General
If you're interested in a career in the fashion industry, maximise your career options by adding studies in business. This course consists of 16 creative industries units, where you will major in fashion, and 16 business units. The program is integrated so that you will study both creative industries and business units in each semester. You will gain a broad base of business knowledge and choose a business major from accounting, advertising, banking and finance, economics, human resource management, international business, management, marketing or public relations. Your business degree will give you a broad base of commercial knowledge as well as the opportunity to major in a specific business area. This understanding of business makes you more attractive to employers, even if you wish to work predominantly as a fashion designer. You will also develop the entrepreneurial skills necessary to sell your abilities within your chosen industry, and perhaps start your own business.

You develop creative and design skills in fashion with a special emphasis on new technology applications. The course centres on the development of apparel design and production skills in a studio setting. Students progressively apply Computer-Aided Design (CAD) skills to the processes of design during their second year. CAD work includes current and emerging applications in 2D and 3D, customisation, and digital textile printing.

In your final year, you are showcased to industry in the graduation fashion show, and also undertake an industry internship.

Elective studies allow you to develop your work in various directions including textile printing, cross media design applications, fashion journalism and photography.

Career Outcomes
Opportunities in the fashion industry include fashion merchandising and marketing, fashion event management, or becoming a stylist. Options that use your business knowledge more include working behind the scenes in large fashion houses. Depending on your business major, you could help promote, manage or balance the books.

Professional Recognition
Depending on your choice of business major, you may be eligible for professional recognition. Please refer to the Faculty of Business prospectus for details on your intended business major.

Course Design
This course is made up of 384 credit points. Each component (i.e. Business and Fashion) comprises 192 credit points.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a

Overview
This four year professional course links Journalism with business studies and is the choice of about one-third of commencing journalism students. In addition to the all-media journalism subjects, students cover a broad range of business subjects.

Career Outcomes
Graduates may find employment as Accountants, Advertising Professionals, Banking and Finance Consultants, Economists, Human Resource Managers, International Business Specialists, Managers, Marketing Officers, Public Relations Officers. Journalism graduates are prepared for careers in both print and broadcast journalism, and opportunities also exist to become press secretaries and media officers.

Professional Recognition
*Accountancy: CPA Australia (associate membership & enrolment in the CPA Program), Institute of Chartered Accountants in Australia (ICAA)(enrolment in the CA Program).
*Advertising - Advertising Federation of Australia, Australian Association of National Advertisers, Australian Direct Marketing Association and the Queensland Commercial Radio Association;
*Banking and Finance: Australasian Institute of Banking and Finance (AIBF).
*Economics: Economic Society of Australia (Queensland Division).
*Human Resource Management - Australian Human Resources Institute, Australian Institute of Training and Development, Australian Institute of Management;
*International Business - Australian Institute of Export;
*Management - Australian Institute of Management;
*Public Relations - Public Relations Institute of Australia.
* Some may depend on units completed.

The Journalism degree is recognised by the Australian Journalists Association section of the Media Entertainment and Arts Alliance.

Course Design
This course is made up of 384 credit points. Each component (i.e. Business and Journalism) comprises 192 credit points.

The Business component is made up of 96 credit points of Faculty core units and 96 credit points of units from a Business major.

The Business majors are accountancy, advertising, banking and finance, economics, electronic business, human resource management, international business, management, marketing, public relations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Find out more on deferment.

This double degree enables students to complete the requirements of two separate degrees in four years. Students complete a multidisciplinary arts major in one of the following fields: international and global studies; society and change; ethics and human rights; community studies; or Australian studies. Students also complete a Creative Industries major in; creative writing, drama, dance, interdisciplinary studies, media and communication, music, television, or visual arts.

**OP Guarantee**

The OP Guarantee does not apply to this course.

**Additional Entry Requirements (for the majors below)**

In addition to meeting the cut-off applicants who wish to study one of the following Creative Industries majors below must also pass the additional entry requirement listed below. Further information will be available in July via addentry.qut.com or by phoning 07 3138 8114. A $33 service fee applies for each of the Creative Industries majors below. Applicants applying for more than one course in the same area are required to pay only one service fee of $33. Closing dates are listed below.

**Dance:** lodge required materials with QUT by 30 August 2007 and pass the audition. Auditions and interviews will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, Townsville and Rockhampton. Confirmation of dates and venues will be posted after applications close.

**Music:** lodge required materials with QUT by 19 October 2007 and pass the audition.

**Visual Arts:** lodge required materials with QUT by 19 October 2007 and pass the portfolio.

**Career Outcomes**

This double degree will prepare you as a multi-skilled professional for careers in international affairs, government, public policy and community development. With your interdisciplinary knowledge, creativity and practical skills, you will also be prepared for careers in media and cultural policy development, film and video activities, the music industry, visual design and publishing, business major.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Domestic student tuition fee (Dfee) places**

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Course description
This double degree enables students to complete the requirements of two separate degrees in four years. The Human Services course provides the essential knowledge, values, ethics and skills for professional practice in human services and includes supervised professional placements. In the Creative Industries course, students major in drama or interdisciplinary studies.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
This double degree prepares you as a multi-skilled professional for careers in child safety and a range of welfare and community services. In particular you will have a set of skills which will be suitable for areas which combine human services and creative skills, for example, community development and cultural services, and youth arts.

Professional Recognition
Graduates are entitled to apply for membership of the Australian Association of Welfare and Community Workers.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.
Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
Working With Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.
Find out more on Dfee.

Bachelor of Creative Industries (Media and Communication)/Bachelor of Health Science (Nutrition) (IX50)

Why choose this course?
Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication
The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Nutrition
The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

The course has innovative and integrated industry placement options for practicum experience.

Career Outcomes
Graduates of the double degree may work as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication
Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Nutrition
Graduates work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership
Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.
Further Information
For more information about this course, please contact the Faculty of Creative Industries phone 07 3864 8114 or email creativeindustries@qut.com or the School of Public Health Student Centre on (07) 3864 3368 email sph.studentcentre@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

### Overview

This exciting new double degree will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. This degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people’s health and their lives. The course has innovative and integrated industry placement options for practicum experience.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population’s health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

### Why choose this course?

Overview
The real world of advertising involves strategy, planning and creativity. If you are looking to freshen up your skills or to move into advertising, a unique suite of programs offered by the Creative Industries and Business faculties provides you with an opportunity to do both.

Creative Advertising
This course provides the opportunity for students to develop skills in copywriting, art direction, creative campaign production, and production management. These skills will be applied across print media, television, radio, direct mail and the Internet.

The program has a strong applied component, and students will develop a portfolio of creative material, while working to meet the needs of real-world clients through major projects and internships at the masters level. Students can use electives in the masters program to develop a sub-major in interaction design, television, music and sound, art direction or copywriting.

Entry Requirements
A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate, with the possibility of articulation into the Masters degree if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

General
This course provides both practical skills and contextual understanding of the rapidly growing media and communication industries, preparing graduates for employment in these fields as they are transformed by digital media development, globalisation and convergence. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including local and international media industries, media audiences, professional communication, new media technologies, and online communications. They also acquire media production skills in print and online media formats, and can complement their degree with a major or minor study sequence in communication design, film and TV production, or writing for electronic media in various formats, including creative and professional writing and journalism.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Career Opportunities
Graduates work as advertising professionals, communication managers, media and cultural policy developers for government and community organisations, information officers, Internet professionals, media buyers and planners, media marketers, media industry specialists, teachers and researchers, and print and online publishing professionals. The Media and Communication course has innovative and intergrated industry placement options, and students have been placed at media and communication organisations such as the Australian Broadcasting Authority, AC Neilson, Starcom Worldwide, Briz 31, Online Opinion, OMD Australia, and as media and communication specialists in a variety of other organisations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

Creative Industries Core Units
KKB007 Introduction to Multimedia Technology
KKB008 Narrative in the Creative Industries

General
This practice-based three year degree provides rigorous training for a performance career in dance. The course covers a range of dance styles including ballet, contemporary, jazz, tap, character and world dance as well as performance and choreographic skill development. Students are showcased to the public and dance industry through a program of main-stage productions featuring predominantly new work by leading Australian choreographers, in addition to student seasons of choreographic work. Contextual study areas cover dance history, analysis, kinesiology, alignment and technological dance applications as well as a choice of interdisciplinary electives and core units from the Creative Industries. Project units provide opportunities for industry placements and dance-based collaborative work.

Career Opportunities
Graduates work as performers in national and international dance companies and in independent practice, as choreographers, studio teachers, and secure commercial work in musicals and casino shows.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places

General
This three-year professional course offers various career paths catering for applied and/or creative pursuits such as choreography, dance research, community dance practice, criticism, administration and business management, marketing, teaching skills for private practice and the leisure/health market. The 12-unit dance suite is complemented by a range of electives to enable multi-skilling, combining theory with practice, and business with dance.

Course Structure
A balance of theory and practice, this course can be tailor-made to suit the interests of the student. Between 12 and 16 of the 24 units can be taken in dance in a range of combinations. The remaining units include core faculty units together with combinations of electives, minors, submajor or full major in one or more areas, either within or outside the Creative Industries Faculty. Some pathways which students have chosen to date are combining dance with business for careers in arts management and marketing; dance and media including working with new technologies; dance and visual arts, drama or music; performance and choreography for community or corporate settings; teaching in community settings and private studios; artists in schools projects; the leisure/health industries.

Special Entry Requirements
Applicants will be selected on the basis of their audition and previous academic achievement. Applicants must obtain a Dance Applicant Information Guide from www.qtacforms.qut.com or by phoning (07) 3864 5998 and lodge required material with QUT by Friday 26 August 2005. Applications can be submitted online. A $33 service fee applies; applicants applying for more than one Dance course are required to pay only one service fee.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October. Confirmation dates and venues will be posted to registrants after applications close.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Opportunities
Graduates work as choreographers, dance teachers, community-based artists, movement specialists in the health/leisure industries, or in dance research, health programs, and dance administration.

Deferment
QUT's deferment policy does not apply to this course.

Overview
For dance teachers with a relevant undergraduate qualification and/or significant experience in dance, this course involves extended studies requiring research into dance teaching in its broader social context. The aim of the postgraduate program is to produce graduates who are critically reflective practitioners of dance teaching. Postgraduate students complete extended and advanced studies in each unit.

Entry Requirements
A bachelor degree in dance or a dance-related field with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants for the Graduate Certificate or Diploma must also have at least one year's dance teaching experience.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, with a diploma from TAFE or an appropriate non-university private provider, with significant performance experience and at least one year's dance teaching experience or significant and demonstrable reputation as a dance teacher in a leadership position may be required to enrol in the Graduate Certificate, with the possibility of articulation into a Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

In addition to the above requirements applicants for admission to the Masters course must also have an advanced knowledge and skill in one or more genres of dance and at least five years of experience in dance teaching.

Entry into the postgraduate program is subject to the approval of the subject area coordinator.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Course Structure
Graduate Diploma students need to complete all eight units.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

General
Sound Design incorporates music, moving images, and online and immersive environments. It is applied in recording, sequencing, generative and composition techniques, sound for animation, contemporary digital sound environments and immersive soundscape design. Sound designers are in great demand around the world for movies, computer games, AV installations, and events. This course prepares students for practice in the creative industries and includes pathways to Honours and postgraduate degrees.

Career Opportunities
Sound design: sound design for film and television, web applications, games and exhibition.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed all or their student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Special entry requirements
Applicants will be selected on the basis of their folio and previous academic achievement. Applicants must obtain an Animation Application Guide from the web at qtacforms.qut.com or by phoning 07 3864 8115 and lodge required material with QUT by 21 October 2005. A $33 service fee applies.

Overview
The Bachelor of Fine Arts (Animation) is a new three-year full time degree course. It is designed to meet the technical, creative, and conceptual development needs of the animation and 3D computer graphics industry. Students receive an introduction to aspects of communication design and focus intensively on animation practices for an evolving animation industry.

The course has strong industry connections, with industry professionals and leading academics in the field delivering many of the specialised animation units. Connections are maximised with the Creative Industries Research and Applications Centre (CIRAC) and the Australasian Centre for Interaction Design (ACID) to ensure students benefit from research and project opportunities.

Such degree courses have had long-standing success in America, Canada and Europe and are strongly supported by the animation industry.

Career Opportunities
Graduates can be employed in visual effects, advertising, directing, animation for film and television and real-time games.

Deferment
QUT's deferment policy does not apply to this course.

General
This professional course provides students with an interdisciplinary pathway to vocations in the creative industries. Students are introduced to the principles and practices of Communication Design by developing skills in critical analysis, design, writing and information technology. Students study a range of core subjects and then map their sub major pathways through the degree by choosing from areas of study within the faculty.

These pathways are augmented by project driven studies and industry placements. Graduates are well positioned to work in interdisciplinary environments providing expertise in areas developed through their sub major.

This course prepares students for practice in the creative industries in the field of their choice within the context of Communication Design. It includes pathways to Honours and postgraduate degrees.

Deferment
From 2006, QUT will allow Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Career Opportunities
Graduates work in animation, web site design, interactive media, web applications, production, sound design and interaction design in the fields of theatre, dance, journalism, education and other disciplines.

IMPORTANT NOTICE

This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

Overview
These programs are offered to students from both cognate and non-cognate fields of study. The courses are targeted at mid-career professionals and those wishing to convert existing knowledge through engagement with new media theories and practices. The program has been developed to integrate knowledge in six main categories of learning, through an integrated studio-based teaching model. A studio-based approach to teaching and learning encourages a community of learners to interact cooperatively to solve problems. It is an immersive approach to learning where open problems are visited iteratively. The studio units in this degree are designed to provide opportunities for the practical application of the knowledge and skills derived from the other core and elective units. These learning categories constitute the core knowledge of the field of communication design:
* situation of new media theories and practices in society
* new media technologies as skills-based knowledge
* information architecture
* interdisciplinarity
* new media design development processes
* interaction.

This knowledge situates the graduate within the creative industries by providing opportunities to explore interdisciplinary practice through theory, practice and production.

Entry requirements
A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate, with the possibility of articulation into the Masters degree if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

Advanced standing for prior study and/or professional experience is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points. Students seeking articulation to the Masters must successfully complete the Graduate Certificate with a grade point average of 4.5 or above.

Total credit points: 96
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Terry Flew
Discipline coordinator: Associate Professor Michael Docherty
Campus: Kelvin Grove

Entry Requirements
A Bachelor degree from a recognised university with a GPA of 5.0 or higher; OR
Professional standing and successful professional practice relevant to digital media approved by the Course Coordinator and Dean of Faculty.

It is assumed all applicants have prior experience using Windows and/or Macintosh operating systems, Wordprocessing applications eg MS Word or WordPerfect, email and the Web. If applicants do not have such experience, it will be strongly recommended that they undertake an introductory computer literacy program before making an application.

Overview
The programs will provide you with an understanding of digital media technologies from industry, policy, cultural, historical and social perspectives, applied in practical projects. Units will deal with the technology and the content delivered by all forms of digital media, with specific focus on interactive multimedia and computer animation. Thus you will become conversant with online media, information storage/distribution and retrieval using computer networks (the Internet), as well as the use of digital formats and technologies by the print and broadcast media and cinema. You will obtain not only workplace skills but also lifelong learning strategies. Through these you will become critically aware of the impacts of digital media, and the social, legal and ethical issues arising from their research, development, application/use and convergence at local, regional, national and international levels.

General
This course offers core units in the creative industries and journalism including news writing, feature writing, digital media production, online journalism, journalism ethics and issues, international journalism, sub-editing and layout, radio and television journalism, media legal issues and public affairs reporting. Students can gain professional media practice through industry placements and internships. They may participate in international reporting trips and can opt to have a journalism career mentor in their final year.

Why Choose this Course?
The QUT Journalism course offers greater opportunities for broadcast experience. Practical work commences in the first semester, and to prepare you for the digital age, you will have access to dedicated newsrooms, radio studio, production office, TV studio, editing suites, and other technical facilities. You can see and hear the work of our Journalism students in QUT News bulletins on Briz31 and radio 4EB.

Career Outcomes
Graduates work as journalists for newspapers, magazines, television, radio, and online publications, as well as in public relations, media management and corporate communications.

Scholarships
Radio station 4EB and QUT offer a one-year scholarship valued at $5000 to cover your student contribution to a Commonwealth Supported Place. The successful journalism applicant should have at least one parent born outside of Australia. Please visit creativeindustries.qut.com for more information.

Professional Recognition
QUT Journalism degrees are recognised by the Australian Journalists’ Association section of the Media, Entertainment and Arts Alliance.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

General
The Bachelor of Creative Industries (Interdisciplinary) degree is a direct response to industry demand for graduates with expertise across several creative industries discipline areas. The creative industries have at their heart the convergence of design, media, information and communication technologies, and the creative arts. Bachelor of Creative Industries (Interdisciplinary) graduates will be at the forefront of entrepreneurial, cultural and creative developments. They will generate diverse content for the on-line environment, organise interdisciplinary projects as well as sophisticated communications systems, and facilitate and participate in visual and performance arts, multimedia and communications productions in the real world and in virtual environments.

Caboolture campus
The Caboolture campus offers the first year of the major only. Students who complete their first year at Carseldine then transfer to Kelvin Grove campus for the remainder of the course.

For international students, this course is only offered on Kelvin Grove campus.

Credit/advanced standing will not be granted for Caboolture students; excluding START QUT studies. To receive credit applicants must apply for the Kelvin Grove offering.

See course structures for Caboolture Only.

Career Opportunities
Graduates will be sought after for their interdisciplinary knowledge, creativity and practical skills across a range of industries including media and communications, creative and performing arts and popular culture. Opportunities exist in advertising, entertainment and leisure, indigenous cultural production, library and archival activities, film and video activities, multimedia, museums and historic sites, performance and production management, publishing, radio and television activities, software consultancy and supply, tourism and theme parks.

Course Structure
In order to complete this course, students must undertake 4 Faculty Core Units (selecting from core studies in Creative Industries covering Narrative in the Creative Industries, Creative Industries, Cultures and Creativity, Writing for Creative Industries and Introduction to Multimedia) and by following either:

Structure One:
4 Creative Industries Core Units
3 Submajors (6 units each)
2 Electives
or
Structure Two:
4 Creative Industries Core Units
2 Submajors (6 units each)
1 Minor (4 units)
4 Electives
or
Structure Three:
4 Creative Industries Core Units
2 Submajors (6 units each)
2 Minors (4 units each)
No elective units

Performance Studies

Students may complement their studies with units from another QUT Faculty including Business, Information Technology, Science, Law, Health, Built Environment and...
Engineering, Education and Social Science. Please note that submajors in Entrepreneurship, Advertising and Public Relations are available through the Faculty of Business. In their final year Bachelor of Creative Industries students will have the opportunity to engage in internships, industry placements and practical projects in order to prepare themselves for entry-level positions in their chosen career.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

General
This course provides students with an interdisciplinary pathway to vocations in the creative industries. Students are introduced to the principles and practices of communication design by developing skills in critical analysis, design, writing and information technology.

Career Opportunities
This course prepares students for practice in the creative industries in the field of their choice within the context of Communication Design.

Graduates can work in animation, website design, interactive media, Web applications, production, sound design and interaction design in the fields of theatre, dance, journalism, education and other disciplines.

Course Design
Students study core submects and sub-major pathways that are augmented by project driven studies and industry placements.

In order to complete this program, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to your major and eight electives.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

General
This course prepares students to work in creative writing in a range of vocational applications. Subjects covered include fiction, electronic and feature writing, film and TV scriptwriting, non-fiction and youth writing, as well as corporate writing and publishing at both introductory and advanced levels.

Career Opportunities
Communication competence is a fundamental skill sought by all employers. Graduates can work as creative or professional writers and editors in corporate, commercial, community and freelance capacities. Recent graduates have been contracted to write crisis management scenarios for major corporations, while others are working for magazines and other print media, or in local government.

Course Design
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

General
This three-year professional course offers various career paths catering for applied and/or creative pursuits such as choreography, dance research, community dance practice, criticism, administration and business management, marketing, teaching skills for private practice and the leisure/health market. The 12-unit dance suite is complemented by a range of electives to enable multi-skilling, combining theory with practice and business with dance. This course offers flexibility and various pathways for those students who wish to work in dance-related areas and maintain their passion for dance. A balance of theory and practice, this course can be tailor-made to suit the interests of the student.

Career Opportunities
Graduates can work as choreographers, dance teachers, community-based artists, movement specialists in the health/leisure industries, or in dance research, health programs and dance administration.

Course Structure  
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.  
General  
This three-year professional course provides students with the opportunity to develop skills and theoretical understanding in all areas of performance practice. Students study core units in creative industries and areas of drama including theatre history, studies in acting and directing, technical theatre, arts events promotion and public relations, and performance technology.  
The course encourages interdisciplinary collaborative teams, exploring new performance forms and using new performance technologies.  
In final year students have the opportunity for professional industry placements, and are encouraged to build creative partnerships and networks to ensure they are strong contenders for employment.  
Deferment  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.  
Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.  
Find out more on deferment.  
Career Opportunities  
Graduates work as directors, performers, producers, playwrights, dramaturgs, arts administrators, community artists, youth arts workers and in theatre criticism and the development of innovative performing arts practice. This degree is a springboard into Honours and postgraduate studies in Drama theory, education, community service and artistic practice.  
Domestic student tuition fee (Dfee) places  
Undergraduate domestic full fee places (Dfee) are available in this course.

General
The Bachelor of Creative Industries (Interdisciplinary) degree is a direct response to industry demand for graduates with expertise across several creative industries discipline areas. The creative industries have at their heart the convergence of design, media, information and communication technologies, and the creative arts. Bachelor of Creative Industries (Interdisciplinary) graduates will be at the forefront of entrepreneurial, cultural and creative developments. They will generate diverse content for the on-line environment, organise interdisciplinary projects as well as sophisticated communications systems, and facilitate and participate in visual and performance arts, multimedia and communications productions in the real world and in virtual environments.

Caboolture campus
The Caboolture campus offers the first year of the major only. Students who complete their first year at Caboolture then transfer to Kelvin Grove campus for the remainder of the course.

For international students, this course is only offered on Kelvin Grove campus.

Credit/advanced standing will not be granted for Caboolture students; excluding START QUT studies. To receive credit applicants must apply for the Kelvin Grove offering.

See course structures for Caboolture Only.

Career Opportunities
Graduates will be sought after for their interdisciplinary knowledge, creativity and practical skills across a range of industries including media and communications, creative and performing arts and popular culture. Opportunities exist in advertising, entertainment and leisure, indigenous cultural production, library and archival activities, film and video activities, multimedia, museums and historic sites, performance and production management, publishing, radio and television activities, software consultancy and supply, tourism and theme parks.

Course Structure
In order to complete this course, students must undertake 4 Faculty Core Units (selecting from core studies in Creative Industries covering Narrative in the Creative Industries, Creative Industries, Cultures and Creativity, Writing for Creative Industries and Introduction to Multimedia Technology) and by following either:

Structure One:

Students may complement their studies with units from another QUT Faculty including Business, Information Technology, Science, Law, Health, Built Environment and Engineering, Education and Social Science. Please note that submajors in Entrepreneurship, Advertising and Public Relations are available through the Faculty of Business. In their final year Bachelor of Creative Industries students will have the opportunity to engage in internships, industry placements and practical projects in order to prepare themselves for entry-level positions in their chosen career.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

General
This course provides both practical skills and contextual understanding of the rapidly growing media and communication industries, preparing graduates for employment in these fields as they are transformed by digital media development, globalisation and convergence. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including local and international media industries, media audiences, professional communication, new media technologies, and online communications. They also acquire media production skills in print and online media formats, and can complement their degree with a major or minor study sequence in communication design, film and TV production, or writing for electronic media in various formats, including creative and professional writing and journalism.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Career Opportunities
Graduates work as advertising professionals, communication managers, media and cultural policy developers for government and community organisations, information officers, Internet professionals, media buyers and planners, media marketers, media industry specialists, teachers and researchers, and print and online publishing professionals. The Media and Communication course has innovative and integrated industry placement options, and students have been placed at media and communication organisations such as the Australian Broadcasting Authority, AC Neilsen, Starcom Worldwide, Briz 31, Online Opinion, OMD Australia, and as media and communication specialists in a variety of other organisations.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Course overview
Television is one of the most powerful media the world has known. This professional degree prepares students for work across the televisual sector. Graduates will understand television as an international industry, as a pre-eminent social medium, and as a site for creative and flexible employment.

The units will focus on 'doing' television (management and planning), 'making' television (content capture and delivery), and 'talking' television (national and international cultures, organisations, and regulatory regimes).

Areas of study include scriptwriting, production, distribution, television commercials and formats, audience research, and the social impact of television. Students will also have the opportunity to undertake internships, industry placements, and practical projects.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Career Outcomes
Graduate opportunities within the television industry exist in programming, production, publicity and promotions, as well as specialist work in audience and market research, policy and regulation, including media law.

Innovative practitioners with business and project management skills can take advantage of rapidly convergent technologies to design television applications in the new interactive media environment, from interactive webcams to large scale commercial broadcasting.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Course Structure
In order to complete the course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the chosen major and eight electives.

General
This three-year professional course prepares students to work in Visual Arts in a range of vocational applications. In addition to 12 units of Visual Arts study students may take a further eight units in a complementary creative industries discipline focused on a professional outcome such as creative writing, journalism, arts management, communication design, or studies from other faculties.

Subjects covered include creative industries core units, interdisciplinary studio art practice, art theory, visual arts of Asia, Australian Indigenous Art plus a choice of elective units in Painting, Sculpture, Ceramics, Printmaking, Drawing, Photography and Electronic Media.

Career Opportunities
Graduates work as professional visualisation practitioners in a number of fields including creative directors, visual consultants, photomedia artists in public and community arts, as visual designers, cartoonists, illustrators, curators, gallery and museum assistants and small business providers.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

International Entry Requirements
Applications and portoflios for international students are accepted throughout the year. Please refer to the Creative Industries international entry requirements for further information.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and interview. The final date to register for an audition and submit additional materials to QUT was 20 October 2006. Late registrations and submission of materials will not be accepted.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, and a maximum of 18 discipline or specified units relating to the chosen major and a minimum of 4 electives.

General
This three-year conservatorium degree program is designed for students seeking to become professional actors. Students study core units in creative industries and a prescribed sequence of specialist studio-based units, developing the actor's process as it applies to stage, film and television. Practical performance experience is gained through performance work for stage and screen through mainstage and intensive studio seasons within QUT and with approved professional organisations.

Career Opportunities
Acting graduates have been successful signing with national talent and casting agents, and securing roles in national theatre seasons, television series and feature films.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

The OP Guarantee does not apply to this course.

Course Structure
In order to complete the course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of 4 electives.

General
This practice-based three year program is designed specifically for talented students seeking to become practitioner-artists in creative writing. Students develop their ability to write a sustained work of publishable quality in a genre selected by the student; to self-edit and edit the work of others for electronic and print journals; to write confidently at a high standard in a variety of professional writing forms and genres including fiction, scriptwriting, creative non-fiction, childrens and young adult fiction, reviewing, essay, interactive narrative and poetry, and to gain a working knowledge of the publishing industry. Opportunities exist for professional experience and placement during the final project unit, as well as opportunities to perform at public readings and festivals and to develop professional networks.

Career Opportunities
Graduates work as writers, editors and publishers in both the print and electronic media, in the public service and corporate sectors, and in teaching.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 1 September 2006. Late registrations and submission of materials will not be accepted.

Course Structure
In order to complete the course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October. Confirmation dates and venues will be posted to registrants after registrations close.

General
This practice-based three year degree provides rigorous training for a performance career in dance. The course covers a range of dance styles including ballet, contemporary, jazz, tap, character and world dance as well as performance and choreographic skill development. Students are showcased to the public and dance industry through a program of main-stage productions featuring predominantly new work by leading Australian choreographers, in addition to student seasons of choreographic work. Contextual study areas cover dance history, analysis, kinesiology, alignment and technological dance applications as well as a choice of interdisciplinary electives and core units from the Creative Industries. Project units provide opportunities for industry placements and dance-based collaborative work.

Career Opportunities
Graduates work as performers in national and international dance companies and in independent practice, as choreographers, studio teachers, and secure commercial work in musicals and casino shows.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

OP Guarantee
The OP Guarantee does not apply to this course.

General
Students develop creative and design skills in fashion with a special emphasis on new technology applications. The course centres on the development of apparel design and production skills in a studio setting. Students progressively apply Computer-Aided Design (CAD) skills to the processes of design during their second year. CAD work includes current and emerging applications in 2D and 3D, customisation, and digital textile printing. Drawing and textile studies support studio work.

In their final year, students are showcased to industry in the graduation fashion show, and also undertake an industry internship and a business-planning project.

Complementary studies include contemporary history and theory in design, and business studies in new ventures or marketing.

Elective studies allow students to develop their work in various directions including textile printing, cross media design applications, enterprise skills, marketing and retail, fashion journalism and photography.

Course Structure

In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Career Opportunities

Graduates will become independent designers, be involved in fashion merchandising and marketing, or work as fashion event managers and stylists. They will adopt the new technologies in textile design, or exploit emerging opportunities for fashion design in cross media contexts.

Deferment

QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places

Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

General
This production-driven three-year program is designed for students seeking to become leaders in creative practice in the film, television and new media industries. A concentration in Production allows students to specialise in producing, directing, scriptwriting, cinematography, editing or sound. Specialisation in Writing for the Screen enables students who want to become screenwriters/directors or screenwriters/producers to take a concentration in specialist creative writing units, while the Multimedia concentration allows students to balance production with communication design for multimedia production. In all cases students have the opportunity to be part of the creative process with advanced classes conducted in dedicated production studios. Final year work is showcased to the industry at two public screenings per year.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Career Opportunities
Graduates work in film, television, and multimedia as cinematographers, sound operators, editors, directors, screenwriters and producers. They also work in the production and use of multimedia audio and video materials for advertising, public relations, marketing or personnel training.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
This studio-based three-year program prepares students for work in advanced studio and creative practice through both its studio and intermedia pathways.

The Studio Arts concentration encourages students to explore independent approaches to art practice in painting, drawing, sculpture, installation and photomedia, while the Intermedia Arts concentration is an interdisciplinary sequence of Visual Arts, Music Technology and Communication Design units that allow students to focus on new media, computer art, installation design and sound and video environments for a global audience.

All students study core units and produce their own work in studio practice units. This work is exhibited throughout the course as well as at a major graduation industry showcase event.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major, and a minimum of four electives.

Career Outcomes
Graduates can work as creative directors, visual designers, community artists, independent practitioners, curators and museum assistants.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
As an established dance professional, you will gain advanced understanding and skills to contribute significantly to dance development and practice through a project-based program supported by coursework. This program will extend, diversify and intensify your practice in a professional context. The Master of Fine Arts in Dance is available in creative practice and/or performance. You are able to negotiate individual, flexible study modes, which includes a summer semester allowing you to complete the program in one year. Interdisciplinary projects and those involving the use of technology are encouraged.

Entry Requirements
A bachelor degree in dance and/or relevant professional dance experience.

Applicants are required to submit a video/DVD of their choreography/performance work and a one-page proposal outlining the focus of their study.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

* It is advised that Dance students choose KKP601 Approaches to Enquiry in the Creative Industries as one of their elective units within their first semester of study. MFA in Dance is available in creative practice and/or performance. Dance applicants are required to submit a one-page proposal outlining the focus of their study together with a video or DVD of their work to the Dance Coordinator.

Part-time students should contact the Dance Coordinator to discuss their enrolment program.

Potential Careers:
Dancer.
Doctor of Creative Industries (KK49)

Year offered: 2007
Admissions: Yes
CRICOS code: 046050K
Course duration (full-time): Normal enrolment is 6 semesters - this can vary depending on entry requirements.
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
International Fees (per semester): 2007: $10,000 per semester (subject to annual review)
Domestic Entry: February and July
International Entry: February
Total credit points: 288
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Professor Brad Haseman
Campus: Kelvin Grove

Overview
The Doctor of Creative Industries is designed to engender advanced, critical and systematic reflection at doctoral level on professional and creative practice in any of the creative industries disciplines. This professional doctorate will suit candidates who are seeking to locate their research in and around the workplace, have a focus on improving their practice and who wish to ground their investigations around two or three professional projects.

This coursework doctoral award is best suited to those who wish to develop and refine their:
* Creative practice
* Professional practice
* Creative Enterprise practice
* Teaching practice (especially those teaching in tertiary settings).

If your circumstances change it is possible to exit from the DCI after three semesters with the Master of Creative Industries award.

Entry Requirements
Doctorate applicants should possess a four-year degree or its equivalent with first class honours or second class honours division A or a masters degree in a field relevant to the professional doctorate in creative industries and two years of practice at an advanced level in a position of responsibility in the creative industries or five years of practice at an advanced level in a position of influence in the creative industries with an accompanying portfolio of achievement that demonstrates the applicantÂs capacity to work at a doctoral level.

Applications from outstanding leaders in the creative industries who have not had the opportunity to pursue postgraduate study seek entry to the DCI. Depending on academic qualifications and experience applicants may receive advanced standing into the course and receive credit for up to two semesters of the course.

Applicants to the Master of Creative Industries (KK48) should possess a three-year degree in a field relevant to the professional doctorate in creative industries and two years of practice in a position of responsibility in the creative industries or at least three years of practice at an advanced level in the creative industries with an accompanying portfolio of achievement that demonstrates the applicantÂs capacity to work at a master or doctoral level.

Normally advanced standing will not be granted to applicants to the Master of Creative Industries.

A candidate who wishes to transfer from the Master of Creative Industries to the Doctor of Creative Industries would be able to do so at the completion of Professional Project 1.

Course Structure
The course comprises two components - coursework and professional projects.

Coursework is taken at the beginning of candidature and provides candidates with the essential conceptual tools they need for doctoral level analysis and reflection on their professional practice and related contextual factors. Candidates will design, implement and evaluate a number of professional projects during the period of their candidature. The scale, scope and focus of these projects will be determined in consultation with supervisors.

**Campus:** Kelvin Grove

**Entry Requirements**

Masters applicants seeking entry into the coursework plus research program should possess a three-year bachelor degree or equivalent. For entry into the research-only program, applicants should possess a three-year bachelor degree plus honours, or a three-year bachelor degree plus a recent graduate diploma or equivalent.

**Course Structure**

* ENTRY WITH 3 YEAR QUALIFICATION: (Bachelors degree or equivalent)  
Students normally will undertake 48 credit points of coursework and a 96 credit point research project.

* ENTRY WITH APPROVED 4 YEAR QUALIFICATION: (Bachelors degree plus Honours/Graduate Diploma or equivalent)  
Students will not normally undertake coursework units, unless otherwise recommended by the Discipline Coordinator. They will be required to undertake a 96 credit point research project or thesis.

With approval from the relevant Discipline Coordinator, instead of undertaking 96 credit points of research, students may enrol in 12 or 24 credit points of course work, and reduce the weighting of their research project to 84 or 72 credit points.

**Research Component**

Depending on the discipline, the research component may be undertaken either as a research thesis of 30,000 words, or as a creative practice-based project with an exegesis or written component (7,500-10,000 words).

Students can undertake:  
* a significant creative work such as a theatrical or musical production  
* a work of fiction or non-fiction  
* a screen-based script or production  
* a multimedia script or production.  

Any project likely to involve University resources must have the support of the appropriate Head of Discipline.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition, interview and submit additional materials to QUT was 1 September 2006. Late registrations and submission of materials will not be accepted.

General
The Bachelor of Music is a contemporary fine arts program designed specifically for those students seeking to become creative leaders in the music industry. Students study a common core of music units plus a sequence of specialist and studio-based units, choosing to focus on one of the following: Digital Media, Composing for Mixed Media, Music Theatre, Songwriter, Recording and Sound, or Performance.

All styles and genres may be studied, however the course focuses on generic music skills relevant to the 21st century, reflecting the demands required of today’s musician. Students are expected to have a high standard in either voice or any music-making instrument. There are frequent public performance and showcasing opportunities.

Students will also be able to access a significant number of studio-based music units through the Bachelor of Fine Arts (Visual Arts) Intermedia Arts course and the Bachelor of Fine Arts (Communication Design) Sound Design course.

Career Opportunities
Graduates work as composers for screen, mixed or digital media, and as producers, music software developers, performers, DJs, mixers and studio teachers across a vast range of styles and genres. This degree is seen as a springboard to Honours and postgraduate studies.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Campus: Kelvin Grove

Overview
This course is aimed at professional performers and composers, music producers, music studio personnel and music educators. It is also valuable for people from other backgrounds wishing to broaden their existing knowledge and skills in music. Coursework will update musical skills and knowledge as well as creative, critical and reflective capabilities which impact upon making/presenting/understanding music. Independent projects will extend professional and commercial practice.

Entry requirements
Entry to the Graduate Certificate or Graduate Diploma requires a bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale) and experience relevant to the music pathway selected by the applicant.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate with the possibility of articulation into the Graduate Diploma if they achieve a grade point average of 4.5 or above in the Graduate Certificate. Applicants will only be permitted to enrol in a Graduate Diploma with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

Masters applicants should possess either a three-year music degree with an overall grade point average of 5 or above (on a 7-point scale) or approved diploma in music from a university or documentary evidence of a successful career as a music industry professional considered equivalent to a three-year degree. Prior to admission, applicants must submit and have approved a project proposal.

Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

General
This production-driven three-year program is designed for students seeking to become leaders in creative practice in the film, television and new media industries. A concentration in Production allows students to specialise in producing, directing, scriptwriting, cinematography, editing or sound. Specialisation in Writing for the Screen enables students who want to become screenwriters/directors or screenwriters/producers to take a concentration in specialist creative writing units, while the Multimedia concentration allows students to balance production with communication design for multimedia production. In all cases students have the opportunity to be part of the creative process with advanced classes conducted in dedicated production studios. Final year work is showcased to the industry at two public screenings per year.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of four electives.

Career Opportunities
Graduates work in film, television, and multimedia as cinematographers, sound operators, editors, directors, screenwriters and producers. They also work in the production and use of multimedia audio and video materials for advertising, public relations, marketing or personnel training.

Deferment
QUT’s deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

OP Guarantee
The OP Guarantee does not apply to this course.

Course overview
Television is one of the most powerful media the world has known. This professional degree prepares students for work across the televisual sector. Graduates will understand television as an international industry, as a pre-eminent social medium, and as a site for creative and flexible employment.

The units will focus on 'doing' television (management and planning), 'making' television (content capture and delivery), and 'talking' television (national and international cultures, organisations, and regulatory regimes).

Areas of study include scriptwriting, production, distribution, television commercials and formats, audience research, and the social impact of television. Students will also have the opportunity to undertake internships, industry placements, and practical projects.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Career Outcomes
Graduate opportunities within the television industry exist in programming, production, publicity and promotions, as well as specialist work in audience and market research, policy and regulation, including media law.

Innovative practitioners with business and project management skills can take advantage of rapidly convergent technologies to design television applications in the new interactive media environment, from interactive webcams to large scale commercial broadcasting.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Structure
In order to complete this course, students must undertake four Creative Industries Core Units, 12 discipline or specified units relating to the major and eight electives.

Additional Entry Requirements
The Drama major within the Bachelor of Creative Industries single degree comprise a range of practical and theoretical studies in theatre, drama and performance, but is not an acting course. While applicants have been required to audition for this course in the past, an audition is no longer considered an appropriate measure of prospective students' suitability for this program. Entry will solely be determined on OP/rank as per QUT admissions policies as published in Real Options.

General
This three-year professional course provides students with the opportunity to develop skills and theoretical understanding in all areas of performance practice. Students study core units in creative industries and areas of drama including theatre history, studies in acting and directing, technical theatre, arts events promotion and public relations, and performance technology.

The course encourages interdisciplinary collaborative teams, exploring new performance forms and using new performance technologies.

In final year students have the opportunity for professional industry placements, and are encouraged to build creative partnerships and networks to ensure they are strong contenders for employment.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Career Opportunities
Graduates work as directors, performers, producers, playwrights, dramaturgs, arts administrators, community artists, youth arts workers and in theatre criticism and the development of innovative performing arts practice. This degree is a springboard into Honours and postgraduate studies in Drama theory, education, community service and artistic practice.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are available in this course.

Find out more on Dfee.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

Campus: Kelvin Grove

Overview
Whether you are an experienced drama educator wanting to renew and refresh your practice or you are new to drama and want to develop your interests in a formal course of study, these flexible programs can cater to your specific needs.

Tailor your course to meet your professional needs either by taking subjects which develop skills in drama, or by selecting subjects which deal with the complexities of teaching drama as part of the new P Â 10 Arts Key Learning Area and Senior Drama syllabus currently being taught in Queensland schools.

From 2005, core units will be available as internal or online modes of study, providing greater flexibility to your study program.

Extend your knowledge of drama in education both as an art form in its own right and as a means of enabling cross-curricular teaching and planning and the current issues transforming both arts education and drama.

As a result of the developing national priority for innovation and excellence in teaching, programs prepare you for the use of new media technologies in the classroom and in creative practice.

These three courses articulate so that successful completion of the Certificate can be upgraded to the Diploma, which can then be upgraded to the Masters. It is also possible to apply for the Masters and then, if your circumstances change, exit after completing 48 or 96 credit points with the Certificate or Diploma.

Entry Requirements
A bachelor degree in a drama-related field with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants should also possess at least one year of professional experience working as a drama teacher in a school or studio setting.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate and will only be permitted to enrol in a Graduate Diploma or a Masters degree with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator, if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

Advanced standing for prior study and/or professional experience is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

IMPORTANT NOTICE
This course has been discontinued. Continuing students should refer to their Course Summary Sheet for enrolment information.

Overview
Whether you are an experienced drama educator or contemporary performance maker wanting to renew and refresh your practice, or you are new to drama and performance and want to develop your interests, this flexible course can cater to your specific needs. Tailor your course to meet your professional needs by taking subjects which develop skills in drama and performance, or by selecting subjects which deal with the complexities of teaching and making drama. Graduates gain employment as teachers in primary and secondary schools, or as performance makers embarking on exciting and innovative projects in their communities. Compulsory units are available in on-campus or online modes of study, providing greater flexibility to your study program. You will extend your knowledge of drama in education as both an art form and as a means of enabling cross-curricular teaching and planning.

Entry Requirements
A bachelor degree in a drama-related field with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants should also possess at least one year of professional experience working as a drama teacher in a school or studio setting.

Applicants without a bachelor degree, with a bachelor degree with a grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, may be required to enrol in the Graduate Certificate and will only be permitted to enrol in a Graduate Diploma or a Masters degree with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator, if they achieve a grade point average of 4.5 or above in the Graduate Certificate.

Advanced Standing
Advanced standing for prior study and/or professional experience is at the discretion of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator. Advanced standing will normally only be granted for Masters-level courses, and will constitute no more than 48 credit points.

IMPORTANT NOTICE
This course has been discontinued. Continuing students should refer to their Course Summary Sheet for enrolment information.

OP Guarantee
The OP Guarantee does not apply to this course.

Overview
This studio-based three-year program prepares students for work in advanced studio and creative practice through both its studio and intermedia pathways.

The Studio Arts concentration encourages students to explore independent approaches to art practice in painting, drawing, sculpture, installation and photomedia, while the Intermedia Arts concentration is an interdisciplinary sequence of Visual Arts, Music Technology and Communication Design units that allow students to focus on new media, computer art, installation design and sound and video environments for a global audience.

All students study core units and produce their own work in studio practice units. This work is exhibited throughout the course as well as at a major graduation industry showcase event.

Course Structure
In order to complete this course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major, and a minimum of four electives.

Career Outcomes
Graduates can work as creative directors, visual designers, community artists, independent practitioners, curators and museum assistants.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 20 October 2006. Late submissions will not be accepted.

OP Guarantee
The OP Guarantee does not apply to this course.

Course Structure
In order to complete the course, students must undertake two Creative Industries Core Units, a maximum of 18 discipline or specified units relating to the chosen major and a minimum of 4 electives.

General
This practice-based three year program is designed specifically for talented students seeking to become practitioner-artists in creative writing. Students develop their ability to write a sustained work of publishable quality in a genre selected by the student; to self-edit and edit the work of others for electronic and print journals; to write confidently at a high standard in a variety of professional writing forms and genres including fiction, scriptwriting, creative non-fiction, childrens and young adult fiction, reviewing, essay, interactive narrative and poetry, and to gain a working knowledge of the publishing industry. Opportunities exist for professional experience and placement during the final project unit, as well as opportunities to perform at public readings and festivals and to develop professional networks.

Career Opportunities
Graduates work as writers, editors and publishers in both the print and electronic media, in the public service and corporate sectors, and in teaching.

Deferment
QUT's deferment policy does not apply to this course.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

General
This three-year professional course prepares students to work in creative writing in a range of vocational applications. Subjects covered include fiction, electronic and feature writing, film and TV scriptwriting, non-fiction and youth writing, as well as corporate writing and publishing at both introductory and advanced levels.

Career Opportunities
Communication competence is a fundamental skill sought by all employers. Graduates work as creative or professional writers in corporate, commercial, community and freelance capacities. Recent graduates have been contracted to write scenarios for crisis management for major corporations, while others are working for magazines and other print media, or in local government.

Deferment
From 2006, QUT will allow Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

IMPORTANT NOTICE
This course code has been discontinued. The new course codes for commencing students are KK33 for Bachelor of Creative Industries courses and KK34 for Bachelor of Fine Arts courses. Continuing students should refer to their Course Summary Sheet for enrolment information.

Overview

The creative writing programs provide you with the skills and knowledge in both freelance writing and vocational areas including publishing, professional writing and editing. Units deliver students a range of skills in major writing forms and genres, with a variety of genres covered, including fiction, creative non-fiction and scriptwriting.

Entry requirements

A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without a bachelor degree, with a bachelor degree with a minimum grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, will only be permitted to enrol with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

International Student Entry

QUT advises that international students may only enrol in full-time studies.

Overview
The creative writing programs provide you with the skills and knowledge in both freelance writing and vocational areas including publishing, professional writing and editing. Units deliver students a range of skills in major writing forms and genres, with a variety of genres covered, including fiction, creative non-fiction and scriptwriting.

Within the Graduate Diploma, students can use their two electives to study further units in creative and professional writing, or in related areas such as literary and cultural studies, or communication design, for example. A maximum of 24 credit points of advanced standing will be granted to applicants on the basis of prior equivalent study.

Entry Requirements
A bachelor degree with an overall grade point average of 4.5 or above (on a 7-point scale). Applicants without a bachelor degree, with a bachelor degree with a minimum grade point average of less than 4.5, or with a diploma from TAFE or an appropriate non-university private provider, will only be permitted to enrol with the approval of the postgraduate coursework degrees coordinator, in consultation with the relevant subject area coordinator.

International Student Entry
QUT advises that international students may only enrol in full-time studies.

OVERVIEW

Based at the Kelvin Grove campus, QUT’s Faculty of Education is a dynamic place for people pursuing a career in education, and for educators seeking to advance their qualifications.

Education has been taught at the Kelvin Grove campus for almost 100 years. Due to this extensive history, QUT’s Faculty of Education is now one of the largest education faculties in Australia with over 5500 students.

The Faculty is composed of more than 200 staff, who are committed to fostering learning for students of all ages and ensuring course content is contemporary and relevant.

The strong, practical theme in the faculty’s courses provides a balance of theory and practical skills that ensures graduates are not limited by the employment opportunities provided by classroom teaching alone.

RESEARCH CENTRE

Centre for Learning Innovation

The Faculty of Education has a strong research culture driven by a commitment to innovation, enhancing educational professional practice and solving real-world issues. The Faculty has implemented cutting-edge innovations in research training, and has attained a critical mass of educational researchers that attract many competitive and contracted research grants. The Doctor of Education, Doctor of Philosophy and Master of Education (Research) courses offer a variety of research options allowing researchers to make an original contribution to their area of expertise.

The Faculty has been extremely successful in securing Australian Research Council (ARC) grants for major research projects as well as many forms of commercial research projects.

Since its interception in 2005, the Centre for Learning Innovation has enthusiastically pursued its goal of becoming a leader in collaborative research with the education professions and a recognised innovator in research education, both nationally and internationally.

Research in the CLI is to be clustered into programs:

- Early Years
- Cognition and Creativity
- Indigenous Capacity Building
- Scholarship of Teaching in Higher Education
- Advancement of Knowledge in Science, Technology and Maths
- Cultural transformations
- Creative Workforce
- Development and disability.

These research cultures are designed to offer opportunities for joint projects with other faculties and units within QUT, such as the Oodgeroo Unit and the Faculties of Science, Built Environment and Engineering, Creative Industries and Health.

The CLI is also a key partner in the ARC Centre of Excellence.

Why choose this course?
The Master of Learning Innovation (MLI) is designed to offer you the greatest possible flexibility in your choice of units enabling you to construct an individual program of study in order to meet your own professional and personal learning needs. You will have the opportunity to analyse your local and global environments and you will be encouraged to explore your own professional culture and career to date with a view to determining your learning priorities for the future.

Career outcomes
As a graduate of the Master of Learning Innovation (MLI) you will become a leader in your field of endeavour, willing to embrace innovation and able to manage change productively. The range of units available within the Master of Learning Innovation (MLI) will enable you to focus your career in an expertise area, enhancing your employment prospects. If you are seeking a career change, the Master of Learning Innovation (MLI) will allow you to reposition your qualifications and experience. Your employment prospects will include an array of specialised or senior positions in schools, Government and private industry.

The Master of Learning Innovation (Teacher-Librarianship) assists teachers in seeking employment as teacher-librarians in primary and secondary schools.

The Master of Learning Innovation (Early Childhood Teaching) assists primary and secondary teachers to change their career and seek employment as early childhood specialists.

Entry requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year’s appropriate professional or industrial experience.

Students undertaking the MLI (Teacher-Librarianship) and the MLI (Early Childhood Teaching) study areas must be qualified teachers.

Special entry requirements (for the Early Childhood Teaching study area only)
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre. Students should apply for a card as soon as they are accepted into the course. It is now a requirement of all Queensland sites that preservice teachers have obtained the Blue Card prior to starting field experience. For more information visit bluecard.qut.com

Please note students undertaking the unit EDN635 Practicum in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher.

Course structure - Master of Learning Innovation

Students will complete a program of study comprising the two core units, The Learning Innovator and Professional Applications of Research, and six electives as specified by the course rules and chosen to meet their personal and professional learning needs. Students enrolling in the specialised study areas of Teacher-Librarianship or Early Childhood Teaching will undertake a specified program of study.

Course structure - Master of Learning Innovation (Teacher-Librarianship)
You will undertake a specified program of study of six units plus two elective units.

Course structure - Master of Learning Innovation (Early Childhood Teaching)
You will undertake a specified program of study of eight units.

Professional recognition
The Teacher-Librarianship study area is undergoing accreditation by the Australian Library and Information Association (ALIA). The Teacher-Librarianship study area also maintains close links with the Australian School Library Association (ASLA)

The Early Childhood Teaching study area is recognised as a specialist early childhood qualification.

Research options
The generic Master of Learning Innovation (MLI) provides you with opportunities to gain experience in undertaking research. To complement the core unit, Professional Applications of Research, you can select from a suite of research options which includes:
- a second research methodology unit Conducting Innovating Research in Educational Contexts
three Facilitated Study Units (FSUs), worth 12, 24 or 36 credit points, equal to one, two or three units respectively
- two Thesis Units, worth 36 or 48 credit points, equal to three and four units respectively.

The Facilitated Study Units are designed to accommodate a breadth of interests and will permit you to make use of existing research to explore a topic of your choice. It is anticipated that a cohort of students undertaking an FSU will maintain regular contact with a mentor who will guide them in their work.

The Thesis Units will be of particular interest if you are intending to undertake further research in the Doctor of Education or Doctor of Philosophy programs. The 36 and 48 credit point Thesis Units are available to those students who wish to conduct research with an individual supervisor. The unit Conducting Innovative Research in Educational Context is a prerequisite for the thesis units.

Graduate Certificate in Education
You will have the option of entering the Master of Learning Innovation (MLI) via the Graduate Certificate in Education or exiting with the award of a Graduate Certificate in Education once you have completed four units.

International students - suggested program
A suggested program for international students may consist of the two core units, one Facilitated Study Unit, two leadership units, one Cyberlearning unit and two electives which may be undertaken online.

How to apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These forms can be accessed at studentservices.qut.com, at Student Centres or by phoning 07 3138 2000.

Master of Learning Innovation (Early Childhood Teaching)
This option is suitable only for qualified teachers seeking to become early childhood specialists. Students are required to complete eight units.

Entry Requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean or an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year's appropriate professional or industrial experience. Students undertaking the MLI (Early Childhood Teaching) study areas must be qualified teachers.

Special Entry Requirements
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission prior to undertaking field experience in a school or centre.

Students undertaking the practicum unit in Early Childhood may be required to hold a current Blue Card even if they are a registered teacher. This applies to all students who intend undertaking this practicum in a Child Care Centre, Day Care, Long Day Care, Kindergarten or independent preschool setting. It is essential that you apply for this Blue Card at least 16 weeks prior to the commencement of your field studies. Forms can be downloaded at: www.childcomm.qld.gov.au/employment/index.html

If you require further information on this please contact Ms Shirley Richards from the Field Experience Office on email feo@qut.edu.au. Students who do not have a valid Blue Card and are required to do so for their placement will not be permitted to commence their practicum. You may incur penalties if you failed to submit your application within the recommended time-frame.

Professional Recognition
The Early Childhood Teaching study area is recognised as a specialist early childhood qualification.

Overview
The Doctor of Education (EdD) is a professional doctorate which requires the completion of coursework units and a thesis. A professional doctorate addresses the need for a higher degree oriented towards the enhancement of professional practice and is designed to focus on applied investigation and problem solving rather than on a contribution to pure research or to theoretical knowledge. Its focus is the professional development of practitioners involved in some aspect of education.

Entry Requirements
Applicants must possess a four-year education degree or its equivalent with first-class or second-class Honours division A or a Masters degree in education or in a field relevant to the professional doctorate in education, AND two years practice in a position of professional responsibility in education or a closely related field. Students with lesser qualifications but exemplary professional practice may be given provisional entry and should consult the Course Coordinator before applying.

Course Structure
The degree consists of 288 credit points of which 72 credit points are coursework, followed by a thesis of 216 credit points. All coursework must be completed before work can commence on the thesis. For the unit Interdisciplinary Education Studies (a 24 credit point unit), students undertake a four-day, on-campus study school in January of their commencing year. Subsequently, in the second and third semesters of their enrolment, students attend two four-day study schools on campus (July and the following January) in which they work on the methodology and design of their thesis (each unit worth 24 credit points). The thesis is undertaken in the Faculty's research centre. Students are expected to develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

How to Apply
Before submitting an application for enrolment, a potential candidate should consult the Course Coordinator who will assist in the preparation of the appropriate application form concerning eligibility and special interests. Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under 'Help at hand', at QUT Research Students Centre counters or by phoning 07 3138 5306.

Overview
This program gives you an opportunity to research a topic of your choice, culminating in submission of a thesis. Under the guidance of your supervisor(s), you will conduct your research within the Faculty's Centre for Learning Innovation. As well as equipping you with the research and analytical skills to make a valuable contribution to knowledge, the Master of Education (Research) puts you in a position to market yourself as an expert in your field. The course is a fitting preparation for the doctoral programs offered by the Faculty: the Doctor of Philosophy and the Doctor of Education.

Entry Requirements
- a four-year education-related degree with a grade point average of at least 5 (on a 7-point scale) or equivalent, with demonstrated potential for further study and evidence of professional standing;
- OR a graduate diploma in an education-related field with a grade point average of at least 5 (on a 7-point scale) or equivalent, with a demonstrated potential for further study and evidence of professional standing;
- OR an honours degree in an education-related field with a minimum second class Honours division A or B.

Applicants who do not have professional experience in an education-related field would normally be expected to demonstrate their potential for further study with a grade point average of 6 (on a 7-point scale) or better.

Admission into the course is dependent on the availability of supervisors with expertise appropriate to the individual topic.

Course Structure
The course comprises four stages: preparation, confirmation of candidature, implementation and submission of a thesis of up to 40,000 words.

(i) Preparation stage: you undertake two research methodology units - Professional Applications of Research and Conducting Innovative Research in Educational Contexts. Exemption may be granted for the methodology units if you can demonstrate that you have already completed equivalent studies or have relevant research experience. During this stage, you will determine the research methods to be used in your thesis and begin work on your literature review.

(ii) Confirmation of candidature stage: you present and justify your research proposal at a seminar attended by academic staff and your peers. Your confirmation document includes your research design and your draft literature review.

(iii) Implementation stage: you execute your research proper, collecting your data and analysing the results.

(iv) Submission stage: in the final stage of your Master of Education (Research) journey, you finish writing your thesis and present it to a review panel for approval at a final oral seminar open to the public. Once approved, your thesis is ready to be submitted for examination.

Application Procedures
As part of your application for the course, you are required to submit a short research proposal. It is recommended that you consult the course coordinator or prospective supervisors for their assistance.

Course Requirements
University and Faculty rules governing credit, supervision, confirmation of candidature and examination of thesis apply to the Master of Education (Research).

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under ‘Help at hand’, at QUT Research Students Centre counters or by phoning 07 3138 5306.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean OR other qualifications acceptable to the Executive Dean, which may include substantial work experience in TESOL or involvement in other relevant professional research activities AND at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

Course structure
Students in the Masters program are required to complete 96 credit points of study including the two compulsory units, Second Language Acquisition and Principles of Second Language Methodology, of 12 credit points each. Students then have the choice of pursuing one of two options:

- Option 1: requires the completion of six elective units of 12 credit points each.
- Option 2: requires the completion of elective units and a 24 or 36 credit point research project to total 96 credit points.

Graduate Certificate in Education (TESOL) - Exit Point

Following the successful completion of four Master of Education (TESOL) units comprising two core units and two electives, students may elect either to discontinue enrolment and graduate with a Graduate Certificate in Education (TESOL), or to pursue a further four units in order to complete the Master of Education (TESOL).

Provisional Enrolment
Students who do not meet the entry requirements may be admitted on a provisional basis and be required to undertake preliminary coursework and reading as determined by the course coordinator. After satisfactory completion of the preliminary studies students may be admitted to full candidature.

How to apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under ‘Help at hand’ at QUT Student Centre counters or by telephoning 07 3138 2000.

Overview
The Bachelor of Education (Inservice) program is an undergraduate course in education in which you undertake a mature examination of yourself as a teacher and of important educational issues in light of your preservice preparation and subsequent teaching experience. The course aims to further develop your commitment to teaching and increase your abilities to critically evaluate current educational practice, to introduce new innovations and to upgrade your discipline knowledge. Graduates are eligible for entry into the Faculty's Master of Learning Innovation* and Master of Education (Research) courses.

Entry requirements
You must have completed a Diploma of Teaching (or equivalent).

OP Guarantee
The OP Guarantee does not apply to this course.

Course Structure
You are required to complete eight, 12 credit point units of study. The course provides flexibility for students to complete their studies across a range of areas. Two core units, Engaging Diverse Learners and The Professional Practice of Educators, must be completed together with an additional two units from any of the four schools located in the Faculty of Education. The remaining four units may be taken from a wide range of Faculty of Education units or from faculties other than the Faculty of Education. Please see Studyfinder at qut.com for more information. Students undertaking the course to meet specific Queensland Board of Teacher Registration requirements may not be able to undertake non-education units. Many students use their studies in the Bachelor of Education (Inservice) as an opportunity to gain expertise in specific areas. Students returning to the classroom after a break will often update their knowledge by undertaking preservice curriculum studies units in the early childhood, primary or specific secondary subject areas. Alternatively students may choose a suite of units related to a specific area of interest such as adult and workplace education, culture and language studies, human relationship education studies or mathematics, science and technology education studies.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Mid-year Entry
This course is available externally only for mid-year entry.

Deferment
QUT's deferment policy does not apply to this course.

Overview
For graduates with an undergraduate degree to obtain their first teaching qualification. Three areas of study: Early Years (emphasising birth to eight years); Middle Years (emphasising Grade 4-9); Senior Years (emphasising Grade 10-12 as well as lower Secondary).

Midyear intake
The mid year intake for Early Years, Middle Years, and Senior Years is for full time, internal mode only.

Further, Senior Years will have limited teaching areas (ie. Dance, Drama, Music, Visual Arts, and Language Education will not be offered mid year). Refer to the teaching area entry requirements for further information.

Entry Requirements
Completion of a bachelor degree (or equivalent) that does not lead to teacher registration.

Mid-Year Additional Entry Requirements - Senior Years
Senior Years applicants are required to nominate a proposed teaching area. The final date to lodge the online Teaching Area Nomination form was 04 June 2007. Late submissions will not be accepted and applications for this course have closed.

Mid-Year Fixed Closing Date
Midyear applications for the Graduate Diploma in Education in all three study areas close on 04 June 2007. Late applications and/or preferences can not be accepted.

Applications for semester 1, 2008 will open in mid-July. Semester 1 entry is available for all study (i.e. full or part-time, external or internal) and senior years teaching area options.

Professional Recognition
The Graduate Diploma in Education is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Upon graduation, the Faculty of Education is seeking accreditation with the Ontario Board of Teacher Registration for Junior Years and Senior Years.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

External Studies Requirements
Students are assumed to have technical access.

Early Years and Middle Years
It is assumed that the undergraduate degree has sufficient breadth to enable you to confidently address the range of teachings areas that is expected by a potential employer. You may wish to refer to the Queensland Studies Authority website, eg Years 1-10 Key Learning Areas.

Deferment
QUT's deferment policy does not apply to this course.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a
Pentium 3 processor, 56k modem and internet access.

Domestic student tuition fee places
Tuition fees are not available in this course.
Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Campus: Kelvin Grove

Graduate Diploma in Education (for International Students)
For graduates with an undergraduate degree to obtain their first teaching qualification. Three areas of study: Early Years (emphasising birth to eight years); Middle Years (emphasising grade 4-9); Senior Years (emphasising grade 10-12 as well as lower secondary).

NOTE: International students must undertake the course as a full-time student.

Mid-Year Entry
There will be a mid year intake for Early Years, Junior Years, Middle Years, and Senior Years on a full time, internal mode only. Senior years will have limited teaching areas (ie. Dance, Drama, Music, Visual Arts and Language Education will not be offered mid year). Refer to teaching area entry requirements for further information.

Entry Requirements
Completion of a bachelor's degree that does not lead to teacher registration.

Senior Years also requires successful completion of the equivalent of 96 credit points (one year of full time study) in undergraduate discipline studies that relate to the nominated Teaching Area. Refer to the teaching area entry requirements for additional information.

Early Years and Middle Years: It is assumed that the undergraduate degree has sufficient breadth to enable you to confidently address the range of teaching areas that is expected by a potential employer. You may wish to refer to the Queensland Studies Authority website, eg Years 1-10 Key Learning Areas.

The Junior Phase of Learning area takes a holistic conceptualisation from early childhood to the end of the middle phase of learning (Year 10) therefore focussing on learners as they move from early childhood through adolescence.

Special Entry Requirements - Senior Years
Senior Years applicants are required to nominate a proposed teaching area. Teaching area nominations are made via the Online Teaching Area Nomination form. If you are unable submit an Online Teaching Area Nomination form please contact QUT Admissions by phoning 07 3864 2000 for further assistance.

The due date to submit the Teaching Area Nomination form is 29 September 2006. Late submissions will be accepted up until 30 November. Submissions after 30 November will not be accepted.

Professional Recognition
The Graduate Diploma in Education is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at http://www.studentservices.qut.edu.au/enrolling/enrolling/specific_requirements/blue_card.jsp

Entry requirements
The ED50 Bachelor of Education (Secondary) course has been replaced by a newly coded ED90 Bachelor of Education (Secondary) with effect from 2003. There will be no intake into the ED50 course in 2003 with the exception of students commencing their studies with advanced standing from previous tertiary level study.

Applicants must have completed Year 12 (or equivalent). Assumed Knowledge: English (4 SA). For the Maths specialisation Maths B (4 SA).
Successful applicants receive an offer in one of three streams. The table below shows the teaching areas available in each stream. Students also nominate a second teaching area. Restrictions apply to some teaching area combinations.

NOTE: Students are required to undergo criminal history checks (renewable every two years) prior to undertaking practicum units. Applicants for teacher registration in Queensland are subject to national criminal history checks.

Career Outcomes
Graduates are prepared to teach in two curriculum areas in secondary school.

Professional Recognition
The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland.

Course Requirements
Undergraduate-entry students complete 192 credit points of professional studies and 192 credit points of discipline studies.

Optional Pathways
A Middle Years Pathway and Research Pathway are available.

Middle Years Pathway
The Middle Years Pathway enables students to gain expertise in middle years schooling. The option involves choosing four units in the final semester including a practicum in the middle years setting (subject to Grade Point Average of 5 or above).

Research Pathway
Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Early Exit
Students have the option to exit the course early with a three-year Bachelor of General Studies (Education). Students wishing to take up this option should apply in writing to the course administration officer on nearing completion of the sixth semester of study, requesting that they be transferred to the Bachelor of General Studies (Education) ED45 course. Graduates of this degree are not eligible for teacher registration in Queensland.

To meet the requirements of the Bachelor of General Studies (Education) students will have successfully completed 288 credit points of study comprising:

- 96 credit points of professional studies in education including at least 48 credit points of advanced level units. (In the B Ed (Secondary) program all professional studies in education units except CLB305 Education in Context, CLB341 Language Technology and Education, SPB001 Human Development and Education, and EDB450 Secondary Professional Practice 1: Classroom Management are deemed to be advanced level units.);

- 96 credit points taken from the Discipline/Content Studies in the B Ed (Secondary) which must include a minimum of 72 credit points in the one discipline area. A minimum of 48 credit points of these Discipline/Content Studies must be undertaken at the advanced level: and

- 96 credit points from a combination of the above or, in consultation with the Associate Course Coordinator, from other courses across the university subject to course rules.

Entry into Course Streams
1. Business Education; English and Film and Media Studies; LOTE; Science/Mathematics/Computing; Social Science

Accounting/Business Management
Business Communication & Technologies
Economics

Discipline Studies

Undergraduate-entry students are required to take 192 credit points of Discipline Studies units, specialising in two teaching areas appropriate to Years 8 - 12 in Queensland. Students must complete at least 96 credit points in one teaching area and will normally complete at least 72 credit points in their other teaching area (Groups X and Y). The remaining 24 credit points may be added to the 72, added to the 96, or used for personal development in a third area.

In certain circumstances, permission may be given to complete 48 credit points in a non-discipline area. Students undertaking this option will complete 96 credit points in one of their two teaching areas and 48 credit points in their other teaching area. An additional 48 credit points may then be selected in a non-teaching area.

Note: The above mentioned option is not available in all teaching areas. Approval from the course coordinator is required. Students wishing to explore this option should consult with the associate course coordinator (Secondary). Hence, the combinations available include the following:

(a) Teaching area 1: 120 credit points
   Teaching area 2: 72 credit points

(b) Teaching area 1: 96 credit points
   Teaching area 2: 96 credit points

(c) Teaching area 1: 96 credit points
   Teaching area 2: 72 credit points

(d) Teaching area 1: 96 credit points*
   Teaching area 2: 48 credit points
   Non-teaching area: 48 credit points

*Option (d) is available only by request and in a restricted number of teaching areas.

The teaching areas are divided into Group X and Group Y as shown in the Course Structure. Students may also select up to 24 credit points from units in Group Z. Students should note that not all faculties offer units for elective studies in the Bachelor of Education (Preservice).

Past rank cut-off: 80
Past OP cut-off: 10
Assumed knowledge: English (4 SA)
Total credit points: 384
Course coordinator: Dr Mary Ryan
Campus: Kelvin Grove

Note: Restricted intake in 2003
The Bachelor of Education (ED91) replaces the existing Bachelor of Education (ED51) with effect from 2003. The next intake into 2003 will be into ED91 with the exception of students commencing their studies with significant advanced standing from previous tertiary level study.

Entry requirements
Applicants must have completed Year 12 (or equivalent).
Assumed Knowledge: English (4 SA).

Career Outcomes
Graduates are prepared to teach at all levels of the primary school. They may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum. A specialisation in LOTE is available within the primary teaching program.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks.

LOTE Pathway
Students undertaking a LOTE pathway may be required to attend other campuses.
Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway
Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Middle Years Pathway
Students have the option of choosing the Middle Years pathway which will enable them to gain expertise in middle year schooling. The option involves choosing four units in the final semester including a practicum in the middle years setting (subject to Grade Point Average of 5 or above).

Restricted intake in 2003
The Bachelor of Education (ED52) has been replaced by the newly coded Bachelor of Education (ED92) with effect from 2003. There will be no intake into ED52 in 2003 with the exception of studentscommencing their studies with significant advanced standing from previous tertiary level study.

Entry requirements
Applicants must have completed Year 12 (or equivalent). Assumed Knowledge: English (4 SA).

Career Outcomes
The program provides graduates with the opportunity to be employed in child care centres, kindergartens, preschools and the lower three grades of primary school.

Professional Recognition
The Bachelor of Education (Early Childhood) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. The course is also accredited by the Department of Families, Youth and Community Care for employment in child care.

Research Pathway
Students with a Grade Point Average of 5.5 or above before the commencement of Year 3, may be invited to undertake the Research Pathway. This option is designed to meet the needs of students wishing to undertake research level study in the course of their future career. The pathway is designed to develop research skills and a research oriented, reflective approach to teaching.

*Three-year Bachelor of Early Childhood Studies
Students who commence study in the four-year, full-time Bachelor of Education (Early Childhood) specialisation may choose to exit from the course at the end of their third year. Students will exit with a three-year Bachelor of Early Childhood Studies qualification specific to the Child Care area. Graduates of the three-year program are not eligible for registration with the Queensland Board of Teacher Registration.

Overview
The Graduate Certificate in Education provides a two-semester part-time or one-semester full-time postgraduate course in an identified area of education. Students acquire knowledge and understanding of specific issues in education, develop the skills necessary to identify and evaluate these issues, provide leadership within an educational setting and acquire abilities to manage the problems identified.

Entry requirements
An appropriate four-year bachelor degree or equivalent at a standard acceptable to the Executive Dean, OR an appropriate three-year bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year’s appropriate professional or industrial experience. Students undertaking the Early Childhood study area must be qualified teachers.

Course Structure
The Graduate Certificate in Education course consists of 48 credit points of study from the Master of Learning Innovation deemed by the Executive Dean to form a coherent program of study. Units can be presented in internal, flexible or block mode (where students are required to attend campus for up to five days normally during the January or July school holiday period). In some instances units can be completed in a modularised form which allows students to complete the assessment on a credit point basis.

Study Areas
The study areas include:

Adult Learning and Knowledge Management
Autistic Spectrum Disorder
Behaviour Management
Career Guidance
Early Childhood
Educational Counselling

Executive Leadership
Higher Education
Information and Communication Technology
Leadership and Management
Learning Futures
Learning Support and Inclusive Education
Mathematics Education
Middle Years of Schooling
Science education

How to Apply
Domestic students apply directly to QUT Student Services on a PG form. International students complete an F form. These forms can be accessed at studentservices.qut.com, at Student Centres or by phoning 07 3138 2000.

Overview
The Master of Education and Graduate Certificate in Education (TESOL) are coursework awards that provide students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Entry Requirements
Applicants must possess an appropriate bachelor degree or equivalent at a standard acceptable to the Executive Dean of the Faculty OR other qualifications acceptable to the Executive Dean, which may include substantial work experience in TESOL or involvement in other relevant professional research activities AND at least one year's practical experience in some branch of education acceptable to the Executive Dean.

Applicants who are non-native speakers of English must meet the University's English language proficiency entry requirements.

Course structure
The Graduate Certificate in Education (TESOL) consists of four units taken from the Master of Education (TESOL) course. Students are required to complete the two core units Second Language Acquisition and Principles of Second Language Methodology and two electives.

How to apply
Domestic students apply directly to QUT Student Business Services on a PG form. International students complete an F form. These can be accessed from studentservices.qut.com under ‘Help at hand’, at QUT Student Centre counters or by telephoning 07 3138 2000.

Career Outcomes
This degree provides graduates with the opportunity to be employed in childcare centres and services. Graduates are not eligible for teacher registration in Queensland.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
The Bachelor of Early Childhood Studies is an approved child care qualification with the Queensland Government Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children’s services.

Graduates of the Bachelor of Early Childhood Studies are not eligible for teacher registration with the Queensland College of Teachers.

Working with Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Advanced Standing
Students admitted with a completed Diploma of Children's Services (or an equivalent accredited qualification) will be automatically granted one year of advanced standing (ie 96 credit points) and be eligible to complete the degree in two years full-time.

Course coordinator: Dr Mal Shield
Campus: Gardens Point, Kelvin Grove and Carseldine

Career Outcomes
You will be prepared to teach in a minimum of two curriculum or teaching areas in secondary schools.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
The Bachelor of Education (Secondary) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Course Structure
The Bachelor of Education is an exciting new learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Students complete a total of 384 credit points of study and will specialise in two teaching areas appropriate for teaching grades 8-12 in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 100 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, Indigenous and sociocultural studies. Applied curriculum tasks give students the opportunity to relate their practical school experiences to their theoretical studies.

Successful applicants receive an offer in one of three streams: General, Home Economics or Physical Education. Restrictions apply to some teaching area combinations.
Students will select their two teaching areas from the following lists (one from Group X and one from Group Y):

**GROUP X**
- Accounting/Business Management
- Business Communication and Technologies
- Computing
- English
- Home Economics (available only to students entering through the Home Economics entry point)
- Mathematics
- Physical Education (available only to students entering through the Physical Education entry point)
- Science Studies
- Social Science
- English as a Second Language (ESL)

**GROUP Y**
- Accounting/Business Management
- Biology
- Business Communications & Technologies
- Chemistry
- Earth Science
- English
- Film & Media Studies (subject to quota)
- French
- Geography
- German
- Health Education
- History
- Indonesian
- Japanese
- Legal Studies
- Mathematics
- Physics

**NOTE:**
Where the same subject is listed in both Groups X and Y (eg. English), it may only be selected once.

There may be limited places in some disciplines as a second teaching area.

Students selecting Home Economics or Physical Education are to complete 96 credit points in these areas.

Some subjects are taught at Gardens Point and Carseldine campuses and timetable incompatibilities may exist with subjects taught at Kelvin Grove.

Students wishing to take biology, chemistry, earth science, or physics with subject areas other than mathematics or science studies should check for possible timetable difficulties.

Mathematics has an Assumed Knowledge of Maths B (4 SA)

Course coordinator: Dr Mary Ryan, (Ms Sue Hudson, Caboolture)
Campus: Kelvin Grove and Caboolture

Career Outcomes
You will be prepared to teach at all levels of primary school. You may also complete a discipline/content studies pathway in one of the key learning areas of the Queensland school curriculum. A specialisation in Languages Other Than English (LOTE) is available within the primary teaching program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working with Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Languages Other Than English (LOTE) Pathway
Students undertaking a LOTE pathway may be required to attend other campuses. Students wishing to undertake studies in French, German, Indonesian or Japanese are required to select a specified sequence of six units (72 credit points). Students who have taken their LOTE to Year 12 or equivalent do not take the introductory units.

Research Pathway
Certain students will be invited to undertake the Research Pathway Option. This option is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career. The pathway is designed to develop research skills and a research-oriented, reflective approach to teaching.

Course Structure
The Bachelor of Education is an exciting new learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

NOTE: Students granted credit for previous studies may not be able to progress each semester with a full-time load.

Caboolture Campus Note
After Year 1, students at Caboolture may wish to take the Middle Years Program at that campus. However, if students
do not wish to have Middle Years as their elective area, they
would need to take alternative electives from List 1 and take
the units at the campus where offered. Note: not all units in
the LOTE pathway are offered at Caboolture Campus.
Students may need to undertake subjects at other
campuses.

Career Outcomes
Graduates can teach in childcare centres, kindergartens, preschools and the lower three grades of primary school. They may also complete discipline/content studies electives in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Early Childhood) is recognised by the Queensland College of Teachers as meeting the requirements for registration as a teacher in Queensland. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

The Bachelor of Education (Early Childhood) is an approved child care qualification with the Queensland Department of Communities and is accredited by the New South Wales Department of Community Services for employment in children's services.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Research Pathway
You may be invited to undertake the Research Pathway Option which is designed to meet the needs of students wishing to undertake research-based higher degree study in the course of their future career.

Course Structure
The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education.

Each program consists of several different types of units:
- core units cover material which is considered essential
- parallel units are specific to each program
- strand units focus on issues related to that program
- specialist pathway units allow students to undertake a specific area of study of at least 48 credit points.

Computing
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Advanced Standing
Students admitted with a completed Diploma of Children's Services (or an equivalent accredited qualification) will be automatically granted one year of advanced standing (ie 96 credit points) and be eligible to complete the degree in three years full-time.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
The Doctor of Philosophy (PhD) is a research degree which is undertaken within the research centre of the Faculty of Education. The PhD degree is awarded in recognition of the candidate's erudition in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

Entry requirements
Applicants must possess a relevant first-class or second-class division A Honours degree, OR an appropriate masters degree. A good command of the English language is required.

Course structure
Candidates undertake a supervised program of research which results in the submission of a thesis. A suite of research methodology units is available to those candidates who require them. Candidates are initially required to complete a stage one application form at the time of enrolment. This is followed by submission of a detailed research proposal three months later. Within 12 months of admission for full-time candidates and 24 months part-time candidates, (and 15 months for international candidates), the candidate is expected to develop a full course of study in consultation with their supervisor. This proposal is submitted to the Confirmation of Candidature Preview Panel for approval. At the completion of the thesis, candidates are required to undertake an oral examination to present findings of the research. Once successfully completed, the thesis is submitted to the appointed examiners to be assessed.

How to Apply
Domestic students apply directly to QUT on a PR form. International students complete an FR form. These can be accessed via studentservices.qut.com under Help at hand, at QUT Research Students Centre counters or by phoning 07 3138 5306.

Fees
Australian students will be allocated a Research Training Scheme place (see page 29 for more information)

NOTE
RESTRICTED INTAKE IN 2003.
The Bachelor of Arts/Bachelor of Education (Early Childhood) IF81 course has been replaced by a newly coded Bachelor of Arts/Bachelor of Education (Early Childhood) IX11 course with effect from 2003. There will be no new intake into this course in 2003 with the exception of students commencing their studies with significant advanced standing from previous tertiary level study.

Entry requirements
Applicants must have completed Year 12 (or equivalent).
Assumed Knowledge: English (4 SA).

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education(Early Childhood)provides graduates with the opportunity to be employed in child care centres, kindergartens, preschools and the lower three grades of primary school. Opportunities in tourism, translation, and the hospitality industry are open to those with language studies.

Professional Recognition
This double degree is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for teacher registration in Queensland are subject to national criminal history checks. The Early Childhood specialisation is also accredited by the Department of Families, Youth and Community Care Services for employment in the area of child care.

Course Structure - Continuing Students

BA Course Structure and Requirements
Students are required to complete at least one of the five interdisciplinary professional majors(1 core introductory unit plus 6 units in the major):
International and Global Studies
Society and Change
Ethics and Human Rights
Community Studies
Australian Studies
It is recommended that students take HHB116 Applied Skills and Scholarship in their first year.
Students are required to maintain a minimum fifty percent enrolment in units from the BA program until they have completed eight of those units.
In their remaining units, students may:
- develop a Major or Minor (48 credit points) in another of the interdisciplinary professional areas;
- develop a Major or Minor (48 credit points) in a disciplinary major or in another QUT course;
- develop of Minor (48 credit points) in Foundation units for Early Childhood;
- take a series of elective units.
Students are required to complete 16 units in the BA component of the double degree. Of these, 12 must be BA units (ie HHB coded units).

Course Structure - Commencing Students

BA Course Requirements (Years 1 and 2)
Students are REQUIRED to complete:
* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)
It is SUGGESTED that they complete the Core Units Program consisting of the following:
* Four core units in first semester (from a selection of core introductory units and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)
* Two core units in second year (2 research methods units)

Course Structure - Commencing Students (cont.)
Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.
Students wishing to complete a Workplace Internship will need to discuss their program with the relevant Course Coordinator in order to ensure that the Internship can be
located in their third year.
NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Key Terms in the BA - Commencing Students
* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfil the requirements of the degree.
* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.
* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

Interdisciplinary Professional Majors
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Study Sequences
For details, refer to the Co-Majors listed in the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these are able to be taken as Minors.

### Potential Careers:
Child Care Professional, Early Childhood Teacher, Educator, Kindergarten Teacher, Preschool Teacher, Primary School Teacher, Teacher.
Bachelor of Arts/Bachelor of Education (Primary) (IF82)

Year offered: 2007
Admissions: No
Course duration (full-time): 4 Years
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12,480
Domestic Entry: February
QTAC code: 409342
Past rank cut-off: 83
Past OP cut-off: 9
OP Guarantee: Yes
Assumed knowledge: English (4 SA)
Preparatory studies: English: QUT Continuing Professional Education course English Bridging. For further information contact 07 3138 2000 or email sbs.enquiries@qut.edu.au
Total credit points: 384
Course coordinator: Dr Iraphhne Childs (Arts); Dr Mary Ryan (Education)
Campus: Gardens Point, Kelvin Grove and Carseldine

Course Structure - Commencing Students
BA Course Requirements (Years 1 and 2) (Continuing Students)
Students should have completed the following components of the degree:
The first year requirements (8 units) which include:
HHB116 Applied Skills and Scholarship
Two Foundation Units (for students who did not complete two Faculty Foundation Units in Year 1)
Two to three Course Foundation Units
Two to three Elective Units
NB a minimum of four of these eight units must be chosen from units offered from the BA component of your course. In second year, a further 8 units to complete:
One Major Study Sequence chosen from the BA component of your course
AND
One Minor Study Sequence from those offered in the BA component of your course or from other Minor Study Sequences offered elsewhere within QUT.
Students must ensure that a minimum of 12 of the 16 units be chosen from units in the BA.

Course Structure - Continuing Students
BA Course Requirements (Years 1 and 2) (Continuing Students)
Students are REQUIRED to complete:
* One Interdisciplinary Professional Major (1 core introductory unit + 6 units in the major)
It is SUGGESTED that they complete the Core Units Program consisting of the following:
* Four core units in first semester (from a selection of core introductory units and core skills units)
(Note: one of the core introductory units will sit within the chosen Interdisciplinary Professional Major)
* Two core units in second year (2 research methods units)

Course Structure - Commencing Students (cont.)
Students must maintain a 50% enrolment in units from the BA program until they have completed 8 of those units (96 credit points).
Students may wish to:
- develop a Minor (48 credit points) in one of the interdisciplinary professional areas
- develop a Minor (48 credit points) in a disciplinary study sequence or in another QUT course
- develop a Minor (48 credit points) in major Foundation units for Primary Teachings
- take a series of elective units
Students wishing to complete a full discipline studies sequence (6 units) will need to amend their core units program.
Students planning to complete a full language sequence (6 units) will need to discuss their program with the relevant Course Coordinator to ensure that their language studies begin in semester one and continue into their third year.

NB Students are required to complete 16 units in the BA component of the double degree. Of these 12 must be BA units i.e. HHB coded units.

Key Terms in the BA - Commencing Students
* Professional Major - one of five interdisciplinary study sequences in the BA degree (International & Global Studies, Society and Change, Ethics and Human Rights, Community Studies, Australian Studies), consisting of one core unit plus six further units from the appropriate list (making a total of 84 credit points). Students must complete at least one of these to fulfill the requirements of the degree.
NB - a unit may not be counted in more than one professional major, discipline sequence, or Minor.
* Discipline Sequence - a set of six units (72 credit points) in a given discipline (Geography, History, Languages, Social Science). In Languages, this consists of six sequenced units in one Language. In other disciplines the six units must include one introductory unit to the discipline.
* Minor Study Sequence - a study sequence of any four units (48 credit points) in a given subject area.

Interdisciplinary Professional Majors - Commencing Students
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Discipline Sequences - Commencing Students
For details, refer to the Bachelor of Arts (HH01) entry in the Humanities and Human Services section.

Minor Sequences - Commencing Students
For details, refer to the Co-Majors section of the Bachelor of Arts (HH01) entry in the Humanities and Human Services section as any of these may be taken as Minors.

Career Outcomes
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help students position themselves within the broad range of science disciplines but also qualify them as a competent professional in their chosen field.

Students are equipped to undertake research after graduation if they desire. The Bachelor of Education (Primary) prepares students to teach at all levels of the primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Professional Recognition
The Bachelor of Education (Primary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Applicants for registration as a teacher in Queensland are subject to national criminal history checks.

Course Structure for Commencing Students in 2002
Students complete 192 credit points from units in the Bachelor of Applied Science degree (meeting all of the requirements of the core program and a major study), and 192 credit points from the Bachelor of Education (Primary) program. The science units and the units EDB001, MDB383, CLB376 and EDB430 are undertaken during the first five semesters of the double degree program.

Career Outcomes
During the Arts component you will specialise in two teaching areas relevant to the secondary school curriculum. The Education component prepares you to teach both areas across years 8 to 12.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You are equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Secondary) prepares you to teach in two curriculum areas in secondary school. The science majors that are most relevant to students intending to follow a career in secondary school teaching are Chemistry, Ecology, Geoscience, Mathematics or Physics.

Recommended Study
At least one of the sciences. For the majors in biochemistry, biotechnology and microbiology - Biological Science and Chemistry are recommended; for the major in physics - Maths C is recommended.

Course Design
See the Bachelor of Applied Science course information for details of major areas of study. To allow you to complete the double degree in a shorter period of time, co-majors are to be taken from the education technology program.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science (SC01) course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

**Computing Requirement**
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

### Science Component

**Major in Physics (with Mathematics Studies)**

Replace one science unit (not Physics units) with MAB101 Statistical Data Analysis 1.

Optional - replace up to two other science units (not Physics units) with mathematics units from MAB210, MAB220 or Level 2 or Level 3 units.

**Mathematics Studies for Majors other than Mathematics or Physics**

The following four mathematics units should be included:

- MAB100 Mathematical Sciences 1A
- MAB101 Statistical Data Analysis 1
- MAB111 Mathematical Sciences 1B
- MAB112 Mathematical Sciences 1C

Up to two other mathematical units may also be selected.

**List 1: Curriculum Studies 1X & 1Y**

Prerequisite: Normally minimum of 24 credit points of relevant discipline. Students undertaking a double Science major will undertake an education elective in addition to MDB031

- MDB021 Mathematics Curriculum Studies 1
- MDB031 Science Education Curriculum Studies 1

**List 2: Curriculum Studies 2X & 2Y**

Prerequisites: Curriculum Studies 1X & 1Y

- MDB010 Biology Curriculum Studies 2
- MDB013 Chemistry Curriculum Studies 2
- MDB019 Earth Science Curriculum Studies 2
- MDB022 Mathematics Curriculum Studies 2
- MDB025 Physics Curriculum Studies 2
- MDB028 Science Curriculum Studies 2

**List 3: Curriculum Studies 3X & 3Y**

Prerequisite: Curriculum Studies 2X and 2Y. Students undertaking a double Science major will undertake an education elective in addition to
to MDB033.
MDB023 Mathematics Curriculum Studies 3
MDB033 Science Education Curriculum Studies 3

Overview
This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?
This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration.

Other Course Requirements
Blue Card
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Blue Card by the Commission prior to undertaking field experience in a school or centre or undertaking activities in any unit which may involve contact with children. You must apply for a Blue Card as soon as you are accepted into the course to allow sufficient time (up to eight weeks) for it to be issued. For more information and an application form visit bluecard.qut.com

Additional Costs
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50) and the attainment of a current first aid certificate prior to the commencement of your third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study
any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education

Further Information
For detailed information about this course, please call (07) 3138 3360 (School of Human Movement Studies) or (07) 3138 3947 (Faculty of Education).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
This double degree qualifies students to teach dance in Australian secondary schools. In the first two years students study the technique and philosophy of a number of dance styles plus dance analysis, history and sociology, dance composition and basic kinesiology and alignment. Students generally participate in a daily class of various styles. In addition to Dance, students study a second teaching area, choosing from Drama, Music, English, Film and Media, Geography, History and Languages. In the final two years students concentrate on teacher preparation.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. The final date to register for an audition and submit additional materials to QUT was 1 September 2006. Late registrations and submission of materials will not be accepted.

Auditions
Auditions will be held in Brisbane, Melbourne, Sydney, Canberra, Adelaide, and Townsville in late September/early October. Confirmation dates and venues will be posted to registrants after registrations close.

Career Outcomes
Graduates of this course are qualified to teach in secondary education with a specialisation in Dance. Graduates may wish to explore the avenues of performance, freelance choreography, dance research and administration.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

General
This four-year double degree qualifies students to teach Drama in schools in Australia and overseas. In the first two years students undertake units in Drama, blending practice with theoretical concepts strongly focused on developing artistic, organisational and communication skills. In addition to Drama, students study a second teaching area selected from Dance, Music, Visual Art, English, Film and Media Studies, Geography, History and Languages. In the second two years students concentrate on teacher preparation, equipping them through drama curriculum units with the skills necessary to be effective drama educators.

Career Outcomes
Graduates are employed as Drama teachers in secondary schools, work with the State Government in education, or as education officers with performing arts companies and in youth arts.

OP Guarantee
The OP Guarantee does not apply to this course.

Additional Entry Requirements
The Drama major within the Bachelor of Creative Industries double degree comprises a range of practical and theoretical studies in theatre, drama and performance, but is not an acting course. While applicants have been required to audition for this course in the past, an audition is no longer considered an appropriate measure of prospective students’ suitability for this program. Entry will solely be determined on OP/rank as per QUT admissions policies as published in Real Options.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

IMPORTANT NOTICE
This course code has been discontinued. The
new course code for commencing students is IX16 Bachelor of Creative Industries/Bachelor of Education (Secondary). Continuing students should refer to their Course Summary Sheet for enrolment information.

General
This four-year double degree qualifies graduates to teach as art teachers in Australian secondary schools. In the first two years students undertake practical and theoretical introductory studies about artistic ideas, concepts and aesthetic judgements as well as working in two- and/or three-dimensional media. Studio areas include Painting, Printmaking, and Sculpture with supporting areas of Drawing and Photography. Students study a second teaching area selected from Dance, Drama, Music, English, Film and Media Studies, Geography, History and Languages. In the final two years students concentrate on teacher preparation, equipping them through art curriculum units with the skills to be effective art educators.

Career Outcomes
Graduates work as art teachers in secondary schools, are employed by State Government in education, as education officers with community art projects and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card. to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card. immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. The due date to lodge a portfolio and additional materials to QUT was 20 October 2006. Late submissions will not be accepted.

OP Guarantee
The OP Guarantee does not apply to this course.

IMPORTANT NOTICE
This course code has been discontinued. The new course code for commencing students is IX16 Bachelor of Creative Industries/Bachelor of Education (Secondary). Continuing students should refer to their Course Summary Sheet for enrolment information.

Career Outcomes
The Arts component provides an excellent general education for future early childhood specialists. The Bachelor of Education (Early Childhood) provides graduates with the opportunity to be employed in childcare centres, kindergartens, prep year and the lower three grades of primary school.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. The Early Childhood specialisation is also accredited by the Department of Child Safety for employment in the area of child care. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

**Deferment**  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Computing Requirement**  
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

UNITS IN THE BACHELOR OF ARTS
Refer to the Bachelor of Arts single degree entry for information on Majors and Units

CORE PROGRAM - Commencing Students

The core program for the degree consists of the following selection of units:

First Year Core: Core Units for Professional Majors

INTERNATIONAL AND GLOBAL STUDIES
HHB110 Introduction To International And Global Studies
HHB111 Issues In International And Global Studies

SOCIETY AND CHANGE
HHB105 Exploring Change
HHB104 Understanding Society: Intro To Sociology

ETHICS AND HUMAN RIGHTS
HHB114 Introduction To Human Rights And Ethics
HHB115 Human Identity And Change

COMMUNITY STUDIES
HHB103 Contemporary Social And Community Issues
HHB102 The Human Condition

AUSTRALIAN STUDIES
HHB106 Australian Society And Culture
HHB112 Australian Politics

First Year Core: Skills Units

HHB116 Applied Skills And Scholarship
HHB117 Introduction To Social Research Methods

Second Year Core: Research Methods Units

HHB224 Qualitative Research Methods
HHB232 Survey Methods
HHB121 Interpreting The Past
HHB312 Geographical Research Design

OP Guarantee: Yes
Assumed knowledge: English (4, SA) and Maths B (4, SA)
Preparatory studies: MATHS: QUT unit Preparatory Mathematics as a visiting student or QUT Continuing Professional Education course Mathematics Bridging. ENGLISH: Successful completion of a year of full-time vocational or tertiary study. For further information contact 07 3138 2000 or email study@qut.com
Total credit points: 384
Standard credit points per full-time semester: 48
Course coordinator: Dr Megan Hargreaves (Science): Dr Mary Ryan (Education)
Campus: Gardens Point and Kelvin Grove

Career Opportunities
The Bachelor of Applied Science allows multidisciplinary programs of study that not only help you position yourself within the broad range of science disciplines but also qualifies you as a competent professional in your chosen field. You will be equipped to work as a science professional or undertake research after graduation if you desire.

The Bachelor of Education (Primary) prepares you to teach at all levels of primary school. Students may also complete a discipline/content studies major in one of the key learning areas of the Queensland school curriculum.

Course Design
Graduates from this double degree will have a science degree with the same core support and choice of major study areas as the graduates from the Bachelor of Applied Science (SC01) program. Education studies will comprise the co-major component.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Graduates will satisfy the requirements for membership of the relevant professional body for their chosen science major. See the Bachelor of Applied Science course for details.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
This double degree qualifies you to teach dance in Australian secondary schools. In the first two years you will study the technique and philosophy of a number of dance styles plus dance analysis, history and sociology, dance composition and basic kinesiology and alignment. Students generally participate in a daily class of various styles. In addition to Dance, you will study a second teaching area, choosing from Drama, Music, English, Film and Media, Geography, History and Languages. In the final two years you concentrate on teacher preparation.

Additional Entry Requirements
Applicants are selected on the basis of their audition and previous academic achievement. Applicants will be able to register online via addentry.qut.com for the audition in late July. Registrations and submission of required materials with QUT close on 30 August 2007. A $33 service fee applies. Applicants applying for more than one Dance course are required to pay only one service fee of $33. If you are unable register online please contact QUT Creative Industries Faculty in mid July by phoning 07 3138 8114 for further assistance.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates of this course are qualified to teach in secondary education with a specialisation in Dance. Graduates may wish to explore the avenues of performance, freelance choreography, dance research and administration.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

General
This four-year double degree qualifies you to teach Drama in schools in Australia and overseas. In the first two years you will undertake units in Drama, blending practice with theoretical concepts strongly focused on developing artistic, organisational and communication skills. In addition to Drama, you study a second teaching area selected from Dance, Music, Visual Art, English, Film and Media Studies, Geography, History and Languages. In the second two years you will concentrate on teacher preparation, equipping yourself through drama curriculum units with the skills necessary to be an effective drama educator.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates are employed as Drama teachers in secondary schools, work with the State Government in education, or as education officers with performing arts companies and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

General
This four-year double degree qualifies you to teach as an art teacher in Australian secondary schools. In the first two years you will undertake practical and theoretical introductory studies about artistic ideas, concepts and aesthetic judgements as well as working in two- and/or three-dimensional media. Studio areas include Painting, Printmaking, and Sculpture with supporting areas of Drawing and Photography. Students study a second teaching area selected from Dance, Drama, Music, English, Film and Media Studies, Geography, History and Languages. In the final two years you will concentrate on teacher preparation, equipping yourself through art curriculum units with the skills to be an effective art educator.

Additional Entry Requirements
Applicants are selected on the basis of their portfolio and previous academic achievement. Applicants will be able to obtain the Visual Arts Application Guide online via addentry.qut.com or by phoning QUT Creative Industries Faculty on 07 3138 8114 in mid July. The final date to lodge the portfolio and other required materials to QUT is 19 October 2007. A $33 service fee applies; applicants applying for more than one Visual Arts course are required to pay only one service fee of $33.

OP Guarantee
The OP Guarantee does not apply to this course.

Career Outcomes
Graduates work as art teachers in secondary schools, are employed by State Government in education, as education officers with community art projects and in youth arts.

Professional Recognition
Graduates are eligible for registration as teachers in Queensland through the Queensland College of Teachers. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions.

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card, immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

QUT’s deferment policy does not apply to this course.

Computing Requirement
The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to
currently enrolled students who were unable to comply with regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF, has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements
Applicants must have completed an Australian Psychology Accreditation Council (APAC) approved four years of training, or equivalent, from QUT or another recognised institution and a minimum GPA of 5 or above. Additional requirements include two referee reports, an interview and an overall score of 7.5 with no sub-test below 7.0 on an IELTS test for non-native speakers of English.

Undertaking the supervised psychological practice component of the course requires conditional registration as a psychologist with the Psychologists Board of Queensland.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Further Information
Contact the Faculty of Education office on phone 07 3138 3947 or email educationenq@qut.edu.au or the School of Psychology & Counselling on phone 07 3138 4625 or email psyc.enquiries@qut.edu.au (please include postal address with email enquiries).

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

OVERVIEW

The Faculty of Health is an industry leader that educates professionals for a range of health related areas, conducts research and is actively engaged in continuing education and community service.

The Faculty has more than 5000 students enrolled in undergraduate and postgraduate programs which are delivered through five discipline-based schools of Human Movement Studies, Nursing, Optometry, Psychology and Counselling, and Public Health.

The School of Human Movement Studies offers programs that respond to the increasing community awareness of health, exercise, well-being, and fitness. A degree in Human Movement Studies equips graduates with the knowledge and skills for an active career in physical education, health education, rehabilitation, weight management, or exercise and sports science.

The School of Nursing is Queensland’s oldest provider of nursing education. Always at the cutting-edge of its field, the School offers the latest in clinical facilities and equipment, and a wide range of local, rural, and overseas opportunities for practical placements. Nursing graduates go on to work in a range of areas, including and beyond the traditional hospital ward. The School offers an undergraduate program in nursing, as well as specialised postgraduate coursework and research programs.

The School of Optometry is the only optometry training facility in Queensland and one of three in Australia. As such, Optometry graduates are always in demand. The optometry degree prepares graduates for entry into the professional workforce and for Australia-wide registration. Students apply their knowledge through supervised clinical practice both in the School’s purpose-built public optometry clinic and in the community. Postgraduate research programs are offered by the School at Masters and PhD level.

The School of Psychology and Counselling is located on QUT’s spacious bushland campus at Carseldine. The School offers excellent teaching, technology and research facilities for its undergraduate and postgraduate courses. Programs provide graduates with the opportunity to gain practical qualifications that are well regarded in the community. The Bachelor of Behavioural Science (Psychology) is a three-year degree program that prepares graduates for further studies in psychology and for employment in a number of fields. Graduates aiming for professional registration may seek admission to a fourth year of study in either the Bachelor of Behavioural Science (Honours Psychology) or the Postgraduate Diploma in Psychology. The School’s postgraduate offerings include Masters in Counselling, Clinical Psychology and Psychology (Educational and Developmental), and Graduate Diplomas or Certificates in Psychology and Road Safety. Studies can also be undertaken at doctorate level (PhD and Doctor of Psychology (Clinical)).

The School has a Family and Counselling Clinic, which is open to the public, and a research centre in Road Safety and Accident Prevention.

The School of Public Health is the most diverse of the Faculty’s schools, offering undergraduate majors in podiatry, nutrition and dietetics, health information management, health services management, paramedic and public health. A range of articulated postgraduate programs is also offered in a number of specialised fields such as environmental health, health promotion, occupational health and safety, risk management, health services management, public health and health science.

Staff in the Faculty maintain excellent ties with the health industry and work closely with national and international health and welfare organisations. These industry ties ensure that the Faculty’s programs deliver relevant skills and respond rapidly to new and emerging needs in health education in an era of advancing health technology.

The Faculty of Health is primarily based at QUT’s Kelvin Grove campus, with the School of Psychology and Counselling located at Carseldine campus in the northern suburbs of Brisbane. At Kelvin Grove campus, two purpose-built complexes house state-of-the-art facilities including:

- teaching clinics for podiatry, optometry and human movement studies (children’s activity and weight management programs, balance and gait assessment, health and fitness appraisals, and exercise prescriptions)
- a nursing clinical practice unit with operational hospital rooms and a clinical suite
- Human Movement laboratories for biomechanics, exercise physiology, motor control, and functional anatomy
- student computer laboratories with the latest in general and health-related software
- multimedia lecture theatres and tutorial rooms
- fully equipped research laboratories.

At Carseldine, a Family Therapy and Counselling Clinic provides supervised clinical experience for Counselling students.

RESEARCH CENTRES
Centre for Health Research
Research in the Faculty of Health is multidisciplinary, fostering collaboration and groundbreaking research across a number of health-related areas. The Faculty of Health is also involved in the Institute of Health and Biomedical Innovation (IHBI) which integrates Australia’s most creative minds in Health, Science and Biomedical Engineering research. The key strengths of the Faculty of Health are:

Ageing
The effect of an ageing population has been identified as a global health and social issue. Research questions related to both the impact of age-related disease and successful ageing underpin current research projects in the Faculty of Health. Research activities in this area relate to community and residential care; dementia; pain and symptom management; palliative care; ocular disease and the effects of vision impairment; foot health; gait; mobility and posture analysis; disorders of movement; injury in older people; social identity; families; mental health; nutrition; cognition and cognitive/memory deficit; the older driver; the older worker; and active ageing.

Physical Activity
The role of physical activity in the maintenance and restoration of health is a significant emerging area. There is increasing evidence of the role of physical activity in the prevention, treatment and management of a range of chronic disorders. Research in this area is aimed at the promotion of physical activity during childhood and adolescence and the prescription of exercise in the context of chronic disease, and at community-based health behaviour interventions. Research into prevention and rehabilitation of occupational and sporting injuries requires assessment of biomechanical, physiological, metabolic, neurological, sensory and psychological factors, concentrating on high risk groups and prevention of older people’s injuries. Other research into a range of disorders including neurological injury, vision loss, emotional or behavioural disorders in children, peripheral arterial disease, and sleep apnoea is also being conducted.

Human Health and Wellbeing
Research activities in this area relate to health services, policy and management, and population health. Areas of strength include the management of chronic diseases such as cancer, diabetes, obesity, coronary heart disease, and other emerging health conditions. These include quality of life and resilience; improving the care of hospitalised patients and managing early discharge; health outcomes for disadvantaged populations; health-promoting schools and early childhood environments; and prevention and management of mental health problems. Other research areas include environmental health, child maltreatment awareness and prevention, development and implementation of nutrition assessment and screening tools, and evaluation of nutritional status.

Human Behaviour
Research in human behaviour embraces fundamental social, cognitive and developmental processes in psychology. This includes research in attitude theory, group behaviour and decision making, child and adolescent development, memory, psycholinguistics, and the development of reading. Opportunities include research in addictive behaviour, eating, exercise, organic mental disorders, and health promotion. A range of research methods has also informed the development of psychological therapies and counselling, including rehabilitation, treatment of psychological trauma, anxiety disorders and depression, narrative therapy, family therapy, and counselling supervision.

Vision
Vision research provides an important resource for the community, industry, government and eye-care professions. There are a number of areas of collaboration with research activities in the other programs and across faculties deriving from the main research activities in this program which are visual optics, including aberrations of the eye and their correction; lens design and performance; myopia and optics of the eye; visual performance studies, including vision rehabilitation, vision and driving.
and vision and falls; and clinical research into the ocular surface, effects of refractive surgery, colour vision and electroretinography.

**Centre for Accident Research and Road Safety (CARRS-Q)**

**Accident and Injury Prevention Research**

Road safety and workplace accident prevention are key areas of research that have already led to the successful implementation of behaviour intervention and education programs. The Centre for Accident Research and Road Safety–Queensland (CARRS–Q) is a major collaborative research centre established as a joint venture initiative of the Motor Accident Insurance Commission (MAIC) and QUT. The Centre was created to address the enormous human, economic and social costs resulting from road crashes. It has expanded its research scope to include the broader area of injury prevention with a particular interest in youth and risk-taking behaviours.

The Centre’s charter is to identify, assess and initiate innovative priority-driven research and teaching programs leading to the development and implementation of strategies to improve safety on roads, in workplaces and in communities. The Centre aims to strengthen and broaden research and intervention development in the areas of vulnerable road users; illegal and high-risk behaviours; the human behaviour and technology interface; school and community-based road safety education; and workplace safety.

**Institute of Health and Biomedical Innovation**

How does your mind and body work?

Can you protect yourself from injury or illness?

What are the health care and treatment options?

The answers are not always available. Through research, IHBI is developing solutions that were previously unimaginable.

The Institute of Health and Biomedical Innovation (IHBI) integrates Australia’s most creative minds in health, science and biomedical engineering.

IHBI takes a novel approach to solving health problems where there are no barriers and nothing is set in stone. IHBI researchers work at the interfaces between traditional scientific disciplines to solve the issues affecting the wellbeing of Australia and neighbouring communities.

Opening in 2006, IHBI is based in a progressive $70-million facility at the Kelvin Grove Urban Village in Brisbane, Australia. IHBI is the result of collaboration between QUT, The Atlantic Philanthropies and the Queensland Government.

IHBI researchers, students and professional staff are organised into flexible teams able to apply their collective expertise to critical health issues.

Postgraduate training is a core element of IHBI’s mission and the Institute offers world-class career opportunities across the spectrum of health, science and biomedical engineering research. Postgraduate students enrol in QUT through one of the faculties and are then able to conduct research through IHBI according to the nature of their projects. The research programs at IHBI are organised into six research domains including:

- **Cells and Tissue Domain**

- **Investigating and restoring functionality to damaged human tissue: skin, muscles, bones, joints and eyes.**

- **Tropical Crops and Biocommodities Domain**

- **Growing plants that produce beneficial materials for human nutrition and therapy.**

- **Vision Improvement**

- **Caring for the eyes by advancing the techniques used to correct and maintain clear sight.**

- **Medical Device Domain**

- **Developing technologies to assist practitioners diagnose illness and injuries more accurately.**

- **Human Health and Wellbeing Domain**

- **Exploring critical health issues (eg ageing and chronic disease) and designing better community healthcare options.**

- **Injury Prevention and Rehabilitation**

- **Analysing and modifying human behaviour to avoid dangerous situations and developing strategies for damage recovery.**

The Institute’s business is promoting health and biomedical innovations in the community as well as in industry. The commercial outcomes of IHBI research generate new products and companies. IHBI facilitates the transfer of new knowledge into public policy, which leads to an improved health care industry. For more information visit [www.ihbi.qut.edu.au](http://www.ihbi.qut.edu.au)

Course Structure
This course consists of 16 units each from the Bachelor of Arts and Bachelor of Human Services. The arts course structure allows you maximum flexibility to mix and match study units in a diverse range of themes including international, Australian, contemporary, historical, environmental, ethics, social change and language studies. In human services, you will acquire a range of professional skills and will specialise in a practice field from child and family services, aged services, corrective services, disability services, or services to young people.

Refer to the Bachelor of Arts (HH01) and Bachelor of Human Services (HH02) entries for further details.

Professional Practice Placements
As part of the Human Services component, you will have the opportunity to apply knowledge and skills through two supervised, professional practice placements in human service organisations.

You will first explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in your final year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
The course provides a broad range of options for study at the Graduate Certificate level. Students can select four (4) units from across a range of Faculty of Health units. It is designed for students who do not want to specialise but prefer to select a combination of units to meet their needs. Selection of units is subject to approval by the course coordinator.

Entry Requirements
Students must hold an appropriate bachelor degree or other qualifications/work experience acceptable to the Dean.

Course Structure
Students are required to complete any four units (totalling 48 credit points) from List A. No more than two (24 credit points) senior undergraduate units can be included in the total.

Course Articulation
This course articulates fully into HL68 Graduate Diploma in Health Science and HL88 Master of Health Science

Special Note
Completion of units in Health, Safety and Environment or Environmental Health does not qualify graduands to practice in these areas.

Overview
This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in nursing. In addition, you will be able to apply your knowledge and skills to clinical health, fitness and rehabilitation. Graduates find employment in areas such as health care settings or health promotion agencies.

Why choose this course?
QUT has the longest running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course.

The course provides a good balance of nursing theory and practice and supporting studies in biological, behavioural and social science, and the humanities, together with studies in human movement relevant to many health care settings.

Career Outcomes
This double degree prepares multi-skilled professionals who meet current requirements for employment in the area of nursing and, in addition, can apply their knowledge and skills in exercise and sports science settings.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership
The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au. Graduates are also eligible for membership of the Australian Association for Exercise and Sports Science.

Recommended Study
Any of Maths B or C, Biological Science, Chemistry, Health Education, Physical Education or Physics.

Other Course Requirements
The clinical practice units in the nursing component require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. You will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units and you are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1. Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

The human movement studies component requires the purchase of the practicum shirt (approximately $50). Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

Further Information
For detailed information about this double degree, please call (07) 3138 3824 or email nursing.enquiries@qut.com

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.
Find out more on deferment.

Overview
This double degree program will prepare you as a multi-skilled professional who meets current requirements for employment as a nutritionist/dietitian, and in a range of exercise and sports science professions. At present, the demand for sports nutritionists is growing rapidly and there is a growing field in the area of rehabilitation science for people with dual qualifications.

Why choose this course?
This double degree will prepare you for a career in the exercise, health, rehabilitation, nutrition and dietetics, and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background, complemented by practical skills obtained from a variety of practicum placements. Practicum locations can include placements in rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, or the health and fitness industry. Opportunities exist to pursue these practicum placements at local, state, national and international locations.

Career Outcomes
Career settings include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, health and fitness industry, and personal training.

Professional Membership
Graduates are eligible for membership of the Dietitians Association of Australia and may enrol in the Accredited Practising Dietitian (APD) program. Graduates are also eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS) with specialist accreditation as exercise physiologists.

Honours
A degree with honours may be awarded to a student who has recorded outstanding achievement in a component of the double degree program.

Other Course Requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), attainment of a current first aid certificate prior to the commencement of your third year, and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Students who are required to undertake placements off-campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination is required before placement in Queensland Health facilities.

OP Guarantee
The OP Guarantee does not apply to this course.

Why choose this course?
Graduates of this double degree develop skills in the complementary areas of nursing and public health. Not only are graduates eligible for Queensland Nursing Council registration, but they also develop skills in public health areas such as Indigenous health, population health problems and risk factors for illness.

Overview
This double degree will prepare you as a multi-skilled professional who meets current requirements for employment in the area of nursing and is able to apply knowledge of public health.

Career Options
Graduates will find employment in various health care settings or health promotion agencies.

Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings. Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership
The Bachelor of Nursing is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on QNC registration visit www.qnc.qld.gov.au Graduates are also eligible for membership of the Public Health Association of Australia and the Australian Association of Health Promotion Professionals.

Other Course Requirements
The clinical practice units require you to undertake block practicums of two or more weeks duration during semester. You will be required to wear a uniform while on clinical practice at a cost of approximately $150. As part of the nursing program, you will be required to complete a course of vaccinations for Hepatitis B before commencing your clinical practice units. You will also be required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

Total cost for uniform, footwear, first aid certificate and Hepatitis B vaccination is approximately $500.

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

Students undertaking a clinical placement in a Queensland Health facility are required to complete "The Essentials" component of the student orientation package, available on the Queensland Health website.

Overview
This double degree program will prepare you as a multi-skilled professional who will have an understanding of exercise and sports science and public health. Graduates may work in the area of physical activity to develop policy and programs to improve the health of the public and to help prevent and manage chronic disease.

The human movement studies component develops skills for careers in health and wellness, clinical health, fitness and rehabilitation, workplace health, fitness and safety. Teaching clinics give students practical experience in various areas such as activity and weight management, health and fitness, and exercise prescription.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population’s health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?
With the percentage of the Australian population with preventable chronic diseases such as diabetes, obesity and heart disease growing, there is a demand for graduates who can use their skills to address these health issues. Graduates from the double degree will have skills in the two complementary areas of population health and physical activity so they can contribute effectively to improving the health of Australian communities.

Human Movement Studies
The course provides skills and theoretical knowledge across the basic sciences of human and functional anatomy, exercise physiology as well as studies in biomechanics, motor learning and control, and exercise and sports psychology.

Public Health
The course provides knowledge and skills to address major health issues with a focus on community health, nutrition, and health promotion. During the course students will study epidemiology, biostatistics, health promotion, understanding disease, culture, psychology and health behaviours.

Career Outcomes
Graduates of the double degree may work in local and state government and in family and community service organisations, as physical activity program planners, policy analysts, project managers, health promotion officers, and physical activity program evaluators.

Human Movement Studies
Graduates can work in a range of exercise and sports science settings such as corporate health, family and community services, the health and fitness industry, local/state government agencies, state sporting associations, institutes of sport, universities and colleges, and personal training.

Public Health
Graduates work as community health officers, policy officers, program evaluators, health promotion officers in community health, project officers, and consultants. They work in both public and private sectors such as state and federal health departments, population health units, community health centres, divisions of general practice, nongovernment and health organisations, and international health agencies.

Professional Membership
Australian Association of Exercise and Sports Science; Public Health Association of Australia and the Australian Health Promotion Association

Campus: Kelvin Grove

Entry requirements
Applicants should have completed QUTs Bachelor of Nursing (NS40, NS48) or equivalent and have attained a grade point average (GPA) of at least 5.0 over the pass degree.

Application should be made at the end of the final year of the pass degree or within 18 months of completing that degree.

If applicants do not satisfy the normal entry requirements but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Dean.

Overview
The honours programs enable you to develop knowledge, problem-solving and conceptual skills at an advanced level. The programs provide you with education in the techniques and skills for later postgraduate research and enhance professional career progressions.

Electives
Students undertake a 12 credit point elective. This may be selected from any honours or postgraduate program offered by the University, subject to prerequisite requirements and with the approval of the students supervisor and the course coordinator. Normally the elective unit is chosen from within the student's discipline area or from an area that complements or is germane to the students study program. For further information on available units contact the relevant school honours coordinator. Students may also select either HLN405 Qualitative Research or HLN706 Advanced Quantitative Research Methods or MAN009 Experimental Design and Statistical Analysis for Research as an elective.

Dissertation
The Dissertation is one unit valued at 48 credit points and represents 50 per cent of the Honours course. Work on the dissertation commences during semester 1 (full-time mode) or semester 2 (part-time mode) and is completed over the course of the program. Preparation and presentation of the Dissertation is completed under the guidance of a supervisor.

Overview
This course comprises the first two semesters of the Master of Health Science (HL88). The course is designed to develop depth and breadth of study towards professional specialisations or to provide a breadth of study for those students not taking a specialisation. The course is designed to enhance professional development in a range of specialisations. To qualify for the award of a major, students must complete 48 credit points (4 units) of advanced study in that area.

Students wishing to complete a Graduate Diploma qualification in Health, Safety and Environment should apply for entry into PU65 Graduate Diploma in Health, Safety and Environment.

Entry requirements
To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean of Faculty, which may include substantial work experience or involvement in relevant research activities.

Majors
Majors are offered in the following areas: environmental health, health services management, health promotion, risk management, women's health, aged care and cross specialisation. To complete a major, students must complete at least four units from the same discipline area from with the Faculty of Health.

Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Course Structure
The Graduate Diploma in Health Science consists of eight units totally 96 credit points selected from units offered by Schools within the Faculty of Health (List A units). No more than two (24 credit points) advanced undergraduate health units can be included in the total.

Completion of four units (48 credit points) in an area of specialisation entitles the graduate to a Graduate Diploma in Health Science within a specific discipline, eg. Graduate Diploma in Health Science (Health Promotion).

Course Articulation
This course articulates fully into HL88 Master of Health Science.

HL38 Graduate Certificate in Health Science fully articulates into this course.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

Master of Applied Science (Research) (HL84)
Year offered: 2007
Admissions: Yes
CRICOS code: 007897G
Course duration (full-time): 1-2 years
Course duration (part-time): 2-4 years
Domestic fees (per credit point): RTS/RTA; 2007 $130 per credit point (exceeded max. entitlement) (subject to annual review)
Domestic fees (indicative): 2007: $12480 (exceeded max. entitlement)
International Fees (per semester): 2007: $8,500 per semester (subject to annual review)
Domestic Entry: At any time
International Entry: At any time
Course coordinator: Professor Mary Courtney
Campus: Kelvin Grove and Carseldine

Entry Requirements
A bachelor degree in health science, applied science or other approved degree from QUT with a grade point average of at least 5, or an equivalent qualification, or submission of such other evidence of qualifications as will satisfy the academic board that the applicant possesses the capacity to pursue the course of study.

Application for Admission
The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee.

Applications for admission should set out fully the candidate's intended course of study. The proposed course of study should include the area of study, the coursework to be undertaken, the proposed title of the thesis to be written, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School and Director of Centre in which the proposed research program is to be undertaken.

Course Structure
Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Students may be required to undertake an appropriate course of study concurrently with the research program. The course of study normally includes a program of assessed coursework; participation in University scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation. The course consists of four stages: preparation, confirmation of candidature, implementation and submission of a thesis.

Course Coordination
Students undertake their program of research through one of the Faculty's five schools. Research expertise within the Faculty covers activities in ageing; physical activity, disability, injury and rehabilitation; health and wellbeing; human behaviour; vision; and accident research. Potential students are encouraged to contact the relevant school prior to submitting an application.

Course Duration
The length of the course will vary depending on the applicants' qualifications on admission and their progress during the course. The minimum period of enrolment in the program is:
- 1.5 years for a full-time student with a three year undergraduate degree, or
- one year for a full-time student with a four year undergraduate degree, including honours or other relevant programs (including key research methods, literature review foundations and other coursework requirements), or
- one semester for a full-time student transferring from another higher degree research program.

The maximum period of enrolment for a full-time student is 2 years or equivalent (2 EFTSL).

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Further Information
For more information about this course, please contact the Faculty of Health on phone 07 3138 3075 or email health.research@qut.com

Overview
This course develops advanced knowledge and skills in a choice of health science disciplines. Its flexible design allows you a large choice of elective units to provide: specialisation in a professional discipline, cross-specialisation (with appropriate academic approval), or a broad understanding of health-related disciplines.

Increasing numbers of electives are being offered through distance delivery and flexible delivery, which may include study modes such as block attendance, external study and transfer of material via the internet. This course is not available externally to international students who wish to study off-shore.

Entry requirements
To be eligible for admission, candidates should: hold an appropriate three-year Bachelor degree or equivalent and should normally have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year honours degree; or hold an appropriate four-year Bachelor degree or equivalent; or hold an appropriate graduate diploma; or hold other qualifications acceptable to the Dean, which may include substantial work experience or involvement in relevant research activities.

It is normally expected that candidates have attained a minimum GPA of 5.0 in the Bachelor qualification. Candidates not meeting this requirement must provide additional information to support special admission.

Majors
Majors are offered in the following areas:

* Aged Care
* Environmental Health
* Health Promotion
* Health Services Management
* Health, Safety and Environment
* Risk Management
* Women's Health
* or a cross-specialisation where no major is taken, but

students study across a variety of fields

To complete a major, students must complete at least four units from the same discipline area from within the Faculty of Health.

Course Structure
The course consists of at least eight (8) units offered by the Schools of the Faculty of Health (List A). The remaining four units can be taken as four elective units either from List A or List B. An array of elective units allow students to either specialise in their professional discipline or to choose a coherent group of units from more than one specialist area.

To complete a major in any of the major areas of study students must complete at least four units (48 credit points) in that discipline area.

Candidates can choose electives from a wide range of university postgraduate units, but these must be approved by the course and subject-area coordinators.

Students with a four-year degree or three-year degree with additional one-year honours may be able to obtain advanced standing up to a maximum of 48 credit points for previous study.

Special Notes
Students can only graduate with one specified major (ie only one major will appear on the official academic record). Students may elect to change majors during their course as appropriate but should seek academic advice before doing so.

Students cannot normally enrol directly in the Masters Degree in the area of Health, Safety and Environment unless they have completed relevant undergraduate qualifications in this area to the satisfaction of the course coordinator. Special consideration may be given on an individual basis.

Course Articulation
Student who complete the Master of Health Science may be eligible for up to one year of advanced standing in HL90 Doctor of Health Science.

After successfully completing the equivalent of two semesters full-time study, students may exit the program with a Graduate Diploma in Health Science.

After successfully completing the equivalent of one semester of full-time study, students may exit the program with a Graduate Certificate in Health Science.

HL38 Graduate Certificate in Health Science, HL68 Graduate Diploma in Health Science and PU65 Graduate Diploma in Health, Safety and Environment, fully articulate into HL88 Master of Health Science.

NS64 Graduate Diploma in Nursing and NS85 Master of Nursing students may apply for a maximum of 48 credit points of advanced standing (equivalent to List B) towards...
HL88 Master of Health Science. No advanced standing will be granted towards HL38 Graduate Certificate in Health Science or HL68 Graduate Diploma in Health Science. This is in addition to any List A units completed.

The following courses also articulate with the Master of Health Science:
* Graduate Certificate in Aged Care
* Graduate Certificate in Ambulance Management (QAS)
* Graduate Certificate in Community Practice
* Graduate Certificate in Environmental Health
* Graduate Certificate in Health Management (QH)
* Graduate Certificate in Health Promotion
* Graduate Certificate in Health Services Management
* Graduate Certificate in Risk Management
* Graduate Certificate in Women's Health

Entry requirements
Applicants should hold a four-year degree or its equivalent with Honours I or Honours IIA or its equivalent from QUT or another recognised institution, and two years practice in a position of professional responsibility appropriate to the proposed course of study.
If, in the Dean's opinion the candidate has not completed substantial professional practice, then the candidate will be required to gain substantial professional experience during the course of the doctorate.

Application for Admission
Before submitting an application, potential candidates should contact the Course Coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying any specified documentation. The application should be accompanied by a brief proposal for the course of study and the research field.

Advanced Standing and Articulation
Advanced standing of up to a maximum of 96 credit points may be granted to candidates who have completed an appropriate Masters qualification or its equivalent.

The Doctor of Health Science articulates with the Master of Health Science. Students in the MHlthSc who select their program of study to be consistent with the coursework requirements for the Doctor of Health Science will be eligible for the full credit of 96 credit points.

Overview
This course is designed to develop the knowledge, skills and generic attributes that will prepare health professionals for advanced positions in their profession and for leadership roles.

Students will develop an in-depth understanding of contemporary health science; extend competence in research methods; demonstrate high-level critical thinking and reflective practice skills; enhance their communication skills and contribute to the body of knowledge underpinning their profession.

Students complete one year full time equivalent of coursework including research methods units and advanced studies in an area of specialisation followed by a single or series of research workplace based or industry linked projects to complete the research work which may be presented as a thesis or portfolio.

Course Structure
Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students:

a) choose one of the major study areas list above
b) complete four (4) units from this major study area (at least two units must be from List B)
c) complete two (2) units in research methods
d) complete one unit from the major study areas list or other approved unit.

Students are required to attend a compulsory residential program of four days annually during their candidature.

Overview
Human movement studies graduates work in a diverse range of settings as exercise physiologists, sports administrators, exercise therapists, strength and conditioning specialists and rehabilitation specialists.

Why choose this course?
Human movement studies is a pathway to a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions. This course will provide you with both the necessary theoretical background and practical skills obtained from a variety of practicum placements at local, state, national and international locations. You can complement your degree with a choice of elective opportunities from within the faculty or university-wide.

Career Options
The course provides skills for careers in a range of exercise and sports science professions. Career settings include:
- rehabilitation and hospital clinics
- family and community services
- corporate health and fitness
- local and state government agencies
- universities and colleges
- institutes of sport
- the health and fitness industry
- personal training.

Professional Membership
Graduates are eligible for professional membership of the Australian Association of Exercise and Sports Science (AAESS). This four-year degree will qualify you for exercise physiologist classification by the professional body.

Electives
Electives are available in various areas including psychology of rehabilitation, anatomy, physiology, biomechanics, motor control and learning, children in sport, sociology of sport and exercise prescription. Students must choose at least 4 out of the 6 units listed in LIST A. The remaining 5 units can be elected from either the remaining 2 units in List A and any 3 from the units in List B, or any units from List B, or from any approved discipline within QUT (with course coordinator’s approval).

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Recommended Study
Any of Maths B, Maths C, Biological Science, Chemistry, Physics, Health Education or Physical Education.

Other course requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to the commencement of third year and a Blue Card, depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Further Information
For detailed information about this course, please call (07) 3138 3360.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview

This three-year degree course combines the complementary areas of human movement studies and nutrition.

Why choose this course?

This degree will provide you with a foundation for a career in the exercise, health, fitness and nutrition industries.

The degree also provides you with a range of practical experience, including 100 hours of work experience (practicum) in the third year. This is a valuable opportunity for you to gain hands-on experience in the industry. You can work in fitness centres, sports associations and other related organisations.

Career options

Graduates may find employment in the area of nutrition as well as in a range of health and fitness settings such as community services, the health and fitness industry and local and state government.

Graduates are not qualified as dietitians or exercise physiologists.

Other course requirements

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to the commencement of third year, and a Blue Card, depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Overview
In this double degree, you will complete an Australian Psychology Accreditation Council (APAC) accredited program of study in psychology and a Bachelor of Arts with a multidisciplinary major in international and global studies, society and change, ethics and human rights, community studies, or Australian studies.

Why choose this course?
The Bachelor of Behavioural Science (Psychology) provides a thorough grounding in the scientific bases of psychology, and deals with the research and statistical methods used in the discipline. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In your second and third years you are able to explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology.

From the Bachelor of Arts you will also develop an understanding of society and the impacts of global, social, environmental and technological change. The high-level communication and social research skills you will acquire are valuable in a wide range of professions. You will gain analytical, research, report writing, communication and interpersonal skills which can be used across many disciplines.

After successful completion of the degree, you may pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist, or seek postgraduate studies in psychology or other disciplines.

Career Options
The analytical, research and interpersonal skills acquired through the psychology units have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Some graduates choose careers in related professional and semi-professional areas such as counselling or audiology, which may typically require further specialist study. Other possible career paths include international affairs, government, community development and public policy. You may wish to pursue careers in professional areas of psychology, which will require you to undertake further study and be registered with the State Registration Board.

Recommended Study
Maths A, B or C is recommended.

Psychology Electives
Electives include psychology and gender, human sexuality, psychopharmacology of addictive behaviour, substance abuse, forensic psychology and the law, health psychology, social psychology, occupational psychology, counselling, advanced statistical analysis, and road safety and traffic psychology.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

NOTE
RESTRICTED INTAKE IN 2003.
The Bachelor of Applied Science(in Human Movement Studies)/Bachelor of Education (Secondary) IF73 course has been replaced by a newly coded Bachelor of Applied Science (in Human Movement Studies)/Bachelor of Education (Secondary) IX04 course with effect from 2003. There will be no new intake into this course in 2003 with the exception of students commencing their studies with significant advanced standing from previous tertiary level study.

Entry requirements
Applicants must have completed Year 12 (or equivalent). Assumed Knowledge: English (4 SA). Recommended Study: any of Maths B or C, Biological Science, Chemistry, Health Education, Physical Education, Physics, or Health and Physical Education.

Career Outcomes
The Bachelor of Applied Science (in Human Movement Studies) course provides skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local/state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. Students are also prepared to teach in two curriculum areas (namely Physical Education with a second teaching area in Mathematics, English, Health Education or Biology.

Professional Recognition
The Bachelor of Education (Secondary) is recognised by the Queensland Board of Teacher Registration as meeting the requirements for registration as a teacher in Queensland. Graduates are eligible for associate membership of the Australian Association for Sports Science. Applicants for registration as teachers in Queensland are subject to national criminal history checks.

Course Structure
Students are required to complete 240 credit points in approved Human Movement Studies (and other areas) and 192 credit points from the Faculty of Education.

Teaching areas for students completing this award are Physical Education (first teaching area) with Health, Mathematics, Biology or English as their second teaching area.

Students must also complete EDB001 Teaching and Learning Studies I: Teaching in New Times, SPB001 Human Development and Learning, SPB002 Psychology of Learning and Teaching and CLB341 Language Technology & Education in the first five semesters.

In the final semester, students may undertake the Middle Years of Schooling Pathway developing the knowledge, skills and understanding required to participate fully in the middle schooling reform movement.

Graduate Certificate in Risk Management (IF88)

Year offered: 2007
Admissions: Yes
Course duration (external): 2 semesters
Domestic fees (per credit point): Commonwealth Supported Place; Full fee tuition 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007: $12480
Domestic Entry: February
Total credit points: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Thomas Tenkate
Campus: Kelvin Grove

Overview
This course equips graduates with problem solving and information management skills that will enable them to apply their specialist background knowledge in the field of risk management. It is designed to draw on real issues that face professionals yet to not limit their ability to a single setting.

Entry requirements
Students should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Special entry can be considered if a student has experience and responsibility in risk management. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

Course Structure
Students complete four specified units part-time over two semesters. This course is offered by external study only.

Course Articulation
This course fully articulates into the Master of Health Science.

International Student Entry
This course is not available to international students.

Further information
For more information about this course, please call the School of Public Health Student Centre on 07 3864 5878 or email sph.studentcentre@qut.com

Overview

This double degree provides the skills for careers in a range of exercise and sports science settings and also the training to teach in two curriculum areas. The course is being reviewed during 2007 and the course structure for 2008 will be available on studyfinder.qut.com mid-2007.

Why choose this course?

This double degree will prepare you for a career teaching physical education with an emphasis on exercise, health, nutrition and sports science. You will also develop a theoretical background in human movement, complemented by practical skills obtained from a variety of practicum placements.

Career Options

The Bachelor of Applied Science (in Human Movement Studies) course provides the skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training. You will also be prepared to teach in two curriculum areas: physical education with a second teaching area in mathematics, English, health education or biology.

Professional Recognition

Graduates are eligible for registration as teachers in Queensland through the Board of Teacher Registration.

Other Course Requirements

Blue Card
As required by the Commission for Children and Young People and Child Guardian Act (2000), student teachers must undergo a criminal history check and be issued with a Blue Card by the Commission prior to undertaking field experience in a school or centre or undertaking activities in any unit which may involve contact with children. You must apply for a Blue Card as soon as you are accepted into the course to allow sufficient time (up to eight weeks) for it to be issued. For more information and an application form visit bluecard.qut.com

Additional Costs

There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50) and the attainment of a current first aid certificate prior to the commencement of your third year. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Computing Requirement

The increased and more creative use of online teaching technology in this degree requires that you have access to suitable computer facilities with a minimum equivalent of a Pentium 3 processor, 56k modem and internet access.

Recommended Study

any of Maths B, Maths C, Chemistry, Physics, Biological Science, Health Education or Physical Education

Further Information

For detailed information about this course, please call (07) 3138 3360 (School of Human Movement Studies) or (07) 3138 3947 (Faculty of Education).

Deferment

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
The Master of Psychology (Educational and Developmental) prepares students to work as educational or developmental psychologists in a range of settings including schools, disability services, hospitals, employment agencies and private practice.

Offered jointly by the faculties of Health and Education, the course has been designed to meet the requirements for full registration as a psychologist in Queensland, and for membership of the Australian Psychological Society (APS) and the associated College of Educational and Developmental Psychologists. As the only course in Queensland offering advanced training in this area of specialisation, the Master of Psychology (Educational and Developmental) offers an innovative and stimulating program of coursework, practicums and research in human development and learning.

Entry Requirements
Applicants must have completed an Australian Psychology Accreditation Council (APAC)approved four years of training, or equivalent, from QUT or another recognised institution and a minimum GPA of 5 or above. Additional requirements include two referee reports, an interview and an overall score of 7.5 with no sub-test below 7.0 on an IELTS test for non-native speakers of English.

Undertaking the supervised psychological practice component of the course requires conditional registration as a psychologist with the Psychologists Board of Queensland.

International Student Entry
QUT advises that international students may enrol only in full-time studies.

Further Information
Contact the Faculty of Education office on phone 07 3138 3947 or email educationenq@qut.edu.au or the School of Psychology & Counselling on phone 07 3138 4625 or email psc.enquiries@qut.edu.au (please include postal address with email enquiries).

Working With Children Check
Working With Children Check - As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 12 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Overview
This double degree combines the strength of general business theory and skills as well as units specifically related to managing health services.

Why choose this course?
The degree will provide you with the theory and skills to manage change effectively in the health care system. You will gain a strong background of theory and practice to enable you to work effectively in the complex environment of health care and be influential in terms of decision making.

Career Options
Health Service Management graduates are employed in administrative and management capacities in private and public health services. Such services include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Your business degree will give you a broader base of commercial knowledge, making you more attractive to employers in these environments. You also have the opportunity to major in a specific business area to strengthen your career choices. For more information on careers in business, please refer to studyfinder.qut.com

Professional recognition
Both degrees allow you to satisfy the requirements of membership for the relevant professional bodies. The Bachelor of Health Science (Health Services Management) degree may allow graduates, subject to unit selection, to satisfy the academic requirements for membership of the Australian College of Health Service Executives (ACHSE) and other professional associations.

Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Please refer to the Faculty of Business prospectus or studyfinder.qut.com for more information on recognition for graduates from the Bachelor of Business component.

Course Design
Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Health Science program and 192 credit points from the Bachelor of Business program.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Overview
This double degree combines training for careers in a range of exercise and sports science settings with the strength of general business theory and skills.

Why choose this course?
This double degree will prepare you for a career in the exercise, health, rehabilitation and sports science industries, where you will work with people from a variety of professions.

This course will provide you with the necessary theoretical background and practical skills obtained from a variety of practicum placements. Practicum locations can include rehabilitation and hospital clinics, family and community services, corporate health and fitness, local and state government agencies, universities and colleges, institutes of sport, and the health and fitness industry.

Career Options
The Bachelor of Applied Science (in Human Movement Studies) course provides skills for careers in a range of exercise and sports science settings such as corporate health and fitness, family and community services, the health and fitness industry, local and state government agencies, state sporting associations, rehabilitation clinics, institutes of sport, universities and colleges and personal training.

Your business degree will give you a broad base of commercial knowledge making you more attractive to employers, even if you wish to work predominantly in the health science area. You also have the opportunity to major in a specific business area. For more information on careers in business, please refer to the Faculty of Business prospectus or visit studyfinder.qut.com.

Professional Recognition
Graduates of the Bachelor of Applied Science (in Human Movement Studies) degree are eligible for membership of the Australian Association for Exercise and Sports Science. Depending on your choice of business major, you may also be eligible for membership of a number of professional bodies, including the Australasian Institute of Banking and Finance, CPA Australia, the Institute of Chartered Accountants in Australia, Chartered Secretaries Australia, the Economic Society of Australia (Qld), Advertising Federation of Australia, Australian Institute of Management or the Public Relations Institute of Australia.

Course Design
Students are required to complete 408 credit points comprised of 216 credit points from the Bachelor of Applied Science (in Human Movement Studies) program and 192 credit points from the Bachelor of Business program.

Recommended Study
Any of: Maths B or C, Chemistry, Physics, Biological Science, Health Education, Physical Education, or Health and Physical Education.

Other Course Requirements
There are additional costs associated with this course including the purchase of the practicum shirt (approximately $50), the attainment of a current first aid certificate prior to commencement of year three and a Blue Card to work with children depending upon the practicum site. Attendance at the orientation camp is highly recommended though not compulsory (approximately $115).

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience. Further information is available at www.deferment.qut.edu.au

Overview
This exciting new double degrees will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing.

The degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people's health and their lives.

The media and communication component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The nutrition component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition, food studies, anatomy and physiology, nutritional science and nutrition education. The course has innovative and integrated industry placement options for practicum experience.

Why choose this course?
Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication
The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Nutrition
The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

The course has innovative and integrated industry placement options for practicum experience.

Career Outcomes
Graduates of the double degree may work as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Medicine and Communication
Graduates may work as advertising professionals; communication managers; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Nutrition
Graduates work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership
Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.
Further Information

Overview
This exciting new double degree will produce graduates who are media communication specialists with expertise in the ever-growing area of public health, nutrition and wellbeing. This degree combination will satisfy both your professional and personal needs. You will have a course and a career that is both creative and able to enhance people’s health and their lives. The course has innovative and integrated industry placement options for practicum experience.

The media and communications component provides both practical skills in multimedia, writing and communication combined with study in local and international media industries, media and communication industries.

The public health component provides the knowledge and skills to address major health issues both nationally and internationally with a focus on assessment of a population’s health needs and strategies to meet them. Students gain an understanding of health care planning, community health, health promotion, the health needs of Indigenous Australians and project management.

Why choose this course?
Health communication is a globally recognised and rapidly expanding field. Graduates can expect to gain employment in a range of public and private sector organisations.

Health professionals with superior communication skills and the ability to utilise the power of media technologies will make significant contributions to improving our quality of life, both locally and internationally.

Media and Communication
The course provides both practical skills in multimedia, writing and communication combined with study in local and international media and communication industries. Students combine core units in the creative industries (including practical skills in multimedia, writing and communication), with the study of media and communication, including media audiences, professional communication, new media technologies, and online communications.

Public Health
The course provides knowledge and skills to address major health issues both nationally and internationally with a focus on community health, nutrition and health promotion.

The course has innovative and integrated industry placement options for practicum experience.

Career Outcomes
This double degree prepares graduates as health communication specialists; health and nutrition writers; health promotion officers and educators; marketing and managerial roles in health and product promotions; health print and online editors; health communication managers; and e-health marketers.

Media and Communication
Graduates may work as advertising professionals; media and cultural policy developers for government and community organisations; information officers; internet professionals; media buyers and planners; media marketers; media industry specialists; teachers and researchers; and print and online publishing professionals.

Public Health
Graduates may also work as community health officers; policy officers; program evaluators; health promotion officers in community health; project officers; and consultants. These practitioners work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership
Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

Overview
The Graduate Certificate in Intensive Care Nursing has been designed to provide graduates with a short, focussed program to upgrade qualifications, knowledge and skills in intensive care nursing. The course will enable students to develop competence in the practice of intensive care nursing, examine major issues and trends in intensive care nursing scholarship and practice and develop an understanding of research applied to intensive care nursing practice. Students are required to undertake suitable workplace based clinical experience during the program, by maintaining employment in an intensive care unit at least 0.6 FTE.

Entry requirements
Students must:
* be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence;
* have gained a degree in nursing (or equivalent) from a recognised institution;
* normally have at least one year of appropriate post-registration clinical experience
* at least three months recent clinical experience in an intensive care facility and be working at least 0.6 FTE in a level 2 or 3 intensive care facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Course Structure
The Graduate Certificate in Intensive Care Nursing comprises four units. Three core units address topics including advanced health assessment, evidence based approaches to nursing practice in intensive care, and theory, processes and practices associated with preventing and managing common health problems experienced by clients within an intensive care environment. The fourth unit enables students to further develop knowledge and skills relevant to a particular critical care environment. These environments may include cardiac, emergency or intensive care practice settings.

The course can be undertaken by internal or external mode and mid-year entry is available from 2007.

Course Articulation
The Graduate Certificate in Intensive Care Nursing has full articulation with NS64 Graduate Diploma in Nursing and NS85 Master of Nursing programs.

International Student Entry
This course is not available to international students.

Overview
The Graduate Certificate in Cancer Nursing has been designed to provide graduates with a short, focussed program to upgrade qualifications, knowledge and skills in cancer nursing. The course will enable students to develop competence in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, and develop an understanding of research applied to cancer nursing practice. Students are normally required to undertake suitable workplace based clinical experience during the program, by maintaining employment in an oncology/haematology setting at least 0.6 FTE.

Entry requirements
Students must:
* be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence;
* have gained a degree in nursing (or equivalent) from a recognised institution;
* normally have at least one year of appropriate post-registration clinical experience.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

Students enrolling in the Cancer Nursing strand who are not employed in a clinical setting relevant to their program may be required to undertake additional supernumerary clinical experiences to meet the requirements of the course.

Course Structure
The Graduate Certificate in Cancer Nursing comprises three core units and one elective unit offered by the School of Nursing. Core units address topics including advanced health assessment, evidence based approaches to nursing practice in cancer care, and theory, processes and practices associated with preventing and managing common health problems experienced by people with oncological or haematological malignancies. The elective unit enables students to further develop knowledge and skills relevant to a particular speciality within the field of cancer care. These may include chemotherapy practice settings, palliative care services, transplant units or other selected areas of cancer practice.

The course can be undertaken by internal or external mode and may be commenced mid-year.

Course Articulation
The Graduate Certificate in Cancer Nursing has full articulation with NS64 Graduate Diploma of Nursing or NS85 Master of Nursing.

Overview
The Graduate Certificate in Community Practice has been designed to provide graduates from nursing and other health disciplines with a short, focussed program to upgrade qualifications, knowledge and skills in community health. The course is designed for registered nurses or other health professionals working in community settings to enable them to develop advanced knowledge and skills in key areas of community health practice. Students will examine major issues and trends in community health practice, and develop an understanding of research and evaluation applied to community health practice.

Entry requirements
Applicants for admission should hold an undergraduate degree or diploma in the health professions (or equivalent), or alternatively, candidates who are registered nurses or who hold other qualifications and/or professional experience that are approved by the Head of School of Nursing may be admitted.

Course Structure
The Graduate Certificate in Community Practice comprises three core units and one elective unit offered by the School of Nursing. Core units address topics including: principles of primary health care, including community participation, public health and health promotion; developing and maintaining collaborative partnerships in community practice; and project management and program planning, implementation and evaluation in community practice. The elective unit enables students to further develop knowledge and skills in an area of choice relevant to community health practice.

The course can be undertaken by internal or external mode and may be commenced mid-year.

Course Articulation

Overview
Nurses are an integral part of the health sector, providing health care to individuals, families and communities in a wide range of settings.

Why choose this course?
QUT has the longest running tertiary-based School of Nursing in Queensland, with many years of industry consultation and experience. This long-term and extensive collaboration and partnership provides you with unparalleled practical experience throughout your course.

Advanced standing is available to applicants with a degree in another discipline (see Bachelor of Nursing A Graduate Entry or TAFE trained enrolled nurses (see Diploma of Nursing/Bachelor of Nursing).

The course provides a good balance of nursing theory and practice, and you will undertake supporting studies in biological, behavioural and social science, and the humanities. You will be supervised by academic and clinical staff considered leaders in the nursing field. Approximately half of the learning experiences are clinically based to ensure you gain extensive practical experience as a nurse. Clinical placements are available in a range of public and private hospitals and community services throughout Brisbane and in regional and rural areas of Queensland.

Career Options
Nursing graduates are in high demand and have excellent employment opportunities in a variety of health care settings or health promotion agencies. These include public and private hospitals and nursing homes, as well as community service areas such as community health, occupational health, domiciliary nursing services, school health, Aboriginal health, pathology laboratories, alcohol and drug dependence and the armed services.

Many nurses specialise in a specific area such as aged care, mental health, paediatrics, midwifery, intensive care, cancer, medical/surgical, community practice, emergency or women's health.

Nurses are in demand all over the world and QUT nursing graduates have been successful in obtaining employment overseas, including in Britain, New Zealand and North America.

Professional Membership
This course is recognised by the Royal College of Nursing, Australia (RCNA) as satisfying the academic requirements for admission as a professional member. The Bachelor of Nursing is an accredited Nursing Pre-registration course of the Queensland Nursing Council (QNC). For further information on registration requirements please visit the Queensland Nursing Council website.

Study pathway
The Diploma of Nursing (Pre-enrolment) at TAFE provides a pathway to this degree.

Caboolture campus
The Bachelor of Nursing will be progressively offered at the Caboolture campus for full-time students only. In 2007, only the first year was offered, with second and third year to be introduced in 2008 and 2009.

Graduate entry currently is not offered at Caboolture campus.

Other course requirements
The clinical practice units require students to undertake block practicums of two or more weeks duration. Block practicums may be scheduled during semester breaks. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

As required by the Commission for Children and Young
People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q Health facility complete The Essentials component of the student orientation package which is available on the Queensland Health website.

**Further Information**

For detailed information about this course please call the School of Nursing on (07) 3138 3824 or email nursing.enquiries@qut.com

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**New courses planned for 2008**

It is expected that the following new courses will be available from 2008:

- Bachelor of Nursing/ Bachelor of Midwifery double degree (4 year program)
- Bachelor of Health Science (Paramedic)/ Bachelor of Nursing double degree (4.5 year program)

This is subject to approval and information will be at the Studyfinder webpage mid-2007.

Discipline coordinator: Dr Fiona Coyer
Campus: Kelvin Grove

Overview
The Graduate Certificate in Emergency Nursing is offered in conjunction with key industry partners. Two units (24 credit points) are advanced standing from accredited programs (e.g. Queensland Health Transition to Emergency Nursing program). The remaining two units (24 credit points) in the Graduate Certificate in Emergency Nursing address topics such as nursing assessment, evidence-based approaches to nursing practice in the emergency setting and the process and practices associated with managing common client presentations to the emergency settings.

Entry Requirements
Students must:

- be eligible for registration as a nurse with the Queensland Nursing Council
- have gained a degree in nursing (or equivalent) from a recognised institution
- have completed the Queensland Health Transition to Emergency Nursing Program (or its equivalent) within the past three years
- normally have at least one year of appropriate post-registration clinical experience.
- have at least three months recent clinical experience in an emergency facility and be working at least 0.6 FTE in a level 4-6 emergency facility.

Applicants may be admitted on the basis of relevant experience at the discretion of the Head of the School of Nursing

Course Structure
The Graduate Certificate comprises 48 credit points made up of 24 credit points advanced standing from accredited programs, plus 24 credit points from units offered by the School of Nursing.

The course may be undertaken in internal or external mode and is available for mid-year entry.

Course Articulation
All units successfully completed may be credited towards NS64 Graduate Diploma in Nursing or NS85 Master of Nursing.

International Student Entry
This course is not available to international students.

Overview
This four-year degree program combines the complementary areas of nursing and health services management. The clinical and practical aspects of nursing are combined with the managerial and administrative side of health care delivery to provide you with a breadth of relevant knowledge and experience.

Why choose this course?
Along with being eligible to apply for registration as a nurse with the Queensland Nursing Council (QNC), you will also be multi-skilled in the management of health services, enhancing your employment and career prospects.

This course features both theoretical and practical subjects, including clinical placements ensuring you gain extensive, hands-on experience as a nurse. The course structure provides a balance of nursing and health management subjects including behavioural sciences, mental health, professional development, finance, planning and health promotion.

Career Options
Nurses work in public and private hospitals, residential care facilities, private homes, schools, pathology laboratories, medical clinics and other community-based and private work environments.

Graduates can also seek employment opportunities in managerial roles within the health sector.

Professional Membership
This course is recognised by the Royal College of Nursing, Australia as satisfying the academic requirements for admission as a professional member. It is also an accredited nursing preregistration course of the Queensland Nursing Council (QNC). For further information on the requirements for QNC registration please refer to www.qnc.qld.gov.au Graduates are also eligible for membership of the Australian College of Health Service Executives.

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other Course Requirements
The clinical practice units require students to undertake block practicums of two or more weeks duration. Students will be required to wear a uniform while on clinical practice, the cost of which is approximately $150. Students enrolling in this program are required to complete a course of vaccinations for Hepatitis B before commencing their clinical practice units. They are also required to have a current Senior First Aid Certificate or the equivalent prior to commencement of Clinical Practice 1.

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a Suitability Care (Blue Card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

It is a requirement of Queensland Health that all students undertaking a clinical placement in a Q health facility complete 'The Essentials' component of the student orientation package which is available on the Queensland Health website www.health.qld.gov.au/SOP/html/Essentials_Homepage.asp

Overview

The Graduate Diploma in Nursing provide the opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and to prepare registered nurses for specialist roles in selected areas of health care. The course demonstrates a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The course thus aims to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care. The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Majors

The following majors are offered in this course:

Aged Care
Cancer Nursing
Community Practice
Intensive Care Nursing
Medical/Surgical Nursing
Paediatric, Child and Youth Health Nursing
Professional Studies
Women's Health

~ For the July intake this major is only offered a part-time basis

Entry Requirements - Domestic students

Domestic students entering the Graduate Diploma in Nursing must: be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence; have gained a degree in nursing (or equivalent) from a recognised institution; normally have at least one year of appropriate post-registration clinical experience.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

The following additional entry requirements for the specific majors apply:

Intensive Care
Students enrolling in the Intensive Care major must also have had at least three months recent clinical experience in an Intensive Care Unit and be working at least 0.6 FTE in a Level 2 or 3 intensive care facility.

Cancer Nursing and Paediatric, Child and Youth Health Nursing
Students enrolling in the Cancer Nursing and Paediatric, Child and Youth Health majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical
Students are required to undertake suitable workplace-based clinical experience during the program to meet the requirements of the course by either:

(a) maintaining employment in a medical/surgical practice setting; or
(b) undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Entry Requirements - International Students

International students who enter the Cancer Nursing, Women's Health, Aged Care, Medical/Surgical, Paediatric, Child and Youth Nursing, Community Practice and Professional Studies strands must have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia; be registered or authorised to practice in their country of origin or residence; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate post-registration clinical experience.

Students enrolling in the Intensive Care major must:

have current temporary or full registration as a nurse with the Queensland Nursing Council (QNC); have gained a degree in nursing (or equivalent) from a recognised institution; and
normally have at least one year of appropriate post-registration clinical experience.

Students enrolling in the intensive care major must also have had at least three months recent clinical experience in an intensive care unit.

International students may also apply for alternative entry, on the basis of relevant experience at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC students are required to submit appropriate application forms and to pay an application fee (currently AUS $45) plus an annual license fee (currently AUS $72). Eligibility for temporary registration is assessed by the Queensland Nursing Council.
Council. This process may take up to 3 months.

For enquiries regarding entry requirements or eligibility, please call Dr Fiona Coyer on +61 7 3864 3895.

**Course Structure**

The course structure offers a wide range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of eight different majors within the Graduate Diploma and the Master of Nursing. The Graduate Diploma in Nursing consists of eight units each of 12 credit points making a total 96 credit points.

The Graduate Diploma in Nursing may be undertaken full-time or part-time and by internal or external mode.

Midwifery is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

**Professional Studies**

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care. Graduate Diploma in Nursing students who choose this major will complete three core units, and five elective units. The elective options enable students to customise their program of study to meet individual learning needs.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

**Course Pathways/Articulation**

This course fully articulates with the NS85 Master of Nursing.

Overview
The Graduate Diploma in Midwifery is designed to prepare graduates for beginning level practice as midwives. Students undertake clinical and supporting studies units to enable them to develop competence in the area of midwifery, develop a critical awareness of major issues and trends in midwifery, and develop their understanding of research applied to midwifery. Graduates from the program are eligible to apply to the Queensland Nursing Council for endorsement authorising practice as a midwife. Inherent in these course objectives is the expectation that, on completion of the course, students will have demonstrated their ability to meet the Australian College of Midwives Competencies (2005).

Entry Requirements - Domestic Students
Domestic students entering the Graduate Diploma in Midwifery must: be registered as a nurse with the Queensland Nursing Council (QNC), have gained a degree in nursing (or equivalent) from a recognised institution, and normally have at least one year of appropriate post-registration clinical experience.

Applicants may be admitted at the discretion of the Head of the School of Nursing.

Entry Requirements - International Students
To be eligible for entry international students must: have current temporary or full registration as a nurse with the Queensland Nursing Council; have gained a degree in nursing (or equivalent) from a recognised institution; and normally have at least one year of appropriate post-registration clinical experience.

To apply for temporary registration with the QNC students are required to submit appropriate application forms and to pay an application fee (currently AUS $45) plus an annual license fee (currently AUS $72). Eligibility for temporary registration is assessed by the Queensland Nursing Council. This process may take up to 3 months. International students may also apply for alternative entry on the basis of relevant experience at the discretion of the Head of the School of Nursing.

Course Structure
Students enrolled in the Graduate Diploma of Midwifery undertake eight 12 credit point units, comprising five clinical studies units, and three supporting studies units. These clinical units are designed to facilitate the development of knowledge, attitudes and skills which are commensurate with beginning practice as a midwife. A minimum of 720 hours off-campus clinical experience is scheduled throughout the course. Clinical experience occurs in hospital settings, and a variety of community health agencies, for example, the Family Planning Clinic, Sexual Health Clinic, Community support groups and Childbirth Education classes. The Supporting Studies component of the program comprises three units designed to further enhance students' professional growth through exploration, at a postgraduate level, of the nexus between research and practice, and issues in the development of midwifery as a discipline.

The course can be studied full-time or part-time and is available by internal or external mode.

Course Articulation
This course fully articulates with the NS85 Master of Nursing.

Overview
The Master of Nursing provides the opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice, and to prepare registered nurses for specialist roles in selected areas of health care. The course demonstrates a clear integration with advanced practice competencies that have been established by key professional nursing organisations and various specialty nursing groups. The course thus aims to further develop expertise in areas including advanced nursing practice in selected specialties, nursing research and scholarship, and leadership and management in health care.

Majors
The following majors are offered in this course:

- Aged Care
- Cancer Nursing
- Community Practice
- Intensive Care Nursing
- Medical/Surgical Nursing
- Midwifery *
- Paediatric, Child and Youth Health Nursing ~
- Professional Studies
- Women's Health

* Midwifery is not offered in the Graduate Diploma in Nursing but is offered in a separate Graduate Diploma in Midwifery which articulates with the Master of Nursing.

^ Only offered in the February intake
~ For the July intake this major is only offered a part-time basis

Entry Requirements - Domestic students
Domestic students
* must be registered as a nurse with the Queensland Nursing Council (QNC) or the nurse regulatory authority in the student's state or territory of residence;
* have gained a degree in nursing (or equivalent) from a recognised institution at a grade point average of 5 or above;
* normally have at least one year of appropriate post-registration clinical experience.

Alternatively, applicants may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

The following additional entry requirements for the specific majors apply:

Intensive Care
Students enrolling in the Intensive Care major must also have had at least three months recent clinical experience in an Intensive Care Unit and be working at least 0.6 FTE in an Intensive Care Unit.

Cancer Nursing and Paediatric, Child and Youth Health Nursing
Students enrolling in the Cancer Nursing and Paediatric, Child and Youth Health majors must normally be working at least 0.6 FTE in the practice setting relevant to the major in which they are enrolling. Students not working within these settings may be required to undertake additional supernumerary clinical experience to meet the requirements of the course.

Medical/Surgical
Students are required to undertake suitable workplace-based clinical experience during the program to meet the requirements of the course by either:

(a) maintaining employment in a medical/surgical practice setting; or
(b) undertaking supernumerary clinical experience which will be organised by the School of Nursing.

Midwifery
A student who enters the Midwifery major must be registered as a nurse with the Queensland Nursing Council.

Entry Requirements - International students
International students who enter the Cancer Nursing, Women's Health, Aged Care, Medical/Surgical, Paediatric, Child and Youth Nursing, Community Practice and Professional Studies strands must:
* have gained from a recognised institution a qualification equivalent, on the University's assessment, to that of a registered nurse in Australia;
* be registered or authorised to practise in their country of origin or residence;
* have gained a degree in nursing (or equivalent) from a recognised institution; and
* normally have at least one year of appropriate post-registration clinical experience.

Students enrolling in the Intensive Care major must:
* have current temporary or full registration as a nurse with the Queensland Nursing Council (QNC);
* have gained a degree in nursing (or equivalent) from a recognised institution; and
* normally have at least one year of appropriate post-
registration clinical experience.

Students enrolling in the Intensive Care major must also have had at least three months recent clinical experience in an Intensive Care Unit.

International students may also apply for Alternative Entry, on the basis of relevant experience at the discretion of the Head of School of Nursing.

To apply for temporary registration with the QNC students are required to submit appropriate application forms and to pay an application fee (currently AUS $45) plus an annual license fee (currently AUS $72). Eligibility for temporary registration is assessed by the Queensland Nursing Council. This process may take up to 3 months.

For enquiries regarding entry requirements or eligibility, please call Dr Debra Anderson on +61 7 3864 3881.

Course Structure

The course structures offer a wider range of pathways for nurses working in diverse settings, while at the same time ensuring opportunities for in-depth study to develop an advanced level of competence in selected areas of nursing practice. Students may undertake one of nine different majors.

The Master of Nursing consists of the content of the Graduate Diploma in Nursing plus a further 48 credit points. Students who wish to graduate with a specified major in the Master of Nursing (except Professional Studies) will be required to complete the 96 credit points of the Graduate Diploma in Nursing units relevant to that major and undertake either a 48 credit point thesis or an additional 24 credit points of the remaining 48 credit points at the masters level in units also relevant to that major. These 24 credit points can be undertaken by completing relevant coursework units or a 24 credit point clinical project relevant to the major.

Students who wish to graduate from the Master of Nursing with a major in Professional Studies will be required to complete the 96 credit points of the Graduate Diploma in Nursing, and can then choose to complete the remaining 48 credit points at the masters level either by coursework, project or thesis. The coursework units may be selected from any postgraduate level units offered within the University for which the student has the necessary prerequisite.

The Master of Nursing may be undertaken both in the full-time and part-time modes.

Students may complete their program by internal or external mode.

Professional Studies

The purpose of this area of study is to enable students who do not wish to undertake in-depth study in a particular specialty to have maximum flexibility to select a program of study relevant to their needs. The program is designed to extend and enhance existing nursing knowledge and skills; build confidence and leadership skills; provide a forum for critical examination of contemporary nursing; attain academic experience and qualifications; and foster an understanding of nursing within the broader umbrella of health care.

For a detailed overview of the majors available, please refer to the Graduate Certificate relevant to these areas of study.

Course Articulation

The Graduate Diploma in Nursing and the Master of Nursing fully articulate and are offered for domestic and overseas students who are eligible for registration as a nurse with the Queensland Nurses Council (QNC).

Student who complete the Master of Nursing may also be eligible for up to 96 credit points advanced standing in HL90 Doctor of Health Science.

Master of Nursing Science (Nurse Practitioner) (NS86)

Year offered: 2007
Admissions: Yes
Course duration (full-time): 2 semesters
Course duration (part-time): 4 semesters
Course duration (external): 2 semesters full-time or 4 semesters part-time
Domestic fees (per credit point): 2007: $130 per credit point (subject to annual review)
Domestic fees (indicative): 2007 Full fee tuition $12480
Domestic Entry: February and July
Course coordinator: Dr Fiona Coyer
Campus: Kelvin Grove

Overview
The proposed Master of Nursing Science (Nurse Practitioner) course is a one year full-time or two year part-time course. Upon successful completion of the program, graduates will be able to:

1. Assess and treat clients in a specialty field of nursing practice and health care.
2. Order diagnostic investigations within a specialty field of nursing practice.
3. Prescribe medications and other interventions from a specialty field of nursing practice.
4. Directly refer patients to other health care professionals.
5. Conduct advanced comprehensive health assessments relevant to a specialist field of nursing practice.
6. Demonstrate an ability to conduct clinical services using high level communication skills, innovation and leadership in both autonomous and multi-disciplinary modes of practice.
7. Demonstrate the capacity to think critically and creatively in complex and unfamiliar environments.

Graduates will be eligible to apply for authorisation to practise as a Nurse Practitioner. The course is accredited by the Queensland Nursing Council.

Entry Requirements
Domestic students entering the Master of Nursing Science (Nurse Practitioner) must:

(i) be registered as a nurse with the Queensland Nursing Council (QNC);
(ii) have gained a degree in nursing (or equivalent) from a recognised institution and have gained a Graduate Diploma in nursing (or equivalent) in the area of nominated speciality from a recognised institution, or the equivalent of four years study at a similar level;
(iii) have a minimum of three years full-time equivalent (FTE) clinical practice experience in the nominated speciality; and
(iv) be employed in an advanced practice nursing role for the duration of the course.

Alternatively, applicants without the required qualifications may be admitted on the basis of relevant experience at the discretion of the Head of School of Nursing.

To be accepted into the course students will need to have access to a clinical support team in their speciality field of practice. The clinical support team will normally consist of an advanced health practitioner currently practising the extended clinical skills required by the candidate in their speciality field of practice (for example, a medical practitioner or a nurse practitioner): together with an advanced practice nurse in the speciality area (for example, a Clinical Nurse Consultant or an Advanced Practice Nurse). This support team will work with the candidate to assist with the development and extension of practice skills in their speciality field.

Course Structure
The course consists of seven units - six theoretical units and an internship. The six theoretical units focus on the development of the advanced pharmacological, therapeutic and diagnosis theory and skills within the area of the nursing speciality and includes an elective unit. The internship aims to provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning, enabling the candidate to meet the competency and capability standards for the nurse practitioner. This is a field-based unit that is focused towards consolidation of skills and knowledge related to nurse practitioner practice in a specialty area of health care.

International Student Entry
The course is not available to international students.

Overview
Optometrists examine people’s eyes to protect and improve their vision and to detect and diagnose eye disease. As an optometrist, you will work with a range of complex instruments and techniques to test vision for defects such as short-sightedness, long-sightedness and astigmatism. Optometrists use their clinical judgement to treat patients in a variety of ways, including eye exercises, contact lenses, spectacles or advice on lighting and visual habits.

Why choose this course?
QUT has the only optometry school in Queensland and one of only three in Australia. Class numbers are small so you will receive individual attention from experienced lecturers.

An on-campus optometry clinic enables you to work directly with real patients, under the supervision of working optometrists.

You will gain hands-on experience throughout the course through participation in the practices of working optometrists, and in other clinical settings including a clinic for Indigenous patients and a clinic for children with impaired vision.

The QUT School of Optometry maintains strong professional and organisational links with industry. Clinical teachers come primarily from private practice settings, while many guest lectures are given by optometrists from private practice and allied disciplines such as ethics, financial, medical and pharmaceutical professions.

Career Options
Graduates are highly employable, with all students employed on graduation (2005 QUT Graduate Destinations Survey).

Graduates can work or specialise in areas such as contact lens practice, children’s vision, occupational/public health optometry or low vision.

Many optometry graduates enter private practice and work initially in established practices, often with a view to future partnership or the establishment of their own practice. Graduates are also employed in government service, including hospitals, or they may enter the teaching and research fields after further study.

Professional Membership
Boards of Optometrical Registration regulate the practice of optometry in Australia. QUT graduates are eligible to apply to the Optometrists’ Board of Queensland for registration to practise as optometrists in Queensland and all states and territories of Australia.

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

OP Guarantee
The OP Guarantee does not apply to this course.

International student
Strict quotas apply for entry to this course.

Other course requirements
Ophthalmic instruments costing approximately $5000 are required for the clinical program from the beginning of the second and third years of the course. Academic staff provide advice regarding the purchase of these instruments. You will also be required to undertake first aid certification before entering the clinical program.

Further Information
For detailed information about this course, please call (07) 3138 5739.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work.

QUT HANDBOOK 2007 · Page 1158

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Graduate Certificate in Ocular Therapeutics (OP43)

Year offered: 2007
Admissions: Yes
Course duration (part-time): 2 semesters
Domestic fees (per credit point): 2007: $140 per credit point (subject to annual review)
Domestic fees (indicative): 2007 Full fee tuition $13440
Domestic Entry: July
Course coordinator: Dr Andrew Carkeet
Campus: Kelvin Grove

Overview
The Graduate Certificate in Ocular Therapeutics is designed to provide training to allow optometrists in Queensland to use a range of topical ocular pharmaceuticals for the treatment of eye disease. The design and implementation of this program has been in response to legislative changes in Queensland to allow suitably qualified optometrists to use a range of S4 drugs to treat eye disease. This course is the only local means whereby Queensland optometrists can gain a qualification in ocular therapeutics, and it will be supplementary to their normal optometric registration.

Entry Requirements
Applicants for the course must hold a four year degree in optometry from a recognised School of Optometry, or have equivalent standing and have current registration as optometrists in any State or Territory of Australia or New Zealand.

Advanced standing will not apply and the course will not articulate with any currently offered course within QUT or other institution in Australia or elsewhere.

It is anticipated that The Optometry Council of Australia and New Zealand (TOC) will conduct examinations in ocular therapeutics for optometrists from overseas as they currently do for such optometrists seeking registration to practice in Australia.

International Student Entry
This course is not available to international students.

Further Information
For more information about this course, please contact the School of Optometry on phone 07 3864 5739 or email optometry.enquiries@qut.com

Why choose this course?
Health Information Management
Health information management is a rapidly growing field combining elements of health, management and information technology. Health information managers plan and manage health information systems that collect, analyse, store and retrieve patient data. They perform a vital role in public health by ensuring clinical staff have an accurate, up-to-date health information system on which to base often critical decisions.

Health Services Management
The Bachelor of Health Science (Health Services Management) is designed for people who want to join the health care industry in an administrative or managerial capacity. It is also a valuable qualification for people already working in the health industry to upgrade their management knowledge and skills. This course is the only one of its kind offered in Queensland and is one of only a few in Australia. It prepares graduates with an understanding of business principles as well as policy and planning, project management, and computing. The course is flexible and allows options for elective study areas to meet individual interests. You will have the opportunity to do project work, facilitated by lecturers with strong industry links. The mentor program matches final-year students with senior staff in the health industry providing you with excellent networking and employment opportunities.

Public Health
If you have a desire to enhance people’s lives through improved health care, then a career in public health may be for you. QUT has the longest running undergraduate public health course in Queensland. You will learn from experienced, expert staff with strong industry and international links. The three-year course will give you an understanding of public health, primary health care, community health and health promotion. You will also undertake a compulsory placement/practicum program to gain valuable professional experience and industry contacts.

Career Options
Health Information Management
Health information management practitioners work as health records administrators, clinical coders, information retrieval managers, human resource managers, health insurance workers, project officers and public health workers. Employment areas include public and private hospitals, community health centres, large group practices, government, health departments, research organisations, commercial companies, universities, and consulting firms. The rapid growth of the health information management field means graduates are in demand and enjoy high starting salaries, average $41 000, and excellent promotion opportunities (2005 QUT Graduate Destinations Survey).
Health Services Management
Employment prospects in this field are excellent locally, nationally and internationally. The salaries for new graduates are among the highest for any professional group. Graduates work as health service or health administration managers or officers, project officers, health insurance workers, and human resource managers. Employment areas include public and private hospitals, Queensland Health, community health centres, group medical practices, nursing and dental services, universities and consulting firms.

Public Health
Public health practitioners work as community health officers, policy officers, program evaluators, public health promoters and educators, project officers and consultants. They work in both public and private sectors including state and federal health departments, population health units, community health centres, divisions of general practice, non-governmental health organisations, and international health agencies.

Professional Membership
Health Information Management
Graduates of the Bachelor of Health Science (Health Information Management) are eligible for membership of the Health Information Management Association of Australia, the Clinical Coders Society of Australia, and the Australian College of Health Service Executives.

Health Services Management
Graduates of the Bachelor of Health Science (Health Services Management) are eligible for membership of the Australian College of Health Service Executives.

Public Health
Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

Honours
Students who obtain high results throughout the course can study an additional one-year honours degree. Honours consists of a research component, which increases career opportunities and opens the way to further studies at PhD level.

Course design
The Health Information Management program has set units to be completed, that is, there are no opportunities to complete electives.

The Health Services Management program consists of a major in health services management, plus:
- A major in public health or
- A two minors or
- A one minor and four electives.
Minor/electives are available in the areas of:
- Accounting and finance
- Public health

Overview
Nutritionists work with the wider population to influence dietary patterns and behaviours as well as the wider food supply. They can work in a range of settings as diverse as public health and community nutrition, indigenous nutrition and health, consumer and public health, and promotion of nutrition through the media as journalists and editors.

Why choose this course?
The study of public health with a major in human nutrition involves understanding the promotion of health, as well as the prevention of diet related disease. The course is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

The course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, health service and project management. Students will be expected to undertake practical placement outside the university in real world settings. This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

Professional Membership
Graduates of this three year full-time program are eligible to apply for membership of the Public Health Association of Australia, Sports Medicine Australia, the Nutrition Society and other bodies, and Associate membership of the Dietitians Association of Australia.

Career options
Nutrition graduates can work in a variety of areas, including community health centres and public health areas; as service consultants to industry, government and both public and private institutions; in government, educational institutions, research, occupational health and the food industry.

The Bachelor of Health Science (Nutrition) also allows entry to other health-related and graduate positions.

Electives
Electives include clinical science, counselling, exercise science, health management and health promotion, public health and research.

Course structure
Year 1
You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.

Year 2
Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to nutrition in chronic disease, as well as epidemiology and evidence based practice.

Year 3
You will now apply and contextualise more the knowledge and skills gained in the first 2 years in relation to the health needs of varying population groups. You will learn the principles of project management and then actually undertake projects working with and assisting practitioners in real world settings such as community health centres, schools or business organisations. You are also able to choose electives in areas of interest to further develop your knowledge and skills in a range of areas.

Further Information
For more information about this course, please call the School of Public Health Student Centre on (07) 3138 3368.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as...
questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Overview
This course will enable you to become a credentialed dietitian. The study of nutrition and dietetics involves the promotion of health, as well as the prevention and treatment of diet-related disease. It is strongly grounded in a study of scientific principles and research methods, which are then applied to influence the wider environment affecting food supply, policy and eating behaviours.

Career Options
Graduates have excellent rates of employment with a range of opportunities available. They can provide medical nutrition therapy to clients to assist in their medical management of disease and illness in hospitals, nursing homes, community health centres and private practice. They can be food service consultants to food industries, hospitals, nursing homes and institutional catering services. They can also become community or public health nutritionists in government and non-government organisations, or researchers in their chosen area of practice.

As a health qualification, the Bachelor of Health Science (Nutrition and Dietetics) also allows entry to other health-related and graduate positions.

Why choose this course?
This course gives graduates an understanding of human physiology and biochemistry, public health principles and policies, health promotion principles, public health nutrition, food service and health service management, medical nutrition therapy and practice in individual case management, community nutrition and food service management. Students will be expected to undertake practical placements outside the university in hospitals, community health centres, private industry and food service institutions. These working environments are sometimes available outside the semester times and places are limited by availability of placement sites and supervisors, thus places for the course are competitive.

This course can lead on to study or research at the postgraduate level in nutrition and dietetics, health service management, environmental health, public health nutrition and public health generally.

Professional Membership
Graduates of this four year full-time program will be professional dietitians, eligible to apply for the Accredited Practising Dietitian (APD) credential as well as membership of the Dietitians Association of Australia, the Public Health Association, Sports Medicine Australia, the Nutrition Society and other bodies.

Electives
Elective studies are available in health promotion, counselling, clinical science, exercise science, research methods and projects.

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Other course requirements
Students who are required to undertake placements off campus may incur additional costs (for example travel and accommodation). Hepatitis B vaccination and Blue Card clearance are required before placement in Queensland Health and Education facilities.

OP Guarantee
The OP Guarantee does not apply to this course.

Further Information
For more information about this course, please call the School of Public Health Student Centre on (07) 3138 3368.

Course structure
Year 1
You will begin to develop a theoretical knowledge base in chemistry, anatomy, food science, principles of food and nutrition and be introduced to contemporary health services and public health issues which will be relevant to you in your future careers in the health sector. Tutorials, workshops and a range of resources and activities will also facilitate the development of practical skills.
Year 2
Building on the foundational studies from your first year, you will develop a more consolidated and in-depth knowledge of biochemistry, physiology and nutritional science. You will also be introduced to nutrition in chronic disease, as well as epidemiology and evidence based practice.

Year 3
You will now apply and contextualise knowledge and skills gained in the first 2 years, in units focussed on potential future areas of dietetic practice, such as medical nutrition therapy, food service management and public health nutrition. Combined with health promotion, nutrition education principles and quantitative analysis for health, these units further develop important skills in researching, critical analysis and practical application. This practice will be consolidated in advanced food studies and introduction to dietetic practice.

Year 4
This year predominantly involves practice based placements which allow you to work with and assist qualified practitioners in real world settings. You will demonstrate competency by managing individual cases in hospitals and undertaking food service management and community nutrition projects in varied settings such as hospitals, community health centres, schools or business organisations throughout Queensland. Advanced dietetic management and research skills will also be applied in final year projects.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Domestic student tuition fee (Dfee) places
Undergraduate domestic full fee places (Dfee) are not available in this course. Tuition fees are only applicable to currently enrolled students who were unable to comply regulations regarding their original Commonwealth Supported place (i.e. failure to lodge an eCAF; has consumed of other their Student Learning Entitlement etc.) and who have been invited and accepted to continue as a fee-paying student.

Overview
Podiatrists diagnose and treat foot and lower limb problems. They use a range of clinical, surgical, and therapeutic techniques to treat patients and may work as a member of a medical team to deliver the best overall care for a patient with diabetes, rheumatoid arthritis, sports injuries, or walking difficulties.

Why choose this course?
If you possess good communication skills and a people-oriented personality and would like to help people with foot and lower limb disorders including sport-related conditions and those in special needs groups, then you may enjoy a career in podiatry.

QUT offers the only course in podiatry in Queensland. It features an on-campus clinic where students treat patients under the supervision of experienced clinical lecturers.

Podiatry staff have excellent, established health and medical industry links and the course has a strong reputation recognised throughout Australia and overseas.

This course will prepare you with an understanding of human anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine and surgery. You will also learn how to integrate aspects of podiatric surgery, physical therapy, rehabilitation and counselling into the patient interaction.

Career Options
Employment opportunities for podiatry graduates are excellent. In recent years the number of positions available exceeded the number of graduates. This is a direct result of the high standard associated with the course and the level of graduate expertise.

Podiatry graduates work in a broad range of health care setting including private practice, hospitals or community health centres.

Professional Membership
Graduates are eligible for state registration throughout Australia and for registration in the United Kingdom, New Zealand and some European countries. Graduates may also become members of the Australian Podiatry Association and Sports Medicine Australia.

Electives
Students are required to select three elective units that constitute a coherent body of study. The course coordinator approves electives outside the recommended list.

Electives are available in exercise studies, public health and research.

OP Guarantee
The OP Guarantee does not apply to this course.

Other course requirements
There are additional costs associated with this course including uniform and podiatry equipment ($600).

Honours
A degree with honours may be awarded to students who have recorded outstanding achievement in the four-year program.

Further Information
For more information about this course, please call the School of Public Health Student Centre on (07) 3138 3368.

Overview
The Graduate Diploma in Public Health and Master of Public Health Programs are offered and taught conjointly by a consortium of three universities (QUT, Griffith University, and The University of Queensland). Students enrol through one of these universities and are required to complete four compulsory core units and four elective units selected from a specialised stream.

Entry Requirements
Students come from many health-related fields, but you should have a recognised degree in health, behavioural, social or biological science and not less than two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma.

Admission on the basis of professional experience and/or research work will be considered.

Majors
Majors are offered in the areas of:
- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods

Course Structure
Full-time students in the program undertake a coursework component for two semesters (or four semesters part-time - two units per semester). The coursework comprises four core units and four advanced elective units. Elective units will normally be selected according to choice of a stream of study.

Course Articulation
This course fully articulates into the Master of Public Health.

International Student Entry
International students may only enrol in full-time studies.

Overview
The design of this course is multidisciplinary. It covers occupational health and safety topics that include ergonomics, occupational health, hygiene, law and safety technology.

Entry requirements
Students should have a degree or equivalent in an appropriate discipline from a recognised tertiary institution.

Students may be considered for special entry if they have experience and responsibility in occupational health and safety. Because the course is academically demanding and high standards of performance are expected, you would need either an extensive background in the discipline or other suitable tertiary qualifications.

Students with relevant postgraduate studies may apply for credit transfer or recognition of prior learning/experience within the rules of the University.

Course Structure
Students complete eight specified units. The course is available full-time and part-time. Internal and external mode is available (within Australia only).

Course Articulation
This course fully articulates into the Master of Health Science.

International Student Entry
International students may only enrol in full-time studies and may only study on-shore.

Course coordinator: Dr Thomas Tenkate
Campus: Kelvin Grove

Overview
The Graduate Diploma in Environmental Health provides the knowledge and skills required for graduates to be employed as environmental health practitioners and in particular they will be eligible to practise as environmental health officers. This award provides students with undergraduate degrees in science, environmental science, nursing, health science or public health an entry pathway into environmental health professional practice.

Entry Requirements
Applicants for admission require an undergraduate degree in a relevant area such as science, environmental science, nursing, health science, or public health. Applicants also require to have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology or life science.

Course Structure
Students follow a prescribed enrolment program and are required to complete seven units in environmental health and PUN106 Population Health.

Students enrolling in external mode will be required to attend intensive practical sessions at Kelvin Grove campus for selected units in the course.

Course Articulation
This program articulates into the Master of Health Science.

Overview
The Master of Public Health is offered under the auspices of the Queensland Centre for Public Health through QUT, Griffith University and the University of Queensland. Students have opportunities to undertake electives at these institutions only after consultation with the course coordinator.

Entry requirements
Students come from many health-related fields, but should have a recognised degree in health, behavioural, social or biological science and not less than two years relevant full-time professional experience.

Accepted degrees would include: a four-year degree with first or second class honours; a three-year degree plus relevant postgraduate diploma.

Admission on the basis of professional experience and/or research work will be considered.

Majors
Specialised streams of study are offered in the areas of:
- Health Services Management and Policy Sciences
- Occupational and Environmental Health Science
- Health Promotion
- Epidemiology and Research Methods
There is also the option of not completing a major and choosing units from more than one stream.

Course Structure
Students elect between three options:

(1) The first option is for full coursework, with no project or thesis component:
   À four core units (Part A),
   À one research methods unit (HLN405, HLN705 or HLN706) and
   À seven advanced elective units (Part B)
(2) Option two is to undertake coursework with a project component:
   À four core units (Part A)
   À five advanced elective units (Part B) and
   À one project unit (HLN703).
(3) Option three is coursework with a thesis component:
   À four core units (Part A)
   À four advanced elective units (Part B)
   À a dissertation component of one semester or two semesters part-time (HLN700 or HLN750-1 and HLN750-2)
Elective units (from Part B) will normally be selected according to choice of a major, or more than one stream of study where the no major option is chosen.

Course Articulation
The Graduate Certificate in Public Health fully articulates into the Graduate Diploma in Public Health and Master of Public Health and the Graduate Diploma in Public Health fully articulates into the Master of Public Health.

International Student Entry
International students may only enrol in full-time studies.

Aims
The Bachelor of Psychology provides students with a degree accredited by the Australian Psychological Society and provides a thorough coverage of the scientific bases of Psychology, including units detailing the main research and statistical methods used in Psychology. Students also develop and understand of society and high level communication and social research skills that are valuable in a wide range of professions. On successful completion of the degree students may either pursue a career in a range of vocations where their skills are valued, undertake further study to become a registered psychologist or seek postgraduate studies in other disciplines.

Career Outcomes
The Bachelor of Psychology is in great demand in many professional areas. The analytical, research and interpersonal skills acquired through the course have a high degree of application in areas such as education, business, built environment, justice studies, health and sport. Students are encouraged to structure their course to incorporate elective specialisations in other areas and follow a wide choice of career options utilising their psychological and generic skills. Some graduates choose careers in related professional and semi-professional areas like audiology or counselling which may also require further specialist study. Other graduates have completed postgraduate study in the disciplines of Built Environment, Health, Medicine and Business. Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with their State Registration Board. This currently involves completing a fourth year of study in Psychology (eg PY09 Bachelor of Psychology( Honours) or

PY20 Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree (eg Master or Doctorate in Clinical Psychology or Master of Counselling Psychology).

Overview
The Graduate Diploma in Psychology provides an Australian Psychology Accreditation Council (APAC) accredited undergraduate level of training in psychology, which can be added to a previous degree in another discipline. That is, this qualification is graduate level in timing, but undergraduate level in content, and qualifies students to apply for entry into an accredited fourth year, either the Bachelor of Behavioural Science (Honours Psychology) program or the Post Graduate Diploma in Psychology. Entry into these fourth year programs is competitive and normally requires a Grade Point Average (GPA) of at least 5 in the Graduate Diploma.

Entry requirements
An undergraduate degree plus successful completion of an introductory psychology unit (QUT equivalent PYB101, PYB102 or PYB100) and an introductory research and statistics unit (for example PYB110) equivalent to those accredited in the first year of QUT's Bachelor of Behavioural Science (Psychology) degree.

International Student Entry
QUT advises that international students may only enrol in full-time studies.

Overview
The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland.

Entry requirements
Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT's PY45 Bachelor of Behavioural Science (Psychology))
- must have with an overall Grade Point Average (GPA) of at least 5
- must have a GPA of at least 5 across APAC accredited second and third year psychology units
- must have successfully completed an APAC accredited third year statistics unit (PYB350 or equivalent).

QUT Applicants
For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Honours program will be:

- a minimum GPA of 5 in the overall undergraduate degree program
- at least a pass in PYB350 Advanced Statistical Analysis (or its equivalent)
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.

Entry is competitive based on GPA in these prescribed units:

- PYB201 Perception
- PYB203 Developmental Psychology
- PYB205 Social Psychology
- PYB206 Personality
- PYB208 Counselling Theory and Practice 1
- PYB210 Research Design and Data Analysis

Non-QUT Applicants
For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

They will also be required to provide certified copies of complete academic transcripts and evidence of their eligibility to undertake an Honours program at their home institution.

Course Structure
The courses comprises of eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units, chosen from advanced cognitive, organisational/counselling theory. The research component of the program entails one Research Methods unit and an individual thesis. PYB400 Thesis is undertaken in modules throughout the program and initially students complete a research plan which sets out the project. This is followed by the collection, analysis and writing-up of the data. All coursework units have 3 contact hours per week. Research thesis units contact is as required by the supervisor.

Overview
The Master of Clinical Psychology offers students the opportunity for advanced training in clinical theory, skills and research. These are three skills fundamental to the professional practice of clinical psychology and psychotherapy.

The program emphasises an integrative approach drawing upon evidence-based psychotherapies including relational psychodynamic, cognitive-behavioural, and systemic narrative therapies across the lifespan.

A psychology clinic provides practicum opportunities to work with adults, children and families in a real-world learning context. There are opportunities for supervised practica in a variety of counselling and clinical setting including the clinic and external community agencies and health settings.

Career opportunities
Graduates are eligible to register as Psychologists. The course prepares graduates to work in a wide range of hospital, community and private practice settings, in areas that require clinical and psychotherapy skills, case management, management of health services, needs assessment and program evaluation, health promotion and education, and supervision.

Entry Requirements
Entry to this course is competitive. To be considered for admission, candidates:
- should hold an Australian Psychology Accreditation Council (APAC) approved four years training or its equivalent from QUT or another recognised institution; and
- must have a minimum Grade Point Average (GPA) of 5 or above in their fourth year; and
- must provide the names of two referees who can comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application.

Candidates are shortlisted in priority order on the basis of their GPAs. Shortlisted candidates are required to attend an interview for assessment of their interpersonal skills in a clinical context. Admission is based on the candidate's GPA and his or her interview.

In addition to the above requirements, international candidates require:
- an IELTS score of 7.0;
- certification by the Australian Psychology Accreditation Council that their degree is equivalent to an APAC approved four years training in psychology or its equivalent from QUT or another recognised institution.

Interviews for shortlisted international students will be conducted via telephone.

Professional recognition
The course is designed to meet the accreditation requirements of the Australian Psychology Accreditation Council (APAC), the College of Clinical Psychologists and the Psychologists Board of Queensland and provides a graduate with eligibility to apply to register as a Psychologist in Queensland or any other state or territory in Australia.

Registration requirements
All students who will be seeking registration with the Queensland Psychologists Board as a Registered Psychologist will be required to register with the Queensland Psychologists Board for the duration of the program as a Psychologist with Probationary Conditions.

Course coordinator: Associate Professor Herbert Biggs
Campus: Carseldine

Overview
The Postgraduate Diploma in Psychology builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. Successful completion of the Postgraduate Diploma in Psychology meets the academic requirements for provisional registration as a psychologist with the Psychologist Registration Board of Queensland. It provides an APAC accredited fourth year of training in psychology, similar to Honours.

Entry Requirements
Entry to this course is competitive. To be considered for admission, candidates:

- must hold an undergraduate degree accredited by the Australian Psychology Accreditation Council (APAC) as an entry point into an honours program (for example QUT’s PY45 Bachelor of Behavioural Science (Psychology))
- must have a Grade Point Average (GPA) of at least 5 across APAC accredited second and third year psychology units.

QUT Applicants
For applicants with a QUT Bachelor's award, the base level requirements for consideration for inclusion in the Postgraduate Diploma in Psychology program will be:
- a minimum overall GPA of 5 in the prescribed second and third year Psychology units listed below, or their equivalent.

Entry is competitive based on GPA in these prescribed units:

PYB201 Perception
PYB203 Developmental Psychology
PYB205 Social Psychology
PYB206 Personality
PYB208 Counselling Theory and Practice 1
PYB210 Research Design and Data Analysis

PYB302 Industrial and Organisational Psychology
PYB303 Cognitive Psychology
PYB304 Physiological Psychology
PYB306 Psychopathology
PYB311 Psychological Assessment

Non-QUT Applicants
For applicants with Bachelor's awards other than from QUT, similar requirements will be expected.

Certified copies of complete academic transcripts must be provided with applications.

Course structure
The course comprises eight 12 credit point units. Coursework includes the compulsory unit PYB407 Research and Professional Development Seminar; plus elective units chosen from advanced cognitive, organisational, counselling, developmental and social theory. The research component of the program entails one Research Methods unit and a thesis. PYB450 Research Thesis is undertaken in modules throughout the program. Initially students will complete an independent review of the literature and prepare an outline for a research proposal. This will then form the basis of a negotiated group project, for which students independently collect, write up and analyse agreed specific components of the data. All coursework units have 3 contact hours per week. The contact for research thesis units is as required by the supervisor.

Standard credit points per part-time semester: 24
Course coordinator: Associate Professor Barry Watson
Campus: Carseldine

Overview
Both the Graduate Certificate and Graduate Diploma in Road Safety foster specialist and multidisciplinary skills and knowledge in the fields of road safety, accident prevention and traffic and transport improvements. The programs are relevant not only to those already employed by government or industry, as either managers, practitioners or researchers, but also those seeking to enter these fields.

Students become conversant with real-world safety problems with input from psychology, humanities, public health, optometry, civil/mechanical/manufacturing and medical engineering staff, as well as guest lecturers from government and industry eg state transport, police, and the insurance industry. Students undertake field study, and are able to complete workplace-based projects where appropriate. They gain experience in both individual and teamwork approaches to research, problem solving, information retrieval, oral and written communication.

Entry requirements
To enrol in the Graduate Certificate program, you should hold a degree from a university, an equivalent qualifications relevant to road safety, or have two years professional practice relevant to road safety. Suitable entry degrees include Bachelor of Civil Engineering, Psychology, Public Health.

Entry with Advanced Standing
Credit will be given, on a case by case basis, for road safety-specific units in postgraduate courses including QUT Graduate Certificate in Civil Engineering; New England/Murdoch/Edith Cowan Universities' Graduate Certificate or Graduate Diploma in Road Safety. Undergraduate units will not be recognised.

Course Structure
The Graduate Certificate in Road Safety consists of one core unit plus three electives. The majority of the units are delivered on a semester basis, although two are delivered as intensive week-long blocks at the Carseldine campus. The program has recently been enhanced with the introduction of distance education delivery for select units.

Overview  
Whether your fascination is with people and personalities, problem solving or the workings of the brain, psychology offers a pathway to a rewarding career.

Why choose this course?  
The Bachelor of Behavioural Science (Psychology) provides the first step towards a career as a registered psychologist. The course is fully accredited by the Australian Psychology Accreditation Council (APAC) and eligible graduates can undertake additional postgraduate studies required for professional registration.

The course provides a thorough grounding in the scientific bases of psychology, and deals with the research and statistical methods used in the discipline. You will complete core subjects in development, personality, social psychology, psychological disorders, learning, memory and perception. In second and third years you will explore subjects in contemporary areas such as counselling and family therapy, forensic psychology, addictive behaviours and traffic psychology. You may also choose electives from other courses across the university.

You will also develop an understanding of society and high-level communication and social research skills that are valuable in a wide range of professions.

Recommended Study  
Maths A, B or C.

Career Options  
Psychology graduates are in great demand in many professional areas. The analytical, research and interpersonal skills acquired through this course have a high degree of application in areas such as education, human resources, market research, organisational development, policing, health and human services and counselling.

You are encouraged to structure your course to incorporate elective specialisations in other areas and follow a wide choice of career options utilising your psychological and generic skills.

On successful completion of the degree you may either pursue a career in a range of vocations where your skills are valued, undertake further study to become a registered psychologist or seek postgraduate studies in psychology or other disciplines.

Honours  
Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with your state registration board. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Postgraduate Diploma in Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Doctor of Psychology (Clinical), Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Professional Membership  
The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC).

Further Information  
For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4625.

Deferment  
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

**Overview**  
The Doctor of Psychology (Clinical) offers students the option of a postgraduate program to develop more advanced professional knowledge and skills in clinical psychology than offered in the Master of Clinical Psychology. It includes advanced professional coursework units, specialised practical experience and an extended program of research, enabling graduates to undertake positions of greater responsibility in a broad range of clinical settings including hospitals, mental health facilities and other specialised treatment units.

The doctorate emphasises the development of applied research and clinical specialisations within an evidence-based, integrative psychotherapy framework.

**Entry Requirements**  
To be eligible for admission applicants must hold an Australian Psychology Accreditation Council (APAC) approved four year degree or its equivalent with First Class Honours or Honours Class IIA from QUT or another recognised institution. Alternatively, a GPA of 5.5 or above in the Postgraduate Diploma in Psychology or equivalent course is required. Applicants are required to provide two referee reports and attend an interview to assess their interpersonal and research skills in a clinical context.

Students who are not already registered with the Psychologists Board of Queensland will be required to register with the Board as a Psychologist with Probationary Conditions.

**Advanced Standing**  
Advanced standing of up to a maximum of 144 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent. Credit will not be granted for previously completed research work.

**Course Structure**  
The doctorate comprises 24 units made up of 10 professional coursework units, 8 research units and 6 practicum units.

**Course Articulation**  
The Master of Clinical Psychology articulates with the Doctor of Psychology (Clinical). Doctorate students who successfully complete the requirements of the masters course may exit with a Master of Clinical Psychology.

**International Student Entry**  
The course is not available to international students at this time. For information on the current status of the course, please contact the School of Psychology and Counselling on phone +61 7 3864 4625 or email psych.enquiries@qut.com

**Professional Recognition**  
The Doctor of Psychology (Clinical) has been designed to meet the Psychologists Board of Queensland (PBQ) requirements for full registration as a Psychologist.

OVERVIEW

The School of Humanities and Human Services within QUT Carseldine is focused on multidisciplinary teaching and research and offers a range of subjects which focus on contemporary international, local and community issues.

- The Bachelor of Arts offers students the opportunity for professional majors in International and Global Studies, Ethics and Human Rights, Society and Change, Community Studies, and Australian Studies. Discipline majors in History, Geography, Languages, Social Sciences (Sociology and Political Studies) are also available together with a broad range of co-majors from other areas of the University. The first year of this program can also be undertaken at the Caboolture Campus.

- The Bachelor of Social Science offers majors in Applied Ethics, Geography and Environmental Studies, Human Services and Social Policy, International and Global Studies, Political Studies, and Sociology. The first year of this program can also be undertaken at the Caboolture Campus.

- The Bachelor of Social Science (Human Services) focuses on contemporary issues and offers a suite of skills units that will prepare students for work in aged services, disability services, and corrections; and for working with children and family, and with young people.

- Associated postgraduate research and coursework programs and honours programs are also available in the School.

Staff of QUT Carseldine are committed to maintaining strong links with industry and the professions served by the courses on offer. QUT Carseldine is also responsible for the coordination of academic and support activities at the Carseldine campus, and for the continued development of the campus and its relationships with community partners. Research and community service activities are regarded as key strategies for ensuring the on-going relevance of the academic programs at all levels and for maintaining the strong success record of graduates.

RESEARCH CENTRE

Centre for Social Change Research

Centre's purpose is to develop a research environment that promotes understanding of the drivers of social change and the implications of change for individuals, families, communities and nations. The Centre's mission is:

To create an environment that promotes change and transformation, engagement and leadership through research that is careful, independent, critical and ethical, and that contributes to a sustainable world and better outcomes for people and communities.

The Centre facilitates research with a strong applied social research orientation, which allows the human, ethical and societal dimensions of technological, environmental, economic and political change to be assessed, and responses to these changes to be identified. This is achieved through careful, critical, independent and ethical research, which contributes to better outcomes for individuals and communities, and addresses issues of national and global significance.

Staff and students are offered:

- a centre of excellence in the 'craft of research', with a recognised reputation
- a distinctive, applied research culture, underpinned by a solid research base
- a focus on international and local issues related to the humanities, social sciences and human services
- an ethical engagement with a wide range of public policy and practices related to government, business and the community, including human services, health care, biotechnology and the professions
- strong collaborative partnerships with community, government, academic, and private organisations
- cutting edge critical public debate
- an open, people-centred and change-oriented approach
- a nurturing environment for the development of excellence in the next generation of researchers through expert mentoring and guidance by experienced researchers.

The Centre's strengths include:

- expertise in topical and important areas within the social research arena, including
  - Applied Ethics
  - Asia-Pacific Studies
  - Community Services
  - European Studies
  - Family and Social Policy
  - History
  - Gender Studies
  - Sustainability
  - Geography and Environmental Studies
  - Gerontology
  - Human rights
  - Politics
  - Sociology
  - Disability
  - Youth Services
  - Social Capital
• Triple Bottom Line
• Community Engagement

- experience in the use of diverse research approaches, including political, sociological, applied ethics, historical, and social science research approaches
- solid links with the community, industry, business and government organisations that enable the development of collaborative research alliances
- cross-disciplinary linkages at the local, national and international level
- a high publication rate.

The Centre aims to foster:

- a positive research culture that supports postgraduate candidates and staff researchers of an international standard
- solid links with the community, business, government and professional organisations that enable the development of collaborative research alliances and consultancies, working with people to deal with real issues in real time
- cross-disciplinary teams able to work together to offer alternative approaches to solve complex problems
- linkages with other faculties and departments throughout Australia and overseas, as well as within the Queensland University of Technology.

Course Outline
The Bachelor of Arts allows you to design your degree to suit your own interests and career aspirations. You will complete 24 units of study.

* You are REQUIRED to complete:

- A co-major, an approved university minor, or individual electives in another QUT course (up to 8 units)
- A work-based Internship (2 units)

First Year at Caboolture
By including the Caboolture option on your QTAC application you have the opportunity to take the first year of the Bachelor of Arts at QUT's Caboolture campus. It is the same course as at Carseldine campus with the exception that the first year is tailored towards the availability of units offered at that campus. After completing your first year (or 96 credit points), you must then continue with the remainder of the course at the Carseldine campus.

It should be noted that credit/advanced standing will not be granted for Caboolture students - excluding START QUT studies. To receive credit, you must apply for entry to the program offered at Carseldine.

International and Global Studies Multidisciplinary Major
The International and Global Studies multidisciplinary major is an ideal choice if you wish to work in areas that demand knowledge of trends and outcomes in internationalisation, understanding of cultural diversity, skills associated with global literacy. You may choose to concentrate on 'global perspectives' or 'international studies' (Asian studies, European studies or Pacific studies). You may combine this major with language study in Indonesian, French, Japanese, German or Mandarin.

Society and Change Multidisciplinary Major
The Society and Change major provides an multidisciplinary approach to understanding the dynamics of social change with particular emphasis on the environment, change and society, societies in transition, and the individual and society. You will acquire substantive knowledge on social and cultural aspects of change, and will be challenged to take a critical and analytical approach to your study. Many of the units provide case studies of social change, and as a graduate of this major you will be equipped with transferable analytical, research and interpersonal skills that are in demand in policy, research and community work.

Ethics and Human Rights Multidisciplinary Major
The Ethics and Human Rights multidisciplinary major provides you with the opportunity to develop as a socially responsible and responsive practitioner. Dramatic changes in the human condition, such as those already emerging from globalisation and biotechnology, will be a significant feature of life in the twenty-first century. This major will equip you with understandings, skills and strategies that will enable you to address change in ways that promote the well-being of individuals and communities. The major is organised around five themes: ethical understandings and theory, human rights, identity studies, ethics and technology and ethical practice.

Australian Studies Multidisciplinary Major
The Australian Studies multidisciplinary major examines past, present and future Australia from a variety of discipline
and interdisciplinary approaches. Australian studies is a contested, endless conversation and the units reflect the many perspectives which researchers now adopt in trying to understand what 'Australia' is like as a society, a nation, a place and a home to indigenous and non-indigenous citizens. The major will equip you with knowledge about Australians and Australia and its role in the world. In addition, as a graduate you will have the confidence to engage in empirical and theoretical debates about what has happened, and should happen in Australia.

**Community Studies Multidisciplinary Major**

In the Community Studies multidisciplinary major the 'knowledge explosion' is addressed by an open-ended teaching and learning approach to equip you to better understand the communities to which you belong from past, present and future perspectives. As you get to know how communities are structured, you will consider what holds communities together and what undermines them, and consider how communities can be enhanced. The major encompasses the concept of community and a detailed investigation of community processes.

**Minors**

All of the multidisciplinary and discipline majors in the Bachelor of Arts can also be taken as four-unit minors. Note also that all QUT faculties offer agreed sets of units as 'university minors'.

**Deferment**

QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, portfolios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Course Outline
The Bachelor of Human Services has a strong focus on contemporary social issues and produces competent human services workers who will care for and protect the rights of people, families and communities. You will complete 24 units of study.

You will specialise in at least one service area:
- aged services
- child and family services
- corrective services
- disability services
- services to young people

You will develop a range of professional skills such as:
- casework and case management
- social policy processes
- team practice and group processes
- community work
- crisis and conflict resolution
- social research methods
- Indigenous Australia
- child protection intervention

Professional Practice Placements
You will gain hands-on experience in this course through two professional practice placements.

In first semester of your second year you will explore the diversity of practice methods through the Introduction to Practice. You will undertake a total of 140 hours of volunteer placement/s in a human service agency.

Your theoretical and practical studies will culminate in a 36 credit point Advanced Professional Practice placement in second semester of your third year. This placement will generally reflect your specialised service context area. You will develop a learning plan in consultation with your agency supervisor and a university staff member. During this 400-hour supervised placement in a human services agency, you will further develop your assessment and intervention skills and your own practice framework. It may be possible to undertake this 12 week placement with an overseas agency.

These professional practice placements provide many valuable opportunities for networking within the human services industry.

Service Contexts
AGED SERVICES
Aged services units will focus your attention on the historical, social, and cultural scene within which services to older adults operate; aspects of intelligence, memory and learning in relation to ageing; and perspectives of work and retirement. You will investigate the home environment and living with change, relations with family members, and dealing with death and grief. You will explore issues around the health and wellness status of older adults and will investigate the needs of this group of people as they grow older in the Australian environment. Throughout this unit you will develop a critical awareness of practice issues and the impact of ethical considerations.

CHILD AND FAMILY SERVICES
Child and family services units provide you with a firm grounding in theories, practices and processes essential for understanding and intervening in family life. You will be introduced to child and family welfare studies and will focus on approaches to supporting families and promoting change. You will also examine core processes and practice skills associated with interacting with children and parents, assessing family life and encouraging participation in decision making.

CORRECTIVE SERVICES
In corrective services units you will examine contemporary issues and practices in corrective services through empirical data and current corrective services practices. You will explore the function of prisons, prisoner rehabilitation, criminal behaviour trends, capital punishment, juvenile justice, the future of prisons, victims of crime, and restorative justice. You will develop critical-thinking and problem-solving skills as well as strategies to prepare you for employment within corrective services.

DISABILITY SERVICES
Disability services units provide you with a solid foundation for understanding and evaluating the theories, principles, practices and policies underpinning services used by people with disabilities. The aim is to link the social justice, empowerment and human rights issues explored in the more generic units within the degree program to the lives of people with disabilities. You will have the opportunity to
explore and evaluate the range of service models relevant to the lifestyles of people with disabilities. The units focus on the quasi-legal and policy aspects of working in disability service organisations, and address some of the ethical dilemmas inherent in human service provision to people with a disability.

SERVICES TO YOUNG PEOPLE
These units help you understand and identify the various ways youth and adolescence are understood, constructed and portrayed in mainstream media, academic literature and human services. You will critically review the situation of a diverse range of young people and will investigate the knowledge, theory and skills base of a range of contemporary practice arenas, such as juvenile justice and adolescent child protection practice, youth homelessness, youth policy analysis and development.

Professional Membership
Graduates are entitled to apply for membership of the Australian Institute of Welfare and Community Workers.

Deferment
QUT allows current Year 12 school leavers to defer their undergraduate admission offer for one year, or for six months if offered mid-year admission, except in courses using specific admission requirements such as questionnaires, folios, auditions, prior study or work experience.

Non-year 12 students may also request to defer their QTAC offer on the basis of demonstrated special circumstances.

Find out more on deferment.

Working with Children Check
As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a Suitability Card (Blue Card) by the Commission.

As soon as you enter your enrolment program for the course, you must submit your Blue Card application to the QUT Student Centre immediately. You must hold a Blue Card to undertake activities in any unit which involves contact with children, including the required field studies blocks.

If you do not apply for a Blue Card immediately upon enrolment in the course and allow sufficient time for the police check and issuing of the Card, you will be unable to participate in the required activities and may need to be withdrawn from the unit(s) and incur both financial and academic penalty. It may take up to 8 weeks for the Commission to issue the Card. The application form is available at bluecard.qut.com.

Key Features
The Bachelor of Social Science offers a broad range of study options for students in the social sciences and includes opportunities for combinations of Primary majors in diverse areas. Students may undertake up to 12 (out of 24) units outside of the School of Humanities and Human Services.

Primary Majors are available in -

* Applied Ethics
* Geography and Environmental Studies
* International and Global Studies
* Political Studies
* Sociology.

Secondary Majors are available in:

* Asia-Pacific Studies
* History
* Human Services
* Languages (French, German, Indonesian, Japanese, Mandarin)

Career Outcomes
The analytical and research skills acquired by social science graduates open up a range of career opportunities as social science professionals. They may be employed in government departments and agencies and community organisations as policy, information and research officers, policy analysts, or welfare and community workers. Career choices may be governed by the major study disciplines chosen.

Course Requirements
Students are required to complete the first year program as follows:

* HHB116 Applied Skills and Scholarship
* Two Foundation Units
* Two to three Introductory Units
* Two to three Elective Units

Students are REQUIRED to complete (over their entire course):

* 6 Social Science Skills Units
* 1 (7 unit) Primary Major

Students must ENSURE that:

* They maintain a 50% enrolment in the units that are HHB-coded until they have completed eight units;
* That a minimum of 12 of the total of 24 course units must be chosen from units that are HHB-coded.

Students who enter the course with advanced standing should discuss their enrolment with the Course Coordinator.

Part-Time Students - Year 1
During their first year, part-time students normally enrol in four units.

Course Outline

The Bachelor of Social Science allows you to develop a range of social science skills which will equip you to address social issues and problems. You will complete 24 units of study in this course.

* You are REQUIRED to complete:
- One social science major (7 units) from Sociology, Politics and History, Geography and Environment, Indigenous Perspectives and Issues, Human Services and Social Policy
- Social science skills units (6 units). The choice includes interpersonal communication, social research, conflict resolution, team practice, survey methods, social policy processes, intervention methods
* The remaining 11 units of study will consist of your choices from the following options:
- An additional social science major (7 units)
- A social science minor (4 units) from Gender and Sexuality, Peace and Conflict Resolution
- A foreign language (4-6 units) from French, German, Indonesian, Japanese, Mandarin
- A co-major, an approved university minor, or individual electives in another QUT course (up to 8 units)
- A work-based internship (2 units)
- An independent social science project (2 units)

Sociology Major

Sociology is an attempt to grapple with the issues and problems of a world experiencing change. You will study what makes us social beings and why both cooperation and conflict are recurring features of our social relationships. You will gain an understanding of the fundamental institutions of family, school, work and culture, and will be equipped to think intelligently and critically about them. You will acquire the skills of social analysis and policy development which are essential for a wide variety of professional employment.

Geography and Environment Major
