Geography explains how and why natural environments, land use, settlement, economic activity, population and cultures vary from place to place, and how these elements interact to create distinctive and dynamic regional landscapes. The practical approach provides you with a sound basis, as a professional, for analysing human-environment linkages; population, social and cultural change; land use; settlement; and sustainable development.

Politics and History Major

The combination of politics and history provides a focus on the application of power in the contemporary world and also an understanding of how and why we have arrived at the social and political structures and processes that exist today. As a graduate with a politics and history background you will be equipped to enter occupations that require development and analysis of policy and administrative programs in both the public and private sectors.

Indigenous Perspectives and Issues Major

Indigenous perspectives and issues are central to the contemporary social sciences and to the creation of graduates who are skilled in the complexities of cross-cultural understanding and the acquisition of cross-cultural sensitivity. You will gain insights into Australian Indigenous perspectives and issues from the disciplines of humanities and human services, creative industries, education and justice studies. You will also develop skills associated with research ethics and protocols as they relate to Indigenous cultures and communities.

Human Services and Social Policy Major

Understanding our complex society and identifying emerging social issues and trends are key roles for human service and social policy practitioners. Community service agencies and for-profit industries seek out graduates with vocational skills that enable them to stay abreast of rapid social change and emerging trends. As a social science
graduate you will be equipped to review, develop and administer social programs.

**Gender and Sexuality Minor**

Issues of difference and identity as they relate to the constitution of gender and sexuality are significant elements within social science investigations. This minor draws on relevant units from discipline areas such as humanities and human services, psychology, public health, justice studies and creative industries to enable you to analyse and challenge inherent presumptions about gendered/sexed bodies, as well as address the possibilities for alternative identity politics.

**Peace and Conflict Resolution Minor**

You will engage with important issues of contemporary global change and the way these may impact on diverse communities and individuals, conflicts that arise out of these situations, and approaches to resolving such conflicts. The units provide you with opportunities to pursue in-depth studies of human rights issues, identity issues and conflicts, and crisis intervention and resolution.

**Minors**

All the social science majors can also be taken as four-unit minors.

Note also that all QUT faculties offer agreed sets of units as ‘university minors’.

**First Year at Caboolture**

By including the Caboolture option on your QTAC application, you have the opportunity to take the first year of the Bachelor of Social Science at QUT’s Caboolture campus. After completing first year (or 96 credit points), you must then continue with the remainder of the course at the Carseldine campus.

It should be noted that credit/advanced standing will not be granted for Caboolture students - excluding START QUT studies. To receive credit, applicants must apply for the course offered at the Carseldine Campus.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

QUT HANDBOOK 2007 · Page 1226
Students must complete the Introductory Unit plus six Human Services and Social Policy units from the following list:

- HBB100 Introduction To Human Services
- HBB113 Interpersonal Communication
- HBB200 Working In Human Service Organisations
- HBB203 Aged Services: Introduction
- HBB204 Child And Family Services: Introduction
- HBB205 Corrective Services: Introduction
- HBB206 Disability Services: Introduction
- HBB207 Services To Young People: Introduction
- HBB210 Indigenous Australia: Country, Kin And Culture
- HBB211 Casework And Case Management
- HBB212 Community Work
- HBB213 Social Policy Processes
- HBB214 Team Practice and Group Processes
- HBB215 Crisis And Conflict Resolution
- HBB217 Conflict Management Skills for Professionals
- HBB220 Intervention Theories And Methods
- HBB319 Child Protection Intervention Skills
- PUB251 Contemporary Public Health
- PUB326 Epidemiology
- PUB406 Health Promotion Strategies
- PUB557 Health Needs of Indigenous Australians and Other Populations

Students choose four electives from the following units:

- HBB233 Sex, Gender And Society
- HBB241 Gender and Globalisation
- HBB267 Feminism And Ethics
- HBB270 Gene Technology And Ethics
- HBB315 Sex And Drugs In South-East Asia
- HBB335 Bodies, Cyborgs and Cyberspace
- JSN015 Women and the Australian Legal System
- KWB321 Modern Times: Literature and Culture in the 20th Century
- KPB343 Australian Film
- PUB336 Women's Health
- PYB054 Psychology and Gender
- PYB067 Human Sexuality

### Language Units

**FRENCH**

- HBB061 French 1
- HBB062 French 2
- HBB063 French 3
- HBB064 French 4
- HBB065 French 5
- HBB066 French 6
- HBB067 French 7
- HBB068 French 8
- HBB069 French 9
- HBB070 French 10
- HBB060 French For The Tourism Industry

**GERMAN**

- HBB091 German 1
- HBB092 German 2
- HBB093 German 3
- HBB094 German 4
- HBB095 German 5
- HBB096 German 6
- HBB097 German 7
- HBB098 German 8

**INDONESIAN**

- HBB071 Indonesian 1
- HBB072 Indonesian 2
- HBB073 Indonesian 3
- HBB074 Indonesian 4
- HBB075 Indonesian 5
- HBB076 Indonesian 6
- HBB077 Indonesian 7
HHB078  Indonesian 8

**JAPANESE**
HHB081  Japanese 1
HHB082  Japanese 2
HHB083  Japanese 3
HHB084  Japanese 4
HHB085  Japanese 5
HHB086  Japanese 6
HHB087  Japanese 7
HHB088  Japanese 8

**MANDARIN**
HHB050  Mandarin For Chinese
HHB051  Introductory Mandarin 1
HHB052  Introductory Mandarin 2
HHB053  Intermediate Mandarin
HHB054  Advanced Mandarin

**First Year Caboolture**

**Year 1 Semester 1**
HHB116  Applied Skills And Scholarship
HHB110  Introduction To International And Global Studies
HHB106  Australian Society And Culture
    Elective
HHB104  Understanding Society: Intro To Sociology
HHB114  Introduction To Human Rights And Ethics
    Elective
    Elective

Caboolture students should note that after completion of 96 credit points of study they will need to transfer to the QUT Carseldine campus to continue their course.

**Potential Careers:**
Academic, Administrator, Community Worker, Government Officer, Higher Education Worker, Information Officer, Manager, Project Manager, Public Servant, Social Scientist, Sociologist.
Bachelor of Arts/Bachelor of Human Services (HH10)

Year offered: 2007
Admissions: Yes
CRICOS code: 058397F
Course duration (full-time): 4 years
Course duration (part-time): 8 years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $4,996
Domestic Entry: February and July
QTAC code: CSP: 440091; Dfee: 440096
Past rank cut-off: 68; Dfee: 68
Past OP cut-off: 15; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Phil Crane
Campus: Carseldine

Course Structure
This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements
As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Bachelor of Arts (Honours) (HH21)

Year offered: 2007
Admissions: Yes
CRICOS code: 020294D
Course duration (full-time): 2 Semesters
Course duration (part-time): 4 Semesters
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $4,992
International Fees (per semester): 2007:$7,500 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Judith Burton
Campus: Carseldine

Overview
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements
Normally students will apply at the end of the final year of their pass degree. Except where otherwise specified, applicants MUST have:

* completed a bachelor degree in the relevant discipline area from QUT, or a similar degree from QUT or another university; and

* achieved a level of attainment considered by the Faculty Academic Board to be acceptable for the purposes of proceeding to an Honours degree (normally a course grade point average of 5 on a seven-point scale).

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure
The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

Part-time Course Structure
Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Language Students
Language students will, where appropriate, do extensive work in the Literature Review and Honours Thesis units in the target language. Where feasible the Honours thesis will be written in the target language.

Overview  
An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. As an Honours student you will undertake a program of focused study supervised by a member of academic staff.

Entry Requirements  
For QUT applicants graduating from the Bachelor of Human Services the following is required:
- an overall grade point average of 5; and
- a grade of 5 for the subject HHB117 Introduction to Social Research Methods.

For applicants graduating from other degrees the following is normally required:
- an overall grade point average of 5; and
- completion of at least eight units out of 16 at the second- and third-year level in human service subjects or their equivalent with a grade of 5 in at least two of these subjects.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

Course Structure

**Course coordinator:** Dr Judith Burton  
**Campus:** Carseldine  

**Overview**

An Honours course provides you with not just specialisation-specific knowledge and skills, but also generic capacities that are highly valued in the labour market. An Honours year may also lead to enrolment in a higher research degree and students who do well are encouraged to apply for scholarships to undertake further study. The Honours course contains a mix of advanced theory, research training and a research project leading to a thesis. The thesis will be completed under the guidance of an individual supervisor.

**Entry Requirements**

Minimum requirement for entry:  
- a grade point average of 5 over all undergraduate units. Normally students will have a QUT Social Science degree with a majority of units at second- and third-year level.

Alternatively, candidates may be accepted for admission by the Faculty Academic Board, after advice from the course coordinator regarding evidence of other relevant qualifications and/or experience.

It is preferred that you contact a member of academic staff or the course coordinator to discuss supervision prior to submitting your application.

**Course Structure**

Coursework provides for both disciplinary specialisation, and an interdisciplinary elective option selected in consultation with your supervisor and the course coordinator. The course consists of three coursework units and the equivalent of five units of supervised independent study, resulting in a 15 000-18 000 word thesis. The requirements for graduating are satisfactory (or better) performance in all units. The final mark for the course is determined on the basis of marks assigned in the coursework units The Logic of Social Inquiry, Literature Review, and the advanced elective, plus the mark awarded to the thesis, with weighting being given according to the proportion of credit points within the total. The Honours thesis will be marked by two assessors, one of whom will normally be external to QUT.

**Note: Part-time Students**

Part-time students, and students wishing to enrol mid-year, should contact the course coordinator for advice on alternative sequences of study.

Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Judith Burton
Campus: Carseldine

Overview
If you are an employee in the community services industry, this course will help you respond to industry restructuring. It will give you a comprehensive understanding of new styles of service delivery, and upgrade your professional and management skills, preparing you for leadership of human services agencies. If you hold an undergraduate degree in psychology, education, nursing or related professions and are seeking employment in human services, this course will provide you with core knowledge and skills in a range of practice fields.

Entry requirements
Applicants must have:

- a three year undergraduate degree in human services or social work; or

- a three-year non-human services undergraduate degree with at least one year of demonstrated employment experience in the community service industry or related occupations such as teaching, nursing or allied health, community development, psychology or law.

Alternatively, students with at least five years of experience in the human services industry who can establish to the satisfaction of the course coordinator that they have accumulated the requisite academic capacity to function at a postgraduate level will be accepted into the Graduate Certificate. Capacity may be established by presenting reports or a submission prepared.

Standard credit points per part-time semester: 24
Course coordinator: Dr Barbara Hanna
Campus: Gardens Point and Carseldine

Overview
The Master of Arts by Research is offered through the Centre for Social Change Research. Research topics are drawn from the various disciplines represented in the School of Humanities and Human Services. Study areas available include:
* Aged Services
* Applied Ethics
* Asia-Pacific Studies
* Child and Family Services
* Disability Services
* European Studies
* Geography and Environmental Studies
* History
* Human Services
* International and Global Studies
* Languages (French, German, Indonesian, Japanese, Mandarin)
* Political Studies
* Services to Young People
* Sociology.

Entry requirements
Applicants must have a three-year bachelor degree or equivalent to enter the coursework plus research program.

To enter the research only program, applicants must have completed a three-year bachelor degree plus honours. Candidates with other four-year qualifications such as a three-year bachelor degree plus graduate diploma or a four-year double degree may also, after consultation with their supervisor and the course coordinator, enter the 96 credit point course. Such applicants whose previous study has included limited relevant research experience may be advised to enrol in a research methods unit as part of their course. They may also elect to take the 144 credit point program.

Course Structure
For those with a three-year degree, the Master of Arts (Research) normally comprises 48 credit points of coursework and a 96 credit point research project. For those with a four-year degree it normally comprises a 96 credit point research project. However, with the approval of the postgraduate studies coordinator it is possible to enrol in a 12 credit point coursework plus 84 credit point research project; or a 24 credit point coursework plus 72 credit point research project.

Research Component
The research component is usually presented as a thesis (30 000-50 000 words).

Entry with three-year qualification - Full-Time Course Structure

Doctor of Social Science (HH50)

Year offered: 2007
Admissions: Yes
CRICOS code: 048293G
Course duration (full-time): 6 semesters (3 years)
Course duration (part-time): 12 semesters (6 years)
Domestic fees (per credit point): RTS/RTA; Full fee tuition 2007 $130 per credit point (exceeded max entitlements) (subject to annual review)
Domestic fees (indicative): 2007: $12,480
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Assoc Prof Gavin Kendall
Campus: Carseldine

Overview
The Doctor of Social Science will play a vital role in ensuring that humanities, social science and human service professionals will be able to continue their professional and personal development. The objective of the programme is advanced, critical and systematic reflection at doctoral level on professional practice in any or across a number of the humanities, social science and human service disciplines

Entry Requirements
. a four year degree or its equivalent with First Class Honours or Honours IIA; or
. a masters degree in a field relevant to the professional doctorate; AND
. two years of practice at an advanced level in a position of responsibility in a relevant professional setting.

Entry with Advanced Standing: Candidates with a masters degree will be eligible for credit of up to 96 credit points. Other previous study or uncredentialled learning may also gain credit.

Course Structure
The course is divided into coursework and three theses. All three theses have conference presentation/communication of research finding units attached to them. Students will first complete their coursework and their first project, as well as HHR510 before they will be permitted to work on their second project. Similarly students must complete the second project as well as HHR520 before they are permitted to begin work on their third project. The course therefore has a three-part format and students are required to pass three stages in turn to guarantee progression.

Course structure - full time

Year 1 Semester 1
HHN410 Logic of Social Inquiry
HHR551-1 Professional Practice Project 1 1/4
Elective 1

Year 1 Semester 2
HHR510 Conference Presentation 1: Networking and Presentation
HHR551-2 Professional Practice Project 1 2/4
HHR501 Social Science Methods for the Knowledge Society
Elective 3 or HHR551-4 Professional Practice Project 1 4/4

Year 2 Semester 1
HHR551-3 Professional Practice Project 1 3/4
HHR551-4 Professional Practice Project 1 4/4
HHR561-1 Professional Practice Project 2 1/4
HHR561-2 Professional Practice Project 2 2/4

Year 2 Semester 2
HHR561-3 Professional Practice Project 2 3/4
HHR561-4 Professional Practice Project 2 4/4
HHR520 Conference Presentation 2: Professional Networks
HHR571-1 Professional Practice Project 3 1/8

Year 3 Semester 1
HHR571-2 Professional Practice Project 3 2/8
HHR571-3 Professional Practice Project 3 3/8
HHR571-4 Professional Practice Project 3 4/8
HHR571-5 Professional Practice Project 3 5/8

Year 3 Semester 2
HHR571-6 Professional Practice Project 3 6/8
HHR571-7 Professional Practice Project 3 7/8
HHR571-8 Professional Practice Project 3 8/8
HHR530 Conference Presentation 3: Academic Networks

Potential Careers:
Aged Services Worker, Child Protection Officer, Community Education Officer, Community Worker, Corrective Services Officer, Counsellor, Disability Services Worker, Family Services Officer, Government Officer, Human Services Practitioner, Policy Officer, Social Scientist, Youth Worker.
Bachelor of Arts/Bachelor of Behavioural Science (Psychology) (IF12)

Year offered: 2007
Admissions: Yes
CRICOS code: 053949G
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $15,360; CSP $5,214
International Fees (per semester): 2007: $8,000 per semester (subject to annual review)
Domestic Entry: February (no mid-year entry)
QTAC code: 449152; Dfee: 449156
Past rank cut-off: 75; Dfee: 70
Past OP cut-off: 12; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Standard credit points per full-time semester: 48
Course coordinator: Dr Iraphne Childs (Arts); Dr Renata Meuter (Psychology)
Campus: Carseldine

Overview
In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Why choose this course?
The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with the research and statistical methods used in the discipline. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist, or seek postgraduate studies in psychology or other disciplines.

Career Options
The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

Recommended Study
Maths A, B or C is recommended.

Psychology Electives
Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX38 Bachelor of Arts/Bachelor of Business. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Advertising, Electronic Business, Human Resource Management, International Business, Management, or Public Relations).

Career Outcomes

- Humanities graduates find employment in areas such as government, diplomacy, higher education and public service.
- Graduates of the Bachelor of Business (Accountancy) can expect to find employment in public practice, industry and commerce or government. In public practice the main areas of specialisation are auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership, bankruptcy, trusteeship or management services. In industry and commerce, accountancy graduates are employed in management positions.
- Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.
- Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas.
- Graduates of the Marketing major find employment in industry and government in roles including marketing and research, sales management and product development and management. They are also employed as marketing managers and consultants in the national and international business environments.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
* All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
* Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
* Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
* Economics: Economic Society of Australia (Queensland Division).

Course Design

Students are required to complete 432 credit points comprised of 192 credit points from the Bachelor of Arts program and 240 credit points from the Bachelor of Business program.

BA Course Requirements - Commencing Students

BA Course Requirements (Years 1-4)

Students are required to complete:
* One Multidisciplinary Professional Major (1 core unit + 6 units in the major)
It is suggested that they complete the Core Units Program consisting of the following:
* Two core units in first semester (from a selection of core introductory and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major.
* Year 2: research methods unit. Students are advised to take at least two of these units.
BA Course Requirements - Commencing Students (cont.)

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may wish to:
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- take a series of elective units.

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Multidisciplinary Professional Majors

For details, refer to the Bachelor of Arts Degree (HH01).

Discipline Majors

For details, refer to the Bachelor of Arts Degree (HH01).

Minor Sequences

For details, refer to the Co-Majors entry in the Bachelor of Arts (HH01) entry as any of these are available to be taken as Minors.

Key Terms - BA

*Multidisciplinary Professional Major - one of five interdisciplinary study sequences in the BA degree (International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree. NB - a unit may not be counted in more than one multidisciplinary professional major, discipline major or minor.

* Discipline Major - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

*Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area. NB - a unit may not be counted in more than one minor.

* Elective Units - units selected by students to fit into their study program.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au.

Discontinuation

Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX38 Bachelor of Arts/Bachelor of Business. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Other Majors

See also the separate entry for the following majors in this course: Bachelor of Arts/Bachelor of Business (Accountancy, Banking and Finance, Economics, or Marketing).

Career Outcomes

- Humanities graduates find employment in areas such as government, diplomacy, higher education and public service.
- Advertising graduates enter the marketplace as copywriters, media planners, account executives, media representatives, product managers and researchers.
- Electronic Business graduates enjoy a range of opportunities in public, private and non-profit sectors of business across all industries, including working as an electronic business consultant, web site planner, electronic business development manager, e-commerce sales executive or electronic business application developer.
- Graduates of the Human Resource Management major can expect to find employment in the public and private sectors in all areas of human resource management including recruitment, training and development, international staffing, industrial relations, pay systems and strategic human resources planning.
- The International Business major equips graduates for careers in companies engaged in international trade, multinational companies and financial institutions dealing with international marketing and investments, and public sector careers in foreign economic relations.
- Management graduates may also find employment in commercial and industrial firms, banks, insurance companies, federal, state and local government agencies, small business and in management consultancies.
- Public Relations graduates enter the marketplace as public relations managers and consultants, editors of trade and specialist publications, speechwriters, information officers, corporate communication officers and professionals, and special events managers.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:

*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Advertising - Advertising Federation of Australia, the Australian Association of National Advertisers; the Australian Direct Marketing Association and the Queensland Commercial Radio Association.
*International Business - Australian Institute of Export.
*Management - Australian Institute of Management.
*Public Relations - Public Relations Institute of Australia.

Course Design

Students are required to complete 432 credit points comprised of 192 credit points for the Bachelor of Arts component, and 240 credit points for the Bachelor of Business component.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. | Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units |

---
The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

**Course structure - International Business (with a language specialisation)**

Students undertake one language area only and may study French, German, Indonesian or Japanese, or seek approval to undertake a different language at another tertiary institution. Mandarin is offered only as intensive 24 credit point unit in Summer school mode, followed by in-country experience.

Students undertaking a language specialisation must complete a minimum of four language units, plus IBB205 Cross-Cultural Communication and Negotiation and an International Business Unit or two additional language units. The School of Humanities and Human Services offers language units at QUT.

- **Business Double Major / Extended Major / Specialisation Unit**

#### Year 3, Semester 2
- **BSB110**: Accounting
- **Business Double Major / Extended Major / Specialisation Unit**
HUMANITIES AND HUMAN SERVICES

Year 4, Semester 1

AMB360 Corporate Communication Management  
Business Double Major / Extended Major / Specialisation Unit

Year 4, Semester 2

AMB361 Public Relations Campaigns  
Business Double Major / Extended Major / Specialisation Unit

Year 5, Semester 1

BSB111 Business Law and Ethics  
BSB113 Economics  
BSB114 Government, Business and Society  
Business Double Major / Extended Major / Specialisation Unit

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking HRM or Management as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 & AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

CORE PROGRAM - BA Students

This core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors

INTERNATIONAL AND GLOBAL STUDIES

HHB110 Introduction To International And Global Studies  
HHB111 Issues In International And Global Studies

SOCIETY AND CHANGE

HHB105 Exploring Change  
HHB104 Understanding Society: Intro To Sociology

ETHICS AND HUMAN RIGHTS

HHB114 Introduction To Human Rights And Ethics  
HHB115 Human Identity And Change

COMMUNITY STUDIES

HHB102 The Human Condition  
HHB103 Contemporary Social And Community Issues

AUSTRALIAN STUDIES

HHB106 Australian Society And Culture  
HHB112 Australian Politics

First Year Core: Skills Units

HHB116 Applied Skills And Scholarship  
HHB117 Introduction To Social Research Methods

Second Year Core: Research Methods

HHB224 Qualitative Research Methods  
HHB232 Survey Methods  
HHB121 Interpreting The Past  
HHB312 Geographical Research Design

Potential Careers:

Bachelor of Arts/Bachelor of Laws (IF43)

Year offered: 2007
Admissions: Yes
CRICOS code: 027276E
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $6,006
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July* (*July entry subject to availability)
QTAC code: 409722; Dfee: 409726
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (192 cr pts BA and 336 cr pts BLaws)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphne Childs (Arts) Director, Undergraduate Programs (Law)
Campus: Gardens Point and Carseldine

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

Professional Recognition
The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Course Structure BA component - Continuing Students
BA REQUIREMENTS
Students should follow the course progression advice in the Course Summary Sheet

Course Structure BA component - Commencing Students
BA Course Requirements - Commencing Students

It is suggested that students complete the Core Units Program consisting of the following:
* Two core units in first semester (from a selection of core introductory and core skills units)
(Note: one of the core introductory units will sit within the chosen Multidisciplinary Major)
* Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:
- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points)

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Multidisciplinary Majors - Commencing Students
Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Discipline Sequences
Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Professional Major Study Sequences
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Study Sequences in other QUT Courses
For details of Minor Study Sequences available, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these are able to be taken as Minors.

Potential Careers:
Barrister, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.
Doctor of Philosophy (IF49)

Year offered: 2007
Admissions: Yes
CRICOS code: 012693M
Course duration (full-time): 3 yrs full time
Course duration (part-time): 6 yrs part time
Domestic fees (per credit point): RTS/RTA; Full fee tuition
2007 $130 per credit point (exceeded max entitlements)
(subject to annual review)
Domestic fees (indicative): 2007: $12,480 (exceeded max. entitlements)
International Fees (per semester): 2007:$10,000 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Course coordinator: Dr Barbara Hanna
Campus: Gardens Point and Carseldine

Overview
Doctoral studies in the School of Humanities and Human Services are through the Centre for Social Change Research and focus on issues of real-world significance. These issues can have broad social ramifications or be important problems that are central to the professions with which the School and the Centre are aligned.

Entry requirements
Applicants must have:

. a relevant first- or second-class Division A (upper division) honours degree; or

. an appropriate research masters degree or a coursework masters with a significant research component.

Course Structure
Doctoral studies may be completed in any area of research interest supported by the Centre for Social Change Research. The Centre Director and other staff are happy to discuss these or any related areas with applicants. Candidates may study full- or part-time. If candidates are full-time and hold an appropriate masters degree, they can submit their thesis or other examinable work after 24 months (36 months for a part-time student). If candidates do not hold a masters degree the period is 30 months for a full-time candidate or 42 months for a part-time candidate.

The research may be completed either by thesis or by publication.
Bachelor of Arts/Bachelor of Education (Early Childhood) (IF81)

Year offered: 2007
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12,480
Domestic Entry: February
QTAC code: 409222
Past rank cut-off: 83
Past OP cut-off: 9
OP Guarantee: Yes
Assumed knowledge: English (4 SA)
Preparatory studies: English: QUT Continuing Professional Education course English Bridging. For further information contact 07 3138 2000 or email sbs.enquiries@qut.edu.au
Total credit points: 384 (192 in the BA; 192 in the B Ed)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr I. Childs (Arts); Dr Kerryann Walsh (Education)
Campus: Gardens Point, Kelvin Grove and Carseldine

NOTE
RESTRICTED INTAKE IN 2003.
The Bachelor of Arts/Bachelor of Education (Early Childhood) IF81 course has been replaced by a newly coded Bachelor of Arts/Bachelor of Education (Early Childhood) IX11 course with effect from 2003. There will be no new intake into this course in 2003 with the exception of students commencing their studies with significant advanced standing from previous tertiary level study.

Entry requirements
Applicants must have completed Year 12 (or equivalent). Assumed Knowledge: English (4 SA).

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education(Early Childhood)provides graduates with the opportunity to be employed in child care centres, kindergartens, preschools and the lower three grades of primary school. Opportunities in tourism, translation, and the hospitality industry are open to those with language studies.

Professional Recognition
This double degree is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. The Early Childhood specialisation is also accredited by the Department of Families, Youth and Community Care Services for employment in the area of child care.

Further Information
located in their third year. NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Key Terms in the BA - Commencing Students

* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.
* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.
* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

Interdisciplinary Professional Majors

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Study Sequences

For details, refer to the Co-Majors listed in the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these are able to be taken as Minors.

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Part-time Students

See Note 2

CORE PROGRAM - Continuing Students

The core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors

INTERNATIONAL AND GLOBAL STUDIES

HBB110  Introduction To International And Global Studies
HBB111  Issues in International and Global Studies

SOCIETY AND CHANGE

HBB105  Exploring Change
HBB104  Understanding Society: Introduction to Sociology

ETHICS AND HUMAN RIGHTS

HBB114  Introduction To Human Rights And Ethics
HBB115  Human Identity And Change

COMMUNITY STUDIES

HBB103  Contemporary Social And Community Issues
HBB102  The Human Condition

AUSTRALIAN STUDIES

HBB106  Australian Society And Culture
HBB112  Australian Politics

First Year Core: Skills Units

HBB116  Applied Skills And Scholarship
HBB117  Introduction To Social Research Methods

Second Year Core: Research Methods Units

HBB224  Qualitative Research Methods
HBB232  Survey Methods
HBB121  Interpreting The Past
HBB312  Geographical Research Design

Education Component

Year 3, Semester 1

**Potential Careers:**

Child Care Professional, Early Childhood Teacher, Educator, Kindergarten Teacher, Preschool Teacher, Primary School Teacher, Teacher.
Bachelor of Arts/Bachelor of Education (Primary) (IF82)

Year offered: 2007
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12,480
Domestic Entry: February
QTAC code: 409342
Past rank cut-off: 83
Past OP cut-off: 9
OP Guarantee: Yes
Assumed knowledge: English (4 SA)
Preparatory studies: English: QUT Continuing Professional Education course English Bridging. For further information contact 07 3138 2000 or email sbs.enquiries@qut.edu.au
Total credit points: 384
Course coordinator: Dr Iraphne Childs (Arts); Dr Mary Ryan (Education)
Campus: Gardens Point, Kelvin Grove and Carseldine

Course Structure - Continuing Students

BA Course Requirements (Years 1 and 2) (Continuing Students)

Students should have completed the following components of the degree:
The first year requirements (8 units) which include:
HHB116 Applied Skills and Scholarship
Two Foundation Units (for students who did not complete two Faculty Foundation Units in Year 1)
Two to three Course Foundation Units
Two to three Elective Units

NB a minimum of four of these eight units must be chosen from units offered from the BA component of your course. In second year, a further 8 units to complete:
One Major Study Sequence chosen from the BA component of your course
AND
One Minor Study Sequence from those offered in the BA component of your course or from other Minor Study Sequences offered elsewhere within QUT.

Students must ensure that a minimum of 12 of the 16 units be chosen from units in the BA.

Course Structure - Commencing Students

BA Course Requirements (Years 1 and 2)(Commencing Students)

Students are REQUIRED to complete:
* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)
It is SUGGESTED that they complete the Core Units Program consisting of the following:
*Four core units in first semester (from a selection of core introductory units and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)
* Two core units in second year (2 research methods units)

NB One of core introductory units will sit within the chosen Interdisciplinary Major.

Course Structure - Commencing Students (cont.)

Students must maintain a 50% enrolment in units from the BA program until they have completed 8 of those units (96 credit points).
Students may wish to
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- develop a Minor (48 credit points) in major Foundation units for Primary Teachings
- take a series of elective units

Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.
Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.

NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Key Terms in the BA - Commencing Students

* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.

NB - a unit may not be counted in more than one professional major, discipline sequence, or Minor.

* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.

* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

Interdisciplinary Professional Majors - Commencing Students

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences - Commencing Students

For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Sequences - Commencing Students

For details, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these may be taken as Minors.

**NOTE**

Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum
Studies in place of CLB413 should contact the Student Affairs office on 3864 3947. CLB334 is offered internally in semester 2.

Potential Careers:
Administrator, Community Worker, Corporate Secretary, Diplomat, Educator, Government Officer, Information Officer, Manager, Network Administrator, Network Manager, Primary School Teacher, Project Developer, Project Manager, Public Relations Officer/Consultant, Public Servant.
Bachelor of Arts/Bachelor of Applied Science (IF86)

Year offered: 2007
Admissions: Yes
CRICOS code: 031581F
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,061
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: CSP: 409262; Dfee: 409266
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)
Standard credit points per full-time semester: 48
Course coordinator: Dr Iraphne Childs (Humanities): Dr Megan Hargreaves (Science)
Campus: Gardens Point and Carseldine

Career Opportunities
As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition
Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

### CORE PROGRAM - BA Students

This core program for the degree consists of the following selection of units:

#### First Year Core: Core Units for Professional Majors

| HHB110 | Introduction To International And Global Studies |
| HHB111 | Issues In International And Global Studies |
| HHB105 | Exploring Change |
| HHB104 | Understanding Society: Intro To Sociology |
| HHB114 | Introduction To Human Rights And Ethics |
| HHB115 | Human Identity And Change |
| HHB102 | The Human Condition |
| HHB103 | Contemporary Social And Community Issues |
| HHB106 | Australian Society And Culture |
| HHB112 | Australian Politics |

#### First Year Core: Skills Units

| HHB116 | Applied Skills And Scholarship |
| HHB117 | Introduction To Social Research Methods |

#### Second Year Core: Research Methods

| HHB224 | Qualitative Research Methods |
| HHB232 | Survey Methods |
| HHB121 | Interpreting The Past |
| HHB312 | Geographical Research Design |

Year 4, Semester 1
Two Level 3 Mathematics units - available units are:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB672 Advanced Mathematical Modelling

Year 4, Semester 2
Two Level 3 Mathematics units - available units are:
MAB524 Statistical Inference
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B

HUMANITIES AND HUMAN SERVICES
Year 4, Semester 1

Two Level 3 Mathematics units - available units are:

MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB672 Advanced Mathematical Modelling

Year 4, Semester 2

Two Level 3 Mathematics units - available units are:

MAB524 Statistical Inference
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B

Course structure - Major in Microbiology

Year 1, Semester 1

LSB118 Life Science
PCB140 Introductory Chemistry
PCB142 Chemistry 1

Year 1, Semester 2

LSB238 Cell and Molecular Biology 1
PCB242 Chemistry 2

Year 2, Semester 1

MAB101 Statistical Data Analysis 1
PCB101 Physical Science

Year 2, Semester 2

LSB258 Principles of Human Physiology
NRB270 Animal and Plant Structure and Function

Year 3, Semester 1

LSB308 Biochemistry
LSB328 Microbiology 1

Year 3, Semester 2

LSB428 Microbiology 2
LSB468 Molecular Biology

Year 4, Semester 1

Two units selected from:

LSB528 Environmental Microbiology
LSB547 Bacterial Pathogenesis and Disease Diagnosis
LSB568 Electron Microscopy
LSB578 Virology

Year 4, Semester 2

Two units selected from:

LSB628 Food Microbiology
LSB647 Clinical Mycology and Parasitology
LSB648 Molecular Microbiology

Course structure - Major in Physics

Year 1, Semester 1

MAB111 Mathematical Sciences 1B
PCB101 Physical Science

Year 1, Semester 2

MAB112 Mathematical Sciences 1C
SCB222 Exploration of the Universe

Year 2, Semester 1

MAB311 Advanced Calculus
PCB107 Physics and Quantitative Techniques

Year 2, Semester 2

PCB250 Physics 1
PCB260 Physics 1A

Year 3, Semester 1

PCB361 AC Theory and Electronics
PCB362 Physics 2

Year 3, Semester 2

PCB460 Instrumentation and Computational Methods
PCB462 Thermodynamics and Solid State Physics

Year 4, Semester 1

PCB561 Quantum and Condensed Matter Physics
PCB562 Physical Methods of Analysis

Year 4, Semester 2

PCB661 Experimental Physics
PCB665 Physics 3

Potential Careers:

Academic, Actuary, Administrator, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Corporate Secretary, Database Manager, Ecologist, Environmental Health Officer, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Higher Education Worker, Hydrogeologist, Immunologist, Industrial Chemist, Information Officer, Laboratory Technician (Chemistry), Manager, Mapping Scientist/Photogrammetrist,
Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Policy Officer, Population Ecologist, Programmer, Project Developer, Project Manager, Public Servant, Quantitative Analyst, Statistician, Virologist.
Bachelor of Arts/Bachelor of Education (Secondary) (IX01)

Year offered: 2007
Admissions: Yes
CRICOS code: 020316C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $4,885
International Fees (per semester): 2007: $7,500 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: CSP: 409102; Dfee: 409106
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432 (240 cr pts in the BA and 192 cr pts in the BEd)
Course coordinator: Humanities Coordinator: Dr Iraphne Childs; Education Coordinator: Dr Mal Shield
Campus: Gardens Point, Kelvin Grove and Carseldine

Career Outcomes
During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Further Information
Faculty of Education Office

School of Humanities and Human Services
Email: hhs_enq@qut.edu.au
Phone: +61 7 3138 4563
Fax: +61 7 3138 4719

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphne Childs (Arts); Dr Kerryann Walsh (Education)
Campus: Gardens Point, Kelvin Grove and Carseldine

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also accredited by the Department of Child Safety for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Total credit points: 384

Standard credit points per full-time semester: 48

Course coordinator: Education - Dr Mary Ryan; Humanities- Dr Iraphne Childs

Campus: Kelvin Grove and Carseldine

Career Outcomes
The Arts component provides an excellent general education for future primary school specialists. The Bachelor of Education (Primary) prepares students to teach at all levels of primary school. They may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum. Students may pursue language studies in this course.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

### UNITS IN THE BACHELOR OF ARTS

Refer to the Bachelor of Arts single degree entry for information on Majors and Units

### CORE PROGRAM - Commencing Students

The core program for the degree consists of the following selection of units:

#### First Year Core: Core Units for Professional Majors

**INTERNATIONAL AND GLOBAL STUDIES**
- HHB110 Introduction To International And Global Studies
- HHB111 Issues In International And Global Studies

**SOCIETY AND CHANGE**
- HHB105 Exploring Change
- HHB104 Understanding Society: Intro To Sociology

**ETHICS AND HUMAN RIGHTS**
- HHB114 Introduction To Human Rights And Ethics
- HHB115 Human Identity And Change

**COMMUNITY STUDIES**
- HHB103 Contemporary Social And Community Issues
- HHB102 The Human Condition

**AUSTRALIAN STUDIES**
- HHB106 Australian Society And Culture
- HHB112 Australian Politics

#### First Year Core: Skills Units

- HHB116 Applied Skills And Scholarship
- HHB117 Introduction To Social Research Methods

#### Second Year Core: Research Methods Units

- HHB224 Qualitative Research Methods
- HHB232 Survey Methods
- HHB121 Interpreting The Past
- HHB312 Geographical Research Design

### BACHELOR OF ARTS UNIT INFORMATION

Refer to the Bachelor of Arts single degree entry for more information on Majors and Units

### Education Component

#### Year 3, Semester 1

- EDB002 Teaching and Learning Studies 2: Development and Learning
- EDB021 Primary Field Studies 1: Development and Learning in the Field
- MDB120 Mathematics Curriculum and Pedagogies
- MDB004 Primary Curriculum and Pedagogies:

### Information and Communication Technologies

#### Year 3, Semester 2

- EDB003 Teaching and Learning Studies 3: Practising Education
- EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
- HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
- CLP400 Middle Years: Multiliteracies

#### Year 4, Semester 1

- EDB004 Teaching and Learning Studies 4: Inclusive Education
- EDB023 Primary Field Studies 3: Inclusive Educational Practices
- KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media

**OR**

- KKB202 Primary Curriculum and Pedagogies: Dance and Drama
- MDB006 Primary Curriculum and Pedagogies: Science

#### Year 4, Semester 2

- EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
- EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
- EDB025 Internship (Primary)
- CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment

### Potential Careers:

Administrator, Community Education Officer, Community Worker, Disability Services Worker, Educator, Environmental Health Officer, Exchange Student, Family Services Officer, Government Officer, Guidance Officer, Higher Education Worker, Human Resource Developer, Human Services Practitioner, Information Officer, Manager, Market Research Manager, Marketing Officer/Manager, Primary School Teacher, Public Relations Officer/Consultant, Public Servant, Research Assistant, Sociologist, Teacher, Youth Worker.

Career Outcomes

Arts graduates find employment in policy development and analysis, social policy, research and project positions, international aid and trade, environment and heritage. Graduates of the Bachelor of Business may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

Professional Recognition

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
* All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
* Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
* Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
* Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
* Economics: Economic Society of Australia (Queensland Division).
* Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
* International Business - Australian Institute of Export;
* Management - Australian Institute of Management;
* Public Relations - Public Relations Institute of Australia.

BA Course Requirements - Commencing Students

Students are required to completed at least one of the five multidisciplinary majors (1 core introductory unit plus 6 units in the major). You will choose from International and Global Studies, Society and Change, Ethics and Human Rights, Community Studies and Australian Studies.

The degree has a core program which consists of the following:
1) First Year: core introductory units for the multidisciplinary majors plus core skills units;
2) Second Year: research methods.

As well as the multidisciplinary major, students may also wish to undertake a Discipline Major in one of the following: History, Geography and Environmental Studies, Languages (French, Indonesian, German, Japanese, or Mandarin), Sociology or Political Studies.

Students must maintain a minimum of 50% enrolment in units from the BA program until they have completed eight of these units (96 credit points).

Students may also wish to include:
- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

NB: Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work...
experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Bachelor of Arts/Bachelor of Creative Industries (IX39)

Year offered: 2007
Admissions: Yes
CRICOS code: 058277C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $15,360
International Fees (per semester): 2007: $8,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: This course is no longer offered
Past rank cut-off: 80
Past OP cut-off: 10
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Arts: Dr Iraphne Childs; Creative Industries: Head, Undergraduate Studies (ugenq.ci@qut.edu.au)
Campus: Kelvin Grove and Carseldine

Course Description
This double degree enables students to complete the requirements of two separate degrees in four years. Students complete a multidisciplinary arts major in one of the following fields: international and global studies; society and change; ethics and human rights; community studies; or Australian studies. Students also complete a Creative Industries major in; creative writing, drama, dance, interdisciplinary studies, media and communication, music, television, or visual arts.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements (for the majors below)
In addition to meeting the cut-off applicants who wish to study one of the following Creative Industries majors below must also pass the additional entry requirement listed below. Further information will be available in July via addentry.qut.com or by phoning 07 3138 8114. A $33 service fee applies for each of the Creative Industries majors below. Applicants applying for more than one course in the same area are required to pay only one service fee of $33. Closing dates are listed below.

Dance: lodge required materials with QUT by 30 August 2007 and pass the audition. Auditions and interviews will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, Townsville and Rockhampton. Confirmation of dates and venues will be posted after applications close.

Music: lodge required materials with QUT by 19 October 2007 and pass the audition.

Visual Arts: lodge required materials with QUT by 19 October 2007 and pass the portfolio.

Career Outcomes
This double degree will prepare you as a multi-skilled professional for careers in international affairs, government, public policy and community development. With your interdisciplinary knowledge, creativity and practical skills, you will also be prepared for careers in media and cultural policy development, film and video activities, the music industry, visual design and publishing, business major.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

KKB330 Workplace Learning
KKB340 Workplace Learning

KDB106 Dance Analysis
KDB109 Funk, Tap and all that Jazz
KDB204 Australian Dance

NOTES:
* Only one Workplace Learning unit may be completed
* KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

Potential Careers:
Academic, Actor, Administrator, Advertising Professional, Art Writer, Artist, Arts Administrator, Choreographer, Community Education Officer, Community Worker,
Composer, Computer Games Developer, Contract Administrator, Creative Writer, Curator, Dance Teacher, Dancer, Digital Composer, Educator, Film Composer, Film/Television Producer, Government Officer, Higher Education Worker, Information Officer, Internet Professional, Journalist, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Organisational Communication Specialist, Policy Officer, Post-production specialist, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Recording Engineer, Song Writer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Stage Manager, Theatre Professionals, Visual Artist, Web Designer.
Bachelor of Arts/Bachelor of Justice (IX41)

Year offered: 2007  
Admissions: Yes  
CRICOS code: 058283E  
Course duration (full-time): 4 years  
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)  
Domestic fees (indicative): 2007: $12,480  
International Fees (per semester): 2007: $8,000 per semester (subject to annual review)  
Domestic Entry: February  
International Entry: February  
QTAC code: 409082; Dfee: 409086  
Past rank cut-off: 73; Dfee: 68  
Past OP cut-off: 13; Dfee: 15  
OP Guarantee: Yes  
Assumed knowledge: English (4, SA)  
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com  
Course coordinator: Dr Iraphne Childs (Arts), Professor Rod Broadhurst (Justice)  
Campus: Gardens Point and Carseldine

Course Description

The course consists of 16 arts units and 16 justice units. The program is integrated so that you will study both arts and justice units in each semester. You will choose at least one multidisciplinary arts major from international and global studies, society and change, ethics and human rights, community studies, or Australian studies. In the justice component you will have the opportunity to study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Potential Careers:

Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Creative Industries/Bachelor of Human Services 2007 (IX43)

Year offered: 2007
Admissions: Yes
CRICOS code: 058291E
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$15360
International Fees (per semester): 2007:$8,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409062; Dfee: 409066
Past rank cut-off: 75. Dfee places were not offered last year.
Past OP cut-off: 12. Dfee places were not offered last year.
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Phil Crane (Human Services); Head, Undergraduate Studies ugenq.ci@qut.edu.au (Creative Industries)
Campus: Kelvin Grove and Carseldine

Course description
This double degree enables students to complete the requirements of two separate degrees in four years. The Human Services course provides the essential knowledge, values, ethics and skills for professional practice in human services and includes supervised professional placements. In the Creative Industries course, students major in drama or interdisciplinary studies.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
This double degree prepares you as a multi-skilled professional for careers in child safety and a range of welfare and community services. In particular you will have a set of skills which will be suitable for areas which combine human services and creative skills, for example, community development and cultural services, and youth arts.

Professional Recognition
Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
Working With Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Assumed knowledge: English (4, SA)

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Dr Phil Crane (Human Services), Prof. Rod Broadhurst (Justice)

Campus: Gardens Point and Carseldine

Course Description

In this course students complete the requirements of two separate degrees in four years. The Human Services component of the course provides knowledge, values, ethics and skills for professional practice in human services. The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

Career opportunities

Career opportunities include human service worker, aged, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course description
In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course,

Majors in the Arts component
In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Majors in the IT component
In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

Defermnt
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Career outcomes
Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues, particularly cultures, ethics and human rights, are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

COURSE OVERVIEW

YEAR 1 SEMESTER 1
ITB002 IT Professional Studies
ITB005 Systems Architecture
BA null
BA Discipline unit

YEAR 1 SEMESTER 2
ITB004 Database Systems
ITB006 Networks
BA Skills unit
BA Discipline unit

YEAR 2 SEMESTER 1
ITB001 Problem Solving and Programming
ITB008 Modelling Analysis and Design
BA Major unit (elective)
BA Discipline or Minor unit

YEAR 2 SEMESTER 2
ITB003 Object Oriented Programming
ITB007 Web Development
BA Major unit (elective)
BA Discipline or minor unit

YEAR 3 SEMESTER 1
IT Major Unit
IT Major Unit
BA Major unit (elective)
BA Discipline or Minor unit

YEAR 3 SEMESTER 2
ITB009 Core Project Initiation
IT Major Unit
BA Major unit (elective)
BA Discipline or Minor unit

YEAR 4 SEMESTER 1
ITB010 Core Project Implementation
IT Major Unit
BA Major unit (elective)
BA Elective unit

YEAR 4 SEMESTER 2
IT Major Unit
IT Major Unit
BA Major unit (elective)
BA Elective unit

ARTS UNITS

FOR A LIST OF ARTS UNITS IN THIS DOUBLE DEGREE REFER TO QUT BACHELOR OF ARTS SINGLE DEGREE

Business Systems Engineering Major

Compulsory Units
ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB245 R/3 System Administration
ITB298 Business Process Engineering

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB230 Project
ITB237 Advanced Databases
ITB245 R/3 System Administration
ITB255 Knowledge Management
ITB266 Information Management
ITB267 Business Analytics
ITB272 Information Technology Project Management
ITB294 Information Quality
ITB322 Information Resources

Databases Major

Compulsory Units
ITB229 Database Design
ITB232 Database Management
ITB239 Enterprise Data Mining
ITB295 XML: Data and Document Processing

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB230 Project
ITB237 Advanced Databases
ITB266 Information Management
ITB267 Business Analytics
ITB322 Information Resources

Games Technology Major

Compulsory Units
ITB711 Programming Abstraction
ITB743 Artificial Intelligence
ITB746 Modelling and Animation Techniques
ITB747 Real Time Rendering Techniques
ITB749 Scientific Programming
MAB281 Mathematics for Computer Graphics

Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice

Electronic Business Major

Compulsory Units
ITB233 Enterprise Systems Applications
ITB239 Enterprise Data Mining
ITB260 E-Commerce Site Development
BSB212 Electronic Business Applications
BSB213 Governance Issues in E-Business
BSB314 E-Business Intelligence

Information Systems Major

Compulsory Units
ITB228 Enterprise Systems
ITB229 Database Design
ITB260 E-Commerce Site Development

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB230 Project
ITB237 Advanced Databases
ITB266 Information Management
ITB267 Business Analytics
ITB322 Information Resources

Information Technology Management Major
Compulsory Units
- ITB222 Systems Analysis and Design
- ITB241 Information Technology Management
- ITB264 Information Systems Consulting
- ITB272 Information Technology Project Management

IS Elective Units
Select two (2) units from the following list
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB245 R/3 System Administration
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

Intelligent Systems Major

Compulsory Units
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

Elective Units
Select two (2) units from the following list
- ITB322 Information Resources
- ITB710 Fundamentals of Computer Science
- ITB715 Web Services
- ITB742 Computational Intelligence
- ITB743 Artificial Intelligence

Interactive Media Major

Compulsory Units
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

Elective Units
Select one (1) unit from the following list
- KIB103 Media Technology 1
- KIB105 Animation and Motion Graphics
- KIB108 Animation Practices

Network Systems Major

Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

Elective Units
Select three (3) units from the following list
- ITB710 Fundamentals of Computer Science
- ITB723 Wireless and Mobile Devices
- ITB745 Operating Systems
- ITS701 Ccna 1 & 2: Internetworking and Routing Basics
- ITS702 Ccna 3 & 4: Switching and Wide Area Networking

Security Major

Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB730 Information Security Fundamentals
- ITB731 Security Technologies
- ITB732 Cryptology and Protocols
- ITB733 Network Security

Software Architecture Major

Compulsory Units
- ITB229 Database Design
- ITB710 Fundamentals of Computer Science
- ITB711 Programming Abstraction
- ITB712 Software Engineering Studies
- ITB713 Advanced Java Programming
- ITB717 Enterprise Software Architecture

Web Services and Applications Major

Compulsory Units
- ITB254 Interaction Design
- ITB260 E-Commerce Site Development
- ITB295 XML: Data and Document Processing
- ITB716 Advanced Web Applications Development
- ITB717 Enterprise Software Architecture
- ITB715 Web Services

Potential Careers:
Community Worker, Diplomat, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Graduate Certificate In Research Commercialisation (IX97)

Year offered: 2007
Admissions: Yes
CRICOS code: External

Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.

Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.

Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.

Domestic fees (per credit point): 2007: $167 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $16,000
International Fees (per semester): 2007:$12,000 per semester (subject to annual review)

Domestic Entry: 2 entry points per year
International Entry: 2 entry points per year

Course coordinator: Professor Rod Wissler
Campus: Internet

course structure

IFP100 Knowledge Transfer and Research Commercialisation (Core Unit)
IFP103 Public Policy and Research
IFP101 Leadership and Workplace Communication
IFP102 Project Management and Research
IFP104 Entrepreneurial Foundations

Potential Careers:
Diploma of Business (Human Resources)/Bachelor of Arts (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 to 3.5 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Campus: Carseldine

Entry Requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Business (Human Resources) at Brisbane North Institute of TAFE. For further information contact Brisbane North Institute of TAFE on 131 248.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Business Management from Brisbane North Institute of TAFE and Bachelor of Arts from QUT. Students first undertake the Diploma of Business (Human Resources) at Brisbane North Institute of TAFE and complete the Bachelor of Arts at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Administrator, Human Resource Manager.
Diploma of Business (Marketing)/Bachelor of Arts (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Past rank cut-off: Brisbane South Institute of TAFE: 51;
Brisbane North Institute of TAFE: This course was not offered in 2005 at Brisbane North Institute of TAFE
Past OP cut-off: Brisbane South Institute of TAFE: 23;
Brisbane North Institute of TAFE: This course was not offered in 2005 at Brisbane North Institute of TAFE
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Business (Marketing) at Brisbane South Institute of TAFE and Brisbane North Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Business (Marketing) from Brisbane South Institute of TAFE/Brisbane North Institute of TAFE and Bachelor of Arts from QUT. Students undertake the first 18 months of study at Brisbane South Institute of TAFE or Brisbane North Institute of TAFE and complete the remaining half of the course at QUT. For further information contact Brisbane South Institute of TAFE on 1300 657 613 or Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Marketing Officer/Manager.
Diploma of Business Management/Bachelor of Arts (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Past rank cut-off: 45
Past OP cut-off: 25
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Business Management at Brisbane South Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Business Management from Brisbane South Institute of TAFE and Bachelor of Arts from QUT. Students undertake the first 18 months of study at Brisbane South Institute of TAFE and complete the remaining half of the course at QUT. For further information contact Brisbane South Institute of TAFE on 1300 657 613.

Deferment
QUT’s deferment policy does not apply to this course.

Potential Careers:
Manager.
Diploma of Business/Bachelor of Arts
(NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Past rank cut-off: 52
Past OP cut-off: 22
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Business at Brisbane South Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Business from the Brisbane South Institute of TAFE and Bachelor of Arts from QUT. Students undertake the first 18 months of study at Brisbane South Institute of TAFE and complete the remaining half of the course at QUT. For further information contact Brisbane South Institute of TAFE on 1300 657 613.

Deferment
QUT’s deferment policy does not apply to this course.
Diploma of Children's Services/Bachelor of Human Services

(NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 4 years
Domestic Entry: February
QTAC code: 542412
Past rank cut-off: 53
Past OP cut-off: 22
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Community Services (Children's Services) at Brisbane North Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Community Services (Children's Services) from Brisbane North Institute of TAFE and Bachelor of Social Science (Human Services) from QUT. Students undertake the first two years of study at Brisbane North Institute of TAFE and complete the degree at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Child Care Professional, Human Services Practitioner, Social Scientist, Sociologist.
Diploma of Children's Services/Bachelor of Social Science

(NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 4 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Past rank cut-off: 50
Past OP cut-off: 24
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Community Services (Children's Services) at Brisbane North Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Community Services (Children's Services) from Brisbane North Institute of TAFE and Bachelor of Social Science from QUT. Students undertake the first two years of study at Brisbane North Institute of TAFE and complete the degree at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Child Care Professional, Child Protection Officer, Family Services Officer, Manager, Policy Officer, Project Developer, Public Relations Officer/Consultant.
Diploma of Community Welfare Work/Bachelor of Human Services (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 4 years
Domestic Entry: February
QTAC code: 543432
Past rank cut-off: All qualified applicants were offered a place
Past OP cut-off: All qualified applicants were offered a place
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Community Welfare Work at Brisbane North Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Community Welfare Work from Brisbane North Institute of TAFE and Bachelor of Human Services from QUT. Students undertake the first two years of study at Brisbane North Institute of TAFE and complete the degree at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Community Worker, Human Services Practitioner, Social Scientist, Sociologist.
Diploma of Community Welfare Work/Bachelor of Social Science (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 4 years
Domestic Entry: February
QTAC code: This dual award is no longer offered
Past rank cut-off: 45
Past OP cut-off: 25
Campus: Carseldine

Entry Requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Community Welfare Work at Brisbane North Institute of TAFE.

Students undertake the first two years of study at Brisbane North Institute of TAFE and complete the degree at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Community Worker, Social Scientist, Sociologist.
Diploma of Justice Administration/Bachelor of Human Services (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 to 3.5 years
Domestic Entry: February
QTAC code: 542552
Past rank cut-off: All qualified applicants were offered a place
Past OP cut-off: All qualified applicants were offered a place
Campus: Carseldine

Entry requirements
Applicants must apply via QTAC and satisfy the entry requirements for the Diploma of Justice Administration at Brisbane North Institute of TAFE.

Dual TAFE/QUT Awards
This combined qualification leads to the awards of Diploma of Justice Administration from Brisbane North Institute of TAFE and Bachelor of Social Science (Human Services) from QUT. Students undertake the first component of study at Brisbane North Institute of TAFE and complete the degree at QUT. For further information contact Brisbane North Institute of TAFE on 131 248.

Deferment
QUT's deferment policy does not apply to this course.

Potential Careers:
Human Services Practitioner.
Diploma of Justice Administration/Bachelor of Social Science (NA)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 3 to 3.5 years

Potential Careers:
Social Scientist.
International Visiting Students (NA05)

Year offered: 2007

Admissions: Yes

CRICOS code: Holders of valid visas

International Fees (per semester): 2007: $2,500 per unit

(subject to annual review)

International Entry: February, July and November

Campus: Gardens Point, Kelvin Grove, Carseldine and External
International Visiting Students (NA06)

Year offered: 2007
Admissions: Yes
CRICOS code: Holders of valid visas only

International Fees (per semester): 2007 AUD$2500 per unit (subject to annual review)

International Entry: February July and November

Campus: Gardens Point, Kelvin Grove and Carseldine
University Study Abroad Certificate
(UO80)

Year offered: 2007
Admissions: Yes
CRICOS code: 050556E

International Fees (per semester): 2007: $8,000 per semester (subject to annual review)

International Entry: February and July

Campus: Gardens Point, Kelvin Grove and Carseldine
University Study Abroad Diploma (UO90)

Year offered: 2007
Admissions: Yes
CRICOS code: 012704B

International Fees (per semester): 2007: $8,000 per semester (subject to annual review)

International Entry: February and July
Campus: Gardens Point, Kelvin Grove and Carseldine
Faculty of Information Technology

Entry Programs (International)
QC01 Foundation Program (1 Semester)
QC02 Foundation Program (2 Semesters)
QC03 Bridging Program
QC04 Extended Foundation Program (3 Semesters)
QC10 English for Academic Purposes for degree programs
QC20 General English
QC21 General English Extension
QC22 English for Tertiary Preparation

Diploma
IT10 University Diploma in Information Technology

Bachelor Degree
IT04 Bachelor of Games and Interactive Entertainment
IT06 Bachelor of Corporate Systems Management
IT21 Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IT22 Bachelor of Information Technology
IT22 Bachelor of Information Technology & Bachelor of Information Technology (Honours) - Dean's Scholars Accelerated Honours Program
IX25 Bachelor of Engineering (Software Engineering)

Bachelor Degree (Double)
IF29 Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IF38 Bachelor of Information Technology/Bachelor of Laws
IF58 Bachelor of Mathematics/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY)
IF59 Bachelor of Engineering (Electrical)/Bachelor of Information Technology
IF90 Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology
IX26 Bachelor of Applied Science / Bachelor of Information Technology
IX27 Bachelor of Creative Industries / Bachelor of Information Technology
IX29 Bachelor of Information Technology / Bachelor of Mathematics
IX33 Bachelor of Business/Bachelor of Information Technology
IX49 Bachelor of Arts/Bachelor of Information Technology

Honours
IT22 Bachelor of Information Technology & Bachelor of Information Technology (Honours) - Dean's Scholars Accelerated Honours Program
IT28 Bachelor of Information Technology (Honours)
IT29 Bachelor of Information Technology (Honours) - Accelerated Program

Graduate Certificate
IT73 Graduate Certificate in Information Management (Library Studies)
IT74 Graduate Certificate in Information Management (Information and Knowledge Management)
IT75 Graduate Certificate in Information Management (Records Management)
IT76 Graduate Certificate in Information Management (Web Management)
IT89 Graduate Certificate in Information Technology (Wireless Games Technology)
IT90 Graduate Certificate in Information Technology (Computer Networks)
IT92 Graduate Certificate in Information Technology (Information Security)
IT93 Graduate Certificate in Information Technology (Enterprise Wide Software)
IT94 Graduate Certificate in Information Technology (Electronic Commerce)
IT95 Graduate Certificate in Information Technology (Project)
IT96 Graduate Certificate in Information Technology (Information Technology Management)
IT98 Graduate Certificate in Information Technology (Multimedia)
IT99 Graduate Certificate in Information Technology (Component Software and Web Services)
IX97 Graduate Certificate In Research Commercialisation

Graduate Diploma
IT35 Graduate Diploma in Information Technology (IT Graduates)
IT38 Graduate Diploma in Information Technology (Non-IT Graduates)

Masters Degree (Coursework)
IT40 Master of Information Technology (IT Graduates)
IT45 Master of Information Technology (Non-IT Graduates)
IT48 Master of Information Technology (Advanced)
IT70 Master of Information Management

Masters Degree (Research)
IT60 Master of Information Technology (Research)

Doctoral
IF49 Doctor of Philosophy (Information Technology)

Study Abroad (Non-degree)
NA05 International Visiting Students
NA06 International Visiting Students
UO80 University Study Abroad Certificate
UO90 University Study Abroad Diploma

University wide unit sets
Unit sets: Accounting and Economics
Unit sets: Advertising, Marketing and Public Relations
Unit sets: Communication
Unit sets: Creative Industries
Unit sets: Health and Psychology
Unit sets: Indigenous Studies
Unit sets: Information Technology
Unit sets: International Studies
Unit sets: Languages
Unit sets: Management
Unit sets: Multimedia and Technologies
Unit sets: Physical and Chemical Sciences
Unit sets: Science
Unit sets: Society and Culture
OVERVIEW

QUT's Faculty of Information Technology is one of the leading providers of information technology courses in Australia. The Faculty is also well known internationally for research excellence in six key areas:

- Business Process Management
- Complex and Smart Systems
- eResearch
- Information Research
- IT Professional Services
- Security and Trust.

The Faculty is located at QUT's inner-city Gardens Point campus and also offers courses at the University's north campus in Brisbane—Carseldine.

The Faculty comprises two schools:

- School of Information Systems
- School of Software Engineering and Data Communications.

QUT benefits from close linkages with industry in our education and research activities. Industry representatives actively contribute to the development and continual refinement of our course offerings, collaborate on multiple research projects with the University, and utilise our expertise through consulting engagements. The Faculty of Information Technology coordinates a very successful student internship program—the Cooperative Education Program—with its industry and government partners. This program offers high achieving IT students the option of completing 10-12 months paid professional experience in the workforce.

The Faculty has almost 3000 students, with a third being international students from some 54 countries. Our courses are geared to develop graduates who can face today's challenges and also tackle an unimagined future with confidence and innovation.

Students are attracted to QUT's focus on real-world experience which involves practical teaching in addition to leadership in applied research that directly benefits industry and the professions. Our lecturers are real-world professionals with years of relevant experience in a variety of industry sectors.

The Faculty draws on the talents of academic staff from diverse backgrounds allowing a dynamic exchange of culture, knowledge and expertise.

SENIOR STAFF

Faculty Office

Executive Dean: Professor S.M. Kaplan, BSc PhD Cape Town, FACS, HonFIEAust, MACM, MIEEE

Assistant Dean (Research): K Raymond, BSc BSCHons PhD Qld PGrad Dip PFP USQ

Assistant Dean (Teaching and Learning): Dr S Edwards, DipLib RMIT, GCEd(HE), MIT (Res), PhD, QUT, AALIA, MACS

Assistant Dean (External Relations): M.G. Roggenkamp, BEd James Cook, DipCompSc MScSt Qld, MACS, MACM, AIEEE

Assistant Dean (Strategy and Innovation): Professor W. Caelli, BSc(Hons) Newcastle(NSW), PhD ANU, FACS, FTICA, MIEEE

Director, Business Development and International: E. Armstrong, BCom Griff, MCom(InSys) Qld

Director, Postgraduate Studies: H.H. Bentley, CertED Exe, BSc(Hons) Manc, MSc Qld, MACS, MACM

Director, Undergraduate Studies: R. Christie, Dip Teach NCAE, BA(Maths) DipCompSc UNE, MAAppSc QUT

Administration Manager: P. Smith, BBus(Com) GradCertEd(HigherEd) QUT

School of Information Systems

Head: Dr A.B. Tickle, BSc DipCompSc MSc Qld, Grad-DipMgt CQU, PhD QUT

Deputy Head: Dr J. Reye, BSc(Hons) Qld, PhD Griff

Professors:

P. Bruza, BSc Qld, MSc KUN, PhD KUN
G.G. Gable, DipCompSys NAIT, BCom Alta, MBA W Ontario, PhD Brad, ACS, AIR, IRMA
B. Pham, BSc(Hons) PhD Tas, DipEd Monash, ACM, IEEE, ACSA, APRS
M. Rosemann, MBA PhD Univ of Münster Germany
A. Spink, BA ANU, DipLib UNSW, MBA Fordham Univ NY, PhD Rutgers Univ New Jersey

Associate Professors:

C. Bruce, BA Qld, GradDipLibSc MEd(Res) QUT, PhD UNE
G. Stewart, BA DipEd MLitSt (CompSci) Qld, PhD QUT, FACS, PCP, AIMM, MIEEE, MACM
A. ter Hofstede, MSc PhD KUN

School of Software Engineering and Data Communications

Head: Professor M. Looi, BEng(Hons) BAppSc PhD QUT, MIEEE, MACS, CDec

Deputy Head: Dr W Kelly, BSc (Hons) Qld, MSc PhD UMD

Professors:

C. Boyd, BSc, PhD Warwick, CMath
E. Dawson, BSc DipEd Wash, MA Syd, MLitStu MSc Qld, PhD QUT, FTICA, MIEEE, MCMSA, MIACR, MACS
C. Fidge, BAppSc RMIT, MAppSc RMI, PhD ANU
K. Raymond, BSc BS(Hons) PhD Qld

G. Mohay, BSc(Hons) W Aust, PhD Monash

Associate Professors:

A. Josang, BSc Telematics NTH, MSc Security Univ of London, PhD NTNU
P. Roe, MEng(Hons) York, PhD Glas, MACM
J. Sitte, PhD Uppsala, SIEEEE

RESEARCH CENTRE

Information Security Institute (ISI)

QUT's Information Security Institute (ISI) is a multidisciplinary institute that builds real solutions for government, business and the community by undertaking research in technology, legal, policy and governance issues related to information security.
ISI has been formed as a collaborative research undertaking of the Faculty of Built Environment and Engineering (BEE), the Faculty of Business (BUS), the Faculty of Information Technology (IT), and the Faculty of Law (LAW). The ISI is a dynamic research facility that integrates the research of the four founding faculties to answer information security, information protection and technology policy challenges that confront business, government and the community as a whole. The creation of the ISI consolidates the already acknowledged expertise that QUT has developed in all aspects of information security over the last 15 years, through the Information Security Research Centre (ISRC).

This multi-disciplinary approach provides QUT with an opportunity to play a leading role in research in the area of Safeguarding Australia which has been identified by the Australian Research Council as one of the key areas of applied research for Australia.

Research Director: Professor E. Dawson, BSc DipEd Wash, MA Syd, MLitStu MSc Qld, PhD QUT, FTICA, MIEEE, MCMSA, MIACR

Deputy Directors:
Professor Colin Boyd, Faculty of Information Technology
Associate Professor Peter Best, Faculty of Business
Professor Sharon Christensen, Faculty of Law
Professor Sridha Sridharan, Faculty of Built Environment & Engineering
Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF29)

Year offered: 2007
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72. Dfee places were not offered last year.
Past OP cut-off: 13. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Ruth Christie(InfTech)
Campus: Gardens Point

Career Opportunities
The course prepares you for an increasing range of careers that involve the application of information technology to science. As a graduate of the double degree, you are also qualified for employment in the areas of software engineering and data communications.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
The science component of the course offers you a choice of one of the major areas of study available in the Bachelor of Applied Science (SC01) course. To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the information technology program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

The information technology component gives you the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the Science and Information Technology degrees.

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

**QUT HANDBOOK 2007 · Page 1328**
### Course structure - Major in Chemistry

**Year 1, Semester 1**
- ITB001 Problem Solving and Programming
- ITB004 Database Systems
- MAB100 Mathematical Sciences 1A
- PCB101 Physical Science

**Year 1, Semester 2**
- ITB002 IT Professional Studies
- ITB003 Object Oriented Programming
- ITB005 Systems Architecture
- LSB118 Life Science
- MAB101 Statistical Data Analysis 1

**Year 2, Semester 1**
- NRB100 Environmental Science
- PCB142 Chemistry 1
- ITB006 Networks
- ITB008 Modelling Analysis and Design
- ITB711 Programming Abstraction

**Year 2, Semester 2**
- PCB150 Physics 1H
- PCB242 Chemistry 2
- ITB712 Software Engineering Studies
- ITB744 Computer Architecture
  - OR
  - IT Elective Unit selected from list

**Year 3, Semester 1**
- PCB334 Inorganic Chemistry
- PCB354 Structure and Mechanism in Organic Chemistry
- ITB745 Operating Systems
  - OR
  - IT Elective Unit selected from list

**Year 3, Semester 2**
- PCB405 Principles of Physical Chemistry
- PCB444 Spectroscopy
- ITB720 Internet Protocols and Services
  - OR
  - IT Elective Unit selected from list

**Year 4, Semester 1**
- PCB505 Advanced Physical Chemistry
- PCB554 Synthesis and Reactivity in Organic Chemistry
- ITB009 Core Project Initiation
  - OR
  - IT Elective Unit selected from list

**Year 4, Semester 2**
- PCB634 Organometallic and Coordination Chemistry
- PCB644 Frontiers in Chemistry
  - OR
  - IT Elective Unit selected from list

### Course Structure - Major in Ecology

**Year 1, Semester 1**
- ITB001 Problem Solving and Programming
- ITB004 Database Systems
- NRB100 Environmental Science
- PCB101 Physical Science

**Year 1, Semester 2**
- ITB002 IT Professional Studies
- ITB003 Object Oriented Programming
- ITB005 Systems Architecture
- LSB118 Life Science
- NRB240 History of Life on Earth

**Year 2, Semester 1**
- ITB006 Networks
- ITB008 Modelling Analysis and Design
- ITB711 Programming Abstraction
- MAB101 Statistical Data Analysis 1
  - Either
  - PCB140 Introductory Chemistry
  - OR

**Potential Careers:**
Bachelor of Information Technology/Bachelor of Laws (IF38)

Year offered: 2007
Admissions: Yes
CRICOS code: 006385G
Course duration (full-time): 5 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)

Domestic fees (indicative): 2007: Full fee tuition $15,360; CSP $7,157
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 419622; Dfee: 419626
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8

Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 528
Course coordinator: IT: Ruth Christie; Law, Director, Undergraduate Programs
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Overview
An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Career Outcomes
Graduates of the Bachelor of Information Technology component may find employment as a: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

Professional Recognition
The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Further Information
Faculty of Information Technology: phone +61 7 3864 2782, fax +61 7 3864 2703, email fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Potential Careers:
Doctor of Philosophy (Information Technology) (IF49)

Year offered: 2007
Admissions: Yes
CRICOS code: 006378F
Course duration (full-time): 3 years
Course duration (part-time): 6 years
Domestic fees (per credit point): RTS/RTA; 2007 $130 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2007: $12,480 (exceeded max. entitlements)
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
International Entry: At any time
Campus: Gardens Point

Overview
The Doctor of Philosophy degree is awarded in recognition of a candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge. The candidate's research must reveal high critical ability and powers of imagination and synthesis and may be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.

Topics could include multidisciplinary problems suggested by external bodies, for example, industry, government and commerce, with joint supervisors from both academic and outside environments.

The candidate's doctoral work can be undertaken either on-campus or at an off-campus location approved by QUT.

Entry requirements
A relevant first class or second class division A honours degree or equivalent from QUT or another recognised institution.

Research Area
Areas of research interest and contact details can be obtained from the Faculty website

Course Structure
The length of the program is generally expected to be three years if candidates enrol as a full-time student (including one year of provisional registration) and six years for part-time (including 24 months of provisional registration).

Assessment for the doctoral award is based on a program of supervised research and investigation, culminating in the thesis. Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular, face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

Further information
Visit the Faculty's web site at www.fit.qut.edu.au, email fit.enquiry@qut.edu.au, or phone +61 73864 2782

Potential Careers:
Computer Games Developer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Librarian, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Bachelor of Mathematics/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF58)

Year offered: 2007
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419552; Dfee: 419556
Past rank cut-off: 75. Dfee places were not offered last year.
Past OP cut-off: 12. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Course coordinator: Professor Helen MacGillivray (Science)
Discipline coordinator: Dr Gary Carter (Mathematics), Ruth Christie (Information Technology)
Campus: Gardens Point

Career Opportunities
As a graduate you may find employment as a programmer, software engineer, systems programmer, technical support specialist, systems manager, systems designer, computer scientist, security analyst, systems analyst, data communications specialist, mathematician, or statistician.

Course Structure
The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

Professional Recognition
On graduation, you will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include EnergeX, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Scholarships
Students enrolled in this course can apply for industry-sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Potential Careers:

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Engineering (Electrical)/Bachelor of Information Technology (IF59)

Year offered: 2007
Admissions: Yes
CRICOS code: 006384G
Course duration (full-time): 5 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419512; Dfee: 419516
Past rank cut-off: 78; Dfee: 73
Past OP cut-off: 11; Dfee: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer (Engineering), Ruth Christie (Information Technology)
Discipline coordinator: Dr Ed Palmer (Engineering)
Campus: Gardens Point

Recommended Study
Chemistry, Math C and Physics are recommended.

Career Outcomes
Many graduates find employment in government instrumentalities such as communications, railways, electricity supply, hospitals, transport and in private organisations that are using electronics, electronic systems, computers and microprocessors to monitor, control, communicate and optimise processes and production.

Overview
The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This double degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty’s Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Professional Recognition
This degree meets the requirements for membership of Engineers Australia and the Institution of Radio and Electronics Engineers Australia. Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Special Course Requirements
A candidate for the degree of Bachelor of Engineering (Electronics)/Bachelor of Information Technology must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Faculty of Information Technology Phone +61 7 3864 2782, Fax +61 7 3864 2703, email: fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances. Find out more on deferment.

**Electrical Engineering Elective Units**
- EEB566 Real-Time Computer-Based Systems
- EEB666 Communication Environments for Embedded Systems
- EEB941 Modern Signal Processing
- EEB960 Wireless Communications
- EEB976 Advanced Industrial Electronics
- EEB992 VLSI Circuits and Systems
- EEP123 Process Control and Robotics
- EEP129 Image Processing and Computer Vision

At the discretion of the Course Coordinator, students may be allowed to select an elective from any advanced topics offered by the University. Also potential honours students, with the approval of the Course Coordinator, may, with the approval of the Course Coordinator, select an elective from the from postgraduate degree courses offered by the School of Electrical and Electronic Systems Engineering. IT and Electrical Engineering Electives may be interchanged provided at least one elective is chosen from each discipline.

**IT Elective units - please see IT Elective Unit list**

**Industrial Experience**
Students must obtain at least 60 days industrial experience in an engineering environment as approved by the Course Coordinator.

Potential Careers:
Computer Systems Engineer, Electrical and Computer Engineer, Programmer, Software Engineer, Web Designer.
Bachelor of Creative Industries (Communication Design)/Bachelor of Information Technology (IF90)

Year offered: 2007
Admissions: No
CRICOS code: 040317C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$15360
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409872
Past rank cut-off: 77
Past OP cut-off: 11
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Adrian Thomas (Creative Industries) ; Ruth Christie (Info Tech)
Discipline coordinator: Dr Gavin Sade (Creative Industries)
Campus: Gardens Point and Kelvin Grove

OP Guarantee
The OP Guarantee does not apply to this course.

Overview
This four year double degree prepares students for work in the games development and entertainment industries. Students study core units plus areas including design and media technologies, games design, software development, interactive writing and programming. Students are introduced to the theories and practices which underpin interdisciplinary design and technology studies. The course brings together information technology core areas of algorithms and data structures, information science and visualisation with the design areas associated with human computer interaction, usability and accessibility, ambient and ubiquitous computing and tangible interfaces.

Students develop creative, technical and professional skills to allow them to work at the interface of design and technology practice. Graduates are well positioned to be leaders in their field, with students prepared for practice in the creative industries in the context of communication design.

Pathways to Honours and post graduate degrees are available.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Career Outcomes
Graduates work in information architecture, educational web development, game design, human computer interaction, information science.

Professional Recognition
Graduates of the Bachelor of Information Technology component meet the knowledge requirements for admission to the Australian Computer Society (ACS).

### Electives

#### Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.

**Rules for selecting electives:**

* you must obey any elective rules as set out in your course requirements
* you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.
* you must have successfully completed any pre/co-requisite units applicable
* the offering of elective units is subject to sufficient student enrolment numbers and staff availability
* some units are subject to quota restrictions
* KK33, KK34, KJ32, KM32, IX07 and IX16 students ONLY are permitted to select electives from outside the Faculty of Creative Industries

Past rank cut-off: 73; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Ms Ruth Christie
Campus: Gardens Point

Course Overview
The Bachelor of Games and Interactive Entertainment gives you the opportunity to join the growing industry of digital entertainment and electronic games by acquiring expertise in the development of computer games and other forms of interactive media. The course has a strong foundation in both entertainment technology and creative skills. You can choose your primary area of study, also known as your major, from:

Animation and Computational Arts: animation and motion graphics, 3D computer graphics and computer generated art
Digital Media: mixing graphics, video, animation and sound to meet the increasingly complex world of digital entertainment
Game Design: game design tools and design processes, narrative and immersion, architecture and interior design
Software Technologies: technical aspects of computer games, games engine and tools development

You will gain experience in the whole process of game and interaction development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, right through to the development and delivery of a final product.

Career Outcomes
Depending on your specialisation, graduates may find employment as a games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, quality assurance tester, games/digital media reviewer, video game tester, sound designer, mobile entertainment and communications developer, web developer or digital product strategist.

Professional Accreditation
No professional accreditation is currently available for courses in the games and entertainment area.

Students completing the Software Technologies Major would be eligible for membership of the Australian Computer Society (ACS).

Cooperative Education Program
The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Students’ entry to the program is based on academic performance in the first two years of their undergraduate studies. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNiTAB, RACQ and many Queensland Government departments.

More information is available on the Cooperative Education website.

Please note this program is only offered to Australian residents and permanent residents.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Bachelor of Games & Interactive Entertainment Course structure

The course consists of four blocks of studies

Block A: Core Studies (6 units plus a 24 credit point Project completed in Semester 6)
Block B: Major (8 units) selected from Animation and Computational Art; Digital Media; Games Design; Software Technologies
Block C: Minor (4 units)
Block D: Electives (4 units)

Year 1, Semester 1
Bachelor of Games & Interactive Entertainment Majors

Course structure

Block B Majors (8 units)

Animation and Computational Arts

- KIB105 Animation and Motion Graphics
- KIB107 Introduction to Programming for 3D
- KIB108 Animation Practices
- KVB105 Foundations of Drawing for Animation 1
- KVB106 Foundations of Drawing for Animation 2
- KVB202 Visual Imaging - Process and Theory
- ITB003 Object Oriented Programming
- KKB210 Computational Arts 1
- KKB211 Computational Arts 2

Games Design

- KIB814 Enabling Immersion
- KIB816 Interactive Writing
- ITB016 Fundamentals of Game Design
- ITB017 Advanced Game Design
- KIB310 Design Studio 3: Virtual Environments

Software Technologies*

* This Major assumes students have obtained a SA or better in Queensland Maths B (or equivalent)

- ITB003 Object Oriented Programming
- ITB004 Database Systems
- ITB005 Systems Architecture
- ITB749 Scientific Programming
- ITB711 Programming Abstraction
- MAB281 Mathematics for Computer Graphics
- ITB743 Artificial Intelligence
- ITB746 Modelling and Animation Techniques
- ITB742 Computational Intelligence
- ITB747 Real Time Rendering Techniques

Bachelor of Games & Interactive Entertainment Minors

Course structure

Students select a Minor from the following

Animation#

- KIB212 Animation Studio 1: Preproduction
- KIB213 Animation Studio 2: CG Toolkit

#This Minor is only available to students who are undertaking the Animation and Computational Arts Major. As resources are limited, entry will be determined on the basis of a student’s academic performance in the units KIB105, KIB107, KIB108 and KVB105.
## Computer Science*
- ITB710 Fundamentals of Computer Science
- ITB744 Computer Architecture
- ITB745 Operating Systems
- ITB748 Configurable Computing

* This Minor is only available to students who are undertaking the Software Technologies Major.

## Digital Media
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- ITB213 Advanced Interaction Design

## Games Design
- KIB814 Enabling Immersion
- KIB816 Interactive Writing
- ITB016 Fundamentals of Game Design
- ITB017 Advanced Game Design

## Entrepreneurship
- BSB115 Management, People and Organisations
- MGB223 Creating New Enterprises
  - OR
- MGB218 Venture Skills
- AMB240 Marketing Planning and Management
- AMB251 Innovation and Market Development

## Legal Issues
- LWB141 Legal Institutions and Method
- LWB136 Contracts A
  - Two units selected from the following
- LWB137 Contracts B
- LWB142 Law, Society and Justice
- LWB480 Media Law
- LWB482 Internet Law
- LWB484 Electronic Commerce and Technology Contracts
- LWB486 Intellectual Property Law

## Marketing
- BSB126 Marketing
  - Three units selected from the following
- AMB251 Innovation and Market Development
- AMB240 Marketing Planning and Management
- AMB201 Marketing and Audience Research
- AMB341 Strategic Marketing

## Mathematics for Games#
- MAB100 Mathematical Sciences 1A
- MAB111 Mathematical Sciences 1B

Bachelor of Corporate Systems Management (IT06)

Year offered: 2007
Admissions: Yes
CRICOS code: 059712C
Course duration (full-time): 3 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $15360
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 416301; Dfee: 416306
Past rank cut-off: 73; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Course coordinator: Dr Karen Nelson
Campus: Gardens Point

Course Overview
The Bachelor of Corporate Systems Management will give students the skills and knowledge to identify and communicate business system needs, select the right information systems and integrate these systems into organisations to improve business performance.

The course is industry relevant and flexible, with the option to focus studies on areas such as IT management, enterprise systems, IT consulting, business process engineering, and knowledge management. Students will learn about, and come to understand, the interrelationship of information technology, business and client relations.

Career Outcomes
The professional skills gained from the Bachelor of Corporate Systems Management are applicable across all business domains. Students will gain knowledge and an understanding of how to work with people and clients, operations, systems and production, while learning how to apply a strategic focus in a management role.

As a graduate, students can expect to work as a business analyst or consultant, enterprise architect, information or knowledge strategist, ICT project manager or IT infrastructure manager.

Professional Accreditation
Recognition of the course by the Australian Computer Society (ACS) will be sought during 2007.

Cooperative Education Program
The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Students' entry to the program is based on academic performance in the first two years of their undergraduate studies. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UNITAB, RACQ and many Queensland Government departments.

More information is available on the Cooperative Education website.

Please note this program is only offered to Australian residents and permanent residents.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

University Diploma in Information Technology (IT10)

Year offered: 2007
Admissions: Yes
CRICOS code: 025283M
Course duration (full-time): 2 semesters
International Fees (per semester): 2007: $7,250 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Elizabeth McDade
Campus: Kelvin Grove

Abbreviation
UnivDipInfTech

Entry requirements - Academic
Successful completion of senior high school with the required grades. Students can find more country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The University Diploma in Information Technology, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Information Technology. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Technology. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low pass) in the remaining unit.

Progression
Requirements for progression to the second year of QUT Bachelor of Information Technology:

i) fulfil the Diploma course requirements,
ii) a minimum Grade Point Average (GPA) of 4, and
iii) an IELTS score of 6.5 or its equivalent.

Semester One
ITD001 Problem Solving and Programming
ITD004 Database Systems
ITD005 Systems Architecture
QCD120 Communication for Information Technology 1

Semester Two
ITD002 IT Professional Studies
ITD003 Object Oriented Programming
ITD006 Networks
QCD220 Communication for Information Technology 2

Potential Careers:

IT10 - University Diploma in InfoTech (Full-time course structure)

Year offered: 2007  
Admissions: No  
CRICOS code: 012656E  
Course duration (full-time): 3 years (International students must study at Gardens Point)  
Course duration (part-time): 6 years (not available at Carseldine)  
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)  
Domestic fees (indicative): 2007 Full fee tuition $15360  
International Fees (per semester): 2005: A$9,000; 2006: A$9,000 (subject to annual review)  
International Entry: February, July and October (Conditions apply for October entry)  
OP Guarantee: Yes  
Assumed knowledge: English (4,SA) and Maths B (4,SA)  
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com  
Total credit points: 288  
Course coordinator: Ruth Christie  
Campus: Gardens Point and Carseldine

Career Outcomes
IT is now an integral part of all commercial, industrial and government activities. A graduate may find employment as a: Programmer, Software Engineer, Systems Programmer, Computer Scientist, Systems Analyst, Data Communications Specialist, Information Manager, Electronic Commerce Developer, Games Developer, Multimedia Specialist, Network Administrator, Database Manager, Web Developer.

For information on the above job descriptions, visit IT Skills Hub.

Course Design
From 2006, the Bachelor of Information Technology will be redesigned to ensure graduates are industry ready and future proof.

In response to the ever-changing IT industry, the new Bachelor of IT will provide a strong theoretical and practical grounding on which students can build to advance their own unique career aspirations. This course is designed to ensure graduates are industry ready and future proof. A key feature of the program is greater flexibility for students to complement their IT studies with a related discipline (eg Business, Creative Industries, Science), all within three years.

The 24 unit degree comprises:
- Ten Faculty Core Units that must be undertaken by all students to provide a strong foundation for a career in IT
- Six units in an IT Major
- Eight units in IT Complementary Studies, including for example a second IT Major or an Extended Major.

Click here for more info.

Students commencing at Carseldine campus must transfer to Gardens Point campus after the completion of first year (ie 96 credit points of study).

Credit for previous study
Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT's international site.

Professional Recognition
Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Co-operative Education Program
The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Entry to the program is based on academic performance in the first two years of the Bachelor of Information Technology. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

More information is available on the Cooperative Education site.

Please note this program is only offered to Australian residents and permanent residents.

Deferment
From 2006, QUT will allow Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Course Design
In response to the ever-changing IT industry, the new Bachelor of IT provides a strong theoretical and practical grounding on which students can build to advance their own unique career aspirations. A key feature of the program is greater flexibility for students to complement their IT studies with a related discipline (eg Business, Creative Industries, Science), all within three years.

The new Bachelor of Information Technology course structure allows students to have more options in building their IT skill-sets and complementing these skills from other professional disciplines. The Faculty is also introducing new IT content in-line with the new Bachelor course structure. The core component of the new degree extends across all three years of the degree. Specialisations which allow students to hone their skills in an advanced area of IT are more compact and better focused. Students also have the opportunity to commence the combination of their IT studies with non-IT disciplines from the earliest stage in their course. This permits greater depth of skills in such areas. This course is designed to ensure graduates are industry ready and future proof.

IT22 is only available to international students at Gardens Point campus.

Credit for Previous Study
Domestic and international applicants may claim credit for part of the degree, on the basis of completed or partially completed studies, related to the Bachelor of IT.

International students can access advanced standing arrangements on QUT’s international site.

Domestic applicants should view the credit information on the Student Services site.

Professional Recognition
Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society (ACS) as members.

Cooperative Education Program
The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Students have the opportunity to undertake 10-12 months of paid industry employment between the second and third years of an IT degree.

Students’ entry to the program is based on academic performance in the first two years of their undergraduate studies. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog, UniTAB, RACQ and many Queensland Government departments.

More information is available on the Cooperative Education website.

Please note this program is only offered to Australian residents and permanent residents.

Scholarships
Year 12 students who obtain an OP score of two or better are eligible to apply for the Dean’s Scholars Program

The Faculty also offers the Go for IT gURL Merit Scholarships to Queensland Year 12 female students.
wishing to study IT.

Find out more on our range of scholarships.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Bachelor of Information Technology

Course Structure

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year, while the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course Coordinator.

Recommended Core Unit Progression

IT22 Bachelor of Information Technology Course structure (Carseldine)

Course Structure

First year only is offered at Carseldine. Students complete remainder of course at Gardens Point

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year. While the remaining two (2) Block A units are completed later in the course.

Block C Complementary Studies Area (8 units): Students choose the composition which may include: a second IT Major (6 units) or an approved minor (4 units) and 4 electives or 8 specified electives as approved by the Course Coordinator.

Year 1, Semester 1
ITB001 Problem Solving and Programming
ITB002 IT Professional Studies
ITB004 Database Systems
ITB005 Systems Architecture

Year 1, Semester 2
ITB003 Object Oriented Programming
ITB008 Modelling Analysis and Design
ITB006 Networks
OR
Block C Unit
ITB007 Web Development
OR
Block C Unit
ITB006 and ITB007 are only offered at Gardens Point Campus.

Business Systems Engineering Major

Compulsory Units
### Information Technology Major

#### Compulsory Units
- ITB222 Systems Analysis and Design
- ITB228 Enterprise Systems
- ITB245 R/3 System Administration
- ITB298 Business Process Engineering

#### IS Elective Units

Select two (2) units from the following list
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB245 R/3 System Administration
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

### Databases Major

#### Compulsory Units
- ITB229 Database Design
- ITB232 Database Management
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing

#### IS Elective Units

Select two (2) units from the following list
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

### Electronic Business Major

#### Compulsory Units
- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- BSB212 Electronic Business Applications
- BSB213 Governance Issues in E-Business
- BSB314 E-Business Intelligence

### Games Technology Major

#### Compulsory Units
- ITB711 Programming Abstraction
- ITB743 Artificial Intelligence
- ITB746 Modelling and Animation Techniques
- ITB747 Real Time Rendering Techniques
- ITB749 Scientific Programming
- MAB281 Mathematics for Computer Graphics

### Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice.

### Information Systems Major

#### Compulsory Units
- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB260 E-Commerce Site Development

#### IS Elective Units

Select two (2) units from the following list
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

### Information Technology Management Major

#### Compulsory Units
- ITB222 Systems Analysis and Design
- ITB241 Information Technology Management
- ITB264 Information Systems Consulting
- ITB272 Information Technology Project Management

#### IS Elective Units

Select two (2) units from the following list
- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources
Intelligent Systems Major

Compulsory Units
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

Elective Units
- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

Software Architecture Major

Compulsory Units
- ITB229 Database Design
- ITB710 Fundamentals of Computer Science
- ITB711 Programming Abstraction
- ITB712 Software Engineering Studies
- ITB713 Advanced Java Programming
- ITB717 Enterprise Software Architecture

Web Services and Applications Major

Compulsory Units
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

Elective Units
- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

Interactive Media Major

Compulsory Units
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

Elective Units
- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

Network Systems Major

Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

Elective Units
- Select three (3) units from the following list
  - ITB710 Fundamentals of Computer Science
  - ITB723 Wireless and Mobile Devices
  - ITB745 Operating Systems
  - ITS701 CCNA 1 & 2: Internetworking and Routing Basics
  - ITS702 CCNA 3 & 4: Switching and Wide Area Networking

Security Major

Compulsory Units
- ITB720 Internet Protocols and Services
Bachelor of Information Technology & Bachelor of Information Technology (Honours) - Dean's Scholars Accelerated Honours Program (IT22)

Year offered: 2007
Admissions: Yes
CRICOS code: 012656E / 017323G
Course duration (full-time): 3 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $15,360; CSP $7,105
QTAC code: 416002
Past rank cut-off: 98. Also see entry requirements
Past OP cut-off: 2. Also see entry requirements
Assumed knowledge: English (4, VHA) and for embedded systems, games technology and security Maths B (4, SA), or for all other majors Maths A, B or C (4, SA)
Course coordinator: Ruth Christie
Campus: Gardens Point

Why choose this course?
The Dean's Scholars Program is one of its kind in Queensland positioning QUT as a leader in Information Technology. It is an accelerated program of study offering a real edge to IT students as it allows you to complete an undergraduate degree and an Honours degree in three (3) years.

A goal of the Dean's Scholars Program is to introduce high-achieving students to information technology research, via the Honours pathway.

The accelerated program is designed specifically for students with an Overall Position (OP) of 1 or 2 (or interstate equivalent), and who can also demonstrate active involvement in their school and local community activities.

Who should apply?
The program is offered to applicants currently undertaking Year 12 studies at a secondary school, and who achieves an Overall Position (OP) of 1 or 2 (or interstate equivalent).

Entry Requirements
Applicants must be outstanding current, or returning from a gap year. Year 12 students who completed their Year 12 education in Australia.

Additional Entry Requirements
Information Technology Dean's Scholars applicants are required to complete an online questionnaire which will be available at addentry.qut.com in late August. Shortlisted applicants may be required to attend an interview (in December) and will be notified of date and venue after the questionnaire closes.

The due date to submit the questionnaire is 28 September 2007. Late submissions will be accepted up until 30 November. Submissions after 30 November will not be accepted.

Fixed Closing Date
Applications for this program will close on 30 November.

Scholarships
Domestic applicants offered a place in the Dean’s Scholars Program will have their undergraduate HECS paid by the Faculty and those proceeding to Honour’s level will also receive full HECS support.

International students enrolled in the Dean's Scholars Program will have a third of their tuition fees paid by the Faculty for the undergraduate and Honours program. Students are responsible for the cost of their student guild fees and all other costs associated with their program.

Cooperative Education Program
Students wishing to participate in the Cooperative Education Program should be aware that they will not receive financial support for the duration of the placement.

OP Guarantee
The OP Guarantee does not apply to this program.

Professional Recognition
As a graduate of the Dean's Scholars Program you will be qualified for professional accreditation and employment in fields relevant to your specialisation.

Deferment
QUT’s deferment policy does not apply to this course.

International Student Entry
To be eligible to enrol in the Honours program, students must demonstrate appropriate levels of achievement in the Bachelor of Information Technology course. Offers in the Honours program will be made conditionally on the student maintaining a GPA of 5.5 in the Bachelor of Information Technology component to be eligible to continue to the Bachelor of Information Technology (Honours). It is expected that many Dean’s Scholars will proceed to PhD studies. However, students have the option of exiting after the Bachelor of Information Technology (2.5yrs).

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Bachelor of Information Technology
**Course Structure**

The course structure consists of 10 Faculty Core Studies Units (Block A), 6 Major Units (Block B) and 8 Complementary Studies Area Units (Block C).

Eight (8) Block A units are completed in the first year. While the remaining two (2) Block A units are completed later in the course.

Bachelor of Information Technology (Honours) (IT28)

Year offered: 2007
Admissions: Yes
CRICOS code: 017323G
Course duration (full-time): 1 year
Course duration (part-time): 2 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007 Full fee tuition $15,360; CSP $7,114
International Fees (per semester): 2007:$9,500 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Course coordinator: Dr Wayne Kelly
Campus: Gardens Point

Overview

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to: develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

Entry requirements

A Bachelor of Information Technology from QUT or its equivalent, completed within 18 months prior to enrolment with a minimum grade point average of 5 on a 7-point scale or its equivalent OR demonstrated outstanding performance in the final year of the degree OR work experience or research considered appropriate by the Course Coordinator.

The "Accelerated" Honours Program

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology (IT21 or IT22) students to continue into the Faculty's Honours Program. See IT29 for further information.

Notes

Duration
Except in special circumstances as approved by the Dean, the requirements for an Honours degree must be completed within two successive years following first enrolment.

Unsatisfactory Progress
Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:
- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

Assessment
The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable). A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding. Dissertations will be examined by an examining committee appointed by the Dean and consisting of at least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

Determination of Level of Honours Awards
The Faculty Academic Board will determine the level of Honours awarded.

Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:

- Honours 1 - First Class Honours
- Honours 2A - Second Class Honours, Division A
- Honours 2B - Second Class Honours, Division B
- Honours 3 - Third Class Honours

The level of Honours award is to be determined by guidelines, as follows:

- Honours 1 - GPA 6.50-7.00, or equivalent
- Honours 2A - GPA 5.50-6.49, or equivalent
- Honours 2B - GPA 4.50-5.49, or equivalent
- Honours 3 - GPA 4.00-4.49, or equivalent

A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email:enquiry.fit@qut.edu.au or telephone: 07 38642782

ITN100 Introduction to Research  
ITN150-1 Honours Dissertation  

### Year 1, Semester 2  
**ITN150-2 Honours Dissertation**  
Elective  

### Year 2, Semester 1  
**ITN150-3 Honours Dissertation**  
Elective  

### Year 2, Semester 2  
**ITN150-4 Honours Dissertation**  
Elective  
null  

**Elective Units** - Students should choose from the list of advanced level postgraduate units. Normally units are undertaken in the area of the student's undergraduate major. Students wishing to enrol in a unit other than those listed should contact the Course Coordinator.  

Full-time students should be aware many electives may be offered evenings only.  

### IT Honours Elective Units  

**Elective units**  
Elective units should normally be chosen from the following list of approved honours electives. At least one of your three electives must be chosen from the list of Advanced Honours Electives. You may enrol in at most one unit not listed below (including units offered by other Faculties) if your supervisor submits a request to the course coordinator indicating that said unit will directly support your honours dissertation. Please note that many units are only offered once per year and many have prerequisite requirements, so you will need to carefully plan ahead. If you require assistance in selecting suitable units from the lists below, please discuss it with your supervisor and course coordinator as soon as possible.  

**Approved Honours Electives**  
- ITN233 Enterprise Systems Applications  
- ITN237 Advanced Databases  
- ITN239 Enterprise Data Mining  
- ITN241 Information Technology Management  
- ITN245 R/3 Systems Administration  
- ITN254 Interactivity Design  
- ITN255 Knowledge Management  
- ITN257 Multimedia Systems  
- ITN260 E-Commerce Site Development  
- ITN264 Information Systems Consulting  
- ITN267 Business Analytics  
- ITN272 Information Technology Project Management  
- ITN295 XML: Data and Document Processing  
- ITN298 Process Engineering  
- ITN713 Advanced Java Programming  
- ITN715 Web Services  
- ITN716 Advanced Web Applications Development  
- ITN717 Enterprise Software Architecture  
- ITN722 Network Planning and Deployment  
- ITN723 Wireless and Mobile Networks  
- ITN731 Security Technologies  
- ITN733 Network Security  
- ITN740 Agent Based Software Engineering  
- ITN741 Information Retrieval Technology  
- ITN742 Computational Intelligence  
- ITN746 Modelling and Animation Techniques  
- ITN748 Configurable Computing  
- ITN751 Games Production  
- ITN232 Database Management  
- ITN253 Case Studies In Enterprise Systems  
- ITN259 Advanced Multimedia Systems  
- ITN747 Real Time Rendering Techniques  
- ITN761 SEDC Special Topic 1  
- ITN765 SEDC Special Topic 5  
- ITN770 Internationalisation of Software  
- ITN771 Advanced Network Management  
- ITN773 Trusted Systems  
- ITN774 Computer Forensics  

**Advanced Honours Electives**  
- ITN232 Database Management  
- ITN253 Case Studies In Enterprise Systems  
- ITN259 Advanced Multimedia Systems  
- ITN747 Real Time Rendering Techniques  
- ITN761 SEDC Special Topic 1  
- ITN765 SEDC Special Topic 5  
- ITN770 Internationalisation of Software  
- ITN771 Advanced Network Management  
- ITN773 Trusted Systems  
- ITN774 Computer Forensics  

**Potential Careers:**  
Computer Games Developer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Journalist, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer, Web Designer.
Bachelor of Information Technology (Honours) - Accelerated Program (IT29)

Year offered: 2007
Admissions: Yes
CRICOS code: 017323G
Course duration (full-time): 2 semesters
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007 $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007 Full fee tuition $15360
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)
International Entry: February and July
Total credit points: 96
Course coordinator: Dr Wayne Kelly
Campus: Gardens Point

Overview

Through a combination of research and advanced coursework units students can pursue specialised studies in a particular area of information technology. The course offers the opportunity to: develop research and development skills, work on cutting-edge technology, and have access to specialist hardware and software. As a successful Honours graduate you are eligible to start a doctoral program, and can expect to obtain a research or teaching position. A wider range of career opportunities are available.

The 'Accelerated Honours' program has been structured to provide an incentive for high achieving Bachelor of Information Technology (IT21 or IT22) students to continue into the Faculty's Honours Program. The incentives include:

1. The student is approved to undertake a concurrent enrolment in the final semester of IT21/IT22 Bachelor of Information Technology, that is to say, the student may enrol in IT21/IT22 Bachelor of Information Technology and IT29 Honours.

2. 12 credit points will be credited towards Block 3 electives in IT21/IT22 Bachelor of Information Technology on the basis of coursework studies completed in IT29 Honours.

3. The student is able to complete a four year program within 3 1/2 years.

Please note: tuition fees normally apply for Summer enrolment

Notes

Assessment
The minimum grade which may be credited towards an Honours degree is 4 (or Satisfactory, where applicable). A minimum of three copies of a dissertation should be presented to the supervisor for examination. Dissertations should be temporarily bound in order to facilitate the making of any revisions and editorial changes required by the examiners before final printing and binding. Dissertations will be examined by an examining committee appointed by the Dean and consisting of a least two examiners, one of whom may be external to the University. The supervisor of the candidate's work may be a member of the committee but may not chair the committee or act as the primary examiner.

Determination of Level of Honours Awards
The Faculty Academic Board will determine the level of Honours awarded.
Honours degrees will be awarded at the following levels after account is taken of the candidate's performance in all units and appropriate weight applied to the dissertation:
Honours 1 - First Class Honours
Honours 2A - Second Class Honours, Division A
Honours 2B - Second Class Honours, Division B
Honours 3 - Third Class Honours
The level of Honours award is to be determined by guidelines, as follows:
Honours 1 - GPA 6.50-7.00, or equivalent
Honours 2A - GPA 5.50-6.49, or equivalent
Honours 2B - GPA 4.50-5.49, or equivalent
Honours 3 - GPA 4.00-4.49, or equivalent
A candidate who does not reach the standard required for Honours 3 remains with a pass degree.

Unsatisfactory Progress
Failure to make satisfactory progress with either the course work component of an Honours program or with the dissertation, or both, may lead to exclusion from the program.

Unsatisfactory progress consists of:
- receiving a grade of less than 4 (or Satisfactory, where applicable) in one unit of the course work component.
- failure to make sufficient progress with the dissertation component, in the opinion of the Dean.

A student who is excluded from or otherwise fails to complete an Honours program will not normally be readmitted to that program.

### Potential Careers:

Academic, Business Analyst, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Data Communications Specialist, Database Manager, Electrical and Computer Engineer, Information...
Graduate Diploma in Information Technology (IT Graduates) (IT35)

Year offered: 2007  
Admissions: Yes  
CRICOS code: 018771J  
Course duration (full-time): 1 years  
Course duration (part-time): 2 years  
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)  
Domestic fees (indicative): 2007: $12480  
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)  
Domestic Entry: February and July  
International Entry: February and July  
Total credit points: 96  
Course coordinator: Hamish Bentley  
Campus: Gardens Point

Overview

This program is designed for information technology graduates who wish to update and upgrade their knowledge and skills for purposes of further career development. The course assists IT graduates to acquire specialised knowledge in an area of information technology and/or widen their knowledge into new areas of information technology.

Entry requirements

Applicants for either IT35 or IT40 must have:

a) a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale)

OR

b) provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study

Applicants who wish to gain entry into this course, based on IT work experience, are encouraged to complete a Graduate Equivalency Proforma.

Course Structure

To graduate from the Graduate Diploma in IT, students are required to have completed 8 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- A minimum of 5 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

Students may also gain credit for one or more graduate certificate awards while completing the Grad Dip or Masters program.

Articulation

Students who successfully complete the Graduate Diploma (96 credit points) are eligible for admission to the Masters and are only required to undertake an additional four units to meet the requirements for the Masters degree.

Further Information

If you require further information, visit the Faculty’s Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782

ITN152-2 Major Project (IS) Part Time
ITN172-1 Project (IS) Part Time
ITN172-2 Project (IS) Part Time

Intermediate Level Units

With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

ITN007 Web Development
ITN218 Applications Programming
ITN222 Business Systems Analysis and Design
ITN223 Software Development with Oracle
ITN228 Enterprise Systems
ITN229 Database Design
ITN241 Information Technology Management
ITN266 Information Management
ITN294 Information Quality
ITN295 XML: Data and Document Processing
ITN322 Information Resources
ITN710 Fundamentals of Computer Science
ITN711 Programming Abstraction
ITN712 Software Engineering Principles
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration
ITN730 Information Security Fundamentals
ITN732 Cryptology and Protocols
ITN740 Agent Based Software Engineering
ITN743 Artificial Intelligence
ITN744 Computer Architecture
ITN745 Operating Systems
ITN749 Scientific Programming
ITS701 Ccna 1 & 2: Internetworking and Routing Basics

Potential Careers:

Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Graduate Diploma in Information Technology (Non-IT Graduates) (IT38)

Year offered: 2007
Admissions: Yes
CRICOS code: 018771J
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)
Domestic Entry: February, July and November
International Entry: February, July and November
Total credit points: 96
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
This program is designed for non-IT graduates who wish to broaden career opportunities by gaining a postgraduate IT qualification. The programs allow students to specialise in a wide range of areas including software engineering, data communications and information systems.

These programs aim to build on non-IT skills acquired in previous study, such as critical and analytical skills; as well as provide an IT curriculum with depth and breadth, from introductory to advanced level.

Students are encouraged to focus on those parts of the employment spectrum where cross-disciplinary qualifications are most appreciated.

Entry requirements
Students can elect to be admitted to either the Graduate Diploma in Information Technology (IT38) or the Master of Information Technology (IT45).

Applicants for either IT38 or IT45 must have: a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage such as desktop applications, email, Internet.

Applicants are assumed to have possessed the following prerequisite skills:
- Can use and manage email facilities;
- Can create and manage a personal file system (eg. home or office computer);
- Understand how to locate and use resources on the internet;
- Familiar with the typical desktop environment: word processors, spreadsheets, etc.;
- Aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

Applicants may refer to an online Computer Literacy Self-Assessment Questionnaire for more information.

Course Structure
To graduate with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:
1 x Compulsory Unit - ITN272 IT Project Management
A Minimum of 3 x Basic Level Units
4 x Chosen from Intermediate or Advanced Level 1 Units

Articulation
Students who complete IT38 can subsequently seek admission to IT45 and are only required to undertake an additional four units to meet the requirements for the Masters degree.

Scholarships
For information on what scholarships cover this course visit the Faculty's home page at www.fit.qut.edu.au

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782

### Potential Careers:
Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Master of Information Technology (IT Graduates) (IT40)

Year offered: 2007
Admissions: Yes
CRICOS code: 003776E
Course duration (full-time): 3 semesters
Course duration (part-time): 6 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 144
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
The advanced Master of IT course (IT40) with nested graduate diploma and graduate certificates is aimed at Information Technology graduates who wish to revise, update, or extend their IT skills and knowledge. With multiple specialisations now emerging in IT, applicants may wish to study advanced units in their own specialisation, and/or move into an entirely different study of IT.

Specialisations are available in:
- Computer Networks
- Information Security
- Enterprise Wide Software
- Electronic Commerce
- Management of Information Technology
- Multimedia; and
- Component Software and Web Services.

Entry requirements
Applicants for the Advanced Master of IT must have:

a) a bachelor's degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR

b) provide other evidence of such qualifications and significant full-time IT work experience, as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Applicants who wish to gain entry into this course, based on IT work experience, are encouraged to complete a Graduate Equivalency Proforma.

Course Structure
To graduate from the Master of Information Technology, students are required to complete 12 units, including:

- 1 x Compulsory Unit - ITN272 IT Project Management
- A minimum of 6 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units
- A maximum of 3 x PG level Elective Units selected from outside the Faculty, in consultation with the Course Coordinator

To exit the Masters course with a Graduate Diploma in Information Technology, students are required to have completed 8 units, including:

- A minimum of 5 x Advanced Level 1 Units
- A minimum of 1 x Advanced Level 2 Units

In addition, students may also gain credit for one or more graduate certificate awards while completing the Masters program. Graduate Certificates in IT consist of 4 designated units which highlight career specialisations in Computer Networks, Information Security, Enterprise Wide Software, Electronic Commerce, Management of Information Technology, Multimedia and Component Software and Web Services.

Further information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782

ITS707-1  Securing Cisco Hardware
null
Project - 12 and 24 credit points (See Project Units for codes)

Intermediate Level Units
With the approval of the Course Coordinator, students seeking skills in a new IT specialisation can select up to two (2) units from the following list of units.

ITN007  Web Development
ITN218  Applications Programming
ITN222  Business Systems Analysis and Design
ITN223  Software Development with Oracle
ITN228  Enterprise Systems
ITN229  Database Design
ITN241  Information Technology Management
ITN266  Information Management
ITN294  Information Quality
ITN295  XML: Data and Document Processing
ITN322  Information Resources
ITN710  Fundamentals of Computer Science
ITN711  Programming Abstraction
ITN712  Software Engineering Principles
ITN720  Internet Protocols and Services
ITN721  Computer Network Administration
ITN730  Information Security Fundamentals
ITN732  Cryptology and Protocols
ITN740  Agent Based Software Engineering
ITN743  Artificial Intelligence
ITN744  Computer Architecture
ITN745  Operating Systems
ITN749  Scientific Programming
ITS701  Ccna 1 & 2: Internetworking and Routing Basics

Advanced Level 2 Units

ITN100  Introduction to Research
ITN232  Database Management
ITN253  Case Studies In Enterprise Systems
ITN259  Advanced Multimedia Systems
ITN269  Special Topic 2B
ITN747  Real Time Rendering Techniques
ITN761  SEDC Special Topic 1
ITN765  SEDC Special Topic 5
ITN770  Internationalisation of Software
ITN771  Advanced Network Management
ITN773  Trusted Systems
ITN774  Computer Forensics
null
Project - 48 credit points (See Project Units for codes)

Project Units
Students in the Masters may complete a maximum of 48 credit points in project units. Students in the Graduate Diploma may complete a maximum of 24 credit points in project units. Advanced Level 1 project units are 12 and 24 credit points. Advanced Level 2 units are 48 credit points.

ITN246  Minor Project 1 (IS)
ITN248  Minor Project 2 (IS)
ITN162  Project (IS)
ITN142  Major Project (IS) Full-Time
ITN791  Minor Project 1 (SEDC)
ITN792  Minor Project 2 (SEDC)
ITN793  Project (SEDC)
ITN794-1  Project (SEDC) PT
ITN794-2  Project (SEDC) PT
ITN795  Major Project (SEDC)
ITN796-1  Major Project (SEDC) PT
ITN796-2  Major Project (SEDC) PT
ITN152-1  Major Project (IS) Part Time
ITN152-2  Major Project (IS) Part Time
ITN172-1  Project (IS) Part Time
ITN172-2  Project (IS) Part Time

Potential Careers:
Business Analyst, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Multimedia Designer, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Master of Information Technology (Non-IT Graduates) (IT45)

Year offered: 2007
Admissions: Yes
CRICOS code: 003776E
Course duration (full-time): 3 semesters
Course duration (part-time): 6 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)
Domestic Entry: February, July and November
International Entry: February, July and November (Conditions apply for November entry)
Total credit points: 144
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
This program is designed for non-IT graduates who wish to broaden career opportunities by gaining a postgraduate IT qualification. The programs allow students to specialise in a wide range of areas including software engineering, data communications and information systems.

These programs aim to build on non-IT skills acquired in previous study, such as critical and analytical skills; as well as provide an IT curriculum with depth and breadth, from introductory to advanced level.

Students are encouraged to focus on those parts of the employment spectrum where cross-disciplinary qualifications are most appreciated

Entry Requirements
Applicants for the Master of IT (Non-IT Graduates) must have:
a Bachelors degree in a discipline other than Information Technology with a grade point average of at least 4.5 (7 point scale); and have demonstrated competence with the basic skills and concepts of personal or office usage.

Applicants are assumed to have possessed the following prerequisite skills:
?- Can use and manage email facilities
?- Can create and manage a personal file system (eg. home or office computer)
?- Understand how to locate and use resources on the internet
?- Familiar with the typical desktop environment: word processors, spreadsheets, etc.
?- Aware of personal computing security issues with regard to backups, viruses, password protection.

These basic skills will not be taught in class. QUT-wide resources are made available for individuals to improve their computer literacy levels.

Applicants may refer to an online Computer Literacy Self-Assessment Questionnaire for more information.

Course Structure
To graduate from the Master of Information Technology (IT45) students are required to complete 12 units, including:
1 x Compulsory Unit - ITN272 IT Project Management
A minimum of 3 x Basic Level Units
A minimum of 3 x Advanced Level 1 Units
In consultation with the Course Coordinator, 1 x Postgraduate Elective unit may be selected from outside the Faculty.

To exit the Masters course with a Graduate Diploma in Information Technology (IT38), students are required to have completed 8 units, including:
1 x Compulsory Unit - ITN272 IT Project Management
A minimum of 3 x Basic Level Units
4 x chosen from Intermediate or Advanced Level 1 Units

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3138 2782.

IT45 v1 - Master of Information Technology (Non-IT Graduates)

Compulsory Unit
ITN272 Information Technology Project Management
* For students who commenced Semester 2, 2006 or later

Basic Level Units
ITN200 Database Systems
ITN201 Enterprise Architecture
ITN700 Programming Principles
OR
ITB001 Problem Solving and Programming
ITN701 Networks and Systems

Intermediate Level Units
ITN007 Web Development
ITN218 Applications Programming
ITN222 Business Systems Analysis and Design
ITN223 Software Development with Oracle
ITN228 Enterprise Systems
ITN229 Database Design
ITN241 Information Technology Management
ITN266 Information Management
ITN294 Information Quality
ITN295 XML: Data and Document Processing
ITN322 Information Resources
ITN710 Fundamentals of Computer Science
ITN711 Programming Abstraction
### ITN712 Software Engineering Principles
### ITN720 Internet Protocols and Services
### ITN730 Information Security Fundamentals
### ITN721 Computer Network Administration
### ITN732 Cryptology and Protocols
### ITN740 Agent Based Software Engineering
### ITN743 Artificial Intelligence
### ITN362 Organisational Databases
### ITN744 Computer Architecture
### ITN745 Operating Systems
### ITN749 Scientific Programming
### ITS701 Ccna 1 & 2: Internetworking and Routing Basics

#### Advanced Level 1 units
- ITN233 Enterprise Systems Applications
- ITN239 Enterprise Data Mining
- ITN237 Advanced Databases
- ITN245 R/3 Systems Administration
- ITN254 Interactivity Design
- ITN255 Knowledge Management
- ITN257 Multimedia Systems
- ITN260 E-Commerce Site Development
- ITN267 Business Analytics
- ITN272 Information Technology Project Management
- ITN298 Process Engineering
- ITN713 Advanced Java Programming
- ITN715 Web Services

Standard credit points per full-time semester: 48  
Standard credit points per part-time semester: 24  
Course coordinator: Hamish Bentley  
Campus: Gardens Point

Overview
The two-year Master of Information Technology (Advanced) program is aimed at beginning IT professionals who wish to obtain specialised IT skills combined with other PG level units from outside the Faculty. The program builds on the existing IT40 Master of Information Technology (IT Graduate) course of 12 units, with a choice of extra units from PG level electives. The current IT40 course is designed for students from an IT background wishing to gain further IT specialisations. This new course is distinguished from the existing IT40 Master of IT as it presents the opportunity to include additional units from either advanced IT units or PG level units from outside the Faculty (with approval of Course Coordinator).

Entry Requirements
Applicants must have a Bachelor degree in information technology with a grade point average of at least 4.5 (on a 7 point scale) or provide other evidence of such qualifications and significant full-time IT work experience which will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Course Structure
To graduate from the Master of Information Technology (Advanced) students are required to complete 16 units, consisting of:
* 1 x Compulsory Unit - ITN272 IT Project Management  
* a maximum of 4 Intermediate Units  
* a minimum of 7 Advanced Level 1 Units  
* a minimum of 1 Advanced Level 2 Units; and  
* a maximum of 3 x PG level Elective Units selected from outside the Faculty, in consultation with the Course Coordinator

ITN743 Artificial Intelligence
ITN744 Computer Architecture
ITN745 Operating Systems
ITN749 Scientific Programming
ITS701 Ccna 1 & 2: Internetworking and Routing Basics
Master of Information Technology (Research) (IT60)

Year offered: 2007
Admissions: Yes
CRICOS code: 020309B
Course duration (full-time): 1.5 years or 3 semesters
Course duration (part-time): 3 years or 6 semesters
Domestic fees (per credit point): RTS/RTA; 2007: $130 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,500 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Total credit points: 144
Course coordinator: Associate Professor Shlomo Geva
Campus: Gardens Point

Overview
The Master of Information Technology (Research) aims to provide specialist education in information technology through a program which involves either an original contribution to knowledge or an original application of existing knowledge.

Students choose a research topic from recognised areas of research concentration within the Faculty. Research can be carried out in a research centre of the Faculty, in the student's place of employment or in a sponsoring institution.

Entry requirements
An approved degree in information technology from a recognised tertiary institution or an equivalent qualification, with a grade point average equal to, or greater than 5 (7 point scale), OR an approved degree from a recognised tertiary institution plus evidence of professional experience and skills to satisfy the academic board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

An essential step in gaining admission to the degree is the choice of a research topic and the formulation of a research plan which meets with the Faculty's approval. Students should discuss their research proposal with Faculty staff at an early stage.

Research Areas
Areas of research interest and contact details can be obtained from the Faculty website

Course Structure
The length of the program is generally expected to be one-and-a-half years if the candidate enrolls as a full time student (including six months of provisional registration) and three years for part time (including one year of provisional registration).

Students with second class Honours division A (or better) in an information technology-related course will normally be enrolled in the Master of Information Technology (Research) and complete the degree in one year full-time.

Assessment for the award of Masters by Research is based on a program of supervised research and investigation, culminating in a thesis. Programs may include some coursework in support of the conduct of research and preparation of the thesis. Candidates are required to have regular interaction with supervisors and to participate in scholarly activities such as research seminars and publication.

Further Information
If you required further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782

Course structure

Full-time Course Structure
A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee (Workload equivalent to 48 credit points per semester)

Part-time Course Structure
A program of research and investigation developed in conjunction with the Principal Supervisor and approved by the Faculty Research Committee (Workload equivalent to 24 credit points per semester)

Potential Careers:
Business Analyst, Computer Games Developer, Data Communications Specialist, Database Manager, Electronic Commerce Developer, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
Overview
This program has replaced IT25 Graduate Diploma in Library and Information Studies.

The Master of Information Management has been developed to provide graduates with the skills to find employment in a range of diverse information roles - in libraries, in business or in government agencies.

Graduates will play an increasing role in understanding and managing the complexities of information impacting on society as a whole.

The course offers the opportunity to specialise in the following areas:
- Library Studies
- Information & Knowledge Management
- Records Management
- Web Management

Graduate Outcomes
Graduates can expect to find employment in positions including:
- Librarian, Information Manager, Knowledge Manager, Database Manager, Webmaster, Information Architect, Information Coordinator, Records Manager, Policy Officer, Research Analyst, Corporate Librarian, Information Services Manager, Bibliographer, Intranet Content Manager, Document Manager, Metadata Analyst, Metadata Development, Specialist Liaison Librarian, Database Manager, Information Broker, Community Information Officer, Cataloguer, Cybrarian, Digital Library Coordinator, Systems Librarian, Information Analyst, Law Librarian, Learning Resources Officer, Library Media Specialist, Strategic Information Manager, Technical Information Specialist

Entry requirements
Applicants must have:

a) Demonstrated competence in the basic skills and concepts of personal or office computer usage; AND

b) a Bachelor's degree in a discipline other than library or information studies with a grade point average of at least 4.5 (7 point scale); OR evidence of qualifications (for example Recognised Prior Learning) that satisfies the Dean of the Faculty that the applicant possesses the capacity to pursue the course of study combined with at least five years relevant full-time IT work experience.

Course structure
To graduate from the Master of Information Management (IT70) students are required to complete the 12 units (10 compulsory and 2 electives).

To exit the Masters course with a Graduate Diploma in Information Management (IT72) students are required to complete the eight specified units.

In addition, there are four Graduate Certificate in Information Management programs available. Students are required to complete four specified units to graduate.

Professional Recognition
Graduates of the Master of Information Management fulfil requirements for recognition by the Australian Library and Information Association (ALIA). Recognition will be sought from the Records Management Association Australia for both the Graduate Diploma and the Master of Information Management.

Administrator, Information Officer, Librarian.
Graduate Certificate in Information Management (Library Studies) (IT73)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2005: A$10,000 (subject to annual review)
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: (Acting until 31 January 2007) Helen Partridge
Campus: Gardens Point

Overview
The Graduate Certificate in Information Management consists of four designated units (48 credit points) which highlight career specialisations. The Graduate Certificate in Information Management (Library Studies) (IT73) is designed for qualified librarians not currently employed or those librarians who wish to diversify.

Graduate Outcomes
Graduates can expect to find employment as: Librarian, Community Information Officer, Cataloguer, Research Analyst, Information Services Manager, Business Information Specialist, Information Broker, Corporate Librarian, Liaison Librarian, Digital Library Coordinator, Law Librarian, Learning Resources Officer, Library Media Specialist

Entry Requirements
Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg. Desktop applications, email, internet access); and a graduate diploma in library or information studies with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possess the capacity to pursue the course of study and at least five years relevant full-time work experience (or equivalent part-time experience)

International students cannot gain direct entry to Graduate Certificates in Information Management as the programs are offered on a part-time basis only.

IT73 Graduate Certificate in Information Management (Library Studies)

Core Units
ITN279 Information Literacy Education

ITN315 Information Management Project
OR
ITN280 Professional Practice

Choose two (2) units from the following:

ITN276 Information Services
ITN316 Digital Library Systems
ITN317 Advanced Information Services
ITN318 Information Organisation 2
ITN320 Law Library Management
ITN321 Law Librarianship - Legal Research
CLN601 Cyberlearning: Information and Knowledge in the Digital Age
CLN603 Designing Spaces for Learning
CLN647 Youth, Popular Culture, and Texts
HHB123 Indigenous Australian Culture Studies
EDB007 Culture Studies: Indigenous Education
SPN624 Adult and Professional Learning

Potential Careers:
Librarian.
Graduate Certificate in Information Management (Information and Knowledge Management) (IT74)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2005: A$10,000 (subject to annual review)
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: (Acting until 31 January 2007) Helen Partridge
Campus: Gardens Point

Overview
The Graduate Certificate in Information Management (Information & Knowledge Management) (IT74) consists of four designated units (48 credit points. It is designed for a career in information or knowledge management in the corporate, state or local government areas.

Graduate Outcomes
Graduates can expect to find employment as:
Knowledge Manager, Information Manager, Metadata Analyst, Metadata Development Specialist, Information Architect, Policy Officer, Document Manager, Document Analyst, Database Manager, Information Analyst, Strategic Information Manager

Entry Requirements
Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg. Desktop applications, email, internet access); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possess the capacity to pursue the course of study and at least five years relevant full-time work experience (or equivalent part-time experience)

International students cannot gain direct entry to Graduate Certificates in Information Management as the programs are offered on a part-time basis only.

Core Units
ITN255 Knowledge Management
SPN637 Managing Knowledge in Learning Organisations

Potential Careers:
Librarian.
Graduate Certificate in Information Management (Records Management) (IT75)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007 Full fee tuition $12480
International Fees (per semester): 2005: A$10,000 (subject to annual review)
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: (Acting until 31 January 2007) Helen Partridge
Campus: Gardens Point

Overview
The Graduate Certificate in Information Management (Records Management) (IT75) consists of four designated units (48 credit points) and is designed for students who wish to gain a qualification in the area of records management.

Graduate Outcomes
Graduates can expect to find employment as:
Records Manager, Document Manager, Information Analyst, Information Manager, Metadata Analyst, Metadata Development Specialist

Entry Requirements
Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg. Desktop applications, email, internet); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possess the capacity to pursue the course of study and at least five years relevant full-time work experience (or equivalent part-time experience)

International students cannot gain direct entry to Graduate Certificates in Information Management as the programs are offered on a part-time basis only.

Librarian.
Graduate Certificate in Information Management (Web Management) (IT76)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2005: A$10,000 (subject to annual review)
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: (Acting until 31 January 2007) Helen Partridge
Campus: Gardens Point

Overview
The Graduate Certificate in Information Management (Web Management) (IT76) consists of four designated units (48 credit points) and is aimed at developing knowledge and skills in the management of information in intranet and internet areas.

Graduate Outcomes
Graduates can expect to find employment as: Information Manager, Knowledge Manager, Webmaster, Intranet Content Manager, Electronic Content Librarian, Web Librarian

Entry Requirements
Demonstrated competence in the basic skills and concepts of personal or office computer usage (eg. Desktop applications, email, internet access); and a bachelor's degree in any discipline with a grade point average of at least 4.5 (7 point scale); or evidence of qualifications (for example Recognised Prior Learning) that satisfies the Faculty that the applicant possesses the capacity to pursue the course of study and at least five years relevant full-time work experience (or equivalent part-time experience).

International students cannot gain direct entry to Graduate Certificates in Information Management as the programs are offered on a part-time basis only.

IT76 Graduate Certificate in Information Management (Web Management)

Core Units
ITN278 Web Content Management
ITN315 Information Management Project
OR
ITN280 Professional Practice

Choose two (2) units from the following
ITN007 Web Development
ITN201 Enterprise Architecture
ITN239 Enterprise Data Mining
ITN362 Organisational Databases

Potential Careers:
Librarian.
Graduate Certificate in Information Technology (Wireless Games Technology) (IT89)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part-time (based on two subjects per semester).

The GCert IT (Wireless Games Technology) is aimed at developing knowledge and skills in wireless game applications. Assumed skills include familiarity with object oriented programming in Java and/or C++.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Course Structure
Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

Graduate Certificates are offered part-time only.

Please visit www.fit.qut.edu.au
Email fit.enquiry@qut.edu.au
Phone 07 3864 2782

IT89 - Graduate Certificate in IT (Wireless Games Technology)

Four (4) units to be selected from the following:
- ITN254 Interactivity Design
- ITN720 Internet Protocols and Services
- ITN723 Wireless and Mobile Networks
- ITN742 Computational Intelligence
- ITN745 Operating Systems
- ITN746 Modelling and Animation Techniques
Graduate Certificate in Information Technology (Computer Networks) (IT90)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
The Graduate Certificate in Information Technology (Computer Networks) (IT90) is designed for a career in network planning and administration.

Students can complete the program over 26 weeks part-time (based on two subjects per semester).

Entry Requirements
Applicants must have a bachelors degree in Information Technology with a grade point average of at least 4.5 (7-point scale) OR provide other evidence of such qualifications and significant full-time Information Technology work experience as will satisfy the Dean of Faculty that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Foundation level study of the principles of modern networking.

Course Structure
Students can enrol directly in the Master of IT (IT Graduates) and gain credit for one or more graduate certificate awards while completing the program. They may exit the course with a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

International students cannot gain direct entry to Graduate Certificates in IT as they are currently only available as part of the IT40 Masters program or as an exit point.

The programs are offered part-time only.

IT90 Graduate Certificate in IT (Computer Networks)

Core
ITN720 Internet Protocols and Services
ITN721 Computer Network Administration

Select 2 units from the following
ITN723 Wireless and Mobile Networks
ITN771 Advanced Network Management
ITS701 Ccna 1 & 2: Internetworking and Routing Basics
ITS702 Ccna 3 & 4: Switching and Wide Area Networking
ITS703 Ccnp 1: Advanced Routing
ITS704 Ccnp 2: Remote Access Networks
ITS705 Ccnp 3: Multilayer Switching
ITS706 Ccnp 4: Network Troubleshooting
ITS707-1 Securing Cisco Hardware
ITS707-2 Securing Cisco Hardware
Graduate Certificate in Information Technology (Information Security) (IT92)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See entry requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. Students can complete the program over 26 weeks part time (based on undertaking two subjects per semester).

GCert IT (Information Security) are designed to provide you with training and a strong understanding of security-related issues in information technology systems. You learn about security problems encountered in computing systems, and explore measures that can be used to secure these systems. An information security background is not necessary for entry to this module.

Entry requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with principles of modern networking and for ITB646, assumed Maths as specified in ITB646 (see Course Structure).

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

Course Structure

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information

If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email:fit.enquiry@qut.edu.au or telephone: 07 3864 2782

IT92 Grad Cert in Information Technology (Information Security)

Four (4) units to be selected from the following

- ITN730 Information Security Fundamentals
- ITN731 Security Technologies
- ITN732 Cryptology and Protocols
- ITN733 Network Security
- ITN765 SEDC Special Topic 5
- ITN773 Trusted Systems

Potential Careers:

Data Communications Specialist, Internet Professional, Network Administrator, Network Manager.
Graduate Certificate in Information Technology (Enterprise Wide Software) (IT93)

**Year offered:** 2007  
**Admissions:** Yes  
**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)  
**Domestic fees (per credit point):** 2007: $130 per credit point (subject to annual review)  
**Domestic fees (indicative):** 2007: $12480  
**Domestic Entry:** February and July  
**Assumed knowledge:** See Entry Requirements  
**Total credit points:** 48  
**Course coordinator:** Hamish Bentley  
**Campus:** Gardens Point

**Overview**
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. GCert IT (EWS) is for students who wish to take advantage of the programming, administration and planning opportunities offered by enterprise wide system environments.

**Entry requirements**
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with concepts of enterprise architecture or enterprise modelling.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

**Course Structure**
Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

**Further Information**
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: enquiry.fit@qut.edu.au or telephone: 07 3864 2782.

**IT93 - Graduate Certificate in IT (Enterprise Wide Software)**

Four (4) units to be selected from the following:
- ITN228  Enterprise Systems
- ITN233  Enterprise Systems Applications
- ITN245  R/3 Systems Administration
- ITN253  Case Studies In Enterprise Systems
- ITN298  Process Engineering
Graduate Certificate in Information Technology (Electronic Commerce) (IT94)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

The Graduate Certificate in Information Technology (Electronic Commerce) (IT94) provides the knowledge and skills necessary for employment in mainstream e-commerce application development.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with object oriented concepts, some programming in modern languages and relational databases.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782.

IT94 - Graduate Certificate in IT (Electronic Commerce)

Four (4) units to be selected from the following
ITN007 Web Development
ITN229 Database Design
ITN260 E-Commerce Site Development
ITN295 XML: Data and Document Processing
ITN730 Information Security Fundamentals
Graduate Certificate in Information Technology (Project) (IT95)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: fit.enquiry@qut.edu.au or telephone: 07 3864 2782.

IT95 - Graduate Certificate in IT (Project)

One (1) unit to be selected from the following

- ITN142 Major Project (IS) Full-Time
- ITN795 Major Project (SEDC)
- ITN152-1 Major Project (IS) Part Time
- ITN152-2 Major Project (IS) Part Time
- ITN796-1 Major Project (SEDC) PT
- ITN796-2 Major Project (SEDC) PT

Potential Careers:
Data Communications Specialist, Internet Professional, Network Administrator, Network Manager, Programmer, Software Engineer, Systems Analyst, Systems Manager, Systems Programmer.
**Graduate Certificate in Information Technology (Information Technology Management) (IT96)**

**Year offered:** 2007  
**Admissions:** Yes  
**Course duration (part-time):** 2 semesters or 26 weeks (based on completing 2 units/sem)  
**Domestic fees (per credit point):** 2007: $130 per credit point (subject to annual review)  
**Domestic fees (indicative):** 2007: $12480  
**Domestic Entry:** February and July  
**Assumed knowledge:** See Entry Requirements  
**Total credit points:** 48  
**Course coordinator:** Hamish Bentley  
**Campus:** Gardens Point

**Overview**

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. GCert IT (Management of Information Technology) provides a specialisation for IT professionals in project management and IT strategy-making.

**Entry Requirements**

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed Skills: systems analysis & design, relational database design and implementation.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

**Course Structure**

Students can use a graduate certificate in IT to articulate or gain credit towards a Graduate Diploma and/or Masters in IT award.

Alternatively, applicants may directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Overview

The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations.

GCert IT (Multimedia) offers the opportunity to specialise in interface design, with skills in multimedia solutions.

Entry Requirements

An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Familiarity with programming and database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

Course Structure

Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

IT98 - Graduate Certificate in IT (Multimedia)

Four (4) units to be selected from the following

- ITN007 Web Development
- ITB254 Interaction Design
- ITN257 Multimedia Systems
- ITN259 Advanced Multimedia Systems
Graduate Certificate in Information Technology (Component Software and Web Services) (IT99)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters or 26 weeks (based on completing 2 units/sem)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February and July
Assumed knowledge: See Entry Requirements
Total credit points: 48
Course coordinator: Hamish Bentley
Campus: Gardens Point

Overview
The Graduate Certificate in Information Technology consists of four designated units (48 credit points) which highlight career specialisations. The GCert IT (Component Software and Web Services) provides a firm basis for a career in web applications technology across a variety of platforms.

Entry Requirements
An approved Bachelor's degree in Information Technology from a recognised tertiary institution with a grade point average of at least 4.5 (7-point scale); OR provide other evidence of such qualifications (for example Recognised Prior Learning) and significant full-time IT work experience, as will satisfy the Dean of Faculty, that the applicant possesses the capacity to pursue the course of study.

Assumed skills: Programming skills at non-elementary level, including OO concepts, basic computer security, analysis skills (eg software engineering, systems analysis or enterprise modelling), relational database.

International students cannot gain direct entry to Graduate Certificates in IT as they are only currently available as part of a Masters program or an exit point.

Course Structure
Students can directly enrol in the Master of IT (IT Graduates)(IT40) and gain credit for one or more graduate certificate awards while completing the program. They may also exit or graduate early from the course upon the successful completion of a graduate certificate (48 credit points) and/or a graduate diploma (96 credit points).

Further Information
If you require further information, visit the Faculty's Home Page: www.fit.qut.edu.au, email: enquiry.fit@qut.edu.au or telephone: 07 3864 2782.

IT99 - Graduate Certificate in IT (Component Software and Web Services)

Four (4) units to be selected from the following

ITN295 XML: Data and Document Processing
Bachelor of Engineering (Software Engineering) (IX25)

Year offered: 2007
Admissions: Yes
CRICOS code: 053707D
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,855
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419502; Dfee: 419506
Past rank cut-off: 78; Dfee: 13
Past OP cut-off: 11; Dfee: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer
Discipline coordinator: Dr Ed Palmer
Campus: Gardens Point

Recommended Study
Chemistry, Maths C and Physics

Career outcomes
Software Engineers create, maintain and modify computer and software programs such as operating systems or communications software. They may also evaluate and deploy new programming tools and techniques and analyse current software products. You may work in a range of occupational environments. Software engineers can work in Engineering/IT-specific industries, as well as in other organisations requiring software engineering expertise.

Overview
The course is a collaborative program between the Faculties of Built Environment & Engineering and Information Technology which provides students with the electrical engineering and software development skills to seek employment as software engineers. The engineering component consists of studies in electronic systems engineering while the information technology component concentrates on software engineering. These studies integrate into a cohesive course which gives a wide and advanced study of modern electronic and computing systems. This degree produces computer and electronic engineers especially suited for the development and application of electronic systems, including micro, mini and mainframe computer systems in all areas of industry.

Professional Recognition
Professional accreditation from Engineers Australia and the Australian Computer Society is being sought.

Special course requirements
Students are required to complete 60 days approved industrial experience.

Further Information
Faculty of Built Environment and Engineering Phone +61 7 3864 1993, Fax +61 7 3864 1516, email: bee.enquiries@qut.edu.au
Faculty of Information Technology Phone +61 7 3864 2782, Fax +61 7 3864 2703, email: fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Note:**
- This course is subject to University approval
- Students are required to undertake five electives as follows: One General Elective, two from Electrical Engineering and two from Information Technology.
- Students who opt to complete the Cooperative Education Program will substitute ITS010 for ITB613

**General Elective**

A QUT degree level unit in the areas of Commercialisation or internationalisation (foreign language) selected in consultation with the Course Coordinator.

**Electrical Engineering electives (Two to be selected)**

**Potential Careers:**

Computer Systems Engineer, Data Communications Specialist, Electrical and Computer Engineer, Electrical Engineer, Software Engineer, Systems Programmer.
Bachelor of Applied Science / Bachelor of Information Technology (IX26)

Year offered: 2007
Admissions: Yes
CRICOS code: 020327M
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,118
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Megan Hargreaves (Science), Ms Ruth Christie (IT)
Campus: Gardens Point

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Course Design
The science component of the course offers students a choice of one of nine majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

The information technology component gives students the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the science and information technology degrees.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Science Major Unit

**Year 4, Semester 1**
- ITB010 Core Project Implementation
- Science Major Unit
- Science Major Unit

**Year 4, Semester 2**
- IT Major Unit
- Science Major Unit
- Science Major Unit

### Business Systems Engineering Major

**Compulsory Units**
- ITB222 Systems Analysis and Design
- ITB228 Enterprise Systems
- ITB245 R/3 System Administration
- ITB298 Business Process Engineering

**IS Elective Units**
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

### Databases Major

**Compulsory Units**
- ITB229 Database Design
- ITB232 Database Management
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing

**IS Elective Units**
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration

### Electronic Business Major

**Compulsory Units**
- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- BSB212 Electronic Business Applications
- BSB213 Governance Issues in E-Business
- BSB314 E-Business Intelligence

### Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice

### Games Technology Major

**Compulsory Units**
- ITB711 Programming Abstraction
- ITB743 Artificial Intelligence
- ITB746 Modelling and Animation Techniques
- ITB747 Real Time Rendering Techniques
- ITB749 Scientific Programming
- MAB281 Mathematics for Computer Graphics

### Information Technology Management Major

**Compulsory Units**
- ITB222 Systems Analysis and Design
- ITB241 Information Technology Management
- ITB264 Information Systems Consulting
- ITB272 Information Technology Project Management

**IS Elective Units**
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics

Past OP cut-off: 80
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: IT: Ms Ruth Christie; Creative Industries: Head, Undergraduate Studies (ugen.qi@qut.edu.au)
Campus: Gardens Point and Kelvin Grove

General
This four-year program gives you the opportunity to allow your creative side to shine through as it complements your technical information technology skills. The integrated program consists of 16 creative industries units and 16 information technology units so that you will study both creative industries and information technology units in each semester. You will choose one creative industries major from communication design, interdisciplinary, music or sound design. You will also choose one information technology major from business systems engineering, databases, electronic business, games technology, information and knowledge management, information systems, information technology management, intelligent systems, security, network systems, software architecture, or web services and applications.

Career Outcomes
Career outcomes vary depending on the specialisations undertaken in each of the component degrees. Graduates enjoy a range of jobs including digital media programmer, simulation designer or developer, quality assurance tester, sound designer, mobile entertainment and communications developer, knowledge worker in music and sound, web developer and digital product strategist.

Additional Entry Requirements (for the majors below)
In addition to meeting the cut-off applicants who wish to study one of the following Creative Industries majors below must also pass the additional entry requirement listed below. Please note registrations to attend an audition or submission of portfolio as well as submission of additional materials to QUT have closed for 2006. Late registrations and submissions will not be accepted.

Sound Design: Portfolio and interview. Closed on 20 October 2006.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

### Course structure for Interdisciplinary major

**Year 1, Semester 1**
- Creative Industries Core Unit
- Sub-Major 1

**Year 1, Semester 2**
- Creative Industries Core Unit
- Sub-Major 1

**Year 2, Semester 1**
- Sub-Major 1
- Sub-Major 2

**Year 2, Semester 2**
- Sub-Major 1
- Sub-Major 2

**Year 3, Semester 1**
- Sub-Major 1
- Sub-Major 2

**Year 3, Semester 2**
- Sub-Major 1
- Sub-Major 2

**Year 4, Semester 1**
- Creative Industries Elective
- Sub-Major 2

**Year 4, Semester 2**
- Creative Industries Elective
- Sub-Major 2

Please note: At least eight of your sub-major units must be K-coded units.

### Course structure for Music major

**Year 1, Semester 1**
- Creative Industries Core Unit
- KMB003  Sex Drugs Rock 'n' roll
  OR
- KMB005-1  Group Music

**Year 1, Semester 2**
- Creative Industries Core Unit
- KMB105  Music and Sound Technology
  The following unit to be taken if KMB005-1
  Group Music completed in semester 1:
- KMB005-2  Group Music

**Year 2, Semester 1**
- KMB130  Core Musicianship 1
- KMB110  Music Production 1
  OR
- KMB120  Music Performance 1

**Year 2, Semester 2**
- KMB131  Core Musicianship 2
- KMB111  Music Production 2
  OR
- KMB121  Music Performance 2

**Year 3, Semester 1**
- Music Elective
- KMB214-1  Music and Sound: Principal Study A

**Year 3, Semester 2**
- Music Elective
- KMB214-2  Music and Sound: Principal Study A

**Year 4, Semester 1**
- Creative Industries Elective
  Music Elective

**Year 4, Semester 2**
- Creative Industries Elective
  Music Elective

### Course structure for Communication Design major

**Year 1, Semester 1**
- Creative Industries Core Unit
- KIB101  Foundations of Communication Design 1
| Year 1, Semester 2 | Creative Industries Core Unit  
|                   | KIB102 Foundations of Communication Design 2 |
| Year 2, Semester 1 | Creative Industries Elective  
|                   | KIB103 Media Technology 1 |
| Year 2, Semester 2 | Creative Industries Elective  
|                   | KIB104 Media Technology 2 |
| Year 3, Semester 1 | KIB210 Design Studio 1: Interaction Design  
| Year 3, Semester 2 | KIB211 Design Studio 2: Web Development |
| Year 4, Semester 1 | KIB310 Design Studio 3: Virtual Environments  
| Year 4, Semester 2 | KIB311 Design Studio 4: Tangible Media |

**Course structure for Sound Design major**

| Year 1, Semester 1 | Creative Industries Core Unit  
|                   | KMB105 Music and Sound Technology |
| Year 1, Semester 2 | Creative Industries Core Unit  
|                   | KMB106 Music and Sound for Multimedia |
| Year 2, Semester 1 | KMB104 Music and Sound Skills  
|                   | KMB110 Music Production 1 |
| Year 2, Semester 2 | KMB107 Sound, Image, Text  
|                   | KMB111 Music Production 2 |
| Year 3, Semester 1 | Sound Design Elective  
|                   | KMB214-1 Music and Sound: Principal Study A |
| Year 3, Semester 2 | KMB205 Sound Media Musicianship  
|                   | KMB214-2 Music and Sound: Principal Study A |
| Year 4, Semester 1 | Creative Industries Elective  
|                   | KKB290 Supervised Group Project |

| Year 4, Semester 2 | Creative Industries Elective  
|                   | Sound Design Elective |

**Business Systems Engineering Major**

**Compulsory Units**

- ITB222 Systems Analysis and Design
- ITB228 Enterprise Systems
- ITB245 R/3 System Administration
- ITB298 Business Process Engineering

**IS Elective Units**

Select two (2) units from the following list

- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB245 R/3 System Administration
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

**Databases Major**

**Compulsory Units**

- ITB229 Database Design
- ITB232 Database Management
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing

**IS Elective Units**

Select two (2) units from the following list

- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB245 R/3 System Administration
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

Compulsory Units

ITB229 Database Design
ITB710 Fundamentals of Computer Science
ITB711 Programming Abstraction
ITB712 Software Engineering Studies
ITB713 Advanced Java Programming
ITB717 Enterprise Software Architecture

Web Services and Applications Major

Compulsory Units

ITB254 Interaction Design
ITB260 E-Commerce Site Development
ITB295 XML: Data and Document Processing
ITB716 Advanced Web Applications Development
ITB717 Enterprise Software Architecture
ITB715 Web Services

Creative Industries Core Units

KKB007 Introduction to Multimedia Technology
KKB008 Narrative in the Creative Industries
KKB009 Writing for Creative Industries
KKB010 Cultures and Creativity
KKB018 Creative Industries

Creative Industries Faculty Undergraduate Open Electives

These unit offerings are current at the time of publication but are subject to change.
Creative Industries students may choose elective units from the following list OR from outside the Faculty area subject to the following guidelines:
* you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.
* you must obey any elective rules as set out in your course requirements
* you must have successfully completed any pre/co-requisite units applicable
* the offering of elective units is subject to sufficient student enrolment numbers and staff availability
* some units are subject to quota restrictions

Semester 1

Media & Communication Discipline

KCB101 Communication in the New Economy
KCB102 Media and Society: From Printing Press to Internet

KCB103 Strategic Speech Communication
KCB201 Virtual Cultures
KCB302 Political Communication
  Dance Discipline
KDB105 Architecture of the Body
KDB108 World Dance
KDB110 Deconstructing Dance in History
  Fashion Discipline
KFB103 Introduction to Fashion Design
  Journalism Discipline
KJB101 Journalism Information Systems
KJB120 Newswriting
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB239 Journalism Ethics and Issues
  Faculty
KKB004 Indigenous Creative Industries
KKB290 Supervised Group Project
KKB357 Independent Study
KKB320 Workplace Learning
KKB330 Workplace Learning
KKB340-1 Workplace Learning
KKB340-2 Workplace Learning
  Music & Sound Discipline
KMB003 Sex Drugs Rock 'n' roll
KMB004 World Music
KMB104 Introductory Musicianship
KMB105 Music and Sound Technology
KMB108 Sound Recording and Acoustics
KMB204 Music and Sound Textures
  Film & Television Discipline
KPB102 Film History
KPB106 Australian Television
KPB108 Media Text Analysis
KPB203 Australian Film
KPB303 Critical Thinking About Television
  Performance Studies Discipline
KTB061 Creative Industries Management
KTB062 Creative Industries Events and Festivals
KTB101 20th Century Performance
KTB204 Understanding Performance
KTB306 Directing for Events and Festivals
  Visual Arts Discipline
KVB102 Modernism
KVB104 Photomedia and Artistic Practice
KVB110 2D Media and Processes
KVB212 Australian Art, Architecture and Design
KVB304 Contemporary Art Issues
Creative Writing & Cultural Studies Discipline
KWB001 Introduction to Literary Theory and Cultural Studies
KWB003 Modern Times (Literature and Culture in the 20th Century)
KWB005 Wonderlands: Literature and Culture in the 19th Century
KWB101 Introduction to Creative Writing
KWB102 Media Writing
KWB103 Persuasive Writing
KWB104 Creative Writing: The Short Story
KWB105 Film and Television Scriptwriting
KWB107 Introduction to Creative Non-Fiction

Semester 2

Media & Communication Discipline
KCB101 Communication in the New Economy
KCB103 Strategic Speech Communication
KCB104 Media and Communications Industries
KCB105 Media and Communication Research Methods
KCB202 New Media Technologies
KCB203 Consumer Cultures
Dance Discipline
KDB106 Dance Analysis
KDB109 Funk, Tap and all that Jazz
KDB204 Australian Dance
Faculty
KKB004 Indigenous Creative Industries
KKB290 Supervised Group Project
KKB357 Independent Study
KKB320 Workplace Learning
KKB330 Workplace Learning
KKB340-1 Workplace Learning
KKB340-2 Workplace Learning
Fashion Discipline
KFB105 Fashion and Modernity
Journalism Discipline
KJB101 Journalism Information Systems
KJB120 Newswriting
KJB121 Journalistic Inquiry
KJB224 Feature Writing
KJB280 International Journalism
KJB337 Public Affairs Reporting
Music & Sound Discipline
KMB002 Music and Spirituality
KMB007 Introductory Ensemble
KMB105 Music and Sound Technology
KMB107 Sound and Image
KMB108 Sound Recording and Acoustics
Film & Television Discipline
KPB103 Film Genres
KPB104 Film and Television Production Resource Management
KPB107 Television Genres
KPB205 Documentary Theory and Practice
KPB206 International Cinema
Performance Studies Discipline
KTB062 Creative Industries Events and Festivals
KTB104 Performance Innovation
KTB207 Staging Australia
Visual Arts Discipline
KVB103 Australian Art
KVB104 Photomedia and Artistic Practice
KVB108 Contemporary Asian Visual Culture
KVB211 Post 1945 Art
KVB306 Video Art and Culture
KVB307 Theories of Spatial Culture
Creative Writing & Cultural Studies Discipline
KWB002 Ozlit
KWB003 Shakespeare, Then and Now
KWB006 Popular Fictions, Popular Culture
KWB007 Indigenous Writing
KWB102 Media Writing
KWB104 Creative Writing: The Short Story
KWB105 Film and Television Scriptwriting
KWB106 Corporate Writing and Editing
KWB204 Creative Non-Fiction: Life Writing
KWB206 Youth and Children's Writing

NOTES:

* Only one Workplace Learning unit may be completed

* KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

Potential Careers:
Advertising Professional, Animator, Arts Administrator, Composer, Computer Game Programmer, Computer Games Developer, Creative Writer, D.J, Digital Composer, Film Composer, Film/Television Producer, Information Officer, Information Security Specialist, Internet Professional, Journalist, Marketing Officer/Manager, Media Industry Specialist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Organisational Communication Specialist, Public Relations Officer/Consultant, Publishing Professional, Recording Engineer, Song Writer, Sound and Music Producer, Sound Designer, Sound/Audio Engineer, Web Designer.
Bachelor of Information Technology / Bachelor of Mathematics (IX29)

Year offered: 2007
Admissions: Yes
CRICOS code: 059226F
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,118
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419552; Dfee: 419556
Past rank cut-off: 70. Dfee places were not offered last year.
Past OP cut-off: 14. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4,SA) and Maths B (4,SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Course coordinator: Professor Helen MacGillivray (Science), Ms Ruth Christie (IT)
Discipline coordinator: Dr Gary Carter (Mathematics)
Campus: Gardens Point

Professional Recognition
On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design
This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points form Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course Structure for students with four semesters of Senior Mathematics B and Senior Mathematics C

For students with four semesters of Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both

Year 1, Semester 1
ITB002 IT Professional Studies
ITB005 Systems Architecture
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C

Year 1, Semester 2
ITB004 Database Systems
ITB006 Networks
MAB210 Statistical Modelling 1
MAB220 Computational Mathematics 1

MAB420 Computational Mathematics 2  
MAB422 Mathematical Modelling  
MAB480 Introduction to Scientific Computation  
MAB481 Visualisation and Data Analysis

Level 3 Units
MAB521 Applied Mathematics 3  
MAB522 Computational Mathematics 3  
MAB523 Introduction to Quality Management  
MAB524 Statistical Inference  
MAB525 Operations Research 3A  
MAB526 Statistical Science 3  
MAB613 Partial Differential Equations  
MAB621 Discrete Mathematics  
MAB623 Financial Mathematics  
MAB624 Applied Statistics 3  
MAB625 Operations Research 3B  
MAB640 Industry Project  
MAB672 Advanced Mathematical Modelling  
MAB681 Advanced Visualisation and Data Analysis

Notes:
In 2008, MAB313 Mathematics of Finance will be offered in Semester 2 and MAB315 Operations Research 2 will be offered in Semester 1.
MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.
All Mathematics units have 4 contact hours per week.

Business Systems Engineering Major

Compulsory Units
ITB222 Systems Analysis and Design  
ITB228 Enterprise Systems  
ITB245 R/3 System Administration  
ITB298 Business Process Engineering

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming  
ITB223 Software Development with ORACLE  
ITB230 Project  
ITB237 Advanced Databases  
ITB245 R/3 System Administration  
ITB255 Knowledge Management  
ITB266 Information Management  
ITB267 Business Analytics  
ITB272 Information Technology Project Management  
ITB294 Information Quality  
ITB322 Information Resources

Databases Major

Compulsory Units
ITB229 Database Design  
ITB232 Database Management  
ITB239 Enterprise Data Mining  
ITB295 XML: Data and Document Processing

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming  
ITB223 Software Development with ORACLE  
ITB230 Project  
ITB237 Advanced Databases  
ITB245 R/3 System Administration  
ITB255 Knowledge Management  
ITB266 Information Management  
ITB267 Business Analytics  
ITB272 Information Technology Project Management  
ITB294 Information Quality  
ITB322 Information Resources

Electronic Business Major

Compulsory Units
ITB233 Enterprise Systems Applications  
ITB239 Enterprise Data Mining  
ITB260 E-Commerce Site Development  
BSB212 Electronic Business Applications  
BSB213 Governance Issues in E-Business  
BSB314 E-Business Intelligence

Games Technology Major

Compulsory Units
ITB711 Programming Abstraction  
ITB743 Artificial Intelligence  
ITB746 Modelling and Animation Techniques  
ITB747 Real Time Rendering Techniques  
ITB749 Scientific Programming  
MAB281 Mathematics for Computer Graphics

Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice

Information Systems Major

Compulsory Units
## Enterprise Systems Major

### Compulsory Units
- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB260 E-Commerce Site Development

### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

## Database Design Major

### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

## E-Commerce Site Development Major

### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

## IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

## Information Technology Management Major

### Compulsory Units
- ITB222 Systems Analysis and Design
- ITB241 Information Technology Management
- ITB264 Information Systems Consulting
- ITB272 Information Technology Project Management

### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

## Intelligent Systems Major

### Compulsory Units
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

### Elective Units
- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

## Interactive Media Major

### Compulsory Units
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

### Elective Units
- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

## Network Systems Major

### Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

### Elective Units
- Select three (3) units from the following list
  - ITB710 Fundamentals of Computer Science
  - ITB723 Wireless and Mobile Devices
  - ITB745 Operating Systems
  - ITS701 Ccna 1 & 2: Internetworking and Routing Basics
  - ITS702 Ccna 3 & 4: Switching and Wide Area Networking

## Security Major

### Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB730 Information Security Fundamentals
- ITB731 Security Technologies
- ITB732 Cryptology and Protocols
- ITB733 Network Security

## Software Architecture Major

### Compulsory Units
- ITB229 Database Design
- ITB710 Fundamentals of Computer Science
- ITB711 Programming Abstraction
- ITB712 Software Engineering Studies
- ITB713 Advanced Java Programming
- ITB717 Enterprise Software Architecture

## Web Services and Applications Major

**Potential Careers:**

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Business/Bachelor of Information Technology (IX33)

Year offered: 2007
Admissions: Yes
CRICOS code: 059595C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$15360
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419202; Dfee: 419206
Past rank cut-off: 75; Dfee: 70
Past OP cut-off: 12; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA) or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Ruth Christie (InfoTech); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Ms Sherrena Buckby (Electronic Business); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

Overview
This double degree will give you a broad base of commercial knowledge in business and information technology, making you more attractive to employers, even if you wish to work predominantly in an information technology position. You will have the opportunity to complement your information technology studies with a business major in accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing and public relations. A graduate of the Bachelor of Information Technology may find employment as a programmer, systems manager, systems designer, systems analyst, computer sales and marketing consultant or data processing manager.

You will combine your business studies with an information technology major of your choice. Possible combinations include banking and finance with security, management with business systems engineering, or marketing with information and knowledge management.

Cooperative Education Program
The Coop Ed Program is a joint venture between employers and the Faculty of IT giving you the opportunity of 10-12 months paid industry placement to better prepare you for employment after you graduate. The Coop Ed Program integrates formal study and professional experience, so you can apply what you are learning in an area relevant to your chosen path.

Some of the organisations our Coop Ed students have worked with are the Australian Tax Office, Boeing Australia, CITEC, Department of Natural Resources and Water, Dialog, EPA, Queensland Police, RACQ and UNiTAB Limited.

For more information about the Faculty's Cooperative Education Program, please visit www.fit.qut.edu.au/future/cooped.jsp

Career Outcomes
Business graduates work in diverse roles in the private and public sectors in areas such as accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing and public relations. A graduate of the Bachelor of Information Technology may find employment as a programmer, systems manager, systems designer, systems analyst, computer sales and marketing consultant or data processing manager.

Professional recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Information Technology meet the knowledge requirements for admission to the Australian Computer Society (ACS).

Course Design
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Business program and 192 credit points from the Bachelor of Information Technology program.

Compulsory Units
ITB222 Systems Analysis and Design
ITB228 Enterprise Systems
ITB245 R/3 System Administration
ITB298 Business Process Engineering

IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

Databases Major
Compulsory Units
ITB229 Database Design
ITB232 Database Management
ITB239 Enterprise Data Mining
ITB295 XML: Data and Document Processing

IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

Games Technology Major
Compulsory Units
ITB711 Programming Abstraction
ITB743 Artificial Intelligence
ITB746 Modelling and Animation Techniques
ITB747 Real Time Rendering Techniques
ITB749 Scientific Programming
MAB281 Mathematics for Computer Graphics

Information and Knowledge Management Major
Please contact the Course Coordinator for enrolment advice.

Information Systems Major
Compulsory Units
ITB228 Enterprise Systems
ITB229 Database Design
ITB260 E-Commerce Site Development

IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

Information Technology Management Major
Compulsory Units
ITB222 Systems Analysis and Design
ITB241 Information Technology Management
ITB264 Information Systems Consulting
ITB272 Information Technology Project Management

IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics

Electronic Business Major
Compulsory Units
ITB233 Enterprise Systems Applications
ITB239 Enterprise Data Mining
ITB260 E-Commerce Site Development
BSB212 Electronic Business Applications
BSB213 Governance Issues in E-Business

BSB314 E-Business Intelligence
### Intelligent Systems Major

**Compulsory Units**

- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

**Elective Units**

- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

### Interactive Media Major

**Compulsory Units**

- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

**Elective Units**

- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

### Network Systems Major

**Compulsory Units**

- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

**Elective Units**

- Select three (3) units from the following list
  - ITB710 Fundamentals of Computer Science
  - ITB723 Wireless and Mobile Devices
  - ITB745 Operating Systems
  - ITS701 CCna 1 & 2: Internetworking and Routing Basics
  - ITS702 CCna 3 & 4: Switching and Wide Area Networking

### Software Architecture Major

**Compulsory Units**

- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

**Elective Units**

- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

### Web Services and Applications Major

**Compulsory Units**

- ITB254 Interaction Design
- ITB260 E-Commerce Site Development
- ITB295 XML: Data and Document Processing
- ITB716 Advanced Web Applications Development
- ITB717 Enterprise Software Architecture
- ITB715 Web Services

**Elective Units**

- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

### Security Major

**Compulsory Units**

- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

**Elective Units**

- Select two (2) units from the following list
  - ITB720 Internet Protocols and Services
  - ITB721 Unix Network Administration
  - ITB730 Information Security Fundamentals
  - ITB731 Security Technologies
  - ITB732 Cryptology and Protocols
  - ITB733 Network Security

---

### Potential Careers:

Bachelor of Arts/Bachelor of Information Technology (IX49)

Year offered: 2007
Admissions: Yes
CRICOS code: 058282F
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $15,360; CSP $6,664
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: This course is no longer offered
Past rank cut-off: 73; Dfee: 68
Past OP cut-off: 13; Dfee: 15

OP Guarantee: Yes
Assumed knowledge: English (4, SA), and for games technology and security majors, Maths B (4, SA), or for all other majors, Maths A, B or C (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Campus: Gardens Point and Carseldine

Course description
In this course students complete the requirements of two separate degrees in Arts and Information Technology in four years. The focus of the arts component is social change with an emphasis on understanding societies and the impact of global, social, environmental and technological change on communities and individuals. In the IT component, there is a strong practical component with computing laboratory based units and project work comprising a significant part of the course.

Majors in the Arts component
In the Bachelor of Arts, students choose an multidisciplinary major from one of the following: international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Majors in the IT component
In the Bachelor of Information Technology, students can choose to major in business systems engineering, data bases, electronic business, games technology, information and knowledge management, information systems, IT management, intelligent systems, interactive media, network systems, security, software architecture, or web services and applications.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Career outcomes
Information technology professionals with a strong knowledge in languages, as well as deep understanding in areas such as international issues, particularly cultures, ethics and human rights, are highly valued by the information technology industry. The Arts component also provides students with a broad-based education and a range of transferable analytical, research and communication skills which will enrich studies in information technology and expand career choices.

COURSE OVERVIEW

YEAR 1 SEMESTER 1
ITB002 IT Professional Studies
ITB005 Systems Architecture
BA null
BA Discipline unit

### ARTS UNITS

For a list of Arts units in this double degree, refer to QUT Bachelor of Arts Single Degree.

### Business Systems Engineering Major

#### Compulsory Units

- ITB222 Systems Analysis and Design
- ITB228 Enterprise Systems
- ITB245 R/3 System Administration
- ITB298 Business Process Engineering

#### IS Elective Units

Select two (2) units from the following list:

- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB245 R/3 System Administration
- ITB255 Knowledge Management
- ITB266 Information Management
- ITB267 Business Analytics
- ITB272 Information Technology Project Management
- ITB294 Information Quality
- ITB322 Information Resources

### Databases Major

#### Compulsory Units

- ITB229 Database Design
- ITB232 Database Management
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing

#### IS Elective Units

Select two (2) units from the following list:

- ITB218 Applications Programming

### Information Technology Management Major

### Games Technology Major

#### Compulsory Units

- ITB711 Programming Abstraction
- ITB743 Artificial Intelligence
- ITB746 Modelling and Animation Techniques
- ITB747 Real Time Rendering Techniques
- ITB749 Scientific Programming
- MAB281 Mathematics for Computer Graphics

#### Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice.

### Electronic Business Major

#### Compulsory Units

- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- BSB212 Electronic Business Applications
- BSB213 Governance Issues in E-Business
- BSB314 E-Business Intelligence

### Information Systems Major

#### Compulsory Units

- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB260 E-Commerce Site Development

#### IS Elective Units

Select two (2) units from the following list:

- ITB218 Applications Programming
- ITB223 Software Development with ORACLE
- ITB230 Project
- ITB237 Advanced Databases
- ITB266 Information Management
- ITB267 Business Analytics
- ITB322 Information Resources

### Information Technology Management Major
### Compulsory Units
- ITB222 Systems Analysis and Design
- ITB241 Information Technology Management
- ITB264 Information Systems Consulting
- ITB272 Information Technology Project Management

### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

### Intelligent Systems Major

#### Compulsory Units
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

#### Elective Units
- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

### Interactive Media Major

#### Compulsory Units
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

#### Elective Units
- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

### Network Systems Major

#### Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

#### Elective Units
- Select three (3) units from the following list
  - ITB710 Fundamentals of Computer Science
  - ITB723 Wireless and Mobile Devices
  - ITB745 Operating Systems
  - ITS701 Ccna 1 & 2: Internetworking and Routing Basics
  - ITS702 Ccna 3 & 4: Switching and Wide Area Networking

### Security Major

#### Compulsory Units
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB730 Information Security Fundamentals
- ITB731 Security Technologies
- ITB732 Cryptology and Protocols
- ITB733 Network Security

### Software Architecture Major

#### Compulsory Units
- ITB229 Database Design
- ITB710 Fundamentals of Computer Science
- ITB711 Programming Abstraction
- ITB712 Software Engineering Studies
- ITB713 Advanced Java Programming
- ITB717 Enterprise Software Architecture

### Web Services and Applications Major

#### Compulsory Units
- ITB254 Interaction Design
- ITB260 E-Commerce Site Development
- ITB295 XML: Data and Document Processing
- ITB716 Advanced Web Applications Development
- ITB717 Enterprise Software Architecture
- ITB715 Web Services

### Potential Careers:
Community Worker, Diplomat, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Graduate Certificate in Research Commercialisation (IX97)

Year offered: 2007
Admissions: Yes
CRICOS code: External

Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.
Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.
Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.

Domestic fees (per credit point): 2007: $167 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $16,000
International Fees (per semester): 2007: $12,000 per semester (subject to annual review)

Domestic Entry: 2 entry points per year
International Entry: 2 entry points per year
Course coordinator: Professor Rod Wissler
Campus: Internet

course structure

IFP100 Knowledge Transfer and Research Commercialisation (Core Unit)
IFP103 Public Policy and Research

OVERVIEW

The QUT Faculty of Law is one of Australia’s largest tertiary educators in Law and Justice. The Faculty is a leader in its field, with world class lecturers and researchers on its academic staff.

The Faculty consists of the School of Law, School of Justice and the Legal Practice Unit. It is equipped with a state-of-the-art electronic moot court, a dedicated Law Library and two 24-hour student computer labs. The Faculty is also home to the Law and Justice Research Centre.

A feature that sets QUT Faculty of Law apart is its focus on education ‘for the real world’. Faculty programs provide a sound balance of practical and theoretical training, facilitating the smooth transition of graduates into their chosen careers. The Faculty’s real world approach is enhanced by its close liaison and collaboration with the legal and justice professions.

The Faculty is continually striving for excellence in learning and teaching in response to the demands of its graduates, their employers, the professions and the community. The Faculty’s teaching and learning programs develop research and analysis skills within contextual and conceptual frameworks. A global approach to education is adopted which includes international visiting scholars, exchange programs for staff and students, and offshore programs. International and Indigenous content and perspectives are progressively being embedded in Faculty units.

Other initiatives to enhance the quality of the educational experience offered by the Faculty include online delivery of teaching and curricula designed to develop graduate capabilities, a field in which the Faculty is an acknowledged leader. The Faculty’s online teaching sites provide electronic access to course materials and a broad array of Internet resources, together with increased opportunities for staff-student communication.

The Faculty offers undergraduate study through the Bachelor of Laws (LLB) and the Bachelor of Justice (BJust) courses. A range of double degree programs is also available, including the Bachelor of Laws in conjunction with the Bachelor of Justice or with a bachelor degree in Applied Science, Arts, Business, Creative Industries, Journalism or Information Technology. A double degree in Laws and Psychology is planned to be on offer from 2008.

A three-year accelerated Bachelor of Laws program is available for students who already hold a bachelor degree in another discipline. These students may also have the opportunity to select their elective units from the Law School’s postgraduate program and graduate concurrently with a Graduate Certificate in Law.

The Faculty offers a range of postgraduate study options, including graduate certificate and graduate diploma courses, masters degrees by coursework or research, and doctoral programs. Many of these courses provide students with the opportunity to build on relevant undergraduate study or professional experience, and develop their expertise in a specialist area. Postgraduate research students are provided with dedicated office space and ICT facilities. The Faculty has staff qualified to supervise research in many fields including, but not limited to:

- Commercial Leases
- Commercial/Business Law
- Competition
- Consumer Protection
- Contract Law
- Crime and Criminology
- Cyber Law / E-Commerce
- Environmental Law
- Health Law
- Human Rights
- Indigenous Issues
- Intelligence and Security
- Legal / Justice Education
- Media Law
- Natural Resources Law
- Negligence
- Policing
- Property Law
- Public Law
- Tax Law
- Technology Law
- Trade Practices
- Intellectual Property and Copyright Law.

Through the Legal Practice Unit, the Faculty also offers a Legal Practice Course (the Graduate Diploma in Legal Practice) to law graduates who wish to satisfy the practical training requirements to be admitted as legal practitioners. The course is offered twice a year in full-time, part-time (in-practice) and part-time (general) modes. The part-time in-practice mode is specially designed for persons who are already working in private or government law offices. The part-time courses are delivered online for the convenience of persons who are working full-time or who otherwise do not wish to study on campus. The full-time course is delivered on-campus in newly refurbished premises that provide every full-time student with a purpose-built work station and networked PC while they are working on campus. Our Graduate Diploma in Legal Practice is Queensland’s longest established practical legal training course and we have successfully prepared over 1000 law graduates for admission as legal practitioners.

The Law School prepares students for careers in law firms, government and other industries. The School of Justice Studies produces graduates with qualifications for employment in policing, justice, defence, security and the social justice field. The Faculty of Law consistently achieves high graduate employment rates, further supporting its position as one of Australia’s leading law faculties.

SENIOR STAFF

Faculty Office
Dean: Professor the Honourable M. Lavarch, LLB QIT

Administration Manager: W.A. Smith, BA(Hons) Syd, GradDipCourt & Parliamentary Reporting Canb

Assistant Dean, Teaching and Learning: M. Shirley, BA LLB(Hons) Qld, GradDipLegalPrac LLM Bond

Assistant Dean, Research and Commercialisation: Professor W.D. Duncan, LLB Qld, LLM Lond, Solicitor

Assitant Dean, International and Community: I. Davies, LLB(Hons) GradDipLegalPrac LLM Qld

School of Law
Head: Professor B. Fitzgerald, BA PhD Griff, LLB(Hons) QUT, BCL Oxon, LLM Harv

Professors:
D.A. Butler, LLB (Hons) PhD QUT
The Law and Justice Research Centre allows the Faculty to respond to current challenges in research and research training by providing structures that offer greater collaboration and support for high quality research and encourage linking of research interest groups within an expanded Faculty research profile, and supports enhancement and sustainability of research productivity.

RESEARCH CENTRE
Law and Justice Research Centre

The Law and Justice Research Centre is the focal point and support structure for the research endeavours of the Faculty of Law, consistent with the Faculty's objectives and commitment to economic, cultural and social improvement through:

- Multidisciplinary collaborative approaches;
- Nationalisation and internationalisation; and
- High impact and professionally-valued research.

One of the Centre’s primary goals is to participate actively in knowledge transfer, particularly to the professions, the community and industry. Another key goal is to support the Faculty’s capacity to conduct priority-driven research designed to answer questions of immediate and future concern to the professions, the community and to government.

The fields of research expertise covered by our researchers embrace some of the more complex issues faced by Australian and global communities, and the areas of research strength within the Faculty are nationally and internationally competitive.

We have a solid and rapidly growing research foundation and have identified specialist groups reflected in research programs, which are domains of established research activity and strength, with strong strategic direction and potential for future growth. The programs have developed due to the existing track record and activity of their members and because of the potential of the fields for national and international significance. The range of programs recognises Law’s unique ability to contribute and ‘value add’ to a vast range of disciplines. The programs are:

- Commercial Property and Environment
- E-Business and E-Government
- Intellectual Property, Knowledge, Culture and Economy
- Health Law
- Citizenship, Government and Identity
- Criminal Justice
- Scholarship of Higher Education Learning in Law and Justice
Bachelor of Journalism/Bachelor of Laws (IF07)

**Year offered:** 2007  
**Admissions:** Yes  
**CRICOS code:** 040313G

**Course duration (full-time):** 5 Years  
**Domestic fees (per credit point):** Commonwealth Supported Place; Full fee tuition 2007: $160 per credit point (subject to annual review)  
**Domestic fees (indicative):** 2007: $9,000 per semester (subject to annual review)  
**International Fees (per semester):** 2007: $9,000 per semester (subject to annual review)  
**Domestic Entry:** February  
**International Entry:** February and July* (*July entry subject to availability)  
**QTAC code:** 409912; Dfee: 409916  
**Past rank cut-off:** 92. Dfee places were not offered last year.  
**Past OP cut-off:** 5. Dfee places were not offered last year.  
**Assumed knowledge:** English (4, SA)  
**Preparatory studies:** ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com  
**Total credit points:** 528  
**Standard credit points per full-time semester:** 48(Semesters 3,4,5,6,9+10), 60(Semesters 1,2,7+8)  
**Course coordinator:** Head, Undergraduate Studies ugenq.ci@qut.edu.au (Creative Industries); Director, Undergraduate Programs (Law)  
**Discipline coordinator:** Dr Leo Bowman (Creative Industries)  
**Campus:** Gardens Point and Kelvin Grove

**OP Guarantee**  
The OP Guarantee does not apply to this program.

**General**  
This five year professional double degree in Journalism and Law is in high demand. Students study journalism subjects in the first three years and in the fourth and fifth years students concentrate on law studies and have the opportunity to specialise in commercial law, corporate law, taxation law, medico-legal issues, alternative dispute resolution, public international law, Asian legal systems, feminist theories of law or environmental law.

**Professional Recognition**  
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purpose of the Solicitors' and Barristers' Admission Rules.

**Career Opportunities**  
Graduates find work in private practice as a barrister or solicitor, may practice in law-related government departments or within large companies as 'in-house' lawyers. Journalism opportunities are similar to those of students with the single Bachelor of Journalism degree.

**Deferment**  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Domestic student tuition fee (Dfee) places**  
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

**Course structure**

**Year 1, Semester 1**
- KJB101 Journalism Information Systems  
- KJB120 Newswriting  
- Creative Industries Core Unit - See List A  
- LWB141 Legal Institutions and Method  
- LWB142 Law, Society and Justice

**Year 1, Semester 2**
- KJB121 Journalistic Inquiry  
- Creative Industries Core Unit - See List A  
- LWB143 Legal Research and Writing  
- LWB144 Laws and Global Perspectives  
- Creative Industries Elective

**Year 2, Semester 1**
- KJB239 Journalism Ethics and Issues  
- KJB224 Feature Writing  
- KPB101 Foundations of Film and Television Production  
- LWB136 Contracts A

**Year 2, Semester 2**
- KJB232 Radio and Television Journalism 1  
- KCB202 New Media Technologies  
- Creative Industries Elective  
- LWB137 Contracts B

**Year 3, Semester 1**
- KJB322 Desktop Publishing And Editing  
- KJB338 Radio and Television Journalism 2  
- LWB138 Fundamentals of Torts  
- LWB238 Fundamentals of Criminal Law
### Year 3, Semester 2
- KJB303 News Production
- KJB337 Public Affairs Reporting
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility

### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

### Year 4, Semester 2
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

### Year 5, Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
- KWB101 Introduction to Creative Writing
- OR
- Creative Industries Elective

### Year 5, Semester 2
- LWB433 Professional Responsibility
- Creative Industries Elective
- Law Elective Units

### Creative Industries Core Units
- KKB007 Introduction to Multimedia Technology
- KKB008 Narrative in the Creative Industries
- KKB009 Writing for Creative Industries
- KKB010 Cultures and Creativity
- KKB018 Creative Industries
  * KKB007 and KKB009 are recommended for first year students.
  ** KKB018 is not recommended for first year students until their second semester.

### Creative Industries Faculty Undergraduate Open Electives

#### Creative Industries Faculty Undergraduate Open Electives
- These unit offerings are current at the time of publication but are subject to change.
- Rules for selecting electives:
  * you must obey any elective rules as set out in your course requirements
  * you cannot select a unit that forms part of the compulsory units of your course or the compulsory units of your chosen sub-major area.
  * you must have successfully completed any pre/co-requisite units applicable
  * the offering of elective units is subject to sufficient student enrolment numbers and staff availability
  * some units are subject to quota restrictions
  * KK33, KK34, KJ32, KM32, IX07 and IX16 students ONLY are permitted to select electives from outside the Faculty of Creative Industries

#### Semester 1
- Media & Communication Discipline
  - KCB101 Communication in the New Economy
  - KCB102 Media and Society: From Printing Press to Internet
  - KCB103 Strategic Speech Communication
  - KCB201 Virtual Cultures
  - KCB302 Political Communication
  - Communication Design Discipline
    - KIB201 Interactive Writing
  - KIB108 Animation Practices
  - Dance Discipline
    - KDB105 Architecture of the Body
    - KDB108 World Dance
    - KDB110 Deconstructing Dance in History
    - Fashion Discipline
      - KFB103 Introduction to Fashion Design
    - Journalism Discipline
      - KJB101 Journalism Information Systems
      - KJB120 Newswriting
      - KJB121 Journalistic Inquiry
      - Feature Writing
      - KJB239 Journalism Ethics and Issues
        - Faculty
      - KKB004 Indigenous Creative Industries
      - KKB210 Computational Arts 1
      - KKB290 Supervised Group Project
      - KKB320 Workplace Learning
      - KKB330 Workplace Learning
      - KKB340-2 Workplace Learning
      - KKB340-1 Workplace Learning
      - KKB357 Independent Study
      - Music & Sound Discipline
        - KMB002 Music and Spirituality
        - Sex Drugs Rock 'n' roll

KWB004  Shakespeare, Then and Now
KWB006  Popular Fictions, Popular Culture
KWB007  Indigenous Writing
KWB102  Media Writing
KWB104  Creative Writing: The Short Story
KWB105  Film and Television Scriptwriting
KWB106  Corporate Writing and Editing
KWB204  Creative Non-Fiction: Life Writing
KWB206  Youth and Children's Writing

NOTES:
* Only one Workplace Learning unit may be completed
* KKB290, KKB357, KKB320, KKB330, KKB340-1 and KKB340-2 are only available to students enrolled in Creative Industries courses.

Potential Careers:
Bachelor of Creative Industries (Media and Communication)/Bachelor of Laws (IF10)

Discipline coordinator: Creative Industries: Dr Jason Sternberg
Campus: Gardens Point and Kelvin Grove

OP Guarantee
The OP Guarantee does not apply to this program.

General
This five-year professional double degree in Media and Communication and Law combines practical skills and contextual understanding of the media and communication industries with the skills to work as legal practitioners. In addition to the media and communication subjects studied in the first three years, in the fourth and fifth years students concentrate on law studies and have the opportunity to specialise in media law and policy, corporate law, taxation law, medico-legal issues, alternative dispute resolution, public international law, Asian legal systems, feminist theories of law or environmental law.

Professional Recognition
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Solicitors' and Barristers' Admission Rules.

Career Outcomes
Graduates will find work in private practice as a barrister or solicitor, may practice in law-related government departments or within large companies as 'in-house' lawyers. Media and Communication opportunities are similar to those of students with the single Bachelor of Creative Industries (Media and Communication) degree.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

OP Guarantee
The OP Guarantee does not apply to this program.

Overview
An objective of this double degree is to provide graduates with the ability to practise law in light of the complex environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, graduates can choose to practise as computing professionals specialising in legal applications or information systems.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit the Faculty's Cooperative Education program home page at www.fit.qut.edu.au/courses/undergrad/coop/

Career Outcomes
Graduates of the Bachelor of Information Technology component may find employment as: Programmer Systems Programmer Systems Manager Systems Designer Systems Analyst Computer Sales and Marketing Consultant Data Processing Manager

Professional Recognition
The Bachelor of Information Technology component meets the knowledge requirements for membership of the Australian Computer Society. The Bachelor of Laws component covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Further Information
Faculty of Information Technology: phone +61 7 3864 2782, fax +61 7 3864 2703, email fit.enquiry@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

**Potential Careers:**
Bachelor of Applied Science/Bachelor of Laws (IF39)

Year offered: 2007
Admissions: Yes
CRICOS code: 012661G
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $9,000 per semester (subject to annual review)
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419712; Dfee: 419716
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 60 (years 1 and 4), 48 (years 2, 3 and 5)
Course coordinator: Dr Megan Hargreaves (Science); Director, Undergraduate Programs (Law)
Campus: Gardens Point

Career Opportunities
As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design
The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Professional Recognition
Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

### Year 2, Semester 2
- LSB408 Metabolism
- LSB468 Molecular Biology
- LSB605 Protein Engineering and Bioprocessing
- LWB137 Contracts B

### Year 3, Semester 1
- LSB508 Advanced Metabolism
- LSB527 Biomedical Research Technologies
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law

### Year 3, Semester 2
- LSB607 Protein Purification
- LSB608 Protein Science
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility

### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

### Year 4, Semester 2
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

### Year 5, Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
- Law Elective Units *

### Year 5, Semester 2
- LWB433 Professional Responsibility
- Elective Units *

## Course structure - Major in Biotechnology

### Year 1, Semester 1
- LSB118 Life Science
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- PCB101 Physical Science

### Either
- PCB140 Introductory Chemistry
  Or
- PCB142 Chemistry 1

### Year 1, Semester 2
- LSB238 Cell and Molecular Biology 1
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB101 Statistical Data Analysis 1
- PCB242 Chemistry 2

### Year 2, Semester 1
- LSB308 Biochemistry
- LSB338 Cell and Molecular Biology 2
- LWB136 Contracts A
  Either
- LSB328 Microbiology 1
  Or
- LSB397 Plant Physiology

### Year 2, Semester 2
- LSB468 Molecular Biology
- LSB469 Introduction to Genomics and Bioinformatics
- LWB137 Contracts B
  One of:
  - LSB408 Metabolism
  - LSB497 Plant Molecular Biology

### Year 3, Semester 1
- LSB537 Genetic Engineering
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law
  One of:
  - LSB509 Medical Biotechnology 1
  - LSB577 Plant Biotechnology 1

### Year 3, Semester 2
- LSB619 Genomics and Bioinformatics
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility
  One of:
  - LSB609 Medical Biotechnology 2
  - LSB677 Plant Biotechnology 2

### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law

### Course structure - Major in Forensic Science

#### Year 1, Semester 1
- LSB118 Life Science
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
  - Introduction to Legal Research
- PCB101 Physical Science
- Either
- PCB140 Introductory Chemistry
- Or
- PCB142 Chemistry 1

#### Year 1, Semester 2
- LSB238 Cell and Molecular Biology 1
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB101 Statistical Data Analysis 1
- PCB242 Chemistry 2

#### Year 2, Semester 1
- LSB338 Cell and Molecular Biology 2
- LWB136 Contracts A
- PCB354 Structure and Mechanism in Organic Chemistry
- SCB384 Forensic Science

#### Year 2, Semester 2
- JSB979 Forensic Scientific Evidence
- LSB468 Molecular Biology
- LWB137 Contracts B
- PCB414 Industrial and Environmental Analytical Chemistry

#### Year 3, Semester 1
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law
- PCB514 Instrumental Analysis
- PCB584 Forensic Examination of Physical Evidence

#### Year 3, Semester 2
- LSB684 Forensic DNA Profiling
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility
- PCB684 Forensic Analysis and Toxicology

#### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

#### Year 4, Semester 2
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

#### Year 5, Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
  - Elective Units

#### Year 5, Semester 2
- LWB433 Professional Responsibility
  - Elective Units

**Course structure - Major in Mathematics [WITHOUT Mathematics C from Senior]**

### Year 1, Semester 1
- **Introduction to Legal Research #**
- **LWB141** Legal Institutions and Method
- **LWB142** Law, Society and Justice
- **MAB100** Mathematical Sciences 1A
- **MAB101** Statistical Data Analysis 1

### Year 2, Semester 1
- **LWB136** Contracts A
- **MAB220** Computational Mathematics 1
- **LSB118** Life Science
- **NAB100** Environmental Science
- **PCB101** Physical Science

Two Level 2 Mathematics units* - available units are:
- **MAB311** Advanced Calculus
- **MAB312** Linear Algebra
- **MAB313** Mathematics of Finance
- **MAB314** Statistical Modelling 2

* Students must complete at least one of MAB311, MAB312, MAB413

### Year 2, Semester 2
- **LWB137** Contracts B
- **LSB118** Life Science
- **PCB101** Physical Science

Two Level 2 Mathematics units* - available units are:
- **MAB315** Operations Research 2
- **MAB413** Differential Equations
- **MAB414** Applied Statistics 2
- **MAB420** Computational Mathematics 2
- **MAB422** Mathematical Modelling
- **MAB480** Introduction to Scientific Computation

* Students must complete at least one of MAB311, MAB312, MAB413

### Year 3, Semester 1
- **LWB138** Fundamentals of Torts
- **LWB238** Fundamentals of Criminal Law

Two Level 3 Mathematics units - available units are:
- **MAB521** Applied Mathematics 3
- **MAB522** Computational Mathematics 3
- **MAB523** Introduction to Quality Management
- **MAB525** Operations Research 3A
- **MAB526** Statistical Science 3
- **MAB672** Advanced Mathematical Modelling

**Footnotes for Law Units**

# Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2004. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.

* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.

**Potential Careers:**

Bachelor of Business/Bachelor of Laws (IF41)

Year offered: 2007
Admissions: Yes
CRICOS code: 006386F
Course duration (full-time): 5 Years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $7,604
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)

Domestic Entry: February
International Entry: February and July* (*Subject to availability)

QTAC code: 419222; Dfee: 419266
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8

Assumed knowledge: English (4, SA) and Mathematics A, B or C (4, SA)

Preparatory studies: MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 528
Standard credit points per full-time semester: 60
Course coordinator: Mr Andrew Palttridge (Business); Director, Undergraduate Programs (Law)
Discipline coordinator: Dr John Sweeting (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Ms Sherrena Buckby (Electronic Business); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
The Bachelor of Laws component of this double degree covers the areas of law required for the purposes of admission to practise as a Solicitor or Barrister in all Australian states and territories. Graduates of the Bachelor of Business may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers.

Professional Recognition
The Bachelor of Laws degree satisfies the academic requirements for admission to practise as a Solicitor or Barrister in Queensland.

The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

Course Design
Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Business program and 336 credit points for the Bachelor of Laws program.

For the Business component, students undertake 7 Faculty core units and 6 units from one of the following Majors plus 3 specialisation units.

Law Elective Units
For information on the availability of law elective units, please refer to the relevant section in the Bachelor of Laws course entry in the Faculty of Law section.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (192 cr pts BA and 336 cr pts BLaws)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Iraphne Childs (Arts) Director, Undergraduate Programs (Law)
Campus: Gardens Point and Carseldine

OP Guarantee
The OP Guarantee does not apply to this program.

Career Outcomes
This course aims to provide graduates with the ability to enter legal practice with an education in both the content of and skills related to the humanities that will enable them to deal with the complexities of litigation in areas such as commercial law, constitutional law, international law and in public policy.

Professional Recognition
The Bachelor of Laws degree covers the areas of law required for the purposes of admission to practise as a Solicitor and/or Barrister in all Australian states and territories.

Course Structure BA component - Continuing Students
BA REQUIREMENTS
Students should follow the course progression advice in the Course Summary Sheet

Course Structure BA component - Commencing Students
BA Course Requirements - Commencing Students

Students are required to complete:
* One Multidisciplinary Major (1 core unit + 6 units in the major)

It is suggested that students complete the Core Units Program consisting of the following:
* Two core units in first semester (from a selection of core introductory and core skills units)
  (Note: one of the core introductory units will sit within the chosen Multidisciplinary Major)
* Year Two: research methods unit. Students are advised to take at least two of these units.

Students may also wish to include:
- an Arts minor/s in any of the multidisciplinary or discipline majors (4 units)
- an approved university minor, or individual electives in another QUT course (up to 4 units)

Students planning to complete a full Language sequence (6 units) will need to discuss their program with the relevant Course Coordinator in order to ensure that they begin their Language studies in first semester and that their language units can be continued into their third year.

Students must maintain a minimum of 50% enrolment in units from the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Multidisciplinary Majors - Commencing Students
Students will be required to complete one multidisciplinary major from the following: International and Global Studies; Community Studies; Society and Change; Ethics and Human Rights; Australian Studies.

Discipline Sequences
Discipline Majors in the Arts degree can be chosen from the following: History; Geography and Environmental Studies; Languages (French, Indonesian, Japanese, German, Mandarin); Sociology

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

CORE PROGRAM - BA Students

This core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors

Discipline Sequences
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Study Sequences in other QUT Courses
For details of Minor Study Sequences available, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these are able to be taken as Minors.

Potential Careers:
Barrister, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.
Doctor of Philosophy (Law) (IF49)

Year offered: 2007
Admissions: Yes
CRICOS code: 015024B
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): RTS/RTA; 2007 $130 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2007: $12,480 (exceeded max. entitlements)
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Discipline coordinator: Assistant Dean, Research & Commercialisation
Campus: Gardens Point and Kelvin Grove

Entry requirements
An applicant's admission to the PhD program will depend on their academic aptitude, and the availability of supervision, infrastructure and resources needed for your course of study. Candidates would normally hold a Bachelor's degree with at least 2A Honours (or equivalent) or a Masters degree by research or a Masters degree by coursework that included substantial research.

Location and Duration
The PhD normally requires a minimum of three years of full-time study or its part-time equivalent. Study is undertaken at the Gardens Point or Kelvin Grove Campus but the University may approve study at an off-campus location (multi-modal study). Although QUT offers this flexibility, there will still be minimum attendance requirements and the University must be satisfied that adequate supervision and resources are available at the external location.

Overview
The PhD offers candidates the opportunity to demonstrate their erudition in a broad field of learning and to make an original and substantial contribution to knowledge in that field.

Course Structure
Candidates will be assessed on a program of supervised research and investigation that culminates in production of their thesis. The program normally includes assessed coursework that supports conduct of their research and preparation of their thesis. Candidates should have regular, face-to-face contact with their supervisor and participate in University scholarly activities such as research seminars, teaching and publication. The length of the thesis will vary according to the topic, but should normally be no longer than 100,000 words (excluding bibliography).

Total credit points: 528
Standard credit points per full-time semester: 48 (Semesters 3, 4, 5, 6, 9, 10) 60 (Semesters 1, 2, 7, 8)
Course coordinator: Creative Writing - Head, Undergraduate Studies (ugenq.ci@qut.edu.au): Law - Director, Undergraduate Programs
Discipline coordinator: Creative Writing - Dr Glen Thomas
Campus: Gardens Point and Kelvin Grove

OP Guarantee
The OP Guarantee does not apply to this program.

General
Both creative writing and law require high calibre, sophisticated communication. This five-year double degree prepares students to work as professional creative writers, or to work as lawyers in private practice as barristers or solicitors, or to practise with large companies, in government agencies, or as 'in-house' lawyers. Areas of study include all the major areas of law and creative writing. In the first three years, students study a combination of creative writing and law units, and during the fourth and fifth years students concentrate solely on law studies. Students have the opportunity to complement their studies with elective choices from specialist areas of law, including commercial law, corporate law, taxation law, medico-legal issues, alternative dispute resolution, public international law, Asian legal systems, feminist theories of law and environmental law.

Professional Recognition
The law degree component covers all the law units required for admission as a legal practitioner in Australia and is approved for the purposes of the Solicitors' and Barristers' Admission Rules.

Career Opportunities
Graduates will work as lawyers in all fields, or with a specialisation in the publishing industry, or as creative writers, editors or publishers in all media.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au

Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Iraphne Childs (Arts), Professor Rod Broadhurst (Justice)
Campus: Gardens Point and Carseldine

Course Description
The course consists of 16 arts units and 16 justice units. The program is integrated so that you will study both arts and justice units in each semester. You will choose at least one multidisciplinary arts major from international and global studies, society and change, ethics and human rights, community studies, or Australian studies. In the justice component you will have the opportunity to study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Potential Careers:
Administrator, Community Education Officer, Community Worker, Contract Administrator, Government Officer, Higher Education Worker, Information Officer, Policy Officer, Public Servant.
Bachelor of Human Services/Bachelor of Justice 2007 (IX45)

Year offered: 2007
Admissions: Yes
CRICOS code: 058290F
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12,480
International Fees (per semester): 2007: $8,000 per semester (subject to annual review)

Course coordinator: Dr Phil Crane (Human Services), Prof. Rod Broadhurst (Justice)
Campus: Gardens Point and Carseldine

Course Description
In this course students complete the requirements of two separate degrees in four years. The Human Services component of the course provides knowledge, values, ethics and skills for professional practice in human services. The Justice component involves the study of criminology, ethics, crime prevention, policy making and investigations.

Career opportunities
Career opportunities include human service worker, aged, child and family, youth, disability and corrective services; community development; social care; child protection; youth justice; policy and service development; prevention and early intervention services; individual and systems advocacy; criminology; policing; ethics; crime prevention; justice policy and investigations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Course coordinator: Professor Rod Broadhurst
Campus: Gardens Point and External

Overview
The creation of crime and corruption commissions around the country evidences recognition by government that traditional police services and Ombudsman like agencies are inadequate to deal with organised crime and its evil twin, official corruption.

Graduates or allied professionals associated with an area of justice will find that the Graduate Certificate in Organised Crime and Corruption Investigation will help develop an understanding of these issues in Queensland and elsewhere together with the capacity for critical enquiry, research, intellectual debate and ethical practices in terms of their chosen areas of professional interest.

Entry requirements
An appropriate undergraduate degree from a recognised tertiary institution or professional experience that the Course Coordinator deems to be appropriate.

Course Requirements
The Graduate Certificate in Organised Crime and Corruption Investigation consists of four units of twelve credit points each. They comprise: Organised Crime & Corruption; Forensic Investigation Methods and Strategies; Proceeds of Crime and Money Laundering; Evidence in Organised Crime Investigations.

Articulation to Master of Justice
A student who has successfully completed the Graduate Certificate in Organised Crime and Corruption Investigation with a GPA of 5.0 or better, may articulate to the Master of Justice (Organised Crime and Corruption Investigation) and receive credit for their specialist area study of 48 credit points.

Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Course coordinator: Prof. Rod Broadhurst
Discipline coordinator: Dr Nic Chantler
Campus: External

Overview
The Graduate Certificate in Strategic Intelligence is aimed at providing tertiary pathways for students either working in the intelligence community and wishing to embark on professional studies or students seeking employment in the intelligence community and wanting to gain relevant tertiary qualifications. Through a range of pedagogically informed teaching strategies the program develops relevant professional competencies, skills and knowledge. The program is aimed at students with existing undergraduate qualifications but can be undertaken by students with extensive professional experience where that experience is assessed as appropriate by the course coordinator.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution or professional experience that the Course Coordinator deems to be appropriate.

Course Requirements
The Graduate Certificate in Strategic Intelligence consists of four units of twelve credit points each: Fundamentals of Intelligence; Intelligence Research Issues & Methodology; Intelligence & National Security; & Managing Intelligence.

Articulation to Master of Justice
A student who has successfully completed the Graduate Certificate in Strategic Intelligence with a GPA of 5.0 or better, may articulate to the Master of Justice (Strategic Intelligence) and receive credit for their specialist area study of 48 credit points.

Standard credit points per part-time semester: 24
Course coordinator: Associate Prof. Geoff Dean
Campus: Gardens Point and External

Campus change
From 2007, the Bachelor of Justice will be taught at the Gardens Point campus.

Course Requirements
The course will be offered over 3 years full-time, 6 years part-time, internal and external mode. The course structure consists of 24 units - a total of 288 credit points. Students must complete seven Justice core units, two non Justice core units (108 credit points), a primary major comprising six units (72 credit points), to be selected from one of the areas of Policing or Criminology and a secondary major of 72 credit points to be selected from Policing, Criminology, or a non justice area: Government Policy, IT & Psychology are available to Internal students and Law - available to both internal & external students. The remaining three units (36 credit points) may be selected from Justice or non justice elective and major units, with a maximum of 96 credit points sourced from outside the school. Up to two units (24 credit points) may be undertaken from another institution, subject to prior approval from the course coordinator.

General
The Bachelor of Justice equips graduates for a wide variety of employment in the criminal justice field. Past graduates have developed successful careers in the state or federal police services, created social and justice policies for governments, contributed to the work of advocacy centres (eg. women, youth and children’s advocacy), become criminologists, and advanced into defence, customs and the Australian Crime Commission. Other popular career choices include corrections and human rights and anti-discrimination areas. Students are prepared for the workplace, not only by exploring the most recent theory and practice of social justice, but by including relevant general skills like problem-solving, analytical ability and applied computer skills that are relevant to the workplace.

Diploma entry
Students with a completed Diploma of Justice or Diploma of Justice Administration from TAFE will receive one year of academic credit will be automatically awarded by QUT Admissions after the QTAC offer and prior to the start of classes.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Bachelor of Justice (Honours) (JS40)

Year offered: 2007
Admissions: Yes
CRICOS code: 020313F
Course duration (full-time): 1 Year
Course duration (part-time): 2 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $4,992
International Fees (per semester): 2007: $8,500 per semester (subject to annual review)
Domestic Entry: One
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Professor Rod Broadhurst
Campus: Gardens Point

Entry Requirements
A Bachelor of Justice three-year degree or equivalent, having attained a grade point average of at least 5 on a 7-point scale in the final year of study and completion of the JSB933 Crime Research Methods, which is offered in the undergraduate program, OR other qualifications, including work experience or involvement in research that is deemed appropriate by the Course Coordinator. Normally students would apply for admission to the Honours program at the end of the final year of the students pass degree.

Overview
This course develops your applied research skills. You undertake further studies and research work in the field of Critical Criminology, Investigations and Policing and Justice Policy. The course provides you with the opportunity to use and develop your research skills, broaden your knowledge of a specific professional field, and extend your knowledge of Theories of Justice and Justice Organisations.

Course Structure
The Bachelor of Justice (Honours) is a 96 credit-point course. Students complete four (4) prescribed units (48 credit points) and a dissertation (48 credit points). The dissertation calls for students to design, develop and implement a substantial research project. Students can pursue original lines of thought, formulate and test hypotheses, develop problem-solving strategies and make decisions. Students are expected to demonstrate high ethical standards, awareness of sociocultural and equity issues, and professional accountability. Students should contact the Honours Coordinator to discuss thesis and supervisor.

Potential Careers:
Child Protection Officer, Community Corrections Officer, Corrective Services Officer, Customs Officer, Government Officer, Investigator, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Youth Worker.
Master of Justice (Research) (JS52)

Year offered: 2007
Admissions: Yes
CRICOS code: 020310J
Course duration (full-time): 1 Year
Course duration (part-time): 2 Years

Domestic fees (per credit point): RTS/RTA; 2007 $130 per credit point (exceed max. entitlements) (subject to annual review)
Domestic fees (indicative): 2007: $12480 (exceeded max. entitlements)
International Fees (per semester): 2007: $8,500 per semester (subject to annual review)

Domestic Entry: At any time
International Entry: At any time
Total credit points: 96
Course coordinator: Associate Professor Geoff Dean
Campus: Gardens Point

Entry requirements
The following persons shall be eligible to apply for admission as a student for the degree:

1. A person who has completed the requirements for the degree of Bachelor of Justice (Honours) of QUT, or
2. A person who has completed a qualification that is deemed equivalent and possesses appropriate research skills or substantial professional experience in the proposed field of research as deemed appropriate by the Course Coordinator, or
3. A person who has professional publications, etc that the Course Coordinator and the Faculty Research Committee accept as proof of a student's advanced knowledge and research ability in the proposed field of research.

Overview
You can pursue advanced postgraduate research in law enforcement, justice administration, security and intelligence, and corrections and the community. You will develop your research and analytical skills, thus advancing your career possibilities.

Course Structure
The content value of the course is set at 96 credit points. Students will undertake applied research on an approved topic, which involves both an appropriate theoretical perspective and a specific orientation to professional practice and application. The thesis that students submit for their degree should be not less than 50,000 words and should constitute a substantial contribution to knowledge and understanding in criminology, law enforcement, intelligence and security, corrections and the community, or legal and justice policy.

Potential Careers:
Academic, Barrister, Child Protection Officer, Community Corrections Officer, Crown Law Officer, Family Services Officer, In-House Lawyer, Police Officer (Australian Federal), Police Officer (State), Solicitor.

OP Guarantee
The OP Guarantee does not apply to this program.

Distance Education (External) Special Entry Requirements
Entry to the distance education (external) mode of the course is restricted to students who reside in Australia outside the Brisbane City Council boundaries.

Students who reside within the Brisbane City Council may be considered under exceptional circumstances. A covering letter outlining your exceptional circumstances claim with supporting documentation must accompany your admissions application form.

Other Course Requirements
It is a requirement that distance education students participate in two three-day attendance schools per year in addition to the orientation attendance school for commencing students only. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students responsibility to ensure they have access to a suitable law library.

Mid-Year Entry
Mid-year full-time entry students should note that there are two compulsory units in the summer semester. Students can alter this structure but should consult with the Law School prior to doing so.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

- LWB331 Administrative Law
- LWB334 Corporate Law
- Elective Units

Year 4 Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning
- Elective Units

Year 4 Semester 2
- LWB433 Professional Responsibility
- Elective Units

Potential Careers:
Academic, Barrister, Crown Law Officer, Government Officer, In-House Lawyer, Policy Officer, Public Servant, Solicitor.
Bachelor of Justice/Bachelor of Laws (LW42)

Year offered: 2007
Admissions: Yes
CRICOS code: 018380B
Course duration (full-time): 5 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $6,384
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 417902; Dfee: 417906
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8
Assumed knowledge: English (4, SA)
Preparatory studies: ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528
Standard credit points per full-time semester: 54
Course coordinator: Professor Rod Broadhurst (Justice), Director - Undergraduate Programs (Law)
Campus: Gardens Point

OP Guarantee
The OP Guarantee does not apply to this program.

Campus change
From 2007, the Bachelor of Justice component will also be taught at the Gardens Point campus.

Professional Recognition
The QUT Bachelor of Laws course is an approved degree for the purposes of the Solicitors' Admission Rules and Barristers' Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practice as a solicitor and/or barrister in all Australian states and territories. The QUT LLB degree qualification is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Course Overview
Students study a combination of Justice and Law units in the first three years of the course, whilst the final two years are devoted to the study of Law units only. In the Bachelor of Justice component of the course, students are required to select a major (6 units) from one of the following fields: Criminology & Policing

For Further Information Contact
School of Justice phone: (07) 3138 2707; fax: (07) 3138 3992; email: lawjs_enquiries@qut.edu.au
Law School phone: (07) 3138 2707; fax: (07) 3138 1775; email: law_enquires@qut.edu.au

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course duration (full-time): 1 1/2 Years (minimum)
Course duration (part-time): 3 Years (minimum)
Domestic fees (per credit point): RTS/RTA; Full fee tuition 2007 $130 per credit point (exceeded max. entitlements) (subject to annual review)
Domestic fees (indicative): 2007: $12480 (exceeded max. entitlements)
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: At any time/or Feb and July where coursework is required
International Entry: At any time
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Assistant Dean, Research
Campus: Gardens Point

1. Entry Requirements

1.1 The Faculty of Law Research Committee may admit to candidature an applicant who:

(i) holds or has completed the requirements for the degree of (a) Bachelor of Laws or (b) Bachelor of Justice with at least Second Class Honours Division A at the Queensland University of Technology or its equivalent from another institution; or
(ii) holds or has completed the requirements for the degree of (a) Master of Laws by Coursework or (b) Master of Arts (Justice Studies) with a grade point average of at least 5.0 on a 7 point scale at the Queensland University of Technology or its equivalent from another institution which, in the opinion of the Assistant Dean (Research) maintains standards comparable with those required for the award of the degree of Master of Laws and Master of Arts (Justice Studies) respectively at the Queensland University of Technology;

and, in the case of (i) or (ii) an applicant must also satisfy the following:

(iii) has a minimum of two years professional experience appropriate to the proposed course of study; and

(iv) that the applicant can demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean (Research) for example, by the publication of articles in refereed research journals; and

(v) can demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

1.2 Alternative Entry

In exceptional circumstances, applicants with lesser academic qualifications but with exemplary professional experience may be given provisional enrolment on the approval of the Assistant Dean, Research. Applicants seeking entry under this rule would normally have completed a three-year bachelor level degree from the Queensland University of Technology or another recognised institution. In addition, in order to assess the adequacy of the professional experience of the applicant, they will be required to address the following criteria as it relates to the proposed area of research:

(i) evidence of professional leadership
(ii) quality of academic achievement
(iii) evidence of professional involvement in research and/or consultancy
(iv) referees reports

Overview

As an experienced legal professional, you will follow a program of advanced coursework study and applied research that relates directly to your professional and educational needs.

Course Structure

The value of the course is set at 288 credit points, comprising 96 credit points of postgraduate coursework units and a dissetation of 50,000-60,000 words. Students must complete or have completed LWN048 Advanced Legal Research (or equivalent) as part of the coursework component.

Potential Careers:

Academic, Barrister, Solicitor.
Master of Laws (LW51)

Year offered: 2007
Admissions: Yes
CRICOS code: 006380A
Course duration (full-time): 1 Year
Course duration (part-time): 2 Years
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point

Overview
The Master of Laws by Coursework will deepen and broaden your legal learning, developing critical evaluation of the law and consideration and analysis of the attitudes and values underlying it. During the course, you are expected to attain high competence in legal research and writing on areas of conceptual difficulty. The course leads on to the Doctor of Juridical Science (subject to normal entry requirements).

Entry Requirements
Prospective students must have:
(i) completed the requirements for the degree of Bachelor of Laws of QUT
OR
(ii) have completed the requirements for the award of a degree in law at another tertiary institution which, in the opinion of the Director, Graduate Programs, maintains standards comparable with those required for the award of the degree of Bachelor of Laws at QUT
OR
(iii) hold a professional qualification in law and have at least three years of professional legal experience subsequent to first admission to practice and also satisfy the Director, Graduate Programs, that they have the requisite ability to complete the Master of Laws by Coursework degree.

In exceptional circumstances, an applicant who does not otherwise satisfy the normal entry requirements will be eligible for entry into the Master of Laws by Coursework degree in a specialist stream if they:
(i) have completed a Graduate Certificate in Law in a specialist stream
AND
(ii) have significant professional experience in the field of the Graduate Certificate in Law already completed;
AND
(iii) have achieved a grade point average of 5.5 in the units already completed for the Graduate Certificate in Law and whose course is approved by the Director, Graduate Programs.

Articulation
This course articulates with the Doctor of Juridical Science (SJD).

Course Structure
The course structure comprises 96 credit points (8 units) of coursework units. This can be achieved in one of two ways:
1. Students may nominate a major from the list below and choose units to the value of at least 72 credit points (6 units) from that particular major. The remaining 24 credit points (2 units) can be chosen from any unit not included in the nominated major, including units listed under "additional units";
or
2. Students can complete a "generic" major by choosing all 96 credit points (8 units) from any of the majors.

Majors available:
Commercial Law, Environmental Resources Law, Health Law, Public Law, Technology Law

NOTE: International students may normally only able to graduate with a "generic" course

Unit Information
Not all units are available in any one year. Generally, postgraduate law units are offered on a two year rotational basis, and are offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive*, internal and/or external* mode of study.
Note: Units offered in external mode are not available for off-shore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas may only be permitted to undertake 1 unit in either intensive or external mode each semester. All other units must be studied in internal mode of study.

The degree can contain up to 48 credit points in independent research projects, as approved by the Director, Graduate Programs.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

Advanced Standing
Graduates of QUT's Graduate Diploma in Legal Practice (LP41), who graduated from the first course in 2000 or from subsequent courses, may be deemed to have passed the equivalent of 48 credit points of units in the LW51 Master of Laws course and may be granted unspecified credit for such units*.

Graduates from QUT's Graduate Diploma in Legal Practice
prior to 2000 or from another Australian university, the Leo Cussens Institute or the College of Law are eligible for up to 24 credit points of unspecified credit.

*this credit rule is currently under review

Entry Requirements
The following persons shall be eligible to apply for admission as a student for the degree:

1.1 A person who has completed the requirements for the degree of Bachelor of Laws of QUT with at least Second Class Honours Division A, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research, maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.1 A person who has completed the requirements for the degree of Bachelor of Laws or QUT at a standard of Second Class Honours Division B or a lesser standard, or its equivalent from another institution which, in the opinion of the Assistant Dean, Research maintains standards comparable with those required for the award of the degree of Bachelor of Laws of QUT, or
1.1.2 A person admitted or entitled to be admitted to practice in the State of Queensland.

1.2 Candidates falling within sub-clauses 1.1.1 and 1.1.2 must also satisfy the following to be eligible for admission:
1.2.1 Three years' professional experience in the field in which the proposed research work is to be undertaken, or
1.2.2 Satisfactory completion of an appropriate Masters qualifying program stipulated by the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee. Pending satisfactory completion of a qualifying program, provisional status may be granted to the candidate, or
1.2.3 The submission of professional publications or other appropriate evidence which satisfies the Assistant Dean, Research on the recommendation of the Law Faculty Research Committee that advanced knowledge and research ability has been acquired in the field of law in which the proposed research work is to be undertaken, and
1.2.4 The Assistant Dean, Research is satisfied of the ability of the candidate to complete the required research and thesis towards the degree.

Overview
Students pursue a supervised research thesis of 50,000 words. The course offers you formal recognition for advanced and original research.

Course Structure
The content value of the course is set at 96 credit points. Students will complete a thesis of not less than 50,000 nor more than 60,000 words that constitutes a substantial contribution to knowledge and understanding of the law in the students area of research.

Potential Careers:
Graduate Certificate in Law (LW60)

Year offered: 2007
Admissions: Yes
CRICOS code: 027286C
Course duration (full-time): 1 semester (Generic course and select majors only)
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point

Overview
This Certificate course allows students to further their knowledge in particular areas of interest in the law. Students may select units from one of the ten majors offered or may elect to complete the course without a major.

Entry Requirements
Prospective students must either:
(i) hold (or have completed the requirements for) the degree of Bachelor of Laws from QUT or a comparable institution OR
(ii) have a professional qualification in law and at least three years of professional legal experience subsequent to first admission to practice OR
(iii) have a bachelors degree in another discipline and professional experience which in the opinion of the Director, Graduate Programs equips the student for postgraduate study in law in the field of the Graduate Certificate in Law in which they wish to enrol.

Course Structure
Students must undertake a total of 48 credit points (4 units). This can be achieved in one of two ways:

1. Students may nominate a major from the lists below and choose 4 units from that particular major; OR
2. Students can complete a "generic" course by choosing the 48 credit points (4 units) from any major.

Majors:
Commercial Transactions, Corporate Law, Criminal Justice, Environment, Health Law, International Law, Media and Communications Law, Planning and Resources, Property, Public Law

NOTE: International students may normally only able to undertake a "generic" course

Articulation to the Master of Laws by Coursework

The Graduate Certificate in Law articulates with the Master of Laws (LW51) course.

A student who has successfully completed the Graduate Certificate in Law and who does not hold a Bachelor of Laws degree or equivalent, may be permitted to enter the Master of Laws course if they achieve a minimum GPA of 5.5 in the Graduate Certificate in Law, and with the approval of the Director of Graduate Programs.

Unit Information
Not all units are available in any one year. Generally, postgraduate units are offered on a two year rotational basis, and offered subject to staff availability and minimum enrolments being met.

Units may be offered in intensive*, internal and/or external* mode of study.
Note: Units offered in external mode are not available for offshore study. Students who wish to enrol in units externally must be living in Australia. Only a small number of units are offered on an external basis each year.

*International students on student visas are only permitted to undertake 1 unit in either intensive or external mode each semester. All other units must be studied in internal mode of study.

The course rules allows students to undertake a limited number of approved units from other schools at QUT or from other universities.

Further Information
QUT School of Law

Fax +61 7 3864 1152
Email lawpg_enquiries@qut.edu.au

Course structure
Students must undertake a total of 48 credit points (4 units). This can be achieved in 1 of 2 ways:

OPTION 1 Students may nominate a major from the lists below and choose all 4 units from within that particular major; OR

OPTION 2 Students can complete a "generic" course by choosing 4 units from any of the lists below to the value of 48cps

Note: International students may normally only be able to undertake a "generic" course

List of Majors available:

Commercial Transactions
LWN022 Banking and Finance Law
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN050 Restrictive Trade Practices Law
LWN051 Consumer Protection and Product Liability
LWN075 International Commercial Transactions
LWN076 International Commercial Disputes
LWN093 Borrowers and Secured Lenders - Select Issues
LWN097 Corporate Insolvency
LWN111 Public Law and Government Commercial Activity
LWN113 Law of Guarantees
LWN117 Legal Regulation of the Internet
LWN119 Employment Law
LWN120 Select Issues in Media Law and Policy
LWN122 Commercial Leases
LWN147 Patent Law and Commercialisation
LWN151 Select Issues in Property Law
LWN153 Select Issues in Art, Culture and the Law
LWN159 Electronic Litigation
LWN160 Professional Liability & Property Transactions
LWN161 Law and Policy of the World Trade Organisation
LWN162 The Common Law System
LWN168 Theories of Dispute Resolution

Corporate Law
LWN022 Banking and Finance Law
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN050 Restrictive Trade Practices Law
LWN051 Consumer Protection and Product Liability
LWN093 Borrowers and Secured Lenders - Select Issues
LWN097 Corporate Insolvency
LWN145 Corporate and Investment Regulation
LWN162 The Common Law System
LWN168 Theories of Dispute Resolution

Criminal Justice
JSN001 Theories of Justice
JSN023 Justice, Law and Democracy
JSN144 Evidence in Organised Crime Investigations
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN129 Contemporary Issues in Sentencing Law
LWN135 Law, Justice and New Genetic Technologies
LWN162 The Common Law System
LWN168 Theories of Dispute Resolution

Environment
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN049 International Environmental Law
LWN060 Environmental Legal System
LWN061 Natural Resources Law
LWN062 Federal Environmental Law
LWN063 Comparative Environmental Law
LWN094 Energy Law
LWN095 Native Title and Indigenous Cultural Heritage Law
LWN131 Queensland State Lands: Law and Practice
LWN138 Comparative Cultural Heritage Law
LWN153 Select Issues in Art, Culture and the Law
LWN157 Comparative Native Title Law and Policy
LWN168 Theories of Dispute Resolution
LWN162 The Common Law System

Health Law
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN135 Law, Justice and New Genetic Technologies
LWN149 Conception, Birth and the Law
LWN150 Death, Decisions and the Law
LWN155 Biotechnology Law
LWN162 The Common Law System
LWN163 Capacity, Guardianship and Administration
LWN164 Health Care Law and Ethics
LWN165 Children's Health and the Law
LWN166 Consent to Treatment and Clinical Negligence
LWN168 Theories of Dispute Resolution

International Law
LWN025 Research Project 1A
LWN030 Mediation
LWN048 Advanced Legal Research
LWN049 International Environmental Law
LWN075 International Commercial Transactions
LWN076 International Commercial Disputes
LWN115 Human Rights In Australian Law
LWN146 International and Comparative Intellectual Property Law
LWN161 Law and Policy of the World Trade Organisation
LWN158 Public International Law
LWN162 The Common Law System
LWN168 Theories of Dispute Resolution
LWN171 Use of Force and International Humanitarian Law

Not all units are offered in any one year. For a schedule of unit offerings for 2007:

Please refer to http://www.law.qut.edu.au/courses/pgrad/units.jsp

Potential Careers:
Academic, Actuary, Barrister, Solicitor.
Graduate Certificate in Legal Studies (LW65)

Year offered: 2007
Admissions: Yes
CRICOS code: 040307E
Course duration (full-time): 1 semester
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point and External

Overview
For non-law graduates or professionals working in the legal sector, the Graduate Certificate in Legal Studies will help develop professional competencies, skills and knowledge. The course provides short, focused programs to upgrade qualifications, and may lead into the Graduate Diploma in Legal Studies. On completion of this course you should be able to contribute to your employer's practical services, organisation and policy making.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution or Professional experience that the Course Coordinator deems to be appropriate

Advanced Standing
Students who have previously undertaken undergraduate law units (equivalent to core units in LW65) at QUT may apply for a maximum of 24 credit points for these units towards the LW65 Graduate Certificate in Legal Studies

Course Structure
Students are required to undertake 4 units (48 credit points). These units are core units taken from the Bachelor of Laws (LW33) program.

External Students
Entry to the distance education (external) mode of the course is restricted to applicants who reside in Australia outside a 30 kilometre radius of the Gardens Point campus.

It is a requirement of that distance education students participate in two three-day attendance schools per year in addition to the commencing students orientation school. The attendance schools are an integral component of the distance education course and are compulsory. When undertaking the course via distance education, it is the students' responsibility to ensure they have access to a suitable law library.

Full-time course structure

Introduction to Legal Research
LWB141 Legal Institutions and Method
LWB136 Contracts A
LWB138 Fundamentals of Torts
PLUS null
LWB142 Law, Society and Justice
OR null
LWB143 Legal Research and Writing

Depending on Semester on entry, students will undertake either LWB142 OR LWB143

Note: the prescribed units in this course are currently under review

Part-time course structure

Option 1: LWB142 Law, Society & Justice

Year 1, Semester 1
Introduction to Legal Research
LWB141 Legal Institutions and Method
LWB142 Law, Society and Justice

Year 1, Semester 2
LWB136 Contracts A
LWB138 Fundamentals of Torts

Option 2: LWB143 Legal Research & Writing

Year 1, Semester 1
Introduction to Legal Research
LWB136 Contracts A
LWB141 Legal Institutions and Method

Year 1, Semester 2
LWB138 Fundamentals of Torts
LWB143 Legal Research and Writing

These course structures are based on Semester 1 entry to the course

Note: the prescribed units in this course are currently under review
Graduate Diploma in Legal Studies (LW70)

Year offered: 2007
Admissions: Yes
CRICOS code: 040318B
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July

Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Director, Graduate Programs
Campus: Gardens Point and External

Overview
For non-law graduates or professionals working in the legal sector, the Graduate Diploma in Legal Studies will help develop your professional competencies, skills and knowledge. The course provides short, focused programs to upgrade qualifications. On completion of this course you should be able to contribute to your employer's practical services, organisation and policy making.

Entry Requirements
An appropriate undergraduate degree from a recognised tertiary institution
or
professional experience that the Course Coordinator deems to be appropriate

Advanced Standing
Students who have previously undertaken undergraduate law units (equivalent to units in LW70) at QUT may apply for a maximum of 48 credit points for these units towards the LW70 Graduate Diploma in Legal Studies.

Course Structure
Students must undertake 8 units (96 credit points). These units are chosen from the Bachelor of Laws (LW33) program.

Please note that this course structure is currently under review.

Full-time course structure

Year 1, Semester 1
- Introduction to Legal Research
- LWB136 Contracts A
- LWB138 Fundamentals of Torts
- LWB141 Legal Institutions and Method

Unit sets: Society and Culture
OVERVIEW

The Faculty of Science seeks to provide graduates with interesting and rewarding careers.

Fully equipped scientific and computing laboratories and state-of-the-art lecture theatres assist in the practical delivery of innovative teaching programs.

Science education in the Faculty is further enriched by a number of research programs and QUT’s multidisciplinary research institutes (in particular the Institute of Health and Biomedical Innovation and the institute for Sustainable Resources).

The Deans Scholars Accelerated Honours Program for high achieving students fast tracks science studies while workplace learning links with industry provide students with the opportunity to earn a salary while progressing through their degree.

Double degree options are available as part of a flexible program of academic studies.

The Bachelor of Pharmacy course offered at Gardens Point focuses on community and hospital pharmacy practice.

The Faculty offers a range of courses within its four multi-disciplinary schools: School of Life Sciences, School of Mathematical Sciences, School of Natural Resource Sciences and School of Physical and Chemical Sciences.

The School of Life Sciences offers studies in courses focused on biomedical and medical sciences, biotechnology, microbiology, and biochemistry. The School enjoys close working relationships with industry which, in turn, help to provide students with a ‘hands-on’ approach to all of its courses.

The School of Mathematical Sciences offers studies in applied mathematics, mathematical finance, applied statistics, scientific computation and visualisation, and operations research. There is an emphasis on the applications of mathematics and many of the units are enriched by examples from business and industry.

The School of Natural Resource Sciences offers major studies in environmental science, ecology and geoscience, complemented with the co-majors in biodiversity, and applied geology.

The School of Physical and Chemical Sciences offers majors in both Physics and Chemistry with co-majors in astrophysics, applied physics, forensic science and industrial chemistry. Forensic science can also be taken as a double major with chemistry or biotechnology. The School also offers courses in medical imaging technology and radiography technology, leading to careers in diagnostic and therapeutic radiography.

The first year of the Applied Science course is offered at the Carseldine campus as well as at Gardens Point.

RESEARCH CENTRES
Science Research Centre

The Faculty of Science provides an environment within which a variety of programs interact, developing new and innovative collaborations at the interface between disciplines. Our knowledge of nature is expanding at virtually an exponential rate and with this comes opportunities in complex areas requiring multi-disciplinary research teams. The Faculty’s research has been structured so as to capture opportunities in these multi-disciplinary projects, bringing together the expertise from different research programs to focus on a complex research problem.

The Faculty has a broad range of programs which are grouped within four clusters: molecular biotechnology, physical and chemical sciences, natural resources and mathematical sciences. These clusters provide and maintain state of the art technology equipment and facilities; importantly, these facilities are shared across the Faculty and are available to all programs giving researchers and research students access to the extensive range of equipment and technologies within the Faculty of Science.

Cooperative Research Centre for Diagnostics

The CRC for Diagnostics (http://diagnosticscrc.org) based at QUT is a cooperative venture between research organisations (QUT, LaTrobe University, CSIRO and Child Health Research Institute) and Queensland Medical Laboratory. Centre participants are located in Queensland, Victoria and South Australia. Through effective technology transfer, outcomes will be: reduced health care costs through the better targeting of therapeutics, earlier diagnosis, and exploitation of genomics and proteomics information to allow greater specificity in diagnosis and treatment of an individual. Achievements to date include the multi-million dollar sale of a DNA detection method to Affymetrix (a large US biotechnology company) and the formation in 2002 of a new company, Evogenix, based in Melbourne. Other achievements include numerous patented DNA detection methods and diagnostic kits. Originally formed as the CRC for Diagnostic Technologies in 1995, this $80 million centre was re-funded as a new centre in 2001 and is jointly funded by the participants and the Commonwealth and State Governments.

Research programs

- Protein profiling: expression profiles for the diagnosis and monitoring of autoimmune diseases
- High Affinity Reagents: identification of novel reagents and platforms for library construction
- Genome Diagnostics: discovery of SNPs for human physical characteristics and disease
- Infectious Disease Diagnostics: novel methods and reagents for improved detection
- Homogenous Reporter Systems for one-step diagnostic assays.
Bachelor of Engineering (Electrical)/Bachelor of Mathematics (IF21)

Year offered: 2007
Admissions: Yes
CRICOS code: 020329J
Course duration (full-time): 5 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,881
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419572; Dfee: 419576
Past rank cut-off: 78; Dfee: 73
Past OP cut-off: 11; Dfee: 13
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Data Analysis for Business as a visiting student or QUT Continuing Professional Education course Mathematics Bridging; ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 480
Standard credit points per full-time semester: 48
Course coordinator: Dr R. Mahalinga-Iyer (Engineering); Dr Graeme Pettet (Mathematics)
Discipline coordinator: Dr Ed Palmer (Engineering)
Campus: Gardens Point

Career Opportunities
Electrical and computer engineers design, install and maintain electrical, electronic, telecommunications and computing systems on behalf of government and private companies. A stronger training in mathematics and statistics enhances capabilities in modelling, analysis and design.

Recommended study
Chemistry, Maths C and Physics are recommended.

Overview
The program integrates both the engineering and mathematics degree. Mathematics and engineering have always had close connections, but recent advancement in mathematics and statistics are increasingly being used to help solve complex engineering problems.

Special Course Requirements
A candidate for this course must obtain at least 60 days of industrial experience in an engineering environment approved by the course coordinator.

Professional Recognition
This degree meets the requirements for membership of Engineers Australia, and the coursework requirements for accredited graduate membership of the Australian Mathematical Society. Students may also become a member of the Statistical Society of Australia.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Contact Details
Electrical Coordinator
Dr Ed Palmer
Email: bee.enquiries@qut.com

Mathematics Coordinator
Dr Graeme Pettet
Phone: +61 7 3138 5238
Email: g.pettet@qut.edu.au

Further information
Phone +61 7 3138 1993, Fax +61 7 3864 1516, email: bee.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C

Course structure for students with four semesters of Senior Mathematics B (or equivalent) only
Year 5, Semester 2

EEB889-2 Project
Electrical Engineering elective
Electrical Engineering elective
Mathematics elective (Level 3)

Electrical Engineering Elective Units

EEB512 Industrial Electronics and Digital Design
EEB612 Software Systems Design
EEB641 Fields Transmission and Propagation
EEB650 Power Systems Analysis
EEB911 Electrical Energy Systems
EEB941 Modern Signal Processing
EEB960 Wireless Communications
EEB961 RF and Applied Electromagnetics
EEB976 Advanced Industrial Electronics
EEB992 VLSI Circuits and Systems

Not all electives may be offered. At the discretion of the course coordinator, students may be allowed to select an elective from any advanced topics offered by the University. Also potential honours students may, with the approval of the course coordinator, select an elective from the postgraduate degree courses offered by the School of Engineering Systems.

Mathematics Electives (Level 2)

MAB315 Operations Research 2
MAB422 Mathematical Modelling

Mathematics Electives (Level 3)

Four units required:

MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB524 Statistical Inference
MAB526 Statistical Science 3
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB624 Applied Statistics 3
MAB672 Advanced Mathematical Modelling

NOTES:

- For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply to students who commenced prior to 2004.
- Some deviations from the above course structure may be possible with the permission of the course coordinator. This is more likely to apply in the later years than the earlier years of the course.

Potential Careers:
Electrical and Computer Engineer, Electrical Engineer, Mathematician, Statistician.
Bachelor of Applied Science/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF29)

Year offered: 2007
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72. Dfee places were not offered last year.
Past OP cut-off: 13. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 408 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Ruth Christie (InfTech)
Campus: Gardens Point

Career Opportunities
The course prepares you for an increasing range of careers that involve the application of information technology to science. As a graduate of the double degree, you are also qualified for employment in the areas of software engineering and data communications.

The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
The science component of the course offers you a choice of one of the major areas of study available in the Bachelor of Applied Science (SC01) course. To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the information technology program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

The information technology component gives you the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the Science and Information Technology degrees.

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

### Course structure - Major in Geoscience

#### Year 1, Semester 1
- ITB001 Problem Solving and Programming
- ITB004 Database Systems
- MAB100 Mathematical Sciences 1A
- NRB230 Planet Earth

#### Year 1, Semester 2
- ITB002 IT Professional Studies
- ITB003 Object Oriented Programming
- ITB005 Systems Architecture
- MAB101 Statistical Data Analysis 1
- PCB101 Physical Science

#### Year 2, Semester 1
- NRB100 Environmental Science
- Either
- PCB140 Introductory Chemistry
- Or
- PCB142 Chemistry 1
- ITB006 Networks
- ITB008 Modelling Analysis and Design
- ITB711 Programming Abstraction

#### Year 2, Semester 2
- NRB240 History of Life on Earth
- NRB440 Environmental Chemistry
- ITB712 Software Engineering Studies
- ITB744 Computer Architecture
  - OR
  - IT Elective Unit selected from List

#### Year 3, Semester 1
- NRB331 Sedimentary Geology
- NRB333 Mineralogy
- ITB745 Operating Systems
  - IT Elective Unit selected from List

#### Year 3, Semester 2
- NRB434 Structural Geology
- NRB436 Introduction to Igneous and Metamorphic Petrology
- ITB720 Internet Protocols and Services
  - IT Elective Unit selected from List

#### Year 4, Semester 1
- ITB009 Core Project Initiation
  - IT Elective Unit selected from list
- NRB534 Geophysics
- NRB536 Petrology and Geochemistry
- NRB601 Field Mapping and Monitoring of Natural Resources

#### Year 4, Semester 2
- IT Elective Unit selected from list
- One unit selected from:
  - NRB633 Hydrogeology
  - NRB635 Plate Tectonics and Advanced Structural Geology

### Course structure - Major in Microbiology

ITS703 Ccnp 1: Advanced Routing
ITS704 Ccnp 2: Remote Access Networks
ITS705 Ccnp 3: Multilayer Switching
ITS706 Ccnp 4: Network Troubleshooting
ITS707-1 Securing Cisco Hardware
ITS707-2 Securing Cisco Hardware
MAB281 Mathematics for Computer Graphics

Please check with the relevant School for further information on Special Topics.

Potential Careers:
Bachelor of Applied Science/Bachelor of Laws (IF39)

Year offered: 2007
Admissions: Yes
CRICOS code: 012661G
Course duration (full-time): 5 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160; CSP $7,342
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419712; Dfee: 419716
Past rank cut-off: 90; Dfee: 85
Past OP cut-off: 6; Dfee: 8
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 528 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Standard credit points per full-time semester: 60 (years 1 and 4), 48 (years 2, 3 and 5)
Course coordinator: Dr Megan Hargreaves (Science); Director, Undergraduate Programs (Law)
Campus: Gardens Point

Career Opportunities
As a graduate, you may enter legal practice with an education in both the content and process of science and data analysis that will enable you to deal with the complexities of litigation that have a scientific and technological dimension, such as inventions, trade secrets, quantitative evidence, and constitutional disputes giving rise to environmental issues. On the other hand, you may choose to follow a career path in the sciences, enhancing your opportunities in a particular discipline such as environmental science or biotechnology through your knowledge of the law.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design
The course is designed to cover all major areas of the law as well as allowing students to choose any one of the science majors that are offered in the Bachelor of Applied Science (SC01) course.

To complete the double degree in a shorter period of time, the co-major will be taken from the law program therefore it is not possible for students to choose any of the co-majors listed under the Bachelor of Applied Science course.

Professional Recognition
Graduates will satisfy the requirements of membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. The Bachelor of Laws component covers the areas of law required for admission as a legal practitioner and/or barrister in all Australian states and territories.

Contact Details
Science Coordinator
Dr Megan Hargreaves
Phone: +61 7 3138 2244
Email: m.hargreaves@qut.edu.au

Law Coordinator
Ms Sheryl Jackson
Phone: +61 7 3138 2707

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

QUT HANDBOOK 2007 · Page 1521
### Course structure - Major in Forensic Science

#### Year 1, Semester 1
- LSB118 Life Science
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- PCB101 Physical Science

#### Year 1, Semester 2
- LSB238 Cell and Molecular Biology 1
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB101 Statistical Data Analysis 1
- PCB242 Chemistry 2

#### Year 2, Semester 1
- LSB338 Cell and Molecular Biology 2
- LWB136 Contracts A
- PCB354 Structure and Mechanism in Organic Chemistry
- SCB384 Forensic Science

#### Year 2, Semester 2
- JSB979 Forensic Scientific Evidence
- LSB468 Molecular Biology
- LWB137 Contracts B
- PCB414 Industrial and Environmental Analytical Chemistry

#### Year 3, Semester 1
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law
- PCB514 Instrumental Analysis
- PCB584 Forensic Examination of Physical Evidence

### Year 3, Semester 2
- LSB684 Forensic DNA Profiling
- LWB139 Select Issues in Torts
- LWB239 Criminal Responsibility
- PCB684 Forensic Analysis and Toxicology

### Year 4, Semester 1
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

### Year 4, Semester 2
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

### Year 5, Semester 1
- LWB431 Civil Procedure
- LWB432 Evidence
- LWB434 Advanced Research and Legal Reasoning

### Year 5, Semester 2
- Elective Units

### Course structure - Major in Geoscience

#### Year 1, Semester 1
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- NRB100 Environmental Science
- NRB230 Planet Earth
- PCB101 Physical Science

#### Year 1, Semester 2
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- PCB142 Chemistry 1

#### Year 2, Semester 1
- LWB136 Contracts A
- NRB301 Earth Surface Systems
- NRB331 Sedimentary Geology
### Course Structure - Mathematics

**Year 1, Semester 1**
- Introduction to Legal Research #
- LWB141 Legal Institutions and Method
- LWB142 Law, Society and Justice
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C

**Year 1, Semester 2**
- LWB143 Legal Research and Writing
- LWB144 Laws and Global Perspectives
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1
- One Science unit - selected from:
  - LSB118 Life Science
  - PCB101 Physical Science

**Year 2, Semester 1**
- LWB136 Contracts A
- One Science unit - selected from:
  - LSB118 Life Science
  - NRB100 Environmental Science
  - PCB101 Physical Science
- Two Level 2 Mathematics units* - available units are:
  - MAB311 Advanced Calculus
  - MAB312 Linear Algebra
  - MAB313 Mathematics of Finance
  - MAB314 Statistical Modelling 2
  - * Students must complete at least one of MAB311, MAB312, MAB413

**Year 2, Semester 2**
- LWB137 Contracts B
- Three Level 2 Mathematics units* - available units are:
  - MAB315 Operations Research 2
  - MAB413 Differential Equations
  - MAB414 Applied Statistics 2
  - MAB420 Computational Mathematics 2
  - MAB422 Mathematical Modelling
  - MAB480 Introduction to Scientific Computation
  - * Students must complete at least one of MAB311, MAB312, MAB413

**Year 3, Semester 1**
- LWB138 Fundamentals of Torts
- LWB238 Fundamentals of Criminal Law
- Two Level 3 Mathematics units - available units are:
  - MAB521 Applied Mathematics 3

**Year 3, Semester 2**
- LWB137 Contracts B
- Three Level 2 Mathematics units* - available units are:
  - MAB315 Operations Research 2
  - MAB413 Differential Equations
  - MAB414 Applied Statistics 2
  - MAB420 Computational Mathematics 2
  - MAB422 Mathematical Modelling
  - MAB480 Introduction to Scientific Computation
  - * Students must complete at least one of MAB311, MAB312, MAB413

**Year 4, Semester 1**
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

**Year 4, Semester 2**
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

**Year 5, Semester 1**
- LWB231 Introduction to Public Law
- LWB236 Real Property A
- LWB240 Principles of Equity
- LWB332 Commercial and Personal Property Law
- LWB333 Theories of Law

**Year 5, Semester 2**
- LWB235 Australian Federal Constitutional Law
- LWB237 Real Property B
- LWB241 Trusts
- LWB331 Administrative Law
- LWB334 Corporate Law

**Elective Units**

**Course structure - Major in Mathematics [WITH Mathematics C from Senior]**

Course structure - Major in Mathematics [WITHOUT Mathematics C from Senior]
### Year 3, Semester 2

- **LWB139**: Select Issues in Torts
- **LWB239**: Criminal Responsibility
  - Two Level 3 Mathematics units - available units are:
    - MAB524: Statistical Inference
    - MAB613: Partial Differential Equations
    - MAB621: Discrete Mathematics
    - MAB623: Financial Mathematics
    - MAB624: Applied Statistics 3
    - MAB625: Operations Research 3B

### Year 4, Semester 1

- **LWB231**: Introduction to Public Law
- **LWB236**: Real Property A
- **LWB240**: Principles of Equity
- **LWB332**: Commercial and Personal Property Law
- **LWB333**: Theories of Law

### Year 4, Semester 2

- **LWB235**: Australian Federal Constitutional Law
- **LWB237**: Real Property B
- **LWB241**: Trusts
- **LWB331**: Administrative Law
- **LWB334**: Corporate Law

### Year 5, Semester 1

- **LWB528**: Environmental Microbiology
- **LSB308**: Biochemistry
- **LSB328**: Microbiology 1
- **LSB338**: Cell and Molecular Biology 2
- **LWB136**: Contracts A

### Year 5, Semester 2

- **LWB138**: Fundamentals of Torts
- **LWB238**: Fundamentals of Criminal Law
  - Two Level 3 units from the following:
    - **LSB547**: Bacterial Pathogenesis and Disease Diagnosis
    - **LSB568**: Electron Pathogenesis and Disease Diagnosis
    - **LSB578**: Virology

---

**Course structure - Major in Microbiology**

### Year 1, Semester 1

- **Introduction to Legal Research #**
- **LSB118**: Life Science
- **LWB141**: Legal Institutions and Method
- **LWB142**: Law, Society and Justice
- **PCB101**: Physical Science
  - Either
  - **PCB140**: Introductory Chemistry
  - **PCB142**: Chemistry 1

### Year 1, Semester 2

- **LSB238**: Cell and Molecular Biology 1
- **LWB143**: Legal Research and Writing
- **LWB144**: Laws and Global Perspectives
- **MAB101**: Statistical Data Analysis 1
- **PCB242**: Chemistry 2

### Year 2, Semester 1

- **LSB308**: Biochemistry
- **LSB328**: Microbiology 1
- **LSB338**: Cell and Molecular Biology 2
- **LWB136**: Contracts A

### Year 2, Semester 2

- **LSB408**: Metabolism
- **LSB428**: Microbiology 2
- **LSB468**: Molecular Biology
- **LWB137**: Contracts B

### Year 3, Semester 1

- **LWB139**: Select Issues in Torts
- **LWB239**: Criminal Responsibility
  - Two Level 3 units from the following:
    - **LSB628**: Food Microbiology
    - **LSB647**: Clinical Mycology and Parasitology
    - **LSB648**: Molecular Microbiology

### Year 3, Semester 2

- **LWB139**: Select Issues in Torts
- **LWB239**: Criminal Responsibility
  - Two Level 3 units from the following:
    - **LSB628**: Food Microbiology
    - **LSB647**: Clinical Mycology and Parasitology
    - **LSB648**: Molecular Microbiology

### Year 4, Semester 1

- **LWB231**: Introduction to Public Law
- **LWB236**: Real Property A
- **LWB240**: Principles of Equity
- **LWB332**: Commercial and Personal Property Law
- **LWB333**: Theories of Law

### Year 4, Semester 2

- **LWB235**: Australian Federal Constitutional Law
- **LWB237**: Real Property B
- **LWB241**: Trusts
- **LWB331**: Administrative Law
- **LWB334**: Corporate Law

### Year 5, Semester 1

- **LWB431**: Civil Procedure
- **LWB432**: Evidence

<tbody>
<tr>
<td># Introduction to Legal Research is a two (2) hour lecture conducted in the first week only of Semester 1, 2004. It is designed to introduce students to the basics of legal research and provide an orientation to use of the Law Library. Students will be expected to undertake a library exercise in LWB141 Legal Institutions and Method using the skills and information outlined in this lecture.</td>
</tr>
<tr>
<td>* Law Elective Units - In order to satisfy the requirements for the Bachelor of Laws component of the double degree, a student is required to complete a total of 48 credit points of elective units.</td>

**Potential Careers:**

Doctor of Philosophy (Mathematics) (IF49)

Year offered: 2007
Admissions: Yes
CRICOS code: 012650M

Course duration (full-time): 30 to 48 months with an honours degree; 24 to 48 months with a masters degree
Course duration (part-time): 42 to 96 months with an honours degree; 36 to 96 months with a masters degree

Domestic fees (per credit point): RTS/RTA; 2007 $130 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2007: $12,480 (exceeded max. entitlements)

International Fees (per semester): 2007: $10,500 per semester (subject to annual review)

International Entry: At any time

Course coordinator: Associate Professor Peter Fredericks
Discipline coordinator: Professor Vo Anh
Campus: Gardens Point

Overview
The Doctor of Philosophy in science will suit graduates with an honours or masters degree who wish to seek highly-paid employment prospects in industry and research organisations and universities.

Entry requirements
Candidates must have a relevant first-class or second-class division A (upper division) honours degree or an appropriate masters degree.

Course Description
When enrolling in the doctoral program, students can undertake an approved project in any field of interest supported by a research area within the Faculty of Science (outlined on pages 16-21 of the Faculty Prospectus).

Please note that these areas of research specialisation are given as a guide only. Staff are happy to discuss these and any related topics. Please contact the program leader of the relevant research area for further information.

Students can undertake the course either full-time or part-time. If studying full-time with an appropriate honours degree, students can expect to complete their Doctor of Philosophy degree in three-and-a-half-years. Full details of the course structure are outlined in the following website: http://www.research.qut.edu.au/restdncen/

Potential Careers:
Bachelor of Mathematics/Bachelor of Information Technology (FOR CONTINUING STUDENTS ONLY) (IF58)

Year offered: 2007
Admissions: No
CRICOS code: 020327M
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $20,160
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419552; Dfee: 419556
Past rank cut-off: 75. Dfee places were not offered last year.
Past OP cut-off: 12. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 420 (Note: The minimum course load per semester required for full-time enrolment may be more than 36 credit points)
Course coordinator: Professor Helen MacGillivray (Science)
Discipline coordinator: Dr Gary Carter (Mathematics), Ruth Christie (Information Technology)
Campus: Gardens Point

Career Opportunities
As a graduate you may find employment as a programmer, software engineer, systems programmer, technical support specialist, systems manager, systems designer, computer scientist, security analyst, systems analyst, data communications specialist, mathematician, or statistician.

Course Structure
The double degree offers a foundation in mathematics and information technology in the first year. You will then select integrated strands combining units from the areas of applicable mathematics, computational mathematics, operations research, statistics, or financial mathematics with a combined major in Data Communications and Software Engineering.

Professional Recognition
On graduation, you will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Scholarships
Students enrolled in this course can apply for industry-sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C

For students with four semesters of Senior Mathematics B and Senior Mathematics C (or equivalent) with an exit assessment of at least Sound Achievement in both

### Notes:

- For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.
- All Mathematics units have 4 contact hours per week.
- For students commencing in 2004 onwards, the units MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory. The suggested locations can be swapped.

Potential Careers:
Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Mathematics/Bachelor of Business (Accountancy, Banking and Finance or Economics) (FOR CONTINUING STUDENTS ONLY) (IF60)

Year offered: 2007
Admissions: No
CRICOS code: 027274G
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$20160
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 419212; Dfee: 419216
Past OP cut-off: 10. Dfee places were not offered last year.
Past OP cut-off: 80. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Standard credit points per full-time semester: 54 (Average)
Course coordinator: Prof Erhan Kozan (Mathematics); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics)
Campus: Gardens Point

Discontinuation
Students should note that from Semester 1, 2007 this course has been renamed and recoded to IX37 Bachelor of Business/Bachelor of Mathematics. Therefore, there will be no further intake into this course, however, students who are currently enrolled, or have already been made an offer into this current course for 2007, are able to remain enrolled in it.

For course structure information on the new course, please refer to the new course.

Career Opportunities
Test Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Graduates of the Accountancy major can expect to find employment in auditing, financial analysis, corporate secretarial functions, costing, taxation, receivership, bankruptcy, trusteeship or management services.

Graduates of the Banking and Finance major find employment in the banking area of finance which can involve retail, wholesale or international projects, the funding of operations and investment of funds in loans or liquidity.

Graduates with Economics training are highly sought after. They are employed as economists and in a wide variety of related professional areas to provide strategic analysis and policy advice.

Professional Recognition
Graduates will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia and, depending on unit selection, the Australian Society of Operations Research. Depending on the choice of major, extended major or specialisation graduates may be eligible for membership of the Economic Society of Australia (Queensland Division), Australian Institute of Management, Financial Services Institute of Australasia (FINSIA), Chartered Secretaries Australia, CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

Course Design
The course offers the opportunity to combine Mathematics with a business course majoring in Accountancy, Banking and Finance or Economics, which can be combined with an extended major in the same field, or with a double major from any of the Bachelor of Business majors, including Electronic Business.

Mathematics Scholarships
Students enrolled in this course can apply for industry sponsored scholarships. Mathematics equity scholarships are also awarded on the basis of socioeconomic disadvantage.

Course Combinations
Recommended combinations for the Business component are:
Accountancy: Extended major in Professional Accounting Banking & Finance: Extended major in Banking, Financial Economics or Funds Management; or double major in Economics Economics: Extended major in Financial Economics or double major in Banking & Finance.

*Please note that EFB101 Data Analysis for Business which is normally undertaken in the majors of Accountancy, Banking and Finance & Economics, is not required as the content will be covered in the statistics units from the mathematics component of the program.

Students also note that enrolment in the unit EFB326 Applied Portfolio Management is restricted to students undertaking the Financial Economics specialisation (FES)
and the following extended majors: Banking (BFX); Financial Economics (FEX); and Funds Management (FDX).

**Deferment**
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Business Double Major / Extended Major / Specialisation Unit

QUT HANDBOOK 2007 · Page 1535
**Course structure - Banking and Finance Major (for students with SA in Senior Maths B only)**

**Year 1, Semester 1**
- BSB110  Accounting
- BSB113  Economics
- MAB100  Mathematical Sciences 1A
- MAB101  Statistical Data Analysis 1

**Year 1, Semester 2**
- BSB122  Quantitative Analysis and Finance
- EFB102  Economics 2
- MAB111  Mathematical Sciences 1B
- MAB112  Mathematical Sciences 1C
- MAB210  Statistical Modelling 1

**Year 2, Semester 1**
- BSB126  Marketing
- EFB210  Finance 1
- MAB311  Advanced Calculus
- MAB313  Mathematics of Finance

**Year 2, Semester 2**
- BSB111  Business Law and Ethics
- BSB114  Government, Business and Society
- EFB307  Finance 2
- MAB220  Computational Mathematics 1
- Mathematics Elective (Level 2 or 3)

**Year 3, Semester 1**
- BSB115  Management, People and Organisations
- EFB201  Financial Markets
- MAB312  Linear Algebra
- Mathematics Elective (Level 2 or 3)
- Business Double Major/Extended Major/Specialisation

**Year 3, Semester 2**
- EFB312  International Finance
- Mathematics Elective (Level 2 or 3)
- Business Double Major/Extended Major/Specialisation

**Course structure - Economics Major (for students with SA in Senior Maths B & C)**

**Year 1, Semester 1**
- BSB110  Accounting
- BSB113  Economics
- MAB101  Statistical Data Analysis 1
- MAB111  Mathematical Sciences 1B

**Year 1, Semester 2**
- BSB119  International and Electronic Business
- BSB122  Quantitative Analysis and Finance
- EFB102  Economics 2
- MAB112  Mathematical Sciences 1C
- MAB210  Statistical Modelling 1

**Year 2, Semester 1**
- BSB119  International and Electronic Business
- BSB122  Quantitative Analysis and Finance
- EFB102  Economics 2
- MAB112  Mathematical Sciences 1C
- MAB210  Statistical Modelling 1

**Year 2, Semester 2**
- EFB202  Business Cycles and Economic Growth
- Mathematics Elective (Level 2 or 3)
- Business Double Major/Extended Major/Specialisation

**Business Units**
- Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units

**NOTE:** Students must select BSB119 International & Electronic Business to replace one of the Mathematics Electives.

Notes entry for information on double
major/extended major/specialisation units

Extended Major in Banking

AYB225 Management Accounting
AYB312 Financial Institutions Law
EFB310 Financial Institutions - Control
EFB311 Financial Institutions - Lending

Plus two units from the Banking Extended
Major Options listed below:

EFB200 Applied Regression Analysis
EFB308 Finance 3
EFB309 Financial Derivatives
EFB318 Portfolio and Security Analysis
EFB326 Applied Portfolio Management

Extended Major in Financial Economics (for Banking &
Finance Major)

EFB200 Applied Regression Analysis
EFB202 Business Cycles and Economic Growth
EFB211 Firms, Markets and Resources
EFB325 Financial Microeconomics

Plus two units from the Financial Economics
Extended Major Options list below

EFB308 Finance 3
EFB309 Financial Derivatives
EFB318 Portfolio and Security Analysis
EFB326 Applied Portfolio Management

Extended Major in Professional Accounting

AYB223 Law of Business Associations
AYB325 Taxation Law
EFB102 Economics 2
EFB210 Finance 1
AYB311 Financial Accounting Issues
AYB321 Strategic Management Accounting

Course structure - Mathematics Units

Level 2 units

MAB311 Advanced Calculus
MAB312 Linear Algebra
MAB313 Mathematics of Finance
MAB314 Statistical Modelling 2
MAB315 Operations Research 2
MAB413 Differential Equations
MAB414 Applied Statistics 2
MAB420 Computational Mathematics 2
MAB422 Mathematical Modelling
MAB480 Introduction to Scientific Computation
MAB481 Visualisation and Data Analysis

Level 3 units

MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB524 Statistical Inference
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B
MAB640 Industry Project
MAB672 Advanced Mathematical Modelling
MAB681 Advanced Visualisation and Data Analysis

NOTES: - MAB311 Advanced Calculus and MAB312 Linear Algebra are mandatory for students who commenced in 2004 onwards. They can be taken in a different semester 1 to that suggested in the programs above.

- For students commencing in 2004 onwards, the units MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units. This does not apply for students who commenced prior to 2004.

Potential Careers:
Account Executive, Accountant, Actuary, Banker, Banking and Finance Professional, Business Analyst, Certified Practicing Accountant, Computer Game Programmer, Corporate Secretary, Economist, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Investment Manager, Market Research Manager, Mathematician, Quantitative Analyst, Risk Manager, Statistician, Stockbroker.
Bachelor of Applied Science/Bachelor of Business (FOR CONTINUING STUDENTS ONLY) (IF61)

Year offered: 2007
Admissions: No
CRICOS code: 042263G
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$20160
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419832; Dfee: 419836
Past rank cut-off: 80. Dfee places were not offered last year.
Past OP cut-off: 10. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 432
Standard credit points per full-time semester: 54 (average)
Course coordinator: Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Dr Gayle Kerr (Advertising); Ms Sherrena Buckby (Electronic Business); Dr Amanda Gudmundsson (Human Resource Management); Mr Simon Ridings (International Business); Prof Robert Waldenrose (Management); Mr Bill Proud (Marketing); Ms Robina Xavier (Public Relations); Dr Adam Clements (Banking & Finance) and Dr Radhika Lahiri (Economics); Science Discipline Coordinator details are listed under Contact Details below
Campus: Gardens Point

Course Structure - Accountancy

### Course Structure - Human Resource Management

NOTE: These Business units are studied in conjunction with Science units each semester.

#### Year 1, Semester 1
- BSB115 Management, People and Organisations
- BSB122 Quantitative Analysis and Finance

#### Year 1, Semester 2
- BSB113 Economics
- BSB114 Government, Business and Society
- MGB222 Managing Organisations

#### Year 2, Semester 1
- BSB119 International and Electronic Business
- BSB126 Marketing
- MGB220 Management Research Methods

#### Year 2, Semester 2
- BSB110 Accounting
- BSB111 Business Law and Ethics

#### Year 3, Semester 1
- MGB207 Human Resource Issues and Strategy
- MGB211 Organisational Behaviour

#### Year 3, Semester 2
- Business Double Major / Extended Major / Specialisation
- Business Double Major / Extended Major / Specialisation

#### Year 4, Semester 1
- MGB314 Organisational Consulting and Change
- Business Double Major / Extended Major / Specialisation
- Business Double Major / Extended Major / Specialisation

#### Year 4, Semester 2
- MGB309 Strategic Management
- Business Double Major / Extended Major / Specialisation
- Business Double Major / Extended Major / Specialisation

Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units.
The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Marketing or Public relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

<td>Business Double Major/Extended Major/Specialisation Unit</td>
</tr>
</tbody>
</table>
Students should refer to the BS56 Course Notes entry for information on double major/extended major/specialisation units.

The units AMB201 Market and Audience Research and MGB220 Management Research Methods are incompatible units. Students undertaking Marketing or Public Relations as a double major should contact the school for enrolment advice. From Semester 2, 2003 students who complete both MGB220 and AMB201 will be required to undertake an approved substitute unit to satisfy course requirements.

Course Structure - Marketing

NOTE: These Business units are studied in conjunction with Science units each semester.

**Potential Careers:**
Bachelor of Applied Science/Bachelor of Education (Primary) (IF84)

Year offered: 2007
Admissions: No

Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full Fee Tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full Fee Tuition $20,160

Domestic Entry: February
QTAC code: 409142
Past rank cut-off: 80
Past OP cut-off: 10
OP Guarantee: Yes
Assumed knowledge: English (4 SA), Maths B (4 SA)
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Outcomes
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Course Structure for Commencing Students in 2002

Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB524 Statistical Inference
MAB525 Operations Research 3A
MAB672 Advanced Mathematical Modelling

Year 3, Semester 2

CLB454 Language And Literacy Curriculum
EDB431 Primary Professional Practice 2: Curriculum Decision Making
MDB384 Science Education
SPB001 Human Development and Education

Year 4, Semester 1

CLB413 Programming And Assessment In Language And Mathematics
EDB432 Primary Professional Practice 3: Inclusive Curriculum
HMB307 Health and Physical Education Curriculum (Primary)
MDB450 Primary Mathematics Curriculum

Year 4, Semester 2
### Course structure - Major in Microbiology

**Year 1, Semester 1**

- LSB118  Life Science
- PCB101  Physical Science
- PCB142  Chemistry 1
- EDB001  Teaching and Learning Studies 1: Teaching in New Times

**Year 1, Semester 2**

- LSB238  Cell and Molecular Biology 1
- MDB383  Using Technology In The Curriculum
- NRB270  Animal and Plant Structure and Function
- PCB242  Chemistry 2

**Year 2, Semester 1**

- CLB376  Studies Of Society And Environment Curriculum
- LSB308  Biochemistry
- LSB338  Cell and Molecular Biology 2
  - Either
  - MAB101  Statistical Data Analysis 1
  - Or
  - NRB100  Environmental Science

**Year 2, Semester 2**

- EDB430  Primary Professional Practice 1: Classroom Management
- LSB408  Metabolism
- LSB428  Microbiology 2
- LSB657  Perspectives in Life Science

**Year 3, Semester 1**

- LSB528  Environmental Microbiology
- LSB547  Bacterial Pathogenesis and Disease Diagnosis
- LSB578  Virology
  - One Science Elective

**Year 3, Semester 2**

- CLB454  Language And Literacy Curriculum
- EDB431  Primary Professional Practice 2: Curriculum

### Course structure - Major in Physics

**Year 1, Semester 1**

- MAB101  Statistical Data Analysis 1
- PCB101  Physical Science
- PCB107  Physics and Quantitative Techniques
  - Either
  - MAB131  Engineering Mathematics 1A
  - Or
  - MAB180  Engineering Mathematics 1B
- EDB001  Teaching and Learning Studies 1: Teaching in New Times

**Year 1, Semester 2**

- MDB383  Using Technology In The Curriculum
- MAB132  Engineering Mathematics 2A
- PCB250  Physics 1
- PCB260  Physics 1A

**Year 2, Semester 1**

- CLB376  Studies Of Society And Environment Curriculum
- MAB134  Electrical Engineering Mathematics 3
- PCB361  AC Theory and Electronics
- PCB362  Physics 2

**Year 2, Semester 2**
### Year 3, Semester 1
- One Science Elective unit
- PCB561 Quantum and Condensed Matter Physics
- PCB562 Physical Methods of Analysis
- PCB661 Experimental Physics

### Year 3, Semester 2
- CLB454 Language And Literacy Curriculum
- EDB431 Primary Professional Practice 2: Curriculum Decision Making
- MDB384 Science Education
- SPB001 Human Development and Education

### Year 4, Semester 1
- CLB413 Programming And Assessment In Language And Mathematics
- EDB432 Primary Professional Practice 3: Inclusive Curriculum
- HMB307 Health and Physical Education Curriculum (Primary)
- MDB450 Primary Mathematics Curriculum

### Year 4, Semester 2
- CLB306 Understanding Educational Practices
- EDB433 Primary Professional Practice 4: Beginning Teaching
- KKB914 Visual and Performing Arts Curriculum 1
- SPB002 Psychology of Learning and Teaching

**NOTE:** In 2002 EDB432 will be available in Semester 2 to students who do not successfully complete the requirements of the unit in Semester 1. This offering will be in external mode only.

**NOTES**
Students with an approved LOTE background in their undergraduate degree who wish to undertake CLB334 Primary LOTE Curriculum Studies in place of CLB413 should contact the Student Affairs office on 3864 3847. CLB334 is offered internally in semester 2.

**Potential Careers:**
Bachelor of Arts/Bachelor of Applied Science (IF86)

Year offered: 2007
Admissions: Yes
CRICOS code: 031581F
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,061
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: CSP: 409262; Dfee: 409266
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or Total credit points: 384 (192 cp in the Bachelor of Arts and 192 cp in the Bachelor of Applied Science)
Standard credit points per full-time semester: 48
Course coordinator: Dr Iraphne Childs (Humanities); Dr Megan Hargreaves (Science)
Campus: Gardens Point and Carseldine

Career Opportunities
As a graduate of this course you will receive both a Bachelor of Arts degree and a Bachelor of Applied Science degree. This combination of degrees provides a valuable foundation for a wide range of careers in areas such as government, diplomacy, higher education and public service. Opportunities in tourism, translation, and the hospitality industry are open to those with a Language major. Complementary majors chosen from Arts and Science provide an excellent background for careers in environmental management.

Recommended study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
A feature of the course design is the flexibility and choice it offers. Students can tailor the double degree to their career interests by combining any one of the 10 majors that are available in the Bachelor of Applied Science (SC01) degree with a specialisation chosen from a wide range of offerings in the humanities.

The program is integrated so that students will study both science and arts units in each semester.

Professional Recognition
Relevant professional bodies for the Bachelor of Applied Science (SC01) are listed under the separate entry for the course. Eligibility for membership depends on the majors undertaken.

Contact Details
Humanities Coordinator
Dr Iraphne Childs
Phone: +61 7 3138 4563
Email: i.childs@qut.edu.au

Science Coordinator
Dr Megan Hargreaves
Phone: +61 7 3138 2244
Email: m.hargreaves@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

### Year 4, Semester 1
- **Arts Major unit**
- **Arts Minor unit**
- Two Science Major units (SC01 Level 3)

### Year 4, Semester 2
- **Arts Major unit**
- **Arts Minor unit**
- Two Science Major units (SC01 Level 3)

#### CORE PROGRAM - BA Students

This core program for the degree consists of the following selection of units:

**First Year Core: Core Units for Professional Majors**
- **INTERNATIONAL AND GLOBAL STUDIES**
  - HHB110 Introduction To International And Global Studies
  - HHB111 Issues In International And Global Studies
- **SOCIETY AND CHANGE**
  - HHB105 Exploring Change
  - HHB104 Understanding Society: Intro To Sociology
  - HHB114 Introduction To Human Rights And Ethics
  - HHB115 Human Identity And Change
- **COMMUNITY STUDIES**
  - HHB102 The Human Condition
  - HHB103 Contemporary Social And Community Issues
- **AUSTRALIAN STUDIES**
  - HHB106 Australian Society And Culture
  - HHB112 Australian Politics

**First Year Core: Skills Units**
- HHB116 Applied Skills And Scholarship
- HHB117 Introduction To Social Research Methods

**Second Year Core: Research Methods**
- HHB224 Qualitative Research Methods
- HHB232 Survey Methods
- HHB121 Interpreting The Past
- HHB312 Geographical Research Design

#### Course structure - Major in Biochemistry

**Year 1, Semester 1**
- LSB118 Life Science
  - Either
- PCB140 Introductory Chemistry
  - Or
- PCB142 Chemistry 1

**Year 1, Semester 2**
- LSB238 Cell and Molecular Biology 1
- PCB242 Chemistry 2

**Year 2, Semester 1**
- MAB101 Statistical Data Analysis 1
- PCB101 Physical Science

**Year 2, Semester 2**
- LSB258 Principles of Human Physiology
- NRB270 Animal and Plant Structure and Function

**Year 3, Semester 1**
- LSB308 Biochemistry
- LSB338 Cell and Molecular Biology 2

**Year 4, Semester 1**
- LSB607 Protein Purification
- LSB608 Protein Science

#### Course structure - Major in Biotechnology

**Year 1, Semester 1**
- LSB118 Life Science
  - Either
- PCB140 Introductory Chemistry
  - Or
- PCB142 Chemistry 1

**Year 1, Semester 2**
- LSB238 Cell and Molecular Biology 1
- PCB242 Chemistry 2

**Year 2, Semester 1**
- MAB101 Statistical Data Analysis 1
- PCB101 Physical Science

**Year 2, Semester 2**
- LSB258 Principles of Human Physiology
- NRB270 Animal and Plant Structure and Function

**Year 3, Semester 1**

| | PCB362 Physics 2 |
| Year 3, Semester 1 | PCB460 Instrumentation and Computational Methods  
| | PCB462 Thermodynamics and Solid State Physics |
| Year 3, Semester 2 | PCB561 Quantum and Condensed Matter Physics  
| | PCB562 Physical Methods of Analysis |
| Year 4, Semester 1 | PCB661 Experimental Physics  
| | PCB665 Physics 3 |

**Potential Careers:**
Academic, Actuary, Administrator, Analytical Chemist, Astrophysicist, Biochemist, Biologist, Biotechnologist, Chemist, Chemist Industrial, Coastal Scientist, Conservation Biologist, Corporate Secretary, Database Manager, Ecologist, Environmental Health Officer, Environmental Scientist, Forensic Scientist, Geologist, Geophysicist, Geoscientist, Government Officer, Health Physicist, Higher Education Worker, Hydrogeologist, Immunologist, Industrial Chemist, Information Officer, Laboratory Technician (Chemistry), Manager, Mapping Scientist/Photogrammetrist,
Marine Scientist, Mathematician, Medical Biotechnologist, Medical Physicist, Microbiologist, Molecular Biologist, Natural Resource Scientist, Network Administrator, Network Manager, Physicist, Plant Biotechnologist, Policy Officer, Population Ecologist, Programmer, Project Developer, Project Manager, Public Servant, Quantitative Analyst, Statistician, Virologist.
Bachelor of Applied Science/Bachelor of Education (Secondary) (IX02)

Year offered: 2007
Admissions: Yes
CRICOS code: 020322E
Course duration (full-time): 4 years

Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,114
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)

Domestic Entry: February
International Entry: February
QTAC code: 409112; Dfee: 409116
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes

Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging.
ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com

Total credit points: 432
Standard credit points per full-time semester: 48 (semesters 1, 6-8), 60 (semesters 2-5)
Course coordinator: Dr Megan Hargreaves (Science); Dr Mal Shield (Secondary)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Contact Details
Science Coordinator
Dr Megan Hargreaves
Phone: +61 7 3138 2244
Email: m.hargreaves@qut.edu.au

Email: educationenq@qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

**Computing Requirement**
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

### Course structure - Major in Geoscience

**Year 1, Semester 1**
- MAB100 Mathematical Sciences 1A
- NRB100 Environmental Science
- NRB230 Planet Earth
- PCB101 Physical Science

**Year 1, Semester 2**
- LSB118 Life Science
- MAB101 Statistical Data Analysis 1
- NRB240 History of Life on Earth
- SCB222 Exploration of the Universe
- Either
  - PCB140 Introductory Chemistry
  - PCB142 Chemistry 1

**Year 2, Semester 1**
- EDB002 Teaching and Learning Studies 2: Development and Learning
- EDB031 Secondary Field Studies 1: Development and Learning in the Field
- NRB331 Sedimentary Geology
- NRB333 Mineralogy
- Curriculum Studies 1X

**Year 2, Semester 2**
- MDB454 Science, Technology and Society
- NRB434 Structural Geology
- NRB436 Introduction to Igneous and Metamorphic Petrology
- NRB633 Hydrogeology
- One unit from:
  - NRB437 Stratigraphy and Depositional Environments

### Course structure - Major in Mathematics (WITH Maths C)

**Year 1, Semester 1**
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- PCB101 Physical Science

**Year 1, Semester 2**
- LSB118 Life Science
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1
- PCB142 Chemistry 1
- SCB222 Exploration of the Universe

**Year 2, Semester 1**
- EDB002 Teaching and Learning Studies 2: Development and Learning
- EDB031 Secondary Field Studies 1: Development and Learning in the Field
## Two Level 2 Mathematics units

- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2

**Curriculum Studies 1X**

**Year 2, Semester 2**

- MDB454 Science, Technology and Society

## Two Level 2 Mathematics units

- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB420 Computational Mathematics 2
- MAB422 Mathematical Modelling
- MAB480 Introduction to Scientific Computation

### Year 2, Semester 2

**Curriculum Studies 1X**

### Year 3, Semester 1

- PCB107 Physics and Quantitative Techniques

### Year 3, Semester 2

- EDB002 Teaching and Learning Studies 3: Practising Education
- EDB032 Secondary Field Studies 2: Practising Education in the Field

### Year 4, Semester 1

- EDB004 Teaching and Learning Studies 4: Inclusive Education
- EDB033 Secondary Field Studies 3: Inclusive Educational Practices

## Two Level 3 Mathematics units

- MAB621 Discrete Mathematics
- MAB623 Financial Mathematics

**Curriculum Studies 3Y**

**Year 4, Semester 2**

- EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
- EDB034 Secondary Field Studies 4: Professional Work of Teachers - Induction into the Field
- EDB035 Internship (Secondary)
- EDB007 Culture Studies: Indigenous Education

## Course structure - Major in Mathematics (WITHOUT Maths C)

### Year 1, Semester 1

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- PCB101 Physical Science

### Year 1, Semester 2

- LSB118 Life Science
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- SCB222 Exploration of the Universe

### Year 2, Semester 1

- EDB002 Teaching and Learning Studies 2: Development and Learning
- EDB031 Secondary Field Studies 1: Development and Learning in the Field

### Year 2, Semester 2

- MDB454 Science, Technology and Society
- EDB004 Teaching and Learning Studies 4: Inclusive Education
- EDB033 Secondary Field Studies 3: Inclusive Educational Practices

### Year 3, Semester 1

- PCB107 Physics and Quantitative Techniques

### Year 3, Semester 2

- EDB003 Teaching and Learning Studies 3: Practising Education
- EDB032 Secondary Field Studies 2: Practising Education in the Field

### Year 4, Semester 1

- EDB004 Teaching and Learning Studies 4: Inclusive Education
- EDB033 Secondary Field Studies 3: Inclusive Educational Practices

### Year 4, Semester 2

- EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
- EDB034 Secondary Field Studies 4: Professional Work of Teachers - Induction into the Field
- EDB035 Internship (Secondary)
- EDB007 Culture Studies: Indigenous Education
MAB621 Discrete Mathematics
MAB623 Financial Mathematics

**NOTE:** Students must complete at least one of MAB311, MAB312, MAB413

**Science Component**

**Major in Physics (with Mathematics Studies)**

Replace one science unit (not Physics units) with MAB101 Statistical Data Analysis 1.

Optional - replace up to two other science units (not Physics units) with mathematics units from MAB210, MAB220 or Level 2 or Level 3 units.

**Mathematics Studies for Majors other than Mathematics or Physics**

The following four mathematics units should be included:

- MAB100  Mathematical Sciences 1A  
- MAB101  Statistical Data Analysis 1  
- MAB111  Mathematical Sciences 1B  
- MAB112  Mathematical Sciences 1C  

Up to two other mathematical units may also be selected.

**List 1: Curriculum Studies 1X & 1Y**

Prerequisite: Normally minimum of 24 credit points of relevant discipline. Students undertaking a double Science major will undertake an education elective in addition to MDB031

- MDB021  Mathematics Curriculum Studies 1  
- MDB031  Science Education Curriculum Studies 1

**List 2: Curriculum Studies 2X & 2Y**

Prerequisites: Curriculum Studies 1X & 1Y

- MDB010  Biology Curriculum Studies 2  
- MDB013  Chemistry Curriculum Studies 2  
- MDB019  Earth Science Curriculum Studies 2  
- MDB022  Mathematics Curriculum Studies 2  
- MDB025  Physics Curriculum Studies 2  
- MDB028  Science Curriculum Studies 2

**List 3: Curriculum Studies 3X & 3Y**

Prerequisite: Curriculum Studies 2X and 2Y. Students undertaking a double Science major will undertake an education elective in addition
to MDB033.

MDB023  Mathematics Curriculum Studies 3
MDB033  Science Education Curriculum Studies 3

**Potential Careers:**

Bachelor of Applied Science/Bachelor of Education (Primary) (IX14)

Year offered: 2007
Admissions: Yes
CRICOS code: 037540M
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,213
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 409142; Dfee: 409146
Past rank cut-off: 72; Dfee: 70
Past OP cut-off: 13; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science): Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Course Design
Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Contact Details
Science Coordinator
Dr Megan Hargreaves

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.
### Course structure - Major in Biochemistry

#### Year 1, Semester 1
- EDB002  Teaching and Learning Studies 2: Development and Learning

KKB202 Primary Curriculum and Pedagogies: Dance

Year 4, Semester 2

EDB006 Primary Curriculum and Pedagogies: Science

Course structure - Major in Mathematics (WITHOUT Maths C)

Year 1, Semester 1

EDB002 Teaching and Learning Studies 2: Development and Learning
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
PCB101 Physical Science

Year 1, Semester 2

EDB021 Primary Field Studies 1: Development and Learning in the Field
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C
MAB210 Statistical Modelling 1

Year 2, Semester 1

MDB120 Mathematics Curriculum and Pedagogies
MAB220 Computational Mathematics 1
Two Level 2 Mathematics units - available units are:
MAB311 Advanced Calculus
MAB312 Linear Algebra
MAB313 Mathematics of Finance
MAB314 Statistical Modelling 2

NOTE: Students must complete at least one of MAB311, MAB312, MAB413

Year 2, Semester 2

CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment
Two Level 2 Mathematics units - available units are:
MAB315 Operations Research 2
MAB413 Differential Equations
MAB414 Applied Statistics 2
MAB420 Computational Mathematics 2
MAB422 Mathematical Modelling
MAB480 Introduction to Scientific Computation
One Level 3 Mathematics unit - available units are:
MAB621 Discrete Mathematics
MAB623 Financial Mathematics

NOTE: Students must complete at least one of MAB311, MAB312, MAB413

Year 3, Semester 1
One Science unit - selected from:
LSB118 Life Science
NRB100 Environmental Science
Three Level 3 Mathematics units - available units are:
MAB521 Applied Mathematics 3
MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB672 Advanced Mathematical Modelling

Year 3, Semester 2
EDB003 Teaching and Learning Studies 3: Practising Education
EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
CLP400 Middle Years: Multiliteracies

Year 4, Semester 1
EDB004 Teaching and Learning Studies 4: Inclusive Education
EDB023 Primary Field Studies 3: Inclusive Educational Practices
KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media
OR null
KKB202 Primary Curriculum and Pedagogies: Dance and Drama
MDB006 Primary Curriculum and Pedagogies: Science

Year 4, Semester 2
EDB005 Teaching and Learning Studies 5: Professional Work of Teachers
EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
EDB025 Internship (Primary)
MDB004 Primary Curriculum and Pedagogies: Information and Communication Technologies

Course structure - Major in Microbiology

Year 1, Semester 1
EDB002 Teaching and Learning Studies 2: Development and Learning
LSB118 Life Science
PCB101 Physical Science

Either
PCB140 Introductory Chemistry
OR
PCB142 Chemistry 1

Year 1, Semester 2
EDB021 Primary Field Studies 1: Development and Learning in the Field
LSB238 Cell and Molecular Biology 1
NRB270 Animal and Plant Structure and Function
PCB242 Chemistry 2

Year 2, Semester 1
LSB308 Biochemistry
LSB328 Microbiology 1
MAB101 Statistical Data Analysis 1
MDB120 Mathematics Curriculum and Pedagogies

Year 2, Semester 2
CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment
LSB428 Microbiology 2
OR null
LSB628 Food Microbiology
OR
LSB647 Clinical Mycology and Parasitology

Year 3, Semester 1
LSB528 Environmental Microbiology
LSB547 Bacterial Pathogenesis and Disease Diagnosis
LSB568 Electron Microscopy
One Science Elective (eg LSB338)

Year 3, Semester 2
EDB003 Teaching and Learning Studies 3: Practising Education
EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
HMB300 Primary Curriculum and Pedagogies: Health and Physical Education
CLP400 Middle Years: Multiliteracies

Year 4, Semester 1
EDB004 Teaching and Learning Studies 4: Inclusive Education
EDB023 Primary Field Studies 3: Inclusive Educational Practices
KKB201 Primary Curriculum and Pedagogies: Music, Visual Arts and Media
OR null
KKB202 Primary Curriculum and Pedagogies: Dance and Drama
MDB006 Primary Curriculum and Pedagogies: Science
Course structure - Major in Physics

Potential Careers:
Bachelor of Applied Science / Bachelor of Information Technology (IX26)

Year offered: 2007
Admissions: Yes
CRICOS code: 020327M
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,118
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
QTAC code: 419302; Dfee: 419306
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Megan Hargreaves (Science), Ms Ruth Christie (IT)
Campus: Gardens Point

Professional Recognition
Graduates will satisfy the requirements for membership in the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details. Graduates are also eligible for membership of the Australian Computer Society (ACS).

Course Design
The science component of the course offers students a choice of one of nine majors: Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics. See the Bachelor of Applied Science (SC01) course information for more details. So that students can complete the double degree in a shorter period of time, co-majors are to be taken from the information technology program.

The information technology component gives students the opportunity to undertake a combined major in Data Communications and Software Engineering. Theoretical aspects are balanced by strong practical components in both of the science and information technology degrees.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT's Cooperative Education students have worked with include Energetix, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Science Major Unit

Year 4, Semester 1

ITB010  Core Project Implementation
Science Major Unit

Year 4, Semester 2

IT Major Unit
Science Major Unit

Business Systems Engineering Major

Compulsory Units
ITB222  Systems Analysis and Design
ITB228  Enterprise Systems
ITB245  R/3 System Administration
ITB298  Business Process Engineering

IS Elective Units
Select two (2) units from the following list
ITB218  Applications Programming
ITB223  Software Development with ORACLE
ITB230  Project
ITB245  R/3 System Administration
ITB255  Knowledge Management
ITB266  Information Management
ITB267  Business Analytics
ITB272  Information Technology Project Management
ITB294  Information Quality
ITB322  Information Resources

Databases Major

Compulsory Units
ITB229  Database Design
ITB232  Database Management
ITB239  Enterprise Data Mining
ITB295  XML: Data and Document Processing

IS Elective Units
Select two (2) units from the following list
ITB218  Applications Programming
ITB223  Software Development with ORACLE
ITB230  Project
ITB237  Advanced Databases
ITB245  R/3 System Administration

Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice

Electronic Business Major

Compulsory Units
ITB233  Enterprise Systems Applications
ITB239  Enterprise Data Mining
ITB260  E-Commerce Site Development
BSB212  Electronic Business Applications
BSB213  Governance Issues in E-Business
BSB314  E-Business Intelligence

Games Technology Major

Compulsory Units
ITB711  Programming Abstraction
ITB743  Artificial Intelligence
ITB746  Modelling and Animation Techniques
ITB747  Real Time Rendering Techniques
ITB749  Scientific Programming
MAB281  Mathematics for Computer Graphics

Information Technology Management Major

Compulsory Units
ITB222  Systems Analysis and Design
ITB241  Information Technology Management
ITB264  Information Systems Consulting
ITB272  Information Technology Project Management

IS Elective Units
Select two (2) units from the following list
ITB218  Applications Programming
ITB223  Software Development with ORACLE
ITB230  Project
ITB237  Advanced Databases
ITB245  R/3 System Administration
ITB255  Knowledge Management
ITB266  Information Management
ITB267  Business Analytics
ITB272  Information Technology Project Management
ITB294  Information Quality
### Intelligent Systems Major

**Compulsory Units**
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing
- ITB740 Agent Based Software Engineering
- ITB741 Information Retrieval Technology

**Elective Units**
- Select two (2) units from the following list
  - ITB322 Information Resources
  - ITB710 Fundamentals of Computer Science
  - ITB715 Web Services
  - ITB742 Computational Intelligence
  - ITB743 Artificial Intelligence

### Information Systems Major

**Compulsory Units**
- ITB228 Enterprise Systems
- ITB229 Database Design
- ITB260 E-Commerce Site Development

**IS Elective Units**
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB322 Information Resources

### Interactive Media Major

**Compulsory Units**
- ITB254 Interaction Design
- ITB257 Multimedia Systems
- ITB259 Advanced Multimedia Systems
- KIB101 Foundations of Communication Design 1
- KIB102 Foundations of Communication Design 2

**Elective Units**
- Select one (1) unit from the following list
  - KIB103 Media Technology 1
  - KIB105 Animation and Motion Graphics
  - KIB108 Animation Practices

### Network Systems Major

**Compulsory Units**
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB722 Network Planning and Deployment

**Elective Units**
- Select three (3) units from the following list
  - ITB710 Fundamentals of Computer Science
  - ITB723 Wireless and Mobile Devices
  - ITB745 Operating Systems
  - ITS701 Ccna 1 & 2: Internetworking and Routing Basics
  - ITS702 Ccna 3 & 4: Switching and Wide Area Networking

### Security Major

**Compulsory Units**
- ITB720 Internet Protocols and Services
- ITB721 Unix Network Administration
- ITB730 Information Security Fundamentals
- ITB731 Security Technologies
- ITB732 Cryptology and Protocols
- ITB733 Network Security

### Software Architecture Major

**Compulsory Units**
- ITB229 Database Design
- ITB710 Fundamentals of Computer Science
- ITB711 Programming Abstraction
- ITB712 Software Engineering Studies
- ITB713 Advanced Java Programming
- ITB717 Enterprise Software Architecture

### Web Services and Applications Major

**Compulsory Units**
- ITB254 Interaction Design
- ITB260 E-Commerce Site Development
- ITB295 XML: Data and Document Processing
- ITB716 Advanced Web Applications Development
- ITB717 Enterprise Software Architecture
- ITB715 Web Services

**Potential Careers:**

Bachelor of Information Technology / Bachelor of Mathematics (IX29)

Year offered: 2007
Admissions: Yes
CRICOS code: 059226F
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,118
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419552; Dfee: 419556
Past rank cut-off: 70. Dfee places were not offered last year.
Past OP cut-off: 14. Dfee places were not offered last year.
OP Guarantee: Yes
Assumed knowledge: English (4,SA) and Maths B (4,SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Course coordinator: Professor Helen MacGillivray (Science), Ms Ruth Christie (IT)
Discipline coordinator: Dr Gary Carter (Mathematics)
Campus: Gardens Point

Professional Recognition
On graduation, students will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia Inc and, depending on unit selection, the Australian Society for Operations Research. Graduates of the Bachelor of Information Technology meet the knowledge requirement for admission to the Australian Computer Society.

Course Design
This double degree comprises 384 credit points with 192 credit points from Information Technology and 192 credit points form Mathematics. All majors in the Bachelor of Information Technology are available.

Cooperative Education Program
An optional one-year period of paid work experience in an area of information technology is available to eligible full-time students. The Cooperative Education Program is a joint venture between employers and educators to better prepare students for employment upon graduation. Companies that QUT’s Cooperative Education students have worked with include Energex, Boeing, CITEC, Global Banking and Securities Transaction, various Queensland Government departments, Dialog, TABQ, RACQ and Sun Microsystems.

For more information visit www.fit.qut.edu.au/courses/undergrad/coop/

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see maths.qut.edu.au

  - Level 2 or 3 Maths Unit

#### Year 3, Semester 1
- IT Major Unit
- IT Major Unit
- MAB311 Advanced Calculus
  - Level 2 or 3 Maths Unit

#### Year 3, Semester 2
- ITB009 Core Project Initiation
  - IT Major Unit
  - Level 2 or 3 Maths Unit
  - Level 2 or 3 Maths Unit

#### Year 4, Semester 1
- ITB010 Core Project Implementation
  - IT Major Unit
  - Level 2 or 3 Maths Unit
  - Level 2 or 3 Maths Unit

#### Mathematics Units
- Students must complete at least 48 credit points from Level 3 Mathematics units

#### Level 2 Units
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
### Computational Mathematics 2
- MAB420
- MAB422
- MAB480
- MAB481

### Level 3 Units
- MAB521
- MAB522
- MAB523
- MAB524
- MAB525
- MAB526
- MAB613
- MAB621
- MAB623
- MAB624
- MAB625
- MAB640
- MAB672
- MAB681

**Notes:**
- In 2008, MAB313 Mathematics of Finance will be offered in Semester 2 and MAB315 Operations Research 2 will be offered in Semester 1.
- MAB523 Introduction to Quality Management and MAB621 Discrete Mathematics do not contribute to the mandatory 48 credit points minimum from Level 3 Mathematics units.
- All Mathematics units have 4 contact hours per week.

### Business Systems Engineering Major

#### Compulsory Units
- ITB222 Systems Analysis and Design
- ITB228 Enterprise Systems
- ITB245 R/3 System Administration
- ITB298 Business Process Engineering

#### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

### Databases Major

#### Compulsory Units
- ITB229 Database Design
- ITB232 Database Management
- ITB239 Enterprise Data Mining
- ITB295 XML: Data and Document Processing

#### IS Elective Units
- Select two (2) units from the following list
  - ITB218 Applications Programming
  - ITB223 Software Development with ORACLE
  - ITB230 Project
  - ITB237 Advanced Databases
  - ITB245 R/3 System Administration
  - ITB255 Knowledge Management
  - ITB266 Information Management
  - ITB267 Business Analytics
  - ITB272 Information Technology Project Management
  - ITB294 Information Quality
  - ITB322 Information Resources

### Electronic Business Major

#### Compulsory Units
- ITB233 Enterprise Systems Applications
- ITB239 Enterprise Data Mining
- ITB260 E-Commerce Site Development
- BSB212 Electronic Business Applications
- BSB213 Governance Issues in E-Business
- BSB314 E-Business Intelligence

### Games Technology Major

#### Compulsory Units
- ITB711 Programming Abstraction
- ITB743 Artificial Intelligence
- ITB746 Modelling and Animation Techniques
- ITB747 Real Time Rendering Techniques
- ITB749 Scientific Programming
- MAB281 Mathematics for Computer Graphics

### Information and Knowledge Management Major

Please contact the Course Coordinator for enrolment advice

### Information Systems Major

#### Compulsory Units
ITB228 Enterprise Systems
ITB229 Database Design
ITB260 E-Commerce Site Development

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB230 Project
ITB237 Advanced Databases
ITB266 Information Management
ITB267 Business Analytics
ITB322 Information Resources

Information Technology Management Major

Compulsory Units
ITB222 Systems Analysis and Design
ITB241 Information Technology Management
ITB264 Information Systems Consulting
ITB272 Information Technology Project Management

IS Elective Units
Select two (2) units from the following list
ITB218 Applications Programming
ITB223 Software Development with ORACLE
ITB230 Project
ITB237 Advanced Databases
ITB245 R/3 System Administration
ITB255 Knowledge Management
ITB266 Information Management
ITB267 Business Analytics
ITB272 Information Technology Project Management
ITB294 Information Quality
ITB322 Information Resources

Intelligent Systems Major

Compulsory Units
ITB239 Enterprise Data Mining
ITB295 XML: Data and Document Processing
ITB740 Agent Based Software Engineering
ITB741 Information Retrieval Technology

Elective Units
Select two (2) units from the following list
ITB322 Information Resources
ITB710 Fundamentals of Computer Science
ITB715 Web Services
ITB742 Computational Intelligence
ITB743 Artificial Intelligence

Interactive Media Major

Compulsory Units
ITB254 Interaction Design
ITB257 Multimedia Systems
ITB259 Advanced Multimedia Systems
KIB101 Foundations of Communication Design 1
KIB102 Foundations of Communication Design 2

Elective Units
Select one (1) unit from the following list
KIB103 Media Technology 1
KIB105 Animation and Motion Graphics
KIB108 Animation Practices

Network Systems Major

Compulsory Units
ITB720 Internet Protocols and Services
ITB721 Unix Network Administration
ITB722 Network Planning and Deployment

Elective Units
Select three (3) units from the following list
ITB710 Fundamentals of Computer Science
ITB723 Wireless and Mobile Devices
ITB745 Operating Systems
ITS701 Ccna 1 & 2: Internetworking and Routing Basics
ITS702 Ccna 3 & 4: Switching and Wide Area Networking

Security Major

Compulsory Units
ITB720 Internet Protocols and Services
ITB721 Unix Network Administration
ITB730 Information Security Fundamentals
ITB731 Security Technologies
ITB732 Cryptology and Protocols
ITB733 Network Security

Software Architecture Major

Compulsory Units
ITB229 Database Design
ITB710 Fundamentals of Computer Science
ITB711 Programming Abstraction
ITB712 Software Engineering Studies
ITB713 Advanced Java Programming
ITB717 Enterprise Software Architecture

Web Services and Applications Major
Compulsory Units

Potential Careers:

Actuary, Computer Game Programmer, Data Communications Specialist, Database Manager, Market Research Manager, Mathematician, Network Administrator, Network Manager, Programmer, Quantitative Analyst, Software Engineer, Statistician, Systems Analyst.
Bachelor of Applied Science / Bachelor of Business (IX31)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$20160
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419832; Dfee: 419836
Past rank cut-off: 75; Dfee: 70
Past OP cut-off: 12; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Course coordinator: Dr Megan Hargreaves (Science); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Ms Sherrena Buckby (Electronic Business); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

Career Opportunities
By combining your science studies with the Bachelor of Business you will develop the entrepreneurial skills necessary to sell your abilities to a range of employers. As a graduate of the Bachelor of Applied Science/Bachelor of Business, you will be able to work at the cutting edge of scientific innovation within a range of public, private and non-profit industries. As well as the range of science-based careers available, you could expect to gain employment as a consultant, marketer, or project manager within firms developing and taking scientific research to the marketplace.

Course Design
The Bachelor of Applied Science allows multi-disciplinary programs of study to help position you within the broad range of science disciplines and qualify you as a competent professional within your chosen field. You can specialise in one of the major areas of study available in the Bachelor of Applied Science course (Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology or Physics). See the Bachelor of Applied Science (SC01) course for more details.

To allow you to complete the double degree in a shorter period of time, your co-major will be taken from the business program therefore it is not possible to choose any of the co-majors listed under the Bachelor of Applied Science course.

You can specialise in one or more of the following business majors: Accountancy, Advertising, Banking and Finance, Economics, Electronic Business, Human Resource Management, International Business, Management, Marketing or Public Relations.

Professional Recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
* All majors: Chartered Secretaries Australia (CSA) - enrolment in the Graduate Diploma in Applied Corporate Governance.
* Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
* Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
* Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
* Economics: Economic Society of Australia (Queensland Division).
*Public Relations - Public Relations Institute of Australia.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Management Option Unit List:

- MGB216 Managing Technological Innovation in Global Business
- MGB218 Venture Skills
- MGB223 Creating New Enterprises
- MGB312 Negotiation Skills
- MGB315 Personal and Professional Development
- MGB335 Project Management

Management students must choose three from the above list (one must be a Level 3 unit).
| Year 4 Semester 2 | AMB370 | Public Relations Cases |
| Year 4 Semester 2 | AMB361 | Public Relations Campaigns |
| Year 4 Semester 2 | AMB371 | Corporate Communication Strategies |

### Marketing Major

| Year 1 Semester 1 | BSB119 | International and Electronic Business |
| Year 1 Semester 1 | BSB126 | Marketing |
| Year 1 Semester 2 | BSB110 | Accounting |
| Year 1 Semester 2 | BSB115 | Management, People and Organisations |
| Year 2 Semester 1 | BSB114 | Government, Business and Society |
| Year 2 Semester 1 | AMB200 | Consumer Behaviour |
| Year 2 Semester 2 | BSB111 | Business Law and Ethics |
| Year 2 Semester 2 | BSB113 | Economics |
| Year 3 Semester 1 | AMB202 | Integrated Marketing Communication |
| Year 3 Semester 1 | AMB240 | Marketing Planning and Management |
| Year 3 Semester 2 | AMB201 | Marketing and Audience Research |
| Year 3 Semester 2 | AMB241 | E-Marketing Strategies |
| Year 4 Semester 1 | AMB340 | Services Marketing |
| Year 4 Semester 1 | Any Marketing unit |
| Year 4 Semester 2 | AMB341 | Strategic Marketing |
| Year 4 Semester 2 | AMB352 | Marketing Decision Making |
| Year 4 Semester 2 | IBB213 | International Marketing |

### Course structure - Major in Biotechnology

| Year 1, Semester 1 | LSB118 | Life Science |
| Year 1, Semester 1 | Either |
| Year 1, Semester 1 | PCB140 | Introductory Chemistry |
| Year 1, Semester 1 | Or |
| Year 1, Semester 1 | PCB142 | Chemistry 1 |
| Year 2, Semester 1 | LSB238 | Cell and Molecular Biology 1 |
| Year 2, Semester 1 | PCB242 | Chemistry 2 |
| Year 2, Semester 1 | MAB101 | Statistical Data Analysis 1 |
| Year 2, Semester 1 | PCB101 | Physical Science |
| Year 2, Semester 2 | LSB258 | Principles of Human Physiology |
| Year 2, Semester 2 | NRB270 | Animal and Plant Structure and Function |
| Year 3, Semester 1 | LSB308 | Biochemistry |
| Year 3, Semester 1 | LSB338 | Cell and Molecular Biology 2 |
| Year 3, Semester 2 | LSB408 | Metabolism |
| Year 3, Semester 2 | LSB468 | Molecular Biology |
| Year 4, Semester 1 | LSB508 | Advanced Metabolism |
| Year 4, Semester 1 | LSB527 | Biomedical Research Technologies |
| Year 4, Semester 2 | LSB607 | Protein Purification |
| Year 4, Semester 2 | LSB608 | Protein Science |

### Course structure - Major in Biochemistry

| Year 1, Semester 1 | LSB118 | Life Science |
| Year 1, Semester 1 | Either |
| Year 1, Semester 1 | PCB140 | Introductory Chemistry |
| Year 1, Semester 1 | Or |
| Year 1, Semester 1 | PCB142 | Chemistry 1 |
| Year 2, Semester 1 | LSB238 | Cell and Molecular Biology 1 |
| Year 2, Semester 1 | PCB242 | Chemistry 2 |
| Year 2, Semester 1 | MAB101 | Statistical Data Analysis 1 |
| Year 2, Semester 1 | PCB101 | Physical Science |
| Year 2, Semester 2 | LSB258 | Principles of Human Physiology |
| Year 2, Semester 2 | NRB270 | Animal and Plant Structure and Function |
| Year 3, Semester 1 | LSB308 | Biochemistry |
| Year 3, Semester 1 | LSB338 | Cell and Molecular Biology 2 |
| Year 3, Semester 2 | LSB468 | Molecular Biology |
| Year 3, Semester 2 | LSB469 | Introduction to Genomics and Bioinformatics |
Year 4, Semester 1
LSB537 Genetic Engineering
   Either
LSB509 Medical Biotechnology 1
   Or
LSB577 Plant Biotechnology 1

Year 4, Semester 2
LSB619 Genomics and Bioinformatics
   Either
LSB609 Medical Biotechnology 2
   Or
LSB677 Plant Biotechnology 2

Course structure - Major in Chemistry

Year 1, Semester 1
MAB100 Mathematical Sciences 1A
   Either
PCB140 Introductory Chemistry
   Or
PCB142 Chemistry 1

Year 1, Semester 2
MAB101 Statistical Data Analysis 1
PCB242 Chemistry 2

Year 2, Semester 1
LSB118 Life Science
PCB101 Physical Science

Year 2, Semester 2
PCB150 Physics 1H
PCB200 Chemical Technology 1

Year 3, Semester 1
PCB334 Inorganic Chemistry
PCB354 Structure and Mechanism in Organic Chemistry

Year 3, Semester 2
PCB405 Principles of Physical Chemistry
PCB444 Spectroscopy

Year 4, Semester 1
PCB505 Advanced Physical Chemistry
PCB554 Synthesis and Reactivity in Organic Chemistry

Year 4, Semester 2
PCB634 Organometallic and Coordination Chemistry
   Either
PCB604 Project

Or
PCB644 Frontiers in Chemistry

Course structure - Major in Ecology

Year 1, Semester 1
LSB118 Life Science
NRB100 Environmental Science

Year 1, Semester 2
MAB101 Statistical Data Analysis 1
NRB270 Animal and Plant Structure and Function

Year 2, Semester 1
NRB230 Planet Earth
PCB101 Physical Science

Year 2, Semester 2
LSB238 Cell and Molecular Biology 1
NRB240 History of Life on Earth

Year 3, Semester 1
NRB301 Earth Surface Systems
NRB311 Population Ecology

Year 3, Semester 2
NRB410 Genetics and Evolution
NRB412 Experimental Design

Year 4, Semester 1
NRB510 Population Genetics
NRB511 Population Management

Year 4, Semester 2
NRB610 Ecological Applications
NRB611 Conservation Biology

Course structure - Major in Environmental Science

Year 1, Semester 1
LSB118 Life Science
NRB100 Environmental Science

Year 1, Semester 2
MAB101 Statistical Data Analysis 1

Year 2, Semester 1
NRB230 Planet Earth
PCB101 Physical Science

Year 2, Semester 2
NRB240 History of Life on Earth
PCB142 Chemistry 1

LSB547  Bacterial Pathogenesis and Disease Diagnosis
LSB568  Electron Microscopy
LSB578  Virology

Year 4, Semester 2
Two units selected from:
LSB628  Food Microbiology
LSB647  Clinical Mycology and Parasitology
LSB648  Molecular Microbiology

Course structure - Major in Physics

Year 1, Semester 1
MAB111  Mathematical Sciences 1B
PCB101  Physical Science

Year 1, Semester 2
MAB112  Mathematical Sciences 1C
SCB222  Exploration of the Universe

Year 2, Semester 1
MAB311  Advanced Calculus
PCB107  Physics and Quantitative Techniques

Year 2, Semester 2
PCB250  Physics 1
PCB260  Physics 1A

Year 3, Semester 1
PCB361  AC Theory and Electronics
PCB362  Physics 2

Year 3, Semester 2
PCB460  Instrumentation and Computational Methods

PCB462  Thermodynamics and Solid State Physics

Year 4, Semester 1
PCB561  Quantum and Condensed Matter Physics
PCB562  Physical Methods of Analysis

Year 4, Semester 2
PCB661  Experimental Physics
PCB665  Physics 3

Potential Careers:
Bachelor of Business / Bachelor of Mathematics (IX37)

Year offered: 2007
Admissions: Yes
CRICOS code: 059601K
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007:$20160
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 419212; Dfee: 419216
Past rank cut-off: 75; Dfee: 70
Past OP cut-off: 12; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Prof Erhan Kozan (Mathematics); Mr Andrew Paltridge (Business)
Discipline coordinator: Dr John Sweeting (Accountancy); Ms Gayle Kerr (Advertising); Dr John Chen (Banking & Finance); Dr Radhika Lahiri (Economics); Ms Sherrena Buckby (Electronic Business); Dr Paul Barnes (Human Resource Management); Mr Simon Ridings (International Business); Dr Paul Barnes (Management); Mr Bill Proud (Marketing); and Ms Robina Xavier (Public Relations).
Campus: Gardens Point

Career Opportunities
Graduates are equipped to undertake sophisticated economic and financial modelling which is important in business and government decision making. Quantitative analysts are employed by the financial sector in order to optimise returns both in the short and long-term. Graduates may also become actuarial trainees in the insurance and superannuation area although further study is required in order to qualify as an actuary.

Professional Recognition
The Bachelor of Business degree may, subject to choice of major, extended major, or specialisation, allow graduates to satisfy the academic requirements for membership as follows:
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.

Graduates of the Bachelor of Mathematics degree will be eligible for membership of the Mathematical Society of Australia, the Statistical Society of Australia, and depending on unit selection, the Australian Society of Operations Research.

Course Design
The course offers the opportunity to combine Mathematics with a business course.

This course is made up of 384 credit points. Each component (i.e. Business and Mathematics) comprises 192 credit points.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Management Major Course Structure for Students with Maths B and C

#### Year 1 Semester 1
- BSB113 Economics
- BSB115 Management, People and Organisations

#### Year 1 Semester 2
- BSB114 Government, Business and Society
- BSB126 Marketing

#### Year 2 Semester 1
- BSB110 Accounting
- BSB111 Business Law and Ethics
### International Business Major Course Structure for Students with Maths B and C

**Year 1 Semester 1**
- BSB113 Economics
- BSB115 Management, People and Organisations

**Year 1 Semester 2**
- BSB114 Government, Business and Society
- BSB126 Marketing

**Year 2 Semester 1**
- BSB110 Accounting
- BSB115 Management, People and Organisations

**Year 2 Semester 2**
- MGB207 Human Resource Issues and Strategy
- BSB119 International and Electronic Business

**Year 3 Semester 1**
- MGB220 Management Research Methods
  - HRM Option Unit

**Year 3 Semester 2**
- MGB221 Performance and Reward
  - HRM Option Unit

**Year 4 Semester 1**
- MGB221 Performance and Reward
  - HRM Option Unit

**Year 4 Semester 2**
- MGB230 Recruitment and Selection
- MGB331 Training and Development

**HRM Option Unit List:**
- MGB201 The Legal Context of Employment Relations
- MGB209 Occupational Health and Safety Management
- IBB208 European Business Development
- IBB210 Export Management
- IBB317 Contemporary Business in Asia
  - or
- IBB308 Contemporary Business in Europe
- IBB300 International Business Strategy
- IBB304 Global Industry Analysis
- IBB213 International Marketing
- IBB303 International Logistics
MGB224 Australian Industrial Relations  
MGB304 Human Resource Information Management  
MGB305 Human Resource Management Strategy and Policy  
MGB314 Organisational Consulting and Change  
MGB315 Personal and Professional Development  
MGB325 Advanced Practice in Training and Development  
HRM students must choose three from the above list (one must be a Level 3 unit).

MGB331 Training and Development

HRM Option Unit List:
MGB201 The Legal Context of Employment Relations
MGB209 Occupational Health and Safety Management
MGB224 Australian Industrial Relations
MGB304 Human Resource Information Management
MGB305 Human Resource Management Strategy and Policy
MGB314 Organisational Consulting and Change
MGB315 Personal and Professional Development
MGB325 Advanced Practice in Training and Development

HRM students must choose two units from the above list (one must be a Level 3 unit).

International Business Course Structure for Students with Maths B

Year 1 Semester 1
BSB119 International and Electronic Business
BSB126 Marketing

Year 1 Semester 2
BSB110 Accounting

Year 2 Semester 1
BSB114 Government, Business and Society
IBB202 Fundamentals of International Finance

Year 2 Semester 2
BSB111 Business Law and Ethics
BSB113 Economics
BSB115 Management, People and Organisations

Year 3 Semester 1
IBB205 Cross-Cultural Communication and Negotiation
IBB217 Asian Business Development
or
IBB208 European Business Development

Year 3 Semester 2
IBB210 Export Management
IBB317 Contemporary Business in Asia
or
IBB308 Contemporary Business in Europe

Year 4 Semester 1
IBB300 International Business Strategy
IBB304 Global Industry Analysis

Year 4 Semester 2
IBB213 International Marketing
IBB303 International Logistics

Marketing Course Structure for Students with Maths B

Year 1 Semester 1
BSB119 International and Electronic Business
BSB126 Marketing

Year 1 Semester 2
BSB110 Accounting

Year 2 Semester 1
BSB114 Government, Business and Society
AMB200 Consumer Behaviour

Year 2 Semester 2
BSB111 Business Law and Ethics
BSB113 Economics
BSB115 Management, People and Organisations

Year 3 Semester 1
AMB202 Integrated Marketing Communication
AMB240 Marketing Planning and Management

Year 3 Semester 2
AMB201 Marketing and Audience Research
AMB241 E-Marketing Strategies

Year 4 Semester 1
AMB340 Services Marketing
Any Marketing Unit

Year 4 Semester 2
AMB341 Strategic Marketing
AMB352 Marketing Decision Making
or
IBB213 International Marketing

Management Course Structure for Students with Maths B

Year 1 Semester 1
BSB113 Economics
BSB115 Management, People and Organisations

Year 1 Semester 2
BSB114 Government, Business and Society

Year 2 Semester 1
BSB110 Accounting
BSB111 Business Law and Ethics

Year 2 Semester 2
MGB220 Management Research Methods
BSB119 International and Electronic Business
BSB126 Marketing

Year 3 Semester 1
MGB210 Production and Service Management
MGB211 Organisational Behaviour

Year 3 Semester 2
MGB222 Managing Organisations
Management Option List

Year 4 Semester 1
MGB334 Managing in a Changing Environment
Management Option List

Year 4 Semester 2
MGB309 Strategic Management
Management Option List

Management Option Unit List:
MGB216 Managing Technological Innovation in Global Business
MGB218 Venture Skills
MGB223 Creating New Enterprises
MGB312 Negotiation Skills
MGB315 Personal and Professional Development
MGB335 Project Management
Management students must choose two from the above list (one must be a Level 3 unit).

Public Relations Course Structure for Students with Maths B

Year 1 Semester 1
BSB119 International and Electronic Business
BSB126 Marketing

Year 1 Semester 2
BSB110 Accounting

Year 2 Semester 1
BSB114 Government, Business and Society
AMB201 Marketing and Audience Research

Year 2 Semester 2
BSB111 Business Law and Ethics
BSB113 Economics
BSB115 Management, People and Organisations

Year 3 Semester 1
AMB202 Integrated Marketing Communication
AMB260 Public Relations Theory and Practice

Year 3 Semester 2
AMB261 Media Relations and Publicity
AMB262 Public Relations Writing

Year 4 Semester 1
AMB360 Corporate Communication Management
AMB370 Public Relations Cases

Year 4 Semester 2
AMB361 Public Relations Campaigns
AMB371 Corporate Communication Strategies

Course structure - For students with four semesters of Senior Mathematics B and Senior Mathematics C
For students with four semesters of Senior Mathematics B and Senior Mathematics C, at a level of Sound Achievement or better, (or equivalent)

Year 1, Semester 1
MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B

Year 1, Semester 2
MAB112 Mathematical Sciences 1C
MAB210 Statistical Modelling 1

Year 2, Semester 1
MAB311 Advanced Calculus
MAB313 Mathematics of Finance

**Mathematics Units**

**Level 1 Units:**
- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

**Level 2 Units - Select from:**
- MAB314 Statistical Modelling 2
- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB420 Computational Mathematics 2
- MAB422 Mathematical Modelling
- MAB480 Introduction to Scientific Computation
- MAB481 Visualisation and Data Analysis

**Level 2 Units - Select from:**
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB313 Mathematics of Finance

**Level 3 Units: You must complete at least 4 units from:**
- MAB521 Applied Mathematics 3
- MAB522 Computational Mathematics 3
- MAB524 Statistical Inference
- MAB525 Operations Research 3A
- MAB526 Statistical Science 3
- MAB613 Partial Differential Equations
- MAB623 Financial Mathematics
- MAB624 Applied Partial Differential Equations
- MAB625 Operations Research 3B
- MAB640 Industry Project
- MAB672 Advanced Mathematical Modelling
- MAB681 Advanced Visualisation and Data Analysis

**Other Level 3 Units:**
- MAB523 Introduction to Quality Management
- MAB621 Discrete Mathematics
- OR null

**NOTE:** In 2008, MAB313 Mathematics of Finance will be in Semester 2 and MAB315 Operations Research 2 will be in Semester 1

**Potential Careers:**

Account Executive, Accountant, Actuary, Banker, Banking and Finance Professional, Business Analyst, Certified Practicing Accountant, Computer Game Programmer, Corporate Secretary, Economist, Financial Advisor/Analyst, Financial Project Manager, Funds Manager, Government Officer, Investment Manager, Market Research Manager, Mathematician, Quantitative Analyst, Risk Manager, Statistician, Stockbroker.
Graduate Certificate in Research Commercialisation (IX97)

Year offered: 2007
Admissions: Yes
CRICOS code: External

Course duration (full-time): 1 semesters. The course must be completed within a maximum time period of 4 years.
Course duration (part-time): 2 semesters. The course must be completed within a maximum period of 8 years.
Course duration (external): 2 semesters. The course must be completed within a maximum period of 8 years.

Domestic fees (per credit point): 2007: $167 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $16,000
International Fees (per semester): 2007: $12,000 per semester (subject to annual review)

Domestic Entry: 2 entry points per year
International Entry: 2 entry points per year

Course coordinator: Professor Rod Wissler
Campus: Internet

course structure

IFP100  Knowledge Transfer and Research Commercialisation (Core Unit)
IFP103  Public Policy and Research
IFP101  Leadership and Workplace Communication
IFP102  Project Management and Research
IFP104  Entrepreneurial Foundations

Potential Careers:
Bachelor of Applied Science (Medical Science) (LS37)

Year offered: 2007  
Admissions: Yes  
CRICOS code: 020331D  
Course duration (full-time): 3 Years  
Course duration (part-time): 6 Years  
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)  
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,101  
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)  
Domestic Entry: February  
International Entry: February and July (Conditions apply for July entry)  
QTAC code: 418201; Dfee: 418206  
Past rank cut-off: 80; Dfee: 75  
Past OP cut-off: 10; Dfee: 12  
OP Guarantee: Yes  
Assumed knowledge: English (4, SA), Maths B (4, SA) and Chemistry (4, SA)  
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. Total credit points: 288  
Standard credit points per full-time semester: 48  
Standard credit points per part-time semester: 24  
Course coordinator: Dr Trevor Forster  
Campus: Gardens Point

Career Opportunities

This course can provide a range of exciting opportunities in the field of medical science.

The degree is the preferred qualification for employment in the pathology industry as a scientist. Scientists in the pathology industry perform tests on human blood or tissue and other forms of testing in the areas of immunology, haematology, microbiology, histopathology, cytology and biochemistry. You may decide to specialise in areas such as leukaemia diagnosis, cytogenetics, stem cell manipulation, tumour diagnosis, cytological diagnosis, DNA testing or forensic testing, or proceed to a managerial position within a pathology laboratory or hospital.

Students are required to undertake a minimum six-week work experience program in a practising pathology laboratory. This takes place at the end of the second year in the full-time program and in a suitable vacation period during the part-time program. Proof of successful vaccination against Hepatitis B must be provided by students at the end of first semester of year two of the program.

Professional Recognition

Graduates are immediately eligible for graduate membership of the Australian Institute of Medical Scientists and will have completed the academic requirements for admission as Members.

Why Choose this Course?

This is the only medical science degree in southern Queensland which is accredited with the Australian Institute of Medical Scientists (AIMS). In recent years more than 90 per cent of graduates seeking employment were successful within four months of graduation.

The course is designed in consultation with senior staff in pathology laboratories, so you'll gain advanced knowledge of new diagnostic techniques used in the workplace. QUT has state-of-the-art laboratories, allowing you to graduate with extensive experience using equipment found in industry. Medical Science students also undertake clinical placements in pathology laboratories during the course giving you a chance to use your skills in a real workplace.

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course coordinator: Associate Professor Chris Collet
Campus: Gardens Point

Career Opportunities
The Bachelor of Biotechnology Innovation is training the next generation of bioentrepreneurs to translate research outcomes into business opportunities. Graduates can be business-savvy scientists, or operate in the world of commercialisation and technology transfer or start up their own biotechnology-based enterprise bringing their own products to market. The emphasis on innovation and entrepreneurship means that graduates are comfortable working in a start up company environment or on new projects in established enterprises. Traditional roles in research-focused organisations are also available.

Graduates are taking key positions in the biotechnology industry sector as scientists, business development officers building new businesses from emerging technologies and as commercialisation officers evaluating and financing the commercialisation of new biotechnology products.

Biotechnology is a global industry with many countries promoting the sector as a major pillar of future economic development. Career opportunities exist internationally and graduates are encouraged to think beyond Australia. Graduates are eligible to apply directly for Masters or Doctor of Philosophy studies.

Recommended Study
Biological Science is recommended.

Course Design
The Bachelor of Biotechnology Innovation, a degree with Honours, was the first degree of its type in Australia and aims to provide highly trained and motivated graduates skilled in the science and business and biotechnology. Graduates undertake the same basic and advanced biotechnology science as students in other science-based courses, gaining requisite theoretical and practical skills. In this course, however, basic and advanced business units are undertaken highlighting entrepreneurial skills and biotechnology commercialisation. Integration and synthesis of the disparate disciplines is an essential component of the course.

Unique to the course is the Student BioEnterprise Scheme, a proactive project-based learning exercise promoting the integration of theory and practice in business and science. Students form companies and operate in the company environment over the entire duration of their course. Companies invent biotechnology-oriented products or processes and formulate strategies to bring them from laboratory to the marketplace under the guidance of industry and academic mentors. Students have many opportunities to network with industry through the Student BioEnterprise Scheme and numerous Ausbiotech functions, events and conferences. Companies can also undertake industry-based or consultancy projects with an industry partner in the final year of the course.

Professional Recognition
On graduation, students are immediately eligible for graduate membership of AusBiotech Ltd and the Australian Society for Biochemistry and Molecular Biology.

Why Choose this Course?
If you'd like to work in the dynamic world of translating science discoveries into money-making enterprises, meeting people, evaluating projects, picking winners and running with them, then this course is for you!

While research innovation is critical to the future of Australian industry, and that of many other nations, it is the commercialisation of innovations that will realise any potential and serve to build and strengthen local biotechnology industry. Australia already produces many competent and highly regarded scientists but has a poor history and capitalising on research outcomes. The Federal and various State Governments are investing hundreds of millions of dollars in research innovation and commercialisation and the emphasis has moved to bringing emerging technologies into the marketplace. There is an increasing demand for skilled professionals who can drive research commercialisation in the science and technology sector in Australia and in the global marketplace. The Bachelor of Biotechnology Innovation has created a new rapid pathway into the high-flying world of commercialisation and technology transfer.
Graduates of the Bachelor of Biotechnology Innovation have realised outstanding job outcomes and continue to be quickly employed by industry, often successfully competing against graduates with PhDs and MBAs.

Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) (Students are NOT able to commence LS66 in February)
International Entry: July (Students are NOT able to commence LS66 in February)
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent, preferably but not necessarily in science, is advised. Please contact the course coordinator for further information on the entry requirements for this course.

Career Outcomes
Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Professional Recognition
Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design
LS66 Graduate Certificate in Biotechnology is a foundation program for those people without a science degree or for those who do not have a recent background in the biomolecular sciences. Fundamental aspects of cell and molecular biology, biochemistry and microbiology are covered in this first program which comprises 48 credit points of assessed coursework. Successful completion of this program allows students to then specialise in more advanced aspects of biotechnology. The Graduate Certificate in Biotechnology also allows students to gain essential generic skills and attributes for successful postgraduate research and learning. Students must commence in July and enrol in Semester 2 units first. Advanced standing may be given for this foundation program if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in any of the more advanced biotechnology programs (LS76, LS86 or LS96) in their first semester.

Overview
LS66 Graduate Certificate in Biotechnology is the first of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. This particular course will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training in general biotechnology. LS66 Graduate Certificate in Biotechnology, a 6-month full-time foundation program, provides those students without a sound background in the biomolecular sciences the opportunity for direct entry into more advanced biotechnology streams. Science-based biomolecular science units emphasise both theoretical and laboratory skills and cover contemporary fundamental techniques underpinning the science of biotechnology.

Graduate Diploma in Biotechnology (LS76)

Year offered: 2007
Admissions: Yes
CRICOS code: 016975B
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
International Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*LS76 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.

For students with advanced standing for Module 1 and who wish to enter LS76 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program.

Professional Recognition
Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Career Outcomes
Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology. The LS76 Graduate Diploma in Biotechnology builds upon concepts covered in the foundation program, LS66 Graduate Certificate in Biotechnology. The Graduate Diploma in Biotechnology not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. The Graduate Diploma in Biotechnology is comprised of 96 credit points of assessed coursework. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS76 in their first semester.

Overview
LS76 Graduate Diploma in Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The Graduate Diploma in Biotechnology will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. LS76 Graduate Diploma in Biotechnology, a one year full-time program, builds upon the knowledge and skills base developed in the Graduate Certificate in Biotechnology and allows the student to stream into either medical or plant biotechnology or both.

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology.

Overview
LS86 Master of Biotechnology is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. LS86 Master of Biotechnology extends the LS76 Graduate Diploma in Biotechnology program by providing additional training and specialisation in either medical or plant biotechnology or both. The program can be completed in 1.5 years full-time. The Master of Biotechnology program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. Graduate Diploma in Medical Science (Anatomical Pathology) (LS90)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 4 semesters (13 months)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Total credit points: 96
Standard credit points per part-time semester: 24
Course coordinator: Dr Trevor Forster
Campus: Gardens Point

Objective
This course aims to:

- Formalise advancement of knowledge and skills of medical scientists in the specialist discipline of Anatomical Pathology.
- To promote teamwork and effective communications between scientists and pathologists.
- To enable scientists to undertake some of the surgical cut-up procedures normally assigned to pathologists.

Course Design
This course is designed to make use of learning that takes place in the workplace. It provides close collaboration between QUT, the pathology industry and pathology professionals.

As a special feature, this course avoids the traditional mode of study ie weekly attendance at lectures, practical sessions and tutorials by: intensive study mode in the form of one week modules; on-line discussion forums; work-based learning; tele & video conferencing.

Entry Requirements
A Bachelor Applied Science (Medical Science) or equivalent degree incorporating human anatomy, histology and pathology with recent work experience in a histology laboratory and currently working in an appropriate capacity in an accredited pathology laboratory.

Course structure

First Semester (January to February)
LSN220 Surgical Anatomy
LSN223-1 Surgical Grossing

Second Semester (March to June)
LSN221-1 Pathology
LSN223-2 Surgical Grossing

Third Semester (July to November)
LSN221-2 Pathology
LSN223-3 Surgical Grossing

Fourth Semester (January to February following year)
JSN014 Law, Justice and New Genetic Technologies
LSN223-4 Surgical Grossing

Potential Careers:
Biochemist, Clinical Laboratory Scientist, Medical Scientist, Microbiologist, Operations Manager, Pathology Scientist.
Master of Biotechnology (Advanced) (LS96)

Year offered: 2007
Admissions: Yes
CRICOS code: 054279M
Course duration (full-time): 4 semesters (2 years)
Course duration (part-time): 8 semesters (4 years)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
International Entry: July (Note: Students commencing in July, enrol in Semester 2 units first) *Also see "ENTRY REQUIREMENTS" below
Total credit points: 192
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Mark O'Brien
Campus: Gardens Point

Entry Requirements
A bachelor degree or equivalent, preferably but not necessarily in science, is required. Please contact the course coordinator for further information on the entry requirements for this course.

*LS96 commences in July (Module 1 entry). Students with advanced standing for Module 1 should commence in February as the Faculty does not offer sufficient units in Module 2 in second semester. Note especially that the February entry point for this course is for students with advanced standing for Module 1. It is not possible to commence Module 1 in February.

For students with advanced standing for Module 1 and who wish to enter LS96 in July, a modified program will be required and this should be discussed with the course coordinator prior to enrolment. Students should note that this may require them to study business electives only in their first semester and could lead to them having to take an additional semester to complete the requirements of their program. Also, students may not be able to undertake the project component of LS96.

Career Outcomes
Career opportunities include employment as research and support staff in the biotechnology industry - private or public biotechnology companies, universities, CSIRO, research institutes, government departments, pathology laboratories and hospitals.

Professional Recognition
Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background in the biomolecular sciences and area of interest in biotechnology. LS96 Master of Biotechnology (Advanced) completes the comprehensive training of students and follows successful completion of core and elective units offered in LS66, LS76 and LS86. It is comprised of 192 credit points of assessed coursework in general, medical and/or plant biotechnology. In their final semester of the program, students may undertake a supervised research project either at QUT or in the workplace. Students must discuss research project areas prior to enrolment in this course to select both a suitable project and a project supervisor(s) prior to entry (or as soon as possible thereafter). While the School of Life Sciences has a wide range of research project areas available, it may not always be possible for students to conduct a research project exactly in the area they desire. Part-time students may also elect to do a research project at their place of work, with both a workplace supervisor and a QUT supervisor. Alternative options are available. For students not undertaking a research project, additional coursework must be completed. Students will need to consult with the course coordinator in selecting additional coursework units. The LS96 Master of Biotechnology (Advanced) program not only offers students opportunities to pursue study in several relevant focus areas including the theoretical and practical aspects of biotechnology, but also the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications. Advanced standing may be given for the suite of units offered in the foundation program, LS66 Graduate Certificate in Biotechnology, if the student has a bachelor degree or equivalent with a recent and appropriate undergraduate-level knowledge and practical experience in the key areas of molecular biology, cell biology, biochemistry and/or microbiology at an advanced level. If advanced standing is granted, students can enrol directly in LS96 in their first semester.

Overview
LS96 Master of Biotechnology (Advanced) is one of four nested postgraduate coursework programs in biotechnology offered by the School of Life Sciences. The LS96 Master of Biotechnology (Advanced) program offers students a complete and comprehensive training in biotechnology by extending the suite of units offered within the LS86 Master of Biotechnology program or by giving students the opportunity in their final semester of study to pursue a research project. The Master of Biotechnology (Advanced) is a two year full-time program of study commencing with the foundation suite of core units, where appropriate. The LS96 Master of Biotechnology (Advanced) program will suit anyone who has a recent undergraduate degree (preferably, but not necessarily in science) and who wishes to gain training and advanced specialisation in general, medical and/or plant biotechnology. The program also caters for working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position. Science-based biotechnology
units emphasise laboratory skills and hands-on laboratory experimentation feature prominently in the program, which covers contemporary techniques in biotechnology. New technology is incorporated as it becomes available. The program also offers students opportunities to pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Campus: Gardens Point

Career Opportunities
Mathematics graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, information technology, environmental management, health, marketing, logistics, defence, media, education and research. In addition to their knowledge and skills in mathematics, graduates are also highly valued for their analytical and problem-solving skills. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

Favourable career outcomes for Bachelor of Mathematics graduates are likely due to the current demand for qualified statisticians and mathematicians.

Recommended Study
Maths C is recommended.

Course Design
The course structure is flexible in nature so that you can choose to study only mathematics units or include some units from another area of interest, such as science, business or information technology.

In the first year you will study core units in mathematics and statistics. These core units include studies in calculus, algebra, vectors and matrices, computational mathematics, data analysis and statistical modelling.

You will be able to design your program to suit your interests and career aspirations by combining advanced units from a number of the following areas of specialisation:

- **Applied Mathematics**
  Mathematical techniques that can be used to solve real-world problems.

- **Computational Mathematics**
  Computers and numerical techniques used to find solutions to complex problems which cannot be solved analytically.

- **Discrete Mathematics**
  The mathematics of numbers, including study of sets, fields, ring and groups.

- **Financial Mathematics**
  A wide variety of mathematical techniques used in applications within the financial area.

- **Mathematical Modelling**
  The utilisation of mathematical techniques to develop a model or explanation of a real-world problem which can then be tested.

- **Operations Research**
  Optimising complex systems including queuing, scheduling or allocation of resources.

- **Scientific Computation and Visualisation**
  Supercomputing, large-scale scientific modelling and creating graphical representations using visualisation techniques.

- **Statistics**
  Collecting data in an appropriate format, experimental design, analysis of data and using data to make predictions.

- **Statistical Modelling**
  Building and analysing models of systems involving probability and variables.

- **Professional Recognition**
  Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available.

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure - Bachelor of Mathematics

Students complete at least 192 credit points (16 twelve credit point units) of Mathematics units according to the following requirements:

### Level 1 Mathematics Units

Students must complete the following Level 1 Mathematics units:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

Note: MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C

### Level 2 and 3 Mathematics Units

At least 120 credit points (10 twelve credit point units) must be taken from Level 2 and Level 3 Mathematics units with at least 48 credit points (4 twelve credit point units) from Level 3 mathematics units

Students must complete:

- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB422 Mathematical Modelling

### Other Units

Up to a maximum of 96 credit points may be taken as electives with not more than 48 credit points from first level units.

Note: A first level unit is classified as a unit that is normally taken in the first year of a single degree. Examples of first level units are BSB1xx, ITB001-ITB008, LSB118, PCB101, PCB250 and PCB260. Please check with your Course Coordinator if you would like to make language units or units from faculties other than Business, Information Technology or Science so that you can be advised on the correct unit(s) to enrol in and their level.

The balance of credit points needed to complete the minimum requirement of 288 credit points will be Mathematics units.

### Suggested Program for February Entry

#### Students with an exit assessment of at least Sound Achievement in both Senior Mathematics B and Senior Mathematics C (or equivalent)

**Year 1, Semester 1**

- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- One additional unit from:
  - MAB313 Mathematics of Finance
  - BSB110 Accounting
  - ITB001 Problem Solving and Programming
  - PCB001 Introductory Physics

**Year 1, Semester 2**

- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1
- Two additional units from:
  - MAB422 Mathematical Modelling
  - MAB480 Introduction to Scientific Computation
  - BSB110 Accounting
  - BSB113 Economics
  - ITB003 Object Oriented Programming
  - PCB250 Physics 1

**Year 2, Semester 1**

- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- Two additional units from mathematics units or other units

**Year 2, Semester 2**

At least ONE of:

- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB422 Mathematical Modelling

Additional units from mathematics units or other units as required

**Year 3, Semester 1**
FOUR units from mathematics units or other units (see course structure)

**Year 3, Semester 2**

FOUR units from mathematics units or other units (see course structure)

First Level Information Technology Units

These units are all 12 credit points and available Semester 1 and Semester 2 and may also be available in the summer (tuition fee payable). No more than four first level units can be included in the course.

ITB001 Problem Solving and Programming
ITB002 IT Professional Studies
ITB003 Object Oriented Programming
ITB004 Database Systems
ITB005 Systems Architecture
ITB006 Networks
ITB007 Web Development
ITB008 Modelling Analysis and Design

Refer to IT22 Bachelor of Information Technology or your Course Coordinator for more information on information technology units. Note: if you have already completed any information technology units you will need to check for incompatibility or equivalence with the new units.

First Level Business Units

These units are all 12 credit points and available Semester 1 and Semester 2. No more than four first level units can be included in the course.

BSB110 Accounting
BSB111 Business Law and Ethics
BSB113 Economics
BSB114 Government, Business and Society
BSB115 Management, People and Organisations
BSB119 International and Electronic Business
BSB122 Quantitative Analysis and Finance
BSB126 Marketing
null

FINANCE: Select a maximum of 8 units from the list below:

BSB110 Accounting
BSB113 Economics
Advanced level units:
EFB102 Economics 2
EFB201 Financial Markets
EFB210 Finance 1

Economics: Select a maximum of 8 units from the list below:

BSB113 Economics
EFB102 Economics 2
EFB200 Applied Regression Analysis
EFB202 Business Cycles and Economic Growth
EFB211 Firms, Markets and Resources
EFB323 Financial and Monetary Economics
EFB324 Macroeconomics and Global Financial Markets
EFB325 Financial Microeconomics
EFB329 Contemporary Applications of Economics Theory

Refer to BS56 Bachelor of Business or your Course Coordinator for more information on the units available for the various areas of business.

First Level Physics Units

These units are all 12 credit points:

PCB101 Physical Science
PCB107 Physics and Quantitative Techniques
PCB250 Physics 1
PCB260 Physics 1A

Refer to SC01 Bachelor of Applied Science for information on higher level Physics units

Potential Careers:

Actuary, Computer Game Programmer, Market Research Manager, Mathematician, Quantitative Analyst, Statistician.
Graduate Certificate in Mathematical Science (MA65)

Year offered: 2007
Admissions: Yes
CRICOS code: 046044G
Course duration (full-time): 1 semester (0.5 year)
Course duration (part-time): 2 semesters (1 year)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 48
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Applicants who do not meet the normal entry requirement may be permitted to enrol subject to the approval of the Head of the School of Mathematical Sciences. Applicants should provide details of their relevant industry experience and prior learning.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Certificate, at least 36 credit points must be taken from mathematics units and up to 12 credit points can be taken from units other than mathematics units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

Contact Details
Course Coordinator
Dr Troy Farrell

Phone: +61 7 3138 2364
Email: t.farrell@qut.edu.au

Course structure
- At least 36 credit points must be taken from mathematics units.
- Up to 12 credit points can be taken from units other than mathematics units.

The program of study for an individual student will be decided in consultation with the Course Coordinator and will take into account the student's background and area of interest within the mathematical sciences.

Students must contact the course Coordinator prior to commencing.

The units selected may include:
MAB100 Mathematical Sciences 1A
MAB101 Statistical Data Analysis 1
MAB111 Mathematical Sciences 1B
MAB112 Mathematical Sciences 1C

These units listed are units suitable for students who have not studied mathematics at university but who have achieved a background equivalent to having successfully studied Senior Mathematics B (or B and C). The actual units recommended for an individual student will depend upon their secondary mathematics background, length of time since they have studied mathematics, any tertiary mathematics studies and their area of interest. For other available units please see the list of Undergraduate and Postgraduate Mathematics Units which is obtainable from the School of Mathematical Sciences or go to Unit Outlines under Course Information on the QUT website and enter MA for unit code. Your Course Coordinator can assist with non-mathematics units.

Potential Careers:
Actuary, Mathematician, Quantitative Analyst, Statistician.
Graduate Diploma in Mathematical Science (MA75)

Year offered: 2007
Admissions: Yes
CRICOS code: 046041M
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

Prior to Enrolment
Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

In the Graduate Diploma, at least 24 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 36 credit points from project units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

Contact Details
Course Coordinator
Dr Troy Farrell
Phone: +61 7 3138 2364
Email: t.farrell@qut.edu.au

Course structure
- At least 24 credit points must be taken from postgraduate mathematics units other than MAN200 Mathematical Foundations and/or MAN201 Mathematics.
- Up to 24 credit points can be taken from units other than mathematics units.
- Limit of 36 credit points from project units.

A planned program of study should be decided in consultation with the Course Coordinator. It will take into account the student's background and area of interest within the mathematical sciences. Strands represent areas of the mathematical sciences which may be of interest to students and the units listed under each strand can guide students in developing their planned program. Students will usually select units from one or two strands only. The unit MAN700 project can be used to satisfy the rule requiring at least 24 credit points from postgraduate mathematics units other than MAN200 and/or MAN201.

The following postgraduate mathematics units are available in all strands (subject to the limit on credit points from project units):

MAN200 Mathematical Foundations
MAN201 Mathematics
MAN700 Project
MAN717 Minor Project
MAN787-1 Project
MAN787-2 Project
MAN787-3 Project

To undertake any of the project units, permission from the Course Coordinator is required. If students wish to take any of the above units they will need to discuss their plans and the proposed content with the Course Coordinator.

Strand Information
The following strand information is to assist students with unit selection. Students do not have to enrol in all units listed for a strand. The
prerequisite units are given as a guide. Depending on a student's background, they may have already covered some of the units listed (or equivalent units) in their undergraduate studies. If students have not studied any mathematics for some time, they may need to undertake one or two units prior to commencing those listed in the strand information.

### Mathematical Modelling/Applied Mathematics

**Postgraduate Mathematics Units:**
- MAN761 Analysis
- MAN764 Applied Mathematical Modelling
- MAN774 Perturbation Methods
- MAN777 Mathematics of Fluid Flow

**Prerequisite Units:**
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB413 Differential Equations
- MAB422 Mathematical Modelling
- MAB521 Applied Mathematics 3
- MAB613 Partial Differential Equations
- MAB672 Advanced Mathematical Modelling

### Computational Mathematics

**Postgraduate Mathematics Unit:**
- MAN771 Computational Mathematics 4

**Prerequisite Units:**
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB220 Computational Mathematics 1
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB420 Computational Mathematics 2
- MAB522 Computational Mathematics 3

### Discrete Mathematics

**Postgraduate Mathematics Unit:**
- MAN778 Applications of Discrete Mathematics

**Prerequisite Units:**
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB621 Discrete Mathematics

### Statistics/Statistical Modelling

**Postgraduate Mathematics Units:**
- MAN526 Time Series Analysis
- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN775 Statistical Modelling of Financial Processes

**Prerequisite Units:**
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB314 Statistical Modelling 2
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference

### Quantitative Analysis/Financial Mathematics

**Postgraduate Mathematics Units:**
- MAN526 Time Series Analysis
- MAN624 Applied Statistics
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN769 Mathematics of Finance
- MAN775 Statistical Modelling of Financial Processes

**Prerequisite Units:**
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB312 Linear Algebra
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB524 Statistical Inference
- MAB623 Financial Mathematics

### Operations Research

**Postgraduate Mathematics Units:**
- MAN768 Advanced Techniques in Operations Research

**Prerequisite Units:**
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB315 Operations Research 2
- MAB525 Operations Research 3A
- MAB625 Operations Research 3B

### Scientific Computation and Visualisation

**Postgraduate Mathematics Units:**
- MAN681 Advanced Visualisation and Data Analysis

**Prerequisite Mathematics Units:**
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
MAB112  Mathematical Sciences 1C
MAB281  Mathematics for Computer Graphics
MAB480  Introduction to Scientific Computation
MAB481  Visualisation and Data Analysis

Mathematics for Secondary Teaching

Postgraduate mathematics units:

MAN700  Project
Or other postgraduate mathematics units totalling 24 credit points.
null

Other mathematics units:
Students would usually select across a range of areas of mathematics and statistics.
null

Non-mathematics units:
Students could select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics.

Potential Careers:
Actuary, Mathematician, Quantitative Analyst, Statistician.
Master of Mathematical Science (MA85)

Year offered: 2007
Admissions: Yes
CRICOS code: 046042K
Course duration (full-time): 3 semesters (1.5 years)
Course duration (part-time): 6 semesters (3 years)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February, July or Summer Program
International Entry: February and July
Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Troy Farrell
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have completed an undergraduate degree in any discipline. Students who do not have sufficient background in introductory calculus may be advised to enrol in MA65 Graduate Certificate in Mathematical Sciences first.

Prior to Enrolment
Potential applicants for this course are advised to contact the Course Coordinator prior to submitting their application to discuss their plans. International students in particular, should be aware that full-time enrolment of at least 36 credit points per semester may not be possible. This is due to the need to meet unit prerequisites. Units are not offered externally although units do have varying amounts of on-line material available. Lectures, tutorials and computer-based practicals may be timetabled during the day or early evening.

Career Outcomes
Knowledge and skills in mathematics and/or statistical techniques are increasingly in demand in many different areas. For example, quantitative analysis in the finance area; statistical and mathematical modelling in natural resources and health management; operations research in transport management.

Course Design
The program of study for an individual student will be decided in consultation with the course coordinator and will take into account the student's background and area of interest within the mathematical sciences.

For the Masters program, at least 36 credit points must be taken from postgraduate mathematics units other than Mathematical Foundations and/or Mathematics. Up to 24 credit points can be taken from units other than mathematics units and there is a limit of 48 credit points from project units.

Overview
This course enables graduates from any discipline to develop their knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics, operations research and scientific computation and visualisation. It recognises that students may not have studied mathematics for some time.

Mathematics for Secondary Teaching

Postgraduate mathematics units:

MAN700  Project

Plus at least one other postgraduate mathematics unit (or other combination to give at least 36 credit points from appropriate postgraduate mathematics units)

null

Other mathematics units:

Students would usually select across a range of areas of mathematics and statistics

null

Non-mathematics units:

Students can select up to 24 credit points from units offered by the Faculty of Education related to the teaching of mathematics

Potential Careers:

Actuary, Mathematician, Quantitative Analyst, Statistician.
International Visiting Students (NA05)

Year offered: 2007
Admissions: Yes
CRICOS code: Holders of valid visas
International Fees (per semester): 2007: $2,500 per unit
(subject to annual review)
International Entry: February, July and November
Campus: Gardens Point, Kelvin Grove, Carseldine and External
International Visiting Students (NA06)

Year offered: 2007
Admissions: Yes
CRICOS code: Holders of valid visas only
International Fees (per semester): 2007 AUD$2500 per unit (subject to annual review)
International Entry: February, July and November
Campus: Gardens Point, Kelvin Grove and Carseldine
Bachelor of Applied Science - Medical Radiation Technology (Medical Imaging Technology) (PH38)

Year offered: 2007
Admissions: Yes
CRICOS code: 037588F
Course duration (full-time): 3 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,715
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 418182
Past rank cut-off: 96
Past OP cut-off: 3

Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. PHYSICS: QUT unit Introductory Physics 1H as a visiting student or QUT Continuing Professional Education course Physics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Pam Rowntree
Campus: Gardens Point

Career Opportunities
After graduating from the Medical Imaging Technology major, you may be employed as a medical imaging technologist or diagnostic radiographer. As a radiographer you will play a key role within the health care industry by providing referring medical practitioners with additional diagnostic information to assist in patient management and treatment. You may become a team member in a radiology department in a hospital, private radiology practice or health department, or you may be employed in medical equipment sales.

OP Guarantee
The OP Guarantee does not apply to this program.

Other Majors
See also the separate entry for the following major in this course: Bachelor of Applied Science - Medical Radiation Technology (Radiotherapy Technology).

Special Requirements
Students are required to undertake clinical experience in hospital departments and private practices during the course and, as a result, will have direct patient contact during their clinical placement, and may be exposed to blood and body fluids of patients. Students must be vaccinated for Hepatitis B and must provide a post-vaccination pathological report or similar certification showing proof of immunity, prior to undertaking their first clinical placement. CPR certification is also required to undertake clinical placements.

Other Course Requirements
Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

Professional Recognition
On graduation, students will be eligible for provisional accreditation by the Australian Institute of Radiography. Full membership requires the completion of an additional professional development year of clinical experience.

Why Choose this Course?
QUT is the only university to offer a Medical Imaging Technology degree in Queensland. Excellent employment prospects can be expected as QUT works closely with the health industry to ensure that the number of graduates is in line with industry demand. In recent years, over 95 per cent of graduates have been employed within four months of graduation.

This course is designed in consultation with clinical staff from radiology departments, so you'll gain advanced knowledge of new diagnostic techniques and equipment used in the workplace. QUT's well equipped X-ray laboratories allow you to graduate with experience using equipment and techniques similar to those used in industry. Clinical placements in hospitals and private practices provide an opportunity to use your skills in a real workplace.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply
regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Total credit points: 288
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Pam Rowntree
Discipline coordinator: Cathy Hargrave
Campus: Gardens Point

Career Opportunities
As a graduate, you may be employed as a radiation therapist in a radiotherapy department of a major hospital or private institution. You may become a member of a team which treats cancer and is responsible for planning and delivering prescribed radiation doses.

Additional Entry Requirement
Radiotherapy Technology applicants are required to lodge a questionnaire. The final date to lodge the questionnaire was 30 November. Late submissions will not be accepted and applications for this course have closed.

Fixed Closing Date
Applications for this program closed on 30 November.

OP Guarantee
The OP Guarantee does not apply to this course.

Other Course Requirements
Students in this course should satisfy criteria related to health status. Students must declare height, physical disabilities, treatment of nervous condition and/or drug/alcohol disorder, and a current immunisation status (specifically Hepatitis B) as part of the online enrolment process.

### Potential Careers:
Radiation Therapist.
Graduate Certificate in Applied Science (Breast Ultrasound) (PH60)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters (1 year)
Domestic fees (per credit point): 2007: $110 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $10560
Domestic Entry: February
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Pam Rowntree
Discipline coordinator: Natasha Kazich
Campus: Gardens Point

Entry requirements
To be eligible to enrol, an applicant will normally be qualified as a medical imaging technologist (diagnostic radiographer) at degree or diploma level and have a minimum of two years experience in a clinical medical imaging practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

Applicants with other qualifications and appropriate experience may be permitted to enrol subject to the approval of the Head of School of Physical and Chemical Sciences.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
Students must be employed in a suitable clinical practice with adequate access to clinical experience for the duration of the course. Formal lectures are conducted in an intensive one-week block of classes at the beginning of each semester. Further academic requirements can be met without requiring on-campus attendance. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Overview
The Graduate Certificate in Applied Science (Breast Ultrasound) course offers studies specifically in breast ultrasound techniques. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and sonographers who are interested in an in-depth study of this rapidly developing speciality area of ultrasound.

Potential Careers:
Sonographer.
Graduate Certificate in Lighting (on-shore) (PH62)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters (1 year) (Internal and External)
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: July
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Ian Cowling
Campus: Gardens Point

Overview
The Graduate Certificate in Lighting (PH62) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

Course Design
Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, sustainability issues and human factors.

Contact Details

Course Coordinator
Dr Ian Cowling
Phone: +61 7 3138 2592
Email: i.cowling@qut.edu.au

Course structure - Part-time

Year 1, Semester 2 (July to October)
PCN121 Vision Colour and Photometry
PCN124 Lamps and Luminaires

Year 2, Semester 1 (February to June)
PCN122 Lighting Design
PCN123 Sustainability and Human Factors

NOTES: PH62 is offered part-time comprising a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends.

Domestic students in the Graduate Certificate in Lighting (PH62) will be invited, on successful completion of 48 credit points, to continue with studies in the Graduate Diploma in Lighting (PH72).

International students wishing to change courses should consult International Student Business Services.

Potential Careers:

QUT HANDBOOK 2007 · Page 1646
Graduate Certificate in Lighting (off-shore) (PH63)

Year offered: 2007
Admissions: Yes
Course duration (external): 2 semesters part-time (Hong Kong)
Domestic fees (per credit point): Off-shore Course (subject to annual review)
International Entry: September
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Ian Cowling
Campus: City University of Hong Kong

Overview
The Graduate Certificate in Lighting (PH63) is designed primarily for people working in any area of lighting, whether it be design or application, sales or installation, purpose directed or just entertainment.

The Graduate Certificate in Lighting (PH63) is designed to provide an overview of all aspects of lighting, including light measurement, luminaire design, design of lighting installations, sustainability, daylighting and the human aspects associated with providing good lighting.

The Graduate Diploma (PH73) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH83) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Demonstrated minimum of 3 years of relevant experience in the lighting industry and successful completion of one or more recognised Introductory Courses in Lighting as determined by the Course Coordinator.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit in PH62/PH63 to a maximum of 24 credit points.

Course Design
Graduate Certificate students will undertake four units (12 credit points each) covering the perception, specification and measurement of light, lamp and luminaire design, lighting design, daylighting and the human factors of lighting.

Graduate Diploma in Applied Science (Medical Physics) (PH71)

Year offered: 2007  
Admissions: Yes  
CRICOS code: 020315D  
Course duration (full-time): 2 semesters (1 year)  
Course duration (part-time): 4 semesters (2 years)  
Domestic fees (per credit point): 2007: $130 per credit point (limited CSP places available) Tuition Fee applies after CSP have been filled (subject to annual review)  
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $7,114  
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)  
Domestic Entry: February and July  
International Entry: February and July  
Total credit points: 96  
Standard credit points per full-time semester: 48  
Standard credit points per part-time semester: 24  
Course coordinator: Dr Andrew Fielding  
Campus: Gardens Point

Entry Requirements
Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (e.g., engineering) may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

Course Design
This degree comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

Students who have completed the Graduate Diploma may enter Stage 2 of the Master of Applied Science - PH80 where they undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution.

Professional Recognition
On graduation, students will be eligible for provisional accreditation by the Australian College of Physical Scientists and Engineers in Medicine (ACPSEM).

Overview
The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

Campus: Gardens Point

Entry Requirements
Students will normally be qualified diagnostic radiographers (or medical imaging technologists) at degree or diploma level, and have at least two years experience in clinical practice. Students must give written proof of access to suitable clinical experience for the duration of the course.

Overview
The Graduate Diploma and Master of Applied Science courses offer studies in medical ultrasound. Students are given the scientific basis for understanding, using and evaluating relevant equipment and techniques. The course particularly suits radiographers, medical imaging technologists and nuclear medicine technologists who are interested in an in-depth study of this rapidly developing area.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This degree consists of two stages. Stage 1 (Graduate Diploma - PH71) takes four semesters of part-time study to complete. Students must show that they have access to suitable clinical experience for the duration of Stage 1 before beginning the degree. Lectures are conducted in intensive 4-5 week blocks in each semester. Students undertake clinical experience throughout the semester.

Stage 2 (Master of Applied Science - PH80) involves completion of a research project and submission of a thesis. Students can undertake this project externally under QUT staff supervision on appointment of a suitable external supervisor. This stage takes two semesters part-time to complete after successful completion of Stage 1.

Course structure - Part-time
Students must complete the units listed below (total 96 credit points)

Year 1, Semester 1
- PCN159 Ultrasonic Examination 1
- PCN162 Principles of Medical Ultrasound
- PCN197-1 Clinical Attachment 1

Year 1, Semester 2
- PCN197-2 Clinical Attachment 1
- PCN356 Ultrasonic Examinations 2

Year 2, Semester 1
- PCN297-1 Clinical Attachment 2
- PCN355 Vascular Ultrasound
- PCN357 Advanced Ultrasound Topics

Year 2, Semester 2
- PCN218 Research Methodology and Professional Studies
- PCN297-2 Clinical Attachment 2

NOTES
- The PCN197 and PCN297 clinical attachment units are 2 semester units
- Each clinical attachment unit (ie PCN197 and PCN297) involves clinical experience in the order of 3 days per week or equivalent.

Potential Careers:
Sonographer.
Graduate Diploma in Lighting (on-shore) (PH72)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 4 semesters (2 years) (Internal and External)
Domestic fees (per credit point): Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $7,044
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: July
Total credit points: 96
Standard credit points per part-time semester: 24
Course coordinator: Dr Ian Cowling
Campus: Gardens Point

Overview
The Graduate Diploma in Lighting (PH72) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

The Graduate Certificate in Lighting (PH62) provides an overview of all aspects of lighting, including light measurement, lamp properties and luminaire design, design of lighting installations, daylighting and the human factors associated with lighting.

The Graduate Diploma (PH72) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH82) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements
(a) Bachelor level degree in an appropriate field

OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting or equivalent.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

Course Design
Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality Management.

NOTES: PH72 is offered part-time internally and externally. The course comprises a lecture/tutorial format, and where appropriate practical and field work. Some units will have a significant computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Most units in the internal mode will be offered in block format on weekends. Students enrolling in the external mode will be required to attend QUT for 4 to 5 days per semester for intensive practical and tutorial work.

Domestic students in the Graduate Diploma in Lighting (PH72) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Lighting (PH82).

Students in the Graduate Diploma in Lighting (PH72) wishing to exit with the Graduate Certificate in Lighting (PH62) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

International students wishing to change courses should consult International Student Business Services.

Potential Careers:
Architect, Electrical Contractor, Electrical Engineer, Energy Consultant, Industrial Designer, Landscape Architect, Lighting Designer, Lighting Technician, Luminaire Designer,
Physicist, Sales Person, Scientist, Theatre Lighting.
Graduate Diploma in Lighting (off-shore) (PH73)

Year offered: 2007

Admissions: Yes

Course duration (external): 4 semesters part-time (Hong Kong)

Domestic fees (per credit point): Off-shore Course (subject to annual review)

International Entry: September

Total credit points: 96

Standard credit points per part-time semester: 24

Course coordinator: Dr Ian Cowling

Campus: City University of Hong Kong

Overview

The Graduate Diploma in Lighting (PH73) is designed primarily for people working in all areas of the lighting industry and engineers or architects whose work includes some aspects of lighting.

All students in the Graduate Diploma (PH73) will have undertaken the 4 units of the Graduate Certificate in Lighting (PH63), providing an overview of all aspects of lighting, including light measurement, luminaire design, design of lighting installations, sustainability, daylighting and the human aspects associated with providing good lighting.

The Graduate Diploma (PH73) then provides, through electives, the opportunity for some degree of specialisation appropriate to the student's needs and interests.

Finally the Master of Lighting (PH83) provides the opportunity for graduates of the above programs to undertake a Masters in the form of a project with some coursework.

Entry Requirements

(a) Bachelor level degree in an appropriate field

OR

(b) Successful completion of PH62/PH63 Graduate Certificate in Lighting or equivalent.

Note: Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

Course Design

Graduate Diploma students will undertake 24 credit points (two units) of advanced lighting design and applications studies and two other units (24 credit points) which could include at least one unit in Project Management, Project Cost and Risk Management or Quality.

NOTES: PH73 is offered part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. Except for the fourth semester, the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. In the fourth semester both units will commence at the start of the semester.

Students in the Graduate Diploma in Lighting (PH73) wishing to continue their studies in the Master of Lighting (PH83), on successful completion of 96 credit points, are required to seek admission using an International Student Degree Program Application (F) Form.

Students in the Graduate Diploma in Lighting (PH73) wishing to exit with the Graduate Certificate in Lighting (PH63) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

Potential Careers:

Graduate Diploma in Cardiac Ultrasound (PH75)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): 2007: $110 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $10560
Domestic Entry: February
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Bonita Anderson
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field, and access to suitable clinical experience for the duration of the course.

Students who do not meet the normal entry requirements may be permitted to enrol subject to the approval of the Head of the School of Physical and Chemical Sciences. Applicants should submit as much detail as possible about previous studies and prior learning experiences that may be relevant. In some cases a bridging program may be required.

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Overview
The Graduate Diploma in Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week's duration in each semester, web-based modules and clinical practice modules.

NOTES: The PCN497 and PCN597 clinical attachment units are 2 semester units.
Domestic students in the Graduate Diploma in Cardiac Ultrasound (PH75) will be invited, on successful completion of 96 credit points, to continue with studies in the Master of Cardiac Ultrasound (PH85).

Potential Careers:
Sonographer.
Master of Applied Science (Medical Physics) (PH80)

Year offered: 2007
Admissions: Yes
CRICOS code: 043548G

Course duration (full-time): 3 semesters (1.5 years)
Course duration (part-time): 6 semesters (3 years)

Domestic fees (per credit point): 2007: $130 per credit point (limited CSP places available) Tuition Fees apply after CSP places have been filled (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $12,480; CSP $7,114

International Fees (per semester): 2007:$9,000 per semester (subject to annual review)

Domestic Entry: February and July
International Entry: February and July
Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Andrew Fielding
Campus: Gardens Point

Other Majors
See also the separate entry for the following major in this course: Master of Applied Science (Medical Ultrasound).

Entry Requirements
Applicants must possess an acceptable tertiary course with a major in physics. Applicants with other qualifications (eg engineering may enrol with the approval of the Head of the School of Physical and Chemical Sciences. In some instances, a modified program may be necessary.

Course Design
This degree consists of two stages. Stage 1 (which is equivalent to the Graduate Diploma - PH71) comprises assessed coursework such as advanced lectures, seminars, reading courses or independent study. If undertaken full-time, students will need an average of 14 hours a week of formal contact.

In Stage 2 (Master of Applied Science - PH80) students undertake a program of supervised research and investigation that can be completed at QUT, or in a suitable external institution. Students can graduate with a Graduate Diploma in Medical Physics after satisfactory completion of Stage 1.

Professional Recognition
On graduation, students will be eligible for provisional accreditation by the Australian College of Physical Scientists and Engineers in Medicine (ACPSEM).

Overview
The Graduate Diploma/Master of Applied Science (Medical Physics) deals with well-established and emerging areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences. From this, prospective medical physicists learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Graduates can seek employment in hospitals, health departments, mining companies, tertiary institutions and medical instrumentation companies. Depending on the field of employment, graduates may be known as a medical physicist, health physicist or bio-engineer. Duties as a professional medical physicist include:

- applying electronics, ultrasonics, radiation and computers to clinical and environmental problems
- monitoring the environment to maintain acceptable standards in the workplace and the community
- applying fundamental physical research in development programs
- responsibility for calibration, care and maintenance of instruments and apparatus.

Course structure - First Semester Entry

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

Year 1, Semester 1 (February to June)
- LSB142 Human Anatomy and Physiology
- PCN113 Radiation Physics
- PCN114 Microprocessors and Instrumentation
- PCN211 Physics of Medical Imaging

Year 1, Semester 2 (July to October)
- PCN112 Medical Imaging Science
- PCN212 Radiotherapy
- PCN214 Health and Occupational Physics
- PCN218 Research Methodology and Professional Studies

STAGE 2: (Project units in Stage 2 are offered in all semesters)

Project Over One Semester or Summer Program
PCN520 Project (Full-time)

Project Over Two Semesters
PCN540-1 Project (Part-time)
PCN540-2 Project (Part-time)

NOTE: A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made.
in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

Course structure - Mid-Year Entry

STAGE 1: Students must complete units from the list below, totalling 96 credit points:

First Semester (July to October)
- LSB258 Principles of Human Physiology
- PCN112 Medical Imaging Science
- PCN212 Radiotherapy
- PCN214 Health and Occupational Physics

Second Semester (February to June)
- PCN113 Radiation Physics
- PCN114 Microprocessors and Instrumentation
- PCN211 Physics of Medical Imaging
- PCN218 Research Methodology and Professional Studies

STAGE 2: (Project units in Stage 2 are offered in all semesters)

Project Over One Semester or Summer Program
- PCN520 Project (Full-time)

Project Over Two Semesters
- PCN540-1 Project (Part-time)
- PCN540-2 Project (Part-time)

A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time up to a maximum of six months shall be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made in writing to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit. A student who has received a "Fail" result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

Potential Careers:
Health Physicist, Medical Equipment Sales, Medical Physicist, Medical Scientist.
Master of Applied Science (Medical Ultrasound) (PH80)

It provides the opportunity for graduates of the Graduate Certificate in Lighting (PH63) and the Graduate Diploma in Lighting (PH73) to undertake a Masters in the form of a project with some coursework.

### Entry Requirements

(a) Bachelor level degree in an appropriate field

(b) Successful completion of the PH72/PH73 Graduate Diploma in Lighting or equivalent.

**Note:** Students with relevant experience in the lighting industry or recognised educational qualifications in lighting may be granted credit to a maximum of 36 credit points.

### Course Design

Masters students will undertake a 24 credit point research project, which may be based within their place of employment and two units (24 credit points) of coursework which may be reading topics associated with their project or other electives taken from any relevant units within the University, on approval of the Course Coordinator.

### Contact Details

**Course Coordinator**  
Dr Ian Cowling  
Phone: +61 7 3138 2592  
Email: i.cowling@qut.edu.au

### Course structure - Full-time

| First Semester (September to December) | PCZ121 | Vision Colour and Photometry  
| PCZ123 | Sustainability and Human Factors  
| PCZ124 | Lamps and Luminaires  
| PCZ224 | Applied Lighting |

| Second Semester (January to April) | PCZ122 | Lighting Design |

### Course structure - Part-time

| Third Semester (May to August) | PCZ222 | Advanced Lighting Design  
| PCZ223 | Lighting Applications  
| PCZ320 | Lighting Project |

| Fourth Semester (September to December) | PCZ221 | Best Practices in Lighting  
| PCZ224 | Applied Lighting |

| Fifth Semester (January to April) | PCZ321 | Reading Topic 1  
| Or approved elective | PCZ322 | Reading Topic 2  
| Or approved elective |

| Sixth Semester (May to August) | PCZ320 | Lighting Project |

**NOTE:** PH83 will be offered full-time and part-time in a combination of face-to-face lecture/tutorial/practical format, and on-line. Some units will have a computer-design type component and all units will incorporate learning through assignment work, all of which will be incorporated into the assessment program. For the first three semesters the two units offered each semester will be presented sequentially. The face-to-face teaching component will be offered in block form over a weekend, usually on the first weekend of the teaching period assigned to that unit. There will then be a follow-up face-to-face session about three weekends later. For the fourth and fifth semesters both units will commence together at the start of the semester.

Students in the Master of Lighting (PH83) wishing to exit with the Graduate Certificate in Lighting (PH63) or Graduate Diploma in Lighting (PH73) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.
Potential Careers:
Master of Cardiac Ultrasound (PH85)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 6 semesters (3 years)
Domestic fees (per credit point): 2007: $110 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $10560
Domestic Entry: Stage 1 of this course commences in February and July (students with advanced standing). Stage 2 commences in February and July.
Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Bonita Anderson
Campus: Gardens Point

Entry Requirements
To be eligible to enrol an applicant will normally have a degree or diploma level qualification in a relevant science or allied health field, and access to suitable clinical experience for the duration of the course.

Students who do not meet the normal entry requirements may be permitted to enrol subject to the approval of the Head of the School of Physical and Chemical Sciences. Applicants should submit as much detail as possible about previous studies and prior learning experiences that may be relevant. In some cases a bridging program may be required.

Second semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester*.

* Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Professional Recognition
This course is accredited with the Australasian Sonographer Accreditation Registry (ASAR).

Course Design
This course consists of two stages. Stage 1 (Graduate Diploma in Cardiac Ultrasound - PH75) takes two years of part-time study to complete. Students must be employed in a suitable clinical practice with adequate access to clinical cardiac ultrasound experience for the duration of the course. If students are not based in Brisbane, this structure allows attendance by offering the formal classroom component in an intensive one-week block in each semester.

Stage 2 (Master of Cardiac Ultrasound - PH85) involves the completion of a research project and submission of a thesis. Students can undertake this project internally at QUT, or externally under QUT staff supervision and the guidance of a suitable external supervisor. This stage would normally take one year part-time to complete.

Overview
The Master of Cardiac Ultrasound program offers studies for practicing Cardiac Sonographers. The course is conducted using a combination of block classes of approximately one week's duration in each semester, web-based modules and clinical practice modules.

Contact Details
Course Coordinator
Bonita Anderson
Phone: +61 7 3138 2585
Email: b.anderson@qut.edu.au

Course structure

STAGE 1: To complete Stage 1, students must complete the units listed below (total 96 credit points):

- Year 1, Semester 1
  - LSN259 Cardiac Anatomy, Embryology and Pathology
  - PCN162 Principles of Medical Ultrasound
  - PCN497-1 Clinical Attachment 4

- Year 1, Semester 2
  - PCN259 Cardiac Ultrasound 1
  - PCN497-2 Clinical Attachment 4

- Year 2, Semester 1
  - PCN218 Research Methodology and Professional Studies
  - PCN359 Cardiac Ultrasound 2
  - PCN597-1 Clinical Attachment 5

- Semester 2, Semester 2
  - PCN459 Advanced Cardiac Ultrasound
  - PCN597-2 Clinical Attachment 5

NOTE: The PCN497 and PCN597 clinical attachment units are 2 semester units.

STAGE 2: To complete Stage 2, students must complete the units listed below (48 credit points):

- First Semester ** (Project Over Two Semesters)
  - PCN640-1 Project
  - PCN640-2 Project

NOTE: A student may request an extension of time in which to submit the project report for assessment. A request for an extension of time
up to a maximum of six months should be made in writing through the Head of School to the Dean. Any request for a further extension, or any request for an extension to a date later than six months after the original due date, should be made to the Academic Board. The Academic Board may grant the extension under such conditions as it may consider appropriate, or may award the student a "Fail" result in the project unit.

A student who has received a 'Fail' result in the project unit may re-enrol in the unit only in exceptional circumstances and with the express permission of the Academic Board.

* Masters project units are offered in both semesters.

** Second Semester enrolments for PH85 will only be accepted under the following circumstances:

1. Students who have successfully completed PH75 Graduate Diploma in Cardiac Ultrasound may enrol into the Masters project (PCN640-1) in second semester.

2. Students who have completed the Cardiac DMU and who are eligible to apply for advanced standing may enrol into PH85 in second semester.

# Under university rules and regulations, these students are required to undertake 50% of the coursework for PH85. Therefore, in addition to the Masters project, students will be required to complete two other units (PCN218 Research Methodology and Professional Studies and PCN459 Advanced Cardiac Ultrasound).

Students in the Master of Cardiac Ultrasound (PH85) wishing to exit with the Graduate Diploma in Cardiac Ultrasound (PH75) are required to submit an Application to Graduate Early with an Approved Exit Course (SRX) Form in their final semester of study.

Potential Careers:
Sonographer.
Bachelor of Applied Science (SC01)

Year offered: 2007
Admissions: Yes
CRICOS code: 003502J
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,053
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February and July* (*Gardens Point campus only)
International Entry: February and July
QTAC code: Gardens Point campus: 418011; Dfee: 418016. Carseldine campus: 448021; Dfee: 448026
Past rank cut-off: 72; Dfee: 68
Past OP cut-off: 13; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 288 (minimum)
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Megan Hargreaves
Discipline coordinator: Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); A/Prof Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Glenn Fulford (Mathematics); Dr Christine Knox (Microbiology); Dr Greg Michael (Physics)
Campus: Gardens Point and Carseldine

Campus
This course is offered at Gardens Point and Carseldine campuses. At Carseldine students study the first year and then complete remaining two years at Gardens Point. (Note: the mathematics and physics majors are only available at Gardens Point Campus.)

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended; for the majors in mathematics and physics - Maths C is recommended.

Course Design
The flexibility of QUT's Bachelor of Applied Science allows you to tailor the qualification to your needs and career aspirations. Can you see yourself as a forensic scientist, geologist, chemist, physicist, microbiologist or environmental scientist? Perhaps you would like to be at the forefront of the latest discoveries in genetic engineering, or improve the lives of others by researching new diagnostic techniques and treatments for diseases, or monitor a community's water supply ensuring it is safe to drink. You could even help save an endangered species, investigate renewable energy sources, advise world leaders on the causes and effects of global warming, or discover a new star in a far away galaxy.

You will graduate with specialised knowledge of cutting-edge technologies and extensive practical experience using the latest techniques. You choose your career direction and QUT's Bachelor of Applied Science will set you on the right path by ensuring you are employment-ready when you graduate.

You have a broad range of options to choose from and the flexibility to create your own personal science degree program. If you are not sure of your career direction, don't worry because this decision can be delayed until after you have sampled a range of science disciplines during your first semester of study. QUT staff are available to advise on how best to structure your degree to suit your personal and career aspirations. When you have decided on a preferred career direction, you can be sure that you will graduate with the necessary specialist theoretical knowledge and well-developed practical skills. As QUT courses are designed in close consultation with industry you will receive the relevant professional accreditation when you graduate.

You will choose an area of specialisation (major) from the list below and this will form the basis for your qualification, for example Bachelor of Applied Science (Forensic Science). You will also choose a secondary specialisation (co-major) to complement your major studies. This secondary specialisation may be one of the other majors, a science co-major, or an area outside the science disciplines. Several elective units allow you to broaden your knowledge and skills.

Science Majors, Science Co-majors and Non-Science Co-majors:

Science Majors:
Biochemistry
Biotechnology
Chemistry
Ecology
Environmental Science
Forensic Science*
Geoscience
Mathematics
Microbiology
Physics

* The Forensic Science major must be taken as a double major with another science area eg Chemistry or Biotechnology.

Science Co-majors:
One of the majors listed above or:
Applied Geology
Applied Physics
Applied Physics
Astrophysics
Biodiversity
Biomolecular Sciences
Industrial Chemistry
Scientific Computation and Visualisation
Statistics
Or a non-science co-major

Examples of Non-Science Co-majors:
Accountancy
Aviation
Banking and Finance
Communication
Economics
Environmental Studies
Human Resource Management
Marketing
Psychology

Major Areas of Study

Biochemistry:
Biochemistry is the study of the chemical processes that occur in living organisms including the chemical structure, function and properties and energy flows. Biochemistry is an essential and very successful area of study for many practitioners in the life sciences industry. Biochemistry students at QUT gain both the theoretical knowledge to understand biochemical problems and formulate solutions, and the practical skills to carry out the necessary laboratory investigations that test these solutions for real-world application. Students gain hands-on practical laboratory experience from their first year of study.

Career Opportunities
Strong employment opportunities exist around the world in both the private and government sectors of industry for biochemists. QUT graduates skilled in biochemistry can find career opportunities in research, diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, veterinary pathology laboratories and in the area of marketing, sales, commercialisation and management of biological products and processes.

Professional Recognition
Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology, and possibly the Australasian Association of Clinical Biochemists.

Biotechnology:
Biotechnology is the application of molecular biology and biochemical principles to create a new generation or products and processes for the benefit of society. Biotechnology is one of the fastest growing areas of science and business in the world today. Modern biotechnology uses the techniques of genetic engineering to enable faster, cheaper and more reliable production of an ever-increasing range of engineered products. The integration of biotechnology research into QUT Biotechnology courses ensures that you will receive access to the latest information and hands-on laboratory experience in contemporary molecular technologies. All students receive hands-on practical laboratory experience from your first year of study in Queensland’s newest biotechnology teaching laboratories.

Career Opportunities
Globally and locally the developing biotechnology industry demands highly skilled graduates. As a biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science, molecular farming and bioinformatics; while existing career opportunities in hospitals and diagnostic laboratories continue to expand.

Professional Recognition
Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, and possibly the Australian Society for Medical Research, and the Australian Society for Microbiology.

Chemistry:
Chemistry is the study of the structure, properties, synthesis and reactions of materials. Chemistry is one of the central sciences since its results are used in almost all areas of science - including life sciences, the environment, geosciences, biology, and food science. The Chemistry major at QUT allows you to gain an appreciation of the fundamental discipline - covering physical, organic and inorganic chemistry - but with an additional focus on modern applications such as drug discovery, analytical and environmental chemistry, polymer science and surface science. All theory is complemented with a comprehensive laboratory program, particularly with hands-on experience with modern computer-based analytical instruments.

Career Opportunities
Chemists are key professionals in industries that manufacture goods such as paints, paper, textiles, glass, plastics and rubber, metals and alloys, gases and fuels, foodstuffs and chemicals. Government agencies depend on chemists to develop and monitor standards for meat research, animal health pest control, preservation of timber, environmental chemistry, forensic analysis and coal chemistry. You can expect to find employment as an industrial chemist, material scientist, environmental chemist, quality control analyst, production supervisor, food chemist, organic chemist and inorganic chemist.

Professional Recognition
Students completing the Chemistry major with the Industrial Chemistry or Forensic Science co-major are eligible for membership of the Royal Australian Chemical Institute.

Ecology
Ecology is the study of relationships between organisms and their environment. Ecology helps us to understand the distribution and abundance of organisms. As an applied science it is used to design strategies for the management
of populations of organisms (both natural and commercial). The Ecology major at QUT will allow you to gain a broad range of scientific skills including the specialist techniques required for conserving and managing endangered animals, controlling pests, managing exploited populations and evaluating issues associated with the management of our natural resources.

Career Opportunities
Ecologists find rewarding careers in research science for government departments responsible for pest management, national park and wildlife, primary industries, fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy work. Positions include fisheries biologist, wildlife manager, scientific or technical officer, teacher or lecturer and research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

Professional Recognition
Professional recognition is achieved through a scientific society (ie Ecological Society of Australia) and participation in its meetings.

Environmental Science:
Environmental Science at QUT is the application of fundamental, core science disciplines to problems encountered in the management and understanding of our environment. Studies will allow you to gain both the strong scientific base and the generic skills to apply your scientific knowledge to a wide range of environmental problems. Rather than learning simply to describe the different environmental systems, you will gain an understanding of the mechanisms that control these systems, and the interaction between the various components. All environmental science units include laboratory and fieldwork with an emphasis on problem-solving through project work. You will be introduced to standardised methods and principles for environmental modelling and monitoring that can be applied across all disciplines.

Career Opportunities
Environmental scientists are needed in a wide variety of government departments and agencies, in consultancy and in manufacturing and mining companies. Graduates are equipped to assess resources, design and implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas including strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and development, rehabilitation and reforestation of contaminated land sites, groundwater assessment and modelling, waterway and floodplain drainage planning, erosion control in waterways, and marine science.

Professional Recognition
Graduates are eligible for membership of the Environment Institute of Australia and New Zealand.

Forensic Science
Forensic Science involves the application of chemical and biological principles and laboratory processes to identify and quantify matter within a legal context. Areas that are relevant to forensic science are wide ranging, and include: the detection and identification of illicit drugs, explosive and gunshot residues, accelerants used in arson cases, and trace evidence (eg paint, glass, fibres, soil); DNA profiling, where it is possible to distinguish between individuals on the basis of samples involving blood, saliva, hair or semen; toxicology studies to identify illicit and pharmaceutical drugs and poisons and interpret toxicity levels and their effect on the human body; and fingerprinting.

Career Opportunities
Employment opportunities exist for trained forensic scientists who work in laboratories handling criminal casework in areas including forensic biology, forensic chemistry, and forensic toxicology. QUT graduates in Forensic Science not only receive a strong grounding in core areas of both forensic biology and forensic chemistry but complement their major in Forensic Science with a full major in Biotechnology or Chemistry. This course structure gives QUT Forensic Science graduates an enhanced qualification for careers in either Forensic Biology or Forensic Chemistry. In addition, the second major adds flexibility to future career paths by enabling Forensic Science graduates to gain employment either as a chemist or a biotechnologist if they prefer.

Professional Recognition
Graduates who complete the Forensic Science major in conjunction with the Biotechnology major are eligible for membership of the Australian and New Zealand Forensic Science Society, AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology.

Graduates who complete the Forensic Science major in conjunction with the Chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society and the Royal Australian Chemical Institute.

Geoscience:
Geoscience is the systematic study of the earth and the dynamic interactions of its systems. Geoscience incorporates a study of the materials of the earth, the natural processes acting in and upon the earth, and its history. The Geoscience major at QUT allows you to gain the skills needed to become a professional geologist and emphasises hands-on experience through laboratory work and field studies. It provides a broad range of geological skills as well as training in the specialist techniques required for field mapping and geological interpretation.

Career Opportunities
Geoscientists work in a range of areas including environmental geology, hydrogeology, hazard and pollution control, and coastal zone management. Employment opportunities exist within mining and exploration companies which may involve underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral deposits; petroleum companies working on offshore drilling rigs; and a variety of government
organisations working as field geologists or research scientists. Other graduates work in computing, data modelling, and remote sensing. An honours degree is required by many employers, including the larger mining and exploration companies.

**Professional Recognition**
Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, and the Geological Society of Australia.

**Mathematics:**
This major covers a broad range of mathematics, including computational mathematics, mathematical modelling, statistical modelling, statistics, operations research and financial mathematics. The course focuses on applied mathematics and includes an emphasis on developing communication skills, which are necessary in many workplace situations.

**Career Opportunities**
Mathematicians enjoy a wide range of career options, working for major corporations including banks and insurance companies, industry, information technology companies, consultancy groups, research organisations, universities, schools and various government departments. You will be able to use your mathematical and statistical techniques in analysis, modelling, experimental design and operations research. Employers value the generic skills also gained throughout the degree in problem-solving, analytical thinking, team and independent work, oral and written communication.

**Professional Recognition**
Graduates are eligible for membership of the Australian Mathematical Society, Australian Society for Operations Research and the Statistical Society of Australia.

**Microbiology:**
Microbiology is the study of living organisms of microscopic size. The principal components are bacteriology, virology and mycology, and areas of fundamental importance in the applied sciences of pathology and immunology. You will develop skills and knowledge in the handling and study of micro-organisms and investigation of their properties. Advanced studies allow you to expand your knowledge and expertise in your specialised area such as human pathology, animal and plant diseases, food technologies, environmental testing (soil, air and water) and bioremediation, and molecular applications of microbiological principles.

**Career Opportunities**
Microbiologists are employed in a variety of careers including human pathology testing in bacteriology, immunology, mycology, parasitology and virology, animal and plant disease, treatment of inorganic waste, food fermentations and microbiological testing of goods for pathogens or spoilage organisms, water and soil microbiology and research. Employment opportunities exist in private and government research and analytical laboratories, such as the CSIRO, universities, hospitals, health departments, primary industry departments, food industry laboratories, environmental agencies, and in the marketing of biological products.

**Professional Recognition**
Graduates are eligible for membership of the Australian Society for Microbiology.

**Physics:**
Physics is the science discipline dealing with the natural laws and processes, with the states and properties of matter and energy. Physics also underlies many of the recent advances in information technology, medicine and biotechnology. Areas of specialisation include mechanics, electromagnetism, lasers and modern optics, computational physics, nuclear and radiation physics, quantum mechanics and relativity.

**Career Opportunities**
Physicists are an asset to almost every industry. They are broadly-educated professionals who are trained in applied and experimental physics, instrumentation and a range of other specific methods required for traditional and newly-developed avenues of scientific employment. QUT Physics graduates work in large manufacturing companies, often as members of research and development teams, supervising the testing and production of raw materials and finished articles. Increasing opportunities for graduates with appropriate studies exist in noise measurement and control, environmental monitoring, meteorology, lasers, computing, technical equipment sales, teaching and research. Graduates work in large hospitals and medical institutions such as the Queensland Radium Institute. Broad training in data analysis and problem-solving skills also makes physicists well suited to management roles in a range of technology-based industries.

**Professional Recognition**
Graduates are eligible for membership of the Australian Institute of Physics.

**Co-Major Areas of Study**
**Applied Geology:**
The Applied Geology co-major is designed to complement the Geoscience major. The skills learned through core units in the major are applied to activities related to the petroleum, mineral, hydrogeological and environmental professions. You will learn the specialist techniques required to understand the genesis of ore deposits, set up mineral exploration programs, produce groundwater models, understand the fluid flow in petroleum reservoirs or manage the effects of human activity on the environment.

**Applied Physics:**
The Applied Physics co-major provides an introduction to a number of cutting edge technologies as well as an introduction to some aspects of environmental physics. Topics include nanotechnology, lasers and photonics, digital image processing, mathematical modelling and global energy balance and climate change. Nanotechnology is an emerging field of science in which useful materials, devices
and systems are created by manipulating matter on the very fine scale of atoms and molecules. Photonics is another emerging field; it combines optics and electronics and has spawned such advances as lasers, fibre optics, advanced telecommunications, night-vision equipment, digital cameras and DVDs.

Astrophysics:
The Astrophysics co-major is an exciting blend of astrophysics, geophysics, cosmology, digital image processing and remote sensing units, designed to be taken with a major in Physics, Mathematics or Geoscience. The co-major is relevant to many real-world problems, for example, satellite technology, telecommunications, minerals exploration and global warming. By taking this co-major you will develop interdisciplinary skills in computing, instrumentation, image processing, geodesy and materials science that will be useful for a wide variety of careers in industry and the public sector.

Biodiversity:
Biodiversity has evolved over the last few years as a discipline concerned with the conservation and sustainable use of the earth’s biological diversity. It deals with the components of biological diversity, genes to biomes, and seeks to describe and quantify this diversity, and determine how it is produced and maintained. The Biodiversity co-major is designed to complement both the Ecology and Environmental Science majors. The theme of the co-major is Australian biodiversity. Common threads are the basic biology of the species in Australian ecosystems, the systems they are a part of, and the evolution of these species and ecosystems.

Biomolecular Sciences:
The many and varied disciplines which are characteristic of research and development activities in the life sciences are reflected in employer demand for a broad range of graduates with different specialisations. To accommodate this demand a Biomolecular Sciences co-major is available in the Bachelor of Applied Science. In this co-major, students may compose a combination of six approved units from the Biotechnology, Biochemistry and Microbiology majors. You will benefit from a broad range of biomolecular theory and skills, closely aligned to personal interests, for application in an ever-increasing variety of niche employment opportunities.

Industrial Chemistry:
The Industrial Chemistry co-major is designed to partner the Chemistry major. The emphasis is on analytical chemistry and chemical technology. It aims to familiarise students with state-of-the-art equipment and modern laboratory information systems as well as online monitoring and control of industrial processes. The co-major is well recognised by employers in industrial, hospital and sports laboratories, by food and pharmaceutical producers and by instrument manufacturers as well as research organisations. Graduates from this program can look forward to a rewarding career commencing employment as a chemist and then moving through an organisation in supervisory and managerial capacities. A number of industry-sponsored bursaries are available each year for students enrolled in the Chemistry major/Industrial Chemistry co-major.

Scientific Computation and Visualisation:
Scientific Computation and Visualisation techniques involving high performance computing are increasingly being used for research and innovation. Examples include the creation of new pharmaceuticals, exploration for minerals, virtual mining, stress analysis of proposed designs for new plants or vessels, and improved image recognition or analysis. Within this co-major, students bring together skills and knowledge from programming, mathematics and statistics into a practical, problem-solving approach to applications within science and other areas.

Statistics:
Statistics is multidisciplinary and involves data collection in an appropriate format, analysis of data and using data to make predictions. Biostatistics involves decision making in health and clinical situations, for example, improving health care by applying statistical quality control or assisting farmers to maximise yield using GPS technology.

Professional Recognition

Industrial Internship Program
A registered student who has successfully completed the equivalent of the first and second year of the standard full-time course, normally with a grade point average (GPA) of not less than 4.5 overall, may, at the discretion of the Industrial Internship Coordinator, apply to undertake the Industrial Internship Program.

This program involves 10-12 months of paid full-time employment in an approved industrial/commercial environment during which time the student is enrolled in the unit SCB100 Cooperative Education. On completion of the approved industrial internship placement the student resumes formal studies.

### First Level Units - Semester 2

**MANDATORY UNIT:**  
NRB270 Animal and Plant Structure and Function

**OPTIONAL UNITS:**  
LSB238 Cell and Molecular Biology 1  
MAB101 Statistical Data Analysis 1  
NRB240 History of Life on Earth

### Second Level Units - Semester 1

**MANDATORY UNITS:**  
NRB301 Earth Surface Systems  
NRB311 Population Ecology  
NRB370 Invertebrate Biology  
NRB371 Plant Biology  
Plus TWO other units selected according to the comajor requirements

### Second Level Units - Semester 2

**MANDATORY UNITS:**  
NRB412 Experimental Design  
NRB440 Environmental Chemistry  
Plus TWO other units selected according to the comajor requirements

### Third Level Units - Semester 1

**MANDATORY UNITS:**  
NRB500 Environmental Systems and Modelling  
NRB601 Field Mapping and Monitoring of Natural Resources  
Plus TWO other units selected according to the comajor requirements

### Third Level Units - Semester 2

**MANDATORY UNITS:**  
NRB501 Spatial Analysis of Environmental Systems  
NRB600 Sustainable Environmental Management  
Plus TWO other units selected according to the comajor requirements

### Recommended Comajors:

Biodiversity, Ecology, Geoscience

---

### Course structure - Major in Forensic Science

**Note:** Must be taken as a double major with Biochemistry, Biotechnology, Chemistry or Microbiology

### First Level Units - Semester 1

**MANDATORY UNITS:**  
LSB118 Life Science

### Second Level Units - Semester 1

**MANDATORY UNITS:**  
LSB238 Cell and Molecular Biology 1  
NRB270 Animal and Plant Structure and Function  
PCB242 Chemistry 2  
Plus ONE other unit, for example:  
LSB258 Principles of Human Physiology  
MAB101 Statistical Data Analysis 1  
PYB012 Psychology

### Second Level Units - Semester 2

**MANDATORY UNITS:**  
JSB979 Forensic Scientific Evidence  
LSB468 Molecular Biology  
PCB414 Industrial and Environmental Analytical Chemistry  
SCB384 Forensic Science  
Plus ONE or TWO other units selected according to the second-major requirements

### Third Level Units - Semester 1

**MANDATORY UNITS:**  
PCB514 Instrumental Analysis  
PCB584 Forensic Examination of Physical Evidence  
Plus TWO other units selected according to the second-major requirements

### Third Level Units - Semester 2

**MANDATORY UNITS:**  
LSB684 Forensic DNA Profiling  
PCB684 Forensic Analysis and Toxicology  
Plus TWO other units selected according to the second-major requirements

---

### Course structure - Major in Geoscience
First Level Units - Semester 1

MANDATORY UNITS:
- MAB101 Statistical Data Analysis 1
- NRB100 Environmental Science
- NRB230 Planet Earth
- PCB101 Physical Science

First Level Units - Semester 2

MANDATORY UNITS:
- MAB100 Mathematical Sciences 1A
- NRB240 History of Life on Earth
- PCB142 Chemistry 1
- Plus ONE other unit, for example:
- SCB222 Exploration of the Universe

Second Level Units - Semester 1

MANDATORY UNITS:
- NRB301 Earth Surface Systems
- NRB333 Mineralogy
- NRB331 Sedimentary Geology

Second Level Units - Semester 2

MANDATORY UNITS:
- NRB434 Structural Geology
- NRB436 Introduction to Igneous and Metamorphic Petrology
- NRB437 Stratigraphy and Depositional Environments

Third Level Units - Semester 1

MANDATORY UNITS:
- NRB534 Geophysics
- NRB536 Petrology and Geochemistry
- NRB601 Field Mapping and Monitoring of Natural Resources
- NRB535 Geology of Fossil Fuels and Minerals

Third Level Units - Semester 2

ONE OF:
- NRB633 Hydrogeology
- NRB635 Plate Tectonics and Advanced Structural Geology
- NRB636 Petroleum Geology and Basin Analysis
- PSB655 Remote Sensing

Plus THREE other units selected according to the comajor requirements

Recommended Comajors:
- Applied Geology, Environmental Science

Course structure - Major in Mathematics

First Level Units - Semester 1

MANDATORY UNITS:
- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- PLUS ONE OR TWO OF FOUNDATION UNITS:
  - LSB118 Life Science
  - NRB100 Environmental Science
  - PCB101 Physical Science

First Level Units - Semester 2

MANDATORY UNITS:
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1
- PLUS ONE OR TWO OF FOUNDATION UNITS:
  - LSB118 Life Science
  - PCB101 Physical Science

Second Level Units - Semester 1

NOTE: Select 96 credit points of advanced level units from Levels 2 and 3. Students must complete at least one of MAB311, MAB312 or MAB413

OPTIONAL UNITS:
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
- MAB313 Mathematics of Finance
- MAB314 Statistical Modelling 2
- MAB481 Visualisation and Data Analysis

Second Level Units - Semester 2

OPTIONAL UNITS:
- MAB315 Operations Research 2
- MAB413 Differential Equations
- MAB414 Applied Statistics 2
- MAB420 Computational Mathematics 2
- MAB422 Mathematical Modelling
- MAB480 Introduction to Scientific Computation

Third Level Units - Semester 1

OPTIONAL UNITS:
- MAB521 Applied Mathematics 3
- MAB522 Computational Mathematics 3
MAB523 Introduction to Quality Management
MAB525 Operations Research 3A
MAB526 Statistical Science 3
MAB580 Scientific Computation
MAB672 Advanced Mathematical Modelling

Third Level Units - Semester 2

OPTIONAL UNITS:
MAB613 Partial Differential Equations
MAB621 Discrete Mathematics
MAB623 Financial Mathematics
MAB624 Applied Statistics 3
MAB625 Operations Research 3B
MAB681 Advanced Visualisation and Data Analysis

Recommended Comajors:
Maths, Physics, Statistics, Scientific Computation and Visualisation

Course structure - Major in Microbiology

First Level Units - Semester 1

MANDATORY UNIT:
LSB118 Life Science
MAB101 Statistical Data Analysis 1
PLUS EITHER:
PCB140 Introductory Chemistry
Or
PCB142 Chemistry 1
Plus ONE other unit, for example:
MAB105 Preparatory Mathematics
NRB100 Environmental Science
PCB101 Physical Science

First Level Units - Semester 2

MANDATORY UNITS:
LSB238 Cell and Molecular Biology 1
PCB242 Chemistry 2
OPTIONAL UNIT:
NRB270 Animal and Plant Structure and Function
Plus ONE other unit, for example:
LSB258 Principles of Human Physiology
MAB101 Statistical Data Analysis 1
PYB012 Psychology

Second Level Units - Semester 1

MANDATORY UNITS:
LSB308 Biochemistry
LSB328 Microbiology 1
Plus TWO other units selected according to the comajor requirements

Second Level Units - Semester 2

MANDATORY UNIT:
LSB428 Microbiology 2
PLUS EITHER:
LSB408 Metabolism
Or
LSB468 Molecular Biology
Or
LSB469 Introduction to Genomics and Bioinformatics
Plus TWO other units selected according to the comajor requirements

Third Level Units - Semester 1

Select TWO units from:
LSB528 Environmental Microbiology
LSB547 Bacterial Pathogenesis and Disease Diagnosis
LSB568 Electron Microscopy
LSB578 Virology
Plus TWO other units selected according to the comajor requirements

Recommended Comajors:
Biochemistry, Biomolecular Sciences, Biotechnology, Forensic Science

Course structure - Major in Physics

First Level Units - Semester 1

MANDATORY UNITS:
MAB111 Mathematical Sciences 1B
PCB101 Physical Science
OPTIONAL UNITS:
PCB107 Physics and Quantitative Techniques
Plus either:
LSB118 Life Science
Or
NRB100 Environmental Science

First Level Units - Semester 2

MANDATORY UNITS:
MAB112 Mathematical Sciences 1C
PCB250 Physics 1
PCB260 Physics 1A
Select ONE other unit
### Course structure - Comajor in Applied Geology

**First Level Units**
- First year units as for Geoscience major

**Second Level Units**
- **ENVIRONMENTAL GEOLOGY EMPHASIS**
  - NRB331 Sedimentary Geology
  - NRB437 Stratigraphy and Depositional Environments
  - NRB440 Environmental Chemistry
  - EXPLORATION GEOLOGY EMPHASIS
    - NRB331 Sedimentary Geology
    - NRB437 Stratigraphy and Depositional Environments
    - NRB440 Environmental Chemistry

**Third Level Units**
- **ENVIRONMENTAL GEOLOGY EMPHASIS**
  - NRB501 Spatial Analysis of Environmental Systems
  - NRB633 Hydrogeology

**Recommended Majors:**
This comajor is recommended for Physics majors

### Course structure - Comajor in Astrophysics

**First Level Units**
- First year units as for Physics major, plus SCB222 Exploration of the Universe

**Second Level Units**
- PCB469 Astrophysics 1
- PCB563 Global Energy Balance and Climate Change

**Third Level Units**
- MAB312 Linear Algebra
- PCB593 Digital Image Processing
- PCB669 Astrophysics 2
- PCB669 Astrophysics 2

**Recommended Majors:**
This comajor is recommended for Physics majors

### Course structure - Comajor in Biodiversity

**First Level Units**
- First year units as for Ecology major

**Second Level Units**
- ENVIRONMENTAL GEOLOGY EMPHASIS
  - NRB501 Spatial Analysis of Environmental Systems
  - NRB633 Hydrogeology

**Recommended Majors:**
This comajor is recommended for Ecology majors

### Course structure - Comajor in Applied Physics

**First Level Units**
- First year units as for Physics major, plus ITB111 Software Development

**Second Level Units**
- PCB445 Nanotechnology and Nanoscience
- PCB563 Global Energy Balance and Climate Change

**Third Level Units**
- MAB312 Linear Algebra
- PCB593 Digital Image Processing
- PCB664 Lasers and Photonics

**Recommended Majors:**
This comajor is recommended for Physics majors
Second Level Units
LSB397  Plant Physiology
Or
NRB501  Spatial Analysis of Environmental Systems
NRB370  Invertebrate Biology
NRB371  Plant Biology
NRB470  Vertebrate Biology

Third Level Units
NRB572  Terrestrial Ecosystems
NRB672  Marine and Freshwater Ecosystems

Recommended Majors:
This comajor is recommended for Ecology majors

Course structure - Comajor in Biomolecular Sciences
First Level Units
First year units as for Life Science majors
Second and Third Level Units
Six (6) approved units chosen from advanced level Life Science units. May include Physiology units: LSB358, LSB458, LSB558 and LSB658.

Recommended Majors:
This comajor is recommended for Life Science majors

Course structure - Comajor in Industrial Chemistry
First Level Units
First year units as for Chemistry major, but including PCB200 Chemical Technology 1
Second Level Units
PCB314  Concepts in Analytical Chemistry
PCB414  Industrial and Environmental Analytical Chemistry
Third Level Units
PCB514  Instrumental Analysis
PCB524  Unit Operations
PCB614  Advanced Analysis
PCB624  Chemistry in Industry and Technology

Recommended Majors:
This comajor is recommended for Chemistry majors

Course structure - Comajor in Scientific Computation and Visualisation
First Level Units
First year units as for Maths major, except do not need MAB210 Statistical Modelling 1. Recommended: MAB112 Mathematical Sciences 1C
Second Level Units
MAB480  Introduction to Scientific Computation
MAB481  Visualisation and Data Analysis
Third Level Units
MAB681  Advanced Visualisation and Data Analysis

Recommended Majors:
This comajor is recommended for Mathematics or Physics majors (others please see coordinator)

Course structure - Comajor in Statistics
First Level Units
MAB100  Mathematical Sciences 1A
Or
MAB101  Statistical Data Analysis 1
MAB111  Mathematical Sciences 1B
MAB112  Mathematical Sciences 1C
Second Level Units
MAB210  Statistical Modelling 1
MAB414  Applied Statistics 2
Third Level Units
Plus four approved advanced level Mathematics units

Recommended Majors:
This major is recommended for most other majors, particularly Mathematics, Physics and Ecology

Course structure - Additional Comajors - you may choose your comajor from one of the Majors
Biochemistry
LSB308  Biochemistry
LSB408  Metabolism
LSB508  Advanced Metabolism
LSB608  Protein Science
Plus TWO approved units

Biotechnology
LSB308  Biochemistry
LSB338  Cell and Molecular Biology 2
LSB468  Molecular Biology
LSB537  Genetic Engineering
LSB408  Metabolism
Or
Suitable aviation studies (an approved Associate Diploma in aviation or equivalent) can be accepted as a comajor within the Bachelor of Applied Science course SC01. A total of 96 credit points can be credited for the aviation studies; this is based on 72 credit points for the comajor plus an additional 24 credit points generally required to underpin a comajor.

In the BAppSc with aviation, students can either (a) study for the BAppSc degree and the aviation Associate Diploma concurrently, or (b) obtain credit for the SC01 course for an approved Associate Diploma in aviation that had been completed prior to gaining entry to the SC01 course.

(a) Students who wish to study for the BAppSc and the aviation Associate Diploma concurrently are required to apply to an accredited flying school or TAFE college for entry to the Associate Diploma. The aviation studies are undertaken at the same time as the SC01 course. This joint program generally requires at least four years.

(b) Students who have already completed an approved Associate Diploma prior to admission to the SC01 course will be granted 96 credit points towards the BAppSc degree.

Course structure - Non-Science Comajors (subject to timetable restrictions)

For comajors in humanities, business, IT or Psychology, please consult with your major coordinator, or the Course Coordinator, Dr Megan Hargreaves (phone 3138 2244 or email m.hargreaves@qut.edu.au)

Potential Careers:
Bachelor of Applied Science (Carseldine First-year Experience Program) (SC01)

Year offered: 2007
Admissions: Yes
CRICOS code: 003502J
Course duration (full-time): 1 year at Carseldine and then 2 years at Gardens Point
Course duration (part-time): 2 years at Carseldine and then 4 years at Gardens Point
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,053
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 448021; Dfee: 448026
Past rank cut-off: 68; Dfee: 68
Past OP cut-off: 15; Dfee: 15
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Megan Hargreaves
Discipline coordinator: Dr Habib Yezdani (Science Carseldine Coordinator); Dr Perry Hartfield (Biochemistry); Dr Marion Bateson (Biotechnology); Dr Dennis Arnold (Chemistry); Dr Ian Williamson (Ecology); Dr Robin Thwaites (Environmental Science); Dr Serge Kokot (Forensic Science); Dr Gregg Webb (Geoscience); Dr Christine Knox (Microbiology)
Campus: Carseldine

null

All major areas of study in the Bachelor of Applied Science are available at Gardens Point campus. However, the opportunity also exists for students to undertake the first year program at Carseldine Campus.*

The first year core units in the Bachelor of Applied Science develop a strong basis on which the more advanced units in each of the major areas of study are based. First year units include laboratory and fieldwork, with an emphasis on problem-solving through project work.

A relaxed bushland setting at Carseldine Campus provides an ideal environment for students to make the transition to university. Small class sizes, block teaching and access to computer-based information resources ensure that students have the opportunity to gain maximum advantage from QUT's winning blend of theory and practice. On-campus parking is available and the campus is well serviced by bus and rail.

Upon successful completion of the first year at Carseldine, students are transferred to Gardens Point campus to completed the course.

For further details of the major areas of study offered, see the Bachelor of Applied Science (SC01) course offered at Gardens Point Campus

*Students intending to select a major in Mathematics or Physics are not able to complete a suitable first year program at Carseldine campus and should apply for entry to the SC01 Bachelor of Applied Science at Gardens Point Campus.

Recommended Study:
At least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended; for the major in Mathematics - Maths C is recommended.

Major Areas of Study

Biochemistry:
Biochemistry is the study of the chemical processes that occur in living organisms including the chemical structure, function and properties and energy flows. Biochemistry is an essential and very successful area of study for many practitioners in the life sciences industry. Biochemistry students at QUT gain both the theoretical knowledge to understand biochemical problems and formulate solutions, and the practical skills to carry out the necessary laboratory investigations that test these solutions for real-world application. Students gain hands-on practical laboratory experience from their first year of study.

Career Opportunities
Many employment opportunities exist around the world in both the private and government sectors of industry for biochemists. QUT graduates skilled in biochemistry can find career opportunities in research, diagnostic and analytical laboratories, universities, hospitals and health departments, pharmaceutical companies, primary and agricultural industries and departments, food industry laboratories, environmental agencies, veterinary pathology laboratories and in the area of marketing, sales, commercialisation and management of biological products and processes.

Professional Recognition
Graduates are eligible for membership of the Australian Society for Biochemistry and Molecular Biology, and possibly the Australasian Association of Clinical Biochemists.

Biotechnology:
Biotechnology is the application of molecular biology and biochemical principles to create a new generation or products and processes for the benefit of society.
Biotechnology is one of the fastest growing areas of science and business in the world today. Modern biotechnology uses the techniques of genetic engineering to enable faster, cheaper and more reliable production of an ever-increasing range of engineered products. The integration of biotechnology research into QUT Biotechnology courses ensures that you will receive access to the latest information and hands-on laboratory experience in contemporary molecular technologies. All students receive hands-on practical laboratory experience from their first year of study in Queensland’s newest biotechnology teaching laboratories.

**Career Opportunities**
Globally and locally the developing biotechnology industry demands highly skilled graduates. As a biotechnology graduate you will have a wide range of exciting career opportunities available to you across a number of existing and emerging global industries. New career opportunities include nanotechnology, proteomics, materials science, molecular farming and bioinformatics; while existing career opportunities in hospitals and diagnostic laboratories continue to expand.

**Professional Recognition**
Graduates are eligible for membership of AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, and possibly the Australian Society for Medical Research, and the Australian Society for Microbiology.

**Chemistry:**
Chemistry is the study of the structure, properties, synthesis and reactions of materials. Chemistry is one of the central sciences since its results are used in almost all areas of science - including life sciences, the environment, geosciences, biology, and food science. The Chemistry major at QUT allows you to gain an appreciation of the fundamental discipline - covering physical, organic and inorganic chemistry - but with an additional focus on modern applications such as drug discovery, analytical and environmental chemistry, polymer science and surface science. All theory is complemented with a comprehensive laboratory program, particularly with hands-on experience with modern computer-based analytical instruments.

**Career Opportunities**
Chemists are key professionals in industries that manufacture goods such as paints, paper, textiles, glass, plastics and rubber, metals and alloys, gases and fuels, foodstuffs and chemicals. Government agencies depend on chemists to develop and monitor standards for meat research, animal health pest control, preservation of timber, environmental chemistry, forensic analysis and coal chemistry. You can expect to find employment as an industrial chemist, material scientist, environmental chemist, quality control analyst, production supervisor, food chemist, organic chemist and inorganic chemist.

**Professional Recognition**
Graduates are eligible for membership of the Royal Australian Chemical Institute.

**Ecology**
Ecology is the study of relationships between organisms and their environment. Ecology helps us to understand the distribution and abundance of organisms. As an applied science it is used to design strategies for the management of populations of organisms (both natural and commercial). The Ecology major at QUT will allow you to gain a broad range of scientific skills including the specialist techniques required for conserving and managing endangered animals, controlling pests, managing exploited populations and evaluating issues associated with the management of our natural resources.

**Career Opportunities**
Ecologists find rewarding careers in research science for government departments responsible for pest management, national park and wildlife, primary industries, fisheries, forestry and museums. They also find work in private firms engaged in research and consultancy work. Positions include fisheries biologist, wildlife manager, scientific or technical officer, teacher or lecturer and research scientist. Employment in more specialised areas is available, usually requiring study beyond the first degree.

**Professional Recognition**
Professional recognition is achieved through a scientific society (e.g. Ecological Society of Australia) and participation in its meetings.

**Environmental Science:**
Environmental Science at QUT is the application of fundamental, core science disciplines to problems encountered in the management and understanding of our environment. Studies will allow you to gain both the strong scientific base and the generic skills to apply your scientific knowledge to a wide range of environmental problems. Rather than learning simply to describe the different environmental systems, you will gain an understanding of the mechanisms that control these systems, and the interaction between the various components. All environmental science units include laboratory and fieldwork with an emphasis on problems-solving through project work. You will be introduced to standardised methods and principles for environmental modelling and monitoring that can be applied across all disciplines.

**Career Opportunities**
Environmental scientists are needed in a wide variety of government departments and agencies, in consultancy and in manufacturing and mining companies. Graduates are equipped to assess resources, design and implement environmental impact programs, analyse and interpret environmental data and formulate contingency plans in a wide variety of areas including strategic land-use planning, waste disposal, pollution measurement and control, coastal protection, environmental impact of mining, tourism and development, rehabilitation and reforestation of contaminated land sites, groundwater assessment and modelling, waterway and floodplain drainage planning, erosion control in waterways, and marine science.
Geoscience: Geoscience is the systematic study of the earth and the dynamic interactions of its systems. Geoscience incorporates a study of the materials of the earth, the natural processes acting in and upon the earth, and its history. The Geoscience major at QUT allows you to gain the skills needed to become a professional geologist and emphasises hands-on experience through laboratory work and field studies. It provides a broad range of geological skills as well as training in the specialist techniques required for field mapping and geological interpretation.

Career Opportunities
Geoscientists work in a range of areas including environmental geology, hydrogeology, coastal zone management, hazard and pollution control, and resource exploration. Employment opportunities exist within mining and exploration companies which may involve underground geological mapping, evaluation of ore reserves, production control, or exploration for new mineral deposits; petroleum companies working on offshore drilling rigs; and a variety of government organisations working as field geologists or research scientists. Other graduates work in computing, data modelling, and remote sensing. An honours degree is required by many employers, including the larger mining and exploration companies.

Professional Recognition
Graduates are eligible for membership of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, and the Geological Society of Australia.

Forensic Science
Forensic Science involves the application of chemical and biological principles and laboratory processes to identify and quantify matter within a legal context. Areas that are relevant to forensic science are wide ranging, and include: the detection and identification of illicit drugs, explosive and gunshot residues, accelerants used in arson cases, and trace evidence (e.g. paint, glass, fibres, soil); DNA profiling, where it is possible to distinguish between individuals on the basis of samples involving blood, saliva, hair or semen; toxicology studies to identify illicit and pharmaceutical drugs and poisons and interpret toxicity levels and their effect on the human body; and fingerprinting.

Career Opportunities
Employment opportunities exist for trained forensic scientists who work in laboratories handling criminal casework in areas including forensic biology, forensic chemistry, and forensic toxicology. QUT graduates in Forensic Science not only receive a strong grounding in core areas of both forensic biology and forensic chemistry but complement their major in Forensic Science with a full major in either Biotechnology or Chemistry. This course structure gives QUT Forensic Science graduates an enhanced qualification for careers in either forensic biology or forensic chemistry. In addition, the second major adds flexibility to future career paths by enabling Forensic Science graduates to gain employment either as a chemist or a biotechnologist if they prefer.

Professional Recognition
Graduates who complete the Forensic Science major in conjunction with the Biotechnology major are eligible for membership of the Australian and New Zealand Forensic Science Society, AusBiotech Ltd, and the Australian Society for Biochemistry and Molecular Biology.

Graduates who complete the Forensic Science major in conjunction with the Chemistry major are eligible for membership of the Australian and New Zealand Forensic Science Society and the Royal Australian Chemical Institute.

Microbiology: Microbiology is the study of living organisms of microscopic size. The principal components are bacteriology, virology and mycology, and areas of fundamental importance in the applied sciences of pathology and immunology. You will develop skills and knowledge in the handling and study of micro-organisms and investigation of their properties. Advanced studies allow you to expand your knowledge and expertise in your specialised area such as human pathology, animal and plant diseases, food technologies, environmental testing (soil, air and water) and bioremediation, and molecular applications of microbiological principles.

Career Opportunities
Microbiologists are employed in a variety of activities including human pathology testing in bacteriology, immunology, mycology, parasitology and virology, animal and plant disease, treatment of inorganic waste, food fermentations and microbiological testing of goods for pathogens or spoilage organisms, water and soil microbiology and research. Employment opportunities exist in private and government research and analytical laboratories, such as the CSIRO, universities, hospitals, health departments, primary industry departments, food industry laboratories, environmental agencies, and in the marketing of biological products.

Professional Recognition
Graduates are eligible for membership of the Australian Society for Microbiology.

Professional Recognition
For graduates with approved study: Australian Society for Biochemistry and Molecular Biology, Australasian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Royal Australian Chemical Institute, Ecological Society of Australia, Environment Institute of Australia and New Zealand, Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists, Geological Society of Australia, Australian Society for Microbiology.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Semester 1

<table>
<thead>
<tr>
<th>Four units from:</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSB118 Life Science</td>
</tr>
<tr>
<td>MAB105 Preparatory Mathematics</td>
</tr>
<tr>
<td>NRB100 Environmental Science</td>
</tr>
<tr>
<td>PCB101 Physical Science</td>
</tr>
<tr>
<td>PCB140 Introductory Chemistry</td>
</tr>
</tbody>
</table>

**NOTE:** MAB105 should be substituted for either NRB100 or PCB101 if you have not attained an SA or greater for Senior Maths B

### Semester 2

<table>
<thead>
<tr>
<th>Four units from:</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSB238 Cell and Molecular Biology 1</td>
</tr>
<tr>
<td>MAB101 Statistical Data Analysis 1</td>
</tr>
<tr>
<td>NRB230 Planet Earth</td>
</tr>
<tr>
<td>NRB270 Animal and Plant Structure and Function</td>
</tr>
<tr>
<td>PCB242 Chemistry 2</td>
</tr>

**NOTE:** Select NRB230 if you plan to major in Geoscience

**Potential Careers:**

Bachelor of Applied Science & Bachelor of Applied Science (Honours) - Dean's Scholars Accelerated Honours Program (SC01 + SC60)

Year offered: 2007
Admissions: Yes
CRICOS code: 003502J
Course duration (full-time): 3 Years (plus initial summer term)

Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20160
International Fees (per semester): 2007: $10,500 per semester (subject to annual review)

QTAC code: 418042
Past rank cut-off: 99 plus successful interview. Please refer to Additional Entry Requirements.
Past OP cut-off: 1 plus successful interview. Please refer to Additional Entry Requirements.
Assumed knowledge: English (4, SA) and Maths B (4, VHA) plus two (2) of Biological Science, Chemistry, Earth Science, Maths C or Physics (4, VHA)
Total credit points: 384 [BAppSc 288 cp and BAppSc(Hons) 96 cp]

Course coordinator: Associate Professor Bruce Cornish
Discipline coordinator: Associate Professor John Aaskov (Life Sciences); Dr Graeme Pettet (Mathematics); Associate Professor David Gust (Natural Resource Sciences); Dr John McMurtrie (Physical and Chemical Sciences - Chemistry); Dr Dmitri Gramotnev (Physical and Chemical Sciences - Physics)
Campus: Gardens Point

null

The Dean's Scholars Accelerated Honours Program is an accelerated program designed specifically for outstanding current, or returning from a gap year, Year 12 students who completed their Year 12 education in Australia. It also offers an accelerated pathway that enables students to complete both the Bachelor of Applied Science and the Bachelor of Applied Science (Honours) courses in just three years. A scholarship is offered to students in the Dean's Scholars Accelerated Honours Program. Students are accepted into the program on the basis of outstanding academic ability and an interest in scientific research.

Additional Entry Requirements
Successful interview.

Applicants will be sent interview information by QUT Faculty of Science progressively from late October.

Fixed Closing Date
Applications for this program will close on 30 November.

Professional Recognition
As a graduate of the Dean's Scholars Accelerated Honours Program you will qualify for professional recognition and employment in fields relevant to the specialisations that you have chosen. It is expected that many Dean's Scholars will proceed to Doctor of Philosophy studies.

Scholarships
Students who are accepted into the Dean's Scholars Honours Program are eligible for a $9,000 scholarship paid over three years.

Career Outcomes
As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the following ten majors. You will also choose a co-major to accompany your major area of study. The co-major may be one of the other majors, or it could be one of the co-majors listed below:

Course Structure
As a student in the Dean's Scholars Accelerated Honours Program you will choose one of the majors available through the Bachelor of Applied Science (SC01) course. You will also choose a co-major to accompany your major area of study.

To allow the Dean's Scholars Program to be completed in an accelerated format some changes are made to the first year of the standard Bachelor of Applied Science (SC01) degree. The core units normally studied in first year are replaced by an enriched course of study which includes the following units:

SCB301 Science for Dean's Scholars
An intensive preparatory program immediately preceding the commencement of the first semester. This preparatory program commences mid-January and requires attendance for approximately 18 hours per week for six weeks.

SCB303 Tutorial Program for Dean's Scholars
An individually-tailored tutorial program during the first semester, under the guidance of an academic mentor. This unit is designed in a consultative process involving the student, the academic mentor, and the Dean.

SCB401 Research Methods for Dean's Scholars
The unit allows research skills to be developed through a literature review, experimental design considerations, research proposal formulation and writing, and the presentation of a research proposal.

SCB501 Research Project for Dean's Scholars
An individually tailored research project is carried out under the supervision of a research mentor.

Honours Program
Following the successful completion of the coursework and your initial research project in the first two years of the program, you will then commence the Bachelor of Applied Science (Honours) course. The Honours program continues the study of your chosen scientific major and also provides the opportunity to undertake a large research project. The Honours degree provides an excellent preparation to continue onto postgraduate research.

OP Guarantee
The OP Guarantee does not apply to this course.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Course structure - Majors in Biochemistry, Biotechnology and Microbiology

Year 1, Summer Term (24 cp)
Dean's Scholars Program enrichment unit:
SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)
Dean's Scholars Program enrichment unit:
SCB303 Tutorial Program for Dean's Scholars
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)

Year 1, Semester 2 (60 cp)
Dean's Scholars Program enrichment unit:
SCB401 Research Methods for Dean's Scholars
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)

Year 2, Semester 1 (72 cp)
Dean's Scholars Program enrichment unit:
SCB501-1 Research Project for Dean's Scholars
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)

Year 2, Semester 2 (60 cp)
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)
Normal BAppSc and BAppSc(Hons) unit:
LSB657 Perspectives in Life Science

Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)
Normal BAppSc and BAppSc(Hons) units:
BAppSc + BAppSc(Hons) Coursework (12cp + 36 cp respectively)
Normal BAppSc and BAppSc(Hons) units:
BAppSc(Hons) Research (60 cp)

Course structure - Major in Chemistry

Year 1, Summer Term (24 cp)
Dean's Scholars Program enrichment unit:
SCB301 Science for Dean's Scholars

Year 1, Semester 1 (60 cp)
Dean's Scholars Program enrichment unit:
SCB303 Tutorial Program for Dean's Scholars
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)

Year 1, Semester 2 (60 cp)
Dean's Scholars Program enrichment unit:
Elective (12 cp)
Normal BAppSc and BAppSc(Hons) units:
BAppSc Coursework (48 cp)
**Course structure - Major in Mathematics**

### Year 1, Summer Term (24 cp)
- Dean's Scholars Program enrichment unit (MS module + MA module + one of the PH, CH, and LS modules): SCB301 Science for Dean's Scholars

### Year 1, Semester 1 (60 cp)
- Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

### Year 1, Semester 2 (60 cp)
- Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

### Year 2, Semester 1 (60 cp)
- Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (60 cp)

### Year 2, Semester 2 (60 cp)
- Dean's Scholars Program enrichment unit: SCB501-1 Research Project for Dean's Scholars
  - Normal BAppSc and BAppSc(Hons) units: BAppSc Coursework (48 cp)

### Year 3, Semester 1 (60 cp) and Semester 2 (48 cp)
- Normal BAppSc and BAppSc(Hons) units: BAppSc + BAppSc(Hons) Coursework (12 cp + 36 cp respectively)
- Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

**Course structure - Major in Physics**

### Year 1, Summer Term (24 cp)

- Normal BAppSc and BAppSc(Hons) units: BAppSc(Hons) Research (60 cp)

**Potential Careers:**
Bachelor of Applied Science/Bachelor of Mathematics (SC20)

Year offered: 2007
Admissions: Yes
CRICOS code: 049434C
Course duration (full-time): 4 years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,114
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February and July
QTAC code: 418712; Dfee: 418716
Past rank cut-off: 75; Dfee: 70
Past OP cut-off: 12; Dfee: 14
OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science); Dr Graeme Pettet (Mathematics)
Campus: Gardens Point

Recommended Study
Maths C and knowledge of at least one of the sciences. For the majors in biochemistry, biotechnology, forensic science, and microbiology - Biological Science and Chemistry are recommended.

Career Opportunities
This four-year double degree provides students with the opportunity to integrate studies in a science area with mathematics. This combination will lead to enhanced job opportunities for graduates and also provide a very sound background for students proceeding to postgraduate research studies in either a science discipline or mathematics.

Mathematics is vital for much scientific research and it is also becoming increasingly important for employees in many science-based careers to have a good background in mathematics and statistics. There are many jobs advertised where employers are ideally looking for applicants with skills and knowledge in science and mathematics. Some examples are:

Natural resource management - obtaining an accurate estimate of fish populations and predicting sustainable fishing limits requires complex mathematical and statistical modelling
Agriculture management - from climate modelling down to the individual paddock level, the interaction between forecast crop yields and prices, crop and harvest scheduling and environmental impacts
Genetics - including gene sequencing and quantitative genetics
Chemistry and Biochemistry - operations research (scheduling) and quality management techniques benefit management of a chemical testing laboratory or chemicals business; computational and applied mathematics and scientific computation and visualisation relate to research areas such as drug design using combinatorial chemistry
Infection and disease control - uses statistics and mathematical modelling
Bioinformatics - involves analysing and modelling data arising in molecular biology, genome sequencing and gene networks
Developing new physical measurement and imaging techniques - needs applied and computational mathematics

Course Structure
Mathematics provides a very precise way of describing our world and activities within it. It is used to understand and formulate current knowledge, to develop new products and processes and to assist with predicting changes which may occur under various scenarios. Mathematical techniques are used extensively in conjunction with all areas of science.

Graduates will have well-developed analytical and problem-solving skills and also practical hands-on experience in the science area of their choice. They will have the ability to use mathematical and statistical techniques across a wide range of applications and to communicate effectively with others.

This four year double degree course integrates studies in one of the science majors with studies in mathematics. The science majors available are Biochemistry, Biotechnology, Chemistry, Ecology, Environmental Science, Forensic Science, Geoscience, Microbiology and Physics.

The Mathematics component offers studies in core mathematics, applied mathematics, computational mathematics, discrete mathematics, financial mathematics, mathematical modelling, operations research, statistics, statistical modelling, scientific computation and data visualisation.

Professional Recognition
Membership of the Australian Mathematical Society, the Statistical Society of Australia Inc and the Australian Society for Operations Research is available. For professional recognition relating to the science majors refer to Bachelor of Applied Science (SC01).

Mathematics Bursaries
Students enrolled in this course can apply for industry-sponsored bursaries. These bursaries are awarded to Australian citizens or permanent residents on a competitive
basis. Applications should be submitted by 1 December of the year preceding entry to the course. For further information see www.maths.qut.edu.au

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course structure

Students must complete at least (a) 192 credit points (16 twelve credit point units) of Mathematics units and (b) 192 credit points (16 twelve credit point units) of Science units, according to the requirements as follows:

**Level 1 Units:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAB100</td>
<td>Mathematical Sciences 1A</td>
</tr>
<tr>
<td>MAB101</td>
<td>Statistical Data Analysis 1</td>
</tr>
<tr>
<td>MAB111</td>
<td>Mathematical Sciences 1B</td>
</tr>
<tr>
<td>MAB112</td>
<td>Mathematical Sciences 1C</td>
</tr>
<tr>
<td>MAB210</td>
<td>Statistical Modelling 1</td>
</tr>
<tr>
<td>MAB220</td>
<td>Computational Mathematics 1</td>
</tr>
</tbody>
</table>

**NOTE:** MAB100 is for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C (or equivalent).

Students must complete at least TWO of the following Level 1 Science Foundation units:

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSB118</td>
<td>Life Science</td>
</tr>
<tr>
<td>NRB100</td>
<td>Environmental Science</td>
</tr>
<tr>
<td>PCB101</td>
<td>Physical Science</td>
</tr>
</tbody>
</table>

In addition, students are required to complete any mandatory units - and should complete all recommended units, specified for the science major selected.

**Level 2 and 3 Mathematics Units:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAB311</td>
<td>Advanced Calculus</td>
</tr>
<tr>
<td>MAB312</td>
<td>Linear Algebra</td>
</tr>
</tbody>
</table>

**Level 2 and 3 Science Units:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAB315</td>
<td>Operations Research 2</td>
</tr>
<tr>
<td>MAB413</td>
<td>Differential Equations</td>
</tr>
<tr>
<td>MAB414</td>
<td>Applied Statistics 2</td>
</tr>
<tr>
<td>MAB422</td>
<td>Mathematical Modelling</td>
</tr>
</tbody>
</table>

**Level 2 and 3 Science Units:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAB311</td>
<td>Advanced Calculus</td>
</tr>
<tr>
<td>MAB312</td>
<td>Linear Algebra</td>
</tr>
</tbody>
</table>

**Elective Units:**

Elective units (number depends upon major selected) can be taken from Faculty of Science units. Because up to two MAB units may normally be specified in a Science degree depending on the major selected, an equivalent number of units may be substituted with units from another Faculty if such units are required as prerequisites.

**Science Units: Level 1 Science Foundation Units**

Students must select at least TWO of these units:

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSB118</td>
<td>Life Science</td>
</tr>
<tr>
<td>NRB100</td>
<td>Environmental Science</td>
</tr>
<tr>
<td>PCB101</td>
<td>Physical Science</td>
</tr>
</tbody>
</table>

**Science Units: Biochemistry Major**

**Level 1**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>LSB118</td>
<td>Life Science</td>
</tr>
<tr>
<td>LSB238</td>
<td>Cell and Molecular Biology 1</td>
</tr>
<tr>
<td>NRB270</td>
<td>Animal and Plant Structure and Function</td>
</tr>
<tr>
<td>PCB101</td>
<td>Physical Science</td>
</tr>
<tr>
<td>PCB242</td>
<td>Chemistry 2</td>
</tr>
<tr>
<td>PCB140</td>
<td>Introductory Chemistry</td>
</tr>
<tr>
<td>PCB142</td>
<td>Chemistry 1</td>
</tr>
</tbody>
</table>
Level 2
LSB308  Biochemistry
LSB338  Cell and Molecular Biology 2
LSB408  Metabolism
LSB468  Molecular Biology

Level 3
LSB508  Advanced Metabolism
LSB527  Biomedical Research Technologies
LSB608  Protein Science
  Plus either:
  LSB605  Protein Engineering and Bioprocessing
  Or
  LSB607  Protein Purification

Science Units: Biotechnology Major

Level 1
LSB118  Life Science
LSB238  Cell and Molecular Biology 1
NRB270  Animal and Plant Structure and Function
PCB101  Physical Science
PCB242  Chemistry 2
  Either
PCB140  Introductory Chemistry
  Or
PCB142  Chemistry 1
  Recommended Unit:
  LSB258  Principles of Human Physiology

Level 2
LSB308  Biochemistry
LSB468  Molecular Biology
  Either
LSB338  Cell and Molecular Biology 2
  Or
LSB397  Plant Physiology
  Either
LSB469  Introduction to Genomics and Bioinformatics
  Or
LSB497  Plant Molecular Biology

Level 3
LSB537  Genetic Engineering
LSB619  Genomics and Bioinformatics
  Either
LSB509  Medical Biotechnology 1

Science Units: Chemistry Major

Level 1
PCB101  Physical Science
  Either
LSB118  Life Science
  Or
NRB100  Environmental Science
PCB142  Chemistry 1
PCB242  Chemistry 2
  Recommended:
  PCB150  Physics 1H
  PCB200  Chemical Technology 1

Level 2
PCB334  Inorganic Chemistry
PCB354  Structure and Mechanism in Organic Chemistry
PCB405  Principles of Physical Chemistry
PCB444  Spectroscopy

Level 3
PCB505  Advanced Physical Chemistry
PCB554  Synthesis and Reactivity in Organic Chemistry
PCB634  Organometallic and Coordination Chemistry
PCB644  Frontiers in Chemistry

Science Units: Ecology Major

Level 1
LSB118  Life Science
NRB100  Environmental Science
NRB270  Animal and Plant Structure and Function
PCB101  Physical Science
  Recommended Units:
  NRB230  Planet Earth
  NRB240  History of Life on Earth

Level 2
NRB301  Earth Surface Systems
NRB311  Population Ecology
NRB410  Genetics and Evolution
NRB412  Experimental Design

Level 3

### Science Units: Physics Major

#### Level 1
- PCB101 Physical Science
- LS118 Life Science
- NRB100 Environmental Science
- PCB250 Physics 1
- PCB260 Physics 1A
- PCB107 Physics and Quantitative Techniques
  - Mathematics units equivalent to: #
- MAB131 Engineering Mathematics 1A
- MAB132 Engineering Mathematics 2A

#### Level 2
- PCB361 AC Theory and Electronics
- PCB362 Physics 2
- PCB460 Instrumentation and Computational Methods
- PCB462 Thermodynamics and Solid State Physics
  - Mathematics unit equivalent to: #
- MAB134 Electrical Engineering Mathematics 3

#### Level 3
- Select at least four units from:
  - MAB521 Applied Mathematics 3
  - MAB522 Computational Mathematics 3
  - MAB524 Statistical Inference
  - MAB525 Operations Research 3A
  - MAB526 Statistical Science 3
  - MAB580 Scientific Computation
  - MAB613 Partial Differential Equations
  - MAB623 Financial Mathematics
  - MAB624 Applied Statistics 3
  - MAB625 Operations Research 3B
  - MAB640 Industry Project
  - MAB672 Advanced Mathematical Modelling
  - MAB681 Advanced Visualisation and Data Analysis

### Mathematics Units

#### Level 1
- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C
- MAB210 Statistical Modelling 1
- MAB220 Computational Mathematics 1

#### Level 2
- MAB311 Advanced Calculus
- MAB312 Linear Algebra
  - At least one of:
    - MAB315 Operations Research 2
    - MAB413 Differential Equations
    - MAB414 Applied Statistics 2
    - MAB422 Mathematical Modelling
  - Other Level 2 units:
    - MAB313 Mathematics of Finance
    - MAB314 Statistical Modelling 2
    - MAB420 Computational Mathematics 2
    - MAB480 Introduction to Scientific Computation
    - MAB481 Visualisation and Data Analysis

#### Level 3
- Select at least four units from:
  - MAB521 Applied Mathematics 3
  - MAB522 Computational Mathematics 3
  - MAB524 Statistical Inference
  - MAB525 Operations Research 3A
  - MAB526 Statistical Science 3
  - MAB580 Scientific Computation
  - MAB613 Partial Differential Equations
  - MAB623 Financial Mathematics
  - MAB624 Applied Statistics 3
  - MAB625 Operations Research 3B
  - MAB640 Industry Project
  - MAB672 Advanced Mathematical Modelling
  - MAB681 Advanced Visualisation and Data Analysis

### Note:
- MAB100 for students who do not have an exit assessment of at least Sound Achievement in four semesters of both Senior Mathematics B and Senior Mathematics C.
MAB523 Introduction to Quality Management
MAB621 Discrete Mathematics
  Students should check semester of offer, prerequisites and corequisites

NOTE: MAB420 Computational Mathematics 2 and MAB481 Visualisation and Data Analysis require ITB111 Software Development 1 to be taken as an elective and MAB380 Introduction to Supercomputing requires ITB111 Software Development 1 and ITB112 Software Development 2 to be taken as electives.

Potential Careers:
Bachelor of Biomedical Science (SC40)

Year offered: 2007
Admissions: Yes
CRICOS code: 052768K
Course duration (full-time): 3 Years
Course duration (part-time): 6 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $6,835
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February
International Entry: February
QTAC code: 418401; Dfee: 418406
Past rank cut-off: 80; Dfee: 75
Past OP cut-off: 10; Dfee: 12
OP Guarantee: Yes
Assumed knowledge: English (4, SA), Maths B (4, SA) and Chemistry (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. CHEMISTRY: QUT unit Introductory Chemistry as a visiting student or QUT Continuing Professional Chemistry Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3864 2000 or email study@qut.com
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Catherine Dallemagne
Campus: Gardens Point

Career Opportunities
The Bachelor of Biomedical Science is a highly relevant and appropriate qualification for entry into postgraduate medicine. This course provides a solid foundation for the areas tested in GAMSAT, the entrance examination for postgraduate medicine. Many opportunities are also available for postgraduate study in science at QUT, including Honours and postgraduate courses in Life Sciences.

The Bachelor of Biomedical Science is also designed for students seeking a science-based qualification that will lead to career opportunities in medical biotechnology, medical microbiology, and clinical biochemistry fields.

Recommended Study
Biological Science is recommended.

Course Design
The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, physiology and cell biology, providing a solid knowledge base for GAMSAT. Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

Students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Professional Recognition
Depending on the subjects selected in the final year of the course, graduates will be eligible for membership of one or more of the following organisations: Australian Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Microbiology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

For further information contact 07 3864 2000 or email study@qut.com

Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Fraser Ross
Campus: Gardens Point

Career Opportunities
Pharmacists are employed in a range of settings including community pharmacies, hospitals, industry, regulatory and research roles. Australia is currently experiencing a shortage of trained pharmacists, particularly in hospital and community pharmacies. You can expect your skills to be in demand as the QUT Bachelor of Pharmacy focuses on these aspects of the pharmacy profession. You will also be well prepared to undertake postgraduate studies in pharmacy related areas.

As the first professional contacted for advice about health, community pharmacists frequently play a major role as health educators. Hospital pharmacists may work closely with doctors in a patient-care role, evaluate newly released medicines, coordinate clinical trials, or prepare medicines for patients requiring specialised treatments.

Recommended Study
Biological Science is recommended.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Design
The Bachelor of Pharmacy comprises four years of study in areas ranging from pharmacy practice, pharmaceutics, pharmacology, drug metabolism, physiology and chemistry.

You will also undertake professional practice units in QUT's on-campus dispensary and counselling facilities before embarking on a series of professional placements in hospitals and community pharmacy environments.

Professional Recognition
Following graduation, approximately 12 months of pre-registration training performed under the supervision of a registered pharmacist is required to meet the registration requirements of the Pharmacists Board of Queensland. Graduates will be eligible for membership of a number of professional associations, including the Pharmaceutical Society of Australia (PSA), the Pharmacy Guild and the Society of Hospital Pharmacists of Australia (SHPA).

Why Choose this Course?
This course has been developed with significant input from pharmacists to incorporate latest practices and emerging trends. The inclusion of essential small business management skills will help you to operate effectively in your chosen setting.

Contact Details
Course Coordinator
Associate Professor Fraser Ross
Phone: +61 7 3138 2502
Email: fb.ross@qut.edu.au

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

This course is available for continuing students only.

This course is an obvious choice for anyone eager to embark on an exciting career in the emerging fields of bioinformatics, chemical technology or scientific computation and visualisation. Innovation in science is a priority for Queensland, being the Smart State. The Australian government has also given a clear indication that it will provide strong support for innovation in science and the information communication technologies.

Overview

Innovation, the process of developing skills, generating new ideas through research, and turning them into a commercial success.

The Bachelor of Applied Science Innovation is a modern science degree that aims to equip graduates with knowledge and skills in some important and emerging scientific disciplines while at the same time allowing them to build skills in information technology and commercialisation. Excellent opportunities and career prospects are therefore to be expected for graduates who have gained skills in these areas, and who have at the same time developed capabilities in commercialising new discoveries and ideas.

Students who enter the program choose a major in Chemical Technology or Scientific Computation and Visualisation. Studies in information technology and in business areas such as innovation and commercialisation complement the scientific major chosen.

The course consists of:

- a major (eight units)
- six science units that support the units constituting the major plus one mandatory unit (Statistical Data Analysis)
- six business and information technology units (Marketing, Introduction to Databases, Professional Studies, Software Development 1, Venture Skills, Innovation and Market Development)
- An elective stream (chosen from Applicable Computing, Commercialisation, or a Scientific Project plus supporting units).

Major Areas of Study

Chemical Technology

Chemical Technology is concerned with a wide spectrum of industrial and commercial endeavours involving mining, minerals processing, coal, materials and polymers, paints, surface coatings and corrosion protection, agricultural products and processing, food and beverages, production of electricity and gas, defence research, water quality and waste water treatment. Such endeavours require chemical technologists who possess scientific and technological knowledge and skills, as well as some understanding of and skills in information technology innovation, commercialisation and marketing.

Career Opportunities

Chemical technologists are key professionals in industries that manufacture materials such as paints, paper, textiles, glass, plastics, rubber, metals, alloys, gases, fuels, foodstuffs and chemicals. Exciting careers are available in a variety of roles associated with research, innovation, and the development of discoveries of new chemical materials into viable ventures.

Professional Recognition

Graduates are eligible for membership of the Royal Australian Chemical Institute.

Scientific Computation and Visualisation Major

Scientific Computation and Visualisation is a rapidly growing and exciting discipline involving the use of parallel computer systems and computer modelling. Computers today can generate massive amounts of information, and scientists...
working in this field use modern computing technology to visualise and explore very large data sets.

**Career Opportunities**

As a graduate with a Scientific Computation and Visualisation major you will have strong mathematical and information technology skills, providing you with a wide range of career options. Your special capabilities in scientific computer modelling and data visualisation will open up exciting careers in the scientific and engineering research fields.

**Professional Recognition**

Graduates are eligible for membership of the Australian Mathematical Society.

- MAB522 Computational Mathematics 3
- MAB621 Discrete Mathematics

Core Business / IT Units and Elective Stream Units

Business and Information Technology core units (72 credit points)

Six specific units introducing business, innovation, communication, and information technology:

- AMB251 Innovation and Market Development
- BSB126 Marketing
- ITB111 Software Development 1
- ITB115 Introduction to Databases
- ITB116 IT Professional Studies 1
- Either MGB218 Venture Skills or MGB223 Creating New Enterprises

* ITB650 Computational Intelligence is offered as a substitute unit for ITB111 Software Development 1 for BAppScInnov students in the Chemical Technology major who do not wish to undertake the applicable Computing stream.

Elective Streams (one to be chosen) (36 credit points)

(a) Applicable Computing: Three approved units chosen from the Bachelor of Information Technology course and/or the supercomputing program

(b) Commercialisation: LSB309 Introduction to Intellectual Property Law; AND two approved units from the Bachelor of Business course

(c) Scientific Project: Scientific project unit (eg PCB604 Project (12 cp); MAB640 Industry Project (24 cp, prereq MAB523)) and supporting units chosen from:

- An advanced level science unit relevant to the project
- BSB311 Research, Development and Commercialisation Strategies
- LSB309 Introduction to Intellectual Property Law
- MAB523 Introduction to Quality Management

Potential Careers:

- Bioinformatician, Biotechnologist, Cell Biologist, Chemical Technologist, Chemist, Data Communications Specialist, Mathematician, Molecular Biologist.
Bachelor of Applied Science (Honours) (SC60)

Year offered: 2007
Admissions: Yes
CRICOS code: 009041G
Course duration (full-time): 1 Year
Course duration (part-time): 2 Years
Domestic fees (per credit point): Commonwealth supported place; Full fee tuition 2007: $210 per credit point (subject to annual review)
Domestic fees (indicative): 2007: Full fee tuition $20,160; CSP $7,114
International Fees (per semester): 2007:$9,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February and July
Total credit points: 96
Standard credit points per full-time semester: 48
Course coordinator: Associate Professor Peter Fredericks
Discipline coordinator: Dr John Bartley (Chemistry); Dr Tony Clarke (Ecology); Dr Robin Thwaites (Environmental Science); Dr Gary Huftile (Geology); Associate Professor Terry Walsh (Life Science); Dr Troy Farrell (Mathematics); Dr Esa Jaatinen (Physics)
Campus: Gardens Point

Career Outcomes
The Bachelor of Applied Science (Honours) program is designed for graduates who have excelled in their degree from a recognised tertiary institution, with major studies in a relevant discipline. The course not only enhances your professional employability in your chosen discipline but also prepares you for a research career. The Honours qualification opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy and Master of Applied Science courses.

Entry Requirements
To be eligible for admission, you should have completed QUT's Bachelor of Applied Science or equivalent and should have attained a grade point average (GPA) of at least 5 (on a 7-point scale), including grades of at least 5 in all units directly relevant to the proposed Honours program. Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

If you do not satisfy the above conditions but who have demonstrated outstanding performance in only the final year of a degree, or your application is based on other factors including work experience or involvement in research, you may be admitted at the discretion of the Executive Dean of Faculty.

Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Statistics) may provide suitable entry to the program.

Course Structure
The Honours year comprises coursework and a major research project supervised by QUT staff, in some cases in conjunction with local industry.

Professional Recognition
Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

### Course structure - Major in Chemistry

#### Year 1, Semester 1
- PCB700-1 Research Project
- PCB700-2 Research Project
- PCB742 Elective Unit
- PCB780-1 Advanced Topics in Chemistry 1

#### Year 1, Semester 2
- PCB700-3 Research Project
- PCB700-4 Research Project
- PCB780-2 Advanced Topics in Chemistry 1

**NOTE:** Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Course structure - Major in Ecology, Environmental Science, Geology

#### Year 1, Semester 1
- NRB720-1 Project
- NRB730-1 Research Methods and Strategies
- NRB730-2 Research Methods and Strategies
- NRB735 Advanced Studies in Resource Sciences

#### Year 1, Semester 2
- NRB720-2 Project
- NRB720-3 Project
- NRB720-4 Project
- NRB720-5 Project

**NOTE:** Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Course structure - Major in Life Science

#### Year 1, Semester 1
- LSB850-1 Research Strategies
- LSB851-1 Readings in Life Science 1
- LSB852-1 Project

#### Year 1, Semester 2
- LSB850-2 Research Strategies
- LSB851-2 Readings in Life Science 1
- LSB852-2 Project

**NOTE:** Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Course structure - Major in Mathematics

#### Year 1, Semester 1
- MAN787-1 Project
- 36 credit points of elective units selected from the list below*

#### Year 1, Semester 2
- MAN787-2 Project
- MAN787-3 Project
- 24 credit points of elective units selected from the list below*

* The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

**NOTE:** Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Elective List (Mathematics) - 60 credit points to be selected

- MAN717 Minor Project
- MAN761 Analysis
- MAN764 Applied Mathematical Modelling
- MAN765 Bayesian Data Analysis
- MAN766 Applied Time Series Analysis
- MAN768 Advanced Techniques in Operations Research
- MAN769 Mathematics of Finance
- MAN771 Computational Mathematics 4
- MAN774 Perturbation Methods
- MAN775 Statistical Modelling of Financial Processes
- MAN777 Mathematics of Fluid Flow
- MAN778 Applications of Discrete Mathematics

**null**

Up to 12 credit points from the following lists can be included in the 60 credit points of electives:

- MAB522 Computational Mathematics 3
- MAB524 Statistical Inference
- MAB526 Statistical Science 3
- MAB613 Partial Differential Equations
- MAB672 Advanced Mathematical Modelling

**null**

Up to two units of a quantitative nature from another Faculty or School may be included with the permission of the Mathematics Coordinator. The unit(s) must be of honours level and relevant to the proposed program. Examples of suitable units are:

- EFN505 Financial Risk Management
- PCB706 Quantum Mechanics

**null**

The Course Coordinator may approve a student taking 24 credit points of elective units (together with MAN787-1 and MAN787-2) in Semester 1 and 36 credit points of elective units (together with MAN787-3) in Semester 2.

**NOTE:** Students wishing to apply for entry to BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

### Course structure - Major in Physics
Year 1, Semester 1

PCB700-1 Research Project
PCB700-2 Research Project
PCB706 Quantum Mechanics
Elective

NOTE: An alternative to PCB706 Quantum Mechanics may be permitted

Year 1, Semester 2

PCB700-3 Research Project
PCB700-4 Research Project
PCB700-5 Research Project
Elective

NOTE: Students wishing to apply for entry into BAppSc(Hons) should consult with the contact person for the relevant science discipline before applying (see contact details link above).

Elective List (Physics)

PCB664 Lasers and Photonics
PCB669 Astrophysics 2
PCB708 Advanced Topics in Physics
PCN716 Advanced Topics in Physics 2

NOTE: PCB708 and PCN716 typically comprise two components chosen from atmospheric aerosol physics, classical mechanics, non-linear optics, quantum electrodynamics, advanced general relativity or aspects of units from the Masters in Medical Physics course.

Potential Careers:

Graduate Diploma in Applied Science (SC71)

Year offered: 2007
Admissions: Yes
CRICOS code: 020314E
Course duration (full-time): 2 semesters (1 year)
Course duration (part-time): 4 semesters (2 years)
Domestic fees (per credit point): Commonwealth Supported Place (subject to annual review)
Domestic fees (indicative): 2007: CSP $7,114
International Fees (per semester): 2007: $9,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February
Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Peter Fredericks
Discipline coordinator: Dr Geoffrey Will (Chemistry); Dr Troy Farrell (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)
Campus: Gardens Point

Entry requirements
Applicants must possess a bachelor degree in applied science or equivalent qualification, or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

Course Design
This coursework program allows students to complete a minor project in some disciplines. The assessed coursework may include advanced lecture courses, seminars, reading courses or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course, and may contain units from other postgraduate courses, the Bachelor of Applied Science (Honours) program or advanced undergraduate programs.

Candidates of the Graduate Diploma in Applied Science undertake a program of coursework, or coursework and a minor research project, as approved by the Academic Board on the advice of the Head of School.

Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of coursework, and up to 36 credit points as a minor research project.

Coursework units will be selected from the specific units available within the Master of Applied Science (SC80) course and may contain units selected from other postgraduate courses or advanced undergraduate courses where the background of the student requires this.

Overview
This course offers students a one-year postgraduate qualification by coursework, or coursework and a minor research project. The course will particularly suit if students are employed in the industry and wish to undertake postgraduate study to upgrade their professional qualification in one of the science disciplines.

Course coordinator: Associate Professor Peter Fredericks
Discipline coordinator: Dr Geoffrey Will (Chemistry); Associate Professor Terry Walsh (Life Sciences); Professor Vo Anh (Mathematics); Associate Professor Peter Mather (Natural Resource Sciences); Dr Andrew Fielding (Physics)
Campus: Gardens Point

Entry Requirement
Applicants must possess a bachelor of applied science or equivalent qualification or other evidence of qualifications that satisfy the Faculty Academic Board that the applicant possesses the capacity to pursue the course of study.

Course Design
This degree consists of coursework that can comprise up to one-third of the course and research, which must be at least two-thirds of the course. The assessed coursework may be in the form of advanced lectures, seminars, reading courses, or independent study designed to focus on information retrieval skills. The research component is a program of supervised research and investigation at a level of scientific competence significantly higher than that expected from an undergraduate degree and, typically, a masters thesis does not need to be as substantial as a Doctor of Philosophy thesis.

Students undertake a program of research and investigation on a topic approved by the Academic Board. All projects should be sponsored either by outside agencies such as industry, government authorities, or professional organisations, or by the University itself.

Students entering the course with an honours degree or its equivalent to candidates with substantial relevant work experience normally gain exemptions to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

Students entering the course with a graduate diploma may gain exemption to a maximum of 96 credit points at the discretion of the Academic Board on the recommendation of the Head of School.

A full-time candidate who does not hold an honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months. The corresponding period in the case of a part-time candidate shall be 48 months. In special cases the Academic Board may approve a shorter period.

A holder of an honours degree or its equivalent appropriate to the course of study may submit the thesis for examination after not less than 12 months of registration if a full-time student, or 24 months if a part-time student. In special cases the Academic Board may approve a shorter period.

Overview
The objectives of this course are to:

- provide postgraduate educational opportunities in specialised fields of applied science by means of a program that involves either an original contribution to knowledge or an original application of existing knowledge
- provide education in research methods
- enable graduates employed in industry to undertake further education by a combination of coursework, research and thesis
- expand the involvement of students employed in industrial organisations and external agencies in undertaking relatively short-duration applied research or investigation.

Students can undertake an approved project in any area of interest supported by a research area or school within the Faculty of Science. Please note that these areas of research specialisation are only a guide. Staff are happy to discuss study choices directly with students.

   and/or alternative unit(s) approved by the Physics coordinator

Research Work

The Research Work component of the degree must constitute at least 128 credit points. The units below have been devised to represent the EFTSU (Effective Full-time Student Unit) and attendance type of graduate research students.

Full-Time Students

The minimum number of credit points per semester for full-time status is 36. The standard number is 48. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to the degree rules.

Full-Time Course Structure

Full-time students undertaking research but no coursework units enrol in:
IFN100 Full-Time Masters Research
null

Full-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 48 credit points per semester.
IFN300 Masters Research
IFN301 Masters Research
IFN302 Masters Research
IFN303 Masters Research
IFN304 Masters Research

Part-Time Students

The maximum number of credit points per semester for part-time status is 36. The standard number is 24. At the end of each semester a grade of T - Assessment Continues will be awarded in any IFNXXX units provided satisfactory progress is being maintained. A final grade (S - Satisfactory or U - Unsatisfactory) will be awarded once the thesis has been examined according to degree rules.

Part-time Course Structure

Part-time students undertaking research but no coursework units enrol in:
IFN200 Part-Time Masters Research
null

Part-time students who are required to undertake coursework units in addition to their research as part of their masters enrolment
should enrol in a combination of the following units. These should total (in combination with the coursework unit/s) as close as possible to 24 credit points:

IFN302  Masters Research  
IFN303  Masters Research  
IFN304  Masters Research

OVERVIEW

QUT International College (QUTIC), an integral part of QUT, offers a range of programs to assist international students to meet university entry requirements at QUT and other Australian universities. In addition, the College offers English Language Programs for students who wish to upgrade their English Language skills for work or other purposes.

The programs, designed to meet the different needs of international students, include English for Academic Purposes, General English, Foundation, University Diplomas, Bridging and Postgraduate Pathway Programs.

Students receive high quality tuition and support in small classes and excellent College facilities while at the same time enjoying the full use of all University facilities including libraries, student services, recreational and computer facilities.

SENIOR STAFF

Director, QUT International College: E. McDade, TDipCom Strathclyde, TCert Jordanhill, BEd St Qld, MAcc C.Sturt

Director of Studies, University Entry Programs: S. Leisemann, DEd BA Qld, PGDip La Trobe, MBA Bond

Director of Studies, English Language Programs: I. McGregor, BA Griff, GradDipEd PGDip Soc Sc Qld, MEd (TESOL) NE

UnivDipBus

Entry Requirements - Academic
Successful completion of senior high school with the required grades. Students can find more detailed country specific entry requirements at the following web site: http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (NB Students should also check visa requirements).

Description
The University Diploma in Business, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Business. In this program, students study six first year faculty core units as well as two units of Communication which have been designed to support their other core units. Students who successfully complete these units earn full academic credit for eight units towards their degree. Graduates articulate to the second year of the Bachelor of Business. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low Pass) in the remaining unit.

Progression
Requirements for progression to the second year of QUT Bachelor of Business:

i) fulfill the Diploma course requirements,
ii) a minimum Grade Point Average (GPA) of 4, and
iii) an IELTS score of 6.5 or its equivalent.

Entry Requirements - English language
Queensland Senior English (Low Achievement) or IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper), TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The University Diploma in Professional Communication, which has intakes for international students in February, June and October, is equivalent to the first year of the Bachelor of Mass Communication and a range of Creative Industries degrees (see list below). In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Student who successfully complete the University Diploma in Professional Communication earn full academic credit for eight units, and articulate to the second year of their chosen degree, except for Bachelor of Fine Art (Film and Television) for which one semester credit only is awarded. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

Course Completion
Students must obtain at least a grade of 4 (Pass) in at least seven units and a grade of 3 (Low Pass) in the remaining unit.

Progression
Requirements for a guaranteed place in the second year of the following QUT Bachelors degrees:

  i) fulfill the University Diploma course requirements,
  ii) an IELTS score of 6.5 or its equivalent,
  iii) achieve a minimum Grade Point Average (GPA) as
detailed below for the following course:

Grade Point Average of at least 4 for:
Bachelor of Mass Communication
Bachelor of Creative Industries (Interdisciplinary Studies)

Grade Point Average of at least 4.5 for:
Bachelor of Creative Industries (Media and Communication)
Bachelor of Creative Industries (Creative Writing)
Bachelor of Journalism

Grade Point Average of at least 5.0 for:
Bachelor of Creative Industries (Communication Design)
Bachelor for Fine Arts (Film and Television)*

*Please note that students articulating to Bachelor of Fine Arts (Film and Television) will only receive 1 semester of credit.

**Course Completion**

Students must obtain at least a grade of 4 (Pass) in seven units and a grade of 3 (Low pass) in the remaining unit.

**Progression**

Requirements for progression to the second year of QUT Bachelor of Information Technology:

i) fulfill the Diploma course requirements,
ii) a minimum Grade Point Average (GPA) of 4, and
iii) an IELTS score of 6.5 or its equivalent.

**Potential Careers:**

Foundation Program (1 Semester) (QC01)

Year offered: 2007
Admissions: Yes
CRICOS code: 003287M
Course duration (full-time): 1 semester
International Fees (per semester): 2007: $6,750 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 60
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Successful completion of senior high school with the required grades.
Students who have attempted further schooling studies, eg GCE A-levels or equivalent may be considered for entry. Applications will be reviewed individually and applicants will need to meet subject prerequisites. Students can find more country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 6.0 with no sub-score less than 5.5 or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description
The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfill the Foundation course requirements,
ii) obtain a grade of 5 (Credit) in Communication 2 or an IELTS 6.5 or equivalent,
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Course completion
Students are required to gain at least a grade of 4 (Pass) in four units and a grade of 3 (Low Pass) in the remaining unit.

Foundation Program (2 Semesters) (QC02)

Year offered: 2007
Admissions: Yes
CRICOS code: 003287M
Course duration (full-time): 2 semesters
International Fees (per semester): 2007:$6,750 per semester (subject to annual review)
International Entry: February, June and October
Total credit points: 120
Standard credit points per full-time semester: 60
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements-Academic
Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Foundation Program, which has intakes in February, June and October, provides pathways to QUT award programs (Diploma or Degree). Graduates enjoy a high placement rate in undergraduate courses at QUT and other Australian universities. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers. Some students may need intensive English language preparation at the College's English Language Programs prior to entering a Foundation Program.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their final semester for possible credit towards their degree course.

Course Completion
In order to complete course requirements, students must gain at least a grade of 4 (Pass) in nine units and one grade of 3 (Low Pass) in the remaining unit.

Required Foundation Grade Point Average by Faculty
Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering (except Aerospace Avionics) - Required GPA 4.6
Engineering - Aerospace Avionics - Required GPA 5.8
Health (except Nutrition & Dietetics, Optometry, Psychology & Podiatry) - Required GPA 4.6
Health - Nutrition & Dietetics - Required GPA 5.8
Health - Optometry & Podiatry - Required GPA 5.8
Health - Psychology - Required GPA 5.0
Humanities and Human Services - Required GPA 4.2
Information Technology - Required GPA 4.8
Law (except Justice Studies) - Required GPA 4.8
Law - Justice Studies - Required GPA 4.2
Science (except Pharmacy) - Required GPA 4.6
Science - Pharmacy - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Progression
Conditions of progressing to a guaranteed place in first year of a QUT degree:

i) fulfil the Foundation course requirements,
ii) obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
iii) achieve the relevant faculty Grade Point Average (GPA) - this is calculated on final semester Level 2 units only.

Students who do not meet requirements for a guaranteed place in either a QUT degree or University Diploma Program, may still be considered for entry by the relevant faculty.

Bridging Program (QC03)

Year offered: 2007
Admissions: Yes
CRICOS code: 003518A
Course duration (full-time): 1 semester
International Fees (per semester): 2007:$6,750 per semester (subject to annual review)
International Entry: February, July and October
Total credit points: 48
Standard credit points per full-time semester: 48
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Students must have met the academic entry requirements for their proposed postgraduate or undergraduate course.

Entry Requirements - English Language
IELTS 6.0 with no sub-score less than 5.0 or TOEFL 550 (paper) or TOEFL 213 (CBT) or equivalent, or successful completion of the EAP program (N.B. Students should also check visa requirements).

Description
This program provides two alternative streams. Stream A is designed for students who have not met English and/or prerequisite requirements for their chosen undergraduate or postgraduate course. Most students may undertake one degree unit (for credit) whilst enrolled in a Bridging program. Those with advanced standing may be able to undertake two degree units. Stream B is for students who have met English requirements but not prerequisite requirement for their degree, or who may wish to improve the standard of their academic English. These students may take one or two degree units (for credit) whilst enrolled in the Bridging Program. Both streams include intensive preparation for academic language, lateral thinking, research and presentation skills required for successful tertiary study. Small classes and dedicated staff ensure an excellent learning environment. Additional support is provided by Language and Welfare Advisers.

Course Completion
Students undertaking three Bridging units must obtain at least a grade of 4 (Pass) in two units and a grade of 3 (Low Pass) in the remaining unit.

Students undertaking two Bridging units must obtain at least a grade of 4 (Pass) in one unit and a grade of 3 (Low Pass) in the remaining unit.

Progression
In order to progress to an award course, students must:

- i) fulfill the Bridging course requirements
- ii) gain a minimum grade of 4 (Pass) in Communication 2 or an IELTS 6.5 or equivalent,
- iii) meet any other conditions detailed in the 'letter of offer' from International Student Business Services.

Extended Foundation Program (3 Semesters) (QC04)

Year offered: 2007
Admissions: Yes
CRICOS code: 050167G
Course duration (full-time): 3 Semesters
International Fees (per semester): 2007:$14,850 (full course fee) (subject to annual review)
International Entry: February
Total credit points: 132
Standard credit points per full-time semester: 13TP1 - 48CP, 13TP2 - 60CP, 13TP3 - 24CP
Course coordinator: Scott Leisemann
Campus: Kelvin Grove

Entry Requirements - Academic
Successful completion of senior high school with the required grades or successful completion of year 11 high school with very good grades. Students can find country specific entry requirements at the following web site. http://www.international.qut.edu.au/apply/howtoapply/entryreqs/academic.jsp

Entry Requirements - English Language
IELTS 5.5 with no sub-score less than 5.0 or TOEFL 525 (paper) or TOEFL 193 (CBT) or equivalent, or successful completion of the EAP program. (N.B. Students should also check visa requirements).

Description
The Extended Foundation Program (QC04), which has an intake in February, provides pathways to QUT award programs (Diploma or Degree). This pathway is designed for students who require additional support with language and adjustment to the Australian educational environment. Successful completion guarantees a place in the first year of the relevant program in all QUT faculties. Small classes and dedicated staff provide an excellent learning environment while additional support is provided by Language and Welfare Advisers.

Students who achieve excellent results in the first semester may have the opportunity to study up to two University Diploma units in their second semester for credit towards their degree course.

Course Completion
In order to complete the course requirements, students must gain at least a grade of 4 (Pass) in ten units, one grade of 3 (Low Pass), and a S (Satisfactory) in Foundation English.

Progression
Conditions of progressing to a guaranteed place in the first year of a QUT degree:

i) fulfill the Foundation course requirements,
ii) obtain a grade of 5 in Communication 2 or an IELTS 6.5 or equivalent,
iii) obtain a Grade Point Average (GPA) as indicated in the table of Faculty Requirements below - calculated on five (5) Level 2 units:

Students who do not meet requirements for a guaranteed place in either a QUT degree of University Diploma Program, may still be considered for entry by the relevant faculty.

Required Foundation Grade Point Average by Faculty
Built Environment - Required GPA 4.6
Business - Required GPA 4.8
Creative Industries - Required GPA 4.4
Education - Required GPA 4.6
Engineering (except Aerospace Avionics) - Required GPA 4.6
Engineering - Aerospace Avionics - Required GPA 5.8
Health (except Nutrition & Dietetics, Optometry, Psychology & Podiatry) - Required GPA 4.6
Health - Nutrition & Dietetics - Required GPA 5.8
Health - Optometry & Podiatry - Required GPA 5.8
Health - Psychology - Required GPA 5.0
Humanities and Human Services - Required GPA 4.2
Information Technology - Required GPA 4.8
Law (except Justice Studies) - Required GPA 4.8
Law - Justice Studies - Required GPA 4.2
Science (except Pharmacy) - Required GPA 4.6
Science - Pharmacy - Required GPA 5.8

N.B. Grades in each unit are awarded on a scale from 1 to 7, with 7 being the highest.

Note: In this semester students focus on the higher level tertiary preparation and communication skills and attend 18 hours of study per week in their classes over a 8 week teaching period.

Potential Careers:

Academic, Account Executive, Accountant, Actor, Actuary, Administrator, Adult/Workplace Educator, Advertising Professional, Aerospace Avionics Engineer, Aged Services Worker, Analytical Chemist, Animator, Architect, Art Project Manager, Art Writer, Artist, Arts Administrator, Astrophysicist, Band Leader, Banker, Banking and Finance Professional, Barrister, Biochemist, Bioengineer, Bioinformatician, Biologist, Biomechanical Engineer, Biomedical Engineer, Biotechnologist, Biophysicist, Business Analyst, Cell Biologist, Certified Practicing Accountant, Chemical Technologist, Chemist, Chemist Industrial, Child Care Professional, Child Protection Officer, Choreographer, Civil Engineer, Clinical Laboratory Scientist, Coastal Scientist, Community Corrections Officer, Community Education Officer, Community Health Officer, Community Worker, Composer, Computer Game Programmer, Computer Games Developer, Computer Salesperson/Marketer, Computer Systems Engineer, Conductor, Conservation Biologist, Construction Manager, Contract Administrator, Corporate Secretary, Corrective Services Officer, Counsellor, Creative Writer, Crown Law Officer, Curator, Customs Officer, D.J, Dance Teacher, Dancer, Data Communications Specialist, Database Manager, Digital Composer, Diplomat, Disability Services Worker, Drama Teacher, Early Childhood Teacher, Ecologist, Economist, Educator, Electrical and Computer Engineer, Electrical Contractor, Electrical Engineer, Electronic Commerce Developer, Engineering Technologist, English Teacher, Environmental Engineer, Environmental Health Officer, Environmental Scientist, Estimator, Exchange Student, Exercise Physiologist, Exploration Geologist, Facilities Manager, Family Services Officer, Fashion Designer, Fashion Professional, Film Composer, Film/Television Producer, Financial Advisor/Analyst, Financial Project Manager, Fitness Assessor/Personal Trainer, Forensic Biologist, Forensic Chemist, Forensic Scientist, Funds Manager, Geologist, Geophysicist, Geoscientist, Government Officer, Guidance Officer, Health Information Manager, Health Physicist, Health Services Manager, Higher Education Worker, Home Economist, Human Resource Developer, Human Resource Manager, Human Services Practitioner, Hydrogeologist, Immunologist, In-House Lawyer, Industrial Chemist, Industrial Designer, Information Officer, Information Security Specialist, Instrument Maker, Interior Designer, International Business Specialist, Internet Professional, Investigator, Investment Manager, Journalist, Kindergarten Teacher, Laboratory Technician (Chemistry), Landscape Architect, Librarian, Manager, Manufacturer, Mapping Scientist/Photogrammetrist, Marine Scientist, Market Research Manager, Marketing Officer/Manager, Mastering Engineer, Mathematician, Mechanical Engineer, Media Industry Specialist, Medical Biotechnologist, Medical Engineer, Medical Equipment Sales, Medical Imaging Technologist, Medical Physicist, Medical Scientist, Microbiologist, Molecular Biologist, Multimedia Designer, Music Agent/Manager, Music Publisher, Music Sampler, Music Teacher, Music Technologist, Musical Director, Musician, Natural Resource Scientist, Network Administrator, Network Manager, Nurse, Nutritionist/Dietitian, Occupational Health and Safety Officer, Optometrist, Organisational Communication Specialist, Pathology Scientist, Pharmaceutical Research Scientist, Physicist, Plant Biotechnologist, Podiatrist, Police Officer (Australian Federal), Police Officer (State), Policy Officer, Population Ecologist, Post-production specialist, Preschool Teacher, Primary School Teacher, Programmer, Project Manager, Property Development, Property Economist, Psychologist, Public Health Officer, Public Relations Officer/Consultant, Public Servant, Publishing Professional, Quantitative Analyst, Quantity Surveyor, Radiation Therapist, Radiographer, Recording Engineer, Rehabilitation Engineer, Rehabilitation Professionals, Research and Development Chemist, Risk Manager, Sales Person, School Counsellor, Scientist, Secondary School...
English for Academic Purposes for degree programs (QC10)

Year offered: 2007
Admissions: Yes
CRICOS code: 011424G
Course duration (full-time): 12 weeks
International Fees (per semester): 2007: $3,720 per 12 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: March, July and October (dates are designed to allow entry to selected semester of next course)
Total credit points: 48
Course coordinator: Judith Douse
Campus: Kelvin Grove

Entry Requirements - Academic
To be eligible for entry, applicants must either:

1. Have an offer of a place in a QUT degree program and successfully complete the relevant EAP entry test; or

2. Produce original documentary evidence of an IELTS score of a minimum 5.5 with no sub-score less than 5.0 (or approved equivalent).

* You should check the English language requirements for a Student Visa from your country of origin.

Description
The aim of the EAP course is to assist international students to upgrade their English proficiency level to meet university entry requirements. The course is designed to prepare students for independent study and to familiarise them with an Australian academic setting in terms of study techniques and student/lecturer relations and expectations.

Course Completion
To be eligible to receive EAP certification at the end of the course, students must complete all course requirements.

On successful completion of the course, students will receive a Completion & Attendance Certificate and a Statement of Results.

Progression
Successful completion of an EAP course is a pathway into QUT International College Foundation, Diploma, Certificate or Bridging programs; or QUT undergraduate or postgraduate award programs. The course is recognised by all QUT faculties.

Course structure

<table>
<thead>
<tr>
<th>Modules</th>
</tr>
</thead>
<tbody>
<tr>
<td>QCE003English for Academic Purposes for Direct Entry to QUT</td>
</tr>
</tbody>
</table>

The EAP course consists of the following integrated modules:

- Seminars and Presentations
- Academic Reading and Note-taking
General English (QC20)

Year offered: 2007
Admissions: Yes
CRICOS code: 011426E
Course duration (full-time): 5 weeks

International Fees (per semester): 2007:$1,550 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: 9 entry dates per year.
Total credit points: 20
Course coordinator: Ian Davies (ip.davies@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
Students should check visa requirements in relation to English entry levels.

Description
This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from elementary to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes approximately every five weeks.

Course Completion
On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

Progression
Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

General English Extension (QC21)
Year offered: 2007
Admissions: Yes
Course duration (full-time): 5 weeks
International Fees (per semester): 2007:$1,550 per 5 week session + $100 non-refundable enrolment fee (subject to annual review)
International Entry: Every 5 weeks
Total credit points: 20
Course coordinator: Ian Davies (ip.davies@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
Students should check visa requirements in relation to English entry levels.

This course is for students enrolled in QC20 General English and wishes to continue their enrolment in General English.

Description
This course offers English language and study skills for students preparing for entry to EAP, Foundation, Certificate and Diploma programs and QUT undergraduate and postgraduate award programs.

There are also non-academic English language courses at all levels from beginners to advanced. These courses include excursions and activities (which may incur some additional, minimal cost).

All English language courses include 25 hours of classes per week and there are new intakes every five weeks.

Course Completion
On completion of the course, students will receive a Completion/Proficiency Certificate and an Attendance Certificate.

Progression
Progress is monitored on a student profile which is created for each student over the length of the course. All assessment results (formative/summative/diagnostic) are recorded.

Students can progress from General English into the EAP course or other programs. Progression is subject to entry requirements.

English for Tertiary Preparation (QC22)

Year offered: 2007
Admissions: Yes
CRICOS code: 045062C
Course duration (full-time): 2 weeks
International Fees (per semester): 2007: $620 + $100
non-refundable enrolment fee (subject to annual review)
International Entry: February, June and October
Total credit points: 8
Course coordinator: Michael Miller (mj.miller@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements
Academic requirements:
An offer of acceptance for a QUT Foundation or University Diploma course.

English requirements:
An IELTS score of at least 5.5 (with sub-scores of at least 5.0) or approved equivalent.

Description
The course aims to enhance the English language proficiency of students who already meet the IELTS requirements for their Foundation or University Diploma Program. ETP teaches and practices academic writing, reading, listening and speaking.

The course assists students with the adjustment to studying at an Australian university.

Course Completion
On completion of the course, students will receive a Completion and Attendance Certificate.

QC22 - English for Tertiary Preparation

English for Tertiary Preparation
QCE005   English for Tertiary Preparation Studies
Cambridge First Certificate in English Preparation course - International (QC25)

Year offered: 2007
Admissions: Yes
CRICOS code: 053950D
Course duration (full-time): 12 weeks
International Fees (per semester): 2007:$4,290 (full course fee) (subject to annual review)
International Entry: March and September (dates are designed to allow students to undertake the Cambridge First Certificate in English examination)
Course coordinator: Michael Miller (mj.miller@qut.edu.au)
Campus: Kelvin Grove

Entry Requirements - English Language
External students are required to either have an IELTS score of 5.0; TOEFL 500 (paper) or 173 (computer); TWE (3); or approved equivalent. All external students are also required to take a Placement Test administered on their first day at the QUT International College. Internal students are required to have successfully completed the Intermediate level of General English and to successfully complete the Placement Test.

Description
This course is designed to prepare candidates for the Cambridge FCE examination. Course duration is 12 weeks and comprises 25 hours tuition per week. This intensive course focuses on speaking, listening, reading and writing skills, and use of English. It also pays particular attention to FCE examination strategies and skills.

Cost of the program includes tuition, examination fee, textbook, workbook and practice test book.

Course Completion
On completion of the course, students will receive a certificate of completion.

**CAMPUS CODING**
- CA = Carseldine
- CB = Caboolture
- Ext = External
- GP = Gardens Point
- KG = Kelvin Grove

**SEMESTER CODING**
- 1 = Semester 1
- 2 = Semester 2
- 3 = Summer Program

**PREREQUISITE AND COREQUISITE UNITS**
For definitions of the terms prerequisite and corequisite unit(s), refer to Rule 12 of the Student Rules section.

**Disclaimer**
Some schools have indicated the availability of their units for semester 1 (1), semester 2 (2), or Summer Program (3). These indications are preliminary only and are subject to change.
ADB003 Architectural Design 3
Design theory: physical context, landscape, social context, ethics and values. This unit integrates contextual studies, technology, specifically building construction and design for climate. Projects are generally of domestic scale.
Prerequisite(s): ADB002  Corequisite(s): ADB011, ADB013  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

ADB004 Architectural Design 4
Design theory: physical context, landscape, social context, ethics and values. This unit involves the integration of contextual studies and of technology, specifically building construction, design for climate. Projects are generally of domestic scale.
Prerequisite(s): ADB003  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point

ADB005 Architectural Design 5
Design theory, sustainability, sociological and contextual concerns related to particular design problems. The unit often includes a ‘community service’ project, generally a collaborative, participatory design with selected community groups as ‘client’.
Prerequisite(s): ADB004  Corequisite(s): ADB913  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB006 Architectural Design 6
This unit includes design theory, urban sustainability, sociological and contextual concerns related to particular design problems.
Prerequisite(s): ADB005  Credit points: 12  Contact hours: 6 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

ADB007 Architectural Design 7
The content of the unit is project-dependent.
Prerequisite(s): ADB006  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB008 Architectural Design 8
The content of the unit is project-dependent.
Prerequisite(s): ADB007  Corequisite(s): ADB026  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

ADB009 Architectural Design 9
Design projects and associated lectures and presentations relevant to developing the unit objectives. A high degree of resolution is expected in design projects in intellectual conceptualisation and strategy, spatial organisation, form, detail and technical understanding. Building economics, services, construction technology, theory and critical analysis will be integrated into the unit.
Prerequisite(s): ADB008  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB011 Contextual Studies 1
The course considers the emergence of modern architecture in Europe and America in the late nineteenth and early twentieth century, and the development of the ideas and proposals arrived at through the heroic phase of the 1920s and 30s. The dominance of modern architecture following the war and the early critiques will be examined. An analysis of the emergence of postmodern thought and the various architectural directions being pursued throughout the world in the late twentieth century to find viable and meaningful designs will be present.
Prerequisite(s): ADB931  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

ADB012 Contextual Studies 2
Australian and Oceanic architecture is examined from pre-European settlement times to the present. The work is looked at in the context of European and American influences and the Asian-Oceanic context. The examples are studied in relation to broad social, historical and aesthetic backgrounds. Course work will include an introduction to research of local architectural history, and visits to key buildings.
Prerequisite(s): ADB011  Credit points: 12  Contact hours: 2 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

ADB013 Contextual Studies 3
This unit looks at the architectural traditions of the diverse cultures of Asia and urban history. The course examines how traditional architecture is shaped by culture and society. It focuses on the geographic regions of the orient including China, Japan and Korea and that of South Asia including India, Nepal and Sri Lanka. Design of cities across geographic regions, including Europe, America, Australia and Asia are studied from an historical and contemporary perspective to understand city form, culture, politics, economics and function, ecology and sustainability.
Prerequisite(s): ADB012  Credit points: 12  Contact hours: 2 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB014 Contextual Studies 4
Contemporary Thinking and Architectural Culture. This unit aims to consolidate for students a theoretical contemporary framework in which to locate key moments in contemporary architectural and cultural production from diverse contexts. It introduces students to contemporary debates and endeavour to de-mystify the language of contemporary architectural ideas and aesthetics in order to promote self-directed interest in contemporary theory and criticism.
Prerequisite(s): ADB013  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

ADB022 Technology and Science 2
This unit considers in detail domestic scale building, basic design for climate and energy conservation. The implications of the principles of the subject on the form and fabric of buildings are illustrated.
Prerequisite(s): ADB021  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

ADB023 Technology and Science 3
This unit considers in detail domestic scale building and design for natural ventilation, lighting, acoustics and solar
controls. Implications of the principles of the subject on the form and fabric of buildings are illustrated.

**Prerequisite(s):** ADB022  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point

ADB024 Technology and Science 4
This unit addresses building construction. It includes an overview of construction systems used in low to medium rise industrial and commercial buildings and an overview of structural considerations in steel and reinforced concrete structural systems.

**Prerequisite(s):** ADB023  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

ADB025 Technology and Science 5
This unit addresses building construction. It includes an overview of construction systems used in medium to high-rise commercial buildings, including analysis of principles, advantages, disadvantages and details of such systems. It also includes an integrated overview of medium to high-rise building services including hydraulics, lighting, electrical services, mechanical equipment and vertical transportation.

**Prerequisite(s):** ADB024  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

ADB026 Technology and Science 6
The topics in this unit include a case study of the building type being studied in ADB007, working with engineering consultants, and the programming of work.

**Prerequisite(s):** ADB025  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB031 Professional Studies 1
This unit includes theory and some estimating and specifications techniques. The theory includes an analysis of various concepts of professionalism, characteristics of professions, and a discussion of various contemporary critiques of architectural practice. Estimating involves choice of technique, accuracy, square and cube rates, cost control, feasibility, and quantity surveying. The role of specification is included.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB033 Professional Studies 3
This is a self-paced national course (BPA 2) prepared by the Royal Australian Institute of Architects as a Continuing Education program which will attract certification from the RAIA. The course covers ethical, administrative and management issues in relation to architectural practice.

**Prerequisite(s):** ADB932  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB051 Architectural Research 1
This unit provides students with an overview of research methodology. Students examine the differences between various research methods and product. A number of issues are addressed in the elected area of research including definition of study area, research aims and objectives, initial proposition, structuring research approach, analysis, and preliminary conclusions based on the literature review.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB052 Architectural Research 2
Students continue their studies on an approved topic commenced in Architectural Research 1. By means of a thesis presentation, students demonstrate their ability to define and logically argue propositions, and to conduct research to prove its validity by means of a well-constructed research project that includes critical analysis.

**Prerequisite(s):** ADB051  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

ADB053 Architectural Project
The major project, selected by students and approved by the unit coordinator, will have a focus work study that demonstrates the particular skills and interests of the individual. This work should be completed to a highly developed and resolved standard.

**Prerequisite(s):** ADB009, ADB067  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB063 Architectural Applications 3
The unit is used to increase the student's experience in applying theory to architectural problems, including the following: site analysis, levels and contours; practical experiments in Design Science; construction detailing and documentation through drawings, models and computer simulation.

**Prerequisite(s):** ADB062  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

ADB064 Architectural Applications 4
This unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Prerequisite(s):** ADB063  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

ADB065 Architectural Applications 5
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Prerequisite(s):** ADB064  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

ADB066 Architectural Applications 6
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.

**Prerequisite(s):** ADB065  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

ADB067 Elective Architectural Applications
This unit provides an opportunity for students to develop and strengthen areas of interest in a program of their choice, to be approved by the Course Coordinator.
example, it may be used to develop the Architectural Research 2 program to the presentation of a dissertation or enhance knowledge and skills in other subject areas.

ADB103 Interior Design 3
This unit includes an introduction to the theoretical constructs of person-environment interaction and modes of interaction incorporating theories from disciplines including philosophy, psychology, social science and cultural and communication studies. Other conceptual frameworks are introduced and explored including modernism, post-modernism, feminism and pluralism and issues of designing incorporating site, values, activities and technology. Prerequisite(s): ADB102 Corequisite(s): ADB123
Credit points: 12 Contact hours: 6 per week Campus: Gardens Point

ADB104 Interior Design 4
This unit includes the following areas of study: ethics and topical social issues; the responsibilities of a designer in a contemporary context; application and development of an integrated design approach explicitly informed by theory, philosophy, ethics, and current demands and considerations. Prerequisite(s): ADB103 Corequisite(s): ADB124
Credit points: 12 Contact hours: 6 per week Campus: Gardens Point

ADB105 Interior Design 5
This unit includes the following areas of study: designing as practice; a critical approach to design and designing; tools for fostering alternative ways of thinking and imagining person-environment relationships and interaction; the work of national and international designers; future scenarios. Prerequisite(s): ADB104 Corequisite(s): ADB125
Credit points: 12 Contact hours: 6 per week Campus: Gardens Point Teaching period: 2007 SEM-1

ADB106 Interior Design 6
The content covered in this unit includes major aspects covered in the course to date and content identified by the student as significant in their response to the project. Prerequisite(s): ADB105 Corequisite(s): ADB126
Credit points: 12 Contact hours: 6 per week Campus: Gardens Point Teaching period: 2007 SEM-2

ADB123 Interior Technology 2
This unit includes the following topics: documentation; analysis and recording of small-scale commercial interiors; building regulations and their relationship to public responsibility; building materials; sustainability. Prerequisite(s): ADB122 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

ADB124 Interior Technology 3
This unit includes the following topics: documentation techniques; sustainable design and construction; services; consultants; codes and standards. Prerequisite(s): ADB123 Credit points: 12 Contact hours: 4 hours per week Campus: Gardens Point

ADB125 Interior Technology 4
This unit includes the following topics: theoretical analysis of interior construction and materials; analysis of partition and furniture systems; comparative analysis of building types; CAD documentation; basic estimating and quoting; introductory specification writing. Prerequisite(s): ADB124 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

ADB126 Interior Technology 5
This unit includes the following topics: documentation; critical investigation of interior construction processes; environmental system analysis; the interface with consultants, builders and contractors; leasing and other tenancy occupation issues. Prerequisite(s): ADB125 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-2

ADB132 Design in Society 1
Issues of the international design community are explored in this unit. The historical framework is reassessed in relation to changing technology, communication, transport systems and the advent of shifts in space and time such as virtual reality. The merging of cultures and understandings of design are critiqued in the light of their potential to influence the contemporary and future designer. Specific attention is given to interior design. Other aspects involved include belief systems and their influence on design and design practice (eg economic rationalism, capitalism, modernism, etc). Credit points: 12 Contact hours: 3 per week Campus: Gardens Point

ADB133 Design in Society 2
Issues covered in this unit include the following: the current context of the contemporary Australian interior designer; theoretical perspectives and exploration of their limitations and potential; relevant legal issues, ethics and professionalism. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1

ADB153 Material Studies
This unit addresses the following topics: textile manufacture and application; interior decorative finishes; building codes and standards relevant to material quality and performance; documentation and specification of finishes and fittings; the relationship between design technology and material selection; the role of contextual frameworks on designers' decisions in regard to materials. Credit points: 12 Campus: Gardens Point

ADB154 Furniture Studies
This unit addresses the following topics: a focus on visual cues, psychological responses and other interaction factors through an historical analysis of the role of furniture design; furniture and contemporary and future trends; furniture design and documentation approaches. Credit points: 12 Contact hours: 3 hours per week Campus: Gardens Point Teaching period: 2007 SEM-2
ADB203 Industrial Design 1
The studio exercises to which most of the time is devoted in this unit are aimed at a range of different product designs. The following theoretical topics are associated with them: scope of problem solving theory; special characteristics of design problems; design and application transfer; design heuristic, creativity and innovation and general psychological theories of creativity; visual thinking and the design process; design ethics and culture, and designer's responsibilities toward the environment.  
**Prerequisite(s):** ADB202  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

ADB204 Industrial Design 2
The studio exercises to which most of the time is devoted in this unit aim at a range of different product designs. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; design ethics and culture; designer's responsibilities toward the environment. The complexity and depth of the design project will increase according to the semester level.  
**Prerequisite(s):** ADB203  
**Corequisite(s):** ADB224  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

ADB205 Industrial Design 3
The studio exercises to which most of the time is devoted in this unit aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; working with an industry client; interdisciplinary teamwork; design ethics and culture; the designer's responsibilities toward the environment.  
**Prerequisite(s):** ADB204  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

ADB206 Industrial Design 4
The studio exercises in this unit aim toward design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters. The following theoretical topics are associated with them: methodological issues of design; design process and creative thinking; creativity and product innovation; work with an industry client; interdisciplinary teamwork; design ethics and culture; designer's responsibilities toward the environment.  
**Prerequisite(s):** ADB205  
**Corequisite(s):** ADB226, ADB236  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

ADB224 Industrial Design History Theory and Criticism 1
This unit addresses the following topics: pre-historical artefacts and their evolutions; innovations in Asia; arts and crafts movements; development of mass-production and its impact on society; social and cultural changes influenced by design; design and politics; ideology of industrialisation.  
**Corequisite(s):** ADB204  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

ADB226 Industrial Design History Theory and Criticism 2
This unit addresses the following topics: product evolution; Australian inventions; contemporary design; social and cultural changes influenced by design; design and politics; ideology of industrialisation; the meaning of products; designers' responsibilities toward the users and environment; design activity and design knowledge.  
**Prerequisite(s):** ADB224  
**Corequisite(s):** ADB206  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

ADB233 Manufacturing Technology 1
This unit addresses the following topics: application of engineering mechanisms to products or systems; analysis of the performances of mechanical, electrical, hydraulic and pneumatic mechanisms in relation to particular functions; modelling methods and techniques for determining the behaviour of a system or product; introduction to electronics; plastics manufacturing techniques; the relationships between the properties of material and the industrial processes available for their fabrication. The unit also includes an introduction to technical documentation and communication.  
**Prerequisite(s):** ADB921  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

ADB234 Manufacturing Technology 2
This unit addresses the following topics: electronics, plastic, production techniques in relation to different materials; various methods for different finishing operations; various methods for forming; automatic and semi-automatic assembly quality control methods; production cost. Field studies consist of site visits to selected manufacturing industries, technical documentation and communication.  
**Prerequisite(s):** ADB233  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

ADB235 Manufacturing Technology 3
This unit addresses the following topics: product analysis; product development strategies; industrial production economics; organisation, planning and technologies required for advanced manufacturing and its impact to product design solutions.  
**Prerequisite(s):** ADB234  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

ADB236 Manufacturing Technology 4
This unit addresses value analysis, technical documentation and communication. Field studies complement the lecture series.  
**Prerequisite(s):** ADB235  
**Corequisite(s):** ADB206  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

ADB244 Computer Aided Industrial Design 1
This unit includes the following topics: an overview of the development of the use of Computer Aided Industrial Design by industrial designers in the design process; application of CAID to 3D solid modelling concepts; 3D
spatial relationships; design documentation; 3D model to 2D engineering drawings; development of skills in the use of Computer Aided Industrial Design (CAID) for evaluating; documenting and presenting design proposals through computer rendered and animated images.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

ADB245 Computer Aided Industrial Design 2
This unit addresses the following topics: introduction to 3D surface modelling concepts for complex form development and documentation; introduction to NURBS based surface modelling; case studies on CAID as applied to industrial design; application of complex 3D Surface modelling techniques, as applied to design form evaluations and form refinement using rapid prototyping; further development of shading techniques; advanced animation; design documentation.

Prerequisite(s): ADB244  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB795-1 Practice Experience A
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points.

Credit points: 18  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

ADB795-2 Practice experience A
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 36 credit points.

Credit points: 18  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

ADB796-1 Practice Experience B
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points.

Credit points: 30  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

ADB796-2 Practice Experience B
This practice experience partnership with the architectural profession will enable the students to increase their skills in the practical application of theory in 'real life' architectural projects. Students need to complete parts 1 and 2 of this unit to achieve the 60 credit points.

Credit points: 30  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

ADB912 Human Environment 2
The unit focuses on the following: psychosocial issues and privacy, perception, personal space, territoriality, cognition, way finding and cultural diversity.

Prerequisite(s): ADB911  Corequisite(s): ADB013 (Arch), ADB123 (IntDes)  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

ADB913 Human Environment 3
This unit addresses the following topics: theories of cultural development and social change; consideration of the role of designed artefacts in those processes; political and social theories pertaining to design and development of the built environment; contemporary theories of post-industrialism, post-colonialism and multiculturalism; implications for design for the built environment; the roles and responsibilities of design professionals, historically and in contemporary society.

Prerequisite(s): ADB912  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB932 Professional Studies 2
This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIA certification.

Prerequisite(s): ADB031  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

ADB941 Elective 1
The student will choose elective units to extend and expand an area of knowledge or experience to develop in depth a particular professional expertise. These units may be drawn from an existing range of units available within the School. The electives are to be approved by the Course Coordinator.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

ADB942 Elective 2
The student will choose elective units to extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. These units may be drawn from an existing range of units available within the School, Faculty or University. The electives are to be approved by the Course Coordinator.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

ADB943 Elective 3
Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. Units may be drawn from an existing range of units available within the University and must be approved by the Course Coordinator.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1, 2007 SUM-2 and 2007 SEM-2

ADB944 Elective 4
Elective units chosen will extend and expand an area of knowledge or experience to develop, in depth, a particular
ADP107 Interior Design 7
This unit provides students with the opportunity to pursue a topic of personal and professional relevance in consultation with staff. The topic will form the focus of a major design/research project incorporating this unit and ADB108. The unit covers topical identification, qualification and substantiation, context exploration, and consolidation.

Corequisite(s): ADP161
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADP108 Interior Design 8
This unit provides students with the opportunity to develop an in-depth understanding of an area of interior design of personal and professional relevance in consultation with staff. The unit covers project development and the exploration of associated issues.

Prerequisite(s): ADB107
Corequisite(s): ADP162
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2007 SEM-2

ADP114 Professional Studies 1
This unit addresses the following topics: the interior design profession, its organisation and theoretical and practical relationship with other professions and disciplines; professionalism incorporating ethics, industry product safety standards and continuing education; specific responsibilities involving brief development; post-occupancy evaluation.

Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1

ADP155 Interior as a Construct 1
Designers require a deep conceptual understanding of the relationship between artefact and culture and they need a vehicle for supporting this development. The focus in this unit is on the conservation of historic interiors and includes: historic interior exemplars; social and cultural identity; conservation; preservation and restoration; relevant charters and policies.

Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1

ADP156 Interior as a Construct 2
In this unit, stage design will be used as a frame-of-reference for exploring various aspects of person-environment interaction such as play and imagining. In addition, the unit provides a basis for exploring notions of temporary, transitory space and virtual reality.

Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-2

ADP161 Interior Research 1
This unit provides methodological support for the major project in ADP107. It includes the following: empirical research with an emphasis on qualitative research relevant to person-environment interaction; research rigour incorporating attention to validity, reliability and generalisation; advanced information retrieval; literature search and review.

Corequisite(s): ADP107
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1

ADP162 Interior Research 2
This unit provides methodological support for the major project in ADP108. The ability to undertake empirical research is considered an integral aspect of responsible designing. The unit content covers data collection, analysis and reporting.

Corequisite(s): ADP108
Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-2

ADP207 Industrial Design 5
The studio exercises to which most of the time is devoted in this unit aim to the design of products or systems in depth. The emphasis is on integration of knowledge and skills acquired in the previous semesters, including the following: design process and creative thinking; applied research, creativity and product innovation; work with a client; multidisciplinary teamwork; product integration and development; design ethics and culture; the designer's responsibilities toward the environment.

Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADP217 Professional Practice and Management
This unit addresses the following topics: the role of professional practice management; management of design projects; types of contracts; design documentation; the role of design administration; liability; design law; intellectual property; designer-client relationships.

Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1

ADP218 Advanced Ergonomics
This unit addresses the basics of cognitive ergonomics, product usability evaluation methods and their applications, and case studies.

Credit points: 12
Contact hours: 4 per week
Campus: Gardens Point
Teaching period: 2007 SEM-2

ADP247 Advanced Computer Aided Industrial Design
This unit introduces parametric based modelling, hybrid based modelling, application of rapid prototyping and rapid tooling to the design process, and the application of concurrent engineering to the design process.

Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1

ADP267 Industrial Design Research 1
The unit allows applied research to be selected by a student, approved and supervised by the industrial design staff. External specialists may be involved as required.

Credit points: 12
Contact hours: 5 per week
Campus: Gardens Point
Teaching period: 2007 SEM-1 and 2007 SEM-2
ADP268 Industrial Design Research 2A
This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.
Prerequisite(s): ADP207, ADP267
Credit points: 12
Contact hours: 4 per week
Teaching period: 2007 SEM-1 and 2007 SEM-2
Campus: Gardens Point

ADP269 Industrial Design Research 2B
This unit depends on the topic selected by a student in the previous semester. Students are responsible for the program as a part of their project work, which will be approved and supervised by the industrial design staff.
Prerequisite(s): ADP207, ADP267
Credit points: 12
Contact hours: 4 per week
Teaching period: 2007 SEM-1 and 2007 SEM-2
Campus: Gardens Point

ADP932 Professional Studies 2
This unit offers a self-paced national course (BPA 1) prepared by the RAIA as a basis for the formal examination for registration as an Architect. It covers the context of profession, professional ethics, and the range of professional services from engagement to completion of a project. Completion of course will attract RAIA certification.
Credit points: 12
Contact hours: 4 per week
Teaching period: 2007 SEM-2
Campus: Gardens Point

ADP943 Elective 3
The student chooses elective units to extend and expand an area of knowledge or experience to develop in depth a particular professional expertise. These units may be drawn from an existing range of units available within the Faculty and University. The electives are to be approved by the Course Coordinator.
Credit points: 12
Contact hours: 3 per week
Teaching period: 2007 SEM-2
Campus: Gardens Point

ADZ005 Architectural Design 5
Design theory, sustainability, sociological and contextual concerns related to particular design problems. The unit often includes a 'community service' project, generally a collaborative, participatory design with selected community groups as 'client'.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ006 Architectural Design 6
This unit includes design theory, urban sustainability, sociological and contextual concerns related to particular design problems.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ012 Contextual Studies 2
Australian and Oceanic architecture is examined from pre-European settlement times to the present. The work is looked at in the context of European and American influences and the Asian-Oceanic context. The examples are studied in relation to broad social, historical and aesthetic backgrounds. Course work will include an introduction to research of local architectural history, and visits to key buildings.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ024 Technology and Science 4
This unit addresses building construction. It includes an overview of construction systems used in low to medium rise industrial and commercial buildings and an overview of structural considerations in steel and reinforced concrete structural systems.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ065 Architectural Applications 5
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ066 Architectural Applications 6
The unit is used to increase the student's experience in applying theory to architectural problems. It includes exercises in construction detailing and documentation.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ913 Human Environment 3
This unit addresses the following topics: theories of cultural development and social change; consideration of the role of designed artefacts in those processes; political and social theories pertaining to design and development of the built environment; contemporary theories of post-industrialism, post-colonialism and multiculturalism; implications for design for the built environment; the roles and responsibilities of design professionals, historically and in contemporary society.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

ADZ942 Elective 2
The student will choose elective units to extend and expand an area of knowledge or experience to develop, in depth, a particular professional expertise. These units may be drawn from an existing range of units available within the School, Faculty or University. The electives are to be approved by the Course Coordinator.
Credit points: 12
Campus: City University of Hong Kong
Teaching period: 2007 SEM-1 and 2007 SEM-2

AMB200 Consumer Behaviour
This unit provides students with the fundamental theories and models to develop a sound understanding of consumers, their needs, and behaviours. It provides a detailed examination of the consumer decision process and the internal and external influences on this core decision process. The unit also assists students in applying this knowledge to the development, implementation and evaluation of marketing activities within an organisation.
Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126
Credit points: 12
Contact hours: 3 per week
AMB201 Marketing and Audience Research
This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey and experimental research are employed to support advertising, marketing and public relations information needs. The unit provides an overview of research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.
Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126
Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: MIB204 or CTB200

AMB202 Integrated Marketing Communication
In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a 'total' approach to planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.
Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126
Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: MIB305, MGB220 or COB334 or CTB201

AMB220 Advertising Theory and Practice
This unit serves as an introduction to later units in the advertising major and gives learners an overview of the advertising industry and the management of the advertising function. The unit traverses the interrelationship of the institutions of advertising, the advertisers, the advertising agencies and the media. It introduces research and details methods of determining advertising objectives, budgets, establishing target audiences, interpreting audience ratings and circulation figures, and enables learners to gain a preliminary understanding of the creative functions of the advertising industry. It also shows the ethical and legal side of advertising and its important role in society and the economy.
Prerequisite(s): BSB126 or BSB116 or BSB117 or CTB126 or 48 credit points of approved prior study for non-Bachelor of Business students only  Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: COB308

AMB221 Advertising Copywriting
There are two parts to any copywriting process the thinking and the writing. In the first part, students learn to solve advertising problems through an understanding of the prospect and the product and the formulation of incisive creative strategy. In the second part, creative thinking techniques are applied and advertising concepts emerge from the creative strategy. Students' thinking and writing skills are refined in weekly workshops and culminate in a group project.
Prerequisite(s): AMB220 or COB308  Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: COB304

AMB222 Media Planning
This unit introduces the qualitative and quantitative factors affecting media selection and use by advertisers. It covers the costing and scheduling of media, market targeting, measuring media exposure, media comparisons and trends. In-depth analysis of advertising media will allow learners to develop an understanding of the characteristics of each. The application of the concepts of media decision making, media strategy and research to the development of a media plan are emphasised.
Prerequisite(s): AMB220  Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: COB317

AMB230 Internet Promotion
This subject addresses an important area of business activity and explores the way in which the Internet is changing marketing practice. The foundations of promotion are examined and applied online. The nature, history, and social implications of the Internet are explored. The promotional mix is analysed with a strong focus on developing successfully integrated web sites for organisations. Learners will develop skills in strategic planning, creative strategy, design, web development as it relates to advertising and promotion, research, and campaign evaluation. Learners will gain important skills in the planning, developing and marketing of websites.
Prerequisite(s): AMB220  Credit points: 12  Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: COB218

AMB231 Marketing Communications Regulations and Ethics
This unit uses a case study approach and starts from the fundamentals of legal compliance through trade practices
and fair trading legislation, then moves to the adoption and adherence of the variety of industry based and professional codes. It examines regulatory models in sunrise industries such as broadcasting and telecommunications as well as the problems of cross-jurisdictional regulation posed by Internet based commerce. It offers students the opportunity to develop generic attributes in critical thinking, problem solving, and ethical sensitivity.

Prerequisite(s): AMB202 or AMB220 or AMB240 or AMB260 Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-2
Incompatible with: COB307

AMB240 Marketing Planning and Management
This unit extends the student's knowledge of the fundamental marketing concepts and theories introduced in the Faculty Core unit in Marketing, by adding further breadth and depth of knowledge of marketing and developing skills in the application of this knowledge to marketing planning and management within the business environment.

Emphasis is on the role of the marketing manager at the product management level in undertaking analysis, planning, implementation and control of marketing activities.

Prerequisite(s): BSB126 or CTB126 Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2
Incompatible with: MIB217 or CTB240

AMB241 E-Marketing Strategies
E-business and mobile commerce technologies have emerged as defining technologies for companies in the 21st century. This unit focuses on e-marketing applications and strategies and the marketer's role in developing solutions that integrate new and old economies. Drawing on their knowledge of marketing principles, students will examine the diverse applications of technology in product and service design; product distribution/service delivery and logistics; promotional strategies and other marketing components. The unit also explores the role of emerging electronic models and the use of e-marketing strategies to achieve global competitive advantage.

Prerequisite(s): BSB116 or BSB126 or CTB126; and AMB240 or CTB240 Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2
Incompatible with: MIB224

AMB249 Professional Selling
Many students land their first job in a graduate sales position. Professional selling equips students with a contemporary understanding and knowledge of customer relationship management, the sales force environment, personal selling techniques and communications skills. Further, students will be exposed to international benchmarks from a selling processes perspective such as identifying prospects, planning sales calls, demonstrations, negotiations, and closing the sale. There are many exciting and challenging roles in sales, some of which are: sales representative, sales team leader, client account manager, and eventually: regional, state, national and international sales management positions.

Prerequisite(s): BSB126 or BSB116 or CTB126 Credit points: 12 Contact hours: 3
Campus: Gardens Point  Teaching period: 2007 SEM-2
Incompatible with: MIB230

AMB250 Business to Business Marketing
This unit addresses the special characteristics of Business markets and Business-to-Business (B2B) marketing programs. It involves the study of organisational buyer behaviour and the special customer/client relationships that form an important part of the Business-to-Business marketing process. Business markets constitute a powerful and essential part of the world economy, being a preliminary source for retailing and manufacturing operations and the force behind major services sectors in supplying government and non-government services including health and education both domestically and internationally.

Prerequisite(s): AMB202 or AMB240 or CTB240 Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1
Incompatible with: MIB220 or MIB319

AMB251 Innovation and Market Development
This unit covers the dynamics of product and service innovation within the marketing function of an organisation. Products are defined in the broadest sense as both tangible and intangible and include the various categories of consumer and industrial products and services. The course covers product market analysis, the product/service development process, design, innovation, research and testing, new product financial analysis, branding and packaging, and new product commercialisation.

Prerequisite(s): BSB116 or BSB116 or CTB126
Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2
Incompatible with: MIB227

AMB260 Public Relations Theory and Practice
This unit introduces the student to the theory and research that serves as the foundation of the practice of public relations. The unit surveys the history of the discipline, the theories on which the discipline is based, and current models of practice. The unit focuses on understanding how to research and analyse the opinions of organisational publics in order to develop mutually beneficial relationships with those publics.

Prerequisite(s): BSB126 or BSB116 or CTB126 or 48 credit points of previous study for non-Business students only Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2
Incompatible with: MIB226

AMB261 Media Relations and Publicity
This unit will reflect the strong emphasis within public relations practice of media relations. It will introduce students to the theory of media effects and the role of mass media in public opinion formation and how these concepts contribute to campaign planning. It will also provide students with practical instruction in the development of media tools including media releases, media kits and media plans, and the use of publicity events in campaigns. New/interactive media will also be addressed.

Prerequisite(s): AMB260 Credit points: 12 Contact hours: 3 per week
Campus: Gardens Point  Teaching period: 2007 SEM-2
Incompatible with: COB325
to develop sound advertising strategy, which is then measured. The key emphasis is on the use of research to develop advertising solutions that incorporate all aspects of advertising major, and applies it to a client brief. Learners will examine the relationship between the formulation of objectives, strategy and budget to the advertising campaign management process such as legal and ethical issues, globalisation and the client-agency relationship are discussed.

**Prerequisite(s):** AMB260  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** COB326

### AMB310 Internship

Provides the student with experience of professional practice in a suitable company where they actively work on a part-time basis. Students undertake a preferred study program within the Advertising, Marketing or Public Relations framework. Students are required to submit a number of reports reflecting the theoretical concepts acquired during the degree program, and how they might be applied in practice. Students must obtain the approval of the Major Coordinator prior to enrolling in this unit.

**Prerequisite(s):** AMB221, AMB222 or AMB241 or AMB261, AMB262 and a GPA of 4.0 or higher  
**Corequisite(s):** AMB320 or AMB340 or AMB360  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  
**Incompatible with:** COB320; COB321; MIB308

### AMB320 Advertising Management

This unit takes the perspective of the Advertising Manager and addresses the use of research in developing, implementing, managing, and assessing a successful advertising campaign. In Advertising Management, learners use the case method of learning to examine the advertising process from its place in the marketing mix to the formulation of objectives, strategy and budget to the development of creative and media tactics and their ongoing evaluation. In addition, issues that impinge upon the advertising campaign management process such as legal and ethical issues, globalisation and the client-agency relationship are discussed.

**Prerequisite(s):** AMB221 and AMB222  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** COB306

### AMB321 Advertising Campaigns

This capstone advertising unit draws from all the theoretical, analytical, and applied material developed throughout the advertising major, and applies it to a client brief. Learners develop advertising solutions that incorporate all aspects of an advertising campaign, including objectives, budgeting, message development, message delivery, and measurement. The key emphasis is on the use of research to develop sound advertising strategy, which is then executed as creative and media ideas and evaluated through ongoing benchmarks.

**Prerequisite(s):** AMB221 and AMB222  
**Corequisite(s):** AMB320  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** COB303

### AMB330 Advertising Strategy and Planning

This advanced unit builds on the theoretical perspectives and applied skills introduced to students in copywriting, media and advertising management. It explores important issues such as the contribution of research to the creation of advertising; the hierarchical development of strategy from marketing and IMC strategy through to advertising, media and creative strategy; the role of the strategic planner in advertising; the use of planning to deliver more effective advertising solutions. Using problem-based learning, students establish benchmarks to evaluate advertising, develop advertising briefs and devise strategies for on-time and on-budget process management.

**Prerequisite(s):** AMB221 and AMB222  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** COB300

### AMB331 Direct Marketing

The discipline of Direct Marketing has grown in importance because of its precise targeting, easy accountability, its foundations role in Integrated Marketing Communication (IMC), and its increasing share of the marketing communication budget. This unit focuses on the principles of direct marketing and the role of the database in locating prospects, tracking customers, and building relationships. It examines the components of direct marketing, telemarketing, personal selling, and direct response advertising. As the main communication discipline of direct marketing, the emphasis is on direct response advertising. Students study the offer planning, strategy, creative, media, testing, and evaluation of direct marketing campaigns.

**Prerequisite(s):** AMB202 or AMB220 or AMB240 or CTB240 or AMB249  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** COB315

### AMB340 Services Marketing

This unit explores the special characteristics of services that distinguish the marketing of services from goods. Topics include: the distinctive aspects of consumer decision-making relative to services and the implications for marketing strategy formation; the management of demand and supply; customer services and its influence on service satisfaction; service quality management and measurement; internationalisation of the service sector and distribution modes for services that reflect the significant impacts of new technologies on service delivery.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** MIB311, CTB340

### AMB341 Strategic Marketing
Emphasis of the capstone Marketing unit is on the role of marketing manager at the corporate and strategic business unit/division levels. Students are exposed to a variety of strategic marketing techniques and issues, and learn how to apply these in corporate planning and management. Topics include: developing and critiquing strategic marketing planning models; recognising the importance of market focus; determining what marketing strategy can realistically be accomplished for a business; identifying underlying factors that must be considered in developing marketing strategy for a market-oriented organisation; discussing problems in successful implementation of marketing strategy; and organising for successful strategy implementation.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** MIB315, CTB341

**AMB350 Sales and Customer Relationship Management**

Theories related to marketing exchange and the concepts of consumer transactions and relationships and their relative importance in different marketing contexts are examined. The growth of customer relationship management including the transition of consumers along the transaction-relationship continuum and the development of accompanying marketing strategies is highlighted. A discussion of the relative emphasis on transactions and/or relationships in interfacing with the market provides a platform for examining sales management including, personal selling principles and ethics, the setting of sales objectives, selling logistics, account and territory management, sales force planning, recruitment and motivation and evaluation of sales performance.

**Prerequisite(s):** AMB240 or AMB202 or COB207 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** MIB230

**AMB351 Tourism Marketing**

This unit examines the tourism system and the unique characteristics of tourists, segmentation bases for tourist markets, the nature of the tourist destination mix and how marketing is applied within elements of that mix. Services marketing concepts and theories of tourist behaviour are utilised in the analysis of the tourism experience; processes of destination and product development to meet market needs; and, strategy development to accommodate domestic and international tourism marketing environments. Macro-environmental issues impacting on tourism, such as sustainability of the industry and environment, the socio-political context in which marketing occurs and global trends in travel are also explored for their marketing implications.

**Prerequisite(s):** AMB240 or CTB240  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** MIB321

**AMB352 Marketing Decision Making**

The nature of decisions and decision models in specific strategic and tactical areas of marketing management are examined in this unit. Decisions related to sales forecasting, market analysis, product planning, pricing, promotion and distribution are viewed from quantitative and qualitative perspectives. Students are exposed to computer software and analysis skills that aid the marketing decision process and build their analytical skills of direct relevance in marketing practice. The unit also embraces the analysis and application of marketing information systems including database marketing and the Internet as a marketing information resource.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** MIB320, MIB216

**AMB353 Retail Marketing**

This unit focuses on the dynamics of the retailing industry. It provides students with detailed knowledge of the various approaches to how retail marketing is conducted nationally and internationally from both an operational and a strategic perspective. The unit provides a balance of theory and application in topics such as retail institutions and the retail life cycle, store location analysis, store layout, planning and design, merchandising, promotion and stock planning, franchising and industry trends.

**Prerequisite(s):** AMB240 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** MIB229, MIB310

**AMB354 Events Marketing**

Events have become significant strategic marketing tools for positioning products/services, industries, destinations and community interests at the local, national and global levels. The unit initially explores various types, roles and objectives of events and the profile and motives of event markets and stakeholders. Key topics include; processes of attracting or developing the event experience including bidding processes; partnership creation with sponsors, media and community; venue selection and design relative to market/stakeholder needs; ticketing/pricing or access management and imaging the event from an integrated marketing communication perspective. Local and international cases are used.

**Prerequisite(s):** AMB202 or AMB240 or COB207 or CTB240 or MIB217  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** MIB319

**AMB360 Corporate Communication Management**

The unit explores the corporate communication management function within an organisation and identifies how decisions about the use of various corporate communication solutions are made. Emphasis is placed on the role of corporate communication in management systems, the nature and processes of information management in corporate communication and environmental analysis. The unit also draws on contemporary issues in corporate communication management including issues management, ethical and legal considerations in practice and the role of corporate communication in organisational change.

**Prerequisite(s):** AMB261 and AMB262  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2
AMB361 Public Relations Campaigns
This unit focuses on the public relations campaign planning process from problem identification and research through to strategy development, campaign development and evaluation. It is designed to meet the students' interests in understanding how various campaign elements come together and to test their ability to integrate their prior learning in the introductory theory and practice units. To service the practice elements of public relations implementation, the unit incorporates a number of client service aspects. Students are expected to research, develop and present their plans. This unit incorporates real world clients to enhance the students' portfolios.
Prerequisite(s): AMB261 or AMB262  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CONB323, AMB381

AMB370 Public Relations Cases
This unit will provide students with an understanding of a wide range of public relations challenges in order to build a better range of experience with management level organisational issues. Australian and international cases will be used to explore different components of public relations practice.
Prerequisite(s): AMB261 or AMB262  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

AMB371 Corporate Communication Strategies
This unit provides students with an understanding of the development and analysis of communication strategy in public relations and corporate communication. Students learn theory and practice for systematic analysis of the "fit" between environmental factors and organisational resources, the resulting communication problems and development of communication strategies. Students integrate theory and research in such areas as media effects, organisational change, diffusion, and persuasion for analysis and development of communication strategy.
Prerequisite(s): AMB360 or AMB361  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

AMN400 Consumer Behaviour
This unit provides an introduction to the area of consumer behaviour and a forum for discussion of theory and research in the field. The current state of consumer behaviour research will be reviewed and some of the emerging trends in the area are explored through several avenues of assessment. The unit provides the environment for students to conduct their own research in areas that are relevant, of interest to them and reflect the interdisciplinary nature of consumer behaviour.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: MIN419

AMN401 Integrated Marketing Communication
Integrated marketing communication (IMC) is a new discipline that seeks synergistic effect from integrating traditional marketing communication disciplines. This unit explores the development of IMC, looking at reasons for growth, barriers to implementation and organisation issues. Students are introduced to the strategic foundations of IMC, from consumer behaviour, to marketing strategy, to IMC campaign evaluation. The disciplines of advertising, public relations, direct response and sales promotion are then explored to highlight how each contributes to IMC planning.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CON421

AMN403 Marketing and Survey Research
This unit provides a detailed overview of marketing research to support decision making in the areas of advertising, integrated marketing communication, marketing and public relations. The unit builds an advanced understanding of the use of survey research to support the descriptive and predictive information needs of management in such areas as consumer opinions and behaviour, and stakeholder analyses. Students will explore issues related to survey research design, questionnaire development and administration, sampling, measurement, data analysis including descriptive and multivariate statistics and presentation of research results.
Prerequisite(s): Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: MIN413

AMN404 Readings in Integrated Marketing Communication
The unit provides participants with the opportunity to make a detailed exploration of the literature on a particular topic or problem in the area of Integrated Marketing Communication under the direction of a supervisor. The readings integrate and consolidate theory and research related to IMC and from other studies undertaken in the course. Students undertake a formal and systematic review of literature in a particular problem area of IMC related to their interests, project or thesis. Students may also explore work covered in other specialisations.
Prerequisite(s): AMN401  Credit points: 12  Contact hours: Supervision only, Lecture in Week 1  Campus: Gardens Point  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: CON416

AMN405 Cases in Integrated Marketing Communication
This unit provides students with the opportunity to explore a range of topics related to the integration of the elements of the promotional mix-advertising, personal selling, reseller support, publicity, direct marketing, and sales promotion. Through the use of intensive case study analysis and discussion, students will refine conceptual understanding and analytical skills to explore such IMC topics as brand equity and IMC, IMC approaches to promotions management, organisational issues related to structuring corporate IMC functions, environmental analysis and database marketing to inform IMC planning, and IMC strategies and the development of corporate advantage.
### UNIT SYNOPSES

**Prerequisite(s):** AMN401  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**AMN406 Project**  
In this unit, students examine in detail a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based on the published journal literature of the discipline and can involve primary research and analysis. Students can develop a communication audit of an organisation or a case study related to an organisation product or issue. Project supervision will be arranged by the Unit Coordinator through consultation with the student and available staff members.  
**Prerequisite(s):** Postgraduate enrolment with 96 credit points of approved prior studies  
**Credit points:** 24  
**Contact hours:** 2-6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  
**Incompatible with:** CON405

**AMN411 Independent Study**  
An opportunity for advanced level postgraduate students to undertake short-term, individual studies focusing on a problem area of advertising, marketing, public relations or integrated marketing communication.  
**Prerequisite(s):** p/g enrolment only  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2 and 2007 SUMMER

**AMN420 Advertising Management**  
This unit empowers students to make effective management decisions within the advertising process. It examines the setting of advertising objectives, and the need for coordination of these with marketing, communication and organisational objectives. It develops a sound understanding of advertising regulations and ethics, budgeting, research and campaign coordination. It further examines management's participation in the creative, media and production processes, and the contribution of advertising management to the cohesion and creativity of the agency.  
**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** CON417

**AMN421 Contemporary Issues in Advertising**  
This unit surveys the intellectual foundations of a number of contemporary issues emerging within the advertising discipline and provides sophisticated, systematic explanations of their societal implications and consequences. It also explores how these issues are addressed by business, government and organisation.  
**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** CON412

**AMN422 Media Strategy**  
One of the ultimate determinants of the effectiveness of any advertising campaign is the media strategy. This unit examines ways to improve efficiency in media planning, buying, coordination and research. It examines concepts of media decision making, market targeting through the creative use of media, and strategic planning. It explores current media campaigns and encourages the development of a more creative and integrated approach to media.  
**Prerequisite(s):** p/g enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** CON418

**AMN423 Strategies for Creative Advertising**  
This unit explores the substantive body of academic research on creative advertising. It follows the creative process, beginning with the development of creative strategy and concluding with campaign evaluation. Through cases and presentations, student examine how copywriters think, the illumination of the 'big idea' and its execution across the very diverse advertising media.  
**Prerequisite(s):** p/g enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CON419

**AMN442 Marketing Management**  
The study of marketing, marketing systems and marketing management and marketing planning within contemporary structure of social, cultural, political, economic, business and organisational environment. Concepts are applied through the study and construction of a marketing plan, which involves market and sales analysis, target market strategies, tactical decision planning, and implementation and control. Marketing management concepts are applied to virtual and physical markets and attention is given to a range of skills in finance, human resources, information and other skills needed by marketing managers in these markets.  
**Prerequisite(s):** p/g enrolment only  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** MIN422

**AMN443 Product and Service Innovation**  
This unit examines the dynamics of innovation and development within the mix of core marketing activities of organisations. Once establishing the integral role innovation plays in organisations, the unit also reviews the key stages in the process of creating, developing and implementing new product and service concepts including product, service and market analysis, design, innovation, evaluation and testing of ideas, branding and packaging, market testing and investment analysis.  
**Prerequisite(s):** Postgraduate enrolment  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** MIN423

**AMN444 Services Marketing**  
This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused marketing programs in service industries; the establishment and maintenance of
relationships with customers.

**Prerequisite(s):** AMN442  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1  Incompatible with: MIN424

**AMN445 Strategic Marketing Management**
This is a capstone unit which aims to ensure students can manage the complete marketing function at a senior level within a corporation, and includes assessing the marketing function's performance with appropriate tools to diagnose, assess, track and evaluate performance and to modify processes to improve the function. Links between the marketing function and other functions of a business such as accounting, operations and human resources are drawn, so that the student would be in a position to move into top management if the opportunity arose.

**Prerequisite(s):** AMN442  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2  Incompatible with: MIN425

**AMN447 Contemporary Issues in Marketing**
This unit offers advanced study of topical issues and emerging trends in marketing practice as a result of new technologies, current events and their impact on local, national and international enterprises. In depth interaction with business and public policy leaders expands students research, reflection and strategic thinking abilities.

**Prerequisite(s):** Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2  Incompatible with: MIN407

**AMN460 Corporate and Investor Relations**
This unit reviews all aspects of the public relations function in communicating with corporate audiences. Specific focus is placed on how corporate entities meet both regulatory and promotional requirements in communicating with special interest groups including shareholders and employees. Suitable communication tools are examined for use in ongoing communication programs.

**Prerequisite(s):** p/g enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2  Incompatible with: CON409

**AMN461 Corporate Media Strategy and Tactics**
This unit examines theories underpinning mass media and links these with the practice of public relations media tactics. Students analyse techniques and skills used in liaison with electronic media, print media, trade media and news media. Producing and evaluating communication materials such as news releases, features and media kits forms an important part of this unit. Students develop strategic thinking through analysis of contemporary media case studies.

**Prerequisite(s):** p/g enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CON424

**AMN462 Community Consultation and Engagement**
This unit introduces students to key engagement strategies of community information, consultation and participation. The unit develops student understanding of the theoretical foundations of engagement strategies and provides the skills and knowledge for students to analyse community engagement needs and establish engagement programs. Ethical practice is a key organising framework for this unit.

**Prerequisite(s):** Postgraduate enrolment  **Corequisite(s):** Nil  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2007 SEM-2  Incompatible with: Nil

**AMN463 Public Opinion and Public Relations**
This unit provides a detailed overview of the theoretical foundations and empirical research on public opinion and the implications of that theory and research to public relations management. The unit includes detailed examination of the role of mass media in the development and change of public opinion and problems related to the measurement and interpretation of public opinion. It builds an advanced understanding of the use of survey research to support the descriptive, diagnostic, and predicative information needs of management related to public opinion. The unit treats the role of public relations in efforts to shape and manage public opinion.

**Prerequisite(s):** Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point

**AMN465 Public Relations Management**
This unit provides learners with an overview of the theory and research that constitute the foundations of public relation practice. The unit provides a detailed inspection of communication processes necessary for the management of organisational relationships with publics. The unit focuses on such topics as issues management, organisational change, public opinion, and mass media effects in order to explore the foundations of contemporary public relations management.

**Prerequisite(s):** Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CON415

**AMN467 Public Relations Campaigns**
This unit provides a systematic exploration of the planning, management and evaluation of public relations campaigns and programs. The primary goal of the unit is to build a detailed understanding of existing theory and research that informs the development and evaluation of public relations campaigns. The unit focuses on key problem areas of campaign management including strategy, design and evaluation.

**Prerequisite(s):** Postgraduate enrolment  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**AMN468 Issues and Crisis Management**
This unit examines the strategic management of crisis communication including for organisations. A strategic planning approach will be covered including organisation analysis, issues identification, audience prioritisation, strategy formulation, tactical planning and implementation and evaluation. Pre-crisis issues in management will be addressed as well as proactive and defensive communication strategies during crisis. The unit will demonstrate the application of general communication tools...
to a specialised area.

Prerequisite(s): Postgraduate enrolment  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1  
Incompatible with: CON408

AMN488 Events Marketing
This unit introduces a framework for studying services and explores both strategic and operational issues including the design and delivery of services; the formulation of communication strategies; definition, measurement and implementation of customer focused, marketing programs in service industries; and the establishment and maintenance of relationships with customers.

Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1 and 2007 SEM-2

AMN489 Events Management
This unit builds an understanding of the fundamental principles of events management. The unit focuses on the application of concepts and theories that serve as the foundation for events management as they relate to a business environment. Emphasis is on building an understanding of the role of the events manager in terms of the analysis, planning, implementations and control of event activities.

Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1 and 2007 SEM-2

ARB081 History, Theory and Criticism of Urban Design
This unit includes the analysis of urban forms and systems in the pre-industrial, industrial and post-industrial periods. Specific history topics include urban activities, urban culture and diversity, urban services and urban form. This unit addresses concepts of 'good theory' of urban design in relation to the work of a number of theoretical writers and schools. Specific theoretical topics include the 'künstlerischen Grundsätzen' of Camillo Sitte, the Garden City movement, Le Corbusier and modernism, the counter-modern influences of the townscape movement, Jane Jacobs, Kevin Lynch and the Responsive Environments approaches, Christopher Alexander, Rapoport, phenomenological approaches, and recent movements such as 'the new urbanism'.

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2007 SEM-1

ARB082 Urban Design Studio B
This studio covers identification and classification of approaches to urban design, the setting of objectives, urban design rationales, the adoption of a method and the testing of implications for a particular urban design project. The unit typically involves a theory based preparation of an urban design proposal for an urban/suburban/town area, and/or an urban design issue. Where applicable, work in other units of study will be incorporated into this unit. The 24 credit points allow focus, depth and, where appropriate, joint/complementary project work with senior students in other Faculty courses. Field work is incorporated.

Credit points: 24  
Campus: Gardens Point  
Teaching period: 2007 SEM-1

ARB083 Urban Design Masters Studio
This unit is an advanced level urban design project, supported by seminars presented by staff, students and visiting lecturers and distinguished practitioners. This studio focuses on changes in the production and consumption of the city, including the effects of globalisation, space-time compression, economic rationalism, and the privatisation of space, services and professional activities.

Credit points: 24  
Campus: Gardens Point  
Teaching period: 2007 SUMMER

ARB801 Fire Technology and Science
Topics covered in this unit include the chemistry and physics of fire; heat transfer mechanisms; combustion processes; fire behaviour of materials; fire initiation and development; fire growth and spread; flashover; management of fire; theory of fire extinguishment; detection and extinguishment systems; fire brigade involvement.

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

ARB802 Human Behaviour and Fire
This unit considers fire: its effects on life and property and community costs; human studies and response models; hazardous fire environments; egress calculations and models; human behaviour including occupant characteristics, behaviour during emergencies and response times; risk management through probabilistic fire models.

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

ARB803 Fire and Building Legislation
This unit addresses: society's expectations for life safety and asset protection; the traditional prescriptive approach; performance principles and methodology; state legislation (administrative framework); PBCA 96 and Australian Standards (technical framework); legal issues related to PBCA process and procedural matters; integrated approval (dangerous goods, health care, etc)

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2007 SEM-1

ARB804 Fire Safety System Design
This unit addresses the mechanics of smoke and fire spread in buildings; smoke and fire management; external fire spread and heat radiation; fire load and severity; building structural fire performance (materials and structure); fire modelling; application of fire growth models to fire protection problems; fire protection; methodology for fire safety risk assessment; estimation of fire safety performance parameters; case studies.

Credit points: 12  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

AYB121 Financial Accounting
Financial Accounting examines of the accounting concepts and procedures relevant to both partnership and corporate structures within the context of the accounting profession's conceptual framework and the relevant accounting standards and Corporations Law requirements. Topics include: the formation, operation, financial reporting and
International Accounting

International Accounting is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. Issues examined include: comparative international accounting systems and practices; cultural influences on accounting; international financial reporting issues such as international business combinations, intangibles, foreign currency transactions and translation, comparative international analysis of financial statements; and global accounting issues in the twenty-first century. The unit also examines the impact of international harmonization of accounting standards on multinational corporations and the investment communities worldwide.

Prerequisite(s): BSB110 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1

AYB305 Company Law and Practice

This unit presents advanced topics in company law including protection of minority interests; prospectuses and fundraising; company charges; insider trading; takeovers and buy-backs; and tax law relating to financially troubled companies.

Prerequisite(s): AYB223 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2

AYB311 Financial Accounting Issues

This unit introduces students to the nature of accounting theory and integrates theory with practice to assist in the understanding of major Australian and International accounting issues. The following topics are addressed: positive and normative theories of accounting; the external reporting framework including international harmonisation and the conceptual framework; definition, recognition and measurement of assets, liabilities, equity, revenues and expenses; asset revaluations; intangibles; leases and disclosure for both partnerships and companies; accounting for leases; and the professional role of accountants. The emphasis is on the effect of the different forms of ownership on the financial statements.

Prerequisite(s): BSB110 or CTB110 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

AYB220 Company Accounting

This unit includes: the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including entities); accounting for investments in associates; accounting for foreign currency transactions arising from international trading and financing; and the translation of the results of foreign operations.

Prerequisite(s): AYB121 Credit points: 12 Contact hours: 3.5 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2

AYB221 Computerised Accounting Systems

This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

Prerequisite(s): BSB110, BSB122 or equivalent Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2 Incompatible with: CTB221

AYB222 Law of Business Associations

The unit is intended to equip students with a basic understanding and knowledge relevant to the environment of legal entities, particularly corporations. It also seeks to provide students with sufficient basic understanding of the legal structure of business associations to enable them to recognise the appropriate structure for particular commercial situations.

Prerequisite(s): BSB111 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2

AYB225 Management Accounting

This unit introduces students to accounting systems and techniques that provide management at all levels with information for use in planning, controlling and decision making. This can be contrasted with financial accounting, which provides summary financial information principally for external users (ie shareholders, creditors, banks, etc). Emphasis is placed on developing a range of accounting systems (in particular product costing) which may be used in manufacturing firms, although the principles and concepts used to develop such systems can be adapted to service organisations.

Prerequisite(s): BSB110 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2
employee entitlements. Accounting in specific industries such as construction, extractive industries and superannuation funds is also examined. This unit complies with the new international accounting standards. Contracting theory is used

**Prerequisite(s):** AYB220  Credit points: 12  Contact hours: 3.5 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**AYB312 Financial Institutions Law**

This unit deals with the regulation of banks and non-bank financial institutions, the financial institutions' scheme, the banker-customer relationship, laws relating to cheques and other negotiable instruments, negligent advice by financial institutions and other possible grounds of liability in the dealings of financial institutions with customers.

**Prerequisite(s):** BSB111 or CTB111  Credit points: 12  Contact hours: 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**AYB320 Advanced Taxation Law**

This unit examines the principles governing the taxation treatment of various business entities including partnerships, trusts, companies and superannuation funds from a domestic and international perspective. The unit provides students with an understanding of other considerations which affect the choice of an appropriate business structure from a taxation perspective, including rollover relief and the CGT small business concessions, the importance of legitimate tax planning and the distinction between tax avoidance and tax evasion and some of the more simple aspects of international taxation between Australia and its major trading partners. The unit also covers an analysis of the GST, a review of types of supplies under the Act and the concept of creditable acquisitions. Specific issues such as the GST implications of real property, the margin scheme, GST planning strategies and the GST avoidance provisions are also covered.

**Prerequisite(s):** AYB325  Credit points: 12  Contact hours: 3  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1  **Incompatible with:** Any two of AYB328

**AYB323 Tax Planning**

The aim of this unit is to develop students' taxation planning abilities within the context of the Australian Income Tax legislation by applying their knowledge and understanding of taxation law obtained in previous taxation law subjects. The subject covers the various forms of business entities as well as individual taxpayers giving students a broad understanding of the application of the income tax legislation and other revenue laws to typical tax planning situations including employment, business structures, restructuring. The unit also provides students with an understanding of other considerations that affect tax planning in professional practice.

**Prerequisite(s):** AYB325  **Corequisite(s):** AYB328  Credit points: 12  Contact hours: 3 per week  **Campus:** Gardens Point

**AYB325 Taxation Law**

This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levy of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** AYB223  Credit points: 12  Contact hours: 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**AYB328 Taxation of Business Entities**

The aim of this unit is to develop students' knowledge and understanding of the Australian Income Tax legislation applicable to various forms of business entities as at 1 July 2004. This unit examines the principles governing the taxation treatment of various business entities from a domestic and international perspective. The taxation processes for partnerships, companies, trusts and superannuation funds will be analysed so that students are able to advise clients on the tax effectiveness of various business structures from a commercial and professional aspect. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

**Prerequisite(s):** AYB325  Credit points: 12  Contact hours: 3 per week  **Campus:** Gardens Point  **Incompatible with:** AYB326

**AYB337 Goods and Services Tax**

The aim of this unit is to help students understand the GST law, how it applies to business transactions and how to identify and solve GST problems. The unit introduces the general principles of the GST system applicable to business entities. It makes a comparative analysis of the different types of supplies permissible under the legislation and includes tax planning advice. Some of the simpler aspects of international taxation between Australia and its major trading partners are considered. Recent Tax Reforms
applicable to business entities are included.

**Prerequisite(s):** AYB223  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Incompatible with: AYB122

**AYB338 Accountancy Workplace Learning Experience**
This unit fosters learning through work experience. Students will be given the opportunity to experience the work that is performed by accountants and will enable them to more effectively learn and practice accounting discipline knowledge and graduate capabilities. Admission to this unit is by application and subsequent approval by the unit coordinator.

**Prerequisite(s):** 192 cps of business units including at least 60 cps in Accounting units.  Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-2

**AYB339 Accountancy Capstone**
Accountancy Capstone co-ordinates several parts of the accountancy degree that have already been studied by students. At the same time some new concepts are introduced for each topic. The unit attempts to simulate the real world where the professional advisor/consultant is confronted with unstructured multi-disciplined problems on a day-to-day basis.

Based on the Problem-Based Learning (PBL) methodology, students will learn the process of how to deal with the problems typically faced by the professional advisor/consultant. These problems require students to work together in teams, research issues, gather information and form conclusions.

**Prerequisite(s):** AYB220 and one of either AYB311 or AYB321  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**AYN410 Business Law and Ethics**
This unit provides an introduction to business law and to morality in the business context. It includes the following: the legal framework for business interpretation of statutes; law of torts; contract law and agency; morality and how it works as an aspect of the business community; the origins of moral belief; and the motives that lead people to abide by what they believe to be morally right and to persuade others to do likewise with special emphasis on business aspects of morality.

**Prerequisite(s):** postgraduate enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: GSN412, GSN422

**AYN412 Company Law**
The unit introduces the law relating to the establishment, operation and dissolution of business association; the forms of business associations, partnerships, trusts, companies and voluntary associations. It also focuses on companies: incorporation requirements, classification, corporate governance, share capital and management issues.

**Prerequisite(s):** AYN410  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**AYN413 Enterprise Systems Governance and Audit**
The impact of Computer Information Systems (CIS) on controls and auditing: general controls, application controls, generalised audit software, static and concurrent computer-assisted audit techniques, and special CIS environments are addressed in this unit. A focus on the audit of the SAP R/3 system is provided.

**Prerequisite(s):** U/G degree in Accountancy  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

**AYN414 Cost and Management Accounting**
This unit introduces students to techniques that provide management at all levels with information for use in inventory valuation, planning, controlling and decision-making. The unit's major focus is on product costing systems for manufacturing firms.

**Prerequisite(s):** AYN416 or equivalent  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**AYN416 Financial Accounting 1**
This unit provides an introduction to financial accounting within the context of the accounting profession's conceptual framework, relevant accounting standards and the requirements of the Corporations Law. Topics include: the accounting cycle for both service and merchandising entities; the preparation of general purpose financial reports: cash management and control; non-current assets; the formation, operation, and financial reporting requirements for companies; and statement of cash flows.

**Prerequisite(s):** postgraduate enrolment only  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**AYN417 Financial Accounting 2**
This unit covers the preparation of consolidated financial statements; an overview of the statutory requirements that dictate the format and content of published financial reports of companies; the requirements of the Corporations Act 2001 and the major disclosure orientated accounting standards; accounting for income tax; accounting for the acquisition of assets (including business entities); accounting for investments in associates; the termination of a company's life and the accounting procedures necessitated by winding up/liquidation.

**Prerequisite(s):** AYN416  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2
AYN418 Financial Accounting 3
This unit introduces students to the concepts and theories that underlie financial reporting and disclosure practices. The regulatory environment and factors influencing accounting policy choices provide a framework for examining the financial effects and behavioural implications of applying different accounting methods to specific accounting issues. Particular emphasis is placed on both the application of specific accounting techniques/rules and the conceptual/theoretical issues associated with alternative accounting methods.
Prerequisite(s): AYN417 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2

AYN424 International Accounting
This unit is designed to provide students with an insight into, and an appreciation of, many of the accounting problems and issues faced in an international business environment. The unit examines issues including: accounting systems in the global environment; international patterns of accounting development including cultural influences on accounting; comparative international accounting systems and practices; the pressures for international accounting harmonisation and disclosure; international disclosure trends and financial analysis; global accounting issues into the twenty-first century.
Prerequisite(s): Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2

AYN433 Research Topics in Accounting
This unit introduces Honours, Higher Degree Research and other Postgraduate students to a broad range of accounting literature. It is designed to explore various theories and research methodologies that are applied in accounting research through assigned weekly readings and assigned research tasks. The assigned readings include contemporary research in financial accounting, management accounting, auditing and corporate governance.
Prerequisite(s): Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1

AYN438 Taxation Law and Practice
This unit introduces students to the statutory framework of the Australian taxation system. Elements in the determination of taxable income and the levying of income tax are examined including general and specific categories of assessable income and allowable deductions, capital gains tax and administration aspects of the tax system. The taxation of fringe benefits is also examined. The unit concludes with a brief overview of the taxation of partnerships, trusts and companies and the goods and services tax. Emphasis is placed on developing students' skills in problem solving through research and analysis of taxation issues.

AYN443 Electronic Commerce Cycles
This unit examines the concepts, processes and issues relevant to computerised accounting systems including: accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle and payroll cycle; computer fraud, security and crime; accessing accounting information; and accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, database software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.
Prerequisite(s): AYN416 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 and 2007 SEM-2 Incompatible with: AYB221, AYN402

AYN454 Forensic Accounting and Investigation
This unit provides students with a knowledge of critical factors that contribute to fraud and corporate failure, and forensic examination. Students develop an understanding of the risks of fraud and corporate failure occurring and an appreciation for the subsequent forensic review and litigation processes that may follow.
Prerequisite(s): U/G degree in Accountancy Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2 Incompatible with: AYN441, AYN404, AYN426

AYN505 Dissecting Financial Statements
This unit is about the analysis of financial information arising primarily from the financial reports of entities. Fundamental analysis techniques are examined in detail with particular emphasis on the application of these techniques in equity (share) valuation decisions. The unit comprises three related parts. Part one outlines the four basic steps in the fundamental analysis framework; business analysis, accounting analysis, financial analysis and prospective analysis. The next part combines these skills in addressing the question of valuation, while the final section of the unit applies the skills in several different contexts, such as credit analysis, security analysis, mergers and acquisitions and financial policy decisions.
Prerequisite(s): Appropriate U/G degree in Accountancy, containing specific content. Please see School of Accountancy for further advice. Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1

BEB100 Introducing Professional Learning
This unit will introduce students to a range of skills and knowledge sets required to support professional practice in design, engineering and urban development disciplines. It will include information literacy and communication skills and knowledge development. In addition the unit will provide orientation to design, engineering and urban development professions through an introduction to their history, their
place in society, the importance of ethical conduct to their practice and to the particular qualities of professional knowledge especially with regard to practice knowledge. The importance of integrated scholarship and collaborative links with other professions will be highlighted.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**BEB200 Introducing Sustainability**
This unit will address issues of sustainability from a number of perspectives thus providing students with a variety of lenses on the ways in which the human-made environment impacts on the future of human settlement. The unit will include an introduction to sustainability from a variety of perspectives, including indigenous and other cultural perspectives, and from ecological, economic and technological perspectives. It will demonstrate to students the ways in which contrasting, and sometimes conflicting, ideas about sustainability are prioritised and how these priorities contribute to the impact that design, engineering and urban development professions have on a sustainable future.

**Credit points:** 12  **Teaching period:** 2007 SEM-2

**BEB701 Work Integrated Learning 1**
This unit aims to provide students with the opportunity to learn in a workplace environment. It will involve attendance, participation, observation, and reflection on activities negotiated with the workplace supervisor. The emphasis of the reflection will be on identifying and describing aspects of professional relevance incorporating among others: collaboration and teamwork; workplace, health and safety; professional conduct and ethical responsibility. For some students, this unit forms a part of their (compulsory) course core (as required by professional accrediting bodies), while for others it may be one of several work integrated learning (WIL) units (selected as part of a Minor).

**Credit points:** 12  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BEB702 Work Integrated Learning 2**
This unit aims to provide students with the opportunity to continue to learn in a workplace environment. It will involve attendance, participation, observation, and reflection on activities negotiated with the workplace supervisor. The emphasis of the reflection for this unit is on explaining and discussing aspects of professional relevance incorporating among others: collaboration and teamwork; workplace, health and safety; professional conduct and ethical responsibility of specific relevance to the student's chosen discipline.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BEB801 Project 1**
This unit will expose students to a set of integrated activates, each building upon the preceding, and culminating in a Completed project. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

**Credit points:** 12  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BEB802 Project 2**
This unit will require students to critically discuss the relationship between theoretical skills and knowledge about their discipline, and the practical application of same in a professional project context. Students will apply skills and knowledge from earlier in their course, and use a rigorous process of scheduling, design, development, construction, testing, and analysis. These skills and processes will be applied to a real-world problem to simulate the design, development, and management of a project solution.

**Credit points:** 12  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BEB901 Sustainability: Imperatives, History, Principles and Practice**
This unit will provide students with an opportunity to examine in depth current data on the condition of built and natural environments and the wellbeing of people living within these environments, worldwide and in Australia. Special attention will be given to problems observed in the built environment, such as greenhouse gas emissions, population increase, over consumption and resource depletion including water shortages, coastal degradation and urban sprawl.

**Credit points:** 12

**BEB902 Greening the Built Environment**
This unit introduces the challenges and opportunities for the built environment in achieving sustainable development. The unit aims to make clear that a critical shift is required to move forward: a behavioural change brought about by a critical mass of people willing to adopt and evolve sustainable principles and practices in the built environment. Finally, the unit introduces the notion that design practice reform is about ensuring that thinking green is a focus of the entire design process, requiring collaboration and mutual incentives to drive the team to a new level of achievement.

**Credit points:** 12

**BEB903 Profitable Greenhouse Solutions**
The unit aims to briefly introduce students to barriers facing the adoption of greenhouse abatement strategies and the methods by which these barriers can be overcome. Finally, the unit will describe how energy, transport and urban systems, like the climate system itself, have great inertia: they take decades to change. This means that in order to achieve significant reductions in greenhouse emissions, and to avoid the worst effects of climate change, early planning and action is critical for these systems.

**Credit points:** 12

**BEB904 Sustainability in the Workplace: Regulatory Frameworks and Environmental Management**
Students will be given the opportunity to examine and evaluate current Commonwealth and Queensland regulatory frameworks that require organisations to address short-term and long-term adverse impacts of proposed and
current activities on the environment. A range of environmental management tools, such as environmental management systems, will be considered in depth. Related issues, such as carbon trading/offsets, resource rights and cultural heritage, could also be addressed according to student interest.

Credit points: 12

**BNB011 Fundamentals of Synthetic Environments**
This unit provides an overview of synthetic environments focusing on their application to design and engineering disciplines as a tool for enhanced communication within a design process. The theory (lecture) component provides an overview of historical and contemporary issues related to synthetic environments, whereas the tutorials provide the necessary computer laboratory skills for the creation of a virtual world. Prior knowledge of 3D CAD is assumed.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

**BSB110 Accounting**
Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and decision making. The tutorials provide the necessary computer laboratory skills for the creation of a virtual world. Prior knowledge of 3D CAD is assumed.

Credit points: 12  Campus: Gardens Point  Contact hours: 3 per week  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: BSB110, CTB110

**BSB111 Business Law and Ethics**
This unit integrates the concepts and principles of business law with the theories and applications of business ethics. The unit makes extensive use of cases in law and ethics to develop knowledge and skills that enable students to analyse, apply and evaluate the legal principles and ethical decision-making processes relevant to modern business practice.

Credit points: 12  Campus: Gardens Point and Carseldine  Contact hours: 3 per week  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: AY120, CTB111

**BSB113 Economics**
This unit introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

Credit points: 12  Campus: Gardens Point and Carseldine  Contact hours: 3 per week  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: CTB113, BSB113

**BSB114 Government, Business and Society**
This unit provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This includes consideration of law-making and policy processes and the impact of the changing national and international environment.

Credit points: 12  Campus: Gardens Point and Carseldine  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: HUB694, HUB682, SSB028, BSD114, CTB114

**BSB115 Management, People and Organisations**
The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point and Carseldine  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: BSB115, CTB115

**BSB119 International and Electronic Business**
This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point and Carseldine  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: BSB116, BSB112, CTB119

**BSB122 Quantitative Analysis and Finance**
To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide students with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; the application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; and the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

Credit points: 12  Campus: Gardens Point and Carseldine  Teaching period: 2007
BSB126 Marketing
This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is placed on understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion, including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.
Credit points: 12 Contact hours: 4 per week Campus: Gardens Point and Carseldine Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER Incompatible with: BSB116, CTB126

BSB212 Electronic Business Applications
This unit looks at the ways in which organisations adopt and use various electronic business applications in areas of e-commerce, business-to-consumer, business-to-business and intra-business relations. Business models and their impact in various industries are analysed, enabling students to assess the underlying business case, and determine the model's viability in a competitive environment. The issues associated with front-end and back-end e-business applications are considered.
Prerequisite(s): BSB112 or CTB112 or BSB119 or CTB119 or equivalent Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1 Incompatible with: AYB333, CTB212

BSB213 Governance Issues in E-Business
This unit introduces students to a wide range of information technology governance issues which confront business professionals during the implementation and operation of e-business strategies. It aims to provide e-business and IT professionals with an understanding of current IT governance frameworks and to ensure they are familiar with risk management, fraud detection and prevention, audit and legal issues that are relevant to an organisation's e-business operations.
Prerequisite(s): Business students: BSB111 or CTB111 and BSB119 or CTB119. Other students: 96 credit points of approved study Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2 Incompatible with: AYB332, CTB213

BSB310 Business and Biotechnology
This unit develops business skills that will enhance the ability of those operating within biotechnology firms to capitalise on their research and development efforts. In essence this unit provides the skills-based mechanisms to develop graduates who are effective catalysts in recognising, developing and commercialising opportunities in biotechnology.
Prerequisite(s): MGB218 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-1

BSB311 Research, Development and Commercialisation Strategies
Students study strategies and approaches used in industry and government organisations for the research, development and commercialisation of biotechnology innovations. The unit offers the opportunity to read widely as well as in depth about the commercialisation of molecular biology and biotechnology research. Theoretical concepts are integrated with prepared case studies prior to guest speaker seminars.
Prerequisite(s): BSB310 Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2

BSD110 Accounting
Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with some basic knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, and the analysis and interpretation of financial statements for planning, control and business decision making purposes.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2007 13TP1, 2007 13TP2 and 2007 13TP3 Incompatible with: BSB110

BSD113 Economics
This unit introduces students to the key economic concepts and their practical applications. It comprises 12 topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.
Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove Teaching period: 2007 13TP1, 2007 13TP2 and 2007 13TP3 Incompatible with: BSB113

BSD115 Management, People and Organisations
The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that will be needed at all areas of management and in all areas of organisational life. The unit acknowledges that organisations exist in an
increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate and external environmental perspectives.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 13TP1, 2007 13TP2 and 2007 13TP3  
**Incompatible with:** BSB115

**BSD119 International and Electronic Business**  
This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 13TP1, 2007 13TP2 and 2007 13TP3  
**Incompatible with:** BSB119

**BSD122 Quantitative Analysis and Finance**  
To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and will provide you with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; and the three main ideas underpinning financial decisions (time value of money, diversification and arbitrage).

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 13TP1, 2007 13TP2 and 2007 13TP3

**BSD126 Marketing**  
This introductory unit examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, marketing information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, promotion. Promotion includes advertising and public relations. By way of introduction only, key issues relating to services marketing, strategic marketing and marketing planning are also canvassed.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 13TP1, 2007 13TP2 and 2007 13TP3  
**Incompatible with:** BSB126

**BSN005 Introduction to Academic Research**  
This unit presents a pathway for coursework students into higher degree research. It will provide students with the opportunity to produce a high quality journal article (as primary author) under the supervision of an experienced researcher. The student will report on research outcomes through their participation in an existing research project. Upon completion of this unit, students should be able to draft a literature review drawing largely on provided sources of literature; analyse provided data within a suitable theoretical framework; identify and justify the choice of an appropriate journal to target for publication; complete the journal article as primary author such that it meets all technical requirements for submission to the identified journal.

**Prerequisite(s):** 240cp of UG study with a GPA of 5.5+; pre-approval of Course Coordinator; subject to supervisor availability & completion of an agreed learning contract. Not offered to ECO or FIN major in BS63 or BS92  
**Credit points:** 12  
**Contact hours:** 3  
**Teaching period:** 2007 SEM-1 and 2007 SUM-2  
**BSN404 Project 1**

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  
**Incompatible with:** MKN101, MKN102, MKN103

**BSN405 Project 2**

This unit is designed to permit the student to undertake a research project, subject to the approval of the course coordinator.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  
**Incompatible with:** MKN101, MKN102, MKN104

**BSN406 Project 3**

For this project students undertake a detailed examination of a theoretical or empirical problem in one of the disciplines of advertising, marketing, public relations, or integrated marketing communication. The study is based on the published journal literature of the discipline and can involve primary research and analysis. Students develop a short empirical research study, refine a theoretical problem, develop a communication audit of an organisation or develop a case study related to an organisation or product. Project supervision is arranged by the unit coordinator through consultation with the student and available staff members.

**Prerequisite(s):** 96 credit points of approved prior study  
**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  
**Incompatible with:** CON405, AMN411

**BSN409 Research Project**

This is to produce a major piece of applied research. The research project provides the opportunity to apply and reinforce the education and knowledge gained from the course by research report, case study or application of technology. The final project must demonstrate an ability to identify and research a complex business problem in accountancy or banking and finance or a related discipline.

**Prerequisite(s):** BSN506 or BSN507  
**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**BSN412 Qualitative Research and Analytical Techniques**
This unit provides a detailed overview of qualitative research to support decision-making in business disciplines. The primary purpose of this unit is to develop a detailed understanding of the theoretical contexts in which field studies and qualitative research methods have developed and the techniques that define the approach. Students develop the ability to analyse, conduct, and evaluate qualitative research in discipline areas related to business. The unit provides a basic preparation for the development of a project, thesis or dissertation proposal based on the use of qualitative research.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2  **Incompatible with:** CON500

**BSN501-1 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN501-2 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN501-3 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN501-4 Dissertation**

Students undertake a study of an issue as the culmination of their honours program. The dissertation must have a well-developed conceptual foundation and include a primary research component.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN502 Research Methodology**

The purpose of this study is to provide students with a range of ideas and methods that enable them to analyse, evaluate and conduct research in discipline areas related to business. It provides an essential and basic preparation for the development of a thesis or dissertation proposal. Areas of study include research paradigms, analysis and criticism, research design, data collection and data manipulation, interpretation and presentation.

**Credit points:** 12  **Contact hours:** Flexible Mode  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2  **Incompatible with:** BSB400

**BSN503 Research Seminar**

In this unit students prepare detailed literature reviews relevant to the thesis or dissertation proposal. Students are required to prepare and present a detailed seminar paper describing and explaining the results of their review and its relevance to the thesis or dissertation proposal. The unit is in two parts: the first provides a series of lectures from staff advising as to the requirements of a thorough, well-directed literature search and review; the second consists of a series of seminars from students presenting their findings.

**Credit points:** 12  **Contact hours:** Flexible Mode  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN506 Econometric Methods**

This unit provides a comprehensive grounding in the econometric methods necessary for conducting research using such methods. Recent contributions to the econometric literature are studied.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1  **Incompatible with:** BSN500

**BSN600-1 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN600-2 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN600-3 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**BSN600-4 Thesis**

This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each
In this unit, students develop and define a problem statement and are encouraged to develop their own creative solutions through the semester. This introduces students to aspects of project work and prepares them for their professional lives. Architectural and project issues include aesthetics, fitness for purpose, and constructability. Geotechnical issues include: site investigation, earthworks and compaction, and site investigation. Structural issues include: design, loads, load paths, load factors, strength factors, time dependent loads, structural capacity and stability, rules of thumb, structural timber, material selection, and basic surveying principles.

Prerequisite(s): CEB110, BNB007 Credit points: 12
Contact hours: 5 per week Campus: Gardens Point

CEB208 Materials Science
The unit provides students with a sound and practical approach to material properties and selection so that they may adapt to scientific and technological changes in the variety of products entering the market. They understand where the engineer fits in a quality assurance program and become aware of the numerous components of quality assurance and the costs generated by quality control and assurance. Students become aware of the effect of the working environment on different engineering materials. Among other things, they study the behaviour of concrete from the time it is manufactured to the end of its life, and develop knowledge of the parameters involved in manufacturing good concrete, and the consequences of delivering poor concrete.

Prerequisite(s): MMB131 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

CEB209 Geotechnical Engineering 1
Soil mechanics is a part of geotechnical engineering, soil types, their description, classification and engineering properties. The unit includes the following: granular and cohesive soil classification systems; volume and mass components; density and air voids; determination of soil geostatic vertical pressures; pore water pressures and effective stress; permeability theory and fluid seepage in soil, with erosion and piping analysis; soil shear strength assessment and application to retaining wall lateral pressures; retaining wall design; slope stability analysis and stabilisation. Computer simulation and analysis programs are used where appropriate.

Prerequisite(s): CEB110 Corequisite(s): CEB207 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point

CEB213 Environmental Science
This unit is designed to provide students with the fundamental understanding of how the earth's physical and environmental systems normally function and the challenges imposed on the environment as a result of human activity. This understanding is developed through the study of relevant principles of physical geology, ecology, chemistry, microbiology, energy, resources, pollution, and the interaction among population, resources and the environment. The unit also prepares students to undertake further studies in civil and environmental engineering.

Credit points: 12 Contact hours: 4 per week Campus: Gardens Point
CEB214 Professional Studies 3 (Environmental & Transport)
The knowledge and skills associated with assessing, investigating, and managing the economic, social and environmental impacts of developmental projects are essential for today's civil and environmental engineers. So too is an appreciation of the skills needed to work with and communicate with interdisciplinary teams to develop balanced solutions to environmental problems associated with development. This unit of the Professional Studies strand develops students' abilities to practise in a civil engineering project environment.
Prerequisite(s): CEB207, CEB213
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB215 Structural Engineering 1
This unit includes the following: development of the method of moment distribution and its application in analysis of continuous beams and frames; theory of influence lines and its application to determine the effects of moving loads on beams and trusses; 'pattern loading' on frames and continuous beams; behaviour of reinforced concrete members; applications in the design of beams and columns.
Prerequisite(s): CEB207, CEB208, CEB110
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB216 Project Engineering 1
The unit commences with the development of the construction techniques common to site investigation, earthworks, pile driving, deep foundations, reinforced and prestressed concrete and steel erection. This operational understanding is extended into a study of the practices used to estimate cost and to administer contracts, including planning and the legal implications of operating in a commercial environment. The unit concludes with the issues surrounding the uncertainty of weather and of operating in remote environments.
Prerequisite(s): CEB208, CEB207
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB217 Hydraulic Engineering 1
This unit includes the following: units and properties of fluids; pressure and pressure measurement; forces in static fluids, buoyancy and accelerating fluids; kinematics, continuity and flow nets; the energy equation; the momentum equation; experimental fluid mechanics; lift and drag; fluid flow in pipes and the application of pipe resistance formulae; fitting losses; pipes in series and parallel; pipe network analysis; hydraulic analysis of pump and pipe systems; pump types, characteristics and selection.
Prerequisite(s): CEB109, MAB131
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB218 Geotechnical Engineering 1A
Soil mechanics is a part of geotechnical engineering and includes a study of the following: soil types, their description, classification and engineering properties; granular and cohesive soil classification systems; volume and mass components; density and air voids; determination of soil geostatic vertical pressures; pore water pressures and effective stress; permeability theory and fluid seepage in soil, with erosion and piping analysis; soil shear strength assessment and application to retaining wall lateral pressures; retaining wall design; slope stability analysis and stabilisation. Computer simulation and analysis programs are used where appropriate.
Prerequisite(s): CEB110  Corequisite(s): CEB207
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB219 Structural Engineering 1A
This unit includes the following: moment distribution; statically indeterminate structures; continuous beams and simple frames; moving loads on structures such as bridges and crane girders; influence line diagrams; 'pattern loads' in statically indeterminate structures; fundamentals of reinforced concrete analysis and design and its behaviour in bending; shear and carrying axial loads; analysis and design of beams, slabs and columns.
Prerequisite(s): CEB207, CEB208, CEB110
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB222 Hydraulic Engineering 1A
This unit includes the following: units and properties of fluids; pressure and pressure measurement; forces in static fluids, buoyancy and accelerating fluids; kinematics, continuity and flow nets; the energy equation; the momentum equation; experimental fluid mechanics; lift and drag; fluid flow in pipes and the application of pipe resistance formulae; fitting losses; pipes in series and parallel; pipe network analysis; hydraulic analysis of pump and pipe systems; pump types, characteristics and selection.
Prerequisite(s): CEB109, MAB131
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB230 Engineering Materials and the Environment
This unit provides information about engineering materials required before they are applied in the design context. The course begins with an in-depth presentation of the material properties and their application of civil engineering projects. An engineer requires in-depth knowledge of the concepts and principles involved but also the ability to apply them in real life. An emphasis on environmental implication is discussed as part of the requirements.
Prerequisite(s): MMB131
Credit points: 12
Contact hours: 4 per week  Campus: Gardens Point

CEB232 Geotechnical Engineering 1 and the Environment
Geomechanics (soil mechanics and rock mechanics) and its application to geotechnical engineering is one of the most important areas of study for civil engineers. It is concerned with the use of soil and/or rock as an engineering material and includes a wide range of activities: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road embankments; landslide stabilisation and tunnel excavation and support. The course emphasises environmental issues such as acid sulfate soils and their effects on geotechnical designs, landfill leachate control and how they impact on the design of landfills.
CBE233 Environmental Professional Studies 3 (Impacts of Projects and Sustainable Development)
The knowledge and skills associated with assessing, investigating, and managing the social and environmental impacts of developmental projects are essential for today's civil and environmental engineers. Environmental engineers need to be trained to conduct and manage investigative studies related to assessing air, water, soil, and noise pollution, and to understand and address the social implications. They also need the breadth of studies required to work and communicate with interdisciplinary teams designing balanced solutions to environmental problems associated with development. This unit addresses these needs.
Prerequisite(s): CEB213  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point

CBE259 Engineering Design for Land Development
This unit introduces the student to the basic civil engineering design processes and procedures associated with the development of subdivided urban/rural land for residential, industrial or commercial purposes. The unit covers the following: subdivisional road design types, hierarchy, longitudinal and cross sections, earthworks; stormwater design, basic urban hydrology, catchment properties, rational formula, pipe/gully parameters, pipe and open channel flows; water reticulation system features; sewer reticulation system features and basic design procedures. Modern trends in the above (including sustainability considerations) together with the general construction procedures and basic costings are introduced.
Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

CBE317 Professional Studies 4 (Project Documentation and Roads)
Civil engineers as professionals are responsible for the delivery of major transport infrastructure items through the stages of inception, planning, design, development, maintenance and management. The purpose of such projects is to improve the quality of life of the community by offering safe and efficient access to activity locations and mobility between locations. In delivering such infrastructure it is imperative that social, economic, and environmental impacts and benefits are considered and addressed. This unit offers students an opportunity to explore the role of the civil engineer in the preparation of a feasibility design study for a road as a major transport infrastructure item.
Prerequisite(s): CEB207, CEB214, BNB007  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

CBE318 Structural Engineering 2
This unit considers the following: limit states design of steel structures; buckling and ultimate strength behaviour of steel structures; tension members, compression members; local and global buckling (flexural and flexural torsional buckling modes) concepts as applied to compression members and beams; effective lengths of compression members and beams; design of beams; effect of lateral restraints on buckling; web stresses including web crippling and buckling; beam-columns; bolted and welded connections; unsymmetric bending of beams including principal second moments of area; shear stresses in beams of thin-walled open cross-sections and their shear centres. Most cold-formed steel sections are unsymmetric and hence the latter topics are useful in steel design.
Prerequisite(s): CEB207, CEB110  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

CBE319 Water Engineering
The main topics to be covered in this unit follow: the hydrologic cycle and its application to the estimation of runoff from small catchments; probability and risk and the selection of design floods; hydrologic data; estimation of peak runoff using the Rational Formula estimation of runoff hydrographs using rainfall-runoff routing models; the hydraulic characteristics of open channels; uniform flow, gradually varied flow and rapidly varied flow; the hydraulic characteristics of culverts and retention basins; the operation of urban drainage systems.
Prerequisite(s): CEB217  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

CBE321 Water and Wastewater Treatment
The provision of a safe, wholesome and adequate supply of water and the proper treatment, disposal, and reuse of wastewater are essential for protecting human health and well-being. Water and wastewater treatment are required for the control of water-born diseases and the provision of proper sanitation for urban, rural, and recreational areas. Water and wastewater treatment engineering is a major field of civil and environmental engineering and is manifested by sound principles and practice in terms of solving sanitation problems.
Prerequisite(s): CEB213, CEB217  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CBE322 Geotechnical Engineering 2
This unit includes: further study on the behaviour of soil and rocks; determination of subsurface pressures from surface loadings; soil settlement including time related clay consolidation settlement and immediate settlements on sand and clay as related to shallow foundations; assessment of bearing capacity and allowable bearing pressures under shallow foundations; pile foundation systems and analysis for capacity and settlement; rock mass behaviour, classification and joint shear strength applied to slope stability assessment and stabilisation measures.
Prerequisite(s): CEB209  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CBE323 Transport Engineering 1
The transport system is an essential part of our physical infrastructure. It is imperative that civil engineers are able to undertake typical road and traffic engineering investigations, analyses and designs. These require an understanding of the intent of individual road system elements, how they
operate, and how they are delivered and managed: this understanding is developed in this unit. Further, it is important that civil engineers are able to undertake multi-modal transport surveys to gain an understanding of the operation of a particular transport system.

Prerequisite(s): CEB317 Credit points: 12 Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CEB328 Investigation Project**
This unit gives the student the opportunity to gather a body of information relating to a selected topic from the available literature, and to reach conclusions by critical analysis of this material. The investigation may include analysis and experimental work. The results will be presented as a written report supported by a seminar presentation.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**CEB329 Professional Studies 5 (Steel Design & Construction)**
This unit includes the study of steelwork: design and construction; structural systems; load paths; rules of thumb; building layout; function and form; cladding; element and wind loading evaluation; idealisation, analysis, design action effects; space gas, columns and rafters; trusses and bracing; connections; knee ridges; base plate design; procurement and fabrication; scheduling and erection.

Prerequisite(s): CEB207, CEB208, CEB215, CEB318  Credit points: 12  Contact hours: 5 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CEB330 Environmental Management for Engineers**
This unit is designed to help students identify and develop the skills required in the role of the environmental engineer and specifically, the engineer as a project manager. This may involve making decisions to direct and manage the environmental aspects of a major project. This unit aims to help develop and encourage life long learning throughout a career as an environmental engineer.

Prerequisite(s): CEB233  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CEB411 Thesis Project A**
Thesis A is a written report of the literature on an area of civil engineering practice where research and development has been undertaken and reported. Students demonstrate skills in problem definition, work planning, critical analysis of the study material, information retrieval, and appropriate citation procedures. Report writing and seminar presentation is a major feature. Guided instruction and exercises are given on information retrieval and bibliographic listing and citation.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**CEB412 Project Engineering 2**
The unit builds on the understanding of the physical aspect of construction gained in Project Engineering 1 to develop the skills needed to manage a project. Further studies in estimating, contracts administration and cost control provide support for a major computer simulation exercise based on the construction management of a complex industrial project. This experiential component provides a framework for the exploration of issues in the legal, managerial and technical areas which form the basis for the professional presentations that conclude the unit.

Prerequisite(s): CEB216, CEB317  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

**CEB413 Structural Engineering 3**
This unit includes the following: advanced structural engineering topics: ‘Space Gas’, ‘Microstan’, the stiffness method. This method is developed and illustrated by application to some structures. Plastic analysis and the concept of plastic hinge is introduced and applied. Basic structural dynamics is introduced and some simple illustrative examples are provided. Principles of earthquake engineering, aesthetics in bridge design, load paths in structures, and approximate methods in the analysis of complex structures are treated.

Prerequisite(s): CEB215, CEB318  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CEB414 Thesis Project B**
Thesis B is an optional elective and extension of Thesis A CEB411. Various avenues of investigation will have been identified from Thesis A and students undertake a program of investigation which may have experimental, design and analysis aspects. A written report with critical analysis of results and conclusions is prepared, and a seminar presented.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**CEB416 Environmental Law and Assessment**
The adverse consequences of human activity have resulted in the adoption of various international treaties, enactment of stringent legislative requirements, and a growing demand for improved management practices. Engineers need to be aware of the way in which the law works, to be able to communicate with lawyers, and to recognise the legal and political implications of their projects. An understanding of the local, state, and federal governments’ power to regulate development and the legal and planning requirements and assessment procedures is essential for professional engineering practice.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

**CEB418 Waste Resource Management**
This unit addresses management of solids and hazardous wastes generated from domestic, commercial, and industrial sources. It includes the following: waste minimisation; promotion of efficient use of resources; promotion the use of waste through recycling and energy production; viewing waste as a resource; reducing the mass, volume and toxicity of the waste; disposing of waste in a socially and environmentally acceptable manner; waste avoidance; recycling; energy production; treatment; disposal. Waste management is an important aspect of civil and environmental engineering education.

Credit points: 12  Campus: Gardens Point  Teaching
Students should consider the following in their civil project:

**CEB419 Environmental Transport and Infrastructure Management**
The environmental engineer must be familiar with the role of each transport mode in the overall transport task, along with current issues associated with each mode. This must be overarched by an understanding of the system for planning and management of transport projects and systems, particularly in context with economic, environmental and social attributes. This final year core unit provides students who wish to pursue a career in environmental engineering with an understanding of these areas. The unit also includes case studies covering the environmental impacts for some of the urban and rural transport and infrastructure projects especially in the area of community consultation.

**Prerequisite(s):** CEB214, CEB323  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CEB420 Environmental Thesis Project A**
Professional engineers must be able to define and solve problems in areas which are not covered in textbooks and manuals of good practice. Research and development work is required to assess critically the available information and to plan and carry out a program of investigation. This subject helps students develop the skills required for this type of work.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CEB424 Professional Studies 6 (Concrete Structures and Geotechnical Engineering)**
This unit includes studies of concrete: design and construction; roles of building professionals; design; current structures; structural systems; load paths; rules of thumb; building layout, function and form, design effects; seismic and element loads; structural element loading; formwork and placement constraints; reinforced and prestressed concrete slabs, beams and columns; architectural changes, connections and detailing; footings and foundations; bar scheduling.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CEB425 Professional Studies 7 (Civil Design Project)**
In their design project, students should consider a selection of the following: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CEB426 Environmental Professional Studies (Civil Project)**
Students should consider the following in their civil project: development planning and design; site location; layout; characteristics; client requirements; timetable; consultancy project planning and costing; development style; site civil design; transport impact assessment; network; SIDRA; trip generation; impact mitigation; intersection design; parking; site storm water design; wastewater treatment design; environmental geotechnical design; contaminated ground; slope stability.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CEB507 Finite Element Methods**
The Finite Element Method is the 20th century's solution for treating complex problems, which had hitherto remained impossible to solve, in several areas of engineering such as structural, geotechnical, hydraulic, electrical, heat conduction, etc. For example the displacements and stresses in dams, deep beams with openings, shell structures, soil-anchors, etc, can be obtained by finite element analysis. Basic theory and some of the important features of the method, engineering actions, modelling, choice of elements, boundary conditions, input data and interpretation of results are included in this unit.

**Prerequisite(s):** CEB413  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CEB508 Transport Engineering 2**
This is a final year elective unit to prepare students for a career in transportation engineering, as well as to provide them with an understanding of the analytical processes involved in urban transport planning. It covers all transport modes and places emphasis on the planning and evaluation of transport systems. The unit is designed to highlight the economic, environmental and social impacts of transportation projects. The unit complements CEB323 Transport Engineering 1, by dealing in-depth with urban transportation planning and evaluation.

**Prerequisite(s):** CEB323  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CEB509 Project Management and Administration**
This unit introduces some of the issues relating to the management of construction projects from both practical and theoretical points of view. Topics covered include the following: leadership and management of organisations and people; planning of a project; engaging of consultants, subcontractors and suppliers; co-ordination of project activities; cost control and claims; legal and insurance issues; information technology issues; written and verbal communication skills; problem solving, and managing and preventing disputes. Assessment is practical and progressive during the semester and includes a final examination.

**Prerequisite(s):** CEB216, CEB412  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CEB513 Advanced Construction Practice**
Professional engineers generally work in a highly stressed commercial environment with competing pressures. A student in final year should be exposed to realistic experiences. This subject integrates what has already been taught in the specific civil engineering disciplines and requires the student to prepare and submit a commercial tender for a construction project. Teams of students
COMPETITIVELY BID FOR THE PROJECT. IN ADDITION, RELEVANT LEGAL AND COMMERCIAL ISSUES ASSOCIATED WITH THE TENDER AND SUBSEQUENT ADMINISTRATION OF THE PARTICULAR CONSTRUCTION CONTRACT ARE COVERED SO THAT THE STUDENT APPRECIATES THE REALITIES ASSOCIATED WITH A CONSTRUCTION PROJECT.

**Prerequisite(s):** CEB216  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB514 Project Control

Contemporary engineering demands that the practising engineer needs to master not only basic design and construction concepts but also current management practices. Engineers, whether they are in construction, design or maintenance need to understand the effect that economic decisions made at federal and state level have on their organisations. They must also realise that everyone has a different leadership style that must be fitted into the organisation's management structure. The subject is designed to provide an insight into the requirements, precepts and problems of project management of interdisciplinary projects.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB516 Masonry Design

A structural engineer must have the ability to analyse and design engineering components and systems which use masonry as load bearing and in-fill non-structural panels. This course develops a basic understanding of Masonry Technology and Design using the Australian Standard 3700. It provides an understanding of the differences in the material properties of clay, concrete, calcium silicate bricks and blocks. This unit also provides an understanding of workmanship, site practices and construction details of masonry. Students develop the design skills needed for the design of masonry walls, reinforced or un-reinforced and discuss the difference in design procedures for the different masonry materials.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB517 Advanced Engineering Studies

This unit provides an opportunity for students to learn how practicing engineers design cold-formed steel and composite structures. The unit has the following aims: to develop an understanding of the design process and how it interacts with the fundamental knowledge of materials and structural analysis; to use advanced computer tools for analysis and design; to work as part of a design team; to present written reports. Students in groups of two will participate in projects to analyse and design cold-formed steel and composite structures.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB518 River and Coastal Engineering

Many civil engineers are involved in the analysis and design of engineering works in the river and coastal environment. An understanding of the physical processes taking place is a fundamental requirement if engineers are to take an active role in the management of this dynamic environment. This unit builds on the fundamental principles of fluid behaviour covered in Hydraulic Engineering CEB217 and Water Engineering CEB319 and extend these principles to the river and coastal environment. It relies on a prior understanding of physics, mathematics and solid mechanics, and basic hydraulic engineering principles.

**Prerequisite(s):** CEB319  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB522 Geotechnical Engineering Practice

This unit considers the use of soil and/or rock as an engineering material. The unit includes a wide range of activities such as: site investigation and design for building, bridge and other foundations; materials selection, design and construction control for dams, road pavements and embankments; landslide stabilisation and tunnel excavation and support. Following on from the work done in Geotechnical Engineering 1 and Geotechnical Engineering 2, this elective strengthens the understanding of geomechanics, and develops geotechnical investigation, design and construction skills. Three case studies are undertaken, selected from the following: soil reinforcements; lateral loading on piles; embankments on soft soil; rock slope stabilisation; house foundations.

**Prerequisite(s):** CEB322  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEB523 Environmental Geotechnology

Graduates may work as part of a team investigating, designing and constructing solutions to waste containment and soil and groundwater pollution problems. This subject prepares them for this work by developing an understanding of the engineering concepts and processes and also by introducing them to specialist techniques, such as contaminant transport modelling, which will be used by more specialist members of these teams. It also prepares students for further postgraduate study in these specialist areas.

**Prerequisite(s):** CEB209, CEB213  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

### CEP141 Studies in Environmental Engineering

Various studies relate to waste and resource management and risk analysis. Waste management topics include the following: waste avoidance and minimisation, recycling and reuse; waste exchange; energy production; treatment; disposal. Risk analysis studies include risk posed by waste material to human health and the environment and optimisation of resource management.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

### CEP142 Water Pollution Control

This unit includes various studies related to waste and resource management and risk analysis. Waste management topics are included: waste avoidance and minimisation, recycling and reuse; waste exchange; energy production; treatment; disposal. Risk analysis includes studies of risk posed by waste material to human health and the environment, and optimisation of resource management.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1
CEP143 Biological Treatment Processes
This unit considers the design and operation of water and waste water treatment systems, focusing on conventional and advanced biological treatment processes, current practice and development.

Credit points: 12  Campus: Gardens Point

CEP161 Professional Development Studies 1
This unit is presented to provide students with an advanced understanding of both the qualitative and quantitative processes involved in industrial and professional activities. Emphasis is placed on the planning, operation, management and evaluation of projects and systems, particularly in context with economic, environmental and social attributes.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CEP175 Pavement Maintenance Rehabilitation and Recycling
The unit describes the different ways a pavement exhibits both structural and non-structural distress. The modes of distress, including disintegration, distortion, cracking and fracture are described together with problems relating to safety and damage caused by operational factors. A range of evaluation techniques used to assess the condition of a pavement with respect to serviceability, structural capacity and safety are presented. Restoration techniques using granular materials, full depth asphalt and concrete and structural overlays are described along with the role and use of absorbing layers. The unit concludes with the economic evaluation of alternative maintenance strategies using whole-of-life costing techniques.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-2

CEP201 Process Modelling
This unit considers the role of models in engineering design and investigation, and the principles of modelling techniques, their uses, limitations and relevant applications.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point and External  Teaching period: 2007 SEM-1

CEP216 Advanced Traffic Engineering
This unit considers traffic flow theory and traffic management, and presents analytical and computer analysis routines for urban intersection design, their background and applications.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CEP218 Transportation Engineering
This unit is presented to provide students with an advanced understanding of the transport engineering discipline, with emphasis on both the qualitative and quantitative processes involved in urban and regional transport engineering and planning. Emphasis is placed on the planning, operation, management and evaluation of transport projects and systems, particularly in context with economic, environmental and social attributes.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

CEP291 Environmental Law and Assessment
This unit introduces environmental law. It considers Commonwealth and state legislation, development controls, trends in environmental control, the framework for environmental assessment, description of the environmental setting, and impact assessment and analysis.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CEP294 Engineering Contract Development and Administration
Good engineering requires much more than a demonstrated ability in project management or design specialisation. It requires engineers that possess vision, strategy, communication skills and the ability to enable others to work together as an effective organisation. To achieve this financial and legal knowledge is necessary. Contemporary engineering demands that the practising engineer masters not only basic concepts in either design or construction but also current engineering approaches to contract management methods.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CEP295 Civil Engineering Management in a Project Environment
Contemporary engineering demands that the practising engineer has not only mastered basic concepts in either design or construction but also has a strong background in current engineering approaches and management methods. This course will provide an insight into the requirements, precepts and problems of engineering management of interdisciplinary projects.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-2

CEP997-1 Project B
Professional engineers must be able to define and solve problems in areas that are not covered in textbooks and manuals of good practice. Critical assessment of research and development work develops this ability. To obtain this information and to carry out its study needs a plan of action. Students enrol in this unit over two semesters, completing 12 credit points in each semester. The aim of this unit is to help the student to develop skills in reviewing literature and reporting on their area of investigation.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

CEP997-2 Project B
Professional engineers must be able to define and solve problems in areas that are not covered in textbooks and
manuals of good practice. Critical assessment of research and development work develops this ability. To obtain this information and to carry out its study needs a plan of action. Students enrol in this unit over two semesters, completing 12 credit points in each semester. The aim of this unit is to help the student to develop skills in reviewing literature and reporting on their area of investigation.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLB001 Records Management**  
This unit introduces the paper-based and electronic records and information systems operating within and between organisations and the impact that changes in communication technology have had on these systems.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** COB121

**CLB002 Computer Applications in BCT**  
This unit includes the study of the use of technology for document preparation, analysis of underlying principles of skills acquisition and traditional and technological perspectives on the following: document design, document formatting, business correspondence, tabulation, financial statements, business forms, and document formatting for specialised businesses.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** COB119

**CLB003 Administrative Procedures**  
This unit includes an analysis of business environments in a variety of industries: communication practices, communication flows, functions and operational procedures, and the influence and impact of communication technology.  
**Corequisite(s):** COB173  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** COB122

**CLB004 Integrated Foundation Studies 1: Visual and Verbal Language and Literacies**  
This unit examines literacy from contemporary perspectives. Literacy education has tended to make an artificial divide between the printed word and visual information. Increasingly, contemporary literate practices combine multiple text forms employing a range of media and technologies to communicate. Texts are spoken, written, visual imagery and other symbolic forms, and are presented in multimedia combinations and digital interactive contexts. This unit examines the complex simultaneity of texts, delivery modes and media that have specific and more general, social and cultural meaning.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2007 SEM-1

**CLB005 Integrated Foundation Studies 3: Wellness and Active Citizenship**  
This unit explores the links between a holistic notion of health and wellness and the practice of active citizenship. It investigates the connections between human wellness, behaviour and particular social, cultural, civic, economic and environmental relationships that characterise communities at particular times and places. Students are encouraged to critically analyse such connections and utilise their knowledge and understanding to develop a sense of purpose about wellness and active citizenship in an increasingly globalised world.  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CLB376

**CLB006 Primary Curriculum and Pedagogies: Language and Literacies 1**  
New basics emerge in literacy education. The privileged status of print as the almost exclusive basis to literacy has diminished. Postmodern media culture is powerful and pervasive, and knowledge communication today is as much through multimedia as it is through the single medium of print. This unit acknowledges that children now form their early concepts about literacy from textual environments that are considerably more complex than for those of their predecessors. Contemporary language and literacy education must base its practices on texts from a range of technologies, involving different media, and in recognition of diverse contexts and social purposes for communicating.  
**Credit points:** 12  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CLB348

**CLB007 Primary Curriculum and Pedagogies: Language and Literacies 2**  
In this unit, students are required to engage with socio-critical and inclusive principles and practices relating to language and literacy education. They will plan for literacy development in a range of contexts, and examine how strategic practice is linked to particular theories of language and literacy development.  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2  
**Incompatible with:** CLB349

**CLB008 Primary Curriculum and Pedagogies: Studies of Society and Environment**  
This unit focuses on recent developments within the social education curriculum area with particular reference to Studies of Society and Environment (SOSE), a national key learning area and explores teaching and learning approaches in SOSE. Understanding the processes of curriculum development and being able to interpret curriculum documents and their implications for classroom practice are essential professional skills. Students will investigate SOSE as a curriculum area and to consider ways of translating syllabus requirements into worthwhile teaching and learning activities. Students will critically reflect upon both the theory and the practical suggestions throughout the unit and to consider how effective teaching can be achieved.  
**Prerequisite(s):** CLB005  
**Corequisite(s):** CLB005  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2007 6TP4 and 2007 SEM-2  
**Incompatible with:** CLB376, CLB122, CLB374
UNIT SYNOPSES

CLB010 Accounting and Business Management Curriculum Studies 2
This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior Accounting and Business Organisation and Management Syllabi to understand mandatory aspects of each syllabus. This unit will prepare students for their professional role as a teacher of secondary business education subjects, in particular, Accounting and Business Organisation and Management.

Prerequisite(s): CLB009 or CLB051
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB013 Business and Communication Technologies Curriculum Studies 2
This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has been designed to expand on previous planning and teaching strategies with a major focus on assessment. Students will examine the QSA Senior BCT Syllabus to understand mandatory aspects of the syllabus and will prepare students for their professional role as a teacher of secondary business education subjects, in particular, BCT.

Prerequisite(s): CLB012 or CLB051
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB016 Economics Curriculum Studies 2
This unit provides pre-service teachers with the opportunities to develop an understanding of teaching and learning in Economics and Studies of Society and Environment (SOSE). The significance of critical approaches and outcomes based approaches are explored in the context of the principles of SOSE/Social Education, pedagogical approaches, syllabus and assessment requirements.

Prerequisite(s): CLB015 or CLB054 or CLB051
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB018 English Curriculum Studies 1
This introduction to English teaching in secondary schools, provides an indispensable foundation on which English Curriculum Studies II and III are built. Students will develop an understanding of the theories of language and texts that underpin secondary English curriculum and pedagogy and which condition students learning within English classrooms. Students will have opportunities to apply their learning to their field observations and to plan to put theory of language, texts and learners into practice for English teaching.

Prerequisite(s): 24 credit points in appropriate discipline studies
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB019 English Curriculum Studies 2
This unit provides an opportunity to develop a theorized understanding of the Queensland English Syllabus for Years 1-10 and to implement this understanding by developing lessons and curriculum units that are appropriate for the needs and interests of diverse learners.

Prerequisite(s): CLB018
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB020 English Curriculum Studies 3
This unit provides opportunities to develop a theorized understanding of the Queensland English Syllabus for Years 11 and 12, Senior English Communication (SAS) and the Senior English Extension (Literature) Syllabus, and to implement this understanding by analysing and developing senior English programs, teaching and assessment strategies that are appropriate for the needs and interests of diverse learners in particular sociocultural contexts.

Prerequisite(s): CLB019
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1

CLB021 ESL Curriculum Studies 1
Effective ESL practitioners require a knowledge and understanding of the many factors that impact on the effective learning of a second (or an additional) language and on learning curriculum content through an additional language. They also need to know how these factors influence planning for learning and how they can be managed to maximise learning outcomes. In this first curriculum unit, students will engage with some of the theory that influences approaches to teaching English as an additional language across the curriculum. Students will engage with the documents that impact on planning for ESL teaching and learning eg ESL Framework of Stages and NLLIA ESL Bandscales.

Prerequisite(s): 24 credit points in appropriate discipline studies
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB022 ESL Curriculum Studies 2
This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

Prerequisite(s): CLB021
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB023 ESL Curriculum Studies 3
This unit introduces the theoretical and practical knowledge and skills required by an effective practitioner in the complex social environment of the classroom.

Prerequisite(s): CLB022
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB024 Film and Media Curriculum Studies 1
This unit is designed to develop competencies needed for planning and teaching in junior secondary Media (Years 8-10). Students will be introduced to the current curricular directions and frameworks for junior media (1-10) and its applications across the curriculum. The unit will build on the understandings and skills students developed in the unit Teaching and Learning Studies I and II and relate also to Field Studies I. This should assist in preparing students for the further Field Studies components of the course.

Prerequisite(s): 24 credit points in appropriate discipline studies
Credit points: 12
Contact hours: 3 per week
Campus: Kelvin Grove
Teaching period: 2007 SEM-1
UNIT SYNOPSES

CLB025 Film and Media Curriculum Studies 2
This unit allows students to apply theoretical knowledge of the curriculum and their Film and Media discipline units to senior secondary contexts. The unit offers the opportunity to develop research and presentation skills by formally researching and discussing the teaching implications of a number of current topics in film and media education.
Prerequisite(s): CLB024 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB026 Film and Media Curriculum Studies 3
This unit allows students to apply technological concepts and skills in senior and junior media studies and across other curriculum areas. The unit helps students understand and design pre-production texts investigating the role of technologies in the senior curriculum.
Prerequisite(s): CLB025 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB028 Geography Curriculum Studies 2
This unit provides opportunities to develop an understanding of teaching and learning in Geography and Studies of Society and Environment.
Prerequisite(s): CLB027 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB031 History Curriculum Studies 2
This unit provides opportunities to develop an understanding of teaching and learning in History and Studies of Society and Environment (SOSE).
Prerequisite(s): CLB030 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB034 Legal Studies Curriculum Studies 2
The second of three complementary units in Legal Studies Curriculum. Units are designed to help prepare students for a professional role as a teacher of secondary school Senior Legal Studies, and also to prepare them to teach in lower secondary subjects which are law-related, particularly the Civics syllabus of SOSE.
Prerequisite(s): CLB031 or CLB033 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB036 LOTE Curriculum Studies 1
This unit allows students to develop an understanding of the language learning process and their awareness of the place of languages in the school curriculum. Students will be encouraged to become reflective learners/teachers who can analyse the contexts in which they work, are familiar with policy and curriculum issues and are able to make soundly-based professional judgments designed to maximize learning for all students.
Prerequisite(s): 24cp in appropriate discipline studies Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB037 LOTE Curriculum Studies 2
Practising teachers need to be aware that syllabuses, policy documents and the classroom practices and teaching strategies to which they give rise reflect underlying views of language and learning.
Prerequisite(s): CLB036 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB038 LOTE Curriculum Studies 3
This unit builds on the two previous units and explores in greater depth a range of practical and theoretical issues in the area of LOTE curriculum development and implementation.
Prerequisite(s): CLB037 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB040 Social Science Curriculum Studies 2
This unit involves translating the syllabuses into modules or units of work, as well as placing an emphasis on assessment principles in Social Science. Students will also be involved in the development of advanced teaching strategies.
Prerequisite(s): CLB040 or CLB039 Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB042 Primary LOTE Curriculum Studies 1
Develops an understanding of the second language learning process and awareness of the place of languages in the primary school curriculum. Students will analyze the contexts in which you work, deal confidently with policy and curriculum issues and make soundly-based professional judgments designed to maximize learning for all students.
Prerequisite(s): U/grads 4 LOTE units, P/grads 6 LOTE units Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB045 Becoming a Second Language User
This unit aims to develop understanding of the processes of second language acquisition from both a practical and theoretical perspective. Students will gain an insight into the attributes of second language users and the issues facing them in contemporary education.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

CLB049 The Global Teacher
This unit enhances the skills of educators to design curriculum and pedagogy in ways that address global citizenship and educational and human rights.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB050 Movies and Popular Culture
Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

CLB051 Business Education Curriculum Studies 1
This is the first of three complementary units in the teaching of Business Education. The three units have been designed to help prepare you for a professional role as a teacher of lower and senior secondary school Business Education subjects (Accounting Business Management, Business Communication Technologies, Economics, Legal Studies, and ICT). In this first unit, the focus will be on curriculum development and teaching approaches in Lower Secondary Business and ICT Education.
Prerequisite(s): 48 cps of appropriate discipline studies Corequisite(s): Nil Credit points: 12 Campus: Kelvin
CLB053 Business Education Curriculum Studies 3
This unit, the final of three complementary units in the teaching of Business and ICT Education, will develop further your professional knowledge and skills as a learner-focused educator and skilled curriculum developer. The unit explores relevant issues, pedagogy and professional requirements essential for teachers of Business and ICT Education in the twenty-first century classroom.
Corequisite(s): Relevant Curriculum Studies 2 unit
Credit points: 12  Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1

CLB054 Social Education Curriculum Studies 1
This is the first of three complementary units in Social Education curriculum aimed at preparing you to teach Social Science subjects in the lower secondary school. This unit focuses on recent developments within the curriculum area of social education, with particular reference to the field of Studies of Society and Environment (SOSE) - a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice.
Prerequisite(s): 48 cps of appropriate discipline studies
Credit points: 12  Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB056 Social Education Curriculum Studies 3
This is the third of three complementary units in Social Education curriculum. The aim of this unit is to provide you with opportunities to develop an understanding of the ways in which new policies and initiatives have impacted on teaching and learning in social sciences and specific discipline studies in the senior school.
Prerequisite(s): Nil  Corequisite(s): Relevant Curriculum Studies 2 unit
Credit points: 12  Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1

CLB122 SOSE Curriculum and Pedagogies
This unit enhances understanding of the nature of SOSE as a curriculum area, and of the SOSE Syllabus and related curriculum documents.
Credit points: 12  Campus: External

CLB320 Studies In Language
This unit addresses the following topics: the language basis in current approaches to the teaching of English; nature and function of language; the dynamics involved in interactive situations; the appropriateness of language forms used in various social contexts; the educational implications of linguistic diversity within the community; the recognition of the developmental features of adolescent language.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLB321 Writing Workshop
The student, as writer, uses all the language modes in social contexts (either genuine or simulated) to lead to writing in a range of situations. Engagement in these writing situations is designed to bring about personal understanding of the following: the nature of the writing process; the influence of audience and purpose on the final written product; the range of genres (or forms) falling within the writing activity.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB322 Literature In Secondary Teaching
This unit covers the following topics: literature teaching in historical perspective; recent developments in theory; poetry in the senior school; teaching drama in the senior school; teaching the novel in the senior school; shorter works (novellas, short stories) and their use in the English curriculum.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove

CLB323 Teaching Adolescent Literature
This unit addresses the following topics: scope and nature of young adult literature; strategies for evaluation and selection; recent research into adolescents' reading needs, interests and responses; using young adult books in the curriculum.
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB347 Teaching English as an Additional Language
This elective unit for students in all teaching specialisations will develop understanding of specific language and learning needs of students for whom English is a second language. It deals with differences in first and second language development, professional implications of significant policy initiatives related to second language learners, and issues in analysis, assessment and cross-cultural communication. Participants will also investigate language demands of their own area of specialisation and develop appropriate teaching techniques and resources.
Prerequisite(s): Nil  Corequisite(s): Nil
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLB371 Knowing Your Environment: From Global Issues to Local Action
This unit is an interdisciplinary social science approach to explore the origins, nature and impact of various environmental issues that threaten the continuing viability of our planet. Its aim is to develop a sound skills and knowledge base enabling students to analyse, synthesise and respond positively to many of the controversial and vital environmental problems at a local, national and global level.
Prerequisite(s): Nil  Corequisite(s): Nil
Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLB372 Sustainable Consumption: From Coca-Cola to the Community Co-op
Designed to enhance the knowledge and skills of the individual in one of the most important roles in a market oriented economy. Content includes the following: the role and functions of consumers in the Australian economy; the interrelationship between consumers, business and government; consumer protection laws and the need for them; ways of developing pro-active consumerism; consuming for the environment - the green consumer.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove

CLB373 Environmental Futures in Australia and the Asia-Pacific
This unit provides a futures approach in the study of the rapidly changing Asia-Pacific region. An introduction to the study of the future is made through an analysis of principal methods and contemporary contributors such as Toffler and Jones. Methods and models that are applied are relevant to Australia, Asia and the Pacific, involving themes including the following: population and migration; international relations; political institutions and systems; resource allocation and utilisation; sustainable development; environment issues and structural change.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-1

CLB375 Exploring Outdoors: Education in the Environment
This unit is designed to identify and value a wide range of field study resources and venues. Extensive involvement with field study experiences will assist students in developing appropriate skills for investigating environmental issues and concerns as well as helping students reflect and refine the usefulness and value of field experience in developing effective environmental education programs.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove

CLB401 Cultural Diversity And Education
This unit explores the multicultural nature of Australian society and its educational approaches to addressing the needs of cultural diversity. Participants will analyse the role of the school and the teacher with respect to schooling and pluralism. Students will learn how to identify and challenge various forms of discrimination, and recognise the kinds of social, curriculum, and classroom management policies which are sensitive to the needs of students from diverse socio-cultural backgrounds.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1

CLB402 Issues In Indigenous Education
This unit addresses the following topics: factors influencing the position of Aborigines and Torres Strait Islanders in Australian society; government policies; indigenous cultures and education; current initiatives; participation of indigenous communities in policies and programs.
Prerequisite(s): nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and External  Teaching period: 2007 SEM-1

CLB403 Gender And Sexuality Issues For Teachers
This unit addresses the following topics: gender and sexualities in cultural and school contexts; historical overview of gender relations; theoretical frameworks for gender and current debates in Australia about gender and equity; femininity and masculinity as social constructs; sexuality and the body; violence and gender; debates about boys' behaviour and performance in Australian schools.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: External  Teaching period: 2007 SEM-1

CLB441 Children's Literature
This unit provides students with the opportunity to extend their knowledge of children's literature written by both Australian and overseas writers. It examines traditional and emerging genres, develops critical approaches to texts, and considers ways of using children's literature in the classroom.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1

CLB446 Understanding Texts and Writing
Over the past twenty years, linguistic studies have increasingly informed the development of language curriculum, the assessment of language, and the processes of language and literacy learning in schools. Over the same time the need for teachers to have systematic knowledge of language and how it works has been recognised. In much of Australia this systematic approach to describing language comes principally from the systemic functional school of linguistics. This unit provides an organised, contextualised introduction to that linguistic model through workshop sessions involving the writing and reading of a range of genre. In this unit, students will learn to critically evaluate texts, their purposes and the language resources employed by writers.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove

CLB452 Media Literacy And The School
The unit aims to equip future teachers with an understanding of media literacy that they can apply to their own professional growth and incorporate into an educational environment. Aspects of media techniques and practices, relationships between culture and meaning; nature of an audience, and concepts of agents and industry will be explored.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-1  Incompatible with: LAP513

CLN601 Cyberlearning: Information and Knowledge in the Digital Age
This unit addresses the challenges, opportunities and implications for learning and teaching in dynamic, information-rich online environments. It enables students to: critically and creatively engage with contemporary concepts, technologies and practices for diverse educational, professional and information contexts, including school libraries; participate in an online learning community; collaborate in the design, development and evaluation of online learning resources.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: External  Teaching period: 2007 SEM-1

CLN603 Designing Spaces for Learning
This unit provides a foundation for understanding the complex relations among space place and learning pedagogies appropriate to the design of innovative, adaptable supportive spaces for learning in future-oriented educational contexts.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-2

**CLN604 Globalisation and Educational Change**

This unit explores how different paradigms interpret globalisation, global change and the implications for education. It undertakes a comparative analysis of the impact of globalisation on schooling, higher education and the work of multilateral agencies in education across different national and local contexts. Also compared are the impacts of local, national and global forces on the shaping of cultural identities and citizenship. It discusses the implications of internationalisation and new learning technologies for future conceptions of education, for work preparation and for citizenship responsibilities, and uses a futures perspective to discuss the extent to which national education policies are meeting future educational needs.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** 3 per week  
**Teaching period:** 2007 SEM-1

**CLN608 Second Language Acquisition**

Research into second language acquisition is providing new insights into the complex processes involved in natural and instructed language development. This unit extends participants knowledge of research into, and theories of, second language acquisition, and explores pedagogical implications and the relevance of research and theories to the enhancement of second language acquisition and learning.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** 3 per week  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN612 Principles Of Second Language Methodology**

This unit considers the range of approaches to second language learning and the theories of language and learning which underpin them: theories of language and learning and their implications for TESOL; the social context of learning and its impact on methodological decision-making; current approaches and methods in TESOL; the roles of teachers and learners in the TESOL classroom.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** 3 per week  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN613 Second Language Curriculum Design Options**

This unit introduces the factors that influence teachers in the development of language programs. It includes analysis of the following areas: learner profiles and needs; aims and objectives; processes and criteria for selecting methodology; content selection and sequencing; choice and evaluation of materials and resources.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** 3 per week  
**Teaching period:** 2007 SEM-2

**CLN615 Directed Reading In Second Language Education**

This unit provides an opportunity for teachers and others involved in TESOL to review current research articles to gain an overview of developments in TESOL/Applied Linguistics and to explore one or two personal interest areas in greater depth.

**Prerequisite(s):** CLN618  
**Credit points:** 12  
**Campus:** Kelvin Grove and External  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN616 Language Assessment And Program Evaluation In Tesol**

This unit introduces the theories and practices in program evaluation, language testing and proficiency assessment. It examines and evaluates standardised tests and instruments that are used to assess the English language proficiency of speakers for whom English is a second language.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN617 Personalised Language Development**

Language learning is a lifelong task. This unit allows teachers to take a program of language development aimed at improving their level of proficiency and enhancing their cultural awareness. Students wishing to take this unit should discuss options with the coordinator.

**Prerequisite(s):** Nil - with permission of course coordinator  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** 3 per week  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN618 Technology And Second Language Learning**

The twentieth century saw a rapid change in the technology available to language teachers. This unit explores the creative teaching potential of this technology in areas such as computer enhanced language learning (CELL), interactive multimedia (including CD-ROM and video disc) and the use of linear video, word processing and audio materials. The unit will also explore access to and pedagogical uses of electronic communication such as email, list servers and bulletin boards.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CLN619 Functional Grammar And Discourse**

When we use language to enact our everyday lives, to teach and to learn, we use discourses to do so. Through this unit, students develop both the knowledge and the tools to analyse how discourses, comprising texts, make meaning linguistically. Students will analyse and discuss how meaning is constructed through interacting socio-cultural contexts and texts. Studies include the relationships among discourse, genre, register and text, involving the role of coherence and cohesion in text level meaning, of transitivity, mood and theme/rheme in clause level meaning, and of nominal, verbal and prepositional groups in group level meaning. Significant linguistic features of written and spoken language are identified and discussed.

**Credit points:** 12  
**Teaching period:** 2007 SEM-2
CLN620 Language And Culture
This unit explores the relationship between language and culture drawing on insights from linguistics, sociolinguistics and cultural theory. It analyses the co-constitutive nature of language and culture, and examines how this relationship can be explored in the TESOL context.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SUMMER

CLN640 Sociolinguistics
This unit is an introduction to sociolinguistics, the study of language as social process and practice. Topics covered include the following: language functions and varieties; regional and social dialects, styles and registers; pidgin and Creole languages; language as social practice; discourse; speech communities; language and power; sociolinguistics and language teaching.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-2

CLN641 From Theory To Practice- Practical Applications In The TESOL Classroom
This unit focuses on Communicative Language Teaching (CLT). It extends students' knowledge of the general trends in methodology learned in CLN612, by providing a theoretical basis for CLT and various opportunities to apply the theoretical framework to classroom practice.
Prerequisite(s): CLN612  Corequisite(s): CLN612  Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SUMMER

CLN642 Grammar For Teachers
This unit assists language teachers develop a better understanding of grammar and its place in the teaching and learning of a second language. Participants will develop their own language awareness and explore a range of strategies and techniques for the effective integration of grammar instruction into language programs.
Prerequisite(s): CLN608, CLN612  Corequisite(s): CLN608, CLN612  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-1

CLN645 Studies of Asia: New Pedagogies
This unit employs several theoretical frameworks to investigate significant aspects of Asian societies, their relationships with Australia and debates about the role of education in empowering Australians for regional engagement.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Kelvin Grove  Teaching period: 2007 SEM-1

CLN646 The Knowledge Hub: Information Services for Dynamic Learning
The unit provides a research based, theoretical and practical context for exploring organisational, pedagogical, technological and professional dimensions of school libraries and other information services for prospective teacher-librarians information professionals and other educators.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2007 SEM-1 and 2007 SEM-2

CLN647 Youth, Popular Culture, and Texts
In the diverse terrain of popular culture, youth find the resources and means for identity formation, social relations and pleasure, and develop develop a range of knowledge, skills, values and attitudes. Educators need to understand the ways popular cultural texts (literary, mass media, computer-based and digital) form the cultural capital of youth and give meaning to their lived experiences.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2007 SEM-1

CLP400 Middle Years: Multiliteracies
This unit provides students with the opportunity to develop concepts of themselves as life-long learners and to demonstrate capacities as effective communicators across media through engagement with critical and socio-cultural principles of language and literacy education. The unit models curriculum development principles, inclusivity and reflective practices that involve problem-based learning.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CLB123

CLP401 Middle Years: Transdisciplinary Arts and SOSE
This unit aims to enhance students' understanding of the nature of SOSE and the ARTS as curriculum areas and to highlight the advantages of bringing these areas of learning together. It also aims to provide the opportunity to engage with the relevant syllabus and curriculum documents by translating goals and outcomes into innovative middle-years teaching units.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: CLB376, CLB122, CLB008

CLP402 Business Education Curriculum Studies 1
This is the first of three complementary units in the teaching of Business Education. The three units have been designed to help prepare you for a professional role as a teacher of lower and senior secondary school Business Education subjects (Accounting Business Management, Business Communication Technologies, Economics, Legal Studies, and ICT). In this first unit, the focus will be on curriculum development and teaching approaches in Lower Secondary Business and ICT Education.
Prerequisite(s): 48 cps of appropriate discipline studies  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP403 Business Education Curriculum Studies 2 (Business Communication and Technology)
This unit is the second in a suite of three complementary units which can be undertaken in Business Education. It has
be developed to expand on previous planning and
teaching strategies with a major focus on assessment.
Students will examine the QSA Senior BCT Syllabus to
understand mandatory aspects of the syllabus and will
prepare students for their professional role as a teacher of
secondary business education subjects, in particular, BCT
Prerequisite(s): CLP402 Corequisite(s): Nil Credit
points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2
CLP403x Business Education Curriculum Studies 2
(Accounting and Business Management)
This unit is the second in a suite of three complementary
units which can be undertaken in Business Education. It has
been designed to expand on previous planning and
teaching strategies with a major focus on assessment.
Students will examine the QSA Senior BCT Syllabus to
understand mandatory aspects of the syllabus and will
prepare students for their professional role as a teacher of
secondary business education subjects, in particular, BCT
Prerequisite(s): CLP402 Corequisite(s): Nil Campus:
Kelvin Grove
CLP404 Business Education Curriculum Studies 2
(Accounting and Business Management)
This unit is the second in a suite of three complementary
units which can be undertaken in Business Education. It has
been designed to expand on previous planning and
teaching strategies with a major focus on assessment.
Students will examine the QSA Senior Accounting and
Business Organisation and Management Syllabi to
understand mandatory aspects of each syllabus. This unit
will prepare students for their professional role as a teacher of
secondary business education subjects, in particular, Accounting and Business Organisation and Management.
Prerequisite(s): CLP402 Corequisite(s): Nil Credit
points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2
CLP405 Economics Education Curriculum Studies
This unit is the second in a suite of three complementary
units which can be undertaken either in the Business
Education or Social Education streams. It has been
designed to expand on previous planning and teaching
strategies with a major focus on assessment. Students will examine the QSA Economics Syllabus to understand
mandatory aspects of the syllabus. This unit will prepare
students for their professional role as a teacher of
secondary Economics.
Prerequisite(s): CLP402 or CLP414 Corequisite(s): Nil
Credit points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1
CLP406 Legal Studies Education Curriculum Studies
This unit is the second in a suite of three complementary
units which can be undertaken in either the Business
Education or Social Education streams. It has been
designed to expand on previous planning and teaching
strategies with a major focus on assessment. Students will examine the QSA Legal Studies Syllabus to understand
mandatory aspects of the syllabus. This unit will prepare
students for their professional role as a teacher of
secondary Legal Studies.
Prerequisite(s): Nil Corequisite(s): CLP409 Credit
points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2
CLP407 Business Education Curriculum Studies 3
This unit, the final of three complementary units in the
teaching of Business and ICT Education, will develop further
your professional knowledge and skills as a learner-focused
educator and skilled curriculum developer. The unit explores
relevant issues, pedagogy and professional requirements
essential for teachers of Business and ICT Education in the
twenty-first century classroom.
Prerequisite(s): Nil Corequisite(s): CLP403 or CLP404
or MDP455 Credit points: 12 Campus: Internet and
Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2
CLP408 English Education Curriculum Studies 1
An introduction to English teaching in secondary schools,
providing an indispensable foundation for subsequent
English Curriculum Studies. You will develop an
understanding of language learners, and of the theories of
language and texts which underpin secondary English
curriculum and pedagogy and which condition students’
learning within English classrooms. You will have
opportunities during your field studies to conduct inquiry-
oriented language-focused observations of a range of
students, evaluate their language learning needs and devise
appropriate learning experiences for them.
Prerequisite(s): 48cp in appropriate discipline studies
Corequisite(s): Field Studies 1 Credit points: 12
Campus: Internet and Kelvin Grove Teaching period:
2007 SEM-1 and 2007 SEM-2
CLP409 English Education Curriculum Studies 2
This unit aims to provide you with opportunities to develop a
critical understanding of the theories and principles which
inform the Queensland English Syllabus for Years 1-10 and
to implement this understanding by developing junior
secondary curriculum units and lessons which are
appropriate for the needs and interests of diverse learners
in a range of sociocultural contexts.
Prerequisite(s): CLP408 Corequisite(s): Nil Credit
points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-2
CLP410 English Education Curriculum Studies 3
In this unit, you will develop and implement your
understanding of the range of disciplinary approaches (such as Literary and Cultural Studies, Film and Media Studies,
and sociolinguistics) which contribute to secondary English
curriculum and pedagogy. The policy context is the
Queensland English Syllabus for Years 11 and 12, Senior
English Communication (SAS), the Senior English
Extension (Literature) Syllabus, and school to work
transition programs. You will learn to evaluate and develop
English work programs for students in the post-compulsory
years.
Prerequisite(s): Nil Corequisite(s): CLP409 Credit
points: 12 Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2
CLP411 Languages Education Curriculum Studies 1
Languages Education Curriculum Studies 1 aims to develop your understanding of the language learning process and your awareness of the place of languages in the school curriculum. This unit will focus on developing your understanding of language learning, the place of languages and literacies in the school curriculum and the role of the language teacher in developing linguistic and cultural awareness.

Prerequisite(s): At least 48 cp in appropriate discipline studies
Corequisite(s): Nil
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLP412 Languages Education Curriculum Studies 2
This unit involves further discussion of the theoretical fundamentals of language curriculum development and methodology and exploration of the major issues that face language teachers in their daily pedagogical decision making. It will develop your capacity to plan learning experiences which support students’ involvement in multi-literacy practices and develop strategic language learning skills which they can use beyond the classroom.

Prerequisite(s): CLP411
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-2

CLP413 Languages Education Curriculum Studies 3
This unit focuses on the development of effective language programs and assessment practices for secondary students, including Senior assessment and outcomes-based assessment in a variety of contexts. This unit aims to support you in expanding your teaching repertoire so that you can provide all learners with an effective learning environment based on a critical awareness of good professional practice.

Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-1

CLP414 Social Education Curriculum Studies 1
This is the first of three complementary units in Social Education curriculum aimed at preparing you to teach Social Science subjects in the lower secondary school. This unit focuses on recent developments within the curriculum area of social education, with particular reference to the field of Studies of Society and Environment (SOSE) and a national Key Learning Area. It explores the theoretical context for these curriculum areas, and places emphasis on the links between theory and practice.

Prerequisite(s): 48 cps of appropriate discipline studies
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP415 Social Education Curriculum Studies 2 (Geography)
This is the second of three complementary units to be taken in the Social Education stream. This unit has been designed specifically to prepare you for a professional role as a teacher of geography in the years of secondary school. It will build on the planning and teaching strategies developed in your first curriculum studies unit. In this second curriculum unit you will explore in depth theories that influence approaches to teaching in geography and ways of catering for diversity in the classroom.

Prerequisite(s): CLP414
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP416 Social Education Curriculum Studies 2 (History)
This is the second of three complementary units in Social Education curriculum designed to prepare you for a professional role as a teacher of Senior Social Science subjects in the secondary school. This unit builds on the focus of your first curriculum studies unit and extends your knowledge and understanding of the nature of history and historical inquiry developed in the History Curriculum Elective.

Prerequisite(s): CLP414
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP417 Social Education Curriculum Studies 2 (Senior Social Science)
This is the second in a suite of three complementary units which are undertaken in the Social Education Stream. This unit has been designed to prepare you for a professional role as a teacher of secondary school Senior Social Science subjects. The aim of this unit is to provide you with opportunities to develop an understanding of teaching and learning and assessment in the social sciences within the senior secondary school.

Prerequisite(s): CLP414
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP418 Social Education Curriculum Studies 3
This is the third of three complementary units in Social Education curriculum. The aim of this unit is to provide you with opportunities to develop an understanding of the ways in which new policies and initiatives have impacted on teaching and learning in social sciences and specific discipline studies in the senior school.

Prerequisite(s): Nil
Corequisite(s): Relevant Curriculum Studies 2 unit
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

CLP419 Social Education Curriculum Studies - Senior History
The aim of this elective unit is to provide you with opportunities to develop an understanding of teaching and learning in history. You will investigate how learning through historical inquiry develops specific historical understandings and skills that are the foundations for historical literacy. This unit provides opportunities for you to critique how recent developments in historical education are impacting upon curriculum development and teaching approaches in Senior Ancient and/or Senior Modern History.

Prerequisite(s): 48 cps of History discipline units
Corequisite(s): Nil
Credit points: 12
Campus: Internet and Kelvin Grove
Teaching period: 2007 SEM-1

CLZ006 Primary Curriculum Pedagogies: Language and Literacies 1
**CNB201 Construction 3**

Students learn how to construct a high rise structure from the basement to the roof. The unit focuses on protection to the public during construction, temporary support, demolition, temporary services, deep excavation and foundations, retention and shoring systems, structural components, multilevel formwork, interaction of building components, systems and services, common building faults and failures and rectification, alternative forms of external cladding, waterproofing problems.

**Prerequisite(s):** CNB107  
**Corequisite(s):** CNB202  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point

**CNB202 Building Technology 3**

This unit includes the study and analysis of engineering components and systems to develop a sound understanding of how a building achieves structural stability and equilibrium through its load paths. This includes basic structural member design for tension and compression, bending and shear loads through detailed examination and the use of relevant Australian Standards as the basis for examination. Emphasis is on approximate or first order of magnitude techniques suitable for estimating of checking purposes. Structural systems analysis includes trusses and retaining walls with an emphasis on qualitative and quantitative techniques. Construction stability is examined in detail including cranes, shoring, scaffolding, and slings.

**Prerequisite(s):** CNB108  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB203 Building Services**

The following building services are introduced in this unit: Fire Services: fire detection, suppression and extinguishment; statutory requirements for maintenance of essential active fire services; Hydraulics Services: building hydraulic services including water supply, fire protection and sanitary waste disposal systems; Mechanical Services: air movement; types of ventilation; air-conditioning systems and heating; insulation procedures and the issue of confined spaces; basis of design and effect of architectural style; Electrical Services: transformers; substations; switchboards; protection devices; lighting systems; stand-by generators; security systems; systems monitoring and energy management; vertical transportation systems; Energy Efficient Service

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**CNB204 Measurement 2**

Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: measurement of various work sections (concrete, formwork, reinforcement, groundworks, underpinning, tanking, structural steelwork, exterior elements, and bored piers); and the development and application of builders’ quantities.

**Prerequisite(s):** CNB110  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

---

**CNB206 Law 1**

Tort law is introduced under the following headings: negligence; professional negligence; duty of care; liability; occupier liabilities; nuisance; fraud and conversion; contract law parties; formation of contracts (agreement, intention, consideration, estoppel); enforcement of contracts (privity and formalities); contents of contracts (oral statements, express and implied terms); tendering issues; variations; time; payment and liquidated damages. Environmental law is examined including constraints, water noise and dust, vibration from blasting, heritage, erosion and sediment control, contaminated land, safety, sustainable development and waste management and control.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**CNB207 Professional Studies 2**

The aim of this unit is to provide the opportunity for students to experience the type of decisions met in professional practice and to acquire the investigating skills needed to support a rational approach to problem solving. Students undertake projects that are normally related to environmental matters and special construction techniques. Each project is set to develop self-learning skills in the areas of environmental issues, construction practice, planning, community negotiations, commercial decisions and statutory responsibilities, planning, community negotiations, commercial decisions and statutory responsibilities.

**Prerequisite(s):** CNB109, CNB101  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point

**CNB208 Construction Business Management**

Examination of a range of general business management practices and issues as they relate to the construction industry. Specific topics to be examined include understanding individuals and organisations; personality and attitudes; personal and professional business ethics; motivation and employee performance; managing stress, conflict, change, power and politics; communication; group functions; decisions making processes. Further, this unit examines industrial relations including the impact of industrial relations in the construction industry; the role of unions; labour management; health and safety; workplace reform and workplace agreements.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**CNB209 The Environment and the Quantity Surveyor**

This unit will involve professional quantity surveying including image and status, fees, codes of ethics, professional competence and continuing professional development. In terms of employment, professional engagement in the workplace will be covered including terms of engagement, professional indemnity insurance, quality assurance and financial asset management. The work of quantity surveying takes place within a social and environmental context and this relates to the interactions between business and environmental interests including the natural environment,
environment economics and ecologically sustainable development.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNB227 Applied Computing**

This unit assists the construction manager to select and use the relevant construction software to measure, estimate, manage, plan, schedule and organise on and off site activities on a construction site. This unit comprises three major components: (a) the advanced application of spreadsheet and databases; (b) the application of construction management packages; and (c) the integration of computer software. A range of computer products are introduced to cover construction management topics such as project scheduling, project control, estimation, and cost monitoring.

**Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2  **Incompatible with:** CNB304

**CNB228 Construction Business Administration**

This unit addresses the following construction administration topics: structuring the budget documents to provide control mechanisms or cost monitoring and purchasing; dealings with sub-contractors during initial negotiations and subsequent execution of the contract on a conceptual and operational level; dealing with the client on variations in the physical work and the consequences on time in both commercial and contractual terms, with the implications traced through to the sub-contract level; techniques for the prediction of profitability and the procedures for claiming final payment and finalising the contract. The unit also examines the Workers Compensation Act, the Workplace Health and Safety Act, and the Regulations and Codes of Practice.

**Credit points:** 12  **Campus:** Gardens Point

**CNB290 Building Studies 2**

Building Studies 2 continues to develop the students' construction knowledge with reference to larger commercial and high-rise buildings. Lectures provide a general overview of advanced construction methods while developing students' appreciation of such issues as material finishes, interior fit-outs, typical problems and solutions, interior and exterior component finishes, and fault identification and remedy. The unit also examines the history and need for cost control comparisons between cost planning and approximate estimating. It also considers NPWC cost control systems, the effect of height, shape and building efficiency upon cost and value, the functional requirements and cost implications of construction methods and the influence of site and market con

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1  **Incompatible with:** CNB282

**CNB291 Urban Land Economics**

The unit builds on the student's previous exposure to economic theory and applies that knowledge to assist the student's appreciation of the economic imperatives which drive and shape urban development. Topics covered include the following: economic processes in spatial and land use development; urban growth theory; competing land use; supply and demand in the pricing of urban property; the concept of the 'rent bid curve'; business location theory; the impact of land based communications corridors on price; technology and footloose location theory; planning and government control on free market pricing; environmental and heritage issues; and local government regulation and by-laws.

**Prerequisite(s):** BSB113, EFB102  **Credit points:** 12  **Campus:** Gardens Point

**CNB292 Property Investment Valuation**

This unit further develops the basic property valuation principles introduced in CNB194 Principles in Property Valuation. The emphasis now moves to the valuation of income producing property assets which are more commonly termed 'investment properties'. Topics covered include the mathematics of freehold and leasehold property valuation utilising the time value of money formula as exhibited in the capitalisation of net income and discounted cash flow approaches.

**Prerequisite(s):** CNB194  **Credit points:** 12  **Campus:** Gardens Point

**CNB293 Real Estate Accounting and Taxation**

This unit addresses the following: introduction to the business environment surrounding the property industry; introduction to accounting; financial accounting (recording accounting information and basic financial statements, company accounts and other business structures, cash flow statements, interpretation of accounts); cost and management accounting (accounting for inventory and manufacturing, basic cost accounting procedures and direct and indirect costs); financial management (accounting systems, cash control and payroll); accounting for real estate trust accounts; taxation (interpretation of income and capital gains tax and GST deductions and allowance, gearing, negative gearing, depreciation and build amortisation).

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**CNB294 Agency Practice and Marketing**

The focus of this unit is to provide students with a grounding in real estate agency practice and marketing as it applies to the diverse real estate property types of commercial, industrial, retail and residential. By the completion of the unit, students will have a good understanding of real estate agency management and practice methodologies and contemporary real estate marketing theory and practice. Reference is also made to legislative impacts including: the Property Agents and Motor Dealers Act; the Trade Practices Act; the Retail Shop Leases Act and Common Law.

**Prerequisite(s):** CNB191, CNB193  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**CNB295 Planning Theory and Processes**

Development of land use in most western democracies is a controlled and regulated activity. This unit examines the history and morphology of planning control in the Queensland context and its impact on property markets. Topics covered will include the following: introduction to the emergence of fundamental principles of urban planning
control and regulation in Queensland; statutory planning process and current Queensland legislation; urban and regional planning on matters of equity and social responsibility; types of planning controls; current development planning approval and appeals processes; conservation and heritage protection and its impact on development; land use rights and economic value; concepts and impact of regional planning.

**Credit points:** 12  
**Campus:** Gardens Point

**CNB296 Contemporary Issues**
This unit is deliberately open ended and flexible with regard to content. Issues facing the property industry can be varied and wide-ranging. Content therefore is likely to vary from year to year as issues gain prominence and then recede. Current topics which may be covered might include the following: native title; heritage; contamination; environment and sustainability; professional issues; internationalisation of property markets; water rights; demographics; regional and rural issues; and common property rights.

**Prerequisite(s):** Year 1 & 2 of CN54  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNB285

**CNB297 Property Finance**
This unit covers the role of property and its financing for development or investment. It considers property in relation to institutional asset allocation, risk diversification and general decision making principles. It develops students’ understanding of the nature and impact of loan finance on investment property and the place of property assets within capital markets, relevant to subsequent employment in property as a graduate of property economics.

**Prerequisite(s):** CNB292  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB302 Contract Administration**
This unit addresses the following: administration of standard form contracts used by the building industry; special conditions of contract; contract addenda; financial management of contracts from formation to discharge; construction procurement and evaluation systems; tender code; construction insurance; sub-contractors and nominated sub-contractors; adjustment of provisional sums; variations; correction of bill errors; interim claims and certificates of payment; forms of security; bank guarantees and retention; counting of days; delays; extensions of time; liquidated and ascertained damages; prolongation costs; dispute clauses; practical completion; completion; defects liability; warranties; collateral warranties.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNB303 Construction Business Accounting**
This unit includes the following content: introduction to accounting; financial accounting (recording accounting information and basic financial statements, company accounts, interpretation of accounts); cost and management accounting (basic cost accounting procedures, direct and indirect costs, fixed and variable cost analysis and budgetary control); financial management (taxation, payroll, cost of capital, managing working capital, and financing); use of accounting/financial management software.

**Prerequisite(s):** CNB207  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB305 Construction Estimating**
This unit addresses the following: estimating techniques to quantify cost; fundamental elements of cost and methods of evaluating labour, materials and equipment to realistic levels of accuracy; unit rate approach to assessing the base estimate for major trades; assessment of offers from subcontractors and implications for tendering with respect to risk, quality and ethical responsibilities; functional estimating and the significance of method, time and assembly of information to estimating; review of an estimate; determination of profit; letters of offer; subsequent negotiations prior to award of a contract; application of estimating to variations and profit monitoring; linking best value procurement assessment to outcome performance indicators (including tender evaluation criteria).

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNB307 Building Economics and Cost Management**
This unit considers the following: the interrelationship between construction industry and economy; the fundamental principles of cost management (design and construction cost planning and cost control); the nature and purpose of cost planning and cost control systems; contract costing (historical accounting) and anticipatory (forecast final cost/value); design economics including cost and value concepts, cost information systems, cost modelling, cost analyses, cost indices, cost data and cost implications of design variables; life cycle costing and modelling including design knowledge in virtual environments; value management including energy efficiency in buildings and value alignment process for project delivery; asset management and building maintenance.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB308 Professional Studies 3**
The aim of this unit is to help students understand the character of the decisions required from a construction manager in a project environment. Students advance to decisions related to the overall management of a building company such as staffing, tendering and tactical positioning using the computer simulation Arousal; Students also examine the character of managing construction, the significance of bidding strategies, the management of projects - broad goals/specific goals, project status (progress/profit), corporate entity analysis, comparison of firm bidding with other procurement methods, estimating fee bidding, overheads, tendering, profit and risk, project concept, proposals and commercial awareness.

**Prerequisite(s):** CNB207  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB309 Law 2**
This unit addresses the following commercial law topics: sale of goods; hire purchase; trade practices; negotiable instruments; insurance law; partnership law and company
law; bankruptcy and liquidation; arbitration including the agreement, appointment of an arbitrator, conduct of an arbitrator, powers and duties, enforcement of an award and costs; alternative dispute resolution. This unit also studies the Building Code of Australia and building regulations which control the design and construction of building works. It covers all building law and includes a study of the Interpretation Act and Town Planning Acts.

**Prerequisite(s):** CNB206, CNB101, CNB105, CNB107, CNB201 Credit points: 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB310 Measurement 3**  
Measurement is a core skill among building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers measurement of building services (hydraulics, drainage, electrical and mechanical works).

**Prerequisite(s):** CNB204  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB335 Time Management**  
Controlling time and resources is an essential task in construction project management. Students in construction courses must develop an understanding of the skills required for time management. This unit covers the following: project time and resource planning techniques such as bar charts and critical path networks (precedence, time scales, and activity on arrows); line of balance; resource allocation and levelling; schedule updates and progress control; and delays and claims analysis. Applications of computer-based project planning software will form an important part of the study in this unit.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNB336 Construction Business Management**  
This unit involves an examination of a range of general business management practices and issues as they relate to the construction industry. Specific topics to be examined include the following: understanding individuals and organisations; personality and attitudes; personal and professional business ethics; motivation and employee performance; stress; managing stress; conflict; change; power and politics; communication; group functions; decision making processes. This unit also examines the impact of industrial relations in the construction industry including the role of unions, labour management, workplace reform and workplace agreements.

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB390 Professional Practice**  
Professional experience forms an integral part of the property course. This unit seeks to provide students with a fully supervised University approved work experience placement of 30 days, complementary to their academic program. The unit is fully supported by the Australian Property Institute and the Institute plays a key role in monitoring student/host interaction to ensure students receive the best quality experience possible.

**Prerequisite(s):** Year 1 & 2 of CN54  
**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNB391 Statutory and Applied Valuation**  
Valuers are often called upon to perform valuations of special use properties either for statutory purposes and/or to represent those valuations as an expert witness. For statutory purposes this might include: valuations for tax and taxation of capital gains; statutory rating purposes under relevant legislation including computer assisted mass appraisal; appeals procedure; compulsory acquisition; assessment of compensation resulting from acquisition, resumption and damage. For evidence purposes valuers may be required to provide expert witnesses in regard to professional liability, moot court and the valuation of special purpose properties and businesses as a going concern.

**Prerequisite(s):** CNB191, CNB194, CNB292  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNB392 Property Investment Analysis**  
Topics covered in this unit include the following: the principles and strategies of investment; alternative forms of investment; real estate as an investment medium; the real estate investment process; property ownership structures; initial feasibility analysis; detailed cash flow analysis involving NPV and IRR analysis; the modified internal rate of return (MIRR) approach; sensitivity and probability analysis; market analysis and real estate cycles; institutional property investment; risk analysis and risk management.

**Prerequisite(s):** CNB194, CNB292  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB393 Property and Asset Management**  
Property Management provides a detailed insight into all aspects of property management, from residential management progressing to specialised industrial, commercial and retail centres. It also addresses life cycle analysis and incorporates units of competency standards ASF 16, 17, 18, 19.

**Prerequisite(s):** CNB191, CNB192, CNB193, CNB194, CNB290, CNB292, CNB293  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB394 Property Development**  
Data is provided on the Australian urban economic environment to enable students to gain knowledge of the various development sectors. Students are exposed to various planning, building, legal, financial and environmental acts and conditions. Knowledge gained is applied to a range of case studies across various development sectors.

**Prerequisite(s):** CNB292, CNB295, CNB297  
**Corequisite(s):** CNB392  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**CNB395 Research Methods**  
This unit provides students with the opportunity to develop an understanding of research skills, techniques and methodologies appropriate for the completion of a full research proposal or for the development of advanced database skills. To facilitate this, topics covered include research and retrieval skills, research methodologies and
strategies, data collection and analysis and presentation and dissertation writing.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-2  Incompatible with: CNB383

**CNB402 Investment Theory**
Construction Managers need to understand how property is valued and the different aspects of land that affect the value. This unit includes content on concepts of valuation, types of landed property, income, and ownership costs and capitalisation rates. Students are also provided with concepts of investment theory including NPV, IRR and MIRR.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

**CNB408 Advanced Building and Civil Construction**
This unit focuses on non-standard buildings and structures in terms of constructability, construction methodology, planning, estimating, scheduling and site organisation. Significance of temporary works and the inherent need for planning and safety are included. Students study in detail the methods and equipment employed in the construction of earthworks, heavy foundations, steel fabrication and erection, marine and water retaining structures, roadworks and bridges, mechanical erection and electrical structures. The unit concludes with the broader issues of environmental management, construction weather forecasting and the management and social issues of work in remote locations.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

**CNB409 Professional Practice 1**
Professional experience forms an integral part of the academic program, allowing the students the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. A diary and logbook are to be completed and signed by the employer. A key learning feature of this unit is the identification of a problem at the students place of employment and the preparation of a case study report on an actual development project, providing direct insight into the task of problem solving and delivering real projects.

Prerequisite(s): To be taken in final year of course  Corequisite(s): Employment in the Building Industry  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

**CNB410 Property Development**
A study of the property development process giving students a sound knowledge of how property developers identify, measure, structure and manage a property development undertaken in both residential and non-residential sectors of the market. This includes planning, building, legal, financial and environmental issues. The unit introduces the following: the development process; the planning process; identifying and screening development opportunities; market drivers; market demand analysis; income projections; options studies; design management; procurement methods; cost projections; feasibility analysis; authority approvals; development finance; financial structuring; risk management; an communicating with stakeholders.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CNB420 Current Construction Issues**
This unit addresses new developments in construction and construction management focussing on recent and topical developments in the area of construction management. Areas covered by current construction issues will vary from year to year as advances are made in construction and construction management, but may include the following: quality management; buildability; value analysis; case studies; computer applications and selection; information systems, IT and AL; international construction management; recent developments in law; cultural influences in construction; new construction technologies and methodologies.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CNB423 Professional Practice 2**
Professional experience forms an integral part of the academic programme, allowing the students the opportunity to put into practice accumulated theory and simulated practical work. The aim of this unit is to facilitate students gaining relevant professional experience and varied management knowledge and skills in approved employment for a minimum of 100 days. A diary and logbook are to be completed and signed by the employer. A key learning feature of this unit is the identification of a problem at the students place of employment and the preparation of a case study report on an actual development project, to provide direct insight into the task of problem solving and delivering real projects.

Prerequisite(s): To be taken in final year of course  Corequisite(s): Employment in the Building Industry  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

**CNB424 Specialist Measurement**
Measurement is a core skill amongst building professionals. This skill is particularly important to students in relation to the production of quantified documents for the purposes of tendering and estimating. This unit is offered in the final year of the course due to the unusual and advanced nature of the construction technology to be measured. The unit covers the following: unusual building works; civil engineering works including earthworks, roadworks and piling; heavy engineering works including refinery/processing plant, mining and offshore platforms.

Prerequisite(s): CNB310  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

**CNB425 International Construction**
In this unit students examine history, culture, language, government and business structure and practices, construction methodology, construction management, and
general business practices in a country or countries other than Australia, specifically those where issues and practices differ from common Australian practice. An optional student-funded international trip may be offered (likely to be 2-4 weeks) to allow students to experience first-hand the country studied during the semester allowing students to immerse themselves in the culture and further enhance their language skills. Students will be involved in site visits and workshop (studio) type activities during the tour.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CNB433 Dissertation A
This unit allows students to explore underlying theory, and maximise the opportunity to investigate and develop an area of personal interest. The focus is on the following: research methodology; data collection and analysis; information literacy; information retrieval skills; literature review and research proposal writing activities; Statistical analysis is also included: introduction to statistics including the role of statistics; data types and properties; data reduction and pictorial presentation; numerical description of data such as population and samples; descriptive statistics; measure of central tendency; measures of dispersion; grouped data and misuse of descriptive statistics.

Prerequisite(s): Completion of first three years of course
Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

CNB434 Dissertation B
Research and development is an important success factor in today's competitive and global environment. As a student research allows you to explore underlying theory behind your chosen area of interest. On the other hand, as a practitioner, the unit helps you to identify valuable and profitable research. This unit involves collection, analysis and interpretation of primary data in relation to work completed in CNB433, provision of conclusions and recommendations for further research.

Prerequisite(s): CNB433  Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

CNB480 Building Surveying Practice
Building certifiers must have the ability to locate, interpret and assess building plans to legislative requirements, a code of practice and ethical obligations. This unit ensures building certifiers have the fundamental knowledge in order to practice in Queensland. The unit includes the following: the examination of ethical responsibilities; legislative framework; integrated development assessment system (IDAS); interpretation of local planning instruments (Qld specific); State approvals; energy efficiency; and documenting performance based assessments to the Building Code of Australia.

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CNB481 Construction Dispute Management
A claim or dispute may arise between an owner and a contractor in contract negligence, nuisance or trespass relating to the performance of commercial or domestic building work. Rights and obligations exist in the performance of building work and participants should use appropriate techniques to avoid and manage disputes. This unit helps students develop the skills required to avoid and manage disputes. It includes the following: analysis of reasons that disputes occur; sources of disputes; statutory obligations to rectify defects; formal dispute resolution through tribunal and courts system; pro-active dispute avoidance techniques; preparation and presentation of a claim/response to a claim; role of an expert witness in disputes; and costs of disputes and wa

Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CNB482 Measurement 4
Measurement is a core skill amongst building professionals. This skill is particularly important in relation to the production of quantified documents for the purposes of tendering and estimating. This unit covers the following: an examination of the latest software used in the generation of quantities, estimates and capital cost/life cycle cost plans including advanced CAD applications; measurement used to produce financial asset management statements including due diligence and sinking funds; and measurement and assessment of environmental impact of buildings.

Prerequisite(s): CNB310  Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CNB483 Smart and Sustainable Construction
This is an assignment based group project work where students from different disciplines undertake project work on a project case study considering key smart and sustainable construction issues, sustainability and its impact on commercial construction development, flexible design considerations, innovative construction techniques, smart engineering services and intelligent building development. Project cases may include any of the following: multi-storey office building projects in the CBD; marina resort development on the tropical Queensland coast; Kelvin Grove Urban Village development; and/or sustainable housing development utilizing specific site characteristics.

Prerequisite(s): Completion of three years of full-time study in respective courses below or in equivalent courses: AR48, BN31, BN32, EE41, CE44, CE46, CN51, CN53, CN54, ME41  Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1

CNB490-1 Research Dissertation
To produce a written dissertation on a topic of their choice, students will embark on a research project culminating in its presentation. Progression will be closely monitored and assistance provided by individual supervisors who will guide the student through the process.

Prerequisite(s): CNB395, completion of Year 3 of CN54  Credit points: 12  Campus: Gardens Point  Teaching period: 2007 SEM-1 and 2007 SEM-2

CNB490-2 Research Dissertation
To produce a written dissertation on a topic of their choice, students will embark on a research project culminating in its presentation. Progression will be closely monitored and assistance provided by individual supervisors who will guide
the student through the process.

**Prerequisite(s):** CNB395, completion of Year 3 of CN54  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

### CNB491 Rural Valuation

The unit utilises skills and knowledge learned from earlier units and applies these to the valuation of rural assets. In particular this unit examines the physical and economic factors of rural land and its development, land utilisation and degradation, farm management and productivity, and extraneous factors influencing rural valuations. Rural sales and valuation procedures are analysed and physical inspections organised to assist the student with gaining practical experience.

**Prerequisite(s):** CNB194  
**Credit points:** 12  
**Campus:** Gardens Point

**CNB494 Advanced Market Research Analysis**

This unit re-acquaints students with published property market data sources and methods of interpretation. It develops skills to source, analyse, interpret and report on primary property market data using appropriate analysis methods. Students are introduced to statistical software packages as a tool to assist the data analysis process.

**Prerequisite(s):** Completion of Year 3 of CN54  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** CNP555

### CNB496 Project Management

This unit introduces project management as a growing discipline/profession. It focuses on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design and project structure, communication, managing change and performance measurement (time, cost and quality).

**Prerequisite(s):** Completion of Year 3 of CN54  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** CNP520

### CNB497 Project Cost and Risk Management

The unit identifies fundamental project management principles that relate to economics, cost, risk management, the key elements of pro-active cost management and the implementation of risk evaluation. It revisits the macro-economic and micro-financial contexts of project, construction and property management and provides students with an understanding of the practical applications of responsibility, accountability, motivation, reporting and implementation of project cost management. Furthermore, it covers the area of risk management analysis functions, techniques and theories, cost management systems applicable to design cost, value management and project life cycle management.

**Prerequisite(s):** Completion of Year 3 of CN54  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** CNP521

### CNB499 International Project Development Management

The unit develops concepts of project development management introduced to the student in CNB496 Project Management, and places them in an international, or more specifically, Asia-Pacific regional context. To this end, the content will be similar to CNB496 with a focus on theories related to project definition and scope, project implementation and termination, and the latest developments affecting the practice of project management in organisations.

**Prerequisite(s):** Completion of Year 3 of CN54  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNP534

### CNN442-1 Dissertation

Students develop the skills necessary for conducting independent research by completing a dissertation on a chosen topic under the guidance of an appointed supervisor. The approved research topic must be in an area related to project management or property development. The unit also incorporates lectures in research methodology, and information retrieval skills.

**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

### CNN442-2 Dissertation

Students develop the skills necessary for conducting independent research by completing a dissertation on a chosen topic under the guidance of an appointed supervisor. The approved research topic must be in an area related to project management or property development. The unit also incorporates lectures in research methodology, and information retrieval skills.

**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

### CNP001 Knowledge and IT Management

This unit introduces ideas and develops students’ capacity to understand the elements of organisational learning, how to optimise information technologies to serve customers and to support initiatives to simplify and improve management processes, how best to use IT and other communication channels to improve the decision making process, and the impact of internationalisation and cultural diversity upon knowledge and IT management. It comprises Web based learning experience, ‘chatrooms’, group and individual assignment work. Topics include Knowledge as a critical resource, Capturing and disseminating knowledge, Innovation diffusion, Information technologies that support decision-making, and IT that supports monitoring and information dissemination.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

### CNP002 Project Procurement and Ethics

This unit involves two important strands of strategic project procurement knowledge. Procurement systems enable students to experience access to the development of options of acquiring facilities, ideas or other project outcomes from inception to facilities management. Ethical theory and application to procurement provides an ethical framework within which project procurement can be accomplished. The pattern of delivery is by a two-week concentrated seminar program. Students form a syndicate to discuss and distil a response to a vignette relating to theory presented in seminars. During these workshops,
students fully discuss issues raised and present an A4 sized sheet summarising their position. These are presented in a plenary session.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP003 Project Management Leadership**

This unit concentrates on the nature and practice of leadership, managing change, strategic planning, strategic human resource management, encouraging productive diversity, and managing for organisational learning. It focuses on PM leadership as an enabler for productive growth in terms or organisations and individuals.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**CNP011 Knowledge and IT Management Reflective Learning**

This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how knowledge and IT management is applied to the student's working project environment. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP001 Knowledge and IT Management forms the basis of this unit and thus this unit must be undertaken at least concurrently with CNP001. Students are expected to maintain a reflective portfolio for this unit.

**Corequisite(s):** CNP001  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP012 Project Procurement and Ethics Reflective Learning**

This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how project procurement strategies and the related ethical aspects are applied to the student's working project environment. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP002 Project Procurement and Ethics forms the basis of this unit. Students are expected to maintain a reflective portfolio for this unit.

**Corequisite(s):** CNP002  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP014 Elective Reflective Learning**

This unit provides students with the opportunity to take part in virtual small group seminars and RMIT web-based 'chatgroup' sessions with students and staff to help the student produce a case study report on how the elective is applied to the student's working project. The report is in the order of 5-6000 words and of a publishable standard allowing enhancement of their communication and presentation skills. Students also make a formal presentation of the work. The reflection on the unit theory undertaken in CNP004 Elective forms the basis of this unit and thus this unit must be undertaken at least concurrently with CNP004. Students are expected to maintain a reflective portfolio for the unit.

**Corequisite(s):** CNP004  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP051 Research Project 1**

In this unit, the students interact with library facilities, supervisors and tutorial group to fully acquaint themselves with their research topic, previous research, background and related topics and prepare a detailed annotated bibliography.

**Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP052 Research Project 2**

A literature review is prepared, accommodating all the salient issues in a coherent, consistent, logical and critical manner. Potential research methods are identified and a provisional research plan agreed.

**Prerequisite(s):** CNP051  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP053 Research Project 3**

This unit extends the case study reports from the prerequisite unit into a holistic review of PM practice in the case study investigations. The aim at the end of the unit is to identify a thesis area and an appropriate method for its research, and to have undertaken literature reviews and other preliminary research. A research plan will be agreed between students and supervisors. The unit will involve students integrating their coursework study and case study assignments with a series of empirical and qualitative research studies in the thesis area.

**Prerequisite(s):** CNP052  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP054 Research Project 4**

Students interact with their supervisors and tutorial group to allow the shape and form of the thesis area to be formed and developed in readiness for the final year of the course. Case study reports from the prerequisite unit are extended into a holistic review of PM practice in the case study investigations. By the end of the unit a thesis area and an appropriate method for its research will have been identified, and literature reviews and other preliminary research undertaken. Under supervisor direction, the thesis area will become firmly established, and appropriate research methodologies studied. A research plan will be agreed and should allow employers to gain demonstrable outcomes and positive contribution to their projects.

**Prerequisite(s):** CNP053  **Credit points:** 24  **Contact hours:** 3 per week  **Campus:** Gardens Point

**CNP062-1 Research Project 6**

This unit continues from CNP061-1&2 Research Project 5 in encompassing discovery and reflection upon practice and focusing upon case studies drawn from practice, with the course participant's reflection on their attitudes, beliefs and actions resulting from their reflections. It is expected that the learning experience will be further diffused to industry and
course participant colleagues via progress seminars. The thesis research is drawn together into a single thesis of approximately 40,000 to 50,000 words in length.

**Prerequisite(s):** CNP061-1, CNP061-2  
**Credit points:** 24  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**CNP062-2 Research Project 6**  
This unit continues from CNP061-1&2 Research Project 5 in encompassing discovery and reflection upon practice and focusing upon case studies drawn from practice, with the course participant's reflection on their attitudes, beliefs and actions resulting from their reflections. It is expected that the learning experience will be further diffused to industry and course participant colleagues via progress seminars. The thesis research is drawn together into a single thesis of approximately 40,000 to 50,000 words in length.

**Prerequisite(s):** CNP061-1, CNP061-2  
**Credit points:** 24  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

**CNP520 Project Management**  
This unit is an introduction to project management as a growing discipline/profession. The unit will focus on theories related to project definition, project scope, project tools and implementation. Key aspects covered include professional development, organisation design and project structure, communication, managing change and performance measurement (time, cost and quality).

**Credit points:** 12  
**Contact hours:** offered in block mode  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**CNP521 Project Cost and Risk Management**  
Central to project and construction management are the identification of project risk and the control of project cost. The major objective of this unit is to educate students in the theory and application of the economics and management of project cost and risk. The unit covers techniques and tools essential for proactive project and cost management, and the fundamentals of risk evaluation associated with project implementation.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNP532 Innovation and Technology Management**  
This unit introduces key concepts in better understanding the role of innovation and technology and its efficient management, to build and maintain a competitive edge in business. This unit links engineering, science and management principles to identify, choose and implement the most effective means of attaining compatibility between an organisation and its competitive, economic and social environments.

**Credit points:** 12  
**Contact hours:** Block format  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**CNP533 Project Management Law**  
This unit aims to create awareness of the legal environment in which the project manager operates. The project manager in the construction industry is exposed to a variety of legal situations on a day-to-day basis. It is important that the manager has the information on which to base decisions which reduce the risk of legal entanglement. The unit covers key principles of tort, contract and construction law from an Australian and international perspective. Dispute resolution processes and mediation are also studied from an Australian and international perspective.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNP433

**CNP534 International Project Management**  
This unit introduces key concepts and furthers the understanding of international issues in project management from the perspective of the Australian project manager. It compares technical, managerial, economic and cultural concepts and trends related to project management in the competitive global marketplace. Material is covered from a market viewpoint as well as from the viewpoint of a single project and firm. Emerging opportunities and misconceptions are discussed, with particular reference to the Asia Pacific region.

**Credit points:** 12  
**Contact hours:** Block format  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNP406

**CNP545 Project Development**  
This unit focuses on issues relating to the feasibility assessment of property development opportunities and the development process. Topics covered include the following: evaluation of project feasibility (financial, social and legal aspects); marketing; project team formation; and contract and procurement options.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNP426

**CNP547 Property Investment**  
Property (or real estate) is one of a number of competing investments available in the investment market. The unit covers principles and strategies of property investment and evaluation techniques. Basic concepts of value and detailed financial viability studies are studied, including equity and cash flow models.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CNP402, CNP438

**CNP551 Project Human Resource Management**  
The most valuable and possibly expensive resource a project manager has is people. The manager needs to know how to maximise this resource by working with all those involved in the project. This unit introduces students to theory and skills in project management as they are applied to managing the people aspects of projects. Theories will be examined as they apply to practical issues. In addition to lectures on the human aspects of project management, an important component of this unit is experiential learning through group dynamics and workshops.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** CNP431, CNP437

**CNP553 Information Technology for Project Managers**  
This unit addresses the revolution in information technology and the widespread use of personal computers. It provides project managers with skills in using a range of appropriate...
software, an appreciation of information resources and the impact of information technology on construction management and property development processes. The unit will provide competency in the selection and use of appropriate information technology through the study of essential computer packages and advanced project management software.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2  **Incompatible with:** CNP434, CNP668

**CNP554 Advanced Land Development**
This unit focuses on the overall development process appropriate to the use of land in a variety of environments. It considers the drivers of development and the correct processes that should be followed to ensure both an economic and a functional result. It looks at land development within the Central Business District (CBD), suburban commercial, residential and industrial areas.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2  **Incompatible with:** CNP404

**CNP555 Property Market Analysis**
This unit covers the principles of property economics and market research methodology focusing on surveys and hypotheses testing, property market data available in Australia, and supply and demand studies of property.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**CNP556 Property Management and Contracts**
This unit covers the following: property contracts (especially leases, partial rights, purchase and sale; lease management; rent statements and accounting procedures; computer based property management programs; property type differentials; and property portfolio management.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**CNP557 Property Finance and Capital Markets**
This unit deals with property in a capital markets environment. It examines property as an asset class and the financing of property assets. It considers property in relation to institutional asset allocation, risk diversification and general decision making principles.

**Prerequisite(s):** CNP547  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**CTB101 Data Analysis for Business**
The unit introduces the common statistical methods and tools for inference and decision making in business. It builds upon the concepts developed in the unit CTB122 Quantitative Analysis and Finance and covers important methods of data analysis with an emphasis on interpreting and understanding reported business and economic data. Topics include the concept of sampling error and sampling distributions, estimation and hypothesis testing, regression analysis, time series and an introduction to non-parametric statistical methods.

**Prerequisite(s):** CTB122  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Caboolture  **Teaching period:** 2007 SEM-1  **Incompatible with:** EFB101

**CTB110 Accounting**
Accounting data is the basis for decision making in any organisation. Accordingly, the aim of this unit is to provide students with a basic level of knowledge of modern financial and managerial accounting theory and practice so that they can understand how accounting data is used to help make decisions in organisations. The unit covers financial procedures and reporting for business entities, analysis and interpretation of financial statements and planning, control and business decision making.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Caboolture  **Teaching period:** 2007 SEM-1  **Incompatible with:** BSB110, BSD110

**CTB111 Business Law and Ethics**
This unit integrates the concepts and principles of business law with the theories and applications of business ethics. The unit makes extensive use of cases in law and ethics to develop knowledge and skills that enable students to analyse, apply and evaluate the legal principles and ethical decision-making processes relevant to modern business practice.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3  **Campus:** Caboolture  **Teaching period:** 2007 SEM-2  **Incompatible with:** BSB111

**CTB113 Economics**
Introduces students to the key economic concepts and their practical applications. It comprises twelve topics each focusing on a current economic issue. Microeconomic topics include demand and supply, elasticity, production and cost theory and market structure. Macroeconomic topics include measuring GDP, inflation and unemployment, money and banking, and fiscal and monetary policy.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Caboolture  **Teaching period:** 2007 SEM-2  **Incompatible with:** BSB113

**CTB114 Government, Business and Society**
Provides a basic grounding in the principles, institutions and functions of government and their interactions with business and society. Its principal focus is the structure and key features of Australia's constitutional and government framework including the judicial and administrative processes, especially as they affect business. Students will develop a comparative appreciation of the principles, institutional arrangements and practices of contemporary government in a global context. This will include consideration of law-making and policy processes and the impact of the changing national and international environment.

**Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Caboolture  **Teaching period:** 2007 SEM-1  **Incompatible with:** BSB114, BSD114

**CTB115 Management, People and Organisations**
The unit provides an introduction to the theories and practice of management and organisations. Emphasis is on the conceptual and people skills that are needed in all areas of management and organisational life. The unit
acknowledges that organisations exist in an increasingly international environment where the emphasis will be on knowledge, the ability to learn, to change and to innovate. Organisations are viewed from individual, group, corporate knowledge, the ability to learn, to change and to innovate.

Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-2  Incompatible with: BSB115

CTB119 International and Electronic Business
This unit integrates two rapidly expanding areas of business studies: international business and e-business. Doing business across international borders is facilitated by e-business technologies. This unit explores the nature and models of international business and e-business, and how e-business technologies facilitate international business and add value to the business. It develops the skills and understanding to identify and respond to the opportunities, challenges and risks of conducting business across politically, economically and culturally diverse environments.

Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: BSB119

CTB122 Quantitative Analysis and Finance
To maintain the competitiveness of, and add value to, an organisation, today's managers have to make critical business and financial decisions. This unit is a preliminary study of the techniques for analysing business information, and provides students with a framework for understanding the fundamentals of business and financial decision making. Topics include the following: the basic techniques of organising and analysing data; application of probability and probability distributions; understanding a firm's investing, financing and dividend decisions; the three main ideas underpinning financial decisions - time value of money, diversification and arbitrage.

Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: BSB122

CTB126 Marketing
This introductory subject examines the role and importance of marketing to the contemporary organisation. Emphasis is given to understanding the basic principles and practices of marketing such as the marketing concept, market segmentation, management information systems and consumer behaviour. The unit explores the various elements of the marketing mix, with special reference to product, price, distribution, and promotion including advertising and public relations. By way of introduction only, key issues relating to services marketing, e-marketing and strategic marketing are also canvassed.

Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-2  Incompatible with: BSB126

CTB201 Marketing and Audience Research
This unit provides an introduction to the conduct and evaluation of marketing and audience research across the disciplines of advertising, marketing and public relations. Class members explore how field studies, survey and experimental research are employed to support advertising, marketing and public relations information needs. The unit provides an overview of research process, research design, methods of data collection and analysis, and the development of research proposals to support decision-making. Class members also explore issues related to research on media audiences, research ethics, and the management of client briefings.

Prerequisite(s): CTB126  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: AMB201, MGB220

CTB207 Human Resource Issues and Strategy
This unit identifies a range of contemporary human resource management issues facing Australian organisations. These are explored and analysed through examining a range of alternative human resource programs, policies, and strategies. This unit introduces a range of human resource functions and provides a foundation for the development of professional practice in HRM in later units. This unit provides students with the knowledge and skills to address contemporary human resource issues in order to contribute to organisational efficiency and effectiveness.

Prerequisite(s): CTB115  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: MGB207

CTB211 Organisational Behaviour
The unit examines theory and research related to individual and collective human behaviour in organisations. A multi-level approach that focuses on individuals, groups, the organisation as a entity, and the relationship among these elements is adopted. In addition, the unit addresses major themes in the field and provide students with an opportunity to use the body of knowledge to diagnose, interpret and understand issues within these themes. This unit helps students to understand the role that people, as individuals and in groups, play in organisations and to apply this knowledge in creating more effective and efficient work places.

Prerequisite(s): CTB201  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Incompatible with: MGB211

CTB221 Computerised Accounting Systems
This unit provides an examination of the concepts, processes and issues relevant to computerised accounting systems including accounting information systems; internal controls; design and development of computerised accounting systems including general ledger and reporting cycle, revenue cycle, expenditure cycle, payroll cycle; computer fraud, security and crime; accessing accounting information; accounting in an electronic environment. Practical application of these concepts is enhanced by the use of accounting software such as MYOB, spreadsheet software such as Excel, databases and software such as Access, and interactive multimedia software such as Accounting Information Systems Cycles.

Prerequisite(s): CTB110 and CTB122 or equivalent  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Incompatible with: AYB221
CTB223 Creating New Enterprises
This unit deals with the development of a business plan for the potential launch of student business ideas. It is designed for those individuals interested in creating a new venture or working in industries as employees of venture owners or those that serve this sector. Students build a comprehensive plan of their business concept. Students can progress from this unit to carry out the business plan analysis in the unit MGB218 Venture Skills or advance from MGB218 to undertake this unit.
Prerequisite(s): 96 credit points of approved studies
Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: MGB223

CTB232 Managing Organisations
This unit develops an understanding of the organisation in both its internal and external environment and the demands of managing the organisation's resources and performance. It raises contemporary issues in management and their implications for competitive advantage, focusing on various organisational sub-systems including HR, technology, structure and design. This unit provides a foundation of knowledge for the management and HRM majors. In this unit there is a focus on strategy, leadership and internationalisation.
Prerequisite(s): CTB115  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: MGB222

CTB234 Production and Service Management
This unit extends general management approaches to the production operations subsystems of service and manufacturing organisations. The unit focuses on the deployment of productive resources in order to maximise the added value of services and products. Issues of quality and efficiency are considered analytically in terms of broader strategies and constraints. It considers the opportunities that new technology brings to operational strategies in both manufacturing and service. Project management principles are considered in relation to resource deployment and continuous improvement.
Prerequisite(s): CTB201  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: MGB210

CTB240 Marketing Planning and Management
This unit extends the student's knowledge of the fundamental marketing concepts and theories introduced in the Faculty Core unit in Marketing, by adding further breadth and depth of knowledge of marketing and developing skills in the application of this knowledge to marketing planning and management within the business environment. Emphasis is on the role of the marketing manager at the product management level in undertaking analysis, planning, implementation and control of marketing activities.
Prerequisite(s): CTB126  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-1  Incompatible with: AMB240

CTB290 Finance 1
This unit addresses the following topics: an introduction to the Australian institutional framework; terminology; debt and equity instruments; financial mathematics applied to the pricing of debt and equity securities; a firm's investment decision; New Present Value (NPV) and Internal Rate of Return (IRR); introduction to risk and uncertainty; Capital Asset Pricing Model (CAPM) and Weighted Average Cost Capital (WACC).
Prerequisite(s): CTB122  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Incompatible with: EFB210

CTB302 Caboolture Special Topics
In this unit, students follow a specialised program agreed to by the academic staff member and the student. It may involve in-depth examination of an issue of importance, supervised work based experience, or the completion of a significant work related project such as a business plan or programming assignment.
Prerequisite(s): 96cp of approved study and Course Coordinator's approval  Credit points: 12  Contact hours: Arranged with Course Coordinator  Campus: Caboolture  Teaching period: 2007 SEM-2

CTB334 Managing in a Changing Environment
This unit provides students with conceptual and analytic tools required for managing changing environments. The emphasis is on developing an understanding of the management competencies required for managing flexibility, innovation and change. The unit moves beyond a focus on 'dot.com companies' to examine how a range of organisations both small and large are engaging with issues associated with an increasing emphasis on technology.
Prerequisite(s): CTB212 or 96 credit points of approved study  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture  Teaching period: 2007 SEM-2  Incompatible with: MGB334

CTB722 Web Applications
This unit provides students with the theoretical and practical skills to construct a web-enabled, interactive media database (IMD). Students are introduced to design elements to create innovative web front ends with the associated security requirements for Internet transaction based systems. Students learn how to build an interactive web site that accesses a database back-end, such as SQL-Server. In addition, students refine their understanding of database modelling and explore and apply new interactive media elements that will enhance such web applications.
Prerequisite(s): CTB721, CTB225  Credit points: 12  Contact hours: 3 per week  Campus: Caboolture

DAB110 Introductory Architectural Design 1
This unit offers a broad introduction to the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Analysis of the constructed environment leads to a number of design projects that engage with issues of context, tectonics, planning, form, and spatial quality. Orthogonal drawing exercises, freehand sketching, presentation graphics, and
model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-1

DAB20 Introductory Architectural Design 2
This unit offers a focused introduction to the field of design through engagement with the explicit process of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Architectural design as a manageable process in explored through a number of exercises and design projects. Discrete steps in the process of architectural design are made explicit through staged activities that build to a complete design project. Orthogonal drawing exercises, freehand sketching, presentation graphics, and model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Prerequisite(s): DAB110  Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

DAB220 Theories and Contexts of Place in Architecture
The unit aims to promote students' awareness of concepts of environmental psychology such as territory, community, privacy, personal space and spatial perception from a variety of cultural perspectives. It also includes an introduction to the ways in which architecture is practiced and the concept of professionalism as it pertains to architectural practice. Further the unit explores social and cultural relationships between people and the institutions of society through the study of introductory sociology, cultural analysis and political economy. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Credit points: 12  Contact hours: 4 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

DAB310 Architectural Design 3
This unit offers an intermediate level investigation into the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Design problems of increased complexity are tackled through a process of abstraction, experimentation, representation, imagination, and testing. Advanced orthogonal drawing exercises, freehand sketching, presentation graphics, documentation techniques, and model making all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Prerequisite(s): DAB210  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-1

DAB325 Architecture in the 20th Century
Designers in any discipline should possess the ability to appreciate the history of art, design and architecture. In addition, they should be able to analyse developments in design history from multiple perspectives. This unit is a survey course of the history and theory of architecture from the beginning of the 20th century to the present. Teaching and learning takes place through three forms of structured activity: lectures, tutorials, and online.

Prerequisite(s): DEB102  Credit points: 12  Contact hours: 3  Campus: Gardens Point  Teaching period: 2007 SEM-1

DAB330 Integrated Technologies 1
This unit is designed to introduce the technical skills required for simple design projects. The studio consists of two segments namely architectural science and building structures. Thermal properties of building materials, climate and climatic elements as environmental factors influencing architectural design will be explored in detailed exercises. Also promoted will be the students' understanding of physical constraints and consequences of the behaviour of architectural structural solutions.

Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-1

DAB410 Architectural Design 4
This unit offers an intermediate level investigation into the field of design as applied to architecture. It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Complex design problems deal with issues of social context, ethics, values, as well as the physical constraints of site, materials, climate, and technology. Design projects require the management of conflicting constraints to achieve optimal design proposals. Precedence, typologies, research and analysis, and representation techniques all form part of the unit content. Teaching and learning activities are spread across lectures, tutorials, and studio based activities.

Prerequisite(s): DAB310  Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-2

DAB420 Architecture, Culture and Space
Architecture is, arguably, a measure of a community's cultural mores; it reflects the attitudes, values and beliefs of its period. In this unit students are introduced to the diverse architectural traditions of Australasia, and an appreciation of architecture through the understanding of Asian cultures, as well as the development of architectural culture through the processes of historical colonial expansion into the region. It will give students an overview of both the history and current trends of Australian architecture and locate it within the context of the larger Asia-Pacific region. Teaching and learning is conducted through problem-based learning with supporting lectures and tutorials.

Credit points: 12  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-2

DAB435 Architectural Technology 1
The unit will explore various forms of domestic construction with particular reference to general properties of building materials, common construction practices used in dwellings, single storey and class 10 buildings. Comparison of building systems and their effect on domestic building design will be explored in detail. Students will be introduced to the construction aspects of the BCA including its housing provisions and associated codes for all types of buildings to
assist to achieve the requirements for building approvals.

**Prerequisite(s):** BEB200  **Credit points:** 12  **Contact hours:** 3  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**DBB656 Global Positioning Systems**
This unit includes the following: concepts and theory of Global Positioning Systems including the space segment, control segment and user segment; satellite signal structures and the importance of precise timing; introduction to global and local coordinate systems and heights; error sources and accuracy in GPS; temporal and spatial variation; mission planning and data collection management; navigation and data collection techniques; point positioning and analysis; introduction to broadcast differential GPS positioning methods. Practical exercises are conducted in small groups.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP401 Urban Design and Site Analysis**
Planning students need to understand the various issues relating to city development as well as learning site planning processes for the development of urban land. This planning unit is designed to assist students develop basic skills of urban and site analysis.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP402 Planning Processes**
Graduate students from other disciplines learn how to develop and apply reflexive planning processes applicable to a variety of situations and scales. This involves understanding how land uses are generated and the processes by which they may be planned. The unit examines and explains the logic, role and methods of successive stages of the planning process, from objective formulation, information and resource analysis through policy and strategy development to evaluation, development of proposals and monitoring.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP403 Design Communication**
Students entering the course from non-design disciplines require basic skills in graphic communication for use in planning practice and design units. This unit, which is normally taught intensive mode preceding the start of semester, has two elements. Perception and Basic Design includes how and what we see, design vocabulary and comparative models of design. Planning Graphics introduces students to different forms of representation, methods, presentation, visual imagery, and graphic tools for analysis and synthesis.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP404 Economic and Social Foundations of Planning**
This is an introductory unit which deals with the economic, social and technological processes that have shaped and still shape our communities and settlements. Urban and regional planners need to appreciate these processes in order to understand their impacts and to utilise them in planning human settlements.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**DBP406 Computer Applications in Planning**
Planning professionals need both a conceptual understanding, and concrete skills, in the application of computers to analyse and interpret digital and spatial information that forms the basis of decision making. Across both government and private sectors, information is communicated within the digital environment, and as the associated technology, software and methods rapidly develop, planners need to possess the necessary computer skills to continue using digital tools effectively.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP407 Environmental Planning and Management**
This unit seeks to introduce students to the theories, processes and tools of environmental planning and management. The unit provides the student with a basic understanding of a range of environmental issues and concerns relevant to planning issues and problems. It addresses the broad range of planning decisions that affect the environment.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP408 Planning Implementation and Law**
Professional competence in planning requires a detailed understanding of the theory and implementation of planning procedure, planning law and other related legislation. This unit in planning implementation and law is designed to give students basic skills and knowledge of planning law and its associated procedures.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**DBP409 Urban Planning Practice**
Planners need the skills to understand and analyse local issues and develop plans and strategies to address them. This will involve the preparation of integrated local area plans in consultation with local communities and stakeholders. This unit, normally consisting of a real world project conducted in conjunction with local governments and communities, provides students with these skills of integrated local area planning.

**Prerequisite(s):** DBP402  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP410 Research Methods in Planning**
This unit introduces students to the range of research methods available to them as planners and provides a critical format in which they can assess the efficacy and suitability of these methods. It also provides practical experience in using relevant methods and techniques to address current planning issues.

**Prerequisite(s):** DBP402  **Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**DBP411 Community Planning**
Planners work with wide range of communities and therefore need to understand and address a diverse range of concerns. This unit applies knowledge and skills acquired elsewhere in the course to help students understand and inter-relate a wide range of community concerns including land use and development assessment, employment, human services, environmental quality, urban design, access and culture. In exploring the practices and theories of community planning, particular emphasis is placed on community involvement, consultation and conflict resolution. 

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DBP412 Planning Theory and Ethics**  
Students learn about the conceptual basis to their profession and are inculcated with a sound basis of professional ethics. This unit explores the theoretical underpinnings of urban and regional planning through an investigation of a variety of ideas about planning. It also links ideas about the nature and purpose of planning with ideas about professional ethics. Because it is based on utilising students' previous experience it comes in a later semester of the course.  

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DBP413 Regional Planning Practice**  
This unit provides the opportunity to develop and apply wide-ranging skills of analysis and synthesis in a real world problem-solving situation, linked to policy formulation issues explored in parallel in DBP414. As the second of two practice-focused units, Regional Planning Practice concentrates on the broader regional and metropolitan scales to develop skills in dealing with larger scale, strategic-level planning.  

**Prerequisite(s):** DBP409  
**Corequisite(s):** DBP414  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DBP414 Regional and Metropolitan Policy**  
Relevant and effective regional and metropolitan policies must draw upon a wide range of knowledge and skills integrating regionalism, demography, economics, human activities, central place theory, regional resource evaluation, social organisation and public administration. These operate and need to be understood at both global and regional scales. The resulting synthesis must be applied within specific regions. In order to achieve this, the unit is designed to focus and apply material from diverse disciplines and locations to current regional and metropolitan policy issues in South East Queensland.  

**Prerequisite(s):** DBP402  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DBP415 Professional Practice or Research Project**  
This unit offers students the choice of undertaking a supervised individual research project or a structured period of professional practice. The two are offered in the one unit in order to encourage synthesis between research and professional activities. Both activities are most appropriate in the final semester of the course, allowing students to build on and integrate their previous experience. This unit also provides a stepping stone for students continuing on to the Master of Urban and Regional Planning by providing either a first stage to an advanced research project or an introduction to an advanced professional practice project.  

**Prerequisite(s):** DBP410, DBP409  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP416 Elective**  
This unit enables students to choose an elective from the offerings of any course in QUT or another university, provided that it will enhance learning in the core discipline. Selection requires the approval of the Course Coordinator.  

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP417 Comparative Planning**  
This unit focuses the comparative dimension within the course by introducing students to the practice of urban and regional planning in specific locations and contexts either through attendance on a field course or at an approved conference.  

**Credit points:** 0  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP501 Specialisation**  
This unit enables students to extend their knowledge in areas supporting their main area of practice or research interest. This personalised unit may incorporate study in specific programs offered within the School or from advanced units within QUT or another university, or through specialist guidance by staff in their areas of expertise and approved by the Head of School on the recommendation of their research project supervisor.  

**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP502 Professional Practice or Research Dissertation**  
This unit is the central element of the Master of Urban and Regional Planning. Because the Masters is intended for students with advanced professional or advanced academic intentions, this unit allows either for professional development through a period of mentored professional practice or research development through supervised individual advanced research. The two are combined into a single unit in order to encourage synthesis between research and professional activities. The unit is an extension of the study completed in DBP415 Professional Practice or Research Project in the Graduate Diploma in Urban and Regional Planning. The unit will normally be linked to the student/staff seminars in DBP503 Masters Seminar.  

**Prerequisite(s):** DBP415  
**Credit points:** 24  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

**DBP503 Masters Seminar**  
In order to derive full benefit from their advanced studies, Master students need to exchange views on theory and practice with each other and with experienced practitioners and academics. They also need to explore the significance of their studies for issues of major planning significance. This unit thus provides an integrated forum as a communicative core to the Masters Program, linking
individual dissertations and professional practice experience to a wider contemporary context.

**Prerequisite(s):** DBP414  **Credit points:** 12  **Teaching period:** 2007 SEM-2

DEB101 Introducing Design

Please note: this unit is only available to First Year DE40 and IT04 students.

This unit offers a uniquely broad introduction to the field of design as applied across the design disciplines. It uses exercises to enhance student perceptions of the natural and human made environments in a problem based learning context. The unit is block taught over several weeks during the semester and will include students from a range of design disciplines participating in a four day field trip (students unable to attend participate in an alternative program). Students work individually and in cross-disciplinary teams in a stimulating and immersive environment. This unit covers content of problem solving, team work, visualisation and communication, and environmental awareness.

**Credit points:** 12  **Contact hours:** 4 per week  **Teaching period:** 2007 SEM-1

DEB102 Introducing Design History

Designers within any discipline should possess the ability to appreciate the history of design. This involves appreciation of developments in design history and theory from multiple perspectives. This unit encompasses a broad survey of the history of design from the civilizations of antiquity to the opening of the 20th century. It is a first year foundation unit and serves as preparation for more detailed and specialized studies in history and theory in subsequent years. Key designs, ideas and artefacts and the aesthetic, environmental, technological, socio-cultural and political factors that related to their production will be analysed. Teaching and learning takes place through three forms of structured activity: lectures, tutorials, and online.

**Credit points:** 12  **Contact hours:** 3 per week  **Teaching period:** 2007 SEM-1

DEB201 Digital Communication

This unit introduces students to the foundational aspects of digital design communication, placing generic design in context and focusing on multidisciplinarity in the stages of the design process. This unit is an approach to the theory and practice of digital media, exploring the translation from manual to digital media in design communication and presentation.

**Credit points:** 12  **Contact hours:** 3 per week  **Teaching period:** 2007 SEM-2

DLB210 Environmental Design 1

This studio will be underpinned by a sustainability theme. Its main two themes are: (a) water management - introduces responsible approaches to water (and waste) in the designed landscape, including more sustainable use of 'bluewater', 'greywater' and 'blackwater'; and (b) sustainable land management - introduces the basics of climatically sensitive spatial and planting design to minimise energy use, creating 'eco-cities' for sustainable living that emphasises such strategies as alternative traffic planning for maximum human benefit. Continued development of graphics skills in design exploration and communication is integrated into the program. It is block taught in the first half of the semester.

**Prerequisite(s):** DLB130  **Credit points:** 12  **Teaching period:** 2007 SEM-2

DLB230 Environmental Design 2

This design unit, supported by an introduction to plant ecology, explores three themes: (a) toxic remediation of waste and contaminated land and treatments including physical interventions and the role of environmental artists; (b) perma/horti/agri-culture - sustainable productive horticultural design and management and the ethno-botanical and traditional organic horticultural practices that are the foundation of 'permanent agriculture' ('Permaculture'); and (c) landscape art in Australia - Indigenous and Non-indigenous landscape art, environmental art and land art. Continued development of graphics skills in design exploration and communication is integrated into the program. It is block taught in the second half of the semester.

**Prerequisite(s):** DLB130  **Contact hours:** 4 per week  **Teaching period:** 2007 SEM-2

DLB310 People and Place

This design unit explores the theory of spatial design theory and applies that theory to practice. This unit concentrates on designing places for community heterogeneity and provides the underpinning of knowledge and skill needed to make an effective contribution to the profession of landscape architecture. The aim of this unit is to provide the basic skills and knowledge in the ways in which people use, perceive and value places within existing environments and how to apply those skills in design to make places for people that are safe, pleasant and inspiring. Continued development of graphics skills in design exploration and communication is integrated into the program.

**Prerequisite(s):** DLB210, DLB230  **Credit points:** 12  **Teaching period:** 2007 SEM-1

DLB330 People and Environment

An understanding of physical geography, geomorphology and the theoretical concepts of landscape ecology as a
 spatial analysis tool underpin this unit. The theoretical concepts are applied in a related design problem. This studio concentrates on understanding heterogeneity in all landscapes from the 'natural' to the 'developed' by recognising that all landscapes share a similar structural model. The unit comprises three modules of discovery: (a) developing landscapes - patterns and palimpsests; (b) landform systems and processes; and (c) landscape structure and dynamics.

Prerequisite(s): DLB210, DLB230 Contact hours: 4 Campus: Gardens Point Teaching period: 2007 SEM-1

DNB202 Product Usability
The professional designer designs principally for others and not primarily by personal preference. Therefore an understanding of the breadth of physical and cognitive needs and capabilities of people is vital to the development of useable products. This unit provides the basis for a user-centred design philosophy built upon an understanding of people and their capabilities and knowledge and experience to integrate advanced human factors and usability concepts into the industrial design process. The content covered in this unit includes: anthropometrics; principles of physical and cognitive ergonomic requirements of special needs groups; human error; usability principles; usability evaluation methods and user testing techniques.

Credit points: 12 Contact hours: 3 per week Campus: Gardens Point Teaching period: 2007 SEM-2

DNB301 Industrial Design 3
Product innovation requires a firm grounding in technology combined with is fostered by knowledge of technology and sound design process. This unit introduces design research and process models that emphasise the development an outlook that brings new ways of thinking about design problems. Through projects students will be exposed to: design process; introduction to design innovation; application of engineering mechanisms/principles in product and system; application transfer principles and design; communication skills.

Prerequisite(s): DNB101 Contact hours: 4 Campus: Gardens Point Teaching period: 2007 SEM-1

DNB302 Computer Aided Industrial Design
Computer-Aided Industrial Design (CAID) has become an integral tool within industrial design practice. It encompasses a variety of techniques, which have varying applications across the stages of the design process. Students will have a greater depth of industrial design experience and the ability to further apply the concepts of CAID directly to their design projects. The content covered in this unit includes: introduction to 3D dimensional NURBS based surface modelling for external component representation; introduction to computer visualisation for the application of form and product evaluation; development of skills in the use of Computer Aided Industrial Design (CAID) for evaluating design concepts; introduction to parametric based modelling for consumer product component design; introduction to Rapid Prototyping and Tooling; advanced computer visualisation and virtual reality.

Credit points: 12 Contact hours: 3 Campus: Gardens Point Teaching period: 2007 SEM-1

DNB303 Manufacturing Technology
Manufacturing technology is integral to industrial design and is a basic knowledge requirement to build upon throughout the course. Design for manufacturing allows both the analysis and application of manufacturing principles to product design and development. The knowledge gained in this unit allows the designer to develop a sound awareness of the relationship between design and manufacturing. The content covered in this unit includes: electronics; plastics;
production techniques in relation to different materials; forming; finishing operations; production costs; technical documentation and communication.

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DNB401 Industrial Design 4**

Industrial design goes beyond the development of discrete artifacts to include systems. This unit examines approaches to systems design and explores how various products and processes interact, sometimes in complex ways. Through projects students will be exposed to: design process; further development of design innovation; communication skills; integration of design processes manufacturing technology and engineering principles.

**Prerequisite(s):** DNB201  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DNB402 Socio-cultural Studies**

An understanding of people and their cognitive and emotive relationship with the world is essential for designing responsive products and environments. This unit encourages a diversity of knowledge to gain a broader perspective of cultural economy and understand better the designer's interaction with society and diverse cultures. The content covered in this unit includes: psychological implications of everyday human-artefact interactivity; environmental and cultural perception; psychological implications and attitudes imbedded in product semantics and symbols; personal space and territoriality; the role of designer in responding to the manifestations and dictates of society including market forces, political determinants and socio-cultural relationships within a modern/post modern context.

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DTB101 Interior Design 1**

This unit provides foundational material for the study of interior design. Students will be introduced to design theory, methodology and aesthetics. Design will be explored as an interpretive process. Topics covered in the context of projects for the unit include: The studio as a way of learning; Introductory design exercises exploring two dimensional elements as they relate to the interior design context; Freehand sketching, principles of perspective; Mechanical drawing, principles of scaled drawing; Presentation and visual communication skills; Environmental issues and sustainability.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DTB201 Interior Design 2**

This unit introduces the student to design in three dimensional spaces of relevance to the practice of interior design and with a particular emphasis on the socio-cultural relations between people and the environment. The unit aims to foster an understanding of design not only as a language of exploration and communication but also as an activity addressing person-environment interaction in a certain way. Topics covered in the context of projects for the unit include: Introduction to characteristics of design problems; Methods to generate and test design proposals; Creativity and innovation relative to contextuality; Presentation methods, techniques and materials used to generate and communicate design ideas; Relevant design history.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DTB202 Design Technology**

In this unit students will acquire an understanding of the interconnection between technological changes, inventiveness, social context and interior design. Topics covered in this unit include: Interior design in relation to structural systems, materials, technologies and relevant legislation with specific emphasis on domestic building construction; Skills associated with observation, research, and communication; Ergonomic principles, site measure, tracking examples of construction, identification of types of structures; Measurement and recording of building environments and documentation incorporating 2D CAD.

**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**DTB301 Interior Design 3**

The aim of this unit is to facilitate students to develop a deep understanding of transition, interiority and building character in relation to interior design. This will be achieved through the integration of technological, psychosocial and experiential knowledge and theory. Student learning will be facilitated in order that a holistic approach to the design issues is implemented. Topics covered in the context of projects for the unit include: Design methodology Â skills, strategies, alternative processes; Documentation ranging from the conceptual to design development; Schedules and specification; Finishes, fittings and furnishings; Relevant design history; Relevant technological, psycho-social and experiential theory; Environmental issues and sustainability.

**Prerequisite(s):** DTB201  
**Credit points:** 12  
**Contact hours:** 4  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DTB302 Colour Studies**

This unit includes studies of the interdependence of light and colour, the physical properties of colour, the psychological and cultural dimensions of colour, and colour and its relationship with expression and aesthetics as it applies to the interior design context. Topics covered in this unit include: Colour properties, harmony and contrast; Mixing and application of colour; Qualitative effects of colour and light on interior form and space; Symbolic, physiological and psychological aspects of colour within historical and contemporary contexts.

**Credit points:** 12  
**Contact hours:** 3  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**DTB303 Technical Design**

In this unit students will acquire an understanding of the wide variety of commercial building interior systems related to the interior design industry. Topics covered in this unit include: Manufacturing processes, performance and
DTB202 Credit points: 12 Contact hours: 4 Campus: Gardens Point Teaching period: 2007 SEM-1

DTB401 Interior Design 4
The aim of this unit is to facilitate students to develop a deep understanding of dual function relationships in interior design in relation to person-environment interactions. This will be achieved through the integration of technological, psycho-social and experiential knowledge and theory specific to those contexts. Learning will be facilitated in order that a holistic approach is implemented. Students will be encouraged to define tasks, research possibilities, integrate theory and explore resolutions in a self-directed manner. Topics covered in the context of projects for the unit include: Design methodology Â– skills; strategies; alternative processes; Documentation ranging from the conceptual to design development; Schedules and specification; Finishes, fittings and furnishings; Relevant design history; Relevant technological, psycho-social and experiential theory; Environmental issues and sustainability.
Prerequisite(s): DTB202  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-1

DTB402 Interior Systems
The aim of this unit is to promote the understanding and awareness of the use and application of materials relevant to the interior design industry. Topics covered in this unit include: Textile manufacture and application; Interior decorative finishes, properties and techniques; Building codes and standards and specification relevant to material quality, performance and maintenance; Documentation and specification of finishes and fittings; The relationship between design technology and material selection; The role of contextual frameworks on designers' decisions in regard to materials.
Prerequisite(s): DTB202  Contact hours: 4  Campus: Gardens Point  Teaching period: 2007 SEM-1

DTB403 Human Environment
This unit addresses political and social theories related to interior design and development within the built environment. Students are introduced to contemporary theories of post-industrialism, post-colonialism and multiculturalism. Topics covered in this unit include: Requirements of special needs groups; Psychosocial issues and privacy, perception, personal space, territoriality and way finding; The roles and responsibilities of design professionals, historically and in contemporary society; Cultural diversity.
Credit points: 12 Contact hours: 3  Campus: Gardens Point  Teaching period: 2007 SEM-1

EAB001 Early Childhood Foundations 1: Historical and Comparative Perspectives of Early Childhood Education
This unit examines the historical development of early childhood services in Australia, and explores a range of comparative perspectives on the care and education of young children in different socio-cultural contexts in Australia and in other cultures. To come to understand early childhood education, it is important to consider the evolution of key ideas that have influenced the development of the field over the past 150 years in western societies (Britain, Europe, the United States and Australia). The unit encourages students to reflect critically on the changing beliefs and practices in relation to young children and families in Australia over the twentieth century and to begin to formulate a personal philosophy of early childhood care and education.
Prerequisite(s): DTB202  Corequisite(s): Nil  Credit points: 12  Contact hours: 2 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-1

EAB002 Early Childhood Foundations 2: Families and Childhoods in Early Childhood Education and Care
Early childhood education and care interface with the lives of children and families in diverse contexts. This unit deals with the social constructions of families and childhoods, the social practices they adopt and the services in which they participate. An understanding of these conditions is necessary for early childhood educators to teach and lead effectively.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-2  Incompatible with: EAB351, EAB364

EAB003 Development and Learning in Early Childhood 1
This unit examines the major theories, features and processes of early development. The pace and direction of development are shaped by biological predispositions and personal attributes, as well as by the interactions and experiences afforded to the child. Knowledge of contexts, their impact on individual development, and an awareness of the interrelationships between each area of development is necessary in order to develop an understanding of how children think and learn. Early childhood teachers also require a range of skills for observing and analysing behaviour in order to plan and organise appropriate educational opportunities in early childhood settings.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-2

EAB004 Development and Learning Early Childhood 2
To facilitate learning during early childhood, teachers must have a sound knowledge of the major theories, features and processes of development. The units in the developmental strand are underpinned by sociocultural theory, which takes into account both the psychological and the social mechanisms of development and learning.

Development and Learning in Early Childhood will foreground the social mechanisms of learning by discussing children's learning and development in a social context, integrating the social, emotional and cognitive elements of learning. Knowledge of contexts and their impact on
individual development is necessary in order to develop an understanding of how children think and learn.

**Prerequisite(s):** EAB003  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Kelvin Grove  **Teaching period:** 2007 SEM-1  **Incompatible with:** EDB200

**EAB005 Inclusion in Early Childhood Settings**
This unit aims to promote an understanding and valuing of inclusive educational programs and practices for working with young children with special needs in diverse early childhood settings. Students are expected to develop knowledge of behavioural and developmental characteristics presented by young children with specific needs, as well as understand principles and practices related to assessment, planning and implementation of educational programs for these children.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  **Incompatible with:** EAB444

**EAB006 Leadership and Management in Early Childhood Services**
Early childhood settings, including primary schools, operate by using site-based management practices that rely heavily on participation by teachers, staff from all levels of the organisation, and parents. Early childhood teachers need excellent leadership and management strategies to participate effectively in group decision-making for the development of high quality programs and services. They also need an understanding of how management structures impact on programs and service provision. This understanding, together with a high level of personal power, helps individual teachers influence and lead decisions about what happens in early childhood settings.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  **Incompatible with:** EAB413

**EAB008 Early Childhood Language and Literacies and Communication 1**
This is an introductory unit in which students examine literacies from contemporary perspectives. The focus is on young children learning literacies in family and community contexts in the years prior to formal schooling. Students are encouraged to appreciate each child's journey as they encounter a range of multimodal practices that constitute literacies.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Internet and Kelvin Grove  **Teaching period:** 2007 SEM-1

**EAB009 Early Childhood Language and Literacies and Communication 2**
In this unit a literacy as social practice approach is examined critically. Students explore matters related to instructional experiences, literacy resources and materials, diversity, and partnerships with children's families. Although print will be the focus in reading and writing instruction, image/graphic text will be a significant consideration, so that literacy practices reflect new and changing ways of operating with texts. Teachers use pedagogies and assessment that provide opportunities for success for all students, particularly those individuals and groups who may perform at lower levels of proficiency.

**Prerequisite(s):** EAB008  **Corequisite(s):** Nil  **Credit points:** 12  **Contact hours:** 3 per week  **Campus:** Internet and Kelvin Grove  **Teaching period:** 2007 SEM-2

**EAB010 Early Childhood Language and Literacies and Communication 3**
This unit focuses on enabling students to build competencies in planning classroom discourses and learning programs that will enable young children to establish confident use of a repertoire of language, literacy and communications understandings and practices as a basis for ongoing learning and cultural participation.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Teaching period:** 2007 SEM-2

**EAB011 Early Childhood Curriculum: Arts 1**
We are surrounded by visual images, in many cases much more powerful than any other form of communication. It is important that we are aware of how these images are working on us, and for that, we need to be visually literate. Childhood cultures are made up of interwoven narratives and commodities. The arts enable young children to give form to thought, to develop multiliteracies for exploring and expressing ideas and feelings through representation. This unit examines the characteristic features of the early childhood arts curriculum, its philosophical and theoretical underpinnings, beliefs about the nature of the learner, the child/teacher relationship, and the educational process.

**Prerequisite(s):** Nil  **Corequisite(s):** Nil  **Credit points:** 12  **Teaching period:** 2007 SEM-2

**EAB012 Early Childhood Curriculum: Arts 2**
Relevant theories, principles and philosophies are presented and analysed as a basis for developing appropriate teaching strategies for a quality arts program in the early years. Desired outcomes will be achieved through descriptive, interpretive, analytic and expressive processes and shared knowledge between students and staff.

**Prerequisite(s):** EAB011  **Corequisite(s):** Nil  **Credit points:** 12  **Campus:** Kelvin Grove  **Teaching period:** 2007 SEM-1

**EAB013 Early Childhood Society, Environment and Health Education**
This unit promotes a broad view of science. However, that includes the social sciences, health and environmental perspectives. Appropriate curriculum approaches that support a broader, more integrated view of science is a key goal. Through this unit, students should achieve the following: develop a deepening of their own understandings of concepts pertinent to science, studies of society and environment, and health; learn to critique and broaden their
views of science; understand a range of appropriate inquiry-based approaches relevant to these areas; learn to apply these approaches to facilitate young children's learning in the sciences.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EAB015 Early Childhood Science and and Technology Education

It is essential that children are provided with opportunities to develop their abilities and interests by using a variety of learning modes and that children have opportunities to develop concepts that are foundational to understanding in mathematics, and which form the basis of learning in all curriculum areas.

Students require understanding of how children apply active inquiry processes to tasks designed to further concept development in mathematics. This unit will engage them in learning about foundational concepts in mathematics and exploring ways in which teachers can develop appropriate learning opportunities to encourage and foster their development.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EAB016 Research in Early Childhood Education

This unit aims to foster critical understanding of research with young children. The unit will provide opportunities for students to become lifelong learners and effective communicators.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

EAB017 The Early Childhood Professional

This unit involves students in drawing together and analysing information from a variety of disciplines and historical perspectives with a view to developing an understanding and knowledge that will provide them with a basis for creating and evaluating an integrated curriculum in early childhood settings.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1, 2007 6TP2, 2007 SEM-2 and 2007 6TP4 Incompatible with: EAB412

EAB021 Early Childhood Health, Safety, Nutrition and Wellness Education

There is concern in the community about the general health of young children. Therefore it is important for students to understand current health policies and practices for various early childhood education settings. This includes the daily food needs of young children and how to provide appropriate everyday food education and social food experiences. The unit provides students with the knowledge to lead, plan, implement, and evaluate health practices in services and to balance the nutritional needs of individual children. Personal health and health practices including preventative strategies are addressed.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2007 SEM-2

EAB022 Early Childhood Science Education

This unit examines the importance of developing children's creativity, curiosity, problems solving skills and sense of wonder and appreciation of the environment, in the exploration of science. The unit focuses on the different approaches to teaching science and the development of positive attitudes for life long learning while taking into account children's cultural and diverse backgrounds.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

EAB023 Mathematical Explorations in Early Childhood

Mathematics is considered to be an essential learning area in the early childhood curriculum, as preparation for life, work and critical participation in society. Mathematics can also provide personal enjoyment.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-2

EAB026 Early Childhood Community Arts Project

This unit has a focus on pedagogies, planning and assessment within the curriculum organisers of the New Basics, the Preschool Curriculum Guidelines and the key learning areas. It aims to increase knowledge and understanding of how curriculum organisers and outcomes can be used to plan intellectually challenging curricula for young children.

Prerequisite(s): EAB011 and EAB012 Corequisite(s): Nil Credit points: 12 Campus: Kelvin Grove Teaching period: 2007 SEM-1

EAB027 Early Childhood Mathematics Education 1: Birth to Six Years

This unit aims to develop concepts that are foundational to understandings in early childhood mathematics, and to generally enhance students' understandings, attitudes, values and skills in relation to early childhood mathematics, supported by concrete materials and computer environments. This unit will also investigate teaching methods and key sequences for developing concepts and skills for number, space, measurement, chance and data, and patterns and algebra.

Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet, Kelvin Grove and External Teaching period: 2007 SEM-1

EAB028 Early Childhood Mathematics Education 2: Four to 8 Years

Children's successful participation in mathematical contexts is mediated by the effectiveness of a teacher's pedagogical practice, understandings of how learners learn, and knowledge and understanding of mathematics. This unit aims to develop an understanding of the pedagogical practices which inform the teaching and learning of mathematics in early childhood contexts, in particular, a
sound understanding of the knowledge, skills and processes required to support learners in the early years of schooling.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-2 and 2007 6TP4

### EAB130 Negotiating Curriculum with Young Children

This unit provides a sound understanding of the key concepts which underpin early childhood education, in relation to childcare, preschool, prep and lower primary settings. Students begin to learn along with a community of learners, and make links between research, theory and practice, each informing the other.  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1

### EAB135 Early Childhood Curriculum: Mathematics and Young Children

This unit develops concepts that are foundational to understandings in early childhood mathematics, and to generally enhance students' understandings, attitudes, values, and skills in relation to early childhood mathematics.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove

### EAB361 Storytelling In Early Childhood

A major consideration for the teacher of early childhood is to provide children with rich experiences of 'storying'. This unit introduces students to the following: the value of storytelling with young children; the selection of appropriate children's literature suitable for storytelling; various storytelling strategies in terms of their impact on a young audience; the use of appropriate props for storytelling; ways of integrating storytelling across the curriculum.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2

### EAB363 Creating Curriculum With Young Children

The concept of curriculum in early childhood education evokes much discussion and debate. In this unit, more encompassing concepts of curriculum for young children will be considered in the light of theories and research that suggest that children construct their own knowledge. Ways in which teachers and children can work together in creating a curriculum that is meaningful to children while meeting the expectations of parents and society in relation to child care, kindergarten/preschool and lower primary settings are considered. Practical strategies for setting up supportive learning environments and methods for evaluating teaching and learning are included.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2

### EAB364 Academic And Professional Communication

The unit includes the following: the development of an understanding of the general processes of communication in an academic and professional contexts; application of information literacy skills to a range of print and electronic sources; conventions for communicating using a range of academic text-types using print and electronic media; key concepts relating to the study topic: Families in Context.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Teaching period:** 2007 SEM-1

### EAB416 Early Childhood Art Education

This unit includes the following: historical and contemporary trends in art education; philosophy and practice in early childhood visual arts education; in-depth exploration of young children’s artistic development and learning; assessment and evaluation of visual arts in early childhood; methods of reporting and record-keeping; studio art experiences; curating children's art exhibitions; public information about children's artistry; advocacy for improving options for young children in the visual arts.  
**Prerequisite(s):** EAB011  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

### EAB422 Information and Communication Technologies and the Young Child

This unit includes the following: selection, use and critical evaluation of computers and associated software, and related technologies in early childhood programs, linking technology and problem-solving; applications and use of computers and associated software for language, number and problem-solving; creating teaching materials.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2

### EAN601 Investigating Curriculum and Pedagogy in Early Childhood

The aims for this unit are to assist students in developing a critically-informed and research-based understanding of the current issues that are under scrutiny in the field of Early Childhood Education. Recognition and appreciation of gender, culture and customs are essential to the consideration of the issues, and students will make active contributions to promoting codes of practice relevant to the specific professional area of education/learning.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1 and 2007 SEM-2

### EAN603 Child Development in Context

The aim of the unit is to foster critical understanding of current developmental theory, the conduct of developmental research and the application of research findings to practice in early childhood education and other fields in which professionals work with children and families.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-2

### EAN604 Children, Families And Communities

Critical understandings drawn from a range of theoretical perspectives serve to critique research and policy around children, families and communities.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1
EAN614 Arts and Sciences in Early Childhood
The unit challenges students, as leaders in early childhood teaching and learning, to interrogate a broad range of ideas, principles and guidelines to assist them in making decisions about curriculum in the arts and sciences. It challenges students to engage with trans-disciplinary and cross-disciplinary knowledge and innovation.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2007 SEM-1

EAN615 Mathematics in Early Childhood
This unit aims to develop a sound understanding of the theories which inform early childhood mathematics and the teaching and learning of mathematics. Students develop a broad knowledge of mathematical content specifically for early childhood contexts.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2007 SEM-2

EAN616 Language, Literacies and Communication in Early Childhood
The focus of this unit is to help students to understand recent research-based practices for literacy learning and teaching in the years before compulsory schooling and the early school years. Emphasis is placed on a broad definition of literacy that highlights the importance of all children becoming active participants in society and of knowing and engaging in a range of literacy practices, rather than just learning a set of reading and writing "skills".
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet Teaching period: 2007 SEM-2

EAP400 Early Years: Literacies
In this unit you will examine literacy from critical contemporary perspectives - as a repertoire of contextualised social practices. You will gain insight into different pathways children take to literacy as their learning and development is shaped in family, community and school contexts. A key focus is on helping you to understand early reading and writing processes in the print medium, as well as multimedia. You will learn to use the framework of four literacy practices: code-breaker, text-participant, text-user and text-analyst to explore operational, cultural and critical dimensions of literacy. You will build a repertoire of strategies that will allow you to meet the needs of diverse learners and create instructional events that connect with the expert
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EAP401 Early Years: Mathematical Understandings
This unit aims to develop concepts that are foundational to understandings in early childhood Mathematics, and to generally enhance your understandings, attitudes, values, and skills in relation to early childhood Mathematics. You will investigate teaching approaches, and key sequences for developing concepts and skills for various aspects of Mathematics education.
Prerequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1

EAP402 Early Years: Arts and Humanities
This unit aims to develop students' capacities as scholars, educators and researchers, through adopting a problem-finding, problem-solving and inquiry-based approach to learning. Through engaging in their own inquiry-based investigation of a social/environmental issue, students learn how the arts can be used as a learning and teaching tool. Students will investigate Indigenous studies and SOSE through descriptive, interpretive, analytic and expressive processes, to share and create knowledge with students and staff.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EAP403 Early Years: Science and Technology Education
This unit aims to extend your prior understanding of science and technology education, and to enhance their understandings, dispositions and skills in relation to early childhood science and technology education. It also aims to augment students' understandings of teaching strategies, planning and evaluation for diverse groups of young children in a variety of school and centre settings.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EAZ022 Early Childhood Science Education
Credit points: 12 Teaching period: 2007 SEM-2

EDB001 Teaching and Learning Studies 1: Teaching in New Times
Teaching today is being practised in a changing world. New forms of culture and society have emerged in recent decades alongside new and more globalised diagrams of economy, power and government. Schooling and education in all domains are being affected by these shifts and transformations. Educational sites, for instance, are becoming more differentiated and enterprising; learners themselves increasingly more diverse, active and autonomous. Teaching in New Times challenges students, in the early stages of their course, to develop an insightful and research-based conceptual framework, drawn from social theory and cultural studies, so that they may respond to these transformations in an informed, ethical and professional manner.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 4 per week Campus: Kelvin Grove and Caboolture Teaching period: 2007 SEM-1 and 2007 SEM-2 Incompatible with: CLB305

EDB002 Teaching and Learning Studies 2: Development and Learning
This unit has the dual purposes of promoting your own personal and professional development as life-long, creative, autonomous learners, capable of reflection and high level thinking, and of enabling you, as educators, to promote similar development in your learners. Pursuit of these aims will involve an exploration of human development, from personal and interpersonal perspectives,
with sensitivity to socio-cultural contexts, and with a particular focus on the theory, research and practice which informs educators about how learners construct knowledge and become creative, self-motivated thinkers and problem solvers.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove, External and Caboolture  
**Teaching period:** 2007 SEM-1 and 2007 SUM-2  
**Incompatible with:** SPB001

**EDB003 Teaching and Learning Studies 3: Practising Education**

Education is a social and cultural activity. This unit provides a sociological and cultural studies framework that provides an insightful explanation of how education in its various sites is constructed and organised. The unit includes a socio-cultural analysis of an educational site which will be undertaken in conjunction with the Field Studies unit.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet, Kelvin Grove and Caboolture  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CLB306

**EDB004 Teaching and Learning Studies 4: Inclusive Education**

This unit aims to develop students' understanding and appreciation of the contributions that diversity, belonging and trust make towards a quality learning environment for all learners. Students will learn to engage in teaching a broad range of students in diverse and inclusive ways utilising pedagogies and curriculum practices that enhance learning for all students and generate inclusive cultures within the school and classroom settings. Desired outcomes are achieved through descriptive, interpretative, analytic and expressive processes to share learning with fellow students and staff.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

**EDB005 Teaching and Learning Studies 5: Professional Work of Teachers**

Students will share the responsibility for shaping their beginning career learnings through a process of professional induction with a number of key significant stakeholders. The process will be proactive, collaborative and self determined and students will need to become professionally responsible for developing a professional development program that best accommodates their needs at the close of the teacher education program.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 6TP4

**EDB006 Learning Networks**

This unit explores the concept of learning networks: interacting social and technical systems that lead to collective sense-making and knowledge construction. Topics include the nature and use of Information and Communication Technologies (ICTs), learning theories and technologies and socio-technical practices in learning networks.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Kelvin Grove and Caboolture  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** MDB385, CLB341

**EDB007 Culture Studies: Indigenous Education**

Numerous government reports and recent discussions about reconciliation have called for an increased commitment to Indigenous education in Australia. Teachers are increasingly being asked to improve their skill, knowledge and understanding to teach Indigenous students, and to teach curricula which incorporates Indigenous viewpoints on social, cultural and historical matters. This unit begins with an analysis of the students' own cultural place in the Australian context and afterwards moves towards an understanding of Aboriginal and Torres Strait Islander perspectives on history and contemporary issues, and an understanding of why Aboriginal and Torres Strait Islander students have been so disadvantaged by the Australian education system.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Internet, Kelvin Grove and Caboolture  
**Teaching period:** 2007 6TP4 and 2007 SEM-2

**EDB010 Field Studies: Development and Learning in the Teaching of English**

This unit has the dual purpose of promoting your own personal and professional development as life long, creative, autonomous learners, capable of reflection and high level thinking, and enabling you, as educators, to promote similar development in your learners. This unit will contribute to the overall aims of the BEd by giving attention to two sets of teacher practitioner attributes. In the first set, emphasis is on your personal and professional development in the course and the second set, the emphasis is on the attributes required of educators to facilitate learning in their students.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

**EDB011 Early Childhood Field Studies 1: Development and Learning in the Field**

Designated Unit.  
This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BEd. Students develop the ability to plan, implement and evaluate effective teaching/learning programs in a wide range of settings for children aged from birth to eight years. In this unit of the professional practices strand, students will have opportunities to undertake activities designed to help them refine an increasing number of strategies for teaching and working collaboratively with children and their parents, and with other professional colleagues.

**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Contact hours:** 20 days of supervised field experiences in before-school setting  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1  
**Incompatible with:** EDB422
EDB012 Early Childhood Field Studies 2: Practising Education in the Field
Designated Unit
This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the second set of teaching experiences, in a graduated sequence over the course of the BEd. In this second unit of the professional practices strand, students will focus upon program planning and implementation in settings for children in lower primary. Students will focus upon teaching in lower primary school classrooms, with an emphasis upon the development of knowledge of relevant policies and resources in curriculum provision. An emphasis will be maintained on understanding Early Childhood approaches to curriculum.

Credit points: 12  Contact hours: 3 per week  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: EDB421

EDB013 Early Childhood Field Studies 3: Diversity and Inclusivity
Designated Unit
The aim in this unit is to develop professional support relationships that early childhood practitioners must provide for all children and their families, and an awareness of the need for the teacher to work as a member of the community and as a partner with parents and other colleagues.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SUMMER

EDB014 Early Childhood Field Studies 4: Professional Work of Teachers - Induction into the Field
Designated Unit
This final early childhood practice unit is designed to provide a means of transition from the role of the tertiary student to that of a professional early childhood practitioner who is able to work across diverse settings. Students are encouraged to engage in reflection about their professional development and their future career paths and options.

Prerequisite(s): EDB013, EDB011, EDB012  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2  Incompatible with: EDB423

EDB015 Internship (Early Childhood)
Designated Unit
This unit aims to induct students into the professional work of teachers. The aim is for students to apply the knowledge, skills and understandings of teaching and learning that they have acquired throughout the course in an extended time in the workplace.

Prerequisite(s): EDB014 and successful completion of all other coursework  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB016 Early Childhood Field Experience (Child Care)
Designated Unit.
This practicum unit is aimed at providing an initial experience in care and supervision in a child care setting. Students are encouraged to adopt a responsive approach in their work with children and adults. Students will undertake 20 days of Field Studies in a child care setting.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove  Teaching period: 2007 SEM-2

EDB021 Primary Field Studies 1: Development and Learning in the Field
Designated Unit.
This unit focuses on students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BEd. Students develop the ability to plan, implement and evaluate effective teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Contact hours: 3 per week  Campus: Kelvin Grove and Caboolture  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB022 Primary Field Studies 2: Practising Education in the Field (Primary)
Designated Unit
Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. At the same time, the unit aims to develop students' pedagogical and curriculum skills as a teacher.

Prerequisite(s): EDB021  Corequisite(s): Nil  Credit points: 12  Campus: Internet, Kelvin Grove and Caboolture  Teaching period: 2007 SUM-2 and 2007 SEM-2

EDB023 Primary Field Studies 3: Inclusive Educational Practices
Designated Unit
As a final year teacher education student you will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. This field experience is designed for students to engage in teaching, learning and assessment practices in their field, interacting with individual students, small groups of students and whole class situations. Students will be required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in classes.

Prerequisite(s): EDB022  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2
EDB024 Primary Field Studies 4: Professional Work of Teachers - Induction into the Field
Designated Unit.
Learners remain central to the work of teams and must be recognised as culturally and socially diverse as well as intellectually diverse. Within these constructs the graduating teachers are required to provide a range of educational opportunities that facilitate high quality and meaningful learning engagement for all students across differing educational contexts and sectors. This unit is designed to fully immerse the pre-service teacher into the field with a view to scaffolding their repositioning as autonomous, critically reflective, inclusive professional teachers on completion.
Prerequisite(s): EDB023 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 5TP2 and 2007 SEM-2

EDB025 Internship (Primary)
Designated Unit.
This unit aims to induct you into the professional work of teachers. The aim of this unit is for you to apply the knowledge, skills and understandings of teaching and learning that you have acquired throughout the course in an extended time in the workplace.
Prerequisite(s): EDB024 and successful completion of all other coursework Corequisite(s): EDB024 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 5TP3 and 2007 SEM-2

EDB031 Secondary Field Studies 1: Development and Learning in the Field
Designated Unit.
This unit focuses on the students' professional development as an educator, and reinforces the twin themes of teacher as researcher, and teacher as reflective practitioner. It provides the first set of teaching experiences, in a graduated sequence over the course of the BED. Students develop the ability to plan, implement and evaluate effective teaching/learning programs. This requires an understanding of learner needs, curriculum knowledge, procedures for creating supportive classroom environments, and sensitivity to socio-cultural contexts.
Prerequisite(s): Nil Corequisite(s): Nil Credit points: 12 Contact hours: 3 per week Campus: Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB032 Secondary Field Studies 2: Practising Education in the Field
Designated Unit
Through critical examination of the socio-cultural dimensions of these sites, this unit aims to utilise aspects of social enquiry to analyse the practice of teaching as a social and cultural activity. At the same time, the unit aims to develop students' pedagogical and curriculum skills as a teachers.
Prerequisite(s): EDB031 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SUM-2 and 2007 SEM-2

EDB033 Secondary Field Studies 3: Inclusive Educational Practices
Designated Unit.
Students will be required to design, implement and evaluate differentiated teaching strategies, programs and assessment tasks in inclusive and critically reflective ways and in a manner that is responsive to the diverse nature of the students in your classes. Students will be required to argue that their orientations to curriculum, teaching and assessment reflect practices that offer all students access to quality learning experiences.
Prerequisite(s): EDB032 Corequisite(s): Curriculum 3X and 3Y Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB034 Secondary Field Studies 4: Professional Work of Teachers - Induction into the Field
Designated Unit.
This unit is designed to fully immerse the pre-service teacher into the field with a view to scaffolding their repositioning as an autonomous, critically reflective, inclusive professional teacher on completion.
Prerequisite(s): EDB033 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 5TP2 and 2007 SEM-2

EDB035 Internship (Secondary)
Designated Unit.
This unit aims to induct students into the professional work of teachers. The aim of this unit is to apply the knowledge, skills and understandings of teaching and learning that students have acquired throughout the course in an extended time in the workplace.
Prerequisite(s): EDB034 and successful completion of all course work Corequisite(s): EDB034 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 5TP3 and 2007 SEM-2

EDB101 Professional Foundations for Learning Facilitation 1
This unit will allow students to examine their learning preferences and reflect on how these preferences may influence, positively and negatively, their own personal and professional development and that of the clients with whom they work. Students are introduced to their legal obligations in designing and conducting learning experiences.
Prerequisite(s): Nil Corequisite(s): SPB102 Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-1

EDB102 Professional Foundations for Learning Facilitation 2
This unit provides opportunities for students to develop understandings of the importance of the underlying processes (such as group dynamics) in learning situations and to have practical experiences in managing these processes.
Prerequisite(s): EDB101, SPB102 Corequisite(s): Nil Credit points: 12 Campus: Internet and Kelvin Grove Teaching period: 2007 SEM-2
EDB103 Adult and Community Learning: Professional Project 1
Students are able to transfer the skills, knowledge and attitudes they have been developing through their study in the Bachelor of Adult and Community Learning to a professional work site or context. They will develop appropriate risk management strategies for their professional project.
**Prerequisite(s):** EDB101, EDB102, SPB102, SPB103, SPB104  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1

EDB104 Adult and Community Learning: Professional Project 2
Students continue to transfer the skills, knowledge and attitudes they have been developing through their study in the Bachelor of Adult and Community Learning to a professional work site or context.
**Prerequisite(s):** EDB103  
**Corequisite(s):** SPB108  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-2

EDB200 Insights into Early Childhood Development
The unit aims to develop knowledge and understanding of early childhood development with a focus on children's thinking and communicating in a social context.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove  
**Teaching period:** 2007 SEM-1

EDB203 Inclusivity in Educational Practice
This unit engages the student in an investigation of the international nature of inclusion and trends that address socio-cultural issues through quality educational experiences.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet

EDB204 The Professional Work of Educators
This unit facilitates the process of induction within an educational professional learning community. It enhances the student's awareness of, and associates their knowledge with, the needs of Indigenous Australians.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet

EDB205 Primary Curriculum Project
This unit consolidates contextual skills and understandings in the use of information and communication technologies to support teaching and learning in a school context.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove

EDB206 Secondary Curriculum Project
This unit consolidates contextual skills and understandings in the use of information and communication technologies to support teaching and learning in a school context. It incorporates an investigation of current policy relating to the use of ICT in schools and the theoretical literature pertaining to ICT and education.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Internet and Kelvin Grove

EDB350 English for Teachers
This unit aims to continue the development of participants' own language proficiency and intercultural competence and to further develop their understandings of the importance of effective and appropriate use of language in successful TESOL classrooms.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

EDB351 TESOL Methodology 1
This unit is designed to help TESOL teachers to develop a range of understandings so that they can plan and implement effective TESOL programs for young learners and interpret and manage the classroom as a complex social environment for teaching and learning.
**Corequisite(s):** EDB350  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2  
**Incompatible with:** CLB351

EDB352 TESOL Methodology 2
Language teachers are required to make informed pedagogical decisions which are response to the learning needs of their students and to the curriculum frameworks of the context in which they work. This unit extends the understandings and strategies developed TESOL Methodology 1 and encourages participants to expand their pedagogical repertoire as they refine their own developing teaching philosophy.
**Prerequisite(s):** EDB350, EDB351  
**Corequisite(s):** EDB350, EDB351  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

EDB353 TESOL Materials and Curriculum Development
Effective language teachers working with young children need to be able to critically analyse, evaluate, develop and generate course materials and activities that engage young learners and support their language development in a principled and coherent fashion across the teaching period.
**Prerequisite(s):** EDB350, EDB351  
**Corequisite(s):** EDB350, EDB351, EDB352  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-1

EDB354 Resources, Design and Evaluation for English as a Foreign Language
This unit improves and expands the English language of participants. Helps them to select, develop and critically analyse resources in which EFL teachers of young children can work with resources in teaching/learning contexts.
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2

EDB355 Comparative Curriculum Study
Students in this unit will consider varying orientations to curriculum as a framework from which they can understand their own and others' education systems. In particular they will be able to examine curriculum and contexts in Malaysia and Australia.
**Credit points:** 12  
**Campus:** Kelvin Grove  
**Teaching period:** 2007 SEM-2
EDB403 Field Experience 4
In Part 7 (In-Field), students learn how to review assessment procedures in specific contexts, such as those stated in Part 6, check the consistency of the assessment decision, and report review findings. During Part 8 (Private Study), students reflect upon what they have learnt from Parts 2-7, how they overcame barriers/problems of learners in the training/education context, and how these experiences should assist them to become effective trainers/educators.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB410 Introduction To Research Methods
This unit provides a foundation for understanding research design and methods in education. It focuses on reading, understanding and evaluating educational research both within and across different paradigms and on enabling students to develop their own plan for a small-scale research project. It includes the development of skills in understanding, appreciating, and using the processes and techniques of research. Students are made aware of the variety of research cultures and theoretical perspectives, to become informed consumers of the research findings of others.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1

EDB411-1 Dissertation (Stage 1)
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.
Corequisite(s): EDB410
Credit points: 12
Campus: Kelvin Grove
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB411-2 Dissertation (Stage 2)
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.
Prerequisite(s): EDB410
Credit points: 12
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB411-3 Dissertation (Stage 3)
This unit provides you with opportunities to develop research skills that are increasingly important for teachers in an era when schools, professional associations and other educational settings are becoming important sites of knowledge production.
Prerequisite(s): EDB410
Credit points: 12
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB433 Primary Professional Practice 4: Beginning Teaching
Designated Unit
In this unit, students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis is on planning and implementation of the total program. It includes thirty days of practice teaching in a primary school.
Prerequisite(s): EDB432
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDB440 Independent Study
This unit involves self-initiated and self-directed academic study in an area of educational management interest that allows study either to a depth not possible in electives, or in an area not covered by the course.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDB453 Secondary Professional Practice 4: Beginning Teaching
Designated Unit.
In this unit students synthesise the range of skills, attitudes and knowledge sources that they have experienced to ensure an effective transition into professional practice as beginning teachers, taking responsibility for the shaping of educational practice from their own perspective and those of the learners. Emphasis is on planning and implementation of the total program. It includes 30 days of practice teaching in a secondary school.
Prerequisite(s): EDB452
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDN602 Advanced Seminars
This unit provides for the special needs and interests of students. Small groups of students interact at an advanced level with specialists or visiting scholars in seminars, conferences and research projects.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN603 Facilitated Study Unit
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points: 12
Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN604-1 Facilitated Study Unit 1/2
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit engages students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation.
Prerequisite(s): Nil
Corequisite(s): Nil
Credit points:
EDN604-1 Facilitated Study Unit 1/1
See EDN604-1.
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN605-1 Facilitated Study Unit
The unit aims to enhance capacities for flexibility and innovation in educational practice as a result of an in-depth investigation of a problem of professional relevance. The unit will engage students in a comprehensive examination of relevant theory, research, policy, and/or practice in the area of investigation. The unit also aims to develop skills and understandings about how issues of professional interest can be explored and reported for professional and academic audiences.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN605-2 Facilitated Study Unit 2/3
See Part 1 of unit
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN605-3 Facilitated Study Unit 3/3
See Part 1 of unit
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN610 The Learning Innovator
This unit aims to develop understanding of what it means to be an innovator and a leader in a contemporary professional context. The unit is underpinned by the notion that innovation means being more critical, being open, being able to engage with greater uncertainty and complexity, and being able to learn from the past in order to manage the future.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDN611 Professional Applications of Research
The unit focuses on the needs of professionals to seek research knowledge that addresses specific problems or issues in their practice and to develop a positive attitude towards research in general. It assists students to search databases and other sources to locate published research reports in their field and evaluate them critically.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDN612 Conducting Innovative Research in Educational Contexts
The unit aims to enhance capacities for undertaking research in educational and other learning contexts that is innovative in both its focus and its approach. The unit engages students in a comprehensive examination of relevant research theory and practical application.
Prerequisite(s): EDN611 or equivalent  Credit points: 12

EDN613-1 Thesis 1/3
This unit allows students to identify an area of research germane to their personal and professional interests and to develop and undertake an original piece of research.
Prerequisite(s): EDN611, EDN612  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER  Incompatible with: EDN620

EDN613-2 Thesis 2/3
See Stage 1
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN613-3 Thesis 3/3
See Stage 1
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN614-1 Thesis 1/4
For students to identify an area of research germane to their personal and professional interests and to develop and undertake an original piece of research. The unit provides opportunity to extend and synthesise knowledge from the core and elective units into a research study.
Prerequisite(s): EDN611, EDN612  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN614-2 Thesis 2/4
See Stage 1
Prerequisite(s): EDN611, EDN612  Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN614-3 Thesis 3/4
See Stage 1
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN614-4 Thesis 4/4
See stage 1
Credit points: 12  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDN626 Learning And Teaching In Higher Education
This unit aims to develop the student's capacity to take a theoretically grounded approach to teaching and learning in higher education, specifically through increasing their knowledge of formal and informal theories of learning and teaching.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet  Teaching period: 2007 SEM-1

EDN627 Contexts And Issues In Higher Education
This unit aims to provide students with opportunities to develop an understanding of a range of contemporary historical, policy and social issues that impact on higher education at institutional, school, department, course and individual levels.
UNIT SYNOPSISES

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  
Campus: Internet  
Teaching period: 2007 SEM-2

EDN629 Presentation And Delivery Modes In Higher Education
This unit aims to provide students with the opportunity to gain the knowledge, skills and confidence to use a variety of delivery methods appropriate to their post-secondary student cohort, and to be able to evaluate and critique each mode of delivery within a pedagogical framework, which is student-centred and context-specific.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  
Campus: Internet  
Teaching period: 2007 SEM-1

EDN630 Higher Education: Curriculum Design, Assessment And Evaluation
The unit aims to introduce students to key concepts and practices underpinning contemporary curriculum design, development, assessment and evaluation in rapidly changing global and local contexts.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  
Campus: Internet  
Teaching period: 2007 SEM-2

EDN631 Supervised Practicum 1
The aim is to provide students with a basic level of professional knowledge and skills in the practice of educational and development psychology and an awareness of ethical guidelines. Students will also develop a high standard of professional conduct through supervised practice.
Prerequisite(s): Provisional registration with the Psychologists Board of Queensland  
Corequisite(s): SPN640, SPN641, PYN601  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2007 SEM-1

EDN632 Supervised Practicum 2
This unit aims to provide students with supervised experience in applying diagnostic, assessment and intervention skills in educational settings. This unit will also develop students' written and oral communication skills and provide them with practice in using this skills to communicate results of assessments and recommendations for interventions to school staff, parents and other stakeholders.
Prerequisite(s): EDN631  
Corequisite(s): SPN642  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2007 SEM-2

EDN633 Supervised Practicum 3
The unit provides students with supervised experience in applying their diagnostic, assessment and intervention skills within non-educational settings. It will further develop their written and oral communication skills, and provide them with practice in using these skills to communicate results of assessments and intervention strategies within teams from non-educational settings.
Prerequisite(s): EDN631  
Corequisite(s): Nil  
Credit points: 12  
Contact hours: Approximately 2 days per week for practicum  
Campus: Kelvin Grove  
Teaching period: 2007 SEM-1

EDN634 Supervised Practicum 4
This unit aims to provide students with support in ensuring that they have attained the level of knowledge and skill required to meet the competencies of the Psychologists Board of Queensland.
Prerequisite(s): EDN631, EDN632, EDN633  
Corequisite(s): Nil  
Credit points: 12  
Campus: Kelvin Grove  
Teaching period: 2007 SEM-2

EDN635 Practicum in Early Childhood
In this unit, students are required to draw on professional knowledge and experience in making child observations and in planning, implementing and evaluating learning experiences for children.
Prerequisite(s): EAN601  
Corequisite(s): Nil  
Credit points: 12  
Campus: Internet  
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP415 Engaging Diverse Learners
Increasingly rich and complex opportunities are offered to todayÀs learners to engage in personal, contextual and technological approaches to knowledge construction. To participate effectively in modern learning environments, and to be able, in the future, to support the learning of diverse learners, students completing this unit will develop an understanding of the processes of learning, and the influence of both individual differences and socio-cultural contexts in personal, social and professional development.
Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Internet and Kelvin Grove  
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP416 The Professional Practice of Educators
This Education Studies unit builds your professional and ethical capacity as an Early, Middle or Senior Phase Educator by developing a social science framework for understanding and analysing the professional practice of educators in local and global contexts. The unit will develop your knowledge of the social, cultural, and political strategies shaping professional practice and education today. It will also develop your understanding of the identities produced by these strategies and of the ways in which they might be ethically and equitably managed in all phases of learning.
Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points: 12  
Campus: Internet and Kelvin Grove  
Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP421 Early Years Field Studies 1: Engaging Diverse Learners
Designated Unit. Inclusive philosophies and pedagogies are fundamental for schools and educators who seek to provide rich educational experiences for all learners in the early years of schooling. Teachers must be able to identify and reduce barriers to learning and maximize educational outcomes in response to the needs and interests of all students. This unit provides students with the opportunity to investigate and develop their ability to identify a range of social, cultural and political issues which may create barriers to learning. It also engages students with various pedagogical responses that may provide inclusive educational experiences for students in the early years.(22 days Field Studies).
Prerequisite(s): Nil  
Corequisite(s): Nil  
Credit points:
EDP422 Early Years Field Studies 2: The Professional Practice of Educators
Designated Unit.
This unit prepares you for your work as a beginning teacher, on completion of this course. It provides you with the opportunity to identify and discuss professional issues for beginning teachers in the early years. It aims to develop strong links between research, theory and practice by emphasising inquiry- and evidence-based approaches to teaching and learning in early childhood settings and professional development for teachers. (33 days Field Studies).

Prerequisite(s): EDP421  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP431 Middle Years Field Studies 1: Engaging Diverse Learners
Designated Unit.
This unit integrates and applies the current perspectives, issues and theoretical frameworks of inclusion and diversity. It enhances the student’s ability to identify and address social, cultural, political and legislative issues to provide quality inclusive educational experiences for all learners. Students will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. To do this effectively students will need to identify barriers to student learning and develop strategies to maximize educational outcomes for all students. (22 days Field Studies).

Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP432 Middle Years Field Studies 2: The Professional Practice of Educators
Designated Unit. This unit identifies, discusses and applies the professional issues and responsibilities the beginning teacher needs to be aware of. The students’ ability to identify the crucial professional issues for them personally will be enhanced. Students will not only engage with the challenges of addressing social, cultural, political and legislative issues to provide quality inclusive educational experiences for all learners but also identify a professional development program that best accommodates their needs as a beginning teacher. (33 days Field Studies).

Prerequisite(s): EDP431  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP441 Senior Years Field Studies 1: Engaging Diverse Learners
Designated Unit.
This field studies unit integrates and applies the current perspectives, issues and theoretical frameworks of inclusion and diversity. It enhances the student’s ability to identify and address social, cultural, political and legislative issues to provide quality inclusive educational experiences for all learners. Students will actively engage with the challenges and practices of inclusive education in the classroom and the broader educational setting. To do this effectively students will need to identify barriers to student learning and develop strategies to maximize educational outcomes for all students. (22 days Field Studies).

Corequisite(s): Teaching Area Curriculum Studies 1 unit  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDP442 Senior Years Field Studies 2: The Professional Practice of Educators
Designated Unit.
This Field Studies Unit is designed to alert you to the professional issues of ethical and equitable practice, to legal responsibilities that face any educator, and to the need to stay informed of new developments shaping professional practice. In the field study placement you will move towards becoming a beginning teacher, managing learning environments that are educationally productive, alert to student diversity and the legislative context, as well as mindful of the need for ongoing career enrichment and planning. (33 days Field Studies).

Prerequisite(s): EDP441  Credit points: 12  Campus: Internet and Kelvin Grove  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDR702-1 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student’s professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C, Thesis Imp

Prerequisite(s): EDR703  Credit points: 24  Campus: Internet, Kelvin Grove and External  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDR702-2 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student’s professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Campus: Internet, Kelvin Grove and External  Teaching period: 2007 SEM-1 and 2007 SEM-2

EDR702-3 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student’s professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Campus: Internet, Kelvin Grove and External  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-4 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-5 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-6 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student’s professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-7 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-8 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

EDR702-9 1-9 Thesis
This unit provides students with an opportunity to extend and synthesise knowledge from the coursework section. It allows the coursework to be applied as it may be used in future work situations and provides a means of extending the skills and understandings gained from formal units to investigate in-depth some aspects of the student's professional practice. The unit focuses on the extension of acquired knowledge to increase the understanding and competence of skilled professional educators and facilitates the application of innovative research but grows out of the professional coursework. All candidates will proceed through the three required thesis steps. Namely, Step A, Thesis Preparation; Step B, Thesis Confirmation of Candidature; and Step C:, Thesis Imp
Prerequisite(s): EDR703  Credit points: 24  Teaching period: 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER
EDR703 Interdisciplinary Education Studies (Advanced Seminars)
This unit is a reading and seminar program that aims to broaden and deepen the student's initial perspective to include elements derived from theoretical perspectives drawn from a number of disciplines. The unit seeks to provide a context of learning for educators who seek the personal and professional benefits that the broadening and deepening of their professional knowledge affords.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 24  Campus: Kelvin Grove  Teaching period: 2007 SEM-1

EDZ001 Human Development
The unit is designed to develop in the student a basic understanding of the nature and complexity of the growth and development from birth to adulthood with emphasis on primary/secondary school-age children.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Teaching period: 2007 SEM-1

EDZ002 Philosophy of Malaysian Education
This unit introduces students to the philosophy of Malaysian education including elements of Western and Islamic philosophical reasoning and its origins. Focus will be on the philosophy of Education and its purpose in achieving excellence in education.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-1

EDZ003 Linguistics for the Language Teacher
Students are introduced to linguistics and its applications for language teachers, providing basic understandings about the nature and function of language, including phonology, morphology and syntax, as well as semantics. The student will be able to translate their understanding of language into effective classroom practice.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-1

EDZ004 Malaysian Studies 1: Competency in the Malay Language
This unit will extend the students' command and control over Bahasa Melayu, the national and official language of Malaysia. They will be able to operate efficiently and effectively in Malaysian schools where the medium of instruction is Bahasa Melayu. To further enrich their communication skills in Bahasa Melayu they will be exposed to literature and Malay culture.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-1

EDZ005 Classroom Management and School Experience
This unit will develop skills necessary for the teaching of English in primary/secondary classrooms and is linked to the School Experience where each student is placed in a selected school to work with a co-operating teacher. It will introduce the students to the organization of learning within the classroom and specifically to the role and behaviour of the teacher in the Malaysian primary/secondary classroom and school.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-2

EDZ006 Learning and the Learner
This unit introduces students to learning theory, research and practice and to the role teachers' play in facilitating learning among children. Attention is paid to the development of thinking skills, and the development of creative problem solving skills.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-2

EDZ007 Introduction to English Language Teaching Methodology
Students are introduced to a range of approaches to second language teaching and the theories of language and learning which underpin them. They will explore the basic concepts related to current approaches to ELT in Malaysia and the social context of learning.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-2

EDZ008 Malaysian Studies 2: Ethics and Civilisation
This unit focuses on the concepts and principles of Asian and Islamic Civilisations. It aims to develop a sense of respect and tolerance towards other civilisations and its peoples and explore the importance of ethical and moral reasoning in the development of a teacher.
Prerequisite(s): Nil  Corequisite(s): Nil  Credit points: 12  Campus: Institut Perguruan Bahasa-Bahasa Antarabangsa  Teaching period: 2007 SEM-2

EDZ013 Teaching Practice: Research Project B
Credit points: 48  Teaching period: 2007 SEM-2

EDZ014 Learning Networks
This unit explores the concept of learning networks: interacting social and technical systems that lead to collective sense-making and knowledge construction. Topics include the nature and use of Information and Communication Technologies (ICTs), learning theories and
EDZ017 Electrical and Electronics Technology  
**Credit points:** 12  
**Teaching period:** 2007 SEM-2  
**Campus:** Gardens Point

EDZ350 English For Teachers  
This unit aims to continue the development of participants' own language proficiency and intercultural competence and to further develop their understandings of the importance of effective and appropriate use of language in successful TESOL classrooms.  
**Prerequisite(s):** Nil  
**Corequisite(s):** Nil  
**Credit points:** 12  
**Incompatible with:** EDB350

EDZ352 TESOL Methodology 2  
**Credit points:** 12

EEB220 Electrical Engineering 2M  
The unit covers basic network laws, response to sinusoidal sources, real and reactive power calculation, power factor improvement, electric and magnetic fields, three-phase system, transformer theory, dc and ac rotating machines and their applications, basic electronic circuits, filters, PLC and operational amplifier circuits and applications.  
**Prerequisite(s):** EEB112  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

EEB311 Electrical Measurement and Machines  
This unit includes the following: electrical measurements and instrumentation; magnetic circuits; sensors, PLC's, DSC, and industrial networks; single phase and three phase transformers; electric machines including electromechanical energy conversion, reluctance motors, induction motors, synchronous machines, D.C. machines, stepper motors, P.C. motors; motor control; heating, cooling and rating.  
**Prerequisite(s):** EEB212 or EEB213  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

EEB312 Analog and Digital Electronics  
Analogue and digital electronics devices, circuits and systems are the foundation for all electronic systems. This foundation serves all electronics engineering disciplines and also provides a good hardware basis for computer engineering students. The aim of this unit is to provide awareness of the characteristics and operation of discrete semiconductor components, to introduce analogue circuit design and to provide a good grounding in the basic principles of digital design.  
**Prerequisite(s):** EEB212 or EEB213  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point

EEB340 Introduction to Telecommunications  
Telecommunications systems and the principles underlying their operations are introduced starting from mathematical preliminaries such as the Fourier series and the Fourier transform. Basic radio receivers and antennas, analogue modulation techniques (AM, SSB, VSB and FM), systems and circuits for generation and demodulation and basic properties of noise and its effects on modulation systems are studied using time and frequency domain analyses.  
**Prerequisite(s):** MAB132  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point

EEB411 Classical Control and Power Systems  
The unit is a core unit with the modules Control Systems and Power Systems. It instils the foundation of feedback control theory for engineers and introduces the student to basic classical feedback control theory, analysis and synthesis. The second module covers power generation, and energy sources, electricity market operation, fault calculations, basic protection, and power system operation, in particular real and reactive power control.  
**Prerequisite(s):** EEB311, MAB132  
**Corequisite(s):** EEB440  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

EEB412 Advanced Electronics and Embedded Systems  
The two modules of this unit, Electronics B and Embedded Systems, provide a basis for electronic circuit design in general but also in connection with microprocessor systems. Operational amplifiers and comparators for use in signal conditioning and instrumentation amplifiers are presented as well as integrated circuits as building blocks for system design. Students are given a good grounding in the basic principles and practical use of embedded microprocessor/microcontroller systems.  
**Prerequisite(s):** EEB312  
**Credit points:** 12  
**Contact hours:** 5 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

EEB431 Aircraft Systems and Flight Control  
The modern aircraft is an extremely complex machine comprised of many systems. These systems include propulsion, engine management, flight management, flight control, navigation, and life support and flight data recorders. The safe and reliable operation of all these systems is required to conduct a single flight. The modern avionics engineer requires an understanding of all these systems and how they operate on modern civil and military aircraft. This unit places emphasis on the flight control systems of modern aircraft which is one of the primary subsystems. As part of this, methods for modelling the dynamic behaviour of aircraft, missiles and spacecraft are introduced, along with the criteria for stability.  
**Prerequisite(s):** EEB130, EEB212, MMB251  
**Credit points:** 12  
**Contact hours:** 6 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2
EEB440 Classical Signal Processing
The unit covers the area of Signals in Linear Systems for which a detailed study of Fourier theory applied to analog signals and to the analysis of linear systems is given. System analysis is presented in time as well as in frequency and various characteristics and relationships in the two domains are discussed. Students are introduced to the classical design of filters such as the Butterworth and Chebyshev type along with a brief exposure to their realization as analog circuits. The sampling theorem and Nyquist criteria are discussed in detail and an introduction to discrete-time signal processing using the Z-transform is provided.
Prerequisite(s): EEB340, MAB134 Corequisite(s): MAB135 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-2

EEB511 Modern Control and Power Electronics
The unit comprises the modules Control Systems B and Power Electronics. Control Systems B introduces students to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. The second module covers power rectification, controlled rectification, inverters, AC and DC drives, uninterrupted power supplies, power switching components.
Prerequisite(s): EEB411 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB512 Industrial Electronics and Digital Design
Modules Electronics C and Digital Systems Design provide a basic understanding of linear and switch applications in industrial electronics. Practical knowledge associated with interfacing and design is developed. Students will also study the theory and design of advanced embedded digital systems and practical implementation. The practical application of these circuits including interfacing and environment factors is considered.
Prerequisite(s): EEB412 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB521 Digital Systems and Control
The unit comprises the modules 'Control Systems B' and 'Digital Systems Design'. Control Systems B introduces to discrete-time control by extending the conventional control into the discrete-time domain. As a second part of Control Systems B, the state model oriented approach for designing control systems is introduced. As second module, it provides the theory and design of advanced digital systems and practical implementation.
Prerequisite(s): EEB411, EEB412 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB535 Modern Flight Control Systems
The modules of this unit are Control Systems B and Flight Control Systems. The unit provides students with an understanding of control system design and analysis for discrete time control systems as well as using the state space approach. Furthermore, it introduces students to different aspects of flight control including factors affecting the performance and simulation. Specific topics such as artificial stability and MILSTDs are also covered.
Prerequisite(s): EEB412, EEB435 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB560 Digital Communications
Revolutionary developments in the field of Digital Communication Technology have enabled improvement in the characteristics of communication systems in order to meet the performance requirements for transmission of information for private, business and industrial applications. This unit which covers Elements of a Digital Communication System aims at providing the students with an in-depth understanding of the theory and applications of digital communication systems and technology.
Prerequisite(s): EEB440 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB566 Real-Time Computer-Based Systems
This unit covers the area of embedded systems and real-time kernels. C programming is reviewed in the context of real-time applications where it is often mixed with assembly language. Data representations, input-output programming, concurrency, scheduling, memory management and system initialisation are discussed. Programming laboratory exercises introduce development tools and reinforce fundamental concepts such as polling, interrupt driven input-output, serial port communication, pre-emptive and non pre-emptive scheduling, resource sharing, priority inversion and deadlock. Students develop a simple real-time process control application using programmable logic and micro-controllers.
Prerequisite(s): EEB412, ITB421 Credit points: 12 Contact hours: 4 per week Campus: Gardens Point Teaching period: 2007 SEM-1

EEB585 Systems Engineering Design
Students work in teams on specific pre-determined sub-projects. They will be exposed to principles in design specifications, feasibility studies, standards and technical writing. In particular, the following topic areas will be covered: introduction to systems engineering user requirements process; system requirements process; requirements traceability and analysis; project management tools; risk management; brainstorming and trade studies;
cost/benefit criteria; feasibility studies; the project life cycle phases; detailed design; system qualification and acceptance testing; design review procedure. Students undertake a team-based preliminary design exercise.

**Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1

**EEB612 Software Systems Design**

The unit introduces students to software engineering by considering a whole software lifecycle. Each step of the lifecycle is treated in detail, such as concept phase, requirement definition, software design, human-computer interaction, implementation, audits, and maintenance. Software design principles and techniques are presented coupled with a systems level study of modern operating systems, including real-time operating systems. Object oriented programming is introduced and exercised with a real-world design problem.

**Credit points:** 12  **Contact hours:** 6 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB640 Digital Signal Processing**

The unit comprises the area of Digital Signal Processing and provides students with the fundamentals of discrete-time signal processing, discrete Fourier transform, discrete convolution, digital filters and digital spectral estimation. Examples and applications arising from various disciplines are presented to prepare the student to solve practical problems.

**Prerequisite(s):** EEB440, MAB135  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB641 Fields Transmission and Propagation**

This unit addresses the following: fundamental concepts of static and time varying electromagnetic fields; Maxwell's equations and the characteristics of their solution, such as wave equations, losses in various media and energy flow; numerical methods; transmission line theory, terminated line, Smith Circle Chart usage and lattice diagram; propagation modes in waveguides and optical fibre; free-space propagation, reflection, refraction, diffraction; basic antenna theories and antenna parameters, Frii's transmission equation, half-wave dipole, two-element array.

**Prerequisite(s):** MAB135  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEB650 Power Systems Analysis**

This unit addresses the following: power system economics; costs of losses, tariffs, plant selection; the national electricity market; power flow calculation algorithms; protection systems; transformer protection motor protection, feeder protection; setting of IDMT relays; quality of electricity supply; surge phenomena in lines and machines; switching and lightning surges solution by numerical methods; harmonic analysis of interconnected networks; electrical safety, earth electrodes, evaluation of step and touch potentials.

**Prerequisite(s):** EEB511  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB666 Communication Environments for Embedded Systems**

This unit addresses the following: computer networks; network programming; open network foundations; embedded systems; client/server; bus architectures; network controllers; distributed systems in automation and process control; embedded Java; distributed objects; distributed databases; distributed operating systems.

**Prerequisite(s):** EEB412, ITB421, EEB566  **Credit points:** 12  **Contact hours:** 4 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB684 Advanced Design**

This unit introduces detailed design and realisation of typical electrical subsystems used in areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. As part of the advanced design, this unit also covers a number of engineering skills including high-level thinking, project planning, information retrieval techniques, writing report and oral presentation skills. The student is required to write a detailed technical report and also to give an oral presentation on her/his design.

**Prerequisite(s):** EEB584  **Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB685 Advanced Systems Design**

This unit presents detailed design and realisation of typical electronic subsystems used in areas of electrical and electronic systems engineering. The unit enhances the student's ability in solving complex engineering problems. The design builds on the theoretical knowledge gained in other units. The student is required to write a detailed technical report and also give an oral presentation on her/his design.

**Prerequisite(s):** EEB585  **Credit points:** 12  **Contact hours:** 1 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB686 Industry Practice**

Industry Practice provides high achieving students with the opportunity to participate in a co-operative education environment created by a partnership between the student, industry and the University. The unit aims at developing knowledge of, and experience in, the practices and procedures in the workplace environment. Students will apply for paid employment with an industry partner registered for this program. The process will be open and competitive, and an interview will be conducted as for a typical job application process. The duration of the employment is expected to be from 4 to 6 months, with 24 to 40 hours per week, and must overlap the teaching period of semester 2.

**Prerequisite(s):** Completion of the first two years of the full-time course  **Credit points:** 24  **Contact hours:** 1 per week  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-2

**EEB732 Space Technology**
This unit offers a general introduction to space technology. It includes the following: coordination of systems and time references used within space flight dynamics; discussion of rocket ascent trajectories and satellite orbit dynamics; detailed description and discussion of satellite as a system and subsystems; description and discussion of rocket as a system; introduction to satellite launch systems and satellite applications.

Prerequisite(s): EEB435 or EEB431 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-1

EEB760 Aerospace Radio and Radar Systems
Radio and radar systems provide the backbone and arteries of all aerospace and avionics systems. A knowledge of the effects of electromagnetic compatibility and interference and the standards which apply as well as a detailed knowledge of the theory and techniques of ground, air and space based radio and radar systems is essential for all avionics engineers. Radio and radar systems are an integral part of the safe and efficient operation of aircraft movements and must be considered as part of the system as a whole.

Prerequisite(s): EEB560, EEB641 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-1

EEB766 RF Communication Technologies
The unit covers various communication and signal processing technologies that are used in point to point and point to multi-point; wired and wireless communications including microwave terrestrial and satellite communication; last mile solutions including ADSL, VDSL and wireless local loops; ad hoc radio transmission such as the Bluetooth and Home RF; Wireless LANs including wireless infrared transmission and IEEE8012.11 standard.

Prerequisite(s): EEB560 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-1

EEB781 Professional Studies 2
This is to provide adequate skills for young professional engineers to start a small business or be active partner in one. Personnel management skills are developed including: assertion training; interpersonal relationships; organisational change; professional ethics and negotiation.

As well the unit covers the basics of accounting practice, types of companies, marketing principles, business plans, intellectual property and statutory obligations on company managers.

Prerequisite(s): BNB007 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-1

EEB782-1 Systems Project
In this unit an engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, and power and may include programming, circuit and system design.

Prerequisite(s): Completion of the first three years of the course. Credit points: 12
Contact hours: 1 per week

Campus: Gardens Point Teaching period: 2007 SEM-1

EEB782-2 Systems Project
In this unit an engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, and power and may include programming, circuit and system design.

Prerequisite(s): First part of project Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-2

EEB831 Military Combat Electronics
This unit addresses the following: sound generation propagation and analysis in the military environment; principles and application of lasers to sighting and guidance systems; principles of detection of submarines using magnetometers; infra red propagation and its use in detection and weapons guidance; ECM/ECCM; sonar processing; laser processing and guidance; radar guidance/sighting; gun sights; weapons control systems; IFF/transponders; command and control; magnetic anomaly detection; tactical navigation systems; infra red. Some ethical, social and moral aspects concerning military systems will be discussed.

Prerequisite(s): EEB435, EEB560, EEB640, EEB641 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-2

EEB833 Spacecraft Guidance and Navigation
This unit includes the following: general introduction to spacecraft guidance and navigation systems and concepts; coordination of systems and time references applied within spacecraft guidance and navigation; discussion of spacecraft orbit and attitude dynamics; detailed description and discussion of GNSS system aspects; GPS observables and data processing; description and discussion of spacecraft guidance and navigation sensors and systems; methods for spacecraft orbit and attitude determination; discussion of spacecraft actuators.

Prerequisite(s): EEB732 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-2

EEB835 Navigation Systems for Aircraft
Modern aviation continues to flourish, with millions of passenger miles flown each year throughout the world and in all kinds of weather condition. Safe and reliable navigation is one of the primary functions that enable these flights. In past years pilots navigated visually but this relied on fair weather conditions. Today pilots use navigation aids to allow navigation in all types of weather conditions day or night.

This unit presents the principles and practices of modern navigation sensors and systems. To be a competent Avionics Engineer, a detailed knowledge of the principles of navigation is mandatory. Navigation is a fundamental building block for all aspects of aerospace projects.

Prerequisite(s): EEB560, EEB641 Credit points: 12
Contact hours: 4 per week Campus: Gardens Point
Teaching period: 2007 SEM-2
**EEB889-1 Project**

This unit is divided into two parts: EEB889-1 and EEB889-2. Students normally complete part 1 in semester 1 and part 2 in semester 2 in their final year of study.

An engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, electrical power, or aerospace/avionics. The project may include programming, circuit and system design.

**Prerequisite(s):** Completion of the first three years of the course  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

---

**EEB889-2 Project**

This unit is divided into two parts: EEB889-1 and EEB889-2. Students normally complete part 1 in semester 1 and part 2 in semester 2 in their final year of study.

An engineering project on a specified topic is completed; the work will require design, computing, construction, experimental work and practical testing with the submission of appropriate reports. The topic is selected from any area which involves electronics, computing, control, communication, signal processing, electrical power, or aerospace/avionics. The project may include programming, circuit and system design.

**Prerequisite(s):** The student must have completed the first three years of the course  
**Corequisite(s):** This unit must be done in the final year of the course  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1, 2007 SEM-2 and 2007 SUMMER

---

**EEB911 Electrical Energy Systems**

This unit addresses the following: electricity transmission and distribution networks; structure and controls; quality and reliability of electricity supply; energy use in buildings; lifts fire systems; standby generation; lighting, communication, air conditioning; renewable energy options; characteristics and utilisation of alternate sources; the electricity market; distribution automation; data communications for distribution networks; earthing and soil resistivity; switchgear and protection; insulation coordination.

**Prerequisite(s):** EEB511, EEB584  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

---

**EEB940 Modern Signal Processing**

This unit gives a comprehensive introduction to the representation and processing of signals distorted or corrupted by noise, and the systems needed to process them. Techniques for estimating signal parameters for the detection of signals in the presence of noise will be discussed. The methods presented will be tested on real data drawn from different engineering applications, such as wireless communications, biomedical EEG signals and brain models, speech and music synthesis, and radars.

**Prerequisite(s):** EEB640  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

---

**EEB960 Wireless Communications**

This unit addresses the following: cellular mobile radio system concepts; mobile radio propagation; spread spectrum techniques and CDMA; speech coding modulation and channel coding techniques for GSM and CDMA; fading mitigation through diversity; inter-symbol interference mitigation; the GSM and CDMA standards; the WAP and the GPRS; introductions to UMTS/IMT2000; introduction to personal communications; introduction to blue tooth technology; other wireless systems including wireless LAN, wireless local loop, microwave local multipoint distribution systems (LMDS) and LEO satellite communication.

**Prerequisite(s):** EEB560  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

---

**EEB961 RF and Applied Electromagnetics**

This unit addresses the following: lumped and distributed microwave and RF circuits, including [y], [t] and [s] parameters; impedance matching techniques; passive and active microwave devices; RF circuit design techniques; microwave and RF measurement techniques; linear antennas and microwave antennas; analysis and synthesis of antenna arrays; specialised antennas and antenna measurements; EMC definition, standards and regulations; test plan; measurements; interference coupling; susceptibility; EMC design techniques, component selection, circuit layouts, grounding, shielding, filters, suppressors, isolation and safety; EMC management; propagation of electromagnetic fields in electrical materials; application of numerical methods.

**Prerequisite(s):** EEB641  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

---

**EEB976 Advanced Industrial Electronics**

Two of the following modules will be offered each year: 1. Switching converters, variable speed drive control, power system compensation converters, UPSs, transformer switched mode power supplies, resonant power supplies. 2. Basic microprocessor systems, M68332 CPU, architecture, assembly language, MC6832 modules, system integration, queued serial communications, time processor unit, peripheral devices and interfacing, parallel/serial communications, ADC's, DAC's, waveform synthesisers. 3.
RF systems, transmitters and receivers, superheterodyne, antenna, filters, LNA, mixer, LO, IF amplifier, demodulator, duplexer, RF switches, impedance matching, high frequency effect on components, microstrip techniques, CAD RF design.

**Prerequisite(s):** EEB412  
**Credit points:** 12  
**Contact hours:** 4 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**EEB992 VLSI Circuits and Systems**
This unit addresses the following: introduction to microelectronic circuits and systems; MOS transistor fundamentals; fabrication processes; mask layout rules; VLSI logic gates; combinational logic circuits; sequential logic circuits; memory structures; system and subsystem design; semi-custom design; circuit modelling and performance; circuit verification; testability; case studies; CAD tools for VLSI, VHDL system specification, modelling and verification. The unit includes a major design project.

**Prerequisite(s):** EEB412  
**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP101 Algorithms for Control and Engineering**
This unit addresses the following: solution of equations using numerical analysis methods and computer algorithms; differential and difference equations, numerical approximations and computational flow diagrams; computer control of closed-loop systems; continuous and discrete systems; system hardware; sampled data systems design techniques; system simulation; state-space theory, and system performance optimisation; state equation; transformations; state equation solution; closed-loop system pole-placement design; performance criteria; dynamic optimisation methods; spectral analysis and digital filtering; discrete time adaptive filters; an introduction to neural networks and to fuzzy logic.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP102 Unix and C for Engineers**
This unit covers C programming and the Unix operating system. Unix commands, file structure, processes, shells and shell scripts are discussed. C programming is covered without assumed prior knowledge but at a level and pace suited for the postgraduate or advanced undergraduate student. Data types, operators and expressions, control flow, functions, pointers and arrays, strings, data structures, memory allocation, input and output and support for real-time applications are discussed. Self-study tutorials are used to reinforce fundamental concepts. An engineering application is chosen for the assignment that is conducted in a problem-based learning framework.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP103 Computer Hardware and Interfacing**
This unit includes the following: state-of-the-art digital devices; design and implementation of digital systems; microprocessors and microcontroller systems and interfacing; computer architectures, subsystems and peripherals.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP104 Real-Time Operating Systems**
This unit covers operating systems principles with emphasis on real-time operating systems. Operating system fundamentals are introduced and concepts such as process management, input/output management, file management, resource allocation and scheduling, and protection are discussed in detail with a Unix-like operating system such as Minix or Linux as the example. Students enhance their C programming skills in assignments on multitasking, interrupt-driven input-output and device driver modification. Current commercial real-time operating systems such as QNX are reviewed.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**EEP120 Networks and Distributed Computing**
This unit includes the following: the open system interconnection model and the more common standards which support the model; layers 3-7 covered in depth, layers one and two covered by reference; computers, software packages; network topologies, software techniques, data transfer protocols; examples of local and wide area networks; hardware implementation of OSI layers and protocols; modern high performance networking protocols such as FDDI and ATM, treated as extensions of the OSI model.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**EEP123 Process Control and Robotics**
This unit includes the following: introduction to robotics; introduction to CNC machine tools; process control; controller tuning, plant characterisation and process optimisation; computer simulation and algorithms.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2

**EEP124 Data Communications**
This unit will provide an in-depth knowledge of the following: data transmission channels; the various types of modems, their use and specifications; the different aspects of interfacing for data communications; coding; compression and encryption of data; network models and other specialised topics.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP126 Communications Digital Signal Processing**
This unit includes the following: source and channel coding; waveform coding; adaptive filtering in communication; applications of speech technology in communication; applications of DSP technology; real time DSP devices and their applications in communications.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-1

**EEP127 Advanced Topic B**
An advanced topic in the field of computers and communication engineering.

**Credit points:** 12  
**Contact hours:** 3 per week  
**Campus:** Gardens Point  
**Teaching period:** 2007 SEM-2
EEP129 Image Processing and Computer Vision
The aim of this unit is to provide theoretical and practical understanding of the fundamentals of image processing and computer vision with exposure to important algorithms and applications. It covers image acquisition, image representation and modelling, image enhancement, image restoration, edge detection, image segmentation, morphological techniques, shape description, classification and fundamentals of projective geometry and stereo vision.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

EEP135 Digital Signal Processing and Applications
This unit includes the following: general properties of stationary processes; basic spectral properties of the processes; practical aspects of digital spectral estimation; identification of linear systems; digital higher-order spectral estimation; identification of non-linear systems; an update in the advances in digital signal processing.

Credit points: 12  Contact hours: 3 per week  Campus: Gardens Point  Teaching period: 2007 SEM-2

EEP201 Fundamentals of Power System Earthing
This unit includes the following: electrode resistance, potential gradient areas of common types of electrodes; multiple electrodes; stratified grounds electric shock; calculation of step and touch potentials; introduction to substation earthing; ground potential rise; connection of services; grid and mesh potentials; measurement of soil resistivity and electrode resistance; earthing of transmission lines; tower foot resistance; current division between ground and aerial earth wires; division of earth currents at substations; earth current distribution on faulted lines; distribution systems; MEN; SWER; safety during faults; flow of lightning currents to ground.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP202 Thermal Ratings and Heat Transfer
This unit includes the following: thermal conduction in simple geometries; forced and natural convection from plates and cylinders; common heat transfer correlations; radiation from hot surfaces; view factors; calculation of steady-state and time-varying temperatures in conductors; temperature measurement methods for high voltage equipment; thermal ratings of overhead lines; steady-state, cyclic and short-time ratings; cable rating; temperature rise due to step current, cyclic and emergency loads; temperature rise of power transformers; cooling methods; emergency overloads.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP203 Testing and Condition Monitoring
This unit includes the following: HV testing; DC, 50 Hz, and impulse - equipment; measurement systems; standard test methods; certification and traceability; evaluation of test reports; HV test methods for insulators, bushings, circuit breakers, isolators and surge arrestors; temperature rise testing of electrical equipment, lines cables, and switchgear; current withstand testing; current interruption tests for fuses and circuit breakers; evaluation of test reports; accuracy and traceability; insulation testing; oil testing, DLA and PD tests; condition monitoring systems; plant temperature; circuit breaker dynamics; insulation condition; in situ methods.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP204 Power System Load Flow Analysis
This unit includes the following: data collection methods; p.u. revision; load flow algorithms; convergence criteria, multiple solutions, starting values, ordering and sparsity of matrices; single and three-phase models; transformers, tap changers, overhead transmission lines, underground cables, capacitors and filters, controlled reactive devices, generators and motors, load representation; load flow applications; base case and contingency analysis in planning augmentation options, system operations contingency analysis; load flow analysis methodology; use of load forecasts; establishment of 'base case'. Practice in analysis of transmission and distribution systems using an interactive package is included.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP205 Power System Fault Calculations
This unit includes the following: representation of generators, lines, transformers in positive sequence equivalent circuits; balanced fault analysis; selection of source voltages from pre-fault conditions; unbalanced fault conditions; complete sequence representation of power system equipment: transformers, cables and lines per unit positive, negative and zero sequence network diagrams; calculation of generator and transformer sequence equivalent circuits from manufacturer's test data; calculation of line sequence impedances from line layout and soil resistivity; inclusion of tower foot resistances in zero sequence models; residual currents in untransposed lines; interference with telecommunications circuits; short circuit calculations to AS3581 using an int

Prerequisite(s): EEP204  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP206 Project Management
This unit includes the principles of project management and the operation of project management packages. Emphasis is on the practical application of PC packages based on exercises related to the electricity supply industry and aimed at promoting the increased use of such packages by engineering and technical staff in the normal course of their work. Details include activity networks, Gantt charts, time schedules, analysis of critical path, types of resources, resource profiles, resource scheduling, and project
EPP207 Overhead Line Route Selection - Environmental Factors
This unit includes an overview of legislation, standards and guides: radio interference, electromagnetic fields, low frequency induction, touch potentials, structure earthing, electrolytic corrosion, clearances, land legislation, and environmental impact statements. Current safety and environmental issues are addressed. Requirements of other public utilities, for example telcos, railways, roadworks, marine, water, gas and oil are also considered with cost of environmental enhancements and alternative technologies, right of way, and route selection principles: structure types, terrain shielding, identification of natural and man-made features.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  

EPP208 Economic Analysis for Power System Engineers
This unit considers the principles of economic analysis for a tax paying entity. Various evaluation techniques are addressed including both discounted and non discounted techniques. The net present value approach is settled on as being the most appropriate approach. Issues such as the effect of interest and inflation on nominal cash flows are addressed. Cost benefit analysis for engineering decision making: econometric models for ESI, maintenance, refurbishment and replacement are included as well as budgeting and cost control, budget preparation with spreadsheets, cash flows, monitoring expenditure and budget review, profit and loss and balance sheets and risk analysis including WACC calculations.

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  

EPP209 Power System Harmonics
This unit includes the following: eneration of harmonics, converters, arc furnaces, SVC, inverters, electronic control; system response characteristics, resonance conditions, effect of load, typical system responses; effects of harmonics, motors, generators, power cables, capacitors, electronic equipment, metering, relaying, telephone interference; reactive power compensation and harmonic control, converter power factor, reactive power compensation, control of harmonic currents; measurement of harmonics, recommended practices including AS2279. 
Prerequisite(s): EPP205  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  

EPP210 Abnormal System Voltages
This unit considers the following: supply quality standards, review of criteria, statutory requirements, emergency and short term limits; 50 Hz voltage, cause of voltage deviations, voltages during faults, motor starting; negative phase sequence voltages, AS1359 requirements, voltage unbalance studies, modelling, measurement; voltage transients and flicker; AS2279 requirements, disturbing loads, remedial measures, transient disturbances and power system plant; power system transient analysis, ATP studies.
Prerequisite(s): EPP205  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  

EPP211 Basic Power System Protection
This unit includes the following: protection systems, reliability and security; methods of grading relays; 'unit' and 'non-unit' protection; causes of faults occurring on power systems and the relays for detection; examination of local back-up protection; effects of substation configurations on protection system design and performance; current and voltage transformers; protection of HV buses; transformer protection; inverse time relays; setting overcurrent and earth fault relays to achieve a coordinated scheme; reclosers, sectionalisers and fuses application and coordination; commissioning and maintenance of protection systems; performance of protection under fault conditions; information available for the analysis of protection performance.
Prerequisite(s): EPP205  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  

EPP212 Advanced Power System Protection
This unit includes the following: high impedance protection of power system plant including CT requirements and use of shunt and series resistors, non-linear resistors, check schemes, back-up schemes and CT supervision; protection of transformers, biased and high impedance differential schemes; feeder differential protection: pilot wire, current differential and phase comparison schemes; protection of HV capacitor banks; application of single and 3 pole autoreclosing schemes to transmission systems; protection of large motors; protection of large generators.
Prerequisite(s): EPP211  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  

EPP213 Statistics
This unit includes the following: the role of statistics in electricity supply engineering; strategies for collecting and recording valid data from which statistical inferences can be made; use of operational and inventory data; graphical and numerical techniques to summarise data using statistical or spreadsheet packages; review of probability concepts, random variables, probability distributions; specific distributions used in system and component reliability
studies.

Credit points: 4  Contact hours: 15 hours short

EEP214 Risk Assessment in the Electricity Supply Industry
This unit includes the following: identification of hazards, failure modes and effects analysis, failure modes effects and criticality analysis; outcomes from possible failure modes; hazard and operability studies; assessment of frequency, fault tree analysis, event tree analysis; assessment of consequences, consequence analysis, criticality assessment in terms of chance of failure and consequences, incident scenario, damage criteria, damage identification; legal and economic consequences; case studies including identification of hazards, assessment of risks, and consequences in ESI; loss of load models in generation.

Prerequisite(s): EEP215  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP215 Reliability
This unit includes the following: basic reliability concepts, methods, and analysis methods; application of important distributions; failure rate/repair time/mean time failure; reliability of series/parallel/complex systems; discrete Markov Chains and processes, frequency and duration in reliability, the reliability evaluation of repairable systems; application of reliability evaluation in power distribution systems, including cost estimates; reliability assess; in subtransmission system planning, including non-constant transition rate; study of contingencies with switching to restore supply; maintenance in system modelling; probability and frequency of loss of load; unsupplied energy and average load at risk; maximum load at risk; average outage duration.

Prerequisite(s): EEP213  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point and External  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP216 Overhead Line Design - Electrical
This unit includes the following: electrical design of transmission lines with ratings of 33kV to 500kV; economic conductor size; characteristics of conductors; standard and new technology insulators, power frequency, impulse and switching flashover voltage, pollution and creepage, wet and dry flashover, mechanical characteristics; feasible structure types; tower footing resistance and counterpoise; insulation coordination methodology, determination of overvoltage withstand, design for required outage; determination of RI using state of the art methods; design to ensure that electrostatic and electromagnetic fields do not exceed NH and MRC guidelines.

Prerequisite(s): EEP201, EEP203, EEP205, EEP207, EEP210  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP217 Overhead Line Design - Mechanical
This unit includes the following: conductor selection; catenary theory; sag-tension-temperature calculations; requirements for survey data; statutory and enterprise requirements for line layout, clearances, mechanical loading, safety criteria; definition of loading conditions, structure capacities, layout clearances; applied mechanics of strung conductors; determination of everyday tensions from allowable stress or tension/mass ratio; determination of vibration protection; transmission line estimating techniques; selection of structure type based on optimum capitalised costs; line layout.

Prerequisite(s): EEP208, EEP216  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP218 Introduction to Automated System Control and Supervisory Systems
This unit includes the following: SCADA fundamentals and protocols; SCADA equipment, master station, remote terminal units; transmission SCADA systems, distribution automation systems, distribution control systems, PC software applications; alarm philosophy and control principles, definition of system displays, data logging, database point processing and attributes, master station configuration; specification of MMI, identification of system functional requirements; computer system platforms, computer technology, computer hardware; communication system principles, communications bearer, data networks and protocols; data communications and I/O capacities and types, I/O processing; application of SCADA systems to transmission and distribution systems; cost/benefit

Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP219 High Voltage Substation Equipment: Power Transformers and Reactive Power Plant
This unit includes the following: principles of transformer design; distribution transformers to EHV transformers; ratings/windings/core structure and materials/insulation and cooling methods/insulation/lifetime; leakage and magnetising reactance; losses/harmonics/inrush currents; short circuit forces; tests to measure ratio/losses/impedance/phasing/temperature rise/accuracy and traceability of tests/interpretation of test results; surge phenomena in windings, RSG and impulse testing of power transformers, interpretation of test results; oil cooling systems; fire protection; tap changers and controls; analysis of transformer failure modes; in-phase and quad-boost regulators; series and shunt reactors; reactors for harmonic filters; SVCs; design considerations

Prerequisite(s): EEP203  Credit points: 4  Contact hours: 15 hours short course/distance education  Campus: Gardens Point  Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6
EEP220 Distribution Planning
In this unit students are required to complete the following: identify data and techniques used in load forecasting; examine typical distribution network problems and identify performance limitations based on standards; relate network problems to different configurations and the effects on customers; study network reinforcement options on a simulation package including regulators, series and shunt capacitors and reconductoring; consider the above options to address a realistic network problem assessing line losses and voltage results; analyse network reliability and assess the impact of ties, switches and various network configurations; compare alternatives based on economic and technical considerations; prepare a logical case which recommends one option in t

Prerequisite(s): EEP208, EEP211, EEP219
Credit points: 4
Contact hours: 15 hours short course/distance education
Campus: Gardens Point and External

EEP222 Limits to Power System Stability
This unit includes the following: time domain models and characteristics of synchronous machines; induction generator models; excitation system models, turbine governor models, boiler models, hydraulic system models; characteristics of load plant; evaluation of small signal adequacy by eigenvalue analysis; determination of modes of electromechanical and control systems; identification of modes with insufficient damping, eigenvalue participating states and eigenvectors; time domain dynamic simulations of power system operation; numerical models for prediction of large disturbance behaviour of interconnected power systems; stability of system under contingency and emergency conditions; stability improvement techniques.

Prerequisite(s): EEP214, EEP215
Credit points: 4
Contact hours: 15 hours short course/distance education
Campus: Gardens Point

EEP223 Load Forecasting
This unit includes the following: nature of load patterns; historical patterns; links between customers and loads and between energy and demand demographics; categories of DSM; costs of DSM options; benefits and limitations to DSM; tariffs and their impact; impact of economic trends on demand growth; load manipulation; load forecast methods: data collection and availability; weather correction; interpreting data; synthesising missing data; developing load forecast data; developing alternative scenario load forecasts; establishment of base loads from; historical load data; customer load predictions and other contributing factors; prediction of growth rates; generation of load forecasts.

Prerequisite(s): EEP213
Credit points: 4
Contact hours: 15 hours short course/distance education
Campus: Gardens Point

EEP224 Power System Operation
This unit includes the following: frequency control and AGC under normal load conditions; operation under emergency and contingency conditions; black starting; load shedding philosophy; generation operation; contract fuel prices; variations; automatic generation control systems; analysis of power station operating costs; establishment of optimum operating costs; management of forced outages; management of resources to restore system to normal in minimum time; abnormality control to prevent plant damage and maintain safety; logging and reporting of forced outages; coordination of planned outages including assessment of risks and contingency planning; control of reactive power and voltage levels under normal and abnormal conditions; load reduction.

Prerequisite(s): EEP202, EEP212, EEP214, EEP221, EEP223
Credit points: 4
Contact hours: 15 hours short course/distance education
Campus: Gardens Point

EEP230 Thesis A
In this unit, students work in industry for 100 days of supervised practice. As part of this practical training, one or more linked topics are identified that are related to the work of the section in which the training is carried out. A Masters thesis is prepared describing results of studies done by the student during the practical training. It is expected that the thesis will demonstrate that students have a deep background knowledge of the topic, can apply advanced skills to formulation and solution of engineering problems, and have an understanding of the relationship of the work to the overall objectives of the workgroup. The thesis will be examined by internal and external examiners appointed by the University.

Credit points: 12
Contact hours: 15 hours short course/distance education
Campus: Gardens Point and External

EEP231 Thesis B
Work done in this unit and the related unit EEP230 is examined by submission of a single Masters thesis.
QUT HANDBOOK 2007 · Page 1817

UNIT SYNOPSIS

EEP243 Contract Administration
This unit includes the following: categories of contracts; supply, maintenance, period; general conditions of contract; terms of payment and security deposit; QA procedures; retention conditions; special conditions: delivery and penalties for delay; technical provisions; penalty/bonus for such factors as efficiency/performance/maintenance/reliability; pre-tender negotiation practice; evaluation of tenders: tender adjustments; determination of the lowest price; tender acceptance; contract correspondence; drawings - standards, amendment; contract law, dispute resolving procedures; contract monitoring: approval of drawings and documents; approval of delivery; erection; site testing; acceptance; takeover; maintenance period retention provisions.
Prerequisite(s): EEP208 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP244 Circuit Breakers - Switchgear
This unit includes the following: SF6, Vacuum, GIS, minimum oil, airbreak, bulk oil circuit breakers; circuit-breaking principles; calculation of switching surges: TRV and ITRV, current inrush; interruption of load current, and small inductive current; capacitive switching; short-line-faults and out-of-phase switching; specification of circuit breakers: Australian and international standards; selection of circuit breakers: analysis of tenders; circuit breaker failure modes; catastrophic failures; condition monitoring techniques; maintenance and refurbishment; circuit breaker testing and test report evaluation; new circuit breaker technologies.
Prerequisite(s): EEP210 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP245 Introduction to Substation Design
This unit includes the following: preparation of design/site options: standard layouts (outdoor, indoor, GIS, package, single bus, 1.5 CB, etc) - cost, site, reliability lead time and communication factors; estimating procedures; comparison of design/site options; whole-of-life cost comparison including capital and operatic costs; environmental and public issues; identification of design parameters: voltages, ratings, protection, metering, SCADA, communication, operational - preparation of one-line diagram and general arrangement; design scope; review with other parties.
Prerequisite(s): EEP202, EEP219, EEP244 Credit points: 4 Contact hours: 15 hours short course/distance education Campus: Gardens Point Teaching period: 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

EEP246 Customer Metering
This unit includes the following: tariff structures network and retail; metered parameters kW, kWh, var, varh, VA, VAh, power factor, demand and their interrelationships; electronic
metring multifunction, measurement methods, advantages and limitations; HV metring, import/export metring, limitations, Blondel's theorem, safety aspects; current and voltage transformers - theory of operation and accuracy limitations; metring in the deregulated market; single and polyphase electromechanical metring - method of operation and techniques used to measure reactive power; electronic registers, summation registers and other techniques for customers with multiple points of supply; communication methods in remote meter reading; standards and regulatory bodies - Austr

**Credit points:** 4  **Contact hours:** 15 hours short course/distance education  **Campus:** Gardens Point  **Teaching period:** 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

**EEP248 Introduction to Electricity Markets**

This unit addresses the following: problems associated with monopoly utilities and the central planning model; economic models of markets including perfect competition, monopoly and oligopoly; deregulation of the electricity supply industry; applied competition on electricity generation: the spot market; theory of derivative instruments; applied risk management: the electricity derivatives market; electricity market simulation; potential failures in the deregulation environment.

**Credit points:** 4  **Contact hours:** 15 hours short course/distance education  **Campus:** Gardens Point  **Teaching period:** 2007 6TP1, 2007 6TP2, 2007 6TP3, 2007 6TP4, 2007 6TP5 and 2007 6TP6

**EEP301-1 Project**

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEP301-2 Project**

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEP304 Project Component**

Basic engineering research, design and development skills are essential for engineers working on projects in the research field or in industry. A complete project will contain a number of development phases, to varying extents, in the areas of feasibility, literature review, specification, design, simulation, implementation and testing. In this unit students will concentrate on at least one of the above aspects of a project. They will get the opportunity to apply themselves to a research/design/development task, and produce a technical report on the progress achieved. This unit requires maturity and knowledge of earlier/concurrent course material and should be done at the end of the course. The project component can be industry or school based.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEP301-2 Project**

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEP301-1 Project**

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**EEP301-1 Project**

Students carry out research or development work on a project in specified areas. This can be done over two semesters.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2

**EEP304 Project Component**

Basic engineering research, design and development skills are essential for engineers working on projects in the research field or in industry. A complete project will contain a number of development phases, to varying extents, in the areas of feasibility, literature review, specification, design, simulation, implementation and testing. In this unit students will concentrate on at least one of the above aspects of a project. They will get the opportunity to apply themselves to a research/design/development task, and produce a technical report on the progress achieved. This unit requires maturity and knowledge of earlier/concurrent course material and should be done at the end of the course. The project component can be industry or school based.

**Credit points:** 12  **Campus:** Gardens Point  **Teaching period:** 2007 SEM-1 and 2007 SEM-2
**EFB202 Business Cycles and Economic Growth**
This unit develops an analytical framework in order to evaluate the macroeconomic performance of the Australian economy and the policy actions taken by government. Key issues addressed include business cycle stabilisation, unemployment, inflation, economic growth, the balance of payments, the Commonwealth budget and national saving.

**Prerequisite(s):** EFB102  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1

**EFB210 Finance 1**
This unit covers the following topics: an introduction to the financial institutional framework; an introduction to debt and equity instruments; financial mathematics applied to the pricing of debt and equity securities; a firm's investment decision including Net Present Value (NPV) and Internal Rate of Return (IRR); introduction to risk and uncertainty using the Capital Asset Pricing Model (CAPM) and Weighted Average Cost of Capital (WACC) concept and risk management.

**Prerequisite(s):** BSB110 and BSB113, or BSB122 or CTB122 completed from sem 2 2004  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1 and 2007 SEM-2  
Incompatible with: EFB206, CTB290

**EFB211 Firms, Markets and Resources**
This unit is concerned with the economic analysis of the decisions and actions of consumers, firms, and governments in modern economies. It develops student understanding of that body of economics that is expressly concerned with the operations of, and inter-relationships between, the individual units of the economy. The unit is designed, not only to foster both clear thinking about the interplay between government, private firms, and consumers, but also to develop the student's ability to apply microeconomic concepts to economic problems that the student has not previously encountered.

**Prerequisite(s):** EFB102  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1

**EFB213 Management Science**
Introduces students to a range of modelling procedures which can be used to assist business in decision making under uncertainty. Constrained optimisation techniques are used to help minimise costs, time and resource use, or maximise profits in areas such as inventory management, resource allocation, queuing theory, and transportation among others. The use of computers allows students to concentrate on the applications of these techniques and their interpretation, and to recognise the strengths and weaknesses of these models. Topics covered include Linear Programming, Transport Analysis, Project Management and Scheduling, Inventory Analysis, Decision Theory, Queuing Theory and Simulation.

**Prerequisite(s):** BSB122  
Credit points: 12  
Contact hours: 3 per week  
Incompatible with: EPB104

**EFB307 Finance 2**
This unit includes the following topics: the financing decision - capital structure, debt versus equity, lease versus debt, term structure versus default structure of interest rates; the dividend decision - dividends versus capital gains, franked versus unfranked income; firm valuation; free cash flow model; evaluation of takeovers; Risk and Return - diversification, the CAPM model, its practical application and its relationship to efficient market hypothesis; introduction to forwards, futures, options, warrants, convertibles and risk management using financial derivatives.

**Prerequisite(s):** EFB210  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-1 and 2007 SEM-2

**EFB308 Finance 3**
This unit includes the following topics: a study of contemporary finance research; CAPM; beta estimation; valuation theory; market efficiency; value at risk; use of finance research tools; anomalies and extension of finance theories. Students are required to complete a research project combining theory and practice. This unit covers many topical areas in contemporary finance research. These include, but are not limited to: asset pricing; beta estimation; market efficiency; value at risk; mutual fund performance; volatility modelling; and the term structure of interest rates. Students are required to complete a research project combining theory and practice.

**Prerequisite(s):** EFB307  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

**EFB309 Financial Derivatives**
This unit extends students' knowledge of financial derivatives as obtained in Finance 2. Topics include: advanced option pricing models; advanced option trading strategies; exotic options; forward and futures pricing models; hedging commodities and equities by using futures; forward rate agreement and interest rate swaps; financial risk management issues.

**Prerequisite(s):** EFB307  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

**EFB310 Financial Institutions - Control**
This unit introduces students to the fundamental principles of controlling the risk profile and capital position of a deposit-taking financial institution to maintain solvency. The basic framework of the unit is based on the regulatory capital adequacy regimes, supplemented by consideration of the more sophisticated internal models of risk developed by financial institutions themselves. Relevant case studies demonstrate the imperative for, and application of, the risk management framework.

**Prerequisite(s):** EFB206 or EFB210  
Credit points: 12  
Contact hours: 3 per week  
Campus: Gardens Point  
Teaching period: 2007 SEM-2

**EFB311 Financial Institutions - Lending**
This unit examines the fundamental motivations for lending by financial institutions, and the ways in which these are reflected in loan market practice. Specific topics cover the theoretical basis of lending as financial intermediation, the
purpose and utilization of loans by borrowers, the major
costs of lending for financial intermediaries (including a
strong focus on credit costs), lenders' compensation,
period: 2007 SEM-1
Teaching
EFB210 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-1
EFB312 International Finance
This unit examines the theory and practice of international
finance, including the mechanics and uses of the spot,
forward, swap, futures and options markets in foreign
exchange; the relationship between domestic and
international capital markets; interest rate and exchange
rate determination; risk management of foreign exchange;
international trade finance; evaluation of offshore
investment.
Prerequisite(s): EFB206 or EFB210 Credit points: 12
Contact hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-1 and 2007 SEM-2
Incompatible with: EFB212, IBB202
EFB314 International Trade and Economic Competitiveness
The unit analyses the increasing globalisation of world trade
and investment, and develops an analytical framework to
assess the impact of these flows on the Australian
economy, its businesses, people and policy makers. It
examines the patterns of trade and capital flow.
Prerequisite(s): EFB211 & EFB202 Credit points: 12
Contact hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-2 Incompatible with: EFB212
EFB318 Portfolio and Security Analysis
This unit addresses the following topics: management of
investment portfolios; diversification; performance
management; risk management; advanced asset pricing
models; equity valuation strategies and fixed interest risk
analysis.
Prerequisite(s): EFB307 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-1
EFB324 Macroeconomics and Global Financial Markets
The unit provides an in-depth understanding of the interplay
between macroeconomic policies and global financial
markets. Macroeconomic frameworks adopted in this unit
are practically oriented and much of the material with which
they deal is drawn from relevant events of recent decades.
The unit discusses various analytical tools and policy
approaches to the macroeconomy as they affect both
developed and developing countries. Particular emphasis is
given to how a good knowledge of macroeconomics helps in
understanding international financial market developments
and also, to some extent, how fluctuations in such markets
can have serious implications for macroeconomic conditions
and economic policy.
Prerequisite(s): EFB202 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-1
EFB325 Financial Microeconomics
This unit addresses the theoretical microeconomic
foundations of financial economics, focusing on how
individuals and firms deal with uncertainty and situations
involving strategic interactions. The theoretical concepts are
illustrated with application from both the private and public
sector. Contents include game theory and its economic
applications, expected utility theory, risk analysis,
intertemporal preferences, cost of capital, demand for
capital, and asymmetric information.
Prerequisite(s): EFB211 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-2
EFB326 Applied Portfolio Management
This unit introduces the student to the treasury environment
in which financial institutions operate. The key to the unit is
the raising of funds and the management of interest rate
risk. This unique hands-on unit allows students to develop
these skills by trading in a simulated environment of
international economic uncertainty. Students have trading
parameters within which they should operate. Students
must make decisions concerning source of funds, term and
duration, interest rate re-set, and risk management with
derivatives. Trading will be conducted over a simulated four
quarter year.
Prerequisite(s): EFB210 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-2
EFB328 Public Economics and Finance
The major topics/areas covered in this unit include
principles underlying government provision, distribution and
finance as responses to market failure, externalities and
government intervention in the presence of externalities and
economics of pollution control Cost benefit analysis and the
environment are also dealt with under this section. In the
next section we provide an introduction to taxation and then
we discuss tax compliance and reform of the tax system.
Under education the unit will cover the following: Market
failure and government failure in education, financing of
education and education outcomes, consumer choice in
education and economic analysis of current directions in
education reform. Under health the unit will cover topics
such as demand for health, health sector targets and
instruments of public policy, health care financing and
outputs in Australia and problems of information in the
health sector.
Prerequisite(s): EFB211 Credit points: 12 Contact
hours: 3 per week Campus: Gardens Point Teaching
period: 2007 SEM-2
EFB329 Contemporary Applications of Economics Theory
This capstone unit reinforces and extends the economic
time introduced to students in the major, and applies it to
a number of topical issues that lend themselves to critical
analysis using economic principles. Both macroeconomic
and microeconomic theories are used with the emphasis
placed on usefulness of the theory in development of a
framework which assists with decision-making and informs
critiques of public policy. Some of the perspectives taken in
studying these topics will include: their impacts on efficiency and on specific economic agents and institutions; the role, if any, of government in their resolution; and the economic instruments available to analysts by which to frame their detailed consideration.

Prerequisite(s): 192 credit points of study, including EFB202 and EFB211
