Overview
These programs are aimed at those who have worked or studied in fields outside journalism and who now seek journalism skills, insights and knowledge. These courses will assist students seeking to change career paths into journalism and those wishing to explore new, media-related opportunities that may enhance career opportunities within their existing workplaces or private businesses.

These industry-responsive programs provide students with a strong conceptual and practical framework which may be combined with students' existing areas of expertise to serve new and niche markets. Elective unit choices allow students to tailor a postgraduate qualification to best address their career needs.

Entry requirements
A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale).

Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for more information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Course Structure
All Graduate Diploma and Masters students are required to undertake either Journalism Ethics and Issues or Creative Industries Legal Issues as an elective. Students may take both units. Masters students are required to consult with and gain approval from the subject area coordinator regarding their elective choices.

Overview
This course provides a strong foundation for work within the creative industries.

You will be introduced to the techniques, principles and practices of communication design by developing skills in Web development, interaction design, new media, virtual reality, and information technology. You will learn in a studio-based environment the practical application of the knowledge and skills you will gain from your communication design core and elective units. Studio-based teaching has long been the norm in disciplines where the nature of practice is the development of abstract artefacts that are used by others.

Career Outcomes
Graduates can work in website design, interactive media, web applications, production and interaction design in fields such as games design, theatre, dance, journalism, education, and advertising.

Course Design
Students study foundation subjects and discipline specific units that are augmented by project-driven studies and industry placements.

In order to complete this program, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to your major and eight electives.

Why choose this course?
The course has strong industry connections, with industry professionals and leading academics in the field delivering many of the units.

The flexibility of a studio environment allows for external industry guests to engage with you in the process of developing your ideas and outcomes. Connections are maximised with the Australian Research Council (ARC), Centre of Excellence for Creative Industries and Innovation (CCI), Institute for Creative Industries and Innovation (iCi) and the Australasian CRC for Interaction Design (ACID) to ensure you'll benefit from research and real-world project opportunities.

Other Course Options
The Bachelor of Creative Industries (Communication Design) is also available as part of the following double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Communication Design), and IX27 Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Overview
This course will prepare you to work in creative writing in a range of vocational applications. You will learn about fiction, digital storytelling, film and television scriptwriting, poetry, creative non-fiction and youth and children's writing, as well as corporate writing and publishing.

Career Outcomes
Graduates can work as creative or professional writers and editors in corporate, community and freelance capacities. Recent graduates have been contracted to write crisis management scenarios for major corporations, while others are working as writers and editors for magazines and other print media, in local government, within publishing houses and in print journalism.

Course Design
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinart units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?
This practice and theory-based professional course will give you the strong written communication competence that is an advanced skill sought by employers, as well as an excellent education as a creative writer in all genres. Through your electives you can include study from a wide range of fields, adding to the vocational strength of the course. Your work could be published in the annual creative writing anthology which is released for sale to the public.

Other Course Options
The Bachelor of Creative Industries (Creative Writing) is also available as part of double degree programs: IX34 Bachelor of Business/Bachelor of Creative Industries (Creative Writing), and IF93 Bachelor of Creative Industries (Creative Writing)/Bachelor of Laws.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Course Structure  
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.  

General  
This three-year professional course offers various career paths catering for applied and/or creative pursuits such as choreography, dance research, community dance practice, criticism, administration and business management, marketing, teaching skills for private practice and the leisure/health market. The 12-unit dance suite is complemented by a range of electives to enable multi-skilling, combining theory with practice and business with dance.  
This course offers flexibility and various pathways for those students who wish to work in dance-related areas and maintain their passion for dance. A balance of theory and practice, this course can be tailor-made to suit the interests of the student.  

Career Opportunities  
Graduates can work as choreographers, dance teachers, community-based artists, movement specialists in the health/leisure industries, or in dance research, health programs and dance administration.  

IMPORTANT NOTICE  
The Bachelor of Creative Industries (Dance) single degree will not be having an intake after 2007. The Bachelor of Creative Industries (Dance) is still available as part of a double degree program (IX34 Bachelor of Business/Bachelor of Creative Industries or IX39 Bachelor of Arts/Bachelor of Creative Industries). Continuing students should refer to their Course Summary Sheet for enrolment information.

Overview
You will develop skills in the production and analysis of innovative, cross-disciplinary performance and have the opportunity to incorporate a sub-major from a range of interdisciplinary practices and technologies such as film, video, dance, journalism, music, communication design and visual arts. You are encouraged to experiment, explore and take creative risks throughout the course.

The course includes practical project production experience with an emphasis on site-specific installation and festival performances. You will be encouraged to explore new performance forms and use emerging technologies, working with other students from across the creative industries.

Career Outcomes
Graduates work as directors, performers, producers, playwrights, dramaturges, arts administrators, community artists and youth arts workers. This course is a springboard into honours and postgraduate studies in areas such as drama education, applied performance, and performance innovation.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?
This course incorporates new media and cutting-edge approaches to devising, directing and designing live performance. It involves collaboration with fellow students, staff and community partners.

Other Course Options
The Bachelor of Creative Industries (Drama) is available as part of the following double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Drama), and IX43 Bachelor of Creative Industries (Drama)/ Bachelor of Human Services.

This course is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Creative Industries (Drama) and the one year Graduate Diploma of Education (Senior Years).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Overview

QUT Interdisciplinary graduates are sought after for their diverse knowledge, creativity and practical skills across a range of industries and practice. The Creative Industries Faculty is leading the way in research and creative practice innovation, across design, media, information and communication technologies and the creative arts.

The Interdisciplinary course allows you to develop skills to be a producer, organise collaborative projects, generate creative content including digital media, and manage communications. You will facilitate and participate in visual and performance arts, multimedia and communications, in both the real world and virtual environments.

This program directly responds to industry demand for graduates with expertise across more than one creative industries area. The course offers flexibility, giving you the opportunity to create a combination of study areas to suit your individual skills, creative interests and career aspirations.

This course is also available as part of double degree programs with the Bachelor of Business (IX34), Bachelor of Human Services (IX43) or Bachelor of Information Technology (IX27).

Caboolture campus

The Caboolture campus offers the first year of the major only. Students who complete their first year at Caboolture then transfer to Kelvin Grove campus for the remainder of the course.

For international students, this course is only offered on Kelvin Grove campus.

Credit/advanced standing will not be granted for Caboolture students; excluding START QUT studies. To receive credit applicants must apply for the Kelvin Grove offering.

See course structures for Caboolture Only.

Career Opportunities

We encourage you to foster your creative passion and shape your future career path through complementary study areas. Some combinations could be:

- Combine a Communication Design or Digital Media major with minors in Games Design, Music Studies, Sound Studies or Computational Arts to pursue an interest in the booming multimedia industry
- A major in Dance, Drama or Art Design History, alongside minors in Audience and User Research and Performance Events, for a career in events and creative industries management
- Journalism, Media and Communication major with minors in Screen Studies, Television or Business to pursue work in the entertainment or media industry
- Creative and Professional Writing, Modern and Popular Literature and Culture for a career in publishing, perhaps as an author or editor.

Course Structure

The Interdisciplinary course is comprised of:
Interdisciplinary Major (8 units)
+ Major (8 units) + Major (8 units)
or 1 x Minors (4 units)
or 1 x Minor (4 units) + 4 x Electives (1 unit)

Key Features of the Interdisciplinary major include:
- Foundation units - introduce the creative industries, and the roles of professionals and practitioners who explore and exploit the expression of creativity for commercial and artistic gain. You'll gain wide-ranging communication skills, including digital, collaborative and written.
- Skills-based units - you will gain practical skills in effective speech communication and either film and television production or photomedia.
- Interdisciplinary units - broaden your knowledge of the creative industries, gain an understanding and appreciation of how different creative disciplines relate to one another, and build your ability to work in collaborative teams through project work.
- Capstone units - will prepare you for your creative career as an employee, consultant, project manager or entrepreneur, or give you the hunger for higher degree
Alongside your Interdisciplinary major, you’ll choose at least one major from:
- Art and Design History
- Business - Advertising, Entrepreneurship, Integrated Marketing Communication, Marketing or Public Relations
- Communication Design
- Creative and Professional Writing
- Dance
- Digital Media
- Drama
- Fashion
- Film, Television and Screen
- Journalism, Media and Communication
- Literary and Cultural Studies
- Mathematics

Career Outcomes
Graduates can work as advertising professionals, communication officers, media and cultural policy developers for government and community organisations, information officers, Internet professionals, media buyers and planners, marketers, teachers and researchers, and print and online publishing professionals.

Overview
This course provides both practical skills and contextual understanding of the rapidly growing media and communication industries. You will be prepared for employment in fields that are being transformed by digital media development, globalisation and convergence. You will gain knowledge in local and international media industries, media audiences, consumer cultures, professional communication, new media technologies and online communications.

You will also acquire media production skills in print and online media formats and you can complement your media and communications studies with a sub-major or minor study sequence from other areas across the Faculty. These include communication design, television or writing for electronic media in various formats, including creative writing or journalism.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major, and eight electives.

Why choose this course?
This course covers mass, niche and new media. Authentic learning opportunities such as industry placements and projects complement theoretical course content and give you the opportunity to apply what you learn. Students have completed placements with organisations such as Online Opinion, Starcom Communications, Harper Collins, Hoodlum Entertainment, Australian Communications and Media Authority and The Seven Network.

Other Course Options
The Bachelor of Creative Industries (Media and Communication) is also available as part of double degrees: IX34 Bachelor of Business/Bachelor of Creative Industries (Media and Communication), IF10 Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws, and IX50 Bachelor of Creative Industries (Media and Communication)/Bachelor of Health Science.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

### Creative Industries Co-Majors

#### INSTRUCTIONS FOR CO-MAJORS

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these co-majors and/or minors. Any unit(s) that appear in multiple co-majors and/or minors can only contribute towards the completion of one of these co-majors or minors.

### Advertising

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- AMB200 Consumer Behaviour
- AMB220 Advertising Theory and Practice
- AMB221 Advertising Copywriting
- AMB222 Media Planning
- AMB320 Advertising Management
- AMB321 Advertising Campaigns
- AMB330 Advertising Strategy and Planning
- BSB126 Marketing

### Communication Design

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2
- KIB103 Media Technology 1
- KIB104 Media Technology 2
- KIB210 Design Studio 1: Interaction Design
- KIB211 Design Studio 2: Web Development

Overview
Television is one of the most powerful media the world has known. This unique industry-oriented course will train you for the ‘ideas jobs’ in television such as producing, researching and writing. You will learn how the television industry works, how programs get commissioned, and how they are actually made.

You will study with experienced senior industry professionals as well as internationally respected television scholars. Areas of study include scriptwriting, producing, distribution, television commercials and format, audience research and the social impact of television. You will also have the opportunity to work on production projects.

Graduates can work in television as researchers, writers or in production, in a career track that leads to working as producers, script editors, script producers, programmers and schedulers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, two Creative Industries Interdisciplinary units, 12 discipline or specified units relating to the major and eight electives.

Why choose this course?
This professional course will give you a strong applied-industry focus and offers flexibility, allowing you to find your niche within the television industry.

Other Course Options
The Bachelor of Creative Industries (Television) is also available as part of a double degree with Business - IX34 Bachelor of Business/Bachelor of Creative Industries (Television).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Additional costs
You may be required to cover the costs of recording materials, video hire, production travel expenses and associated film and video production costs.

Overview

The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee

The OP Guarantee does not apply to this course.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities

This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design

This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?

The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a
fee-paying student.

Prospective international students should refer to the additional entry requirement information in the International Students section in the Creative Industries web site.

Overview
This conservatory-style acting course will prepare you to graduate as a professional actor for stage and screen. Acting and rehearsals are interspersed with skills classes in areas such as voice, movement, singing, dance, combat and improvisation. Second and third-year students perform in a season of public productions for stage and film. In your final year you will showcase your stage and film work to prospective industry employers in Brisbane and Sydney.

Career Outcomes
Graduates can work as actors for stage, film and television. In recent years graduates have flooded the film and television industry, featuring in movies, on television and the stage such as Michael Dorman (The Secret Life of Us; Suburban Mayhem), Conrad Coleby (All Saints), Sam Atwell (Home and Away), Gigi Edgley (The Secret Life of Us; Last Train to Freo), Ryan Johnson (Thunderstruck), Emily Tomlins (Constance Drinkwater; The Woman Before, QTC; Operator, LaBoite) and Helen Christinson (Private Lives, QTC/SA Theatre Company).

Graduates Oliver Torr and Matt Zeremes wrote, produced, directed and acted in the feature film Burke and Wills which made its international debut at Robert de Niro's 2006 Tribeca Film Festival in New York.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, and a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies.

Why choose this course?
QUT offers a strong focus on acting for the screen as well as the traditional conservatory-based actor training for the stage. You may work with professional production companies and professional directors for film and television training.

Deferment
QUT's deferment policy does not apply to this course.

### Creative Industries Minors

**INSTRUCTIONS FOR MINORS**

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Overview
This project-based course is designed to meet the technical, creative and conceptual development needs of the animation and 3D computer graphics industry. You will work within a studio environment learning how an animation studio is run, the various roles undertaken in a studio, and the flow of a production from pitch to delivery. Through exercising production roles, you will develop core work and communication skills, demonstrating these through exploration of form and character, design and development, and iteration through critique while following industry standards of presentation of design ideas in pitch, play and preproduction.

You will learn creative and technical skills within a contextual framework, which allows you to build your career in digital product and new media strategy.

Career Outcomes
Graduates can work in visual effects, direction or animation for film, television, advertising, or real-time games; visualisation for architecture, medicine and training simulation.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Why choose this course?
This course has been designed in collaboration with industry specialists from many post-production, game and animation companies throughout Brisbane and Australia, and offers a studio-based learning environment where professionals and specialist academics in the field deliver a rich suite of animation units. Connections with the Australian Research Council (ARC), Centre of Excellence for Creative Industries and Innovation (CCI), Institute for Creative Industries and Innovation (iCi) and the Australasian CRC for Interaction Design (ACID) ensures you will benefit from research and real-world project opportunities.

Such intense project-based practice courses have had longstanding success in the United States, Canada and Europe, and are strongly supported by the animation industry.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Creative Industries Co-Majors**

**INSTRUCTIONS FOR CO-MAJORS**

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these co-majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these co-majors and/or minors. Any unit(s) that appear in multiple co-majors and/or minors can only contribute towards the completion of one of these co-majors or minors.

**Advertising**

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- AMB200 Consumer Behaviour
- AMB220 Advertising Theory and Practice
- AMB221 Advertising Copywriting
- AMB222 Media Planning
- AMB320 Advertising Management
- AMB321 Advertising Campaigns
- AMB330 Advertising Strategy and Planning
- BSB126 Marketing

**Art and Design History**

Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will assist in preparing you for work as a professional in these disciplines.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- DAB325 Architecture in the 20th Century
- DAB420 Architecture, Culture and Space
- DEB102 Introducing Design History
- KVB102 Modernism
- KVB103 Australian Art
- KVB108 Contemporary Asian Visual Culture
- KVB211 Post 1945 Art
- KVB212 Australian Art, Architecture and Design
- KVB304 Contemporary Art Issues
- KVB306 Video Art and Culture

**Communication Design**

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level (100 coded) units into practice in a production/project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2
- KIB103 Media Technology 1
- KIB104 Media Technology 2
- KIB210 Design Studio 1: Interaction Design
- KIB211 Design Studio 2: Web Development

**Creative and Professional Writing**

Description: The aim of this co-major is to prepare students to graduate with adequate skills and knowledge in the area of creative and professional writing; to provide a thorough grounding in a variety of genres that include fiction, creative non-fiction, media writing and corporate writing and editing, thereby equipping graduates with the versatility required of professional writers; to enhance the critical, analytical and peer-reviewing skills of students; to provide and understanding of creative writing in its social and generic contexts.
**Assumed Knowledge:** There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

### Dance

**Description:** This co-major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

**Assumed Knowledge:** Previously acquired knowledge or skill IS required for you to undertake this co-major. It is essential that you be physically able, fit and have basic knowledge in a dance technique, either ballet, jazz or contemporary to undertake the practical units.

Overview
This practice-based course is designed specifically for talented individuals seeking to become practitioner-artists in creative writing. You will develop your ability to write a sustained work of publishable quality in a genre of your own selection, and self-edit and edit the work of others for electronic and print journals. You will learn to write confidently at a high standard in a variety of professional writing forms and genres including fiction, scriptwriting, creative non-fiction, children's and young adult fiction, reviewing, essay, digital stories and poetry. You will be career ready with a working knowledge of the publishing industry.

Career Outcomes
Graduates can work as freelance creative writers, novelists, scriptwriters, reviewers, travel writers, creative non-fiction writers, feature writers, corporate writers, editors, journalists, and publishers.

Course Design
In order to complete this course, students must undertake two Creative Industries Foundation units, and a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies.

Why choose this course?
Opportunities exist for professional experience and placement during the final project unit, as well as opportunities to perform at public readings and festivals and to develop professional networks. Your work could be published in the annual creative writing anthology which is released for sale to the public.

Industry Links
Guest lecturers have included Hilary Beaton (Queensland Writers Centre), Michael Wilding (author), Fiona Capp (author), Madonna Duffy (UQ Press), and Frank Moorhouse (2001 Miles Franklin award winner).

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course.

Overview
This practice-based course provides specialist training for a performance career in dance. The course covers a range of dance styles as well as an intensive performance and choreographic development program. You will be showcased to the public and dance industry through major seasons in state-of-the art theatres, featuring new work by leading Australian and overseas choreographers. Contextual studies provide relevant knowledge bases for a twenty-first century career, including dance theory subjects, kinesiology and technological dance applications. Project units provide opportunities for industry placements throughout Australia, international exchanges and dance-led interdisciplinary collaborative work. In exceptional circumstances you may exit after successfully completing the first two years of this course and be awarded an Associate Degree in Dance.

Career Outcomes
Graduates work as performers in national and international dance companies, in musical theatre, as independent practitioners and as choreographers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, and a maximum of 168 credit points of discipline or specified units relating to the chosen major and 96 credit points of Complementary Studies.

Why choose this course?
This highly sought after competitive program is for students wishing to become professional dancers and choreographers. Graduates are employed in major professional dance companies in Australia and in many companies throughout the world. Some have achieved outstanding recognition as performers or choreographers. Four QUT dance graduates were nominated at the 2006 Australian Dance Awards. Clare Dyson won the Outstanding Achievement in Independent Dance.

Other Course Options
The Bachelor of Fine Arts (Dance) is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Fine Arts (Dance) and the one year Graduate Diploma of Education (Senior Years).

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
As a dance student you will be required to provide your own dancewear, dance shoes, stage makeup, knee pads and any other specialist dance needs as required.

**Instructor Pathways**

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

OP Guarantee
The OP Guarantee does not apply to this course.

Overview
You will develop creative and design skills in fashion with a special emphasis on new technology applications. The course centres on the development of apparel design and production skills in a studio setting. You will progressively apply Computer-Aided Design (CAD) skills to the processes of design in all years of study. CAD work includes current and emerging applications in 2D and 3D, customisation and digital textile printing. Drawing and textile studies support studio work.

Complementary studies include contemporary history and theory in design and business studies in new ventures or marketing. Elective studies, including units from other faculties, allow you to develop your work in various directions.

Career Outcomes
A number of graduates have been successful as independent designers or fashion stylists. Others work in large companies as designers or merchandisers.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Why choose this course?
This intense studio and project-based course is supported by practical business skills necessary for designers wanting to work in Australia and internationally. In your final year your work will be showcased to industry. You'll have the opportunity to undertake an industry internship and business planning project to set you up for the real world.

Other Course Options
This course is also available as part of a double degree with Business - IX35 Bachelor of Business/Bachelor of Fine Arts (Fashion).

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
There is a levy charged for essential items such as calico, pattern equipment and pre-cut exercises. In addition, students are expected to purchase fabrics as required for projects throughout the three years.

Overview
This production-driven program is designed for those seeking to become leaders in creative practice in the film, television and new media industries. You may choose to specialise in producing, directing, scriptwriting, cinematography, editing or sound. You will have the opportunity to be part of the creative process with advanced classes conducted in dedicated production studios, culminating in a Super 16 film production.

Career Outcomes
Graduates can work in film and television in numerous entry level positions that lead to careers as cinematographers, vision and sound editors, directors, scriptwriters and producers. You may also work in the production of multimedia audio and video materials for advertising, public relations, marketing, staff training or the Internet.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Why choose this course?
You will be encouraged to explore a range of genres from documentary, television formats, drama and experimental film. You will work with industry standard equipment and with other students to produce creative works and projects for external clients. Your work will be showcased to the industry at two public screenings in your final year.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
You may be required to cover the costs of recording materials, video hire, production travel expenses and associated film and video production costs.

Overview
Sound design incorporates working in audio, music, moving images, online and immersive environments. It is applied to recording, sequencing, generative and composition techniques, sound for animation, contemporary digital sound environments and immersive soundscape design. It is much broader than the traditional understanding of sound design (sound to film) to cater for the new creative industries that now exist, and those that will emerge. This course prepares you for practice in the creative industries and includes pathways to honours and postgraduate degrees.

Career Outcomes
Graduates can work in sound design for film and television, Web applications, games and exhibitions or as DJs.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Why choose this course?
Sound designers are in great demand around the world for movies, computer games, audiovisual installations and events.

The course offers flexibility so you can develop skills and contextual knowledge to set you up for the career you aspire to.

Other Course Options
You can also choose from double degree programs including IX34 Bachelor of Business/Bachelor of Creative Industries (Sound Design) and IX27 Bachelor of Creative Industries (Sound Design)/Bachelor of Information Technology.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

### Creative Industries Minors

**INSTRUCTIONS FOR MINORS**

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Course Structure

Overview
This course combines creative industries core units with specialist studio-based units involving you in all aspects of the industry. You will receive a thorough education across technical production including lighting, stage management, festival management, sound and multimedia. You will also work on high-profile faculty productions throughout the course and have the opportunity of industry placements at a national level in your final year. Placements include music festivals, state and local theatre companies, performing arts complexes and entertainment venues.

Career Outcomes
Graduates can work as stage managers, production managers, lighting and sound designers for theatre, ballet, contemporary dance, opera, pop concerts and events, conferences, festivals, and film and television.

Course Structure
In order to complete the course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Why choose this course?
This intense studio and project-based practice course suits students who are motivated to pursue a career in the entertainment industry.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

### Creative Industries Minors

#### Instructions for Minors

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

Overview
With an emphasis on new media, this studio-based course will prepare you for work as a professional practising artist. You will develop your art-historical knowledge of modern and contemporary creative practice, study core units, and produce your own work in studio-based units. Your work will be exhibited throughout the course and at a major graduation industry showcase event.

Career Outcomes
Graduates work as independent practitioners and will have developed skills that are necessary for working as creative directors and visual designers as well as in a variety of roles in the arts sector including public art. Many of our graduates have become successful practising artists and are represented in the commercial gallery sector as well as establishing careers in the commissioned and public funding sectors.

Course Structure
In order to complete this course, students must undertake two Creative Industries Foundation units, a maximum of 18 discipline or specified units relating to the chosen major, and a minimum of four electives.

Why choose this course?
As we embrace an open studio model, you will be encouraged to explore independent approaches to art practice across a variety of media. Five of our graduates have been recipients of the Samstag International Visual Arts Scholarships, which allows Australian visual artists to study and develop their artistic capacities, skills and talents outside of Australia.

Other Course Options
The Bachelor of Fine Arts (Visual Arts) is also available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprised of the three year Bachelor of Fine Arts (Visual Arts) and the one year Graduate Diploma of Education (Senior Years).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 19 October 2007. Late submissions will not be accepted.

Prospective international students should refer to the additional entry requirement information in the International Students section in the Creative Industries web site.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 07 September 2007. Late registrations and submissions will not be accepted.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October.

Confirmation dates and venues will be posted to registrants after registrations close.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT's deferment policy does not apply to this course.
Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e., failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 19 October 2007. Late submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Visual Arts and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, music, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
New QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a

Overview
Postgraduate coursework programs in Creative Industries are designed to engender advanced, critical and systematic reflection on professional and creative practice in any of the Creative Industries disciplines.

The Doctor of Creative Industries (DCI) is a pioneering doctoral program for leading artists and professionals who are required to manage not only the risks but the opportunities presented by the creative industries. The program is tailored for experienced professionals engaged in the following communities of practice:
- artistic practice
- professional practice
- creative enterprise practice
- teaching practice.

The program will suit candidates who are seeking to locate their research in and around the workplace, have a focus on improving their practice and who wish to ground their investigations around professional projects.

Entry Requirements
Doctoral applicants should possess either a four-year degree or its equivalent with first-class honours or second-class honours division A; or a masters degree in a relevant field. Applicants should also have two years of practice at an advanced level in a position of responsibility in the creative industries, or five years of practice at an advanced level in a position of influence in the creative industries with an accompanying portfolio of achievement that demonstrates the applicant's capacity to work at a doctoral level.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

Applications from outstanding leaders in the creative industries who have not had the opportunity to pursue postgraduate study may seek entry to the DCI.

Depending on academic qualifications and experience, applicants may receive advanced standing into the course and receive credit for up to two semesters of the course.

Applicants can receive up to 96 credit points of academic credit, but only after completing Introduction to Reflective Practice, and demonstrating clear evidence of doctoral-level performance, and only with the approval of the course coordinator.

Course Structure
The course comprises two components—coursework and professional projects. Coursework is undertaken at the beginning of candidature and provides the essential conceptual tools candidates need for doctoral-level analysis and reflection on their professional practice and related contextual factors. Candidates will design, implement and evaluate three professional projects during the period of their candidature. The scale, scope and focus of these projects will be determined in consultation with mentors.

The normal enrolment for the Doctor of Creative Industries is six semesters of full-time study. However, the period of candidature can vary depending on entry requirements.

It is possible to exit from the Doctor of Creative Industries after three semesters with a Master of Creative Industries award (KK48).

Overview
The Master of Arts (Research) is designed to promote projects based on creative and professional practice, and projects with an orientation towards industry and community partnerships. Much postgraduate research is applied in nature and a lively research training program encourages collaborative and interdisciplinary approaches.

Master of Arts (Research) candidates draw on a wide range of research traditions but increasingly candidates are using practice-led research in the design of their studies. This methodology is serviceable and suitable for both applied commercial research and creative practice as research.

Some recent Master of Arts (Research) degrees have been undertaken through cohort-based supervision under the leadership of prominent industry professionals. The Faculty can advise on the availability of cohort-based entry and areas of current supervision.

Master of Arts (Research) candidates have also completed projects drawn from commissioned research, industry placements and workplace-related research projects.

Entry Requirements
Masters applicants seeking entry into the coursework plus research program should possess a three-year bachelor degree or equivalent. For entry into the research-only program, applicants should possess a three-year bachelor degree plus honours, or a three-year bachelor degree plus a recent graduate diploma or equivalent.

Course Structure
* ENTRY WITH 3 YEAR QUALIFICATION: (Bachelors degree or equivalent)
Students normally will undertake 48 credit points of coursework and a 96 credit point research project.
* ENTRY WITH APPROVED 4 YEAR QUALIFICATION: (Bachelors degree plus Honours/Graduate Diploma or equivalent)
Students will not normally undertake coursework units, unless otherwise recommended by the Discipline Coordinator. They will be required to undertake a 96 credit point research project or thesis.

With approval from the relevant Discipline Coordinator, instead of undertaking 96 credit points of research, students may enrol in 12 or 24 credit points of course work, and reduce the weighting of their research project to 84 or 72 credit points.

Research Component
Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7000 - 10 000 words).

Students can undertake:
* a significant creative work such as a live performance or musical composition
* a work of fiction or non-fiction
* a script or production for film, television or live performance
* a multimedia script or production
* projects commissioned by industry, government and community organisations
* workplace-related projects.

Any project likely to involve University resources must be approved by the Creative Industries Faculty Research Office. Details of how to apply are available on request on acceptance of offer of a place in the course.

Overview
Honours programs are an extension of undergraduate studies allowing students to specialise in their chosen field of study and explore a more focused program of activity. In many cases honours leads to research higher degree studies.

Entry Requirements
Normally students will apply within the final year of their pass degree. Applicants will have completed a bachelor degree in a relevant field of study from QUT, or a comparable degree from another institution. Normally a minimum grade point average of 5.5 or higher (on a 7-point scale) is required for entry into the Honours program.

All applicants for Honours must provide the Faculty with a proposed project topic and short summary of the project and have identified a prospective supervisor from within their field of study. These applications are then subject to approval by the relevant Portfolio Director or other senior Faculty staff member.

Graduates of the Bachelor of Mass Communication may apply for the Bachelor of Creative Industries (Honours) (Media and Communication) or the Bachelor of Journalism (Honours), subject to Creative Industries Faculty approval.

**Entry Requirements**

A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry. Please contact the Creative Industries Faculty for information.

If requested, supply documentation of professional work experience as detailed in Completing the PG Form.

**Overview**

Professional communication is an integral aspect of all work environments, and highly developed skills in this area are much sought after by employers. This course will hone your workplace communication skills, giving you the professional edge needed to communicate successfully at all levels of an organisation.

You will gain full advantage of QUT’s expertise in communication, writing and journalism as you will combine study in professional and persuasive writing, speaking and presentation skills, and leadership and team skills. The course will be of most benefit to those whose undergraduate degree is in an area other than communication.

You will develop your skills in professional writing and speaking, leadership and teamwork, and work communication practices, and apply these skills to teamwork environments and work-based projects.

This course will be of interest if you seek communication skills to further your existing career, whether you work in management, policy, research and analysis, administration, customer service, sales, or consulting. Alternatively, you may use this course to begin a career in professional communication, including as a professional writer, organisational trainer, or communication officer.

**Course Structure**

Students will complete four of five available units in Professional Communication.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT was 19 October 2007. Late registrations and submissions will not be accepted.

Prospective international students should refer to the additional entry requirement information in the International Students section in the Creative Industries web site.

Overview
This creative and practical course is designed for those seeking to become leaders in the music industry. There will be many types of musicians in the future, and QUT's Bachelor of Music responds to this need for future focussed graduates. You will study a common core of music and sound subjects plus some intensive practice-based and work experience units.

You will navigate your own pathway, having the choice of a performance or production strand, and the flexibility to choose electives in other creative areas.

You will be expected to present your work in a number of ways, based on your particular aims and passions. There is an emphasis on real-world experiences during the course, including public performances and showcases, internships, media opportunities and collaborative productions with other students.

Career Outcomes
Graduates work in the live, recording and multimedia industries, as performers, composers, creative music producers, developers of music software and games, DJs, mixers or studio teachers. This degree is also a pathway to honours and professional or research postgraduate studies.

Why choose this course?
The creative and modern emphasis of this degree sets it apart from other music courses on offer in Australia. There is a focus on generic music skills relevant to the twenty-first century, reflecting the demands required of a musician of the future. You may study a variety of styles and genres, indeed a 'crossover music' approach is encouraged.

The emphasis on repertoire creation over reproduction means it is ideally suited to those who are keen to innovate and make their mark in the changing sector of creative industries. You'll be equipped to sustain your career over the long term.

Other Course Options
The Bachelor of Music is available as a dual degree with Education. Applicants accepted into the dual degree will complete a four year program comprising the three year Bachelor of Music and the one year Graduate Diploma of Education (Senior Years).

You can also choose from double degree programs including IX34 Bachelor of Business/Bachelor of Creative Industries (Music) and IX27 Bachelor of Creative Industries (Music)/ Bachelor of Information Technology.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Additional costs
While extensive computing technology is available, additional digital storage will be required (CDs, DVDs, and often hard drives) at your own cost. Headphones, ear plugs, batteries and appropriate leads must be provided.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT was 19 October 2007. Late registrations and submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Terry Flew
Discipline coordinator: Professor Andy Arthurs
Campus: Kelvin Grove

Overview
This course is aimed at professional performers and composers, music producers, music studio personnel and music educators. It is also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Entry requirements
Entry to the Graduate Certificate or Graduate Diploma requires a bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale) and experience relevant to the music pathway selected by the applicant.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate with the possibility of articulation into the Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate. Applicants will only be permitted to enrol in a Graduate Diploma with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Masters applicants should possess either a three-year music degree with an overall grade point average of 5 or above (on a 7-point scale) or approved diploma in music from a university or documentary evidence of a successful career as a music industry professional considered equivalent to a three-year degree. Prior to admission, applicants must submit and have approved a project proposal.

Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

Course Structure
Students select 48 credit points (normally four subjects) from a list of units focusing on Music Composition for the Creative Industries, Music and Media Technologies, or Music Coaching.

Overview
This course is aimed at professional performers and composers, music producers, music studio personnel and music educators. They are also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Entry requirements
Entry to the Graduate Certificate or Graduate Diploma requires a bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale) and experience relevant to the music pathway selected by the applicant.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate with the possibility of articulation into the Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate. Applicants will only be permitted to enrol in a Graduate Diploma with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Masters applicants should possess either a three-year music degree with an overall grade point average of 5 or above (on a 7-point scale) or approved diploma in music from a university or documentary evidence of a successful career as a music industry professional considered equivalent to a three-year degree. Prior to admission, applicants must submit and have approved a project proposal.

Advanced Standing
Advanced standing for prior study and/or professional experience for the Masters is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

Course Structure
Masters students may choose from either:
* Coursework and project: eight units prior to two Music Project units. Alternatively, students can undertake four or six coursework units and four or three Project units respectively.
* Project: two coursework units undertaken prior to five Music Project units.

Students must contact the subject area coordinator before making unit selection.

OVERVIEW

Based at the Kelvin Grove campus, QUT’s Faculty of Education is a dynamic place for people pursuing a career in education, and for educators seeking to advance their qualifications. The Faculty is composed of more than 200 academics and professional staff, who are committed to enhancing the learning of students and ensuring course content is contemporary and relevant.

Education has been taught at the Kelvin Grove campus for almost 100 years under the auspices of many organisations including Kelvin Grove Teachers’ College, Brisbane Kindergarten Teachers’ College, Brisbane College of Advanced Education and since 1990, QUT. Due to this extensive history, we are now one of the largest education faculties in Australia with over 5000 students.

The strong, practical theme of all our courses and diverse range of unit offerings means our graduates are highly employable throughout Australia and the world, and you are not limited by the employment opportunities provided by classroom teaching alone.

RESEARCH CENTRE

Centre for Learning Innovation
The Faculty of Education has a strong research culture driven by a commitment to innovation, enhancing educational professional practice and engaging with real-world issues. The Faculty has implemented leading innovations in research training, and has attained a critical mass of educational researchers who attract many competitive and contracted research grants. The Doctor of Education, Doctor of Philosophy and Master of Education (Research) courses offer a variety of research options allowing researchers to make an original contribution to their area of expertise.

The Faculty offers a range of postgraduate research programs with quality supervisors affiliated with our four schools:

- Cultural and Language Studies in Education
- Early Childhood
- Learning and Professional Studies
- Mathematics, Science and Technology Education

The Faculty is leading the way in education research with many successes in Australian Research Council (ARC) grants for major research projects as well as many commercial research projects. In 2007 the Faculty was Australia’s top-performing education faculty for Australian Research Council (ARC) Discovery Grants for six projects worth $1.5 million, a success attributed to our research centre, the Centre for Learning Innovation.

The Centre for Learning Innovation manages research in projects worth $1.5 million, a success attributed to our research centre, the Centre for Learning Innovation.

The Centre for Learning Innovation manages research in the Faculty and is home to more than 50 active researchers, 190 doctoral students and 25 research masters students. It provides support for competitive research grants, publications and commercial research tenders. The Centre is committed to innovative and high-quality research directed towards:

- meeting educational needs in local, national and global contexts
- fostering positive social and economic change
- providing leadership across the full range of education professions
- developing innovative solutions to educational problems
• conducting transdisciplinary and multidisciplinary research.

The aim of the Centre is to become a leader in collaborative research with the education professions and a recognised innovator in educational research both nationally and internationally. A variety of research is conducted with clusters of researchers focusing on:

• early years
• mathematics curriculum
• literacy
• learning for professional futures.

Other research interests in the Faculty include knowledge in maths, science, engineering and technology; cognition and creativity; creative workforce; cultural transformations; development and disability; indigenous capacity building; literacy; and scholarships of teaching in higher education.

Why choose this course?
The Master of Learning Innovation (MLI) is designed to offer you the greatest possible flexibility in your choice of units enabling you to construct an individual program of study in order to meet your own professional and personal learning needs. You will have the opportunity to analyse your local and global environments and you will be encouraged to explore your own professional culture and career to date with a view to determining your learning priorities for the future.

Career outcomes
As a graduate of the Master of Learning Innovation (MLI) you will become a leader in your field of endeavour, willing to embrace innovation and able to manage change productively. The range of units available within the Master of Learning Innovation (MLI) will enable you to focus your career in an expertise area, enhancing your employment prospects. If you are seeking a career change, the Master of Learning Innovation (MLI) will allow you to reposition your qualifications and experience. Your employment prospects will include an array of specialised or senior positions in schools, Government and private industry.

The Master of Learning Innovation (Teacher-Librarianship) assists teachers in seeking employment as teacher-librarians in primary and secondary schools.

The Master of Learning Innovation (Early Childhood Teaching) assists primary and secondary teachers to change their career and seek employment as early childhood specialists.

Entry requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year's appropriate professional or industrial experience.

Students undertaking the MLI (Teacher-Librarianship) and the MLI (Early Childhood Teaching) study areas must be qualified teachers.

Special entry requirements (for the Early Childhood Teaching study area only)
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre. Students should apply for a card as soon as they are accepted into the course. It is now a requirement of all Queensland sites that preservice teachers have obtained the Blue Card prior to starting field experience. For more information visit bluecard.qut.com

Please note students undertaking the unit EDN635 Practicum in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child Care Centre, Day Care, Long Day Care, Kindergarten or independent pre-school setting. It is essential that you apply for this Blue Card at least 16 weeks prior to the commencement of your field studies.

Course structure - Master of Learning Innovation
Students will complete a program of study comprising the two core units, The Learning Innovator and Professional Applications of Research, and six electives as specified by the course rules and chosen to meet their personal and professional learning needs. Students enrolling in the specialised study areas of Teacher-Librarianship or Early Childhood Teaching will undertake a specified program of study.

A range of study areas are available and include:
- adult learning and knowledge management
- career guidance
- cyberlearning
- global studies
- guidance and counselling
- higher education
- leadership and management
- learning in scientific contexts
- learning support
- managing learners
- middle years
- the early years.

Course structure - Master of Learning Innovation
(teacher-Librarianship)
You will undertake a specified program of study of seven units plus one elective unit.

Course structure - Master of Learning Innovation (Early Childhood Teaching)
You will undertake a specified program of study of eight units.

**Professional recognition**
The Teacher-Librarianship study area is accredited by the Australian Library and Information Association (ALIA). The Teacher-Librarianship study area also maintains close links with the Australian School Library Association (ASLA).

The Early Childhood Teaching study area is recognised as a specialist early childhood qualification in Queensland.

**Research options**
The generic Master of Learning Innovation (MLI) provides you with opportunities to gain experience in undertaking research. To complement the core unit, Professional Applications of Research, you can select from a suite of research options which includes:
- a second research methodology unit Conducting Innovative Research in Educational Contexts
- three Facilitated Study Units (FSUs), worth 12, 24 or 36 credit points, equal to one, two or three units respectively
- two Thesis Units, worth 36 or 48 credit points, equal to three and four units respectively.

The Facilitated Study Units are designed to accommodate a breadth of interests and will permit you to make use of existing research to explore a topic of your choice. It is anticipated that a cohort of students undertaking an FSU will maintain regular contact with a mentor who will guide them in their work.

The Thesis Units will be of particular interest if you are intending to undertake further research in the Doctor of Education or Doctor of Philosophy programs. The 36 and 48 credit point Thesis Units are available to those students who wish to conduct research with an individual supervisor. The unit Conducting Innovative Research in Educational Context is a prerequisite for the thesis units.

**Graduate Certificate in Education**
You will have the option of entering the Master of Learning Innovation (MLI) via the Graduate Certificate in Education or exiting with the award of a Graduate Certificate in Education once you have completed four units.

**International students - suggested program**
A suggested program for international students may consist of the two core units, one Facilitated Study Unit, two leadership units, one Cyberlearning unit and two electives which may be undertaken online.

**How to apply**
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These forms can be accessed at studentservices.qut.com, at Student Centres or by phoning 07 3138 2000.

Master of Learning Innovation (Early Childhood Teaching)
This option is suitable only for qualified teachers seeking to become early childhood specialists. Students are required to complete eight units.

Entry Requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year's appropriate professional or industrial experience. Students undertaking the MLI (Early Childhood Teaching) study areas must be qualified teachers.

Special Entry Requirements
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre.

Students undertaking the practicum unit in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child Care Centre, Day Care, Long Day Care, Kindergarten or independent preschool setting. It is essential that you apply for this Blue Card at least 16 weeks prior to the commencement of your field studies. Forms can be downloaded at:

Students who do not have a valid Blue Card and are required to do so for their placement will not be permitted to commence their practicum. You may incur penalties if you failed to submit your application within the recommended time-frame.

Professional Recognition
The Early Childhood Teaching study area is recognised as a specialist early childhood qualification in Queensland.

Overview
The Doctor of Education (EdD) is a professional doctorate which requires the completion of coursework units and a thesis. A professional doctorate addresses the need for a higher degree oriented towards the enhancement of professional practice and is designed to focus on applied investigation and problem solving rather than on a contribution to pure research or to theoretical knowledge. Its focus is the professional development of practitioners involved in some aspect of education.

Entry Requirements
Applicants must possess a four-year education degree or its equivalent with first-class or second-class Honours division A or a Masters degree in education or in a field relevant to the professional doctorate in education, AND two years practice in a position of professional responsibility in education or a closely related field. Students with lesser qualifications but exemplary professional practice may be given provisional entry and should consult the Course Coordinator before applying.

Course Structure
The degree consists of 288 credit points of which 72 credit points are coursework, followed by a thesis of 216 credit points. All coursework must be completed before work can commence on the thesis. For the unit Interdisciplinary Education Studies (a 24 credit point unit), students undertake a four-day, on-campus study school in January of their commencing year. Subsequently, in the second and third semesters of their enrolment, students attend two four-day study schools on campus (July and the following January) in which they work on the methodology and design of their thesis (each unit worth 24 credit points). The thesis is undertaken in the Faculty's research centre. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

How to Apply
Before submitting an application for enrolment, a potential candidate should consult the Course Coordinator who will assist in the preparation of the appropriate application form concerning eligibility and special interests. Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 5306.

Overview
This program gives you an opportunity to research a topic of your choice, culminating in submission of a thesis. Under the guidance of your supervisor(s), you will conduct your research within the Faculty's Centre for Learning Innovation. As well as equipping you with the research and analytical skills to make a valuable contribution to knowledge, the Master of Education (Research) puts you in a position to market yourself as an expert in your field. The course is a fitting preparation for the doctoral programs offered by the Faculty: the Doctor of Philosophy and the Doctor of Education.

Entry Requirements
- a four-year education-related degree with a grade point average of at least 5 (on a 7-point scale) or equivalent, with demonstrated potential for further study and evidence of professional standing;
- OR a graduate diploma in an education-related field with a grade point average of at least 5 (on a 7-point scale) or equivalent, with a demonstrated potential for further study and evidence of professional standing;
- OR an honours degree in an education-related field with a minimum second class Honours division A or B.

Applicants who do not have professional experience in an education-related field would normally be expected to demonstrate their potential for further study with a grade point average of 6 (on a 7-point scale) or better.

Admission into the course is dependent on the availability of supervisors with expertise appropriate to the individual topic.

Course Structure
The course comprises four stages: preparation, confirmation of candidature, implementation and submission of a thesis of up to 40,000 words.

(i) Preparation stage: you undertake two research methodology units - Professional Applications of Research and Conducting Innovative Research in Educational Contexts. Exemption may be granted for the methodology units if you can demonstrate that you have already completed equivalent studies or have relevant research experience. During this stage, you will determine the research methods to be used in your thesis and begin work on your literature review.

(ii) Confirmation of candidature stage: you present and justify your research proposal at a seminar attended by academic staff and your peers. Your confirmation document includes your research design and your draft literature review.

(iii) Implementation stage: you execute your research proper, collecting your data and analysing the results.

(iv) Submission stage: in the final stage of your Master of Education (Research) journey, you finish writing your thesis and present it to a review panel for approval at a final oral seminar open to the public. Once approved, your thesis is ready to be submitted for examination.

Application Procedures
As part of your application for the course, you are required to submit a short research proposal. It is recommended that you consult the course coordinator or prospective supervisors for their assistance.

Course Requirements
University and Faculty rules governing credit, supervision, confirmation of candidature and examination of thesis apply to the Master of Education (Research).

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 5306.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean and at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

Course structure
Students in the Masters program are required to complete 96 credit points of study including the two compulsory units, Second Language Acquisition and Principles of Second Language Methodology, of 12 credit points each. Students then have the choice of pursuing one of two options:

- Option 1: requires the completion of six elective units of 12 credit points each.

- Option 2: requires the completion of elective units and a 12, 24 or 36 credit point Facilitated Study Unit to total 96 credit points. Students must consult with the Course Coordinator to discuss their research topic before enrolling in a Facilitated Study Unit.

Graduate Certificate in Education (TESOL) - Exit Point
Following the successful completion of four Master of Education (TESOL) units comprising two core units and two electives, students may elect either to discontinue enrolment and graduate with a Graduate Certificate in Education (TESOL), or to pursue a further four units in order to complete the Master of Education (TESOL).

How to apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under 'Help at hand' at QUT Student Centre counters or by telephoning 07 3138 2000.

Overview
The Bachelor of Education (Inservice) program is an undergraduate course in education in which you undertake a mature examination of yourself as a teacher and of important educational issues in light of your preservice preparation and subsequent teaching experience. The course aims to further develop your commitment to teaching and increase your abilities to critically evaluate current educational practice, to introduce new innovations and to upgrade your discipline knowledge. Graduates are eligible for entry into the Faculty's Master of Learning Innovation and Master of Education (Research) courses.

Entry requirements
You must have completed a Diploma of Teaching (or equivalent).

OP Guarantee
The OP Guarantee does not apply to this course.

Course Structure
You are required to complete eight, 12 credit point units of study. The course provides flexibility for students to complete their studies across a range of areas. Two core units, Engaging Diverse Learners and The Professional Practice of Educators, must be completed together with an additional two units from any of the four schools located in the Faculty of Education. The remaining four units may be taken from a wide range of Faculty of Education units or from faculties other than the Faculty of Education. Students undertaking the course to meet specific Queensland College of Teachers Registration requirements may not be able to undertake non-education units.
Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest such as adult and workplace education, culture and language studies, human relationship education studies or mathematics, science and technology education studies.

Mid-year Entry
This course is available externally only for mid-year entry.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Overview
For graduates with an undergraduate degree to obtain their first teaching qualification. Three areas of study: Early Years (emphasising birth to eight years, and preparing graduates to teach prep-grade 3); Middle Years (emphasising Grade 4-9); Senior Years (emphasising Grade 10-12 as well as lower Secondary).

Entry Requirements
Completion of a bachelor degree (or equivalent) that does not lead to teacher registration.

NOTE: At least one of the Field Studies units in this course must be completed in a Queensland school.

Additional Entry Requirements - Senior Years
Senior Years applicants are required to nominate a proposed teaching area. Teaching area nominations are made via the online Teaching Area Nomination Form<

Professional Recognition
The Graduate Diploma in Education is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Early Years and Middle Years
It is assumed that the undergraduate degree has sufficient breadth to enable you to confidently address the range of teaching areas that is expected by a potential employer. You may wish to refer to the Queensland Studies Authority website, eg Years 1-10 Key Learning Areas.

Deferment
QUT's deferment policy does not apply to this course.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Teaching Area Entry Requirements

Students admitted into a teaching area must complete the course in that teaching area. It is assumed that current knowledge in the chosen teaching area has been maintained since completion of the relevant units.

Dance Education (not available mid-year, quota restrictions apply)

A range of units covering Dance theory and practice at a university level. Interview is required (compulsory). An audition may be required after the interview. Contact Dance, Creative Industries Faculty on (07) 3864 5688.

Drama Education (not available mid-year, quota restrictions apply)

A range of units covering theory and performance at university level. Interview is required (compulsory). An audition may be required after the interview. Contact Drama, Creative Industries Faculty on (07) 3864 3468.

English Education

A range of English units covering the areas of language and literacy, literary and cultural, and media and film studies. Applicants may not be accepted if their studies are too narrowly focused on one area.

Languages Education (not available mid-year)

Applicants must have completed at least a minimum of six language units in sequence beyond the secondary school level (or the equivalent). Native speakers can also apply and must be able to demonstrate completion of schooling and/or tertiary study in the first/native language and/or demonstrated/documentated appropriate levels of language proficiency. Interview may be required. Languages available are French, German, Japanese, Indonesian, Chinese and Italian.

Mathematics Education

A range of Mathematics units.
A range of Biology units covering the areas of plant and animal studies. Human biology is included in animal biology and ecology, and environmental sciences are included in plant biology.

Science Education (Chemistry)
A range of Chemistry units covering the areas of physical, inorganic, bio-organic, analytical and environmental chemistry.

Science Education (Earth Science)
A range of units from the fields of environmental science, geology, geoscience and ecology.

Science Education (Physics)
A range of units from the areas of physics and mathematics.

Science Education (Science Studies)
A range of units from the areas of physics, chemistry, biology, earth science, and astronomy.

NOTE: NO FURTHER INTAKE
The Bachelor of Education (Primary) (ED91) replaced the Bachelor of Education (Primary) (ED51) in 2003. THERE IS NO FURTHER INTAKE INTO THIS COURSE.

Entry requirements
Applicants must have completed Year 12 (or equivalent).
Assumed Knowledge: English (4 SA).

Career Outcomes
Graduates are prepared to teach at all levels of the primary school. They may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum. A specialisation in LOTE is available within the primary teaching program.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

LOTE Pathway
Students undertaking a LOTE pathway may be required to attend other campuses.
Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway
Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Middle Years Pathway
Students have the option of choosing the Middle Years pathway which will enable them to gain expertise in middle year schooling. The option involves choosing four units in the final semester including a practicum in the middle years setting (subject to Grade Point Average of 5 or above).

NOTE: NO FURTHER INTAKE
The Bachelor of Education (Early Childhood) ED52 has been replaced by the Bachelor of Education (Early Childhood) ED92. THERE IS NO FURTHER INTAKE INTO THIS COURSE.

Entry requirements
Applicants must have completed Year 12 (or equivalent). Assumed Knowledge: English (4 SA).

Career Outcomes
The program provides graduates with the opportunity to be employed in child care centres, kindergartens, preschools and the lower three grades of primary school.

Professional Recognition
The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. The course is also accredited by the Department of Communities for employment in child care.

Research Pathway
Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway. This option is designed to meet the needs of students wishing to undertake research level study in the course of their future career. The pathway is designed to develop research skills and a research oriented, reflective approach to teaching.

*Three-year Bachelor of Early Childhood Studies
Students who commence study in the four-year, full-time Bachelor of Education (Early Childhood) specialisation may choose to exit from the course at the end of their third year. Students will exit with a three-year Bachelor of Early Childhood Studies qualification specific to the Child Care area. Graduates of the three-year program are not eligible for registration with the Queensland College of Teachers.

Overview
The Graduate Certificate in Education provides a two-semester part-time or one-semester full-time postgraduate course in a range of study areas. You will acquire knowledge and understanding of specific issues in education, develop the skills necessary to identify and evaluate these issues, provide leadership within an educational setting and acquire abilities to manage the problems identified.

Entry requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean, OR an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year's appropriate professional or industrial experience. Students undertaking the Early Childhood study area must be qualified teachers.

Course Structure
The Graduate Certificate in Education course consists of 48 credit points of study from the Master of Learning Innovation deemed by the Executive Dean to form a coherent program of study. Units can be presented in internal, flexible or block mode (where students are required to attend campus for up to five days normally during the January or July school holiday period). In some instances units can be completed in a modularised form which allows students to complete the assessment on a credit point basis.

Study Areas
The study areas include:
- Adult Learning and Knowledge Management
- Autistic Spectrum Disorder
- Behaviour Management
- Career Guidance
- Early Childhood
- Educational Counselling
- Executive Leadership
- Higher Education
- Information and Communication Technology
- Leadership and Management
- Learning Futures
- Learning Support and Inclusive Education
- Mathematics Education
- Middle Years of Schooling
- Science Education

How to Apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These forms can be accessed at studentservices.qut.com, at Student Centres or by phoning 07 3138 2000.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry Requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean of the Faculty and at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

Course structure
The Graduate Certificate in Education (TESOL) consists of four units taken from the Master of Education (TESOL) course. Students are required to complete the two core units Second Language Acquisition and Principles of Second Language Methodology and two electives.

How to apply
Domestic students apply directly to QUT Student Business Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under 'Help at hand', at QUT Student Centre counters or by telephoning 07 3138 2000.

Career Outcomes
This degree provides graduates with the opportunity to be employed in childcare centres and services. Graduates are not eligible for teacher registration in Queensland.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
The Bachelor of Early Childhood Studies is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children's services.

Graduates of the Bachelor of Early Childhood Studies are not eligible for teacher registration with the Queensland College of Teachers.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Advanced Standing
Students admitted with a completed Diploma of Children's Services (or an equivalent accredited qualification) will be automatically granted one year of advanced standing (ie 96 credit points) and be eligible to complete the degree in two years full-time.

Diploma entry
Students with a completed Diploma Diploma of Community Services (Children's Services), Diploma of Children's Services, Diploma of Children's Services (Centre Based Care) or equivalent qualifications will receive one year of academic credit that will be automatically awarded by QUT Admissions after the QTAC offer and prior to the start of classes.

If you have one the above diplomas and receive an offer, you will be able to undertake the diploma entry enrolment program that allows you to complete the Bachelor of Early Childhood Studies in two years.

Career Outcomes
You will be prepared to teach in a minimum of two curriculum or teaching areas in secondary schools.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Students complete a total of 384 credit points of study and will specialise in two teaching areas appropriate for teaching grades 8-12 in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 100 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, Indigenous and sociocultural studies. Applied curriculum tasks give students the opportunity to relate their practical school experiences to their theoretical studies.

Successful applicants receive an offer in one of three streams: General, Home Economics or Physical Education. Restrictions apply to some teaching area combinations.

Students will select their two teaching areas from the
following lists (one from Group X and one from Group Y):

GROUP X
Accounting/Business Management
Business Communication and Technologies
Computing
English
Home Economics (available only to students entering through the Home Economics entry point)
Mathematics
Physical Education (available only to students entering through the Physical Education entry point)
Science Studies
Social Science
English as a Second Language (ESL)

GROUP Y
Accounting/Business Management
Biology
Business Communications and Technologies
Chemistry
Earth Science
English
Film & Media Studies (subject to quota)
French
Geography
German
Health Education
History
Indonesian
Japanese
Legal Studies
Mathematics
Physics

NOTE:
Where the same subject is listed in both Groups X and Y (eg. English), it may only be selected once.
There may be limited places in some disciplines as a second teaching area
Students selecting Home Economics or Physical Education are to complete 96 credit points in these areas.
Some subjects are taught at Gardens Point and Carseldine campuses and timetable incompatibilities may exist with subjects taught at Kelvin Grove.

Students wishing to take biology, chemistry, earth science, or physics with subject areas other than mathematics or science studies should check for possible timetable difficulties.
Mathematics has an Assumed Knowledge of Maths B (4 SA)

Career Outcomes
You will be prepared to teach at all levels of primary school. You may also complete discipline/content studies electives in one of the key learning areas of the Queensland school curriculum. A specialisation in Languages Other Than English (LOTE) is available within the primary teaching program.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Languages Other Than English (LOTE) Pathway
Students undertaking a LOTE pathway may be required to attend other campuses. Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway
Certain students will be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

NOTE: Students granted credit for previous studies may not be able to progress each semester with a full-time load.

Caboolture Campus Note
Students at Caboolture may wish to Middle Years elective units at that campus. However, if students do not wish to do so they would need to take alternative electives from List 1 and take the units at the campus where offered. Note: not
all units in the LOTE pathway are offered at Caboolture Campus. Students may need to undertake subjects at other campuses.

List 1: Elective Studies Units

All students (except those following the LOTE progression) take a total of three elective units from this list. Students must take SPB012 as their final fourth elective in Year 4, Semester 2 (refer to course structure on previous pages for exact semesters).

It is recommended that the three elective units should be drawn from one of the specified groups below.

Students electing to take EDB440 Independent Study, can enrol in this unit if offered in their chosen elective area. The opportunity to take EDB440 is dependent upon staff availability within the Faculty. The area of study will be specific to the chosen elective area.

Career Outcomes
Graduates can teach in childcare centres, kindergartens, preschools and the lower three grades of primary school. They may also complete a discipline/content studies pathway in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Early Childhood) is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children's services.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Research Pathway
You may be invited to undertake the Research Pathway Option which is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Advanced Standing
Students admitted with a completed Diploma of Children's Services (or an equivalent accredited qualification) will be automatically granted one year of advanced standing (ie 96 credit points) and be eligible to complete the degree in three years full-time.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### List 1: Elective Studies Units

All students (except those following the LOTE pathway) take a total of four units from this list during Years 2 - 4 (refer to course structure on
It is recommended that the four units should be drawn from one of the specified groups below. Students electing to undertake EDB440 Independent Study, can undertake this unit if offered in their chosen elective area and is their final elective. The opportunity to take EDB440 is dependent upon staff availability within the Faculty. The area of study will be specific to the chosen elective area.

Overview
The Doctor of Philosophy (PhD) is a research degree which is undertaken within the research centre of the Faculty of Education. The PhD degree is awarded in recognition of the candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

Entry requirements
Applicants must possess a relevant first-class or second-class division A Honours degree, OR an appropriate masters degree. A good command of the English language is required.

Course structure
You undertake a supervised program of research which results in the submission of a thesis. A suite of research methodology units is available to those candidates who require them. You are initially required to complete a stage one application form at the time of enrolment. This is followed by submission of a detailed research proposal three months later. Within 12 months of admission for full-time candidates and 24 months part-time candidates, (and 15 months for international candidates), you are expected to develop a full course of study in consultation with your supervisor. This proposal is submitted to the Confirmation of Candidature Review Panel for approval. At the completion of the thesis, you are required to undertake an oral examination to present findings of the research. Once successfully completed, the thesis is submitted to the appointed examiners to be assessed.

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under ‘Help at hand’, at QUT Research Students Centre counters or by phoning 07 3138 5306.

Course Structure - Continuing Students
BA Course Requirements (Years 1 and 2) (Continuing Students)
Students should have completed the following components of the degree:
The first year requirements (8 units) which include:
HHB116 Applied Skills and Scholarship
Two Foundation Units (for students who did not complete two Faculty Foundation Units in Year 1)
Two to three Course Foundation Units
Two to three Elective Units
NB a minimum of four of these eight units must be chosen from units offered from the BA component of your course.
In second year, a further 8 units to complete:
One Major Study Sequence chosen from the BA component of your course
AND
One Minor Study Sequence from those offered in the BA component of your course or from other Minor Study Sequences offered elsewhere within QUT.
Students must ensure that a minimum of 12 of the 16 units be chosen from units in the BA.

Course Structure - Commencing Students
BA Course Requirements (Years 1 and 2) (Commencing Students)
Students are REQUIRED to complete:
* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)
It is SUGGESTED that they complete the Core Units Program consisting of the following:
*Four core units in first semester (from a selection of core introductory units and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)
* Two core units in second year (2 research methods units)

Course Structure - Commencing Students (cont.)
Students must maintain a 50% enrolment in units from the BA program until they have completed 8 of those units (96 credit points).
Students may wish to
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- develop a Minor (48 credit points) in major Foundation units for Primary Teachings
- take a series of elective units
Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.
Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.

Course Structure - Commencing Students (cont.)
NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Key Terms in the BA - Commencing Students
* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.
NB - a unit may not be counted in more than one professional major, discipline sequence, or Minor.
* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.
* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

Interdisciplinary Professional Majors - Commencing Students
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences - Commencing Students
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Sequences - Commencing Students
For details, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these may be taken as Minors.

**NOTE**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum
Studies in place of CLB413 should contact the Student Affairs office on 3864 3947. CLB334 is offered internally in semester 2.

Potential Careers:
Administrator, Community Worker, Corporate Secretary, Diplomat, Educator, Government Officer, Information Officer, Manager, Network Administrator, Network Manager, Primary School Teacher, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant.
Bachelor of Applied Science/Bachelor of Education (Primary) (FOR CONTINUING STUDENTS ONLY) (IF84)

Year offered: 2008
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full Fee Tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $4,936
Domestic Entry: February
QTAC code: 409142
Past rank cut-off: 80
Past OP cut-off: 10
OP Guarantee: Yes
Assumed knowledge: English (4 SA), Maths B (4 SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Outcomes
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Course Structure for Commencing Students in 2002

Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

NO FURTHER INTAKE INTO THIS COURSE
This course has been replaced by a newly coded IX21 Bachelor of Arts/Bachelor of Education (Secondary) with effect from 2008.

Career Outcomes
During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

### Science Component

**Major in Physics (with Mathematics Studies)**
Replace one science unit (not Physics units) with MAB101 Statistical Data Analysis 1.

Optional - replace up to two other science units (not Physics units) with mathematics units from MAB210, MAB220 or Level 2 or Level 3 units.

**Mathematics Studies for Majors other than Mathematics or Physics**

The following four mathematics units should be included:

Overview
This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?
This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition
Graduates are eligible for registration as a teacher in Queensland. Graduates will also satisfy the requirements for membership of the Australian Association for Exercise and Sports Science (AAESS).

Other Course Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

computing requirement The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study
any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

NO INTAKE INTO THIS COURSE IN 2008

Students wishing to undertake Dance and Education studies should refer to the entry for the Bachelor of Fine Arts (Dance)KK34/Graduate Diploma in Education ED38 entry.

Overview
This double degree qualifies you to teach dance in Australian secondary schools. In the first two years you will study the technique and philosophy of a number of dance styles plus dance analysis, history and sociology, dance composition and basic kinesiology and alignment. Students generally participate in a daily class of various styles. In addition to Dance, you will study a second teaching area, choosing from Drama, Music, English, Film and Media, Geography, History and Languages. In the final two years you concentrate on teacher preparation.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 07 September 2007. Late registrations and submission of materials will not be accepted.

OP Guarantee

The OP Guarantee does not apply to this course.

Career Outcomes
Graduates of this course are qualified to teach in secondary education with a specialisation in Dance. Graduates may wish to explore the avenues of performance, freelance choreography, dance research and administration.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has
consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Deferment**

QUT’s deferment policy does not apply to this course.

**IMPORTANT NOTICE**

This course code has been discontinued. The new course code for commencing students is IX16 Bachelor of Creative Industries/Bachelor of Education (Secondary). Continuing students should refer to their Course Summary Sheet for enrolment information.

NO INTAKE IN 2008

Students wishing to undertake a double Music and Education program should refer to the KM32 Bachelor of Music / ED38 Graduate Diploma in Education entry.

General
This four-year professional double degree prepares you to teach secondary school Music in Australian schools. In the first two years you may specialise in a range of performance and production areas. In addition you may opt to take a second teaching area selected from Dance, Drama, Visual Art, English, Film and Media Studies, Geography, History and Languages, or alternatively, study instrumental music teaching or primary specialist music teaching. Students taking the instrumental music strand are also encouraged to take second study instruments. In the final two years you will concentrate on teacher preparation equipping yourself through Music curriculum units, with the skills necessary to be effective Music educators.

Additional Entry Requirements
Applicants are selected on the basis of their audition, interview and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 1 September 2006. Late registrations and submission of materials will not be accepted.

OP Guarantee
The OP Guarantee does not apply to this course.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Career Outcomes
Graduates teach instrumental or classroom Music in secondary and primary schools.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also approved by the Department of Communities for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

CORE PROGRAM - Commencing Students

The core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors

INTERNATIONAL AND GLOBAL STUDIES
HHB110 Introduction To International And Global Studies
HHB111 Issues In International And Global Studies

SOCIETY AND CHANGE
HHB105 Exploring Change
HHB104 Understanding Society: Intro To Sociology

ETHICS AND HUMAN RIGHTS
HHB114 Introduction To Human Rights And Ethics
HHB115 Human Identity And Change

COMMUNITY STUDIES
HHB103 Contemporary Social And Community Issues
HHB102 The Human Condition

AUSTRALIAN STUDIES
HHB106 Australian Society And Culture
HHB112 Australian Politics

First Year Core: Skills Units
HHB116 Applied Skills And Scholarship
HHB117 Introduction To Social Research Methods

Second Year Core: Research Methods Units
HHB224 Qualitative Research Methods
HHB232 Survey Methods
HHB121 Interpreting The Past
HHB312 Geographical Research Design

Education Component

Year 3, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning
EDB021 Primary Field Studies 1: Development and Learning in the Field
MDB120 Mathematics Curriculum and Pedagogies
MDB004 Primary Curriculum and Pedagogies:

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education
EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Inclusive Education
EDB023 Primary Field Studies 3: Inclusive Educational Practices
KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media
OR
KKB202 Primary Curriculum and Pedagogies: Dance and Drama
MDB006 Primary Curriculum and Pedagogies: Science

Year 4, Semester 2

EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB025 Internship (Primary)
CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

Potential Careers:
Administrator, Community Education Officer, Community Worker, Disability Services Worker, Educator, Environmental Health Officer, Exchange Student, Family Services Officer, Government Officer, Guidance Officer, Higher Education Worker, Human Resource Developer, Human Services Practitioner, Information Officer, Manager, Market Research Manager, Marketing Officer/Manager, Primary School Teacher, Public Relations Officer/Consultant, Public Servant, Research Assistant, Sociologist, Teacher, Youth Worker.
Bachelor of Applied Science/Bachelor of Education (Primary) (IX14)

Year offered: 2008
Admissions: Yes
CRICOS code: 037540M
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,722
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409142
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Dr Mary Ryan (Education)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Course Design
Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers.

Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.
Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

**NO INTAKE INTO THIS COURSE IN 2008**

Students wishing to undertake Dance and Education studies should refer to the entry for the Bachelor of Fine Arts (Dance)KK34/Graduate Diploma in Education ED38 entry.

**Overview**

This double degree qualifies you to teach dance in Australian secondary schools. In the first two years you will study the technique and philosophy of a number of dance styles plus dance analysis, history and sociology, dance composition and basic kinesiology and alignment. Students generally participate in a daily class of various styles. In addition to Dance, you will study a second teaching area, choosing from Drama, Music, English, Film and Media, Geography, History and Languages. In the final two years you concentrate on teacher preparation.

**Additional Entry Requirements**

Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 07 September 2007. Late registrations and submission of materials will not be accepted.

**OP Guarantee**

The OP Guarantee does not apply to this course.

**Career Outcomes**

Graduates of this course are qualified to teach in secondary education with a specialisation in Dance. Graduates may wish to explore the avenues of performance, freelance choreography, dance research and administration.

**Professional Recognition**

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

**Working With Children Check**

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

**Computing Requirement**

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has
consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

**Deferment**

QUT’s deferment policy does not apply to this course.

NO INTAKE INTO THIS COURSE IN 2008.

Students wishing to undertake Drama and Education studies should refer to the entry for the KK33 Bachelor of Creative Industries (Drama) / ED38 Graduate Diploma in Education entry.

General

This four-year double degree qualifies you to teach Drama in schools in Australia and overseas. In the first two years you will undertake units in Drama, blending practice with theoretical concepts strongly focused on developing artistic, organisational and communication skills. In addition to Drama, you study a second teaching area selected from Dance, Music, Visual Art, English, Film and Media Studies, Geography, History and Languages. In the second two years you will concentrate on teacher preparation, equipping yourself through drama curriculum units with the skills necessary to be an effective drama educator.

OP Guarantee

The OP Guarantee does not apply to this course.

Career Outcomes

Graduates are employed as Drama teachers in secondary schools, work with the State Government in education, or as education officers with performing arts companies and in youth arts.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

NO INTAKE INTO THIS COURSE IN 2008

Students wishing to undertake a double Visual Arts and Education program should refer to the entry for the KK34 Bachelor of Fine Arts / ED38 Graduate Diploma in Education.

General
This four-year double degree qualifies you to teach as an art teacher in Australian secondary schools. In the first two years you will undertake practical and theoretical introductory studies about artistic ideas, concepts and aesthetic judgements as well as working in two- and/or three-dimensional media. Studio areas include Painting, Printmaking, and Sculpture with supporting areas of Drawing and Photography. Students study a second teaching area selected from Dance, Drama, Music, English, Film and Media Studies, Geography, History and Languages. In the final two years you will concentrate on teacher preparation, equipping yourself through art curriculum units with the skills to be an effective art educator.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. Applicants will be able to obtain the Visual Arts Application Guide online via addentry.qut.com or by phoning QUT Creative Industries Faculty on 07 3138 8114 in mid July. The final date to lodge the portfolio and other required materials to QUT is 19 October 2007. A $33 service fee applies; applicants applying for more than one Visual Arts course are required to pay only one service fee of $33.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates work as art teachers in secondary schools, are employed by State Government in education, as education officers with community art projects and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

QUT’s deferment policy does not apply to this course.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to
suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements
Applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average of 5 or above, two referee reports and an interview.

International students or applicants from whom English is not the first or native language require an IELTS score of 7.5 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - http://www.psychologyboard.qld.gov.au.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

 Undertaking the supervised psychological practice component of the course requires provisional registration as a probationary psychologist with the Psychologists Board of Queensland.

Other Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit http://bluecard.qut.com.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Course Overview
The course consists of 16 arts units and 16 education units of which the arts component is completed first. Students are required to choose two teaching areas from English, Geography, History, Languages other than English, Social Science and General Science. A third teaching area of Film and Media Studies is permitted. The course prepares graduates to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Drama and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a
fee-paying student.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 07 September 2007. Late registrations and submissions will not be accepted.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October.

Confirmation dates and venues will be posted to registrants after registrations close.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Dance and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include drama, English, languages, mathematics, music, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT's deferment policy does not apply to this course.
Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 19 October 2007. Late submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Visual Arts and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, music, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
New QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a
fee-paying student

Overview
The Creative Industries Faculty has an enviable reputation as a leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts.

In partnership with the Faculty of Education, the Faculty offers four-year degree programs in Dance, Drama, Music or Visual Arts that qualify graduates for registration as teachers and for employment in allied areas.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The due date to register for an audition and lodge additional materials to QUT was 19 October 2007. Late registrations and submissions will not be accepted.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you submit your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Career Opportunities
This four-year dual degree qualifies graduates for registration as secondary teachers in Queensland and for employment in education and related Creative Industries fields.

Course Design
This dual degree is structured to enable you to spend your first three years immersed in Music and then, once completed, proceed seamlessly into 12 months of specialised teacher training in your fourth year.

You will sample life as an educator prior to commencing the fourth year with foundation units in education studies which will include practical school-based field experience.

You will also have the opportunity to choose minor studies in one other discipline during your first three years which will give you the advantage of being able to undertake study in a second teaching area and increase your teaching options. There are a large number of available second teaching areas which include dance, drama, English, languages, mathematics, visual arts, business, social sciences and science education.

Why choose this course?
The Creative Industries Faculty and its partner the Faculty of Education have an enviable reputation, developed over almost 50 years, as the leading provider in Queensland of outstanding teacher practitioners in the visual and performing arts. This course, introduced for the first time in 2008, combines in-depth training in creative industries and education.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland. Graduates looking for teaching employment in other parts of Australia and overseas may be required to meet additional conditions.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

OVERVIEW

The QUT Faculty of Health aims to make significant contributions to the improvement of human health and wellbeing and the development of Australia's healthcare policy and services through our teaching, research and service activities.

The Faculty of Health is at the forefront of educating professionals in a range of allied health areas.

The Faculty of Health has a strong research focus and is actively engaged in continuing education and community service. The Faculty has more than 5000 students enrolled in undergraduate and postgraduate programs, which are delivered through six discipline-based areas: Human Movement Studies, Nursing, Optometry, Psychology and Counselling, Public Health, and Social Work and Human Services.

Human Movement Studies offers programs that respond to the increasing community awareness of health, exercise, wellbeing, and fitness. A degree in Human Movement Studies equips graduates with the knowledge and skills for an active career in physical education, health education, rehabilitation, weight management, or exercise and sports science. Students apply their knowledge in supervised placements either off-campus or in the purpose-built clinical facility on campus.

QUT's School of Nursing is Queensland's oldest provider of nursing education. Always at the cutting-edge of its field, the School offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. Nursing graduates go on to work in a range of areas, including and beyond the traditional hospital ward. The School offers undergraduate programs in nursing, and nursing and midwifery as well as specialised postgraduate coursework and research programs.

Queensland's only Optometry training facility is located at QUT. The optometry degree prepares graduates for entry into the professional workforce and for Australia-wide registration. Students apply their knowledge through supervised clinical practice both in the School's purpose-built public optometry clinic and in community healthcare settings. A Graduate Certificate in Ocular Therapeutics is available. Postgraduate research programs are offered at Masters and PhD level.

Psychology and Counselling is located on QUT's spacious bushland campus at Carseldine. The School offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Programs provide students with the opportunity to gain practical qualifications that are well regarded in the community. The Bachelor of Behavioural Science (Psychology) is a three-year degree program that prepares graduates for further studies in psychology and for employment in a number of fields. Graduates aiming for professional registration may seek admission to a fourth year of study in either the Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology. Double degree programs are also available with Business and Law, providing students with a dual focus and extended employment opportunities. The School's postgraduate offerings include masters in counselling, clinical psychology and educational and developmental psychology, and a doctorate in clinical psychology. Postgraduate students have the opportunity to practice in the Psychology Clinic and a Family Therapy and Counselling Clinic.

Research programs are available at Masters and PhD level. A graduate certificate and graduate diploma in road safety is also available for those seeking qualifications in this specialist area.

Public Health is the most diverse of the Faculty's schools, offering undergraduate majors in podiatry, nutrition and dietetics, health information management, health services management, paramedic and public health. A range of articulated postgraduate programs is also offered in a number of specialised fields such as environmental health, health promotion, occupational health and safety, risk management, health services management, public health and health science.

Staff in the Faculty of Health maintain excellent ties with the health industry and work closely with national and international health and welfare organisations. These industry linkages ensure that the Faculty's programs deliver relevant skills and respond rapidly to emerging needs in health education in an era of advancing health technology.

A suite of Social Work and Human Services courses is available for those seeking employment in service and organisational settings including health and disability agencies, aged services, income support, child protection, juvenile justice, community programs, youth services, corrections, family support, counselling, international aid and development and social policy. The Human Services course is also offered as a double degree with Arts, Justice and Creative Industries to broaden career opportunities for graduates. Postgraduate programs in Human Services include a Graduate Certificate, Graduate Diploma and a Masters degree. Research programs are also available.

The Faculty of Health is headquartered at QUT's Kelvin Grove campus. At Kelvin Grove campus, three purpose-built complexes house state-of-the-art facilities including:

- teaching clinics for podiatry, optometry and human movement studies (children's activity and weight management programs, balance and gait assessment, health and fitness appraisals, and exercise prescriptions)
- a nursing clinical practice unit with operational hospital rooms and a clinical suite
- human movement laboratories for biomechanics, exercise physiology, motor control, and functional anatomy
- student computer laboratories with the latest in general and health-related software
- multimedia lecture theatres and tutorial rooms
- fully equipped research laboratories.

At the Caboolture campus a new nursing centre opens in 2008 to provide clinical practice facilities for nursing students studying at this campus.

**RESEARCH CENTRES**

Centre for Health Research

Research in the Faculty of Health is multidisciplinary, fostering collaboration and groundbreaking research across a number of health-related areas. The Faculty of Health is also involved in the Institute of Health and Biomedical Innovation (IHBI) which integrates Australia’s most creative minds in Health, Science and Biomedical Engineering research. The key strengths of the Faculty of Health are:

**Ageing**

The effect of an ageing population has been identified as a global health and social issue. Research questions related to both the impact of age-related disease and successful ageing underpin current research projects in the Faculty of Health. Research activities in this area relate to community and residential care; dementia; pain and symptom management; palliative care; ocular disease and the effects of vision impairment; foot health; gait; mobility and posture analysis; disorders of movement; injury in older people; social identity; families; mental health; nutrition; cognition and cognitive/memory deficit; the older driver; the older worker; and active ageing.

**Physical Activity**

The role of physical activity in the maintenance and restoration of health is a significant emerging area. There is increasing evidence of the role of physical activity in the prevention, treatment and management of a range of chronic disorders. Research in this area is aimed at the promotion of physical activity during childhood and adolescence and the prescription of exercise in the context of chronic disease, and at community-based health behaviour interventions. Research into prevention and rehabilitation of occupational and sporting injuries requires assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on highrisk groups and prevention of older people’s injuries. Other research into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease, and sleep apnoea is also being conducted.

**Human Health and Wellbeing**

Research activities in this area relate to health services, policy and management, and population health. Areas of strength include the management of chronic diseases such as cancer, diabetes, obesity, coronary heart disease, and other emerging health conditions. These include quality of life and resilience; improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; health-promoting schools and early childhood environments; and
prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention, development and implementation of nutrition assessment and screening tools, and evaluation of nutritional status.

Human Behaviour
Research in human behaviour embraces fundamental social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision making, child and adolescent development, memory, psycholinguistics, and the development of reading. Opportunities include research in addictive behaviour, eating, exercise, organic mental disorder, and health promotion. A range of research methods has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy, and counselling supervision.

Vision
Vision research provides an important resource for the community, industry, government and eye-care professions. There is a number of areas of collaboration with research activities in the other programs and across faculties deriving from the main research activities in this program which are visual optics, including aberrations of the eye and their correction; lens design and performance; myopia and optics of the eye; visual performance studies, including vision rehabilitation, vision and driving, and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electroretinography.

Centre for Accident Research and Road Safety (CARRS-Q)
Accident and Injury Prevention Research
Road safety and workplace accident prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety–Queensland (CARRS–Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre’s charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on roads, in workplaces and in communities. The Centre aims to strengthen and broaden research and intervention development in the areas of vulnerable road users; illegal and high-risk behaviours; the human behaviour and technology interface; school and community-based road safety education; and workplace safety.

Institute of Health and Biomedical Innovation
How does your mind and body work?
Can you protect yourself from injury or illness?
What are the health care and treatment options?

The answers are not always available. Through research, IHBI is developing solutions that were previously unimaginable.

The Institute of Health and Biomedical Innovation (IHBI) integrates Australia’s most creative minds in health, science and biomedical engineering.

IHBI takes a novel approach to solving health problems where there are no barriers and nothing is set in stone. IHBI researchers work at the interfaces between traditional scientific disciplines to solve the issues affecting the wellbeing of Australia and neighbouring communities.

Opening in 2006, IHBI is based in a progressive $70-million facility at the Kelvin Grove Urban Village in Brisbane, Australia. IHBI is the result of collaboration between QUT, The Atlantic Philanthropies and the Queensland Government.

IHBI researchers, students and professional staff are organised into flexible teams able to apply their collective expertise to critical health issues.

Postgraduate training is a core element of IHBI’s mission and the Institute offers world-class career opportunities across the spectrum of health, science and biomedical engineering research. Postgraduate students enrol in QUT through one of the faculties and are then able to conduct research through IHBI according to the nature of their projects. The research programs at IHBI are organised into six research domains including:

Cells and Tissue Domain
Investigating and restoring functionality to damaged human tissue: skin, muscles, bones, joints and eyes.

Tropical Crops and Biocommodities Domain
Growing plants that produce beneficial materials for human nutrition and therapy.

Vision Improvement
Caring for the eyes by advancing the techniques used to correct and maintain clear sight.

Medical Device Domain
Developing technologies to assist practitioners diagnose illness and injuries more accurately.

Human Health and Wellbeing Domain
Exploring critical health issues (e.g. ageing and chronic disease) and designing better community healthcare options.

Injury Prevention and Rehabilitation
Analysing and modifying human behaviour to avoid dangerous situations and developing strategies for damage recovery.

The Institute’s business is promoting health and biomedical innovations in the community as well as in industry. The commercial outcomes of IHBI research generate new products and companies. IHBI facilitates the transfer of new knowledge into public policy, which leads to an improved health care industry. For more information visit www.ihbi.qut.edu.au

Course Outline
The Bachelor of Human Services has a strong focus on contemporary social issues and produces competent human services workers who will care for and protect the rights of people, families and communities. You will complete 24 units of study.

You will specialise in at least one service area:
- aged services
- child and family services
- corrective services
- disability services
- services to young people

You will develop a range of professional skills such as:
- casework and case management
- social policy processes
- team practice and group processes
- community work
- crisis and conflict resolution
- social research methods
- Indigenous Australia
- child protection intervention

Professional Practice Placements
You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Service Contexts

AGED SERVICES
Aged services units will focus your attention on the historical, social, and cultural scene within which services to older adults operate; aspects of intelligence, memory and learning in relation to ageing; and perspectives of work and retirement. You will investigate the home environment and living with change, relations with family members, and dealing with death and grief. You will explore issues around the health and wellness status of older adults and will investigate the needs of this group of people as they grow older in the Australian environment. Throughout this unit you will develop a critical awareness of practice issues and the impact of ethical considerations.

CHILD AND FAMILY SERVICES
Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES
In corrective services units you will examine contemporary issues and practices in corrective services through empirical data and current corrective services practices. You will explore the function of prisons, prisoner rehabilitation, criminal behaviour trends, capital punishment, juvenile justice, the future of prisons, victims of crime, and restorative justice. You will develop critical-thinking and problem-solving skills as well as strategies to prepare you for employment within corrective services.

DISABILITY SERVICES
Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to
explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE
These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.

Professional Membership
Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Reaccreditation application is currently in process).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
The social work program at QUT is committed to promoting an inclusive society based on principles of social justice, empowerment and human rights. The combination of course work and field education is geared to developing an effective and ethically responsible professional who can apply disciplinary knowledge and theory using a variety of intervention processes and methods to everyday practice realities and contexts in a way that enhances the rights, worth, wellbeing and dignity of people.

Course Structure
The Bachelor of Social Work can be undertaken as either a four year undergraduate program or as an advanced standing two year program following two years of approved undergraduate study. Students will complete specialist units in child and family services, aged services, corrective services, disability services, or services to young people. Distinctive study pathways are also available. The child protection pathway will enable students to choose core and elective units which will best prepare them for practice in statutory child protection settings such as the Queensland Department of Child Safety. The international practice pathway will provide students with the knowledge and opportunity to undertake social work practice in other national contexts, and give them priority in undertaking a major placement in an overseas agency. The research pathway provides students with the knowledge and skills to undertake research designed to improve services and creates a solid foundation for postgraduate research programs. The social work program involves two placements, each of 490 hours, where the student's skills are further developed in real world settings. Students are able to graduate with honours on the basis of achieving a GPA of a certain standard.

ADDITIONAL SUMMER ENROLMENT COURSE

Requirements for all advanced standing students (February and July) and 4 year program mid-year entry students

HHB338 Social Work Practice and Fieldwork 1 and HHB339 Linking Social Work Theory, Ethics and Practice 1 are scheduled outside of semester (during the Summer teaching period) and students enrolled in these units will need to be available at that time to complete these units.

Career Outcomes
Social Workers are employed in a wide variety of service and organisational settings in Australia and overseas, both government and non-government. These include social work in health and disability agencies, income support, child protection, juvenile justice, community programs, youth services, corrections, family support, counselling, international aid and development and social policy.

Blue Card
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Recognition
Graduates are eligible to apply for membership of the Australian Association of Social Workers (AASW).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course Structure
This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements
As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Overview
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements
For QUT applicants graduating from the Bachelor of Human Services the following is required:

- an overall grade point average of 5; and
- a grade of 5 for the subject HHB117 Introduction to Social Research Methods.

For applicants graduating from other degrees the following is normally required:
- an overall grade point average of 5; and
- completion of at least eight units out of 16 at the second-and third-year level in human service subjects or their equivalent with a grade of 5 in at least two of these subjects.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure
The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework unit Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time Course Structure
Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Overview
If you are an employee in the community services industry, this course will help you respond to industry restructuring. It will give you a comprehensive understanding of new styles of service delivery, and upgrade your professional and management skills, preparing you for leadership of human services agencies. If you hold an undergraduate degree in psychology, education, nursing or related professions and are seeking employment in human services, this course will provide you with core knowledge and skills in a range of practice fields.

Entry requirements
Applicants must have:

- a three year undergraduate degree in human services or social work; or

- a three-year non-human services undergraduate degree with at least one year of demonstrated employment experience in the community service industry or related occupations such as teaching, nursing or allied health, community development, psychology or law.

Alternatively, students with at least five years of experience in the human services industry who can establish to the satisfaction of the course coordinator that they have accumulated the requisite academic capacity to function at a postgraduate level will be accepted into the Graduate Certificate. Capacity may be established by presenting reports or a submission prepared.

New initiative - Health Professional Education study option

From second semester 2008 a new part-time study option, Health Professional Education, will be available to students enrolled in the Graduate Certificate in Health Science.

Students entering the program in 2008 will undertake EDN630 Higher Education: Curriculum Design, Assessment and Evaluation and an elective in second semester 2008, and EDN626 Learning and Teaching in Higher Education plus a new unit Clinical Education in Health in first semester 2009.

University approval is being sought to have study areas available in HL38 from 2009 and, if approval is given, Health Professional Education will become a study area in the program.

Overview

The course provides a broad range of options for study at the Graduate Certificate level. Students can select four (4) units from across a range of Faculty of Health units. It is designed for students who do not want to specialise but prefer to select a combination of units to meet their needs. Selection of units is subject to approval by the course coordinator.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and online learning.

Entry Requirements

Students must hold an appropriate bachelor degree or other qualifications/work experience acceptable to the Executive Dean.

Course Structure

Students are required to complete any four units (totalling 48 credit points) from List A. No more than two (24 credit points) senior undergraduate units can be included in the total.

Course Articulation

This course articulates fully into the Graduate Diploma in Health Science and the Master of Health Science

Special Note

Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduands to practice in these areas.

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Overview
This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in nursing and is able to apply your knowledge and skills to clinical health, fitness and rehabilitation.

Why choose this course?
QUT has the longest running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course.

The course provides a good balance of nursing theory and practice and supporting studies in biological, behavioural and social science, and the humanities, together with studies in human movement relevant to many health care settings.

Career Outcomes
This double degree prepares multi-skilled professionals who meet current requirements for employment in the area of nursing and, in addition, can apply their knowledge and skills in exercise and sports science settings.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership
The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au

Graduates are also eligible for membership of the Australian Association for Exercise and Sports Science.

Recommended Study
Any of Maths B or C, Biological Science, Chemistry, Health Education, Physical Education or Physics.

Other Course Requirements
The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. You will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units and you are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1. Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

The human movement studies component requires the purchase of the practicum shirt (approximately $50). Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

blue card Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Further Information
For detailed information about this double degree, please call the School of Nursing +617 3138 3824 or email nursing.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Overview
This double degree program will prepare you as a multi-skilled professional who meets current requirements for employment as a nutritionist/dietitian, and in a range of exercise and sports science professions. At present, the demand for sports nutritionists is growing rapidly and there is a growing field in the area of rehabilitation science for people with dual qualifications.

Why choose this course?
This double degree will prepare you for a career in the exercise, health, rehabilitation, nutrition and dietetics, and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background, complemented by practical skills obtained from a variety of practicum placements. Practicum locations can include placements in rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, or the health and fitness industry. Opportunities exist to pursue these practicum placements at local, state, national and international locations.

Career Outcomes
Career settings include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, health and fitness industry, and personal training.

Professional Membership
Graduates are eligible for membership of the Dietitians Association of Australia (DAA), and may enrol in the Accredited Practising Dietitian (APD) program. Graduates are also eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS) with specialist accreditation as exercise physiologists.

Honours
A degree with honours may be awarded to a student who has recorded outstanding achievement in a component of the double degree program.

Other Course Requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), attainment of a current first aid certificate prior to the commencement of your third year, and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students who are required to undertake placements off-campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination is required before placement in Queensland Health facilities.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and
accepted to continue as a fee-paying student.

Undergraduate domestic full fee places (Dfee) are not available in this course.

Overview
This double degree will prepare you to be a multi-skilled professional who meets current requirements for employment as a podiatrist and in a range of exercise and sports science professions.

Why choose this course?
This double degree will prepare you for a career in the exercise, health, rehabilitation, podiatry and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background, complemented by practical skills obtained from a variety of practicum placements. Practicum locations can include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, and the health and fitness industry. Opportunities exist to pursue these practicum placements at local, state, national and international locations.

Career Options
Career settings include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, health and fitness industry, and personal training. There is a growing demand in the area of rehabilitation science for people with dual qualifications.

Honours
A degree with honours may be awarded to a student who has recorded outstanding achievement in a component of the double degree program.

Professional Membership
Graduates are eligible for membership of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA). Graduates are also eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS) with specialist accreditation as exercise physiologists.

OP Guarantee
The OP Guarantee does not apply to this program.

Other Course Requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50) for the human movement studies component, attainment of a current first aid certificate prior to the commencement of third year, and a Blue Card to work with children depending upon the practicum site. **Overview**
This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in the area of nursing and is able to apply knowledge of public health.

**Why choose this course?**
Graduates of this double degree develop skills in the complementary areas of nursing and public health. Not only are graduates eligible for Queensland Nursing Council registration, but they also develop skills in public health areas such as Indigenous health, population health problems and risk factors for illness.

**Career Options**
Graduates will find employment in various health care settings or health promotion agencies.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

**Professional Membership**
The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au. Graduates are also eligible for membership of the Public Health Association of Australia and the Australian Association of Health Promotion Professionals (AAHPP).

**Other Course Requirements**
The clinical practice units require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice at a cost of approximately $150. As part of the nursing program, you will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units. You will also be required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

**blue card** Students must undergo a criminal history check and be issued with a Blue Card prior to undertaking clinical practice in an organisation which may involve contact with children and young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

**Deferment**
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Overview
This double degree program will prepare you as a multi-skilled professional who will have an understanding of exercise and sports science and public health. Graduates may work in the area of physical activity to develop policy and programs to improve the health of the public and to help prevent and manage chronic disease.

The human movement studies component develops skills for careers in health and wellness, clinical health, fitness and rehabilitation, workplace health, fitness and safety. Teaching clinics give students practical experience in various areas such as activity and weight management, health and fitness, and exercise prescription.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population’s health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?
With the percentage of the Australian population with preventable chronic diseases such as diabetes, obesity and heart disease growing, there is a demand for graduates who can use their skills to address these health issues. Graduates from the double degree will have skills in the two complementary areas of population health and physical activity so they can contribute effectively to improving the health of Australian communities.

Human Movement Studies
The course provides skills and theoretical knowledge across the basic sciences of human and functional anatomy, exercise physiology as well as studies in biomechanics, motor learning and control, and exercise and sports psychology.

Public Health
The course provides knowledge and skills to address major health issues with a focus on community health, nutrition, and health promotion. During the course students will study epidemiology, biostatistics, health promotion, understanding disease, culture, psychology and health behaviours.

Career Outcomes
Graduates of the double degree may work in local and state government and in family and community service organisations, as physical activity program planners, policy analysts, project managers, health promotion officers, and physical activity program evaluators.

Human Movement Studies
Graduates can work in a range of exercise and sports science settings such as corporate health, family and community services, the health and fitness industry, local/state government agencies, state sporting associations, institutes of sport, universities and colleges, and personal training.

Public Health
Graduates work as community health officers, policy officers, program evaluators, health promotion officers in community health, project officers, and consultants. They work in both public and private sectors such as state and federal health departments, population health units, community health centres, divisions of general practice, nongovernment and health organisations, and international health agencies.

Professional Membership
Australian Association of Exercise and Sports Science (AAESS); Public Health Association of Australia (PHAA), and the Australian Health Promotion Association (AHPA).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, audtions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Overview
The honours programs enable you to develop knowledge, problem-solving and conceptual skills at an advanced level. The programs provide you with education in the techniques and skills for later postgraduate research and enhance professional career progressions.

Entry requirements
Applicants should have completed QUT's Bachelor of Nursing or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Dissertation
The dissertation is one 48 credit point unit representing 50 per cent of the program. Preparation and presentation of the dissertation in completed under the guidance of a supervisor and is examined externally.

International Student Entry
International students may enrol only in full-time studies.

Overview

The Honours programs enable you to develop knowledge, problem-solving and conceptual skills at an advanced level. The programs provide you with education in the techniques and skills for later postgraduate research and enhance professional career progressions.

Entry requirements

Applicants should have completed QUT's Bachelor of Applied Science/ Bachelor of Health Science in a relevant area or equivalent and have attained a grade point average (GPA) of at least 5 overall in the undergraduate degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Dissertation

The dissertation is one 48 credit point unit representing 50 per cent of the program. Preparation and presentation of the dissertation in completed under the guidance of a supervisor and is examined externally.

International Student Entry

International students may enrol only in full-time studies.

Overview
This course comprises the first two semesters of the Master of Health Science. The course is designed to enhance professional development in a range of specialisations. Cross-specialisation is also possible. To qualify for the award of a major, students must complete 48 credit points (four units) of advanced study in that area.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and online learning.

Entry requirements
To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean of Faculty, which may include substantial work experience or involvement in relevant research activities.

Majors
Majors are offered in the following areas:

- Aged care
- Environmental Health
- Health Services Management
- Health Promotion
- Risk management
- Women's health
- or a cross specialisation (where no major is taken but students study across a variety of fields).

To complete a major, students must complete at least four units from the same discipline area from with the Faculty of Health.

Students can only graduate with one specified major (i.e. only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students wishing to complete a graduate diploma qualification in Occupational Health and Safety should apply for entry into the Graduate Diploma in Occupational Health and Safety and not the Graduate Diploma in Health Science.

Course Structure
The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by schools within the Faculty of Health (List A units). No more than two (24 credit points) advanced undergraduate health units can be included in the total.

Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, for example, Graduate Diploma in Health Science (Health Promotion).

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course coordinator.

Course Articulation
This course articulates fully into the Master of Health Science.

The Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

Special Note
Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduates to practice in these areas.

Students can graduate with one specified major only.

International Student Entry
International students may enrol only in full-time studies and only onshore.

Master of Applied Science (Research) (HL84)

Year offered: 2008
Admissions: Yes
CRICOS code: 007897G
Course duration (full-time): 1-2 years
Course duration (part-time): 3 years
Course duration (external): 3 years
Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (exceeded max. entitlement)
International Fees (per semester): 2008: $9,504 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Course coordinator: Professor Mary Courtney
Campus: Kelvin Grove

Entry requirements
A bachelor degree in health science, applied science or other approved degree from QUT with a grade point average of at least 5 (on a 7-point scale), or an equivalent qualification, or submission of such other evidence of qualifications as will satisfy the academic board that the applicant possesses the capacity to pursue the course of study.

Application for Admission
The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee.

Applications for admission should set out in full the candidate's intended course of study. The proposed course of study should include the area of study, the coursework to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School in which the proposed research program is to be undertaken.

Course Structure
Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program. The course of study normally includes a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation. The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

Course Coordination
Students undertake their program of research through one of the Faculty's five schools. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant school prior to submitting an application.

Course Duration
The length of the course will vary depending on the applicants' qualifications on admission and their progress during the course. The minimum period of enrolment in the program is:
- 1.5 years for a full-time student with a three year undergraduate degree, or
- one year for a full-time student with a four year undergraduate degree, including honours or other relevant programs (including key research methods, literature review foundations and other coursework requirements), or
- one semester for a full-time student transferring from another higher degree research program.

The maximum period of enrolment for a full-time student is 2 years or equivalent (2 EFTSL).

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Thomas Tenkate
Campus: Gardens Point and Kelvin Grove

Overview
This course develops advanced knowledge and skills in a choice of health science disciplines. Its flexible design allows you a large choice of elective units to provide: specialisation in a professional discipline, cross-specialisation (with appropriate academic approval), or a broad understanding of health-related disciplines.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and transfer of material via the internet. This course is not available to international students who wish to study off-shore.

Entry requirements
To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year Bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean, which may include substantial work experience or involvement in relevant research activities.

It is normally expected that candidates have attained a minimum GPA of 5.0 in the bachelor qualification. Candidates not meeting this requirement must provide additional information to support special admission.

Majors
Majors are offered in the following areas:
- Aged Care
- Environmental Health
- Health Promotion
- Health Services Management
- Occupational Health and Safety
- Risk Management
- Women’s Health
- or a cross-specialisation (where no major is taken, but students study across a variety of fields).

To complete a major, students must complete at least four units from the same discipline area from within the Faculty of Health.

Course Structure
The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

Course Articulation
Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

The Graduate Certificate in Health Science, the Graduate Diploma in Health Science and the Graduate Diploma in Occupational Health and Safety, fully articulate into the Master of Health Science.

The Graduate Diploma in Nursing and the Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards the Master of Health Science. No advanced standing will be granted towards the Graduate Certificate in Health Science or the Graduate Diploma in Health Science. This is in addition to any List A units completed.

The following courses also articulate with the Master of Health Science:
- Graduate Certificate in Aged Care
- Graduate Certificate in Ambulance Management (QAS)
- Graduate Certificate in Community Practice
- Graduate Certificate in Environmental Health
- Graduate Certificate in Health Management (QH)
- Graduate Certificate in Health Promotion
- Graduate Certificate in Health Services Management
Special Notes
Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Occupational Health and Safety unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

Completion of units in Occupational Health and Safety or Environmental Health does not qualify graduates to practice in these areas.

International Student Entry
International students may enrol only in full-time studies and may study only onshore.

Course duration (full-time): 3 Years
Course duration (part-time): 6 Years

Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (exceeded max entitlements)
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February

Total credit points: 288 (96 coursework credit points and 192 research portfolio credit points)
Standard credit points per full-time semester: 48 (average)
Course coordinator: Dr Elizabeth Parker
Campus: Kelvin Grove

Overview
This course is designed to develop the knowledge, skills and generic attributes that will prepare health professionals for advanced positions in their profession and for leadership roles.

Students will develop an in-depth understanding of contemporary health science; extend competence in research methods; demonstrate high-level critical thinking and reflective practice skills; enhance their communication skills and contribute to the body of knowledge underpinning their profession.

Students complete one year full time equivalent of coursework including research methods units and advanced studies in an area of specialisation followed by a single or series of research workplace based or industry linked projects to complete the research work which may be presented as a thesis or portfolio.

Entry requirements
Applicants should hold a four-year degree or its equivalent with first-class honours or second-class honours division A, relevant Masters degree, or its equivalent from QUT or another recognised institution, and two years of practice in a position of professional responsibility appropriate to the proposed course of study.

If, in the Executive Dean's opinion, the candidate has not completed substantial professional practice, the candidate will be required to gain substantial professional experience during the course of the doctorate.

Application for Admission
Before submitting an application, potential candidates should contact the Course Coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying any specified documentation. The application should be accompanied by a brief proposal for the course of study and the research field.

Advanced Standing and Articulation
Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

The Doctor of Health Science will fully articulate with the Master of Health Science and students who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

Course Structure
Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students must:
- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from this major study area plus one approved elective unit or complete five units from this major study area.

Students are required to attend a compulsory residential program of three days annually during their candidature.

International Student Entry
International students may enrol only in February in full-time studies.

Overview
Human movement studies graduates work in a diverse range of settings as exercise physiologists, sports administrators, exercise therapists, strength and conditioning specialists and rehabilitation specialists.

Why choose this course?
Human movement studies is a pathway to a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions. This course will provide you with both the necessary theoretical background and practical skills obtained from a variety of practicum placements at local, state, national and international locations. You can complement your degree with a choice of elective opportunities from within the Faculty or university-wide.

Career Options
The course provides skills for careers in a range of exercise and sports science professions. Career settings include:
- rehabilitation and hospital clinics
- family and community services
- corporate health and fitness
- local and state government agencies
- universities and colleges
- institutes of sport
- the health and fitness industry
- personal training.

Professional Membership

Graduates are eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS). This four-year degree will qualify you for exercise physiologist classification by the professional body.

Electives
Electives are available in various areas including psychology of rehabilitation, anatomy, physiology, biomechanics, motor control and learning, children in sport, sociology of sport and exercise prescription. Students must choose at least 4 out of the 6 units listed in LIST A. The remaining 5 units can be selected from either the remaining 2 units in LIST A and any 3 from the units in LIST B, or any units from LIST B, or from any approved discipline within QUT (with course coordinator's approval).

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Recommended Study
One of Maths B, Maths C, Biological Science, Chemistry, Physics, Health Education or Physical Education.

Other course requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

additional costs
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
This three-year degree course combines the complementary areas of human movement studies and nutrition.

Why choose this course?
This degree will provide you with a foundation for a career in the exercise, health, fitness and nutrition industries.

The degree also provides you with a range of practical experience, including 100 hours of work experience (practicum) in the third year. This is a valuable opportunity for you to gain hands-on experience in the industry. You can work in fitness centres, sport associations and other related organisations.

Career options
Graduates may find employment in the area of nutrition as well as in a range of health and fitness settings such as community services, the health and fitness industry and local and state government.

Graduates are not qualified as dietitians or exercise physiologists.

Other course requirements

Overview
In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Why choose this course?
The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with research and statistical methods that have wide applicability in psychology and other disciplines. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist, or seek postgraduate studies in psychology or other disciplines.

Career Options
The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

Recommended Study
Maths A, B or C is recommended.

Psychology Electives
Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

Professional Membership
The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Development).

Other Course Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Overview
Doctoral programs in the Faculty of Health provide in-depth research training in a particular area of health while broadening a candidate's knowledge in one or more of the following discipline areas: ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Students enrol in one of the five schools in the Faculty of Health: Nursing, Human Movement Studies, Optometry, Psychology and Counselling, or Public Health.

Entry requirements
Applicants must hold a relevant first or second-class division A (upper division) honours degree or an appropriate masters degree. In addition, international students must meet English language proficiency requirements.

Course Structure
Candidates undertake a supervised program of research and investigation that results in the submission of a thesis. The program of study may be supported by some coursework related to the conduct of research and preparation of the thesis. Candidates are required to have regular interaction with supervisors and to participate in University scholarly activities such as research seminars, events and training.

Doctoral studies may be completed in any area of research interest supported by the Faculty of Health. Current areas include

- Movement coordination and control
- Injury prevention and Rehabilitation
- Fitness, health and wellbeing
- Prevention and management of chronic disease
- Physical education
- Nursing research
- Cornea and contact lens
- Optical and visual performance
- Psychological therapies and counselling
- Social, cognitive and developmental processes
- Physical and psychological health
- Road Safety and traffic psychology
- Disease prevention and management

International Student Entry
QUT advises that international students may enrol only in full-time studies.

**Total credit points:** 48  
**Standard credit points per part-time semester:** 24  
**Course coordinator:** Dr Thomas Tenkate  
**Campus:** Kelvin Grove

**Overview**  
This course equips graduates with problem solving and information management skills that will enable them to apply their specialist background knowledge in the field of risk management. It is designed to draw on real issues that face professionals across a wide variety of settings.

The demand for risk managers has grown exponentially in recent times. This course provides students with opportunities to broaden their skills in this growing profession.

**Entry requirements**  
Applicants should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Special entry can be considered if a student has experience and responsibility in risk management. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

**Course Structure**  
Students complete four specified units part-time over two semesters. This course is offered by external study only.

**Professional Accreditation**  
Graduates of this course are eligible to apply for Certified Practising Risk Management (CPRM) accreditation with the Risk Management Institute of Australia.

**Course Articulation**  
This course fully articulates into the Master of Health Science.

**International Student Entry**  
This course is not available to international students.

**Further information**  
For more information about this course, please contact the School of Public Health on +617 3138 5878 or email sph.studentcentre@qut.edu.au

Overview
This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?
This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition
Graduates are eligible for registration as a teacher in Queensland. Graduates will also satisfy the requirements for membership of the Australian Association for Exercise and Sports Science (AAESS).

Other Course Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

additional costs There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current First Aid Certificate prior to the commencement of third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

computing requirement The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study
any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements
Applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution.
A minimum requirement for eligibility for entry is a grade point average of 5 or above, two referee reports and an interview.

International students or applicants from whom English is not the first or native language require an IELTS score of 7.5 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - http://www.psychologyboard.qld.gov.au.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Overview
This double degree combines the strength of general business theory and skills as well as units specifically related to managing health services.

Why choose this course?
The degree will provide you with the theory and skills to manage change effectively in the health care system. You will gain a strong background of theory and practice to enable you to work effectively in the complex environment of health care and be influential in terms of decision making.

Career Options
Health Service Management graduates are employed in administrative and management capacities in private and public health services. Such services include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Your business degree will give you a broader base of commercial knowledge, making you more attractive to employers in these environments. You also have the opportunity to major in a specific business area to strengthen your career choices. For more information on careers in business, please refer to studyfinder.qut.com

Professional recognition
Both degrees allow you to satisfy the requirements of membership for the relevant professional bodies. The Bachelor of Health Science (Health Services Management) degree may allow graduates, subject to unit selection, to satisfy the academic requirements for membership of the Australian College of Health Service Executives (ACHSE) and other professional associations.

Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Please refer to the Faculty of Business prospectus or studyfinder.qut.com for more information on recognition for graduates from the Bachelor of Business component.

Course Design
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Health Science program and 192 credit points from the Bachelor of Business program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
The course consists of 16 human services units and 16 creative industries units, and the program is integrated so that you will study both human services and creative industries units in each semester. In human services you may choose to focus on corrective, disability, aged, youth, or child and family services. You will also study a range of professional skills and then gain practical experience through professional practice placements in government or community organisations. For your creative industries major you may choose either drama or interdisciplinary.

Career Outcomes
This double degree prepares you as a multiskilled professional for careers in child safety and a range of welfare and community services. In particular you will have a set of skills which will be suitable for areas which combine human services and creative skills, for example, community development and cultural services, and youth arts.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Creative Industries and Human Services) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from a Creative Industries major (either Drama or Interdisciplinary) and 24 credit points of elective units.

The Human Services component is made up of 144 credit points of Faculty core units and 48 credit points of units from selected Human Services units.

Professional Recognition (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers. (Accreditation application in process).

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
Working With Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

Career opportunities
Career opportunities include human service worker, aged, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Accreditation application in process).

Overview
This double degree combines training for careers in a range of exercise and sports science settings with the strength of general business theory and skills.

Why choose this course?
This double degree will prepare you for a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background and practical skills obtained from a variety of practicum placements. Practicum locations can include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, and the health and fitness industry.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training.

Your business degree will give you a broad base of commercial knowledge making you more attractive to employers, even if you wish to work predominantly in the health science area. You also have the opportunity to major in a specific business area. For more information on careers in business, please refer to the Faculty of Business prospectus or visit studyfinder.qut.com.

Professional Recognition
Graduates of the Bachelor of Applied Science (in Human Movement Studies) degree are eligible for membership of the Australian Association for Exercise and Sports Science (AAESS). Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Course Design
Students are required to complete 408 credit points comprised of 216 credit points from the Bachelor of Applied Science (in Human Movement Studies) program and 192 credit points from the Bachelor of Business program.

Recommended Study
Any of: Maths B or C, Chemistry, Physics, Biological Science, Health Education, Physical Education, or Health and Physical Education.

Other Course Requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to commencement of year three and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

Overview
This exciting new double degrees will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. The degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people’s health and their lives.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The nutrition component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition, food studies, anatomy and physiology, nutritional science and nutrition education. The course has innovative and integrated industry placement options for practicum experience.

Why choose this course?

Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication
The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Nutrition
The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

Career Outcomes
Graduates of the double degree may work as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication
Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Nutrition
Graduates work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from Media and Communication units and up to 24 credit points of elective units.

The Nutrition component is made up of 192 credit points of
specified Health Science units.

Professional Membership
Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Overview
This exciting new double degree will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. This degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people's health and their lives. The course has innovative and integrated industry placement options for practicum experience.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population's health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?
Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication
The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Public Health
The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

The course has innovative and integrated industry placement options for practicum experience.

Career Outcomes
This double degree prepares graduates as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication
Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Public Health
Graduates may also work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Creative Industries and Health Science) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from Media and Communication units and up to 24 credit points of elective units.

The Health Science component is made up of 180 credit points of specified Health Science units and a 12 credit...
point elective.

**Professional Membership**
Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

**Deferment**
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Domestic student tuition fee (Dfee) places**
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Overview
A double degree in business and psychology will prepare you to understand both the business and psychological forces that impact on organisations, both nationally and internationally. You will graduate with a solid understanding of human behaviour and how to apply this to organisational settings. You will also gain research and business skills that you can apply across a range of organisational and industrial situations.

Why choose this course
The course provides a thorough grounding in the scientific bases of psychology, and deals with the research and statistical methods used in the discipline. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. There is also the opportunity to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

The course offers you the flexibility to choose a business major in the discipline that most interests you, for example, accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing or public relations.

Your studies in business are built around a core of values that focus on employability and incorporate professional, business, as well as industry links. During your studies, you will be encouraged to undertake real-world projects to help you develop your skills.

You will also develop an understanding of society and high-level communication and social research skills that are valuable in a wide range of professions. While studying, you are exposed to the range of job opportunities in external organisations and industry and will be encouraged to undertake real-world projects.

Career options
You can choose to work in various careers in industry and the corporate world such as human resources and management, finance and banking, as well as marketing and accounting. With further psychology training, you would be eligible to work as an organisational or industrial psychologist. Graduates may also work in areas such as management, counselling, training and development.

Professional membership
The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies. Visit Studyfinder for specific professional membership eligibility.

Recommended Study
Maths A, B or C for other majors.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
A double degree in law and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to legal issues and concerns.

Why choose this course
You have many opportunities to gain real workplace skills in each of your study disciplines. In psychology, students design and analyse original experiments, to enhance their research and analytical skills.

While studying, you are exposed to the range of job opportunities in external organisations and industry through careers seminars and opportunities for work experience. Students can also participate in a first-year peer mentor program and a career mentoring program.

In law, you can choose internship and legal clinic electives which provide a work experience placement to gain experience in legal firms, legal aid agencies or government departments.

Career options
With degrees in psychology and law, you will enter the work force with a solid scientific and practical base, making you suitable for positions in the development of mental health and legal policies, in research in the legal-psychological domain, and to work as either a lawyer or psychologist within legal, corporate, government, social, and clinical arenas.

You will be well placed to enter the work force in any number of work environments, including forensic areas (such as the prison service). In addition, you will have the option of pursuing your psychology training further in order to become a registered psychologist. The double degree will also allow you to work in legal environments as a solicitor, barrister, in-house counsel or government lawyer.

Outside the specialist psychology and legal environments, the skills and knowledge you have acquired will be transferable to a wide range of areas, such as business, marketing, communication and policy advisors or officers.

Professional Recognition
The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with their State Registration Board. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours
The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

OP Guarantee
The OP Guarantee does not apply to this course.

Recommended Study
Maths A, B or C

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview

The Graduate Certificate in Intensive Care Nursing has been designed to provide graduates with a short, focused program to upgrade qualifications, knowledge and skills in intensive care nursing. The course will enable students to develop competence in the practice of intensive care nursing, examine major issues and trends in intensive care nursing scholarship and practice and develop an understanding of research applied to intensive care nursing practice. Students are required to undertake suitable workplace based clinical experience during the program, by maintaining employment in a level two or three intensive care unit at least 0.6 FTE.

Entry requirements

Applicants must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence, have a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience. Students enrolling must have had at least three months recent clinical experience in an intensive care facility and be working at least 0.6 FTE in a level two or three intensive care facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure

The Graduate Certificate in Intensive Care Nursing comprises four units. Three core units address topics including advanced health assessment; evidence based approaches to nursing practice in intensive care; and theory, processes and practices associated with preventing and managing common health problems experienced by clients within an intensive care environment. The fourth unit enables students to further develop knowledge and skills relevant to a particular critical care environment. These environments may include cardiac, emergency or intensive care practice settings.

The course can be undertaken by internal or external mode and mid-year entry is available.

Course Articulation

The Graduate Certificate in Intensive Care Nursing has full articulation with the Graduate Diploma in Nursing and the Master of Nursing programs.

International Student Entry

This course is not available to international students.

Overview
Nurses are an integral part of the health sector providing health care to individuals, families and communities in a wide range of settings.

Why choose this course?
QUT has the longest-running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course. The QUT School of Nursing is also the largest and most established centre in Australia and has an excellent reputation domestically and overseas, with strong international links.

The course provides a good balance of nursing theory and practice, and you will undertake supporting studies in biological, behavioural and social science, and the humanities. You are supervised by academic and clinical staff considered leaders in the nursing field.

Approximately half of the learning experiences are clinically based to ensure you gain extensive practical experience as a nurse. Clinical placements are available in a range of public and private hospitals and community services throughout Brisbane and in regional and rural areas of Queensland.

Career Options
Nursing graduates have excellent employment opportunities in a variety of health care settings or health promotion agencies. These include public and private hospitals and nursing homes as well as community service areas such as community health, occupational health, domiciliary nursing services, school health, Aboriginal health, pathology laboratories, alcohol and drug dependence and the armed forces.

Many nurses specialise in a specific area such as aged care, mental health, paediatrics, midwifery, intensive care, cancer, medical/surgical, community practice, emergency or women's health.

Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Entry Requirements
Applicants must have completed a bachelor degree (or equivalent) within the past 10 years. Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration. Please read Real Options for further information on Graduate Entry to QUT.

Students who admitted to the graduate entry program will automatically received one year of academic credit which will entitle the student to complete the degree in two years (full-time).

OP Guarantee
The OP Guarantee does not apply to this program.

Campus
This course is only available at the Kelvin Grove Campus.

Professional Membership

Overview
The Graduate Certificate in Emergency Nursing is offered in conjunction with key industry partners. Two units (24 credit points) are advanced standing from accredited programs, such as the Queensland Health Transition to Emergency Nursing program. The remaining two units (24 credit points) in the Graduate Certificate in Emergency Nursing address topics such as nursing assessment, evidence-based approaches to nursing practice in the emergency setting and the process and practices associated with managing common client presentations to the emergency settings.

Entry Requirements
Applicants must be eligible for registration as a nurse with the Queensland Nursing Council (QNC), have a degree in nursing (or equivalent) from a recognised institution, have completed the Queensland Health Transition to Emergency Nursing Program (or its equivalent) within the past three years, normally have at least one year of appropriate post-registration clinical experience, have at least three months recent clinical experience in an emergency facility, and be working at least 0.6 FTE in a level four-six emergency facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of the School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure
The Graduate Certificate comprises 48 credit points made up of 24 credit points advanced standing from accredited programs, plus 24 credit points from units offered by the School of Nursing.

The course may be undertaken in internal or external mode and is available for mid-year entry.

Course Articulation
All units successfully completed may be credited towards the Graduate Diploma in Nursing or the Master of Nursing.

International Student Entry
This course is not available to international students.

Overview
This four-year degree program combines the complementary areas of nursing and health services management. The clinical and practical aspects of nursing are combined with the managerial and administrative side of health care delivery to provide you with a breadth of relevant knowledge and experience.

Why choose this course?
Along with being eligible to apply for registration as a nurse with the Queensland Nursing Council (QNC), you will also be multi-skilled in the management of health services, enhancing your employment and career prospects.

This course features both theoretical and practical subjects, including clinical placements ensuring you gain extensive, hands-on experience as a nurse. The course structure provides a balance of nursing and health management subjects including behavioural sciences, mental health, professional development, finance, planning and health promotion.

Career Options
Nurses work in public and private hospitals, residential care facilities, private homes, schools, pathology laboratories, medical clinics and other community-based and private work environments.

Graduates can also seek employment opportunities in managerial roles within the health sector.

Professional Membership
This course is recognised by the Royal College of Nursing, Australia (RCNA) as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on the requirements for QNC registration please refer to www.qnc.qld.gov.au Graduates are also eligible for membership of the Australian College of Health Service Executives (ACHSE).

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other Course Requirements
The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete 'The Essentials' component of the student orientation package which is available on the Queensland Health website www.health.qld.gov.au/SOP/html/Essentials_Homepage.asp

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
This course combines the disciplines of nursing and midwifery. The program balances the development of clinical skills in nursing and midwifery with theoretical study and includes clinical placements in maternity settings, hospitals, and community facilities. The course is designed to provide graduates with the knowledge, skills and competencies to practise as registered nurses and endorsed midwives.

Note that graduates are awarded a Bachelor of Nursing and a Bachelor of Midwifery. The Bachelor of Midwifery is not offered alone as a separate course.

The course is four years full-time. Year 1 will be offered for the first time in 2008. Years 2 to 4 will be introduced progressively from 2009.

Career options
The course is designed to prepare graduates for employment as nurses or midwives. At present there are workforce shortages in both nursing and midwifery. Graduates will be able to work not only in hospital settings, but also in community and rural settings.

Registration
Registered General Nurse and Endorsed Midwife with Queensland Nursing Council (subject to approval).

A submission has been made to the Queensland Nursing Council for approval for nursing and midwifery registration. This is subject to approval.

Professional Membership
The program will satisfy the academic and educational requirements for admission as a professional member of the Royal College of Nursing, Australia, and Australian College of Midwives Incorporated.

A submission has been made to the Queensland Nursing Council for approval for nursing and midwifery registration. This is subject to approval.

OP Guarantee
The OP Guarantee does not apply to this course.

Other course requirements
It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

Blue Card As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course. For more information, visit bluecard.qut.com.

Additional Costs The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview

The Graduate Diploma in Nursing provide the opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and to prepare registered nurses for specialist roles in selected areas of health care. The course demonstrates a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The course thus aims to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

The Graduate Diploma in Nursing fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Majors

The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Paediatric, Child and Youth Health Nursing*
- Professional Studies
- Women's Health

*For the July intake this major is only offered a part-time basis.

Entry Requirements - Domestic Applicants

Applicants for the Graduate Diploma in Nursing must be registered as a nurse with the QNC or the nurse regulatory authority in the student's state or territory of residence, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate postregistration clinical experience. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Additional entry requirements for the specific majors include:

Intensive Care

Applicants for the Intensive Care major must also have had at least three months of recent clinical experience in an intensive care unit and be working at least 0.6 FTE in a level two or three intensive care facility.

Cancer Nursing, Paediatric, Child and Youth Health Nursing

Applicants for the Cancer Nursing and Paediatric, Child and Youth Health Nursing majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical

Students are required to undertake suitable workplace based clinical experience during the program to meet the requirements of the course by either maintaining employment in a medical/surgical practice setting or undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Entry Requirements - International Applicants

International applicants who wish to enter the Cancer Nursing; Women's Health; Aged Care; Intensive Care Nursing; Medical/Surgical Nursing; Paediatric, Child and Youth Health Nursing; Community Practice and Professional Studies strands must have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia; be registered or authorised to practise in their country of origin or residence; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate postregistration clinical experience. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Applications for the Intensive Care major must also have had at least three months recent clinical experience in an intensive care unit.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD$45) plus an annual...
licence fee (currently AUD$72). Eligibility for temporary registration is assessed by the QNC. This process may take up to three months.

International students may enrol only in February in full-time studies and may study only onshore.

**Course Structure**
The course structures offer a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice.

Students may undertake one of eight majors. For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study. The Graduate Diploma in Nursing consists of eight units each of 12 credit points making a total 96 credit points.

The Graduate Diploma may be undertaken by domestic students full-time or part-time in internal or external mode.

NB: Midwifery is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

**Professional Studies**
The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

Graduate Diploma in Nursing students who choose this major will complete three core units, and five elective units. The elective options enable students to customise their program of study to meet individual learning needs.

**Course Pathways/Articulation**
The Graduate Diploma in Nursing fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the QNC.

Overview
The Graduate Diploma in Midwifery is designed to prepare graduates for beginning level practice as midwives. Students undertake clinical and supporting studies units to enable them to develop competence in the area of midwifery, develop a critical awareness of major issues and trends in midwifery, and develop their understanding of research applied to midwifery. Graduates from the program are eligible to apply to the Queensland Nursing Council (QNC) for endorsement authorising practice as a midwife. Inherent in these course objectives is the expectation that, on completion of the course, students will have demonstrated their ability to meet the Australian College of Midwives Competencies (2005).

Entry Requirements - Domestic Applicants
Domestic applicants must be registered as a nurse with the QNC, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.student.services.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Entry Requirements - International Applicants
International applicants must have current temporary or full registration as a nurse with the QNC, have gained a degree in nursing (or equivalent) from a recognised institution and normally have at least one year of appropriate postregistration clinical experience.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD$45) plus an annual licence fee (currently AUD$72). The QNC assesses eligibility for temporary registration. This process may take up to three months. International applicants may also apply for alternative entry on the basis of relevant experience at the discretion of the Head of School of Nursing. International students may enrol only in full-time studies.

Course Structure
Students enrolled in the Graduate Diploma in Midwifery undertake eight 12 credit point units, comprising five clinical studies units and three supporting studies units. These clinical units are designed to facilitate the development of knowledge, attitudes and skills which are commensurate with beginning practice as a midwife. A minimum of 720 hours of off-campus clinical experience is scheduled throughout the course. Clinical experience occurs in hospital settings, and a variety of community health agencies eg the family planning clinic, sexual health clinic, community support groups and childbirth education classes. The supporting studies component of the program comprises three units designed to further enhance students' professional growth through exploration, at a postgraduate level, of the nexus between research and practice, and issues in the development of midwifery as a discipline.

Course Articulation
This course fully articulates with the Master of Nursing.

Overview
The Master of Nursing provide an opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and prepare for specialist roles in selected areas of health care. The courses demonstrate a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The courses aim to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

This course fully articulates and is offered for domestic and international students who are eligible for registration as a nurse with the Queensland Nursing Council (QNC).

Majors
The following majors are offered in this course:
- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Paediatric, Child and Youth Health Nursing#
- Professional Studies
- Women's Health
- Midwifery*

#For the July intake this major is only offered a part-time basis.
*Only offered in the February intake.

Entry Requirements - Domestic Applicants
Applicants for the Graduate Diploma in Nursing or Master of Nursing programs must be registered as a nurse with the QNC or the nurse regulatory authority in the student's state or territory of residence, have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Candidates seeking entry to the Master of Nursing are normally required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above. Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Additional entry requirements for the specific majors include:

Intensive Care
Applicants for the Intensive Care major must also have had at least three months of recent clinical experience in an intensive care unit and be working at least 0.6 FTE in a level two or three intensive care facility.

Cancer Nursing, Paediatric, Child and Youth Health Nursing
Applicants for the Cancer Nursing and Paediatric, Child and Youth Health Nursing majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical
Students are required to undertake suitable workplace based clinical experience during the program to meet the requirements of the course by either maintaining employment in a medical/surgical practice setting or undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Midwifery
Applicants for the Midwifery strand must be registered as a nurse with the QNC.

Entry Requirements - International students
International applicants who wish to enter the Cancer Nursing; Women's Health; Aged Care; Intensive Care Nursing; Medical/Surgical Nursing; Paediatric, Child and Youth Health Nursing; Community Practice and Professional Studies strands must have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia; be registered or authorised to practise in their country of origin or residence; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate post-registration clinical experience.
Candidates seeking entry to the Master of Nursing are required to hold an undergraduate degree in nursing (or equivalent) at a grade point average of 5 or above.

Applications for the Intensive Care or (for the Master of Nursing) Midwifery majors must have current temporary or full registration as a nurse with the QNC.

Applications for the Intensive Care major must also have had at least three months recent clinical experience in an intensive care unit.

International applicants may also apply for alternative entry, on the basis of relevant experience, at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC, applicants are required to submit appropriate application forms and to pay an application fee (currently AUD$45) plus an annual licence fee (currently AUD$72). Eligibility for temporary registration is assessed by the QNC. This process may take up to three months.

International students may enrol only in February in full-time studies and may study only onshore.

Course Structure
The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of nine different majors. For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units or a 24 credit point clinical project.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time in internal or external mode.

Professional Studies
The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

Course Articulation
The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Student who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

Master of Nursing Science (Nurse Practitioner) (NS86)

Year offered: 2008
Admissions: Yes
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Course duration (external): 2 semesters (full-time) or 4 semesters (part-time)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960
Domestic Entry: February and July
Course coordinator: Dr Fiona Coyer
Campus: Kelvin Grove

Overview
The Master of Nursing Science (Nurse Practitioner) course is a one-year, full-time or two-year, part-time course. Upon successful completion of the program, graduates will be able to:

- assess and treat clients in a specialty field of nursing practice and health care
- order diagnostic investigations within a specialty field of nursing practice
- prescribe medications and other interventions from a specialty field of nursing practice
- directly refer patients to other healthcare professionals
- conduct advanced comprehensive health assessments relevant to a specialist field of nursing practice
- demonstrate an ability to conduct clinical services using high-level communication skills, innovation and leadership in both autonomous and multidisciplinary modes of practice
- demonstrate the capacity to think critically and creatively in complex and unfamiliar environments.

The Master of Nursing Science (Nurse Practitioner) is accredited by the Queensland Nursing Council (QNC). Graduates will be eligible to apply to QNC for authorisation to practise as nurse practitioners in Queensland.

Entry Requirements
Applicants must:

- be a registered nurse with the Queensland Nursing Council (QNC)
- have gained a degree in nursing (or equivalent) from a recognised institution and have gained a graduate certificate in nursing (or equivalent) in the area of nominated specialty from a recognised institution;
- have a minimum of three years full-time equivalent clinical practice experience in the nominated specialty
- be employed in an advanced practice nursing role for the duration of the course.

Alternatively, applicants without the required qualifications may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

To be accepted into the course, applicants will need to have access to a clinical support team in their speciality field of practice. The clinical support team will normally consist of an advanced health practitioner currently practising the extended clinical skills required by the candidate in their specialty field of practice (for example, a medical practitioner or a nurse practitioner), together with an advanced practice nurse in the specialty area (for example, a clinical nurse consultant or an advanced practice nurse). This support team will work with the candidates to assist with the development and extension of practise skills in their specialty field.

All applicants should complete the questionnaire to accompany their applications available at http://www.studentservices.qut.edu.au/pdfs/forms/pg_forms/PostgradNursingQuestion.pdf

Course Structure
The course consists of seven units - six theoretical units including an elective and an internship over two semesters. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning. This course may be undertaken by internal or external mode and is available for mid-year entry.

International Student Entry
The course is not available to international students.

Overview
Optometrists examine people's eyes to protect and improve their vision and to detect and diagnose eye disease. As an optometrist, you will work with a range of complex instruments and techniques to test vision for defects such as short-sightedness, long-sightedness and astigmatism. Optometrists use their clinical judgement to treat patients in a variety of ways, including eye exercises, contact lenses, spectacles or advice on lighting and visual habits.

Why choose this course?
QUT has the only optometry school in Queensland and one of only three in Australia. Class numbers are small so you will receive individual attention from experienced lecturers.

An on-campus optometry clinic enables you to work directly with real patients, under the supervision of working optometrists.

You will gain hands-on experience throughout the course through participation in the practices of working optometrists, and in other clinical settings including a clinic for Indigenous patients and a clinic for children with impaired vision.

The QUT School of Optometry maintains strong professional and organisational links with industry. Clinical teachers come primarily from private practice settings, while many guest lectures are given by optometrists from private practice and allied disciplines such as ethics, financial, medical and pharmaceutical professions.

Career Options
Graduates are highly employable, with all students employed on graduation (2005 QUT Graduate Destinations Survey).

Many optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals, or they may enter the teaching and research fields after further study.

Professional Membership
Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists' Board of Queensland for registration to practise as optometrists in Queensland and all states and territories of Australia.

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

International student
Strict quotas apply for entry to this course.

OP Guarantee
The OP Guarantee does not apply to this course.

Other course requirements
Blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

Additional costs
Ophthalmic instruments costing approximately $5000 are required for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Graduate Certificate in Ocular Therapeutics (OP43)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2008: $146 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $14,016
Domestic Entry: July
International Entry: July (non student visa applicants only, not CRICOS registered)
Course coordinator: Dr Andrew Carkeet
Campus: Kelvin Grove

Overview
The Graduate Certificate in Ocular Therapeutics is designed to provide training to allow optometrists in Queensland to use a range of topical ocular pharmaceuticals for the treatment of eye disease. The design and implementation of this program has been in response to legislative changes in Queensland to allow suitably qualified optometrists to use a range of S4 drugs to treat eye disease. This course is the only local means whereby Queensland optometrists can gain a qualification in ocular therapeutics, and it will be supplementary to their normal optometric registration.

Entry Requirements
Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in any State or Territory of Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

International Student Entry
This course is not available to international students.

Overview
Public health professionals make a difference to the health of populations. These courses provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

Entry Requirements
Applicants must have an approved bachelor degree from a recognised institution or a basic professional qualification plus at least two years of relevant post-qualification experience and/or training.

Course Structure
The course consists of 4 core units (48 credit points) from the Master of Public Health /Graduate Diploma in Public Health. The course is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland.

Course Pathways/Articulation
This course fully articulates into the Graduate Diploma in Public Health and the Master of Public Health.

Overview

Health Information Management
Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

Health Services Management
Health services managers plan, evaluate, and manage the delivery of health services. Their skills are used to assess a population’s health needs, develop strategies to meet these needs, and then secure the resources needed to ensure the population’s health is enhanced.

Public Health
Public health professionals are an essential part of any health-related organisation. Their primary aim is to promote the general health and wellness of a community or population through their work in the health care sector.

Majors
Three majors in the Bachelor of Health Science - Health Information Management, Health Services Management and Public Health - have a common first year. Students are able to choose one of these majors in their second year.

Why choose this course?

Health Information Management
Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

If you are interested in working in a managerial role liaising constantly with medical nursing and administrative staff, other health professions and the public, then health information management may be the field for you. QUT's Bachelor of Health Science (Health Information Management) is the only course of its kind offered in Queensland and one of only four in Australia.

Health Services Management
The Bachelor of Health Science (Health Services Management) is designed for people who want to join the health care industry in an administrative or managerial capacity. It is also a valuable qualification for people already working in the health industry to upgrade their management knowledge and skills. This course is the only one of its kind offered in Queensland and is one of only a few in Australia. It prepares graduates with an understanding of business principles as well as policy and planning, project management, and computing. The course is flexible and allows options for elective study areas to meet individual interests. You will have the opportunity to do project work, facilitated by lecturers with strong industry links. The mentor program matches final-year students with senior staff in the health industry providing you with excellent networking and employment opportunities.

Public Health
If you have a desire to enhance people’s lives through improved health care, then a career in public health may be for you. QUT has the longest running undergraduate public health course in Queensland. You will learn from experienced, expert staff with strong industry and international links. The three-year course will give you an understanding of public health, primary health care, community health and health promotion. You will also undertake a compulsory placement/practicum program to gain valuable professional experience and industry contacts.

Career Options

Health Information Management
Health information management practitioners work as health records administrators, clinical coders, information retrieval managers, human resource managers, health insurance workers, project officers and public health workers. Employment areas include public and private hospitals, community health centres, large group practices,
government, health departments, research organisations, commercial companies, universities, and consulting firms. The rapid growth of the health information management field means graduates are in demand and enjoy high starting salaries, average $49,750, and excellent promotion opportunities (2005 QUT Graduate Destinations Survey).

Health Services Management
Employment prospects in this field are excellent; locally, nationally and internationally. The salaries for new graduates are among the highest for any professional group. Graduates work as health service or health administration managers or officers, project officers, health insurance workers, and human resource managers. Employment areas include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Public Health
Public health practitioners work as community health officers, policy officers, program evaluators, public health promoters and educators, project officers and consultants. They work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership
Health Information Management
Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia (HIMAA), the Clinical Coders Society of Australia (CCSA), and the Australian College of Health Service Executives (ACHSE).

Health Services Management
Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives (ACHSE).

Public Health
Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Honours
Students who obtain high results throughout the course can study an additional one-year honours degree. Honours consists of a research component, which increases career opportunities and opens the way to further studies at PhD level.

Course design
The Health Information Management program has set units to be completed, that is, there are no opportunities to complete electives.

The Health Services Management program consists of a major in health services management, plus:
- a major in public health or
- two minors or
- one minor and four electives.

Minor/electives are available in the areas of:
- accounting and finance
- public health
- human resource management
- indigenous health
- international business
- management
- marketing
- gender issues
- science*
- general electives

The Public Health program consists of a major in public health plus the opportunity to select from one of the following minors/electives in the areas of:
- community nutrition
- indigenous health
- gender issues
- science*
- general studies in psychology
- counselling
- general electives

* Completion of the science minor is a prerequisite for entry into postgraduate courses, e.g. Graduate Diploma in Environmental Health.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
Nutritionists work with the wider population to influence dietary patterns and behaviours as well as the wider food supply. They can work in a range of settings as diverse as public health and community nutrition, indigenous nutrition and health, consumer and public health, and promotion of nutrition through the media as journalists and editors.

Why choose this course?
The study of public health with a major in human nutrition involves understanding the promotion of health, as well as the prevention of diet related disease. The course is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

The course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, health service and project management. Students will be expected to undertake practical placement outside the university in real world settings. This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

Professional Membership
Graduates of this three year full-time program are eligible to apply for membership of the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies, and Associate membership of the Dietitians Association of Australia (DAA).

Career options
Nutrition graduates can work in a variety of areas, including community health centres and public health areas; as service consultants to industry, government and both public and private institutions; in government, educational institutions, research, occupational health and the food industry.

The Bachelor of Health Science (Nutrition) also allows entry to other health-related and graduate positions.

Electives
Electives include clinical science, counselling, exercise science, health management and health promotion, public health and research.

Course structure
Year 1
You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2
Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to nutrition in chronic disease, as well as epidemiology and evidence based practice.

Year 3
You will now apply and contextualise more the knowledge and skills gained in the first 2 years in relation to the health needs of varying population groups. You will learn the principles of project management and then actually undertake projects working with and assisting practitioners in real world settings such as community health centres, schools or business organisations. You are also able to choose electives in areas of interest to further develop your knowledge and skills in a range of areas.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

Overview
This course will enable you to become a credentialed dietitian. The study of nutrition and dietetics involves the promotion of health, as well as the prevention and treatment of diet-related disease. It is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

Why choose this course?
This course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, food service and health service management, medical nutrition therapy and practice in individual case management, community nutrition and food service management. Students will be expected to undertake practical placements outside the university in hospitals, community health centres, private industry and food service institutions. These working environments are sometimes available outside the semester times and places are limited by availability of placement sites and supervisors, thus places for the course are competitive.

This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

Career Options
Graduates have excellent rates of employment with a range of opportunities available. They can provide medical nutrition therapy to clients to assist in their medical management of disease and illness in hospitals, nursing homes, community health centres and private practice. They can be food service consultants to food industries, hospitals, nursing homes and institutional catering services. They can also become community or public health nutritionists in government and non-government organisations, or researchers in their chosen area of practice.

As a health qualification, the Bachelor of Health Science (Nutrition and Dietetics) also allows entry to other health-related and graduate positions.

Professional Membership
Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia (DAA), the Public Health Association of Australia (PHAA), Sports Medicine Australia (SMA), the Nutrition Society and other bodies.

Electives
Elective studies are available in health promotion, counselling, clinical science, exercise science, research methods and projects.

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements
Additional costs Students who are required to undertake placements off campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination and Blue Card clearance are required before placement in Queensland Health and Education facilities.

Blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

OP Guarantee
The OP Guarantee does not apply to this course.

Course structure
Year 1
You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your
future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2
Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to epidemiology and evidence based practice.

Year 3
You will now apply and contextualise knowledge and skills gained in the first 2 years, in units focussed on potential future areas of dietetic practice, such as medical nutrition therapy, food service management and public health nutrition. Combined with health promotion, nutrition education principles and quantitative analysis for health, these units further develop important skills in researching, critical analysis and practical application. This practice will be consolidated in advanced food studies and introduction to dietetic practice.

Year 4
This year predominantly involves practice based placements which allow you to work with and assist qualified practitioners in real world settings. You will demonstrate competency by managing individual cases in hospitals and undertaking food service management and community nutrition projects in varied settings such as hospitals, community health centres, schools or business organisations throughout Queensland. Advanced dietetic management and research skills will also be applied in final year projects.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course.

Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Overview
Podiatrists diagnose and treat foot and lower limb problems. They use a range of clinical, surgical, and therapeutic techniques to treat patients and may work as a member of a medical team to deliver the best overall care for a patient with diabetes, rheumatoid arthritis, sports injuries, or walking difficulties.

Why choose this course?
If you possess good communication skills and a people-oriented personality and would like to help people with foot and lower limb disorders including sport-related conditions and those in special needs groups, then you may enjoy a career in podiatry.

Podiatry offers the only course in podiatry in Queensland. It features an on-campus clinic where students treat patients under the supervision of experienced clinical lecturers.

Podiatry staff have excellent, established health and medical industry links and the course has a strong reputation recognised throughout Australia and overseas.

This course will prepare you with an understanding of human anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine and surgery. You will also learn how to integrate aspects of podiatric surgery, physical therapy, rehabilitation and counselling into the patient interaction.

Career Options
Employment opportunities for podiatry graduates are excellent. In recent years the number of positions available exceeded the number of graduates.

Podiatry graduates work in a broad range of health care setting including private practice, hospitals or community health centres.

Professional Membership
Graduates are eligible for state registration throughout Australia and for registration in the United Kingdom, New Zealand and some European countries. Graduates may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

OP Guarantee
The OP Guarantee does not apply to this course.

Electives
Students are required to select three elective units that constitute a coherent body of study. The course coordinator approves electives outside the recommended list.

Electives are available in exercise studies, public health and research.

Other course requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

additional costs There are additional costs associated with this course including a practicum shirt and podiatry equipment($1000). Hepatitis B vaccination and the attainment of a current First Aid Certificate is required before beginning clinical placements.

Overview
Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

Why choose this course?
This course is Queensland’s first and only degree in paramedics. If you are interested in a dynamic career helping to save lives, then this course may be for you.

The first year of the course provides foundation studies in the anatomy and physiology of the human body and an introduction to pathology, pathophysiology, pharmacology and clinical practice. Second and third years continue to develop the theoretical studies with increasing emphasis on clinical skills and practice with the final year involving supervised clinical practice with the Queensland Ambulance Service (QAS).

Career Options
The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

Other course requirements
The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. Information outlining these requirements will be available to all prospective applicants. Students will be provided with detailed information during semester one of first year.

a) Health Assessment - One role performed by paramedics is patient transport involving the use of a commercial vehicle. This requires different medical standards than those required of a private vehicle driver. Student paramedics may be required to drive an ambulance while undertaking the clinical practice units and as such will be required to undergo an "Assessment of Fitness to Drive a commercial vehicle" by a medical practitioner. All costs associated with health assessment are the responsibility of the applicant.

b) Criminal History - Applicants will be required to have a Police Records Check undertaken with the associated costs being the responsibility of the applicant.

c) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

d) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

e) Immunisations - It is a requirement for any student to be immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

f) Psychometric assessment (prerequisite for PUB670)
You will be required to cover additional costs associated with this course including the requirements above (total cost approximately $500).

Professional recognition
Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

OP Guarantee
The OP Guarantee does not apply to this course.

International student entry
This course is not available for international student entry.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

**New courses planned for 2008**

It is expected that the following new courses will be available from 2008:

Bachelor of Health Science (Paramedic) - Graduate entry (2 year program)

This is subject to approval and information will be at studyfinder.com.au mid-2007.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) will be available in this course in 2008.

Tuition fees are also applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Find out more on Dfee.

Overview
Paramedics are employed within ambulance services to minimise pain, suffering and loss of life for patients needing pre-hospital care, emergency medical response and specialised transportation.

Why choose this course?
This course was Queensland's first degree in paramedics. If you are interested in a dynamic career helping to save lives, then this course may be for you.

There is increasing emphasis on clinical skills through the course including supervised clinical practice with the Queensland Ambulance Service (QAS).

Career Options
The course is designed to provide graduates with the skills, knowledge and qualifications to pursue a career as an ambulance paramedic with agencies such as the Queensland Ambulance Service (QAS). The course includes supervised clinical practice with QAS and in other clinical settings.

Entry requirements
Completion of a degree in a health field (eg nursing, physiotherapy, occupational therapy, medicine, optometry, pharmacy, medical science, human movement studies, nutrition) in the last 10 years.

Applicants with degrees (or equivalent) completed more than 10 years ago must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

For more information QUT’s admission policies regrading graduate entry please read Real Options.

Students who admitted to the graduate entry program will automatically received one year of academic credit which will entitle the student to complete the degree in two years (full-time).

Orientation program
A one-week Orientation Program, Transition to Paramedic Studies, is conducted on campus in the week preceding the first week of semester (Orientation Week). No credit points are awarded for completing the program and there are no costs to students.

The aim of this program is to familiarise students with the significant clinical aspects of the units PUB180 and PUB280 (Foundations of Paramedic Practice 1 and 2) which students completing the full three year program complete but graduate entry students do not.

This transition program is important for students' understanding of PUB390 and PUB391 (Paramedic Management of Medical and Surgical Emergencies A and B) in the first semester of their programs and is integral to understanding of the clinical component of paramedic practice.

Other course requirements
The Queensland Ambulance Service specifies the following requirements before students can undertake a clinical placement with this Service. c) Manual Driver's Licence - Students will be required to hold a current manual driver's licence (provisional is acceptable) before commencing the emergency driver education course associated with the first clinical placement unit.

d) Health Related Fitness Assessment - A large component of a Paramedic's work involves manual handling, which is defined as any activity requiring a person to lift, lower, push, pull, carry, move, hold or restrain any animate or inanimate object. Paramedics frequently perform all of these functions with patients weighing up to and over 150kg, while implementing various pre-hospital emergency care procedures. As such, students will be required to undergo a fitness assessment to ensure they possess the cardiovascular and muscular abilities to perform the role of a Paramedic.

e) Immunisations - It is a requirement for any student to be
immunised against Hepatitis B before undertaking a placement in a Queensland Health facility. In addition to the above, QAS strongly advises students to be immunised against the following before undertaking a clinical placement: Tetanus, Measles, Mumps, Rubella, and Poliomyelitis.

f) Psychometric assessment (prerequisite for PUB670)

You will be required to cover additional costs associated with this course including the requirements above (total cost approximately $500).

**Professional recognition**

Graduates from this course will be eligible for membership of the Australian College of Ambulance Professionals (ACA).

**OP Guarantee**

The OP Guarantee does not apply to this program.

**International student entry**

This course is not available for international student entry.

**Deferment**

QUT’s deferment policy does not apply to this course.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, have consumed their Student Learning Entitlement etc) and who have been invited and accepted to continue as a fee-paying student.

Overview
Public health professionals make a difference to the health of populations. These course provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

This course is offered and taught conjointly by a consortium of three universities (QUT, Griffith University, and The University of Queensland). Students enrol through one of these universities and are required to complete four compulsory core units and four elective units selected from a specialised stream.

Entry Requirements
Applicants come from many health-related fields, but you should have a recognised degree in health, behavioural, social or biological science and at least two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma. Admission on the basis of professional experience and/or research work will be considered.

Majors
Specialised stream units are available in the areas of:
- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

There is also the option of not completing a major and choosing units from more than one stream.

Course Structure
Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units (Part A) and four advanced elective units (Part B). Elective units will normally be selected according to choice of a stream of study.

Course Articulation
This course fully articulates into the Master of Public Health.

International Student Entry
International students may only enrol in full-time studies.

Overview
The design of this course is multidisciplinary. It covers occupational health and safety topics that include ergonomics, occupational health, hygiene, law and safety technology.

Entry requirements
Applicants should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Applicants may be considered for special entry if they have experience and responsibility in occupational health and safety. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

Course Structure
Students complete eight specified units. The course is available full-time and part-time. Internal and external modes are available (within Australia only).

Course Articulation
This course fully articulates into the Master of Health Science.

International Student Entry
International students may only enrol in full-time studies and may only study on-shore.

Overview
This course provides the knowledge and skills required for graduates to be employed as environmental health practitioners and in particular they will be eligible to practice as environmental health officers. This award provides an entry pathway into environmental health professional practice for students with undergraduate degrees in public health, nutrition, nursing and science.

Entry requirements
Applicant must hold an undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

Course Structure
Students follow a prescribed enrolment program and are required to complete seven units in environmental health and PUN106 Population Health.

Students enrolling in external mode will be required to attend intensive practical sessions at Kelvin Grove campus for selected units in the course.

Course Articulation
This course articulates into the Master of Health Science.

International Student Entry
International students may enrol only in full-time programs in internal mode.

Overview
Public health professionals make a difference to the health of populations. These course provide opportunities to protect, promote and restore health and wellbeing in society. Students obtain core skills in epidemiology and biostatistics and gain knowledge about health systems and contemporary and challenging population health issues. This course is designed for health professionals interested in moving into the public health area, mid-career health professionals seeking advancement in their area of work and clinicians wishing to broaden their range of expertise.

The Master of Public Health is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland. Students have opportunities to undertake electives at these institutions only after consultation with the course coordinator.

Entry requirements
Students come from many health-related fields, but should have a recognised degree in health, behavioural, social or biological science and not less than two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma.

Admission on the basis of professional experience and/or research work will be considered.

Majors
Specialised streams of study are offered in the areas of:
- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods
There is also the option of not completing a major and choosing units from more than one stream.

Course Structure

Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:
- four core units (Part A),
- one research methods unit (HLN405, HLN705 or HLN706) and
- seven advanced elective units (Part B)

(2) Option two is to undertake coursework with a project component:
- four core units (Part A)
- one research methods unit (HLN405, HLN705 or HLN706) and
- five advanced elective units (Part B) and
- one project unit (HLN703).

(3) Option three is coursework with a thesis component:
- four core units (Part A)
- four advanced elective units (Part B)
- dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)

Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

Course Articulation
The Graduate Certificate in Public Health fully articulates into the Graduate Diploma in Public Health and Master of Public Health and the Graduate Diploma in Public Health fully articulates into the Master of Public Health.

International Student Entry
International students may only enrol in full-time studies.

Overview
The Graduate Diploma in Psychology provides an Australian Psychology Accreditation Council (APAC) accredited undergraduate level of training in psychology, which can be added to a previous degree in another discipline. That is, this qualification is graduate level in timing, but undergraduate level in content, and qualifies students to apply for entry into an accredited fourth year, either the Bachelor of Behavioural Science (Honours Psychology) program or the Post Graduate Diploma in Psychology. Entry into these fourth year programs is competitive and normally requires a Grade Point Average (GPA) of at least 5 in the Graduate Diploma.

Entry requirements
An undergraduate degree plus successful completion of an introductory psychology unit (QUT equivalent PYB101, PYB102 or PYB100) and an introductory research and statistics unit (for example PYB110) equivalent to those accredited in the first year of QUT’s Bachelor of Behavioural Science (Psychology) degree.

International Student Entry
QUT advises that international students may only enrol in February in full-time studies.

Overview
The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland.

Entry requirements
Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have with an overall Grade Point Average (GPA) of at least 5
- must have a GPA of at least 5 across APAC accredited second and third year psychology units
- must have successfully completed an APAC accredited third year statistics unit (PYB350 or equivalent).

QUT Applicants
For applicants with a QUT bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:
- a minimum GPA of 5 in the overall undergraduate degree program
- at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.
Entry is competitive based on GPA in these prescribed units:
PYB201 Perception

PYB203 Developmental Psychology
PYB205 Social Psychology
PYB206 Personality
PYB208 Counselling Theory and Practice 1
PYB210 Research Design and Data Analysis
PYB302 Industrial and Organisational Psychology
PYB303 Cognitive Psychology
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB311 Psychological Assessment.

Non-QUT Applicants
For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

Course Structure
The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. The research component of the program entails one research methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

International Student Entry

Overview
The Master of Clinical Psychology offers students the opportunity for advanced training in clinical theory, skills and research. These are three skills fundamental to the professional practice of clinical psychology and psychotherapy.

The program emphasises an integrative approach drawing upon evidence-based psychotherapies including relational psychodynamic, cognitive-behavioural, and systemic narrative therapies across the lifespan.

A psychology clinic provides practicum opportunities to work with adults, children and families in a real-world learning context. There are opportunities for supervised practica in a variety of counselling and clinical setting including the clinic and external community agencies and health settings.

Career opportunities
The course prepares graduates to work in a wide range of hospital, community and private practice settings, in areas that require clinical and psychotherapy skills, case management, management of health services, needs assessment and program evaluation, health promotion and education, and supervision.

Entry Requirements
Entry to this course is competitive. To be considered for admission, applicants should hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent from QUT or another recognised institution. A minimum requirement for eligibility for entry is a grade point average (GPA) of 5 or above in fourth year, and two referee reports. Referees will be required to comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application.

Applicants are shortlisted in priority order on the basis of their GPAs. Shortlisted applicants are required to attend an interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this is conducted via telephone. Admission is based on the candidate’s GPA, interview and referee reports.

Professional recognition
The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.

Registration requirements
All students seeking registration with the Queensland Psychologists Board as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program.

International Student Entry
International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - http://www.psychologyboard.qld.gov.au.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

Standard credit points per part-time semester: 24
Course coordinator: Dr Renata Meuter
Campus: Carseldine

Overview
The Postgraduate Diploma in Psychology builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland. It provides an APAC accredited fourth year of training in psychology, similar to Honours.

Entry Requirements
Entry to this course is competitive. To be considered for admission, applicants must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an Honours Psychology program, for example QUT’s Bachelor of Behavioural Science (Psychology), with a minimum grade point average of 5 achieved in the second- and third-year APAC-accredited psychology units.

Applicants with a QUT Degree
For applicants with a QUT bachelor award, the base level requirement for consideration for inclusion in the Postgraduate Diploma in Psychology program is a minimum overall grade point average of 5 in prescribed second- and third-year psychology units or their equivalent, specifically:

PYB201 Perception
PYB203 Developmental Psychology
PYB205 Social Psychology
PYB206 Personality
PYB208 Counselling Theory and Practice 1
PYB210 Research Design and Data Analysis
PYB302 Industrial and Organisational Psychology
PYB303 Cognitive Psychology
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB311 Psychological Assessment

Applicants with a Non-QUT Degree
For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

Course structure
The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from cognitive neuropsychology, developmental psychology, counselling psychology, or organisational psychology. In consultation with the Course Coordinator, students also choose one cognate elective at third-year level or above. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have three contact hours per week. The contact for research thesis units is as required by the supervisor.

International Student Entry
International students may enrol only in full-time studies.

Course coordinator: Dr Mark King
Campus: Gardens Point and Carseldine

Overview
The Graduate Certificate fosters specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention, and traffic and transport improvements. The program is relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields.

Students become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry (eg state transport, police, and the insurance industry). Students undertake field study, and are able to complete workplace-based projects where appropriate. They gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, and oral and written communication.

Entry requirements
For entry into the Graduate Certificate in Road Safety, applicants must possess a relevant degree from a university, an equivalent qualification relevant to road safety or two years of professional practice relevant to road safety.

For entry into the Graduate Diploma in Road Safety, applicants must possess a relevant degree from a university or a Graduate Certificate in Road Safety. Degrees suitable for entry into the Graduate Certificate and Graduate Diploma include bachelor degrees in civil engineering, psychology, and public health.

Entry with Advanced Standing
Credit will be given, on a case-by-case basis, for road safety-specific units in postgraduate courses.

See the credit precedent list at www.creditprecedent.qut.edu.au

Undergraduate units will not be recognised.

Course Structure
The Graduate Certificate in Road Safety consists of one core unit plus three electives while the Graduate Diploma in Road Safety consists of two core units plus six electives. The program structures are designed to be flexible and accessible. The majority of the units are delivered on a semester basis, although two electives are delivered in intensive week-long blocks at Carseldine campus. The programs have recently been enhanced with the introduction of external delivery for selected units.

Currently the following units are available in external mode:

PYP401 Introduction to Road Safety
PYP402 Traffic Psychology and Behaviour
PYP404 Applying Traffic Psychology
PYP406 Road Safety Theory to

International Student Entry
International students may enrol only in full-time studies as an internal student. Entry into the Graduate Certificate in Road Safety is available only in February. Entry into the Graduate Diploma in Road Safety would usually occur in February; however, students who have completed the Graduate Certificate may enter the Graduate Diploma in July.

Overview
Whether your fascination is with people and personalities, problem solving or the workings of the brain, psychology offers a pathway to a rewarding career.

Why choose this course?
The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist and an excellent foundation for careers in a wide range of related areas.

The course covers both theoretical and practical aspects of psychology. Core units introduce students to the scientific bases of psychology in areas including social and developmental psychology, research methods, physiology, perception and cognition, and as well as more applied areas such as counselling, individual differences and assessment, and psychopathology. In addition, students can choose electives from specialised units including organisational psychology, forensic psychology and the law, psychology and gender, family therapy, alcohol and drugs, health psychology, and road safety. Students can also include up to seven electives in areas of interest other than psychology (e.g. human services, science, humanities, criminology, education, public health, or business) to acquire a wide range of vocational skills.

You will also develop your ability to understand and apply psychological principles to personal, social, and organisational issues, as well as high-level communication and social research skills that are valuable in a wide range of professions.

Recommended Study
Maths A, B or C.

Career Options
Psychology graduates have skills that equip them for many professional areas. The analytical, research and interpersonal skills acquired have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.

You are encouraged to structure your course to incorporate elective specialisations in other areas to provide a wide choice of career options.

On successful completion of the degree you may either pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist or seek postgraduate studies in psychology or other disciplines.

Honours
Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with your state registration board. This currently involves completing a fourth year of study in psychology (e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Professional Membership
The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.
