Notes

Electives can be studied from Lists A and B, or from other courses. The following rules apply:
* At least 3 electives must be chosen from the psychology electives in Lists A and B, with at least 1 elective from List B.
** No more than three introductory electives can be included in PY45.
*** PYB350 is compulsory for entry to 4th year programs in psychology (eg Bachelor of Behavioural Science (Honours Psychology) and Postgraduate Diploma in Psychology)

List C: Social Science Foundation Units

In your first year of study (or first two years of study for part-time students), you are required to study one compulsory Social Science Foundation Unit from the list below, and one other elective unit. The Social Science Foundation unit can be completed in either 1st or 2nd semester, depending on your choice of unit and its availability. You should enrol in an elective unit in the other semester.

Potential Careers:
Administrator, Aged Services Worker, Child Protection Officer, Community Health Officer, Community Worker, Counsellor, Disability Services Worker, Exchange Student, Family Services Officer, Government Officer, Guidance Officer, Health Information Manager, Health Services Manager, Higher Education Worker, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Manager, Policy Officer, Psychologist, Public Servant, Social Scientist, Youth Worker.
Doctor of Psychology (Clinical) (PY50)

Year offered: 2008
Admissions: Yes
CRICOS code: 059989G
Course duration (full-time): 3 years
Course duration (part-time): 6 years
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,504 per semester (subject to annual review)
Domestic Entry: February (closing date for applications is 31 October of the previous year in which you are applying for entry)
International Entry: February
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Robert Schweitzer
Campus: Kelvin Grove

Overview
The Doctor of Psychology (Clinical) offers students the option of a postgraduate program to develop more advanced professional knowledge and skills in clinical psychology than offered in the Master of Clinical Psychology. It includes advanced professional coursework units, specialised practical experience and an extended program of research, enabling graduates to undertake positions of greater responsibility in a broad range of clinical settings including hospitals, mental health facilities and other specialised treatment units.

The doctorate emphasises the development of applied research and clinical specialisations within an evidence-based, integrative psychotherapy framework.

Entry Requirements
Applicants must hold an Australian Psychology Accreditation Council (APAC)-approved four years training or its equivalent with First Class Honours or Honours Class IIA from QUT or another recognised institution. Alternatively, a grade point average of 5.5 or above in the Postgraduate Diploma in Psychology or equivalent course is required. Applicants are required to provide two referee reports and attend an interview to assess their interpersonal and research skills in a clinical context.

Students who are not already registered with the Psychologists Board of Queensland will be required to register with the Board as a psychologist with probationary conditions for the duration of the program.

Advanced Standing
Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

Course Structure
The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

Course Articulation
The Master of Clinical Psychology articulates with the Doctor of Psychology (Clinical). Doctorate students who successfully complete the requirements of the masters course may exit with a Master of Clinical Psychology.

International Student Entry
International students or applicants from whom English is not the first or native language require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by the APAC that their degree is equivalent to APAC-approved four years training in psychology or its equivalent from QUT or another recognised institution. For applicants for whom English is not the first or native language, the Psychologists Board may consider an exemption to this policy. Please refer to the Psychologists Board of Queensland website for further details - http://www.psychologyboard.qld.gov.au.

Applicants are responsible for obtaining and paying the APAC for such certification, at a cost determined by the APAC. All applicants are required to attend an interview. In the case of international applicants, this is conducted via telephone.

International students may enrol only in full-time studies.

Professional Recognition
The course is designed to meet the accreditation requirements of the APAC, the Australian Psychological Society College of Clinical Psychologists, and the Psychologists Board of Queensland, and provides a graduate with eligibility to apply to register as a psychologist in Queensland or any other state or territory in Australia.

Further Information
For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4625 or email psyc.enquiries@qut.com

OVERVIEW

The Humanities Program at Carseldine campus is responsible for the administration of the Bachelor of Arts program in a number of double degrees. The Arts component of these double degrees offers students the opportunity to complete a multidisciplinary major in one of the following: International and Global Studies; Ethics and Human Rights; Society and Change; Community Studies and Australian Studies. Discipline majors in History, Geography, Languages, Sociology and Political Studies are also available. The Arts component of the Bachelor of Arts/Bachelor of Education (Secondary) double degree is different in structure to the Arts program in all the other double degrees in that students choose two teaching areas from: English; History; Geography; LOTE; Social Science; General Science; and Film and Media Studies.

The Humanities Program will also administer the single Bachelor of Arts and Bachelor of Social Science degrees for continuing students in 2008.

Associated postgraduate research and coursework programs and honours programs are also available.

Research activities through the Humanities Research Program are regarded as key strategies for ensuring ongoing relevance of the academic programs and for maintaining the strong success record of graduates.

SENIOR STAFF

Head: Professor C. Bean, BA MA(Hons) Canterbury, PhD ANU

Professors:
C.A. Trocki, BA Cleveland, MA PhD C’nell
G. Kendall, MA Camb, MSc Manc, PhD Lond

Associate Professors:
H. Guille, BSc(Hons) R’dg, PhD Griff
G.J. Ianziti, BA San Fran, MA PhD Nth Car

RESEARCH

Humanities Research Program

The Humanities Research Program facilitates research with a strong social research orientation which allows the human, ethical and societal dimensions of technological, environmental, economic and political change to be assessed and responses to these changes to be identified. This is achieved through careful, critical, independent and ethical research, which contributes to better outcomes for individuals and communities and addresses issues of national and global significance.

Staff and students are offered:

- a distinctive, applied research culture, underpinned by a solid research base
- a focus on international and local issues related to the humanities and social sciences
- an ethical engagement with a wide range of public policy and practices related to government, business and the community
- strong collaborative partnerships with community, government, academic and private organizations
- cutting edge critical public debate
- an open, people-centred and change-oriented approach
- a nurturing environment for the development of excellence in the next generation of researchers through expert mentoring and guidance by experienced researchers.

Strengths of the Humanities Research Program include:

- Expertise in topical and important areas within the social research arena including:
  - Applied Ethics
  - Asia-Pacific Studies
  - Community Studies
  - European Studies
  - History
  - Gender Studies
  - Geography and Environmental Studies
  - Human Rights
  - Politics
  - Sociology
  - Social Capital
- Experience in the use of diverse research approaches, including political, sociological, applied ethics, historical and social science research approaches
- Solid links with the community, industry, business and government organizations that enable the development of collaborative research alliances
- Cross-disciplinary linkages at the local, national and international level
- A strong publication rate.
Bachelor of Arts (HH01)
Year offered: 2008
Admissions: No
Course duration (full-time): 3 years
Course duration (part-time): 6 years
Domestic fees (per credit point): Commonwealth supported place: Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $5,104
International Fees (per semester): 2008: $7,968 per semester (subject to annual review)
QTAC code: This course is no longer offered
Past rank cut-off: 68 (both campuses); Dfee: 68 (both campuses)
Past OP cut-off: 15 (both campuses); Dfee: 15 (both campuses)
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Keith Moore
Campus: Gardens Point, Carseldine and Caboolture

Course Outline
The Bachelor of Arts allows you to design your degree to suit your own interests and career aspirations. You will complete 24 units of study.

* You are REQUIRED to complete:
- One multidisciplinary major (7 units) from
  International and Global Studies
  Society and Change
  Ethics and Human Rights
  Community Studies
  Australian Studies

* The remaining 17 units of study will consist of your choice from the following options:
- An additional multidisciplinary major (7 units)
- An Arts discipline major (6 units) from
  Geography
  History
  Sociology
  Political Studies
  French
  German
  Indonesian
  Japanese
  Mandarin
- An Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- A co-major, an approved university minor, or individual electives in another QUT course (up to 8 units)
- A work-based Internship (2 units)

International and Global Studies Multidisciplinary Major
The International and Global Studies multidisciplinary major is an ideal choice if you wish to work in areas that demand and value knowledge of trends and outcomes in internationalisation, understanding of cultural diversity, knowledge of world regions, cultures and societies, and skills associated with global literacy. You may choose to concentrate on 'global perspectives' or 'international studies' (Asian studies, European studies or Pacific studies). You may combine this major with language study in Indonesian, French, Japanese, German or Mandarin.

Society and Change Multidisciplinary Major
The Society and Change major provides an multidisciplinary approach to understanding the dynamics of social change with particular emphasis on the environment, change and society, societies in transition, and the individual and society. You will acquire substantive knowledge on social and cultural aspects of change, and will be challenged to take a critical and analytical approach to your study. Many of the units provide case studies of social change, and as a graduate of this major you will be equipped with transferable analytical, research and interpersonal skills that are in demand in policy, research and community work.

Ethics and Human Rights Multidisciplinary Major
The Ethics and Human Rights multidisciplinary major provides you with the opportunity to develop as a socially responsible and responsive practitioner. Dramatic changes in the human condition, such as those already emerging from globalisation and biotechnology, will be a significant feature of life in the twenty-first century. This major will equip you with understandings, skills and strategies that will enable you to address change in ways that promote the well-being of individuals and communities. The major is organised around five themes: ethical understandings and theory, human rights, identity studies, ethics and technology and ethical practice.

Australian Studies Multidisciplinary Major
The Australian Studies multidisciplinary major examines past, present and future Australia from a variety of discipline and interdisciplinary approaches. Australian studies is a contested, endless conversation and the units reflect the many perspectives which researchers now adopt in trying to understand what 'Australia' is like as a society, a nation, a place and a home to indigenous and non-indigenous citizens. The major will equip you with knowledge about Australians and Australia and its role in the world. In addition, as a graduate you will have the confidence to engage in empirical and theoretical debates about what has happened, and should happen in Australia.

Community Studies Multidisciplinary Major
In the Community Studies multidisciplinary major the 'knowledge explosion' is addressed by an open-ended teaching and learning approach to equip you to better understand the communities to which you belong from past,
present and future perspectives. As you get to know how communities are structured, you will consider what holds communities together and what undermines them, and consider how communities can be enhanced. The major encompasses the concept of community and a detailed investigation of community processes.

**Minors**

All of the multidisciplinary and discipline majors in the Bachelor of Arts can also be taken as four-unit minors. Note also that all QUT faculties offer agreed sets of units as 'university minors'.

**Potential Careers:**

Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Social Science (HH04)

Year offered: 2008
Admissions: No
Course duration (full-time): 3 years
Course duration (part-time): 6 years

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,960; CSP Rate available July
International Fees (per semester): 2008: $7,968 per semester (subject to annual review)

QTAC code: This course is no longer offered
Past rank cut-off: 68 (both campuses); Dfee: 68 (both campuses)
Past OP cut-off: 15 (both campuses); Dfee: 15 (both campuses)
OP Guarantee: Yes
Assumed knowledge: English (4, SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24

Course coordinator: Dr Hossein Adibi
Campus: Carseldine and Caboolture

Course Outline
The Bachelor of Social Science allows you to develop a range of social science skills which will equip you to address social issues and problems. You will complete 24 units of study in this course.

* You are REQUIRED to complete:
  - One social science major (7 units) from Sociology
    Politics and History
    Geography and Environment
    Indigenous Perspectives and Issues
    Human Services and Social Policy
    and
  - Social science skills units (6 units). The choice includes interpersonal communication social research conflict resolution team practice survey methods social policy processes intervention methods

* The remaining 11 units of study will consist of your choices from the following options:
  - An additional social science major (7 units)
  - A social science minor (4 units) from Gender and Sexuality Peace and Conflict Resolution
  - A foreign language (4-6 units) from French, German, Indonesian, Japanese, Mandarin
  - A co-major, an approved university minor, or individual electives in another QUT course (up to 8 units)
  - A work-based internship (2 units)
  - An independent social science project (2 units)

Sociology Major
Sociology is an attempt to grapple with the issues and problems of a world experiencing change. You will study what makes us social beings and why both cooperation and conflict are recurring features of our social relationships. You will gain an understanding of the fundamental institutions of family, school, work and culture, and will be equipped to think intelligently and critically about them. You will acquire the skills of social analysis and policy development which are essential for a wide variety of professional employment.

Geography and Environment Major
Geography explains how and why natural environments, land use, settlement, economic activity, population and cultures vary from place to place, and how these elements interact to create distinctive and dynamic regional landscapes. The practical approach provides you with a sound basis, as a professional, for analysing human-environment linkages; population, social and cultural change; land use; settlement; and sustainable development.

Politics and History Major
The combination of politics and history provides a focus on the application of power in the contemporary world and also an understanding of how and why we have arrived at the social and political structures and processes that exist today. As a graduate with a politics and history background you will be equipped to enter occupations that require development and analysis of policy and administrative programs in both the public and private sectors.

Indigenous Perspectives and Issues Major
Indigenous perspectives and issues are central to the contemporary social sciences and to the creation of graduates who are skilled in the complexities of cross-cultural understanding and the acquisition of cross-cultural sensitivity. You will gain insights into Australian Indigenous perspectives and issues from the disciplines of humanities and human services, creative industries, education and justice studies. You will also develop skills associated with research ethics and protocols as they relate to Indigenous cultures and communities.

Human Services and Social Policy Major
Understanding our complex society and identifying emerging social issues and trends are key roles for human service and social policy practitioners. Community service agencies and for-profit industries seek out graduates with vocational skills that enable them to stay abreast of rapid social change and emerging trends. As a social science graduate you will be equipped to review, develop and
administer social programs.

**Gender and Sexuality Minor**

Issues of difference and identity as they relate to the constitution of gender and sexuality are significant elements within social science investigations. This minor draws on relevant units from discipline areas such as humanities and human services, psychology, public health, justice studies and creative industries to enable you to analyse and challenge inherent presumptions about gendered/sexed bodies, as well as address the possibilities for alternative identity politics.

**Peace and Conflict Resolution Minor**

You will engage with important issues of contemporary global change and the way these may impact on diverse communities and individuals, conflicts that arise out of these situations, and approaches to resolving such conflicts. The units provide you with opportunities to pursue in-depth studies of human rights issues, identity issues and conflicts, and crisis intervention and resolution.

**Minors**

All the social science majors can also be taken as four-unit minors.

Note also that all QUT faculties offer agreed sets of units as 'university minors'.

Course coordinator: Dr Iraphne Childs (Dr Phil Crane Humans Services)
Campus: Carseldine

Course Structure
This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements
As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Welfare and community Workers. (Accreditation application is currently in process).

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.
COURSE STRUCTURE OVERVIEW

Year 1 Semester 1

BA Skills Unit (HHB116 Applied Skills & Scholarship OR HHB117 Introduction to Social Research Methods)
Introductory Unit Professional Major BA
Introductory Unit 2nd Professional Major OR Introductory Unit Disciplinary Major BA
HHB114 Introduction To Human Rights And Ethics

Year 1 Semester 2
Elective unit - Major BA
Elective unit - Major BA
Elective unit - 2nd Major or Minor BA
HHB100 Introduction to Human Services and Social Work

Year 2 Semester 1
Elective unit - Major BA
Elective unit - Major BA
Elective unit - 2nd Major or Minor BA
One unit List B Human Services (Service Context Unit)

Year 2 Semester 2
Elective unit - Major BA
Elective unit 2nd Major or Minor BA
General or 2nd Major elective BA
HHB113 Interpersonal Communication

Year 3 Semester 1
Elective unit - Major BA
General or second Major elective BA
HHB201 Initial Professional Practice

Year 3 Semester 2
General or second Major elective BA
HHB221 Intervention Processes And Ethics
HHB200 Working In Human Service Organisations
HHB222 Human Service Practice: Legal Dimension

Year 4 Semester 1
General elective BA
HHB220 Intervention Theories And Methods
One List D unit (Human Services)
One List C unit (Skills unit) Human Services

Year 4 Semester 2
One List C unit (Skills unit) Human Services
HHB301 Advanced Professional Practice

SKILLS UNITS IN THE BACHELOR OF ARTS

HHB116 Applied Skills And Scholarship
HHB117 Introduction To Social Research Methods

PROFESSIONAL MAJOR IN THE BACHELOR OF ARTS - INTERNATIONAL AND GLOBAL STUDIES

INTRODUCTORY UNITS
HHB110 Introduction To International And Global Studies
HHB111 Issues In International And Global Studies

STRAND A - GLOBAL PERSPECTIVES
HHB107 World Regions
HHB122 Colonialism And Independence In Asia Pacific
HHB226 Consuming Cultures
HHB223 Islam and Islamic Societies
HHB241 Gender and Globalisation
HHB248 The USA and The Asia Pacific Region
HHB263 Politics Of Globalisation
HHB269 Ethics, Technology And The Environment
HHB310 Globalisation And Social Theory
HHB311 Colonial Fantasies And Postcolonial Identities
HHB315 Sex And Drugs In South-East Asia
HHB331 Advanced Seminar

STRAND B - INTERNATIONAL STUDIES
HHB219 Iranian Society: Culture, Religion and Politics
HHB229 Windows On Japan
HHB238 Asian Cultures And Societies
HHB239 Korean Culture And Societies
HHB243 The Pacific Since 1945
HHB244 Southeast Asia In Focus
HHB245 Australia And The South Pacific
HHB246 Modern China
HHB256 Europe Since 1945
HHB260 Nations And Nationalism In Modern Europe
HHB323 Fieldwork Studies

PROFESSIONAL MAJOR IN THE BACHELOR OF ARTS - SOCIETY AND CHANGE

INTRODUCTORY UNITS
HHB104 Understanding Society: Intro To Sociology
HHB105 Exploring Change

STRAND A - THE INDIVIDUAL AND SOCIETY
HHB102 The Human Condition
HHB113 Interpersonal Communication
HHB225 Political Sociology
HHB230 Political Behaviour
HHB233 Sex, Gender And Society

**Potential Careers:**
- Administrator, Adult/Workplace Educator, Aged Services Worker, Child Protection Officer, Community Corrections Officer, Community Education Officer, Corrective Services Officer, Disability Services Worker, Family Services Officer, Government Officer, Information Officer, Manager, Policy Officer, Public Servant, Social Scientist, Sociologist, Youth Worker.
Bachelor of Arts (Honours) (HH21)

Year offered: 2008
Admissions: Yes
CRICOS code: 020294D

Course duration (full-time): 2 Semesters
Course duration (part-time): 4 Semesters

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $5,095

International Fees (per semester): 2008: $7,968 per semester (subject to annual review)

Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24

Course coordinator: Dr Judith Burton
Campus: Carseldine

Overview
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements
Normally students will apply at the end of the final year of their pass degree. Except where otherwise specified, applicants MUST have:

* completed a bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university; and

* achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course grade point average of 5 on a seven-point scale).

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure
The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time Course Structure
Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Language Students
Language students will, where appropriate, do extensive work in the Literature Review and Honours Thesis units in the target language. Where feasible the Honours thesis will be written in the target language.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Course duration (part-time): 4 Semesters
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $5,095
International Fees (per semester): 2008: $7,968 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Judith Burton
Campus: Carseldine

Overview
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. The Honours course contains a mix of advanced theory, research training and a research project leading to a thesis. The thesis will be completed under the guidance of an individual supervisor.

Entry Requirements
Minimum requirement for entry:
- a grade point average of 5 over all undergraduate units. Normally students will have a QUT Social Science degree with a majority of units at second- and third-year level.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure
Coursework provides for both disciplinary specialisation, and an interdisciplinary elective option selected in consultation with your supervisor and the course coordinator. The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Note: Part-time Students
Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Master of Arts (Research) (Humanities and Human Services) (HH40)

Year offered: 2008
Admissions: Yes
CRICOS code: 012707K

Course duration (full-time): 3 semesters (3-year qualified entry); 2 semesters (4-year qualified entry)
Course duration (part-time): 6 semesters (3-year qualified entry); 4 semesters (4-year qualified entry)

Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $8,544 per semester (subject to annual review)

Domestic Entry: At any time for 3 semester program. Feb or July for 2 semester program
International Entry: At any time
Total credit points: 144 (3-year qualified entry); 96 (4-year qualified entry)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24

Course coordinator: Dr Barbara Hanna
Campus: Gardens Point and Carseldine

Overview
The Master of Arts by Research is offered through the Centre for Social Change Research. Research topics are drawn from the various disciplines represented in the School of Humanities and Human Services. Study areas available include:
* Aged Services
* Applied Ethics
* Asia-Pacific Studies
* Child and Family Services
* Disability Services
* European Studies
* Geography and Environmental Studies
* History
* Human Services
* International and Global Studies
* Languages (French, German, Indonesian, Japanese, Mandarin)
* Political Studies
* Services to Young People
* Sociology.

Entry requirements
Applicants must have a three-year bachelor degree or equivalent to enter the coursework plus research program.

To enter the research only program, applicants must have completed a three-year bachelor degree plus honours. Candidates with other four-year qualifications such as a three-year bachelor degree plus graduate diploma or a four-year double degree may also, after consultation with their supervisor and the course coordinator, enter the 96 credit point course. Such applicants whose previous study has included limited relevant research experience may be advised to enrol in a research methods unit as part of their course. They may also elect to take the 144 credit point program.

Course Structure
For those with a three-year degree, the Master of Arts (Research) normally comprises 48 credit points of coursework and a 96 credit point research project. For those with a four-year degree it normally comprises a 96 credit point research project. However, with the approval of the postgraduate studies coordinator it is possible to enrol in a 12 credit point coursework plus 84 credit point research project; or a 24 credit point coursework plus 72 credit point research project.

Research Component
The research component is usually presented as a thesis (30 000-50 000 words).

Doctor of Social Science (HH50)

Year offered: 2008
Admissions: Yes
CRICOS code: 048293G
Course duration (full-time): 6 semesters (3 years)
Course duration (part-time): 12 semesters (6 years)
Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Assoc Prof Gavin Kendall
Campus: Carseldine

Overview
The Doctor of Social Science will play a vital role in ensuring that humanities, social science and human service professionals will be able to continue their professional and personal development. The objective of the programme is advanced, critical and systematic reflection at doctoral level on professional practice in any or across a number of the humanities, social science and human service disciplines

Entry Requirements
. a four year degree or its equivalent with First Class Honours or Honours II A; or
. a masters degree in a field relevant to the professional doctorate; AND
. two years of practice at an advanced level in a position of responsibility in a relevant professional setting.

Entry with Advanced Standing: Candidates with a masters degree will be eligible for credit of up to 96 credit points. Other previous study or uncredentialled learning may also gain credit.

Course Structure
The course is divided into coursework and three theses. All three theses have conference presentation/communication of research finding units attached to them. Students will first complete their coursework and their first project, as well as HHR510 before they will be permitted to work on their second project. Similarly students must complete the second project as well as HHR520 before they are permitted to begin work on their third project. The course therefore has a three-part format and students are required to pass three stages in turn to guarantee progression.

Standard credit points per full-time semester: 48
Course coordinator: Dr Iraphne Childs (Arts); Dr Julie Hansen (Psychology)
Campus: Carseldine

Overview
In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Why choose this course?
The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with research and statistical methods that have wide applicability in psychology and other disciplines. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist, or seek postgraduate studies in psychology or other disciplines.

Career Options
The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

Recommended Study
Maths A, B or C is recommended.

Psychology Electives
Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

Professional Membership
The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology, you must be registered with your State Registration Board. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology, followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Development).

Other Course Requirements
blue card As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Blue Card before commencing clinical practice/field experience/practicum in an organisation where they may work with children or young people. For more information, visit http://bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

**Further Information**

For detailed information about this course, please call the School of Psychology and Counselling on +617 3138 4625 or email psyc.enquiries@qut.com

### COURSE STRUCTURE - OVERVIEW

#### Year 1 Semester 1
- PYB007 Interpersonal Processes and Skills
- PYB101 Introduction to Psychology 1A
  - BA Core Unit - Major
  - BA Core Unit (Major or Skills)

Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX38 Bachelor of Arts/Bachelor of Business. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management, or Public Relations).

Career Outcomes

- Humanities graduates find employment in areas such as government, diplomacy, higher education and public service.

- Graduates of the Bachelor of Business (Accountancy) can expect to find employment in public practice, industry and commerce or government. In public practice the main areas of specialisation are auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership, bankruptcy, trusteeship or management services. In industry and commerce, accountancy graduates are employed in management positions.

- Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.

- Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas.

- Graduates of the Marketing major find employment in industry and government in roles including marketing and research, sales management and product development and management. They are also employed as marketing managers and consultants in the national and international business environments.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
*Economics: Economic Society of Australia (Queensland Division).

Course Design

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Arts program and 240 credit points from the Bachelor of Business program.

BA Course Requirements - Commencing Students

BA Course Requirements (Years 1-4)

Students are required to complete:

* One Multidisciplinary Professional Major (1 core unit + 6 units in the major)
It is suggested that they complete the Core Units Program consisting of the following:

* Two core units in first semester (from a selection of core introductory and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major).
* Year 2: research methods unit. Students are advised to...
take at least two of these units.

**BA Course Requirements - Commencing Students (cont.)**

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may wish to:
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

**Multidisciplinary Professional Majors**

For details, refer to the Bachelor of Arts Degree (HH01).

**Discipline Majors**

For details, refer to the Bachelor of Arts Degree (HH01).

**Minor Sequences**

For details, refer to the Co-Majors entry in the Bachelor of Arts (HH01) entry as any of these are available to be taken as Minors.

**Key Terms - BA**

* Multidisciplinary Professional Major - one of five interdisciplinary study sequences in the BA degree (International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree. NB - a unit may not be counted in more than one multidisciplinary professional major, discipline major or minor.

* Discipline Major - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area. NB - a unit may not be counted in more than one minor.

* Elective Units - units selected by students to fit into their study program.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.
Bachelor of Arts/Bachelor of Laws (IF43)

Year offered: 2008
Admissions: Yes
CRICOS code: 027276E
Course duration (full-time): 5 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960; CSP $6,797
International Fees (per semester): 2008: $9,552 per semester (subject to annual review)

Domestic Entry: February
International Entry: February and July* (*July entry subject to availability)
QTAC code: 409722
Past rank cut-off: 90
Past OP cut-off: 6

Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 528 (192 cr pts BA and 336 cr pts BLaws)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphne Childs (Arts) Dr. William Dixon Director, Undergraduate Programs (Law)
Campus: Gardens Point and Carseldine

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

Professional Recognition
The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Course Structure BA component - Continuing Students
BA REQUIREMENTS
Students should follow the course progression advice in the Course Summary Sheet

Course Structure BA component - Commencing Students
BA Course Requirements - Commencing Students

Students are required to complete:
* One Multidisciplinary Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:
* Two core units in first semester (from a selection of core introductory and core skills units)
  (Note: one of the core introductory units will sit within the chosen Multidisciplinary Major)
* Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:
- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points)

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Multidisciplinary Majors - Commencing Students
Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Discipline Sequences
Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the...

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.  

Course Structure - Continuing Students  
BA Course Requirements (Years 1 and 2) (Continuing Students)  
Students are REQUIRED to complete:  
* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)  
It is SUGGESTED that they complete the Core Units Program consisting of the following:  
*Four core units in first semester (from a selection of core introductory units and core skills units)  
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)  
* Two core units in second year (2 research methods units)  

Discipline Sequences - Commencing Students  
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.  

Minor Sequences - Commencing Students  
For details, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these may be taken as Minors.

See Note 1

Lists A, B and C
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Part-time Students
See Note 2

CORE PROGRAM - Continuing Students
The core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors
INTERNATIONAL AND GLOBAL STUDIES
HHB110 Introduction To International And Global Studies
HHB111 Issues in International and Global Studies
SOCIETY AND CHANGE
HHB105 Exploring Change
ETHICS AND HUMAN RIGHTS
HHB104 Understanding Society: Introduction to Sociology
HHB114 Introduction To Human Rights And Ethics
COMMUNITY STUDIES
HHB115 Human Identity And Change

HHB103 Contemporary Social And Community Issues
HHB102 The Human Condition
HHB106 Australian Society And Culture
HHB112 Australian Politics

First Year Core: Skills Units
HHB116 Applied Skills And Scholarship
HHB117 Introduction To Social Research Methods

Second Year Core: Research Methods Units
HHB224 Qualitative Research Methods
HHB232 Survey Methods
HHB121 Interpreting The Past
HHB312 Geographical Research Design

Education Component

Year 3, Semester 1
EDB001 Teaching and Learning Studies 1: Teaching in New Times
MDB450 Primary Mathematics Curriculum
EDB430 Primary Professional Practice 1: Classroom Management
CLB376 Studies Of Society And Environment Curriculum

Year 3, Semester 2
KKB914 Visual and Performing Arts Curriculum 1
SPB001 Human Development and Education
MDB383 Using Technology In The Curriculum
EDB431 Primary Professional Practice 2: Curriculum Decision Making

Year 4, Semester 1
SPB002 Psychology of Learning and Teaching
EDB432 Primary Professional Practice 3: Inclusive Curriculum
HMB307 Health and Physical Education Curriculum (Primary)
CLB413 Programming And Assessment In Language And Mathematics

Year 4, Semester 2
CLB306 Understanding Educational Practices
MDB384 Science Education
EDB433 Primary Professional Practice 4: Beginning Teaching
CLB454 Language And Literacy Curriculum

NOTE
Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum
Studies in place of CLB413 should contact the Student Affairs office on 3864 3947. CLB334 is offered internally in semester 2.

Potential Careers:
Administrator, Community Worker, Corporate Secretary, Diplomat, Educator, Government Officer, Information Officer, Manager, Network Administrator, Network Manager, Primary School Teacher, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant.
Bachelor of Arts/Bachelor of Applied Science (FOR CONTINUING STUDENTS ONLY) (IF86)

Year offered: 2008
Admissions: No

Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,001
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)

Standard credit points per full-time semester: 48

Course coordinator: Dr Iraphne Childs (Humanities): Dr Megan Hargreaves (Science)

Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

Campus: Gardens Point and Carseldine

Career Opportunities
As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

Course Design
A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition
Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Contact Details
Humanities Coordinator
Dr Iraphne Childs

Course is under review

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

(Example of Full-Time Course Structure for Commencing Students)

Year 1, Semester 1
Core Arts unit (major)
Core Arts unit (major)
Two Science units (SC01 Level 1): Foundation units

Year 1, Semester 2
Arts Major unit
Arts Major unit
Two Science units (SC01 Level 1): at least one Foundation unit

Year 2, Semester 1
Core Arts unit (major or skills)
Core Arts unit (major or skills)
Two Science units (SC01 Levels 1 and 2: Level 2 from Major)

Year 2, Semester 2
Arts Major unit
Arts Minor unit
Two Science Units (SC01 Levels 1 and 2: Level 2 from Major)

Year 3, Semester 1
Arts Major unit
Core Arts unit (research methods)
Two Science Major units (SC01 Level 2)

Year 3, Semester 2
Arts Minor unit
Core Arts unit (research methods)
Two Science Major units (SC01 Level 3)

Year 4, Semester 1
Arts Major unit
Arts Minor unit
Two Science Major units (SC01 Level 3)

Year 4, Semester 2
Arts Major unit
Arts Minor unit
Two Science Major units (SC01 Level 3)

Course structure - Major in Biochemistry

Year 1, Semester 1
SCB111  Chemistry 1
SCB112  Cellular Basis of Life

Year 1, Semester 2
SCB120  Plant and Animal Physiology
SCB121  Chemistry 2

Year 2, Semester 1
SCB110  Science Concepts and Global Systems
   Plus either:
   MAB101  Statistical Data Analysis 1
   Or
   MAB104  Introductory Quantitative Methods

Year 2, Semester 2
SCB122  Cell and Molecular Biology
SCB123  Physical Science Applications

Year 3, Semester 1
LQB381  Biochemistry: Structure and Function
LQB383  Molecular and Cellular Regulation

Year 3, Semester 2
LQB481  Biochemical Pathways and Metabolism
LQB483  Molecular Biology Techniques

Year 4, Semester 1
LQB581  Functional Biochemistry
LQB582  Biomedical Research Technologies

Year 4, Semester 2
LQB681  Biochemical Research Skills
LQB682  Protein Biochemistry and Bioengineering

Course structure - Major in Biotechnology

Year 1, Semester 1
SCB111  Chemistry 1
SCB112  Cellular Basis of Life

Year 1, Semester 2
SCB120  Plant and Animal Physiology
SCB121  Chemistry 2

Year 2, Semester 1
SCB110  Science Concepts and Global Systems
   Plus either:
   MAB101  Statistical Data Analysis 1
   Or
   MAB104  Introductory Quantitative Methods

Year 2, Semester 2
SCB122  Cell and Molecular Biology
SCB123  Physical Science Applications
### Course structure - Major in Chemistry

**Year 1, Semester 1**
- SCB111  Chemistry 1
  - Plus either:
    - MAB101  Statistical Data Analysis 1
    - Or
    - MAB104  Introductory Quantitative Methods

**Year 1, Semester 2**
- SCB112  Cellular Basis of Life
- SCB121  Chemistry 2

**Year 2, Semester 1**
- MAB100  Mathematical Sciences 1A
- SCB110  Science Concepts and Global Systems

**Year 2, Semester 2**
- SCB123  Physical Science Applications
- SCB131  Experimental Chemistry

**Year 3, Semester 1**
- PQB312  Analytical Chemistry for Scientists and Technology
- PQB331  Structure and Bonding

**Year 3, Semester 2**
- PQB401  Chemical Reactions 1
- PQB442  Chemical Spectroscopy

**Year 4, Semester 1**
- PQB502  Materials Chemistry and Characterisation
- PQB531  Chemical Reactions 2

**Year 4, Semester 2**
- PQB631  Applied Molecular Science
- PQB642  Chemical Research

### Course structure - Major in Ecology

**Year 1, Semester 1**
- SCB111  Chemistry 1
- SCB112  Cellular Basis of Life

**Year 1, Semester 2**
- SCB120  Plant and Animal Physiology
- SCB122  Cell and Molecular Biology

**Year 2, Semester 1**
- SCB110  Science Concepts and Global Systems
  - Plus either:
    - MAB101  Statistical Data Analysis 1
    - Or
    - MAB104  Introductory Quantitative Methods

**Year 2, Semester 2**
- NQB201  Planet Earth
- NQB202  History of Life on Earth

**Year 3, Semester 1**
- NQB301  Soils and Sedimentation
- NQB321  Ecology

**Year 3, Semester 2**
- NQB421  Experimental Design
- NQB422  Genetics and Evolution

**Year 4, Semester 1**
- NQB502  Field Mapping and Monitoring of Natural Resources
- NQB521  Population Genetics and Molecular Ecology

**Year 4, Semester 2**
- NQB621  Population management
- NQB622  Population Genetics

### Course structure - Major in Environmental Science

**Year 1, Semester 1**
- SCB111  Chemistry 1
- SCB112  Cellular Basis of Life

**Year 1, Semester 2**
- SCB120  Plant and Animal Physiology

**Potential Careers:**

Academic, Actuary, Administrator, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Corporate Secretary, Database Manager, Ecologist, Environmental Health Officer, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Higher Education Worker, Hydrogeologist, Immunologist, Industrial Chemist, Information Officer, Laboratory Technician (Chemistry), Manager, Mapping Scientist/Photogrammetrist, Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network...
Manager, Physicist, Plant Biotechnologist, Policy Officer,
Population Ecologist, Programmer, Project Developer,
Project Manager, Public Servant, Quantitative Analyst,
Statistician, Virologist.
Bachelor of Arts/Bachelor of Education (Secondary) (IX01)

Year offered: 2008
Admissions: No
CRICOS code: 020316C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $4,762
International Fees (per semester): 2008: $7,968 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409102
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432 (240 cr pts in the BA and 192 cr pts in the BEd)
Course coordinator: Humanities Coordinator: Dr Iraphne Childs; Education Coordinator: Dr Mal Shield
Campus: Gardens Point, Kelvin Grove and Carseldine

NO FURTHER INTAKE INTO THIS COURSE

This course has been replaced by a newly coded IX21 Bachelor of Arts/Bachelor of Education (Secondary) with effect from 2008.

Career Outcomes
During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Further Information

School of Humanities and Human Services
Email: hhs_enq@qut.edu.au
Phone: +61 7 3138 4563
Fax: +61 7 3138 4719

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Course under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Total credit points: 384 (192 in the BA; 192 in the B Ed)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphne Childs (Arts); Dr Susan Walker (Education)
Campus: Gardens Point and Kelvin Grove

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also approved by the Department of Communities for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Overview

The course consists of 16 arts units and 16 education units of which the arts component is completed first. Students are required to choose two teaching areas from English, Geography, History, Languages other than English, Social Science and General Science. A third teaching area of Film and Media Studies is permitted. The course prepares graduates to teach both areas across years 8 to 12.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working with Children Check

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Career Outcomes

Graduates of the Bachelor of Arts may find employment in policy development and analysis, social policy, research and project positions, international aid and trade, environment and heritage. Graduates of the Bachelor of Business may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.

*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).

*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;

*Banking and Finance: Financial Services Institute of Australasia (FINSIA).

*Economics: Economic Society of Australia (Queensland Division).

*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;

*International Business - Australian Institute of Export;

*Management - Australian Institute of Management;

*Public Relations - Public Relations Institute of Australia.

BA Course Requirements - Commencing Students

Students are required to completed at least one of the five multidisciplinary majors (1 core introductory unit plus 6 units in the major). You will choose from International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies and Australian Studies.

As well as the multidisciplinary major, students may also wish to undertake a Discipline Major in one of the following: History, Geography and Environmental Studies, Languages (French, Indonesian, German, Japanese, or Mandarin), Sociology or Political Studies.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may also wish to include:

- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC
offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course is under review**

QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

**Potential Careers:**

Academic, Actor, Administrator, Advertising Professional, Art Writer, Artist, Arts Administrator, Choreographer, Community Education Officer, Community Worker, Composer, Computer Games Developer, Contract Administrator, Creative Writer, Curator, Dance Teacher, Dancer, Digital Composer, Educator, Film Composer, Film/Television Producer, Government Officer, Higher Education Worker, Information Officer, Internet Professional, Journalist, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Organisational Communication Specialist, Policy Officer, Post-production specialist, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Recording Engineer, Song Writer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Stage Manager, Theatre Professionals, Visual Artist, Web Designer.
Bachelor of Arts/Bachelor of Justice (IX41)

Year offered: 2008
Admissions: Yes
CRICOS code: 058283E
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $6,800
International Fees (per semester): 2008: $9,024 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 409082
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes

Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Dr Iraphne Childs (Arts), Professor Rod Broadhurst (Justice)
Campus: Gardens Point and Carseldine

Course Description
The course consists of 16 arts units and 16 justice units. The program is integrated so that you will study both arts and justice units in each semester. You will choose at least one multidisciplinary arts major from international and global studies, society and change, ethics and human rights, community studies, or Australian studies. In the justice component you will have the opportunity to study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Potential Careers:
Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Arts/Bachelor of Information Technology Continuing Students only (IX49)

Year offered: 2008
Admissions: No
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $5,992
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
QTAC code: This course is no longer offered
Past rank cut-off: 73; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Richard Thomas (IT)
Campus: Gardens Point and Carseldine

Course description
In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course.

Majors in the Arts component
In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Majors in the IT component
In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

Career outcomes
Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues, particularly cultures, ethics and human rights, are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

COURSE OVERVIEW

YEAR 1 SEMESTER 1

ITB002 IT Professional Studies
ITB005 Systems Architecture
BA null
BA Discipline unit

YEAR 1 SEMESTER 2

ITB004 Database Systems
ITB006 Networks

IT Major Unit
BA Major unit (elective)
BA Discipline or minor unit

YEAR 4 SEMESTER 2

IT Major Unit
IT Major Unit
### Information Systems Major

#### Compulsory Units
- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB365 Business Analysis

#### IS Elective Units
Select three (3) units from the following list
- ITB218 Applications Programming
- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- ITB264 Information Systems Consulting
- ITB298 Business Process Modelling
- ITB364 Information Systems Development
- ITB366 Information Systems Operations

### Network Systems Major

#### Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment
- ITB730 Information Security Fundamentals

#### Electives
Choose 2 Electives
- ITB233 Enterprise Systems Applications
- ITB706 Systems Programming
- ITB732 Cryptology and Protocols

### Software Architecture Major

#### Compulsory Units
- ITB229 Database Design
- ITB702 Algorithms and Data Structures
- ITB712 Software Engineering Studies

#### Electives
Choose 3 Electives
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB228 Enterprise Systems
- ITB233 Enterprise Systems Applications

---

**Potential Careers:**
Community Worker, Diplomat, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Graduate Certificate In Research
Commercialisation (IX97)

Year offered: 2008
Admissions: Yes
CRICOS code: External
Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.
Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.
Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.
Domestic fees (per credit point): 2008: $2,200 per unit (subject to annual review)
Domestic fees (indicative): 2008: $8,000
International Fees (per semester): 2008: $3,300 per unit (subject to annual review)
Domestic Entry: 2 entry points per year
International Entry: 2 entry points per year
Course coordinator: Professor Rod Wissler
Campus: Internet

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Potential Careers:
Child Care Professional, Child Protection Officer, Family Services Officer, Manager, Policy Officer, Project Developer, Public Relations Officer/Consultant.
Diploma of Community Welfare
Work/Bachelor of Social Science (NA)

Year offered: 2008
Admissions: No
Course duration (full-time): 4 years
QTAC code: This dual award is no longer offered
Past rank cut-off: 45
Past OP cut-off: 25
Campus: Carseldine

Course is under review

Social Scientist.
International Visiting Students (NA05)

Year offered: 2008
Admissions: Yes
CRICOS code: Holders of valid visas
International Fees (per semester): 2008: $2796 per unit
(subject to annual review)
International Entry: February, July and November
Campus: Gardens Point, Kelvin Grove, Carseldine and External
International Visiting Students (NA06)

Year offered: 2008

Admissions: Yes

CRICOS code: Holders of valid visas only

International Fees (per semester): 2008: $2796 per unit
(subject to annual review)

International Entry: February July and November

Campus: Gardens Point, Kelvin Grove and Carseldine
Faculty of Information Technology

Entry Programs (International)
QC01 Foundation Program (1 Semester)
QC02 Foundation Program (2 Semesters)
QC03 Bridging Program
QC04 Extended Foundation Program (3 Semesters)
QC10 English for Academic Purposes for degree programs
QC20 General English
QC21 General English Extension
QC22 English for Tertiary Preparation

Diploma
IT10 University Diploma in Information Technology

Bachelor Degree
IT04 Bachelor of Games and Interactive Entertainment
IT04 Bachelor of Games and Interactive Entertainment - Dean's Scholars Program
IT06 Bachelor of Corporate Systems Management
IT06 Bachelor of Corporate Systems Management - Dean's Scholars Program
IT21 Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IT22 Bachelor of Information Technology
IT22 Bachelor of Information Technology - Dean's Scholars Program
IX25 Bachelor of Engineering (Software Engineering)

Bachelor Degree (Double)
IF29 Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IF38 Bachelor of Information Technology/Bachelor of Laws
IF58 Bachelor of Mathematics/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IF59 Bachelor of Engineering (Electrical)/Bachelor of Information Technology
IT08 Bachelor of Corporate Systems Management/Bachelor of Information Technology
IT09 Bachelor of Corporate Systems Management/Bachelor of Games and Interactive Entertainment
IX09 Bachelor of Information Technology/Bachelor of Education (Secondary) Continuing students only
IX26 Bachelor of Applied Science / Bachelor of Information Technology
IX27 Bachelor of Creative Industries / Bachelor of Information Technology
IX29 Bachelor of Information Technology / Bachelor of Mathematics
IX33 Bachelor of Business/Bachelor of Information Technology
IX49 Bachelor of Arts/Bachelor of Information Technology Continuing Students only
IX61 Bachelor of Corporate Systems Management/Bachelor of Justice
IX62 Bachelor of Business/Bachelor of Corporate Systems Management
IX63 Bachelor of Business/Bachelor of Games and Interactive Entertainment
IX64 Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics
IX65 Bachelor of Applied Science/Bachelor of Games and Interactive Entertainment

Honours
IT04 Bachelor of Games and Interactive Entertainment - Dean's Scholars Program
IT06 Bachelor of Corporate Systems Management - Dean's Scholars Program
IT22 Bachelor of Information Technology - Dean's Scholars Program
IT28 Bachelor of Information Technology (Honours)
IT29 Bachelor of Information Technology (Honours) - Accelerated Program

Graduate Certificate
IT73 Graduate Certificate in Information Management (Library Studies)
IT74 Graduate Certificate in Information Management (Information and Knowledge Management)
IT75 Graduate Certificate in Information Management (Records Management)
IT76 Graduate Certificate in Information Management (Web Management)
IT89 Graduate Certificate in Information Technology (Wireless Games Technology)
IT90 Graduate Certificate in Information Technology (Computer Networks)
IT92 Graduate Certificate in Information Technology (Information Security)
IT93 Graduate Certificate in Information Technology (Enterprise Wide Software)
IT94 Graduate Certificate in Information Technology (Electronic Commerce)
IT95 Graduate Certificate in Information Technology (Project)
IT96 Graduate Certificate in Information Technology (Information Technology Management)
IT97 Graduate Certificate in Information Technology (Generic)
IT98 Graduate Certificate in Information Technology (Multimedia)
IT99 Graduate Certificate in Information Technology (Component Software and Web Services)
IX97 Graduate Certificate In Research Commercialisation

Graduate Diploma
IT35 Graduate Diploma in Information Technology (IT Graduates)
IT38 Graduate Diploma in Information Technology (Non-IT Graduates)

Masters Degree (Coursework)
IT40 Master of Information Technology (IT Graduates)
IT45 Master of Information Technology (Non-IT Graduates)
IT48 Master of Information Technology (Advanced)
IT53 Master of Business Process Management
IT70 Master of Information Management
IT74 Graduate Certificate in Information Management (Information and Knowledge Management)
IT75 Graduate Certificate in Information Management (Records Management)
IT76 Graduate Certificate in Information Management (Web Management)

Masters Degree (Research)
IT60 Master of Information Technology (Research)

Doctoral
IF49 Doctor of Philosophy (Information Technology)
IT80 Doctor of Information Technology

Study Abroad (Non-degree)
NA05 International Visiting Students
NA06 International Visiting Students

Unit sets: Environmental Studies
Unit sets: Health and Psychology
Unit sets: Information Technology
Unit sets: International Exchange
Unit sets: International Studies
Unit sets: Languages
Unit sets: Management
Unit sets: Mathematics and Statistics
Unit sets: Multimedia and Technologies
Unit sets: Physical and Chemical Sciences
Unit sets: Science
Unit sets: Society and Culture
OVERVIEW

QUT's Faculty of Information Technology is one of the leading providers of information technology courses in Australia. The Faculty is also well known internationally for research excellence in four key areas:

- eResearch
- Business Services
- Information Science
- Systems Science.

The Faculty is located at QUT’s inner-city Gardens Point campus and also offers courses at the University’s north campus in Brisbane—Carseldine.

QUT benefits from close linkages with industry in our education and research activities. Industry representatives actively contribute to the development and continual refinement of our course offerings, collaborate on multiple research projects with the University, and utilise our expertise through consulting engagements. The Faculty of Information Technology coordinates a very successful student work placement program—the Cooperative Education Program—with its industry and government partners. This program offers high achieving IT students the option of completing 10-12 months paid professional experience in the workforce.

The Faculty has almost 2000 students, with a quarter being international students from some 54 countries. Our courses are geared to develop graduates who can face today’s challenges and also tackle an unimagined future with confidence and innovation.

Students are attracted to QUT’s focus on real-world experience which involves practical teaching in addition to leadership in applied research that directly benefits industry and the professions. Our lecturers are real-world professionals with years of relevant experience in a variety of industry sectors.

The Faculty draws on the talents of academic staff from diverse backgrounds allowing a dynamic exchange of culture, knowledge and expertise.

SENIOR STAFF

Faculty Office

Executive Dean: Professor S.M. Kaplan, BSc PhD cape Town, FACs, HonFIEAust, MACM, MIEEE

Assistant Dean (Research): K Raymond, BSc BSChons PhD Qld PGradDipPFP S.Qld

Assistant Dean (Teaching and Learning): Dr S Edwards, DipLib RMIT, GCEd(HE), MIT (Res), PhD QUT, AALIA, MACS

Assistant Dean (International): Dr J. Watson, PhD BEng (Hons) MIET MACS

Director, Business Development and International: E. Armstrong, BCom Griff, MCom(InfSys) Qld

Director, Postgraduate Studies: H.H. Bentley, CertED Exe, BSc(Hons) Manc, MSc Qld, MACS, MACM

Director, Undergraduate Studies: R. Christie, Dip Teach NCAE, BA(Maths) DipCompSc UNE, MAppSc QUT

Administration Manager: P. Smith, BBus(Com) Grad-CertEd(HigherEd) QUT

Faculty Staff

Deputy Dean: Professor M. Looi, BEng(Hons) BAppSc PhD QUT, MIEEE, MACS, CDec

Professors:

C. Boyd, BSc, PhD Warwick, CMath
P. Bruza, BSc Qld, MSc KUN, PhD KUN
E. Dawson, BSc DipEd Wash, MA Syd, MLitStu MSc Qld, PhD QUT, FTICA, MIEEE, MCMSA, MACR, MACS
C. Fidge, BAppSc RMIT, MAppSc RMI, PhD ANU
G.G. Gable, DipCompSys NAIT, BCom Alta, MBA W Ontario, PhD Brad, ACS, AIR, IRMA
B. Pham, BSc(Hons) PhD Tas, DipEd Monash, ACM, IEEE, ACSA, APRS
K. Raymond, BSc BSChons PhD Qld
M. Rosemann, MBA PhD Univ of Münster Germany
A. Spink, BA ANU, DipLib UNSW, MBA Fordham Univ NY, PhD Rutgers Univ New Jersey

Associate Professors:

C. Bruce, BA Qld, GradDipLibSc MEd(Res) QUT, PhD UNE
A. Josang, BSc Telematics NTH, MSc Security Univ of London, PhD NTNU
W. Kelly, BSc(Hons) Qld, MSc PhD UMD
P. Roe, MEng(Hons) York, PhD Glas, MACM
J. Sitte, PhD Uppsala, SIEEE
G. Stewart, BA DipEd MLSti (CompSci) Qld, PhD QUT, FACS, PCP, AIMM, MIEEE, MACM
A. ter Hofstede, MSc PhD KUN

Adjunct Professors:

A. Bond, BSc(Hon) Vic.(Wellington)
A. Donkers, BA(Comm) C.Sturt, DipMgt Newcastle(NSW), MIMC
D. Longley, BSc(Physics)(Hons) Manc, MSc(Tech) UMISt, PhD Leic, CEng, FIEE, FAIM
G. Mohay, BSc(Hons) W.Aust, PhD Monash
J. Reye, BSc(Hons) Qld, PhD Griff.

RESEARCH CENTRE

Business Services

Business Services research aims to support the effective provision of IT-mediated computer services within organisations and includes:

- Business process management and workflow from an integrated organisational and technical perspective
- The impact of information systems on organisational success
- Knowledge management within organisations.

Business Process Management

Business Process Management (BPM) has reached maturity and is seen as a core approach for the alignment of business and IT perspectives. The set of related IT methods and tools has significantly advanced and is now consolidated under the umbrella term ‘Process-aware Information Systems’. Current BPM research topics include:

- Service ecosystems for collaborative process improvement
- Context-aware process modelling
- Rapidly locating items in distribution networks with process-driven nodes
- Yet Another Workflow Language (YAWL).

IT Professional Services
IT Professional Services (ITPS) seek to develop tools and techniques for professionals and managers including data collection instruments and related methodologies. The research accumulates data for comparative analysis and reporting, as well as for ongoing validation and extension of ITPS knowledge-assets.

ITPS projects range from highly focused theory-generation, testing and extension work, addressing fundamental concepts to design science, or iterative developmental work, perhaps employing action research cycles to evolve a novel IT artefact informed by senior managers in industry practice. Current research includes:

- Measuring the impact of IS in organisations: The IS-impact approach
- Knowledge management and subjective logic.

**eResearch**

eResearch is the use of advanced information and communications technology to enable new kinds of research. It covers three important areas:

- Data and associated processing – researchers are capturing more and more data; this deluge needs to be managed, analysed and visualised.
- Publication – the nature of publication and research is changing through electronic publication. Publications are becoming active and linked to data and experiments.
- Collaboration – there is an increasing need for researchers to collaborate, for example on large multidisciplinary projects. This requires collaboration over data and publications.

Some of our eResearch areas are:

- Programming Languages and Systems (PLAS).
- Grid and Parallel Computing.
- Visual and Media Computing (VMC).
- Smart Devices.

The Faculty also hosts the Microsoft QUT eResearch Centre which concentrates on accelerating scientific research through the development of smart software tools. These IT tools enable simple and rapid analysis of vast amounts of data which support collaboration between scientists.

**Information Science**

Information Science explores the way people access and use information and the technologies to support information retrieval appropriate to their needs. Research areas include:

- The cognitive and social aspects of user behaviour in information searching.
- Information literacy and learning.
- Information retrieval of structured and unstructured data including XML and multimedia, using machine learning and data mining.

**Informatics**

The Informatics research area develops theories and models of informatics and information science, and investigates how information is created, managed and used by individuals, societies, organisations and ICT environments with an emphasis on the information behaviour.

**Information Retrieval and Web Intelligence**

This research focuses on studying the representation, storage, organisation, access and distillation of information from data. With the explosion of information resources on the web, and with so many organisations housing massive data sources, modern computational intelligence techniques have emerged. These techniques together with search engine and agent based technologies allow the creation of applications that could not have been possible only a few short years ago.

**Cognitive Informatics**

Cognitive informatics investigates how cognitive models can inform information retrieval and web systems including cognitive issues, user studies and human user interfaces.

**Systems Science**

The construction of IT systems to meet real-world needs involves a myriad of research challenges. The research in the Systems Science group addresses the challenges posed by:

- The complexity of many real-world situations, e.g. high-accuracy global positioning systems to whole-of-life software engineering.
- Systems that must be highly dependable, for example, electronic health monitoring.
- Systems that must be secured against attack and misuse through governance and technology frameworks and advanced cryptographic techniques.

**Global Navigation Satellite Systems**

Global Navigation Satellite Systems research focuses on development of advanced techniques to deliver regional and local precise GNSS positioning services in Queensland, supporting surveying and machine automation in mining, agriculture and construction industries.

**Wireless Communication**

This research focuses on development of wireless communication standards framework and technologies for infrastructure to infrastructure, infrastructure to vehicle, and vehicle to vehicle communications. These standards will provide the basis for a broad range of applications in environment, including vehicle safety, automated tolling, enhanced navigation, traffic management and many others.

**e-Health**

This research investigates the tools and techniques that help managers of health information systems make more informed decisions resulting in higher quality IT solutions for the e-health sector.

**Security and Trust**

The Security and Trust research area promotes multidisciplinary research in technology, legal, policy and governance issues related to information security. The Faculty's research in this area includes the following research activities:
- Computer intrusion, forensics and evidence
- Cryptology
- Governance and information protection
- Identity, usability and trust
- Information flow analysis
- Technology, law and policy
- Trusted systems and network security.
Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF29)

Year offered: 2008
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,346
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72. Dfee places were not offered last year.
Past OP cut-off: 13. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Ruth Christie(InfTech)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kirakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Career Opportunities
The course prepares you for an increasing range of careers that involve the application of information technology to science. As a graduate of the double degree, you are also qualified for employment in the areas of software engineering and data communications.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
The science component of the course offers you a choice of one of the major areas of study available in the Bachelor of Applied Science (SC01) course. To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the information technology program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

The information technology component gives you the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the Science and Information Technology degrees.

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

Potential Careers:
Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Data Communications Specialist, Economist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Population Ecologist, Software Engineer,
Bachelor of Information Technology/Bachelor of Laws (IF38)

Year offered: 2008
Admissions: Yes
CRICOS code: 006385G
Course duration (full-time): 5 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,703
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 419622
Past rank cut-off: 90
Past OP cut-off: 6

Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 528
Course coordinator: IT: Ruth Christie; Dr. Bill Dixon
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Overview
An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty’s Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/ coop/

Career Outcomes
Graduates of the Bachelor of Information Technology component may find employment as: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

Professional Recognition
The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Further Information
Faculty of Information Technology: phone +61 7 3864 2782, fax +61 7 3864 2703, email fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Potential Careers:
Doctor of Philosophy (Information Technology) (IF49)

Year offered: 2008
Admissions: Yes
CRICOS code: 006378F
Course duration (full-time): 3 years
Course duration (part-time): 6 years
Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (exceeded max entitlements)
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
International Entry: At any time
Campus: Gardens Point

Course Overview
The Doctor of Philosophy (PhD) is awarded in recognition of a candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

The candidate's research must reveal high critical ability and powers of imagination and synthesis and may be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Topics can include multidisciplinary problems suggested by external bodies, for example, industry, government and commerce, with joint supervisors from both academic and outside environments. The candidate's doctoral work can be undertaken either on campus or at an off-campus location approved by QUT. The candidate's PhD will be linked with one of the Faculty's research areas.

Entry Requirements
Applicants must have a relevant first- or second-class division A honours degree or equivalent from QUT or another recognised institution.

Research Area
Areas of research interest and contact details can be obtained from the Faculty website.

Course Structure
The length of the program is generally three years full-time (including one year of provisional registration) or six years part-time (including 24 months of provisional registration).

Assessment for the doctoral award is based on a program of supervised research and investigation, culminating in a thesis.

Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

Further Information
Visit www.fit.qut.edu.au, email infotech.research@qut.edu.au, or phone +61 7 3138 9485

Potential Careers:
Academic, Computer Games Developer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Librarian, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Bachelor of Mathematics/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF58)

Year offered: 2008
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,434
Domestic Entry: February
International Entry: February
QTAC code: 419552; Dfee: 419556
Past rank cut-off: 75. Dfee places were not offered last year.
Past OP cut-off: 12. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Course coordinator: Dr Gary Carter (Mathematics)
Richard Thomas (IT)
Discipline coordinator: Dr Gary Carter (Mathematics),
Campus: Gardens Point

Career Opportunities
As a graduate you may find employment as a programmer, software engineer, systems programmer, technical support specialist, systems manager, systems designer, computer scientist, security analyst, systems analyst, data communications specialist, mathematician, or statistician.

Course Structure
The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

Professional Recognition
On graduation, you will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Scholarships
Students enrolled in this course can apply for industry-sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Mathematics Units

Students must complete at least 48 credit points from Level 3 mathematics units
Level 2 Units

MAB281  Mathematics for Computer Graphics
MAB311  Advanced Calculus
MAB312  Linear Algebra
MAB313  Mathematics of Finance
MAB314  Statistical Modelling 2
MAB315  Operations Research 2
MAB413  Differential Equations
MAB414  Applied Statistics 2
MAB420  Computational Mathematics 2
MAB422  Mathematical Modelling
MAB461  Discrete Mathematics
MAB480  Introduction to Scientific Computation
MAB481  Visualisation and Data Analysis

Level 3 Units

MAB521  Applied Mathematics 3
MAB522  Computational Mathematics 3
MAB524  Statistical Inference
MAB525  Operations Research 3A
MAB533  Statistical Techniques
MAB536  Time Series Analysis
MAB613  Partial Differential Equations
MAB623  Financial Mathematics
MAB624  Applied Statistics 3
MAB625  Operations Research 3B
MAB640  Industry Project
MAB672  Advanced Mathematical Modelling
MAB681  Advanced Visualisation and Data Analysis

NOTES:  For students commencing in 2004 onwards, the units MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory. The suggested locations can be swapped.

NOTE:  For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.

NOTE:  All Mathematics units have 4 contact hours per week.

Course coordinator: Dr R. Mahalinga-Iyer (Engineering), Ruth Christie (Information Technology)
Discipline coordinator: Dr Ed Palmer (Engineering)
Campus: Gardens Point

Recommended Study
Chemistry, Math C and Physics are recommended.

Career Outcomes
Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

Overview
The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

ITB002 IT Professional Studies
ITB003 Object Oriented Programming
ITB004 Database Systems
ITB005 Systems Architecture
ITB006 Networks
ITB007 Web Development
ITB008 Modelling Analysis and Design
ITB009 Core Project Management
ITB010 Core Project Implementation
ITB011 CCNA 1 & 2: Network Fundamentals and Routing Protocols
ITB012 CCNA 3&4: LAN SWITCHING/ WIRELESS AND ACCESSING THE WAN
ITB016 Fundamentals of Games Design
ITB017 Advanced Games Design
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB228 Enterprise Systems
ITB229 Database Design
ITB230 Project
ITB233 Enterprise Systems Applications
ITB239 Enterprise Data Mining
ITB254 Interaction Design
ITB257 Multimedia Systems
ITB259 Advanced Multimedia Systems
ITB260 E-Commerce Site Development
ITB264 Information Systems Consulting
ITB266 Information Management
ITB298 Business Process Modelling
ITB322 Information Resources

Applications Minor Selectives - Same as for EN40 Electrical.
Please refer to EN40 Electrical Course Structure - Standard Program.

IT Elective units - please see IT Elective Unit list

Industrial Experience
Students must obtain at least 60 days industrial experience in an engineering environment as approved by the Course Coordinator.

**Potential Careers:**
Computer Systems Engineer, Electrical and Computer Engineer, Programmer, Software Engineer, Web Designer.
Bachelor of Games and Interactive Entertainment (IT04)

Year offered: 2008
Admissions: Yes
CRICOS code: 059710E
Course duration (full-time): 3 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,233
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 416102
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 288
Course coordinator: Associate Professor Ruth Christie
Campus: Gardens Point

Course Overview
The Bachelor of Games and Interactive Entertainment gives you the opportunity to join the growing industry of digital entertainment and electronic games by acquiring expertise in the development of computer games and other forms of interactive media. The course has a strong foundation in both entertainment technology and creative skills. You can choose your primary area of study, also known as your major, from:

Animation and Computational Arts: animation and motion graphics, 3D computer graphics and computer generated art
Digital Media: mixing graphics, video, animation and sound to meet the increasingly complex world of digital entertainment
Game Design: game design tools and design processes, narrative and immersion, architecture and interior design
Software Technologies: technical aspects of computer games, games engine and tools development

You will gain experience in the whole process of game and interaction development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, right through to the development and delivery of a final product.

Career Outcomes

Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, quality assurance tester, games/digital media reviewer, video game tester, sound designer, mobile entertainment and communications developer, web developer or digital product strategist.

Scholarships
If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our Ògo for IT gURLÓ merit scholarships.

Find out more about the range of scholarships available.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Professional Recognition
No professional accreditation is currently available for courses in the games and entertainment area.

Students completing the Software Technologies Major would be eligible for membership of the Australian Computer Society (ACS).

Credit for Previous Study
Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.
Bachelor of Games & Interactive Entertainment Course structure

The course consists of four blocks of studies

| Block A: Core Studies (6 units plus a 24 credit point Project completed in Semester 6) |
| Block B: Major (8 units) selected from Animation and Computational Art; Digital Media; Games Design; Software Technologies |
| Block C: Minor (4 units) |
| Block D: Electives (4 units) |

Students who choose to complete the Cooperative Education Program replace an IT general elective with ITS010

Year 1, Semester 1

| ITB750 | Computer Game Studies |
| ITB001 | Problem Solving and Programming |
| ITB002 | IT Professional Studies |
| DEB101 | Introducing Design |

Year 1, Semester 2

| ITB751 | Games Production |
| Block B or Block C Unit |
| Block B or Block C Unit |
| Block B or Block C Unit |

Year 2, Semester 1

| Block B or Block C Unit |
| Block B or Block C Unit |
| Block B or Block C Unit |
| Block B or Block C Unit |

Year 2, Semester 2

| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |

Year 3, Semester 1

| ITB009 | Core Project Management |
| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |

Year 3, Semester 2

| ITB020 | Project |
| Block B or Block C or Block D Unit |
| Block B or Block C or Block D Unit |

Bachelor of Games & Interactive Entertainment Majors Course structure

| Block B Majors (8 units) |
| Animation and Computational Arts |
| KIB105 | Animation and Motion Graphics |
| KIB106 | Character Development, Conceptual Design and Animation Layout |
| KIB107 | Introduction to Programming for 3D |
| KIB108 | Animation Practices |
| KIB201 | Interactive Writing |
| KIB202 | Enabling Immersion |
| KIB310 | Design Studio 3: Virtual Environments |
| DEB201 | Digital Communication |
| DEB102 | Introducing Design History |
| DAB110 | Introductory Architectural Design 1 |
| DTB101 | Interior Design 1 |
| DNB101 | Industrial Design 1 |

Bachelor of Games & Interactive Entertainment Minors Course structure

---

QUT HANDBOOK 2008 · Page 1318
Students select a Minor from the following

### Animation

This minor is not available to students who are undertaking the Animation and Computational Arts Major.

- KIB105 Animation and Motion Graphics
- KIB107 Introduction to Programming for 3D
- KVB105 Foundations of Drawing for Animation 1
- KVB106 Foundations of Drawing for Animation 2
- OR null
- KIB108 Animation Practices

### Advanced Animation#

- KIB212 Animation Studio 1: Preproduction
- KIB213 Animation Studio 2: CG Toolkit

# This Minor is only available to students who are undertaking the Animation and Computational Arts Major. As resources are limited, entry will be determined on the basis of a student's academic performance in the units KIB105, KIB107, KIB108 and KVB105.

### Computational Arts

- ITB003 Object Oriented Programming
- KKB210 Computational Arts 1
- KKB211 Computational Arts 2
- KIB106 Character Development, Conceptual Design and Animation Layout

### Digital Media

- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
  or
- KIB103 Media Technology 1

### Entrepreneurship

- BSB115 Management, People and Organisations
- MGB223 Entrepreneurship and Innovation
  or
- MGB218 Managing Business Growth
- AMB240 Marketing Planning and Management
- AMB251 Innovation and Market Development

### Game Design

- KIB201 Interactive Writing
- KIB202 Enabling Immersion
- ITB017 Advanced Games Design
- ITB016 Fundamentals of Games Design

### Legal Issues

- LWB141 Legal Institutions and Method

- LWB136 Contracts A
  Two units selected from the following
  - LWB137 Contracts B
  - LWB142 Law, Society and Justice
  - LWB480 Media Law
  - LWB486 Intellectual Property Law

### Marketing

- BSB126 Marketing
  Three units selected from the following
  - AMB251 Innovation and Market Development
  - AMB240 Marketing Planning and Management
  - AMB201 Marketing and Audience Research
  - AMB341 Strategic Marketing

### Mathematics for Games#

- MAB100 Mathematical Sciences 1A
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB312 Linear Algebra

  # Students who have completed Maths C can substitute MAB100 with one of the following units: MAB311, MAB481 or MAB422

### Mobile and Network Technologies*

- ITB006 Networks
- ITB720 Internet Protocols and Services
- ITB730 Information Security Fundamentals
- ITB723 Wireless and Mobile Networks

*This Minor is only available to students who are undertaking the Software Technologies Major

### Sound Design

- KMB105 Music and Sound Technology
- KMB106 Music and Sound for Multimedia
- KMB107 Sound, Image, Text
- KMB108 Sound Recording and Acoustics

### Physics for Games

- PCB107 Physics and Quantitative Techniques
- PCB460 Instrumentation and Computational Methods
- PCB593 Digital Image Processing
- PQB251 Waves and Optics

### Software Technologies

- ITB003 Object Oriented Programming
- ITB004 Database Systems
- ITB005 Systems Architecture
- ITB749 Scientific Programming

This minor is not available to students who are undertaking the Software Technologies Major

**Potential Careers:**
Bachelor of Games and Interactive Entertainment - Dean's Scholars Program (IT04)

Year offered: 2008
Admissions: Yes
Course duration (full-time): 3 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,233
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Course coordinator: Ruth Christie
Campus: Gardens Point

Course Overview
The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Games and Interactive Entertainment and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Games and Interactive Entertainment gives you the opportunity to join the growing industry of digital entertainment and electronic games by acquiring expertise in the development of computer games and other forms of interactive media. The course has a strong foundation in both entertainment technology and creative skills. You can choose your primary area of study from Animation and Computational Arts, Digital Media, Game Design or Software Technologies.

You will gain experience in the whole process of game and interaction development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, right through to the development and delivery of a final product.

Who should apply?
The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

Financial Support
Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

OP Guarantee
The OP Guarantee does not apply to this program.

Deferment
QUT's deferment policy does not apply to this course.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

KMB105 Music and Sound Technology
KMB106 Music and Sound for Multimedia
KMB107 Sound, Image, Text
KMB108 Sound Recording and Acoustics

Physics for Games

PCB107 Physics and Quantitative Techniques
PCB460 Instrumentation and Computational Methods
PCB593 Digital Image Processing
PQB251 Waves and Optics

Software Technologies

ITB003 Object Oriented Programming
ITB004 Database Systems
ITB005 Systems Architecture
ITB749 Scientific Programming
This minor is not available to students who are undertaking the Software Technologies Major

Potential Careers:
Bachelor of Corporate Systems Management (IT06)

Year offered: 2008
Admissions: Yes
CRICOS code: 059712C
Course duration (full-time): 3 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,252
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 416301
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Course coordinator: Dr Taizan Chan
Campus: Gardens Point

Course Overview
The Bachelor of Corporate Systems Management will give students the skills and knowledge to identify and communicate business system needs, select the right information systems and integrate these systems into organisations to improve business performance.

The course is industry relevant and flexible, with the option to focus studies on areas such as IT management, enterprise systems, IT consulting, business process engineering, and knowledge management. Students will learn about, and come to understand, the interrelationship of information technology, business and client relations.

Career Outcomes
The professional skills gained from the Bachelor of Corporate Systems Management are applicable across all business domains. Students will gain knowledge and an understanding of how to work with people and clients, operations, systems and production, while learning how to apply a strategic focus in a management role.

As a graduate, students can expect to work as a business analyst or consultant, enterprise architect, information or knowledge strategist, ICT project manager or IT infrastructure manager.

Scholarships
If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our Ōgo for IT gURLŌ merit scholarships.

Find out more about the range of scholarships available.

Cooperative Education Program
The Faculty of IT’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Professional Recognition
Recognition of the course by the Australian Computer Society (ACS) will be sought during 2007.

Credit for Previous Study
Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Bachelor of Corporate Systems Management

Block A: Core Units (16 Units)

Block B: Complementary Studies (8 units)

Year 1, Semester 1
ITB002 IT Professional Studies
ITB360 Corporate Systems
ITB361 Socio-technical Systems
ITB362 Organisational Databases

Year 1, Semester 2
BSB115 Management, People and Organisations
ITB363 Project Management Practice
ITB364 Information Systems Development
Block B Unit

Year 2, Semester 1
ITB365 Business Analysis
ITB366 Information Systems Operations
MGB223 Entrepreneurship and Innovation
Block B Unit

Year 2, Semester 2
BSB126 Marketing
ITB823 Web Sites For Electronic Commerce
Block B Unit
Block B Unit

Year 3, Semester 1
ITB233 Enterprise Systems Applications
ITB264 Information Systems Consulting
Block B Unit
Block B Unit

Year 3, Semester 2
ITB298 Business Process Modelling
ITB370 Project
Block B Unit
Block B Unit

Block B: Complementary Studies
Students select a 4, 6 or 8 unit set/s from within the Faculty of IT or from those offered by other Faculties at QUT. Alternatively, students may undertake eight elective units with the approval of the Course Coordinator.
Students who choose to complete the Cooperative Education Program replace a Block B unit with ITS010

Banking and Finance (Faculty of Business)
BSB113 Economics
BSB122 Quantitative Analysis and Finance
EFB101 Data Analysis for Business
EFB102 Economics 2
EFB201 Financial Markets
EFB210 Finance 1
EFB307 Finance 2
EFB312 International Finance

Business Needs Analysis (Faculty of IT)
ITB002 IT Professional Studies
ITB322 Information Resources
ITB361 Socio-technical Systems

ITB365 Business Analysis
For additional units see below
ITB264 Information Systems Consulting
ITB298 Business Process Modelling
ITB363 Project Management Practice

Business Systems Engineering (Faculty of IT)
ITB003 Object Oriented Programming
ITB004 Database Systems
ITB008 Modelling Analysis and Design
ITB228 Enterprise Systems

Creative Industries Management (Creative Industries Faculty)
KTB207 Staging Australia
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation

Construction Management - Administration (Faculty of Built Environment and Engineering)
UDB101 Stewardship of Land
UDB104 Urban Development Economics
UDB110 Residential Construction and Engineering
UDB111 Engineering Construction Materials

Databases
ITB003 Object Oriented Programming
ITB004 Database Systems
ITB008 Modelling Analysis and Design
ITB229 Database Design
ITB239 Enterprise Data Mining

Electronic Business (Faculty of IT/Faculty of Business)
ITB004 Database Systems
ITB233 Enterprise Systems Applications
ITB239 Enterprise Data Mining
ITB823 Web Sites For Electronic Commerce
BSB212 Electronic Business Applications
BSB314 E-Business Intelligence
BSB213 Governance Issues in E-Business

Entrepreneurship (Faculty of Business)
MGB223 Entrepreneurship and Innovation
MGB218 Managing Business Growth
AMB240 Marketing Planning and Management
AMB251 Innovation and Market Development

Games Development (Faculty of IT)
ITB002 IT Professional Studies
ITB016 Fundamentals of Games Design

Bachelor of Corporate Systems Management - Dean's Scholars Program (IT06)

Year offered: 2008
Admissions: Yes
Course duration (full-time): 3 years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,252
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Course coordinator: Dr Taizan Chan
Campus: Gardens Point

Course Overview
The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Corporate Systems Management and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Corporate Systems Management is an industry-relevant course designed to help you understand the interrelationships between information, technology, business and people. The information professional of the future understands the benefits that cutting-edge technology can deliver. You can add value by helping organisations understand and meet their information challenges.

The course is designed to develop the knowledge and skills you need to understand and communicate business needs, select the right systems and harness these systems to improve business performance for organisations.

Who should apply?
The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

Financial Support
Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

OP Guarantee
The OP Guarantee does not apply to this program.

Deferment
QUT's deferment policy does not apply to this course.

Cooperative Education Program

The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and information technology. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. In the information technology component students complete a set of core units integral to all information and technology professionals and then select units in a specialised area of information technology. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UniTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Past OP cut-off: 13
Campus: Gardens Point and Kelvin Grove

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and games and interactive entertainment. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. In the games and interactive entertainment component students complete core units in the basics of design, games studies, professional skills and programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Ergex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

University Diploma in Information Technology (IT10)

Year offered: 2008
Admissions: Yes
CRICOS code: 025283M
Course duration (full-time): 2 semesters
International Fees (per semester): 2008: $7,500 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Elizabeth McDade
Campus: Kelvin Grove

Abbreviation
UnivDipInfTech

Entry requirements - Academic
Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The University Diploma in Information Technology, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Information Technology. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Technology. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low pass) in the remaining unit.

Progression
Requirements for progression to the second year of QUT Bachelor of Information Technology:

i) fulfil the Diploma course requirements,
ii) a minimum Grade Point Average (GPA) of 4, and
iii) an IELTS score of 6.5 or its equivalent.

IT10 - University Diploma in InfoTech (Full-time course)

Potential Careers:
Bachelor of Information Technology
(FOR CONTINUING STUDENTS ONLY)

(IT21)

Year offered: 2008
Admissions: No
CRICOS code: 012656E

Course duration (full-time): 3 years (international students
must study at Gardens Point)
Course duration (part-time): 6 years (not available at
Carseldine)

Domestic fees (per credit point): Commonwealth
Supported Place; Full fee tuition 2008: $166 per credit point
(subject to annual review)
Domestic fees (indicative): 2008 Full fee tuition $15,936
CSP $6,059

International Entry: February, July and October
(Conditions apply for October entry)

OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory
Mathematics as a visiting student or QUT Continuing
Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time
vocational or tertiary study. For further information contact
07 3138 2000 or email study@qut.com

Total credit points: 288
Course coordinator: Richard Thomas
Campus: Gardens Point and Carseldine

Career Outcomes
IT is now an integral part of all commercial, industrial and
government activities.
A graduate may find employment as a: Programmer,
Software Engineer, Systems Programmer, Computer
Scientist, Systems Analyst, Data Communications
Specialist, Information Manager, Electronic Commerce
Developer, Games Developer, Multimedia Specialist,
Network Administrator, Database Manager, Web Developer.

For information on the above job descriptions, visit IT Skills
Hub.

Course Design
From 2006, the Bachelor of Information Technology will be
redesigned to ensure graduates are industry ready and
future proof.

In response to the ever-changing IT industry, the new
Bachelor of IT will provide a strong theoretical and practical
grounding on which students can build to advance their own
unique career aspirations. This course is designed to
ensure graduates are industry ready and future proof. A key
feature of the program is greater flexibility for students to
complement their IT studies with a related discipline (eg
Business, Creative Industries, Science), all within three
years.

The 24 unit degree comprises:
- Ten Faculty Core Units that must be undertaken by all
students to provide a strong foundation for a career in IT
- Six units in an IT Major
- Eight units in IT Complementary Studies, including for
example a second IT Major or an Extended Major.

Click here for more info.

Students commencing at Carseldine campus must transfer
to Gardens Point campus after the completion of first year
(ie 96 credit points of study).

Credit for previous study
Domestic and international applicants may claim credit for
part of the degree, on the basis of completed or partially
completed studies, related to the Bachelor of IT.

International students can access advanced standing
arrangements on QUT’s international site.

Domestic applicants should view the credit information on
the Student Services site.

Professional Recognition
Graduates of the Bachelor of Information Technology meet
the knowledge requirement for admission to the Australian
Computer Society (ACS) as members.

Co-operative Education Program
The Cooperative Education Program is a joint venture
between employers and educators to better prepare
students for employment upon graduation. Students have
the opportunity to undertake 10-12 months of paid industry
employment between the second and third years of an IT
degree.

Entry to the program is based on academic performance in
the first two years of the Bachelor of Information
Technology. Companies that QUT's Cooperative Education
students have worked with include Energex, Boeing,
CITEC, Global Banking and Securities Transaction, various
Queensland Government departments, Dialog, TABQ,
RACQ and Sun Microsystems.

More information is available on the Cooperative Education
site.

Please note this program is only offered to Australian
residents and permanent residents.

Deferment
From 2006, QUT will allow Year 12 school leavers to defer
their undergraduate admission offer for one year, or for six
months if offered mid-year admission, except in courses
using specific admission requirements such as
questionnaires, folios, auditions, prior study or work
experience.

Course Overview
A Bachelor of Information Technology will start you on a challenging and rewarding career path facing the changes brought about by evolving global innovations. You will have the flexibility in your course to complement your skills and knowledge with a cross-section of study areas from other disciplines and faculties.

This course offers you a wide range of options to build your information technology skill set and develop complementary skills from other professional disciplines. You will gain a strong theoretical and practical foundation to advance your career aspirations, choosing from compact and focused specialisations allowing you to hone your skills in an advanced area of information technology and other professions.

Scholarships
If you wish to enrol in the Bachelor of Information Technology, you may like to consider our Dean's Scholars Program for OP1-2 students. If you are a female high school student, you may also apply for our Ògo for IT gURLÓ merit scholarships.

Find out more about the range of scholarships available.

Cooperative Education Program

The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what youÕre learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Professional Recognition
Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Credit for Previous Study
Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Domestic applicants should view the credit information on the Student Services site.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Bachelor of Information Technology

Course Structure

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) if applicable, and 8 Complementary Studies Area Units (Block C). For those students who choose the Generic No Major option, students replace the major units with any 6 ITBxxx units provided they meet the prerequisites.

Eight (8) Block A units are completed in the first year, while the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course

Past rank cut-off: 96. Also see entry requirements
Past OP cut-off: 3. Also see entry requirements
Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Course coordinator: Richard Thomas
Campus: Gardens Point

Course Overview
The Dean's Scholars Program is an accelerated honours program allowing completion of the Bachelor of Information Technology and an honours degree in three years instead of four years. This accelerated program is designed for students with an OP 1 or 2 (or equivalent), who can also demonstrate active involvement in their school and local community activities.

The Bachelor of Information Technology gives you a strong theoretical and practical foundation to advance your career aspirations, choosing from compact and focused specialisations allowing you to hone your skills in an advanced area of information technology and other professions.

You will have the flexibility to complement your skills and knowledge in IT with a cross-section of studies from other disciplines.

Who should apply?
The program is open to applicants currently undertaking Year 12 studies at a secondary school, and who achieve an OP 1 or 2 (or interstate equivalent). Applicants must be outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia.

Financial Support
Domestic students offered a place in the Dean's Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honours will also receive full HECS support.

International students will have one-third of their tuition fees paid by the faculty for the undergraduate and honours programs.

Students are responsible for all other costs associated with their program.

Additional Entry Requirements
Information Technology Dean's Scholars applicants are required to complete an online questionnaire which will be available at addentry.qut.com in late August. Shortlisted applicants may be required to attend an interview (in December) and will be notified of date and venue after the questionnaire closes.

The due date to submit the questionnaire is 28 September 2007. Late submissions will be accepted up until 30 November. Submissions after 30 November will not be accepted.

Fixed Closing Date
Applications for this program will close on 30 November.

OP Guarantee
The OP Guarantee does not apply to this program.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you are learning in your degree. Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support as a Dean's Scholar for the duration of the placement.

Find out more about the Cooperative Education Program.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Deferment
QUT's deferment policy does not apply to this course.

International Student Entry
To be eligible to enrol in the Honours program, students must demonstrate appropriate levels of achievement in the Bachelor of Information Technology course. Offers in the Honours program will be made conditionally on the student maintaining a GPA of 5.5 in the Bachelor of Information Technology component to be eligible to continue to the Bachelor of Information Technology (Honours). It is expected that many Dean's Scholars will proceed to PhD studies. However, students have the option of exiting after the Bachelor of Information Technology (2.5yrs).

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.)
and who have been invited and accepted to continue as a fee-paying student.

**Bachelor of Information Technology**

**Course Structure**

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year. While the remaining two (2) Block A units are completed later in the course.

**Potential Careers:**
Computer Game Programmer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Electrical and Computer Engineer, Information Officer, Information Security Specialist, Internet Professional, Manager, Multimedia Designer, Network Administrator, Network Manager, Programmer, Project Manager, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer, Systems Trainer, Web Designer.
Bachelor of Information Technology (Honours) (IT28)

Year offered: 2008  
Admissions: Yes  
CRICOS code: 017323G  
Course duration (full-time): 1 year  
Course duration (part-time): 2 years  
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)  
Domestic fees (indicative): 2008 Full fee tuition $15,936; CSP $7,252  
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)  
Domestic Entry: February and July  
International Entry: February and July  
Total credit points: 96  
Course coordinator: Associate Professor Shlomo Geva  
Campus: Gardens Point

Course Overview

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Entry Requirements

A Bachelor of Information Technology from QUT or its equivalent, completed within 18 months prior to enrolment with a minimum grade point average of 5 on a 7-point scale or its equivalent OR demonstrated outstanding performance in the final year of the degree OR work experience or research considered appropriate by the Course Coordinator.

The 'Accelerated' Honours Program

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology students to continue into the Faculty's Honours Program. See course entry IT29 for further information.

Notes

Duration

Except in special circumstances as approved by the Dean, the requirements for an Honours degree must be completed within two successive years following first enrolment.

Unsatisfactory Progress

Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:

- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

Assessment

The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable). A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding. Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

Determination of Level of Honours Awards

The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:

- Honours 1 - First Class Honours
- Honours 2A - Second Class Honours, Division A
- Honours 2B - Second Class Honours, Division B
- Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

- Honours 1 - GPA 6.50-7.00, or equivalent
- Honours 2A - GPA 5.50-6.49, or equivalent
- Honours 2B - GPA 4.50-5.49, or equivalent
- Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

Further Information

For further information contact the course coordinator Shlomo Geva on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/researchdegrees.jsp

**IT Honours Elective Units**

**Elective units**

Elective units should normally be chosen from the following list of approved honours electives. At least one of your three electives must be chosen from the list of Advanced Honours Electives. You may enrol in at most one unit not listed below (including units offered by other Faculties) if your supervisor submits a request to the course coordinator indicating that said unit will directly support your honours dissertation. Please note that many units are only offered once per year and many have prerequisite requirements, so you will need to carefully plan ahead. If you require assistance in selecting suitable units from the lists below, please discuss it with your supervisor and course coordinator as soon as possible.

Bachelor of Information Technology (Honours) - Accelerated Program (IT29)

**Year offered:** 2008

**Admissions:** No

**CRICOS Code:** 017323G

**Course duration (full-time):** 2 semesters

**Domestic fees (per credit point):** Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)

**Domestic fees (indicative):** 2008: Full fee tuition $15,936; CSP $7,118

**International Fees (per semester):** 2008: $10,080 per semester (subject to annual review)

**Domestic Entry:** February and July

**International Entry:** February and July

**Total credit points:** 96

**Course coordinator:** Associate Professor Shlomo Geva

**Campus:** Gardens Point

**Course Overview**

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology students to continue into the Faculty's Honours Program. Benefits of this accelerated program are:

* you are approved to undertake a concurrent enrolment in the final semester of Bachelor of Information Technology, that is to say, the student may enrol in undergraduate units and Honours.
* 12 credit points will be credited towards Block 3 electives in your Bachelor of Information Technology on the basis of coursework studies completed in IT29 Honours.
* you are able to complete a four year program within 3 1/2 years.

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Please note: tuition fees normally apply for Summer enrolment.

**Notes**

**Assessment**
The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable).

A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding.

Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

**Determination of Level of Honours Awards**
The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:

- Honours 1 - First Class Honours
- Honours 2A - Second Class Honours, Division A
- Honours 2B - Second Class Honours, Division B
- Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

- Honours 1 - GPA 6.50-7.00, or equivalent
- Honours 2A - GPA 5.50-6.49, or equivalent
- Honours 2B - GPA 4.50-5.49, or equivalent
- Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

**Unsatisfactory Progress**

Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

**Unsatisfactory progress consists of:**

- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

* The first semester of the Accelerated Honours Program occurs in the final semester of the IT22 course (48 credit points remaining). This involves a concurrent enrolment with IT22 (36 credit points enrolment) and 12 credit points Honours elective undertaken within the IT29 course.

Please note: tuition fees normally apply for Summer enrolment. Deans Scholars should...
contact the IT22 Course Coordinator for further details.

Elective Units - Students should choose from the list of advanced level postgraduate units. Normally units are undertaken in the area of the student's undergraduate major. Students wishing to enrol in a unit other than those listed should contact the Course Coordinator. Students should note that many electives might be offered in the evenings only.

Graduate Diploma in Information Technology (IT Graduates) (IT35)

Year offered: 2008
Admissions: Yes
CRICOS code: 018771J
Course duration (full-time): 1 years
Course duration (part-time): 2 years
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
This program is designed for information technology graduates who wish to update and upgrade their knowledge and skills for purposes of further career development. The course assists IT graduates to acquire specialised knowledge in an area of information technology and/or widen their knowledge into new areas of information technology.

Entry Requirements
Applicants for either IT35 or IT40 must have:
a) a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale)
OR
b) provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study

Applicants who wish to gain entry into this course, based on IT work experience, are encouraged to complete a Graduate Equivalency Proforma.

Course Structure
To graduate from the Graduate Diploma in IT, students are required to have completed 8 units, including:
1 x Compulsory Unit - ITN272 Information Technology Project Management
A minimum of 5 x Advanced Level 1 Units
A minimum of 1 x Advanced Level 2 Units

Students may also gain credit for one or more graduate certificate awards while completing the Grad Dip or Masters program.

Articulation
Students who successfully complete the Graduate Diploma (96 credit points) are eligible for admission to the Masters and are only required to undertake an additional four units to meet the requirements for the Masters degree.

ITN152-2 Major Project Part Time
ITN172-1 Project Part Time
ITN172-2 Project Part Time

Intermediate Level Units
With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

ITN007 Web Development
ITN011 CCNA 1 & 2: Network Fundamentals and Routing Protocols
ITN012 CCNA 3&4: LAN SWITCHING/WIRELESS AND ACCESSING THE WAN
ITN218 Applications Programming
ITN223 Software Development with Oracle
ITN228 Enterprise Systems
ITN229 Database Design
ITN266 Information Management
ITN322 Information Resources
ITN712 Software Engineering Principles
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration
ITN730 Information Security Fundamentals
ITN732 Cryptology and Protocols
ITN749 Scientific Programming

IT89 - Graduate Certificate in IT (Wireless Games Technology)
Four (4) units to be selected from the following
ITN254 Interaction Design
ITN720 Internet Protocols and Services
ITN723 Wireless and Mobile Networks
ITN746 Modelling and Animation Techniques

IT90 Graduate Certificate in IT (Computer Networks)
4 Units to be completed
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration
ITN723 Wireless and Mobile Networks
ITN771 Advanced Network Management

IT92 Grad Cert in Information Technology (Information Security)
Four (4) units to be completed
ITN246 Minor Project 1
ITN730 Information Security Fundamentals
ITN732 Cryptology and Protocols
ITN765 Special Topic 5

IT93 - Graduate Certificate in IT (Enterprise Wide Software)
Four (4) units to be completed
ITN228 Enterprise Systems
ITN233 Enterprise Systems Applications
ITN253 Case Studies In Enterprise Systems
ITN298 Business Process Management

IT94 - Graduate Certificate in IT (Electronic Commerce)
Four (4) units to be selected from the following
ITN007 Web Development
ITN229 Database Design
ITN260 E-Commerce Site Development
ITN730 Information Security Fundamentals

IT95 - Graduate Certificate in IT (Project)
48 credit points to be completed either full time or part-time
ITN142 Major Project Full-Time
ITN152-1  Major Project Part Time
ITN152-2  Major Project Part Time

Students will not normally be eligible to enrol in IT95 without having completed at least 48 cp of Masters or equivalent units.

**IT96 - Graduate Certificate in IT (Information Technology Management)**

Four (4) units to be completed
- ITN241  Information Technology Management
- ITB264  Information Systems Consulting
- ITN266  Information Management
- ITN272  Information Technology Project Management

**IT98 - Graduate Certificate in IT (Multimedia)**

Four (4) units to be selected from the following
- ITN007  Web Development
- ITB254  Interaction Design
- ITN257  Multimedia Systems
- ITN259  Advanced Multimedia Systems

**IT99 - Graduate Certificate in IT (Component Software and Web Services)**

Four (4) units to be completed
- ITN712  Software Engineering Principles
- ITN713  Advanced Java Programming
- ITN716  Advanced Web Applications Development
- ITN717  Enterprise Software Architecture

**Potential Careers:**
Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Graduate Diploma in Information Technology (Non-IT Graduates) (IT38)

Year offered: 2008
Admissions: Yes
CRICOS code: 018771J
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February, July and November
International Entry: February, July and November
Total credit points: 96
Course coordinator: Hamish Bentley
Campus: Gardens Point

Course Overview
This program is designed for non-IT graduates who wish to broaden career opportunities by gaining a postgraduate IT qualification. The programs allow students to specialise in a wide range of areas including software engineering, data communications and information systems.

These programs aim to build on non-IT skills acquired in previous study, such as critical and analytical skills; as well as provide an IT curriculum with depth and breadth, from introductory to advanced level.

Students are encouraged to focus on those parts of the employment spectrum where cross-disciplinary qualifications are most appreciated.

Entry Requirements
Students can elect to be admitted to either the Graduate Diploma in Information Technology (IT38) or the Master of Information Technology (IT45).

Applicants for either IT38 or IT45 must have: a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage such as desktop applications, email, Internet.

Applicants are assumed to have possessed the following prerequisite skills:
- Can use and manage email facilities;
- Can create and manage a personal file system (e.g. home or office computer);
- Understand how to locate and use resources on the internet;
- Familiar with the typical desktop environment: word processors, spreadsheets, etc.;
- Aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

Course Structure
To graduate with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:
1 x Compulsory Unit - ITN272 IT Project Management
A Minimum of 3 x Basic Level Units
4 x Chosen from Intermediate or Advanced Level 1 Units

Articulation
Students who complete IT38 can subsequently seek admission to IT45 and are only required to undertake an additional four units to meet the requirements for the Masters degree.

Further Information
For further information contact the course coordinator Hamish Bentley on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse

IT45 v1 - Master of Information Technology (Non-IT Graduates)

Compulsory Unit*
ITN272 Information Technology Project Management
* For students who commenced Semester 2, 2006 or later

Basic Level Units compulsory
ITN200 Database Systems
ITN201 Enterprise Architectures
ITN700 Programming Principles
OR
ITB001 Problem Solving and Programming
ITN701 Networks and Systems

Intermediate Level Units
ITN007 Web Development
ITN218 Applications Programming
ITN223 Software Development with Oracle
ITN228 Enterprise Systems
ITN229 Database Design
ITN241 Information Technology Management
ITN266 Information Management
ITN322 Information Resources
ITN712 Software Engineering Principles
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration
ITN730 Information Security Fundamentals
ITN732 Cryptology and Protocols
ITN362 Organisational Databases

Applicants may refer to an online Computer Literacy Self-Assessment Questionnaire for more information.

Master of Information Technology (IT Graduates) (IT40)

Year offered: 2008
Admissions: Yes
CRICOS code: 003776E
Course duration (full-time): 3 semesters
Course duration (part-time): 6 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 144
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Master of Information Technology Ñ with associated nested graduate diploma and graduate certificates Ñ can be tailored for information technology graduates who wish to revise, update or extend their IT skills and knowledge.

Students may take the Master of Information Technology as a broad-based qualification or choose to specialise in a particular area such as networks, security, enterprise systems, software development, IT management or games development.

With multiple specialisations now emerging in IT, applicants with existing IT qualifications may wish to study advanced units in their own specialisation, and/or move into an entirely different study of IT.

IT graduates who are unsure about enrolling in a full Masters program may like to enrol in a Graduate Certificate or Graduate Diploma which can then be used to articulate into the Master of Information Technology (IT40).

Entry Requirements
A bachelor degree majoring in information technology with a grade point average of at least 4.5 (on a 7-point scale) OR evidence of work experience and/or training equivalent to an IT major.

Course Structure
With the availability of a nested graduate diploma and graduate certificates, students in the Master of Information Technology may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Diploma in Information Technology (IT35), after completing 96 credit points (8 units), including the compulsory unit in IT Project Management.

Students may also be eligible to receive one or more Graduate Certificates in Information Technology, after completing 48 credit points (4 units) consisting of the four specified units in a concentrated area of study.

Contact Details
For further information, please contact Dr Ernest Foo on 3138 2782 or fit.enquiries@qut.edu.au

IT35/40/48 v1Master of Information Technology (IT Graduates)

Compulsory Unit*
ITN272 Information Technology Project Management
Only for students who commenced Semester 2, 2006 or later
null

Advanced Level 1 Units
ITN016 Fundamentals of Games Design
ITN017 Advanced Games Design
ITN233 Enterprise Systems Applications
ITN239 Enterprise Data Mining
ITN254 Interaction Design
ITN257 Multimedia Systems
ITN260 E-Commerce Site Development
ITN264 Information Systems Consulting
ITN272 Information Technology Project Management
ITN298 Business Process Management
ITN702 Algorithms and Data Structures
ITN705 Intelligent Systems
ITN706 Systems Programming
ITN713 Advanced Java Programming
ITN722 Network Planning and Deployment
ITN716 Advanced Web Applications Development
ITN717 Enterprise Software Architecture
ITN723 Wireless and Mobile Networks
ITN746 Modelling and Animation Techniques
ITN751 Games Production
Project - 12 and 24 credit points (See Project Units for codes)

Advanced Level 2 Units
ITN100 Introduction to Research
ITN253 Case Studies In Enterprise Systems
ITN259 Advanced Multimedia Systems
ITN269 Special Topic 2B
ITN747 Real Time Rendering Techniques
ITN761 Special Topic 1
ITN762 Special Topic 2
ITN763 Special Topic 3
ITN764 Special Topic 4
Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 units are 48 credit points.

**Intermediate Level Units**

With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

- ITN007 Web Development
- ITN011 CCNA 1 & 2: Network Fundamentals and Routing Protocols
- ITN012 CCNA 3&4: LAN SWITCHING/WIRELESS AND ACCESSING THE WAN
- ITN218 Applications Programming
- ITN223 Software Development with Oracle
- ITN228 Enterprise Systems
- ITN229 Database Design
- ITN266 Information Management
- ITN322 Information Resources
- ITN712 Software Engineering Principles
- ITN720 Internet Protocols and Services
- ITN721 Computer Network Administration
- ITN730 Information Security Fundamentals
- ITN732 Cryptology and Protocols
- ITN749 Scientific Programming

**IT90 Graduate Certificate in IT (Computer Networks)**

Four (4) units to be completed

- ITN246 Minor Project 1
- ITN248 Minor Project 2
- ITN162 Project
- ITN142 Major Project Full-Time
- ITN791 Minor Project 1
- ITN792 Minor Project 2
- ITN152-1 Major Project Part Time
- ITN152-2 Major Project Part Time
- ITN172-1 Project Part Time
- ITN172-2 Project Part Time

**IT92 Grad Cert in Information Technology (Information Security)**

Four (4) units to be completed

- ITN246 Minor Project 1
- ITN730 Information Security Fundamentals
- ITN732 Cryptology and Protocols
- ITN765 Special Topic 5

**IT93 - Graduate Certificate in IT (Enterprise Wide Software)**

Four (4) units to be completed

- ITN228 Enterprise Systems
- ITN233 Enterprise Systems Applications
- ITN253 Case Studies In Enterprise Systems
- ITN298 Business Process Management

**IT94 - Graduate Certificate in IT (Electronic Commerce)**

Four (4) units to be selected from the following

- ITN007 Web Development
- ITN229 Database Design
- ITN260 E-Commerce Site Development
- ITN730 Information Security Fundamentals

**IT95 - Graduate Certificate in IT (Project)**

48 credit points to be completed either full time or part-time

- ITN142 Major Project Full-Time
- ITN152-1 Major Project Part Time
- ITN152-2 Major Project Part Time

Students will not normally be eligible to enrol in IT95 without having completed at least 48 cp of Masters or equivalent units.

**IT96 - Graduate Certificate in IT (Information Technology Management)**
Four (4) units to be completed

ITN241  Information Technology Management
ITB264  Information Systems Consulting
ITN266  Information Management
ITN272  Information Technology Project Management

**IT98 - Graduate Certificate in IT (Multimedia)**

Four (4) units to be selected from the following

ITN007  Web Development
ITB254  Interaction Design
ITN257  Multimedia Systems
ITN259  Advanced Multimedia Systems

**IT99 - Graduate Certificate in IT (Component Software and Web Services)**

Four (4) units to be completed

ITN712  Software Engineering Principles
ITN713  Advanced Java Programming
ITN716  Advanced Web Applications Development
ITN717  Enterprise Software Architecture

**Potential Careers:**

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Master of Information Technology (Non-IT Graduates) (IT45)

Year offered: 2008
Admissions: Yes
CRICOS code: 003776E
Course duration (full-time): 3 semesters
Course duration (part-time): 6 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February, July and November
International Entry: February, July and November (Conditions apply for November entry)
Total credit points: 144
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Master of Information Technology Ñ with associated nested graduate diploma and graduate certificates Ñ can be tailored for non-IT graduates looking to broaden their career opportunities by gaining a postgraduate IT qualification.

Students may take the Master of Information Technology as a broad-based qualification or may choose to specialise in a particular area such as networks, security, enterprise systems, software development, IT management or games development.

With multiple specialisations now emerging in IT, applicants with existing IT qualifications may wish to study advanced units in their own specialisation, and/or move into an entirely different study of IT. It is highly recommended that students from a non-IT background commence study with a set of introductory units.

Non-IT graduates who are unsure about enrolling in a full Masters program may like to enrol in a Graduate Diploma which can then be used to articulate into the Master of Information Technology (IT45).

Entry Requirements
A bachelor degree in a discipline other than information technology with a grade point average of at least 4.5 (on a 7-point scale) AND demonstrated competence in the basic skills and concepts of personal or office computer usage.

Course Structure
With the availability of a nested graduate diploma and graduate certificates, students in the Master of Information Technology may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Diploma in Information Technology (IT38), after completing 96 credit points (8 units), including the compulsory unit in IT Project Management.

Students may also be eligible to receive one or more Graduate Certificates in Information Technology, after completing 48 credit points (4 units) consisting of the four specified units in a concentrated area of study.

Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Master of Information Technology (Advanced) builds on the existing Master of Information Technology for IT graduates, with the addition of further units to enhance students' knowledge in another discipline or add depth to an IT specialisation. As students progress through their studies, there is the opportunity to accumulate graduate certificates and a graduate diploma, depending on how students choose to focus their studies.

Entry Requirements
A bachelor degree majoring in information technology with a grade point average of at least 4.5 (on a 7-point scale) OR evidence of work experience and/or training equivalent to an IT major.

Course Structure
With the availability of a nested graduate diploma and graduate certificates, students in the Master of Information Technology (Advanced) may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Diploma in Information Technology (IT35), after completing 96 credit points (8 units), including the compulsory unit in IT Project Management.

Students may also be eligible to receive one or more Graduate Certificates in Information Technology, after completing 48 credit points (4 units) consisting of the four specified units in a concentrated area of study.

Further Information

Master of Business Process Management (IT53)

Year offered: 2008
Admissions: Yes
CRICOS code: 062622A
Course duration (full-time): 1.5 years
Course duration (part-time): 3 years
Domestic fees (per credit point): Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960;
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February, July
International Entry: February, July
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Taizan Chan
Campus: Gardens Point

Course Overview
The Master of Business Process Management will provide graduates with the skills and knowledge to create and align information systems to effectively support business and enable business strategy.

The program examines business-IT alignment issues through appropriate theory and skill development, and provides career enhancement opportunities into senior management and governance roles.

Students may undertake study in the areas of corporate systems and business process management, IT professional services (including project management and IT consulting), enterprise architecture and systems, and information and knowledge management within business processes.

Entry Requirements
A bachelor degree with a grade point average of at least 4.5 (on a 7-point scale) AND demonstrated competence in the basic skills and concepts of personal or office computer usage.

Course Structure
With the availability of two nested graduate certificates, students in the Master of Business Process Management may achieve a number of awards on their pathway to a Masters.

Students may be eligible to receive a Graduate Certificate in Business Process Management after completing 48 credit points (4 units) consisting of the four specified units.

Students may also be eligible to receive a Graduate Certificate in Corporate Systems Management after completing 48 credit points (4 units) consisting of the four specified units.

Further Information
For further information contact the course coordinator Dr Taizan Chan on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

Master of Information Technology (Research) (IT60)

Year offered: 2008
Admissions: Yes
CRICOS code: 020309B
Course duration (full-time): 1.5 years or 3 semesters
Course duration (part-time): 3 years or 6 semesters
Domestic fees (per credit point): RTS/RTA; 2008: $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12960
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Total credit points: 144
Course coordinator: Associate Professor Shlomo Geva
Campus: Gardens Point

Course Overview
The Master of Information Technology (Research) provides specialist education in information technology through a program that involves either an original contribution to knowledge or an original application of existing knowledge.

Students choose a research topic from recognised areas of research concentration within the Faculty. Research can be carried out in a research centre of the Faculty, in the student’s place of employment or in a sponsoring institution.

Entry Requirements
Applicants must have:
• an approved degree in information technology from a recognised tertiary institution or an equivalent qualification, with a grade point average of 5 (on a 7-point scale) OR
• an approved degree from a recognised tertiary institution plus evidence of professional experience and skills to satisfy the academic board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

Research Areas
Areas of research interest and contact details can be obtained from the Faculty website

Course Structure
Students entering the degree with second-class honours division A (or better) in an IT-related course will often complete the degree in one year full-time. The length of the program is generally expected to be 18 months full-time (including six months of provisional registration) or three years part-time (including one year of provisional registration).

Assessment for this research masters is based on a program of supervised research and investigation, culminating in a thesis.

Programs may include some coursework in support of the conduct of research and preparation of a thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

Further Information
Visit www.fit.qut.edu.au, email infotech.research@qut.edu.au, or phone +61 7 3138 9485

Potential Careers:
Business Analyst, Computer Games Developer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Master of Information Management (IT70)

Year offered: 2008
Admissions: Yes
CRICOS code: 053705F
Course duration (full-time): 3 semesters
Course duration (part-time): 6 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February, July - Part time only
International Entry: February
Assumed knowledge: See Entry Requirements
Total credit points: 144
Course coordinator: Acting - Helen Partridge
Campus: Gardens Point

Course Overview
This program provides graduates with the skills to find employment in a broad spectrum of information work in public, academic and special libraries and within corporate and government information management contexts. Students will come to understand and manage the complexities of information which impact on society.

Entry Requirements
To be eligible for this course, students must have demonstrated competence in the basic skills and concepts of personal or office computer usage and must meet one of the following criteria:

- a bachelor degree in a discipline other than library or information studies with a grade point average of at least 4.5 (on a 7-point scale) OR
- evidence of recognised prior learning (e.g. at least five years of relevant full-time work experience).

Course Structure
With the availability of a nested graduate diploma, students in the Master of Information Management may be eligible to receive a Graduate Diploma in Information Management (IT72), after completing 96 credit points (8 units), consisting of eight specified units in a concentrated area of study.

Professional Recognition
The Master of Information Management is professionally recognised by the Australian Library and Information Association (ALIA).

Further Information
For further information contact the course coordinator Helen Partridge on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

Graduate Certificate in Information Management (Library Studies) (IT73)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Helen Partridge
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Management (Library Studies) is a career development course for practising library and information professionals and consists of four designated units (48 credit points).

Graduates may find employment as a librarian, community information officer, cataloguer, research analyst, information services manager, business information specialist, information broker, corporate librarian, digital library coordinator, law librarian, learning resources officer or library media specialist.

Entry Requirements
To be eligible for this course, students must have demonstrated competence in the basic skills and concepts of personal or office computer usage and must meet one of the following criteria:

• an undergraduate or postgraduate qualification in library and information studies with a grade point average of at least 4.5 (on a 7-point scale) OR
• evidence of recognised prior learning (for example, at least five years of relevant full-time work experience).

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

### Potential Careers:

Librarian.
Doctor of Information Technology (IT80)

Year offered: 2008
Admissions: Yes
CRICOS code: 063035A
Course duration (full-time): 3 years
Course duration (part-time): 6 years
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008 $12,960
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
International Entry: February and July
Campus: Gardens Point

Course Overview
The Doctor of Information Technology is a professional doctorate designed for candidates to contribute towards professional practice and is appropriate for those wishing to pursue a problem within their workplace expertise. The focal problem in the professional doctorate is an application of theory to an existing significant industry problem.

Entry Requirements
Industry experience in a field relevant to the professional doctorate and possess one of the following:
- a four-year degree or its equivalent with first-class or second-class honours division A, or
- a masters degree, or
- a three-year bachelor degree and industry experience, or
- an equivalent combination of experience and/or education and training.

Students with exemplary professional practice who do not meet one of the above criteria may still be eligible to apply and should consult the course coordinator. Before submitting an application for enrolment, potential candidates should consult the course coordinator for assistance with preparation of the appropriate application form concerning eligibility and special interests.

Course Structure
The degree consists of 288 credit points of which up to 96 credit points are coursework, and the balance is research. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice. The Doctor of Information Technology will provide focused research and coursework studies in the Faculty's research areas.

Research Area
Areas of research interest and contact details can be obtained from the Faculty website.

Graduate Certificate in Information Technology (Wireless Games Technology) (IT89)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part-time (based on two subjects per semester).

The GCert IT (Wireless Games Technology) is aimed at developing knowledge and skills in wireless game applications. Assumed skills include familiarity with object oriented programming in Java and/or C++.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

International students cannot gain direct entry into this program as it is offered on a part-time basis only.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

Graduate Certificates are offered part-time only.

Further Information

For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT89 - Graduate Certificate in IT (Wireless Games Technology)

Four (4) units to be selected from the following
ITN254 Interaction Design
ITN720 Internet Protocols and Services
ITN723 Wireless and Mobile Networks
ITN746 Modelling and Animation Techniques
Graduate Certificate in Information Technology (Computer Networks) (IT90)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology (Computer Networks) (IT90) is designed for a career in network planning and administration.

Students can complete the program over 26 weeks part-time (based on two subjects per semester).

Entry Requirements
Applicants must have a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR provide other evidence of such qualifications and significant full-time Information Technology work experience as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Foundation level study of the principles of modern networking.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

The programs are offered part-time only.

Further information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT90 Graduate Certificate in IT (Computer Networks)

4 Units to be completed
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration
ITN723 Wireless and Mobile Networks
ITN771 Advanced Network Management
Graduate Certificate in Information Technology (Information Security) (IT92)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See entry requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part time (based on undertaking two subjects per semester).

GCert IT (Information Security) are designed to provide you with training and a strong understanding of security-related issues in information technology systems. You learn about security problems encountered in computing systems, and explore measures that can be used to secure these systems. An information security background is not necessary for entry to this module.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with principles of modern networking and for ITB646, assumed Maths as specified in ITB646 (see Course Structure).

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

Potential Careers:
Data Communications Specialist, Internet Professional, Network Administrator, Network Manager.
Graduate Certificate in Information Technology (Enterprise Wide Software) (IT93)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. GCert IT (EWS) is for students who wish to take advantage of the programming, administration and planning opportunities offered by enterprise wide system environments.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with concepts of enterprise architecture or enterprise modelling.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates) (IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.
Graduate Certificate in Information Technology (Electronic Commerce) (IT94)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

The Graduate Certificate in Information Technology (Electronic Commerce) (IT94) provides the knowledge and skills necessary for employment in mainstream e-commerce application development.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with object oriented concepts, some programming in modern languages and relational databases.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT94 - Graduate Certificate in IT (Electronic Commerce)
Four (4) units to be selected from the following
ITN007 Web Development
ITN229 Database Design
ITN260 E-Commerce Site Development
ITN730 Information Security Fundamentals
Graduate Certificate in Information Technology (Project) (IT95)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Hamish Bentley
Campus: Gardens Point

Entry Requirements
An approved Bachelor degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Previous study at postgraduate level. Previous research methodology study recommended.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Articulation
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT95 - Graduate Certificate in IT (Project)

48 credit points to be completed either full time or part-time

ITN142 Major Project Full-Time
ITN152-1 Major Project Part Time
ITN152-2 Major Project Part Time
Students will not normally be eligible to enrol in IT95 without having completed at least 48 cp of Masters or equivalent units.

Potential Careers:

- Data Communications Specialist
- Internet Professional
- Network Administrator
- Network Manager
- Programmer
- Software Engineer
- Systems Analyst
- Systems Manager
- Systems Programmer
Graduate Certificate in Information Technology (Information Technology Management) (IT96)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. GCert IT (Management of Information Technology) provides a specialisation for IT professionals in project management and IT strategy-making.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed Skills: systems analysis & design, relational database design and implementation.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.
Graduate Certificate in Information Technology (Generic) (IT97)

Year offered: 2008
Admissions: No
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point and External

IT97 is an exit option only

Graduate Certificate in Information Technology (Multimedia) (IT98)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Dr Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

GCert IT (Multimedia) offers the opportunity to specialise in interface design, with skills in multimedia solutions.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with programming and database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates) (IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT98 - Graduate Certificate in IT (Multimedia)

Four (4) units to be selected from the following
ITN007    Web Development
ITB254    Interaction Design
Graduate Certificate in Information Technology (Component Software and Web Services) (IT99)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Ernest Foo
Campus: Gardens Point

Course Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. The GCert IT (Component Software and Web Services) provides a firm basis for a career in web applications technology across a variety of platforms.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Programming skills at non-elementary level, including OO concepts, basic computer security, analysis skills (eg software engineering, systems analysis or enterprise modelling), relational database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

International Student Entry
International students cannot gain direct entry into this program as it is offered on a part-time basis only.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
For further information contact the course coordinator Dr Ernest Foo on fit.enquiry@qut.edu.au or visit www.fit.qut.edu.au/courses/postgradcourse.

IT99 - Graduate Certificate in IT (Component Software and Web Services)

Four (4) units to be completed
ITN712 Software Engineering Principles
ITN713 Advanced Java Programming
ITN716 Advanced Web Applications Development
ITN717 Enterprise Software Architecture
Bachelor of Information Technology/Bachelor of Education (Secondary) Continuing students only (IX09)

Year offered: 2008
Admissions: No
CRICOS code: 022136B
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full Fee Tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: full fee tuition $15,936; CSP $5,294
International Fees (per semester): No new admissions (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: This course is no longer offered
Past rank cut-off: 72
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4,S A) and for games technology and security Maths B (4,SA) or for all other majors Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Course coordinator: Dr Mal Shield (Education), Richard Thomas (IT)
Campus: Gardens Point, Kelvin Grove and Carseldine

No Further Intake
This course is being discontinued and there will be no further intake. Students wishing to undertake teaching qualifications in this area may wish to consider undertaking the three year Bachelor of Information Technology followed by the one year Graduate Diploma in Education or the four year Bachelor of Education (Secondary) with Computing as one of the two teaching areas required in this course.

Career Outcomes
Graduates are prepared to teach in two curriculum areas in secondary school. A graduate may also find employment in information technology as a programmer software engineer, systems programmer, manager, systems designer, computer scientist, systems analyst, data communications specialist, librarian, information manager, electronic commerce developer, network administrator or database manager.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society as members.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at http://www.studentservices.qut.edu.au/enrolling/enrolling/specific_requirements/blue_card.jsp

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Jasmine Banks
Campus: Gardens Point

Course Overview
The course is a collaborative program between the Faculties of Built Environment & Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Recommended Study
Chemistry, Maths C and Physics

Career Outcomes
Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Professional Recognition
Professional accreditation from Engineers Australia and the Australian Computer Society is being sought.

Special course requirements
Students are required to complete 60 days approved industrial experience.

Further Information
Faculty of Built Environment and Engineering: tel: +61 7 3138 1993, fax: +61 7 3138 1516, email: bee.enquiries@qut.edu.au
Faculty of Information Technology: tel: +61 7 3138 2782, fax +61 7 3138 2703, email: fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Potential Careers:**

Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer, Electrical Engineer, Software Engineer, Systems Programmer.
Bachelor of Applied Science / Bachelor of Information Technology (IX26)

Year offered: 2008
Admissions: Yes
CRICOS code: 020327M
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February
QTAC code: 419302
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Megan Hargreaves (Science), Ms Ruth Christie (IT)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Course Design
The science component of the course offers students a choice of one of nine majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

The information technology component gives students the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the science and information technology degrees.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Potential Careers:

Bachelor of Creative Industries / Bachelor of Information Technology (IX27)

Year offered: 2008
Admissions: Yes
CRICOS code: 059227E
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $6,696
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409872
Past rank cut-off: 74
Past OP cut-off: 13
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: IT: Ms Ruth Christie; Creative Industries: Head, Undergraduate Studies (uqenq.ci@qut.edu.au)
Campus: Gardens Point and Kelvin Grove

Overview
This four-year program gives you the opportunity to allow your creative side to shine through as it complements your technical information technology skills. The integrated program consists of 16 creative industries units and 16 information technology units so that you will study both creative industries and information technology units in each semester. You will choose one creative industries major from communication design, interdisciplinary, music or sound design. You will also choose one information technology major from business systems engineering, databases, electronic business, games technology, information and knowledge management, information systems, information technology management, intelligent systems, security, network systems, software architecture, or web services and applications.

Career Outcomes
The creative industries majors available in this double degree have been specifically chosen for their relevance to careers in information technology. Your communication design skills will be particularly useful in digital media development, games design, web design and development, and creating content for the new mobile entertainment industry. If you study music or sound design you may specialise in providing audio content, from musical compositions to sound effects, for these same applications.

You will learn creative and technical skills within a contextual framework, so you will be well placed to build your career in digital product and new media strategy.

Course Structure
This course is made up of 384 credit points. Each component (i.e. Creative Industries and Information Technology) comprises 192 credit points.

The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from a Creative Industries major (either Communication Design, Interdisciplinary, Music or Sound Design) and 24 credit points of elective units.

The Information Technology component is made up of 120 credit points of Faculty core units and 72 credit points of units from an IT major.

Professional Recognition
Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Additional Entry Requirements (for the majors below)
In addition to meeting the cut-off applicants who wish to study one of the following Creative Industries majors below must also pass the additional entry requirement listed below. Please note registrations to attend an audition or submission of portfolio as well as submission of additional materials to QUT have closed for 2007. Late registrations and submissions will not be accepted.

Sound Design: Portfolio. Closed on 19 October 2007

Prospective international students should refer to the additional entry requirement information in the International Students section in the Creative Industries web site.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their enrolment. Commonwealth Supported place (i.e. failure to lodge an eCAF, has
consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Creative Industries Co-Majors

**INSTRUCTIONS FOR CO-MAJORS**

Please refer to the following study sequences to plan your program. You must complete 96 credit points (normally eight 12 credit point subjects) from the specified units to achieve a co-major, following semester of offer and unit prerequisites (where applicable) to determine order of enrolment. Any unit(s) that appear in these co-majors and/or minors and are also mandatory elsewhere in your course cannot contribute towards the completion of these co-majors and/or minors. Any unit(s) that appear in multiple co-majors and/or minors can only contribute towards the completion of one of these co-majors or minors.

**Advertising**

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- AMB200 Consumer Behaviour
- AMB220 Advertising Theory and Practice
- AMB221 Advertising Copywriting
- AMB222 Media Planning
- AMB320 Advertising Management
- AMB321 Advertising Campaigns
- AMB330 Advertising Strategy and Planning
- BSB126 Marketing

**Art and Design History**

Description: This co-major equips you with the educational base necessary for a career in the arts professions, such as curatorial work, art criticism and arts administration. It offers a coherent and sequential set of units that provide a platform for a research-based study of the visual arts, design and architecture. In conjunction with further study, this co-major will assist in preparing you for work as a professional in these disciplines.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

- DAB325 Architecture in the 20th Century
- DAB420 Architecture, Culture and Space
- DEB102 Introducing Design History
- KVB102 Modernism
- KVB103 Australian Art
- KVB108 Contemporary Asian Visual Culture
- KVB211 Post 1945 Art
- KVB212 Australian Art, Architecture and Design
- KVB304 Contemporary Art Issues
- KVB306 Video Art and Culture

**Communication Design**

Description: The aim of this co-major is to provide you with skills and knowledge in the domain of Communication Design. The co-major provides an introduction to the principles and practice of Communication Design, and the practical use of media technologies. Foundations of Communication Design and Media Technology units provide both a practical and theoretical basis for the studio units. Design Studio units situate the knowledge and skills gained from the first-level
(100 coded) units into practice in a production / project setting, in the application areas of web development and interactive multimedia respectively.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

Creative and Professional Writing

Description: The aim of this co-major is to prepare students to graduate with adequate skills and knowledge in the area of creative and professional writing; to provide a thorough grounding in a variety of genres that include fiction, creative non-fiction, media writing and corporate writing and editing, thereby equipping graduates with the versatility required of professional writers; to enhance the critical, analytical and peer-reviewing skills of students; to provide and understanding of creative writing in its social and generic contexts.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KWB101 Introduction to Creative Writing
KWB102 Media Writing
KWB103 Persuasive Writing
KWB104 Creative Writing: The Short Story
KWB106 Corporate Writing and Editing
KWB107 Introduction to Creative Non-Fiction
KWB203 Creative Writing: The Novel
KWB204 Creative Non-Fiction: Life Writing
KWB206 Youth and Children's Writing
KWB207 Great Books: The Literary Classics
KWB303 Writing and Publishing Industry

Dance

Description: This co-major aims to provide a broad grounding in practical and theoretical aspects of dance. You will gain skills in contemporary dance, ballet, commercially driven genres, choreography and critical thinking and writing together with an understanding of the social and historical context of ballet, contemporary dance, and popular and world dance.

Assumed Knowledge: Previously acquired knowledge or skill IS required for you to undertake this co-major. It is essential that you be physically able, fit and have basic knowledge in a dance technique, either ballet, jazz or contemporary to undertake the practical units.

KDB103 Dance Technique Studies 1

Digital Media

Description: Online and interactive technologies now dominate creative and professional life. This co-major provides you with the opportunity to develop websites, multimedia projects, wikis and blogs, as well as allowing you to understand the guiding principals behind these new modes of communication and creative practice.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KCB101 Communication in the New Economy
KCB102 Media and Society: From Printing Press to Internet
OR
KJB101 Digital Journalism
KIB101 Foundations of Communication Design 1
KCB104 Media and Communications Industries
OR
KPB106 Australian Television
KIB103 Media Technology 1
KCB201 Virtual Cultures
KCB202 New Media Technologies
KCB203 Consumer Cultures
KVB306 Video Art and Culture

Drama

Description: The co-major offers a balance of performance theory and practice. It is designed as a learning sequence, beginning with introductory concepts and practices, through intermediate and on to advanced learning. Underpinning the co-major is a twin focus on contemporary performance-making and events management. Both of these areas are balanced by studies in theatre history and theory. Core topics include acting; directing; twentieth-century performance theory and practice; and events management.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KTB101 20th Century Performance
KTB103 Performing Skills 1: Body and Voice and Role
KTB104 Performance Innovation
Entrepreneurship

Description: To provide students with an introduction to basic business principles as well as the innovation, development, production and entrepreneurial activities required when starting a new business. Students who do the extended eight unit set will be able to supplement this with a range of broader business administration and promotional skills particularly in the marketing and management areas.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB230 Internet Promotion
AMB240 Marketing Planning and Management
AMB251 Innovation and Market Development
BSB115 Management, People and Organisations
BSB126 Marketing
EFB210 Finance 1
IBB213 International Marketing
MGB207 Human Resource Issues and Strategy
MGB216 Managing Technological Innovation in Global Business
MGB218 Managing Business Growth
MGB222 Managing Organisations
MGB223 Entrepreneurship and Innovation
MGB335 Project Management

Fashion

Description: This co-major has been designed to offer a mix of theoretical and practical units. The theory units will develop your knowledge and understanding of the history, industry and consumption of fashion and will introduce you to the critical legal issues surrounding the production and distribution of fashion. The practical units provide you with a variety of options to develop fashion related skills focusing on textile design, portfolio development and fashion journalism.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KFB103 Introduction to Fashion
KFB106 Unspeakable Beauty: A History of Fashion and Style
KFB206 Fashion and Modernity
KFB207 Contemporary Fashion
KVB213 Graphic Investigation
KFB204 Textile Design
KFB205 Fashion and Style Journalism
KFB208 Fashion Portfolio
KCB203 Consumer Cultures
KFB304 Fashion, Law and the Real World

Film, Television and Screen

Description: The aim of this co-major is to provide students with a range of understandings in the theory and practice of film, television and screen. This study area aims to enhance creative, technical and organizational abilities as well as building story telling and communication skills.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

KPB101 Foundations of Film and Television Production
KPB102 Film History
KPB104 Film and Television Production Resource Management
KPB105 Narrative Production
KPB106 Australian Television
KPB107 Television's Greatest Hits
KPB202 Film and Television Business Skills: Entrepreneurship and Investment
KPB203 Australian Film
KPB205 Documentary Theory and Practice
KPB206 International Cinema
KPB303 Critical Thinking About Television

Integrated Marketing Communication

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

AMB202 Integrated Marketing Communication
AMB220 Advertising Theory and Practice
AMB230 Internet Promotion
AMB240 Marketing Planning and Management
AMB260 Public Relations Theory and Practice
AMB261 Media Relations and Publicity
AMB331 Direct Marketing
AMB350 Sales and Customer Relationship Management
AMB354 Events Marketing
BSB126 Marketing

Journalism, Media and Communication

Description: This co-major offers you a range of options to develop an understanding of the parameters of the journalism and professional communication fields. You can choose a mix of units to suit your career aspirations. If you choose to focus more on the Journalism (KJB) units, the co-major will introduce you to a range of journalism writing styles and offers an insight into some specialist areas of reporting. If you choose to focus more on the Media and
Communication (KCB) units, it has been designed to enable you to develop the skills and knowledge to prepare media material for organizations that wish to build, and maintain, a media profile.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

| KCB102 | Media and Society: From Printing Press to Internet |
| KJB101 | Digital Journalism |
| KJB120 | Newswriting |
| KCB104 | Media and Communications Industries |
| KJB121 | Journalistic Inquiry |
| KCB103 | Strategic Speech Communication |
| KJB224 | Feature Writing |
| KJB239 | Journalism Ethics and Issues |
| KFB205 | Fashion and Style Journalism |
| KJB280 | International Journalism |
| KCB301 | Media Audiences |
| KCB302 | Political Communication |
| KCB304 | Managing Communication Resources |
| KJB322 | Desktop Publishing And Editing |
| KJB337 | Public Affairs Reporting |

**Literary and Cultural Studies**

Description: The aims of this co-major are to prepare students to graduate with adequate skills and knowledge in the area of literary and cultural studies; to provide a thorough grounding in a range of texts, both literary and popular, ranging from Shakespeare to nineteenth and twentieth century literature and culture; to provide graduates with enhanced skills in critical thinking, writing and analysis; to provide graduates with an understanding of the social and historical context of literary and popular written texts; to provide some understanding of the major approaches in literary theory.

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

| KWB108 | Introduction To Literary Theory and Cultural Studies |
| KWB109 | Ozlit |
| KWB206 | Youth and Children's Writing |
| KWB207 | Great Books: The Literary Classics |
| KWB208 | Modern Times (Literature and Culture in the 20th Century) |
| KWB209 | Shakespeare, Then and Now |
| KWB307 | Indigenous Writing |
| KWB308 | Wonderlands: Literature and Culture in the 19th Century |

| KWB309 | Popular Fictions, Popular Culture |

**Marketing**

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

| AMB200 | Consumer Behaviour |
| AMB201 | Marketing and Audience Research |
| AMB202 | Integrated Marketing Communication |
| AMB240 | Marketing Planning and Management |
| AMB241 | E-Marketing Strategies |
| AMB340 | Services Marketing |
| AMB341 | Strategic Marketing |
| BSB126 | Marketing |

**Mathematics**

Description: This co-major aims to provide you with powerful tools for the analysis of today’s complex world and give an insight into many real-world problems of significant importance.

Assumed Knowledge: Maths B (if you do not have this you should include MAB105 as one of your first units)

| MAB100 | Mathematical Sciences 1A |
| MAB101 | Statistical Data Analysis 1 |
| MAB111 | Mathematical Sciences 1B |
| MAB112 | Mathematical Sciences 1C |
| MAB210 | Statistical Modelling 1 |
| MAB311 | Advanced Calculus |
| MAB312 | Linear Algebra |
| MAB314 | Statistical Modelling 2 |

**Public Relations**

Assumed Knowledge: There is no specific prior knowledge required as a prerequisite to undertaking this co-major.

| AMB201 | Marketing and Audience Research |
| AMB202 | Integrated Marketing Communication |
| AMB260 | Public Relations Theory and Practice |
| AMB261 | Media Relations and Publicity |
| AMB262 | Public Relations Writing |
| AMB360 | Corporate Communication Management |
| AMB361 | Public Relations Campaigns |
| AMB370 | Public Relations Cases |
| BSB126 | Marketing |

**Creative Industries Minors**

**INSTRUCTIONS FOR MINORS**

Please refer to the following study sequences to plan your program. You must complete 48 credit points (normally four 12 credit point subjects) from the specified units to achieve a minor, following semester of offer and unit prerequisites (where applicable) to determine
order of enrolment. Any unit(s) that appear in these majors and/or minors and are also mandatory elsewhere in your course can not contribute towards the completion of these majors and/or minors. Any unit(s) that appear in multiple majors and/or minors can only contribute towards the completion of one of these majors or minors.

These unit offerings are current at the time of publication but are subject to change.

Rules for selecting electives:

- you must obey any elective rules as set out in your course requirements
- you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.
- you must have successfully completed any pre/co-requisite units applicable
- the offering of elective units is subject to sufficient student enrolment numbers and staff availability
- some units are subject to quota restrictions

* KK33, KK34, KJ32, KM32, IX07 and IX16 students ONLY are permitted to select electives from outside the Faculty of Creative Industries

NOTES:

* Only one Workplace Learning unit may be completed
* KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

Potential Careers:
Advertising Professional, Animator, Artist, Arts Administrator, Composer, Computer Game Programmer, Computer Games Developer, Creative Writer, D.J, Digital Composer, Film Composer, Film/Television Producer, Information Officer, Information Security Specialist, Internet Professional, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Organisational Communication Specialist, Public Relations Officer/Consultant, Recording Engineer, Song Writer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Technical Officer, Web Designer.
Bachelor of Information Technology / Bachelor of Mathematics (IX29)

Year offered: 2008
Admissions: Yes
CRICOS code: 059226F
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 419552
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes

Assumed knowledge: English (4,SA) and Maths B (4,SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 384
Course coordinator: Dr Gary Carter (Mathematics), Ms Ruth Christie (IT)
Campus: Gardens Point

Professional Recognition
On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design
This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points form Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Ruth Christie (InfoTech); Mr Andrew Paltlidge (Business)
Discipline coordinator: Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

Overview
This double degree will give you a broad base of commercial knowledge in business and information technology, making you more attractive to employers, even if you wish to work predominantly in an information technology position. You will have the opportunity to complement your information technology studies with a business major in accountancy, advertising, banking and finance, economics, human resource management, international business, management, marketing or public relations.

You will combine your business studies with an information technology major of your choice. Possible combinations include banking and finance with security, management with business systems engineering, or marketing with information and knowledge management.

Cooperative Education Program
The Coop Ed Program is a joint venture between employers and the Faculty of IT giving you the opportunity of 10-12 months paid industry placement to better prepare you for employment after you graduate. The Coop Ed Program integrates formal study and professional experience, so you can apply what you are learning in an area relevant to your chosen path.

Some of the organisations our Coop Ed students have worked with are the Australian Tax Office, Boeing Australia, CITEC, Department of Natural Resources and Water, Dialog, EPA, Queensland Police, RACQ and UNiTAB Limited.

For more information about the Faculty's Cooperative Education Program, please visit www.fit.qut.edu.au/future/cooped.jsp

Career Outcomes
Business graduates work in diverse roles in the private and public sectors in areas such as accountancy, advertising, banking and finance, economics, human resource management, international business, management, marketing and public relations. A graduate of the Bachelor of Information Technology may find employment as a programmer, systems manager, systems designer, systems analyst, computer sales and marketing consultant or data processing manager.

Professional recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Financial Services Institute of Australasia (FINSIA).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Information Technology meet the knowledge requirements for admission to the Australian Computer Society (ACS).
**Course Design**
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor or Information Technology program.

**IX33 - Bachelor of Business/Bachelor of Information Technology Course structure**

QUT HANDBOOK 2008 · Page 1408
## BSB113 Economics

### Year 3 Semester 1
- AMB201 Marketing and Audience Research
- AMB260 Public Relations Theory and Practice

### Year 3 Semester 2
- AMB261 Media Relations and Publicity
- AMB262 Public Relations Writing

### Year 4 Semester 1
- AMB360 Corporate Communication Management
- AMB370 Public Relations Cases

### Year 4 Semester 2
- AMB361 Public Relations Campaigns
- AMB371 Corporate Communication Strategies

## Accountancy Major

### Year 1 Semester 1
- BSB110 Accounting
- BSB115 Management, People and Organisations

### Year 1 Semester 2
- BSB122 Quantitative Analysis and Finance
- BSB114 Government, Business and Society

### Year 2 Semester 1
- BSB111 Business Law and Ethics
- BSB113 Economics

### Year 2 Semester 2
- AYB121 Financial Accounting
- AYB223 Law of Business Associations

### Year 3 Semester 1
- AYB225 Management Accounting
- AYB220 Company Accounting

### Year 3 Semester 2
- AYB221 Computerised Accounting Systems
- AYB325 Taxation Law

### Year 4 Semester 1
- AYB301 Auditing
- AYB311 Financial Accounting Issues
  or
- AYB321 Strategic Management Accounting

### Year 4 Semester 2
- EFB101 Data Analysis for Business
- EFB210 Finance 1

## Banking and Finance Major

### Year 3 Semester 1
- EFB200 Applied Regression Analysis
- EFB318 Portfolio and Security Analysis

### Year 4 Semester 2
- EFB312 International Finance
- EFB201 Financial Markets

## Economics Major

### Year 1 Semester 1
- BSB113 Economics
- BSB115 Management, People and Organisations

### Year 1 Semester 2
- BSB114 Government, Business and Society
- BSB126 Marketing

### Year 2 Semester 1
- BSB110 Accounting
- EFB102 Economics 2

### Year 2 Semester 2
- BSB122 Quantitative Analysis and Finance
- BSB119 International and Electronic Business

### Year 3 Semester 1
- EFB101 Data Analysis for Business
- EFB210 Finance 1

### Year 4 Semester 1
- EFB200 Applied Regression Analysis
- EFB318 Portfolio and Security Analysis

### Year 4 Semester 2
- EFB102 Economics 2
- EFB201 Financial Markets
- EFB312 International Finance
- EFB201 Financial Markets

## Information Technology Major

### Year 1 Semester 1
- BSB113 Economics
- BSB115 Management, People and Organisations

### Year 1 Semester 2
- BSB140 Government, Business and Society
- BSB126 Marketing

### Year 2 Semester 1
- BSB110 Accounting
- EFB102 Economics 2

### Year 2 Semester 2
- BSB122 Quantitative Analysis and Finance
- BSB119 International and Electronic Business

### Year 3 Semester 1
- EFB101 Data Analysis for Business
- EFB210 Finance 1

### Year 4 Semester 1
- EFB200 Applied Regression Analysis
- EFB318 Portfolio and Security Analysis

### Year 4 Semester 2
- EFB102 Economics 2
- EFB201 Financial Markets
- EFB312 International Finance
- EFB201 Financial Markets

## Information Technology and Business Major

### Year 1 Semester 1
- BSB113 Economics
- BSB115 Management, People and Organisations

### Year 1 Semester 2
- BSB140 Government, Business and Society
- BSB126 Marketing

### Year 2 Semester 1
- BSB110 Accounting
- EFB102 Economics 2

### Year 2 Semester 2
- BSB122 Quantitative Analysis and Finance
- BSB119 International and Electronic Business

### Year 3 Semester 1
- EFB101 Data Analysis for Business
- EFB210 Finance 1

### Year 4 Semester 1
- EFB200 Applied Regression Analysis
- EFB318 Portfolio and Security Analysis

### Year 4 Semester 2
- EFB102 Economics 2
- EFB201 Financial Markets
- EFB312 International Finance
- EFB201 Financial Markets

### Human Resource Management Major

**Year 3 Semester 2**
- EFB101 Data Analysis for Business
- EFB328 Public Economics and Finance

**Year 4 Semester 1**
- BSB111 Business Law and Ethics
- EFB200 Applied Regression Analysis

**Year 4 Semester 2**
- EFB329 Contemporary Applications of Economics Theory
- EFB314 International Trade and Economic Competitiveness

### Marketing Major

**Year 4 Semester 2**
- MGB314 Organisational Consulting and Change
- MGB315 Personal and Professional Development
- MGB335 Project Management
  
  HRM students must choose two from the above list (one must be a Level 3 unit).

### Management Major

**Year 1 Semester 1**
- BSB113 Economics
- BSB115 Management, People and Organisations

**Year 1 Semester 2**
- BSB114 Government, Business and Society
- BSB119 International and Electronic Business

**Year 2 Semester 1**
- BSB111 Business Law and Ethics
- BSB113 Economics

**Year 2 Semester 2**
- BSB110 Accounting
- BSB115 Management, People and Organisations

**Year 3 Semester 1**
- AMB200 Consumer Behaviour
- AMB240 Marketing Planning and Management

**Year 3 Semester 2**
- AMB201 Marketing and Audience Research
- AMB241 E-Marketing Strategies

**Year 4 Semester 1**
- AMB340 Services Marketing
- AMB202 Integrated Marketing Communication

**Year 4 Semester 2**
- AMB341 Strategic Marketing
  - AMB352 Marketing Decision Making
  - or
  - IBB213 International Marketing

### Human Resource Management Option Unit List:

- MGB207 Human Resource Issues and Strategy
- MGB220 Management Research Methods

### Marketing Option Unit List:

- MGB201 Contemporary Employment Relations
- MGB210 Managing Operations
- MGB212 Sustainability in a Changing Environment
- MGB309 Strategic Management

### Management Option Unit List:

- MGB320 Recruitment and Selection
- MGB331 Learning and Development in Organisations

### Business Law and Ethics Option Unit List:

- HRM students must choose two from the above list (one must be a Level 3 unit).

Potential Careers:
Bachelor of Arts/Bachelor of Information Technology Continuing Students only (IX49)

Year offered: 2008
Admissions: No
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $5,992
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
QTAC code: This course is no longer offered
Past rank cut-off: 73; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Richard Thomas (IT)
Campus: Gardens Point and Carseldine

Course description
In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course.

Majors in the Arts component
In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Majors in the IT component
In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

Career outcomes
Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues, particularly cultures, ethics and human rights, are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferrable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

### Information Systems Major

**Compulsory Units**
- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB365 Business Analysis

**IS Elective Units**
Select three (3) units from the following list
- ITB218 Applications Programming
- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- ITB264 Information Systems Consulting
- ITB298 Business Process Modelling
- ITB364 Information Systems Development
- ITB366 Information Systems Operations

### Network Systems Major

**Compulsory Units**
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment
- ITB730 Information Security Fundamentals

**Electives**
Choose 2 Electives
- ITB233 Enterprise Systems Applications
- ITB706 Systems Programming
- ITB732 Cryptology and Protocols

### Software Architecture Major

**Compulsory Units**
- ITB229 Database Design
- ITB702 Algorithms and Data Structures
- ITB712 Software Engineering Studies

**Electives**
Choose 3 Electives
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB228 Enterprise Systems
- ITB233 Enterprise Systems Applications

---

**Potential Careers:**
Community Worker, Diplomat, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Corporate Systems Management/Bachelor of Justice (IX61)

Year offered: 2008
Admissions: Yes
CRICOS code: 063030F

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,880

International Entry: February
QTAC code: 419652
Past rank cut-off: 74
Past OP cut-off: 13
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and justice studies. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. The justice component involves completion of foundation units, after which students can focus their studies in the areas of criminology or policing. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Criminology; policing

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Potential Careers:
Administrator, Crown Law Officer, Customs Officer, Data Communications Specialist, Database Manager, Government Officer, Information Officer, Information Security Specialist, Investigator, Police Officer (Australian Federal), Police Officer (State), Risk Manager, Systems Manager.
Bachelor of Business/Bachelor of Corporate Systems Management (IX62)

Year offered: 2008
Admissions: Yes
CRICOS code: 063022F
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $8499
International Entry: February
QTAC code: 419642
Past rank cut-off: 76
Past OP cut-off: 12
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and business. In the Business component students complete a set of core units to provide a broad-based introduction to business principles and a major from the list below. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. Full-time students can take part in the Cooperative Education Program, offering one-year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Business: accountancy; advertising; banking and finance; economics; human resource management; international business management; marketing; and public relations.

Cooperative Education Program
The Faculty of IT’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you are learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both business and games and interactive entertainment. In the Business component students complete a set of core units to provide a broad-based introduction to business principles and a major from the list below. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Business: Business: accountancy; advertising; banking and finance; economics; human resource management; international business management; marketing; and public relations. Games and Interactive Entertainment: Animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energetx, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UniTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Career Outcomes
Business graduates work in diverse roles in the private and public sectors in areas such as accountancy, advertising, banking and finance, economics, human resource management, international business, management, marketing and public relations.

Professional Recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program). Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Financial Services Institute of Australasia (FINSIA).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

#### Bachelor of Games & Interactive Entertainment Majors

##### Course structure

**Block B Majors (8 units)**

**Animation and Computational Arts**

- KIB105  Animation and Motion Graphics
- KIB106  Character Development, Conceptual Design and Animation Layout
- KIB107  Introduction to Programming for 3D
- KIB108  Animation Practices
- KV105  Foundations of Drawing for Animation 1

- KKB106  Foundations of Drawing for Animation 2
- KKB210  Computational Arts 1
- KKB211  Computational Arts 2

**Digital Media**

- KIB101  Foundations of Communication Design 1
- KIB102  Foundations of Communication Design 2
- KIB103  Media Technology 1
- ITB254  Interaction Design
- ITB257  Multimedia Systems
- ITB259  Advanced Multimedia Systems

2 more units as per discussion with course coordinator

**Game Design**

- ITB016  Fundamentals of Games Design
- ITB017  Advanced Games Design
- KIB201  Interactive Writing
- KIB202  Enabling Immersion
- KIB310  Design Studio 3: Virtual Environments

Two units selected from the following

- DEB201  Digital Communication
- DEB102  Introducing Design History
- DAB110  Introductory Architectural Design 1
- DTB101  Interior Design 1
- DNB101  Industrial Design 1

**Software Technologies**

* This Major assumes students have obtained a SA or better in Queensland Maths B (or equivalent)

- ITB003  Object Oriented Programming
- ITB004  Database Systems
- ITB005  Systems Architecture
- ITB702  Algorithms and Data Structures
- ITB746  Modelling and Animation Techniques
- ITB747  Real Time Rendering Techniques
- ITB749  Scientific Programming
- MAB281  Mathematics for Computer Graphics

#### Potential Careers:

Account Executive, Accountant, Actuary, Administrator, Advertising Professional, Banker, Banking and Finance Professional, Business Analyst, Certified Practicing Accountant, Corporate Secretary, Economist, Financial Advisor/Analyst, Financial Project Manager, Government Officer, Human Resource Manager, Information Officer, International Business Specialist, Manager, Marketing Officer/Manager, Public Relations Officer/Consultant.
Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics (IX64)

Year offered: 2008
Admissions: Yes
CRICOS code: 063031E
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
Domestic Entry: February
International Entry: February
QTAC code: 419672
Past rank cut-off: 76
Past OP cut-off: 12
Assumed knowledge: English (4,SA), Maths B (4,SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Ruth Christie (Information Technology); Dr Gary Carter (Mathematics)
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both games and interactive entertainment and mathematics. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements). In mathematics, students complete core units that provide a foundation for both study and future work in mathematics and games and interactive entertainment, and then select units from the strands in applicable mathematics, mathematical modelling, computational mathematics, operations research, statistics and financial mathematics. Students are assisted throughout their course with choices to match their career aspirations and abilities. All these strands involve project work and real-world applications.

Majors: Animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energyx, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Bachelor of Games & Interactive Entertainment Majors
Course structure

Block B Majors (8 units)

**Animation and Computational Arts**
- KIB105 Animation and Motion Graphics
- KIB106 Character Development, Conceptual Design and Animation Layout
- KIB107 Introduction to Programming for 3D
- KIB108 Animation Practices
- KVB105 Foundations of Drawing for Animation 1
- KVB106 Foundations of Drawing for Animation 2
- KKB210 Computational Arts 1
- KKB211 Computational Arts 2

**Digital Media**
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2
- KIB103 Media Technology 1
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- 2 more units as per discussion with course coordinator

**Game Design**
- ITB016 Fundamentals of Games Design
- ITB017 Advanced Games Design
- KIB201 Interactive Writing
- KIB202 Enabling Immersion
- KIB310 Design Studio 3: Virtual Environments
- Two units selected from the following
- DEB201 Digital Communication
- DEB102 Introducing Design History
- DAB110 Introductory Architectural Design 1
- DTB101 Interior Design 1
- DNB101 Industrial Design 1

**Software Technologies**
- * This Major assumes students have obtained a SA or better in Queensland Maths B (or equivalent)
Potential Careers:
Actuary, Computer Game Programmer, Market Research Manager, Mathematician, Quantitative Analyst, Statistician.
Bachelor of Applied Science/Bachelor of Games and Interactive Entertainment (IX65)

Year offered: 2008
Admissions: Yes
CRICOS code: 063032D
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
Domestic Entry: February
International Entry: February
QTAC code: 419682
Past rank cut-off: 74
Past OP cut-off: 13
Assumed knowledge: English (4,SA), Maths B (4,SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both applied science and games and interactive entertainment. In the science component students complete a set of core units in science to support advanced level studies in specialist areas. Students select a science major as outlined below and undertake laboratory work and may participate in fieldwork. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors:
Science: biochemistry; biotechnology; chemistry; ecology; environmental science; forensic science; geoscience; microbiology; and physics.
Games and Interactive Entertainment: animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

### Bachelor of Applied Science (Study Area A) / Bachelor of Games and Interactive Entertainment (Study Area A)

**Year 1, Semester 1**
- ITB750 Computer Games Studies
- DEB101 Introducing Design

**Year 1, Semester 2**
- ITB751 Games Production
- ITB002 IT Professional Studies

**Year 2, Semester 1**
- ITB001 Problem Solving and Programming
- Games & Interactive Entertainment Major Unit

**Year 2, Semester 2**
- Games & Interactive Entertainment Major Unit

**Year 3, Semester 1**
- Games & Interactive Entertainment Major Unit

**Year 3, Semester 2**
- Games & Interactive Entertainment Major Unit

**Year 4, Semester 1**
- ITB009 Core Project Management
  
  Students who choose to complete the Cooperative Education Program replace ITB009 with ITS010

**Year 4, Semester 2**
- Applied Science Unit

---

### Course structure - Major in Biochemistry

**Year 1, Semester 1**
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life

**Year 1, Semester 2**
- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2

**Year 2, Semester 1**
- SCB110 Science Concepts and Global Systems
  
  Plus either:
  - MAB101 Statistical Data Analysis 1
  - MAB104 Introductory Quantitative Methods

**Year 2, Semester 2**
- SCB122 Cell and Molecular Biology
- SCB123 Physical Science Applications

**Year 3, Semester 1**
- LQB381 Biochemistry: Structure and Function
- LQB383 Molecular and Cellular Regulation

**Year 3, Semester 2**
- LQB481 Biochemical Pathways and Metabolism
- LQB483 Molecular Biology Techniques

**Year 4, Semester 1**
- LQB581 Functional Biochemistry
- LQB582 Biomedical Research Technologies

**Year 4, Semester 2**
- LQB681 Biochemical Research Skills
- LQB682 Protein Biochemistry and Bioengineering

---

### Course structure - Major in Biotechnology

**Year 1, Semester 1**
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life

**Year 1, Semester 2**
- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2

**Year 2, Semester 1**
- SCB110 Science Concepts and Global Systems
  
  Plus either:

OVERVIEW

The QUT Faculty of Law is one of Australia's largest tertiary educators in Law and Justice. The Faculty is a leader in its field, with world class lecturers and researchers on its academic staff.

The Faculty consists of the School of Law, the School of Justice, the Legal Practice Unit and the Law and Justice Research Centre. Amongst its facilities are a state-of-the-art electronic moot court, a dedicated Law Library and two 24-hour student computer labs.

The Faculty offers undergraduate study through the Bachelor of Laws (LLB) and the Bachelor of Justice (BJus) courses. A range of double degree programs is also available, including the Bachelor of Laws in conjunction with the Bachelor of Justice or with a bachelor degree in Applied Science, Arts, Business, Creative Industries, Journalism, Information Technology or Behavioural Science (Psychology).

A three-year accelerated Bachelor of Laws program is available for students who already hold a bachelor degree in another discipline. These students may also have the opportunity to select their elective units from the Law School's postgraduate program and graduate concurrently with a Graduate Certificate in Law.

The Faculty also offers a range of postgraduate study options in the Law and Justice disciplines, including graduate certificate and graduate diploma courses, masters degrees by coursework or research, and doctoral programs. These programs build on previous study and/or professional experience and allow graduate students to develop depth of expertise in their chosen specialist area.

The Law School prepares students for careers in law firms, government, public administration, business and other industries. The School of Justice produces graduates with qualifications for employment in policing, justice, defence, security and the social justice field.

What sets QUT Faculty of Law apart is its focus on education 'for the real world'. Faculty programs provide a sound balance of practical and theoretical training, facilitating the smooth transition of graduates into their chosen careers. The Faculty's real world approach is enhanced by its close liaison and collaboration with the legal and justice professions.

The Faculty is continually striving for excellence in learning and teaching in response to the demands of its graduates, their employers, the professions and the community. The Faculty's teaching and learning programs develop research and analytical skills within contextual and conceptual frameworks. A global approach to education is adopted which includes international visiting scholars, exchange programs for staff and students, and offshore programs. International and Indigenous content and perspectives are progressively being embedded in Faculty units.

In 2007/2008, the Faculty is reviewing its Bachelor of Laws program and it is anticipated that a revised curriculum for the course will be introduced from semester 1, 2009. The revised program (subject to University approval) will feature, amongst other things, a more flexible curriculum with greater elective choice for students. Electives will be streamed into groups reflecting the range of career destinations of law graduates, and groups reflecting the research strengths of the Faculty. Students who commence in the Bachelor of Laws in 2008 will be transitioned over to the new curriculum for 2009.

Other initiatives to enhance the quality of the educational experience offered by the Faculty include courses designed to develop graduate capabilities, a field in which the Faculty is an acknowledged leader, and online delivery of teaching. The Faculty's online teaching sites provide electronic access to a variety of course materials, and a broad array of Internet resources, including opportunities for staff-student communication such as email, SMS and internet chat.

Postgraduate research students are provided with dedicated office space and ICT facilities. The Faculty has staff qualified to supervise research in many fields including, but not limited to:

- Commercial Leases
- Commercial/Business Law
- Competition
- Consumer Protection
- Contract Law
- Crime and Criminology
- Cyber Law / E-Commerce
- Environmental Law
- Health Law
- Human Rights
- Indigenous Issues
- Intelligence and Security
- Legal / Justice Education
- Media Law
- Natural Resources Law
- Negligence
- Policing
- Property Law
- Public Law
- Tax Law
- Technology Law
- Trade Practices
- Intellectual Property and Copyright Law.

Through the Legal Practice Unit, the Faculty offers the Legal Practice Course (the Graduate Diploma in Legal Practice) to law graduates who wish to satisfy the practical training requirements to be admitted as legal practitioners. The course is offered twice a year in full-time mode, and three times a year in part-time (in-practice) and part-time (general) modes. The part-time in-practice mode is specially designed for persons who are already working in private or government law offices. The part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. The full-time course is delivered on-campus in purpose-built premises that provide every full-time student with a work station and networked PC while they are working on campus. Our Graduate Diploma in Legal Practice is Queensland's longest established practical legal training course and we have successfully prepared over 1000 law graduates for admission as legal practitioners. The course has built a reputation for quality and for providing graduates with the set of skills they need to commence legal practice.

The QUT Faculty of Law, with its real world approach and its focus on the right balance of skills and theory, consistently achieves high graduate employment rates, further supporting its position as one of Australia’s leading law faculties.

SENIOR STAFF

Faculty Office
Dean: Professor the Honourable M. Lavarch, LLB QIT
Administration Manager: W.A. Smith, BA(Hons) Syd, GradDipCourt & Parliamentary Reporting Canb

Assistant Dean, Teaching and Learning: M. Shirley, BA LLB(Hons) Qld, GradDipLegalPrac LLM Bond

Associate Professors:
S. Jackson, LLB(Hons) LLM Qld

Legal Practice
Director: A.J. Chay, LLB LLM Qld, PhD Griff.

School of Justice
Head of School: Professor R. Broadhurst, BA BEd PhD W.Aust, MPhil Cantab

Associate Professors:
B. Carpenter, BHMS (Hons) Qld, PhD Griff
G. Dean, MSW Qld, PhD QUT
B. Hocking, BA LLB Monash, DipGradLegStuds Sthlm, LLM Lond., PhD Qld

RESEARCH CENTRE

Law and Justice Research Centre

The Law and Justice Research Centre is the focal point and support structure for the research endeavours of the Faculty of Law, consistent with the Faculty’s objectives and commitment to economic, cultural and social improvement through:

- Multidisciplinary collaborative approaches;
- Nationalisation and internationalisation; and
- High impact and professionally-valued research.

One of the Centre’s primary goals is to participate actively in knowledge transfer, particularly to the professions, the community and industry. Another key goal is to support the Faculty’s capacity to conduct priority-driven research designed to answer questions of immediate and future concern to the professions, the community and to government.

The fields of research expertise covered by our researchers embrace some of the more complex issues faced by Australian and global communities, and the areas of research strength within the Faculty are nationally and internationally competitive.

We have a solid and rapidly growing research foundation and have identified specialist groups reflected in research programs, which are domains of established research activity and strength, with strong strategic direction and potential for future growth. The programs have developed due to the existing track record and activity of their members and because of the potential of the fields for national and international significance. The range of programs recognises Law’s unique ability to contribute and ‘value add’ to a vast range of disciplines. The programs are:

- Commercial Property and Environment
- E-Business and E-Government
- Intellectual Property, Knowledge, Culture and Economy
- Health Law
- Citizenship, Government and Identity
- Criminal Justice
- Scholarship of Higher Education Learning in Law and Justice

The Law and Justice Research Centre allows the Faculty to respond to current challenges in research and research training by providing structures that offer greater collaboration and support for high quality research and encourage linking of research interest groups within an expanded Faculty research profile, and supports enhancement and sustainability of research productivity.

Discipline coordinator: Professor Alan Knight (Creative Industries)
Campus: Gardens Point and Kelvin Grove

Overview
This five-year double degree in journalism and law is in high demand. It combines the practical skills and understanding of the journalism industry with the skills to work as a legal practitioner.

Career Outcomes
outcomes Graduates may find work in private practice as a barrister or legal practitioner, practise in law-related government departments or within large companies as in-house lawyers. Journalism opportunities are the same as those for graduates of the Bachelor of Journalism. See page 30 for more information.

Course Structure
The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points of Journalism-related units and 24 credit points of elective units.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules. QUT's journalism degree is recognised by the Australian Journalists' Association (AJA) section of the Media, Entertainment and Arts Alliance (MEAA).

OP Guarantee
The OP Guarantee does not apply to this program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Overview
Media outlets operate in a regulatory environment in which changes occur rapidly and constantly. In an era where there is increasing public scrutiny of our media, the need for legal practitioners with specific media awareness has never been greater. This five-year double degree combines practical skills and contextual understanding of the media and communication industries with the skills to work as a legal practitioner.

Career Outcomes
Graduates may choose to use their combined skills to work in-house for media outlets, regulatory bodies, or in law firms with specialist interests in the media. As a lawyer you may find work in private practice as a barrister or legal practitioner, practise in law-related government departments or within large companies as in-house lawyers. Media and communication opportunities are similar to those for graduates of the Bachelor of Creative Industries (Media and Communication) course.

Course Structure
The Creative Industries component is made up of 24 credit points of Faculty Foundation units, 144 credit points from the Media and Communication major and 24 credit points of elective units.

The Law component is made up of 336 credit points of law subjects.

Professional Recognition
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules.

OP Guarantee
The OP Guarantee does not apply to this program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Total credit points: 540
Standard credit points per full-time semester: 60 (years sem 1-5); 48 (sem 7 & 8); 56 (sem 6,9,10)
Course coordinator: Mr Andrew Paltridge (Business); Dr. William Dixon Undergraduate Director, (Law)
Discipline coordinator: Ms Ros Kent (Accounting)

Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IF41 Bachelor of Business (Study Area A)/Bachelor of Laws. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

null

This course has been discontinued. Currently enrolled students should check the Course Summary Sheet (via QUT Virtual) for enrolment and unit information.

Potential Careers:
Public Servant.
Bachelor of Information Technology/Bachelor of Laws (IF38)

Year offered: 2008
Admissions: Yes
CRICOS code: 006385G
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $166 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $15,936; CSP $7,703
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419622
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528
Course coordinator: IT: Ruth Christie; Dr. Bill Dixon
Undergraduate Director Law Programs
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Overview
An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty’s Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Career Outcomes
Graduates of the Bachelor of Information Technology component may find employment as a: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

Professional Recognition
The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Further Information
Faculty of Information Technology: phone +61 7 3864 2782, fax +61 7 3864 2703, email fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Potential Careers:**
Bachelor of Applied Science/Bachelor of Laws (IF39)

Year offered: 2008
Admissions: Yes
CRICOS code: 012661G
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $20,928; CSP $7,703
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419712
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 60 (years 1 and 4), 48 (years 2, 3 and 5)
Course coordinator: Dr Megan Hargreaves (Science); Dr. William Dixon Director, Undergraduate Programs (Law)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Career Opportunities
As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design
The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Professional Recognition
Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

Footnotes for Law Units

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2004. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.
Bachelor of Business/Bachelor of Laws (IF41)

Year offered: 2008
Admissions: Yes
CRICOS code: 006386F
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $150 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $9,552 per semester (subject to annual review)
Domestic Entry: February
International fees (per semester): 2008: $9,552 per semester
International Entry: February and July* (*Subject to availability)
QTAC code: 419222
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA) and Mathematics A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528
Standard credit points per full-time semester: 60
Course coordinator: Mr Andrew Paltridge (Business); Director, Undergraduate Programs (Law)
Discipline coordinator: Dr John Sweeting (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Ms Sherrena Buckby (Electronic Business); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
The Bachelor of Laws component of this double degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories. Graduates of the Bachelor of Business may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

Professional Recognition
The Bachelor of Laws degree satisfies the academic requirements for admission to practise as a Solicitor or Barrister in Queensland.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA) (enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Financial Services Institute of Australasia (FINSIA).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;

Law Elective Units
For information on the availability of law elective units, please refer to the relevant section in the Bachelor of Laws course entry in the Faculty of Law section.

Course Design
Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

For the Business component, students undertake 7 Faculty core units and 6 units from one of the following Majors plus 3 specialisation units.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Potential Careers:**
Bachelor of Arts/Bachelor of Laws (IF43)

Year offered: 2008
Admissions: Yes
CRICOS code: 027276E
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $6,797
International Fees (per semester): 2008: $9,552 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July* (*July entry subject to availability)
QTAC code: 409722
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: SUCCESSFUL COMPLETION OF A YEAR OF FULL-TIME VOCATIONAL OR TERTIARY STUDY. FOR FURTHER INFORMATION CONTACT 07 3138 2000 OR EMAIL STUDY@QUT.COM
Total credit points: 528 (192 cr pts BA and 336 cr pts BLaws)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphe Childs (Arts) Dr. William Dixon Director, Undergraduate Programs (Law)
Campus: Gardens Point and Carseldine

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

Professional Recognition
The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Course Structure BA component - Continuing Students
BA REQUIREMENTS
Students should follow the course progression advice in the Course Summary Sheet

Course Structure BA component - Commencing Students
BA Course Requirements - Commencing Students

Students are required to complete:
* One Multidisciplinary Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:
* Two core units in first semester (from a selection of core introductory and core skills units)
* Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:
* an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
* an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points)

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Multidisciplinary Majors - Commencing Students
Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Discipline Sequences
Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the

Potential Careers:
Barrister, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.
Doctor of Philosophy (Law) (IF49)

Year offered: 2008
Admissions: Yes
CRICOS code: 015024B
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (exceeded max. entitlements)
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Discipline coordinator: Assistant Dean, Research
Campus: Gardens Point

Entry Requirements
An applicant's admission to the PhD program will depend on their academic aptitude, and the availability of supervision, infrastructure and resources needed for your course of study. Candidates would normally hold a Bachelor's degree with at least 2A Honours (or equivalent) or a Masters degree by research or a Masters degree by coursework that included substantial research.

Location and Duration
The PhD normally requires a minimum of three years of full-time study or its part-time equivalent. Study is undertaken at the Gardens Point Campus but the University may approve study at an off-campus location (multi-modal study). Although QUT offers this flexibility, there will still be minimum attendance requirements and the University must be satisfied that adequate supervision and resources are available at the external location.

Overview
The PhD offers candidates the opportunity to demonstrate their erudition in a broad field of learning and to make an original and substantial contribution to knowledge in that field.

Course Structure
Candidates will be assessed on a program of supervised research and investigation that culminates in production of their thesis. Candidates should have regular, face-to-face contact with their supervisor and participate in University scholarly activities such as research seminars, teaching and publication. The length of the thesis will vary according to the topic, but should normally be no longer than 100,000 words (excluding bibliography).

**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com  
**Total credit points:** 528  
**Standard credit points per full-time semester:** (Semesters 3, 4, 5, 6, 9, 10) 60 (Semesters 1, 2, 7, 8)  
**Course coordinator:** Creative Writing - Head, Undergraduate Studies Dr. William Dixon  
**Law component is made up of 336 credit points of law subjects.**

**Discipline coordinator:** Creative Writing - Professor Philip Neilsen  
**Campus:** Gardens Point and Kelvin Grove  
**OP Guarantee**  
The OP Guarantee does not apply to this program.  

**Overview**  
Both creative writing and law require high-calibre, sophisticated communication and language skills. This five-year double degree will prepare you to work as a professional creative writer, lawyer in a private practice, a barrister or legal practitioner, or to practise with large companies, government agencies, or as an in-house lawyer, for example, in intellectual property or contract law.  

**Professional Recognition**  
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Legal Practitioners' and Barristers' Admission Rules. You can view student work at our online publication www.dotlit.qut.edu.au  

**Career Outcomes**  
Graduates who work as lawyers can specialise in any legal field, or use their creative writing knowledge to specialise in the publishing industry. Creative writing graduates work as creative writers, editors or publishers in all media.  

**Course Structure**

### Year 1, Semester 1
- KKB101 Creative Industries: People and Practices
- KWB101 Introduction to Creative Writing

Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Iraphne Childs (Arts), Professor Rod Broadhurst (Justice)
Campus: Gardens Point and Carseldine

Course Description
The course consists of 16 arts units and 16 justice units. The program is integrated so that you will study both arts and justice units in each semester. You will choose at least one multidisciplinary arts major from international and global studies, society and change, ethics and human rights, community studies, or Australian studies. In the justice component you will have the opportunity to study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

Potential Careers:
Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Human Services/Bachelor of Justice 2008 (IX45)

Course coordinator: Dr Phil Crane (Human Services), Prof. Rod Broadhurst (Justice)
Campus: Gardens Point and Carseldine

Course Description
In this course students complete the requirements of two separate degrees in four years. The Human Services component of the course provides knowledge, values, ethics and skills for professional practice in human services. The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

Career opportunities
Career opportunities include human service worker, aged, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Professional Membership (Bachelor of Human Services)
Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers. (Accreditation application in process).

COURSE STRUCTURE - OVERVIEW

YEAR 1 SEMESTER 1

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528
Course coordinator: Dr Julie Hansen (Psychology); Dr. William Dixon Director Undergraduate Studies (Law)
Campus: Gardens Point and Carseldine

Overview
A double degree in law and psychology offers you greater flexibility in your career. Combining skills in these two complementary areas, you will be able to apply psychological principles to legal issues and concerns.

Why choose this course
You have many opportunities to gain real workplace skills in each of your study disciplines. In psychology, students design and analyse original experiments, to enhance their research and analytical skills. While studying, you are exposed to the range of job opportunities in external organisations and industry through careers seminars and opportunities for work experience. Students can also participate in a first-year peer mentor program and a career mentoring program.

In law, you can choose internship and legal clinic electives which provide a work experience placement to gain experience in legal firms, legal aid agencies or government departments.

Career options
With degrees in psychology and law, you will enter the work force with a solid scientific and practical base, making you suitable for positions in the development of mental health and legal policies, in research in the legal-psychological domain, and to work as either a lawyer or psychologist within legal, corporate, government, social, and clinical arenas.

You will be well placed to enter the work force in any number of work environments, including forensic areas (such as the prison service). In addition, you will have the option of pursuing your psychology training further in order to become a registered psychologist. The double degree will also allow you to work in legal environments as a solicitor, barrister, in-house counsel or government lawyer.

Outside the specialist psychology and legal environments, the skills and knowledge you have acquired will be transferable to a wide range of areas, such as business, marketing, communication and policy advisors or officers.

Professional Recognition
The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with their State Registration Board. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours
The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

OP Guarantee
The OP Guarantee does not apply to this course.

Recommended Study
Maths A, B or C

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaire, portfolio, audition, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Past rank cut-off: 74
Past OP cut-off: 13
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both corporate systems management and justice studies. In the corporate systems management component students are taught the interrelationship between information, technology, business and people. This component develops the knowledge and skills needed to understand and communicate business needs, select the right systems and integrate these systems to improve business performance. The justice component involves completion of foundation units, after which students can focus their studies in the areas of criminology or policing. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors: Criminology; policing

Cooperative Education Program
The Faculty of IT’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UniTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

Recommended course progression

Year 1, Semester 1
ITB360 Corporate Systems
ITB002 IT Professional Studies
JSB171 Justice and Society
JSB172 Introduction to Crime Research

Year 1, Semester 2
ITB363 Project Management Practice
BSB115 Management, People and Organisations
JSB173 Understanding the Criminal Justice System
JSB174 Forensic Psychology and the Law

Year 2, Semester 1
ITB361 Socio-technical Systems
ITB362 Organisational Databases
JSB175 Criminal Law in Context
JSB176 Social Ethics and the Justice System

Year 2, Semester 2
ITB364 Information Systems Development
ITB823 Web Sites For Electronic Commerce
JSB177 Crimes of Violence
LWB141 Legal Institutions and Method

Year 3, Semester 1
ITB365 Business Analysis
ITB366 Information Systems Operations
Major unit (Choose from Primary Major of Criminology or Policing)
Major unit (Choose from Primary Major of Criminology or Policing)

Year 3, Semester 2
EFB Financial Information Systems
ITB264 Information Systems Consulting
Major unit (Choose from Primary Major of Criminology or Policing)
Major unit (Choose from Primary Major of Criminology or Policing)

Year 4, Semester 1
BSB126 Marketing
ITB370 Project
Major unit (Choose from Primary Major of Criminology or Policing)
Major unit (Choose from Primary Major of Criminology or Policing)

Potential Careers:
Administrator, Crown Law Officer, Customs Officer, Data Communications Specialist, Database Manager, Government Officer, Information Officer, Information Security Specialist, Investigator, Police Officer (Australian Federal), Police Officer (State), Risk Manager, Systems Manager.
Graduate Certificate in Research Commercialisation (IX97)

Year offered: 2008
Admissions: Yes
CRICOS code: External

Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.
Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.
Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.

Discipline coordinator: Dr Colin Thorne
Campus: External

Overview
The Graduate Certificate in Policing will provide a tertiary qualification for students already working in, or aspiring to work in the areas of justice which focuses on criminal behaviour. By exploring the strategies which can be used to address such behaviour within contemporary society, this course will have both a theoretical and a more practical framework. You will have the flexibility to choose the academic units that best suit your professional focus.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution or a combination of professional experience and training that the Course Coordinator deems to be appropriate.

Course Requirements
The Graduate Certificate in Policing consists of four units which comprises of:
- One (1) generic core unit (12 credit points)
- Two (2) specialist units in policing (24 credit points)
- One (1) elective unit chosen from the Elective list (12 credit points)

Articulation to Master of Justice
A student who has successfully completes the Graduate Certificate in Policing with a GPA of 5.0 or better may articulate to the Master of Justice with 48 credit points of academic credit.

Graduate Certificate in Organised Crime and Corruption Investigation (JS27)

Year offered: 2008
Admissions: No
CRICOS code: Not required
Course duration (part-time): 1 year external
Course duration (external): 1 year
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $4,800 per semester (subject to annual review)
Domestic Entry: No new admissions in 2008. For continuing students only.
International Entry: No new admissions in 2008. For continuing students only.
Total credit points: 48
Course coordinator: Associate Prof. Geoff Dean
Campus: Gardens Point and External

Overview
The creation of crime and corruption commissions around the country evidences recognition by government that traditional police services and Ombudsman like agencies are inadequate to deal with organised crime and its evil twin, official corruption.

Graduates or allied professionals associated with an area of justice will find that the Graduate Certificate in Organised Crime and Corruption Investigation will help develop an understanding of these issues in Queensland and elsewhere together with the capacity for critical enquiry, research, intellectual debate and ethical practices in terms of their chosen areas of professional interest.

Entry requirements
An appropriate undergraduate degree from a recognised tertiary institution or professional experience that the Course Coordinator deems to be appropriate.

Course Requirements
The Graduate Certificate in Organised Crime and Corruption Investigation consists of four units of twelve credit points each. They comprise: Organised Crime & Corruption; Forensic Investigation Methods and Strategies; Proceeds of Crime and Money Laundering; Evidence in Organised Crime Investigations.

Articulation to Master of Justice
A student who has successfully completed the Graduate Certificate in Organised Crime and Corruption Investigation with a GPA of 5.0 or better, may articulate to the Master of Justice (Organised Crime and Corruption Investigation) and receive credit for their specialist area study of 48 credit points.

Course structure
Continuing students should contact the School of Justice for further advice on unit selection

Potential Careers:
Community Corrections Officer, Corrective Services Officer, Customs Officer, Investigator, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Risk Manager.
Graduate Certificate in Intelligence (JS29)

Year offered: 2008
Admissions: Yes
CRICOS code: Not required
Course duration (external): 1 year Part time
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Course coordinator: Associate Prof. Geoff Dean
Discipline coordinator: Dr Nic Chantler
Campus: External

Overview
The Graduate Certificate in Intelligence is aimed at providing tertiary pathways for students either working in the intelligence community and wishing to embark on professional studies or, students seeking employment in the intelligence community and wanting to gain relevant tertiary qualifications. Through a range of pedagogically informed teaching strategies the program develops relevant professional competencies, skills and knowledge. The program is aimed at students with existing undergraduate qualifications but can be undertaken by students with extensive professional experience where that experience is assessed as appropriate by the course coordinator.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution or a combination of professional experience and training that the Course Coordinator deems to be appropriate.

Course Requirements
The Graduate Certificate in Intelligence consists of four units of twelve credit points each: Justice and Human Rights; Intelligence Practice 1; Intelligence Practice 2; with one unit selected from Terrorism and Political Violence or Analytical Methods of Intelligence, or Just War Theory or National Security and Intelligence.

Articulation in Postgraduate Coursework Nested Programs
A student who has successfully completed the Graduate Certificate in Intelligence with a GPA of 5.0 or better, may articulate to the Master of Justice (Intelligence) and receive academic credit of 48 credit points.

Currently enrolled QUT students in an articulating postgraduate coursework nested program (ie. completing Graduate Certificate in Intelligence and moving to the next level of study) are not required to complete a Postgraduate Application (PG form). Student Business Services send an email to your student mailbox inviting currently enrolled students to articulate to the next stage of the program - Master of Justice (Intelligence).

Prospective students, not enrolled at QUT, should complete the Postgraduate Application form (PG form) available form the QUT website.

Campus: Gardens Point and External

Campus change
From the beginning of 2007 the School of Justice relocated from Kelvin Grove campus to Gardens Point. From this point on all units are taught at the Gardens Point campus, with the exception of units offered in the secondary major of Psychology based at Carseldine campus.

Course Requirements
The course will be offered over 3 years full-time, 6 years part-time, internal and external mode. The course structure consists of 24 units - a total of 288 credit points. This comprises of:
- Seven (7) Justice Core units (84 credit points) and;
- One (1) foundation law unit (12 credit points) in the first year;
- Six (6) primary major units (72 credit points) to be selected from either Criminology or Policing and;
- Six units in a secondary major (72 credit points) which can be selected from Policing or Criminology, or a non justice area: Law, Information Technology* or Psychology*.
- One (1) Third year Core Unit (12 credit points) and;
- Three (3) Justice electives (36 credit points).

* External students should be aware that when selecting the secondary majors, Information Technology and Psychology are only available in the Internal (INT) mode of study. All Justice and Law units are available in the External (EXT) mode of study and available to all students.

General

The Bachelor of Justice equips graduates for a wide variety of employment in the criminal justice, government (state and federal), law enforcement and policing and intelligence fields. Past graduates have developed successful careers in the state or federal police services, created social and justice policies for governments, contributed to the work of advocacy centres (eg. women, youth and children's advocacy), become criminologists, and advanced into defence, customs and the Australian Crime Commission. Other popular career choices include corrections and human rights and anti-discrimination areas. Students are prepared for the workplace, not only by exploring the most recent theory and practice of social justice, but by including relevant general skills like problem-solving, analytical ability and applied computer skills that are relevant to the workplace.

Diploma Entry and Academic Credit
Students who have completed a full Diploma of Justice or Diploma of Justice Administration from TAFE are eligible for academic credit (96 credit points) towards their degree. This academic credit is counted as elective units in the Justice program. Students with this qualification should make further enquiries with Students Business Services or the School of Justice.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

International Entry: February
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Prof. Geoff Dean
Campus: Gardens Point

Overview
As an extension of the undergraduate Bachelor of Justice, the Bachelor of Justice (Honours) provides an opportunity to undertake a major piece of sustained research under the supervision of a staff member, read advanced texts in justice theory, engage in small seminar discussions at an advanced level and to write advanced level essays and reports in justice related fields.

The program also offers and outstanding qualification for entry to the employment market and for promotional opportunities for those already employed, as it is demonstrated evidence of an ability to undertake major projects, to work independently, write advanced level reports and to analyse statistical data.

Entry Requirements
A Bachelor of Justice three-year degree or equivalent, having attained a grade point average of at least 5 on a 7-point scale in the final year of study and completion of the JSB273 Crime Research Methods (or equivalent) OR JSB976 Independent Study which are offered in the Bachelor of Justice undergraduate program, other qualifications, including work experience or involvement in research that is deemed appropriate by the Course Coordinator. Normally students would apply for admission to the Honours program at the end of the final year of the students pass degree.

Course Structure
The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

Articulation
The Bachelor of Justice (Honours) is excellent preparation for entry to higher degree programs ie. Master of Justice (Intelligence or Policing), Master of Justice (Advanced), Master of Justice (Research) or PhD.

Overview
The Master of Justice (Intelligence) by coursework provides advanced postgraduate education in intelligence and policing. This course extends the scope of areas presented in the Graduate Certificate program to provide a complete foundation for intelligence professionals with careers in defence, policing, government and corporate organisations.

Entry Requirements
Entry criteria for the Master of Justice (Intelligence):
- Bachelor of Justice or equivalent with Honours and a GPA of at least 5 on a 7 point scale or;
- an approved 4 year undergraduate degree in an appropriate field or;
- an appropriate Graduate Certificate with a GPA of 5 or above or;
- approved equivalent professional experience.

Course Requirements
The Master of Justice (Intelligence) consists of eight (8) units totalling 96 credit points. Students must complete two (2) core generic units, four (4) units in a specialisation plus two (2) elective units.

Articulation to Master of Justice (Advanced)
Students who have successfully completed the Master of Justice (Intelligence or Policing) totalling 96 credit points with a GPA of 5.5 or above will be eligible for the Master of Justice (Advanced). Students cannot enrol directly into the JS53 Master of Justice (Advanced) program unless demonstrating equivalent Masters level standing from an approved institution.

Customs Officer, Government Officer, Information Officer, Investigator, Police Officer (Australian Federal), Police Officer (State).
Master of Justice (Policing) (JS51)

Year offered: 2008
Admissions: Yes

Course duration (full-time): Course is not available as Full time study
Course duration (part-time): 2 Years
Course duration (external): 2 Years
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Domestic Entry: February and July
International Entry: February and July
Course coordinator: Associate Prof. Geoff Dean
Discipline coordinator: Dr Colin Thorne
Campus: External

Overview
The Master of Justice (Policing) by coursework will enable you to explore specific aspects of global and local criminal behaviour and to address selected strategies or to develop strategies for addressing some of the issues canvassed. The areas of criminal behaviour covered in this course are highly relevant to contemporary society and globalisation. You will have the flexibility to undertake areas of study specifically pertinent to your professional focus through independent study.

Entry Requirements
Entry criteria for the Master of Justice (Policing):
- Bachelor of Justice or equivalent with Honours and a GPA or at least 5 on a 7 point scale or;
- an approved 4 year undergraduate degree in an appropriate field or;
- an appropriate Graduate Certificate with a GPA or 5 or above or;
- approved equivalent professional experience.
Students may be eligible for academic credit for previous studies in relevant languages, information technology or geopolitical sciences (up to 24 credit points).

Course Requirements
The Master of Justice (Policing) consists of eight (8) units totalling 96 credit points. Students must complete:
- Two (2) generic core units (24 credit points);
- Four (4) specialist policing units plus (48 credit points);
- Two (2) elective units (24 credit points).

Articulation to Master of Justice (Advanced)
Students who have successfully completed the Master of Justice (Intelligence or Policing) totalling 96 credit points with a GPA 5.5 will be eligible for the Master of Justice (Advanced). Students cannot enrol directly into the JS53 Master of Justice (Advanced) unless demonstrating equivalent Masters level standing from an approved institution.

Master of Justice (Research) (JS52)

Year offered: 2008
Admissions: Yes
CRICOS code: 020310J
Course duration (full-time): 1 Year
Course duration (part-time): 2 Years
Domestic fees (per credit point): RTS/RTA; 2008 $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (subject to annual review)
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Total credit points: 96
Course coordinator: Associate Prof. Geoff Dean
Campus: Gardens Point

Entry requirements
The following persons shall be eligible to apply for admission as a student for the degree:

1 A person who has completed the requirements for the degree of Bachelor of Justice (Honours) of QUT, or
2 A person who has completed a qualification that is deemed equivalent and possesses appropriate research skills or substantial professional experience in the proposed field of research as deemed appropriate by the Course Coordinator, or
3 A person who has professional publications, etc that the Course Coordinator and the Faculty Research Committee accept as proof of a students advanced knowledge and research ability in the proposed field of research.

Overview
You can pursue advanced postgraduate research in law enforcement, justice administration, security and intelligence, and corrections and the community. You will develop your research and analytical skills, thus advancing your career possibilities.

Course Structure
The content value of the course is set at 96 credit points. Students will undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis that students submit for their degree should be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminology, law enforcement, intelligence and security, corrections and the community, or legal and justice policy.

Potential Careers:
Academic, Barrister, Child Protection Officer, Community Corrections Officer, Crown Law Officer, Family Services Officer, In-House Lawyer, Police Officer (Australian Federal), Police Officer (State), Solicitor.

Course structure
Master of Justice (Advanced)
Intelligence/Policing (JS53)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 years part time
Course duration (external): 2 years external/part time
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February and July
International Entry: February and July
Course coordinator: Associate Prof. Geoff Dean
Discipline coordinator: Dr Nic Chantler (Intelligence), Dr Colin Thorne (Policing)
Campus: External

Overview
With a further year of part-time study students may complete an advanced research oriented Master of Justice (Advanced). Students may undertake work-based or supervisor supported projects which enhance research analysis skills and enable a particular topic to be studied in depth. Topics would be self-selected in consultation with the academic supervisor and, if relevant, the students employer.

Entry Requirements
Students will only be eligible for the Master of Justice (Advanced) if they have received a GPA of 5.5 or above for 96 credit points of postgraduate level study.

Articulation
Completion of the Master of Justice (Advanced) will enable articulation to PhD or Doctor of Juridical Science research degrees.

Overview
The course provides you with the knowledge, understanding, skills, values and attitudes that you will need to become a competent entry-level legal practitioner.

Entry requirements
An approved degree in law; that is, a degree that satisfies Queensland admission requirements for legal practitioners. Students with one Bachelor of Law unit left to complete may also apply. The Course is offered in 3 modes: full-time; part-time (general); part-time (in practice)- available to persons who are working in approved laws firms or government legal offices;

Professional Recognition
This diploma satisfies the practical training requirements for admission as a legal practitioner in Queensland

Course coordinator: Director, Undergraduate Programs
Phone: 3138 2707
Campus: Gardens Point and External

OP Guarantee
The OP Guarantee does not apply to this program.

Distance Education (External) Special Entry Requirements
Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admission application form.

Other Course Requirements
It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

Graduate Entry
A graduate of any non-Law degree completed within the last 10 years must provide evidence of graduate work experience and/or further studies since course completion with their QTAC application to receive further consideration.

QTAC students are not required to submit an Application for Academic Credit as this will be automatically awarded by QUT Admissions after offer and prior to the start of classes.

Mid-Year Entry
Mid-year full-time entry students should note that there are two compulsory units in the summer semester. Students can alter this structure but should consult with the Law School prior to doing so.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as a questionnaire, portfolio, audition, prior study and/or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Standard credit points per full-time semester: 54
Course coordinator: Professor Rod Broadhurst (Justice), Dr. William Dixon Director - Undergraduate Programs (Law)
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Campus change
From 2007, the Bachelor of Justice component will also be taught at the Gardens Point campus.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Solicitors' Admission Rules and Barristers' Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practice as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Course Overview
Students study a combination of Justice and Law units in the first three years of the course, whilst the final two years are devoted to the study of Law units only. In the Bachelor of Justice component of the course, students are required to select a major (6 units) from one of the following fields: Criminology & Policing

For Further Information Contact
School of Justice phone: (07) 3138 2707; fax: (07) 3138 3992; email: lawjs_enquiries@qut.edu.au Law School phone: (07) 3138 2707; fax: (07) 3138 1775; email: law_enquires@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

**Potential Careers:**

Administrator, Barrister, Community Corrections Officer, Community Worker, Corrective Services Officer, Crown Law Officer, Customs Officer, Family Services Officer, Government Officer, In-House Lawyer, Information Officer, Investigator, Manager, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Public Servant, Rehabilitation Professionals, Social Scientist, Solicitor.
Doctor of Juridical Science (LW50)

Year offered: 2008
Admissions: Yes
CRICOS code: 012652J
Course duration (full-time): 2 Years (minimum)
Course duration (part-time): 4 Years (minimum)
Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (subject to annual review)
International Fees (per semester): 2008: $10,608 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Total credit points: 192
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Assistant Dean, Research
Campus: Gardens Point

Award
The SJD will be awarded subject to the Faculty of Law Academic Board receiving:

(i) a certificate of satisfactory completion of the candidate's approved course of study signed by the Principal Supervisor and the Assistant Dean, Research;

(ii) a declaration signed by the candidate that he/she has not been a candidate for another tertiary award during the tenure of his/her SJD candidature;

(iii) a declaration signed by the candidate stating original authorship of a thesis;

(iv) a certificate signed by the Principal Supervisor, and Assistant Dean, Research stating that the candidate has satisfactorily completed the examination process, including completing any revisions or re-examination required by the external examiners; and

(v) two final copies of the thesis in the prescribed format.

For the purposes of these Rules the Assistant Dean, Research acts as the delegate of the Dean, Faculty of Law and Faculty of Law Research Committee acts as the delegate of the Law Academic Board.

1. Entry Requirements
1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

(i) holds or has completed the requirements of the degree of (a)Master of Laws by Coursework or (b)Master of Justice by Coursework with a grade point average of at least 5.0 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Justice by Coursework respectively at the Queensland University of Technology; and, an applicant must also satisfy the following:

(ii) have a minimum of two years professional experience appropriate to the proposed course of study;

(iii) demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean, Research, for example, by the publication of articles in refereed research journals; and

(iv) demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

Overview
As an experienced legal professional, you will follow a program of applied research that relates directly to your professional and educational needs.

Course Structure
The value of the course is set at 192 credit points, a dissertation of 50,000-60,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as a requirement of this course.

2. Application Procedure
2.1 An application for admission shall be made on the prescribed form (PR/FR Form) which shall involve a two-stage process.

2.2 Stage 1 of the application process must include:

* the completion of the PR Form for admission (if the applicant holds citizenship or permanent residency in Australia or New Zealand);

* the completion of the FR Form for admission (if the applicant is an international candidate);

* a certified copy of the results of the degree relied upon for admission;

* personal data;

* details of relevant research experience. (In the case of a candidate relying upon a Master of Laws by Coursework for admission, this criterion may be satisfied if the student demonstrates that they have completed the unit Advanced Legal Research at a grade of 5 or above at the Queensland University of Technology or some equivalent unit from a comparable institution during the course of their masters studies or can demonstrate other relevant research experience, eg by publication. In the case of a candidate relying upon a Master of Arts (Justice Studies) for admission, the candidate shall demonstrate that she or he has undertaken either a unit in that course or as part of the requirements for the completion of a Bachelor of Justice Studies (Honours) a unit in the area of research methodology at a grade of 5 or above or some equivalent unit from a comparable institution during the course of Masters studies or can demonstrate relevant research experience, eg by publication). Where an applicant cannot satisfy this criteria by way of completion of an advanced research unit or publications as set out above, the applicant will be required to undertake the unit Advanced Legal Research or Advanced Information Retrieval Skills or an
equivalent unit from a comparable institution during their candidature; and
* a brief outline (200-300 words) of the project to be undertaken;
* details of relevant professional experience and
* any other information the candidate considers relevant in support of the application.

2.3 Where a candidate’s qualification for admission is other than a Master of Laws from the Queensland University of Technology, or an equivalent degree, the candidate must undertake research in a field of criminology or other area of Justice Studies approved by the Assistant Dean (Research).

2.4 The application is to be approved by the Faculty Research Committee which will determine whether the applicant meets the criteria for admission or, if deficiencies exist, identify them and how they might be remedied.

2.5 Candidature shall be deemed to have commenced on the date of admission being the date stipulated in the Confirmation of Enrolment.

2.6 Within two months of commencement for full-time students (up to four months for part-time and international candidates) and after consultation with appointed supervisors, the candidate must complete and submit the Stage 2 application form (SJD2) setting out:
* the proposed title of the thesis;
* the objectives of the program of research and investigation;
* an outline of the proposed research;
* the research methods and plan;
* the relationship of the study to previous work in the same field by the candidate and others;
* a preliminary literature review;
* a substantial bibliography;
* a timeline for the completion of the research;
* a research ethics review checklist;
* the names of proposed supervisors, their qualifications and experience with relevant publications; and
* an Intellectual Property Agreement (if required).

2.7 The second stage application must be submitted to the Assistant Dean, Research for approval by the Faculty Research Committee.

2.8 If the Stage 2 application is not submitted within the time specified, the Assistant Dean, Research may, on the advice of the Faculty Research Committee and the Principal Supervisor, terminate the candidature. In exceptional cases, upon a written request stating reasons for delay, an extension of up to a further one month for full-time candidates or two months for part-time candidates may be granted to meet the requirements of Stage 2.

2.9 The Faculty Research Committee shall, as part of the approval of the Stage 2 process, confirm:
* the proposed topic of research is consistent with the aims of the School; and
* the Head of School is willing and able to provide appropriate accommodation, facilities and financial resources necessary for the proposed study for the duration of candidature.

2.10 Upon approval by the Faculty Research Committee of the Stage 2 Application the applicant will be admitted to candidature and the appointment of the supervisors shall be confirmed.

3. Studies During Candidature

A candidate for the degree of SJD is required to successfully complete a planned research program that should result in a notable contribution to professional knowledge and practice in the field of study. This contribution may be in the form of new knowledge in practice, or of significant and original adaptation, application and interpretation of existing knowledge and practice.

3.1 The candidate will pursue a thesis in accordance with Rule 9.

3.2 The planned research program will normally include
* participation in university scholarly activity such as research seminars, teaching and publication;
* regular interaction with supervisors; and
* a program of supervised research and investigation.

3.3 The course of study must be such to enable a candidate to acquire competence in relevant methods of research and scholarship relating to the subject of the proposed investigation and to demonstrate sustained independent research effort.

3.4 The Faculty of Law Research Committee may on the recommendation of the Assistant Dean (Research) approve a variation in the candidate's course of study and research, an application for variation must be supported in writing by the Principal Supervisor.

4. Articulation

4.1 The Doctor of Juridical Science will fully articulate with the Master of Laws (Research) and Master of Arts (Justice Studies) by Research.

5. Period of Time for Completion of Program

5.1 The minimum period of candidature is:
* Full-time candidates _ twenty-four months from date of commencement;
* Part-time candidates _ forty-eight months from date of commencement;

In exceptional cases the Law Faculty Research Committee may approve submission of the thesis within a shorter period.

5.2 The maximum period of candidature is:
* Full-time candidates _ forty-eight months from date of commencement;
* Part-time candidates _ ninety-six months from date of commencement;

5.3 The candidate may change from full-time to part-time candidature or vice versa by making application on a prescribed form to the Faculty Research Committee through the office of the Assistant Dean, Research. International
students studying on student visas are unable to alter their mode of study from full-time to part-time unless they are in their final semester of study.

5.4 A candidate who does not expect to submit his/her thesis by the maximum candidature date must apply for an extension of time on the prescribed form through the Assistant Dean, Research for consideration by the Faculty Research Committee. The application must include the reasons for the delay, written endorsement of the request for extension by the Principal Supervisor and a revised timeline for completion. Applications for extensions will not normally be considered by the Faculty Research Committee unless the reasons for the delays have been documented in previous progress/supervisor reports. Extensions will only be given in exceptional circumstances. Minor breakdown of computer equipment or absence of a Principal Supervisor are not usually considered exceptional.

6. Leave of Absence

6.1 Application must be made on the prescribed form through the Assistant Dean, Research and approved by the Faculty Research Committee. The application must include reasons for the leave of absence, the written endorsement of the Principal Supervisor and the exact start and finish dates of the period of leave. If the leave is approved, the duration of the specified time will be added to the maximum and minimum submission dates of the candidature. International students studying on student visas are not normally permitted to take leave of absence unless there are exceptional circumstances, eg bereavement. International students should consult the Assistant Dean, Research and Office of International Students if a period of leave is required.

6.2 The maximum period of leave of absence for which a candidate may be given approval (for any reasons) is twelve months for a full-time candidate and twenty-four months for a part-time candidate.

7. Supervision

7.1 Supervision shall be conducted according to the QUT Code of Good Practice for Postgraduate Research Studies and Supervision (MOPP Appendix 9).

7.2 A Principal Supervisor from QUT and one Associate Supervisor shall be appointed.

7.3 The Principal Supervisor has responsibility for supervising a candidate on a frequent basis and must be a current member of the QUT staff or an emeritus professor of QUT still active in research. The Principal Supervisor shall normally have undertaken successful supervision of research degree candidates, and shall have an established research record in the area of the proposed project.

7.4 The Associate Supervisor may be a member of the QUT staff but must possess appropriate expertise in the research field and would normally be a person who has undertaken successful supervision of research degree candidates.

7.5 Where the Principal Supervisor is absent from QUT for a period of three consecutive months or longer during the period of candidature, the Associate Supervisor (if that person is a QUT staff member) will normally become the Acting Principal Supervisor for this period.

7.6 If the Principal Supervisor leaves the staff of QUT, the QUT Associate Supervisor will normally fill the role of Acting Principal Supervisor immediately until a new Principal Supervisor is appointed by the Faculty Research Committee in consultation with the candidate. A formal appointment of a new Principal Supervisor must be made within three months of the original Principal Supervisor's departure.

8. Confirmation of Candidature

8.1 Within six months of commencement for full-time candidates and twelve months for part-time candidates, the candidate shall present (in consultation with his/her supervisors) a plan of the research program for the remainder of the candidature and report of the work done to that tie. The confirmation report form shall incorporate a substantial literature review and shall provide evidence of the research capacity of the candidate including the rate of progress to date. The plan shall include details of:
* The area of study in which the candidate's course is located;
* The nature of participation in scholarly activities in the Centre in which the degree is being undertaken;
* The objectives of the program of research and its relationship to published research in the same field;
* Research methods followed and to be followed;
* The title of the thesis; and
* A timeline for completion of the research program.

8.2 The candidate shall present the confirmation report and details of the research program at a Confirmation Seminar open to the public.

8.3 A candidate who is not able to complete a Conformation of Candidature within the timeframe required must apply for an extension at least one month in advance of that deadline through the Assistant Dean, Research to the Faculty Research Committee. A maximum of three months extension may be granted.

8.4 A Review Panel shall review the candidate's progress and planned research program and shall make recommendations to the Faculty Research Committee. These recommendations shall include:
* An appraisal of the candidate's progress and suitability for continuation of the program;
* Documents prepared by the candidate;
* A statement that the research program is of a standard required for an SJD;
* A statement of whether the studies continue to be within the aims and objectives and physical and human resources of the Centre; and
* A report on the candidate's seminar.

8.5 The Faculty Research Committee will, if satisfied:
* Confirm the candidature and notify the candidate; or
* May require changes to the planned research program; or
* If the recommendation is not to confirm the candidature immediately, place the candidate under review for three
months. At the end of the review period the Assistant Dean, Research must advise the Faculty Research Committee whether the conditions of review have been met.

8.6 Where a candidate is placed under review following the Confirmation Seminar, the Principal Supervisor must advise the candidate in writing within seven days of the conditions to be met, in the form of clear written guidelines of the work required and due dates for submission and whether a further Confirmation Seminar is required. The conditions must be endorsed by the candidate, the supervisor (supervisors), Director of the Centre and Assistant Dean, Research.

8.7 Where a candidate's progress remains unsatisfactory after the review period, the Faculty Research Committee, on advice from the Assistant Dean, Research shall either grant a further extension of the period of up to three months or may ask the candidate to show cause in writing why action should not be taken to terminate the candidature.

9. Reporting

9.1 The Principal Supervisor and candidate are required to report annually by 30 September on the prescribed form on the candidate's progress and future plans. Reports shall be completed both by the candidate and the Principal Supervisor and submitted through the Law Faculty Research Committee to the Office of Research for consideration by the Research Degrees Committee. At its discretion, the Faculty Research Committee may request an additional six monthly report if it has concerns for the candidate's progress or feels that the candidate would benefit from such process.

9.2 Where a candidate's progress is deemed satisfactory, the Research Degrees Committee shall approve the continuation of the candidature.

9.3 Where the progress is deemed unsatisfactory, in the Confirmation of Candidature, six monthly report or other interim faculty report, the Research Degrees Committee, on advice from the Faculty Research Committee will normally place a candidate under review for a period of up to three months from the date that the candidate is advised in writing of the decision. The candidate will be advised of the required remedial action to be followed taking account of the advice provided by the Principal Supervisor and the Faculty Research Committee.

9.4 A report on the action taken to resolve the deficiencies in the program must be made to the Faculty Research Committee and the Research Degrees Committee may then approve continuation of candidature if these deficiencies have been redressed and progress is again satisfactory.

9.5 If progress is still unsatisfactory after the review period, the Research Degrees Committee, on the advice of the Faculty Research Committee shall ask the candidate to show cause in writing why the enrolment shall not be terminated.

9.6 When a candidate's progress has been reported as unsatisfactory in any two consecutive reports during candidature, the Research Degrees Committee shall ask the candidate to show cause in writing why the enrolment of the candidate shall not be terminated.

9.7 If a candidate fails to submit an annual report through their Principal Supervisor to Research Degrees Committee by the due date without applying, in writing, for an extension on the prescribed form two weeks prior to the due date, the Research Degrees Committee may ask the candidate to show cause why the enrolment of the candidate should not be terminated.

9.8 If the candidate does not show cause why the enrolment shall not be terminated, the Research Degrees Committee may terminate the candidate's enrolment.

10. Thesis Guidelines

10.1 The thesis must be presented in accordance with the requirements of the University, including any accompanying declarations and in accordance with Appendix 9 of the Manual of Policies and Procedures _ Requirements for Presenting Theses (MOPP 9.13). The main body of the text should be between 50,000 and 60,000 words.

10.2 The thesis must be presented in the English language.

10.3 A candidate may submit with the thesis other kinds of relevant material (such as films, audio tape recordings, video tape recordings, CD-ROMS, software programs etc) which shall be accompanied by evidence of the extent to which the candidate has been responsible for their preparation.

10.4 An SJD degree may not be awarded on the basis of the submission of published papers.

10.5 A candidate's name will not be placed on the graduation list until the final copies of the thesis (one bound and one electronic) are received in the Research Students' Centre, Office of Research. These copies shall be in the prescribed form as set out in the University Requirements for Presenting Theses and be provided at the candidate's expense. An additional copy shall be bound at the Faculty's expense for inclusion in the Faculty Office collection. Any corrections resulting from the examiners' assessment shall be made prior to binding, and by retyping if they would otherwise be obtrusive.

10.6 When these final copies of the thesis have been lodged with the Research Students' Centre, Office of Research, the names of examiners will be released to the candidate upon request, providing that the examiner has not indicated otherwise.

11. Examination of Thesis

11.1 At least three months prior to the maximum candidature date or anticipated completion date, the Principal Supervisor having obtained the agreement of the Faculty Committee, shall recommend to the Faculty Research Committee the composition of the proposed Examination Committee and the title of the candidate's thesis.
11.2 The Examination Committee shall comprise two external examiners who will examine the thesis plus an external examiner to be called upon only if the first two examiners are in disagreement.

11.3 In exceptional circumstances, the University Research Degrees Committee may act directly to facilitate the examination process of a thesis including the appointment of examiners.

11.4 A candidate's Principal or Associate Supervisor may not be nominated by the Faculty as an examiner.

11.5 Examiners must have demonstrable and substantial publications and research experience in the area under investigation and one examiner would normally have a research degree. At least one of the nominated examiners should be an academic from a recognised university or equivalent research institution. At least one examiner would normally be a specialist practitioner recognised as an expert in the particular field of the research constituting the thesis. Preferably, at least one examiner should also have substantial experience of examining research degree candidates at doctoral level.

11.6 Agreement will be sought from examiners to examine the thesis within eight weeks of receipt.

11.7 If more than six months has elapsed between the nomination of examiners and the submission of the thesis, the faculty must notify the Research Degrees Committee that the nominated examiners are still willing and able to examine the thesis within two months of its receipt. If any previously nominated examiner is unable to examine the thesis, a replacement examiner must be nominated by the Principal Supervisor (with the agreement of the Faculty) for approval by the Research Degrees Committee.

11.8 In order to determine whether the thesis is acceptable for examination by the Examination Committee, the candidate shall be required to present a Final Seminar based on the work described in the thesis to the Faculty to which he/she is attached.
* The final seminar shall normally take place no more than six months prior to the anticipated submission date.
* The Faculty shall constitute a panel of three including the Principal Supervisor to attend the seminar and to report on the readiness of the thesis for external examination. The panel shall be chaired by the Principal Supervisor, and shall question the candidate on the content of the thesis at the conclusion of the seminar. Each member of the panel must receive a copy of the draft thesis 14 days prior to the final seminar.
* The panel may require changes to the thesis or ask that further work be done prior to submission of the thesis. The thesis is accepted by the University for external examination only when the panel signifies its belief that the degree requirements have been met. The Faculty panel shall use the prescribed form when advising Research Degrees Committee that the thesis is ready for external examination.
* The final seminar shall be open to the public and shall be widely advertised by the Faculty so as to ensure attendance by researchers and research students within the Faculty.
* In all other matters the form and timing of the final seminar is determined by the Faculty.

11.9 The thesis must be accompanied by a certificate form (SJD7) endorsed by the Principal Supervisor, Assistant Dean, Research and the Faculty panel, stating that all reasonable efforts have been made by the Faculty to ensure that:
* The thesis makes notable contribution to professional knowledge and practice;
* The methodology applied in the candidate's research is effective and appropriate for the thesis topic;
* The thesis reflects competence in the survey of literature and documentation of statements;
* The thesis is of the required standard for external examination;
* The thesis is within the prescribed word limit;
* The candidate has presented a Final Seminar;
* That acknowledgment is given regarding the inclusion of all published and other sources of information together with any substantial financial assistance received for the project.

11.10 In exceptional circumstances the Research Degrees Committee may allow a candidate to submit his or her thesis for external examination without the requirement for certification. The candidate must apply in writing to the Research Degrees Committee for such permission, outlining reasons why the certification is not included.

11.11 Three copies of the thesis in the prescribed format must be submitted to the Research Students Centre, Office of Research, no later than the maximum candidature date.

11.12 The Office of Research, on the advice of the Research Degrees Committee, shall provide the examiners with a copy of the thesis and of the Regulations for the Award of the Degree of the Doctor of Juridical Science and any other relevant information. 11.13 Each examiner will be asked to provide a written report to the Office of Research on the candidate's thesis and to recommend on the following courses of action:
Recommendation 1: The candidate should be awarded the degree without the requirement for revision, further examination or modification (minor corrections and typographical errors only); or
Recommendation 2: The candidate should be awarded the degree subject to minor nominated revisions being completed to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or
Recommendation 3: The candidate should be awarded the degree following the completion of major nominated revisions to the satisfaction of the Assistant Dean, Research and Principal Supervisor; or
Recommendation 4: The candidate should be permitted to substantially revise and submit the thesis for re-examination within twelve months after a specified amount of further work, which may alter the substantive conclusions of the thesis, has been completed under approved supervision and the thesis appropriately amended to reflect the additional research; or
Recommendation 5: The thesis should be rejected, the degree should not be awarded and the candidate should not
be permitted to submit the thesis for re-examination for the degree.

11.13 After both examiners' reports are received the Office of Research will forward them to the Assistant Dean, Research, the Principal Supervisor and the candidate with an appropriate covering letter (Until such time as the examination process is complete the identity of the examiners will be withheld from the candidate).

12. Examiners in Agreement

12.1 Where both examiners recommend that the candidate should be awarded the degree (recommendation 1, 2 or 3), the Assistant Dean, Research will consult with the Principal Supervisor and Centre Director to discuss any corrections or revisions that the candidate may be required to make and where revisions are required.

12.2 Where corrections or revisions are to be made to the satisfaction of the Assistant Dean, Research or nominee, the Head of School or nominee must certify to the Research Degrees Committee that they recommend acceptance of the thesis in fulfilment of the conditions for the award of the SJD degree.

12.3 Where both examiners recommend that the thesis be revised and resubmitted for examination (Examiners Report Recommendation 4), after consultation with the Principal Supervisor and the Centre Director, the Assistant Dean, Research will make written recommendation to the Research Degrees Committee that the candidate be awarded the degree with or without minor nominated revisions, as appropriate, after receipt of the third nominated examiner.

13. Examiners not in Agreement

13.1 Where the recommendations of the external examiners are not in agreement as to whether the thesis should be accepted for the award of SJD or as to whether the thesis may be revised and resubmitted, the thesis will be sent to the third nominated examiner.

13.2 Upon receipt of the third examiner's report, a majority decision shall be adopted.

13.3 Where the majority decision is that the thesis be accepted or that the thesis be rejected, this shall be the decisions of the examiners as the case may be.

13.4 Where the majority decision is that the candidate be required to submit for re-examination or the thesis fail, the procedures in Section 10 shall apply.

13.5 Where the recommendation of three examiners clearly differ and no clear majority exists, the Assistant Dean, Research or nominee shall liaise with the Principal Supervisor to determine the further course of action.

14. Re-Examination

14.1 A candidate who is required to submit for re-examination may be re-examined only once except in the case of an upheld appeal.

14.2 Re-examination shall take place within twelve months from the date on which the candidate is advised in writing by the Assistant Dean, Research or nominee of such re-examination. The Research Degrees Committee may, on written application by the candidate and supported by the Principal Supervisor and Centre Director with suitable justification, approve an extension to this period which, under normal circumstances, may be a maximum of a further twelve months.

14.3 A candidate who is required to submit his/her thesis for re-examination must re-enrol in the SJD program.

14.4 The thesis shall be re-examined by the same two examiners unless:

* Any of the examiners is unable to re-examine the thesis in which case the Assistant Dean, Research or nominee with the agreement of the Principal Supervisor and the Faculty shall nominate a replacement examiner(s) who must be approved by the Research Degrees Committee; or

* The Research Degrees Committee replaces one or more of the examiners on advice from the RDC Chair and with suitable justification.

14.5 Examiners re-examining a thesis will be asked to provide a written report on the candidate's thesis and to recommend one of the following courses of action:

(a) the candidate should be awarded the degree with or without minor nominated revisions; or

(b) the candidate should be awarded the degree a masters level with or without minor nominated revisions; or

(c) the candidate should be rejected and the degree should not be awarded.

14.6 Regulations applicable to SJD examination shall apply to the re-examination.

15. Appeals

15.1 A candidate whose thesis has failed may lodge an appeal against the outcome of the examination process.

15.2 The grounds for appeal may be on matters of process only, ie procedural irregularities in the conduct of the examination or documented evidence of examiner bias as evidenced by comments in the examiners reports.

15.3 An appeal must be lodged within sixty (60) days of the date of written advice from the Office of Research on the outcome of the examination. This appeal must include the specific grounds on which the appeal is based.

15.4 Appeals must be submitted in writing to the Office of the Pro-Vice-Chancellor (Research and Advancement). The Director, Postgraduate Research Studies, will determine whether a potential conflict of interest exists in relation to his/her consideration of the appeal.

15.5 In cases where a conflict of interest exists, the Director,
Postgraduate Research Studies, will appoint a member of academic staff, with expertise in research candidate supervision, to consider the appeal.

15.6 The Director, Postgraduate Research Studies, or appointee will decide whether a case exists and may seek the advice of the Faculty, school or centre/research concentration as appropriate.

15.7 The appeal may be allowed or dismissed. If an appeal is allowed, the Director, Postgraduate Research Studies, or appointee cannot recommend that the degree be awarded but shall recommend that that thesis be re-examined. This re-examination shall be carried out in accordance with the Section 6.143 taking account of the issues raised in the successful appeal.

15.8 The Director, Postgraduate Research Studies, or appointee will make a determination on the appeal as soon as practicable and will advise appellants, in writing, of the result of the appeal.

**Course Structure**

**Full Time Course Structure, Year 1, Semesters 1 & 2**
- Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 48 credit points per semester

**Full Time Course Structure, Year 2, Semesters 1 & 2**
- LWR003-1 Thesis
- LWR003-2 Thesis
- LWR003-3 Thesis
- LWR003-4 Thesis

**Full Time Course Structure, Year 3, Semesters 1 & 2**
- LWR003-5 Thesis
- LWR003-6 Thesis
- LWR003-7 Thesis
- LWR003-8 Thesis

**Part Time Course Structure, Year 1, Semesters 1 & 2**
- Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 24 credit points per semester

**Part Time Course Structure, Year 2, Semesters 1 & 2**
- Coursework units selected from the list of available units in the Master of Laws (by Coursework) or Master of Justice (by Coursework) to the value of 24 credit points per semester

**Part Time Course Structure, Year 3, Semesters 1 & 2**
- LWR003-1 Thesis

**Potential Careers:**
- Academic, Barrister, Solicitor.
Master of Laws (LW51)

**Year offered:** 2008
**Admissions:** Yes
**CRICOS code:** 006380A

**Course duration (full-time):** 1 Year
**Course duration (part-time):** 2 Years
**Domestic fees (per credit point):** 2008: $135 per credit point (subject to annual review)
**Domestic fees (indicative):** 2008: $12,960

**International Fees (per semester):** 2008: $9,600 per semester (subject to annual review)

**Domestic Entry:** February and July
**International Entry:** February and July

**Total credit points:** 96
**Standard credit points per full-time semester:** 48
**Standard credit points per part-time semester:** 24

**Course coordinator:** Director, Graduate Programs
**Campus:** Gardens Point

---

**Overview**
The Master of Laws by Coursework will deepen and broaden your legal learning, developing your critical evaluation of the law and consideration and analysis of the attitudes and values underlying it. During the course, you are expected to attain high competence in legal research and writing on areas of conceptual difficulty. The course leads on to the Doctor of Juridical Science (subject to normal entry requirements).

**Entry Requirements**
Prospective students must have:
(i) completed the requirements for the degree of Bachelor of Laws of QUT OR
(ii) have completed the requirements for the award of a degree in law at another tertiary institution which, in the opinion of the Director, Graduate Programs, maintains standards comparable with those required for the award of the degree of Bachelor of Laws at QUT OR
(iii) hold a professional qualification in law and have at least three years of professional legal experience subsequent to first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

In exceptional circumstances, an applicant who does not otherwise satisfy the normal entry requirements will be eligible for entry into the Master of Laws by Coursework degree in a specialist stream if he or she:
(i) has completed a Graduate Certificate in Law in a specialist stream AND
(ii) has significant professional experience in the field of the Graduate Certificate in Law already completed; AND
(iii) has achieved a grade point average of 5.5 in the units already completed for the Graduate Certificate in Law and whose course is approved by the Director, Graduate Programs.

---

**Course Structure**
The course structure comprises 96 credit points (8 units) of coursework units. This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) can be chosen from any unit not included in the nominated major, including units listed under "additional units";

2. Students may complete a "generic" major by choosing all 96 credit points (8 units) from any of the majors.

**Majors available:**
Commercial Law, Environmental Resources Law, Health Law, Public Law, Technology Law, Intellectual Property Law

**NOTE:** International students are normally only able to graduate with a "generic" course.

---

**Articulation**
This course articulates with the Doctor of Juridical Science (SJD).

**Unit Information**
Not all units are available in any one year. Generally, postgraduate law units are offered on a two year rotational basis, and are offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive, internal or internal and external mode of study.
Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas are able to enrol in a combination of intensive, external and internal units each semester. (This is subject to approval)*

The degree may contain up to 48 credit points in independent research projects, as approved by the Director, Graduate Programs.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

---

**Advanced Standing**
Graduates of QUT’s Graduate Diploma in Legal Practice (LP41), who graduated from courses run in and from 2000 until the end of 2008, are entitled to 48 credit points of unspecified credit in the LW51 Master of Laws course, if they enrol in LW51 by second semester 2010.

Graduates of QUT’s Graduate Diploma in Legal Practice before 2000 or after 2008 are eligible for up to 24 credit points of unspecified credit towards the Master of Laws.
Graduates of other Australian university-based practical legal training courses that lead to an award of a Graduate Diploma in Legal Practice are entitled to 12 credit points of unspecified credit but, upon written application to the Director of Graduate Programs, a case may be made for additional credit.

Persons who have successfully completed the Queensland Law Society accredited specialist assessment and are Queensland Law Society Accredited Specialists are entitled to 12 credit points of unspecified credit when they enrol in the Master of Laws course.

**Course duration (full-time):** 1 Year  
**Course duration (part-time):** 2 Years  
**Domestic fees (per credit point):** RTS/RTA; Full fee tuition 2008 $135 per credit point (exceeded max. entitlements)  
(subject to annual review)  
**Domestic fees (indicative):** 2008: $12,960 (exceeded max. entitlements)  
**International Fees (per semester):** 2008: $10,608 per semester (subject to annual review)  
**Domestic Entry:** At any time  
**International Entry:** At any time  
**Total credit points:** 96  
**Standard credit points per full-time semester:** 48  
**Standard credit points per part-time semester:** 24  
**Course coordinator:** Assistant Dean (Research)  
**Campus:** Gardens Point

**Entry Requirements**

The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws or QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or

1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

1.2 Candidates falling within sub-clauses 1.1.1 and 1.1.2 must also satisfy the following to be eligible for admission:

1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or

1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or

1.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and

1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

**Overview**

Students pursue a supervised research thesis of 50,000 words. The course offers you formal recognition for advanced and original research.

**Course Structure**

The content value of the course is set at 96 credit points. Students will complete a thesis of not less than 50,000 nor more than 60,000 words that constitutes a substantial contribution to knowledge and understanding of the law in the students area of research.

**Potential Careers:**

Graduate Certificate in Law (LW60)

Year offered: 2008
Admissions: Yes
CRICOS code: 027286C
Course duration (full-time): 1 semester (Generic course and select majors only)
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point

Overview
This Certificate course allows students to further their knowledge in particular areas of interest in the law. Students may select units from one of the eleven majors offered or may elect to complete the course without a major.

Entry Requirements
Prospective students must either:
(i) hold the degree of Bachelor of Laws from QUT or a comparable institution
OR
(ii) have a professional qualification in law and at least three years of professional legal experience after first admission to practice
OR
(iii) have a bachelor's degree in another discipline and professional experience which in the opinion of the Director, Graduate Programs equips the student for postgraduate study in law in the field of the Graduate Certificate in Law in which he or she wishes to enrol.

Course Structure
Students must undertake a total of 48 credit points (4 units). This can be achieved in one of two ways:

1. Students may nominate a major from the list below and choose 48 credit points (4 units) from that particular major; or
2. Students may complete a "generic" course by choosing the 48 credit points (4 units) from any major.

Majors:

NOTE: International students are normally only able to undertake a "generic" course.

Articulation to the Master of Laws by Coursework

The Graduate Certificate in Law articulates with the Master of Laws (LW51) course.

A student who has successfully completed the Graduate Certificate in Law and who does not hold a Bachelor of Laws degree or equivalent, may be permitted to enter the Master of Laws course if he or she achieves a minimum GPA of 5.5 in the Graduate Certificate in Law, and has the approval of the Director of Graduate Programs.

Unit Information
Not all units are available in any one year. Generally, postgraduate units are offered on a two year rotational basis, and offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive, internal and external mode of study.
Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas are able to enrol in a combination of intensive, external and internal units each semester. (This is subject to approval)

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities.

LWN162 Australian Common Law System
LWN168 Theories of Dispute Resolution
LWN179 Copyright in the Digital Age
LWN180 Open Licensing: New Models For Intellectual Property
LWN181 Intellectual Property Litigation

* NOTES

LWN048 Advanced Legal Research is strongly recommended for international students.
LWN162 Australian Common Law System is a compulsory unit for all international students to complete.
The units listed within all majors may be subject to change.

Schedule of Units

Not all units are offered in any one year.
For a schedule of unit offerings for 2008: please refer to http://www.law.qut.edu.au/study/courses/pgrad/periodmode.jsp

Potential Careers:
Academic, Actuary, Barrister, Solicitor.
Graduate Certificate in Legal Studies (LW65)

Year offered: 2008
Admissions: Yes
CRICOS code: 040307E
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point and External

Overview
For non-law graduates or professionals working in the legal sector, the Graduate Certificate in Legal Studies will help develop professional competencies, skills and knowledge. The course provides short, focused programs to upgrade qualifications, and may lead into the Graduate Diploma in Legal Studies. On completion of this course you should be able to contribute to your employer's practical services, organisation and policy making.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate

Advanced Standing
Students who have previously undertaken undergraduate law units (equivalent to core units in LW65) at QUT may apply for a maximum of 24 credit points for these units towards the LW65 Graduate Certificate in Legal Studies

Course Structure
Students are required to undertake 4 units (48 credit points). These units are core units taken from the Bachelor of Laws (LW33) program.

External Students
Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30 kilometre radius of the Gardens Point campus.

It is a requirement of that distance education students participate in two three-day attendance schools per year in addition to the commencing students orientation school. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students' responsibility to ensure they have access to a suitable law library.

Full-time course structure

Part-time course structure

Option 1: LWP142 Law, Society & Justice

Year 1, Semester 1
- Introduction to Legal Research
- LWB141 Legal Institutions and Method
- LWP142 Law Society and Justice

Year 1, Semester 2
- LWB136 Contracts A
- LWB138 Fundamentals of Torts

Option 2: LWB143 Legal Research & Writing

Year 1, Semester 1
- Introduction to Legal Research
- LWB136 Contracts A
- LWB141 Legal Institutions and Method

Year 1, Semester 2
- LWB138 Fundamentals of Torts
- LWB143 Legal Research and Writing

These course structures are based on Semester 1 entry to the course.
Graduate Diploma in Legal Studies (LW70)

Year offered: 2008
Admissions: Yes
CRICOS code: 040318B
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point and External

Overview
For non-law graduates or professionals working in the legal sector, the Graduate Diploma in Legal Studies will help develop your professional competencies, skills and knowledge. The course provides short, focused programs to upgrade qualifications. On completion of this course you should be able to contribute to your employer's practical services, organisation and policy making.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution
or professional experience that the Course Coordinator deems to be appropriate

Advanced Standing
Students who have previously undertaken undergraduate law units (equivalent to units in LW70) at QUT may apply for a maximum of 48 credit points for these units towards the LW70 Graduate Diploma in Legal Studies.

Course Structure
Students must undertake 8 units (96 credit points). Of these, four elective units that carry a postgraduate unit code, are taken from the Bachelor of Laws course.

OVERVIEW

The Faculty of Science seeks to provide graduates with interesting and rewarding careers.

Fully equipped scientific and computing laboratories and state-of-the-art lecture theatres assist in the practical delivery of innovative teaching programs.

Science education in the Faculty is further enriched by a number of research programs and QUT's interdisciplinary research institutes (in particular the Institute of Health and Biomedical Innovation and the institute for Sustainable Resources).

The Deans Scholars Accelerated Honours Program for high achieving students fast tracks science studies while workplace learning links with industry provide students with the opportunity to earn a salary while progressing through their degree.

Double degree options are available as part of a flexible program of academic studies.

The Bachelor of Pharmacy course offered at Gardens Point focuses on community and hospital pharmacy practice.

The Faculty offers a range of courses within its four multidisciplinary schools: School of Life Sciences, School of Mathematical Sciences, School of Natural Resource Sciences and School of Physical and Chemical Sciences.

The School of Life Sciences offers studies in courses focused on biomedical and medical sciences, biotechnology, microbiology, and biochemistry. The School enjoys close working relationships with industry which, in turn, help to provide students with a 'hands-on' approach to all of its courses.

The School of Mathematical Sciences offers studies in applied mathematics, mathematical finance, applied statistics, scientific computation and visualisation, and operations research. There is an emphasis on the applications of mathematics and many of the units are enriched by examples from business and industry.

The School of Natural Resource Sciences offers major studies in environmental science, ecology and geoscience, complemented with the co-majors in biodiversity, and applied geology.

The School of Physical and Chemical Sciences offers majors in both Physics and Chemistry with co-majors in astrophysics, forensic science and industrial chemistry. Forensic science can also be taken as a double major with chemistry, biochemistry, biotechnology or microbiology. The School also offers courses in medical radiation technology with majors in medical imaging technology and radiotherapy technology, which lead to a career as a diagnostic radiographer or radiation therapist respectively.

The first year of the Applied Science course is offered at the Carseldine campus as well as at Gardens Point. For information about the Faculty of Science visit: http://www.sci.qut.edu.au/

Email: sci-enquiries@qut.edu.au
Phone: +61 7 3138 2152

SENIOR STAFF

Faculty Office

Executive Dean: Professor M.L. Britz, BSc(Hons) PhD Melb

Assistant Dean (International, Community and Industry Engagement): Professor A. Taji, BAgSc(Hons) Tehran, GradDipHortSci Syd., PhD Flinders, MDP Harvard

Assistant Dean (Research): Professor M.N. Silence, BSc(Hons) CertEd PhD Leeds

Assistant Dean (Teaching and Learning): Vacant

Director of Postgraduate Studies: Vacant

Faculty Manager: S.Bee, BSc GradDipAdmin Griff, JP(Qual)

School of Life Sciences

Head: Professor A.C. Herington, BSc(Hons) PhD Monash

Professors:

J.A. Clements, BAAppSc MAppSc RMIT, PhD Monash
C. Nelson, BSc(Hons) PhD Canberra
P. Timms, MSc PhD Qld, FASM
Z. Upton, BSc(Hons) PhD Adel

Associate Professors:

RESEARCH CENTRES

Research Programs

The Faculty of Science provides an environment within which a variety of programs interact, developing new and innovative collaborations at the interface between disciplines. Our knowledge of nature is expanding at an exponential rate and with this comes opportunities in complex areas requiring multi-disciplinary research teams. The Faculty's research has been structured so as to maintain critical mass within disciplines, while bringing together the expertise from different research programs to tackle a range of complex research problems. The Faculty has a specific focus of four major themes which are: energy, the environment, food production and health.

The Faculty has a broad range of research programs grouped within six clusters which provide and maintain state of the art technology equipment and facilities; importantly, these facilities are shared across the Faculty and are available to all programs giving researchers and research students access to the extensive range of equipment and technologies within the Faculty of Science.

Applied Chemistry
This cluster brings together expertise in medicinal and forensic chemistry; novel materials and nanotechnology and polymers, to address research problems concerning health, food production and the environment.

Program Leader: Professor Ray Frost
Phone: +61 7 3138 2407

Applied Physics
This cluster contains experts in applied optics and nanotechnology; environmental physics and medical physics who contribute to research projects concerning health, energy and the environment.

Program Leader: Professor Christian Langton
Phone: c/- +61 7 3138 2152 (Faculty of Science office)

Biomedical Science – Cells and Tissues
This cluster is focussed on health research, specifically in the areas of hormone dependant cancer; infectious diseases and tissue repair and regeneration.

Program Leader: Professor Peter Timms
Phone: +61 7 3138 6199

Healthy and Sustainable Environments
This cluster brings together experts on air quality; earth, water and climate systems and ecosystems to address issues that concern both food production and the environment.

Program Leader: Professor Peter Grace
Phone: +61 7 3138 9283

Plant, Molecular and Industrial Biotechnology
This program is working in the areas of bio-processing; food production and biosecurity; tropical crops and biocommodities, with projects that concern energy and food production, health and the environment.

Program Leader: Professor Margaret Britz
Phone: +61 7 3138 2205

Statistics, Applicable Mathematics & Operations Research
This program provides expertise in operations research; modelling in health, industry, environment and finance; and statistical and computational methods to support research activities across the Faculty in health, energy, food and environmental research.
Bachelor of Engineering (Electrical)/Bachelor of Mathematics (IF21)

Year offered: 2008
Admissions: Yes
CRICOS code: 020329J
Course duration (full-time): 5 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,712
International Fees (per semester): 2008: $11,184 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419572
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Dr R.Mahalinga-Iyer (Engineering); Associate Professor Graeme Pettet (Mathematics)
Discipline coordinator: Dr Ed Palmer (Engineering)
Campus: Gardens Point

Recommended study
Chemistry, Maths C and Physics are recommended.

Career Opportunities
Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of government and private companies. A stronger training in mathematics and statistics enhances capabilities in modelling, analysis and design.

Overview
The program integrates both the engineering and mathematics degree. Mathematics and engineering have always had close connections, but recent advancement in mathematics and statistics are increasingly being used to help solve complex engineering problems.

Special Course Requirements
A candidate for this course must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia, and the coursework requirements for accredited graduate membership of the Australian Mathematical Society. Students may also become a member of the Statistical Society of Australia.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Contact Details

Email: g.pettet@qut.edu.au

Further information
Phone +61 7 3138 1993, Fax +61 7 3864 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C

For students with four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both subjects.

Year 5, Semester 2
BEB802 Project 2
ENB344 Industrial Electronics
Applications Minor Selective
Mathematics elective (Level 3)

Applications Minor Selectives - Same as for EN40 Electrical.

Please refer to EN40 Electrical Course Structure - Standard Program.

Mathematics Electives (Level 2)

MAB422 Mathematical Modelling
MAB461 Discrete Mathematics

Mathematics Electives (Level 3)

Four units required:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB524 Statistical Inference
MAB533 Statistical Techniques
MAB536 Time Series Analysis
MAB613 Partial Differential Equations
MAB624 Applied Statistics 3
MAB672 Advanced Mathematical Modelling

NOTES:
- For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply to students who commenced prior to 2004.
- Some deviations from the above course structure may be possible with the permission of the course coordinator. This is more likely to apply in the later years than the earlier years of the course.
Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF29)

Year offered: 2008
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,346
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72. Dfee places were not offered last year.
Past OP cut-off: 13. Dfee places were not offered last year.
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 48

Course coordinator: Dr Megan Hargreaves (Science); Ruth Christie(InFtech)

Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kirakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Career Opportunities
The course prepares you for an increasing range of careers that involve the application of information technology to science. As a graduate of the double degree, you are also qualified for employment in the areas of software engineering and data communications.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
The science component of the course offers you a choice of one of the major areas of study available in the Bachelor of Applied Science (SC01) course. To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the information technology program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

The information technology component gives you the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the Science and Information Technology degrees.

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

### Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

**Potential Careers:**

Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Data Communications Specialist, Economist, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Health Physicist, Hydrogeologist, Immunologist, Industrial Chemist, Laboratory Technician (Chemistry), Marine Scientist, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Population Ecologist, Software Engineer,
Bachelor of Applied Science/Bachelor of Laws (IF39)

Year offered: 2008
Admissions: Yes
CRICOS code: 012661G
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,703
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419712
Past rank cut-off: 90
Past OP cut-off: 6
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 60 (years 1 and 4), 48 (years 2, 3 and 5)
Course coordinator: Dr Megan Hargreaves (Science); Dr. William Dixon Director, Undergraduate Programs (Law)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Career Opportunities
As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design
The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Professional Recognition
Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course structure - Major in Biochemistry**

**Year 1, Semester 1**
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life
- Either
  - MAB101 Statistical Data Analysis 1
  - Or
  - MAB104 Introductory Quantitative Methods

**Year 1, Semester 2**
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2
- SCB122 Cell and Molecular Biology

**Year 2, Semester 1**
- LQB381 Biochemistry: Structure and Function
- LQB383 Molecular and Cellular Regulation
- LQB386 Microbial Structure and Function
- LWB136 Contracts A

**Year 2, Semester 2**
- LQB481 Biochemical Pathways and Metabolism
- LQB483 Molecular Biology Techniques
- LWB137 Contracts B
  - Either
- LQB484 Introduction to Genomics and Bioinformatics
  - Or
- LQB486 Clinical Microbiology 1

**Year 3, Semester 1**
- LQB581 Functional Biochemistry
- LQB582 Biomedical Research Technologies
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law

**Year 3, Semester 2**
- LQB681 Biochemical Research Skills
- LQB682 Protein Biochemistry and Bioengineering
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility

**Year 4, Semester 1**
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

**Year 4, Semester 2**
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

**Year 5, Semester 1**
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
  - Law Elective Units *

**Year 5, Semester 2**
- LWB433 Professional Responsibility
  - Elective Units *

**Course structure - Major in Biotechnology**

**Year 1, Semester 1**
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life
| Year 1, Semester 2 | Either | MAB101 | Statistical Data Analysis 1 |
| | Or |
| | MAB104 | Introductory Quantitative Methods |

| Year 1, Semester 2 | LWB143 | Legal Research and Writing |
| | LWB144 | Laws and Global Perspectives |
| | SCB120 | Plant and Animal Physiology |
| | SCB121 | Chemistry 2 |
| | SCB122 | Cell and Molecular Biology |

| Year 2, Semester 1 | LQB381 | Biochemistry: Structure and Function |
| | LQB383 | Molecular and Cellular Regulation |
| | LQB386 | Microbial Structure and Function |
| | LWB136 | Contracts A |

| Year 2, Semester 2 | LQB483 | Molecular Biology Techniques |
| | LQB484 | Introduction to Genomics and Bioinformatics |
| | LWB137 | Contracts B |
| | Either: |
| | LQB481 | Biochemical Pathways |
| | Or |
| | LQB486 | Clinical Microbiology 1 |

| Year 3, Semester 1 | LWB138 | Fundamentals of Torts |
| | LWB238 | Fundamentals of Criminal Law |
| | Select TWO units from: |
| | LQB583 | Genetic Research Technology |
| | LQB584 | Medical Cell Biology |
| | LQB585 | Plant Genetic Manipulation |

| Year 3, Semester 2 | LWB139 | Select Issues in Torts |
| | LWB239 | Criminal Responsibility |
| | Select TWO units from: |
| | LQB682 | Protein Biochemistry and Bioengineering |
| | LQB684 | Medical Biotechnology |
| | LQB685 | Plant Microbe Interactions |

| Year 4, Semester 1 | LWB231 | Introduction to Public Law |
| | LWB236 | Real Property A |
| | LWB240 | Principles of Equity |
| | LWB332 | Commercial and Personal Property Law |
| | LWB333 | Theories of Law |

| Year 4, Semester 2 | LWB235 | Australian Federal Constitutional Law |
| | LWB237 | Real Property B |
| | LWB241 | Trusts |
| | LWB331 | Administrative Law |
| | LWB334 | Corporate Law |

| Year 5, Semester 1 | LWB431 | Civil Procedure |
| | LWB432 | Evidence |
| | LWB434 | Advanced Research and Legal Reasoning |
| | Elective Units * |

| Year 5, Semester 2 | LWB433 | Professional Responsibility |
| | Elective Units * |

**Course structure - Major in Chemistry**

| Year 1, Semester 1 | Introduction to Legal Research # |
| | LWB141 | Legal Institutions and Method |
| | LWB142 | Law, Society and Justice |
| | SCB111 | Chemistry 1 |
| | SCB112 | Cellular Basis of Life |
| | Either: |
| | MAB101 | Statistical Data Analysis 1 |
| | Or |
| | MAB104 | Introductory Quantitative Methods |

| Year 1, Semester 2 | LWB143 | Legal Research and Writing |
| | LWB144 | Laws and Global Perspectives |
| | MAB100 | Mathematical Sciences 1A |
| | SCB121 | Chemistry 2 |
| | SCB131 | Experimental Chemistry |

| Year 2, Semester 1 | LWB136 | Contracts A |
| | PQB312 | Analytical Chemistry for Scientists and Technologists |
| | PQB313 | Analytical Chemistry for Industry |
| | PQB331 | Structure and Bonding |

| Year 2, Semester 2 | LWB137 | Contracts B |
| | PQB401 | Chemical Reactions 1 |
| | PQB442 | Chemical Spectroscopy |
| | Either: |
| | PQB404 | Nanotechnology and Nanoscience |
| | Or |
| | PQB423 | Process Principles |
Year 3, Semester 1
LWB138 Fundamentals of Torts
LWB238 Fundamentals of Criminal Law
PQB502 Materials Chemistry and Characterisation
PQB531 Chemical Reactions 2

Year 3, Semester 2
LWB139 Select Issues in Torts
LWB239 Criminal Responsibility
PQB631 Applied Molecular Science
PQB642 Chemical Research

Year 4, Semester 1
LWB231 Introduction to Public Law
LWB236 Real Property A
LWB240 Principles of Equity
LWB332 Commercial and Personal Property Law
LWB333 Theories of Law

Year 4, Semester 2
LWB235 Australian Federal Constitutional Law
LWB237 Real Property B
LWB241 Trusts
LWB331 Administrative Law
LWB334 Corporate Law

Year 5, Semester 1
LWB431 Civil Procedure
LWB432 Evidence
LWB434 Advanced Research and Legal Reasoning
Elective Units *

Year 5, Semester 2
LWB433 Professional Responsibility
Elective Units *

Course structure - Major in Ecology

Year 1, Semester 1
Introduction to Legal Research #
LWB141 Legal Institutions and Method
LWB142 Law, Society and Justice
SCB111 Chemistry 1
SCB112 Cellular Basis of Life
Either
MAB101 Statistical Data Analysis 1
Or
MAB104 Introductory Quantitative Methods

Year 1, Semester 2
LWB143 Legal Research and Writing
LWB144 Laws and Global Perspectives
NQB201 Planet Earth
NQB202 History of Life on Earth
SCB120 Plant and Animal Physiology

Year 2, Semester 1
LWB136 Contracts A
NQB301 Soils and Sedimentation
NQB321 Ecology
Either
NQB322 Invertebrate Biology
Or
NQB323 Vertebrate Biology

Year 2, Semester 2
LWB137 Contracts B
NQB421 Experimental Design
NQB422 Genetics and Evolution
Either
NQB401 Spatial Analysis of Environmental Systems
Or
NQB423 Plant Biology

Year 3, Semester 1
LWB138 Fundamentals of Torts
LWB238 Fundamentals of Criminal Law
NQB502 Field Mapping and Monitoring of Natural Resources
NQB521 Population Genetics and Molecular Ecology

Year 3, Semester 2
LWB139 Select Issues in Torts
LWB239 Criminal Responsibility
NQB621 Population Management
NQB622 Population Genetics

Year 4, Semester 1
LWB231 Introduction to Public Law
LWB236 Real Property A
LWB240 Principles of Equity
LWB332 Commercial and Personal Property Law
LWB333 Theories of Law

Year 4, Semester 2
LWB235 Australian Federal Constitutional Law
LWB237 Real Property B
LWB241 Trusts
LWB331 Administrative Law
LWB334 Corporate Law

### Course structure - Major in Mathematics [WITH Mathematics C from Senior]

#### Year 1, Semester 1
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C

#### Year 1, Semester 2
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1
  - One Science unit - selected from:
  - SCB111 Chemistry 1
  - SCB112 Cellular Basis of Life
  - SCB123 Physical Science Applications

#### Year 2, Semester 1
- LWB136 Contracts A
  - One Science unit - selected from:
  - SCB110 Science Concepts and Global Systems
  - SCB112 Cellular Basis of Life
  - Two Level 2 Mathematics units* - available units are:
  - MAB311 Advanced Calculus
  - MAB312 Linear Algebra
  - MAB314 Statistical Modelling 2
  - MAB315 Operations Research 2
  - Students must complete at least one of MAB311, MAB312, MAB413

### Year 2, Semester 2
- LWB137 Contracts B
  - Three Level 2 Mathematics units* - available units are:
  - MAB313 Mathematics of Finance
  - MAB413 Differential Equations
  - MAB414 Applied Statistics 2
  - MAB420 Computational Mathematics 2
  - MAB480 Introduction to Scientific Computation
  - * Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law
  - Two Level 3 Mathematics units - available units are:
  - MAB521 Applied Mathematics 3
  - MAB522 Computational Mathematics 3
  - MAB523 Introduction to Quality Management
  - MAB525 Operations Research 3A
  - MAB526 Statistical Science 3
  - MAB672 Advanced Mathematical Modelling

#### Year 3, Semester 2
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility
  - Two Level 3 Mathematics units - available units are:
  - MAB524 Statistical Inference
  - MAB613 Partial Differential Equations
  - MAB621 Discrete Mathematics
  - MAB623 Financial Mathematics
  - MAB624 Applied Statistics 3
  - MAB625 Operations Research 3B

#### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

#### Year 4, Semester 2
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

#### Year 5, Semester 1
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law
### Course structure - Major in Mathematics [WITHOUT Mathematics C from Senior]

#### Year 1, Semester 1
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- SCB110 Science Concepts and Global Systems

#### Year 1, Semester 2
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1

#### Year 2, Semester 1
- LWB136 Contracts A
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB314 Statistical Modelling 2
- MAB315 Operations Research 2
- Students must complete at least one of MAB311, MAB312, MAB413

#### Year 2, Semester 2
- LWB137 Contracts B
- MAB313 Mathematics of Finance
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB420 Computational Mathematics 2
- MAB480 Introduction to Scientific Computation
- Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 1
- LWB138 Fundamentals of Torts
- LWB143 Legal Research and Writing
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB314 Statistical Modelling 2
- MAB315 Operations Research 2
- Students must complete at least one of MAB311, MAB312, MAB413

#### Year 3, Semester 2
- MAB316 Introduction to Quality Management
- MAB325 Operations Research 3A
- MAB526 Statistical Science 3
- MAB672 Advanced Mathematical Modelling

#### Year 4, Semester 1
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility
- MAB524 Statistical Inference
- MAB613 Partial Differential Equations
- MAB621 Discrete Mathematics
- MAB623 Financial Mathematics
- MAB624 Applied Statistics 3
- MAB625 Operations Research 3B

#### Year 4, Semester 2
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law
- MAB235 Australian Federal Constitutional Law
- MAB237 Real Property B
- MAB241 Trusts
- MAB331 Administrative Law
- MAB334 Corporate Law

#### Year 5, Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
- Elective Units *

#### Year 5, Semester 2
- LWB433 Professional Responsibility
- Elective Units *

### Course structure - Major in Microbiology

#### Year 1, Semester 1
- Introduction to Legal Research #
### Year 1, Semester 2
- **LWB141** Legal Institutions and Method
- **LWB142** Law, Society and Justice
- **SCB111** Chemistry 1
- **SCB112** Cellular Basis of Life
  - Either
- **MAB101** Statistical Data Analysis 1
  - Or
- **MAB104** Introductory Quantitative Methods

### Year 2, Semester 1
- **LWB143** Legal Research and Writing
- **LWB144** Laws and Global Perspectives
- **SCB120** Plant and Animal Physiology
- **SCB121** Chemistry 2
- **SCB122** Cell and Molecular Biology

### Year 2, Semester 2
- **LQB381** Biochemistry: Structure and Function
- **LQB383** Molecular and Cellular Regulation
- **LQB386** Microbial Structure and Function
- **LWB136** Contracts A

### Year 3, Semester 1
- **LWB138** Fundamentals of Torts
- **LWB238** Fundamentals of Criminal Law
- **LQB586** Clinical Microbiology 2
- **LQB587** Applied Microbiology 1: Water, Air and Soil

### Year 3, Semester 2
- **LWB139** Select Issues in Torts
- **LWB239** Criminal Responsibility
  - Either
- **LQB686** Microbial Technology and Immunology
  - Or
- **LQB687** Applied Microbiology 2: Food and Quality Assurance

### Year 4, Semester 1
- **LWB231** Introduction to Public Law
- **LWB236** Real Property A
- **LWB240** Principles of Equity
- **LWB332** Commercial and Personal Property Law
- **LWB333** Theories of Law

### Year 4, Semester 2
- **LWB235** Australian Federal Constitutional Law
- **LWB237** Real Property B
- **LWB241** Trusts
- **LWB331** Administrative Law
- **LWB334** Corporate Law

### Year 5, Semester 1
- **LWB431** Civil Procedure
- **LWB432** Evidence
- **LWB434** Advanced Research and Legal Reasoning
  - Elective Units *

### Year 5, Semester 2
- **LWB433** Professional Responsibility
  - Elective Units *

#### Course structure - Major in Physics

**Year 1, Semester 1**
- Introduction to Legal Research #
- **LWB141** Legal Institutions and Method

**Potential Careers:**

**Footnotes for Law Units**

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2004. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.
Doctor of Philosophy (Mathematics) (IF49)

Year offered: 2008
Admissions: Yes
CRICOS code: 012650M

Course duration (full-time): 30 to 48 months with an honours degree; 24 to 48 months with a masters degree
Course duration (part-time): 42 to 96 months with an honours degree; 36 to 96 months with a masters degree

Domestic fees (per credit point): RTS/RTA: 2008 Full fee tuition $135 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2008: $12,960 (exceeded max. entitlements)

International Fees (per semester): 2008: $11,184 per semester (subject to annual review)

International Entry: At any time
Course coordinator: Associate Professor Peter Mather
Discipline coordinator: Professor Vo Anh
Campus: Gardens Point

Overview
The Doctor of Philosophy in science will suit graduates with an honours or masters degree who wish to seek highly-paid employment prospects in industry and research organisations and universities.

Entry requirements
Candidates must have a relevant first-class or second-class division A (upper division) honours degree or an appropriate masters degree.

Course Description
When enrolling in the doctoral program, students can undertake an approved project in any field of interest supported by a research area within the Faculty of Science (outlined in the Faculty Prospectus).

Please note that these areas of research specialisation are given as a guide only. Staff are happy to discuss these and any related topics. Please contact the program leader of the relevant research area for further information.

Students can undertake the course either full-time or part-time. If studying full-time with an appropriate honours degree, students can expect to complete their Doctor of Philosophy degree in three-and-a-half-years. Full details of the course structure are outlined in the following website: http://www.research.qut.edu.au/restdncen/

OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Course coordinator: Dr Gary Carter (Mathematics), Richard Thomas (IT)
Discipline coordinator: Dr Gary Carter (Mathematics),
Campus: Gardens Point

Career Opportunities
As a graduate you may find employment as a programmer, software engineer, systems programmer, technical support specialist, systems manager, systems designer, computer scientist, security analyst, systems analyst, data communications specialist, mathematician, or statistician.

Course Structure
The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

Professional Recognition
On graduation, you will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Scholarships
Students enrolled in this course can apply for industry-sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Potential Careers:
Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics) (FOR CONTINUING STUDENTS ONLY) (IF60)

Year offered: 2008
Admissions: No
CRICOS code: 027274G
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,752
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 419212; Dfee: 419216
Past rank cut-off: 80. Dfee places were not offered last year.
Past OP cut-off: 10. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Standard credit points per full-time semester: 54 (Average)
Course coordinator: Prof Erhan Kozan (Mathematics); Mr Andrew Paltridge (Business)
Discipline coordinator: Ms Ros Kent (Accountancy); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics)
Campus: Gardens Point

Discontinuation
Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX37 Bachelor of Business/Bachelor of Mathematics. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Career Opportunities
Test Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Graduates of the Accountancy major can expect to find employment in auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership, bankruptcy, trusteeship or management services.

Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.

Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas to provide strategic analysis and policy advice.

Professional Recognition
Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society of Operations Research. Depending on the choice of major, extended major or specialisation graduates may be eligible for membership of the Economic Society of Australia (Queensland Division), Australian Institute of Management, Financial Services Institute of Australasia (FINSTIA), Chartered Secretaries Australia, CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

Course Design
The course offers the opportunity to combine Mathematics with a business course majoring in Accountancy, Banking and Finance or Economics, which can be combined with an extended major in the same field, or with a double major from any of the Bachelor of Business majors, including Electronic Business.

Mathematics Scholarships
Students enrolled in this course can apply for industry sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Course Combinations
Recommended combinations for the Business component are:
Accountancy: Extended major in Professional Accounting Banking & Finance: Extended major in Banking, Financial Economics or Funds Management; or double major in Economics Economics: Extended major in Financial Economics or double major in Banking & Finance.

*Please note that EFB101 Data Analysis for Business which is normally undertaken in the majors of Accountancy, Banking and Finance & Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Students also note that enrolment in the unit EFB326 Applied Portfolio Management is restricted to students.
undertaking the Financial Economics specialisation (FES) and the following extended majors: Banking (BFX); Financial Economics (FEX); and Funds Management (FDX).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au

Year 4, Semester 1

BSB111  Business Law and Ethics
Mathematics Elective (Level 2 or 3)
Mathematics Elective (Level 2 or 3)
Mathematics Elective (Level 2 or 3)
Business Double Major/Extended Major/Specialisation

Year 4, Semester 2

Mathematics Elective (Level 2 or 3)
Mathematics Elective (Level 2 or 3)
Mathematics Elective (Level 2 or 3)
Business Double Major/Extended Major/Specialisation

Business Units
NOTE: Students must select BSB119 International & Electronic Business to replace one of the Mathematics Electives.
Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

Extended Major in Banking

AYB225  Management Accounting
AYB312  Financial Institutions Law
EFB310  Financial Institutions - Control
EFB311  Financial Institutions - Lending
Plus two units from the Banking Extended Major Options listed below:

EFB200  Applied Regression Analysis
EFB308  Finance 3
EFB309  Financial Derivatives
EFB318  Portfolio and Security Analysis

Extended Major in Financial Economics (for Economics Major)

EFB200  Applied Regression Analysis
EFB210  Finance 1
EFB324  Macroeconomics and Global Financial Markets
EFB325  Financial Microeconomics
Plus two units from the Financial Economics Extended Major Options list below:

EFB201  Financial Markets
EFB326  Applied Portfolio Management
EFB327  Econometrics of Financial Markets
EFB328  Public Economics and Finance

Extended Major in Funds Management

AYB225  Management Accounting
EFB308  Finance 3
EFB309  Financial Derivatives
EFB318  Portfolio and Security Analysis

Extended Major in Professional Accounting

AYB223  Law of Business Associations
AYB325  Taxation Law
EFB102  Economics 2
EFB210  Finance 1
AYB311  Financial Accounting Issues
AYB321  Strategic Management Accounting

Course structure - Mathematics Units

Level 2 units

MAB311  Advanced Calculus
MAB312  Linear Algebra
MAB313  Mathematics of Finance
MAB314  Statistical Modelling 2
MAB315  Operations Research 2
MAB413  Differential Equations

**NOTES:**
- MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory for students who commenced in 2004 onwards. They can be taken in a different semester 1 to that suggested in the programs above.
- For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply for students who commenced prior to 2004.
- MAB681 will not be offered in 2008, but will be offered in Semester 2 2009 and every second year.

**Potential Careers:**
Account Executive, Accountant, Actuary, Banker, Banking and Finance Professional, Business Analyst, Certified Practicing Accountant, Computer Game Programmer, Corporate Secretary, Economist, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Investment Manager, Market Research Manager, Mathematician, Quantitative Analyst, Risk Manager, Statistician, Stockbroker.
Bachelor of Applied Science/Bachelor of Business (FOR CONTINUING STUDENTS ONLY) (IF61)

Year offered: 2008
Admissions: No
CRICOS code: 042263G
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP$6,502
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419832; Dfee: 419836
Past rank cut-off: 80. Dfee places were not offered last year.
Past OP cut-off: 10. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Standard credit points per full-time semester: 54 (average)
Course coordinator: Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Dr Gayle Kerr (Advertising); Ms Sherrena Buckby (Electronic Business); Dr Amanda Gudmundsson (Human Resource Management); Mr Simon Ridings (International Business); Prof Robert Waldersee (Management); Mr Bill Proud (Marketing); Ms Robina Xavier (Public Relations); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics); Science Discipline Coordinator details are listed under Contact Details below
Campus: Gardens Point

null

This course has been discontinued. Currently enrolled students should check the Course Summary Sheet (via QUT Virtual) for enrolment and unit information.

Potential Careers:
Bachelor of Applied Science/Bachelor of Education (Primary) (FOR CONTINUING STUDENTS ONLY) (IF84)

Year offered: 2008
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full Fee Tuition 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $4,936
Domestic Entry: February
QTAC code: 409142
Past rank cut-off: 80
Past OP cut-off: 10
OP Guarantee: Yes
Assumed knowledge: English (4 SA) , Maths B (4 SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science): Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Outcomes
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Course Structure for Commencing Students in 2002

Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

### Year 1, Semester 2
- MAB101  Statistical Data Analysis 1
- MDB383  Using Technology In The Curriculum
- NRB230  Planet Earth
- PCB142  Chemistry 1

### Year 2, Semester 1
- CLB376  Studies Of Society And Environment Curriculum
- NRB331  Sedimentary Geology
- NRB333  Mineralogy
- NRB334  Mineral Deposits And Mine Geology

### Year 2, Semester 2
- EDB430  Primary Professional Practice 1: Classroom Management
- NRB434  Structural Geology
- NRB436  Introduction to Igneous and Metamorphic Petrology
- NRB633  Hydrogeology
- SCB222  Exploration of the Universe

### Year 3, Semester 1
- NRB533  Advanced Geological Mapping
- NRB534  Geophysics
- NRB536  Petrology and Geochemistry
  - One Science Elective
  - The major component in assessment and teaching of NRB533 is conducted as a field program during July.

### Year 3, Semester 2
- CLB454  Language And Literacy Curriculum
- EDB431  Primary Professional Practice 2: Curriculum Decision Making
- MDB384  Science Education
- SPB001  Human Development and Education

### Year 4, Semester 1
- CLB413  Programming And Assessment In Language And Mathematics
- EDB432  Primary Professional Practice 3: Inclusive Curriculum
- HMB307  Health and Physical Education Curriculum (Primary)
- MDB450  Primary Mathematics Curriculum

### Year 4, Semester 2
- CLB306  Understanding Educational Practices
- EDB433  Primary Professional Practice 4: Beginning Teaching
- KKB914  Visual and Performing Arts Curriculum 1
- SPB002  Psychology of Learning and Teaching
  - In 2002 EDB432 will be available in semester 2 to students who do not successfully complete the requirements of the unit in semester 1. This offering will be in external mode only.

### Course structure - Major in Mathematics (WITH Maths C)

#### Year 1, Semester 1
- EDB001  Teaching and Learning Studies 1: Teaching in New Times
- MAB101  Statistical Data Analysis 1
- MAB111  Mathematical Sciences 1B
- MAB112  Mathematical Sciences 1C

#### Year 1, Semester 2
- MAB210  Statistical Modelling 1
- MAB220  Computational Mathematics 1
- MDB383  Using Technology In The Curriculum
- PCB101  Physical Science

#### Year 2, Semester 1
- CLB376  Studies Of Society And Environment Curriculum
  - One Science Elective
  - Two Level 2 Mathematics units # - available units are:
    - MAB311  Advanced Calculus
    - MAB312  Linear Algebra
    - MAB313  Mathematics of Finance
    - MAB314  Statistical Modelling 2

#### Year 2, Semester 2
- EDB430  Primary Professional Practice 1: Classroom Management
  - Two Level 2 Mathematics units- available units are:
    - MAB315  Operations Research 2
    - MAB413  Differential Equations
    - MAB414  Applied Statistics 2
    - MAB420  Computational Mathematics 2
    - MAB422  Mathematical Modelling
      - One Level 3 Mathematics units - available units are:
        - MAB621  Discrete Mathematics
        - MAB623  Financial Mathematics

### NOTES
- Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.
- In 2002 EDB432 will be available in semester 2 to students who do not successfully complete the requirements of the unit in semester 1. This offering will be in external mode only.

**NOTES**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.
MAB134 Electrical Engineering Mathematics 3
PCB361 AC Theory and Electronics
PCB362 Physics 2

Year 2, Semester 2
EDB430 Primary Professional Practice 1: Classroom Management
PCB404 Scientific Principles of Safety
PCB460 Instrumentation and Computational Methods
PCB462 Thermodynamics and Solid State Physics

Year 3, Semester 1
One Science Elective unit
PCB561 Quantum and Condensed Matter Physics
PCB562 Physical Methods of Analysis
PCB661 Experimental Physics

Year 3, Semester 2
CLB454 Language And Literacy Curriculum
EDB431 Primary Professional Practice 2: Curriculum Decision Making
MDB384 Science Education
SPB001 Human Development and Education

Year 4, Semester 1
CLB413 Programming And Assessment In Language And Mathematics
EDB432 Primary Professional Practice 3: Inclusive Curriculum
HMB307 Health and Physical Education Curriculum (Primary)
MDB450 Primary Mathematics Curriculum

Year 4, Semester 2
CLB306 Understanding Educational Practices
EDB433 Primary Professional Practice 4: Beginning Teaching
KKB914 Visual and Performing Arts Curriculum 1
SPB002 Psychology of Learning and Teaching

NOTE: In 2002 EDB432 will be available in Semester 2 to students who do not successfully complete the requirements of the unit in Semester 1. This offering will be in external mode only.

NOTES
Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.

Potential Careers:
Bachelor of Arts/Bachelor of Applied Science (FOR CONTINUING STUDENTS ONLY) (IF86)

Year offered: 2008

Admissions: No

Course duration (full-time): 4 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)

Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,001

International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Past rank cut-off: 72; Dfee: 68

Past OP cut-off: 13; Dfee: 15

OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)

Standard credit points per full-time semester: 48

Course coordinator: Dr Iraphne Childs (Humanities); Dr Megan Hargreaves (Science)

Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)

Campus: Gardens Point and Carseldine

Career Opportunities

As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

Course Design

A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition

Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.
Course is under review
QUT is currently reviewing the Arts and Social Science programs to ensure they continue to meet the needs of students and employers. As a result these programs may change in 2008 or may not be offered. You can register for updates on the status of these courses by visiting the Humanities and Human Services website.

(Example of Full-Time Course Structure for Commencing Students)

Year 1, Semester 1
Core Arts unit (major)
Core Arts unit (major)
Two Science units (SC01 Level 1): Foundation units

Year 1, Semester 2
Arts Major unit
Arts Major unit
Two Science units (SC01 Level 1): at least one Foundation unit

Year 2, Semester 1
Core Arts unit (major or skills)
Core Arts unit (major or skills)
Two Science units (SC01 Levels 1 and 2: Level 2 from Major)

Year 2, Semester 2
Arts Major unit
Arts Minor unit
Two Science Units (SC01 Levels 1 and 2: Level 2 from Major)

Year 3, Semester 1
Arts Major unit
Core Arts unit (research methods)
Two Science Major units (SC01 Level 2)

Year 3, Semester 2
Arts Minor unit
Core Arts unit (research methods)
Two Science Major units (SC01 Level 3)

Year 4, Semester 1
Arts Major unit
Arts Minor unit
Two Science Major units (SC01 Level 3)

Year 4, Semester 2
Arts Major unit
Arts Minor unit
Two Science Major units (SC01 Level 3)

Course structure - Major in Biochemistry

Year 1, Semester 1
SCB111 Chemistry 1
SCB112 Cellular Basis of Life

Year 1, Semester 2
SCB120 Plant and Animal Physiology
SCB121 Chemistry 2

Year 2, Semester 1
SCB110 Science Concepts and Global Systems
Plus either:
MAB101 Statistical Data Analysis 1
Or
MAB104 Introductory Quantitative Methods

Year 2, Semester 2
SCB122 Cell and Molecular Biology
SCB123 Physical Science Applications

Year 3, Semester 1
LQB381 Biochemistry: Structure and Function
LQB383 Molecular and Cellular Regulation

Year 3, Semester 2
LQB481 Biochemical Pathways and Metabolism
LQB483 Molecular Biology Techniques

Year 4, Semester 1
LQB581 Functional Biochemistry
LQB582 Biomedical Research Technologies

Year 4, Semester 2
LQB681 Biochemical Research Skills
LQB682 Protein Biochemistry and Bioengineering

Course structure - Major in Biotechnology

Year 1, Semester 1
SCB111 Chemistry 1
SCB112 Cellular Basis of Life

Year 1, Semester 2
SCB120 Plant and Animal Physiology
SCB121 Chemistry 2

Year 2, Semester 1
SCB110 Science Concepts and Global Systems
Plus either:
MAB101 Statistical Data Analysis 1
Or
MAB104 Introductory Quantitative Methods

Year 2, Semester 2
SCB122 Cell and Molecular Biology
SCB123 Physical Science Applications

Students must complete at least one of MAB311, MAB312, MAB413

Year 4, Semester 1
Two Level 3 Mathematics units - available units are:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB672 Advanced Mathematical Modelling

Year 4, Semester 2
Two Level 3 Mathematics units - available units are:
MAB524 Statistical Inference
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B

Course structure - Major in Microbiology

Year 1, Semester 1
SCB111 Chemistry 1
SCB112 Cellular Basis of Life

Year 1, Semester 2
SCB120 Plant and Animal Physiology
SCB121 Chemistry 2

Year 2, Semester 1
SCB110 Science Concepts and Global Systems
Plus either:
MAB101 Statistical Data Analysis 1
Or
MAB104 Introductory Quantitative Methods

Year 2, Semester 2
SCB122 Cell and Molecular Biology
SCB123 Physical Science Applications

Year 3, Semester 1
LQB381 Biochemistry: Structure and Function
LQB386 Microbial Structure and Function

Year 3, Semester 2
LQB483 Molecular Biology Techniques
LQB486 Clinical Microbiology 1

Year 4, Semester 1
LQB586 Clinical Microbiology 2
LQB587 Applied Microbiology 1: Water, Air and Soil

Year 4, Semester 2
LQB686 Microbial Technology and Immunology
LQB687 Applied Microbiology 2: Food and Quality Assurance

Course structure - Major in Physics

MAB111 Mathematical Sciences 1B
SCB111 Chemistry 1

Year 1, Semester 2
MAB112 Mathematical Sciences 1C
PQB250 Mechanics and Electromagnetism

Year 2, Semester 1
SCB110 Science Concepts and Global Systems
SCB112 Cellular Basis of Life

Year 2, Semester 2
MAB220 Computational Mathematics 1
PQB251 Waves and Optics

Year 3, Semester 1
MAB311 Advanced Calculus
PQB350 Thermodynamics of Solids and Gases

Year 3, Semester 2
PQB450 Energy Fields and Radiation
PQB451 Electronics and Instrumentation

Year 4, Semester 1
PQB550 Quantum and Condensed Matter Physics
PQB551 Physical Analytical Techniques

Year 4, Semester 2
PQB650 Advanced Theoretical Physics
PQB651 Experimental Physics

Potential Careers:
Academic, Actuary, Administrator, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Corporate Secretary, Database Manager, Ecologist, Environmental Health Officer, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Higher Education Worker, Hydrogeologist, Immunologist, Industrial Chemist, Information Officer, Laboratory Technician (Chemistry), Manager, Mapping Scientist/Photogrammetrist, Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network
Manager, Physicist, Plant Biotechnologist, Policy Officer,
Population Ecologist, Programmer, Project Developer,
Project Manager, Public Servant, Quantitative Analyst,
Statistician, Virologist.
Bachelor of Applied Science/Bachelor of Education (Secondary) (IX02)

Year offered: 2008
Admissions: Yes
CRICOS code: 020322E
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,252
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409112
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Standard credit points per full-time semester: 48 (semesters 1, 6-8), 60 (semesters 2-5)
Course coordinator: Dr Megan Hargreaves (Science); Dr Mal Shield (Secondary)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-Year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

EDB034 Secondary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB035 Internship (Secondary)
EDB007 Culture Studies: Indigenous Education

Course structure - Major in Mathematics (WITH Maths C)

Year 1, Semester 1

MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
SCB110 Science Concepts and Global Systems

Year 1, Semester 2

MAB210 Statistical Modelling 1
MAB220 Computational Mathematics 1
SCB112 Cellular Basis of Life
SCB123 Physical Science Applications
SCB222 Exploration of the Universe

Year 2, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning
EDB031 Secondary Field Studies 1: Development and Learning in the Field
Two Level 2 Mathematics units * - available units are:
MAB311 Advanced Calculus
MAB312 Linear Algebra
MAB314 Statistical Modelling 2
MAB315 Operations Research 2
Curriculum Studies 1X
NOTE: Students must complete at least one of MAB311, MAB312, MAB413

Year 2, Semester 2

MDB454 Science, Technology and Society
Two Level 2 Mathematics units * - available units are:
MAB313 Mathematics of Finance
MAB413 Differential Equations
MAB414 Applied Statistics 2
MAB420 Computational Mathematics 2
MAB422 Mathematical Modelling
MAB480 Introduction to Scientific Computation
Two Level 3 Mathematics units - available units are:
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
NOTE: Students must complete at least one of MAB311, MAB312, MAB413

Year 3, Semester 1

PCB107 Physics and Quantitative Techniques
Three Level 3 Mathematics units - available units are:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB672 Advanced Mathematical Modelling
Curriculum Studies 1Y

Year 3, Semester 2

EDB003 Teaching and Learning Studies 3: Practising Education
EDB032 Secondary Field Studies 2: Practising Education in the Field
Curriculum Studies 2X
Curriculum Studies 2Y

Year 4, Semester 1

EDB004 Teaching and Learning Studies 4: Inclusive Education
EDB033 Secondary Field Studies 3: Inclusive Educational Practices
Curriculum Studies 3X
Curriculum Studies 3Y

Year 4, Semester 2

Science Component

Major in Physics (with Mathematics Studies)
Replace one science unit (not Physics units) with MAB101 Statistical Data Analysis 1.

Optional - replace up to two other science units (not Physics units) with mathematics units from MAB210, MAB220 or Level 2 or Level 3 units.

Mathematics Studies for Majors other than Mathematics or Physics

The following four mathematics units should be included:

MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C

Up to two other mathematical units may also be selected.

List 1: Curriculum Studies 1X & 1Y

Prerequisite: Normally minimum of 24 credit points of relevant discipline. Students undertaking a double Science major will undertake an education elective in addition to MDB031.

MDB021 Mathematics Curriculum Studies 1
MDB031 Science Education Curriculum Studies 1

List 2: Curriculum Studies 2X & 2Y

Prerequisites: Curriculum Studies 1X & 1Y

MDB010 Biology Curriculum Studies 2
MDB013 Chemistry Curriculum Studies 2
MDB019 Earth Science Curriculum Studies 2
MDB022 Mathematics Curriculum Studies 2
MDB025 Physics Curriculum Studies 2
MDB028 Science Curriculum Studies 2

List 3: Curriculum Studies 3X & 3Y

Prerequisites: Curriculum Studies 2X & 2Y. Students undertaking a double Science major will undertake an education elective in addition to MDB033.

MDB023 Mathematics Curriculum Studies 3
MDB033 Science Education Curriculum Studies 3

Potential Careers:

Bachelor of Applied Science/Bachelor of Education (Primary) (IX14)

Year offered: 2008
Admissions: Yes
CRICOS code: 037540M
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,722
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409142
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Dr Mary Ryan (Education)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Course Design
Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers.

Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Chemistry
Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Year 3, Semester 2
EDB003 Teaching and Learning Studies 3: Practising Education
EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

Year 4, Semester 1
EDB004 Teaching and Learning Studies 4: Inclusive Education
EDB023 Primary Field Studies 3: Inclusive Educational Practices
KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media
OR
KKB202 Primary Curriculum and Pedagogies: Dance and Drama
MDB006 Primary Curriculum and Pedagogies: Science

Year 4, Semester 2
EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB025 Internship (Primary)
MDB004 Primary Curriculum and Pedagogies: Information and Communication Technologies

Potential Careers:
Bachelor of Applied Science / Bachelor of Information Technology (IX26)

Year offered: 2008
Admissions: Yes
CRICOS code: 020327M
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260

International Fees (per semester): 2008: $10,080 per semester (subject to annual review)

Domestic Entry: February
QTAC code: 419302
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Dr Megan Hargreaves (Science), Ms Ruth Christie (IT)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Course Design
The science component of the course offers students a choice of one of nine majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

The information technology component gives students the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the science and information technology degrees.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Information Systems Major

#### Compulsory Units
- ITB228  Enterprise Systems
- ITB229  Database Design
- ITB365  Business Analysis

#### IS Elective Units
- Select three (3) units from the following list
  - ITB218  Applications Programming
  - ITB233  Enterprise Systems Applications
  - ITB239  Enterprise Data Mining
  - ITB260  E-Commerce Site Development
  - ITB264  Information Systems Consulting
  - ITB298  Business Process Modelling
  - ITB364  Information Systems Development
  - ITB366  Information Systems Operations

### Network Systems Major

#### Compulsory Units
- ITB720  Internet Protocols and Services
- ITB721  Unix Network Administration
- ITB722  Network Planning and Deployment
- ITB730  Information Security Fundamentals

#### Electives
- Choose 2 Electives
  - ITB233  Enterprise Systems Applications
  - ITB706  Systems Programming
  - ITB732  Cryptology and Protocols

### Software Architecture Major

#### Compulsory Units
ITB229 Database Design
ITB702 Algorithms and Data Structures
ITB712 Software Engineering Studies

Electives
Choose 3 Electives
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB228 Enterprise Systems
ITB233 Enterprise Systems Applications
ITB254 Interaction Design
ITB260 E-Commerce Site Development
ITB264 Information Systems Consulting
ITB298 Business Process Modelling
ITB706 Systems Programming
ITB713 Advanced Java Programming
ITB716 Advanced Web Applications Development
ITB717 Enterprise Software Architecture
ITB746 Modelling and Animation Techniques
ITB747 Real Time Rendering Techniques
ITB749 Scientific Programming
ITB281 Mathematics for Computer Graphics
MAB281 Mathematics for Computer Graphics

Course structure - Major in Biochemistry

Bachelor of Information Technology / Bachelor of Mathematics (IX29)

Year offered: 2008
Admissions: Yes
CRICOS code: 059226F
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
International Fees (per semester): 2008: $10,080 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419552
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes

Assumed knowledge: English (4,SA) and Maths B (4,SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Course coordinator: Dr Gary Carter (Mathematics), Ms Ruth Christie (IT)
Campus: Gardens Point

Professional Recognition
On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design
This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points from Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Electives

- Choose 3 Electives
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB228 Enterprise Systems
  - ITB233 Enterprise Systems Applications
  - ITB254 Interaction Design
  - ITB260 E-Commerce Site Development
  - ITB264 Information Systems Consulting
  - ITB298 Business Process Modelling
  - ITB706 Systems Programming
  - ITB713 Advanced Java Programming
  - ITB716 Advanced Web Applications Development
  - ITB717 Enterprise Software Architecture
  - ITB746 Modelling and Animation Techniques
  - ITB747 Real Time Rendering Techniques
  - ITB749 Scientific Programming

MAB281 Mathematics for Computer Graphics

#### Notes:
- MAB681 will not be offered in 2008, but will be offered in Semester 2 2009.
- All Mathematics units have 4 contact hours per week.

### Intelligent Systems Major

#### Compulsory Units

### Potential Careers:

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Applied Science / Bachelor of Business (IX31)

Year offered: 2008  
Admissions: Yes  
CRICOS code: 059594D  
Course duration (full-time): 4 years  
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)  
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,755  
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)  
Domestic Entry: February  
International Entry: February  
QTAC code: 419832  
Past OP cut-off: 76  
Past OP cut-off: 12  
OP Guarantee: Yes  
Assumed knowledge: English (4, SA) and Maths B (4, SA)  
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com  
Total credit points: 384  
Standard credit points per full-time semester: 48  
Course coordinator: Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)  
Discipline coordinator: Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations). Science Discipline Coordinator details are listed under Contact Details below.  
Campus: Gardens Point  

Career Opportunities  
By combining your science studies with the Bachelor of Business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As a graduate of the Bachelor of Applied Science/Bachelor of Business, you will be able to work at the cutting edge of scientific innovation within a range of public, private and non-profit industries. As well as the range of science-based careers available, you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.  

Course Design  
The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field. You can specialise in one of the major areas of study available in the Bachelor of Applied Science course (Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology or Physics). See the Bachelor of Applied Science (SC01) course for more details.

To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the business program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

You can specialise in one or more of the following business majors: Accountancy, Advertising, Banking and Finance, Economics, Human Resource Management, International Business, Management, Marketing or Public Relations.

Professional Recognition  
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:  
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.  
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA) enrolment in the CA Program.  
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;  
*Banking and Finance: Financial Services Institute of Australasia (FINSIA).  
*Economics: Economic Society of Australia (Queensland Division).  
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;  
*International Business - Australian Institute of Export;  
*Management - Australian Institute of Management;  
*Public Relations - Public Relations Institute of Australia.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

**Deferment**  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

QUT HANDBOOK 2008 · Page 1603
### Course structure - Major in Technology

**Year 3, Semester 2**
- PQB331  Structure and Bonding
- PQB401  Chemical Reactions 1
- PQB442  Chemical Spectroscopy

**Year 4, Semester 1**
- PQB502  Materials Chemistry and Characterisation
- PQB531  Chemical Reactions 2

**Year 4, Semester 2**
- PQB631  Applied Molecular Science
- PQB642  Chemical Research

### Course structure - Major in Ecology

**Year 1, Semester 1**
- SCB111  Chemistry 1
- SCB112  Cellular Basis of Life

**Year 1, Semester 2**
- SCB120  Plant and Animal Physiology
- SCB122  Cell and Molecular Biology

**Year 2, Semester 1**
- SCB110  Science Concepts and Global Systems
  - Plus either:
    - MAB101  Statistical Data Analysis 1
    - Or
    - MAB104  Introductory Quantitative Methods

**Year 2, Semester 2**
- SCB123  Physical Science Applications
- NQB202  History of Life on Earth

**Year 3, Semester 1**
- NQB301  Soils and Sedimentation
- NQB321  Ecology

**Year 3, Semester 2**
- NQB401  Spatial Analysis of Environmental Systems
- NQB421  Experimental Design

**Year 4, Semester 1**
- NQB501  Environmental Modelling
- NQB502  Field Mapping and Monitoring of Natural Resources

**Year 4, Semester 2**
- NQB601  Sustainable Environmental Management
- NQB602  Environmental Chemistry

### Course structure - Major in Environmental Science

**Year 1, Semester 1**
- SCB111  Chemistry 1
- SCB112  Cellular Basis of Life

**Year 1, Semester 2**
- SCB110  Science Concepts and Global Systems
  - Plus either:
    - MAB101  Statistical Data Analysis 1
    - Or
    - MAB104  Introductory Quantitative Methods

**Year 2, Semester 1**
- SCB121  Chemistry 2
- SCB122  Cell and Molecular Biology

**Year 2, Semester 2**
- SCB120  Plant and Animal Physiology
- SCB121  Chemistry 2

**Year 3, Semester 1**
- NQB301  Soils and Sedimentation
- NQB321  Ecology

**Year 3, Semester 2**
- NQB401  Spatial Analysis of Environmental Systems
- NQB421  Experimental Design

**Year 4, Semester 1**
- NQB501  Environmental Modelling
- NQB502  Field Mapping and Monitoring of Natural Resources

**Year 4, Semester 2**
- NQB601  Sustainable Environmental Management
- NQB602  Environmental Chemistry

### Course structure - Major in Forensic Science

**Year 1, Semester 1**
- SCB111  Chemistry 1
- SCB112  Cellular Basis of Life

**Year 1, Semester 2**
- SCB110  Science Concepts and Global Systems
  - Plus either:
    - MAB101  Statistical Data Analysis 1
    - Or
    - MAB104  Introductory Quantitative Methods
### Course structure - Major in Geoscience

#### Year 1, Semester 1
- SCB111 Chemistry 1
- SCB120 Plant and Animal Physiology
- SCB121 Chemistry 2

#### Year 1, Semester 2
- SCB110 Science Concepts and Global Systems
  - Plus either:
    - MAB101 Statistical Data Analysis 1
    - Or
    - MAB104 Introductory Quantitative Methods

#### Year 2, Semester 1
- SCB122 Cell and Molecular Biology
- SCB123 Physical Science Applications

#### Year 2, Semester 2
- SCB124 Plant and Animal Physiology
- SCB125 Chemistry 2
- SCB126 Physical Science Applications

#### Year 3, Semester 1
- LQB381 Biochemistry: Structure and Function
- LQB386 Microbial Structure and Function

#### Year 3, Semester 2
- LQB483 Molecular Biology Techniques
- LQB486 Clinical Microbiology 1

#### Year 4, Semester 1
- LQB586 Clinical Microbiology 2
- LQB587 Applied Microbiology 1: Water, Air and Soil

#### Year 4, Semester 2
- LQB686 Microbial Technology and Immunology
- LQB687 Applied Microbiology 2: Food and Quality Assurance

### Course structure - Major in Physics

#### Year 1, Semester 1
- MAB111 Mathematical Sciences 1B
- SCB111 Chemistry 1

#### Year 1, Semester 2
- MAB112 Mathematical Sciences 1C
- PQB250 Mechanics and Electromagnetism

#### Year 2, Semester 1
- SCB110 Science Concepts and Global Systems
### Potential Careers:

Bachelor of Business / Bachelor of Mathematics (IX37)

Year offered: 2008
Admissions: Yes
CRICOS code: 059601K
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,697
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419212
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Mr Andrew Paltridge (Business); Prof Erhan Kozan (Mathematics); Dr Helen Johnson (Assistant Course Coordinator - Mathematics)
Discipline coordinator: Ms Ros Kent (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

Career Opportunities
Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Professional Recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Financial Services Institute of Australasia (FINSIA).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Mathematics degree will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia, and depending on unit selection, the Australian Society of Operations Research.

Course Design
The course offers the opportunity to combine Mathematics with a business course.

This course is made up of 384 credit points. Each component (i.e. Business and Mathematics) comprises 192 credit points.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au
### Contact Details

**Business Coordinator**  
Mr Andrew Paltridge

### Advertising Major Course Structure for Students with Maths B and C

#### Year 1 Semester 1
- BSB119 International and Electronic Business
- BSB126 Marketing

#### Year 1 Semester 2
- BSB110 Accounting
- BSB115 Management, People and Organisations

#### Year 2 Semester 1
- BSB114 Government, Business and Society
- AMB200 Consumer Behaviour

#### Year 2 Semester 2
- BSB111 Business Law and Ethics
- BSB113 Economics

#### Year 3 Semester 1
- AMB230 Internet Promotion
- AMB220 Advertising Theory and Practice

#### Year 3 Semester 2
- AMB221 Advertising Copywriting
- AMB222 Media Planning

#### Year 4 Semester 1
- AMB320 Advertising Management
- AMB330 Advertising Strategy and Planning

#### Year 4 Semester 2
- AMB321 Advertising Campaigns
- AMB202 Integrated Marketing Communication

### Management Major Course Structure for Students with Maths B and C

#### Year 1 Semester 1
- BSB113 Economics
- BSB115 Management, People and Organisations
Year 1 Semester 2
BSB114  Government, Business and Society
BSB126  Marketing

Year 2 Semester 1
BSB110  Accounting
BSB111  Business Law and Ethics

Year 2 Semester 2
MGB200  Leading Organisations
BSB119  International and Electronic Business

Year 3 Semester 1
MGB210  Managing Operations
MGB223  Entrepreneurship and Innovation

Year 3 Semester 2
MGB212  Sustainability in a Changing Environment
Management Option Unit

Year 4 Semester 1
MGB309  Strategic Management
Management Option Unit

Year 4 Semester 2
MGB335  Project Management
Management Option Unit

Management Option Unit List:
Management students must choose three from
the above list (one must be a Level 3 unit):
MGB201  Contemporary Employment Relations
MGB218  Managing Business Growth
MGB314  Organisational Consulting and Change
MGB315  Personal and Professional Development
IBB205  Intercultural Communication and Negotiation

International Business Major Course Structure for
Students with Maths B and C

Year 1 Semester 1
BSB113  Economics
BSB119  International and Electronic Business

Year 2 Semester 1
BSB114  Government, Business and Society
BSB126  Marketing

Year 2 Semester 2
BSB110  Accounting
BSB115  Management, People and Organisations

Year 3 Semester 1
MGB201  Human Resource Issues and Strategy
BSB119  International and Electronic Business

Year 3 Semester 2
MGB220  Management Research Methods
HRM Option Unit

Year 4 Semester 1
MGB200  Leading Organisations
HRM Option Unit

Year 4 Semester 2
IBB205  Intercultural Communication and Negotiation
IBB217  Asian Business Development
or
IBB208  European Business Development

Year 3 Semester 2
IBB210  Export Management
IBB317  Contemporary Business in Asia
or
IBB308  Contemporary Business in Europe

Year 4 Semester 1
IBB300  International Business Strategy
IBB304  Global Industry Analysis

Year 4 Semester 2
IBB213  International Marketing
IBB303  International Logistics

Human Resource Management Major Course Structure
for Students with Maths B and C

Year 1 Semester 1
BSB113  Economics
BSB115  Management, People and Organisations

Year 1 Semester 2
BSB114  Government, Business and Society
BSB126  Marketing

Year 2 Semester 1
BSB110  Accounting
BSB111  Business Law and Ethics

Year 2 Semester 2
MGB207  Human Resource Issues and Strategy
BSB119  International and Electronic Business

Year 3 Semester 1
MGB220  Management Research Methods
HRM Option Unit

Year 3 Semester 2
MGB200  Leading Organisations
HRM Option Unit

Year 4 Semester 1
IBB221  Performance and Reward
HRM Option Unit

Year 4 Semester 2
### HRM Option Unit List:
- MGB201 Contemporary Employment Relations
- MGB210 Managing Operations
- MGB212 Sustainability in a Changing Environment
- MGB309 Strategic Management
- MGB314 Organisational Consulting and Change
- MGB315 Personal and Professional Development
- MGB335 Project Management

HRM students must choose three from the above list (one must be a Level 3 unit).

NOTE:  
- MAB681 not offered in 2008, but will be offered in Semester 2 2009
- Units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics cannot be included in the minimum of 48 credit points from Level 3 units.

Potential Careers:
Account Executive, Accountant, Actuary, Banker, Banking and Finance Professional, Business Analyst, Certified Practicing Accountant, Computer Game Programmer, Corporate Secretary, Economist, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Investment Manager, Market Research Manager, Mathematician, Quantitative Analyst, Risk Manager, Statistician, Stockbroker.
Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics (IX64)

Year offered: 2008
Admissions: Yes
CRICOS code: 063031E
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260

Domestic Entry: February
International Entry: February
QTAC code: 419672
Past rank cut-off: 76
Past OP cut-off: 12
Assumed knowledge: English (4,SA), Maths B (4,SA)
Total credit points: 384
Standard credit points per full-time semester: 48

Course coordinator: Associate Professor Ruth Christie (Information Technology); Dr Gary Carter (Mathematics)
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both games and interactive entertainment and mathematics. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements). In mathematics, students complete core units that provide a foundation for both study and future work in mathematics and games and interactive entertainment, and then select units from the strands in applicable mathematics, mathematical modelling, computational mathematics, operations research, statistics and financial mathematics. Students are assisted throughout their course with choices to match their career aspirations and abilities. All these strands involve project work and real-world applications.

Majors: Animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT’s Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you’re learning in your degree. Companies that QUT’s Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

Find out more about the Cooperative Education Program.

#### Software Technologies*

* This Major assumes students have obtained a SA or better in Queensland Maths B (or equivalent)
Potential Careers:
Actuary, Computer Game Programmer, Market Research Manager, Mathematician, Quantitative Analyst, Statistician.
Bachelor of Applied Science/Bachelor of Games and Interactive Entertainment (IX65)

Year offered: 2008
Admissions: Yes
CRICOS code: 063032D
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,260
Domestic Entry: February
International Entry: February
QTAC code: 419682
Past rank cut-off: 74
Past OP cut-off: 13
Assumed knowledge: English (4,SA), Maths B (4,SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science)
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point

Course overview
In this double degree students complete the requirements for two separate degrees in four years. The course consists of units in both applied science and games and interactive entertainment. In the science component students complete a set of core units in science to support advanced level studies in specialist areas. Students select a science major as outlined below and undertake laboratory work and may participate in fieldwork. In the games and interactive entertainment component students complete core units in introductory design, games studies, professional skills and basic programming and then choose a major from the list below. In final year, students participate in a major group project to produce a significant piece of work using PC, mobile devices, consoles or virtual reality. Full time students can take part in the Cooperative Education Program, offering one year paid industry placement and credit towards their degree (subject to satisfying eligibility requirements).

Majors:
Science: biochemistry; biotechnology; chemistry; ecology; environmental science; forensic science; geoscience; microbiology; and physics.
Games and Interactive Entertainment: animation and computational arts; digital media; game design; and software technologies.

Cooperative Education Program
The Faculty of IT's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments. The Coop Ed Program is available to Australian citizens and permanent residents only.

### Bachelor of Games & Interactive Entertainment Majors

#### Course structure

##### Block B Majors (8 units)

**Animation and Computational Arts**
- KIB105 Animation and Motion Graphics
- KIB106 Character Development, Conceptual Design and Animation Layout
- KIB107 Introduction to Programming for 3D
- KIB108 Animation Practices
- KVB105 Foundations of Drawing for Animation 1
- KVB106 Foundations of Drawing for Animation 2
- KKB210 Computational Arts 1
- KKB211 Computational Arts 2

**Digital Media**
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2
- KIB103 Media Technology 1
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
  - 2 more units as per discussion with course coordinator

**Game Design**
- ITB016 Fundamentals of Games Design
- ITB017 Advanced Games Design
- KIB201 Interactive Writing
- KIB202 Enabling Immersion
- KIB310 Design Studio 3: Virtual Environments
  - Two units selected from the following
- DEB201 Digital Communication
DEB102     Introducing Design History
DAB110     Introductory Architectural Design 1
DTB101     Interior Design 1
DNB101     Industrial Design 1

Software Technologies*

* This Major assumes students have obtained a SA or better in Queensland Maths B (or equivalent)

ITB003     Object Oriented Programming
ITB004     Database Systems
ITB005     Systems Architecture
ITB702     Algorithms and Data Structures
ITB746     Modelling and Animation Techniques
ITB747     Real Time Rendering Techniques
ITB749     Scientific Programming
MAB281     Mathematics for Computer Graphics

Potential Careers:
Graduate Certificate In Research Commercialisation (IX97)

Year offered: 2008
Admissions: Yes
CRICOS code: External
Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.
Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.
Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.
Domestic fees (per credit point): 2008: $2,200 per unit (subject to annual review)
Domestic fees (indicative): 2008: $8,000
International Fees (per semester): 2008: $3,300 per unit (subject to annual review)
Domestic Entry: 2 entry points per year
International Entry: 2 entry points per year
Course coordinator: Professor Rod Wissler
Campus: Internet

Total credit points: 300
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Mr Robert Dow
Campus: Gardens Point

Career Opportunities
This course can provide a range of exciting opportunities in the field of medical science.

The degree is the preferred qualification for employment in the pathology industry as a scientist. Scientists in the pathology industry perform tests on human blood or tissue and other forms of testing in the areas of immunology, haematology, microbiology, histopathology, cytology and biochemistry. You may decide to specialise in areas such as leukaemia diagnosis, cytogenetics, stem cell manipulation, tumour diagnosis, cytological diagnosis, DNA testing or forensic testing, or proceed to a managerial position within a pathology laboratory or hospital.

The course also provides a first degree for students wishing to undertake postgraduate studies in medicine. Graduates also have the opportunity to proceed to postgraduate studies leading to a career in medical research. Graduates are currently working as researchers in areas such as malaria, virology, stem cells, immunology and molecular biology.

Special Course Requirements
Students are required to undertake a minimum six-week work experience program in a practising pathology laboratory. This takes place at the end of the second year in the full-time program and in a suitable vacation period during the part-time program. Proof of successful vaccination against Hepatitis B must be provided by students at the end of first semester of year two of the program.

Professional Recognition
Graduates are immediately eligible for graduate membership of the Australian Institute of Medical Scientists and will have completed the academic requirements for admission as Members.

Why Choose this Course?
This is the only medical science degree in southern Queensland which is accredited with the Australian Institute of Medical Scientists (AIMS). In recent years more than 90 per cent of graduates seeking employment were successful within four months of graduation.

The course is designed in consultation with senior staff in pathology laboratories, so you'll gain advanced knowledge of new diagnostic techniques used in the workplace. QUT has state-of-the-art laboratories, allowing you to graduate with extensive experience using equipment found in industry. Medical Science students also undertake clinical placements in pathology laboratories during the course giving you a chance to use your skills in a real workplace.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Career Opportunities
The Bachelor of Biotechnology Innovation is training the next generation of bioentrepreneurs to translate research outcomes into business opportunities. Graduates can be business-savvy scientists, or operate in the world of commercialisation and technology transfer or start up their own biotechnology-based enterprise bringing their own products to market. The emphasis on innovation and entrepreneurship means that graduates are comfortable working in a start up company environment or on new projects in established enterprises. Traditional roles in laboratory to the marketplace under the guidance of industry and academic mentors. Students have many opportunities to network with industry through the Student BioEnterprise Scheme and numerous Ausbiotech functions, events and conferences. Companies can also undertake industry-based or consultancy projects with an industry partner in the final year of the course.

Professional Recognition
On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society for Biochemistry and Molecular Biology.

Why Choose this Course?
If you'd like to work in the dynamic world of translating science discoveries into money-making enterprises, meeting people, evaluating projects, picking winners and running with them, then this course is for you!

While research innovation is critical to the future of Australian industry, and that of many other nations, it is the commercialisation of innovations that will realise any potential and serve to build and strengthen local biotechnology industry. Australia already produces many competent and highly regarded scientists but has a poor history and capitalising on research outcomes. The Federal and various State Governments are investing hundreds of millions of dollars in research innovation and commercialisation and the emphasis has moved to bringing emerging technologies into the marketplace. There is an increasing demand for skilled professionals who can drive research commercialisation in the science and technology sector in Australia and in the global marketplace. The Bachelor of Biotechnology Innovation has created a new rapid pathway into the high-flying world of commercialisation and technology transfer.

Graduates of the Bachelor of Biotechnology Innovation have realised outstanding job outcomes and continue to be

Recommended Study
Biological Science is recommended.
quickly employed by industry, often successfully competing against graduates with PhDs and MBAs.

Potential Careers:
Biotechnologist, Biotechnology Business/Investment Analyst, Business Development Officer, Cell Biologist, Commercialisation Officer, Medical Biotechnologist, Molecular Biologist, Plant Biotechnologist, Technology Transfer Officer.
Graduate Certificate in Biotechnology (LS66)

Year offered: 2008
Admissions: Yes
CRICOS code: 054278A
Course duration (full-time): 1 semester (0.5 year)
Course duration (part-time): 2 semesters (1 year)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) (Students are NOT able to commence LS66 in February)
International Entry: July (Students are NOT able to commence LS66 in February)
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent, preferably but not necessarily in science, is advised. Please contact the course coordinator for further information on the entry requirements for this course.

Career Outcomes
Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Professional Recognition
Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design
LS66 Graduate Certificate in Biotechnology is a foundation program for those people without a science degree or for those who do not have a recent background in the biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program which comprises 48 credit points of assessed coursework. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning. Students must commence in July and enrol in Semester 2 units first. Advanced standing may be given for this foundation program if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in any of the more advanced biotechnology programs (LS76, LS86 or LS96) in their first semester.

Overview
LS66 Graduate Certificate in Biotechnology is the first of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. This particular course will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training in general biotechnology. LS66 Graduate Certificate in Biotechnology, a 6-month full-time foundation program, provides those students without a sound background in the biomolecular sciences the opportunity for direct entry into more advanced biotechnology streams. Science-based biomolecular science units emphasise both theoretical and laboratory skills and cover contemporary fundamental techniques underpinning the science of biotechnology.

Biochemist, Biotechnologist, Medical Biotechnologist, Microbiologist, Molecular Biologist, Plant Biotechnologist, Research Assistant, Scientist, Virologist.
Graduate Diploma in Biotechnology (LS76)

Year offered: 2008
Admissions: Yes
CRICOS code: 016975B
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
International Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements

A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*LS76 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.

For students with advanced standing for Module 1 and who wish to enter LS76 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program.

Professional Recognition

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Career Outcomes

Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Course Design

The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology. The LS76 Graduate Diploma in Biotechnology builds upon concepts covered in the foundation program, LS66 Graduate Certificate in Biotechnology. The Graduate Diploma in Biotechnology not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. The Graduate Diploma in Biotechnology is comprised of 96 credit points of assessed coursework. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS76 in their first semester.

Overview

LS76 Graduate Diploma in Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The Graduate Diploma in Biotechnology will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. LS76 Graduate Diploma in Biotechnology, a one year full-time program, builds upon the knowledge and skills base developed in the Graduate Certificate in Biotechnology and allows the student to stream into either medical or plant biotechnology or both.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology.

Overview
LS86 Master of Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. LS86 Master of Biotechnology extends the LS76 Graduate Diploma in Biotechnology program by providing additional training and specialisation in either medical or plant biotechnology or both. The program can be completed in 1.5 years full-time. The Master of Biotechnology program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. **Potential Careers:**
Biochemist, Biotechnologist, Medical Biotechnologist, Microbiologist, Molecular Biologist, Plant Biotechnologist, Research Assistant, Scientist, Virologist.
Master of Medical Science (LS87)

Year offered: 2008
Admissions: Yes
CRICOS code: 063660J
Course duration (full-time): 3 semesters (1.5 years)
International Fees (indicative): 2008: $9,600 per semester
International Entry: July. IELTS of 6.5 with no sub-band less than 6.0 (quota applies)
Assumed knowledge: Bachelor of Applied Science or equivalent qualification, and relevant work experience in the pathology industry.
Total credit points: 144
Standard credit points per full-time semester: 48
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Course Design
This course will provide high quality, multi-skilled graduates to work as diagnostic scientists in the pathology industry for the international market.

On completion of this Masters Degree, students should be able to:
- Demonstrate advanced theoretical knowledge, analytical and laboratory diagnostic skills in the Medical Science fields covered in the program.
- Apply advanced information processing skills and knowledge of methodological and problem-solving skills pertinent to the Medical Science fields covered in the program.
- Demonstrate high level communication skills appropriate to leaders in a health care setting.
- Display characteristics of self-reliance and leadership in the field of Medical Science.

Entry Requirements
The course is currently offered to International students only. International applicants must possess a Bachelor of Applied Science with a major in biochemistry, microbiology, physiology or anatomy or equivalent qualification, in addition to relevant work experience in the pathology industry.

Early Exit Options
- Graduate Certificate of Medical Science (LS67) - 48 CP (core units only)
- Graduate Diploma of Medical Science (LS77) - 96 CP (including minimum 72 CP core units)

Potential Careers:
Biochemist, Clinical Laboratory Scientist, Medical Scientist, Microbiologist, Operations Manager, Pathology Scientist.
Graduate Diploma in Medical Science (Anatomical Pathology) (LS90)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 4 semesters (13 months)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Total credit points: 96
Standard credit points per part-time semester: 24
Course coordinator: Dr Trevor Forster
Campus: Gardens Point

Objective
This course aims to:

- Formalise advancement of knowledge and skills of medical scientists in the specialist discipline of Anatomical Pathology.
- To promote teamwork and effective communications between scientists and pathologists.
- To enable scientists to undertake some of the surgical cut-up procedures normally assigned to pathologists.

Course Design
This course is designed to make use of learning that takes place in the workplace. It provides close collaboration between QUT, the pathology industry and pathology professionals.

As a special feature, this course avoids the traditional mode of study ie weekly attendance at lectures, practical sessions and tutorials by: intensive study mode in the form of one week modules; on-line discussion forums; work-based learning; tele & video conferencing.

Entry Requirements
A Bachelor Applied Science (Medical Science) or equivalent degree incorporating human anatomy, histology and pathology with recent work experience in a histology laboratory and currently working in an appropriate capacity in an accredited pathology laboratory.

LSN223-1 Surgical Grossing

Second Semester (March to June)
LSN221-1 Pathology
LSN223-2 Surgical Grossing

Third Semester (July to November)
LSN221-2 Pathology
LSN223-3 Surgical Grossing

Fourth Semester (January to February following year)
JSN014  Law, Justice and New Genetic Technologies
LSN223-4 Surgical Grossing

Potential Careers:
Biochemist, Clinical Laboratory Scientist, Medical Scientist, Microbiologist, Operations Manager, Pathology Scientist.
Master of Biotechnology (Advanced) (LS96)

Year offered: 2008
Admissions: Yes
CRICOS code: 054279M
Course duration (full-time): 4 semesters (2 years)
Course duration (part-time): 8 semesters (4 years)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
International Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
Total credit points: 192
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*LS96 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.

For students with advanced standing for Module 1 and who wish to enter LS96 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program. Also, students may not be able to undertake the project component of LS96.

Career Outcomes
Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Professional Recognition
Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student’s background in the biomolecular sciences and area of interest in biotechnology. LS96 Master of Biotechnology (Advanced) completes the comprehensive training of students and follows successful completion of core and elective units offered in LS66, LS76 and LS86. It is comprised of 192 credit points of assessed coursework in general, medical and/or plant biotechnology.

In their final semester of the program, students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire.

Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available. For students not undertaking a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. The LS96 Master of Biotechnology (Advanced) program not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS96 in their first semester.

Overview
LS96 Master of Biotechnology (Advanced) is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The LS96 Master of Biotechnology (Advanced) program offers students a complete and comprehensive training in biotechnology by extending the suite of units offered within the LS86 Master of Biotechnology program or by giving students the opportunity in their final semester of study to pursue a research project. The Master of Biotechnology (Advanced) is a two year full-time program of study commencing with the foundation suite of core units, where appropriate. The LS96 Master of Biotechnology (Advanced) program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology.

The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology
units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

**Potential Careers:**

Biochemist, Biotechnologist, Medical Biotechnologist, Microbiologist, Molecular Biologist, Plant Biotechnologist, Research Assistant, Scientist, Virologist.
Bachelor of Mathematics (MA54)

Year offered: 2008
Admissions: Yes
CRICOS code: 049433D
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,370
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 418701
Past rank cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Glenn Fulford
Discipline coordinator: Dr Dann Mallet - Assistant Course Coordinator
Campus: Gardens Point

Career Opportunities
Mathematics graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, information technology, environmental management, health, marketing, logistics, defence, media, education and research. In addition to their knowledge and skills in mathematics, graduates are also highly valued for their analytical and problem-solving skills. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

Favourable career outcomes for Bachelor of Mathematics graduates are likely due to the current demand for qualified statisticians and mathematicians.

Recommended Study
Maths C is recommended.

Course Design
The course structure is flexible in nature so that you can choose to study only mathematics units or include some units from another area of interest, such as science, business or information technology.

In the first year you will study core units in mathematics and statistics. These core units include studies in calculus, algebra, vectors and matrices, computational mathematics, data analysis and statistical modelling.

You will be able to design your program to suit your interests and career aspirations by combining advanced units from a number of the following areas of specialisation:

Applied Mathematics
Mathematical techniques that can be used to solve real-world problems.

Computational Mathematics
Computers and numerical techniques used to find solutions to complex problems which cannot be solved analytically.

Discrete Mathematics
The mathematics of numbers, including study of sets, fields, ring and groups.

Financial Mathematics
A wide variety of mathematical techniques used in applications within the financial area.

Mathematical Modelling
The utilisation of mathematical techniques to develop a model or explanation of a real-world problem which can then be tested.

Operations Research
Optimising complex systems including queuing, scheduling or allocation of resources.

Scientific Computation and Visualisation
Supercomputing, large-scale scientific modelling and creating graphical representations using visualisation techniques.

Statistics
Collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions.

Statistical Modelling
Building and analysing models of systems involving probability and variables.

Professional Recognition
Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course structure - Bachelor of Mathematics**

Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:

### Level 1 Mathematics Units

Students must complete the following Level 1 Mathematics units:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

Note: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

### Level 2 and 3 Mathematics Units

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 mathematics units

Students must complete:

- MAB311 Advanced Calculus
- MAB312 Linear Algebra

### Other Units

Up to a maximum of 96 credit points may be taken as electives with not more than 48 credit points from first level units.

Note: A first level unit is classified as a unit that is normally taken in the first year of a single degree. Examples of first level units are BSB1xx, ITB001-ITB008, SCB1xx units, PQB2xx units. Please check with your Course Coordinator if you would like to make language units or units from faculties other than Business, Information Technology or Science so that you can be advised on the correct unit(s) in which to enrol.

**Suggested Program for February Entry**

**STUDENTS WITH AN EXIT ASSESSMENT OF AT LEAST SOUND ACHIEVEMENT IN BOTH SENIOR MATHEMATICS B AND SENIOR MATHEMATICS C (OR EQUIVALENT)**

**Year 1, Semester 1**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C

ONE additional unit from:

- BSB110 Accounting
- MAB220 Computational Mathematics 1
- SCB110 Science Concepts and Global Systems

**Other first level unit (see below and later in document for other suggestions)**

**Year 1, Semester 2**

- MAB210 Statistical Modelling 1

THREE additional units from:

- MAB220 Computational Mathematics 1
- MAB281 Mathematics for Computer Graphics
- MAB313 Mathematics of Finance
- MAB422 Mathematical Modelling
- MAB480 Introduction to Scientific Computation
- BSB113 Economics
- PQB250 Mechanics and Electromagnetism
- SCB112 Cellular Basis of Life
- PQB251 Waves and Optics

Other first level elective units (see later in document for other suggestions)

**Year 2, Semester 1**

- MAB311 Advanced Calculus
- MAB312 Linear Algebra

TWO additional units from mathematics units or elective units

**Year 2, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 1**

FOUR units from mathematics units or elective units (see course structure)

**Year 3, Semester 2**

FOUR units from mathematics units or elective units (see course structure)

**STUDENTS WITH AN EXIT ASSESSMENT**
OF AT LEAST SOUND ACHIEVEMENT IN SENIOR MATHEMATICS B ONLY (OR EQUIVALENT)

Year 1, Semester 1
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
TWO additional units from:
BSB110 Accounting
BSB113 Economics
SCB110 Science Concepts and Global Systems
SCB111 Chemistry 1
SCB112 Cellular Basis of Life
Other first level elective unit (see later in document for other suggestions)

Year 1, Semester 2
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
MAB210 Statistical Modelling 1
MAB220 Computational Mathematics 1
Or
Other first level elective unit

Year 2, Semester 1
MAB311 Advanced Calculus
MAB312 Linear Algebra
TWO additional units from mathematics units or elective units

Year 2, Semester 2
FOUR units from mathematics units or elective units (see course structure)

Year 3, Semester 1
FOUR units from mathematics units or elective units (see course structure)

Year 3, Semester 2
FOUR units from mathematics units or elective units (see course structure)

Mathematics Units

Students should not enrol in Mathematics units other than those listed below:

Level 1 Mathematics Units
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
MAB210 Statistical Modelling 1
MAB220 Computational Mathematics 1

Level 2 Mathematics Units
MAB311 Advanced Calculus
MAB312 Linear Algebra
MAB313 Mathematics of Finance
MAB314 Statistical Modelling 2
MAB315 Operations Research 2
MAB413 Differential Equations
MAB414 Applied Statistics 2
MAB420 Computational Mathematics 2
MAB422 Mathematical Modelling
MAB461 Discrete Mathematics
MAB480 Introduction to Scientific Computation
MAB481 Visualisation and Data Analysis

Level 3 Mathematics Units
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB524 Statistical Inference
MAB525 Operations Research 3A
MAB533 Statistical Techniques
MAB536 Time Series Analysis
MAB613 Partial Differential Equations
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B
MAB640 Industry Project
MAB672 Advanced Mathematical Modelling
MAB681 Advanced Visualisation and Data Analysis

Other Units
Up to a maximum of 96 credit points (8 twelve credit point units) can be taken from other units, with not more than 48 credit points (4 twelve credit point units) from first level units. A first level unit is classified as a unit that is normally taken in the first year of a single degree.

OTHER UNIT - FIRST LEVEL: This unit can only be taken in MA54 after recommendation from the Course Coordinator. This unit cannot be included in the minimum of 16 mathematics units required for the course.

OTHER UNIT - ADVANCED LEVEL: This unit cannot be included in the minimum of 16 mathematics units required for the course, but can be counted as an elective.

MAB105 Preparatory Mathematics
MAB281 Mathematics for Computer Graphics

Potential Careers:
Actuary, Computer Game Programmer, Market Research Manager, Mathematician, Quantitative Analyst, Statistician.
Graduate Certificate in Mathematical Science (MA65)

Year offered: 2008
Admissions: Yes
CRICOS code: 046044G
Course duration (full-time): 1 semester (0.5 year)
Course duration (part-time): 2 semesters (1 year)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960

International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Applicants who do not meet the normal entry requirement may be permitted to enrol subject to the approval of the Head of the School of Mathematical Sciences. Applicants should provide details of their relevant industry experience and prior learning.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management. Mathematics teachers are in high demand.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from mathematics units and up to 12 credit points can be taken from units other than mathematics units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It is also suitable for graduates who wish to obtain the mathematics units required for mathematics as a teaching area for secondary schools. It recognises that students may not have studied mathematics for some time.

Course structure
- At least 36 credit points must be taken from mathematics units.
- Up to 12 credit points can be taken from units other than mathematics units.
- The units recommended will depend upon your mathematics background from secondary school or tertiary studies, length of time since you have studied mathematics, and your areas of interest.
- Students must contact the course Coordinator prior to commencing.

Graduate Diploma in Mathematical Science (MA75)

Year offered: 2008
Admissions: Yes
CRICOS code: 046041M
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

Prior to Enrolment
Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Diploma, at least 24 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 36 credit points from project units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

Contact Details
Course Coordinator
Dr Troy Farrell
Phone: +61 7 3138 2364
Email: t.farrell@qut.edu.au

Course structure

- At least 24 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.
- Up to 24 credit points can be taken from units other than mathematics units.
- Limit of 36 credit points from project units.

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only. The unit MAN700 project can be used to satisfy the rule requiring at least 24 credit points from postgraduate mathematics units other than MAN200 and/or MAN201.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations
MAN201 Mathematics
MAN700 Project
MAN717 Minor Project
MAN787-1 Project
MAN787-2 Project
MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The
prerequisite units are given as a guide. Depending on a student’s background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

**Prerequisite Units:**

- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB413 Differential Equations
- MAB422 Mathematical Modelling
- MAB521 Applied Mathematics 3
- MAB613 Partial Differential Equations
- MAB672 Advanced Mathematical Modelling

### Computational Mathematics

**Postgraduate Mathematics Unit:**

- MAN771 Computational Mathematics 4

**Prerequisite Units:**

- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB420 Computational Mathematics 2
- MAB480 Introduction to Scientific Computation
- MAB522 Computational Mathematics 3

### Operations Research

**Postgraduate Mathematics Units:**

- MAN768 Advanced Techniques in Operations Research

**Prerequisite Units:**

- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB315 Operations Research 2
- MAB525 Operations Research 3A
- MAB625 Operations Research 3B

### Statistics/Statistical Modelling

**Postgraduate Mathematics Units:**

- MAN536 Time Series Analysis
- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN775 Statistical Modelling of Financial Processes

**Prerequisite Units:**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB314 Statistical Modelling 2
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference
- MAB533 Statistical Techniques

### Quantitative Analysis/Financial Mathematics

**Postgraduate Mathematics Units:**

- MAN536 Time Series Analysis
- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN769 Mathematics of Finance
- MAN775 Statistical Modelling of Financial Processes

**Prerequisite Units:**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference
- MAB533 Statistical Techniques
- MAB623 Financial Mathematics

### Scientific Computation and Visualisation

**Postgraduate Mathematics Units:**

- MAN681 Advanced Visualisation and Data Analysis

**Prerequisite Mathematics Units:**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB281 Mathematics for Computer Graphics
- MAB480 Introduction to Scientific Computation
- MAB481 Visualisation and Data Analysis

### Discrete Mathematics
Postgraduate Mathematics Unit:
MAN778 Applications of Discrete Mathematics

Prerequisite Units:
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
MAB461 Discrete Mathematics

Mathematics for Secondary Teaching

Postgraduate mathematics units:
MAN700 Project

Or other postgraduate mathematics units totalling 24 credit points.
null

Other mathematics units:
Students would usually select across a range of areas of mathematics and statistics.
null

Non-mathematics units:
Students could select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics.

Potential Careers:
Actuary, Mathematician, Quantitative Analyst, Statistician.
Master of Mathematical Science (MA85)

Year offered: 2008
Admissions: Yes
CRICOS code: 046042K
Course duration (full-time): 3 semesters (1.5 years)
Course duration (part-time): 6 semesters (3 years)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

Prior to Enrolment
Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student’s background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

Email: t.farrell@qut.edu.au

Course structure
- At least 36 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.
- Up to 24 credit points can be taken from other than mathematics units.
- Limit of 48 credit points can be taken from project units.

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations
MAN201 Mathematics
MAN700 Project
MAN717 Minor Project
MAN787-1 Project
MAN787-2 Project
MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

Strand Information

The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their
undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

MAB461 Discrete Mathematics

Mathematics for Secondary Teaching

Postgraduate mathematics unit:

MAN700 Project

Plus at least one other postgraduate mathematics unit (or other combination to give at least 36 credit points from appropriate postgraduate mathematics units)

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics

Non-mathematics units:

Students can select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics

Potential Careers:

Actuary, Mathematician, Quantitative Analyst, Statistician.
International Visiting Students (NA05)

Year offered: 2008
Admissions: Yes
CRICOS code: Holders of valid visas
International Fees (per semester): 2008: $2796 per unit
(subject to annual review)
International Entry: February, July and November
Campus: Gardens Point, Kelvin Grove, Carseldine and External
International Visiting Students (NA06)

Year offered: 2008
Admissions: Yes
CRICOS code: Holders of valid visas only
International Fees (per semester): 2008: $2796 per unit
(subject to annual review)
International Entry: February July and November
Campus: Gardens Point, Kelvin Grove and Carseldine
Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) (PH38)

Year offered: 2008
Admissions: Yes
CRICOS code: 037588F
Course duration (full-time): 3 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,470
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 418182
Past rank cut-off: 94
Past OP cut-off: 4
Assumed knowledge: English (4, SA), Maths B (4, SA) and Physics (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. PHYSICS: QUT unit Introductory Physics 1H as a visiting student or QUT Continuing Professional Education course Physics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Pam Rowntree
Discipline coordinator: Debbie Starkey
Campus: Gardens Point

Career Opportunities
After graduating from the Medical Imaging Technology major, you may be employed as a medical imaging technologist or diagnostic radiographer. As a radiographer you will play a key role within the health care industry by providing referring medical practitioners with additional diagnostic information to assist in patient management and treatment. You may become a team member in a radiology department in a hospital, private radiology practice or health department, or you may be employed in medical equipment sales.

OP Guarantee
The OP Guarantee does not apply to this program.

Other Majors
See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology).

Special Requirements
Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their clinical placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

Other Course Requirements
Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

Professional Recognition
On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

The Medical Radiation Technologists Board of Queensland (MRTBQ) has introduced English language proficiency requirements for applicants for whom English is not the primary language who wish to be registered in Queensland. Refer MRTBQ website for current policy details - http://www.mrtboard.qld.gov.au/.

The Australian Institute of Radiography (AIR) has specific language requirements for international students seeking accreditation in Australia - see www.air.asn.au for further details.

Why Choose this Course?
QUT is the only university to offer a Medical Imaging Technology degree in Queensland. Excellent employment prospects can be expected as QUT works closely with the health industry to ensure that the number of graduates is in line with industry demand. In recent years, over 95 per cent of graduates have been employed within four months of graduation.

This course is designed in consultation with clinical staff from radiology departments, so you’ll gain advanced knowledge of new diagnostic techniques and equipment used in the workplace. QUT’s well equipped X-ray laboratories allow you to graduate with experience using equipment and techniques similar to those used in industry. Clinical placements in hospitals and private practices provide an opportunity to use your skills in a real workplace.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

**Contact Details**

**Course Coordinator**  
Associate Professor Pam Rowntree  
Phone: +61 7 3138 2346  
Email: p.rowntree@qut.edu.au

**Discipline Coordinator**  
Debbie Starkey  
Phone: +61 7 3138 2596

**Domestic student tuition fee (Dfee) places**  
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (ie failure to lodge an eCAF, has consumed all of their Student Learning Entitlement, etc) and who have been invited and accepted to continue as a fee-paying student.

**Course structure - Medical Imaging Technology**

**Year 1, Semester 1**
- LSB145 Anatomy 1
- PCB007 Patient Care in Professional Practice
- PCB107 Physics and Quantitative Techniques
- PCB178 Principles of Medical Radiations

**Year 1, Semester 2**
- LSB245 Anatomy 2 and Introductory Pathology
- PCB272 Radiation Physics
- PCB276 General Radiography 1
- PCB277 Radiographic Practice

**Year 2, Semester 1**
- LSB321 Systematic Pathology
- LSB345 Regional & Imaging Anatomy 1
- PCB375-1 Radiographic Equipment
- PCB377 General Radiography 2
- PCB379 Clinical Radiography 1

**Year 2, Semester 2**
- LSB445 Regional and Imaging Anatomy 2
- PCB375-2 Radiographic Equipment
- PCB476 Special Procedures
- PCB477 Complementary Imaging Techniques
- PCB479 Clinical Radiography 2

**Year 3, Semester 1**
- PCB567 Advanced Radiographic Technique 1
- PCB580-1 Clinical Radiography 3
- PCB593 Digital Image Processing
- PCB672-1 Project
- PCB681 Computed Tomography Imaging

**Year 3, Semester 2**
- PCB580-2 Clinical Radiography 3
- PCB667 Advanced Radiographic Technique 2
- PCB672-2 Project
- PCB675 Radiation Safety and Biology
- PCB682 Magnetic Resonance Imaging

**Potential Careers:**  
Medical Imaging Technologist, Radiographer.
Applications for this program closed on 30 November.

Potential Careers:
Radiation Therapist.
Graduate Certificate in Applied Science (Breast Ultrasound) (PH60)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters (1 year)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Pam Rowntree
Discipline coordinator: Natasha Kazich
Campus: Gardens Point

Entry requirements
To be eligible to enrol, an applicant will normally be qualified as a medical imaging technologist (diagnostic radiographer) at degree or diploma level and have a minimum of two years experience in a clinical medical imaging practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

Applicants with other qualifications and appropriate experience may be permitted to enrol subject to the approval of the Head of School of Physical and Chemical Sciences.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
Students must be employed in a suitable clinical practice with adequate access to clinical experience for the duration of the course. Formal lectures are conducted in an intensive one-week block of classes at the beginning of each semester. Further academic requirements can be met without requiring on-campus attendance. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Overview
The Graduate Certificate in Applied Science (Breast Ultrasound) course offers studies specifically in breast ultrasound techniques. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and sonographers who are interested in an in-depth study of this rapidly developing specialty area of ultrasound.

NOTE: The PCN397 clinical attachment unit is a 2 semester unit

Potential Careers:
Sonographer.
Graduate Certificate in Lighting (on-shore) (PH62)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 2 semesters (1 year) (Internal and External)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: July
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Ian Cowling
Campus: Gardens Point

Overview
The Graduate Certificate in Lighting (PH62) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator. (Note: Students entering without a Bachelor degree can only enrol initially in PH62, and must successfully complete this program before they can enrol in PH72 or PH82.)

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

Course Design
Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, sustainability issues and human factors.

Contact Details
Course Coordinator
Associate Professor Ian Cowling
Phone: +61 7 3138 2592
Email: i.cowling@qut.edu.au

Course structure - Part-time

Year 1, Semester 2 (July to October)
PCN121  Vision Colour and Photometry
PCN124  Lamps and Luminaires

Year 2, Semester 1 (February to June)
PCN122  Lighting Design
PCN123  Sustainability and Human Factors

NOTES: PH62 is offered part-time comprising a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. External students are required to spend one week per semester at QUT for block teaching and tutorial work.

Domestic students in the Graduate Certificate in Lighting (PH62) will be invited, on successful completion of 48 credit points, to continue with studies in the Graduate Diploma in Lighting (PH72), or can enrol directly in Master of Lighting (PH82).

International students wishing to change courses should consult International Student Business Services.

Potential Careers:
Graduate Certificate in Lighting (off-shore) (PH63)

Year offered: 2008
Admissions: Yes
Course duration (external): 2 semesters part-time (Hong Kong)
Domestic fees (per credit point): Off-shore Course (subject to annual review)
International Entry: September
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Ian Cowling
Campus: City University of Hong Kong

Overview
The Graduate Certificate in Lighting (PH63) is designed primarily for people working in any area of lighting, whether it be design or application, sales or installation, purpose directed or just entertainment.

The Graduate Certificate in Lighting (PH63) is designed to provide an overview of all aspects of lighting, including light measurement, luminaire design, design of lighting installations, sustainability, daylighting and the human aspects associated with providing good lighting.

The Graduate Diploma (PH73) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH83) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator. (Note: Students entering without a Bachelor degree can only enrol initially in PH63, and must successfully complete this program before they can enrol in PH73 or PH83.)

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

Course Design
Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, daylighting and the human factors of lighting.
Graduate Diploma in Applied Science (Medical Physics) (PH71)

Year offered: 2008
Admissions: Yes
CRICOS code: 020315D
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2008: $135 per credit point (limited CSP places available) Tuition Fee applies after CSP places have been filled (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $7,251
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Andrew Fielding
Campus: Gardens Point

Entry Requirements
Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (eg engineering) may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

Course Design
This degree comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

Students who have completed the Graduate Diploma may enter Stage 2 of the Master of Applied Science - PH80 where they undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution.

Professional Recognition
On graduation, students will be eligible for provisional accreditation by the Australian College of Physical Scientists and Engineers in Medicine (ACPSEM).

Overview
The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

Course structure - First Semester Entry

First Semester (February to June)
LSB142 Human Anatomy and Physiology
PCN113 Radiation Physics
PCN114 Microprocessors and Instrumentation
PCN211 Physics of Medical Imaging

Second Semester (July to October)
PCN112 Medical Imaging Science
PCN212 Radiotherapy
PCN214 Health and Occupational Physics
PCN218 Research Methodology and Professional Studies

Course structure - Mid-Year Entry

First Semester (July to October)
LSB258 Principles of Human Physiology
PCN112 Medical Imaging Science
PCN212 Radiotherapy
PCN214 Health and Occupational Physics

Second Semester (February to June)
PCN113 Radiation Physics
PCN114 Microprocessors and Instrumentation
PCN218 Research Methodology and Professional Studies
PCN211 Physics of Medical Imaging

Potential Careers:
Health Physicist, Medical Equipment Sales, Medical Physicist.
Graduate Diploma in Applied Science (Medical Ultrasound) (PH71)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2008: $135 per credit point (limited CSP places available) Tuition Fee applies after CSP places have been filled (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $12,960; CSP $7,251
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February. Applications are to be made by 1 December in the preceding year.
Total credit points: 96
Standard credit points per part-time semester: 24
Course coordinator: Dr Andrew Fielding
Discipline coordinator: Natasha Kazich
Campus: Gardens Point

Entry Requirements
Students will normally be qualified diagnostic radiographers or medical imaging technologists at degree or diploma level, or degree qualified nurses, and have at least two years of experience in a clinical practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

Overview
The Graduate Diploma and Master of Applied Science courses offer studies in medical ultrasound. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and nuclear medicine technologists who are interested in an in-depth study of this rapidly developing area.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive 4-5 week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Overview
The Graduate Diploma in Lighting (PH72) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting or equivalent.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

Course Design
Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality Management.

Contact Details
Course Coordinator
Associate Professor Ian Cowling
Phone: +61 7 3138 2592

Email: i.cowling@qut.edu.au

Course structure - Part-time

Year 1, Semester 2 (July to October)
PCN121 Vision Colour and Photometry
PCN124 Lamps and Luminaires

Year 2, Semester 1 (February to June)
PCN122 Lighting Design
PCN123 Sustainability and Human Factors

Year 2, Semester 2 (July to October)
PCN223 Lighting Applications
Elective - One unit from:
MEN272 Enterprise Resources Planning
PCN222 Advanced Lighting Design
PCN224 Applied Lighting

Year 3, Semester 1 (February to June)
PCN221 Best Practices in Lighting
Elective - One unit from:
CNP520 Project Management
CNP521 Project Cost and Risk Management
MEN177 Total Quality Management
PCN224 Applied Lighting

NOTES: PH72 is offered part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Domestic students in the Graduate Diploma in Lighting (PH72) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Lighting (PH82).

Students in the Graduate Diploma in Lighting (PH72) wishing to exit with the Graduate Certificate in Lighting (PH62) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

Potential Careers:
Graduate Diploma in Cardiac Ultrasound (PH75)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 4 semesters (2 years) (External only)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February: Early Closing Date - 1 December 2007. Early closing date for PH75 and PH85 Semester 1 2008 entry, pending quota being filled. Beyond this date, late applicants should contact the course coordinator for admission advice.
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Bonita Anderson
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field, and access to suitable clinical experience for the duration of the course.

Students who do not meet the normal entry requirements may be permitted to enrol subject to the approval of the Head of the School of Physical and Chemical Sciences. Applicants should submit as much detail as possible about previous studies and prior learning experiences that may be relevant. In some cases a bridging program may be required.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Overview
The Graduate Diploma in Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week’s duration in each semester, web-based modules and clinical practice modules.

**Other Majors**
See also the separate entry for the following major in this course: Master of Applied Science (Medical Ultrasound).

**Entry Requirements**
Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (e.g., engineering) may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

**Course Design**
This degree consists of two stages. Stage 1 (which is equivalent to the Graduate Diploma - PH71) comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

In Stage 2 (Master of Applied Science - PH80) students undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution. Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

**Professional Recognition**
On graduation, students will be eligible for provisional accreditation by the Australian College of Physical Scientists and Engineers in Medicine (ACPSEM).

**Overview**
The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

Course duration (part-time): 6 semesters (3 years) (Internal and External)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: July
International Entry: July
Total credit points: 144
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Ian Cowling
Campus: Gardens Point

Overview
The Master of Lighting (PH82) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting. It provides the opportunity for graduates of the Graduate Certificate in Lighting (PH62) and the Graduate Diploma in Lighting (PH72) to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting, or PH72/PH73 Graduate Diploma in Lighting, or equivalent.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

Course Design
Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

Email: i.cowling@qut.edu.au

Course structure - Full-time
Year 1, Semester 2 (July to October)
PCN121 Vision Colour and Photometry
PCN123 Sustainability and Human Factors
PCN124 Lamps and Luminaires
Elective - One unit from:
CNP521 Project Cost and Risk Management
MEN177 Total Quality Management
PCN224 Applied Lighting

Year 2, Semester 1 (February to June)
PCN122 Lighting Design
PCN221 Best Practices in Lighting
Electives - Two units from:
CNP520 Project Management
MEN272 Enterprise Resources Planning
PCN321 Reading Topic 1
PCN322 Reading Topic 2

Year 2, Semester 2 (July to October)
PCN223 Lighting Applications
PCN320 Lighting Project
Elective - One unit from:
CNP521 Project Cost and Risk Management
MEN177 Total Quality Management
PCN222 Advanced Lighting Design

Year 3, Semester 1 (February to June)
PCN221 Best Practices in Lighting
Elective - One unit from:
CNP520 Project Management
CNP521 Project Cost and Risk Management
MEN177 Total Quality Management
PCN224 Applied Lighting

Year 3, Semester 2* (July to October)
PCN321 Reading Topic 1
PCN322  Reading Topic 2
or approved elective

PCN320  Lighting Project

* The Fifth and Sixth semesters can be taken concurrently in full-time mode.

PH82 is offered full-time internally and part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on evenings and weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Students in the Master of Lighting (PH82) wishing to exit with the Graduate Certificate in Lighting (PH62) or Graduate Diploma in Lighting (PH72) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

Potential Careers:
**Master of Lighting (off-shore) (PH83)**

**Year offered:** 2008  
**Admissions:** Yes  
**Course duration (external):** 3 semesters (1 year) full-time and 6 semesters (2 years) part-time (Hong Kong)  
**Domestic fees (per credit point):** Off-shore course (subject to annual review)  
**International Entry:** September  
**Total credit points:** 144  
**Standard credit points per part-time semester:** 24  
**Course coordinator:** Associate Professor Ian Cowling  
**Campus:** City University of Hong Kong

**Overview**  
The Master of Lighting (PH83) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting. It provides the opportunity for graduates of the Graduate Certificate in Lighting (PH63) and the Graduate Diploma in Lighting (PH73) to undertake a Masters in the form of a project with some coursework.

**Entry Requirements**  
(a) Bachelor level degree in an appropriate field  

OR  
(b) Successful completion of the PH72/PH73 Graduate Diploma in Lighting or equivalent.

*Note:* Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

**Course Design**  
Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

PCZ322 Reading Topic 2  
Or approved elective |
| **Sixth Semester (May to August)** | PCZ320 Lighting Project |

**Note:** PH83 will be offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. For the first three semesters the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. For the fourth and fifth semesters both units will commence together at the start of the semester. Students in the Master of Lighting (PH83) wishing to exit with the Graduate Certificate in Lighting (PH63) or Graduate Diploma in Lighting (PH73) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

**Potential Careers:**  
Master of Cardiac Ultrasound (PH85)

Year offered: 2008
Admissions: Yes
Course duration (part-time): 6 semesters (3 years) (External only)
Domestic fees (per credit point): 2008: $135 per credit point (subject to annual review)
Domestic fees (indicative): 2008: $12,960
Domestic Entry: February: Early Closing Date - 1 December 2007. Early closing date for PH75 and PH85 Semester 1 2008 entry, pending quota being filled. Beyond this date, late applicants should contact the course coordinator for admission advice. Stage 1 of this course commences in February and July (students with advanced standing). Stage 2 commences in February and July.

Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Bonita Anderson
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field, and access to suitable clinical experience for the duration of the course.

Students who do not meet the normal entry requirements may be permitted to enrol subject to the approval of the Head of the School of Physical and Chemical Sciences. Applicants should submit as much detail as possible about previous studies and prior learning experiences that may be relevant. In some cases a bridging program may be required.

Second semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester*.

* Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Overview
The Master of Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week's duration in each semester, web-based modules and clinical practice modules.

Contact Details
Course Coordinator
Bonita Anderson
Phone: +61 7 3138 2585
Email: b.anderson@qut.edu.au

Course structure

STAGE 1: To complete Stage 1, students must complete the units listed below (total 96 credit points):

Year 1, Semester 1
PCN155 Cardiac Ultrasound 1
PCN162 Principles of Medical Ultrasound
PCN497-1 Clinical Attachment 4

Year 1, Semester 2
PCN259 Cardiac Ultrasound 2
PCN497-2 Clinical Attachment 4

Year 2, Semester 1
PCN218 Research Methodology and Professional Studies
PCN359 Cardiac Ultrasound 3
PCN597-1 Clinical Attachment 5

Year 2, Semester 2
PCN459 Advanced Cardiac Ultrasound
PCN597-2 Clinical Attachment 5

NOTE: The PCN497 and PCN597 clinical attachment units are 2 semester units.

STAGE 2:* To complete Stage 2, students must complete the units listed below (48 credit points):

First Semester ** (Project Over Two Semesters)
PCN640-1 Project
Notes: A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.

A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

* Masters project units are offered in both semesters.

** Second Semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester#

# Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Students in the Master of Cardiac Ultrasound (PH85) wishing to exit with the Graduate Diploma in Cardiac Ultrasound (PH75) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

Potential Careers:

Sonographer.
Bachelor of Applied Science (SC01)

Year offered: 2008
Admissions: Yes
CRICOS code: 003502J
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,206
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July* (*Gardens Point campus only)
International Entry: February and July* (Conditions apply for July entry)
QTAC code: 418011
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Megan Hargreaves
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Robert Johnson (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Emad Kiriakous (Forensic Science); Dr Gary Huftile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point and Carseldine

Course Design
The flexibility of QUT's Bachelor of Applied Science allows you to tailor the qualification to your needs and career aspirations. Can you see yourself as a forensic scientist, geologist, chemist, physicist, microbiologist or environmental scientist? Perhaps you would like to be at the forefront of the latest discoveries in genetic engineering, or improve the lives of others by researching new diagnostic techniques and treatments for diseases, or monitor a community's water supply ensuring it is safe to drink. You could even help save an endangered species, investigate renewable energy sources, advise world leaders on the causes and effects of global warming, or discover a new star in a far away galaxy.

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You choose your career direction and QUT's Bachelor of Applied Science will set you on the right path by ensuring you are employment-ready when you graduate.

You have a broad range of options to choose from and the flexibility to create your own personal science degree program. If you are not sure of your career direction, don't worry because this decision can be delayed until after you have sampled a range of science disciplines during your first semester of study. QUT staff are available to advise on how best to structure your degree to suit your personal and career aspirations. When you have decided on a preferred career direction, you can be sure that you will graduate with the necessary specialist theoretical knowledge and well-developed practical skills. As QUT courses are designed in close consultation with industry you will receive the relevant professional accreditation when you graduate.

You will choose an area of specialisation (major) from the list below and this will form the basis for your qualification, for example Bachelor of Applied Science (Forensic Science). You will also choose a secondary specialisation (co-major) to complement your major studies. This secondary specialisation may be one of the other majors, a science co-major, or an area outside the science disciplines. Several elective units allow you to broaden your knowledge and skills.

Science Majors, Science Co-majors and Non-Science Co-majors:

Science Majors:
Biochemistry
Biotechnology
Chemistry
Ecology
Environmental Science
Forensic Science*
Geoscience
Mathematics
Microbiology
Physics

* The Forensic Science major must be taken as a double major with another science area eg Chemistry or Biotechnology.

Science Co-majors:
One of the majors listed above or:
Applied Geology
Astrophysics
Biotechnology: The application of molecular biology and biochemical principles to create a new generation of products and processes for the benefit of society. Biotechnology is one of the fastest growing areas of science and business in the world today. Modern biotechnology uses the techniques of genetic engineering to enable faster, cheaper and more reliable production of an ever-increasing range of engineered products. The integration of biotechnology research into QUT Biotechnology courses ensures that you will receive access to the latest information and hands-on laboratory experience in contemporary molecular technologies. All students receive hands-on practical laboratory experience from your first year of study in Queensland’s newest biotechnology teaching laboratories.

Career Opportunities

Globally and locally the developing biotechnology industry demands highly skilled graduates. As a biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science, molecular farming and bioinformatics; while existing career opportunities in hospitals and diagnostic laboratories continue to expand.

Professional Recognition

Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, and possibly the Australian Society for Microbiology.

Chemistry:

Chemistry is the study of the structure, properties, synthesis and reactions of materials. Chemistry is one of the central sciences since its results are used in almost all areas of science - including life sciences, the environment, geosciences, biology, and food science. The Chemistry major at QUT allows you to gain an appreciation of the fundamental discipline - covering physical, organic and inorganic chemistry - but with an additional focus on modern applications such as drug discovery, analytical and environmental chemistry, polymer science and surface science. All theory is complemented with a comprehensive laboratory program, particularly with hands-on experience with modern computer-based analytical instruments.

Career Opportunities

Chemists are key professionals in industries that manufacture goods such as paints, paper, textiles, glass, plastics and rubber, metals and alloys, gases and fuels, foodstuffs and chemicals. Government agencies depend on chemists to develop and monitor standards for meat research, animal health pest control, preservation of timber, environmental chemistry, forensic analysis and coal chemistry. You can expect to find employment as an industrial chemist, material scientist, environmental chemist, quality control analyst, production supervisor, food chemist, organic chemist and inorganic chemist.

Professional Recognition

Students completing the Chemistry major with the Industrial Chemistry or Forensic Science co-major are eligible for membership of the Royal Australian Chemical Institute.

Ecology

Ecology is the study of relationships between organisms and their environment. Ecology helps us to understand the distribution and abundance of organisms. As an applied...
science it is used to design strategies for the management of populations of organisms (both natural and commercial). The Ecology major at QUT will allow you to gain a broad range of scientific skills including the specialist techniques required for conserving and managing endangered animals, controlling pests, managing exploited populations and evaluating issues associated with the management of our natural resources.

Career Opportunities
Ecologists find rewarding careers in research science for government departments responsible for pest management, national park and wildlife, primary industries, fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy work. Positions include fisheries biologist, wildlife manager, scientific or technical officer, teacher or lecturer and research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

Professional Recognition
Professional recognition is achieved through a scientific society (ie Ecological Society of Australia) and participation in its meetings.

Environmental Science:
Environmental Science at QUT is the application of fundamental, core science disciplines to problems encountered in the management and understanding of our environment. Studies will allow you to gain both the strong scientific base and the generic skills to apply your scientific knowledge to a wide range of environmental problems. Rather than learning simply to describe the different environmental systems, you will gain an understanding of the mechanisms that control these systems, and the interaction between the various components. All environmental science units include laboratory and fieldwork with an emphasis on problem-solving through project work. You will be introduced to standardised methods and principles for environmental modelling and monitoring that can be applied across all disciplines.

Career Opportunities
Environmental scientists are needed in a wide variety of government departments and agencies, in consultancy and in manufacturing and mining companies. Graduates are equipped to assess resources, design and implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas including strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and development, rehabilitation and reforestation of contaminated land sites, groundwater assessment and modelling, waterway and floodplain drainage planning, erosion control in waterways, and marine science.

Professional Recognition
Graduates are eligible for membership of the Environment Institute of Australia and New Zealand.
offshore drilling rigs; and a variety of government organisations working as field geologists or research scientists. Other graduates work in computing, data modelling, and remote sensing. An honours degree is required by many employers, including the larger mining and exploration companies.

**Professional Recognition**
Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, and the Geological Society of Australia.

**Mathematics:**
This major concentrates on applied mathematics or financial mathematics and operations research or on statistics. Students who wish to cover a range of areas of mathematics should consider enrolling in MA54 Bachelor of Mathematics. This course focuses on applications and includes an emphasis on developing communication skills.

**Career Opportunities**
Mathematicians enjoy a wide range of career options, working for major corporations including banks and insurance companies, industry, information technology companies, consultancy groups, research organisations, universities, schools and various government departments. You will be able to use your mathematical and statistical techniques in analysis, modelling, experimental design and operations research. Employers value the generic skills also gained throughout the degree in problem-solving, analytical thinking, team and independent work, oral and written communication.

**Professional Recognition**
Graduates are eligible for membership of the Australian Mathematical Society, Australian Society for Operations Research and the Statistical Society of Australia.

**Microbiology:**
Microbiology is the study of living organisms of microscopic size. The principal components are bacteriology, virology and mycology, and areas of fundamental importance in the applied sciences of pathology and immunology. You will develop skills and knowledge in the handling and study of micro-organisms and investigation of their properties. Advanced studies allow you to expand your knowledge and expertise in your specialised area such as human pathology, animal and plant diseases, food technologies, environmental testing (soil, air and water) and bioremediation, and molecular applications of microbiological principles.

**Career Opportunities**
Microbiologists are employed in a variety of careers including human pathology testing in bacteriology, immunology, mycology, parasitology and virology, animal and plant disease, treatment of inorganic waste, food fermentations and microbiological testing of goods for pathogens or spoilage organisms, water and soil microbiology and research. Employment opportunities exist in private and government research and analytical laboratories, such as the CSIRO, universities, hospitals, health departments, primary industry departments, food industry laboratories, environmental agencies, and in the marketing of biological products.

**Professional Recognition**
Graduates are eligible for membership of the Australian Society for Microbiology.

**Physics:**
Physics is the science discipline dealing with the natural laws and processes, with the states and properties of matter and energy. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and modern optics, computational physics, nuclear and radiation physics, quantum mechanics and relativity.

**Career Opportunities**
Physicists are an asset to almost every industry. They are broadly-educated professionals who are trained in applied and experimental physics, instrumentation and a range of other specific methods required for traditional and newly-developed avenues of scientific employment. QUT Physics graduates work in large manufacturing companies, often as members of research and development teams, supervising the testing and production of raw materials and finished articles. Increasing opportunities for graduates with appropriate studies exist in noise measurement and control, environmental monitoring, meteorology, lasers, computing, technical equipment sales, teaching and research. Graduates work in large hospitals and medical institutions such as the Queensland Radium Institute. Broad training in data analysis and problem-solving skills also makes physicists well suited to management roles in a range of technology-based industries.

**Science Co-Major Areas of Study**

**Applied Geology:**
The Applied Geology co-major is designed to complement the Geoscience major. The skills learned through core units in the major are applied to activities related to the petroleum, mineral, hydrogeological and environmental professions. You will learn the specialist techniques required to understand the genesis of ore deposits, set up mineral exploration programs, produce groundwater models, understand the fluid flow in petroleum reservoirs or manage the effects of human activity on the environment.

**Astrophysics:**
The Astrophysics co-major is an exciting blend of astrophysics, geophysics, cosmology, digital image processing and remote sensing units, designed to be taken with a major in Physics, Mathematics or Geoscience. The co-major is relevant to many real-world problems, for example, satellite technology, telecommunications, minerals exploration and global warming. By taking this co-major you
will develop interdisciplinary skills in computing, instrumentation, image processing, geodesy and materials science that will be useful for a wide variety of careers in industry and the public sector.

Biodiversity:
Biodiversity has evolved over the last few years as a discipline concerned with the conservation and sustainable use of the earth’s biological diversity. It deals with the components of biological diversity, genes to biomes, and seeks to describe and quantify this diversity, and determine how it is produced and maintained. The Biodiversity co-major is designed to complement both the Ecology and Environmental Science majors. The theme of the co-major is Australian biodiversity. Common threads are the basic biology of the species in Australian ecosystems, the systems they are a part of, and the evolution of these species and ecosystems.

Chemistry for Industry:
The Industrial Chemistry co-major is designed to partner the Chemistry major. The emphasis is on analytical chemistry and chemical technology. It aims to familiarise students with state-of-the-art equipment and modern laboratory information systems as well as online monitoring and control of industrial processes. The co-major is well recognised by employers in industrial, hospital and sports laboratories, by food and pharmaceutical producers and by instrument manufacturers as well as research organisations. Graduates from this program can look forward to a rewarding career commencing employment as a chemist and then moving through an organisation in supervisory and managerial capacities. A number of industry-sponsored bursaries are available each year for students enrolled in the Chemistry major/Chemistry for Industry co-major.

Life Science Technologies:
The many and varied disciplines which are characteristic of research and development activities in the life sciences are reflected in employer demand for a broad range of graduates with different specialisations. To accommodate this demand a Biomolecular Sciences co-major is available in the Bachelor of Applied Science. In this co-major, students may compose a combination of six approved units from the Biotechnology, Biochemistry and Microbiology majors. You will benefit from a broad range of biomolecular theory and skills, closely aligned to personal interests, for application in an ever-increasing variety of niche employment opportunities.

Or a non-science co-major: Aviation, Corporate IT Systems, Environmental Engineering Studies, Ethics and Human Rights, Foreign Languages, Games Technology, Geography, Journalism, Management, Marketing, Music, Psychology, Spatial Science.

Professional Recognition

Course Rules
1. To fulfil the requirements for the award of the Bachelor of Applied Science degree, a student must complete a total of at least 288 credit points, comprising at least 192 credit points in units offered by the Faculty of Science. The units completed for the award of the degree must include:
   (a) the first year program as outlined in the course summary sheet.
   (b) a major study
   (c) a co-major study.

Major and co-major studies are defined in terms of the discipline area and the academic level at which the units are offered.

A major must be completed in one of the following discipline areas: biochemistry; biotechnology; chemistry; ecology; environmental science; forensic science; geoscience; mathematics; microbiology; physics. A major comprises 96 credit points of units at advanced level, including at least 48 credit points at the third level.

A co-major may be completed by selecting appropriate units from another major, or from the following discipline areas:

Science applied geology, astrophysics, biodiversity, chemistry for industry, environmental science, life science technologies.

Non-Science: aviation, corporate IT systems, digital media, environmental engineering studies, ethics and human rights, foreign languages, games technology, geography, human movement studies, journalism, management, marketing, music, psychology, spatial science.

A co-major comprises 72 credit points with at least 60 credit points at advanced level for the Science co-majors and at least 48 credit points for the non-Science co-majors. Major and co-major studies may be taken in closely related discipline areas.

2. Elective units may be chosen from (a) SCO1 majors/co-majors other than those undertaken by a student, (b) other appropriate units offered by the Faculty of Science, and (c) units offered by other faculties.

3. Students are normally expected to complete the course in minimum time. A full-time student normally enrols in an average of 48 credit points per semester for six semesters and a part-time student normally enrols in 24 credit points per semester for 12 semesters. (A full-time student is one who is enrolled in 36 or more credit points per semester, whereas a part-time student is one who is enrolled in less than 36 credit points per semester.)
Notes on the Rules

1. For offerings in the Faculty of Science, the term advanced level refers to units in Schedules 2 and 3. For units offered outside the Faculty of Science, the term advanced level refers to units for which there is at least one prerequisite unit.

2. Level 2 and level 3 units are listed in Schedules 2 and 3 respectively according to their unit codes. For each unit, the major(s) and/or co-major(s) in which the unit is offered are shown. It should be noted that not every advanced level unit offered in each major/co-major is mandatory.

3. The major undertaken by a student will qualify the generic award title of BAppSc and will appear in the award title in parentheses. The general form of the award will therefore be: BAppSc(Major).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - Major in Biochemistry

Year 1, Semester 1

<table>

SCB112  Cellular Basis of Life
   Plus ONE of:
MAB100  Mathematical Sciences 1A
MAB101  Statistical Data Analysis 1
MAB104  Introductory Quantitative Methods
MAB111  Mathematical Sciences 1B

NOTE:  1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB104.
   2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
   3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
   4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 1, Semester 2

MAB100  Mathematical Sciences 1A
SCB121  Chemistry 2
SCB123  Physical Science Applications
SCB131  Experimental Chemistry

Year 2, Semester 1

PQB312  Analytical Chemistry for Scientists and Technology
PQB331  Structure and Bonding
   Plus TWO other units selected according to the co-major requirements

Year 2, Semester 2 *

PQB401  Chemical Reactions 1
PQB442  Chemical Spectroscopy
   Plus TWO other units selected according to the co-major requirements

Year 3, Semester 1 *

PQB502  Materials Chemistry and Characterisation
PQB531  Chemical Reactions 2
   Plus TWO other units selected according to the co-major requirements

Year 3, Semester 2 *

PQB631  Applied Molecular Science
PQB642  Chemical Research
   Plus TWO other units selected according to the co-major requirements

Recommended Co-majors:
   Biochemistry, Biotechnology, Chemistry for Industry, Forensic Science

* Elective Unit for all Majors:

SCB500  Industry Project

NOTE:  SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Major in Ecology

Year 1, Semester 1

SCB110  Science Concepts and Global Systems
SCB111  Chemistry 1
SCB112  Cellular Basis of Life
   Plus ONE of:
MAB100  Mathematical Sciences 1A
MAB101  Statistical Data Analysis 1
MAB104  Introductory Quantitative Methods
MAB111  Mathematical Sciences 1B

NOTE:  1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB104.
   2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
   3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
   4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 1, Semester 2

NQB202  History of Life on Earth
SCB120  Plant and Animal Physiology
SCB123  Physical Science Applications
   Plus either
SCB121  Chemistry 2
   Or
NQB201  Planet Earth

Year 2, Semester 1

NQB301  Soils and Sedimentation
NQB321  Ecology
   Plus TWO other units selected according to the co-major requirements

Year 2, Semester 2 *

NQB421  Experimental Design
NQB422  Genetics and Evolution
   Plus TWO other units selected according to the co-major requirements

Year 3, Semester 1 *

NQB502  Field Mapping and Monitoring of Natural Resources
NQB521 Population Genetics and Molecular Ecology
Plus TWO other units selected according to the co-major requirements

Year 3, Semester 2 *
NQB621 Population Management
NQB622 Population Genetics
Plus TWO other units selected according to the co-major requirements

Recommended Co-majors:
Biodiversity, Environmental Science

* Elective Unit for all Majors:
SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Major in Environmental Science

Year 1, Semester 1
SCB110 Science Concepts and Global Systems
SCB111 Chemistry 1
SCB112 Cellular Basis of Life
Plus ONE of:
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB104 Introductory Quantitative Methods
MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB104.
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 1, Semester 2
NQB202 History of Life on Earth
SCB120 Plant and Animal Physiology
SCB123 Physical Science Applications
Plus either
SCB121 Chemistry 2
Or
NQB201 Planet Earth

Year 2, Semester 1
NQB301 Soils and Sedimentation
NQB321 Ecology
Plus TWO other units selected according to the co-major requirements

Year 2, Semester 2 *
NQB401 Spatial Analysis of Environmental Systems
NQB421 Experimental Design
Plus TWO other units selected according to the co-major requirements

Year 3, Semester 1 *
NQB501 Environmental Modelling
NQB502 Field Mapping and Monitoring of Natural Resources
Plus TWO other units selected according to the co-major requirements

Recommended Co-majors:
Biodiversity, Ecology, Geoscience

Year 3, Semester 2 *
NQB601 Sustainable Environmental Management
NQB602 Environmental Chemistry
Plus TWO other units selected according to the co-major requirements

* Elective Unit for all Majors:
SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Major in Forensic Science

Note: Must be taken as a double major with Biochemistry, Biotechnology, Chemistry or Microbiology

Year 1, Semester 1
SCB110 Science Concepts and Global Systems
SCB111 Chemistry 1
SCB112 Cellular Basis of Life
Plus ONE of:
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB104 Introductory Quantitative Methods
MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB104.
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.
3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.

4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 1, Semester 2

SCB121 Chemistry 2
SCB122 Cell and Molecular Biology
SCB123 Physical Science Applications
SCB131 Experimental Chemistry

Year 2, Semester 1

LQB383 Molecular and Cellular Regulation
SCB384 Crime Scene and Forensic Science
Plus TWO other units selected according to the second-major requirements

Year 2, Semester 2 *

JSB979 Forensic Scientific Evidence
PQB312 Analytical Chemistry for Scientists and Technologists
Plus TWO other units selected according to the second-major requirements

Year 3, Semester 1 *

PQB513 Instrumental Analysis
PQB584 Forensic Physical Evidence
Plus TWO other units selected according to the second-major requirements

Year 3, Semester 2 *

LQB680 Forensic DNA Profiling
PQB684 Forensic Analysis
Plus TWO other units selected according to the second-major requirements

* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Major in Geoscience

Year 1, Semester 1

SCB110 Science Concepts and Global Systems
SCB111 Chemistry 1
SCB112 Cellular Basis of Life
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1

MAB104 Introductory Quantitative Methods
MAB111 Mathematical Sciences 1B

NOTE: 1. Students without a Sound Achievement (4 semesters) in Maths B should enrol in MAB104.
2. Students with a Sound Achievement in Maths B and NOT wishing to major in Mathematics or Physics should enrol in MAB101.
3. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
4. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 1, Semester 2

NQB201 Planet Earth
NQB202 History of Life on Earth
SCB123 Physical Science Applications
SCB222 Exploration of the Universe

Year 2, Semester 1

NQB301 Soils and Sedimentation
NQB311 Mineralogy
Plus TWO other units selected according to the co-major requirements

Year 2, Semester 2 *

NQB411 Petrology
NQB412 Structural Geology and Field Methods
Plus TWO other units selected according to the co-major requirements

Year 3, Semester 1 *

NQB502 Field Mapping and Monitoring of Natural Resources
NQB512 Stratigraphy
NQB513 Geophysics
Plus ONE other unit selected according to the co-major requirements

Year 3, Semester 2 *

NQB602 Environmental Chemistry
Plus THREE other units selected according to the co-major requirements

Recommended Co-majors:

Applied Geology, Environmental Science, Physics

* Elective Unit for all Majors:

SCB500 Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.
### Course structure - Major in Mathematics (Applied Mathematics)

#### Year 1, Semester 1
- SCB110 Science Concepts and Global Systems
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life
- Plus either:
  - MAB100 Mathematical Sciences 1A
  - Or
  - MAB101 Statistical Data Analysis 1

#### Year 1, Semester 2
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- Select TWO units from the following:
  - MAB101 Statistical Data Analysis 1
  - MAB210 Statistical Modelling 1
  - MAB220 Computational Mathematics 1
  - PQB250 Mechanics and Electromagnetism
  - PQB251 Waves and Optics

#### Year 2, Semester 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- Plus TWO other units selected according to the co-major requirements

#### Year 2, Semester 2 *
- MAB413 Differential Equations
- MAB422 Mathematical Modelling
- Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 1 *
- MAB521 Applied Mathematics 3
- MAB672 Advanced Mathematical Modelling
- Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 2 *
- MAB613 Partial Differential Equations
  - Plus ONE level 3 mathematics unit
  - Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:
- Maths, Physics

* Elective Unit for all Majors:
- SCB500 Industry Project

**NOTE:** SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

### Course structure - Major in Mathematics (Financial and Operations Research)

#### Year 1, Semester 1
- SCB110 Science Concepts and Global Systems
- SCB111 Chemistry 1
- SCB112 Cellular Basis of Life
- Plus either:
  - MAB100 Mathematical Sciences 1A
  - Or
  - MAB101 Statistical Data Analysis 1

#### Year 1, Semester 2
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- Select TWO units from the following:
  - MAB101 Statistical Data Analysis 1
  - MAB210 Statistical Modelling 1
  - MAB220 Computational Mathematics 1
  - PQB250 Mechanics and Electromagnetism
  - PQB251 Waves and Optics

#### Year 2, Semester 1
- MAB311 Advanced Calculus
- MAB315 Operations Research 2
- Plus TWO other units selected according to the co-major requirements

#### Year 2, Semester 2 *
- EFB210 Finance 1
- MAB313 Mathematics of Finance
- Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 1 *
- MAB525 Operations Research 3A
- MAB533 Statistical Techniques
- Plus TWO other units selected according to the co-major requirements

#### Year 3, Semester 2 *
- MAB623 Financial Mathematics
- MAB625 Operations Research 3B
- Plus TWO other units selected according to the co-major requirements

### Recommended Co-majors:
- Maths

* Elective Unit for all Majors:
- SCB500 Industry Project
### Course structure - Major in Mathematics (Statistics)

LQB686  Microbial Technology and Immunology
LQB687  Applied Microbiology 2: Food and Quality Assurance

Plus TWO other units selected according to the co-major requirements

Recommended Co-majors:
Biochemistry, Biotechnology, Forensic Science, Life Science Technologies

Elective Unit for all Majors:
SCB500  Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Major in Physics

Year 1, Semester 1
SCB110  Science Concepts and Global Systems
SCB111  Chemistry 1
SCB112  Cellular Basis of Life
MAB100  Mathematical Sciences 1A
Or
MAB111  Mathematical Sciences 1B

NOTE:
1. Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.
2. Students without a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB100.

Year 2, Semester 1
MAB112  Mathematical Sciences 1C
PQB250  Mechanics and Electromagnetism
PQB251  Waves and Optics
MAB111  Mathematical Sciences 1B
Or
MAB220  Computational Mathematics 1

Year 2, Semester 2
MAB111  Mathematical Sciences 1B
PQB350  Thermodynamics of Solids and Gases

NOTE: Students with a Sound Achievement in Maths C and wishing to major in Mathematics or Physics should enrol in MAB111.

Year 2, Semester 2 *
PQB450  Energy Fields and Radiation
PQB451  Electronics and Instrumentation

Recommended Co-majors:
Astrophysics, Mathematics

Elective Unit for all Majors:
SCB500  Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.

Course structure - Co-major in Applied Geology
(Compatible with Geoscience Major only)

Year 1, Semester 1
Units as per Geoscience major

Year 2, Semester 1
Elective
Plus TWO other units selected according to the major requirements

Year 2, Semester 2
NQB401  Spatial Analysis of Environmental Systems
NQB614  Hydrogeology

Year 3, Semester 1
NQB511  Petrology and Geochemistry

Year 3, Semester 2
NQB611  Economic Geology
NQB612  Basin Analysis and Petroleum Geology
NQB613  Plate Tectonics and Advanced Structural Geology

Recommended Co-majors:
Astrophysics, Mathematics

Elective Unit for all Majors:
SCB500  Industry Project

NOTE: SCB500 Industry Project is a unit that will be offered as an elective in all majors. This unit requires 84 credit points of Level 2 and/or 3 Science units, so it may only be taken at the completion of Year 2 in Summer or during Year 3.
### Recommended Majors:

- **Co-major in Astrophysics** (Compatible with Physics major only)

  **Course structure - Co-major in Astrophysics**

  **Year 1, Semester 1**
  - Units as per Physics major

  **Year 1, Semester 2**
  - Units as per Physics major

  **Year 2, Semester 1**
  - PCB593 Digital Image Processing
  - PQB360 Global Energy Balance and Climate Change

  **Year 2, Semester 2**
  - PQB460 Astrophysics 1
  - Plus Elective

  **Year 3, Semester 1**
  - MAB312 Linear Algebra
  - Plus Elective

  **Year 3, Semester 2**
  - PQB661 Lasers and Photonics
  - Plus either:
    - MMB451 Energy Management
    - Or
    - PQB660 Astrophysics 2

### Recommended Majors:

- **Co-major in Biodiversity** (compatible with any Science major)

  **Course structure - Co-major in Biodiversity**

  **Year 1, Semester 1**
  - Units as per selected Major

  **Year 1, Semester 2**
  - Units as per selected Major

  **Year 2, Semester 1**
  - NQB322 Invertebrate Biology
  - NQB323 Vertebrate Biology

  **Year 2, Semester 2**
  - NQB401 Spatial Analysis of Environmental Systems
  - NQB423 Plant Biology

  **Year 3, Semester 1**
  - NQB522 Ecological Systems

  **Year 3, Semester 2**
  - NQB601 Sustainable Environmental Management
  - Or can be replaced by:
    - LQB489 Plant Physiology and Cell Biology
    - Plus Elective

### Recommended Majors:

- **Co-major in Chemistry for Industry** (compatible with Chemistry major only)

  **Course structure - Co-major in Chemistry for Industry**

  **Year 1, Semester 1**
  - Units as per Chemistry major

  **Year 1, Semester 2**
  - Units as per Chemistry major

  **Year 2, Semester 1**
  - PQB313 Analytical Chemistry for Industry
  - Plus Elective

  **Year 2, Semester 2**
  - PQB404 Nanotechnology and Nanoscience
  - PQB423 Process Principles

  **Year 3, Semester 1**
  - PQB513 Instrumental Analysis
  - PQB525 Unit Operations

  **Year 3, Semester 2**
  - PQB623 Chemistry in Industry and Technology
  - Plus Elective

### Recommended Majors:

- **Co-major in Life Science Technologies** (compatible with any Life Science major)

  **Course structure - Co-major in Life Science Technologies**

  **Year 1, Semester 1**
  - Units as per selected major

  **Year 1, Semester 2**
  - Units as per selected major

  **Year 2, Semester 1**
  - LQB388 Physiology 1
  - Plus either:
    - LQB383 Molecular and Cellular Regulation
    - Or
### LQB386 Microbial Structure and Function

**Year 2, Semester 2**
- LQB488 Physiology 2
- Or
- LQB489 Plant Physiology and Cell Biology

**Year 3, Semesters 1 and 2**
Select THREE units per semester from:
- LQB582 Biomedical Research Technologies
- LQB584 Medical Cell Biology
- LQB585 Plant Genetic Manipulation
- LQB588 Applied Physiology
- LQB681 Biochemical Research Skills
- LQB684 Medical Biotechnology
- LQB685 Plant Microbe Interactions
- LQB686 Microbial Technology and Immunology
  - Plus Elective (per semester)

### Recommended Majors:
This co-major is compatible with any Life Science major (i.e., Biochemistry, Biotechnology, Microbiology)

### Course structure - Co-major in Aviation (Subject to Timetable availability)

Suitable aviation studies (an approved Associate Diploma in aviation or equivalent) can be accepted as a co-major within the Bachelor of Applied Science course SC01. A total of 96 credit points can be credited for the aviation studies; this is based on 72 credit points for the co-major plus an additional 24 credit points generally required to underpin a co-major.

In the BAppSc with aviation, students can either (a) study for the BAppSc degree and the aviation Associate Diploma concurrently, or (b) obtain credit for the SC01 course for an approved Associate Diploma in aviation that had been completed prior to gaining entry to the SC01 course.

(a) Students who wish to study for the BAppSc and the aviation Associate Diploma concurrently are required to apply to an accredited flying school or TAFE college for entry to the Associate Diploma. The aviation studies are undertaken at the same time as the SC01 course. This joint program generally requires at least four years.

(b) Students who have already completed an approved Associate Diploma prior to admission to the SC01 course will be granted 96 credit points towards the BAppSc degree.

### Course structure - Co-major in Corporate IT Systems (Subject to Timetable availability)

**Year 1, Semester 1**
- Units as per selected major

**Year 1, Semester 2**
- Units as per selected major

**Years 2 and 3, Semester 1**
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB361 Socio-technical Systems
  - null

**Years 2 and 3, Semester 2**
- ITB002 IT Professional Studies
- ITB363 Project Management Practice

### Recommended Majors:
This co-major is recommended for any Science major

### Course structure - Co-major in Environmental Engineering Studies (Subject to Timetable availability)

**Year 1, Semester 1**
- Units as per selected major

**Year 1, Semester 2**
- Units as per selected major

**Years 2 and 3, Semester 1**
- ENB380 Environmental Law and Assessment
  - Plus TWO units in consultation with Course Coordinator

**Years 2 and 3, Semester 2**
- BEB200 Introducing Sustainability
- ENB274 Design of Environmentally Sustainable Systems
- ENB383 Environmental Resource Management

### Recommended Majors:
This co-major is recommended for any Science major

### Course structure - Co-major in Ethics and Human Rights (Subject to Timetable availability)

**Year 1, Semester 1**
- Units as per selected major

**Year 1, Semester 2**
- Units as per selected major

**Years 2 and 3, Semester 1**
- HHB114 Introduction To Human Rights And Ethics
- HHB270 Gene Technology And Ethics
- HHB272 Composing Identities: The Artistry Of Living

**Years 2 and 3, Semester 2**

**Potential Careers:**
Bachelor of Applied Science
(Carseldine First-year Experience Program) (SC01)

Year offered: 2008
Admissions: Yes
CRICOS code: 003502J
Course duration (full-time): 1st semester at Carseldine and then 5 semesters at Gardens Point
Course duration (part-time): 1 year at Carseldine and then 5 years at Gardens Point
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,206
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,206
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,206
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,206

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Megan Hargreaves
Discipline coordinator: Dr Habib Yezdani (Science Carseldine Coordinator); Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Serge Kokot (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gary Hufitile (Geoscience); Dr Scott McCue (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Carseldine

null

All major areas of study in the Bachelor of Applied Science are available at Gardens Point campus. However, the opportunity also exists for students to undertake Year 1 Semester 1 at Carseldine Campus.

The first year core units in the Bachelor of Applied Science develop a strong basis on which the more advanced units in each of the major areas of study are based. First year units include laboratory and fieldwork, with an emphasis on problem-solving through project work.

A relaxed bushland setting at Carseldine Campus provides an ideal environment for students to make the transition to university. Small class sizes, block teaching and access to computer-based information resources ensure that students have the opportunity to gain maximum advantage from QUT’s winning blend of theory and practice. On-campus parking is available and the campus is well serviced by bus and rail.

Upon successful completion of the first semester at Carseldine, students are transferred to Gardens Point campus to completed the course.

For further details of the major areas of study offered, see the Bachelor of Applied Science (SC01) course offered at Gardens Point Campus http://www.studentservices.qut.edu.au/pdfs/css_docs/SC01.pdf

Recommended Study:
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended; for the major in Mathematics - Maths C is recommended.

Major Areas of Study
Biochemistry:
Biochemistry is the study of the chemical processes that occur in living organisms including the chemical function, structure, behaviour and properties and energy flows. Biochemistry is an essential and very successful area of study for many practitioners in the life sciences industry. Biochemistry students at QUT gain both the theoretical knowledge to understand biochemical problems and formulate solutions, and the practical skills to carry out the necessary laboratory investigations that test these solutions for real-world application. Students gain hands-on practical laboratory experience from their first year of study.

Career Opportunities
Strong employment opportunities exist around the world in both the private and government sectors of industry for biochemists. QUT graduates skilled in biochemistry can find career opportunities in research, diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, veterinary pathology laboratories and in the area of marketing, sales, commercialisation and management of biological products and processes.

Professional Recognition
Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology, and possibly the Australasian Association of Clinical Biochemists.

Biotechnology:
Biotechnology is the application of molecular biology and biochemical principles to create a new generation of products and processes for the benefit of society. Biotechnology is one of the fastest growing areas of science and business in the world today. Modern biotechnology uses the techniques of genetic engineering to enable faster, cheaper and more reliable production of an ever-increasing range of engineered products. The integration of
biotechnology research into QUT Biotechnology courses ensures that you will receive access to the latest information and hands-on laboratory experience in contemporary molecular technologies. All students receive hands-on practical laboratory experience from your first year of study in Queensland’s newest biotechnology teaching laboratories.

**Career Opportunities**
Globally and locally the developing biotechnology industry demands highly skilled graduates. As a biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science, molecular farming and bioinformatics; while existing career opportunities in hospitals and diagnostic laboratories continue to expand.

**Professional Recognition**
Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, and possibly the Australian Society for Medical Research, and the Australian Society for Microbiology.

**Chemistry:**
Chemistry is the study of the structure, properties, synthesis and reactions of materials. Chemistry is one of the central sciences since its results are used in almost all areas of science - including life sciences, the environment, geosciences, biology, and food science. The Chemistry major at QUT allows you to gain an appreciation of the fundamental discipline - covering physical, organic and inorganic chemistry - but with an additional focus on modern applications such as drug discovery, analytical and environmental chemistry, polymer science and surface science. All theory is complemented with a comprehensive laboratory program, particularly with hands-on experience with modern computer-based analytical instruments.

**Career Opportunities**
Chemists are key professionals in industries that manufacture goods such as paints, paper, textiles, glass, plastics and rubber, metals and alloys, gases and fuels, foodstuffs and chemicals. Government agencies depend on chemists to develop and monitor standards for meat research, animal health pest control, preservation of timber, environmental chemistry, forensic analysis and coal chemistry. You can expect to find employment as an industrial chemist, material scientist, environmental chemist, quality control analyst, production supervisor, food chemist, organic chemist and inorganic chemist.

**Professional Recognition**
Students completing the Chemistry major with the Industrial Chemistry or Forensic Science co-major are eligible for membership of the Royal Australian Chemical Institute.

**Environmental Science:**
Environmental Science at QUT is the application of fundamental, core science disciplines to problems encountered in the management and understanding of our environment. Studies will allow you to gain both the strong scientific base and the generic skills to apply your scientific knowledge to a wide range of environmental problems. Rather than learning simply to describe the different environmental systems, you will gain an understanding of the mechanisms that control these systems, and the interaction between the various components. All environmental science units include laboratory and fieldwork with an emphasis on problem-solving through project work. You will be introduced to standardised methods and principles for environmental modelling and monitoring that can be applied across all disciplines.

**Career Opportunities**
Environmental scientists are needed in a wide variety of government departments and agencies, in consultancy and in manufacturing and mining companies. Graduates are equipped to assess resources, design and implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas including strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and development, rehabilitation and reforestation of contaminated land sites, groundwater assessment and modelling, waterway and floodplain drainage planning, erosion control in waterways, and marine science.

**Professional Recognition**
Graduates are eligible for membership of the Environment Institute of Australia and New Zealand.
Forensic Science
Forensic Science involves the application of chemical and biological principles and laboratory processes to identify and quantify matter within a legal context. Areas that are relevant to forensic science are wide ranging, and include: the detection and identification of illicit drugs, explosive and gunshot residues, accelerant used in arson cases, and trace evidence (eg paint, glass, fibres, soil); DNA profiling, where it is possible to distinguish between individuals on the basis of samples involving blood, saliva, hair or semen; toxicology studies to identify illicit and pharmaceutical drugs and poisons and interpret toxicity levels and their effect on the human body; and fingerprinting.

Career Opportunities
Employment opportunities exist for trained forensic scientists who work in laboratories handling criminal casework in areas including forensic biology, forensic chemistry, and forensic toxicology. QUT graduates in Forensic Science not only receive a strong grounding in core areas of both biological science and forensic chemistry but complement their major in Forensic Science with a full major in Biotechnology or Chemistry. This course structure gives QUT Forensic Science graduates an enhanced qualification for careers in either Forensic Biology or Forensic Chemistry. In addition, the second major adds flexibility to future career paths by enabling Forensic Science graduates to gain employment either as a chemist or a biotechnologist if they prefer.

Professional Recognition
Graduates who complete the Forensic Science major in conjunction with the Biotechnology major are eligible for membership of the Australian and New Zealand Forensic Science Society, AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology.

Graduates who complete the Forensic Science major in conjunction with the Chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society and the Royal Australian Chemical Institute.

Geoscience: Geoscience is the systematic study of the earth and the dynamic interactions of its systems. Geoscience incorporates a study of the materials of the earth, the natural processes acting in and upon the earth, and its history. The Geoscience major at QUT allows you to gain the skills needed to become a professional geologist and emphasises hands-on experience through laboratory work and field studies. It provides a broad range of geological skills as well as training in the specialist techniques required for field mapping and geological interpretation.

Career Opportunities
Geoscientists work in a range of areas including environmental geology, hydrogeology, hazard and pollution control, and coastal zone management. Employment opportunities exist within mining and exploration companies which may involve underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral deposits; petroleum companies working on offshore drilling rigs; and a variety of government organisations working as field geologists or research scientists. Other graduates work in computing, data modelling, and remote sensing. An honours degree is required by many employers, including the larger mining and exploration companies.

Professional Recognition
Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, and the Geological Society of Australia.

Mathematics:
This major concentrates on applied mathematics or financial mathematics and operations research or on statistics. Students who wish to cover a range of areas of mathematics should consider enrolling in MA54 Bachelor of Mathematics. This course focuses on applications and includes an emphasis on developing communication skills.

Career Opportunities
Mathematicians enjoy a wide range of career options, working for major corporations including banks and insurance companies, industry, information technology companies, consultancy groups, research organisations, universities, schools and various government departments. You will be able to use your mathematical and statistical techniques in analysis, modelling, experimental design and operations research. Employers value the generic skills also gained throughout the degree in problem-solving, analytical thinking, team and independent work, oral and written communication.

Professional Recognition
Graduates are eligible for membership of the Australian Mathematical Society, Australian Society for Operations Research and the Statistical Society of Australia.

Microbiology:
Microbiology is the study of living organisms of microscopic size. The principal components are bacteriology, virology and mycology, and areas of fundamental importance in the applied sciences of pathology and immunology. You will develop skills and knowledge in the handling and study of micro-organisms and investigation of their properties. Advanced studies allow you to expand your knowledge and expertise in your specialised area such as human pathology, animal and plant diseases, food technologies, environmental testing (soil, air and water) and bioremediation, and molecular applications of microbiological principles.

Career Opportunities
Microbiologists are employed in a variety of careers including human pathology testing in bacteriology, immunology, mycology, parasitology and virology, animal and plant disease, treatment of inorganic waste, food fermentations and microbiological testing of goods for pathogens or spoilage organisms, water and soil microbiology and research. Employment opportunities exist
in private and government research and analytical laboratories, such as the CSIRO, universities, hospitals, health departments, primary industry departments, food industry laboratories, environmental agencies, and in the marketing of biological products.

Professional Recognition
Graduates are eligible for membership of the Australian Society for Microbiology.

Physics:
Physics is the science discipline dealing with the natural laws and processes, with the states and properties of matter and energy. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and modern optics, computational physics, nuclear and radiation physics, quantum mechanics and relativity.

Career Opportunities
Physicists are an asset to almost every industry. They are broadly-educated professionals who are trained in applied and experimental physics, instrumentation and a range of other specific methods required for traditional and newly-developed avenues of scientific employment. QUT Physics graduates work in large manufacturing companies, often as members of research and development teams, supervising the testing and production of raw materials and finished articles. Increasing opportunities for graduates with appropriate studies exist in noise measurement and control, environmental monitoring, meteorology, lasers, computing, technical equipment sales, teaching and research. Graduates work in large hospitals and medical institutions such as the Queensland Radium Institute. Broad training in data analysis and problem-solving skills also makes physicists well suited to management roles in a range of technology-based industries.

Professional Recognition
Graduates are eligible for membership of the Australian Institute of Physics.

Co-Major Areas of Study

Applied Geology:
The Applied Geology co-major is designed to complement the Geoscience major. The skills learned through core units in the major are applied to activities related to the petroleum, mineral, hydrogeological and environmental professions. You will learn the specialist techniques required to understand the genesis of ore deposits, set up mineral exploration programs, produce groundwater models, understand the fluid flow in petroleum reservoirs or manage the effects of human activity on the environment.

Astrophysics:
The Astrophysics co-major is an exciting blend of astrophysics, geophysics, cosmology, digital image processing and remote sensing units, designed to be taken with a major in Physics, Mathematics or Geoscience. The co-major is relevant to many real-world problems, for example, satellite technology, telecommunications, minerals exploration and global warming. By taking this co-major you will develop interdisciplinary skills in computing, instrumentation, image processing, geodesy and materials science that will be useful for a wide variety of careers in industry and the public sector.

Biodiversity:
Biodiversity has evolved over the last few years as a discipline concerned with the conservation and sustainable use of the earth's biological diversity. It deals with the components of biological diversity, genes to biomes, and seeks to describe and quantify this diversity, and determine how it is produced and maintained. The Biodiversity co-major is designed to complement both the Ecology and Environmental Science majors. The theme of the co-major is Australian biodiversity. Common threads are the basic biology of the species in Australian ecosystems, the systems they are a part of, and the evolution of these species and ecosystems.

Chemistry for Industry:
The Industrial Chemistry co-major is designed to partner the Chemistry major. The emphasis is on analytical chemistry and chemical technology. It aims to familiarise students with state-of-the-art equipment and modern laboratory information systems as well as online monitoring and control of industrial processes. The co-major is well recognised by employers in industrial, hospital and sports laboratories, by food and pharmaceutical producers and by instrument manufacturers as well as research organisations. Graduates from this program can look forward to a rewarding career commencing employment as a chemist and then moving through an organisation in supervisory and managerial capacities. A number of industry-sponsored bursaries are available each year for students enrolled in the Chemistry major/Chemistry for Industry co-major.

Life Science Technologies:
The many and varied disciplines which are characteristic of research and development activities in the life sciences are reflected in employer demand for a broad range of graduates with different specialisations. To accommodate this demand a Biomolecular Sciences co-major is available in the Bachelor of Applied Science. In this co-major, students may compose a combination of six approved units from the Biotechnology, Biochemistry and Microbiology majors. You will benefit from a broad range of biomolecular theory and skills, closely aligned to personal interests, for application in an ever-increasing variety of niche employment opportunities.

Professional Recognition
For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists.
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

null

### Semester 1

- **MAB104** Introductory Quantitative Methods
- **SCB110** Science Concepts and Global Systems
- **SCB111** Chemistry 1
- **SCB112** Cellular Basis of Life

**NOTE:** If you have attained an SA or better in Maths B you should consult the course coordinator regarding what unit to enrol in instead of MAB104

### Potential Careers:

Bachelor of Applied Science & Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program (SC01 + SC60)

Year offered: 2008
Admissions: Yes
CRICOS code: 003502J

Course duration (full-time): 3 Years (plus initial summer term)

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $218 per credit point (subject to annual review)

Domestic fees (indicative): 2008: Full fee tuition $20,928

International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

International Entry: February: Fixed Closing Date- 30 November 2007. This course is only available to international students completing Year 12 in Australia.

QTAC code: 418042
Past rank cut-off: 99 plus successful interview. Please refer to Additional Entry Requirements.
Past OP cut-off: 1 plus successful interview. Please refer to Additional Entry Requirements.

Assumed knowledge: English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)

Total credit points: 384 [BAppSc 288 cp and BAppSc(Hons) 96 cp]

Course coordinator: Dr Dann Mallet

Discipline coordinator: Associate Professor John Aaskov (Life Sciences); Dr Scott McCue (Mathematics); Associate Professor David Gust (Natural Resource Sciences); Dr John McMurtrie (Physical and Chemical Sciences - Chemistry); Dr Dmitri Gramotnev (Physical and Chemical Sciences - Physics)

Campus: Gardens Point

null

The Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

Additional Entry Requirements

Successful interview.

Applications will be sent interview information by QUT Faculty of Science progressively from late October.

Fixed Closing Date

Applications for this program will close on 30 November.

Professional Recognition

As a graduate of the Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Scholarships

Students who are accepted into the Dean's Scholars Honours Program are eligible for a $9,000 scholarship paid over three years.

Career Outcomes

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following ten majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

Course Structure

As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the majors available through the Bachelor of Applied Science (SC01) course. You will also choose a co-major to accompany your major area of study.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

SCB301 Science for Dean's Scholars

An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

SCB303 Tutorial Program for Dean's Scholars

An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

SCB401 Research Methods for Dean's Scholars

The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

SCB501 Research Project for Dean's Scholars

An individually tailored research project is carried out under
the supervision of a research mentor.

Honours Program
Following the successful completion of the coursework and your initial research project in the first two years of the program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

Potential Careers:
Bachelor of Applied Science/Bachelor of Mathematics (SC20)

Year offered: 2008
Admissions: Yes
CRICOS code: 049434C
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $7,252

International Fees (per semester): 2008: $9,600 per semester (subject to annual review)

Domestic Entry: February
International Entry: February and July
QTAC code: 418712
Past OP cut-off: 76
Past OP cut-off: 12
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Associate Professor Graeme Pettet (Mathematics)

Campus: Gardens Point

Recommended Study
Maths C and knowledge of at least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended.

Career Opportunities
This four-year double degree provides students with the opportunity to integrate studies in a science area with mathematics. This combination will lead to enhanced job opportunities for graduates and also provide a very sound background for students proceeding to postgraduate research studies in either a science discipline or mathematics.

Mathematics is vital for much scientific research and it is also becoming increasingly important for employees in many science-based careers to have a good background in mathematics and statistics. There are many jobs advertised where employers are ideally looking for applicants with skills and knowledge in science and mathematics. Some examples are:

Natural resource management - obtaining an accurate estimate of fish populations and predicting sustainable fishing limits requires complex mathematical and statistical modelling

Agriculture management - from climate modelling down to the individual paddock level, the interaction between forecast crop yields and prices, crop and harvest scheduling and environmental impacts

Genetics - including gene sequencing and quantitative genetics

Chemistry and Biochemistry - operations research (scheduling) and quality management techniques benefit management of a chemical testing laboratory or chemicals business; computational and applied mathematics and scientific computation and visualisation relate to research areas such as drug design using combinatorial chemistry

Infection and disease control - uses statistics and mathematical modelling

Bioinformatics - involves analysing and modelling data arising in molecular biology, genome sequencing and gene networks

Developing new physical measurement and imaging techniques - needs applied and computational mathematics

Course Structure
Mathematics provides a very precise way of describing our world and activities within it. It is used to understand and formulate current knowledge, to develop new products and processes and to assist with predicting changes which may occur under various scenarios. Mathematical techniques are used extensively in conjunction with all areas of science.

Graduates will have well-developed analytical and problem-solving skills and also practical hands-on experience in the science area of their choice. They will have the ability to use mathematical and statistical techniques across a wide range of applications and to communicate effectively with others.

This four year double degree course integrates studies in one of the science majors with studies in mathematics. The science majors available are Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

The Mathematics component offers studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

Professional Recognition
Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available. For professional recognition relating to the science majors refer to Bachelor of Applied Science (SC01).

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Course structure**

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:

---

**Level 1 Units:**

Students must complete the following Level 1 Mathematics units:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

**Level 2 and 3 Mathematics Units:**

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:

Students must complete:

- MAB312 Linear Algebra

---

**Science Elective Units:**

The Mathematics unit (or units) normally undertaken in the first year of SC01 Bachelor of Applied Science is replaced by a Science elective unit (or units). This Science elective unit can be from any level. The level 2 Mathematics unit in the Physics major is replaced by a level 2 Science elective unit.

---

**Science Units: Biochemistry Major (Mandatory units)**

- **Year 1, Semester 1**
  - SCB111 Chemistry 1
  - SCB112 Cellular Basis of Life
  - TWO Mathematics Units

- **Year 2, Semester 1**
  - SCB120 Plant and Animal Physiology
  - SCB121 Chemistry 2
  - TWO Mathematics units

- **Year 3, Semester 1**
  - LQB381 Biochemistry: Structure and Function
  - LQB383 Molecular and Cellular Regulation
  - TWO Mathematics units

- **Year 4, Semester 1**
  - LQB581 Functional Biochemistry

---

**Course structure**

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:

---

**Level 1 Units:**

Students must complete the following Level 1 Mathematics units:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

**Level 2 and 3 Mathematics Units:**

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 Mathematics units:

Students must complete:

- MAB312 Linear Algebra

---

**Science Elective Units:**

The Mathematics unit (or units) normally undertaken in the first year of SC01 Bachelor of Applied Science is replaced by a Science elective unit (or units). This Science elective unit can be from any level. The level 2 Mathematics unit in the Physics major is replaced by a level 2 Science elective unit.

- Level 2
- Level 3

QUT HANDBOOK 2008 · Page 1708
If you add up the units required from Mathematics units (16) and the units required from Science Foundation units and the units needed for your Science major, you should have one or more units available to be taken as electives in order for the total number of units to total 32 (384 credit points). The number of electives will depend upon the major selected. These electives can be selected from Faculty of Science units - make sure you meet any prerequisites and don't take an incompatible unit. Some majors include alternative units and you could select an additional unit(s) from these.

Information on some possible elective units not previously mentioned in this document

Potential Careers:
Bachelor of Biomedical Science (SC40)

Year offered: 2008
Admissions: Yes
CRICOS code: 052768K
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2008: $218 per credit point (subject to annual review)
Domestic fees (indicative): 2008: Full fee tuition $20,928; CSP $6,728
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 418401
Past rank cut-off: 74
Past OP cut-off: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA), Maths B (4, SA) and Chemistry (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3864 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Catherine Dallemagne
Campus: Gardens Point

Career Opportunities
The Bachelor of Biomedical Science is a highly relevant and appropriate qualification for entry into postgraduate medicine. This course provides a solid foundation for the areas tested in GAMSAT, the entrance examination for postgraduate medicine. Many opportunities are also available for postgraduate study in science at QUT, including Honours and postgraduate courses in Life Sciences.

The Bachelor of Biomedical Science is also designed for students seeking a science-based qualification that will lead to career opportunities in medical biotechnology, medical microbiology, and clinical biochemistry fields.

Recommended Study
Biological Science is recommended.

Course Design
The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, physiology and cell biology, providing a solid knowledge base for GAMSAT. Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

Students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Professional Recognition
Depending on the subjects selected in the final year of the course, graduates will be eligible for membership of one or more of the following organisations: Australian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Microbiology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Fraser Ross
Campus: Gardens Point

Career Opportunities
Pharmacists are employed in a range of settings including community pharmacies, hospitals, industry, regulatory and research roles. Australia is currently experiencing a shortage of trained pharmacists, particularly in hospital and community pharmacies. You can expect your skills to be in demand as the QUT Bachelor of Pharmacy focuses on these aspects of the pharmacy profession. You will also be well prepared to undertake postgraduate studies in pharmacy related areas.

As the first professional contacted for advice about health, community pharmacists frequently play a major role as health educators. Hospital pharmacists may work closely with doctors in a patient-care role, evaluate newly released medicines, coordinate clinical trials, or prepare medicines for patients requiring specialised treatments.

Recommended Study
Biological Science is recommended.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design

The Bachelor of Pharmacy comprises four years of study in areas ranging from pharmacy practice, pharmaceutics, pharmacology, drug metabolism, physiology and chemistry. You will also undertake professional practice units in QUT’s on-campus dispensary and counselling facilities before embarking on a series of professional placements in hospitals and community pharmacy environments.

Special Course Requirements
Prior to undertaking hospital placements students must be vaccinated for hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity.

Professional Recognition
Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland. Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia (PSA), the Pharmacy Guild and the Society of Hospital Pharmacists of Australia (SHPA).

Why Choose this Course?
This course has been developed with significant input from pharmacists to incorporate latest practices and emerging trends. The inclusion of essential small business management skills will help you to operate effectively in your chosen setting.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.
## Course structure

### Year 1, Semester 1
- **MAB141**  Mathematics and Statistics for Medical Science
- **PYB007**  Interpersonal Processes and Skills
- **SCB112**  Cellular Basis of Life
- **SCB113**  Chemistry for Health and Medical Science

### Year 1, Semester 2
- **LSB255**  Human Anatomy
- **SCB122**  Cell and Molecular Biology
- **SCB131**  Experimental Chemistry
- **SCB208**  Introduction to Pharmacy Practice

### Year 2, Semester 1
- **LQB388**  Physiology 1
- **LSB325**  Biochemistry
- **SCB308**  Pharmacy Practice 1
- **SCB338**  Pharmaceutical Chemistry and Pharmacology 1

### Year 2, Semester 2
- **LQB488**  Physiology 2
- **SCB408**  Pharmacy Practice 2
- **SCB428**  Pharmacokinetics
- **SCB438**  Medicinal Chemistry and Pharmacology 2

### Year 3, Semester 1
- **LQB386**  Microbial Structure and Function
- **SCB508**  Pharmacy Practice 3
- **SCB528**  Pharmaceutics 1
- **SCB538**  Pharmacology 3

### Year 3, Semester 2
- **SCB608**  Pharmacy Practice 4
- **SCB628**  Pharmaceutics 2
- **SCB638**  Pharmacogenomics and Drug Metabolism
- **SCB648**  Pharmacotherapeutics 1

**NOTES:**
- Progression to Year 4 cannot occur before the successful completion of Years 1, 2 and 3.
- Year 4 requires enrolment in all four (4) units each semester.

### Year 4, Semester 1
- **SCB708**  Pharmacy Practice 5
- **SCB748**  Pharmacotherapeutics 2
- **SCB758**  Pharmacy Management 1
- **SCB768**  Professional Placements 1

### Year 4, Semester 2
- **SCB808**  Pharmacy Practice 6

**Potential Careers:**
Community Pharmacist, Hospital Pharmacist, Pharmaceutical Research Scientist.

International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Peter Mather
Discipline coordinator: Dr John Bartley (Chemistry); Dr David Hurwood (Ecology); Associate Professor Peter Mather (Environmental Science); Dr Gregg Webb (Geology); Associate Professor Terry Walsh (Life Science); Dr Troy Farrell (Mathematics); Dr Esa Jaatinen (Physics)
Campus: Gardens Point

Career Outcomes
The Bachelor of Applied Science (Honours) program is designed for graduates who have excelled in their degree from a recognised tertiary institution, with major studies in a relevant discipline. The course not only enhances your professional employability in your chosen discipline but also prepares you for a research career. The Honours qualification opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy and Master of Applied Science courses.

Entry Requirements
To be eligible for admission, you should have completed QUT's Bachelor of Applied Science or equivalent and should have attained a grade point average (GPA) of at least 5 (on a 7-point scale), including grades of at least 5 in all units directly relevant to the proposed Honours program. Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

If you do not satisfy the above conditions but who have demonstrated outstanding performance in only the final year of a degree, or your application is based on other factors including work experience or involvement in research, you may be admitted at the discretion of the Executive Dean of Faculty.

Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Statistics) may provide suitable entry to the program.

Course Structure
The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry. Majors are offered in Chemistry, Ecology, Environmental Science, Geology, Life Science, Mathematics and Physics.

Professional Recognition
Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Institute for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

Entry Requirements
To be eligible for admission, students should have completed one of the Faculty's Bachelor of Applied Science degrees (CH32, LS36, LS37, MA34, SC01 or SC30) or equivalent and should have attained a grade point average (GPA) of at least 5 on a 7-point scale over that degree, including grades of at least 5 in all units directly relevant to the proposed honours program. Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

Applicants who do not satisfy the above conditions but who have demonstrated outstanding performance in only the final year of a degree, or whose application is based on other factors including work experience or involvement in research, may be admitted at the discretion of the Dean of Faculty.

Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Engineering and Statistics) may provide suitable entry to the program.

Professional Recognition
Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd; Australian Institute of Geoscientists; Australian Institute of Physics; Australian Mathematical Society; Australian Society for Biochemistry and Molecular Biology; Australian Society for Medical Research; Australian Society for Microbiology; Ecological Society of Australia; Royal Australian Chemical Institute; Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

- MAN761 Analysis
- MAN764 Applied Mathematical Modelling
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN768 Advanced Techniques in Operations Research
- MAN769 Mathematics of Finance
null

Up to 12 credit points from the following lists can be included in the 60 credit points of electives:

- MAB522 Computational Mathematics 3
- MAB524 Statistical Inference
- MAB613 Partial Differential Equations
- MAB672 Advanced Mathematical Modelling
- MAN536 Time Series Analysis

Up to two units of a quantitative nature from another Faculty or School may be included with the permission of the Mathematics Coordinator. The unit(s) must be of honours level and relevant to the proposed program. Examples of suitable units are:

- EFN505 Financial Risk Management
- PCB706 Quantum Mechanics

The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

NOTE: Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

| PCN716      | Advanced Topics in Physics 2
| PCB708      | Advanced Topics in Physics 2

NOTE: PCB708 and PCN716 typically comprise two components chosen from atmospheric aerosol physics, classical mechanics, non-linear optics, quantum electrodynamics, advanced general relativity or aspects of units from the Masters in Medical Physics course.

Potential Careers:

Graduate Diploma in Applied Science (SC71)

Year offered: 2008
Admissions: Yes
CRICOS code: 020314E
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): Commonwealth Supported Place (subject to annual review)
Domestic fees (indicative): 2008: CSP $7,031
International Fees (per semester): 2008: $9,600 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Peter Mather
Discipline coordinator: Dr Geoffrey Will (Chemistry); Dr Mark O'Brien (Life Science); Dr Troy Farrell (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)
Campus: Gardens Point

Entry requirements
Applicants must possess a bachelor degree in applied science or equivalent qualification, or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

Course Design
This coursework program allows students to complete a minor project in some disciplines. The assessed coursework may include advanced lecture courses, seminars, reading courses or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course, and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Candidates of the Graduate Diploma in Applied Science undertake a program of coursework, or coursework and a minor research project, as approved by the Academic Board on the advice of the Head of School.

Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of coursework, and up to 36 credit points as a minor research project.

Coursework units will be selected from the specific units available within the Master of Applied Science (SC80) course and may contain units selected from other postgraduate courses or advanced undergraduate courses where the background of the student requires this.

Overview
This course offers students a one-year postgraduate qualification by coursework, or coursework and a minor research project. The course will particularly suit if students are employed in the industry and wish to undertake postgraduate study to upgrade their professional qualification in one of the science disciplines.

Discipline coordinator: Dr Geoffrey Will (Chemistry); Associate Professor Terry Walsh (Life Sciences); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)  
Campus: Gardens Point

Entry Requirement  
Applicants must possess a bachelor of applied science or equivalent qualification or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

Course Design  
This degree consists of coursework that can comprise up to one-third of the course and research, which must be at least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses, or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or its equivalent to candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

Overview  
The objectives of this course are to:

- provide postgraduate educational opportunities in specialised fields of applied science by means of a program that involves either an original contribution to knowledge or an original application of existing knowledge
- provide education in research methods
- enable graduates employed in industry to undertake further education by a combination of coursework, research and thesis
- expand the involvement of students employed in industrial organisations and external agencies in undertaking relatively short-duration applied research or investigation.

Students can undertake an approved project in any area of interest supported by a research area or school within the Faculty of Science. Please note that these areas of research specialisation are only a guide. Staff are happy to discuss study choices directly with students.

  and/or alternative unit(s) approved by the Physics coordinator

## Research Work
The Research Work component of the degree must constitute at least 128 credit points. The units below have been devised to represent the EFTSU (Effective Full-time Student Unit) and attendance type of graduate research students.

### Full-Time Students
The minimum number of credit points per semester for full-time status is 36. The standard number is 48. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to the degree rules.

### Full-Time Course Structure
- Full-time students undertaking research but no coursework units enrol in IFN100 Full-Time Masters Research
- IFN300 Masters Research  
- IFN301 Masters Research  
- IFN302 Masters Research  
- IFN303 Masters Research  
- IFN304 Masters Research

### Part-Time Students
The maximum number of credit points per semester for part-time status is 36. The standard number is 24. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to degree rules.

### Part-time Course Structure
- Part-time students undertaking research but no coursework units enrol in IFN200 Part-Time Masters Research
- IFN302 Masters Research  
- IFN303 Masters Research  
- IFN304 Masters Research

OVERVIEW

QUT International College (QUTIC), an integral part of QUT, offers a range of programs to assist international students to meet university entry requirements at QUT and other Australian universities. In addition, the College offers English Language Programs for students who wish to upgrade their English Language skills for work or other purposes.

The programs, designed to meet the different needs of international students, include English for Academic Purposes, General English, Foundation, University Diplomas, Bridging and Postgraduate Pathway Programs.

Students receive high quality tuition and support in small classes and excellent College facilities while at the same time enjoying the full use of all University facilities including libraries, student services, recreational and computer facilities.

SENIOR STAFF

Director, QUT International College: E. McDade, TDipCom Strathclyde, TCert Jordanhill, BEdSt Qld, MAcc C.Sturt

Director of Studies, University Entry Programs: S. Leisemann, DEd BA Qld, PGDip La Trobe, MBA Bond

Director of Studies, English Language Programs: I. McGregor, BA Griff, GradDipEd PGDipSocSc Qld, MEd (TESOL) NE

University Diploma in Business (BS40)

Year offered: 2008
Admissions: Yes
CRICOS code: 025282A
Course duration (full-time): 2 semesters
International Fees (per semester): 2008: $7,500 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Elizabeth McDade
Campus: Kelvin Grove

Abbreviation
UnivDipBus

Entry Requirements - Academic
Successful completion of senior high school with the required grades. Students can find more detailed country specific entry requirements at the following web site:
http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The University Diploma in Business, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Business. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Business. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low Pass) in the remaining unit.

Progression
Requirements for progression to the second year of QUT Bachelor of Business:

i) fulfil the Diploma course requirements,
ii) a minimum Grade Point Average (GPA) of 4, and
iii) an IELTS score of 6.5 or its equivalent.

Entry Requirements - Academic
Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site:
http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The University Diploma in Professional Communication, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Mass Communication and a range of Creative Industries degrees (see list below). In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Student who successfully complete the University Diploma in Professional Communication earn full academic credit for eight units, and articulate to the second year of their chosen degree, except for Bachelor of Fine Art (Film and Television) for which one semester credit only is awarded. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in at least seven units and a grade of 3 (Low Pass) in the remaining unit.

Progression
Requirements for a guaranteed place in the second year of the following QUT Bachelors degrees:

i) fulfill the University Diploma course requirements,

ii) an IELTS score of 6.5 or its equivalent,

iii) achieve a minimum Grade Point Average (GPA) as detailed below for the following course:

Grade Point Average of at least 4 for:
Bachelor of Mass Communication
Bachelor of Creative Industries (Interdisciplinary Studies)

Grade Point Average of at least 4.5 for:
Bachelor of Creative Industries (Media and Communication)
Bachelor of Creative Industries (Creative Writing)
Bachelor of Journalism

Grade Point Average of at least 5.0 for:
Bachelor of Creative Industries (Communication Design)
Bachelor for Fine Arts (Film and Television)*

*Please note that students articulating to Bachelor of Fine Arts (Film and Television) will only receive 1 semester of credit.

IT10 - University Diploma in InfoTech (Full-time course)
**Foundation Program (1 Semester) (QC01)**

**Year offered:** 2008  
**Admissions:** Yes  
**CRICOS code:** 003287M  
**Course duration (full-time):** 1 semester  
**International Fees (per semester):** 2008: $7,000 per semester (subject to annual review)  
**International Entry:** February, June and October  
**Total credit points:** 60  
**Course coordinator:** Scott Leisemann  
**Campus:** Kelvin Grove

**Entry Requirements - Academic**
Successful completion of senior high school with the required grades.  
Students who have attempted further schooling studies, eg GCE A-levels or equivalent may be considered for entry. Applications will be reviewed individually and applicants will need to meet subject prerequisites. Students can find more country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

**Entry Requirements - English Language**
IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

**Description**
The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

**Progression**
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfill the Foundation course requirements,  
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and  
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

**Course completion**
Students are required to gain at least a grade of 4 (Pass) in four units and a grade of 3 (Low Pass) in the remaining unit.

**Required Foundation Grade Point Average by Faculty**
- Built Environment - Required GPA 4.6  
- Business - Required GPA 4.8  
- Creative Industries - Required GPA 4.4  
- Education - Required GPA 4.6  
- Engineering (except Aerospace Avionics) - Required GPA 4.6  
- Engineering - Aerospace Avionics - Required GPA 5.8  
- Health - Human Services - Required GPA 4.2  
- Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6  
- Health - Nutrition & Dietetics - Required GPA 5.8  
- Health - Optometry - Required GPA 5.8  
- Health - Podiatry - Required GPA 5.8  
- Health - Psychology - Required GPA 5.0  
- Information Technology - Required GPA 4.8

Foundation Program (2 Semesters)  
(QC02)

Year offered: 2008  
Admissions: Yes  
CRICOS code: 003287M  
Course duration (full-time): 2 semesters  
International Fees (per semester): 2008: $7,000 per semester (subject to annual review)  
International Entry: February, June and October  
Total credit points: 120  
Standard credit points per full-time semester: 60  
Course coordinator: Scott Leisemann  
Campus: Kelvin Grove

Entry Requirements-Academic

Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language

IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description

The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their final semester for possible credit towards their degree course.

Course Completion

In order to complete course requirements, students must gain at least a grade of 4 (Pass) in nine units and one grade of 3 (Low Pass) in the remaining unit.

Required Foundation Grade Point Average by Faculty

Built Environment - Required GPA 4.6  
Business - Required GPA 4.8  
Creative Industries - Required GPA 4.4  
Education - Required GPA 4.6  
Engineering (except Aerospace Avionics) - Required GPA 4.6  
Engineering - Aerospace Avionics - Required GPA 5.8  
Health - Human Services - Required GPA 4.2  
Health (except Nutrition & Dietetics, Optometry, Psychology, Podiatry & Human Services) - Required GPA 4.6  
Health - Nutrition & Dietetics - Required GPA 5.8  
Health - Optometry - Required GPA 5.8  
Health - Podiatry - Required GPA 5.8  
Health - Psychology - Required GPA 5.0  
Information Technology - Required GPA 4.8  
Law (except Justice Studies) - Required GPA 4.8  
Law - Justice Studies - Required GPA 4.2  
Science (except Pharmacy & Medical Imaging Technology) - Required GPA 4.6  
Science - Pharmacy & Medical Imaging Technology - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Progression

Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfil the Foundation course requirements,  
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and  
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Bridging Program (QC03)

Year offered: 2008
Admissions: Yes
CRICOS code: 003518A
Course duration (full-time): 1 semester
International Fees (per semester): 2008: $7,000 per semester (subject to annual review)
International Entry: February, July and October
Total credit points: 48
Standard credit points per full-time semester: 48
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

Entry Requirements - English Language
IELTS 6.0 with no sub-score less than 5.0 or TOEFL iBT Overall score of 80 (at least 18 in all bands) or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description
This program provides two alternative streams. Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in a Bridging program. Those with advanced standing may be able to undertake two degree units. Stream B is for students who have met English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the Bridging Program. Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Course Completion
Students undertaking three Bridging units must obtain at least a grade of 4 (Pass) in two units and a grade of 3 (Low Pass) in the remaining unit.

Students undertaking two Bridging units must obtain at least a grade of 4 (Pass) in one unit and a grade of 3 (Low Pass) in the remaining unit.

Progression
In order to progress to an award course, students must:

i) fulfill the Bridging course requirements
ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
iii) meet any other conditions detailed in the 'letter of offer' from International Student Business Services.

Extended Foundation Program (3 Semesters) (QC04)

Year offered: 2008
Admissions: Yes
CRICOS code: 050167G
Course duration (full-time): 3 Semesters
International Fees (per semester): 2008: $15,400 (full course fee) (subject to annual review)
International Entry: February
Total credit points: 132
Standard credit points per full-time semester: 13TP1 - 48CP, 13TP2 - 60CP, 13TP3 - 24CP
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 5.5 with no sub-score less than 5.0 or TOEFL iBT Overall score of 69 (at least 18 in writing and reading and 17 or more in listening and speaking) or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Extended Foundation Program (QC04), which has an intake in February, provides pathways to QUT award programs (Diploma or Degree). This pathway is designed for students who require additional support with language and adjustment to the Australian educational environment. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their second semester for credit towards their degree course.

Course Completion
In order to complete the course requirements, students must gain at least a grade of 4 (Pass) in ten units, one grade of 3 (Low Pass), and a S (Satisfactory) in Foundation English.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfill the Foundation course requirements,
ii) gain a grade of at least 5 (Credit) in Academic English 2 (QCF212) [Built Environment and Engineering students require a grade of 4 (Pass) and SC45 Bachelor of Pharmacy and PH38 Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) students require a grade of 6 (Distinction)], and
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty
Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering (except Aerospace Avionics) - Required GPA 4.6
Engineering - Aerospace Avionics - Required GPA 5.8

CRICOS code: 011424G
Course duration (full-time): 12 weeks
International Fees (per semester): 2008: $3,840 per 12 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: March, July and October (dates are designed to allow entry to selected semester of next course)
Total credit points: 48
Course coordinator: John Healy
Campus: Kelvin Grove

Entry Requirements - Academic
To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or
2. Produce original documentary evidence of an IELTS score of a minimum 5.5 with no sub-score less than 5.0 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Description
The aim of the EAP course is to assist international students to upgrade their English proficiency level to meet university entry requirements. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

Course Completion
To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression
Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

General English (QC20)

Year offered: 2008
Admissions: Yes
CRICOS code: 062077K
Course duration (full-time): 5 weeks
International Fees (per semester): 2008: $1,600 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: 9 entry dates per year.
Total credit points: 20
Course coordinator: Ian Davies (ip.davies@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
Students should check visa requirements in relation to English entry levels.

Description
This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see http://www.qutic.qut.edu.au/about/entrydates/calendars.jsp

Course Completion
On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

Progression
Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

QC20 - General English

| General English |
|-----------------|------------------|
| QCE001          | General English (Full-time) |
|                 | While specific content varies according to level, broadly the course consists of: |
|                 | English Language Structures & Systems |
|                 | Grammar |
|                 | Vocabulary |
|                 | Integrated Skills Development (reading, writing, speaking, listening) |
General English Extension (QC21)

Year offered: 2008
Admissions: Yes
Course duration (full-time): 5 weeks
International Fees (per semester): 2008: $1,600 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: Every 5 weeks
Total credit points: 20
Course coordinator: Ian Davies (ip.davies@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
Students should check visa requirements in relation to English entry levels.

This course is for students enrolled in QC20 General English and wishes to continue their enrolment in General English.

Description
This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks - for entry dates please see http://www.qtic.qut.edu.au/about/entrydates/calendars.jsp

Course Completion
On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

Progression
Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

English for Tertiary Preparation (QC22)

Year offered: 2008
Admissions: Yes
CRICOS code: 045062C
Course duration (full-time): 2 weeks
International Fees (per semester): 2008: $640 + $100 non-refundable enrolment fee (subject to annual review)
International Entry: February, June and October
Total credit points: 8
Course coordinator: Michael Miller (mj.miller@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements

Academic requirements:
An offer of acceptance for a QUT Foundation or University Diploma course.

English requirements:
An IELTS score of at least 5.5 (with sub-scores of at least 5.0) or approved equivalent.

Description

The course aims to enhance the English language proficiency of students who already meet the IELTS requirements for their Foundation or University Diploma Program. ETP teaches and practices academic writing, reading, listening and speaking.

The course assists students with the adjustment to studying at an Australian university.

Course Completion

On completion of the course, students will receive a Completion and Attendance Certificate.

Cambridge First Certificate in English
Preparation course - International
(QC25)
Year offered: 2008
Admissions: Yes
CRICOS code: 053950D
Course duration (full-time): 12 weeks
International Fees (per semester): 2008: $3,840 (tuition only) (subject to annual review)
International Entry: March and September (dates are designed to allow students to undertake the Cambridge First Certificate in English examination)
Course coordinator: Michael Miller (mj.miller@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
External students are required to either have an IELTS score of 5.0; TOEFL 500 (paper) or 173 (computer); TWE (3); or approved equivalent. All external students are also required to take a Placement Test administered on their first day at the QUT International College. Internal students are required to have successfully completed the Intermediate level of General English and to successfully complete the Placement Test.

Description
This course is designed to prepare candidates for the Cambridge FCE examination. Course duration is 12 weeks and comprises 25 hours tuition per week. This intensive course focuses on speaking, listening, reading and writing skills, and use of English. It also pays particular attention to FCE examination strategies and skills.

Cost of the program includes tuition, examination fee, textbook, workbook and practice test book.

Course Completion
On completion of the course, students will receive a certificate of completion.

QC25 - Cambridge First Certificate in English
Preparation course - International
University Wide Unit Sets

University wide unit sets

Unit sets: Accounting and Economics
Unit sets: Advertising, Marketing and Public Relations
Unit sets: Communication
Unit sets: Corporate Systems
Unit sets: Creative Industries
Unit sets: Environmental Studies
Unit sets: Health and Psychology

PREREQUISITE AND COREQUISITE UNITS
For definitions of the terms prerequisite and corequisite unit(s), refer to Rule 12 of the Student Rules section.

Disclaimer
Some schools have indicated the availability of their units for semester 1 (1), semester 2 (2), or Summer Program (3). These indications are preliminary only and are subject to change.
ADB004 Architectural Design 4  
Design theory: physical context, landscape, social context, ethics and values. This unit involves the integration of contextual studies and of technology, specifically building construction, design for climate. Projects are generally of domestic scale.  
Prerequisite(s): ADB003  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

ADB005 Architectural Design 5  
Design theory, sustainability, sociological and contextual concerns related to particular design problems. The unit often includes a 'community service' project, generally a collaborative, participatory design with selected community groups as 'client'.  
Prerequisite(s): ADB004  Corequisite(s): ADB913  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

ADB006 Architectural Design 6  
This unit includes design theory, urban sustainability, sociological and contextual concerns related to particular design problems.  
Prerequisite(s): ADB005  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

ADB007 Architectural Design 7  
The content of the unit is project-dependent.  
Prerequisite(s): ADB006  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ADB008 Architectural Design 8  
The content of the unit is project-dependent.  
Prerequisite(s): ADB007  Corequisite(s): ADB026  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ADB009 Architectural Design 9  
Design projects and associated lectures and presentations relevant to developing the unit objectives. A high degree of resolution is expected in design projects in intellectual conceptualisation and strategy, spatial organisation, form, detail and technical understanding. Building economics, services, construction technology, theory and critical analysis will be integrated into the unit.  
Prerequisite(s): ADB008  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ADB012 Contextual Studies 2  
Australian and Oceanic architecture is examined from pre-European settlement times to the present. The work is looked at in the context of European and American influences and the Asian-Oceanic context. The examples are studied in relation to broad social, historical and aesthetic backgrounds. Course work will include an introduction to research of local architectural history, and visits to key buildings.  
Prerequisite(s): ADB011  Credit points: 12  Contact hours: 2 per week  Campus: Gardens Point

ADB013 Contextual Studies 3  
This unit looks at the architectural traditions of the diverse cultures of Asia and urban history. The course examines how traditional architecture is shaped by culture and society. It focuses on the geographic regions of the orient including China, Japan and Korea and that of South Asia including India, Nepal and Sri Lanka. Design of cities across geographic regions, including Europe, America, Australia and Asia are studied from an historical and contemporary perspective to understand city form, culture, politics, economics and function, ecology and sustainability.  
Prerequisite(s): ADB012  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ADB014 Contextual Studies 4  
Contemporary Thinking and Architectural Culture. This unit aims to consolidate for students a theoretical contemporary framework in which to locate key moments in contemporary architectural and cultural production from diverse contexts. It introduces students to contemporary debates and endeavour to de-mystify the language of contemporary architectural ideas and aesthetics in order to promote self-directed interest in contemporary theory and criticism.  
Prerequisite(s): ADB013  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

ADB024 Technology and Science 4  
This unit addresses building construction. It includes an overview of construction systems used in low to medium rise industrial and commercial buildings and an overview of structural considerations in steel and reinforced concrete structural systems.  
Prerequisite(s): ADB023  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

ADB025 Technology and Science 5  
This unit addresses building construction. It includes an overview of construction systems used in medium to high-rise commercial buildings, including analysis of principles, advantages, disadvantages and details of such systems. It also includes an integrated overview of medium to high-rise building services including hydraulics, lighting, electrical services, mechanical equipment and vertical transportation.  
Prerequisite(s): ADB024  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

ADB026 Technology and Science 6  
The topics in this unit include a case study of the building type being studied in ADB007, working with engineering consultants, and the programming of work.  
Prerequisite(s): ADB025  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

ADB031 Professional Studies 1  
This unit includes theory and some estimating and specifications techniques. The theory includes an analysis of various concepts of professionalism, characteristics of professions, and a discussion of various contemporary critiques of architectural practice. Estimating involves choice
of technique, accuracy, square and cube rates, cost control, feasibility, and quantity surveying. The role of specification is included.

**ADB033 Professional Studies 3**
This is a self-paced national course (BPA 2) prepared by the Royal Australian Institute of Architects as a Continuing Education program which will attract certification from the RAIA. The course covers ethical, administrative and management issues in relation to architectural practice. **Prerequisite(s): ADB932**

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**ADB051 Architectural Research 1**
This unit provides students with an overview of research methodology. Students examine the differences between various research methods and product. A number of issues are addressed in the elected area of research including definition of study area, research aims and objectives, initial proposition, structuring research approach, analysis, and preliminary conclusions based on the literature review. **Prerequisite(s):** ADB051  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**ADB052 Architectural Research 2**
Students continue their studies on an approved topic commenced in Architectural Research 1. By means of a thesis presentation, students demonstrate their ability to define and logically argue propositions, and to conduct research to prove its validity by means of a well-constructed research project that includes critical analysis. **Prerequisite(s):** ADB051  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**ADB053 Architectural Project**
The major project, selected by students and approved by the unit coordinator, will have a focus work study that demonstrates the particular skills and interests of the individual. This work should be completed to a highly developed and resolved standard. **Prerequisite(s):** ADB009, ADB067  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**ADB065 Architectural Applications 5**
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation. **Prerequisite(s):** ADB064  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**ADB066 Architectural Applications 6**
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation. **Prerequisite(s):** ADB065  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**ADB067 Elective Architectural Applications**
This unit provides an opportunity for students to develop and strengthen areas of interest in a program of their choice, to be approved by the Course Coordinator. For example, it may be used to develop the Architectural Research 2 program to the presentation of a dissertation or enhance knowledge and skills in other subject areas. **Prerequisite(s):** ADB932

**Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**ADB105 Interior Design 5**
This unit includes the following areas of study: designing as practice; a critical approach to design and designing; tools for fostering alternative ways of thinking and imagining; person-environment relationships and interaction; the work of national and international designers; future scenarios. **Prerequisite(s):** ADB104  **Corequisite(s):** ADB125

**Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Gardens Point

**ADB106 Interior Design 6**
The content covered in this unit includes major aspects covered in the course to date and content identified by the student as significant in their response to the project. **Prerequisite(s):** ADB105  **Corequisite(s):** ADB126

**Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Gardens Point

**ADB125 Interior Technology 4**
This unit includes the following topics: theoretical analysis of interior construction and materials; analysis of partition and furniture systems; comparative analysis of building types; CAD documentation; basic estimating and quoting; introductory specification writing. **Prerequisite(s):** ADB124  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point

**ADB126 Interior Technology 5**
This unit includes the following topics: documentation; critical investigation of interior construction processes; environmental system analysis; the interface with consultants, builders and contractors; leasing and other tenancy occupation issues. **Prerequisite(s):** ADB125  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point

**ADB133 Design in Society 2**
Issues covered in this unit include the following: the current context of the contemporary Australian interior designer; theoretical perspectives and exploration of their limitations and potential; relevant legal issues, ethics and professionalism. **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**ADB154 Furniture Studies**
This unit addresses the following topics: a focus on visual cues, psychological responses and other interaction factors through an historical analysis of the role of furniture design; furniture and contemporary and future trends; furniture design and documentation approaches. **Credit points:** 12  **Contact hours:** 3 hours per week  **Campus:** Gardens Point
ADB205 Industrial Design 3
The studio exercises to which most of the time is devoted in this unit aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; working with an industry client; interdisciplinary teamwork; design ethics and culture; the designer's responsibilities toward the environment. 
Prerequisite(s): ADB204 
Credit points: 12 
Contact hours: 6 per week 
Campus: Gardens Point

ADB206 Industrial Design 4
The studio exercises in this unit aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; work with an industry client; interdisciplinary teamwork; design ethics and culture; designer's responsibilities toward the environment. 
Prerequisite(s): ADB205 
Corequisite(s): ADB226, ADB236 
Credit points: 12 
Contact hours: 6 per week 
Campus: Gardens Point

ADB226 Industrial Design History Theory and Criticism 2
This unit addresses the following topics: product evolution; Australian inventions; contemporary design; social and cultural changes influenced by design; design and politics; ideology of industrialisation; the meaning of products; designers' responsibilities toward the users and environment; design activity and design knowledge. 
Prerequisite(s): ADB224 
Corequisite(s): ADB206 
Credit points: 12 
Contact hours: 3 per week 
Campus: Gardens Point

ADB235 Manufacturing Technology 3
This unit addresses the following topics: product analysis; product development strategies; industrial production economics; organisation, planning and technologies required for advanced manufacturing and its impact to product design solutions. 
Prerequisite(s): ADB234 
Credit points: 12 
Contact hours: 4 per week 
Campus: Gardens Point

ADB236 Manufacturing Technology 4
This unit addresses value analysis, technical documentation and communication. Field studies complement the lecture series. 
Prerequisite(s): ADB235 
Corequisite(s): ADB206 
Credit points: 12 
Contact hours: 4 per week 
Campus: Gardens Point

ADB245 Computer Aided Industrial Design 2
This unit addresses the following topics: introduction to 3D surface modelling concepts for complex form development and documentation; introduction to NURBS based surface modelling; case studies on CAID as applied to industrial design; application of complex 3D Surface modelling techniques, as applied to design form evaluations and form refinement using rapid prototyping; further development of shading techniques; advanced animation; design documentation. 
Prerequisite(s): ADB244 
Credit points: 12 
Contact hours: 3 per week 
Campus: Gardens Point

ADB795-1 Practice Experience A
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points. 
Credit points: 18 
Campus: Gardens Point 
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ADB795-2 Practice Experience A
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points. 
Credit points: 18 
Campus: Gardens Point 
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ADB796-1 Practice Experience B
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points. 
Credit points: 30 
Campus: Gardens Point 
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ADB796-2 Practice Experience B
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points. 
Credit points: 30 
Campus: Gardens Point 
Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

ADB912 Human Environment 3
This unit addresses the following topics: theories of cultural development and social change; consideration of the role of designed artefacts in those processes; political and social theories pertaining to design and development of the built environment; contemporary theories of post-industrialism, post-colonialism and multiculturalism; implications for design for the built environment; the roles and responsibilities of design professionals, historically and in contemporary society. 
Prerequisite(s): ADB912 
Credit points: 12 
Contact hours: 3 per week 
Campus: Gardens Point

ADB932 Professional Studies 2
This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIA certification.
UNIT SYNOPSES

Prerequisite(s): ADB031 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ADB941 Elective 1
The student will choose elective units to extend and expand an area of knowledge or experience to develop in depth a particular professional expertise. These units may be drawn from an existing range of units available within the School. The electives are to be approved by the Course Coordinator.
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

ADB942 Elective 2
The student will choose elective units to extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. These units may be drawn from an existing range of units available within the School, Faculty or University. The electives are to be approved by the Course Coordinator.
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

ADB943 Elective 3
Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. Units may be drawn from an existing range of units available within the University and must be approved by the Course Coordinator.
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

ADB944 Elective 4
Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. Units may be drawn from an existing range of units available within the University and must be approved by the Course Coordinator.
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

ADP107 Interior Design 7
This unit provides students with the opportunity to pursue a topic of personal and professional relevance in consultation with staff. The topic will form the focus of a major design/research project incorporating this unit and ADB108. The unit covers topic identification, qualification and substantiation, context exploration, and consolidation.
Corequisite(s): ADP161 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ADP108 Interior Design 8
This unit provides students with the opportunity to develop an in-depth understanding of an area of interior design of personal and professional relevance in consultation with staff. The unit covers project development and the exploration of associated issues.
Prerequisite(s): ADB107 Corequisite(s): ADP162 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ADP114 Professional Studies 1
This unit addresses the following topics: the interior design profession, its organisation and theoretical and practical relationship with other professions and disciplines; professionalism incorporating ethics, industry product safety standards and continuing education; specific responsibilities involving brief development; post-occupancy evaluation.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ADP155 Interior as a Construct 1
Designers require a deep conceptual understanding of the relationship between artefact and culture and they need a vehicle for supporting this development. The focus in this unit is on the conservation of historic interiors and includes: historic interior exemplars; social and cultural identity; conservation; preservation and restoration; relevant charters and policies.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ADP156 Interior as a Construct 2
In this unit, stage design will be used as a frame-of-reference for exploring various aspects of person-environment interaction such as play and imagining. In addition, the unit provides a basis for exploring notions of temporary, transitory space and virtual reality.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ADP161 Interior Research 1
This unit provides methodological support for the major project in ADP107. It includes the following: empirical research with an emphasis on qualitative research relevant to person-environment interaction; research rigour incorporating attention to validity, reliability and generalisation; advanced information retrieval; literature search and review.
Corequisite(s): ADP107 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-1

ADP162 Interior Research 2
This unit provides methodological support for the major project in ADP108. The ability to undertake empirical research is considered an integral aspect of responsible designing. The unit content covers data collection, analysis and reporting.
Corequisite(s): ADP108 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2008 SEM-2

ADP207 Industrial Design 5
The studio exercises to which most of the time is devoted in this unit aim to the design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters, including the following: design process and creative thinking; applied research, creativity and product innovation; work with a client; multidisciplinary teamwork; product integration and development; design ethics and culture; the designer's responsibilities toward the environment.

**AMB200 Consumer Behaviour**

This unit provides students with the fundamental theories and models to develop a sound understanding of consumers, their needs, and behaviours. It provides a detailed examination of the consumer decision process and the internal and external influences on this core decision process. The unit also assists students in applying this knowledge to the development, implementation and evaluation of marketing activities within an organisation.

**Prerequisite(s):** BSB126 or BSB116 or BSB117 or CTB126

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** MIB204 or CTB200

**AMB201 Marketing and Audience Research**

This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey and experimental research are employed to support advertising, marketing and public relations. The unit provides an overview of research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.

**Prerequisite(s):** BSB126 or BSB116 or BSB117 or CTB126

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** MIB305, MGB220 or COB334 or CTB201
AMB202 Integrated Marketing Communication
In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a 'total' approach to planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.

Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB207, MIB309

AMB203 Independent Study
An opportunity for advanced level undergraduate students to undertake individual research in an area which is complementary to their course work.

Prerequisite(s): Prior approval from the Head of School
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Incompatible with: COB206

AMB204 Purchasing and Procurement
This unit examines the nature and importance of Procurement in the role of business today. Procurement has become increasingly important and valued by organisations that are part of global supply chains. The management and strategic control of procurement functions in modern businesses adds profit through cost control in businesses and that has gained significance in the drive to maintain profit in internationally competitive markets. Modern procurement professionals require the use of many skills to achieve these outcomes and this unit introduces students to the functions of purchasing and procurement in an organisation.

Prerequisite(s): BSB119 or CTB119 and BSB126 or CTB126  Credit points: 12  Teaching period: 2008 SEM-1  Incompatible with: IBB312

AMB220 Advertising Theory and Practice
This unit serves as an introduction to later units in the advertising major and gives learners an overview of the advertising industry and the management of the advertising function. The unit traverses the interrelationship of the institutions of advertising, the advertisers, the advertising agencies and the media. It introduces research and details methods of determining advertising objectives, budgets, establishing target audiences, interpreting audience ratings and circulation figures, and enables learners to gain a preliminary understanding of the creative functions of the advertising industry. It also shows the ethical and legal side of advertising and its important role in society and the economy.

Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126 or 48 credit points of approved prior study for non-Bachelor of Business students only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB208

AMB221 Advertising Copywriting
There are two parts to any copywriting process the thinking and the writing. In the first part, students learn to solve advertising problems through an understanding of the prospect and the product and the formulation of incisive creative strategy. In the second part, creative thinking techniques are applied and advertising concepts emerge from the creative strategy. Students' thinking and writing skills are refined in weekly workshops and culminate in a group project.

Prerequisite(s): AMB220 or COB308  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB304

AMB222 Media Planning
This unit introduces the qualitative and quantitative factors affecting media selection and use by advertisers. It covers the costing and scheduling of media, market targeting, measuring media exposure, media comparisons and trends. In-depth analysis of advertising media will allow learners to develop an understanding of the characteristics of each. The application of the concepts of media decision making, media strategy and research to the development of a media plan are emphasised.

Prerequisite(s): AMB220  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB317

AMB230 Internet Promotion
This subject addresses an important area of business activity and explores the way in which the Internet is changing marketing practice. The foundations of promotion are examined and applied online. The nature, history, and social implications of the Internet are explored. The promotional mix is analysed with a strong focus on developing successfully integrated web sites for organisations. Learners will develop skills in strategic planning, creative strategy, design, web development as it relates to advertising and promotion, research, and campaign evaluation. Learners will gain important skills in the planning, developing and marketing of websites.

Prerequisite(s): BSB112 and BSB117; or BSB126 or CTB126; or 48 credit points of approved prior study for non-Business students only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB218

AMB240 Marketing Planning and Management
This unit extends the student's knowledge of the fundamental marketing concepts and theories introduced in the Faculty Core unit in Marketing, by adding further breadth and depth of knowledge of marketing and developing skills in the application of this knowledge to marketing planning and management within the business environment. Emphasis is on the role of the marketing manager at the product management level in undertaking analysis, planning, implementation and control of marketing activities.
UNIT SYNOPTSES

Prerequisite(s): BSB126 or CTB126  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: MIB217 or CTB240

AMB241 E-Marketing Strategies
E-Business and mobile commerce technologies have emerged as defining technologies for companies in the 21st century. This unit focuses on e-marketing applications and strategies and the marketer's role in developing solutions that integrate new and old economies. Drawing on their knowledge of marketing principles, students will examine the diverse applications of technology in product and service design; product distribution/service delivery and logistics; promotional strategies and other marketing components. The unit also explores the role of emerging electronic models and the use of e-marketing strategies to achieve global competitive advantage.
Prerequisite(s): BSB116 or BSB126 or CTB126; and AMB240 or CTB240  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: MIB224

AMB249 Professional Selling
Many students land their first job in a graduate sales position. Professional selling equips students with a contemporary understanding and knowledge of customer relationship management, the sales force environment, personal selling techniques and communications skills. Further, students will be exposed to international benchmarks from a selling processes perspective such as identifying prospects, planning sales calls, demonstrations, negotiations, and closing the sale. There are many exciting and challenging roles in sales, some of which are: sales representative, sales team leader, client account manager, and eventually: regional, state, national and international sales management positions.
Prerequisite(s): BSB126 or BSB116 or CTB126  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: MIB230

AMB250 Business to Business Marketing
This unit addresses the special characteristics of Business markets and Business-to-Business (B2B) marketing programs. It involves the study of organisational buyer behaviour and the special customer/client relationships that form an important part of the Business-to-Business marketing process. Business markets constitute a powerful and essential part of the world economy, being a preliminary source for retailing and manufacturing operations and the force behind major services sectors in supplying government and non-government services including health and education both domestically and internationally.
Prerequisite(s): AMB202 or AMB240 or CTB240  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: MIB220 or MIB319

AMB251 Innovation and Market Development
This unit covers the dynamics of product and service innovation within the marketing function of an organisation. Products are defined in the broadest sense as both tangible and intangible and include the various categories of consumer and industrial products and services. The course covers product market analysis, the product/service development process, design, innovation, research and testing, new product financial analysis, branding and packaging, and new product commercialisation.
Prerequisite(s): BSB126 or BSB116 or CTB126  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: MIB227

AMB260 Public Relations Theory and Practice
This unit introduces the student to the theory and research that serves as the foundation of the practice of public relations. The unit surveys the history of the discipline, the theories on which the discipline is based, and current models of practice. The unit focuses on understanding how to research and analyse the opinions of organisational publics in order to develop mutually beneficial relationships with those publics.
Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126 or 48 credit points of previous study for non-Business students only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB325

AMB261 Media Relations and Publicity
This unit will reflect the strong emphasis within public relations practice of media relations. It will introduce students to the theory of media effects and the role of mass media in public opinion formation and how these concepts contribute to campaign planning. It will also provide students with practical instruction in the development of media tools including media releases, media kits and media plans, and the use of publicity events in campaigns. New/interactive media will also be addressed.
Prerequisite(s): AMB260  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB329

AMB262 Public Relations Writing
This unit will introduce students to a range of public relations writing needs. With heavy practical emphasis, the students will create a substantial portfolio of writing across controlled and uncontrolled media. Writing for print and electronic forms is covered as well as new/interactive media. The writing process will be examined from the perspective of audience needs and emphasis will be placed on the research components of the writing exercise as well as the writing/rewriting cycle.
Prerequisite(s): AMB260  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: COB326

AMB310 Internship
Provides the student with experience of professional practice in a suitable company where they actively work on a part-time basis. Students undertake a preferred study program within the Advertising, Marketing or Public
Relations framework. Students are required to submit a number of reports reflecting the theoretical concepts acquired during the degree program, and how they might be applied in practice. Students must obtain the approval of the Major Coordinator prior to enrolling in this unit.

**Prerequisite(s):** AMB221, AMB222 or AMB241 or AMB261, AMB262 and a GPA of 4.0 or higher  
**Corequisite(s):** AMB320 or AMB340 or AMB360  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** COB320; COB321; MIB308

**AMB320 Advertising Management**  
This unit takes the perspective of the Advertising Manager and addresses the use of research in developing, implementing, managing, and assessing a successful advertising campaign. In Advertising Management, learners use the case method of learning to examine the advertising process from its place in the marketing mix to the formulation of objectives, strategy and budget to the development of creative and media tactics and their ongoing evaluation. In addition, issues that impinge upon the advertising campaign management process such as legal and ethical issues, globalisation and the client-agency relationship are discussed.

**Prerequisite(s):** AMB221 and AMB222  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** COB306

**AMB321 Advertising Campaigns**  
This capstone advertising unit draws from all the theoretical, analytical, and applied material developed throughout the advertising major, and applies it to a client brief. Learners develop advertising solutions that incorporate all aspects of an advertising campaign, including objectives, budgeting, message development, message delivery, and measurement. The key emphasis is on the use of research to develop sound advertising strategy, which is then executed as creative and media ideas and evaluated through ongoing benchmarks.

**Prerequisite(s):** AMB221 and AMB222  
**Corequisite(s):** AMB320  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** COB303

**AMB330 Advertising Strategy and Planning**  
This advanced unit builds on the theoretical perspectives and applied skills introduced to students in copywriting, media and advertising management. It explores important issues such as the contribution of research to the creation of advertising; the hierarchical development of strategy from marketing and IMC strategy through to advertising, media and creative strategy; the role of the strategic planner in advertising; the use of planning to deliver more effective advertising solutions. Using problem-based learning, students establish benchmarks to evaluate advertising, develop advertising briefs and devise strategies for on-time and on-budget process management.

**Prerequisite(s):** AMB221 and AMB222  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** COB300

**AMB331 Direct Marketing**  
The discipline of Direct Marketing has grown in importance because of its precise targeting, easy accountability, its foundations role in Integrated Marketing Communication (IMC), and its increasing share of the marketing communication budget. This unit focuses on the principles of direct marketing and the role of the database in locating prospects, tracking customers, and building relationships. It examines the components of direct marketing telemarketing, personal selling, and direct response advertising. As the main communication discipline of direct marketing, the emphasis is on direct response advertising. Students analyse the offer planning, strategy, creative, media, testing, and evaluation of direct marketing campaigns.

**Prerequisite(s):** AMB202 or AMB220 or AMB240 or CTB240 or AMB249  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** COB315

**AMB340 Services Marketing**  
This unit explores the special characteristics of services that distinguish the marketing of services from goods. Topics include: the distinctive aspects of consumer decision-making relative to services and the implications for marketing strategy formation; the management of demand and supply; customer services and its influence on service satisfaction; service quality management and measurement; internationalisation of the service sector and distribution modes for services that reflect the significant impacts of new technologies on service delivery.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** MIB311, CTB340

**AMB341 Strategic Marketing**  
Emphasis of the capstone Marketing unit is on the role of marketing manager at the corporate and strategic business unit/division levels. Students are exposed to a variety of strategic marketing techniques and issues, and learn how to apply these in corporate planning and management. Topics include: developing and critiquing strategic marketing planning models; recognising the importance of market focus; determining what marketing strategy can realistically be accomplished for a business; identifying underlying factors that must be considered in developing marketing strategy for a market-oriented organisation; discussing problems in successful implementation of marketing strategy; and organising for successful strategy implementation.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** MIB315, CTB341

**AMB350 Sales and Customer Relationship Management**  
Theories related to marketing exchange and the concepts of consumer transactions and relationships and their relative importance in different marketing contexts are examined. The growth of customer relationship management including
the transition of consumers along the transaction-relationship continuum and the development of accompanying marketing strategies is highlighted. A discussion of the relative emphasis on transactions and/or relationships in interfacing with the market provides a platform for examining sales management including, personal selling principles and ethics, the setting of sales objectives, selling logistics, account and territory management, sales force planning, recruitment and motivation and evaluation of sales performance.

Prerequisite(s): AMB240 or AMB202 or COB207 or CTB240 or MIB217 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: MIB230

AMB351 Tourism Marketing
This unit examines the tourism system and the unique characteristics of tourists, segmentation bases for tourist markets, the nature of the tourist destination mix and how marketing is applied within elements of that mix. Services marketing concepts and theories of tourist behaviour are utilised in the analysis of the tourism experience; processes of destination and product development to meet market needs; and, strategy development to accommodate domestic and international tourism marketing environments. Macro-environmental issues impacting on tourism, such as sustainability of the industry and environment, the socio-political context in which marketing occurs and global trends in travel are also explored for their marketing implications.

Prerequisite(s): AMB240 or CTB240 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIB321

AMB352 Marketing Decision Making
The nature of decisions and decision models in specific strategic and tactical areas of marketing management are examined in this unit. Decisions related to sales forecasting, market analysis, product planning, pricing, promotion and distribution are viewed from quantitative and qualitative perspectives. Students are exposed to computer software and analysis skills that aid the marketing decision process and build their analytical skills of direct relevance in marketing practice. The unit also embraces the analysis and application of marketing information systems including database marketing and the Internet as a marketing information resource.

Prerequisite(s): AMB240 or CTB240 or MIB217 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Incompatible with: MIB320, MIB216

AMB353 Retail Marketing
This unit focuses on the dynamics of the retailing industry. It provides students with detailed knowledge of the various approaches to how retail marketing is conducted nationally and internationally from both an operational and a strategic perspective. The unit provides a balance of theory and application in topics such as retail institutions and the retail life cycle, store location analysis, store layout, planning and design, merchandising, promotion and stock planning, franchising and industry trends.

Prerequisite(s): AMB240 or CTB240 or MIB217 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIB229, MIB310

AMB354 Events Marketing
Events have become significant strategic marketing tools for positioning products/services, industries, destinations and community interests at the local, national and global levels. The unit initially explores various types, roles and objectives of events and the profile and motives of event markets and stakeholders. Key topics include: processes of attracting or developing the event experience including bidding processes; partnership creation with sponsors, media and community; venue selection and design relative to market/stakeholder needs; ticketing/pricing or access management and imaging the event from an integrated marketing communication perspective. Local and international cases are used.

Prerequisite(s): AMB202 or AMB240 or COB207 or CTB240 or MIB217 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: MIB319

AMB360 Corporate Communication Management
The unit explores the corporate communication management function within an organisation and identifies how decisions about the use of various corporate communication solutions are made. Emphasis is placed on the role of corporate communication in management systems, the nature and processes of information management in corporate communication and environmental analysis. The unit also draws on contemporary issues in corporate communication management including issues management, ethical and legal considerations in practice and the role of corporate communication in organisational change.

Prerequisite(s): AMB261 and AMB262 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AMB361 Public Relations Campaigns
This unit focuses on the public relations campaign planning process from problem identification and research through to strategy development, campaign development and evaluation. It is designed to meet the students' interests in understanding how various campaign elements come together and to test their ability to integrate their prior learning in the introductory theory and practice units. To service the practice elements of public relations implementation, the unit incorporates a number of client service aspects. Students are expected to research, develop and present their plans. This unit incorporates real world clients to enhance the students' portfolios.

Prerequisite(s): AMB201 or MGB220 or CTB201, AMB261 and AMB262 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: COB323, AMB381

AMB370 Public Relations Cases
This unit will provide students with an understanding of a wide range of public relations challenges in order to build a better range of experience with management level organisational issues. Australian and international cases will
be used to explore different components of public relations practice.

**Prerequisite(s):** AMB261 or AMB262  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**AMB371 Corporate Communication Strategies**
This unit provides students with an understanding of the development and analysis of communication strategy in public relations and corporate communication. Students learn theory and practice for systematic analysis of the "fit" between environmental factors and organisational resources, the resulting communication problems and development of communication strategies. Students integrate theory and research in such areas as media effects, organisational change, diffusion, and persuasion for analysis and development of communication strategy.

**Prerequisite(s):** AMB360 or AMB361  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**AMN400 Consumer Behaviour**
This unit provides an introduction to the area of consumer behaviour and a forum for discussion of theory and research in the field. The current state of consumer behaviour research will be reviewed and some of the emerging trends in the area are explored through several avenues of assessment. The unit provides the environment for students to conduct their own research in areas that are relevant, of interest to them and reflect the interdisciplinary nature of consumer behaviour.

**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** MIN413

**AMN401 Integrated Marketing Communication**
Integrated marketing communication (IMC) is a new discipline that seeks synergistic effect from integrating traditional marketing communication disciplines. This unit explores the development of IMC, looking at reasons for growth, barriers to implementation and organisational issues. Students are introduced to the strategic foundations of IMC, from consumer behaviour, to marketing strategy, to IMC campaign evaluation. The disciplines of advertising, public relations, direct response and sales promotion are then explored to highlight how each contributes to IMC planning.

**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** CON421

**AMN402 Events Marketing and Management**

**Prerequisite(s):** PG only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Incompatible with:** AMN488, AMN489

**AMN403 Marketing and Survey Research**
This unit provides a detailed overview of marketing research to support decision making in the areas of advertising, integrated marketing communication, marketing and public relations. The unit builds an advanced understanding of the use of survey research to support the descriptive and predictive information needs of management in such areas as consumer opinions and behaviour, and stakeholder analyses. Students will explore issues related to survey research design, questionnaire development and administration, sampling, measurement, data analysis including descriptive and multivariate statistics and presentation of research results.

**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** MIN413

**AMN404 Readings in Integrated Marketing Communication**
The unit provides participants with the opportunity to make a detailed exploration of the literature on a particular topic or problem in the area of Integrated Marketing Communication under the direction of a supervisor. The readings integrate and consolidate theory and research related to IMC and from other studies undertaken in the course. Students undertake a formal and systematic review of literature in a particular problem area of IMC related to their interests, project or thesis. Students may also explore work covered in other specialisations.

**Prerequisite(s):** AMN401  
**Credit points:** 12  
**Contact hours:** Supervision only, Lecture in Week 1  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** CON416

**AMN405 Cases in Integrated Marketing Communication**
This unit provides students with the opportunity to explore a range of topics related to the integration of the elements of the promotional mix-advertising, personal selling, reseller support, publicity, direct marketing, and sales promotion. Through the use of intensive case study analysis and discussion, students will refine conceptual understanding and analytical skills to explore such IMC topics as brand equity and IMC, IMC approaches to promotions management, organisational issues related to structuring corporate IMC functions, environmental analysis and database marketing to inform IMC planning, and IMC strategies and the development of corporate advantage.

**Prerequisite(s):** AMN401  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**AMN406 Project**
In this unit, students examine in detail a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based in the published journal literature of the discipline and can involve primary research and analysis. Students can develop a communication audit of an organisation or a case study related to an organisation product or issue. Project supervision will be arranged by the Unit Coordinator through consultation with the student and available staff members.

**Prerequisite(s):** Postgraduate enrolment with 96 credit points of approved prior studies  
**Credit points:** 24  
**Contact hours:** 2-6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** CON405
AMN411 Independent Study
An opportunity for advanced level postgraduate students to undertake short-term, individual studies focusing on a problem area of advertising, marketing, public relations or integrated marketing communication.
Prerequisite(s): p/g enrolment only  Credit points: 12  
Teaching period: 2008 SEM-2 and 2008 SUMMER

AMN420 Advertising Management
This unit empowers students to make effective management decisions within the advertising process. It examines the setting of advertising objectives, and the need for coordination of these with marketing, communication and organisational objectives. It develops a sound understanding of advertising regulations and ethics, budgeting, research and campaign coordination. It further examines management's participation in the creative, media and production processes, and the contribution of advertising management to the cohesion and creativity of the agency.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  
Teaching period: 2008 SEM-1 and 2008 SEM-2

AMN421 Contemporary Issues in Advertising
This unit surveys the intellectual foundations of a number of contemporary issues emerging within the advertising discipline and provides sophisticated, systematic explanations of their societal implications and consequences. It also explores how these issues are addressed by business, government and organisation.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  
Teaching period: 2008 SEM-1 and 2008 SEM-2

AMN422 Media Strategy
One of the ultimate determinants of the effectiveness of any advertising campaign is the media strategy. This unit examines ways to improve efficiency in media planning, buying, coordination and research. It examines concepts of media decision making, market targeting through the creative use of media, and strategic planning. It explores current media campaigns and encourages the development of a more creative and integrated approach to media.
Prerequisite(s): p/g enrolment only  Credit points: 12  
Teaching period: 2008 SEM-1

AMN423 Strategies for Creative Advertising
This unit explores the substantive body of academic research on creative advertising. It follows the creative process, beginning with the development of creative strategy and concluding with campaign evaluation. Through cases and presentations, student examine how copywriters think, the illumination of the 'big idea' and its execution across the very diverse advertising media.
Prerequisite(s): p/g enrolment only  Credit points: 12  

Teaching period: 2008 SEM-2

AMN442 Marketing Management
The study of marketing, marketing systems and marketing management and marketing planning within contemporary structure of social, cultural, political, economic, business and organisational environment. Concepts are applied through the study and construction of a marketing plan, which involves market and sales analysis, target market strategies, tactical decision planning, and implementation and control. Marketing management concepts are applied to virtual and physical markets and attention is given to a range of skills in finance, human resources, information and other skills needed by marketing managers in these markets.
Prerequisite(s): p/g enrolment only  Credit points: 12  
Teaching period: 2008 SEM-1 and 2008 SEM-2

AMN443 Product and Service Innovation
This unit examines the dynamics of innovation and development within the mix of core marketing activities of organisations. Once establishing the integral role innovation plays in organisations, the unit also reviews the key stages in the process of creating, developing and implementing new product and service concepts including product, service and market analysis, design, innovation, evaluation and testing of ideas, branding and packaging, market testing and investment analysis.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  
Teaching period: 2008 SEM-1

AMN444 Services Marketing
This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused marketing programs in service industries; the establishment and maintenance of relationships with customers.
Prerequisite(s): AMN442  Credit points: 12  
Teaching period: 2008 SEM-1

AMN445 Strategic Marketing Management
This is a capstone unit which aims to ensure students can manage the complete marketing function at a senior level within a corporation, and includes assessing the marketing function’s performance with appropriate tools to diagnose, assess, track and evaluate performance and to modify processes to improve the function. Links between the marketing function and other functions of a business such as accounting, operations and human resources are drawn, so that the student would be in a position to move into top management if the opportunity arose.
Prerequisite(s): AMN442  Credit points: 12  
Teaching period: 2008 SEM-1
AMN447 Contemporary Issues in Marketing
This unit offers advanced study of topical issues and emerging trends in marketing practice as a result of new technologies, current events and their impact on local, national and international enterprises. In depth interaction with business and public policy leaders expands students research, reflection and strategic thinking abilities.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: MIN407

AMN460 Corporate and Investor Relations
This unit reviews all aspects of the public relations function in communicating with corporate audiences. Specific focus is placed on how corporate entities meet both regulatory and promotional requirements in communicating with special interest groups including shareholders and employees. Suitable communication tools are examined for use in ongoing communication programs.
Prerequisite(s): p/g enrolment only Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: CON409

AMN461 Corporate Media Strategy and Tactics
This unit examines theories underpinning mass media and links these with the practice of public relations media tactics. Students analyse techniques and skills used in liaison with electronic media, print media, trade media and news media. Producing and evaluating communication materials such as news releases, features and media kits forms an important part of this unit. Students develop strategic thinking through analysis of contemporary media case studies.
Prerequisite(s): p/g enrolment only Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: CON424

AMN462 Community Consultation and Engagement
This unit introduces students to key engagement strategies of community information, consultation and participation. The unit develops student understanding of the theoretical foundations of engagement strategies and provides the skills and knowledge for students to analyse community engagement needs and establish engagement programs. Ethical practice is a key organising framework for this unit.
Prerequisite(s): Postgraduate enrolment Corequisite(s): Nil Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2008 SEM-2 Incompatible with: CON408

AMN463 Public Opinion and Public Relations
This unit provides a detailed overview of the theoretical foundations and empirical research on public opinion and the implications of that theory and research to public relations management. The unit includes detailed examination of the role of mass media in the development and change of public opinion and problems related to the measurement and interpretation of public opinion. It builds an advanced understanding of the use of survey research to support the descriptive, diagnostic, and predicative information needs of management related to public opinion. The unit treats the role of public relations in efforts to shape and manage public opinion.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

AMN465 Public Relations Management
This unit provides learners with an overview of the theory and research that constitute the foundations of public relations practice. The unit provides a detailed inspection of communication processes necessary for the management of organisational relationships with publics. The unit focuses on such topics as issues management, organisational change, public opinion, and mass media effects in order to explore the foundations of contemporary public relations management.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2 Incompatible with: CON415

AMN466 Public Relations Campaigns
This unit provides a systematic exploration of the planning, management and evaluation of public relations campaigns and programs. The primary goal of the unit is to build a detailed understanding of existing theory and research that informs the development and evaluation of public relations campaigns. The unit focuses on key problem areas of campaign management including strategy, design and evaluation.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

AMN468 Issues and Crisis Management
This unit examines the strategic management of crisis communication including for organisations. A strategic planning approach will be covered including organisation analysis, issues identification, audience prioritisation, strategy formulation, tactical planning and implementation and evaluation. Pre-crisis issues in management will be addressed as well as proactive and defensive communication strategies during crisis. The unit will demonstrate the application of general communication tools to a specialised area.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 Incompatible with: CON408

AMN488 Events Marketing
This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused, marketing programs in service industries; and the establishment and maintenance of relationships with customers.
Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

AMN489 Events Management
This unit builds an understanding of the fundamental principles of events management. The unit focuses on the application of concepts and theories that serve as the foundation for events management as they relate to a business environment. Emphasis is on building an understanding of the role of the events manager in terms of the analysis, planning, implementations and control of event activities.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**ARB081 History, Theory and Criticism of Urban Design**
This unit includes the analysis of urban forms and systems in the pre-industrial, industrial and post-industrial periods. Specific history topics include urban activities, urban culture and diversity, urban services and urban form. This unit addresses concepts of 'good theory' of urban design in relation to the work of a number of theoretical writers and schools. Specific theoretical topics include the 'künstlerischen Grundsätzen' of Camillo Sitte, the Garden City movement, Le Corbusier and modernism, the counter-modern influences of the townscape movement, Jane Jacobs, Kevin Lynch and the Responsive Environments approaches, Christopher Alexander, Rapoport, phenomenological approaches, and recent movements such as 'the new urbanism'.

**Credit points:** 12  
**Campus:** Gardens Point

**ARB082 Urban Design Studio B**
This studio covers identification and classification of approaches to urban design, the setting of objectives, urban design rationales, the adoption of a method and the testing of implications for a particular urban design problem type. The unit typically involves a theory based preparation of an urban design proposal for an urban/suburban/town area, and/or an urban design issue. Where applicable, work in other units of study will be incorporated into this unit. The 24 credit points allow focus, depth and, where appropriate, joint/complementary project work with senior students in other Faculty courses. Field work is incorporated.

**Credit points:** 24  
**Campus:** Gardens Point

**ARB083 Urban Design Masters Studio**
This unit is an advanced level urban design project, supported by seminars presented by staff, students and visiting lecturers and distinguished practitioners. This studio focuses on changes in the production and consumption of the city, including the effects of globalisation, space-time compression, economic rationalism, and the privatisation of space, services and professional activities.

**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2008 SUMMER

**ARB801 Fire Technology and Science**
Topics covered in this unit include the chemistry and physics of fire; heat transfer mechanisms; combustion processes; fire behaviour of materials; fire initiation and development; fire growth and spread; flashover; management of fire; theory of fire extinguishment; detection and extinguishment systems; fire brigade involvement.

**Credit points:** 12  
**Campus:** Gardens Point

**ARB802 Human Behaviour and Fire**
This unit considers fire: its effects on life and property and community costs; human studies and response models; hazardous fire environments; egress calculations and models; human behaviour including occupant characteristics, behaviour during emergencies and response times; risk management through probabilistic fire models.

**Credit points:** 12  
**Campus:** Gardens Point

**ARB803 Fire and Building Legislation**
This unit addresses: society's expectations for life safety and asset protection; the traditional prescriptive approach; performance principles and methodology; state legislation (administrative framework); PBCA 96 and Australian Standards (technical framework); legal issues related to PBCA process and procedural matters; integrated approval (dangerous goods, health care, etc)

**Credit points:** 12  
**Campus:** Gardens Point

**ARB804 Fire Safety System Design**
This unit addresses the mechanics of smoke and fire spread in buildings; smoke and fire management; external fire spread and heat radiation; fire load and severity; building structural fire performance (materials and structure); fire modelling; application of fire growth models to fire protection problems; fire protection; methodology for fire safety risk assessment; estimation of fire safety performance parameters; case studies.

**Credit points:** 12  
**Campus:** Gardens Point

**AYB121 Financial Accounting**
Financial Accounting examines of the accounting concepts and procedures relevant to both partnership and corporate structures within the context of the accounting profession's conceptual framework and the relevant accounting standards and Corporations Law requirements. Topics include: the formation, operation, financial reporting and disclosure for both partnerships and companies; accounting for leases; and the professional role of accountants. The emphasis is on the effect of the different forms of ownership on the financial statements.

**Prerequisite(s):** BSB110 or CTB110  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

**AYB220 Company Accounting**
This unit includes: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

**Prerequisite(s):** AYB121  
**Credit points:** 12  
**Contact hours:** 3.5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2
AYB221 Computerised Accounting Systems
This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.
Prerequisite(s): BSB110 or CTB110, BSB122 or CTB122 or equivalent Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYB223 Law of Business Associations
The unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.
Prerequisite(s): BSB111 or CTB111 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYB225 Management Accounting
This unit introduces students to accounting systems and techniques that provide management at all levels with information for use in planning, controlling and decision making. This can be contrasted with financial accounting, which provides summary financial information principally for external users (ie shareholders, creditors, banks, etc). Emphasis is placed on developing a range of accounting systems (in particular product costing) which may be used in manufacturing firms, although the principles and concepts used to develop such systems can be adapted to service organisations.
Prerequisite(s): BSB110 or CTB110 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYB227 International Accounting
International Accounting is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. Issues examined include: comparative international accounting systems and practices; cultural influences on accounting; international financial reporting issues such as international business combinations, intangibles, foreign currency transactions and translation, comparative international analysis of financial statements; and global accounting issues in the twenty-first century. The unit also examines the impact of international harmonization of accounting standards on multinational corporations and the investment communities worldwide.
Prerequisite(s): BSB110 or CTB110 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

AYB301 Auditing
This unit enables students to comprehend the key concepts of auditing as a discipline, to demonstrate the relationship between auditing and the systems of accountability and to demonstrate the differences between manual and EDP audit processes. The unit builds on the knowledge of auditing and accounting standards acquired in prior units by enabling students to understand in detail the audit process (including professional auditing standards and techniques) which leads to the auditor providing an opinion on the financial reports of various types of entities. Ethics and auditor’s liability are also covered.
Prerequisite(s): AYB220 & AYB221 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

AYB305 Company Law and Practice
This unit presents advanced topics in company law including protection of minority interests; prospectuses and fundraising; company charges; insider trading; takeovers and buy-backs; and tax law relating to financially troubled companies.
Prerequisite(s): AYB223 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

AYB311 Financial Accounting Issues
This unit introduces students to the nature of accounting theory and integrates theory with practice to assist in the understanding of major Australian and International accounting issues. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; leases and employee entitlements. Accounting in specific industries such as construction, extractive industries and superannuation funds is also examined. This unit complies with the new international accounting standards. Contracting theory is used.
Prerequisite(s): AYB220 Credit points: 12 Contact hours: 3.5 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYB312 Financial Institutions Law
This unit deals with the regulation of banks and non-bank financial institutions, the financial institutions’ scheme, the banker-customer relationship, laws relating to cheques and other negotiable instruments, negligent advice by financial institutions and other possible grounds of liability in the dealings of financial institutions with customers.
Prerequisite(s): BSB111 or CTB111 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

AYB320 Advanced Taxation Law
This unit examines the principles governing the taxation treatment of various business entities including partnerships, trusts, companies and superannuation funds.
from a domestic and international perspective. The unit provides students with an understanding of other considerations which affect the choice of an appropriate business structure from a taxation perspective, including rollover relief and the CGT small business concessions, the importance of legitimate tax planning and the distinction between tax avoidance and tax evasion and some of the more simple aspects of international taxation between Australia and its major trading partners. The unit also covers an analysis of the GST, a review of types of supplies under the Act and the concept of creditable acquisitions. Specific issues such as the GST implications of real property, the margin scheme, GST planning strategies and the GST avoidance provisions are also covered.

**Prerequisite(s):** AYB325  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** Any two of AYB328 Taxation of Business Entities, AYB323 Taxation Planning and AYB337 Goods and Services Tax

**AYB321 Strategic Management Accounting**

Strategic management accounting develops a theory of organisations that provides an understanding of the information requirements of management to facilitate the strategic planning, decision-making and control necessary for the achievement of their objectives. Topics include: developing effective performance-evaluation systems and compensation plans; examining how managers can design organisations to motivate individuals to make choices that increase firm value; managing transfer-pricing disputes among divisions; developing an understanding of new management accounting practices, including activity-based costing (ABC), the balanced scorecard (BSC), and economic value added (EVA); and appreciating the research on the benefits and problems with ABC, BSC and EVA.

**Prerequisite(s):** AYB225  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**AYB325 Taxation Law**

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** AYB223  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**AYB338 Accountancy Workplace Learning Experience**

This unit fosters learning through work related experience. Students will be given the opportunity to experience the work that is performed by accountants and will enable them to more effectively learn and practice accounting discipline knowledge and graduate capabilities. Admission to this unit is by application and subsequent approval by the unit coordinator.

**Prerequisite(s):** 192 cps of business units including at least 60 cps in Accounting units.  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**AYB339 Accountancy Capstone**

Accountancy Capstone co-ordinates several parts of the accountancy degree that have already been studied by students. At the same time some new concepts are introduced for each topic. The unit attempts to simulate the real world where the professional advisor/consultant is confronted with unstructured multi-disciplined problems on a day-to-day basis.

Based on the Problem-Based Learning (PBL) methodology, students will learn the process of how to deal with the problems typically faced by the professional advisor/consultant. These problems require students to work together in teams, research issues, gather information and form conclusions.

**Prerequisite(s):** AYB220 and one of either AYB311 or AYB321  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**AYN410 Business Law and Ethics**

This unit provides an introduction to business law and to morality in the business context. It includes the following: the legal framework for business interpretation of statutes; law of torts; contract law and agency; morality and how it works as an aspect of the business community; the origins of moral belief; and the motives that lead people to abide by what they believe to be morally right and to persuade others to do likewise with special emphasis on business aspects of morality.

**Prerequisite(s):** postgraduate enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** GSN412, GSN422

**AYN411 Company Auditing**

Topics in this unit include: the audit environment; legal liability of auditors; professional ethics; the study and evaluation of audit planning and programming, evidence, internal control theory and review techniques; audit program applications; audit in CIS environment and evaluation of CIS controls; computer-assisted audit techniques; computer fraud; audit sampling techniques; audit reporting.

**Prerequisite(s):** AYN417 and AYN443  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**AYN412 Company Law**

The unit introduces the law relating to the establishment, operation and dissolution of business association; the forms of business associations, partnerships, trusts, companies and voluntary associations. It also focuses on companies: incorporation requirements, classification, corporate governance, share capital and management issues.

**Prerequisite(s):** AYN410  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2
AYN413 Enterprise Systems Governance and Audit
The impact of Computer Information Systems (CIS) on controls and auditing: general controls, application controls, generalised audit software, static and concurrent computer-assisted audit techniques, and special CIS environments are addressed in this unit. A focus on the audit of the SAP R/3 system is provided.
Prerequisite(s): U/G degree in Accountancy Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

AYN414 Cost and Management Accounting
This unit introduces students to techniques that provide management at all levels with information for use in inventory valuation, planning, controlling and decision-making. The unit's major focus is on product costing systems for manufacturing firms.
Prerequisite(s): AYN416 or equivalent Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYN416 Financial Accounting 1
This unit provides an introduction to financial accounting within the context of the accounting profession's conceptual framework, relevant accounting standards and the requirements of the Corporations Law. Topics include: the accounting cycle for both service and merchandising entities; the preparation of general purpose financial reports: cash management and control; non-current assets; the formation, operation, and financial reporting requirements for companies; and statement of cash flows.
Prerequisite(s): postgraduate enrolment only Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYN417 Financial Accounting 2
This unit covers the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including business entities); accounting for investments in associates; the termination of a company's life and the accounting procedures necessitated by winding up/liquidation.
Prerequisite(s): AYN416 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYN418 Financial Accounting 3
This unit introduces students to the concepts and theories that underlie financial reporting and disclosure practices. The regulatory environment and factors influencing accounting policy choices provide a framework for examining the financial effects and behavioural implications of applying different accounting methods to specific accounting issues. Particular emphasis is placed on both the application of specific accounting techniques/rules and the conceptual/theoretical issues associated with alternative accounting methods.

AYN424 International Accounting
This unit is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. The unit examines issues including: accounting systems in the global environment; international patterns of accounting development including cultural influences on accounting; comparative international accounting systems and practices; the pressures for international accounting harmonisation and disclosure; international disclosure trends and financial analysis; global accounting issues into the twenty-first century.
Prerequisite(s): Postgraduate enrolment Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-2

AYN433 Research Topics in Accounting
This unit introduces Honours, Higher Degree Research and other Postgraduate students to a broad range of accounting literature. It is designed to explore various theories and research methodologies that are applied in accounting research through assigned weekly readings and assigned research tasks. The assigned readings include contemporary research in financial accounting, management accounting, auditing and corporate governance.
Prerequisite(s): Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1

AYN438 Taxation Law and Practice
This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levying of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.
Prerequisite(s): AYN412 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2008 SEM-1 and 2008 SEM-2

AYN443 Electronic Commerce Cycles
This unit examines the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of
accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles. **Prerequisite(s):** AYN416  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** AYN221, AYN402

**AYN454 Forensic Accounting and Investigation**  
This unit provides students with a knowledge of critical factors that contribute to fraud and corporate failure, and forensic examination. Students develop an understanding of the risks of fraud and corporate failure occurring and an appreciation for the subsequent forensic review and litigation processes that may follow. **Prerequisite(s):** U/G degree in Accountancy  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** AYN441, AYN404, AYN426

**AYN505 Financial Analysis and Business Valuation**  
This unit is about the analysis of financial information arising primarily from the financial reports of entities. Fundamental analysis techniques are examined in detail with particular emphasis on the application of these techniques in equity (share) valuation decisions. The unit comprises three related parts. Part one outlines the four basic steps in the fundamental analysis framework: business analysis, accounting analysis, financial analysis and prospective analysis. The next part combines these skills in addressing the question of valuation, while the final section of the unit applies the skills in several different contexts, such as credit analysis, security analysis, mergers and acquisitions and financial policy decisions. **Prerequisite(s):** Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**AYN507 Governance Issues in Accounting**  
This unit adopts an accounting perspective to examine issues relating to sound corporate governance, accountability and transparency. Topics covered include the following: the role of the board of directors and board committees; internal control and risk management; audit committees, internal and external audit; duties of directors and management; codes of conduct and ethics; compensation issues; conflict of interest and insider trading. **Prerequisite(s):** Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**BEB200 Introducing Sustainability**  
This unit will address issues of sustainability from a number of perspectives thus providing students with a variety of lenses on the ways in which the human-made environment impacts on the future of human settlement. The unit will include an introduction to sustainability from a variety of perspectives, including indigenous and other cultural perspectives, and from ecological, economic and technological perspectives. It will demonstrate to students the ways in which contrasting, and sometimes conflicting, ideas about sustainability are prioritised and how these priorities contribute to the impact that design, engineering and urban development professions have on a sustainable future.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**BEB702 Work Integrated Learning 2**  
This unit aims to provide students with the opportunity to learn in a workplace environment. It will involve attendance, participation, observation, and reflection on activities negotiated with the workplace supervisor. The emphasis of the reflection for this unit is on explaining and discussing aspects of professional relevance incorporating among others: collaboration and teamwork; workplace, health and safety; professional conduct and ethical responsibility. For some students, this unit forms a part of their (compulsory) course core (as required by professional accrediting bodies), while for others it may be one of several work integrated learning (WIL) units (selected as part of a Minor).  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2
unit is on the critical reflection of academic learning and its application in practice. This is supported through an associated emphasis on the development of high order observation and critical reflection skills and the recording of learning outcomes in an e-portfolio. Most students undertaking this unit will do so as part of a WIL minor.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB704 Work Integrated Learning 4**

As with the previous WIL units, this unit involves participation in a work placement, associated projects and on-campus lectures and seminars to further extend and consolidate students' learning and preparation for professional practice. The emphasis in this unit is on developing a broader appreciation of the issues impacting on industry, the nature of academic and practice knowledge and how they can be productively integrated to respond to the needs of and the challenges facing professional practice. The unit also gives explicit attention to the continuing development of graduate capabilities including oral communications skills. This unit is normally undertaken as the last unit in the first WIL minor.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB705 Work Integrated Learning 5**

This unit is normally undertaken as the first unit of a second WIL minor. While the first WIL minor emphasises the context of practice and its relationship to academia, the second WIL minor focuses on the participation of students in work in a more proactive and leading way thereby providing the opportunity for sophisticated, collaborative and reciprocal learning and outcomes for all concerned. In this context, this unit introduces students to the notion of practice-led research and research-led practice and provides them with the opportunity to use practice-based projects as vehicles for further developing discipline knowledge as well as advanced critical enquiry skills. In undertaking the unit, students will collaborate with a project supervisor and prepare an interim and final report and seminar on the project.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB706 Work Integrated Learning 6**

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB707 Work Integrated Learning 7**

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB708 Work Integrated Learning 8**

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB801 Project 1**

This unit will expose students to a set of integrated activates, each building upon the preceding, and culminating in a completed project. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB802 Project 2**

This unit will require students to critically discuss the relationship between theoretical skills and knowledge about their discipline, and the practical application of same in a professional project context. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**BEB901 RETROFITTING FOR SUSTAINABILITY**

This unit will provide students with an opportunity to examine in depth current data on the condition of built and natural environments and the wellbeing of people living within these environments, worldwide and in Australia. Special attention will be given to problems observed in the built environment, such as greenhouse gas emissions, population increase, over consumption and resource depletion including water shortages, coastal degradation and urban sprawl.

Credit points: 12  Campus: Gardens Point

**BEB902 Greening the Built Environment**

This unit introduces the challenges and opportunities for the built environment in achieving sustainable development. The unit aims to make clear that a critical shift is required to move forward: a behavioural change brought about by a critical mass of people willing to adopt and evolve sustainable principles and practices in the built environment. Finally, the unit introduces the notion that design practice reform is about ensuring that thinking green is a focus of the entire design process, requiring collaboration and mutual incentives to drive the team to a new level of achievement.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

**BEB903 GREENHOUSE SOLUTIONS**

The unit aims to briefly introduce students to barriers facing the adoption of greenhouse abatement strategies and the methods by which these barriers can be overcome. Finally, the unit will describe how energy, transport and urban systems, like the climate system itself, have great inertia: they take decades to change. This means that in order to achieve significant reductions in greenhouse emissions, and to avoid the worst effects of climate change, early planning and action is critical for these systems.

Credit points: 12  Campus: Gardens Point

**BEB904 Eco-Innovation for Sustainability**

Students will be given the opportunity to examine and evaluate current Commonwealth and Queensland regulatory frameworks that require organisations to address
short-term and long-term adverse impacts of proposed and current activities on the environment. A range of environmental management tools, such as environmental management systems, will be considered in depth. Related issues, such as carbon trading/offsets, resource rights and cultural heritage, could also be addressed according to student interest.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**BSB110 Accounting**  
Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and interpretation of financial statements and planning, control and business decision making.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** BSD110, CTB110, CNB293, UDB342

**BSB111 Business Law and Ethics**  
This unit integrates the concepts and principles of business law with the theories and applications of business ethics. The unit makes extensive use of cases in law and ethics to develop knowledge and skills that enable students to analyse, apply and evaluate the legal principles and ethical decision-making processes relevant to modern business practice.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** AYB120, CTB111

**BSB113 Economics**  
This unit introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** CTB113, BSD113

**BSB114 Government, Business and Society**  
This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia’s constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** HUB694, HUB682, SSB028, BSD114, CTB114

**BSB115 Management, People and Organisations**  
The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas...
of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** BSB115, CTB115

**BSB119 International and Electronic Business**

This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** BSB116, BSB112, CTB119

**BSB122 Quantitative Analysis and Finance**

To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide students with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; the application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; and the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** BSB117, CTB122

**BSB123 Data Analysis**

**Credit points:** 12

**BSB124 Negotiating the Business Environment**

**Credit points:** 12  
**Teaching period:** 2008 SUMMER

**BSB126 Marketing**

This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is placed on understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion, including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point and Carseldine  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** BSB116, CTB126

**BSB212 Electronic Business Applications**

This unit looks at the ways in which organisations adopt and use various electronic business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end e-business applications are considered.

**Prerequisite(s):** BSB112 or CTB112 or BSB119 or CTB119 or equivalent  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** AYB332, CTB212

**BSB213 Governance Issues in E-Business**

This unit introduces students to a wide range of information technology governance issues which confront business professionals during the implementation and operation of e-business strategies. It aims to provide e-business and IT professionals with an understanding of current IT governance frameworks and to ensure they are familiar with risk management, fraud detection and prevention, audit and legal issues that are relevant to an organisation's e-business operations.

**Prerequisite(s):** Business students: BSB111 or CTB111 and BSB119 or CTB119. Other students: 96 credit points of approved study  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** AYB332, CTB213

**BSB310 Business and Biotechnology**

This unit develops business skills that will enhance the ability of those operating within biotechnology firms to capitalise on their research and development efforts. In essence this unit provides the skills-based mechanisms to develop graduates who are effective catalysts in recognising, developing and commercialising opportunities in biotechnology.

**Prerequisite(s):** MGB218  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**BSB311 Research, Development and Commercialisation Strategies**

Students study strategies and approaches used in industry and government organisations for the research, development and commercialisation of biotechnology innovations. The unit offers the opportunity to read widely as well as in depth about the commercialisation of molecular biology and biotechnology research. Theoretical concepts are integrated with prepared case studies prior to guest speaker seminars.

**Prerequisite(s):** BSB310  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2
BSB314 E-Business Intelligence
This unit looks at corporate strategic decisions and the information technology decision support systems and e-business intelligence needed to support management in this process. Group and enterprise IT decisions systems, data warehousing and corporate portals will be examined together with e-business intelligence applications. SAS software skills for decision support and data mining and visualisation will be covered. An introduction to advanced intelligent systems, artificial intelligence and knowledge based support systems will also form part of the unit.

Prerequisite(s): 96 credit points of prescribed study in a degree program
Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2008 SEM-1

BSD110 Accounting
Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with some basic knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, and the analysis and interpretation of financial statements for planning, control and business decision making purposes.

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3
Incompatible with: BSB110

BSD113 Economics
This unit introduces students to the key economic concepts and their practical applications. It comprises 12 topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3
Incompatible with: BSB113

BSD115 Management, People and Organisations
This unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that will be needed at all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3
Incompatible with: BSB115

BSD119 International and Electronic Business
This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and knowledge to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3
Incompatible with: BSB119

BSD122 Quantitative Analysis and Finance
To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide you with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; and the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3

BSD126 Marketing
This introductory unit examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, marketing information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, promotion. Promotion includes advertising and public relations. By way of introduction only, key issues related to services marketing, strategic marketing and marketing planning are also canvassed.

Credit points: 12 Contact hours: 4 per week
Campus: Kelvin Grove
Teaching period: 2008 13TP1, 2008 13TP2 and 2008 13TP3
Incompatible with: BSB126

BSN005 Introduction to Academic Research
This unit presents a pathway for coursework students into higher degree research. It will provide students with the opportunity to produce a high quality journal article (as primary author) under the supervision of an experienced researcher. The student will report on research outcomes through their participation in an existing research project. Upon completion of this unit, students should be able to write a literature review drawing largely on provided sources of literature; analyse provided data within a suitable theoretical framework; identify and justify the choice of an appropriate journal to target for publication; complete the journal article as primary author such that it meets all technical requirements for submission to the identified journal.

Prerequisite(s): 240cp of UG study with a GPA of 5.5; pre-approval of Course Coordinator; subject to supervisor availability & completion of an agreed learning contract.

Credit points: 12 Contact hours: 3
Teaching period: 2008 SEM-1 and 2008 SUM-2
BSN404 Project 1
This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

Incompatible with: MKN101, MKN102, MKN103

BSN405 Project 2
This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

Incompatible with: MKN101, MKN102, MKN104

BSN406 Project 3
For this project students undertake a detailed examination of a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based on the published journal literature of the discipline and can involve primary research and analysis. Students develop a short empirical research study, refine a theoretical problem, develop a communication audit of an organisation or develop a case study related to an organisation or product.

Project supervision is arranged by the unit coordinator through consultation with the student and available staff members.

Prerequisite(s): 96 credit points of approved prior study

Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER

Incompatible with: CON405, AMN411

BSN409 Research Project
This is to produce a major piece of applied research. The research project provides the opportunity to apply and reinforce the education and knowledge gained from the course by research report, case study or application of technology. The final project must demonstrate an ability to identify and research a complex business problem in accountancy or banking and finance or a related discipline.

Prerequisite(s): BSN506 or BSN507

Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-2

Incompatible with: CON405, AMN411

BSN412 Qualitative Research and Analytical Techniques
This unit provides a detailed overview of qualitative research to support decision-making in business disciplines. The primary purpose of this unit is to develop a detailed understanding of the theoretical contexts in which field studies and qualitative research methods have developed and the techniques that define the approach. Students develop the ability to analyse, conduct, and evaluate qualitative research in discipline areas related to business.

The unit provides a basic preparation for the development of a project, thesis or dissertation proposal based on the use of qualitative research.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: CON500

BSN501-1 Dissertation
Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

BSN501-2 Dissertation
Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

BSN501-3 Dissertation
Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

BSN501-4 Dissertation
Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

BSN502 Research Methodology
The purpose of this study is to provide students with a range of ideas and methods that enable them to analyse, evaluate and conduct research in discipline areas related to business. It provides an essential and basic preparation for the development of a thesis or dissertation proposal. Areas of study include research paradigms, analysis and criticism, research design, data collection and data manipulation, interpretation and presentation.

Credit points: 12  Contact hours: Flexible Mode  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

Incompatible with: BSB400

BSN503 Research Seminar
In this unit students prepare detailed literature reviews relevant to the thesis or dissertation proposal. Students are required to prepare and present a detailed seminar paper describing and explaining the results of their review and its relevance to the thesis or dissertation proposal. The unit is in two parts: the first provides a series of lectures from staff advising as to the requirements of a thorough, well-directed literature search and review; the second consists of a series of seminars from students presenting their findings.

Credit points: 12  Contact hours: Flexible Mode  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

BSN506 Econometric Methods
This unit provides a comprehensive grounding in the econometric methods necessary for conducting research
using such methods. Recent contributions to the econometric literature are studied.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1  **Incompatible with:** BSN500

**BSN600-1 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-2 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-3 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-4 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-5 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-6 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-7 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**BSN600-8 Thesis**
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CEB259 Engineering Design for Land Development**
This unit introduces the student to the basic civil engineering design processes and procedures associated with the development of subdivided urban/rural land for residential, industrial or commercial purposes. The unit covers the following: subdivisional road design types, hierarchy, longitudinal and cross sections, earthworks; stormwater design, basic urban hydrology, catchment properties, rational formula, pipe/gully parameters, pipe and open channel flows; water reticulation system features; sewer reticulation system features and basic design procedures. Modern trends in the above (including sustainability considerations) together with the general construction procedures and basic costings are introduced.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point
CEB317 Professional Studies 4 (Project Documentation and Roads)
Civil engineers as professionals are responsible for the delivery of major transport infrastructure items through the stages of inception, planning, design, development, maintenance and management. The purpose of such projects is to improve the quality of life of the community by offering safe and efficient access to activity locations and mobility between locations. In delivering such infrastructure it is imperative that social, economic, and environmental impacts and benefits are considered and addressed. This unit offers students an opportunity to explore the role of the civil engineer in the preparation of a feasibility design study for a road as a major transport infrastructure item.
**Prerequisite(s):** CEB207, CEB214, BNB007  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

CEB318 Structural Engineering 2
This unit considers the following: limit states design of steel structures; buckling and ultimate strength behaviour of steel structures; tension members, compression members; local and global buckling (flexural and flexural torsional buckling modes) concepts as applied to compression members and beams; effective lengths of compression members and beams; design of beams; effect of lateral restraints on buckling; web stresses including web crippling and buckling; beam-columns; bolted and welded connections; unsymmetric bending of beams including principal second moments of area; shear stresses in beams of thin-walled open cross-sections and their shear centres. Most cold-formed steel sections are unsymmetric and hence the latter topics are useful in steel design.
**Prerequisite(s):** CEB207, CEB110  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

CEB319 Water Engineering
The main topics to be covered in this unit follow: the hydrologic cycle and its application to the estimation of runoff from small catchments; probability and risk and the selection of design floods; hydrologic data; estimation of peak runoff using the Rational Formula estimation of runoff hydrographs using rainfall-runoff routing models; the hydraulic characteristics of open channels; uniform flow, gradually varied flow and rapidly varied flow; the hydraulic characteristics of culverts and retention basins; the operation of urban drainage systems.
**Prerequisite(s):** CEB217  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

CEB321 Water and Wastewater Treatment
The provision of a safe, wholesome and adequate supply of water and the proper treatment, disposal, and re-use of wastewater are essential for protecting human health and well-being. Water and wastewater treatment are required for the control of water-born diseases and the provision of proper sanitation for urban, rural, and recreational areas. Water and wastewater treatment engineering is a major field of civil and environmental engineering and is manifested by sound principles and practice in terms of solving sanitation problems.
**Prerequisite(s):** CEB213, CEB217  
**Credit points:** 12

CEB322 Geotechnical Engineering 2
This unit includes: further study on the behaviour of soil and rocks; determination of subsurface pressures from surface loadings; soil settlement including time related clay consolidation settlement and immediate settlements on sand and clay as related to shallow foundations; assessment of bearing capacity and allowable bearing pressures under shallow foundations; pile foundation systems and analysis for capacity and settlement; rock mass behaviour, classification and joint shear strength applied to slope stability assessment and stabilisation measures.
**Prerequisite(s):** CEB209  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point

CEB323 Transport Engineering 1
The transport system is an essential part of our physical infrastructure. It is imperative that civil engineers are able to undertake typical road and traffic engineering investigations, analyses and designs. These require an understanding of the intent of individual road system elements, how they operate, and how they are delivered and managed: this understanding is developed in this unit. Further, it is important that civil engineers are able to undertake multimodal transport surveys to gain an understanding of the operation of a particular transport system.
**Prerequisite(s):** CEB317  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

CEB328 Investigation Project
This unit gives the student the opportunity to gather a body of information relating to a selected topic from the available literature, and to reach conclusions by critical analysis of this material. The investigation may include analysis and experimental work. The results will be presented as a written report supported by a seminar presentation.
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

CEB329 Professional Studies 5 (Steel Design and Construction)
This unit includes the study of steelwork: design and construction; structural systems; load paths; rules of thumb; building layout; function and form; cladding: element and wind loading evaluation; idealisation, analysis, design action effects; space gas, columns and rafters; trusses and bracing; connections; knee ridges; base plate design; procurement and fabrication; scheduling and erection.
**Prerequisite(s):** CEB207, CEB208, CEB215, CEB318  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point

CEB330 Environmental Management for Engineers
This unit is designed to help students identify and develop the skills required in the role of the environmental engineer and specifically, the engineer as a project manager. This may involve making decisions to direct and manage the environmental aspects of a major project. This unit aims to help develop and encourage life long learning throughout a career as an environmental engineer.
**Prerequisite(s):** CEB233  
**Credit points:** 12
aware of the way in which the law works, to be able to for improved management practices. Engineers need to be of stringent legislative requirements, and a growing demand in the adoption of various international treaties, enactment CEB416 Environmental Law and Assessment period:

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2

CEB411 Thesis Project A
Thesis A is a written report of the literature on an area of civil engineering practice where research and development has been undertaken and reported. Students demonstrate skills in problem definition, work planning, critical analysis of the study material information retrieval, and appropriate citation procedures. Report writing and seminar presentation is a major feature. Guided instruction and exercises are given on information retrieval and bibliographic listing and citation. Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CEB412 Project Engineering 2
The unit builds on the understanding of the physical aspect of construction gained in Project Engineering 1 to develop the skills needed to manage a project. Further studies in estimating, contracts administration and cost control provide support for a major computer simulation exercise based on the construction management of a complex industrial project. This experiential component provides a framework for the exploration of issues in the legal, managerial and technical areas which form the basis for the professional presentations that conclude the unit. Prerequisite(s): CEB216, CEB317  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

CEB413 Structural Engineering 3
This unit includes the following: advanced structural engineering topics: 'Space Gas', 'Microstan', the stiffness method. This method is developed and illustrated by application to some structures. Plastic analysis and the concept of plastic hinge is introduced and applied. Basic structural dynamics is introduced and some simple illustrative examples are provided. Principles of earthquake engineering, aesthetics in bridge design, load paths in structures, and approximate methods in the analysis of complex structures are treated. Prerequisite(s): CEB215, CEB318  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

CEB415 Thesis Project B
Thesis B is an optional elective and extension of Thesis A. Various avenues of investigation will have been identified from Thesis A and students undertake a program of investigation which may have experimental, design and analysis aspects. A written report with critical analysis of results and conclusions is prepared, and a seminar presented. Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CEB416 Environmental Law and Assessment
The adverse consequences of human activity have resulted in the adoption of various international treaties, enactment of stringent legislative requirements, and a growing demand for improved management practices. Engineers need to be aware of the way in which the law works, to be able to communicate with lawyers, and to recognise the legal and political implications of their projects. An understanding of the local, state, and federal governments' power to regulate development and the legal and planning requirements and assessment procedures is essential for professional engineering practice. Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CEB418 Waste Resource Management
This unit addresses management of solids and hazardous wastes generated from domestic, commercial, and industrial sources. It includes the following: waste minimisation; promotion of efficient use of resources; promotion the use of waste through recycling and energy production; viewing waste as a resource; reducing the mass, volume and toxicity of the waste; disposing of waste in a socially and environmentally acceptable manner; waste avoidance; recycling; energy production; treatment; disposal. Waste management is an important aspect of civil and environmental engineering education. Credit points: 12  Campus: Gardens Point

CEB419 Environmental Transport and Infrastructure Management
The environmental engineer must be familiar with the role of each transport mode in the overall transport task, along with current issues associated with each mode. This must be overarched by an understanding of the system for planning and management of transport projects and systems, particularly in context with economic, environmental and social attributes. This final year core unit provides students who wish to pursue a career in environmental engineering with an understanding of these areas. The unit also includes case studies covering the environmental impacts for some of the urban and rural transport and infrastructure projects especially in the area of community consultation. Prerequisite(s): CEB214, CEB323  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

CEB420 Environmental Thesis Project A
Professional engineers must be able to define and solve problems in areas which are not covered in textbooks and manuals of good practice. Research and development work is required to assess critically the available information and to plan and carry out a program of investigation. This subject helps students develop the skills required for this type of work. Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

CEB424 Professional Studies 6 (Concrete Structures and Geotechnical Engineering)
This unit includes studies of concrete: design and construction; roles of building professionals; design; current structures; structural systems; load paths; rules of thumb; building layout, function and form, design effects; seismic and element loads; structural element loading; formwork and placement constraints; reinforced and prestressed concrete slabs, beams and columns; architectural changes, connections and detailing; footings and foundations; bar scheduling.
CEB425 Professional Studies 7 (Civil Design Project)
In their design project, students should consider a selection of the following: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment, network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.
**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

CEB426 Environmental Professional Studies (Civil Project)
Students should consider the following in their civil project: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.
**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

CEB507 Finite Element Methods
The Finite Element Method is the 20th century's solution for treating complex problems, which had hitherto remained impossible to solve, in several areas of engineering such as structural, geotechnical, hydraulic, electrical, heat conduction, etc. For example the displacements and stresses in dams, deep beams with openings, shell structures, soil-anchors, etc, can be obtained by finite element analysis. Basic theory and some of the important features of the method, engineering actions, modelling, choice of elements, boundary conditions, input data and interpretation of results are included in this unit.
**Prerequisite(s):** CEB413  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

CEB508 Transport Engineering 2
This is a final year elective unit to prepare students for a career in transportation engineering, as well as to provide them with an understanding of the analytical processes involved in urban transport planning. It covers all transport modes and places emphasis on the planning and evaluation of transport systems. The unit is designed to highlight the economic, environmental and social impacts of transportation projects. The unit complements CEB323 Transport Engineering 1, by dealing in-depth with urban transportation planning and evaluation.
**Prerequisite(s):** CEB323  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

CEB509 Project Management and Administration
This unit introduces some of the issues relating to the management of construction projects from both practical and theoretical points of view. Topics covered include the following: leadership and management of organisations and people; planning of a project; engaging of consultants, subcontractors and suppliers; co-ordination of project activities; cost control and claims; legal and insurance issues; information technology issues; written and verbal communication skills; problem solving, and managing and preventing disputes. Assessment is practical and progressive during the semester and includes a final examination.
**Prerequisite(s):** CEB216, CEB412  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

CEB513 Advanced Construction Practice
Professional engineers generally work in a highly stressed commercial environment with competing pressures. A student in final year should be exposed to realistic experiences. This subject integrates what has already been taught in the specific civil engineering disciplines and requires the student to prepare and submit a commercial tender for a construction project. Teams of students competitively bid for the project. In addition, relevant legal and commercial issues associated with the tender and subsequent administration of the particular construction contract are covered so that the student appreciates the realities associated with a construction project.
**Prerequisite(s):** CEB216  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

CEB514 Project Control
Contemporary engineering demands that the practising engineer needs to master not only basic design and construction concepts but also current management practices. Engineers, whether they are in construction, design or maintenance need to understand the effect that economic decisions made at federal and state level have on their organisations. They must also realise that everyone has a different leadership style that must be fitted into the organisation’s management structure. The subject is designed to provide an insight into the requirements, precepts and problems of project management of interdisciplinary projects.
**Credit points:** 12  **Campus:** Gardens Point

CEB516 Masonry Design
A structural engineer must have the ability to analyse and design engineering components and systems which use masonry as load bearing and in-fill non-structural panels. This course develops a basic understanding of Masonry Technology and Design using the Australian Standard 3700. It provides an understanding of the differences in the material properties of clay, concrete, calcium silicate bricks and blocks. This unit also provides an understanding of workmanship, site practices and construction details of masonry. Students develop the design skills needed for the design of masonry walls, reinforced or un-reinforced and discuss the difference in design procedures for the different masonry materials.
**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

CEB517 Advanced Engineering Studies
This unit provides an opportunity for students to learn how practicing engineers design cold-formed steel and composite structures. The unit has the following aims: to develop an understanding of the design process and how it interacts with the fundamental knowledge of materials and structural analysis; to use advanced computer tools for analysis and design; to work as part of a design team; to present written reports. Students in groups of two will participate in projects to analyse and design cold-formed steel and composite structures.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

### CEB518 River and Coastal Engineering

Many civil engineers are involved in the analysis and design of engineering works in the river and coastal environment. An understanding of the physical processes taking place is a fundamental requirement if engineers are to take an active role in the management of this dynamic environment. This unit builds on the fundamental principles of fluid behaviour covered in Hydraulic Engineering CEB217 and Water Engineering CEB319 and extend these principles to the river and coastal environment. It relies on a prior understanding of physics, mathematics and solid mechanics, and basic hydraulic engineering principles.

**Prerequisite(s):** CEB319  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

### CEB522 Geotechnical Engineering Practice

This unit considers the use of soil and/or rock as an engineering material. The unit includes a wide range of activities such as: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road pavements and embankments; landslide stabilisation and tunnel excavation and support. Following on from the work done in Geotechnical Engineering 1 and Geotechnical Engineering 2, this elective strengthens the understanding of geomechanics, and develops geotechnical investigation, design and construction skills. Three case studies are undertaken, selected from the following: soil reinforcements; lateral loading on piles; embankments on soft soil rockslide stabilisation; house foundations.

**Prerequisite(s):** CEB322  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

### CEB523 Environmental Geotechnology

Graduates may work as part of a team investigating, designing and constructing solutions to waste containment and soil and groundwater pollution problems. This subject prepares them for this work by developing an understanding of the engineering concepts and processes and also by introducing them to specialist techniques, such as contaminant transport modelling, which will be used by more specialist members of these teams. It also prepares students for further postgraduate study in these specialist areas.

**Prerequisite(s):** CEB209, CEB213  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

### CEP142 Water Pollution Control

This unit includes various studies related to waste and resource management and risk analysis. Waste management topics are included: waste avoidance and minimisation, recycling and reuse; waste exchange; energy production; treatment; disposal. Risk analysis studies include risk posed by waste material to human health and the environment and optimisation of resource management.

**Credit points:** 12  
**Campus:** Gardens Point

### CEP143 Biological Treatment Processes

This unit considers the design and operation of water and waste water treatment systems, focusing on conventional and advanced biological treatment processes, current practice and development.

**Credit points:** 12

### CEP151 Road Safety Audit - Principles and Practice

**Credit points:** 12

### CEP161 Professional Development Studies 1

This unit is presented to provide students with an advanced understanding of both the qualitative and quantitative processes involved in industrial and professional activities. Emphasis is placed on the planning, operation, management and evaluation of projects and systems, particularly in context with economic, environmental and social attributes.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

### CEP201 Process Modelling

This unit considers the role of models in engineering design and investigation, and the principles of modelling techniques, their uses, limitations and relevant applications.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point and External  
**Teaching period:** 2008 SEM-1

### CEP216 Advanced Traffic Engineering

This unit considers traffic flow theory and traffic management, and presents analytical and computer analysis routines for urban intersection design, their background and applications.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

### CEP218 Transportation Engineering

This unit is presented to provide students with an advanced understanding of the transport engineering discipline, with emphasis on both the qualitative and quantitative processes involved in urban and regional transport engineering and planning. Emphasis is placed on the planning, operation, management and evaluation of transport projects and...
systems, particularly in context with economic, environmental and social attributes.

**CEP262 Professional Development Studies 2**

This unit provides students with an advanced understanding of the civil/environmental engineering profession with an emphasis on enabling the students to gain an understanding of their contribution in their workplace.

**Credit points:** 12  
**Campus:** Gardens Point

**CEP291 Environmental Law and Assessment**

This unit introduces environmental law. It considers Commonwealth and state legislation, development controls, trends in environmental control, the framework for environmental assessment, description of the environmental setting, and impact assessment and analysis.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**CEP292 Engineering Practice 2**

**Credit points:** 12  
**Campus:** Gardens Point

**CEP294 Engineering Contract Development and Administration**

Good engineering requires much more than a demonstrated ability in project management or design specialisation. It requires engineers that possess vision, strategy, communication skills and the ability to enable others to work together as an effective organisation. To achieve this financial and legal knowledge is necessary. Contemporary engineering demands that the practising engineer masters not only basic concepts in either design or construction but also current engineering approaches to contract management methods.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**CEP295 Civil Engineering Management in a Project Environment**

Contemporary engineering demands that the practising engineer has not only mastered basic concepts in either design or construction but also has a strong background in current engineering approaches and management methods. This course will provide an insight into the requirements, precepts and problems of engineering management of interdisciplinary projects.

**Credit points:** 12  
**Campus:** Gardens Point

**CEP997-2 Project B**

Professional engineers must be able to define and solve problems in areas that are not covered in textbooks and manuals of good practice. Critical assessment of research and development work develops this ability. To obtain this information and to carry out its study needs a plan of action. Students enrol in this unit over two semesters, completing 12 credit points in each semester. The aim of this unit is to help the student to develop skills in reviewing literature and reporting on their area of investigation.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**CLB001 Records Management**

This unit introduces the paper-based and electronic records and information systems operating within and between organisations and the impact that changes in communication technology have had on these systems.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**CLB002 Computer Applications in BCT**

This unit includes an analysis of business environments in a variety of industries: communication practices, communication flows, functions and operational procedures, and the influence and impact of communication technology.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB003 Administrative Procedures**

This unit includes an analysis of business environments in a variety of industries: communication practices, communication flows, functions and operational procedures, and the influence and impact of communication technology.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies**

This unit examines literacy from contemporary perspectives. Literacy education has tended to make an artificial divide between the printed word and visual information. Increasingly, contemporary literate practices combine multiple text forms employing a range of media and technologies to communicate. Texts are spoken, written, visual imagery and other symbolic forms, and are presented in multimedia combinations and digital interactive contexts. This unit examines the complex simultaneity of texts, delivery modes and media that have specific and more general, social and cultural meaning.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-1

**CLB005 Integrated Foundation Studies 3: Wellness and Active Citizenship**
This unit explores the links between a holistic notion of health and wellness and the practice of active citizenship. It investigates the connections between human wellness, behaviour and particular social, cultural, civic, economic and environmental relationships that characterise communities at particular times and places. Students are encouraged to critically analyse such connections and utilise their knowledge and understanding to develop a sense of purpose about wellness and active citizenship in an increasingly globalised world.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** CLB369

### CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1

New basics emerge in literacy education. The privileged status of print as the almost exclusive basis to literacy has diminished. Postmodern media culture is powerful and pervasive, and knowledge communication today is as much through multimedia as it is through the single medium of print. This unit acknowledges that children now form their early concepts about literacy from textual environments that are considerably more complex than for those of their predecessors. Contemporary language and literacy education must base its practices on texts from a range of technologies, involving different media, and in recognition of diverse contexts and social purposes for communicating.

**Credit points:** 12  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** CLB348

### CLB007 Primary Curriculum and Pedagogies: Language and Literacies 2

In this unit, students are required to engage with socio-critical and inclusive principles and practices relating to language and literacy education. They will plan for literacy development in a range of contexts, and examine how strategic practice is linked to particular theories of language and literacy development.

**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2  
**Incompatible with:** CLB349

### CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

This unit focuses on recent developments within the social education curriculum area with particular reference to Studies of Society and Environment (SOSE), a national key learning area and explores teaching and learning approaches in SOSE. Understanding the processes of curriculum development and being able to interpret curriculum documents and their implications for classroom practice are essential professional skills. Students will investigate SOSE as a curriculum area and to consider ways of translating syllabus requirements into worthwhile teaching and learning activities. Students will critically reflect upon both the theory and the practical suggestions throughout the unit and to consider how effective teaching can be achieved.

**Prerequisite(s):** CLB005  
**Corequisite(s):** CLB005  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2008 6TP4 and 2008 SEM-2  
**Incompatible with:** CLB376, CLB122, CLB374

### CLB010 Accounting and Business Management Curriculum Studies 2

This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior Accounting and Business Organisation and Management Syllabi to understand mandatory aspects of each syllabus. This unit will prepare students for their professional role as a teacher of secondary business education subjects, in particular, Accounting and Business Organisation and Management.

**Prerequisite(s):** CLB009 or CLB051  
**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-2

### CLB013 Business and Communication Technologies Curriculum Studies 2

This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior BCT Syllabus to understand mandatory aspects of the syllabus and will prepare students for their professional role as a teacher of secondary business education subjects, in particular, BCT.

**Prerequisite(s):** CLB012 or CLB051  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### CLB016 Economics Curriculum Studies 2

This unit provides pre-service teachers with the opportunities to develop an understanding of teaching and learning in Economics and Studies of Society and Environment (SOSE). The significance of critical approaches and outcomes based approaches are explored in the context of the principles of SOSE/Social Education, pedagogical approaches, syllabus and assessment requirements.

**Prerequisite(s):** CLB015 or CLB054 or CLB051  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### CLB018 English Curriculum Studies 1

This introduction to English teaching in secondary schools, provides an indispensable foundation on which English Curriculum Studies II and III are built. Students will develop an understanding of the theories of language and texts that underpin secondary English curriculum and pedagogy and which condition students learning within English classrooms. Students will have opportunities to apply their learning to their field observations and to plan to put theory of language, texts and learners into practice for English teaching.

**Prerequisite(s):** 24 credit points in appropriate discipline studies  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

### CLB019 English Curriculum Studies 2

This unit provides an opportunity to develop a theorised understanding of the Queensland English Syllabus for
Years 1-10 and to implement this understanding by developing lessons and curriculum units that are appropriate for the needs and interests of diverse learners in a range of sociocultural contexts.

**Prerequisite(s):** CLB018  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB020 English Curriculum Studies 3**  
This unit provides opportunities to develop a theorized understanding of the Queensland English Syllabus for Years 11 and 12, Senior English Communication (SAS) and the Senior English Extension (Literature) Syllabus, and to implement this understanding by analysing and developing senior English programs, teaching and assessment strategies that are appropriate for the needs and interests of diverse learners in particular sociocultural contexts.

**Prerequisite(s):** CLB019  
Credit points: 12  
Campus: Internet and Kelvin Grove  
Teaching period: 2008 SEM-1

**CLB021 ESL Curriculum Studies 1**  
Effective ESL practitioners require a knowledge and understanding of the many factors that impact on the effective learning of a second (or an additional) language and on learning curriculum content through an additional language. They also need to know how these factors influence planning for learning and how they can be managed to maximise learning outcomes. In this first curriculum unit, students will engage with some of the theory that influences approaches to teaching English as an additional language across the curriculum. Students will engage with the documents that impact on planning for ESL teaching and learning eg ESL Framework of Stages and NLLIA ESL Bandscales.

**Prerequisite(s):** 24 credit points in appropriate discipline studies  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

**CLB022 ESL Curriculum Studies 2**  
This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Prerequisite(s):** CLB021  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB023 ESL Curriculum Studies 3**  
This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

**Prerequisite(s):** CLB022  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

**CLB024 Film and Media Curriculum Studies 1**  
This unit is designed to develop competencies needed for planning and teaching in junior secondary Media (Years 8-10). Students will be introduced to the current curricular directions and frameworks for junior media (1-10) and its applications across the curriculum. The unit will build on the understandings and skills students developed in the unit Teaching and Learning Studies I and II and relate also to Field Studies I. This should assist in preparing students for the further Field Studies components of the course.

**Prerequisite(s):** 24 credit points in appropriate discipline studies  
Credit points: 12  
Contact hours: 3 per week  
Teaching period: 2008 SEM-1

**CLB025 Film and Media Curriculum Studies 2**  
This unit allows students to apply theoretical knowledge of the curriculum and their Film and Media discipline units to senior secondary contexts. The unit offers the opportunity to develop research and presentation skills by formally researching and discussing the teaching implications of a number of current topics in film and media education.

**Prerequisite(s):** CLB024  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB026 Film and Media Curriculum Studies 3**  
This unit allows students to apply technological concepts and skills in senior and junior media studies and across other curriculum areas. The unit helps students understand and design pre-production texts investigating the role of technologies in the senior curriculum.

**Prerequisite(s):** CLB025  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

**CLB028 Geography Curriculum Studies 2**  
This unit provides opportunities to develop an understanding of teaching and learning in Geography and Studies of Society and Environment.

**Prerequisite(s):** CLB027  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB031 History Curriculum Studies 2**  
This unit provides opportunities to develop an understanding of teaching and learning in History and Studies of Society and Environment (SOSE).

**Prerequisite(s):** CLB030  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB034 Legal Studies Curriculum Studies 2**  
The second of three complementary units in Legal Studies Curriculum. Units are designed to help prepare students for a professional role as a teacher of secondary school Senior Legal Studies, and also to prepare them to teach in lower secondary subjects which are law-related, particularly the Civics syllabus of SOSE.

**Prerequisite(s):** CLB051 or CLB033  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

**CLB036 LOTE Curriculum Studies 1**  
This unit allows students to develop an understanding of the language learning process and their awareness of the place of languages in the school curriculum. Students will be encouraged to become reflective learners/teachers who can analyse the contexts in which they work, are familiar with policy and curriculum issues and are able to make soundly-based professional judgments designed to maximize learning for all students.

**Prerequisite(s):** 24cp in appropriate discipline studies  
Credit points: 12  
Teaching period: 2008 SEM-1

**CLB037 LOTE Curriculum Studies 2**  
Practising teachers need to be aware that syllabuses, policy documents and the classroom practices and teaching strategies to which they give rise reflect underlying views of language and learning.
**Prerequisite(s):** CLB036  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**CLB038 LOTE Curriculum Studies 3**
This unit builds on the two previous units and explores in greater depth a range of practical and theoretical issues in the area of LOTE curriculum development and implementation.

**Prerequisite(s):** CLB037  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB040 Social Science Curriculum Studies 2**
This unit involves translating the syllabuses into modules or units of work, as well as placing an emphasis on assessment principles in Social Science. Students will also be involved in the development of advanced teaching strategies.

**Prerequisite(s):** CLB040 or CLB039  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**CLB042 Primary LOTE Curriculum Studies 1**
Develops an understanding of the second language learning process and awareness of the place of languages in the primary school curriculum. Students will analyze the contexts in which you work, deal confidently with policy and curriculum issues and make soundly-based professional judgments designed to maximize learning for all students.

**Prerequisite(s):** U/grads 4 LOTE units, P/grads 6 LOTE units  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB045 Becoming a Second Language User**
This unit aims to develop understanding of the processes of second language acquisition from both a practical and theoretical perspective. Students will gain an insight into the attributes of second language users and the issues facing them in contemporary education.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove

**CLB049 The Global Teacher**
This unit enhances the skills of educators to design curriculum and pedagogy in ways that address global citizenship and educational and human rights.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB050 Movies and Popular Culture**

**Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB051 Business Education Curriculum Studies 1**
This is the first of three complementary units in the teaching of Business Education. The three units have been designed to help prepare you for a professional role as a teacher of lower and senior secondary school Business Education subjects (Accounting Business Management, Business Communication Technologies, Economics, Legal Studies, and ICT). In this first unit, the focus will be on curriculum development and teaching approaches in Lower Secondary Business and ICT Education.

**Prerequisite(s):** 48 cps of appropriate discipline studies

**Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-2

**CLB053 Business Education Curriculum Studies 3**
This unit, the final of three complementary units in the teaching of Business and ICT Education, will develop further your professional knowledge and skills as a learner-focused educator and skilled curriculum developer. The unit explores relevant issues, pedagogy and professional requirements essential for teachers of Business and ICT Education in the twenty-first century classroom.

**Corequisite(s):** Relevant Curriculum Studies 2 unit  **Credit points:** 12  **Campus:** Internet and Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB054 Social Education Curriculum Studies 1**
This is the first of three complementary units in Social Education curriculum aimed at preparing you to teach Social Science subjects in the lower secondary school. This unit focuses on recent developments within the curriculum area of social education, with particular reference to the field of Studies of Society and Environment (SOSE) À a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice.

**Prerequisite(s):** 48 cps of appropriate discipline studies  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB056 Social Education Curriculum Studies 3**
This is the third of three complementary units in Social Education curriculum. The aim of this unit is to provide you with opportunities to develop an understanding of the ways in which new policies and initiatives have impacted on teaching and learning in social sciences and specific discipline studies in the senior school.

**Prerequisite(s):** Nil  **Corequisite(s):** Relevant Curriculum Studies 2 unit  **Credit points:** 12  **Campus:** Internet and Kelvin Grove  **Teaching period:** 2008 SEM-1

**CLB122 SOSE Curriculum and Pedagogies**
this unit enhances understanding of the nature of SOSE as a curriculum area, and of the SOSE Syllabus and related curriculum documents.

**Credit points:** 12  **Campus:** External

**CLB320 Studies In Language**
This unit addresses the following topics: the language basis in current approaches to the teaching of English; nature and function of language; the dynamics involved in interactive situations; the appropriateness of language forms used in various social contexts; the educational implications of linguistic diversity within the community; the recognition of the developmental features of adolescent language.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CLB321 Writing Workshop**
The student, as writer, uses all the language modes in social contexts (either genuine or simulated) to lead to writing in a range of situations. Engagement in these writing situations is designed to bring about personal understanding.
of the following: the nature of the writing process; the influence of audience and purpose on the final written product; the range of genres (or forms) falling within the writing activity.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**CLB322 Literature In Secondary Teaching**  
This unit covers the following topics: literature teaching in historical perspective; recent developments in theory; poetry in the senior school; teaching drama in the senior school; teaching the novel in the senior school; shorter works (novellas, short stories) and their use in the English curriculum.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB323 Teaching Adolescent Literature**  
This unit addresses the following topics: scope and nature of young adult literature; strategies for evaluation and selection; recent research into adolescents' reading needs, interests and responses; using young adult books in the curriculum.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB347 Teaching English as an Additional Language**  
This elective unit for students in all teaching specialisations will develop understanding of specific language and learning needs of students for whom English is a second language. It deals with differences in first and second language development; professional implications of significant policy initiatives related to second language learners, and issues in analysis, assessment and cross-cultural communication. Participants will also investigate language demands of their own area of specialisation and develop appropriate teaching techniques and resources.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB373 Environmental Futures in Australia and the Asia-Pacific**  
This unit provides a futures approach in the study of the rapidly changing Asia-Pacific region. An introduction to the study of the future is made through an analysis of principal methods and contemporary contributors such as Toffler and Jones. Methods and models that are applied are relevant to Australia, Asia and the Pacific, involving themes including the following: population and migration; international relations; political institutions and systems; resource allocation and utilisation; sustainable development; environment issues and structural change.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB375 Exploring Outdoors: Education in the Environment**  
This unit is designed to identify and value a wide range of field study resources and venues. Extensive involvement with field study experiences will assist students in developing appropriate skills for investigating environmental issues and concerns as well as helping students reflect and refine the usefulness and value of field experience in developing effective environmental education programs.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB401 Cultural Diversity And Education**  
This unit explores the multicultural nature of Australian society and its educational approaches to addressing the needs of cultural diversity. Participants will analyse the role of the school and the teacher with respect to schooling and pluralism. Students will learn how to identify and challenge various forms of discrimination, and recognise the kinds of social, curriculum, and classroom management policies which are sensitive to the needs of students from diverse socio-cultural backgrounds.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet and Kelvin Grove

**CLB402 Issues In Indigenous Education**  
This unit addresses the following topics: factors influencing the position of Aborigines and Torres Strait Islanders in Australian society; government policies; indigenous cultures and education; current initiatives; participation of indigenous communities in policies and programs.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and External

**CLB403 Gender And Sexuality Issues For Teachers**  
This unit addresses the following topics: gender and sexualities in cultural and school contexts; historical overview of gender relations; theoretical frameworks for gender and current debates in Australia about gender and equity; femininity and masculinity as social constructs; sexuality and the body; violence and gender; debates about boys' behaviour and performance in Australian schools.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

**CLB441 Children's Literature**  
This unit provides students with the opportunity to extend their knowledge of children's literature written by both Australian and overseas writers. It examines traditional and emerging genres, develops critical approaches to texts, and considers ways of using children's literature in the classroom.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLB446 Understanding Texts and Writing**  
Over the past twenty years, linguistic studies have increasingly informed the development of language curriculum, the assessment of language, and the processes of language and literacy learning in schools. Over the same time the need for teachers to have systematic knowledge of language and how it works has been recognised. In much of Australia this systematic approach to describing language comes principally from the systemic functional school of linguistics. This unit provides an organised, contextualised

**Notes:**
- CLN601 Cyberlearning: Information and Knowledge in the Digital Age

This unit addresses the challenges, opportunities and implications for learning and teaching in dynamic, information-rich online environments. It enables students to: critically and creatively engage with contemporary concepts, technologies and practices for diverse educational, professional and information contexts, including school libraries; participate in an online learning community; collaborate in the design, development and evaluation of online learning resources. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** External  
**Teaching period:** 2008 SEM-1

**CLN603 Designing Spaces for Learning**

This unit provides a foundation for understanding the complex relations among space place and learning pedagogies appropriate to the design of innovative, adaptable supportive spaces for learning in future-oriented educational contexts. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLN604 Globalisation and Educational Change**

This unit explores how different paradigms interpret globalisation, global change and the implications for education. It undertakes a comparative analysis of the impact of globalisation on schooling, higher education and the work of multilateral agencies in education across different national and local contexts. Also compared are the impacts of local, national and global forces on the shaping of cultural identities and citizenship. It discusses the implications of internationalisation and new learning technologies for future conceptions of education, for work preparation and for citizenship responsibilities, and uses a FuturesA perspective to discuss the extent to which national education policies are meeting future educational needs. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

**CLN608 Second Language Acquisition**

Research into second language acquisition is providing new insights into the complex processes involved in natural and instructed language development. This unit extends participants knowledge of research into, and theories of, second language acquisition, and explores pedagogical implications and the relevance of research and theories to the enhancement of second language acquisition and learning. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CLN612 Principles Of Second Language Methodology**

This unit considers the range of approaches to second language learning and the theories of language and learning which underpin them: theories of language and learning and their implications for TESOL; the social context of learning and its impact on methodological decision-making; current approaches and methods in TESOL; the roles of teachers and learners in the TESOL classroom. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CLN613 Second Language Curriculum Design Options**

This unit introduces the factors that influence teachers in the development of language programs. It includes analysis of the following areas: learner profiles and needs; aims and objectives; processes and criteria for selecting methodology; content selection and sequencing; choice and evaluation of materials and resources. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CLN615 Directed Reading In Second Language Education**

This unit provides an opportunity for teachers and others involved in TESOL to review current research articles to gain an overview of developments in TESOL/Applied Linguistics and to explore one or two personal interest areas in greater depth. 

**Prerequisite(s):** CLN618  
**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**CLN616 Language Assessment And Program Evaluation In Tesol**

This unit introduces the theories and practices in program evaluation, language testing and proficiency assessment. It examines and evaluates standardised tests and instruments that are used to assess the English language proficiency of speakers for whom English is a second language. 

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 5TP5 and 2008 SEM-2

**CLN617 Personalised Language Development**
Language learning is a lifelong task. This unit allows teachers to take a program of language development aimed at improving their level of proficiency and enhancing their cultural awareness. Students wishing to take this unit should discuss options with the coordinator.

Prerequisite(s): Nil - with permission of course coordinator
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

CLN618 Technology And Second Language Learning
The twentieth century saw a rapid change in the technology available to language teachers. This unit explores the creative teaching potential of this technology in areas such as computer enhanced language learning (CELL), interactive multimedia (including CD-ROM and video disc) and the use of linear video, word processing and audio materials. The unit will also explore access to and pedagogical uses of electronic communication such as email, list servers and bulletin boards.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

CLN619 Functional Grammar And Discourse
When we use language to enact our everyday lives, to teach and to learn, we use discourses to do so. Through this unit, students develop both the knowledge and the tools to analyse how discourses, comprising texts, make meaning linguistically. Students will analyse and discuss how meaning is constructed through interacting socio-cultural contexts and texts. Studies include the relationships among discourse, genre, register and text, involving the role of coherence and cohesion in text level meaning, of transitivity, mood and theme/rheme in clause level meaning, and of nominal, verbal and prepositional groups in group level meaning. Significant linguistic features of written and spoken language are identified and discussed.

Credit points: 12

CLN620 Language And Culture
This unit explores the relationship between language and culture drawing on insights from linguistics, sociolinguistics and cultural theory. It analyses the co-constitutive nature of language and culture and examines how this relationship can be explored in the TESOL context.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SUMMER

CLN621 Principles of English as a Foreign Language (EFL) Methodology
International students preparing to become English language teachers in EFL contexts require knowledge of current approaches to and issues in English language methodology. The key principles and concepts involved in language teachers' decision-making relate to: theories of language, theories of language learning and teaching and social and cultural factors which influence both teachers and learners in language classrooms. This unit responds to the demand for more specifically EFL-oriented teacher preparation which caters to recent graduates from overseas contexts who have not yet begun their professional careers as EFL teachers.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12

CLN622 Professional Practice in the EFL Context
Internationally students wishing to become EFL (English as a Foreign Language) teachers in their home contexts but have no prior teaching experience require a foundational orientation to both general classroom practice and EFL teaching strategies. This unit is designed to provide this primary orientation and introduction to the core principles and practices associated with teaching English in EFL contexts.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12

CLN640 Sociolinguistics
This unit is an introduction to sociolinguistics, the study of language as social process and practice. Topics covered include the following: language functions and varieties; regional and social dialects, styles and registers; pidgin and Creole languages; language as social practice; discourse; speech communities; language and power; sociolinguistics and language teaching.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-2

CLN641 From Theory To Practice- Practical Applications In The TESOL Classroom
This unit focuses on Communicative Language Teaching (CLT). It extends students' knowledge of the general trends in methodology learned in CLN612, by providing a theoretical basis for CLT and various opportunities to apply the theoretical framework to classroom practice.

Prerequisite(s): CLN612
Corequisite(s): CLN612
Credit points: 12
Contact hours: 3 per week
Campus: Internet and Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SUMMER

CLN642 Grammar For Teachers
This unit assists language teachers develop a better understanding of grammar and its place in the teaching and learning of a second language. Participants will develop their own language awareness and explore a range of strategies and techniques for the effective integration of grammar instruction into language programs.

Prerequisite(s): CLN608, CLN612
Corequisite(s): CLN608, CLN612
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2008 SEM-1 and 2008 SEM-2

CLN643 English Language Teaching Management
This unit examines a range of issues of relevance for ESL program directors and managers: organisational cultures; educational leadership and human resource management in TESOL; the role of teachers in the TESOL service industry; legal and industrial contexts of TESOL in Australia; TESOL marketing, promotion and funding; the implications of globalised English language teaching.

Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
CLN645 Studies of Asia: New Pedagogies
This unit employs several theoretical frameworks to investigate significant aspects of Asian societies, their relationships with Australia and debates about the role of education in empowering Australians for regional engagement.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove

CLN646 Knowledge Hubs: Dynamic Information for Learning Environments
The unit provides a research based, theoretical and practical context for exploring organisational, pedagogical, technological and professional dimensions of school libraries and other information services for prospective teacher-librarians information professionals and other educators.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLN647 Youth, Popular Culture, and Texts
In the diverse terrain of popular culture, youth find the resources and means for identity formation, social relations and pleasure, and develop develop a range of knowledge, skills, values and attitudes. Educators need to understand the ways popular cultural texts (literary, mass media, computer-based and digital) form the cultural capital of youth and give meaning to their lived experiences.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1

CLN650 Navigating the Information Universe
This unit supports the critical, ethical and creative engagement of teacher-librarians, educators and information professionals with a diverse array of information, concepts, technologies, social networks, resources and practices pertinent to contemporary information-learning environments. The unit develops conceptual and strategic approaches to enable independent and connected learning via libraries and other information-rich learning sites.
Credit points: 12  Teaching period: 2008 SEM-2

CLP400 Middle Years: Multiliteracies
This unit provides students with the opportunity to develop concepts of themselves as life-long learners and to demonstrate capacities as effective communicators across media through engagement with critical and socio-cultural principles of language and literacy education. The unit models curriculum development principles, inclusivity and reflective practices that involve problem-based learning.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: CLB123

CLP401 Middle Years: Transdisciplinary Arts and SOSE
This unit aims to enhance students' understanding of the nature of SOSE and the ARTS as curriculum areas and to highlight the advantages of bringing these areas of learning together. It also aims to provide the opportunity to engage with the relevant syllabus and curriculum documents by translating goals and outcomes into innovative middle-years teaching units.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: CLB376, CLB122, CLB008

CLP402 Business Education Curriculum Studies 1
This is the first of three complementary units in the teaching of Business Education. The three units have been designed to help prepare you for a professional role as a teacher of lower and senior secondary school Business Education subjects (Accounting Business Management, Business Communication Technologies, Economics, Legal Studies, and ICT. In this first unit, the focus will be on curriculum development and teaching approaches in Lower Secondary Business and ICT Education.
Prerequisite(s): 48 cps of appropriate discipline studies  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP403 Business Education Curriculum Studies 2 (Business Communication and Technology)
This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior BCT Syllabus to understand mandatory aspects of the syllabus and will prepare students for their professional role as a teacher of secondary business education subjects, in particular, BCT.
Prerequisite(s): CLP402  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP404 Business Education Curriculum Studies 2 (Accounting and Business Management)
This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior Accounting and Business Organisation and Management Syllabi to understand mandatory aspects of each syllabus. This unit will prepare students for their professional role as a teacher of secondary business education subjects, in particular, Accounting and Business Organisation and Management.
Prerequisite(s): CLP402  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP406 Legal Studies Education Curriculum Studies
This unit is the second in a suite of three complementary units which can be undertaken in either the Business Education or Social Education streams. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Legal Studies Syllabus to understand mandatory aspects of the syllabus. This unit will prepare students for their professional role as a teacher of secondary Legal Studies.
UNIT SYNOPTES

Prerequisite(s): CLP402 or CLP414  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP407 Business Education Curriculum Studies 3  
This unit, the final of three complementary units in the teaching of Business and ICT Education, will develop further your professional knowledge and skills as a learner-focused educator and skilled curriculum developer. The unit explores relevant issues, pedagogy and professional requirements essential for teachers of Business and ICT Education in the twenty-first century classroom.
Prerequisite(s): Nil  Corequisite(s): CLP403 or CLP404 or MDP455  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP408 English Education Curriculum Studies 1  
An introduction to English teaching in secondary schools, providing an indispensable foundation for subsequent English Curriculum Studies. You will develop an understanding of language learners, and of the theories of language and texts which underpin secondary English curriculum and pedagogy and which condition students' learning within English classrooms. You will have opportunities during your field studies to conduct inquiry-oriented language-focused observations of a range of students, evaluate their language learning needs and devise appropriate learning experiences for them.
Prerequisite(s): 48cp in appropriate discipline studies  
Corequisite(s): Field Studies 1  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP409 English Education Curriculum Studies 2  
This unit aims to provide you with opportunities to develop a critical understanding of the theories and principles which inform the Queensland English Syllabus for Years 1-10 and to implement this understanding by developing junior secondary curriculum units and lessons which are appropriate for the needs and interests of diverse learners in a range of sociocultural contexts.
Prerequisite(s): CLP408  Corequisite(s): Nil  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

CLP410 English Education Curriculum Studies 3  
In this unit, you will develop and implement your understanding of the range of disciplinary approaches (such as Literary and Cultural Studies, Film and Media Studies, and sociolinguistics) which contribute to secondary English curriculum and pedagogy. The policy context is the Queensland English Syllabus for Years 11 and 12, Senior English Communication (SAS), the Senior English Extension (Literature) Syllabus, and school to work transition programs. You will learn to evaluate and develop English work programs for students in the post-compulsory years.
Prerequisite(s): Nil  Corequisite(s): CLP409  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP411 Languages Education Curriculum Studies 1  
Languages Education Curriculum Studies 1 aims to develop your understanding of the language learning process and your awareness of the place of languages in the school curriculum. This unit will focus on developing your understanding of language learning, the place of languages and literacies in the school curriculum and the role of the language teacher in developing linguistic and cultural awareness.
Prerequisite(s): At least 48 cp in appropriate discipline studies  
Corequisite(s): Nil  Credit points: 12  
Campus: Kelvin Grove  Teaching period: 2008 SEM-1

CLP412 Languages Education Curriculum Studies 2  
This unit involves further discussion of the theoretical fundamentals of language curriculum development and methodology and exploration of the major issues that face language teachers in their daily pedagogical decision making. It will develop your capacity to plan learning experiences which support students' involvement in multi-literate practices and develop strategic language learning skills which they can use beyond the classroom.
Prerequisite(s): CLP411  Credit points: 12  
Campus: Kelvin Grove  Teaching period: 2008 SEM-2

CLP413 Languages Education Curriculum Studies 3  
This unit focuses on the development of effective language programs and assessment practices for secondary students, including Senior assessment and outcomes-based assessment in a variety of contexts. This unit aims to support you in expanding your teaching repertoire so that you can provide all learners with an effective learning environment based on a critical awareness of good professional practice.
Credit points: 12  
Campus: Kelvin Grove  Teaching period: 2008 SEM-1

CLP414 Social Education Curriculum Studies 1  
This is the first of three complementary units in Social Education curriculum aimed at preparing you to teach Social Science subjects in the lower secondary school. This unit focuses on recent developments within the curriculum area of social education, with particular reference to the field of Studies of Society and Environment (SOSE) À a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice.
Prerequisite(s): 48 cps of appropriate discipline studies  
Corequisite(s): Nil  Credit points: 12  
Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP415 Social Education Curriculum Studies 2 (Geography)  
This is the second of three complementary units to be taken in the Social Education stream. This unit has been designed specifically to prepare you for a professional role as a teacher of geography in the years of secondary school. It will build on the planning and teaching strategies developed in your first curriculum studies unit. In this second curriculum unit you will explore in depth theories that
influence approaches to teaching in geography and ways of catering for diversity in the classroom.

Prerequisite(s): CLP414  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP416 Social Education Curriculum Studies 2 (History)
This is the second of three complementary units in Social Education curriculum designed to prepare you for a professional role as a teacher of Senior Social Science subjects in the secondary school. This unit builds on the focus of your first curriculum studies unit and extends your knowledge and understanding of the nature of history and historical inquiry developed in the History Curriculum Elective.

Prerequisite(s): CLP414  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP417 Social Education Curriculum Studies 2 (Senior Social Science)
This is the second in a suite of three complementary units which are undertaken in the Social Education Stream. This unit has been designed to prepare you for a professional role as a teacher of secondary school Senior Social Science subjects. The aim of this unit is to provide you with opportunities to develop an understanding of teaching and learning in the social sciences within the senior secondary school.

Prerequisite(s): CLP414  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP418 Social Education Curriculum Studies 3
This is the third of three complementary units in Social Education curriculum. The aim of this unit is to provide you with opportunities to develop an understanding of the ways in which new policies and initiatives have impacted on teaching and learning in social sciences and specific discipline studies in the senior school.

Prerequisite(s): Nil  Corequisite(s): Relevant Curriculum Studies 2 unit  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

CLP419 Social Education Curriculum Studies - Senior History
The aim of this elective unit is to provide you with opportunities to develop an understanding of teaching and learning in history. You will investigate how learning through historical inquiry develops specific historical understandings and skills that are the foundations for historical literacy. This unit provides opportunities for you to critique how recent developments in historical education are impacting upon curriculum development and teaching approaches in Senior Ancient and/or Senior Modern History.

Prerequisite(s): 48 cps of History discipline units  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

CLZ377 Business Education Studies

Credit points: 12  Teaching period: 2008 SEM-2

CNB227 Applied Computing
This unit assists the construction manager to select and use the relevant construction software to measure, estimate, manage, plan, schedule and organise on and off site activities on a construction site. This unit comprises three major components: (a) the advanced application of spreadsheet and databases; (b) the application of construction management packages; and (c) the integration of computer software. A range of computer products are introduced to cover construction management topics such as project scheduling, project control, estimation, and cost monitoring.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Incompatible with: CNB304

CNB294 Agency Practice and Marketing
The focus of this unit is to provide students with a grounding in real estate agency practice and marketing as it applies to the diverse real estate property types of commercial, industrial, retail and residential. By the completion of the unit, students will have a good understanding of real estate agency management and practice methodologies and contemporary real estate marketing theory and practice. Reference is also made to legislative impacts including: the Property Agents and Motor Dealers Act; the Trade Practices Act; the Retail Shop Leases Act and Common Law.

Prerequisite(s): CNB191, CNB193  Credit points: 12  Campus: Gardens Point

CNB296 Contemporary Issues
This unit is deliberately open ended and flexible with regard to content. Issues facing the property industry can be varied and wide-ranging. Content therefore is likely to vary from year to year as issues gain prominence and then recede. Current topics which may be covered might include the following: native title; heritage; contamination; environment and sustainability; professional issues; internationalisation of property markets; water rights; demographics; regional and rural issues; and common property rights.

Prerequisite(s): Year 1 & 2 of CN54  Credit points: 12  Campus: Gardens Point  Incompatible with: CNB285

CNB297 Property Finance
This unit covers the role of property and its financing for development or investment. It considers property in relation to institutional asset allocation, risk diversification and general decision making principles. It develops students' understanding of the nature and impact of loan finance on investment property and the place of property assets within capital markets, relevant to subsequent employment in property as a graduate of property economics.

Prerequisite(s): CNB292  Credit points: 12  Campus: Gardens Point

CNB303 Construction Business Accounting
This unit includes the following content: introduction to accounting; financial accounting (recording accounting information and basic financial statements, company accounts, interpretation of accounts); cost and management accounting (basic cost accounting procedures, direct and indirect costs, fixed and variable cost analysis and
budgetary control); financial management (taxation, payroll, cost of capital, managing working capital, and financing); use of accounting/financial management software.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

**CNB307 Building Economics and Cost Management**
This unit considers the following: the interrelationship between construction industry and economy; the fundamental principles of cost management (design and construction cost planning and cost control); the nature and purpose of cost planning and cost control systems; contract costing (historical accounting) and anticipatory (forecast final cost/value); design economics including cost and value concepts, cost information systems, cost modelling, cost analyses, cost indices, cost data and cost implications of design variables; life cycle costing and modelling including design knowledge in virtual environments; value management including energy efficiency in buildings and value alignment process for project delivery; asset management and building maintenance;

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

**CNB308 Professional Studies 3**
The aim of this unit is to help students understand the character of the decisions required from a construction manager in a project environment. Students advance to decisions related to the overall management of a building company such as staffing, tendering and tactical positioning using the computer simulation Arousal; Students also examine the character of managing construction, the significance of bidding strategies, the management of projects - broad goals/specific goals, project status (progress/profit), corporate entity analysis, comparison of firm bidding with other procurement methods, estimating fee bidding, overheads, tendering, profit and risk, project concept, proposals and commercial awareness.

Prerequisite(s): CNB207  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

**CNB309 Law 2**
This unit addresses the following commercial law topics: sale of goods; hire purchase; trade practices; negotiable instruments; insurance law; partnership law and company law; bankruptcy and liquidation; arbitration including the agreement, appointment of an arbitrator, conduct of an arbitrator, powers and duties, enforcement of an award and costs); alternative dispute resolution. This unit also studies the Building Code of Australia and building regulations which control the design and construction of buildings works. It covers all building law and includes a study of the Interpretation Act and Town Planning Acts.

Prerequisite(s): CNB206, CNB101, CNB105, CNB107, CNB201  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

**CNB310 Measurement 3**
Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers measurement of building services (hydraulics, drainage, electrical and mechanical works).

Prerequisite(s): CNB204  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point

**CNB335 Time Management**
Controlling time and resources is an essential task in construction project management. Students in construction courses must develop an understanding of the skills required for time management. This unit covers the following: project time and resource planning techniques such as bar charts and critical path networks (precedence, time scales, and activity on arrows); line of balance; resource allocation and levelling; schedule updates and progress control; and delays and claims analysis. Applications of computer-based project planning software will form an important part of the study in this unit.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

**CNB336 Construction Business Management**
This unit involves an examination of a range of general business management practices and issues as they relate to the construction industry. Specific topics to be examined include the following: understanding individuals and organisations; personality and attitudes; personal and professional business ethics; motivation and employee performance; stress; managing stress; conflict; change; power and politics; communication; group functions; decision making processes. This unit also examines the impact of industrial relations in the construction industry including the role of unions, labour management, workplace reform and workplace agreements.

Credit points: 12  Campus: Gardens Point

**CNB390 Professional Practice**
Professional experience forms an integral part of the property course. This unit seeks to provide students with a fully supervised University approved work experience placement of 30 days, complementary to their academic program. The unit is fully supported by the Australian Property Institute and the Institute plays a key role in monitoring student/host interaction to ensure students receive the best quality experience possible.

Prerequisite(s): Year 1 & 2 of CN54  Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1

**CNB391 Statutory and Applied Valuations**
Valuers are often called upon to perform valuations of special use properties either for statutory purposes and/or to represent those valuations as an expert witness. For statutory purposes this might include: valuations for tax and taxation of capital gains; statutory rating purposes under relevant legislation including computer assisted mass appraisal; appeals procedure; compulsory acquisition; assessment of compensation resulting from acquisition, resumption and damage. For evidence purposes valuers may be required to provide expert witnesses in regard to professional liability, moot court and the valuation of special purpose properties and businesses as a going concern.

Prerequisite(s): CNB191, CNB194, CNB292  Credit points: 24
points: 12  Campus: Gardens Point

**CNB392 Property Investment Analysis**
Topics covered in this unit include the following: the principles and strategies of investment; alternative forms of investment; real estate as an investment medium; the real estate investment process; property ownership structures; initial feasibility analysis; detailed cash flow analysis involving NPV and IRR analysis; the modified internal rate of return (MIRR) approach; sensitivity and probability analysis; market analysis and real estate cycles; institutional property investment; risk analysis and risk management.

**Prerequisite(s):** CNB194, CNB292  **Credit points:** 12  **Campus:** Gardens Point

**CNB393 Property and Asset Management**
Property Management provides a detailed insight into all aspects of property management, from residential management progressing to specialised industrial, commercial and retail centres. It also addresses life cycle analysis and incorporates units of competency standards ASF 16, 17, 18, 19.

**Prerequisite(s):** CNB191, CNB192, CNB193, CNB194, CNB290, CNB292, CNB293  **Credit points:** 12  **Campus:** Gardens Point

**CNB394 Property Development**
Data is provided on the Australian urban economic environment to enable students to gain knowledge of the various development sectors. Students are exposed to various planning, building, legal, financial and environmental acts and conditions. Knowledge gained is applied to a range of case studies across various development sectors.

**Prerequisite(s):** CNB292, CNB295, CNB297  **Corequisite(s):** CNB392  **Credit points:** 12  **Campus:** Gardens Point

**CNB395 Research Methods**
This unit provides students with the opportunity to develop an understanding of research skills, techniques and methodologies appropriate for the completion of a full research proposal or for the development of advanced database skills. To facilitate this, topics covered include research and retrieval skills, research methodologies and strategies, data collection and analysis and presentation and dissertation writing.

**Credit points:** 12  **Campus:** Gardens Point  **Incompatible with:** CNB383

**CNB402 Investment Theory**
Construction Managers need to understand how property is valued and the different aspects of land that affect the value. This unit includes content on concepts of valuation, types of landed property, income, and ownership costs and capitalisation rates. Students are also provided with concepts of investment theory including NPV, IRR and MIRR.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**CNB408 Advanced Building and Civil Construction**
This unit focuses on non-standard buildings and structures in terms of constructability, construction methodology, planning, estimating, scheduling and site organisation. Significance of temporary works and the inherent need for planning and safety are included. Students study in detail the methods and equipment employed in the construction of earthworks, heavy foundations, steel fabrication and erection, marine and water retaining structures, roadworks and bridges, mechanical erection and electrical structures. The unit concludes with the broader issues of environmental management, construction weather forecasting and the management and social issues of work in remote locations.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNB409 Professional Practice 1**
Professional experience forms an integral part of the academic program, allowing the students the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. A diary and logbook are to be completed and signed by employer. A key learning feature of this unit is the identification of a problem at the students employment and the preparation of a case study report on an actual development project, providing direct insight into the task of problem solving and delivering real projects.

**Prerequisite(s):** To be taken in final year of course  **Corequisite(s):** Employment in the Building Industry  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**CNB410 Property Development**
A study of the property development process giving students a sound knowledge of how property developers identify, measure, structure and manage a property development undertaken in both residential and non-residential sectors of the market. This includes planning, building, legal, financial and environmental issues. The unit introduces the following: the development process; the planning process; identifying and screening development opportunities; market drivers; market demand analysis; income projections; options studies; design management; procurement methods; cost projections; feasibility analysis; authority approvals; development finance; financial structuring; risk management; an communicating with stakeholders.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**CNB420 Current Construction Issues**
This unit addresses new developments in construction and construction management focussing on recent and topical developments in the area of construction management. Areas covered by current construction issues will vary from year to year as advances are made in construction and construction management, but may include the following: quality management; buildability; value analysis; case studies; computer applications and selection; information systems, IT and AL; international construction management; recent developments in law; cultural influences in construction; new construction technologies and
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**CNB423 Professional Practice 2**

Professional experience forms an integral part of the academic programme, allowing the students the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. A diary and logbook are to be completed and signed by the employer. A key learning feature of this unit is the identification of a problem at the students place of employment and the preparation of a case study report on an actual development project, to provide direct insight into the task of problem solving and delivering real projects.

Prerequisite(s): To be taken in final year of course.
Corequisite(s): Employment in the Building Industry
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

**CNB424 Specialist Measurement**

Measurement is a core skill amongst building professionals. This skill is particularly important to students in relation to the production of quantified documents for the purposes of tendering and estimating. This unit is offered in the final year of the course due to the unusual and advanced nature of the construction technology to be measured. The unit covers the following: unusual building works; civil engineering works including earthworks, roadworks and piling; heavy engineering works including refinery/processing plant, mining and offshore platforms.

Prerequisite(s): CNB310  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**CNB425 International Construction**

In this unit students examine history, culture, language, government and business structure and practices, construction methodology, construction management, and general business practices in a country or countries other than Australia, specifically those where issues and practices differ from common Australian practice. An optional student-funded international trip may be offered (likely to be 2-4 weeks) to allow students to experience first-hand the country studied during the semester allowing students to immerse themselves in the culture and further enhance their language skills. Students will be involved in site visits and workshop (studio) type activities during the tour.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**CNB433 Dissertation A**

This unit allows students to explore underlying theory, and maximise the opportunity to investigate and develop an area of personal interest. The focus is on the following: research methodology; data collection and analysis; information literacy; information retrieval skills; literature review and research proposal writing activities; Statistical analysis is also included: introduction to statistics including the role of statistics; data types and properties; data reduction and pictorial presentation; numerical description of data such as population and samples; descriptive statistics; measure of central tendency; measures of dispersion; grouped data and misuse of descriptive statistics.

Prerequisite(s): Completion of first three years of course
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

**CNB434 Dissertation B**

Research and development is an important success factor in today's competitive and global environment. As a student research allows you to explore underlying theory behind your chosen area of interest. On the other hand, as a practitioner, the unit helps you to identify valuable and profitable research. This unit involves collection, analysis and interpretation of primary data in relation to work completed in CNB433, provision of conclusions and recommendations for further research.

Prerequisite(s): CNB433  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**CNB440 Building Surveying Practice**

Building certifiers must have the ability to locate, interpret and assess building plans to legislative requirements, a code of practice and ethical obligations. This unit ensures building certifiers have the fundamental knowledge in order to practice in Queensland. The unit includes the following: the examination of ethical responsibilities; legislative framework; integrated development assessment system (IDAS); interpretation of local planning instruments (Qld specific); State approvals; energy efficiency; and documenting performance based assessments to the Building Code of Australia.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

**CNB441 Construction Dispute Management**

A claim or dispute may arise between an owner and a contractor in contract negligence, nuisance or trespass relating to the performance of commercial or domestic building work. Rights and obligations exist in the performance of building work and participants should use appropriate techniques to avoid and manage disputes. This unit helps students develop the skills required to avoid and manage disputes. It includes the following: analysis of reasons that disputes occur; sources of disputes; statutory obligations to rectify defects; formal dispute resolution through tribunal and courts system; pro-active dispute avoidance techniques; preparation and presentation of a claim/response to a claim; role of an expert witness in disputes; and costs of disputes and wa

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

**CNB442 Measurement 4**

Measurement is a core skill amongst building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: an
examination of the latest software used in the generation of quantities, estimates and capital cost/life cycle cost plans including advanced CAD applications; measurement used to produce financial asset management statements including due diligence and sinking funds; and measurement and assessment of environmental impact of buildings.

Prerequisite(s): CNB310  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CNB483 Smart and Sustainable Construction
This is an assignment based group project work where students from different disciplines undertake project work on a project case study considering key smart and sustainable construction issues, sustainability and its impact on commercial construction development, flexible design considerations, innovative construction techniques, smart engineering services and intelligent building development. Project cases may include any of the following: multi-storey office building projects in the CBD; marina resort development on the tropical Queensland coast; Kelvin Grove Urban Village development; and/or sustainable housing development utilizing specific site characteristics.

Prerequisite(s): Completion of three years of full-time study in respective courses below or in equivalent courses: AR48, BN31, BN32, EE41, CE44, CE46, CN51, CN53, CN54, ME41  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CNB490-1 Research Dissertation
To produce a written dissertation on a topic of their choice, students will embark on a research project culminating in its presentation. Progression will be closely monitored and assistance provided by individual supervisors who will guide the student through the process.

Prerequisite(s): CNB395, completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CNB490-2 Research Dissertation
To produce a written dissertation on a topic of their choice, students will embark on a research project culminating in its presentation. Progression will be closely monitored and assistance provided by individual supervisors who will guide the student through the process.

Prerequisite(s): CNB395, completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CNB491 Rural Valuation
The unit utilises skills and knowledge learned from earlier units and applies these to the valuation of rural assets. In particular this unit examines the physical and economic factors of rural land and its development, land utilisation and degradation, farm management and productivity, and extraneous factors influencing rural valuations. Rural sales and valuation procedures are analysed and physical inspections organised to assist the student with gaining practical experience.

Prerequisite(s): CNB194  Credit points: 12  Campus: Gardens Point

CNB492 Business and Specialist Valuation
Credit points: 12  Campus: Gardens Point

CNB493 Advanced Property Valuation and Analysis
Credit points: 12  Campus: Gardens Point

CNB494 Advanced Market Research Analysis
This unit re-acquaints students with published property market data sources and methods of interpretation. It develops skills to source, analyse, interpret and report on primary property market data using appropriate analysis methods. Students are introduced to statistical software packages as a tool to assist the data analysis process.

Prerequisite(s): Completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Incompatible with: CNP555

CNB495 Strategic Property and Facilities Management
This unit allows students to understand the broader strategic property management issues of property as a component of investment portfolios and as an integral element of business operations. It considers economic environment and property management issues. Base theory includes portfolio analysis and management, asset management and property/tenancy management, facilities management (concentrating on issues of organisation in relation to the identification, provision and management of property assets to support core business delivery), changes to the use of real property and emerging issues.

Prerequisite(s): CNB393, completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point

CNB496 Project Management
This unit introduces project management as a growing discipline/profession. It focuses on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design and project structure, communication, managing change and performance measurement (time, cost and quality).

Prerequisite(s): Completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Incompatible with: CNP520

CNB497 Project Cost and Risk Management
The unit identifies fundamental project management principles that relate to economics, cost, risk management, the key elements of pro-active cost management and the implementation of risk evaluation. It revisits the macro-economic and micro-financial contexts of project, construction and property management and provides students with an understanding of the practical applications of responsibility, accountability, motivation, reporting and implementation of project cost management. Furthermore, it covers the area of risk management analysis functions, techniques and theories, cost management systems applicable to design cost, value management and project life cycle management.

Prerequisite(s): Completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Incompatible with: CNP521
CNP498 Project Human Resource Management  
Credit points: 12  Campus: Gardens Point

CNP499 International Project Development Management  
The unit develops concepts of project development management introduced to the student in CNB496 Project Management, and places them in an international, or more specifically, Asia-Pacific regional context. To this end, the content will be similar to CNB496 with a focus on theories related to project definition and scope, project implementation and termination, and the latest developments affecting the practice of project management in organisations.  
Prerequisite(s): Completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Incompatible with: CNP534

CNN442-1 Dissertation  
Students develop the skills necessary for conducting independent research by completing a dissertation on a chosen topic under the guidance of an appointed supervisor. The approved research topic must be in an area related to project management or property development. The unit also incorporates lectures in research methodology, and information retrieval skills.  
Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CNN442-2 Dissertation  
Students develop the skills necessary for conducting independent research by completing a dissertation on a chosen topic under the guidance of an appointed supervisor. The approved research topic must be in an area related to project management or property development. The unit also incorporates lectures in research methodology, and information retrieval skills.  
Credit points: 24  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CNP001 Knowledge and IT Management  
This unit introduces ideas and develops students' capacity to understand the elements of organisational learning, how to optimise information technologies to serve customers and to support initiatives to simplify and improve management processes, how best to use IT and other communication channels to improve the decision making process, and the impact of internationalisation and cultural diversity upon knowledge and IT management. It comprises Web based learning experience, 'chatrooms', group and individual assignment work. Topics include Knowledge as a critical resource, Capturing and disseminating knowledge, Innovation diffusion, Information technologies that support decision-making, and IT that supports monitoring and information dissemination.  
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

CNP002 Project Procurement and Ethics  
This unit involves two important strands of strategic project procurement knowledge. Procurement systems enable students to experience access to the development of options of acquiring facilities, ideas or other project outcomes from inception to facilities management. Ethical theory and application to procurement provides an ethical framework within which project procurement can be accomplished. The pattern of delivery is by a two-week concentrated seminar program. Students form a syndicate to discuss and distil a response to a vignette relating to theory presented in seminars. During these workshops, students fully discuss issues raised and present an A4 sized sheet summarising their position. These are presented in a plenary session.  
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

CNP003 Project Management Leadership  
This unit concentrates on the nature and practice of leadership, managing change, strategic planning, strategic human resource management, encouraging productive diversity, and managing for organisational learning. It focuses on PM leadership as an enabler for productive growth in terms or organisations and individuals.  
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

CNP011 Knowledge and IT Management Reflective Learning  
This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how knowledge and IT management is applied to the student's working project environment. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP001 Knowledge and IT Management forms the basis of this unit and thus this unit must be undertaken at least concurrently with CNP001. Students are expected to maintain a reflective portfolio for this unit.  
Corequisite(s): CNP001  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

CNP012 Project Procurement and Ethics Reflective Learning  
This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how project procurement strategies and the related ethical aspects are applied to the student's working project environment. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP002 Project Procurement and Ethics forms the basis of this unit. Students are expected to maintain a reflective portfolio for this unit.  
Corequisite(s): CNP002  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

CNP013 Project Management Leadership Reflective Learning
This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and supervisors to help the student produce a case study report on how PM leadership is applied to the student's working project environment. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP003 Project Management Leadership forms the basis of this unit and thus this unit must be undertaken at least concurrently with CNP003. Students are expected to maintain a reflective portfolio for the unit.

**Corequisite(s):** CNP003  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP014 Elective Reflective Learning**

This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how the elective is applied to the student's working project. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP004 Elective forms the basis of this unit and thus this unit must be undertaken at least concurrently with CNP004. Students are expected to maintain a reflective portfolio for the unit.

**Corequisite(s):** CNP004  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP051 Research Project 1**

In this unit, the students interact with library facilities, supervisors and tutorial group to fully acquaint themselves with their research topic, previous research, background and related topics and prepare a detailed annotated bibliography.

**Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP053 Research Project 3**

This unit extends the case study reports from the prerequisite unit into a holistic review of PM practice in the case study investigations. The aim at the end of the unit is to identify a thesis area and an appropriate method for its research, and to have undertaken literature reviews and other preliminary research. A research plan will be agreed between students and supervisors. The unit will involve students integrating their coursework study and case study assignments with a series of empirical and qualitative research studies in the thesis area.

**Prerequisite(s):** CNP052  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP061-1 Research Project 5**

The research encompasses discovery and reflection on PM practice with focus upon case studies drawn from practice; participants compare best practice; with observations made concerning the research cases. The reflective process is based upon not only review of what has been seen to have occurred in the case studies but also on the course participant's reflection on their attitudes, beliefs and actions. The depth and originality of the research needs to be demonstrated as being of doctorate level. It is expected that the learning experience will be diffused to industry and course participant colleagues, as progress seminars will be open to industry and peer review. The unit ends with a 6-month report.

**Prerequisite(s):** CNP051, CNP052, CNP053, CNP054  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP061-2 Research Project 5**

The research encompasses discovery and reflection on PM practice with focus upon case studies drawn from practice; participants compare best practice; with observations made concerning the research cases. The reflective process is based upon not only review of what has been seen to have occurred in the case studies but also on the course participant's reflection on their attitudes, beliefs and actions. The depth and originality of the research needs to be demonstrated as being of doctorate level. It is expected that the learning experience will be diffused to industry and course participant colleagues, as progress seminars will be open to industry and peer review. The unit ends with a 6-month report.

**Prerequisite(s):** CNP051, CNP052, CNP053, CNP054  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP062-1 Research Project 6**

This unit continues from CNP061-1&2 Research Project 5 in encompassing discovery and reflection upon practice and focusing upon case studies drawn from practice, with the course participant's reflection on their attitudes, beliefs and actions resulting from their reflections. It is expected that the learning experience will be further diffused to industry and course participant colleagues via progress seminars. The thesis research is drawn together into a single thesis of approximately 40,000 to 50,000 words in length.

**Prerequisite(s):** CNP061-1, CNP061-2  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP062-2 Research Project 6**

This unit continues from CNP061-1&2 Research Project 5 in encompassing discovery and reflection upon practice and focusing upon case studies drawn from practice, with the course participant's reflection on their attitudes, beliefs and actions resulting from their reflections. It is expected that the learning experience will be further diffused to industry and course participant colleagues via progress seminars. The thesis research is drawn together into a single thesis of approximately 40,000 to 50,000 words in length.

**Prerequisite(s):** CNP061-1, CNP061-2  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP520 Project Management**

This unit is an introduction to project management as a growing discipline/profession. The unit will focus on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design and project structure, communication, managing change and performance.
CNP521 Project Cost and Risk Management
Central to project and construction management are the identification of project risk and the control of project cost. The major objective of this unit is to educate students in the theory and application of the economics and management of project cost and risk. The unit covers techniques and tools essential for proactive project and cost management, and the fundamentals of risk evaluation associated with project implementation.

Credit points: 12  Contact hours: offered in block mode  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

CNP532 Innovation and Technology Management
This unit introduces key concepts in better understanding the role of innovation and technology and its efficient management, to build and maintain a competitive edge in business. This unit links engineering, science and management principles to identify, choose and implement the most effective means of attaining compatibility between an organisation and its competitive, economic and social environments.

Credit points: 12  Contact hours: Block format  Campus: Gardens Point  Teaching period: 2008 SEM-1

CNP533 Project Management Law
This unit aims to create awareness of the legal environment in which the project manager operates. The project manager in the construction industry is exposed to a variety of legal situations on a day-to-day basis. It is important that the manager has the information on which to base decisions which reduce the risk of legal entanglement. The unit covers key principles of tort, contract and construction law from an Australian and international perspective. Dispute resolution processes and mediation are also studied from an Australian and international perspective.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Incompatible with: CNP433

CNP534 International Project Management
This unit introduces key concepts and furthers the understanding of international issues in project management from the perspective of the Australian project manager. It compares technical, managerial, economic and cultural concepts and trends related to project management in the competitive global marketplace. Material is covered from a market viewpoint as well as from the viewpoint of a single project and firm. Emerging opportunities and misconceptions are discussed, with particular reference to the Asia Pacific region.

Credit points: 12  Contact hours: Block format  Campus: Gardens Point  Incompatible with: CNP406

CNP545 Project Development
This unit focuses on issues relating to the feasibility assessment of property development opportunities and the development process. Topics covered include the following: evaluation of project feasibility (financial, social and legal aspects); marketing; project team formation; and contract and procurement options.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: CNP404

CNP547 Property Investment
Property (or real estate) is one of a number of competing investments available in the investment market. The unit covers principles and strategies of property investment and evaluation techniques. Basic concepts of value and detailed financial viability studies are studied, including equity and cash flow models.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: CNP402, CNP438

CNP551 Project Human Resource Management
The most valuable and possibly expensive resource a project manager has is people. The manager needs to know how to maximise this resource by working with all those involved in the project. This unit introduces students to theory and skills in project management as they are applied to managing the people aspects of projects. Theories will be examined as they apply to practical issues. In addition to lectures on the human aspects of project management, an important component of this unit is experiential learning through group dynamics and workshops.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1  Incompatible with: CNP431, CNP437

CNP552 Current Issues
Credit points: 12  Campus: Gardens Point

CNP553 Information Technology for Project Managers
This unit addresses the revolution in information technology and the widespread use of personal computers. It provides project managers with skills in using a range of appropriate software, an appreciation of information resources and the impact of information technology on construction management and property development processes. The unit will provide competency in the selection and use of appropriate information technology through the study of essential computer packages and advanced project management software.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Incompatible with: CNP434, CNP668

CNP554 Advanced Land Development
This unit focuses on the overall development process appropriate to the use of land in a variety of environments. It considers the drivers of development and the correct processes that should be followed to ensure both an economic and a functional result. It looks at land development within the Central Business District (CBD), suburban commercial, residential and industrial areas.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2  Incompatible with: CNP404

CNP555 Property Market Analysis
This unit covers the principles of property economics and market research methodology focusing on surveys and
hypotheses testing, property market data available in Australia, and supply and demand studies of property.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CNP556 Property Management and Contracts
This unit covers the following: property contracts (especially leases, partial rights, purchase and sale; lease management; rent statements and accounting procedures; computer based property management programs; property type differentials; and property portfolio management.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CNP557 Property Finance and Capital Markets
This unit deals with property in a capital markets environment. It examines property as an asset class and the financing of property assets. It considers property in relation to institutional asset allocation, risk diversification and general decision making principles.

Prerequisite(s): CNP547  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

CTB302 Caboolture Special Topics
In this unit, students follow a specialised program agreed to by the academic staff member and the student. It may involve in-depth examination of an issue of importance, supervised work based experience, or the completion of a significant work related project such as a business plan or programming assignment.

Prerequisite(s): 96cp of approved study and Course Coordinator's approval  Credit points: 12  Contact hours: Arranged with Course Coordinator  Campus: Caboolture  Teaching period: 2008 SEM-1

DAB110 Introductory Architectural Design 1
This unit offers a broad introduction to the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Analysis of the constructed environment leads to a number of design projects that engage with issues of context, tectonics, planning, form, and spatial quality. Orthogonal drawing exercises, freehand sketching, presentation graphics, and model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

DAB210 Introductory Architectural Design 2
This unit offers a focused introduction to the field of design through engagement with the explicit process of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Architectural design as a manageable process in explored through a number of exercises and design projects. Discrete steps in the process of architectural design are made explicit through staged activities that build to a complete design project. Orthogonal drawing exercises, freehand sketching, presentation graphics, and model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Prerequisite(s): DAB110  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

DAB220 Theories and Contexts of Place in Architecture
The unit aims to promote students' awareness of concepts of environmental psychology such as territory, community, privacy, personal space and spatial perception from a variety of cultural perspectives. It also includes an introduction to the ways in which architecture is practiced and the concept of professionalism as it pertains to architectural practice. Further the unit explores social and cultural relationships between people and the institutions of society through the study of introductory sociology, cultural analysis and political economy. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

DAB310 Architectural Design 3
This unit offers an intermediate level investigation into the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Design problems of increased complexity are tackled through a process of abstraction, experimentation, representation, imagination, and testing. Advanced orthogonal drawing exercises, freehand sketching, presentation graphics, documentation techniques, and model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Prerequisite(s): DAB210  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

DAB325 Architecture in the 20th Century
Designers in any discipline should possess the ability to appreciate the history of art, design and architecture. In addition, they should be able to analyse developments in design history from multiple perspectives. This unit is a survey course of the history and theory of architecture from the beginning of the 20th century to the present. Teaching and learning takes place through three forms of structured activity: lectures, tutorials, and online.

Prerequisite(s): DEB102  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2008 SEM-1

DAB330 Integrated Technologies 1
This unit is designed to introduce the technical skills required for simple design projects. The studio consists of two segments namely architectural science and building structures. Thermal properties of building materials, climate and climatic elements as environmental factors influencing architectural design will be explored in detailed exercises. Also promoted will be the students' understanding of physical constraints and consequences of the behaviour of architectural structural solutions.
DAB310 Architectural Design 4
This unit offers an intermediate level investigation into the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Complex design problems deal with issues of social context, ethics, values, as well as the physical constraints of site, materials, climate, and technology. Design projects require the management of conflicting constraints to achieve optimal design proposals. Precedence, typologies, research and analysis, and representation techniques all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.
**Prerequisite(s):** DAB310  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

DAB420 Architecture, Culture and Space
Architecture is, arguably, a measure of a community's cultural mores; it reflects the attitudes, values and beliefs of its period. In this unit students are introduced to the diverse architectural traditions of Australasia, and an appreciation of architecture through the understanding of Asian cultures, as well as the development of architectural culture through the processes of historical colonial expansion into the region. It will give students an overview of both the history and current trends of Australian architecture and locate it within the context of the larger Asia-Pacific region. Teaching and learning is conducted through problem-based learning with supporting lectures and tutorials.
**Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

DAB435 Architectural Technology 1
The unit will explore various forms of domestic construction with particular reference to general properties of building materials, common construction practices used in dwellings, single storey and class 10 buildings. Comparison of building systems and their effect on domestic building design will be explored in detail. Students will be introduced to the construction aspects of the BCA including its housing provisions and associated codes for all types of buildings to assist to achieve the requirements for building approvals.
**Prerequisite(s):** BEB200  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

DAB510 Architectural Design 5
This unit offers a focused intermediate level investigation into the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Design theory, sustainability, sociology, history and critique, as they all apply to architectural design, all form part of the unit content. Design projects require synthesis of a range of abstract issues to achieve focused architectural proposals. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.
**Prerequisite(s):** DAB410  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

DAB525 Architecture and the City
This unit aims to give a comprehensive overview of issues and techniques relevant to architectural design at an urban scale. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.
**Prerequisite(s):** DAB325  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

DAB530 Integrated Technologies 2
The aim of the structures segment of the unit is to familiarize students with the qualitative influences of structural systems on the design development of buildings. In particular the possibilities and limits of building structure are explored in relation to architectural intention through the use of exemplar. The aim of the construction segment is to familiarize students with various construction systems used in medium-rise commercial buildings. Here the emphasis is on the criteria to be used for the selection of appropriate systems and their associated materials.
**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

DAB610 Architectural Design 6
This unit offers an advanced level investigation into the field of design as applied to architecture, with particular focus on the synthesis of issues, ideas, knowledge and techniques. This unit aims to present architecture as a holistic practice, inclusive of numerous concerns. On completion of this unit you should be able to; exhibit competence and clarity of intent across several fields of knowledge: spatial quality, context, tectonics, planning, and form; synthesise and manage a variety of issues to achieve a balanced and defensible design outcome; translate the analysis of precedence to new situations; use a variety of design processes and techniques to generate, represent, and test architectural ideas; represent and communicate ideas of an architectural nature through advanced documentation techniques.
**Prerequisite(s):** DAB510  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

DAB635 Architectural Technology 2
It is a fundamental task of architectural design to achieve the comfort requirements of the users. Environmental science segment aims to promote students' understanding and awareness of natural means of control of indoor conditions and will include condensation, ventilation, shading devices, lighting, acoustics, and energy efficiency measures in the BCA. Also included in the unit will be building services for low-rise buildings and industrial building construction, in particular steel framed buildings and tilt-up construction.
**Prerequisite(s):** DAB435  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

DBB656 Global Positioning Systems
This unit includes the following: concepts and theory of Global Positioning Systems including the space segment, control segment and user segment; satellite signal structures and the importance of precise timing; introduction to global and local coordinate systems and heights; error sources and accuracy in GPS; temporal and spatial variation; mission planning and data collection management; navigation and data collection techniques; point positioning and analysis; introduction to broadcast differential GPS positioning methods. Practical exercises are conducted in small groups.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1 and 2008 SEM-2

DBP401 Urban Design and Site Analysis
Planning students need to understand the various issues relating to city development as well as learning site planning processes for the development of urban land. This planning unit is designed to assist students develop basic skills of urban and site analysis.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP402 Planning Processes
Graduate students from other disciplines learn how to develop and apply reflexive planning processes applicable to a variety of situations and scales. This involves understanding how land uses are generated and the processes by which they may be planned. The unit examines and explains the logic, role and methods of successive stages of the planning process, from objective formulation, information and resource analysis through policy and strategy development to evaluation, development of proposals and monitoring.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP403 Design Communication
Students entering the course from non-design disciplines require basic skills in graphic communication for use in planning practice and design units. This unit, which is normally taught intensive mode preceding the start of semester, has two elements. Perception and Basic Design includes how and what we see, design vocabulary and comparative models of design. Planning Graphics introduces students to different forms of representation, methods, presentation, visual imagery, and graphic tools for analysis and synthesis.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP404 Economic and Social Foundations of Planning
This is an introductory unit which deals with the economic, social and technological processes that have shaped and still shape our communities and settlements. Urban and regional planners need to appreciate these processes in order to understand their impacts and to utilise them in planning human settlements.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-2

DBP406 Computer Applications in Planning
Planning professionals need both a conceptual understanding, and concrete skills, in the application of computers to analyse and interpret digital and spatial information that forms the basis of decision making. Across both government and private sectors, information is communicated within the digital environment, and as the associated technology, software and methods rapidly develop, planners need to possess the necessary computer skills to continue using digital tools effectively.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP407 Environmental Planning and Management
This unit seeks to introduce students to the theories, processes and tools of environmental planning and management. The unit provides the student with a basic understanding of a range of environmental issues and concerns relevant to planning issues and problems. It addresses the broad range of planning decisions that affect the environment.

Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP408 Planning Implementation and Law
Professional competence in planning requires a detailed understanding of the theory and implementation of planning procedure, planning law and other related legislation. This unit in planning implementation and law is designed to give students basic skills and knowledge of planning law and its associated procedures.

Credit points: 12  Campus: Gardens Point

DBP409 Urban Planning Practice
Planners need the skills to understand and analyse local issues and develop plans and strategies to address them. This will involve the preparation of integrated local area plans in consultation with local communities and stakeholders. This unit, normally consisting of a real world project conducted in conjunction with local governments and communities, provides students with these skills of integrated local area planning.

Prerequisite(s): DBP402  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP410 Research Methods in Planning
This unit introduces students to the range of research methods available to them as planners and provides a critical format in which they can assess the efficacy and suitability of these methods. It also provides practical experience in using relevant methods and techniques to address current planning issues.

Prerequisite(s): DBP402  Credit points: 12  Campus: Gardens Point  Teaching period: 2008 SEM-1

DBP411 Community Planning
Planners work with wide range of communities and therefore need to understand and address a diverse range of concerns. This unit applies knowledge and skills acquired elsewhere in the course to help students understand and inter-relate a wide range of community concerns including land use and development assessment, employment, human services, environmental quality, urban design, access and culture. In exploring the practices and theories
of community planning, particular emphasis is placed on community involvement, consultation and conflict resolution.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DBP412 Planning Theory and Ethics**

Students learn about the conceptual basis to their profession and are inculcated with a sound basis of professional ethics. This unit explores the theoretical underpinnings of urban and regional planning through an investigation of a variety of ideas about planning. It also links ideas about the nature and purpose of planning with ideas about professional ethics. Because it is based on utilising students' previous experience it comes in a later semester of the course.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DBP413 Regional Planning Practice**

This unit provides the opportunity to develop and apply wide-ranging skills of analysis and synthesis in a real world problem-solving situation, linked to policy formulation issues explored in parallel in DBP414. As the second of two practice-focused units, Regional Planning Practice concentrates on the broader regional and metropolitan scales to develop skills in dealing with larger scale, strategic-level planning.

**Prerequisite(s):** DBP409  
**Corequisite(s):** DBP414  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DBP414 Regional and Metropolitan Policy**

Relevant and effective regional and metropolitan policies must draw upon a wide range of knowledge and skills integrating regionalism, demography, economics, human activities, central place theory, regional resource evaluation, social organisation and public administration. These operate and need to be understood at both global and regional scales. The resulting synthesis must be applied within specific regions. In order to achieve this, the unit is designed to focus and apply material from diverse disciplines and locations to current regional and metropolitan policy issues in South East Queensland.

**Prerequisite(s):** DBP402  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DBP415 Professional Practice or Research Project**

This unit offers students the choice of undertaking a supervised individual research project or a structured period of professional practice. The two are offered in the one unit in order to encourage synthesis between research and professional activities. Both activities are most appropriate in the final semester of the course, allowing students to build on and integrate their previous experience. This unit also provides a stepping stone for students continuing on to the Master of Urban and Regional Planning by providing either a first stage to an advanced research project or an introduction to an advanced professional practice project.

**Prerequisite(s):** DBP410, DBP409  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**DBP416 Elective**

This unit enables students to choose an elective from the offerings of any course in QUT or another university, provided that it will enhance learning in the core discipline. Selection requires the approval of the Course Coordinator.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**DBP417 Comparative Planning**

This unit focuses the comparative dimension within the course by introducing students to the practice of urban and regional planning in specific locations and contexts either through attendance on a field course or at an approved conference.

**Credit points:** 0  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**DBP501 Specialisation**

This unit enables students to extend their knowledge in areas supporting their main area of practice or research interest. This personalised unit may incorporate study in specific programs offered within the School or from advanced units within QUT or another university, or through specialist guidance by staff in their areas of expertise and approved by the Head of School on the recommendation of their research project supervisor.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**DBP502 Professional Practice or Research Dissertation**

This unit is the central element of the Master of Urban and Regional Planning. Because the Masters is intended for students with advanced professional or advanced academic intentions, this unit allows either for professional development through a period of mentored professional practice or research development through supervised individual advanced research. The two are combined into a single unit in order to encourage synthesis between research and professional activities. The unit is an extension of the study completed in DBP415 Professional Practice or Research Project in the Graduate Diploma in Urban and Regional Planning. The unit will normally be linked to the student/staff seminars in DBP503 Masters Seminar.

**Prerequisite(s):** DBP415  
**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1 and 2008 SEM-2

**DBP503 Masters Seminar**

In order to derive full benefit from their advanced studies, Master students need to exchange views on theory and practice with each other and with experienced practitioners and academics. They also need to explore the significance of their studies for issues of major planning significance. This unit thus provides an integrated forum as a communicative core to the Masters Program, linking individual dissertations and professional practice experience to a wider contemporary context.

**Prerequisite(s):** DBP414  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DEB101 Introducing Design**
Please note: this unit is only available to First Year DE40 and IT04 students.

This unit offers a uniquely broad introduction to the field of design as applied across the design disciplines. It uses exercises to enhance student perceptions of the natural and human made environments in a problem based learning context. The unit is block taught over several weeks during the semester and will include students from a range of design disciplines participating in a four day field trip (students unable to attend participate in an alternative program). Students work individually and in cross-disciplinary teams in a stimulating and immersive environment. This unit covers content of problem solving, team work, visualisation and communication, and environmental awareness.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DEB102 Introducing Design History**
Designers within any discipline should possess the ability to appreciate the history of design. This involves appreciation of developments in design history and theory from multiple perspectives. This unit encompasses a broad survey of the history of design from the civilizations of antiquity to the opening of the 20th century. It is a first year foundation unit and serves as preparation for more detailed and specialized studies in history and theory in subsequent years. Key designs, ideas and artefacts and the aesthetic, environmental, technological, socio-cultural and political factors that related to their production will be analysed. Teaching and learning takes place through three forms of structured activity: lectures, tutorials, and online.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DEB201 Digital Communication**
This unit introduces students to the foundational aspects of digital design communication, placing generic design in context and focusing on multidisciplinarity in the stages of the design process. This unit is an approach to the theory and practice of digital media, exploring the translation from manual to digital media in design communication and presentation.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DEB500 Participatory Methods and Practices in Design**
This unit is the disciplinary practice-focussed unit within the ÓDesign for Community Engagement and ParticipationÓ minor set.
After completing the introductory/professional studies in human services, this practically oriented unit will introduce you to a range of participatory design methods and allow you to contextualize these skills by applying them to resolve community-based design scenarios of direct relevance to the built environment professions.

**Prerequisite(s):** HHB102 or HHB103 and HHB212 or HBB314 or HBB216  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**DEB601 Collaborative Design**

The experience of cross-disciplinary design collaboration is considered a significant aspect of the preparation of design students for future professional practice. This unit provides such an experience through a collaborative design studio. Collaboration will be addresses and fostered by students working on a design studio project that facilitates cross-disciplinary collaboration and introduces them to various forms of collaboration. Through the project student will be exposed to the discourse of design disciplines other than their own while at the same time being able to build on discipline specific skills, knowledge and attitudes.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DEN510 Urban Design Theory**
This unit lays a theoretical foundation for postgraduate coursework and practice in urban design and other professions involved in producing the built environment. It provides a critical view of the theory and practice for urban design as a basis for the development of specialist knowledge in this field, both within this unit and other units within this urban design program.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DEN520 Urban Design and Theory Studio B**
This unit, as a studio, allows for the synthesis of knowledge and skills from other units in the course. It offers a problem based learning experience that engages with advanced urban design issues. The unit focuses on the design management of the transformation and incremental development of existing urban/suburban/town/fringe areas. This area of urban design activity has to mediate between existing development patterns, ownership patterns, development trends, diverse community aspirations, and professional and institutional practices.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DLB130 Introducing Landscape Design**
This unit provides the foundation knowledge in design theory and the communication skills to understand the process and articulation of a design resolution as the focal point of landscape architecture. It will concentrate on the theory, language and universal rules of design and development of the manual graphic skills that underpin this problem solving activity. It will enable students to progress to the higher order theories, processes and contexts of landscape design in subsequent design units. The unit provides the opportunity for developing these foundation skills in a range of real world and abstract problem solving situations. The program includes an exploration of leading contemporary landscape design around the world.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DLB210 Environmental Design 1**
This studio will be underpinned by a sustainability theme. Its two main themes are: (a) water management - introduces responsible approaches to water (and waste) in the designed landscape, including more sustainable use of 'bluewater', 'greywater' and 'blackwater'; and (b) sustainable land management - introduces the basics of
climatically sensitive spatial and planting design to minimise energy use, creating 'eco-cities' for sustainable living that emphasises such strategies as alternative traffic planning for maximum human benefit. Continued development of graphics skills in design exploration and communication is integrated into the program. It is block taught in the first half of the semester.

**Prerequisite(s):** DLB130  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DLB230 Environmental Design 2**  
This design unit, supported by an introduction to plant ecology, explores three themes: (a) toxic remediation of waste and contaminated land and treatments including physical interventions and the role of environmental artists; (b) permaculture - sustainable productive horticultural design and management and the ethno-botanical and traditional organic horticultural practices that are the foundation of 'permanent agriculture' ('Permaculture'); and (c) landscape art in Australia - Indigenous and Non-indigenous landscape art, environmental art and land art. Continued development of graphics skills in design exploration and communication is integrated into the program. It is block taught in the second half of the semester.

**Prerequisite(s):** DLB130  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DLB310 People and Place**  
This design unit explores the theory of spatial design theory and applies that theory to practice. This unit concentrates on designing places for community heterogeneity and provides the underpinning of knowledge and skill needed to make an effective contribution to the profession of landscape architecture. The aim of this unit is to provide the basic skills and knowledge in the ways in which people use, perceive and value places within existing environments and how to apply those skills in design to make places for people that are safe, pleasant and inspiring. Continued development of graphics skills in design exploration and communication is integrated into the program.

**Prerequisite(s):** DLB210, DLB230  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DLB330 People and Environment**  
An understanding of physical geography, geomorphology and the theoretical concepts of landscape ecology as a spatial analysis tool underpin this unit. The theoretical concepts are applied in a related design problem. This studio concentrates on understanding heterogeneity in all landscapes from the 'natural' to the 'developed' by recognising that all landscapes share a similar structural model. The unit comprises three modules of discovery: (a) developing landscapes - patterns and palimpsests; (b) landform systems and processes; and (c) landscape structure and dynamics.

**Prerequisite(s):** DLB210, DLB230  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DLB410 Creative Site Design 1**  
This design unit will establish a theoretical and applied understanding of site planning and design processes and the design of plant assemblages at a broad site scale and will build directly on previous design exploration and related studies to develop skills in the artful, orderly, efficient, aesthetic, and ecologically sensitive arrangement of constructed objects and spaces on a site and their integration with the site's natural features and ecological systems to balance unity with diversity, respect the spirit of the place, and satisfy the needs and values of its intended users. Continued development of graphics skills in design exploration and communication will be integrated into the program.

**Prerequisite(s):** DLB310, DLB330  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DLB430 Physical Site Design**  
This studio is complementary to Creative Site Design 1. The core of landscape architecture is the design of controlled change to landscapes. Design implementation requires the re-construction of the existing landscape into new forms. Physical site design continues the creative site design process at a finer scale of detail and precision to resolve site regrading, management of surface and sub-surface water and preparing sites for planting new landscapes. It is inextricably linked to the processes of maintenance and management and requires understanding of whole of life costs to meet sustainability objectives. This unit will develop technical graphic skills associated with manual and digital design communication.

**Prerequisite(s):** DLB310, DLB330  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DLB510 Creative Site Design 2**  
This design unit builds on Creative Site Design 1 and extends the theoretical and applied understanding of site planning and design processes and the design of plant assemblages at a small and complex site scales. It develops skills in the artful, orderly, efficient, aesthetic, and ecologically sensitive arrangement of constructed objects and spaces on a site and their integration with the site's features, systems, spirit of place and satisfying the needs and values of its intended users. Emphasis will be on resolution of the design at a detailed scale. Application of appropriate graphic communication in all forms will be integrated into the program. The unit will be block taught in the first half of the semester.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DLB525 History and Criticism of Landscape Design**  
This unit provides a substantial exploration of landscape design throughout history, building on the foundation of the broad view of design history provided in first year. It will be examine past and contemporary design criticism and the role that landscape architects play in this regard. The origins of the landscape architecture profession will be investigated. History informs us about the interaction between society, the environment, and the consequences for human
settlement and designed landscapes. Multiple views of history and historiography will be investigated to provide useful lessons that can be applied in the contemporary world for the betterment of humankind and the environment.  

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DLB530 Design Resolution**  
This studio will build on the work of Creative Site Design 2. The unit introduces the properties and use of materials encountered in landscape construction and the processes of resolving and communicating design decisions as construction documentation. It includes principles of applied science and mechanics relating to the stability of site elements; graphic (manual and digital) skills required to explore construction problems and communicate required outcomes. It will require students to undertake effective research and evaluation of technical data and techniques available to the construction industry in seeking valid solutions to construction problems. The unit will be block taught in the second half of the semester.  

**Prerequisite(s):** DLB430  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DLB630 Advanced Landscape Construction**  
This unit will build on the work of previous design resolution units to take the student into the realm of construction of larger scale landscape elements. Topics include: the principles and practice of water sensitive urban design; design and construction of golf courses, swimming pools; and artificial lakes and earth dams; scope of contract documents; defining extent of works; set-out of works - horizontal and vertical; site clearing, demolition and environmental protection and noise control. The unit will also advance the principles and practice of contract documentation including writing contract and construction specifications.  

**Prerequisite(s):** DLB530  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DLB645 Regulating the Built Environment**  
This unit develops understanding of government and non-government institutions that affect land and building development together with a more detailed understanding of specific legal and quasi-legal frameworks having influence on professional practice. Topics include: property with special reference to land ownership; land development applications under the Integrated Planning Act, tort, duty of care and the basis for professional liability; introduction to intellectual property; construction statutes, regulations, codes including the Building Code of Australia, standards and protocols, consultancy and construction contracts, and practice guides and law relating to practice.  

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DNB101 Industrial Design 1**  
Industrial design revolves around the creation of products that satisfy human needs within the constraints of industrial and commercial production. This involves the manipulation of form with an understanding of structure, function, and beauty. Through projects students will be exposed to: basic design elements and principles; introduction to product visualisation techniques including concept sketching and marker rendering; design process and concept development; basic model making techniques; design presentation.  

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DNB201 Industrial Design 2**  
This unit continues with the development of visual and creative thinking within the context of industrial design with special emphasis on the development of product form. Through projects students will be exposed to: aesthetic aspects of products; design process and concept development; product visualisation techniques including concept sketching and marker rendering; model making and basic photographic documentation skills; design presentation.  

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DNB202 Product Usability**  
The professional designer designs principally for others and not primarily by personal preference. Therefore an understanding of the breadth of physical and cognitive needs and capabilities of people is vital to the development of useable products. This unit provides the basis for a user-centred design philosophy built upon an understanding of people and their capabilities and knowledge and experience to integrate advanced human factors and usability concepts into the industrial design process. The content covered in this unit includes: anthropometrics; principles of physical and cognitive ergonomic requirements of special needs groups; human error; usability principles; usability evaluation methods and user testing techniques.  

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DNB301 Industrial Design 3**  
Product innovation requires a firm grounding in technology combined with is fostered by knowledge of technology and sound design process. This unit introduces design research and process models that emphasise the development an outlook that brings new ways of thinking about design problems. Through projects students will be exposed to: design process; introduction to design innovation; application of engineering mechanisms/principles in product and system; application transfer principles and design; communication skills.  

**Prerequisite(s):** DNB101  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DNB302 Computer Aided Industrial Design**  
Computer Aided Industrial Design (CAID) has become an integral tool within industrial design practice. It encompasses a variety of techniques, which have varying applications across the stages of the design process. Students will have a greater depth of industrial design
Experience and the ability to further apply the concepts of CAID directly to their design projects. The content covered in this unit includes: introduction to 3D dimensional NURBS based surface modelling for external component representation; introduction to computer visualisation for the application of form and product evaluation; development of skills in the use of Computer Aided Industrial Design (CAID) for evaluating design concepts; introduction to parametric based modelling for consumer product component design; introduction to Rapid Prototyping and Tooling; advanced computer visualisation and virtual reality.

**Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DNB303 Manufacturing Technology**
Manufacturing technology is integral to industrial design and is a basic knowledge requirement to build upon throughout the course. Design for manufacturing allows both the analysis and application of manufacturing principles to product design and development. The knowledge gained in this unit allows the designer to develop a sound awareness of the relationship between design and manufacturing. The content covered in this unit includes: electronics; plastics; production techniques in relation to different materials; forming; finishing operations; production costs; technical documentation and communication.

**Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DNB401 Industrial Design 4**
Industrial design goes beyond the development of discrete artifacts to include systems. This unit examines approaches to systems design and explores how various products and processes interact, sometimes in complex ways. Through projects students will be exposed to: design process; further development of design innovation; communication skills; integration of design processes manufacturing technology and engineering principles.

**Prerequisite(s):** DNB201  **Credit points:** 12  **Contact hours:** 4  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DNB402 Socio-cultural Studies**
An understanding of people and their cognitive and emotive relationship with the world is essential for designing responsive products and environments. This unit encourages a diversity of knowledge to gain a broader perspective of cultural economy and understand better the designer's interaction with society and diverse cultures. The content covered in this unit includes: psychological implications of everyday human-artefact interactivity; environmental and cultural perception; psychological implications and attitudes imbedded in product semantics and symbolics; personal space and territoriality; the role of designer in responding to the manifestations and dictates of society including market forces, political determinants and socio-cultural relationships within a modern/post modern context.

**Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DNB501 Industrial Design 5**
Experience design (or design for experience) is a design approach that aims to create appropriate experiences before, during and after product interaction. This unit introduces methods for enhancing the user experience. Through projects students will be exposed to:
- design process and creative thinking
- experience design
- system design
- creativity and product innovation
- interdisciplinary teamwork
- design ethics and culture

**Prerequisite(s):** DNB301  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DNB502 Industrial Design History, Theory and Criticism**
This unit provides students with the opportunity to become aware of theoretical and historical discourse in industrial design and to debate innovative and advanced ideas and critical thinking in the field internationally. It provides a framework in which students can locate their individual design activities. The content covered in this unit includes:
- contemporary history of industrial design
- relationship between social and technological change and industrial design
- contemporary design theory and discourse
- criticism methodology
- writing about design

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-1

**DNB601 Industrial Design 6**
Design for experience focuses design intent not on products as an end in themselves but in the experiences of the people who use them. Going beyond this involves focusing on the emotional aspects of experience. Through projects students will be exposed to:
- design process and creative thinking
- interaction design
- socio-cultural trend analysis
- design narratives
- creativity and product innovation
- interdisciplinary teamwork
- design ethics and culture

**Prerequisite(s):** DNB401  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2008 SEM-2

**DNB602 New Product Development**
The unit will focus on the introduction of new products into the market. It will provide the students with an overview of the relationship between product design and commercialisation. It will provide an overview of strategy development where the aim is to meet consumer expectations, whilst achieving corporate objectives. The major topics covered in this unit include:
- new product development process
- idea generation
- strategic planning
- introduction to marketing
- product screening and evaluation
- commercialisation and post launch review

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:**
Gardens Point  Teaching period: 2008 SEM-2

**DTB101 Interior Design 1**
This unit provides foundational material for the study of interior design. Students will be introduced to design theory, methodology and aesthetics. Design will be explored as an interpretive process. Topics covered in the context of projects for the unit include: The studio as a way of learning; Introductory design exercises exploring two dimensional elements as they relate to the interior design context; Freehand sketching, principles of perspective; Mechanical drawing, principles of scaled drawing; Presentation and visual communication skills; Environmental issues and sustainability.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

**DTB201 Interior Design 2**
This unit introduces the student to design in three dimensional spaces of relevance to the practice of interior design and with a particular emphasis on the socio-cultural relations between people and the environment. The unit aims to foster an understanding of design not only as a language of exploration and communication but also as an activity addressing person-environment interaction in a certain way. Topics covered in the context of projects for the unit include: Introduction to characteristics of design problems; Methods to generate and test design proposals; Creativity and innovation relative to contextuality; Presentation methods, techniques and materials used to generate and communicate design ideas; Relevant design history.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**DTB202 Design Technology**
In this unit students will acquire an understanding of the interconnection between technological changes, inventiveness, social context and interior design. Topics covered in this unit include: Interior design in relation to structural systems, materials, technologies and relevant legislation with specific emphasis on domestic building construction; Skills associated with observation, research, and communication; Ergonomic principles, site measure, tracking examples of construction, identification of types of structures; Measurement and recording of building environments and documentation incorporating 2D CAD.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-2

**DTB301 Interior Design 3**
The aim of this unit is to facilitate students to develop a deep understanding of transition, interiority and building character in relation to interior design. This will be achieved through the integration of technological, psychosocial and experiential knowledge and theory. Student learning will be facilitated in order that a holistic approach to the design issues is implemented. Topics covered in the context of projects for the unit include: Design methodology skills; strategies; alternative processes; Documentation ranging from the conceptual to design development; Schedules and specification; Finishes, fittings and furnishings; Relevant design history; Relevant technological, psycho-social and experiential theory; Environmental issues and sustainability.

Prerequisite(s): DTB201  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1

**DTB302 Colour Studies**
This unit includes studies of the interdependence of light and colour, the physical properties of colour, the psychological and cultural dimensions of colour, and colour and its relationship with expression and aesthetics as it applies to the interior design context. Topics covered in this unit include: Colour properties, harmony and contrast; Mixing and application of colour; Qualitative effects of colour and light on interior form and space; Symbolic, physiological and psychological aspects of colour within historical and contemporary contexts.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2008 SEM-1

**DTB303 Technical Design**
In this unit students will acquire an understanding of the wide variety of commercial building interior systems related to the interior design industry. Topics covered in this unit include: Manufacturing processes, performance and specification; Building programs, professional consultants, responsibilities, the law, codes and standards, site/context analysis and requirements; Analysis and recording of small-scale commercial interiors and documentation including 3D CAD.

Prerequisite(s): DTB202  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-1

**DTB401 Interior Design 4**
The aim of this unit is to facilitate students to develop a deep understanding of dual function relationships in interior design in relation to person-environment interactions. This will be achieved through the integration of technological, psycho-social and experiential knowledge and theory specific to those contexts. Learning will be facilitated in order that a holistic approach is implemented. Students will be encouraged to define tasks, research possibilities, integrate theory and explore resolutions in a self-directed manner. Topics covered in the context of projects for the unit include: Design methodology skills; strategies; alternative processes; Documentation ranging from the conceptual to design development; Schedules and specification; Finishes, fittings and furnishings; Relevant design history; Relevant technological, psycho-social and experiential theory; Environmental issues and sustainability.

Prerequisite(s): DTB301  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2008 SEM-2

**DTB402 Interior Systems**
The aim of this unit is to promote the understanding and awareness of the use and application of materials relevant to the interior design industry. Topics covered in this unit include: Textile manufacture and application; Interior decorative finishes, properties and techniques; Building
codes and standards and specification relevant to material quality, performance and maintenance; Documentation and specification of finishes and fittings; The relationship between design technology and material selection; The role of contextual frameworks on designers’ decisions in regard to materials.

**Prerequisite(s):** DTB202  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DTB403 Human Environment**
This unit addresses political and social theories related to interior design and development within the built environment. Students are introduced to contemporary theories of post-industrialism, post-colonialism and multiculturalism. Topics covered in this unit include: Requirements of special needs groups; Psychosocial issues and privacy, perception, personal space, territoriality and way finding; The roles and responsibilities of design professionals, historically and in contemporary society; Cultural diversity.

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DTB501 Interior Design 5**
The aim of this unit is to facilitate students to develop a deep understanding of multi-function relationships in interior design in relation to person-environment interactions. Theory introduced in the areas of technology and humanities will be investigated in an applied manner through studio-based projects. Fundamental dimensions will be addressed within this context. Topics covered in the context of projects for the unit include:
- Design methodology - skills; strategies; alternative processes
- Documentation ranging from the conceptual to design development
- Schedules and specification
- Finishes, fittings and furnishings
- Relevant design history
- Relevant technological, psycho-social and experiential theory
- Environmental issues and sustainability

**Prerequisite(s):** DTB401  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DTB502 Environments in Transition**
In this unit, different kinds of environments, such as aero, rail and bus centres, will be used as a frame-of-reference for deconstructing and reconstructing spaces that challenge trends in the production of standardised environments. Various theoretical perspectives and case studies will be used to explore both traditional and contemporary corporate approaches to their design. In addition, examinations of ‘risk-takers’, will provide the basis of research material required to undertake new approaches, crucial to the design process. The unit will also provide a platform for exploring the concepts of time and space in relation to design in order to undertake the act of designing.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DTB503 Furniture Studies**
This unit focuses on furniture as an integral element of an interior environment and of personal and cultural identity. These aspects will be contextualised in an appropriate furniture design project.
Topics covered in this unit include:
- A focus on interaction factors such as visual cues and psychological responses
- An historical analysis of the role of furniture in interior design
- Historic, contemporary and future trends
- Furniture design and documentation

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-1

**DTB601 Interior Design 6**
The aim of this unit is to facilitate students to develop a deep understanding of specialised interior design in relation to person-environment interactions. This unit specifically addresses issues relevant to the interior designer in practice. Students are provided with an opportunity to apply their developing skills and knowledge in an informed and critical manner. Topics covered in the context of projects for the unit include:
- Consideration away from mainstream interior design application eg interior design for transportation systems
- Development of the characteristics to tackle ambiguous, ill-defined, “real-life” simulated interior design problems
- Relevant design history
- Environmental issues and sustainability
- Relevant technological, psycho-social and experiential theory

**Prerequisite(s):** DTB501  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**DTB602 Design in Society**
This unit adopts a social science viewpoint in addressing social and cultural aspects of significance to interior designers. Some of these aspects include action and interaction, socialisation, ethnicity and race, control, and socio-cultural and indigenous issues of relevance to interior designers. Other topics covered in this unit include:
- Australia and the contemporary world
- Bureaucracy and organisations
- Mass media
- Technology
- Globalisation and regionalism

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2008 SEM-2

**EAB001 Early Childhood Foundations 1: Historical and Comparative Perspectives of Early Childhood Education**
This unit examines the historical development of early childhood services in Australia, and explores a range of comparative perspectives on the care and education of young children in different socio-cultural contexts in Australia and in other cultures. To come to understand early childhood education, it is important to consider the evolution of key ideas that have influenced the development of the field over the past 150 years in western societies (Britain,
Europe, the United States and Australia). The unit encourages students to reflect critically on the changing beliefs and practices in relation to young children and families in Australia over the twentieth century and to begin to formulate a personal philosophy of early childhood care and education.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1

### EAB002 Early Childhood Foundations 2: Families and Childhoods in Early Childhood Education and Care

Early childhood education and care interface with the lives of children and families in diverse contexts. This unit deals with the social constructions of families and childhoods, the social practices they adopt and the services in which they participate. An understanding of these conditions is necessary for early childhood educators to teach and lead effectively.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2  
**Incompatible with:** EAB351, EAB364

### EAB003 Development and Learning in Early Childhood 1

This unit examines the major theories, features and processes of early development. The pace and direction of development are shaped by biological predispositions and personal attributes, as well as by the interactions and experiences afforded to the child. Knowledge of contexts, their impact on individual development, and an awareness of the interrelationships between each area of development is necessary in order to develop an understanding of how children think and learn. Early childhood teachers also require a range of skills for observing and analysing behaviour in order to plan and organise appropriate educational opportunities in early childhood settings.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-2

### EAB004 Development and Learning Early Childhood 2

To facilitate learning during early childhood, teachers must have a sound knowledge of the major theories, features and processes of development. The units in the developmental strand are underpinned by sociocultural theory, which takes into account both the psychological and the social mechanisms of development and learning.

**Prerequisite(s):** EAB003  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2008 SEM-1  
**Incompatible with:** EDB200

### EAB005 Inclusion in Early Childhood Settings

This unit aims to promote an understanding and valuing of inclusive educational programs and practices for working with young children with special needs in diverse early childhood settings. Students are expected to develop knowledge of behavioural and developmental characteristics presented by young children with specific needs, as well as understand principles and practices related to assessment, planning and implementation of educational programs for these children.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** EAB444

### EAB006 Leadership and Management in Early Childhood Services

Early childhood settings, including primary schools, operate by using site-based management practices that rely heavily on participation by teachers, staff from all levels of the organisation, and parents. Early childhood teachers need excellent leadership and management strategies to participate effectively in group decision-making for the development of high quality programs and services. They also need an understanding of how management structures impact on programs and service provision. This understanding, together with a high level of personal power, helps individual teachers influence and lead decisions about what happens in early childhood settings.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1, 2008 SEM-2 and 2008 SUMMER  
**Incompatible with:** EAB413

### EAB008 Early Childhood Language and Literacies

This is an introductory unit in which students examine literacies from contemporary perspectives. The focus is on young children learning literacies in family and community contexts in the years prior to formal schooling. Students are encouraged to appreciate each child’s journey as they encounter a range of multimodal practices that constitute literacies.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2008 SEM-1

### EAB009 Early Childhood Language and Literacies and Communication 2

In this unit a literacy as social practice approach is examined critically. Students explore matters related to instructional experiences, literacy resources and materials, diversity, and partnerships with children's families. Although print will be the focus in reading and writing instruction, image/graphic text will be a significant consideration, so that literacy practices reflect new and changing ways of operating with texts. Teachers use pedagogies and assessment that provide opportunities for success for all students, particularly those individuals and groups who may perform at lower levels of proficiency.
UNIT SYNOPTES

EAB010 Early Childhood Language and Literacies and Communication 3
This unit focuses on enabling students to build competencies in planning classroom discourses and learning programs that will enable young children to establish confident use of a repertoire of language, literacy and communications understandings and practices as a basis for ongoing learning and cultural participation.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EAB011 Early Childhood Curriculum: Arts 1
We are surrounded by visual images, in many cases much more powerful than any other form of communication. It is important that we are aware of how these images are working on us, and for that, we need to be visually literate. Childhood cultures are made up of interwoven narratives and commodities. The arts enable young children to give form to thought, to develop multiliteracies for exploring and expressing ideas and feelings through representation. This unit examines the characteristic features of the early childhood arts curriculum, its philosophical and theoretical underpinnings, beliefs about the nature of the learner, the child/teacher relationship, and the educational process.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EAB012 Early Childhood Curriculum: Arts 2
Relevant theories, principles and philosophies are presented and analysed as a basis for developing appropriate teaching strategies for a quality arts program in the early years. Desired outcomes will be achieved through descriptive, interpretive, analytic and expressive processes and shared knowledge between students and staff.
Prerequisite(s): EAB011  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

EAB013 Early Childhood Society, Environment and Health Education
This unit promotes a broad view of science. However, that includes the social sciences, health and environmental perspectives. Appropriate curriculum approaches that support a broader, more integrated view of science is a key goal. Through this unit, students should achieve the following: develop a deepening of their own understandings of concepts pertinent to science, studies of society and environment, and health; learn to critique and broaden their views of science; understand a range of appropriate inquiry-based approaches relevant to these areas; learn to apply these approaches to facilitate young children's learning in the sciences.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

EAB014 Early Childhood Science Education
This unit involves students in drawing together and analysing information from a variety of disciplines and historical perspectives with a view to developing an understanding and knowledge that will provide them with a basis for creating and evaluating an integrated curriculum in early childhood settings.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2  Incompatible with: EAB412

EAB015 Early Childhood Science and Technology Education
It is essential that children are provided with opportunities to develop their abilities and interests by using a variety of learning modes and that children have opportunities to develop concepts that are foundational to understanding in mathematics, and which form the basis of learning in all curriculum areas. Students require understanding of how children apply active inquiry processes to tasks designed to further concept development in mathematics. This unit will engage them in learning about foundational concepts in mathematics and exploring ways in which teachers can develop appropriate learning opportunities to encourage and foster their development.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAB016 Research in Early Childhood Education
This unit aims to foster critical understanding of research with young children. The unit will provide opportunities for students to become lifelong learners and effective communicators.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1

EAB017 The Early Childhood Professional
This unit involves students in drawing together and analysing information from a variety of disciplines and historical perspectives with a view to developing an understanding and knowledge that will provide them with a basis for creating and evaluating an integrated curriculum in early childhood settings.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1, 2008 6TP2, 2008 6TP4 and 2008 SEM-2  Incompatible with: EAB412

EAB021 Early Childhood Health, Safety, Nutrition and Wellness Education
There is concern in the community about the general health of young children. Therefore it is important for students to understand current health policies and practices for various early childhood education settings. This includes the daily food needs of young children and how to provide appropriate everyday food education and social food experiences. The unit provides students with the knowledge to lead, plan, implement, and evaluate health practices in services and to balance the nutritional needs of individual children. Personal health and health practices including preventative strategies are addressed.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAB022 Early Childhood Science Education
QUT HANDBOOK 2008 · Page 1802
This unit examines the importance of developing children's creativity, curiosity, problems solving skills and sense of wonder and appreciation of the environment, in the exploration of science. The unit focuses on the different approaches to teaching science and the development of positive attitudes for life long learning while taking into account children's cultural and diverse backgrounds.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove

EAB023 Mathematical Explorations in Early Childhood
Mathematics is considered to be an essential learning area in the early childhood curriculum, as preparation for life, work and critical participation in society. Mathematics can also provide personal enjoyment.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

EAB026 Early Childhood Community Arts Project
This unit has a focus on pedagogies, planning and assessment within the curriculum organisers of the New Basics, the Preschool Curriculum Guidelines and the key learning areas. It aims to increase knowledge and understanding of how curriculum organisers and outcomes can be used to plan intellectually challenging curricula for young children.

Prerequisite(s): EAB011 and EAB012  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

EAB027 Early Childhood Mathematics Education 1: Birth to Six Years
This unit aims to develop concepts that are foundational to understandings in early childhood mathematics, and to generally enhance students'understandings, attitudes, values and skills in relation to early childhood mathematics, supported by concrete materials and computer environments. This unit will also investigate teaching methods and key sequences for developing concepts and skills for number, space, measurement, chance and data, and patterns and algebra.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-1

EAB028 Early Childhood Mathematics Education 2: Four to 8 Years
Children's successful participation in mathematical contexts is mediated by the effectiveness of a teacher's pedagogical practice, understandings of how learners learn, and knowledge and understanding of mathematics. This unit aims to develop an understanding of the pedagogical practices which inform the teaching and learning of mathematics in early childhood contexts, in particular, a sound understanding of the knowledge, skills and processes required to support learners in the early years of schooling.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Internet and Kelvin Grove  
Teaching period: 2008 SEM-2

EAB130 Negotiating Curriculum with Young Children
This unit provides a sound understanding of the key concepts which underpin early childhood education, in relation to childcare, preschool, prep and lower primary settings. Students begin to learn along with a community of learners, and make links between research, theory and practice, each informing the other.

Credit points: 12  
Campus: Internet and Kelvin Grove  
Teaching period: 2008 SEM-1

EAB361 Storytelling In Early Childhood
A major consideration for the teacher of early childhood is to provide children with rich experiences of 'storying'. This unit introduces students to the following: the value of storytelling with young children; the selection of appropriate children's literature suitable for storytelling; various storytelling strategies in terms of their impact on a young audience; the use of appropriate props for storytelling; ways of integrating storytelling across the curriculum.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Contact hours: 3 per week  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

EAB363 Creating Curriculum With Young Children
The concept of curriculum in early childhood education evokes much discussion and debate. In this unit, more encompassing concepts of curriculum for young children will be considered in the light of theories and research that suggest that children construct their own knowledge. Ways in which teachers and children can work together in creating a curriculum that is meaningful to children while meeting the expectations of parents and society in relation to child care, kindergarten/preschool and lower primary settings are considered. Practical strategies for setting up supportive learning environments and methods for evaluating teaching and learning are included.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2008 SEM-2

EAB364 Academic And Professional Communication
The unit includes the following: the development of an understanding of the general processes of communication in an academic and professional contexts; application of information literacy skills to a range of print and electronic sources; conventions for communicating using a range of academic text-types using print and electronic media; key concepts relating to the study topic: Families in Context.

Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Contact hours: 3 per week  
Campus: Internet and Kelvin Grove  
Teaching period: 2008 SEM-1

EAB416 Early Childhood Art Education
This unit includes the following: historical and contemporary trends in art education; philosophy and practice in early childhood visual arts education; in-depth exploration of young children's artistic development and learning; assessment and evaluation of visual arts in early childhood; methods of reporting and record-keeping; studio art experiences; curating children's art exhibitions; public information about children's artistry; advocacy for improving options for young children in the visual arts.

Prerequisite(s): EAB011  
Corequisite(s): Nil  
Credit points: 12  
Contact hours: 4 per week  
Campus: Kelvin Grove
EAB422 Information and Communication Technologies and the Young Child
This unit includes the following: selection, use and critical evaluation of computers and associated software, and related technologies in early childhood programs, linking technology and problem-solving; applications and use of computers and associated software for language, number and problem-solving; creating teaching materials.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 4 per week  Campus: Kelvin Grove  Teaching period: 2008 SEM-2

EAN601 Investigating Curriculum and Pedagogy in Early Childhood
The aims for this unit are to assist students in developing a critically-informed and research-based understanding of the current issues that are under scrutiny in the field of Early Childhood Education. Recognition and appreciation of gender, culture and customs is essential to the consideration of the issues, and students will make active contributions to promoting codes of practice relevant to the specific professional area of education/learning.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAN603 Child Development in Context
The aim of the unit is to foster critical understanding of current developmental theory, the conduct of developmental research and the application of research findings to practice in early childhood education and other fields in which professionals work with children and families.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EAN604 Children, Families And Communities
Critical understandings drawn from a range of theoretical perspectives serve to critique research and policy around children, families and communities.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1

EAN614 Arts and Sciences in Early Childhood
The unit challenges students, as leaders in early childhood teaching and learning, to interrogate a broad range of ideas, principles and guidelines to assist them in making decisions about curriculum in the arts and sciences. It challenges students to engage with trans-disciplinary and cross-disciplinary knowledge and innovation.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2008 SEM-1

EAN615 Mathematics in Early Childhood
This unit aims to develop a sound understanding of the theories which inform early childhood mathematics and the teaching and learning of mathematics. Students develop a broad knowledge of mathematical content specifically for early childhood contexts.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAN616 Language, Literacies and Communication in Early Childhood
The focus of this unit is to help students to understand recent research-based practices for literacy learning and teaching in the years before compulsory schooling and the early years. Emphasis is placed on a broad definition of literacy that highlights the importance of all children becoming active participants in society and of knowing and engaging in a range of literacy practices, rather than just learning a set of reading and writing "skills".
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-2

EAP400 Early Years: Literacies
In this unit you will examine literacy from critical contemporary perspectives - as a repertoire of contextualised social practices. You will gain insight into different pathways children take to literacy as their learning and development is shaped in family, community and school contexts. A key focus is on helping you to understand early reading and writing processes in the print medium, as well as multimedia. You will learn to use the framework of four literacy practices: code-breaker, text-participant, text-user and text-analyst to explore operational, cultural and critical dimensions of literacy. You will build a repertoire of strategies that will allow you to meet the needs of diverse learners and create instructional events that connect with the experience.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAP401 Early Years: Mathematical Understandings
This unit aims to develop concepts that are foundational to understandings in early childhood Mathematics, and to generally enhance your understandings, attitudes, values, and skills in relation to early childhood Mathematics. You will investigate teaching approaches, and key sequences for developing concepts and skills for various aspects of Mathematics education.
Prerequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAP402 Early Years: Arts and Humanities
This unit aims to develop studentsâ€™ capacities as scholars, educators and researchers, through adopting a problem-finding, problem-solving and inquiry-based approach to learning. Through engaging in their own inquiry-based investigation of a social/ environmental issue, students learn how the arts can be used as a learning and teaching tool. Students will investigate Indigenous studies and SOSE through descriptive, interpretive, analytic and expressive processes, to share and create knowledge with students and staff.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2
EAP403 Early Years: Science and Technology Education
This unit aims to extend your prior understanding of science and technology education, and to enhance their understandings, dispositions and skills in relation to early childhood science and technology education. It also aims to augment students' understandings of teaching strategies, planning and evaluation for diverse groups of young children in a variety of school and centre settings.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 12 Campus: Internet and Kelvin Grove  Teaching period: 2008 SEM-1 and 2008 SEM-2

EAZ006 Leadership and Management in Early Childhood Services
Credit points: 12  Teaching period: 2008 SEM-1

EDB001 Teaching and Learning Studies 1: Teaching in New Times
Teaching today is being practised in a changing world. New forms of culture and society have emerged in recent decades alongside new and more globalised diagrams of economy, power and government. Schooling and education in all domains are being affected by these shifts and transformations. Educational sites, for instance, are becoming more differentiated and enterprising; learners themselves increasingly more diverse, active and autonomous. Teaching in New Times challenges students, in the early stages of their course, to develop an insightful and research-based conceptual framework, drawn from social theory and cultural studies, so that they may respond to these transformations in an informed, ethical and professional manner.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 4 per week Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-1 and 2008 SEM-2  Incompatible with: CLB305

EDB002 Teaching and Learning Studies 2: Development and Learning
This unit has the dual purposes of promoting your own personal and professional development as life long, creative, autonomous learners, capable of reflection and high level thinking, and of enabling you, as educators, to promote similar development in your learners. Pursuit of these aims will involve an exploration of human development, from personal and interpersonal perspectives, with sensitivity to socio-cultural contexts, and with a particular focus on the theory, research and practice which informs educators about how learners construct knowledge and become creative, self-motivated thinkers and problem solvers.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week Campus: Kelvin Grove, External and Caboolture  Teaching period: 2008 SUM-2 and 2008 SEM-1  Incompatible with: SPB001

EDB003 Teaching and Learning Studies 3: Practising Education
Education is a social and cultural activity. This unit provides a sociological and cultural studies framework that provides an insightful explanation of how education in its various sites is constructed and organised. The unit includes a socio-cultural analysis of an educational site which will be undertaken in conjunction with the Field Studies unit.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week Campus: Internet, Kelvin Grove and Caboolture  Teaching period: 2008 SEM-2  Incompatible with: CLB306

EDB004 Teaching and Learning Studies 4: Inclusive Education
This unit aims to develop students' understanding and appreciation of the contributions that diversity, belonging and trust make towards a quality learning environment for all learners. Students will learn to engage in teaching a broad range of students in diverse and inclusive ways utilising pedagogies and curriculum practices that enhance learning for all students and generate inclusive cultures within the school and classroom settings. Desired outcomes are achieved through descriptive, interpretative, analytic and expressive processes to share learning with fellow students and staff.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 4 per week Campus: Kelvin Grove  Teaching period: 2008 SEM-1

EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
Students will share the responsibility for shaping their beginning career learnings through a process of professional induction with a number of key significant stakeholders. The process will be proactive, collaborative and self determined and students will need to become professionally responsible for developing a professional development program that best accommodates their needs at the close of the teacher education program.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 4 per week Campus: Kelvin Grove  Teaching period: 2008 SEM-2

EDB006 Learning Networks
This unit explores the concept of learning networks: interacting social and technical systems that lead to collective sense-making and knowledge construction. Topics include the nature and use of Information and Communication Technologies (ICTs), learning theories and technologies and socio-technical practices in learning networks.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week Campus: Kelvin Grove and Caboolture  Teaching period: 2008 SEM-1  Incompatible with: MDB385, CLB341

EDB007 Culture Studies: Indigenous Education
Numerous government reports and recent discussions about reconciliation have called for an increased commitment to Indigenous education in Australia. Teachers are increasingly being asked to improve their skill, knowledge and understanding to teach Indigenous students, and to teach curricula which incorporates Indigenous viewpoints on social, cultural and historical matters. This unit begins with an analysis of the students' own cultural place in the Australian context and afterwards moves towards an understanding of Aboriginal and Torres Strait Islander perspectives on history and contemporary issues,
and an understanding of why Aboriginal and Torres Strait Islander students have been so disadvantaged by the Australian education system.

**Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet, Kelvin Grove and Caboolture  Teaching period: 2008 SEM-1 and 2008 SEM-2**

**EDB010 Field Studies: Development and Learning in the Teaching of English**

This unit has the dual purpose of promoting your own personal and professional development as life long, creative, autonomous learners, capable of reflection and high level thinking, and enabling you, as educators, to promote similar development in your learners. This unit will contribute to the overall aims of the BEd by giving attention to two sets of teacher practitioner attributes. In the first set, emphasis is on your personal and professional development in the course and the second set, the emphasis is on the attributes required of educators to facilitate learning in their students.

**Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2008 SEM-1**

**EDB011 Early Childhood Field Studies 1: Development and Learning in the Field**

Designated Unit.
