and was the occupation force in post-war Japan. How did the USA acquire this interest in the Asia-Pacific? How was it administered and why did the USA withdraw? How did Asia-Pacific peoples react to USA control? What role did Asia play in the USA's concept of their Manifest Destiny, the Open Door policy, the Nixon Doctrine and the Cold War? How is the USA situated now in Asia-Pacific? This unit addresses these questions from a global, regional and historical perspective.
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1
HHB250 Australian Geographical Studies
The unit systematically describes and explains the geography of Australia by analysing the distinctive spatial patterns and processes that constitute the Australian landscape. Topics include: the state of the environment, land-use patterns, the rural crisis, settlements and cities, population and societal change, and economic/regional development. Emphasis is on contemporary, issue-based themes.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-1  Incompatible with: HUB683

HHB251 Australian Resource Management
Describes the principles of Ecologically Sustainable Development and environmental resource management and outlines their practical applications to environmental planning, development and conservation issues in Australia. Institutional, political, social, economic and technological processes affecting environmental resource management are critically discussed with examples drawn from contemporary Australian experiences.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB685

HHB253 Conspiracy And Dissent In Australian History
Case studies reflect conspiracies as well as protest movements in nineteenth and twentieth century Australia. This unit considers some including the nineteenth century land grab conspiracies, Aboriginal resistance, the Petrov affair, the 1975 Dismissal and the Hilton bombing.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB692

HHB255 Indigenous Politics And Political Culture
This unit examines issues and influences underlying the world of indigenous politics: political representation; land rights; health; education; community development; criminal justice; culture and heritage. This unit has a focus with New Zealand and North American comparisons.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB703

HHB256 Europe Since 1945
This unit uses historical and literary perspectives to highlight major themes in the development of European society and culture since 1945.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB720

HHB259 War And Revolution In Europe 1914-1945
This unit examines political, social, economic and intellectual developments in Europe from 1914-1945.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB723

HHB260 Nations And Nationalism In Modern Europe
This unit selectively examines political, social, economic and intellectual developments in modern Europe from the French Revolution to the era before the Great War of 1914-18.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-1  Incompatible with: HUB743

HHB262 Political Ideologies
This unit considers the political spectrum of the traditional Left-Right-Centre ideologies including Fascism, Conservatism, Liberalism, Socialism, Communism and Anarchism. Cross-spectrum ideologies such as Feminism, Imperialism, Racism and Environmentalism are discussed. The course concludes with reference to post-modernist politics and its implications for the traditional ideological spectrum.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HUB772

HHB263 Politics Of Globalisation
This unit includes: the political economy of production; the form of economic calculation and theories of value, profit and interest; ownership and control of production in market and non-market situations.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB802

HHB264 Public And Professional Ethics
This unit discusses the following: the ethical dimensions of public and professional life; the ethical rights and responsibilities of the individual citizen and the state within a liberal democracy; the ethical responsibilities of institutional and professional agencies and the roles and ethical responsibilities of individual citizens in such agencies.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB751

HHB265 The Just Society
This unit explores how the notions of justice and concepts such as equity in various ethical and political traditions are applied to recent policy debates about affirmative action, the criminal justice system, political practice, health and the environment.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB752

HHB266 Ethical Decision Making
This unit examines the ways in which various decision-making practices can be normally grounded, the practical value of such procedures for human transformation and emancipation, and the ways that decision-making practices either sustain or subvert moral communities.

Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB753

HHB267 Feminism And Ethics
This unit discusses the impact of the feminist movement on ethical and political theory and poses some questions. What does it mean to say the differences between men and women are natural or socially cultivated? What are the normative implications of these differences? What counts as equality between the sexes? Do women think differently about ethical situations from men?

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**HHB268 Vulnerable Identities**
This unit considers vulnerability and the experiences of persons who are vulnerable because of exploitation, abandonment, confusion or suffering and other unethical practices. It looks at ways of relating with the vulnerable and allows students develop a richer appreciation of others as well as themselves.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**Incompatible with:** HUB754

**HHB269 Ethics, Technology And The Environment**
This unit examines how decisions about new technologies and the environment are based not solely on factual evidence but also on ethical judgements. It considers the ethical aspects of various issues: genetic engineering; free-riding problems with ‘caring for’ the environment; human obligations toward non-human animals; whether wilderness areas have value independent of their value to humans; and whether a proper concern for the environment requires a new ‘environment or ecological ethic’.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**Incompatible with:** HUB755

**HHB270 Gene Technology And Ethics**
Gene technology is poised to revolutionise science, technology, the practice of medicine, and the global economy. Social and public policies must keep up with the science and with public sentiments. Ethical inquiry must identify acceptable rules of public conduct. Processes are called for to balance the vastly divergent perspectives and interests. The introductory unit mirrors the interdisciplinary nature of gene technology and is open to students from all faculties. The unit discusses the nature of ethics and gene technology. It presents select topics of relevance to medical genetics, the environment and the biotechnology industry. Finally, it discusses Federal and State Government policy and strategy.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**Incompatible with:** HUB831

**HHB271 Ethical Theory**
In this unit, students are exposed to some of the most common approaches to ethical theorising, including deontology, utilitarianism, egoism and virtue theory. These theories are introduced via both historical and contemporary proponents. Students are made aware of how these broad categories relate to a range of standard theories about political theorising, such as contractarian liberalism or the utilitarianism implicit in much welfare state theorising or economic theorising about justice. Furthermore, students are familiarised with some of the standard positions regarding the question of objectivity in ethics, versus moral or cultural relativism about ethical questions.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**HHB273 Reshaping Life And Death**
The unit covers the following areas: new technologies of birthing including the medicalisation of birth, pre-natal screening, and artificial reproductive technologies; the human genome project, emerging possibilities, health and social implications; the technologies of life support, the definition of death, issues of organ cultivation; cultural and ideological features of the new ‘life’ technologies.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**HHB274 Human Rights: International And Regional Activism**
This unit encourages students to consider the transformative nature of human rights activism at the international and regional level. It examines the international human rights system giving particular attention to the social, political, gender and cultural dimensions of the development of international and regional human rights norms. It critically reviews the effectiveness of the international and regional human rights system in the protection, promotion and realisation of civil, political, economic, social, cultural and development rights. Academic deliberations are located in a number of concrete human rights issues and situations.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**Incompatible with:** HSB003

**HHB275 Human Rights: Australian Activism**
This unit encourages students to consider the transformative nature of human rights activism within the Australian domestic context. It examines the relationship between the international human rights system and the domestic human rights regime. The unit gives particular attention to the social construction of rights and examines Australian human rights from political economy, gender, power, cultural and indigenous perspectives. It critically reviews the effectiveness of the domestic human rights system in the protection, promotion and realization of civil, political, economic, social, cultural and development rights.

**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**Incompatible with:** HSB005

**HHB276 Indigenous Knowledge: Research Ethics and Protocols**
This unit provides students with a critical examination of the major ethical and moral issues arising from the designing and conducting of research ‘on/in’ Australian Indigenous people/communities or issues. The unit examines the calls by Indigenous researchers for the decolonising of research methods - a process which critically examines the historical and philosophical bases of Western research and the frustrations of Indigenous researchers with various Western paradigms, academic traditions and methodologies.

**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2
HBB277 Ethical and Legal Dimensions of Human Services and Social Work
This unit aims to produce graduate who have a comprehensive knowledge of the ethical and legal dimensions of human service practice and an understanding of the relevance of such dimensions for professional practice and the empowerment of the disadvantaged.
Credit points: 12  Teaching period: 2008 SEM-2
Incompatible with: HBB222

HBB278 Practice Theories
This unit is intended to enable you to develop an understanding of the major theoretical approaches (practice perspectives, practice theories and practice models) underpinning human service practice and critically examine the way theoretical concepts and disciplinary knowledge inform intervention process.
Credit points: 12  Teaching period: 2008 SEM-1
Incompatible with: HBB220

HBB279 Social Work Processes and Methods
This unit is intended to enable students to develop knowledge and application skills in core human service practice processes and methods. It aims to orient students to core human service and social work practice processes and methods and enable them to appropriately use these.
Credit points: 12  Teaching period: 2008 SEM-1
Incompatible with: HBB221

HBB282 Advanced Communication For Human Services and Social Work
This unit aims to facilitate and enhance students' understanding of the nature of interpersonal and group interactive processes; b) ability to explore and reflect on their own strengths and limitations for dealing with a variety of situations which can be stressful and highly conflictual; c) initial development of their own practice framework, including assessment and intervention skills and processes and conflict resolution practices; and d) critical evaluation of the applicability and suitability of different interventions for a variety of practice contexts including cross-cultural situations and other differences. This unit is a designated unit for HH05 students.
Prerequisite(s): HBB113, PYB052 or PYB007  Credit points: 12  Teaching period: 2008 SEM-1
Incompatible with: HBB215

HBB283 People, Society and Social Work
This unit provides an orientation for social work students to the relevance of sociological and psychological understandings of people and society to social work practice. A range of key themes in the experience of those who use, or are the target of, social work intervention are used as vehicles to consider psychological and sociological foundations to practice. These themes include poverty, exclusion, isolation, motivation, spirituality, conflict, grief and loss, sexuality, addiction, hope, resilience and well-being. The unit concludes with a consideration of the role of social work in various social and cultural contexts.
Credit points: 12  Teaching period: 2008 SEM-1

HBB300 Current Developments In Human Services
This unit identifies major forces influencing the direction and nature of the welfare state. It explores the impact of change in welfare state for the contemporary human service industry. The unit identifies emerging trends in human service organisation and delivery, and examines the implications for human service practitioners, service providers, and consumers.
Credit points: 12  Contact hours: 2 week block
Campus: Carseldine  Teaching period: 2008 SEM-2
Incompatible with: HSB300

HBB301 Advanced Professional Practice
Only enrolled Bachelor of Social Science (Human Services) students can undertake this unit. Students prepare for employment by developing and refining their assessment and intervention skills while undertaking a 400 hour vocationally based practice experience supervised by an experienced practitioner. Demonstrated sound and ethical practice abilities are expected of students during an intensive exposure to a range of practice methods, issues and dilemmas. Students and their agency supervisor devise a learning plan, which assesses work performance in six core competencies and a flexible assessment item. Students attend university workshops and complete university requirements including a job application and reflective assignment.
Prerequisite(s): HSB201, HSB218, HSB228, HSB211, HSB229  Credit points: 36  Campus: Carseldine  Teaching period: 2008 SEM-2
Incompatible with: HSB301

HBB302 Complexity in Human Services and Social Work Practice
This unit aims to orient students to various sources of complexity in contemporary human services practice and equip students with a range of strategies for dealing with this complexity. It aims to enable students to critically evaluate the role of culture in developing responses to complex and high needs and to explore the implications of complexity in their own developing frameworks for practice.
Credit points: 12  Teaching period: 2008 SEM-1

HBB303 Aged Services: Advanced
This unit builds on the knowledge, skills and abilities developed in Aged Services: Introduction. Issues around the health and wellness status of older people are explored and there is an emphasis on investigation and addressing the needs of this group as they grow older in the Australian environment. Specific issues to be discussed include the following: health behaviours; physical changes associated with ageing; nutrition; physical exercise; sexuality; substance abuse; dementia; care-giving and advocacy.
Prerequisite(s): HSB213  Credit points: 12  Contact hours: 3 per week
Campus: Carseldine  Incompatible with: HSB323

HBB304 Child And Family Services: Advanced
The unit includes the following: work with disadvantaged parents, foster carers and adoptive parents; human services responses by women; parents and women's participation in services; service characteristics consistent with user rights,
and on theories of the breakdown of modernity and the birth
Derrida, Foucault), on German critical theory (Habermas),
poststructuralism and postmodernism (Lyotard, Baudrillard,
or so. The unit concentrates on the so-called 'post-Marxist'
an increasing impact on sociological work in the last decade
This unit examines a range of social theory which has had
HHB310 Globalisation And Social Theory
This unit examines a range of social theory which has had
introduced with an emphasis on its practical uses for the
Prerequisite(s): HUB133 or HHB234 Credit points: 12
HHB305 Corrective Services: Advanced
this unit is designed to enhance students' knowledge and
understanding of contemporary issues currently facing
corrective services based on analysing the students' field
education experiences. From this understanding students
are assisted in developing their critical thinking and problem
solving skills, and undertake strategies to prepare for
employment opportunities in corrective services.
Prerequisite(s): HSB214 Credit points: 12 Contact
hours: 3 per week Campus: Carseldine Teaching
period: 2008 SEM-1 Incompatible with: HSB324
HHB306 Disability Services: Advanced
This unit builds on concepts and issues introduced in the
Disability Services: Introduction unit and is designed to
promote understanding of the knowledge required to
undertake policy and service development activities within
the disability sector. It explores the range of service models
relevant to people with a disability across their lifespan.
Additionally, it examines the quasi-legal and policy aspects
of working in disability service organisations, along with
some of the ethical dilemmas inherent in human service
provision with particular relevance to people with a
disability.
Prerequisite(s): HSB215 Credit points: 12 Contact
hours: 3 per week Campus: Carseldine Teaching
period: 2008 SEM-1 Incompatible with: HSB325
HHB307 Services To Young People: Advanced
Many of the positions available in the human services
industry and oriented to young people require specific
knowledge, skills and understandings. This unit involves an
in-depth exploration of contemporary and emerging areas of
direct and indirect practice with young people. Included are
eyear early intervention and prevention, youth policy analysis and
development, juvenile justice practice, youth and family
work, youth health practice, public space practice,
accommodation and housing practice, and the interface
between human services practice and schools. The unit
also examines the legal and ethical dimensions of direct
practice as an integral part of the unit.
Prerequisite(s): HSB227, HSB310 Credit points: 12
Contact hours: 3 per week Campus: Carseldine Teaching
period: 2008 SEM-1 Incompatible with: HSB327
HHB312 Geographical Research Design
The unit develops skills in geographical field techniques and
data analysis, and provides a foundation in advanced
research design for geographical studies. Information
capture and analysis focuses on local-region investigations,
and the use of geographical software and databases
including resources from the Australian Bureau of Statistics,
Bureau of Meteorology and local government
Credit points: 12 Contact hours: 3 per week Campus:
Carseldine Incompatible with: HUB688
HHB315 Sex And Drugs In South-East Asia
This unit focuses on the social, cultural, economic and
political impacts of the drug trade and the sex trade in
South-East Asia including both the historical dimensions of
these phenomena as well as their contemporary aspects.
The unit examines the progress of the trades, the nature of
the traders and the political and economic dimensions of
these activities, both legal and illegal.
Credit points: 12 Contact hours: 3 per week Campus:
Carseldine Teaching period: 2008 SEM-2
Incompatible with: HUB633
HHB316 Social Science Project
Credit points: 24 Campus: Carseldine Teaching
period: 2008 SEM-2
HHB319 Child Protection Intervention Skills
This unit will focus on the development of skills for
assessment and intervention to safeguard the welfare and
rights of children and young people in families where
personal and environmental challenges compromise the
child or young person's safety. Particular attention will be
paid to skills and processes necessary for maintaining a
child-focused approach when working with families who
have multiple and complex needs.
Credit points: 12 Contact hours: 3 per week Campus:
Carseldine Teaching period: 2008 SEM-1
HHB320 Independent Project 1
This unit is designed to develop research and writing skills,
and is available within the BA degree, enabling students to
engage in a small-scale research project.
Credit points: 12 Campus: Carseldine Teaching
period: 2008 SEM-1 and 2008 SEM-2 Incompatible
with: HUB954
HHB321 Independent Project 2
This unit is designed to develop research and writing skills,
and is available within the BA degree, enabling students to
engage in a small-scale research project.
Credit points: 12 Campus: Carseldine Teaching
period: 2008 SEM-1 and 2008 SEM-2 Incompatible
with: HUB955
HHB323 Fieldwork Studies
This unit is generic for students undertaking 12 cp of study in overseas, supervised fieldwork mode. This unit provides a general framework for fieldwork study that can be adapted to a variety of contexts, particularly for fieldwork studies in Asia and Pacific regions.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SUM-1

HHB324 Regional Field Studies (Geography)
This unit is for students undertaking 12 cp of study in fieldwork in the geography program. This unit provides both a general framework for fieldwork in geography and a specific fieldwork experience. The unit work will provide opportunities for students to put into practice fieldwork skills introduced in first and second year units in the Geography program.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine

HHB328 Researching Applied Ethics
This unit examines the different methods that characterise contemporary research in Applied Ethics. The historical emergence of Applied Ethics, the key assumptions that underpin the various methodologies, and the current critical debates on method are key topics considered in this unit.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HUB758

HHB330 Internship Program
This unit provides an opportunity for students to be placed in an appropriate off-campus situation in work related to their studies.
Credit points: 24  Teaching period: 2008 SEM-1  Incompatible with: HUB952

HHB335 Bodies, Cyborgs and Cyberspace
This unit critically examines modern and postmodern concepts of the body, with a particular focus on the contemporary understanding of the body as 'cyborg', and the bodily-based transformative effects of technoscience. To achieve this, the unit takes a trans-disciplinary approach, mixing sociology with cultural studies, philosophy, science, medicine, information technology, and the performing/visual arts.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HHB235

HHB335 Bodies, Cyborgs and Cyberspace
This unit critically examines modern and postmodern concepts of the body with a particular focus on the contemporary understanding of the body as 'cyborg', and the bodily-based transformative effects of technoscience. To achieve this the unit takes a trans-disciplinary approach, mixing sociology with cultural studies, philosophy, science, medicine, information technology and the performing visual arts.
Credit points: 12

HHB338 Social Work Practice and Fieldwork 1
Designated unit. This unit is a vital part of the social work course and a time for students to begin linking the theoretical component of the course thus far to the human services agency context. The practice unit will provide students with the opportunity to reflect upon their learning goals, and choose appropriate placements where they will develop their role as a professional social work practitioner by undertaking 490 hours of practical work experience. The time in the field will be complemented by university workshops, liaison visits from University staff and peer group experience. The outcome of this placement will provide students with a sound platform from which to make the important decision about whether to undertake their second professional practice placement, thus leading them into the workforce.
Prerequisite(s): HHB100, HHB282, HHB279, HHB283, HHB202, HHB200, HHB277  Credit points: 36  Teaching period: 2008 SEM-1 and 2008 SUMMER

HHB339 Linking Social Work Theory, Ethics and Practice 1
Students attend a series of lectures and tutorials designed to gain specific knowledge and process skills for the development of an initial framework for professional practice. Students reflect and build on this framework throughout the students' life as a human service practitioner. This unit provides skills for this to occur. The framework in this unit relates to six core competencies of Social Work practice. Social work professionals are required to demonstrate competency in a number of core areas for Human Services practice. (6) including, 'Social Work in Context', 'Self Reflection and Interpersonal Relationship Skills', 'Service Care Requirements, Assessment and Intervention', 'Values and Ethics', 'Organisational Processes, Practices and Skills' and 'Professional Development and Critical Evaluation'. Successful practitioners possess a range of competencies in these specific areas and have experience in each, as well as knowledge relevant to the agency and client context.
Credit points: 12  Teaching period: 2008 SEM-1 and 2008 SUMMER

HHB340 Mental Health and Social Work
Appreciation of the mental health dimensions of people's lives is essential for social work practice. This unit develops an appreciation of the social construction of mental health issues together with a basic knowledge of the bio-psychosocial aspects of various mental health conditions. These provide a foundation for a critical consideration of the nature of social work practice around mental health considerations and of the interface between social work and other practice roles and disciples.
Prerequisite(s): HHB278  Credit points: 12  Teaching period: 2008 SEM-2

HHB341 International Social Work
This unit examines the application of social work to various international, national and regional contexts outside Australia. It critically explores a range of approaches that are utilised in international development, aid and human rights practice and how social work values, knowledge and skills apply to these. This unit forms part of the International Practice Pathway within the Bachelor of Social Work.
Credit points: 12  Teaching period: 2008 SEM-1
HBB401 Research Methods For Professional Practice
This unit focuses on research methods for enhancing professional practice and the design and development of social service interventions. Contextually relevant practice and service development requires a critical and reflective approach to inquiry. It also requires the development of clear and coherent models of service. A range of particular methods for developing, evaluating and improving models of social service and social care delivery will be examined including reflective practice, participatory action research, service evaluation and quality assurance processes, and the use of empirical research to inform practice.

Credit points: 12

HBB403 Literature Review
This is part of a supervised program in the Honours student's chosen area of specialisation. An assessed critical paper on literature relevant to the Honours dissertation topic is prepared.

Prerequisite(s): HU20, HU22, SS60, SS07 or equivalent

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB901

HBB404 Honours Thesis 1
This unit includes the supervised design and initial development of an Honours dissertation leading to completion of a thesis outline, including synopses and projected chapters, and a statement of objectives, methods and sources.

Prerequisite(s): HH01, HU20, HU22, SS60, SS13 or equivalent

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB901

HBB405 Honours Thesis 2
This unit includes supervised research and writing of the Honours dissertation, normally between 12,000 and 15,000 words.

Prerequisite(s): HH01, HU20, HU22, SS60, SS07 or equivalent, HUB901, HUB902

Credit points: 24  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: HUB903

HBB406 Honours Thesis 3

Credit points: 12  Teaching period: 2008 SEM-2

HBB407 Honours Seminar

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-2

HBB408 Social Work Practice and Fieldwork 2
Designated unit. The Practice and Fieldwork 2 unit is a vital part of the Social Work course and a time for students to cement their framework for professional practice firmly in the reality of social care contexts. This practice unit will provide students with the opportunity to reflect upon their learning goals, re-evaluate the outcomes of their earlier practice experience and choose a final placement where they will further develop their role as a professional social work practitioner by undertaking 490 hours of practical work experience. The time in the field will be complimented by university workshops, liaison visits from University staff and peer group experiences. The outcome of this placement will provide students with a sound platform from which to move from the university setting to the professional practice arena.

Prerequisite(s): HBB338, HBB213, HBB340, HBB302, HBB278, HBB401

Credit points: 36  Teaching period: 2008 SEM-2

HBB409 Linking Social Work Theory, Ethics and Practice 2
Students attend a series of lectures and tutorials designed to gain specific knowledge and process skills for the development of an initial framework for professional practice. Students reflect and build on this framework throughout the students' life as a human service practitioner. This unit provides skills for this to occur. The framework in this unit relates to six core competencies of Social Work practice. Social work professionals are required to demonstrate competency in a number of core areas for Human Services practice. (6) including, 'Social Work in Context', 'Self Reflection and Interpersonal Relationship Skills', 'Service Care Requirements, Assessment and Intervention', 'Values and Ethics', 'Organisational Processes, Practices and Skills' and 'Professional Development and Critical Evaluation'. Successful practitioners possess a range of competencies in these specific areas and have experience in each, as well as knowledge relevant to the agency and client context.

Credit points: 12  Teaching period: 2008 SEM-2

HBB411 Advanced Project
This unit is part of the research pathway for the Bachelor of Social Work. Students will enrol in this unit after completing a review of the literature related to their topic area. This unit shifts focus to specifics regarding the design and conduct of a small research project. Students will work with their supervisor as they conduct their study and prepare a project report of between 7000 and 8000 words that integrates work undertaken in this unit and in HBB403 Literature Review.

Credit points: 12  Teaching period: 2008 SEM-1

HHN001-1 Research Project

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-2 Research Project

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-3 Research Project

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-4 Research Project

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-5 Research Project

Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2
HHN001-6 Research Project
Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-7 Research Project
Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN001-8 Research Project
Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHN410 Logic of Social Inquiry
This unit assists students to address crucial questions of research design and methodology in the formulation and conduct of both qualitative and quantitative research projects.
Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHP006 Disability Services - Graduate Studies
This unit offers the opportunity to extensively analyse, evaluate and respond to developments in the disability area. An ability to reflect on and make considered responses to current Australian developments is enhanced as students engage in in-depth analysis and collaborative critique of national and international provisions made to address issues concerning people with disabilities. Exploring areas of interests will promote skills of critical analysis and the ability to apply current research and debate within the disability arena.
Credit points: 12  Contact hours: 3 per week  Teaching period: 2008 SEM-2  Incompatible with: PYB454

HHP011 Critical Issues In The Human Services
This unit identifies critical contemporary issues impacting upon the human services industry in particular. The contemporary environment in which human services exist is creating sets of tensions which have the potential to both seriously challenge and radically reorder and reconstruct service delivery and professional practice. The unit is designed to explore and develop comprehension of the issues, and their implications for the specific domains of service delivery of the proposed research projects and/or areas of interest of participants.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-1  Incompatible with: HSP411

HHP012 Leadership In The Human Services
This unit explores conceptions of and skills in leadership to enable participants to provide effective leadership in human service contexts. It reflects an increasing awareness that leadership is of central importance in the development and management of governments and community organisations, and in energising and enabling community groups to identify and meet their needs. Underlying this unit is the notion that leadership, as currently conceptualised, is not simply the task of those in positions of responsibility but all involved in the development and delivery of services.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Incompatible with: HSP412

HHP013 Managing Human Service Organisations
This unit creates an awareness of the issues and challenges faced by the human service manager and improve knowledge of the functions and techniques of management. As well as developing an understanding of the application of these management techniques to human services, the unit recognises the influence between the quality of management and the quality of service provided to service users. It builds competency in becoming effective human service managers.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2  Incompatible with: HSP421

HHP015 Contracting and Policy in the Human Services
Service delivery systems in the community services industry are in the process of being restructured. The primary dynamic carrying the process is the imperative of understanding performance and accountability between purchasers (governments) and providers (non-state agencies). Contracts are an important part of these changes. To date, there is little experience in the industry of the management of a contract regime or its implications for service delivery outcomes. This unit is designed to convey key skills in managing contracts from both the purchaser and provider side of the equation.
Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2

HHP020-1 Human Services Practice Related Research
Students explore an issue from their practice or the field using research and scholarship.
Credit points: 24  Campus: Carseldine  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HHP020-2 Human Services Practice Related Research
Students explore an issue from their practice or the field using research and scholarship.
Credit points: 24  Campus: Carseldine  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HHR501 Social Science Methods for the Knowledge Society
This unit provides an in-depth treatment of a number of key methodologies in the social sciences, humanities and human services. The unit builds on core methodological knowledge and aims to supply the student with the tools to embark on professional practice projects. The unit builds on material presented in HHN410 The Logic of Social Inquiry, enabling students to explore chosen methodologies in greater detail.
Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR510 Conference Presentation 1: Networking and Presentation
This unit develops students' skills in summarising, reporting and communicating doctoral-level research. The unit
accompanies the development and completion of the first professional practice project, and is designed in order that students can learn how to disseminate the results of that project. The unit also focuses on a variety of other issues in the communication and dissemination of professional practice, including mentoring and networking, and leadership roles in the professions.

Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR520 Conference Presentation 2: Professional Networks
This unit develops the skills learned in HHR510; however, while that unit focussed on academic forums for the presentation of research and the development of research networks, this unit concentrates on the translation of doctoral-level research for work-based settings. This unit develops students' skills in summarising, reporting and communicating doctoral level research.

Prerequisite(s): HHR510  
Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR530 Conference Presentation 3: Academic Networks
This unit focuses on the presentation of high level, complex work, to an expert audience. The unit develops the emphases in HHR510 and HHR520 on networking and on the translation of findings to professional colleagues; however, in this, the emphasis is on the translation of research findings to an academic audience.

Prerequisite(s): HHR520  
Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR551-1 Professional Practice Project 1 1/4
The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR551-2 Professional Practice Project 1 2/4
The professional practice project allows students to work with supervisors on the second professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR551-3 Professional Practice Project 1 3/4
The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR551-4 Professional Practice Project 1 4/4
The professional practice project allows students to work with supervisors on the first professional project for the Doctor of Social Science. The professional project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR561-1 Professional Practice Project 2 1/4
The professional practice project 2 provides for students to work with supervisors on the second professional project for the Doctor of Social Science. The project deals with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Prerequisite(s): Part 1 of Course (HHR501, HHR510, HHR551, 3 electives)  
Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR561-2 Professional Practice Project 2 2/4
The professional practice project 2 provides for students to work with supervisors on the second professional project for the Doctor of Social Science. The project deals with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Prerequisite(s): Part 1 of Course (HHR501, HHR510, HHR551, 3 electives)  
Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR561-3 Professional Practice Project 2 3/4
The professional practice project 2 provides for students to work with supervisors on the second professional project for the Doctor of Social Science. The project deals with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Prerequisite(s): Part 1 of Course (HHR501, HHR510, HHR551, 3 electives)  
Credit points: 12  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR561-4 Professional Practice Project 2 4/4
The professional practice project 2 provides for students to work with supervisors on the second professional project for the Doctor of Social Science. The project deals with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 48 credit points.

Prerequisite(s): Part 1 of Course (HHR501, HHR510, HHR551, electives)  
Credit points: 12  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

HHR571-1 Professional Practice Project 3 1/8
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project
implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)

**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-2 Professional Practice Project 3 2/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-3 Professional Practice Project 3 3/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-4 Professional Practice Project 3 4/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-5 Professional Practice Project 3 5/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-6 Professional Practice Project 3 6/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-7 Professional Practice Project 3 7/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HHR571-8 Professional Practice Project 3 8/8**  
This project provides for students to work with supervisors on the third professional project for the Doctor of Social Science. The project will deal with project planning, project implementation and project evaluation. The project will be designed to fit the scale, scope and focus of 96 credit points.

**Prerequisite(s):** Part 2 of course (HHR561-4, HHR520)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HLN405 Qualitative Research**  
This unit addresses a range of qualitative methodologies and methods which represent alternative approaches to the application of the quantitative paradigm in health science research. The predominance of the natural sciences in nursing/health research has come into question in recent times and thus the unit introduces students to the origins of such challenges, to the knowledge bases of the alternative approaches to investigating the microsocial world of health/illness and to the relevant research methods. The unit comprises a series of lectures, seminar presentations and relevant readings.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HLN700 Thesis**  
The thesis provides an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the program. Coursework conducted in the area of specialisation may be applied in a practical manner reflecting a student's specific interest in health science. The work represents an independent and original piece of research completed under the guidance of a supervisor. The thesis may be a report on research that makes a contribution to knowledge, or a study in which students critically analyse and appraise existing knowledge and produce observations and conclusions of value to the field concerned.

**Prerequisite(s):** Completion of coursework  
**Credit points:** 48  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN701 Independent Study**  
Independent Study allows students to study a topic which is not otherwise available as a formal unit. Students have the opportunity to pursue their studies relatively independently and to develop and practice skills in problem identification, evaluation and/or critical thinking. The study may be for example a critical literature review, an examination of
guidelines or an evaluation. The process and outcomes are negotiated in a contract with a supervisor.  

**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN703 Project A**  
An important aspect of postgraduate development is the opportunity to engage in research or project work in a specialist field of study in industry or as a component of consultancy work. Working in industry or a health-related agency, locally or internationally, can provide students with valuable work experience and develop skills and expertise that advances their profession or the particular industry involved. The research option enables students to work independently under the guidance of a supervisor. The research may be a report that makes a contribution to knowledge or a study in which the student critically analyses existing knowledge and produces observations and conclusions of value to the field concerned.  

**Credit points:** 24  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN704 Project B**  
An important aspect of postgraduate development is the opportunity to engage in research or project work in a specialist field of study in industry or as a component of consultancy work. Working in industry or a health-related agency, locally or internationally, can provide students with valuable work experience and develop skills and expertise that advances their profession or the particular industry involved. The research option enables students to work independently under the guidance of a supervisor. The research may be a report that makes a contribution to knowledge or a study in which the student critically analyses existing knowledge and produces observations and conclusions of value to the field concerned.  

**Prerequisite(s):** HLN703  
**Credit points:** 24  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN705 Introduction to Quantitative Research Methods**  
The content of this unit emphasises the practical aspects of quantitative research methods design, with the aim of exposing students to important concepts in the design of research studies, and in the assessment of the research of others. There is a strong emphasis on applying concepts through critical reading of the literature and the development of a comprehensive research proposal as the main practical exercise.  

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Incompatible with:** PUB316 or equivalent

**HLN706 Advanced Quantitative Research Methods**  
The content of this unit builds on the basic statistics background assumed of students. A unifying theme is the concept of sources of variation in collected data, how proper design of study and measurement instruments minimises some sources of variation (error), how analytical techniques account for other sources, and finally the issue of introduced error that cannot be accounted for, but must be addressed in discussion of results. Analytical strategies for modelling health data are compared, and practical experience focuses on the analysis and interpretation of various data sets.  

**Prerequisite(s):** HLN705 or PUN105  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HLN708 Project**  
This 48 credit point project extends the range of applied investigative options for the Master of Health Science students to undertake. The project is designed to be a workplace-based unit that enables students to undertake a concentrated applied project in a specific area of interest in the workplace and to combine work and study requirements. It enables students to concentrate on a specific area of interest and to apply intellectual rigour to that area to complete a project of work at an advanced level.  

**Credit points:** 48  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HLN710 Fundamentals of Epidemiology and Research Design**  
Students undertake original research with the guidance of a supervisor. The thesis provides an opportunity for coursework conducted in the area of specialisation to be applied in a practical manner reflecting the student's specific interest in health science. HLN750-1 and HLN750-2 are the part-time version of HLN700.  

**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN750-1 Thesis**  
Students undertake original research with the guidance of a supervisor. The thesis provides an opportunity for coursework conducted in the area of specialisation to be applied in a practical manner reflecting the student's specific interest in health science. HLN750-1 and HLN750-2 are the part-time version of HLN700.  

**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLN750-2 Thesis**  
Students undertake original research with the guidance of a supervisor. The thesis provides an opportunity for coursework conducted in the area of specialisation to be applied in a practical manner reflecting the student's specific interest in health science. HLN750-1 and HLN750-2 are the part-time version of HLN700.  

**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLP101 Advanced Discipline Readings**  
This unit is a compulsory component of the Faculty of Health Honours programs. It provides the opportunity for students to identify and review the literature relevant to their selected research topic. A one day seminar in advanced information retrieval skills is included in the unit.  

**Corequisite(s):** HLP103  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HLP102 Research Seminars**  
This unit is a compulsory component of the Faculty of Health Honours programs. Content includes the preparation and completion of a seminar presentation in a professional and scientific manner and attendance at scheduled seminars.  

**Prerequisite(s):** HLN706 or HLN405 (nursing students must complete both)  
**Corequisite(s):** HLP103  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2
points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

HLP103-1 Dissertation
This is a compulsory unit in the Faculty of Health Honours programs. It is broken into a number of components that are completed over successive semesters (as appropriate for full-time or part-time course structure). The dissertation study represents an independent piece of research completed with the guidance of a supervisor.

Corequisite(s): All other units in the program
Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

HLP103-2 Dissertation
This is a compulsory unit in the Faculty of Health Honours programs. It is broken into a number of components that are completed over successive semesters (as appropriate for full-time or part-time course structure). The dissertation study represents an independent piece of research completed with the guidance of a supervisor.

Corequisite(s): All other units in the program
Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

HLP103-3 Dissertation
This is a compulsory unit in the Faculty of Health Honours programs. It is broken into a number of components that are completed over successive semesters (as appropriate for full-time or part-time course structure). The dissertation study represents an independent piece of research completed with the guidance of a supervisor.

Corequisite(s): All other units in the program
Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

HLP103-4 Dissertation
This is a compulsory unit in the Faculty of Health Honours programs. It is broken into a number of components that are completed over successive semesters (as appropriate for full-time or part-time course structure). The dissertation study represents an independent piece of research completed with the guidance of a supervisor.

Corequisite(s): All other units in the program
Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

HLR710-1 Research Project
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

Prerequisite(s): Completion of coursework component of HL90
Credit points: 24  Campus: Kelvin Grove
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HLR710-2 Research Project
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

Prerequisite(s): Completion of coursework component of HL90
Credit points: 24  Campus: Kelvin Grove
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HLR710-3 Research Project
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

Prerequisite(s): Completion of coursework component of HL90
Credit points: 24  Campus: Kelvin Grove
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HLR710-4 Research Project
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

Prerequisite(s): Completion of coursework component of HL90
Credit points: 24  Campus: Kelvin Grove
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

HLR710-5 Research Project
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance
and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

**Prerequisite(s):** Completion of coursework component of HL90  
**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLR710-6 Research Project**  
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

**Prerequisite(s):** Completion of coursework component of HL90  
**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLR710-7 Research Project**  
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

**Prerequisite(s):** Completion of coursework component of HL90  
**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**HLR710-8 Research Project**  
The Doctor of Health Science prepares graduates to be leaders in their professions. The degree incorporates a large research component which may be a single large research project or a portfolio of approved related smaller projects. The research is designed to be strongly grounded in the students' professional practice in order to enhance and extend critical thinking, synthesis, application of theoretical frameworks and the development of new knowledge at an advanced level in a relevant field. The research can be interdisciplinary, but should apply concepts and principles acquired and developed through the coursework component of the degree.

**Prerequisite(s):** Completion of coursework component of HL90  
**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**SUMMER**

**HMB110 Scholarship & Study Skills - HMS**  
This unit aims to develop specific scholarship and study skills related to the area of human movement studies. The three broad areas of literacy that will be covered are: technological literacy, information literacy and academic literacy. Students also become familiar with the current nature of the human movement profession and trends within it, and are able to place human movement studies within the context of health care in Australia. The unit provides an essential first stage in the development of key skills and understandings at tertiary level that will form a basis on which subsequent units will build.

**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**HMB171 Fitness Health and Wellness**  
The dimensions and interrelationships of health, physical activity and wellness are studied. Basic principles of conditioning and exercise prescription necessary to demonstrate the impact of physical activity on lifestyle diseases, health behaviours and wellness are examined. Principles and theory of behaviour change are employed.

**Credit points:** 12  
**Contact hours:** 3-4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMB172 Nutrition and Physical Activity**  
This unit is an introduction to principles of nutrition in relation to the physical activity setting, and the role of nutrition and physical activity in weight management. This unit also covers the essential elements of child growth and development (auxology) in relation to nutrition and health. The unit is designed to underpin studies in exercise physiology and sports nutrition.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB231 Physical Education Curriculum Studies 1**  
This unit provides students with a range of understandings and competencies for interpreting and managing the physical education environment for teaching and learning. It assists students to develop competencies needed for lesson planning and teaching at all school levels.

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMB271 Foundations of Motor Control, Learning and Development**  
This unit introduces students to the behavioural and neural bases of movement control through an examination of the central nervous and neuromuscular systems, hierarchical control, human information processing and dynamical systems. It covers elements of sensory mechanisms related to movement. Foundations of motor learning and adaptation are introduced, linking underlying mechanisms of learning with principles that may be applied in teaching, coaching and rehabilitation.

**Prerequisite(s):** LSB131, LSB231  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1
UNIT SYNOPTES

HMB272 Biomechanics
This unit includes the application of mechanics as they apply to Human Movement including: kinematics and dynamics of human body models; quantitative analysis; impact; work and power; fluid dynamics; material properties.
Prerequisite(s): LSB131  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

HMB273 Exercise Physiology 1
This unit describes the immediate physiological responses to exercise, and the adaptations that occur with long-term exercise training. Exercise places a demand on the human body to provide sufficient energy to perform. The metabolic, hormonal, cardiovascular and pulmonary systems must adapt to meet the challenge of homeostasis. The active skeletal muscle must increase extraction and utilisation of oxygen and other fuels, the cardiovascular system must respond to improved gas and fuel transport, and lung function must change to facilitate increased respiratory gas exchange.
Prerequisite(s): LSB231  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SUM-2 and 2008 SEM-2

HMB274 Functional Anatomy
This unit includes the following: surface anatomy of the trunk and upper and lower limb; morphological and mechanical properties of bone, muscle-tendon units with implications for physical activity; joint structure and function; analyses of movement tasks including walking and running; cinematography and electromyography in functional anatomy of movement tasks.
Prerequisite(s): LSB131  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

HMB275 Exercise and Sport Psychology
This unit includes the following: introduction to the psychological factors which influence performance, participation and adherence to both sport and exercise programs; personality and the athlete; attention and arousal; relaxation theory and practice; aggression and psycho-social development; leadership and team cohesion.
Prerequisite(s): PYB012  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

HMB276 Research in Human Movement
This unit includes principles of research: purposes, philosophy, applications. It addresses quantitative research including basic statistics, descriptives, ANOVA, correlation, regression and non-parametrics, and basic research design hypothesis testing. Qualitative research includes methodology, data collection, and theory building. Research presentation includes: writing a research report and developing conclusions. This unit also considers application of research, examples in human movement, related literature, computer data analysis, and information retrieval.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

HMB277 Exercise and Sport Nutrition
This unit considers the relationship between nutrition and exercise and physical activity. Areas covered include dietary and energy requirements in exercise and sport and substrate utilisation at the cellular level during exercise. The influence that nutrition has on performance via changes in body composition, fuel utilisation, blood biochemistry and ergogenic aids will also be covered. Nutritional supplements and water and electrolyte balance in exercise and sport are also part of this unit.
Prerequisite(s): HMB172  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

HMB278 Biological Aspects of Physical Education
This unit provides an opportunity for critical inquiry and analysis of human movement from a multidisciplinary perspective. The integration of the human movement principles of sub-disciplines (functional anatomy, biomechanics, motor control, sociology of sport and physical activity and development) are evaluated and applied to coaching of sport and teaching and learning in physical education.
Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

HMB282 Resistance Training
This unit aims to equip students with the basic knowledge, skills and competencies required for exercise prescription in resistance training for muscular fitness. Students build on prior knowledge of biomechanics, anatomy, physiology and motor control to develop understanding of the mechanical and physiological determinants of muscular fitness. The unit incorporates a blend of theoretical background, practical knowledge and skills in the main areas of muscular hypertrophy, strength, power and endurance. This understanding is then used to critically analyse resistance training programs.
Prerequisite(s): HMB271  Corequisite(s): HMB273  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

HMB292 Health Education Curriculum Studies 1
This is the initial unit in a series of three Health Education Curriculum units. Students are introduced to current health education curriculum documents with a specific focus on the Queensland Education System. The unit also provides students with a range of competencies for interpreting and managing the health education classroom as a complex social environment for teaching and learning.
Credit points: 12  Contact hours: 3  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
This unit provides students with knowledge of how to integrate Health and physical education within the other key learning areas. Students learn the connection between physical activity and health and its role in meeting the developmental needs of children. Additionally, they participate in a range of learning experiences appropriate to
the developmental needs of children and acquire the skills necessary to safely deliver student learning in an open environment. Topics include principles of the health and physical education years 1-10 syllabus; motor skill development and ability related expectations for teaching HPE; planning for quality instruction and linking physical activity with health; planning and teaching HPE; classroom management and safety issues.

**Credit points:** 12  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-2

**HMB305 Personal Health**
Lifestyle is largely determined by an individual functioning in a socio-environmental context that places some limitations on choice and resultant health. This unit is designed to assist individuals to develop a positive self-concept, a sound knowledge of lifestyle issues and their implications, and decision-making skills necessary to make wise choices.

The focus of this unit is the development of such qualities for personal maintenance and improvement. Movements in this direction are achieved by analysing the processes involved in developing individuals capable of taking control of their lifestyles and resultant health. Much of this analysis will be self-focused.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMB313 Socio-Cultural Foundations of Physical Activity**
This unit lays a foundation in the disciplines of the socio-cultural areas which underpin the study of human movement. It serves as an introduction to the historical, sociological, philosophical, anthropological and cultural foundations of sports, games and leisure activities.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMB314 Performance Skills 1**
This unit involves the application of movement principles to the analysis and development of techniques in all major swimming strokes, water rescue methods, and track and field events. Students explore teaching strategies, motivational, conditioning and training activities, the development of learning experiences for various ability levels and event rules application.

**Prerequisite(s):** HMB315  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** PRB344, PRB345, PRB346

**HMB315 Performance Skills 2**
In this unit various game forms are analysed in order to identify fundamental game skills and problem areas in skill development. Emphasis is placed on the application of relevant movement knowledge and skills to suit game situations and on learning appropriate strategies for teaching and coaching selected games.

**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB331 Physical Education Curriculum Studies 2**
This unit extends the principles of professional practice established in the first curriculum studies unit and further encourages students to develop a critically reflective approach to teaching. Students learn how to extend professional practice with a range of understandings and competencies for interpreting and managing the health and physical education classroom as a complex environment for teaching and learning and develop competencies needed for planning and teaching a range of health and physical education units of work. Current health and physical education curriculum documents are explored.

**Prerequisite(s):** HMB231  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB333 Child and Adolescent Health**
This unit focuses on the wide range of factors that impact on the health of individuals in the two crucial stages of life: childhood and adolescence. An analysis is made of knowledge, beliefs and skills required for promoting health-enhancing behaviours during these ages and experience is provided on some of the skills needed to assess and maintain the health status of children and adolescents.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB337 Organisation and Management In Physical Education And Sport**
School physical education departments and sporting associations are medium-sized organisations requiring direction for servicing a large client base. In this unit students examine the role of administrators and the administration of monies, facilities and human resources in a school physical education and sports setting.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB361 Functional Anatomy 2**
This is a project-based unit designed to enable students with a background in functional anatomy to develop greater expertise in one or a combination of the following areas: electromyography; orthopaedic biomechanics; kinesiology of sport and work; comparative functional anatomy; locomotion and posture; research techniques in functional anatomy.

**Prerequisite(s):** HMB274  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB362 Biomechanics 2**
This unit includes the following: measurement techniques within biomechanics; analysis of force systems; photographic, goniometric and electrographic analysis of movement; an introduction to viscoelasticity and biological materials; material properties; mass and inertial characteristics of the human body; applied aspects of biomechanics undertaken from a research project perspective.

**Prerequisite(s):** HMB272, HMB274  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1
HMB363 Independent Study
This unit is offered to meet the specific interest of students beyond content offered within existing units. Students conceptualise, plan and execute a research study including survey of literature, development of an action plan, reflection on a practice or situation, and proposal for future action. The student works at an advanced level and autonomously under the supervision of a lecturer.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

HMB371 Motor Control And Learning 2
This is an advanced unit which provides an in-depth view of theories and concepts in motor learning and control; how we control actions in both everyday and skilled behaviours, and how this capability is acquired. This course provides a multidisciplinary perspective, drawing on research from psychology, neuroscience, biomechanics, robotics, neural networks and medicine. The unit is organised around the theme of sensorimotor integration as related to posture and balance, locomotion and arm movements such as reaching, grasping and pointing.
Prerequisite(s): HMB271 Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

HMB374 Psychology of Rehabilitation
This unit includes the following: factors that predispose to injury and behavioural change; the psychological process of rehabilitation; teaching specific psychological rehabilitation and coping strategies; the grief process; the rehabilitation psychologists role in the rehabilitation team; disabled athletes.
Prerequisite(s): HMB275 Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove

HMB375 Adapted Physical Activity
In this unit, students carry out the following: adapt physical activity for a variety of physical, sensory and intellectually disabling conditions and chronic diseases; design and implement programs suitable for these people to improve levels of motor skills and general health and wellness; participate in, and design programs for disabled athletes.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

HMB376 Motor Development in Children
This unit includes the theoretical perspective of normal and abnormal motor development, incorporating maturational, descriptive and behavioural aspects and the underlying sensory, perceptual, neurological and cognitive changes which influence motor development in children. A theoretical understanding of developmental differences and development delay in children with intellectual, sensory or physical disability. Experience is obtained in developmental and adapted physical activity programs.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

HMB377 Children in Sport
This unit includes the following: physical development of the young athlete; physical maturation; benefits of participation in sport and physical activity; psycho-social issues; positive and negative effects of participation including competitive stress; injuries to the growing skeleton; overtraining, overuse injuries; strength training in childhood and adolescence; promotion of safety in sport; accreditation of teachers and coaches; policy guidelines for junior sport; Aussie sport program.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

HMB379 Disorders of Human Movement
This unit introduces a selection of disorders and disease states that limit or alter the capacity for movement and physical activity. Each is described in terms of relevant epidemiology and pathophysiology, emphasising the relationship between each disorder and movement or activity, together with factors affecting this relationship. The unit provides students with a basic knowledge of a selection of movement-related disorders, as a foundation for subsequent applications, whether in research, working with special populations, in rehabilitation, or in other clinical settings. The unit also enhances the ability of students to independently study disorders not covered in the unit.
Prerequisite(s): HMB271 Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

HMB381 Exercise Physiology 2
This unit examines the integrated regulation of the organ system examined in Exercise Physiology 1. Within this integrated perspective current research areas will be highlighted, including but not limited to (1) exercise performance and environmental stress, (2) special aids to exercise training and performance, and (3) limitations to exercise in healthy normal individuals, elite athletes and selected patient populations.
Prerequisite(s): HMB273 Credit points: 12 Contact hours: 3-4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

HMB382 Principles of Exercise Prescription
In this unit, students examine the physiological principles and methods used in training and conditioning programs at all levels of physical activity. The integration of fitness assessment and exercise prescription is a major component of the unit, introducing the student to these requirements in the context of aerobic conditioning, resistance training, weight loss and flexibility. There is a strong emphasis on putting theory into practice, including the development and utilisation of appropriate practical skills in both fitness assessment and exercise prescription.
Prerequisite(s): All units as specified within the first two years of HM42 Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

HMB384 Injury Prevention and Rehabilitation
This unit considers the following: epidemiology and nature of common injuries that occur at home, school, work and during sporting activities; current philosophies of preventative measures and strategies for the treatment and
rehabilitation of injuries; the role of health training, exercise and fitness in injury prevention, treatment and rehabilitation regimes; the pathology of injuries and repair processes highlighted by examining specific examples.

**Prerequisite(s):** HMB274  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB396 Health Education Curriculum Studies 2**

This is the second in a suite of three Health Education Curriculum units. It is designed to extend students with a range of understandings and competencies for interpreting and managing the health education classroom as a complex social environment for teaching and learning. It helps students to develop those competencies needed for planning and teaching health education units of work. It has an important role in preparing students for the professional practice component of the course, leading to the development of confidence and competence in class management skills, and facilitating the use of post-lesson and post-practicum reflection and evaluation.

**Prerequisite(s):** HMB292  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**HMB431 Physical Education Curriculum Studies 3**

This unit develops students' competencies in the effective planning and implementation of school work programs and units of work consistent with the Senior Physical Education Syllabus. It will also develop students' skills and confidence in effective teaching practices specifically related to teaching physical education and will assist them to become independent and reflective learners.

**Prerequisite(s):** HMB331  
**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMB470 Practicum 1**

In the first of the Human Movement dedicated practicum units, students undertake in-depth experience at two different workplaces (40 hours each) while maintaining ongoing involvement in the School's clinics (20 hours). The student is provided with an extended opportunity to apply classroom learned knowledge and skills under the supervision of Human Movement Practitioners. Workplace involvement is preceded by a vocational skill seminar and workshop program while an interactive analysis program is instigated post practicum.

**Prerequisite(s):** HMB382  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HMB475 Practicum 2**

This unit includes a comprehensive vocational experience undertaken as a supervised full-time internship. Students are supervised in the performance of operational tasks including clinical, management and administration and further develop independent professional skills and knowledge. The internship is followed by a comprehensive reflective analysis of the experience.

**Prerequisite(s):** HMB470  
**Credit points:** 36  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**HMB480 Advanced Exercise Prescription**

This is a companion unit to HMB382, and extends the understanding of how fitness assessment and exercise prescription can be applied to an individual. A number of different disease states, special populations and scenarios are used to examine the potential role of physical activity and appropriately prescribed exercise to maintain and improve functional capacity. A strong emphasis is placed on identifying the problems faced in fitness assessment and exercise prescription for special cases and conditions, and finding appropriate solutions.

**Prerequisite(s):** HMB382  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**HMB496 Health Education Curriculum Studies 3**

This unit extends the principles of professional practice established in HMB292 and HMB396 and further encourages the development of a critically reflective approach to the teaching in that area. It emphasises planning and teaching in the senior secondary school and extends a student's ability to make independent judgments about curriculum decisions within syllabus guidelines and broader systems policies, while considering national and international trends in education and society. The unit also encourages exploration of current issues and emerging and future trends in subject areas.

**Prerequisite(s):** HMB396  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**HMZ171 Fitness, Health and Wellness**

**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**IBB101 Business in Australia**

This unit will introduce international students and students new to Australia to the business environment of Australia. Students will examine historical, socio-cultural, geographical, economic, political and other factors and contemporary issues that impinge upon doing business in Australia. Learning activities include case studies, field studies and industry analysis. Generic skills addressed include teamwork, report writing and presentation skills.

**Prerequisite(s):** Undergraduate students new to Australia  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** MIB101

**IBB202 Fundamentals of International Finance**

In this unit students analyse the way international operations and performance of business can be put at risk by changing financial and regulatory conditions across borders and determine how best to manage the exposure to this risk. This unit examines the following: the evolution of the international financial system; the foreign exchange market; the types of foreign exchange rate exposures; managing exchange; translation and consolidation risks; assessing foreign direct investment targets; comparing the performance of foreign affiliates; operations exposure to regulatory risk of tax; investment and competition policy changes; country risk assessment and managing country risk exposure.
UNIT SYNOPTES

IBB205 Intercultural Communication and Negotiation
The course develops students' abilities to identify and resolve problems in cross-cultural communication or negotiation situations where cultural differences have created misunderstandings or undesirable or unexpected outcomes. It first explores the concept of 'national culture' by considering the work of major theorists of cultural value dimensions - from Hall to Schwartz. Students are encouraged to analyse communication/negotiation process issues in terms of these value dimensions and to practise managing the process of communication/negotiation to improve their outcomes.
Prerequisite(s): BSB115 or CTB115 or BSB119 or CTB119
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1
Incompatible with: MIB205, MGB312

IBB208 European Business Development
This unit focuses on the major factors involved in the development of European business practices, organisational structures and government/business relations. Topics covered will include: demographic change; agriculture; trade and colonisation; transport and communications; financial institutions and capital accumulation; intellectual and religious movements; economic theories; the role of government; war and revolution; industrialisation; big business; the Great Depression; social change. Various countries will be used as case studies to illustrate the topics.
Prerequisite(s): BSB119 or CTB119 or BSB116
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1
Incompatible with: MIB208

IBB210 Export Management
This unit presents students with information critical for the successful planning, organisation, implementation and control of export operations. The unit is highly applied and covers practical aspects of the production, dispatch and distribution of products for international markets. Specifically the unit addresses legal, documentary, physical and financial challenges to the delivery of goods and services, and to the assured receipt of payment in return for that delivery. The processes of planning, market analysis, information gathering, cooperative arrangements with government and other firms are all considered. Contemporary developments in technological applications and business practices are illustrated.
Prerequisite(s): BSB119 or CTB119 or 96 credit points of approved study
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: MIB210

IBB213 International Marketing
The aim of this unit is to provide students with a thorough understanding of the multiplicity of issues that impact on the development of international marketing strategies and plans and their operational implementation. The unit is highly applied and provides students with the following opportunities: to analyse global international firms, their marketing strategies and various international marketing issues in a variety of geographic and industry contexts; to evaluate methodologies and new practices for handling problems and issues typical of global and international markets and competition; to develop an operationally sound international marketing plan.
Prerequisite(s): BSB119 or CTB119 & BSB126 or CTB126; or BSB116
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER
Incompatible with: MIB213

IBB217 Asian Business Development
This unit gives students an understanding of the historical foundations of the development of business in East and South East Asia. Material presented includes the traditional economic and social institutions in Asia and their changing impact on business since East Asia's integration into the international economy. Topics studied will include: the evolution of local firms and firm structures; the impact of western business and economic influences; local ideology and development policies; the rapid growth of Northeast Asia, the Asian NICs and ASEAN. The changing impact of the international economy upon business development within selected East Asian economies is a unifying theme of this unit.
Prerequisite(s): BSB119 or CTB119 or BSB116
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1
Incompatible with: MIB200

IBB300 International Business Strategy
This unit aims to develop student competencies in the analysis of issues and problems encountered by international firms in the formulation and implementation of business strategies. The unit emphasises the connection between core competencies, strategy and corporate performance and uses case studies to analyse the strategic behaviour of global companies. Issues examined include: the forms of international involvement and entry mode strategies; organisational structures, control and cultural diversity; multinational versus global competitive strategies; the formulation and implementation of strategies of international cooperation and strategic alliances; small and medium enterprise (SME) strategies to compete in global markets.
Prerequisite(s): IBB213 or IBB211 or IBB210 or 96 cp of approved study
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: BSB300, MGB330

IBB301 Institutional Development & Business Dynamics
This unit explores the relationship between organisational capabilities and business environments in the global economy. It uses information-related theories to analyse the performances of institutional frameworks, including hierarchies, inter-firm structures, and co-operatives. The unit examines organisational forms used in the past to identify variables that influence structural designs today.
IBB303 International Logistics
This unit examines international logistics through the concepts of international distribution channels and international supply chain management. Strategy in managing international logistical constraints is emphasised with practical studies of contemporary international supply chain management in international industries. Traditional costs and financial aspects of supply chain management are considered. Contemporary issues are incorporated including: the impact of e-business on international logistics; the evolution of new technologies for 'smart' packaging, warehousing and international stock control; the combination of international services with goods products; recent technological developments in international transportation and product quality control.
Prerequisite(s): IBB210 or AMB240 or CTB240 or 96 credit points of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIB303

IBB304 Global Industry Analysis
The aim of this unit is to analyse the nature and structure of industry in national and international contexts to provide a suitable framework that can be used by students in the study of specific industries. Topics examined include: inter-industry dependencies; international location advantages; regional and interregional linkages; demand analysis; international transactions in information, goods, services and other products; analysing strategies to control markets through price and product positioning, applying these principles to specific Australian industries conducting international business.
Prerequisite(s): BSB113 or CTB113 and (IBB213 or IBB210 or IBB 211); or 96 cp of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: MIB212

IBB306 Risk Management in International Business
This unit aims to develop student competencies in analysing risk management issues in national and international contexts and build a strong appreciation of managing the organisational uncertainty in the current global environment. It introduces conceptual and practical applications of risk management techniques used in private and public organisations by combining lectures with practical 'hands-on' workshops. The unit examines: conceptual bases of risk management; international, national and sub-national regulatory frameworks; corporate risk management in international firms; business continuity planning; security risk management; emergency response planning; managing crises in organisations; participatory 'desktop' simulations of crisis decision making.
Prerequisite(s): IBB202 or IBB210 or 96 credit points of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

IBB308 Contemporary Business in Europe
Building on the historical understandings established in the prerequisite unit, this unit analyses contemporary issues relevant to business in Europe. Areas of study include: the growth of regional cooperation in Europe; business and regional cooperation; European Union policies and impacts; challenges of doing business in the emerging markets of Central and Eastern Europe. Case studies of contemporary business activities in Europe including entry to European markets will be used in the analysis.
Prerequisite(s): IBB208 or MIB208 or 96 credit points of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIB300

IBB311 Globalisation and Theoretical Perspectives on Internationalisation
This unit develops theoretical perspectives of the processes of globalisation and the internationalisation of business firms. It examines the globalisation debates, traces the evolution of international business theory, and provides a critique of the seminal theories. It provides an introduction to the process of research in international business. Aligned with the aims of the unit, students will develop and lead seminars and undertake a review of literature on theoretical and practical issues of globalisation and internationalisation.
Prerequisite(s): BSB113 or CTB113 and BSB122 or CTB122 and (IBB213 or IBB211 or IBB210); or 96 cp of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

IBB312 Special Topic - International Business
This is an 'open-ended' unit where the opportunity will be available for staff and visiting scholars to offer a specialised program of study.
Prerequisite(s): IBB210 or IBB211 or IBB213 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: MIB312

IBB317 Contemporary Business in Asia
This unit gives students an understanding of the practical challenges of doing business in East Asia. It explains current cultural, social, institutional and regulatory factors that impact upon enterprises in Asia. The unit analyses business strategy, production and procurement, and distribution and marketing in select Asian markets. It addresses contemporary trends: market access; corporate governance; consumer demographics and tastes; the structure and competitiveness of local and foreign firms; integration of new business technologies; the rapid economic and legal reform taking place in East Asia.
Prerequisite(s): IBB217 or MIB200 or 96 credit points of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIB317

IBB322 Independent Study Project - International Business
This unit enables students to pursue a specific interest beyond the content offered in existing units. In this unit students will undertake a guided course of study in an aspect of international business approved by the Subject

QUT HANDBOOK 2008 · Page 1876
Area Coordinator and developed in consultation with an appointed supervisor. The unit may comprise, as established by a learning contract, guided readings, literature critiques, a research paper on a specific topic or a project requiring application of theory to practice. The agreed format of assessment may include a literature review, a research paper, a plan of action, an oral or written examination or a combination of a selection of these items of assessment.

**Prerequisite(s):** 96 credit points of approved studies and approval of Subject Area Co-ordinator  
**Credit points:** 12  
**Contact hours:** 2 per week  
**Campus:** Gardens Point

**IBN403 Business in Asia**  
The aim of this unit is to enable an intensive study of business and markets in Asia. The development of the major industries is examined, together with major intra-regional patterns of trade, commerce and finance. Significant economic, political and social factors determining developments are focused on, as well as regulatory restraints governing market access. Students are required to undertake a project that requires the application of knowledge of the region to a business issue.  
**Prerequisite(s):** P/G enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Campus:** Gardens Point  
**Incompatible with:** MIN403

**IBN404 Business in Europe**  
This unit enables a more intensive study of business and markets in Europe. The development of the major industries will be examined, together with intra-regional patterns of trade, commerce and finance. A particular focus will be the development of a single European market and its international implications. Significant economic, political and social factors determining developments will be focussed upon, as well as regulatory restraints governing market access. The student will be required to undertake a project which requires the application of knowledge of the region to a business issue.  
**Prerequisite(s):** P/G enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** MIN404

**IBN408 Global Business Operations**  
This core unit examines the forces of globalisation, the diversity of international environments and their impact on business functions at the operational level. It examines the processes and challenges of internationalising the business operation as firms strive to compete successfully in the global marketplaces. Areas of study include the growth of international business and globalisation, international business motives and forms, the nature and challenges of the diversity of environments, and managing and controlling business operations. An international business simulation game is used to facilitate the understanding of business as a system of integrated operations and environments.  
**Prerequisite(s):** P/G enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** BSN408

**IBN409 Negotiating Across Borders**  
This unit develops students' skills in negotiating intra- and inter-culturally. It provides students with a tool-box of negotiation skills and then explores the relationship between cultural value dimensions and negotiating behaviours. Students practise their negotiating skills with members of their own culture, in cross-cultural dyads and in multi-cultural teams to build confidence and capability in negotiating and influencing.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** GSN462

**IBN410 International Logistics Management**  
This unit introduces international logistics functions and develops a strategic approach to international business transactions and integration focusing on supply chain management. The unit introduces traditional and contemporary logistics concepts and describes international logistics operations including global transport systems, inventory management, materials handling and information management. Global supply chain management cases and strategies are integrated throughout the unit.  
**Prerequisite(s):** P/G enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**IBN421 Marketing Internationally**  
In this unit students are exposed to the theoretical and planning aspects of marketing internationally. Through an applied approach, theoretical issues such as segmentation of international markets, life cycle, contingency and network approaches to international market entry choice, and market development and extension are addressed. Planning issues cover the strategic marketing processes involved, including international market research, and their application to regions and countries primarily in the Asia/Pacific region or Europe. Students are trained in the practical application of these theoretical and planning aspects through the development of an extensive international marketing plan.  
**Prerequisite(s):** P/G enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**IBN422 Independent Study - International Business**  
This unit enables students to pursue a specific interest beyond the content offered in existing units. In this unit students undertake a guided course of study in an aspect of international business approved prior to enrolment by the Subject Area Coordinator and developed in consultation with an appointed supervisor. The unit may comprise, as established by a learning contract, guided readings, literature critiques, a research paper on a specific topic or a project requiring application of theory to practice. The agreed format of assessment may include a literature review, a research paper, a plan of action, an oral or written examination or a combination of a selection of these items of assessment.  
**Prerequisite(s):** 96cp of approved studies and consent of the Subject Area Coordinator  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**GSN462**

**IBN421 Marketing Internationally**

**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**IBN422 Independent Study - International Business**

**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2
Incompatible with: Nil

IBN435 Business in Australia
This unit introduces students to the business environment in Australia. Students examine the geographical, historical, socio-cultural, political, regulatory, demographic, economic, legal, locational and other factors that have influenced, or still impinge upon, doing business in Australia in the current international environment. Learning activities include factory visits and industry analysis.

Prerequisite(s): Postgraduate students new to Australia
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER Incompatible with: MIN435

IFN001 Advanced Information Retrieval Skills
Provides postgraduate research students with the skills to implement a thorough literature search in their research area and to contribute to life-long learning skills by improving students information literacy. The seven modules which form this unit include: the literature review, developing a search strategy; using the QUT and other libraries, database services, the Internet and its uses; developing a current awareness strategy; personal file management; evaluating information.

Credit points: 4 Contact hours: 12 in total Campus: Gardens Point and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN100 Full-Time Masters Research
This unit provides full-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of the research.

Credit points: 48 Campus: Gardens Point and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN101 Full-Time Masters Research (Extension)
This unit provides full-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of research.

Credit points: 48 Campus: Gardens Point and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN200 Part-Time Masters Research
This unit provides part-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of research.

Credit points: 24 Campus: Gardens Point and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN201 Part-Time Masters Research (Extension)
This unit provides part-time postgraduate research students with study in a relevant area leading to the development of a thesis. The thesis shall be not fewer than 50,000 words and shall constitute a substantial contribution to knowledge and understanding in the area of research.

Credit points: 24 Campus: Gardens Point and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN203 Part-Time Masters Research
Credit points: 12 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN300 Masters Research
Credit points: 36 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN301 Masters Research
Credit points: 24 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN302 Masters Research
Credit points: 12 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN303 Masters Research
Credit points: 8 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFN304 Masters Research
Credit points: 6 Teaching period: 2008 SEM-1 and 2008 SEM-2

IFP100 Knowledge Transfer and Research Commercialisation (Core Unit)
This unit provides you with practical information and builds skills and capacities in the identification of commercialisation opportunities and the implementation of commercialisation processes appropriate to your research.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: Nil

IFP101 Leadership and Workplace Communication
This unit provides you with an understanding of: Introductory theories relating to the dynamics of teams and teamwork, and the communication process. The practical information and skills to increase the motivation of yourself and others.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: Nil

IFP102 Project Management and Research
This subject allows students to assess, plan and manage a chosen research project as a basis for learning about project management lifecycles and generic project management processes including initiating, planning, executing, controlling and evaluating the project. The subject introduces techniques for managing the project's stakeholders as well as those regarding its scope, time, cost, quality, communication, procurement and risk.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: Nil

IFP103 Public Policy and Research
This unit introduces a number of themes and issues on the relationship between research and public policy; these will help you to better understand the world of public policy. You
will become more confident in dealing with that public policy world, whether that be in working within it, seeking to influence it, or trying to obtain something from it.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Internet  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** Nil

### IFP104 Entrepreneurial Foundations

The aim of this course is to help you develop and systematically apply an entrepreneurial way of thinking that will allow you to create and/or identify opportunities that may be commercialised successfully. It is the process of building something from nothing - risk is involved. The course is not about small business or lifestyle business management; it focuses on entrepreneurial and innovative growth-orientated businesses.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Internet  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** Nil

### IFP105 Principles and Practice of Research Management

This unit aims to improve understanding of the range of frameworks, and issues involved in the field of research management including research ethics, research training, research dissemination and multi-partner research collaboration. In exploring these frameworks and issues, the unit will acknowledge the human factors in research organisations and will examine the data management systems and other technologies which underpin the operation of a typical research services unit.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Internet  **Teaching period:** 2008 SEM-2  **Incompatible with:** Nil

### IFP106 Managing Research Careers

This unit aims to provide you with an understanding of the patterns of research career development, and of the principles and mechanisms of career self-management. It aims to assist you to develop the analytical approaches to professional development needs of researchers, and the personal skills of effective presentation to employers at various levels in the research and research management fields.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Internet  **Teaching period:** 2008 SEM-2  **Incompatible with:** Nil

### IFR100 Full-Time Masters Research

**Credit points:** 48  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR101 Full-Time Masters Research (Extension)

**Credit points:** 48  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR200 Part-Time Doctoral Research

**Credit points:** 24  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR201 Part-Time Doctoral Research (Extension)

**Credit points:** 24  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR300 Doctoral Research

**Credit points:** 36  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR301 Doctoral Research

**Credit points:** 24  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR302 Doctoral Research

**Credit points:** 12  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### IFR303 Doctoral Research

**Credit points:** 8  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

### ITB001 Problem Solving and Programming

This unit aims to give you a positive introduction to the analytical skills required in computer programming. It assumes you have little or no previous programming experience. The unit emphasises generic programming concepts and related problem-solving strategies. The skills you learn in the unit will be applicable to a wide variety of commonly-used, industrially-significant programming and scripting languages.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** ITB111

### ITB002 IT Professional Studies

This unit aims to develop your professional skills and capabilities by providing theoretical and practical opportunities in the following areas: how IT teams operate, effective oral and written communication, team meeting processes and procedures, ethical and social responsibilities of the IT professional, information literacy and traits for life long learning. Demonstrable competency in these areas will be an expectation in subsequent units and will be developed further in them.

**Prerequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point and Carseldine  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** ITB116

### ITB003 Object Oriented Programming

Object Oriented Programming aims to develop your software design and development skills gained in ITB001, taking you from ÀproceduralÀ programming and problem solving into an Object Oriented approach. This unit is required by all IT majors, and is designed to be complimentary to ITB008: Modelling, Analysis and Design. You will use industry standard design approaches coupled with an Àindustrial strengthÀ OO programming language to design and implement a Àreal-lifeÀ software application. Along the way, you will gain a solid foundation in the principals of OOP, including encapsulation, polymorphism and inheritance, allowing you to solve real-world problems using the Object-Oriented design paradigm.

**Prerequisite(s):** ITB001  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:**
ITB004 Database Systems
The aim of this unit is to introduce you to the structure and role of databases in modern businesses.
Prerequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: ITB115

ITB005 Systems Architecture
The aims of this unit are twofold. First is to introduce you to the challenging field of Systems Architecture and provide you with practical skills in using a range of modern computer operating systems through the presentation of case studies involving current technology and their relationship and interconnection within a contemporary computer systems architecture; and secondly, to provide you with sufficient knowledge to enable you at the completion of this unit, to make informed choices about areas of specialisation within your degree and be well prepared to undertake specialist units of your choice.
Prerequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: ITB113

ITB006 Networks
The aim of the unit is to provide an introductory study of computer networks within the IT profession.
Prerequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: ITB114

ITB007 Web Development
The aims of the unit are to give you a thorough understanding of what the web is, how it works and what is has to offer. Additionally, the unit aims to give you a general understanding and basic skills in developing dynamic web applications, including an appreciation of the variety of implementation technologies available. Through an understanding of how web technologies have evolved to date, you will appreciate the necessity for lifelong learning and become an insightful predictor of future developments in this area. You will learn to critically analyse technological alternatives in order to adapt to and innovate with technologies that presently do not exist. You will appreciate the business or organizational context within which web applications exist and b
Prerequisite(s): ITB001, ITB002, ITB004 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: ITB227

ITB008 Modelling Analysis and Design
The aim of this unit is to introduce students to the range of application systems found within organisations, the basic concepts of object orientation, the theory and practice of object modelling, analysis and design, the principles of software engineering and the team processes required to work in a modelling, analysis and design team.
Prerequisite(s): ITB002 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: 

ITB009 Core Project Management
This unit extends your development of the professional, technical and teamwork skills required by IT professionals in practice. It enables you to understand the process of project initiation and to build on this base in the following ITB10 Project 2 (or your Co-op appointment the following year).
Prerequisite(s): 144 cp overall including 96 cp of IT units Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: ITB613, ITB240

ITB10 Core Project Implementation
This capstone unit extends development of the professional, technical and teamwork skills required by IT professionals in practice. It enables you to understand the process of project implementation and to build on this base in your professional career.
Prerequisite(s): ITB009 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITB111 CCNA 1 & 2: Network Fundamentals and Routing Protocols
This unit is the first step to a Cisco career certification path. The aim of this unit is to prepare students for the topics covered in Introduction to Cisco Networking Technologies Exam (640-822 Interconnecting Cisco Networking Devices Part 1 (ICND1) v1.0), one of the two qualifying exams available to candidates pursuing a two-exam option for CCNA and Cisco Certified Network Associate Exam (CCNA 640-802), single-exam option for the Cisco Certified Network Associate CCNA certification.
This unit aims to build important knowledge and skills necessary to understand Network Types, Network Media, Switching Fundamentals, TCP/IP, IP Addressing and Routing, WAN Technologies, Operating and Configuring IOS Devices, and Managing Network Environments.
Prerequisite(s): Basic computer literacy and basic Internet experience are mandatory. Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: ITS701, ITB762 (CCNA 1&2)

ITB112 CCNA 3&4: LAN SWITCHING/WIRELESS AND ACCESSING THE WAN
This unit is the second step to a Cisco career certification path. The aim of this unit is to prepare students for the topics covered in Interconnecting Cisco Networking Devices Part 2 (ICND2) v1.0 (640-816) and Cisco Certified Network Associate Exam (CCNA 640-802). The ICND exam is one of the two qualifying exams available to candidates pursuing a two-exam option for the Cisco Certified Network Associate (CCNA) certification and CCNA 640-802, single-exam option for the Cisco Certified Network Associate CCNA certification.
The unit will build important knowledge and skills necessary to select, connect, configure, and troubleshoot the various Cisco networking devices. The unit covers topics on
Prerequisite(s): ITB011 or ITS702 or ITB762 (CCNA 1&2)
Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2
Incompatible with: ITS702

Prerequisite(s): ITB750  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Prerequisite(s): ITB001 and ITB016  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2

Prerequisite(s): ITB001 and ITB004  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITB219

Prerequisite(s): ITB003 and ITB004  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

Prerequisite(s): TBA  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

Prerequisite(s): ITB002  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

Prerequisite(s): ITB004  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

Prerequisite(s): ITB009 or completion of 144 credit points
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER
ITB233 Enterprise Systems Applications
The aim of this unit is to introduce you to one of the more complex and comprehensive applications available to organisations (Enterprise Systems). This unit introduces the student to the business perspective of each module (FI, CO, PP, MM, SD and HR) and investigates the support provided by these systems and the integration between modules by following some of the major processes in a business. The unit enables students to experience both the business analyst view and the user’s view of the system across a number of business processes which includes elements of the configuration activities. 
Prerequisite(s): ITB002/ITB116, Business: BSB119
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITB239 Enterprise Data Mining
This unit will provide a comprehensive theoretical coverage of various topics in data and web mining. In addition there will be a significant practical component using hands on tools to solve real-world problems. Specifically, we will consider techniques from machine learning, data mining, text mining, and information retrieval to extract useful knowledge from data which are used for business intelligence, document databases, site management, personalization, and user profiling. This unit will first cover a detailed overview of the mining process and techniques, and then concentrate on applications of these techniques to web, e-commerce, document databases and data from advanced applications.
Prerequisite(s): IT: ITB004, Business: BSB212  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB244 Interaction Design
The aim of this unit is to provide you with an understanding of the theory, practices and challenges associated with the development of creative interactive design and human computer interaction.
Prerequisite(s): ITB002  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB257 Multimedia Systems
This unit will explore the concepts underpinning Interactive Digital Technologies and lead to an understanding of the role played by these technologies in the overall knowledge of a computer professional. Whatever direction you choose in your future employment, all sections of the market will utilise some aspects of multimedia technology. Knowledge in this expanding area will ensure you have the skills appropriate to any field.
Prerequisite(s): TBA  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITN257

ITB259 Advanced Multimedia Systems
This advanced level unit will give you high level design and development skills in some of the current and emerging areas of Multimedia. Web delivered applications, standard-alone systems and installations will be included. It will endeavour to give you an in-depth understanding of interactive Multimedia Systems. You will be given the theoretical basis and practical skills to motivate you in the design and creation of a state-of-the-art system in this discipline. In the process it will encourage a professional team approach, appropriate to the industry environment.
Prerequisite(s): ITB257  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: ITN259

ITB260 E-Commerce Site Development
This unit will enable you to specify, design, implement and maintain effective e-commerce applications. You will gain a broad understanding of the potential of e-commerce and how it can be employed to benefit an organisation. You will get direct experience of creating an e-commerce storefront following a business to business (B to B) or business to consumer (B to C) model. You will also have an understanding of the computer systems that underpin e-commerce including payment systems and secure transactions.
Prerequisite(s): ITB007  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB264 Information Systems Consulting
The aim of the unit is to give you consulting skills, an appreciation of the management of consulting practices and an understanding of the consulting sector generally.
Prerequisite(s): ITB002  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITB266 Information Management
To understand management of information resources in organisational contexts you will be introduced to concepts which include the effective management of information assets and the utilisation of external information resources and how they influence organisational performance.
Prerequisite(s): ITB002  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB298 Business Process Modelling
The aim of this unit is to introduce you to modern methods and tools of business process management. These skills will be applied to the most complex, comprehensive and relevant IT applications. This unit also seeks to develop logical thinking and the capability to understand and deal with complex systems, within a business management framework. The content will focus strongly on business process modelling, as a fundamental technique to manage the complexity associated with process management tasks within various contexts.
Prerequisite(s): ITB222 or ITB365  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB322 Information Resources
This unit will help you to understand the structure of the information environment, to reflect upon the information resources you discover, and to develop the ability to find...
appropriate information for future problem solving. You will develop your skills in identifying, accessing, evaluating and retrieving information resources to meet specific information needs. The unit will also help you develop skills in teamwork and oral and written communication.

Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITB360 Corporate Systems
Corporate Systems Management is a growing area where people can make a difference to the way organisations and societies operate. In key business domains, such as Government, Health, Finance, Utilities and Primary Industries, Corporate Systems Managers play a vital role in directing the socio-technical systems that affect everyone's lives. This unit will help students to gain an overview of these major roles and key business domains in order to set the scene for their future studies and help them to match their emerging professional interests with potential career directions.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITB361 Socio-technical Systems
Corporate Systems Managers employ a wide range of technical devices, such as servers, network devices and cross communication devices as well as PDAs, laptops and mobile phones, to meet the needs of their organisation and the communities they serve. The overall design or architecture that determines the role these devices play is vital to the successful functioning of organisations and holds the key to future innovations in serving the community. This unit provides students with a foundation in the principles that determine the design of these systems, the way they interconnect; how they serve specific clients and purposes and how people and devices interact.

Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITB362 Organisational Databases
Bridging the gap between business needs and IT solutions has always been a key issue in organisations seeking to improve their business. This is often due to the lack of appreciation and knowledge of IT solutions by business on the one hand, and a lack of clear understanding of the business domain and needs by IT professionals on the other. A business analyst is one who has a good understanding of both business and technical domains, and is equipped to identify areas that could be improved through effective IT solutions. Furthermore they are able to develop and communicate business cases and plans for realising these solutions.

Prerequisite(s): TBA  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITB364 Information Systems Development
IT professionals work with a wide variety of information systems and are increasingly required to interact with other professionals and understand business domains. In many cases it is necessary to develop custom systems to satisfy business requirements. Problem solving and communication skills and an understanding of programming concepts and logic are required to effectively work with information systems developers. In this dynamic industry, self-managed learning is necessary to remain abreast of technology innovations.

Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

ITB365 Business Analysis
This unit presents operational, tactical and strategic insights and tools that support the activities central to the operational management of an information technology Production department. These operational insights and tools include, project management, procurement and business processes, outsourcing, planning (from strategic to daily) and enterprise systems. Such insights and tools are used to inform decision making - the core skill of any operations manager. Operations managers must understand the factors impacting any decision point and most importantly, their interaction with each other in a specific context. This unit equips graduates successful meet the challenges of operational management and to contribute to the decision making faced by IT managers and the IT staff who advise on these issues.

Prerequisite(s): ITB361 and ITB362  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITB366 Information Systems Operations
Successful businesses use Project Management (PM) processes to structure the implementation, upgrades and process improvement activities undertaken within organisations. This unit investigates project management processes and analyses, combines and applies the basic elements and tools of successful projects to ICT cases. With a focus on contemporary organisations, the unit covers activities such as communication and risk management, change management, recording keeping and project reporting. The unit covers practical, relevant and topical PM issues delivered as a complex project activity.

Prerequisite(s): ITB002  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

ITB370 Project
The ability to apply knowledge and skills to real-life situations is essential for information systems professionals. A substantial project, under academic supervision, will develop your initiative and ability to apply your knowledge and skills in a professional capacity. Completing the project will also enable you to appreciate the complementary nature of the course material in total, particularly the need for careful management.

Prerequisite(s): ITB363 and completion of 180cps
UNIT SYNOPTES

Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITB702 Algorithms and Data Structures
Fundamentally, all computer programs are an interaction between algorithms and data structures. Algorithms define the sequence of computational steps performed by the program. Data structures determine how the program stores and retrieves information. Both have a major impact on the program’s efficiency and effectiveness. In this unit you will be introduced to a variety of common programming abstractions, including both algorithmic problem-solving strategies (e.g., divide-and-conquer, iterative improvement, etc), and commonly-used data structures (e.g., binary trees, indexed tables, etc). In particular, you will learn techniques for assessing the efficiency of algorithms (through complexity analysis), verifying that algorithms are correct (by identifying invariant properties), and implementing data structures in practice (as abstract data types).

Prerequisite(s): ITB003  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITB705 Intelligent Systems
Prerequisite(s): ITB003  Credit points: 12  Teaching period: 2008 SEM-2

ITB706 Systems Programming
Prerequisite(s): ITB003  Credit points: 12  Teaching period: 2008 SEM-2

ITB712 Software Engineering Studies
This unit is the starting point for the specialist knowledge required in the Software Architecture major. Up to this stage units have primarily focussed on learning programming and design skills. This unit introduces you to the practice of following a formal process to guide the development of software. Using a process as a guide, you will look at each of the major activities involved in developing a software system. You will also learn how to manage and control the software development process for a large project when a number of team members are involved in the development. This unit provides the foundation you will need for many later units, and develops the professional practice of working on large software systems.

Prerequisite(s): ITB003 and ITB008  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITB612

ITB713 Advanced Java Programming
In this unit you will develop skills to allow you to discover, learn and communicate new knowledge in an efficient manner. The unit will improve your understanding of some specific areas of intermediate and advanced programming technologies and tools and enhance your graduate capabilities in the areas of discovery and learning in the context of programming technology.

Prerequisite(s): ITB711  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB716 Advanced Web Applications Development
This unit will provide you with an understanding of the issues, structure and technologies used for developing web based systems. The unit will provide you with the theoretic and practical skills needed to develop enterprise critical applications designed with an n-tier architecture using state of the art technologies. A comparative technology approach is taken, including an analysis of how web technologies have evolved to date, in order to identify common themes and to better enable you to comprehend and critically evaluate future web technology offerings.

Prerequisite(s): ITB007  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITB642

ITB717 Enterprise Software Architecture
This unit introduces you to the field of enterprise and component-based architecture. It provides a grounding in the knowledge and skills required by a software architect to address the future needs of business IT systems. These include a solid understanding of the IT challenges currently facing medium to large size organizations, the theory and technologies currently used to address them and an appreciation of the business needs that motivate their use.

Prerequisite(s): ITB003, ITB005  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITB720 Internet Protocols and Services
The aim of this unit is to give you an understanding of the underlying protocols involved in common network services. This unit will also provide you with the skills to program applications that interact with these protocols.

Prerequisite(s): ITB003, ITB006  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITN529, ITB529, ITN667, ITB629, ITB624

ITB721 Unix Network Administration
The aim of this unit is to provide students with a working knowledge of the technical aspects and theory of network administration and management. The unit uses the Unix environment as the learning platform for attaining technical skills and for the development of problem solving skills necessary to be a successful networking professional.

Prerequisite(s): ITB006  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITB525, ITB535, ITB625, ITN525, ITN665

ITB722 Network Planning and Deployment
The unit draws together subject matter from a number of different networking-related areas. The aim of the unit is to assemble the previously acquired knowledge and
ITB648, ITB649

Prerequisite(s): ITB720 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: ITB628, ITB551

ITB723 Wireless and Mobile Networks
This unit provides you with the skills to be able to design and understand the issues involved with different types of wireless communications systems. It develops your knowledge of Wide Area Networks (WANs), Local Area Networks (LANs) and Personal Area Networks (PANs) as well as skills in programming for mobile handsets. You will also develop knowledge of the different types of wireless communications technologies available and when each is most applicable in a particular situation.

Prerequisite(s): ITB720 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1

ITB730 Information Security Fundamentals
On completing this unit, you should understand the major issues in information security and the implications of interactions between entities, and be aware of international information security management standards. You should have a broad view of the different kinds of protection offered by IT security technology and practice, and understand how they apply within your IT specialisation, i.e. where and how security and compliance issues are likely to arise. You will be able to articulate security issues and with the help of a security specialist, formulate solutions. This unit is important for you as a member of the global community, as a computing professional, and as a foundation for further specialist study in information security topics.

Prerequisite(s): ITB006 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: ITB161, ITN161, ITB623, ITB523, ITB543, ITN523, ITN511, ITN582, ITN663, ITZ523

ITB732 Cryptology and Protocols
This unit aims to help you:
(a) understand the fundamental algorithms and protocols of cryptology, with emphasis on the major applications of cryptology; and
(b) develop your analytical thought processes, enabling you to apply mathematical and cryptological techniques to solve real world problems in a hands-on manner.

Prerequisite(s): Maths B/MAB105 or equivalent Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: ITB646, ITB548, ITB566, ITN566, ITN512, ITN581

ITB746 Modelling and Animation Techniques
This unit will provide you with the knowledge and skills to use an industry standard graphics API to implement graphics applications and to develop a basic real-time animation system using an industry standard language.

Prerequisite(s): ITB711, ITB749 & MAB281 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: ITB648, ITB649

ITB747 Real Time Rendering Techniques
This subject will provide you with knowledge and skills in basic to advanced techniques in real-time rendering using shading languages. You will be able to implement a high-quality real-time rendering system in an industry standard API.

Prerequisite(s): ITB746 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: ITB648, ITB649

ITB749 Scientific Programming
The aim of this unit is to introduce you to the computational programming techniques required in the development of software for games and simulation. You will cover the theoretical aspects and the techniques required to implement these.

Prerequisite(s): ITB003 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1

ITB750 Computer Game Studies
This unit is designed to give you a clear understanding of the socio-cultural issues that affect the computer game industry. Through critical review of games and games industry literature, playing games and actively participating in classroom discussion you will develop your capacity to join in the discourse about the design, impact and future direction of computer games in our society.

Prerequisite(s): ITB002 or equivalent Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1

ITB751 Games Production
This subject will provide you with knowledge and skills in games production. By gaining an overview of the production process, you will learn how the technology and the people involved integrate into a coherent and efficient manufacturing process. By the end of this subject you will have the knowledge to conceive, create, integrate and optimise tools and personnel into a complete games production system.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2

ITB761 Special Topic 1

Credit points: 12 Teaching period: 2008 SEM-1 and 2008 SEM-2

ITB762 CCNA 1 & 2: INTERNETWORKING AND ROUTING BASICS
The curriculum provides in-demand Internet technology skills for designing, building and maintaining networks. Combining instructor-led, online education with hands-on laboratory exercises, the curriculum enables students to apply what they learn in class while working on actual networks. From building basic networking skills to advanced VLAN troubleshooting, the Networking Academy curriculum prepares students for industry certification that lead to lifelong opportunities. Particular emphasis is given to using decision-making and problem-solving techniques in the
application of science, mathematics, communication and social studies concepts to solve networking problems. Upon successful completion of this course, students receive a Certificate of Completion.

Prerequisite(s): The following skills are recommended or mandatory: Corequisite(s): nil Credit points: 12

Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: IT7S01

ITB849 Introduction To Technical Computing
The unit aims to introduce you to the techniques and concepts required in order to produce solutions to scientific problems using computers. The unit provides you with a disciplined and structured approach to algorithm design and implementation in a high-level matrix-orientated programming language.

Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITB844-1 Project
The aim of project work is to expose you to the practical realities of software development and project management. In this regard, both the completed work and the documentation should be of a high professional standard. This unit is intended to ensure you gain an appreciation of the issues involved.

Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITB844-2 Project
Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITB847 Computational Intelligence for Control and Embedded Systems
This is a specialisation unit in the area of Infomechatronics that introduces the five main methods from the field of computational intelligence and relates them to applications on real time control and embedded systems. The methods are: Knowledge based systems, Fuzzy control, Neural Networks, Reinforcement Learning and Evolutionary Computation. The unit is also intended to teach the specific design and programming skills that will enable you to solve problems using computational intelligence methods in real time embedded systems. It is assumed you already have knowledge of programming.

Prerequisite(s): EEB411 Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1

ITD001 Problem Solving and Programming
This unit aims to give you a positive introduction to the analytical skills required in computer programming. It assumes you have little or no previous programming experience. The unit emphasises generic programming concepts and related problem-solving strategies. The skills you learn in the unit will be applicable to a wide variety of commonly-used, industrially-significant programming and scripting languages.

Credit points: 12 Contact hours: 4 Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3 Incompatible with: ITD111
ITD005 Systems Architecture
The aims of this unit are twofold. First is to introduce you to the challenging field of Systems Architecture and provide you with practical skills in using a range of modern computer operating systems through the presentation of case studies involving current technology and their relationship and interconnection within a contemporary computer systems architecture; and secondly, to provide you with sufficient knowledge to enable you at the completion of this unit, to make informed choices about areas of specialisation within your degree and be well prepared to undertake specialist units of your choice.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 13TP2

ITD006 Networks
The aim of the unit is to provide an introductory study of computer networks within the IT profession.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 13TP1 and 2008 13TP3

ITN007 Web Development
The aims of the unit are to give you a thorough understanding of what the web is, how it works and what is has to offer. Additionally, it will give you a general understanding and basic skills in developing dynamic web applications, including an appreciation of the variety of implementation technologies available. Through an understanding of how web technologies have evolved to date, you will appreciate the necessity for lifelong learning and become an insightful predictor of future developments in this area. You will learn to critically analyse technological alternatives to adapt to and innovate with technologies that presently do not exist. You will appreciate the business or organizational context within which web applications exist.

Prerequisite(s): See Unit Outline  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: ITN227

ITN011 CCNA 1 & 2: Network Fundamentals and Routing Protocols
This unit is the first step to a Cisco career certification path. The aim of this unit is to prepare students for the topics covered in Introduction to Cisco Networking Technologies Exam (640-822 Interconnecting Cisco Networking Devices Part 1 (ICND1) v1.0), one of the two qualifying exams available to candidates pursuing a two-exam option for CCNA and Cisco Certified Network Associate Exam (CCNA 640-802), single-exam option for the Cisco Certified Network Associate CCNA certification. This unit aims to build important knowledge and skills necessary to understand Network Types, Network Media, Switching Fundamentals, TCP/IP, IP Addressing and Routing, WAN Technologies, Operating and Configuring IOS Devices, and Managing Network Environments.

Prerequisite(s): Basic computer literacy and basic Internet experience are mandatory  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2

Incompatible with: ITS701 or ITN762 (CCNA 1&2)

ITN012 CCNA 3&4: LAN SWITCHING/WIRELESS AND ACCESSING THE WAN
This unit is the second step to a Cisco career certification path. The aim of this unit is to prepare students for the topics covered in Interconnecting Cisco Networking Devices Part 2 (ICND2) v1.0 (640-816) and Cisco Certified Network Associate Exam (CCNA 640-802). The ICND exam is one of the two qualifying exams available to candidates pursuing a two-exam option for the Cisco Certified Network Associate (CCNA) certification and CCNA 640-802, single-exam option for the Cisco Certified Network Associate CCNA certification.

The unit will build important knowledge and skills necessary to select, connect, configure, and troubleshoot the various Cisco networking devices. The unit covers topics on Extending Switched Networks with VLANS, Determining IP Routes, and Managing IP traffic with Access Lists, Establishing Pont-to-Point connections, and Establishing Frame Relay Connections.

Prerequisite(s): ITB011 or ITS701 or ITB762 (CCNA 1&2)  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: ITS702

ITN016 Fundamentals of Games Design
Credit points: 12  Teaching period: 2008 SEM-1 and 2008 SEM-2

ITN017 Advanced Games Design
Credit points: 12  Teaching period: 2008 SEM-2

ITN031 CCNP1: Building Scalable Internetworks
The aim of the unit is to develop the important knowledge and skills necessary to use advanced IP addressing, routing and multicasting in implementing scalability of routers connected to LANs and WANs. This unit also prepares students for 642-901 Building Scalable Cisco Internetworks (BSCI), which is a qualifying exam for the Cisco Certified Network Professional CCNP®, Cisco Certified Design Professional CCDP®, and Cisco Certified Internetwork Professional CCIP® certifications.

Prerequisite(s): ITB762 (CCNA1/2) & ITB012 or ITN762 (CCNA1/2)& ITN012 or ITS701 & ITS702  Credit points: 12  Campus: Gardens Point  Incompatible with: ITS703

ITN100 Introduction to Research
This unit is aimed at those seeking to undertake a major research project. Except in unusual circumstances, you should have a project in mind and have organised a supervisor.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN142 Major Project Full-Time
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.

Prerequisite(s): ITN100  Credit points: 48  Contact
creativity and analytical thinking that leads to such scientific advances and how to communicate such findings in a rigorous scientific manner.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN152-1 Major Project Part Time
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.

Prerequisite(s): ITN100  Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN152-2 Major Project Part Time
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.

Prerequisite(s): Minimum of 48 credit points in postgraduate studies  Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN162 Project
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.

Prerequisite(s): Minimum of 48 credit points in postgraduate studies  Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN172-1 Project Part Time
Prerequisite(s): Minimum of 48 credit points in postgraduate studies  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN172-2 Project Part Time
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN191 Honours Dissertation 1
Research is about contributing to scientific knowledge. You will be expected to make such a contribution in your honours dissertation, although the size of that contribution will probably be relatively small as this is likely to be your first research project. The principle aim, however, is to provide you with basic research skills that you will be able to apply again in the future in other contexts, be they in a higher research degree, or applied to real-world problems in a industry setting. You will learn the types of processes, creativity and analytical thinking that leads to such scientific

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER
ITN192 Honours Dissertation 2
Research is about contributing to scientific knowledge. You will be expected to make such a contribution in your honours dissertation, although the size of that contribution will probably be relatively small as this is likely to be your first research project. The principle aim, however, is to provide you with basic research skills that you will be able to apply again in the future in other contexts, be they in a higher research degree, or applied to real-world problems in an industry setting. You will learn the types of processes, creativity and analytical thinking that leads to such scientific advances and how to communicate such findings in a rigorous scientific manner.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN193 Honours Dissertation 3
Research is about contributing to scientific knowledge. You will be expected to make such a contribution in your honours dissertation, although the size of that contribution will probably be relatively small as this is likely to be your first research project. The principle aim, however, is to provide you with basic research skills that you will be able to apply again in the future in other contexts, be they in a higher research degree, or applied to real-world problems in an industry setting. You will learn the types of processes, creativity and analytical thinking that leads to such scientific advances and how to communicate such findings in a rigorous scientific manner.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN194 Honours Dissertation 4
Research is about contributing to scientific knowledge. You will be expected to make such a contribution in your honours dissertation, although the size of that contribution will probably be relatively small as this is likely to be your first research project. The principle aim, however, is to provide you with basic research skills that you will be able to apply again in the future in other contexts, be they in a higher research degree, or applied to real-world problems in an industry setting. You will learn the types of processes, creativity and analytical thinking that leads to such scientific advances and how to communicate such findings in a rigorous scientific manner.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN200 Database Systems
This unit presents databases in their key role of enabling enterprise initiatives of all kinds.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: ITN212

ITN201 Enterprise Architectures
The aim of this unit is to equip you with a broad awareness of various systems and models providing a complete solution to the information needs of an organisation, and to provide linkages with other units that you will be doing in your degree. This unit will introduce comprehensive frameworks that show the diversity of infrastructure and information system requirements and introduce the issues involved in aligning business and IT strategy. These frameworks link technology architectures, application architectures, data and information architectures and business architectures showing the inter-connectedness of systems.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

ITN218 Applications Programming
This unit introduces you to the development methods of the Application Program in the Rapid Application Development (RAD) environment. The emphasis of the unit is on the development of windows desktop applications, although other types of applications that can be developed in the environment will be introduced.

The primary aims of the unit are to provide an understanding of: the Microsoft.NET framework and the development of .NET applications; the visual Basic.NET programming language; and the Àuser modelÀ and developing software from an end user perspective.

Prerequisite(s): IT45, IT38: ITN200, ITN600  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITN219

ITN223 Software Development with Oracle
This unit aims to develop a sound understanding of database creation, installation, administration, management, security, back up/recovery and application development. The unit aims to develop practical skills in each of these elements, using appropriate Oracle software.

It is expected that students undertaking this unit will have prior knowledge of relational database terminology and concepts, be thoroughly able to develop SQL for querying, updating and creating tables, and have a sound knowledge of database design.

Prerequisite(s): ITN200 or equivalent, ITN229 or equivalent  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: ITB223

ITN228 Enterprise Systems
This subject presents and discusses important theoretical and practical aspects related to Enterprise Systems. Specifically, the subject looks at the Enterprise Systems Lifecycle (e.g. systems selection, implementation and post-implementation reviews) and socio-cultural facets surrounding Enterprise Systems (e.g. critical success factors, cultural influences, change management, benefits realization). Well researched case studies will be used to better illustrate the relevance of the above mentioned topics. Furthermore, Extended Enterprise Solutions (ESS) such Customer Relationship Management (CRM), Supply Chain Management (SCM) and Enterprise Portals will also be introduced and discussed.

Prerequisite(s): IT38, IT45: ITN201  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
ITN229 Database Design
The aim of this unit is to help you develop your knowledge, understand a formal specification tool (ORM) for modelling information systems unambiguously and to apply this formal technique to conceptualise information systems found in many real world application domains.
Prerequisite(s): See Unit Outline Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-1

ITN233 Enterprise Systems Applications
The aim of this unit is to introduce one of the more complex and comprehensive Enterprise Systems applications. This unit introduces the business perspective and application of modules such as (FI, CO, PP, MM and S&D) and investigates the support provided by these systems and the integration between modules by following some of the major processes in a business. The unit enables students to experience both the business analyst view and the user's view of the system across a number of business processes which includes elements of the configuration activities.
Prerequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN239 Enterprise Data Mining
This unit will provide a comprehensive theoretical coverage of various topics in data and web mining. In addition there will be a significant practical component using hands on tools to solve real-world problems. Specifically, we will consider techniques from machine learning, data mining, text mining, and information retrieval to extract useful knowledge from data which are used for business intelligence, document databases, site management, personalization, and user profiling. This unit will first cover a detailed overview of the mining process and techniques, and then concentrate on applications of these techniques to web, e-commerce, document databases and data from advanced applications.
Prerequisite(s): See Unit Outline Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2

ITN241 Information Technology Management
Preparing you to be an IT professional through an understanding of the resources and strategies available for efficient and effective management of IT.
Prerequisite(s): IT45, IT38: ITN201 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: ITN251

ITN246 Minor Project 1
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.
Prerequisite(s): Minimum of 48 credit points in postgraduate studies Credit points: 12 Contact hours: By arrangement with the supervisor of the project. Minimum contact should consist of one meeting per week.

ITN248 Minor Project 2
The aims of this unit are to help you acquire necessary skills in a problem domain, and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also teaches you how to prepare a well written project report.
Prerequisite(s): Minimum of 48 credit points in postgraduate studies. Credit points: 12 Contact hours: By arrangement with the supervisor of the project. Minimum contact should consist of one meeting per week.
Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN253 Case Studies In Enterprise Systems
This unit seeks to develop business process analysts capable of working as consultants. It seeks to develop the generic skills expected in graduates and in particular to develop better interpersonal skills, better written and oral communication skills, skills in conflict resolution, negotiation, project planning and project management. You will learn to identify, analyse and consider interdependencies. You will increase your awareness for the challenges of teamwork. The projects also allow you to apply the theoretical knowledge gained in the pre-requisite unit to real practical problems. Overall, you will get insights into the skills, tools and services of consultants.
Prerequisite(s): ITN252 Corequisite(s): ITN228 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: ITN282

ITN254 Interaction Design
The aim of this unit is to provide you with an understanding of the theory, practices and challenges associated with the development of creative interactive design and human computer interaction. They will be practically utilized and showcased by completing the assessment items.
Prerequisite(s): completion of a professional studies unit similar to ITB002 Corequisite(s): ITN257 is recommended Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ITN257 Multimedia Systems
After studying this unit you will be able to:
ÅX Design and develop different kinds of interactive multimedia applications;
ÅX Understand the bank of knowledge in cultural developments surrounding the emergence of multimedia technologies. Likewise possess foundational skills in analysis, design and processes that contribute to the production of a creative work, using contemporary hardware and software technologies;
ÅX Understand and develop the creative potential of temporal media forms and their placement and use within new media works; and
ÅX Understand principles and conventions associated with the interpretation and production of meaning through interactive visual representation
Prerequisite(s): Recognisable multimedia units or permission of unit coordinator  
Corequisite(s): ITN254  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITN259 Advanced Multimedia Systems  
This advanced level unit will give you high-level design and development skills in some of the current and emerging areas of Multimedia. Web delivered applications; standalone systems and installations will also be included. It will endeavour to give you an in-depth understanding of interactive Multimedia Systems. You will be given the theoretical basis and practical skills to motivate you in the design and creation of a state-of-the-art system in this discipline.  
Prerequisite(s): ITN257  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2  
Incompatible with: ITB259

ITN260 E-Commerce Site Development  
This unit will enable you to specify, design, implement and maintain advanced e-commerce applications. You will obtain an in-depth understanding of the potential of e-commerce and how it can be employed to benefit an organisation. You will get direct experience of creating an e-commerce storefront following a business to business (B to B) or business to consumer (B to C) model. You will also have a thorough understanding of the computer systems that underpin e-commerce including payment systems, secure transactions and emerging technologies.  
Prerequisite(s): TBA  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2  
Incompatible with: ITB260

ITN264 Information Systems Consulting  
This unit examines the strategic and operational environment of an IS consulting firm. It looks at the lifecycle of an IS consulting engagement and the issues involved at each stage of that lifecycle. The marketplace for IS consulting firms is appraised to give students a better understanding of their positioning and the role of consultants within the different market sectors. Context is provided by examining specific IS consulting practices such as large scale software implementation, systems integration and development and IS Strategic Planning.  
Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 3  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITN266 Information Management  
The aim of this unit is to provide you with an awareness of the activities in which IM professionals are engaged within various organisational contexts. Through the use of case studies, this unit will introduce the strategic and analytic elements that comprise information management activities such as the alignment of enterprise information and business planning, enterprise information policy, evaluation of information resources & systems and applications of the information inventory.  
Prerequisite(s): IT45, IT38: ITN201  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2  
Incompatible with: ITB266

ITN269 Special Topic 2B  
This unit is designed to allow for the significant development of, or emphasis in, information systems not dealt with in other course units. Selected topics and study areas are offered as required and when the expertise is available. See School of Information Systems announcements for details of topics being offered.  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

ITN272 Information Technology Project Management  
The aim of this unit is to provide experience in IT project management issues. It prepares you for the management of IT projects.  
Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-1 and 2008 SEM-2

ITN274 Management Issues for Info Professionals  
The overall aim is to enable you to identify key management issues and encourage familiarity with understanding about common management problems within both libraries and other information agencies (call centres, help desk centres, IT consultancy firms and other information agencies). Using an integrated approach you will find that the subject draws from the field of organisational behaviour, case studies, as well as other literature specifically relating to practices in these types of information agencies. You will be encouraged to view organisations not as fixed but as constantly evolving entities as they attempt to meet the needs of their dynamic and changing environments. You will also receive useful training - applicable to workplace contexts - in the management of human resources.  
Prerequisite(s): Nil  
Credit points: 12  
Contact hours: 36 hours per semester  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITN275 Information Organisation  
To develop an understanding of the principles and practices of information organisation as applied to description and classification of knowledge contained in a range of information resources utilised in different contexts.  
Prerequisite(s): ITN200  
Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

ITN276 Information Services  
This unit seeks to develop your understanding of the key issues involved in developing and managing a contemporary and innovative information service. In particular you will be given the opportunity to become familiar with the methods and tools used in the selection and acquisition of information resources and the creation of information programmes to meet the specific needs of a community or client group. You will also be developing a working knowledge of the skills and techniques essential for critically evaluating the resources and programmes created. The unit further seeks to develop your oral and written communication skills, critical thinking, teamwork skills and project management abilities.  
Prerequisite(s): ITN273  
Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-2
### ITN278 Web Content Reliability
To develop knowledge of the principles of web content management. To develop an appreciation of the skills required for dynamic forms of web architecture, and to begin to explore the development of these skills.

**Prerequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN279 Information Literacy Education
This unit seeks to develop your understanding of information literacy, learning theory and information seeking behaviour and how these concepts can be applied according to the needs of a specific community or client group. In particular you will be given the opportunity to become familiar with the techniques used in designing and delivering instructional events that meet the information needs of a specific community or client group. You will also learn about the techniques essential for evaluating educational events, programmes and resources, and assessing learning outcomes. The unit further seeks to develop your oral and written skills, teamwork skills and critical reflective practice.

**Prerequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN280-1 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN280-2 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN280-3 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN280-4 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN280-5 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN280-6 Professional Practice
**Credit points:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

---

### ITN298 Business Process Management
The aim of this unit is to introduce you to modern methods and tools of business process management. These skills will be applied to the most complex, comprehensive and relevant IT applications. This unit also seeks to develop logical thinking and the capability to understand and deal with complex systems, within a business management framework. The unit's content will focus strongly on business process modelling, as a fundamental technique to manage the complexity associated with process management tasks within various contexts.

**Prerequisite(s):** Assumed knowledge equivalent to ITB298 understanding or ITN301  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN301 Business Process Modelling
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

---

### ITN315 Information Management Project
The aims of this unit are to help you acquire necessary skills in a problem domain and to enable you to conduct a well-defined project with specific outcomes within a precisely defined project plan. This unit also helps you learn how to prepare a well written project report.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

---

### ITN316 Digital Library Systems
To introduce the concept and application of digital libraries and the factors affecting their successful implementation.

**Prerequisite(s):** ITN275  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN319 Records Systems
To understand the concepts of recordkeeping, and how they are applied to electronic recordkeeping systems.

**Prerequisite(s):** ITN266  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

---

### ITN322 Information Resources
Managing information; database structure, basic searching; online industry; searching and the searching process; search strategies; online sources, Dialog etc, CD-ROMS; the Internet historical background and searching tools; management aspects of using external search services; and legal information sources; research and development information sources; demographic data; government resources; marketing information sources; patents, standards; census data, company annual reports; people as sources of information; ethics of information gathering.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN330 Information Management Project
**Incompatible with:** ITB322

---

### ITN360 Corporate Systems
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

---

### ITN361 Socio Technical Systems
This unit introduces students to principles and techniques for designing, implementing and evaluating instruction which will enhance their client's ability to work within contemporary information environments. Different approaches to information literacy and information literacy education will be considered, and ways of conceiving teaching and learning will be explored.

**Prerequisite(s):** ITN336, ITN337  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

---

### ITN362 Organisational Databases
Databases are a key feature in modern organisational systems. Stores of data are the prerequisite for organisational knowledge and are the substance of technology applications. Databases underpin all technologies, platforms and application areas such as online transactions (e.g. shopping), health information
systems, web services, e-government, banking and geographical information systems. Corporate Systems Managers understand how databases are used in business domains and the benefits gained from capturing, storing and retrieving quality data to assist organisational planning and decision making. Professionals who understand the privacy and legislative requirements as they pertain to database security and management are increasingly in demand.  

**Prerequisite(s):** Nil  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**ITN363 Project Management Practice**  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ITN364 Information Systems Development**  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**ITN365 Business Analysis**  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**ITN366 Information Systems Operations**  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**ITN370 Project**  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**ITN373 Project**  
**Credit points:** 12

**ITN700 Programming Principles**  
Information technology students need a fundamental knowledge of programming and an understanding of the processes and issues involved in the development of software. Graduates will most likely be required to work with programmers at some time in their career. Therefore they need to understand the challenges and constraints that arise in the software development process. This unit provides students with a basis for the further acquisition of programming knowledge and skills and is a prerequisite for subsequent units in software engineering, data communications and information systems.  

**Prerequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** ITN600

**ITN701 Networks and Systems**  
The main aim of this unit is to provide a broad introduction to networks. The teaching staff will make surface level approaches to explain concepts from diversified areas within computer networking. The unit also aims at giving extensive hands-on practical sessions throughout the semester.  

**Prerequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** ITN601

**ITN702 Algorithms and Data Structures**  
Fundamentally, all computer programs are an interaction between algorithms and data structures. Algorithms define the sequence of computational steps performed by the program. Data structures determine how the program stores and retrieves information. Both have a major impact on the program's efficiency and effectiveness. In this unit you will be introduced to a variety of common programming abstractions, including both algorithmic problem-solving strategies (e.g., divide-and-conquer, iterative improvement, etc), and commonly-used data structures (e.g., binary trees, indexed tables, etc). In particular, you will learn techniques for assessing the efficiency of algorithms (through complexity analysis), verifying that algorithms are correct (by identifying invariant properties), and implementing data structures in practice (as abstract data types).  

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ITN705 Intelligent Systems**  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ITN706 Systems Programming**  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**ITN712 Software Engineering Principles**  
This unit is the starting point for the specialist knowledge required in the Software Architecture major. Up to this stage units have primarily focussed on learning programming and design skills. This unit introduces you to the practice of following a formal process to guide the development of software. Using a process as a guide, you will look at each of the major activities involved in developing a software system. You will also learn how to manage and control the software development process for a large project when anumber of team members are involved in the development. This unit provides the foundation you will need for many later units, and develops the professional practice of working on large software systems.  

**Prerequisite(s):** IT35/40/48: Nil; IT38/45: ITN700  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ITN713 Advanced Java Programming**  
In this unit you will develop skills to allow you to discover, learn and communicate new knowledge in an efficient manner. The unit will improve your understanding of some specific areas of intermediate and advanced programming technologies and tools and enhance your graduate capabilities in the areas of discovery and learning in the context of programming technology.  

**Prerequisite(s):** ITN700  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1
UNIT SYNPNOSES

ITN716 Advanced Web Applications Development
This unit will provide you with an understanding of the issues, structure and technologies used for developing web based systems. The unit will provide you with the theoretical and practical skills needed to develop enterprise critical applications designed with an n-tier architecture using state of the art technologies. A comparative technology approach is taken, including an analysis of how web technologies have evolved to date, in order to identify common themes and to better enable you to comprehend and critically evaluate future web technology offerings.

Prerequisite(s): ITN711 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN717 Enterprise Software Architecture
This unit aims to introduce you to the field of enterprise architecture. It attempts to give you a grounding in the basic knowledge and skills required by an enterprise architect. This includes a solid understanding of the IT challenges currently facing medium to large size organizations. The theory and technologies currently used to address them and an appreciation of the business imperative for which they are utilized.

Prerequisite(s): ITN711 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ITN720 Internet Protocols and Services
The aim of this unit is to give you an understanding of the underlying protocols involved in common network services. This unit will also provide you with the skills to program applications that interact with these protocols.

Prerequisite(s): IT38/45: ITN701; IT35/40/48: Nil Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN721 Computer Network Administration
The aim of this unit is to provide students with a working knowledge of the technical aspects and theory of network administration and management. The unit uses the Unix environment as the learning platform for attaining technical skills and for the development of problem solving skills necessary to be a successful networking professional.

Prerequisite(s): IT35/40/48: Nil; IT38/45: ITN701 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN723 Wireless and Mobile Networks
This unit provides you with the skills to be able to design and understand the issues involved with different types of wireless communications systems. It develops your knowledge of Wide Area Networks (WANs), Local Area Networks (LANs) and Personal Area Networks (PANs) as well as skills in programming for mobile handsets. You will also develop knowledge of the different types of wireless communications technologies available and when each is most applicable in a particular situation.

Prerequisite(s): ITN720 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN730 Information Security Fundamentals
You should understand the major issues in information security and the implications of interactions between entities, and be aware of international information security management standards. You should have a broad view of the different kinds of protection offered by IT security technology and practice, and understand how they apply within your IT specialisation, i.e. where and how security and compliance issues are likely to arise. You will be able to articulate security issues and with the help of a security specialist, formulate solutions. This unit is important for you as a member of the global community, as a computing professional, and as a foundation for further specialist study in inform.

Prerequisite(s): IT35/40/48: Nil; IT38/45; ITN700, ITN701 & ITN200 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SUM-2, 2008 SEM-1 and 2008 SUMMER

ITN732 Cryptology and Protocols
This unit aims to help you: understand the fundamental algorithms and protocols of cryptology, with emphasis on the major applications of cryptology; and develop your analytical thought processes, enabling you to apply mathematical and cryptological techniques to solve real world problems in a hands-on manner.

Prerequisite(s): Maths B, MAB105 or equivalent Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN746 Modelling and Animation Techniques
This unit will provide you with the knowledge and skills to use an industry standard graphics API to implement graphics applications and to develop a basic real-time animation system using an industry standard language.

Prerequisite(s): ITN711 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ITN747 Real Time Rendering Techniques
This unit will provide you with knowledge and skills in basic to advanced techniques in real-time rendering using shading languages. You will be able to implement a high-quality real-time rendering system in an industry standard API.
Prerequisite(s): ITN746  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: ITB648

ITN749 Scientific Programming
Prerequisite(s): IT35/IT40/IT48: Nil; IT38/IT45: ITN700  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN750 Computer Game Studies
This unit is designed to give you a clear understanding of the socio-cultural issues that affect the computer game industry. Through critical review of games and games industry literature, playing games and actively participating in classroom discussion you will develop your capacity to join in the discourse about the design, impact and future direction of computer games in our society.
Prerequisite(s): Nil  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN751 Games Production
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITN761 Special Topic 1
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

ITN762 Special Topic 2
The curriculum provides in-demand Internet technology skills for designing, building and maintaining networks. Combining instructor-led, online education with hands-on laboratory exercises, the curriculum enables students to apply what they learn in class while working on actual networks. From building basic networking skills to advanced VLAN troubleshooting, the Networking Academy curriculum prepares students for industry certification that lead to lifelong opportunities. Particular emphasis is given to using decision-making and problem-solving techniques in the application of science, mathematics, communication and social studies concepts to solve networking problems. Upon successful completion of this course, students receive a Certificate of Completion.
Prerequisite(s): The following skills are recommended or mandatory: Corequisite(s): nil  Credit points: 12  Contact hours: 4 hours per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN763 Special Topic 3
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN764 Special Topic 4
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

ITN765 Special Topic 5
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

ITN770 Internationalisation of Software
Software is now a global market, and developers need to be able to produce applications that can be used in many different cultures and nations. There is a significant body of enabling technology that allows efficient and cost effective development of applications that can be used in diverse contexts. Understanding the principles and the technologies involved in internationalisation and localisation is essential for companies seeking to go global or that are already global.
Prerequisite(s): ITN700 + See unit outline  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: ITN677

ITN771 Advanced Network Management
Computer networks are an essential component of modern civilization. Students undertaking this unit will have previously learned the fundamental theory and practical aspects of network administration and management. This unit builds upon that foundation and extends the knowledge and skills to enterprise wide networks which are significantly more complex than small networks. Security of enterprise wide networks is an important issue in this unit, along with network management systems.
Prerequisite(s): ITN721  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2

ITN773 Trusted Systems
Information systems must be protected against misuse in order to protect essential information assets. Users should be able to rely upon the trustworthiness of the hardware, software and communication networks comprising these information systems. Such trustworthiness in turn should be derived from sound security design, and evaluation mechanisms assessing the effectiveness of security design and implementation. This unit enables students to identify the essential features of such trusted security design and evaluation. Students are provided with an overview of trusted system design and the background to international efforts seeking to implement effective security system evaluation and certification infrastructure.
Prerequisite(s): ITN730 and ITN745  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Incompatible with: ITN681

ITN774 Computer Forensics
This unit focuses on the principles, that should direct the collection, analysis and presentation of the digital evidence available to an investigator, and the techniques that are used in order to ensure that those principles are met. IT professionals, especially those with a responsibility for computer security, are increasingly required to gather, analyse and present evidence of computer crime. To undertake this unit, students should have already achieved a sound foundation in computer software, computer communications, and computer security thus enabling them to relate to the principles and practice of computer forensics, which build on that foundation.
Prerequisite(s): ITN730 and ITN745  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching
Prerequisite(s): 48 cps in relevant PG units  

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN791 Minor Project 1

Prerequisite(s): 48 cps in relevant PG units  
Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN792 Minor Project 2

Prerequisite(s): 48 cps in relevant PG units  
Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ITN830 Information Security Fundamentals 1
You should understand the major issues in information security and the implications of interactions between entities, and be aware of international information security management standards. You should have a broad view of the different kinds of protection offered by IT security technology and practice, and understand how they apply within your IT specialisation, i.e. where and how security and compliance issues are likely to arise. You will be able to articulate security issues and with the help of a security specialist, formulate solutions. This unit is important for you as a member of the global community, as a computing professional, and as a foundation for further specialist study in information security  
Credit points: 6  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

ITN831 Information Security Fundamentals 2
You should understand the major issues in information security and the implications of interactions between entities, and be aware of international information security management standards. You should have a broad view of the different kinds of protection offered by IT security technology and practice, and understand how they apply within your IT specialisation, i.e. where and how security and compliance issues are likely to arise. You will be able to articulate security issues and with the help of a security specialist, formulate solutions. This unit is important for you as a member of the global community, as a computing professional, and as a foundation for further specialist study in information security  
Credit points: 6  
Campus: Gardens Point

JSB171 Justice and Society
The Justice degree is about producing competent justice professionals. In order to achieve this purpose, this degree combines knowledge of the criminal justice system with an understanding and appreciation of the complexities of social justice. The purpose of this unit is to introduce students to the structural parameters of social justice.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3  Campus: Gardens Point and External  Teaching period: 2008 SEM-1  Incompatible with: JSB131, JSB011, JSB101
JSB172 Introduction To Crime Research
There are a range of skills which are essential for students studying the Bachelor of Justice degree. This unit introduces basic skills in research and written communication in order to lay a successful foundation for academic and professional achievement
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: JSB132, JSB012, JSB104

JSB175 Social Ethics and the Justice System
It is essential for those employed within the justice system to be able to competently and confidently work at the borders between ethics and the law. Ethical ability will enable practitioners to critically assess the moral status of current laws, to interpret acceptable standards of behaviour in situations not covered by the laws, and to develop shared understandings of moral responsibility in justice organizations and the wider community.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: JSB134

JSB176 Criminal Law in Context
Justice students work, or hope to work, as justice professionals in areas related to the Criminal Justice System or Human Rights. They need an understanding of fundamental principles of criminal law and of social justice issues related to criminal law. Laypeople may assume that the law is shaped by rational decisions aimed at reducing crime and punishing wrongdoing, when in fact a closer examination of the policy underpinnings, the substance of the law and the way in which it is applied demonstrates that such an analysis is overly simplistic. A deeper understanding of the forces that shape the law and the way the law's application can distort its policy objectives is essential to those who wish to contribute to more effective laws.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: JSB242, JSB024, JSB204

JSB177 Crimes of Violence
Justice students work, or hope to work, as justice professionals in areas related to the criminal justice system or human rights. They need an understanding of fundamental principles of criminal law and of social justice issues related to criminal law. Students undertaking the Criminology and Policing major need to understand issues of criminal procedure and due process, as well as specific contexts of criminal law.

Crimes of violence provides students with an understanding of the forces that shape this area of the law and the rationales for its implementation.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Teaching period: 2008 SEM-2 Incompatible with: JSB138

JSB272 Theories of Crime
The main aim of this unit is to introduce the student to the study of theoretical criminology. This unit will address the social context of crime but is not exclusively sociological. The study of criminology is essentially multi-disciplinary and this is reflected in the diversity of theoretical approaches. Theory is typically offered as distinct from methods of research, however, together they provide the foundation for policy and practice. The unit provides an analytical framework in order to critically assess the epistemological claims and justifications found in criminological theory. Criminological theories are viewed embedded governmental practices aimed at ensuring the regulation and control of particular 'problem populations'.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: JSB231, JSB018

JSB273 Crime Research Methods
This subject builds upon research skills acquired in first year study and is thus intended to provide knowledge and skills in research design and methodology for use in the fields of criminal justice, justice administration and criminology. The aims of this unit are three-fold. First, to revisit issues central to the research process. Second, to introduce students to a variety of research design models, data collection techniques and data analyses. Third, to give students the practical skills in writing a research proposal, carrying out a research project and reporting the research results. This subject, offered as a compulsory primary major unit in both the Criminology and Policing primary majors and sets the foundation for research in the justice honours program.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: JSB933, 043

JSB274 Policing in Context
This unit studies the diverse roles, duties, powers and problems of policing in Australia with the primary focus on sworn police officers and also the approaches of policing in Australia across three key sections. The first section called 'Principles of Policing', comprises of four modules that cover the principle knowledge needed for understanding the policing history, context and structure in Australia. The second section is 'Specialisation' which focusses in closer detail the actual skills, tasks and operations that police are expected to engage in as part of their core skill requirements. In the final section, 'Issues', the module reflects on contemporary issues that are enhancing the task of police work and may potentially change its areas of specialisation.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point and External Teaching period: 2008 SEM-1 Incompatible with: Nil

JSB371 Indigenous Justice
In the context of increasing public and institutional concern for the recognition of the political, social, cultural and legal rights of Indigenous peoples, it is essential that those who
work in the justice system have an understanding of contemporary Indigenous justice issues. All justice professionals require a sound grasp of the unique aspects of Indigenous culture and society which impact upon the interaction of Indigenous people with the justice system. The operation of both the criminal and civil justice systems in Australia has, at times, been characterised by inequity, intolerance and ignorance in the development and implementation of policies directed towards Indigenous people. This unit explores the major areas of interaction between Indigenous Australians and the justice and legal systems and seeks to raise awareness of those factors which inhibit the formulation of sound policy and practice.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point and External  **Teaching period:** 2008 SEM-1  **Incompatible with:** JSB352

JSB373 Crime and Punishment
This unit sets out to examine punishment and correction in contemporary Western society. What does contemporary corrections look like? In the last decade, across the Western world, there has been a massive growth in prisoner numbers and in the industry of corrections, and a decreasing use of community alternatives to prison. What does the near future hold? More prisons or less? More community corrections or less? Technological developments, increasing privatisation and expanding captive labour forces all have implications for the future of the prison. Technologies of surveillance look set to play a greater role in community corrections, and may lead to a further widening of the net of social control. To what extent will political and economic imperatives, rather than wide and open social discourse, dictate the future of our corrections systems? Should our response to crime be based on punishment?

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point and External  **Teaching period:** 2008 SEM-1  **Incompatible with:** JSB331 and JSB233 if done in combination

JSB375 Investigative Knowledge: People and Systems in Policing
This unit is concerned with 'investigative knowledge' and 'expert systems' that have been developed to create and integrate such policing knowledge. In general "crime investigation is a seriously under-researched field" (Wright, 2002:79) and specialised areas within the investigation process per se also lack substantive research. The specific focus of the unit is on looking at expert systems that fall within the Knowledge Management arena with regard to how they relate to criminal profiling and cognitive/investigative psychology.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point and External  **Teaching period:** 2008 SEM-1

JSB378 Drugs and Crime
**Credit points:** 12  **Teaching period:** 2008 SEM-1

JSB414-4 Thesis 4
A research thesis is the major component of the Honours course. It provides students with an opportunity to conceive, design and execute a major research project with specialist supervision. This unit in conjunction with thesis 1, 2, and 3 is a major part of the Honours program and begins the process of thesis conceptualisation and formulation. This unit provides the preparation for the honours dissertation.

**Prerequisite(s):** Nil  **Corequisite(s):** JSB414-1, JSB414-2, JSB414-3  **Credit points:** 12  **Contact hours:** In consultation with supervisor  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** Nil

JSB971 Gender Crime and the Criminal Justice System
This unit examines the experiences and treatment of men and women as criminals, victims and workers within the criminal justice system by asking whether and how: a) offending patterns vary according to gender, b) experiences of victimisation differ for men and women, c) the treatment and experiences of male and female offenders, victims and workers within the criminal justice system differ. Theories about crime, victimisation and criminal justice practice in relation to gender are also explored as are intersections between gender and Indigenous status. Recent developments in criminal justice policy and practice that could potentially effect future change with regard to gender inequities are critically examined.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point and External  **Teaching period:** 2008 SEM-1  **Incompatible with:** Nil

JSB972 Life Course Criminology
**Credit points:** 12

JSB975 Independent Study
The independent study represents an individual piece of research completed under the guidance of an academic supervisor. It may be a research study which makes a contribution to the body of knowledge in your discipline area or professional background, or a study in which you critically analyse and evaluate existing knowledge and produces observations and conclusions of relevance to the particular field of study.

**Prerequisite(s):** Minimum GPA of 5; In final semester of study or completion of 192cps  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** In consultation with Supervisor  **Campus:** Gardens Point and External  **Teaching period:** 2008 SEM-1  **Incompatible with:** JSB931

JSB982 Transnational Crime
The aim of this unit is to understand the social, political and legal issues that are associated with transnational crime while also giving you a profile of the crimes themselves, their incidence statistics and primary locations. This unit seeks to further develop your skills in critical analysis, problem solving, research, and writing. The unit is an elective to the Criminology and Investigations and Policing majors at the undergraduate level and is intended for second or third year students.

The unit also aims to encourage you to develop your knowledge of international crime as well as provide you with the additional knowledge of how international institutions...
and states cooperate in seeking to eradicate transnational crime. Issues such as the relationship between states, law and politics, as well as issues of poverty, responses to crime and social issues concerning these crimes will also be uncovered in this unit.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3  Campus: Gardens Point and External  Teaching period: 2008 SEM-1  Incompatible with: Nil

JSB983 White Collar Crime  
Credit points: 12  Teaching period: 2008 SEM-1

JSB984 Sex Offences  
Credit points: 12  Teaching period: 2008 SEM-2

JSB985 Political Violence and Terrorism  
Credit points: 12  Teaching period: 2008 SEM-2

JSB986 Death Investigation  
Credit points: 12  Teaching period: 2008 SEM-2

JSN019 Contemporary Issues in Sentencing Law  
Sentencing law has become a specialised area of research and practice over the past two decades in the United Kingdom and the United States, and increasingly so in Australia. In practice, this is particularly so for barristers and specialist criminal law practitioners. Increasingly, law schools have undergraduate and postgraduate units in this area. Almost all Australian jurisdictions have now introduced specialised sentencing legislation, introducing discrete principles and thereby ensuring that a separate discipline area of sentencing law has emerged, complete with its own discourse. It is therefore appropriate that sentencing law should feature as a postgraduate unit in its own right.

Credit points: 12  Contact hours: 1 week Intensive  Campus: Gardens Point  Teaching period: 2008 SEM-1

JSN101 Justice and Human Rights  
Arguments concerning perceived problems of justice and injustice usually reveal conflicting ideas about what justice actually means both theoretically, and in practice. Justice and human rights go hand in hand both theoretically and in the practice of law enforcement and other criminal justice professions. You will require a sophisticated level of understanding of theories of justice and human rights in a social and criminal context if you are to effectively apply in practice the content knowledge you have acquired in the course of your post graduate study.

Credit points: 12  Teaching period: 2008 SEM-1

JSN102 Applied Data Analysis Techniques For Criminology and Criminal Justice  
Credit points: 12  Teaching period: 2008 SEM-1

JSN103 Criminal Behaviour and Investigative Practice  
Credit points: 12  Teaching period: 2008 SEM-1

JSN104 Transnational and Organised Crime  
Credit points: 12  Teaching period: 2008 SEM-2

Credit points: 12  Teaching period: 2008 SEM-1

JSZ902 Criminal and Terrorism Profiling  
Credit points: 12  Teaching period: 2008 SEM-2

KCB101 Communication in the New Economy  
This unit introduces you to foundational ideas in the study of communication, drawing on examples of communication practice from contemporary society, and the historical development of both the media of mass communication and ways of theorising its development. The idea of the 'new' economy is the organising motif of the unit. The unit both introduces and problematises the discipline of communication as it confronts, engages and interpenetrates the new economy.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KCB102 Media and Society: From Printing Press to Internet  
Innovations in media and communication technologies have been deeply implicated in the evolution of human society from ancient times to the present. This unit explores the enabling capacities of media and communications, as well as other aspects of media power from a variety of perspectives. This unit also explores key controversies and debates surrounding the relationships between media and society.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KCB140

KCB103 Strategic Speech Communication  
This unit is based in rhetorical and group communication theories, as a base for developing professionals who are articulate presenters, probing but empathic interviewers and interviewees, and good team players. Theory and practice
are interrelated to develop understanding and self-reflexivity within students concerning their own communication skills, and to guide them to become effective leaders in the communication industries professions. Practice in simulated work situations will allow growth and learning in the laboratory of the classroom.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KCB213, KJB180

**KCB104 Media and Communications Industries**  
This unit provides an introduction to media and communications industries, with particular reference to the Australian media and communications industries and associated issues. The unit will examine aspects of broadcasting, magazines and publishing, popular music, film, the Internet and games industries, from social, industrial and cultural perspectives. You will be involved in discussion of current issues and media features.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KCB150

**KCB105 Media and Communication Research Methods**  
The research process (define problem, collect relevant information, analyse information, formulate conclusions/outcomes) underlies many decisions that confront media and communication professionals. This subject introduces foundational research skills and contextualises them with a number of media and communication problems. The unit involves qualitative and quantitative research methods including observation, focus groups, case studies, survey research and experiments studied in the context of media and communication problems and issues. You will carry out research using some of these methods, analyse the results and present their conclusions and recommendations.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KCB334

**KCB201 Virtual Cultures**  
This unit provides both a critical and conceptual introduction to the issues arising from the emergence of 'virtual communities', and a practical introduction to the skills and competencies required for the development and maintenance of successful online social networks. It considers issues arising from the development of online communities from the perspectives of corporate cultures and public or civic action, as well as questions of community, identity and social inequality in Internet culture, conflict management, and ethical and privacy issues on the Web.

**Assumed knowledge:**  
* advanced academic writing skills  
* advanced research and referencing skills in offline and online contexts  
* good working knowledge of the Web and other new media technologies  
* some practical experience using blogs, wikis, and/or social networking  
* ability to conduct academic work independently and in groups

**Websites as a reader and/or contributor**

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KCB295

**KCB202 New Media Technologies**  
New media technologies now affect virtually all aspects of our life, from leisure to work. A thorough understanding of their social, cultural, political and economic impacts is crucial for creative industries practitioners. This unit identifies key new media technologies and provides a contextual understanding of their current roles and potential future trajectories.

**Assumed knowledge:**  
* advanced academic writing skills  
* advanced research and referencing skills in offline and online contexts  
* good working knowledge of the Web and other new media technologies  
* some practical experience using blogs, wikis, and/or social networking  
* ability to conduct academic work independently and in groups

**Websites as a reader and/or contributor**

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KCB336

**KCB203 Consumer Cultures**  
A knowledge of and ability to research consumer cultures is essential to those working in the Creative Industries: it is crucial to understand the ways in which consumption actively shapes not only media and production industries, but also the value and meanings of products themselves. This unit builds on your first-year studies, requiring you to synthesise and apply concepts and methodologies that you have learned in earlier units. This unit prepares you for your final year by focusing broader understandings of media, communication, and production through the lens of consumer cultures. The knowledge that you will gain in this unit will inform your professional, academic, and creative practices in your final year.

**Assumed knowledge:**  
* Introductory understanding of the relationship between media texts, institutions and society  
* Introductory skills in media text analysis (e.g. semiotics and discourse analysis)

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KCB301 Media Audiences**  
A knowledge of and ability to research audiences is essential to a detailed and comprehensive understanding of the media. The ability to undertake quantitative and qualitative research into various audience groupings, the use of associated analytical tools and the ability to critically analyse academic and industry based audience research are important skills for students undertaking research in Media Communication and those seeking employment in
media industries.

Assumed knowledge:
* Introductory understanding of the relationship between media texts, institutions and society
* Introductory knowledge of the following, as they apply media or market research:
  - Quantitative and Qualitative research design
  - Basic statistical analysis skills
  - Qualitative research methods such as interviews and participant observation

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1
Incompatible with: KCB349

KCB302 Political Communication
This unit provides an overview of the theory and practice of political communication and the role of discursive strategies in the social construction of meaning, with particular reference to media and communications industries. The unit examines political campaigns in Australia and internationally, through a critical examination of theories of media influence, as well as notions of crisis management, rhetorical models, persuasion theory, and the use of images as a power resource to succeed in political campaigns. The unit explores how survey research helps the planning and development of political strategies through an analysis of their application in recent political campaigns.

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1
Incompatible with: KCB311

KCB303 Applied Media Communication
In this unit, you will explore ways in which your knowledge of media industries, audiences and texts finds application in employment contexts. You also develop and consolidate an applied understanding of databases in the process of maintaining and developing an online directory of media and related organisations serving the greater Brisbane area. Questions of professional practice in online and workplace environments are also discussed, with particular reference to matters of freedom of expression, accuracy and fairness, access and equity, cultural difference, privacy, security and intellectual property.

Prerequisite(s): Completion of 168 credit points of study. Students are expected to undertake this unit in their final year of study

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2
Incompatible with: KCB348

KCB304 Managing Communication Resources
An understanding of controlled media (ie media in which the communicator, rather than a gatekeeper, controls the final content), in both print and electronic forms, is critical for professional communicators. Controlled media resources remain the most common tools developed during communication campaigns. This unit develops your ability to devise effective resources for clients. You will develop practical skills in managing projects, researching the audience, writing and designing resources, testing their work, and seeing the product through to final production. This unit involves desktop publishing training and offers you an opportunity to develop a print or electronic resource for a client.

Prerequisite(s): Completion of 72 credit points of study

Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2
Incompatible with: KCB335

KCP402 New Media Technologies
This unit considers the social, cultural, economic and political implications of development of new media technologies, such as the Internet and World Wide Web, broadband cable and satellite technologies. This unit considers the following: the historical development of technologies; different understandings of digital culture; the impact of new media forms upon cultural practices and modes of social interaction; the impact of new media in traditional media industries (print, broadcast) and areas such as entertainment and education; the legal, regulatory and policy issues arising from the development of new media technologies.

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2
Incompatible with: KCP336

KCP303 Creative Industries: Applied Research
This unit focuses on the application of research skills required for professional practice in the creative industries, including policy analysis, focus group, ethnographic, interview and survey research. Through a series of case studies, you will work with research data and will be encouraged to apply research skills to your own professional activities.

Prerequisite(s): Completion of 36 credit points of postgraduate K coded units

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1
Incompatible with: KCP353

KCP404 Advertising Creative: Introduction
This unit provides an introduction to the creative side of advertising, involving the analysis of advertising creative content, the development of creative strategies, creative concepts, and the crafting of persuasive ideas. The unit is the foundation for further work in creative advertising, and provides you with a thorough grounding in creative advertising history, industry practices, strategies and concept development.

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: KCP360

KCP405 Advertising Creative: Electronic and Print Media
This unit develops core skills in the creative production of advertising for key electronic and print media: TV, radio, cinema, interactive, paper, print, magazine, and outdoors. It examines the following: how creative advertisers use these media principles for creating effective advertisements; the media influence in the creative process; how to present concepts for each medium; the roles, steps and components of creative advertising production. Through this process, you expand your understanding of and skills in developing advertisements for the key electronic and print mediums.

Credit points: 12 Contact hours: 3 per week Campus:
Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KCP361

KCP406 Advertising Creative: Copywriting and Art Direction
Copywriting and art direction are fundamental to creative advertising practice. Both tasks exist at the front end of advertising: copywriters and art directors help to bring advertising campaigns to life through creative concept development, writing, and liaising with both clients and artists. This unit builds on the introductory creative advertising units. It examines contemporary advertising theory and practice and develops practical skills in writing and art directing. Case studies examine a wide range of advertising campaigns, including campaigns to sell products, corporate reputations, and not-for-profit organisations.
Prerequisite(s): KCP404/KCP360 must be taken as either a prerequisite or a corequisite.  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KCP362

KCP407 Applied Professional Communication
This unit honed your skills in professional communication and integrates the important skills of writing and presenting under a strategic planning framework. It includes a focus on leadership, teamwork, audience analysis, evaluation, and ethics.
Prerequisite(s): KCB103 must be taken as either a prerequisite or a corequisite.  Credit points: 12  Contact hours: 2 hours per week for weeks 1-8, followed by individual consultations with a project supervisor.  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KCP411 Advertising Creative: Major Project
This unit provides you with an opportunity to apply creative, research and project management skills to the development of a major new media advertising project, involving development of a creative strategy for a major advertising campaign, an advertising campaign, and a report. You will be required to publish, exhibit or perform a formal presentation to relevant industry parties, and the project will simulate a real world industry environment.
Prerequisite(s): KCP404/KCP360, KCP405/KCP361, KCP406/KCP362, KVP401/KVP100  Credit points: 24  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: KKN600

KDB101 Performance 1
This studio based unit consists of a creative process through rehearsals and classes with choreographers, rehearsal directors and teaching staff leading to a studio and public performance.
Corequisite(s): KDB103  Credit points: 12  Contact hours: 8 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KDX111

KDB102 Performance 2
This studio-based unit consists of a creative process through rehearsal directors and teaching staff leading to a
KDB110 Deconstructing Dance in History
This unit includes a study of various international historical and contemporary contexts of dance as art. It focuses on romanticism, classicism, modernism and postmodernism.
Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KDB189 Dance Assessment and Reporting
This unit relates current theoretical issues in assessment to the unique challenges of dance assessment. Students explore a range of assessment procedures, methods and strategies to support quality and equity in dance assessment at all levels.
Credit points: 12  Campus: External

KDB190 Professional Practice and Business Administration for Dance Teachers
This unit considers the implications of Dance Industry Code of Ethics (1987) for teaching and learning in dance. This unit also includes practical and useful materials for the effective and efficient operations of a business in dance teaching by relating current small business management practices to the specific organisational needs and requirements for dance teaching businesses.
Credit points: 12  Campus: External  Teaching period: 2008 SEM-1 and 2008 SEM-2

KDB191 Dance Teaching Methodologies
This unit provides you with the opportunity to investigate and explore dance teaching issues relevant to your own teaching context. The unit materials include strategies and models for planning and implementing dance lessons and curriculum, catering for the diverse learning needs of students and managing the classroom as a complex social environment.
Credit points: 12  Campus: External

KDB192 Stagecraft and Costume for Dance
This unit provides opportunities to investigate the principles of design as they relate to the visual environment of a dance performance / production. It considers principles and theoretical issues relevant to design for stage and video, stimulating and innovative examples of visual designs for dance performance and practical information for production / planning and budgeting.
Credit points: 12  Campus: External

KDB195 Dance Teaching Studies 1
As a dance teacher you need a diverse range of creative and professional skills to manage and promote learning in your dance teaching context. Possessing the skills to communicate and be critically reflexive are vital when interpreting, planning for and managing the interactions in your dance classes. Your choreographic skills are also called upon to create new and adapt existing dance material for your students. Reflecting on current theory and best practice approaches can provide frameworks for understanding and enhancing your own professional practice.

KDB196 Dance Teaching Studies 2
The theory of choreography and the basic skills of crafting choreography form the basis of study in this unit. This unit also provides students with the opportunity to investigate current research relating to teaching for performance. Issues such as psychology of performance and pacing of dance training are addressed.
Credit points: 12  Contact hours: 1 week full time residency in Summer Semester  Campus: Kelvin Grove  Teaching period: 2008 SUM-2

KDB197 Dance Analysis And Dance Histories
This unit examines aesthetic theory and analysis models that assist you to respond to and reflect upon dance. You will apply this understanding to the research and analysis of dances in context.
Credit points: 12  Campus: External

KDB198 Safe Dance Practice
This unit provides you with the knowledge and understanding of the information regarding safe dance practices. Practical activities focus on the implications of current research in safe dance practice to dance teaching and learning. The content of this unit reflects a holistic approach to training in dance by considering a diverse range of issues such as basic anatomy and physiology, the use of imagery in dance training, injury prevention and management strategies, nutrition and lifestyle management.
Credit points: 12  Campus: External

KDB201 Dance Curriculum Studies 1
As the first of a series of three curriculum units, this unit provides introductory practical engagement with the theory, syllabi and practices of dance learning and teaching in schools. You will be encouraged to utilize your knowledge, skills and understanding of the processes of making, performing and appreciating dance in developing teaching and learning experiences. You will begin to understand and learn to manage the complex socio-cultural environments of the dance classroom and develop theoretical understandings, practical knowledge and skills necessary to be an effective Dance teacher. Each subsequent curriculum unit will then provide you with opportunities to increase your breadth and depth of understanding in these areas.
Prerequisite(s): Completion of 48 credit points of study in this discipline area  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KDB421

KDB202 Dance Curriculum Studies 2
This is the second of a series of three curriculum units, this unit builds on practical engagement with the theory, syllabi and practices of dance learning and teaching in schools. You will be encouraged to utilise your knowledge, skills and understanding of the processes of making, performing and appreciating dance in developing teaching and learning experiences with particular emphasis on Years 10-12.
Prerequisite(s): KDB201  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SUM-2
KDB203 Dance Curriculum Studies 3
Developing from the work undertaken in Dance Curriculum Studies 1 and 2, this unit provides you with the opportunity to continue investigating and exploring dance curriculum planning and work program design. This unit also relates current theoretical issues in assessment to the unique challenges that dance assessment provides. You will explore a range of assessment procedures, methods and strategies to support quality and equity in dance assessment at all levels.
Prerequisite(s): KDB202 must be taken as either a prerequisite or a corequisite Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KDB114

KDB204 Australian Dance
This unit includes a study of the ritual, artistic and social functions of dance in contemporary Australian society.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

Incompatible with: KDB114

KDB205 Dance in Education
This unit includes a practical introduction to philosophies and practices in dance education. The areas of choreography, performance and appreciation are explored as students develop basic teaching and reflective practice skills. This unit is appropriate for students planning to teach dance in the primary, secondary, community or studio context.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

Incompatible with: KDB117

KDB207-1 Choreographic Studies 2
This unit includes practice and performance of choreographic work employing choreographic skills in creation of movement material, form and style. Clarity of intention is major focus. This is a year long unit. Students must enrol in KDB207-2.
Prerequisite(s): KDB107/KDX143 Credit points: 6 Contact hours: 2 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

Incompatible with: KDX144-1

KDB207-2 Choreographic Studies 2
This unit includes practice and performance of choreographic work employing choreographic skills in creation of movement material, form and style. Clarity of intention is major focus. This is a year long unit. Students must enrol in KDB207-2.
Prerequisite(s): KDB207-1/KDX144-1 Credit points: 6 Contact hours: 2 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

Incompatible with: KDX144-2

KDB208 Integrated Professional Skills
This is an integrated program building specific practical and psychological skills and strategies for career development and enhancement.
Credit points: 12 Contact hours: 2.5 per week
Prerequisite(s): 3rd year KD25/KK34 (Dance) students only. These students are expected to undertake this unit in their final year of study. Credit points: 12 Contact hours: 5 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KDB199

KDB303 Dance and Technology 1
This unit includes modes of choreographic communication: discussion of aesthetic questions that have emerged out of the last major choreographic movements and collaborative practices encouraged with specific focus on digital technologies. Prerequisite(s): Minimum grade of 5 in KDB207-2/KDX144-2 Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KDB158

KDB304 Dance and Technology 2
This unit includes a major choreographic project for public performance. It explores aesthetic and artistic values in collaborative processes of making new work with technology. Prerequisite(s): KDB303/KDB158 Credit points: 12 Contact hours: 1 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KDB159

KDP401 Safe Dance Practice
This unit provides you with the knowledge and understanding of the information regarding safe dance practices. Practical activities focus on the implications of current research in safe dance practice to dance teaching and learning. The content of this unit reflects a holistic approach to training in dance by considering a diverse range of issues such as basic anatomy and physiology, the use of imagery in dance training, injury prevention and management strategies, nutrition and lifestyle management. Credit points: 12 Campus: External Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: KDP104

KDP410 Professional Practice Project
This unit aims to provide a context for you to apply and extend your developed teaching practices. As you devise, implement and evaluate a project relevant to your teaching context, you actively engage your skills and understandings as teacher artists. You are also supported to enhance your skills as reflective practitioners as you critically analyse and evaluate your professional practice. Prerequisite(s): KKP621 plus KKP615, or KKP602/KKN061 Credit points: 24 Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: KDN002

KFB101 Design Studio 1
The sequence of six Design Studio units is fundamental to the course and focuses on the integration of design principles with the practical skills and understandings of pattern technology, garment design and construction. Alongside the acquisition of design skills, it is essential for successful fashion designers of the future to understand the context of their practice, within an industry that is international in scope. Credit points: 12 Contact hours: 12 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KFB401

KFB102 Design Studio 2
This unit aims to build on skills acquired in KFB101. Prerequisite(s): KFB101/KFB401 Credit points: 12 Contact hours: 12 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KFB402

KFB103 Introduction to Fashion
This unit provides an introduction to some of the complexities of the fashion system and is intended to provide a base for students wishing to pursue the subject of fashion as a major, sub-major or minor. Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

KFB104 Textiles For Fashion
Detailed knowledge of the materials, skills and processes available to the garment and textile industries is essential in the first year of study for the fashion designer. Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KFB104-2, KFB407-2

KFB106 Unspeakable Beauty: A History of Fashion and Style
Fashion has been a defining feature of Western culture for over 500 years. Contemporary fashion regularly revisits earlier approaches to dressing the body. This unit studies key figures in the history of fashionable dress who defined the standards of beauty for their time. It provides students with a basis for understanding fashion as a significant form of visual culture as well as providing a vital sense of history. Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

KFB201 Design Studio 3
The sequence of six Design Studio units is fundamental to the course and focuses on the integration of design principles with the practical skills and understandings of pattern engineering and garment design and construction. These skills need to be scaffolded by the acquisition of business and entrepreneurial acumen if potential is to be realised in real work industry environments. This unit seeks to develop the theoretical and applied knowledge, skills and attitudes that will support and enhance creative practice through an introduction to market research, risk analysis and business planning. Prerequisite(s): KFB102/KFB402 Credit points: 24 Contact hours: 12 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KFB403, KFB200

KFB202 Design Studio 4
This unit aims to build upon the expected outcomes of KFB201. It aims to develop in students a combination of initiative, creativity and self-reliance, alongside the key skills of collaboration and working in teams. Prerequisite(s): KFB201 Credit points: 12 Contact hours: 12 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1
KFB204 Textile Design
This unit builds on the knowledge of the materials and skills acquired in KFB104-1 and KFB104-2 and is planned for the design student who wishes further studies in the field of textiles through an introduction to print design and textile embellishment.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KFB411

KFB205 Fashion and Style Journalism
This unit maps the scope and practice of fashion and style journalism in Australia and internationally. It will allow you to develop the skills necessary to conceptualise and produce fashion and style editorial content in a variety of styles and contexts.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KJB339

KFB206 Fashion and Modernity
In this unit students will examine the development of modern fashion. They will study the influence of various factors that affect changes in fashion, including major designers.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KFB105, KFB408

KFB207 Contemporary Fashion
Fashion is a vital dimension to contemporary culture; it is art and industry, idea, image and product. In its truest sense all Fashion is Contemporary fashion. This unit draws on ideas developed in Introduction to Fashion to provide a context for the shifting terrain of contemporary fashion. The unit addresses content such as key developments in fashion since 1970, significant international and Australian contemporary designers and current trends in the consumption, production and presentation of fashion.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KFB208 Fashion Portfolio
In the fashion design and associated industries digital illustration/graphic and presentation skills are increasingly necessary to present creative and professional work. Through the use of technology, fashion and textile designers, illustrators and photographers can present and enhance their applied creativity by augmenting traditional hand skills with a range of digital processes. This unit introduces the learner to this knowledge and to the processes and practices that will enable the student to develop a concept driven fashion portfolio.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KFB201, KFB202

KFB301 Design Studio 5
This sequence of six Design Studio units is fundamental to the course and focuses on the integration of design principles with the practical skills and understandings of pattern engineering and garment design and construction. Design Studio in the final year allows students the opportunity to further immerse themselves in the development of their own product or range. Design Studio 5 acts as a stage one of the final project and forms the research and development phase of the project. During this unit, students formulate their final project for prototyping and completion in Design Studio 6.

Prerequisite(s): KFB202/KFB404  Credit points: 12  Contact hours: 12 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KFB405

KFB302 Design Studio 6
This unit is the capstone Design Studio unit and aims to provide students with the opportunity to synthesise prior learning, within university and the workplace, through the production of a final year project. Within this unit students develop confidence and the ability to work with minimal supervision in preparation for graduation.

Prerequisite(s): KFB301/KFB405  Credit points: 24  Contact hours: 20 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KFB406

KFB303 Applied Planning
This unit aims to provide you with an opportunity to identify relevant issues relating to your planned career and to position yourselves effectively for entry to industry, community-based projects or postgraduate study.

Credit points: 12  Contact hours: 2 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KFB412

KFB304 Fashion, Law and the Real World
This unit prepares you for the transition into the real world, by equipping you with an understanding of law as a regulator of business. In order to flourish as an entrepreneurial creative practitioner, it is essential that you understand the legal implications of your decisions and actions and those of others with whom you work or trade. This unit forms part of the final year of study so that you can apply the knowledge acquired within your workplace learning experiences and incorporate the learning from this unit into their planning and preparation for graduation.

Credit points: 12  Contact hours: 4 per week over ten weeks  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KFB056

KIB101 Foundations of Communication Design 1
Communication Design deals with visual communication and the creation of meaning through images. This unit will introduce you to the principles, production and presentation of visual design and communication.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KKB007, KKB818

KIB102 Foundations of Communication Design 2
This unit further develops interface design skills for communications technologies including design priorities, interaction, visual systems, refinement of concepts, project analysis and problem solving through
UNIT SYNOPSES

KIB103 Media Technology 1
This unit provides an introduction to theories and skills underpinning the application of multimedia technology with the Creative Industries, providing a foundation of conceptual and practical skills related to contemporary modes of electronic hypermedia production, communication and publishing.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KIB802

KIB104 Media Technology 2
This unit explores multimedia development and design concepts and practices and investigates the user and user interaction principles.

Prerequisite(s): KIB103/KIB807  Credit points: 12  Contact hours: 6 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KIB808

KIB105 Animation and Motion Graphics
This unit provides an introduction to animation and motion graphics concepts and practices, with an emphasis on principles of design in motion

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KIB106 Character Development, Conceptual Design and Animation Layout
This is a unit which emphasizes production in practice. By considering type and generic attributes within a technological context, you will be guided through the key concepts involved in the development of working drawings and final artworks.

Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KIB307

KIB107 Introduction to Programming for 3D
This is a unit which focuses on production technique. It is based in animation production as a base for developing professionals who can program by creating new tools and processes for the 3D graphics environment.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KIB301

KIB108 Animation Practices
The unit is an introductory examination of the development of animation. It addresses social, cultural, economic and technological themes that have shaped notable practitioners and established animation as a significant medium for the expression of popular culture, artistic experiment and philosophical, social and political comment.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KIB825

KIB201 Interactive Writing
This unit addresses theoretical issues associated with non-linear story structures and interactive narratives through the analysis of game structures, the creation of original game ideas and the application of techniques of information design to the structuring of non-narrative content. Addressing the creative and analytical roles of writers, conceptual designers and information designers in the context of interactive digital media and the Creative Industries.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KIB816

KIB202 Enabling Immersion
As creative practitioners within a highly networked technological society, it is important to develop a critical understanding of how the application of technology influences modes of communication, production processes and creative practices, particularly within the Creative Industries. This unit provides an introductory overview of the philosophies underlying applications of technology, and critically examines current applications in order to explore creative visions of future technology.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KIB814

KIB210 Design Studio 1: Interaction Design
KIB210 Design Studio 1: Interaction Design introduces you to the field of interaction design and the development of new, engaging systems of digital media

Prerequisite(s): KIB102/KIB802 or KIB104/KIB808  Credit points: 24  Contact hours: 7 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KIB211 Design Studio 2: Web Development
Design Studio 2: Web Development introduces you to the design of large and small scale interactive new media that rely on distributed systems such as the Internet.

Prerequisite(s): KIB210  Credit points: 24  Contact hours: 7 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KIB212 Animation Studio 1: Preproduction
Animation Studio 1: Preproduction is a studio unit where you come to grips with the ÂbasicsÂ of computer graphics production. The unit covers the basic elements of studio practices, networking, teamwork and collaboration as well as introducing character design, layout, conceptual development and the generation of ideas.

Credit points: 24  Contact hours: 7 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KIB213 Animation Studio 2: CG Toolkit
CG Toolkit offers an in-depth look at the tools of animated production from within a studio setting. Continuing from Animation Studio 1: Preproduction, this unit looks at the tools and the processes involved in creating high level successful 3d computer animations for game development, film or television production, web or emergent media.

Prerequisite(s): KIB212  Credit points: 24  Contact
KIB310 Design Studio 3: Virtual Environments
Design Studio 3: Virtual Environments introduces you to the design of virtual environments — spaces that can only be experienced through the existence of new media.

Prerequisite(s): KIB211
Credit points: 24
Contact hours: 7 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

KIB311 Design Studio 4: Tangible Media
Design Studio 4: Tangible Media explores the design of augmented devices: stand-alone devices whose function is enhanced or defined through the embedding of computational media within them.

Prerequisite(s): KIB310
Credit points: 24
Contact hours: 7 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

KIB312 Animation Studio 3: Advanced Concepts in Computer Animation 1
Animation Studio 3 consolidates your work in animated production, with particular emphasis on polished performances, communication through content and storytelling.

Prerequisite(s): KIB212 and KIB213
Credit points: 24
Contact hours: 7 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

KIB313 Animation Studio 4: Advanced Concepts in Computer Animation 2
Animation Studio 4 consolidates the work completed in the previous animation studios. Concentrating on output, portfolio preparation, post production and transitioning between university and industry or into higher degrees, the studio offers the opportunity to produce and direct a final portfolio piece or to begin academic research in the field of computer animation.

Prerequisite(s): KIB312
Credit points: 24
Contact hours: 7 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

KIP401 Foundations of Communication Design
Communication Design deals with visual communication and the creation of meaning through images. This unit will introduce you to the principles, production and presentation of visual design and communication.

Credit points: 12
Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

KIP402 Visual Interactions
This unit further develops interface design skills for communications technologies including design priorities, visual systems, refinement of concepts, project analysis and problem solving through presentation models.

Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

KIP403 Web Design and Development
This unit provides an introduction to theories and skills underpinning the application of multimedia technology with the Creative Industries, providing a foundation of conceptual and practical skills related to contemporary modes of electronic hypermedia production, communication and publishing.

Credit points: 12
Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

KIP404 Media Technology
This unit explores multimedia development and design concepts and practices and investigates the user and user interaction principles.

Credit points: 12
Contact hours: 6 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

KIP405 Animation and Motion Graphics
This unit provides an introduction to animation and motion graphics concepts and practices, with an emphasis on principles of design in motion.

Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

Incompatible with: KIB105

KIP408 Animation Practices
The unit is an introductory examination of the development of animation. It addresses social, cultural, economic and technological themes that have shaped notable practitioners and established animation as a significant medium for the expression of popular culture, artistic experiment and philosophical, social and political comment.

Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

Incompatible with: KIB108, KIB825

KIP410 Masters Design Studio: Interaction Design
Masters Design Studio 1; Interaction Design introduces you to the field of interaction design and the development of new, engaging systems of digital media, in particular web based interaction. Studio projects focus on the design of large and small scale interactive new media that rely on distributed systems such as the Internet.

Credit points: 24
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

KIP411 Masters Design Studio: Virtual Environments
Masters Design Studio: Virtual Environments explores interaction through the use of Virtual Environment and Tangible Media — Virtual Environments are spaces that can only be experienced through the existence of new media. Tangible Media is the design of augmented devices: stand alone devices whose function is enhanced or defined through the embedding of computational media within them.

Prerequisite(s): KIP410
Credit points: 24
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

KJB101 Digital Journalism
This unit acquaints you with the uses journalists make of computers in their work: for word-processing, personal information management, time management, and gathering information for stories and journalism assignments by searching online and CD-ROM databases, by analysing public records with spreadsheets and by using email to interview sources found on Internet bulletin boards and in newsgroups, usergroups, and listservers.
KJB120 Newswriting
In this unit you learn to think like journalists, to evaluate events for their potential news value, to record interviews and perform other reporting tasks and to write news stories. It includes the evolution and theories of reporting.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KJB121 Journalistic Inquiry
This unit develops the basic skills learnt in Newswriting: generating story ideas; researching; conducting interviews; finding news values and news angles and applying them in a practical context. You also learn about how practical newswriting skills fit into an online environment. You are introduced to the rigours of deadlines and have opportunities to write stories related to different news rounds throughout the semester.

Prerequisite(s): KJB120  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KJB224 Feature Writing
Students conduct interviews and other research that they use to write Internet, newspaper and/or magazine articles that profile personalities or stories or that treat processes, events and places to exploit their human-interest value.

Prerequisite(s): KJB120 or KWB107/KWB381  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KJB232 Radio and Television Journalism 1
The practical and theoretical aspects of radio and television media are studied and applied through production of broadcast news programs. You learn broadcast style and usage and the evaluation of television and radio products. Strong emphasis is placed on current affairs knowledge.

Prerequisite(s): KJB121  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KJB239 Journalism Ethics and Issues
QUT Journalism supports the development of socially responsible, ethical journalists. KJB239 is a core journalism unit. It begins with an overview of western and eastern moral philosophical traditions and moves on to examine current journalistic practice in the context of Australian and international news media operations, regulatory bodies and the stance of professional journalism organisations. Students generate ethical dilemmas and work through them individually, making difficult decisions about issues such as invasion of privacy, protection of sources and conflict of interest. The impact of developing information and communication technologies is also addressed.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KJB280 International Journalism
This unit identifies, compares and analyses the diversity of journalistic practice in different countries and regions. You will look at historical conditions that have led to variations in journalism across the world, how different politico-economic systems affect journalistic activity, and how and why different news media take distinct approaches to covering world issues. You will develop the cross-cultural awareness and background knowledge required to identify story ideas, relate to sources and produce news reports in different countries and cultural environments.

Prerequisite(s): KJB120  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KJB303 News Production
This advanced unit examines the activities of media industries and media firms. It addresses practical issues such as managing deadlines, planning and decision-making in the newsroom, and leadership and motivation. Work is done in online journalism, newspaper production, radio and television.

Prerequisite(s): KJB322 or KJB232  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KJB322 Desktop Publishing And Editing
This unit introduces the basic copy editing and design principles for newspapers. These skills are incorporated with the latest electronic publishing technology with specific reference to newspapers. You use agency copy from worldwide sources, and local reports in news and feature page design exercises. Exercises are provided in desktop publishing.

Prerequisite(s): Completion of 36 credit points of K coded units  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KJB337 Public Affairs Reporting
This is an advanced reporting unit stressing the watchdog role of the news media using investigative techniques, including computer-assisted reporting, Internet and other online searching. You write news feature stories for possible publication, and engage in case study/role play exercises for understanding public events/processes and their relationships to news media. The unit is taught in three hour blocks over the first nine weeks of semester.

Prerequisite(s): KJB120  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KJB338 Radio and Television Journalism 2
This unit includes the philosophy and formulation of radio and television news and current affairs, anchor techniques, and radio and television news production using computers.

Prerequisite(s): KJB121  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KJP400 Theories of Journalism
This unit includes the following: a summary of the body of literature pertaining to the theories of journalism; identification of individual research interests; attention to the empirical traditions; summary of issues at an advanced level.
from journalists' perspectives through close reading of core texts.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KJP105

**KJP401 Newswriting**

In this unit you learn to think like journalists, to evaluate events for their potential news value, to record interviews and perform other reporting tasks and to write news stories; the evolution and theories of reporting.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KJP120

**KJP402 Journalistic Inquiry**

This unit develops the basic skills learnt in Newswriting: generating story ideas; researching; conducting interviews; finding news values and news angles and applying them in a practical context.

You also learn about how practical newswriting skills fit into an online environment. You are introduced to the rigours of deadlines and will have opportunities to write stories related to different news rounds throughout the semester.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KJP121

**KJP403 Feature Writing**

In this unit you will conduct interviews and other research that you use to write Internet, newspaper and magazine articles that profile personalities or that treat processes, events and places to exploit their human-interest value.

**Prerequisite(s):** KJP401 or KJP402 are recommended as prerequisites.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KJP224

**KJP404 Radio and Television Journalism 1**

In this unit the practical and theoretical aspects of radio and television media are studied and applied through production of broadcast news programs. You learn styles and use, and the evaluation of television and radio products. Strong emphasis is placed on current affairs knowledge.

**Prerequisite(s):** KJP401/KJP120 or KJP402/KJP121  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KJP232

**KJP411 Graduate Project 2**

This unit is offered to Master's students to provide them with an opportunity to immerse themselves in specific professional issues in a major project related to journalism. Under the supervision of a staff member, you will develop the knowledge, skills, experience and contacts to devise and research a major journalism project.

**Prerequisite(s):** Completion of 72 credit points of study in the KJ42 course  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KJP302

**KKB004 Indigenous Creative Industries**

Every culture contains, within its approach to arts practice, the business of creativity. Learning and teaching in the Indigenous Creative Enterprise Unit, develops a sphere of shared knowledge designed to inspire sustainable arts praxis and production.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Incompatible with:** KKB704

**KKB101 Creative Industries: People and Practices**

This unit introduces concepts of the creative industries and the work of creative industries practitioners and professionals who explore and exploit the expression of creativity for commercial and artistic gain. In exploring the work of creative industries practitioners you will develop written communication skills for new media and academic contexts and reflect on your own emerging role as a creative industries practitioner.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KKB009, KKB618

**KKB102 Creative Industries: Making Connections**

The capacities to work collaboratively and to communicate effectively using multimedia technologies are essential characteristics for any Creative Industries professional. In this unit you will have the opportunity to acquire and apply collaborative principles and practices and multimedia communication skills in the production of creative content.

**Prerequisite(s):** Desirable: KKB101  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KKB007, KKB818

**KKB175 Creative Industries Legal Issues**

This unit introduces Creative Industries students to the law which applies to their professional practice and theoretical study. The unit provides a foundational approach to general aspects of law as well as particular topics for students in these fields. The unit is based on a core set of lectures and tutorials which are offered in two strands: Strand 1 for Journalism and Media Communication; Strand 2 for other Creative practices.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KKB275

**KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media**
Through both practical and theoretical contexts, you are introduced to curriculum planning and teaching in primary Visual Arts, Music and Media using The Arts Years 1 to 10 Syllabus (Queensland Studies Authority, 2002).

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**KKB202 Primary Curriculum and Pedagogies: Dance and Drama**

Through both practical and theoretical contexts, you are introduced to curriculum planning and teaching in primary Dance and Drama using The Arts years 1 to 10 Syllabus (Queensland Studies Authority, 2002).

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**KKB210 Computational Arts 1**

This unit introduces you to the creative design of visual and sonic art works by implementing processes from which these works unfold on computers. It builds on your computer programming skills to include design fundamentals for sound and vision, and an introduction to various computational processes and their aesthetic outcomes. Computational Arts skills are applicable to work in these areas; interactive computer games, VJs, DJs, web art, and interactive public sculptures.

**Prerequisite(s):** ITB001  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**KKB211 Computational Arts 2**

This unit extends skills in the creative design of visual and sonic art works using computational processes. It applies computer programming and design skills, introduces advanced computational processes and encourages the development of an individual aesthetic style. This unit incorporates project-based work and presentational opportunities to assist in the development of relevant professional competencies. Computational Arts skills are applicable to work in these areas; interactive computer games, VJs, DJs, web art, and interactive public sculptures.

**Prerequisite(s):** KKB210  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KKB221 Approaching Interdisciplinarity**

In order to be competitive in the global community, innovative practice becomes a commodity that is highly attractive. It is widely recognised that a sound knowledge in at least one discipline is a prerequisite for effective collaborative practice. This is the first of two units which are planned to expose and reveal the knowledges embedded in the qualities and concentrations of an individual discipline and commence functionally integrating this knowledge alongside other disciplines. This first unit offers you the opportunity to practice multi-disciplinary processes in teams and explores the psychology behind preferences for role choices within these teams.

**Prerequisite(s):** KKB102/KKB007/KKB818  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**KKB222 Interdisciplinarity in Practice**

Being able to function effectively in collaborative teams often necessitates the cross-fertilisation of ideas and practices in the creative process. Coupled with the thinking that the constraints of working in a single discipline may prevent its progression in the field, the practice of cross and inter-disciplinarity offers fresh entry points to the investigation, creation and production of product. This is the second of two units which are planned to expose and reveal the knowledges embedded in the qualities and concentrations of an individual discipline and commence functionally integrating this knowledge alongside other disciplines. The unit introduces you to cross and inter-disciplinary collaborative processes in the development of a site specific product for a festival to be held in the CI precinct.

**Prerequisite(s):** KKB221  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KKB290 Supervised Group Project**

Initiated normally by a Discipline or Disciplines and subject to staff availability. Creative Industries' students who have passed at least 96 credit points of undergraduate study may undertake a group project designed to develop knowledge and skills independent of standard course work. The following conditions apply:

* The unit is available only when advertised by the relevant Discipline/Major
* A group normally comprises six or more students
* All students in the group must meet the prerequisite for the unit
* Results will be ungraded: Satisfactory or Unsatisfactory

**Prerequisite(s):** Completion of the equivalent of 96cp and approval of unit coordinator  
**Credit points:** 12  
**Contact hours:** 3 per week for group projects  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SUMMER  
**Incompatible with:** KKB390

**KKB341 Workplace Learning 1**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context.

**Prerequisite(s):** Completion of 168 credit points of study  
**Credit points:** 12  
**Contact hours:** Between 70 and 80 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKB290/KKB390, KKB320, KKB330, KKB340-1, KKB340-2, KKB357/KKB057

**KKB342 Workplace Learning 2**

It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with
understandings and experience in order that they may function and flourish when they enter the workplace. This unit is offered during the final year of an undergraduate degree course at which time students are able to apply appropriate, transferable skills to a workplace or professional context.

**Prerequisite(s):** KKB341 must be taken as either a prerequisite or a corequisite  
**Credit points:** 12  
**Contact hours:** Between 70 and 80 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKB290/KKB390, KKB320, KKB330, KKB340-1, KKB340-2, KKB357/KKB057

### KKB343 Service Learning 1

Service Learning is a form of experiential education characterised by student participation in an organised, service activity connected to specific learning outcomes, meets identified community non-profit organisations’ needs and provides structured time for student reflection and connection of the service experience to learning. This elective unit is offered during the final year of an undergraduate Creative Industries degree course at which time students are able to apply appropriate, transferable skills to benefit a community organisation.

**Prerequisite(s):** Completion of 168 credit points of study  
**Credit points:** 12  
**Contact hours:** Between 70 and 80 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KSB301, KSB302

### KKB344 Service Learning 2

Service Learning is a form of experiential education characterised by student participation in an organised, service activity connected to specific learning outcomes, meets identified community non-profit organisations’ needs and provides structured time for student reflection and connection of the service experience to learning. This elective unit is offered during the final year of an undergraduate Creative Industries degree course at which time students are able to apply appropriate, transferable skills to benefit a community organisation.

**Prerequisite(s):** KKB343 must be taken as either a prerequisite or a corequisite  
**Credit points:** 12  
**Contact hours:** Between 70 and 80 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KSB301, KSB302

### KKB345 Creative Industries Project 1

The Faculty of Creative Industries intends that its graduates practice as professionals in their respective discipline or disciplines. Increasingly, a major part of such practice is the instigation, management, monitoring, and reporting on Creative Industries projects. This unit offers experience at participating in an advertised project that may be offered by one or more disciplines in the Faculty, and is designed to contribute towards students' increased self-knowledge and confidence as practitioners in the Creative Industries.

**Prerequisite(s):** KKB345 must be taken as either a prerequisite or a corequisite. Not normally available to BFA or KM32 students.  
**Credit points:** 12  
**Contact hours:** About 150 hours across the semester.  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKB290/KKB390, KKB320, KKB330, KKB340-1, KKB340-2, KKB357/KKB057

### KKB346 Creative Industries Project 2

The Faculty of Creative Industries intends that its graduates practice as professionals in their respective discipline or disciplines. Increasingly, a major part of such practice is the instigation, management, monitoring, and reporting on Creative Industries projects. This unit offers experience at participating in an advertised project that may be offered by one or more disciplines in the Faculty, and is designed to contribute towards students' increased self-knowledge and confidence as practitioners in the Creative Industries.

**Prerequisite(s):** KKB345 must be taken as either a prerequisite or a corequisite. Not normally available to BFA or KM32 students.  
**Credit points:** 12  
**Contact hours:** About 150 hours across the semester. However when the project is combined with KKB345, then between 230-270 hours in duration across both projects.  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** Incompatible with KKB290/KKB390, KKB320, KKB330, KKB340-1, KKB340-2, KKB357/KKB057

### KKB347 Becoming A Researcher: Understandings, Skills and Practices

This is the first of two units for third year Creative Industries students designed as a preparation for the Creative Industries Faculty Honours program and/or as an introduction to professional and commercial research contexts.

**Prerequisite(s):** Completion of 168 credit points of study + a GPA of 5 or above  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### KKB348 Becoming A Researcher: Contexts, Protocols and Impact

This is the second of two units designed as a preparation for the Creative Industries Faculty Honours program and/or as an introduction to professional and commercial research contexts. It builds on skills and understandings developed in KKB347 and includes including academic protocols, research design and exegetical development and the impact of research.

**Prerequisite(s):** KKB347  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### KKB350 Creative Industries International Study Tour

This unit is designed for students who have completed at least one year full time study of a QUT Creative Industries Faculty course and are ready to expand their horizons by gaining experience of international creative industries practice in creative cities. Creative cities contain tourist districts, art museums, galleries, fashion houses, creative precincts, production houses and the like, managed by internationally recognised cultural producers, designers and professionals. The unit addresses the issues that pertain to the culture that is produced and exhibited in the city or cities selected for the tour and provides the opportunity for
students to interact with internationally recognised creative artists and cultural professionals.

IMPORTANT NOTE: The cost of the 2-3 week tour is estimated at between four and five thousand dollars.

**Prerequisite(s):** Completion of 72 credit points of K coded units  
**Credit points:** 12  
**Contact hours:** 2-3 week tour  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KKD007 Introduction To Multimedia Technology**  
Contemporary modes of electronic media production, publishing and communication within the Creative Industries require graduates to combine practical skills related to the use of technologies and processes with a conceptual understanding of these technologies and processes as relevant to the Creative Industries. These understandings and capabilities are developed in this unit. The unit requires students to have prior experience with the following: Windows and/or Macintosh operating systems; Word processing applications eg Microsoft Word or Word Perfect; electronic mail (email); and the World Wide Web.  
**Credit points:** 12  
**Contact hours:**  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KKD009 Writing For Creative Industries**  
This unit provides an overview of the main forms and genres of academic writing, such as description, narration and exposition. It assists student to write clearly and correctly and enable them to become comfortable with and confident in using various Creative Industries and academic writing genres.  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP2  
**Incompatible with:** KKD818

**KKD010 Cultures and Creativity**  
This unit has been designed to provide students with the cultural and creative literacy skills necessary to explore and participate in the creative industries. It enables students to use writing, design, production and performance skills to explore the relationships between creativity and cultures, including indigenous, multicultural and international perspectives. Topics included are: consumer culture and identity; cultures, creativity and the body; representations of space and time in different cultures; and processes of creative production and reception.  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1 and 2008 13TP3  
**Incompatible with:** KKD618

**KKD018 Creative Industries**  
This unit provides an overview of the creative industries as a major element of the global knowledge economy. It critically analyses issues such as the rise of a knowledge-based economy, technological convergence, globalisation, intellectual property, and the relationship between creative and artistic practice and the commercial marketplace.  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP2  
**Incompatible with:** KKB018

**KKN320 Postgraduate Workplace Learning**  
It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during postgraduate courses so that students are able to apply appropriate, transferable skills to a workplace or professional context.  
**Credit points:** 12  
**Contact hours:** Between 70 and 80 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKN330, KKN340-1, KKN340-2

**KKN330 Postgraduate Workplace Learning**  
It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during postgraduate courses so that students are able to apply appropriate, transferable skills to a workplace or professional context.  
**Credit points:** 24  
**Contact hours:** Up to 200 hours duration  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKN320, KKN340-1, KKN340-2

**KKN340-1 Postgraduate Workplace Learning**  
It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during postgraduate courses so that students are able to apply appropriate, transferable skills to a workplace or professional context.  
**Credit points:** 12  
**Contact hours:** Up to 200 hours duration across both KKN340-1 and KKN340-2  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKN320, KKN330

**KKN340-2 Postgraduate Workplace Learning**  
It is important that Creative Industries professionals gain real work experience in order to link university study with professional practice. Students need to equip themselves not only with skills and discipline knowledge but also with understandings and experience in order that they may function and flourish when they enter the workplace. This elective unit is offered during postgraduate courses so that students are able to apply appropriate, transferable skills to a workplace or professional context.  
**Prerequisite(s):** KKN340-1  
**Credit points:** 12  
**Contact hours:** Up to 200 hours duration across both KKN340-1 and KKN340-2  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** KKN320, KKN330

**KKP400-1 Honours Project**
The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives you the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final credit points.

Pre requisite(s): Entry into 4th Year Honours
Credit points: 12
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1
Incompatible with: KKN004-1

KKP400-2 Honours Project

The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives you the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final credit points.

Pre requisite(s): Entry into 4th Year Honours
Credit points: 12
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1
Incompatible with: KKN004-2

KKP400-3 Honours Project

The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives you the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final credit points.

Pre requisite(s): Entry into 4th Year Honours
Credit points: 12
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: KKN004-3

KKP400-4 Honours Project

The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives you the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final credit points.

Pre requisite(s): Entry into 4th Year Honours
Credit points: 12
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: KKN004-4

KKP400-5 Honours Project

The Honours project is the major component of the Honours year in Creative Industries. As the Honours year builds upon a completed undergraduate degree, the project gives you the opportunity to pursue in-depth project or dissertation-based work unavailable and inappropriate at undergraduate level. This work thus demonstrates advanced competence, skills or analytical ability in a chosen discipline and/or interdisciplinary skills or analytical ability. This unit has 5 components and all must be completed to obtain final credit points.

Pre requisite(s): Entry into 4th Year Honours
Credit points: 12
Contact hours: 5 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: KKN004-5

KKP401 Honours Graduate Seminar

This is a seminar program of formal presentations of creative industries research projects by Honours students, and workshopping of thesis and exegesis drafts. You also attend weekly presentations in the seminar series.

Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2
Incompatible with: KKN002

KKP402 Business Development in Creative Industries

This unit introduces issues involved in selecting and refining a concept/idea/new product in the creative industries. Topics include: business opportunity recognition; screening for potential viability and sustainable competitive advantages; identifying and analysing strategic options; creating a marketing strategy and outlining the production and operations, human resources, and financial plans for a selected creative industries venture. You build the components of a business model for your selected creative concept and write a formal business plan for that concept/product. You examine and critique the business models of a variety of existing businesses in the creative industries during the semester.

Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: GSN225

KKP403 Special Topic in the Creative Industries

Advanced level research and creative practice in the Creative Industries frequently draws upon the expertise of leading national and international researchers who visit the Creative Industries Faculty, as well as innovative creative projects. Through a Special Topic unit, Masters, PhD and Professional Doctorate students at the postgraduate level can systematically engage with these initiatives through a structured program of attendance at key events, reading and investigation, and working in creative teams to develop project deliverables.

Pre requisite(s): Approval of unit coordinator
Credit points: 12
Campus: Kelvin Grove

KKP404 Creative Industries: Theory and Policy

In this unit, you will undertake an overview of the creative industries as a major element of the global knowledge economy. You will critically analyse key creative industries concepts such as: the knowledge-based economy; networks
and clusters; economic aspects of culture and creativity; creative cities; organisation of creative work; creativity and management; social entrepreneurship.

**KKP406 Global Media and Communication**

This unit provides an advanced-level overview of key developments in 21st century global media and communications. It considers the theoretical underpinnings of global media from perspectives including political economy, cultural studies and professional practice. It will examine major international developments in journalism, advertising, film and television and new media, through a grounded case study approach into global media organisations, production processes and cultural factors, with particular emphasis on developments in Australia, the Pacific and Asia.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KCP401, KCP018

**KKP407 Creative Industries in Asia**

Forces associated with the rise of creative industries, such as globalisation, the knowledge-based economy, and media and communications networks are significantly shifting both public policy and creative practice in the Asia-Pacific region, and raising new challenges, tensions and contradictions in politics, economics and culture. This unit will provide you with an understanding of how developments in the creative industries will affect the economics, politics and cultural development of nations and people in the Asian region.

**Prerequisite(s):** Completion of 36 credit points of postgraduate K coded units  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTP407, KCP354

**KKP408 Marketing Arts and Culture**

This unit examines and applies theories of arts marketing for arts cultural organisations. The focus is on audience development, but product and service development models in the mission driven arts environment provide the context for you to develop marketing strategies, marketing plans and campaigns for arts and cultural management.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTP408, GSN228

**KKP411 Major Project in Arts and Creative Industries Management**

The development of the arts and creative industries has been identified as a central element of the contemporary creative economy, which is informational, global and networked. This unit provides an opportunity for you to extend your analysis and reflection upon the development of creative industries, in the form of an academic essay or an industry report.

**Prerequisite(s):** Completion of 72 credit points of postgraduate K coded units  
**Credit points:** 24  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KCP410, KCP355

**KKP601 Approaches to Enquiry in the Creative Industries**

There are many forms of enquiry suited to the diverse range of disciplines which make up the Creative Industries. These forms of enquiry typically fall within qualitative research traditions, creative practice as research and applied commercial research.

This unit plays a key role in your research degree by introducing you to the most appropriate form of enquiry for your study and providing you with the strategies, methods and protocols for designing, implementing and evaluating that study.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KKN020

**KKP603 Project Development in the Creative Industries**

After examining a range of procurement options available across the creative industries the unit focuses on strategic alliances, cross cultural projects, performance measures and the management of IP. These topics are addressed within a framework for project development that is shaped by ethical theory.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KKN065

**KKP604 Creative Industries Conference 1**

Two units (also KKP606) are dedicated to the reporting of research outcomes to a collegial group of peers, industry partners and fellow research students and peers. In writing and presenting reports to a publishable standard, candidates report on aspects of their professional projects by drawing on the theoretical frameworks developed in the coursework together with their lived experience of project planning and implementation.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KKN071

**KKP606 Creative Industries Conference 2**

Two units (also KKP604) are dedicated to the reporting of research outcomes to a collegial group of peers, industry partners and fellow research students and peers. In writing and presenting reports to a publishable standard, candidates report on aspects of their professional projects by drawing on the theoretical frameworks developed in the coursework together with their lived experience of project planning and implementation.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** KKN072

**KKP607 Advanced Professional Practice 1**

This unit is the first of two units for professional artists enrolled in the Master of Fine Arts. Its purpose is to extend and improve creative practice through intensive (live and/or digital) studio-based exploration, either independently or collaboratively. The unit consists of the creation and production of a creative work, accompanied by a written reflective analysis and contextualisation of the work.
KKP608 Advanced Professional Practice 2
This unit addresses specific issues in each student’s professional practice. As a practice-led enquiry, you will work closely with your supervisor to investigate specific issues related to your aesthetic, creative and performative concerns.

Credit points: 24  Contact hours: As arranged with the unit coordinator  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KKN011+KKN012

KKP610-1 DCI Professional Project 1 (1/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidates Professional Project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Prerequisite(s): KKP602/KKN061  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN300-1

KKP610-2 DCI Professional Project 1 (2/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidates Professional Project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN300-2

KKP610-3 DCI Professional Project 1 (3/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidates Professional Project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN300-3

KKP610-4 DCI Professional Project 1 (4/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidates Professional Project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN300-4

KKP611-1 DCI Professional Project 2 (1/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate’s professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Prerequisite(s): KKP602/KKN061, KKP610-4/KKN300-4  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN400-1

KKP611-2 DCI Professional Project 2 (2/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate’s professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN400-2

KKP611-3 DCI Professional Project 2 (3/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate’s professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN400-3

KKP611-4 DCI Professional Project 2 (4/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate’s professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN400-4

KKP612-1 DCI Professional Project 3 (1/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Prerequisite(s): KKP602/KKN061, KKP610-4/KKN300-4  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN500-1

KKP612-2 DCI Professional Project 3 (2/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate’s professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: KKN500-2
KKP612-3 DCI Professional Project 3 (3/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  **Incompatible with:** KKN500-3

KKP612-4 DCI Professional Project 3 (4/4)
This unit involves independent supervised study at the doctoral level. The study is part of the candidate's professional project for doctoral examination and is undertaken in consultation with two project mentors. Candidates need to work to their professional project brief in undertaking this unit.
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  **Incompatible with:** KKN500-4

KKP613-1 MFA Project
This extended unit is the final study for the Master of Fine Arts, culminating in a creative or performance work encompassing skills, concepts and processes explored throughout the degree. Its purpose is to refine your practice to a sophisticated and professional level through intensive exploration with a public outcome, either in an individual or collaborative project. The artistic work is accompanied by a written exegesis reflecting on and contextualising your practice, with both components examined by an industry professional and an internal examiner. As the final component to your award you would be expected to work 35-40 hours per week (full-time).
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KKN010-1

KKP613-2 MFA Project
This extended unit is the final study for the Master of Fine Arts, culminating in a creative or performance work encompassing skills, concepts and processes explored throughout the degree. Its purpose is to refine your practice to a sophisticated and professional level through intensive exploration with a public outcome, either in an individual or collaborative project. The artistic work is accompanied by a written exegesis reflecting on and contextualising your practice, with both components examined by an industry professional and an internal examiner. As the final component to your award you would be expected to work 35-40 hours per week (full-time).
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KKN010-2

KKP613-3 MFA Project
This extended unit is the final study for the Master of Fine Arts, culminating in a creative or performance work encompassing skills, concepts and processes explored throughout the degree. Its purpose is to refine your practice to a sophisticated and professional level through intensive exploration with a public outcome, either in an individual or collaborative project. The artistic work is accompanied by a written exegesis reflecting on and contextualising your practice, with both components examined by an industry professional and an internal examiner. As the final component to your award you would be expected to work 35-40 hours per week (full-time).
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KKN010-3

KKP613-4 MFA Project
This extended unit is the final study for the Master of Fine Arts, culminating in a creative or performance work encompassing skills, concepts and processes explored throughout the degree. Its purpose is to refine your practice to a sophisticated and professional level through intensive exploration with a public outcome, either in an individual or collaborative project. The artistic work is accompanied by a written exegesis reflecting on and contextualising your practice, with both components examined by an industry professional and an internal examiner. As the final component to your award you would be expected to work 35-40 hours per week (full-time).
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KKN010-4

KKP614-1 Research Project
Students enrolled in K51 Master of Arts (Research) undertake a research project as the major component of their studies. This project may take the form of either a research thesis or a creative project accompanied by a written component. The creative project could include an exhibition of visual art, a performance (dance, drama, music), choreography, script or score, a book-length work of fiction or non-fiction, a film or multi-media script or production. Units may be either taken one per semester or several per semester, depending on the enrolment pattern recommended by the School in the Course Summary Sheet. This is an eight part unit.
**Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KKN007-1

KKP614-2 Research Project
See KKP614-1 for details.
**Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KKN007-2

KKP614-3 Research Project
See KKP614-1 for details.
**Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KKN007-3

KKP614-4 Research Project
See KKP614-1 for details.
**Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KKN007-4
UNIT SYNOPSES

KKP614-5 Research Project
See KKP614-1 for details.
*Credit points: 12*  
*Contact hours: 1 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKN007-5*

KKP614-6 Research Project
See KKP614-1 for details.
*Credit points: 12*  
*Contact hours: 1 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKN007-6*

KKP614-7 Research Project
See KKP614-1 for details.
*Credit points: 12*  
*Contact hours: 1 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKN007-7*

KKP614-8 Research Project
See KKP614-1 for details.
*Credit points: 12*  
*Contact hours: 1 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKN007-8*

KKP615 Graduate Seminar
Graduate seminar is a unit that fosters a culture of discussion and debate among creative industries research students. You participate in a seminar series and present the findings of your own research. You will meet with distinguished guests, staff and fellow students in a spirit of sharing, analysis and interdisciplinary curiosity.

**Prerequisite(s):** KKP601/KKN020  
*Credit points: 12*  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKN200*

KKP616 Postgraduate Independent Study
Independent work of an artistic or scholarly nature which is of limited scope compared with the research project. The student devises an outline of study and/or action in consultation with a staff supervisor. Artistic outcomes would normally be expected to be to the standard of public showing. Written presentation requires a minimum of 6000 - 10000 words, or equivalent if other media/reportage is used.

**Credit points: 12**  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-2*  
*Incompatible with: KKN006*

KKP620 Introduction To Reflective Practice
This unit investigates the intuition and tacit knowledge of informing and inspiring your creative practice by building the conceptual framework for being a reflective practitioner. Texts, terminologies and processes will be discussed and analysed within the context and forms of your practice.

**Credit points: 12**  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1*  
*Incompatible with: KKP602, KKN061*

KKP621 Reflective Practice in Action
This unit strengthens the capacities of candidates to work as reflective practitioners within the collaborative, action oriented and theoretically embedded settings that constitute the creative industries. As candidates do this they are theorising on action, raising serious questions about their own practice, identifying the sources and patterns evident in their ideas and actions and transforming the contexts of practice so that professional autonomy may be enhanced. KD42 Master of Creative Industries external students will be required to attend a 2 to 3 day residency in Brisbane.

**Prerequisite(s):** KKP620 is assumed knowledge for KK49 students  
*Credit points: 12*  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKP602, KKN061*

KKP622 Advanced Reflective Practice
This unit provides for a thorough analysis of the reflective practitioner process as it applied to students and their colleagues during DCI Professional Project I. Patterns of engagement and response in the workplace are analysed during a process of re-theorising and conceptual review. Conceptual reference points for analysing practice are extended by investigating theoretical frameworks from other fields that may assist in building a more complete understanding of an individuals creative work practices.

**Prerequisite(s):** KKP620 and KKP621; or KKP602/KKN061  
*Credit points: 12*  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove*  
*Teaching period: 2008 SEM-1 and 2008 SEM-2*  
*Incompatible with: KKP605, KKN062*

KMB002 Music and Spirituality
Living in the materialistic world in the 21st Century has reignited the desire for spirituality to reach beyond the commercial and ephemeral. This unit examines the interaction of music with ritual, meditation, celebration, joy, protest and healing. It explores this relationship drawing from a range of cultures and times including indigenous Australian, Western European and Eastern cultures.

**Credit points: 12**  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove and Caboolture*  
*Teaching period: 2008 SEM-1*  
*Incompatible with: KMB667*

KMB003 Sex Drugs Rock 'n' roll
In this unit, you gain an insight into the interaction between music and society by analysing the artistic, economic, and political landscape of the diverse, innovative music of the 21st century including rock and pop music, world music, dance music, indigenous music and new age music.

**Credit points: 12**  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove and Caboolture*  
*Teaching period: 2008 SEM-1*  
*Incompatible with: KMB640*

KMB004 World Music
You will gain an awareness and better understanding of world music, its particular significance within Australia and its impact upon contemporary music through a series of lectures, demonstrations and tutorials.

**Credit points: 12**  
*Contact hours: 3 per week*  
*Campus: Kelvin Grove and Caboolture*  
*Teaching period: 2008 SEM-1*  
*Incompatible with: KMB631*

KMB005-1 Group Music
In this unit, you experience the cooperative interaction of music-making as a participant or a leader. This is a year long unit. Final credit points are awarded at the completion of KMB005-2.

**Prerequisite(s):** Approval of unit coordinator  
*Credit
KMB005-2 Group Music
In this unit, you experience the cooperative interaction of music-making as a participant or a leader. This is a year long unit. Students must complete both KMB005-1 and KMB005-2 to be awarded final credit points.
Prerequisite(s): KMB005-1  Credit points: 6  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB616-2

KMB007 Introductory Ensemble
This unit allows you to work in a QUT choral ensemble. The cooperative interaction of performance and other music-making activities is an essential ingredient in the training of the mature musician and one which will enhance both the individual and the group. The benefits reach into daily life and assist you to better work in groups.
Prerequisite(s): KMB104/KMB649  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB650, KMB130/KMB632

KMB101 Music (Primary/Instrumental) Curriculum Studies 1
A foundation study in Primary or instrumental music specialization focusing upon the fundamentals of teaching, lesson planning and developing a philosophy appropriate to music education practice.
Prerequisite(s): Completion of 48 credit points of study in this discipline area  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KMB102 Music (Primary/Instrumental) Curriculum Studies 2
Further study in classroom/instrumental music and sound curriculum focusing upon more advanced teaching methods, unit planning and the development of an approach to philosophy in action appropriate to music and sound education practice in the senior primary and instrumental music and sound context.
Prerequisite(s): KMB101  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KMB103 Music (Primary/Instrumental) Curriculum Studies 3
An advanced study in primary or instrumental music and sound curriculum, focusing upon innovative teaching methods, music coaching and planning, whole school community cultural management and the development of an approach to inclusive philosophy which enables a holistic and integrated approach to music and sound education that responds synergistically to individual school communities and facilitates meaningful and engaging music and sound environments.
Prerequisite(s): KMB102 must be taken as either a prerequisite or a corequisite  Credit points: 12  Contact

KMB104 Music and Sound Skills
You will study improvisation and music production, undertake an extensive listening program and develop sound creative and conceptual skills. The unit stimulates both beginners and experienced musicians, adopting a fresh approach to the field.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KMB649, KMB130/KMB632

KMB105 Music and Sound Technology
This is an introduction to the broad range of options available to the musician in the age of technology. You will explore sequencers and audio programs as tools, mediums and musical instruments, for performance, composition as well as the basics of sound design. NOTE: Semester 1 offered to KM32, IX07, KM35, KM36, KM42 ONLY. Semester 2 offered to all others except those mentioned above.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB619

KMB106 Music and Sound for Multimedia
This unit deals with studio recording techniques, computer-assisted composition, the role of music in non-linear structures, the effect of sound in digital media productions, sound effects and Foley techniques, musical acoustics, and digital sound theory.
Prerequisite(s): Assumed knowledge of sound recording and operation of audio editing software  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB626

KMB107 Sound, Image, Text
This unit focuses on the rich and varied relationship between sound and image in a number of media and artforms, including film, music video, theatre, installation, mixed media performance and many more.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-2  Incompatible with: KMB638

KMB108 Sound Recording and Acoustics
This is an introduction to the fundamentals of the physical world of sound, basic signal flow, sound recording and acoustics.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: KMB621

KMB110 Music Production 1
These sequential units beginning with the development of a secure and reliable technique in production skills. The unit includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.
Credit points: 12  Contact hours: 7-9 per week
KMB111 Music Production 2
This unit continues the development of a secure and reliable technique in production skills. It includes small group learning work, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to an ensemble.
Prerequisite(s): KMB110/KMB657  Credit points: 12
Contact hours: 7-9 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB658

KMB113 Multi-Instrumental Music A
In this unit, students engage in the study of two secondary instruments, necessary for the instrumental music teacher and professional doublers. Additionally, a lecture/class discussion is utilised to reflect on a range of topics relevant to the study.
Prerequisite(s): KMB110/KMB657 or KMB120/KMB651  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB622

KMB120 Music Performance 1
This series of sequential units begins with the development of musical skills on a principal instrument or voice. Content includes lessons and masterclasses, attendance and participation in weekly performance seminars and Principal Group activities.
Credit points: 12  Contact hours: 7-9 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KMB651

KMB121 Music Performance 2
This unit continues the development of a secure and reliable technique on a principal instrument or voice, but stylistically expands upon semester 1. You will spend equal time on your current typically repertoire-driven focus and a clearly contrasting genre or style. It includes lessons, attendance and participation in weekly performance seminars and group rehearsals of a wide range of music appropriate to the ensemble of choice.
Prerequisite(s): KMB120/KMB651  Credit points: 12  Contact hours: 7-9 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB652

KMB130 Core Musicianship 1
In this unit, students develop a range of generic musical skills that are relevant to a broad range of musical contexts and environments. The unit focuses on the building blocks of a broad and inclusive musicianship and includes development of aural, analytical and compositional skills through lectures, tutorials and focused musical tasks and improvisation.
Credit points: 12  Contact hours: 4.5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KMB632

KMB131 Core Musicianship 2
Continuing on from Core Musicianship 1, you will develop further a range of generic musical skills that are relevant to a broad range of musical contexts and environments. The unit focuses on musical language and context and includes the further development of aural, analytical and compositional skills through lectures, tutorials and focused musical tasks and improvisation.
Prerequisite(s): KMB130/KMB632  Credit points: 12  Contact hours: 4.5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB633

KMB201 Music (Secondary) Curriculum Studies 1
A foundation study in secondary music and sound curriculum focusing upon the fundamentals of teaching, lesson planning and developing a philosophy appropriate to music and sound education practice.
Prerequisite(s): Completion of 48 credit points of study in this discipline area  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KMB202 Music (Secondary) Curriculum Studies 2
Further study in classroom music and sound curriculum focusing upon more advanced teaching methods, unit planning and the development of an approach to philosophy in action appropriate to music and sound education practice in the senior secondary context.
Prerequisite(s): KMB201  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KMB203 Music (Secondary) Curriculum Studies 3
An advanced study in classroom music and sound curriculum, focusing upon innovative teaching methods and planning, whole school community cultural management and the development of an approach to inclusive philosophy which enables a holistic and integrated approach to music and sound education that responds synergistically to individual secondary school communities and facilitates meaningful and engaging music and sound environments.
Prerequisite(s): KMB202 must be taken as either a prerequisite or a corequisite  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

KMB205 Sound Media Musicianship
This unit offers an in-depth study of music as a sound phenomenon. It explores music through understanding the physics of sound, psycho-acoustics, spectro-morphology, and tools and techniques for sound manipulation. As a musicianship unit, this exploration involves analysis, research and composition.
Prerequisite(s): KMB131/KMB633 or KMB104/KMB649  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB635

KMB206 Jazz and Popular Musicianship
This unit offers a study of the development of jazz and contemporary popular music through analysis, composition, performance and complementary aural musicianship sessions.
UNIT SYNOPTES

KMB207 Cross Cultural Musicianship
Music operates in a complex cultural environment fuelled by increased communication and technology. In this unit the student's ability to recognise, analyse and create music drawing from a diverse range of cultures is developed.
Prerequisite(s): KMB131/KMB633  Credit points: 12
Contact hours: 5 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-1  Incompatible with: KMB367

KMB208 Contemporary Art Music musicianship
This unit focuses on art music of the last 100 years and up to the present day. It integrates aural training, analysis, composition and context (music history) into a coherent package.
Prerequisite(s): KMB131/KMB633  Credit points: 12
Contact hours: 5 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-2  Incompatible with: KMB634

KMB209 Conducting
This unit introduces you to a wide range of music and styles and assists them to achieve artistic objectives in music performance through conducting workshop activities including practical conducting, stylistic practices, repertoire, and rehearsal and performance techniques.
Prerequisite(s): KMB131/KMB633  Credit points: 12
Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-1  Incompatible with: KMB623

KMB212 Arranging
This unit explores arranging techniques for vocal combinations and genres.
Prerequisite(s): KMB131/KMB633  Credit points: 12
Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-2  Incompatible with: KMB617

KMB213 Multi-Instrumental Music B
In this unit, students engage in the study of an instrument supplementary to their principal instrument, necessary for the instrumental music teacher and professional doublers. Additionally, students undertake peer tutoring to small groups. A lecture/class discussion is utilised to reflect on a range of topics relevant to the study.
Prerequisite(s): KMB121/KMB652  Credit points: 12
Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-2  Incompatible with: KMB628

KMB214-1 Music and Sound: Principal Study A
A creative musician and sound designer needs to have control of a number of advanced skills pertinent to specific careers and outcomes. KMB214 continues to develop these specialist skills from the prerequisite first-year units.
Prerequisite(s): KMB121/KMB652 or KMB111/KMB658  Credit points: 12  Contact hours: 7-9 per week

KMB214-2 Music and Sound: Principal Study A
A creative musician and sound designer needs to have control of a number of advanced skills pertinent to specific careers and outcomes. KMB214 continues to develop these specialist skills from the prerequisite first-year units.
Prerequisite(s): KMB214-1  Credit points: 12  Contact hours: 7-9 per week  Campus: Kelvin Grove
Teaching period: 2008 SEM-1  Incompatible with: KMB210/KMB659, KMB211/KMB660, KMB220/KMB653, KMB221/KMB653

KMB301 The Music Industry
This unit facilitates a smooth and confident transition from undergraduate experiences to life in the arts workforce. It includes exploration of current issues in the arts, and development of professional skills including public speaking, meeting procedures and career management.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB056

KMB314-1 Music and Sound: Principal Study B
This unit acknowledges that there is a broad range of activities and outcomes for musicians and sound designers in the contemporary world within the creative industries. This unit gives students an array of options to assist in future career portfolios in the creative industries. This is a year long unit. Students must complete KMB314-2 in Semester 2.
Prerequisite(s): KMB214-2 or KMB221/KMB654 or KMB211/KMB660  Credit points: 24  Contact hours: 7-9 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: KMB310-1/KMB661-1, KMB310-2/KMB661-2, KMB320-1/KMB661-1, KMB320-2/KMB661-2

KMB314-2 Music and Sound: Principal Study B
This unit acknowledges that there is a broad range of activities and outcomes for musicians and sound designers in the contemporary world within the creative industries. This unit gives students an array of options to assist in future career portfolios in the creative industries. This is a year long unit. Students must have completed KMB314-1 in Semester 1.
Prerequisite(s): KMB314-1  Credit points: 24  Contact hours: 7-9 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMB310-1/KMB661-1, KMB310-2/KMB661-2, KMB320-1/KMB661-1, KMB320-2/KMB661-2

KMP400 Digital Recording
You will follow an integrated course of theory and practice in sound recording. You create a portfolio of recordings using either your own equipment or the music and sound laboratories at QUT.
Prerequisite(s): Approval of unit coordinator  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KMN606
KMP402 Music and Sound for Digital Media

This unit deals with studio recording techniques, computer-assisted composition, the role of music in non-linear structures, the effect and affect of sound in digital media productions, sound effects and Foley techniques, musical acoustics, and digital sound theory.

Prerequisite(s): Assumed knowledge of sound recording and operation of audio editing software

Credit points: 12

Contact hours: 3 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-2

Incompatible with: KMN626

KMP403 Multi-Instrumental Studies 1

This unit widens the base of students’ practical skills and enhances career opportunities through the study of second instruments. Students work through an intensive program in groups, on a variety of instruments, to obtain fundamental skills on those instruments, which will develop and enhance their multi-instrument skills for teaching.

Prerequisite(s): Approval of unit coordinator

Credit points: 12

Contact hours: 3 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-2

Incompatible with: KMN622

KMP404 Multi-Instrumental Studies 2

This unit is designed to deepen students’ practical skills through the study of second instruments and to have them engage with multi-instrumental pedagogical methods. Students work through an intensive program in groups on a variety of instruments to obtain fundamental skills on those instruments, which will develop and enhance their multi-instrumental skills for group instruction.

Prerequisite(s): KMP403/KMN622

Credit points: 12

Contact hours: 3 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-2

Incompatible with: KMN628

KMP405 Materials of Music

This unit provides the basis for understanding rhythmic, melodic and timbral organisation and their relationship to texture. The study of textural design has been enriched by recent developments in music technology, enabling music to be heard as pure timbre in the sound media. As well as studying texture, timbre, rhythm and melodic organisation, this unit includes the study of formal devices, processes and analytical techniques that musicians and composers use to generate textures.

Prerequisite(s): Approval of unit coordinator

Credit points: 12

Contact hours: 3 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1

Incompatible with: KMN630

KMP410 Music Project 1

This is the first in a sequence of self-directed project units. You undertake a music project of relevance to the creative industries. This will incorporate discovery, practice and reflection. This unit may be taken in the most appropriate location to ensure a successful outcome and the detail would be agreed with your supervisor. You are required to attend a weekly evening seminar and present as required.

Prerequisite(s): Approval of unit coordinator

Credit points: 24

Contact hours: 2 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN601

KMP411 Music Project 2

This unit follows from KMP410 and enables you to further develop your project. You are required to attend a weekly evening seminar and present as required.

Prerequisite(s): KMP410/KMN601 must be taken as either a prerequisite or a corequisite

Credit points: 24

Contact hours: 2 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN602

KMP412 Music Project 3

This unit follows from KMP411 and enables you to further develop your project. You are required to attend a weekly evening seminar and present as required.

Prerequisite(s): KMP411/KMN602 must be taken as either a prerequisite or a corequisite

Credit points: 24

Contact hours: 2 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN603

KMP413 Music Project 4

This unit follows from KMP412 and enables you to further develop your project. You are required to attend a weekly evening seminar and present as required.

Prerequisite(s): KMP412/KMN603 must be taken as either a prerequisite or a corequisite

Credit points: 24

Contact hours: 2 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN604

KMP414 Music Project 5

This unit follows from KMP413. You completes your project. You attend a weekly evening seminar and present as required.

Prerequisite(s): KMP413/KMN604 must be taken as either a prerequisite or a corequisite

Credit points: 24

Contact hours: 2 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN605

KMP415 Independent Project

It is important for those students who wish to investigate an area of study or discovery not centrally covered in the compulsory units, to have the opportunity to construct and execute a project in an area of their own choice. This unit allows such a study. The project may be in the field of scholarship and research or in creative work within music or in interdisciplinary work.

Prerequisite(s): Approval of unit coordinator

Credit points: 12

Contact hours: 3 per week

Campus: Kelvin Grove

Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: KMN609

KPB101 Foundations of Film and Television Production

This unit introduces the principles and technologies of video production for both cinema and television. This includes the roles and responsibilities of production teams, production management, design and practice. Lecture delivery by experts in the major production areas of producing, directing, and cinematography, editing and sound informs
this practice. You work in groups to produce videos which form a major part of their assessment.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and Caboolture  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KPB155

**KPB102 Film History**

This unit provides a broad coverage of film history while focusing on specific narrative film forms, styles, and movements. Emphasis is placed on narrative fiction films. Analysis of narrative film strategies in selected films highlights their significance in shaping the history of film. Developments in narrative film and related film theories are traced by considering topics such as Soviet montage, realism and expressionism, the classic Hollywood film, Italian neorealism, and the French New Wave; these are placed in technological, social, and cultural context.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KPB359

**KPB103 Film Genres**

The concept of genre in film theory and practice is considered by investigating the aesthetics of genre films, their generic codes and conventions, and genre trends in Hollywood and global cinema. Classic film genres (such as the Western, film noir, science fiction, and war movies), and more recent genre and subgenre developments (such as cyberpunk and neo-noir) are placed in cultural, social, and historical context.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KPB147, KPB305

**KPB104 Film and Television Production Resource Management**

This unit considers the role of the producer and executive producer in film and television production with a particular focus on running a production. It considers the following: preparing and running a budget, achieving balance in above-the-line, below-the-line and marketing costs, casting and crewing a production, and legal and copyright issues.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KPB314

**KPB105 Narrative Production**

This unit builds on and advances basic understandings, skills and principles delivered in KPB101. An introduction to the skills of sound and lighting complements the earlier core skills of camera, editing, directing and production management. Assessment consists of the production of a short narrative video.

**Prerequisite(s):** KPB101/KPB155  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SUM-2, 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KPB185+KPB260

**KPB106 Australian Television**

This unit explores the historical and global contexts that have determined the nature of Australian television. It also examines the television industry in terms of the differing imperatives shaping public and private television. The unit in addition canvasses the interaction between television and its audiences. This is followed by a critique of a number of important television texts and then a study of the probable and possible futures for television in Australia.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KPB209+KPB370

**KPB107 Television's Greatest Hits**

An interest in television means you should be able to look critically and constructively at the types of programs (genres) made and broadcast, and to investigate the different types of stories that can be told through these different genres.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KPB372-2

**KPB108 Media Text Analysis**

This unit acquaints you with a range of approaches, both traditional and contemporary, to the analysis of media texts. It equips you with practical methods of understanding the creation and structuring of social meaning through media. The strategies applied in the analysis of texts will be drawn from the following areas: Utilitarianism, New Criticism and the traditional legacy; Semiotics and Structuralism/Post-Structuralism; Marxism and Contextual/Historical Approaches, Feminism, Psychoanalysis, and Multiculturalism. The media texts chosen will include newspaper articles, cartoons, photographs, advertisements, films and television programs.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008  **Incompatible with:** KPB130

**KPB201 Experimental Production**

Through exploration of the historical and theoretical underpinnings of experimental motion picture art, you have the opportunity to develop your creative potential through experimentation. Building on prior knowledge acquired in the production units KPB101 and KPB105, you are encouraged to become willfully nonconformist in approach, drawing on a wide range of traditions from within the genre of Experimental or Avant-Garde film-making.

**Prerequisite(s):** KPB105/KPB185, KWB102/KWB111  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KPB190

**KPB202 Film and Television Business Skills: Entrepreneurship and Investment**

The business of television is all about spotting proposals at the concept stage with the potential to be made into successful programs, and about their creative management. This involves a number of personal skills, revolving around leadership, communication and encouragement of key creative personnel on one side, with presentation of ideas and team skills on the other. This unit builds from students' knowledge of management of the process and resources of production to the overarching skills of managing the creative process and maintaining a balance between risk taking and commercial prudence.

**Prerequisite(s):** KPB104/KPB314  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove
**KPB203 Australian Film**
This unit includes the following: study of New Wave Australian films within their cultural and institutional contexts; issues facing the film industry today; the filmic construction and circulation of cultural discourses such as national identity, nationalism, gender, ethnicity and class; the Australian landscape in film; experimental and Avant-Garde films; indigenous films; new technological and global challenges.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KPB343

**KPB204 Multi-Camera Television Studio Production**
This unit introduces you to the principles and technology of Television production, utilising both single and multi-camera techniques. In this unit you develop your practical and production skills and understandings to create content for the broad area of Television Studio Production, using our digital widescreen facilities. It introduces multi-camera television production techniques, building on skills already developed in prerequisite units.

**Prerequisite(s):** KPB201/KPB190  
**Credit points:** 24  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KPB265

**KPB205 Documentary Theory and Practice**
The documentary filmmaking tradition has involved many crucial aesthetic, technical and ethical concerns throughout history. This unit introduces this significant tradition of documentary production. For KP25/KK34 (Film & Television) students, the unit is a preparation for the documentary practical production unit, through learning to assimilate the principles outlined in the unit into their own documentary screenplays. For non-KP25/KK34 (Film & Television) students, the unit provides an opportunity to address the theoretical underpinnings of the documentary form, and the processes of documentary production.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KPB358

**KPB206 International Cinema**
This unit examines a range of national cinemas from a global perspective. Key theoretical approaches to national/international cinemas are covered, along with significant historical, textual, representational and ideological issues. The critical challenges posed by productions from these different cultures to Hollywood mainstream productions are also explored.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KPB344

**KPB301 Documentary Production**
This unit introduces video production concerned with the communication of non fiction events. It explores the historical and theoretical underpinnings of non-fictional documentary production. Training in management, direction, camera, sound and editing as they apply to documentary production at a professional level is included as is practice in a specialist role on video documentary productions.

**Prerequisite(s):** KPB204/KPB265, KPB205/KPB358  
**Credit points:** 24  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KPB360

**KPB302 Project Development and Script Editing for Television**
The business skills of entrepreneurship and securing investment provide the necessary incentive and support to enable the development of programs in all genres that will attract a broadcaster, even where part of that investment involves back-end exploitation riding on the broadcast and sometimes eventually the main source of revenue to the project. The unit will address the stages of project development, including the skills and function of script editing. The unit will explore the role of creativity in the development of ideas.

**Prerequisite(s):** KPB104/KPB314  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**KPB303 Critical Thinking About Television**
Students who have an interest in the social function of television should be encouraged to think critically about social, cultural and aesthetic issues regarding the medium.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KPB371

**KPB304 Television Practice**
This unit is the culmination of BCI (TV) students' learning over the preceding five semesters and an opportunity to put into practice the skills and knowledge acquired over that period. The unit involves the development and managing the production of television programs, either in a workplace environment or in a simulated production environment with all facets of a real workplace.

**Prerequisite(s):** KPB302  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**KPB306 Film Drama Production**
This unit includes film or video production that uses actors as mediators in the communication of fictional events. It provides training in management, direction, camera, sound and editing at a professional level. Practice is in a specialist role on short drama production/s.

**Prerequisite(s):** KPB301/KPB360, KPB308/KPB268  
**Credit points:** 24  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KPB270

**KPB308 Film and Television Drama Practice**
This unit introduces you to methodologies in the key specialisations of film and television drama. The unit familiarises you with a wide range of stylistic approaches to directing, producing, cinematography, editing and sound. You are expected to assimilate the principles outlined in the unit into KPB306 Film Drama Production and into your own creative work.

**Prerequisite(s):** KPB204/KPB265  
**Credit points:** 12
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KPB268

KSB101 Acting 1  
This unit focuses on the actor's instrument, using a series of exercises that deal specifically with whatever impedes the actor's personal truths, and unblocks instrumental blocks to emotional expression. Work incorporates stage and camera requirements. This IS A DESIGNATED UNIT.

Corequisite(s): KSB103  
Credit points: 12  
Contact hours: 14 per week  
Campus: Kelvin Grove and Cesslade  
Teaching period: 2008 SEM-1  
Incompatible with: KSB202

KSB102 Acting 2  
This unit continues instrument work and the introduction of craft techniques, dealing with contemporary naturalistic texts for stage, film and television.

Prerequisite(s): KSB101/KSB202  
Credit points: 12  
Contact hours: 14 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KSB203

KSB103 Voice and Movement 1  
This unit is an introduction to an organic approach to body and voice and their integration as the basis for all forms of dramatic expression. All voice and body work complements and supports the emotional freeing demanded in acting classes.

Corequisite(s): KSB101  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB204

KSB104 Voice and Movement 2  
This unit continues the vocal and physical development work and introduces specific craft techniques. You will be working on contemporary naturalistic texts for stage, film and television.

Prerequisite(s): KSB103/KSB204  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KSB205

KSB105 Theatrecraft  
This unit involves development of practical skills in workshop construction and pre-production areas of stage scenery, props and costumes.

Corequisite(s): KSB111, KSB113  
Credit points: 12  
Contact hours: 4 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB274

KSB111 Stage Management 1  
This unit introduces the coordination of a live theatre production including theatre layout and terminology, role of the stage manager, duties and responsibilities from pre-rehearsal to close of season, communication procedures and rehearsal room procedures.

Corequisite(s): KSB105, KSB113  
Credit points: 12  
Contact hours: 4 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB292  
Corequisite(s): KSB105, KSB111  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB289

KSB113 Technical Production 1  
This unit develops basic skills in theatrical lighting and sound operation and their integration into the overall production process.

Corequisite(s): KSB105, KSB111  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB289

KSB114 Event Technology Practice  
This unit provides technical production students with the opportunity to apply lecture content to authentic learning sites through participation in creative industries events and productions.

Prerequisite(s): KSB111/KSB292, KSB113/KSB289  
Credit points: 12  
Contact hours: 15 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KSB018

KSB211 Stage Management 2  
This unit introduces the management issues in areas of stage mechanics, flying, props and wardrobe and preparation of students to undertake production crew roles in these departments. It provides an introduction into stage management for Dance, Opera and Musicals.

Prerequisite(s): KSB111/KSB292, KSB113/KSB289  
Corequisite(s): KSB213. KSB215 is also strongly recommended as a corequisite.  
Credit points: 12  
Contact hours: 4 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB293

KSB212 Stage Management 3  
This unit broadens the skills base for stage managers into production and event management.

Prerequisite(s): KSB211/KSB293  
Corequisite(s): KSB214/KSB291  
Credit points: 12  
Contact hours: 4 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KSB294

KSB213 Technical Production 2  
This unit continues the creative use of lighting and sound in performances. It provides an introduction to lighting and sound design.

Prerequisite(s): KSB114/KSB018  
Corequisite(s): KSB211. KSB215 is also strongly recommended as a corequisite.  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KSB290

KSB214 Technical Production 3  
This unit broadens the skills base in areas of lighting and sound into drama, contemporary dance, ballet, opera, musicals, concerts and television productions.

Prerequisite(s): KSB213/KSB290  
Corequisite(s): KSB212/KSB294  
Credit points: 12  
Contact hours: 6 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KSB291

KSB215 Visual Theatre Design  
This unit considers the following: the role of visual expression in theatrical events; elements of space;
approaches to researching design elements; bearing of text and resources on events; western and eastern influences. **Prerequisite(s):** KSB105/KSB274 **Corequisite(s):** KSB211 and KSB213 are strongly recommended as prerequisites **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 **Incompatible with:** KSB276

**KSB221 Acting 3**
This unit continues the development of a personal working process through rehearsal and performance of increasingly complex texts.  
**Prerequisite(s):** KSB102/KSB203 **Corequisite(s):** KSB223 **Credit points:** 12 **Contact hours:** 20+ per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 **Incompatible with:** KSB247

**KSB222 Acting 4**
This is an advanced acting unit that deals primarily with role, character creation and advanced craft application. It is also designed to move the student actor into areas of professional text preparation, rehearsal management, and audition techniques. This advanced work includes development of the skills required in acting for film and television. 
**Prerequisite(s):** KSB221/KSB247 **Credit points:** 12 **Contact hours:** 20+ per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-2 **Incompatible with:** KSB248

**KSB223 Voice and Movement 3**
This unit explores the area of heightened language. The focus is on the technical devices of Shakespearean text. Work developed is performed both on the stage and for camera.  
**Prerequisite(s):** KSB104/KSB205 **Corequisite(s):** KSB221 **Credit points:** 12 **Contact hours:** 6 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 **Incompatible with:** KSB233

**KSB224 Voice and Movement 4**
This unit develops a vocal and physical technique that supports and serves the professional performer. Advanced voice and body studio work develops physical expressiveness, clarity and strength.  
**Prerequisite(s):** KSB223/KSB233 **Credit points:** 12 **Contact hours:** 6 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-2 **Incompatible with:** KSB234

**KSB225 Music Theatre Skills**
This unit provides students with an introduction to practical skills development in acting, dance and singing for music theatre. 
**Prerequisite(s):** Enrolment in KK34 (Acting), KK34 (Dance), KM32, KD25 or KS25 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 **Incompatible with:** KSB011

**KSB226 Music Theatre Project**
This unit follows on from Music Theatre Skills KSB225. You will experience the rehearsal process and performance of a music theatre work in order to apply the multidisciplinary skills developed in the first unit in this series.  
**Prerequisite(s):** KSB225/KSB011 **Credit points:** 12 **Contact hours:** Full time - two weeks full time rehearsal and a performance **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-2 **Incompatible with:** KSB012

**KSB227 Technical Theatre**
This unit introduces you to the basics in lighting, sound and stage management practice for theatre, developing knowledge of the skills and processes required to stage a small production with minimal support staff.  
**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-2 **Incompatible with:** KSB278

**KSB301 Theatre Project 1**
In this unit you participate in a season of semi-profiled performance projects, working as an ensemble performing roles for film and stage.  
**Prerequisite(s):** KSB222/KSB248; or KSB214/KSB291 and KSB212/KSB294. This is a final year unit. **Credit points:** 48 **Contact hours:** According to the productions' requirements **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 **Incompatible with:** KSB255

**KSB302 Theatre Project 2**
A season of high-profiled performance projects, providing you with the opportunity to demonstrate their skills to potential employers in the industry, through film and stage work.  
**Prerequisite(s):** KSB301/KSB255 **Credit points:** 48 **Contact hours:** According to the productions' requirements **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-2 **Incompatible with:** KSB256

**KTB061 Creative Industries Management**
This unit introduces management techniques within the Australian creative industries environment including company structures, cultural policy, strategic management and leadership in the arts, legal, ethical, economical and social requirements of arts, boards, and entrepreneurial activity.  
**Prerequisite(s):** Completion of 72 credit points of study **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1

**KTB062 Creative Industries Events and Festivals**
Combination of practical and theoretical investigation into how strategy and mission work in arts agencies in arts, events, promotion and public relations in Australia.  
**Prerequisite(s):** Completion of 72 credit points of study **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**KTB101 20th Century Performance**
In this unit you will investigate the major artistic movements of the 20th century; fields of performance practice dominant in the 20th century; key 20th century performance makers and innovators and theatricality and performance.  
**Credit points:** 12 **Contact hours:** 3 per week **Campus:** Kelvin Grove **Teaching period:** 2008 SEM-1
Incompatible with: KTB251

**KTB102 Process Drama**

This unit examines the structural forms and dramatic conventions used in a specific genre of drama - process drama. It moves from examining effective drama workshop design to consider the artistic application of these workshop techniques.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB214

**KTB103 Performing Skills 1: Body and Voice and Role**

This unit provides you with essential understanding of how to combine practical performance skills (involving body/voice/role) with analytical, research and group skills, into an overall methodology for creating performance, within a professional ethos.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB257+KSB259

**KTB104 Performance Innovation**

The aim of this unit is to give you an appreciation and understanding of performance innovation in both historical and contemporary contexts.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTB271

**KTB105 Production 1: Story Making**

This unit introduces a clearly defined rehearsal ethic through extended performance project. It includes text analysis, formal group discussion, role creation and intensive rehearsal, and live performance of a scripted drama before an audience.

**Prerequisite(s):** KTB103/KTB257  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTB273

**KTB106 Performing Skills 2: Style and Form**

This unit is designed to be of benefit to anyone seeking to extend their understanding through workshop, rehearsal, performance, and the application of dramaturgical skills, of theatrical styles and forms other than realism. These could include Greek drama, commedia dell'arte, Shakespearean theatre, Restoration comedy, comedy of manners, epic theatre and theatre of the absurd.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTB258

**KTB201 Drama Curriculum Studies 1**

This unit provides an introduction to key syllabus documents and to key skills and strategies of drama teaching.

**Prerequisite(s):** Completion of 48 credit points of study in this discipline area  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB258

In this unit, you develop planning and teaching skills for aesthetic learning and assessment and develop as a critically reflective practitioner and teacher artist.

**Prerequisite(s):** KTB201  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTB415

**KTB203 Drama Curriculum Studies 3**

This unit is the final drama curriculum unit for you as a graduating drama teacher. In this third curriculum unit you will expand on the knowledge and understandings gained from Drama Curriculum Studies I and 2. It provides you with the opportunity to articulate a wide range of teaching skills that are essential for interpreting and managing in a variety of arts contexts in school and industry.

**Prerequisite(s):** KTB202 must be taken as either a prerequisite or a corequisite  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**KTB204 Understanding Performance**

In this unit you will investigate the nature of the performance event; performance in everyday life; theatricality and performance; trans-disciplinary performance theory and practice; the body in performance; site and performance; live and mediated performance; spectator and audience.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB275

**KTB205 Production 2: The Collaborative Artist**

This unit focuses on the collaborative devising of a performance with professional guidance.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB308

**KTB206 The Creating Body**

This unit is designed to extend understanding of innovative, physically-based performance. Through practical and theoretical work, the unit explores the possibilities and problematics of body-centred methodology and performance.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** KTB277

**KTB207 Staging Australia**

This unit introduces key concepts and practices pertaining to Australian theatre and drama of the twentieth and twenty-first centuries. Theatre practices are explored in relation to broader social and political concerns.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** KTB253

**KTB209 Applied Performance**

This unit is a combination of a practical and theoretical investigation into the process of improvisation and the way drama can be used as a tool for critical enquiry and social change. It provides a basis for further work in writing for performance and advanced improvisational skills.

**Prerequisite(s):** KTB102/KTB214  
**Credit points:** 12
KTB301 Performing Self
This unit provides you with the requisite skills for success within the creative industries in a knowledge economy by consolidating three years of undergraduate study as a performing arts graduate. In particular, the unit focuses on what it means to be an initiator and leader within the sector.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KTB280

KTB303 Production 3: Interpreting and Adapting
Performance 3: Interpreting & Adapting will provide you, as a third-year student, with the opportunity to consolidate theoretical understandings and practical skills in performance making with particular application to adaptation, interpretation and the creation of innovative performance forms.

Prerequisite(s): Completion of 168 credit points of study  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KTB056

KTB305 The Entrepreneurial Artist
This unit is taken in the final three years of the Bachelor of Creative Industries Drama course. The program is designed to cover a range of artistic and economic areas, including: aesthetics, creativity, regulatory, administrative, legal and ethical issues related to the practice and business of the creative industries.

Prerequisite(s): Completion of 168 credit points of study  
Credit points: 12  
Contact hours: 5 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KTB310

KTB306 Directing for Events and Festivals
This unit equips you with the basic analytical, organisational, interpretive and choreographic skills necessary to taking a creative performance project from conception through to realisation.

Prerequisite(s): Completion of 72 credit points of study  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: KTB309

KTP401 Contemporary Performance
School curriculum documents present Drama as a stable field of study. The elements of Drama and the conventions of various periods have provided the pivot around which genres and forms of Theatre can be studied. However, in recent decades a fresh species of Drama has emerged called Performance to challenge many of the traditional terms we use to define Theatre.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KTN002

KTP406 Creative Industries: Events and Festivals
Combination of a practical and theoretical investigation into how strategy and mission work in arts agencies in arts, events, promotion and public relations in Australia.

KTP409 Arts and Cultural Management
This unit provides students of arts and cultural management with an investigation and analysis of the management function of the not-for-profit arts organisation. It examines the strategic management approaches and operational procedures of arts organisations, including their relationships with the legal system, the media, business, the public, and the industrial provisions and human resources of the organisation.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1 and 2008 SEM-2  
Incompatible with: GSN227

KTP410 Drama Project
This unit will provide an opportunity for you to design and implement a classroom based project which applies the learning in the course and requires fieldwork in your workplace.

Prerequisite(s): Completion of three compulsory units from either KTP401/KTN002, KTP402/KTN004, KTP403/KTN001, KTP404/KTN003, KTP405/KTN005  
Credit points: 24  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1 and 2008 SEM-2  
Incompatible with: KTN006

KVB102 Modernism
This unit provides an overview of the key concepts and movements that comprise twentieth-century modernism in the period 1900-1945. Beginning with cubism, the unit provides an understanding of terms, such as avant-garde, modernism and modernity. It explains how modernism focuses upon the issue of representation and how this approach led to inter-disciplinary work, which engaged with film, photography, design, architecture and installation as well as the traditional visual arts.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KVB701

KVB103 Australian Art
This unit focuses on Australian art over the course of the twentieth century, including the contemporary period. It gives you an understanding of the national, cultural and social frameworks within which this art has been produced and introduces a number of artists, artistic movements and issues within Australian art. It also considers the nature of indigenous art and its contribution to the complexity of Australian cultural identity. All of these issues are presented in order to help you understand the important role of Australian art as an expression of our cultural values throughout the twentieth century.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1  
Incompatible with: KVB701

KVB104 Photomedia and Artistic Practice
This unit aims to provide you with an understanding of the aesthetic aspects of various photomedia concepts and processes and the artistic use of genres. It also aims to give
you proficiency in alternative and experimental uses of photographic processes, establishing an understanding of investigative and creative research. By including a range of photographic processes as part of the photographic artist's repertoire, this unit aims to give you a broad range of choices and approaches to creating images. The unit encourages you to engage with photography as a medium for visual and artistic expression in order to extend your own photographic practice.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: KVB509

KVB105 Foundations of Drawing for Animation 1
This is a studio based unit that introduces you to media, processes, strategies and traditions of drawing and associated imagery for use in animated media. The development of critical/reflective frameworks of traditional and contemporary practice underpins studio development.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1
Incompatible with: KVB755

KVB106 Foundations of Drawing for Animation 2
This unit develops individual knowledge, concepts and skills to enable you to articulate and present capabilities of motion through drawing for contemporary animation practices.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2
Incompatible with: KVB756

KVB107 Drawing For Fashion
This unit concentrates on developing core skills and knowledge of drawing to provide an important foundation for existing and evolving modes for constructing and presenting fashion proposals.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1
Incompatible with: KVB107-2, KVB757-2

KVB108 Contemporary Asian Visual Culture
This unit considers the influences of historical visual arts, backgrounds, philosophical beliefs and trade on the symbolism, forms, techniques and uses of various artifacts in contemporary Asian visual art practice.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2
Incompatible with: KVB444

KVB110 2D Media and Processes
This introductory unit is a studio course enabling you to explore, construct, analyse and interpret visual data through the 2D graphic modes of drawing, painting and printmaking.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KVB111 3D Media and Processes
This first year unit introduces you to current contemporary art practices and concepts to assist you in making, analyzing and critiquing three dimensional artworks. As a second semester unit, this unit will develop foundational skills in 3D media and processes to complement and augment understandings and knowledge of 2D media and processes.

Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KVB120 Studio Art Practice 1
This unit includes the following: development of an enquiry-based, self-sustaining art practice; fostering of appropriate research skills; encouragement of open flexible independent approach to formulating resolutions to conceptual and visual concerns; development of safe workshop practices, safe studio work habits and appropriate professional skills. It includes introductions to technological artforms. This is a designated unit.

Credit points: 24  Contact hours: 6 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1
Incompatible with: KVB740

KVB121 Studio Art Practice 2
This unit addresses a number of contemporary contexts and methods for studio art practice that provide catalysts for your individual research. In consultation with studio staff, you formulate and apply an individual framework to develop your studio based practice. Lectures support studio work by introducing professional practitioners, current art issues and practices and providing examples of contemporary art in its multiple contexts. Studio workshops assist you in the development of technical skills.

Prerequisite(s): KVB120/KVB740  Credit points: 24  Contact hours: 6 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: KVB741

KVB200 Exhibition and Display in the Visual Arts
This unit addresses the development of the Museum in Western cultures and how that tradition manifests in current arts practices, such as in contemporary exhibitions, the display of collections, installation and site-specificity, audience interaction, curatorial activities such as didactic panels and virtual galleries. This unit will assist you in displaying objects and images from your own arts practice and/or the artwork of others in effective and appropriate ways.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

KVB203 Earth, Object and Installation
This unit builds on the introductory unit 3D Media and Process enabling you to pursue three dimensional studies at a more advanced level. Through exercises, projects and lectures, this unit will continue to explore the ideas and materials that inform object-making and installation practice.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

KVB211 Post 1945 Art
This unit introduces the historical, philosophical, economic, political, social, cultural, artistic and formal issues related to the production of art since 1945 and into the post-modern era. Major topics that are examined include the neo-avant-garde and artÂ’s engagement with consumerism. This unit is intended as a foundation skill-base for all students in Creative Industries applicable to all disciplines and cultural industries including art criticism, arts practice, architecture,
landscape architecture, fashion and music.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**KVB212 Australian Art, Architecture and Design**
This unit aims to examine the impact of modernism upon the fields of visual art, architecture and design in Australia during the period between 1917 and 1967. It will also examine debates about modernism and provide a detailed historical background to the development of these three fields in Australia in response to the idea of modernism. It will build upon the background provided in units such as KVB102 Modernism and KVB103 Australian Art by providing more in-depth analysis of modernism in the Australian context. It will also develop the practical application of such principals in design exercises.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**KVB213 Graphic Investigation**
The interface between the graphic design, print and art environments is dynamic and pervasive. An awareness of contemporary practices through conceptual and cross-media investigations will allow you to interpret, create and engage in these environments.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**KVB220 Studio Art Practice 3**
In consultation with studio staff, you formulate a program of work for the semester which allows you to investigate your own personal artistic direction, formulate and develop self-generated enquiry and acquire working methods, resources, skills and knowledge necessary to realise concepts.

**Prerequisite(s):** KVB120/KVB740 and KVB121/KVB741  
**Credit points:** 24  **Contact hours:** 6 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  
**Incompatible with:** KVB742

**KVB221 Studio Art Practice 4**
The conditions of current cultural practice, their production, reception and contribution to society are extremely diverse, increasingly complex and multi-layered. In this unit sustained critical involvement and an increasing commitment to artistic conceptual pursuits is underpinned by contemporary theoretical reference which includes investigation into a broad range of artists’ practices. You are required to articulate a personal position in these issues.

**Prerequisite(s):** KVB220/KVB742  
**Credit points:** 24  **Contact hours:** 6 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  
**Incompatible with:** KVB743

**KVB301 Visual Arts Curriculum Studies 1**
The aim of this unit is to enable you to begin to design and sequence Visual Arts activities that address learning experiences for successful planning, teaching and classroom management. The skills and knowledge of this unit will assist you in creating appropriate learning outcomes and assessments as well as address syllabus requirements. The content and processes of this unit are based on your previous required studies and experiences in Visual Arts theory and practice.

**Prerequisite(s):** Completion of 48 credit points of study in this discipline area  
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  
**Incompatible with:** KVB412

**KVB302 Visual Arts Curriculum Studies 2**
The aim of this unit is to have you establish capabilities in the design, sequencing and delivery of visual arts studies that address the learner as well as the requirements of syllabus documents. This unit will address issues of both unit and whole program structures as well as classroom management and teaching in the visual arts.

**Prerequisite(s):** KVB301  
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  
**Incompatible with:** KVB413

**KVB303 Visual Arts Curriculum Studies 3**
This unit aims to prepare you for the complexity of secondary visual arts teaching. With a particular emphasis on professional preparedness, this unit aims to support your development as a competent, confident, skilled curriculum developer and reflective practitioner.

**Prerequisite(s):** KVB302 must be taken as either a prerequisite or a corequisite  
**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**KVB304 Contemporary Art Issues**
This unit is intended as a foundation skill-base for students in Creative Industries applicable to all disciplines and cultural industries including art criticism, arts practice, architecture and fashion. The unit introduces the economic, political, social, cultural, artistic and formal issues related to the production of art since 1990 in the contemporary era. By means of lectures, discussions and analysis of artworks and readings, the students’ awareness of the conceptual, historical and philosophical contexts concerning artists and the artworks is heightened.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  
**Incompatible with:** KVB712

**KVB306 Video Art and Culture**
Existing Visual Arts units examine a broad range of subjects addressing artistic media such as painting, sculpture and installation. The ‘Video Art and Culture’ unit supplements these by instituting a specialised study of artistic and cultural practice that focuses on new mass media technology. The unit therefore enhances, extends and updates knowledge of recent art strategies in contemporary society.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  
**Incompatible with:** KVB703

**KVB307 Theories of Spatial Culture**
This unit provides the necessary critical evaluation of issues and practices that relate to considerations of space in modern and contemporary art, new media and culture in general. It provides a historical overview of key art practices that have focused their critical attention to the issue of space and the built environment. In order to function as an
informed practitioner in the environment of public space you must acquire such knowledge because it will form the critical-analytical background to current debates and theories in the field of spatial culture and public art.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KVB704

**KVB320 Studio Project 1**
In consultation with studio staff students at this level are expected to undertake individual projects that lead to the development of a professionally organised and articulated body of work. Substantial research is expected in support of these projects.

**Prerequisite(s):** KVB221/KVB743  **Credit points:** 24  **Contact hours:** 6 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KVB744

**KVB321 Studio Project 2**
In consultation with studio staff, at this level you are expected to undertake individual projects that lead to the development of a professionally organised and articulated body of work. Substantial research is expected in support of these projects.

**Prerequisite(s):** KVB320/KVB744  **Credit points:** 24  **Contact hours:** 6 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KVB745

**KVP400 Contemporary Aesthetic Debates**
This unit focuses upon aesthetic debates that inform contemporary art practice. The unit concentrates on developing historical, critical and analytical skills in evaluating modern and contemporary critical issues in the visual arts as well as contemporary culture in general. For this reason, it examines the status of art today, asking what type of knowledge does art give us, whether it remains important today and how art is best comprehended.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KVB004

**KVP401 Graphic Design**
New modes of reproduction, display platforms and transmission devices are reshaping the way text, image and message can be communicated. As creative advertisers, it is important for you to develop new ways of approaching graphic design processes in order to confidently utilise traditional and contemporary media, and to produce innovative cross-media outcomes. It is also important that you are flexible and responsive to the needs of clients, with the ability to articulate and graphically present multiple options for production.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KVP100

**KVP402 Photomedia and Creative Practice**
This unit provides you with an understanding of conceptual, technical and aesthetic perspectives as encountered in a number of contemporary photographic genres. The unit teaches you strategies for developing and applying advanced processes and concepts in Photomedia to the creation of your own personal work. It also encourages critical understanding of contexts that will contribute to your ability to work in a variety of creative and industry settings.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** KVB104, KVB509

**KWB108 Introduction To Literary Theory and Cultural Studies**
"The 'textualisation' of the world has been an important development in twentieth century theory in the West," (Fuery:57). What are texts? What do they mean? This unit addresses these issues by providing you with an introduction to conceptual frameworks derived from some of the major critical discourses that have impacted on our world.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KWB001, KWB716

**KWB109 Ozlit**
This unit provides you with opportunities to read, explore, discuss and evaluate a number of Australian texts written and published over the last twenty-five years. Upon completing this unit, you are able to understand and critically interrogate texts pertinent to contemporary Australian society and culture.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and Caboolture  **Teaching period:** 2008 SEM-2  **Incompatible with:** KWB002, KWB710

**KWB208 Modern Times (Literature and Culture in the 20th Century)**
The twentieth century is a time of significant developments and major transformations in writing and culture. This unit focuses on a number of twentieth century writers from Europe, England, Africa, Asia, Australia the Americas, from modern to postmodern times, and explores the connections between texts, language, culture and society.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1  **Incompatible with:** KWB003, KWB321

**KWB209 Shakespeare, Then and Now**
This unit is designed to introduce students to Shakespearean studies and the ongoing cultural importance of Shakespearean material.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** KWB004, KWB729

**KWB307 Indigenous Writing**
This unit provides you with the opportunity to explore the rich and diverse range of Indigenous narrative or story telling throughout the world, including Australian Aboriginal and Torres Strait Islander story-telling. In doing so it explores both traditional and contemporary narratives as an exciting site of constantly developing, innovative and culturally rich forms of cultural expression, exploration and development. The unit provides you with the opportunity to explore and reflect upon their own relationships to Indigenous Writing and culture as readers, writers and/or
KWP308 Wonderlands: Literature and Culture in the 19th Century
This unit considers important contemporary cultural and social questions by way of readings in science fiction, fantasy fiction and fiction, class ideologies and revolutionary politics from a selection of novels and poetry of the nineteenth century. The novels and poems examine political and social change in Europe between 1790 and 1900, with a view to making critical links between current ideologies and literary forms and their formulation in a nineteenth century text. As such, works ranging from Frankenstein to Alice in Wonderland are deployed to consider the textual representations of important cultural, social, and sexual issues.
Prerequisite(s): Assumed Knowledge: KWB207, KWB208 and KWB209 Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KWB005, KWB724

KWP309 Popular Fictions, Popular Culture
The unit is designed to provide you with skills in understanding popular culture/s. It addresses the production of popular culture via a range of texts and mediums, and provides you with a framework by you they can critique the operations of popular cultures.
Prerequisite(s): Assumed Knowledge: KWB206 Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KWB006, KWB725

KWP400 Creative Writing: Novel and Genre
This unit examines the major theories underlying and informing the practice of writing sustained creative texts, including narrative prose, creative nonfiction and genre writing. Such theory and knowledge enhances critical awareness and writing strategies relevant to the production and future publication of a novel-length text.
Prerequisite(s): It is recommended that students complete KWP406 Creative Writing: The Novel before KWP400 Creative Writing: Novel and Genre, if possible. Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KWP103

KWP401 Media Writing
This unit introduces you to the formats, terminology and protocols used in the preparation of proposal documents and short scripts. It will explore fundamental concepts including narrative structures, metaphors, point of view, plotting, character and voice. You will examine a range of professional scripts and development documents and be asked to apply their knowledge of typical script problems and solutions to their own work.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: KWP111

KWP402 Persuasive Writing
This unit teaches the use of persuasive writing in the workplace. The unit analyses a variety of writing genres to reveal how they persuade their audiences. The analysis is founded on critical discourse and semiotic theory. You will apply these learned techniques and theories to produce a portfolio of persuasive writing. It covers a range of genres such as public health campaigns, proposals, speechwriting and political persuasion.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KWP315

KWP403 Creative Writing: The Short Story
The unit covers the writing of the short story in detail.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: KWP350

KWP404 Editing and Developing the Manuscript
This unit examines processes of editing and manuscript development from the viewpoint of both editor and writer. You participate in the managed development of a manuscript or a range of manuscripts. Classes are taken in intimate seminar mode.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1 Incompatible with: KWP104

KWP405 Corporate Writing and Editing
This unit deals with both the fundamentals of language (grammar, punctuation, style) and the dominant corporate writing genres (manuals, report, speeches, brochures).
Credit points: 12 Contact hours: 3.5 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: KWP314

KWP406 Creative Writing: The Novel
This unit focuses on the development of a novel proposal, based on a solid understanding of the skills, industry expectations and writing skills that undertaking such a task requires.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

KWP407 Great Books: the Literary Classics
This unit provides an overview of the enduring classic literary works. It will give you a better knowledge and understanding of the craft of storytelling and stimulate you to develop your own critical and creative writing as well as an understanding of yourself and others. The course commences with several of Chaucer's medieval tales and concludes with Vonnegut's modern anti-war classic Slaughterhouse Five. It includes Swift's biting satire and Emily Bronte's passionate Wuthering Heights. The unit aims to make such works accessible to students from all disciplines in the university, and provides valuable historical context and analysis of the writing craft in each case.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

LPP111 Lawyers' Skills
The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to demonstrate oral communication skills, advocacy skills, negotiation and dispute resolution skills, and letter writing and legal drafting skills'. These skills are introduced in this unit. The intention is that students then seek to develop those skills during the rest of the course and in the workplace.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  4 days per semester  Campus: Gardens Point  
**Teaching period:** 2008 SUM-2, 2008 6TP1, 2008 6TP2, 2008 6TP4 and 2008 SEM-2

**LPP112 Work Skills**
The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to manage workload, work habits and work practices in a way that ensures clients' matters are dealt with in a timely and cost-effective manner'. This unit provides students with the basis of those skills and the basics of practical legal problem-solving skills. The intention is that students then seek to develop those skills during the rest of the course and in the workplace.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  4 days per semester  Campus: Gardens Point  
**Teaching period:** 2008 SUM-2, 2008 6TP1, 2008 6TP2, 2008 6TP4 and 2008 SEM-2

**LPP113 Civil Litigation**
The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to conduct civil litigation in first instance matters in courts of general jurisdiction, in a timely and cost-effective manner'. This unit provides students with the basis of that ability in the context of civil litigation in a state court.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  6hrs per week plus online  Campus: Gardens Point and External  
**Teaching period:** 2008 SEM-1, 2008 6TP2, 2008 6TP3 and 2008 SEM-2

**LPP114 Commercial**
The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to conduct commercial transactions such as the sale and purchase of a small business...set up standard business structures...provide basic advice on finance and securities...and appreciate the type of advice needed to assess the revenue implications of standard commercial transactions'. This unit provides students with experience in specific commercial transactions of the types described above.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  6 hours per week plus online  Campus: Gardens Point and External  
**Teaching period:** 2008 SEM-1, 2008 6TP4, 2008 SEM-2 and 2008 6TP5

**LPP115 Property**
The Law Admissions Consultative Committee considers that 'an entry level lawyer should be able to convey, lease and mortgage real property...and provide general advice on land use.' This unit equips students to do that in selected contexts.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  6 hours per week plus online  Campus: Gardens Point and External  
**Teaching period:** 2008 SEM-1, 2008 6TP2, 2008 6TP3 and 2008 SEM-2

**LPP116 Electives**
The Law Admissions Consultative Committee considers that entry level lawyers should have experience in two areas of practice, administrative law practice, criminal law or family practice AND one of either wills and estates, planning and environment, employment and industrial relations, or consumer law practice. This unit provides students with experience in their choice of one area from each list.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  6 hrs per week plus online  Campus: Gardens Point and External  
**Teaching period:** 2008 SEM-1, 2008 6TP4, 2008 SEM-2 and 2008 6TP5

**LPP117 Interaction**
This unit is designed for law graduates who are completing the Graduate Diploma in Legal Practice for the purpose of becoming admitted as a legal practitioner and who are not working in law offices while they are doing the course. The unit seeks to further develop students' communication, advocacy, interviewing and work management skills where they do not have the opportunity to develop those skills in a real life law office.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  6 hours per week, online plus 2 days  Campus: Gardens Point and External  
**Teaching period:** 2008 SEM-1, 2008 6TP2, 2008 6TP3 and 2008 SEM-2

**LPP118 Placement**
The Law Admissions Consultative Committee considers that every entry level lawyer should have experience in a law office before being admitted. This unit provides four weeks experience in a law office to satisfy legal practitioner admission requirements.

**Prerequisite(s):** LLB  Credit points: 12  Contact hours:  40 hrs per week  Campus: External  
**Teaching period:** 2008 SEM-1, 2008 SEM-2, 2008 6TP6 and 2008 SUMMER

**LSB111 Understanding Disease Concepts**
This unit introduces the structure and function of the body, reviews the body systems and links those to mechanisms of disease. Systems and topics covered are: integumentary, skeletal, muscular, nervous, endocrine, blood, heart and circulation, lymphatic, immune, respiratory, digestive (including nutrition and metabolism), urinary, reproductive, concepts of growth and development, genetics. Examples of diseases introduced are: heart disease and hypertension, cancers (lung, breast, skin, colon, prostate, testicular, cervical), diabetes, depression, Parkinson's disease, asthma and chronic obstructive lung diseases.

**Credit points:** 12  Contact hours:  4 per week  Campus: Gardens Point  
**Teaching period:** 2008 SEM-1

**LSB112 Disease Processes and Pharmacology**
A review of Anatomy and Physiology is presented together with a study of some pathological conditions. Pharmacology principles are explained with examples related to diseases studied. The lectures are supported by an on line site and practicals with mini tutorials during which the 3-dimensional structures and regional anatomy are explored. Pathological specimens illustrate the pathological conditions reviewed.

**Credit points:** 12  Contact hours:  4 per week  Campus: Gardens Point  
**Teaching period:** 2008 SEM-1
LSB118 Life Science
A study of life processes in all five groups of living organisms (bacteria, protists, fungi, plants and animals). Traditional topics in biology are integrated with recent research advances in molecular and cellular biology to provide a comprehensive foundation for later units in the medical, biotechnological and ecological sciences. The unit begins by constructing cells from the four quantitatively important groups of biological molecules (proteins, lipids, carbohydrates and nucleic acids). Molecular and evolutionary aspects of genetics are then introduced, with the great diversity of reproductive strategies found among organisms being emphasised. Finally, bioenergetics (photosynthesis and respiration) and its relevance to environmental issues is outlined.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point and Carseldine

LSB119 Life Science for Optometrists
This unit provides an introduction to the study of life processes in all five groups of living organisms (bacteria, protists, fungi, plants and animals). The unit begins by constructing cells from the four quantitatively important groups of biological molecules (proteins, lipids, carbohydrates and nucleic acids). Cell function is then described, using neurons (including eye rod and cone cells) and muscles as examples. Molecular and evolutionary aspects of genetics are then introduced, with the great diversity of reproductive strategies found among organisms being emphasised. Finally, bioenergetics (photosynthesis and respiration) and its contemporary relevance to environmental and sociopolitical issues are outlined.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
Incompatible with: LSB118

LSB131 Anatomy
This unit includes basic concepts of anatomy: an overview of the structure of cells, body tissues, and body systems; aspects of surface anatomy which are relevant to human movement; musculoskeletal systems.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
Incompatible with: LSB142, LSB182, LSB258

LSB142 Human Anatomy and Physiology
The aim of this unit is to provide grounding in the principles of human anatomy and physiology. Following an introduction to the structure of the cell and the organisation of tissues, each of the major systems that constitute the human body are examined by the integrated study of their anatomy and physiology.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
Incompatible with: LSB182, LSB258

LSB145 Anatomy 1
The aim of this unit is to understand and apply anatomical terminology to the description of cell structure, primary tissues, the muscular system, and the integumentary system, with a primary focus on detailed osteology and arthology of the human body. The relationship between structure and function is investigated within these systems.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

LSB152 Anatomy
This unit of human anatomy includes an introductory study of cell structure, primary tissues, skeletal system, integumentary system, muscular system, cardiovascular system, lymphatic system, respiratory system, digestive system, renal system, nervous system, eye, ear, endocrine system and the reproductive systems.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
Incompatible with: LSB255

LSB182 Bioscience 1
This unit develops an understanding of normal human structures in relation to their functions at the cellular, tissue and organ levels. This is a foundation course in anatomy and physiology for nursing students. Topics covered are: the cell, tissues; systems of the body and their functions; surface anatomy and body topography; musculoskeletal adaptations; posture control and balance.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point and Caboolture  Teaching period: 2008 SEM-1 and 2008 SEM-2

LSB231 Physiology
This unit covers the general physiological principles such as homeostasis and how all systems in the body contribute to it. Topics include cells, transport processes, cardiovascular system, cardiac electrical activity, cardiac output, regulation of blood pressure, respiratory system, endocrine system, pulmonary ventilation and its function.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB235 Advanced Anatomy
An in-depth study of the systematic and regional anatomy of the lower limb is undertaken with particular emphasis on osteology, arthrology, musculature, angiology and neurology.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB245 Anatomy 2 and Introductory Pathology
As an extension of LSB145, this human anatomy unit introduces the anatomical terminology used in the description of the cardiovascular system, lymphatic system, respiratory system, digestive system, urinary system, endocrine system, reproductive system and the anatomy of the eye and ear. The relationship between structure and function is investigated within these systems. Furthermore an examination of the application of scientific methods to the study of the general principles of disease processes and the major diseases of organ systems is included as a secondary component to this unit.
Prerequisite(s): LSB145  Corequisite(s): PCB276 (MIT), PCB287 (RT)  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
LSB250 Human Physiology
This unit is designed to introduce optometry and medical science students to the principles of human physiology and to provide students with the necessary background for future studies in physiology, pharmacology, pathology and immunology. This unit addresses the physiology all of the major systems of the human body, including: cell transport, cell signaling, endocrine physiology, neurophysiology, muscle physiology, physiology of the cardiovascular, immune, respiratory, reproductive, digestive and lymphatic systems and physiology of the special senses and reflexes. This unit has a practical component, with one 2 hour laboratory session per week and 3 hours of lectures.
Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB231, LSB451

LSB255 Human Anatomy
The medically oriented biological scientist requires a detailed understanding and knowledge of human anatomy. This unit exposes the student to the theoretical and practical facets of both microscopic and macroscopic anatomy of the human body with the emphasis on the microscopic anatomy.
Prerequisite(s): SCB112 or LSB118 (or equivalent)
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB231, LSB451

LSB258 Principles of Human Physiology
The aim of this unit is to provide a grounding in the principles of human physiology. Following an introduction to the organisation of tissues, each of the major systems that constitute the human body are introduced by the integrated study of their structure and function.
Prerequisite(s): LSB118 Corequisite(s): LSB238
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB142, LSB182

LSB275 Biomolecular Science
This unit addresses the structures and functions of proteins, carbohydrates, lipids and nucleic acids, basic enzymology, mechanisms of cellular energy production and the role of ATP. Study includes the metabolism of carbohydrates, lipids and amino acids and the fundamentals of protein biosynthesis and molecular biology.
Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB308, LSB325, LSB408

LSB308 Biochemistry
This unit includes the following: the basic biochemistry of amino acids, peptides and proteins; carbohydrates and nucleic acids; lipid biochemistry and membrane function; basic enzymology; energy production in cells; high energy molecules; thermodynamics and bioenergetics.
Prerequisite(s): LSB238, PCB242 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: LSB275, LSB325

LSB309 Introduction to Intellectual Property Law
Intellectual property protection is undoubtedly of paramount importance in the research, development and commercialisation of emerging technologies. Managers and researchers need to be aware of the different types of property that can be protected and how the property needs to be protected. There have also been significant developments in the field of intellectual property law in recent years. The concepts taught in Introduction to Intellectual Property Law are of significant relevance to persons intending to practice in the emerging fields of science.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB321 Systematic Pathology
This unit includes the applications of general pathology to the study of diseases of the organ systems: cardiovascular, respiratory, alimentary, urogenital, nervous, musculoskeletal, endocrine, haematologic and skin.
Prerequisite(s): LSB145 or LSB245 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: LSB361, LSB367, LSB475

LSB325 Biochemistry
The study of biochemistry and cell biology, along with anatomy and physiology, provides students with the knowledge required for the proper understanding of the structure and function of the human body and its organ systems in health and disease, as a preparation for their clinical studies.
Prerequisite(s): PCB242 Corequisite(s): LSB338
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: LSB275, LSB308, LSB408

LSB328 Microbiology 1
This is an introductory core unit in microbiology dealing with aspects of microbial diversity, ecology, classification and taxonomy, structure and function, nutrition and metabolism, growth and reproduction, genetics, control and host-microbe interactions.
Prerequisite(s): LSB118, PCB242 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1
LSB338 Cell and Molecular Biology 2
This continues and expands on the topics introduced in LSB238 Cell and Molecular Biology 1. This unit integrates gene structure and the architecture and organisation of eukaryote chromosomes with the basic cellular processes associated with gene expression, mutation, DNA repair, replication and recombination from a molecular genetic perspective. The molecular mechanisms that underlie cell communication, cell cycle control, cell proliferation and cell death, and the integration of these processes in functional tissues are also explored.
Prerequisite(s): LSB238 Corequisite(s): LSB308 (SC01), LSB325 (LS37) Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB345 Regional & Imaging Anatomy 1
This unit focuses on the regional anatomy of the head, neck, upper limb, lower limb and the anatomy of the structures of the above regions which are visualised by medical imaging modalities.
Prerequisite(s): LSB145, LSB245 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB358 Medical Physiology 1
The aim of this unit is to provide a thorough examination of the functional organisation of the human body. The subject provides a useful frame of reference for students enrolled in courses such as biology, biochemistry, microbiology, molecular biology, nutrition and human movements. The subject is offered in conjunction with LSB458 which runs in second semester and as a prelude to the third level subjects Advanced Physiology [LSB558] and Clinical Physiology [LSB658].
Prerequisite(s): LSB131 or LSB142 or LSB255 or LSB258 or NRB270 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB365 Pathology
Pathology introduces students to the study of the disease processes underlying the major diseases of human organ systems. General disease processes of the major specific diseases of the organ systems are introduced, and then become the focus in systematic pathology. An understanding of general and systematic pathology is fundamental to the application of basic biomedical knowledge to clinically relevant states and the major diseases. This unit provides students with the foundation knowledge needed for subsequent clinical semesters. On completion of this unit, students should know, understand and be able to apply facts, concepts and terms related to disease processes and the major diseases occurring in the organ systems.
Prerequisite(s): LSB250, LSB255 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB367 Pathology
This unit is an external unit designed to run online to meet the requirements of the students in the course who are located throughout Queensland. Pathology has a central role in most health related courses. A sound understanding of pathology is essential for the informed assessment and management of emergency patients. The unit has two main sections. The first section deals with general pathology principles (e.g. homeostasis, adaptation and defence, principles of diagnosis, environment and pathology, neoplasia, circulatory disorders). The second section involves application of the general principles of pathology to major diseases and dysfunctions of each of the organ systems of the body.
Prerequisite(s): Anatomy & Physiology units Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: LSB321, LSB361, LSB475

LSB382 Bioscience 3
This Bioscience unit is based on previous studies in anatomy, physiology and microbiology. It includes: the physiology, pathophysiology and pharmacology of diseases (including infectious diseases) of the nervous, reproductive, gastrointestinal and renal system. Also covered are diabetes; diseases of joints; obesity and its effects on the body; physiological demands of exercise.
Prerequisite(s): LSB182 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB397 Plant Physiology
This unit provides a comprehensive overview of how plants grow and respond to the environment, based on mechanisms involving cellular and molecular events. Topics more or less follow the life history of the plant, and include: seed germination and the mobilisation of seed reserves; water and mineral-nutrient uptake; photosynthesis; responses to stresses (including water deficit, excess light, attacks by pests and pathogens); synthesis of unique chemicals; development of flowers and fruits. This is a foundation unit for continuation into plant biotechnology and ecology areas.
Prerequisite(s): NRB270 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB408 Metabolism
This unit addresses the basic biochemical pathways of cellular metabolism for the major nutrient groups in mammals (including carbohydrates, lipids, amino acids and nucleotides); electron transport and oxidative phosphorylation; metabolic control mechanisms in relation to nutrient status in normal and pathologic situations; and the integration of metabolism for specialised tissue functions.
Prerequisite(s): LSB308 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB275, LSB325

LSB409 Readings in Biotechnology
Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world commercial biotechnology. In this unit, students adopt a team approach to developing and designing a
research project to be undertaken in LSB709 Biotechnology Research Project. Students explore the roles of teams in assigning, performing and reporting on tasks related to the preliminary literature search and project inception, design, management and feasibility. Academic and industry mentors guide student teams through the preliminary stages of project conceptualisation and monitor progress of team activities.

**Prerequisite(s):** LSB338  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB425 Quantitative Medical Science**  
This unit integrates physics, chemistry, biochemistry, maths and statistics to applications to chemical analysis, as preparation to clinical biochemistry.

**Prerequisite(s):** LSB325, LSB338, MAB141  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB428 Microbiology 2**  
This unit provides an extension of the core unit in microbiology dealing with further aspects of microbial diversity, ecology, classification and taxonomy with emphasis on human pathogens, action of and resistance to antimicrobial chemicals, microbial mechanisms of pathogenicity, microbial molecular biology and gene expression, microbial genomics, industrial microbiology/biocatalysts, food borne pathogens and spoliors, examples of the industrial importance of microbes, and safe manipulation of pathogenic microbes.

**Prerequisite(s):** LSB328  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB435 Diagnostic Microbiology 1**  
This unit builds on foundation topics in Microbiology 1 and starts preparing the student for a career in a routine diagnostic microbiology laboratory. The overall theme is the diagnosis of human infectious diseases with bacteriology and parasitology the two key focus areas. This unit emphasises a strong commitment to professional practice by developing high level generic and specific skills. Specific lecture and lab class discussion points include (where relevant): life cycles; pathogen acquisition; infectious disease diagnosis pathways; classification systems; clinical presentations; diagnostic protocols and patient management. Students are encouraged to think critically and to discuss issues in an interactive and supportive learning environment.

**Prerequisite(s):** LSB300  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB438 Immunology 1**  
The mechanisms of the immune process including the nature of antigens, antibodies, antigen-antibody reactions, antibody formation, control of the humoral and cell-mediated immune responses, and immunisation of humans against infections are addressed in this unit.

**Prerequisite(s):** LSB250, LSB328  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB445 Regional and Imaging Anatomy 2**  
This unit focuses on the regional anatomy of the back, thorax, abdomen and pelvic regions and the anatomy of the structures of the above regions which are visualised by medical imaging modalities.

**Prerequisite(s):** LSB145, LSB245  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB451 Human Physiology**  
This unit involves a course of lectures and practicals, similar to LSB250.

**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LSB458 Medical Physiology 2**  
The aim of this unit is to provide a thorough examination of the functional organisation of the human body. The subject provides a useful frame of reference for students enrolled in courses such as biology, biochemistry, microbiology, molecular biology, nutrition and human movements. The subject is offered in conjunction with LSB358 which runs in first semester and as a prelude to the third level subjects LSB558 and LSB658.

**Prerequisite(s):** LSB131 or LSB142 or LSB255 or LSB258 or NRB270  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB465 Histopathology 1**  
Histopathology and cytology are essential components of pathological diagnosis and major clinical disciplines in Medical Laboratory Science. The unit aims to impart a working knowledge of basic techniques used in clinical histopathology and research histology laboratories and the techniques involved in the current practice of diagnostic cytology.

**Prerequisite(s):** LSB255, LSB365, PCB242  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB467 Pathophysiology**  
This unit is an external unit designed to run online to meet the requirements of students located throughout Queensland. Students are guided into the study of pathophysiology of the major body systems, leading to an understanding of the rationale for diagnostic investigations and treatments of these disorders. The unit is based on case histories and utilises a 'problem based model' approach. Topics covered include the physiological basis of pathogenesis, clinical features and treatment of major disorders of body systems, focusing on the cardiovascular, respiratory, blood, renal, nervous, gastro-intestinal, and endocrine systems. A variety of assessments are used during the semester to reinforce the understanding of the topics.

**Prerequisite(s):** Anatomy, Pathology and Physiology units  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LSB658

**LSB468 Molecular Biology**
This unit introduces students to the theory and practice of general molecular biology techniques for gene detection and analysis, gene isolation, cloning and amplification, and gene library construction and screening. The unit is designed with a significant emphasis on achieving technical expertise in a range of procedures for isolation, purification and genetic engineering of nucleic acids.

**Prerequisite(s):** LSB238  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LSB469 Introduction to Genomics and Bioinformatics**

This unit focuses on the relationships between genome structure, function and evolution while providing an introduction to the global genetic databases and approaches to genome analysis. The unit builds on the basic interpretative skills introduced in LSB338 Cell and Molecular Biology 2 relating to the information content of biological macromolecules information. Different approaches to analysis of DNA and proteins are introduced that will form the basis for a deeper understanding of genome structure/function relationships developed in advanced third year units in biotechnology, biochemistry and microbiology.

**Prerequisite(s):** LSB338  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LSB537 and/or LSB619

**LSB475 Disease Processes 4**

This unit includes the principles of the study of disease dealing with the causes and nature of circulation disorders, degenerative processes, metabolic and nutritional disorders, disturbances of development and growth, inflammation, infections and infestations, regeneration and repair, and neoplasia. The unit includes the applications of general pathology to the study of diseases of the heart and circulatory system, digestive system, respiratory system, urogenital system, endocrine system, nervous system, haematologic system and skin.

**Prerequisite(s):** Introductory Anatomy & Physiology Units  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point and Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LSB321, LSB361, LSB367

**LSB480 Professional Practice**

Introduces students to the pathology laboratory workplace. The student undertakes a six week work experience program in a city or country pathology laboratory during the summer vacation between semesters 4 and 5 of the full-time course and between semesters 8 and 12 of the part-time course.

**Prerequisite(s):** LSB365  
**Corequisite(s):** LSB425, LSB435, LSB438, LSB465  
**Credit points:** 0  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB492 Microbiology**

This is an introductory core unit of microbiology for students of optometry and podiatry with an introduction to microorganisms, control of microbial populations and clinical conditions relevant to optometry and podiatry.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB497 Plant Molecular Biology**

This is an intermediate level unit that complements and extends the knowledge and skills obtained in the core biotechnology units to provide a basis for those intending to undertake more advanced plant biotechnology units. This unit integrates the fundamentals of plant molecular biology, plant biochemistry and plant cell culture to teach the molecular basis of plant development. Topics covered will include: basic plant molecular biology; the genetic basis of control of plant development; cell signalling in plants; model systems for studying gene function; plant genome maps; manipulation of plants in vitro; plant responses to biotic and abiotic stress.

**Prerequisite(s):** LSB338  
**Corequisite(s):** LSB468  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LSB503 Medical Cell Biology**

Medical Cell Biology is a continuation and expansion of the topics introduced in LSB338 Cell and Molecular Biology 2. Medical Cell Biology integrates the fundamental molecular events and interactions presented in earlier units, developing and extending the context of cells in their environment and how they interact and integrate within the organism to provide all of the biological functions required by the organism to survive. Students develop an appreciation of the relationship between structure and function at the cellular level and gain an understanding of the defects that underlie common disease states including osteoporosis, diabetes, arthritis and cardiovascular disease.

**Prerequisite(s):** LSB338  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LSB508 Advanced Metabolism**

Detailed information is provided in this unit on the catabolic and anabolic pathways for the major molecules in mammalian systems. Important aspects of non-mammalian metabolism are described. Advanced concepts in bioenergetics and thermodynamics are described in the context of cellular metabolism. Integration of metabolism including production of mixed conjugates of biological significance such as amino-sugars and lipopolysaccharides, and hormonal regulation of metabolism are included.

**Prerequisite(s):** LSB408  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LSB509 Medical Biotechnology 1**

Students undertaking Medical Biotechnology should have a thorough understanding of diagnostics and therapeutics in the commercial environment of biotechnology. LSB509 aims to increase students' understanding of molecular and cellular-based diagnostics and their use in genetic or biochemical mapping and identification of target genes, disease risks and traits, infectious diseases, identity testing and other forms of investigative analyses.

**Prerequisite(s):** LSB468  
**Credit points:** 12  
**Contact hours:** 4 per week average  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1
LSB525 Clinical Biochemistry 1
This course of study (along with LSB625 Clinical Biochemistry 2) provides the graduating scientists with sufficient biochemical knowledge and laboratory experience to work effectively in both the smaller general-purpose laboratory performing a limited number of biochemical tests and the larger specialised laboratory performing in-depth studies of all aspects of clinical biochemistry.
Prerequisite(s): LSB425 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB527 Biomedical Research Technologies
This unit complements the study of nucleic acid based research and diagnostic technologies studied in LSB598, by providing an understanding of the methodology and application of those protein based technologies that are important in biomedical research and diagnostic investigations.
Prerequisite(s): LSB308 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB528 Environmental Microbiology
This unit is designed to provide students with an understanding of how the microbial world interacts with the environment. Topics covered include: microbial ecosystems; symbiotic relationships (plants and microbes, animals and microbes); an introduction to biogeochemical cycles including microbial transformations (carbon cycles, methanogenesis, nitrogen cycle, sulphur cycles); plant and soil microbiology; water microbiology; bioaerosols; bioremediation of polluted environments.
Prerequisite(s): LSB328 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB535 Microbial Immunology
This unit builds on the concepts developed in Immunology 1 to introduce students to the life cycles of a variety of pathogens, particularly viruses, and the mechanisms employed by a host to avoid infection.
Prerequisite(s): LSB438 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB547 Bacterial Pathogenesis and Disease Diagnosis
This advanced level unit provides a comprehensive examination of those bacterial pathogens that are associated with human disease from both a cellular and a molecular perspective, an essential starting point for a better understanding of infectious disease pathogenesis. The key role of the clinical bacteriologist and clinical laboratory protocols is also presented and critically discussed with respect to bacterial pathogen laboratory diagnosis (ie specimen management, pathogen isolation and identification) and antimicrobial therapies. Students are encouraged to think critically and to discuss issues in an interactive and supportive teaching and learning environment.
Prerequisite(s): LSB328 Credit points: 12 Contact hours: 6 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB555 Haematology 1
This unit introduces the discipline of haematology and the routine procedures performed in the haematology section of a pathology department, and introduces the concepts of anaemia and its investigation. This unit provides a detailed understanding of the common erythrocyte disorders. Diagnostic procedures, aetiology, pathophysiology, clinical manifestations and treatment of each disorder are included.
Prerequisite(s): LSB325, LSB365, LSB465 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB558 Advanced Physiology
This unit is divided into 2 areas: a lecture course on recent advances in physiological knowledge and a practical component that introduces experimental design. Using an emphasis on current research developments, selected physiological areas including the cardiovascular and neurological systems are considered in depth to extend prior knowledge of physiology. The practical course introduces aspects essential for the correct design of scientific experiments.
Prerequisite(s): LSB358 or LSB458 or HMB273 or LSB250 Credit points: 12 Contact hours: 6 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB565 Histopathology 2
Histopathology is an essential component of pathology and one of the major clinical disciplines in Medical Laboratory Science. Students are introduced to advanced techniques and methods of handling histopathological specimens. Students acquire sufficient scientific and technical expertise to enable them to carry out and to understand a range of techniques used routinely in clinical histopathology and histology research laboratories.
Prerequisite(s): LSB255, LSB365, LSB465 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB568 Electron Microscopy
This unit provides the following: a theoretical and practical background to the operation and use of scanning and transmission electron microscopes in biological science; basic principles of specimen preparation with emphasis on methods complementary to biology, microbiology and molecular biology; analytical capabilities of electron beam instruments; other advanced imaging instrumentation.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

LSB577 Plant Biotechnology 1
The potential of plant biotechnology can be recognised as a result of the significant advances being made in technologies enabling the genetic manipulation of plants. Familiarity with the strategies, techniques and breadth of applications is essential for anyone planning a career in plant biotechnology. In this unit, students are presented with an integrated picture of the current technology and applications used for the genetic manipulation of plants (including advanced cell and tissue culture and transformation technologies).
Prerequisite(s): LSB468 Credit points: 12 Contact
LSB578 Virology
Lectures and practical classes are designed to introduce students to the basic concepts of virology. A range of viruses and virus diseases are examined and topics include viral morphology and composition, taxonomy and classification, replication, purification, diagnosis and assay, transmission and control.
Prerequisite(s): LSB328, LSB468  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

LSB605 Protein Engineering and Bioprocessing
The ultimate goal of most biotechnology processes is the production of a viable organism or functional protein. This unit deals with the factors that determine success in achieving these goals. It builds on information delivered in Molecular Biology, Genetic Engineering and Genomics, defining the special considerations that apply to different expression systems and the unique difficulties of scale-up procedures for commercial development.
Prerequisite(s): LSB468  Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB607 Protein Purification
This is an advanced biochemistry unit to prepare students for research careers. A series of critical thinking workshops and closely supervised group practical projects create a problem-based learning environment which is used to refine and evaluate generic capabilities of critical thinking, project management, information literacy and communication.
Prerequisite(s): LSB308  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB608 Protein Science
This unit includes lectures, tutorials and practicals dealing with properties and analyses of proteins. Students gain knowledge and experience of the forces that determine protein structure, and an understanding of the techniques for analysing and altering protein properties. Discussions include methods of sequence analysis, algorithms for structure prediction, design and construction of synthetic proteins, and evolution and significance of structural motifs.
Prerequisite(s): LSB308  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB609 Medical Biotechnology 2
In this unit students gain a thorough understanding of diagnostics and therapeutics in the commercial environment of medical biotechnology. LSB609 aims to increase the student's understanding of cell-based strategies, approaches and applications used as therapeutic interventions in medicine. The unit focuses on current, state-of-the-art and emerging technologies and applications within biotechnology as directed to novel therapeutic discovery, design, development and delivery of clinical therapeutics including tissue transplantation and regeneration, cellular therapies, genetic therapies, immunotherapies, clinical, ethical and regulatory affairs.
Prerequisite(s): LSB449  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB625 Clinical Biochemistry 2
This course of study (along with LSB525) provides the graduating scientists with sufficient biochemical knowledge and laboratory experience to work effectively in both the smaller general-purpose laboratory performing a limited number of biochemical tests and the larger specialised laboratory performing in-depth studies of all aspects of clinical biochemistry.
Prerequisite(s): LSB525  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB628 Food Microbiology
This unit covers the most significant areas of food microbiology at an advanced level. Topics include: microbial ecology of foods; microbial spoilage and food preservation; foodborne microorganisms of public health significance; food fermentations; laboratory and food processing operations and certification; predictive microbiology; agriterrorism; and isolation, quantification and identification of microbes from foods. A professional work attitude in a microbiology laboratory, practical, applied laboratory skills and an awareness of the hazards of working with pathogenic cultures are established.
Prerequisite(s): LSB328  Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB635 Diagnostic Microbiology 2
This advanced level unit completes the preparation of the student for a career in a routine diagnostic microbiology laboratory by building upon foundation topics covered in LSB435. The overall theme is human infectious disease diagnosis with bacteriology, mycology and parasitology the three key focus areas. This unit continues a strong commitment to professional practice by developing high level generic and specific skills. Specific discussion points include (where relevant): life cycles, pathogen acquisition, infectious disease diagnosis pathways, classification systems, clinical presentations, diagnostic protocols and patient management. Students are encouraged to think critically and to discuss issues in an interactive and supportive learning environment.
Prerequisite(s): LSB435, LSB535  Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB647 Clinical Mycology and Parasitology
This course of study (along with LSB547) provides the graduating microbiologists with sufficient knowledge of the aetiological agents of disease and the knowledge to allow them to work effectively in the smaller general-purpose diagnostic laboratory performing a limited number of diagnostic tests and the larger specialised laboratory performing in-depth studies of all aspects of parasitology.
Prerequisite(s): LSB547  Credit points: 12
Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
LSB648 Molecular Microbiology

This advanced level unit engages closely with the most recent advances in microbial genomics, bioinformatics, molecular biology, evolutionary history, genetic analysis and pathogenic processes. It is designed for students who are interested in research in these areas or who wish to be involved in the introduction of new technologies into the practice of analytical microbiology.

Prerequisite(s): LSB328, LSB468  Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB655 Haematology 2

The aim of the unit is to provide students with a detailed understanding of the common leucocyte and haemostatic disorders. This unit provides a detailed insight into the common leucocyte and coagulation disorders investigated by the haematology laboratory and reinforces knowledge acquired in the previous haematology units. The focus shifts from red cells in LSB555 to white cells here. Diagnostic procedures, aetiology, pathophysiology, clinical manifestations and treatment of each disorder are included in the discussion of the disorders. This unit, along with a previous unit LSB555, prepares students for work in a haematology laboratory as a diagnostic scientist.

Prerequisite(s): LSB555  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB657 Perspectives in Life Science

Positive and negative aspects of humanity's use of resources are critically analysed in this unit. Topics include: humanity's food supply; humanity's profligate consumption of energy; global climate change; losses of soils and ecosystems and species; and contemporary aspects of biotechnology such as the GM food debate; ethical aspects of medical and corporate biotechnology.

Prerequisite(s): LSB118  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB658 Clinical Physiology

In this unit students explore the physiological basis, pathogenesis, clinical features and treatment rationale of the major disorders of the cardiovascular, respiratory, haematological, renal, gastrointestinal, nervous and endocrine systems. One of the objectives of the unit is to develop critical thinking and apply this to the discussion of pathophysiological cases.

Prerequisite(s): Anatomy AND Physiology Units  Corequisite(s): Nil  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: LSB467

LSB665 Immunohaematology

This unit is designed to provide students with an understanding of the antigens, immune mechanisms and clinical factors involved in blood transfusion and tissue transplantation.

Prerequisite(s): LSB438, LSB535, LSB555  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB677 Plant Biotechnology 2

This unit expands on topics introduced in earlier units and addresses the more advanced and specialised areas of plant molecular biology and biotechnology. The unit is designed to give students an insight into the scope and future potential of plant biotechnology and include topics such as advanced applications of transgenic plants; functional genomics and gene discovery; specific genes and gene families; molecular markers and mapping; gene silencing.

Prerequisite(s): LSB537  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB684 Forensic DNA Profiling

The unit covers the evolution of DNA typing from restriction fragment length polymorphism (RFLP) DNA "fingerprinting" to short tandem repeat (STR) analysis using multiplex PCR-based systems for human identification, the principles of single nucleotide polymorphism (SNP) technology, mitochondrial DNA analysis and future trends for forensic DNA analysis.

Prerequisite(s): LSB468, SCB384  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LSB709-1 Biotechnology Research Project

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

LSB709-2 Biotechnology Research Project

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

LSB709-3 Biotechnology Research Project

Knowledge of the practical aspects of developing a project for research and development is a fundamental aspect of real-world biotechnology. This unit involves a small team research project based on the R and D proposal developed in LSB409 Readings in Biotechnology. The unit guides student teams through the research process from the experimentation to the writing of an assessment of the project under the guidance of academic and industry mentors.
LSB850-1 Research Strategies
Preparation for a career in research must include additional training and experience in cross-disciplinary and extra-disciplinary skills and strategies that build upon and enhance the student's undergraduate foundation. Key aims of this unit are to foster the intellectual skills necessary to appreciate the scientific, commercial, social and ethical implications of research, to assist in evaluating useful and pragmatic options in a research career, and to help the student communicate research ideas and outcomes effectively and articulately. Seminars and workshops conducted by staff internal and external to the School of Life Sciences specifically address these aims.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

Corequisite(s): LSB850-1, LSB850-2

LSB850-2 Research Strategies
Preparation for a career in research must include additional training and experience in cross-disciplinary and extra-disciplinary skills and strategies that build upon and enhance the student's undergraduate foundation. Key aims of this unit are to foster the intellectual skills necessary to appreciate the scientific, commercial, social and ethical implications of research, to assist in evaluating useful and pragmatic options in a research career, and to help the student communicate research ideas and outcomes effectively and articulately. Seminars and workshops conducted by staff internal and external to the School of Life Sciences specifically address these aims.

Credit points: 6  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

LSN011 Molecular Biosciences
This unit aims to develop skills in critical analysis of scientific literature. The unit includes the presentation of a paper critique, demonstrating a considerable knowledge, understanding and appreciation of the literature as well as a critical appraisal of future research requirements.

Credit points: 30  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Corequisite(s): LSB850-1, LSB850-2

LSB852-1 Project
This unit includes the preparation of a paper reporting the methods and results of investigations in the Honours research projects. The paper also includes an introduction, analysis and discussion of the project in a style and length deemed to be appropriate by the Unit Coordinator. Students should relate this project work to published work already undertaken in the field.

Credit points: 30  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Corequisite(s): LSB850-1, LSB850-2

LSN023 Research Seminars in Life Science 3
This unit includes a formal seminar to include an oral presentation (25 minutes) and question period (5-10 minutes). The presentation provides a comprehensive and informative critique of a specific topic and outlines the planned research program, where applicable. Prescriptive guidelines and submission deadlines must be followed in this regard. The chosen topic will be in an area selected by the student in consultation with their supervisor(s) and the postgraduate coursework coordinator. This unit complements LSN013 Readings in Life Science 3.

Credit points: 6  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Corequisite(s): LSN023

LSN013 Readings in Life Science 3
This unit includes a comprehensive and critical review of the background and current literature directly related to a potential research topic. The review should identify major and minor deficiencies in the research literature and identify possible directions for future research. The review should be between 5,000 - 10,000 words and at least one draft should be presented to the supervisor prior to final submission.

Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Corequisite(s): LSN023
transcriptional regulation in prokaryotes and gene regulation in eukaryotes; inheritance; and introductory bioinformatics. Corequisite(s): LSN102, LSB468 Credit points: 12 Contact hours: 5 hours Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: Not for undergraduate enrolment

**LSN102 Cellular Biosciences**
The unit examines the responses available to cells and tissues in normal growth and development and following exposure to injury or stress mechanisms. The role and control of these responses in a range of disease processes is considered. The unit is designed to present, at the level of cell and tissue systems, the effects of physical, chemical, biochemical and metabolic processes. Successful completion of this unit provides a fundamental understanding of cellular structure and function, and prepares students for further postgraduate studies in cell and molecular biology. Additionally, students gain an appreciation of contemporary methods for studying the structure and function of cells and tissues. Corequisite(s): LSN102, LSB468 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: Not for undergraduate enrolment

**LSN103 Postgraduate Learning and Research Skills**
This unit assists you in developing a range of generic and specific skills and attributes to be a successful postgraduate student. On completion of the unit, you will: (i) know how to manage information tools and resources effectively in order to advance your university study and become an independent and competent learner (ii) build and increase your knowledge and competence in using basic software applications and general knowledge of information communication technologies and (iii) develop key skills in project design and management. This unit consists of a series of workshops, seminars and on-line tutorials presented by a team of teaching and learning support staff from across the university. Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: Not for undergraduate enrolment

**LSN160 Epidemiology for Life Scientists**
This unit aims to enable students to acquire knowledge and develop critical thinking in epidemiological research. Topics covered include: general principles of epidemiology; rates and ratios; standardisation; types of studies; ethical issues in study design and conduct; statistics as related to epidemiology; criteria for causal relationship; principles of screening tests; epidemiology of infectious diseases. Information is presented in informal interlinked lectures and tutorials. Epidemiological exercises are discussed. Students develop skills in using statistical capabilities in Excel. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

**LSN221-2 Pathology**
Pathology encompasses the study of disease processes underlying the major diseases of human organ systems. General disease processes of the major specific diseases of the organ systems are introduced, and then become the focus in systematic pathology. An understanding of general and systematic pathology is fundamental to the application of basic biomedical knowledge to clinically relevant states and the major diseases. On completion of this unit, students should know, understand and be able to apply facts, concepts and terms related to disease processes and the major diseases occurring in the organ systems. Prerequisite(s): Undergraduate Human Anatomy, Pathology & Histopathology Corequisite(s): LSN220 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point

**LSN223-3 Surgical Grossing**
This unit advances knowledge and skills in surgical grossing to levels encompassing simple and non-complex specimens; provides an introduction to the handling of complex specimens. It provides an introduction to molecular biology techniques and practice in biomedical photography. The assessment in this unit promotes critical thinking, oral and written communications, teamwork, leadership and self reliance, and awareness of medico-legal and ethical issues associated with surgical grossing. Prerequisite(s): Undergraduate Human Anatomy, Histology & Pathology; work experience in a histology laboratory; currently working in an appropriate capacity in an accredited pathology laboratory. Corequisite(s): LSN220, LSN221-1, LSN221-2 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point

**LSN259 Cardiac Anatomy, Embryology and Pathology**
This unit is designed to provide students with a thorough understanding of the embryology, anatomy and pathology of the human heart. Topics include: embryological development of the human heart, fetal and neonatal circulation and physiology; maldevelopment of the human heart; detailed anatomy of the adult human heart; physiology of the adult human heart; basic cardiac pharmacology. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

**LSN425 Quantitative Medical Science**
This unit integrates physics, chemistry, biochemistry, maths and statistics for applications to chemical analysis, as preparation to clinical biochemistry. (LS87 Students only.) Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB425

**LSN438 Immunology 1**
The mechanisms of the immune process including the nature of antigens, antibodies, antigen-antibody reactions, antibody formation, control of the humoral and cell-mediated immune responses, and immunisation of humans against infections are addressed in this unit. (LS87 Students only.) Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: LSB438

**LSN465 Histopathology 1**
Histopathology and cytology are essential components of pathological diagnosis and major clinical disciplines in Medical Laboratory Science. The unit aims to impart a working knowledge of basic techniques used in clinical
LSN468 Molecular Biology
Molecular biology and recombinant DNA technologies have important roles in many areas within the life sciences, including medicine, agriculture, cell biology, environmental science and forensics. Through close alignment of theoretical concepts and practical skills, this lab-based unit expands on molecular themes introduced in earlier cell and molecular biology units to develop expertise in modern recombinant DNA techniques and an understanding of strategies used to identify and manipulate genes. The close relationship between theory and practice in this unit is designed to develop competence, independence and critical thinking that will provide students with a solid foundation for advanced molecular biology studies presented in several third level units. (LS87 Students only.)
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
Incompatible with: LSB468

LSN710 Project
This unit includes a research project conducted in an area selected by the student in consultation with their supervisor(s) and the postgraduate coursework coordinator. The first part of the project involves compilation and writing of a critical Literature Review on the research topic focusing on clarification of knowledge gaps together with an outline of the planned research to follow. The second and major part of the project is the supervised research itself. A Research Project Report will be written in a style to evaluate and critically discuss the data. Prescriptive guidelines and submission deadlines must be followed for both the Literature Review document and the Research Project Report.
Credit points: 48  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

LSN711 Project 1
In this unit a critical Literature Review is written on a topic selected by the student in consultation with their supervisor(s) and the postgraduate coursework coordinator. This review focuses on clarification of knowledge gaps and, where applicable, provide an outline of the planned research to follow in LSN712 Project 2. Prescriptive guidelines and submission deadlines must be followed for the compilation and writing of the Literature Review document.
Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

LSN712 Project 2
In this unit a research project is conducted in an area selected by the student in consultation with their supervisor(s) and the postgraduate coursework coordinator. This unit is normally a follow-on from LSN711 Project 1. A Research Project Report will be written in a style to evaluate and critically discuss the data. Prescriptive guidelines and submission deadlines must be followed for the compilation and writing of the Research Project Report.
Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: LSB468

LWB136 Contracts A
This unit includes the following: formation of contracts; equitable estoppel; privity of contract; formalities; express and implied terms; an examination of promises which are legally binding; how contractual promises may be characterised and the significance of that characterisation.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: LWB102, LWB132

LWB137 Contracts B
Legally binding promises pervade society, from uncomplicated bargains like riding on a bus to complex multi-million dollar transactions. The law of contract provides an understanding of promises which are legally binding, how contractual promises may be characterised and the significance of that characterisation, and how contractual promises may be discharged or invalidated. This is the second of two associated units which examine the law of contract, the focus of this unit being on the discharge of contracts, remedies for breach and the invalidation of contracts. The two units together provide the foundation for several units encountered later in the course.
Credit points: 12  Teaching period: 2008 SEM-1 and 2008 SEM-2

LWB138 Fundamentals of Torts
The law of torts is of primary importance in understanding how the Australian legal system operates to compensate the physical and/or financial harm one person suffers as a result of another’s wrongdoing. Today the most significant area of the law of torts is that of negligence which is also the most commonly litigated tort action. However, a knowledge and understanding of the tort of negligence can only occur in the context of the development of the earlier torts such as trespass to the person, land and personal property. In this unit the principles and rules of the law of torts relating to negligence and trespass actions are also examined.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2
Incompatible with: LWB103, LWB133
LWB139 Select Issues in Torts
The law of torts is of primary importance in understanding how the Australian legal system operates to compensate the physical and/or financial harm one person suffers as a result of another's wrongdoing. In the unit, Fundamentals of Torts, the principles and rules relating to the torts of negligence and trespass were examined in the context of whether these torts achieve outcomes which are consistent with contemporary legal and social values. In this unit a wider range of torts and related issues are examined so that students develop the knowledge, understanding and skills necessary to maintain in the future their abilities in this important area of legal practice.
**Prerequisite(s):** LWB138  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** LWB103, LWB133

LWB141 Legal Institutions and Method
This unit introduces students to the building blocks of law: fundamental principles; legal terminology; legal institutions; legal methodology; sources of the law; ways to interpret the law including an introduction to policy and international considerations. The material is presented as an integrated whole so that students obtain a broad perspective and an ability to 'navigate the law' without artificially dividing any particular aspect. The unit also emphasises the joint responsibility of the teacher and the student for learning and to foster the development of skills in communication, comprehension and analysis.
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** LWB101, LWB135

LWB142 Law, Society and Justice
This unit examines the basic tenets of our democratic liberal legal system, particularly the central concept, the rule of law. The unit begins with an historical development of rights and the rule of law. It looks at how law and values intertwine and how society at a particular time shapes notions of legal personality, the recognition of 'family' and human rights in law. It finally addresses the limitations of democratic liberalism and the rule of law by examining the reality of equality before the law in relation to such topics as gender and cultural neutrality, equal access to justice, and lawyers and the adversarial system.
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** LWB101, LWB131

LWB143 Legal Research and Writing
This is a 'learn by doing' unit in which students are introduced to the use of all common legal research tools, in both print and electronic form, as they research a legal problem from a totally unfamiliar area of law. It also introduces students to legal writing and citation style, with an emphasis on the use of plain English.
**Prerequisite(s):** LWB141  
**Corequisite(s):** LWB141  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LWB104, LWB134

LWB144 Laws and Global Perspectives
This unit is designed to give students an understanding of the global context in which Australia operates and the important impact of this context on Australian law and legal practice. The unit introduces and explains the fundamental structures and principles of Comparative Law, Public International Law and Private International Law; and examines their relevance to contemporary legal practice in Australia.
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LWB101, LWB131

LWB231 Introduction to Public Law
This unit introduces the basic institutions of government: the executive, the Parliament and the judiciary; the general principles to which legislative power is subject, the principles by which executive decision-making is kept open and accountable.
**Credit points:** 12  
**Contact hours:** 3 per week / Summer Intensive  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** LWB203, LWB311

LWB235 Australian Federal Constitutional Law
This unit includes the following: the constitutional arrangements effected by the Commonwealth Constitution; the structure and institutions of the constitution; the division of power between Commonwealth and states; the relations between the different levels of government; emphasis to Commonwealth legislative, executive and judicial powers.
**Prerequisite(s):** LWB231  
**Corequisite(s):** LWB235  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point or External  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LWB203

LWB236 Real Property A
Property, rights of ownership and title are institutions at the basis of contemporary Australian society. A sound knowledge of the general principles of property and real property law is essential for any lawyer. This unit, together with Real Property B, examines general principles concerning the nature of property and real property law. Topics covered include: the concept of property; land ownership in Australia; native title; ownership; possession and title; ownership rights; land and equity; land transactions; the Torrens system.
**Prerequisite(s):** LWB143, LWB240 or equivalent  
**Corequisite(s):** LWB240 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week/Summer intensive  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** LWB201, LWB233

LWB237 Real Property B
This unit continues the examination of the general principles of real property law commenced in Real Property A. Topics include: co-ownership of land, leases, mortgages, easements, freehold covenants, and community titles schemes.
**Prerequisite(s):** LWB236  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** LWB201, LWB233
LWB238 Fundamentals of Criminal Law
An understanding of the principles of Criminal Law is of fundamental importance as it impinges upon almost every aspect of domestic, commercial, corporate and public activity in Queensland. The aim of this unit is to provide an overview of the aims and sources of Criminal Law in Queensland and to develop an understanding of the onus of proof in criminal matters. Additionally the unit explores the concept of fault elements, the criminal justice system and a selection of major offences while also developing advocacy skills.
Credit points: 12  Contact hours: 3 per week in Sem 1.  

LWB239 Criminal Responsibility
The aim of this unit is to build upon the principles and skills explored in LWB238 by developing an understanding of the way criminal responsibility is imposed through the complicity provisions of the Criminal Code and the common law and how the major defences and excuses operate. The unit also examines the major sentencing principles applied in Queensland.
Prerequisite(s): LWB238  Credit points: 12  Contact hours: 3 per week in Sem 2.  
Campus: Gardens Point and External  Teaching period: 2008 SEM-2  Incompatible with: LWB202, LWB232

LWB240 Principles of Equity
The principles of Equity were originally developed to ameliorate the harshness of the common law and have since become a fundamental component of our legal system. A knowledge and understanding of the major principles of equity are necessary to an understanding of how the Australian legal system operates; it is therefore located early in the LLB degree. The aim of this unit is to provide a coherent knowledge and understanding of equitable principles within the context of the Australian legal system as well as developing skills relevant to ongoing learning and professional practice.
Credit points: 12  Contact hours: 3 per week  
Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SUMMER  Incompatible with: LWB301, LWB234

LWB241 Trusts
Trusts are a fundamental institution of ownership of property in equity; they are used for various purposes including estate planning, commercial and charitable purposes. A knowledge and understanding of the trust in its various forms and the equitable principles of property transfer are fundamental in understanding the impact of the principles of equity in the area of property ownership and rights. The aim of this unit is to provide a coherent knowledge and understanding of the law relating to trusts within the context of the Australian legal system and to develop skills relevant to ongoing learning and professional practice.
Credit points: 12  Contact hours: 3 per week  
Campus: Gardens Point  Teaching period: 2008 SEM-2 and 2008 SUMMER  Incompatible with: LWB301, LWB234

LWB302 Family Law
This unit considers the manner in which the law treats the special social relationships that exist among members of a family and transforms them into legal rights and duties. The following aspects are addressed: the family as a legal phenomenon; methods of dispute resolution in family law; annulment of marriages; dissolution of marriages; consequences of separation and divorce, such as maintenance, child support, adjustment of interests in property and parental responsibilities.
Credit points: 12  Contact hours: 3 per week  
Campus: Gardens Point and External  Teaching period: 2008 SEM-2

LWB308 Australian Employment Law
The employment relationship is one which effects us all, and in the light of recent legislative changes to industrial and employment law, will continue to have a profound effect on both our own lives and the lives of those with whom we come into professional contact. The study of Australian industrial law draws on students' knowledge of contract, tort and constitutional law and introduces the legislative and common law bases by which industrial relations are conducted in this country.
Credit points: 12  Contact hours: 3 per week  
Campus: Internet and Gardens Point  Teaching period: 2008 SEM-2

LWB309 Succession
This unit includes the following: examination of the law with respect to wills and probate; a study of the formalities required to execute a valid will; the intestacy provisions where someone dies without having made a will; the rights of a testator's family when they have not been named as a beneficiary in the deceased's will; a detailed examination of the provisions of the Succession Act 1981 (Qld).
Credit points: 12  Contact hours: 2 per week  
Campus: Gardens Point  Teaching period: 2008 SEM-1

LWB312 Real Estate Transactions
This unit includes an analysis of a land transaction through the principles involved in the construction of contracts for the sale of land, with special emphasis on the standard REIQ Contract Terms of Sale in use in Queensland. There is also reference to conveyancing of lots under the Body Corporate and Community Title Management Act 1997 and Land Sales Act 1984.
Prerequisite(s): LWB312 or equivalent, LWB233 or equivalent, LWB234 or LWB240 only  Credit points: 12  Contact hours: 2 per week  
Campus: Gardens Point  Teaching period: 2008 SEM-1

LWB331 Administrative Law
This unit examines the law relating to judicial review of administrative action public authorities, systems of merits appeal, and the law of standing in public interest litigation.
Prerequisite(s): LWB231  Corequisite(s): LWB231  Credit points: 12  Contact hours: 3 per week in Sem 2.  
Campus: Gardens Point and External  Teaching period: 2008 SEM-2  Incompatible with: LWB311

LWB332 Commercial and Personal Property Law
This unit includes the following: fundamental concepts of personal property law (including possession and ownership); transfers of and dealings in personal property; protection of personal property interests; agency; bailment; sale of goods; introduction to trade practices law.

**Prerequisite(s):** LWB233 or LWB236 only  
**Corequisite(s):** LWB233 or LWB236 only  
**Credit points:** 12  
**Contact hours:** 3 per week in Sem 1.  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER  
**Incompatible with:** LWB303

**LWB333 Theories of Law**

Legal practice requires an understanding and appreciation of its philosophical and theoretical foundations, as these guide the policies and inform changes to law through legislative and judicial action. Understanding the major theoretical and philosophical approaches assists with the resolution of novel and difficult legal problems. This unit imparts both knowledge based content and process based competencies that result in independent learning outcomes. Topics covered include natural law, positivism, Dworkin, social, economic and historical theories of law, legal realism, sociological theories of law, critical legal studies, postmodern legal thought, feminist theories of law, critical race theory, postcolonial legal theory.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** LWB305

**LWB334 Corporate Law**

This unit includes the following: the basic legal principles relating to registered companies; the principle of the veil of incorporation; internal functioning of a registered company including the operation of the constitution and replaceable rules; dealings with third parties; legal rules relating to share capital; dividends and loan capital; introduction to obligations of company officers and shareholder rights. Further specialised units such as Law of Corporate Governance are offered for students who have completed Corporate Law and wish to concentrate some of their studies in the corporations and commercial area.

**Credit points:** 12  
**Contact hours:** 3 per week in Sem 2.  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** LWB401

**LWB359 Advanced Taxation Law**

This unit examines the taxation of business entities. The taxation processes for partnerships, trusts and companies are analysed together with the implications for the taxation of individuals involved with business entities. These individuals include partners, beneficiaries, trustees and company shareholders. This unit builds on the principles developed in Introduction to Taxation law in relation to taxation of individuals in that the concepts of income, deductions, residence and so on are discussed in the context of business entities. Tax planning issues involving entities are critically analysed and reflected on together with the effect of the general anti-avoidance provisions in the taxation legislation.

**Prerequisite(s):** LWB364  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB361 Drafting**

This skills unit uses an interactive practical approach in teaching students the rules in drafting private legal documents in plain English. The general rules are considered first and then applied in drafting documents and parts of documents from the areas of conveyancing contracts (residential and commercial land, and businesses), options, leases, mortgages, guarantees and trusts. Stamp duty is also dealt with because of the close relationship stamp duty has with documents of various kinds.

**Prerequisite(s):** LWB233 or LWB36 only  
**Credit points:** 12  
**Contact hours:** 2 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB363 Insurance Law**

Insurance is the payment of a premium by one to another to cover the risk that an unidentified event should occur, upon which a payment in the insured sum shall be made. This course prepares students to advise insureds and insurers alike on issues such as whether a policy covers the event which has occurred and whether there are grounds upon which all or part of a claim may be refused. In addition to principles of general insurance, the course also covers selected aspects of professional indemnity insurance, directors and officers insurance and a detailed study of the statutory framework in Queensland for compulsory third party motor vehicle insurance and workers compensation. Any one interested in litigation should study insurance law.

**Prerequisite(s):** LWB136, LWB137 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB364 Introduction to Taxation Law**

This unit examines the principles relating to the powers of the Australian government to impose income tax. This includes concepts of residence of individual tax payers for taxation purposes and source of income. Students consider the distinction between income and capital as this relates to the imposition of income tax and the concept of deductions as a means of reducing taxable income. Taxation of capital gains particularly as this relates to a taxpayer's main residence, deceased estates and general transfers of assets is discussed in detail. The other major topic is a critical analysis of the need for the general anti-tax avoidance provisions and how they apply.

**Credit points:** 12  
**Contact hours:** 3 per week in Sem 1.  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER

**LWB366 Law of Commercial Entities**

This unit examines the legal principles pertaining to a number of different structures found in commercial life. It includes a brief consideration of corporations, more detailed examination of partnerships, unit trusts, joint ventures and incorporated associations. Consideration is given to the definition of these structures, relationship with third parties, relationship of members inter se. This unit can be completed before or in conjunction with Corporate Law (LWB334).

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2
UNIT SYNOPTES

LWB367 Law of Corporate Governance
Successful completion of LWB334 Corporate Law is an essential prerequisite to undertaking this unit. This is a specialised unit providing an examination of the two organs which govern a company: the board of directors and the company in general meeting. The unit examines in some detail particular aspects of the law applicable to these bodies: some of the duties affecting directors; topical issues such as directors interests in contracts; the role of waiver of breaches and improprieties; members rights and protection; relevant aspects of meeting law; an examination of the roles of the Australian Securities Commission and the Australian Stock Exchange; the roles of the Institutional Shareholder and/or Shareholder Associations.
Prerequisite(s): LWB334 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point and External Teaching period: 2008 SEM-2

LWB406 Fundamentals of Public International Law
This unit considers the legal rules that govern the activities of nations and the regulation of the activities of nations by international organisations, such as the UN. It also includes: the creation of international law and its sources; treaties; customary law; general principles of law; the concept of international legal personality; statehood; self-determination; recognition; the effects of international law: sovereignty; international responsibility. It also includes the law of armed conflict.
Credit points: 12 Contact hours: 2 per week Campus: Gardens Point and External Teaching period: 2008 SEM-2

LWB410 Competition Law
This unit includes an overview of the anti-competitive practices that are proscribed by Part IV and Part XIB of the Trade Practices Act 1974 (Cth). It also deals with the remedies available for contraventions of Part IV and the possibility of obtaining authorisation from the Australian Competition and Consumer Commission. The access provisions of Part III A and Part XIC are also considered.
Credit points: 12 Contact hours: 2 per week Campus: Gardens Point and External Teaching period: 2008 SEM-1

LWB413 Queensland Parliamentary Internship Program
This unit provides an opportunity for students to learn about the workings of the Queensland Parliament and to undertake a piece of research of interest and use to a member or senior officer of Parliament. Places are limited and preference will be given to students with a good academic record. This unit may be undertaken in semester 2, and intending students should contact the Unit Coordinator in May of each year. Places are generally available only to students in their final year of study who have achieved a grade point average of at least 5.2 or have demonstrated other evidence of capacity for research and report writing.
Prerequisite(s): Completion of 192 credit points of law units Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

LWB417 Moots
The aim of this unit is to give students a broad understanding and development of oral and written arguments and persuasive speaking, and an ability to apply these skills in a courtroom context. Additionally, students will become competent in electronic courtroom software.
Prerequisite(s): Completion of all 1st and 2nd year core units Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

LWB418 Competition Moots 1
If students have completed the core units in first and second year, enjoy working under pressure and have participated in at least one moot as counsel, they may apply when applications are called for. Places are very limited, but if students are successful, they can take their skills to the national and international arena, and experience mooting at the highest level. International and national moots require significant preparation and attention to detail, with a very high level of commitment, research, writing and discipline knowledge. Because of the timetabling of international moots throughout the year, students may be required to work on the competition moot from November to February. The number of moots offered will vary from year to year.
Prerequisite(s): Completion of all 1st and 2nd year core law units plus participation in at least one Law School moot Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SUM-2, 2008 SEM-2 and 2008 SUMMER

LWB420 Internship
The aim of this unit, ideally to be undertaken in the later years of the LLB course, is to provide an opportunity for students to work in a functioning workplace environment with a broad public law focus and to enable students to engage in practical tasks, that require demonstration of legal analysis critical reflection and appropriate communication skills.
Prerequisite(s): Completion of 192 credit points of law units Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1

LWB421 Learning in Professional Practice
This unit provides students with the experience of working in a legal professional placement in the private sector. The student will reflect upon and learn from this experience through keeping a reflective journal, sharing their experiences with other students and use of the student ePortfolio. Integral to the student's experience will be the identification and consideration of the theory/practice nexus.
Prerequisite(s): 192cps of law (LWBxxx) units Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-2 and 2008 SUMMER

LWB422 Virtual Law Placement
The aim of the VLP unit is to provide you with a real world learning experience through your application for, and supervised placement in one of a diverse range of legal workplace environments. Through this experience you should achieve a greater knowledge and understanding of the dynamic relationship between academic knowledge and its practical application to the legal issues that arise in a
workplace; as well as the opportunity to identify and practise the graduate capabilities relevant to the workplace environment in which your virtual placement is located.

**Prerequisite(s):** 192cpts of Law (LWBxxx) units  
**Credit points:** 12  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB431 Civil Procedure**  
This core unit focuses on developing basic litigation skills. The following issues are examined: the adversarial system and alternative methods of dispute resolution, obligations to the client, the structures and processes of litigation conducted in the Supreme, District and Magistrates Courts, jurisdiction, originating process, notice of intention to defend, parties, service, ending proceedings early, pleading, disclosure, subpoenas, trial, appeals, costs and enforcement.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER  
**Incompatible with:** LWB404

**LWB432 Evidence**  
The law of Evidence concerns those rules and principles which govern the presentation and proof of facts and information in court proceedings, both civil and criminal. The unit covers both State and Federal jurisdictions. NB: External only in Semester Two.

**Credit points:** 12  
**Contact hours:** 3 per week. NB: External only in Sem 2.  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** LWB402

**LWB433 Professional Responsibility**  
This unit includes the following: the ethical principles upon which the practice of all professions is based; the principles which underpin the discipline of law and the workings of the legal profession; the history, nature, organisation and operation of the legal profession; codes of conduct, trust accounts and professional legal ethics.

**Credit points:** 12  
**Contact hours:** 3 per week in Sem 2.  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER

**LWB434 Advanced Research and Legal Reasoning**  
This unit develops advanced skills of legal research, analysis, problem-solving, critical thinking, and writing for diverse purposes, and topical developments in substantive areas of law.

**Prerequisite(s):** LWB143 or equivalent; LWB333  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SUMMER  
**Incompatible with:** LWB415

**LWB451 Alternative Dispute Resolution**  
Heralded as the new Equity, alternative dispute resolution processes, particularly mediation, are being utilised by all courts and most administrative tribunals to reduce the complexity, time and cost of adversarial dispute resolution. Knowledge of these processes and skills is therefore desirable, if not essential, for all legal practitioners. This unit builds on negotiation skills modules developed in first and second year core units and introduces the theory and skills of mediation.

**Credit points:** 12  
**Contact hours:** 2 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB454 Banking and Finance Law**  
This unit deals with the principal areas of activity of banks and other financial institutions in commercial and consumer transactions. It covers the banker-customer relationship including the Banking Code of Practice, the principles governing the operation of and liability in relation to negotiable instruments, the liability of financial institutions with respect to misappropriated cheques, documentary credits, Mareva and garnishee orders, credit and debit cards, and the Electronic Funds Transfer Code.

**Prerequisite(s):** LWB132 OR LWB136 & LWB137; and LWB332  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LWB456 Legal Clinic (Organised Program)**  
In this unit students are provided with the opportunity to see law in action through being involved in the delivery of legal services to members of the community under the umbrella of Legal Aid Queensland, the Prisoners Legal Service Inc or the Aboriginal and Torres Strait Islander Corporation (QEA) for Legal Services. Students work in their placement is supplemented with a weekly seminar program that deals with such topics as legal interviewing, family and criminal law practice, professionalism and legal writing.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LWB480 Media Law**  
This unit examines the regulation and non-regulation of freedom of speech exercised by the media. In this regard various limitations imposed by the common law, statute and self-regulation will be examined, such as defamation, restrictions on reporting courts and politics, contempt, privacy and confidentiality.

**Prerequisite(s):** LWB138, LWB139 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB485 Environmental Law**  
This unit provides an introduction to environmental law in Queensland: the sources, nature and development of environmental law in Queensland; the concepts of environmental law (for example property, administrative control, law and policy, planning, management); access to the environment; planning to prevent environment degradation and pollution; protecting the environment; managing the environment; conservation; ecologically sustainable development; enforcement of environmental law; the role of the Commonwealth.

**Credit points:** 12  
**Contact hours:** 2 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB486 Intellectual Property Law**  
There have been significant developments in the field of intellectual property law in recent years and the area is undoubtedly one perceived by the practising profession as growing in importance. This unit will provide a foundation to those areas of intellectual property law that legal
practitioners may encounter in their everyday practice. In so doing, it will provide an examination of each of the intellectual property regimes. The course will also consider some of the broader more general policy matters as they relate to the field of intellectual property law.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB492 Real Property Mortgage Transactions**  
This unit examines security interests commonly taken by providers of credit when advancing money. One of the common securities obtained by lenders in practice is a mortgage over real property. Given the practical importance of this as a form of security, the nature of a Torrens title mortgage, the rights of the mortgagor and enforcement options of the mortgagee are examined. Other securities examined are guarantees, bills of sale over personal property and possessory liens. Because the Consumer Credit Code regulates most transactions involving the provision of consumer credit, the impact of this legislation on securities is also examined. Provisions of the Trade Practices Act 1974 as they affect the validity and operation of securities is also considered.

**Prerequisite(s):** LWB233 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB494 Principles of Sentencing**  
This unit seeks to examine in detail the principles underlying the sentencing of offenders, by examining the theories of punishment and how they are employed in practice under the Penalties and Sentences Act 1992 (Qld). It also considers the principles of sentencing offenders, sentencing dispositions, and sentencing different classes of offenders, eg juveniles, dangerous offenders.

**Prerequisite(s):** LWB232; OR LWB238 & LWB239  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWB497 Advanced Research Project**  
The aim of the unit is to provide students with the opportunity to develop and apply the skills of research and writing, analysis and reasoning, by undertaking a specific, supervised project of research under the supervision of a senior academic, on a topic agreed between the student and supervisor which is suitable for achieving the objectives of the unit.

**Prerequisite(s):** 192 Credit Points 5.5GPA  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWB498 Dispute Resolution and Non-adversarial Practice**  
Dispute resolution processes such as mediation and conciliation are now utilised in many areas of contemporary Australian society to resolve both legal and non-legal disputes. These processes are used both within the court system and outside it in legal, government, banking, workplace, community, complaints management, health and educational settings. In addition, in recent years, we have witnessed the increasing use by judicial officers of less adversarial approaches to justice within the court system with the aim of providing a more beneficial and effective outcome for clients. It is important that you as a future lawyer or legal professional have a knowledge and understanding of these processes along with a critical perspective of the adversarial system.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 2  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LWB499 Creative Commons Clinic**  
Creative Commons is a world wide project that aims to build a distributed information commons by encouraging copyright owners to licence use of their material through open content licensing protocols and thereby promote better identification, negotiation and reutilization of content for the purposes of creativity and innovation. QUT is the lead agent for the Australian Creative Commons Project. This unit aims to provide you with a cross disciplinary environment in which you can gain real world experience, skills and knowledge working directly on the further implementation of the Creative Commons Project in Australia and across the world. This unit is being run in conjunction with the ARC Centre of Excellence for Creative Industries and Innovation (CCI) and is designed to generate and disseminate knowledge on the Creative Commons project, in line with the CCI's key outcomes.

**Prerequisite(s):** Permission of unit coordinator, Completion of 192 credit points  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3  
**Teaching period:** 2008 SEM-1

**LWN025 Research Project 1A**  
In this unit, students undertake a supervised research project of about 10,000 words over one semester approved by the Teaching, Learning and Curriculum Committee. Students should refer to the relevant course rules for the maximum credit point limit of Research Project units allowed to be undertaken as part of their course and how to apply to undertake this unit.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 26 hours in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWN026-1 Research Project 2A**  
In this unit, students undertake a supervised research project of about 20,000 words over two (2) semesters approved by the Teaching, Learning and Curriculum Committee. This unit code is the first component. Students should refer to the relevant course rules for the maximum credit point limit of Research Project units allowed to be undertaken as part of their course and how to apply to undertake this unit.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LWN026

**LWN026-2 Research Project 2A**  
In this unit, students undertake a supervised research project of about 20,000 words over two (2) semesters approved by the Teaching, Learning and Curriculum Committee. This unit code is the final component. Students should refer to the relevant course rules for the maximum credit point limit of Research Project units allowed to be undertaken as part of their course and how to apply to
undertake this unit.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** LWN026

**LWN030 Mediation**

The ADR movement has developed at a rapid pace in Australia and internationally with mediation being incorporated into the practices of most courts and tribunals as well as at the private level. This unit examines the theory and skills of mediation. The aim of this unit is to provide a coherent knowledge and understanding of mediation theory as well as developing mediation skills relevant to ongoing learning and professional practice.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 26 hrs in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP1 and 2008 5TP8  
**Incompatible with:** nil

**LWN046 Advanced Planning Law**

To practice effectively in the growing area of Environmental and Town Planning Law it is essential that practitioners have a detailed knowledge of the principals of town planning, relevant statutory instruments and the practice and procedure of the Planning and Environment Court. It is advisable for those practising in this area to be aware of the legislative changes that have taken place in the recent past and what is proposed for the future. It is an area where the State Government has and will continue to make considerable changes.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 2 hrs per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** nil

**LWN048 Advanced Legal Research**

Legal Research at an advanced level is a fundamental part of postgraduate legal study both for coursework and more particularly thesis and dissertation purposes. Exposure to a structured course on the nature, aims and techniques of legal and other research is essential to a proper foundation in postgraduate research skills at an advanced level. Advanced Legal Research is also highly recommended for those students who have completed their undergraduate degree in a jurisdiction other than Australia.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 26 hours in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** nil

**LWN049 International Environmental Law**

International environmental law is a dynamic area of international law with implications for the management of natural resources both in Australia and at the global level. This unit introduces students to the fundamental principles structuring international environmental law, discusses the principal institutions, cases and treaties in this field and explores the impact of international environmental obligations on natural resource management in Australia. The unit highlights the particular challenges facing international environmental lawyers seeking the protection and enhancement of the global environment, as well as international environmental issues of contemporary concern.

**Credit points:** 12  
**Contact hours:** 26 hours in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LWN051 Consumer Protection and Product Liability**

This unit is divided into two main parts. The first part considers the statutory and common law actions that are available to protect consumers from misleading or deceptive conduct and unfair marketing practices. Emphasis is given to the role played by the Trade Practices Act in relation to conveyancing and land transactions, financial services and advertising. Unconscionable conduct is also considered. The second part of the unit is concerned with statutory and common law actions available when loss or damage is suffered as a result of defective products. Remedies and defences are considered throughout the course.

**Credit points:** 12  
**Contact hours:** 2 hrs per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-1

**LWN053 Research Project 1B**

See LWN025.

**Prerequisite(s):** LWN025  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LWN054 Research Project 1C**

See LWN025.

**Prerequisite(s):** LWN025, LWN053  
**Credit points:** 12  
**Campus:** Gardens Point

**Prerequisite(s):** LWN026-2  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**LWN060 Environmental Legal System**

Environmental law and its related unit Natural Resources Law have become significant areas of professional legal practice over the last decade or so. A number of firms of solicitors have set up units in their practices specialising in these areas. At the same time, these branches of the law have emerged as significant areas for research and publication. Most law schools have undergraduate courses in environmental law and several have introduced postgraduate courses in these areas. There is a growing demand for courses in these areas at postgraduate level on the part of those wishing to study the subject for the first time and also on the part of those seeking to expand their existing knowledge and understanding of these areas. This unit complements the unit in Natural Resources Law. Together these two courses create the framework within which further study is possible either by way of further units
or more focused research papers.
Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 5TP3

LWN062 Federal Environmental Law
This unit includes the following: the history of Commonwealth involvement in environmental management; the Inter-Governmental Agreement of 1992; relevant paragraphs of s. 51 of the Constitution; judicial interpretation of the paragraphs; impact of ss 90, 92 and 109 of the Constitution; federal legislation dealing with offshore development, marine environment protection, environmental impact assessment, national estate, wildlife conservation, Great Barrier Reef, hazardous waste and industrial chemicals, world heritage, ozone protection, ecologically sustainable development, climate changes, and biological diversity.
Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 SEM-2

LWN065 Construction and Engineering Law
Preparation of construction and engineering contracts has now become a distinct area of legal practice with many firms having established sections which specialise in this area. A sound knowledge of the standard forms used in the industries and the special principles of law applicable to this area is essential for those wishing to practise in the area. This unit provides the knowledge sought by current and future practitioners and those considering embarking upon research in this area.
Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 2 hours per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

LWN075 International Commercial Transactions
This unit on international trade law addresses the legal problems that arise in the formation and operation of commercial transactions of an international nature. Its scope is largely confined to the sphere of private law. Topics covered include: the international trade law and environment; harmonisation and unification of law; international contracts (characteristics, comparative law, negotiating and drafting, choice of law); international sale of goods (trade terms, standard conditions, uniform law); carriage of goods by sea; payment in a documentary sale, and other financing mechanisms; marketing arrangements (agency, distributorship, subsidiary, joint venture).
Credit points: 12  Contact hours: 2 hrs per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

LWN083 Estate Planning
In recent years there has been a renewed interest in all aspects of estate planning. During the period when death duties were imposed at both the State and Federal levels, professional interest in this area was high as the public perceived its need for expert professional advice, particularly as it related to the structuring of a person's affairs to minimise the impost of these duties. The emergence of capital gains tax and the realisation of its growing significance, together with a recent emphasis generally on financial planning has again brought this area to prominence. At a time when the legal profession is looking for new areas at work, there is also evidence that lawyers see this area as one which has been largely neglected. This unit seeks to conceptualise a framework in which the issues which arise in estate planning can usefully be considered.
Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 2 hrs per week  Campus: Gardens Point  Teaching period: 2008 5TP4

LWN111 Public Law and Government Commercial Activity
This unit examines the reach of public law remedies in the field of commercial activities in which government agencies are involved. Areas covered include corporatisation, outsourcing and privatisation.
Credit points: 12  Contact hours: 2 hrs per week  Campus: Gardens Point and External  Teaching period: 2008 SEM-1

LWN117 Legal Regulation of the Internet
This unit examines legal issues relating to the Internet. The unit will consider the application of existing legal principles to "cyberspace" as well as newly developed Internet Law or Cyberlaw principles. Knowledge of Internet Law is of increasing importance in many areas of legal practice, industry and to society more generally. This is a new area of activity and it is important to educate lawyers and other professionals on the unique issues that have arisen and will emerge in this area, in particular the difficulty in regulating the distributed international network of computers known as the "Internet".
Credit points: 12  Contact hours: 2 hrs per week  Campus: Gardens Point

LWN119 Employment Law
Employment law is a foundation unit that allows students to survey at an advanced level the sources, components and relationships of employment law in Australia. Successful completion of this unit provides students with the necessary background to continue on to undertake further advanced courses in more specialised areas of labour law, including public sector employment law and the law of trade unions.
Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 5TP4

LWN120 Select Issues in Media Law and Policy
In the technology age the media pervades our lives. Those in the media who control the flow of information wield great power. A study of the functioning of media institutions and the controls imposed upon the activities of those institutions in a democratic society may lead to an understanding of the exercise of that power. This unit examines the concept of freedom of speech as exercised by the media and selected limitations on that freedom imposed by the common law and statute, limitations imposed upon media institutions
represented by broadcasting law and policy issues affecting the functioning of the media.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 26 hrs in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP5  
**Incompatible with:** nil

### LWN122 Commercial Leases

With the exponential rise in the numbers of commercial premises such as office blocks, shopping centres and industrial factories in the past decade or so, the study of commercial leases for the legal practitioners has assumed a great importance. Statute law in the form of the Trade Practices Act 1974 and the Retail Shop Leases Act 1994 have also impacted significantly upon commercial leasing practices. Whilst there is no one form of standard commercial lease, certain generic clauses have emerged and there now exists a substantial body of law in Australia relating to the theory underlying and practice of the law of commercial leases. This unit endeavours to explain the theoretical basis for the use of certain basic covenants at the same time taking full account of the practical operation of commercial leases in Australia.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 26 hrs in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP8  
**Incompatible with:** nil

### LWN125 Electronic Commerce Law

It is vital for any participant in the digital age to gain a thorough knowledge of how the information economy is regulated for the benefit of individuals, corporations and the State, nationally and internationally. In order to be able to participate as a lawyer or other professional in this new environment it is important to have an understanding of the laws relating to privacy, e-security, consumer regulation, electronic payment and taxation systems, electronic contracts, and Public Key Infrastructure.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 2 hours per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** nil

### LWN127 Advanced Insurance Law 1

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 2 hours per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** Nil

### LWN132 Public Sector Employment Law and Policy

Public sector employment law will allow students to survey at an advanced level the sources, components and policy underlying the law of public sector employment in Australia, and, particularly, Queensland. This will provide a basis for comparative studies within other jurisdictions.

Given that employment law is one of the fastest growing areas of legal practice, there is an increasing demand for this area of law and for specialisations within this field of study, including public sector employment law and the law of trade unions, to be studied at postgraduate level by members of the legal profession in both private and public sector legal practice.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 26 hrs in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP4  
**Incompatible with:** nil

### LWN145 Corporate and Investment Regulation

Regulation is no longer solely a government issue any more, Enron, HIH and One Tel have taught us it is an issue that both the private and public sectors must embrace and learn quickly.

Lawyers and corporate advisers must now think outside the square and keep abreast of an ever-changing legal and corporate environment. This unit will develop a forward thinking approach to corporate and investment regulation and promote practical and analytical appraisal of the issues arising in relation to the regulation of companies and investment.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 2 hrs per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** nil

### LWN147 Patent Law and Commercialisation

In the modern world lawyers are increasingly faced with issues concerning the exploitation of and access to intellectual products relating to biotechnology and information technology. This unit will allow students to develop knowledge of this specialised area, which is of growing importance to government, industry and society more generally.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 26 hrs in total  
**Campus:** Gardens Point  
**Incompatible with:** Nil

### LWN150 Death, Decisions and the Law

As people near the end of their lives, their medical treatment and other care raises complex medical, legal and ethical decisions. Choices about whether particular treatment should be provided or refused may have to be made, and this is complicated by the fact that many people may not have the competence at this stage in their life to be able to make these decisions. Although a competent adult may refuse treatment, another choice demanded by some is the right to end their own life and to be assisted by others to achieve this. This unit examines the legal aspects of these choices.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 26 hrs in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP5  
**Incompatible with:** nil

### LWN153 Select Issues in Art, Culture and the Law

This unit introduces a distinct Œart and culture lawÔ to Australian legal practitioners, arts practitioners and policy makers, which has been developing in the international arena since the 1980’s. Creating and selling art and cultural objects is the subject of well-defined categories of law, including contracts, sale of goods and copyright, though other specific forms of regulation, such as the law governing the international movement of cultural objects, is less well-known. Finding and applying these areas of law is relatively straightforward, but without an appreciation of the
relationship between the areas of law, inconsistencies and contradictions arise. One reason this occurs is because these areas of law cross traditional legal categories, and there is generally very little opportunity within most law courses to understand the inter-relationship and interaction between these disparate areas of law.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 6TP5  Incompatible with: Nil

LWN159 Electronic Litigation
With the proliferation of electronic files being created and distributed by corporations around the globe today, it is no surprise that the discovery process during a document-heavy litigation is becoming more and more onerous.

Tools to effectively manage this electronic information are used by many of the larger law firms and will soon be part of every legal practice, in much the same way as the word processor is a necessity in any new millennium practice. Moreover, courts are now taking the initiative to encourage the use of information technology in civil litigation.

Knowledge of the issues that surround electronic documents and the use of information technology to better manage discovery and trial processes is imperative, and such issues are examined in this unit - Electronic Litigation.

Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 6TP5  Incompatible with: nil

LWN160 Professional Liability & Property Transactions
The primary aim of this unit is to examine the development and application of the principles relating to the liability of nominated professionals engaged in property transactions, it affords an opportunity to a student to critically analyse issues arising from complex factual matrices which present themselves in this area of law and to contribute meaningfully to a consideration of these issues in a structured way. The second aim of this unit is to give students an understanding as to how this area of law may develop further based upon the application of new concepts such as proportionate liability or economic loss and apportionment legislation under the Trade Practices Act 1974 and Civil Liability Acts in Australian jurisdictions.

Credit points: 12  Contact hours: 26hrs in total  Campus: Gardens Point  Teaching period: 2008 5TP5

LWN162 Australian Common Law System
This unit is designed for international students from civil law countries and other non-common law jurisdictions or jurisdictions where English is not the first language and Australian graduates in disciplines other than law. This unit will provide these students with a solid foundation in the common law system with particular emphasis on the Australian legal and constitutional framework so that they will be much better equipped to complete other units in LW51 Master of Laws or LW60 Graduate Certificate in Law.

Prerequisite(s): this unit is for students from jurisdictions outside Australia and for non-law graduates in LW60  Corequisite(s): nil  Credit points: 12  Contact hours: 2 hours per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: Australian Bachelor of Laws

LWN163 Capacity, Guardianship and Administration
Decisions about guardianship and administration are part of the legal and social fabric of our society. Despite the fact that decisions about guardianship and administration are being made every day, this area of law raises difficult legal and ethical issues. Because a decision is being made on behalf of an adult with impaired decision-making capacity, there are issues as to who should make these decisions and how they should be made. The topics examined in this unit are important from the perspective of government regulation, for those making these decisions for adults with impaired capacity (including relatives and those in statutory positions), and for legal practitioners in fields such as health law and succession.

Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: nil

LWN164 Health Care Law and Ethics
The relationship between law and ethics in healthcare is important, but at times contested. This unit explores that relationship to lay the foundations of an understanding of law and ethics as they relate to healthcare.

Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26hrs in total  Campus: Gardens Point  Incompatible with: nil

LWN165 Children’s Health and the Law
This unit introduces you to selected legal issues concerning the health of children in Australia. These issues are new and emerging, and they present legal, theoretical and practical questions that have implications for legal, health and educational systems. As well, they pose new challenges for legal practitioners, policymakers and scholars. Studying this unit at postgraduate level provides opportunities and challenges that exceed undergraduate study. You will be exposed to a number of contemporary issues affecting children and their health. You will have the opportunity to consider, from interdisciplinary perspectives, legal problems regarding children's health that face legal, health and other social systems. You will be required to identify an important issue in Australian law relating to children and health, and to conduct legal research, analysis (which can be interdisciplinary) and writing to critically evaluate the situation.

Prerequisite(s): nil  Corequisite(s): nil  Credit points: 12  Contact hours: 26 hrs in total  Campus: Gardens Point  Teaching period: 2008 5TP5  Incompatible with: nil

LWN166 Consent To Treatment and Clinical Negligence
Health law is an important and growing area of legal practice and attracts much attention from academic, social and political commentators across a range of disciplines.

A detailed knowledge and understanding of the law relating to consent to treatment is a core legal issue in health law. This area involves the consideration of complex legal,
ethical and policy considerations. In recent times, decisions of the High Court of Australia and courts in other jurisdictions have emphasised the importance of the rights of patients to make decisions for themselves in relation to medical treatment where they are competent to do so and absent special circumstances.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 26 hours in total  
**Campus:** Gardens Point  
**Teaching period:** 2008 5TP9

**LWN167 Families, Creation and Separation**

Family law is a rapidly evolving area of law that reflects changing societal values and key developments in government policy. Understandings of 'marriage' and 'family' in contemporary Australian society are altering due to changing societal values. In some respects this has occurred in response to an increase in the number of de-facto and same-sex relationships and the changing configurations of 'family' due to people accessing assisted reproductive technology. It is therefore of critical importance that family law practitioners, people working within the family law system and graduates with an interest in family law have the opportunity to study emerging issues relating to family law at a high and analytically sophisticated level.

**Prerequisite(s):** nil  
**Corequisite(s):** nil  
**Credit points:** 12  
**Contact hours:** 26hrs in total  
**Campus:** Gardens Point  
**Incompatible with:** nil

**LWN170 Parliamentary Law, Practice and Procedure**

There is a need for parliamentary staff and others dealing with a Parliament to understand
1. the law governing Parliament's powers; and
2. the rules of practice and procedure governing the way in which parliaments conduct their affairs.

This unit examines the law governing the powers of a parliament (Commonwealth, State and New Zealand) and the rules of practice and procedure for a parliament. It is designed primarily for members of parliamentary staff in Australia or New Zealand under an arrangement with ANZACATT (the Australian and New Zealand Association of Clerks At The Table). Under that arrangement priority to enrol in the unit will be given to members of parliamentary staff in Australia or New Zealand nominated by the Clerk of the relevant parliament. The content of this unit complies generally with the recommendations in the Commonwealth Parliamentary Association's Guidelines for the Training of Parliamentary Staff.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008  
**SEM-2**

**LWN172 Special Topic in Commercial Law**

Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).

By enrolling in Special Topic in Commercial Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Commercial Law.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Gardens Point

**LWN173 Special Topic in Environmental Law**

Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).

By enrolling in Special Topic in Environmental Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Environmental Law.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Gardens Point

**LWN174 Special Topic in Health Law**

Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).

By enrolling in Special Topic in Health Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Health Law.

**Prerequisite(s):** Nil

**Credit points:** 12  
**Campus:** Gardens Point

**LWN175 Special Topic in Public Law**

Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).
By enrolling in Special Topic in Public Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Public Law.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Gardens Point

LWN176 Special Topic in Criminal Law (Combating International Corruption)  
Countries worldwide are under increasing pressure to take effective steps, both individually and collectively, to tackle corruption and recover the proceeds of corruption. Australia is no exception. International efforts to address the problem culminated with the coming into force in December 2005 of the UN Convention Against Corruption (UNCAC). This the first global instrument designed to tackle corruption in both the private and public sectors and it builds on a number of regional anti-corruption initiatives, including the Asia Development Bank/OECD Anti-Corruption Initiative for Asia-Pacific. In addition the Organisation for Economic Cooperation and Development (OECD) has been active within the setting of tackling corruption in international business, particularly through the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions (OECD Convention). Australia is a party to both Conventions.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 20  Contact hours: 26 hours in total  Campus: Gardens Point  Teaching period: 2008 5TP1

LWN177 Special Topic in Technology Law  
Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).

By enrolling in Special Topic in Technology Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Technology Law.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Gardens Point

LWN178 Special Topic in Intellectual Property Law  
Advanced level research frequently draws on the expertise of leading national and international researchers who visit the Law Faculty, as well as research developing out of activities (grants etc) in the Faculty or related entities (Centres of Excellence etc).

By enrolling in Special Topic in Intellectual Property Law, Graduate Certificate in Law (LW60) students and Master of Laws (LW51) students can take advantage of the expertise of these acknowledged experts, enrol in this unit and gain knowledge in areas of interest that may only be available for a limited period of time at QUT, while at the same time counting this unit as part of a major in Intellectual Property Law.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Gardens Point

LWN179 Copyright in the Digital Age  
In the last decade the traditional copyright regime has been challenged on two fronts. First, by the growth of technological developments that make unauthorised copying even easier. Second, by more vocal opposition to intellectual property protection from developing nations, consumers, library associations, open source advocates, NGOs, internet service providers, digital manufacturers and others who have advocated for more balanced copyright protection. Legislators around the world have responded to these challenges with major reform to copyright law at both the national and international levels. Given the increasingly complex nature of copyright law in the digital age, it is necessary to not only be familiar with the current copyright law but to also understand both the international and policy context driving the reform agenda.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 2 hours per week  Campus: Gardens Point and External  Teaching period: 2008 SEM-1

LWN180 Open Licensing: New Models For Intellectual Property  
The Internet and associated digital technologies provide us with an enormous potential to access and build information and knowledge networks. Information and knowledge can be communicated in an instant across the globe, cheaply and with good quality, by even the most basic Internet user. However intellectual property law, which takes its definition from international conventions and is similar in most countries, places significant restrictions on people's ability to take full advantage of this revolution. While the technology has the capacity, the legal restrictions on the reuse of copyright and other intellectual property materials materially hamper its negotiability in the digital environment.  
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 2 hours in total  Campus: Gardens Point and External  Teaching period: 2008 SEM-2

LWN181 Intellectual Property Litigation  
Intellectual property (IP) is an expanding industry, with companies increasingly seeking to protect their intellectual property in designs, inventions, trade marks and other assets. This expansion has unsurprisingly seen a tussle over the breadth of IP rights between owners, competitors, consumers and others. Critical to the resolution of these tensions and the process of defining the boundaries between competing rights holders is IP litigation. Accordingly, in addition to understanding the law and theory underpinning IP rights, it is necessary to be familiar with IP litigation strategies.  
Prerequisite(s): Bachelor of Laws or equivalent  Corequisite(s): Nil  Credit points: 12  Contact hours: 2 hours in total  Campus: Gardens Point

LWN182 Criminal Tribunals
Lawyers working within the criminal jurisdiction may be called upon to represent clients within a wide range of courts and tribunals. The study of criminal law at the undergraduate level typically focuses on the prosecution and defence of matters within the mainstream courts. Given that a significant number of matters take place within more specialist courts, usually catering for a special category of offender, it is essential for those practicing within the criminal jurisdiction to have a working knowledge of the law relating to the rules and procedures of these specialist courts. It is also important to understand the jurisprudence and juristic principles which inform the creation and operation of these fora.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 2 hours per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** Nil

**LWP137 Contracts B**
Legally binding promises pervade society, from uncomplicated bargains like riding on a bus to complex multi-million dollar transactions. The law of contract provides an understanding of promises which are legally binding, how contractual promises may be characterised and the significance of that characterisation, and how contractual promises may be discharged or invalidated. This is the second of two associated units which examine the law of contract, the focus of this unit being on the discharge of obligations and the significance of that characterisation, and how contractual promises may be discharged or invalidated. This is the second of two associated units which examine the law of contract, the focus of this unit being on the discharge of obligations and the significance of that characterisation, and how contractual promises may be discharged or invalidated. This unit is placed at the outset of the course to commence your training in legal thought processes such as the ability to think critically about the law and to introduce you to various skills important to legal practice such as oral communication.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 hours per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**LWP143 Legal Research and Writing**
This unit introduces you to the skills of legal research, analysis and writing. This unit is needed to give you the opportunity to develop and use the skills of research, analysis, problem-solving, and writing that are both fundamental skills for the completion of your law degree, and are necessary for legal practice in diverse professional contexts.

**Prerequisite(s):** LWB141 Legal Institutions and Method  
**Corequisite(s):** LWB141 Legal Institutions and Method  
**Credit points:** 12  
**Contact hours:** 3 hours per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWP144 Laws and Global Perspectives**
Modern Australian lawyers need to have an understanding of the legal rules which apply in jurisdictions outside of their own and how these rules influence Australian law and legal practice. Following on from Law, Society and Justice, which gave you an appreciation of the societal context in which the Australian legal system operates, this unit takes the next step, situating the law and legal practice in Australia within the broader global context and explaining how international and overseas legal systems impact on our own. The unit will introduce and explain the fundamental structures and principles of three areas of law which are essential to an appreciation of the global context in which the Australian legal system operates - public international law, comparative law, and private international law - and examine their relevance to contemporary legal practice in Australia.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 hours per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-2

**LWR001 Thesis**

**Credit points:** 36  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-1 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Judicial Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing
knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-2 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-3 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-4 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-5 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-6 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-7 Thesis**
A dissertation is undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR003-8 Thesis**
A dissertation undertaken by students enrolled in LW50 Doctor of Juridical Science. The dissertation should make a notable contribution to professional knowledge and practice which may be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge and practice.

**Credit points:** 24  **Campus:** Gardens Point and Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR101 Thesis**
**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWR103 Part-time Thesis Extension**
**Credit points:** 24  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**LWS075 International Business and Law**
This unit on international trade law addresses the broad range of legal problems that arise in the formation and operation of commercial transactions of an international nature. An understanding of the law and practice regarding international commercial transactions is a basic prerequisite for the development of Australian export activity, such activity being generally recognised as crucial to Australia's economic well-being. The importance of international trade law as a subject of legal study is attested to by the ever increasing number of courses offered on it at the postgraduate level in Australian Law Schools.

**Prerequisite(s):** nil  **Corequisite(s):** nil  **Credit points:** 12  **Contact hours:** 39 hrs  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** nil

**MAB100 Mathematical Sciences 1A**
This unit includes the following: functions (polynomial, trigonometric and exponential functions; properties and graphs); arithmetic and geometric progressions, binomial theorem, differentiation and integration (derivatives and integrals for common functions and rules for differentiation and integration of composite functions); Newton's method, integration techniques such as substitution and parts; reduction formulae; vectors and matrices (vectors interpreted as geometric relationships in space, matrices as representations of linear systems); aspects of vector algebra and unique, non-unique and non-existent solutions to systems of simultaneous equations; complex numbers (Argand diagrams, complex arithmetic, solution of equations).

**Prerequisite(s):** MAB105 or SA in Senior Maths B (or equivalent)  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SUM-2, 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  **Incompatible with:** Prior pass in MAB180, MAB131, HA in Senior Maths C

**MAB101 Statistical Data Analysis 1**
This unit includes the following: collection and representation of data; explaining data with models; the normal (Gaussian) distribution; sampling distributions; properties of sample mean and sample variance; hypothesis
testing re population mean; mean difference and variances; tests of independence; analysis of variance (ANOVA);
- aspects of design of experiments; modelling relationships
- between measurements using regression; extensions of
- regression; analysis of covariance; confidence intervals;
estimating and tests of hypotheses about proportions and
- probabilities.

**Prerequisite(s):** Senior Mathematics B or equivalent

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point and Carseldine **Teaching period:** 2008 SUM-2, 2008 SEM-1 and 2008 SEM-2 **Incompatible with:** EFB101, MAB135, MAB136, MAB137, MAB138, MAB893

**MAB104 Introductory Quantitative Methods**
This unit includes the following: proportional reasoning, %'s and estimating probabilities, basic algebraic manipulations,
solving simple equations, inequalities, absolute values;
planning experiments and data collection; spreadsheets and representation of data; use of statistical software; graphs,
plots and summaries; categorical data and chisquare tests;
using normal distribution; properties of sample mean and
sample variance; confidence intervals and tests of hypotheses for one and two means, variances and proportions;
comparing more than two means: oneway analysis of variance (ANOVA), randomised blocks; twoway
ANOVA; interaction; multiple comparisons; homogeneity of
variance; normal assumptions.

**Prerequisite(s):** Grade 10 Mathematics or equivalent

**Credit points:** 12 **Contact hours:** 4.5 per week **Campus:** Gardens Point **Teaching period:** 2008 SEM-1 **Incompatible with:** Senior Mathematics B, prior pass in any MAB unit, BSB122, EFB101

**MAB105 Preparatory Mathematics**
This unit is a substitute for Senior Mathematics B for those
students who need the equivalent background for the
successful study of units which assume it. It includes the following:
- basic number facts, natural numbers, integers, rational numbers, real numbers and their operations; basic
- algebra; functions and equations, graphs, linear equations, functions and applications; systems of linear equations;
- quadratic, exponential, logarithmic and trigonometric functions, properties and applications; introduction to
calculus; rates of change, derivatives, rules of differentiation, second derivatives, maxima and minima and
- applications; integration and applications.

**Prerequisite(s):** Year 10 **Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point **Teaching period:** 2008 SUM-2, 2008 SEM-1, 2008 SUM-2 and 2008 SUMMER **Incompatible with:** MAB107, Prior pass in MAB100, MAB111, MAB131, MAB180, MAB209, HA in Senior Maths B

**MAB111 Mathematical Sciences 1B**
This unit includes the following: limits and continuity;
- introduction to sequences and infinite series; divergence test; comparison test and ratio test; product, quotient and
- chain rules for derivatives; special techniques (parametric, implicit and logarithmic differentiation); inverses and their derivatives; applications of differentiation to curve sketching; Rolles theorem; mean value theorem; hyperbolic and trigonometric functions including inverses; L'Hopitals rule;
- functions of more than one variable; partial derivatives, differentials and applications; taylor series; Riemann sums;
- fundamental theorems of integral calculus; solids of revolution; applications.

**Prerequisite(s):** MAB100 or SA in Senior Maths C

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point **Teaching period:** 2008 SUM-2, 2008 SEM-1 and 2008 SEM-2 **Incompatible with:** MAB131, MAB180

**MAB112 Mathematical Sciences 1C**
This unit includes the following: linear systems and matrices; vector algebra; coordinate systems and trigonometry; introduction to abstract algebraic systems; complex numbers; first and second order differential equations.

**Prerequisite(s):** MAB100 or Senior Mathematics C (or equivalent) **Corequisite(s):** MAB111 **Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point **Teaching period:** 2008 SUM-2, 2008 SEM-1 and 2008 SEM-2

**MAB131 Engineering Mathematics 1A**
This unit includes the following: sine and cosine functions;
- logarithmic functions; exponential functions; revision of complex numbers; determinants; vector algebra in 2 and 3 dimensions; derivatives and their applications; differentiation; chain rule; higher derivatives; integrals and their applications.

**Prerequisite(s):** At least SA in both Senior Mathematics B

**Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point **Teaching period:** 2008 SEM-1 **Incompatible with:** MAB180

**MAB132 Engineering Mathematics 2A**
This unit includes the following: vector calculus;
- differentiation of vectors; velocity and acceleration; relative velocity; vector algebra; equivalent systems of forces;
- functions of several variables; partial derivatives; hyperbolic functions; inverse functions; inverse trigonometric and
- hyperbolic functions; partial derivatives; numerical methods;
- differential equations; multiple integrals; areas and volumes; Laplace transforms; Fourier series.

**Prerequisite(s):** MAB131 **Credit points:** 12 **Contact hours:** 4 per week **Campus:** Gardens Point **Teaching period:** 2008 SEM-2 **Incompatible with:** MAB182

**MAB140 Quantitative Methods for Optometry and Health Science**
This unit includes: models of growth and decay; techniques of
differentiation; integration and applications to health science modelling; matrices; data situations and types of
variables; summary statistics and data features; introduction to a statistical package; modelling data; random variables and distributions; some special distributions; sampling and
- sample statistics; estimation; confidence intervals; hypothesis testing; tests for means and proportions; p-
- values; tests for variances; test of independence in
- contingency table; goodness-of-fit tests; fitting and
- investigating relationships; regression; residual analysis and diagnostics; multiple regression and curve-fitting; design of
- experiments; introduction to non-parametric
MAB220 Computational Mathematics 1

This unit includes: probability; independence; system reliability; using conditional probability in modelling; Bayes; introductory Markov chains; random variables and distributions; special distributional models; Bernoulli process; Poisson process; exponential; introductory queuing processes; expected values and moments; goodness-of-fit tests; measures of dependence; introductory bivariate and correlation properties; conditioning arguments.

Prerequisite(s): Senior Maths B, OP > 6  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: MAB141

MAB141 Mathematics and Statistics for Medical Science

This unit includes: mathematics (types of functions; differentiation and integration; curve sketching; Lagrange polynomial interpolation formula and cubic spline interpolation; applications; use of quadratic formula and iterative methods; numerical interpolation); statistics (data collection and presentation; probability; binomial, Poisson and normal distributions; hypothesis testing; confidence intervals; design of experiments including 1-way, 2-way ANOVA, factorial design and Latin squares; simple, multiple, polynomial and exponential regression; control charts).

Prerequisite(s): Senior Maths B or MAB105  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: MAB140

MAB180 Engineering Mathematics 1B

This unit includes: sine and cosine functions; logarithmic functions; exponential functions; complex numbers; determinants; vector algebra in 2 and 3 dimensions; derivatives and their applications (differentiation, chain rule, higher derivatives); integrals and their applications.

Prerequisite(s): At least SA in Senior Mathematics B (four semesters) or equivalent or MAB105  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: MAB131, HA in Senior Mathematics C

MAB182 Engineering Mathematics 2B

Prerequisite(s): MAB180  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  Incompatible with: MAB112, MAB132

MAB210 Statistical Modelling 1

This unit includes: probability; independence; system reliability; using conditional probability in modelling; Bayes; introductory Markov chains; random variables and distributions; special distributional models; Bernoulli process; Poisson process; exponential; introductory queuing processes; expected values and moments; goodness-of-fit tests; measures of dependence; introductory bivariate and correlation properties; conditioning arguments.

Prerequisite(s): Senior Maths B  Corequisite(s): MAB111, MAB112  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

MAB220 Computational Mathematics 1

This unit includes: sources of error; computer arithmetic; MAPLE programming; solution of nonlinear equations in one variable; solution of systems of linear equations; interpolation; finite differences; numerical differentiation and integration; solution of first order linear differential equations.

Prerequisite(s): MAB105 or SA in Senior Maths B  Corequisite(s): MAB100 or MAB131 or MAB180  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

MAB233 Engineering Mathematics 3

Module 1: Statistics: This unit includes: presentation of data; use of a statistical package; modelling data; relationships between variables; estimation; confidence intervals; tolerance limits; introduction to quality and SPC; hypothesis testing; fitting and investigating relationships; regression; design and analysis of experiments; reliability; further methods and applications of design and analysis of experiments. Module 2: Computational Mathematics: function approximation; polynomial interpolation; cubic splines; power series; numerical solution of ordinary differential equations; linear systems.

Prerequisite(s): MAB131 or MAB182 or MAB111  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: MAB138, MAB136, prior pass in MAB101 + MAB220, prior pass in MAB135

MAB281 Mathematics for Computer Graphics

This unit introduces students to the mathematics involved in computer graphics, computer games and virtual reality. It is heavily reliant on analytic, Euclidean and projective geometries, elementary trigonometry and elementary calculus in both two and three dimensions. The unit will develop the mathematical concepts and where practicable show how these concepts are then applied in the field of computer graphics.

Prerequisite(s): ITB003 and Senior Mathematics B or MAB105  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

MAB311 Advanced Calculus

This unit includes the following: polar coordinates; parametric equations; conic sections; quadric surfaces; vector-valued functions; Fourier series; functions of several variables; graphs; partial derivatives; total derivatives; extrema; Lagrange multipliers; Taylor series for multivariable functions; double and triple integrals; Green's theorems; line and surface integrals; divergence theorem; Stoke's theorem; applications.

Prerequisite(s): MAB111 and MAB112 or MAB132  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

MAB312 Linear Algebra

This unit includes: matrix algebra; linear systems and an introduction to Maple; vector spaces; inner product spaces; eigenvalues and eigenvectors.

Prerequisite(s): MAB111, MAB112  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
MAB313 Mathematics of Finance
This unit includes: interest rates; solution of problems in compound interest; applications of annuities; valuation of securities; quantitative techniques in business and finance.
Prerequisite(s): MAB100 or SA in Senior Mathematics C
Corequisite(s): MAB111
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB314 Statistical Modelling 2
This unit includes: models for stochastic processes and statistical methods, which have applications in engineering, information technology, finance, and physical and life sciences. Markov chains; random walks; branching processes; queueing processes; long-term behaviour of processes; use of generating functions; bivariate and conditional distributions; transformations of random variables; beta and gamma distributions; mixture distributions; order statistics, minimum and maximum.
Prerequisite(s): MAB101, MAB111, MAB112, MAB210
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB315 Operations Research 2
This unit includes: general nature of operations research; formulating, solving and analysing linear programming models; transportation, trans-shipment and assignment models; shortest-route problems; project scheduling techniques (CPM and PERT); replacement and maintenance.
Prerequisite(s): MAB112, MAB210
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB316 Mathematical Modelling
This unit includes models developed with the 'real world' description. These models are taken from the areas of cancer research, population growth and engineering. Emphasis is on mathematical modelling and not on the development of new mathematical content.
Prerequisite(s): MAB111, MAB112
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB317 Linear Algebra
This unit includes: general linear systems; solution methods for sparse matrix systems (banded matrix systems, block-banded matrix systems, data structures and algorithms for storing and manipulating sparse matrices, matrix graphs and reordering schemes); vector and matrix norms (basic theory and definitions, error bounds for direct methods, condition numbers); iterative solution methods for sparse matrix systems (Jacobi, Gauss-Seidel, Successive Over-Relaxation, convergence issues, brief introduction to the conjugate gradient method and preconditioning strategies).
Prerequisite(s): MAB220, MAB312
Corequisite(s): MAB480 or ITB003 or ITB849
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB401 Advanced Calculus
This unit includes: general topology (including limits, continuity, uniform continuity and compactness); sequences and series of numbers and functions (convergence and index sets, uniform convergence); multivariable calculus (partial derivatives, multiple integrals, line integrals, surface integrals, theorems of Gauss, Green and Stokes).
Prerequisite(s): MAB101
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB402 Complex Analysis
This unit includes: calculus of one complex variable; complex numbers; Riemann integration; series of numbers and functions; various types of functions; conformal mapping; residue theorem.
Prerequisite(s): MAB101
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB403 Differential Geometry
This unit includes: general nature of differential geometry; calculus on manifolds, differential forms; manifolds; differential geometry of curves and surfaces; Riemannian manifolds; connections, covariant derivatives; curvature.
Prerequisite(s): MAB101
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB404 Abstract Algebra
This unit includes: groups, rings and fields; equivalence relations; quotient structures and algorithms for storing and manipulating structures; field theory (additive groups, multiplicative groups; polynomial rings and finite fields, isomorphisms, homomorphisms); modular arithmetic and congruence; enumeration techniques (including countability and uncountability); proof by mathematical induction, proof by contradiction; sets and relations (one-to-one and onto functions, set operations); number theory (including gcd, lcm and theorems involving these, fundamental theorem of arithmetic, arithmetic functions, Fermat's theorems, Euler's theorem).
Prerequisite(s): MAB112
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB405 Ordinary Differential Equations
This unit includes: general nature of ordinary differential equations; first and second order linear differential equations; series methods; Laplace transform; transforms of derivatives and integrals; linear and nonlinear differential equations.
Prerequisite(s): MAB101 or MAB311 or MAB312
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

MAB406 Numerical Linear Algebra
This unit includes: introduction to numerical linear algebra; numerical solution of systems of linear equations (introduction to numerical analysis); numerical solution of systems of differential equations; basic theory on linear algebra; Laplace transform; transforms of derivatives and integrals; linear and nonlinear differential equations; series methods; introduction to numerical methods for ordinary differential equations (banded matrix systems, block-banded matrix systems, data structures and algorithms for storing and manipulating sparse matrices, matrix graphs and reordering schemes); vector and matrix norms (basic theory and definitions, error bounds for direct methods, condition numbers); iterative solution methods for sparse matrix systems (Jacobi, Gauss-Seidel, Successive Over-Relaxation, convergence issues, brief introduction to the conjugate gradient method and preconditioning strategies).
Prerequisite(s): MAB210
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB407 Advanced Scientific Computing
This unit includes: mathematical algorithm in a modern scientific computing environment (eg Matlab). A case-study approach is used with an emphasis on writing efficient code. Also an overview of other software packages used in mathematics will be given.
Prerequisite(s): MAB112 or MAB132 or MAB182
(Recommended: MAB210 or MAB220)
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB408 Introduction to Scientific Computation
This unit teaches students how to implement a mathematical algorithm in a modern scientific computing environment (eg Matlab). A case-study approach is used with an emphasis on writing efficient code. Also an overview of other software packages used in mathematics will be given.
Prerequisite(s): MAB112 or MAB132 or MAB182
(Recommended: MAB210 or MAB220)
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB411 Discrete Mathematics
This unit includes the following topics: groups, rings and fields (additive groups, multiplicative groups; polynomial rings and finite fields, isomorphisms, homomorphisms); modular arithmetic and congruence; enumeration techniques (including countability and uncountability); proof by mathematical induction, proof by contradiction; sets and relations (one-to-one and onto functions, set operations); number theory (including gcd, lcm and theorems involving these, fundamental theorem of arithmetic, arithmetic functions, Fermat's theorems, Euler's theorem).
Prerequisite(s): MAB112
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB412 Discrete Mathematics
This unit includes: groups, rings and fields; equivalence relations; quotient structures and algorithms for storing and manipulating structures; field theory (additive groups, multiplicative groups; polynomial rings and finite fields, isomorphisms, homomorphisms); modular arithmetic and congruence; enumeration techniques (including countability and uncountability); proof by mathematical induction, proof by contradiction; sets and relations (one-to-one and onto functions, set operations); number theory (including gcd, lcm and theorems involving these, fundamental theorem of arithmetic, arithmetic functions, Fermat's theorems, Euler's theorem).
Prerequisite(s): MAB112
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB413 Differential Equations
This unit includes: introduction to mathematical modelling; linear and nonlinear differential equations; series methods; Laplace transform; transforms of derivatives and integrals; systems of differential equations; basic theory on linear systems; solution of linear systems with constant coefficients; matrix methods; numerical methods; phase plane analysis.
Prerequisite(s): MAB134 or MAB311 or MAB312
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB414 Applied Statistics 2
This unit includes: Simple linear regression (revision), multiple linear regression, making inferences from regressions, choosing a model, checking model assumptions, general linear models - analysis of covariance, ANOVA revisited, designing experiments, issues in designing experiments, analysing experimental results, further experimental designs, assumptions, and how to cope if they aren't met, simulations.
Prerequisite(s): MAB101, MAB111, MAB210
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB415 Computational Mathematics 2
This unit includes topics selected from: direct methods for solving systems of linear equations (introduction to Numerical Linear Algebra, triangular decomposition, scaling and pivoting); solution methods for special matrix systems (banded matrix systems, block-banded matrix systems, data structures and algorithms for storing and manipulating sparse matrices, matrix graphs and reordering schemes); vector and matrix norms (basic theory and definitions, error bounds for direct methods, condition numbers); iterative solution methods for sparse matrix systems (Jacobi, Gauss-Seidel, Successive Over-Relaxation, convergence issues, brief introduction to the conjugate gradient method and preconditioning strategies).
Prerequisite(s): MAB210
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

MAB416 Visualisation and Data Analysis
This unit covers: history and evolution of data visualisation, definition of data visualisation, impact of data visualisation; fundamentals of computer graphics and modern day visualisation environments; visualisation of 2-D and 3-D data; general visualisation techniques including filtering; colour map transformations; contouring; height fields; coloured height fields; interpolation; Delauney triangulation; iso-surfaces; volume visualisation; probing; slicing;
streamlines; streaklines and texture mapping; visualisation of multi-dimensional data; other data types such as finite element, vector, molecular and scatter data.

**Prerequisite(s):** MAB101, MAB111, MAB480 or ITB003  
*(Highly Recommended: MAB112)*  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**MAB521 Applied Mathematics 3**
This unit includes: special functions (gamma, delta, Bessel and error functions, Legendre polynomials); vector analysis and applications (vector algebra, vector calculus, fields, grad, div, curl, line and surface integrals, divergence theorem, Stoke's theorem, applications); functions of a complex variable (analytic functions, contour integrals, Laurent series, residues).

**Prerequisite(s):** MAB311 or MAB601  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**MAB522 Computational Mathematics 3**
This unit includes topics selected from: solution of systems of nonlinear equations (Newton's method, Inexact Newton methods, Broyden method, Globally convergent methods); numerical solution of the standard linear eigenvalue problem (single-vector methods, QR algorithm, subspace projection/iteration methods); singular value decomposition; introduction to Krylov subspace methods for solving large sparse linear systems; and unconstrained optimisation (line searching, brief introduction to multivariate optimisation and nonlinear least squares).

**Prerequisite(s):** MAB311, MAB420  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**MAB524 Statistical Inference**
This unit includes: construction of likelihood function for independent observations; maximum likelihood estimation; properties of maximum likelihood estimates; confidence intervals based on likelihood; hypothesis testing using likelihood. Principles of Bayesian inference Â construction of full probability model and derivation of posterior distribution, marginal and conditional posterior distributions; Bayesian inference for binomial data, Poisson count data and normal data; one- and two-sample problems and comparisons; simulation techniques for sampling from posterior distributions Â independent sampling, SIR algorithm (importance sampling), and Gibbs sampling (dependent sampling using a Markov chain).

**Prerequisite(s):** MAB314, MAB414  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**MAB525 Operations Research 3A**
This unit addresses inventory theory: algorithms for linear programming; integer and mixed integer programming; vehicle routing problems; deterministic and stochastic dynamic programming.

**Prerequisite(s):** MAB315  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**MAB533 Statistical Techniques**
This unit builds on your knowledge and skills of statistical techniques and aims to provide you with an understanding and a working knowledge of some more specialised statistical techniques and their applications. Topics covered include quality management concepts and tools for statistical process control, modelling and analysis of reliability (for inanimate objects) and survival (for living entities), and multivariate techniques such as principal components analysis, discriminant analysis and cluster analysis.

**Prerequisite(s):** MAB414  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1  
Incompatible with: MAB523

**MAB536 Time Series Analysis**
This unit includes the following: fundamentals of time series analysis; time series models; nonstationary processes; seasonal ARIMA models; vector autoregression; long-range dependence and fractional ARIMA models; co-integration of nonstationary processes.

**Prerequisite(s):** MAB314, MAB414  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1  
Incompatible with: MAB526, MAN526, MAN536

**MAB613 Partial Differential Equations**
This unit includes the following: derivation of certain partial differential equations; solution of partial differential equations by separation of variables, Laplace and Fourier transforms; Sturm-Liouville systems; special functions; Green's functions.

**Prerequisite(s):** MAB311, MAB413  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**MAB623 Financial Mathematics**
This unit includes the following: quantitative techniques in business, economics and finance; theory and structure of interest rates; general accumulation and discounting functions; force of interest; discounting including Modern Portfolio theory and extension; varying interest; general annuities; varying annuities; continuous varying annuities; mathematical analysis of financial transactions in money and capital markets; life annuities and life assurances; the life table; basic life table functions; life annuities and assurances; policy values; paid up policy values; changes to policies; use of life table; superannuation.

**Prerequisite(s):** MAB311, MAB313 *(Highly recommended: EFB210)*  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**MAB624 Applied Statistics 3**
This unit includes the following: design of experiments for factorial investigations (two and three-level factors, Taguchi's approach, fractions and blocking, response surfaces); general linear model; regression graphics; multi-stratum designs and analysis; repeated measures designs and analysis; linear-logistic and log-linear models; use of statistical software.

**Prerequisite(s):** MAB414  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2
MAB625 Operations Research 3B
This unit includes: phases of an operations research study; decision analysis; queuing theory; simulation; implementation in operations research; heuristic techniques.
Prerequisite(s): MAB315 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

MAB640 Industry Project
For this unit, the student usually works in industry for a short period full-time, followed by part-time. The student is assisted to develop a suitable plan to manage the project using a Gantt chart or other flow or layout techniques. Students are expected to record progress and subsequently develop an accurate report and seminar presentation.
Prerequisite(s): Permission of Unit Coordinator Corequisite(s): At least 36 credit points from 3rd level mathematical sciences units Credit points: 24 Campus: Gardens Point Teaching period: 2008 SEM-2

MAB672 Advanced Mathematical Modelling
Models are developed beginning with the description of 'real world' problems. Emphasis is on the mathematical modelling and not on the development of new mathematical techniques. The unit includes: mathematical modelling; model formulation; dimensional analysis and re-scaling; curves of pursuit; bungy jumping; modelling with systems of ordinary differential equations; phase plane methods for analysing systems of ODEs; bacterial growth in a chemostat; predator-prey models with harvesting; limit cycles; oscillations and excitable media; modelling with partial differential equations; motion of a continuum; continuity; traffic flow; aggregation of slime mould amoebae; momentum; ideal gas dynamics; quasi-linear PDEs.
Prerequisite(s): MAB312, MAB422 (Recommended: MAB413) Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

MAB730 Surveying Mathematics 2
This unit includes: systems of linear equations; Gaussian elimination; matrix inversion, properties of inverses; partial pivoting; error propagation; determinants; properties of determinants; rank; compact (direct) and iterative (indirect) methods for solving linear systems; Eigenvalues of 2x2 and 3x3 matrices; diagonalisation; quadratic forms; conic sections; Lagrange interpolation; divided differences; least squares methods; two-dimensional interpolation methods; fixed-point iteration, Newton's method and Quasi-Newton methods.
Prerequisite(s): MAB100 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

MAN200 Mathematical Foundations
This unit is intended to cater for students who may not have studied mathematics for some years and who are enrolled in postgraduate coursework in mathematical science. The unit is tailored to suit individual needs. Content may be organised into modules and may also include material delivered in a workshop for industry participants.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

MAN201 Mathematics
This unit caters for students who need more than one mathematics unit to provide the necessary background for studying more advanced units in postgraduate coursework in mathematical science. Students may use material from one first level undergraduate material with extension material or combine content from more than one first level unit.
Corequisite(s): MAN200 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

MAN536 Time Series Analysis
The following core content will be covered: fundamentals of time series analysis; time series models; nonstationary processes; seasonal ARIMA models; vector autoregression; long-range dependence and fractional ARIMA models; co-integration of nonstationary processes. The computer package S-Plus will be used to implement and simulate the models and techniques developed throughout the unit.
Prerequisite(s): MAB314, MAB414 Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: MAB526, MAB536, MAN526

MAN624 Applied Statistics
This unit includes the following: fractional factorial designs, blocking, aliasing; development of basic statistical software (eg SAS) programming skills; modelling continuous responses using regression techniques, diagnostics, transformations, model choice and plots; modelling binary data and proportions using linear logistic models; modelling count data using loglinear models; survival data and hazard modelling using loglinear models; data analysis and inference techniques based on simulation techniques, such as the bootstrap; non-linear regression techniques such as regression trees.
Prerequisite(s): MAB414 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MAB624

MAN700 Project
This project is based on a problem from the student's workplace or interests.
Prerequisite(s): Permission from Course Coordinator Credit points: 24 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MAN717 Minor Project
This project may be related to that undertaken in MAN700 or in MAN787 or in a separate area. It must be self-contained and is assessed separately.
Prerequisite(s): Permission from Course Coordinator Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MAN761 Analysis
This unit includes: convergence in R; uniform convergence; Lebesgue integral; convergence theorems; Lp-spaces; metric spaces; completeness and compactness; contraction mappings; normed and Banach spaces; dual spaces; linear operators; Hilbert spaces; Hilbert-adjoint operator; linear
MAN741 Perturbation Methods
This unit includes: regular and singular perturbation expansions; asymptotic expansions, strained coordinates; boundary layer analysis and matched asymptotic expansions; selected examples from industrial applications and mathematics applied in medicine and biology.
Prerequisite(s): MAB413, MAB521 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

MAN771 Computational Mathematics 4
Topics selected from: conservation equations for fluid motion; boundary and initial conditions; finite difference methods for diffusion equations (difference formulae, consistency, order, stability, convergence); finite volume methods (application to diffusion equations; cell-centred and vertex centred schemes); solution of advection-diffusion equations (monotonicity, stability, TVD schemes, upwinding, flux limiting); numerical optimisation (line search, trust region methods; Steepest descent, Newton, Quasi-Newton, Conjugate Gradients; constrained optimisation; KKT conditions; active set methods, penalty functions; specially structured problems; nonlinear least squares; quadratic programmes; the augmented Lagrangian; sequential quadratic programming algorithms).
Prerequisite(s): MAB522, MAB613 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

MAN775 Statistical Modelling of Financial Processes
This unit includes: the stock market; basic option theory; the Black-Scholes analysis; Brownian motion; Ito's lemma and stochastic calculus; the Black-Scholes market model and option valuation formula; bond valuation and interest rate models; mathematical aspects of the capital asset pricing model.
Prerequisite(s): MAB413 (Recommended: MAB623) Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MAB769

MAN777 Mathematics of Fluid Flow
The mathematics of fluid flow involves solving ordinary and partial differential equations arising as simplifications of the Navier-Stokes equations. Approximation techniques for flows in thin layers are also considered as well as approximations of flows of low and high viscosity. Questions addressed include: why a spinning cricket ball swerves in the air; how much does a blockage in an artery or vein...
MAN778 Applications of Discrete Mathematics
This unit includes graph theory: introduction; graph isomorphisms, trees, Euler trails and circuits; planar graphs; Hamiltonian paths and cycles. It also includes abstract algebra where advanced concepts of groups, rings and fields are introduced. Applications include the solvability by radicals of polynomial equations and ruler and compass constructions eg squaring the circle, elliptic curve cryptosystems.

Prerequisite(s): MAB621  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

MAN787-1 Project
This project is research-based and involves writing a thesis and giving an oral presentation.

Prerequisite(s): Permission from Course Coordinator  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MAN787-2 Project
This project is research-based and involves writing a thesis and giving an oral presentation.

Prerequisite(s): Permission from Course Coordinator  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MAN787-3 Project
This project is research-based and involves writing a thesis and giving an oral presentation.

Prerequisite(s): Permission from Course Coordinator  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MDB001 Integrated Foundations Studies 2: Scientific and Quantitative Literacy
It is recognised that Mathematics and Science play crucial roles in the functioning of modern society through their contribution to our understanding of our physical, social and personal worlds, and their usefulness in solving problems a wide range of problems. As students engage with the content of the unit, for example, number, time, astronomy, navigation, measurement, geometry, probability, they will recognise that each is a discipline with a language and methods of thinking that have evolved in historical and social contexts. Knowledge of both areas is important for people to be critically reflective thinkers and active participants in society, and for their life long learning.

Prerequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MDB002 Primary Curriculum and Pedagogies: Mathematics 1
Mathematics is an essential key learning area of the primary school curriculum. Mathematics is closely linked to numeracy, but it extends beyond the day-to-day demands of society. Mathematics underpins and assists in the growth of technology, economics and finance, communication, and the new science of biotechnology.

All students complete two units of Mathematics Education. Mathematics Education I focuses on the teaching of numbers, operations, and measurement. The content considers the role of technology in these three strands.

Prerequisite(s): MAB613  Corequisite(s): MAB672  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

MDB003 Primary Curriculum & Pedagogies: Mathematics 2
This unit investigates new ideas in the teaching and learning of the above topic areas. Students study the development of conceptual understanding in the areas of space and shape, chance and data, and pre-algebra with a particular emphasis on understanding the 'big' mathematical ideas and principles behind these topics.

Prerequisite(s): MDB002  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-2  Incompatible with: MDB373

MDB004 Primary Curriculum and Pedagogies: Information and Communication Technologies
Information and Communication Technologies (ICT) play a significant role in contemporary society and therefore technological literacy is increasingly being seen as an essential part of education. This form of literacy involves the ability to create, use, manage and understand ICT in a range of contexts. In addition, new networked technologies have brought about the potential for expanding learning opportunities. These necessitate the re-examination of effective learning and teaching principles, the role of the learner, the role of the teacher, creating worthwhile partnerships and the use of ICT within the learning situation.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet, Kelvin Grove and Caboolture  Teaching period: 2008 SEM-1 and 2008 6TP4  Incompatible with: MDB383

MDB005 Primary Curriculum and Pedagogies: Design and Technology Education
This unit is designed for students to explore content, pedagogical content knowledge and pedagogies important in design and technology education.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-2

MDB006 Primary Curriculum and Pedagogies: Science
Becoming scientific and technologically literate contributes to learners’ capabilities as life-long learners by providing them with the knowledge and dispositions to question systematically their natural environment. In the prerequisite unit about Mathematics and Science Foundations, grounding in some basic concept areas that help to explain children's everyday experiences of the natural world and an understanding of the nature of science was explored. In this
unit the opportunity is presented for students to develop exciting and innovative science programs at all levels of the primary school with a focus on developing scientific skills and abilities to retrieve and explore new scientific knowledge.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet, Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** MDB384

### MDB010 Biology Curriculum Studies 2
This unit provides an opportunity to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment.

**Prerequisite(s):** MDB009 or MDB031  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB013 Chemistry Curriculum Studies 2
This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students also develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDB012 or MDB031  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB015 Computing Curriculum Studies 1
Computing is now an integral part of secondary education and information and communications technologies (ICTs) are used in all subject disciplines. This unit (the first of three computing curriculum studies units) introduces students to how ICT can be used to create meaningful learning experiences for students in teaching with, about and through computers.

**Prerequisite(s):** 24 credit points in appropriate discipline studies  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

### MDB016 Computing Curriculum Studies 2
Computing is now an integral part of secondary education and information and communications technologies are used in all subject disciplines. This unit builds on the understandings and skills development of the prerequisite and introduces students to the discrete syllabi that constitutes the senior secondary computing curriculum in Queensland secondary schools.

**Prerequisite(s):** MDB015  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB017 Computing Curriculum Studies 3
This unit builds on the previous two units and prepares students to teach the subjects within the senior secondary computing curriculum in Queensland secondary schools.

**Prerequisite(s):** MDB016  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1

### MDB019 Earth Science Curriculum Studies 2
This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDB018 or MDB031  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB021 Mathematics Curriculum Studies 1
Teachers of middle and secondary school mathematics need a range of understandings and skills to be effective practitioners in the complex social and technological environment of the classroom. This unit introduces students to the teaching and learning of mathematics at the secondary school level. It begins development of students' knowledge and understanding of the secondary mathematics curriculum and their curriculum development skills. The unit is an important component of preparation for Field Studies 1.

**Prerequisite(s):** 24 credit points in appropriate discipline studies  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

### MDB022 Mathematics Curriculum Studies 2
This unit develops students' understanding of the school mathematics curriculum and extends their knowledge and understanding of inclusive learner-focused approaches to mathematics curriculum development.

**Prerequisite(s):** MDB021  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB023 Mathematics Curriculum Studies 3
This unit extends students' knowledge and understanding of mathematics curriculum with an emphasis on catering for the range of students engaged in secondary education, inclusive practices and diagnosis of mathematical learning difficulties.

**Prerequisite(s):** MDB022  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1

### MDB025 Physics Curriculum Studies 2
This unit provides an opportunity for students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDB024 or MDB031  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB028 Science Curriculum Studies 2
This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDB027 or MDB031  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### MDB030 Understanding and Educating Gifted Learners
This elective addresses the education of gifted students by exploring the appropriate curriculum interventions necessary to meet their specific needs. Some 10-15% of students are identified as gifted and these require specialist educational interventions to ensure that the curriculum offers the appropriate challenge to develop their potential and to avoid boredom, frustration or underachievement. In order to establish appropriate curriculum and pedagogical approaches an understanding of the nature of giftedness is
also necessary.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

MDB031 Science Education Curriculum Studies 1

This unit is to provide you with opportunities to examine praxis in science classrooms in order to help you develop principles for the establishment and management of effective science learning environments.

**Prerequisite(s):** 48 cps of appropriate discipline studies  
**Corequisite(s):**  Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

MDB033 Science Education Curriculum Studies 3

This unit is to provide opportunities for you to develop an understanding of the theoretical underpinnings of a selection of strategies and resources used in the teaching of science.

**Prerequisite(s):** Relevant Curriculum Studies 2 unit  
**Corequisite(s):**  Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

MDB120 Mathematics Curriculum and Pedagogies

This unit provides content knowledge and pedagogical strategies to promote the mathematical development (both cognitive and social) of students' future pupils.

**Prerequisite(s):**  Nil  **Corequisite(s):**  Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

MDB320 Database Theory And Techniques

This unit addresses the following: the logical and physical models of information systems; characteristics; use of structured query language to query existing curriculum databases and construct new ones; the sociological implications of the utilisation of public and private databases.

**Prerequisite(s):**  Nil  **Corequisite(s):**  Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

MDB321 Information System Modelling In Educational Contexts

This unit examines the modelling of information systems, relational systems, fact oriented approaches and conceptual schema design.

**Prerequisite(s):**  MDB320  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

MDB322 Computer Systems For Teachers

This unit includes the following: examination of single and multi-user operating systems; interaction with computer systems and management of stored information; definition and implementation of algorithms in suitable language; selection of computable representation for real world concepts and application in computer programs; hierarchy of levels of abstraction; adoption of abstracted views of real world information processing or problem-solving situations; capabilities and limitations of conventional, sequential processing machine architectures.

**Prerequisite(s):**  Nil  **Corequisite(s):**  Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

MDB323 Programming Languages For Teachers

This unit examines further software developments, techniques of program development, top-down design and modularity and computer programming using appropriate languages.

**Prerequisite(s):**  MDB345  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

MDB345 Software Development For Educational Contexts

Algorithmic thinking and its implementation form a major component within the Information Processing and Technology syllabus now implemented in secondary schools. Prospective teachers of these courses require a sound foundation in the design and development of software along with the use of modern abstract procedural, data and object handling representations. Software design and development are closely bound to particular problems contexts. This unit is based on the design of educational software because this area is relevant to the students concerned and because there is a clear demand for such software. Students employ a range of powerful programming techniques and structures in the development of educational computer software.

**Prerequisite(s):**  MDB322  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

MDB349 Excursions in Mathematical Reasoning

This unit includes the following: the concept of thinking and intelligence; the nature of mathematical thinking during the first half of this century; modern ideas on the nature of mathematical thinking; the thinking skills movement and programs designed to foster thinking; analysis of children's thinking in solving mathematical problems; analysis of students' 'everyday cognition' together with their thinking in mathematical situations.

**Prerequisite(s):**  Nil  **Corequisite(s):**  Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

MDB371 New Horizons in Teaching Science

Contemporary science education is facing many challenges in our knowledge society. One major challenge is to achieve a scientifically literate populace. Another is to enthuse and capture the interest of students to pursue careers in the sciences. Capturing the interests or students is foremost in assuring that national priorities related to science education are achieved. This unit provides you with the opportunity to extend your ability to plan innovative, inquiry-based curricula that are student centred, engaging and achieve high level outcomes for all students. In this unit you will be encouraged and supported to explore innovations that are personally relevant and will position you to become a leader in science education.

**Prerequisite(s):**  Nil  **Corequisite(s):**  Nil  **Credit points:**
MDB377 Project Planning And Implementation For Educational Purposes
The study of computing and its application in educational and other environments is very much associated with planned and sequenced implementation of tasks. A study and understanding of how tasks might be represented, sequenced and implemented is essential if technology is to be used effectively in education. The use of project work as a pedagogical technique is a popular strategy to promote independent learning and student autonomy. This unit provides students with a framework to evaluate this methodology.
Prerequisite(s): MDB392 Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

MDB388 Numeracy in Games of Skill and Chance
This unit considers the development of probabilistic ideas and concepts through the playing and analysis of games of change and skill.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-1

MDB391 Earth And Space
This unit examines scientific concepts in important areas of space, time and motion, the origin and history of earth and its environments, and light and optics. Scientific principles and techniques for observing space and earth phenomena are investigated.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

MDB392 Educational Computing Environments
This unit engenders an awareness of the fundamental principles in the use of computer systems used in educational environments as well as understandings that serve as a basis for further study.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove

MDB393 Networked Communities
This unit engenders an awareness of networked communities used in educational environments as well as understandings that serve as a basis for further study.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove

MDB397 Digital Media in Education
This unit addresses the following: understanding multimedia and multimedia systems; application of multimedia in education and training; multimedia authoring software; designing and creating multimedia applications for educational environments.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

MDB440 Computers And Education
This unit provides an overview of microcomputer hardware and software with an emphasis on the usefulness of various components in schools. It considers the use of educationally valuable application software and critically examines a variety of uses of computers in education including the impact of computers on society and education in particular.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1

MDB453 Middle School Mathematics Education
This unit assists students to develop a deeper understanding of mathematical content applicable to the middle school and the ways that the content may be integrated into other key learning areas.
Prerequisite(s): 2 units of tertiary mathematics or equivalent Credit points: 12 Campus: Internet, Kelvin Grove and External Teaching period: 2008 SEM-2

MDB454 Science, Technology and Society
This unit investigates the interactions and effects that exist between modern science, technology and society both from a social and historical viewpoint. Advances such as the advent of the Internet, genetic modification and nanotechnology are discussed within a context of globalisation, global communications and social change. The unit also includes a study of the nature of science and technology and the nature of scientific knowledge. A major feature of the unit involves groups of students developing and delivering 'a hypothetical' on a contemporary science and technology issue affecting society.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2

MDN638 Trends in Learning of the Sciences
This unit enables professionals involved in mathematics, science, design technology, and information communication technology to critically reflect on curricular practices in the light of major trends in the context of education.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1

MDN639 Pedagogies in Learning of the Sciences
This unit enables professionals involved in mathematics, science and design technology to reflect on their pedagogical practices in the light of major changes in the curriculum affecting their practice.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-2

MDN640 Managing Innovations in Teaching of the Sciences
This unit provides educators with knowledge and skills in managing innovations for the teaching of mathematics, science and technology education.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-2

MDN641 Understanding Mathematics and Science in Educational Contexts
This unit provides opportunities to educators to analyse critically the mathematical and/or scientific content that their prospective clients or students have to engage with in a variety of contexts and learning environments.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet
MDN642 Digital Pedagogies
This unit includes a critical investigation of digital pedagogies and the changes they are making to the role of the teacher, and the interactions between students, teachers and subject content. The unit assists students in designing and moderating worthwhile learning experiences in online environments or physical environments that make use of digital technologies.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-2

MDN643 Advanced Learning Networks
This unit includes a comprehensive examination of relevant theory, research, policy, and/or practice in the mediation of learning and communication through technology. Students are encouraged to critique the rhetoric and reality of ICT integration in learning networks.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2008 SEM-1

MDP452 Middle Years: Mathematical Understandings
This unit will provide the content knowledge and pedagogical strategies to promote mathematical development (both cognitive and social) in the middle phase of learning. The unit will provide a theoretical framework and the opportunity to participate in collaborative problem tasks. There will be a focus on students developing a broader range of thinking and reasoning processes as they work with the mathematical content. Students will be encouraged to critically evaluate ideas, reflect on their learning and freely express personal viewpoints.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP453 Middle Years: Transdisciplinary Science and Technology
This unit aims to develop the skills and understandings required to integrate science and technology KLA's across the curriculum and create meaningful learning experiences that cater for the diverse needs of middle years students.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP455 Business Education Curriculum Studies 2 (ICT)
This unit is the second in a suite of three complementary units which can be undertaken in ICT Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior ICT Syllabus to understand mandatory aspects of the syllabus and will prepare students for their professional role as a teacher of secondary ICT education subjects.
Prerequisite(s): CLP402 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2008 SEM-2

MDP456 Mathematics Education Curriculum Studies 1
This unit provides an introduction to the learning and teaching of mathematics and to begin the development of your understanding of learning environments conducive to the effective learning of mathematics.
Prerequisite(s): 48 cps of appropriate discipline studies
Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP457 Mathematics Education Curriculum Studies 2
This unit is to further develop your understanding of the school mathematics curriculum and to extend your knowledge and understanding of inclusive learner-focused approaches to mathematics curriculum development.
Prerequisite(s): MDP456 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-2

MDP458 Mathematics Education curriculum Studies 3
This unit extends your knowledge and understanding of mathematics curriculum with an emphasis on catering for the range of students engaged in secondary education, inclusive practices and diagnosis of mathematical learning difficulties.
Prerequisite(s): Nil Corequisite(s): MDP457 Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP459 Science Education Curriculum Studies 1
This unit is to provide you with opportunities to examine core educational theory in order to understand the basis for teaching and learning in science and thus establishing and managing effective learning environments.
Prerequisite(s): 48 cps of appropriate discipline studies
Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP460 Science Education Curriculum Studies 2
This unit is to provide an opportunity for you to develop as a learner-centred teacher in the context of senior schooling, who can plan to meet the needs of individual students in a varied, stimulating and safe environment.
Prerequisite(s): MDP459 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP461 Science Education Curriculum Studies 3
This unit is to provide opportunities for you to understand the theoretical underpinnings of an extensive range of strategies and resources used in the teaching of science.
Prerequisite(s): Nil Corequisite(s): MDP460 Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP462 Biology Curriculum Studies 2
This unit provides an opportunity to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment.
Prerequisite(s): MDP459 Corequisite(s): Nil Credit points: 12 Teaching period: 2008 SEM-1 and 2008 SEM-2

MDP463 Chemistry Curriculum Studies 2
This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students also develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDP459  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MDP464 Earth Science Curriculum Studies 2

This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDP459  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MDP465 Physics Curriculum Studies 2

This unit encourages students to develop as a learner-centred teacher who can plan to meet the needs of individual students in a varied, stimulating and safe environment. Students develop a critically reflective orientation to their teaching experiences.

**Prerequisite(s):** MDP459  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MDP529 Assessment and Intervention in Mathematics

This unit enables students to learn where, when and how mathematical concepts occur within the mathematics curriculum at a level of the student's interest and across the broader curriculum. The student develops ideas, skills and strategies to assess these mathematical concepts and develops suitable classroom learning activities.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet

### MEN101 Research Methodology

Basic research methodology is an essential component for any student expected to undertake research. This unit provides the basic knowledge of research, qualitative and quantitative research methodologies and a range of techniques to enable students to become critical users of existing knowledge as well as research findings.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MEN102 Advanced Mechanical Engineering Studies

Students undertaking Masters level study of engineering require advanced research skills relating to the evaluation, organisation and presentation of information, data analysis, experimental design and instrumentation. This unit provides some of the advanced skills fundamental to mechanical engineering research that are required to undertake the research project and specialised studies units in the ME80 course.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MEN103 Mechanical Engineering Specialised Unit 1

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this they require the skills to retrieve information and experience in self directed learning, independent analysis and investigation. This unit allows students to pursue, in greater depth, a particular area of mechanical, medical or infomechatronics engineering through self-directed learning, thereby developing their independent learning capabilities and expanding their knowledge of a chosen area of study.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MEN104 Mechanical Engineering Specialised Unit 2

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this they require the skills to retrieve information and experience in self directed learning, independent analysis and investigation. This unit allows students to pursue, in greater depth, a particular area of mechanical, medical or infomechatronics engineering through self-directed learning, thereby developing their independent learning capabilities and expanding their knowledge of a chosen area of study.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### MEN105 Mechanical Engineering Specialised Unit 3

Professional engineers in the workplace are often required to undertake independent enquiry in very specific areas of mechanical engineering science. To do this they require the skills to retrieve information and experience in self directed learning, independent analysis and investigation. This unit will allow you to pursue in greater depth a particular area of mechanical, medical or infomechatronics engineering through self-directed learning, thereby developing your independent learning capabilities and expanding your knowledge of a chosen area of study.

**Credit points:** 12  
**Campus:** Gardens Point

### MEN170 Systems Modelling and Simulation

This unit introduces the following: the concept of a model and model building; techniques for the solution of the models; examples of analytical models such as inventory models, Markov chains, queuing models; simulation as a decision making tool; modelling for simulation and practical exercises in simulation using computer simulation software in the areas of manufacturing systems and maintenance.

**Credit points:** 12  
**Contact hours:** 32 hours over a two week block  
**Campus:** Gardens Point  
**Teaching period:** 2008 STP6

### MEN171 Advanced Manufacturing Technologies

This unit includes the following: an overview of manufacturing systems engineering and applications of advanced computer aided drafting and design; implementation of CAD/CAM systems using three-dimensional modelling techniques; classification systems for part family formation for production and tooling; benefits of computer aided process planning; introduction and installation of flexible manufacturing cells and systems including robotics, automated guiding vehicles, online computer aided inspection, automation integration, support
MEN172 Cost Analysis and Asset Management
This unit provides students with the following skills: analyse cost and understand different costing methods and their implications; evaluate engineering decisions under different cost allocation methods; appreciate the role of variance analysis as a management tool; estimate cash flows; make lease versus buy decisions and budgeting; life-cycle costing and economic asset management and life cycle costing.
Credit points: 12  Contact hours: 32 over a two week period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER
Campus: Gardens Point

MEN175 Energy and Environmental Management
This unit considers energy resources and usage in the context of global energy issues. Greenhouse, climate change and ozone layer depletion are covered because they are effecting energy are covered because they are effecting Engineering Practice. Specific topics include the following: properties and testing methods of solid, liquid and gaseous fuels; combustion calculations; flue gas analysis; energy tariffs and audits; major applications of energy management, for example buildings, process plant, compressed air systems, vehicle fleets; economic evaluation of energy projects; introduction and management of energy saving programs. Environmental aspects will be considered for each topic. Assessment includes an energy audit of a commercial/industrial site.
Credit points: 12  Contact hours: 32 over a two week period: 2008 SUMMER
Campus: Gardens Point

MEN177 Total Quality Management
This unit provides students with an understanding of the underlying philosophy and practice of TQM including learning some basic tools for quality control. Topics covered include the following: quality as a competitive strategy; the evolution of quality management; elements of quality management; continual improvements; customer measurements; managing change; total employee participation; bench marking, statistical process control, theory of constraints, Taguchi methods.
Credit points: 12  Contact hours: 32 over a two week period: 2008 6TP2

MEN190-1 Project
In this unit a substantial piece of work relevant to the course is carried out by each student on an individual basis. A report is examined and marked by an academic supervisor in consultation with an industrial supervisor.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SUMMER

MEN190-2 Project
In this unit a substantial piece of work relevant to the course is carried out by each student on an individual basis. A report is examined and marked by an academic supervisor in consultation with an industrial supervisor.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SUMMER

MEN241 Reliability and Maintenance Management
This unit addresses the following: overview of maintenance responsibilities and tasks; organisation for maintenance; creating a maintenance plan with reliability; availability; maintainability; repair pools; spare parts inventory management; cost downtime; downtime reduction; planning shutdowns/turnarounds; performance measures; documentation and document control; configuration management; computer based maintenance management systems; total productive maintenance (TPM); condition monitoring; strategic asset management.
Credit points: 12  Contact hours: 32 over a two week period: 2008 5TP3

MEN272 Enterprise Resources Planning
The aim of this unit is to provide students with an understanding of the underlying philosophy and practice of resources planning. Topics covered include the following: functions and inter-relationships between the major components - demand analysis, production and operations planning and control, resource planning and control - manufacturing requirements planning (MRPII); supply chain management; total enterprise approach to business management. These principles are extended to the processing and service industries such as mining, oil, chemical and food processing, and to enterprises such as hospitals and airports.
Credit points: 12  Contact hours: 32 over a two week period: 2008 5TP8

MEN273 Engineering Knowledge Management
This unit provides students with the skills in knowledge identification, knowledge development, knowledge preservation, knowledge representation and knowledge distribution in the corporate sector and the techniques associated with the design and development of knowledge management systems for engineering organisations. The unit also provides students with an understanding of the design, development and organisation of knowledge with an emphasis on the building blocks of knowledge management.
Credit points: 12  Contact hours: 32 over a two week period: 2008 SUMMER

MEN280 Engineering Project Management
The aim of this unit is to provide students with an understanding of the underlying philosophy and practice of project management. Topics covered include the following: the definition of project management; organisational structures; project planning; feasibility analysis; project organisation; contracts; project control; risk analysis; project termination.
Credit points: 12  Contact hours: 32 over a two week period: 2008 6TP3

MGB200 Leading Organisations
Prerequisite(s): BSB115 or CTB115  Credit points: 12  Contact hours: 3  Teaching period: 2008 SEM-2 and
MGB201 Contemporary Employment Relations
The unit provides an overview of the complex legal, social and political arrangements underpinning organisational life in Australia. The employment relationship and its legal context is central to organisational operations. The unit addresses the identification and analysis of the rights and responsibilities of people at the workplace, and the institutions governing the conduct of the different parties involved in the employment relationship. Current issues are examined from the perspective of the interactions between individual workers, unions, employers, employer groups, tribunals, government and international bodies to enable students to understand the broader context of the legal obligations of the parties.
Prerequisite(s): MGB211 or CTB211 or MGB222 or CTB232 or MGB200  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

MGB203 Government-Management Interface
This unit provides students with an essential understanding of the complex and dynamic relationship between government and management. The unit focuses upon the political context of management, government policies towards business, their processes of development and operational impacts, and the politics of governance and management of the public/private sector interface. The unit also examines the capacity of various business sectors to influence the political system of Australia in an international context.
Prerequisite(s): BSB114 or CTB114 or 96 cp of approved study  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

MGB207 Human Resource Issues and Strategy
This unit identifies a range of contemporary human resource management issues facing Australian organisations. These are explored and analysed through examining a range of alternative human resource programs, policies, and strategies. This unit introduces a range of human resource functions and provides a foundation for the development of professional practice in HRM in later units. This unit provides students with the knowledge and skills to address contemporary human resource issues in order to contribute to organisational efficiency and effectiveness.
Prerequisite(s): BSB115 or CTB115  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: CTB207

MGB209 Occupational Health and Safety Management
This unit provides an overview of issues related to occupational health and safety. The unit acquaints students with the scope of the occupational health and safety problem in Australia as well as the legislative environment. It also introduces them to analytical skills needed to manage these problems. The unit takes a strategic and multi-disciplinary approach to the management of occupational health and safety.
Prerequisite(s): BSB114 or CTB114  Credit points: 12

MGB210 Managing Operations
This unit extends general management approaches to the production operations subsystems of service and manufacturing organisations. The unit focuses on the deployment of productive resources in order to maximise the added value of services and products. Issues of quality and efficiency are considered analytically in terms of broader strategies and constraints. It considers the opportunities that new technology brings to operational strategies in both manufacturing and service. Project management principles are considered in relation to resource deployment and continuous improvement.
Prerequisite(s): BSB115 or CTB115  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: CTB234

MGB211 Organisational Behaviour
The unit examines theory and research related to individual and collective human behaviour in organisations. A multi-level approach that focuses on individuals, groups, the organisation as an entity, and the relationship among these elements is adopted. In addition, the unit addresses major themes in the field and provide students with an opportunity to use the body of knowledge to diagnose, interpret and understand issues within these themes. This unit helps students to understand the role that people, as individuals and in groups, play in organisations and to apply this knowledge in creating more effective and efficient work places.
Prerequisite(s): MGB220 or AMB201 or CTB201  Corequisite(s): MGB220 or AMB201 or CTB201  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: CTB211

MGB212 Sustainability in a Changing Environment
This unit provides participants with an opportunity to investigate selected and critical issues in the relationship between business activity and the imperative of creating sustainable futures. The unit draws on interdisciplinary sources to encourage the development of a systemic view that incorporates global, corporate, and personal levels of analysis. The unit prepares participants to make a significant contribution to the sustainable development of organisations and society. The unit will be of value to business and non-business students seeking careers in private, public, and not-for-profit sectors.
Prerequisite(s): BSB115 or CTB115  Credit points: 12  Teaching period: 2008 SEM-2

MGB216 Managing Technological Innovation in Global Business
This unit explores the links between research, technical processes, product innovation and management structure, policy and practice. It examines the impact of changing technology, such as information technology, on organisations. This unit examines the internal operation of organisations with particular respect to the management of human, material and financial resources, technological innovations, and social change. Other issues addressed in
this unit include the nature of product and process innovation, technology transfer, intellectual property and licensing, government policy, and the role of research and development.

**Prerequisite(s):** MGB222 or CTB232  **Credit points:** 12
**Contact hours:** 3 per week  **Campus:** Gardens Point  **Incompatible with:** IBB223

**MGB218 Managing Business Growth**
Entrepreneurial management is becoming a critical skill for rapidly growing small and medium sized enterprises (SMEs) and for small business units (SBUs) in large corporations. This unit examines and compares the venture growth processes for entrepreneurial managers. This unit focuses on the post start up issues for the entrepreneurial venture. It considers the rapid growth issues in the identification, analysis and learning processes for SMEs.

**Prerequisite(s):** 96 credit points of approved study  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MGB220 Management Research Methods**
This unit is designed to provide students with a conceptual map for conducting research and introduce them to basic qualitative and quantitative analysis techniques. The lecture and tutorial program proceeds through the general research process, establishing a research question, determining a theoretical framework, collecting the data, conducting data analysis, drawing conclusions, and reporting research outcomes. An emphasis is placed on both quantitative and qualitative research methodologies.

**Prerequisite(s):** BSB115 or CTB115  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** AMB201, CTB201, COB334, COB203, EFB105

**MGB221 Performance and Reward**
This unit examines the key human resource management functions of job analysis, performance management and compensation management from a strategic perspective with a view to optimising individual and organisational performance. A substantial level of analytical and professional competence is expected in this unit, which is a key to the integration of HR processes and organisational requirements.

**Prerequisite(s):** MGB207 or CTB207  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** MGB328

**MGB222 Managing Organisations**
This unit develops an understanding of the organisation in both its internal and external environment and the demands of managing the organisation's resources and performance. It raises contemporary issues in management and their implications for competitive advantage, focusing on various organisational sub-systems including HR, technology, structure and design. This unit provides a foundation of knowledge for the management and HRM majors. In this unit there is a focus on strategy, leadership and internationalisation.

**Prerequisite(s):** BSB115 or CTB115  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** CTB232

**MGB223 Entrepreneurship and Innovation**
This unit deals with the development of a business plan for the potential launch of student business ideas. The unit is designed for those individuals interested in creating a new venture or working in industries as employees of venture owners or those that serve this sector. Students build a comprehensive plan of their business concept.

**Prerequisite(s):** BSB115 or CTB115  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** CTB223

**MGB224 Australian Industrial Relations**
This unit traces the evolution of current institutions and practices in Australian industrial relations, situating them within the broader context of social and industrial relationships. Issues are viewed from many perspectives, seeing them as a product of a range of political, social, economic, legal and industrial experiences. The unit aims to provide an insight into the complexities of Australian industrial relations.

**Prerequisite(s):** BSB115 or CTB115 or 96 cp of approved study  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Incompatible with:** MGB204, MGB329, MGB332

**MGB304 Human Resource Information Management**
This unit focuses on human resource information management. Students are coached to understand the storage, retrieval, and utilisation of data in HR operations. A substantial level of analytical and professional competence is expected in this subject, which is a key to the utilisation of HR information to aid decision-making. In addition, students are introduced to the basic operation of a computerised human resource information system (HRIS) to appreciate the role of technology in HR information management.

**Prerequisite(s):** MGB221  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**MGB305 Human Resource Management Strategy and Policy**
This is the capstone of the HRM extended major. The primary objective is to integrate HR concepts and issues into the wider business and environmental context; a range of historical features, professional and ethical matters are considered; policy development and evaluation is examined; an experiential approach based in cases and/or simulations is adopted.

**Prerequisite(s):** MGB320 and MGB331  **Credit points:** 12  **Incompatible with:** HRB136

**MGB306 Independent Study**
This unit enables students to demonstrate an ability to direct their own learning, a key competence for professionals who must keep themselves up-to-date in their area of expertise. Either individually or in small groups, students undertake one or several learning activities with the approval of a supervisor. Appropriate activities include literature review, research (mini-thesis), project, practicum (work placement),
MGB309 Strategic Management

In this unit fundamental elements of strategy, which can be used in the decision making process, are placed in a framework that is developed within the particular context of Australia's economic development position. The emphasis is upon process and content issues that affect the strategic performance and positioning of the organisation. This involves creating an understanding of the universal building blocks of competitive advantage at the business, corporate and international levels. By understanding the nature and determinants of competitive and strategic advantages, students should enhance their professional competencies to be able to take a more strategic and critical perspective.

Prerequisite(s): MGB211 or CTB211 or MGB222 or CTB232 or MGB200

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: MIB314, CTB309

MGB312 Negotiation Skills

This subject concentrates on the theory and practice of negotiation as applied to the basic concepts of integrative and distributive bargaining domestically and internationally. The process and phases of negotiation are practiced by students, culminating in their ability to negotiate an extensive and complicated collective bargaining agreement.

Prerequisite(s): MGB211 or CTB211  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

MGB314 Organisational Consulting and Change

Managing change is a fundamental skill required by prospective managers and professionals. This unit provides opportunities for students to develop a theory in practice orientation to consulting to individuals, groups, and organisations. Hence content theory and process theory is addressed. The focus of this unit is on human process issues and change. The unit examines a range of human process interventions designed to improve organisational effectiveness. Attention is also given to change strategies that are socially and culturally inclusive. Graduates of this unit should be able to be productive members of organisational change teams.

Prerequisite(s): MGB211 or CTB211 or MGB222 or CTB232 or MGB200  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point and Carseldine  Teaching period: 2008 SEM-2

MGB315 Personal and Professional Development

This unit develops personal, interpersonal and professional competencies (in both cognitive and affective domains) necessary for a human resource or management professional. It develops personal awareness and understanding, interpersonal competencies, and professional skills. This unit also examines influence processes, negotiation and conflict resolution and stress management. It emphasises the design of processes to achieve outcomes and skills of reflective practice. The focus in on developing skills to enhance individual competence and leadership skills to enhance effectiveness.

Prerequisite(s): MGB211 or CTB211 or MGB222 or CTB232 or MGB200  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point and Carseldine  Teaching period: 2008 SEM-1

MGB320 Recruitment and Selection

This unit draws on conceptual foundations established in MGB221. The unit examines the environment of recruitment and selection, with a particular emphasis on legal issues. Recruitment strategies are evaluated and considered from the perspective of the organisation and the individual. Personnel selection techniques are examined in relation to technical issues of reliability, validity, fairness, and applicability. Practical skills in designing personnel selection techniques are developed, including the opportunity to develop skills in the interview process.

Prerequisite(s): MGB221  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

MGB325 Advanced Practice in Training and Development

This unit focuses on designing, implementing and evaluating systems for individual and organisational learning as part of a strategic approach to human resource development. The unit relies heavily on empirical and theoretical works to inform practice. Throughout the semester students examine in depth the key cognitive and motivational theories relating to training. They also examine advanced training methodologies and career development, focus on transfer of training and investigate how to evaluate the effectiveness of training programs using research designs. The unit also highlights the important characteristics of a competent trainer.

Prerequisite(s): MGB331  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

MGB331 Learning and Development in Organisations

This unit introduces students to the theory and competencies required of a beginning or an occasional trainer. This includes adult learning theory applicable to training in a vocational setting, research and competency development. Topics include the following: national training framework; instructional models and theories of adult learning; training needs analysis; training objectives; training evaluation; training models; training aids/audiovisuals; and training administration. This unit has a strong focus on mastery of theoretical foundations as well as on learning by doing.

Prerequisite(s): MGB211 or CTB211 or MGB222 or CTB232 or MGB200  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: MGB217

MGB334 Managing in a Changing Environment

This unit provides students with conceptual and analytic tools required for managing changing environments. The emphasis is on developing an understanding of the management competencies required for managing flexibility, innovation and change. The unit moves beyond a focus on 'dot.com companies' to examine how a range of
organisations both small and large are engaging issues associated with increasing emphasis on technology. **Prerequisite(s):** BSB212 or MGB222 or CTB232 or 96 credit points of approved study  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point and Carseldine  **Teaching period:** 2008 SEM-1  **Incompatible with:** BSB312, CTB334

**MGB335 Project Management**
This unit develops knowledge in the areas relating to effective management of projects (as distinct processes). This knowledge is gained by focusing on the central issues of project selection, modelling, planning, control and evaluation. Case study projects are used throughout the unit and are mainly from the services industry sector. The unit seeks to develop the technical skills (tools and techniques) as well as the people (behavioural) skills needed for effective management of projects. **Prerequisite(s):** MGB211 or CTB211 or MGB222 or CTB232 or MGB200  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** CTB335

**MGB338 Human Resource Management Workplace Learning**
This unit entails a structured program of workplace learning in which students are exposed to a variety of organisational issues. For the duration of their experience, students work on a specific HRM project of relevance to the host organisation. Building upon knowledge acquired in the HRX major, students' exposure to HRM in an actual organisation. This unit seeks to develop the technical skills (tools and techniques) as well as the people (behavioural) skills needed for effective management of projects. **Prerequisite(s):** Enrolment in HRX major, Minimum GPA of 4  **Credit points:** 12  **Contact hours:** 120 hours in workplace and 12 at university  **Campus:** Gardens Point

**MGB350 Managing Government-Business Relations**
**Credit points:** 12

**MGB360 Risk Management**
**Credit points:** 12

**MGN402 Government-Business Relations**
In this unit students develop an understanding of the relationships between business and government in an historical, contemporary and comparative context. The course will focus on the following: the interaction between politics and the economy, particularly in Australia; the historical development of the relationships between the private and public sectors; and the impact that policies and actions each have on the operations of the other. **Prerequisite(s):** postgraduate enrolment only  **Credit points:** 12  **Contact hours:** Flexible Mode  **Campus:** Gardens Point

**MGN409 Introduction to Management**
This unit examines the following: the functions and roles of managers; concepts and principles and their practical applications; the key management functions; areas of planning, organising, staffing, directing and controlling; production/operations management and the management of quality; entrepreneurship and business planning; and important problems, opportunities and trends facing managers in Australia analysed from the viewpoint of relevant academic disciplines. **Prerequisite(s):** postgraduate enrolment only  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2  **Incompatible with:** GSN401

**MGN410 Labour-Management Relations**
This unit looks at the following: employee relations; employee and union action; the role of governments and industrial tribunals; alternative methods and pressures to change traditional Australian systems; the Australian system of labour management relations; systems of regulation in the employment area; negotiating skills; and the resources required for mobilising change in this area.  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MGN412 People in Organisations**
This subject aims to provide a broad understanding of organisational behaviour as a base for future study and practice of management. It moves from a micro-perspective on individual behaviour through the interface between the individual and the organisation to overall characteristics of organisations which shape the behaviour of their members. The aim is to provide an understanding of why employees feel and act the way they do in organisations and considers methods for enhancing positive employee attitudes and behaviours and organisational effectiveness. The emphasis is on understanding basic assumptions and models, major theoretical issues, methods of measurement and practical implications.  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** GSN401; GSN419

**MGN421 Strategic HRM**
HRM is concerned with the relationship between people management strategies and organisational goals and objectives. This capstone unit provides HRM students with the opportunity to apply their learning to this relationship in a systematic way. It requires them to produce high quality HRM advice that provides direction for practicing line managers consistent with organisational goals and objectives. The learning strategies in the unit challenge students to identify contemporary issues of organisation and management and to interpret these using the paradigms of HRM. **Prerequisite(s):** Postgraduate enrolment only; MGN427 or u/g specialisation in HRM advisable  **Credit points:** 12  **Contact hours:** Flexible Mode  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MGN423 Contemporary Strategic Analysis**
This unit focuses upon developing managers' understanding of the strategy concept and placing the fundamental elements of strategy in a framework for use in the decision making process. Taking the perspective that many managers make decisions that can have strategic implications, the emphasis is upon studying those issues
that can affect the strategic positioning of the organisation. This involves creating an understanding of the universal building blocks of competitive advantage at the business, corporate and international levels. By understanding the nature and determinants of competitive and comparative advantages, students will be well positioned to take a more strategic perspective in their organisational activities.

**Prerequisite(s):** U/G specialisation in Business or Commerce or equivalent entry to BS93  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** BSN407, MGN504

**MGN426 International Trends in Public Management**
This unit examines major international trends and issues in public management, especially the impact of the new public management, focused upon corporatisation and privatisation, regionalisation and devolution of decision making. It discusses the evolution of institutional structures of administration and policy making under the pressure of global economic and political forces. The effect of international trends is examined with reference to the changing nature of public management within particular national contexts.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point

**MGN427 Human Resource Management**
This unit is designed to introduce students to the importance of human resource management for the effectiveness of organisations operating in complex and/or global environments and the quality of work life. The subject examines human resource management from multiple consistency, functional and strategic perspectives. It utilises an open systems model to introduce some of the key processes of personnel management, which are treated at a theoretical and skill level. The subject fosters knowledge, analytical and operational competencies.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**MGN428 Creating New Businesses**
This unit is designed for the in depth analysis of starting small businesses and for the development of a comprehensive business plan. This unit emphasises hands on leadership for business owners in innovative firms, such as high tech industries. In this new environment, extensive human resource skills are required to start up and operate small businesses.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**MGN429 Staffing Policies and Strategies**
This unit examines and critiques staffing policies and processes from both strategic and technical perspectives with a focus on improving organisational staffing to enhancing organisational effectiveness and capability. Measurement issues associated with recruitment and personnel selection techniques are examined and the application of selection techniques to a range of contexts and occupational groups is explored.

**Prerequisite(s):** postgraduate enrolment only  
**Corequisite(s):** MGN427  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**MGN430 Strategic Performance Management**
This unit provides the competencies expected of advanced HR practitioners and managers. It provides a theoretical basis for the performance management function of HRM as well as addressing the issue of employee rewards and compensations. It identifies from a strategic management perspective the uses of and the relations between various HRM functions for optimising individual and organisational performance.

**Prerequisite(s):** postgraduate enrolment only  
**Corequisite(s):** MGN427  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**MGN431 Strategic Human Resource Development**
Strategic HRD provides a theoretical and practical framework for planning and implementing HRD within today's organisations. It examines the critical theoretical approaches underpinning learning and skills development and relates these in a practical way to the HRD challenges faced by organisations. This unit also provides exposure to contemporary international HRD ideas and practices to develop an understanding of the contribution of HRD to the broader economic context.

**Prerequisite(s):** postgraduate enrolment only  
**Corequisite(s):** MGN427  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**MGN433 Managing High-Performance Organisations**
Managing High-Performance Organisations is designed to provide a bridge between HRM-discipline specific and strategic/general management perspectives. The unit is therefore a centrepiece of the postgraduate HRM program. The unit serves the vitally important role of locating HRM in to its broader organisational and general management context. It also aims to develop advanced level business knowledge and skill and develop conceptual frameworks for integration and high level impact of HRM with business success and performance.

**Prerequisite(s):** MGN409 or approval from HRM co-ordinator  
**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**MGN501 Readings in Management**
This unit examines in detail advanced theory and issues from a chosen discipline area. The object is to have students explore the breadth of their discipline in contrast to the more narrow focus of their thesis work. Students select
advanced readings in their field and submit a comprehensive criticism and review. This work is carried out in consultation with the supervisor.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**MGN509 HRM Project 1**  
This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of human resource management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN510 HRM Project 2**  
This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of human resource management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** flexible mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN506 Consulting and Change Management**  
This unit considers the origins, nature and effect of social change on individuals, organisations and communities. Theories and models of change are used to explore planned and unplanned changes currently occurring, particularly as these relate to possible futures. Emphasis is on the strategies and skills required to initiate and participate in effective change management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**MGN507 Contemporary Issues in Management**  
In this unit students examine in detail advanced theory and issues from their chosen field of study. Such study may include any of the following: an analysis of the historical developments in the field; interconnections with other fields; current significant issues and practices (including ethics); and advanced methodology and/or statistics relevant to the field. The content may vary according to which issues are significant at the time, the special expertise of the staff (including visiting scholars and distinguished business leaders) and the specific needs from thesis proposals.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** flexible mode  
**Campus:** Gardens Point

**MGN508 HRM Cases**  
This unit further develops students’ capacity to analyse, evaluate and solve business problems and encourages them to develop the facility for independent thought and critical analysis. Students are required to examine a human resources function in an organisation, and report observations. They are also required to relate these observations to relevant theory and recent research and develop an integrated view of human resources, including its functions, processes, stakeholders, and environment. Finally, the unit focuses on any conceptual or theoretical research or practical material relevant to the cases.

**Prerequisite(s):** Postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**MGN505 Consulting and Change Management**  
This unit considers the origins, nature and effect of social change on individuals, organisations and communities. Theories and models of change are used to explore planned and unplanned changes currently occurring, particularly as these relate to possible futures. Emphasis is on the strategies and skills required to initiate and participate in effective change management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN506 Contemporary Issues in HRM**  
The main objectives of this unit are to identify, analyse and report on contemporary issues in HRM and to research information relevant to identified topics. The content may vary according to which issues are current or predictably important in the future. Special expertise of staff, visiting scholars or distinguished HRM professionals may be utilised.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**MGN507 Contemporary Issues in Management**  
In this unit students examine in detail advanced theory and issues from their chosen field of study. Such study may include any of the following: an analysis of the historical developments in the field; interconnections with other fields; current significant issues and practices (including ethics); and advanced methodology and/or statistics relevant to the field. The content may vary according to which issues are significant at the time, the special expertise of the staff (including visiting scholars and distinguished business leaders) and the specific needs from thesis proposals.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** flexible mode  
**Campus:** Gardens Point

**MGN508 HRM Cases**  
This unit further develops students’ capacity to analyse, evaluate and solve business problems and encourages them to develop the facility for independent thought and critical analysis. Students are required to examine a human resources function in an organisation, and report observations. They are also required to relate these observations to relevant theory and recent research and develop an integrated view of human resources, including its functions, processes, stakeholders, and environment. Finally, the unit focuses on any conceptual or theoretical research or practical material relevant to the cases.

**Prerequisite(s):** Postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**MGN509 HRM Project 1**  
This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of human resource management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN510 HRM Project 2**  
This unit provides the opportunity for students to undertake an approved project to develop and enhance learning associated with the coursework elements of human resource management.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** flexible mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN516 Policy Analysis**  
In this unit students develop skills in the analysis of policy content and policy process. This unit provides a basic methodological framework for the systematic development of those skills with two related objectives: to examine a range of models of public policy processes with a view to determining their validity and utility; and to develop a capacity for policy analysis, utilising a variety of conceptual frameworks. Topics include policy design, formation and implementation, and theories of policy.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point

**MGN517 Program Evaluation**  
This unit provides an understanding of program management and evaluation in the public sector with an emphasis on skills development, theory and methodology of evaluation research, qualitative and quantitative tools and the application of these to a public sector program.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**MGN524 Special Topic in Management 1**  
In this unit students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined and the academic member(s) involved (including short-term visiting academics).

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** Flexible Mode  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MGN528 Special Topic in Human Resource Management 1**  
In this unit students undertake specialised study on a topic area relevant to particular needs. It permits an in-depth examination of an issue of importance. The content varies depending on the issue examined, and the academic member(s) involved (including short-term visiting
MBB004 Infomechatronics Project
This unit aims to develop the student's capability to apply mechanical engineering and management principles in solving a real world industry problem. Students are required to practice theoretical, analytical and experimental techniques taught in previous years of the course and also demonstrate practical skills in synthesis/design and manufacture as well as project management. Topics include problem definition and solution, literature review, and industry research.

**Credit points:** 12  
**Contact hours:** flexible  
**Campus:** Gardens Point

MBB212 Mechanics 2
Topics covered include the following: kinematic and dynamic analysis of planar linkages and mechanisms; link synthesis and its application to the design of mechanisms; determination of static and dynamic forces and torques due to inertia and other effects in mechanisms; kinematic analysis of gears and gear systems; further analysis of stress and strain; torsion of prismatic sections and thin-walled sections; axisymmetric problems; energy methods; thin plates.

**Prerequisite(s):** MMB211 or MMB313, MMB112  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

MBB232 Materials Technology
Topics covered in this unit include: industrial shaping of metals; solidification theory and phase transformations; revision of iron-carbon phase diagrams; steels and heat treatments; casting - alloys, defects; and microscopic examination of materials; fundamentals of ferrous metallurgy; non-ferrous metallurgy; welding and joining technologies; non destructive testing; engineering with ceramics; processing and properties of polymers; composite materials; optical materials; fracture mechanics, fracture, aigue and creep.

**Prerequisite(s):** MMB131  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

MBB252 Thermofluids
Topics covered in this unit include the following: operation and testing of engines; first and second laws of Thermodynamics; properties of working fluids including equations and tables; heat engine cycles, compressors and expanders; multi stage compression; laboratory and interests; fluid properties, forces on stationary and moving fluids; flow behaviour, pressure drops, Reynolds number; theory and applications of energy equations; power transmissions in fluids; laboratory.

**Prerequisite(s):** MAB132, CEB109  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

MBB300 Project 2T
The aim of this unit is to provide students with the capability to understand mechanical engineering principles and apply them to the formulation and solution of specific engineering problems in design and development tasks. The unit involves the application of mechanical engineering principles and the communication of ideas orally and in the presentation of a formal report.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

MBB302 Project 2T
The aim of this unit is to provide students with the capability to understand mechanical engineering principles and apply them to formulate and solve specific engineering problems in design and development tasks. The task may involve investigation in applied research projects or industrial based projects. Students acquire the ability to communicate solutions orally and in a formal report form.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

MBB311 Mechanics 3
This unit covers two separate Mechanical Engineering disciplines: the study of vibration in machines and structures and the study of automatic plant control. Students gain an understanding of transient behaviour of mechanical systems. In many instances it is the transient loads in machines or departures from the design operating condition in process plants that causes mechanical failure or unacceptable departure from product specifications. In the vibration module, the unit covers single degree of freedom systems, damped vibration, multi-degree of freedom systems with steady and transient vibrations.

**Prerequisite(s):** MAB133, MMB112  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

MBB312 Mechanical Measurement
This unit deals with measurement techniques and instrumentation systems required in mechanical engineering applications. It covers the basic knowledge of static and dynamic mechanical measurements with an emphasis on the measurement of position/velocity/acceleration, stress/strain, force/torque/power, vibration/noise and pressure/flow/temperature. It also covers hands-on experience in measurement techniques and instrumentation.

**Prerequisite(s):** MAB105, EEB112, EEB220  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

MBB313 Mechanical Engineering Studies
The objectives of this unit are to provide students with revision in basic knowledge in mathematics and mechanics of solids to enable smooth articulation into the advanced standing programs and provide sufficient background in the application of knowledge for the use in the latter part of the course and project work. The subject matter covered includes second order ordinary differential equations; eigenvalue extraction; moments of inertia; Fourier series; basic statics; analysis of beams; torsion; two-dimensional stress analysis; thin-walled pressure vessels; yield criteria.

**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1
UNIT SYNOSES

MBB351 Thermodynamics
Topics covered in this unit include: review of basics: steam cycles and plant; nozzles, impulse and reaction turbines; gas turbines - basic and refined cycles; mixtures and Dalton's Law; refrigeration cycles and plant; chemistry of combustion and water treatment; conduction, convection and radiation; condensation and boiling; forced and free convection; analysis of heat exchangers.
Prerequisite(s): MMB252, MMB352 Credit points: 12
Contact hours: 6 per week Campus: Gardens Point
Teaching period: 2008 SEM-2

MBB352 Fluid Mechanics
This unit provides students with an understanding of unsteady flow in closed conduits, performance of rotodynamic machinery used in fluid systems (including pumps, water turbines and hydraulic transmissions), incompressible flow around solid bodies (including potential flow and boundary layer flow), design and interpretation of hydraulic and pneumatic circuits (including graphical symbols, fluid logic, components of fluid systems) and basic compressible flow (including normal shock waves).
Prerequisite(s): MAB132, MMB211, MMB252 Credit points: 12
Contact hours: 6 per week Campus: Gardens Point
Teaching period: 2008 SEM-1

MBB353 Tribology
This unit builds upon the design units in the courses. Topics covered include: introduction to tribology and fundamentals of dry contact mechanics; specification and measurement of surface topography; review of the fundamentals of friction and the modes of wear; regimes of lubrication (hydrodynamic, hydrostatic, boundary and elastohydrodynamic); properties of lubricants, including additives; bearing design (fluid film journal and thrust pad bearings); lubrication of gears, rolling element bearings, human and prosthetic joints; lubricant degradation and reclamation; rapidly biodegradable products; advanced condition monitoring techniques.
Prerequisite(s): MMB381, MMB382 Credit points: 12
Contact hours: 4 hours Campus: Gardens Point
Teaching period: 2008 SEM-2

MBB362 Biofluids
This unit includes consideration of the following: the particular properties of the fluids that might be encountered in biomedical engineering and an introduction to techniques to analyse their behaviour; the properties of the fluids and their relation to biological function; the relevance of fluid properties to the design of associated equipment; continuity of flow; viscosity and its measurement; Newton's law of viscosity; non-Newtonian fluids; boundary layer theory; dimensional similarity; rheology of biofluids; haemodynamics; pumps and valves for biofluid systems; associated equipment; biotribology and the function of biological joints.
Prerequisite(s): MMB252 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point

MBB361 Manufacturing Processes
This unit provides an understanding of the basic principles, theories, phenomena and application aspects of the various conventional and non-traditional manufacturing processes commonly used in modern manufacturing. The unit is split into two modules Module 1: Machining and Metrology and Module 2: Casting, Forming and Joining Processes. These modules cover basic metrology and the related basic theories, application, and economics essential to mechanical and manufacturing engineers.
Prerequisite(s): MAB132, MMB211 Credit points: 12
Contact hours: 5 per week Campus: Gardens Point

MBB374 Design for Manufacturing 1
Topics covered in this unit include the following: introduction to design for manufacturing in the context of concurrent engineering; principles of solid modelling, its importance in a concurrent engineering environment; the idea of rapid prototyping and tooling; introduction to the basic skills in the use of CAD/CAM software for rapid product development; basic understanding of creating manufacturing specification.
Credit points: 12 Contact hours: 5 per week Campus: Gardens Point

MBB375 Industrial Engineering
This unit develops skills and understanding in the concepts and techniques of engineering facilities planning and location, productivity and its measurement and improvement, and job design with due consideration to ergonomics. Topics include introduction to industrial engineering, engineering process, facilities planning and design, material handling, and productivity and performance methods.
Credit points: 12 Campus: Gardens Point
Teaching period: 2008 SEM-1

MBB376 Professional Practice (Engineering Management)
The unit introduces students to the basic concepts and theory in engineering management. Students develop an understanding of real life problems and applications of engineering management. Students also develop people skills, management skills, and oral and written communication skills.
Credit points: 12 Campus: Gardens Point
Teaching period: 2008 SEM-2

MBB381 Design of Mechanical Components and Machines
This design unit covers the design of mechanical components and machines: materials selection in design; fasteners and power screws; riveted, welded and bonded joints; shafts and associated parts; gearing (spur, helical, bevel, worm, cyclo-, and harmonic); clutches, couplings and brakes; cams, springs, frames and housings; design for manufacturability; selection of lubricants and methods of lubrication; machine components interrelationship (case studies). Students also learn solid modelling software and use it in a design project to develop a solid model of a transmission.
Prerequisite(s): MMB281 Credit points: 12
Contact hours: 6 per week Campus: Gardens Point

MBB382 Design and Maintenance
This design unit covers the following: design of special equipment (conveyors, cranes, feeding and orienting
Prerequisite(s): MMB281

Health and Safety; intellectual property; quality assurance. systems; styling and ergonomics in design; Occupational Health and Safety; intellectual property; quality assurance.

MBB391 Biomechanical Engineering Systems

Topics covered in this unit include an appreciation of the mechanics of the tissues of the joints (micro mechanics or tissue mechanics) and the function of the body during normal activities (macro-mechanics or biomechanics). This unit is designed to develop an understanding of the complex properties of the individual tissues and practical competencies in the evaluation of human function and performance from a biomechanical perspective. Biomedical engineers require the ability to analyse the mechanics of the human body for applications such as prosthetic design (both artificial limbs and replacement joints), design of assistive devices for people with disabilities, sporting performance, ergonomic tasks, and other health related areas.

Prerequisite(s): CEB109, MMB292, MMB211

Contact hours: 12

Campus: Gardens Point

Credit points: 12

MBB392 Bioengineering Design 2

This unit is structured to further develop the engineering design skills of students, with particular emphasis on the role of computer-aided design (CAD), materials selection, manufacturing processes, assembly and maintenance in the design and management of bio-engineering devices. A knowledge of manufacturing processes, fundamentals of engineering design, engineering drawing and engineering materials is assumed. Contents includes design for manufacture, materials selection, computer-aided design and solid modelling, rapid prototyping techniques, user interface, and case studies of selected medical devices.

Prerequisite(s): MMB281, MMB371

Contact hours: 5 per week

Campus: Gardens Point

Credit points: 12

MBB400 Industry Project

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Mech) course (like any engineering course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in manufacturing engineering and marketing and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

Credit points: 48

Contact hours: 40

Campus: Gardens Point

Teaching period: 2008 SEM-1 and 2008 SEM-2

MBB401-1 Project

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Mech) course (like any engineering course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in manufacturing engineering and marketing and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

Credit points: 24

Campus: Gardens Point

Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

MBB402-1 Engineering Management Project

Students undertake a project applying mechanical engineering and management principles to solve a real world industry problem.

Credit points: 24

Campus: Gardens Point

Teaching period: 2008 SEM-1 and 2008 SEM-2

MBB402-2 Engineering Management Project

Students undertake a project applying mechanical engineering and management principles to solve a real world industry problem.

Credit points: 24

Campus: Gardens Point

Teaching period: 2008 SEM-1 and 2008 SEM-2

MBB409-1 Project

Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Medical) course (like any BE course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in medical engineering and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a
final thesis.

**Credit points:** 24  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**MMB409-2 Project**
Professional engineers are required to manage projects and this unit provides a vehicle for students to undertake a structured, individual project program under supervision. The BE(Medical) course (like any BE course) requires that students are capable of using their initiative to manage a major project to satisfactory completion. The project is to be a substantial piece of work relevant to the course and carried out by each student on an individual basis. It is to investigate and analyse a real technological or managerial problem in medical engineering and apply solutions that take into consideration both technological and economic factors. Students are required to present seminars and a final thesis.

**Credit points:** 24  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**MMB411 Advanced Automatic Control**
Continuous automatic control of mechanical systems is fundamental to the automation of manufacturing and process plant. This subject exposes the student to the practical issues of design of automatic control systems using the 'classical control' theory taught in Mechanics 3.

**Prerequisite(s):** MAB133, MMB311  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point

**MMB412 Finite Element Analysis**
Design engineers must be exposed to modern techniques of analysis for design evaluation and optimisation. The finite element method provides a means of achieving this goal. Topics covered in this unit include: introduction to the finite element method; introduction to simple models of material and structural behaviours; the Galerkin finite element approximation technique for model differential equations; finite element and their characteristics; interpolation and shape functions and their relevance in FEA. All students are introduced to a commercial software package and carry out analysis of engineering problems using the software.

**Prerequisite(s):** MMB311  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MMB413 Industrial Noise and Vibrations**
The unit is concerned with the study of methods of noise and vibration measurement and control in industry. Students are required to be capable of modelling and predicting noise and vibration in an industrial environment. Topics covered include: instrumentation and measurement of noise and vibration; behaviour and analysis of sound waves; measurement of noise and noise criteria; attenuation from barriers and screens; behaviour of sound in room; sound transmission through partition and noise reduction through partition; vibration generation and transmission; measuring vibration and analysis; instrumentation; vibration condition monitoring; balancing of rotating machines.

**Prerequisite(s):** MMB311  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MMB430 Advanced Materials**
Topics covered include: materials selection for weight critical applications; aluminium and its alloys, principles of age hardening, aluminium-lithium alloys, issues in processing aluminium; light alloys - magnesium, titanium alloy groups and uses; fibre composite materials - Young's modulus, strength and fracture, fibre composites, design with composites; introduction to thin film deposition - physical and chemical vapour deposition, sol-gel deposition, thin film analysis and microstructure; ceramic structures and processing - classification of structures, structure-property relationships, defects in ceramics, ceramic processing; special topics in the field.

**Prerequisite(s):** MMB232  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MMB450 Air Conditioning**
Topics covered in this unit include: detailed analysis of psychrometric and refrigeration cycles; calculation of building cooling loads; air conditioning and refrigeration plant machinery and heat exchangers; ductwork design; application in systems operation.

**Prerequisite(s):** MMB252  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**MMB451 Energy Management**
Topics covered in this unit include: the systematic process by which energy use is monitored and analysed; individual treatment of electricity, fuels and their properties, compressed air, buildings, cycle requirements, pinch technology, energy recovery equipment; financial analysis of proposals. Environmental aspects will be considered for each topic.

**Prerequisite(s):** MMB252  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**MMB461 Process System Design**
**Credit points:** 12  **Teaching period:** 2008 SEM-1

**MMB470 Engineering Asset Management and Maintenance**
Engineers are often involved in the management of substantial amounts of plant, machinery and similar assets. In today's capital intensive industries, maintenance is a major cost element, and the efficiency of operations is heavily influenced by equipment reliability and maintenance effectiveness. The engineer needs to know how to organise maintenance and how to create and implement effective asset management and maintenance plans. This unit includes the following: engineering asset management policy statement; overhaul and replacement of engineering assets; organisation for maintenance; maintenance planning and control; failure mode and effect analysis; reliability, maintainability and availability analysis; risk assessment; spare parts inventory management.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1
MBM471 Computer Integrated Manufacturing
Topics covered in this unit include: introduction of the concepts of strategic planning for computer integrated manufacturing; concepts of advanced manufacturing technologies and the various components of computer integrated manufacturing system; the importance of concurrent engineering in the context of CIM; introduction to the principles of modelling and simulation techniques as a design and evaluation tool for manufacturing systems. 
Prerequisite(s): MMB371 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

MBM472 Design For Manufacturing 2
Credit points: 12 Teaching period: 2008 SEM-1

MBM476 Operations Management
This unit develops students’ ability in applying quantitative techniques in solving different types of industrial operations problems. Topics include: product mix, assignment and transportation models; location and layout decisions, job design analysis; project planning; quality control and the use of simulation in operations management.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

MBM478 Mechatronics System Design
This unit provides students with an understanding of design and interpretation of hydraulic and pneumatic circuits (including graphical symbols, fluid logic and components of fluid systems) and a basic understanding of PLC programming for control of manufacturing systems with the emphasis on hands on practice of developing a control system for a given process. Topics include the following: mechatronics systems design; power supply; introduction to fluid power and graphical symbols; hydraulic and pneumatic systems; simple circuits; fluid logic; logic symbols and circuits; hydraulic components, fluids, system design, circuits; pressure compensated flow control.
Prerequisite(s): MMB371, MMB252 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

MBM492 Health Legislation and the Medical Environment
This unit provides an introduction to the types of legislative control in the health and medical industries. It highlights the minimum requirements in relation to the role of medical engineers and their contribution to successful and ethical relationships with medical, health legislative and regulatory affairs professionals. Content includes: national and international legislative controlling bodies and codes (EC, TGA, FDA); structure and sources of legal system (State and Federal); Good Manufacturing Practice (GMP); ISO9000 Quality Systems; Total Quality Management; ethics committees and clearance; industry case studies.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

MBM494 Rehabilitation Equipment Design and Evaluation
Bioengineers require an understanding of the criteria associated with the needs and design of specific items of equipment for rehabilitation and the functionally impaired.
This unit introduces students to many different areas of rehabilitation and the design of equipment to assist people with disabilities. There are formal lectures and tutorials, some of which will be presented by practitioners from the different areas of rehabilitation.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

MBM496 Modelling and Simulation for Medical Engineers
Computational modelling and simulation are widely used in engineering in general, and in specific areas of medical engineering. Modelling can describe as the process of determining analytical representations of physical elements for the purpose of investigating kinematic, kinetic and structural properties and performance. Content includes: introduction to MATLAB programming techniques; process of model creation; methods of analysis of determinate and indeterminate systems; simulation techniques and examples of advanced applications.
Prerequisite(s): MMB391 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

NQB201 Planet Earth
Earth Science impacts every aspect of modern life. Hence, the concepts of Earth Science are fundamental not only to the field of Geology, but also to Environmental Science, natural resource management, civil engineering and society at large. Planet Earth provides an introduction to Earth Science, including earth materials, geologic history, geological process at the Earth's surface, and the complex interplay between the lithosphere, atmosphere, hydrosphere and biosphere through geologic time. Thus, Planet Earth is a foundation unit for further studies in Geology and Environmental Science and also serves as a broad introduction to the world we live on.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: NRB230

NQB202 History of Life on Earth
This unit provides an introduction to the history and development of life on Earth with an emphasis on fundamental biological and ecological principles as they have operated through geological time. The unit provides the student with an understanding of the processes of evolution, extinction and the changing environmental conditions through Earth's history. The unit provides the student with practical experience in fossil identification, classification and morphological interpretation. It provides the student with a "deep-time" perspective of climate and other environmental changes affecting modern ecosystems.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: NRB240

NRB100 Environmental Science
The unit is an introduction to environmental science, which is essentially a professional application of knowledge from many disciplines to the understanding of the environment. The student will develop an understanding of the planet and the different natural systems that exist within it, and their
interactive nature. The different components of natural systems are considered from the aspects of location, climate, and physical setting. Human influence on these settings is examined, and impacts considered. Specific problems are discussed in detail to develop critical thinking via a problem-solving approach to environmental issues.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point and Carseldine

**NRB301 Earth Surface Systems**
This unit includes the investigation of earth surface processes, landforms and land-forming agents, soil formation and soil dynamics. This includes the history of earth surface features and the formation of Australian landscapes. The nature and scale of landforms and soil landscapes is emphasised along with the soil- and land-forming processes that operate through time within earth surface systems. Analytical field and laboratory techniques concerning land- and soil-forming processes and the scientific investigation and management of natural resources are a central component. Field trips and assignments focus on applying geomorphological and pedological principles to problem-solving in the environment.

**Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB311 Population Ecology**
This unit provides a broad theoretical background in the major concepts of plant and animal ecology. Topics include ecology of individuals, dynamics of single populations, demography, interactions within and between populations, determinants of population size, behavioural ecology, and basic approaches to estimating population parameters.

**Prerequisite(s):** LSB118 or NRB100  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB331 Sedimentary Geology**
The majority of the Earth's surface is covered by sediment or by sedimentary rocks. Sediments are derived from the weathering and erosion of pre-existing rocks, and their transport and deposition are governed by important surficial processes, such as stream flow, wind, and surf. Hence, sedimentary rocks record information about ancient surficial processes, thereby allowing us to interpret Earth history. Additionally, sedimentary rocks host numerous important natural resources, including groundwater, hydrocarbons (petroleum, natural gas, coal), and base metals. Hence, sedimentary geology forms the basis for: 1) the interpretation of ancient sedimentary environments, which is crucial for natural resource exploration; and 2) the understanding of Earth history and global change, which is necessary for environmental management. Therefore, Sedimentary Geology is a fundamental part of any geological or environmental science education.

**Corequisite(s):** NRB333 (Suggested unit: NRB230)  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB333 Mineralogy**
This unit includes crystallography, symmetry, Miller indices, axial ratios, crystal forms, classes, systems, lattices, unit cell, crystal chemistry, crystal growth and defects, atomic structure, periodic table, ions and packing, Pauling's rules, bonding and mineral properties, substitution, solid solution, polymorphism, pseudomorphism. It also includes the classification of minerals; systematic treatment of the physical, chemical and structural properties of minerals; techniques of mineral analysis; theory and identification of minerals in transmitted light; optical properties and identification of minerals in thin section, and grain mounts.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB370 Invertebrate Biology**
Anyone pursuing a career as an ecologist, environmental biologist, or teacher needs to be familiar with invertebrates, including their diversity and how they function. Because approximately 90% of all invertebrates are arthropods, this unit focuses on the arthropods, which includes all the animals with jointed exoskeletons (the insects, prawns and crabs, spiders, millipedes and more). The aim is to provide you with an overview of arthropod diversity, structure and function, as a basis for exploring the role of arthropods in natural and human-modified systems.

**Prerequisite(s):** NRB270  **Credit points:** 12  **Contact hours:** 6 per week (weeks 1-9)  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB371 Plant Biology**
This unit will provide an understanding and appreciation of plants by taking an evolutionary approach to the study of major plant groups - algae to flowering plants. Content includes life cycles, morphology, adaptations for survival in varied environments, economic and ecological aspects of various groups as they relate to humans, phylogeny and diversity of major groups. This unit will encourage careful observation, curiosity and thinking about plants. The practicals will provide an opportunity to observe and understand form, function and diversity and will emphasise development of skills in plant identification, with special emphasis on Australian flora.

**Credit points:** 12  **Contact hours:** 4 per week (2 hours lecture per week, 3 hours practical per week)  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**NRB410 Genetics and Evolution**
This unit provides a basic understanding of the mechanisms of inheritance using Mendelian Genetics as a foundation. These principles are extended to develop a clear understanding of the mechanisms and processes that drive evolution in natural populations. Topics include the potential basis of heredity, Mendelian and non-Mendelian inheritance patterns, genotype/environment interactions, quantitative traits, evolutionary theory, adaptation and natural selection, sexual selection and the evolution of life histories.

**Prerequisite(s):** LSB118  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**NRB412 Experimental Design**
This unit emphasises practical considerations of field and laboratory-based experimentation in ecology and environmental science, and provides experience in problem assessment, definition, formulation of testable hypotheses...
NRB434 Structural Geology
This unit considers the deformation of geological materials. It includes description and analysis of joints, faults, folds, boudinage, cleavage, foliations, and lineations. Also examined are principles of deformation: normal and shear stress, brittle fracture, strain and rigid motion, brittle and plastic deformation, measurement of strain, and Mohr diagrams. Practical work includes a series of assignments of increasing complexity, culminating with a course project that includes geological map interpretation and cross section construction. Field work consists of four trips designed for the construction of geological maps and analysis of deformed rocks. This includes a week-long trip and preparation of geologic reports.
Prerequisite(s): NRB331  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

NRB436 Introduction to Igneous and Metamorphic Petrology
This unit includes an introduction to the description, classification and origin of igneous and metamorphic rocks and practical development of lithologic and petrographic abilities to identify mineral assemblages, classify rocks, and interpret textures. Field and theoretical constraints on the petrogenesis of rocks are discussed in lecture. Field study is an essential component of the unit.
Prerequisite(s): NRB333  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: NRB432

NRB437 Stratigraphy and Depositional Environments
The sedimentary rocks that cover most the Earth's surface are arranged into layers that record the history of the Earth's surface for large periods of geological time. The study of sedimentary rock layers (strata) is called stratigraphy. The types of sedimentary rocks that are preserved in particular strata are direct indications of the conditions that prevailed during their formation. The study of stratigraphy in a region can help unravel the geological history of the area along with the history of any subsequent deformation. Hence, stratigraphy is a fundamental part of the education of any earth scientist, and especially of those who wish to be involved in fossil fuel exploration (ie coal and petroleum) and water resource management.
Prerequisite(s): NRB331  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

NRB440 Environmental Chemistry
This unit includes the following: design and quality control of physicochemical monitoring programs; fundamentals of data analysis; methodologies of monitoring (variables, instruments, sampling strategies including location and frequency of observation, analytical protocols); introduction to biogeochemical cycles; the relationships between molecular structures and environmental properties; hazardous substances in the environment; chemistry of natural water bodies, including solutes and equilibria; chemistry of water pollutants; indicators of water quality; the atmosphere - structure and energy balance; air pollutants.
Prerequisite(s): 72 credit points of Science and/or Health units including PCB140 or PCB142  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2
NRB510 Population Genetics
This unit is an extension of NRB410 Genetics and Evolution. Topics include the genetic structure of populations and processes of evolutionary change; natural selection, inbreeding and adaptation, species and speciation theory; ecological genetics; the genetics of behaviour.
Prerequisite(s): NRB410 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

NRB511 Population Management
This unit develops the theoretical treatment of populations as a unit of study and integrates the content of previous ecology units into approaches for the management of biological populations. The unit focuses on those population/resource interactions that are most relevant to pest control, but the unit is also of fundamental importance to harvesting and conservation biology. In the second half of the unit, specific pest management approaches are dealt with, focusing on the concept of sustainability and Integrate Pest Management.
Prerequisite(s): NRB311, NRB412 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

NRB534 Geophysics
This unit considers the remote measurements of rock properties and relates them to geological problems and tectonic regimes. The physics of various measurements of these rock properties, the acquisition of data, and the interpretation of these various data are all addressed. A significant part of the semester covers seismic reflection data. Also covered are seismic refraction, gravity, magnetics, seismology, electromagnetics, radiometrics, ground penetrating radar, and heat flow.
Prerequisite(s): NRB230, NRB434 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

NRB535 Geology of Fossil Fuels and Minerals
This unit emphasises the crucial role of coal and mineral resources in society. Utilising theoretical and practical examples it enables students to understand the specific environments in which economic Earth resources are generated, the strategies used in exploration for these resources, and the importance of technological policies. This unit explores contemporary environmental management issues: the science behind them, linkages between them, their cultural settings and sustainable solutions.
Prerequisite(s): NRB331, NRB434 Corequisite(s): NRB536 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

NRB536 Petrology and Geochemistry
Through lecture, discussion and problem solving exercises, this unit introduces the application of geochemistry, phase equilibria, and thermodynamics to demonstrate the origin and evolution of igneous and metamorphic rocks. Problem-solving exercises synthesise field, petrographic and geochemical data to develop quantitative petrogenetic models and enhance critical thinking and written communication skills. Field study is an important component of this unit.
Prerequisite(s): NRB436 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: NRB530

NRB571 Marine Biology
This unit gives a general overview of marine ecosystems and their importance to humankind. The unit aims to stimulate thought, and to generate ideas, by reviewing the range of approaches taken to manage, and conserve, marine resources. Emphasis is given to Australian coastal marine systems: their importance, care, and abuse. The unit involves a compulsory 3 day field trip to a local coastal ecosystem.
Credit points: 12 Contact hours: 4 per week Campus: Carseldine Teaching period: 2008 SEM-1 Incompatible with: NRB672

NRB572 Terrestrial Ecosystems
This unit examines the key physical and biological processes that influence the range of terrestrial ecosystems. It examines the geological, climatic and historical processes that have shaped the evolution and ecology of Australia's terrestrial ecosystems and the ecological properties of natural and human modified systems. Content includes the significant phases in the evolution of the Australian flora and fauna, principal components and adaptations of the modern Australian flora and fauna, theories pertinent to explanations of biogeographical distributions, soil formation, structure and biology, physical processes in terrestrial systems, structure and characteristics of terrestrial ecosystems, and terrestrial ecosystem case studies.
Prerequisite(s): NRB311 or NRB371 Credit points: 12 Contact hours: 4 per week Campus: Carseldine Teaching period: 2008 SEM-1 Incompatible with: NRB570

NRB600 Sustainable Environmental Management
Sustainable environmental management requires a multidisciplinary approach to decision-making. This approach must be founded on scientific knowledge about the environment, but to be effective, the science must also be integrated with social, economic, political and technological policies. This unit explores contemporary environmental management issues: the science behind them, linkages between them, their cultural settings and sustainable solutions.
Prerequisite(s): 48 credit points of second level units Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: HUB685

NRB601 Field Mapping and Monitoring of Natural Resources
A field-based unit covering the theory and practice of methods to determine, measure and map important natural resource parameters and characteristics. These methods are essential for the study of terrestrial natural resource phenomena. Content includes interpretation and measurement through aerial photography and other remote sensing techniques, using GPS, GIS, principles and techniques in field survey procedure, assessment and...
NRB635 Plate Tectonics and Advanced Structural Geology
This unit considers geological observations in the context of a unifying theory. It examines lithospheric plates, plate geometries, Earth morphology, relative and absolute plate movements, stresses of plate interactions, types of plate boundaries, and orogenesis. It also examines the development of the most important geologic theory of the 20th century.  
Prerequisite(s): NRB434, NRB331, NRB432 & NRB534  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

NRB636 Petroleum Geology and Basin Analysis
This unit provides students with a fundamental working knowledge of sedimentary strata at regional and basin-wide scales, and enables them to solve problems in the exploration for hydrocarbons and other stratabound resources. It deals with the tectonic settings, styles of subsidence, patterns of sedimentary fill, thermal and diagenetic histories and resource distribution within sedimentary basins. Integrated lithostratigraphic, biostratigraphic, sequence stratigraphic, geophysical, and geochemical data sets are introduced as fundamental aspects of basin analysis. The unit develops an understanding of exploration and production aspects of the oil and gas industries.  
Prerequisite(s): NRB331, NRB437, NRB534  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2  
Incompatible with: NRB531

NRB672 Marine and Freshwater Ecosystems
This unit examines the structure and function of marine and freshwater ecosystems. Aquatic ecosystems cover the majority of the planet and their management is important in terms of maintaining water quality for human utilisation, harvesting resources, and for species conservation. The unit emphasises the physical and ecological properties that are common to all aquatic systems, but also identifies those properties that are unique to particular systems. The unit covers aquatic ecosystems, their different forms and extent; the chemical and physical properties of aquatic environments; circulation and transport processes; the structure and characteristics of the different aquatic environments; and human impact and management in marine and freshwater systems.  
Prerequisite(s): NRB311  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2  
Incompatible with: NRB571

NRB720-1 Project
This unit is a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)
NRB720-2 Project
This unit is a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB720-3 Project
This unit is a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB720-4 Project
This unit is a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB720-5 Project
This unit is a substantial project in the appropriate area of science undertaken in conjunction with a supervisor and through interaction with lecturing and technical staff of the School of Natural Resource Sciences. The unit provides the opportunity for students to identify and solve scientific problems logically and creatively. Students are required to relate the project research to published work in the field of study. Each project is assessed on the basis of an extensive written report and a formal seminar or scientific poster. (60 credit points achieved at completion of NRB720-1, NRB720-2, NRB720-3, NRB720-4 and NRB720-5.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB730-1 Research Methods and Strategies
This is a two semester unit with its main focus to develop the research planning, abilities and skills of the student. The major assessable components are a literature review, seminars, informal presentations and discussions on subjects relevant to the research topic, and advanced skills workshops and exercises. (24 credit points achieved at completion of NRB730-1 and NRB730-2.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB730-2 Research Methods and Strategies
This is a two semester unit with its main focus to develop the research planning, abilities and skills of the student. The major assessable components are a literature review, seminars, informal presentations and discussions on subjects relevant to the research topic, and advanced skills workshops and exercises. (24 credit points achieved at completion of NRB730-1 and NRB730-2.)
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRB735 Advanced Studies in Resource Sciences
This unit provides an in-depth examination of a topic or synthesis of a subject through lectures, tutorials, discussions, independent study, practicals and/or field excursion. This unit has general structure, which can be developed to the specific requirements of each section of the school. An important aim is to develop inquiring and analytical thought at an advanced level. The unit may be conducted in the first part of semester 1, or could be conducted over two semesters.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN100 Readings in Natural Resource Sciences 1
This unit includes a review of literature in an area of direct relevance to the research project. The review should be designed in conjunction with the supervisor and demonstrate a broad appreciation of the literature, a critical appraisal of research to date, and the relevance of the research project within the framework of current understanding. Reviews should normally be approximately 5000 words.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN101 Readings in Natural Resource Sciences 2
This is a companion unit to NRN100 that allows students to (a) prepare a review of a second area relevant to the research project or (b) consider a wider subject area in greater depth. If option (b) is chosen, a single review can qualify as total assessment for both NRN100 and NRN101. In this case, the review should be approximately 10,000 words and be a critical analysis of a substantial research area.
Prerequisite(s): NRN100  Corequisite(s): NRN100
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN102 Confirmation of Candidature Seminar
UNIT SYNOPSES

This unit includes a public seminar plus an extensive discussion period designed to provide positive feedback from staff and students on the proposed research project. The presentation should be designed in conjunction with the supervisor and include background to the project area, specific objectives of the proposed project, methodology to be followed and possible outcomes. The seminar should normally be presented after the project outline has been developed and before any significant amount of research has been undertaken.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN103 Final Seminar
This unit includes a public seminar plus an extensive discussion period designed to provide positive feedback from staff and students on the progress of the research project. The presentation should be designed in conjunction with the supervisor and include project objectives, progress to date, preliminary data and problems for discussion. The seminar should normally be presented within 12 months (full-time) or 24 months (part-time) of commencement of the postgraduate program.

Prerequisite(s): NRN102  Corequisite(s): NRN102
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN104 Advanced Topics in Natural Resource Sciences 1
Students develop an advanced understanding of a topic in the natural resource sciences that is highly relevant to the general area of their proposed research project. The structure and content is variable and can be tailored to the specific requirement of each project and the background of the student. A formal outline of the unit including objectives, content and assessment relevant to the individual course of study will be developed by the supervisor and approved by the Head of School. Content may include active participation in tutorials, workshops, laboratory/field techniques and components of advanced level undergraduate units. If components of advanced level undergraduate units are included, they should not exceed 70% of the total assessment.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NRN105 Advanced Topics in Natural Resource Sciences 2
Material presented in this unit must be distinct from that covered in NRN104. Students develop an advanced understanding of a topic in the natural resource sciences relevant to the area of their proposed research project. A formal outline of the unit outlining objectives, content and assessment relevant to the individual course of study will be developed by the supervisor and approved by the Head of School. Content may include active participation in tutorials, workshops and laboratory/field techniques and components of advanced level undergraduate units. If components of advanced level undergraduate units are included, they should not exceed 70% of the total assessment.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

NSB113 Diversity and Health: Introduction to Indigenous and Multicultural Perspectives
This unit provides students with foundational understandings in culture and its implications for health care. It includes four modules - culture, self and diversity; understanding and valuing Aboriginal and Torres Strait Islander cultures; Aboriginal and Torres Strait Islander health and wellness; and migrant health issues.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

NSB117 Nursing and the Health Care System
The provision of contemporary nursing practice and care in a rapidly changing health care environment is an ongoing challenge. The professional journey requires nurses to think critically, reflect on their practice, reason, defend a position, and engage in continuous learning. This unit commences you on your professional journey by introducing fundamental concepts related to contemporary professional nursing and to the Australian health care system; and by introducing the knowledge and skills underpinning critical thinking, critical reflection, reasoning, argumentation, and lifelong learning. These concepts and skills will be expanded as you progress through the nursing degree.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

NSB118 Foundations of Nursing Practice
Contemporary nursing practice demands practitioners that demonstrate professional clinical decision-making and the ability to utilise information and communication technologies to ensure high quality health care outcomes. Professional communication and high order thinking processes are vital to ensure high quality data collection and management. This unit introduces the fundamental principles, knowledge and skills that need to be considered when applying decision-making processes in nursing practice and using information and communication technologies.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

NSB122 Clinical Practice 1
This is the first in a series of five clinical practice units that provide you with the opportunity to experience the practice of nursing in real world settings and to develop the knowledge, attitudes and skills required for safe practice as a beginning level registered nurse. This unit focuses on providing basic care to patients in a health care setting. In providing this care you will be drawing upon the knowledge gained from your studies in nursing, life science and behavioural science, and the expertise of registered nurses in the clinical setting. The skills that you develop in this unit represent the building blocks of nursing care.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

NSB212 Clinical Practice 2
This unit focuses on developing skills related to problem solving, decision making and care delivery for clients who are experiencing a range of health problems, including mental health problems. You will build on the general knowledge and skills that you have gained during your first
year units through the application of concepts and principles to particular client problems, and the implementation of more complex nursing interventions. In working alongside registered nurses in various health care facilities you will develop a greater appreciation for the role of registered nurses in the provision of health care.

**Prerequisite(s):** NSB122  Credit points: 12  Contact hours: 1  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB222 Clinical Practice 3**
Following on from Clinical practice 2 this unit continues to develop your skills in identifying health problems, developing plans of nursing care, delivering care, evaluating client outcomes and understanding of the role of the nurse in the health care team. This unit continues to focus on developing your skills related to problem solving, decision-making and care delivery for clients who are experiencing a range of health problems, including mental health problems. During your clinical practicum you will continue to work alongside registered nurses in a variety of clinical setting.

**Prerequisite(s):** NSB212  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB223 Mental Health Nursing**
Nurses in all health care settings will encounter people with mental health problems and disorders. Mental health care is no longer provided solely by a specialised psychiatric service, but in a variety of general health and community settings. Mental disorders represent nearly 30 per cent of the non-fatal disease burden and are the leading cause of disability in Australia. As physical health improves, mental disorders are assuming an even greater impact on people's well-being. Mental health nursing skills will enable you to help a wide variety of clients to improve their quality of life and to achieve their highest possible level of functioning.

**Prerequisite(s):** NSB118  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB224 Research Approaches in Nursing**
This unit provides an introduction and overview of research in nursing. It covers the major philosophical traditions in research, the purpose of research, the relationship between research and nursing practice, the notion of nursing knowledge, the process of research, ethical issues related to research and strategies for critiquing research reports. Particular emphasis will be placed on selected methodologies that are used to research nursing practice, and quantitative and qualitative data collection and data analysis.

**Credit points:** 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB225 Health, Human Development and Ageing**
This unit focuses on developing basic knowledge and understanding of the nurse's role in promoting health and wellbeing for people of all ages. Concepts addressed in this unit include, but are not limited to, definitions and models of health and wellbeing; major stages of human growth and development; physical and psychosocial theories of human development, theories of ageing and the concept of health throughout life. As you progress further in the course, the understandings that you develop in this unit will be extended through other theoretical studies and experiences in clinical practice.

**Credit points:** 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB321 Professional Nursing Development**
This unit is designed to reinforce the link between personal development and clinical practice and highlights the changing workplace and ongoing professional development. As such, the unit focuses on clarifying the relevance of professional concepts such as management, teamwork, scope of practice, changing division of labour, codes of conduct and professional organisations by directly relating these to clinical experience and life long learning. Similarly, the unit considers and interprets clinical practice and the clinical environment by exploring ways in which knowledge is used to inform practice.

**Prerequisite(s):** NSB501  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB322 Clinical Practice 4**
Nurses play a pivotal role in the provision of contemporary health care in a variety of settings. This clinical unit offers you the opportunity to experience the diversity of nursing practice while providing care for patients with multiple health problems. The clinical practicum associated with this unit utilises a variety of clinical environments providing both hospital and community based care. Students also have the option of undertaking a clinical placement in a rural, remote, interstate, overseas or indigenous community area. In addition, advanced clinical concepts that build on the basic skills you have developed earlier in the program will be addressed.

**Prerequisite(s):** NSB222  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUM-1

**NSB324 Health Alterations and Nursing 1**
This unit will build on the concepts introduced in Foundations of Nursing Practice and enhance your knowledge and skills in clinical decision making processes. It will introduce nursing care and management of people across the lifespan in a range of environments and use a focus of acute and ambulatory health alterations based around selected body systems. As you progress through the course, the knowledge and skills you develop in this unit will be built upon and extended to meet the requirements of professional practice and consumer needs for quality health care.

**Prerequisite(s):** NSB118  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

**NSB333 Clinical Practice 5**
This is the final unit in the series of clinical units that provide you with the opportunity to consolidate the knowledge, skills and attributes required for safe, competent practice as a beginning level nurse. This unit builds on previous clinical
units and draws upon concepts, principles and theories that have been developed through your studies in nursing and related sciences. Particular emphasis will be placed on the co-ordination of care for a group of clients, critical thinking and reflection on practice, and confidence, efficiency and effectiveness in the implementation of nursing care.  

**Prerequisite(s):** NSB322  
**Credit points:** 24  
**Contact hours:** Includes 8 weeks off-campus clinical experience  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB412 Clinical Elective Exchange/Study Abroad**

This unit aims to enhance final year students’ ability to practice competently in a range of clinical situations. Students are provided with the opportunity to consolidate and extend their knowledge and skills by undertaking a series of self-directed, problem-based learning packages. The areas covered in the unit are advanced life support, respiratory therapies, health promotion, pain management, epidural analgesia and advanced wound care management. A variety of teaching-learning strategies will be used which include case scenarios, small group unilabs, computer-based and other related activities.  

**Prerequisite(s):** Clinical Practice, 1, 2 and 3  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB421 Independent Study**

This unit provides students the opportunity to independently explore a body of literature and/or research relevant to an area of interest in nursing. The unit enables students to extend their knowledge and understanding of a topic that is not specifically addressed elsewhere in the course. The emphasis, in this unit, is on the development of independent research, study and analytical skills. These skills are demonstrated first, in an assimilation of a range of materials into a clearly formulated written argument and second, in an oral presentation and discussion of the study material.  

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB423 Health Alterations and Nursing 2**

This unit will build on the concepts introduced in Foundations of Nursing Practice and enhance your knowledge and skills in clinical decision making processes. It will introduce nursing care and management of people across the lifespan in a range of environments and use a focus of acute and chronic health alterations based around selected body systems. As you progress through the course, the knowledge and skills you develop in this unit will be built upon and extended to meet the requirements of professional practice and consumer needs for quality health care.  

**Prerequisite(s):** NSB118  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB500 Health Alterations and High Dependency Nursing**

This unit is the final of three units expounding on nursing management of acute and chronic health alterations that impact on people across the lifespan in a variety of settings. The focus of this unit is the utilisation of a clinical decision making process to provide comprehensive and holistic nursing management for people experiencing complex and/or life threatening health alterations, particularly in high acuity and palliation settings. Implementation of the clinical decision making process will be at a more advanced level to meet the multifaceted needs of these patients with complex needs in preparation for practice as a beginning level registered nurse.  

**Prerequisite(s):** NSB324, NSB423  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB502 Introduction To Evidence Based Practice**

The critical application of evidence to practice is essential to the role of any professional. For health professionals seeking to provide care that will deliver the best possible outcomes for patients it is especially important to be aware of, and able to assess the evidence to guide clinical decisions. This unit builds on your knowledge of research and research methods to provide a practical understanding of evidence-based processes that can be applied to your practice as a health professional.  

**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB503 Promoting Health in the Community**

Nurses have an important role in promoting the health and wellbeing of individuals, families and communities. An understanding of contemporary health and wellbeing issues for individuals and groups in our society with specific focus on health and chronic illness in the community. This unit builds on knowledge and understanding of the nurse’s role in promoting health and wellbeing for people of all ages, families and communities.  

**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSB600 Introduction to Nursing Children and Childbearing Families**

This unit provides an overview of the theoretical concepts and clinical application principles for practice in the areas in providing nursing and midwifery care for children and childbearing families. The emphasis is upon the childbearing process and the developmental stages of childhood and family dynamics. This is viewed as a normal process of growth and development, which will be affected by social, economic, legal and cultural factors. The focus will be on the promotion and maintenance of health.  

**Prerequisite(s):** All 1st and 2nd year NS40 units  
**Credit points:** 12  
**Teaching period:** 3 per week  
**Campus:** External  

**NSB602 Pain Management and Nursing Practice**

Making decisions about patient's pain and its management is a key component of nursing practice across a wide variety of patient groups and clinical settings. This unit examines the concept of pain and explores aspects of the nurse's role in relation to pain relief. It builds on introductory concepts that have been addressed earlier in the program through more detailed exploration of, and reflection upon selected concepts.  

**Prerequisite(s):** NSB500  
**Credit points:** 12
NSB603 Introduction to Cardiothoracic Nursing
Cardiovascular disorders are commonly encountered by nurses practicing a variety of clinical settings. This unit provides an overview of cardiothoracic nursing and encompasses theoretical concepts specific to this specialty as well as related clinical skills. It builds on introductory concepts that have been addressed earlier in the program through more detailed exploration of and reflection upon selected concepts.

Prerequisite(s): NSB500  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

NSB604 Nursing Practice and the Older Person
Nurses have an important role in promoting, maintaining and restoring the health of older people and their families across a diversity of settings. Students will be encouraged to examine the independent role of the nurse and their role as a member of multidisciplinary teams. The unit focuses on the role of the nurse in assessing and identifying problems relevant to older people and making clinical decisions about care practices and outcomes. This unit will extend the understandings that you have developed in other theoretical studies and experiences in clinical practice.

Prerequisite(s): NSB225  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

NSB605 Nursing and Technology
In this unit you will gain insight into the relationship between nursing, technology and the modern health care experience with a focus on ensuring the person is always a central focus of your care. The unit is designed to further develop your knowledge and ability to provide holistic care. Students develop a professional and informed understanding of technology and approaches to care that encourage holistic practice, compassion, nursing assessment, advocacy, and quality health care provision.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove

NSB606 Palliative Care Nursing
The health and support needs of individuals who are dying are diverse and often change over time. To respond effectively to these needs, nurses require knowledge and skills to provide a palliative approach to care. In this unit, you will extend your knowledge of the needs of individuals diagnosed with various life-limiting illnesses. The unit will enable you to develop further your understanding of the core components of a palliative approach to care for these individuals. This unit will extend the understandings that you have developed in other theoretical studies and experiences in clinical practice.

Credit points: 12  
Teaching period: 2008 SEM-1 and 2008 SEM-2

NSB700 Introduction To Midwifery Practice
This unit is an introduction to the scope of midwifery practice and an exploration of the role of midwifery practice and woman-centred care. You will be introduced to cultural considerations relating to child bearing families, and legal and ethical issues relating to midwifery practice. The role of midwifery codes of practice, ethics, and professional midwifery competencies across a range of midwifery practice settings is also examined.

Credit points: 12  
Teaching period: 2008 SEM-1

NSN002 Key Issues in Child and Youth Health Nursing
This unit addresses contemporary issues in child and youth health, to provide the basis for further study in this field. A Primary Health Care framework will be used to consider issues that impact on the health of children and young people. In addition key policy frameworks will provide direction for study in the unit. The unit will consider the impact of social determinants on child, youth and family health and examine current strategies to address such impacts. Students will have the opportunity to examine local programs and strategies aimed at improving health outcomes.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove and External  
Teaching period: 2008 SEM-1

NSN003 Principles of Paediatric, Child and Youth Health Nursing
Students in this unit are introduced to issues facing nursing when providing care for children and families in the acute and community service environment. The unit presents an overview of the contemporary health problems faced by the Australian child and family and explores nursing interventions that enhance adaptation and health.

Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove and External  
Teaching period: 2008 SEM-1

NSN004 Acute Paediatric Nursing
This unit is designed to provide registered nurses with advanced knowledge and skills to enable them to provide safe and competent care to children experiencing acute paediatric illness. This unit will focus on acute health problems in children, employing clinical assessment, problem solving and critical thinking skills. Following completion of this unit the registered nurse will be able to demonstrate knowledge and skills in the nursing management of acute and chronic health problems within paediatric clinical practice.

Prerequisite(s): NSN003  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove and External  
Teaching period: 2008 SEM-2

NSN005 Community Child and Youth Health Nursing
This unit is designed to provide a sound basis for nursing practice in the area of community child and youth health. Students will examine contemporary issues relating to their professional role in caring for children, youth and families within the community context. The unit adopts a primary health care approach to examine the nurses' role in primary and secondary prevention, in supporting families in the community and in health education and community development.

Prerequisite(s): NSN003  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove and External  
Teaching period: 2008 SEM-2
NSN006 Specialisation in Paediatric, Child and Youth Health Nursing
This unit will provide students with clinical knowledge and understanding in a selected area of paediatric or child and youth health sub-speciality. The unit is based on a learning contract that will include both theoretical and clinical learning activities and assessment.
Prerequisite(s): NSN003, NSN002* Students in NS38 are not required to meet these prerequisites. Credit points: 12
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-2

NSN311 Clinical Studies in Midwifery A
This unit provides the opportunity for students to develop the clinical knowledge and skills in the areas of antenatal, postnatal assessment and care as well as an introduction to the assessment and care for the birthing woman. The focus in this unit is midwifery practice in the area of uncomplicated pregnancy and birth. Clinical activities and focused assessment will enable the student to incorporate theoretical, conceptual and practical knowledge, attitudes and skills required to care for the childbearing woman, her infant and family.
Corequisite(s): NSN321 Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-1

NSN321 Foundations of Midwifery Practice
This unit provides a foundation in the theoretical concepts and clinically applied principles for practice as a midwife. Emphasis is placed on the childbirth process as a normal and non-pathological process, during which the midwife, in collaboration with the woman, family, and other health professionals, provides midwifery care.
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-1

NSN322 Complex Issues for Childbearing Families
This unit provides students with an opportunity to develop further and expand on the theoretical knowledge and skills gained in Foundation of Midwifery Practice and Clinical Studies in Midwifery A. The unit requires application of the principles and practices acquired in the prerequisite unit. While childbearing is assumed to be a normal non-pathological process, and inherently safe, it is acknowledged that specialised practitioners must be able to recognise and act on changing events. These changes reflect complications/deviations from the normal.
Prerequisite(s): NSN321, NSN311 Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-2

NSN323 Clinical Studies in Midwifery B
This unit provides the opportunity for students to consolidate the professional knowledge and skills which they have acquired in other units. Students will be facilitated to incorporate theoretical, conceptual and practical knowledge, attitudes and skills required to care for the childbearing women, her infant and family.
Prerequisite(s): NSN321, NSN311 Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-2

NSN324 Critical Issues in Neonatal Care
An understanding of the physical, emotional and psycho-social factors which can impact on the health and wellbeing of infants and their families is essential to the provision of effective and supportive care. This unit explores issues in neonatal care including the complexity of physiological adaptation required at the time of birth, and common vulnerabilities in the neonate which may cause short and long term health problems. An introduction to ethical issues relevant to contemporary neonatal care provides a background to providing effective care for infants and families.
Prerequisite(s): Nil Credit points: 12
Campus: Kelvin Grove and External
Teaching period: 2008 SEM-2

NSN421 Assessment and Diagnosis in Extended Practice
This unit focuses on the scientific basis, processes and procedures for advanced concepts in clinical decision making. It covers the skills and principles of health assessment with specific focus on pattern recognition and diagnostics; ordering and interpreting laboratory tests; ordering and interpreting imaging investigations. The unit also explores the activities and processes for making and accepting referrals with other health professionals.
Prerequisite(s): Nil Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

NSN422 Pharmacology and Therapeutics in Extended Nursing Practice
This unit relates to the planning and management of therapeutic interventions in health care with a major focus on pharmacology and therapeutics. The content includes the study of pharmacology and pharmacokinetics related to treatment in a wide range of diseases. This will provide the basis for expansion into in-depth knowledge of pharmacology in a specialty field in the unit titled: NSN426 Advanced Pharmacology and Therapeutics in Speciality Nursing Practice.
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

NSN423 Nurse Practitioner Role Development
This unit equips students with the skills and knowledge necessary for the development of the nurse practitioner role and scope of practice. Scope of practice refers to, and includes the extent of clinical practice activities available to the nurse practitioner in their speciality field of practice.Content includes requirements and attributes in clinical leadership, influence and advocacy at all levels of health care. Model development will be explored, scope of practice designed and clinical protocols and treatment formulary developed.
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

NSN424 Evidence Based Practice
On successful completion of this unit students will be able to critically appraise systematic reviews of evidence and design projects for the implementation of evidence into...
practice. Content includes: Evidence-based terminology, principles and processes; incorporating evidence into practice; comparing and contrasting current practice with the most current evidence; modifying policies and procedures to be consistent with the evidence; use of audit results to identify areas of practice that are consistent with the evidence and those needing revision; formulating strategies for promoting the uptake of evidence-based practice.

**Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**NSN425-1 Nurse Practitioner Internship**

This unit provides extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning, enabling students to meet the competency and capability standards for the nurse practitioner. Content is determined by the context of practice and the candidate's own learning objectives. Students will explore the extent of extended clinical practice available to them in the specialty in which they are undertaking the internship. Complementary to the unit objectives, and in consultation with their clinical support teams, students will develop personal learning objectives that reflect the knowledge and skills required in this extended scope of practice.

**Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSN425-2 Nurse Practitioner Internship**

This unit continues on from NSN425-1 and provides extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning, enabling students to meet the competency and capability standards for the nurse practitioner. Content is determined by the context of practice and the candidate's own learning objectives. Students will explore the extent of extended clinical practice available to them in the specialty in which they are undertaking the internship. Complementary to the unit objectives, and in consultation with their clinical support teams, students will develop personal learning objectives that reflect the knowledge and skills required in this extended scope of practice.

**Prerequisite(s):** NSN425-1  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSN426 Advanced Pharmacology and Therapeutics in Specialty Nursing Practice**

This unit follows on from NSN422 Pharmacology and Therapeutics in Extended Nursing Practice and includes development of the scope of pharmacological and therapeutic practice in a student's specialty field of practice, designing and developing protocols and medication formulary. It also includes a focus on skills in development of treatment plans that incorporate a creative, efficacious, patient-centred and sustainable management of symptom/disease states that are based on best evidence.

**Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**NSN427 Prevention of Violence Against Women**

The unit explores the prevalence, incidence, and impact of abuse on the individual, family, community and society. A range of approaches to prevention and intervention will be explored, both from local, national and international perspectives, to enable students to contextualise the learning to their discipline area.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** Nil

**NSN506 Clinical Project**

This unit offers students the opportunity to implement a project of clinical relevance and value to lead to the resolution of practical issues facing nursing. It advances and extends the student's learning from their clinical speciality and the supporting units.

**Credit points:** 24  **Contact hours:** Negotiated with Course Coordinator  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSN507 Contemporary Practice Issues**

This unit allows students to explore current issues and develop their understanding through application of relevant theoretical frameworks to nursing practice in selected specialty areas. Students undertaking this unit will examine social, political and economic factors that shape and have shaped nursing practice, analyse factors influencing the organisation of nursing practice, and critically apply a theoretical framework to current issues relevant to nursing practice.

**Credit points:** 12  **Contact hours:** Negotiated with Course Coordinator  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1

**NSN508 Advanced Readings in Nursing**

This unit provides the opportunity for students to access and review a body of literature relevant to an area of individual interest in nursing. This will enable students to extend their knowledge and understanding of a topic which is not specifically addressed elsewhere in the course. In addition, students undertaking this unit will have the opportunity to develop advanced skills information retrieval, critical analysis and writing for publication.

**Credit points:** 12  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSN515 Clinical Leadership and Management**

This unit aims to extend students' understanding of contemporary issues and trends in the development of leadership in professional practice, strengthen their abilities to provide effective leadership and further develop skills in peer consultation and reflective practice as strategies to support a critical approach to the provision of leadership in the workplace. The unit addresses strategic thinking and planning; organisational and interpersonal communication; decision making; team building; multidisciplinary teams;
managing conflict; facilitating change; and creating growth-producing work environments.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN516 Sexual and Reproductive Health

This unit will bring together current research and evidence-based practice and information as well, as a health-oriented approach to the subject of sexuality and reproduction. The purpose of this unit is to highlight the fundamental issue that even though screening programs have emerged and improved women's health, women continue to have health problems that are unique to them as women. The aim of this unit is for the student to come to the understanding that a woman's sexual health encompasses not only the medical and physical components of sexual activity but a holistic understanding of physical and mental health. These are seen as being influenced by self-esteem, values, culture and socio-economic factors as well as societal influences.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN517 Women's Health Issues

This unit provides students with opportunities to develop and expand their theoretical knowledge and skills in the area of women's health, and utilises the primary health care framework in considering the major objectives for helping women achieve optimal health as documented in women's health policy. This unit aims to make primary health care professionals aware of the broader social context in which service, delivery and care take place.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1

### NSN523 Clinical Studies

This unit aims to further develop and consolidate knowledge and skills in a selected clinical specialty. This unit will enable students to develop their skills in clinical judgement, and decision making in a specialty area of practice, as well as expanding their skills in establishing and maintaining effective relationships with clients and other health professionals. Students will be encouraged to demonstrate a reflective, self-evaluative approach to practice, and develop strategies that would enable the practitioner to facilitate change with respect to their specialty area of practice.

**Credit points:** 12  
**Contact hours:** Negotiable  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN626 Studies in Dementia

Dementia is characterised by progressive impairment of brain functions involving memory, perception, language, personality and cognition. Estimates of the prevalence of dementia have been reported as doubling every five years of age after the age of 65 and as affecting nearly one in four of those aged 85 and over (AIH&W, 2004). Providing services for people with dementia and support to their carers presents a significant challenge to health service providers both now and into the future. The aim of this unit is to allow you to explore a range of health service delivery and community care issues associated with dementia, particularly Alzheimer's disease.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN701 Advanced Health Assessment

This unit aims to develop an advanced understanding of health assessment in nursing practice. This will be achieved by exploring the theoretical, conceptual and practical knowledge required to effectively assess the individual, family and their environment to provide nursing care within the context of specialist practice.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1

### NSN721 Key Issues in Emergency and Intensive Care Nursing

Health service delivery is undergoing rapid change, and the nature and scope of nursing practice reflects this. Registered nurses working in Intensive Care and Emergency settings require the ability to care for patients that are increasingly critically ill in an environment that evidences increasingly complex technology. As such, registered nurses require knowledge and skills that enable them to understand a client's health needs, determine appropriate interventions, predict and manage complications, and develop specific plans of care for critically ill individuals and their families that are appropriate to their unique needs and personal context.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1

### NSN722 Principles of Intensive Care Nursing

Registered nurses working in Intensive Care require the ability to care for patients who are increasingly critically ill in an environment that evidences increasingly complex technology. Nurses working in this field require an advanced level of knowledge of evidence based principles and practices appropriate to prevent and manage these health problems, as well as skills in the implementation and evaluation of intervention strategies, in the context of a multidisciplinary team.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN723 Specialisation in Critical Care Nursing

Critical care environments provide care for individuals with a diverse range of health problems. This unit will provide the opportunity for students to further develop and consolidate prior learning in a critical care clinical setting of their choice. In this unit students will expand on their theoretical, professional & practical knowledge to assess patients, plan and implement nursing care in a particular critical care environment.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### NSN724 Advanced Nursing Practice

This unit is designed to present a foundation of theoretical and practice concepts required for registered nurses to provide effective, consumer focused nursing care within a variety of clinical contexts in a range of practice settings. The unit provides a framework from which students can develop an understanding of the impact of selected health problems on individuals, families, and communities. This will
include practice concepts (philosophies, evidence based practice, competencies and continuity of care); physiological, pathophysiological and psychosocial underpinnings of advanced speciality or generalist practice; planning of appropriate strategies/interventions for client care; and development of selected technical skills. **Credit points:** 12  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1

**NSN725 Specialisation in Medical/Surgical and Cancer Nursing**
This clinically based unit will provide the opportunity for students to further develop and consolidate prior learning in a clinical setting of their choice. This unit will enable students to discuss issues and trends occurring in nursing practice in a selected medical/surgical or cancer care environment, and critically analyse the advanced concepts that underpin specialist nursing practice. Students will demonstrate clinical judgement and reflective skills through the application of theoretical concepts to common health problems experienced by clients in a selected medical/surgical or cancer care environment. They will also initiate plans of care to address common needs/problems experienced by clients in this specialist field. **Prerequisite(s):** NSN701  **Credit points:** 12  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-2

**NSN726 Advanced Clinical Practice**
This unit aims to develop students' understanding of the theory, process and practice of advanced nursing in a designated practice context, to enable them to effectively prevent and manage common health problems experienced by individuals and families in a range of locations within their field. Content which relates to a broad range of clinical nursing practice will be addressed. This will include: physiological, pathophysiological and psychosocial underpinnings of advanced nursing practice across a broad range of body systems and health problems; planning of appropriate strategies/interventions for client care; and development of related technical skills. **Credit points:** 12  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-2  **Incompatible with:** NSN722

**NSN801 Health Assessment in Aged Care**
The development of advanced health assessment knowledge & skills for health care practitioners working with older people has been recognised as crucial in determining the effectiveness & efficiency of care delivery. Theoretical knowledge of biopsychosocial aspects of ageing will be applied to the assessment of the client in order to develop a competent approach to caring for the older person. The unit is designed to complement a variety of health assessment approaches across a variety of social, cultural and clinical contexts. This will be achieved by exploring the theoretical, conceptual and practical knowledge required to effectively assess the individual, family and their environment to provide care within the context of this specialist area. **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1

**NSN825-1 Thesis (Part 1)**
The thesis provides students with an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the course. The study represents an independent piece of research completed under the guidance of a supervisor. The thesis may be a study on research which makes a contribution to the body of knowledge in the student's discipline area or professional area, or a study in which the student critically analyses and evaluates existing knowledge and produces observations and conclusions of relevance to the field concerned. Part-time students complete NSN825-1 and NSN825-2. Full-time students complete NSN850. The final thesis is approximately 15,000 to 20,000 words. **Prerequisite(s):** All required coursework  **Credit points:** 24  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**NSN825-2 Thesis (Part 2)**
The thesis provides students with an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the course. The study represents an independent piece of research completed under the guidance of a supervisor. The thesis may be a study on research which makes a contribution to the body of knowledge in the student's discipline area or professional area, or a study in which the student critically analyses and evaluates existing knowledge and produces observations and conclusions of relevance to the field concerned. Part-time students complete NSN825-1 and NSN825-2. Full-time students complete NSN850. The final thesis is approximately 15,000 to 20,000 words.
UNIT SYNOPSE

Prerequisite(s): All required coursework and NSN825-1
Credit points: 24  Campus: Kelvin Grove and External Teaching period: 2008 SEM-1 and 2008 SEM-2

NSN850 Thesis
The thesis provides students with an opportunity to formally extend and synthesise knowledge gained in earlier semesters of the course. The study represents an independent piece of research completed under the guidance of a supervisor. The thesis may be a study on research which makes a contribution to the body of knowledge in the student's discipline area or professional area, or a study in which the student critically analyses and evaluates existing knowledge and produces observations and conclusions of relevance to the field concerned. Part-time students complete NSN825-1 and NSN825-2. Full-time students complete NSN850. The final thesis is approximately 15,000 to 20,000 words.

Prerequisite(s): All required coursework  Credit points: 48  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-1 and 2008 SEM-2

OPB250 Optometry 2
This subject covers the fundamental areas of ophthalmic optics and optometry within the context of health care in Australia. It provides a basic understanding of the concepts of ophthalmic optics together with professional development, ethical responsibilities and the role of optometry.
Prerequisite(s): MAB140  Corequisite(s): PCB240  Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

OPB350 Optometry 3
Ophthalmic optics is continued with the study of neutralisation, spectacle lens design and prescribing parameters of lenses and frames. The theory and practice of keratometry, optometers, ophthalmoscopy and retinoscopy are also studied.
Prerequisite(s): PCB240, OPB250  Corequisite(s): PCB340, OPB351  Credit points: 12  Contact hours: 6 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

OPB351 Visual Science 3
This unit includes a study of the basic visual sciences that underpins the practice of optometry. It covers the optics of the eye, including its basic design, dimensions and retinal quality as well as the psychophysical principles of vision.
Prerequisite(s): LSB250, PCB240  Corequisite(s): PCB340, OPB350, OPB352  Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

OPB352 Ocular Anatomy and Physiology 3
This unit provides information on the ocular anatomy and physiology that underlies the functional measurements made in optometry and their interpretation. It includes the structure and function of the anterior eye and orbit.
Prerequisite(s): LSB250, LSB275  Corequisite(s): OPB351  Credit points: 12  Contact hours: 5 per week

Campus: Kelvin Grove  Teaching period: 2008 SEM-1

OPB450 Optometry 4
This is a continuation of studies in OPB350, and introduces the theory and practice of clinical techniques used in the examination of the patient and assessing visual functions. The subject is also the initial introduction to the care of patients in the Optometry Clinic.
Prerequisite(s): OPB350, OPB351, OPB352  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

OPB451 Visual Science 4
This subject continues studies commenced in OPB351, and provides students with an understanding of spatial, temporal, colour and binocular vision, and their influence on visual performance.
Prerequisite(s): OPB351, OPB352, OPB350  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

OPB452 Ocular Anatomy and Physiology 4
This is a continuation of OPB352. The unit covers the posterior eye, orbit, neural pathways, eye movements, neurophysiology of vision and an introduction to electrophysiological techniques.
Prerequisite(s): OPB352, OPB351, OPB350  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

OPB550 Diseases of the Eye 5
This unit provides students with a knowledge and understanding of relevant general diseases and those that affect the eye. It includes general disease principles and processes, referral procedures, genetics, congenital, dystrophic and degenerative eye disease, and the ocular manifestation of general disease.
Prerequisite(s): OPB450, OPB451, OPB452, LSB492  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

OPB551 Optometry 5
The student gains an understanding of the theory and practice of essential clinical techniques required to examine patients' eyes and assess visual function. The subject contains the development and management of refractive errors and binocular vision accommodation anomalies.
Prerequisite(s): OPB450, OPB451, OPB452  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

OPB552 Advanced Optometry 5
This unit introduces the student to the theory and practice of advanced clinical techniques of vision assessment. It integrates these with the basic methods learned in OPB350, OPB450 and OPB551 and gives the student a thorough knowledge of all aspects of routine patient management. The unit covers areas such as visual fields, colour vision,
gonioscopy, indirect ophthalmoscopy and geriatric optometry.

**Prerequisite(s):** OPB450, OPB451, OPB452

**Corequisite(s):** OPB550, OPB551, OPB553  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB553 Clinical Practice 5**

Clinical Practice 5 provides the vehicle for the application of examination techniques learned in previous and concurrent units. Emphasis is placed on communicating with patients, the fabrication of spectacles, basic contact lens practice and the development of appropriate clinical routines in eye examination.

**Prerequisite(s):** OPB450, OPB451, OPB452

**Corequisite(s):** OPB550, OPB551, OPB552, OPB553  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB650 Diseases of the Eye 6**

This is a continuation of OPB550 and covers the ocular manifestations of general disease, neuro-ophthalmology, glaucoma, inflammations/infections, tumours and trauma.

**Prerequisite(s):** OPB550, OPB551, OPB552, OPB553

**Corequisite(s):** OPB651, OPB652, OPB653  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**OPB651 Contact Lens Studies**

Contact lens design and fitting form the basis of this subject. Both soft and rigid contact lenses are covered together with lens materials, designs, manufacture, fitting assessments and appropriate clinical techniques. The subject also focuses on corneal physiology, patient management and advanced contact lens fitting.

**Prerequisite(s):** OPB550, OPB551, OPB552, OPB553

**Corequisite(s):** OPB650, OPB652, OPB653  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**OPB652 Pharmacology**

This subject covers both general and ocular pharmacology. It includes pharmacokinetic and pharmacodynamic principles, the mechanisms of action and therapeutic applications of drugs used in the treatment of general and ocular disease, and drugs used to assist in the diagnosis of ocular conditions.

**Prerequisite(s):** OPB550, OPB551, OPB552, OPB553

**Corequisite(s):** OPB650, OPB651, OPB653  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**OPB653 Clinical Practice 6**

The subject is a continuation of OPB553, and enables students to apply eye examination techniques in a clinical setting. There is an emphasis on advanced communication skills, patient management and clinical decision-making.

**Prerequisite(s):** OPB550, OPB551, OPB552, OPB553

**Corequisite(s):** OPB650, OPB651, OPB652  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**OPB750 Topics in Optometry 7**

Students are required to choose a research topic, conduct a literature search on this topic, develop experimental hypothesis, plan and undertake a research project. Students give oral presentations of their own research project. Presentations on advanced clinical care and decision making skills include lecture and tutorial presentations and case summaries.

**Prerequisite(s):** OPB650, OPB651, OPB652, OPB653

**Corequisite(s):** OPB751, OPB752, OPB753  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB751 Advanced Optometry 7**

This unit provides students with a thorough knowledge of more specialised areas of patient management including patients with low vision and paediatric patients.

**Prerequisite(s):** OPB650, OPB651, OPB652, OPB653

**Corequisite(s):** OPB750, OPB751, OPB753  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB752 Clinical Practice 7**

This unit enables students to apply knowledge and skills gained in third year to patients presenting for eye examinations, and to make decisions in effective patient management.

**Prerequisite(s):** OPB650, OPB651, OPB652, OPB653

**Corequisite(s):** OPB750, OPB751, OPB752, OPB753  
**Credit points:** 12  
**Contact hours:** 8 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB753 Specialist Clinical Practice 7**

This unit enables students to apply specialist clinical knowledge in the management of patients requiring contact lenses, vision training and low vision care.

**Prerequisite(s):** OPB650, OPB651, OPB652, OPB653

**Corequisite(s):** OPB750, OPB751, OPB752  
**Credit points:** 12  
**Contact hours:** 8 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB850 Topics in Optometry 8**

Students are required to analyse the results of their chosen research project and write a full report in manuscript form. Oral presentations of the project are given to their peers. Presentations on advanced clinical care and decision making skills include lecture and tutorial presentations and case summaries.

**Prerequisite(s):** OPB650, OPB651, OPB652, OPB653

**Corequisite(s):** OPB750, OPB751, OPB752, OPB753  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**OPB851 Advanced Optometry 8**

This unit includes optometry's role in health care; professional and ethical behaviour; relevant state and federal Acts; professional associations; types of practice; optometric practice and the law. The unit introduces the basic concepts of eye safety and visual ergonomics.

**Prerequisite(s):** OPB750, OPB751, OPB752, OPB753

**Corequisite(s):** OPB850, OPB852, OPB853  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2
OPB852 Clinical Practice 8
This unit enables students to consolidate skills developed in OPB752, to increase their knowledge base and achieve surety with decision making involving the management of patients' eye and vision problems.
Prerequisite(s): OPB750, OPB751, OPB752, OPB753
Corequisite(s): OPB850, OPB851, OPB853
Credit points: 12
Contact hours: 8 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

OPB853 Specialist Clinical Practice 8
This unit continues to consolidate skills developed in OPB753 in the specialised clinical areas of contact lenses, low vision management and paediatric optometry.
Prerequisite(s): OPB750, OPB751, OPB752, OPB753
Corequisite(s): OPB850, OPB851, OPB852
Credit points: 12
Contact hours: 8 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

OPP001 Ocular Therapeutics 1
The aim of this unit is to provide optometrists with a sound knowledge of bio-medical sciences as they relate to ocular disorders and to enable them to therapeutically manage certain eye diseases. This unit covers: general pathology and immunology with reference to ocular tissues, microbiology with reference to organisms involved in ophthalmic diseases, pharmacology and pharmacodynamics including interaction of drugs with the body, disorders of the anterior eye, glaucoma, iritis and uveitis, management of cataract, post-surgical management, legal requirements for therapeutic drug use, workshops on skills related to the management of disease.
Credit points: 24
Teaching period: 2008 SEM-2

OPP002 Ocular Therapeutics 2
This unit enables optometrists to develop an understanding of the properties of ocular therapeutic drugs and their applications in clinical practice, and to develop experience with the clinical management of certain eye diseases. The following topics are covered: Examination and diagnosis of anterior eye conditions (including acute red eye), glaucoma, iritis and uveitis, and cataract; development of management strategies including establishing appropriate treatment plans and evaluating the need for referral for specialist treatment; management of post-surgical conditions.
Credit points: 24
Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB107 Physics and Quantitative Techniques
This unit includes the following: data and error analysis, geometrical optics (reflection, refraction, dispersion, image formation, optical instruments, photometry); circuit theory and electronics (DC circuits, AC circuits, semiconductors, rectifiers and transistors, digital electronics); waves and acoustics (properties of waves, interference and diffraction of waves, sound waves, measurements of sound).
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

PCB112 Vision, Colour and Photometry
This is the first unit in the Minor in Lighting and introduces the student to the nature of light, vision and the scientific interpretation and quantification of colour. Importantly the student learns the terminology used to describe and quantify different lighting situations; the meaning of luminance and illuminance, intensity and luminous flux, and the relationship between these parameters. The unit includes a significant proportion of practical work where students learn how to measure light and the above concepts are reinforced in practical situations.
Credit points: 12
Contact hours: 40
Campus: Gardens Point
Teaching period: 2008 SEM-1

PCB124 Lamps and Luminaires
This unit introduces the student to the vast range of different lamp sources available today, including incandescents, discharge lamps and LEDs, explaining the important characteristics of each and hence providing an understanding of their different applications. The student is introduced to the concept of colour Rendering and Colour temperature of lamps. The unit also includes a look at the design of reflectors and refractors within the luminaire. The lecture material is supported by a number of practical experiments.
Corequisite(s): PCB121
Credit points: 12
Contact hours: 40
Campus: Gardens Point
Teaching period: 2008 SEM-2

PCB136 Engineering Physics 1C
This introductory unit covers: dynamics (motion in 1D, vectors, Newton's Laws, motion in 2D (including circular motion), uniform circular motion, work, energy and power potential energy and conservation of energy, linear momentum and collisions); waves (oscillatory motion, wave motion, sound waves, superposition and standing waves); geometrical optics (reflection, refraction, dispersion, Huygens' principle, image formation by mirrors and lenses, optical instruments); physical optics (interference of light, diffraction); thermal physics (temperature, thermometry, thermal expansion, heat and thermal energy, heat capacity and specific heat, latent heat, heat transfer).
UNIT SYNOPTES

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB140 Introductory Chemistry
This unit includes the following: matter and its classification; atomic and molecular composition of matter; structure of atoms and molecules and use of the Periodic Table to predict the behaviour of matter; chemical bonds and the nature of molecules, chemical composition, chemical reactions, chemical equations and chemical calculations; representative chemistry of the main group elements, and specifically of carbon; solution chemistry, acids bases, pH and chemical calculations using solutions; equilibrium specifically of carbon; solution chemistry, acids bases, pH and chemical calculations using solutions; equilibrium chemical reactions; oxidation reduction and electrochemistry; gaseous state of matter and gas laws. Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point and Carseldine  Incompatible with: SA in Year 12 Chemistry

PCB141 Chemistry for Clinical Health Professionals
This unit includes three sections: General chemistry includes the periodic table, chemical bonding, chemical reactions and stoichiometry. Physical chemistry includes chemical equilibrium, acids and bases, rates of reactions, energy and reactions, redox reactions and electrochemistry. Organic chemistry includes: introductory organic chemistry, organic functional group chemistry, stereochemistry of organic compounds, heterocyclic chemistry, biologically important organic compounds. Prerequisite(s): Senior Chemistry and Senior Mathematics  B  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

PCB142 Chemistry 1
This unit includes general inorganic and physical chemistry: nature of matter, chemical reactions and chemical equations, reactions in solution, acid base and redox reactions, atomic and molecular structure, periodic table and periodicity, atomic electron configurations, chemical bonds and theories of chemical bonding. States of matter, gases, chemical equilibrium, equilibria in electrolyte solutions, acids and bases, buffer solutions, colligative properties, colloids, introductory electrochemistry. Prerequisite(s): EITHER SA or better in Senior Chemistry OR PCB101  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Incompatible with: PCB140

PCB150 Physics 1H
This unit introduces basic physical measurements, mechanics, heat, waves, acoustics and optics, and the instrumentation used to measure physical parameters. Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB172 Physics for Surveyors
This unit includes the following: measurement and uncertainty kinematics (vector and scalar quantities, equations of motion); dynamics (friction, centripetal force, the hoist, impulse and momentum, periodic motion, work and energy); gravity circular motion, centripetal force, gravity, Kepler's Laws, orbits); fluid statics (pressure, barometry); fluid dynamics (fluid flow in pipes and channels, equation of continuity, Bernoulli's principle, viscous flow and Poiseuille's equation); optical instruments (reflection, refraction, total internal reflection, spherical mirrors, thin lenses, transits, theodolites, corner cubes, cameras); electric and magnetic fields; electrical circuits (electronic components). Prerequisite(s): PCB107  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

PCB178 Principles of Medical Radiations
This unit provides an overview of the physical principles of the various medical imaging modalities and techniques. It includes an overview of techniques used in the diagnosis and treatment of cancer. Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

PCB240 Optics 1
This unit includes a study of selected topics in optics particularly related to aspects of optometry. Topics include geometrical optics in mirrors and lenses, including thick lenses, cylindrical, spherical and toric lenses, colour and colour measurement, photometry, lens aberrations and optical instruments. Prerequisite(s): PCB101 or SA or better in Senior Physics  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

PCB242 Chemistry 2
This unit includes the following: introductory organic chemistry; organic functional group chemistry; stereochemistry of organic compounds; biologically important organic compounds; heterocyclic chemistry; biologically important inorganic compounds; calorie counting - the underlying principle; speed control of chemical and biochemical processes. Prerequisite(s): PCB140 (for students without Senior Chemistry), PCB142 (for students with Senior Chemistry)  Corequisite(s): PCB142  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point and Carseldine  Teaching period: 2008 SEM-1

PCB272 Radiation Physics
This unit includes the following: atomic structure, radioactivity, interaction of x-rays with matter; Radiation dosimetry; thermal physics, temperature, heat, thermal expansion; electric and magnetic fields, motion of charged particles; X-rays - properties and nature; X-ray tube construction and design; diagnostic and therapy tubes; high voltage generation, transformers, rectifiers, linear accelerators; ratings of X-ray tube, tube failure. Prerequisite(s): PCB107  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

PCB276 General Radiography 1
This unit includes a program of lectures relating to radiography of the skeletal system, from preparation of the room and patient through to assessment of the final image.
**PCB277 Radiographic Practice**
This unit is a program of practical sessions relating to radiography of the skeletal system allowing the development of skills in patient positioning and image production. A study of the processes involved in the production of a visible image in radiography is included.

**Prerequisite(s):** PCB007  
**Corequisite(s):** PCB276  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB286 Treatment Planning 1**
This unit is an introduction to the techniques of radiotherapy treatment planning including patient data acquisition and radiation dosimetry.

**Prerequisite(s):** PCB178  
**Corequisite(s):** LSB245  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB287 Megavoltage Therapy 1**
This unit introduces the basic techniques of radiotherapy treatment delivery including beam direction and beam defining devices. Practical work is completed in hospital departments.

**Prerequisite(s):** PCB007, PCB178  
**Corequisite(s):** LSB245  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB314 Concepts in Analytical Chemistry**
This unit includes the following: classical analytical chemistry including titrimetric analysis (neutralimetry, precipitometry, compleximetry and redoximetry); gravimetric analysis; sample preparation; specialist reagents for analytical chemistry usage; EDTA, redox indicators etc; instrumental analytical chemistry; UV-visible spectrophotometry; electroanalytical methods including (voltammetry, potentiometry and electrogravimetry); complementary practical program and data handling.

**Prerequisite(s):** PCB142 or PCB140  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB334 Inorganic Chemistry**
This unit includes the following: coordination chemistry; structure and bonding of metal complexes including crystal field and valence bond theories; spectroscopic terms and electronic transitions; solution chemistry and complex equilibria; redox reactions, Pourbaix diagrams; HSAB theory; reaction mechanisms of coordination compounds; chemistry of selected non-metals, lanthanides, actinides and precious metals, their extraction from ores and refining.

**Prerequisite(s):** PCB142  
**Corequisite(s):** PCB242  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB340 Optics 3**
This unit includes the application of geometrical optics to selected aspects of optometry including lens form and thickness, contact lenses, spectacle lens design and spherical surfaces; the wave nature of light with emphasis on interference, interferometry, diffraction and polarisation; the specialised topics of optical processing, lasers and the evaluation of optical systems.

**Prerequisite(s):** PCB350  
**Corequisite(s):** OPB350  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB354 Structure and Mechanism in Organic Chemistry**
This unit includes the following: organic stereochemistry: conformation of cyclic compounds; chirality; absolute configuration; racemic and meso compounds. Importance of structure and stereochemistry in natural products such as terpenes, steroids and sugars; carbohydrate chemistry (monosaccharides, disaccharides and polysaccharides). Applications in selected research areas of drugs, polymers and enzymes; reaction mechanisms (acid/base theory, polarity, induction effects); addition reactions; nucleophilic substitution and addition; electrophilic additions; application to organic synthesis is also included.

**Prerequisite(s):** PCB242  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB361 AC Theory and Electronics**
Emphasis in this unit is on the application of theory to practical tasks. Laboratory work consists of introductory exercises followed by a series of topics to be investigated within the available laboratory times. Specific topics covered include the following: steady state and transient AC passive-circuit analysis; power in AC circuits; applications of semiconductor devices; amplifiers and feedback theory; oscillators; introductory digital electronics (gates, flip-flops and counters).

**Prerequisite(s):** MAB111, PCB250  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB362 Physics 2**
This unit integrates and enhances the knowledge gained in earlier units with applications to more interesting and complex systems. Topics include the following: classical mechanics, rotating systems, Lagrange’s equations and Hamiltonian operators, precession, radiation physics, nuclear disintegration, equilibrium, interaction of radiation with matter, nuclear detectors, electromagnetism, electric fields, Gauss’ law, dielectrics.

**Prerequisite(s):** PCB250 & MAB132 or MAB112  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB375-1 Radiographic Equipment**
This unit includes a discussion of design considerations of specialist radiographic imaging equipment for fluoroscopy, mammography, tomography and mobile radiography. (12 credit points achieved at completion of PCB375-1 and PCB375-2.)

**Prerequisite(s):** PCB272  
**Credit points:** 6  
**Contact hours:** 2 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB375-2 Radiographic Equipment**
This unit is an introduction to computer hardware, binary numbers and the digital image. A study of the equipment used in digital fluoroscopy and computed radiography, and image quality and evaluation is included. (12 credit points achieved at completion of PCB375-1 and PCB375-2.)

**Prerequisite(s):** PCB375-1  
**Credit points:** 6  
**Contact hours:** 2 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB377 General Radiography 2**  
This unit is an extension of topics introduced in PCB276 and includes more techniques of skeletal radiography, ward and operating theatre radiography, and examinations using contrast media. A program of practical sessions in skeletal imaging is included.

**Prerequisite(s):** PCB276, PCB277  
**Corequisite(s):** PCB379  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

### PCB379 Clinical Radiography 1
This unit offers clinical experiences in radiographic examinations introduced in PCB276 and PCB377. Experience is obtained in approved clinical departments.

**Prerequisite(s):** PCB277  
**Corequisite(s):** PCB377  
**Credit points:** 6  
**Contact hours:** 160 over 4 weeks  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCB389 Clinical Radiotherapy 1**  
This unit offers clinical experience in radiotherapy related to topics introduced in PCB287 and PCB286. The programs are carried out in approved clinical departments.

**Prerequisite(s):** LSB245, PCB287  
**Credit points:** 6  
**Contact hours:** 200 over 5 weeks  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB396 Radiotherapy Planning and Physics**  
This unit is an extension of the study of treatment planning introduced in PCB286 to the planning of complex techniques of photon therapy and electron therapy.

**Prerequisite(s):** LSB245, PCB286  
**Corequisite(s):** PCB397-1  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB397-1 Megavoltage Therapy 2**  
This unit includes the principles and applications of megavoltage therapy including techniques for specific sites. Practical exercises are performed in clinical departments.

**Prerequisite(s):** LSB345, PCB287  
**Credit points:** 6  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB397-2 Megavoltage Therapy 2**  
This unit includes the principles and applications of megavoltage therapy including techniques for specific sites. Practical exercises are performed in clinical departments.

**Prerequisite(s):** PCB397-1  
**Credit points:** 6  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB405 Principles of Physical Chemistry**  
This unit offers a program in physical chemistry based upon interactive learning and problem solving. Topics in modern physical chemistry including principles of energetics, kinetics, phase and colloid chemistry and macromolecules form the basis of this unit. The theoretical framework is strongly supported by an experimental program with an emphasis on accuracy, precision and error estimation.

**Prerequisite(s):** PCB142  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB414 Industrial and Environmental Analytical Chemistry**  
This unit is an introduction to quality assurance in an analytical chemistry laboratory; international QA standards; analytical methods and method accreditation; sample traceability; calibration, validation and standards; sampling; instrumental techniques (including UV-visible spectrophotometry, infrared spectroscopy, atomic spectroscopy, chromatography). A complimentary practical program is included. Special Notes: Available both semesters, but for PU40 Semester 1 is preferred.

**Prerequisite(s):** PCB142 or PCB140  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCB444 Spectroscopy**  
This unit includes the following: theory of spectroscopy; width and intensity of spectral lines; instrumentation; rotational spectroscopy; vibrational spectroscopy; vibrational-rotational spectroscopy; electronic spectroscopy; electronic excited states; symmetry and spectroscopy; application of infrared spectroscopy to organic compounds (fundamental absorption bands, structural influences); functional group analysis; nuclear magnetic resonance (theoretical concepts); classification of nuclei; modern instrumentation; the shielding constant 13C spectra (symmetry); 1H spectra; integrals; chemical shifts; tabulated data; Shoolery's rules; coupling; analysis of 1st order spectra.; deducing connectivity relationships.

**Prerequisite(s):** PCB354  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB445 Nanotechnology and Nanoscience**  
Following an introductory discussion of the limits of conventional lithography for miniature device construction, this unit investigates alternative approaches towards the construction of nanometer-scale devices, their tremendous power and their potential applications. Techniques used to guide molecular level engineering and self-assemble molecular components into nanotechnology are emphasised.

**Prerequisite(s):** PCB142 or PCB260 or PCB136  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB446 Instrumentation and Computational Methods**  
This lecture/tutorial program includes an integrated practical component. The topics include the following: transducers; signal conditioning; sources of noise; guarding and
Prerequisite(s): measurements, significance testing; least squares methods; conversion; computer interfacing; data acquisition; sampling; shielding; analogue to digital and digital to analogue conversion; computer interfacing; data acquisition; sampling theorem; signal averaging; application of Fourier transforms; signal processing (digital filters); statistics of physical measurements, significance testing; least squares methods; interfacing microcontrollers to analogue circuits.

**Prerequisite(s):** PCB361  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB462 Thermodynamics and Solid State Physics**
This unit includes two of the main themes in physics. The first part includes thermodynamic equilibrium and zeroth, first and second laws of thermodynamics, equipartition principle and heat capacities, entropy, concept of irreversibility, and the Carnot cycle. The second part includes solid state physics, crystal and lattice structures, reciprocal lattice, x-ray diffraction, Brillouin zones, amorphous materials, lattice dynamics, acoustical and optical phonons, thermal properties of solids, acoustic waves in solids and crystals. The third part covers the Debye theory, statistical physics, microscopic and quantum approach to entropy, Maxwell relations, Maxwell-Boltzmann and Fermi-Dirac distributions, and Fermi energy and Fermi surface.

**Prerequisite(s):** PCB250 and (MAB134 or MAB311)  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB469 Astrophysics 1**
This unit is an introduction to stellar astrophysics. The unit covers astronomy in ancient Egypt, Babylon, Arabia, Renaissance Europe; gravity as described by Kepler and Newton; measuring distances in the universe; apparent and absolute magnitude; telescope resolution; spectroscopy; stellar classification and the HR-diagram; star formation; nucleosynthesis in stars of varying mass; the sun; planetary nebulae and white dwarfs; supernovae; neutron stars and black holes; practical exercises; field trips.

**Prerequisite(s):** PCB107 or PCB136 or PCB150 or PCB250  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB476 Special Procedures**
This unit includes specialised techniques of radiography including the skull, macroradiography, obstetrics, gynaecology, CNS, paediatrics and geriatrics.

**Prerequisite(s):** PCB377, PCB379  
**Corequisite(s):** PCB479  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB477 Complementary Imaging Techniques**
This unit introduces the physical principles, equipment and applications of medical ultrasound and nuclear medicine imaging. It includes basic ultrasound scanning techniques and resultant imaging appearances for abdomen and pelvis, smart parts, musculoskeletal, and vascular applications.

**Prerequisite(s):** PCB178  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB479 Clinical Radiography 2**
This unit includes clinical experience in approved departments in radiographic examinations discussed in PCB377 and PCB476.

**Prerequisite(s):** PCB379  
**Corequisite(s):** PCB476  
**Credit points:** 6  
**Contact hours:** 200 over 5 weeks  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB489 Clinical Radiotherapy 2**
This unit includes clinical experiences in approved departments in techniques of radiation therapy.

**Prerequisite(s):** PCB389  
**Credit points:** 6  
**Contact hours:** 200 over 5 weeks  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER

**PCB495 Computer Assisted Treatment Planning 1**
This unit includes a study of planning hardware and software to include two-dimensional planning and the development of concepts to an advanced level of understanding of computer-assisted optimisation of isodose distributions.

**Prerequisite(s):** LSB345, PCB396  
**Corequisite(s):** PCB397-2  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB496 Radiotherapy Equipment**
In this unit students will gain an understanding of the physics underlying the operation of a modern linear accelerator, the interaction of radiation with tissue, dose measurement and related quality assurance procedures.

**Prerequisite(s):** PCB272  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB505 Advanced Physical Chemistry**
This unit offers a program in advanced physical chemistry based upon interactive learning and problem solving. Topics in modern advanced physical chemistry including electrochemistry, catalysis, surfaces, quantum mechanics and statistical mechanics are offered. The theoretical framework is strongly supported by an experimental program with an emphasis on accuracy, precision and error estimation.

**Prerequisite(s):** PCB405  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB514 Instrumental Analysis**
This unit provides a theoretical and practical framework for analysis with advanced instrumental techniques and includes the following: atomic spectroscopy; mass spectrometry; HPLC and IC; advanced methods of data analysis: multivariate analysis, pattern recognition, classification and prediction. A complementary practical program is included.

**Prerequisite(s):** PCB242, PCB414  
**Corequisite(s):** PCB242  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB524 Unit Operations**
This unit includes the following: energy balances; principles of particle mechanics and the unit operations used to process solids; principles of fluid mechanics and the unit
operations used to process fluids; principles of heat transfer and the unit operations involving heat transfer; rationale for the design and operation of the many individual processes (or 'unit operations'), which together make up a large part of any large scale process.

**Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB554 Synthesis and Reactivity in Organic Chemistry**
The principles and practice of synthesis planning; synthetically-useful reactions for interconversions of the common functional groups; carbon-carbon bond formation using organometallic reagents and enolates; selectivity and protection; aromaticity and heterocyclic chemistry.

**Prerequisite(s):** PCB354, PCB444  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB561 Quantum and Condensed Matter Physics**

**Prerequisite(s):** PCB462 and (MAB134 or MAB311)  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB562 Physical Methods of Analysis**
The theory and practice of important analysis techniques relevant to the materials sciences is covered with examples drawn from industrial processes. Specific topics to be covered include the following: structure of crystals, types of lattice, unit cells, Miller indices, crystal diffraction, reciprocal space. X-ray diffraction, texture and stress analysis, X-ray fluorescence, electron microscopy.

**Prerequisite(s):** MAB112 or MAB132, PCB462  **Credit points:** 12  **Contact hours:** 4.5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB563 Global Energy Balance and Climate Change**
This unit offers science and engineering students an opportunity to gain awareness about the expanding field of alternative energy technologies and to understand relationships between use of energy and its impact on local and global environment.

**Prerequisite(s):** MAB112 or MAB132  **Credit points:** 12  **Contact hours:** Average 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB567 Advanced Radiographic Technique 1**
This unit includes a study of the principles and techniques used in advanced radiographic techniques including angiography, arthrography, sonography and sialography. It also includes a study of the appearances of pathology on medical images with particular emphasis on the radiographic image.

**Prerequisite(s):** LSB321, PCB476, PCB479  **Corequisite(s):** PCB580-1  **Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB580-1 Clinical Radiography 3**
This unit offers clinical experience in special radiographic procedures as introduced in PCB476, PCB567 and general radiography. (12 credit points achieved at completion of PCB580-1 and PCB580-2.)

**Prerequisite(s):** PCB479  **Corequisite(s):** PCB576  **Credit points:** 6  **Contact hours:** 240 over 6 weeks  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB580-2 Clinical Radiography 3**
This unit offers clinical experience in advanced radiographic techniques as introduced in PCB567, and general radiography. (12 credit points achieved at completion of PCB580-1 and PCB580-2.)

**Prerequisite(s):** PCB580-1  **Credit points:** 6  **Contact hours:** 200 over 5 weeks  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB584 Forensic Examination of Physical Evidence**
This unit presents an overview of the crime scene: its investigation and management; detection and collection of physical evidence; blood splash evidence; fire investigation; bomb scene; forensic osteology; expert evidence; forensic photography; fingerprinting; forensic applications of optical and electron microscopy. Substantial laboratory and workshop sessions complements the theory.

**Prerequisite(s):** PCB414, SCB384  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB587 Specialised Radiotherapy Technique 1**
This course of lectures and practical exercises focuses on the specialised techniques of orthovoltage and superficial therapy. It also includes the study of radioactivity including methods of radiation detection, radioactive equilibrium and production of radioisotopes, the principles and application of brachytherapy.

**Prerequisite(s):** PCB397, PCB489  **Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB590-1 Clinical Radiotherapy 3**
This unit offers clinical experience in radiotherapy treatment and planning including specialised radiotherapy techniques as discussed in PCB587 and PCB595. (12 credit points achieved at completion of PCB590-1 and PCB590-2.)

**Prerequisite(s):** PCB489  **Credit points:** 6  **Contact hours:** 200 over 5 weeks  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB590-2 Clinical Radiotherapy 3**
This unit offers clinical experience in radiotherapy treatment and planning including specialised radiotherapy techniques as discussed in PCB587 and PCB595. (12 credit points achieved at completion of PCB590-1 and PCB590-2.)
Prerequisite(s): PCB590-1  Credit points: 6  Contact hours: 200 over 5 weeks  Campus: Gardens Point  Teaching period: 2008 SEM-2

**PCB593 Digital Image Processing**

This unit provides students with a basic understanding of the computer techniques used in image processing and reconstruction. Specific areas of study include the following: the structure of a digital image; image display techniques; grey scale palettes and look-up tables; Fourier transform theory; convolution theory; image processing hardware; image processing techniques, eg analysis, enhancement and restoration; spatial filtering; Fourier space filtering; methods of image reconstruction; 3D volume and surface rendering; applications of image processing in medicine, astronomy and remote sensing, etc.

**Prerequisite(s):** PCB250 or PCB375 or PCB496  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB595 Computer Assisted Treatment Planning 2**

This unit includes the use of computers in the planning of non-standard and complex radiotherapy treatment including arc and rotation techniques, irregular field techniques and 3 dimensional plans. Use of 3D computer planning system is included.

**Prerequisite(s):** PCB495  **Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCB600 Advanced Radiation Practice**

Includes topics from a number of areas and is designed to complement the particular background of persons undertaking a conversion program or requiring updates in specific skill areas.

**Prerequisite(s):** Previous completion of a Medical Radiations program  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB604 Project**

A research project carried out in association with a staff member, chosen from a variety of chemical problems reflecting the teaching, research and consultancy interests of the Chemistry staff.

**Prerequisite(s):** 4 advanced level Chemistry units  **Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCB605 Biomedical Instrumentation**

This lecture/tutorial program includes an integrated practical component. The topics include the following: transducers; signal conditioning; sources of noise; guarding and shielding; analogue to digital and digital to analogue conversion; computer interfacing; data acquisition; sampling theorem; signal averaging; application of Fourier transforms; signal processing (digital filters); statistics of physical measurements, significance testing; least squares methods; interfacing microcontrollers to analogue circuits.

**Prerequisite(s):** PCB361  **Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB614 Advanced Analysis**

This unit includes the theoretical and practical framework of advanced analytical techniques, emphasising the analysis of materials and more difficult samples than those covered in previous units. Techniques include hyphenated mass spectrometry, analytical electron microscopy, thermal analysis and vibrational spectroscopy.

**Prerequisite(s):** PCB514  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB624 Chemistry in Industry and Technology**

This unit includes mass transfer and heat transfer operations. The unit also includes field trips to various industrial sites, the preparation of field trip report, and a group problem-solving exercise.

**Prerequisite(s):** PCB524  **Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB634 Organometallic and Coordination Chemistry**

Major topics covered are as follows: organometallic chemistry, including metal-carbon bonding, main group and transition metal organometallics and applications of organometallic compounds in synthetic chemistry; bioinorganic chemistry; physical methods of structure determination, such as single crystal X-ray diffraction; chemical applications of group theory.

**Prerequisite(s):** PCB334  **Credit points:** 12  **接触 hours:** 5 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB644 Frontiers in Chemistry**

This unit addresses a selection of topics in advanced chemistry from a range of evolving areas of relevance in modern chemistry and chemical technology such as nanotechnology, drug design, free-radical chemistry and trace metal speciation in environmental and biological systems. It includes the important issue of the societal and ethical implications of the profession of chemistry.

**Prerequisite(s):** PCB434, PCB505, PCB554  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCB661 Experimental Physics**

The content of experiments and projects will vary and be adapted to the interests of each student. Students work independently on sophisticated laboratory experiments or project work with a minimum of staff direction. Skills developed during this unit include communication, problem solving, time management, written and oral presentation, reflective practice, technological literacy skills and working independently.

**Prerequisite(s):** PCB361, PCB460  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCB664 Lasers and Photonics**

Laser and photonic technologies are rapidly maturing areas responsible for creating new industries and employment opportunities for scientists and engineers in the areas of information technology, manufacturing, sensing and health.
In particular, the vast global optical communications industry has dramatically increased information transport rates through the development of new laser sources and photonic devices. At the heart of all advances in photonics is a greater understanding of light-matter interactions and the processes used to fabricate devices. This unit is offered to science and engineering students who seek to understand the physical principles underpinning lasers and photonic devices and their use in a range of optical technologies. 

**Prerequisite(s):** PCB260 or EEB340 and MAB134 or MAB311  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB669 Astrophysics 2**  
This unit presents a theoretical background for the general theory of relativity and relativistic cosmology. This includes special theory of relativity, four-vectors and tensors, tensor calculus, covariant differentiation, least action principle and main postulates in special and general relativity, concepts of the interval and space-time metric, gravitation redshift, geodesic equation, energy tensor, Einstein equations for gravitational field, gravitational collapse, Schwarzschild metric, event-horizon for black holes, gravitational waves, cosmological principle, standard cosmological models, Robertson-Walker metric, dark energy, evolution of the universe, Big bang, cosmological horizons, cosmic background radiation, and cosmological redshift. 

**Prerequisite(s):** PCB362 and MAB311  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB665 Physics 3**  
This unit consists of three parts. Part A extends the content of previous units in electromagnetism and the application of Maxwell's equations, electromagnetic waves, polarisation, dielectric permittivity, transmission line theory, waveguides, optic fibre theory, antennae. Part B includes a detailed study of magnetic resonance and its applications. Part C presents the extension of studies in statistical mechanics, including microscopic approach to entropy, partition function, paramagnetism, perfect and real classical and quantum gases, phase equilibria, Bose-Einstein condensate, Brownian motion. 

**Prerequisite(s):** PCB362, PCB462  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB667 Advanced Radiographic Technique 2**  
This unit is an extension of topics in advanced radiographic techniques and professional practice. It includes a course of lectures and practical exercises on image interpretation including technical and diagnostic quality and decision-making. 

**Prerequisite(s):** PCB567, PCB580-1  
**Corequisite(s):** PCB580-2  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB672-1 Project**  
This is a supervised project involving either application of existing theoretical practical knowledge or a literature survey of a selected relevant topic. (12 credit points achieved at completion of PCB672-1 and PCB672-2).  

**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB672-2 Project**  
This is a supervised project involving either application of existing theoretical practical knowledge or a literature survey of a selected relevant topic. (12 credit points achieved at completion of PCB672-1 and PCB672-2.) 

**Prerequisite(s):** PCB672-1  
**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB675 Radiation Safety and Biology**  
This unit includes a study of the biological effects of ionising radiation and the philosophy and protocol in radiation protection. 

**Prerequisite(s):** PCB272  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB681 Computed Tomography Imaging**  
This unit covers both the technological and clinical aspects of X-ray computed tomography (CT). Clinical applications described include those for specific anatomical areas as well as advanced and interventional applications. The strengths and weaknesses of CT in relation to other imaging modalities are discussed. 

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCB682 Magnetic Resonance Imaging**  
This unit includes the physical principles and clinical techniques used in magnetic resonance imaging. The clinical applications for specific anatomical areas and pathologies are discussed. 

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB684 Forensic Analysis and Toxicology**  
This unit provides a theoretical and practical framework for forensic analysis and toxicology. It includes topics such as nature and abuse of drugs; introduction to pharmacology and toxicology; illicit drugs and trace evidence; the application of GC, MS and IR in forensic examination; examination of trace evidence. Substantial laboratory and workshop sessions complement the theory. 

**Prerequisite(s):** PCB242, PCB514  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCB687 Specialised Radiotherapy Technique 2**  
This unit includes a study of specialised radiotherapy techniques including techniques applicable to the child patient and patients with communicable disease, total body photon and electron therapy. It also covers the principles, strengths and stage of development of techniques that are integral or complementary to the modern radiotherapy treatment of cancer. 

**Prerequisite(s):** PCB595  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2
PCB695 Advanced Treatment Planning Topics
This unit is a study of the principles and techniques of medical imaging used in the detection of cancer including MRI, PET and SPECT. This study also covers future directions of three dimensional treatment planning, and IMRT.

Prerequisite(s): PCB595  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

PCB700-1 Research Project
Students undertaking Honours are required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB700-2 Research Project
Students undertaking Honours are required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB700-3 Research Project
Students undertaking Honours are required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB700-4 Research Project
Students undertaking Honours are required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB700-5 Research Project
Students undertaking Honours are required to select and undertake, in consultation with a supervisor, a substantial project in an appropriate area. Each project is assessed on the basis of an extensive written report and an oral presentation. (60 credit points achieved at completion of PCB700-1, PCB700-2, PCB700-3, PCB700-4 and PCB700-5.)

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB706 Quantum Mechanics
Review of operators and their role in quantum mechanics, different representations, Dirac notations and linear vector space, matrix approach to quantum mechanics, eigenvalues and eigenvectors, unitary transformations, R- and P-representations, tensor product of states, six postulates of quantum mechanics, concept of measurements, quantum entanglement, density matrix, general theory of angular momentum, quantum oscillator, two-level systems, non-relativistic theory of spin, spinors, theory of scattering, Born approximation, perturbation theory.

Prerequisite(s): PCB561  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

PCB708 Advanced Topics in Physics
No more than three topics are included. The content is determined by current research advances, availability of appropriate staff, visiting academics, etc and may vary from year to year.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB742 Elective Unit
The subjects are chosen to suit individual students but the topics studied would normally be in specific areas of physical chemistry, analytical chemistry, inorganic chemistry or organic chemistry and would be chosen from subjects presently offered in the masters program or other post graduate programs. Relevant material from other accredited courses may be included as part or all of the requirement for this subject as directed by the Course Coordinator and Head of School.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCB780-1 Advanced Topics in Chemistry 1
This is the first semester component of a two-semester unit covering a selection of advanced topics in the areas of physical, organic and inorganic chemistry. The topics offered reflect the expertise of the academic staff as well as the needs of the students. (24 credit points achieved at completion of PCB780-1 and PCB780-2.)

Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

PCB780-2 Advanced Topics in Chemistry 1
This is the second semester component of a two-semester unit covering a selection of advanced topics in the areas of physical, organic and inorganic chemistry. The topics offered reflect the expertise of the academic staff as well as the needs of the students. (24 credit points achieved at completion of PCB780-1 and PCB780-2.)

Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

PCN112 Medical Imaging Science
This unit offers an introduction to programming techniques and algorithms and digital image processing; the principles
of display, perception and interpretation of medical images; image quality. The second part, nuclear medicine, describes radioactive decay, radionuclide production, imaging systems and internal dosimetry.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN113 Radiation Physics**  
This unit includes the following: radioactivity and the interaction of ionising radiation with matter; applied radiation counting techniques; radiation detectors; radiation dosimetry.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN114 Microprocessors and Instrumentation**  
This unit includes the capabilities and limitations of a given instrument; design of interfaces between microcomputers and transducers; signal conditioning and signal conversion circuits for data acquisition.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN121 Vision Colour and Photometry**  
This unit includes the following: measurement of luminous flux; luminous intensity; illuminance; luminance; reflectance; transmittance; diffuse surfaces; inverse square law; cosine law; Munsell and CIE Colour System; chromaticity coordinates Yxy, L*A*B*, Luv, correlated colour temperature, colour rendering indices; the integrating sphere; goniophotometry; distribution photometry; graphical representation of photometric data; measuring instruments; accuracy; repeatability; the physiology of the eye and light detection; contrast sensitivity; colour vision; adaptation; brightness and lightness; image detection and recognition including edge detection; lightness determination; the association of the characteristics of patterns.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN122 Lighting Design**  
This unit includes the following: definition of the visual field; the extension of threshold studies to practical task situations; the evaluation of visual tasks; the development of measures of discomfort and disability glare; illuminance and glare scales; methods for the assessment of tasks and environments; experimental techniques of evaluation. It also includes the perception of colour, form, pattern and space, and issues relating to the perception and comprehension of the environment; aesthetics, perception and emotion; the practical methods available for predicting illuminances from daylight and uniform arrays of luminaires; the prediction of discomfort; appraisals; codes of practice; economics; maintenance; integration of daylight and electric light.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN123 Sustainability and Human Factors**  
This unit will not cover all areas of specialised lighting, but rather will concentrate on the more important and general public lighting situations. Topics covered include emergency lighting requirements, road lighting, pedestrian lighting and sports lighting, with particular reference to standards for specialised lighting situations, equipment, required light distributions and calculation and design techniques. There is a need to fully understand the issues involved in designing for these applications and to be able to build a design that satisfies the requirements with quality and efficient lighting solutions.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN124 Lamps and Luminaires**  
This unit includes the development of light sources, the practical requirements of light sources including tubular fluorescent lamps, various high and low pressure discharge lamps. Practical lamps are discussed in terms of luminous efficacy, spectral output, colour rendering, life, supply requirements, control gear, cost, etc. The unit also addresses the design, manufacture, testing and the provision of data on luminaires methods of light control; the properties of optical systems; refractors; reflectors and diffusers; luminance control techniques; manufacture of luminaires and auxiliaries; codes and provision of photometric data for indoor and outdoor luminaires; the calculation of utilisation factors; luminaire luminances; computerised testing.

**Corequisite(s):** PCN121  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN155 Cardiac Ultrasound 1**  
A comprehensive understanding of two-dimensional echocardiography and M-mode (motion mode) echocardiography is essential for professionals working in this field. This includes a detailed understanding of cardiac anatomy and physiology as well as a basic understanding of the embryological development of the human heart. Topics include embryological development of the human heart, detailed anatomy of the adult human heart, physiology of the adult human heart, basic cardiac pharmacology, basic electrocardiograph (ECG) patterns, the routine adult two-dimensional and M-mode echocardiographic examination of the adult heart (including standard two-dimensional and M-mode measurements and calculations).

**Corequisite(s):** PCN497-1  
**Credit points:** 12  
**Contact hours:** 39  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN159 Ultrasonic Examination 1**  
The unit addresses the normal and abnormal anatomy and functions related to gynaecology and obstetrics, the ultrasonic techniques used and the appearance of related images. It includes a study of the technique used in the ultrasonic examination of the abdomen including the appearance on the ultrasound image of normal abdominal anatomy and its alteration by pathological processes.

**Corequisite(s):** PCN162, PCN197-1, PCN197-2  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN162 Principles of Medical Ultrasound**  
This unit is designed to provide students with a thorough understanding of the physical processes involved in producing an ultrasound image, the features of ultrasound equipment and the role and responsibilities of the sonographer in producing a diagnostic examination. Topics
include general scanning principles and considerations, care of equipment, physics of ultrasound, ultrasound equipment features, image production and processing, artefacts, image recording methods, quality control, biological hazards and safety issues, principles of Doppler ultrasound, care of the patient and communication issues.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN184 Breast Imaging**  
This unit includes the following: medical imaging of the breast; principles of mammographic and sonographic imaging; breast anatomy and physiology; pathological conditions affecting the breast and its appearance; advanced mammographic techniques; mammographic and sonographic quality assurance.

**Prerequisite(s):** PCN162, PCN187  
**Corequisite(s):** PCN397  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN187 Specialist Studies - Breast Ultrasound Strand**  
This unit allows students to explore specialist techniques and applications through self-directed study and research.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN197-1 Clinical Attachment 1**  
This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN197-1 and PCN197-2.)

**Corequisite(s):** PCN159, PCN162  
**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN197-2 Clinical Attachment 1**  
This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN197-1 and PCN197-2.)

**Prerequisite(s):** PCN197-1  
**Corequisite(s):** PCN159, PCN162  
**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN214 Health and Occupational Physics**  
This unit introduces the philosophy, protocols and practices of safety in the medical and industrial physics fields and the minimisation of hazards associated with radiation, and laser techniques.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN218 Research Methodology and Professional Studies**  
In the rapidly changing technological environment of medical physics and medical ultrasound it is essential that students develop basic research skills, data interpretation skills and written communication skills. Topics include the research process, data collection and analysis techniques, and writing and evaluating research reports. Students also require knowledge of the professional, basic management, legal and ethical issues involved in their particular speciality area. Topics include the role and purpose of professional bodies, professional communication, legal and ethical issues, and basic professional management techniques and issues.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN221 Best Practices in Lighting**  
Electrical energy usage and subsequent energy analysis techniques, advantages and disadvantages of choosing low energy lamps and luminaries, compromising low energy sources and quality lighting, sensors and sensing techniques for lighting control, energy conservation through dimming and lamp switching, daylighting techniques, potential for energy savings through daylighting, daylighting design and calculations.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN222 Advanced Lighting Design**  
This unit includes the latest developments in lamp technologies and sources (including LEDs and lasers), lighting in the mesopic range, a review of factors influencing lighting design; discomfort and disability glare; illuminance and glare scale, methods for the assessment of tasks and environments; in-depth studies of colour, form, pattern and space, issues relating to the perception and comprehension of the environment; the practical effects of daylight, introduction to the integration of daylight and electric lighting. This is a very hands-on unit with a large component of computer design work, group discussions and site visits and evaluations.

**Prerequisite(s):** PCN122, PCN123  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PCN223 Lighting Applications**  
This unit builds on the material covered in PCN122 and looks in more depth at some of the applications covered in that unit, namely street lighting and public access lighting, as well as other areas not covered in that unit, including general floodlighting requirements and equipment, light distributions, calculation methods, area floodlighting, building floodlighting, pedestrian lighting, tunnel lighting,
vehicle lighting, traffic signals, airport lighting, navigation lighting, display lighting, and advertising.

**Prerequisite(s):** PCN123  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCN224 Applied Lighting**

There is no set material for this unit. Students undertake an approved project over a semester on any topic relevant to their interest in lighting. The project may be predominantly a reading course, reviewing, comparing or analysing material on a specific topic, or it may be a practically oriented project involving manufacture, measurement or analysis of a particular lighting product or installation. The project may be taken at QUT or within the person's place of employment.

**Credit points:** 12  **Contact hours:** PH72, PH82  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN259 Cardiac Ultrasound 2**

The field of medical ultrasound is scientifically based, in an environment that is rapidly changing and undergoing considerable technological advancement. A thorough understanding of the techniques used in the evaluation of the fetal, paediatric and adult heart is essential for professionals working in this field. Topics include patient preparation and communication requirements, basic electrocardiograph (ECG) patterns, the routine adult echocardiographic examination (including the 2-dimensional, M-mode, spectral Doppler and colour flow Doppler examinations and standard calculations), basic hemodynamics and an introduction to Doppler physics and principles.

**Prerequisite(s):** PCN155  **Corequisite(s):** PCN497-2  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCN297-1 Clinical Attachment 2**

This unit includes a period of additional supervised clinical practice designed to expand and refine skills acquired in PCN197. (12 credit points achieved at completion of PCN297-1 and PCN297-2.)

**Prerequisite(s):** PCN159, PCN197-1, PCN197-2, PCN356  **Credit points:** 6  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCN297-2 Clinical Attachment 2**

This unit includes a period of additional supervised clinical practice designed to expand and refine skills acquired in PCN197. (12 credit points achieved at completion of PCN297-1 and PCN297-2.)

**Prerequisite(s):** PCN159, PCN197-1, PCN197-2, PCN297-1, PCN356  **Credit points:** 6  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCN320 Lighting Project**

This unit will be a project in some area of lighting in keeping with the student's interest. The project may be undertaken at QUT or within the student's place of employment and may be a project of direct interest and value to the student's employer.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 24  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN321 Reading Topic 1**

The make-up of this unit will be determined on a student-by-student basis, taking account of the student's interest, their proposed Master's project, and the availability of appropriate units. The units may be drawn from existing QUT units (including from PH72 GradDipLighting) or units from other universities in Australia.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN322 Reading Topic 2**

The make-up of this unit will be determined on a student-by-student basis, taking account of the student's interest, their proposed Master's project, and the availability of appropriate units. The units may be drawn from existing QUT units (including from PH72 GradDipLighting) or units from other universities in Australia.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN355 Vascular Ultrasound**

This unit includes the principles and equipment requirements of ultrasound applications in the cardiovascular system. It also includes the clinical techniques and diagnostic criteria of such applications, in particular those of the peripheral arterial and venous systems.

**Prerequisite(s):** PCN159, PCN162  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCN356 Ultrasonic Examinations 2**

This unit includes the ultrasound techniques used to examine the head, neck and peripheral organs and the ultrasonic appearance of normal and abnormal anatomy and pathology. It also includes ultrasound techniques in advanced obstetrics and gynaecology and in the abdomen.

**Prerequisite(s):** PCN159, PCN162  **Corequisite(s):** PCN197-1, PCN197-2  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PCN357 Advanced Ultrasound Topics**

This unit builds on content of PCN159 and PCN356 providing more advanced applications of ultrasound in obstetrics. This unit also provides a study of the applications of ultrasound techniques in paediatrics and an overview of echocardiography.

**Prerequisite(s):** PCN159, PCN162, PCN356  **Corequisite(s):** PCN297-1, PCN297-2  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**PCN359 Cardiac Ultrasound 3**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit extends and builds on the content of PCN259 by introducing concepts and techniques of the complex hemodynamic examinations and discussing the applications of the techniques described to common
pathological clinical situations. Topics include Doppler calculations, assessment of systolic function. Echocardiographic assessment of pathological conditions of the heart and great vessels.

**Prerequisite(s):** PCN259, PCN497-1, PCN497-2

**Corequisite(s):** PCN597-1

Credit points: 12

Contact hours: 3 per week

Campus: Internet and Gardens Point

Teaching period: 2008 SEM-1

**PCN397-1 Clinical Attachment**

This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN397-1 and PCN397-2.)

Credit points: 6

Campus: Gardens Point

Teaching period: 2008 SEM-1

**PCN397-2 Clinical Attachment**

This is a supervised practical program carried out in an approved medical imaging department. Students are required to undertake specified clinical practice as applicable to their area of specialisation and meet minimum requirements of clinical hours and case scope and numbers. (12 credit points achieved at completion of PCN397-1 and PCN397-2.)

Credit points: 6

Campus: Gardens Point

Teaching period: 2008 SEM-2

**PCN459 Advanced Cardiac Ultrasound**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit extends and builds on the content of units PCN259 and PCN359 by introducing more advanced applications of echocardiography. The advanced areas of diastolic function, unusual pathologies, the assessment of congenital heart lesions in the foetus, and paediatric and adult patient, systemic causes of heart diseases, and new and evolving technologies are covered. Additionally, an overview of other diagnostic methods of the heart is presented in order to demonstrate the complementary nature of diagnostic testing.

**Prerequisite(s):** PCN397-1

**Corequisite(s):** PCN597-1, PCN597-2

Credit points: 12

Contact hours: 3 per week

Campus: Gardens Point

Teaching period: 2008 SEM-2

**PCN497-1 Clinical Attachment 4**

The field of medical ultrasound is scientifically based, in an environment that is rapidly changing and undergoing considerable technological advancement. Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. In this unit, basic echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN497-1 and PCN497-2.)

**Corequisite(s):** LSN259

Credit points: 6

Contact hours: 3 per week

Campus: Gardens Point

Teaching period: 2008 SEM-1

**PCN497-2 Clinical Attachment 4**

The field of medical ultrasound is scientifically based, in an environment that is rapidly changing and undergoing considerable technological advancement. Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. In this unit, basic echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN497-1 and PCN497-2.)

Credit points: 12

Campus: Gardens Point

Teaching period: 2008 SEM-2

**PCN520 Project (Full-time)**

The project may take the form of research development, a design, a feasibility study, or the collation of scattered information on a given topic. The project can be undertaken externally under QUT supervision. Time spent on projects is one semester for full-time and two semesters for part-time students.

Credit points: 48

Contact hours: 18 per week

Campus: Gardens Point

Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PCN540-1 Project (Part-time)**

The project may take the form of research development, a design, a feasibility study, or the collation of scattered information on a given topic. The project can be undertaken externally under QUT supervision. Time spent on projects is one semester for full-time and two semesters for part-time students. (48 credit points achieved at completion of PCN540-1 and PCN540-2.)

Credit points: 24

Contact hours: 9 per week

Campus: Gardens Point

Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PCN540-2 Project (Part-time)**

The project may take the form of research development, a design, a feasibility study, or the collation of scattered information on a given topic. The project can be undertaken externally under QUT supervision. Time spent on projects is one semester for full-time and two semesters for part-time students. (48 credit points achieved at completion of PCN540-1 and PCN540-2.)

Credit points: 24

Contact hours: 9 per week

Campus: Gardens Point

Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PCN597-1 Clinical Attachment 5**

Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it
allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. This unit builds on skills, knowledge and abilities gained in the unit PCN497. In this unit, basic skills are refined and expanded, and advanced echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN597-1 and PCN597-2.)

**Prerequisite(s):** PCN259, PCN497-1, PCN497-2  
**Corequisite(s):** PCN359  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**PCN597-2 Clinical Attachment 5**  
Cardiac ultrasound (echocardiography) is a highly specialised technique for the assessment of the human heart. This unit is an essential component of the course as it allows the student to be involved in extensive clinical experience that is complementary to all other units in the course. This unit builds on skills, knowledge and abilities gained in the unit PCN497. In this unit, basic skills are refined and expanded, and advanced echocardiographic skills are developed through employment and training in a QUT approved clinical department. Clinical skills are developed and evaluated by QUT approved clinical supervisors, in consultation with QUT academic staff. (12 credit points achieved at completion of PCN597-1 and PCN597-2.)

**Prerequisite(s):** PCN359, PCN497  
**Corequisite(s):** PCN459  
**Credit points:** 6  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN640-1 Project**  
The project may take the form of research development, a feasibility study, or the collation of disparate, scattered information. The project can be undertaken externally, under QUT supervision. The project would normally be undertaken part-time over 2 semesters. (48 credit points achieved at completion of PCN640-1 and PCN640-2.)

**Prerequisite(s):** PH75  
**Credit points:** 24  
**Contact hours:** 9 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN640-2 Project**  
The project may take the form of research development, a feasibility study, or the collation of disparate, scattered information. The project can be undertaken externally, under QUT supervision. The project would normally be undertaken part-time over 2 semesters. (48 credit points achieved at completion of PCN640-1 and PCN640-2.)

**Prerequisite(s):** PH75, PCN640-1  
**Credit points:** 24  
**Contact hours:** 9 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN701 Topics in Advanced Chemistry 1**  
This unit includes a series of lectures and/or a reading program and/or selected laboratory exercises designed to provide the student with the appropriate theoretical and practical background, at an advanced level, necessary for the completion of a research program.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN705-1 Research Methodology**  
This unit is a guided program of literature surveys to provide the background information for the research project. This unit enables students to develop verbal and oral communication skills required for the successful conduct of a chemical research project. During the course students will be required to attend and participate in seminars. Students must present two seminars on their own research. (12 credit points achieved at completion of PCN705-1 and PCN705-2.)

**Prerequisite(s):** PCN705-1  
**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN705-2 Research Methodology**  
This unit includes a guided program of literature surveys to provide the background information for the research project. This unit enables students to develop verbal and oral communication skills required for the successful conduct of a chemical research project. During the course students will be required to attend and participate in seminars. Students must present two seminars on their own research. (12 credit points achieved at completion of PCN705-1 and PCN705-2.)

**Prerequisite(s):** PCN705-1  
**Credit points:** 6  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN710 Chemical Instrumentation**  
This unit presents chemical instrumentation and electronics required for advanced level operation of scientific instrumentation.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN715 Advanced Topics in Physics 1**  
This unit provides a focused theoretical foundation for each students research program or other advanced topics in physics and develops a high level of theoretical understanding of the physical principles involved.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN716 Advanced Topics in Physics 2**  
This unit provides a focused theoretical foundation for each students research program or other advanced topics in physics and develops a high level of theoretical understanding of the physical principles involved.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCN720 Chemometrics**  
This unit includes the following: the concepts of chemical data acquisition and interpretation; computational methods and existing software packages for statistical analysis in chemistry; statistical methods in quality and process control; sampling procedures; multivariate analysis and optimisation techniques.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2
PCN730 Advanced Physical Methods in Chemistry
This unit includes the theoretical and practical principles of selected physical methods in chemistry.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCN740 Laboratory Techniques for Preparative Chemistry
This unit includes the experimental techniques for the preparation and isolation of pure substances.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCN801 Topics in Advanced Chemistry 2
This unit includes a series of lectures and/or a reading program and/or selected laboratory exercises designed to provide the student with the appropriate theoretical and practical background, at an advanced level, necessary for the completion of a research program.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

PCZ121 Vision Colour and Photometry
This unit includes the following: measurement of luminous flux; luminous intensity; illuminance; luminance; reflectance; transmittance; diffuse surfaces; inverse square law; cosine law; Munsell and CIE Colour System; chromaticity coordinates Yxy, L*A*B*, Luv, correlated colour temperature, colour rendering indices; the integrating sphere; goniophotometry; distribution photometry; graphical representation of photometric data; measuring instruments; accuracy; repeatability; the physiology of the eye and light detection; contrast sensitivity; colour vision; adaptation; brightness and lightness; image detection and recognition including edge detection; lightness determination; the association of the characteristics of patterns.
Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SUMMER

PCZ122 Lighting Design
This unit includes the following: definition of the visual field; the extension of threshold studies to practical task situations; the evaluation of visual tasks; the development of measures of discomfort and disability glare; illuminance and glare scales; methods for the assessment of tasks and environments; experimental techniques of evaluation. It also includes the perception of colour, form, pattern and space, and issues relating to the perception and comprehension of the environment; aesthetics, perception and emotion; the practical methods available for predicting illuminances from daylight and uniform arrays of luminaires; the prediction of discomfort; appraisals; codes of practice; economics; maintenance; integration of daylight and electric light.
Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SEM-1

PCZ123 Sustainability and Human Factors
This unit will not cover all areas of specialised lighting, but rather will concentrate on the more important and general public lighting situations. Topics covered include emergency lighting requirements, road lighting, pedestrian lighting and sports lighting, with particular reference to standards for specialised lighting situations, equipment, required light distributions and calculation and design techniques. There is a need to fully understand the issues involved in designing for these applications and to be able to build a design that satisfies the requirements with quality and efficient lighting solutions.
Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SEM-1

PCZ124 Lamps and Luminaires
This unit includes the development of light sources, the practical requirements of light sources including tubular fluorescent lamps, various high and low pressure discharge lamps. Practical lamps are discussed in terms of luminous efficacy, spectral output, colour rendering, life, supply requirements, control gear, cost, etc. The unit also addresses the design, manufacture, testing and the provision of data on luminaires methods of light control; the properties of optical systems; refractors; reflectors and diffusers; luminance control techniques; manufacture of luminaires and auxiliaries; codes and provision of photometric data for indoor and outdoor luminaires; the calculation of utilisation factors; luminaire luminances; computerised testing.
Corequisite(s): PCZ121  Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SUMMER

PCZ221 Best Practices in Lighting
Electrical energy usage and subsequent energy analysis techniques, advantages and disadvantages of choosing low energy lamps and luminaries, compromising low energy sources and quality lighting, sensors and sensing techniques for lighting control, energy conservation through dimming and lamp switching, daylighting techniques, potential for energy savings through daylighting, daylighting design and calculations.
Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SUMMER

PCZ222 Advanced Lighting Design
This unit includes the latest developments in lamp technologies and sources (including LEDs and lasers), lighting in the mesopic range, a review of factors influencing lighting design; discomfort and disability glare; illuminance and glare scale, methods for the assessment of tasks and environments; in-depth studies of colour, form, pattern and space, issues relating to the perception and comprehension of the environment; the practical effects of daylight, introduction to the integration of daylight and electric lighting. This is a very hands-on unit with a large component of computer design work, group discussions and site visits and evaluations.
Prerequisite(s): PCZ122, PCZ123  Credit points: 12  Campus: City University of Hong Kong  Teaching period: 2008 SEM-2

PCZ223 Lighting Applications
This unit builds on the material covered in PCN122 and looks in more depth at some of the applications covered in that unit, namely street lighting and public access lighting,
as well as other areas not covered in that unit, including general floodlighting requirements and equipment, light distributions, calculation methods, area floodlighting, building floodlighting, pedestrian lighting, tunnel lighting, vehicle lighting, traffic signals, airport lighting, navigation lighting, display lighting, and advertising.

**Prerequisite(s):** PCZ224 Credit points: 12 Campus: City University of Hong Kong Teaching period: 2008 SEM-2

**PCZ224 Applied Lighting**
There is no set material for this unit. Students undertake an approved project over a semester on any topic relevant to their interest in lighting. The project may be predominantly a reading course, reviewing, comparing or analysing material on a specific topic, or it may be a practically oriented project involving manufacture, measurement or analysis of a particular lighting product or installation. The project may be taken within the person’s place of employment.

**Credit points:** 12  **Campus:** City University of Hong Kong  **Teaching period:** 2008 SUMMER

**PCZ320 Lighting Project**
This unit will be a project in some area of lighting in keeping with the student's interest. The project may be undertaken at QUT or within the student's place of employment and may be a project of direct interest and value to the student's employer.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 24  **Campus:** City University of Hong Kong  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PCZ321 Reading Topic 1**
The make-up of this unit will be determined on a student-by-student basis, taking account of the student's interest, their proposed Master's project, and the availability of appropriate units. The units may be drawn from existing QUT units (including from PH73 GradDipLighting) or units from other universities in Australia.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 12  **Campus:** City University of Hong Kong  **Teaching period:** 2008 SEM-1

**PCZ322 Reading Topic 2**
The make-up of this unit will be determined on a student-by-student basis, taking account of the student's interest, their proposed Master's project, and the availability of appropriate units. The units may be drawn from existing QUT units (including from PH73 GradDipLighting) or units from other universities in Australia.

**Prerequisite(s):** As appropriate  **Corequisite(s):** As appropriate  **Credit points:** 12  **Campus:** City University of Hong Kong  **Teaching period:** 2008 SEM-1

**PQB250 Mechanics and Electromagnetism**
The experimental means by which we have arrived at our modern understanding of the universe is central to the scientific philosophy. Students of physics and physics related areas need to possess skills in quantitative handling, processing, communication and evaluation of data. Higher level studies in specialised areas of Physics require a familiarity with a range of fundamental topics in Physics and an ability to apply critical thinking and advanced mathematical techniques to the analysis and solution of Physical problems. This first-level unit lays the foundation for these higher level studies by introducing the fundamental topic areas of mechanics and electromagnetism.

**Prerequisite(s):** MAB100 or SA in Senior Maths B (assumed knowledge)  **Corequisite(s):** MAB111 and MAB112  **Credit points:** 12 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** PCB250, PQB123

**PQB251 Waves and Optics**
Wave phenomena are used to describe and explain many of the physical processes in the universe. Sound and light are the most commonly experienced of these and have far-reaching human applications, including their use as experimental tools for science. The study of wave phenomena has led to the development of quantum mechanics, a cornerstone of modern scientific thought. This first-level unit lays the foundation for discussion of wave phenomena in higher level studies, but will also be relevant to those not considering progressing to a Physics major but wishing to understand more of the Physical world in which we live.

**Prerequisite(s):** SA in Senior Maths B (assumed knowledge)  **Credit points:** 12  **Contact hours:** 4.5 hours per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2  **Incompatible with:** PCB260

**PSB416 Research and Criticism**
This unit fosters an understanding of worldviews influencing the culture of landscape architecture. Module 1 includes the what, why and how of landscape research. Module 2 includes contemporary belief systems in landscape research and module 3 covers methods for answering researchable questions.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**PSB434 Landscape Construction A (L'scape Only)**
The unit comprises three primary components: grading (manipulation of land surfaces); materials and construction elements (development of understanding of the properties and use of common construction materials relevant to landscape construction); introduction to structures (principles of structural mechanics). In all of these components attention is paid to the development of appropriate technical drawing and documentation techniques for the preparation of construction documentation.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**PSB444 Landscape Construction B (L'scape Only)**
The unit comprises three primary components: grading (manipulation of land surfaces); materials and construction elements (development of understanding of the properties and use of common construction materials relevant to landscape construction); introduction to structures (principles of structural mechanics). In all of these components attention is paid to the development of appropriate technical drawing and documentation techniques for the preparation of construction
PSB434 Documentation

Prerequisite(s): PSB434  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

PSB451 Planning/Landscape Design 5

This unit requires individual work supported by informal workshops. The content is organised within a community and based upon an area, which has a complex array of uses, constraints and opportunities. Following an overview of the given area and a statement of broad directions for improving the quality of the physical and social environments, each student proposes an individual study topic. The topic is then researched and a study area analysis undertaken to develop a brief for development of subsequent proposals. Each student carries through the brief by developing conceptual and detailed proposals for the study topic.

Prerequisite(s): PSB451  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

PSB452 Professional Skills 2

This unit includes the following: the sources and importance of systems of values; appreciation of the diversity of values in modern Australian society; exploration of relevant codes of professional conduct; explorations of value based and ethical implications relevant to topical issues of the day, such as land development, conservation, government policies, changing technology, or cultural diversity; identification of potential sources of conflict in communities and groups; principles of conflict management; conflict management processes and techniques related to relevant aspects of professional activity, including community consultation, working with groups, professional teams and the like; approaches to effective and principled negotiation.

Prerequisite(s): PSB441  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

PSB453 Elective 1

Elective units may be offered by the School or through other Faculties within the University. All electives are to be approved by the Course Coordinators.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

PSB461 Planning/Landscape Design 6

This unit requires individual work supported by informal workshops. The content is organised within a community and based upon an area, which has a complex array of uses, constraints and opportunities. Following an overview of the given area and a statement of broad directions for improving the quality of the physical and social environments, each student proposes an individual study topic. The topic is then researched and a study area analysis undertaken to develop a brief for development of subsequent proposals. Each student carries through the brief by developing conceptual and detailed proposals for the study topic.

Prerequisite(s): PSB451  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

PSB462 Conservation and Management

This composite unit contains two segments: heritage studies (conservation) and land use policies and evaluation (management). The conservation segment deals with the theory and practice behind the conservation of the built and natural environment. It includes an introduction to the Australia ICOMOS' Burra Charter and conservation principles and accepted procedures, methods of researching and recording, assessment of cultural and natural significance, and locally applicable protective heritage legislation. The management segment deals with the roles of different levels of government in Australia related to land use policy.

Prerequisite(s): PSB432  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

PSB463 Elective 2

Elective units may be offered by the School or through other Faculties within the University. All electives are to be approved by the course coordinators.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

PSB612 Spatial and Land Information Management

The spatial information science application areas of this unit include: application areas; resource management; urban and rural planning; cadastral administration; facilities management. System planning includes a system planning overview, functional requirements analysis, system evaluation and benchmarking. System implementation includes database creation, implementation issues, implementation strategies. Other aspects include standards, legal issues, and knowledge-based techniques.

Prerequisite(s): PSB631  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

PSB613 Land Development Principles and Policies

This unit addresses principles and policies concerned with sustainability of land development from an economic, ecological and social perspective.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

PSB614 Urban and Rural Design Principles

This unit includes the following: the history of land development, especially urban land development, in Australia and in Queensland; the effects of technology and social attitudes on urban land development; the physical, economic and social determinants of land use; land development as an economic activity; economic and social benefits of land development controls; geometric layout of rural and urban roads for urban subdivisions; site analysis and assessment including traffic planning; storm water and sewerage systems; provision and location of services; controls affecting subdivisions (negotiations, applications, appeals and preparations for Court).

Prerequisite(s): PSB613  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

PSB615 Urban and Rural Design Practice

This unit includes further work on conventional and innovative subdivision design, integration of road and lot design with engineering works, especially drainage; subdivision designs and procedures for canal estates, industrial estates, group title, building units and other strata.
titles; costing and cash flow analysis for subdivision projects; feasibility studies, designing to a budget; preparation of a complete application for a local authority approval.

**Prerequisite(s):** PSB614 Credit points: 12 Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

**PSB621 Advanced Cadastral Surveying**

This unit includes the following: property rights as a method of resource control; creating and maintaining knowledge of property rights, including issues concerned with parcel identifiers, land tenure, land boundaries, land subdivision, land registration, changing rights through statutory changes, attitudes and responses of the public; evidence of property rights; evolution from customary land tenures to land registration systems; factors leading to breakdown of systems; effects of technological change on land use; evolving property rights and obligations; information technology and land use controls; procedures of the various departments including but not confined to, the Department of Lands, Resources Industries.

**Prerequisite(s):** PSB620  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

**PSB632 Photogrammetry**

This unit includes the following: basic elements of the photogrammetric mapping process; planning and execution of the project control for photogrammetry; mathematics for photogrammetry, geometry and use of a stereo model; space resection of a single photograph; aerotriangulation with independent method; block triangulation by bundle method GPS controlled photography; principles of plotting with a stereoplottet; rectification of Photographs; acquisition of plan and height points; accuracy assessment; digital mapping and its relationship to Geographic Information Systems and remote sensing.

**Prerequisite(s):** PSB631, PSB642  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

**PSB633 Map Production: Principles and Practice**

This unit includes the following: map design, production principles, production practice and publishing; reprographics and printing methods; desktop publishing; colour system for cartographic drawing; colour separation; grid and graticules and design layout; interactive mapping and selection of layers; generalisation and symbolisation.

**Prerequisite(s):** PSB632  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

**PSB642 Control Surveying and Analysis**

This unit includes the following: reconnaissance for geodetic surveys (formulate mathematical models for the solution of linear and non-linear positioning in one, two and three dimensions); geodetic observations techniques and reduction of observations; the three classical methods of geodetic surveying (triangulation, trilateration and traversing); precise levelling including instrument testing; properties of the meridian ellipse; radii of curvature, meridian arc; spheroid as a geodetic reference surface, latitude, longitude, geoid separation and ellipsoidal height; mutual conversion of geodetic and Cartesian coordinates.

**Prerequisite(s):** PSB641, MAB730  
Credit points: 12  
Contact hours: 5 per week  
Campus: Gardens Point

**PSB643 Geodesy**

This unit contains the following theory: concept and classification of geodesy, the basic concepts of Earth's gravity field, level surfaces and plumb lines, heights, geoid, mean sea level, spherical harmonics etc, fundamentals of satellite geodesy, reference coordinate systems. It considers GPS positioning models and algorithms, software, GPS field observing, various GPS applications in geomatics; mapping terms and definitions; the mapping problem; principles for deriving projections; the use of skew graticules; the UTM system.

**Prerequisite(s):** PSB642  
Credit points: 12  
Contact hours: 4 per week  
Campus: Gardens Point

**PSB644 Advanced Geodesy**

This unit includes the following: GPS operation and navigation messages; GPS observable and error budget; differing techniques; GPS positioning models and algorithms; software; GPS field observing; static, kinematic, RTK and various GPS applications in geomatics. It also includes a practical on the GPS network.

**Prerequisite(s):** PSB643  
Credit points: 12  
Contact hours: 5 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

**PSB645 Surveying and Mapping Practice**

This unit includes the following: field surveys for DTMs as-constructed surveys; associated specifications and standards; mining surveying for surface and below surface mining activities; hydrographic surveying for exploration and port management.

**Prerequisite(s):** PSB642  
Credit points: 12  
Contact hours: 5 per week  
Campus: Gardens Point  
Teaching period: 2008 SEM-2

**PSB650 Project 1**

Students study an existing approved unit from within the School, Faculty or University. Students study the chosen unit under the above elective code or students study a special topic of interest such as a series of lectures delivered by a specialist in that field, in which case a unit outline is prepared and issued before the commencement of the unit. Students study under the above elective code. In the case of an approved stream of study, students may be allowed to enrol in the actual code of the unit being taken.

**Credit points: 12  
Campus: Gardens Point  
Teaching period: 2008 SEM-1

**PSB651 Project 2**

Students study an existing approved unit from within the School, Faculty or University. Students study the chosen unit under the above elective code or students study a special topic of interest such as a series of lectures delivered by a specialist in that field, in which case a unit outline is prepared and issued before the commencement of the unit. Students study under the above elective code. In the case of an approved stream of study, students may be allowed to enrol in the actual code of the unit being taken.
PSB652 Topics in Land Administration
Students study Topics in Land Administration delivered by a specialist in that field. A unit outline is prepared and issued before the commencement of the unit.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

PSB653 Topics in Surveying Engineering
Students study a special topic in Surveying Engineering delivered by a specialist in that field.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

PSB654 Topics in Spatial Information Science
Students study Spatial Information Science through a series of lectures delivered by a specialist in that field.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

PSB655 Remote Sensing
This unit includes the following: history and principals of remote sensing; types of imagery, image interpretation, satellite systems; supervised and unsupervised image classification; interpretation, analysis and presentation of data; applications in the earth sciences.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

PSN211 Research Project 1
This unit covers understanding and demonstration of relevant research skills and their effective application in a project of genuine substance and significance. Each student undertakes a research project in one of the elected specialisations: landscape; design, planning, theory, practice, or management. Each student is assigned to a supervisor approved by the Course Coordinator. Supervisors provide guidance on the selection of topic, investigation and research, and preparation of the proposals and submission. Research Project 1 incorporates advanced information retrieval skills. The output is a proposal for the specific research project that outlines the relevant base theory and clearly communicates the potential extent of the research project.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

PSN212 Research Project 2
This unit ensures the understanding and demonstration of relevant research skills and their effective application in a project of genuine substance and significance. Each student undertakes a research project in one of the elected specialisations: landscape design, landscape planning, landscape theory, landscape practice or landscape management. Each student is assigned to a supervisor approved by the Course Coordinator. In general, the supervisor provides guidance on the selection of a topic, investigation and research, and preparation of the proposals and submission. Research Project 2 requires the completion, communication and presentation of the research project to a professional standard.

**Prerequisite(s):** PSN211  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

PSN213 Specialisation
This unit ensures personalised study that will support the student's elected specialisation and contributes directly to the better understanding of the research project topic. Students undertake study to develop specialised knowledge and skills related to the specific specialisation and to support the direction of the proposed research project topic. Study is taken from specific programs offered by the School, or from advanced units within the University or, where appropriate, through another university or through specialist studies offered by staff in their areas of expertise and approved by the Head of School on the recommendation of the student's supervisor.

**Prerequisite(s):** Completion of any prescribed qualifying units.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

PSN214 Elective
This unit allows development of depth in understanding of issues related to the elected specialisation. The School may offer specific programs in areas of specialisation or students elect unit/s from within the University or, where appropriate, from other universities and approved by the Head of School on the recommendation of the student's supervisor.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

PSP268 Site Planning
This unit includes the following theory: introduction to the processes of site planning and detailed site design; role and objectives of survey and analysis phases; types of information required and the methods of processing the resultant data; data analysis, its scope and documentation. It also includes the use of data analysis to generate and evaluate possible problem solutions in conceptual form as a basis for strategic and master planning and the value of these processes as a long term mechanism for adaptation of master planning to meet changing needs. It involves the application of site planning principles and theory for different scales and types of projects.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

PSP269 Advanced Construction and Practice 1
This unit includes the following: theory and techniques involved in a large range of landscape construction; the types of documentation used for the implementation of landscape works; computer aided drafting systems; principles of contract law, forms and requirements of contracts; principles of marketing, client analysis and promotion.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

PSP270 Elective
The profession of landscape architecture is increasingly characterised by the breadth of activities in which its practitioners engage. Therefore, there is a need to provide mechanisms within the course for some specialisation in particular directions in addition to ensuring the acquisition of core competencies required for professional accreditation. This unit is intended to provide that flexibility. A number of cross disciplinary specialisations are offered such as social and environment planning, contemporary art issues, and virtual environments.

**PSP271 Advanced Landscape Design 1**
This unit addresses contemporary theories of urban design as they affect the range of urban landscapes from residential to inner city; emerging theories and concepts of regional and local economic development as they relate to sustainable landscapes in terms of living and working environments. It includes application of theoretical frameworks to the studio project that will explore design or re-design of selected aspects of the urban environment, residential environments and broader urban issues of the contemporary urban context. Expectations of an advanced level of professional presentation will attach to the project output.

**Credit points: 12**  
**Campus: Gardens Point**  
**Teaching period: 2008 SEM-1**

**PSP272 Advanced Construction and Practice 2**
This unit includes the theory and techniques involved in the wide range of landscape construction including the types of documentation used for the implementation of landscape works, computer aided drafting systems; the principles of contract law, forms and requirements of contracts; the principles of marketing, client analysis and promotion.

**Credit points: 12**  
**Campus: Gardens Point**  
**Teaching period: 2008 SEM-2**

**PSP273 Landscape Planning**
This unit includes the theoretical framework of landscape planning: relevant theories, methods, and techniques for application in the landscape planning process. It also includes computer modelling: types of GIS, potentials and problems, and current issues and advanced landscape ecology: structure of landscapes, impacts of human settlement. Studies include medium to large scale projects involving a range of biophysical, cultural, and visual issues with a relatively high degree of complexity. The focus is on assessment and evaluation of related landscape attributes and issues with emphasis on deriving landscape management options in the form of environmental plans, policies, guidelines, and implementation strategies.

**Credit points: 12**  
**Campus: Gardens Point**  
**Teaching period: 2008 SEM-2**

**PSP274 Advanced Landscape Design 2**
This unit considers cultural values and provides the theoretical background to an understanding of how these values influence place making through interpretations of place and the cultural landscape. The studio project focus of this unit provides the opportunity to develop a graduating landscape design project of the highest standard. The project will explore broad scale landscape design and strategic planning and planning guidelines as well as detailed design at a fine scale.

**Credit points: 24**  
**Campus: Gardens Point**  
**Teaching period: 2008 SEM-2**

**PSP323 Project Site Surveys**
This unit includes the following: detail surveying (methods, equipment, data requirements and data transfer); preparation of specifications and estimates of costs; detail survey field project work; processing of field data, report and plan presentation; types of construction and building control surveys and preparation of plans and specifications; inspection of building construction sites; receipt of instructions, documentation and communication with contractors; field procedures including high precision survey and error adjustment techniques involved with construction and building control surveys and construction site set out calculations.

**Credit points: 12**  
**Contact hours: 42 total**  
**Campus: Gardens Point**

**PSP326 GIS and GPS**
This unit includes project work involving the total assessment, planning, costing and preparation of specifications for a comprehensive mapping task. It includes consideration of GPS theory and practical application of the methods to conventional surveying and consideration of LIS/GIS Technology and its practical application in conventional surveying practice.

**Credit points: 12**  
**Contact hours: 42**  
**Campus: Gardens Point**

**PSP330 Professional Practice Management 2**

**PSP331 Production and Use of the Built Environment**
This unit investigates the roles and combined effects of the initiators of the built environment, in the public, private and community sectors. The aim of the unit is to provide a synthesised understanding of how the city is created by the priorities and approaches of a variety of professionals, political decision-makers and informal participants. The property, finance and construction industries, the legal and administrative system, the roles and cultures of key professions (including property management, valuing, business, engineering, surveying, planning, architecture, landscape architecture). Urban design techniques such as charrettes and action planning workshops are included.

**Credit points: 12**  
**Contact hours: 3 per week**  
**Campus: Gardens Point**

**PSP451 Production and Use of the Built Environment**
This unit includes the following: detail surveying (methods, equipment, data requirements and data transfer); preparation of specifications and estimates of costs; detail survey field project work; processing of field data, report and plan presentation; types of construction and building control surveys and preparation of plans and specifications; inspection of building construction sites; receipt of instructions, documentation and communication with contractors; field procedures including high precision survey and error adjustment techniques involved with construction and building control surveys and construction site set out calculations.

**Credit points: 12**  
**Contact hours: 42 total**  
**Campus: Gardens Point**

**PSP452 Urban Design Studio A**
This unit includes the analysis of urban issues in a particular area, and the formulation of appropriate urban design proposals. Issues may include obsolescence, sense of place, conservation, infill, and the dynamism of local/regional/national/global contexts. Methods of urban design guidance, development briefing and control, through regulations and incentives are investigated and the skills in urban analysis related to the urban design process and effective communication of the results are developed. Where applicable, the unit incorporates field work, work in
other units of the course, and joint/complementary projects with other courses in the Faculty.

**Credit points:** 24  **Contact hours:** 6 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**PSP453 Urban Systems and the Physical Environment**
This unit includes the relationship between the urban system and the physical environment; urban services including water, sewerage, drainage, power, telecommunications, transport; controlling authorities, service delivery bodies, planning requirements and controls relevant to urban design; community services relevant to health, safety and welfare; urban design issues relating to pollution, congestion and mobility.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**PSP510 Specialisation**
The student undertakes a supervised program of study in an approved selected field. The student may choose from a limited list of approved fields, depending on staff expertise and availability. Students may apply for approval for a specific specialisation utilising units offered elsewhere in QUT or at another tertiary institution which must, for approval, also lead to an Advanced Specialisation if they are enrolled in PST70. Students normally choose a specialisation that relates to their intended research project. Areas of specialisation are regional and local development, urban housing and community development, urban design, environmental and resource planning, and special topic.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PUB104 Australian Health Care Systems**
This is an important unit for students entering or planning to enter the health industry as it is designed to give a broad overview of systems of health care in Australia and their methods of operation. This unit introduces the role of health service managers as members of the health care team, the basic principles of health service management in health care facilities and beyond, and the functions of health service managers.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1

**PUB105 Introduction to Family Studies**
This unit explores the diversity of Australian families to provide an understanding of the social structures that impact on families and the ways in which families influence the health, development and well-being of family members across the life course.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB112 Workplace Health and Safety**
Introduces students to the basic concepts and theoretical framework of occupational health and safety such that they can identify health and safety problems in the workplace; be aware of strategies for dealing with such problems; and become familiar with the legislation, government agencies and health personnel associated with the working environment. Topics covered will include the physical, chemical and biological environments, and ergonomics. The students will also develop knowledge and skills associated with the actual measurement of the physical and chemical working environment and evaluation of the data collected.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** External  **Teaching period:** 2008 SEM-1

**PUB113 Design and Technology**
Technology and design are an integral part of the practice of home economics, facilitating effective responses to challenges in the contexts of food, locales and living environments. Personal understanding of and experience with design, creativity, research and innovation are needed to participate productively and sensitively within local and global communities.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB180 Foundations of Paramedic Practice 1**
This unit is an introduction to ambulance practice and the role of paramedics within the health care spectrum. It prepares students for the first clinical practice unit. Topics include the following: the history, evolution, culture and development of ambulance services on a national and international level; the structure, function, policies and procedures of the Queensland Ambulance Service; the role of the ambulance service in a multidisciplinary and integrated approach to health care; the relationship between field care and in-hospital definitive care; and basic ambulance care including initial assessment, planning and implementing basic procedures, and equipment. The unit includes a structured observer program.

**Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB201 Food and Nutrition**
This unit includes the following: an introduction to the history of food and nutrition in Australia; the food system; the food supply; proteins, carbohydrates, fats, vitamins and minerals; food grouping systems; dietary guidelines; the recommended dietary intakes; nutrition through the life cycle; food and nutrition problems; nutrition as a public health issue; and international nutrition issues.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-2

**PUB203 Primary Health Care**
This unit introduces students to the principles, strategies and practice of primary health care with special reference to community, family and workplace settings. The importance of health promotion, prevention, empowerment and intersectoral collaboration in primary health care is examined.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** External  **Teaching period:** 2008 SEM-2

**PUB208 Understanding Health Information**
This aims to provide students with an understanding and appreciation of the diversity of health information resources available; the benefits of high-quality and standardised health information for positive health outcomes and the management of health services; and the various technology platforms available (including telecommunications and the
internet). Students develop data organisation and management skills relevant to systems within the health industry context.

**Prerequisite(s):** Nil but there is assumed knowledge and skills in word processing and spreadsheet applications.

**Credit points:** 12  
**Teaching period:** 2008 SEM-2

### PUB209 Health, Culture and Society

This unit is concerned with the social and cultural dimensions of health and illness and how they relate to health status and patterns of behaviour. The unit introduces students to thinking about health from sociological and anthropological perspectives, drawing on relevant concepts and theory to examine selected public health issues. Identifying and addressing social and cultural factors that shape people's health experiences of health, illness and health systems are integral parts of public health practice in terms of reducing health inequalities, delivering appropriate services, and ultimately improving population health outcomes.

**Credit points:** 12  
**Teaching period:** 2008 SEM-2

### PUB220 Medical Terminology

This unit explores the language of medicine and analyses medical terms into Latin and Greek word roots, prefixes, suffixes and combining forms. Medical terms which relate to specific body systems are defined, spelled and pronounced accurately. Common abbreviations and symbols used in medicine are identified. Abstracts from patient records are explained and interpreted in non-technical language.

**Credit points:** 12  
**Teaching period:** 2008 SEM-1

### PUB251 Contemporary Public Health

This unit provides an introduction to the following: the philosophy and approach of public health; the traditional public health process; the multidisciplinary nature of public health; and health policy and its impact on public health. Recent reformulations of traditional public health approaches including health promotion, intersectoral action for health and healthy public policy are examined. The role of public health in Australia and overseas, its main discipline components and some of the constraints faced by public health is also addressed. This unit considers groups with special needs and contemporary issues.

**Credit points:** 12  
**Contact hours:** 4 per week (KG and Ext Sem 1; KG Sem 2)  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

### PUB270 Paramedic Clinical Practice 1

This unit is the first in a series of supervised clinical practice units. Topics include the following: assessing, diagnosing, planning, implementing and evaluating patient care in the out of hospital phase; effective scene management including logistics, safe access and egress, and patient extrication techniques; written and oral communication including patient interviews, radio procedures, writing ambulance report forms and patient handover at hospital. The placement is six weeks and provides a transition from observer to operational ambulance crew member under the supervision of a qualified paramedic mentor.

**Prerequisite(s):** LSB282, PUB280, PYB111, QAS

**Credit points:** 12  
**Teaching period:** 2008 SEM-2 and 2008 SUMMER

### PUB280 Foundations of Paramedic Practice 2

This unit follows on from PUB180 and further develops core clinical skills and expertise in the use of ambulance equipment. Topics covered include the following: monitoring basic patient care and modifying as required; handing over a patient requiring basic ambulance care; the use of ambulance equipment including ambulance vehicles and patient care equipment; health and safety legislation, policies and procedures; and the attributes of a paramedic e.g. compassion, accountability, respect, ethical practice, responsibility and sensitivity. The unit includes a structured observer program for students.

**Prerequisite(s):** PUB180  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

### PUB321 Textile Studies

In this unit scientific understandings, social issues, production techniques and the aesthetic aspects of textiles are explored. These are applied to individual textile projects.

**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### PUB326 Epidemiology

Epidemiology is the core scientific method of public health. It is the study of the distribution of health and disease in the population and includes research into causes of disease and the effectiveness of public health programs. Epidemiological methods are used to generate the evidence base for clinicians, health promotion specialists, health educators, occupational and environmental health officers and health service managers.

**Prerequisite(s):** PUB251  
**Credit points:** 12  
**Contact hours:** 3 per week (Ext PU40 Pub Hlth students only)  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** PUB314

### PUB329 Foundations of Health Studies and Health Behaviour

This unit examines the foundations of the health education discipline, its theoretical framework, and the concepts of health models, health education and health promotion. Theories of change are analysed in their application to health education and health promotion practice for a range of professionals, including teachers.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

### PUB332 Sustainable Environments For Health

Credit points: 12  
Teaching period: 2008 SEM-1

### PUB336 Women's Health

This unit explores the data and current health issues related to women's health and critically evaluates health related policies, systems and practices in terms of their impact on women's health, internationally and in Australia. The social, economic, cultural and political influences on women's health, and the specific needs of sub-populations of women are examined.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:**
Kelvin Grove  Teaching period: 2008 SEM-2

PUB339 Podiatric Medicine 1
This unit provides an introduction to the clinical, theoretical and professional aspects of podiatry practice. Students entering the unit begin the transition to the unique and challenging role of clinician, as well as continuing academic learning. Students are required to apply previous background knowledge, i.e. advanced anatomy, biochemistry, etc., in the clinical setting. Student are also involved in the care of patients attending the university clinic. The unit is particularly designed to encourage the development of essential graduate skills such as a self-directed approach to learning, the ability to work as part of a team and the ability to engage in peer review.
Prerequisite(s): LSB235, LSB475  Credit points: 12  Contact hours: 16 (including clinic work)  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: PUB324

PUB341 Nutrition Education
This unit explores the history and philosophy of nutrition education as well as its theoretical basis. Students develop skills in the development, implementation and evaluation of nutrition education programs for particular target groups. They are introduced to a range of nutrition education programs currently underway as well as policy underpinning these programs. There is an opportunity to develop a real world example.
Prerequisite(s): PUB201  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB343 Home Economics Curriculum Studies 1
This unit explores the nature of home economics, its contribution to the broader goals of schooling and the unique features that characterise home economics teaching and learning. It links discipline studies, curriculum studies and field experiences.
Prerequisite(s): 36 credit points Home Economics Discipline Studies  Corequisite(s): Teaching & Learning Studies 2, Field Studies  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB355 Hospitality Studies
This unit explores the use of relevant management principles, safe and hygienic work practices, effective communication skills, the mastery of techniques in food production and presentation associated with vocational education and industry.
Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUB356 Clinical Classification
This unit introduces the development of skills in one of the major specialities of health information management. This speciality is the clinical classification of diseases and procedures using the International Classification of Diseases, 10th Revision, Australian Modification (ICD-10-AM). Clinical classification responds to internal and external demands for medical information, for example, in-house research and education, ABS, hospital morbidity data collections, and casemix information systems.
Prerequisite(s): PUB220, LSB142, LSB361 or LSB475  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUB361 Textiles 2
An understanding of textile consumer issues is developed by studying theoretical and scientific explorations, production practices and creative processes in relation to critiquing and designing textile articles.
Prerequisite(s): PUB321  Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB380 Casemix Management
Casemix is used to describe and analyse the activity and outputs of health care services and provides an important source of information for decision making by a range of health care professionals. This unit aims to provide the following: an overview of the history and development of casemix classification systems; structure of DRGs; casemix applications in quality improvement, utilisation review, costing, planning and management; casemix and funding health care services; casemix classification systems for acute inpatients; data quality issues; casemix grouping software; and current casemix initiatives and applications.
Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB390 Paramedic Management of Medical and Surgical Emergencies A
This unit covers some of the most common medical and surgical emergencies seen in ambulance practice. Topics include the epidemiology, prevention, integrated and definitive care, pathophysiology, assessment, clinical management and rehabilitation of patients suffering cardiovascular, respiratory and neurological disease. Theory is presented on campus and experience is gained in a hospital environment under the supervision of clinical educators.
Prerequisite(s): LSB282, PUB280  Corequisite(s): LSB382  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB391 Paramedic Management of Medical and Surgical Emergencies B
This unit covers some of the most common medical and surgical emergencies seen in ambulance practice. Topics include the epidemiology, prevention, integrated and definitive care, pathophysiology, assessment and clinical management of patients suffering genitourinary, metabolic, endocrine and gastrointestinal disease. Theory is supplemented by simulation and scenario based activities under the supervision of clinical educators.
Prerequisite(s): LSB282, PUB280  Corequisite(s): LSB382  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB398 Health Information Services
This unit aims to provide students with an understanding of the potential brokerage of health information services their expertise may provide. In addition to coverage of hospital based information services, other processes and systems
such as health terminologies and classifications, statistical reporting to health authorities, form design and management and information management in other settings (eg primary care, subacute and non-acute) provide exposure to a broad range of applications supported by health information services.

Prerequisite(s): Completed 96 credit points and background knowledge of the health care system  
Credit points: 12  Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

PUB405 Nutrition Science  
Nutrition science examines a range of nutrient components in our food supply, including the biochemical pathways and physiological effects in the body, possible health implications of deficiency or toxicity and important dietary sources. It integrates nutritional knowledge with the science of biochemistry and clinical physiology and provides the foundation on which further studies in nutrition can be built.

Prerequisite(s): LSB308, PUB201  
Credit points: 12  Contact hours: 4 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

PUB406 Health Promotion Strategies  
This unit ties together the fundamental health promotion knowledge and constructs covered in earlier units in the public health subject area. It builds upon this basis to introduce students to the range of strategies available to a health promotion practitioner. The unit promotes an appreciation of the strengths and weaknesses of different approaches, as well as related administrative factors. Students undertake a small health promotion project in groups of 3-4. This is an essential field of study for those students who wish to work in a health promotion or related field.

Prerequisite(s): PUB251  
Credit points: 12  Contact hours: 3  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

PUB416 Research Methods  
An understanding of research methods is essential in the training of all public health professionals. This unit explores quantitative methods in a variety of health research projects, examining conceptualisation of research questions and hypotheses, core elements of experimental and quasi-experimental designs, and various approaches to the collection, management and analysis of quantitative data. The unit has a practical focus for students who are considering conducting research as well as those interested in deeper appreciation of implementation behind published research results.

Prerequisite(s): PUB314 or PUB326  
Credit points: 12  Contact hours: 3 per week  
Campus: Kelvin Grove and External  
Teaching period: 2008 SEM-1

PUB436 Evidence Based Practice  
Credit points: 12  
Teaching period: 2008 SEM-2

PUB437 Pharmacology  
This unit is designed to ensure students understand the basic drug therapies their patients may be using, the groups of drugs used for specific diseases, and their application and relevance to podiatry. Emphasis is placed on drug groups and their use for specific disease, rather than proprietary brands. Students learn to recognise the drug groups and know the system they are acting on in the body. In addition, differentiation between the different categories within one group of systemic drugs and why they are used for a condition is emphasised, along with discussion of contrindications and drug interactions.

Prerequisite(s): LSB275, LSB451, LSB475  
Corequisite(s): PUB438  
Credit points: 12  Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: PUB525

PUB438 Medicine  
Following completion of this unit, students should be able to recognise and understand the clinical features, pathogenesis and significance of common conditions affecting the lower limbs. For example infectious diseases, nervous system disorders, endocrine/metabolic and deficiency states, renal disorders, cardiology, respiratory disorders, immunology, hepatobiliary disorders, musculoskeletal disorders, haematology/lymph, inherited/genetic conditions. The diagnosis and management of dermatological disorders is also covered.

Prerequisite(s): LSB451, LSB475  
Corequisite(s): PUB437  
Credit points: 12  Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: PUB523

PUB439 Podiatric Medicine 2  
This unit aims to increase proficiency in the examination and treatment of patients who have common foot problems with particular emphasis on aged care and diabetes. Topics covered include: clinical biomechanics, the elderly and the ageing foot, the management and of the diabetic foot, wound healing and wound care products, footwear construction, assessment and prescription, foot orthoses.

Prerequisite(s): PUB339  
Corequisite(s): PUB437, PUB438  
Credit points: 12  Contact hours: 15 (includes clinic work)  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2  
Incompatible with: PUB424

PUB450 Paramedic Management of Trauma Emergencies  
This unit covers some of the most common traumatic emergencies that a paramedic attends in ambulance practice. Topics covered include the epidemiology of trauma, the controversies of trauma management, neurotrauma, spinal cord injury, chest and abdominal trauma, pelvic and limb trauma, trauma in the elderly, wound ballistics, and shock and fluid resuscitation. Theory is supplemented by simulation and scenario based activities under the supervision of clinical educators.

Prerequisite(s): LSB382, PUB280  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

PUB461 Qualitative Inquiry in Public Health  
Qualitative methods are essential to generate knowledge of people's lived experiences, the meanings they ascribe to them, and to the social dimension of health. The nature and complexities of many public health problems require a mix of research methods and the contributions of qualitative inquiry are increasingly recognised. The practical skills acquired in this unit can be applied to a wide range of public
health works, including community based program evaluation, international health and health social science research.

**Prerequisite(s):** PUB326  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove

**PUB470 Paramedic Clinical Practice 2**
This unit continues on from PUB270 and includes a six week placement providing work integrated learning experience in a supervised out of hospital environment. Students learn to apply standard ambulance management experience in a supervised out of hospital environment. This unit continues on from PUB270 and includes a six week placement providing work integrated learning experience in a supervised out of hospital environment. Students learn to apply standard ambulance management experience in a supervised out of hospital environment.

**Prerequisite(s):** PUB270, PUB390, PUB391  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2 and 2008 SUMMER

**PUB474 Food Science**
To fulfil their needs as future professionals working in food and nutrition related areas, students explore the nature of foods and their constituents, studying the underlying scientific principles related to the manufacture, preservation, distribution and the final production of food items for consumption.

**Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB480 Health Administration Finance**
This unit addresses the following: financial administration and resource/financial distribution within the Commonwealth and State governments; financial management in the health industry; financial analysis; planning and budgeting; working capital management in the health industry; health care financial performance and evaluation; and methodologies for costing health services.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-2

**PUB486 Ethics and the Law in Health Service Delivery**
This unit enables students to develop an awareness of the ethical and legal issues associated with the public sector and health care in the pre-hospital care setting. This unit covers topics relating to the code of ethics, the code of conduct and the legislation unique to the emergency health services. Students are required to apply content knowledge using the problem based learning strategy. Topics include introduction to ethics, morality and ethical theory, bioethics, public sector ethics, overview of the Australian legal system, consent to and refusal of health care, duty of care, confidentiality, and record keeping.

**Credit points:** 12  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-2

**PUB490 Quality Management in Health**
Quality is integral to all aspects of healthcare delivery. Knowledge and understanding of the concepts of quality management, and the ability to perform quality processes are essential for all health care professionals. This unit provides students with the necessary knowledge and skills to develop a quality management program, perform quality improvement activities, and expand outcomes into process improvements and organisational change. The principles underpinning evidence based medicine and clinical pathways (including variance analysis) are presented, methods of health care performance measurement are explored, and a clinical quality framework model is introduced.

**Prerequisite(s):** 96 credit points and background knowledge of the health care system  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2  **Incompatible with:** PUB599

**PUB506 Foodservice Management**
This unit includes the following: organisation and planning in foodservice; the hospital environment; the menu and menu planning; purchasing and storage of food; kitchen planning and design; food production systems; food distribution systems; human resource management in foodservice; finance and costing; hygiene; maintenance and safety; information systems; and total quality management.

**Prerequisite(s):** PUB474  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB509 Nutrition**
This unit includes the following: the measurement of the nutritional status of a community; nutrition monitoring and surveillance; food and nutrition policy at international, national and state levels; international nutrition issues; nutritional epidemiology; examination of the evidence of nutrition problems within Australia; at risk groups; tools and their validity for measuring nutritional status and nutrition outcome at the population and group level; and dietary intake methodology.

**Prerequisite(s):** PUB201, PUB314 or PUB326  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB514 Contract/Project Management**
This unit aims to prepare students for participation in contract and project management in the health sector. The unit provides advanced undergraduate students with an opportunity to develop an understanding of health project contract management using both theoretical and practical examination of current state and national contracts and projects.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove and External  **Teaching period:** 2008 SEM-1  **Incompatible with:** NSN625 (for postgraduate students)

**PUB522 Podiatric Anaesthesiology**
This unit provides an understanding of the science of anaesthetics as applicable to the practice of podiatry. Students are required to understand the pharmacology of local anaesthetics and their clinical usage, and be competent in injection techniques, including local infiltration and local nerve block in the lower limbs.

**Prerequisite(s):** PUB437, PUB438, PUB439  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**PUB537 Radiographic Image Interpretation**
This unit is designed to give the student of podiatric medicine an understanding and ability to recognise normal and abnormal foot radiographs. It also enables the student
to utilise radiology as an important diagnostic tool in foot pathology.

Prerequisite(s): PUB438, PUB439  Corequisite(s): PUB539  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: PUB637

PUB538 Physical Medicine
This unit introduces a wide range of diagnostic and physical treatment modalities used in modern podiatric practice. Students gain understanding in uses, applications, contraindications and limitations of each modality studied in direct connection with ongoing clinical studies and theoretical components of podiatric medicine.

Prerequisite(s): PUB439, PUB539  Corequisite(s): PUB539  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: PUB727

PUB539 Podiatric Medicine 3
This unit develops professional understanding of the general and specific effects of medical and surgical conditions on the human foot. It also expands the concept of total case management in terms of the interdisciplinary approach, including physical, mechanical and surgical techniques. Completion of this unit should enable students to consolidate the podiatrist's role in the health care team across the spectrum of practice.

Prerequisite(s): PUB437, PUB438, PUB439  Corequisite(s): PUB537  Credit points: 12  Contact hours: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: PUB524

PUB541 Medical Nutrition Therapy 1
This unit incorporates the best of a multidisciplinary, ‘whole client’ view of health care. The goals of MNT in preventative care are to keep people healthy in their communities, to reduce the incidence and severity of preventable diseases, to improve health and quality of life and to reduce medical costs particularly in drug therapy, surgery, hospitalisation and extended care. A sound understanding of the process of nutrition assessment enables students to undertake the assessment, planning, implementation and evaluation of dietary intervention in the more complex disease states.

Prerequisite(s): LSB408, LSB458, PUB405  Credit points: 12  Contact hours: 5 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB545 Health Planning and Evaluation  
Credit points: 12  Teaching period: 2008 SEM-1

PUB550 Paramedic Management of Obstetric, Paediatric and Behavioural Emergencies
This unit covers the management of obstetric, paediatric and behavioural emergencies. Theory is presented on campus and experience is gained in a three week hospital placement under the supervision of clinical educators.

Prerequisite(s): LSB382, PUB390  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB555 Paramedic Management of Infectious Diseases, Toxicological and Environmental Emergencies
(Not offered till 2007)
This unit covers the management of patients with a range of challenging aetiologies including extremes in environmental conditions, toxicological emergencies including overdose, poisoning and acute infectious disease. Topics include the epidemiology, integrated and definitive care, pathophysiology, assessment and clinical management of patients with toxicological, infectious and environmental illness. Theory is supplemented by simulation and scenario based activities.

Prerequisite(s): LSB382, PUB390  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB557 Health Needs of Indigenous Australians and Other Populations
This unit examines the health needs of a range of population groups, particularly the health needs of indigenous Australians. Health is viewed in its social and economic context. The unit allows a recognition and focus on particular health concerns that might not be considered significant in an examination of broad patterns of health. It forces a consideration of how strategies to improve health, including important questions of access and equity. The unit provides an overall picture of health patterns of indigenous Australians and other specific populations.

Prerequisite(s): PUB251  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB558 Medical Documentation and Abstraction for Classification
It is essential for health information managers to thoroughly understand the clinician's response to various disease processes, how this information is documented in patient records and how this relates to the process of clinical classification. This unit integrates knowledge of anatomy, physiology, disease processes and medical procedures with an understanding of the process clinician's task to diagnose and treat common and specialised conditions. Students enhance their knowledge of clinical classification by the practical use of ICD-10-AM.

Prerequisite(s): PUB356  Credit points: 12  Contact hours: 4  Campus: Kelvin Grove  Teaching period: 2008 SEM-1  Incompatible with: PUB456

PUB561 Statistical Methods in Health
The ability to analyse and interpret quantitative data is an important skill for all graduates in public health. This unit builds upon PUB326 Epidemiology and complements analytical methods learned in PUB461 Qualitative Enquiry in Public Health. Through critical review of the literature, and worked examples from a range of topic areas, students become familiar with the process of summarising and describing data, defining and testing hypotheses, univariate methods and tests of bivariate associations, the concept of adjustment and the interpretation and presentation of analytical results.

Prerequisite(s): PUB326 or equivalent  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUB565 International Health
International health will broaden student's understanding of global health systems and programs, providing an advanced level analysis that explores systems and methods that have been devised to address population health problems in developing and developed countries. Students examine the historic context of the international health movement from the early 1900s to recent changes in global health systems, explore the diversity of services between and within countries, and consider issues of globalisation, economic reform, health equity and ethics. This unit is particularly relevant to students who are interested in international health development work.

**Prerequisite(s):** 192 credit points, PUB251, PUB326  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**PUB570 Paramedic Clinical Practice 3**  
This unit is a six week placement which develops patient care to a level where students can confidently manage more complex clinical presentations under the supervision of a qualified paramedic mentor.  
**Prerequisite(s):** PUB470  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**PUB606 Dietetic Management**  
This unit includes the following: history of dietetics and the role of management in dietetics; planning and organisation; leadership; peer review systems; total quality management; clinical costing; program evaluation and measuring effectiveness; information systems applied to dietetic management; managing change; casemix funding; management tools; marketing; planning community based programs; team building; and managing role conflict.  
**Prerequisite(s):** PUB506, PUB722  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUB609 Health Resource Allocation**  
This unit aims to prepare students for participation in health sector decision making as underpinned by a range of health specific evaluation activities. The unit provides students with a grounding in the methodologies of health evaluation and resource allocation.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

**PUB611 Risk Management**  
This unit provides students with the knowledge and skills for the assessment and quantification of risk in the workplace. It considers the various models available to investigate and analyse accidents and propose strategies to prevent similar incidents in the future. Various hazard identification techniques such as HAZOP, Fault Tree Analysis and FMEA are discussed. The unit provides students with the ability to position occupational health and safety within an organisation's strategic decision making process.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

**PUB628 Advanced Food Studies**  
This unit provides students with an opportunity to acquire practical skills in the planning, preparation and delivery of nutrient altered foods suitable for a wide range of therapeutic diets. Students evaluate the outcome of incorporating nutrient modified food products into dietary regimens. Food standards, relevant developments and issues are also considered.  
**Prerequisite(s):** PUB474, PUB541  
**Corequisite(s):** PUB641  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUB632 Independent Study**  
Independent study allows students to study a topic which is not otherwise available as a formal unit. Students have the opportunity to pursue their studies relatively independently and to develop and practise skills in problem identification, evaluation and critical thinking. The study may be for example a literature review or a placement in a particular setting. The process and outcomes are negotiated in a contract with a supervisor.  
**Prerequisite(s):** Completion of 192 credit points  
**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

**PUB633 Health Informatics**  
An understanding of computer applications in health is important to making an effective contribution to the planning and evaluation of health care information systems. This unit integrates health care trends with the capacity for information management and information systems to support these directions in health care. This unit aims to bridge the communication gap which often appears between the health care professional and computer specialists. It is also designed to prepare students for involvement in the many aspects of information systems they may encounter in the health care field. These aspects include the planning, specification, development, implementation, control and management of such systems.  
**Prerequisite(s):** 192 credit points  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** PUB418

**PUB635 Podiatric Surgery**  
This unit addresses the implementation of podiatric surgical techniques based on strong theoretical knowledge. On completion, students should understand the principles and techniques of lower limb surgery. Students are taught minor surgical techniques and review some of the more common major surgical procedures including the foot and ankle.  
**Prerequisite(s):** PUB438, PUB522, PUB539, PUB639  
**Corequisite(s):** PUB523, PUB624  
**Credit points:** 12  
**Contact hours:** 3 (including surgical work)  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUB638 Orthopaedics and Sports Medicine**  
This unit provides students with a detailed knowledge of orthopaedic and musculoskeletal conditions affecting the lower limb. The unit also discusses the assessment and management of the sports patient.  
**Prerequisite(s):** PUB537 (PU43 and HL43 only), PUB538 (PU43 only)  
**Corequisite(s):** PUB635 (PU43 only), PUB639 (PU43 and HL43)  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** PUB726, PUB827
PUB639 Podiatric Medicine 4
This unit extends the student by way of a greater role in independent case investigation and clinical case presentations. Complex case histories and treatment interventions are pursued. The theory and treatment of paediatric disorders is studied and students are introduced to specialist clinics in the podiatry facility and treatment of higher order cases. Students implement a wide range of treatments and should be able to consolidate skills acquired. Diagnostic skills are also developed with the wider range of patients being treated and the specialised study of disciplines such as dermatology and radiology further integrating academic and clinical studies.
Prerequisite(s): PUB539 Credit points: 12 Contact hours: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: PUB624

PUB641 Medical Nutrition Therapy 2
This unit builds on the extensive knowledge base of the theory and application of dietary treatment to disease and the principles of nutritional assessment development in Medical Nutrition Therapy 1.
Prerequisite(s): PUB541 Corequisite(s): PUB628 Credit points: 12 Contact hours: 5 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2

PUB643 Home Economics Curriculum 2
This unit is the second in a suite of three curriculum units studied concurrently with Teaching and Learning Studies 3 and Field Studies 2. The unit provides students with opportunities to develop knowledge and skills pertinent to the professional educator, including the ability to critique current paradigms. Learning experiences are organised to build deeper understanding of outcomes based syllabuses. This knowledge is applied to the design and management of learning environments and practices that engage learners. The importance of self regulatory practice is emphasised.
Credit points: 12 Contact hours: 3 Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: PUB322

PUB644 Health Promoting Schools
This subject is designed to extend students’ understanding of health promotion in a school setting. The learning objectives for this course are designed to reinforce the links between education and health, in relation to the planning, implementation and evaluation of a school based health promotion intervention. It also addresses some of the management issues that underlie such an approach to the promotion of health and well being in the school community. Case studies or activities offer a range of opportunity for reflection and investigation.
Prerequisite(s): 196 credit points Credit points: 12 Campus: External Teaching period: 2008 SEM-2

PUB645 Introduction To Dietetic Practice
Credit points: 12 Teaching period: 2008 SEM-2

PUB648 Diet, Nutrition and Chronic Disease
This unit explores the most common and significant nutrition related chronic diseases of the world and introduces previous and current strategies aiming to prevent or manage these diseases. Psychosocial, cultural, political and economics factors will be discussed. Diseases covered include micronutrient deficiencies, obesity, diabetes, cardiovascular disease, cancer, dental disease and osteoporosis.
Prerequisite(s): PUB201 Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2

PUB669 Management of Health Information Services
This unit is the final one in the suite of health information management related units. As a result, it has a strong focus on professional issues and current trends in HIM practice. It examines the roles and functions of the health information manager in the management of health care services in the current health environment. Class activities concentrate on the principles and processes of management as applied to health information services. A problem based learning approach is adopted to give students experience in "real world" activities.
Prerequisite(s): PUB108, PUB398, PUB490, PUB558 Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-2 Incompatible with: PUB619

PUB670 Internship (Paramedic Clinical Practice)
This unit follows on from previous clinical practice units and develops students from preservice paramedic to the role of beginner practitioner at the advanced care paramedic level under the supervision of a qualified paramedic mentor. Students are expected to function as an operational crew member under minimal direction taking the lead in more complex scenarios.
Prerequisite(s): Completion of all other coursework except PUB680 and QAS approved psychometric assessment and prerequisites for PUB270 must remain current Credit points: 36 Campus: Kelvin Grove Teaching period: 2008 SEM-2

PUB680 Professional Development in Paramedic Practice
This unit prepares students for practice as qualified ambulance paramedics and further develops professional skills. Clinical practice is conducted in a prehospital environment under the supervision of an ambulance crew with a qualified clinical mentor. In addition, reading and learning activities give opportunities for the development of reflective practice skills and strategies.
Prerequisite(s): PUB391, PUB450, PUB470, PUB550, PUB555, PUB570 Corequisite(s): PUB670 Credit points: 12 Campus: Kelvin Grove Teaching period: 2008 SEM-2

PUB720 Nutrition and Dietetic Project
Credit points: 24 Teaching period: 2008 SEM-2

PUB723 Clinical Dietetic Practice
Students are required to develop skills in the management of nutritional care of clients in the clinical setting, to a standard that allows entry to the Dietetics profession. This unit incorporates the basic strategies of the dietetic care process, such as assessment, planning, implementation and evaluation of nutritional care, for clients who have a variety of disease states. Students also need to
demonstrate basic skills in research in relation to clinical outcome.

**Prerequisite(s):** PUB875  
**Credit points:** 24  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** PUB722

**PUB738 Advanced Clinical Studies 1**
The aim of this unit is to develop high-level clinical skills and professionalism in a range of clinical settings. Increased understanding of the various clinical and non-clinical roles that podiatrists play in the community will be emphasised through external placements.

**Prerequisite(s):** PUB538, PUB635, PUB638, PUB639  
**Credit points:** 12  
**Contact hours:** 9 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** PUB728

**PUB739 Podiatric Medicine 5**
The aim of this unit is to provide you with the diagnostic and treatment skills necessary to manage patients with more complex conditions, introduce contemporary issues in podiatry including national and international issues, and to encourage you to critically evaluate the medical literature to inform your clinical decisions. (Not offered until 2005).

**Prerequisite(s):** PUB537, PUB538, PUB635, PUB638, PUB639  
**Corequisite(s):** PUB738  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**PUB743 Home Economics Curriculum Studies 3**
**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**PUB821-1 Practice in Community Nutrition**
This unit involves a four week practical placement off-campus where students work on various projects and gain experience in the nutrition and health care of groups in a variety of community, workplace and school settings.

**Prerequisite(s):** Completion of all prior Nutrition & Dietetics core units  
**Credit points:** 6  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**PUB821 Practice in Community Nutrition**
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PUB822-1 Practice in Food Service Management**
This unit includes a four week practical component consisting of up to four separate placements in hospitals, nursing homes, correctional centres or other locations to gain experience in food service management.

**Prerequisite(s):** Completion of all prior Nutrition & Dietetics core units  
**Credit points:** 6  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**PUB822 Practice in Foodservice Management**
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PUB826 Project and Professional Management**
This unit addresses two key concepts: it explains how a professional practice may be set up and how a small practice can operate as a business enterprise. Methods of budgeting, finance and control are included; it develops an interest in podiatry research using scientific methods of investigation and presentation. Students are encouraged to publish these projects as original material in related professional journals.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUB838 Advanced Clinical Studies 2**
The aim of this unit is to develop high level clinical skills and professionalism in a range of clinical settings. Increased understanding of the various clinical and non-clinical roles that podiatrists play in the community are emphasised through external placements. Students complete clinical rotations not attempted in PUB738 Advanced Clinical Studies 1.

**Prerequisite(s):** PUB738, PUB739  
**Credit points:** 12  
**Contact hours:** 9 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** PUB828

**PUB839 Podiatric Medicine 6**
The aim of this unit is to ensure students are able to demonstrate adequate knowledge and skills expected for entry into the podiatry profession.

**Prerequisite(s):** PUB739  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUB875 Professional Practice**
This unit is undertaken by students in the public health, and nutrition and dietetics strands of the BHealthSc. It provides students with the opportunity of working in one or a number of placements in a professional capacity in an area of interest to the student. It provides an opportunity for students to apply the knowledge and skills acquired through their course to a practical problem or workplace situation.

**Prerequisite(s):** NUD / NUT successful completion of all prior core units; All other majors, completion of 216 credit points including PUB514  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**PUN001 Contemporary Risk Management**
This unit provides an introduction to the risk management process as outlined in AS/NZS 4360 risk management. The unit concentrates on the context of risk management and introduces the student to the concepts that will be explored further in the units PUN008, PUN009 and EFN418. The structure of the organisation, its environment and the potential loss exposures are examined in some detail.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1

**PUN008 Risk Assessment**
This unit provides the skills necessary to identify and assess risks. Qualitative, semi-quantitative and quantitative methods of risk analysis are investigated in the context of the major perils likely to be considered by an organisation. Various risk analysis techniques including HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis, and probability are discussed.

**Prerequisite(s):** PUN001  
**Corequisite(s):** PUN001  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1
PUN010 Implementing Risk Management
A robust system is necessary to ensure the ongoing commitment to the risk management process and to ensure positive outcomes. The risk management process needs to be integrated and strategic in its approach. It requires commitment from senior management and an organisational strategy designed to maximise business value. This unit investigates the role of risk management in an organisation, organisational experiences in implementing risk management programs, and ways of ensuring the success of a risk management program.

Prerequisite(s): PUN008 Credit points: 12 Campus: External Teaching period: 2008 SEM-2 Incompatible with: PUN009

PUN012 Human Resource Management in Ambulance Services
Credit points: 12 Teaching period: 2008 SEM-2

PUN013 Ambulance Operational Management
Credit points: 12 Teaching period: 2008 SEM-1

PUN103 Advanced Epidemiology
This unit's aim is the mastery of key principles and concepts of research design. There has been an increasing demand for evidence-based health research, and an increasing trend towards research that considers complex biological, environmental and societal inter-relationships. Recent developments in epidemiology have contributed novel research designs and statistical methods to complement these needs. Throughout this unit, students are exposed to these more sophisticated designs and analytical methods. Such knowledge is mandatory for critical evaluation of the current research literature, for design of efficient research studies, and to inform appropriate interpretation of research results at a 'best practice' level.

Prerequisite(s): HLN705 or PUB316 or equivalent Credit points: 12 Contact hours: 3 Campus: Kelvin Grove Teaching period: 2008 SEM-2

PUN105 Health Statistics
Beyond a common core of statistical concepts, each discipline area emphasises its own set of descriptive and inferential statistical methods and even terminology. The content of this unit emphasises both core and health specific statistical methods in the health sciences. Students are provided with substantial practical experience in the application and interpretation of the most common statistical methods to health data, and are also made aware of data management principles in preparation for analysis. There is a strong emphasis on applying concepts through critical reading and discussion of the literature and worked examples from a range of topic areas.

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove and External Teaching period: 2008 SEM-1

PUN106 Population Health
This unit addresses some of the significant issues of population health including the complex relationship between health and social, economic, political and lifestyle factors and social disadvantage and health. It examines contemporary concepts of health and illness also draws on international examples. Potential health issues facing Australia and the world, such as the aging of the population, the impact of genetic technology on health and the health of specific sub-populations are also examined.

Credit points: 12 Contact hours: 3 Campus: External Teaching period: 2008 SEM-1 Incompatible with: Completion of PU40/43 or PUB251 or PUB314 or PUP010 or NSN622

PUN215 Organisational Behaviour (Queensland Health)
Credit points: 12 Campus: External Teaching period: 2008 SEM-2

PUN216 Human Resource Management (Queensland Health)
Credit points: 12 Campus: External Teaching period: 2008 6TP5

PUN217 Financial Management (Queensland Health)
Credit points: 12 Campus: External Teaching period: 2008 SUM-2

PUN218 Operational Management (Queensland Health)
Credit points: 12 Campus: External Teaching period: 2008 6TP3

PUN224 Medical and Surgical Emergencies 2
Prerequisite(s): PUN220, PUN221, PUN222
Corequisite(s): PUN223 Credit points: 12 Campus: External Teaching period: 2008 SEM-1

PUN225 Trauma and Environmental Emergencies
Prerequisite(s): PUN220, PUN221, PUN222
Corequisite(s): PUN223, PUN224, PUN227, PUN226
Credit points: 12 Campus: External Teaching period: 2008 SEM-1

PUN226 Obstetric & Paediatric Emergencies
Prerequisite(s): PUN220, PUN221, PUN222, PUN223
Corequisite(s): PUN223, PUN227 Credit points: 12 Campus: External Teaching period: 2008 SEM-1

PUN227 Clinical and Integrated Practicum 2
Prerequisite(s): PUN220, PUN221, PUN222, PUN223
Corequisite(s): PUN224, PUN225, PUN226 Credit points: 12 Campus: External Teaching period: 2008 SEM-1

PUN301 Occupational Health and Safety Law and Management
This unit introduces students to the history of occupational health and safety and the impact on occupational health and safety practice of the law, and industrial relations. The theory and practice of occupational health and safety management is discussed.

Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove and External Teaching period: 2008 SEM-1

PUN363 Environmental Health Law
The purpose of this unit is to develop students who have a detailed understanding of the legislation and legislative frameworks and principles that form the foundation for environmental health practice. In particular, this unit will detail various legislative tools for the management of public
health issues in different settings. The prosecution process and gathering of evidence will be discussed along with a detailed discussion on the environmental health practitioners role under the Public Health Act 2005, Environmental Protection Act 1994 and other related legislation. Major topics covered include: an introduction to law and government, public health law, planning and environmental law, local laws, investigation processes and procedures.

Corequisite(s): PUN620  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUN364 Food Safety
The aim of this unit is to develop the food safety knowledge of future health professionals (such as environmental health practitioners, public health practitioners, nutritionists and dieticians) to enable them to identify and implement processes to ensure a safe food supply and prevent food borne illness in the community. A variety of food safety topics are covered including food science principles, food safety principles, food-borne illness, outbreak investigation and management, food safety law, auditing, premises design, HACCP, food safety programs, and food handler training/health promotion.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUN418 Introduction To Financial Risk Management
Credit points: 12  Teaching period: 2008 SEM-2  Incompatible with: EFN418

PUN465 Environmental Protection
This unit aims to give students a detailed understanding of the causes, controls measures and management strategies for environmental pollution and an understanding of environmental impacts on human health. A variety of topics on environmental management are covered including environmental management principles, environmental policy and legislation, integrated planning, waste management, contaminated land, air pollution, water pollution, and noise pollution.

Prerequisite(s): PUN620, PUN363  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUN466 Communicable diseases
This unit aims to provide a comprehensive overview of communicable diseases and to discuss current surveillance, control and prevention methods/strategies implemented by public health agencies. Topics in this unit include the following: communicable disease principles; physiology and epidemiology; outbreak investigation and management; immunisation; vector control; disease surveillance; and infection control.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUN467 Public Health Risk Assessment
The aim of this unit is to provide future public health professionals with the skills and knowledge necessary to effectively assess and manage risks associated with a variety of public health hazards. Topics covered in this unit include the following: the Australian standard risk management framework; environmental health risk assessment framework (issues identification, hazard identification, dose-response assessment, exposure assessment, risk characterisation); risk management strategies and approaches; fundamentals of environmental toxicology and its application in health risk assessment; health impact assessment; effective risk communication and community consultation approaches for public health risks; and case studies.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUN500 Safety Management
In this unit, students learn about the nature of materials with regards to material failure, fire and explosions. Students are introduced to the concept of the hierarchy of controls and learn about the various safety systems used to control physical, chemical and biological hazards. Students are also introduced to specific legislative requirements that regulate the use of such substances, the configuration of appropriate safety systems, and the storage, handling and transport of hazardous materials. Students develop skills in accident investigation.

Credit points: 12  Contact hours: 3  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-2

PUN608 Health Economics
This unit covers basic economic concepts and their applications to the health sector, including concepts such as cost utility, opportunity cost, supply and demand, and a range of evaluation techniques. The unit assumes no prior formal training in economics.

Prerequisite(s): PU85, PU60; PUN692; HL38, HL68, HL88, HL90: Nil; PU38: PUN610  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-2  Incompatible with: PUB433

PUN617 Environmental Health Management
The aim of this unit is to integrate the aspects of environmental health theory and practice covered in other Units within the environmental health graduate program by focusing on current management and policy issues, strategies, tools and approaches. Topics covered include: environmental health policy development; environmental health management in local and state government; new technologies; program evaluation including economic evaluation and environmental health indicators; emergency management; event management; Indigenous environmental health policy; environmental health research; dangerous goods safety management; project management and environmental health practice issues.

Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

PUN620 Concepts of Environmental Health
The aim of this unit is to produce students who have an in-depth understanding of the large range of contemporary environmental health hazards (including historical, current and predicted hazards) and the strategies to assess and manage these hazards in a sustainable manner. This unit consists of the following 4 modules: (1) Introduction to Environmental Health (provides an introduction to environmental health and environmental health
management); (2) Ecosystems, Sustainability and Health; (3) Environmental Health Issues (e.g. air pollution, water and sanitation, waste and contaminated land, communicable diseases and food safety, physical agents); and (4) Environmental Health Settings (including Indigenous environmental health, the built environment, and global and emerging environmental health issues).

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

PUN632 Health Services Management, Leadership and Change
In this unit students develop and apply a researched, conceptual framework to understand management, leadership and change issues, particularly related to health care, consolidated using researching, logical argument, analysis and writing skills. The unit draws on contemporary research and practice.

Credit points: 12  Teaching period: 2008 SEM-2

PUN640 Health Care Delivery and Reform
This unit introduces conceptual frameworks fundamental to the organisation of health systems with particular emphasis on Australian and international health systems. Issues covered include the operation, funding and evaluation of health systems, health reform and the drivers for change.

Credit points: 12  Teaching period: 2008 SEM-1

PUN649 Health Care Financial Management
This unit provides students with analytic skills and an understanding of a range of financial management decision-making principles and processes applicable to health management roles. Topics covered include the financial structure of the Australian health care system, the context in which it operates and incentives and disincentives for efficiencies and effectiveness.

Credit points: 12  Teaching period: 2008 SEM-1

PUN688 International Health Policy and Management
This unit provides students with an understanding of the impact of globalisation on health policy and management, including policy formation and the role of political influences. Students will have an opportunity to explore and understand specific examples of national and international policy in both developed countries and countries in transition, particularly the in Asia-Pacific region.

Credit points: 12  Teaching period: 2008 SEM-2

PUP032 Intervention Design and Theories of Change
This unit examines theories of change as they impact on health promotion and health education practice and the development and implementation of public health interventions. The unit addresses the strengths and weaknesses of change theory into practice and explores the nature of individual, group and organisational change strategies in public health and health promotion.

Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-1

PUP034 Advanced Studies and Practice in Health Promotion
This advanced unit identifies the repertoire of practice skills that health promotion students need to address health problems. It integrates needs identification, systematic planning and evaluation models into practice. Internal students put this knowledge into practice through participation in a group based health promotion project. The process of developing and implementing a health promotion program develops an understanding of issues such as ethics, writing goals and objectives, resources and time management. External students conduct a needs assessment and use the data to write a health promotion program proposal.

Prerequisite(s): PUP035 or PUP036  Corequisite(s): PUP035 or PUP036  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-2  Incompatible with: PUP023, PUN613

PUP037 Health Program Evaluation
The aim of the unit is to provide students with skills and knowledge of health program evaluation, its place in public health and health sector contexts, the influences of evidence and contexts, both organisational and political in program evaluation and the application of program evaluation techniques. This unit complements health studies and deepens students' understanding of program evaluation in practice.

Credit points: 12  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-2

PUP038 New Developments in Health Promotion
The unit provides students with a critical understanding of the foundations of health promotion nationally and internationally, and its influence and evidence in improving population health outcomes through new conceptual and practice perspectives. This unit complements public health and other studies and provides a foundation for health professionals of the fundamental underpinnings of the discipline nationally and internationally.

Credit points: 12  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-1

PUP116 Ergonomics
This unit explores the relationship between the worker, the work environment and the work space. Occupational ill health and injury arise from a lack of fit between the capabilities of workers and the design of the working environment, the work processes and the physical and mental demands of the task. Insight into ergonomics can assist practitioners to enhance the workers safety and comfort, improve work efficiency and performance, and optimise work performance. Topics include basic anatomy and physiology of body systems, occupational biomechanics and psychology.

Prerequisite(s): PUN301  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2008 SEM-2

PUP250 Occupational Hygiene
Occupational and environmental monitoring is described as the recognition, evaluation and control of hazards in the workplace. Workplaces contain numerous substances that are potentially hazardous to the health of the workforce,
other occupants and the public. Occupational and environmental monitoring spans a number of disciplines including toxicology, engineering and statistics. Students need to develop strong investigative and analytical abilities and professional judgment. Students also develop skills in evaluating the extent of workplace hazards. A preventative approach to dealing with occupational health problems is emphasised based on an understanding of the control hierarchy and the use of exposure standards.

**Prerequisite(s):** PUP415  
**Corequisite(s):** PUP415

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

**PUP415 Occupational Health**

This unit explores chemical hazards in the working environment, epidemiological principles and practice, and identification of special risk groups in the workforce. Topics include the following: the pathological bases of disease in humans; chronic occupational diseases; occupational skin conditions; respiratory diseases; biological hazards in the work environment (bacteria, parasites, viruses, rickettsia and fungi); chemical and physical stresses and their physiological responses; physiological monitoring principles and practice; special risk groups; and epidemiological principles and practice.

**Prerequisite(s):** PUN301 (For PU32 or students completing EVH major the prereq is either PUN301 or PUN620)

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

**PUZ113 Design and Technology**

This unit covers the relatively complex relationships between innovation, design, research, critical and creative thinking, product development and appropriateness, including specific technical vocabulary, text structures and current technologies across a number of media.

**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**PUZ321 Textile Studies**

**Credit points:** 12  
**Teaching period:** 2008 SEM-1

**PYB000 Scholarship and Skills (Psychology)**

This is a compulsory first year unit. It focuses on the development of a number of generic competencies which are important outcomes of all QUT undergraduate courses. The unit provides a skill basis, developed within various discipline contexts, upon which subsequent units in the course will build. The unit is an essential first stage in the development of key skills and understandings at the tertiary level.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB007 Interpersonal Processes and Skills**

Psychology is generally a people-based profession with many positions involving not only understanding and testing people but communicating with them. More broadly however in most areas of modern work, and indeed within personal relationships, people need developed interpersonal skills and the ability to conceptualise interactive processes. The microskills for communication are also the foundation for helping relationships and counselling.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:**

**Gardens Point, Kelvin Grove and Carseldine**  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** PYB074, PYB086, HHB113

**PYB012 Psychology**

The body of knowledge which defines Psychology as a discipline is basic to an understanding of human behaviour and interaction. Psychological theories, concepts and methods of investigation provide ways of evaluating personal and professional practice. Informed practice can then seek to meet the needs of individuals, groups and communities. All professional people need to have frameworks for understanding their own behaviour and that of others. This unit provides students with essential knowledge as a basis for their personal and professional effectiveness. It is the foundation for understanding further study in psychology and its many applications.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point, Kelvin Grove and Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** PYB073, PYB100, PYB101

**PYB054 Psychology and Gender**

This unit asks 'What is gender?'. It includes theories of gender; male and female; masculine and feminine; roles versus power; counselling issues; old and new paradigms; history of psychology of gender; sexuality; mothers and fathers; psychology constructs the female; psychology in patriarchal discourse; family therapy theory and feminist critiques; psychological constructs and the media; film and media; psychology of gender and power.

**Prerequisite(s):** PYB012 or PYB100 or PYB101 or PYB102

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB067 Human Sexuality**

This unit explores historical approaches to studying, explaining and regulating human sexuality with an awareness of the social nature of definitions of 'normal' or 'acceptable' sexual behaviours. Students critically examine definitions of 'healthy' or 'morally acceptable' or 'normal' sexuality. Different models of sexuality are considered with an emphasis on contemporary critiques of the traditional paradigms of sexuality in the West.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB074 Communication For Nursing Practice**

Effective communication with health professionals and patients, and an understanding of interpersonal skills in general, is essential for providing quality care in the nursing context. Communication that is effective can assist to build team work and to ensure the best care possible is provided to each person and group. This unit encourages links between research, personal insight, and the development of practical communication skills for use in both one-on-one interpersonal situations and small group environments. The communication microskills presented in this unit are the foundation for successful personal and professional relationships and are essential for professional nursing practice.

**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** PYB007, PYB073,
HBB113

PYB100 Foundation Psychology
This unit provides an introduction to the major content areas of psychology, including an introduction to psychological research and report-writing, for students intending to pursue further studies in psychology.

Psychology is a broad-ranging and multifaceted discipline which encompasses the scientific study of human behaviour, and the systematic application of knowledge gained from psychological research to a broad range of applied issues. The goal of this introductory unit is to introduce you to the major subfields and perspectives in psychology, and to develop your understanding of the research methods and report-writing conventions used in psychological research.

Credit points: 12  Contact hours: 3 hours per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUM-1  
Incompatible with: PYB073, PYB012, PYB101

PYB101 Introduction to Psychology 1A
Psychology is a broad-ranging and multifaceted discipline which encompasses the scientific study of human behaviour, and the systematic application of knowledge gained from psychological research to a broad range of applied issues. This unit focuses on the areas of developmental psychology, social psychology, individual differences, and psychopathology.

Credit points: 12  Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1  
Incompatible with: PYB012, PYB073, PYB100

PYB102 Introduction to Psychology 1B
Introduction to Psychology 1B extends the introduction provided in Introduction to Psychology 1A to psychology as the scientific study of human behaviour. This unit introduces students to the basic biological and psychological processes underlying perception, memory, learning, problem solving, consciousness, and language. In addition, research participation experience is provided to the students.

Prerequisite(s): PYB101 or PYB100  
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-2

PYB110 Psychological Research Methods
This unit includes the following: an overview of the purposes and strategies of research; elementary research design; operationalising variables; descriptive statistics; distributions; measures of central tendency and spread; standard scores and percentiles; understanding relationships between variables through correlation and regression; an introduction to hypothesis-testing procedures using t-tests.

Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SUM-2 and 2008 SEM-2

PYB111 Paramedic Communication Skills
Paramedics require advanced skills in communication to face challenging situations. This unit provides the core knowledge and skills necessary for developing effective communication skills which enable a paramedic to establish an accurate and efficient clinical history, to provide support to patients at times of accurate stress and to understand his or her own responses to situations. Topics covered include basic communication skills; models and processes in communication; communication with special needs patients (eg with acute mental illness; developmental disabilities or sensory deficits; non-English speaking background; angry, distressed or intoxicated patients; children and the elderly); building cooperative relationships with patients and colleagues.

Prerequisite(s): PUB180  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

PYB158 Introduction to Substance Abuse in Australia
This unit introduces students to alcohol and drug use in the Australian context. The unit examines the terminology and definitions commonly associated with the alcohol and other drug field as well as providing an overview of models of drug use. This unit compares and contrasts current trends and patterns of substance use in Australia and critically examines the legitimacy of this focus. Australian substance use/abuse patterns are positioned within a global context.

Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-2

PYB159 Alcohol & Other Drug Studies
This unit aims to give students an understanding of the extent of substance abuse in our community; who uses what, where and when; the models that have been advanced for understanding substance abuse; the intervention and therapeutic models utilised within the field; the effects of substance abuse, physiologically, socially and psychologically.

Prerequisite(s): 96 credit points of study  
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1

PYB202 Social and Organisational Psychology
People are social beings. Their thoughts, feelings and actions are influenced by the real, imagined or implied presence of others. To obtain greater insight into people's behaviour, it is essential to investigate scientifically the relationship between the individual and the group. We will study the effects of the individual within the group and the group within the individual and also consider the influence of these processes in the organisational setting.

Prerequisite(s): PYB101 or PYB100 or PYB102  
Credit points: 12  
Teaching period: 2008 SEM-1  
Incompatible with: PYB205

PYB203 Developmental Psychology
This unit provides an introduction to life span developmental psychology. It unit covers the major theories of life span development and includes biological, social and cognitive aspects of development from birth through to old age. It emphasises the interdependency of all aspects of development and the importance of the physical, family, socio-cultural and historical contexts within which development occurs. The unit aims to develop the student's understanding of general patterns of human development and of the ways in which the development of particular
individuals and groups may vary from these general patterns.

**Prerequisite(s):** PYB100 or PYB101 or PYB102  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB204 Perception and Cognition**

Cognitive psychology is a major empirical and theoretical area of psychology which explores the processes and structures involved at each stage of information processing within the brain. The structures and processes involved in perception provide the brain with its basic information about both the external world and many of the current states of the individual. Higher level cognitive processes and structures provide the foundation upon which more complex aspects of behaviour are based. The unit is placed in second semester of second year so that students following the normal course structure have an adequate background in research design and data analysis.

**Prerequisite(s):** PYB101 or PYB100 or PYB102  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**Incompatible with:** PYB201 and/or PYB303

**PYB207 Psychology in the Community**

The aim of this unit is to enable you to develop your work-literacy and work-readiness, by providing opportunities to apply psychological knowledge in workplace contexts, supported by activities that promote critical reflection on your learning and workplace practices. Your participation in this unit requires you to establish, conduct, and complete an approved period of volunteer work or placement.

You maybe asked to produce a Blue Card (suitability for working with children and young people clearance) before commencing your work placement and it is therefore your responsibility to have obtained this clearance prior to commencing your placement.

**Prerequisite(s):** Final year PY45 or IF12 students only  
**Credit points:** 12  
**Teaching period:** 2008 SEM-2

**PYB208 Counselling Theory and Practice 1**

This unit develops the student's knowledge of the counselling process and skills and provides practice in changing the ways in which people express, conceptualise and respond to their concerns. It builds upon the communication skills and concepts introduced in PYB007 and introduces a range of counselling approaches. It emphasises skills in solution orientated approaches but also covers a range of models and skills for workers in crisis situations. It provides a basis for further studies in counselling in clinical settings requiring psychotherapeutic intervention, and other modes of delivery such as couple, family or group work.

**Prerequisite(s):** PYB007 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB210 Research Design and Data Analysis**

This unit takes an hypothesis testing approach to data analysis. This means that statistical analysis is treated as one step in a larger process which also includes formulating theoretically sound predictions, designing a suitable experiment to test the predictions, selecting the appropriate statistics to test the predictions, calculating and interpreting the required statistics, and reporting the outcomes in the correct way. This unit provides the student with the knowledge and skills required to do these tasks with respect to two types of prediction, differences between means and relationships between sets of scores.

**Prerequisite(s):** PYB110  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB215 Forensic Psychology and the Law**

Forensic Psychology is readily acknowledged as one of the fastest growing areas of psychology in the world. Psychologists are now involved significantly in policing, judicial procedures and correctional processes. By its very nature the study of psychology and law draws from a wide multi-disciplinary base for the application of specialised knowledge. As a student of this discipline area, you will need a broad introductory appreciation of (and a critical perspective on) what the study of psychology and the law involves and what it has to offer across the three criminal justice domains of the police, the courts, and corrections.

**Prerequisite(s):** 48 credit points of study  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**PYB257 Group Work**

This unit provides an opportunity for experiential group learning, either intensively or in regular program times. It examines types of groups and varieties of group experiences: the importance and uniqueness of the group medium; understanding behaviour in the group context; theories and models of group development; leader and member behaviours; planning; implementing and evaluating group methods; establishing groups and planning group approaches; the group as a therapeutic community; evaluating group work; ethical issues.

**Prerequisite(s):** PYB007 or equivalent  
**Credit points:** 12  
**Contact hours:** 1 week intensive between semesters 1 & 2  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB260 Psychopharmacology of Addictive Behaviour**

This unit develops the student's understanding of behavioural pharmacology, with particular emphasis on the psychopharmacology of addictive behaviours. To establish a framework for learning, classes will initially include a review of neurobiology, introduction to pharmokinetics, and discussion of research methods used to investigate psychopharmacological effects of drugs on behaviour. Subsequent classes address the history and origin of the more commonly used addictive substances, routes of administration, patterns of distribution and excretion, neuropharmacology, and the effects of acute and chronic administration. Substances covered include those that are most widely associated with problems of dependence and addiction.

**Prerequisite(s):** PYB159  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine

**PYB302 Industrial and Organisational Psychology**

Participation in the workplace is an integral component of the lives of most people. It is important therefore to understand the behaviour of people, individually and
collectively, within the workplace. Industrial and organisational psychologists are concerned with advancing the knowledge of the relationship between people and work, and using this knowledge to promote the effective organisation of human resources. **Prerequisite(s):** PYB205 or PYB202 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine **Teaching period:** 2008 SEM-1

**PYB303 Cognitive Psychology**

This unit explores both the cognitive mechanisms involved in processing information and behavioural models of learning. The information processing component covers topics including sensory storage, attention, pattern recognition, working memory, long-term memory, and applied psychology. The learning component deals with the phenomenology of behavioural learning paradigms including classical and operant conditioning. In both cases, the unit emphasises the need for critical analysis of theories and the experimental evidence supporting them. **Prerequisite(s):** 36 credit points of 2nd & or 3rd year psychology units **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine **Teaching period:** 2008 SEM-1 **Incompatible with:** PYB057, PYB204

**PYB304 Physiological Psychology**

This unit aims to provide a broad introduction to the area of neuropsychology and discusses both the clinical and cognitive approaches in the field. Three broad areas are covered: neuroanatomy, neuropathology, the cognitive analysis of resulting deficits. Students learn about major neuroanatomical structures and their interconnections, with an emphasis on how this information is applied in the clinical setting. They also study a number of neuropsychological disorders in terms of their diagnosis, assessment and treatment, as well as the psychosocial effects such deficits have on the patients. **Prerequisite(s):** PYB101 & PYB102 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine **Teaching period:** 2008 SEM-1

**PYB305 Applied Social Psychology**

Not Offered 2007 or 2008. Social Psychology is the scientific study of how people’s thoughts, feelings and actions are influenced by the real, imagined or implied presence of others. To assess whether social psychology theories and models can offer insight into people’s behaviour in an applied context, it is essential to investigate the utility of these theories when translated to applied social settings. The student studies the application of social psychology methods, theories, principles and research findings to understanding and solving social problems. **Prerequisite(s):** PYB205 and PYB210 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine

**PYB306 Psychopathology**

The unit provides an introduction to problems in psychological functioning and reviews research and theory relating to the major classes of mental disorder identified in DSM-IV, the diagnostic and classification manual most frequently employed in Australia and the United States. An integrated approach to the understanding of psychopathology is emphasised, highlighting the reciprocal influence of biological, psychological and social factors on behaviour. **Prerequisite(s):** PYB205 **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine **Teaching period:** 2008 SEM-2

**PYB307 Health Psychology**

This unit examines the psychological dimension of physical illness, health, and health care. There is a strong focus on health psychology in an Australian context with particular emphasis on cross-cultural and indigenous health-related issues. The unit examines definitions of health and health psychology; the role of health psychology; the determinants of health behaviours (e.g., cognitive, attitudinal, motivational, personality, social, developmental); medical settings and patient behaviour; patient and practitioner communication; stress, illness, and coping; pain and pain management; chronic and terminal illness in childhood and adulthood. **Prerequisite(s):** PYB100 or PYB101 or PYB102 and 48 credit points of second year (psychology or non-psychology) units **Credit points:** 12 **Campus:** Carseldine **Teaching period:** 2008 SEM-2

**PYB309 Individual Differences and Assessment**

Individuals differ on a broad range of characteristics that are influenced by many factors including culture, sex, intelligence, personality, life experiences and values. There are a number of ways, within the discipline of psychology, to conceptualise and explain these differences. In this unit we introduce the major theories that underpin explanations of individual differences and the ways in which those who hold different perspectives seek to measure the various constructs. Important properties of measurement tools such as reliability and validity will also be covered as well as the utility and applicability of various measures. **Prerequisite(s):** 36 Credit Points of 2nd and/or 3rd year psychology units **Credit points:** 12 **Teaching period:** 2008 SEM-1 **Incompatible with:** PYB206 and/or PYB311

**PYB311 Psychological Assessment**

Psychological assessment is a way of evaluating and understanding individuals. This unit is designed to introduce the student to the principles of psychological assessment. The different types of psychological assessments and issues involved in the assessment of normal and clinical populations are examined. Topics include ethical, psychometric, procedural and interpretative issues in the assessment of children, adolescents and adults. Although the major emphasis is on assessment theory, the mainstream tests that are available to qualified psychologists are also discussed. **Prerequisite(s):** 36 credit points of 2nd & or 3rd year psychology units **Credit points:** 12 **Contact hours:** 3 per week **Campus:** Carseldine **Teaching period:** 2008 SEM-2 **Incompatible with:** PYB309

**PYB350 Advanced Statistical Analysis**

The unit provides students considering further study in psychology with a thorough grounding in analysis of variance techniques, an introduction to multiple regression, and the data analysis tools used in a broad range of
research designs in the social sciences. The unit extends the introduction to analysis of variance and regression provided in PYB210, considering more complex designs involving two or more independent variables. The unit is both theoretical (including the use of conceptual formulae to analyse simple data sets by hand) and practical (analysing data sets using the SPSS statistical package), giving students a firm understanding of the principles underlying each analysis.

**Prerequisite(s):** PYB210  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB356 Counselling Theory and Practice 2**

This unit focuses on the common facilitative factors within a counselling process paying attention to the person of the therapist and the counselling relationship. In order to respond appropriately and therapeutically to the needs of their clients, counsellors must have a clear understanding of the social and interactive processes which occur. Consideration of verbal, non-verbal, social, emotional, gender, psychological and social dimensions enables counsellors to develop effective, functional and client-focused relationships and to control biases, needs and possible exploitive practices.

**Prerequisite(s):** PYB208  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB358 Advanced Developmental Psychology**

In this unit, the focus is on child development, with an emphasis on the infant and the child up to adolescence. Students review images of children and the unfolding of their cognitive abilities within the cadre of theories of cognitive development. Among the areas studied are the nature and development of memory, the development of numerical thinking, and children's ability to understand another's view of the world. In addition to these topics a substantial part of the unit is concerned with the acquisition (both normal and atypical) of language, including the acquisition of language in the bilingual child.

**Prerequisite(s):** PYB203  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine

**PYB359 Introduction to Family Therapy**

Family therapy, based on a systemic or relationship understanding of human problems, has been one of the most significant influences in the fields of counselling and psychology in recent times. With the increasing emphasis on the family as a focus for social policy, support services, research, and intervention, it is important for counsellors and psychologists to have some familiarity with the basic concepts and skills of this broad approach. This unit focuses on providing basic skills and concepts from one particular approach which will be called 'Constructive Therapy', combining aspects of solution-focused therapy, possibility therapy, narrative therapy and reflecting team practice.

**Prerequisite(s):** PYB208  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB360 Interventions for Addictive Behaviours**

Addictive behaviours, in the form of alcohol-dependence, substance abuse and gambling, are recognised as major problems nationally and internationally. This unit focuses predominantly on psychological aspects of addictive behaviours. To establish a framework for learning, classes initially review issues relating to psychological models of addiction and methods of studying addictive behaviours. Issues pertaining to the symptomatology, etiology and assessment of addictive behaviours, as well as the theoretical underpinnings of a range of therapeutic interventions are also discussed. This unit encourages critical thinking and analysis with the aim of enhancing students’ understanding of the complex issues relating to management of addictive behaviours.

**Prerequisite(s):** PYB158 or PYB159 or PYB260  
**Credit points:** 12  
**Contact hours:** 1 week intensive between semesters 1 & 2  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** PYN460

**PYB371 Introduction to Road Safety**

This unit introduces the key principles and practices in road safety. Special emphasis is given to the broad context of road use/transport in society and the economic and social implications of road crashes. It introduces the basics of information retrieval, road crash analysis and interpretation, and the strategic development of road safety countermeasures.

**Prerequisite(s):** 96 credit points  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB372 Traffic Psychology and Behaviour**

This unit reviews the wide range of factors that influence the behaviour of road users, particularly those that contribute to the incidence of road crashes or exacerbate their severity. It considers all types of road users, including motor vehicle drivers and passengers, motorcycle riders, cyclists and pedestrians. The student examines a range of theoretical models which have been used to explain the behaviour of road users.

**Prerequisite(s):** 96 credit points  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB374 Applying Traffic Psychology**

This unit reviews the various strategies and programs designed to modify road user behaviour. Effective and ineffective approaches are compared, in order to identify the key characteristics of successful programs. While this is a stand-alone unit, it extends many of the theoretical and practical issues covered in PYB372 -Understanding Road User Behaviour.

**Prerequisite(s):** 96 credit points  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYB400-1 Thesis (Part 1)**

This unit covers four parts (each of 12 credit points) which must be completed satisfactorily, leading to the submission of a research thesis. Students select a research topic and design and conduct a related research program using appropriate quantitative/qualitative methods of analysis. This research is reported in a written thesis in APA fifth
Counselling orientations (for example, solution-focused therapy, narrative therapy, cognitive-behavioural therapy, psychodynamic therapy, etc). Comparison of these approaches involves a consideration of major contemporary issues relating to the integration of theory, research and ethical practice.

**Prerequisite(s):** PYB208 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB403 Cognitive Neuropsychology**  
This unit aims to provide a broad introduction to the area of neuropsychology and discusses both the clinical and cognitive approaches in the field. Three broad areas are covered: neuroanatomy; neuropathology; the cognitive analysis of resulting deficits. The student extends their knowledge of major neuropsychological disorders and their interconnections, with an emphasis on how this information is applied in the clinical setting. A number of neuropsychological disorders are also examined in terms of their diagnosis, assessment and treatment, as well as the psychosocial effects such deficits have on the patients.

**Prerequisite(s):** PYB303 and PYB304 and PYB311  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB404 Issues in Social Developmental Psychology**  
This unit evaluates the contributions of social and developmental psychology to the understanding of human behaviour. The unit examines topics in social development, as they relate to families and individuals across the lifespan.

**Prerequisite(s):** PYB203 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB405 Advanced Organisational Psychology**  
Students explore the role of organisational psychologists as both internal and external consultants who are skilled psychological researchers. Special attention is given to the interaction between organisation systems, community needs, and human beings in differing cultural, political and economic environments.

**Prerequisite(s):** PYB302 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYB407 Research and Professional Development Seminar**  
This unit develops and extends students' understanding of research and practice issues in psychology. It covers current debates and controversies within psychology. Students are encouraged to formulate critical responses to these topics. Attention is also given to the issue of ethics in psychological research and practice. A case-based approach to the study of ethics is used, with reference to the APS Code of Ethics as well as Codes from similar international organisations. Where possible guest speakers, including researchers and practising psychologists, will be invited to participate in seminars to develop and expand students' understanding of broader issues in psychological research and practice.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1
PYB408 Advanced Social Cognition
This unit provides an advanced coverage of social psychological theories that seek to explain how people think about themselves, others, and the social world in general. Students learn about the different ways in which people think about social information and how the social context is perceived, the ways in which information processing and decision-making can be biased by motivational and perceptual orientations, how individual and group decisions are reached, and the role of self-justification in decisions. In doing so, students build on the knowledge acquired in their undergraduate studies in social psychology.

Prerequisite(s): PYB205
Credit points: 12
Contact hours: 3 per week
Campus: Carseldine

PYB450-1 Research Thesis (Part 1)
This research project, listed as three separate 12 credit point units, is to be completed as a group empirical research project.

Credit points: 12
Campus: Carseldine
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYB450-2 Research Thesis (Part 2)
This research project, listed as three separate 12 credit point units, is to be completed as a group empirical research project.

Credit points: 12
Campus: Carseldine
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYB450-3 Research Thesis (Part 3)
This research project, listed as three separate 12 credit point units, is to be completed as a group empirical research project.

Credit points: 12
Campus: Carseldine
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN000 Counselling Studies 1
This unit provides the student with an initial overview of the field of counselling, before focusing on the theory and practice of one contemporary perspective called 'Constructive' or 'Time-Effective' Therapy. It is an approach based largely in social constructionist principles and promotes a view of counselling as a unique conversational process which attempts to validate the client's experience, while pursuing possibilities for desired change. It also suggests a time-effective perspective, emphasising the possibility of working briefly and effectively with clients. Selected ideas and practices from several related approaches including solution focused therapy, possibility therapy and narrative therapy will be integrated.

Credit points: 12
Contact hours: 3 per week
Campus: Carseldine
Teaching period: 2008 SEM-1

PYN001 Professional Studies 1
This is an introduction to the professional study of counselling and the 'common factors' present in most counselling approaches. These factors, which include the working relationship, the focus on client resources, and the instillation of hope, contribute greatly to the counselling outcome. In order to respond appropriately and therapeutically to the needs of their clients, counsellors must have a clear understanding of the social and interactive processes that occur in counselling. Verbal, nonverbal, social, emotional, gender, psychological and cultural dimensions are all present in the counselling process. Consideration of these dimensions enables counsellors to develop effective, functional and client-focussed relationships.

Credit points: 12
Contact hours: 3 per week
Campus: Carseldine
Teaching period: 2008 SEM-1

PYN002 Counselling Studies 2
The historical development of psychoanalysis and analytic therapy is examined as well as the utilisation of concepts derived from these approaches and from Process/Experiential work. Understanding the differences between neurotic and psychotic behaviour, and of the need for appropriate referral, is highlighted.

Prerequisite(s): PYN000
Credit points: 12
Contact hours: 3 per week
Campus: Carseldine
Teaching period: 2008 SEM-2

PYN003 Group Studies
This unit provides the development of skills and approaches in organising and facilitating group work, in the context of personal support and therapeutic groups. It addresses the following: establishing group norms; facilitating stages of group development; responding to member behaviour and developing facilitator interventions; planning, implementing and evaluating ethical group work practices; dealing with defensiveness and hidden agendas; applying brief solutions-focused and reflecting team processes to groups; examining the motion of the therapeutic milieu.

Prerequisite(s): PYN001
Credit points: 12
Contact hours: 3 per week
Campus: Carseldine
Teaching period: 2008 SEM-2

PYN004 Counselling Studies 3
This unit is designed to provide both an experiential and skills-based approach to specific approaches. The unit is taught in two complementary strands. One strand is largely experiential which focuses on students' exploration of their own family of origin and family dynamics. The second strand extends the process into specific theoretical perspectives and skill development. The approaches build on some of the major orientations and skill areas covered in previous units: constructive therapies (ie solution-focused therapy and narrative therapy), psychodynamic approaches, and reflecting team work.

Prerequisite(s): PYN002
Credit points: 12
Contact hours: 3 per week
Campus: Carseldine
Teaching period: 2008 SEM-1

PYN006 Professional Studies 2
This unit provides an experiential introduction to the process of professional supervision. Supervision processes, roles, responsibilities, content, approaches and theories are reviewed. Each student will have the experience of being supervised using one of five major counselling supervision approaches: solution-oriented, narrative, process-experiential, analytic and group-developmental. Professional issues commonly addressed in supervision such as power, gender, culture, consent, duty of care etc are reviewed.

Prerequisite(s): PYN001
Credit points: 12
Campus:
Clinical supervision involves the development of a working alliance between a counsellor and another skilled professional in order to examine and reflect on the counsellor's work. The role of the supervisor ranges from an educative, advisory one through to a supportive, collaborative and consultative approach depending on the counsellor's level of professional development and competence. Supervision can occur individually or in groups and can take place 'in vivo' (during actual counselling) or delayed (using self reporting or taped material).

**PYN007 Professional Studies 3**

Clinical supervision involves the development of a working alliance between a counsellor and another skilled professional in order to examine and reflect on the counsellor's work. The role of the supervisor ranges from an educative, advisory one through to a supportive, collaborative and consultative approach depending on the counsellor's level of professional development and competence. Supervision can occur individually or in groups and can take place 'in vivo' (during actual counselling) or delayed (using self reporting or taped material).

Prerequisite(s): PYN006  Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1

Students undertake an individual project of theoretical and/or empirical research in a selected area of counselling. The project is supervised by a member of the teaching staff and progressive work is presented to other students. The completed project is to be presented in the form of a dissertation of not more than 15,000 words. Opportunity may be provided to work in the Family Therapy and Counselling Clinic as a way of achieving project requirements.

Prerequisite(s): PYN014  Credit points: 12  Contact hours: 3 per week equivalent  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

**PYN008-2 Project (Part 2)**

Students undertake an individual project of theoretical and/or empirical research in a selected area of counselling. The project is supervised by a member of the teaching staff and progressive work is presented to other students. The completed project is to be presented in the form of a dissertation of not more than 15,000 words. Opportunity may be provided to work in the Family Therapy and Counselling Clinic as a way of achieving project requirements.

Prerequisite(s): PYN014  Credit points: 12  Contact hours: 3 per week equivalent  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

**PYN008-3 Project (Part 3)**

Students undertake an individual project of theoretical and/or empirical research in a selected area of counselling. The project is supervised by a member of the teaching staff and progressive work is presented to other students. The completed project is to be presented in the form of a dissertation of not more than 15,000 words. Opportunity may be provided to work in the Family Therapy and Counselling Clinic as a way of achieving project requirements.

Prerequisite(s): PYN014  Credit points: 12  Contact hours: 3 per week equivalent  Campus: Carseldine  Teaching period: 2008 SUMMER

**PYN013 Advanced Counselling Studies**

This elective unit is designed to allow students to build on these skills by pursuing counselling studies in two or more specialised areas. Students select studies in two modules.

Areas from which selections can be made might include: experiential therapy, family therapy, narrative therapy, relationship counselling, depression, loss and grief and group work. Students may also complete one or both modules through approved forms of independent study (eg completion of approved workshops, courses or special areas of alternative study).

Prerequisite(s): PYN004  Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2

**PYN014 Research for Counselling Practice**

This unit aims to prepare students for the reflecting team counselling practice in the Family Therapy and Counselling Clinic in the third year project units. The unit also prepares students for applied counselling project work in professional practice settings.

Prerequisite(s): PYN002  Credit points: 12  Contact hours: 3 per week  Campus: Carseldine  Teaching period: 2008 SEM-2

**PYN021 Research Thesis 1**

The aim of the research thesis is to provide you with the opportunity to develop high-level skills in the evaluation, interpretation and application of research. It will also enable you to undertake in-depth research, in a specialised area of psychology and to make a contribution to the professional literature in clinical psychology.

This Unit will focus on introducing you to contemporary research methodologies and program evaluation. In addition, you will be required to develop a research proposal and submit an ethics application involved in undertaking your research, as part of the unit.

Prerequisite(s): Enrolment in PY18  Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

**PYN022 Research Thesis 2**

To ensure high quality practice, psychologists working in the area of clinical psychology are continually required to reflect upon and modify their own practice to incorporate knowledge of the most recent research evidence. This requires clinical psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.

The aim of the research thesis unit is to provide you with the opportunity to develop high-level skills in the evaluation, interpretation and application of research. It will also enable you to undertake in-depth research in a specialised area of psychology and to make a contribution to the professional literature in clinical psychology.

Prerequisite(s): Enrolment in PY18 & completion of PYN021  Credit points: 12  Campus: Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

**PYN023 Research Thesis 3**

To ensure high quality practice, psychologists working in the area of clinical psychology are continually required to reflect
upon and modify their own practice to incorporate knowledge of the most recent research evidence. This requires clinical psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas. The aim of the research thesis is to provide you with the opportunity to develop high-level skills in the evaluation, interpretation and application of research. It will also enable you to undertake in-depth research, a specialised area of psychology and to make a contribution to the professional literature in clinical psychology.

**Prerequisite(s):** Enrolment in PY18 & completion of PYN021  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PYN024 Research Thesis 4**
To ensure high quality practice, psychologists working in the area of clinical psychology are continually required to reflect upon and modify their own practice to incorporate knowledge of the most recent research evidence. This requires clinical psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.

The aim of the research thesis unit is to provide you with the opportunity to develop high-level skills in the evaluation, interpretation and application of research. It will also enable you to undertake in-depth research in a specialised area of psychology and to make a contribution to the professional literature in clinical psychology.

**Prerequisite(s):** Enrolment in PY18 & completion of PYN021  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PYN025 Clinical Psychological Interventions 1**
The broad aim of this unit is to cover fundamental aspects of psychological change with adults and children and to introduce you to the theoretical orientation and practical skills involved in cognitive-behaviour therapy. An associated aim is to integrate theory, research and practice, and to encourage students to articulate the link between these areas.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of the Unit Coordinator  
**Credit points:** 12  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** PYN026

**PYN027 Clinical Psychological Assessment**
This unit is designed to build on undergraduate training in psychological assessment. The understanding of theoretical perspective in psychological assessment is reinforced. A range of assessment techniques and tests, supported by research, are taught. The unit will explore some of the contextual issues which may have an impact upon the clinical assessment of Indigenous Australians, and outline some important principles of culturally safe clinical assessment. Further, you will also learn the ethical and legal issues involved in psychological assessment.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of Unit Coordinator  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYN028 Clinical Psychopathology**
This unit provides the student with a foundation and critical awareness of the development and phenomenology of psychological disorders. The unit undertakes a systematic study of the mechanisms and etiology of psychological disorders in individuals across the lifespan.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission from Unit Coordinator  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYN030 Professional Practice in Clinical Psychology**
Clinical psychology practice involves a unique process which requires an understanding of special roles, power relationships, boundaries and ethical principles in order to safeguard client rights. This unit presents an overview of ethical, legal and professional issues encountered in practice, and also emphasises the role of supervision in addressing these.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of Unit Coordinator  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYN031-2 Research Thesis (Part 2)**
In completing the thesis, students are expected to demonstrate competency in critical and analytic thought, and research-related skills in a context that may make a contribution to the literature of Clinical Psychology. The unit is divided into four 12 credit point sections - PYN031/1, PYN031/2, PYN031/3, PYN031/4.

In PYN031 (Part 2) students prepare and compile the design and method section and complete an ethics application.

**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PYN031-3 Research Thesis (Part 3)**
In completing the thesis, students are expected to demonstrate competency in critical and analytic thought, and research-related skills in a context that may make a contribution to the literature of Clinical Psychology. The unit is divided into four 12 credit point sections - PYN031/1, PYN031/2, PYN031/3, PYN031/4.

Students in PYN031 Part 3 complete the data collection and analysis.

**Prerequisite(s):** PYN031 (Part 2)  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PYN031-4 Research Thesis (Part 4)**
In completing the thesis, students are expected to demonstrate competency in critical and analytic thought, and research-related skills in a context that may make a contribution to the literature of Clinical Psychology. The unit is divided into four 12 credit point sections - PYN031/1,
In Part 4 students are expected to undertake the compilation of the thesis document and complete the final editing of the document.

**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN034 Childhood Psychopathology and Treatment**  
This unit provides students with a sound understanding of the aetiology, diagnosis and management of emotional and behavioural disorders in children. Emphasis is placed on understanding the child within the context of the family and the wider community, and the critical evaluation of the evidence for different strategies for assessing and managing the mental health needs of children and their families.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of Unit Coordinator  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1

**PYN035 Supervised Practicum 1**  
This unit provides students with the opportunity to develop psychodiagnostic assessment and clinical skills. Students undertake 250 hours of psychological practice including at least 60 hours of direct client contact in the QUT Psychology Clinic.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of Unit Coordinator, plus general registration with probationary conditions with Psychologists Board of Qld  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN036 Supervised Practicum 2**  
This unit provides students with the opportunity to build on PYN035 and to develop psychodiagnostic assessment and clinical skills. Students undertake 250 hours of psychological practice including at least 100 hours of direct client contact in the QUT Psychology Clinic.

**Prerequisite(s):** PYN035 plus probationary registration with the Psychologists Board of Queensland  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN037 Supervised Practicum 3**  
This core unit of the Master of Clinical Psychology course is intended to provide students with the opportunity to build on previous placements and to develop higher level psychodiagnostic assessment and clinical skills.

**Prerequisite(s):** PYN036 plus probationary registration Psychologists Board of Qld. For Qld Health placements Hepatitis B Vaccination and Qld Health web-based orientation  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN038 Supervised Practicum 4**  
This core unit of the Master of Clinical Psychology course builds on PYN037 and provides the opportunity to develop advanced psychodiagnostic assessment and clinical skills.

**Prerequisite(s):** PYN037 plus probationary registration Psychologists Board of Qld. For Qld Health placements Hepatitis B Vaccination and Qld Health web-based orientation  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN039 Health Psychology and Rehabilitation**  
This unit develops core skills and understanding in health psychology and rehabilitation within a clinical psychology context. It includes modules in health psychology, behavioural medicine, rehabilitation and psychopharmacology. An integrated and scientific approach with the recognition of the importance of an evidence based perspective is used to explore the application of the principles in clinical situations.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of Unit Coordinator  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2

**PYN041 Supervised Practicum 5**  
This unit aims to enhance professional knowledge and skills in the practice of clinical psychology, awareness of ethical guidelines and professional conduct through supervised clinical practice (250 hours including 120 hours of direct client contact) within an area of specialisation.

**Prerequisite(s):** PYN038 + registration (probationary or full) with Psychologists Board of Qld + where relevant Qld Health web-based orientation and hepatitis B vaccination  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN042 Supervised Practicum 6**  
This unit aims to enhance professional knowledge and skills in the practice of clinical psychology, awareness of ethical guidelines and professional conduct through supervised clinical practice (250 hours including 120 hours of direct client contact) within an area of specialisation.

**Prerequisite(s):** PYN041 + registration (probationary or full) with Psychologists Board of Qld + where relevant Qld Health web-based orientation and hepatitis B vaccination  
**Credit points:** 12  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYN044 Clinical Psychological Interventions 2**  
The aim of this unit is to provide you with a theoretical grounding and practical skills in brief psychodynamic and interpersonally-based psychotherapies and their application within an integrative framework.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of the Unit Coordinator  
**Contact hours:** 3 hours per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-2

**PYN045 Clinical Psychological Interventions 3**  
This core unit covers the theories and skills of systemic, narrative and solution-focussed approaches required for relationship counselling and family therapy. The unit has a practical emphasis on common child-focussed and adult-focussed problems. The unit will examine the implications of each of the approaches from an evidence-based practice perspective.

**Prerequisite(s):** Enrolment in PY18 or PY50 or permission of the Unit Coordinator  
**Contact hours:** 3 hours per week  
**Campus:** Carseldine  
**Teaching period:** 2008 SEM-1  
**Incompatible with:**
PYN029

PYN052-1 Research Thesis (Part 1)
This units has 8 parts completed over years 2 and 3 full-time or years 3 to 6 part-time of the course. Students undertake in-depth research on a topic in clinical psychology and develop high-level skills in the evaluation, interpretation and application of research. They are required to submit a thesis or a 5,000 word literature review plus two prepared articles that report the research in a form that can be submitted for publication in an appropriate scholarly journal.
Prerequisite(s): Enrolment in PY50 Credit points: 12
Campus: Carseldine Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-2 Research Thesis (Part 2)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Campus: Carseldine Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-3 Research Thesis (Part 3)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Campus: Carseldine Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-4 Research Thesis (Part 4)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-5 Research Thesis (Part 5)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-6 Research Thesis (Part 6)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-7 Research Thesis (Part 7)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN052-8 Research Thesis (Part 8)
See the description for PYN052-1
Prerequisite(s): Enrolment in PY50 Credit points: 12
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYN054 Advanced Assessment Across the Lifespan
This unit covers theory and skills associated with the assessment of specialised populations across the lifespan. The unit emphasises the research and practice of advanced assessment techniques. The focus is on advanced assessment of specialised populations including the elderly (e.g., memory), child development (e.g., attention and memory) and persons affected by brain injury. You will build upon your understanding of neurophysiology and neuroanatomy, and brain disorders affecting higher functions. The unit covers advanced research on human development, executive function, spatial processing, language, memory, attention and emotion, across the lifespan.
Prerequisite(s): Enrolment in PY18 or PY50 or permission from the Unit Coordinator Credit points: 12 Teaching period: 2008 SEM-2

PYN601 Counselling and Consultation in Educational and Developmental Psychology
Advanced skills in counselling and consultation are required as a core competency of educational and developmental psychologists who work both directly with children, adolescents and families, and also more indirectly with groups, organisations and communities. Their roles vary from counselling individual children and supporting families, to advising teachers and becoming agents of change within organisations and communities. This unit provides students with the knowledge and skills necessary for developing effective counselling relationships with children, adolescents, adults and families and for working as consultants to various groups and systems within educational and developmental settings.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator Credit points: 12 Contact hours: 3 per week Campus: Carseldine Teaching period: 2008 SEM-1

PYN602 Developmental Psychopathology
Educational and developmental psychologists work with children, adolescents and adults with a range of psychological disorders. They need a sound knowledge of major diagnostic systems and an understanding of assessment, treatment and prevention of psychopathology across the lifespan.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 SEM-1

PYN603 Professional Practice in Educational and Developmental Psychology
The practice of psychology requires an understanding of special roles, power relationships, boundaries and ethical principles in order to safeguard client rights. It requires skills in working with individuals and groups from diverse backgrounds, including those from other cultural groups. An understanding of legal issues and relevant legislation and standards is also essential in professional practice.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator Credit points: 12 Contact hours: 3 Campus: Carseldine Teaching period: 2008 SEM-2

PYN606 Applied Developmental Psychology
In order to provide effective approaches to the developmental challenges facing individuals and families at all points along the life course, educational and developmental psychologists need skills for describing, explaining, assessing, intervening and collaborating in the promotion of optimum developmental outcomes. These skills are developed in this unit.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator Credit points: 12 Contact hours: 3 per
PYN610-1 Research Thesis
To ensure high quality practice, psychologists working in the area of educational and developmental psychology are continually required to monitor and modify their own practice to incorporate knowledge of the most recent research, assessment tools and interventions. This requires educational and developmental psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

PYN610-2 Research Thesis
To ensure high quality practice, psychologists working in the area of educational and developmental psychology are continually required to monitor and modify their own practice to incorporate knowledge of the most recent research, assessment tools and interventions. This requires educational and developmental psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

PYN610-3 Research Thesis
To ensure high quality practice, psychologists working in the area of educational and developmental psychology are continually required to monitor and modify their own practice to incorporate knowledge of the most recent research, assessment tools and interventions. This requires educational and developmental psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

PYN610-4 Research Thesis
To ensure high quality practice, psychologists working in the area of educational and developmental psychology are continually required to monitor and modify their own practice to incorporate knowledge of the most recent research, assessment tools and interventions. This requires educational and developmental psychologists to have advanced skills in the critical evaluation, interpretation and application of research. The research thesis provides advanced skill development in these areas.
Prerequisite(s): Enrolment in IX20 or permission of Unit Coordinator  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

PYP101 Assessment Across the Lifespan
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-1

PYP102 CARE COORDINATION ACROSS THE LIFESPAN
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-2

PYP103 Managing Risk in Mental Health
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-1

PYP104 ADVANCED ASSESSMENT IN MENTAL HEALTH
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-2

PYP105 Mental Health Services Delivery: Developing Partnerships in Recovery
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-1

PYP107 MENTAL HEALTH PROMOTION, PREVENTION AND EARLY INTERVENTION
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-2

PYP108 INDIVIDUAL PROJECT: MENTAL HEALTH APPLICATIONS
Credit points: 12  
Campus: Carseldine and External  
Teaching period: 2008 SEM-2

PYP401 Introduction to Road Safety
This unit introduces the key principles and practices in road safety. Special emphasis is given to the broad context of road use/transport in society and the economic and social implications of road crashes. It introduces the basics of information retrieval, road crash analysis and interpretation, and the strategic development of road safety countermeasures.  
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYP402 Traffic Psychology and Behaviour
This unit reviews the wide range of factors that influence the behaviour of road users, particularly those that contribute to the incidence of road crashes or exacerbate their severity. It considers all types of road users, including motor vehicle drivers and passengers, motorcycle riders, cyclists and pedestrians. A range of theoretical models are examined which have been used to explain the behaviour of road users.  
Credit points: 12  
Contact hours: 3 per week  
Campus: Carseldine  
Teaching period: 2008 SEM-1 and 2008 SEM-2

PYP404 Applying Traffic Psychology
This unit reviews the various strategies and programs designed to modify road user behaviour. Effective and ineffective approaches is compared, in order to identify the
key characteristics of successful programs. While this is a stand-alone unit, it extends many of the theoretical and practical issues covered in PYP402 - Traffic Psychology and Behaviour.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Carseldine  **Teaching period:** 2008 SEM-2 and 2008 SUMMER

**PYP405 Road Safety Evaluation Models**
This unit introduces the models and methods used to evaluate behaviour change interventions. In particular, it addresses the systematic application of social and behavioural research methodologies to improve the planning, implementation and monitoring of behavioural road safety programs and counter measures.

**Credit points:** 12  **Contact hours:** Block Mode  **Campus:** Carseldine  **Teaching period:** 2008 SUM-1

**PYP406 Road Safety Theory to Practice**
This unit is undertaken in the latter half of both the Graduate Certificate and Graduate Diploma courses and draws together the various themes developed during the program. It is designed to provide students with an opportunity to study and respond to an existing or emerging road safety problem. The student is required to draw on the knowledge and skills they have developed to investigate and recommend solutions to the problem. As far as possible, the unit is designed to reflect the way road safety problems are approached and managed by road safety agencies.

**Prerequisite(s):** PYP401  **Credit points:** 12  **Contact hours:** 12 per semester, plus weekly contact with the Unit Coordinator  **Campus:** Carseldine  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**PYP407 Independent Study**
This unit enables students to undertake an independent study based in their places of work. Individual supervision and objective feedback on the experience is an important component of the learning experience.

**Prerequisite(s):** PYP401  **Credit points:** 12  **Contact hours:** Weekly contact with Supervisor  **Campus:** Carseldine and External  **Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**PYP408 Road Safety Audit - Principles and Practice**
Road Safety Audit is a powerful tool for improving the safety of the road network in a proactive manner. It complements the more traditional reactive approaches such as black spot programs. Although Road Safety Audit has been utilised by Australian road authorities for a number of years, there remains a lack of suitably skilled people to conduct the audits.

Consequently, the road authorities (through AUSTROADS) have developed national criteria for the Accreditation of Road Safety Auditors, which include the completion of an approved training course and the obtaining of relevant experience. This course has been designed in conjunction with the Queensland Department of Main Roads to satisfy all the requirements for an approved road safety audit course.

**Credit points:** 12  **Teaching period:** 2008 SUM-1

**QCD110 Professional Communication 1**
This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to summarise, analyse, make inferences and recognise key concepts; incorporates strategies for effective group participation in a cross-cultural context; helps students learn techniques for writing successfully in genres appropriate to their field of study.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2, 2008 SEM-2 and 2008 13TP3

**QCD111 Communication 1**
This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to help students to summarise, analyse, make inferences and recognise key concepts; incorporates strategies for effective group participation in a cross-cultural context; helps students learn techniques for writing successfully in genres appropriate to their field of study.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCD120 Professional Communication 1**
This unit focuses on the macro-skills of listening, reading, writing and speaking; establishes techniques for extending vocabulary; uses spoken and written texts of an academic nature to summarise, analyse, make inferences and recognise key concepts; incorporates strategies for effective group participation in a cross-cultural context; helps students learn techniques for writing successfully in genres appropriate to their field of study.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCD210 Professional Communication 2**
This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in context of Field, Tenor and Mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing are also extended to enable efficient essay writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed in support of business subjects. Communication for Business 2 language learning tasks are parallel with content material from these units.

**Prerequisite(s):** QCD110 or IELTS 6.5 or approved equivalent  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2, 2008 SEM-2 and 2008 13TP3

**QCD211 Communication 2**
This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in context of Field, Tenor and Mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing
are also extended to enable efficient academic writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 SEM-2 and 2008 13TP3

**QCD220 Professional Communication 2**
This unit further explores vocabulary and grammar and generic structure to develop skills of speaking and writing in the context of field, tenor and mode. Effective speaking skills are developed according to academic presentation requirements. Skills for coherent and well-structured writing are extended to enable efficient essay writing and the refinement of exam techniques. Language and structure appropriate to commercial, technical and academic communication are developed in support of technology subjects. Communication for Information Technology 2 language learning tasks are parallel with content material from these units.

**Prerequisite(s):** QCD120 or IELTS 6.5 or approved equivalent.  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCE003 English for Academic Purposes for Direct Entry to QUT**
The English for Academic Purposes course helps international students to upgrade their English proficiency level and to meet university entry requirements. This course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Prerequisite(s):** Successful completion of the EAP entry test or an IELTS score of at least 5.5 (with no sub-score less than 5.0) or approved equivalent.  **Credit points:** 48  **Contact hours:** 25 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 12TP1, 2008 12TP2 and 2008 12TP3

**QCE004 English for Academic Purposes for QUTIC Courses**
The English for Academic Purposes course helps international students to upgrade their English proficiency level and to meet university entry requirements. This course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Prerequisite(s):** Successful completion of the EAP entry test or an IELTS score of at least 5.0 (with reading and writing sub-score of at least 5.0) or approved equivalent.  **Credit points:** 48  **Contact hours:** 25 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 12TP1, 2008 12TP2 and 2008 12TP3

**QCE005 English for Tertiary Preparation Studies**
This ETP course helps international students to improve their academic language skills in order to be successful in their chosen program. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

**Prerequisite(s):** IELTS score of 5.5  **Credit points:** 8  **Contact hours:** 25 hours  **Campus:** Kelvin Grove  **Teaching period:** 2008 5TP2, 2008 5TP5 and 2008 5TP7

**QCE006 Cambridge First Certificate in English**
This unit focuses on speaking, listening, reading and writing skills and use of English. It also pays particular attention to First Certificate English examination strategies and skills.

**Credit points:** 48  **Contact hours:** 25 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 12TP1 and 2008 12TP3

**QCF111 Tertiary Preparation Studies 1**
This unit introduces students to the study and learning skills required in an Australian university while gaining an understanding of the Australian culture and society. It includes the following topics: Australia's indigenous people; a brief review of Australian history; the family and multiculturalism; using the computer to gather information and communicate in an academic environment; assignment presentation, study skills and examination techniques.

**Credit points:** 12  **Contact hours:** 5 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF112 Academic English 1**
This unit is designed to help students communicate successfully in a variety of situations. This includes the fundamentals of oral and written communication set within the context of a number of academic situations. This will include effective listening skills, knowledge of how to conduct a seminar, the gathering of information from a variety of sources and its organisation for specific purposes, the various writing genres and the correct use of conventions in the English language.

**Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF115 Foundation English**
This unit is designed to continue the development of reading, writing, speaking and listening skills in English to prepare students for further studies in Foundation Communications. A variety of everyday English literature and real-life situations will be incorporated, with the emphasis being on active participation by students, as individuals and as group members. Such activities will provide students with the skills to explore and use the English language in different contexts. Basic computing skills for word processing and the use of QUT computing services will also be developed.

**Credit points:** 12  **Contact hours:** 4 hours per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF120 Accounting 1**
This unit introduces the essential concepts of debit and credit; processing of financial transactions via journals and ledger through to trial balance for a sole-trading enterprise...
(including GST); end of accounting period adjustments and final reports (specifically preparation of Income Statement and Balance Sheet) and accounting controls over cash.

**QCF121 Economics 1**
This unit introduces students to major economic issues; the basics of economic literacy necessary for future tertiary studies; a working knowledge of the global economy; an understanding of economic problems with particular reference to Australia; the main economic systems; the purpose of a five-sector model and the functions and characteristics of each sector.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF122 Organisations And Management**
This unit is designed to develop understanding of the significant role that organisations play in many facets of our lives, how organisations function and what is involved in working in organisations. The emphasis is on skills that are needed at all levels and in all areas of an organisation. You will develop a range of skills that are required by the individual to function effectively in teams and in an organisation.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF153 Physical Sciences 1**
This unit introduces students to scientific study and research processes and the basic principles underlying physics and chemistry; heat and temperature; geometric properties of light; reflection and refraction; diffraction and interference; introduction to electricity and magnetism; the atom; chemical periodicity; chemical names and formulas; chemical bonding; chemical quantities; chemical reactions; stoichiometry; thermochemistry; the behaviour of gases; water and aqueous systems; properties of solutions.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF156 Mathematics A1**
This unit focuses on basic rules of arithmetic; ratio, percentages and proportion; introduction to statistics; averages and interpretation of graphs; dispersion and graphical display; probability; arrangements and combinations; basic measurement, area and volume; spending money; borrowing money and investment.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF157 Mathematics B1**
This unit focuses on basic algebra; equations (including simultaneous equations); functions (including polynomials, exponential, logarithmic) and their graphs; growth and decay; introduction to trigonometry; factorisation; analytical geometry; averages; interpretation of graphs and probability.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF160 Introduction to Creativity**
In this unit students will be introduced to theories of creativity and will investigate the nature of creative culture and practice. The unit will provide students with opportunities to analyse creative applications, ideas and concepts in a range of industries.

**Credit points:** 12  
**Contact hours:** 4 hours per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and 2008 13TP3

**QCF210 Applied Psychology**
This unit is an introduction to the field of Psychology. Some of the key fundamental theories in psychology, applied research and findings and application techniques are used to provide insight into how human behaviour is observed, managed and changed. Emphasis is on skills that are needed by psychologists to function effectively. An intercultural and cross cultural perspective is pursued throughout the unit, thus enabling students to discover the behavioural similarities and differences that occur around the world.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1

**QCF211 Tertiary Preparation Studies 2**
This unit further develops the skills initiated in Tertiary Preparation Studies 1: Australian government, law; foreign policy and trade; preparation and presentation of both oral and written material.

**Prerequisite(s):** QCF111 or equivalent studies  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2, 2008 13TP3 and 2008 6TP6

**QCF212 Academic English 2**
This unit promotes clear and concise writing in particular genres (essays, assignments and reports) pertinent to undergraduate study; mastery of basic primary and secondary research skills related to assignment tasks; effective oral communication in seminar presentations and tutorial discussion; effective listening in lecture situations and answering exam questions with an awareness of relevance and time management.

**Prerequisite(s):** QCF112 or equivalent studies  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2, 2008 13TP3 and 2008 6TP6

**QCF220 Accounting 2**
This unit examines various accounting sub-systems such as: 10-column worksheets; control accounts and subsidiary ledgers; inventory and fixed asset systems; accounting for credit transactions; budgeting; and financial analysis techniques useful for management.

**Prerequisite(s):** QCF120 or equivalent studies  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 13TP1, 2008 13TP2 and
QCF221 Economics 2
This unit introduces students to the study of macroeconomics. Topics include the five-sector model, the trade cycle, inflation and unemployment, government policy, and the external sector.
Prerequisite(s): QCF121 or equivalent studies Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF230 Information Processing
This unit introduces students to a range of problem-solving techniques and shows how these can be used to solve various problems using an object-oriented programming language; the foundation of relational databases in terms of storing, altering and retrieving information, using SQL for its implementation; a basis for the specification and implementation of information systems using relational algebra.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF252 Life Science
This unit examines the themes of life, macromolecules, metabolism, cell structure, cell processes, biological diversity, plant and animal physiology. The unit emphasises practical skills both in the laboratory and in the field.
Prerequisite(s): QCF153 or equivalent studies Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF254 Physics
This unit introduces students to mechanics, sound, light, electricity; magnetism; electronics and nuclear physics. Relevance to real world activities is stressed by discussing the various applications of concepts learned.
Prerequisite(s): Physical Sciences 1 Credit points: 12 Contact hours: 5 Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF255 Chemistry
This unit prepares students for tertiary study in the applied sciences and provides a solid foundation in basic chemistry and experimental techniques; elements, atoms and ions, modern atomic theory; chemical bonding; inorganic compounds; chemical reactions and energy; water and solutions; gases; acids and bases; oxidation-reduction reactions and electrochemistry; reaction rates and chemical equilibrium and introductory organic chemistry.
Prerequisite(s): Physical Sciences 1 Credit points: 12 Contact hours: 5 Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF256 Mathematics A2
This unit focuses on basic algebra; introduction to trigonometry; normal distribution; hypothesis testing; contingency tables; regression analysis; binomial distribution; inferential statistics; earning money; interest; annuities and t-Distribution.
Prerequisite(s): QCF156 or equivalent studies Credit points: 12 Contact hours: 5 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF257 Mathematics B2
This unit focuses on rate of change; the derivative; stationary points; curve sketching; optimisation; integration; probability distribution; the binomial distribution; normal distribution; hypothesis testing; dispersion, graphical display.
Prerequisite(s): QCF157 or equivalent studies Credit points: 12 Contact hours: 5 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCF260 Professional Studies
In this unit, students investigate the nature of problem solving within creative structures and frameworks. Students work in a team environment using critical thinking and problem-solving frameworks to inform the development of a product or outcome. The unit provides students with individual and group problem-solving models, lateral thinking strategies and group work skills.
Credit points: 12 Contact hours: 4 hours per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

QCS230 Computing
Designed to give international students the computing ability to function in tertiary studies in Australia, this unit covers access to the QUT network, Microsoft Windows, email, Internet, word processing and presentation, and the use of technology for research.
Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

SCB100-1 Cooperative Education
The cooperative education program is a joint venture between employers and the Faculty to better prepare students for employment upon graduation. It is a year when students undertake an industry placement applying the theory and practical skills they have learnt into real world situations. The Faculty assists students to obtain suitable employment for a 10-12 month industry placement. The cooperative education employers, in consultation with the Faculty, develop detailed position descriptions for each placement. Students continue to be enrolled in their degree programs during the cooperative education placement. The student is assessed on the basis of a report, together with reports from the student's workplace.
Prerequisite(s): Successful completion of 16 Science units with a GPA of 4.5 or better Credit points: 0 Campus: Gardens Point

SCB100-2 Cooperative Education
The cooperative education program is a joint venture between employers and the Faculty to better prepare students for employment upon graduation. It is a year when students undertake an industry placement applying the theory and practical skills they have learnt into real world situations. The Faculty assists students to obtain suitable
campus: gardens point and carseldine

SCB112 Cellular Basis of Life
A study of life processes in all five groups of living organisms (bacteria, protists, fungi, plants and animals). Traditional topics in biology are integrated with recent research advances in molecular and cellular biology to provide a comprehensive foundation for later units in the medical, biotechnological and ecological sciences. The unit begins by constructing cells from the four quantitatively important groups of biological molecules (proteins, lipids, carbohydrates and nucleic acids). Molecular and evolutionary aspects of genetics are then introduced, with the great diversity of reproductive strategies found among organisms being emphasised. Finally, bioenergetics (photosynthesis and respiration) and its relevance to environmental issues is outlined.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point and Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

SCB111 Chemistry 1
This unit covers the fundamentals of general and physical chemistry. Topics include atomic and molecular structure, introduction to chemical bonding, reaction stoichiometry, thermochemistry, gas phase chemistry, reaction kinetics, equilibrium, acids, bases, buffers, oxidation, reduction and electrochemistry. The practical program involves experiments illustrating a range of chemical reaction types including precipitation reactions, acid-base chemistry and redox chemistry using analytical experimental methods. A comprehensive tutorial program (CHELP) complements the lectures and is designed to assist students to develop the problem solving skills required for further study in chemistry and related sciences.

Credit points: 12  Contact hours: 4.5 per week  Campus: Gardens Point and Carseldine  Teaching period: 2008 SEM-1 and 2008 SEM-2

SCB110 Science Concepts and Global Systems
You will undertake interdisciplinary study of the physical, geological and biological concepts relating to the origins of life; from the creation of matter and planets, to the emergence of life in all its complexity, culminating in evolution of earth ecosystems. Human influences, overlaid upon earth's complex systems, will be examined as to their type, extent, and impact. In counterpoint, you will explore the breadth of philosophical developments underlying our search for knowledge; fundamental thoughts and ideas that span the last 2,500 years of human history. Ultimately, these concepts evolved through the development of a scientific method and we explore its workings in relation to the ongoing enterprise of human understanding.

Credit points: 12  Contact hours: 4.5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

SCB120 Plant and Animal Physiology
Regardless of which area of biology students decide to specialise in, they need to understand the complex interactions interactions between cells, tissues, organs and organ systems that comprise multi-cellular organisms. Although many living processes can be explained at the levels of biochemistry, biophysics and cell biology, a true understanding of complex, multicellular organisms requires integration of knowledge drawn from all of these areas, combined with the more complex physiological and structural levels you will learn about in this unit. The knowledge students gain in this and other first level units provides them with the conceptual framework necessary to understand processes occurring from the cellular to the whole organism level and to higher levels of organisation. The basis of their progression to higher-level units and future professional work will rely on the understandings of complex, multicellular organisms that they develop here.

Corequisite(s): SCB112  Credit points: 12  Contact hours: 4.5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: NRB270

SCB121 Chemistry 2
Chemistry is the central science. This is a unit of fundamental importance as it covers the background and general principles that underpin understanding in many Science and Health related disciplines. In this unit students will be introduced to fundamental aspects of chemistry including the nature of matter, atoms, molecules and ions. From this basis students will develop an understanding of the electronic structure of atoms, chemical bonding and molecular structure as well as the fundamentals of organic chemistry (often described as the chemistry of life).

Credit points: 12  Contact hours: 4.5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: PCB242

SCB122 Cell and Molecular Biology
SCB122 Cell and Molecular Biology 1 equips students with a comprehensive understanding the molecular basis of the cell. This unit expands on the basic principles and concepts

SCB113 Chemistry for Health and Medical Science
A challenging chemistry unit designed for students undertaking health and/or medical science degrees. A range of topics from sub-discipline areas of general, physical and organic chemistry are covered. General/physical chemistry content includes atomic and molecular structure, electronic structure, bonding, molecular geometry, stoichiometry, thermochemistry, gases, kinetics, equilibrium, acids, bases, buffers, and electrochemistry. Organic chemistry content includes functional group chemistry, reaction mechanisms, stereochemistry, chirality as well as topics of biological significance including the chemistry of peptides, sugars and DNA. The unit is complemented by a practical program involving a range of experiments illustrating important chemical concepts.

Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1
SCB112 Exploring Chemistry
Relating to cell structure, function, perpetuation and specialisation introduced in SCB112 and introduces students to fundamental molecular mechanisms central to the organisation of the cell. Students will be shown how macromolecular interactions are crucial to information flow and heredity. Students are taught the relationships between chromosomes, genes and cellular function and ultimately how these may determine an organism's phenotype. This unit underpins cell biology and molecular biology units that are offered in second year Life Science units. SCB122 is also ideal for interfaculty students (eg Education, Business, Arts) who will undertake no further life science studies.
Corequisite(s): SCB112
Credit points: 12
Contact hours: 4.5 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2
Incompatible with: LSB238

SCB123 Physical Science Applications
Physics principles underpin all of the sciences and 'new technologies'. This unit adopts an investigative team-based approach to provide students with an appreciation of fundamental concepts in physical science, together with experience in the application of these concepts to a range of 'real world' problems. The unit should be taken in the first year of study as the fundamental principles introduced here will be built upon in later units in the context of each science student's major discipline area. Employers in cutting-edge industries expect science graduates to have effective strategies for problem solving, skills for collaborative work and scientific communication and research skills. This unit aims to develop these skills by applying the fundamental concepts of physical science to problems in a team environment.
Credit points: 12
Contact hours: 4.5 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2
Incompatible with: PCB101

SCB131 Experimental Chemistry
Chemistry is the central science. It affects society as well as the individual. It is the language and principal tool of the physical sciences, the biological sciences, the health sciences and the agricultural and earth sciences. A detailed study of chemistry and related disciplines such as medical science, biochemistry, molecular biology and pharmacy requires the development of practical laboratory skills for synthesis and chemical analysis. This unit is designed specifically to develop these aspects of chemistry. The lecture content relates directly to the practical component of the unit to allow development of theory that is directly applicable to experimental chemistry.
Prerequisite(s): SCB111 or SCB113
Credit points: 12
Campus: Gardens Point
Teaching period: 2008 SEM-2

SCB208 Introduction to Pharmacy Practice
This introductory unit will provide an overview of the activities of a community pharmacy, including the processing of prescriptions, complementary medicine products and other front of shop merchandise. Topics cover foundation practical knowledge and skills (needed for professional placements in later units) together with retailing skills such as merchandising, stock control and computerised point of sales systems.
Prerequisite(s): PYB007
Interpersonal Processes and Skills
Credit points: 12
Contact hours: 5 hours per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

SCB222 Exploration of the Universe
This unit provides an introduction to optical observational astronomy; instrumentation; celestial sphere and astronomical coordinates; observations of constellations, stars, planets, clusters and other interesting celestial objects. The theory includes: optics of telescopes; properties of light; determination of physical properties of stars; nebulae; stellar spectra and classification; historical models of the solar system; Kepler's law, gravitation; physical geology of the planets and formation of the solar system; phenomena of astronomical origin; brief introduction to stars and galaxies. This course includes practical exercises and field trips.
Credit points: 12
Contact hours: 5 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

SCB301 Science for Dean's Scholars
The content of this unit is offered through a series of approximately six modules, of which students are required to complete three. The range of modules, together with the selection required, ensures that students have a broad foundation for advanced studies. The modules offered include Life Sciences, Chemistry, Physics, Mathematics, Statistics and Environmental Science.
Prerequisite(s): A Years 11-12 exit assessment + admission to the Dean's Scholars Program
Credit points: 24
Contact hours: 20 per week (for five weeks)
Campus: Gardens Point
Teaching period: 2008 SUM-2

SCB303 Tutorial Program for Dean's Scholars
The content of this unit is designed in a consultative process involving the student, the academic mentor, and the Dean. The unit aims to allow the study of topics and concepts in science that will support the student's progress in initial studies in advanced level units.
Prerequisite(s): SCB301
Credit points: 12
Campus: Gardens Point
Teaching period: 2008 SEM-1

SCB308 Pharmacy Practice 1
A principle role of pharmacists is to dispense and provide advice on the use of large range over the counter (OTC) medications. This unit will provide knowledge on the therapeutic use and regulatory requirements of OTC medications and reinforce the communication skills that are necessary to effectively counsel patients on their proper use and the possible incidence and presentation of adverse effects. An introduction to nutrition and diet will also be provided by the Health Faculty. Experiential placements will also commence during this unit. Additionally, this unit will facilitate the mastery in the proper use of a wide range of basic pharmaceutical calculations which are imperative for the correct determination and validation of prescribed doses of drugs.
Prerequisite(s): SCB208
Credit points: 12
Campus: Gardens Point
Teaching period: 2008 SEM-1
SCB338 Pharmaceutical Chemistry and Pharmacology 1
Pharmacists require a detailed understanding of the physiochemical properties of drugs and an appreciation of the process of Drug Discovery to facilitate an understanding of how the current range of medicines have been developed. This unit will also provide an understanding of the analytical chemistry techniques that are used to quantitate the active compounds in both pharmaceutical formulations and biological samples, and spectroscopic techniques used in structural elucidation of biologically active compounds. Additionally, this unit will introduce the discipline of pharmacology which examines the interaction of chemical substances with biological system which is fundamental to the understanding of the molecular actions of pharmaceutical products.
Prerequisite(s): SCB113, SCB131 and SCB122 (or PCB142, PCB242, LSB238) Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB384 Forensic Science
In this unit, students are introduced to the general philosophy of forensic science as it relates to the crime scene, the role of the justice system, the forensic scientist, and some of the topics at the forefront of crime investigation. These include: the role of DNA profiling; computer crime; fraud; CBR (Chemical, Biological and Radiological) agents and explosives in counter terrorism. The lectures are supported by laboratory practicals, workshops, and demonstrations.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB401 Research Methods for Dean's Scholars
This unit includes a literature review, experimental design, research proposal formulation and writing, and presentation of a research proposal.
Prerequisite(s): SCB301 Credit points: 12 Contact hours: Arranged by academic mentor Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

SCB408 Pharmacy Practice 2
This unit extends the students knowledge of pharmacy practice in the areas of dispensing and counselling of both OTC and scheduled drugs used in the treatment of cardiovascular, respiratory, renal and GI Tract complaints. Students will be introduced to concepts such as non-compliance of patients, problem identification and effective strategies to overcome these obstacles to health management through patient communication. Practical experience will be gained by the students via experimental placements in a community pharmacy environment. Additionally, this unit will extend the students mastery of the proper use of a wide range of advanced pharmaceutical calculations.
Prerequisite(s): SCB308 Corequisite(s): SCB438 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB428 Pharmacokinetics
This unit is designed to extend the knowledge of physiochemical properties of drugs and how they relate to pharmacokinetic factors which determine the behaviour of drugs following administration. This unit will develop an understanding of how the chemical properties of drugs relate to absorption, distribution metabolism and excretion. This knowledge is essential in understanding the dosing regimen for drugs and their pharmacokinetic parameters in individual patients. Additionally, generic formulations and product substitution will be explored on the basis of the TGA bioequivalence requirements for the products and provide the students to counsel patients on the suitability of generic brands of pharmaceutical formulations.
Prerequisite(s): SCB338, MAB141 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB438 Medicinal Chemistry and Pharmacology 2
A detailed knowledge of medicinal chemistry and pharmacology is essential for the understanding of actions of drugs with endogenous molecular targets. This unit continues to develop the basic principles developed in SCB338 and introduces the concept of structure activity relationships (SARs) which demonstrates the linkage between the chemical structure of drugs and their biological activity and selectivity. The medicinal chemistry of a number of major drug classes are examined in detail, including adrenergic, cholinergic, serotonergic and antihypertensive drugs. This unit also provides an extension of this knowledge in pharmacology and focuses on the drug classes that act on the cardiovascular, respiratory, eye, renal, gastrointestinal systems.
Prerequisite(s): SCB338 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB500 Industry Project
In this unit students will apply scientific methods and quantitative techniques to real work issues. Students will develop an appropriate plan for analysing and resolving an industry issue under the guidance of both a QUT supervisor and an associate supervisor from an industry partner. At the end of the unit students will present both an oral seminar and a written report.
Prerequisite(s): 84 Credit Points of level 2 / 3 science units Credit points: 12 Contact hours: 52 Campus: Gardens Point Teaching period: 2008 SEM-2 and 2008 SUMMER

SCB501-1 Research Project for Dean's Scholars
This unit includes an individually tailored research project carried out under the supervision of a research mentor.
Prerequisite(s): SCB401 (excluding Maths and Physics majors) Credit points: 12 Contact hours: (Individual research project) Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

SCB501-2 Research Project for Dean's Scholars
This unit includes an individually tailored research project carried out under the supervision of a research mentor.
Prerequisite(s): SCB401 (excluding Maths and Physics majors), SCB501-1 Credit points: 12 Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2
SCB508 Pharmacy Practice 3
The dispensing and counselling of scheduled drugs requires expertise in drug knowledge, packaging and labelling, health regulations and legislation, communication techniques, compounding processes and the ability to understand and validate the diagnosis of clinical conditions. This unit will provide students with expertise to dispense and counsel patients on the therapeutic uses of pharmaceutical drugs that treat infections, endocrine disorders, cardiovascular disease and a range of drug withdrawal syndromes.

Prerequisite(s): SCB408 Corequisite(s): SCB538
Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB528 Pharmaceutics 1
A detailed knowledge of the physical properties of pharmaceutical formulations is an essential attribute for pharmacists as it facilitates the understanding of the behaviour of drugs following administration. The formulation of drugs has a large influence on all aspects as the route of administration, the onset and duration of action and the pharmacokinetic parameters that govern the drugs activity in the human body. This course introduces the student to the discipline of pharmaceutics and develops knowledge with respect to the physical behaviour of excipients and compounds, separate from the biologically active drug, that are used in the manufacture of pharmaceutical products.

Prerequisite(s): SCB428 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB538 Pharmacology 3
A detailed knowledge of the pharmacology of drugs is essential for pharmacists to understand the therapeutic applications of pharmaceutical compounds and their concomitant adverse effects. This unit provides an extension of this knowledge and covers the drug classes that act on the central nervous system, endocrine system, anticancer drugs, drugs of abuse and pharmacotherapies for withdrawal syndromes.

Prerequisite(s): SCB438 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB608 Pharmacy Practice 4
The dispensing of schedule drugs to the community requires expertise in drug knowledge, packaging, labelling and health regulations, communication techniques, compounding processes and the ability to understand and validate the diagnosis of clinical conditions. This unit will provide students with expertise to dispense pharmaceutical drugs that are used in the treatment of infectious diseases and the treatment of tumours and malignancies.

Prerequisite(s): SCB508 Corequisite(s): SCB648
Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB628 Pharmaceutics 2
This unit is designed to extend the knowledge base of pharmacy students in the discipline of pharmaceutics which is essential to their understanding of pharmaceutical product formulation. This unit will focus on solid dosage form design including tablets and capsules and the theory and practical aspects of controlled release formulations which are increasingly utilised in modern pharmaceutical formulations. Additionally, this unit will extend the student's expertise in the science of compounding of advanced pharmaceutical formulations.

Prerequisite(s): SCB528 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB638 Pharmacogenomics and Drug Metabolism
The metabolism and efficacy of drugs are influenced by a range of genetic and biochemical processes that occurs in the human body. A detailed understanding of these factors is necessary for pharmacists to understand drug selection, the biological fate of drugs following administration, the appropriate route of administration and the occurrence of adverse effects and limited efficacy in certain populations of patients. This unit will provide an in-depth coverage of the biochemistry of drug metabolism and the genetic factors that influence these processes. Additionally, the field of pharmacogenomics is becoming increasingly important in describing the influence of the patient's genetic heritage on the behaviour of drugs and promises to lead to better use of medications based on the genetic polymorphisms identified for certain ethnic populations and individuals.

Prerequisite(s): SCB538 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB648 Pharmacotherapeutics 1
The dispensing and counselling of pharmacotherapies for infectious diseases requires an advanced knowledge, understanding and skills relevant to infectious disease diagnosis, the mechanism of action of pharmacotherapies, public health microbiology. This unit will demonstrate the correct therapeutic use of drugs in the treatment of infectious diseases following a review of their pathophysiologic basis. Additionally, quality use of medicines issues for these pharmacotherapies will be reviewed and reinforced by the use of clinical scenarios.

Prerequisite(s): LSB328 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB708 Pharmacy Practice 5
The pharmacy practice units in the 4th year of the B Pharmacy course will provide both advanced and updated information on the dispensing and counselling of drugs using case based clinical scenarios. Additionally, students will be provided with information that will allow them to critically evaluate clinical trial design using studies of newly released drugs as a reference and the role of regulatory authorities during the process of drug approval. Through a series of case based problems and scenarios that will involve a diverse range of diseases and disorders, the students will gain experience in the skills required to dispense medication and effectively communicate drug knowledge to patients.
UNIT SYNOPSES

SCB748 Pharmacotherapeutics 2
A number of factors must be considered before a decision concerning the appropriate drug is prescribed and dispensed to patients. This unit will provide a pathophysiological approach to the identification of cardiovascular, respiratory, renal, and endocrine disorders. Students will be instructed on the factors that determine the correct choice of therapeutic drug and the dosing regimen including drug toxicity, pharmacokinetics and pharmacodynamic consideration for the individual patient, drug-drug interactions and pharmacoeconomics considerations.
Prerequisite(s): SCB608 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB758 Pharmacy Management 1
In addition to their role as allied health care providers, pharmacists are often required to assist in the management of their workplace which consists of supervision and administration of a diverse staff roster, stock inventory and marketing strategies. Moreover, many pharmacists enter into complex partnerships agreements during the purchase of a pharmacy. This unit will provide the basic management tools in the areas of accounting, preparation of budgets and business plans, payroll and GST legislation, marketing, partnerships law, decision making and the use of financial software to effectively understand the information provided by support staff to make effective business decisions.
Prerequisite(s): SCB608 Corequisite(s): SCB708, SCB768 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB768 Professional Placements 1
The role of a contemporary pharmacist in providing healthcare products and advice consists of diverse range of skills and abilities in the preparation of pharmaceutical preparations, the dispensing of medications, counselling of patients and their families in their correct use and performing medication reviews. To assist students in developing expertise in these areas, this unit will provide real world experience through a long-term continuous placement in a community or hospital environment under the supervision of qualified preceptor. These placements will consist of a five (5) week block that will commence in the second half of the semester and assessment will consist of the documented completion of a assignments and experiential log book.
Prerequisite(s): SCB608 Corequisite(s): SCB708, SCB758 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-1

SCB808 Pharmacy Practice 6
The pharmacy practice units in the fourth year of the Bachelor of Pharmacy course will provide both advanced and updated information on the dispensing and counselling of drugs using case based clinical scenarios. Through a series of case based problems and scenarios that will involve a diverse range of diseases and disorders and aspects of pharmaceutical care, the students will gain experience in the skills required to dispense medication and effectively communicate drug knowledge to patients, and an understanding of the provision of primary health care in the Australian Health system.
Prerequisite(s): SCB708, SCB768 Corequisite(s): SCB858, SCB868 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB848 Pharmacotherapeutics 3
A number of factors must be considered before a decision concerning the appropriate drug is prescribed and dispensed to patients. This unit will provide a pathophysiological approach to the identification of neurological, mental health and oncological disorders and diseases that affect the eye, ear and skin. Students will be instructed on the factors that determine the correct choice of therapeutic drug and the dosing regimen including drug toxicity, pharmacokinetics and pharmacodynamic consideration for the individual patient, drug-drug interactions and pharmacoeconomics considerations.
Prerequisite(s): SCB748 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB858 Pharmacy Management 2
This unit extends the knowledge of pharmacy students in areas of accounting and finance, management, HR and health care policy in relation to the management of a pharmacy business.
Prerequisite(s): SCB758 Corequisite(s): SCB808, SCB868 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SCB868 Professional Placements 2
This unit is designed to extend the students experiential skills in working in either a community or hospital pharmacy environment. The design and timetabling of the unit is similar to SCB768 Professional Placements 1, but the emphasis will focus on the dispensing and counselling and QUMs of further drug classes and the management skills will be aligned with SCB858 Pharmacy Management 2. These placements will consist of a five (5) week block consisting of four working days that will commence in the second half of the semester and assessment will consist of the assignments and submission of a experiential log book.
Prerequisite(s): SCB708, SCB768 Corequisite(s): SCB808, SCB858 Credit points: 12 Contact hours: 5 per week Campus: Gardens Point Teaching period: 2008 SEM-2

SPB003 Teaching Children with Disabilities
This unit provides an introduction to a wide range of low incidence exceptionalities (for example sensory impairments, developmental delay and health impairments such as epilepsy, asthma and hepatitis, and so on). It also addresses methods of managing associated disabling conditions, the implementation and evaluation of programming, and the support and referral services.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove
SPB004 Teaching Students with Learning Difficulties
This unit integrates a basic understanding and application of learning theory as it applies to exceptional populations. It focuses on approaches to teaching particular exceptional groups and provides an opportunity for development of specialist skills and resources in one of the following areas: (a) students with learning difficulties; (b) gifted students; (c) students with low incidence disabilities, for example hearing impaired, visually impaired or physically handicapped; (d) behaviourally or emotionally disturbed students.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

SPB006 Educational Counselling
This unit includes the following: the nature of counselling/helping in educational contexts; the educator as counsellor; characteristics of effective helpers; practical development of communications skills; building an empathic relationship; structuring the counselling process; application of some counselling theories to the educational contexts; practical sessions using educationally based role plays to demonstrate effective use of the skills learned. The unit includes a compulsory study school for external students. It is incompatible with studies in Counselling or equivalent at Diploma of Teaching level.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

SPB008 Middle Years Students and Schools
This unit provides an understanding of the developmental needs and interests of young adolescents and reform initiatives being implemented by schools to address these issues. The unit analyses the work of agencies and major reports in the middle years of schooling and examines aspects of research focussing on reform in curriculum, pedagogy and the way schools are organised. The unit is one of four units forming a pathway into the middle years of pedagogy and the way schools are organised. The unit is currently being developed.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-2

SPB012 Classroom and Behaviour Management
This unit integrates concepts of behaviour development, management and discipline within a defensible pattern of classroom management and appropriate curricula processes.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1, 2008 SEM-2, 2008 6TP4 and 2008 SUMMER

SPB018 Teaching Strategies
This unit includes: evaluation of the students’ teaching strategies; the literature on teaching strategies; critical evaluation of strategies/models of teaching available.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

SPB020 Classroom Assessment Practices
This unit includes: examination of the nature and purpose of assessment; traditional and contemporary developments in the assessment of students in a range of settings; test construction and validation; record keeping and reporting, with emphasis on practical applications by practising teachers.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Caboolture  Teaching period: 2008 SEM-1, 2008 6TP4 and 2008 SEM-2

SPB022 Middle Years Curriculum, Pedagogy and Assessment
This unit enables students to gain an appreciation of the middle school movement and how this has the potential to impact on the needs and interests of young adolescents. The focus is on a more integrated approach to curriculum, teaching strategies appropriate to middle schools and authentic assessment.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-1

SPB035 Primary Curriculum and Pedagogies: Integrated Primary and Middle Years Curriculum Project
This unit focuses on pedagogies, planning and assessment within the curriculum organisers of the New Basics, and the curriculum guidelines in the key learning areas. It aims to increase students' knowledge and understanding of how curriculum organisers and outcomes can be used to plan intellectually challenging curricula for young children.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

SPB036 Primary Curriculum and Pedagogies: Assessment and Reporting
Monitoring individual development and designing appropriate intervention programs/units to meet individual needs is the work of all teachers. Thus, the unit provides opportunities for the educator to devise ways to monitor student development and to engage with current international, national and state developments that require systemic evaluation of all key learning areas.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

SPB100 Introduction to Adult Learning and Development
Educators and trainers play a significant role in assisting adults to learn and to facilitate the development of effective learning strategies and environments. To do this they must understand human development and the psychology of teaching and learning both generally and as it applies to adults. This unit explores seminal learning theories and the emerging differentiation of these theories to explain adult learning experiences in diverse and challenging organisational and community contexts.
Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1
SPB101 Theorists in Adult Education
The unit introduces students to the broad field that constitutes adult education and the diversity of provision that is available to adults. Special attention is paid to the literature that enunciates the key concepts that are involved in this field of study. Within the corpus of adult education theory, there are many perspectives, models, relationships and principles that can be utilised in the formation and development of a personal philosophy of sound adult education. Thus, important philosophies that have shaped adult education policy and practice are examined; so too are important theorists whose work continues to influence practitioners’ and researchers’ work in the area.
Prerequisite(s): EDB101, SPB102  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

SPB102 Professional Communication in Adult Learning Contexts
In order to successfully complete the degree program and to operate in professional contexts, students need to develop competence in a range of professional communication and information literacy skills. They also need to understand the principles and conventions of acknowledgement and referencing of sources in order to maintain professional, academic and ethical standards. This unit is compulsory and must be undertaken in the first semester of the program.
Corequisite(s): EDB101  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

SPB103 Program Design and Evaluation
This unit will explain the principles used to design learning experiences for adults, with special emphasis on the needs of the adult learner and the learning outcomes to be achieved. A variety of assessment methodologies (from objective testing to portfolios to self assessment) will be examined as will criteria for selecting and designing appropriate assessment tasks. Finally, the processes of the evaluation and reporting of costs and benefits of learning investments will be discussed.
Prerequisite(s): SPB100, SPB101  Credit points: 12  Campus: Internet, Kelvin Grove and External  Teaching period: 2008 SEM-2

SPB104 Research and Inquiry
To achieve life long learning and to survive in an ever changing world, students will need research skills. These research skills are also the basis of any needs analysis that should guide any design of a learning experience for adult learners. Accordingly, this unit will provide opportunities for practical application of quantitative and qualitative data gathering and analysis techniques. This unit will use experiential learning based on Kolb's (1984) learning cycle of plan, concrete experience, reflection and abstraction. The students will also experience three learning generation processes of externalisation, combination and internalisation (Nonaka and Takeuchi 1995).
Prerequisite(s): SPB100, SPB101  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

SPB105 Politics of Diversity and Identity
In this unit, students will develop understandings of social and educational policy drivers nationally and internationally and their impact on diverse learners. Gender implications are also considered. Students will be expected to use these understandings to review and critique contemporary and historical practices in adult, organisational learning as they have been presented and discussed in this and previous units.
Prerequisite(s): SPB100, EDB102  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1

SPB106 Managing Learning Organisations
In this Unit, students will develop understandings of social and educational policy drivers nationally and internationally and their impact on diverse learners. Gender implications are also considered. Students will be expected to use these understandings to review and critique contemporary and historical practices in adult, organisational learning as they have been presented and discussed in this and previous units.
Prerequisite(s): SPB103, SPB104  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

SPB107 Knowledge Management
Knowledge capital is now recognised as one of the key assets of an organisation or community. Communities and organisations need to be able to manage this unique and valuable asset to ensure current and future viability. This unit will examine how knowledge is maintained, imported and created within an organisation or community. A parallel development, learning partnerships, is being supported by governments around the world as one possible answer to the increasing complexities, and growing disempowerment, of local communities. All types of organisations need to know how to manage their knowledge capital and how to operate within communities of practice.
Prerequisite(s): SPB105, SPB106  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

SPB108 Career Development and Professional Futures
Graduates of this course require an understanding of the changing work context and the skills they need to possess to maintain position. They also need to be able to support the development of such understandings in the clients with whom they work. This unit aims to enable students to develop understandings of a range of relevant theoretical and conceptual frameworks from the fields of vocational and organisational psychology. They will critique their own professional learning during their study of the Bachelor of Adult Education and Training and develop a professional portfolio which demonstrates the range of professional attributes they have developed over the course of the program.
Prerequisite(s): EDB103  Corequisite(s): EDB104  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-2
SPB110 Contemporary Issues: Adult Education and Training
Adult education and training practices have emerged as a major consideration in Australia. Political policies such as the Queensland Skills Plan and the Australian Quality Framework have led to a greater appreciation of the diverse role adult education and training plays in areas that include; workforce development, economic growth and stability and globalisation. The emergence of contemporary issues associated with adult education and training necessitates understanding by professionals in the field. The eclectic nature of the unit content will provide students with a greater appreciation of current trends, influences, policies and practices that complement and impact upon adult education and training in contemporary Australia. Current influences include; technology and e-learning, the skills shortage, the changing nature of work, workforce transitions, the ageing population, engagement and linkages with Registered Training Organisations and VET in Schools.

Credit points: 12  Teaching period: 2008 SEM-2

SPB111 Vocational Training Assessment
A major aspect of training and adult learning in any context is assessment. This unit provides students with an understanding of assessment process, terminology and application that can be used in training, workplace learning and other adult learning contexts. Adult learning, training and vocational development effectiveness is based on an appreciation of why it is important to assess, what constitutes assessment and processes for assessment.

Credit points: 12  Teaching period: 2008 SEM-1

SPB112 Leadership Capabilities in Training and Development
This unit is concerned with leadership which may be viewed as a characteristic of an individual or as a specific process for influencing others. The unit considers the contemporary role of leadership in addressing the demands and complexities of a challenging and changing training and development context. The unit will enhance students understanding of what leadership is, leadership roles and leadership challenges in this current training and development organizational climate affected by wider forces of globalization, change and performance imperatives.

Credit points: 12  Teaching period: 2008 SEM-2

SPN610 Advanced Educational Counselling
This unit provides students with an overview of major theories of counselling and to assist them in the development of a framework using one of these approaches that they may use as a basis for their counselling.

Prerequisite(s): SPB006  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

SPN611 Educational Counselling Professional Practice
This unit looks at: professional practices of educational counsellors working in the P-12 context; intervention, prevention, affective, and developmental programs; adolescent issues and career counselling; consultation models, theories and practices; self-management skills, time management, program evaluation, accountability and decision-making discussed.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet  Teaching period: 2008 SEM-1

SPN612 Psychoeducational Assessment
In this unit students gain a broad understanding of the various types of assessment techniques and strategies used in the educational context to develop understandings and capacities that advance learners from basic competence in professional practice to confident and ethical leadership in learning innovation in school guidance and counselling.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

SPN613 Learners with Special Needs: Programming for Inclusive Education
Teachers learn to understand the development and learning performance of students with special needs from a functional perspective. Particular attention is paid to understanding the nature of learning, to diagnosing cognitive and affective coping and problem solving strategies and to harnessing students' desire to learn.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1

SPN614 Teaching Students with Learning Difficulties/Disabilities
Teachers should view students as individuals who require different kinds of support and not as educational failures. Competing models for explaining the aetiology and characteristics of learning/reading difficulties are evaluated and their educational implications explored. Students who experience difficulties must be given support especially in key areas such as literacy development. Governments are encouraged to offer support on the grounds of equity for individuals as well as long term economic benefits to the community.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-2

SPN615 Managing Learners with Disabilities and Challenging Behaviours in the Classroom
This unit provides theoretical and practical knowledge for regular and special educators working in the area of behaviour management in schools. Preventative behaviour management practices are addressed for the school and classroom and more specialised skills and strategies that may be utilised with challenging behaviour are examined.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-2

SPN617 Foundations of Behaviour and Classroom Management
This unit develops critical knowledge and skills so teachers can show leadership in constructing innovative and comprehensive ways to develop appropriate conduct and manage problematic behaviour in their professional environment.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1
SPN618 Innovative Career Development Program
This unit encourages learners to engage in lifelong learning and within the context of career development practice, lead innovations in the delivery of career development programs to a wide range of audience throughout the community.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-1

SPN619 Constructing Career Theory
This unit provides students with an overall view of extant theories of career development. Major theories which have a significant impact on empirical and practical work are covered. Less well developed emerging theories are also covered. Students are encouraged to understand the relevance of theory to their own practice.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-2

SPN620 Career Counselling
This unit encourages learners to critically evaluate the perspectives to formulate a personal position with respect to their career counselling practice. Students have the opportunity to gain experience in the application of traditional and emerging career counselling processes, and to contribute to innovation in supporting the role of career counselling in a new career guidance context of career self-management.
Prerequisite(s): SPB006 OR SPN610
Credit points: 12
Teaching period: 2008 SEM-2

SPN624 Adult and Professional Learning
The focus of this unit is on how theories can be used to interpret and explain concepts such as knowledge construction skills, acquisition, transferability/ adaptability of knowledge and skills, effects of prior knowledge, higher order problem finding and solving skills, the development of the self, and individual beliefs and values.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Internet
Teaching period: 2008 SEM-1

SPN625 Changing Agendas in Leadership
The overall aim of this unit is to enhance the leadership understanding and capabilities for both current leaders and those aspiring to such positions in organisations today and in the future. This aim is set in a broader understanding of notions of shared and multiple leadership concepts.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1

SPN626 Leading and Managing People
This unit enhances the understandings and capabilities of leaders and aspiring leaders to manage their organisation's human resources in rapidly changing and challenging contexts.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-2
Incompatible with: PRN630, PRN631, PRN632

SPN627 Policy Development and Analysis
This unit develops students' critical understanding about the policy process - policy development, implementation, effectiveness and evaluation.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-2

SPN628 Leadership For Change
The overall aims are for students to better understand change in organisations and to be able to apply these understandings in their own organisational contexts.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-1

SPN629 Current Issues In Leadership
The aim of this unit is to enhance the understandings of leaders and aspiring leaders regarding some of the current and emerging leadership and organisational agendas.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-1

SPN633 Critical Frameworks For Analysing The Middle Years of Schooling
This unit provides teachers with an opportunity to develop innovative approaches to their work by enabling them to analyse their context through a range of critical frameworks, design appropriate and effective learning programs that address that context and develop approaches to leadership that enable their ideas to extend beyond their own context.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Internet
Teaching period: 2008 SEM-1

SPN634 Rethinking Programs And Pedagogies: The Middle Years Of Schooling
The aim of this unit is to provide teachers with an opportunity to develop innovative curriculum and pedagogy that are relevant to middle school contexts. It enables them to build understanding of a research approach and blend this with their own personal experiences.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-1

SPN637 Managing Knowledge in Learning Organisations
The aim of this unit is to give students a basic model so that they can analyse the knowledge assets of an organisation and understand the processes used by organisations to manage knowledge assets.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Campus: Internet
Teaching period: 2008 SEM-1

SPN640 Developmental and Educational Assessment
This unit provides students with an opportunity for foundation study of principles and methods for assessing individual development and personal characteristics. Underlying this unit is the assumption that the purpose of assessment is to collect information that will be used to design interventions.
Prerequisite(s): Acceptance into the Master of Educational and Development Psychology Programme or permission from the Unit Coordinator
Corequisite(s): Nil
Credit points: 12
Campus: Kelvin Grove
Teaching period:
SPN641 Interventions in Educational and Developmental Psychology
This unit aims to equip students with a range of applied strategies for evidence-based prevention and intervention within educational and developmental contexts. Practical skills need to be founded on a deep conceptual understanding of the links between assessment and intervention.
Prerequisite(s): Acceptance into the Master of Educational and Developmental Psychology Programme or permission from the Unit Coordinator
Corequisite(s): Nil
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-1

SPN642 Learning Difficulties: Assessment and Intervention
The aim of the unit is to provide students with a sound knowledge of learning processes, and methods for assessing individuals with learning difficulties. It also introduces students to a variety of appropriate interventions for individuals with learning difficulties and associated impairments.
Prerequisite(s): SPN640 or permission from the Unit Coordinator
Corequisite(s): Nil
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

SPN643 Developmental Processes and Disability
This unit aims to equip students with a sound framework on which to base their professional practice. Working effectively with individuals with a range of disabilities, their families, schools and communities requires knowledge about the ways in which development may be compromised by disability, and the ways in which contextual influences contribute to developmental outcomes.
Prerequisite(s): Acceptance into the Master of Educational and Developmental Psychology Programme or permission from the Unit Coordinator
Corequisite(s): Nil
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

UDB104 Urban Development Economics
This unit will introduce microeconomic and macroeconomics concepts applied to urban and regional development. The unit will initially focus on demand, supply and determination of prices, and other important microeconomic concepts, at the level of an individual development. Here, the value of microeconomics in explaining aspects of development is demonstrated using local and national examples. In doing so, this unit will also help to deepen the appreciation of the key steps in development and the role of the main actors. Since anyone development project does not occur in a vacuum, the unit will then broaden to consider the impact of changes in the national and local economy on land use and development, including business cycle, monetary and fiscal policy.
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB110 Residential Construction and Engineering
You learn to read plans and build a house by studying construction theory and legislation, visiting building sites, and sketching construction details. Focus on the four traditional methods of construction, brick veneer, cavity brick, block and timber, evolution of building, Building Code of Australia and Australian Standards; methods of construction; foundation and footings; linings; claddings; windows; doors; joinery; staircases; roof coverings; balanced cut and fill; services; retaining walls; acoustic and fire safety requirements; specifications for residential construction; protection to the public during construction; temporary support and demolition of structures; energy efficiency design; building defects and failures.
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB111 Engineering Construction Materials
Structural and non structural materials used in the construction process are examined focusing on the basic properties, construction applications, behaviour, strength, durability, suitability, and limitations. Material manufacture; acoustic and thermal properties; fire tests and fire hazard properties, issues such as cleaning, maintenance, corrosion protection, deterioration and ageing; Sustainable development; Material recycling, Storage on site, Installation processes; identification and causes of building defects and recommendations for potential remedies.
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

UDB112 Professional Studies 1
Assignment-based project orientated group work where you design and document a new dwelling preparing a full design of a single level brick-veneer type dwelling to a standard appropriate for building approval including architectural and structural design; construction materials; building services; statutory obligations and the building approval process; measuring and cost planning; contract administration; construction planning and site layout.
Prerequisite(s): UDB110, UDB111
Credit points: 12
UNIT SYNOPSIS

Contact hours: 4 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB113 Measurement 1
This unit introduces the scope of the role of the quantity surveyor working independently and for contractors. It examines the tendering process and the bill of quantities; the Australian standard method of measurement (rules, taking-off methodology, mensuration and formulae); measurement of various work sections (finishes, roofing, partitions, woodwork, metalwork, painting, doors, windows, glazing, hardware, suspended ceilings and masonry).
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB140 Property Valuation 1
This unit will be structured to assist student learning across three component areas: the market, the profession and the methods of valuation. This will be achieved through coverage of topics including: the character of the property market and market value; legal interests in property and property types; the valuation process; data collection; factors influencing value; report writing.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB141 Building Studies
You learn to read plans and build a house by studying construction theory and legislation, visiting building sites, and sketching construction details. Focus on the four traditional methods of construction, brick veneer, cavity brick, block and timber, evolution of building, Building Code of Australia and Australian Standards; methods of construction; foundation and footings; linings; claddings; windows; doors; joinery; staircases; roof coverings; balanced cut and fill; services; retaining walls; acoustic and fire safety requirements; specifications for residential construction; protection to the public during construction; temporary support and demolition of structures; energy efficiency design; building defects and failures.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB161 Introduction to Planning and Design
This unit introduces students to basic principles of planning and urban design. Students learn about urban design principles such as legibility, permeability, robustness and imageability of places. Students also investigate the planning issues facing cities and consider the complex problem-solving skills required to respond to these.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point
Teaching period: 2008 SEM-1

UDB162 History of Built Environment
This unit uses examples from the global development of human settlement to demonstrate the importance of interactions between the environment, society, and technology in shaping the built environment. Students will gain an appreciation of the important role played by history in forming the context for contemporary society, policy making, and design.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point
Teaching period: 2008 SEM-1

UDB163 Land Use Planning
The purpose of this unit is to examine the planning and management of public and private land. Unit topics include: different performance and prescriptive zoning methods; an overview of levels of planning agencies responsible for land use planning in Queensland; and the land development process and regulations that govern land use planning.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB164 Population and Urban Studies
This unit introduces the students to the demographic, economic, social and physical aspects of our cities to help understand the nature of cities we live in. The topics covered include: demographic and economic changes in cities, theoretical models of cities, issues such as social diversity, gentrification, masterplanned communities, and public spaces in cities.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB181 Geospatial Positioning and GPS
This unit will introduce students to skills and knowledge of spatial referencing, site measurement; use of maps and air photos. It will include introduction to map projections; concepts and theory of Global Positioning Systems; introduction to global and local coordinate systems; mission planning and data collection. The unit will highlight the importance of geospatial positioning applications in society.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point
Teaching period: 2008 SEM-1

UDB182 Surveying
This unit provides a foundation in field instrumentation and survey computations; a framework for acquisition of a high level of knowledge and practical competence in plane survey computations; use of optical and electronic theodolites; EDM and total electronic station systems, and a focus on collection/presentation of pre-design contour and detail spatial information.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB202 Business Skills
This unit focuses on career preparation with a business orientation. Current popular business tools are assembled and critiqued. A sequential approach is used starting with characteristics of the Resume, business protocol and ethics, the business plan, assessing business risk and Professional Liability.
Credit points: 12  Contact hours: 3  Campus: Gardens Point
Teaching period: 2008 SEM-2

UDB210 Commercial Construction and Engineering
The aim of this unit is to provide you with extensive theoretical knowledge to manage and supervise the construction of (1) low rise residential apartment buildings (2) commercial buildings i.e. shops, offices; and (3) industrial buildings. Focus on legislative requirements; on-site inspections; site management techniques; temporary works & construction plant requirements, labour; In-ground construction; External treatments (cladding); formwork;
bracing and stability; services co-ordination; Landscaping; . Environmental, building defects,. disabled access; universal design; load-bearing masonry; services co-ordination; internal fit-out; tilt panel construction; portal/steel frames.

**Prerequisite(s):** UDB110  **Credit points:** 12  **Contact hours:** 5  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB211 Introductory Structural Engineering**
Structural engineering analysis examining structural principles, structural action, load paths and equilibrium. Structural characteristics are examined through first principles including tension, compression, bending and shear forces. Quantitative, qualitative techniques and approximate methods are used as well as the use of computer software in structural analysis.

**Prerequisite(s):** UDB111  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB212 Measurement 2**
Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: measurement of various work sections (concrete, formwork, reinforcement, groundworks, underpinning, tanking, structural steelwork, exterior elements, and bored piers); and the development and application of builders' quantities.

**Prerequisite(s):** UDB113  **Credit points:** 12  **Contact hours:** 5  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB213 Construction Estimating**
Estimating techniques to quantify cost; Fundamental elements of cost and methods of evaluating labour, materials and equipment to realistic levels of accuracy; Unit rate approach to assessing the base estimate for major trades; Assessment of offers from sub-contractors and implications for tendering with respect to risk, quality and ethical responsibilities; Functional estimating and the significance of method, time and assembly of information to estimating; Review of an estimate, determination of profit; letters of offer; Subsequent negotiations prior to award of a contract; application of estimating to variations and profit monitoring; Linking best value procurement assessment to outcome performance indicators (including tender evaluation criteria).

**Prerequisite(s):** UDB111, UDB113  **Credit points:** 12  **Contact hours:** 5  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB214 Professional Studies 2**
Assignment-based project orientated group work where you design and document a commercial development from a project management perspective considering constructability drawing on your skills in estimating; planning; scheduling; site organisation; environmental planning & sustainable urban development. Focus on special construction techniques; reuse of buildings and building materials; durability of materials, minimisation and disposal of construction waste; construction practice; planning and use of appropriate forms of construction for various building sizes and types; community negotiations; statutory responsibilities including access for people with a disability.

**Prerequisite(s):** UDB112, UDB210  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB215 Building Services Engineering**
Fire Services: Fire detection, suppression and extinguishment; statutory requirements for maintenance of essential active fire services; Hydraulics Services: Building hydraulic services including water supply, fire protection and sanitary waste disposal systems. Mechanical Services: Air movement; Types of ventilation; Air-conditioning systems and heating; Installation procedures and the issue of confined spaces; Basis of design and effect of architectural style; Electrical Services: Transformers, sub-stations, switchboards, protection devices, lighting systems, stand-by generators, security systems; systems monitoring and energy management; vertical transportation systems. Energy Efficient Services: Examination of energy efficient design on services.

**Credit points:** 12  **Contact hours:** 5  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB216 The Environment and the Quantity Surveyor**
This unit will involve professional quantity surveying including image and status, fees, codes of ethics, professional competence and continuing professional development. In terms of employment, professional engagement in the workplace will be covered including terms of engagement, professional indemnity insurance, quality assurance and financial asset management. The work of quantity surveying takes place within a social and environmental context and this relates to the interactions between business and environmental interests including the natural environment, environment economics and ecologically sustainable development.

**Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB240 Planning Theory and Processes**
Topics covered will include. Introduction to the emergence of fundamental principles of urban planning control and regulation in Queensland. The statutory planning process and current Queensland legislation. Urban and regional planning on matters of equity and social responsibility. Types of planning controls. Detailed coverage of current development planning approval and appeals processes. Conservation and heritage protection and its impact on development and land.

**Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB241 Property Law 1**
This unit aims to introduce you to the fundamental concepts associated with property and property law as it impacts on your future role within the property industry.

**Prerequisite(s):** UDB102  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1
UNIT SYNOSES

**UDB242 Property Valuation 2**
The unit builds on student's previous knowledge and skills developed through Principles of Valuation as well as legal and economic foundation units. The aim is to provide students with an array of knowledge and skills appropriate to a valuer of freehold investment class properties as well as terminable and other property rights and interests.
**Prerequisite(s):** UDB140  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB243 Property Economics**
The unit will relate macro and micro economics to the broad property markets. It will consider the practical impact of supply and demand factors on the different market sectors.
**Prerequisite(s):** UDB104  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB244 Property Law 2**
**Prerequisite(s):** UDB102  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB245 Urban Land Studies**
The aim of the unit is to take the students' fundamental knowledge of economic theory developed in earlier units and to apply that knowledge to the specific area of urban development. In particular we seek to develop in students an awareness of those economic imperatives which drive and shape urban form.
**Prerequisite(s):** UDB104, UDB243  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB246 Property Feasibility Studies**
Topics covered will be: the principles and strategies of investment; real estate as an investment medium; the real estate investment process; property ownership structures; feasibility analysis; detailed cash flow analysis involving NPV and IRR analysis; equity cash flow studies; sensitivity and probability analysis; risk analysis and risk management.
**Prerequisite(s):** UDB242  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB247 Property Valuation 3**
Valuations for tax and taxation of capital gains; statutory rating purposes under relevant legislation including appeals procedure, compulsory acquisition. Assessment of compensation resulting from acquisition; resumption and damage. Evidence: the expert witness and professional liability and moot court experience.
**Prerequisite(s):** UDB241, UDB242  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB265 Site Planning**
The objective of this unit to assist students in learning and applying site planning theories and processes for a given site/areas within a city. The topics covered include: user stakeholder analysis, character analysis, site survey and site analysis, development of proposals.
**Prerequisite(s):** UDB161  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB266 Planning Processes and Consultations**
Students learn how land uses are generated and can be planned. They study the logic, role and methods of successive stages of planning processes including aims, information analysis and synthesis, evaluation, strategy development, monitoring and review. They learn how to consult widely in the community and with other professionals to develop and apply flexible and widely relevant planning processes.
**Prerequisite(s):** UDB163, UDB164  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB267 Development Assessment and Infrastructure**
The aim of this unit is to provide students with a grounding in the issues and skills related to the assessment of development applications and planning related to infrastructure. The unit will be conducted in two sections. The first will introduce students to the relevant legislation, procedures, and techniques associated with development assessment. The second will give students an understanding of issues related to the provision and maintenance of technical and social infrastructure, with particular reference to the importance of sustainability and the emergence of new technology and systems.
**Prerequisite(s):** UDB163  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB281 Geographic Information Systems**
This unit investigates the basic concepts of geographic information systems. Topics to be covered include components of GIS, spatial databases, data acquisition, reference frameworks, use of photographs and images, spatial analysis and graphic output design issues. The unit will highlight the importance of geographic information systems the unit will highlight the importance of geospatial positioning applications in society.
**Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDB282 Remote Sensing**
This unit includes the following: history and principals of remote sensing; types of imagery, image interpretation, satellite systems; supervised and unsupervised image classification; interpretation, analysis and presentation of data; applications in the earth sciences.
**Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDB283 Surveying Computations**
This unit includes the use of advanced scientific calculators and their application for geometric computations, solution of road and area problems, missing data closes, and simple curve problems. It offers solutions for more difficult problems including the three point problem, interrupted bases and various types of curve problems. It introduces spherical trigonometry, the solution of spherical triangles and the use of spherical trigonometry to determine position and direction on the Earth's surface from observation to astronomical objects. Practical exercises determine position and direction.

**Prerequisite(s):** MAB100, UDB182  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB284 Engineering Surveying**

This unit includes: horizontal and vertical alignment for route surveys; areas, volumes and earthworks; surveying measurements and their assessment; propagation of variances; pre-analysis of survey tasks; least squares adjustment methods for various functional and stochastic models.

**Prerequisite(s):** MAB101, UDB182, UDB283  
**Credit points:** 12  
**Contact hours:** 5  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**UDB285 Cadastral Surveying**

This unit includes land title systems, reinstatement: an explanation of the options of land title systems, with particular reference to Customary Land Tenure, Private Deeds registration, Public Deeds Registration, and Registration of Title. It includes an analysis of reinstatement of property boundaries as applicable to Queensland; the undertaking of a field survey to reinstate the boundaries of a section in the Brisbane Metropolitan area; preparation of cadastral and detail survey plans for survey actions; the legal aspects of re-instatement of boundaries; case law associated with re-instatement; statutory requirements that relate to the zoning and development of land.

**Prerequisite(s):** UDB182  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB301 Research Methods**

Research Methods will introduce students to the range of methods and techniques that may be utilised in examining questions related to professional practice. A comprehensive overview of research methods will be provided in order that students are able to contribute to research as a part of their professional practice, and to enable them to critically analyse research findings and publications.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB302 Development Process**

This unit will address the development process within the framework of a multi-disciplinary activity focusing on a practical exercise for the preparation and lodgement of a development application. This framework will expose students to the manner within which sustainable land development should occur. The unit relies on and brings together, within the practical exercise, the knowledge and skills-set exposed to students in earlier units dealing with stewardship of land, sustainability and economics. The focus on the practical exercise will demonstrate in context the multi-disciplinary range of social, economic and ecological issues that practicing land development professionals need to understand and apply to demonstrate the comparative benefits and likely success of a development proposal.

**Prerequisite(s):** 2 years of BUD  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**UDB310 Highrise Construction and Engineering**

Students learn how to construct a high rise structure from the basement to the roof. Focus on protection to the public during construction, temporary support; demolition; temporary services; deep excavation and foundations; retention and shoring systems; structural components; multilevel formwork; interaction of building components, systems and services; common building faults and failures and rectification; alternative forms of external cladding; waterproofing problems.

**Prerequisite(s):** UDB210  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB311 Structural Engineering Design**

Study and analysis of engineering components and systems, to develop a sound understanding of how a building achieves structural stability and equilibrium through its load paths. Content includes: Basic structural member design for tension, compression, bending and shear loads through detailed examination through the use of relevant Australian Standards as the basis for examination. Emphasis is on approximate or Öïfirst order of magnitudeÖ techniques suitable for estimating or checking purposes. Structural systems analysis; including trusses and retaining walls with a mix of qualitative and quantitative techniques. Construction stability is examined in detail including cranes, shoring, scaffolding, and slings.

**Prerequisite(s):** UDB111, UDB211  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB312 Contract Administration**

The administration of construction contracts represents one of the core applications for both construction managers and quantity surveyors. In order to appreciate some of the commercial implications of contract administration you will study administrative implications for both parties to the contract.

**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB313 Programming and Scheduling**

This unit covers the following: Project time and resource planning techniques such as bar charts, critical path networks (precedence, time scales, and activity on arrows); Line of balance; Resource allocation and levelling; Schedule updates and progress control; Delays and claims analysis. Applications of computer-based project planning software will form an important part of the study in this unit.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1
UDB314 Statutory Construction Law
Commercial Law. Sale of goods; Hire purchase; Trade practices; Negotiable instruments; Insurance law; Partnership law and company law; Bankruptcy and liquidation; Arbitration (the agreement, appointment of an arbitrator; Conduct of an arbitrator; Powers and duties; Enforcement of an award, costs; Alternative dispute resolution. Building Law; Study of the Building Code of Australia and Building Regulations, which control the design, construction of building works; emphasis on all building law; a study of the Acts Interpretation Act, Town Planning Acts; etc.
Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDB315 Measurement 3
Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers measurement of building services (hydraulics, drainage, electrical and mechanical works).
Prerequisite(s): UDB212  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB316 Cost Planning and Control
Interrelationship between construction industry and economy; Fundamental principles of cost management (design and construction cost planning and cost control); Nature and purpose of cost planning and cost control systems; Contract costing (historical accounting) and anticipatory (forecast final cost / value); Design economics, cost and value concepts, cost information systems, cost modelling, cost analyses, cost indices, cost data, cost implications of design variables; Life cycle costing and modelling including design knowledge in virtual environments; Value management, including energy efficiency in buildings, and value alignment process for project delivery; Asset management and building maintenance; Risk management in cost planning and cost control.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDB340 Agency Practice and Marketing
This unit will be formulated around the following content mode: Real Estate Agency management techniques required to operate a Real Estate Practice (multi-disciplined), the establishment and running of a sales division, the establishment and running of a Leasing Division, the establishment and running of a Property Management Division, maintaining quality procedures in the workplace.
Prerequisite(s): UDB241, UDB244  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB341 Property Finance
The aim of this unit is to assist you to develop your understanding of the nature and impact of loan finance on investment property and the place of property assets within the capital markets, relevant to subsequent employment in property as a graduate of property economics.
Prerequisite(s): UDB242  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB342 Real Estate Accounting and Taxation
Property professionals need an understanding of accounts and accounting procedures for business management and sales and leasing purposes. The unit seeks to provide a basic level of understanding and competency to satisfy that need.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB344 Property and Asset Management
Property and asset management forms an integral part of the property professional's skills base. It involves a variety of specific property related tasks which when performed expertly enhance the investment quality of property assets.
Prerequisite(s): UDB141, UDB241, UDB242, UDB244  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDB368 Urban Design
This studio unit develops skills in urban design analysis and intervention through the transformation of urban design theory into policies and design proposals. Students are introduced to the production of urban design instruments (such as strategies and frameworks) and effective communication of desired urban design outcomes. Where possible, students participate in live projects, with inputs from industry, government and communities.
Prerequisite(s): UDB267  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB369 Negotiation and Conflict Resolution
This unit introduces planning students to the theory and practice of negotiation and conflict resolution. The aim is that students will develop their ability to change their perspective on conflict by seeing it as an inevitable and sometimes valuable part of planning. Students will learn to develop empathy for those they are in conflict with while also communicating their own needs assertively. Content includes key principles of conflict resolution, and practical mediation/negotiation techniques.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB370 Environmental Planning and Management
This unit provides an overview of methods and issues concerning the application of environmental planning and management. Topics focus on environmental impact assessment (EIA), adaptive management, bioregionalism and other models and methods of environmental management.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDB381 Geospatial Mapping
This unit will provide the student with a sound knowledge and understanding of image mapping principles (including photogrammetry) and processes as well as practical skills and understanding required to collect spatial information
and to produce fundamental mapping products. In addition this unit will provide the skills and knowledge of the principles and characteristics of cartographic communication, surface modelling techniques and digital mapping.

**Prerequisite(s):** UDB281, UDB282  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB382 Photogrammetric Mapping**  
This unit builds upon the Geospatial Mapping unit to provide the student with developed knowledge and understanding of photogrammetric mapping theory and processes including spatial geometry, mathematics and aerotriangulation. The unit will also provide the student with an integrated knowledge and understanding of map production principles and practice applied to photogrammetric outputs.

**Prerequisite(s):** UDB381, UDB383  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**UDB383 Control Surveying and Analysis**  
This unit includes the following: recognition for geodetic surveys (formulate mathematical models for the solution of linear and non-linear positioning in one, two and three dimensions); geodetic observations techniques and reduction of observations; the three classical methods of geodetic surveying (triangulation, trilateration and traversing); precise levelling including instrument testing; properties of the meridian ellipse; radii of curvature, meridian arc; spheroid as a geodetic reference surface, latitude, longitude, geoid separation and ellipsoidal height; mutual conversion of geodetic and Cartesian coordinates.

**Prerequisite(s):** MAB101, MAB730, UDB284  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB384 Geodesy**  
This unit contains the following theory: concept and classification of geodesy, the basic concepts of Earth's gravity field, level surfaces and plumb lines, heights, geoid, mean sea level, spherical harmonics etc, fundamentals of satellite geodesy, reference coordinate systems. It considers GPS positioning models and algorithms, software, GPS field observing, various GPS applications in geomatics; mapping terms and definitions; the mapping problem; principles for deriving projections; the use of skew graticules; the UTM system.

**Prerequisite(s):** UDB381, UDB383  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**UDB385 Cadastral and Land Management**  
This unit introduces the student to the basic civil engineering design processes and procedures associated with the development of subdivided urban/rural land for residential, industrial or commercial purposes. The unit covers the following: subdivisional road design types, hierarchy, longitudinal and cross sections, earthworks; stormwater design, basic urban hydrology, catchment properties, rational formula, pipe/gully parameters, pipe and open channel flows; water reticulation system features; sewer reticulation system features and basic design procedures. Modern trends in the above (including sustainability considerations) together with the general construction procedures and basic costings are introduced.

**Prerequisite(s):** 192 credit points  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB387 Spatial and Land Information Management**  
The spatial information science application areas of this unit include: application areas; resource management; urban and rural planning; cadastral administration; facilities management. System planning includes a system planning overview, functional requirements analysis, system evaluation and benchmarking. System implementation includes database creation, implementation issues, and implementation strategies. Other aspects include standards, legal issues, and knowledge-based techniques.

**Prerequisite(s):** 192 credit points  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**UDB388 Spatial Analysis Practice**  
This unit expands a student's knowledge in the field of spatial information science within the framework of a practical exercise focussing on advanced spatial analysis techniques. This approach facilitates exposure to and the incorporation of emerging processes of acquisition, validation, storage, extraction, analysis and presentation of spatial information. A geographic information system environment is utilised to provide a practical introduction to industry practices and client expectations. This unit will provide students with enhanced knowledge of the extent, theory and practice of spatial information science and an enhanced ability to define and solve problems associated with manipulation of spatial information systems to meet client expectations.

**Prerequisite(s):** UDB281, UDB381  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**UDB410 Construction Management**  
Construction Administration: Structuring the budget documents to provide control mechanisms or cost monitoring and purchasing; Dealings with sub-contractors during initial negotiations and subsequent execution of the contract on a conceptual and operational level; Dealing with the Client on variations in the physical work and the consequences on time are developed in both commercial and contractual terms, with the implications traced through to the sub-contract level. Techniques for the prediction of profitability and the procedures for claiming final payment and finalising the contract. Examination of the Workers Compensation Act. Workplace Health and Safety: A study of the Workplace Health and Safety Act, Regulations and Codes of Practice.

**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point

**UDN500 Ballast, Sleepers and Fasteners**  
As a rail civil engineer you will have responsibility for the permanent way and so needs to have a sound knowledge and clear understanding of the behaviour of the components of rail tracks. The ballast and sleepers on which the rails rest are critical in supporting the safe passage of trains at
speed over the track. A large proportion of maintenance expenditure by track owners arises because of fouled or poorly drained ballast or from sleeper replacement. Delays in train schedules, track closures and even derailments can arise due to problems in the track below the rail. This unit is one of the first ones you will study in this course because it focuses on the foundations of an efficient and safe track asset network.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**UDN501 Rail and Related Track Structures**

This unit continues the recognition of the need for you as a rail civil engineer to have a sound knowledge and clear understanding of the behaviour of the components of rail tracks. The rail is the immediate interface between train vehicle and the entire supporting system and therefore the most direct effect on enabling or inhibiting train operations. Aside from ballast and sleeper rectification described in UDN500, the costs of rail wear and grinding, eventual replacement of worn rail and rectification of track geometry make up the bulk of maintenance expenditure by the track owner. In conjunction with UDN500, this unit is located early in the course so that you will have been introduced to the nature of all the key elements of the track superstructure and of their important contributions to the operation of rail systems.

**Credit points:** 12  **Campus:** Gardens Point

**UDN502 Track Stability, Design and Formation**

Simply knowing about the components from which railway track is assembled will not enable you to understand and influence the complex interactions between each of those components. Design of railway tracks requires you to build on that component knowledge from UDN500 and UDN501 by considering how they influence each other and what limitations they have in carrying forces applied by operational or by environmental factors. The unit also provides some further foundation knowledge to enable you to understand the forces of interaction between the whole track and passing trains that will be explored later in UDN503.

**Prerequisite(s):** Assumed knowledge from UDN500, UDN501.  **Credit points:** 12  **Campus:** Gardens Point

**UDN503 Track Geometry and Train Interaction**

The sole purpose of track is to support the safe and speedy passage of trains carrying passengers, minerals, freight, primary produce and so on. Although tracks can deteriorate due to environmental factors, the primary source of deterioration is the passage of trains. Operators want trains to carry larger and larger payloads at ever higher speeds, which induce increasingly large static and dynamic forces in the track. Those forces deteriorate the track which leads to a rougher ride for the trains, causing even higher dynamic forces down into the track and up into the vehicle. This unit is intended to provide you with an understanding of the interaction between track and trains, which builds on and develops your knowledge of the track structure from UDN500, UDN501 and UDN502, explains aspects of vehicle design, and provides you a basis for appreciating how incidents such as derailments occur when you come to study UDN505.

**Prerequisite(s):** Assumed knowledge from UDN500, UDN501, UDN502.  **Credit points:** 12  **Campus:** Gardens Point

**UDN504 Track Construction, Civil Structures**

There will be much more responsibility for you as a railway civil engineer than understanding and maintaining the track in the permanent way. Construction of new track and reconstruction of existing track must be able to be managed by you with insight and competence, requiring an appreciation of contracts and their administration, together with an ability to assess construction and geotechnical risks and specify appropriate construction processes. Furthermore, the rail corridor or right-of-way also has within it various structures that need management of their construction and of their maintenance. This unit addresses these issues and is located later in the course to enable you to gain a good grounding in track and train related matters in earlier units.

**Prerequisite(s):** Assumed knowledge from UDN500, UDN501.  **Credit points:** 12  **Campus:** Gardens Point

**UDN505 Assets, Environment and Safety**

At the heart of your responsibilities as a railway civil engineer is management of the rail corridor to ensure safe, reliable, environmentally sound train operations through that corridor. Consequently you will need to use asset management tools competently to update and monitor the extent and quality of the assets under their control. You must also be able to assess and mitigate risks associated with activities within the corridor together with monitoring and controlling the environmental impact of those activities. But then, even in the best of circumstances, safety incidents can occur such as derailments of trains and rail crossing episodes, which need to be assessed and reported on. This unit helps develop your knowledge and abilities in these areas and is a companion to UDN504; both units are located near the end of your course to round out your professional skills in corridor management.

**Prerequisite(s):** Assumed knowledge from UDN504.  **Credit points:** 12

**UDN510 Urban Planning Practice**

As an Urban & Regional Planner, you need skills to understand, analyze, interpret and optimize urban activities and land uses. You require capacities to prepare integrated plans and strategies to solve problems and promote beneficial development. This will involve consultation with local governments, communities and stakeholders. This unit provides you with practical experience to develop and apply these skills of integrated urban planning.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**UDN512 Community Planning**

Planners work with a wide range of communities and therefore need to understand and address an equally wide range of issues and concerns. Community planning offers an inclusive approach based on participatory processes that can match this comprehensive array of responsibilities.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1
UDN514 Regional Planning Practice
As the culminating practice unit in the course, Regional Planning Practice focuses on regional and metropolitan scales to develop your capacities for larger scale, strategic-level planning. In doing so, the unit provides opportunities to further develop and apply wide-ranging skills of analysis, problem-solving and synthesis introduced and explored earlier in Planning Processes and Regional and Metropolitan Policy to real world situations.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDN516 Master Concepts and Ethics Seminar
This unit provides the integrating core to the Masters Program in Urban & Regional Planning. Discussions link professional practice to its wider contemporary contexts. In order to derive full benefit from your advanced studies as a Masters student, you will exchange views on ideas and practice with each other and with experienced practitioners and academics. The application of concepts to practice defines the essence of planning and provides important insights that enable the planner to respond to critiques from other disciplines or project partners. Concepts provide planners with opportunities for reflection and self-evaluation and justification for shaping their own roles in the profession. By helping you to understand the forces shaping the profession, they add depth to the practitioner and better enable the planner to contribute fully to the advancement of the profession.
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDN574 Water Resource and Waste Management
This unit will provide you with an in-depth understanding of the important issues in water and waste management within the urban environment and particularly the infrastructure management discipline. The management of water and waste are among the essential factors which influence the economic, social and environmental viability of urban areas. In most parts of the world including Australia, water is a limiting resource. The prudent management of the diverse water sources available, the provision of water 'fit for purpose' to meet human and ecosystem needs and the adoption of strategies for optimising of conveyance infrastructure is critical for the long-term sustainability of human settlements. The development and management of systems for the collection, transport and re-use and disposal of various waste streams forms an important activity to ensure the sustainability of urban areas.

UDN576 Transportation Infrastructure
This unit has been developed to provide you with an in-depth understanding of the critical issues in the area of transportation infrastructure. The effective management of transportation infrastructure is essential for economic and social considerations. As expansion and development of transportation infrastructure continues to support a nation's economy, prudent management of transportation infrastructure to provide a desired level of serviceability are critical for the long-term sustainability of economic development.

UDN590 Project Scope and Risk Management
This unit focuses upon the project management functions of controlling project scope and risk. Using the fundamentals of project management as a point of departure, the administration of scope and risk is integrated within the context of the project life cycle. Both the client and project delivery stakeholders' perspectives are explored. Scope Management is the foundation of a project. Developed on a clarified scope baseline, Risk Management safeguards the whole process, as well as the outcome of a project. Through this unit, you will develop skills in outlining activities to be performed within a project, including procedures for information capture, storage, reporting and communication, and risk identification, response and treatment system.

UDN592 Resource, Schedule and Performance Management
Resources and time are key performance targets during project management exercises. By undertaking this unit, you will develop skills necessary to manage project cost, schedule, and resources, and the ability to appreciate and apply methodologies for monitoring and evaluating project performance.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

UDN594 Procurement and Delivery Strategies
It is imperative that project managers have a comprehensive understanding of all of the critical elements within the procurement process. They also need to possess the necessary skills, knowledge and understanding to avoid disputes and minimize the risks of unsuccessful contract outcomes. This unit will cover these essential elements of project management.
Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2

UDN596 Human Resource and Organisational Culture
In the management of projects, it is essential that human resources are effectively coordinated, managed and motivated to achieve the collective and individual outcomes critical for the success of the project. This unit introduces you to the skills necessary to manage these human resources as part of your overall project management approach.
